STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

District Census Hand-books for each of the 43 Districts in Madhya Pradesh

PREFACE

The publication of District Census Hand-books, which was begun in the 1951 Census, represents a significant step in the process of making census statistics available for the smaller territorial units basic to executive and developmental administration. Apart from the fact that the proper implementation of policy depends on the ability of the administrative authorities concerned to quantify accurately the variables involved, it is at these levels that policies get really thoroughly tested; also, policies can fail—and probably have failed—because their statistical basis was weak. It is undoubtedly necessary that gaps in statistics at lower levels be filled as rapidly as possible. It was not possible at this Census to base all census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.

2. What we have tried to do in the 1961 Census Hand-books is to make them more informative by the inclusion of as many categories of non-census statistics as possible; some of these are climate, agriculture, co-operation, industry, banking, education, health etc. There is also an introductory note to each Hand-book high-lighting the more striking features. It has not been possible for the Census Organisation to check the accuracy of the figures supplied by various authorities; it is to be hoped that some other organisation, better equipped for the purpose, will take up this task.

3. For the seventeen districts of Mahakoshal (Part of erstwhile Madhya Pradesh) and for Panna and Tikamgarh districts of erstwhile Vindhya Pradesh, which are part of the present State of Madhya Pradesh, the area figures for districts and tahsils furnished by the Director of Land Records and presented in Table A-I are internally inconsistent in the sense that the tahsil areas do not add up to the district area. This inconsistency arose from the fact that, in the case of these districts, the district area includes, but the tahsil areas exclude, 'forest' area for which the tahsilwise breakup was not then available. Later on, while this Hand-book was in the press, the Director of Land Records brought out revised area figures for the year 1962-63 for tahsils and districts, which among other improvements, do not suffer from the defect of internal

inconsistency even in case of these nineteen districts. Revision of Table A-I on the basis of these area figures was not feasible at this late stage; the only alternative was to print these revised area figures also in this Hand-book.

4. One unfortunate fact about these Hand-books is that they became available to the users rather late in the decade. This is partly due to the considerable time required for the collection of information from various authorities and partly to difficulties in printing. Owing to the fact that State presses, with a heavy back-log of printing weighing down on them, would find it impossible to print all the District Census Hand-books themselves, arrangements have been made for printing them in private presses. If these Hand-books are to have a useful life of more than four or five years of inter-censal decennium, more expeditious methods for the collection of non-census statistics, for the preparation and checking of the manuscripts and for printing will have to be devised.

5. The Census Organisation is grateful to the Government of Madhya Pradesh for having been so kind as to undertake the publication of these Hand-books and to the Superintendent, Government Printing and his organisation—particularly the Assistant Superintendent, Printing, Government Regional Press, Indore and his staff—for the printing arrangements made. The inspiration behind this ambitious venture is that of our indefatigable Registrar General, Shri Asok Mitra, to whom we are all deeply grateful. Our thanks are also due to the various authorities who supplied us with all the necessary statistics.

NOTES AND EXPLANATIONS

This note gives the meanings and explanations of terms and concepts used in this Handbook. This is necessary because, without a proper grasp of the meanings of such simple concepts as building, house, household, worker. etc., it is not possible to appreciate the data presented in the Handbook. Thus, one who does not know that an unpretentious hut in the thick of Bastar forests with unplastered bamboo walls and a thatch roof and with space hardly enough for two cots is not a whit less of a building than the Indian versions of the skyscrapers in one of the metropolitan cities, or that a central jail housing all manner of criminals and shady characters is as much a household as the household of the most pious and god-fearing citizen in the State, may not be able to appreciate what exactly the figures represent. Besides explaining the terms and concepts, the note also contains brief notes on the salient and peculiar features of some of the Census tables presented in this Handbook.

Census.—The Census in India is a decennial operation taking place in February-March of the first year of every decade. It ensures coverage of *all* members of the population irrespective of age. The operations constituting a *Census* involve, besides counting of heads, the counting of numerous attributes of the person counted. These are demographic, social, economic and cultural in nature. The number of these attributes regarding which information is recorded has been increasing from census to census and is limited only by considerations of cost, time and organisation.

Population.—The important thing about a population is that it is dynamic. It is a constantly changing entity. These changes take place by the natural processes of birth and death as well as by migration. A statement of population has therefore little sense unless the point of time to which it relates is also stated. A population figure is correct only for a particular point of time; and, even though in practice one may omit to indicate this point of time, one should none the less be clear about it. The population figures presented herein refer to the sunrise of 1st March, 1961, unless otherwise stated.

Rural-Urban Classification:—Data collected at a Census is usually presented separately for the rural and urban areas. A 'town' or a 'town-group' constitutes an urban area. A 'town' in the 1961 Census was either (i) a municipality, cantonment or corporation; or (ii) a habitation with a population at least of 5,000 with atleast three-fourths of the adult male population being engaged in non-agricultural pursuits. The rural-urban classification, being operationally cardinal and prior in point of time to the census count, had to be tackled earlier and a list of 219 towns in the State was therefore, prepared much earlier than the census proper. This included 28 habitations which were tentatively treated as towns, the intention being that, after the 1961 Census data became available, their cases would be re-examined. Later on, however, no modification was made in the list, even though 7 towns did not satisfy either the minimum population criterion or the one based on the ratio of non-agricultural adult males being 75% or greater. These are Gogaon in West Nimar, Datla Bandhi in Chhindwara (both under 5,000 in population); and, Icchawar, Patan, Pendra, Akaltara, Arang respectively in Sehore, Jabalpur, Bilaspur, Bilaspur, and Raipur Districts (not satisfying the economic criterion). The reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to sneak into the list of towns as municipalities, and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than was already present. The cases of Chachaura-Binaganj town in Guna District and Sardarpur-Rajgarh in Dhar District are peculiar in that each of these two municipal towns consists of two distinct habitations separated by 2 miles in the first and 3 miles in the second case.

All areas, which were not urban were rural. They consisted of 'villages'. A very large majority of the census villages were 'revenue villages', which had well demarcated or recognised boundaries, and which included not only the inhabited portion (or portions) but also agricultural land and uninhabited waste (or other) lands. The census village was thus not synonymous with a habitation or a dwelling; in fact, a village could contain two or more distinct habitations separated by considerable distances known variously as 'tola' or 'mazra' or 'para'. Besides, in many districts there were forest villages, situated inside Reserved forests and without clearly demarcated boundaries. The areas entered against these villages in the Village Directory are thus only approximate. It is to be noted that being, as observed by Martin [Census Superintendent (old) Madhya Pradesh, 1911 and Census Commissioner for India, 1921] arbitrary and irregular units of

area, carved out chiefly for revenue and administrative purposes, there are many revenue villages which do not have any habitation. They are not, therefore, of much demographic interest, and their inclusion in the Village Directory is only for a proper tally of area aggregates.

A—General Population Tables:

There are four main tables and three appendices in this series.

Table A-1.—This table presents the basic figures relating to area, houses and population separately for the rural and urban areas of each district, each tahsil, and for each city, towngroup or town. The area figures used in the table for the district and the tahsils are those furnished by the State Director of Land Records. In case of the district, the area figures furnished in 1962 by the Surveyor-General, India are also given. The Surveyor-General does not furnish area figures for tahsils. In case of cities and towns the area figures are furnished by the local urban authority (if any) in charge of the municipal administration, or by the local revenue authorities. Except in case of Raipur and Sagar districts, there is no agreement between the area figures for the district furnished by the Director of Land Records and the Surveyor-General, India. These differences arise principally from the differences in the methods adopted by the two agencies in measuring and computing the area.

In the case of eighteen districts (Bastar, Raipur, Durg, Raigarh, Bilaspur, Surguja, Balaghat, Seoni, Chhindwara, Mandla, Narsimhapur, Jabalpur, Sagar, Hoshangabad, Betul, East Nimar, Tikamgarh and Panna), only the district 'total' and 'rural' figures for area include the forest area; the figures for forest area were not available for individual tahsils in these districts, and hence the tahsilwise area figures for these districts do not include forest area. This fact is important particularly for appreciating the district and tahsil population density figures of these districts. The population density (*i.e.*, persons per square mile) given in column 4 of the table is calculated on the basis of the figures of area supplied by the State Directorate of Land Records.

Occupied Residential House.—This is a Census house which was actually occupied at the time of enumeration for residential purposes either partly or fully. The concept of 'Census house' together with the allied concepts of 'building' and 'household' are dealt with later in this note.

Town Group.—The introduction of the concept of "towngroup" is a new feature of the 1961 Census. One kind of 'towngroup' has its basis in what may be called demographic prognosis, this being that a particular group of towns is situated in such a way, and exhibits some interconnecting features of such a kind, that they can be considered a single demographic entity whose organic nature is likely to become more and more evident in the future. Examples are: Bhopal City with Bairagarh in the West and Heavy Electricals Township in the East; and Durg Town and Bhilai Industrial Township. The other type of towngroup is a group only in name in the sense that it represents a group of localities which geography unites but definition separates. Examples are Sagar Towngroup consisting of Sagar Municipality and Sagar Cantt., and Jabalpur Towngroup (consisting of Jabalpur Corporation, Jabalpur Cantt. and Khamaria). In both these instances, the urban complex is single and continuous, but as each corporation or cantonment is a separate town by definition, it gets split up in the Census into more than one town. In Madhya Pradesh there are six towngroups in all; three of them belong to the first type: Bhopal in Sehore District: Murwara in Jabalpur District and Durg in Durg District; the other three belong to the second type, Pachmarhi in Hoshangabad District, Sagar in Sagar District and Jabalpur in Jabalpur District.

Houseless & Institutional Population:—"Houseless population" means those who did not live and were not enumerated, in Census-houses at the last Census. Obviously these swell the ranks of the social destitutes who, to speak in every day parlance do not have even a roof over their heads, but live under the shade of trees or bridges or on pavements. "Institutional population" means the population that was enumerated in institutions at the last census *i.e.*, in hostels, jails, boarding houses, hospitals etc.

Class of Towns.—Towns are classified into six classes as below according to their population sizes:—

Class	*Population range*
I	100,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000—9,999
VI	Below 5,000

Towns of Class I are also known as Cities.

"Status" of a town means the authority in charge of its local urban administration. Thus a town could have a Municipal Corporation; a Municipality, a Cantonment Board, a Gram Panchayat, a Town or Notified Area Committee, etc.

B—(*i*) *General Economic Tables.*—This series includes 22 tables containing information on certain economic aspects of the population. The concepts involved have undergone significant changes as compared with the 1951 and earlier Censuses. In the 1951 and earlier censuses or at any rate in the last few censuses income or economic independence (and dependence) were treated as the criteria for denoting the economic status of a person. Separate account used to be taken of all persons who were economically independent and of those who were economically dependent. An intermediate category of economic semi-independence was also introduced in the 1931 Census. This consisted of the 'earning dependents' of the 1951 Census and even there the element of income was present. This income-based classification seems to have not infrequently resulted in a suppression of information relating to those who worked in household economic activities but did not actually earn any income like men other than the head of the household and women of the family or children working at the family cultivation or cottage industry but not earning any incomes. The 1961 Census introduced the concept of work and totally abandoned the 'income' approach. Thus all people who worked (*i.e.*, were "economically active") including family workers who were not in receipt of any income, & working children who did not earn enough for their maintenance were treated as workers. On the other hand such persons as a receiver of rents on immovable property, or of interest on securities deposited in a bank, and doing no other work, were treated as non-workers. Persons professionally engaged in anti-social activities (*i.e.*, thieves, robbers, prostitutes, beggars, etc.) were, however, not treated as workers. The approach to the concept of "work" was pragmatic and numerous illustrations were given to clarify the concept. The basis of work was held to be satisfied in the case of seasonal work *i.e.*, work at cultivation, livestock, dairying or household industry if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work was satisfied if the person was employed during any of the fifteen days preceding the day on which he was visited by the Census enumerator. A person who was working but was absent from his work during those fifteen days or for a longer period owing to illness or other causes was treated as worker. Work included not only actual physical work but also effective supervision and direction of work.

The Working Categories:—The primary classification of the population is by means of a simple dichotomy into workers and non-workers. The former is further sub-divided into nine sub-classes or working categories of the Census. These are listed below; the correspondence with the Standard National Industrial Classification is also indicated.

	CENSUS WORKING CATEGORY	CORRESPONDING DIVISION OR MAJOR GROUP OR MINOR GROUP OF NIC
I	Workers in cultivation	Minor Groups 000, 001, 002, 003, 004,
II	Agricultural Labourers ...	The same as in I above
III	Workers in mining, quarrying, live-stock, forestry, fishing, hunting and plantations, orchards and allied activities	Major Groups 01, 02, 03 and 04 and Division 1; Minor Groups 005, 006, 007, 008, 009 (if not classifiable as household industry)
IV	Workers in household industry ...	Minor Groups 005 to 009, 013, 014, 015, 020 to 026, 031, 032, 040 to 048, 107, Divisions 2 & 3 (excepting Minor Groups 201, 217, 218, 232, 252, 260, 290, 324, 325, 338 and 380) if on a household scale
V	Workers in manufacturing other than household industry ...	Divisions 2 & 3
VI	Workers in construction ...	Division 4
VII	Workers in Trade and Commerce ...	Division 6
VIII	Workers in Transport Storage and Communications ...	Division 7
IX	Workers in other services ..	Divisions 5, 8 & 9

The only term requiring explanation is household industry, the others being self-explanatory. As regards household industry, a three-fold test was laid down, *viz*:—

(a) "Household Industry" should consist of manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) "Household Industry" should be on the household scale where the workers mainly will be the Head of the household himself and/or members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a *registered factory* but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such free movement is not possible, and therefore, for household industry in urban areas we should consider only those industries which are located or at least the major part of whose work is located at home.

Class of Worker:—A worker, other than a cultivator, agricultural labourer or a worker at household industry could be: (i) an Employer, that is, who hires one or more persons in his work; (ii) an Employee, that is, who does his work under others for wages or salary in cash or kind; (iii) a Single Worker, that is, who is doing his work without employing others, except casually, and without the help of other members of the family, except casually (this includes workers working as members of a co-operative); and (iv) a Family Worker, that is, who is doing his work in his own family without wages or salary in cash or kind. A person could be an employee in a household industry also.

PRINCIPAL AND SECONDARY WORKER:

Table B-VII Part A and Part B involve the concepts of principal and secondary work. For every worker the principal work had to be indicated in the case of a person who was engaged in more than one work, and also the secondary work if he was engaged in two or more than two productive activities. The concepts of primary and secondary work had nothing to do with the income accruing to a person from his work. The principal work of a person was that activity which took up most of his time; similarly the secondary work (in case a person was engaged in two or more than two kinds of work) was that which took up less time than the principal work but greater than the other kinds of work. Unless specifically stated to the contrary in the table heading itself the tables in the Handbook are based on the principal work of a person.

Non-workers:—The non-working section of the population also was divided into eight classes according to the nature of their activities. Thus a non-worker could be (i) a full time student or child attending school, (ii) a person engaged in home duties (like a housewife or other adult female who does no other work) (iii) dependent including an infant or child not attending school, a person permanently disabled from work because of illness or old-age; (iv) a retired person who is not employed again, rentier, a person living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work and who does no other work; (v) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence; (vi) a convict (not an undertrial who was to be recorded for the work he did before being admitted to Jail); (vii) persons who were seeking employment for the first time; and (viii) persons who previously had worked, but were out of employment, and were again seeking work.

Education Levels:—A person was treated as illiterate if he did not satisfy the test of literacy, this meaning the ability both of reading and writing. The test of reading was held to be satisfied if a person could read printed matter or easily legible manuscripts. The test of writing was the ability to write a simple letter. The minimum educational level is primary or junior basic, and this includes all persons who have passed this examination but have not passed the next higher level examination *i.e.*, matriculation or higher secondary. Persons who had formal schooling but had not passed the primary or junior basic level examination were literates without any educational levels. A person belonging to any particular educational level means a person who has passed the examination denoting that level.

INDUSTRIAL AND OCCUPATIONAL CLASSIFICATION OF WORKERS:

Workers have also been classified according to their occupation and industry. The concepts of 'industry' and 'occupation' are of fundamental importance in connection with all economic activity and it is necessary that they should not be confused with each other. By "industry" is meant the sector of economic activity in which a worker is engaged *e.g.*, the textile industry, mining industry, etc., whereas by 'occupation' is meant the exact function that a worker performs in that sector *e.g.*, fitter, carpenter, typist, etc. Occupation thus is "a trade, profession or type of work performed by an individual independent of the worker's industry, status or years of experience".

THE INDIAN STANDARD INDUSTRIAL CLASSIFICATION (I. S. I. C.):

The industrial classification used in some of the economic tables of this hand-book is the 'Standard Industrial Classification' prepared by the Ministry of Labour and Employment, Government of India. Under this scheme of classification, the whole range of economic activity is divided into nine 'divisions', and a code number is given to each. The first digit of the code number of any specific economic activity stands for the 'Division' under which that activity is classified. Each division is then divided into a number of major groups not exceeding ten. The first and second digits of the code number represent the division and the major group into which an economic activity is classified. Each major group is again sub-divided into a number of minor-groups not exceeding ten, and the first, second and third digits in the code number of any economic activity represent the division, the major group and the minor group into which it is classified. To illustrate, the industrial 'code', '261', represents an economic activity corresponding to minor group 261 in major-group 26 of Division 2. A reference to the Standard Industrial Classification will show that the minor group code stands for the economic activity 'Dying and bleaching of silk' in the major group 'Textiles Silk' of the Division: 'Manufacturing'. The 'Divisions', 'Major Groups' and 'Minor Groups' of the Standard Industrial Classification are printed immediately after this note as Appendix I.

NATIONAL CLASSIFICATION OF OCCUPATIONS (NCO):

Table B-V gives the occupational classification by sex of persons at work other than cultivation. This classification is based on the 'National Classification of Occupations' prepared by the Ministry of Labour and Employment, Government of India. Each *occupation* is represented by a code number containing a number of digits (extending in the NCO upto 5). We have used only the three digit Code number for classifying occupation. All occupations are divided into ten divisons to each of which a digit is allotted. The first digit of the code number of an occupation stands for the 'Division' into which it is classified. Each division is then sub-divided into a number of groups not exceeding ten. The first and second digits of the code number represent the 'Division' and 'Group' into which an occupation is classified. Each group again is divided into a number of families not exceeding ten and the first three digits of the code number stand for the division, group and family into which an occupation is classified. To illustrate, the code number 911 stands for the family 911 (Cooks, cook-bearers, domestic and institutional) included in the Group 91 (Housekeepers, Cooks, Maid and related workers) included in the 'Division' 9 (Service, Sport and Recreation workers). The Divisions, Groups, and Families of the National Classification of Occupations are printed after this note as Appendix II.

It may be mentioned that the three digit industrial code can easily be extended into a four-digit code on the principles illustrated earlier to secure greater precision in the classification of the economic activitity of a worker. This has in fact been done in case of workers at household industry, and these four-digit code numbers have been used in Table B XIV Part B.

B—(ii) Household Economic Tables:—Tables belonging to this series differ from others in two respects: (i) they have been prepared from information recorded on the household schedules, while the other tables are prepared from information recorded on the individual slips; (ii) whereas the other tables are based on the total population, the tables in this series are prepared from the data contained in a 20% sample of all households. The instructions for selecting the sample are reproduced below:—

"Every fifth household from the starting random household will be selected to make a 20% sample. The sample household will be marked continuously for rural areas of a tahsil/taluka and for urban areas of a district *i.e.*, households left over in a household pad should be carried over to the next household schedule pad for the selection of sample households.

"Before making the sample households the household schedule pads should be arranged in the order of location code numbers of villages in a Taluka or Tahsil in the case of a rural area and in the order of location code numbers of towns in a district for urban areas. The first sample household should be chosen randomly among the first five households in the first household schedule pad and stamped (s) as selected. This random number (random start) should be chosen separately for rural areas of each taluka/tahsil and for

the urban area of the district. From the first random household every fifth household should be continuously stamped as selected..... The sample should be continuously marked for all the pads of villages in a tahsil and urban areas in a district. If in a particular household schedule pad at the end, some households (these will be four or less) are left after marking of the sample household, the housedolds left over should be carried over to the next household schedule pad and the appropriate household in that pad should be marked as a sample household".

C.—Social and Cultural Tables:

This series contains 8 tables of which Table C-1 is prepared from data abstracted from the 20% sample of households.

Marital Status:—As regards marital status a person could be (i) never married, (ii) married, (iii) widowed and (iv) divorced or separated. The figures given do not necessarily indicate the legal position. Thus, persons who lived together as man and wife and who were regarded as such by society were treated as 'married' even though there might not be any legally valid marriage between them.

Age.—The age of a person was recorded in completed years as on the last birth day at the time of enumeration, so that a child who had not completed a year of its existence was recorded as of age '0' Inspite of the best efforts, distortion of ages is common phenomenon in Indian Census. This distortion is ascribable to the combined effect of a variety of causes like, for example, digit-preference, age-bias and estimation error and its most obvious manifestation is the heaping of the ages at digits ending in 0 or 5 and in even rather than in odd numbers.

Mother Tongue:—Mother tongue is the language spoken in childhood by a person's mother to the person, or mainly spoken in the household.

Religion:—Separate figures are given only for the six main religions: Hindu, Muslim, Jain, Sikh, Christian and Buddhist. Figures for persons professing other religions have been clubbed together under the head: Other Religions and persuasions'

Scheduled Castes and Scheduled Tribes:—In view of the constitutional safeguards guaranteed to persons belonging to scheduled castes and scheduled tribes with a view to ameliorate their social and economic condition, basic census figures are for the first time being published separately for each scheduled caste and scheduled tribe. A scheduled caste or a scheduled tribe means a caste or a tribe included in the Order issued by the President of India under Articles 341 (1) and 342 (1) of the Constitution, amended, if necessary in accordance with Articles 341 (2) and 342 (2) thereof. It should be remembered that the population of a particular scheduled caste or tribe as given in the tables does not necessarily mean the entire population of that caste or tribe in the district. This is so because scheduling of a caste or tribe under the Constitution is *territorial* so that a caste or a tribe scheduled in a district, (or a tahsil or tahsils of a district) is not necessarily a scheduled caste in other districts (or other tahsils of the same district). Thus. Gond is a scheduled tribe in all tahsils of Jabalpur District except Jabalpur Tahsil so that the figures for Gond population in Jabalpur District exclude the Gonds of Jabalpur Tahsil. Secondly, some of the scheduled tribes have not been given independent status in some parts of the State by the Order but have been clubbed together with some major tribe, while, in other parts of the State, they have not been so clubbed. but have been included as distinct scheduled tribes. Thus, in the districts of the Mahakoshal region of the State, the tribe Agaria has been clubbed, along with many another, with Gond as the latter's sub-tribe. In these districts, therefore, figures relating to Agaria tribe, whose ethnic identity with Gond is controversial, do not appear independently in the tables of these districts, but are included in the figures for Gond. In the Vindhya Pradesh region, however, Agaria is Scheduled tribe in its own right and in the districts belonging to that region. Agaria population appears separately in the relevant tables.

Religion of Scheduled Castes and Tribes:—A scheduled caste can exist only in Hindu and Sikh religions and in no other religion. A scheduled tribe, however, may be found in any religion.

E—Housing Tables:—The Handbook includes five tables on housing. In using these tables, it should be remembered that they are prepared from the data on households abstracted from the 'Houselists'. Tables E-I and E-III are based on the full count while table E-II, E-IV and E-V are prepared from a 20% sample of households entered in the Houselists. Houselisting was non-synchronous with census proper, having taken place in the month of September-October, 1960, about five month before the reference date of the Census. Also, the population of households entered in the houselists is not necessarily identical with the population of households in respect of which household schedules were filled at the time of the Census. Thus the samples of households drawn from the household schedule, and from the house lists are different samples.

The instruction for drawing the 20% sample of households from the houselists are reproduced below:—

"Before marking the sample households the Houselists should be arranged in order of location code numbers in the case of rural areas for tahsil etc., and in the case of urban areas other than towns with population of 50,000 and over. In the case of towns with population of 50,000 and over the Houselists should be arranged in order of blocks. The first sample household should be chosen randomly among the first five households in the first Houselist. From that every fifth household from the first random household should be continuously marked..... The sample should be marked continuously for all the Houselists. If in a particular Houselist at the end two households are left after the marking of the sample households then these households should be carried over to the next Houselist and the third household in that list should be marked as sample households".

Census House and Census Households:—The concepts of "building" "house" and "household" are important and differ somewhat from their connotations in common speech. A building refers to the entire structure on the ground. A census house is a structure or part of structure inhabited or vacant or a dwelling, a shop, a shop-*cum*-dwelling or place of business, workshop, school etc., with a separate entrance. A census house was thus a building, or part of a building with a separate entrance. A census house could have a variety of uses, residential as well as non-residential; or it might be vacant (at the time of houselisting).

A household was defined as "a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so." A household necessarily lived in a census house or part of a census house. The definition of a household was broad enough to include all persons living together in a ' census-house and dining from the same kitchen, even if they were not related to one another. Such were the institutional households, like jails, hostels, hospitals etc. The house in which a household lived could either be owned or rented. All census-houses which were not owned by the households living in them were treated as 'rented' even though no rent was being actually paid.

"Factory" and "Workshop":—As is clear from its definition, a Census house could be a workshop. A workshop is a place where some kind of production, repair or servicing goes on, or where goods or articles are made and sold. A bigger workshop which was either registered under the Indian Factories Act or was of the scale of a registered factory was returned as a factory. For a manufacturing, repairing or servicing establishment to be registered under the Indian Factories Act, it should have ten or more workers if using power and twenty or more workers if not using power.

VILLAGE DIRECTORY AND ITS APPENDICES:

Village Directory:—The Village Directory corresponds to the Primary Census Abstract of the 1951 Census. It gives for each village of the district: (a) information relating to area, census houses, households, scheduled castes and scheduled tribes and literacy; and (b) the classification of the population into workers and non-workers, and again 'workers' into their 'Industrial Categories' separately for both the sexes. For facilitating comparison with the Census Handbook of 1951 the serial number at which the village is to be found in 1951 Handbook is also given. A new feature introduced in this Census is the presentation of additional information about each village relating to schools, hospitals, child and maternity welfare centres, medical practitioners, electricity, post and telegraph offices etc. This has been done by entering symbols against the name of each village. Another novel feature is the presentation in eleven appendices of useful information relating to villages and towns *i.e.*, industrial establishments, places situated on bus routes, or within five miles of a railway station, places having pucca wells, markets, public reading rooms, drains etc.

To enable the reader to locate the village in the Village Directory without much difficulty, an alphabetical index of village names is given. This gives for each village the 1961 location code number of the village (in the Village Directory, villages are arranged according to their Location Code Numbers); and its location code number in the 1951 Hand-book.

APPENDIX—I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below.

Major Group (Code)	Description	Minor Group (Code)
	Division O—Agriculture, Livestock, Forestry, Fishing and Hunting.	
00	Field Produce and Plantation Crops:—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines & orchards	006
	Production of wood, bamboo, cane reeds, thatching grass etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 & flowers) not covered above	009
01	Plantation Crops:—	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	Forestry and Logging:—	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	Fishing:—	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	Livestock and Hunting:—	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax, and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047

Major Group (Code)	Description	Minor Group (Code)
	Production of other animal husbandry products such as skin, bone, ivory & teeth	048
	Division 1—Mining and Quarrying:—	
10	Mining and Quarrying:—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and Quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2 & 3—Manufacturing:—	
20	Foodstuffs:—	
	Production of rice, atta, flour, etc. by milling, Dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur, from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	Beverages:—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products:—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacoo	225
	Manufacture of other tobacco products	226
23	Textile—Cotton:—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239

Major Group (Code)	Description	Minor Group (Code)
24	Textile—Jute:—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool:—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	Textile—Silk:—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	Textile—Miscellaneous:—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of water-proof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding, and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	Manufacture of Wood and Wooden Products:—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture & fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	Paper and paper Products:—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	Printing and Publishing:—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301

Major Group (Code)	Description	Minor Group (Code)
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stiching, sizing and other allied work connected with binding industry	303
31	Leather and Leather Products:—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by Code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather foot-wear	314
	Repair of all other leather products except footwear	315
32	Rubber, Petroleum and Coal Products:—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	Chemicals and Chemical Products:—	
	Manufacture of basic industrial chemicals such as acids, alkalis & their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals & chemical products not covered above (including inedible oils and fats)	339
34	Non-metallic Mineral Products other than Petroleum and Coal:—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery:—	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357

Major Group (Code)	Description	Minor Group (Code)
35	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	Basic Metals and their products except Machinery and Transport Equipment:—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating, (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369
37	Machinery (All kinds other than transport) and Electrical Equipment:—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	Transport Equipment:—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats, and manufacture of marine engines	386
	Manufacture & repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	Miscellaneous manufacturing Industries:	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of Musical Instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4—Construction	
40	Construction:—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	Electricity and Gas:—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of Gas in gas works and distribution to domestic and industrial consumers	502
51	Water Supply and Sanitary Services:—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60	Wholesale Trade:—	
	Wholesale trading in cereals and Pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish dairy products eggs, poultry and other foodstuff (not covered else where)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	Retail Trade:—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeats, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrellas, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
66	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and papers	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
67	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689

Major Group (Code)	Description	Minor Group (Code)
69	Trade and Commerce Miscellaneous:—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
Division 7.—Transport, Storage and Communication:		
70	Transport:—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	Storage and Ware Housing:—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold-storage	721
	Operation of storage of other type	722
73	Communication:—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8.—Services:		
80	Public Services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing & operation of financial institution each of which is classified in the appropriate industry groups):—	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public Service in Navy	801
	Public Service in Air Force	802
	Public Service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public service in administrative departments and offices of State Governments	809
81	Educational and Scientific Services:—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	Medical and Health Services:—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic particulars	820
	Veterinary services rendered by organisations and individuals	821

Major Group (Code)	Description	Minor Group (Code)
83	Religious and Welfare Services:—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for promotion of welfare of the community such as relief societies red-cross organisation for the collection and allocation of contribution for charity	832
84	Legal Services:—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organizations and individuals	841
85	Business Services:—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as of those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news agency, news paper correspondent, columnist, journalists, editors, authors	853
86	Community Services and Trade and Labour Associations:—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political, and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	Recreation Services:—	
	Production of motion picture and allied services such as processing editing etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor etc. racing.	873
88	Personal Services:—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning services)	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commericial photographic studios	885
89	Services (not elsewhere classified):—	
	Services rendered by organisations or individuals not elsewhere classified	890
	Division 9—Activities not adequately described:	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900
	Fresh entrants to the Labour Market	**999**

APPENDIX—II

NATIONAL CLASSIFICATION OF OCCUPATIONS

(Code Structure)

Which classifies occupations into

331 Occupational Families (three-digit code numbers)

75 Occupational Groups (two-digit code numbers)

11 Occupational Divisions (one-digit code numbers)

Note I.—The Classification does not provide separate code numbers for Apprentices, Foremen and Instructors (in-plant only). These may be classified by giving the prefixes of "A", "B", or "C" respectively before the code number of the occupation which is being learned, supervised or instructed.

Note II.—n. e. c.—not elsewhere classified.

DIVISIONS, GROUPS AND FAMILIES

0 *Professional, Technical and Related Workers*:

00 Architects, Engineers and Surveyors:—

- 000 Architects
- 001 Civil Engineers (including overseers)
- 002 Mechanical Engineers
- 003 Electrical Engineers
- 004 Chemical Engineers
- 005 Metallurgical Engineers
- 006 Mining Engineers
- 007 Surveyors
- 009 Architects, Engineers and Surveyors, n. e. c.

01 Chemists, Physicists, Geologists and other Physical Scientists:—

- 010 Chemists, except Pharmaceutical Chemists
- 011 Pharmaceutical Chemists
- 012 Physicists
- 013 Meteorologists
- 014 Geologists and Geophysicist
- 015 Mathematicians
- 019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.

02 Biologists, Veterinarians, Agronomists & Related Scientists:—

- 020 Biologists and Animal Scientists
- 021 Veterinarians
- 022 Sliviculturists
- 023 Agronomists and Agricultural Scientists
- 029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.

03 Physicians, Surgeons and Dentists

- 030 Physicians and Surgeons, Allopathic
- 031 Physicians, Ayurvedic
- 032 Physicians, Homeopathic
- 033 Physicians, others
- 034 Physiologists
- 035 Dentists
- 039 Physicians, Surgeons and Dentists, n.e.c.

04 Nurses, Pharmacists and other Medical & Health Technicians:—

- 040 Nurses
- 041 Midwives and Health Visitors
- 042 Nursing Attendants and Related Workers
- 043 Pharmacists and Pharmaceutical Technicians
- 044 Vaccinators
- 045 Physiotherapists, Masseurs and Related Technicians
- 046 Sanitation Technicians
- 047 Optometrists and Opticians
- 049 Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants see 091).

05 Teachers:—

- 050 Teachers, University
- 051 Teachers, Secondary Schools
- 052 Teachers, Middle and Primary Schools
- 053 Teachers, Nursery and Kindergarten Schools
- 059 Teachers, n.e.c.

06 Jurists:—

- 060 Judges and Magistrates
- 061 Legal Practitioners and Advisers
- 062 Law Assistants
- 069 Jurists, and Legal Technicians (including Petition Writers)

07 Social Scientists and Related Workers:—
- 070 Economists
- 071 Accountants and Auditors
- 072 Statisticians and Actuaries
- 073 Geographers
- 074 Psychologists
- 075 Personnel Specialists
- 076 Labour and Social Welfare Workers
- 077 Sociologists and Anthropologists
- 078 Historians, Archeologists, Political Scientists and Related Workers
- 079 Social Scientists and Related Workers, n.e.c.

08 Artists, Writers and Related Workers:—
- 080 Authors
- 081 Editors, Journalists and Related Workers
- 082 Translators, Interpreters and Language Specialists
- 083 Painters, Decorators and Commercial Artists
- 084 Sculptors and Modellers
- 085 Actors and Related Workers
- 086 Musicians and Related Workers
- 087 Dancers and Related Workers
- 089 Artists, Writers and Related Workers n.e.c.

09 Draughtsmen, and Science and Engineering Technicians, n.e.c.
- 090 Draughtsmen
- 091 Laboratory Assistants
- 099 Science and Engineering Technicians, n.e.c.

0X Other Professional, Technical and Related Workers:—
- 0X0 Ordained Religious Workers
- 0X1 Non-ordained Religious Workers
- 0X2 Astrologers, Palmists and Related Workers
- 0X9 Other Professional, Technical and Related Workers, n.e.c.
- 0X4 Geographers

1 *Administrative, Executive and Managerial* Workers

0X3 Librarians, Archivists and Related *Workers*:

10 Administrators and Executive Officials, Government:—
- 100 Administrators and Executive Officials, Central Government (All Defence Services Personnel to be included in this family)
- 101 Administrators and Executive Officials, State Government
- 102 Administrators and Executive Officials, Local Bodies.
- 103 Administrators and Executive Officials, Quasi-Government
- 104 Village Officials
- 109 Administrators and Executive Officials, Government, n.e.c.

11 Directors and Managers, Whosesale and Retail Trade:—
- 110 Directors and Managers, Wholesale Trade
- 111 Directors and Managers, Retail Trade

12 Directors, Managers and Working Proprietors, Financial Institutions:—
- 120 Directors, Managers and Working Proprietors, Banks
- 121 Directors, Managers and Working Proprietors, Insurance
- 129 Directors, Managers and Working Proprietors, Financial Institutions,

13 Directors, Managers and Working Proprietors, other:—
- 130 Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling
- 131 Directors, Managers and Working Proprietors, Construction
- 132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary.
- 133 Directors, Managers and Working Proprietors, Manufacturing
- 134 Directors, Managers and Working Proprietors, Transport and Communication
- 135 Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services
- 136 Directors, Managers and Working Proprietors, Other Services
- 139 Directors, Managers and Working Proprietors, n.e.c.

2 *Clerical and Related Workers*:

20 Book-keepers and Cashiers:—
- 200 Book-keepers, Book-keeping and Accounts Clerks
- 201 Cashiers
- 202 Ticket Sellers and Ticket Inspectors including ushers and Ticket Collectors (excluding those on moving transport)

21 Stenographers and Typists:—
- 210 Stenographers
- 211 Typists

22 Office Machine Operators:
- 220 Computing Clerks and Calculating Machine Operators
- 221 Punch Card Machine Operators
- 229 Office Machine Operators, n.e.c.

28 Clerical Workers, Miscellaneous:—
- 280 General and other Ministerial Assistants and Clerks
- 289 Miscellaneous Office Workers including Record keepers, Moharrers, Diaphers, Packers and Binders of office papers.

29 Unskilled Office Workers:—
- 290 Office Attendants, Ushers, Hall Porters etc. n.e.c.

3 *Sales Workers*:

30 Working Proprietors, Wholesale and Retail Trade:—
- 300 Working Proprietors, Wholesale Trade
- 301 Working Proprietors, Retail Trade

31 Insurance and real estate salemen, salesmen of securities and services, and auctioneers:—
- 310 Agents and Salesmen, Insurance
- 311 Agents, Brokers and Salesmen, Real Estate
- 312 Brokers and Agents, Securities and Shares
- 313 Auctioneers
- 314 Valuers and Appraisers
- 319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.

32 Commercial Travellers and Manufacturers' Agents:—
- 320 Commercial Travellers
- 321 Manufacturers' Agents
- 329 Commercial Travellers and Manufacturers' Agents, n.e.c.

33 Salesmen, Shop Assistants and Related Workers:—
- 330 Salesmen and Shop Assistants, Wholesale and Retail Trade
- 331 Hawkers, Pedlars and Street Vendors
- 339 Salesmen, Shop Assistants and Related Workers, n.e.c.

34 Money-Lenders and Pawn-Brokers:—
- 340 Money-Lenders (including Indigenous Bankers)
- 341 Pawn-Brokers

4 *Farmers, Fishermen, Hunters, Loggers and Related Workers*:

40 Farmers and Farm Managers:—
- 400 Cultivators (Owners)
- 401 Cultivators (Tenants)
- 402 Farm Managers, Inspectors and Overseers
- 403 Planters and Plantation Managers
- 404 Farmers and Farm Managers, Animals, Birds and Insects Rearing
- 409 Farmers and Farm Managers, n.e.c.

41 Farm Workers:—
- 410 Farm Machinery Operators
- 411 Farm Workers, Animals, Birds and Insects Rearing
- 412 Gardeners (malis)
- 413 Tappers (Palm, Rubber trees, etc.)
- 414 Agricultural Labourers
- 415 Plantation Labourers
- 419 Farm Workers, n.e.c.

42 Hunters and Related Workers:—
- 420 Hunters
- 421 Trappers
- 429 Hunters and Related Workers, n.e.c.

43 Fishermen and Related Workers:—
- 430 Fishermen, Deep Sea
- 431 Fishermen, Inland and Coastal Waters
- 432 Conch and Shell gatherers, Sponge and Pearl Divers
- 439 Fishermen and Related Workers, n.e.c.

44 Loggers and other Forestry Workers:—
- 440 Forest Rangers and Related Workers
- 441 Harvesters and Gatherers of Forest Products including lac (except logs)
- 442 Log Fellers and Wood Cutters
- 443 Charcoal Burners and Forest Product Processors
- 449 Loggers and other Forestry Workers n.e.c.

5 *Mines, Quarrymen and Related Workers*:

50 Miners and Quarrymen:—
- 500 Miners
- 501 Quarrymen

502 Drillers, Mines and Quarries
503 Shot Firers
509 Miners and Quarrymen, n.e.c.

51 Well Drillers and Related Workers:—
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas

52 Mineral Treaters:—
520 Mineral Treaters

59 Miners, Quarrymen and Related Workers, n.e.c.:—
590 Miners, Quarrymen and Related Workers, n.e.c.

6 *Workers in Transport and Communication Occupations*:

60 Deck Officers, Engineer Officers and Pilots, Ship:—
600 Deck Officers and Pilots, Ship
601 Ship Engineers

61 Deck and Engine-room Ratings (Ship), Barge Crews and Boatmen:—
610 Deck Ratings (Ship), Barge Crews and Boatmen
611 Engine-Room Ratings, Firemen and Oilers, Ship

62 Aircraft Pilots, Navigators and Flight Engineers:—
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators

63 Drivers and Firemen, Railway Engine:—
630 Drivers
631 Firemen

64 Drivers, Road Transport:—
640 Tramcar Drivers
641 Motor Vehicle and Motor Cycle Drivers
642 Cycle Rickshaw Drivers and Rickshaw Pullers
643 Animal Drawn Vehicle Drivers
649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)

65 Conductors, Guards and Brakesmen (Railway):—
650 Conductors
651 Guards
652 Brakesmen

66 Inspectors, Supervisors, Traffic Controllers, Despatchers, Transport:—
660 Inspectors, Supervisors and Station Masters
661 Traffic Controllers
662 Signalmen and Pointsmen

67 Telephone, Telegraph and Related Telecommunication Operators:—
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operators
679 Telephone, Telegraph and Related Tele-Communication Operators, n.e.c.

68 Postmen and Messengers:—
680 Postmen
681 Messengers (including Dak Peons)

69 Workers in Transport and Communication Occupations, n.e.c.
690 Ticket Sellers, Ticket Inspectors, including Ushers and Ticket Collectors on moving Transport
691 Conductors, Road Transport
692 Workers in Transport Occupations, n.e.c.
693 Inspectors, Traffic Controllers and Despatchers, Communications
694 Workers in Communication Occupation, n.e.c.

7-8 *Craftsmen, Production Process Workers, and Labourers not elsewhere classified*:

70 Spinners, Weavers, Knitters, Dyers and Related Workers:—
700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.
701 Blow-room Workers and Carders
702 Spinners, Piecers and Winders
703 Warpers and Sizers
704 Drawers and Weavers
705 Pattern Card Preparers (excluding Printers)
706 Bleachers, Dyers and Finishers
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
709 Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.

71 Tailors, Cutters, Furriers and Related Workers:—
- 710 Tailors, Dress Makers and Garment Makers
- 711 Hat and Head-gear Makers
- 712 Furriers
- 713 Upholsterers and Related Workers
- 714 Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
- 715 Sewers, Embrioderers and Darners, Textile and Fur Products
- 719 Tailors, Cutters, Furriers and Related Workers, n.e.c.

72 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers:—
- 720 Shoe Makes and Shoes Repairers
- 721 Cutters, Lasters, Sewers, Footwear and Related Workers
- 722 Harness and Saddle Makers
- 729 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers, n.e.c.

73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers:—
- 730 Furnacemen, Metal
- 731 Annealers, Temperers and Related Heat Treaters
- 732 Rolling Mill Operators, Metal
- 733 Blacksmiths, Hammersmiths and Forgemen
- 734 Moulders and Coremakers
- 735 Metal Drawers and Extruders
- 739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers n.e.c.

74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers:—
- 740 Precision Instrument Makers, Watch and Clock Makers and Repairmen
- 741 Jewellers, Goldsmiths and Silversmiths
- 742 Jewellery Engravers

75 Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers:—
- 750 Fitter-Machinists, Tool-makers and Machine Tool Setters
- 751 Machine Tool Operators
- 752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
- 753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
- 754 Sheet Metal Workers
- 755 Plumbers and Pipe Fitters
- 756 Welders and Flame Cutters
- 757 Metal Plate and Structural Metal Workers
- 758 Electro-Platers, Dip-Platers and Related Workers
- 759 Tool-Makers, Machinists, Plumbers, Welders, Platers and Delated Workers, n.e.c. (including Metal-engravers other than printing)

76 Electricians and Related Electrical and Electronics Workers:—
- 760 Electricians, Electrical Repairmen and Related Electrical Workers
- 761 Electrical and Electronics Fitters
- 762 Mechanics-Repairmen, Radio and Television
- 763 Installers and Repairmen, Telephone and Telegraph
- 764 Linemen and Cable Jointers
- 769 Electricians and Related Electrical and Electronics Workers, n.e.c.

77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers:—
- 770 Carpenters, Joiners, Pattern Makers (Wood)
- 771 Shipwrights and Body Builders
- 772 Sawyers and Wood Working Machinists
- 773 Coach and Body Builders
- 774 Cart Builders and Wheel Wrights
- 775 Cabinet Makers
- 779 Carpenters, Joiners, Cabinet Makers, Coopers. and Related Workers, n.e.c.

78 Painters and Paper Hangers:—
- 780 Painters and Paper Hangers

79 Bricklayers, Plasterers and Construction Workers n.e.c.:—
- 790 Stone Cutters, Stone Carvers and Stone Dressers
- 791 Bricklayers, Plasterers, Masons
- 792 Glaziers

793 Cement Finishers and Terrazzo and Mosaic Workers
794 Hut Builders and Thatchers
795 Well Diggers
799 Bricklayers, Plasterers and Construction Workers, n.e.c.

80 Compositors, Printers, Engravers, Book-Binders and Related Workers:—
800 Type-setting Machine Operators
801 Compositors
802 Proof-Readers and Copy Holders
803 Printers (Paper)
804 Printers (Textile)
805 Photo-Litho Operators, Photo-lithographers
806 Engravers, Etchers & Block Makers (Printing)
807 Stereotypers
808 Book Binders
809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.

81 Potters, Kilnmen, Glass and Clay Formers and Related Workers:—
810 Furnacemen, Kilnmen and Ovenmen
811 Potters, and Related Clay Formers
812 Blowers and Benders, Glass
813 Moulders and Pressers, Glass
814 Grinders, Cutters, Decorators and Finishers
815 Pulverisors and Mixers, Cement, Clay and other Ceramics
819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.

82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers:—
820 Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers
821 Crushers and Pressers, Oil Seeds
822 Dairy Workers (Non-Farm)
823 Khandsari, Sugar and Gur Makers
824 Bakers, Confectioners, Candy and Sweetmeat Makers
825 Makers of Aerated Water and Brewers
826 Food Canners, Preservers and Related Workers
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.

83 Chemical and Related Process Workers:—
830 Batch and Continuous Still Operators
831 Cookers, Roasters and other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calenderers Chemical and Related Processes
833 Paper Pulp Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n.e.c.

84 Tobacco Preparers and Products Makers:
840 Curers, Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n.e.c.

85 Craftsmen and Production Process Workers n.e.c.
850 Basketry Weavers and Related Workers
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastics Products Makers
853 Tanners, Fellmongers, Pelt Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
859 Craftsmen and Production Process Workers, n.e.c.

86 Testers, Packers, Sorters and Related Workers:—
860 Checkers, Testers, Sorters, Weighers and Counters
861 Packers, Labellers and Related Workers

87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers:—
870 Operators, Stationary Engines and Related Equipment

871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and Other Construction Machinery, n.e.c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine, and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.

89 Labourers, n.e.c.:—
890 Loaders and Unloaders
899 Labourers, n.e.c.

9 *Service, Sports and Recreation Workers.*

90 Fire Fighters, Policemen, Guards and Related Workers:—
900 Fire Fighters and Related Workers
901 Police Constables, Investigators and Related Workers
902 Customs Examiners, Patrollers and Related Workers
903 Watchmen and Chowkidars
909 Fire Fighters, Policemen, Guards, and Related Workers, n.e.c.

91 House Keepers, Cooks, Maids and Related Workers:—
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
911 Cooks, Cook-Bearers (Domestic and Institutional)
912 Butlers, Bearers, Waiters, Maids and other Servants (Domestic)
913 Ayas, Nurse-maids
919 House-Keepers, Cooks, Maids, and Related Workers, n.e.c.

92 Waiters, Bartenders and Related Workers
920 Waiters, Bartenders and Related Workers (Institutional)

93 Building Care-Takers, Cleaners and Related Workers:—
930 Building Care-Takers
931 Cleaners, Sweepers and Watermen

94 Barbers, Hairdressers, Beauticians and Related Workers:—
940 Barbers, Hairdressers, Beauticians and Related Workers

95 Launderers, Dry Cleaners and Pressers:—
950 Laundrymen, Washermen and Dhobies
951 Dry-cleaners and Pressers

96 Athletes Sportsmen and Related Workers:
960 Athletes, Sportsmen and Related Workers

97 Photographers and Related Camera Operators:—
970 Movie Camera Operators
979 Other Photographers

99 Service, Sports and Recreation Workers, n.e.c.:—
990 Embalmers and Undertakers
999 Service, Sport and Recreation Workers, n.e.c.

X *Workers not Classifiable by occupation*

X0 Workers without occupations:—
X00 Workers without occupations: Matriculates and above
X08 Workers without occupations: Literates
X09 Workers without occupations: Others

X8 Workers Reporting Occupation Unidentifiable or Unclassifiable:—
X80 Workers reporting occupations unidentifiable or unclassifiable

X9 Workers not Reporting Occupation:—
X90 Workers not Reporting occupation.

INTRODUCING THE DISTRICT

By

K. S. BHATNAGAR

Deputy Superintendent of Census Operations, Madhya Pradesh

The District

Panna district of to-day has been carved mainly out of former Panna and Ajaigarh States, although some villages have also been merged from former States of Charkhari, Bijawar Chhatarpur and United Provinces. It was formed on the merger of the princely states into Vindhya Pradesh on 1-4-1949. During the decade there have been no important changes in the district, except that two villages were transferred from Raghurajnagar tahsil of Satna district to Ajaigarh tahsil in the district. The district is situated in the north eastern part of the State. It is irregular in shape, with the broad base in Pawai tahsil in the south and a narrow strip in the north towards Ajaigarh. The district now comes under the Rewa Commissioners' division and for administrative purposes is divided into three tahsils *viz.* Panna, Ajaigarh and Pawai.

The Historical Background

Panna State

Panna was a Sanad State in the Bundelkhand Political Agency under the former Central India Agency. It had an area of 2,371 sq. miles and its territory lay scattered. The following extract from the Imperial Gazetteer of India, Vol. XIX reveals some characteristics of the region.

"The greater part of its area lies on the branch of the Vindhyas, known as the Panna range, which traverses Bundelkhand from south-west to north-east. The only river of any importance is the *Ken*, which separates it from Chhatarpur. The geology of the State is unusually interesting, owing to the valuable mineral deposits which exist within its boundaries. The Panna range consists principally of the upper Rewah sandstone of the Vindhyan series, and has long been famous for its diamond mines. The circumstances of the distribution of the diamonds are, however, very imperferctly understood. The mines are found scattered over an area of about 50 miles lying east and west of the town of Panna, which is situated at the centre of the productive tract. The diamonds occur as pebbles in a conglomerate, and also in a pebbly clay derived from it by disintegration. The lower Rewah series is composed of three strata, the upper being the Jhiri shales, the second lower Rewah sandstone, and the third a narrow shale band known as the Panna shales. In the last of these the diamond-bearing conglomerate is intercalated at a variable horizon. The clay deposits are scattered in a capricious manner often at great distances from any known outcrop of the conglomerate. The position of several of these beds, indeed, makes the theory that the gem-bearing gravel is a recent alluvium quite untenable. It is probable that the formation is an old one, and related to, if not identical with, the pebbly clays which have been met with at the base of the cretaceous Lameta rocks. Lameta outcrops occur near Panna, and are overlaid by some of the eastern-most remnants of the Deccan trap known to exist on the Vindhyan tableland. In the western parts near Bakswaho an interesting and varied sequence of geological formations is met with, in which the Deccan trap, cretaceous Lametas, Rewahs, Kaimurs, Lower Vindhyans, Bijawars, and Bundelkhand gneiss are all typically represented."

The Panna Chiefs are Bundela Rajputs, descended from the Orchha house. Chhatrasal was the most famous ruler of Panna. He became the ruler of whole of Bundelkhand by 1671. Orchha and Datia were, however, held by other rulers of the same clan. Chhatrasal's capital was at Kalinjar - where the famous fort is located. In 1675 he moved to Panna and later founded Chhatarpur in 1707. He resisted with the help of Peshwa Baji Rao I, the Muslim attempts to curb his power and in 1731 divided his vast territories. The largest share Panna fell to Hirde Sah his eldest son. Chhatrasal died in 1732.

The family continued to rule through the series of turmoil and rebellions until 1811, when the British who had by now firmly established themselves in Bundelkhand, granted a 'Sanad' to Kishore Singh the nominal ruler, though in exile. Thus Panna State came to be known as a Sanad State. Panna town is nearly 300 years old. During the 1857 upheaval, the ruler aided the Birtish for which he was suitably rewarded. He enjoyed a salute of eleven guns.

The name Panna is according to popular version derived from Padmawati—an old temple dedicated to this goddess standing on the banks of the Kilkila stream which flows close by. It is also likely that the name may be derived from the diamonds that are found near about.

Ajaigarh

Ajaigarh was a Sanad State in Bundelkhand Political Agency. It had an area of 788 sq. miles and a population of 96,596 persons according to 1941 Census. The chiefs are the descendents of Chhatrasal who in 1731 divided his territories among his sons. The third son Jagat Raj was given Ajaigarh. On the death of Jagat Raj, his successors quarrelled among themselves and in 1792 Bakhat Singh was thrown out by Ali Bahadur who became the Nawab of Banda. In 1803 the British gave Bakhat Singh some pension and assigned territories. In 1855 the ruler Bijai Singh died without an heir and the territory was deemed to have escheated

to the British. While the matter was still under consideration, the 1857 upsurge broke through. The mother of the last ruler preferred to remain loyal and subsequently the territories were restored to Ranjor Singh. In 1862 he received a Sanad of adoption. The State now forms a tahsil of the district.

The Physical Features

Boundaries

Panna is bounded by the following districts:— Chhatarpur in the west, Damoh in the south, Jabalpur in the south-east, Satna in the north-east and Banda of Uttar Pradesh in the north. Thus it forms the State boundary with Banda district.

Natural Division

The tract is mostly hilly and is cut up by hills and valleys. The district lies in the heart of Vindhyas: the Panna ranges (a branch of the Vindhyan system) traverses Bundelkhand from south-west to north-east. With this range forming the water-shed the rivers flow in a general south easterly and north westerly direction. The elevation varies between 980 feet to 2,136 feet above MSL.

The River system

The main rivers are the Ken, the Bearma, the Mirhasan, the Patna, the Ranj and the Gurne.

The Ken

The river forms the western boundary of the district with Chhatarpur. It flows north and then sweeping to the east enters Banda district of Uttar Pradesh. It finally joins the Yamuna. On both banks of the river the forests are dense. There is no irrigation in the district although the waters of Ken are utilised for irrigation in Banda district.

A Legend

There is a tragic legend associated with the name of the river. The field of an old Ahir was at the foot of a hill, from whence gushed forth a stream. All efforts to dam the stream proved futile. So he consulted one Brahmin who advised him the offering of a human sacrifice. It so happened that the daughter of this Ahir was in love with a Kurmi youth and the old man suspected intimacy between the two. The old man then killed the Kurmi youth and buried the body underneath the dam. The love-lorn daughter ran to the spot and protested her innocence, praying to see her lover. The stream then burst, disclosed the lover but swept the dead and the living — the two lovers along. The Ahir was a resident of Panna State and even now before launching a boat in the Ken, the boatsmen offer glass bangles and mahawar to propitiate the river — lest evil may overtake them.

The other rivers join the Ken and ultimately drain into the Yamuna. There are no important irrigation works on these rivers.

The Forests

The forest in the district has been classified as Southern Indian Tropical Dry Deciduous Forests and are recognised as (a) The Teak Type, (b) The Mixed Deciduous Type. The total area under forests is about 1777 sq. miles. The legal status of the forest is that of 'Protected Forests'. During the princely regime, the forests in Panna State were protected by Panna State Shikar Rules 1943 and in the area of Ajaigarh State, shooting of carnivora was permitted only to the members of ruling family. During 1948-56 period the forests were protected under the Vindhya Pradesh shooting Rules—published in the Government of India Gazette on 14-10-50. At present the following enactments extend over the forests (1) the M. P. Games Act 1935 (2) Wild Animals and Birds protection Act 1912 and (3) Rules made under The Indian Forest Act 1927.

The Teak Type Forest

The main species are teak (*Tectona grandis*) in association with following over-wood species:— saja (*Terminalia tomentosa*), salai (Boswellia serrata), tendu (*Diospyros melanoxylon*) gurjan (*Lannea grandis*), dhaora (*Anogeissus latifolia*), bahera (*Terminalia balerica*). Among the under-wood the main ones are:— achar (*Buchanania latifolia*), tinsa (*Ougenia dalbergiodes*), khair (*Acacia catechu*) and kachnar (*Bauhxania variegata*).

The Dry Mixed Deciduous Forests

In these forests the teak is generally absent or is less than 15% of the over-wood. Salai and gurjan occur in abundance on the rocky slopes and shallow soils. The main varieties are:— dhaora, seja (*Legerstroemia parviflora*), salai, bahera, tendu, tinsa, khair, semal (*Selmelia balerica*), haldu (*Aclina cordifolia*), mahua (*Madhuca latifolia*) kala siras (*Albezzia labbek*), safed siras (*Albezzia procera*), aonla (*Emblica officialnis*), bel (*Aegele marmelos*) and amaltas (*Cassia fistula*).

Nearer moist localities and on the banks of nullahs:— koha (*Terminalia arjuna*), mango (*Mangifera indica*), and jamun (*Eugenia jombolona*) are also found. The following varieties of bamboos and grasses are also met with; bans (*Dendro-calamus strictus*), kans (*Sacharum spontaneum*), agunher (*Themeda quadrivalis*) and bhurbhusi (*Eragrostis tenella*).

There are two forest divisions in Panna - North and South covering nine ranges. Forests are exploited mainly for timber, fuel-wood, charocoal bamboo, tendu leaves, medicinal herbs, gum, lac and kattha, the markets for the produces being Satna and Katni.

Flora

Apart from the trees described earlier the following are commonly met with:— nim (*Melia indica*), peepal (*Ficus religiosa*), bargad (*Ficus bengalenesis*), sheesham (*Dalbergia sissu*).

Fauna

The district is fairly rich in fauna although in the past few years there has been a lot of distruction of wild life. Tigers, panthers, hynaes, jackals, foxes and wild dogs are the main carnivora. Elephants found near Panna were regarded as some of the finest in Mughal days. They are not found now. Among other mammals: black buck, four horned antilope, chinkara, barking deer, spotted deer, wild boar, pigs and blue bulls are found. The black buck has become very scarce and tigers are met with only in thick forests but panthers often stray to the outskirts are easily met with. Among the vipers cobras, krait and dhaman are common.

Among the game birds:— *bhat—titar* sand grouse, bater, grey quail, *titar* partridges, *jungli murgi*, red gangle, fowl and geese are easily met with. In the rivers excepting in the Ken where a few crocodiles may be found, only tortoises or fishes are met with. The common varieties being katla, rohu, marigal and mahseer.

Climate

The climate is generally hot but in winter it sometimes becomes severely cold. There is no meterological station in the district: the rainfall and temperature records are maintained in the dispensaries and tahsils. The district receives the south-west monsoons during July August and September. Winter rainfall is slight. Monsoons begin by early July and there are on an average about 52 rainy days in the year. The rainfall records made available by the State Directorate of Land Records reveal that during the decade the district averaged 1,118.4 mms or 44.03" of rain. The readings were taken at six different stations as per details given at table 1.1. By October the monsoons are over. In 1894, 73 inches of rainfall was recorded. From November onwards the winter season commences and December and January are the coldest months. During the last decade the lowest temperature for December and January was 33°F in 1955. It also went down to 39°F in 1956. March is comparatively a warmer month and once the mercury touched 104°F in 1953 and 1955. The days get warmer after March and May and June are the hottest months. During the decade the highest temperature for May and June was 119 and 115°F respectively in 1954. Rain gauges have been provided in the dispensaries at Pawai, Ajaigarh, Davendranagar, semaria and Shahnagar and at Panna and Ajaigarh tahsils.

II

THE ADMINISTRATIVE SET UP

The Representation of the People

In the Parliament

The relevant extract from the Delimitation of Parliamentary and Assembly Constituencies Order 1961, VI, Madhya Pradesh is reproduced below:—

S. No. and name of Constituency.	Extent in terms of Assembly Constituency.
6. Khajuraho	(38) Chhatarpur, (39) Maharajpur, (40) Laundi, (41) Panna, (42) Devendranagar, (43) Pawai, (47) Unchehara and (48) Satna.

Thus the district is tagged on to Khajuraho (28 miles) constituency which also covers Chhatarpur and Satna districts.

In the State Legislature

The legislature constituencies of the district are indicated below:—

S. No. and name of Constituency	Extent in terms of Assembly Constituency.
41. Panna	Ajaigarh tahsil and Panna R.I.C. (excluding Badgadi Kalan patwari circle), Ranwaha, Barachh, Deori and Kakrahti patwari circles and Makhara and Ranipur villages in Garhi Padariya patwari circle in Devendranagar R.I.C., and Itwan Kalan, Gaura, Jharkuwa and Bandhi Kalan patwari circles in Amanganj R.I.C. in Panna tahsil.
42. Devendranagar	Gunour R.I.C. Badgadi Kalan patwari circle in Panna R.I.C., Devendranagar R. I. C., (excluding Ranwaha, Barachh, Deori and Kakrahti patwari circles and Makhara and Ranipur villages in Garhi Padariya patwari circles) and Amanganj R.I.C. (excluding Itwan Kalan, Gaura Jharkuwa and Bandhi Kalan patwari circles) in Panna tahsil; and Sagra, Bhitari, Mutmuru, Bachhon, Kalda, Pondi Kalan Deora, Sarangpur, Sarra, Tala, Mihaguwan, Krishnagarh, Birsinghpur, Sunwari, Umarhat and Mundwari patwari circles in Kalda R.I.C. in Pawai tahsil.
43. Pawai (SC)	Pawai tahsil (excluding Sagra, Bhitari-Mutmuru, Bachhon, Kalda, Pondi Kalan, Deora, Sarangpur, Sarra, Tala, Mihaguwan, Krishnagarh, Birsinghpur, Sunwari, Umarhat and Mudwari patwari circles in Kalda R.I.C.).

Thus there are only three constituencies in the district, out of which one is for Scheduled Castes. These constituencies have subsequently been revised.

The Revenue Administration

During the princely regime the ruler had absolute powers and was final authority in all civil and administrative matters. In criminal matters his authority was limited to the powers in the Sanad. He was assisted by a Dewan who was his principal executive officer. The Dewan was also the District Judge and District Magistrate and appeals against his orders were heard by the Political Agent with the Resident or the Agent to the Governor General functioning as the High Court. The Tahsildars were Second Class Magistrates and Naib Tahsildars Third Class Magistrates. Appeals against their decisions were heard by the Dewan. The Dewan was thus the chief pillar of the administration.

On the formation of the Vindhya Pradesh, the chief executive authority in the district was designated as Collector and District Magistrate. He is the chief Revenue Authority in the district and as District Magistrate is responsible for the maintenance of law and order only, there being complete separation of the executive from the judiciary. The Collector (an officer of the I.A.S.) is assisted by four Deputy Collectors who are from the State Civil Service; two of these are also the Sub Divisional Magistrates and are responsible for the maintenance of law and order within their charges. Each tahsil is a sub-division under the Land Revenue Code and is placed under the charge of a Tahsildar who is assisted by a Naib or an assistant. The Collector is responsible for the maintenance of land records and for the collections of land revenue.

The tahsils are further divided into Revenue Inspector's Circles, and patwari halkas, the details being:—

District	No. of Tahsils	No. of Revenue Inspector's Circles	Patwari Halkas	Municipal Towns.	No. of Police Stations including Sub-Posts
Panna District	3	11	228	1	12 Police Stations 8 out-Posts

The land revenue is collected by the patel or the village headman, appointed for a village or a group of villages. The patel is paid remuneration at the following rates:—

Table—Showing Remuneration paid to Patel.

	Land Revenue & Miscellaneous Revenue Collected.		Rates.
1.	On the first	Rs. 1,500	6 P in the rupee
2.	On the second	Rs. 1,500	4 P in the rupee
3.	On the third	Rs. 1,500	3 P in the rupee
4.	On the fourth	Rs. 1,500	2 P in the rupee
5.	For the balance exceeding Rs. 6,000		1 P in the rupee

Provided that the annual remuneration of any patel in respect of any village shall not be less than Rs. 36.00 The remuneration is paid from the treasury once in each year. Lately some Gram Panchayats have also been given the powers for collecting land revenue.

Besides these the Collector is also responsible for the development works in the district and as the pressure of these mounts, his responsibilities increase.

Revenue History of the District

The first regular survey was made in 1906 in Panna State and a settlement carried out. Prior to this rents were either divided into lump rent leases or recovered after a rough and ready appraisal. In Ajaigarh revenue was assessed on the crop-bearing capacity of the soil, a higher rate being levied on irrigated lands.

In the erstwhile Panna State there were 12 parganas or tahsils and 112 estates-Jagirs; in Ajaigarh State there were 40 Jagirs. The Jagirs were abolished on 1-1-1954. A record of rights operation was undertaken in 1955-56; this has ensured some uniformity in revenue administration. The rates of soil vary from 0.25 paise per acre to Rs. 6.00 per acre. In the old State bigha which was equal to 5/8 of an acre was the unit of measurement.

The Judiciary

In the district the Judiciary is under the administrative control of the District and Sessions Judge at Chhatarpur. Additional Sessions Judge along with First Class Magistrates who are also Civil Judges have been posted in the district. These are all under the control of the High Court of Judicature at Jabalpur.

The Police Department

The police force in the district is under the control of a Superintendent Police, an officer from the I.P.S. He is assisted by a Deputy Superintendent, a gazetted officer from the State Police Service. The district is further divided into 20 police stations including 8 out-posts, which form the unit for administration. The details of the strength of police force as in 1965 are:—

Gazetted		Sub-Inspectors.	Asstt. Police Prosecutors	Head Cons. tables	Constables
Superintendent Police	Deputy Superintendent Police				
1	1	26	3	81	420

The district falls in Rewa Range where the office of the Deputy Inspector-General is located.

Panna district is a dacoity infested district, although the problem is not so acute as in neighbouring Chhatarpur, yet it is very much there. Dacoity has flourished in this region since times in memoriam. In the British

times too, the region was infested with Thugs and at no time was it ever free of this menace. In the princely States the gangs continued to operate and extradition laws proved very helpful to them. As long as the gangs could be pursuaded or won over, so that they would spare a particular State, the ruler on his part did not pursue them and generally remained unconcerned. Such understanding was all that the gangs wanted to carry on with their nefarious pursuits. The over-all picture appeared very grim at the time of the formation of Vindhya Pradesh.

Consequent to the formation of Vindhya Pradesh the matter was given considerable attention. For sometime one special Deputy Inspector-General was deputed and units of Special Reserve Police were posted at Chhatarpur. The most famous gang of this region was led by Devi Singh, who was eliminated by Jhansi Police in 1962. Two important gang leader viz. Pooran Singh and Pajan Singh have been eliminated in the recent past. The gang of Moorat Singh still continues to operate in the region.

The Medical Department

The position at the commencement of the twentieth century is reproduced from the Gazetteer of Panna State[1] :—

"The Agency Surgeon is in charge of this department. One State hospital at Panna, and three dispensaries at Pawai, Mahodra and Malahra, have been opened. A pardanashin ward has been started at Panna. Out-patients number about 30,000 and in-patients 300 in the year.

Seven vaccinators are employed, and in 1905, 10,000 persons were vaccinated, 8,100 cases being successful."

In Ajaigarh State at about the same time there was one dispensary at Ajaigarh town[2].

The district is under a Civil Surgeon now and there are six hospitals with 86 beds. Apart from these there are two Primary Health Centres with 12 beds. There has been an all round increase during the decade as would be obvious from the inset table below:—

	Year			
	1951		1961	
	No.	No. of beds.	No.	No. of beds
Primary Health Centres	1	6	2	12
Hospitals	5	48	6	86

Regarding the health history of the former State, Luard wrote:— "The health of the State has always been good, and except for a few local outbreaks of cholera, no epidemics of severe nature have ever appeared[3]."

During the decade dysentry has caused many deaths. Deaths from cholera rose to 295 in 1953 but there were practically no deaths from 1956 onwards. Deaths from T.B. rose to 201 in 1957. Deaths from small-pox also have registered a decrease. Malaria has been controlled to some extent; the district suffers from filaria and a research unit surveying the incidence of disease has been located here.

The Public Works Department

The department looks after the construction and maintenance of government buildings and roads. There are no railways in the district hence it leans heavily on the roads for its communications. The Executive Engineer is assisted by 3 Sub-Divisional Officers two at Panna and third at Amanganj. Each Sub-Division is further split up into sections with Sectional Officer in the charge. The district falls under the jurisdiction of the Superintending Engineer at Nowgong.

There is no National Highway passing through the district. The total mileage on the State Highway is 33 miles and major district roads constitute 182 miles. Some of the important roads are indicated below:—

(1)	Panna-Amanganj-Katni Road	77 miles 3 Furlongs
(2)	Amanganj-Semaria-Gaisabad Road	19 miles
(3)	Laxmipur-Paharikhera Road	19 miles
(4)	Ajaigarh-Naygaon-Kalinjar Road	12 miles
(5)	Semaria-Mohendra-Raipur Road	35 miles 2 Furlongs
(6)	Bridge across Ken.	

The Forest Department

The forests occupy 1777 sq. miles of the area in the district and are divided into two divisions viz. Panna north and Panna south, each under a Divisional Forest Officer. (Also please see under Forests p. xxxviii)

The Irrigation Department

The district falls under the charge of the Executive Engineer Irrigation with his headquarters at Nowgong. Two sub-divisions are however located at Panna viz. Irrigation Sub-Division and Minor Irrigation Sub-Division. The irrigation is mostly from Government Canals and the department figures reveal that 5,733 acres were irrigated in 1964-65 by canals alone. The

(1) The Central India State Gazetteer Series, Panna State, by Capt. C. E. Luard (1907), p. 31.
(2) Imperial Gazetteer of India, Vol. V, 1908 p. 132.
(3) The Central India State Gazetteer Series, Panna State, by Capt. C. E. Luard (1907), p. 17.

area under irrigation has shown an upward trend each year. Some of the important irrigation projects are listed below:—

Name of Project	Tahsil	Gross Area Irrigated (in acres) 1964-65	Remarks
1. Lok Pal Sagar	Panna	1,158	S. Nos. 1 to 7 were old State tanks
2. Dube Tal	„	114	
3. Brijpur Tank	„	205	
4. Itwa Tank	„	90 (60-61)	
5. Sunhera Tank	„		
6. Guner Tank	„	1,411 (60-61)	
7. Ranital	Ajaigarh		
8. Konhi meir Weir	Panna		S. No. 8 to 20 are II Five Year Plan works and have been completed.
9. Badagaon Weir	Panna		
10. Ranipur Weir	Panna		
11. Sawaiganj Weir	Panna		
12. Baraich Tank	Panna		
13. Damari tank Weir	Panna		
14. Sumlaha	Pawai		
15. Ramkheriya	Panna		
16. Teroni Weir	Ajaigarh		
17. Daulan Chowki	Panna		
18. Pawaiya Tank	Panna		
19. Majhgawan Tank	Panna		
20. Anderkha Tank	Panna		

The N. E. S. Coverage

The entire district has been covered by the N.E.S. Blocks, the first of which was started on 2-10-53. The details of the others are:—

Name of the Block.	Tahsil	Date of commencement	Total No. of villages.	Area in Sq. miles	Remarks.
1. Panna	Panna	2–10–53	233	605	Started as C.D. reverted to P.I. on 9-10-59 and to post stage II on 1-4-63.
2. Gunor	Panna	2–10–56	258	467	Post stage I, Extended upto 30-9-63.
3. Ajaigarh	Ajaigarh	1–4–58	128	235.6	Post stage I, Extended upto 31-3-64.
4. Shahnagar	Pawai	2–10–60	264	591.5	Post stage I.
5. Pawai	Pawai	2–10–62	213	432.2	P.E.

The Education Department

The position regarding education at the beginning of the twentieth century in Panna is reproduced below[4]

"Before the present administration was set on foot, one State school teaching English and vernacular at Panna town and few private institutions, were the only means of obtaining education in the State. There are now 53 schools, of which 11 are State-aided. The department is under the Revenue department, the school being regularly examined by an inspector. At Panna, English is taught as well as the vernaculars; in the districts schools only vernacular. The number of pupils is about 2,000, the daily attendance 1,400, the cost per pupil being about Rs. 3-12-7.

A Sardar's Boarding House has been established to encourage jagirdars to send their sons to school. No fees are charged, the Darbar bearing the expenses of feeding and clothing of the boys. Forty-eight boys are at present (1907) attending."

With regard to Ajaigarh, the following extract from the Imperial Gazetteer of India, Vol. V, p. 32 is of some interest as it also relates to the same period:—

"Four schools are maintained, including one primary school, attended by 67 pupils."

There has been great expansion of educational facilities during the decade. The Degree College at Panna was established as a result of the upgrading of the Inter College. The number of primary schools has more than doubled itself rising from 131 in 1951 to 365 in 1960 and the number of male scholars increased by more than three times going up from 3,717 in 1951

(4) The Central India State Gazetteer Series, Panna State Gazetteer, by Capt. C. E. Luard, p. 31.

to 13,222 in 1960. The table below indicates the phenomenal progress of the decade.

Year	Primary or Junior Basic Schools.	Students		Teachers	
		Males	Females	Males	Females
1951	131	3,717	107	165	18
1960	365	13,222	2,056	761	62

Under each category the progress has been remarkable.

The Co-operatives[5]

The Co-operative movement in the district started only after the formation of Vindhya Pradesh in 1949. By the time the new State was formed in 1956, there were a total of 54 Co-operative Societies in the district. The movement gathered more momentum during the Second and Third Five Year Plans. Efforts have also been made to train officials in the Co-operatives. There are now 284 Co-operative Societies of all types their details being:— Service Co-operative 174, Large Sized Societies 10, Better Farming 10 and Non-Agricultural Credit Societies 71; and as many as 72% of the villages are covered by the Co-operative movement. As many as 20% of the total famlies in the district have so far been covered.

The Agriculture Department

An Assistant Director of Agriculture is posted at Panna for carrying out the departmental programmes. The general pattern of crop rotation is:—

(a) Paddy followed by fallow during Rabi.

(b) Paddy followed by wheat.

(c) Paddy followed by gram.

(d) Wheat followed by fallow during kharif.

(e) Gram, linseed followed by fallow (kharif).

All types of grain except cotton, bajra, and late paddy is sown besides pulses like arhar.

The Diamond Mines

Regarding Diamond mines in Panna an extract from the Imperial Gazetteer is reproduced:[6]—

"The Panna diamond mines have been known since the seventeenth century. It is possible that they may have been worked in much earlier days, but had fallen into disuse. A systematic excavation for stones, however, was commenced in the time of Raja Sobha Singh, due, it is said, to the advice of the preacher Pran Nath. The diamonds occur in the Rewah conglomerate and in alluvial beds. In the former case they are dug out of pits varying in depth from 3 to 30 feet. No large diamonds have ever been taken from the mine, though Hamilton (1813) mentions that a stone supposed to be worth Rs. 50,000 was in the possession of the Raja. The stones are often of great purity. Pogson, who attempted to work a mine, arranges them in four classes, according as they are clear, orange-coloured, blackish, or greenish. In 1750 the State is said to have received Rs. 4 lakhs a year from this source, but the income has now diminished, the deposit having apparently been exhausted. The present income is about Rs. 7,000. The actual miners are mainly Gonds and Kols, but the work is financed by merchants from Gujarat."

Diamonds

There are three types of diamond deposits in Panna Diamond Fields:— (a) Pipe, (b) Conglomerate, (c) Surface gravel according to Soviet experts.

Estimated Reserves

(1) Diamonds:— According to Soviet experts report, the total reserves of the Majhagawan Deposit upto the depth of 1,000 feet may be expected at about 55 million tons, with diamond content about 3 million carats valued at 390-400 million rupees.

The deep alluvial deposits, though not systematically prospected, according to Soviet Specialists report may come to about 1 million tons, yielding 170,000 carats of diamonds valued at Rs. 30 million. The potential of water-logged deposits along the Baghen River is estimated to be worth Rs. 120 million at 30 carats per 100 tons of ores. Diamondiferous conglomerate Deposits (Shabidan) are estimated to contain three million tons of ore with a potential of 750,000 carats of diamonds valued at Rs. 187.5 million.

The diamonds extracted from the mines are at first deposited with the Government and are ultimately auctioned in public, the owner getting 80% of the value and the Government retaining 20% of it as royalty.

Similarly all stone produced is also made available for sale after licensing fee has been recovered by the Government. The Collector issues a lease for prospecting in the shallow mines.

Re: Diamonds & General Description

The area from Chatarpur to Kalinjar in Madhya Pradesh has been known to be of diamondiferous from times immemorial. The area was being worked by the private mine owners and the production was alomst negligible. Out of the mines in this area, Majhgawan and Ramkheria are important. The Majhgawan Mine was being worked out by a private Company M/s Panna Diamonds Syndicate Ltd., while the Ramkheria Mine was being worked by M/s Hazi Ali Mohd. & Sons.

5. Based on details supplied by Assistant Registrar, Co-operatives, Panna and covers the period upto 30-6-64.
6. Imperial Gazetteer of India, Vol. XIX, p. 402.

The improvement of the diamond industry has been under the consideration of Government of India and preliminary investigations to find out the reserves and economic feasibility was conducted by the Indian Bureau of Mines and Geological Survey of India. It was finally decided that the mines at Ramkheria and Majhgawan be taken by the Government in 1959. This Project — Diamond Mining Project — was assigned to National Mineral Development Corporation Limited, a Government of India Undertaking.

The project undertook detailed prospecting of the entire diamondiferous belt to examine the reserves and economic possibility. It was then decided to take up the work on the mines at Majhgawan and Ramkheria. The Project Reports for the exploration of diamondiferous tuff at Majhgawan and gravel at Ramkheria were framed by the Indian Engineers and approved by the Government of India. Since the diamond mining is the first of its kind in Asia, M/s John Taylor & Sons, London were appointed as Consultants to assist the Corporation on all aspects connected with the prospecting and establishment of mines in this area. The consultants expressed the view that further prospecting was required at both the mine sites and additional prospecting at Majhgawan was completed by June, 1963. With further data in hand revised Project Reports were submitted to the Government which have been approved by the Government of India in January, 1965.

The detailed prospecting at Ramkheria has also been undertaken in two stages, first. 5 sq. mile area and then the rest of the area. This is in progress.

Majhgawan Mine. The Majhgawan Mine is located at 15 miles from Panna and is connected by fair-weather road — 9 miles from Bakchur which is 6 miles from Panna on Panna-Chatarpur main road.

It is a volcanic pipe and the lava is stated to have brought with it the diamond deposits and this lava is called conglomeratic tuff in geological terms. The pipe is about 1,000 ft. wide × 1,500 ft. long and is pear-shaped in plan. The existence of the tuff has been found to a depth of 315 ft. The existence of diamonds has been verified upto a depth of 100 ft. by taking different samples. The average existence of diamonds has been of the order of 10 carats per 100 M. tons of tuff. The project envisages mining of the tuff upto a depth of 100 ft.

A dam with a capacity of 500 million gallons has been constructed for providing water supply for washing the ore as well as providing water supply for the township. The work on the 150 quarters colony is in progress. The stripping of over burden with the help of earth moving machinery is also in progress.

The Majhgawan Mines Project is expected to cost Rs. 2.25 crores and will have an output of 30,000 carats per annum which in the present day rate is expected to cost Rs. 1.25 crores. The mine is expected to go into production by middle of 1967. The existance of diamondiferous ore has been proved upto 315 ft. depth. Further prospecting of the pipe at 300 ft. level at an estimated cost of Rs. 15 lakhs has been taken up. Two shafts of 10′×8′ are being sunk at 300 ft. depth and to be inter-connected at that level. Cross tunnels and drivages totalling 8,000 R. ft. are expected to be driven. The shafts have gone to a depth of 160 ft. and 103 ft. and the work on these is in progress. The prospecting operations are expected to be completed by the end of December, 1967. Depending upon the results of 300 ft. level expansion programme will be chalked out as in any mining industry prospecting for further results is an essential thing. In addition to the Majhgawan Pipe, two different pipes near Hinota and Kharia Villages have been located and detailed prospecting are to be taken up in due course.

Ramkheria Mines

Ramkheria, is situated nearly 20 miles away from Panna on the Panna-Paharikheria Road. Diamondiferous conglomerate has come out by Baghin River about 2 miles upstream of Ramkheria. The erosion of the area is considered to be the source of the gravel deposit by the river. The gravel deposits vary in the thickness overlaid by earth-20 ft. to 30 ft.

Further exploration of the gravel deposits of Ramkheria Mine is being done in 2 phases. The first phase prospecting covers an area of ½ sq. mile and has been completed. The second phase extends over an area of 7 to 8 sq. meters on the upstream.

The prospecting has proved reserves for establishment of a mine with an annual output of 12,500 carats per annum. Some rich deposits of gravel are being worked out by some mechanical methods.

Nearly 800 carats were sold by public auctions at Panna during 1964 fetching 3.60 lakhs. Since the market at Panna being very limited so as to build up a bigger market, the second auction was conducted in Bombay in 1965 when 1200 carats were sold for Rs. 4.50 lakhs. Another auction is proposed to be held soon when about 4,000 carats are proposed to be auctioned.

The Development of Fisheries

An office of the Assistant Fisheries Officer was opened for the first time in 1956 and the introduction of major carps commenced. There are as many as 40 inland tanks in the district. The following tanks and nurseries have been taken up at present for studies:—

(1) Tanks:— Lokpal Sagar, Dharam Sagar, Beni Sagar, Kamla Tal, Dubey Tal.

(2) Nurseries:—Pathariya Talaiya, Sundar Talaiya, Maharaj Sagar, Mirja Raja Talaiya, Beni Sagar nurseries (to be constructed), Ram Talaiya.

There is an old Fishermans' Co-operative Society of Panna at Kunjban. The members are mostly refugees from East Bengal. One more Society is being formed.

The Central Inland Fisheries Research Institute Barrackpore has decided to establish a sub-unit and fish-farm at Panna. The following varieties of fish are found: –

Carps

(1) Catla catla/Labeorohita.
(2) Cirrhina Mrigal, Mahasheer.
(3) Barbus sarane, Labeo finebrimatus.

Live Fish

(1) Ophicephalu Marulius
(2) „ Striatus.
(3) „ Sachua.
(4) „ Punctatus.

Cat Fishes

(1) Wallayunia attu.
(2) Myatusen ghala.
(3) Mytus aor.
(4) Silonia Silundia.

Feather Backs

(1) Notopterus chitala.
(2) Notopterus notopterus.

Local Bodies (Urban)

A municipality at Panna was established in 1921. Prior to this there was a conservancy committee. When the municipality was founded, its first Executive Officer was the Magistrate of the city. Upto 1948 it functioned as a part of the government of the State. Thereafter in 1949 Rewa Municipality Act was extended to it and elections introducted. After the formation of new State, the Madhya Pradesh Municipalities Act 1961 was made applicable on 1-2-1962. It is a III Class Municipality as per new Act. At present 14 Councillors are elected directly and 3 are nominated by those elected. The municipal revenue have shown an upward trend and in 1963-64 stood at Rs. 132,836.51 paise only. Among conveniences provided are street lighting and water taps.

Rural

There were no panchayats during the State time. After the formation of Vindhya Pradesh Gram Panchayats were constituted, under Vindhya Pradesh Gram Panchayats Ordinance 1949 (Act 24 of 1949) and amended in 1955. There was a Gram Sabha for every village or a group of villages, All adults were its members and one of them was elected as Sarpanch and another up-Sarpanch. Gram Sabha was a general body and its working committee was the Gram Panchayat whose Sarpanch and up-Sarpanch were the same as for Gram Sabha. The committee consisted of elected members 10 to 15 in number. Nyaya Panchayats were also established. These were purely judicial bodies hearing and disposing petty civil and criminal cases.

The table below gives the number of Panchayats then and now.

	Number of Panchayats under the			
	V.P. Gram Panchayat Act 1949		Mahdya Pradesh Act	
District & Tahsil	Gram Panchayats	Nyaya Panchayats	Gram Panchayats	Nyaya Panchayats
1	2	3	4	5
Panna District	209	64	177	33
Pawai Tahsil	110	32	81	13
Ajaigarh Tahsil	26	8	40	6
Panna Tahsil	73	24	66	14

Water supply

The Public Health Engineering Department looks after the water supply of Panna town; and an Assistant Engineer is posted here. The capacity of the tank is about 100,000 gallon per day.

The Electric Power Supply

The electric power is supplied exclusively by the Madhya Pradesh Electricity Board. An Assistant Engineer has been posted at Panna. Panna town was electrified earlier. In the Second Five Year Plan period Ajaigarh was electrified. During the Third Plan period the following villages have also been electrified: Devendranagar, Kumarpur, Sundra, Baherai Badera, Badwara, Itwa, Mahewa, Barachh, Amanganj in Panna tahsil and Pawai in Pawai Tehsil.

Other offices

The following other offices are also located at Panna: (1) Executive Engineer, Survey and Investigation Division, (2) Employment Exchange, (3) District Publicity Office, (4) District Livestock office, (5) District Statistical Office, (6) Tribal Welfare and Panchayat office and (7) Office of the Assistant Director of Industries.

III
THE PEOPLE

The Growth of Population

During the last sixty years the population has increased by 100.23% or by 16.71% per decade. The rate of growth is considerably higher than that for Rewa division 67.73% and slightly higher than that for the State 92.00%. The percentage variation for the population has been:—

	Percentage Variation of Population 1901–1961						
District	1901-61	1951-61	1941-51	1931-41	1921-31	1911-21	1901-11
Panna	+100.23	+27.57	+ 4.19	+ 15.85	+ 6.12	- 2.08	+25.13

The details of the above variation are indicated below:—

Table[7] – Showing Variation of Population in last Sixty Years.

Year	Population Persons	Variation + Increase - Decrease	Percentage variation		
			Panna District.	Rewa Division.	State.
1901	165,440	...	...	...	...
1911	207,021	+ 41,581	+ 25.13	+ 11.80	+ 15.30
1921	202,725	- 4,296	- 2.08	- 8.93	- 1.38
1931	215,137	+ 12,412	+ 6.12	+ 9.28	+ 11.39
1941	249,226	+ 34,089	+ 15.85	+ 13.59	+ 12.34
1951	259,659	+ 10,433	+ 4.19	+ 6.46	+ 8.67
1961	331,257	+ 71,598	+ 27.57	+ 24.65	+ 24.17

Regarding the population Capt. C. E. Luard in the State Gazetteer remarked:—

"Three enumerations have taken place giving in 1881, 227, 306; 1891, 239, 333; 1901, 192, 986. A decrease of 19 percent thus, took place between 1891 and 1901. The density is only 81 persons to the square mile."[8]

The decrease was due to famine.

The Decade — 1901-11

The decade was fruitful and the population showed an increase of 25.13% which was much higher than that for Rewa division 11.80% or State 15.30%. The 1901 Census was taken in the wake of a famine and during such periods, the population often moves away to more congenial areas. This population after the calamity, returns. The decade was generally helpful to the growth although some local distress was caused by the vagaries of seasons. Yet there was no general famine and agricultural conditions were on the whole good. Despite the increase in Central India Agency of which Panna of to-day, was then a part, Luard, the Census Superintendent felt that, the Central India could sustain more population. He wrote [9]:—

"One thing is clear and that is that the fertile soil of Central India could easily support a much larger population; will it ever do so? The historical events of the eighteenth and nineteenth centuries by dividing the Agency up into innumerable small holdings have introduced a state of affairs which militates very seriously against any considerable rise in numbers. Excluding natural calamities, which after all are only temporary in their effect, political conditions are in Central India the real bar to a general expansion of the population. Administration, therefore, and the circumstances which affect its efficiency are far more potent factors in determining conditons of population in this area than rainfall or other natural conditions."

Thus despite good conditions of growth the administrative set up did not encourage the growth of population.

7. Census of India, 1961, Vol. VIII — Madhya Pradesh, Part II-A — General Population Tables by G. Jagathpathi, pp. 122-123.
8. The Central India State Gazetteer Series, Panna State Gazetteer, by Capt. C. E. Luard, p. 16.
9. Census of India, 1911, Vol. XVII — Central India Agency, Report and Tables Vol. by Capt. C. E. Luard, p. 14.

The Decade—1911-21

All the districts of Rewa division lost heavily in population during the decade. Although the first half and the eariler part of the second half were fairly normal and generally contributed to the growth of population, but pestilence struck in the last few years of the decade and men, women and children perished in large numbers. The eastern part of Central India suffered from scarcity of rains in 1913, 1918 and 1920 but it was influenza epidemtic of 1918 which played havoc. It was Luard's third and last Census of the Agency and he wrote[10]:—

"We come next to the Influenza epidemic of 1918. It is necessary to describe this in detail . Even in British India where far more efficient arragements were feasible the death toll was enormous. In States, many with scattered units of area, less efficient machinery, and what there was almost paralyzed by the epidemic, few railways and roads and many jungle tracts, the impossibility of reaching the sick was greatly accentuated. The Central Provinces returned 6 percent of its people as killed by this disease and in Central India 6 percent was estimated, that is, between 4 and 5 hundred thousand deaths but it may have been higher and certainly the proportion in the less civilised tracts was much higher. Baghelkhand returned 200,000 deaths or over 11 percent of the population; 90 percent of the population is estimated to have been attacked. The disease which spared neither high nor low claimed the Maharaja of Rewa as a victim while its effect on the birth rate was accentuated by the liability of pregnant women to be attacked. The record of deaths as obtained is certainly below the truth."

Agency	*Deaths*	*Percentage on total Population*
Bundelkhand	50,400	3.9

The dark decade thus came to a sullen close.

The Decade — 1921-31

There was 6.12% increase in the population when compared to Rewa and State growth of 9.28% and 11.39% respectively. The rate appears somewhat less. The fact was that the rate of growth after the severe epidemic was slow. CS. Venkatachar the then Superintendent of Census Operations writing about Bundelkhand Agency wrote[11]:—

"East of Dhasan upto the Panna hills the States of Charkhari, Chhatarpur, Bijawar, Panna and Ajaigarh are all fragmented in various degrees. A greater part of Panna lies on the Vindhyas, known as the Panna range. Charkhari has 9 detached portions 8 of which are enclosed in the British district of Hamirpur. Ajaigarh is much cut up by hills and valleys. Three of the four parganas in Bijawar are cut up by the series of jungle covered spurs which shoot out from the Panna range. Only the greater part of Chhatarpur State lies on a level plain, covered with trees and watered by numerous tanks. The remaining small States are dotted all over the map in a most confused manner. Bundelkhand is by no means a favoured region. It is subject to scarcity and drought. Communications are meagre and the tract has not yet been opened up. The States are still in a state of isolation and administration in most places requires levelling up. The soil is poor and nowhere is it of high fertility. Tanks are numerous but many are not in use. In the decade the first half was favourable and the economic and seasonal conditions were satisfactory. In the second half locust and frosts did damage in several parts. There was no serious scarcity or famine or epidemic anywhere. The conditions were normal on the whole. In the previous decade the Agency was badly affected by the Influenza epidemic and the recovery in most places has been slow".

The 1931-41 Decade

The growth was 15.85%, slightly more than Rewa division 13.59% and State 12.34%. During this period the growth in Satna and Rewa districts which are nearby was also higher being 15.41% and 14.44% respectively. Excepting Chhatarpur (+6.92%) all other districts show a higher rate of growth. The conditions during the decade were fair and helpful for growth.

Tje 1941-51 Decade

This was a period of low growth rate 4.19% only but this was so throughout the division, which witnessed great political changes. As in the first War the Chhatrasal Infantry from Panna was sent abroad and it suffered casualities. The growth rate therefore compares favourably with the other districts.

The 1951-61 Decade

During this decade the population grew by 27.57% which represents the highest rate of growth for any district in Rewa division. Panna is closely followed by Shahdol which registered a 27.49% increase. Shahdol is on the railway line and comparatively better connected to the coal region; hence with the opening up of the coal fields, the rate of growth may naturally be expected to go up. Panna, in this respect is more secluded in its wilderness. During the decade, however, the settling of refugees from East Bengal in Pakistan was undertaken and vigorous efforts to control malaria, have yielded good results. In 1951, N.K. Dube, Superintendent of Census Operations wrote about the prevalence of malaria and it had its debilitating effect on the general vitality. He wrote[12]:—

"No vital statistics are available. In the decade there was no serious epidemic and there was no famine. Cholera appears in summer and after the rains in the

10. Census of India, 1921, Vol. XVIII — Central India Agency Report and Tables Volume, by Col. C. E. Luard, p. 5.
11. Census of India, 1931, Vol. XX — Central India Agency, Part I — Report, by C. S. Venkatachar, p. 29.
12. Census of India, 1951, Vol. XVI — Vindhya Pradesh, Part I — Report, by N. K. Dube, Superintendent, Census Operations, Vindhya Pradesh, p. 30.

towns and spreads to the neighbouring villages. Inoculation against cholera and plague are given in the towns to only a part of the population. Malaria takes its usual toll every where. There is hardly any villager who does not suffer from Malaria during September and October and suffers from its effects for 2 or 3 months. Agricultural operations suffer very much on account of malaria. Quinine and Cynchona and now Pallydrine and Mapachrin are available to the educated people of the towns. The villagers depend to cure their diseases on herbs and prayers to the village deities. Total number of hospitals and dispensaries in Vindhya Pradesh is 101 which means that there is one dispensary for 35,393 population. Drinking water supply in the villages is very unsatisfactory. More than 90% of the wells in the villages have never been chlorinated. There are a large number of villages where there are no well sand the forest people have to depend on brooks and small streams for supply of drinking water."

Now with malaria having been effectively checked, the vitality having been improved, the longevity seems to go up. The expansion of medical facilities in general contributes for the growth. The growth of 2.7% per year is indeed somewhat high; for in less than 40 years the population would double itself.

The Growth in Urban Areas

The inset table below gives the number of towns in the district during the last sixty years.

Name of District	Number of towns in						
	1961	1951	1941	1931	1921	1911	1901
Panna	1	5	2	2	2	1	1

Panna has been a town throughout. Ajaigarh was added later. In 1951 Devendranagar, Amanganj and Pawai were treated as towns for the first time. In 1961 all of them were de-classified, Thus the classification of towns as urban areas has been somewhat unsteady.

The table given earlier indicates that during the 1951-61 decade the population in urban areas registered a loss of 24.26%. This is due to de-classification of the 4 villages mentioned above. What is true of Panna holds good for Rewa division in general. In 1951, in the area comprised in the present Rewa division (which now excludes Datia district) there were 59 towns, as against 18 in 1961. There has been a loss of 24.26 % population in urban areas during the decade.

The table below gives the growth and population variation for Panna town.

Table—Showing the growth, variation in population for Panna Town, District Panna.

Town	Area	Year	Persons	Decade Variation (+ Increase —Decrease)	Percentage Variation. (+Increase —Decrease)
Panna	0.53 sq. mile or 1.37 sq. kms.	1901	11,346	...	...
		1911	10,756	— 590	— 5.20
		1921	10,106	— 650	— 6.04
		1931	10,913	+ 807	+ 7.99
		1941	13,375	+2,462	+22.56
		1951	12,244	—1,131	— 8.46
		1961	16,737	+4,493	+36.70

In 1911, 1921 and 1951 the population suffered a loss, but for that the growth had been steady.

The Area Figures

In 1951 the area figures were those supplied by the Surveyor General, India and the tahsil figures those, supplied by the Collector. (The tahsil figures were suitably adjusted to tally with the district figures). In 1961 the figures supplied by the State Survey Department have been taken in our Part II-A, General Population Tables (pp. 57 and 61). Since the area figures for forests were not available tahsilwise, these were not included in tahsil area figures as given in Part II-A. The Director of Land Records thereafter has issued revised area figures corrected upto 1962-63.

A comparative statement is appended below:—

District/ Tahsil.	Area figures in Part II-A based on State Survey.	Area figures received from Director of Land Records (1962-63)	
Panna Distt.	2,785.0	2,546	
Ajaigarh Tahsil	235.2	323	
Panna Tahsil	1,070.1*	1,070	*including 0.5 sq. mile of urban area
Pawai Tahsil	1,153.4*	1,153	*This excludes 326.3 sq. miles of Forest area

Rural Areas

The growth in rural areas has been discussed under general growth.

The Tahsils and Villages

In the former Panna State, upto 1902 there were 11 tahsils *viz.* (1) Panna, (2) Singhpur, (3) Pawai, (4) Shahnagar, (5) Simaria, (6) Raipura, (7) Buxwaha, (8) Malahra, (9) Dharampur, (10) Aktohan and (11) Birsinghpur. These were later combined to form seven tahsils Panna, Pawai Mahodra (Simaria and Raipura) Malahra, Dharampur, Aktohan and Birsinghpur.

Consequent to the formation of the State of Vindhya Pradesh, Panna had only three tahsils *viz.* Ajaigarh, Pawai and Panna the salient features of which are:—

Name of the District/Tahsil.	Area in sq. miles	Population	Persons per sq. mile
Panna District	2,546 [13]	331,257	130
Panna Tahsil	1,070	143,741	134
Pawai Tahsil	1,153	131,371	114
Ajaigarh Tahsil	323	56,145	174

Ajaigarh and Pawai tahsils have no towns. From the above it follows that though Ajaigarh is smallest in area, the concentration of population, (in a district which appears sparsely populated) within the distrct is highest in Ajaigarh. In Pawai and Panna tahsils the forest area is quite considerable.

The Villages

A village in the district on an average occupies 2.32 sq. miles of area and supports 337 persons. Comparable figures for the State and Rewa division are 2.21 and 1.83 sq. miles and 394 and 375 persons per village respectively. Thus a village in Panna district is bigger in area but supports less population than a village in the State and Rewa division.

As among the tahsils, a village in Ajaigarh is smaller in area but contains more population per village. The inset table below indicates the position.

District/Tahsil	Persons per Village 1961	Persons per Village 1951	Variation	Area per Village*
1	2	3	4	5
Panna District	337	251	+86	2.32
Ajaigarh tahsil	464	377	+87	2.52
Panna Tahsil	317	251	+66	2.18
Pawai Tahsil	319	244	+75	2.42

In all tahsils the density has increased; the highest increase having taken place in Ajaigrah tahsil.

The villages as may be inferred from above are comparatively less populated and hence are likely to be most numerous in the category of less than 500 persons. The table below gives the percentage of villages and population with the decade variation.

Table – Showing the Percentage of Villages and Population by Class of Villages

District	Year	Less than 500		500–999		1,000–1,999		2,000–4,999	
		Percentage of No. of villagaes in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population
1	2	3	4	5	6	7	8	9	10
Panna	1961	80.41	45.04	14.45	29.76	4.18	17.01	0.96	8.19
	1951	89.33	62.33	8.23	23.15	2.24	12.64	0.20	1.88

The table further reveals that the villages in 500 to 999 persons have increased from 8.23% to 14.45%. Similar increase is also noticeable in the villages returning 1,000 or more persons.

13 Area figures relate to 1962-63 and have been made available by the Director of Land Records. They differ slightly from those published earlier in part II-A, General Population Tables.

* Calculations are based on revised area figures 1962-63 and differ slightly from those published earlier. For the revised area figures please see p. XXXIV.

There are 1,096 villages in the district out of which 934 are populated; the tahsilwise details being:—

District/Tahsil	Total Villages	Populated	De-populated
Panna District	1,096	934	162
Panna Tahsil	491	401	90
Pawai Tahsil	477	412	65
Ajaigarh Tahsil	128	121	7

In 1951 there were 982 inhabited villages. The number of uninhabited villages in 1951 is not easily available. Out of these 982 villages, as many as 18 (9 each in Panna and Pawai tahsils) had a population of less than 10 persons. The details are:—

Panna District	982
Pawai Tahsil	443
Panna Tahsil	426
Ajaigarh Tahsil	113

The Houses

In 1951 there were 4.42% persons per occupied house as against 5.07 in 1961. Congestion per house has obviously increased. The decade growth is as follows:—

District	Total number of Occupied houses 1951	1961	Variation +Increase —Decrease	Percentage
Panna	58,538	65,378	+6,840	+11.68%

The increase in housing being 11.68% as against 27.57% in population, it follows that pressure on housing has increased during the decade. The number of persons per occupied house is indicated below:—

Persons per House.

Panna District	5.07	(1951 — 4.42)
Ajaigarh Tahsil	5.32	
Panna Tahsil	5.02	
Pawai Tahsil	5.02	
Panna Town	5.22	

As may be expected the pressure is highest in urban Panna. Among the tahsils Ajaigarh which is more densely populated also has a slightly higher pressure on housing.

The House Material

Generally houses are made of mud walls covered with local tiles. In Panna town, however, stone is used for the walls. This is followed by unburnt and burnt bricks for walls. In the rural areas of Pawai and Panna tahsil, stone is also used for walls. For roof, apart from tiles, grass is also used.

Out of 1,000 houses 45 are vacant, 646 used as dwellings, shop-cum-dwellings, workshop-cum-dwellings. In Pawai tahsil only 39 are vacant. The details regarding the uses to which these are put, are given in table E.-I.

The Proportion of Sexes

There were 938 females per 1,000 males in 1961. This figure shows that, when compared to Rewa division (950) or State (953) there are less females per 1,000 males in the district. There have always been less females than males in the district but at no time did they fall below the 1961 figure. The variation has been as under:—

Panna District

Total/ Rural/ Urban/	Females per 1,000 males 1961	1951	1941	1931	1921	1911	1901
Total	938	941	965	968	966	974	990
Rural	940	941	968	971	966	973	990
Urban	900	936	935	928	969	1,006	990

Eversince 1901, the number of female births as compared to male births has been going down, the downward trend persisted till 1921 when the following decade returned slightly higher proportion of females only to go down in the following decade.

This low proportion of females is a characteristic feature of the region: the position with regard some adjoining districts is:—

District	*Females per 1,000 males*
Chhatarpur	891
Damoh	965
Jabalpur	924
Satna	965
Banda (U. P.)	905

The proportion of females in Panna district is more or less in conformity with its neighbours.

Among the Scheduled Castes and Tribes the proportion is somewhat higher being 988 and 973 respectively.

Marital Status

The table below gives the details of the marital status.

Panna District 1961 — Marital Status

Age-Group	Total Population		Never Married		Married		Widowed		Divorced or Separated		Unspecified Status	
	M	F	M	F	M	F	M	F	M	F	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13
All ages	100	100	47.71	37.15	47.66	50.46	4.30	12.16	0.33	0.23	...	...
0–9	100	100	100	100	...	...	...	...	...	...	...	...
10–14	100	100	79.58	50.66	20.21	49.04	0.18	0.26	0.03	0.04	...	...
15–19	100	100	47.98	6.45	51.11	92.73	0.66	0.64	0.25	0.18	...	...
20–24	100	100	22.36	0.58	75.51	97.97	1.51	1.19	0.62	0.26	...	...
25–29	100	100	10.89	0.60	86.27	96.32	2.03	2.71	0.81	0.37	...	...
30–34	100	100	7.58	0.30	88.56	91.64	3.22	7.59	0.64	0.47	...	...
35–39	100	100	5.44	0.15	89.11	87.62	4.81	11.69	0.64	0.54	...	...
40–44	100	100	5.74	0.11	85.21	73.13	8.40	26.11	0.65	0.65	...	...
45–49	100	100	4.97	0.07	82.55	62.37	11.92	37.10	0.56	0.46	...	...
50–54	100	100	4.23	0.03	78.25	42.28	17.08	57.14	0.44	0.55	...	...
55–59	100	100	4.49	0.09	73.76	39.53	21.44	59.95	0.31	0.43	...	...
60–64	100	100	3.75	0.16	67.67	19.45	28.05	80.14	0.53	0.25	...	...
65–69	100	100	4.99	...	60.58	15.13	34.19	84.60	0.24	0.27	...	...
70+	100	100	3.61	0.12	48.17	6.91	47.99	92.80	0.23	0.17	...	...
A.N.S.	100	100	69.77	82.93	20.93	12.19	9.30	4.88	...	...	...	...

Persons in the age group 0-9 were tabulated as never married. The fact that in 10-14 age group as many as 49.04% among females are married, and 0.26 widowed; the possibility of the marriage of females in the 0-9 age group cannot be ruled out. Among the males, however, since only 20.21% in 10-14 age group are married, the possibility of early marriage, is somewhat remote though it also cannot be ruled out entirely.

The percentage of marriage among the females shoots up in 15-19 age group and remains over 90% upto 30-34 age-group, although in this age-group 7.59% are widows as well. The number of married women begins to go down after 35 and as this goes down, the percentage of widows goes up reaching 92.80% in 70+ age group.

Among the males 477 out of 1,000 are married and in 15-19 age group over half 51.11% are married. It is however in the 35-39 age group that 89.11% or the highest for any age group, are married. The percentage of widowers begins to go up from 50-54 touching 47.99% in 70+ age group.

Migration

The table below gives the details regarding migration:—

Migration — 1961

Birth Place		Population	Percentage
District	Total Population	331,257	100.00
Born in place of Enumeration		222,108	67.05
Born elsewhere in the district of Enumeration		75,821	22.89
Born in other districts of the State		25,311	7.64
Born in Contiguous districts		22,679	6.85
1. Chhatarpur		7,519	2.27
2. Satna		6,516	1.97
3. Jabalpur		4,836	1.46
4. Damoh		3,808	1.15
Born in non-contiguous districts		2,632	0.79
Born in other States of India		7,317	2.21
Contiguous States to the dist.		6,456	1.95
Born outside India.		625	0.19

From the above it follows that a little more than two thirds of the population has been more or less im-mobile having been born and enumerated in the place of birth itself. If we add another 22.89% to this figure, then we have almost 90% of the population which has been born and has been living within the district. The flow from contiguous districts has contributed 6.85% population. Only 7,317 persons or 2.21% have come from other States in the country. Out of 625 persons born outside India 559 are from Pakistan followed by 65 from Nepal.

The Religion

The religious composition of the district has remained unchanged during the decade.

Religion — **1951-61**

Religion	1951 Population	1951 Percentage	1961 Population	1961 Percentage	Variation	Percentage
Total Population	259,659	100.00	331,257	100.00	+71,598	+ 27.57
Hindus	250,486	96.47	319,598	96.48	+69,112	+ 27.59
Muslims	6,806	2.62	9,366	2.83	+ 2,560	+ 37.61
Sikhs	14	0.01	139	0.04	+ 125	+892.86
Jains	1,383	0.53	2,055	0.62	+ 672	+ 48.59
Christians	9	Neg.	78	0.03	+ 69	+766.67
Others	5	Neg.	21	Neg.	+ 16	+320.00

During the decade the Muslims show a high rate of growth 37.61%. Though religious composition has not appreciably altered, yet the increase is of a high order. The Muslim population in Panna town is 2,874 persons — 1,507 males and 1,367 females, which is the highest for any unit, rural or urban. Thus their concentration is in the town. The Jains are mostly in Panna tahsil and the Sikhs in Panna town. Out of 78 Christians 48 are in Panna town and another 23 in Panna tahsil. The proportion of sexes religionwise is as below:—

	Females per 1,000 males.
Hindus	940
Muslims	887
Jains	887

Hindus have returned a higher sex ratio for the district. Among the Jains and Muslims the number of females falls to 887 per 1,000 males, which is indeed low.

Mother Tongue

As many as 27 mother tongues have been returned in the district. Out of these only six languages have 100 or more speakers; these are:— (1) Bengali 651; (2) Hindi 329,069; (3) Marwari 194; (4) Marathi 116; (5) Punjabi 211 and (6) Urdu 759. The only foreign language returned is English-3 speakers. The table below gives comparable data for the language returns 1951-61:-

Mother Tongue Returns — 1951-61

Name of Mother Tongue	1961 Persons	1961 Percentage	1951 Persons	1951 Percentage	Increase or Decrease Persons	Increase or Decrease Percentage
Total population	331,257	100.00	259,659	100.00	+ 71,598	+ 27.57
Hindi	329,069	99.34	258.552	99.57	+ 70,517	+ 27.27
Urdu	759	0.23	...	...	+ 759	+ 100.00
Bengali	651	0.20	7	Neg.	+ 644	+ 9,200.00
Punjabi	211	0.06	11	Neg.	+ 200	+ 1,818.18
Marwari	194	0.06	...	...	+ 194	+ 100.00
Marathi	116	0.04	1	Neg.	+ 115	+ 115.00
Sindhi	73	0.02	127	0.05	— 54	— 42.52

Among the mother tongues which have spurted during the decade, Urdu, Bengali, Punjabi, Marwari and Marathi deserve some mention. The Bengali speaking population is settled in rural areas of Panna tahsil and consists of almost entirely the refugees from East Bengal in Pakistan. The speakers of Urdu are mainly confined to Panna town where 572 out of 759 live. The rise of Urdu speakers has been somewhat unusual for in 1951 none returned Urdu as his mother tongue. The speakers of Punjabi and Marathi are also from urban areas, but Marwari speakers are found in rural tracts.

Literacy

In 1901, 1.4% of the population in Panna State was literate-corresponding data for Ajaigarh is not available, but there appears no reason to believe that literacy figure would be any higher. In 1961 there were 36,034 literates or 10.88%. The progress has been slow and 89.12% of the population still remains illiterate. There has been a cent percent increase in the number of literates as would be obvious from the table presented below:—

Variation of Literacy – 1951–1961

District/ Tahsil	T R U	1961		1951		Variation	
		Number of literates	Percentage	Number of literates	Percentage	Persons	Percentage
Panna Distt.	T	36,034	100.00	16,839	100.00	+ 19,195	+ 113.99
	R	29,214	100.00	11,959	100.00	+ 17,255	+ 144.28
	U	6,820	100.00	4,880	100.00	+ 1,940	+ 39.75
Ajaigarh Tahsil	T	5,756	15.97	3,441	20.61	+ 2,315	+ 67.28
	R	5,756	19.70	3,441	29.00	+ 2,315	+ 67.28
Panna Tahsil	T	20,223	56.12	9,750	57.94	+ 10,473	+ 107.42
	R	13,403	45.88	4,870	40.63	+ 8,533	+ 175.22
	U	6,820	100.00	4,880	100.00	+ 1,940	+ 39.75
Pawai Tahsil	T	10,055	27.91	3,648	21.64	+ 6,407	+ 175.63
	R	10,055	34.42	3,648	30.37	+ 6,407	+ 175.63

The break-up of 100 literates in the district is as follows:—

T R U	Panna District	Panna Tahsil	Ajaigarh Tahsil	Pawai Tahsil
T	100	56.12	15.97	27.91
R	100	45.88	19.70	34.42
U	100	100	...	...

Thus within the district Panna leads in the number of literates.

Among the tahsils Pawai returns lowest literacy 7°65% closely followed by Ajaigarh 10°25% Female literacy is still poor in the district being 3°16% only.

The Age Tables

The table below gives a break-up of 100 persons in quinquennial age groups, figures for the State and sex ratio in these age groups is also given, for purposes of comparision.

Table – Showing Distribution of 100 persons by Age and Sex, Panna District – 1961

Age Group	Percentage of population in the age group						Sex Ratio	
	Panna District			Madhya Pradesh			Panna District	Madhya Pradesh
	P	M	F	P	M	F		
1	2	3	4	5	6	7	8	9
All Ages	100.00	51.6	48.4	100.00	51.2	48.8	938	953
0- 4	17.1	8.5	8.6	16.4	8.2	8.2	1,009	996
5- 9	13.7	7.0	6.7	14.3	7.3	7.0	957	966
10–14	10.2	5.6	4.6	10.1	5.4	4.7	839	847
0–14	*41.0*	*21.1*	*19.9*	*40.8*	*20.9*	*19.9*	*947*	*947*
15–19	8.7	4.7	4.0	7.9	4.1	3.8	848	929
20–24	8.9	4.5	4.4	8.6	4.2	4.4	974	1,069
25–29	8.7	4.6	4.1	8.8	4.5	4.3	888	939
30–34	7.1	3.8	3.3	7.4	3.9	3.5	880	897
15–34	*33.4*	*17.6*	*15.8*	*32.7*	*16.7*	*16.0*	*898*	*959*
35–39	5.6	2.9	2.7	5.8	3.1	2.7	922	878
40–44	5.2	2.6	2.6	5.2	2.7	2.5	1,014	950
45–49	4.4	2.3	2.1	4.2	2.2	2.0	901	886
50–54	4.1	2.1	2.0	4.0	2.1	1.9	933	908
55–59	2.1	1.1	1.0	2.1	1.1	1.0	908	903
35–59	*21.4*	*11.0*	*10.4*	*21.3*	*11.2*	*10.1*	*940*	*905*
60–64	2.1	1.0	1.1	2.4	1.2	1.2	1,087	1,080
65–69	0.8	0.4	0.4	0.9	0.4	0.5	1,175	1,157
70 +	1.3	0.5	0.8	1.8	0.7	1.1	1,407	1,373
60 +	*4.2*	*1.9*	*2.3*	*5.1*	*2.3*	*2.8*	*1,191*	*1,190*
A.N.S.	Neg.	Neg.	Neg.	0.1	0.1	Neg.	953	898

The table is compiled on data actually returned. The age grouping adopted suppresses to some extent the effect of age heapings in multiples of 5. This however is to some extent offest by the groupig adopted to represent the children, the young, the middle aged and the old, corresponding to 0-14, 15-34, 35-59 and 60+ groups.

Some characteristics of the table are that nearly 41.0% or two fifths of the population is in the youthful group and this is very much near the State figure of 40.8%. Nearly one third 33.4% of the population is in the age group 15-34. This is nearly in accordance with the State figure of 32.7%. The children and the young persons constitute about 74.4% of the total or nearly 3/4 of the population. Thus out of every ten persons at least 4 are under 14 years of age and another 3 to 4 are in 15-34 age group. The middle aged group 35.59 accounts for 21.4% or two out of 10 are in the above age group. In the old age group there are only 4.2% which is below the State figure of 5.1% which suggests low life-cycle in the district.

The Sex Ratio in the Age Groups

The above table also gives the sex ratio for age-groups. In the four years preceding the enumeration, female births outnumbered the male ones; and it is only in this age-group of children and younger people that the females outnumber the males. The low sex ratio 839 becomes glaring in 10-14 age group, which almost seems to suggest that the reversing of the 0-4 age-group process in a spell of 10 years. The low ratio in 848 in 15-19 age group underlines the fact that after the marriage girls move out. In the 15-34 age group, there appears a great imbalance of sexes with only 898 females per 1,000 males. This is fairly low. From 35 onwards the proportion of females begins to go up and is generally higher than the State figure. It is, however, in the old age group 60+ that females outnumber males, but this is in accordance with the general pattern of the State.

Distribution of 100 persons in age- groups

Changes in age composition if accurately measured are an accurate pointer to the trends of the population growth; whereas 1951 data was based on a 10% sample the 1961 is on the total count. Assuming that 10% of 1951 represented the entire, we offer the comparison. The table below gives the distribution of 100 persons by broad age-groups in the decade.

Table - Showing Distribution of 100 persons among Broad Age Groups in 1951, 1961.

Age Groups	Panna District		Madhya Pradesh.	
	1951	1961	1951	1961
Total Population.	100.00	100.00	100.00	100.00
0—14	39.36	40.99	38.3	40.8
15—34	33.59	33.40	33.4	32.7
35—59	22.95	21.40	23.1	21.3
60+	4.08	4.18	5.1	5.1
A. N. S.	0.02	0.03	0.1	0.1

The table reveals that among the children the proportion has increased by 1.63% as compared to State increase of 2.5%, remained steady in the young persons, declined by 1.55% in the middle aged and was stationery for old persons.

Vital Statistics

During the State time records of births and deaths were maintained by the Police Department of the State. The Chowkidars of each village went to the police station and gave the report to the Station Officer, who completed it for his charge and the same was sent to the State Surgeon. On the formation of Vindhya Pradesh, the panchayats had been enjoined to maintain these records through the Chowkidar. The Panchayat Inspector consolidated these returns and sent the same to the District Medical Officer who transmitted the same to the Director of Health Services. The panchayats however failed to tackle this job efficiently with the result that the statistics are not very accurate. Even during the times of the State, the collection has left much to be desired. At present the old system of collection of statistics by Chowkidars and reporting at police station has been revived.

The Civil Surgeon has supplied a statement of reported births and deaths from 1957 to 1960 and these are at Table 6-B.1. The total births and deaths given are:-

Year	Births	Deaths	Excess of births over deaths
1957	3,842	1,906	1,936
1958	4,515	2,527	1,988
1959	5,012	2,324	2,688
1960	1,443	410	1,033

The figures below indicate that excess of births have been to the order of 1,936, 1,988, 2,688 and 1,033 in 1957, 1958, 1959 and 1960 respectively. The sudden fall in 1960 becomes inexplicable. The coverage is by no means very exhaustive.

Year	TRU	Births			Deaths			Excess of births over deaths
		P	M	F	P	M	F	
1957	T	3,842	2,251	1,591	1,906	1,067	839	1,936
	R	2,879	1,721	1,158	1,174	641	533	1,705
	U	963	530	433	732	426	306	231
1958	T	4,515	2,458	2,057	2,527	1,884	643	1,988
	R	3,359	1,817	1,542	1,603	1,189	414	1,756
	U	1,156	641	515	924	695	229	232
1959	T	5,012	2,607	2,405	2,324	1,268	1,056	2,688
	R	4,079	2,152	1,927	2,022	1,100	922	2,057
	U	933	455	478	302	168	134	631
1960	T	1,443	805	638	410	217	193	1,033
	R	704	381	323	219	112	107	485
	U	739	424	315	191	105	86	548

Based on data furnished by Civil Surgeon Panna

The Rural/Urban Setting

There is only one town *viz.* Panna and that too with a small population therefore the general setting of the entire district is rural. Out of 1,000 persons only 51 live in town and the rest in the rural areas. As compared to the adjoining districts the position is :—

District	Total Persons	Rural	Urban
Chhatarpur	1,000	904	96
Satna	1,000	909	91
Damoh	1,000	873	127
Jabalpur	1,000	629	371
Banda (U.P.)	1,000	933	67

In this group of adjoining districts Panna is at the bottom in urbanisation. In Rewa division generally speaking the towns are very few and population in them small. Chhatarpur with 96 per 1,000 persons living in urban areas, leads in the division, and the last Sidhi with 9 per 1,000 is also the least urbanised district in the State.

The Scheduled Castes & Tribes

Out of the total population of 331,257 persons there are 57,774 Scheduled Castes and 48,215 Scheduled Tribes constituting 17.44% and 14.56% of the population.

The Scheduled Castes

The Scheduled Caste population is spread out as follows:—

District/ Tahsil	Total Rural Urban	Population	Percentage to total population
Panna District	Total	57,774	17.44
	Rural	56,634	18.01
	Urban	1,140	6.81
Panna Tahsil	Total	25,008	17.40
	Rural	23,868	18.79
	Urban	1,140	6.81
Pawai Tahsil	Rural	23,763	18.09
Ajaigarh Tahsil	Rural	9,003	16.04

The spread out is more or less in uniform proportion varying from 16.04% of tahsil population in Ajaigarh to 18.09% in Pawai. The main castes are:— Basor or Bansphor, Chamar, Kumhar and Mehtar (only castes returning 1,000 or more persons have been treated as main castes). Apart from the above, 6 more castes have been returned *viz.* Beldar, Dharkar, Dom, Domar or Doris, Pasi, Sansi or Bedia.

Chamar

The other synomyms for Chamars are:— Ahirwar Chamar, Mangan, Mochi or Raidas. They number 42,795 persons 21,430 males and 21,365 females constituting 74.07% of the total Scheduled Caste population. This is the caste of traditional leather workers. They live in rural areas and are mainly engaged in cultivation, as agricultural labourers and in the household industries *viz.* workers in leather. Their occupational pattern is given below:—

Chamars

Total Workers	Categories of Work I	II	III	IV	V	VI	VII	VIII	IX
100.00	38.98	42.84	3.53	2.30	0.16	0.58	0.03	Neg.	11.58

As many as 341 persons 316 males and 25 females are still engaged in tanning and currying of hides and skins. Their rate of participation and sex-ratio is 616 and 997 respectively.

The Kumhars

Next to Chamars come the Kumhars — the caste whose traditional vocation was making of earthen vessels. They number 6,279 persons 3,168 males and 3,111 females or 10.87% of the total Scheduled Caste population. They are engaged in cultivation and household industry; the details being:—

Total Workers	Categories of Work I	II	III	IV	V	VI	VII	VIII	IX
100.00	56.72	7.15	3.38	28.91	0.36	0.16	0.30	0.05	2.97

Their participation rate and sex-ratio is 584 and 982 respectively.

Basor or Bansphor

This is a functional caste of workers in bamboos and other wooden products. They are mostly living in the rural areas and are mainly engaged in their household industry (*viz.* making of products from bamboos, cork, leaves and other wooden articles). The Basors constitute 9.00% of the total Scheduled Caste population and number 5,197 persons 2,635 males and 2,562 females. The sex-ratio among them is 972 females per 1,000 males and participation rate 579 per 1,000.

Mehtar, Bhangi or Dhanuk

Mehtars, Bhangis or Dhanuk are the traditional sweeper's caste. They ranked lowest among the Scheduled Castes. They number 1,442 persons 751 males and 691 females and constitute 2.50% of the total Scheduled Caste population. As many as 272 persons 123 males and 149 females are still engaged in scavenging. They live mostly in rural areas. Their occupation pattern being:—

Total Workers	Categories of Work I	II	III	IV	V	VI	VII	VIII	IX
100.00	36.67	7.58	4.60	1.49	0.27	0.54	0.54	0.27	48.04

Their participation rate and sex-ratio being 512 and 920 per thousand.

The Scheduled Tribes

As many as ten Scheduled Tribes (and 83 persons under unclassifiable) have been enumerated in the present census. There are 48,215 persons 24,433 males and 23,782 females constituting 45.6% of the total population. In the district itself more than half of them live in Pawai tahsil; the details being:—

District/Tahsil	Scheduled Tribes Population Percentage
Panna District	100.00
Ajaigarh Tahsil	9.63
Panna Tahsil	39.41
Pawai Tahsil	50.96

The following tribes have returned over 1,000 persons:— Bhumiya (14,101); Gond (19,579); Khairwar (4,336); Kol (Dahait) (2,435); Mawasi (3,209); Saur (1,126); Sonr (2,755). A few details regarding them are given below:—

Bhumiya including Bharia and Paliha

Literally the word Bhumiya means the 'Lord of the Soil'. In the former Vindhya Pradesh region Bhumiya is shown as an independent tribe and includes Bharia and Paliha. They all live entirely in rural areas and total 14,101 persons 6,998 males and 7,103 females, constituting 29.25% of the Scheduled Tribe population. They are mainly enaged as agricultural labourers and cultivators. The details being:—

Total Workers	Workers in Categories								
	I	II	III	IV	V	VI	VII	VIII	IX
100.00	33.90	54.37	2.73	0.23	0.14	0.30	1.35	0.15	6.83

Their participation rate and sex-ratio is 595 and 1,015 respectively.

Gond including Pathari

There are 19,579 persons 9,930 males and 9,649 females constituting 40.61% of the total Scheduled Tribes in the district. They live mostly in the rural areas. Gonds are very widely distributed in the State and various theories have been advanced regarding their origin and diffusion in the State. Thay are working mostly as cultivators and agricultural labourers. Their occupational break-up is given below:—

Total Workers	Categories of Work								
	I	II	III	IV	V	VI	VII	VIII	IX
100.00	52.17	25.71	4.14	0.65	0.07	1.20	0.55	0.18	15.33

Their participation rate and sex-ratio is 579 and 972 per thousand.

Khairwar including Kondar

In 1931 Venkatachar grouped Kondar with Saheria and Sonr and Khairwar with Kol. They total 4,336 persons 2,205 males and 2,131 females constituting 8.99% of Scheduled Tribes population. They are mainly engaged in cultivation and as agricultural labourers, the details being:—

Total Workers	Categories of Work								
	I	II	III	IV	V	VI	VII	VIII	IX
100.00	51.15	20.31	7.47	1.34	0.04	0.42	3.22	0.11	15.94

Their participation rate and sex-ratio being 602 and 966 per one thousand.

Kol (Dahait)

Kol is the general name of the great tribe which is supposed to have spread out into the State. They are mainly engaged as cultivators and agricultural labourers followed by these in mining, quarrying, live-stock forestry etc. They total 2,435 persons 1,314 males and 1,121 females and constitute 5.05% of the Scheduled Tribes population in the district. The details of their occupation are:—

Total Workers	Workers in Categories								
	I	II	III	IV	V	VI	VII	VIII	IX
100.00	34.42	34.42	21.79	0.44	0.07	1.40	...	0.15	7.31

Their participation rate and sex-ratio being 556 an 853 per one thousand.

Mawasi

Mawasis have been regarded by some under Kols (Venkatachar in 1931) and classified by others under Korkus (Russel and Hiralal). They total 3,209 persons 1,653 males and 1,556 females and constitute 6.66% of the Scheduled Tribes population and live entirely in rural areas. They are engaged in cultivation, as agricultural labourers and in 'Other Services' details being:—

Total Workers	Categories of Work								
	I	II	III	IV	V	VI	VII	VIII	IX
100.00	28.43	44.38	3.62	...	...	0.33	0.16	...	23.08

Their participation rate and sex-ratio is 577 and 941 respectively.

The Saurs

Saur appears to be the same tribe as Sonrs. They total 1,126 persons 591 males and 535 females constituting 2.34% of the Scheduled Tribes population in the district. They live entirely in the rural areas and are primarily engaged in cultivation, 'Other Services' and labourers in agriculture, the details being:—

Total Workers	Categories of Work								
	I	II	III	IV	V	VI	VII	VIII	IX
100.00	25.10	36.78	...	1.35	...	1.06	...	...	35.71

Their participation rate and sex-ratio is 920 and 905 respectively. The participation rate is extremely high being the highest for any of these tribes.

The Sonrs

They are 2,755 persons 1,303 males and 1,452 females constituting 5.71% of the total Scheduled Tribes population in the district. They live entirely in the rural areas and are engaged as agricultural labourers, as cultivators and in 'Other Services'; the details being:—

Total Workers	Categories of work								
	I	II	III	IV	V	VI	VII	VIII	IX
100.00	12.39	51.77	12.57	0.35	2.12	0.09	1.77	...	18.94

Their participation rate and sex-ratio being 410 and 1,114 respectively.

The Workers/Non-workers

For every one thousand persons there are 527 workers in the district which is nearly equal to the State and Rewa division figures of 523 and 526 persons respectively. The comparable figures for adjoining districts, Rewa division and State are given below:—

State/ Division/ District	T R U	Total Population P	M	F	Total Workers P	M	F
1	2	3	4	5	6	7	8
Madhya Pradesh	T	1000	1000	1000	523	602	440
	R	1000	1000	1000	552	616	486
	U	1000	1000	1000	349	524	145
Rewa Division	T	1000	1000	1000	526	610	437
	R	1000	1000	1000	536	615	453
	U	1000	1000	1000	369	539	166
Panna District	T	1000	1000	1000	527	618	429
	R	1000	1000	1000	538	625	445
	U	1000	1000	1000	310	494	105
Chhatarpur District	T	1000	1000	1000	513	623	388
	R	1000	1000	1000	527	634	407
	U	1000	1000	1000	380	527	211
Satna District	T	1000	1000	1000	518	603	429
	R	1000	1000	1000	529	605	452
	U	1000	1000	1000	399	578	185
Jabalpur District	T	1000	1000	1000	456	566	337
	R	1000	1000	1000	521	589	452
	U	1000	1000	1000	346	530	122
Damoh District	T	1000	1000	1000	472	585	355
	R	1000	1000	1000	491	600	379
	U	1000	1000	1000	339	482	182

The participation rate in Panna is the highest among all the neighbouring districts. With regard to Jabalpur, it must be conceded that in the city the proportion of workers is rather low and so less number of workers have been returned. Even when compared to Chhatarpur and Satna, the district has returned a higher rate of participation. This however is no measure of economic prosperity — on the contrary, it underlines backwardness of the area.

The main category of work is cultivation in which 61.93% of the total workers are engaged. This pattern of work is indicated in the table below:—

District/ Tahsil	Total Workers	Categories of Work I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10	11
Panna District	100.00	61.93	16.92	3.85	4.91	0.34	0.70	1.80	0.26	9.29
Ajaigarh Tahsil	100.00	71.36	9.33	2.61	5.63	0.13	0.27	2.02	0.13	8.52
Panna Tahsil	100.00	52.88	19.78	5.17	5.80	0.56	1.35	2.18	0.45	11.83
Pawai Tahsil	100.00	67.02	17.31	3.04	3.71	0.21	0.22	1.31	0.13	7.05

Cultivation along with workers as agricultural labourers alone account for over three-fourths of the workers. Both in Panna and Ajaigarh tahsils these two categories account for over four-fifths of the total workers. In Panna tahsil however the figure falls to 72.66. Another noticeable feature is that in 'Manufacturing other than Household Industry' the figure falls very low. The total number of workers in each category is indicated below:—

Total Workers in Various Categories:

S.No.	Brief description of the Category.	Total Workers of the Category			Percentage to total workers	Ranking
		Persons	Males	Females		
1	2	3	4	5	6	7
I	As Cultivator	108,020	64,899	43,121	61.93	1
II	As Agricultural labourer	29,506	15,668	13,838	16.92	2
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and allied activities	6,705	5,287	1,418	3.85	5

The Non-workers

For every 1,000 persons there are 473 non-workers: the details being:—

Non-Workers

Total Rural Urban	Total Population			Total Non-Workers		
	P	M	F	P	M	F
1	2	3	4	5	6	7
Total	1000	1000	1000	473	382	571
Rural	1000	1000	1000	462	375	555
Urban	1000	1000	1000	690	506	895

As may be expected the urban areas tend to return higher number of non-workers. The non-workers were divided into eight categories the details being:—

Name of Category	Total Rural Urban	Males	Females
1	2	3	4
Total Non-working Population	Total	100.00	100.00
	Rural	100.00	100.00
	Urban	100.00	100.00
1. Full time students	Total	17.60	2.42
	Rural	15.87	1.79
	Urban	41.18	9.89
2 Household duties	Total	0.66	37.01
	Rural	0.71	36.20
	Urban	0.04	46.57
3 Dependents, infants and disabled	Total	80.21	59.74
	Rural	82.28	61.22
	Urban	51.96	42.12
4 Retired, rentier or independent means	Total	0.54	0.28
	Rural	0.29	0.25
	Urban	3.79	0.63
5 Beggers, vagrants etc.	Total	0.67	0.51
	Rural	0.66	0.53
	Urban	0.81	0.24
6 Inmates of institutions	Total	0.06	0.04
	Rural	0.03	...
	Urban	0.49	0.51
7 Persons seeking employment for the first time	Total	0.13	Neg.
	Rural	0.09	Neg.
	Urban	0.72	0.03
8 Unemployed but seeking work	Total	0.13	Neg.
	Rural	0.07	0.01
	Urban	1.01	0.01

From the above table it follows that among the males full time students, dependents and disabled constitute 97.81% of the total non-workers. In the urban areas the percentage of whole time students goes to 41.18% and another 3.79% live as rentier or retired types.

Among the females those in the household duties or dependents or disabled constitute 96.75%. There are only 2.42% who are full time students although in urban areas the figure is higher. In the other categories there are very few persons.

Cultivation

There are 108,020 persons, 64,899 males 43,121 females constituting 61.93% of the total workers in this category. Within the district the proportion is much higher in Ajaigarh where 714 persons out of 1,000 workers of the tahsil are engaged in cultivation. The main crops are rice, jowar, wheat, gram, tur, sesamum, linseed. The general practice is to sow (a) paddy followed by fallow during rabi (b) paddy followed by wheat (c) paddy followed by gram (d) wheat followed by fallow during Kharif and (e) gram-linseed followed by fallow in kharif.

At the beginning of the twentieth century the total cultivated area in Panna State was about 19% of the surface area. In 1960-61 418,932 acres or 25.71% of the surface was under plough. This suggests that the area under plough has been steadily rising. The decade variation is as follows*—

Year	Net area sown in acres	Decade Variation in acres	Percentage Variation
1951-52	358,619		
1960-61	418,932	+60,313	+16.82

Over the decade itself the area sown has gone up by one-sixth.

The table below gives the cropping pattern of the district

Area sown under major crops in 1960-61 in Panna District

District/ Tahsil	Net Area	Rice	Jowar	Wheat	Total cereals & Millets	Gram	Tur	Total pulses grains	Total food crops	Total food	Sesa-mum	Lin-seed	Total Oil seeds	Total Non-food crops	Area sown more than once
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Panna District	100	27.09	4.45	32.46	77.76	14.91	2.62	20.57	98.33	99.18	5.02	7.00	12.98	13.14	12.32
1 Panna tahsil	100	39.22	2.74	28.07	83.92	14.36	1.27	19.50	103.42	104.60	3.99	5.86	11.50	11.61	16.21
2 Ajaigarh tahsil	100	7.39	11.65	14.58	50.10	32.04	11.57	45.69	95.78	96.35	10.26	0.42	11.24	11.71	8.06
3 Pawai tahsil	100	20.20	4.10	42.46	79.55	10.35	1.37	14.16	93.71	94.31	4.52	10.19	15.07	15.18	9.50

The table reveals that during 1960-61 more rabi crops than kharif ones were sown. Of the total area sown nearly one-eighth or 12.32 % was sown more than once and among the tahsils Panna has nearly one eighth of such area. The cropping pattern varied from tahsil to tahsil. In 1960-61 in Panna tahsil nearly two-fifth of the area was sown with rice and this fell to 7.39% of one-thirteenth in Ajaigarh. Whereas 42.46% of the area in Pawai tahsil is sown with wheat it is only 28.07% in Panna tahsil. In Ajaigarh nearly one-third of the area was sown with gram. The district almost entirely grows food crops : oil seeds are the major non-food crops grown in the district.

The table below gives the details of the total cropped area and net area sown.

District/ Tahsil	Total cropped Area	Net Area sown	Area sown more than once
1	2	3	4
Panna District	100.00	89.03	10.97
Panna tahsil	100.00	86.05	13.95
Ajaigarh tahsil	100.00	92.54	7.46
Pawai tahsil	100.00	91.33	8.67

* Source: Director of Land Records.

The details regarding some of the crops are:—

Food Crops (1) *Cereals and Millets*
Rice

The variation in acreage for rice for 1951-52 and 1960-61 is indicated below :—

Year	Net Area sown in acres	Decade Variation	Percentage Variation
1951-52	98,791		
1960-61	113,508	+ 14,717	+ 14.90%

During the decade the acreage has generally shown an upward trend. It is mostly an unirrigated crop and only 4,491 acres or 3.96% are irrigated.

Wheat

The increase in the acreage under wheat has been quite marked. It has shown an increase of 68.31% during the selected period, the details of which are :—

Year	Net area sown in acres	Decade Variation	Percentage Variation
1951-52	80,798		
1960-61	135,991	+ 55,193	+ 68.31%

Wheat is almost entirely an unirrigated crop and only 3,222 acres are irrigated. There has not been much of progress in irrigation of wheat. During the decade the area sown under wheat has shown an increase excepting in the year 1957-58 when it fell to 68,886 acres the lowest in the decade.

Jowar

The area sown under jowar is very little being 18,650 acres. There has been an increase in the area to the tune of 22.00% since 1951-52, but the tract as such is not known to grow any jowar. The area sown has some fluctuation, for in 1954-55 it touched 32,159 acres which is the highest for the decade.. Jowar is entirely an unirrigated crop.

Maize

The area under maize has remained more or less constant varying between 4,900 to 5,600 acres when compared to other tahsils the acreage is high in Pawai and like jowar it is unirrigated.

Barley

The acreage under barley in the last decade has varied from 7,180 acres in 1957-58 to 12,446 in 1956-57. Proportionately the area is large in Ajaigarh tahsil. In 1961 out of 11,772 acres as many as 2,105 or 17.88% was irrigated.

All Cereals and Millets

The total area under cereals and millets has gone up by nearly one-third. The figures for the decade being

Crops	Year	Net Area sown in acres	Decade Variation	Percentage Variation
All cereals and Millets	1951-52	247,209		
	1960-61	325,762	+ 78,553	+ 31.78%

In more than three-fourth or 77.76% of the area cereals and millets are sown; the proportion being the highest in Panna 83.92% and lowest in Ajaigarh Tahsil 50.10%.

Pulses

Gram

Among the pulses gram is the main crop being sown in 14.91% of the area. In Ajaigarh it is sown in nearly one-third of the net area sown. The acreage under gram has varied from 46,770 acres in 1954-55 to 79,438 acres in 1957-58. Out of 62,462 acres sown in 1960-61 only 1,212 acres were under irrigation. The crop is generally an unirrigated one.

Tur

The area under tur has shown violent fluctuations. It rose from 6,385 acres, lowest in 1951-52 to 18,581 acres in 1958-59 (also highest for the decade) and seems to vary generally between 10,000 to 13,000 acres. It is almost entirely a dry crop. In the district it is sown in 2.62% of the area, the proportion being somewhat high in Ajaigarh tahsil.

Other food Crops

The main ones are sugar cane, condiments and spices and all fruits and vegetables.

Sugar cane

The district does not grow much of sugar cane; the total area being limited to 1,060 acres only in 1960-61 It was 552 acres in 1951-52.

Condiments and Spices

The area under condiments and spices is only 755 acres. It had never been exceeded during the decade. The main ones are onions garlic and in some places ginger.

All fruits and Vegetables

The area under fruits and vegetables has almost doubled itself during the last ten years. It was 869 in 1951-52 and has now come upto 1765 acres. The more well-to-do cultivators have shown a liking for growing orchards.

The Non-food Crops

These are mainly sesamum (til), linseed, rape and mustard. There is practically no cotton and ground nut.

Sesamum

The area under sesamum has varied from 15,324 in 1952-53 to 39,148 acres in 1954-55. There has been an increase in the area under sesamum, although in 1960-61 the figure of 21,013 acres is much less than the earlier ones. It covers 5.02% of the net area sown.

Linseed

The acreage under linseed shows a variation ranging from 20,978 acres in 1957-58 to 41,253 acres in 1956-57; but generally speaking there has been an increase in the area during the decade. Among the tahsils Pawai shows a higher proportion 10.19% of the area under linseed.

Rape and Mustard

The area under rape and mustard shows erratic trends registering a fall of from 4,389 acres in 1951-52 to 3203 in 1957-58, and seems to be going down.

Irrigation

The main sources of irrigation are the privately owned wells, canals and tanks. The break-up of these sources is given below:—

Total area irrigated (all sources)	Area irrigated by			
	All others sources	Tanks	Wells	Canals
12,168	506	1,569	5,887	4,206
100.00	4.16	12.89	48.38	34.57

The area under irrigation has shown an upward trend during the period. The inset table below gives the variation.

Year	Total area irrigated in acres	Variation	Percentage variation
1951-52	6,767		
1960-61	12,168	5,401	+79.81%

There were 5,887 wells used for irrigation. It would be observed that the facilities for irrigation are very meagre.

Workers as Agricultural Labourers

There are 29,506 persons 15,668 males and 13,838 females constituting 16.92% of the total workers, who have been returned as agricultural labourers. Within the district the proportion among the tahsils vary from 9.33% in Ajaigarh to 19.78% in Panna. Pawai with 17.31% workers in the above category is placed in the middle.

No scarcity of agricultural labourers has been reported. These labourers are mostly those who have the work of a casual nature. When not working in the season they are reported to be taking to other form of labour, mostly of the unskilled variety in the Public Works or Irrigation Department. The rate of payment varied between Rs. 1.50 in September to November and Rs. 2.00 in other months. In the summer owing to severity of the work a labourer is paid not less than Rs. 2.00. During the months of February, March and April when the wheat crop is cut, the demand for labourers grows and in many places they are also paid in terms of grains or cash and grains. The wages are going up.

Workers in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations Orchards and other allied Activities.

This category has returned 6,705 persons 5,287 males and 1,418 females, constituting 3.85% of the total workers.

Most of them 61.67% are engaged in rearing of livestock (large heads only). As many as 351 persons are engaged in mining and quarrying for precious and semi-precious stones. The details for some of the important categories are given below :—

S.No.	Code No.	Brief Description	Total workers P	M	F	Percentage to total workers of the category	Ranking
1	2	3	4	5	6	7	8
1	005	Production of other crops (including vegetables) not covered above	479	270	209	7.14	2
2	015	Production of other plantation crops not covered above	328	308	20	4.89	4
3	021	Felling and cutting of trees and transportation of logs	297	186	111	4.43	5
4	023	Production of fuel including charcoal by exploitation of forests	184	146	38	2.74	8
5	024	Production of fodder by exploitation of forests	256	59	197	3.82	7
6	040	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	4,135	3,387	748	61.67	1
7	107	Quarrying of stone (including slate) clay, sand, gravel, limestone	290	267	23	4.33	6
8	109	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	351	314	37	5.23	3

Workers in the Household Industry

The above category has returned 8,570 persons—6,038 males and 2,532 females constituting 4.91 % of the total workers. The table below gives the details of the category.

S.No.	Code No.	Brief Description	Total workers P	M	F	Percentage to total workers of the category	Ranking
1	2	3	4	5	6	7	8
1	040	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	902	752	150	10.53	3
2	207	Production of edible fats and oils (other than hydrogenated oil)	573	241	332	6.69	4
3	220	Manufacture of bidi	162	126	36	1.89	11
4	255	Wool weaving in handloom	131	105	26	1.53	12

1	2	3	4	5	6	7	8
5	282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	476	467	9	5.55	6
6	288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	2,272	1,193	1,079	26.51	1
7	310	Currying, tanning and finishing of hides and skins and preparation of finished leather	359	328	31	4.19	8
8	311	Manufacture of shoes and other leather footwear	194	185	9	2.26	10
9	350	Manufacture of earthenware and earthen pottery	1,047	640	407	12.22	2
10	369	Manufacture of sundry hardwares such as G.I. pipe, wire, net, bolt, screw, bucket, cutlery	488	484	4	5.69	5
11	393	Manufacture of jewellery, silverware and wares using gold and other precious metals	415	408	7	4.84	7
12	399	Manufacture and repair work of goods not assignable to any other group	211	153	58	2.46	9

It would be observed that the main categories codes nos. 288, 350 and 040 are essentially of rural charectristics and these household industries need the ordinary skill. It is interesting to observe that in the manufacture of silver ware and wares using gold and other precious stones there are 415 persons. In Panna town the cutting of diamond is a popular household industry.

Workers in Manufacturing other than household Industries

This category has returned only 596 persons 421 males and 175 females, constituting 0.34% of the total workers. From the above it becomes obvious that there are hardly any industries in Panna. The details of this category are indicated below :—

S.No.	Code No.	Brief Description	Total workers P	M	F	Percentage to total workers of the category	Ranking
1	2	3	4	5	6	7	8
1	200	Production of rice, atta flour etc. by milling, dehusking and processing of crops and food grains	93	39	54	15.60	1
2	220	Manufacture of bidi	51	47	4	8.56	3
3	282	Manufacture of structural wooden goods (including treated timber) such as beams , posts, doors, windows	33	33	–	5.54	5
4	311	Manufacture of shoes and other leather footwear	12	12	–	2.01	7
5	388	Repairing of bicycles and tricycles	25	25	–	4.19	6
6	393	Manufacture of jewellery silverware and wares using gold and other precious metals	36	36	–	6.04	4
7	399	Manufacture and repair work of goods not assignable to any other group	81	51	30	13.59	2

The manufacturing processes indicated above are again mostly small scale industries. It is interesting to observe that there are 36 persons in manufacture of jewellery and out of these 31 are in Panna town.

In the district there are 448 persons whose are jewellers, goldsmiths and silver smiths including those engraving jewellery. The above occupational figure is from Table B–V *viz* Occupational classification by Sex of persons other than those engaged in cultivation.

Workers in Construction

The district has returned 1,219 persons 1,050 males and 169 females constitutiong 0.70% of the total workers under this category. They are mostly engaged in construction and maintenance of roads and bridges. There is no labour force engaged in construction of railways. The details of the category are given below:—

S.No.	Code No	Brief Description	Total Workers P	M	F	Percentage to total workers of the category	Ranking
1	2	3	4	5	6	7	8
1	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	361	308	53	29.61	2
2	401	Construction and maintenance of roads, railways, bridges, tunnels	562	455	107	46.10	1
3	403	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	276	267	9	22.64	3

Workers in Trade and Commerce

There are 3,130 persons, 2,288 males and 842 females constituting 1.80% of the total workers in this category.

There is not much of trade or commerce in the district and the little trade that there is confined to the retail type, the details of which are presented below :—

S.No.	Code No.	Brief Description	Total workers P	M	F	Percentage to total workers of the category	Ranking
1	2	3	4	5	6	7	8
1	600	Wholesale trading in cereals and pulses	64	54	10	2.04	6
2	640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	1,814	1,408	406	57.96	1
3	644	Retail trading in tobacco, bidi, cigarettes and other tobacco products	85	61	24	2.72	5
4	645	Retail trading in fuel such as coke, coal, firewood and kerosene	257	70	187	8.21	3
5	650	Retail trading in fibres, yarns, dhoti, saree, ready-made garments of cotton wool, silk and other textiles and hosiery products	174	170	4	5.56	4
6	689	Retail trading in goods unspecified	325	203	122	10.38	2

Workers in Transport Storage and Communications

There are only 460 persons, 457 males and 3 females in this category constituting 0.26% of the total workers. Since there are no railways transportation by bus services is the main category of work. The details are given below :—

S. No.	Code No.	Brief Description	Total workers P	M	F	Percentage to total workers of the category	Ranking
1	2	3	4	5	6	7	8
1	701	Transporting by tramway and bus service	134	134	–	29.13	1
2	702	Transporting by motor vehicles (other than omnibus)	124	124	–	26.96	2
3	703	Transporting by road through other means of transport such as hackny, carriage, bullock cart, ekka	68	65	3	14.78	4
4	705	Transporting by man such as carrying of luggage, handcart driving, rickshaw pulling, cycle rickshaw driving	35	35	–	7.61	5
5	730	Postal, telegraphic wireless and signal communications	78	78	–	16.96	3

Workers in other Services

There are 16,207 persons 9,591 males and 6,616 females constituting 9.29% of the total workers in this category. Apart from cultivation and agricultural labour, this constitutes the greatest number of workers. The category 'other services' includes service in Government departments, religious social and other personal services. The details of the workers of this category are :—

S.No.	Code No.	Brief Description	Total workers P	M	F	Percentage to total workers of the category	Ranking
1	2	3	4	5	6	7	8
1	803	Public service in Police	632	627	5	3.90	3
2	805	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards etc.	132	128	4	0.81	10
3	809	Public Service in administrative departments and offices of State Government	1,005	993	12	6.20	2
4	811	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	1,267	1,176	91	7.82	1
5	820	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	264	217	47	1.63	7
6	831	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	198	197	1	1.22	9

1	2	3	4	5	6	7	8
7	880	Services rendered to households such as those by domestic servants, cooks	273	152	121	1.68	5
8	883	Laundry services rendered by organisations and individuals (this includes all types of cleaning, dyeing bleaching, dry cleaning services)	255	154	101	1.57	8
9	884	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	519	519	–	3.20	4
10	890	Services rendered by organisations or individuals not elsewhere classified	270	180	90	1.67	6

The rapid expansion of educational facilities is fairly well reflected in the returns; so also is the expansion of the various State Government departments. This is followed by the police personnel and persons who work as hairdressers, barbers and beauticians.

Communications

No railway line passes through the district and this is perhaps the biggest draw back in the general progress. The nearest rail head is Satna, 44 miles away to the east and connected by an excellent all weather road. From Satna which is on the Allahabad - Bombay Section (Broad gauge) of the Central Railway one can catch trains to Allahabad, Calcutta towards the eastern side and Jabalpur Bombay to the south west. Panna is situated on the State Highway–Rewa–Chhatarpur–Tikamgarh and 33 miles of the highway lies in the district. This highway is the main link for the district. Apart from this there are 182 miles of major and 171 miles of minor district roads. The total mileage which includes some village roads too, is 471 miles for the district. Panna however has a landing strip and once a week an IAC flight lands at Panna with tourists for Khajuraho.

Other Communications

At the beginning of the twentieth century there was only one post office at Panna and another 5 had been opened in 1902. This is what Luard wrote.*

"There was only one Imperial Post office at Panna but five more at Birsingpur, Raipura, Pawai, Malahra and Shahnagar have been opened since 1902. The nearest telegraph office is at Satna. Local State postal arrangements have been made, and communication between tahsils". By March 1964 the district had 4 Post offices 4 sub-post offices and 91 Branch offices (82 experimental). Besides these there were 3 telephone and 4 telegraph offices. Thus there has been a fairly rapid expansion of these facilities in the last few years.

The Summing up

Panna, literal meaning emerald almost lives upto its meaning for the mention of the name Panna brings into the mind, the place, where diamonds and other precious stones are found. Lying towards the north eastern part, sandwiched by Chhatarpur and Satna districts, the lack of rail communication seem to have impeded the general growth. The region thus remains secluded and is economically poor. The river Ken in the west flowing towards north is the main river in a hilly region, covered with the teak and dry mixed deciduous types of forests.

The Statistics

The district occupies nearly 1.5% of the surface of the state and contributes 1.02% to its populations, therefore for every sq. miles of the territory it sustains less number of persons, 130 as compared to 190 per sq. miles in the State. Comparing it with the biggest and smallest district in area, Panna is at least 3.24 times bigger in area when compared to Datia and is nearly 6 times smaller (5.94 to be exact) than Bastar the largest. In area‡ Panna ranks thirty second. Some other district of nearly the same size are Dewas, Jhabua and Rewa 2,683, 2,623 and 2,428 sq. miles respectively, however all these districts have a higher concentration of population. Panna ranks second from the bottom in population; Datia ranking forty-third. Again as compared to the highest and lowest in population, Panna returns 1.65 times more population than Datia and is at least 6 times (6.10) less in population than Bilaspur which has the highest population in the State, 2,021,793 persons.

Other statistics of the district also make interesting reading. It ranks eighteenth in the growth of population during the last sixty years; the population having doubled itself, registering 100.23% increase. The last decade showed an increase of 27.57% . In literacy the district is again very lowly placed, having returned 10.88%

* Gazetter P. 26

‡ The area is as per 1962-63 figures supplied by Director of Land Records also see please at P. xxxiv.

literates. The villages generally speaking sustain less population nearly four-fifths of the village have less than 500 persons. In the last two decades there have been more male births and so the sex-ratio has come down to 938 females per 1000 males from 965 in 1941. The population in general does not exhibit any migratory trends. Hindus form a bulk of the population constituting 96.48% and Hindi is the main language. It is spoken by 99.34% of the population. For the first time Urdu appears as a mother tongue.

The Economy

The district lies in rural surroundings and only 51 persons out of 1000 live in urban areas. The participation rate of 527 per 1000 compares favourably with 523 in the State. The main economic activity is cultivation in which 61.93% of the working population is engaged. Those engaged as agricultural labourers total another 16.92%. Thus over three-fourths of the population depends on cultivation and the cultivation is mostly of the dry type, depending on the vagaries of the rainfall. Facilities for irrigation being very limited even cultivation does not appear to be a rewarding occupation. A small section of the population is engaged in mining quarrying, fishing, forestry and hunting.

It is often felt that with improved communications, it would be possible to exploit the forest produce in a better and more economical manner. There are no important industries in the district. The art of cutting diamond have however been developed to a very high degree of excellence. The trade in the district is confined only to small retail type of business in a rural society, with limited wants and still less money for their purchase. When compared to the past, although there has been definite progress in literacy, public health, electrification, co-operatives and other fields, yet quite a lot still remains.

Important places in the District

Ajaigarh (pop. 4,742)

Ajaigarh lies about 21 miles to the north of Panna. It was once the capital of the State. It is an old habitation and during the Mughal period it was a mahal in the Kalinjar Sarkar. The famous fort at Kalinjar is quite close from Ajaigarh. It is now a tahsil headquarters and telegraph and telephone facilities are available.

Amanganj (Pop. 2,374)

A big village in Panna tahsil lying about 24 miles to the south of Panna. A police Station and P.W.D. sub-division is located here along with dispensary, public library and a maternity health centre.

Devendranagar (Pop. 2,817)

A big village lying to the south east of Panna. Apart from a dispensary, schools, police station, there is a library and a reading room.

Pahari Khera (Itwa) (Pop. 1,087)

This is the nearest village to the spot where a big fair *viz.* Brihaspati Kund Ka Mela is held. Local legend has it that the sage Brihaspati meditated here and Ramchandrajee, stayed for a while at this place. A natural fall and cave makes the place scenic.

Panna (Pop. 16,737)

Panna was originally a Gond settlement but the Baghela Chiefs captured it in the 13th or 14th century. It became an important place in 1675 when Chhatrasal made it his capital. There are some beautiful temples in the town *viz.* the temples to Jugal Kishore, Baldeoji, Jagdishji and Prannath. Barring the last named the others are dedicated to Lord Krishna. The municipality was established in the princely regime. Around Panna are located some shallow mines in which diamond is found. The Rudra Pratap High School in Panna is an old institution founded in 1859. The present Collectorate housed in Mahendra Bhavan, a palatial building was completed in 1899. Close to the town about 6–7 miles on road to Chhatarpur lie Pandav falls, a scenic spot.

Pawai (Pop. 3,742)

In the former Panna State it was a tahsil headquarters and it continues to be one. The village is situated about 39 miles from Panna towards south. Apart from Post and Telegraph facilities a hospital, Higher Secondary School, maternity child welfare centre and public library is also located. The village has been electrified in the third Five Year Plan.

Saleha (Pop. 1,094)

The village about 34 miles from Panna, assumes some importance because about three miles away from it on the occasion of Basant Panchami a mela called Mela Choumukh Nath is held. A temple dedicated to Lord Shiva having four faces is an interesting monument.

APPENDIX I

INDUSTRIAL ESTABLISHMENTS

Note— This appendix has been prepared from information abstracted from the houselists. It is arranged first districtwise; that is, under the name of the district have been arranged the industries in ascending order of minor groups, showing the total number of establishments within brackets next to each minor group. The informaton has been shown by total, rural and urban separately. The figures for the tahsil follow the figures for the district as a whole. The total, rural and urban figures for each tahsil for each minor group of industry showing the number of establishments in each in brackets have been presented first. Then follows the list of the villages in the order of their location code numbers with the location code number appearing first, followed by the name of the village. Against each village is shown the minor group or minor groups of industry found in the village with the number of establishments in that minor group shown within brackets against each minor group. For towns, figures have been presented separately for each ward, the number of ward being given first, followed by the industrial code numbers etc. as in the case of villages.

The following examples will make the above note clear:—

Panna District Total 200 (48) signifies that there are 48 establishments in Panna District pertaining to Minor Group 200 which stands for "Production of rice, atta, flour etc. by milling, dehusking and processing of crops and foodgrains". Ajaigarh Tahsil Total 207 (163) signifies that there are 163 establishments in Ajaigarh Tahsil pertaining to Minor Group 207 which stands for "Production of edible fats and oils (other than hydrogeneted oil)". Village 1 Ramnai 273 (1) signifies that in Village Ramnai, which has 1 as its Location Code Number there is one establishment pertaining to Minor Group 273 which stands for "Making of textile garments including raincoats and headgear". Panna Town Ward No. 1–209 (5) signifies that there are five establishments located in Ward No. 1 of Panna Town pertaining to Minor Group 209, which stands for "Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge."

PANNA DISTRICT

Location code number and name of village:—

19 Tnaie (O), 119 Nayagaon (Halka Khamariya (O), 120 Khamariya (Ganeshganj) (O), 121 Hinota Baish (O), 123 Pawai (O), 184 Mohandra Majra (O).

PART II

OTHER DISTRICT STATISTICS

This part contains some useful official statistics pertaining to the district collected and compiled from various agencies [the agency or source is indicated below each Table or Statement] and from official publications. These are presented under the following heads:—

1 Rainfall and Temperature

2 Economic Statistics—

(a) Agricultural

(b) Wages

(c) Live-stock and Taccavi

3 Administrative Statistics

4 Progress of Community Development Programme

5 Educational Statistics

6 Health, Medical and Vital Statistics—

(a) Health and Medical

(b) Vital Statistics

Communications

8 Miscellaneous
