## State Government Publications

25 Volumes of District Census Handbooks in English

25 Volumes of District Census Handbooks in Marathi

Alphabetical List of Villages in Maharashtra

# PREFACE

On the suggestion of the Census Commissioner, India, the Government of Maharashtra decided to publish the District Census Handbooks on the basis of the material collected during the 1961 Census for all the districts in Maharashtra. A Committee consisting of the Executive Editor and Secretary of the District Gazetteers (Revision) Editorial Board, the Superintendent of Census Operations, Maharashtra, and the Director, Bureau of Economics and Statistics, Maharashtra, was appointed to determine the contents and review the drafts of each volume. This is one of the twenty-five volumes compiled in the Maharashtra Census Office and published under that scheme.

District Handbooks had been published from the 1951 Census data also. As in the past, the present volume contains a set of 1961 Census Tables for the district and also presents basic demographic and economic information for each village separately. The following improvements have, however, been made in the 1961 series :—

(*i*) The addition of a comprehensive note introducing the district ;

(*ii*) The four-coloured map of the district ;

(*iii*) Taluka maps showing the location of each village in the district supplemented by alphabetical lists of villages ;

(*iv*) Supplementary information showing basic amenities available for each village ; and

(*v*) Addition of Part III containing 33 Tables on other official statistics.

These new features will make the volume a valuable reference for the Central and State Governments, District Administrators, departments engaged in planning and development work, legislators, private trade and business. Need for such material is far greater today as the functions of planning and implementation of development schemes have now percolated to district, taluka and village levels.

Marathi version of this volume is also being issued separately.

Part I of the volume presents villagewise statistics, Part II contains the 1961 Census Tables prepared for the district and Part III contains official statistics on Climate, Rainfall, Agriculture, Industry, Education, Health and a few other aspects. An explanatory note is added at the beginning of each part to describe the layout of the Tables and the terms or concepts used. Parts I and II are based entirely on the data collected at the 1961 Census. Part III is based on the material furnished by the District Statistical Officer and the officers of the departments concerned. Villagewise populations shown in Part I are valid for Sunrise of 1st March 1961 and are not adjusted for seasonal migration to or from other areas.

The introductory note at the beginning of the volume describes the present administrative set-up and some of the socio-economic facets of life in the district. It will illustrate how the statistics presented in the volume could be used for economic accounting or as controls of plan achievements in the district. For this note, we have drawn heavily on the District Gazetteers, Survey and Settlement

Reports, Annual Administration Reports and other Government publications. Some Heads of Departments also supplied the latest available material for the volume. We are indebted to them all.

Any views expressed in the introductory note or elsewhere in the volume are personal and the Government is not responsible for them.

In the Census Office, every one has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I should specially mention Shri N. Y. Gore, Tabulation Officer, for his sincere and thorough work on compilation and proof reading of Part I, Shri G. S. Gokarn, Tabulation Officer, for his painstaking work on MSS and proofs of Parts II and III, Shri S. K. Deshpande, Shri D. G. Pansare and Shri R. E. Chowdhary for assistance in preparing the introductory note, Shri S. Y. Pradhan and Shri B. M. Nagarkar, Draughtsmen, for Maps, Charts and Diagrams. Shri K. H. Shevade of our office looked after the layout of the Tables and printing of the volume. Shri R. G. Phadke and Shri D. V. Rangnekar, Deputy Superintendents of Census Operations, and Shri G. M. Rajadhyaksha, Tabulation Officer, made valuable contributions at all stages and specially in the preparation of notes. Acknowledgments are due to the Manager, Government Central Press, Bombay, and Shri J. D. Gandhi, Manager, Government Photozincographic Press, Poona. In spite of heavy pressure of work on their presses they did their best to print this volume speedily.

I am obliged to Shri Asok Mitra, I.C.S., Census Commissioner, India, for valuable suggestions for improving this volume. I am also indebted to Shri Setu Madhava Rao and Shri M. A. Telang, Members of the District Census Handbook Committee, who not only supplied useful material from their departments but also read through the MSS and encouraged us through this venture.

B. A. KULKARNI

# INTRODUCING THE DISTRICT

## PHYSICAL FEATURES

The district is situated in the Godavari river basin. Godavari itself drains the southern portion of the district forming a fertile valley in the talukas of Pathri, Parbhani and Gangakhed. Jintur and Basmath talukas are drained by Purna which is a tributary of Godavari and Dudna which is a tributary of Purna.

The district lies between 18° 57′ and 20° 2′ N. latitude and 76° 7′ and 77° 29′ E. longitude. It is surrounded by Buldhana, Akola and Yeotmal districts in the north, Nanded district in the east, Bhir and Osmanabad districts in the south and Aurangabad district towards the west.

The area of the district is 4,846·7 square miles and its population in 1961 is 1,206,236. In terms of area and population the district forms 4·10 per cent and 3·05 per cent of the State, respectively. The Figures facing this page show the position of the district in the State.

### Hill Ranges

There is only one main system of hills and that is the Ajanta hills. These hills run through Kalamnuri, Hingoli, Jintur and Partur talukas and form a plateau in the north. The elevation of this area is 1,500 to 1,800 ft. above sea-level. The plateau slopes gradually towards the south to terminate in the valley of Dudna.

Low Balaghat ranges cross through the south of Gangakhed taluka.

### Important Rivers

The most important rivers of the district are the Godavari, the Penganga, the Purna and the Dudna. The Godavari enters the district from the west and after running a distance of about 112 miles through Pathri and Gangakhed talukas, enters the adjoining district of Nanded. The Penganga flows along the northern border of the district.

The Purna which rises in the hills of Aurangabad district, enters the district from the north-west corner and flows first in a south-easterly direction for about 35 miles and then to the south. It falls into the Godavari about 15 miles upstream from Nanded. The Dudna runs across the district for about 50 miles from west to east and joins the Purna.

The other important streams are Kayadhu, Kapra, Paingalgora, Indrayani, Asna and Machalinala.

### Climate

Monthly temperature records are available only for one station at Parbhani (Table 1 in Part III).

The rainy season starts from June and lasts up to the end of September. It is followed by cool dry season from October to February and hot dry season from March to May.

Within the district, the seasons show local variations. The northern portion on the plateau is much healthier than the southern plains. It has cooler winters and is not as damp during the rainy season as the southern portion is.

### Rainfall

Table 2 in Part III shows figures of monthly rainfall and number of rainy days for ten years 1951 to 1960.

Rainfall is not uniform in all parts of the district. The average rainfall gradually increases as we go from west to east. Those talukas which lie in the east receive on an average 900 mm. of rainfall annually while the talukas in the west, *viz.*, Partur and Pathri get less than 900 mm. The rains start about the first week of June and last till the end of September. The district gets the bulk of the rainfall from the south-west monsoon. From about mid-October to Decem' er it usually gets 110 mm. to 130 mm. rainfall through the north-east monsoons.

### Dependability of Rainfall and Scarcity areas

Mean rainfall at Parbhani is 826·77 mm. (32·55″). Standard deviation is 255·52 mm. (10·06″). Coefficient of variability is 30·89 per cent. Rainfall reliability is measured by the coefficient of variability. In fact, variability is inverse to reliability. As the coefficient of variability at Parbhani is 30·89 per cent the degree of rainfall reliability can be said to be slightly low.

The Fact-Finding Committee appointed by the Government of Bombay in 1960 has, on the basis of records of rainfall and certain other factors such as soil, crop pattern, etc., reported that the district may be regarded as free from scarcity.

### Soils

The soil of this district is known as ' Black Cotton Soil ' or ' Regur '. It is rich in plant nutrients such as lime, magnesia, iron and alkalies on which cotton and some of the dry crops flourish well. It swells and becomes sticky on wetting by water, while on drying, it contracts and develops numerous cracks. The soil varies greatly in texture and depth. In the hill tracts in the north it is shallow and relatively poor, but in the south it is deep and fairly rich. In the Godavari valley specially along the river banks it is very deep and fertile. Broadly, the district can be divided into three parts. The northern up-ghat areas having light and medium soils are subjected to heavy erosion. The southern half of Gangakhed taluka also has lighter soils. The central parts of the district consisting of Pathri, Parbhani and Basmath talukas and parts of Partur and Jintur talukas have medium and heavy black soils.

### Minerals

The district is devoid of any important mineral wealth. Black basalt and granite are available everywhere, and are used for buildings and road metalling.

### Forests

The area under forests is 122·72 square miles or 2·54 per cent of the total geographical area of the district. Forests are scattered all over the district in small patches. The main concentration is in Jintur, Hingoli and Kalamnuri talukas. The forests contain many valuable trees such as Teak, Dhavda, Salai, Khair, Tiwas, etc.

### Natural Zones

This is one of the few districts in the State which have more or less homogeneous climate, rainfall and other physical features. It is, therefore, difficult to demarcate any clear-cut natural divisions in the district. A broad division may be made on the basis of river valleys as follows :—

(*i*) Penganga basin consisting of Hingoli and Kalamnuri talukas ; and

(*ii*) Purna-Godavari basin consisting of the remaining six talukas in the district.

The former region grows more of wheat, cotton and kharif jowar, while rabi jowar and cotton predominate in the latter.

Wells are the main source of irrigation in the district. Basmath taluka is known for its irrigated garden crops. Two dams have now been constructed at Yeldari and Sidheshwar on the Purna river. Apart from supplying cheap power to the whole district, this project will irrigate the whole of Basmath taluka and change it into a prosperous region.

## ADMINISTRATIVE SET-UP

### Brief History

In 1905, the northern villages of Nanded taluka of Nanded District were added to Kalamnuri taluka. Eight villages from Ambad taluka in Aurangabad District were added to Pathri taluka and in exchange six villages from Pathri were transferred to Ambad taluka.

There were no major changes in the boundaries of the district or its talukas between 1906 and 1948.

Taluka Palam was a part of Nizam's own estate known as " Sarf-e-Khas ". This estate was abolished in 1949 under the Sarf-e-Khas (Merger) Regulation of 1949. More than one-third of the district area consisted of other jagirs. All these jagirs were also abolished in 1949 under the Hyderabad (Abolition of Jagirs) Regulation, 1949, and their villages taken over under direct Government administration.

Consequent upon the integration of Sarf-e-Khas and jagir areas all the taluka boundaries were reconstituted in the year 1950. A new taluka was constituted with headquarters at Gangakhed. It included the erstwhile Sarf-e-Khas area from Palam taluka and villages from two erstwhile jagir talukas of Sonpeth and Gangakhed. Another jagir taluka of Partur was retained as a new taluka in the district. It included most of the erstwhile jagir area and a few villages transferred from Pathri and Jintur talukas.

With the Reorganisation of States in 1956, the district was transferred to Bombay State. It forms a part of Maharashtra since 1st May, 1960.

### Present Set-up

For administrative purposes, the district is at present divided in 8 talukas. The area, number of inhabited villages, number of towns, 1961 population and the position in the district by percentages of area and population for each taluka are given below :—

| District/Taluka | Name of Head-quarters | Area in square miles | No. of inhabited villages | No. of towns | 1961 Population | Percentage of area | Percentage of population |
|---|---|---|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) |

**General Administration and Revenue**

The Collector is in charge of general administration, law and order, treasury, land revenue and civil supplies. He is assisted by a Resident Deputy Collector in his office and two Deputy Collectors who hold charge of two revenue divisions and have their headquarters at Hingoli and Sailu, respectively. Eight Tahsildars are in charge of eight taluka offices.

**Land Revenue Settlements**

Prior to 1866, the district used to be annually farmed out and the revenue contractors were allowed a percentage commission for collection. The farming system was replaced by regular officers appointed in the district and talukas in 1866. The original survey and settlement was started in 1884 which introduced the ryotwari system of land tenure in the district.

In the original settlements, lands were assessed separately on the basis of individual soil classification, though the general level of assessment was fixed empirically with reference to the dependability of rainfall, crop pattern, average yields, prices, levels of rent, nearness to the markets, facilities of communications and other similar factors observed from tract to tract. Individual lands were never reclassified during the second revision settlements and landholders were generally allowed the benefits of improvements effected by them during the term of settlements untaxed. The comparative incidence of land revenue from field to field is thus still the same as it was at the time of the first revision settlement and the enhancements made from settlement to settlement were brought about only by raising the levels of land revenue assessments over a tract uniformly.

The method of land revenue assessments in the district is broadly the same as in the other districts of Maharashtra. In the case of lands irrigated by wells and small *bandharas*, the land revenue is integrated and is inclusive of the charge for water supplied. For lands irrigated under Government Canals, the land revenue at dry land rates is recovered by the Revenue Department while the water rates are levied on *ad hoc* basis also by the Revenue Department pending correct assessment by the Irrigation Department.

The original Revenue Survey and Settlement was completed between 1884 and 1886, the first revision between 1899 and 1909 and the second revision between 1918 and 1926. The land revenue rates have not been revised since then in spite of the expiry of the guarantee period of the Second Revision Settlement.

A special assessment of two annas per rupee, i.e., 12·5 per cent of land revenue on dry crop land and one anna per rupee, i.e., 6·25 per cent of land revenue on irrigated land has, however, been imposed on all the lands in the district under the Hyderabad Land (Special Assessment) Act, 1952. Jagir villages had been surveyed and settled in some cases through the Government Survey and Settlement Department, in others by the Jagirdars' own establishments. Land revenue rates in Jagir villages were generally higher than the adjoining Government villages. A majority of such cases had been examined by the Government after the abolition of Jagirs in 1949 and those rates have been brought down to the levels of adjoining Government villages.

Table 24 in Part III shows demand and collection of land revenue during the last ten years 1951 to 1960 for the district and each taluka separately.

The areas and number of villages for each taluka in the district have varied from settlement to settlement. Inam or Jagir villages had not been covered by most of them. In fact, some of the Inam or Jagir villages were unsurveyed and unsettled as late as in 1947. That work has now been completed. For example, Partur was the Tahsil Headquarters of Raja Kishan Prasad Estate. All the villages in the taluka were Jagir. In 1950, the taluka was reorganised after the abolition of Jagir.

Gangakhed taluka was formed in 1950. Hingoli taluka also has undergone many changes. Because of such recently settled villages and the territorial changes in the taluka boundaries from time to time, most of the talukas to-day have a more varied pattern of land revenue assessments than that seen in the reports of earlier settlements. Even then the maximum rates or average land revenue rates per acre fixed at each settlement or revision settlement should be quite reliable indices of the incidence of land revenue as obtaining in the district from taluka to taluka or in the same taluka from settlement to settlement. The Table on page (4) shows those rates for dry, garden or rice lands for each taluka separately.

**Assembly and Parliamentary Constituencies**

Since 1957 the district has 8 Assembly seats. In 1957, two constituencies were double-member constituencies with one of the two seats from Gangakhed and Hingoli reserved for Scheduled Castes. After the abolition of the double-member constituencies in 1961, the seats from Gangakhed and Kalamnuri are reserved for Scheduled Castes.

The number of voters on rolls for each Assembly constituency in 1961 was as follows :—

| Assembly Constituency | Number of Voters on rolls |
|---|---|
| (1) Pathri .. .. .. | 77,007 |
| (2) Gangakhed .. .. .. | 68,936 |
| (3) Parbhani .. .. .. | 71,591 |
| (4) Basmath .. .. .. | 65,636 |
| (5) Hingoli .. .. .. | 81,903 |
| (6) Kalamnuri .. .. .. | 66,645 |
| (7) Partur .. .. .. | 73,437 |
| (8) Jintur .. .. .. | 84,311 |
| Total .. | 589,466 |

In the 1962 General Elections, the Assembly constituencies Pathri, Gangakhed, Parbhani, Basmath, Hingoli and Kalamnuri together made one Parliamentary constituency called Parbhani constituency and the remaining Assembly constituencies Partur and Jintur combined with Assembly constituencies Ambad, Jalna, Badnapur and Bhokardan from Aurangabad district made another Parliamentary constituency called Jalna constituency.

| Taluka | Original settlement or Revision settlement | Year | Guarantee period | No. of villages | Average land revenue per acre | Group | Maximum rates per acre | | |

NA = Not available. (M) = Mot. (P) = Pat.

*Note.*—The rates and incidences cannot be shown for Partur taluka as a whole, since it comprises the villages from Jintur and Pathri talukas besides the Jagirs, etc.

The total number of voters on rolls in the district in 1961 was 589,466. The total population of 21 years and above according to 1961 Census is 571,774. Comparison can, however, be only approximate as the two figures relate to two different dates in the year 1961.

**Administration of Justice**

The District and Sessions Judge is the head of the Judicial Department in the district. The judiciary is entirely separated from the executive. The Collector continues to be the District Magistrate and the Deputy Collectors and Tahsildars are vested with magisterial powers. They are called Executive Magistrates. Some of them are empowered to conduct enquiries under sections 107 and 145 of the Criminal Procedure Code. They are also empowered under sections 143, 144, 164 and 174 of the Criminal Procedure Code. The District Magistrate does not have any administrative control over the other Magistrates who try criminal cases in the district. This separation of the judiciary from the executive was brought about in the year 1922.

The District and Sessions Judge is assisted by one Assistant Judge and Additional Sessions Judge. He has jurisdiction over the entire district. He attends to Civil and Criminal work (except murder cases), both original and appellate.

The Civil Judge (Senior Division) and Judicial Magistrate, First Class, attends to civil suits in the whole district in which value of subject matter is above Rs. 10,000. He also deals with Land Acquisition cases, petitions under the Hindu Marriage Act and Workmen's Compensation cases arising within the district.

There are eight Civil Judges (Junior Division) and First Class Judicial Magistrates with headquarters at different taluka places. They attend to civil and criminal cases.

**Police**

The Police force in the district works under the (District) Superintendent of Police who is assisted by 2 Deputy Superintendents and 2 Circle Police Inspectors.

There are 27 Police Stations in the district. Their headquarters and jurisdictions are as follows :—

| | Police Station Headquarters | No. of Villages |
|---|---|---|
| 1 Partur Taluka .. | (1) Partur .. | 68 |
| | (2) Mantha .. | 81 |
| | (3) Ashti .. | 36 |
| 2 Jintur Taluka .. | (4) Jintur .. | 75 |
| | (5) Bori .. | 76 |
| | (6) Bamani .. | 70 |
| 3 Hingoli Taluka .. | (7) Hingoli Town .. | .. |
| | (8) Hingoli Rural .. | 55 |
| | (9) Narsi .. | 59 |
| | (10) Goregaon .. | 52 |
| | (11) Aundha .. | 51 |
| 4 Kalamnuri Taluka .. | (12) Kalamnuri .. | 71 |
| | (13) Akhada Balapur .. | 68 |
| | (14) Basamba .. | 75 |
| 5 Pathri Taluka .. | (15) Pathri Town .. | 53 |
| | (16) Manwath .. | 52 |
| | (17) Sailu .. | 58 |
| 6 Parbhani Taluka .. | (18) Parbhani Town .. | .. |
| | (19) Daithana .. | 56 |
| | (20) Tadkalas .. | 42 |
| | (21) Purna .. | 33 |
| 7 Basmath Taluka .. | (22) Basmath .. | 67 |
| | (23) Kurunda .. | 47 |
| | (24) Hatta .. | 72 |
| 8 Gangakhed Taluka .. | (25) Gangakhed .. | 60 |
| | (26) Palam .. | 63 |
| | (27) Harangool .. | 59 |

Average number of villages and population per police station in the district is 58 and 44,675 against 69 and 62,547 in the State, respectively.

Crime statistics for the district for the years 1950, 1955 and 1960 are shown in Table 28 in Part III.

**Municipalities**

All the 12 towns in the district have Municipal Committees functioning under the Hyderabad District Municipalities Act, 1956. The year of establishment, the year of the last general election, the term of the elected body, the total number of elected councillors and the number of seats reserved for Scheduled Castes and Scheduled Tribes and for Women are shown below for each Municipality separately :—

| Serial No. | Name of the Municipality | Year of establishment | Year of the last General Election | Statutory term in years | 1961 Population | Total No. of Municipal Councillors | Seats reserved for | | |
|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Scheduled Castes | Scheduled Tribes | Women |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) | (9) | (10) |
| 1 | Jintur .. | .. 1953 | 1961 | 3 | 9,367 | 15 | 1 | .... | 2 |
| 2 | Basmath .. | .. 1941 | 1961 | 3 | 15,532 | 17 | 1 | .... | 2 |
| 3 | Sailu .. | .. 1954 | 1961 | 3 | 13,923 | 15 | 2 | .... | 2 |
| 4 | Partur .. | .. 1940 | 1961 | 3 | 10,623 | 15 | 1 | .... | 2 |

| 6 | Manwath .. | .. 1944 | 1961 | 3 | 14,280 | 17 | 1 | .... | 2 |
| 7 | Kalamnuri .. | .. 1942 | 1961 | 3 | 7,588 | 14 | .... | 1 | 1 |
| 8 | Hingoli .. | .. 1942 | 1961 | 3 | 23,407 | 17 | 2 | .... | 2 |
| 9 | Pathri .. | .. 1944 | 1961 | 3 | 8,878 | 15 | 1 | .... | 2 |
| 10 | Purna .. | .. 1944 | 1961 | 3 | 10,893 | 15 | 3 | .... | 2 |
| 11 | Sonpeth .. | .. 1947 | 1961 | 3 | 5,676 | 10 | 1 | .... | 1 |
| 12 | Parbhani .. | .. 1945 | 1961 | 3 | 36,795 | 22 | 2 | .... | 2 |

All the Municipalities are established during the last two decades, the oldest being the one at Partur which was established in 1940.

The 12 Municipalities together cover 100 per cent of the urban population or 13·82 per cent of the total 1961 population of the district.

The taxation level of each of the Municipalities is as shown in the next column.

*Per capita* Municipal tax is low for all Municipalities. The level of taxation appears to be somewhat high at Hingoli and Sailu, but they are important agricultural markets and incidence is partly shared by the agriculturists bringing their produce for sale.

| Name of the Municipality | 1961 Population | Year 1961–62 | | |
|---|---|---|---|---|
| | | Total Receipts | Receipts from Municipal Taxes | *Per capita* Municipal Tax |
| | | Rs. | Rs. | Rs. nP. |
| 1. Jintur .. | 9,367 | 38,389 | 23,672 | 2 05 |
| 2. Basmath .. | 15,532 | 67,526 | 53,171 | 3 04 |
| 3. Sailu .. | 13,923 | 1,18,279 | 83,440 | 5 99 |
| 4. Partur .. | 10,623 | 55,309 | 40,227 | 3 75 |
| 5. Gangakhed .. | 9,740 | 40,961 | 25,232 | 2 05 |
| 6. Manwath .. | 14,280 | 1,25,132 | 51,725 | 3 06 |
| 7. Kalamnuri .. | 7,588 | 5,681 | 5,681 | 0 43 |
| 8. Hingoli .. | 23,407 | 3,29,896 | 1,20,957 | 5 70 |
| 9. Pathri .. | 8,878 | 17,641 | 8,686 | 1 98 |
| 10. Purna .. | 10,893 | 26,596 | 6,714 | 0 52 |
| 11. Sonpeth .. | 5,676 | 11,111 | 2,196 | 0 38 |
| 12. Parbhani .. | 36,795 | 3,16,310 | 1,00,172 | 2 07 |

## ZILLA PARISHAD AND PANCHAYAT SAMITIS

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in the Development Plans and in local and governmental affairs by decentralisation of powers and functions, a Zilla Parishad and 8 Panchayat Samitis have been established in the district in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samitis Act of 1962. The areas under the jurisdiction of the Zilla Parishad and the Panchayat Samitis correspond to the district and taluka boundaries except in the case of municipal towns which are not covered by them. The Zilla Parishad covers 98·2 per cent of the area and 86·18 per cent of the total population of the district. The population covered includes the entire rural population. The number of villages and population included under the Zilla Parishad and each Panchayat Samiti are shown below. The position of each Panchayat Samiti in the Zilla Parishad is also shown separately by percentages of area and population in 1961.

**Constitution**

The Zilla Parishad has 49 directly elected councillors. Out of these 49 seats, three seats are reserved for Scheduled Castes and two for Scheduled Tribes. In addition, a woman councillor has been co-opted by the elected councillors. There are five associate councillors who are chairmen of five federal co-operative societies conducting business in the district. The elected chairmen of all Panchayat Samitis are also *ex-officio* councillors.

At the Block (taluka) level, the Panchayat Samiti consists of all elected and co-opted councillors from the area of the Block and a chairman of a co-operative society conducting the business of purchase or sale of agricultural produce in the area of the Block as an associate member and a chairman of a co-operative society conducting the business in agriculture in the area of the Block as a co-opted member in the area of the Block. Sarpanchas elected by members of Village Panchayats are also elected members

| —— | Name of headquarters | Area in sq. miles | Number of inhabited villages | Population in 1961 | Percentage by area | Percentage by population |
|---|---|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| Zilla Parishad, Parbhani .. .. | Parbhani .. | 4,757·5 | 1,517 | 1,039,534 | 100·0 | 100.0 |
| (1) Partur Panchayat Samiti .. .. | Partur .. | 587·9 | 187 | 123,546 | 12·4 | 11·9 |
| (2) Jintur Panchayat Samiti .. .. | Jintur .. | 659·2 | 219 | 130,424 | 13·8 | 12·6 |
| (3) Hingoli Panchayat Samiti .. .. | Hingoli .. | 724·3 | 213 | 136,278 | 15·2 | 13·1 |
| (4) Kalamnuri Panchayat Samiti .. .. | Kalamnuri .. | 581·5 | 199 | 119,871 | 12·2 | 11·5 |
| (5) Pathri Panchayat Samiti .. .. | Pathri .. | 590·4 | 160 | 127,023 | 12·4 | 12·2 |
| (6) Parbhani Panchayat Samiti .. .. | Parbhani .. | 522·1 | 170 | 128,276 | 11·0 | 12·3 |
| (7) Basmath Panchayat Samiti .. .. | Basmath .. | 479·4 | 191 | 124,634 | 10·1 | 12·0 |
| (8) Gangakhed Panchayat Samiti .. .. | Gangakhed .. | 612·7 | 178 | 149,482 | 12·9 | 14·4 |

of the Panchayat Samiti. The number of Sarpanchas elected is at the rate of two for each electoral division in the area of the Block.

Elections were held in the year 1962. The term of office of the councillors is five years. The Zilla Parishad has elected the President and Vice-President from amongst the elected councillors. An Officer in the senior scale of I.A.S. works as the Chief Executive Officer to the Zilla Parishad. The Parishad is also assisted by various departments and the heads of those departments at the district level are Officers of Class I or Class II Service under the State Government. At the Block level, the Panchayat Samitis have elected Chairmen and Deputy Chairmen. The Block Development Officers work as Secretaries to the Panchayat Samitis. The executive authority for the purpose of carrying out the provisions of the Maharashtra Zilla Parishad and Panchayat Samitis Act vests in the Chief Executive Officer and the Block Development Officers. The Deputy Chief Executive Officer works as a Secretary to the Zilla Parishad.

**Committees and Office-bearers**

The Zilla Parishad functions through a Standing Committee presided by the President and six Subject Committees for Finance, Works, Agriculture, Co-operation, Education and Health. Two subject committees are presided by the Vice-President and four by two Chairmen elected by the Zilla Parishad to preside over two specified subject committees each. The Deputy Chief Executive Officer works as Secretary of the Standing Committee, while the District Heads of Departments work as Secretaries to the subject committees concerned. Co-ordination between the subject committees is achieved through the Standing Committee which includes the Chairmen of all the subject committees as members.

The Panchayat Samitis do not have subject committees.

The elected President of the Zilla Parishad is paid an honorarium of Rs. 500 per month. The Vice-President and the two Chairmen of the Subject Committees are paid an honorarium of Rs. 300 per month. The elected Chairmen and Deputy Chairmen of the Panchayat Samitis are paid an honorarium of Rs. 300 and Rs. 150 per month, respectively. All these persons are also provided with rent-free accommodation as is deemed suitable for them by the Zilla Parishad.

**Functions**

The Divisional and State Officers of the Government continue to exercise technical supervision and give guidance to Zilla Parishad and Panchayat Samitis. The State Government has powers to give direction to the Zilla Parishad regarding works and schemes in the interest of National or State Development Plans. Inspection and supervision are carried out by the Divisional Commissioners.

Except for a few safeguards, the developmental and administrative functions of Government are now with the creation of democratic bodies at the district and Block level, devolved on them. In other words, the State Government has divested itself of the responsibility of local activities which are now left to the people's initiative and resources.

The developmental and administrative subjects transferred to the Zilla Parishad and Panchayat Samitis have been listed in Schedules I and II to the Maharashtra Zilla Parishad and Panchayat Samitis Act. By and large, all functions of Government administration including development activities, at the district level, but excluding matters relating to law and order, judicial and quasi-judicial functions, and development functions involving high technical skill like Research Stations, etc., have been devolved on the Zilla Parishad and Panchayat Samitis. All Class III and Class IV employees of the Government Departments now transferred to the Zilla Parishad have been absorbed as employees of the Parishad. The Village Talati (or Patwari) and the entire village establishment of the Revenue Department have been transferred to the Parishad through the Village Panchayat, though for collection of land revenue and maintenance of Record of Rights they continue to work under the Revenue Officers.

The Zilla Parishad has replaced the erstwhile statutory bodies known as District Local Board, District School Board and District Panchayat Mandal. The functions of non-statutory body known as the District Development Board have of course been absorbed. Municipalities, however, remain unaffected as municipal areas are excluded from the jurisdiction of the Zilla Parishad.

**Finance**

The law provides for levy of cess at the rate of twenty naye paise on every rupee of land revenue and at a rate not exceeding nineteen naye paise per rupee of water rate. The Zilla Parishad can levy taxes on profession, trade, calling or employment and taxes on water supply, public entertainments, amusements and pilgrims, special tax on land and buildings and other taxes. The stamp duty on transfer of certain immovable properties may be increased by one-half per cent by Government for payment to the Zilla Parishad.

The financial assistance given by the State Government includes 70 per cent of the land revenue collected within the area of the Parishad. When, however, the amount of land revenue payable falls short of the amount arrived at on the basis of two rupees *per capita* of the population of the district as appearing in the Census of 1961, an equalisation grant covering the difference will be paid to the Zilla Parishad. Government also pays what are called purposive grants being grants for specific works and development schemes transferred to the Zilla Parishad at the rate of not less than 75 per cent of the expenditure. An establishment grant equal to 75 per cent of the average annual cost on account of salaries and allowances is paid in respect of the posts held by the staff of Government transferred to the Parishad which are included in the District Technical Service (Class III), District Service (Class III) and District Service (Class IV). The other grants include a deficit adjustment grant payable at full rates during the first five years and to be progressively

reduced in the next ten years after which it will not be payable, incentive grants calculated to achieve speedier development and grants for Plan Schemes. If in pursuance of the proposal of a Zilla Parishad or a Panchayat Samiti, a cess on land revenue at a rate in excess of the minimum rate prescribed by the Act is levied by the State Government in the whole of the district or in Block, the Zilla Parishad or the Panchayat Samiti, as the case may be, shall be paid every year by the State Government a grant called the local cess matching grant.

The total revenue receipts of the Zilla Parishad for the year 1963-64 are Rs. 131·45 lakhs. The major portion of the receipts is of receipts from Government. They are 87·3 per cent and the Zilla Parishad receipts are 12·7 per cent of the total revenue receipts. Major items of Zilla Parishad's receipts are local fund cess, cess on water rates and profession tax.

The total revenue expenditure is Rs. 131·47 lakhs. Following are the major items of expenditure :—

| | |
|---|---|
| General Administration .. .. | 4·9 per cent |
| Education .. .. .. | 40·9 „ „ |
| Community Development Project .. | 12·4 „ „ |
| Buildings and Communications .. .. | 21·2 „ „ |
| Miscellaneous .. .. .. | 8·6 „ „ |
| Other items .. .. .. | 12·0 „ „ |

The Zilla Parishad has been directed by the State Government to raise the rate of cess on land revenue to 50 nP. per rupee of land revenue from 5th October 1964.

*Per capita* expenditure on different development heads is as follows :—

| | Rs. | nP. |
|---|---|---|
| General Administration .. .. | 0 | 62 |
| Education .. .. .. | 5 | 17 |
| Community Development .. .. | 1 | 56 |
| Buildings and Communications .. .. | 2 | 68 |

**Establishment**

The establishment of the Zilla Parishad comprises gazetted and non-gazetted staff. The non-gazetted staff consists of the employees of the former local bodies and those of the various State Government Departments now transferred to the Zilla Parishad.

There are 6 Class I and 38 Class II Gazetted Officers working under the Zilla Parishad. The total strength of the non-gazetted employees of Class III and Class IV categories is 4,624. Moreover, an establishment of 131 Gram Sevaks, 236 Talatis and 198 Village Panchayat Secretaries has been transferred from the Revenue Department to the Zilla Parishad.

## VILLAGE PANCHAYATS

The number of independent village panchayats, the number of group village panchayats and the number of villages covered by the group village panchayats are shown below :—

| Taluka | No. of inhabited villages | No. of independent village panchayats | No. of group village panchayats | No. of villages covered by group village panchayats |
|---|---|---|---|---|
| 1 Partur .. | 187 | 76 | 48 | 119 |
| 2 Jintur .. | 219 | 68 | 57 | 152 |
| 3 Hingoli .. | 213 | 96 | 47 | 123 |
| 4 Kalamnuri .. | 199 | 113 | 35 | 98 |
| 5 Pathri .. | 160 | 70 | 28 | 89 |
| 6 Parbhani .. | 170 | 75 | 40 | 97 |
| 7 Basmath .. | 191 | 91 | 48 | 115 |
| 8 Gangakhed .. | 178 | 88 | 38 | 90 |
| Total .. | 1,517 | 677 | 341 | 883 |

*Note.*—The figures in column (5) perhaps include hamlets. The totals of columns (3) and (5) do not, therefore, tally with column (2).

The break-up of the total annual income of all the Village Panchayats in the district for the year 1961-62 is as follows :—

| Item | Amount (in '000) Rs. | Percentage of total income |
|---|---|---|
| Grants .. .. .. | 1,004 | 62·71 |
| Taxes on houses and properties .. | 24 | 1·50 |
| Octroi .. .. .. | .... | .... |
| Other taxes .. .. .. | 454 | 28·36 |
| Total taxes .. .. .. | 478 | 29·86 |
| Income from other sources .. | 119 | 7·43 |
| Total income .. .. .. | 1,601 | 100·00 |

The first item includes the Government grant of 30 per cent of the land revenue collected in the village or one rupee per head of population whichever is more. The village panchayats also get the entire local fund cess collected in the village. At present it is collected at 20 nP. per rupee of land revenue. The Village Panchayats can raise it with Government approval up to 100 nP. per rupee of land revenue.

Out of 1,018 Village Panchayats, 80 Village Panchayats have levied taxes on houses and properties. No village panchayat has levied octroi.

The break-up of the total annual expenditure of all the Village Panchayats in the district for the year 1961-62 is as follows :—

| Item | Amount (in '000) Rs. | Percentage of total expenditure |
|---|---|---|
| Administration ... .. | 245 | 27·93 |
| Health and Sanitation .. .. | 74 | 8·44 |
| Public Lighting .. .. | 124 | 14·14 |
| Other Items .. ... | 434 | 49.49 |
| Total expenditure .. .. | 877 | 100·00 |

Other items include improvement of village roads, construction of new drinking water wells or repairs to old wells, construction of Panchayat Ghars, Schools and such other buildings.

Functions of the Talati (Patwari), Village Panchayat Secretary and Assistant Gram Sevak are now combined in one official who now works under the Village Panchayat.

## POPULATION

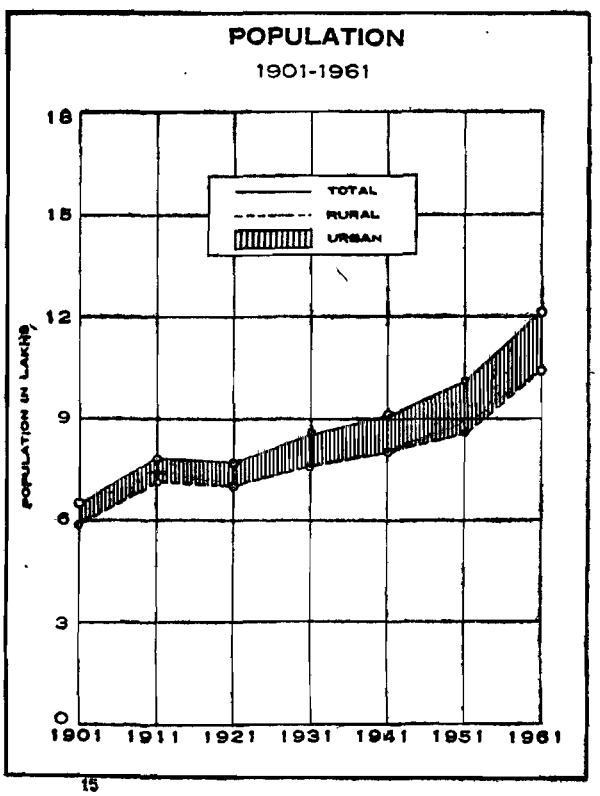

Table A-I in Part II shows the 1961 population of the district and each taluka for total, rural and urban areas separately. Definition of rural and urban areas may be seen in paragraphs 8 and 9 of the Explanatory Note to Part II. Table A-II shows the district population and its variation at each Census since 1901 and the variation in population for each taluka during 1951—61.

**Variation**

The population of the district and decade variation rates since 1901 are as follows :—

| Year | Population | Decade Variation | Rate of Variation |
|---|---|---|---|
| 1901 .. .. | 648,546 | .... | .... |
| 1911 .. .. | 781,475 | +132,929 | +20·50 |
| 1921 .. .. | 767,741 | −13,734 | −1·76 |
| 1931 .. .. | 856,023 | +88,282 | +11·50 |
| 1941 .. .. | 914,447 | +58,424 | +6·83 |
| 1951 .. .. | 1,010,864 | +96,417 | +10·54 |
| 1961 .. .. | 1,206,236 | +195,372 | +19·33 |

Figure below shows the total, rural and urban population of the district for the last seven Censuses:—

In the decade 1901—11 the population of the district increased by 20·5 per cent which incidentally is the highest growth rate ever attained. That large increase in the population was perhaps due to satisfactory crop conditions during the decade, the opening of the Godavari Valley Railway and the recovery from famine. In the following decade the crop failures added with the influenza epidemic of 1918 led to a decrease of 1·76 per cent.

In the decade 1921—31 the population increased by 11·5 per cent particularly due to the improved crop conditions. The following two decades also witnessed rather low rates of growth. In the decade 1951—61 the population has increased by 19·33 per cent indicating a departure from the trend of low growth of the preceding 30 years.

The 1951—61 decade variation for the district and each of the taluka is as follows :—

| | Percentage Variation 1951—61 |
|---|---|
| PARBHANI DISTRICT .. .. | 9+1·33 |
| 1 Partur Taluka .. .. | +24·94 |
| 2 Jintur Taluka .. .. | +28·26 |
| 3 Hingoli Taluka .. .. | +25·46 |
| 4 Kalamnuri Taluka .. | +17·17 |
| 5 Pathri Taluka .. .. | +15·35 |
| 6 Parbhani Taluka .. .. | +16·42 |
| 7 Basmath Taluka .. .. | +17·47 |
| 8 Gangakhed Taluka .. | +13·19 |

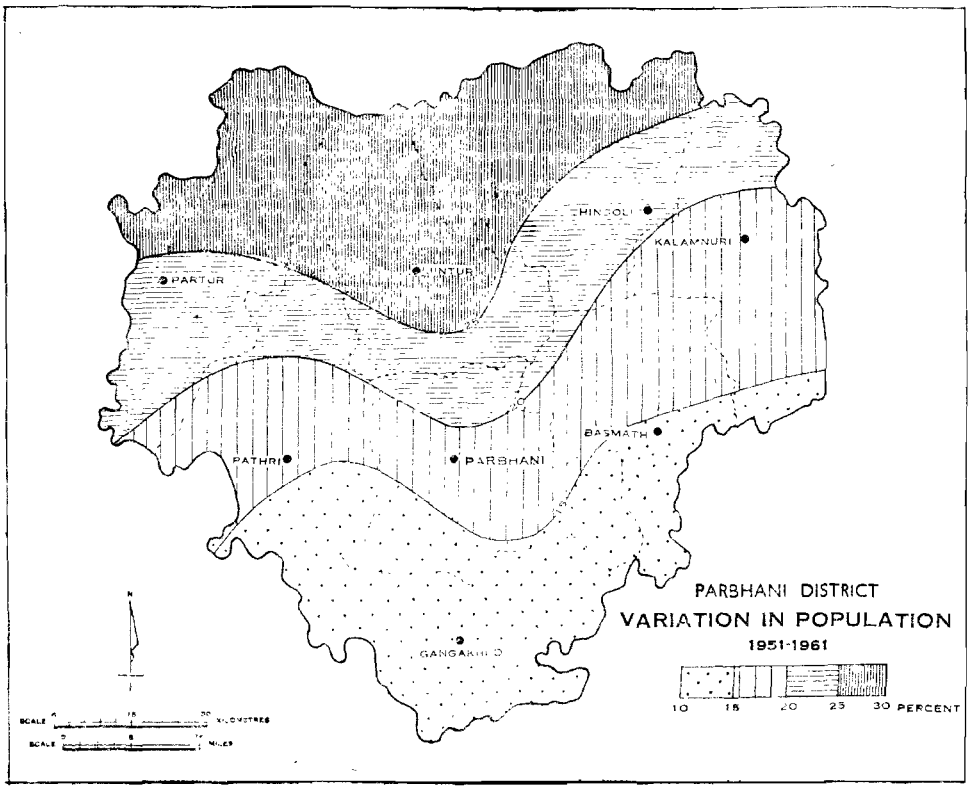

Figure on page (10) shows the areawise pattern of 1951—61 growth of population within the district.

There are wide differences in the decade rates of variation of different talukas. Jintur taluka recorded the highest increase (28·26 per cent) while Gangakhed taluka had the lowest increase (13·19 per cent) over 1951. Partur, Jintur and Hingoli talukas are above the district average and the remaining talukas are below that average. The northern talukas thus have had a higher growth rate in the last decade than the southern talukas. The large numbers of labourers engaged on Purna Project dam sites, canals and the Hingoli-Khandwa Railway partly account for that larger growth in the northern talukas.

The net percentage increase since 1901, 1921 and 1951 for the district and the State has been as follows :—

| | Parbhani District | Maharashtra |
|---|---|---|
| 1901—1961 .. .. | 85·99 | 103·97 |
| 1921—1961 .. .. | 57·11 | 89·71 |
| 1951—1961 .. .. | 19·33 | 23·60 |

During the last sixty years the population of the district increased continuously except in the decade 1911—21 at varying rates. Since 1921 the population of the district increased by 57·11 per cent. In the same period, the State population has increased by 89·71 per cent. The district growth rates have always been lower than the State average rates.

**Density of Population**

The densities of population for Maharashtra, Parbhani district and its talukas for 1951 and 1961 are as follows:—

| | Density per square mile | | Percentage of district population in 1961 |
|---|---|---|---|
| | 1951 | 1961 | |
| MAHARASHTRA .. | 271 | 334 | .... |
| PARBHANI DISTRICT .. | 209 | 249 | 100·00 |
| 1 Partur Taluka .. | 183 | 228 | 11·12 |
| 2 Jintur Taluka .. | 163 | 209 | 11·59 |
| 3 Hingoli Taluka .. | 174 | 219 | 13·24 |
| 4 Kalamnuri Taluka .. | 187 | 219 | 10·57 |
| 5 Pathri Taluka .. | 230 | 265 | 13·60 |
| 6 Parbhani Taluka .. | 277 | 322 | 14·59 |
| 7 Basmath Taluka .. | 247 | 291 | 11·62 |
| 8 Gangakhed Taluka .. | 231 | 262 | 13·67 |

Figure on page (11) shows the approximate contours of density of population in 1961 within the district.

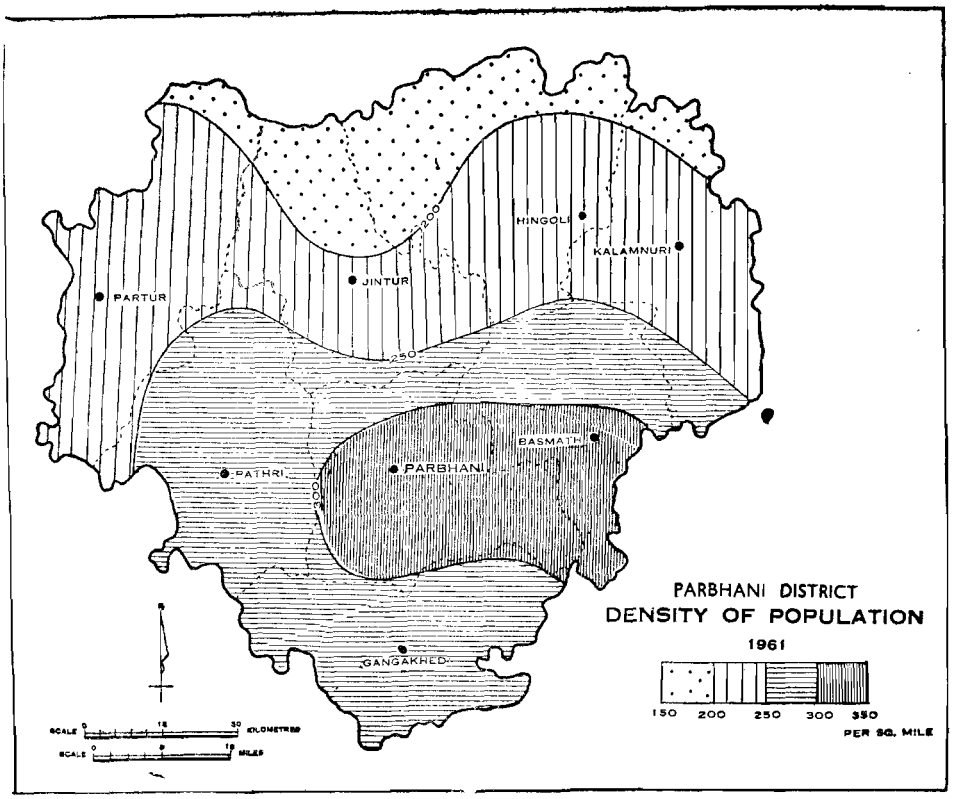

The density of population has increased from 158 per square mile in 1921 to 249 per square mile in 1961. The district density has however always been lower than the State average.

Density of population varies from 209 persons per square mile in Jintur taluka to 322 persons per square mile in Parbhani taluka. The variation is because of the effect of topography and the growth of towns. The northern talukas (Jintur, Hingoli and Kalamnuri) have forest and hilly areas. Their densities are, therefore, comparatively lower. The four southern talukas have deep and fertile soils. In addition medium towns like Purna, Parbhani, Manwath, Sailu and Partur, with ginning and pressing factories and oil mills, have developed on the Hyderabad-Manmad Railway line passing through those talukas. They, therefore, have higher densities.

**Urban Population**

Urban population of the district at each Census and its variation since 1901 are shown in Table A-IV in Part II. The same table also shows the variation in population for each town in the district. The number of towns, the rate of decade variation in urban population and the percentage of urban population to total population at each Census since 1901 for the district and the State are as follows :—

| Year | Parbhani District | | | Maharashtra | | |
|---|---|---|---|---|---|---|
| | No. of towns | Rate of variation in urban population | Percentage of urban population to total population | No. of towns | Rate of variation in urban population | Percentage of urban population to total population |
| 1901 .. | 7 | .... | 9·20 | 219 | .... | 16·59 |
| 1911 .. | 7 | +12·04 | 8·55 | 232 | +0·99 | 15·13 |
| 1921 .. | 8 | −0·96 | 8·62 | 238 | +18·72 | 18·50 |
| 1931 .. | 12 | +48·53 | 11·48 | 258 | +15·54 | 18·60 |
| 1941 .. | 11 | +16·26 | 12·50 | 266 | +27·11 | 21·11 |
| 1951 .. | 12 | +35·02 | 15·27 | 383 | +62·42 | 28·75 |
| 1961 .. | 12 | +8·02 | 13·82 | 266 | +21·32 | 28·22 |

In the Figure on page (9) the actual urban population of the district since 1901 is shown by the shaded portion between the two lines. The net growth in urban population of the district over that of 1901 is 179·48 per cent as against 246·96 per cent for the State.

The district is much less urbanised than Maharashtra as a whole. The proportion of urban population decreased both for the district and the State in 1911. Since then it has gradually increased to an all time high value in 1951. There was a decrease in the last decade. The number of towns had also increased continuously since 1901 till 1931 and then remained almost constant. Redefinition of urban areas in 1961 had no effect in the district. The net increase in the decade 1951—61 was 8·02 per cent which is much less than that of the earlier decades or than the growth during that decade in the State as a whole.

Parbhani and Hingoli are the two important towns in the district. Hingoli town had more than 17 thousand population in 1901. It was one of the most important commercial centres in the State and a cantonment town at that time. It gradually lost its importance in spite of the railway line to Purna. It seems to have suffered severely in the epidemic and as a result, its population in 1941 was less than that in 1901. It has increased by nearly 45·29 per cent in 1941—51 and only by 10·34 per cent in 1951—61. In the last sixty years its population has increased by only 35·6 per cent.

Parbhani the headquarters of the district had 9,958 people in 1901, since then it has increased by 269·5 per cent up to 1961. Its increase was significant in 1911—21 and 1941—51 decades. It has benefited considerably through the Godavari Valley Railway. It is one of the important commercial centres in Marathwada. The new railway connection with Parli has been one of the contributory factors in its growth.

**Rural Population**

The rates of variation in rural population and the percentages of rural population to total population of the district and the State since 1901 are as follows :—

| Year | Parbhani District | | Maharashtra | |
|---|---|---|---|---|
| | Rate of variation in rural population | Percentage of rural population to total population | Rate of variation in rural population | Percentage of rural population to total population |
| 1901 .. | .... | 90·80 | .... | 83·41 |
| 1911 .. | +21·35 | 91·45 | +12·68 | 84·87 |
| 1921 .. | —1·83 | 91·38 | —6·77 | 81·50 |
| 1931 .. | +8·01 | 88·52 | +14·77 | 81·40 |
| 1941 .. | +5·60 | 87·50 | +8·54 | 78·89 |
| 1951 .. | +7·05 | 84·73 | +7·72 | 71·25 |
| 1961 .. | +21·36 | 86·18 | +24·51 | 71·78 |

The net increase in rural population of the district has been 76·52 per cent over that of 1901 and 48·18 per cent over that of 1921. The same figures for the State are 75·53 per cent and 67·08 per cent, respectively.

The rates of variation of the rural population have never followed any trend. The urban population had grown faster at the expense of rural population. As a result, the rural population increased at a lower rate than the total population except in the last decade. The percentage of rural population gradually decreased both for the district and the State since 1911, only in 1961 it has shown an opposite trend.

**Size of Villages**

Table A-III in Part II shows for the district and for each taluka the number of villages and their population for each class of villages. The distribution of population by size of villages for the district and the State is as follows :—

| Size Class | Parbhani District | | Maharashtra | |
|---|---|---|---|---|
| | Percentage of number of villages to total number of villages | Percentage of population to total rural population | Percentage of number of villages to total number of villages | Percentage of population to total rural population |
| Less than 500 .. | 47·66 | 19·35 | 47·72 | 15·02 |
| 500—999 .. | 34·35 | 35·80 | 28·55 | 25·71 |
| 1,000—1,999 .. | 13·71 | 26·43 | 16·62 | 28·55 |
| 2,000—4,999 .. | 4·15 | 17·32 | 6·18 | 22·40 |
| 5,000 and over .. | 0·13 | 1·10 | 0·93 | 8·32 |

Villages with less than 1,000 population are 82·01 per cent of the total number of villages in the district and have 55·15 per cent of the rural population. Villages with more than 1,000 population are 17·99 per cent of the total number of villages and account for 44·85 per cent of the rural population. Heavy concentration of the rural population is thus in villages with population over 1,000.

The area, number of inhabited villages, total rural population, average population per village and the number of villages per 100 square miles of rural area are shown below for the State, district and each taluka separately.

The average population per village in 1961 is 685 in the district against 792 in Maharashtra. The average population per village within the district varies from 596 in Jintur taluka to 840 in Gangakhed taluka. The number of villages per 100 square miles of rural area is 32 in the district against 31 in Maharashtra. Among the talukas of the district, Basmath taluka has 40 villages per 100 square miles compared to 27 in Pathri taluka.

The village described here is an administrative unit.

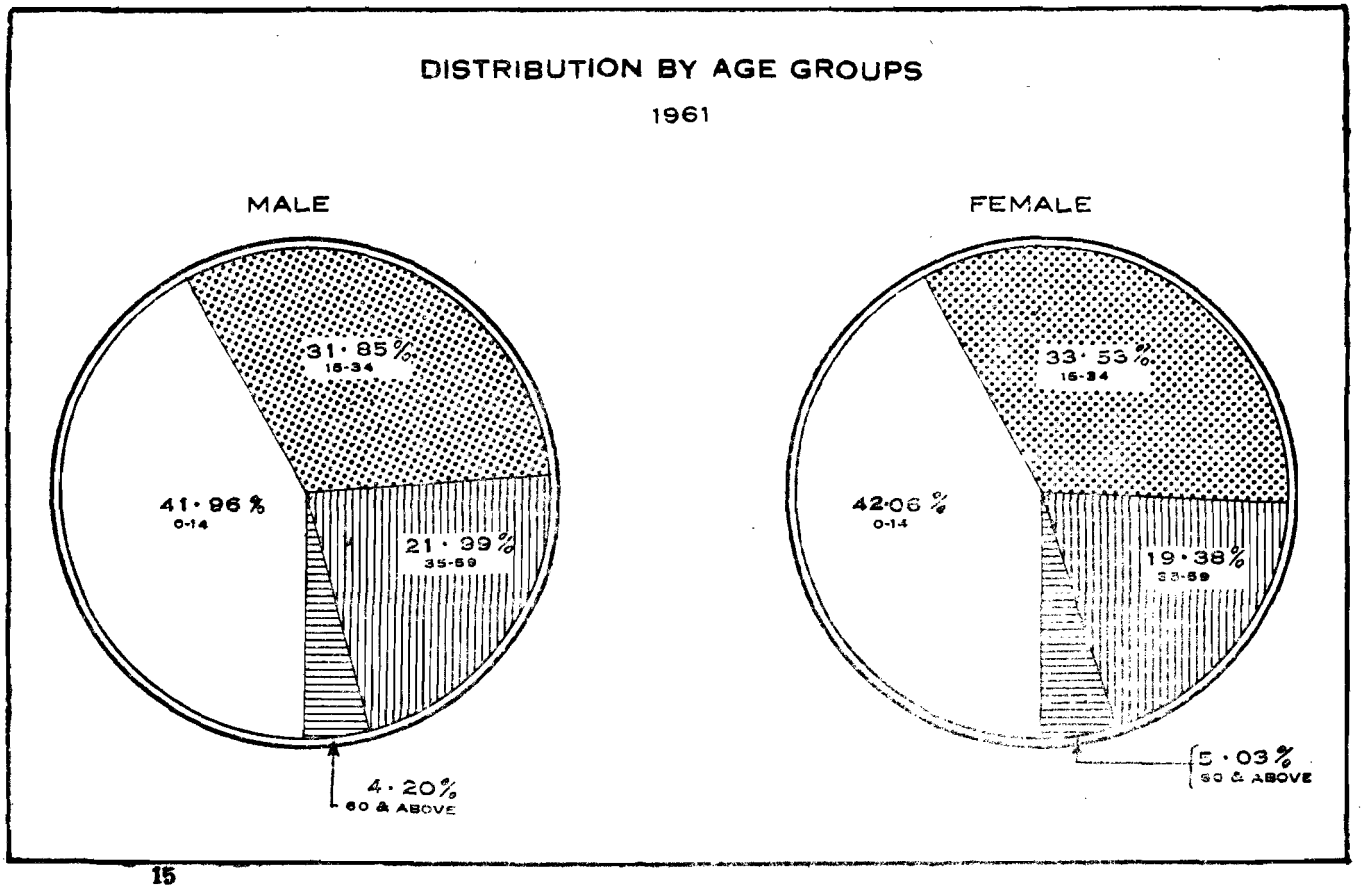

**Age Distribution**

Tables C-II and C-IV in Part II show the distribution of the district population by five-year age-groups and by single year ages, respectively. Broad age-groups are also shown in Tables B-I, B-II and C-III. The proportions of population by broad age-groups in 1961 are shown below separately for males and females compared with the corresponding proportions for 1951 :—

| Age-groups | Percentages of population by age-groups | | | | | |
|---|---|---|---|---|---|---|
| | 1951 District Total | | 1961 District Total | | 1961 Maharashtra | |
| | Males | Females | Males | Females | Males | Females |
| 0—4 .. | 13·13 | 14·06 | 15·00 | 15·94 | 14·65 | 15·39 |
| 5—14 .. | 28·10 | 27·58 | 26·96 | 26·12 | 25·55 | 25·77 |
| 0—14 .. | 41·23 | 41·64 | 41·96 | 42·06 | 40·20 | 41·16 |
| 15—34 .. | 31·64 | 32·75 | 31·85 | 33·52 | 32·70 | 33·13 |
| 35—59 .. | 23·16 | 21·04 | 22·00 | 19·39 | 22·09 | 20·16 |
| 15—59 .. | 54·80 | 53·79 | 53·85 | 52·91 | 54·79 | 53·29 |
| 60+ | 3·97 | 4·57 | 4·19 | 5·03 | 5·01 | 5·55 |
| Total .. | 100·00 | 100·00 | 100·00 | 100·00 | 100·00 | 100·00 |

The Figure on page (13) shows the distribution of the district population by broad age-groups for males and females separately.

| State/District/Taluka | Area in sq. miles (Rural) | Number of inhabited villages | Rural population | Average population per inhabited village | Number of inhabited villages per 100 sq. miles of rural area |
|---|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) | (6) |
| MAHARASHTRA .. .. .. | 115,736·3 | 35,851 | 28,391,157 | 792 | 31 |
| PARBHANI DISTRICT .. .. | 4,757·5 | 1,517 | 1,039,534 | 685 | 32 |
| 1 Partur Taluka .. .. .. | 587·9 | 187 | 123,546 | 661 | 32 |
| 2 Jintur Taluka .. .. .. | 659·2 | 219 | 130,424 | 596 | 33 |
| 3 Hingoli Taluka .. .. .. | 724·3 | 213 | 136,278 | 640 | 29 |
| 4 Kalamnuri Taluka .. .. | 581·5 | 199 | 119,871 | 602 | 34 |
| 5 Pathri Taluka .. .. .. | 590·4 | 160 | 127,023 | 794 | 27 |
| 6 Parbhani Taluka .. .. .. | 522·1 | 170 | 128,276 | 755 | 33 |
| 7 Basmath Taluka .. .. .. | 479·4 | 191 | 124,634 | 653 | 40 |
| 8 Gangakhed Taluka .. .. | 612·7 | 178 | 149,482 | 840 | 29 |

15

During the last decade the proportion of children aged 0—4 increased from 13·13 per cent to 15·00 per cent for males and from 14·06 per cent to 15·94 per cent for females. The same trend is observed for age group 0—14. The proportion of the population aged 60 and over has increased for both males and females. Consequently the proportion of the population in age-group 15—59 has decreased for both males and females. The proportion of males in the age-group 15—59 is higher than that of females in 1961. The proportions of males and females in age-group 15—59 in the district are lower than the averages for Maharashtra. The same trend is observed for age-group 60 and over for both males and females.

**Dependency Ratio**

The ratio between dependants (age-groups 0—14 and 60+) and 100 of supporting (age-group 15—59) population has an economic significance. The dependency ratios and their two components of youth (0—14) and aged (60+) groups are shown below for 1951 and 1961 for the district and the State separately :—

| | | Parbhani District | | | Maharashtra | | |
|---|---|---|---|---|---|---|---|
| | | Youth | Aged | Total | Youth | Aged | Total |
| 1951 | Total .. | 76·3 | 7·9 | 84·2 | 69·9 | 9·3 | 79·2 |
| 1961 | Total .. | 78·7 | 8·6 | 87·3 | 75·2 | 9·7 | 84·9 |
| | Rural .. | 78·7 | 8·6 | 87·3 | 80·6 | 10·8 | 91·4 |
| | Urban .. | 78·6 | 9·1 | 87·7 | 63·1 | 7·3 | 70·4 |

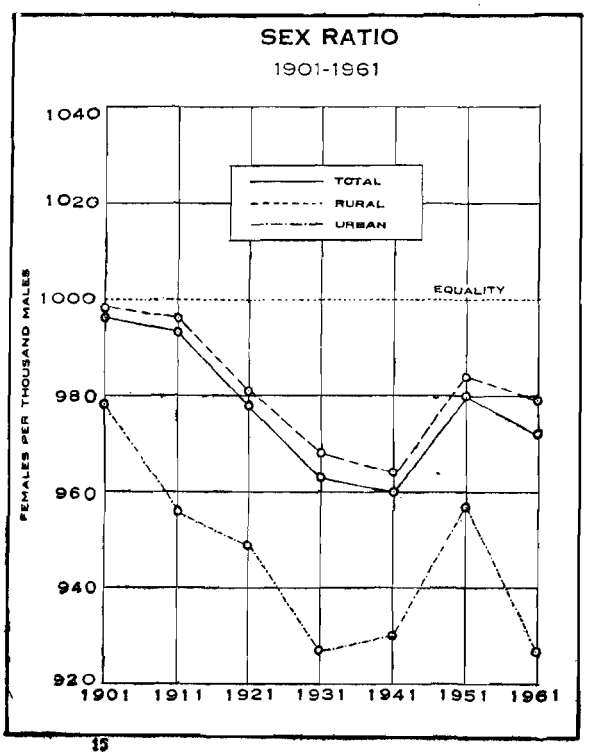

The dependency ratios are higher in the district than those for Maharashtra. The dependency ratios for the State and the district are both higher in 1961 than those for 1951. Both the components of youth and aged have increased. The increase in dependency may be the result both of high fertility and declining mortality. The youth dependency ratio is higher in the district while that of aged is lower than that for the State. Within the district the urban dependency ratio is slightly higher than the rural. But, for the State, it is significantly lower in urban than in rural areas.

**Sex Ratios**

The following have been the sex ratios (number of females per 1,000 male population) for the district and the State since 1901 for total, rural and urban areas separately:—

| Year | Parbhani District | | | Maharashtra | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| 1901 .. | 996 | 998 | 978 | 978 | 1,002 | 866 |
| 1911 .. | 993 | 996 | 956 | 966 | 1,000 | 796 |
| 1921 .. | 978 | 981 | 949 | 950 | 994 | 776 |
| 1931 .. | 963 | 968 | 927 | 947 | 987 | 790 |
| 1941 .. | 960 | 964 | 930 | 949 | 990 | 810 |
| 1951 .. | 980 | 984 | 957 | 941 | 1,000 | 807 |
| 1961 .. | 972 | 979 | 927 | 936 | 995 | 801 |

Figure below shows the variation in sex ratios since 1901 for the district total, rural and urban areas separately:—

Since 1901, the sex ratio of the population of the district varied between 960 and 996 while that of Maharashtra varied between 936 and 978. At each Census, Parbhani district has recorded a higher sex ratio than that of the State i.e. the district always had comparatively more females than the State average. 1901 recorded a sex ratio of 996 in the district which was very near equality. Rural sex ratio has always been higher than the urban sex ratio. Rural sex ratio is higher for Maharashtra but urban sex ratios in the district are consistently higher in the district than in the State. That is so because the towns in the district do not have any large component of immigrant populations.

Following are the sex ratios for different age-groups of population for the district total, rural and urban areas :—

| Age-groups | Total | Rural | Urban |
|---|---|---|---|
| 0—14 .. .. | 974 | 982 | 927 |
| 15—34 .. .. | 1,023 | 1,032 | 965 |
| 35—59 .. .. | 856 | 858 | 844 |
| 60+ .. .. | 1,164 | 1,187 | 1,037 |
| All ages .. .. | 972 | 979 | 927 |

For all the age-groups the sex ratios are high in rural areas compared to those in urban areas. The high sex ratio of 1,032 for age-group 15—34 in rural areas shows the out-migration of young adult males for higher education and work. Sex ratio is the least for the age-group 35—59 both in rural and urban areas. The sex ratio of the older age-group is very high both for rural and urban areas.

The sex ratios for each taluka in the district for total, rural and urban areas separately are as follows:—

| | Total | Rural | Urban |
|---|---|---|---|
| PARBHANI DISTRICT | 972 | 979 | 927 |
| 1 Partur Taluka .. | 974 | 980 | 912 |
| 2 Jintur Taluka .. | 966 | 972 | 879 |
| 3 Hingoli Taluka .. | 969 | 976 | 928 |
| 4 Kalamnuri Taluka .. | 998 | 1,000 | 972 |
| 5 Pathri Taluka .. | 983 | 991 | 956 |
| 6 Parbhani Taluka .. | 956 | 974 | 909 |
| 7 Basmath Taluka .. | 965 | 972 | 910 |
| 8 Gangakhed Taluka .. | 968 | 971 | 945 |

Sex ratios by talukas also show that urban sex ratio is lower than that of rural areas.

Kalamnuri, Pathri and Partur talukas have sex ratios higher than that of the district. It is only in Kalamnuri taluka that the sex ratio is near equality.

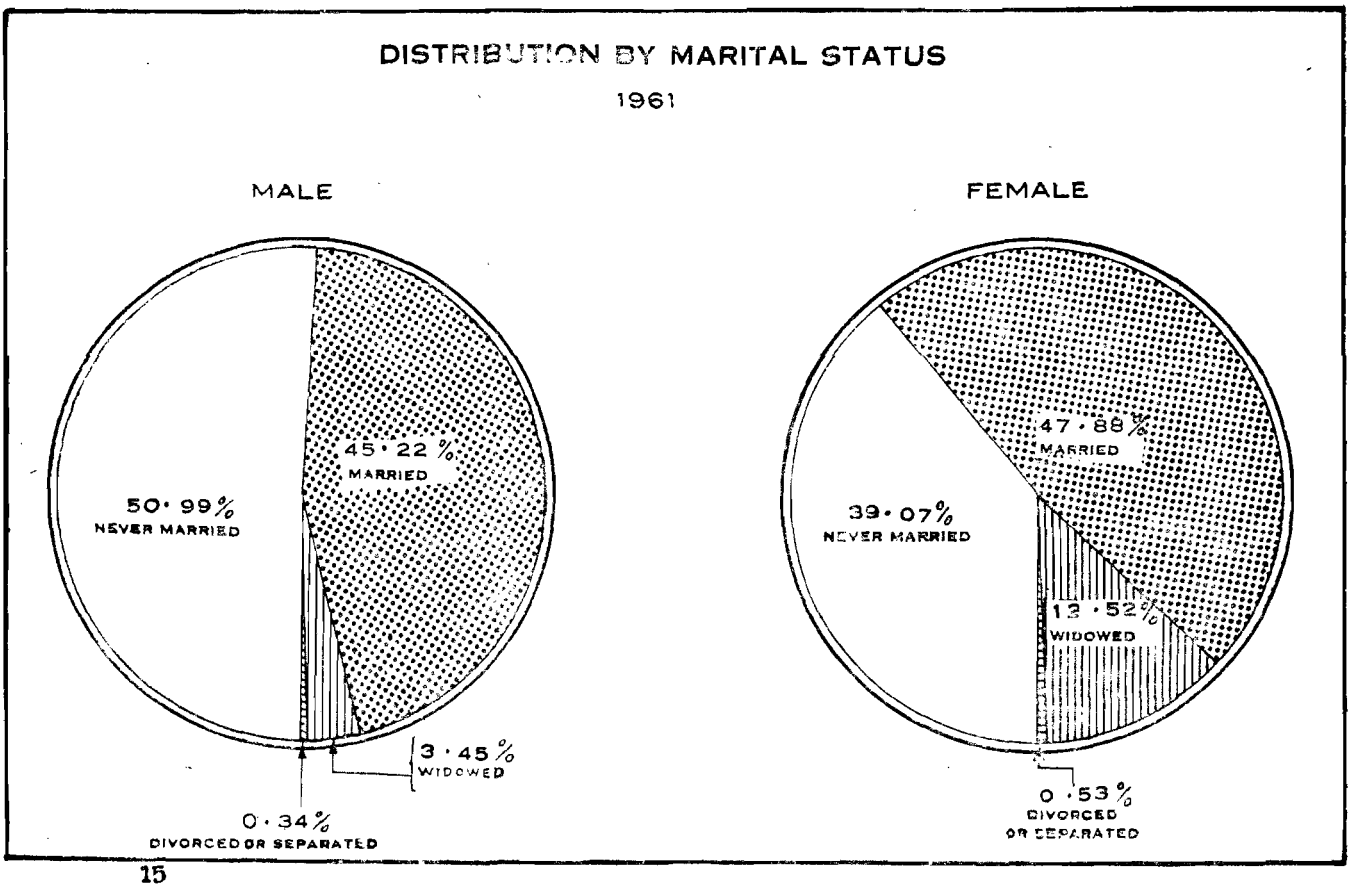

Parbhani taluka has the lowest sex ratio (956) and Kalamnuri taluka which has high proportion of rural population has highest sex ratio (998). The rural urban differentials within the talukas are wider than the differences from taluka to taluka.

### Marital Status

Table C-II in Part II shows the distribution of population by marital status by five-year age-groups. The percentages of population for broad age-groups classified by marital status are shown below compared to those of 1951:—

| Year | Age-group | Total | Marital status | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | | Never married | | Married | | Widowed | | Divorced or separated | |
| | | | Males | Females | Males | Females | Males | Females | Males | Females |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) | (9) | (10) | (11) |
| 1951 | 0—14 | 100 | 96·63 | 82·56 | 3·20 | 17·06 | 0·17 | 0·34 | .. | 0·04 |
| | 15—34 | 100 | 26·62 | 2·95 | 70·36 | 91·02 | 2·62 | 5·44 | 0·40 | 0·59 |
| | 35—54 | 100 | 2·21 | 0·29 | 87·88 | 63·19 | 9·42 | 35·98 | 0·49 | 0·54 |
| | 55+ | 100 | 1·41 | 0·36 | 72·42 | 17·95 | 25·93 | 81·55 | 0·24 | 0·14 |
| | All ages | 100 | 48·81 | 35·42 | 46·42 | 49·80 | 4·53 | 14·46 | 0·24 | 0·32 |
| 1961 | 0—14 | 100 | 98·38 | 90·56 | 1·57 | 9·27 | 0·05 | 0·11 | N | 0·06 |
| | 15—34 | 100 | 29·10 | 2·77 | 68·32 | 92·47 | 1·95 | 3·71 | 0·63 | 1·05 |
| | 35—54 | 100 | 1·76 | 0·16 | 90·32 | 66·13 | 7·33 | 33·05 | 0·59 | 0·66 |
| | 55+ | 100 | 1·19 | 0·14 | 76·67 | 18·88 | 21·80 | 80·53 | 0·34 | 0·45 |
| | All ages | 100 | 50·98 | 39·07 | 45·23 | 47·87 | 3·45 | 12·53 | 0·34 | 0·53 |

N = Negligible.

15

Figure above shows the distribution of the district population by marital status for males and females separately.

During the 1951—61 decade, the proportion of never married has increased both for males and females. There had been a decrease in the proportion of widowed both for males and females. The proportion of divorced or separated shows an increase, but the difference is not of any numerical importance. As can be expected, the proportions of married and widowed are higher in rural areas than in urban areas. The proportion of never married is higher in urban population. It may be explained by the slightly higher age at marriage and the more youthful population in urban areas.

The rise in the age at marriage of the total population may be seen from the marital status distribution by age-groups. The proportion of never married in age-group 0—14 has increased both for males and females, while for age-group 15—34, it has increased for males alone.

**Child Woman Ratio**

The table in the next column shows the child woman ratios for 1951 and 1961, i.e., the number of children 0—4 years age-group per 1,000 women of 15—44 years age-group as well as for every 1,000 married women of 15—44 years age-group. The proportion of widows of 15—44 years age-group to 1,000 married women of 15—44 years age-group is also shown for comparison.

| | | No. of children 0—4 years age-group per 1,000 women of 15—44 years age-group | No. of children 0—4 years age-group per 1,000 married women of 15—44 years age-group | No. of widows per 1,000 married women (both in 15—44 years age-group) |
|---|---|---|---|---|
| 1951 District | Total .. | 626 | 723 | 122 |
| 1961 District | Total .. | 707 | 798 | 93 |
| | Rural .. | 708 | 797 | 95 |
| | Urban .. | 698 | 801 | 82 |

The child woman ratio for rural areas is higher than that for urban areas. When standardised for married women of 15—44 years age-group, it is higher in urban areas. This may indicate either a high fertility or a high survival rate in urban areas of the district. Over the decade the ratio has increased from 626 to 707. It may be due both to a higher birth-rate and somewhat reduced infant mortality.

The number of widows per 1,000 married women in the age-group 15—44 is reduced from 122 in 1951 to 93 in 1961. The incidence of widowhood is higher in rural areas than in urban areas.

**Migration**

The 1961 Census showed the proportions of population enumerated at place of birth and other places as shown on page (16).

*Proportions of Population by Places of Birth*

| | Total population | Place of enumeration | Elsewhere in the district | Outside the district but in Maharashtra | Outside Maharashtra |
|---|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) | (6) |
| Persons | 1,206,236 | 784,842 | 307,005 | 99,905 | 12,099 |
| Males | 611,787 | 496,241 | 75,224 | 31,778 | 7,221 |
| Females | 594,449 | 288,601 | 231,781 | 68,127 | 4,878 |
| Percentage to total population— | | | | | |
| Persons | 100·00 | 65·19 | 25·50 | 8·30 | 1·01 |
| Males | 100·00 | 81·29 | 12·32 | 5·21 | 1·18 |
| Females | 100·00 | 48·64 | 39·06 | 11·48 | 0·82 |

65·19 per cent of the population was enumerated at places of birth. This percentage for males is 81·29 but for females it is only 48·64. The difference is due to women married outside their places of birth. The proportion of females is higher among persons born elsewhere in the district and in other districts of Maharashtra.

The sex ratios in the district population by five-year age-groups for total, rural and urban areas are as follows :—

| Age-group | Sex Ratios | | |
|---|---|---|---|
| | Total | Rural | Urban |
| All ages | 972 | 979 | 927 |
| 0—4 | 1,033 | 1,040 | 988 |
| 5—9 | 1,002 | 1,007 | 973 |
| 10—14 | 866 | 877 | 802 |
| 15—19 | 1,029 | 1,064 | 860 |
| 20—24 | 1,188 | 1,212 | 1,051 |
| 25—29 | 986 | 981 | 1,023 |
| 30—34 | 893 | 887 | 930 |
| 35—39 | 852 | 858 | 814 |
| 40—44 | 855 | 860 | 829 |
| 45—49 | 837 | 838 | 831 |
| 50—54 | 902 | 897 | 932 |
| 55—59 | 829 | 827 | 841 |
| 60+ | 1,164 | 1,187 | 1,037 |

The rural-urban differentials of sex ratios are less in younger and older age-groups. These differences are more significant in young adult age-groups, among which the age-group 20—24 has the highest sex ratio. The high sex ratio in age-group 20—24 may be due to the movement of young adult males in search of jobs or for higher education outside the district. The sudden drop in the sex ratio for age-group 55—59 for total, rural and urban population may also be partly due to mis-reporting of ages of women of that group in the higher age-group.

The percentage distribution of male population born at the place of enumeration, born elsewhere within the district and born outside the district by nine categories of economic activity and of non-workers is shown below. An explanation of the nine categories will be found in the Explanatory Note to Part II, paragraphs 42 to 52.

The percentage of non-workers is lower in the population born at places other than the place of enumeration. The percentage of cultivators is higher for those born at the place of enumeration. The percentage of agricultural labourers is higher among the people born outside the place of enumeration which indicates seasonal migration for agricultural labour. Persons born outside the district have larger proportions in tertiary sector, i.e., in categories VII, VIII and IX.

**Size of the Household**

Table C-I-A in Part II shows the proportion of sample households classified by size. Percentage proportions of different types of households are as follows :—

| | Total | Rural | Urban |
|---|---|---|---|
| Single member | 6·31 | 5·88 | 8·95 |
| 2—3 members | 24·65 | 24·59 | 25·02 |
| 4—6 members | 46·06 | 46·84 | 41·26 |
| 7—9 members | 17·32 | 17·22 | 17·95 |
| 10 members and more | 5·66 | 5·47 | 6·82 |
| All sizes | 100·00 | 100·00 | 100·00 |

Among the different size groups, households with 4 to 6 members are more common (46·06 per cent) than others. The percentage distribution of rural and urban households by their size shows that single and small size households are more (33·97 per cent) in urban areas than in rural areas (30·47 per cent). The average size of the household is 4·90 in rural areas and 5·16 in urban areas.

*Percentage Distribution of Male Population by nine categories of Economic Activity and of Non-workers*

| | Categories of Workers | | | | | | | | | Non-workers |
|---|---|---|---|---|---|---|---|---|---|---|
| | I | II | III | IV | V | VI | VII | VIII | IX | |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) | (9) | (10) | (11) |
| District total | 26·46 | 18·34 | 3·63 | 2·80 | 0·98 | 1·51 | 2·72 | 0·73 | 4·66 | 38·17 |
| Born at place of enumeration | 29·91 | 17·04 | 3·71 | 2·49 | 0·71 | 0·47 | 2·35 | 0·39 | 3·20 | 39·73 |
| Elsewhere in the district | 12·79 | 26·45 | 3·57 | 4·10 | 1·88 | 5·07 | 3·72 | 1·41 | 9·78 | 31·23 |
| Outside the district | 8·74 | 19·52 | 2·85 | 4·22 | 2·70 | 7·84 | 5·51 | 3·83 | 13·46 | 31·33 |

**Household Composition**

Table C-I-B in Part II shows the distribution of sample households by the type of their composition. The percentage distribution of population of sample households by relationship for the district is shown below.

36·98 per cent of the males are heads of households as against only 2·95 per cent for females. Married sons are 7·96 per cent of the total males. 49·33 per cent males and 48·90 per cent females which incidentally form the largest group are never married, widowed or divorced relations. Proportion of unrelated persons is 1·09 per cent for males and only 0·21 per cent for females. 32·26 per cent females are spouses of heads of households. High proportion of females in other married relations includes the daughters-in-law and married daughters or sisters of the heads. The heads of the households and their spouses have a higher proportion in rural areas. The proportion of married sons is less in urban areas. It may indicate that the joint family is being replaced by the biological family more in urban areas. Unrelated persons have a higher proportion in urban areas. Domestic servants are included in this category and they appear to be staying with the households more in urban areas than in rural areas.

| | Total | | Rural | | Urban | |
|---|---|---|---|---|---|---|
| | Males | Females | Males | Females | Males | Females |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| (1) Heads of households .. .. .. | 36·98 | 2·95 | 37·19 | 2·83 | 35·66 | 3·67 |
| (2) Spouses of heads of households .. .. | 0·08 | 32·26 | 0·08 | 32·48 | 0·10 | 30·85 |
| (3) Married sons .. .. .. .. | 7·96 | .... | 8·31 | .... | 5·83 | .... |
| (4) Other married relations .. .. .. | 4·56 | 15·68 | 4·63 | 16·08 | 4·15 | 13·23 |
| (5) Never married, widowed or divorced relations .. | 49·33 | 48·90 | 48·77 | 48·42 | 52·75 | 51·91 |
| (6) Unrelated persons .. .. .. | 1·09 | 0·21 | 1·02 | 0·19 | 1·51 | 0·34 |
| Total .. | 100·00 | 100·00 | 100·00 | 100·00 | 100·00 | 100·00 |

**Population Projections**

On the basis of analysis of demographic data obtained in the 1961 Census, Professor K. V. Ramchandran of the Demographic Training and Research Centre, Chembur, Bombay, has on our request worked out projections for the total population, population in school-going ages (6—11 years) and the labour force (15—59 years) for the district for years 1966, 1971, 1976 and 1981. His projected estimates are shown in the next column.

| | Total Population (in '000) | Population in school-going ages 6—11 (in '000) | Labour force age-group 15—59 (in '000) |
|---|---|---|---|
| Actual 1951 .. | 1,011 | *176 | *535 |
| Actual 1961 .. | 1,206 | 203 | 644 |
| Projected 1966 .. | 1,361 | 208 | 728 |
| Projected 1971 .. | 1,524 | 233 | 828 |
| Projected 1976 .. | 1,715 | 249 | 954 |
| Projected 1981 .. | 1,939 | 263 | 1,102 |

*Estimated figures taken from 1951 Sample Census Tables.

## LANGUAGES

Table C-V in Part II shows the population by nine major languages for the district and each taluka and town separately. The distribution of languages by rural and urban areas of the district is as shown in the next column.

Marathi is the principal language and is the mother-tongue of 83·2 per cent of the population. In rural areas Marathi speakers account for 87·7 per cent of the population. They are, however, only 54·6 per cent in urban areas. Urdu speakers form 10·3 per cent of the total population of the district. Urdu is spoken more in urban areas where its speakers are 34·1 per cent against only 6·5 per cent in rural areas. The speakers of Banjari language are concentrated in rural areas so also the Pardhi speakers. The speakers of all other languages are on the other hand concentrated in urban areas.

| Language | Percentage to total population | | | Percentage of each language in | |
|---|---|---|---|---|---|
| | Total | Rural | Urban | Rural Areas | Urban Areas |
| (1) Banjari .. | 3·08 | 3·56 | 0·06 | 99·72 | 0·28 |
| (2) Gujarati .. | 0·14 | 0·07 | 0·59 | 42·19 | 57·81 |
| (3) Hindi .. | 1·79 | 0·98 | 6·86 | 47·03 | 52·97 |
| (4) Kannada .. | 0·06 | 0·04 | 0·16 | 60·06 | 39·94 |
| (5) Marathi .. | 83·16 | 87·74 | 54·62 | 90·92 | 9·08 |
| (6) Pardhi .. | 0·06 | 0·06 | 0·09 | 81·73 | 18·27 |
| (7) Sindhi .. | 0·04 | N | 0·29 | 1·43 | 98·57 |
| (8) Telugu .. | 1·15 | 0·91 | 2·64 | 68·33 | 31·67 |
| (9) Urdu .. | 10·33 | 6·52 | 34·07 | 54·41 | 45·59 |
| (10) Others .. | 0·19 | 0·12 | 0·62 | 54·24 | 45·76 |
| All Languages .. | 100·00 | 100·00 | 100·00 | 86·18 | 13.82 |

N=Negligible.

The comparative position of the languages in 1901, 1951 and 1961 is as follows :—

| Language | Percentage to total population | | |
|---|---|---|---|
| | 1901 | 1951 | 1961 |
| (1) Banjari .. .. | 0·67 | 2·18 | 3·08 |
| (2) Gujarati .. .. | 0·09 | 0·12 | 0·14 |
| (3) Hindi .. .. | 1·99 | 1·79 | 1·79 |
| (4) Kannada .. .. | 0·14 | 0·04 | 0·06 |
| (5) Marathi .. .. | 87·52 | 83·47 | 83·16 |
| (6) Pardhi .. .. | 0·02 | 0·09 | 0·06 |
| (7) Sindhi .. .. | .. | 0·02 | 0·04 |
| (8) Telugu .. .. | 0·90 | 1·04 | 1·15 |
| (9) Urdu .. .. | 8·41 | 10·96 | 10·33 |
| (10) Others .. .. | 0·26 | 0·29 | 0·19 |
| All Languages .. .. | 100·00 | 100·00 | 100·00 |

The proportion of Marathi speakers had decreased from 87·52 per cent in 1901 to 83·16 per cent in 1961. The proportions of Telugu, Gujarati and Hindi speakers have remained fairly constant. The proportions of Banjari and Urdu speakers have increased from 1901. The 1951—61 decade however shows very small changes. Both Marathi and Urdu have suffered small losses in proportion and Telugu has benefited in turn. It is because of the influx of a large number of Telugu-speaking workers engaged in the construction of Purna project dams and canals.

## RELIGIONS

Table C-VII in Part II shows the population by religions for the district and each taluka and town separately. The distribution of religions by rural and urban areas of the district is as follows :—

| | Percentage to total population | | | Percentage of each religion in | |
|---|---|---|---|---|---|
| | Total | Rural | Urban | Rural Areas | Urban Areas |
| (1) Buddhists .. | 11·12 | 12·29 | 3·80 | 95·28 | 4·72 |
| (2) Christians .. | 0·07 | 0·03 | 0·36 | 30·73 | 69·27 |
| (3) Hindus .. | 77·88 | 80·74 | 60·08 | 89·34 | 10·66 |
| (4) Jains .. | 0·48 | 0·29 | 1·62 | 53·08 | 46·92 |
| (5) Muslims .. | 10·42 | 6·63 | 34·02 | 54·86 | 45·14 |
| (6) Others .. | 0·03 | 0·02 | 0·12 | 49·75 | 50·25 |
| All Religions .. | 100·00 | 100·00 | 100·00 | 86·18 | 13·82 |

Nearly 78 per cent of the population reported their religion as Hindu. Hindus form 80·74 per cent in rural areas and 60·08 per cent in urban areas. Buddhists account for 12·29 per cent in rural areas and 3·80 per cent in urban areas. Muslims are 6·63 per cent in rural areas and 34·02 per cent in urban areas. Christians and followers of other religions are similarly more numerous in urban areas. The Hindus and the Buddhists are more numerous in rural than urban areas. The Christians are the most urbanised group and the Buddhists the least urbanised.

The comparative position of the religions in 1901 and 1961 is as follows :—

| | Percentage to total population | |
|---|---|---|
| | 1901 | 1961 |
| (1) Buddhists .. | .... | 11·12 |
| (2) Christians .. | 0·01 | 0·07 |
| (3) Hindus .. | 90·34 | 77·88 |
| (4) Jains .. | 0·54 | 0·48 |
| (5) Muslims .. | 9·03 | 10·42 |
| (6) Others .. | 0·08 | 0·03 |
| All Religions .. | 100·00 | 100·00 |

The proportion of Hindus has gone down from 90 per cent in 1901 to 78 per cent in 1961 because some persons belonging to Hindu Scheduled Castes returned their religion as Buddhist or Nav-Bauddha. The combined proportion for Hindus and Buddhists is less by 1·33 per cent than what it was in 1901. The proportion of Muslims has correspondingly increased during the same period.

Sex ratios for religious groups are as follows :—

Buddhists 1,006, Christians 665, Hindus 969, Jains 812, Muslims 965, All religions 972.

Higher sex ratio for Buddhists may indicate out-migration of their males for work.

## SCHEDULED CASTES

Table SCT-I-Part A in Part II shows the population and its distribution by workers and non-workers for each Scheduled Caste for the district and each taluka separately. Actually, 32 castes are notified as Scheduled Castes in the district but only 18 are reported in the 1961 Census. The distribution of these 18 Scheduled Castes by rural and urban areas of the district is given on page (19).

The remaining 14 Scheduled Castes for which no one was returned in the district in 1961 are as follows :—

(1) Anamuk.
(2) Aray (Mala).
(3) Arwa (Mala).
(4) Bindla.
(5) Byagara.
(6) Chalvadi.
(7) Mala Hannai.
(8) Mala Masti.
(9) Mala Sale.
(10) Mashti.
(11) Mitha Ayyalvar.
(12) Mochi.
(13) Samagara.
(14) Sindhollu.

Out of the 18 Scheduled Castes reported in the district, the largest number is of Mangs (which includes Mang Garodi). The second largest group is of Mahars while Chambhars, Dhors and Holeya formed respectively the third, the fourth and the fifth groups. Mangs are found in almost all talukas. The majority of Mahars are from Gangakhed taluka. The remaining 12 Scheduled Castes together have a population of 758 which accounts for less than 0·1 per cent of the total population. Mala Dasari and Mala Sanyasi have only one person each in the district.

The comparative position of the Scheduled Castes population in 1951 and 1961 within the district is as follows :—

| | Percentage to total population in | | |
|---|---|---|---|
| | Total area | Rural areas | Urban areas |
| All Scheduled Castes— | | | |
| 1951 .. | 18·88 | 20·65 | 9·03 |
| 1961 .. | 6·96 | 7·21 | 5·42 |

The reduction of the proportion from 18·88 to 6·96 is the result of a large number of persons from

*Distribution of Scheduled Castes in rural and urban areas of the district*

| Name of Scheduled Caste | Population | | Percentage to total population of the district | Percentage of each Scheduled Caste population in | |
|---|---|---|---|---|---|
| | Males | Females | | Rural Areas | Urban Areas |
| (1) | (2) | (3) | (4) | (5) | (6) |
| *All Scheduled Castes | 41,890 | 42,086 | 6·96 | 89·25 | 10·75 |
| (1) Beda Jangam | 2 | 3 | N | 100·00 | .... |
| (2) Bhangi | 201 | 175 | 0·03 | 75·80 | 24·20 |
| (3) Chambhar | 4,875 | 4,892 | 0·81 | 86·03 | 13·97 |
| (4) Dakkal | 8 | 10 | N | 100·00 | .... |
| (5) Dhor | 1,170 | 1,154 | 0·19 | 50·22 | 49·78 |
| (6) Ellamalwar | 12 | 13 | N | 100·00 | .... |
| (7) Holeya | 739 | 750 | 0·12 | 100·00 | .... |
| (8) Holeya Dasari | 4 | 5 | N | 100·00 | .... |
| (9) Kolupulvandlu | 6 | 3 | N | 100·00 | .... |
| (10) Madiga | 67 | 61 | 0·01 | .... | 100·00 |
| (11) Mahar | 14,289 | 14,328 | 2·37 | 92·15 | 7·85 |
| (12) Mala | 64 | 41 | 0·01 | 0·95 | 99·05 |
| (13) Mala Dasari | 1 | .... | N | 100·00 | .... |
| (14) Malajangam | 42 | 24 | 0·01 | 96·97 | 3·03 |
| (15) Mala Sanyasi | 1 | .... | N | 100·00 | .... |
| (16) Mang<br>(17) Mang Garodi | 20,220 | 20,483 | 3·37 | 90·36 | 9·64 |
| (18) Manne | 12 | 3 | N | .... | 100·00 |

*Inclusive of persons from the Scheduled Castes who have not reported their individual caste. N=Negligible.

Mahar caste returning their religion in 1961 Census as Buddhist or Nav-Bauddha. As a result of the change of religion they are not enumerated as Scheduled Castes, as the Scheduled Castes can be from Hindu and Sikh religions only. But for that change of religion, the total population of the Scheduled Castes would have been over 18 per cent of the district population in 1961.

**Literacy**

Tables SCT-III-Parts A(i) and B(i) in Part II show the literacy and educational levels for each Scheduled Caste.

The percentages of literacy for the district population, for all Scheduled Castes and each Scheduled Caste are shown below.

The Scheduled Castes as a group are very much behind in literacy than the general population of the district. Their females, particularly, appear to be very much behind. Mahars and Mangs, the two predominant groups among the Scheduled Castes have very low literacy rates.

| Name of Scheduled Caste | Percentage of Literacy | | | | | |
|---|---|---|---|---|---|---|
| | Rural | | | Urban | | |
| | Total | Males | Females | Total | Males | Females |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| DISTRICT AVERAGE | 12·61 | 21·83 | 3·20 | 32·58 | 46·17 | 17·92 |
| All Scheduled Castes | 3·68 | 6·73 | 0·62 | 14·26 | 26·02 | 3·63 |
| (1) Beda Jangam | 40·00 | 100·00 | No Literates | .... | .... | .... |
| (2) Bhangi | 5·61 | 10·60 | No Literates | 23·08 | 34·00 | 9·76 |
| (3) Chambhar | 6·20 | 11·58 | 0·63 | 17·74 | 32·45 | 6·16 |
| (4) Dakkal | 16·67 | 37·50 | No Literates | .... | .... | .... |
| (5) Dhor | 7·37 | 14·75 | No Literates | 15·47 | 28·11 | 2·46 |
| (6) Ellamalwar | 4·00 | 8·33 | No Literates | .... | .... | .... |
| (7) Holeya | 2·69 | 5·28 | 0·13 | .... | .... | .... |
| (8) Holeya Dasari | 33·33 | 75·00 | No Literates | .... | .... | .... |
| (9) Kolupulvandlu | No Literates | | | .... | .... | .... |
| (10) Madiga | .... | .... | .... | 27·34 | 44·78 | 8·20 |
| (11) Mahar | 3·94 | 6·82 | 1·08 | 18·42 | 31·12 | 5·56 |
| (12) Mala | 100·00 | 100·00 | .... | 32·69 | 47·62 | 9·76 |
| (13) Mala Dasari | No Literates | | | .... | .... | .... |
| (14) Malajangam | 21·88 | 28·57 | 9·09 | 100·00 | No Literates | 100·00 |
| (15) Mala Sanyasi | 100·00 | 100·00 | No Literates | .... | .... | .... |
| (16) Mang<br>(17) Mang Garodi | 2·76 | 5·19 | 0·32 | 9·00 | 17·94 | 1·59 |
| (18) Manne | .... | .... | .... | 53·33 | 66·67 | No Literates |

### Economic Activity

The industrial classification of persons at work and non-workers for the district average, for all Scheduled Castes and for each Scheduled Caste is as follows :—

| | Percentage of workers in categories | | | |
|---|---|---|---|---|
| | Cultivation | Agricultural labour | All other activities | Non-workers |
| DISTRICT AVERAGE.. | 21·39 | 19·98 | 10·38 | 48·25 |
| All Scheduled Castes | 2·70 | 40·29 | 16·22 | 40·79 |
| (1) Beda Jangam.. | .. | .. | 40·00 | 60·00 |
| (2) Bhangi .. | 17·29 | 20·48 | 13·56 | 48·67 |
| (3) Chambhar .. | 4·94 | 28·61 | 22·41 | 44·04 |
| (4) Dakkal .. | .. | 11·11 | .. | 88·89 |
| (5) Dhor .. | 1·68 | 12·56 | 33·74 | 52·02 |
| (6) Ellamalwar .. | 4·00 | 16·00 | 16·00 | 64·00 |
| (7) Holeya .. | 7·25 | 49·23 | 6·38 | 37·14 |
| (8) Holeya Dasari | 44·45 | 33·33 | 11·11 | 11·11 |
| (9) Kolupulvandlu | 11·11 | 44·45 | .. | 44·44 |
| (10) Madiga .. | 1·56 | .. | 28·13 | 70·31 |
| (11) Mahar .. | 2·81 | 43·13 | 13·42 | 40·64 |
| (12) Mala .. | .. | .. | 22·86 | 77·14 |
| (13) Mala Dasari .. | .. | .. | .. | 100·00 |
| (14) Malajangam .. | 16·67 | 33·33 | 10·61 | 39·39 |
| (15) Mala Sanyasi.. | 100·00 | .. | .. | .. |
| (16) Mang .. | 1·79 | 42·55 | 16·15 | 39·51 |
| (17) Mang Garodi.. | | | | |
| (18) Manne .. | .. | .. | 40·00 | 60·00 |

The proportion of workers is larger for the Scheduled Castes than that of the total population of the district. The proportion of workers in cultivation is very much lower and that of agricultural labourers is more than twice as great as the district average. This is due to the association of a few Scheduled Castes with certain services as well as to a fewer persons owning lands amongst them.

### Size of Land Cultivated

Tables C-I and SCT-V–Part A in Part II show a broad classification of cultivating households by size of land cultivated for the district rural population and all Scheduled Castes in rural areas, respectively. The proportions are as follows :—

| Size of land cultivated | District Rural Population | | All Scheduled Castes | |
|---|---|---|---|---|
| | No. of sample households | Percentage | No. of sample households | Percentage |
| All sizes .. | 22,407 | 100·00 | 302 | 100·00 |
| Less than 5 acres .. | 1,973 | 8·80 | 58 | 19·21 |
| 5 to 9·9 acres .. | 3,774 | 16·84 | 80 | 26·49 |
| 10 to 29·9 acres .. | 10,974 | 48·98 | 135 | 44·70 |
| 30 acres and over .. | 5,686 | 25·38 | 29 | 9·60 |

Out of a sample of 22,407 cultivating households, 302 or about 1·35 per cent households are from the Scheduled Castes in rural areas as against their population which is 7·21 per cent of the total rural population of the district. 19·21 per cent of the cultivating households of the Scheduled Castes are cultivating less than 5 acres of land as against the corresponding average of 8·80 per cent for the district. The percentage of households cultivating land over 5 acres among Scheduled Castes is 80·79 per cent as against the corresponding average of 91·20 per cent for the district. This indicates that the participation of Scheduled Castes in agriculture is more as agricultural labourers.

## SCHEDULED TRIBES

Table SCT-I–Part B in Part II shows the population of Scheduled Tribes by each Scheduled Tribe separately. Actually, 7 tribes are notified as Scheduled Tribes in the district but only 5 are reported in the district in 1961 Census. The distribution of the Scheduled Tribe population by rural and urban areas is as follows:—

| Name of Scheduled Tribe | Population | | Percentage to total population of the district | Percentage of each Scheduled Tribe population in | |
|---|---|---|---|---|---|
| | Males | Females | | Rural Areas | Urban Areas |
| (1) | (2) | (3) | (4) | (5) | (6) |
| *All Scheduled Tribes .. .. .. | 17,487 | 17,351 | 2·89 | 100·00 | .... |
| (1) Andh .. .. .. .. | 17,166 | 17,076 | 2·84 | 100·00 | .... |
| (2) Bhil .. .. .. .. | 137 | 146 | 0·02 | 100·00 | .... |
| (3) Gond .. .. .. .. | 4 | 3 | N | 100·00 | .... |
| (4) Koya .. .. .. .. | .... | 2 | N | 100·00 | .... |
| (5) Pardhan .. .. .. .. | 113 | 124 | 0·02 | 100·00 | .... |

*Inclusive of persons from the Scheduled Tribes who have not reported their individual tribe. N=Negligible.

The remaining 2 Scheduled Tribes for which no one was reported in the district in 1961, are (1) Kolam and (2) Thoti.

The Scheduled Tribe population is predominantly of Andhs. The district has more than half of the State population of that tribe. There are 283 Bhils and 237 Pardhans. Apart from Andh, the remaining tribes together have hardly 529 persons which form less than 0·05 per cent of the total population.

Andhs are concentrated in Kalamnuri taluka, as more than 50 per cent of their population in the district is from that taluka. The other talukas having population of Andhs are Jintur, Hingoli and Basmath. Bhils are mostly in Partur taluka while Pardhans are from Partur, Pathri, Parbhani and Gangakhed talukas.

The Scheduled Tribe population has increased from 25,505 or 2·52 per cent of total population in 1951 to 34,838 or 2·89 per cent in 1961.

**Literacy and Education**

The Scheduled Tribes are very much behind in literacy and education. Bhils appear to be the most depressed group as the literacy rate for them is only 1·06 per cent against 5·48 per cent and 7·17 per cent respectively for Andhs and Pardhans. Moreover, all the females among Bhils are illiterate, as against a very low female literacy rate of 0·43 per cent for the Scheduled Tribes in the district.

**Economic Activity**

The Scheduled Tribes as a group have a larger proportion of workers than the total population of the district. About 95 per cent of the workers from Scheduled Tribes work as cultivators and agricultural labourers. The proportion of cultivators is about 60 per cent. Unlike the Scheduled Castes, the Scheduled Tribes participate more as cultivators than agricultural labourers.

## WELFARE OF BACKWARD CLASSES

The subject of welfare of Scheduled Castes, Scheduled Tribes and other Backward Classes in the district is now in the purview of the Zilla Parishad. In the membership of Standing Committee which is the most powerful committee of the Zilla Parishad at least two members from Scheduled Castes, Scheduled Tribes and other socially and educationally backward classes are required to be elected by the Parishad. This Standing Committee acts as the subject committee for that subject and the District Social Welfare Officer works under it. The Zilla Parishad is also legally required to spend adequate amounts for the amelioration of the conditions of the Scheduled Castes, Scheduled Tribes and of any socially and educationally backward classes and in particular for removal of untouchability.

Various schemes for the welfare of Scheduled Castes, Scheduled Tribes and other educationally or socially backward classes are in operation in the district:—

(1) *Educational.*—These include schemes of granting tuition fees at all stages of education irrespective of age and income, examination fees of recognised examinations and scholarships to the students from the Scheduled Castes, Scheduled Tribes, nomadic and semi-nomadic tribes, Vimukta Jatis and the Backward Classes. The concession is awarded in the Primary schools, High schools or Technical schools. 1,651 students were benefited from the schemes on which Rs. 46,720 were spent during the year 1962-63. An amount of Rs. 91,053 were spent on 22 backward class hostels and one cosmopolitan hostel in the district during the year 1962-63.

(2) *Schemes for Economic Uplift.*—These include schemes of granting loan-*cum*-subsidy for Cottage Industries and Professions. Rs. 22,225 were spent on 153 beneficiaries. Assistance for purchase of milch cattle to the Scheduled Castes and other backward classes was given to the extent of Rs. 7,500 to 49 beneficiaries. Rs. 42,050 were also given for purchase of agricultural implements to 389 beneficiaries.

(3) *Housing.*—A number of housing societies of Backward Classes have been formed in the district. These societies construct houses for their members. Financial assistance in the form of loans and subsidies is given to those societies. Assistance in cash or kind for repairs to houses of Scheduled Castes and other backward classes is also provided. Under this scheme Rs. 7,100 were spent on 85 beneficiaries during 1962-63.

(4) *Drinking Water Wells.*—An amount of Rs. 40,600 was spent under this scheme. Rs. 800 were spent for repairs of 4 wells in or near Scheduled Caste localities for 4 beneficiaries while Rs. 18,250 were incurred for 16 drinking water wells for Scheduled Castes during 1962-63.

(5) *Medical aid to Scheduled Castes.*—Monetary aid is given to deserving persons belonging to the Scheduled Castes and Rs. 2,000 were spent during the year 1962-63 on 72 beneficiaries.

(6) *Schemes for Removal of Untouchability.*—These include various schemes of publicity against untouchability. Sanskar Kendras and Balwadis are organised, film shows and gatherings are addressed at fairs and other places. Kirtan programmes and Melas, inter-caste dinners, celebration weeks and days are also arranged. Building sites are given to Scheduled Castes in caste Hindu localities and subsidy is paid to caste Hindu landlords for letting their premises on hire to Scheduled Castes. Prizes are also awarded to villages which show outstanding work for removal of untouchability.

Rs. 8,737 were spent under the schemes during the year 1962-63.

The schemes which were already in operation before the Third Five-Year Plan are treated as committed schemes and those added under the Third Plan are separately treated as Plan Schemes. The expenditure described above against each scheme is out of the committed schemes and include expenditure on the Plan Schemes. There are in addition some more schemes sponsored by the Central Government.

### Economic Criterion of Backwardness

Castewise basis of classification of " Other Backward Classes " has now been replaced by a new classification based on income. The income limit was raised from Rs. 900 per annum to Rs. 1,200 per annum with effect from 1st June 1960. All persons whose annual income from all sources does not exceed this limit are irrespective of their religion, caste or community treated as belonging to the " Other Backward Classes ".

### Concessions to Buddhists

From 1st May 1960, the Scheduled Castes converts to Buddhism are treated as eligible for all concessions and facilities available to Scheduled Castes except the statutory concessions under the Constitution and certain special schemes for removal of untouchability, etc., which cannot by their very nature apply to non-Hindus.

## EDUCATION

The district has made good progress in the field of education only during the decade 1951—61. The number of Primary and Secondary institutions as well as male and female literacy rates have increased very substantially during that period.

### Growth of Literacy

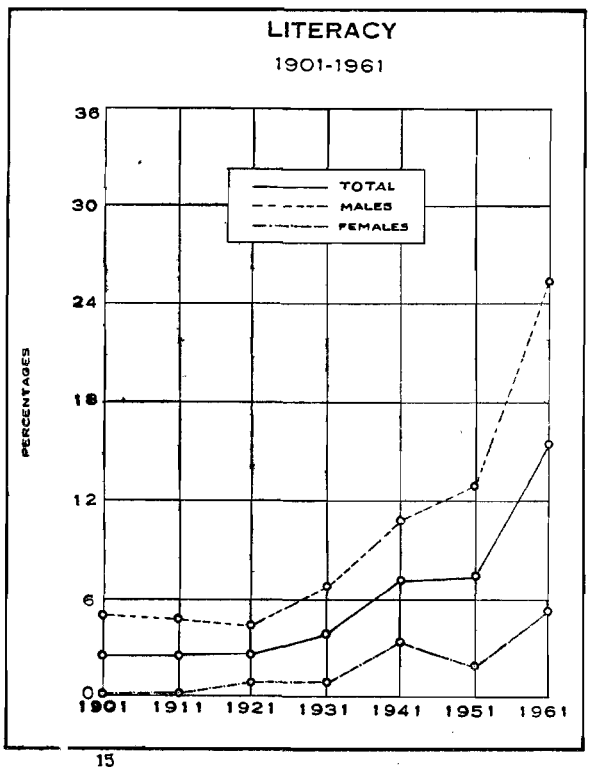

Percentage of literacy in the district for total, males and females since 1901 is as follows :—

| | Total | Males | Females |
|---|---|---|---|
| 1901 .. .. | 2·50 | 4·93 | 0·06 |
| 1911 .. .. | 2·45 | 4·70 | 0·19 |
| 1921 .. .. | 2·56 | 4·28 | 0·81 |
| 1931 .. .. | 3·82 | 6·67 | 0·87 |
| 1941 .. .. | 7·11 | 10·75 | 3·31 |
| 1951 .. .. | 7·40 | 12·90 | 1·90 |
| 1961 .. .. | 15·37 | 25·27 | 5·19 |

Figure to the right shows this growth of literacy in the district for total population, males and females separately.

The picture is of stagnation up to 1921, slow improvement up to 1951 and very rapid progress during 1951 and 1961. The literacy rates have almost doubled during the last decade. They are, however, still far below the respective State averages.

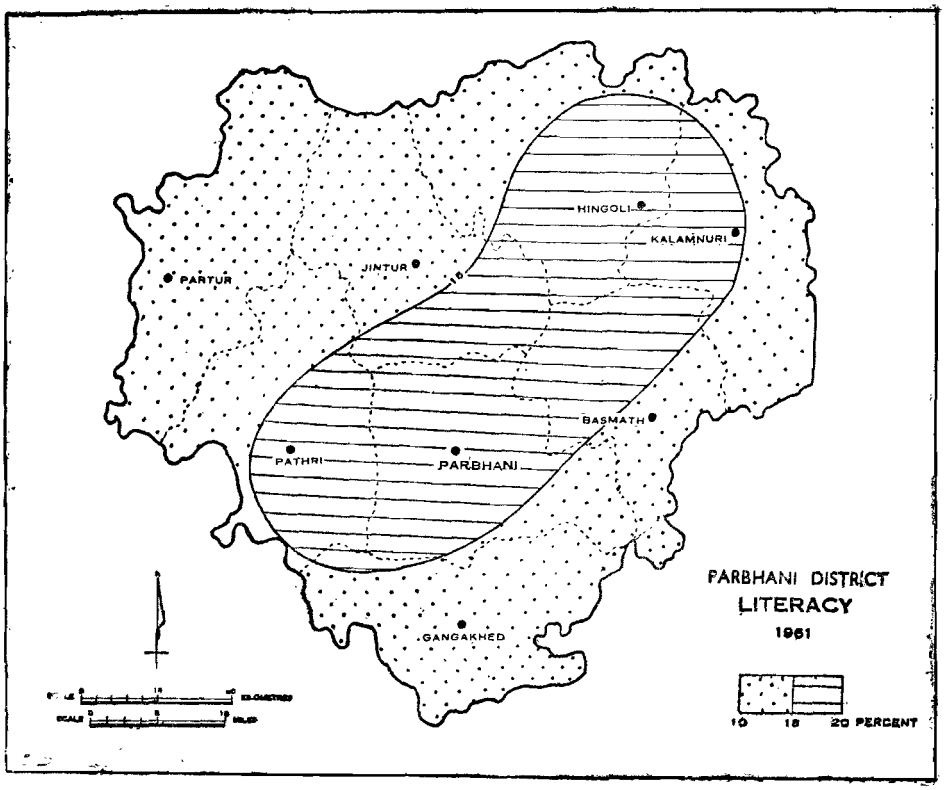

The Primary Census Abstract in Part II shows the number of literate males and females for total, rural and urban areas of each taluka separately. The Village

15

Directory in Part I furnishes such numbers for each village and for each ward of every town separately. Percentage proportions of literates out of the total population for males and females are shown below for total, rural and urban areas of each taluka separately :—

| State/District/Taluka | Total | | | Rural | | | Urban | | |
|---|---|---|---|---|---|---|---|---|---|
| | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) | (9) | (10) |
| MAHARASHTRA .. .. | 29·82 | 42·04 | 16·76 | 21·46 | 33·51 | 9·34 | 51·07 | 61·62 | 37·90 |
| PARBHANI DISTRICT .. | 15·37 | 25·27 | 5·19 | 12·61 | 21·83 | 3·20 | 32·58 | 46·17 | 17·92 |
| 1 Partur Taluka .. .. | 13·12 | 22·24 | 3·75 | 12·01 | 20·89 | 2·94 | 26·00 | 37·39 | 13·50 |
| 2 Jintur Taluka .. .. | 14·19 | 23·80 | 4·25 | 13·08 | 22·46 | 3·44 | 29·64 | 41·56 | 16·07 |
| 3 Hingoli Taluka .. .. | 17·66 | 28·28 | 6·70 | 14·16 | 24·05 | 4·01 | 38·09 | 52·29 | 22·78 |
| 4 Kalamnuri Taluka.. .. | 15·49 | 26·05 | 4·92 | 14·36 | 24·70 | 4·01 | 33·45 | 47·06 | 19·44 |
| 5 Pathri Taluka .. .. | 15·59 | 25·44 | 5·58 | 11·71 | 20·33 | 3·02 | 28·89 | 42·62 | 14·52 |
| 6 Parbhani Taluka .. .. | 18·84 | 29·32 | 7·88 | 12·32 | 21·38 | 3·01 | 36·39 | 49·98 | 21·45 |
| 7 Basmath Taluka .. .. | 15·03 | 25·32 | 4·36 | 12·82 | 22·47 | 2·88 | 32·79 | 47·47 | 16·66 |
| 8 Gangakhed Taluka. .. | 12·28 | 20·93 | 3·34 | 10·76 | 18·88 | 2·39 | 27·01 | 40·52 | 12·71 |

Within the district, Parbhani taluka has the highest literacy for total population. But Kalamnuri taluka has the highest literacy for rural areas, both for males and females. For urban areas Hingoli taluka has the highest literacy for total population and for males and females as well.

The figure above shows the spread of literacy in the district by isopleths. The region between Pathri, Parbhani, Kalamnuri and Hingoli talukas has high literacy rates because it contains a large number of medium sized towns.

**Literacy by Age**

The percentage of literates by age-groups for the district total, rural and urban areas are as shown below. Actual figures are shown in Table C-III-A, B and C in Part II which also gives figures for different educational levels separately.

Average literacy rates are the highest in the age-group 15—34 in the case of males. This indicates that literacy rates have improved only recently and that there has not been any persistent educational activity over a long period. In the case of females, the high figure for age-group 5—14 indicates that education of females received attention very recently.

**Primary Education**

Table 15 in Part III shows the number of Primary schools and pupils in them for the district and each taluka in 1951, 1956 and 1961.

The number of Primary schools and their classification as on 31st March 1962 are as follows :—

| | Total | Basic | | | Non-basic | | |
|---|---|---|---|---|---|---|---|
| | | Senior basic | Junior basic | Single Teacher | Single Teacher | I-IV Multi-Teacher | Middle I-VII |
| Total number of Schools. | 1,128 | 20 | 51 | 1 | 747 | 252 | 57 |
| Central Government. | 4 | .. | .. | .. | 2 | 2 | .. |
| Zilla Parishad.. | 1,116 | 20 | 51 | 1 | 744 | 244 | 56 |
| Private .. | 8 | .. | .. | .. | 1 | 6 | 1 |

| Age-group | Total | | | Rural | | | Urban | | |
|---|---|---|---|---|---|---|---|---|---|
| | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) | (9) | (10) |
| All ages .. .. .. | 15·37 | 25·27 | 5·19 | 12·61 | 21·83 | 3·20 | 32·58 | 46·17 | 17·92 |
| 5—14 .. .. .. | 18·66 | 27·71 | 9·04 | 15·51 | 24·48 | 6·06 | 37·89 | 46·93 | 27·79 |
| 15—34 .. .. .. | 21·01 | 35·49 | 6·84 | 17·28 | 30·95 | 4·04 | 44·05 | 62·67 | 24·76 |
| 35—59 .. .. .. | 14·92 | 25·54 | 2·51 | 12·09 | 21·38 | 1·26 | 32·92 | 51·78 | 10·57 |
| 60+ .. .. .. | 10·24 | 21·11 | 0·91 | 7·95 | 16·82 | 0·47 | 23·73 | 44·53 | 3·67 |

There has been a rapid growth in the number of Primary schools in the district during the last ten years. The number rose from 483 in 1951 to 712 in 1956 and to 1,130 in 1961. On 31st March 1962, it stood at 1,128. Out of the 1,128 Primary schools, 1,116 or 99 per cent are now managed by the Zilla Parishad (previously by the State Government) and only 8 schools are managed by private institutions. The State Government's share, in the year 1961-62, was 98·7 per cent of the total expenditure. The expenditure on Primary education is incurred by the State Government through grants-in-aid to the Zilla Parishad and building loans and grants to primary teachers' training colleges. Similarly, wards of parents whose annual income does not exceed Rs. 1,200 get free education. The cost borne by the schools on this account is reimbursed from the State Government. Students from Scheduled Castes and Scheduled Tribes get free education at the cost of the Government and scholarships are given to them at the rate of Rs. 3 per year in I and II standards and Rs. 6 per year in III and IV standards. Government also gives aid to backward class and mixed hostels for meeting their cost on students belonging to Scheduled Castes and Scheduled Tribes.

The State Government's policy of converting primary schools into basic schools has also made steady progress in the district. At the end of the First Five-Year Plan there were 26 basic schools. On 31st March 1962, the number stood at 72.

By 31st March 1962, 12 towns and 1,038 villages in the district had primary schools and 17 villages had schooling facilities, i.e., primary schools situated within a mile from the village. 462 villages did not have even schooling facilities. Total number of teachers was 2,055. Out of them, 405 or 19·7 per cent were trained teachers.

Other indices of the progress of Primary education in the district compared to those of the State averages are as follows :—

*(As on 31st March 1962)*

| | Parbhani District | Maharashtra |
|---|---|---|
| Average population served by a primary school | 1,082 | 1,135 |
| Average area served by a primary school (square miles) | 4·3 | 3·4 |
| Pupils per primary teacher | 35 | 38 |
| Pupils per primary school | 63 | 127 |
| Average annual salary per teacher (Rs.) | 1,046 | 1,250 |
| Average annual expenditure per school (Rs.) | 2,219 | 4,903 |
| Average number of teachers per school | 1·8 | 3·3 |
| Percentage of trained teachers | 19·7 | 64·8 |

Free Primary education has been in force in this district since 1922. However, compulsory primary education for boys and girls between the age of 6 and 11 was first introduced in 20 villages of Parbhani taluka during the First Plan period.

One of the Third Plan Schemes is to extend the scheme of compulsory primary education to children in the age-group 6—11. A provision of Rs. 80·69 lakhs has been made for primary education in the Third Plan of the district. During the Plan period, additional 1,293 teachers would be appointed in primary schools. The number of students is expected to rise by 69,650. Similarly, 227 class-rooms are proposed to be built during this period.

**Secondary Education**

The number of institutions imparting Secondary education and number of pupils both boys and girls for the years 1951, 1956 and 1961 are shown in Table 15 in Part III. A list of High Schools with number of students for each of them may be seen in Table 16.

By 31st March 1962, the number of institutions and their classification in the district are as follows :—

| | Total | Vocational High Schools | Higher Secondary Schools | | Middle Secondary Schools |
|---|---|---|---|---|---|
| | | | Multi-purpose | Ordinary | |
| Zilla Parishad | 35 | .. | 2 | 32 | 1 |
| Private | 8 | .. | 1 | 7 | .. |

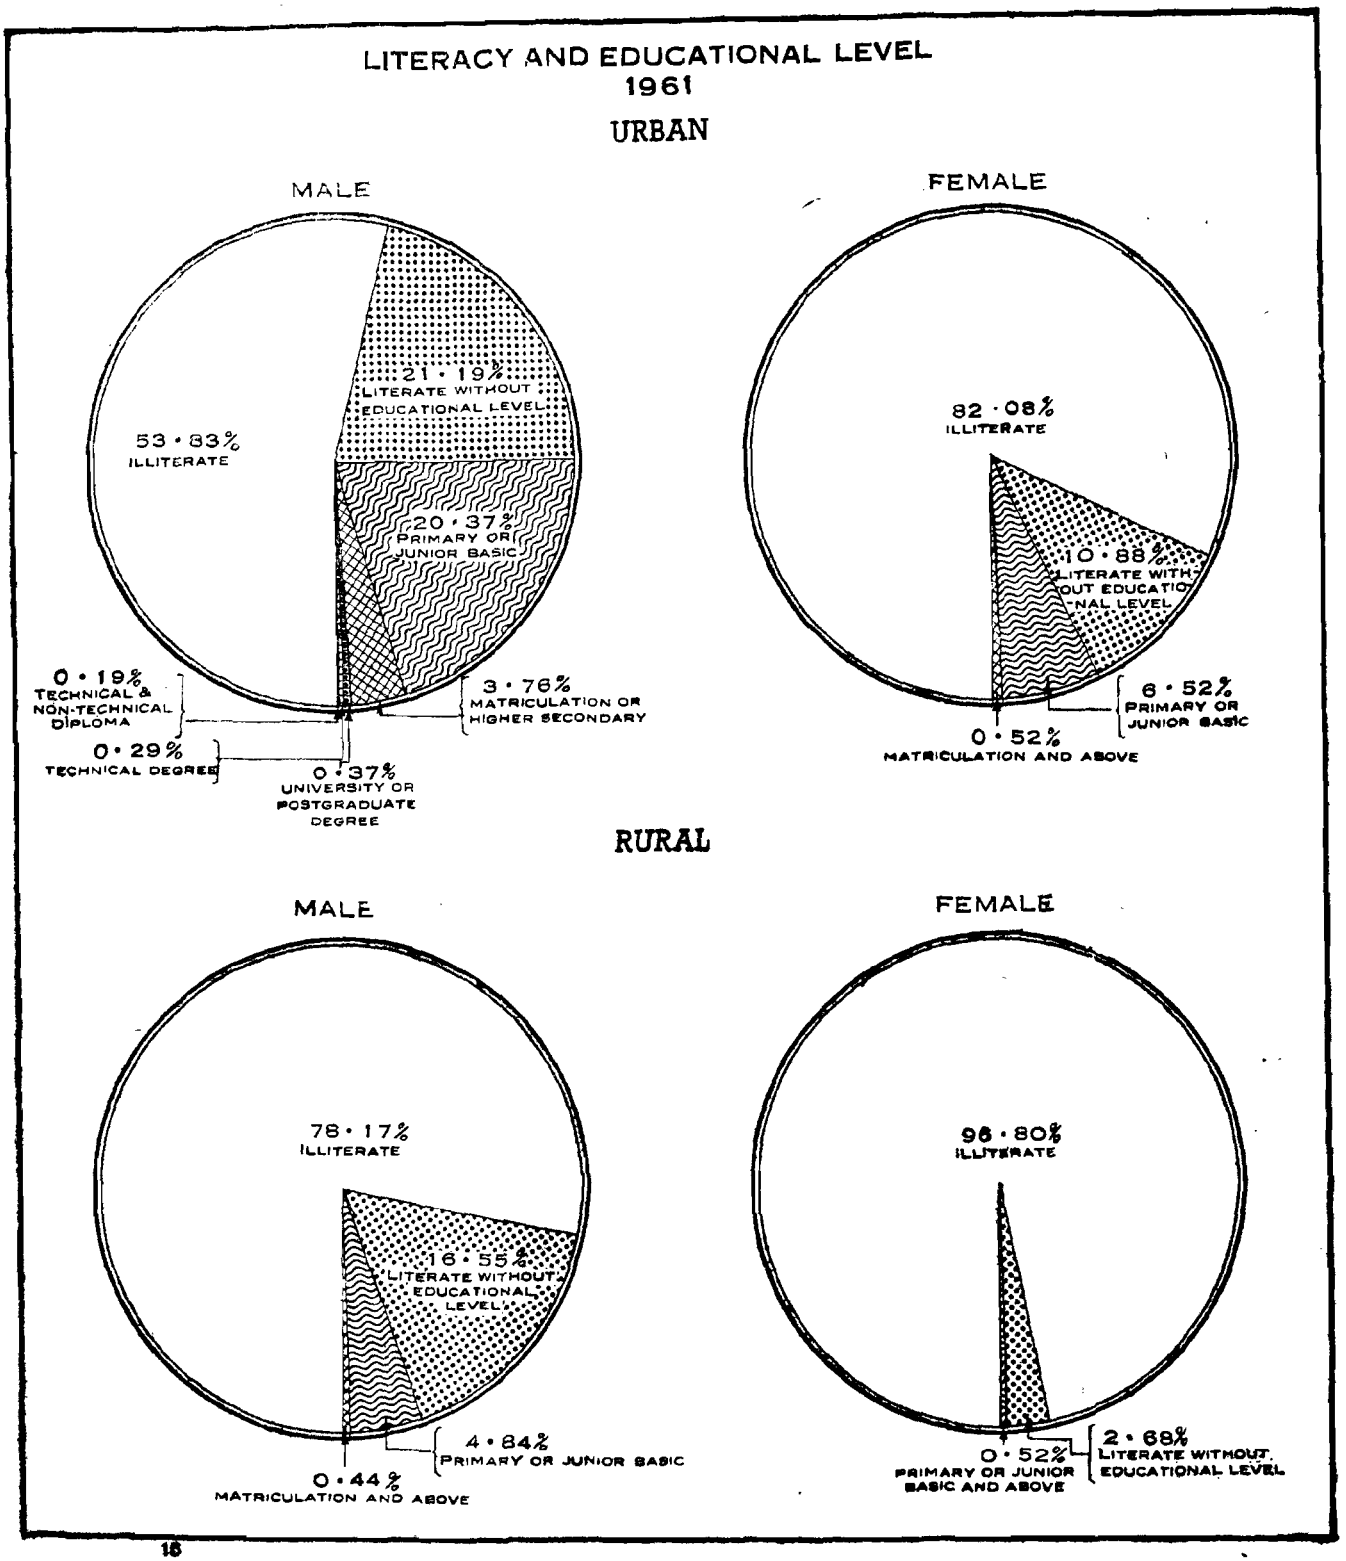

Total number of students on roll in the Secondary schools as on 31st March 1962 was 16,531. Out of them, 13,850 were boys and 2,681 girls. Total number of teachers was 664. Out of them, 292 were trained teachers. Percentage of trained teachers was thus 43·9. Other indices of Secondary education compared to those of the State averages are as follows :—

| | Parbhani District | Maharashtra |
|---|---|---|
| Population served by each high school | 28,391 | 13,805 |
| Area served by each school (square miles) | 112·8 | 40·8 |
| Pupil-teacher ratio | 25 | 25 |
| Pupils per secondary school | 384 | 338 |
| Average annual salary per teacher (Rs.) | 1,611 | 1,870 |
| Average annual expenditure (direct) per secondary school (Rs.) | 29,417 | 39,543 |
| Average number of teachers per secondary school | 15·4 | 13·7 |

The Figure on page (25) shows the proportions for literates and different educational levels among males and females for rural and urban areas separately.

The progress of Secondary education in the district before 1950-51 was very much disappointing. There were only five secondary institutions in that year. This number rose to 15 in 1955-56 and to 35 in 1960-61. This figure stood at 43 on 31st March 1962. The secondary schools are dispersed throughout the district. Partur, Jintur, Kalamnuri, Pathri and Gangakhed talukas have three each, which is the smallest number. Parbhani taluka has as many as 9 secondary schools.

Out of 43 secondary schools, 35 are managed by Zilla Parishad. The Government share in the total expenditure on Secondary education is (in 1961-62) 87·9 per cent and is incurred through different schemes of grants for maintenance, salaries, buildings, building sites, equipment, freeships, scholarships, loans, etc., and special concessions to Scheduled Castes, Scheduled Tribes or other Backward Class students.

Looking to the very fast growth in the number of pupils in primary schools, the number of pupils in the secondary schools may rise to 23,000 by 1965-66 and to 32,000 by 1970-71.

### H. S. C. and H. S. (M.P.) S. C. Examinations

Secondary School Certificate Examination Board, Poona, conducts these public examinations at the end of the secondary school course. These are different from S.S.C. examinations held in Bombay and Poona Divisions. Two examinations are held every year in March and October and Parbhani and Hingoli are the examination centres in the district. The number of candidates who appeared and passed from those centres during the year 1962 and 1963 are as follows :—

| | H. S. C. | | H. S. (M. P.) S. C. | |
|---|---|---|---|---|
| | *Appeared* | *Passed* | *Appeared* | *Passed* |
| Examination held in— | | | | |
| March 1962 .. | 1,026 | 374 | .. | .. |
| October 1962 .. | 243 | 61 | .. | .. |
| April 1963 .. | .. | .. | 238 | 115 |

### Higher Education

A list of colleges is given in Table 16 in Part III along with the 1960-61 number of students for each college.

There were no facilities of higher education available till 1956 when the College of Agriculture was opened by Government at Parbhani. In 1960-61, the number of students in this college was 203. Later on one more college, *viz.*, Shri Shivaji College was opened by a private institution at Parbhani. It provides education in Arts and Science and receives grants from Government.

### Technical Education

There are no facilities of technical education within the district, but the students from the district take benefit of the educational facilities provided by the Polytechnic at Aurangabad.

### Libraries

There are 9 libraries in this district recognised by the Government, as standing on 31st March 1964. During 1962-63, they were paid a grant of Rs. 1,510 by the Government.

### Printing Presses, Journals and Newspapers

There were three printing presses in 1960. One weekly is being published in the district at present.

### Cinema Theatres

There are 14 permanent cinema theatres and six touring talkies in the district as on 21st December 1963.

## HEALTH AND MEDICAL AMENITIES

The Health Department's work in the district is now in the purview of the Zilla Parishad. A subject committee looks after its working and the District Health Officer works as Secretary to that committee as well as the Officer-in-charge of health activities in the district.

### Drinking Water Supply

Column 5 in the Village Directory in Part I shows the sources of supply and adequacy of drinking water for each village in the district.

Two towns have protected water supply. Out of the remaining towns and villages, 7 towns and 1,040 villages draw drinking water from wells, 315 villages from rivers, 27 villages from nallahs and 3 towns and 135 villages have more than one of these sources of water. The water supply is not adequate in summer in the case of 2 towns and 264 villages.

### Malaria Eradication

A few years ago malaria was the most serious public health problem. A drive against malaria was launched during the First Plan period under the National Malaria Eradication Programme, by establishing a sub-unit at Jintur which was working in the selected villages in Jintur, Basmath, Partur, Pathri, Hingoli and Parbhani talukas, covering about 433 villages with an approximate population of 300,000. Spraying of DDT was done only once in the season. Later on the drive against malaria was made intensive and full-fledged National Malaria Eradication Unit started its activities from August 1958.

The Surveillance Scheme was introduced in the district in October 1960. Every house is visited by surveillance staff of the Unit which comprises 101 workers and 25 inspectors and the fever cases are treated with drugs after taking blood smear of the patient which is examined in the Laboratory of the Unit. Besides, spraying of DDT in project areas is undertaken by the Unit every year throughout the district.

### Leprosy Control

In order to prevent spread of leprosy, one leprosy control centre was opened at Purna in 1958. One more leprosy control subsidiary centre was opened at Parbhani in 1959 with four sub-centres at Pingali, Zari, Pedgaon and Singnapur. Group meetings regarding leprosy disease are taken in the villages by the staff and the public is made conscious of the curability of the disease. Treatment of Sulpha drugs is given weekly at the above centre and sub-centres on bazar days. Till the end of the year 1960-61, about 47,000 persons were examined out of which leprosy was detected in 553 cases. Of these 466 cases were under treatment. Survey, Education and Treatment units were also started at Hingoli, Manwath, Partur and Palam during the Second Plan period.

**Control of Smallpox**

There were 1,182 deaths due to smallpox in 1958. In 1960 the number came down to 8. During 1960-61, the number of vaccinations was 48,268.

**Family Planning Centres**

Three Family Planning Centres at Jintur, Bori and Hingoli were started during the Second Plan period.

**Medical Facilities**

Medical facilities available in the district are shown in Table 17 in Part III. The figures in the Table relate to the facilities provided by Government and other aided institutions. The numbers of private practitioners, hospitals and dispensaries are not shown there.

The number of doctors and nurses, number of beds available and the number of out-door patients have increased between 1950 and 1960. The number of doctors increased from 12 in 1950 to 18 in 1960. Similarly, the number of nurses increased from 2 in 1950 to 9 in 1960. The number of beds increased from 82 in 1950 to 92 in 1960. The number of out-door patients increased from 311,047 in 1950 to 376,450 in 1960. The number of indoor patients has, however, gone down from 5,816 in 1950 to 3,388 in 1960.

**Hospitals**

There is only one hospital in the district. It is the Civil Hospital now called the District Hospital at Parbhani. This is a full-fledged hospital with an X-Ray department, a maternity ward, a family planning centre and a separate ward for treating infectious diseases. A T. B. Clinic has also been attached to it.

**Dispensaries**

The number of dispensaries has increased from 8 in 1950 to 12 in 1960.

*Besides, there are 12 Ayurvedic dispensaries in the* district.

**Primary Health Centres**

At the end of 1960, there were two Primary Health Centres at Jintur and Hingoli with 5 units.

The total number of persons working as physicians, surgeons, dentists, nurses, pharmacists and other medical and health technicians in the district is 830.

The persons returned in the 1961 Census as physicians, surgeons and dentists and their classifications by sex are shown in Table B-V in Part II. The number of medical personnel per one lakh population in the district is only 23 as against 54 for Maharashtra.

## HOUSING

Tables E-I, E-II, E-IV and E-V in Part II present material on different aspects of housing in rural and urban areas of the district and each taluka separately.

68·1 per cent of all the houses are used as dwellings, 20·14 per cent as cattle sheds, etc., 5·2 per cent were vacant at the time of the Census and the remaining are used as shops, workshops or factories, schools, etc.

The density of residential houses per square mile in the district has increased along with the density of population per square mile from 40·1 in 1951 to 49·4 in 1961. The number of persons per residential house has, however, decreased from 5·20 in 1951 to 5·04 in 1961. This may indicate an increased mobility of population from rural to urban areas as well as a tendency towards smaller families in urban areas.

Classified by "owned" and "rented" categories, 83 per cent of the dwellings in the district are owned and only 17 per cent are rented. The proportion of "owned" in the rural areas is higher and very much lower (57·78 per cent) in the urban areas. Even this low proportion of 58 per cent is higher than the average of 30 per cent for all urban areas of Maharashtra.

Out of the various types of material used for walls, stone and mud appear to be predominant in the district with proportions of 38·8 per cent and 38·2 per cent, respectively. The proportion of stone in the talukas of Partur, Jintur, Hingoli, Kalamnuri, Parbhani and Basmath are a little lower and the difference is made up by mud. Both stone and mud are not used as much in urban areas as in rural areas. Their proportions are 21·8 per cent and 31·7 per cent, respectively, in urban areas as against 41·5 per cent and 39·2 per cent in rural areas. Use of burnt bricks appears to be predominant in urban areas with a proportion of 27·7 per cent. Unburnt bricks are used in 7 per cent dwellings in rural areas and 9·9 per cent dwellings in urban areas.

Out of the materials of roof, corrugated iron and zinc sheets are predominant in the district with a proportion of 50·1 per cent. These types of roofs are, however, more common in urban areas. Their proportion in the urban areas is 61·6 per cent as against 48·3 per cent in rural areas. In the rural areas along with the roofs of corrugated iron and zinc sheets, roofs of grass, leaves, reeds, etc., are also common and have a proportion of 39·6 per cent. Except in Partur and Gangakhed talukas which have mostly flat earthen roofs of wooden beams or rafters, all other talukas in the district have predominantly roofs of corrugated iron and zinc sheets. Tiled roofs are used in 12·1 per cent of dwellings in urban areas and only 6·7 per cent in rural areas. The distribution of materials used for roofs corresponds more or less to the annual rainfall pattern.

Classified by the number of rooms occupied, 64·1 per cent of households are occupying one-room dwellings and 22·1 per cent are occupying two-room dwellings. Households occupying larger number of rooms are more in urban areas than in rural areas. Average number of persons per room is 3·32 for total, 3·36 for rural and 3·08 for urban areas.

## AGRICULTURE AND IRRIGATION

Agriculture is the most important activity in the district as it engages 79·94 per cent of its working population. Most of the others also work in industries related to processing of agricultural produce or trade, transport and services ancillary to agriculture.

The statistics regarding land utilisation, crop pattern, irrigation, wholesale and harvest prices, livestock and agricultural implements, etc., are presented for the district in Tables 3 to 10 in Part III.

### Cultivating Seasons

As in other areas of the State, in this district also there are two agricultural seasons, *viz.*, Kharif and Rabi. But the district has much more area under Kharif than Rabi crops. Kharif jowar, cotton, groundnuts, mung, tur, udid and rice are the main crops grown in Kharif season and wheat, rabi jowar and gram are the principal crops of Rabi season. Jowar is grown in both seasons. But compared to Rabi jowar the district has less area under Kharif jowar. Among the Rabi varieties Maldandi and Shalu are more common in the district.

Sugarcane is a perennial crop and its importance is gradually increasing.

Crop calendar showing monthwise operations in respect of principal crops in the district is given on page (29).

### Land Utilisation

The pattern of land utilisation in the district and each of its talukas is shown below compared to that of the State. All the figures are based on the average for three years from 1957-58 to 1959-60.

The Figure on page (30) shows the land utilisation pattern for the year 1959-60 for the district and each taluka separately.

The net area sown in the district is slightly more than 70 per cent of the geographical area as against the average of 57·69 per cent for the State. Compared to the State averages the district has considerably lower proportions of areas under forests and barren and unculturable categories. The proportion of fallow lands to the total geographical area in the district is, however, twice as great as the State average.

Within the district the proportion of net area sown to the geographical area ranges between 60·30 per cent for Gangakhed taluka and 84·39 per cent for Basmath taluka. The proportion of net area sown is thus higher than the State average in each taluka. The proportion of culturable waste is low in almost all talukas except Gangakhed (2·20 per cent). On the other hand the proportion of fallow lands is very high in all talukas except Basmath (5·51 per cent).

Because of the changes in the classification of land utilisation effected in 1950-51 it is not possible to determine if there has been any shift in the pattern of land utilisation over the last 40-50 years. Comparison with the statistics for the year 1905, quoted in the *District Gazetteer*, does not however indicate any substantial change in the land utilisation pattern over the last sixty years.

| Administrative Unit | Percentage of geographical area | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | Total geographical area | Forests | Barren and unculturable land | Land put to non-agricultural uses | Culturable waste | Permanent pastures | Miscellaneous tree crops and groves | Current fallows | Other fallow land | Net area sown | Gross cropped area |

### Crop Pattern

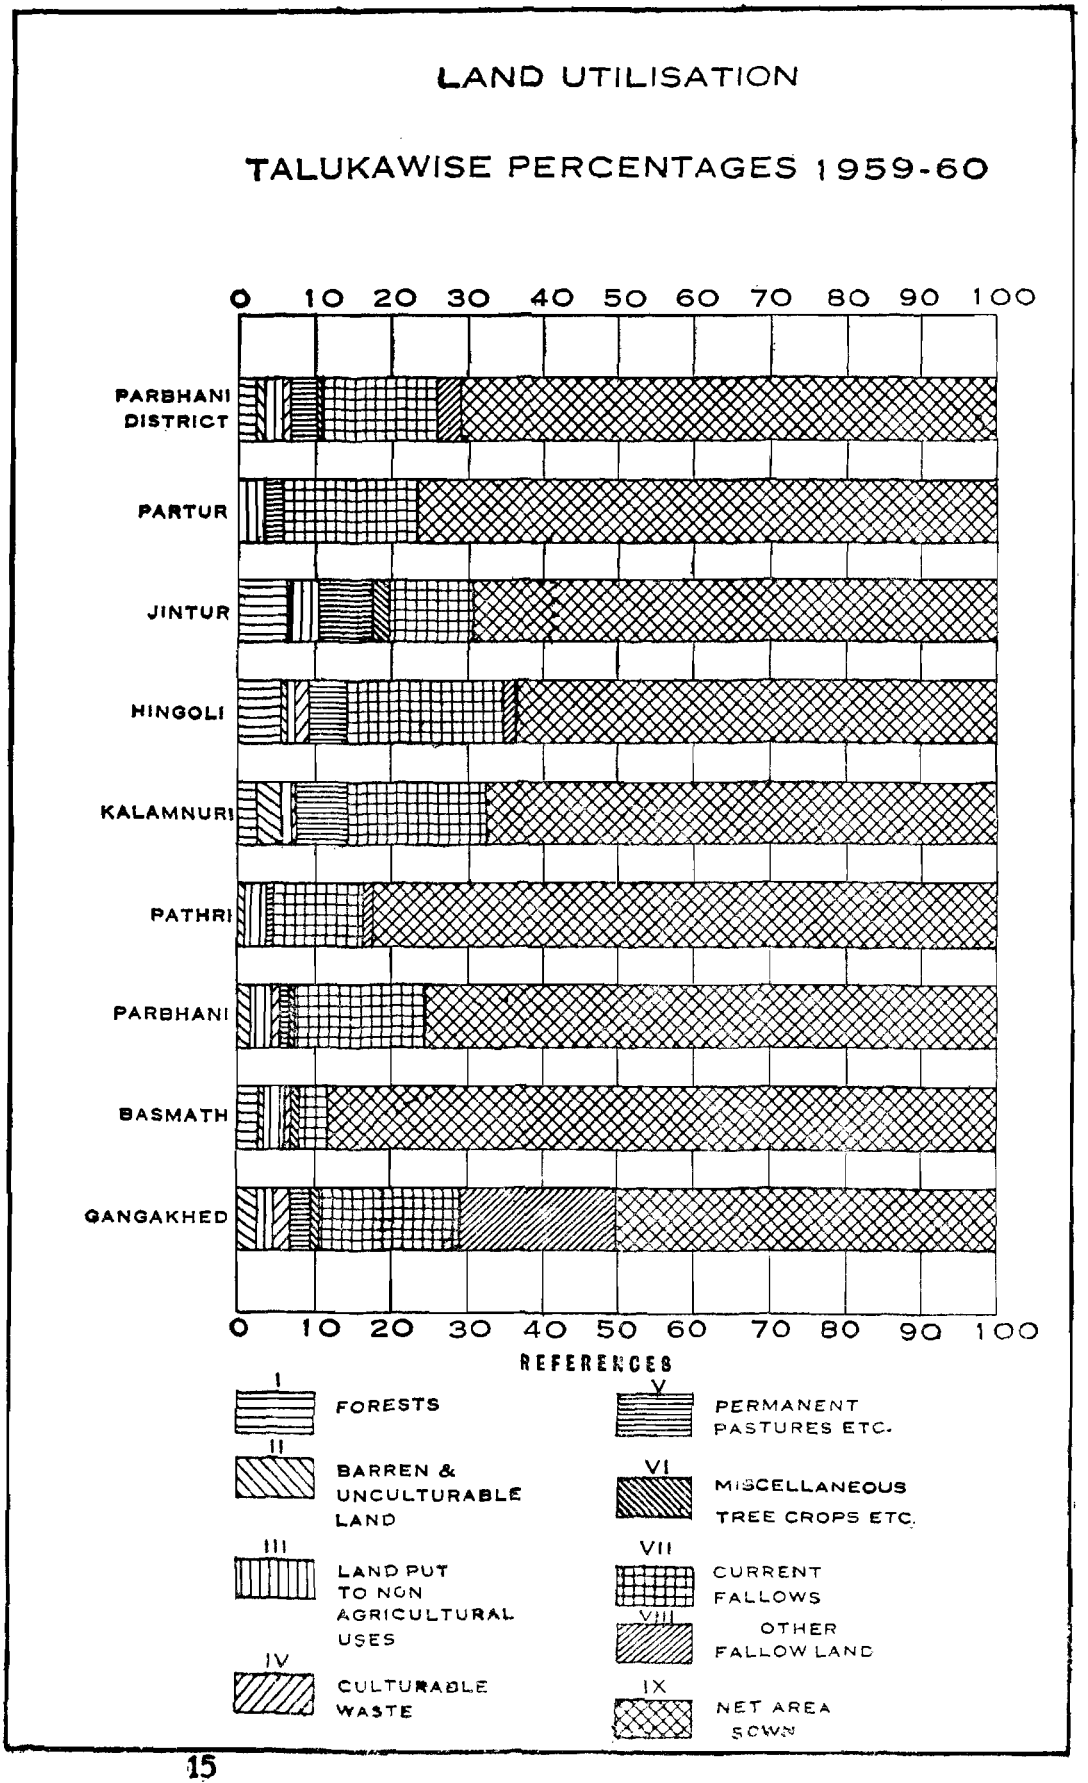

The proportions of areas under the important food and non-food crops for the district and each of its talukas are shown on page (31) compared with the corresponding figures for Maharashtra. All figures are averages for the three years 1957-58 to 1959-60.

The Figure on page (32) shows the crop pattern for the district and each taluka separately. 65·32 per cent of the gross cropped area is under food crops. This proportion is slightly lower than the State average (69·88 per cent). Amongst the food crops, jowar ranks first and has 38·72 per cent of gross cropped area which is higher than the average for Maharashtra (30·95 per cent). Wheat has 5·81 per cent, rice 1·27 per cent and pulses 17·82 per cent. Bajri (0·36 per cent), other cereals (0·18 per cent) and sugarcane (0·19 per cent) are rarely grown. Compared to State averages the district has higher proportion of area under pulses and lower proportion of area under " Other food crops ".

CROP CALENDAR GIVING MONTHWISE OPERATIONS IN RESPECT OF PRINCIPAL CROPS

Cotton with 22·76 per cent of the gross cropped area is the most important non-food crop occupying about 2/3rds area under non-food crops. The proportion of area under oil-seeds (10·86 per cent) is higher than the State average (8·18 per cent). Groundnut is the most important oil-seed crop with nearly half the area under oil-seeds' group.

From 1950-51 to 1959-60 there is a slight drop (from 68·0 per cent to 63·9 per cent) in the proportion of food crops to the gross cropped area and corresponding rise in the proportion of non-food crops. Amongst food crops, proportion of cereals has increased from 41·2 per cent to 45·9 per cent but the proportion of pulses has gone down from 25·4 per cent to 16·8 per cent. The increase in the absolute areas under different crops amongst the food crops is wheat 217·38 per cent, rice 163·96 per cent and jowar 19·96 per cent. The area under bajri has reduced from 14,600 acres to 8,800 acres or by 39·73 per cent. The areas under groundnut and cotton are increased by 38·27 per cent and 46·57 per cent, respectively. The agricultural statistics of crops were used during the days of levy collections for determining levy demands. The 1951, 1952 and 1953 returns may not therefore be very reliable.

Comparable statistics are not available for the entire district for years prior to 1950-51. The proportions of areas under different crops reported by *Imperial Gazetteer* in 1903 were : jowar 50·66 per cent, wheat 6·46 per cent, bajri 5·81 per cent, rice 1·61 per cent, cotton 22·81 per cent and sugarcane 0·08 per cent.

Generally speaking the crop pattern in the district is poorer than the average for the State. The State's crop pattern is itself poor in the All-India setting because of the high proportion of jowar, bajri and other low value crops. The district proportion of jowar is higher and that of rice is considerably lower than the State averages. The district average yields for most of the crops are also lower than the State averages. The relieving factors are, however, the larger proportions of areas under wheat and cotton. Within the district, the cropping pattern does not vary considerably for majority of the crops. The high proportion of area under food crops is somewhat even for all talukas. All the talukas have high proportion of jowar but it is very high in Parbhani (43·77 per cent), Pathri (42·26 per cent) and Gangakhed (41·89 per cent) talukas. Wheat is grown more in the north-eastern tract consisting of Hingoli (10·03 per cent), Kalamnuri (8·46 per cent) and Basmath (7·48 per cent) talukas. Only Pathri taluka has low proportion under pulses (11·01 per cent). All other talukas have sizable proportions with Parbhani having the highest value of 22·47 per cent.

Cotton has the lowest proportion in Parbhani (12·99 per cent) and highest proportion in Hingoli (30·35 per cent). Kalamnuri has 28·91 per cent, Partur 27·89 per cent and Jintur 25·03 per cent. More than one-fifth part of cropped area in Pathri is covered by oil-seeds more than half of which is under groundnuts. Gangakhed (15·11 per cent), Parbhani (12·80 per cent), Partur (10·67 per cent) and Jintur (10·34 per cent) talukas also have substantial areas under oil-seeds. Only Pathri taluka has some area under tobacco.

Nine-year average yields and 1958-59 acreages and outturns of important crops for the district are shown below assuming corresponding figures for Maharashtra as 100 :—

| | Nine-year average yield per acre | 1958-59 area | 1958-59 outturn |
|---|---|---|---|
| MAHARASHTRA .. | 100·00 | 100·00 | 100·00 |
| Rice .. .. | 54·50 | 0·91 | 0·30 |
| Wheat .. .. | 97·73 | 5·58 | 5·49 |
| Jowar .. .. | 98·85 | 6·09 | 6·66 |
| Tur .. .. | 64·10 | 6·36 | 4·54 |
| Gram .. .. | 114·09 | 8·77 | 11·01 |
| Sugarcane .. .. | 55·90 | 1·34 | 0·72 |
| Cotton .. .. | 75·76 | 7·94 | 5·46 |
| Groundnut .. .. | 99·82 | 3·28 | 3·43 |
| Sesamum .. .. | 108·25 | 1·52 | 1·56 |
| Rape, Mustard and Linseed | 98·42 | 7·55 | 8·65 |

Except for gram and sesamum, the district yields are lower than the State averages. The average yields of rice, sugarcane and tur in the district are very poor compared to the State averages. Acreage under gram in the district is slightly more than one-twelfth of the State coverage and the district's contribution in Maharashtra's outturn of gram is more than 11 per cent. Wheat, jowar, cotton, rape, mustard and linseed also account for more than 5 per cent of the contribution in the State's outturn of these crops.

The Techno-Economic Survey of Maharashtra has estimated the gross value of output per acre of cropped area in 1955-56 at Rs. 52 for the district as against Rs. 76 for the State and Rs. 126 for India.

The density of population, proportion of workers working on land to total workers, gross area sown per worker on land and the proportion of gross irrigated area to gross cropped area are shown below for the district and each of its talukas compared with the State average :—

| Administrative Unit | Density of population per square mile | Percentage of workers working on land to total workers | Gross area sown per worker on land (acres) | Percentage of gross irrigated area to gross cropped area |
|---|---|---|---|---|
| MAHARASHTRA .. | 334 | 69·91 | 3·50 | 6·23 |
| PARBHANI DISTRICT .. | 249 | 79·94 | 4·62 | 1·41 |
| Partur Taluka .. | 228 | 83·67 | 5·17 | 1·55 |
| Jintur Taluka .. | 209 | 80·72 | 4·96 | NA |
| Hingoli Taluka .. | 219 | 80·34 | 4·42 | 0·44 |
| Kalamnuri Taluka .. | 219 | 88·83 | 4·09 | 2·22 |
| Pathri Taluka .. | 265 | 78·32 | 5·13 | 1·31 |
| Parbhani Taluka .. | 322 | 72·59 | 4·56 | 2·19 |
| Basmath Taluka .. | 291 | 75·35 | 5·36 | 1·77 |
| Gangakhed Taluka .. | 262 | 81·34 | 3·46 | 1·01 |

NA = Not available.

Out of 79·94 per cent of the total workers working on land, 41·34 per cent are cultivators and 38·60 per cent are agricultural labourers. The proportion of workers working on land is higher than the State average (69·91 per cent). Correspondingly the gross area sown per worker on land (4·62 acres) is also higher than the State average (3·50 acres).

Within the district the proportion of workers working on land to the total workers is somewhat even for all talukas. It is low in Parbhani taluka (72·59 per cent) only. The gross area sown per worker on land ranges from 3·46 acres for Gangakhed taluka to 5·36 acres for Basmath taluka.

The proportion of net area sown under double crops to the total net area sown in the district in 1959-60 (5·18 per cent) is slightly higher than the State average (5·05 per cent). The proportion however varies from year to year depending upon the rainfall. In 1951-52 the proportion was reported as 2·63 per cent, in 1954-55 5·10 per cent and in 1957-58 as 2·82 per cent. Within the district, the proportion of net area sown more than once to the net cropped area is considerably high in Gangakhed taluka (18·94 per cent) and is very low in Hingoli taluka (0·82 per cent). The proportion is higher than the State average also in the talukas of Partur (5·23 per cent.) and Pathri (5·52 per cent). Double cropping is mostly done by sowing mung in the kharif season and rabi jowar again after harvesting the mung crop.

**Irrigation**

The proportion of gross irrigated area to gross cropped area for the district (1·41 per cent) in the year 1959-60 is considerably lower than the State average (6·23 per cent). The gross irrigated area in 1959-60 is 600 acres more than the area irrigated in 1950-51. However, this rate of increase in the irrigated area is much lower than the increase in the cultivated area during the period. The proportion of gross irrigated area to gross cropped area has, therefore, decreased from 1·61 per cent in 1950-51 to 1·41 per cent in 1959-60. The *Imperial Gazetteer* reports that the area irrigated in 1904 was 47,360 acres which means that there has actually been a decline in the last 60 years. The work of Purna Project is in progress and when completed it will change the entire situation.

Table 4 in Part III gives the break-up for irrigated areas by sources of irrigation separately for each taluka and the district. Except for a negligible area (100 acres) irrigated by tanks in Jintur taluka, the entire irrigation is by wells. A recent but remarkable improvement is in the number of oil engines and electric pumps used for irrigation. The number of oil engines increased from 58 in 1951 to 571 in 1961 and the number of electric pumps from 11 in 1951 to 30 in 1961. Basmath taluka has the largest number of oil engines (112) and Gangakhed taluka has the largest number of electric pumps (13).

**Crop Pattern under Irrigation**

Table 5 in Part III shows the crop pattern under irrigation. In the year 1959-60, 86·77 per cent of the irrigated area was under food crops and 13·23 per cent under non-food crops. Among the food crops, wheat occupies 24·00 per cent, jowar 19·38 per cent, rice 3·69 per cent, sugarcane 15·69 per cent, pulses 31·38 per cent, other cereals 2·77 per cent and other miscellaneous food crops 18·15 per cent. Among the non-food crops, bulk of the area (8·00 per cent) is occupied by fodder crops. Groundnuts occupy

another 4·92 per cent. Wheat, although has the highest proportion under irrigation amongst all crops, irrigated area under wheat is only 5·55 per cent of the total area under wheat. Entire area under sugarcane is irrigated, while the extent of irrigation of rice and jowar is 4·10 per cent and 0·73 per cent, respectively.

**Production**

The annual outturn of principal crops in the district is shown in Table 6 in Part III. The average production of foodgrains, groundnut and cotton from 1951 to 1956 and from 1956 to 1960 compares with the production of 1950-51 as follows :—

| | Average production in hundred tons per year during | | |
|---|---|---|---|
| | 1950-51 | 1951—56 | 1956—60 |
| Rice .. .. .. | 17 | 37 | 52 |
| Wheat .. .. | 54 | 128 | 206 |
| Jowar .. .. | 922 | 1,332 | 1,945 |
| Bajri .. .. .. | 9 | 9 | 8 |
| Other cereals .. .. | 34 | 11 | 6 |
| Total cereals .. .. | 1,036 | 1,517 | 2,217 |
| Total pulses .. .. | 731 | 600 | 602 |
| Total foodgrains .. .. | 1,767 | 2,117 | 2,819 |
| Groundnut .. .. | 156 | 394 | 238 |
| Cotton .. .. | NA | 652 | 699 |

NA = Not available.

This comparison taking single year as a base may not be very much conclusive as the base year itself may perhaps be a very favourable or a very bad agricultural season. However such comparison brings out some very interesting results as follows :—

In the First Plan period the average annual production of total foodgrains increased by 19·81 per cent over the 1950-51 production. The corresponding increase in the Second Plan period was 59·54 per cent. The production of total cereals during the Second Plan period is more than double the 1950-51 production. The production of " Other cereals " has fallen down considerably. This is probably the reflection of decrease in the area under those crops. The average annual production of rice during the Second Plan period is nearly three times the 1950-51 production, that of wheat is nearly four times and of jowar is more than double the 1950-51 production. There is also a substantial increase in the annual average production of groundnuts and cotton.

**Agricultural Implements**

The number of agricultural implements for the district and for each of its talukas for the years 1951, 1956 and 1961 are separately shown in section 'C' of Table 9 in Part III.

The remarkable increase in the number of oil engines and electric pumps used for irrigation purposes has already been described earlier. Between 1951 and 1961, the number of iron ploughs has increased by 83·47 per cent and the number of wooden ploughs by 16·01 per cent. Both the types together increased by 34·77 per cent. The number of sugarcane crushers operated by power increased from 8 in 1951 to 244 in 1961. The number worked by bullocks has also increased from 329 in 1951 to 439 in 1961 (i.e., by 33·43 per cent). The total for the two types combined is more than double the number in 1951.

By using standard average prices to the agricultural implements shown in Table 9 in Part III, the total outlay on them for the year 1961 may be estimated at Rs. 141 lakhs or Rs. 6·42 per acre of the net sown area. The agricultural implements not shown in the table may not together make more than Rs. 2 per acre. The total outlay on this item in the district may approximately be presumed to be less than Rs. 9 per acre.

**Agricultural Extension**

Agricultural development in the district is now looked after by the Zilla Parishad. A subject committee of the Zilla Parishad deals with it and the Agricultural Development Officer works as a Secretary to that Committee. There are Agricultural Extension Officers at taluka level working under the Block Development Officer. The latter works as a Secretary to the taluka Samiti. Talatis and Gram Panchayat Secretaries work as Assistant Gram Sevaks. Village Panchayats are expected to work for agricultural extension at the village level.

**Agricultural Research**

There are 4 Agricultural Research Centres carrying out experiments in the district. The main Government Farm established at Parbhani in 1929 has an area of 265 acres. Research is carried on here on kharif and rabi jowar as main crop and cotton, linseed, gram, safflower, niger seed and til as subsidiary crops.

The other research station called the Mehboob Bagh Farm at Parbhani was established in 1918 and has an area of 32·68 acres. Experiments are conducted on cotton at this station.

Trial-*cum*-Demonstration Farm was established at Golegaon in Hingoli taluka (Purna Project) in 1959. It has a farm area of 199·47 acres. Research is conducted on cotton as principal crop and kharif and rabi jowar, mung and udid as subsidiary crops.

Research on grasses and legumes is done at the Grass Research Station at Hingoli. It has a farm area of 15 acres.

**Agricultural Improvement**

(*i*) *Increasing the area under irrigation.*—The most important item of increasing the agricultural production is to increase the area under irrigation. To facilitate the increase in irrigational areas, two schemes were undertaken. One of them envisaged installation of pumping sets and the other of sinking or repairs of wells. During the First Plan period, 91 pumping sets were installed and 396 irrigation wells were repaired or/and sunk. In the Second Plan period 68 pumping sets were installed, 961 old wells were repaired and 1,246 new wells were sunk. The Third Plan envisages construction of 2,500 new wells and installation of 736 pumping sets involving an outlay of Rs. 18·80 lakhs. During the Second Plan period the work of constructing tanks at Kalamnuri, Pimparkhed, Gari and Devgaon was commenced. This work is now taken up in the Third Plan as spill over work. The work when completed will increase the irrigational potential by 5,450 acres. In addition to this spill over work,

the Third Plan also envisages new works irrigating about 500 acres. The work on major irrigation Purna Project, is in progress. When completed, it will change the entire face of the district. The project has an irrigation potential of 1·52 lakh acres. Out of this 1·11 lakh acres will be irrigated in this district and the remaining in Nanded district.

*(ii) Improved seeds.*—Another item of improving the food production is the recommendation of appropriate varieties or strains of crops. The Agriculture Department has recommended the following improved varieties or strains of crops for the district :—

| | |
|---|---|
| Wheat .. .. | Vijay Niphad 81. K—28, Hy 654' P. W. 5, N. 59, N. 146. |
| Kharif Jowar .. | P. J. 4K, P. J. 24—k. |
| Rabi Jowar .. | P. J. 4—R, M—35—I. |
| Rice .. .. | HR 19 |
| Cotton .. .. | Gaorani 22 (1422). |
| | Gaorani 46 (1946). |
| | Deviraj 170—Co—2 (Irrigated) |
| Gram .. .. | Chafa. |
| Tur .. .. | C—11. |

Seed farms have been established at 9 places in the district to provide improved seed to the farmers. The combined area of all the seed farms is 956·17 acres.

**Livestock**

The numbers of livestock for the years 1951, 1956 and 1961 have been shown separately for each taluka and the district in Table 9 in Part III.

The total livestock as per 1961 Livestock Census in the district is 10·76 lakhs. This makes 47 livestock per 100 acres of cultivated area. The corresponding figure for the State is 139.

The total bovine population in the district in 1961 is 79·62 per cent of the total livestock. The number of male bovines over 3 years are 2·79 lakhs. The area cultivated per pair of male bovines over 3 years is thus 16·54 acres, as against 5·48 acres for Maharashtra. There are 2·86 lakhs female bovines over 3 years in the district. That makes 237 female bovines over 3 years per 1,000 population in the district, as against the State average of 159.

During the decade 1951 to 1961, there has been an overall increase of 23·35 per cent in the total livestock. Increase is observed in all types of livestock except sheep and horses and ponies which have reduced by 28·89 per cent and 3·85 per cent respectively. The number of cattle and buffaloes increased by 20·59 per cent and 33·20 per cent respectively. The other livestock increased from 5·4 thousands to 7 thousands and the number of poultry multiplied five times from 40·6 thousands to 2·03 lakhs during the decade.

**Veterinary Facilities**

There is one Veterinary Hospital at Parbhani with a District Diagnostic Centre. In addition to this there are six Veterinary Dispensaries located at (1) Partur, (2) Hingoli, (3) Sailu, (4) Gangakhed, (5) Kalamnuri, and (6) Jintur. There are also Veterinary Aid Centres at 14 different places in the district.

Treatment of Animal diseases, control of epidemics, castration of bovines and control and destruction of animal parasites are the main services rendered at these dispensaries.

There is one key village centre at Hingoli with six key village units located at (1) Deolgaon ; (2) Mahalumra ; (3) Pimpri ; (4) Mamdapur ; (5) Elegaon and (6) Chincholi. Two breeding bulls have been posted at each unit.

A cattle breeding farm is working at Hingoli since 1913. Previously Red Khandari cattle were maintained for breeding purposes but the breed now maintained is Deoni.

There are two institutions for demonstration of poultry breeding, their scientific maintenance and treatment, etc. One is the Poultry Farm at Hingoli and the other Poultry Demonstration Centre at Parbhani.

One stud farm has been established at Hingoli with a view to improving the local breed. Horses are bred there on scientific lines. The local breeds are cross-bred with Arabian horses and the offsprings are known as Hingoli stud breed.

## AGRARIAN STRUCTURE AND LAND REFORMS

The common system of land tenure throughout the district is Ryotwari.

Under the Ryotwari system, each field is considered a separate holding, which the ryot holds directly from the State and the holder is called the occupant. The right of occupancy depends on the regular payment of the assessment and in case of failure to meet the demand, it is liable to forfeiture and the land reverts to the State.

The other important systems of tenure which were prevalent in the district were the Jagirs and Inams. All Jagirs and Inams (except Deosthan Inams) have now been abolished under the various measures of land reforms.

All hereditary Watan lands held for village services have also been abolished and village servants now work on a salary basis. The occupancy rights of abolished Inam lands have been conferred on their holders or tenants, as the case may be, on condition of payment of occupancy price to the Government and/or compensation to the erstwhile holders. Consequential processes of determining titles for occupancy rights and of recovery of occupancy price or compensation are in some cases still in progress. The process of abolition of intermediary interests in land is thus being completed in the district.

**Record of Rights**

A Record of Rights in land is maintained by the Revenue Department for each village separately. It is integrated with annual crop returns and inspections and is, therefore, easily maintained up-to-date. Rights on land in respect of ownership, tenancy, mortgage and other encumbrances are recorded and a form is maintained for each parcel of land separately. It is obligatory on every person acquiring any right on land to report it within three months. Annual revenue accounts are prepared on the basis of the Record of Rights.

**Ownership Rights to Tenants**

Tenancy rights are regulated under the Bombay Tenancy and Agricultural Lands Act, which provides security of tenure to and payment of only reasonable rents by the tenants.

In pursuance of the "Land to the tiller" policy, the Act provides for compulsory transfer of ownership rights of tenanted lands to the tenants from 1st April 1957, which is known as the "Tillers' Day". This was an important step towards the removal of absentee landlordism which was one of the disincentives in any programme of agricultural improvement.

Up to 31st December 1963, ownership rights have been conferred upon 8,434 tenants for 95,771 acres of land in the district. No tenant mutually agreed with the landholder regarding the price to be paid. In 8,322 cases, land prices were fixed by the Revenue Officers. 112 cases are pending disposal, as the Maharashtra High Court has issued stay orders in those cases.

**Size of Landholdings**

Census Table B-X (based on 20 per cent Sample) in Part II of this Volume shows that 50·03 per cent of the total number of households cultivate land.

Census Table B-XI (based on 20 per cent Sample) in Part II shows the break-up of cultivating households by size of land cultivated and by the interest in the land. 77·98 per cent of the cultivating households cultivate their owned lands only. 5·70 per cent of the households cultivate tenanted lands only and the remaining 16·32 per cent cultivate lands partly owned and partly taken on lease. Percentage distribution of cultivating households by the size of land cultivated is shown in the next column.

The distribution of households in Table B-XI and the same shown in percentages in column 2 of the table in the next column is based on cultivation (operational) holdings as returned in the 1961 Census.

A classification of holdings on the basis of area owned (against the area cultivated) for the year 1952-53 is shown in Table 10 in Part III. The percentage distribution of these ownership holdings is also shown in column 3 below:—

| Area | 1961 cultivation holdings | 1952-53 ownership holdings |
|---|---|---|
| Less than 1 acre .. .. | 0·11 | 1·28 |
| 1 to 4·9 acres .. .. | 8·52 | 13·35 |
| 5 to 9·9 acres .. .. | 16·53 | 20·03 |
| 10 to 14·9 acres .. .. | 15·99 | 16·15 |
| 15 to 29·9 acres .. .. | 32·78 | 27·31 |
| 30 to 49·9 acres .. .. | 17·11 | 13·21 |
| 50+ .. .. | 8·96 | 8·67 |
| Total .. | 100·00 | 100·00 |

The average size of cultivation holding in the district in 1960-61 is 23·94 acres. Average size of the ownership holding in the district was 21·88 acres in 1952-53 against the average of 11·95 acres for the State.

**Ceiling on Holdings of Agricultural Land**

The Maharashtra Agricultural Lands (Ceiling on Holdings) Act came in force from 26th January, 1962. Three local areas, *viz.*, Parbhani, Jintur and Basmath have been notified in the district with different ceiling areas for dry crop lands, *viz.*, 96, 108 and 114 acres respectively. In the case of irrigated lands, the ceiling area is the same in all the local areas, *viz.*, 18 acres in the case of perennially irrigated areas, 27 acres in areas irrigated in two seasons and 48 acres in areas which get irrigation water for one season. Holders of land in excess of the ceiling areas are not now free to transfer or partition any land until the land in excess of the ceiling is determined under the Act. They were required to furnish returns of their holdings to the Collectors. The Collectors are to make enquiries to determine the surplus lands and take them over in possession. Those lands shall afterwards vest in the State Government. The Act also provides for payment of compensation to the holders at specified rates and for distribution of surplus lands to landless or other persons in the prescribed order of priority. At the moment, the enquiries to be made by the Collectors are in progress.

**Consolidation of Holdings**

This scheme is not yet started in this district.

The provisions of the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, prohibiting further fragmentation are, however, enforced in the district.

The standard areas specified as minimum necessary for profitable cultivation under the Prevention of Fragmentation and Consolidation of Holdings Act, 1947, are as follows :—

| | | |
|---|---|---|
| Dry Crop | .. | 2·0 acres. |
| Bagayat | .. | 1·0 acre. |
| Rice | .. | 0·5 acre. |

All plots of land less in area than the standard areas are treated as fragments and their transfer except to holders of contiguous plots is prohibited.

## CO-OPERATION

### Administration

The Deputy Registrar of Co-operative Societies is in charge of the co-operative movement in the district. He is assisted by two Assistant Registrars who have territorial jurisdiction and deal with all the aspects of the co-operative movement in the district. In addition an Assistant Registrar works under the Zilla Parishad. He carries out the duties of registration, deciding appeals against non-admission of members, approval to bye-laws and administrative supervision in respect of Co-operative Societies whose working capital does not exceed Rs. 5 lakhs and whose jurisdiction does not extend beyond the district. The Zilla Parishad also looks to the promotion and extension of co-operative movement in the district.

The co-operative movement has made good progress in many fields during the last decade especially after the Reorganisation of States in 1956. Co-operative movement has now been extended to farming, processing, housing, etc. Fishery, lift irrigation, dairies, etc. have, however, not yet been brought under the co-operative fold.

The following description is based on the Report for the year 1960-61.

### Co-operative Credit

(*a*) *Agricultural Credit Societies.*—The number and membership of Agricultural Credit Societies have increased at a very rapid pace during the last decade especially during the Second Plan period.

The position of Agricultural Credit Societies in 1950-51 and 1960-61 is as under:—

| | *1950-51* | *1960-61* |
|---|---|---|
| (1) Number of Agricultural Credit Societies .. .. | 313 | 959 |
| (2) Number of members .. | 6,895 | 50,803 |
| (3) Share Capital .. (Rs. in lakhs) | 2·27 | 21·75 |
| (4) Reserve and other funds (Rs. in lakhs) | 1·62 | 3·32 |
| (5) Working Capital .. (Rs. in lakhs) | 9·31 | 99·38 |
| (6) Number of members to whom loans were advanced .. | NA | 41,103 |
| (7) Amount advanced (Rs in lakhs) | 1·24 | 87·40 |
| (8) Amount recovered (Rs. in lakhs) | 0·99 | 65·50 |
| (9) Loans outstanding (Rs. in lakhs) | 2·69 | 79·01 |
| (10) Overdues .. (Rs in lakhs) | NA | 13·06 |

NA = Not available.

Average membership per primary society in the district is 53 against the average of 96 members for Maharashtra. 89·26 per cent villages in the district have been covered.

Total owned funds (share capital *plus* reserve funds) of the Primary Agricultural Credit Societies in the district amounted in 1960-61 to Rs. 25·07 lakhs and formed 25·23 per cent of their working capital against 26 per cent for Maharashtra.

The loan operations of all the Primary Agricultural Societies in the district amounted to Rs. 87·40 lakhs in 1960-61. The average amount of loan per borrowing member in the district worked out to Rs. 213 as against Rs. 329 for Maharashtra.

During the decade the number of Agricultural Credit Societies multiplied more than three times. There has been six-fold increase in the membership and the share capital has multiplied by ten times. The working capital at the end of the decade is more than 10 times greater than the amount at the beginning of the decade. The societies advanced loans amounting to Rs. 87 lakhs in 1960-61 as against loans of Rs. 1 lakh only advanced in 1950-51. All these statistics speak about the remarkable progress made by the co-operatives during the decade. The amount of overdue loans has, however, gone quite high and points out the need for making early recoveries.

(*b*) *Central Co-operative Bank.*—The Central Co-operative Bank was established in the year 1917 at Parbhani. In 1950-51 there were three Central Banks in the district, one each at Partur, Parbhani and Hingoli. These have since been amalgamated into one as the Central Co-operative Bank at Parbhani. That Bank has been working as a federal central financing agency catering to the requirements of all the primary credit societies in the district. Since 1962, the Zilla Parishad also transacts its financial business through this Bank.

In the year 1960-61 the position of the Central Co-operative Bank was as follows:—

| | | |
|---|---|---|
| (1) Number of members— | | |
| (*a*) Individuals .. .. .. | | 48 |
| (*b*) Societies .. .. .. .. | | 984 |
| (2) Paid-up share capital .. | (Rs. in lakhs) | 14·99 |
| (3) Reserve and other funds .. | (Rs. in lakhs) | 1·16 |
| (4) Deposits— | | |
| (*a*) Individuals .. | (Rs. in lakhs) | 25·92 |
| (*b*) Societies and Banks .. | (Rs. in lakhs) | 17·04 |
| (5) Borrowings— | | |
| (*a*) State Co-operative Bank and the Reserve Bank of India.. | (Rs. in lakhs) | 42·00 |
| (*b*) Government .. | (Rs. in lakhs) | 1·10 |
| (*c*) Other sources .. | (Rs. in lakhs) | 1·03 |
| (6) Working Capital .. | (Rs. in lakhs) | 103·24 |
| (7) Cash— | | |
| (*a*) On hand .. | (Rs. in lakhs) | 3·24 |
| (*b*) At Banks .. | (Rs. in lakhs) | 13·31 |
| (8) Investments— Government and other Trustee Securities | (Rs. in lakhs) | 6·42 |
| (9) Percentage of cash in hand to deposits .. | | 7·54 |
| (10) Percentage of investment to deposits .. | | 14·94 |
| (11) Loans outstanding— | | |
| (*a*) Individuals .. | (Rs. in lakhs) | 0·05 |
| (*b*) Societies .. | (Rs. in lakhs) | 77·89 |
| (12) Percentage of loans outstanding to deposits .. | | 181·42 |
| (13) Percentage of loans outstanding to working capital .. .. .. | | 75·49 |
| (14) Overdues .. | (Rs. in lakhs) | 11·12 |
| (15) Percentage of overdues to loans outstanding .. | | 14·27 |
| (16) Cost of management .. | (Rs. in lakhs) | 1·92 |
| (17) Percentage of cost of management to working capital .. .. .. .. | | 1·86 |
| (18) Profit .. .. | (Rs. in lakhs) | 0·40 |
| (19) Number of branches and pay offices in the district .. .. .. .. | | 8 |

During the year (1960-61), the membership of the Bank increased by 16 per cent, the paid-up share capital increased by 40·73 per cent and the working capital has multiplied 1½ times than in 1959-60. During the year, the Bank advanced Rs. 63·68 lakhs more than the amount in the previous year. The proportion

of overdues to the outstanding loans has also reduced from 16·75 per cent to 14·27 per cent. The Bank made a profit of Rs. 40,000 during the year. In the previous year it had suffered a loss of Rs. 13,000.

(*c*) *Land Mortgage Bank.*—The primary Land Mortgage Bank was established at Parbhani in the year 1952 with a view to providing long-term finance to the cultivators. However, transactions did not take place till 1956. The Bank has two branches at Sailu and Hingoli. The number of members of the Land Mortgage Bank is 6,752, share capital Rs. 1·78 lakhs and working capital Rs. 25·69 lakhs. The Bank advanced Rs. 13·25 lakhs as loans during the year 1960-61.

(*d*) *Urban Banks and Credit Societies.*—There are 13 Urban Banks and Credit Societies in the district consisting of 3 Urban Credit Societies and 10 Salary Earners' Societies. Their combined membership is 2,001, share capital Rs. 69,990 and working capital Rs. 95,238. The working of the Urban Credit Societies is not quite satisfactory due to transfer and migration of members to other places. The Salary Earners' Societies are, however, working satisfactorily.

**Agricultural Processing Societies**

Two Cotton Ginning and Pressing Co-operative Societies have been organised in the district during 1960-61. Their combined membership consists of 116 societies and 2,793 individuals. The paid-up share capital is Rs. 2·38 lakhs in which Government's contribution is Rs. 60,000. There is also one "other processing society" organised in the district by 40 members. The working capital of this society is Rs. 6,000. All these societies have yet to start production.

**Industrial Societies**

There are 10 Weavers' Co-operative Societies and 74 other Industrial Societies in the district. Out of the 10 weavers' societies, 6 are handloom weavers' societies and 4 are wool weavers' societies. Their combined membership is 3,024, share capital Rs. 86,000 and working capital Rs. 3·18 lakhs. The societies produced goods worth Rs. 2·39 lakhs during the year.

The other types of industrial societies include 8 oil ghanis, 2 cane and bamboo workers', 13 tanning works, 10 leather works, 5 carpentry and smithy, 1 metal working, 18 pottery works, 3 coir and rope, 2 neera and palm gur, 9 miscellaneous societies, etc. The combined membership of these industrial societies is 1,309 members, share capital Rs. 88,000 and working capital Rs. 3·29 lakhs. The production of the societies during the year was Rs. 6·69 lakhs.

**Forest Labourers' and Labour Contract Societies**

There is one Forest Labourers' Co-operative Society and there are 7 Labour Contract Co-operative Societies in the district with membership of 39 and 269 respectively. The respective paid-up share capital is Rs. 3,000 and Rs. 12,000 and working capital is Rs. 26,000 and Rs. 74,000 respectively. The Labour Contract Societies received loans of Rs. 5,000 and subsidy of Rs. 2,000 during the year. The Forest Labourers' Societies extracted forest produce worth Rs. 70,000 during the year. The value of contracts executed by Labour Contract Societies amounted to Rs. 39,000.

**Co-operative Farming Societies**

There are 3 Joint Farming Societies organised in the district. These societies have 43 members, Rs. 13,000 as share capital and Rs. 19,000 as working capital. The societies have 511 acres of area under command of which 279 acres were cultivated during the year.

**Purchase and Sales Societies and Unions**

Before the reorganisation of States, there were 8 Taluka Agricultural Co-operative Associations in the district functioning at each taluka level. They were dealing with only controlled articles and as such sustained heavy losses after decontrols. After the Reorganisation of States, these societies were converted into Co-operative Marketing Societies with a view to link up Agricultural Credit through Co-operative Marketing.

There is now one Central Co-operative Agricultural Marketing Society and 9 primary agricultural marketing societies. The membership of the central society is 53 societies and 412 individuals. It has Rs. 40,000 as share capital and Rs. 3·43 lakhs as working capital. The combined membership of primary societies is 191 societies and 2,929 individuals. Their combined share capital is Rs. 1·85 lakhs. Government has contributed Rs. 66,000 towards the share capital. The purchases of these societies during the year amounted to Rs. 21·88 lakhs.

**Consumers' Movement**

There are 2 Consumers' Co-operative Stores in the district. Their combined membership is 700, paid-up share capital Rs. 7,000 and working capital Rs. 8,000. During the year consumer goods worth Rs. 80,000 were purchased by these stores. The sales during the same period amounted to Rs. 77,000.

**Housing Societies**

There are 6 primary housing co-operatives in the district out of which 1 society is organised for Backward Class persons. The combined membership of these societies is 330, share capital is Rs. 46,000 and working capital Rs. 3·17 lakhs. The societies have built 67 independent houses and 45 tenements during the year.

**Activity for Backward Class Persons**

One co-operative housing society has been organised for Backward Class persons. It has 97 members, Rs. 970 as share capital and Rs. 46,000 as working capital. The society has constructed 45 tenements during the year.

The Backward Class persons are members of Credit Societies and 9 societies have been given assistance to the tune of Rs. 36,000 for running grain depots in the interest of Backward Class people. There are 35 industrial societies of Backward Class and Scheduled Caste persons in the district.

**Audit Classification**

The audit classification of the different types of societies in the district on 30th June 1961 is as follows :—

| | Number of societies classified as | | | | Number of societies not classified | Number of societies not audited | Total |
|---|---|---|---|---|---|---|---|
| | A | B | C | D | | | |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) |
| (1) Central Co-operative Bank .. | .. | 1 | .. | .. | .. | .. | 1 |
| (2) Agricultural Credit Societies .. | 10 | 312 | 311 | 3 | .. | 323 | 959 |
| (3) Land Mortgage Bank .. | .. | 1 | .. | .. | .. | .. | 1 |

## FORESTS

The district has an area of 122·72 square miles under forests comprtising 115·15 square miles as reserved forests, 0·49 square miles as protected forests and 7·08 square miles as unclassed forests. The entire area is under the Forest Department. The forest area forms 2·54 per cent of the total geographical area of the district as against 17·56 per cent for Maharashtra.

The Divisional Forest Officer in charge of the forests in the district has his headquarters at Nanded and has jurisdiction over the forests both in Parbhani and Nanded districts. The division is under the Poona Circle.

The forests are scattered all over the district in small patches. A major concentration is in Jintur and Hingoli talukas. Except for a few good patches in Hingoli taluka, rest of the forests are of poor quality. The forests are of the " Dry Mixed Deciduous " type. Teak is the most valuable species found. It is associated with Salai, Dhavada, Tembhurni, Ain, Khair, Moi or Movna, Kalam, Tiwas, etc. The forest also has large grassy areas. Paonya, Kusal and Shada species of grass are well represented. Rosha grass is also fairly common.

Thorny bushes consisting of Ber, Amoni, Monga, etc., are scattered in patches in Hingoli, Jintur, Basmath and Kalamnuri talukas.

The forest produce is exploited through agencies to whom contract is given out and also through Forest Labourers' Co-operative Societies. These societies are given certain concessions by the Department. As per 1961 Census, 458 persons are reported as working in forestry and logging. 208 of them are males and 250 females. Their distribution for industry minor group is shown in Table B-IV-C in Part II.

The existing working plan for the forests is of " Improvement Felling System " with a felling cycle of 40 years. The work of revision of the working plan is in progress.

For development of forests, it has been decided to afforest about 600 acres during the Third Five-Year Plan. About 200 acres have already been afforested. Third Plan also envisages establishment of a Fodder Bank at Hingoli at a cost of Rs. 8 lakhs. This bank will store surplus grass grown extensively in the district and arrange supply to other districts during scarcity period.

## FISHERIES

Fishing activities in the district are naturally restricted to inland waters only. rivers, tanks and ponds being the chief sources. The total length of perennial rivers in the district is about 145 km. There are also 5 perennial tanks and 5 seasonal tanks and ponds which provide an additional 294 acres of water-spread area. Some more reservoirs are under construction.

The commercially important varieties of fish found in the district are : Baloo, Murrel, Koli Murrel, Dokh, Tam, Rahoo, Maroof, Singhi, Baam, Kanwa, Kolus, Potiac, Patola, Seengal, Khidla, Boori, Yellshal, Peora, Geehul, Murli, Kaneri, Chapti, Kobir, Pathar-Chatu, Bekdi, Selan, Katarna, Ghegra, Tamboo, Gangaoli, Ghod Zinga, Mungarod Zinga, Matechkal Zinga.

These varieties are however of not fast growing type. Quick-growing " Bengal Carps " are, therefore, being stocked annually in the perennial water tanks for propagation of pisciculture. The varieties stocked are Catla Catla, Rohu and Mrigal. During the Second Five-Year Plan period, about 98·7 thousands of Carp fry was stocked while during only the first two years of the Third Plan period the quantity stocked amounted to 64 thousands.

According to the 1961 Census, 318 persons are engaged in fishing as a principal work. 294 of them are males and 24 females. Fishermen in the district belong to the communities known as Dheemer, Bhoi, Kahar and Koli. Since fishing industry has a limited scope, some of the fishermen take to roasting of grams. Fishing is generally done with the help of Gill nets known as " Yeele " or " Udan", Cast nets called " Malota " or " Phekjal " and Drag nets or " Mahajal ". The nets are mostly made of cotton twine but these days nylon is also being effectively used. A co-operative society of fishermen has been organised in the district. Under the fishery requisites scheme, financial assistance is given for purchase of cotton twine to the members of the society.

## MINING AND QUARRYING

The district is covered mostly by Deccan Trap, a material of great use in building industry. Deposits of any kind of minerals are not reported anywhere in the district. Mining activity in the district is, therefore, restricted only to quarrying of stones. According to the 1961 Census, 1,145 persons are working on quarrying of stones, clay, sand, etc. 903 of them are males and 242 females.

## INDUSTRIES

Ginning and pressing is the only important processing industry in the district. There are 26 ginning and pressing units, which together give seasonal employment to over 2,400 persons. Most of the units are combined with oil mills for off-season work. Apart from this, there are no other large-scale industrial establishments in the district. The general pattern of non-agricultural employment leans heavily towards crafts and craftsmen working on traditional lines with locally available raw materials or for local demand alone. Lack of adequate power supply may have arrested the growth of industries. Availability of raw material such as cotton, oil-seeds and sugarcane coupled with cheap and ample supply of the power from Purna Project, will soon widen the scope for industrial expansion in future.

There are in all 28,604 workers engaged in industries. 21,749 or 76·03 per cent of them are in household industries and 6,855 or 23·97 per cent in non-household industries. The total number of workers in the registered factories in 1961 is 2,673 which makes only 9·34 per cent of all workers engaged in manufacturing industries or only 2 factory workers per thousand of total population as against 20 per thousand of total population for Maharashtra.

The distribution of workers engaged in each industry major and minor groups, is shown in Table B-IV-C in Part II. The number of establishments and the number of workers for each industry minor group prepared from houselists are also shown separately for each village in the Village Industries Table presented at the end of Part II.

### Large-scale Factories

There are 26 large-scale registered factories in the district working with 50 or more workers and using power. As described earlier, five of them are oil mills combined with ginning and pressing units. Two such factories are located at Sailu and one each at Hingoli, Gangakhed and Purna.

There are 21 large-scale ginning and pressing units in the district. The biggest of these, employing about 362 workers, is the Vishnu Ginning and Pressing Factory at Parbhani. The other factories employing workers between 100 to 200 are situated one each at Satona, Partur and Manwath and two each at Hingoli and Parbhani.

In addition there are ginning and pressing factories working with 50 to 100 workers located at Basmathnagar (3), Salva (1), Hingoli (3), Parbhani (3), Partur (2) and Gangakhed (1).

### Small-Scale Registered Factories

There are about 40 registered but smaller establishments like ginning and pressing units, oil mills, dal mills, oil-cake, machinery repairing, etc.

The total number of registered factories has decreased from 65 in 1951 to 50 in 1961. The average number of workers in registered factories has also decreased from 2,700 in 1951 to 2,673 in 1961. This is mainly due to the large increase of ginning and pressing factories and oil mills during the World War II and the subsequent decrease during the post-war period as they were found to be uneconomic for seasonal work.

According to the Census of Manufacturing Industries in 1959, the manufacturing industries in the district had a combined fixed capital of Rs. 20·39 lakhs and working capital was Rs. 6·03 lakhs. The total value of annual production was Rs. 35·50 lakhs and value added by manufacturing was Rs. 4·84 lakhs. These figures relate only to the industries covered by the Census of Manufacturing Industries Act.

The value added by manufacture in the district in 1959 was only 0·02 per cent of the total value added by manufacturing in Maharashtra.

### Small-Scale and Cottage Industries

The traditional crafts are conducted on household and cottage industries scale. They are mostly servicing and processing units important of which are wool weaving industry, leather goods, brick-making, cement and pottery, quarrying, gur-making, basket-making, carpentry, oil ghanis, etc.

Production and rearing of livestock engages the largest number (18,799) of persons. Cattle, sheep, goats, hens and horses are reared in large numbers. Rearing of sheep for production of wool engages 3,667 workers. This group consists of shepherds who keep sheep and weave *kambals*. Wool-weaving is an important industry and there are three co-operative societies in this sector in the district.

Manufacture of textile garments engages 2,911 workers in the district, while 2,551 persons are engaged in the manufacture of materials from bamboo, cane, leaves, etc. The former group includes mostly tailors who are 2,854 and engaged in making garments for men and women. The latter consists of basket weavers whose number in the district is 2,406.

3,254 persons have their occupation as carpenters. These are mostly the workers who manufacture, fix or repair doors and door-frames, wooden roof-beams, furniture, agricultural implements and bullock-carts.

2,168 persons are working as shoe-makers and repairers.

Of all the cottage industries the handloom industry is the major industry in the district. At the end of May 1961, there were 4,156 cotton handlooms registered in the district. Out of these, 699 were brought under the co-operative fold.

There are 584 flour mills engaging 944 workers.

The proportion of different groups of artisans to one lakh of total population in the district is as follows:—

Blacksmiths—83, Carpenters—270, Shoe-makers and Repairers—180, Potters—179, Tailors and Dress-makers—237, Spinners and Weavers—166 and Basket weavers—199.

Tanning and leather working industry is next to handloom industry. There were 8 societies working in the district. Leather sewing machines are supplied to cobblers who are not in a position to purchase such machines.

Model tanneries are opened at Devthana and Pingali in the district. There is also a tannery school at Ganeshwadi in Hingoli taluka.

Wool industry is another important industry in the district. The work of shearing, carding and spinning of wool and sizing of yarn are done by hand and the methods are crude. It was, therefore, proposed to introduce frame looms and bring the wool weavers into the co-operative fold. The number of looms were also proposed to be raised by 120 during the Second Five-Year Plan.

Schemes of training of craftsmen and artisans in the improved methods of manufacture and in the use of improved implements have also been introduced and training facilities are offered by organising co-operative work centres in the district.

The "Master Plan" prepared by the Industries Department in 1960 had indicated scope for establishment of the following new industries in the district :—

(1) Solvent extraction of oil-seeds/cakes.
(2) Cotton-seed oil.
(3) Sugar.

An Industrial Estate at Hingoli is proposed to be established on co-operative basis during the Third Five-Year Plan.

## POWER

The number of electrified towns and villages in the district is only 10 in 1960-61. Their talukawise lists are given in Table 31 in Part III. The total population of these electrified places is only 11·60 per cent of the total population of the district.

The district consumption of electricity on different items for eight years is shown in Table 30 in Part III.

The *per capita* consumption is naturally much lower than the State average, as only 10 towns and villages in this district had been electrified up to 1960-61.

The electric supply to the district is through the Maharashtra State Electricity Board. Two electricity generating stations of 50 KW. and 80 KW. capacity were first started in 1958 at Hingoli. Later on in May 1959 two generating sets of 100 KW. each and one set of 200 KW. were installed at Parbhani. Electricity was carried from Parbhani to Purna Town in June 1961. During the same month a generating set of 30 KW. capacity was installed at Partur and another of 50 KW. capacity at Jintur. Basmathnagar was supplied with electricity from Nanded.

Construction of a hydro-electric power house at Yeldari dam on the Purna river is in progress. Its capacity will be 15,000 KW. Cheap power supplied from the Purna Project will accelerate industrial development in the district.

## TRADE AND COMMERCE

The chief commodities of export from the district are jowar, other foodgrains, cotton, oil-seeds, chillies, cattle, sheep, gur, tobacco, hides, bones, horns, etc. For the purposes of export the produce is collected at certain important centres in the district from where it finds its way to the nearby districts and Bombay. The chief articles of imports are salt, spices, copper and brass sheets and vessels, sugar, kerosene oil, iron, piece-goods, fruits and provisions, betel-nuts, stationery, etc. Most of these imports are from Bombay. Agricultural produce is collected from the producers mainly at market centres. The distribution of foodgrains and other articles of trade is through shops and pedlars or hawkers and in addition through the very well established institutions of weekly markets and fairs where sellers and buyers meet on fixed days of the week or the year.

### Shops

Shops are found in almost all villages except in the smallest. These shops are generally managed by shopkeepers who are a sort of general tradesmen, combining trade of foodgrains and cloth with money-lending. There are in all 8,330 shops in the district. 5,784 are in rural areas and 2,546 in urban areas. This does not include the shops temporarily set up in weekly markets or fairs. The number of shops per 1,000 dwellings is 34·7 for the district as a whole, 29·1 for rural areas and 77·6 for urban areas. It will, therefore, be seen that the urban areas have nearly two and half times more shops per 1,000 dwellings than rural areas. The ratio between the shops and 1,000 dwellings for the district is less than the State average of 36·4. Talukawise number of shops may be seen in Table E-I in Part II.

### Weekly Markets

These are commonly known as "bazars" and are chiefly distributing rather than collecting centres. Internal trade is carried on by means of weekly markets held at different places of the district. The articles sold at these markets are foodgrains, pulses, oils, spices, piece-goods, cloth, fruits and vegetables, brass and copper vessels, cattle, etc. Pedlars and hawkers set up booths on the market days. Agriculturists from the nearby villages also bring their farm produce. In addition, temporary stalls are also set up by traders and shopkeepers who belong to the market place. The weekly market starts by about two in the afternoon and closes by six to enable both the buyers and sellers to reach home before it is dark. People from villages

within the radius of 4-5 miles are generally the buyers at these markets.

Column 7 of the Village Directory in Part I shows for each village in the district whether a weekly market is held and if so, on which day of the week. A list of weekly markets in the district given in Table 32 in Part III shows the location and day on which each bazar is held. The map facing page 210 shows locations of all these markets and also the days on which each bazar is held.

There were altogether 133 weekly and 1 bi-weekly markets in the district during the year 1960-61. Twelve out of them are also cattle markets. Twenty-nine weekly markets are held on Sunday, 23 on Monday, 14 on Tuesday, 16 on Wednesday, 15 on Thursday, 22 on Friday and 16 on Saturday.

The map facing page 210 will show that five or six weekly markets cluster as satellites around a central village. Each has its bazar on one of the week days keeping the pedlars and hawkers engaged throughout the week and also providing a choice to buyers to go to one nearby market or the other.

**Fairs**

Fairs are complementary to weekly markets so far as trade is concerned. They are attended by unusually large gatherings and all sorts of articles of daily use (including cattle at some places) are brought for sale. They are chiefly distributing centres. A list of fairs held in the district showing their locations, duration and dates and approximate number of persons attending is presented in Table 33 in Part III. The map facing page 211 shows locations of all the fairs in the district having 1,000 or more gatherings. A volume giving details regarding fairs and festivals is also issued separately.

**Trade Centres**

Apart from the weekly markets and fairs (1) Parbhani, (2) Hingoli, (3) Sailu, (4) Purna, (5) Manwath, (6) Pingali, (7) Partur, (8) Gangakhed, (9) Basmathnagar, (10) Akhada Balapur and (11) Jintur are important agricultural market centres in the district, as far as collection and export of agricultural produce are concerned. Out of these eleven trade centres, Pingali is the only market where cattle are sold. The Agricultural Produce Markets at these places are regulated under the Hyderabad Agricultural Markets Act No. II of 1339 (Fasli) and they are managed by the Market Committees. Hingoli, Sailu and Parbhani are important centres of trade and their annual turnover is more than a crore of rupees each.

The annual turnover in some of the selected regulated markets in the year 1958-59 was as follows :—

| Market Committee | Total value |
|---|---|
| | Rs. |
| (1) Parbhani .. .. | 1,04,31,422 |
| (2) Hingoli .. .. | 1,51,01,582 |
| (3) Manwath .. .. | 75,37,397 |
| (4) Sailu .. .. | 1,44,59,626 |
| (5) Partur .. .. | 52,73,470 |
| (6) Purna .. .. | 24,71,835 |
| (7) Gangakhed .. .. | 22,24,029 |
| (8) Basmath .. .. | 25,18,642 |
| Total .. | 6,00,18,003 |

With a view to increasing the warehousing facilities for agricultural produce, a chain of godowns to store the agricultural produce, brought by farmers in the markets, have been constructed by the Government at Parbhani, Sailu and Manwath.

**Workers in Trade and Commerce**

The total number of persons engaged in trade and commerce in the district is 17,976, out of which 7,944 or 44·19 per cent are in rural areas and 10,032 or 55·81 per cent are in urban areas. The workers in trade and commerce account for 2·88 per cent of all workers in the district. More than half of the district total are in Parbhani (18·65 per cent), Pathri (18·35 per cent) and Hingoli (14·68 per cent) talukas only.

Only 4·66 per cent of the workers in trade and commerce are in wholesale trade, 90·77 per cent in retail trade and 4·57 per cent in miscellaneous trade and commerce. About 97 per cent of the wholesalers are in the urban areas.

The number of wholesalers trading exclusively in cereals and pulses is 29 only. The wholesale trade of cereals and pulses appears to be combined with wholesale trade of sugar, spices, oil, etc. as the number for the group is 121.

A detailed break-up of workers in trade and commerce by industry major groups and minor groups is shown in Table B-IV-C in Part II.

**Banking Offices**

A list of banking offices, with their years of establishment, type and location is given in Table 23 in Part III. Their break-up by talukas and type is shown below :—

| | Number of Banking Offices | | |
|---|---|---|---|
| | Scheduled | Co-operative | Total |
| DISTRICT TOTAL | 6 | 8 | 14 |
| (1) Partur Taluka .. | 1 | 1 | 2 |
| (2) Jintur Taluka .. | .. | 1 | 1 |
| (3) Hingoli Taluka .. | 2 | 1 | 3 |
| (4) Kalamnuri Taluka .. | .. | 1 | 1 |
| (5) Pathri Taluka .. .. | 2 | 1 | 3 |
| (6) Parbhani Taluka .. | 1 | 1 | 2 |
| (7) Basmath Taluka .. | .. | 1 | 1 |
| (8) Gangakhed Taluka .. | .. | 1 | 1 |

Hingoli, Pathri, Parbhani and Partur which are important trade centres in the district have the maximum number of banks. All the talukas have at least one branch office of the Central Co-operative Bank.

Financial transactions of the Government are done through the District Treasury and branches of the State Bank of Hyderabad. There are sub-treasuries at each taluka headquarters. The State Bank of Hyderabad has its branches at Sailu, Hingoli, Manwath and Parbhani.

## COMMUNICATIONS AND TRANSPORT

The Manmad-Secunderabad metre-gauge line of about 61 miles passes through the central part of the district from east to west connecting Secunderabad on one side and Manmad on the other. Parbhani is an important railway junction on this line, from where another metre-gauge line of about 32 miles in the district goes to Parli-Vaijnath in Bhir district. Purna is another Railway centre from where another metre-gauge line goes to Hingoli-Akola-Khandwa. All these lines belong to the Central Railway and the total railway mileage in the district is 185·89 miles.

Existing railway mileage in the district is 3·84 miles per 100 sq. miles of area against the average of 2·66 miles for the State.

Table 21 in Part III shows the existing road mileage in the district as well as its break-up by the type of road surface. The district map facing the Title page shows all these roads. Until recently the district had very few roads. The position has now improved considerably.

There are no National Highways and other District Roads in the district. During the period 1951—61, the State Highways increased by 132·69 miles while the Major District roads decreased by 24·55 miles. This decrease was due to the transfer of some miles of road from this category to State Highways. In 1951, there were no Village roads in the district. However the mileage of these roads in 1961 was 6·46. The total increase in all types of roads (excluding municipal) is 114·60 miles.

Under the Nagpur Plan, the district should have 1,995 miles of roads. On 31st March 1961 it was short of that target by 1,697·70 miles.

**New Roads**

The construction of the following roads is in progress (as on 31st March 1962):—

(1) Parbhani-Gangakhed road ; (2) Parbhani-Kola road ; (3) Sailu-Pathri road ; (4) Sailu-Manjlegaon road ; (5) Kalamnuri-Sambar-Pimpri road ; (6) Parbhani-Basmath road ; (7) Parli-Gangakhed road ; (8) Nanded-Purna road and (9) Hatta-Nageshwadi road.

**New Bridges**

The following four major bridges are proposed and included in the Five-Year Plan Scheme :—

(1) High level bridge across Godavari river on Parbhani-Gangakhed road.

(2) High level bridge across Purna river on Parbhani-Basmath road.

(3) Bridge on Hivra river on Aundha-Hingoli road.

(4) Bridge on Kayadhu on Aundha-Hingoli road.

The work of the first two bridges is in progress.

**Posts, Telegraphs and Telephones**

The district is included in the Aurangabad Postal Division. Head Post Office is situated at Parbhani and sub-offices at taluka headquarters and towns. The bigger villages have branch post offices. During the year 1961-62 there were 15 sub-post offices and 147 branch post offices in the district. Together their number has increased by 125 per cent over that of 1951-52. The number of post boxes in the district was 26 in 1961-62.

There are Telegraph offices at the following eleven places :—

(1) Parbhani ; (2) Basmathnagar ; (3) Gangakhed ; (4) Hingoli ; (5) Kalamnuri ; (6) Manwath ; (7) Partur ; (8) Pathri ; (9) Purna ; (10) Sailu ; and (11) Parbhani Station.

The following eight places have Telephone connections :—

(1) Parbhani ; (2) Basmathnagar ; (3) Gangakhed ; (4) Hingoli ; (5) Manwath ; (6) Partur ; (7) Pathri; and (8) Sailu.

**Passenger Road Transport**

By the end of the Second Five-Year Plan, 52 per cent of the passenger road transport had been nationalised. It is proposed to extend it to 76 per cent by the end of the Third Five-Year Plan. It is also proposed to construct additional bus stations, pick-up stands and provide other facilities for the travelling public during the Third Five-Year Plan.

This district is included in the jurisdiction of Aurangabad division of the State Road Transport Corporation. There is a depot of S. T. at Jintur. No separate figures for passenger transport are available for the district. The depot runs buses on 12 routes which make 84 single trips per day.

**Goods Transport**

Separate figures for lorries operated in the district are not available as the Regional Transport Officer working at Aurangabad keeps combined records for his region including Aurangabad, Parbhani, Osmanabad, Nanded and Bhir districts.

**Workers in Transport and Communications**

4,055 persons are engaged in transport and 401 in postal, telegraphic and telephone communications in the district. Out of the workers in transport, 2,145 are in railway transport, 367 in motor transport and 1,543 in other kinds of transport like bullock-carts, horses on hire, coolies etc.

The Village Directory in Part I gives information for each village in the district whether it is served by a railway or a road or has a post office or not.

## CONSTRUCTION

The total number of persons engaged in construction is 12,724. 9,218 are males and 3,506 are females. Their distribution by minor groups is shown in Table B-IV-C in Part II.

44·53 per cent of the workers are engaged in construction and maintenance of dams, waterways and canals etc., 26·61 per cent in construction and maintenance of roads, bridges including telegraph and telephone lines and 28·86 per cent in construction of buildinsg. The high proportion engaged in the construction of dams, waterways, etc. is due to the large number of persons employed on the construction of Purna Project, which consists of two dams at Yeldari and Sidheshwar and a system of canals. In addition there are a number of small irrigation schemes in progress in the district.

All the workers engaged in construction together make 2·04 per cent of the total workers in the district.

## OTHER SERVICES

38,305 persons comprising 28,520 males and 9,785 females are engaged in " Other Services ", the major categories of which are : (*i*) Public Services ; (*ii*) Educational Services ; and (*iii*) Personal Services. " Public Services " include administrative employees of Central, State and Local Governments. " Educational Services " include all classes of teachers and " Personal Services " include domestic servants as well as barbers, washermen and others rendering services to persons or households. The distribution of the workers in other services by minor groups is shown in Table B-IV-C in Part II.

6·14 per cent of the total workers in the district are engaged in " Other Services " as against 8·53 per cent in the State. 16·63 per cent of the total workers in " Other Services " in the district are engaged in Public Services and 9·30 per cent in Educational Services. Both these proportions are lower than the corresponding proportions (23·86 per cent and 12·40 per cent) for Maharashtra. This is so, perhaps, because the district does not have a large urban population and the numbers of business services, labour associations or recreation services are also comparably low. Even the proportion of " Personal Services " in the district is lower, i.e., 16·08 per cent than the State average of 27·15 per cent.

The number of domestic servants is 1,624 or one for about 743 population. The number of barbers is 2,105. The number of persons in laundry services including washermen is 750.

There are 224 legal practitioners and 750 persons working in medical and health services excluding veterinary services.

The number of persons including teaching staff in technical schools and colleges is 221 and that in other schools and colleges is 3,336.

The number of State Government employees including those now working under the Zilla Parishad is 5,524.

## BROAD ASPECTS OF ECONOMY

Individual sectors of economy of the district have so far been described separately. A few broad aspects may now be discussed for the economy as a whole.

### Labour Participation Rates

The proportions of workers to total population, males and females for the district and each taluka are as follows :—

| | Percentage proportion of workers | | |
|---|---|---|---|
| | Total | Males | Females |
| MAHARASHTRA .. | 47·91 | 57·09 | 38·10 |
| PARBHANI DISTRICT .. | 51·75 | 61·83 | 41·38 |
| 1 Partur Taluka .. .. | 52·42 | 61·96 | 42·63 |
| 2 Jintur Taluka .. .. | 53·30 | 63·30 | 42·94 |
| 3 Hingoli Taluka .. .. | 52·25 | 61·64 | 42·55 |
| 4 Kalamnuri Taluka .. | 54·38 | 61·36 | 47·39 |
| 5 Pathri Taluka .. | 51·93 | 61·72 | 41·97 |
| 6 Parbhani Taluka .. | 47·12 | 59·85 | 33·82 |
| 7 Basmath Taluka .. | 52·97 | 62·57 | 43·02 |
| 8 Gangakhed Taluka .. | 51·13 | 62·65 | 39·23 |

Labour participation rates in the district are higher than those for Maharashtra for total and both for males and females. Within the district participation rates vary from 54·38 per cent in Kalamnuri taluka to 47·12 per cent in Parbhani taluka. Male participation is highest with 63·30 per cent in Jintur taluka while female participation is highest in Kalamnuri taluka with 47·39 per cent. Parbhani taluka has lower participation because of its large urban sector of the population. The district average ratios are however very much higher than the State average for the total as well as for males and females. Higher participation rates here are due to the extreme dependence on agriculture and a generally backward economy.

### Primary, Secondary and Tertiary Sectors

The Primary Census Abstract shows the distribution of workers in the nine categories of economic activity. Table B-IV-C in Part II shows detailed industrial classification of all workers other than those at cultivation. The percentage distribution of workers in primary, secondary and tertiary activities for the district and the State is as follows :—

| | | Total workers | Primary | Secondary | Tertiary |
|---|---|---|---|---|---|
| Maharashtra .. | Total | 100 | 72·25 | 12·34 | 15·41 |
| | Rural | 100 | 88·73 | 5·68 | 5·59 |
| | Urban | 100 | 11·97 | 36·69 | 51·34 |
| Parbhani District .. | Total | 100 | 83·79 | 6·47 | 9·74 |
| | Rural | 100 | 89·41 | 5·15 | 5·44 |
| | Urban | 100 | 31·71 | 18·69 | 49·60 |

As can be expected the primary sector engages as many as 83·79 per cent of the workers in the district. Even in urban areas it engages 31·71 per cent of the workers. Secondary and tertiary sectors engage less than 10 per cent each. Urban areas in the district also lag very much behind in the secondary sector which engages 18·69 per cent of workers against 36·69 per cent for the State. Though there exists a difference in the percentage of workers in the tertiary sector, the proportions in the urban areas of the district and the State are about of the same order.

### Categories of Economic Activity

The distribution of workers, males and females by nine categories of economic activities for the district and the State is as follows :—

| | MAHARASHTRA | | | PARBHANI DISTRICT | | |
|---|---|---|---|---|---|---|
| | Persons | Males | Females | Persons | Males | Females |
| I Cultivation .. | 46·11 | 40·69 | 54·79 | 41·34 | 42·79 | 39·09 |
| II Agricultural Labour | 23·80 | 18·12 | 32·90 | 38·60 | 29·66 | 52·36 |
| III Mining, Quarrying, Livestock, Fishing, etc. | 2·16 | 2·97 | 0·86 | 3·70 | 5·88 | 0·35 |
| IV Household Industry | 4·39 | 4·80 | 3·74 | 3·48 | 4·53 | 1·88 |
| V Manufacturing other than Household Industry. | 6·88 | 10·22 | 1·54 | 1·10 | 1·58 | 0·36 |
| VI Construction .. | 1·24 | 1·69 | 0·53 | 2·04 | 2·44 | 1·42 |
| VII Trade and Commerce | 4·52 | 6·61 | 1·17 | 2·88 | 4·39 | 0·55 |
| VIII Transport, Storage and Communications. | 2·36 | 3·65 | 0·29 | 0·72 | 1·19 | 0·01 |
| IX Other Services .. | 8·54 | 11·25 | 4·18 | 6·14 | 7·54 | 3·98 |
| Total Workers .. | 100·00 | 100·00 | 100·00 | 100·00 | 100·00 | 100·00 |

As described earlier the district has larger proportions of workers engaged both as cultivators and agricultural labourers than the State average. This is so because less alternative employment in industry are available in the district. The proportions in other services, trade and commerce and transport, storage and communications are lower and the proportion of workers in manufacturing industry (1·10 per cent) is insignificant as compared to the State average of 6·88. Higher proportion in construction is due to the large number of workers engaged on the Purna Project and canal works.

Among the workers working upon land, the ratio between cultivators and agricultural labourers is slightly more than one (41 : 38) while it is (2 : 1) for the State average. Because of the tenurial differences, predominance of dry land and labour intensive cropping pattern dominated by cotton, there are comparatively more agricultural labourers than the average for the State.

Talukawise distribution of workers in the nine categories of economic activities is shown below. Corresponding figures for the State and the district are also shown for comparison.

Distribution of workers by the nine categories of economic activity is also shown in the Figure at page (46) for the district and each taluka separately.

The proportions both of cultivators and agricultural labourers differ considerably from taluka to taluka. The proportion of cultivators varies from 53·27 per cent for Kalamnuri taluka to 28·89 for Pathri taluka. The proportion for agricultural labourers varies from 49·43 per cent for Pathri taluka to 29·47 for Basmath taluka. Hingoli taluka approaches Basmath taluka pattern very nearly.

| State/District/Taluka | I Cultivator | II Agricultural Labourer | III Mining, Quarrying, Livestock, Fishing, Forestry, etc. | IV Household Industry | V Manufacturing other than household industry | VI Construction | VII Trade and Commerce | VIII Transport, Storage and Communications | IX Other Services | Total |
|---|---|---|---|---|---|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) | (9) | (10) | (11) |
| MAHARASHTRA .. | 46·11 | 23·80 | 2·16 | 4·39 | 6·88 | 1·24 | 4·52 | 2·36 | 8·54 | 100·00 |
| PARBHANI DISTRICT .. | 41·34 | 38·60 | 3·70 | 3·48 | 1·10 | 2·04 | 2·88 | 0·72 | 6·14 | 100·00 |
| 1 Partur Taluka .. | 39·82 | 43·85 | 4·17 | 2·72 | 1·04 | 0·48 | 2·45 | 0·35 | 5·12 | 100·00 |
| 2 Jintur Taluka .. | 44·03 | 36·69 | 4·29 | 3·01 | 0·69 | 4·81 | 2·27 | 0·23 | 3·98 | 100·00 |
| 3 Hingoli Taluka .. | 47·05 | 33·29 | 1·15 | 2·57 | 1·71 | 4·80 | 3·16 | 0·74 | 5·53 | 100·00 |
| 4 Kalamnuri Taluka .. | 53·27 | 35·56 | 1·68 | 2·76 | 0·39 | 0·69 | 1·70 | 0·18 | 3·77 | 100·00 |
| 5 Pathri Taluka .. | 28·89 | 49·43 | 4·54 | 4·09 | 1·55 | 0·88 | 3·87 | 0·76 | 5·99 | 100·00 |
| 6 Parbhani Taluka .. | 35·12 | 37·47 | 4·40 | 3·46 | 1·86 | 0·85 | 4·04 | 2·65 | 10·15 | 100·00 |
| 7 Basmath Taluka .. | 45·88 | 29·47 | 4·65 | 5·52 | 0·83 | 3·04 | 2·78 | 0·36 | 7·47 | 100·00 |
| 8 Gangakhed Taluka .. | 39·47 | 41·87 | 4·60 | 3·66 | 0·51 | 0·72 | 2·41 | 0·30 | 6·46 | 100·00 |

## Labour Participation by Age

The labour participation rates by broad age-groups are shown below for the district for total, males and females separately. Corresponding figures for the State are also shown for comparison :—

| Age-groups | PARBHANI DISTRICT | | | MAHARASHTRA | | |
|---|---|---|---|---|---|---|
| | Total | Males | Females | Total | Males | Females |
| All ages .. .. | 51·75 | 61·83 | 41·38 | 47·91 | 57·09 | 38·10 |
| 0—14 .. .. | 14·35 | 16·61 | 12·03 | 8·72 | 8·62 | 8·84 |
| 15—34 .. .. | 80·66 | 94·87 | 66·77 | 74·53 | 87·45 | 60·90 |
| 35—59 .. .. | 82·63 | 97·61 | 65·13 | 81·57 | 96·86 | 63·68 |
| 60+ .. .. | 49·27 | 76·15 | 26·18 | 49·13 | 72·82 | 26·28 |

Participation rates in the district are higher than the corresponding State averages both for males and females and for all age-groups except for females in 60+. This may be an index of the underdeveloped economy of the district.

## Workers by Educational Levels

The distribution of workers by educational levels shown in Table B-III in Part II is shown below by percentages for the district total. Corresponding figures for the State are also shown for comparison :—

| | Illiterate | Literate (without educational level) | Primary or Junior basic | Matriculation and above |
|---|---|---|---|---|
| **Maharashtra** .. | 68·65 | 14·11 | 13·91 | 3·33 |
| **Parbhani District** .. | 82·78 | 11·45 | 4·87 | 0·90 |

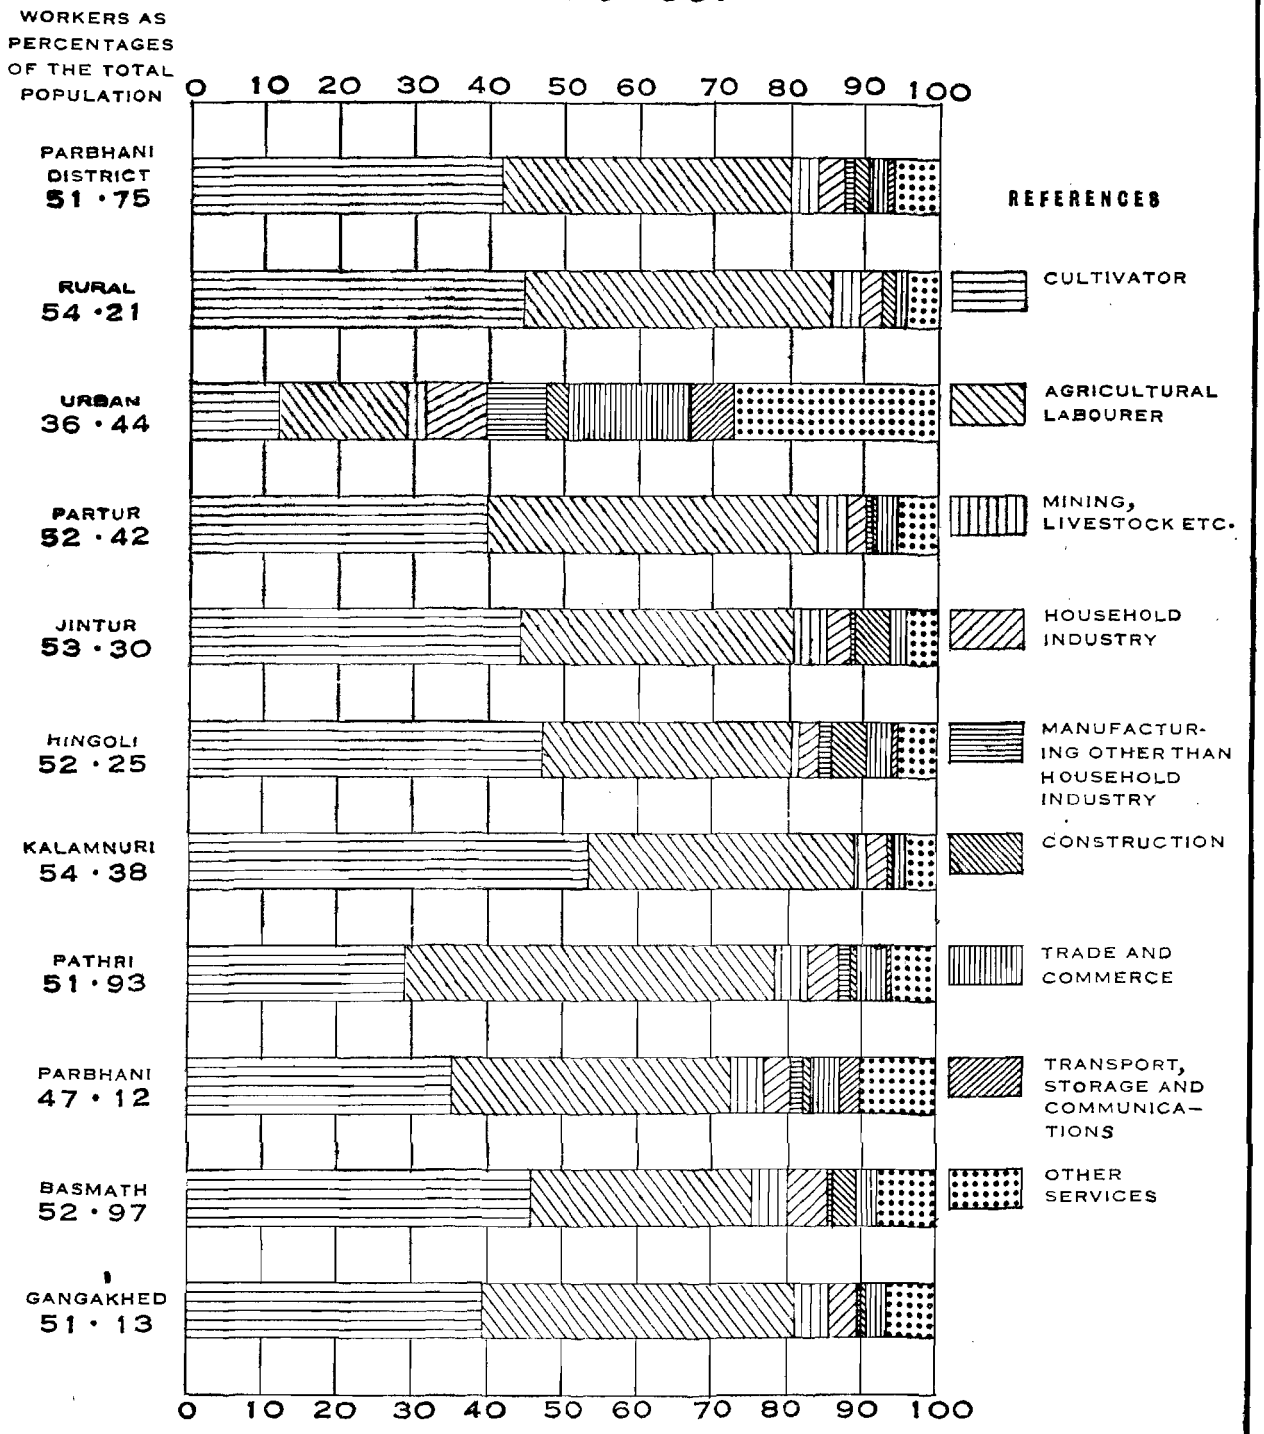

Because of lower literacy rates in the district the proportion (82·78 per cent) of illiterate workers to total workers is much higher than the State average (68·65 per cent). The proportions of literates without educational levels are consequently lower than those for the State. The proportion of matriculates and above is less than third of the State average.

## Status of Employment

Table B-IV-B in Part II shows the distribution of workers by Status of Employment for non-household industries. The percentage proportions of employers, employees, single workers and family workers in the district for total, rural and urban areas are as follows. Corresponding figures for Maharashtra are also shown for comparison. The four classes of workers are defined in paragraph 58 in the Explanatory Note to Part II.

| | | Total workers | Class of Workers | | | |
|---|---|---|---|---|---|---|
| | | | Employers | Employees | Single workers | Family workers |
| Maharashtra .. | Total | 100 | 3·96 | 62·18 | 26·52 | 7·34 |
| | Rural | 100 | 1·57 | 46·47 | 38·58 | 13·38 |
| | Urban | 100 | 4·98 | 68·90 | 21·37 | 4·75 |
| Parbhani District .. | Total | 100 | 2·69 | 40·78 | 42·83 | 13·70 |
| | Rural | 100 | 1·96 | 36·88 | 46·10 | 15·06 |
| | Urban | 100 | 3·93 | 47·43 | 37·24 | 11·40 |

# TALUKAWISE DISTRIBUTION OF WORKERS 1961

Family workers and single workers have larger proportions in the district than the State average. Those differences are more marked in urban areas. This is a reflection of the traditional crafts dominating the scene. The proportions of employees are low as a consequence of the preponderance of single workers and family workers.

**Percentage Distribution in Household Industry by Employees and others**

The proportion of employees, i.e., hired workers and others in household industries in the district total, rural and urban areas is shown in Table B-IV-A in Part II. The percentage distribution with corresponding figures for Maharashtra is as follows :—

| | | Total workers | Employees | Others |
|---|---|---|---|---|
| Maharashtra .. | Total | 100 | 8·18 | 91·82 |
| | Rural | 100 | 4·91 | 95·09 |
| | Urban | 100 | 16·35 | 83·65 |
| Parbhani District .. | Total | 100 | 8·93 | 91·07 |
| | Rural | 100 | 7·54 | 92·46 |
| | Urban | 100 | 13·62 | 86·38 |

Household Industries in the district work with more family workers in urban areas and the proportion of hired workers is 13·62 per cent against 16·35 per cent for the State. For the rural areas, however, the proportion of hired workers is larger (7·54 per cent) in the district than the State average of 4·91 per cent.

**Secondary Work**

The proportions of workers also engaged in some other secondary economic activity for three categories of Principal work for Maharashtra and the district are as follows (Actual figures are shown in Table B-VII-A in Part II) :—

| Principal work | Total Rural Urban | Percentage of total workers by categories of secondary work I | II | IV |
|---|---|---|---|---|
| MAHARASHTRA— | | | | |
| I Cultivation .. | Total | .... | 17·85 | 1·97 |
| | Rural | .... | 18·03 | 1·98 |
| | Urban | .... | 10·54 | 1·32 |
| II Agricultural Labour .. | Total | 13·17 | .... | 0·94 |
| | Rural | 13·46 | .... | 0·97 |
| | Urban | 7·12 | .... | 0·31 |
| IV Household Industry .. | Total | 14·78 | 6·97 | .... |
| | Rural | 19·61 | 9·38 | .... |
| | Urban | 2·70 | 0·95 | .... |
| PARBHANI DISTRICT— | | | | |
| I Cultivation .. | Total | .... | 10·06 | 0·63 |
| | Rural | .... | 10·16 | 0·63 |
| | Urban | .... | 6·77 | 0·56 |
| II Agricultural Labour .. | Total | 3·29 | .... | 0·53 |
| | Rural | 3·38 | .... | 0·54 |
| | Urban | 1·41 | .... | 0 23 |
| IV Household Industry | Total | 4·31 | 3·81 | .... |
| | Rural | 5·36 | 4·60 | .... |
| | Urban | 0·74 | 1·17 | .... |

The proportions of cultivators also working as agricultural labourers as secondary work and of agricultural labourers also engaged in cultivation as secondary work are much lower for the district than the State average. The proportions of the workers engaged in household industries also working as cultivators or agricultural labourers as secondary work are very low in the district than the State average.

**Occupational Classification**

Table B-V in Part II shows the distribution of non-agricultural workers by occupation. The percentage distribution for the State and the district is as follows. The occupational classification is described in the Explanatory Note to Part II :—

| Occupational Division | Maharashtra | Parbhani district |
|---|---|---|
| 0 Professional, technical and related workers. | 6·42 | 5·97 |
| 1 Administrative, executive and managerial workers. | 3·89 | 2·70 |
| 2 Clerical and related workers .. | 9·13 | 4·05 |
| 3 Sales workers .. .. .. | 12·23 | 11·98 |
| 4 Farmers, fishermen, hunters, loggers and related workers. | 7·64 | 19·13 |
| 5 Miners, quarrymen and related workers. | 0·75 | 0·57 |
| 6 Workers in Transport and Communication occupations. | 3·57 | 2·41 |
| 7 & 8 Craftsmen, Production process workers and labourers not elsewhere classified. | 45·99 | 45·83 |
| 9 Service, sport and recreation workers .. | 10·27 | 7·29 |
| X Workers not classifiable by occupation. | 0·11 | 0·07 |
| Total .. | 100·00 | 100·00 |

The proportion for the fourth occupational division is higher in the district mainly because of the comparatively larger number of hunters and loggers. Corresponding proportions are not available for 1951 and the 1961 pattern cannot therefore be compared with that of 1951 and earlier Censuses.

**Non-workers**

The distribution of non-workers by eight broad types is shown in Table B-IX in Part II. Percentage distribution for the district is shown below :—

| | District Total | | Rural | | Urban | |
|---|---|---|---|---|---|---|
| | Males | Females | Males | Females | Males | Females |
| (1) Full-time students ... | 28·06 | 5·00 | 25·31 | 3·65 | 41·18 | 10·83 |
| (2) Household duties .. | 0·31 | 38·43 | 0·28 | 35·97 | 0·43 | 49·05 |
| (3) Dependants, infants and disabled. | 69·65 | 55·96 | 72·92 | 59·77 | 54·08 | 39·48 |
| (4) Retired, rentiers or independent means. | 0·57 | 0·29 | 0·38 | 0·30 | 1·43 | 0·27 |
| (5) Beggars, Vagrants etc. | 0·82 | 0·21 | 0·73 | 0·19 | 1 25 | 0·32 |
| (6) Inmates of institutions. | 0·01 | 0·01 | 0·01 | 0·01 | 0·03 | .... |
| (7) Persons seeking employment for the first time. | 0·25 | 0·03 | 0·17 | 0·03 | 0·64 | .. . |
| (8) Unemployed but seeking work. | 0·33 | 0·07 | 0·20 | 0·08 | 0·96 | 0·05 |
| Total .. | 100·00 | 100·00 | 100·00 | 100·00 | 100·00 | 100·0 |

There is a marked difference in the distribution pattern for non-workers among males and females. 28·06 per cent out of male non-workers are full-time students while the corresponding proportion for females is 5·00. The reason is that 38·43 per cent females who are engaged in household duties are also included as non-workers. Male dependents have a higher percentage than female dependents to their respective non-working population. Other categories have less than one per cent of non-working population. There are rural-urban differences in the proportion of dependents. They are due to the large proportion of females in urban areas as non-workers. The rural-urban differences are similar both for males and females. In urban areas the percentage of full-time students is higher and that for dependents lower both for males and females. The percentage of females engaged in household duties is higher in urban areas than in rural areas. The percentage of unemployed person is 1·60 and 0·37 for males in urban and rural areas and negligible in both cases for females. Proportions of full-time students among females are lower both in urban and rural areas than the males. The difference is not, however, entirely due to social customs of attending more to the education of boys than that of girls. The proportions for females are lower also because the group of non-workers contains a large number of adult women engaged in household duties.

# EXPLANATORY NOTE

This Part I presents 1961 Population Census figures for all villages and towns in the district. In the case of towns, the figures are also presented separately for each ward. These basic statistics are not published for such small administrative units in any other country in the world.

**2.** For each village, ward or town are shown its area, number of occupied residential houses, number of households, total population and its break-up by sex, literacy, Scheduled Castes, Scheduled Tribes, workers and non-workers. The figures for workers are further split up by sex and by a broad classification of industrial activity in nine categories described in paragraph 16 below.

**3.** In the village directory, the villages are presented talukawise and within a taluka in the order of their location code numbers. These code numbers had been assigned to them for organising 1961 Census work and follow a regular north-west to south-east direction. The taluka map shows approximate locations of all villages with their code numbers. An alphabetical list of villages will be found facing each taluka map. It shows the code number of each village and its population in 1951 and 1961. The taluka map and the alphabetical list will together facilitate location of any village in the village directory as well as on the spot.

**4.** A " village " is a statutorily recognised village having a defined boundary and separate land records. Hamlets, wadies or padas have, therefore, not been shown separately. On the other hand, statutorily recognised villages having no population have been shown with separate code numbers but with word " uninhabited " shown against them.

**5.** Forest villages, however, make an exception. They are population centres situated within reserved forest areas. Their population mainly consists of forest labourers and their families. Most of them are, however, permanent localities and also have attached cultivated areas leased out by the Forest Department under certain conditions. Their land records are not maintained by the Revenue Department. Statistics for these forest villages have also been presented in the village directory. They may, however, be distinguished from other statutory revenue villages from the letters " (FV) " suffixed after their names.

**6.** Survey of India maps, taluka maps, previous Census Handbooks and many other official sources have been referred both to secure accurate coverage and to get the correct spellings of village names. A very high standard of accuracy may now be claimed for both.

**7.** Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

(*a*) a population of over 5,000 ; and
(*b*) 75 per cent. or more of male workers engaged in non-agricultural occupations.

Census figures for all these towns are presented wardwise after the completion of rural portion. Their names will also be found in the alphabetical lists of villages in capital letters with code numbers shown in Roman figures. They are also shown on the taluka map.

**8.** The taluka maps and the alphabetical lists are both improvements over the 1951 District Census Handbooks. The village figures are, moreover, extracted directly from Census records and not, as was done in 1951, from their copies prepared for some other purposes. The figures presented in the village directory, therefore, tally with the taluka and district Census tables perfectly.

**9.** Information contained in columns (3) to (7) of the village directory is based on village enumeration reports prepared by the Talaties or Patwaries during October/November, 1960, at the time of house numbering and house listing for 1961 Census. Because of the geographical arrangement of the villages these five columns indicate the general pattern of distribution of some basic amenities within a taluka. Village enumeration reports contained many more useful items of information on the villages, which could not be presented in the village directory for want of space. They are preserved in the offices of the District Statistical Officer.

**10.** The area figures in column (8) have been obtained either from the Mamlatdars/Tahsildars or taken from the 1951 Census Handbooks.

**11.** In column (9) of the village directory, the occupied houses include houses used as dwellings or partly as dwellings and partly for some other purposes, *e.g.* shop-*cum*-dwellings, etc.

**12.** Columns (14) to (17) of the village directory present, for the first time, villagewise figures of population of Scheduled Castes and Scheduled Tribes.

**13.** For columns (18) and (19) a " literate " is a person who knows both reading and writing.

**14.** For the definition of a " worker " or a " non-worker " and for a detailed description of industrial categories the Explanatory Note to Part II may have to be referred.

**15.** The villagewise figures for industries and the number of workrs have been presented in a separate table appearing in Part II of the Handbook.

**16.** The following abbreviations have been used in the village directory :—

## ABBREVIATIONS AND SYMBOLS USED

### IN COLUMN HEADINGS

F *for* Females.

M *for* Males.

P *for* Persons.

I Working as Cultivator.

II Working as Agricultural Labourer.

III Working in Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV Working at Household Industry.

V Working in Manufacturing other than Household Industry.

VI Working in Construction.

VII Working in Trade and Commerce.

VIII Working in Transport, Storage and Communications.

IX Working in Other Services.

### IN NOTATIONS

**In Column (2)**

E *for* Electricity.

FV *for* Forest Village.

**In Column (3)**

Po *for* Post Office.

R *for* Connected by Road.

Rh *for* Rest-houses and Choultries.

Rly *for* Connected by Railway.

To *for* Telegraph Office.

**In Column (4)**

C *for* Higher Institutions including Colleges.

H *for* High School.

M *for* Middle School.

P *for* Primary School.

T *for* Technical Institutions.

### IN NOTATIONS

**In Column (5)**

C *for* Canal.

N *for* Nallah.

Riv *for* River.

S *for* Protected Water Supply.

Sp *for* Spring.

Tk *for* Tank.

W *for* Well.

X *for* Inadequacy of Drinking Water.

**In Column (6)**

D *for* Dispensaries.

Hos *for* Hospitals.

Mp *for* Medical Practitioner.

**In Column (7)**

Sun *for* Sunday.

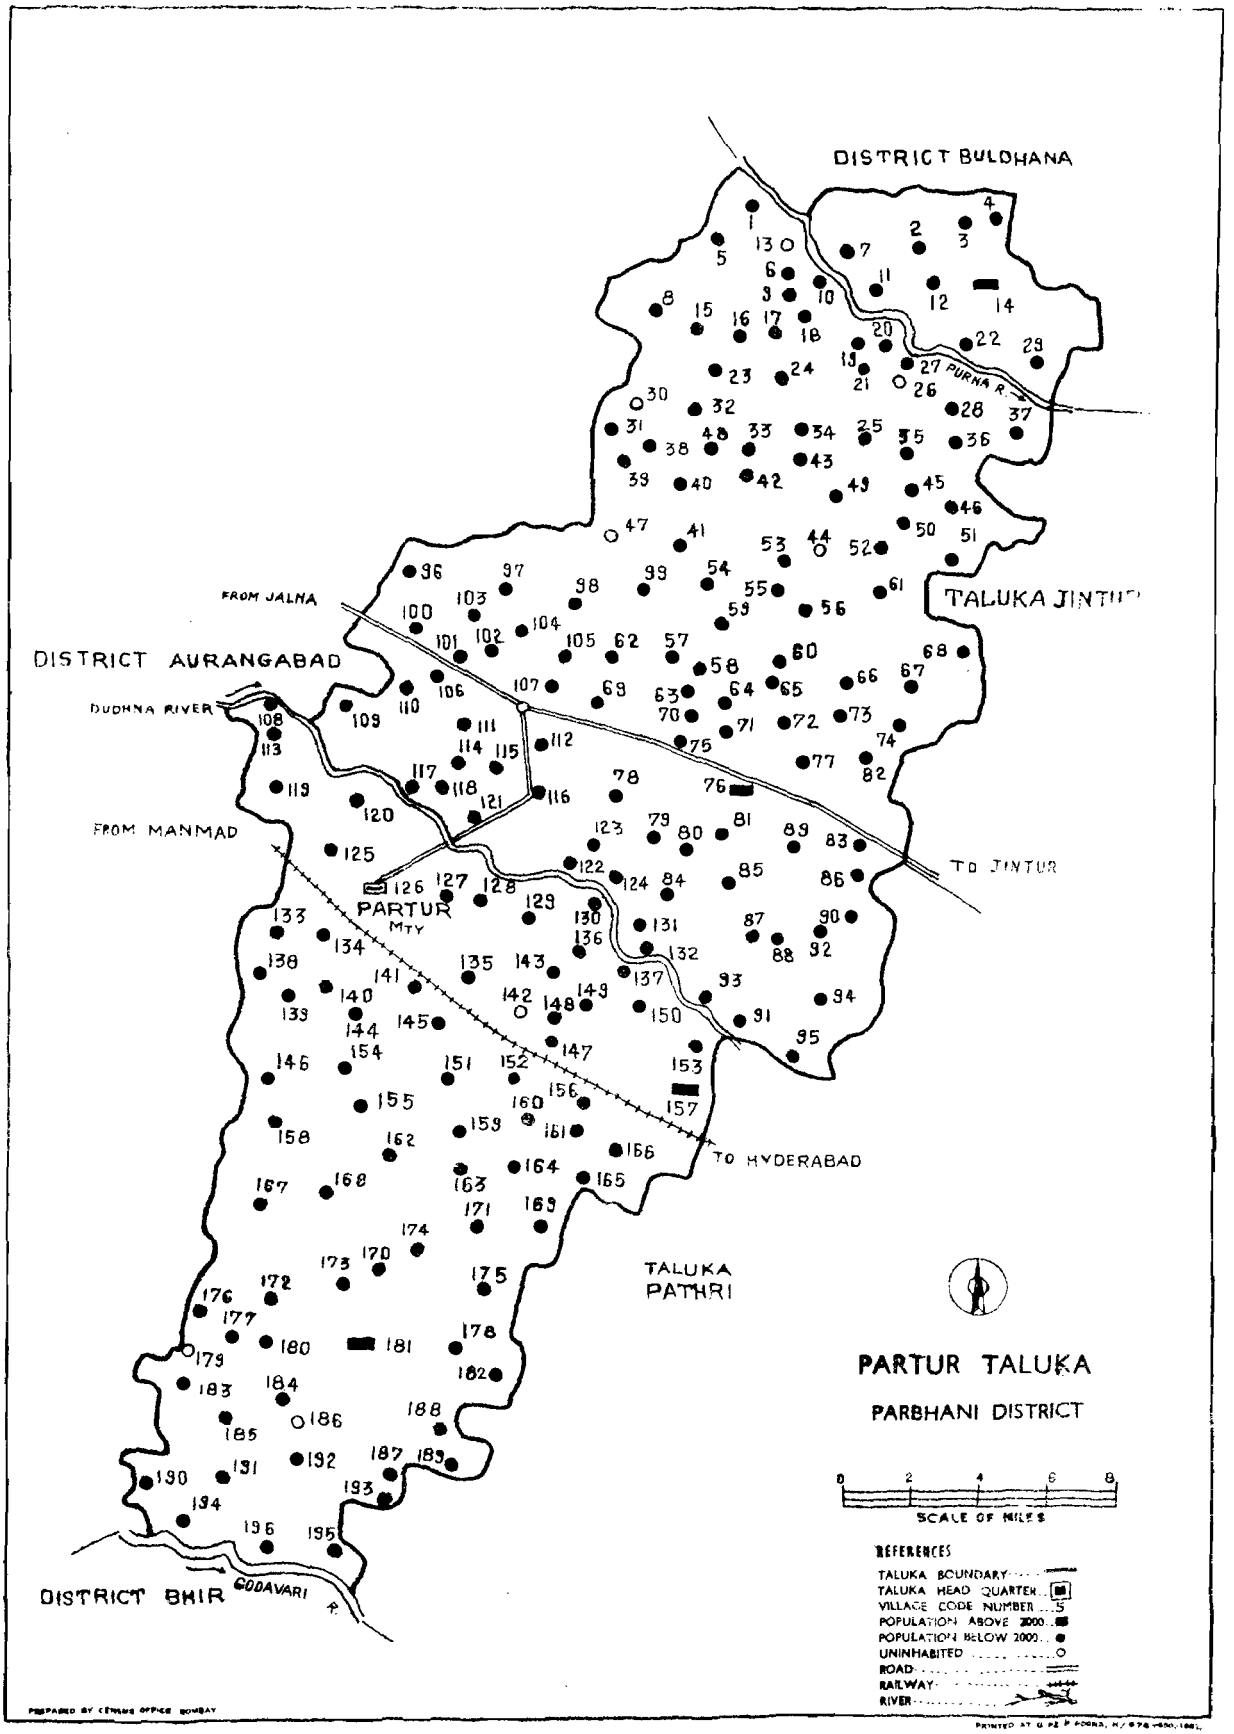

Mon *for* Monday.

Tue *for* Tuesday.
etc.

**In Column (8)**

NA *for* Not Available.

| Number of Establishments and Workers for Industries classified by Minor Groups of Industrial Classification. | | 175 |

# EXPLANATORY NOTE

This Part contains 58 Tables presenting 1961 Census data for the district. 29 Tables also present material for each taluka and 6 for each town separately. These taluka-wise and townwise tables have been prepared specially for this volume.

**2.** A few Tables (e.g., A-IV, B-VI, B-VIII-A, etc.) present material for urban areas only. An urban area is the aggregate of all towns in the district or in the taluka concerned. All the other tables present material for total, rural and urban areas separately. In a few cases (e.g., B-III-D, B-VIII-B, B-IX, C-III-B, etc.), talukawise break-up is given for rural areas only because the corresponding data for the urban areas had been compiled only for the district as a whole and not for each taluka separately.

**3.** Tables on migration and a few other topics could not be included in this volume for want of space. They will be found in the volumes of the Maharashtra Census Report.

**4.** An account of how the Census was taken and a description of the definitions and concepts followed will be found in Part II-A of the Maharashtra Census Report. The material presented here relates to the 1st March 1961, which was the reference date fixed for the Census and which very closely approximated the completion of the Second Five-Year Plan. An analysis of this material will be found in the Introductory Note on the district at the beginning of this volume.

**5.** The following paragraphs contain brief notes on the tables included in this Part. Concepts and definitions of terms used are briefly described in the notes on the tables where those terms first appear in the Series. Each table starts with the entries for the district and the talukas follow in the order of their code numbers fixed by their geographical locations for purposes of the 1961 Census.

## A SERIES

## GENERAL POPULATION TABLES

**6.** There are four General Population Tables and three Appendices in this Series. They are the basic population tables. They will be useful to study the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the district.

### Table A-I

**7.** This table presents area, density, number of villages and towns, occupied residential houses and population total, males and females. Material is presented for the district and for each taluka (Tahsil or Mahal) for total, rural and urban areas separately. Towns are shown immediately after the entries of the taluka in which they are situated.

**8.** A town or an urban area is a place which has a municipality, a cantonment or a civil line or a population of 5,000 or over and at least 3/4ths of male population dependent on non-agricultural pursuits. A population enumerated in urban areas is urban population and the population enumerated in all other places is rural population. Total includes the population of both urban and rural areas.

**9.** Area figures have been obtained through Revenue and Municipal Officers. Rural area is the difference between the Total and the Urban areas. The area figures for the district have been obtained from the Director of Land Records.

**10.** The term " village " has been explained in paragraphs 4 and 5 of the Explanatory Note to Part I.

**11.** The figures for number of occupied residential houses include houses used partly as dwellings and partly for some other purpose like shop, workshop, factory, etc., but do not include vacant residential houses where no person was found to be residing at the time of the Census.

*Appendix I*

**12.** This shows the territorial changes that have taken place during the decade. Units which had some change in area in the decade are only shown here.

*Appendix II*

**13.** This shows the number of villages which in spite of a population of 5,000 or over have not been treated as towns and the number of towns which have less than 5,000 population but which have been treated as towns only because they have Municipalities. Columns (4) and (7) show the percentage of populations in villages of over 5,000 and towns of less than 5,000 to the respective rural or urban populations of the district or the taluka concerned.

*Appendix III*

**14.** *Houseless Population.*—Houseless persons were enumerated in all areas on the night of 28th February 1961. These include : (i) persons who might be doing domestic service or some other work with one or more households but who do not reside in any house and sleep in the corridors, verandahs or passages in buildings or on the streets ; (ii) wandering or nomadic tribes found to be staying in temporary huts, rahooties, etc. or residing without any such huts just on the open grounds; and (iii) beggars, vagrants, tramps, sadhus, fakirs, lepers, etc., who are found on the footpaths, streets, otlas, in places like parks, gardens, seashore, railway yards, etc.

**15.** *Institutional Population* includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

### Table A-II

**16.** This table presents population of the district for the seven Censuses from 1901 to 1961 and the variation by actual figures and percentages. Population figures for 1951 and 1961 and variation during the decade are presented for each taluka separately. The population figures for earlier Censuses shown in the table have been adjusted for the boundaries or areas of the district and talukas as they existed at the time of 1961 Census.

**Table A-III**

**17.** This table gives for the district and each taluka the distribution of inhabited villages classified by seven population size groups which are : (i) less than 200 ; (ii) 200—499 ; (iii) 500—999 ; (iv) 1,000—1,999 (v) 2,000—4,999 ; (vi) 5,000—9,999 ; and (vii) 10,000 and above.

**18.** Hamlets are included in the village. The classification here is on the basis of the combined population of the village and its hamlets if there are any. In other words, the classification is not strictly according to the size of each individual nucleus of rural population but is based on the size of population of the revenue village which may in some cases be a single nucleus of population and in others a group of two or more scattered localities.

**Table A-IV**

**19.** This table shows the growth of each town since 1901. It shows population for each town for the last seven Censuses. Towns are presented in the following six classes classified by their population in 1961. Within a class, the names of towns are arranged in the order of population :

| | | |
|---|---|---|
| Class I | .. | 100,000 and over. |
| Class II | .. | 50,000 to 99,999. |
| Class III | .. | 20,000 to 49,999. |
| Class IV | .. | 10,000 to 19,999. |
| Class V | .. | 5,000 to 9,999. |
| Class VI | .. | Less than 5,000. |

**20.** Where two or more towns are adjacent and together form a compact urban unit, the entire town group is classified with reference to the combined population of the group. In such cases, the total population of the group is shown along with the population of each of its constituent towns.

**21.** Where a town was not treated as a town in some earlier Census, its population at that Census had been included in rural population. It is not presented here as the table presents figures of urban population only.

**22.** The total urban population of the district and its variation in the last sixty years are shown at the beginning of the table.

## B SERIES

### (i) GENERAL ECONOMIC TABLES

**23.** There are 16 Tables in this Series showing the distribution of population by economic activity correlated with sex, age and educational levels. The classification by economic activity is first by workers and non-workers. The workers are then classified in nine broad categories of economic activity. A more elaborate classification of workers by industry under the Standard Industrial Classification Scheme is presented in Tables B-IV-A, B and C and by occupation under the National Occupational Classification in Table B-V. Two Tables B-VII-A and B-VII-B show the classification of workers by secondary work. The last three tables present distribution of non-workers by sex, age and eight broad classes.

**24.** In the 1951 Census Reports, the population was classified into eight livelihood classes and each class was further divided with reference to economic status into—

(i) self-supporting persons ;
(ii) earning dependents ; and
(iii) non-earning dependents.

**25.** The concept of dependency has been abandoned for economic classification at the 1961 Census. Instead, the population is classified into workers and non-workers. The emphasis is now on work and not on income or economic dependence.

**26.** A person is classified as worker if—

(*a*) in case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season; and

(*b*) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

**27.** A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

**28.** " Work " includes not only actual work but effective supervision and direction of work also.

**29.** Persons under training as apprentices with or without stipend or wages are regarded as workers.

**30.** An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, etc., or any such work she has been treated as a worker.

**31.** Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce.

**32.** A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

**33.** The population classified as workers here is the economically active population including family workers but not including unemployed persons.

**34.** The Census Questionnaire did not have any question to determine the extent of full employment or under-employment.

**35.** Classification of workers doing two or more different types of work, has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

**Primary Census Abstract**

**36.** This table shows 1961 summary figures for the district and talukas, each for total, rural and urban areas separately. Similar details for each village, town and ward of a town are presented in Part I.

**37.** For each unit, the table shows area in square miles, number of occupied houses, number of households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and number of workers and non-workers. The workers are shown further classified for nine categories of economic activity.

**38.** Column (5) shows the number of households for each unit. The " household " is slightly different from a " family ". A " household " is a group of persons who commonly live together in the same house and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A domestic servant residing and eating at the employer's house is a member of the household. Similarly, a friend or a guest (related or unrelated) residing and eating with the host during the Census period is treated as a member of the (host) household. On the other hand, a son or a daughter residing in a hostel (may be in the same town) is not treated as a member of the household.

**39.** Columns (9) to (12) of the Primary Census Abstract show population of the Scheduled Castes and Scheduled Tribes, respectively by males and females. The figures are related only to the two group totals of all Scheduled Castes and all Scheduled Tribes. Their break-up by individual Scheduled Caste or Scheduled Tribe will be found in Table SCT-I.

**40.** The limitations in coverage of these two groups may be mentioned here. The groups of Scheduled Castes or Scheduled Tribes do not include all backward castes or tribes living in the district. They include only the castes or tribes declared as Scheduled Castes or Scheduled Tribes in the district. In cases where a caste or a tribe is declared as a Scheduled Caste or a Scheduled Tribe for a specified area that caste or tribe has been separately presented only for that specified area and not for any other areas of the district.

**41.** Columns (13) and (14) show figures for literates and educated persons. A " literate " is a person who can both read and write a simple letter. Persons having higher education are also included in these figures. More material on literacy and education cross tabulated with age-groups is presented in Table C-III.

**42.** The workers are shown classified by sex and in the following nine categories of economic activity:—

I. As Cultivator.
II. As Agricultural Labourer.
III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV. At Household Industry.
V. In Manufacturing other than Household Industry.
VI. In Construction.
VII. In Trade and Commerce.
VIII. In Transport, Storage and Communications.
IX. In Other Services.

*Category I*

**43.** This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work on land are also included persons who are engaged in supervision or direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

*Category II*

**44.** All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

*Category III*

**45.** Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

*Category IV*

**46.** A " Household Industry " is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. A household industry is not run on the scale of a registered factory. Thus, the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas, household industry is confined to the house.

**47.** A household industry relates to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader, doctor, barber, washerman or astrologer. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

*Category V*

**48.** " Manufacturing " includes all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as household industry.

*Category VI*

**49.** This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, waterways, reservoirs, etc.

*Category VII*

**50.** This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stocks and shares, insurance, moneylending, banking, etc.

*Category VIII*

**51.** This category includes workers engaged in transport activities by air, rail, road or water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as Posts, Telegraph, Telephones, Wireless Signalling, Information and Broadcasting are also included in this category.

*Category IX*

**52.** This category includes (i) Public utility services like electricity or gas or water supply, sanitary services ; (ii) Central, State or Municipal employees ; (iii) Professional services ; (iv) Trade or labour associations, Recreation services, etc.

**Table B-I and B-II**

**53.** This combined table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by four broad age-groups. The material is presented for the district and each taluka as well as for total, rural and urban areas separately. Towns are also shown immediately after the entries of the talukas in which they are situated. For talukas which do not have any urban areas, entries are given only for totals which correspond to those for rural areas.

**Table B-III**

**54.** This table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by educational levels. Material for the district is presented for total, rural and urban areas separately, while that for the talukas is presented only for rural areas. The classification by educational levels is more elaborate in the case of the urban areas. Classification by educational levels and age-groups will be found in Table C-III.

*Industrial Classification*

**55.** Industry of a worker is that branch of economic activity in which he is engaged in producing goods or services. Tables B-IV-A, B-IV-B, B-IV-C, B-VII-A and B-VII-B of the present Series and Tables B-XIII, B-XIV-A, B-XIV-B and B-XVI of the following Series show the distribution of workers by industry according to the Standard Industrial Classification which is reproduced as Appendix I to this note. For want of space it has not been possible to give description of each group of industry in the tables. They are shown only by industry codes in one, two or three digits as the case may be.

**56.** The nine categories shown in the Primary Census Abstract and Tables B-I, B-II and B-III conform to the industry divisions as follows :—

| | Category | Industry Division |
|---|---|---|
| I. | Cultivator .. .. | Minor groups 000, 001, 002, 003 and 004 from Division 0. |
| II. | Agricultural Labourer | |
| III. | Mining, Quarrying, etc. | Division 0 except minor groups 000 to 004 and Division 1. |
| IV. | Household Industry .. | Division 0 except minor groups 000 to 004, Divisions 1, 2 & 3. |
| V. | Manufacturing .. | Divisions 2 and 3. |
| VI. | Construction .. .. | Division 4. |
| VII. | Trade and Commerce. | Division 6. |
| VIII. | Transport, Storage and Communications. | Division 7. |
| IX. | Other Services .. | Divisions 5, 8 and 9. |

**Table B-IV-A**

**57.** This table gives the distribution of workers engaged in household industry by status of employment and by each division and major group (Appendix I) of household industry separately. Material is presented only for the district but for total, rural and urban areas separately. Major groups of household industry which do not have any workers in the district are not shown here. Columns (7) and (8) show the workers who work at their own household industry (i.e., who are either employers, single workers or family workers in those household industries). Columns (5) and (6) on the other hand show the workers who are working as employees in household industries not of their own.

**Table B-IV-B**

**58.** This table presents distribution of all workers (other than those working in categories I, II and IV) by industry divisions and major groups (Appendix I) and by employment status. Material is presented for the district only but for total, rural and urban areas separately. Classification of workers by employment status is in four classes " employer " , " employee ", " single worker " and " family worker " :

An " employer " is a person who employs other persons in order to perform economic activity in which he is engaged.

An " employee " is a person who usually works under some other person for salary, or wages in cash or kind.

A "single worker" is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone else, not even members of his household, except casually.

A "family worker" is a member who works, without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

**Table B-IV-C**

**59.** This is a very important table as it gives the employment position in all sectors of economy in the district. It shows the distribution of all workers (other than those in categories I and II) by industry division, major groups and minor groups according to the Standard Industrial Classification (Appendix I). The number of workers against each division, major group or minor group is further split up and shown separately for household industry and non-household industry. Material is presented only for the district but for total, rural and urban areas separately. Major, or minor groups which do not have any workers in the district are not shown here.

*Occupational Classification*

**60.** Occupation of a worker is the function which he performs in any branch of economic activity (which is called his industry). For a clerk working in a textile mill, the industry is textile and occupation is clerical. For a person working as a driver on a bank's vehicle, the Industry is banking and occupation is driver.

**61.** Tables B-V and B-VI show the distribution of workers by occupation according to the National Occupational Classification Scheme which is reproduced as Appendix II to this note.

**Table B-V**

**62.** This table presents the distribution of workers (other than those engaged in categories I and II) by occupational divisions and groups (Appendix II). For each division or group the workers are shown by a categorywise break-up of their industry. The material is presented only for the district but for total, rural and urban areas separately. Occupational groups which do not have any workers in the district are not shown in the table. For an occupational group which has all the workers in only one category of industry, only one line shows the total workers for that group as well as for that category of industry.

Occupational distribution of workers in the 1961 Census has been worked out and presented in Maharashtra Census Report, Part II-B (ii), even for occupational families, i.e., up to three digits. For want of space it is presented here for occupational groups, i.e., up to two digits only.

**Table B-VI**

**63.** This table presents the distribution of workers (other than categories I and II) classified by sex, occupational divisions (Appendix II), broad age-groups and by educational levels. This table is presented only for the total urban area of the district.

**Table B-VII-A**

**64.** This table presents workers engaged as cultivators agricultural labourers and at household industry classified by the nature of their secondary work. In case a worker is engaged in two or more kinds of work the one which consumes larger portion of his time not necessarily earning a larger portion of his income is treated as his principal work, another consuming second larger portion of his time is his secondary work. The secondary work is shown in the table classified only in three broad categories, viz., IV-Household Industry, I-Cultivator and II Agricultural labourer. Workers who may be engaged in secondary work in other categories, viz. III, V, VI, VII, VIII and IX are not shown in this table. The break-up of principal work in household industry by major industrial groups (Appendix I) is shown in column (1). It will enable analysis of workers engaged in secondary work by major branches of their principal work at household industry. The material is presented for the district only but for total, rural and urban areas separately.

**Table B-VII-B**

**65.** This table shows workers engaged in non-household industry—categories III and V to IX—as principal work and doing some additional work in household industry. The additional work in household industry is classified by industrial divisions (Appendix I) only. Similarly, the break-up of principal industry in column (1) is also by industrial divisions only. Workers engaged in the industry divisions shown in column (1), but who are doing additional work in any sector other than household industry are not shown in this table. Material is presented for the district only but for total, rural and urban areas separately.

**Table B-VIII-A**

**66.** This table presents the distribution of unemployed persons aged 15 and above by age-groups and educational levels. The number of unemployed have been further split up by persons seeking employment for the first time and persons employed before but now out of employment and seeking work. Material is presented only for the total urban area of the district. Such detailed information on the unemployed is compiled for the first time in the 1961 Census.

**Table B-VIII-B**

**67.** This table presents the distribution of unemployed aged 15 and above in rural areas of the district by educational levels. The break-up of educational levels is not as elaborate as in Table B-VIII (Part A) and classification by age-groups or by persons seeking employment for the first time, etc., is not shown in this table. As a compensatory factor, the material is presented for the rural area of the district and each taluka, separately.

**Table B-IX**

**68.** This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers. Such information on the non-working population had never been compiled before.

The material is presented for the district separately for total, rural and urban areas and for each taluka for rural areas only.

(ii) HOUSEHOLD ECONOMIC TABLES

**69.** Tables B-X to B-XVI present the economic activity of the households as units. They relate to--

(i) the size of or interest in land cultivated and/or the household industry conducted by the households; and

(ii) the number of family workers and/or hired workers working in either of the two activities separately or combined in both.

**70.** In the case of countries of such economic status as ours where not all the goods produced enter the money market and where much of what is produced is consumed by the family itself, presentation of information on economic activity of individuals alone is likely to be slightly misleading unless that information is supplemented by material relating to economic activity of the households as entities. Such information is presented here for the first time. These tables are prepared from the household schedules specially introduced for that purpose as one of the three Questionnaire forms in the 1961 Census. The tables have been prepared on a 20 per cent sample of all the households in the district drawn for rural and urban areas separately.

**71.** Cultivation here includes cultivation both as owners and tenants. Size of holding shown is also of operational holding, i.e. land actually cultivated and does not include land owned but not cultivated by the household.

**Table B-X**

**72.** This table presents distribution of sample households by those—

(i) engaged neither in cultivation nor household industry ;

(ii) engaged in cultivation only ;

(iii) engaged in household industry only ; and

(iv) engaged both in cultivation and household industry.

The material is presented for the district and each taluka for total, rural and urban areas separately.

**Table B-XI**

**73.** This is an important table. It shows the distribution of sample households engaged in cultivation classified by size of land and interest in land cultivated. Ten size-groups are shown horizontally while the interests in land are classified in three types, *viz.*—

(*a*) Entirely owned or held from Government.

(*b*) Entirely held from private persons or institutions for payment in money, kind or share.

(*c*) Partly held from Government and partly from private persons or institutions for payment in money, kind or share.

The material is presented separately for total, rural and urban areas of the district and only for rural areas of each taluka.

**Table B-XII**

**74.** This table shows the distribution of sample households engaged in cultivation classified by size of land cultivated and the total number of family workers, and hired workers. The material is presented for the district for total, rural and urban areas separately and only for rural areas of each taluka.

**Table B-XIII**

**75.** This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and by industry division and major group of the household industry (Appendix I). The table shows the sizes of cultivation holdings and the branches of household industry for which the two household economic activities combine in varying degrees. The material is presented only for the district but for rural and urban areas separately.

**Table B-XIV-A**

**76.** This table shows the distribution of sample households engaged in household industry only by the number of workers engaged and by industry division and major group of the household industry (Appendix I). Material is presented for the district only but for total, rural and urban areas separately.

**Table B-XIV-B**

**77.** This table shows the distribution of sample households engaged in household industry only classified by industry minor groups (Appendix I) for the household industry. The industry minor group is shown with a break-up in four-digit codes in column (1). *These four-digit codes are shown in Appendix III.* The material is presented for the district only but for total, rural and urban areas separately.

**Table B-XV**

**78.** This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and the number of family workers and hired workers working in the two activities combined. The material is presented for the district for total, rural and urban areas and for each taluka only for rural areas separately.

**Table B-XVI**

**79.** This table shows the distribution of sample households engaged in household industry classified by the period for which the household industry is worked and by industry division and major groups (Appendix I) of the household industry. A further split-up of figures is shown for household industry combined with cultivation and without cultivation. The material is presented for the district only but for total, rural and urban areas separately.

C SERIES

SOCIAL AND CULTURAL TABLES

**80.** There are 11 Tables in this Series dealing with Social or Cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Castes and Scheduled

Tribes. The first two Tables C-I-A and C-I-B relating to Size and Composition of households are prepared from the household schedules on a 20 per cent sample. All the other tables are prepared from individual slips and on a total count.

**Table C-I-A**

**81.** This table presents distribution of sample households classified by their size and by economic activity, i.e., by work in cultivation or household industry. Households working at cultivation are further classified by size of land holding. The material is presented only for the district but separately for total, rural and urban areas. Classification by economic activity as well as by size of land holding is presented only for rural areas and classification by size of the household is alone presented for total and urban areas. This table is prepared from household schedules on a 20 per cent sample. This table appears as Table B-XVII in Part III of the Maharashtra Census Report.

**82.** The classification by size is as one member, small (2 to 3), medium (4 to 6), large (7 to 9) and very large (over 10) households. By definition, a Census household is not the same as a family. The household also includes persons who are not members of the family but who were residing with the family during the Census period. All the same, the table will give a general idea of the family sizes as in the majority of families outsiders are not likely to be present.

**Table C-I-B**

**83.** This table presents distribution of population of sample households by heads of the households, spouses of heads of households, married relations, never married, widowed or divorced relations and unrelated persons. These details are also shown for sample households classified by economic activity, i. e., participation in cultivation or household industry. For cultivation, the sample households are further classified by size of land holdings. This table is prepared from the household schedules on a 20 per cent. sample. Material is presented for the district only but for total, rural and urban areas separately. The classification of households by economic activity and size of land holding is, however, shown for rural areas only. This table is of sociological interest indicating the strength of the joint family system.

**Table C-II**

**84.** This table presents distribution of population by sex, age and marital status. Classification of age between 10 and 70 years is by five year age-groups. The other two groups are 0—9 years and 70 and over. The entire population in 0—9 years age-group has been treated as never married and no further classification by marital status is shown against them. The material is presented only for the district but for total, rural and urban areas separately. From this table it may be ascertained whether proportions in various marital status groups have changed since the last Census and whether any trend is observed in age of marriage. A corresponding table at the 1951 Census was prepared on a 10 per cent. sample. This table. is, however, prepared on a full count.

**Tables C-III-A, B and C**

**85.** These three tables present the distribution by age, sex, literacy and educational levels. Classification by age is by five-year age-groups up to 59 years. Classification by educational levels is the same as in Table B-III. It is more elaborate in the case of urban areas. Part A presents material only for the district total while Part B presents material for rural areas of the district and of each taluka separately. Part C presents material only for the district urban areas but with more elaborate classification by educational levels.

**86.** These tables are a measure of the growth of literacy in the total population as well as in the different age-groups since the last Census. They are also likely to furnish information on the spread of adult education. The corresponding table at the 1951 Census was prepared on a 10 per cent. sample. These tables have been prepared on a full count.

**Table C-IV**

**87.** This table presents distribution of the district population by single year ages both for males and females separately. Figures presented are based on the actual returns recorded in the Census, i. e., they have not been smoothed or adjusted for preferences for digits 0, 5, etc. The material is presented only for the district total.

**88.** This is an important demographic table which is used for computing mortality rates. The corresponding table at the 1951 Census was prepared on a 10 per cent. sample. This table has been prepared on a full count.

**Table C-V**

**89.** This table presents the distribution of population by mother-tongues. The figures are presented only for 9 top ranking mother-tongues in the district. Figures for all the other mother-tongues have been shown combined in the group " Others ". Mother-tongues are arranged in the alphabetical order. Material is presented for total, rural and urban areas for the district and each taluka separately. At the end material is also presented for each town separately. A footnote is added to show the number of speakers in the district for each of the mother-tongues combined in the group " Others ".

**90.** " Mother-tongue " is defined as a language spoken by the person's mother to the person in his childhood or mainly spoken in the house. Dialects have been included in the main languages on the basis of Grierson's Classification.

**91.** Another Table (C-VI) on bilingualism has been prepared in the 1961 Census. It is not included in this volume and may be found in Part II-C of the Maharashtra Census Report.

**Table C-VII**

**92.** This table presents distribution of population by religion. Eight main religions have been shown in their alphabetical order. All other religions returned

in the Census are combined in the group " Others ". Figures for various sects returned as religion during the Census have been combined with the main religions concerned.

**Table C-VIII-A**

**93.** This table presents the total population of Scheduled Castes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka separately. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Castes.

**Table C-VIII-B**

**94.** This table presents the total population of Scheduled Tribes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Tribes.

## SCT, SC & ST SERIES

## SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

**95.** There are 11 Tables in this Series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. These classes of people are declared by the President's orders issued under Articles 341 and 342 of the Constitution of India as Scheduled Castes or Scheduled Tribes. Under Article 46 of the Constitution the State has to promote, with special care, the educational and economic interests of the weaker sections of the people and in particular of the Scheduled Castes and Scheduled Tribes and has to protect them from social injustice and all forms of exploitation. For ensuring adequate representation to these classes, seats are also reserved for them in the House of the People, State Legislature and other elective bodies.

**96.** These special tables have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each Scheduled Caste and Scheduled Tribe separately.

**97.** These tables relate to economic activity, education, mother-tongue and classification of persons not at work. Material is presented for each Scheduled Caste and Scheduled Tribe separately. It will be useful information for formulating various schemes for their welfare.

**98.** Classification by Castes and Tribes is on the basis of returns recorded in response to question 5 (*c*) of the 1961 Census Questionnaire. Every person was asked if he belonged to one of the Scheduled Castes or Scheduled Tribes notified for the district and in case he belonged to one of them he was asked the name of his caste or tribe. Paragraph 40 above on the Primary Census Abstract explains the limitations of these castewise or tribewise figures. The population of Scheduled Castes shown here is much less than that for the district in 1951 as many persons from that group have returned their religion as Buddhist or Nav-Buddha, and under the Constitution, there can be Scheduled Castes only among Hindus and Sikhs and in no other religion.

**99.** Two more Tables SCT-II and SCT-IV on age, marital status and religion of the Scheduled Castes and Scheduled Tribes prepared in the 1961 Census are not presented here for want of space. They may be seen in Part V-A of Maharashtra Census Report.

**Table SCT-I-A**

**100.** This table presents the distribution of Scheduled Castes population by economic activity. Material is presented for the total of all Scheduled Castes as well as for each Scheduled Caste separately. Scheduled Castes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents castewise break-up of the material presented in Table C-VIII (Part A). The last group of castes " not stated " is of persons who were returned as belonging to Scheduled Castes but in whose case the name of the Scheduled Caste concerned had not been stated in the Census.

**101.** Columns (28) to (31) present Scheduled Castewise figures of persons engaged in unwholesome occupations like tanning, currying of hides and skins and scavenging. The number of workers shown in these occupations as well as in any other category is on the basis of principal work. Persons engaged in cultivation or any other activity as principal work and also engaged in tanning, currying or scavenging as secondary work are not included in the figures of columns (28) to (31).

**102.** The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

**103.** There are some more castes declared as Scheduled Castes for the district. They are not shown in this table because no one belonging to those castes was enumerated in 1961 Census in the district.

**Table SCT-I-B**

**104.** This table presents the distribution of Scheduled Tribes population by economic activity. Material is presented for the total of all Scheduled Tribes as well as for each Scheduled Tribe separately. Scheduled Tribes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents tribewise break-up of the material

presented in Table C-VIII (Part B). The last group of tribes " not stated " is of persons who were returned as belonging to Scheduled Tribes but in whose case the name of the Scheduled Tribe concerned had not been stated in the Census.

**105.** The material is presented for total, rural and urban areas of the district separately and for rural areas only for each taluka.

**106.** There are some more Scheduled Tribes declared as Scheduled Tribes for the district. They are not shown in this table because no one belonging to those tribes was enumerated in 1961 Census in the district.

No tribes were returned for Urban areas. The figures shown in this table therefore relate to " Rural Areas " only.

**Table SCT-III-A (i)**

**107.** This table presents the distribution of each Scheduled Caste population by sex and educational levels. The table presents material for the district urban areas only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

**Table SCT-III-A (ii)**

**108.** This table presents the distribution of each Scheduled Tribe population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas. This table is not presented as no scheduled Tribes were returned for urban areas.

**Table SCT-III-B (i)**

**109.** This table presents the distribution of population for each Scheduled Caste by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

**Table SCT-III-B (ii)**

**110.** This table presents the distribution of population for each Scheduled Tribe by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

**Table SCT-V-A**

**111.** This table presents the distribution of sample Scheduled Caste households of the district (Rural) by interest in land cultivated and by size of land cultivated. The interests in land cultivated are shown in three categories :—

(i) entirely owned or held from Government ;
(ii) entirely held from private persons or institutions for payment in money, kind or share; and
(iii) partly held from Government and partly from private persons, etc.

Classification by size of land cultivated is the same as in the B Series household economic tables. Material here is presented only for the district rural and for all the Scheduled Castes as a group. The table is prepared from the household schedules on a 20 per cent sample.

**Table SCT-V-B**

**112.** This Table for Scheduled Tribes (same as Part A) is presented only for the district rural. The table is prepared from household schedules on a 20 per cent sample.

**Table SC-I**

**113.** This table presents the total non-working population of all the Scheduled Castes as a group classified by four categories of non-workers, *viz.* :—

(i) full-time students ;
(ii) persons seeking employment for the first time ;
(iii) persons employed before but now out of employment and seeking work ; and
(iv) others.

The non-working population is further classified by educational levels. The material is presented for the district only but for total, rural and urban areas separately.

**Table ST-I**

**114.** This table presents the distribution of population of each Scheduled Tribe by mother-tongue and the subsidiary languages spoken. Material is presented only for the district but for total, rural and urban areas separately. Scheduled Tribes are arranged in their alphabetical order and mother-tongues when there are more than one for any Scheduled Tribe are also shown in the alphabetical order.

No tribes were returned for Urban areas. The figures shown in this table therefore relate to " Rural Areas " only.

**Table ST-II**

**115.** This table presents the total non-working population of each Scheduled Tribe classified by four categories of non-workers viz.—

(i) full-time students ;
(ii) persons seeking employment for the first time ;

No tribes were returned for Urban areas. The figures shown in this table therefore relate to " Rural Areas " only.

## E SERIES

## HOUSING TABLES

**116.** There are five tables in this Series. Four of them relate to housing conditions and furnish data on the purposes for which the houses are used, the tenures on which they are occupied by the households, material of construction of walls and roofs and the distribution of households by the number of rooms occupied. The last table relates to industries and shows the number of establishments and the number of workers for each industry classified by industry division, major groups and minor groups. Another Table (E-III) on industrial establishments prepared from the houselists gives a break-up by industry and the fuel used cross-tabulated by the size of the establishments. It is not presented here for want of space. It may be seen in Part IV of the Maharashtra Census Report.

**117.** All the five tables of this Series are prepared from the houselists which were prepared at the time of numbering of houses in September-October of 1960. Such data on housing conditions are furnished here for the first time.

**118.** A " house " was defined for purposes of the Census as " a structure or part of a structure inhabited or vacant, a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., having a separate entrance. The entrance may be directly on the road, street, or lane or to a common staircase, court-yard or a gate ".

**Table E-I**

**119.** This table presents the distribution of houses classified by uses to which they are put to. The various uses are shown in columns (4) to (16). Houses which were not being used for any purpose at the time of houselisting were treated as vacant. A " workshop " is a place where some kind of production, processing, repairs or servicing of goods, goes on a commercial scale. Manufacturing or processing establishments registered under the Factories Act are treated as factories. When a house was used both as a shop and as a dwelling or workshop and as a dwelling it is treated as a shop-*cum*-dwelling or workshop-*cum*-dwelling. The houses which were used as schools, offices, factories or restaurants and also used by some people for residence, have been treated for purposes of this table as schools, offices, factories or restaurants and not as school-*cum*-dwelling, office-*cum*-dwelling and so on.

**120.** The last category of " Others " includes all purposes not included in columns (4) to (15) prominent among them being cattle-sheds, garages, show-rooms, locked houses, etc. Table E-I presents material for the district and each taluka and for total, rural and urban areas separately. The table is prepared from the houselists on a full count.

**Table E-II**

**121.** This table presents the distribution of sample households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. " Rent free " or " Caretaker " occupation is included in the " Rented " category. The houses occupied under each tenure are further classified by the nature of uses such as dwellings, shop-*cum*-dwellings, etc. Tenure of occupation of non-residential houses such as schools, hospitals, etc., is not shown here.

**122.** This table is prepared from the houselists and on a 20 per cent sample.

**123.** Material is presented for the district and each taluka and for total, rural and urban areas separately.

**Table E-IV**

**124.** This table presents distribution of sample houses used wholly or partly as dwelling by material of wall and material of roof. The material of wall is the material out of which most of the walls of the house are constructed. Where a house has separate portions each of different material, the material of the walls for this table is the one out of which the walls of the main bed-rooms are constructed. Similarly, the material of roof is one out of which most of the roof exposed to weather is constructed. In case of multi-storeyed buildings, the intermediate floor is treated as the roof of the lower storey.

**125.** Material is presented here for the district and each taluka and for total, rural and urban areas separately. This table is prepared from the houselists on a 20 per cent sample.

**Table E-V**

**126.** This table presents the distribution of sample households classified by the number of rooms occupied. For each class of households the total number of members of the households is shown by males and females separately. This will help measure congestion or overcrowding particularly in urban areas.

**127.** The table is prepared from the houselists on a 20 per cent sample. The material is presented for the district and each taluka and for total, rural and urban areas separately.

**128.** The table relates only to the family households. Institutional households like hostels, boardings, prisons, etc., are not shown here.

**129.** A " room " has four walls with a door and a roof overhead and is not less than $6' \times 6'$. Unenclosed verandah, kitchen, store, garage, cattle-shed, etc., though used for residential purposes are not treated as rooms. Households residing in such places are shown in columns (7) to (9) as having no regular room.

**Table on Industrial Establishments and Workers**

**130.** This is a very important table and presents the number of establishments and number of workers for each branch of industry classified by industry divisions and minor groups according to the Standard Industrial Classification (Appendix I). For each industry division, minor group figures are shown in the brackets first for the number of establishments and second for the number of workers.

**131.** The table is prepared from the houselists on a full count. Material is presented here for the district and talukas for total, rural and urban areas as well as *for each village and town* separately. The presentation is in the run-on style and the villages are shown both by their names and code numbers. These latter will help locate them in the taluka maps included in Part I. Villages which do not have any industrial establishments are not shown here. Similarly, for any village, town or taluka, the industry minor codes for which there are no establishments are not shown in the table.

**132.** The material presented here relates to September-October of 1960. Establishments where processing, repairing or servicing of goods is done are also included along with the manufacturing establishments. The number of workers shown here includes the proprietor and/or the other household members if any were working in the industry during the week preceding the enumerator's visit.

**133.** The list of industries presented here may not include some seasonal industries which were not actually working during the period when houselists were prepared, *viz.*, September-October 1960.

# APPENDIX I

## STANDARD INDUSTRIAL CLASSIFICATION

**This classification groups the industries into—**

**9 Divisions**
**45 Major Groups**
**343 Minor Groups**

**The divisions, major groups and minor groups with their Code numbers are listed below—**

### DIVISIONS

| | |
|---|---|
| **0** | **Agriculture, livestock, forestry, fishing and hunting** |
| **1** | **Mining and Quarrying** |
| **2 & 3** | **Manufacturing** |
| **4** | **Construction** |
| **5** | **Electricity, Gas, Water and Sanitary services** |
| **6** | **Trade and Commerce** |
| **7** | **Transport, Storage and Communication** |
| **8** | **Services** |
| **9** | **Activities not adequately described** |

### MAJOR GROUPS

**Division 0—Agriculture, livestock, forestry, fishing and hunting**

| | |
|---|---|
| 00 | Field produce and Plantation crops |
| 01 | Plantation crops |
| 02 | Forestry and Logging |
| 03 | Fishing |
| 04 | Livestock and Hunting |

**Division 1—Mining and Quarrying**

| | |
|---|---|
| 10 | Mining and Quarrying |

**Divisions 2 & 3—Manufacturing**

| | |
|---|---|
| 20 | Foodstuffs |
| 21 | Beverages |
| 22 | Tobacco Products |
| 23 | Textile—cotton |
| 24 | Textile—jute |
| 25 | Textile—wool |
| 26 | Textile—silk |
| 27 | Textile—miscellaneous |
| 28 | Manufacture of wood and wooden products |
| 29 | Paper and paper products |
| 30 | Printing and publishing |
| 31 | Leather and leather products |
| 32 | Rubber, Petroleum and coal products |
| 33 | Chemicals and chemical products |
| 34-35 | Non-Metallic Mineral Products other than petroleum and coal. |
| 36 | Basic Metals and their products except machinery and transport equipment. |
| 37 | Machinery (all kinds other than Transport) and Electrical equipment. |
| 38 | Transport Equipment |
| 39 | Miscellaneous Manufacturing Industries. |

**Division 4—Construction**

| | |
|---|---|
| 40 | Construction |

**Division 5—Electricity, Gas, Water and Sanitary Services**

| | |
|---|---|
| 50 | Electricity and Gas |
| 51 | Water supply and Sanitary services |

**Division 6—Trade and Commerce**

| | |
|---|---|
| 60—63 | Wholesale Trade |
| 64—68 | Retail Trade |
| 69 | Trade and Commerce Miscellaneous |

**Division 7—Transport, Storage and Communication**

| | |
|---|---|
| 70-71 | Transport |
| 72 | Storage and Warehousing |
| 73 | Communications |

**Division 8—Services**

| | |
|---|---|
| 80 | Public Services |
| 81 | Educational and Scientific Services |
| 82 | Medical and Health Services |
| 83 | Religious and Welfare Services |
| 84 | Legal Services |
| 85 | Business Services |
| 86 | Community Services and Trade and Labour Associations. |
| 87 | Recreation Services |
| 88 | Personal Services |
| 89 | Services (not elsewhere classified) |

**Division 9—Activities not adequately described**

| | |
|---|---|
| 90 | Activities unspecified and not adequately described (This includes new entrants to the labour market) |

### MINOR GROUPS

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| **Division 0—Agriculture, livestock, forestry, fishing and hunting** | | |
| 00 | *Field Produce and Plantation Crops—* | |
| | Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize. | 000 |
| | Production of pulses, such as arhar, moong, masur, urid, khesari, other gram. | 001 |
| | Production of raw jute and kindred fibre crops | 002 |
| | Production of raw cotton and kindred fibre crops | 003 |
| | Production of oilseeds, sugarcane and other cash crops. | 004 |
| | Production of other crops (including vegetables) not covered above. | 005 |
| | Production of fruits and nuts in plantation, vines and orchards. | 006 |
| | Production of wood, bamboo, cane reeds, thatching grass, etc. | 007 |
| | Production of juice by tapping palms .. | 008 |
| | Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above. | 009 |
| 01 | *Plantation Crops—* | |
| | Production of tea in plantation .. | 010 |
| | Production of coffee in plantation .. | 011 |
| | Production of rubber in plantation .. | 012 |
| | Production of tobacco in plantation .. | 013 |
| | Production of ganja, cinchona, opium .. | 014 |
| | Production of other plantation crops not covered above. | 015 |
| 02 | *Forestry and Logging—* | |
| | Planting, replanting and conservation of forests | 020 |
| | Felling and cutting of trees and transportation of logs. | 021 |
| | Preparation of timber .. .. | 022 |
| | Production of fuel including charcoal by exploitation of forest. | 023 |
| | Production of fodder by exploitation of forests | 024 |
| | Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests. | 025 |
| | Production and gathering of other forest products not covered above. | 026 |

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| **Division 0—Agriculture, livestock, forestry, fishing and hunting—concld.** | | |
| 03 | *Fishing—* | |
| | Production of fish by fishing in sea .. | 030 |
| | Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries. | 031 |
| | Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond. | 032 |
| 04 | *Livestock and Hunting—* | |
| | Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat. | 040 |
| | Rearing of sheep and production of wool .. | 041 |
| | Rearing and production of other animals (mainly for slaughter) such as pig. | 042 |
| | Production of ducks, hens and other small birds, eggs by rearing and poultry farming. | 043 |
| | Rearing of bees for the production of honey, wax and collection of honey. | 044 |
| | Rearing of silk worms and production of cocoons and raw silk. | 045 |
| | Rearing of other small animals and insects .. | 046 |
| | Trapping of animals or games propagation .. | 047 |
| | Production of other animal husbandry products such as skin, bone, ivory and teeth. | 048 |
| **Division 1—Mining and Quarrying** | | |
| 10 | *Mining and Quarrying—* | |
| | Mining of coal .. .. .. | 100 |
| | Mining of iron ores .. .. .. | 101 |
| | Mining of gold and silver ores .. .. | 102 |
| | Mining of manganese .. .. .. | 103 |
| | Mining of mica .. .. .. | 104 |
| | Mining of other non-ferrous metallic ores .. | 105 |
| | Mining of crude petroleum and natural gas .. | 106 |
| | Quarrying of stone (including slate), clay, sand, gravel, limestone. | 107 |
| | Mining of chemical earth such as soda ash .. | 108 |
| | Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt. | 109 |
| **Division 2 & 3—Manufacturing** | | |
| 20 | *Foodstuffs—* | |
| | Production of rice, atta, flour, etc., by milling, de-husking and processing of crops and food-grains. | 200 |
| | Production of sugar and syrup from sugarcane in mills. | 201 |
| | Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy. | 202 |
| | Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits | 203 |
| | Slaughtering, preservation of meat and fish and canning of fish. | 204 |
| | Production of bread, biscuits, cake and other bakery products. | 205 |
| | Production of butter, ghee, cheese and other dairy products. | 206 |
| | Production of edible fats and oils (other than hydrogenated oil). | 207 |
| | Production of hydrogenated oils (Vanaspati).. | 208 |
| | Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge. | 209 |

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| **Division 2 & 3—Manufacturing—contd.** | | |
| 21 | *Beverages—* | |
| | Production of distilled spirits, wines, liquor, from alcoholic malt, fruits and malts in distillery and brewery. | 210 |
| | Production of country liquor .. | 211 |
| | Production of indigenous liquor such as toddy, liquor from mahua, palm juice | 212 |
| | Production of other liquors not covered above. | 213 |
| | Production of aerated and mineral water .. | 214 |
| | Production of ice .. .. .. | 215 |
| | Production of ice-cream .. .. | 216 |
| | Processing of tea in factories ... .. | 217 |
| | Processing of coffee in curing works .. | 218 |
| | Production of other beverages .. .. | 219 |
| 22 | *Tobacco Products—* | |
| | Manufacture of bidi .. .. | 220 |
| | Manufacture of cigars and cheroots .. | 221 |
| | Manufacture of cigarette and cigarette tobacco | 222 |
| | Manufacture of hookah tobacco .. | 223 |
| | Manufacture of snuff .. .. | 224 |
| | Manufacture of jerda and other chewing tobacco | 225 |
| | Manufacture of other tobacco products .. | 226 |
| 23 | *Textile—Cotton* | |
| | Cotton ginning, cleaning, pressing and baling. | 230 |
| | Cotton spinning (other than in mills) .. | 231 |
| | Cotton spinning and weaving in mills .. | 232 |
| | Cotton dyeing, bleaching .. .. | 233 |
| | Cotton weaving in powerlooms .. .. | 234 |
| | Cotton weaving in handlooms .. .. | 235 |
| | Manufacturing of khadi textile in handlooms | 236 |
| | Printing of cotton textile .. .. | 237 |
| | Manufacturing of cotton nets .. .. | 238 |
| | Manufacturing of cotton, cordage, rope and twine. | 239 |
| 24 | *Textile—Jute* | |
| | Jute pressing and baling .. .. | 240 |
| | Jute spinning and weaving .. .. | 241 |
| | Dyeing and bleaching of jute .. .. | 242 |
| | Printing of jute textile .. .. | 243 |
| | Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta. | 244 |
| 25 | *Textile—Wool* | |
| | Wool baling and pressing .. .. | 250 |
| | Wool cleaning and processing (scouring) .. | 251 |
| | Wool spinning and weaving in mill .. | 252 |
| | Wool spinning other than in mills .. | 253 |
| | Wool weaving in powerloom .. .. | 254 |
| | Wool weaving in handloom .. .. | 255 |
| | Embroidery and art work in woollen textile .. | 256 |
| 26 | *Textile—Silk* | |
| | Spinning and weaving of silk textile in mill .. | 260 |
| | Dyeing and bleaching of silk .. .. | 261 |
| | Spinning of silk other than in mills .. | 262 |
| | Weaving of silk textile by powerloom .. | 263 |
| | Weaving of silk textile by handloom .. | 264 |
| | Printing of silk textile .. .. | 265 |
| | Manufacture of silk cordage, rope and twine.. | 266 |
| 27 | *Textile—Miscellaneous—* | |
| | Manufacture of carpet and all other similar type of textile products .. .. | 270 |
| | Manufacture of hosiery and other knitted fabrics and garments .. .. .. | 271 |

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| **Division 2 & 3—Manufacturing**—contd. | | |
| 27 | *Textile—Miscellaneous*—contd. | |
| | Embroidery and making of crepe lace and fringes. | 272 |
| | Making of textile garments including raincoats and headgear. | 273 |
| | Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags. | 274 |
| | Manufacture of waterproof textile products such as oil cloth, tarpaulin. | 275 |
| | Manufacture and recovery of all types of fibres for purposes of padding, wadding and up-holstery filling. | 276 |
| | Manufacture of coir and coir products .. | 277 |
| | Manufacture of umbrellas .. .. | 278 |
| | Processing and manufacture of textile products not covered above. | 279 |
| 28 | *Manufacture of Wood and Wooden Products—* | |
| | Sawing and planing of wood .. .. .. | 280 |
| | Manufacture of wooden furniture and fixtures. | 281 |
| | Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows. | 282 |
| | Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures. | 283 |
| | Manufacture of other wooden products such as utensils, toys artwares. | 284 |
| | Manufacture of veneer and plywood .. | 285 |
| | Manufacture of plywood products such as tea chest. | 286 |
| | Manufacture of boxes and packing cases other than plywood. | 287 |
| | Manufacture of materials from cork, bamboo, cane, leaves and other allied products. | 288 |
| | Manufacture of other wood and allied products not covered above. | 289 |
| 29 | *Paper and Paper Products—* | |
| | Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill. | 290 |
| | Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade. | 291 |
| | Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp. | 292 |
| 30 | *Printing and Publishing—* | |
| | Printing and publishing of newspapers and periodicals. | 300 |
| | Printing and publishing of books .. .. | 301 |
| | All other types of printing including lithography engraving, etching, block making and other work connected with printing industry. | 302 |
| | All types of binding, stitching, sizing and other allied work connected with binding industry. | 303 |

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| **Division 2 & 3—Manufacturing**—contd. | | |
| 31 | *Leather and Leather Products—* | |
| | Currying, tanning and finishing of hides and skins and preparation of finished leather. | 310 |
| | Manufacture of shoes and other leather footwear. | 311 |
| | Manufacture of clothing and wearing apparel (except footwear) made of leather and fur. | 312 |
| | Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles. | 313 |
| | Repair of shoes and other leather footwear .. | 314 |
| | Repair of all other leather products except footwear. | 315 |
| 32 | *Rubber, Petroleum and Coal Products—* | |
| | Manufacture of tyres and tubes .. .. | 320 |
| | Manufacture of rubber footwear .. .. | 321 |
| | Manufacture of rubber goods used for industrial purpose. | 322 |
| | Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat. | 323 |
| | Productions of petroleum, kerosene and other petroleum products in petroleum refineries. | 324 |
| | Production of coaltar and coke in coke oven .. | 325 |
| | Manufacture of other coal and coaltar products not covered elsewhere. | 326 |
| 33 | *Chemicals and Chemical Products—* | |
| | Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified. | 330 |
| | Manufacture of dyes, paints, colours and varnishes. | 331 |
| | Manufacture of fertilizers .. .. | 332 |
| | Manufacture of ammunition, explosives and fire works. | 333 |
| | Manufacture of matches .. .. .. | 334 |
| | Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap. | 335 |
| | Manufacture of soap and other washing and cleaning compounds. | 336 |
| | Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber). | 337 |
| | Manufacture of common salt .. .. | 338 |
| | Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats). | 339 |
| 34 | *Non-metallic Mineral Products other than Petroleum and Coal—* | |
| | Manufacture of structural clay products such as bricks, tiles. | 340 |
| | Manufacture of cement and cement products | 341 |
| | Manufacture of lime .. .. .. .. | 342 |
| | Manufacture of structural stone goods, stone dressing and stone crushing. | 343 |
| | Manufacture of stonewares, other than images | 344 |
| | Manufacture of stone images .. .. | 345 |
| | Manufacture of plaster of paris and its products. | 346 |
| | Manufacture of asbestos products .. .. | 347 |
| | Manufacture of mica products .. .. | 348 |

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| **Division 2 & 3—Manufacturing**—contd. | | |
| 35 | Manufacture of earthenware and earthen pottery. | 350 |
| | Manufacture of chinaware and crockery .. | 351 |
| | Manufacture of porcelain and its products .. | 352 |
| | Manufacture of glass bangles and beads .. | 353 |
| | Manufacture of glass apparatus .. .. | 354 |
| | Manufacture of earthen image, busts and statues. | 355 |
| | Manufacture of earthen toys and artwares except those covered by code No. 355. | 356 |
| | Manufacture of glass and glass products except optical and photographic lenses and glass products covered above. | 357 |
| | Manufacture of other non-metallic mineral products not elsewhere specified. | 359 |
| 36 | *Basic Metals and their Products except Machinery and Transport Equipment*— | |
| | Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods. | 360 |
| | Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms. | 361 |
| | Manufacture of armaments .. .. .. | 362 |
| | Manufacture of structural steel products such as joist, rail, sheet, plate. | 363 |
| | Manufacture of iron and steel furniture .. | 364 |
| | Manufacture of brass and bell metal products. | 365 |
| | Manufacture of aluminium products .. | 366 |
| | Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can. | 367 |
| | Enamelling galvanising, plating (including electroplating), polishing and welding of metal products. | 368 |
| | Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39). | 369 |
| 37 | *Machinery (All kinds other than Transport) and Electrical equipment*— | |
| | Manufacture and assembling of machinery (other than electrical) except textile machinery. | 370 |
| | Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors. | 371 |
| | Manufacture of machine tools .. .. | 372 |
| | Manufacture of textile machinery and accessories | 373 |
| | Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers. | 374 |
| | Manufacture of electric lamps and fans .. | 375 |
| | Manufacture of insulated wires and cables .. | 376 |
| | Manufacture of all kinds of battery .. | 377 |
| | Manufacture of electronic equipment such as radio, microphone. | 378 |
| | Manufacture of electric machinery and apparatus, appliances not specified above. | 379 |
| 38 | *Transport Equipment*— | |
| | Manufacture, assembly and repairing of locomotives. | 380 |
| | Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363. | 381 |

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| **Division 2 & 3—Manufacturing**—concld. | | |
| 38 | *Transport Equipment*—contd. | |
| | Manufacture and assembling of motor vehicles of all types (excepting motor engines). | 382 |
| | Manufacture of motor vehicles engines parts and accessories. | 383 |
| | Repairing and servicing of motor vehicles .. | 384 |
| | Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear. | 385 |
| | Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines. | 386 |
| | Manufacture and repair of air transport equipment including aeroplanes, aeroengines. | 387 |
| | Repairing of bicycles and tricycles.. .. | 388 |
| | Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles. | 389 |
| 39 | *Miscellaneous Manufacturing Industries*— | |
| | Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies. | 390 |
| | Manufacture of scientific, medical and surgical instruments and equipment and supplies. | 391 |
| | Assembling and repairing of watches and clocks | 392 |
| | Manufacture of jewellery, silverware and wares using gold and other precious metals. | 393 |
| | Manufacture and tuning of musical instruments | 394 |
| | Manufacture of stationery articles not covered eleswhere such as pencil, penholder, fountain-pen. | 395 |
| | Manufacture of sports goods .. .. | 396 |
| | Manufacture and repair work of goods not assignable to any other group. | 399 |
| **Division 4—Construction** | | |
| 40 | *Construction*— | |
| | Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations. | 400 |
| | Construction and maintenance of roads, railways, bridges, tunnels. | 401 |
| | Construction and maintenance of telegraph and telephone lines. | 402 |
| | Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells. | 403 |
| **Division 5—Electricity, Gas, Water and Sanitary Services** | | |
| 50 | *Electricity and Gas*— | |
| | Generation and transmission of electric energy | 500 |
| | Distribution of electric energy .. .. | 501 |
| | Manufacture of gas in gas works and distribution to domestic and industrial consumers. | 502 |
| 51 | *Water Supply and Sanitary Services*— | |
| | Collection, purification and distribution of water to domestic and industrial consumers. | 510 |
| | Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation. | 511 |

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| | **Division 6—Trade and Commerce** | |
| 60 | *Wholesale Trade*— | |
| | Wholesale trading in cereals and pulses .. | 600 |
| | Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere). | 601 |
| | Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products. | 602 |
| | Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water. | 603 |
| | Wholesale trading in intoxicants such as wines, liquors. | 604 |
| | Wholesale trading in other intoxicants such as opium, ganja, etc. | 605 |
| | Wholesale trading in tobacco, bidi, cigarettes and other tobacco products. | 606 |
| | Wholesale trading in animals .. .. | 607 |
| | Wholesale trading in straw and fodder .. | 608 |
| 61 | Wholesale trading in medicines and chemicals | 610 |
| | Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle. | 611 |
| | Wholesale trading in toilets, perfumery and cosmetics. | 612 |
| | Wholesale trading in metal, procelain and glass utensils, crockery, chinaware. | 613 |
| | Wholesale trading in wooden, steel and other metallic furniture and fittings. | 614 |
| | Wholesale trading in footwear .. .. | 615 |
| | Wholesale trading in tyres, tubes and allied rubber products. | 616 |
| | Wholesale trading in petrol, mobil oil and allied products. | 617 |
| | Wholesale trading in other household equipment not covered above. | 618 |
| 62 | Wholesale trading in bricks, tiles and other building materials. | 620 |
| | Wholesale trading in wood, bamboo, cane, thatches and similar products. | 621 |
| 63 | Wholesale trading in paper and other stationery goods. | 630 |
| | Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical. | 631 |
| | Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb. | 632 |
| | Wholesale trading in all kinds of transport and storage equipment. | 633 |
| | Wholesale trading in skins, leather and fur .. | 634 |
| | Wholesale trading in clocks, eye glasses, frames. | 635 |
| | Wholesale trading in hardware and sanitary equipment. | 636 |
| | Wholesale trading in scientific, medical and surgical instruments. | 637 |
| | Wholesale trading in precious metals and stones, gold and silverwares and jewellery. | 638 |
| | Wholesale trading in all goods not covered above. | 639 |
| 64 | *Retail Trade*— | |
| | Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry. | 640 |
| | Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water. | 641 |
| | Retail trading in intoxicants such as wines, liquor. | 642 |
| | Retail trading in other intoxicants such as opium, ganja, etc. | 643 |

| Major Group (Code) | Description | Minor Group (Code) |

| **Division 7—Transport, Storage and Communication** | | |
| 70 | *Transport*— | |
| | Transporting by railways | 700 |
| | Transporting by tramway and bus service | 701 |
| | Transporting by motor vehicles (other than omnibus). | 702 |
| | Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka. | 703 |
| | Animal transporting by animals such as horses, elephant, mule, camel. | 704 |
| | Transporting by man such as carrying of luggage, handcart driving, rickshaw pulling, cycle rickshaw driving. | 705 |
| | Transporting by boat, steamer, ferry, etc., by river, canal. | 706 |
| | Transporting by boat, steamer, ship, cargo boat by sea or ocean. | 707 |
| | Transporting by air | 708 |
| | Transporting by other means not covered above. | 709 |
| 71 | Services incidental to transport such as packing, carting travel agency. | 710 |
| 72 | *Storage and Warehousing*— | |
| | Operation of storage such as ware-houses | 720 |
| | Operation of storage such as cold storage | 721 |
| | Operation of storage of other type | 722 |
| 73 | *Communication*— | |
| | Postal, telegraphic, wireless and signal communications. | 730 |
| | Telephone communication | 731 |
| | Information and broadcasting | 732 |
| **Division 8—Services** | | |
| 80 | *Public Services* (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups). | |
| | Public Services in Union and State army including territorial corps and volunteer corps. | 800 |
| | Public service in Navy | 801 |
| | Public service in Air Force | 802 |
| | Public service in Police | 803 |
| | Public service in administrative departments and offices of Central Government. | 804 |
| | Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc. | 805 |
| | Public services in administrative departments and offices of State Governments. | 809 |
| 81 | *Educational and Scientific Services*— | |
| | Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions. | 810 |
| | Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type. | 811 |
| | Scientific services and research institutions not capable of classification under any individual group. | 812 |

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| **Division 8—Services—contd.** | | |
| 82 | *Medical and Health Services*— | |
| | Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners. | 820 |
| | Veterinary services rendered by organisations and individuals. | 821 |
| 83 | *Religious and Welfare Services*— | |
| | Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations. | 830 |
| | Religious and allied services rendered by pandit, priest, preceptor, fakir, monk. | 831 |
| | Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity. | 832 |
| 84 | *Legal Services*— | |
| | Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi. | 840 |
| | Matrimonial services rendered by organisations and individuals. | 841 |
| 85 | *Business Services*— | |
| | Engineering services rendered by professional organisations or individuals. | 850 |
| | Business services rendered by organisations of accountants, auditors, book-keepers or like individuals. | 851 |
| | Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies. | 852 |
| | Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnists, journalists, editors, authors. | 853 |
| 86 | *Community Services and Trade and Labour Associations*— | |
| | Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations. | 860 |
| | Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library. | 861 |
| | Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc. | 862 |
| 87 | *Recreation Services*— | |
| | Production of motion picture and allied services such as processing, editing, etc. | 870 |
| | Recreation services rendered by cinema houses by exhibition of motion pictures. | 871 |

| Major Group (Code) | Description | Minor Group (Code) |
|---|---|---|
| (1) | (2) | (3) |
| **Division 8—Services—contd.** | | |
| 87 | *Recreation Services*—concld. | |
| | Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals. | 872 |
| | Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing. | 873 |
| 88 | *Personal Services*— | |
| | Services rendered to households such as those by domestic servants, cooks. | 880 |
| | Services rendered to households such as those by governess, tutor, private secretary. | 881 |
| | Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities. | 882 |
| | Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning services. | 883 |
| **Division 8—Services—concld.** | | |
| 88 | *Personal Services*—concld. | |
| | Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops. | 884 |
| | Services rendered by portrait and commercial photographic studios. | 885 |
| 89 | *Services (not elsewhere classified)*— | |
| | Services rendered by organisations or individuals not elsewhere classified. | 890 |
| **Division 9—Activities not adequately described** | | |
| 90 | Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified. | 900 |
| | Fresh entrants to the Labour Market .. | 999 |

# APPENDIX II

## NATIONAL CLASSIFICATION OF OCCUPATIONS

**A Code structure which classifies occupations into—**

**11 Occupational Divisions (one-digit code numbers)**
**75 Occupational Groups (two-digit code numbers)**

Note: n.e.c.=not elsewhere classsified.

### DIVISIONS

**0 Professional, technical and related workers**
**1 Administrative, executive and managerial workers**
**2 Clerical and related workers**
**3 Sales workers**
**4 Farmers, fishermen, hunters, loggers and related workers**
**5 Miners, quarrymen and related workers**
**6 Workers in transport and communication occupations**
**7-8 Craftsmen, production process workers, and labourers not elsewhere classified**
**9 Serivce, sport and recreation workers**
**X Workers not classifiable by occupations**

### DIVISIONS AND GROUPS

**0 Professional, Technical and Related Workers**
- 00 Architects, Engineers and Surveyors
- 01 Physicists, Chemists, Geologists and other Physical Scientists
- 02 Biologists, Veterinarians, Agronomists and Related Scientists
- 03 Physicians, Surgeons and Dentists
- 04 Nurses, Pharmacists and other Medical and Health Technicians
- 05 Teachers
- 06 Jurists
- 07 Social Scientists and Related Workers
- 08 Artists, Writers, and Related Workers
- 09 Draughtsmen, Science and Engineering Technicians, n. e. c.
- 0X Other Professional, Technical and Related Workers

**1 Administrative, Executive and Managerial Workers**
- 10 Administrators, and Executive Officials, Government
- 11 Directors and Managers, Wholesale and Retail Trade
- 12 Directors, Managers and Working Proprietors, Financial Institutions
- 13 Directors, Managers and Working Proprietors, Other

**2 Clerical and Related Workers**
- 20 Book-Keepers and Cashiers
- 21 Stenographers and Typists
- 22 Office Machine Operators
- 28 Clerical Workers, Miscellaneous
- 29 Unskilled Office Workers

**3 Sales Workers**
- 30 Working Proprietors, Wholesale and Retail Trade
- 31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
- 32 Commercial Travellers and Manufacturers' Agents
- 33 Salesmen, Shop Assistants and Related Workers
- 34 Money Lenders and Pawn Brokers

**4 Farmers, Fishermen, Hunters, Loggers and Related Workers**
- 40 Farmers and Farm Managers
- 41 Farm Workers
- 42 Hunters and Related Workers
- 43 Fishermen and Related Workers
- 44 Loggers and Other Forestry Workers

**5 Miners, Quarrymen and Related Workers**
- 50 Miners and Quarrymen
- 51 Well Drillers and Related Workers
- 52 Mineral Treaters
- 59 Miners, Quarrymen and Related Workers, n. e. c.

**6 Workers in Transport and Communication Occupations**
- 60 Deck Officers, Engineer Officers and Pilots, Ship
- 61 Deck and Engine-Room Ratings (Ship), Barge Crews and Boatsmen
- 62 Aircraft Pilots, Navigators and Flight Engineers
- 63 Drivers and Firemen, Railway Engine
- 64 Drivers Road Transport
- 65 Conductors, Guards and Brakesmen (Railway)
- 66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport
- 67 Telephone, Telegraph and Related Telecommunication Operators
- 68 Postmen and Messengers
- 69 Workers in Transport and Communication Occupations, n. e. c.

**7-8 Craftsmen, Production Process Workers, and Labourers not elsewhere classified**
- 70 Spinners, Weavers, Knitters, Dyers and Related Workers
- 71 Tailors, Cutters, Furriers and Related Workers
- 72 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers
- 73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers
- 74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers
- 75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers
- 76 Electricians and Related Electrical and Electronics Workers
- 77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers
- 78 Painters and Paper Hangers
- 79 Bricklayers, Plasterers and Construction Workers n. e. c.
- 80 Compositors, Printers, Engravers, Book Binders and Related Workers
- 81 Potters, Kilnmen, Glass and Clay Formers and Related Workers
- 82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers
- 83 Chemical and Related Process Workers
- 84 Tobacco Preparers and Products Makers
- 85 Craftsmen and Production Process Workers, n. e. c.
- 86 Testers, Packers, Sorters and Related Workers
- 87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers
- 89 Labourers, n. e. c.

**9 Service, Sport and Recreation Workers**
- 90 Fire Fighters, Policemen, Guards and Related Workers
- 91 House Keepers, Cooks, Maids and Related Workers
- 92 Waiters, Bartenders and Related Workers
- 93 Building Caretakers, Cleaners and Related Workers
- 94 Barbers, Hairdressers, Beauticians and Related Workers
- 95 Launderers, Dry Cleaners and Pressers
- 96 Athletes, Sportsmen and Related Workers
- 97 Photographers and Related Camera Operators
- 99 Service, Sport and Recreation Workers, n. e. c.

**X Workers not Classifiable by Occupations**
- X0 Workers without occupations
- X8 Workers Reporting Occupations Unidentifiable or Unclassifiable
- X9 Workers Not Reporting Occupations

# APPENDIX III

## COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBERS

Note : n.e.c. = not elsewhere classified

| Industrial Code Number | Household Industry |
|---|---|
| **Major Group 00—Field Produce and Plantation Crops** | |
| 005.1 | Production of Vegetables |
| 005.2 | Production of roots etc., not included above |
| 006.1 | Production of fruits and nuts in plantation, vines and orchards |
| 006.2 | Production of copra (from coconuts) |
| 007.1 | Production of thatching grass |
| 007.2 | Production of wood, bamboo, cane reeds, etc. (excluding thatching grass). |
| 008.1 | Production of juice (Neera) by tapping coconut trees |
| 008.2 | Production of juice by tapping other palms like date Palmyra n. e. c. |
| 009 | Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above. |
| **Major Group 01—Plantation Crops** | |
| 013 | Production of tobacco in plantation |
| 015.1 | Pan Cultivation |
| 015.2 | Plantation crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan |
| **Major Group 02—Forestry and Logging** | |
| 023.1 | Production of Charcoal |
| 023.2 | Production of other fuels by exploitation of forests |
| 024 | Production of fodder by exploitation of forests |
| 025.1 | Production of Kathha |
| 025.2 | Production of Lac |
| 025.3 | Production of gum |
| 025.4 | Production of resins, barks, herbs, wild fruits, berries and leaves, etc., n. e. c. |
| 026 | Production and gathering of other forest products not covered above |
| **Major Group 03—Fishing** | |
| 030 | Production of fish by fishing in sea |
| 031 | Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries |
| 032 | Production of pearls, conch shells, sponges, sea herbs, corals, etc., by gathering or lifting from sea, river, pond. |
| **Major Group 04—Livestock and Hunting** | |
| 040.1 | Rearing of goat for milk and animal power |
| 040.2 | Rearing of buffalo for milk and animal power |
| 040.3 | Rearing of cows for milk and animal power |
| 040.4 | Rearing of camels and other big domestic animals |
| 040.5 | Production and rearing of livestock mainly for milk and animal power n. e. c. |
| 041.1 | Sheep breeding and rearing |
| 041.2 | Production of wool |
| 042.1 | Rearing and production of pigs and goats (mainly for slaughter). |
| 042.2 | Rearing and production of other animals (mainly for slaughter) n. e. c. |
| 043.1 | Poultry keeping and production of eggs |
| 043.2 | Rearing and production of ducks, hens, etc., and other small birds *e.g.*, pigeons, parrots, peacocks, maina etc. |
| 044.1 | Bee keeping for production of honey and wax |
| 044.2 | Collection of wax and honey |
| 045 | Rearing of tassar/eri/mulberry and other silk worms and production of cocoons and raw silk. |
| 046.1 | Dog breeding, rearing of rabits and guinea-pigs |
| 046.2 | Rearing of other small animals and insects n. e. c. |
| 048.1 | Collection of bones |
| 048.2 | Manufacture of glue from animal carcasses |
| 048.3 | Manufacture of gut |
| 048.4 | Production of other animal husbandry products such as skin, ivory, teeth and hair, etc. |

| Industrial Code Number | Household Industry |
|---|---|
| **Major Group 10—Mining and Quarrying** | |
| 107.1 | Extraction of chalk |
| 107.2 | Quarrying of lime-stone |
| 107.3 | Stone and slate quarrying |
| 107.4 | Quarrying of sand, clay, gravel, etc., n. e. c. |
| **Major Group 20—*Foodstuffs*** | |
| 200.1 | Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc. |
| 200.2 | Hand pounding of rice by Dhekhi or Ukhal. |
| 200.3 | Production of rice by milling dehusking and processing of paddy by rice mill. |
| 200.4 | Grinding of chillies, turmeric, etc. |
| 200.5 | Production of pulses |
| 200.6 | Parching of grains |
| 200.7 | Production and processing of other crops and foodgrains n. e. c. |
| 202.1 | Gur and Khandsari making from sugarcane and palm |
| 202.2 | Production of bhoora and candy |
| 202.3 | Production of jaggery from coconut and palmyra juice (neera) |
| 202.4 | Production of other indigenous products from sugar and jaggery n. e. c. |
| 203.1 | Manufacture of achar, pickles, chutney and murabba |
| 203.2 | Production of sauce jam and jelly |
| 203.3 | Processing of cashew nut |
| 203.4 | Manufacture of kokam products |
| 203.5 | Fruit preservation (canning of fruits) |
| 203.6 | Making dried vegetables |
| 203.7 | Production of other fruit products and preservation of fruits n. e. c. |
| 204.1 | Slaughtering, preservation of meat and fish and canning of fish. |
| 204.2 | Fish currying or curing and salting (currying applies more to skin and hide). |
| 205 | Production of bread, biscuit, cake and other bakery products. |
| 206 | Production of butter, cream, ghee, cheese chhana, khowa and other dairy products. |
| 207 | Oil pressing ghani, kolhu or by small machines |
| 209.1 | Confectionery |
| 209.2 | Making of sweet-meats, laddu, peda, barphi, batasa, etc. |
| 209.3 | Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc. |
| 209.4 | Making of chura or chira, muri, murki, khoi |
| 209.5 | Making of chat |
| 209.6 | Making of dalmot, chanachur (jor) garam, rewari, etc. |
| 209.7 | Making of other food products for residuary snacks |
| 209.8 | Production of other food products like cocoa, chocolate, toffee, lozenge. |
| **Major Group 21—Beverages** | |
| 210.1 | Manufacture of vinegar from coconut juice (neera) |
| 210.2 | Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery. |
| 211 | Production of country liquor from material obtained from sources other than trees and shrubs |
| 212.1 | Production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees |
| 212.2 | Production of other indigenous liquor, from other materials from trees and shrubs |
| 214.1 | Production of mineral water |
| 214.2 | Production of aerated water such as sodawater, lemonade, etc. |
| 215 | Production of ice |

| Industrial Code Number | Household Industry |
|---|---|
| **Major Group 21—Beverages—concld.** | |
| 216 | Production of ice-cream, ice-candy or kulphimalai milk-shake, etc. |
| 218 | Grinding of Coffee |
| 219.1 | Preparation of sharbats and squashes |
| 219.2 | Preparation of jeerapani |
| 219.3 | Production of other beverages n. e. c. |
| **Major Group 22—Tobacco Products** | |
| 220 | Manufacture of bidi |
| 221 | Manufacture of cigars and cheroots |
| 223 | Manufacture of hookah tobacco |
| 224 | Manufacture of snuff |
| 225 | Manufacture of jerda, kimam, khaini and other chewing tobacco. |
| 226 | Manufacture of other tobacco products n. e. c. |
| **Major Group 23—Textile—Cotton** | |
| 230 | Cotton ginning, cleaning, carding, pressing and baling |
| 231 | Cotton spinning (by charkha and takli) |
| 233.1 | Dyeing of cloth (cotton) and yarn |
| 233.2 | Bleaching of cloth (cotton) and yarn |
| 233.3 | Tie and dye (bandhani) of cloth and yarn |
| 234 | Cotton cloth weaving in powerlooms |
| 235 | Cotton cloth weaving in handlooms |
| 236 | Manufacture of khadi textile in handlooms |
| 237 | Printing of cloth (cotton) |
| 238.1 | Making of fishing net |
| 238.2 | Making of mosquito net |
| 238.3 | Making of other nets |
| 239.1 | Making of sacred thread |
| 239.2 | Making of thread, rope, cordage and twine (cotton) |
| **Major Group 24—Textile—Jute** | |
| 240 | Jute pressing and baling |
| 241 | Jute spinning and weaving of mats, asanis, etc. |
| 242 | Dyeing and bleaching of jute |
| 244.1 | Making of rope and cordage, out of hemp |
| 244.2 | Making of rope and cordage, out of jute |
| 244.3 | Making of rope by palm fibre |
| 244.4 | Making of rope by date palm fibre |
| 244.5 | Making of fibre, sunn-hemp fibre |
| 244.6 | Making of other products from jute and similar fibres such as hemp, mesta |
| **Major Group 25—Textile—Wool** | |
| 250 | Wool baling and pressing |
| 251 | Cleaning, sorting, carding, scouring and processing of wool |
| 253 | Spinning of wool by charkha or takali |
| 254 | Weaving of woollen cloth in powerloom such as blankets, asanis, etc. |
| 255 | Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc. |
| 256.1 | Embroidery with various colours, combinations of various threads and art work in woollen textile |
| 256.2 | Shawls (with traditional borders) |
| **Major Group 26—Textile—Silk** | |
| 261 | Dyeing and bleaching of silk |
| 262.1 | Spinning of tussar, other than in mills |
| 262.2 | Spinning of eri, other than in mills |
| 262.3 | Spinning of silk, other than in mills n. e. c. |
| 263.1 | Weaving of Traditional silk (Atlas) by powerloom |
| 263.2 | Weaving of tussar by powerloom |
| 263.3 | Weaving of eri by powerloom |
| 263.4 | Weaving of silk and artificial silk in powerloom n.e.c. |
| 264.1 | Weaving of mashru, himroo, brocade, kinkhab by handloom |
| 264.2 | Weaving of silk and artificial silk in handloom n. e. c. |
| 265 | Printing of silk textile |
| 266.1 | Goaf making |
| 266.2 | Making of silk cordage, rope and twine n. e. c. |

| Industrial Code Number | Household Industry |
|---|---|
| **Major Group—27—Textile—Miscellaneous** | |
| 270.1 | Making of durries |
| 270.2 | Making of carpets and druggets |
| 270.3 | Manufacture of other similar textile products n. e. c. |
| 271.1 | Making of hosiery goods such as banyans, socks, sweaters, mufflers, etc. |
| 271.2 | Making of nalas and azarbands |
| 271.3 | Making of parandas and chootelas |
| 271.4 | Manufacture of hosiery and other knitted fabrics and garments n. e. c. |
| 272.1 | Embroidery and making of phulkari |
| 272.2 | Making of jari thread, zardoshi |
| 272.3 | Traditional embroidery |
| 272.4 | Patchwork embroidery |
| 272.5 | Lace garland making |
| 272.6 | Making of fringes and crepe laces |
| 272.7 | Making of kargota, main garlands, shell garlands, etc. |
| 272.8 | Making of other embroidery products n. e. c. |
| 273.1 | Making of cap, hat, and other head-gear |
| 273.2 | Traditional garments |
| 273.3 | Chrochet work (bora caps) |
| 273.4 | Making of textile garments including rain-coats and head-gears n. e. c. |
| 274.1 | Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags, etc. |
| 274.2 | Making of newar |
| 274.3 | Manufacture of other made-up textile goods like mattress, quilt, rezai, etc., n.e.c. |
| 275 | Manufacture of waterproof textile products such as oil cloth, tarpaulin, etc. |
| 276.1 | Making of namda felt |
| 276.2 | Making of suzani (padded quilts) |
| 276.3 | Processing of coconut fibre for upholstery |
| 276.4 | Handicraft articles made of flax and fibre |
| 276.5 | Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n. e. c. |
| 277.1 | Manufacture of coir matting. cactus, fibre for ropes and rope making from coconut fibre |
| 277.2 | Making of brush, broom, etc., from coconut fibre |
| 277.3 | Coir spinning |
| 277.4 | Coconut curing |
| 277.5 | Other allied products of coir industry n. e. c. |
| 278 | Manufacture and repair of umbrellas |
| 279.1 | Making of daura (thread) batua, cotton thread, buttons |
| 279.2 | Manufacture of dolls and toys (rags and cotton) |
| 279.3 | Manufacture of other textile products not elsewhere classified |
| **Major Group 28—Manufacture of Wood and Wooden Products** | |
| 280 | Sawing, planing and milling of wood |
| 281 | Manufacture of wooden furniture and fixtures |
| 282 | Manufacture of structural wooden goods (including treated timber such as beams, posts, doors, windows |
| 283.1 | Carpentry works concerned with repairs of agricultural implements (wood) |
| 283.2 | Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures |
| 284.1 | Lecquerware (if on wood) |
| 284.2 | Manufacture of wooden utensils, artware and decorative wooden boxes (patras) |
| 284.3 | Manufacture of wooden toys |
| 284.4 | Sandal wood and other wood carving |
| 284.5 | Bead making from wood |
| 284.6 | Sawdust and plaster figure making |
| 284.7 | Marquetry boxes (inlay work) |
| 284.8 | Manufacture of photo frames and framing of photo paintings, etc. |
| 284.9 | Manufacture of other wooden products n. e. c. |
| 285 | Manufacture of match splinters, plywood and veneers |
| 287 | Manufacture of boxes and packing cases other than plywood |

| Industrial Code Number | Household Industry |
|---|---|
| | **Major Group 28—Manufacture of Wood and Wooden Products**—concld. |
| 288.1 | Making of box from moonj grass |
| 288.2 | Making of rope mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes |
| 288.3 | Making of mats, handfans and umbrellas from palm leaves |
| 288.4 | Making of sirki, moora and chhaj |
| 288.5 | Making of baskets and broomsticks |
| 288.6 | Making of donas (drone) and pattals (patravali) from leaves |
| 288.7 | Caning of chairs |
| 288.8 | Making of chicks, cuscus-tatti and fans, sticks and poles from bamboo |
| 288.9 | Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n. e. c. |
| 289.1 | Making of sticks and poles from wood |
| 289.2 | Making of wooden kharaus and other wooden sandals |
| 289.3 | Making of artwheels |
| 289.4 | Manufacture of other wood and allied products n. e. c. |
| | **Major Group 29—Paper and Paper Products** |
| 291 | Manufacture of pulp and paper by hand |
| 292.1 | Making of envelopes and paper bags |
| 292.2 | Papier mache articles |
| 292.3 | Making of kite |
| 292.4 | Paper decorations for homes |
| 292.5 | Making of card-board boxes and cards |
| 292.6 | Making of paper toys |
| 292.7 | Making of paper flowers, etc. |
| 292.8 | Manufacture of other paper products from paper paper board and pulp n. e. c. |
| | **Major Group 30—Printing and Publishing** |
| 301 | Printing and publishing of books |
| 302.1 | Printing works, printing of handbills, invitation cards etc. |
| 302.2 | Lithography, engraving, etching, block making, type cutting and other work connected with Printing Industry. |
| 303 | Book binding, stitching, sizing and other work, connected with book binding industry |
| | **Major Group 31—Leather and Leather Products** |
| 310.1 | Flying, processing of hides and skins including taxidermy |
| 310.2 | Currying, tanning and finishing of hides and skins, preparation of finished leather |
| 310.3 | Stuffed animals |
| 311.1 | Making of leather boots, shoes or chappals (slippers, sandals) |
| 311.2 | Making of Poola shoes |
| 311.3 | Manufacture of other footwear n. e.c. |
| 312 | Making of clothing and wearing apparel (except footwear) made of leather and fur |
| 313 | Manufacture of leather products such as leather upholstery, suit cases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (Kos), charsa and other articles |
| 314 | Repair of shoes, chappals and other leather footwear |
| 315 | Repair of all other leather products except footwear |
| | **Major Group 32—Rubber, Petroleum and Coal Products** |
| 320 | Vulcanising tyres and tubes |
| 321 | Manufacture of chappals from torn tyres and other rubber footwear |
| 322 | Manufacture of rubber products from natural and synthetic rubber including rain-coats, oil cloths, waterproof cloths etc. |

| Industrial Code Number | Household Industry |
|---|---|
| | **Major Group 33—Chemicals and Chemical Products** |
| 331.1 | Manufacture of dyes, paints, colours, abir, sindoor, varnish etc. |
| 331.2 | Manufacture of indigo |
| 332 | Manufacture of fertilizer (including from bones) |
| 333 | Manufacture of fireworks and other explosives such as *pataka*, etc. |
| 334 | Manufacture of matches |
| 335.1 | Manufacture of incense and perfumes |
| 335.2 | Manufacture of Agarbatti |
| 335.3 | Manufacture of rose water |
| 335.4 | Manufacture of powder, snow, cream, bindi, tikali, hair oil and nail polish |
| 335.5 | Manufacture of kum kum and hinglo |
| 335.6 | Manufacture of mascara and kajal |
| 335.7 | Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations |
| 335.8 | Manufacture of perfumes, cosmetics and other toilet preparations n. e. c. |
| 336.1 | Manufacture of soap and washing soda |
| 336.2 | Manufacture of other washing and cleaning compounds n. e. c. |
| 337.1 | Manufacture of plastic toys |
| 337.2 | Making of plastic buttons |
| 337.3 | Manufacture of other plastic goods |
| 337.4 | Making of celluloid goods |
| 337.5 | Manufacture of turpentine, synthetic resin and other materials n. e. c. |
| 338 | Salt production |
| 339.1 | Manufacture of ink including fountain pen ink |
| 339.2 | Making of candles |
| 339.3 | Making of tooth powder |
| 339.4 | Making of boot polish and inedible oils, etc. |
| 339.5 | Manufacture of other chemicals products n. e. c. |
| | **Major Group 34-35—Non-metallic Mineral Products other than Petroleum and Coal** |
| 340.1 | Making of bricks |
| 340.2 | Manufacture of roofing tiles |
| 340.3 | Manufacture of other clay products n. e. c. |
| 341.1 | Manufacture of cement door frames and sanitary fittings |
| 341.2 | Manufacture of cement jali and tiles |
| 341.3 | Making of cement statues |
| 341.4 | Making of cement products n. e. c. |
| 342.1 | Manufacture of lishu |
| 342.2 | Manufacture of lime |
| 343.1 | Stone carving |
| 343.2 | Marble carving |
| 343.3 | Granite carving |
| 343.4 | Manufacture of other structural stone goods, stone dressing and stone crushing n. e. c. |
| 344 | Making of chakki, chakla, silaut, lorha, jaint utensils and other articles from stone |
| 345 | Manufacture of stone images and toys |
| 346.1 | Making of images from soap stone |
| 346.2 | Manufacture of images toys and other articles of plaster of paris |
| 348.1 | Mica splitting |
| 348.2 | Manufacture of mica products including mica grinding |
| 350 | Making of earthenware such as pottery, etc. |
| 351 | Manufacture of crockery |
| 353.1 | Making of glass bangles |
| 353.2 | Making of glass beads |
| 353.3 | Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399) |
| 354 | Manufacture of Laboratory glass apparatus |
| 355 | Making of clay models, earthen images, busts and statues |
| 356.1 | Making of earthen toys and artware |
| 356.2 | Decorative ceramics |
| 357 | Manufacture of glass and glass products except optical and photographic lenses |

| Industrial Code Number | Household Industry |
|---|---|
| | **Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment** |
| 360.1 | Re-rolling of M. S. Rods |
| 360.2 | Manufacture of iron and steel including smelting, refining, rolling, etc., such as billets, blooms, tubes, rods, n. e. c. |
| 362 | Manufacture of arms and weapons and their repair service |
| 364 | Manufacture of iron and steel furniture |
| 365.1 | Making of utensils of brass and bell metal |
| 365.2 | Making of brassware |
| 365.3 | Making of bottom part of hookha from brass and bell metal |
| 365.4 | Making of brass and bell metal ornaments |
| 365.5 | Making of other brass and bell metal products n. e. c. |
| 366.1 | Making of aluminium utensils |
| 366.2 | Making of other aluminium products n. e. c. |
| 367.1 | Making of tin utensils |
| 367.2 | Making of articles from tin sheets |
| 367.3 | Copper utensils |
| 367.4 | Bronze works including bronze images, medals and articles of alloys |
| 367.5 | Manufacture of other metal products (excluding iron, brass, bell metal, aluminium) n. e. c. |
| 368.1 | Lacquerware (if on metal) |
| 368.2 | Nickel plating and electroplating |
| 368.3 | Engraving, embossing, polishing and welding of metal products |
| 368.4 | Enamelling and galvanizing of metal products |
| 368.5 | Plating and electroplating of metal n. e. c. including silverplating, goldplating, E. P. N. S., etc. |
| 369.1 | Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc. |
| 369.2 | Manufacture of light engineering goods including bolts and screws |
| 369.3 | Making of iron utensils (*e. g.*, buckets, etc.) and articles from iron sheets |
| 369.4 | Making and repairing of locks and trunks |
| 369.5 | Cutlery |
| 369.6 | Manufacture of pins |
| 369.7 | Manufacture of scales, weights and measures |
| 369.8 | Foundry Industry (including blacksmithy) |
| 369.9 | Manufacture of other sundry hardware such as G. I. pipe, wire net, etc., n. e. c. |
| | **Major Group 37—Machinery (All kinds other than Transport) and Electrical Equipment** |
| 370 | Manufacture of mechanical water pumps, tube well pumps, air pumps, etc. |
| 372 | Manufacture of small machine tools and machine parts |
| 373 | Manufacture of sewing machine parts |
| 375 | Repairing and servicing of fans |
| 376 | Manufacture of insulated wires |
| 377.1 | Manufacture of storage batteries |
| 377.2 | Manufacture of charging batteries |
| 377.3 | Manufacture of other batteries n. e. c. |
| 378 | Repairing and servicing of radios |
| 379.1 | Manufacture of domestic electrical appliances |
| 379.2 | Repairing and servicing of electrical apparatus, heaters, oven, etc. |
| | **Major Group 38—Transport Equipment** |
| 382 | Manufacture of body of trucks and buses including carpentry and joinery work involved |
| 384 | Repairing and servicing of automobiles |
| 385.1 | Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc. |
| 385.2 | Manufacture of rikshaw parts |
| 386 | Manufacture of boats and barges |
| 388 | Repair of cycle and rikshaw |
| 389 | Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki, cab, wheelbarrow, handbarrow, etc. |
| | **Major Group 39—Miscellaneous Manufacturing Industries** |
| 390.1 | Repair of spectacles |
| 390.2 | Manufacture of small photographic equipment |
| 390.3 | Manufacture of optical and photographic equipment n. e. c. |
| 391 | Manufacture of scientific goods |
| 392 | Repairing and servicing of watches and clocks |
| 393.1 | Inlay work with ivory and brass |
| 393.2 | Goldsmithy |
| 393.3 | Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones |
| 393.4 | Silver artware, including Silver repousse work on copper (such as in Tanjore) and silver images |
| 393.5 | Silver filigree industry |
| 393.6 | Manufacture of gold and silver leaves |
| 393.7 | Gold covering work (fancy jewellery) |
| 393.8 | Bidriware industry |
| 393.9 | Manufacture of jewellery, silverwares, etc. n. e. c. |
| 394 | Manufacture, repairing and tuning of musical instruments such as harmonium, tabla, sitar, bansuri, etc. |
| 395.1 | Manufacture of chalk pieces |
| 395.2 | Making of slate and slate pencil |
| 395.3 | Making of rubber stamps |
| 395.4 | Manufacture of fountain pen parts |
| 395.5 | Manufacture of other stationery articles such as pencils, penholders, etc. |
| 396.1 | Manufacture of deshi sports goods such as lezzim and dumbells |
| 396.2 | Making of rubber balls and balloons |
| 396.3 | Manufacture of other sports goods n. e. c. bats, rackets, balls, etc. |
| 399.1 | Making of tikka and cowdung cakes |
| 399.2 | Making of beads, from conch shells and horn goods |
| 399.3 | Making of traditional objects such as Orissa, Mysore and Tanjore paintings, etc. |
| 399.4 | Making of lac bangles |
| 399.5 | Making of buttons (bone, shell ivory) |
| 399.6 | Making of gangavan (making of wig from human hair) |
| 399.7 | Making of garlands from flowers, camphor, sandal wood shavings, seeds and other materials, like beads, etc. |
| 399.8 | Repair of petromax lights, etc. |
| 399.9 | Making and repairing of goods n. e. c. |

## A-I—Area, Houses and Population

## APPENDIX I

### Statement showing 1951 Territorial Units constituting the present 1961 set-up of the District

| Disrict/Taluka | 1951 Territorial Units Name | Area Sq. Miles | Area Sq. Km. |
|---|---|---|---|
| (1) | (2) | (3-*a*) | (3-*b*) |
| PARBHANI DISTRICT | | | |
| Jintur Taluka .. .. .. .. | As in 1951 .. .. .. .. .. .. .. | 668·8 | 1,732·2 |
| | *Plus*—Village Pota kh. transferred from Basmath Taluka .. | +3·3 | +8·5 |
| | Total .. | 672·1 | 1,740·7 |
| Kalamnuri Taluka .. .. .. | As in 1951 .. .. .. .. .. .. .. | 583·0 | 1,509·9 |
| | *Minus*—Village Digras kh. transferred to Basmath Taluka .. | —0·4 | +1·0 |
| | Total .. | 582·6 | 1,508·9 |
| Parbhani Taluka .. .. .. | As in 1951 .. .. .. .. .. .. | 546·6 | 1415·7 |
| | *Plus*—Villages Nandgaon kh. and Sakapur transferred from Basmath Taluka. | +3·8 | +9·8 |
| | Total .. | 550·4 | 1,425·5 |
| Basmath Taluka .. .. .. | As in 1951 .. .. .. .. .. .. | 481·9 | 1,248·1 |
| | *Minus*—Villages Pota Kh. transferred to Jintur Taluka .. | —3·3 | —8·5 |
| | *Minus*—Villages Nangaon Kk. and Sakapur transferred to Parbhani Taluka. | —3·8 | —9·8 |
| | *Plus*—Villlage Digras Kh. transferred from Kalamnuri Taluka .. | +0·4 | +1·0 |
| | Total .. | 475.2 | 1,230·8 |

## APPENDIX II

### Number of Villages with a Population of 5,000 and over and Towns with a Population under 5,000

| District/Taluka | Villages with a Population of 5,000 and over | | | Towns with a Population under 5,000 | | |
|---|---|---|---|---|---|---|

# EXPLANATORY NOTE

The scope of the 1961 District Census Handbooks has been enlarged to include in this Part, Official Statistics on climate and rainfall, agriculture, industry, education, health and a few other topics. The material presented here was mainly collected and compiled by the District Statistical Officer, for this volume. The concerned Departments of the State and Central Governments have also been consulted. For most of the Tables the footnotes show the sources from which the material has been obtained.

**2.** There are 33 Tables in this Part. They may be broadly grouped as follows :—

(1) Climate and Rainfall—Tables 1 and 2.

(2) Agriculture—Tables 3 to 10.

(3) Industries—Tables 11 to 14.

(4) Education—Tables 15 and 16.

(5) Public Health—Tables 17 to 19.

(6) Miscellaneous—Tables 20 to 33.

## (1) CLIMATE AND RAINFALL

**Table 1**

This table presents the highest and the lowest temperatures recorded at one or more stations in the district for all the 12 months for the years 1951 to 1960. Annual averages are shown in the last column.

Temperature data are maintained by the Meteorological Department and are published in their monthly weather reports and their summary which is published annually.

**Table 2**

This table shows monthly and annual rainfall and the number of rainy days for the various stations in the district. " Normal rainfall " [ (column (28) ) ] is the average rainfall over a long period—usually 80 years. Where rainfall records over such a long period are not available it may be the average for a shorter period—in some cases even five years. Rainfall records are maintained at taluka headquarters, dispensaries and a few police stations where rain-gauges have been supplied. These statistics are published in Part III of the State Government Gazette and Annual Season and Crop Reports issued by the Department of Agriculture. They are subsequently consolidated and issued by the Meteorological Department in two annual publications, *viz.*, " Daily Rainfall of India " and " Monthly Rainfall of India."

Rainfall statistics are presented in this table separately for each of the ten years from 1951 to 1960.

## (2) AGRICULTURE

**Table 3**

This table shows the utilisation of land and areas under various crops. Material is presented for the district as a whole and for each taluka separately. It is presented for ten years 1950-51 to 1959-60 :

(i) *Geographical area :* This area represents the total land area and is worked out from the Survey and Settlement Records. The changes in the geographical area from year to year may be due to territorial changes or corrections on account of adjustments in the areas of former unsurveyed villages which are now surveyed ;

(ii) *Forests :* This category includes all areas actually under forests whether State-owned or private and classed or administered as forests under any legal enactment dealing with the forests ;

(iii) *Barren and unculturable land :* This includes barren and unculturable lands like mountains, riverbeds, etc. (land which cannot be brought under cultivation unless at a very high cost) ;

(iv) *Culturable waste :* This includes lands which can be brought under cultivation but which have not been cultivated or having been cultivated for some time have not been cultivated successively for more than five years. Such lands may either be fallow or covered with shrubs ;

(v) *Permanent pastures and other grazing lands :* This includes all grazing lands whether they are permanent pastures and meadows or not ;

(vi) *Miscellaneous tree crops and groves not included in the net area sown :* This category includes lands under casuarina trees, thatching grass, bamboo bushes or other trees used for fuel, etc. Lands which are not included under orchards are included in this class. These are lands which are put to some agricultural use but whose area is not included in the net area sown ;

(vii) *Current fallows :* This includes lands which are left fallow during the current year only ;

(viii) *Other fallow land :* All lands which have been cultivated but which are temporarily out of cultivation for a period of not less than one year and not more than five years ;

(ix) *Net area sown :* The net area sown is the actual area under crops counting areas *sown more than once in the same year* only once ;

(x) *Gross cropped area :* This is the sum of areas under all crops and represents the sum of net area sown and area sown more than once in the year.

After the land utilisation statistics under section A in column (1) the table presents in section B the details of areas under different crops. The crops are classified in two main groups, *viz.*, foodcrops and non-foodcrops. Foodcrops are further grouped by " cereals, pulses and others ". Non-foodcrops are similarly shown under " oilseeds and others ".

The data on land utilisation and areas under crops are primarily prepared by the village officials of the Revenue Department. They are subsequently consolidated by the Agriculture Department.

Talukawise land utilisation and crop statistics are being presented for the first time in this volume. They have not been published so far anywhere else.

**Table 4**

This table presents gross and net irrigated areas and the distribution of net irrigated area by sources of irrigation. To facilitate comparison, the gross cropped area is also shown in column (3). The data are presented for three years, *viz.*, 1950-51, 1956-57 and 1959-60. Presentation is for the district as a whole and for each taluka separately.

**Table 5**

This table shows the acreages of various crops under irrigation for each year from 1950-51 to 1959-60. To facilitate comparison, the gross cropped area, and the gross irrigated area, are presented in the beginning. This is followed by acreages under irrigation for each crop.

The material is presented for the district as a whole and for each taluka separately.

Sources for the district and talukawise material are different and there may, therefore, be a few small discrepancies between the two sets of figures.

**Table 6**

This table presents the outturn and average yields per acre of principal crops in the district. The crops presented are foodcrops like rice, wheat, jowar, bajri, ragi, maize, tur, gram and sugarcane and non-foodcrops like groundnut, sesamum, cotton and tobacco. Crops which are locally important are only shown in this table.

The outturn figures are in hundred tons while average yeilds are shown in pounds per acre.

The estimates of average yields and production in respect of rice, bajri, jowar, kharif and rabi, wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted annually by the Agriculture Department. The estimates of yields for other remaining crops are based on the anna valuation figures and normal yields reported by the Revenue Officers. The figures relate to the years 1950-51 to 1959-60.

**Table 7**

This table presents wholesale prices of principal crops. The material is presented for previous years by monthly averages and for the last year separately for each month. The prices shown are for the places having regulated markets or for the district headquarters.

**Table 8**

This table presents harvest prices of principal crops. The " harvest price " is the average wholesale price at which the commodity is disposed of by the producer to the trader at the village site during the specified harvest period. These prices are published in the Season and Crop Reports. The figures relate to the years 1950-51 to 1959-60.

**Table 9**

This table presents figures for livestock and agricultural implements for the district and each taluka separately for three years, *viz.*, 1951, 1956 and 1961. The material is obtained from the three livestock censuses conducted in those years. The reference date to which the data relate is the 15th April of the concerned year.

" Poultry " in section B of the table includes hens, cocks, chicken, ducks, drakes and ducklets.

Section C presents statistics for agricultural implements. The figures for carts shown in the table are in respect of carts used for agricultural purposes only.

The number of tractors is inclusive of those owned by the Government and those owned by private persons.

The material is presented for the district as a whole and for each taluka separately.

**Table 10**

This table presents the distribution of the number of land holdings and their areas by size of holdings. The material has been taken from the census of agricultural holdings conducted in the year 1952-53 or 1953-54 in different parts of the State.

The figures presented here are for ownership holdings and the area figures are in terms of converted dry acres, *i.e.*, calculated after giving due weightage for irrigated lands.

Where the district has undergone major changes because of the reorganisation of States in 1956 or 1960, the material relates to the area of the district as it existed in the year 1952-53 or 1953-54.

## (3) INDUSTRIES

**Table 11**

This table presents, for each industry, the total number of working factories, the number of man-days for which they worked during the year and the average daily number of workers employed classified by adults (18 years and above), adolescents (15 to 17 years) and children (14 or less). Statistics presented in columns (3) to (11) relate only to the reporting factories. The number of non-reporting factories and their estimated average daily number of workers are shown in columns (12) and (13). These details of factories are further split up by the type of industry shown under column (1) both by industry code and a brief description. The industry codes shown here (as well as in Table 12) are those used for compilation of data by the Chief Inspector of Factories. They are different from the Standard Industrial Classification used in the Census Tables and reproduced in Appendix I to the Explanatory Note to Part II.

The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

The word "factories" here includes only the registered factories. They are of three types :—

(*i*) Factories using no power but employing 20 or more workers ;

(*ii*) Factories using power and employing 10 or more workers ; and

(*iii*) Factories not covered by (*i*) and (*ii*) above but notified by the Government as covered by the Factories Act.

The material presented in this table is for all the three types combined.

**Table 12**

This table presents the distribution of factories for each type of industry by size of employment. For each size group, the number of factories and their total working strength are shown for each industry separately. The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

**Table 13**

This table presents the distribution of factories for each type of industry by the number of days worked during the year. The material is shown for each industry and the number of factories and their total workers are shown for each group of working periods. This will show the seasonal or perennial pattern of employment in industries in the district. Material is presented only for the district as a whole and relates to the year 1961.

**Table 14**

This table presents a summary of data regarding the manufacturing industries as obtained through the annual Census of Manufacturing Industries conducted during the year 1958.

The 1958 Census had covered only 29 important industries. It moreover covered only the factories using power and employing 20 or more workers.

The figures for capital, etc., relate to 31st December 1958. "Value" added by manufacture denotes the increase in the total value of commodities as calculated by deducting the cost of materials, supplies, containers, fuel, electric energy and depreciation of fixed assets from the total value of the products.

The table presents only the combined figures for the 29 industries covered in the 1958 Census.

## (4) EDUCATION

**Table 15**

This table shows the number of different types of educational institutions in the district and the total number of pupils (boys and girls) and teachers for each type for the years 1951, 1956 and 1961. The material is presented for the district as a whole and for each taluka separately.

The number of institutions relates to the academic year ending June and the number of pupils is as on 31st March of the respective years.

**Table 16**

This table presents a list of colleges and high schools in the district with their locations. The material relates to 31st March 1961, and does not include institutions started after that date.

Lists are presented talukawise.

## (5) PUBLIC HEALTH

**Table 17**

This table shows medical facilities available in the district. The material is presented for three years 1950 1955 and 1960 and shows the number of hospitals, maternity homes, dispensaries, rural health centres, doctors, nurses, beds available and indoor and outdoor patients treated.

Material is presented for each taluka separately.

The material presented here includes only civil hospitals and Government dispensaries, local or Municipal Funds institutions, private-aided or Railway dispensaries. It does not cover private unaided institutions run by individuals or associations. Similarly, the number of doctors, nurses or patients shown in this table does not include that relating to unaided hospitals, dispensaries or private practitioners.

**Table 18**

This table shows data about births, deaths and infant deaths for the years 1951 to 1960. Wherever possible, figures for each taluka are also shown separately. For the districts of Aurangabad and Nagpur divisions, material is available and presented only for the years 1957 and onwards.

The figures of infant deaths relate to deaths of children below one year.

The coverage and reporting on births, deaths and epidemic diseases in the rural areas are incomplete in many respects. The material presented in Tables 18 and 19 should not, therefore, be treated as any accurate representation of actual conditions in the district and should be used only after allowing a margin for those limitations. The Department of Public Health is working on many schemes to improve the present position in respect of vital statistics.

**Table 19**

This table shows the number of deaths due to principal causes in the district for the 10 years 1951 to 1960. The causes of deaths shown are cholera, small-pox, plague, dysentery and diarrhoea, fever, respiratory diseases and other causes. The figures of fevers include deaths due to enteric fever, cerebro-spinal fever, malaria, influenza, typhus, etc. Respiratory diseases include pneumonia, pulmonary tuberculosis, whooping cough, etc. In the other causes are included diphtheria, chicken-pox, poliomyelitis, leprosy, cancer, deaths from child birth, etc.

(6) MISCELLANEOUS

**Tables 20 to 31**

Tables 20 to 31 are self-explanatory and need no further clarification.

**Table 32**

This table presents talukawise lists of weekly markets. The table also shows the day on which the weekly bazar is held. Places where cattle bazars are held are also indicated. The list is based on the information collected from the Mamlatdar's offices and the Census enumerators' reports, prepared in September-October 1960.

**Table 33**

This table gives a talukawise list of villages where different religious or cultural fairs are held. The list includes only those fairs which have a congregation of 1,000 or more. Information regarding—

(*i*) Location Code Number,

(*ii*) the name of the village in which the fair is held,

(*iii*) distance from Railway station and S. T. Bus stop,

(*iv*) name of the fair, and month and date of the fair, and

(*v*) average congregation,

is furnished for each fair separately.

The list is prepared on the basis of information collected from the District Superintendents of Police, Municipalities and the Census enumerators' reports. The number of people gathering at the fair is based on eye estimates and should be treated as a broad approximation.

## Table 1—Highest and Lowest Temperatures

[Figures in Centigrade]

| Year/Temperature | January | February | March | April | May | June | July | August | September | October | November | December | Annual |
