(ii) Village Directory Statement. 420

Appendix—I Police Stationwise Abstract of Amenities 430

Appendix—II Land utilisation data in respect of Non-Municipal Towns. 434

Appendix—III Police Stationwise List of Villages where no amenities are available. 436

Appendix—IV List of Villages according to the proportion of Scheduled Castes and Scheduled Tribes to the total population by ranges. 465

SECTION—II TOWN DIRECTORY

Statement—I Status and growth history 530

Statement—II Physical Aspects and location of Towns, 1979 532

Statement—III Municipal Finance, 1978-79 534

Statement—IV Civic and other amenities 1979 536

Statement—IV A Civic and other amenities in notified Slums 1979 538

Statement—V Medical, Educational, Recreational and cultural Facilities 1979 540

Statement—VI Trade, Commerce, Industry and Banking, 1979 542

Appendix Towns showing their outgrowths with Population. 544

FOREWORD

The district census hand book (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part—A related to village and town directory, Part—B to village and town PCA and Part—C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class—I and Class –II towns (Statement IV—A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of town into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part—A of the volume contains village and town directory and Part—B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Police Station/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The District and Police Station level maps depicting the boundaries and other impotant features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the state under the direction of Shri S. N. Ghosh, I.A.S. the Director of Census operations, West Bengal on behalf of the State Government which has borne the cost of printing. The task of planning, designing, and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar Genaral (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research officer. I am thankful to all who have contributed in this project.

P. PADMANABHA
Registrar General, India

New Delhi
the 26th April, 1982

PREFACE

The District Census Handbook compiled by the Census Directorate, West Bengal, on behalf of the Govt. of West Bengal, containing Census Statistics besides other invaluable data of importance for use by the State Govt., district administration, research scholars and various other data-users owes its origin to 1951 Census. The present publication of 1981 Census is fourth in the series.

The Census of 1981 was conducted in February, 1981 with sunrise of 1st March, 1981 as reference date under the stewardship of Shri S. N. Ghosh, Director of Census Operations, West Bengal. The credit for the success of the operation goes entirely to Shri Ghosh. However, before the report could be finalised, Shri Ghosh had to resume his duties under the Govt. of West Bengal in public interest. The present publication is the product of his dedicated labour, immaculate planning and sterling administrative capabilities. Without the active involvement and inspiring leadership of Shri Ghosh, the present publication would have been a still birth.

The Census Statistics in the form of Village and Town Directory included in the publication relate to the district of West Dinajpur. A brief analytical note with a number of inset tables based on Census data, included in this publication, will hopefully meet the requirements of the readers. As mentioned earlier, the 1981 Census operation in West Bengal was conducted by Shri S. N. Ghosh, as Director of Census Operations under the inspiring captaincy of Shri P. Padmanabha, former Registrar General and ex-officio Census Commissioner of India whose imaginative planning, enthusiastic support and electrifying guidance led us to successful completion of an undoubtedly difficult operation. We silently recall the contribution of Shri Padmanabha.

Shri V. S. Verma, the present Registrar General, India has been guiding us soon after his assumption of office in 1983 to oversee the timely completion of the project. Without his active support, deep understanding and mature guidance, the publication would not have progressed much. We are grateful to Shri Verma.

We gratefully recall the help, guidance and advice received from Shri V. P. Pandey, Joint Registrar General, India in technical and administrative matters relating to this project.

Dr. N. G. Nag, Deputy Registrar General (Social Studies) and his colleagues has provided us technical guidance and scholarly assistances right from the start of the project. We acknowledge our debt to him and his colleagues.

We are also indebted to Shri K. K. Chakraborty former Deputy Registrar General (C & T) and Shri N. Rama Rao, Asstt. Registrar General, for their helpful suggestions. Dr. B. K. Roy, Deputy Registrar General (Map) had provided us excellent support and guidance in cartographic matters. We are indebted to him.

The data presented in the volume were collected at grass-root level by the District Magistrate, West Dinajpur (Principal Census Officer) and his innumerable colleagues including the Charge Superintendents. We acknowledge their contributions to the preparations of this volume.

The final tabulation and compilation of date have been done by the Central Tabulation Unit of this office under the supervision of Sri S. K. Guha, Investigator, first under the guidance and supervision of Shri M. N. Sarkar, Asstt. Director of Census Operation, (since retired) and later under Shri A. K. Dutta, Deputy Director of Census Operations, West Bengal. Without their sincere efforts the data could not have been finalised. The analytical note was prepared by Shri S. K. Guha, Investigator and scrutinised, edited and finalised by Shri A. K. Dutta, Deputy Director of Census Operations, West Bengal. The publication is a silent testimony to their labour and love.

The printing work was supervised very efficiently by Shri S. K. Guha, Investigator, under the able guidance of Sri A. K. Dutta, Deputy Director without whose direct involvement the publication could not have seen the light of the day. We recall Shri Datta's effective contribution with admiration.

There were also officials who had contributed to the project from behind the curtain. Among the officials of the State Government who had helped us in various stages of the publication are Shri K. J. Basu Roy Chaudhury, WBCS and Shri B. Bhattacharyya, WBCS, both Deputy Secretaries to the Govt. of West Bengal Home (C & E) Department, Writers' Buildings, Calcutta and their colleagues to whom we pay our tribute. Mention should also be made of the Controller of Stationery, Govt. of West Bengal, for kindly providing us the necessary printing materials.

Lastly, we must express our appreciation Printed By AparajitaPrint House, 91-A Baitakkhana Road Calcutta-700 009 for the printing of this Publication.

Sukumar Sinha

ANALYTICAL NOTE

ANALYTICAL NOTE

It has been the tradition of the Indian Census to present the census data under the two broad divisions termed urban and rural.

The definition of an urban unit at the 1981 Census is as follows :

(a) All places with a Corporation, Municipality, Town Committee, Notified Area, Cantonment.

(b) All other places which satisfied the following criteria :

(i) A population of 5,000 as the minimum,

(ii) Density per square kilometre would be a minimum of 400, and

(iii) At least 75% of the male working force should be engaged in non-agricultural pursuits.

Apart from town/city the 1971 concept of urban agglomeration is also adopted for the 1981 Census. An urban agglomeration means a stretch of urban area covering more than one municipality/town/urban outgrowth within a geographically contiguous urban continuum. An urban agglomeration shows how a particular area has had geographically continuous urbanisation.

Mention may be made in this connection of urban outgrowths. The concept of urban outgrowth has come into force for the first time in 1981 Census. The outgrowth, which must necessarily be contiguous to an urban area, is itself an urban area in so far as it fulfills the last two criteria of being an urban unit, but it falls short on the population front, *i. e.* it would have a population of less than 5,000 but more than 600.

All other areas which are not covered by the definition of urban as stated above will be treated as Rural.

Census House :

We defined the Census house in the following manner : "A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both". Actually to make the concept understandable and applicable in field we had to introduce the concept of singleness of use. What, as per the above definition, would be a census house otherwise might not be so if there is no singleness of use.

Household :

We defined household as follows : "The household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or household of unrelated persons or having a mix of both".

Scheduled Castes/Scheduled Tribes :

We have our own list of scheduled castes and scheduled tribes notified for our state only. If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by a synonym or generic name of

a caste or a tribe, the information was noted if it found place in the notified list. All efforts were given to ascertain the correct name of the scheduled caste or tribe as found in the notified list. For a household belonging to scheduled castes or scheduled tribes, religion of the head of household was also examined. Scheduled caste population are found only among the Population belonging to Hindu and Sikh religions but the scheduled tribe population may belong to any religion.

Literates :

In the census terminology, a person who can both read and write with understanding in any language is to be taken as literate. A man who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum education standard. All the children of the age of four years or less were treated as illiterate even if the child was attending a school or might have picked up reading and writing.

Careful attention was also given while collecting information on educational atainment of individuals. The highest education level attained by the person enumerated was recorded. This information is vital for manpower planning.

Main Workers :

The definition of worker difference between 1971 and 1981 and the system of dividing the entire population by application of the concept of worker has also undergone a very important change. Earlier in 1961 and then in 1971 the total population was divided into two categories mutually exclusive of each other They were workers and non-workers respectively. But in 1981, this dichotomy has been replaced by a trichotomy with three categories mutually exclusive of each other, viz. main workers, marginal worker and non-workers.

The 1961 Census definition of worker was as follows:

"The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you (Enumerator) visited the "Household". In 1971, the following definition was applied : "A worker is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work. The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had any such regular work on any one of the days during this reference period and this has been returned as his main activity the person will be categorised accordingly..... ...There are certain types of work which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry etc. A person's main activity should be ascertained with reference to such work in last one year even if he was not economically active in the week prior to enumeration".

Further, those who did not do any work in the manner described above, yet did some work to come under the category of secondary worker. As per 1971 definition, it was to cover "cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation, or in household industry, or in looking after the cattle, in attending to family business etc., but not to the extent as a full time work. Such participation will be considered as secondary work of those persons.....participation of work that goes to augment the income of the household will only be treated as economic activity".

In 1981 Census any one who has done any work at all during the last one year is a worker. The definition of work as participation in any economically productive activity either in physical or mental way remain more or less the same as in 1971. But this time the population has been classified into three main groups, each mutually exclusive of the others. The main workers are those who have worked major part of the year preceding the enumeration. In other words, the main worker is somebody who has done economically productive work for at least 183 days during the year preceding enumeration. All workers have been categorised in four distinct parts viz. (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industries and (iv) Other Workers in 1981 Census. This is a major departure from the 1971 categories of workers. In 1971 Census the workers were divided in nine categories.

Marginal Workers :

The marginal workers are those who have worked any time at all in the year precding enumeration but have not worked for a major part of the year. In other words, marginal workers are those who participated in economically productive work for less than 183 days during the year precding Enumeration.

Non-Workers :

.Non-workers are those who have not done any economically productive work at all during the last one year All non-workers have been divided into seven categories in 1981 Census. They are (i) Students, (ii) Household duties, (iii) Rentiers/Retired persons, (iv) Beggers etc., (v) Inmates of Institutions, (vi) Dependents and (vii) Others.

District Census Handbook :

The District Census Handbook was started printing from 1951 census. The Government and the Development agencies felt necessity of the data at micro-level for the social and economic development all over the country during the post independence era. Until then, the compilation of data was limited to ditsrict, police station and town levels only. In 1951, it was extended to the mouza level.

The publication programme of district census handbook of 1951 continued undisturbed in 1961 also and it was enlarged with the introduction of official statistics.

The major changes in the District Census Handbook publication were introduced in 1971. The District Census Handbook 1971 was divided into three parts viz. Part XA, Part XB and Part XC. The first part dealt with village and town directories. In Village Directory the villagewise data on amenities available was given and information in respect of each town was given in the Town Directory. The Part XB consists of Village and Town wise (Ward wise for municipalities, town committes, and all statutory towns) Primary Census Abstract of the concerned district.

The third part i. e Part XC dealt with the non-census data and social, economic and cultural tables. All the three parts were printed either in two valumes i. e. Part XA & XB and part XC or in three valumes part XA, part XB and part XC separately according to size of the districts.

The scope of District Census Handbook 1981 has been enlarged considerably specially in relation to the amenities available in the villages and towns and landuse pattern in villages and non-municipal towns The collection of data on recognised slums of Class I and Class II towns of the state is a new addition of 1981 in the Town Directory portion of the District Census Handbook. The format of the primary census abstract have been restructured due to the change of economic questions. The data on marginal workers collected through the canvassing of individual slips is an important addition. Workers have been categorised in four sectors instead of nine in 1971.

Scope of Village Directory :

A twenty column format was canvassed during 1981 census period for collection of data from each and every mouza within each police station. This is called village directory. The mouzas within a police station have been represented in order of their location codes. This twenty column format has been divided in four parts. The column nos. 1-4 represent general information, column nos. 5-14 represent amenities available, column nos. 15 to 19 are meant for landuse pattern and the column 20 contains special information in respect of historical, archaeological and religious interest about the mouza. At the end of each police station, the totalling has been done for column nos. 3 to 6 and 15 to 19. If any amenity is not available in the village a dash (—) has been marked in the relevant column and next to it the distance of the nearest place where the facility is available has been given in the broad ranges.

The following systems were followed for indicating educational institutions, if any, located within the villages. The abreviations used for the educational institutions are also given below :—

1. Primary or Elementary School (P)
   All nursery, kindergarten, pre-basic, pre-primary, Junior Basic School upto Class V and Primary School upto Class IV have been included in this group.
2. Junior Secondary or Middle School (M)
   All schools from Class V to Class VIII including Junior Madrasa upto Class VIII have been noted in this group.

3. Secondary School (H)
   All schools upto Class X including the schools providing Senior Cambridge Course and High Madrasa upto Class X have been treated as high school.

4. Higher Secondary School (PUC)
   All educational institutions where the education is imparted for Class XI and XII have been marked for this group.

While collecting the data according to the pattern as stated above certain limitations were imposed. We have considered only those institutions which are recognised by any competent authority and the specific classes of a school upto which recognition has been given. In case of composite schools like secondary schools with middle classes and primary classes or middle schools with primary classes, the relevant groups of classes have been treated separately. e. g., a composite school having classes upto XII (Twelve) has been divided as follows :—

Classes from	I	to	IV	...	(P)
"	V	to	VIII	...	(M)
"	IX	to	X	...	(H)
"	XI	to	XII	...	(PUC)

It is to be noted that by dint of the above kind of division, we are not going by how many educationa institutions physically exist within a village, but by occupying of classes each group being treated as a school of its kind. It is also to be noted that the said groupings will hold true irrespective of the educational institution they belong to. For example, the grouping marked as PUC i. e. Class XI and Class XII may physically belong to a college, but for the purpose of the Village Directory, these two classes taken together has constituted one unit of PUC., the rest of the classes has been treated as a college.

5. College (C)
   Any college with the disciplines of Arts, Science and Commerce have been grouped here.

6. Industrial School (I)

7. Training School (Tr)

8. Adult literacy Class/Centre (AC)

9. Other Educational Institutions (O)
   (Sanskrit tole, senior basic school, Makhtab etc. have been noted as others).

It is needless to mention once again that in sl. no. 5 to 9 the institutions having recognition from any competent authority have been taken into account.

In case of more than one institution of a type in the village, the number of institutions have been indicated

in brackets. If any of the educational institutions as stated above is located in a village, the existence of other types of educational institutions located in nearest village (S) have not been collected. Suppose, a primary school is functioning in the village, but there is no middle or high school in the village und reference, in this case we have not indicated the distance of the nearest place where a middle school for high school exists. Similarly, if there is a high school only in a particular village, no efforts are given or collecting distance of a nearest place where a primary or middle school exists. The distance by range of nearest place where educational facility is available have been collected from villages having no facility of any of the above mentioned nine categories of educational institutions.

In the medical fields there are a variety of amenities. These are indicated with abbreviations whether within the village exists any of the following medical institutions :—

Hospital	. .	H
Maternity Home	. .	MH
Child Welfare Centre	. .	CWC
Health Centre	. .	HC
Primary Health Centre	. .	PHC
Primary Health Sub-centre	. .	PHS
Dispensary	. .	D
Family Planning Centre	. .	FPC
TB Clinic	. .	TB
Registered Private Practitioner	. .	RP
Community Health Worker	. .	CHW
Others	. .	O

The information have been colleeted in respect of those institutions only which are organised and/or aided by Government/Semi-Government/Public bodies/Local bodies/Social Service Agencies like the missioneries. The institutions run by private individuals have not been covered. But the information on Registered Private Practitioners of any branch have been noted. If there are more than one facility in the village, the, same have been indicated in a ppropriate abbreviation. In case of more institutions of a type in the villages the number of institutions have been indicated against the abbreviations in bracket. Where no amenity is available within the village, a dash (—) has been shown in relevant column and any of the facilities as given above available in a nearest place have been noted showing the distance in broad ranges.

The sources of drinking water available within the village have been indicated by codes as follows :—

Tap	. .	T	Fountatin	. .	F
Well	. .	W	Canal	. .	C
Tank	. .	TK	Lake	. .	L
Tubewell	. .	TW	Spring	. .	S

Hand Pump	HP	Nallah . .	N
River water	R	Others . .	O

If there are more than one source of drinking water in the village, the same have been indicated in appropriate abbreviations in the relevant column. In absence of any source of drinking water in the village, a dash has been given in the relevant column and next to it the distance in broad ranges of the nearest place where any of the aforesaid facilities is available has been given.

The Post & Telegraph amenities available within the village have been collected by codes as given below.

The Post Office includes Branch and Sub Post Offices also. The villages having no facilities in respect of Post & Telegraph, have been marked by dash (—) in the relevant column and next to it the distance in broad ranges of the nearest place where any of the facilities as given below is available has been noted.

Post Office	. .	PO
Telegraph Office	. .	TO
Post & Telegraph Office	. .	PTO
Telephone connection	. .	Phone

The information on hat, market have been collected for each village. The day(s) of the week on which market/hat is held have been taken into account. Where the market/hat is held daily in a village, it has been recorded as "daily'. In absence of hat/market in the village, the distance in broad ranges of the nearest place have been shown where it is held.

It has been looked whether the village is served by any mode of public transport like bus, rail and waterways and the abbreviations adopted for this purpose are given below :—

Bus	. .	BS
Railway Station	. .	RS
Navigable waterways (including river, canal etc.)	. .	NW

It there is more than one facility in the village, these have been indicated separately by individual codes as given above. If no facility is available within the village, a dash is shown in the column and next to it in brackets, the distance in broad ranges of the nearest place where the facility is available is given.

Approach to the village refers to the state of roads leading to the village from the communication centre. The approach to village have been indicated by following abbreviations :—

Pucca Road	. .	PR
Kuccha Road	. .	KR
Navigable River	. .	NR
Navigable Canal	. .	NC
Navigable Waterway (other than river or canal)		NW

If there is more than one approach to a viliage, the same has been given by appropriate codes in the relevant column.

The name of the nearest town and its distance in kilometers from the village has been collected. The nearest town so indicated may not be located within the state of West Bengal, this may be located in the neighbouring state also. The operational conveniences have only been taken into consideration while collecting this information. Only those towns have been considered, which have been declared urban according to 1981 Census.

The facilities of power supply have been collected from the village where it is available in the following codes :—

Electricity for Domestic consumption	ED
Electricity for Agricultural consumption	E. Ag.
Electricity for other purposes like industrial, commercial etc.	EO
Electricity for all purposes listed above	EA

Where the power is consumed for more then one purpose, this has been indicated accordingly.

The staple food, only in terms of grains, consumed by the majority population of the village during the major portion of the year have been recorded. The grains may be rice, wheat, jawar, maize etc. Sometimes a combination of these grains have been consumed by the villagers as the staple food. In that case, it has been indicated as reported.

The landuse pattern of the village has been presented in five broad categories. These are as follows :—

1. Forest : –This includes all lands classed as forests under any legal enactment dealing with forests. This may be owned by the state or by any private individual. Land maintained as potential forest land have also been treated as forests. Any area used for any other purpose but situated within the forest so defined, is treated as 'forest'.

2. Irrigated land :—It relates to the land which has actually been irrigated under different types of irrigation for the purpose of cultivation. The sourcewise break-up of area in hectares under different systems of irrigation has been given. The codes in respect of sources have been noted as under :—

Government Canal	. .	GC
Private Canal	. .	PC
Well (without electricity)	. .	W
Well (with electricity)	. .	WE
Tube well (without electricity)	. .	TW
Tubewell (with electricity)	. .	TWE
Tank	. .	TK

Lake	. .	L
River	. .	R
Waterfall	. .	WF
Others	. .	O

3. Unirrigated land :—All areas under rainfall crops or under dry rice cultivation have been classified as unirrigated areas.

4. Culturable Waste :—It is defined as the lands within cultivated holds have not been cultivated during the current year and last five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles. Land under thatching grasses, bamboo/ bushes and other groves for fuels etc., which are not included under orchards or forests and land grazing, meadows have also been included in this category.

5. Area not available for cultivation :—This stands for barren, uncultivable land and land put to non-agricultural use. Barren and unculturable lands cover land within cultivable holdings which cannot be brought under cultivation without incurring a high cost. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water, e.g. rivers and canals etc.

Any important place of religious, historical and archaeological interest within the village have also been mentioned in the village directory. Information on the number of copies of newspapers coming in the village, and motor cycles / scooters / cars / Jeeps and tractors available in the village have been mentioned accordingly and denoted the following codes :—

Newspapers	. .	N
Motor cycles/scooters	. .	M
Cars/Jeeps	. .	C
Tractors	. .	T

In addition to the information that have been collected through Block Development Office, the following four appendices to the Village Directory have also been compiled :

I. Police Stationwise abstract of educational, medical and other amenities,
II. Land utilisation data in respect of non-municipal (non-statutory) Census Towns,
III. Police Stationwise list of villages where no amenities are available.
IV. Police Stationwise list of villages according to the proportion of scheduled castes/scheduled tribes population by ranges.

The first two appendices have been provided for obtaining actual position regarding various amenities available in the police station and as well in the district and the land utilisation pattern in the non-municipal

census towns which have been treated urban by virtue of the criteria prescribed for urban units. Appendix III has been devised for planning input in areas where basic infrastructure is lacking. Appendix IV has been prepared for the purpose of planning of welfare programmes for scheduled castes and scheduled tribes at micro-level, particularly in relation to the area development oriented programmes.

Scope of Town Directory :

The Town Directory has been prepared for all the statutory towns like, Municipal Corporation (MC), Municipalities (M), Notified Areas (NA), Town Committees (TC) and Cantonment areas as well as the non statutory census towns (NM) including the outgrowths. The particulars about each town have been presented in seven statements each dealing with a particular set of information. The information so collected in the seven statements is independent of each other. The statement IV A is a new addition in town directory statements. It covers the information regarding demographic, civic and other amenities available in the notified or recognised slums having a population of 50,000 or more. The towns having outgrowths have been identified with the asterisk mark (*) and information available on outgrowths for each statement have been included with the information of core town. In some cases we have failed to give information as detailed in the statements. In that case information not available (NA) has been quoted in the respective column.

The population of each town during 1981 Census has been considered for determining the class of towns. All the towns have been divided into six classes according to the range of population. They are as follows :

1.	Population one lakh and above . .	Class I
2.	Population from 50,000 to 99,999 . .	" II
3.	Population from 20,000 to 49,999 . .	" III
4.	Population from 10,000 to 19,999 . .	" IV
5.	Population from 5,000 to 9,999 . .	" V
6.	Population less than 5,000 . .	" VI

A brief discussion on seven statements is given below :

Statement I

This statement provides some basic data based on the primary census Abstract. It deals with the status and growth history of the town. The column nos. 1 to 5 give information on class, civic status, name of the town and its location code with the police station the town belongs to. The area of the town in square kilometer has also been given. The column nos. 6 to 19 give demographic information of the town. Where the town did not have any urban status for the reference year (s), a 'dash' (—) has been given under these column(s). The decadal growth in percentage has been shown below the population figures from column nos. 8 to 15. The status of the statutory towns has been fixed as on April 1980.

Statement II

The statement deals with the physical aspects and location of the town as on April 1980. This statement is divided into two. First dealing with the climatological data which include rainfall and maximum-minimum temperature. The information on climatological aspects are not available in respect of some of the towns. In that case the information noted from the nearest place where it is available. This alternative however, could not be followed uniformly due to the fact that the data are not available for the nearest place even. In such cases the information not available (NA) has been stated. In the second part i. e. in column nos. 6 to 12 the locational particulars have been stated for the referrent town.

Statement III

Data on municipal finances for the year 1978-79 have been presented relating to the civic administration of the statutory bodies. The information in respect of the non-municipal census towns have also been collected wherever available and have been shown in the statement. The information on finances have been collected from the concerned local body. In case of non-municipal census towns, the information has been collected from the panchayat. The non-municipal census town having no information has been marked with information not available (N. A.).

Statement IV

This statement contains 19 columns. The column nos. 1 to 5 provide general information of the town and the column nos. 6 to 19 deal with the amenities having in the referrent town. Where the town is not served by the fire fighting services of its own, the name of the nearest place from where the referrent town gets services has been given. In absence of any of the public amenities as referred to in col. 6 to 19 the relevant column has been depicted suitably like dash (—) which means amenities not available and information not available (NA) respectively.

Statement IV A

Information about notified or recognised slums have been given in this statement. The information is limited to the slums located in class I and class II towns only. The civic and other amenities that are being available to the slum-dwellers have been given in this statement. In case of more than one slum in a town, it has been spelt-out separately and the information have been submitted separately for each slum.

Statement V

This statement deals with the medical, educational, recreational and cultural fecilities existed in the town as on 1979. If there is more than one institution of any type, it has been indicated within bracket in number. In case of medical institutions, the institutions run by the private doctors have not been taken into account. The institutions run by or aided by Government, Semi-Government, Local Bodies, Charitable Institutions, Social Service Agencies like Missionaries etc. have been counted. Where these facilities were not available, the

distance of the nearest place where these facilities are available has been noted. The Family Planning Centres attached to hospitals or Maternity and Child Welfare Centres or Primary Health Centres have been treated as separate units. The Maternity and Child Welfare Centres, Venereal Disease Clinic, Chest Clinic and Leprosy Clinic etc. have been treated as independent institutions and indicated in "Others" category of medical institutions.

While presenting the data on educational institutions, the same procedure as in village directory has been followed in respect of the school and college education. The column 6 includes educational institution like Teachers' Training Collage, Basic Training College etc. The information on short hand, typewriting and other vocational training institutions have been given in column 10. In this case only the recognised institutions have been considered. The "rocognised" means recognised by any statutory authority— like the education department, commerce department, labour department etc. of the Government or Semi-Government or autonomous bodies, Public sector projects like municipality, corporation etc.

The vocational institutions like Music/Dancing School, Art College, Painting/Clay-modelling institutions etc. have been covered under column 10. The Institutions which are not included in cols. 6 to 14 have been taken in col. no. 15 under 'Others'. The columns 17—20 deal with the recreational and cultural facilities of the town.

Statement VI

This statement contains particulars of Trade, Commerce and Industry of the town. It also depicts information on Banking institutions like Banks, Agricultural Credit Societies and non-agricultural credit societies.

The details of abbreviations used in different statements of Town Directory are given below :—

Brief history of the district.

The district of West Dinajpur is a product of the partition of Bengal, in August 1947. But since then the district has undergone several significant changes in its geographic limits. The district was formed with that portion of the Old Dinajpur District of undivided Bengal which fell to the western side of the boundary after the partition of Bengal. The district had a glorious past. The archaeological remains of the district still carry the imprints of the past. Tradition says that the Pandovas moved to this part of the country and on their journey towards the north they kept their weapons inside the trunk of a big tree in a village named Panchbhaya and killed the demons in the village Asuragar and Vimbhar. Karandighi was named after the name of King Karna. The district flourished during the Mourya period, Gupta Age and during the rule of the Pala Kings and even during the muslim rule.

Physical Aspects

The district lies between the parallels 25°10′55″ and 26°35′15″ north latitude and 87°48′37″ and 89°0′30″ east longitude. The district is of irregular shape. The chief town of the district Balurghat is situated almost at the south-east coner of the district on the left bank of Atrai river. The subdivisional headquarters Islampur is located about 156 kilometers away from the district headquarters Balurghat. The maximum breadth of the district from east to west at the southern portion is approximately 64 kms. and the minimum breadth east-west on that the northern portion part is 13 Kms.

The district with an area of 5358 sq. kilometers is bounded on the north-west by the district Darjiling. on the north and north-east by Bangala Desh, the south and south-east of the district are also bounded by Bangala Desh, the district Maldah lies on the south-west portion of the district and on the west of the district, there lies the Purnea district of Bihar.

The district appears to be flat generally, but it has a general slope from north to south. This is evident from the course of the main rivers flowing from north to south. The beds of the rivers are as a general rule well below the ground level. The channels of the rivers are well marked and are almost static. The main rivers of the district are the Nagar, Punarbhaba, Mahananda, Tangan and Atrai.

Major characteristics of the district.

The forests occupying an area of 18 sq. kilometers only which constitutes 0.34% of the total area of the district. There is no minerals and mining in the district. The district derives its power from the West Bengal State Electricity Board. All the 8 towns of the district have the benefits of electricity. In the rural areas out of 3036 inhabited villages of the district, only 303 villages constituting 9.98 percent have the privilege of electricity. The district has no hydro-electric power station.

The classification of landuse area in West Dinajpur as on 1976-77 is given below :—

i)	Net cropped area	—	462.92	thousand hectares
ii)	Land put to non-agricultural uses	—	44.18	,, ,,
iii)	Barren and unculturable waste	—	1.12	,, ,,
iv)	Miscellaneous tree crops and groves	—	6.07	,, ,,
v)	Culturable waste	—	12.92	,, ,,
vi)	Other fallow land (other than current fallow)	—	1.91	,, ,,
vii)	Current fallow	—	3.24	,, ,,
viii)	Permanent pasture and grazing land	—	0.36	,, ,,

The district is predominantly an agricultural area. 81.50 percent of the total working population of the district are engaged either as cultivators or agricultural labourers. As per date of 1976-77, the total area under production of foodgrains was 600.0 thousand hectares. Rice was cultivated in 472.6 thousand hectares and wheat in 68.0 thousand hectares. The fibres mainly jute and masta were cultivated in 61.8 and 9.8 thousand hectares respectively. The total foodgrains produced during the period under reference were 605.2 thousand tonnes, of which cereals being 579.9 thousand tonnes. Of the cereals, again rice and wheat were produced 451.3 and 122·8 thousand tonnes respectively. The fibres produced during 1976-77 were 334.9 thousand bales (180 kgs. in each thousand bales) of which jute being 287.9 thousand bales and masta 46.9 thousand bales.

The yields per hectare of land during the year 1976-77 were 955 kgs. for rice while 1805 kgs. for wheat.

The irrigation facilities in the district are far from satisfactory. Except some minor irrigation schemes which cover but a portion of the cultivable area, the cultivators are mostly dependent on rainfall and on tanks. As per date of 1977, there were 116 exploratory deep tubewells, 275 River Lift Irrigation Systems and 200

Shallow Tubewells in the district for cultivation purposes. It is to be noted that only 8.59 percent of the total cultivable area of the district is irrigated as per villagewise landuse data of 1981 Census.

West Dinajpur is mainly an agricultural district. It is also one of the most backward district in the state so far industrialisation is concerned. There were only 27 Registered working factories in West Dinajpur in 1977, of which 24 were rice mills (by power machine). The number of Small Scale Industrial units registered with the Directorate of Cottage & Small Scale Industries in West Bengal in the year 1977 were 1823. According to the house census held in August-September 1980, exclusively 4410 census houses in West Dinajpur were occupied by factories, workshops and worksheds. Workshops-cum-residence including household industry covered 6245 census houses.

The district being agricultural, imports and exports are mainly confined to agricultural produces. The district is a.chief exporter of rice. Jute, dried chillies, onions, molasses and tobacco are also exported in varying quantities. About the imports in the district Pulses, Sugar Mustard oil and Mustard cake figure prominently.

The disrtict is fairly well-served by roads but deficient in rail communication. The goods and passenger traffic originating from Raiganj and Islampur subdivisions can proceed to the other parts of the state by rail, but this facility has yet to be extended to the Balurghat subdivision. All the exports and imports of this subdivision are carried on by road transport. The district carries 48 kilometers of National Highway viz. the portions of National Highway 31 and 34 and 119 kilometers of State Highway. In the district, the Public Works and Public Works (Roads) Departments maintained 853 kilometers Extra Municipal roads in 1977, of which, 818 kilometers were surfaced. The extra Municipal roads maintained by the Zilla Parishad were 1008.01 kilometers in the year under reference. The total road length under the municipalities of the district worked out of 125.41 kilometers in 1977.

Places of religious, historical or archaeological and tourist interest.

There is an old temple in the village Baje Bindol, in Raiganj police station. It is said that the temple has been built in Pala period.

The ruins of Bangarh have been found on the eaotern bank of the river Punarbhava in mouza Rajibpur in the police station Gangarampur. Bangarh is supposed to have been the site of the capital of Ban Raja of legendary fame. It is said that the battle between Ban Raja and Krishna was fought here consequent on the abduction of Ban Raja's daughter Usha by Krishna's grand son Aniruddha It is said that Ban Raja was defeated in that battle.

Bangarh also marks the site of the historical city of Devkot or Kotivarsha. The ruins were systematically excavated and the oldest relics found at Bangarh date back to the Mourya or early Sunga period.

The mouza Kardaha in Tapan police station on the bank of the river Punarbhaba is the place where Lord

Krishna it is said celebrated the victory by burning nine hundred ninetyeight arms of Ban Raja. This village is also credited with eighteeen century brick temple of the Dinajpur Raj.

There is a tomb in the mouza Narayanpur in Gangarampur police station. It is believed that the tomb is of Bakhtiar Khilji.

The Panchanagar village in Kushmandi police station contains ruins which may be related to the Hindu period.

A tank named Tapandighi is situated in the police staton Tapan. According to the local tradition, this tank is supposed to have been dug out by Ban Raja who used to perform Tarpan with the water of this tank, and hence the name Tapandighi. Historically, the excavation of the tank is assigned to the pala-sena period. A copper-plate inscription of Lakshman Sena was found here (dated about 1181 A.D.).

Analysis of Data

It is a census tradition to analyse certain data on social and demographic information collected during census enumeration and from ancillary projects like Town Directory and Village Directory. The District Census Handbook 1951 and 1961 were decorated with such analysis which were most attractive to the scholars. The District Census Handbook 1981 follows the same manner as in 1951, 1961. A large number of inset tables has been prepared on Town Directory, Village Directory and Primary census Abstract to make the analysis more scientific and acceptable.

Table—1 DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Sl. No.	Name of Police Station	No. of Inhabited Villages	No. (with percentage) of Villages having one or more at the following amenities							
			Education	Medical	Drinking Water	Post and Telegraph	Maket/ Hat	Communi-tion	Approached to Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Chopra	116	81(69·83)	4(3·45)	116(100·00)	13(11·21)	17(14·66)	39(33·62)	26(22·41)	11(9·48)
2	Islampur	100	75(75·00)	2(2·00)	100(100·00)	8(8·00)	27(27·00)	12(12·00)	21(21·00)	1(1·00)

		(61·96)	**(3·66)**	**(99·67)**	**(8·23)**	**(14·59)**	**(13·44)**	**(17·39)**	**(9·95)**

The Table 5 shows the distribution of villages according to different population ranges and amenities available.

Table—6

MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH POLICE STATION

Sl. No.	Name of Police Station	Main Staple food
1	2	3
1	Chopra	Rice
2	Islampur	Rice and Wheat
3	Goalpokhar	Rice and Wheat
4	Chakalia	Rice and Wheat
5	Karandighi	Rice and Wheat
6	Raiganj	Rice
7	Hemtabad	Rice and Wheat
8	Kaliaganj	Rice
9	Kushmandi	Rice
10	Itahar	Rice and Wheat
11	Banshihari	Rice
12	Gangarampur	Rice and Wheat
13	Kumarganj	Rice and Wheat
14	Tapan	Rice and Wheat
15	Balurghat	Rice
16	Hilli	Rice and Wheat

The Table 6 Furnishes the main staple food in terms of grain.

Table—7 DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

Sl. No.	Name of Police Station	No. of Inhabited Villages	Total Area	Percentage of Cultivable area to total area	Percentage of Irrigated area to total cultivable area
1	2	3	4	5	6
1	Chopra	116	43,440·61	71·62	0·03
2	Islampur	100	32,828·05	86·40	0·67
3	Goalpokhar	154	38,169·67	88·17	5·18
4	Chakalia	156	26,385·97	89 88	15·09
5	Karandighi	207	38,135 03	83·33	8·81
