(Rural)	112—141
(Urban)	142—145
Pawai Tahsil	**146—173**
(Rural)	146—173

PREFACE

Prior to the 1951 Census, there was no regular separate publication at the district level regarding the data collected, although the seeds of the District Census Handbooks can be traced to the 'Village Lists brought out for every district in 1901 and 'Village Statistics' of every district published in 1911 and 1941. No. definite answer is forthcoming as to why such publications, giving village-wise information of occupied houses, break-up of population into males/females and literates, were not brought out in 1921 and 1931 The reason could be transfer from 1921 of certain charges on Census previously met from the provincial revenues to the Central revenues and the Government of India may not have considered it necessary to publish statistics up to the village level. 'Village Statistics' in 1941 were brought out by the Central Provinces & Berar Government and this practice of bringing out district-wise publications at the cost of the State Government has since been continuing.

2. The scope of the district-wise publications, now called the District Census Handbooks, has been undergoing change with each successive Census from 1951. In 1951, the District Census Handbooks only contained the Primary Census Abstract and the Census tables. In view of the usefulness of separate publication for each district, improvements were made at the time of the 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, education, etc. An 'Introductory Note' was also added to highlight the more striking features. Unfortunately, the desire to make district-wise Census publications very comprehensive resulted in late availability of the books to the users. Therefore, this time the District Census Handbooks have been divided into three parts in order to release maximum data, as and when finalised, so that the publications may have a useful life of about seven to eight years of inter-Censal decennium. Part A will contain Primarily non-Census statistics, Part B the Primary Census Abstract and Part C various administrative statistics with a chapter titled "Introducing the district". It may be mentioned here that subsequently a decision has been taken to merge Parts A and B in one volume on grounds of economy.

3. Much of the delay in the publication of the District Census Handbooks after the 1961 Census was due to delay in collection of administrative statistics and the decision to write the Introductory Note in the head office. Separation of administrative statistics as Part C of the District Census Handbook and the kind Co-operation of the State Government, permitting Collectors of the 1961-71 decade to write the chapter on "Introducing the District," is likely to go a long way in early publication of all the parts of the District Census Handbooks. Another favourable factor this time is the early decision of the State Government to permit printing in private presses as and when the work-load on the State Government Presses is heavy and likely to result in delay in the bringing out of the District Census Handbook of any district. It would not be out of place to point out here that the work-load in connection with the District Census Handbooks is very much more this time, not only on account of wider coverage but largely due to the decision to bring out the District Census Handbooks in Hindi as well as English. In all, there will be 172 publications, 4 per district of which 2 will be in hindi and 2 in english. Advance action was taken this time to collect the non-Census data and it is hoped that the combined volume of Parts A and B of all the 43 districts would be out by the end of 1973 and Part C of all the districts by the middle of 1975. This would be a definite improvement on the 1961 performance when printing of the District Census Handbooks covered the period 1964 to 1967.

4. In his Preface to the 1961 District Census Handbooks, my predecessor, Shri G. Jagathpathi, had observed thus, "It was not possible at this Census to base all Census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.". It has not been possible to adopt the development block as the basic unit for operation and presentation in this Census for more than one reason. Firstly, the office of the Block Development Officer was abolished in December, 1965; its resurrection in the form of office of the Block Development Assistant from 2-10-69 had not taken firm roots up to the time field arrangements for the 1971 Census were finalised. Secondly, the tahsil as a unit of field arrangements has many more advantages, the most significant being the ready availability of that legendary functionary—the patwari—without whose active co-operation it would be a formidable task to determine whether a habited structure in a cultivated field is part of village X or Y. Even, otherwise, since village-wise figures are available, it should not be difficult for those in need of data for intermediate units between the village and the tahsil, like the development block or patwari halka, to compile it by adding figures of concerned villages. The tahsil has for long been a fixed unit of administration and, to my mind, should be retained in preference to the development block whose jurisdiction may undergo a change in accordance with the pace of future development.

5. In conclusion, I would like to place on record my grateful thanks to the Government of Madhya Pradesh for having so kindly agreed to undertake the publication of the Handbooks in hindi as well as english to the various government and semi-government offices for un-hesitatingly making available the non-Census statistics, and to the Controller, Government Press, and his staff for arranging early printing in the Government and private Presses.

BHOPAL :
15 *th August,* 1972.

VILLAGE AND TOWN DIRECTORY
PART X(A)

EXPLANATORY NOTE

History :

Prior to 1951 there were no separate Census publications for every district. But at the time of preparatory arrangements for the first Census of Independent India, it was felt that Census statistics should be made available for smaller territorial units basic to the needs of an administration wedded to welfare of the masses. Accordingly, the scheme of District Census Handbooks was conceived and implemented. In view of the usefulness of separate publications for each district, further improvement was made at the time of 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, banking. education, health etc. An introductory note was also added to highlight the more striking features. Unfortunately the desire to make districtwise Census publication very comprehensive resulted in late availability of the books to the users. Therefore, the organisers of the 1971 Centenary Census decided in favour of splitting the District Census Handbooks into three parts and thereby release maximum data, as and when available, so that the publication may have a useful life of seven to eight years of inter-censal decennium.

Scope :

(a) Part A of the book is the Village and Town Directory. The Village Directory contains for each village particulars of amenities available in the field of education, medicine, power supply, drinking water supply, post and telegraph facilities and communications. In addition, data relating to particulars of land use, weekly market, places of religious, historical or archaeological interest in the village has also been included. The Town Directory gives for each town in the district in the form of suitable statements the origin and status of the town administration, growth of population, functional category of the town, physical aspects and location, latest municipal financial statements, civic and other amenities, medical, educational and cultural facilities, population by religion, scheduled castes and scheduled tribes. The abbreviations used in the Directory have been explained separately.

(b) Part B contains for each village and town, the primary census data incorporating area, occupied residential houses, number of households, total population and its break-up by sex, scheduled caste and scheduled tribe population, literate population and working population by nine broad categories.

(c) Part C will mainly incorporate the administrative statistics pertaining to the district in all the fields of development. The other Census tables pertaining to the district regarding language, religion, migration etc., will also be reproduced. There will be a write-up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade.

Village Directory:

This is in the form of one statement. Important statistics for each village have been given under the main-head—Amenities and Land Use Data. Other information regarding nearest town with distance, market, staple food and places of religious, historical or archaeological interest have also been given in separate columns. The information regarding "Amenities" cover items like educational and medical institutions, power supply, drinking water,communications and post and telegraph. Under "Land use", the break-up of the total area of the village has been indicated under sub-heads forest, irrigated, unirrigated, cultivable waste and area not available for cultivation.

(a) There are 1,095 villages in the three tahsils of the district and the number of villages, tahsilwise, in 1961 and 1971 are as under:—

Sl.No.	Tahsil	1961	1971	Difference
1	2	3	4	5
1	Ajaigarh	128	127	-1
2	Panna	491	491	Nil
3	Pawai	477	477	Nil
	Total	1,096	1,095	—1

It may be seen that there has been a decrease of only one village in the district. This is due to the fact that village Ajaigarh (1961 L.C. No.106) of Ajaigarh tahsil has been recognised as a town in 1971 Census.

The distribution of the villages with reference to their area in acres is as shown in the inset table below:—

Area (in acres)	No. of villages
1	2
50 acres or less	6
51— 100	26
101— 200	66
201— 500	198
501— 1,000	302
1,001— 2,000	255
2,001— 5,000	201
5,001 acres and above	41
Total	**1,095**

Village Bijwara (L. C.No. 9/2/52) in Panna tahsil has the smallest area of 20.58 acres and is located at a distance of 24 kms. from the nearest town, Panna, while village Panna Gird (L. C. No. 9/2/142) of this tahsil has the largest area of 20,001.82 acres in the district and is adjacent to Panna town.

Out of 1,095 villages 198, 302, 255 and 201 villages are in the area ranges of 201-500, 501-1,000, 1,001-2,000 and 2,001-5,000 acres, respectively. Only 41 villages are in the range of 5,001 acres and above.

Maximum villages in all the three tahsils, come within the area range of 501-1,000 acres, as will be seen from the following table containing tahsilwise data:—

Area (in acres)	Ajaigarh	Panna	Pawai	Total
1	2	3	4	5
50 acres or less	..	3	3	6
51 — 100	5	12	9	26
101 — 200	5	25	36	66
201 — 500	24	105	69	198
501 — 1,000	41	142	119	302
1,001 — 2,000	31	107	117	255
2,001 — 5,000	20	77	104	201
5,001 and above	1	20	20	41
Total	**127**	**491**	**477**	**1,095**

(b) Educational amenities.—The total number of villages having various educational facilities, within various distance ranges from the nearest town, are as indicated in the inset table below:—

Distance from nearest town	Total No. of villages	Number of villages having				
		Primary School	Middle School	High or Higher Secondary School	College	Others
1	2	3	4	5	6	7
5 kms. or less	15	8	..	..	..	..
6—10 kms.	42	20	..	..	..	..
11—15 kms.	69	29	2	..	..	..
16—25 kms.	153	60	7	2	..	..
26—50 kms.	529	200	16	5	..	..
51—100 kms.	287	93	6	1	..	..
101—200 kms.	..	..	..	..	..	..
201 kms. and above	..	..	..	..	..	..
Total	**1,095**	**410**	**31**	**8**	..	..

Maximum number of villages (529) lie within the distance range of 26-50 kms. and maximum number of villages having educational facilities also lie in this range, The number of educational institutions in the villages of different tahsils is given below :—

Sl. No.	Tahsil	Number of educational institutions				
		Higher Secondary/ High School	Middle School	Primary School	College	Others
1	2	3	4	5	6	7
1	Ajaigarh	1	6	73	..	..
2	Panna	5	13	191	..	..
3	Pawai	3	12	173	..	..
	Total	**9**	**31**	**437**	..	..

Twenty villages have two primary schools each. Two villages have three primary schools each, while Village Itwan Kalan, in Panna tahsil has as many as four primary schools. Village Devendra Nagar in Panna tahsil has two high / higher secondary schools. The area of these villages with distance from the nearest town are as under:—

Sl. No.	Name of village	Tahsil	L.C.No.	Area of the village in acres	Distance from the nearest town in Kms. with name		Educational institutions (if more than one)		
							Primary School	Middle School	High/Higher Secondary School
1	2	3	4	5	6		7	8	9
1	Partappur	Ajaigarh	9/1/60	481.00	Ajaigarh	11.2	2	..	..
2	Nayagaon	Ajaigarh	9/1/79	4,501.00	Ajaigarh	17.6	2	..	..
3	Beera	Ajaigarh	9/1/89	2,950.00	Ajaigarh	14.4	2	..	..
4	Khora	Ajaigarh	9/1/114	3,697.00	Ajaigarh	30.4	2	..	..
5	Itwan Khas	Panna	9/2/102	9,028.54	Panna	20.8	2	..	..
6	Amanganj	Panna	9/2/194	1,242.40	Panna	38.4	2	..	..
7	Jharkuwa(Tara)	Panna	9/2/263	3,869.65	Panna	25.6	2	..	..
8	Gunaur	Panna	9/2/343	2,876.10	Panna	36.8	2	..	..
9	Samana	Panna	9/2/368	1,312.95	Panna	25.6	2	..	..
10	DevendraNagar	Panna	9/2/394	1,348.63	Nagod	22.4	..	..	2
11	Rajapur	Panna	9/2/402	3,052.63	Nagod	20.8	2	..	..
12	Saleha	Panna	9/2/485	1,758.18	Nagod	43.2	2	..	..
13	Itwan Kalan	Panna	9/2/267	14,862.74	Panna	24.0	4	..	..
14	Mahewa	Panna	9/2/248	7,795.34	Panna	49.6	3	..	..
15	Simariya Garhi	Pawai	9/3/31	2,471.90	Hatta	35.0	2	..	..
16	Banoli	Pawai	9/3/61	4,074.24	Hatta	33.0	2	..	..
17	Nadan	Pawai	9/3/67	4,688.64	Hatta	28.0	2	..	..
18	Khamariya	Pawai	9/3/69	798.60	Hatta	29.0	2	..	..

23	Tikaria	Pawai	9/3/399	4,431.02	Katni	40.0	2	..	..
24	Shahnagar	Pawai	9/3/444	1,203.29	Katni	24.0	2	..	..
						Total	**50**	..	**2**

(c) Medical facilities:--The availability of medical facilities, per 100 sq. kms. and, tahsilwise, is as given in the following inset table :--

Sl. No.	Tahsil	Total area (in sq. kms.)	No. of medical institutions of any kind per 100 sq.kms.
1	2	3	4
1	Ajaigarh	606.47	1.3
2	Panna	2,798.52	0.5
3	Pawai	3,003.26	0.7

The above table will show that the villages of Ajaigarh tahsil have, comparatively, greater medical facilities per 100 sq. kms. The number of medical institutions, tahsilwise, is as indicated below:—

Sl.No.	Name of tahsil	No. of Medical Institutions
1	2	3
1	Ajaigarh	8
2	Panna	15
3	Pawai	20
	Total	43

About half the medical institutions in the rural areas of the district are in the villages of Pawai tahsil.

(d) Power supply.—The number of villages having electric power supply within various distance ranges from the nearest town are as indicated in the inset table below :--

Distance from the nearest town	Total No. of villages	No. of villages with electric power supply
1	2	3
5 kms. or less	15	3
6—10 kms.	42	3
11—15 kms.	69	1
16—25 kms.	153	10
26—50 kms.	529	13
51—100 kms.	287	2
101—200 kms.	..	..
201 kms. and above	..	..
Total	**1,095**	**32**

It would be seen that only about 3 per cent of the total number of villages have electricity and bulk of them are in the distance range up to 50 kms. The number of villages having electric power supply, tahsilwise, is as below:—

Sl. No.	Tahsil	Total No. of villages	Villages having electric power supply	Percentage of villages having electric power supply
1	2	3	4	5
1	Ajaigarh	127	4	3.15
2	Panna	491	23	4.68
3	Pawai	477	5	1.05
	Total	**1,095**	**32**	

The percentage of villages (about 3) having electric power supply in the district is much lower than the State average (about 7). Within the district, villages of Panna tahsil have, comparatively, more of this facility, while about only one per cent villages of Pawai tahsil have electricity.

(*e*) *Communications.*–The total number of villages and the number of villages connected by different types of communications, falling in different distance ranges from the nearest town, are indicated in the inset table below:—

Distance from the nearest town	Total No. of villages	Number of villages connected by				
		Pucca road	Kutcha road	Pucca road & rail	Kutcha road & rail	Others rail
1	2	3	4	5	6	7
5 kms. or less	15	10	2	..	..	..
6 — 10 kms.	42	19	5	..	..	..
11 — 15 kms.	69	27	14	..	..	..
16 — 25 kms.	153	40	18	..	..	..
26 — 50 kms.	529	122	150	..	..	..
51 — 100 kms.	287	29	86	..	..	1
101 — 200 kms.	..	..	..	..	..	..
201 kms. and above	..	..	..	..	..	..
Total	**1,095**	**247**	**275**	..	..	**1**

Few villages are served by "pucca" road. Out of 1,095 villages in the district, 522 villages are served by "pucca" or "kutcha" roads. The number of villages served by "pucca" roads, tahsilwise, and the total number of villages with percentage covered are as under:–

Sl. No.	Tahsil	Total No. of villages	No. of villages having "pucca" road	Percentage
1	2	3	4	5
1	Ajaigarh	127	34	26.77
2	Panna	491	154	31.36
3	Pawai	477	59	12.37
	Total	**1,095**	**247**	

Comparatively, Ajaigarh and Panna tahsils have better communication facilities, while Pawai tahsil is poor in this facility. Bina-Katni railway line passes through only one village of Pawai tahsil.

(f) Post and telegraph.— The total number of villages in the tahsils of the district having post offices and telegraph offices are given below:--

Sl. No.	Name of tahsil	Total No. of village	No. of villages having post office	No. of villages having telegraph office	No. of villages having telephone
1	2	3	4	5	6
1	Ajaigarh	127	14	..	..
2	Panna	491	32	..	2
3	Pawai	477	25	1	..
	Total	**1,095**	**71**	**1**	**2**

The number of post offices per 100 sq. kms. area in each tahsil is indicated in the following inset table:--

Sl. No.	Name of tahsil	Total area in (sq. kms.)	No. of post offices per 100 sq. kms.
1	2	3	4
1	Ajaigarh	606.47	2.3
2	Panna	2,798.52	1.1
3	Pawai	3,003.26	0. 8

Comparatively, rural areas of Pawai tahsil have less postal facility. Only one village, Pawai (tahsil headquarter of Pawai tahsil), has telegraph office while two villages of Panna tahsil have telephone facility. The names and particulars of these villages are as under:—

Sl. No.	Tahsil	Name of village having telegraph office		Name of village having telephone		Remarks
		Name	L.C.No.	Name	L.C. No.	
1	2	3	4	5	6	7
1	Panna			(i) Panna Gird	9/2/142	
				(ii) Devendra Nagar	9/2/394	
2	Pawai	(i) Pawai	9/3/251			

(g) *Staple food.*— Wheat, "Jowar", "Jao" and maize constitute staple food in practically all the villages of the district. In very few villages rice and "Kodo" are also additional staple food.

(h) Land use pattern.— (i) According to the village papers, about 28 per cent of the area in the district is under forest. The percentage of the forest area, tahsilwise, is as indicated below:-

Sl.No.	Tahsil	Percentage
1	2	3
1	Ajaigarh	11.71
2	Panna	35.15
3	Pawai	25.25

It may be noticed that, comparatively, there is less forest area in Ajaigarh tahsil, while more than onefourth area of Panna and Pawai tahsils is under forest.

(ii) The net cropped area in the year 1969 increased by 34.97 per cent as compared to the area in 1960-61. The percentage of the area under irrigation to area under crops during the years 1960-61 and 1968-69 comes to 2.90 and 2.23, respectively. The area under irrigation during this period increased by 3.73 per cent.

(iii) The following inset table shows the average percentage of cultivable waste per village in

different distance ranges from the nearest town :—

Distance	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7
5 kms. or less	15	6,599.39	439.96	5,969.15	397.94	90.45
6 —10 kms.	42	17,154.99	408.45	9,039.43	215.22	52.69
11 —15 kms.	69	26.303.76	381.21	15,998.23	231.86	60.82
16 —25 kms.	153	82,699.35	540.52	31,352.10	204.92	37.91
26 —50 kms.	529	299,184.76	565.57	127,910.33	241.80	42.75
51 —100 k ns.	287	133,473.80	465.06	53,372.27	185.97	39.99
101 —200 kms.	..	..	..	..	..	..
201 kms. & above	..	..	..	..	..	..
Area not available	..	..	..	..	..	..
Total	1,095	565,416.05	..	243,641.51	..	..

Ordinarily, the nearer a village to an urban area, the lesser is the proportion of cultivable waste, but the above inset table will show that there is some deviation in the distance ranges 6-10 kms., 16-25 kms. and 51-100 kms.

In the whole district, 243,642 acres (in round figures) of land has been classified as cultivable waste which constitutes about 15 per cent of the total area of the villages in the district. The percentage of cultivable waste in each tahsil is as indicated below:—

Sl.No.	Name of tahsil	Percentage of cultivable waste
1	2	3
1	Ajaigarh	20.22
2	Panna	13.00
3	Pawai	16.63
	Total	15.39

It would be seen that, comparatively, the percentage of cultivable waste in Panna tahsil, is less (13 per cent) while it is maximum in Ajaigarh tahsil (20.22 per cent).

Town Directory :

This is in the form of Seven Statements. But before discussing the information collected in the Seven Statements, it would be better to first understand certain concepts which determines urban areas.

(i) Definition of town.— A 'town' in the 1961 - Census was either--(i) a Municipality, Cantonment or Corporation; or (ii) a habitation with a population of at least 5,000, with atleast three-fourths of the adult male population engaged in non-agricultural pursuits. Accordingly there were 219 towns in the State. However, seven towns did not satisfy either the minimum population criterion or the one relating to ratio of non-agricultural adult males being 75% or more. But the list already finalised was not changed subsequently; the reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to get included in the list of towns as Municipalities and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than what was already present. In the 1971 Census there was no

material change in the concept of town and a list of 247 towns was prepared originally. Three more towns were added in the list due to the fact that two places were declared as municipal and the third fulfilled the necessary criterion to qualify a place as urban and ultimately 250 towns were recognised in the State. All areas which are not towns have been included in the list of villages.

(ii) Urban Agglomeration :

The concept of Urban Agglomeration has been adopted for the 1971 Census with the intention to present the population data in the District Census Handbook in respect of urban areas in such a manner that *'de-facto* urban agglomeration' is a recognisable entity, data pertaining to which will be the sum of the data of not only the *de-jure* (within Municipal/other statutory limits) urban area but also of its outgrowths in different directions which are obviously urban in character and form a continuous urban spread. This has been considered necessary so that future comparisons or studies of the particular urban agglomeration is factual and not vitiated by the time differential which exists between the delineation of municipal boundaries and the actual growth of the urban area.

(iii) Standard Urban Area :

This new concept has been developed for the 1971 Census and the essentials of a Standard Urban Area are:--

(1) It should have a core town of a minimum population size of 50,000.

(2) The contiguous areas made up of other urban as well as rural administrative units should have close socio-economic links with the core town, and.

(3) The probabilities are that this entire area will get fully urbanised in a period of two to three decades. This concept has been developed to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture.

The Seven Statements ;

Very useful data regarding the towns have been given in the statements and they have been collected and compiled from various agencies and official publications. The source and period of the information has been indicated below each Statement. It would not be out of place to mention here that analysis of data collected from diverse sources has its own limitations, mostly due to sketchy and incomplete information. All the same, the data compiled and presented throws sufficient light on the present stage of progress in each town.

(i) *Statement No. I.*--This statement presents the basic data relating to population of the towns for each decennium from 1901 to 1971 and the civic administration status in 1970. The civic administration status of the town indicates the authority incharge of its administration. Thus a town could have a Municipal Corporation, a Municipality, a Cantonment Board, a Gram Panchayat, a Notified Area Committee, etc.

(ii) *Statement No. II.*--This statement contains information regarding location (latitude and longitude), annual rainfall, temperature, distance from the nearest city with population of 1 lac or more and State, District and Tahsil headquarters. Distances from Railway Station and Bus route have also been indicated.

(iii) *Statement No. III* .–This statement contains information regarding receipt and expenditure of local bodies under different main heads indicating the indebtedness and general financial position and expenditure on public utility works. The information has been furnished for the years 1968-69, 1969-70 and 1970-71 in order to have an idea whether the concerned urban body is improving financially or not.

(iv) *Statement No. IV.*– This statement contains information regarding amenities, *e. g.*, road length, sewerage system, types of latrines, water supply, fire-fighting service, etc. in the different towns.

(v) *Statement No. V.*– This statement contains information regarding various important facilities available in the town viz., medical, educational, recreational and cultural.

(vi) *Statement No. VI.*– This statement throws light on the business and credit facilities commanded by the towns and contains information regarding trade, commerce, industry and banking.

(vii) *Statement No. VII.*– This statement contains data regarding population by religion and Scheduled Castes/ Scheduled Tribes with male / female break-up for the year 1971. This is the only statement based on 1971 Census figures.

Towns :

There are three tahsils and two towns in Panna district as indicated below :–

Sl. No.	Tahsil	Town	L.C.No.	Class
1	2	3	4	5
1	Ajaigarh	Ajaigarh	9/I	V
2	Panna	Panna	9/II	III
3	Pawai	..	..	..

Only two tahsil headquarters are towns. Panna is the headquarter of the district and continues to be recognised as a town since 1901, while Ajaigarh was recognised as a town for the first time in 1921. Ajaigarh, however, remained derecognised only in 1961. Ajaigarh and Panna towns have the following urban outgrowths:—

S.No.	Name of tahsil	Name of town forming urban agglomeration	Name of Village/ Locality treated as outgrowth	*Partly/* wholly	*L.C.* No.
1	2	3	4	5	6
1	Ajaigarh	Ajaigarh	Madhoganj	Wholly	58
2	Panna	Panna	Panna Gird	Wholly	142

There is no Standard Urban Area in the district because there is no town having a population of more than 50,000.

Statement I .—(i) The category of town administration in 1970 has been indicated in column 5 of the statement. Panna has a municipality, while Ajaigarh has gram panchayat. The population of the towns have, by and large, shown constant increase in every decade since their continued recognition as towns except during the decades indicated below :–

Sl. No.	Name of town	Decade population		Reduction in population
		Year	population	
1	2	3	4	5
1	Ajaigarh	1941	4,746	
		1951	3,561	1,185
2	Panna	1901	11,346	
		1911	10,756	590
		1911	10,756	
		1921	10,106	650
		1941	13,375	
		1951	12,244	1,131

During the decade 1901–1911 Panna town lost slightly in population. This fall in population may be due to partial migration within the district because the district population during the decade has shown an increase.

The fall in population of Panna town during the decade 1911-1921 was due to countrywide influenza epidemic of 1918.*

During the decade 1941-51 both the towns lost in population. The following extract from the District Census Hand Book 1961 of Panna district gives some indication regarding the causes for the loss in population during the decade.

"As in the first war the Chhatrasal Infantry from Panna was sent abroad and it suffered casualties."*

(ii) Column 14 of the statement shows the functional classification of the towns in 1961 as indicated in the following inset table:-

Functional category	Total No. of towns
1	2
Services	1
Total	**1**

The above table is in respect of only one town because Ajaigarh was derecognised in 1961.

The method adopted for the functional classification is elucidated below :—

The nine industrial categories were grouped into the following five functional characteristics:-

(i) Primary Activities (Comprising Category I-Cultivation, II—Agricultural Labourer and III—Mining and Quarrying, Fishing, Livestock, Hunting, etc).

(ii) Industrial (Comprising Category IV--Household Industry, V--Manufacturing other than Household Industry and VI-Construction).

(iii) Commercial (Comprising Category VII—Trade and Commerce).

(iv) Transport (Comprising Category VIII—Transport, Storage and Communications).

(v) Services (Comprising Category IX—Other services).

The percentage of total workers under the above five functional characteristics were calculated for each town and the predominant function(s) of each town was/were determined. If one functional characteristic of a town absorbed more than 40 per cent of the total workers, the town was designated by that function. In case no single characteristic claimed 40 per cent of the workers, two predominant characteristics together claiming a percentage of 60 or above were taken to represent the town. If these two failed to account for 60 per cent of the total workers, the first three characteristics were taken to represent the town.

Statement II.-The Physical and locational aspects as in 1969 have been covered. Panna district has been carved mainly out of former Panna and Ajaigarh States, although some villages have also been merged from former States of Charkhari, Bijawar, Chhatarpur and Uttar Pradesh. It was formed on the merger of the princely states into Vindhya-Pradesh on 1-4-1949. During the decade 1951-1961 there have been no important changes in the district, except that two villages were transferred from Raghurajnagar tahsil of Satna district to Ajaigarh tahsil of the district. **

Physiographically, the district is situated in the northeastern part of the State and is irregular in shape, with the broad base in Pawai tahsil in the south and a narrow strip in the north towards Ajaigarh. †

The climate is generally hot but in winter it sometimes becomes severely cold. The district receives the south-west monsoon.

Rainfall and temperature data of Satna has been indicated for Ajaigarh because the data for Ajaigarh is not available and the rainfall and temperature is more or less similar. For similar reasons, the temperature data of Satna has been indicated for Panna.

* District Census Handbook, Census of India, 1961, Panna District, P. xlvii.

** District Census Handbook, Census of India, 1961, Panna District, P. xxxvii.

† District Census Handbook, Census of India 1961, Panna District, Page xxxvii.

The towns get an annual rainfall of about 1137 m.m. to 1214 m.m. The range of maximum and minimum temperature of the towns is from 32.1°C to 18.7°C.

Both the towns are on bus route. Satna is the nearest railway station for the two towns. Jabalpur is the nearest city by road from the two towns of the district. The district headquarters town, Panna, is at a distance of 408 kms. by road from the State headquarters, Bhopal.

Statement III.—On the basis of population in the 1971 Census, the towns of the district have been categorised as under:—

Sl.No.	Name of town	Population	Class
1	2	3	4
1	Ajaigarh	5,461	V
2	Panna	22,316	III

The statement would show that the total expenditure is within the total receipts of the local bodies except in the following cases:--

Sl. No.	Local body in the town of	Year of excess expenditure	Total receipt	Total expenditure	Amount by which the expenditure is more than the receipt	Percentage of excess expenditure to total receipt
1	2	3	4	5	6	7
1	Ajaigarh	1969—70	26,300	35,100	8,800	33.46
2	Panna	1970—71	245,100	265,600	20,500	8.36

Column 7 of the above table would show that the percentage of excess expenditure to total receipts of the local body of Ajaigarh for the year 1969-70 is more than thirty. This is mainly due to substantial expenditure under heads connected with public utility works and general administration.

Receipt through taxes etc., of the local body of Panna has shown an upward trend during these years, while receipts of the local body of Ajaigarh have decreased from year to year.

The total receipts of the local bodies have, shown an upward trend except during the years mentioned below —

S. No.	Local body in the town of	Year
1	2	3
1	Ajaigarh	1969—70
2	Panna	1970—71

Government grants have substantially supplemented the receipts of the local bodies. Loan has been obtained by the local body of Panna during the year 1969-70.

The pe capita receipt and expenditure under broad heads as indicated in the inset table below:—

Class of town	No. of towns	Year	Per capita (in Rupees) RECEIPT: Total receipt	Receipt through taxes, etc.	Receipt from all other sources	EXPENDITURE: Total expenditure	Expediture on public health conveniences	Expenditure on public institutions	Expenditure on all othert aspecs
1	2	3	4	5	6	7	8	9	10
Class I (100,000 & over)	..	..	..	..	..	..	..	..	..
Class II (50,000—99,999)	..	..	..	..	..	..	..	..	..
Class III (20,000—49,999)	1	1968--69	8.73	6.62	2.11	6.85	1.01	..	5.84
		1969--70	11.67	8.24	3.43	10.36	0.73	..	9.63
		1970--71	10.98	9.67	1.31	11.90	5.91	..	5.99
Class 1V (10,000—19,999)	..	..	..	..	..	..	..	..	..
Class V (5,000 —9,999)	1	1968-69	6.57	2.97	3.60	5.07	1.74	0.26	3.07
		1969-70	4.82	2.69	2.13	6.43	2.14	0.93	3.36
		1970-71	5.04	2.58	2.46	4.74	2.01	0.42	2.31
Class VI (Below 5,000)	..	..	..	..	..	..	..	..	..

The above table would show that the total per capita receipt matches fairly well with the total per capita expenditure and in some cases the total per capita expenditure is higher than the total per capita receipt. The per capita expenditure on public health and conveniences against per capita receipt through taxes etc., is encouraging. In quite a number of cases, the expenditure of the local bodies shown in column 15 of the statement No. III under head 'Others',constitutes quite a high percentage of the total expenditure.

Statement IV.- Both the towns have electricity. Electric connections have also been given for industrial purposes. Street lights have also been provided in the towns. Water tap facility is available only in Panna, Fire brigade is not available in any town,

Statement V .— (*i*) *Medical facilities*:- State Government hospital facility is available in Panna, while Ajaigarh has only a Primary Health Centre. Apart from hospital, Panna has also a Family Planning Clinic. The number of beds per thousand population is as indicated in the inset table below:—

Total No. of beds in medical institutions	No. of beds per thousand population
1	2
76	2.7

(*ii*) *Educational facilities.*— Only Panna has combined college, Higher secondary/high schools are located in both the towns. The number of higher secondary / high schools, middle schools and primary schools per thousand population is as shown in the following inset table. For a more realistic appreciation, the population in the age-group 0-14 has been considered for primary and middle schools, while population in the age-group 15-19 has been considered for higher secondary / high schools.

Sl. No.	Name of town	Number per 1000 population		
		Higher Secondary or Secondary	Middle/ Junior Secondary	Primary
1	2	3	4	5
1	Ajaigarh	1.9	0.4	1.2
2	Panna	1.4	0.5	1.6

(*iii*) *Recreational and cultural facilities*:— There is a cinema house in Panna, while public library and reading room is available in both the towns.

Statement VI .— Both the towns have bank facility. Ajaigarh has an agricultural credit society while Panna has non-agricultural credit society. Sugar, kerosene, common salt, rice, wheat and pulses are the main items of import in the towns. 'Tuar' pulse, coal and wood are the main items of export from Ajaigarh, while such items for Panna are diamond, stone and fish. It may be mentioned that Panna is the only district in the State which has diamond mines. Bricks and coal are the important items of local manufacture in Ajaigarh, while diamond ornaments are manufactured in Panna.

Statement VII.–About 80 per cent of the urban population is in Panna town and the rest is in Ajaigarh. Majority of the urban population follow hindu religion, next come followers of islam religion. The townwise percentage of population following different religions and percentage of ScheduledCastes and Scheduled Tribes is as indicated below :-

Sl. No.	Name of town	PERCENTAGE								Percentage of Scheduled Castes	Percentage of Scheduled Tribes
		Buddhist	Christian	Hindu	Jain	Muslim	Sikh	Others	Religion not stated		
1	2	3	4	5	6	7	8	9	10	11	12
1	Ajaigarh	0.24	0.11	84.33	0.73	14.54	0.05	..	..	10.69	8.31
2	Panna	..	0.35	80.01	1.57	17.81	0.25	0.01	..	7.09	0.87

There is no population following 'boudh' religion in Panna. The percentage of people following other religions is not very significant. The percentage of Scheduled Caste population in Ajaigarh is slightly above ten, while in Panna it is less than ten. The percentage of Scheduled Tribes in Ajaigarh is about eight, while it is insignificant in Panna.

PRIMARY CENSUS ABSTRACT

PART X(B)

EXPLANATORY NOTE

I. General :

In Part A, the picture of the district as revealed by non-Census data has been discussed. In this note, the progress made by the district in the 1961-71 decade would be dealt with on the basis of information collected in the individual slip that was canvassed in the 1971 Census. Broadly speaking, the changes that have come about in the matter of total population, its growth-rate and density, sex-ratio, literacy, Scheduled Castes and Scheduled Tribes, working population, occupied residential houses and number of households have been discussed.

II. Population :

The population of Panna district is 429,077 while the population of Madhya Pradesh is 41,654,119. The population of Panna district, thus comes to 1.03 percent of the State population. The rural population is about 93 percent of the district population whereas the urban population is 7.10 percent as against the State percentage of 16.29. In other words, the district is rural in character. Highest percentage of the district population is found in Panna tahsil (about 46 per cent) and the reasons for this are that (i) the tahsil has about 45 percent of the villages in the district, and (ii) the population of the district headquarters town, Panna, is included in this tahsil. Panna district ranks 42nd among the 43 districts of the State population. During the decade 1961-71, the district population growth rate has been 29.53 against the State growth rate of 28.67. The area of the district is 7,122 sq. km. In other words, it has 1.61 percent of the State area and ranks 30th in area among the districts of the State. The density of population per sq. km. of the district is 60 against the State density of 94 and the district ranks 41st in density in the State. The sex-ratio, *i.e.* number of females per 1,000 males, of the district and the State is 923 and 941, respectively. Tahsil Pawai has got sex-ratio higher while the remaining tahsils have sex-ratio, lower than the district sex-ratio.

III. Literacy :

(1) The percentage of literacy in the district comes to about 15 as against the State literacy percentage of about 22. In 1961 also, the literacy percentage of the district (10.88) was lower than the State percentage of 17.13. The district has made some progress to increase the rate of literacy during the decade 1961-71.

The literacy percentage among the males in the district (23.16) is less than the State percentage of (about 33). Among females also, the literacy percentage in the district (5.64) is much less than the State percentage of about 11.

(3) Among the tahsils, Panna tahsil has the highest literacy percentage of about 18, while Pawai tahsil has the lowest percentage of about 12.

(4) The same pattern is seen in male and female literacy in the tahsils. Among males, Panna tahsil is at the top (about 27 percent), while Pawai tahsil with about 19 percent comes last. Among females also, Panna tahsil leads in literacy (about 8 percent), while Pawai tahsil with 3.38 percent comes last.

IV. Workers :

In the district, about 36.75 per cent of the population comes under the category of workers (main activity) against the State

percentage of 36.72. The percentage of female workers to total female population (16.90) is higher than the State percentage (about 19). Within the district,comparatively greater percentage of workers (males and females) have been returned from Ajaigarh tahsil. Panna tahsil has returned the lowest percentage of workers (35.30). Among female workers, Ajaigarh tahsil with (21.76) percent leads other tahsils of the district, while Pawai tahsil with (15.80) percent comes last. Among the workers in the district, about 55 and 30 per cent are cultivators and agricultural labourers, respectively, as against the State percentage of about 53 and 27. Under the category "Other workers" the district percentage (15.00) is lower than the State percentage of 20.58. Among females the district percentage of cultivators(about 31) and other workers (about 9) is lower than the State percentage of about 41 and 10 respectively, while for agricultural labourers the district percentage (about 60) is higher than the State percentage (about 49). Comparatively, highest percentage of cultivators (about 68) has been returned from Ajaigarh tahsil, while Panna tahsil has returned highest percentage of agricultural labourers. Lowest percentage of cultivators (about 45) and agricultural labourers (about 18) have been returned from Panna and Ajaigarh tahsils, respectively.

V. Scheduled Castes and Scheduled Tribes :

The percentage of Scheduled Castes to total population of the district (about 17) is higher than the State percentage (about 13). The percentage of Scheduled Tribes to total population of the district (about 14) is less than the State percentage (about 20). Highest percentage (about 18) of Scheduled Castes is in Pawai tahsil, while lowest percentage (15.80) is in Ajaigarh tahsil. As regards Scheduled Tribe, highest percentage (about 17) is in Pawai tahsil, while lowest percentage (6.86) is in Ajaigarh tahsil.

VI. Occupied Residential Census Houses :

The district has 76,242 occupied residential Census houses against the State figure of 6,822,767 which comes to 1.12 percent. During 1961, there were 65,378 occupied residential Census houses in the district against the State figure of 6,230,854 which came to 1.05 percent. There has been very slight change in the percentage during the decade. The number of households and persons per occupied residential Census house in 1961 and 1971 are indicated below:—

State/ Distt.	Year	No. of Residential Census Houses	No. of Households	No. of households per occupied residential Census House	No. of persons per residential Census House
1	2	3	4	5	6
State	1961	6,230,854	6,615,580	1.06	5.2
District	1961	65,378	72,882	1.11	5.1
State	1971	6,822,767	7,740,289	1.13	6.1
District	1971	76,242	86,022	1.12	5.6

It would thus be seen that the pressure on occupied residential Census houses has increased during the decade in the district as well as in the State. Comparatively, Panna tahsil (with about 47 percent) claims the highest percentage of occupied residential Census houses in the district.

VII. Villages and Towns :

There are 1,095 villages in Panna district which comes to 1.42 percent of total villages in the State. The percentage of inhabited villages to total villages in the district is 85.30 against the State percentage of about 92. There are 250 towns in the State out of which the district claims two, Panna and Ajaigarh.

(3) The total area figure given for the district is provisional 'Geographical Area' as supplied by the Surveyor General of India.

(4) The urban area figures are those supplied by the local bodies.

(5) The rural area of the district has been derived by subtracting the urban area figures supplied by local bodies from the total area figure of the district.

(6) Total area figures of tahsils are according to village papers as supplied by the Director of Land Records, Madhya Pradesh. Tahsilwise area figures exclude 623.9 km² of forest area in the district as tahsilwise break-up is not available.
