The Pavagadh hill is sacred to goddess Mahakali generally known as Kalka Mata, residing on its higest Peak i. e. 2500 feet. Though the origin of Goddess is lost in antiquity. She is there since Prehistoric Period; worshiped by aborigines of the region especially Bhils and Kolis. The Aryan first came to India from the north-west and settled in Sptasindha from where they spread to other Parts of the Country, over Powering the local Population with their religion and the Knowledge and in turn Aryans adopted some of the rites and rituals, etc. of the aborigines, of which Goddess worship is said to be an instance. Goddess kali, even though a goddes of aborigines, was thus invoked and installed in a shrine on the Peak of Pavagadh by sage Vishwamitra and worshiped as a form of Durga or Chandi in her fierce and angry mood.

According to old inscriptions, the name of Pavagadh is said to be derived from pavakgadh or fire hill, probably pointing to its volcanic origin. The temple of Goddess Mahakali is on the peak. It is fortified by walls with a big entrance gate. The sabha-mandap has dome over it resting on stone pillars. In the inner sanctum on a raised platform, there is the image of Kalika Mata in the Centre. The image is only the **Mukhavato** or the head of Goddess with the face painted in red colour with large eyes on the left of the said platform is a full idol of Mahakali and at the right, the yantra or Bahuchara with her angi. Kali yantra engraved on marable is kept before the image of kalka Mata and worshiped. Except for its rich marable floor, the the temple is small and Plain.

Shatachandi Navaratri of Magh, Chaitra and Ashwin & Ashadhi are performed here by night Garbas sang by village women and in the month of Shravan yajna is Performed.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and ward-wise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory. Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspec particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The

addition of the columns on civ ic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The district and Tahsil/Police Station/C D Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of *Shri R. S. Chhaya* the Director of Census Operations, *Gujarat* on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

PREFACE

The District Census Handbooks are printed during every decadal Census from 1951. These District Census Handbooks are prepared by the Census Organisation and DCHB unit of the State Government. These are published by the State Government at their own cost. The District Census Handbooks are the first Publications in the series of 1981 Census Publication. The Census Organisation has been collecting an enormous data both during the Census Enumeration period as well as after the Census Enumeration period. This data is very valuable to the Administrators, Economists, Planners, Research Workers, Scholars and other intelligentsia and also to the several institutions dealing with social-economic and developmental aspects of the State. It is absolutely necessary that this data after its collection is printed in the time and reaches the data users also in time. It is a matter of great satisfaction that the present volume is being published in the minimum possible time after the Census count.

The Census count in Gujarat State was taken during the period February-March 1981. The provisional figures collected through the District Census officers were published and presented to the Chief Minister of Gujarat State on 23rd March, 1981. After the declaration of the provisional count six Regional Tabulation Offices were opened at different places in the State. Three such Regional Tabulation Offices were opened at Ahmadabad, one at Vadodara, one at Surat and one at Rajkot. The Census records were edited and checked in these offices and the Primary Census Abstract for all the areas of the State were prepared. For this purpose 1,102 Tabulators, 184 Checkers and 61 Supervisors were temporarily engaged for a period of ten months. These offices were supervised by Deputy Directors of Census Operations who were taken on deputation from the State Government.

The District Census Handbook for the 1981 Census is published in two parts as follows :

I. Part A

(1) Village Directory

(2) Town Directory

II. Part B

District/Talukawise Primary Census Abstract

Both the Parts A and B of the District Census Handbook for 1981 Census have been combined and printed in one volume.

The Village Directory contains comprehensive information about the basic amenities available at the village leval such as medical, educational, drinking water, etc. The Town Directory also consists of information about the status, growth history, municipal finances, civic and other amenities, etc.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Castes/Scheduled Tribes population and the information pertaining to workers and non-workers. A special feature of the 1981 District Census Handbook is the inclusion of Scheduled Castes/Scheduled Tribes Primary Census Abstracts which gives complete District/Taluka/Townwise data on Scheduled Castes/Scheduled Tribes.

The data for the Village Directory has been collected through the Taluka Development Officers who in turn obtained the data from the village officials through their Statistical Assistants. In the District Census Handbook Cell this data subjected to a very close scrutiny and inaccuracies or deficiencies where noted were again got checked through the Statistical Assistants. For this purpose persons were deputed to the districts for obtaining the informations quickly. The area figures as reported by the village officials were also checked with the figures reported by the District Inspectors of Land Records. Utmost

care has been taken to see that the spellings of the villages are correct. Some of the data collected from the village level has also been cross-checked with the data which was supplied by the different Directorates and the Heads of the Departments of the State Goverment. The information pertaining to the District write-up (Item V of the Analytical Note) has been obtained through the Collector and the District Development Officers and the other district heads.

The data on Town Directory has been obtained through the various local bodies such as Municipal Corporation, Municipalities, Nagar Panchayats and Gram Panchayats. These were also checked in the Directorate by a Special Cell.

The Primay Census Abstract and Town Directory with their Inset Tables have been prepared in the Directorate whereas Village Directory alongwith its Inset Tables have been prepared in District Census Handbook Cell.

Maps

In each volume one district map showing the taluka boundaries, location of towns and villages having a population of 5,000, comunications, etc. has been printed. Taluka maps for each of the talukas in the district are also inserted in the District Census Handbook. These taluka maps indicate the boundaries of the villages and towns within the taluka and the location code numbers of each village. The maps were prepared in the map section of the Director of Census Operations.

Acknowledgement

The compilation of a huge mass of data which is printed in this book requires the active help and co-operation of the State Government in addition to the help and co-operation of all the officers and staff members of the Census Directorate. I am deeply indebted to Shri H. K. L. Kapoor, Chief Secretary to the Government of Gujarat for extending all help in the matter. Shri K. Rammoorthy who was working as Secretary, General Administration Department, during the Census Enumeration period extended his wholehearted co-operation. Shri V. Krishnamurthy who subsequently took over as Secretary, General Administration Department, also tookactive interest in the progress of Census work. I would like to make a special mention about the extra facilities granted by the State Government by way of creation of a Special Cell for the compilation of District Census Handbooks. One post of Deputy Director and several posts of Research Assistants, Statistical Assistants, Clerks and Typists have been sanctioned by the State Government specially for the coilmpation of the data. The services of all these persons were placed at the disposal of the Directorate for the compilation work.

Shri G. S. Shah, Director, Bureau of Economics & Statistics, Government of Gujarat, also rendered very valuable help by providing whatever data was required for cross-checks and by providing personnel for the Special Cell of District Census Handbook.

The Collectors and the District Development Officers incharge of the districts and the Municipal Commissioners incharge of the Municipal Corporation areas, have extended their wholehearted co-operation for the Census work. The Resident Deputy Collectors, the Deputy Collectors incharge of Sub-Divisionals, the District Statistical Officers, the Deputy District Development Officers, the Mamlatdars, the Taluka Development Officers, the Chief Officers of the Municipalities, the Deputy Mamlatdars and the Statistical Assistants at the District/Taluka levels, all played an important role in the Census work. I express my deep gratitude to all of them. After the Census count a large number of young boys and girls coming right from the schools and colleges were employed as Tabulators, Checkers and Supervisors and all of them worked very hard for the compilation of the useful data.

Shri P. T. Thakkar, Director of Printing and Stationery, Government of Gujarat, has taken the interest in the printing of the Handbooks. I here by acknowledge the valuable help, guidance and assistance rendered by him and other officers of the Printing Department. Shri P. K. Choksi, Printing Inspector in this Directorate, looked after the printing jobs very well.

In the Census Directorate Shri J. K. Patel, Deputy Director of Census Operations (Tech.) was looking after the Compilation Section so far as Census data was concerned. The collection and compilation of data for the Village Directory was looked after by Mrs. Neelaben A. Bhatt, Deputy Director whose services were placed at the disposal of the Directorate. Both these officers have put in hard labour for the compilation and printing of the data.

Shri K. H. Desai, Shri V. A. Sathe, Shri K. R. Shridharani and Shri S. D. Vadera, who were officers on deputation from the Gujarat Administrative Service, supervised the editing, checking and compilation work at the Regional Offices in Ahmadabad, Surat, Vadodara and Rajkot respectively. Shri P. J. Jhala and Shri M. A. Malwade, who were officers on deputation from the State Government from the Bureau of Economics and Statistics, supervised the editing, checking and compilation work at Regional Tabulation Offices in Ahmadabad. Shri V. H. Vasavada, Deputy Director from the General Administrative Service looked after the administration work. All these officers worked diligently and accurately during their service in the Census Organisation.

In the Directorate Shri J. K. Patel, Deputy. Director was assisted by Shri R. V. Sanghani and Smt. D. D. Jhala, Investigators and Satistical Asistants Shri K.P. Patel, Shri R.R Upadhyay, Kum. J.R. Megha, Smt. M.B. Patel and Smt. K.S. Mehta. The typing of Primary Census Abstract was undertaken in a special section which was headed by Investigator Shri M. H. Patel. In the State Cell of District Census Handbook Smt. Neelaben A. Bhatt, Deputy Director was assisted by the Assistant Director Shri V. R. Gandh and Research Assistants Kum. T. K. Shah and Smt. S. B. Solanki and Statistical Assistant Smt. H. A. Patel, Smt. C. C. Mehta, Shri S. V Patel and Shri P. K. Shastri.

In the Map Section the work of preparation of State/ District / Taluka maps was looked after by Shri K. M. Dhawale, Senior Geographer and Shri B. L. Arya, Geographer. They were ably assisted by Shri K. K. Patel, Artist, Sarvashri M. S. Bhatt and B. J. Modi Senior Draftsmen and Sarvashri D. A. Maroo, R. K. Joshi, G. M. Kosti, B. C. Trivedi and M.A. Shukla, Draftsmen.

The work of dictations and typing of notes, reports, tables, etc., was undertaken by Shri J. A. Harry, Confidential Assistant in the Directorate, diligently with speed and accuracy. He was assisted by a number of Typists in the office.

Limitations of space prevent me from making individual mention of all those who have contributed to the making of this volume so accurate and complete. Quite a large number of Assistant Compilers, Computors, Clerks, Typists, Proof Readers, Draftsmen, Artist, etc., have contributed valuable help in this work.

Finally, I would like to express my deep gratitude to Shri P. Padmanabha, IAS, Registrar General, Government of India, and Sarvashri K. K. Chakravorty, V. P. Pandey, N. G. Nag and Dr. B. K. Roy, Deputy Registrars General, for the guidance given to me from time to time.

ANALYTICAL NOTES AND TABLES

1. Census concepts of rural and urban areas and other terms, viz., Census House, Household, Scheduled Castes, Scheduled Tribes, Literates, Main Workers, Marginal Workers, Non-Workers, etc.

The 1981 Census was carried out in Gujarat in two stages. The first stage of houselisting was completed in the months of June-July 1980. The houselists thus prepared provided a frame for the enumeration work. In the second stage the house to house Census enumeration was carried out from 9th February, 1981 to 28th February, 1981 with reference date as sunrise of 1st March, 1981. The enumeration of houseless population was carried out on the night of 28th February, 1981. A revisional round was also taken from 1st March, 1981 to 5th March, 1981. In this revisional round the Enumerators recorded new births that had taken place after their last visit for enumeration but before the sunrise of 1st March, 1981 and also any visitor(s) that had moved into household and who had been away from his/her/their place of normal residence throughout the enumeration period or an entire household that had moved into the jurisdiction of the enumeration during this period and which had not been enumerated before. The names of persons who had died after the enumeration period but before the sunrise of 1st March, 1981 were deleted from the Individual Slips which had been filled up during enumeration period.

In Gujarat prior to the taking of 1981 Census a special programme of updating permanent house-numbering scheme in the different parts of the State was also carried out in co-ordination with the Local Bodies and State Government. The permanent house-numbering scheme in Gujarat was introduced during the 1971 Census and the District/Taluka Panchayats, Municipal Corporations, Municipalities, Nagar Panchayats and Village Panchayats played a very useful role in fixing the number plates on the houses and buildings.

After the Census count was over the Enumerators submitted the figures to the Charge Officers through their Supervisors. These figures were obtained by the Director of Census Operations through the District Census Officers and the figures after compilation were declared on 23rd March, 1981 as Provisional Census Figures for 1981 Census. Paper 1 showing those figures was printed and published and distributed on a complimentary basis.

During the Census Operations mainly two Census records were filled up by the Enumerators in each block. These were (1) Household Schedules and (2) Individual Slips. The different concepts which were adopted during the houselisting stage as well as during the Census enumeration are as follows ;

(I) Rural and Urban Areas

Rural Areas : The basic unit for rural areas is a revenue village which has a definite boundary. The revenue village may comprise several hamlets but the entire village has been treated as one unit for presentation of the data.

Urban Areas : Urban areas have been specifically defined for the 1981 Census. The criteria adopted during the 1981 Census was almost the same as adopted in 1961 and 1971 Censuses. The following criteria were adopted for classifying urban areas in the States :

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria:

1 A minimum population of 5,000;

2 At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity;

3 A population of at least 400 persons per sq. km. or a population of 1,000 per sq. mile.

The slight variation of the criteria adopted in 1981 and that adopted in 1961-1971 Censuses was that during 1981 Census the persons working in activities such as fishing, logging, etc., were

treated as par with cultivators and agricultural labourers whereas in 1961–1971 Censuses these were treated as engaged in non-agricultural activity.

(II) Census House

A 'Census House' is a building or part of a building having separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both. In case of a building having a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, were considered as separate Census houses.

(III) Census Household

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated household are boarding houses, messes, hostels, residential hotels, rescue homes, jails, etc. These are called 'Institutional Households'.

(IV) Scheduled Castes/Scheduled Tribes

The Scheduled Castes and Scheduled Tribes as notified under the Constitution for Gujarat State have been treated as Scheduled Castes and Scheduled Tribes for the purpose of Enumeration. A list of such Scheduled Castes/Scheduled Tribes notified for Gujarat is as under :

(V) Literates

A person who can both read and write with understanding in any language is taken as 'literate'. A person who can merely read but cannot write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

(VI) Main Workers, Marginal Workers, Non-Workers

During the 1981 Census 'Work' had been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. The work involves not only actual work but also effective supervision and direction of work.

The reference period for 'Work' is one year preceding the date of enumeration. The main-worker was a person who had worked for the major part of the year in that activity. By major part of the year it was intended to find out as to whether a person had worked for 183 days or more or in other words worked for six months or more. Those who had worked for less than six months or 183 days were treated as marginal workers. A Non-Worker was one who had no economical activity during the year.

The information on 'Workers and Non-Workers' were obtained through Q. Nos. 14(a) to 16 of the Individual Slip. The main activity of workers has been classified into four categories, viz., cultivator, agricultural labourer, household industry and other worker. These terms are explained below :

Cultivator

For purposes of the Census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) will not be treated as cultivator.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajri, ragi, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

Household Industry

Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precinct of the house where the household lives in urban areas. The larger proportion of workers in a household industry

should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factory Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this is not to be treated as 'HHI'. Thus, the meaning of the term 'run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion applies in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry, but at a place away from the precincts of their home, it is not to be considered a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a Pleader or Doctor or Barber, Musician, Dancer, Waterman, Dhobi, Astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Workers

All workers, i.e., those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in Household Industry, are 'Other Workers'. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, Municipal employees, teachers, priests, entertainment artists, etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry, are 'Other Workers'.

II. Brief history of the District and District Census Handbook

[A] History of the District

The history of the Panch Mahals centres in the city of Champaner. In a copper plate inscription of Shiladitya V of Valabhi dated 404–441 Samvat, 348–385 A.D; reference is made to the camp of victory fixed at Godhra haka, present Godhra. Champaner is said to have been founded in the seventh century (647) in the reign of Van Raj, the first ruler of Anhilvada. In the end of thirteenth century (1297) the Chohans, retreating from Khichivada before the Musalmans under Ala-ud-din Khilji, became lords of the country. Their sway lasted till the conquest of Champaner by Mahmud Begada in 1484. The author or Mirat-i-Sikandri (1611) is eloquent in praise of fruits of the region, viz: mangoes the best in the kingdom and sandal wood so the plentiful as to be used in house building. Under the Mogul Emperors (1573–1727) Godhra became the district headquarters. In the seventeenth century it was mentioned in Watson's History of Gujarat as a hunting ground for wild elephants.

In 1727 Krishnaji, foster son of Kantaji Kadam Bande, attacked Champaner, levied a regular tribute, and seems to have held the country, till about the middle of the country. When Champaner was seized and the Panch Mahalas annexed by Scindia. Though the citadel of Pavagad was taken by the British in 1803 they made no attempt to occupy or administer the lands of the district. Even the citadel was restored to Scindia in the next year and remained in his hands till in 1853 the district was transferred to the British. Naikdas a very wild forest tribe, took up arms against the British, under Rupa and Keval Naikas, in October. 1858 in an unsuccessful revolt. Under the British rule, the Panch Mahals district was part of Bombay Province.

In November, 1956, the States were reorganised and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada. Saurashtra and Kachchh regions and Panch Mahals district became a part of the bigger bilingual State.

Lastly, the Bombay State was bifurcated on 1st May, 1960 and separate States of Gujarat and Maharashtra were formed. Since that date the Panch Mahals district became a part of the Gujarat State.

[B] History of District Census Handbook

Prior to the 1951 Census the Census figures were brought out villagewise under a booklet known as 'Village Handbook' which contained only the population totals of villages. These books were prepared by the Census Organisation on behalf of the State Government and published by the latter. It was for the first time in 1951 Census that a more detailed and well organised book known as 'District Census Handbook' was brought out by the Census Organisation. The 1951 Census Handbook contained the villagewise Primary Census Abstracts which also included the information on post offices, railway stations and the nearest bazars of each village. The Handbook also contained several district tables.

During the 1961 Census the District Census Handbooks were brought out which contained the Primary Census Abstracts as well as certain district tables.

During 1971 Census also the District Census Handbooks were published which in addition to the Primary Census Abstracts contained a Village Directory showing the different village amenities and land-use of all the villages in the district. A separate portion known as 'Town Directory' was also included in the District Census Handbook. The Handbook was divided into three subparts known as Part-A which contained the Village Directory and Town Directory, Part-B which contained the Primary Census Abstracts and Part-C which contained the Introductory Essay, Official Statistics, etc.

For the 1981 Census the District Census Handbook is being brought out in two Parts, Part XIII-A and Part XIII-B. Part XIII-A will contain the Village and Town Directory whereas Part XIII-B will contain the Primary Census Abstracts both General and Scheduled Castes and Scheduled Tribes. The Part-C as it was brought out during the 1971 Census has been dropped.

III. Scope of Village Directory, Town Directory Statment and Primary Census Abstract

The District Census Handbooks which are now being printed during every Census after the 1951 Census are very important publications of the Census Organisation. With the emphasis by the Planning Commission on the 'Minimum Needs Programme' of the rural areas the District Census Handbook has become an important tool in the hands of the Administrators, Planners, Policy Makers and Academicians. For the 1981 Census the District Census Handbook has been divided into two parts which are combined in one volume. The details of the contents of each of these two parts are as follows

PART A : VILLAGE AND TOWN DIRECTORY

Village Directory

This Part-A contains the non-census statistics of each village and town in the district. The Village Directory gives villagewise particulars of amenities available for each village in the spheres of education, medical, power supply, drinking water, post and telegraph, communication, land-use, weekly markets and places of religious, historical and archaeological interests in the village. During the 1981 Census additional information regarding (1) copies of the newspapers coming in the village, (2) number of motorcycles and scooters available in the village, (3) number of cars and jeeps available in the village and (4) number of tractors available in the village have been added. The above non-census data of the Village Directory was collected from the Taluka Development Officers of each Taluka Panchayat in the State. In Gujarat under the democratic decentralisation scheme the Panchayats are now exercising very wide powers and the post of Statistical Assistants

are under the administrative and technical control of the Taluka Panchayats. Besides, the Talati-*cum*-Mantris at the village level who are the base village functioneries are also under the control of the Taluka Panchayats. The proformas for soliciting the information were despatched to the Talati-*cum*-Mantris through the Taluka Development Officers and these after they were filled up were checked by the Taluka Development Officers and also by the Direct Statistical Officers who work under the administrative and technical control of the District Panchayats. The data thus received was checked fully in the District Census Handbook Unit of the State Government. At the end of Village Directory a taluka abstract in Appendix-I of educational, medical and other amenities is also prepared and printed. Appendix-II which shows the land utilisation data in respect of non-municipal towns is printed. In Appendix-III the talukawise list of villages where no amenities relating to educational, medical, drinking water, post and telegraph, communication, power supply and market/hats, are available have been shown. Appendix-IV shows talukawise list of villages according to the proportion of Scheduled Castes/Scheduled Tribes population by ranges. The last two appendices have been included for the first time in the 1981 Census.

Town Directory

The Town Directory portion furnishing the data for each town in the district is exihibited in seven statements covering (1) the status and growth of the civic administration, (2) physical aspect and location of towns, (3) the civic finances of the towns, (4) the civic and other amenities in the towns, (5) the medical, educational, recreational and cultural facilities in the towns, (6) trade, commerce, industries and banking in the towns and lastly (7) the civic and other amenities in notified slums wherever they exist.

The non-census data for each of the towns for the Town Directory were obtained from the Municipal authority in case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. An Appendix showing the towns with their outgrowths with population is also prepared and attached at the end of the Town Directory.

PART B : PRIMARY CENSUS ABSTRACT

Part-B gives for each village and for each ward of the town the primary census data incorporating area of the town in sq. kms. and of the villages in hectares, the number of occupied residential houses, the number of households, total population and its break-up by sex, Scheduled Castes and Scheduled Tribes population, literate population and working population by four broad categories, viz., (1) cultivators, (2) agricultural labourers, (3) those working in household industries and (4) other workers. There is a slight departure in the presentation from the 1971 categories which were in all nine categories.

The Scheduled Castes/Scheduled Tribes Primary Census Abstracts at the District/Taluka/City level are also printed in Part-B of the Handbook.

IV. Physical aspects, highlights on the changes in the jurisdiction of the district during the decade including its boundaries and any important event on geographic or geophysical aspect

There have been no major jurisdictional changes in the district boundaries during the last decade. The administrative jurisdiction of all the talukas of the district as shown in 1971 Census is the same during 1981 Census except a few changes in villages/towns which are as under :

Twelve (12) places of the district are added as independent village in 1981 Census as these villages have been reported to treat them as independent villages by the concerned revenue authorities. These villagas are as under :

Sl. No.	Taluka/Mahal	L.C.No.	Name of village
1	Kalol	68	Derol Station
2	Halol	75	Gambhirpur
3	Shehera	60	Gokalpura
4	Santrampura	38	Kotal
		40*	Mota Sagvadia

5	Devgadh Baria	176	Chelavada
		186	Guneshia

* Village Sagvadia (L. C. No. 39 of 1971) is bifurcated into two villages.

Moreover, thirty six villages of the district have been deleted from the village list of 1981 Census as these villages have been reported to be hamlets of nearby villages towns by the concerned revenue authorities. These villages are as under :

Sl. No.	Taluka	L.C. No.	Name of village during 1971 Census	L.C. No.	Name of village in which included as hamlet during the 1981 Census
1	Kalol	14	Hadmatiya	13	Rinchhia

Bhatna Muvada (L. C. No. 260 of 1971) of Lunawada taluka is renamed as Juna Muvada (L. C. No. 250 of 1981) as reported by the concerned revenue authority.

V. Major characteristics of the district particularly in relation to the economic resources, namely Agriculture, Irrigation, Co-operation, Livestock and Animal Husbandary, Industries, Power Supply, Transport and Communication, Prices, Insurance, Education, Medical and Public Health, etc.

[1] Agriculture

(a) Land Utilisation

The total reporting area in the district in the year 1979–80 was 8.85 lakhs hectares. The details of land utilisation for the year 1979–80 are as under :

Land Utilisation

Sl. No.	Classification of area	Area in '00 hectares
1	Forest	2,277
2	Barren and uncultivable land	296
3	Land put to non-agricultural use	556
4	Culturable waste	334
5	Permanent pasture and other grazing lands	251
6	Land under miscellaneous crops and groves not included in area sown	..
7	Current fallows	325
8	Other fallows	83
9	Net area sown	4,728
	Total area	**8,850**

(b) Area Under Major Crops

Area under major crops in the year 1971-72, 1975-76 and 1980-81 are shown in the table below :

Area under different Crops

Sl. No.	Crop	Area under different crops (in '00 hectares) 1971-72	1975-76	1980-81
1	Rice	1,077	877	958
2	Maize	1,444	1,614	1,568
3	Jowar	89	86	18
4	Wheat	244	205	263
5	Bajri	418	318	269
6	Other Cereals	549	603	711
7	Total Cereals	3,821	3,703	3,787
8	Tur	120	135	140
9	Gram	362	318	260
10	Other Pulses	114	143	231
11	Total Pulses	596	596	631
12	Groundnut	465	363	356
13	Cotton	440	517	417

The above figures reveal that the main food crops are Rice, Maize, Jowar, Wheat, and Gram whereas main non-food crops are Groundnut and Cotton.

(G) *Yield per Hectares*

During the year 1971-72, 1975-76 and 1980-81 the yield per hectare of important crops in the district is as under :

Yield per Hectare

Sl. No.	Crop	1971-72	1975-76	(in Kg.) 1980-81
1	Rice	893	1,007	611
2	Wheat	1,263	2,847	2,952
3	Jowar Kharif	..	923	..
4	Jowar Ravi	567	362	678

8	Groundnut Kharif	752	1,021	810
9	Cotton	329	137	88
10	Maize	..	..	1,540
11	Tur	..	..	1,106

(d) *Crop Calendar*

The months of sowing and harvesting of different crops are given below :

Crop Calendar

Sl. No.	Crop	Months of sowing	Months of harvesting
1	Rice	June-July	September-October
2	Wheat	October-November	February-March
3	Jowar	August-September	January-Februay
4	Bajri	June-July	September-October
5	Groundnut	June-July	October
6	Cotton	June-July	January-February
7	Maize	June-July	September-October

(e) *Scarcity*

The scarcity affected villages in the district during the year 1971-72 to 1979-80 are as under :

Scarcity

Sl. No.	Year	Scarcity affected villages
1	1971-72	..
2	1972-73	1,576
3	1973-74	..
4	1974-75	1,683

6	1976-77	..
7	1977-78	..
8	1978-79	..
9	1979-80	59

[2] Irrigation

The area irrigated by different crops for the year 1971-72, 1975-76 and 1979-80 are given below.

Area Irrigated by Crops

Sl. No.	Crops	1971-72	1975-76	(in '00 hectares) 1979-80
1	Rice	33	55	16
2	Wheat	121	113	144
3	Maize	10	14	60
4	Bajri	42	24	40
5	Gram	30	19	--
6	Other food crops	44	31	74
7	Total food crops	280	256	334
8	Cotton	21	52	56
9	Tobacco	6	4	15
10	Other non-food crops	..	..	6
11	Total non-food crops	27	56	77
12	**Total gross area under irrigation**	**307**	**312**	**411**

The irrigated crops are mainly Rice, Wheat, Maize, Bajri and Cotton whereas other crops are mainly depending on the monsoon.

(b) Sources of Irrigation

[3] Co-operation

Co-operative societies has been playing an increasingly important role in the rural economy of this district during the last decade. A super structure of Co-operative societies with an apex bank at the state level, the District Central Co-operative Bank at the district level and Co-operative societies at the village level is built up with the objective of strengthening the rural economy. The agricultural credit co-operative societies advance short and medium term loans to their members for purchasing seeds, fertilizers, agricultural implements, etc. The head office of the District Co-operative bank is located at Godhra.

The details regarding Co-operative societies during the year 1971–72, 1975–76 and 1979–80 are as under.

Co-operative Societies

Sl. No.	Co-operative Societies	Item	1971–72	1975–76	1979–80
1	Primary Agricultural Credit Societies	Societies	885	877	497
		Members (in '00)	980	1,210	1,536
2	Primary Non-agricultural Credit Societies	Societies	73	98	124
		Members (in '00)	380	520	690
3	Primary Consumers Stores	Societies	10	12	9
		Members (in '00)	48	47	40
4	Primary Marketing Societies	Societies	17	15	12
		Members (in '00)	95	87	97
5	Central and State Marketing Societies	Societies	1	1	1
		Members (in '00)	2	2	4

Sl. No.	Co-operative Societies	Item	1971–72	1975–76	1979–80
6	Primary Processing Societies (including Spinning)	Societies	6	8	7
		Members (in '00)	16	33	21

27	Jhalod	28	Jhalod	The town is called Jhalod after the Jhalai Mata. There was an old Ashram of Suvrat Rishi. It is believed that the Pandavas had stayed there during their exile. This place is known as 'Panch Krishna Mandir' (five Gods temple). The construction of these temples indicate that they were probably built during the 12th or 13th century. There are two old idols of Lord Vishnu and a big idol of Lord Vasudev, the 14th incarnation in line. There is one Jama Masjid in Jhalod on the banks of a big tank. It was built by one Kaji Jafar in Hijri 1133. Within the premises of the mosque, there is a tomb of Kaji Jafar. It is said that the mosque was built during the Scindia's time. A fair is held here near Jhalai Mata on the Dassera day, Ashvin Sud 10.
28	Jhalod	71	Chakalia	There are the temples of Hanumanji and Ghugardev Mahadev carved inside the rock. Below there is a kund where a fair is held on Maha Vad 14 and another one on Falgun Sud 11.
29	Jhalod	110	Lilva Thakor	There is a temple of God Sheshnarayan and Goddess Chamunda built in 1916 A. D. It is built in the land strip of 100 feet jutting inside the tank. The Sheshnarayan Fair is held near the temple on Chaitra Sud 15. There are also ancient temples of five Gods-Ramchadra, Lakshman, Krishna, Hanumanji and Mahadev. A fair known as Panch Krishna fair is held on every Maha Sud 15 in the vicinity of these temples.
30	Jhalod	149	Mira Khedi	The place is known for the Bhil Ashram which was started in 1922 by Thakkar Bapa for the upliftment of Adivasis. A big reservoir known as the Kali dam fed by bunding the river Kali.
31	Dohad	VII	Dohad	The temple on its bank is dedicated to Dudheshwar Mahadev. As a result, the town came to be known as Dadhipadra or Dadhipurnagar, in honour of the saint, The Bhils corrupted it to 'Devada' and the Britishers into 'Dohad' The great Gujarati poet Nhanalal Dalpatram Kavi called Dohad the 'Sun-gate of Gujarat' as the rays of the sun fall on Gujarat through its eastern gate Dohad. Dohad was the seat of a Governor, and was in 1785 one of the best towns on the line of march between Gujarat and Malva. It came under the British management in 1853. Emperor Aurangzeb was born at Dohad in 1618, in the camp of his grandfather, Jahangir. On the left of the entrance gate coming from Godhra, is a lake known as the Chhab Talav or Basket pond believed to have been built by Sidharaj Solanki. The Panchmahals and is surrounded by a flight of stone-steps with strong retaining walls and a waste water sluice. The Ghanchiwada Masjid near a pond, Chandan Talav or Sandal tank. On the south bank of the river, nearly opposite the mosque and close to the banyan tree known as Bhutiyavad or Ghost-tree is a small building with a tomb inside, It is said to have been raised at the place where Aurangzeb was born in 1618. A fair is held here on the Janmashtami day. A weekly bazar is held every Wednesday.
32	Dohad	4	Chosala	The village there is a long cave containing the idol of Devkedar Mahadev. There is a temple of Shiv and Hanuman and a gaumukhi from where water is constantly flowing down over the cave rocks, which creates a beautiful natural scene and attracts visitors. A fair is held every year on the Ambli Agiarash, Falgun Sud 11. Near this place.

33	Dohad	75	Bavka	There is a very old and ruined temple of Mahadev. At the entrance of the shrine is the Figure of Ganapati holding in his hands what appears to be a battle-axe. On the outside, there are three belts of sculpture showing erotic sculptures, elephants, men and beasts. The temple was built by the courtesans at the time of the prosperity of the Hindus of Champaner (A. D. 746-1483). The temple is a protected monument. A fair is held at this village on the Ambli Agiarash, Falgun Sud 11. The Adivasis attend the fair in large numbers.
34	Dohad	92	Jesawada	The place became famous after Thakkar Bapa of the Bhil Seva Mandal established an Ashram for Adivasi boys and girls at the village during the twenties. The Holi festival, the village Panchayat organises a fair called the Gol-Gadheda fair. During the fair a wooden pole is putup with a packet of jaggery tied up in a piece of cloth at the top.
35	Limkheda	120	Mota Hathidhara	The sculpture on the outer sides of the temple includes Shiv in tandava pose and Mahakali with emaciated limbs. Brahma, Vamanavatara, Narasinhavatara, and other unidentified sculptures in the niches point out that the temple belongs to the period when the sculptures were not sumptuous, but were put up with great restraint. The broken image of Bhairava lying on the debris of the temple is decidedly post-Gupta. It can be dated as not later than 9th century A. D. A big fair is held here every year on Amali Agiarash, Falgun Sud 11.
36	Devgad Baria	IX	Devgad Baria	A fair is held at Devgad Baria during Dassera festival every year. The old Kalika Mata temple on the hill, there are temples of Ranchhodji, Gokulnathji, Radha Govind. Pataleshwar Mahadev, Garudeshwar Mahadev and the Sun temple,
37	Devgad Baria	34	Damavav	It is named after the vav or a step-well built by Damajirao Gaekwad.
38	Devgad Baria	110	Paroli	The place is a pilgrim centre for the Shwetambar Jains. There is a Jain temple dedicated to God Neminath, the 22nd tirthankar. To the right of this image there is a Shivling which is believed to be swayambhu or self-emeged. To its left there is an idol of Laxminarayan. On every full-moon day, the Jains visit this place in large numbers.
39	Devgad Baria	151	Ghoghamba	There is a Vaijanath Mahadev temple where there is a swaymbhu ling. It was constructed during the time of Patai Raval of Champaner Near this temple, there are two other temples of Hanuman and Adya-Shakti Devi. There is also a samadhi of the Mul Purush who built this temple. It is believed that this is the place where Vishvamitra Rish performed a sacrifice to send to heaven the king Trishanku with his mortal body. It is said that the ling is installed at the place where the sacrifice was performed by Vishvamitra. The ling seems, therefore, to be very old.

VII. Brief Analysis of the Village and Town Directory and Primary Census Abstract Data Based on Inset Tables

NOTE ON VILLAGE DIRECTORY

The different type of amenities available at the village level in each of the talukas of the district has been tabulated in the form of Village Directory. The statement shows the different types of amenities and land-use in each village. At the end of the Village Directory a talukawise abstract of all the amenities has been prepared and printed as Appendix-I.

It can be seen from the Appendix-I that out of 1,895 inhabited villages. 1,720 villages have primary education facilities and 175 villages are without primary school. The number of villages where the primary school is not available are 8 in Godhra taluka, 9 in Halol taluka, 1 in Shehera Taluka, 44 in Lunawada taluka, 74 in Santrampur taluka, 6 in Jhalod taluka, 2 in Dohad taluka, 18 in Limkheda taluka, 4 in Devgadh Baria taluka and 9 in Jambughoda Mahal. The taluka of Kalol is fully covered with primary education facility.

There are 47 villages in the district which have dispensary, 4 villages in the district have hospitals whereas 49 villages have maternity and child welfare centres, 22 villages have primary health centres, 251 villages have family planning centres, 225 villages have primary health sub-centres. There are in all 1,001 villages having community health workers.

As regards drinking water ordinary surface wells are the main sources of the drinking water facility and 1,882 villages have such types of wells. There are only 30 villages where water is available through tap and 22 villages where water is available through tubewells, whereas 185 villages get supply through canal. In addition there are 921 tanks and 692 villages are also on the river side. All the villages have drinking water facility, however, this will not mean that aboundant water supply is available through out the year at all these sources.

In respect of post, telegraph and phone facilities, 466 villages have post offices, and 2 villages have post and telegraph facility whereas 64 villages have post office and phone facilities, 21 villages have post, telegraph and phone facilities and 6 villages have only phone facility.

Out of 1,895 villages, 1,223 villages have facility for a bus-stop. The villages where bus-stop is not available are 50 in Godhra, 18 in Kalol, 34 in Halol, 23 in Shehera, 86 in Lunavada, 145 in Santrampur, 37 in Jhalod, 29 in Dohad, 147 in Limkheda, 74 in Devgad Baria and 29 in Jambughoda.

There are 26 railway stations in the district and 13 villages have navigable water way.

As regards the electric power supply, out of 1895 villages, 443 villages have electric power supply either for domestic or agricultural or industrial purpose. This means that only 23.38 per cent of the villages have been electrified in the district. The highest percentage of electrification is recorded In Kalol taluka, which is 64.71 per cent. The other talukas/ Mahal are below these percentages.

On the basis of the amenities noted in the Village Directory, a brief analysis of the different amenities has been made, which is as follows :

	Total	**1,895**	**869,268**	**588,624 (67.71)**	**28,791 (4.89)**

The irrigated area to total cultivable area in the district is 4.89 per cent. Kalol taluka has the highest per cent of cultivable area to total area is 82.81 per cent followed by Jhalod with 75.24 per cent whereas the percentage of other talukas varies between 56 to 74 As regards irrigation facility Kalol has irrigation facilities with 19.93 per cent followed by Lunavada with 8.38 per cent and Shehera with 5.24 per cent to total cultivable area, whereas Santrampur with 1.93 and Jambughoda Mahal with 2.42 per cent are very low in irrigation.

Note on Town Directory

The list of urban areas for the purpose of 1981 Census was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any areas an 'urban area' :

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria :

(i) A minimum population of 5,000;

(ii) At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity;

(iii) A population of at least 400 persons per sq. km. or a population of 1,000 persons per sq. mile.

The Town Directory has been compiled in seven statements given in the Section II

for all the urban areas of the district. For presentation of the data the towns of the district have been arranged in alphabetical order. The details of the data covered in these statements are as follow :

Note on Statement I

Townwise details relating to status and growth history are given in this statement by arranging the towns in alphabetical order. The civic administrative status of each town has been recorded in Col. 2 of the statement, Col. 5 shows the area of the town in sq. kms. whereas Col. 6 shows the number of households including houseless population. Cols. 7 to 15 show the decadal growth history beginning from 1901 to 1981. The last Cols. 16 to 19 shows the density and sex ratio of 1961, 1971 and 1981 for each of these towns. Out of 9 towns, 2 towns have municipalities, 5 towns have Nagar Panchayats, one has Village Panchayat and the remaining town is Non-Municipal town. The maximum population of 86,228 persons is found in Godhra, followed by Dohad Urban agglomeration with a population of 82,256 persons. There are four towns, namely, Devgad Baria, Freelandgunj, Halol and Lunavada which have a population of more than 15,000 but less than 25,000, whereas the remaining towns are below the population of 15,000. Shivrajpur has a population only 4,872 persons and is very small town.

The population growth rate of the different towns from 1901 to 1981 have been shown from cols. 7 to cols. 15 of statement-I. It will be seen from this statement that during the last decade, Lunavada, shown the maximum growth rate of 29.14 followed by Godhra, Kalol and Santrampur having the growth rate 28.98,28.88 and 28.86 per cent respectively. Halol town has a growth rate of 27.14 per cent which is above the normal average growth rate of the district. The rest of the town of Devgad Baria, Dohad, Freelandgunj and Shivrajpur are below the growth rate of 25.58 during the last decade.

Note on Statements II

This statement gives the physical aspects of the location particulars of towns.

Particulars regarding temperature and rainfalls have been obtained from the Director General of Observatories, Meterological Department, Government of India.

Distance between Gandhinagar the State Headquarters and the towns of the district vary from the minimum of 159 kms. of Lunavada to a maximum of 257 kms. of Freelandgunj. The District Headquarters Godhra is 169 kms. away from Gandhinagar the State Headquarters. All the towns have bus facilities and all the towns, except Freelandgunj, Kalol and Santrampur, are connected by railways.

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE FOR PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1981 Census provides information in respect of each village in rural area and town/ward in urban area. It gives information about the area of the village in hectares and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literates. The entire population of village/town/ward is divided into main workers, marginal workers and non-workers and main workers are further divided into four broad industrial categories as under :

1 Cultivators (I)

2 Agricultural Labourers (II)

3 Household Industry -
Manufacturing, Processing, Servicing and Repairs [V(a)]

4 Other Workers [III, IV, V(b) & VI to IX]

The sexwise break-up of total main workers (industrial category I to IX) has been presented in addition to similar break-up for each broad industrial category of workers, marginal workers and non-workers.

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :

1	Municipal Corporation	MC
2	Municipality	M
3	Non-Municipal Area	NM
4	Nagar Panchayat	NP
5	Village Panchayat	VP
6	Cantonment	Cantt.
7	Notified Area	n. a.
8	Industrial Notified Area	INA
9	Not Available	NA
10	Urban Agglomeration	UA
11	Out-Growth	OG

The following conversion factor has been used for converting acres into hectares and hectares into Km^2 :

Acres x 0.40467 = Hectares

Hectares x 100 = Km^2.

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local authorities. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.
