PREFACE

The District Census Handbooks were published for the first time in 1951 as part of the Census publication programme.

Each Handbook contained a general account of the district and its people, census tables and statistics on the area, houses, population, general amenities and distribution of population by livelihood classes for each village and town. The 1961 District Census Handbooks were a distinct improvement on the 1951 volumes. A uniform procedure was adopted for the preparation of the Handbooks. Each Handbook contained three parts as detailed below :

Part A. General, dealing with a general introduction about the district, its progress on various fields of general amenities since 1951 and an analysis of population by various demographic characteristics.

Part B. Census data, dealing with the census tables of 1961 pertaining to the district.

Part C. Village/Town Directory, dealing with the amenities, Primary Census Abstract down to the level of karas/muris/desoms in the case of rural areas and blocks and wards in the case of urban areas and number of industrial establishments by type.

District and taluk maps were also incorporated in each District Census Handbook.

In 1971 also it has been decided to adopt more or less the same pattern and publish the District Census Handbooks in three parts as given below :

Part A. Town and Village Directory

Part B. Village and Town Primary Census Abstract

Part C. Administrative Statistics and Report

It is proposed to print and publish Parts A and B relating to a District in a single volume with a view to making it available to the public as soon as the information is collected and compiled. Part C will be printed as a separate volume.

The collection and compilation of data for Part A were done by the office of the Director of Census Operations, Kerala through specially designed schedules for villages and towns. The information on rural areas was furnished by the Tahsildars and on the urban areas by the concerned Municipal/Corporation Commissioners. While Part B of the Handbook presents the Village and Town Primary Census Abstract, Part C gives the Report and Administrative Statistics processed from information collected from the various Central and State Government Offices.

A special feature of the publication of the Handbook in 1971 is the presentation of Primary Census Abstract not only for villages but also for the Panchayats. This is the first time that an attempt has been made to present panchayat-wise figures. The additional work involved in the new venture is more than justified in view of the growing importance of panchayats in administration.

On the recommendation of Registrar General, India, the Government of Kerala have agreed to bring out these volumes as State Government publications and issued orders in G.O. MS. No. 199/70/PD., dated 17th June 1970. The printing of the Handbooks was undertaken by the Superintendent of Government Presses, Trivandrum.

It is not possible to have compiled a book of this kind without the co-operation and good-will extended by the various State and Central Government Offices. I am grateful to them for their co-operation. The District Census Handbook section of my office functioned under the direct control of Shri B. T. Pillai, Deputy Director of Census Operations (Tabulation) and he was assisted by a Tabulation Officer and necessary staff. Shri S. Jayashanker was the Tabulation Officer in charge of the section at the time of addressing the various departments for collection of information. At the time of compilation of the District Census Handbook Smt. C. Kamalam took charge as the Tabulation Officer. I feel very happy in acknowledging the valuable contributions made by these officers and other members of the staff in my office, especially Smt. K. Sulabhamma, Statistical Assistant and Smt. K. Saradambal and Smt. A. Parvathi Kumari, Computors and Shri G. Sivadasan, Assistant Compiler in the compilation of this important work. Sarvashri K. Krishna Pillai and R. Prabhakaran have prepared the maps included in this volume. The brunt of the proof reading was cheerfully borne by Shri N. Ravindranathan Thampi, Printing Inspector and Sarvashri N. Aravindan and N. Madhavan, Proof Readers.

I would like to place on record my deep sense of gratitude to Shri P. Kurien John, Superintendent of Government Presses for the warm co-operation extended by him for the timely printing of the Handbook. I also wish to place on record my appreciation of the excellent work done by M. Harihara Subramonia Iyer, Deputy Superintendent, Government Press, Ernakulam and his efficient colleagues in executing the printing of this book neatly and in record time.

I shall be failing in my duty if I do not place on record my gratefulness to Shri A. Chandra Sekhar, I.A.S., Registrar General for the valuable guidance and help extended to me in this work.

Trivandrum,
20th June 1973.

K. NARAYANAN,
Director of Census Operations.

PART A

TOWN AND VILLAGE DIRECTORY

INTRODUCTION

This Part comprises Town and Village Directory of Palghat district. The Town Directory furnishes data for each town in the district in respect of the status of the town administration, its origin, growth of population, functional category of the town, physical aspects and location, latest municipal finance, civic and other amenities, medical, educational and cultural facilities, trade, industry, commerce and banking facilities. The Village Directory includes details of amenities available in each village in respect of educational and medical institutions, power supply, drinking water supply, post and telegraph, communications, weekly markets, places of religious, historical or archaeological interest and particulars of land use.

2. The details were furnished by the Tahsildars and the Commissioners of the Municipalities and compiled and processed at the Office of the Director of Census Operations.

Census Town

3. Owing to the growing importance of urbanisation, the 1961 Census laid down a uniform three-fold criteria for classification of places as towns. Corporations, Municipalities, Cantonments and Townships were automatically recognised as towns. The following were the three criteria adopted for treating the other areas as towns:

(i) Places with a minimum population of 5,000 persons;
(ii) A density of not less than 1,000 persons per sq. mile;
(iii) At least 75% of the male population should follow non-agricultural livelihoods.

However, places which did not satisfy the above criteria but had definite urban characteristics like newly established industrial areas, large housing settlements, places of tourist and pilgrim importance, etc., were also treated as towns as exceptional cases on the recommendation of the State Government. The definition of Census Town remained unchanged in 1971.

4. There are eight towns in Palghat district, viz., Chittur-Thathamangalam, Hemambikanagar, Mannarghat, Nemmara, Ottapalam, Palghat, Pattambi and Shoranur. Of these Chittur-Thathamangalam and Palghat are municipal towns while the others are towns declared as such for Census purposes. Two towns Hemambikanagar and Mannarghat were declared as towns for the first time in 1971 Census. Since 1961 Census, there has been an increase in the jurisdiction of Shoranur town. In the case of Ottapalam and Pattambi towns there has been a change in jurisdiction. The following table gives the list of Census towns in 1961 and 1971.

Standard Urban Area

5. The 1961 Census reports contained particulars of town-groups. These town-groups were formed with a view to identifying functionally linked urban areas, urban spills beyond the administrative boundaries and metropolitan conurbation. In most cases the town-groups did not bring out spatially contiguous territory of urban-rural settlements. Therefore, in 1971, the 'town-group' concept was given up and a new concept of 'Standard Urban Area' was evolved. The Standard Urban Area may be defined as the projected growth area of a city or a town as it would be in 1991 taking into account not only the towns and villages which will get merged into it but also the intervening areas which are potentially urban. All municipal towns with an estimated population of 50,000 or more by 1971 were considered to be treated as standard urban areas. The demarcation of standard urban area was jointly done by the Town Planning Department of the Government of Kerala, Office of the Director of Census Operations, Kerala, Office of the Registrar-General, India and the Central Town and Country Planning Organisation, New Delhi. There is only one standard urban area in Palghat district, viz. Palghat. The standard urban area of Palghat is the area covered by Palghat Municipality and the peripheral villages with urban potentialities. The constituent units of the standard urban area are given below:

TOWN DIRECTORY

6. The Town Directory is presented in the form of six statements.

Statement I

7. This statement gives the civic administration status, population from 1901 to 1971 and the predominant functional category of each town for 1961 and 1971.

8. The functional character of a town was decided in 1961 as per the following procedure. In 1961 the workers were grouped under nine industrial categories as shown below:

I Cultivators
II Agricultural labourers
III Mining, quarrying, live-stock, forestry, fishing hunting and plantations, orchards and allied activities
IV Household industry
V Manufacturing other than household industry
VI Construction
VII Trade and commerce
VIII Transport, storage and communications
IX Other services

These nine industrial categories of workers were first grouped as:

(i) Agriculture and its allied activities (Categories I, II and III)
(ii) Industries including construction (Categories IV, V and VI)
(iii) Trade and commerce (Category VII)
(iv) Transport, storage and communications (Category VIII) and
(v) Other services (Category IX)

The percentage of workers in each of the above five groups to the total workers in the town was worked out. If any one single group takes in 40 per cent or more of the total workers, that town will be designated by the corresponding function, viz., primary activity for the first group, industrial for the second, commercial for the third, transport for the fourth and service for the fifth group. If the highest percentage is less than 40, then the next predominant group is added. If the two groups together take in a minimum of 60 per cent of the total workers, the town will then be designated by both the functions, e.g., industrial-cum-transport. When the sum of the two groups does not reach 60 per cent then the third predominant group is taken into account and the town is designated by all the three functions.

9. The same procedure is followed in deciding the predominant functional character of the town in 1971 also. It must, however, be pointed out that in 1971 census the workers were grouped under slightly different nine industrial categories. They are,

I Cultivators
II Agricultural labourers
III Live-stock, forestry, fishing, hunting and plantations, orchards, and allied activities
IV Mining and quarrying
V Manufacturing, processing, servicing and repairs
(a) Household industry
(b) Other than household industry
VI Construction
VII Trade and commerce
VIII Transport, storage and communications
IX Other services

The above categories are grouped as:

(i) *Primary activity*: Agriculture and its allied activities (Categories I, II, III and IV)
(ii) *Industrial*: Industries including construction [Categories V (a) V (b) and VI]
(iii) *Commercial*: Trade and commerce (Category VII)
(iv) *Transport*: Transport, storage and communications (Category VIII)
(v) *Service*: Other services (Category IX)

Based on the above criteria the towns of the district have been classified into the following functional categories.

TABLE 3
FUNCTIONAL CATEGORY OF TOWNS, 1971

Functional category 1	Name of town (s) 2
Primary activity	Nemmara
Transport	Hemambikanagar
Primary activity-cum-service-cum-Industrial	Pattambi, Ottapalam, Mannarghat
Primary activity-cum-Industrial-cum-service	Chittur-Thathamangalam
Transport-cum-primary activity-cum-service	Shoranur
Service - cum - commercial - cum-Industrial	Palghat

Statement II

10. The second statement gives the location and physical aspects of the town. It also furnishes details of the nearest railway station, navigable river/canal, sea-port etc. The bus route and road facilities available in each town are also given in the statement. There is no sea-port within the district. Palghat is the district and taluk headquarters. The distance of other towns from Palghat have also been indicated in the statement. Railway facilities are available for the towns Chittur-Thathamangalam, Ottapalam, Palghat, Pattambi and Shoranur within a distance of 10 km. Hemambikanagar is the headquarters of the Olavakkot Railway Division.

Statement III

11. The third statement gives an idea of the municipal finance of Chittur-Thathamangalam and Palghat municipalities of the district. It has been possible to present the statement of receipt and expenditure of these municipalities for the year 1969–70 obtained from the Municipal Commissioners. In the case of Hemambikanagar, Mannarghat, Nemmara, Ottapalam, Pattambi and Shoranur which are non-municipal towns it was not possible to obtain and present these figures. Table 4 gives the per capita receipt and expenditure of these two municipalities.

M—Municipality

Statement IV

12. Statement IV indicates the civic and other amenities available in the towns i.e. details on system of sewerage, method of disposal of night soil, drinking water facilities, electrical facilities etc. All the towns are electrified and Palghat municipality alone has got the facility of fire fighting service.

Statement V

13. Medical, educational, recreational and cultural facilities available in the various towns are furnished in this statement. It may be seen from the statement that medical facilities are available in all the towns except Hemambikanagar. Taking into consideration all the medical institutions (other than private institutions) there are 647 beds in the urban area of the district. This works out to an average of 3 beds per 1,000 population as against 8 beds per 1,000 population in Trivandrum district. Five out of 8 towns in the district have got college facilities. The only Engineering college of the district is situated in Akathethara village about 6 km. from Palghat town.

14. The school educational system adopted in Kerala is as follows. At present the duration of school course is 10 years; standards I to IV constitute the Lower Primary section while standards V to VII constitute the Upper Primary (Middle) section. The Secondary (High) School section has standards VIII, IX and X.

Statement VI

15. Statement VI gives details in respect of trade, commerce, industry and banking.

VILLAGE DIRECTORY

16. The Village Directory gives details in respect of medical, educational, electrical and drinking water facilities available in the villages besides giving an idea of the pattern of land use in the villages. The area of each village, in square kilometres is also indicated in the Village Directory. In this connection it may be pointed out that the area figures were collected from the Tahsildars as well as from the Director of Survey and Land Records. In a few cases it is seen that the area of the village as given by the Tahsildars do not agree with the area furnished by the Director of Survey and Land Records. Since the break-up of the area of villages according to type of land use is presented in this part and since this information can be furnished only by the Tahsildars the area figures as given by Tahsildars are adopted. In Part B of District Census Handbook where the Primary Census Abstract is presented down to the village level, the area of villages as furnished by the Director of Survey and Land Records is adopted. The following table gives the distribution of villages in the district by size.

TABLE 5

DISTRIBUTION OF VILLAGES BY SIZE

1	2
Less than 1	..
1.0—2.4	..
2.5—4.9	2

15.0—19.9	33
20.0—24.9	34
25.0—29.9	14
30.0 and above	19

Educational Facilities

17. The extent of educational facilities available in the villages can be studied more profitably with the following table. It gives the categorisation of villages according to the distances from the nearest town. The number of villages having primary schools, middle schools, high schools, and colleges for these categories are also indicated. Hundred and fifteen villages are within 25 km. of the nearest town. Nearly one third of the total number of villages in the district are within 10 km. of the nearest town. Only two villages have colleges, 66 villages have high schools and 112 villages have middle schools.

TABLE 6

Medical Facilities

18. Under medical facilities, details of both public and private institutions are given. Most of the villages in the district have got medical facilities of one kind or the other. The table below gives the number of medical institutions per 100 sq. km. of area in each taluk.

TABLE 7

Communication Facilities

19. From the point of view of communication it is seen that though all the villages in the district are served by pucca roads only 18 villages have railway facilities within 2 km. The following table gives the distribution of the villages in the district by the distance from the nearest railway station.

TABLE 8

Post and Telegraph Facilities

20. One hundred and twenty one villages have post offices, 54 villages have telegraph offices, 38 villages have public call facilities. The table below gives the details of post and telegraph facilities available in each taluk of the district.

TABLE 9

POST AND TELEGRAPH FACILITIES

Land Utilisation

21. For the first time an attempt has been made to collect data on land utilisation. For this purpose the total area has been classified into five types viz. (1) Forest area (2) Irrigated land (3) Unirrigated land (4) Culturable waste and (5) Area not available for cultivation. The pattern of land use in the various taluks of this district is approximately brought out in the following table.

TABLE 10

PERCENTAGE DISTRIBUTION OF LAND BY TYPE OF USE IN THE RURAL AREAS OF THE TALUKS

22. An abstract showing the educational, medical and other facilities available in the rural areas of each taluk and the district is also presented in this volume.

Definitions

23. The definitions of certain terms adopted are furnished below:

I Classification of electrical energy (adopted by K.S.E.B.)

Domestic: Lights and combined installations of lights and fans and radios for domestic and non-commercial purpose. Domestic consumers and non-commercial institutions whose connected loads other than that of lights and fans exceed 1KW. and domestic heat and small power including refrigeration, cookers, sewing machines and other appliances for domestic use upto and including 3 H.P.

Industrial : Power at 400 Volts or lower which includes industrial general purposes i.e. power supply for electric boilers, large cookers, ovens etc.

Commercial : This includes display lighting, neon signs, photography, commercial and non-domestic heat and small power load upto and including 3 H. P. and cinematograph and motion picture studios.

Road lighting: Public lighting including light house, main lamps, street lights installed in private institutions where Board's line exist.

Agricultural: Power at 3 H.P. and above—Power used for dewatering and lift irrigation and poultry live-stock farms under Animal Husbandry Department come under this category.

Others:

1. Power at 11 KV for industrial purposes
2. Power for extra high tension consumers
   - (*i*) 66 KV—Power intensive
   - (*ii*) 66 KV—Non-power intensive
   - (*iii*) 110 KV—Power intensive
   - (*iv*) 110 KV—Non-power intensive
3. Temporary illumination including exhibition.

II Land use pattern

Forest: This includes all actually forested areas on the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private.

Irrigated and unirrigated lands: This covers all agricultural lands and includes net area sown with

crops and orchards and also current and other fallows. The fallow lands include all lands which were taken up for cultivation for a period of not less than one year and not more than five years. In case of irrigated land sources of irrigation are canal, tank, well, tube well etc.

Culturable waste: This includes lands available for cultivation whether or not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. These may be assessed or unassessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category. Lands under thatching grasses, bamboo bushes and other groves for fuels, which are not included under orchards or forests shall also come under this head. All grazing lands, whether they are permanent pastures and meadows or not; village common and grazing lands within forest areas are included in this category.

Area not available for cultivation: This includes lands not available for cultivation such as barren, unculturable and land put to non-agricultural use. Land put to non-agricultural use stands for all lands occupied by building, roads and railways or under water e.g. rivers and canals, and other lands put to uses other than agricultural. Barrén and unculturable land covers all barren and unculturable lands like mountains, deserts etc. Lands which cannot be brought under cultivation unless at a high cost are classified as uncultivable whether such land is in isolated blocks or within cultivated holdings.

PART B

PRIMARY CENSUS ABSTRACT

INTRODUCTION

Situation and administrative units

Palghat district is bounded on the north by Malappuram district and Nilgiris district of Tamil Nadu on the east by Coimbatore district of Tamil Nadu, on the south by Trichur district and on the west by Trichur and Malappuram districts. It is situated between north latitudes 10° 20′ and 11° 14′ and east longitudes 76° 02′ and 76° 54′. This district has five taluks viz., Ottapalam, Mannarghat, Palghat, Chittur and Alathur. There are 152 revenue villages and 8 towns. Of the eight towns viz. Pattambi, Shoranur, Ottapalam, Mannarghat, Hemambikanagar, Palghat, Chittur–Thathamangalam and Nemmara, two are municipalities and the others are non-municipal towns declared as such for census purposes. There are 12 development blocks and 89 panchayats in the district as on 1-4-1971. The following table gives the details of the administrative units of the district.

Area and physical features

2. The area of Palghat district as furnished by the Surveyor General, India is 4400·0 km². As far as the district-wise area figures are concerned, the figures furnished by the Surveyor General, India have been adopted, while for the taluks, the figures furnished by the State Director of Survey and Land Records have been presented in this part. Area of municipalities were obtained from the local bodies.

3. Based on the physical features, the entire State is divided into three natural divisions viz., (i) the mountainous region—Highland (ii) the flat coastal belt—Lowland and (iii) the undulating area in between the above two regions—Midland. The classification into natural divisions is as follows. The region which lies below 25 feet above the mean sea level is classified as lowland, that between 25 feet and 250 ft. above mean sea level as midland and the remaining region which is covered by forests and mountains as higland. While Ottapalam taluk lies completely in midland region all other taluks lie in highland and midland regions. The following table gives the population by natural divisions.

Population and growth rate

4. The Census enumeration was originally programmed to commence on the 10th February and end on 28th February 1971, the reference date for the census being the sunrise of 1st March 1971. The mid-term Elections to the Fifth Parliament made it necessary to postpone the census enumeration by a month. The enumeration, therefore, commenced on the 10th March and ended on 31st March 1971 with the reference date as the sunrise of 1st April 1971. The population of Palghat district as at the sunrise of 1st April 1971 is 1,685,342 of which 819,571 are males and 865,771 are females. The net addition to the population of the district between 1961 and 1971 is 315,842 thereby recording a decennial growth rate of 23·06% during the decade as against the State growth rate of 26·29%. The rate of growth recorded during the previous decade 1951–61 was 12·79%. The table given hereunder shows the population of the district from 1901 onwards and the decennial growth rates.

5. Among the taluks of the district, Mannarghat taluk has the highest growth rate of 39·79% during the decade while Chittur ranks last with 15·32%. Highest percentage of population of the district is claimed by Ottapalam taluk (30·97%), while Mannarghat taluk comes last with 10·95%. Table 4 below furnishes taluk-wise population and decennial growth rate.

Rural-Urban distribution

6. Owing to the growing importance of urbanisation, the 1961 census laid down a uniform three-fold criteria for classification of places as towns. Corporations, Municipalities, Cantonments and Townships were automatically recognised as towns. The following were the three-fold criteria adopted for treating the other areas as towns:

(i) Places with a minimum population of 5,000 persons,

(ii) A density of not less than 1,000 persons per sq. mile (400 persons per sq. km.) and

(iii) At least 75% of the male population should follow non-agricultural livelihoods.

However, places which did not satisfy the above criteria but had definite urban characteristics like newly established industrial areas, large housing settlements, places of tourist and pilgrim importance etc., were also treated as towns as exceptional cases on the recommendation of the State Government. The definition of census towns remained unchanged in 1971.

7. There are 8 towns in Palghat district, viz., Pattambi, Shoranur, Ottapalam, Mannarghat, Hemambikanagar, Palghat, Chittur-Thathamangalam and Nemmara. Of these, Palghat and Chittur-Thathamangalam are municipal towns while the others are towns declared as such for census purposes. Two towns, Mannarghat and Hemambikanagar were declared as towns for the first time in 1971 census. Since 1961 census there has been an increase in the jurisdiction of Shoranur town. There has been changes in jurisdiction in the case of Ottapalam and Pattambi towns. All the above 8 towns together have 12·70% of the total population of the district. The following table presents the rural-urban distribution of population of the district.

Working population

21. The total number of workers in the district as per the 1971 census count is 604,825 of which 402,083 are males and 202,742 are females. 35·89 % of the total population is returned as workers. The work participation rates for males and females are 49·06 and 23·42 respectively. The percentage of workers to total population shows a decline from 40·47 in 1961 to 35·89 in 1971. The same trend is noticed in all the taluks of the district. The decline in the percentage of working force to a large extent would be attributable to the definition placed on the term 'worker' in the 1971 Census.

22. In 1971, a worker was defined as 'a person whose main activity is participation in any economically productive work by his/her physical or mental activity' whereas in 1961 Census a worker was taken to mean a person who engaged himself/herself in any economically productive work without regard to his/her main activity. According to the 1971 definition

'a man or a woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or girl who is primarily a student attending an institution, even if such a person helps in the family economic activity, not as a full-time worker should not be treated as a worker for the main activity. Such participation in economically productive work was regarded as secondary work of the particular person. But such categories of persons were classified as workers during 1961 Census. In 1961, in the case of regular employment in any trade, profession, service, business or commerce a person was taken as a worker if he was employed during any of the fifteen days preceding the day on which he was enumerated. But in 1971 Census the reference period was only one week prior to the date of enumeration in the case of regular work in trade, profession, service, etc. The data relating to the secondary work and the results of the survey regarding the comparability of economic questions in 1961 and 1971 Censuses will throw some more light on the reasons for the decline of the working force in 1971. The following table gives the workers and work participation rates for the district and taluks.

24. The total population has been divided broadly into two viz. workers and non-workers. The workers have been further divided into industrial categories. In 1961 the workers were grouped under nine industrial categories as shown below :

I Cultivators
II Agricultural labourers
III Mining, quarrying, live-stock, forestry, fishing, hunting and plantations, orchards and allied activities
IV Household industry
V Manufacturing other than household industry
VI Construction
VII Trade and commerce
VIII Transport, storage and communications
IX Other services

In 1971 Census, the workers were grouped under slightly different nine industrial categories. They are:

I Cultivators
II Agricultural labourers
III Live-stock, forestry, fishing, hunting and plantations, orchards and allied activities

IV Mining and quarrying

V Manufacturing, processing, servicing and repairs

(a) Household industry

(b) Other than household industry

VI Construction

VII Trade and commerce

VIII Transport, storage and communications

IX Other services

25. Among the total workers 15·74% are cultivators and 48·42% are agricultural labourers. 19·93% of the male workers are cultivators and 35·14% are agricultural labourers and among the female workers 7·44% and 74·76% are cultivators and agricultural labourers respectively.

26. The following table gives the distribution of workers of the district into nine industrial categories by sex.

* This represents 'Geographical area' supplied by the Surveyor General. Figures for urban area are supplied by the local bodies. Area figures for rural area are derived by subtracting the urban area from the total area of the district. The total of the area figures of the taluks will not tally with the district figure because the former represents 'land use' area and are derived from the figures supplied by the Director of Survey and Land Records.
