25 Volumes of District Census Handbooks in English

25 Volumes of District Census Handbooks in Marathi

Alphabetical List of Villages in Maharashtra

J-1813—i-B—(Osmanabad).

PREFACE

On the suggestion of the Census Commissioner, India, the Government of Maharashtra decided to publish the District Census Handbooks on the basis of the material collected during the 1961 Census for all the districts in Maharashtra. A Committee consisting of the Executive Editor and Secretary of the District Gazetteers (Revision) Editorial Board, the Superintendent of Census Operations, Maharashtra, and the Director, Bureau of Economics and Statistics, Maharashtra, was appointed to determine the contents and review the drafts of each volume. This is one of the twenty-five volumes compiled in the Maharashtra Census Office and published under that scheme.

District Handbooks had been published from the 1951 Census data also. As in the past, the present volume contains a set of 1961 Census Tables for the district and also presents basic demographic and economic information for each village separately. The following improvements have, however, been made in the 1961 series :—

(i) The addition of a comprehensive note introducing the district ;
(ii) The four-coloured map of the district ;
(iii) Taluka maps showing the location of each village in the district supplemented by alphabetical lists of villages ;
(iv) Supplementary information showing basic amenities available for each village ; and
(v) Addition of Part III containing 33 Tables on other official statistics.

These new features will make the volume a valuable reference for the Central and State Governments, District Administrators, departments engaged in planning and development work, legislators, private trade and business. Need for such material is far greater today as the functions of planning and implementation of development schemes have now percolated to district, taluka and village levels.

Marathi version of this volume is also being issued separately.

Part I of the volume presents villagewise statistics, Part II contains the 1961 Census Tables prepared for the district and Part III contains official statistics on Climate, Rainfall, Agriculture, Industry, Education, Health and a few other aspects. An explanatory note is added at the beginning of each part to describe the layout of the Tables and the terms or concepts used. Parts I and II are based entirely on the data collected at the 1961 Census. Part III is based on the material furnished by the District Statistical Officer and the officers of the departments concerned. Villagewise populations shown in Part I are valid for Sunrise of 1st March 1961 and are not adjusted for seasonal migration to or from other areas.

The introductory note at the beginning of the volume describes the present administrative set-up and some of the socio-economic facets of life in the district. It will illustrate how the statistics presented in the volume could be used for economic accounting or as controls of plan achievements in the district. For this note, we have drawn heavily on the District Gazetteers,

Survey and Settlement Reports, Annual Administration Reports and other Government publications. Some Heads of Departments also supplied the latest available material for the volume. We are indebted to them all.

Any views expressed in the introductory note or elsewhere in the volume are personal and the Government is not responsible for them.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I should specially mention Shri N. Y. Gore, Tabulation Officer, for his sincere and thorough work on compilation and proof reading of Part I, Shri G. S. Gokarn, Tabulation Officer, for his painstaking work on MSS and proofs of Parts II and III, Shri S. K. Deshpande, Shri D. G. Pansare and Shri R. E.Chowdhary for assistance in preparing the introductory note, Shri S. Y. Pradhan and Shri B. M. Nagarkar, Draughtsmen, for Maps, Charts and Diagrams. Shri S. G. Deshpande of our office at Nagpur looked after the layout of the Tables and printing of the volume. Shri R. G. Phadke and Shri D. V. Rangnekar, Deputy Superintendents of Census Operations, and Shri G. M. Rajadhyaksha, Tabulation Officer, made valuable contributions at all stages and specially in the preparation of notes. Acknowledgments are due to Shri S. R. Desai, Manager, Government Press and Book Depot, Nagpur, and Shri J. D. Gandhi, Manager, Government Photozincographic Press, Poona. In spite of heavy pressure of work on their presses they did their best to print this volume speedily.

I am obliged to Shri Asok Mitra, I.C.S., Census Commissioner, India, for valuable suggestions for improving this volume. I am also indebted to Shri Setu Madhava Rao and Shri M. A. Telang, Members of the District Census Handbook Committee, who not only supplied useful material from their departments but also read through the MSS and encouraged us through this venture.

POONA: B. A. KULKARNI

The 1st December 1965.

INTRODUCING THE DISTRICT

This note describes the administrative set-up and some socio-economic facets of life in the district

THE DISTRICT IN MAHARASHTRA

FIG. 2

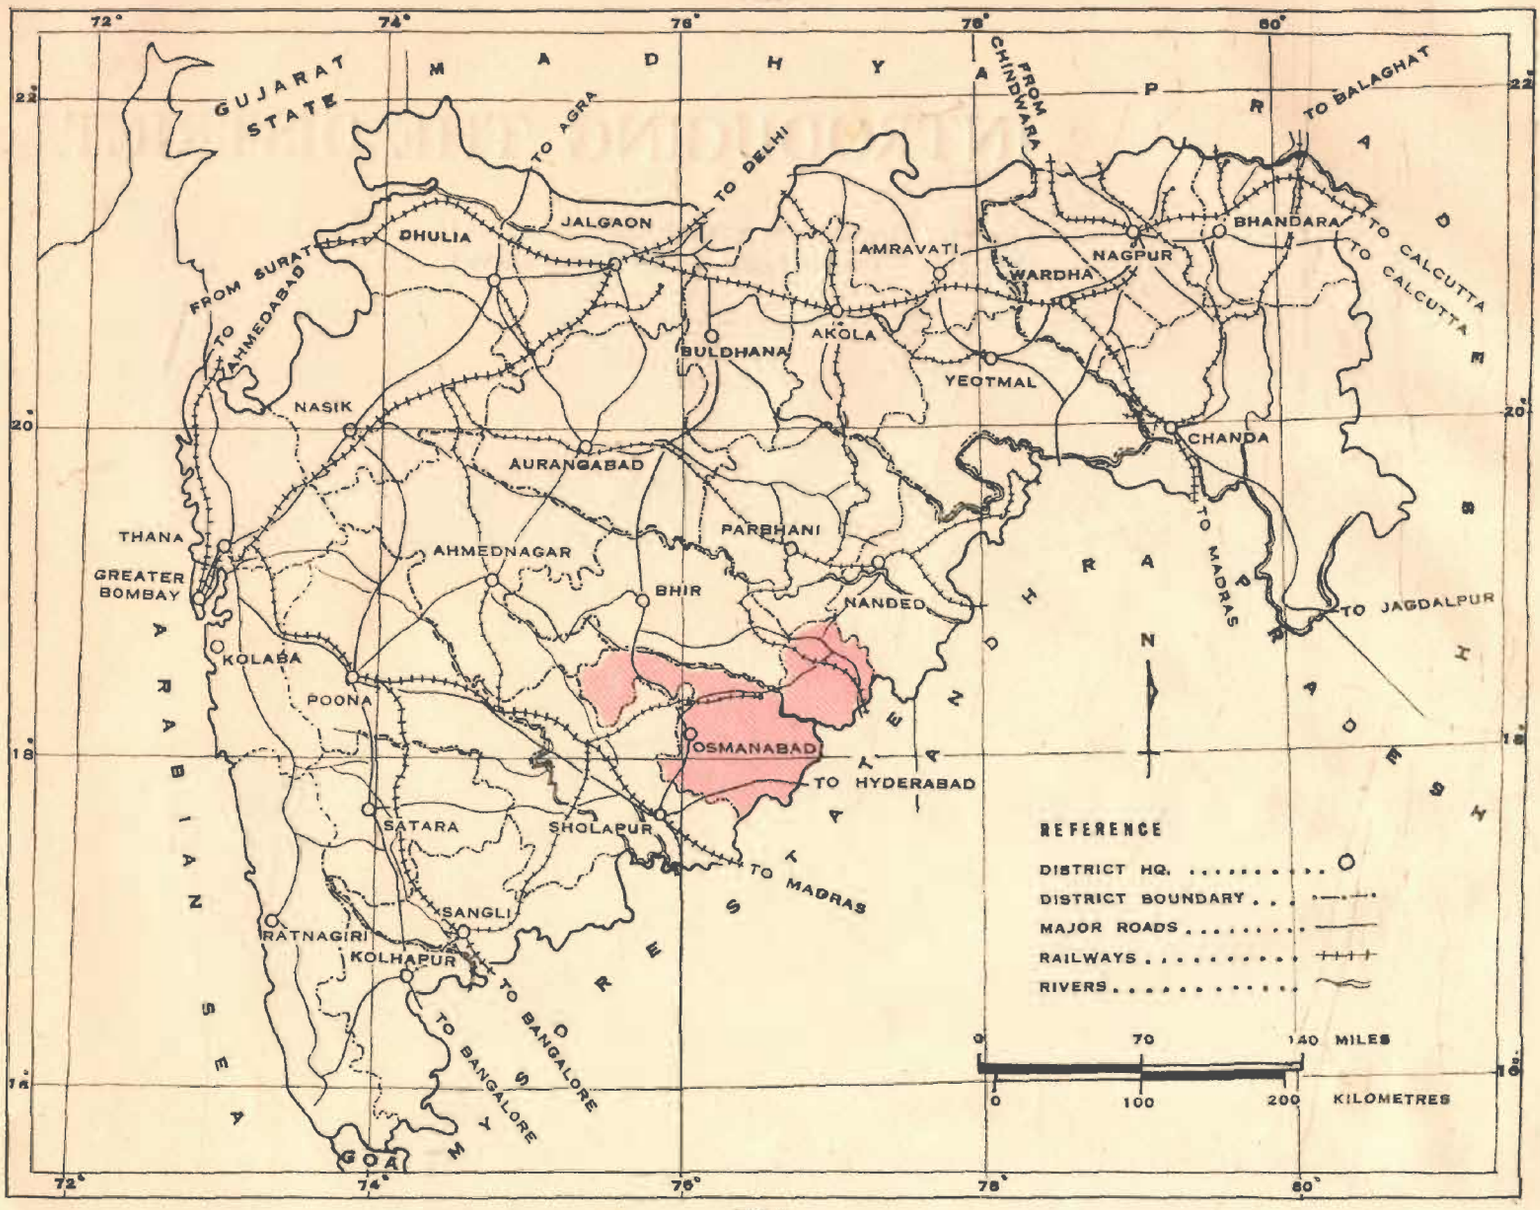

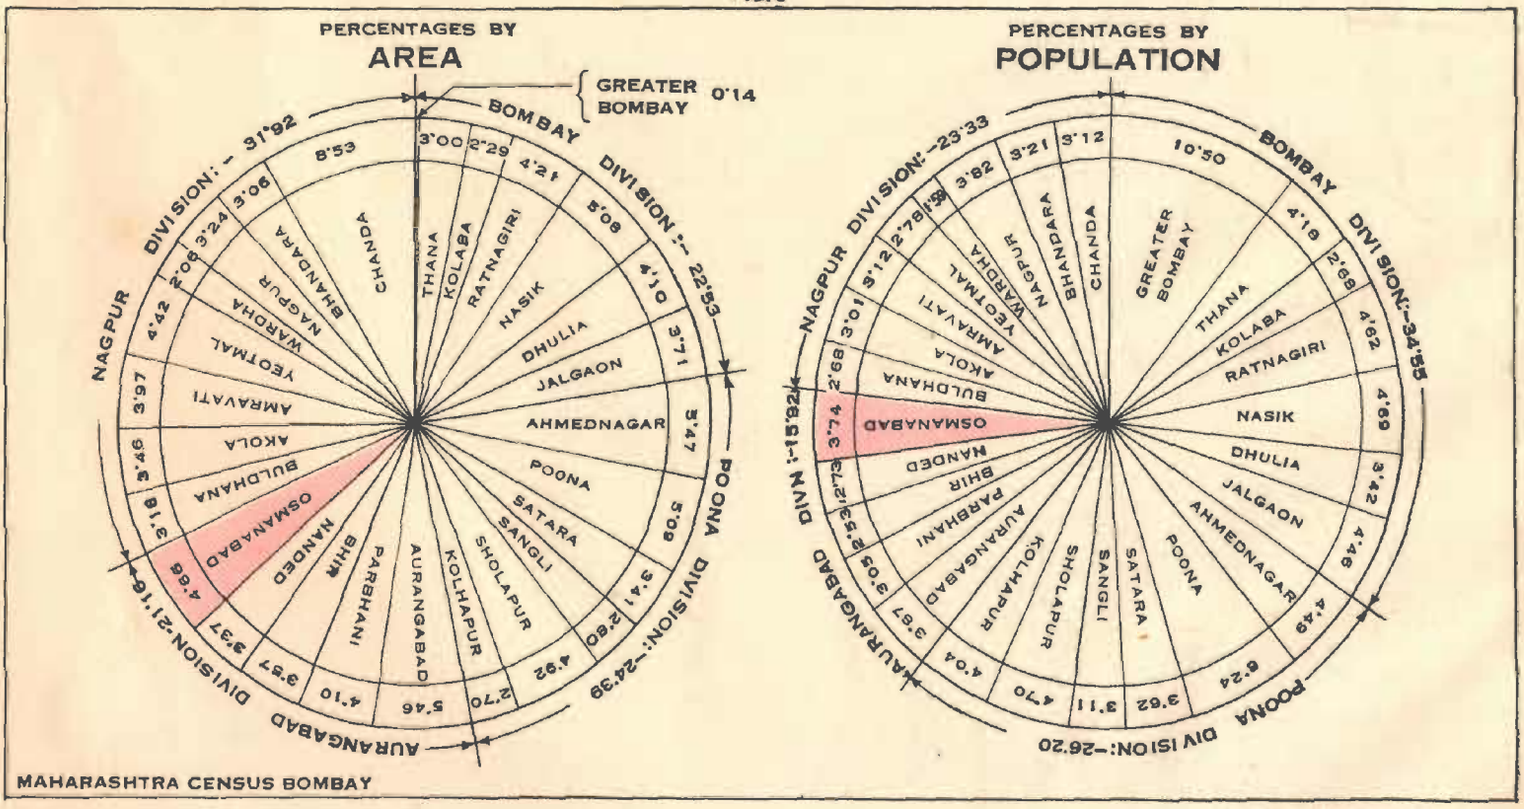

FIG. 3

MAHARASHTRA CENSUS BOMBAY

G. P. Z. P. POONA-1962

INTRODUCING THE DISTRICT

PHYSICAL FEATURES

The district lies partly in the upper Godavari basin and partly in the Bhima basin. Ahmadpur, Udgir, Kalam, Ausa, Latur and Nilanga talukas are situated on the plateau of the Balaghat and lie in the valley of the Manjra which is an important tributary of the Godavari. Osmanabad and Umarga talukas are drained by Terna, an important feeder of Manjra. Parenda taluka and parts of Bhum mahal, Tuljapur and Umarga talukas are in the basin of Sina river which is a tributary of Bhima.

The district lies between 17° 35′ and 18° 40′ N. latitude and 75° 16′ and 76° 40′ E. longitude. It is bounded on the north by Bhir and Parbhani districts, on the east by Nanded district and Bidar district of the Mysore State, on the south by Sholapur district and on the west by Ahmadnagar and Sholapur districts.

The area of the district is 5,510·3 square miles and the population in 1961 is 1,477,656. In terms of area and population it makes 4·66 per cent and 3·74 per cent of the State, respectively. The Figures facing this page show the position of the district in the State.

Hill Ranges

The main system of hills is the Balaghat and its offshoots. A branch of Balaghat enters the district at the north-west corner from Ahmadnagar and continues to the south-east. It divides the district into two portions, a plateau to the north-east and east and low lands to the west, south-west and south. The general slope of the plateau is from south-west to north-east.

Another branch of Balaghat hills also passes through Ahmadpur and Udgir talukas from north-west to south-east.

In Tuljapur and Udgir talukas and in Bhum mahal there are big valleys separating the hill ranges. The hills in portions of Tuljapur and Latur talukas have wide tops and long slopes and are, therefore, useful as grass lands. These two branches of Balaghat, between them form the plateau portion of the district, which is drained by Manjra and its tributaries.

The average height of the plateau is 2,000 feet above sea-level. The low land portion to the south of the plateau lies in the Bhima basin.

Important Rivers

The main rivers of the district are Manjra and Terna. Other small rivers are Bori, Banganga, Manyad, Turaj and Sina.

The Manjra which rises in Patoda taluka of Bhir district runs due east along the northern boundary as far as the north-eastern corner of Latur taluka where it takes a southerly direction before entering Bidar district of the Mysore State. Its length in the district is about 65 miles.

The Terna flows from west to east in Osmanabad, Ausa, Umarga and Nilanga talukas and meets Manjra river near the eastern boundary of the district. Manyad is also a tributary of Manjra. It flows due north-east through Ahmadpur taluka and enters Nanded district to meet Manjra on the eastern boundary of that district. Tawraja which drains Latur taluka meets Manjra at Siwani village. Sina flows on the western border of Parenda taluka from north to south. Bori flows through Tuljapur and joins the Sina river lower down in Sholapur district.

Climate

Monthly temperature records are not available for any station in this district.

The rainy season starts from the middle of June and lasts up to the end of September. It is followed by a sultry weather from the beginning of October to the middle of November, winter from the middle of November to the end of January, a dry hot period during February and March and summer from April to the middle of June.

On the whole the climate is dry and fair and the seasons show considerable uniformity.

Within the district, seasons show local variations also. The talukas situated on the plateau are cooler than those lying in the southern plains.

Summers in the district in general are full of gales and gusty winds and are considered to be cooler than those in other parts of Aurangabad Division.

Rainfall

Table 2 in Part III shows figures of monthly rainfall and number of rainy days for ten years from 1951 to 1960.

Rainfall is not uniform in all parts of the district. Latur, Udgir and Ahmadpur talukas on the east and Tuljapur and Osmanabad talukas on the west usually get about 900 mm. of rainfall while Parenda taluka and Bhum mahal in the north-west which lies in the shadow of western ghat get 600 mm. of rainfall. Ausa, Umarga and Nilanga talukas usually get 800 mm. and Kalam gets 700 mm. of rainfall.

The district gets rains mainly from the south-west monsoons. The intensity of rainfall is highest in July.

Scarcity Areas

The Fact-Finding Committee appointed by the Government of Bombay in 1960 has reported that rainfall is not dependable in the following areas and they are likely to be affected by scarcity conditions as shown below :—

Area	Grade	Estimated frequency
Parenda and Anala Circles of Parenda taluka.	C	Once in ten years.
Whole of Bhum mahal	C	Once in ten years.

Soils

Most of the soil consists of fertile regad or black cotton soil interspersed with red and white or sandy soil. The soils in Ahmadpur and Udgir talukas are light and light medium. They are of inferior type, not retentive of moisture and are suitable only for kharif crops.

The soil in Nilanga taluka is black cotton soil and supports wheat, cotton, oilseeds and pulses. In the Osmanabad and Kalam talukas and in parts of Latur, Ausa and Umarga talukas various types of soil are noticed. There are heavy deep black cotton soils as well as shallow light soils. Broadly speaking the eastern parts of Osmanabad, Latur, Ausa and Kalam talukas grow more of kharif crops than rabi, while the western parts of these talukas fall under rabi crops. Soils in Ausa and in the basin of Manjra river in Latur taluka are deep black and are very fertile.

In Tuljapur, Umarga and Parenda talukas and Bhum mahal (except the hilly areas in the north) there are heavy soils which are capable of retaining moisture. Bumper rabi crops are grown in these areas in the years of favourable rainfall.

Minerals

The district does not possess any significant mineral resources. The minerals found in this district are limestone, clay, sand and stone.

Forests

The forests are very few and are scattered in Tuljapur, Kalam and Udgir talukas.

Natural Zones

There are two broad natural zones in the district, *viz.* (1) the Balaghat plateau drained by Manjra and Terna rivers and their tributaries, and (2) the southern low land plain which is in the Bhima basin. The north-eastern portion of the first zone is a distinct sub-zone with surer rainfall but very light soils suited only to kharif crops dominated by yellow jowar. The south-western portion of the second zone consisting of Bhum mahal and Parenda taluka and portions of Tuljapur taluka is a sub-zone with low and unreliable rainfall but medium to heavy soils and a few developed irrigation projects. The main plateau portion of the district is very much favourable to wheat. The eastern portion of the plain low land in Umarga taluka is a densely populated area with a large area irrigated by wells.

ADMINISTRATIVE SET-UP

Brief History

The district was temporarily ceded to the British Government in the year 1853. It reverted to Hyderabad State in 1860. Its headquarters formerly used to be at Naldurg and the district was known as Naldurg district up to 1904. The district of Naldurg was abolished and the new district of Osmanabad was formed with headquarters at Osmanabad (formerly known as Dharashiv).

In 1905 two talukas with headquarters at Wasi and Naldurg were abolished. Wasi was merged in Kalam and Naldurg in Tuljapur.

Headquarters of Ausa taluka were shifted to Latur and the taluka was named as Latur taluka.

Among the Marathwada districts, Osmanabad had the biggest area under the Nizam's own estate called "Sarf-e-Khas". The Sarf-e-Khas was merged with the Government area under the Sarf-e-Khas (Merger) Regulation in the year 1949. All the Jagir areas were also abolished and taken over under direct Government administration in the same year.

Consequent upon the integration of Sarf-e-Khas and Jagir areas all the taluka boundaries were reconstituted in the year 1950. Two new talukas with headquarters at Ausa and Umarga and a new mahal with headquarters at Bhum were created.

In the same year (1950) 11 enclave villages from Sholapur were transferred to the district and 52 villages from this district were transferred to Sholapur district.

With the Reorganisation of States in 1956, the district was transferred from Hyderabad State to Bombay State. Three talukas of Ahmadpur, Nilanga and Udgir were transferred from the adjoining district of Bidar to Osmanabad district.

The district forms a part of Maharashtra since 1st May 1960.

Present Set-up

For administrative purposes, the district is at present divided in 10 talukas and one mahal. The area, number of inhabited villages, number of towns, 1961 population and the position in the district by percentages of area and population for each taluka and mahal are as follows :—

District/Taluka	Name of Headquarter	Area in sq. miles	Number of inhabited villages	Number of towns	1961 population	Percentage of area	Percentage of population
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
OSMANABAD DISTRICT ..	Osmanabad.. ..	5,510·3	1,388	13	1,477,656	100·0	100·0
1 Ahmadpur Taluka	Ahmadpur	609·3	189	1	165,138	11·1	11·2
2 Parenda Taluka	Parenda	406·4	109	1	88,317	7·4	6·0
3 Bhum Mahal	Bhum	339·2	79	1	72,836	6·1	4·9
4 Osmanabad Taluka	Osmanabad.. ..	444·8	106	1	140,058	8·1	9·5
5 Latur Taluka	Latur	419·8	115	1	143,007	7·6	9·6
6 Tuljapur Taluka	Tuljapur	604·8	105	2	120,834	11·0	8·2
7 Kalam Taluka	Kalam	473·6	107	1	126,839	8·6	8·6
8 Udgir Taluka	Udgir	632·3	174	1	172·599	11·5	11·7
9 Ausa Taluka	Ausa	467·8	112	1	122,816	8·5	8·3
10 Umarga Taluka	Umarga	576·6	112	2	162,405	10·4	11·0
11 Nilanga Taluka	Nilanga	535·7	180	1	162,807	9·7	11·0

General Administration and Revenue

The Collector is in charge of general administration, law and order, treasury, land revenue and civil supplies. He is assisted by a Resident Deputy Collector in his office and three Deputy Collectors who hold charge of the three revenue divisions and have their headquarters at Osmanabad, Latur and Udgir, respectively. Ten Tahsildars are in charge of ten taluka offices and the Naib-Tahsildar is in charge of Bhum mahal.

Land Revenue Settlement

Prior to 1866, the district used to be annually farmed out and the revenue contractors were allowed a percentage commission for collection. The farming system was replaced by regular officers appointed to the district and talukas in 1866. The original survey and settlement was started in 1880 and completed in 1884. This introduced the ryotwari system of land tenure in the district. The original settlement rates were guaranteed for 30 years with the condition that after expiry of 15 years, an increase of 12·5 per cent be levied for the remaining 15 years (in case of Ahmadpur, Udgir and Nilanga talukas). The first revision settlements were completed at different times.

In the original settlements, lands were assessed separately on the basis of individual soil classification, though the general level of assessment was fixed empirically with reference to the dependability of rainfall, crop pattern, average yields, prices, level of rent, nearness to the markets, facilities of communications and other similar factors observed from tract to tract. Individual lands were never reclassified after the first revision settlement and landholders were generally allowed the benefits of improvements effected by them during the term of the settlements untaxed. The comparative incidence of land revenue from field to field is thus still the same as it was at the time of the first revision settlement and the enhancements made from settlement to settlement were brought about only by raising the levels of land revenue assessments over a tract uniformly.

The method of land revenue assessments in the district is broadly the same as in the other districts of Maharashtra. In the case of lands irrigated by wells and small *bandharas* or Government canals, the land revenue is integrated and is inclusive of the charge for water supplied. Unlike the western Maharashtra districts, the Irrigation Department has not yet started assessment of water rates on lands irrigated under Government canals.

The second revision settlements were introduced in Ahmadpur, Parenda, Udgir and Nilanga talukas only and guaranteed for 30 years. In spite of the expiry of the guarantee period, the land revenue rates have not so far been revised. A special assessment of two annas per rupee, i.e., 12·5 per cent of land revenue on dry lands and one anna per rupee, i.e., 6·25 per cent of land revenue on irrigated lands has, however, been imposed on all the lands in the district under the Hyderabad Land Revenue (Special Assessment) Regulation, 1952. Jagir villages had been surveyed and settled in some cases through the Government Survey and Settlement Department and in others by their own establishments. Land revenue rates in Jagir villages were generally higher than the adjoining Government villages. A majority of such cases had been reviewed by the Government after abolition of Jagirs in 1949 and those rates have been brought down to the levels of adjoining Government villages.

Table 24 in Part III shows demand and collection of land revenue during the last ten years 1951 to 1960 for the district and each taluka separately.

The areas and number of villages for each taluka in the district have varied from time to time. Bhum was formerly a Jagir taluka with only 30 villages. After abolition of Jagirs in 1950, it was formed into a mahal of 80 villages.

Umarga taluka was formed after the abolition of Jagirs. It comprises 72 villages from ex-Gunjoti taluka (Paihga State), 24 villages of ex-Lohare taluka (Paihga State), 10 villages from Tuljapur taluka and 8 villages from other adjoining talukas. Because of numerous territorial changes, there is in each taluka a varied pattern of land revenue assessments. Even then the maximum rates or average land revenue rates per acre fixed at each settlement or revision settlement should be quite reliable indices of the incidence of land revenue as obtaining in the district from taluka to taluka. The following table shows these rates for dry, garden or rice lands for each taluka separately :—

Taluka	Original settlement or Revision settlement	Year	Guarantee period	No. of villages	Average land revenue per acre	Group	Villages	Maximum rates per acre		
								Dry lands	Garden lands	Rice lands

*Regarding remaining 8 villages information is not available.

§The rates as prevailed in the original settlement. No changes were made in the groups and maximum rates but assessment was increased by 12½ % on dry lands in the revision survey.

Assembly and Parliamentary Constituencies

Since 1957 the district has 10 Assembly seats. In 1957, Ahmadpur constituency was a double-member constituency with one of the two seats reserved for Scheduled Castes. After abolition of the double-member constituencies in 1961, the seats from Udgir and Kalam are reserved for Scheduled Castes.

The number of voters on rolls for each Assembly constituency in 1961 was as shown in the next column.

	Assembly Constituency	No. of Voters on rolls
(1)	Ausa	75,748
(2)	Umarga	69,310
(3)	Tuljapur	69,702
(4)	Osmanabad	68,980
(5)	Parenda	76,220
(6)	Kalam	69,882
(7)	Ahmadpur	82,147
(8)	Udgir	66,421
(9)	Nilanga	82,156
(10)	Latur	68,503
	Total ..	729,069

In the 1962 General Elections, the Assembly constituencies Ausa, Umarga, Tuljapur, Osmanabad, Parenda and Kalam together made one Parliamentary constituency called the Osmanabad constituency and the remaining Assembly constituencies Ahmadpur, Udgir, Nilanga and Latur combined with Assembly constituencies of Renapur from Bhir district and Mukhed from Nanded district made another Parliamentary constituency called the Latur constituency.

The total number of voters on rolls in the district in 1961 was 729,069. The total population 21 years and above according to the 1961 Census is 664,588. Comparison can, however, be only approximate as the two figures relate to two different dates in the year 1961.

Administration of Justice

The District and Sessions Judge is the head of the Judicial Department in the district. The judiciary is entirely separated from the executive. The Collector continues to be the District Magistrate and the Deputy Collectors and Tahsildars are vested with magisterial powers. But those powers are limited to Chapter VIII of the Criminal Procedure Code and deal with cases relating to maintenance of law and order and none of them ever tries any criminal case. The District Magistrate does not have any administrative control over the other magistrates who try criminal cases in the district. This separation of the judiciary from the executive has been brought about in the district in 1921.

The District and Sessions Judge is assisted by one Additional Sessions Judge and Assistant Judge. He has jurisdiction over six talukas of Latur, Ausa, Nilanga, Udgir, Ahmadpur and Umarga with headquarters at Latur. He attends to appellate civil and criminal work and sessions cases.

The Civil Judge (Senior Division) and Judicial Magistrate, First Class, attends to civil cases in which value of subject-matter is above Rs. 10,000. He has jurisdiction over the entire district in respect of civil cases and over Osmanabad taluka in respect of criminal cases.

There are nine Civil Judges of the Junior Division and First Class Judicial Magistrates with headquarters at different taluka places. They attend to civil cases in which the value of subject-matter is up to Rs. 10,000 and criminal cases arising in their jurisdiction.

Police

The Police force in the district works under the (District) Superintendent of Police who is assisted by three Deputy or Assistant Superintendents and three Circle Police Inspectors. There are 29 Police Stations in the district. Their headquarters and jurisdictions are shown below :—

	Police Station Headquarters	No. of villages
Osmanabad Taluka	1. Osmanabad ..	31
	2. Dhoki	41
	3. Bembli ..	41
Umarga Taluka	4. Umarga ..	46
	5. Murum ..	29

	18. Washi	37
Parenda Taluka	19. Parenda ..	65
	20. Ambi	47
Udgir Taluka	21. Udgir	69
	22. Wadhona ..	64
	23. Deoni	62
Ahmadpur Taluka	24. Ahmadpur ..	76
	25. Chakur ..	64
	26. Kingaon ..	52
Nilanga Taluka	27. Nilanga ..	69
	28. Sirur Anantpal	62
	29. Kasarsirsi ..	63

Average number of villages and population per Police Station in the district is 49 and 50,954 against the average of 69 and 62,547 in the State, respectively.

Crime statistics for the district for the years 1950, 1955 and 1960 have been shown in Table 28 in Part III.

Municipalities

All the thirteen towns in the district have Municipal Committees functioning under the Hyderabad District Municipalities Act of 1956. The year of establishment, the year of the last general election, the term of the elected body, the total number of elected councillors and the number of seats reserved for Scheduled Castes and for women are shown on page (7) for each municipality separately.

Serial No.	Name of the Municipality	Year of establishment	Year of the last General Election	Statutory term in years	1961 population	Total No. of Municipal Councillors	Seats reserved for	
							Scheduled Castes	Women
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
1	Umarga	1947	1961	3	7,505	11	1	1
2	Latur	1935	1962	3	40,913	23	3	2
3	Ahmadpur	1946	1961	3	7,976	14	2	1
4	Parenda	1946	1961	3	6,723	11	1	1
5	Bhum	1947	1961	3	5,475	10	2	1
6	Kalam	1946	1961	3	7,297	11	1	1
7	Tuljapur	1940	1960	3	8,935	15	2	2
8	Udgir	1935	1961	3	18,814	17	2	2
9	Ausa	1940	1962	3	10,007	15	2	2
10	Murum	1940	1961	3	10,029	15	2	2
11	Osmanabad	1935	1962	3	18,868	17	2	1
12	Nilanga	1945	1961	3	8,918	14	3	1
13	Naldurg	1946	1962	3	4,806	10	2	1

All the municipalities are established during the last 30 years, the oldest being those at Osmanabad, Latur and Udgir which were established in 1935.

The 13 municipalities together cover the entire urban population or 10·58 per cent of the total 1961 population of the district.

The taxation level of each of the municipalities is shown in the next column.

Per capita municipal tax is very low in all the towns except Osmanabad, Latur and Tuljapur. Latur is an important trade centre and the incidence of tax falls mostly on agriculturists who bring their produce for sale in the market. Tuljapur is a great pilgrimage centre and the incidence of higher taxation is partly shifted upon the pilgrims. Osmanabad is the headquarters of the district and appears to have a comparatively higher *per capita* municipal taxation.

Name of the Municipality	Total population	Year 1961-62		
		Total Receipts	Receipts from Municipal taxes	*Per capita* Municipal tax
		Rs.	Rs.	Rs.
1 Umarga ..	7,505	22,950	15,350	2·05
2 Latur ..	40,913	3,47,078	2,11,409	5·17
3 Ahmadpur ..	7,976	35,381	10,146	1·27
4 Parenda ..	6,723	24,649	11,762	1·75
5 Bhum ..	5,475	13,561	10,084	1·84

11 Osmanabad ..	18,868	2,14,305	1,42,330	7·54
12 Nilanga ..	8,918	15,392	7,401	0·83

ZILLA PARISHAD AND PANCHAYAT SAMITIS

With a view to promoting development of democratic institutions and securing greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralisation of powers and functions, a Zilla Parishad and 11 Panchayat Samitis have been established in the district in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samitis Act of 1962. The areas under the jurisdiction of the Zilla Parishad and the Panchayat Samitis correspond to the district and taluka boundaries except in the case of municipal towns which are not covered by them. The Zilla Parishad covers 97·01 per cent of the area and 89·42 per cent of the total population of the district. The population covered is entirely rural population. The number of villages and population included under the Zilla Parishad and each Panchayat Samiti are shown below. The position of each Panchayat Samiti in the Zilla Parishad is also shown separately by percentages of area and population in 1961 :—

——	Name of Headquarters	Area in sq. miles	Number of inhabited villages	Population in 1961	Percentage by area	Percentage by population
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Zilla Parishad, Osmanabad	Osmanabad ..	5,345·5	1,388	1,321,390	100·0	100·0
1. Ahmadpur Panchayat Samiti	Ahmadpur ..	599·5	189	157,162	11·2	11·9
2. Parenda Panchayat Samiti	Parenda ..	393·8	109	81,594	7·4	6·2
3. Bhum Panchayat Samiti	Bhum ..	323·4	79	67,361	6·0	5·1
4. Osmanabad Panchayat Samiti	Osmanabad ..	420·4	106	121,190	7·9	9·2
5. Latur Panchayat Samiti	Latur ..	408·5	115	102,094	7·6	7·7
6. Tuljapur Panchayat Samiti	Tuljapur ..	586·7	105	107,093	11·0	8·1

9. Ausa Panchayat Samiti	Ausa ..	452·9	112	112,809	8·5	8·5
10. Umarga Panchayat Samiti	Umarga ..	542·6	112	144,871	10·1	11·0
11. Nilanga Panchayat Samiti	Nilanga ..	527·0	180	153,889	9·9	11·6

Constitution

The Zilla Parishad has 52 directly elected councillors. Out of these 52 seats, seven seats have been reserved for Scheduled Castes. In addition, a woman councillor has been co-opted by the elected councillors. There are five associate councillors who are chairmen of five federal co-operative societies conducting business in the district. The elected chairmen of all Panchayat Samitis are also *ex-officio* councillors.

At the Block (taluka) level, the Panchayat Samiti consists of all elected and co-opted councillors from the area of the Block and a chairman of a co-operative society conducting the business of purchase and sale of agricultural produce in the area of the Block as an associate member and a chairman of a co-operative society conducting the business in agriculture in the area of the Block as a co-opted member. Sarpanchas elected by members of Village Panchayats are also elected members of the Panchayat Samiti. The number of Sarpanchas elected is at the rate of two for each electoral division in the area of the Block.

Elections were held in the year 1962. The term of office of the councillors is five years. The Zilla Parishad has elected the President and Vice-President from amongst the elected councillors.

An Officer in the senior scale of I.A.S. works as the Chief Executive Officer to the Zilla Parishad. The Parishad is also assisted by various departments and the heads of those departments at the district level are officers of Class I or Class II Service under the State Government. At the Block level, the Panchayat Samitis have elected Chairmen and Deputy Chairmen. The Block Development Officers work as Secretaries to the Panchayat Samitis. The executive authority for the purpose of carrying out the provisions of the Maharashtra Zilla Parishad and Panchayat Samitis Act vests in the Chief Executive Officer and the Block Development Officer. The Deputy Chief Executive Officer works as a Secretary to the Zilla Parishad.

Committees and Office-bearers

The Zilla Parishad functions through a Standing Committee presided by the President and six Subject Committees for Finance, Works, Agriculture, Co-operation, Education and Health. Two Subject Committees are presided by the Vice-President and four by two Chairmen elected by the Zilla Parishad to preside over two specified Subject Committees each. The Deputy Chief Executive Officer works as Secretary of the Standing Committee, while the District Heads of Departments work as Secretaries to the Subject Committees concerned. Co-ordination between the Subject Committees is achieved through the Standing Committee which includes the Chairmen of all the Subject Committees as members.

The Panchayat Samitis do not have Subject Committees.

The elected President of the Zilla Parishad is paid an honorarium of Rs. 500 per month. The Vice-President and the two Chairmen of the Subject Committees are paid an honorarium of Rs. 300 per month. The elected Chairmen and Deputy Chairmen of the Panchayat Samitis are paid an honorarium of Rs. 300 and Rs. 150 per month, respectively. All these persons are also provided with rent-free accommodation as is deemed suitable for them by the Zilla Parishad.

Functions

The Divisional and State Officers of the Government continue to exercise technical supervision and give guidance to Zilla Parishad and Panchayat Samitis. The State Government has powers to give direction to the Zilla Parishad regarding works and schemes in the interest of National or State Development Plans. Inspection and supervision are carried out by the Divisional Commissioners.

Except for a few safeguards, the developmental and administrative functions of Government are now, with the creation of democratic bodies at the district and block level, devolved on them. In other words, the State Government has divested itself of the responsibility of local activities which are now left to the people's initiative and resources, expressed through the Zilla Parishad and the Panchayat Samitis.

The developmental and administrative subjects transferred to the Zilla Parishads and Panchayat Samitis have been listed in Schedules I and II to the Maharashtra Zilla Parishad and Panchayat Samitis Act. By and large, all functions of Government administration including development activities, at the district level, but excluding matters relating to law and order, judicial and quasi-judicial functions, and development functions involving high technical skill like research stations, etc., have been devolved on the Zilla Parishad and Panchayat Samitis. All Class III and Class IV employees of the Government Departments now transferred to the Zilla Parishad have been absorbed as employees of the Parishad. The Village Talati (or Patwari) and the entire village establishment of the Revenue Department have been transferred to the Parishad through the Village Panchayats, though for collection of land revenue and maintenance of Record of Rights they continue to work under the Revenue Officers.

J-1813—iii-B—(Osmanabad).

The Zilla Parishad has replaced the erstwhile statutory bodies known as District Local Board, District School Board and District Panchayat Mandal. The functions of non-statutory body known as the District Development Board have of course been absorbed. Municipalities, however, remain unaffected as municipal areas are excluded from the jurisdiction of the Zilla Parishad.

Finance

The law provides for levy of cess at the rate of twenty naye paise on every rupee of land revenue and at a rate not exceeding nineteen naye paise per rupee of water rate. The Zilla Parishad can levy taxes on profession, trade, calling or employment and taxes on water-supply, public entertainments, amusements and pilgrims, special tax on land and buildings and other taxes. The stamp duty on transfer of certain immovable properties may be increased by one-half per cent by Government for payment to the Zilla Parishad.

The financial assistance given by the State Government includes 70 per cent of the land revenue collected within the area of the Parishad. When, however, the amount of land revenue payable falls short of the amount arrived at on the basis of two rupees *per capita* of the population of the district as appearing in the Census of 1961, an equalisation grant covering the difference will be paid to the Zilla Parishad. Government also pays what are called purposive grants being grants for specific works and development schemes transferred to the Zilla Parishad at the rate of not less than 75 per cent of the expenditure. An establishment grant equal to 75 per cent of the average annual cost on account of salaries and allowances is paid in respect of the posts held by the staff of Government transferred to the Parishad which are included in the District Technical Service (Class III), District Service (Class III) and District Service (Class IV). The other grants include a deficit adjustment grant payable at full rates during the first five years and to be progressively reduced in the next ten years after which it will not be payable, incentive grants calculated to achieve speedier development and grants for Plan Schemes.

If in pursuance of the proposal of a Zilla Parishad or a Panchayat Samiti, a cess on land revenue at a rate in excess of the minimum rate prescribed by the Act is levied by the State Government in the whole of the district or in a block, the Zilla Parishad or the Panchayat Samiti, as the case may be, shall be paid every year by the State Government a grant called the local cess matching grant.

The total revenue receipts of the Zilla Parishad for the year 1963-64 are Rs. 152·41 lakhs. The major portion of the receipts is of receipts from Government. They are 95·3 per cent and the Zilla Parishad receipts are 4·7 per cent of the total revenue receipts. Major items of Zilla Parishad's receipts are local fund cess, cess on water rates and profession tax.

The total revenue expenditure of the Zilla Parishad is Rs. 157·45 lakhs. Following are the major items of expenditure :—

General Administration	3·5 per cent
Education	48·1 ,, ,,
Community Development Project	12·7 ,, ,,
Buildings and Communications	10·5 ,, ,,
Miscellaneous	11·1 ,, ,,
Other items	14·1 ,, ,,

Per capita expenditure of the Zilla Parishad on different development heads is as follows :—

	Rs.
General Administration	0·42
Education	5·73
Community Development	1·51
Buildings and Communications	1·24

Establishment

The establishment of the Zilla Parishad comprises the gazetted and non-gazetted staff. The non-gazetted staff consists of the employees of the former local bodies and those of the various State Government Departments now transferred to the Zilla Parishad.

There are 6 Class I and 43 Class II Gazetted Officers working under the Zilla Parishad. The total strength of the non-gazetted employees of Class III and Class IV categories is 5,746.

VILLAGE PANCHAYATS

The number of independent village panchayats, group village panchayats and the number of villages covered by group village panchayats are shown below:--

Taluka	No. of inhabited villages	No. of independent village panchayats	No. of group village panchayats	No. of villages covered by group village panchayats
1 Ahmadpur ..	189	68	52	122
2 Parenda ..	109	43	26	68
3 Bhum ..	79	28	21	51
4 Osmanabad ..	106	75	12	31
5 Latur.. ..	115	68	21	47
6 Tuljapur ..	105	60	18	46
7 Kalam ..	107	66	19	41
8 Udgir ..	174	49	58	124
9 Ausa	112	50	32	68
10 Umarga ..	112	77	17	35
11 Nilanga ..	180	75	45	118
Total ..	1,388	659	321	751

NOTE.—Figures in col. 5 perhaps include hamlets and hence the total of cols. 3 and 5 does not tally with figures in col. 2.

The break-up of the total annual income of all the village panchayats in the district for the year 1961-62 is as follows:—

Item	Amount (in '000)	Percentage of total income
Grants	1,081	55·24
Taxes on houses and properties ..	112	5·72
Octroi	4	0·20
Other taxes	108	5·52
Total taxes	224	11·44
Income from other sources	652	33·32
Total Income	1,957	100·00

The first item includes the Government grant of 30 per cent of land revenue collected in the village or one rupee per head of population whichever is more.

The Village Panchayats also get the entire local fund cess collected in the village. At present it is collected at 20 nP. per rupee of land revenue. The Village Panchayats can raise it with Government approval up to 100 nP. per rupee of land revenue. The number of Village Panchayats levying taxes on houses and properties is 980.

The break-up of the total annual expenditure of all the Village Panchayats in the district for the year 1961-62 is as follows:—

Item	Amount (in '000)	Percentage of total expenditure
Administration	426	29·50
Health and Sanitation	122	8·45
Public Lighting	224	15·51
Other Items	672	46·54
Total Expenditure	1,444	100·00

Other items include improvement of village roads, construction of new drinking water wells or repairs to old wells and construction of panchayat *ghars*, schools and such other buildings.

Functions of the Talati (Patwari), Village Panchayat Secretary and Assistant Gram Sevak are now combined in one official who now works under the Village Panchayat.

POPULATION

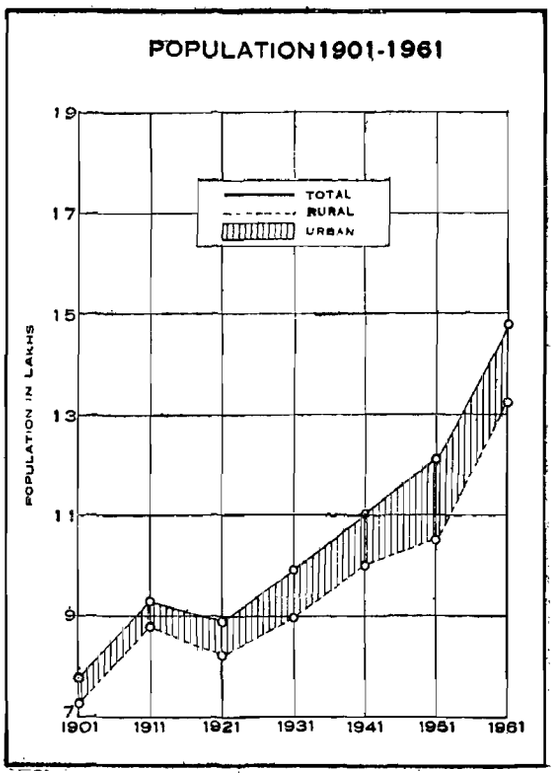

Table A-I in Part II shows the 1961 population of the district and each taluka for total, rural and urban areas separately. Definition of rural and urban areas may be seen in paragraphs 8 and 9 of the Explanatory Note to Part II. Table A-II shows the district population and its variation at each Census since 1901 and the variation in population for each taluka during 1951—61.

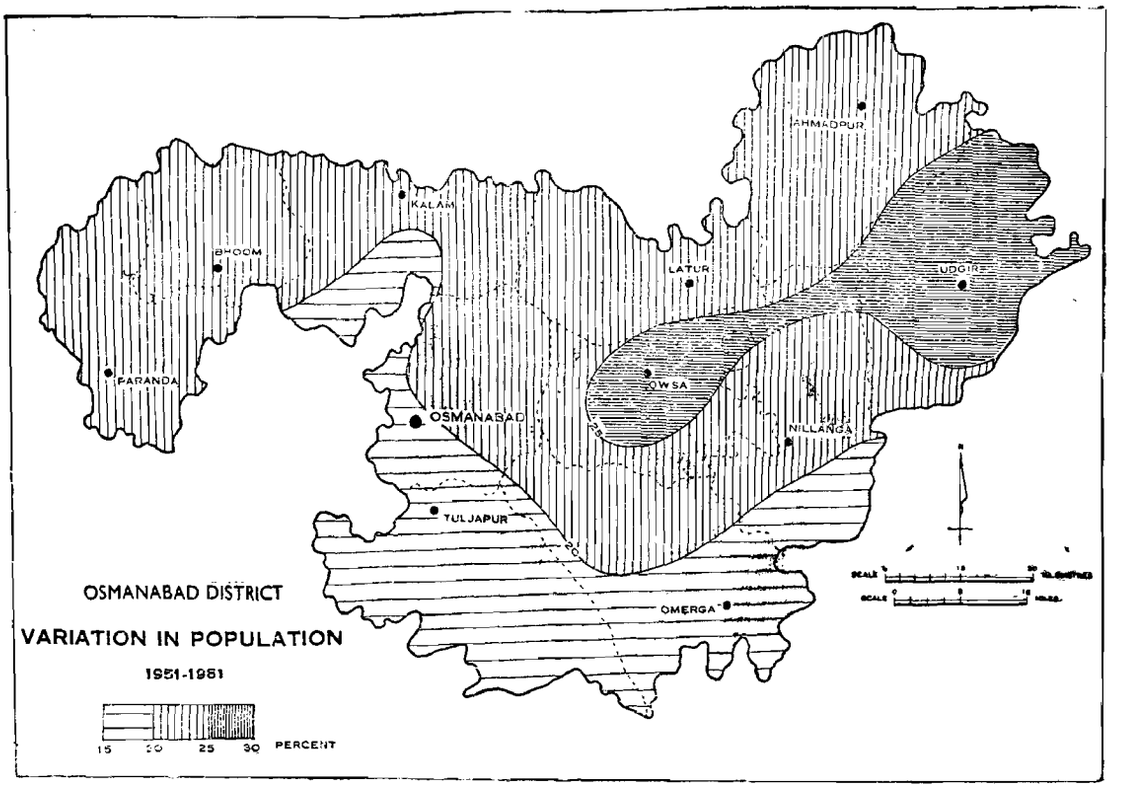

Variation

The population of the district and decade variation rates since 1901 are as follows:—

Year	Population	Decade Variation	Rate of Variation
1901	777,929	..	..
1911	927,095	+149,166	+19·17
1921	890,291	—36,804	—3·97
1931	991,367	+101,076	+11·35
1941	1,101,515	+110,148	+11·11
1951	1,210,041	+108,526	+9·85
1961	1,477,656	+267,615	+22·12

Figure to the right shows the total, rural and urban population of the district for the last seven Censuses.

In the decade 1901—11 the population of the district had increased by 19·17 per cent. In the previous decade the district had suffered very heavily because of famine. The decade 1901—11 was a period of recovery from the effects of famine. Opening of the new railway line from Barsi to Latur was another contributory factor for the increase in population. The failure of agricultural seasons, and the severe influenza epidemic of 1918-19 led to the decline in the population by nearly 4 per cent in the decade 1911—21. In the following decades the population increased by 11·35 per cent and 11·11 per cent, respectively. The rate of growth was only 9·85 per cent in the decade 1941—51, but in the last decade the population has increased by 22·12 per cent which is the highest decade rate ever attained for the district. Though the rate of growth of population is lower than the State average of 23·60 per cent, the population of the district will, by that rate, be doubled within 35 years.

The 1951—61 decade variation for the district and each of the talukas is as follows:—

		Percentage Variation 1951—61
	OSMANABAD DISTRICT	+22·12
1	Ahmadpur Taluka	+23·38
2	Parenda Taluka	+23·47
3	Bhum Mahal	+22·17
4	Osmanabad Taluka	+21·10
5	Latur Taluka	+20·15
6	Tuljapur Taluka	+16·87
7	Kalam Taluka	+19·81
8	Udgir Taluka	+27·00
9	Ausa Taluka	+25·21
10	Umarga Taluka	+20·94
11	Nilanga Taluka	+22·56

The figure above shows the areawise pattern of 1951—61 growth of population within the district.

Within the district, Udgir taluka has recorded the highest variation of 27·0 per cent and Tuljapur taluka the lowest rate of 16·9 per cent during the decade 1951—61. Udgir, Ausa, Ahmadpur, Parenda and Nilanga talukas and Bhum mahal are above the district average. Osmanabad, Latur, Kalam, Tuljapur and Umarga talukas are below that average. Anti-malaria and anti-plague campaigns have perhaps been very effective due to the construction of new roads in the district and these erstwhile backward tracts appear to have benefited by them immensely.

The net percentage increase since 1901, 1921 and 1951 for the district and the State has been as follows:—

	Osmanabad District	Maharashtra
1901—1961	89·95	103·97
1921—1961	65·97	89·71
1951—1961	22·12	23·60

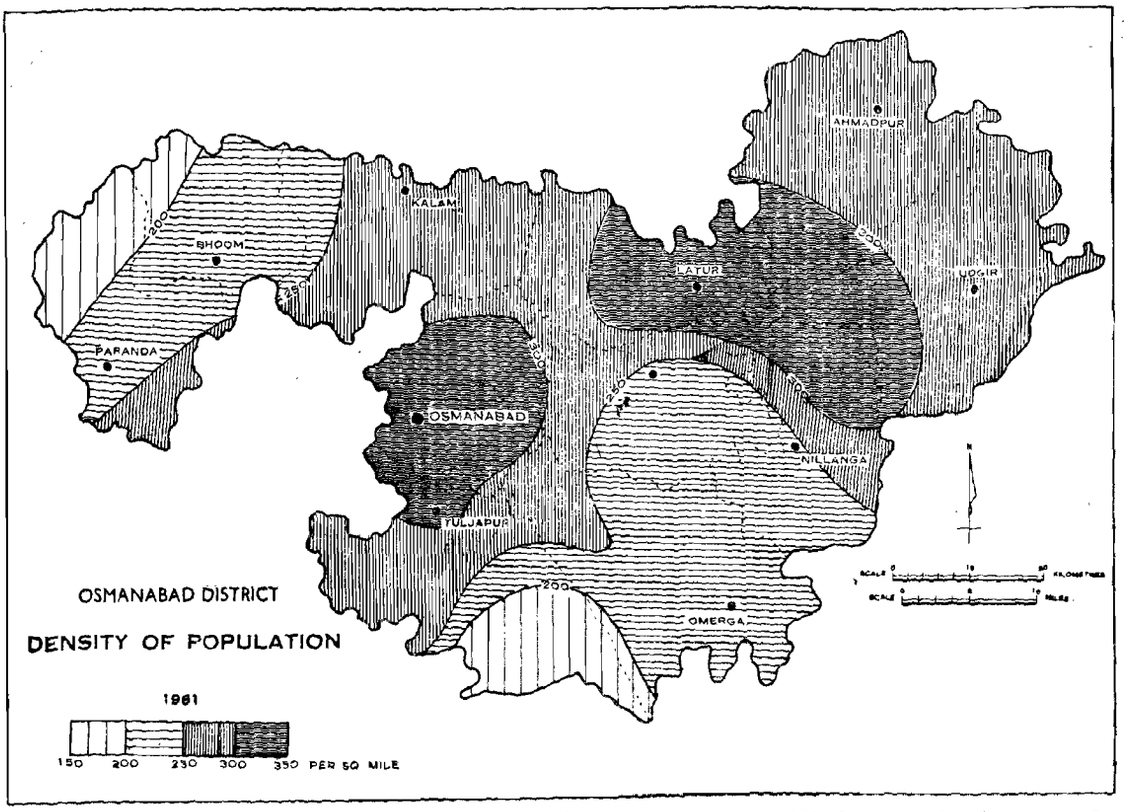

In the last sixty years the population of the district has continuously increased except in the decade 1911—21 when it had declined by 4 per cent. In comparison with the State average, the population of the district has always increased at lower rates.

Density of Population

The densities of population per square mile for Maharashtra, Osmanabad district and its talukas for 1951 and 1961 are as follows :—

	Density per square mile		Percentage of dist. population in 1961
	1951	1961	
MAHARASHTRA	271	334	..
OSMANABAD DISTRICT	220	268	100·00
1 Ahmadpur Taluka ..	220	271	11·17
2 Parenda Taluka ..	176	217	5·98
3 Bhum Mahal ..	176	215	4·93
4 Osmanabad Taluka ..	260	315	9·48
5 Latur Taluka .. .	284	341	9·68
6 Tuljapur Taluka .	171	200	8·18
7 Kalam Taluka .. .	224	268	8·58
8 Udgir Taluka	215	273	11·68
9 Ausa Taluka	210	263	8·31
10 Umarga Taluka.. ..	233	282	10·99
11 Nilanga Taluka ..	248	304	11·02

Figure to the right shows the approximate contours of density of population in 1961 within the district.

The density of population of the district has increased sharply from 162 persons per sq. mile in 1921 to 268 persons per sq. mile in 1961. The density of the district was, however, lower than the State average at each Census from 1901 to 1961.

Within the district, the density of population varies from 200 persons per sq. mile in Tuljapur taluka to 341 persons per sq. mile in Latur taluka. The differences are due to productivity of soils and partly to the growth of towns like Osmanabad, Latur and Udgir. The less densely populated talukas have shown higher rates of growth during the decade 1951—61.

Urban Population

Urban population of the district at each Census and its variation since 1901 are shown in Table A-IV in Part II. The same table also shows the variation in population for each town in the district. The number of towns, the rate of decade variation in urban population and the percentage of urban population to total population at each Census since 1901 for the district and the State are as follows :—

Year	Osmanabad District			Maharashtra		
	No. of Towns	Rate of variation in urban population	Percentage of urban population to total population	No. of Towns	Rate of variation in urban population	Percentage of urban population to total population
1901 ..	7	..	6·78	219	..	16·59
1911 ..	7	—5·17	5·39	232	+0·99	15·13
1921 ..	9	+33·65	7·51	238	+18·72	18·50
1931 ..	11	+40·49	9·47	258	+15·54	18·60
1941 ..	11	+6·99	9·12	266	+27·11	21·11
1951 ..	19	+58·33	13·14	383	+62·42	28·75
1961 ..	13	—1·74	10·58	266	+21·32	28·22

In the figure on page (10) the actual urban population of the district since 1901 is shown by the shaded portion between the two lines. The net growth in urban population of the district over that of 1901 is 196·37 per cent as against 246·96 per cent for the State.

The district is less urbanised than the State. The proportion of urban population decreased both for the district and the State in 1911. Since then it had gradually increased up to 1951. There was, however, a decline in the last decade, when the number of towns fell from 19 to 13. The drop in the number of towns in 1961 is due to the redefinition of urban areas. The six towns declassified in 1961 and treated as villages are : (1) Chakur, (2) Washi, (3) Bembli, (4) Wadhona, (5) Gunjoti, and (6) Lohara.

No new town has been added in 1961. The population of those six declassified towns was 26,863 or 16·89 per cent of the urban population in 1951. If that population is excluded from the 1951 urban population, the 1961 urban population would be 18·23 per cent higher over 1951. The net decrease of 1·74 per cent now observed is thus due solely to the change of definition of urban areas and the consequent declassification of six towns.

Latur is the most important town in the district. In 1901 its population was 10,479. Because of the Barsi Light Railway, it developed into

an important commercial centre in the region. It is today a big agricultural market and has large ginning and pressing factories and oil mills. Its population in 1961 is 40,913. In the last sixty years it has grown by 290·43 per cent. The population would have actually increased much more but the town had long been a focus of plague-affected area.

Osmanabad, the district headquarters, is another important town. Its population has increased by 77·88 per cent since 1901 and by 108·35 per cent since 1921. Udgir is also an important trade centre. It had stagnated for lack of communication. But the opening of the Bidar-Purli Railway line and many new roads have helped its growth. Its growth of population since 1901 is 214·41 per cent and since 1921, 162·11 per cent.

Rural Population

The rates of variation in rural population and the percentages of rural population to total population of the district and the State since 1901 are as follows :—

Year	Osmanabad District		Maharashtra	
	Rate of variation in rural population	Percentage of rural population to total population	Rate of variation in rural population	Percentage of rural population to total population
1901 ..	..	93·22	..	83·41
1911 ..	+20·94	94·61	+12·68	84·87
1921 ..	—6·11	92·49	—6·77	81·50
1931 ..	+8·99	90·53	+14·77	81·40
1941 ..	+11·54	90·88	+8·54	78·89
1951 ..	+4·99	86·86	+7·72	71·25
1961 ..	+25·73	89·42	+24·51	71·78

The net increase in rural population of the district has been 82·21 per cent over that of 1901 and 60·47 per cent over that of 1921. The same figures for the State are 75·53 per cent and 67·08 per cent, respectively.

The rates of variation in rural population have never followed any trend. The urban population had grown faster at the expense of rural population. The rural population increased at lower rates than the total population. The percentage of rural population gradually decreased both for the district and the State since 1911, except for 1961 when it has shown an opposite trend for the district. That was partly due to the declassification of six towns and addition of their 1961 population in the rural population.

Size of Villages

Table A-III in Part II shows for the district and for each taluka the number of villages and their population for each class of villages. The distribution of population by size of villages for the district and the State is as follows :—

Size Class	Osmanabad District		Maharashtra	
	Percentage of the No. of villages to total No. of villages	Percentage of population to total rural population	Percentage of the No. of villages to total No. of villages	Percentage of population to total rural population
Less than 500 ..	31·92	10·21	47·72	15·02
500—999 ..	35·30	26·98	28·55	25·71
1,000—1,999 ..	23·99	34·14	16·62	28·55
2,000—4,999 ..	8·21	25·26	6·18	22·40
5,000 and over ..	0·58	3·41	0·93	8·32

Villages with less than 1,000 population are 67·22 per cent of the total number of villages and have 37·19 per cent of the rural population. Villages with more than 1,000 population are 32·78 per cent of the total number of villages but account for 62·81 per cent of the rural population. 34·14 per cent of the rural population of the district is concentrated in villages with population between 1,000 and 1,999.

The area, number of inhabited villages, total rural population, average population per inhabited village and the number of inhabited villages per 100 sq. miles of rural area are shown below for the State, district and each taluka separately :—

State/District/Taluka	Area in sq. miles (Rural)	Number of inhabited villages	Rural population	Average population per inhabited village	Number of inhabited villages per 100 sq. miles of rural area
(1)	(2)	(3)	(4)	(5)	(6)
MAHARASHTRA	115,736·3	35,851	28,391,157	792	31
OSMANABAD DISTRICT	5,345·5	1,388	1,321,390	952	26
1 Ahmadpur Taluka	599·5	189	157,162	832	32
2 Parenda Taluka	393·8	109	81,594	749	28
3 Bhum Mahal	323·4	79	67,361	853	24
4 Osmanabad Taluka	420·4	106	121,190	1,143	25
5 Latur Taluka	408·5	115	102,094	888	28
6 Tuljapur Taluka	586·7	105	107,093	1,020	18
7 Kalam Taluka	466·3	107	119,542	1,117	23
8 Udgir Taluka	624·4	174	153,785	884	28
9 Ausa Taluka	452·9	112	112,809	1,007	25
10 Umarga Taluka	542·6	112	144,871	1,293	21
11 Nilanga Taluka	527·0	180	153,889	855	34

Average population per inhabited village in 1961 is 952 in the district against 792 in the State. The average population per inhabited village within the district varies from 749 in Parenda taluka to 1,293 in Umarga taluka. The number of inhabited villages per 100 square miles is 26 in the district and 31 in the State. Among the talukas of the district Tuljapur taluka has 18 villages per 100 square miles compared to 34 in Nilanga taluka.

It may be added that the above discussion is based on villages with their administrative boundaries and does not take into account the existence of *wadis*, *padas* or hamlets within those boundaries.

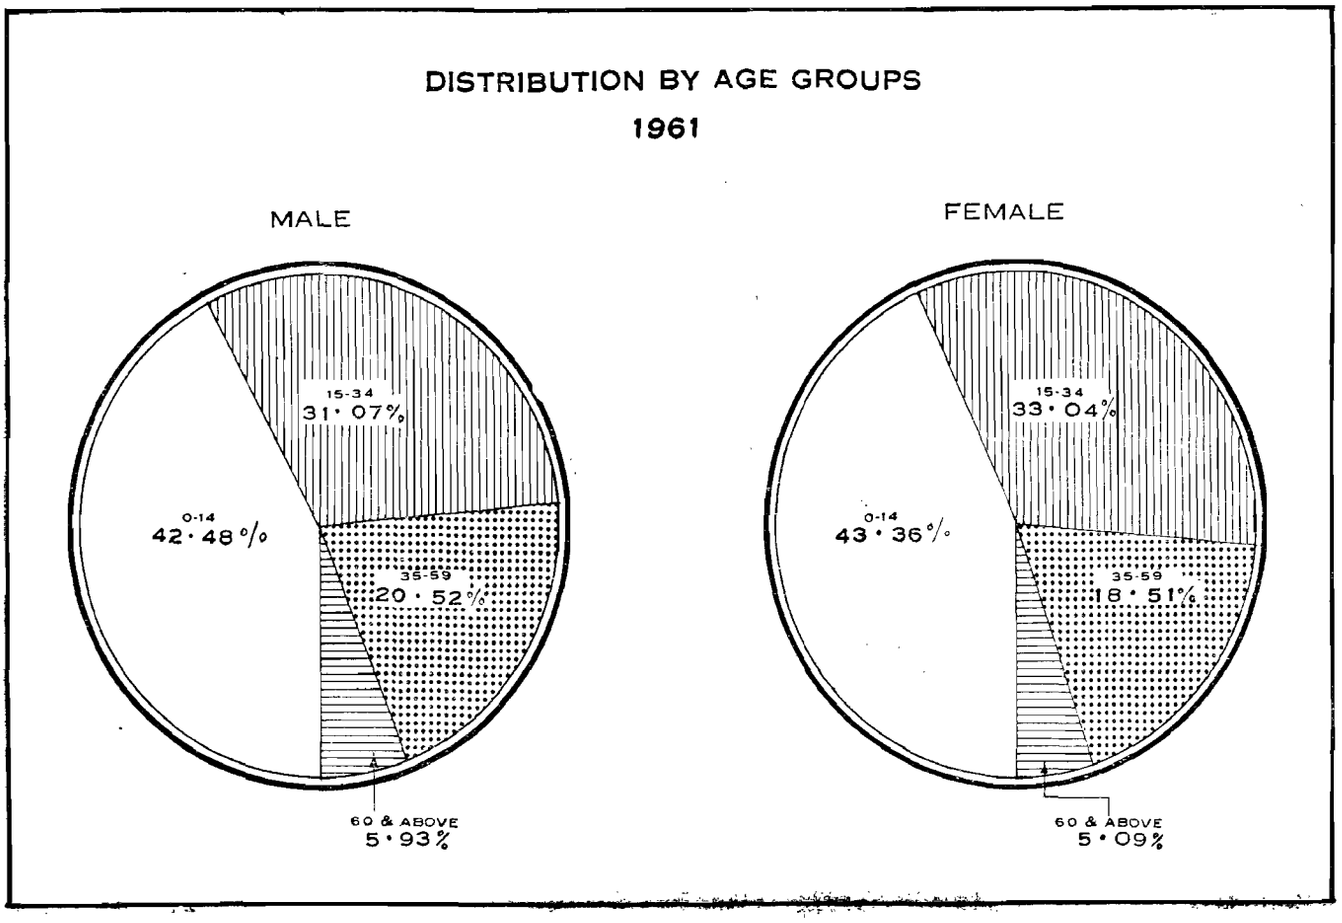

Age Distribution

Tables C-II and C-IV in Part II show the distribution of the district population by five-year age-groups and by single year ages, respectively. Broad age-groups are also shown in Tables B-I, B-II and C-III. The proportions of population by broad age-groups in 1961 are shown in the next column separately for males and females compared with the corresponding proportions for 1951 for the district with 1961 figures for the State.

Age-groups	Percentages of population by age-groups					
	1951 District Total		1961 District Total		1961 Maharashtra	
	Males	Females	Males	Females	Males	Females
0—4 ..	13·19	13·89	14·92	15·82	14·65	15·39
5—14 ..	27·27	28·06	27·56	27·54	25·55	25·77
0—14 ..	40·46	41·95	42·48	43·36	40·20	41·16
15—34 ..	30·53	32·86	31·07	33·04	32·70	33·13
35—59 ..	22·41	19·66	20·52	18·51	22·09	20·16
15—59 ..	52·94	52·52	51·59	51·55	54·79	53·29
60 and over	6·60	5·53	5·93	5·09	5·01	5·55
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

Figure below shows the distribution of the district population by broad age-groups for males and females separately.

During the last decade the proportion of children aged 0—4 increased from 13·19 per cent to 14·92 per cent for males and from 13·89 per cent to 15·82 per cent for females. Consequently the proportion of youngsters, in the age-group 0—14, increased both for males and females. The proportion of persons in the older age-group has decreased both for males and females. As a consequence the proportion of persons in the working age-group 15—59 has shown a decrease both for males and females in the last decade.

Dependency Ratio

The ratio between dependants (age-groups 0—14 and 60+) and 100 of supporting (age-group 15—59) population has an economic significance. The dependency ratios and their two components of youth (0—14) and aged (60+) groups are shown below for 1951 and 1961 for the district and the State separately :—

	Osmanabad District			Maharashtra		
	Youth	Aged	Total	Youth	Aged	Total
1951 Total	78·1	11·5	89·6	69·9	9·3	79·2
1961 Total	83·2	10·7	93·9	75·2	9·7	84·9
Rural	83·2	10·9	94·1	80·6	10·8	91·4
Urban	83·1	9·4	92·4	63·1	7·3	70·4

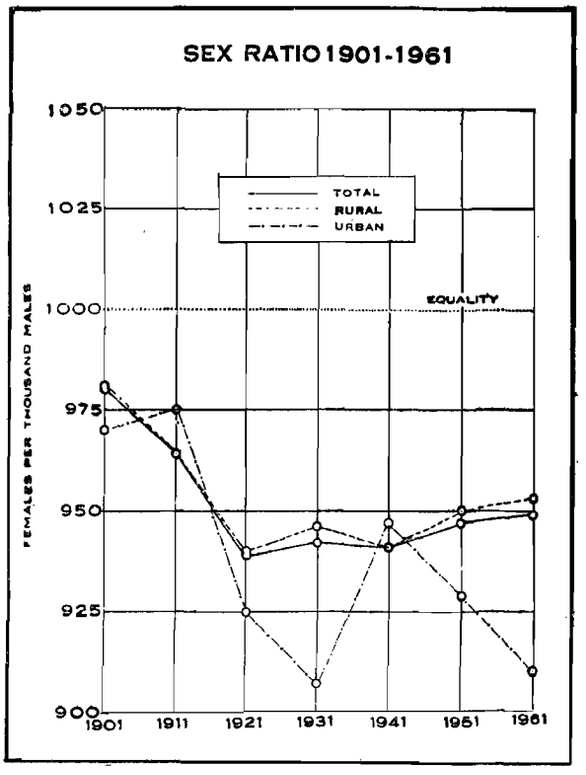

The dependency ratios are substantially higher in the district than those for the State. The rural urban difference within the district is very negligible as compared to that of the State average. The dependency ratios for the State and the district are both higher in 1961 than those of 1951. Although youth dependency has increased for the district, the other component of aged has shown a decrease in the last decade. The increase in dependency may be the result both of high fertility and declining mortality. The 1961 population in the district thus has a larger load of dependants than that of 1951. The dependency load is slightly larger in rural areas than urban areas.

Sex Ratios

The following have been the sex ratios (number of females per 1,000 male population) for the district and the State since 1901 for total, rural and urban areas separately :—

	Osmanabad District			Maharashtra		
	Total	Rural	Urban	Total	Rural	Urban
1901 ..	980	981	970	978	1,002	866
1911 ..	964	964	975	966	1,000	796
1921 ..	939	940	925	950	994	776
1931 ..	942	946	907	947	987	790
1941 ..	941	941	947	949	990	810
1951 ..	947	950	929	941	1,000	807
1961 ..	949	953	910	936	995	801

Figure in the next column shows the variation in the sex ratios since 1901 for the district total, rural and urban areas separately.

Since 1901 the sex ratio of the population of the district varied between 939 and 980 while that of the State varied between 936 and 978. For all the Censuses the district sex ratios were nearly equal to the corresponding values for the State. The rural sex ratios for the district have always been lower than the State average for rural areas, and the urban sex ratios have always been higher than the corresponding urban sex ratios for the State. Rural urban differences in sex ratios within the district have never been as wide as those for the State averages.

Following are the sex ratios for different age-groups of population for the district total, rural and urban areas:—

Age-groups	Total	Rural	Urban
0—14	968	973	930
15—34	1,009	1,021	915
35—59	856	855	859
60+	815	806	905
All ages	949	953	910

The sex ratio of total population is higher than equality for the age-group 15—34. Rural sex ratio is higher than the urban sex ratio for age-groups 0—14 and 15—34. For the age-group 35—59 the rural urban sex ratios are almost identical while for the older age-group (60+) urban sex ratio is considerably higher than the rural sex ratio.

The sex ratios for each taluka in the district for total, rural and urban areas separately are as follows:—

	Total	Rural	Urban
OSMANABAD DISTRICT	949	953	910
1 Ahmadpur Taluka	945	947	904
2 Parenda Taluka	960	961	940
3 Bhum Mahal	963	966	924
4 Osmanabad Taluka ..	955	964	897
5 Latur Taluka	932	942	908
6 Tuljapur Taluka ..	931	931	929
7 Kalam Taluka	946	948	908
8 Udgir Taluka	956	965	886
9 Ausa Taluka	947	946	967
10 Umarga Taluka	945	950	903
11 Nilanga Taluka	963	966	903

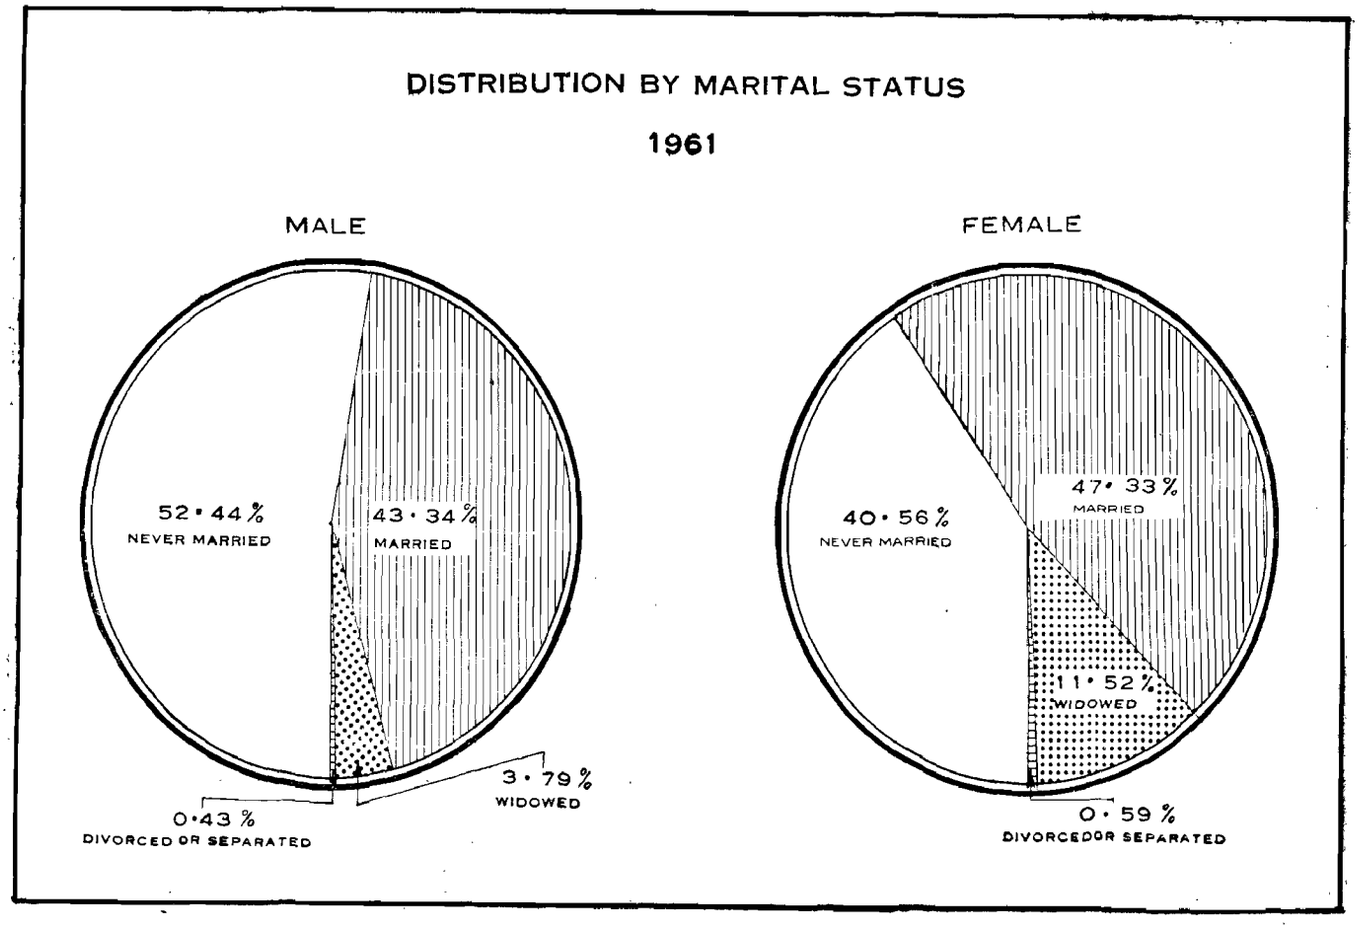

Within the district the sex ratio varies from 931 in Tuljapur taluka to 963 in Bhum mahal and Nilanga taluka. The rural urban differences in sex ratios within the talukas are wider than those between averages for different talukas. Except for Ausa taluka, the rural sex ratios are higher than the urban sex ratios.

Marital Status

Table C-II in Part II shows the distribution of population by marital status by five-year age-groups. The percentages of population for broad age-groups classified by marital status are shown below compared to those of 1951.

Figure below shows the distribution of the district population by marital status for males and females separately.

Year	Age-group	Total	Marital Status							
			Never married		Married		Widowed		Divorced or separated	
			Males	Females	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
1951	0—14 ..	100	97·56	83·83	2·37	15·96	0·07	0·17	..	0·04
	15—34 ..	100	31·13	1·91	66·28	90·65	2·27	6·84	0·32	0·60
	35—54 ..	100	1·66	0·19	88·14	64·44	9·74	34·85	0·46	0·52
	55+ ..	100	1·03	0·15	68·94	20·14	29·75	79·57	0·28	0·14
	All ages ..	100	49·41	35·84	45·12	49·59	5·26	14·25	0·21	0·32
1961	0—14 ..	100	98·53	90·83	1·44	9·01	0·03	0·08	Negligible	0·08
	15—34 ..	100	32·67	3·30	65·24	91·77	1·38	3·72	0·71	1·21
	35—54 ..	100	1·81	0·23	90·13	68·67	7·19	30·29	0·87	0·81
	55+ ..	100	1·12	0·21	73·47	23·57	24·77	75·93	0·64	0·29
	All ages ..	100	52·44	40·56	43·34	47·33	3·79	11·52	0·43	0·59

During the last decade the proportion of never married has increased both for males and females. There has been a decrease in the proportion of widowed both for males and females. The proportion of divorced or separated showed an increase but it is hardly of any numerical importance. All these changes contributed to lower the proportion of "married" both for males and females. The rise in the age at marriage may be seen from the marital status distribution by age-groups. The proportion of never married has increased in age-groups 0—14 and 15—34 both for males and females.

Child Woman Ratio

The following are the child woman ratios for 1951 and 1961, i.e., the number of children 0—4 years age-group for every 1,000 women of 15—44 years age-group as well as for every 1,000 married women of 15—44 years age-group. The proportion of widows of 15—44 years age-group to 1,000 married women of 15—44 years age-group is also shown for comparison:—

	No. of children 0—4 years age-group per 1,000 women of 15—44 years age-group	No. of children 0—4 years age-group per 1,000 married women of 15—44 years age-group	No. of widows per 1,000 married women (both in 15—44 years age-group)
1951 District Total ..	635	738	138
1961 District Total ..	730	826	89
Rural ..	731	823	89
Urban ..	720	858	91

The child woman ratio for rural areas is slightly higher than that for urban areas. When standardised for married women of 15—44 years age-group, it is higher in urban areas. This may indicate either a high fertility or a high survival rate in urban areas. Over the decade, the ratio has increased from 635 to 730. It may be due both to a higher birth-rate and somewhat reduced infant mortality.

The number of widows per 1,000 married women in the age-group 15—44 is reduced from 138 in 1951 to 89 in 1961. The incidence of widowhood is slightly more in urban areas.

Migration

The 1961 Census showed the proportions of population enumerated at place of birth and other places as shown in the table below.

69·49 per cent of the population was enumerated at places of birth. This percentage for males is 85·30 but for females it is only 52·83. The difference is due to women married outside their places of birth. This marriage in-migration of females is particularly more from within the district. Even among persons migrating from outside the State, the females outnumber the males. This is due, largely, to its being a border district and its not having any industries so as to attract male in-migration.

The sex ratios in the district population by five-year age-groups for total, rural and urban areas are as follows:—

Age-groups	Sex Ratios		
	Total	Rural	Urban
All ages	949	953	910
0—4	1,006	1,012	952
5—9	991	991	991
10—14	896	903	837
15—19	972	1,005	774
20—24	1,172	1,190	1,037
25—29	940	937	962
30—34	948	951	924
35—39	869	871	849
40—44	936	937	926
45—49	834	834	828
50—54	829	825	865
55—59	723	720	752
60+	815	806	905

The rural-urban differentials of sex ratios are less in younger and older age-groups. Rural sex ratio is higher for younger age-groups while in older age-groups urban sex ratio is higher than the rural sex ratio. The high sex ratio in age-group 20—24 may be due to the movement of young adult males in search of jobs or for higher education outside the district. The sex ratio has tended to become more masculine from the age-group 45—49 onwards. The sudden drop in the sex ratio for age-group 55—59 for total, rural and urban population may also be partly due to the comparatively larger mortality of women in the influenza and plague epidemics in the past.

Proportions of population by places of birth

—	Total population	In place of enumeration	Elsewhere in the district	Outside the district but in Maharashtra	Outside Maharashtra
(1)	(2)	(3)	(4)	(5)	(6)
Persons	1,477,656	1,025,874	335,491	84,980	29,864
Males	758,235	646,245	78,721	23,078	9,553
Females	719,421	379,629	256,770	61,902	20,311
Percentage to total population—					
Persons	100·00	69·49	22·73	5·76	2·02
Males	100·00	85·30	10·39	3·05	1·26
Females	100·00	52·83	35·73	8·61	2·83

The percentage distribution of male population born at the place of enumeration, born elsewhere within the district and born outside the district by nine categories of economic activity and of non-workers is shown below. An explanation of the nine categories will be found in the Explanatory Note to Part II, paragraphs 42 to 52.

The proportion of non-workers is naturally lower among the migrants. The percentage of cultivators is higher for those born at the place of enumeration. Agricultural labourers have a higher percentage for those born elsewhere in the district. It may be seen that the proportion of those born outside the district is higher in non-agricultural sectors and particularly so in categories VII, VIII and IX. Those born elsewhere in the district also have a higher proportion in those categories than those born at place of enumeration.

——	Categories of Workers									Non-Workers
	I	II	III	IV	V	VI	VII	VIII	IX	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
District Total ..	28·96	16·88	3·30	3·13	0·76	0·64	2·24	0·41	3·82	39·86
Born at place of enumeration.	31·44	16·27	3·29	2·84	0·59	0·44	1·91	0·27	2·57	40·38
Elsewhere in the district.	16·02	22·21	3·40	4·19	1·35	1·55	3·38	0·96	9·97	36·97
Outside the district..	11·39	15·97	3·32	6·24	2·73	2·45	6·02	1·81	13·60	36·47

Size of the Household

Table C-I-A in Part II shows the proportion of sample households classified by size. Percentage proportions of different types of households are as follows :—

	Total	Rural	Urban
Single member ..	5·95	5·63	8·61
2—3 members ..	20·95	20·71	22·92
4—6 members ..	44·32	44·90	39·51
7—9 members ..	20·82	20·83	20·73
10 members and more	7·96	7·93	8·23
All sizes	100·00	100·00	100·00

Among the different size groups, households with 4 to 6 members are more common (44·32 per cent) than others. The percentage distribution of rural and urban households by their size shows that single and small-size households are more (31·53 per cent) in urban than in rural areas (26·34 per cent). The average size of the household is 5·39 in rural areas and 5·24 in urban areas.

Household Composition

Table C-I-B in Part II shows the distribution of sample households by the type of their composition. The percentage distribution of population of sample households by relationship for the district is shown below :—

——	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
(1) Heads of households	33·34	3·13	33·35	3·04	33·23	3·92
(2) Spouses of heads of households	0·07	29·94	0·07	30·02	0·09	29·27
(3) Married sons	9·19	..	9·54	..	6·26	..
(4) Other married relations	4·86	17·57	4·97	18·02	3·96	13·76
(5) Never married, widowed or divorced relations	50·96	49.16	50·56	48·73	54·33	52·76
(6) Unrelated persons	1·58	0·20	1·51	0·19	2·13	0·29
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

33·34 per cent of the males are heads of households as against only 3·13 per cent for females. Married sons are 9·19 per cent of the total males. 50·96 per cent males and 49·16 per cent females, which incidentally form the largest group, are never married, widowed or divorced relations. Proportion of unrelated persons is 1·58 per cent for males and only 0·20 per cent for females. Nearly 30 per cent females are spouses of heads of households. High proportion of females in other married relations includes the daughters-in-law and married daughters or sisters of the heads. The proportion of married sons is smaller in urban areas than in rural areas. It may indicate that the joint family is being replaced by the biological family more in urban areas. Unrelated persons have a higher porportion in urban areas. Domestic servants are included in this category and they appear to be staying with the households more in urban than in rural areas.

Population Projections

On the basis of analysis of demographic data obtained in the 1961 Census, Professor K. V. Ramchandran of the Demographic Training and Research Centre, Chembur, Bombay, has, on our request, worked out projections for the total population, population in school-going ages (6—11 years) and the labour force (15—59 years) for the district for years 1966, 1971, 1976 and 1981. His projected estimates are shown below :—

	Total population (in '000)	Population in school-going ages 6—11 (in '000)	Labour force age-group 15—59 (in '000)
Actual 1951 ..	1,210	*211	*640
Actual 1961 ..	1,478	256	762
Projected 1966 ..	1,684	272	861
Projected 1971 ..	1,900	311	976
Projected 1976 ..	2,145	339	1,120
Projected 1981 ..	2,429	364	1,289

*Estimated figures taken from 1951 Sample Census Tables.

LANGUAGES

Table C-V in Part II shows the population by nine major languages for the district and each taluka and town separately. The distribution of languages by rural and urban areas of the district is as follows :—

Language	Percentage to total population			Percentage of each language in	
	Total	Rural	Urban	Rural Areas	Urban Areas
(1) Banjari ..	0·92	0·97	0·56	93·52	6·48
(2) Gujarati ..	0·16	0·12	0·51	65·71	34·29
(3) Hindi ..	0·94	0·61	3·71	58·09	41·91
(4) Kaikadi ..	0·05	0·06	0·03	94·49	5·51
(5) Kannada ..	2·78	2·38	6·14	76·66	23·34
(6) Marathi ..	83·97	86·86	59·47	92·51	7·49
(7) Pardhi ..	0·07	0·07	0·03	95·89	4·11
(8) Telugu ..	1·10	1·02	1·76	83·06	16·94
(9) Urdu ..	9·91	7·84	27·43	70·73	29·27
(10) Others ..	0·10	0·07	0·36	63·10	36·90
All Languages ..	100·00	100·00	100·00	89·42	10·58

Marathi is the principal language and is the mother-tongue of nearly 84 per cent of the population. In rural areas Marathi speakers account for 86·9 per cent of the population. They make only 59·5 per cent of the population in urban areas. Urdu has the second largest number of speakers. They make 9·9 per cent of the total population in the district. It is spoken more in urban areas where its speakers make as much as 27·4 per cent against 7·8 per cent for rural areas. Kannada has the third largest number of speakers. They make 2·8 per cent of the total population of the district. It is also spoken more in urban areas where its speakers make as much as 6·1 per cent against 2·4 per cent for rural areas. The speakers of Banjari, Kaikadi and Pardhi are concentrated mostly in rural areas. The speakers of Hindi are fairly distributed over rural and urban areas.

The comparative position of the languages in 1901, 1951 and 1961 is as follows :—

Language	Percentage to total population		
	1901	1951	1961
(1) Banjari	0·15	0·77	0·92
(2) Gujarati	0·15	0·12	0·16
(3) Hindi	1·06	0·92	0·94
(4) Kaikadi	0·07	0·07	0·05
(5) Kannada	4·36	3·28	2·78
(6) Marathi	84·22	84·15	83·97
(7) Pardhi	0·04	0·09	0·07
(8) Telugu	0·55	1·22	1·10
(9) Urdu	9·30	9·21	9·91
(10) Others	0·10	0·17	0·10
All Languages	100·00	100·00	100·00

The proportion of Marathi speakers has slightly decreased from 84·22 per cent in 1901 to 84·15 in 1951 and further to 83·97 per cent in 1961. The percentage of Urdu speakers had decressed from 9·30 per cent in 1901 to 9·21 in 1951, but has again increased to 9·91 in 1961. The proportion of Kannada speakers has decreased from 4·36 per cent in 1901 to 2·78 in 1961. The percentages of Gujarati, Pardhi, Kaikadi and Hindi speakers have remained fairly constant over the last sixty years. The proportion of Telugu speakers has increased from 0·55 per cent in 1901 to 1·22 per cent in 1951. It has decreased to 1·10 per cent in 1961.

RELIGIONS

Table C-VII in Part II shows the population by religions for the district and each taluka and town separately. The distribution of religions by rural and urban areas of the district is as follows :—

	Percentage to total population			Percentage of each religion in	
	Total	Rural	Urban	Rural Areas	Urban Areas
(1) Buddhists ..	6·23	6·36	5·06	91·40	8·60
(2) Christians ..	0·08	0·08	0·14	81·41	18·59
(3) Hindus ..	83·17	85·21	65·87	91·62	8·38
(4) Jains	0·39	0·29	1·27	65·96	34·04
(5) Muslims ..	10·11	8·05	27·57	71·17	28·83
(6) Others ..	0·02	0·01	0·09	55·56	44·44
All Religions ..	100·00	100·00	100·00	89·42	10·58

83·2 per cent of the population reported their religion as Hindu. Hindus are 85·2 per cent in rural areas and 65·9 per cent in urban areas. Buddhists account for 6·4 per cent in rural areas and 5·1 in urban areas. Muslims are only 8·1 per cent in rural areas but make as much as 27·6 per cent in urban areas. Jains and the followers of other religions are similarly more in urban areas. The Hindus and Buddhists are more numerous in rural areas than in urban areas. The Jains are the most urbanised group and Hindus are the least urbanised.

The comparative position of the religions in 1901 and 1961 is as follows :—

	Percentage to total population	
	1901	1961
(1) Buddhists	..	6·23
(2) Christians	0·01	0·08
(3) Hindus	89·80	83·17
(4) Jains	0·66	0·39
(5) Muslims	9·52	10·11
(6) Others	0·01	0·02
All Religions	100·00	100·00

The proportion of Muslims increased from 9·5 per cent to 10·1 per cent from 1901 to 1961. The proportion of Christians has increased from 0·01 per cent to 0·08 per cent in the same period. The percentage of Hindus has gone down by 6·63 per cent from 1901 to 1961 because some persons belonging to Hindu Scheduled Castes returned their religion as Buddhist or Nav-Bauddha. The combined proportion for Hindus and Buddhists has, however, almost remained the same over the last sixty years. The percentage of Jains has decreased from 0·7 per cent in 1901 to 0·4 per cent in 1961. 1901 percentages are from the figures of the Osmanabad district existing in that year.

Sex ratio for each religion is as follows :—

Buddhists 992, Christians 376, Hindus 941, Jains 944, Muslims 993 and All religions 949.

High sex ratios for Muslims and Buddhists indicate that more of their males are going out of the district for work. Lowest sex ratio is observed for Christians.

SCHEDULED CASTES

Table SCT-I-Part A in Part II shows the population and its distribution by workers and non-workers for each Scheduled Caste by sex for the district and each taluka separately. Actually, 32 castes are notified as Scheduled Castes in the district but only 12 (including Mang Garodi) are reported in the 1961 Census.

The distribution of the 12 Scheduled Castes by rural and urban areas is as follows :—

Name of Scheduled Caste (1)	Population		Percentage to total population of the district (4)	Percentage of each Scheduled Caste population in	
	Males (2)	Females (3)		Rural Areas (5)	Urban Areas (6)
*All Scheduled Castes	101,019	96,873	13·39	93·89	6·11
(1) Beda Jangam	4	2	N	100·00	..
(2) Bhangi	292	284	0·04	95·83	4·17
(3) Chambhar	11,913	11,273	1·57	92·12	7·88
(4) Dakkal	22	19	N	100·00	..
(5) Dhor	2,833	2,660	0·37	69·58	30·42
(6) Ellamalwar	94	96	0·01	100·00	..
(7) Holeya	181	233	0·03	93·72	6·28
(8) Holeya Dasari	3	4	N	..	100·00
(9) Kolupulvandlu	92	91	0·01	70·49	29·51
(10) Mahar	39,057	37,384	5·17	95·47	4·53
(11) Mala Jangam	16	7	N	100·00	..
(12) Mang †	46,410	44,745	6·17	94·49	5·51

*Inclusive of persons from the Sheduled Castes who have not reported their individual castes.

†Includes Mang Garodi also. N=Negligible.

The remaining 19 Scheduled Castes for which no one was returned in the district in 1961 Census are as follows :—

(1) Anamuk, (2) Aray, (3) Arwa Mala, (4) Bindla, (5) Byagara, (6) Chalvadi, (7) Madiga, (8) Mala, (9) Mala Dasari, (10) Mala Hannai, (11) Mala Masti, (12) Mala Sale, (13) Mala Sanyasi, (14) Manne, (15) Mashti, (16) Mitha Ayyalvar, (17) Mochi (18) Samagara, (19) Sindhollu.

Out of the 12 Scheduled Castes reported in the district, the largest number is of Mangs (including Mang Garodi). The second predominant group is of Mahars and the third and the fourth groups are of Chambhars and Dhors. The remaining Scheduled Castes together have only 1,440 population which makes less than 0·1 per cent of the total population of the district. Beda Jangam and Holeya Dasai castes have less than 10 persons each.

The comparative position of the Scheduled Castes population in 1951 and 1961 within the district is as follows :—

	Percentage to total population in		
	Total Area	Rural Areas	Urban Areas
All Scheduled Castes—			
1951	18·76	19·90	11·23
1961	13·39	14·06	7·74

The reduction of the proportion of Scheduled Castes from 18·76 per cent in 1951 to 13·39 per cent in 1961 is the result of a large number of persons from the erstwhile Hindu Scheduled Castes returning their religion as Buddhist or Nav-Bauddha. Due to the change of religion these persons have not been treated as Scheduled Castes as the Constitution recognises Scheduled Castes from Hindu and Sikh religions only. The combined proportion of the Scheduled Castes and Buddhists in 1961 is 19·62 per cent. which is slightly higher than that of 1951.

Literacy

Tables SCT-III-Parts A (i) and B (i) in Part II show the literacy and educational levels for each Scheduled Caste.

The percentages of literacy for the district population, for all Scheduled Castes and each Scheduled Caste are shown below.

Both the males and females of the Scheduled Castes are much behind in literacy compared to the general population of the district. Among the major groups of the Scheduled Castes, Dhor appears to be the most advanced in this respect. The Scheduled Castes in this district do not seem to be taking advantage of the concessions and educational facilities made available to them.

Name of Scheduled Caste	Percentage of Literacy					
	Rural			Urban		
	Total	Males	Females	Total	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
DISTRICT AVERAGE	14·89	24·82	4·47	35·37	49·84	19·47
All Scheduled Castes	5·28	9·63	0·77	15·10	25·64	3·42
(1) Beda Jangam	66·67	100·00	No literates	..	..	..
(2) Bhangi	7·25	13·67	0·73	12·50	14·29	10·00
(3) Chambhar	7·37	13·24	1·20	18·76	30·15	6·12
(4) Dakkal	2·44	4·55	No literates	..	..	..
(5) Dhor	14·10	24·69	3·05	19·33	33·37	3·67
(6) Ellamalwar	14·74	28·72	1·04	..	..	..
(7) Holeya	4·90	10·00	0·92	3·85	No literates	6·67
(8) Holeya Dasari	..	..	..	42·86	100·00	No literates
(9) Kolupulvandlu	3·10	4·76	1·52	No literates		
(10) Mahar	5·66	10·29	3·54	19·49	32·25	4·94
(11) Mala Jangam	34·78	50·00	No literates	..	..	..
(12) Mang	4·00	7·41	0·48	9·52	17·08	1·33

Economic Activity

The industrial classification of persons at work and non-workers for the district total population, for all Scheduled Castes and for each Scheduled Caste is as follows :—

	Percentage of workers in categories			Non-workers
	Cultivation	Agricultural labour	All other activities	
DISTRICT AVERAGE	24·29	19·19	8·58	47·94
All Scheduled Castes ..	5·46	43·94	10·27	40·33
(1) Beda Jangam	..	16·67	16·66	66·67
(2) Bhangi	20·31	27·78	8·51	43·40
(3) Chambhar	8·63	29·59	16·78	45·00
(4) Dakkal	..	2·44	7·32	90·24
(5) Dhor	7·19	23·07	19·08	50·66
(6) Ellamalwar	52·63	3·16	..	44·21
(7) Holeya	3·38	45·41	7·49	43·72
(8) Holeya Dasari ..	..	..	..	100·00
(9) Kolupulvandlu ..	..	14·21	35·52	50·27
(10) Mahar	6·17	45·24	8·98	39·61
(11) Mala Jangam	17·39	13·04	8·70	60·87
(12) Mang	3·79	48·02	9·16	39·02

The proportion of workers among the Scheduled Castes is higher than the average for the total population of the district. Their participation in agricultural activities is comparatively more than the general population. Moreover, the proportion of workers in cultivation is very low and that in agricultural labour is much higher than the district average. The proportion of workers in all other activities is also higher than the average for the State. This may be due to the association of the Scheduled Castes with certain services as well as a fewer persons owning land amongst them.

Size of Land Cultivated

Tables C-I and SCT-V-Part A in Part II show a broad classification of cultivating households by size of land cultivated for the district rural population and all Scheduled Castes in rural areas. The proportions are as follows :—

Size of land cultivated	District rural population		All Scheduled Castes	
	No. of sample households	Percentage	No. of sample households	Percentage
All sizes	28,630	100·00	1,232	100·00
Less than 5 acres	3,052	10·66	368	29·87
5—9·9 acres	5,026	17·56	311	25·24
10—29·9 acres	13,230	46·21	413	33·52
30 acres and over	7,322	25·57	140	11·37

Out of a sample of 28,630 cultivating households 1,232 or about 4 per cent households are from the Scheduled Castes in rural areas, against their population which is 14·06 per cent of the total rural population of the district. 29·87 per cent of the cultivating households of the Scheduled Castes are cultivating less than five acres of land against the corresponding average of 10·66 per cent for the district. The percentage of households cultivating land over five acres among the Scheduled Castes is 70·13 per cent as against the corresponding average of 89·34 per cent for the district. The proportion of households cultivating large holdings is thus smaller in the case of Scheduled Castes. Their participation in agriculture is comparatively more than the average for the general population of the district. However, as already stated, the proportion of agricultural labourers among them is considerable.

SCHEDULED TRIBES

Table SCT-I-Part-B in Part II shows the population of Scheduled Tribes by each Scheduled Tribe separately. Six Scheduled Tribes out of seven notified tribes of the district are reported in the 1961 Census. Their total population, however, is only 393 or 0·03 per cent of the total population of the district.

The distribution of the Scheduled Tribes population by rural and urban areas is as follows :—

Name of Scheduled Tribe	Population		Percentage to total population of the district	Percentage of each Scheduled Tribe population in	
	Males	Females		Rural Areas	Urban Areas
(1)	(2)	(3)	(4)	(5)	(6)
All Scheduled Tribes	197	196	0·03	100·00	..
(1) Andh	2	..	Negligible	100·00	..
(2) Bhil	71	73	0·01	100·00	..
(3) Gond	33	26	N	100·00	..
(4) Kolam	3	5	Negligible	100·00	..
(5) Koya	1	4	Negligible	100·00	..
(6) Pardhan	87	88	0·01	100·00	..

The remaining one Scheduled Tribe for which no one was returned in the district in 1961 is "Thoti".

Pardhan with 175 persons is the largest Scheduled Tribe in the district. Bhil with 144 persons and Gond with 59 persons are the second and the third largest groups, respectively. The other three tribes together have only 15 persons. The entire Scheduled Tribe population is from rural areas only.

The Scheduled Tribe population in the district has increased from 151 in 1951 to 393 in 1961.

Literacy and Education

The Scheduled Tribes being very meagre in population, are the most depressed group, so far as literacy is concerned. Not even a single female among them is literate. The males themselves are very much behind in literacy.

Economic Activity

Seventy-six per cent of the workers among the Scheduled Tribes in the district work in agriculture. Their participation is more as agricultural labourers. Their labour participation rate is also higher than that of the general population.

WELFARE OF BACKWARD CLASSES

The subject of welfare of Scheduled Castes, Scheduled Tribes and other Backward Classes in the district is now in the purview of the Zilla Parishad. In the membership of Standing Committee which is the most powerful committee of the Zilla Parishad at least two members from Scheduled Castes, Scheduled Tribes and other socially and educationally backward classes are required to be elected by the Parishad. This Standing Committee acts as the Subject Committee for that subject and the District Social Welfare Officer works under it. The Zilla Parishad is also legally required to spend adequate amounts for the amelioration of the condition of the Scheduled Castes, Scheduled Tribes and of any socially and educationally backward classes and in particular for the removal of untouchability.

Various schemes for the welfare of Scheduled Castes, Scheduled Tribes and other educationally or socially backward classes are in operation in the district :—

(1) *Educational.*—These include schemes of granting tuition fees at all stages of education irrespective of age and income, examination fees of recognised examinations and scholarships to the students from the Scheduled Castes, Scheduled Tribes, Nomadic and Semi-Nomadic Tribes, Vimukta Jatis and the Backward Classes. The concession is awarded in the Primary Schools, High Schools or Technical Schools. 2,214 students benefited from and Rs. 50,080 were spent on these schemes during the year 1962-63. Rs. 1,60,317 were spent on 13 backward class and 13 cosmopolitan hostels in the district during the year 1962-63. 929 students were admitted in these hostels. Rs. 25,096 were given as building grants to four backward class hostels and 80 students were benefited by it.

(2) *Schemes for Economic Uplift.*—These include schemes of granting loan-*cum*-subsidy for cottage industries and professions and of assistance for purchase of milch cattle to the Scheduled Castes and other Backward Classes. Under the scheme of loan-*cum*-subsidy for cottage industries and professions, Rs. 9,500 were given to 53 beneficiaries from the Scheduled Castes and Backward Classes from underdeveloped rural areas during the year 1962-63 and Rs. 1,500 were spent on seven beneficiaries under the scheme of assistance for purchase of milch cattle.

(3) *Housing.*—A number of housing societies of backward classes have been formed in the district. These societies construct houses for their members. Financial assistance in the form of loans and subsidies is given to these societies. Assistance in cash or kind for repairs to houses of Scheduled Castes and other Backward Classes is also provided. Under this scheme Rs. 4,600 were given on 46 beneficiaries and Rs. 9,280 were incurred over these schemes during 1962-63.

(4) *Drinking Water Wells.*—An amount of Rs. 14,850 was spent under this scheme. Rs. 800 were spent for repairs of wells in or near Scheduled Castes localities for four wells while Rs. 14,050 were incurred for 13 drinking water wells for Scheduled Castes.

(5) *Medical Aid to Scheduled Castes.*—Monetary aid is given to deserving persons belonging to the Scheduled Castes and Rs. 1,167 were spent during the year.

(6) *Agricultural.*—Financial assistance to poor deserving agriculturists from Scheduled Tribes, Vimukta Jatis, underdeveloped rural areas and other backward classes to purchase ploughs, bullocks, implements, seeds, carts, etc., is given. Rs. 5,928 were spent on 52 beneficiaries under this scheme during the year 1962-63.

(7) *Schemes for removal of untouchability.*—These include various schemes of publicity against untouchability. Sanskar Kendras and Balwadis are organised, film shows and gatherings are addressed at fairs and other places. Kirtan programmes and Melas, inter-caste dinners, celebration weeks and days are also arranged. Building sites are given to Scheduled Castes in caste Hindu localities and subsidy is paid to caste Hindu landlords for letting their premises on hire to Scheduled Castes. Prizes are also awarded to villages which show outstanding work for removal of untouchability. Rs. 11,250 were spent under the schemes during the year 1962-63.

The schemes which were already in operation before the Third Five-Year Plan are treated as committed schemes and those added under the Third Plan are separately treated as Plan schemes. The expenditure described above against each scheme is out of the committed schemes and also include expenditure on the Plan schemes. There are in addition some more schemes sponsored by the Central Government.

Economic Criterion of Backwardness

Castewise basis of classification of "Other Backward Classes" has now been replaced by a new classification based on income. The income limit was raised from Rs. 900 per annum to Rs. 1,200 per annum with effect from 1st June 1960. All persons whose annual income from all sources does not exceed this limit are irrespective of their religion, caste or community treated as belonging to the "Other Backward Classes."

Concessions to Buddhists

From 1st May 1960, the Scheduled Caste converts to Buddhism are treated as eligible for all concessions and facilities available to Scheduled Castes except the statutory concessions under the Constitution and certain special schemes for removal of untouchability, etc., which cannot by their very nature apply to non-Hindus.

EDUCATION

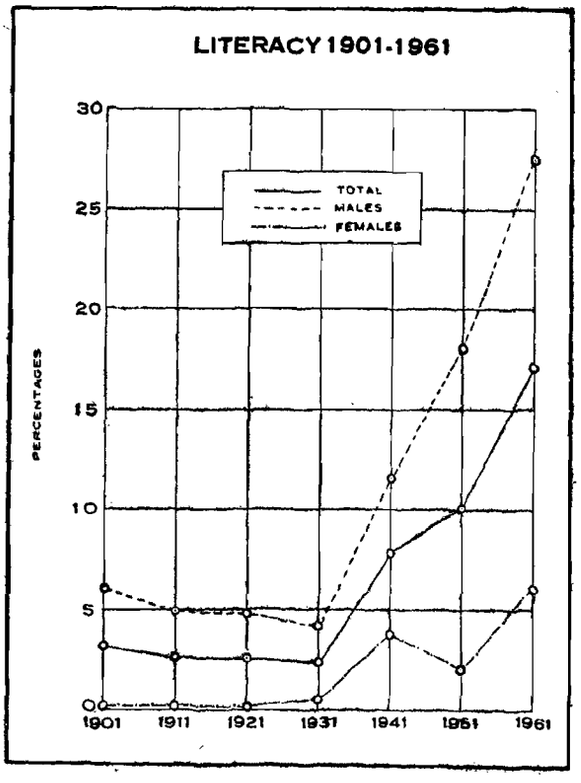

The facilities of primary, secondary and higher education have increased in the district during the decade 1951—61. Although the literacy rates are still far below the State averages, the improvement over the position in 1951 is quite striking.

Growth of Literacy

Percentage of literacy in the district for total, males and females since 1901 is as follows :—

	Total	Males	Females
1901	3·09	6·00	0·12
1911	2·62	4·95	0·19
1921	2·53	4·77	0·11
1931	2·44	4·23	0·51
1941	7·82	11·58	3·81
1951	10·06	18·61	2·96
1961	17·05	27·52	6·02

The Figure in the next column shows the growth of literacy in the district for total population, males and females separately.

The literacy percentage has increased seven times during the last thirty years. Literacy rate for females has shown substantial improvement during the decade 1951—61. Male literacy also rose from 18·61 in 1951 to 27·52 in 1961. This rapid improvement may be

due to the extension of educational facilities during the first two Plans. The scheme of compulsory primary education introduced in 1953 may be another contributing factor.

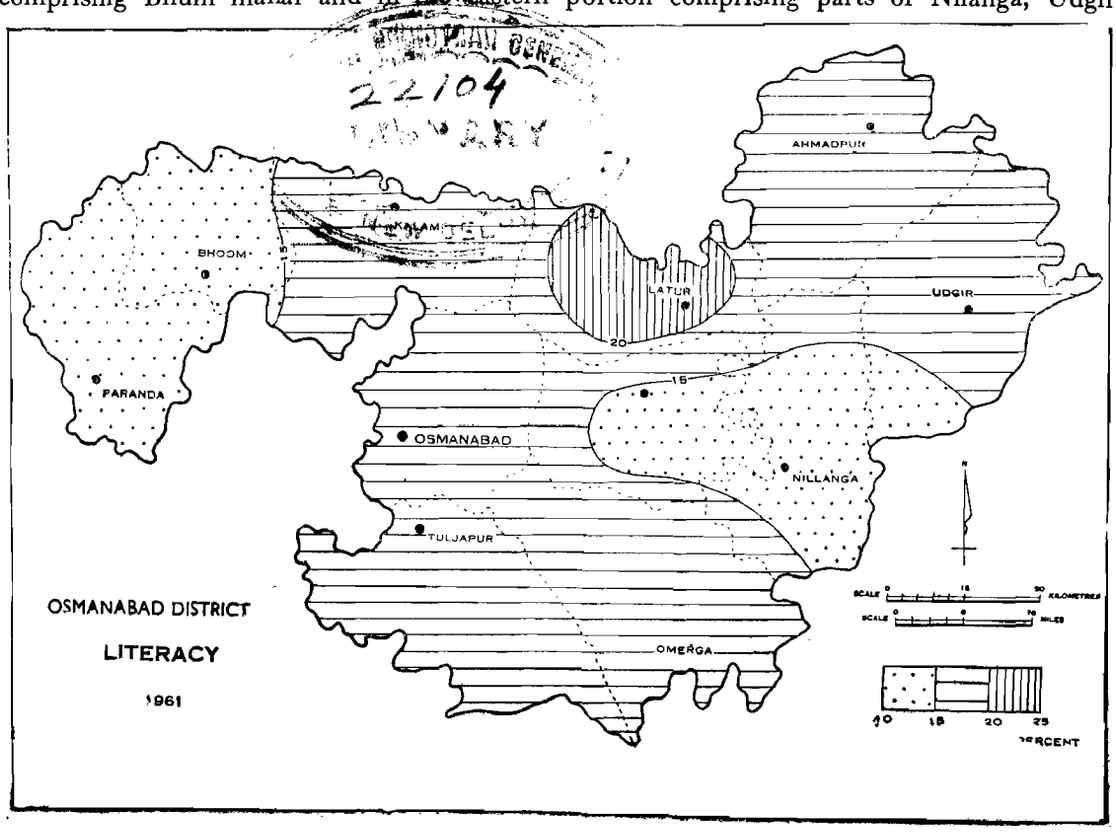

The Primary Census Abstract in Part II shows the number of literate males and females for total, rural and urban areas of each taluka separately. The Village Directory in Part I furnishes such numbers for each village and for each ward of every town separately. Percentage proportions of literates out of the total population for males and females are shown below for total, rural and urban areas of each taluka separately :—

State/District/Taluka	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
MAHARASHTRA ..	29·82	42·04	16·76	21·46	33·51	9·34	51·07	61·62	37·90
OSMANABAD DISTRICT ..	17·05	27·52	6·02	14·89	24·82	4·47	35·37	49·84	19·47
1 Ahmadpur Taluka ..	16·11	26·63	4·98	15·21	25·55	4·30	33·89	47·49	18·83
2 Parenda Taluka ..	12·87	20·74	4·66	11·43	18·85	3·72	30·27	43·43	16·27
3 Bhum Mahal ..	14·29	23·42	4·80	13·26	21·92	4·29	26·92	41·53	11·11
4 Osmanabad Taluka ..	19·37	30·05	8·19	15·81	25·99	5·26	42·24	55·23	27·76
5 Latur Taluka ..	20·96	32·44	8·64	14·48	24·36	3·98	37·14	52·26	20·49
6 Tuljapur Taluka ..	17·64	27·62	6·93	14·78	24·24	4·63	39·95	53·97	24·85
7 Kalam Taluka ..	17·03	27·61	5·84	15·92	26·20	5·07	35·23	50·16	18·80
8 Udgir Taluka ..	16·87	27·70	5·55	14·51	24·72	3·95	36·15	51·14	19·25
9 Ausa Taluka ..	15·56	25·34	5·25	14·33	23·75	4·38	29·42	43·46	14·90
10 Umarga Taluka ..	18·36	29·87	6·19	16·98	28·02	5·36	29·79	44·82	13·16
11 Nilanga Taluka ..	15·70	26·35	4·63	14·75	25·13	4·00	32·07	46·77	15·79

Figure below shows the spread of literacy in the district by isopleths.

The highest literacy rates are in a small pocket around Latur town. Lowest rates are found in the western portion comprising Bhum mahal and in the eastern portion comprising parts of Nilanga, Udgir and Ausa talukas. These latter were till recently very poorly served by communications.

Within the district, percentage of literacy is highest (20·96) in Latur taluka and lowest (12·87) in Parenda taluka. In rural areas, Umarga taluka ranks first with 16·98 percent. For urban areas Osmanabad taluka has the highest rates for total, males and females.

Literacy by Age

The percentages of literates by age-groups for the district total, rural and urban areas are as follows. Actual figures are shown in Tables C-III-A, B and C in Part II which also give figures for different educational levels separately.

Average literacy rates are the highest in the age-group 15—34 in the case of males. This indicates that literacy rates have improved only recently and that there has not been any persistent educational activity over a long period. In the case of females the high figure for 5—14 indicates that female education has received attention very recently.

Age-group	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
All ages	17·05	27·52	6·02	14·89	24·82	4·47	35·37	49·84	19·47
0—4	..	..	..	..	..	..	..	..	..
5—14	20·95	30·68	10·69	18·60	28·24	8·47	40·33	50·44	29·31
15—34	24·15	40·58	7·87	21·06	36·80	5·64	49·06	69·41	26·83
35—59	15·32	26·41	2·36	13·74	23·22	1·41	34·61	54·95	10·93
60+	10·15	17·74	0·86	8·68	15·30	0·47	24·46	42·59	4·43

Primary Education

Table 15 in Part III shows the number of primary schools and pupils in them for the district and each taluka in 1951, 1956 and 1961.

The number of primary schools and their classification as on 31st March 1962 are as follows :—

	Total	Basic			Non-Basic		
		Senior basic	Junior basic	Single teacher	Single teacher	Multi-teacher I—IV	Middle I—VII
Total No. of Schools.	1,259	17	95	4	567	441	135
State Government.	1,230	17	95	4	567	436	111
Private ..	29	..	..	..	..	5	24

There has been a rapid growth in the number of primary schools in the district during the last ten years. The number of primary schools was about 500 in 1950-51. It increased to 762 in 1955-56 and to 1,224 in 1960-61. On 31st March 1962 the number stood at 1,259. The Nizam's Government in pre-1947 days had imposed severe restrictions on opening of schools and as a result very few private institutions could work in the district.

Out of 1,259 primary schools, 1,230 are managed by the State Government (now handed over to Zilla Parishad) and only 29 are managed by private institutions. The State Government's share (in the year 1961-62) was 96·8 per cent of the total expenditure. The expenditure on primary education is incurred by the State Government through grants-in-aid to Zilla Parishad and building loans and grants to primary teachers' training colleges. Similarly, wards of parents whose annual income does not exceed Rs. 1,200 get free education. The cost borne by the schools on this account is reimbursed from the State Government. Students from Scheduled Castes and Scheduled Tribes similarly get free education and scholarships are given to them at the rate of Rs. 3 per year in I and II Standards and Rs. 6 per year in III and IV Standards. Government also gives aid to backward class and mixed hostels for meeting their cost on students belonging to Scheduled Castes and Scheduled Tribes.

The State Government's policy of converting primary schools into basic schools is making steady progress. At the end of First Plan there were 37 basic schools in the district. In 1959-60 the number rose to 53. On 31st March 1962, it stood at 116.

By 31st March 1962, 13 towns and 1,184 villages in the district had primary schools and 10 villages had schooling facilities, i.e., primary schools situated within a mile from the village. 194 villages did not have even schooling facilities. Total number of teachers was 3,113. Out of them, 657 were trained teachers.

Other indices of the progress of primary education in the district compared with those of the State averages are shown below :—

(As on 31st March 1962)

	Osmanabad District	Maharashtra
Average population served by a primary school	1,186	1,135
Average area served by a primary school (sq. miles)	4·4	3·4
Pupils per teacher	38	38
Pupils per school	94	127
Average annual salary per teacher..(Rs.)	1,029	1,250
Average annual expenditure per school (Rs.)	2,837	4,903
Average number of teachers per school ..	2·5	3·3
Percentage of trained teachers	21·1	64·8

The scheme of compulsory primary education was introduced in 1953 in 20 villages. The scheme was extended to 14 more villages in 1956.

One of the schemes of the Third Plan is to extend the scheme of compulsory primary education to all children in the age-group 6—11. A provision of Rs. 104·02 lakhs has been made for primary education in the Third Plan. 1,684 additional teachers would be appointed in primary schools. 227 new class-rooms are proposed to be built during this period. The number of students is expected to rise by 84,200.

Secondary Education

The number of institutions imparting secondary education and number of pupils both boys and girls for the years 1951, 1956 and 1961 are shown in Table 15 in Part III. A list of high schools with number of students for each of them may be seen in Table 16.

By 31st March 1962, the number of institutions and their classification in the district are as follows:—

	Total	Higher Secondary Schools		Middle Secondary Schools
		Multi-purpose	Ordinary	
State	36	2	34	..
Private	36	3	31	2

Total number of students on roll during the year 1961-62 was 23,808. Out of them, 19,479 were boys and 4,329 girls. Total number of teachers was 954. Out of them 385 were trained teachers. Percentage of trained teachers was thus 40·3. Other indices of secondary education compared to the State averages are as follows :—

	Osmanabad District	Maha-rashtra
Population served by each high school ..	20,731	13,805
Area served by each school (sq. miles) ..	77·2	40·8
Pupil-teacher ratio	25	25
Pupils per secondary school	331	338
Average annual salary per teacher .. (Rs.)	1,619	1,870
Average annual expenditure (direct) per secondary school .. .. (Rs.)	27,008	39,543
Average No. of teahcers per secondary school	13·2	13·7

Figure on page (28) shows the proportions for literates and different educational levels among males and females for rural and urban areas separately.

The progress of secondary education in the district is quite steady. The number of secondary schools increased from 33 in 1951 to 49 in 1956 and to 64 in 1961. On 31st March 1962, it was 72. The secondary schools are dispersed throughout the district. Parenda taluka has one which is the smallest number. Ahmadpur and Umarga talukas have nine secondary schools (each).

Private institutions manage half of the total number of secondary schools in the district and the remaining are managed by the State Government. The Government's share in the total expenditure on secondary education (in 1961-62) is 80·7 per cent. It is incurred through different schemes of grants for maintenance, salaries, buildings, building sites, equipment, freeships, scholarships, loans, etc., and special concessions to Scheduled Castes, Scheduled Tribes or other Backward Class students.

Looking to the rapid growth in the number of pupils in primary schools, the number of pupils in the secondary schools may rise to 38,000 by 1965-66 and to 50,000 by 1970-71.

H.S.C. and H.S. (M.P.) S.C. Examinations

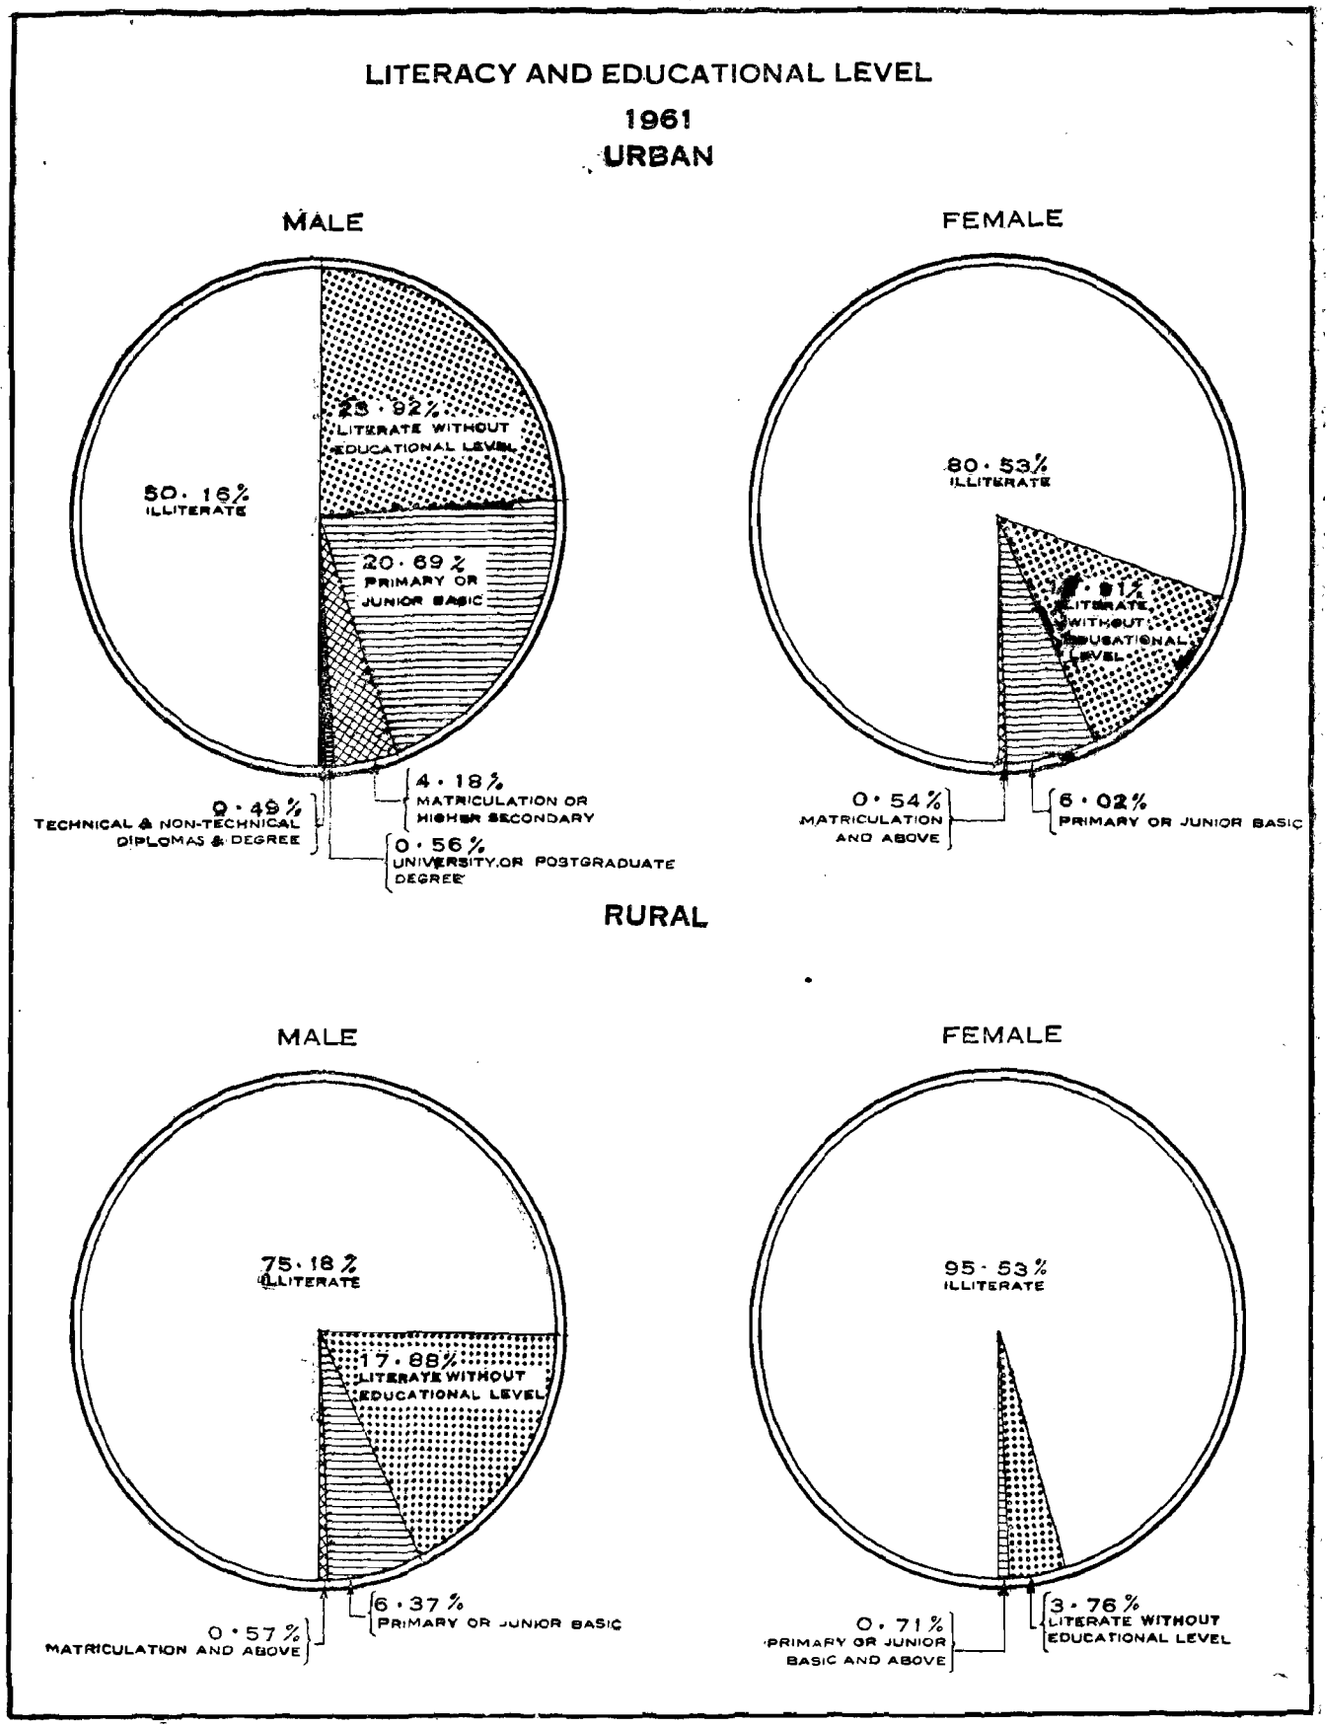

Secondary School Certificate Examination Board, Poona, conducts these pubilc examinations at the end of the secondary school course. Two examinations are held every year in March and October. Latur, Osmanabad, Umarga and Udgir are the examination centres in the district. The number of candidates who appeared and passed from those centres during the year 1962 are as follows :—

	Appeared	Passed
H.S.C. Examination held in—		
March 1962	2,422	853
October 1962	1,273	472
H.S. (M.P.) S.C. Examination held in—		
April 1962	187	65
October 1962	155	43

Higher Education

A list of colleges is given in Table 16 in Part III along with the 1960-61 number of students for each college.

The first college was started in the district in 1956. There were five colleges in 1961. These provided education in Arts, Science, Commerce and Teaching. The number of college students stood at 545 in 1961. Out of the five colleges only one, *viz.*, Govt. College of Education is managed by Government and the remaining four are managed by private institutions and receive grants for maintenance, dearness allowance and buildings from Government. Two colleges are situated at Osmanabad, two at Latur and only one at Umarga.

LITERACY AND EDUCATIONAL LEVEL

3·76% LITERATE WITHOUT EDUCATIONAL LEVEL
0·71% PRIMARY OR JUNIOR BASIC AND ABOVE

Technical Education

A technical college named after late Seth Puranmal Lahoti was started at Latur in 1956. In 1957, courses for Diploma in Civil Engineering have been introduced in the college. The governing council of the college has decided to hand over the institution to the State Government for its further development into a full-fledged polytechnic. Besides the above college, two Government technical and industrial schools are conducted at Latur and Murud, respectively, for the benefit of blind students.

Libraries

There are 17 libraries recognised by the State Government. They were given a total grant-in-aid of Rs. 1,877 during 1962-63 by the State Government.

Printing Presses, Journals and Newspapers

There are 13 printing presses in the district. There is only one monthly published in the district.

Cinema Theatres

There are nine permanent cinema theatres, five quasi-permanent theatres and one touring talkie in the district as on 21st December 1963.

HEALTH AND MEDICAL AMENITIES

The Health Department's work in the district is now in the purview of the Zilla Parishad. A Subject Committee looks after its working and the District Health Officer works as Secretary to that Committee as well as the Officer-in-charge of Health Activities in the district.

Drinking Water Supply

Column (5) of the Village Directory in Part I shows the sources and adequacy of drinking water for each village in the district.

Three towns have piped water supply. Out of the remaining towns and villages, 111 villages and one town draw water from rivers, 1,016 villages and five towns from wells, 29 villages from nallahs, one village from tank and 231 villages and four towns have more than one of these sources of water. Drinking water supply is not adequate in 327 villages and five towns.

Malaria Eradication

A malaria eradication unit has been established for the district with headquarters at Latur. DDT has been sprayed in all parts of the district.

Leprosy Control

Incidence of leprosy is somewhat higher in Umarga and Kalam. There is one Government Leprosy Centre with 22 beds near Osmanabad town where facilities are provided for training leprosy patients in different trades. Besides, there are five survey, education and treatment centres at Latur, Kalam, Umarga, Nilanga and Ausa.

Anti-T.B. Campaign

A T.B. clinic has been opened at the Government Hospital at Latur.

Family Planning Centres

Six family planning centres are functioning in the district at Bhum, Parenda, Ahmadpur, Kalam, Murum and Osmanabad. 150 and 244 vasectomy operations were performed during 1960 and 1961, respectively.

Protected Water Supply

Arrangements for the supply of protected water exist in Osmanabad, Latur and Tuljapur towns.

As guinea-worm was prevalent in the area where there are step-wells such wells are being converted into draw-wells.

Medical Facilities

Medical facilities available in the district are shown in Table 17 in Part III. The figures in the table relate to the facilities provided by Government and other aided institutions. The number of private practitioners, hospitals and dispensaries are not shown there.

The number of doctors, nurses and beds available and the number of in-door and out-door patients have all increased during the decade. The number of doctors and nurses increased from 19 and 6 in 1950 to 22 and 14, respectively, in 1960. The number of beds increased from 89 in 1950 to 155 in 1960. The number of in-door patients increased from 11,342 to 35,536 and the number of out-door patients from 474,939 to 802,258 in the decade 1950-60.

Hospitals

There are three Government Hospitals in the district in 1964.

Out of these the Civil Hospital (now called the General Hospital) at Osmanabad has been provided with a pathological laboratory and a radiology unit and has a capacity of 60 beds. It also has an ambulance van. The other Government (Civil) Hospital is at Latur and has 38 beds. The Chest Clinic at Latur has 12 beds.

Dispensaries

In 1964 there are 26 Ayurvedic, Homoeopathic and Unani dispensaries with 85 beds. All are managed by the Zilla Parishad.

Primary Health Centres

There are five primary health centres at Murum, Anala, Chakur, Washi and Kingaon, with three sub-centres for each centre.

Two model medical and health units are also functioning at Ahmadpur and Kalam. There are also five maternity and child welfare centres at Osmanabad, Kalam, Ahmadpur, Tuljapur and Ausa.

The total number of persons working as Physicians, Surgeons, Dentists, Nurses, Pharmacists and other medical and health technicians in the district is 861.

The number of persons returned in the 1961 Census as Physicians, Surgeons and Dentists and their classification by sex are shown in Table B-V in Part II. The number of medical personnel per one lakh population in the district is 34 as against 54 for the State.

HOUSING

Tables E-I, E-II, E-IV and E-V in Part II present material on different aspects of housing in rural and urban areas of the district and each taluka separately.

70·64 per cent of the houses are used as dwellings, 16·56 per cent as cattle-sheds, etc., 4·44 per cent were vacant at the time of Census and the remaining are used as shops, workshops, or factories, schools, etc.

The density of residential houses per sq. mile in the district has increased along with the density of population per sq. mile from 36·0 in 1951 to 49·1 in 1961. The number of persons per residential house has, however, decreased from 6·09 in 1951 to 5·45 in 1961. This may be a sign of an increased mobility of population from rural to urban areas.

Classified by "owned" and "rented" categories, 86·01 per cent of the dwellings in the district are owned and only 13·99 per cent are rented. The proportion of owned is higher (89·39 per cent) in rural areas and much lower (57·66 per cent) in urban areas. Even this low proportion of 57·66 per cent for urban areas in the district is higher than the average of 30·28 per cent for all urban areas of Maharashtra.

Out of the various materials used for walls, stone is predominant in the district with a proportion of 78·40 per cent. A major portion of the district is a laterite plateau and good building stone occurs in almost every part of the district. Mud is used next in predominance and has a proportion of 7·50 per cent. Its proportion in the talukas of Ahmadpur, Parenda, Tuljapur, Udgir, Ausa, Umarga and Nilanga are a little lower and grass, leaves, reeds, etc. are used next to stone in these talukas. Unburnt bricks are, however, used next to stone in Latur taluka only. Stone is used for walls more in rural than urban areas. Its proportion in rural areas is 78·91 per cent as against 74·11 per cent in urban areas. Similarly, the use of mud, grass, leaves, reeds, etc. and unburnt bricks is more in rural than in urban areas. Burnt bricks are, however, used more in urban areas with a proportion of 9·20 per cent as against 0·86 per cent in rural areas.

Out of the materials of roof, corrugated iron or zinc sheets are used predominantly in the district with a proportion of 54·26 per cent. These types of roofs are, however, more common in urban areas in the district. Their proportion in urban areas is 68·74 per cent as against 52·53 per cent in rural areas. Roofs of grass, leaves, reeds, wood, etc., which have a proportion of 32·14 per cent are used next to C.I. or zinc sheets. Their proportion in rural areas is 33·71 per cent as against 19·01 per cent in urban areas, due to very moderate rainfall ranging from 762 to 889 mm. Generally, the roofs of the dwellings in the district are flat earthen roofs of wooden beams or rafters. Tiled roofs are not much used and only 1·13 per cent of the dwellings have such types of roofs.

Classified by the number of rooms occupied, 67·94 per cent households are occupying one-room dwellings and 19·62 per cent are occupying two-room dwellings. The households occupying larger number of rooms are more in urban than in rural areas. Average number of persons per room is 3·77 for total, 3·82 for rural and 3·35 for urban areas.

AGRICULTURE AND IRRIGATION

Agriculture is the predominant economic activity in the district as it engages 83·52 per cent of the working population. Many others also work in industries related to processing of agricultural produce or trade, transport and services ancillary to agriculture.

The statistics regarding land utilisation, crop pattern, irrigation, wholesale and harvest prices, livestock and agricultural implements, etc, are presented in Tables 3 to 10 in Part III.

Cultivating Seasons

As in other areas of the State, there are two agricultural seasons in this district also, *viz.*, kharif and rabi. The district has, however, more area under kharif than rabi crops. The ratio of areas under kharif and rabi crops in 1959-60 was 63:37. In the western talukas of Parenda, and Tuljapur, and Bhum mahal, rabi crops are predominant. Kharif jowar, cotton, groundnut, tur and mung are the main crops grown in kharif season and wheat, rabi jowar, gram and linseed are the principal crops of rabi season. Jowar is grown in both the seasons. But compared to kharif the district has much larger area under rabi jowar, 57 per cent of the total jowar being grown in rabi season. Sugarcane is a perennial crop and its importance is gradually increasing.

Crop calendar showing monthwise agricultural operations in respect of principal crops is presented on page (32).

Land Utilisation

The pattern of land utilisation in the district and each of its talukas is shown below compared with that of the State. All the figures are based on averages for three years from 1957-58 to 1959-60.

Figure on page (33) shows the land utilisation pattern for the year 1959-60 for the district and each taluka separately.

The net area sown in the district is 72·36 per cent of the geographical area as against 57·69 per cent for the State. Compared to the State averages the district has considerably lower proportion of areas under forests, barren and unculturable land and culturable waste. The proportion of area under forests is less than even 0·1 per cent as against the State average of 17·54 per cent. The proportion of fallow lands in the district is more than two and a half times the State average.

Within the district the proportion of net area sown to the geographical area ranges between 61·96 per cent for Udgir taluka and 81·13 per cent for Parenda taluka. Udgir taluka has high proportion under fallows (27·74 per cent) as also in categories other than net cultivated area, hence the proportion of net area sown is low there. The proportion of barren lands is very low in almost all talukas except Bhum mahal (5·27 per cent). On the other hand the proportion of fallow lands is very high in all talukas, being highest in Kalam taluka. Forests are in Tuljapur, Kalam and Udgir talukas only. Even in those talukas their proportions are very low.

Because of the changes in the classification of land utilisation effected in 1950-51, it is not possible to determine if there has been any shift in the pattern of land utilisation over the last 40—50 years. Comparison with statistics given in the Imperial Gazetteer for the year 1901 does not show any significant change in the land utilisation pattern over the last 60 years.

Administrative Unit	Percentage of Geographical area										
	Total geographical area	Forests	Barren and unculturable land	Land put to non-agricultural uses	Culturable waste	Permanent Pastures	Miscellaneous tree crops and groves	Current fallows	Other fallow land	Net area sown	Gross cropped area
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)

Crop Pattern

The proportions of areas under the important food and non-food crops for the district and each of its talukas are shown below compared with the corresponding figures for the State. All figures are averages for three years 1957-58 to 1959-60.

The figure on page (35) shows the crop pattern for the district and each taluka separately.

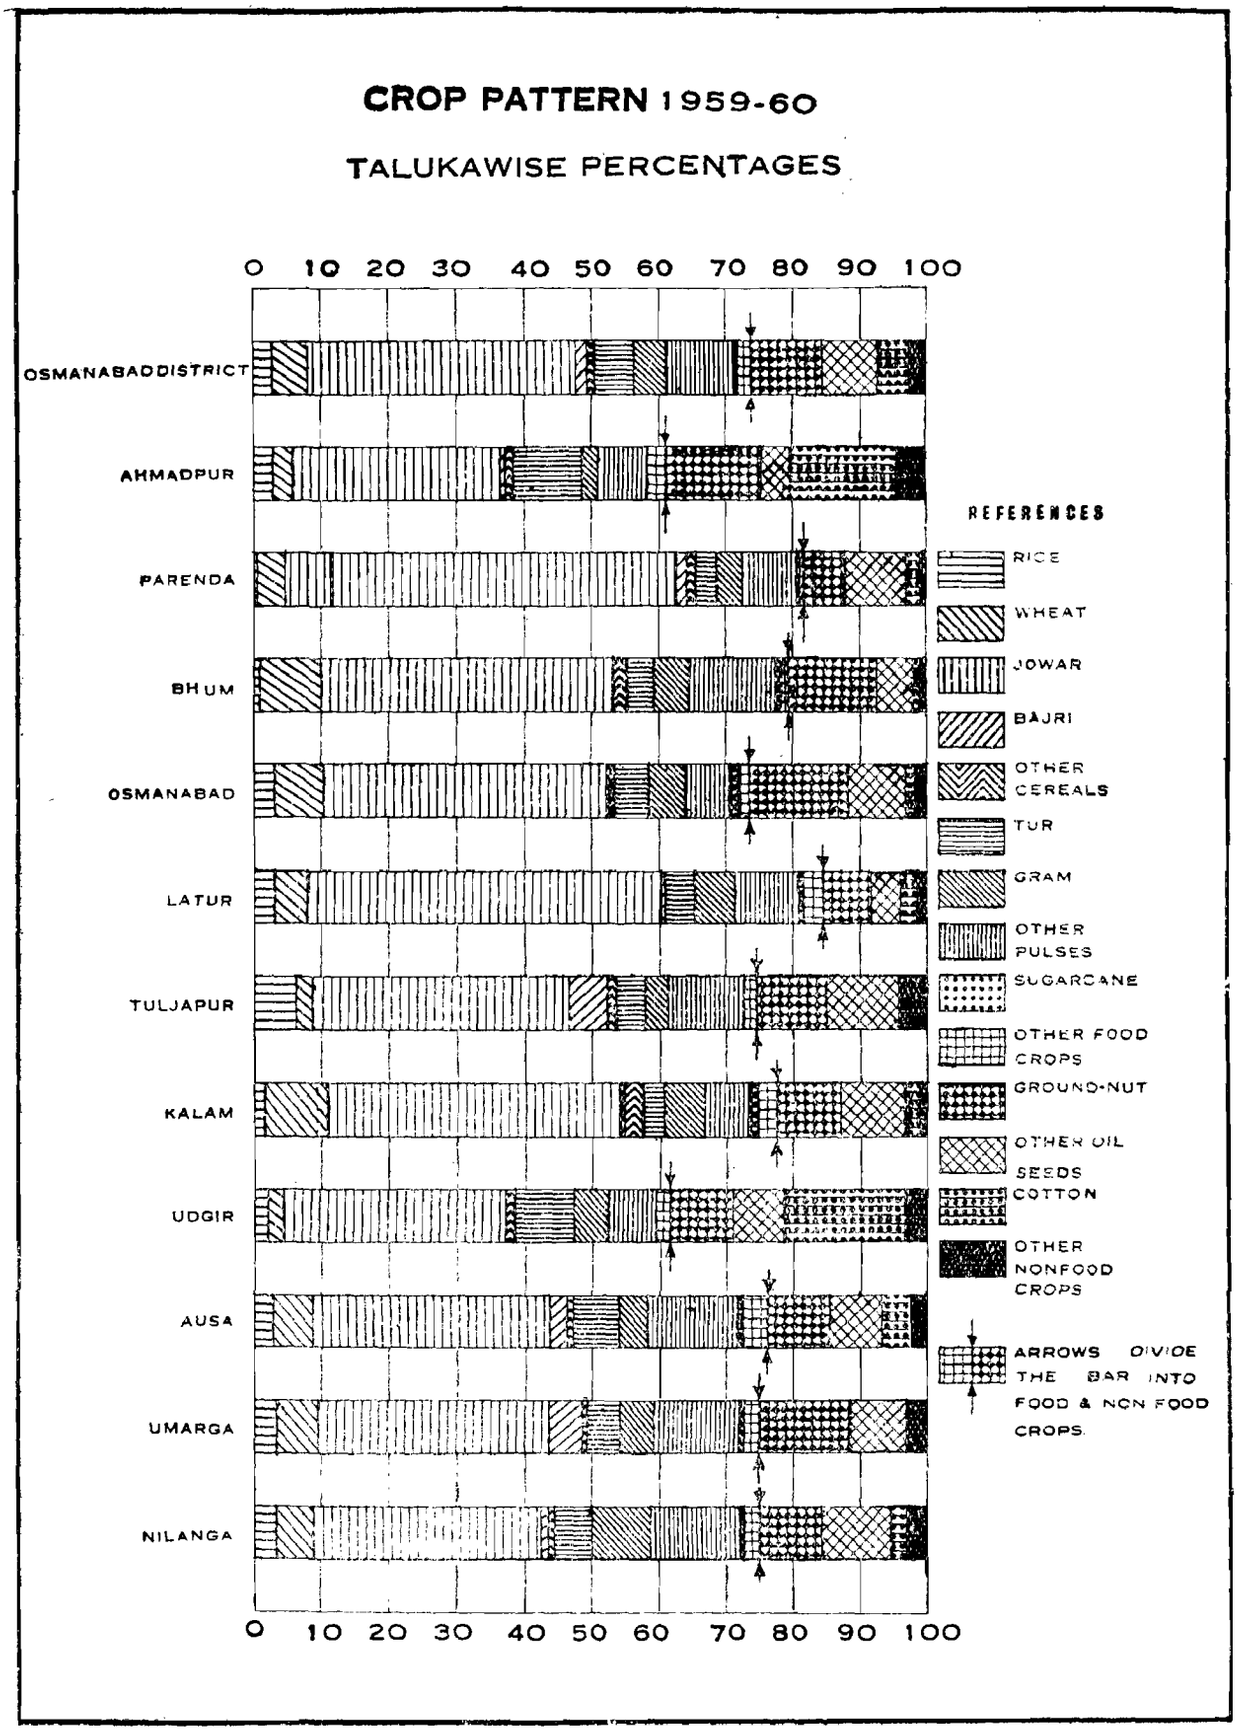

71·72 per cent of the gross cropped area is under food crops. This proportion is slightly higher than the State average (69·88 per cent). Amongst food crops, jowar ranks first and has 37·28 per cent of gross cropped area which is considerably higher than the average for Maharashtra (30·95 per cent). Bajri (2·01 per cent) is rarely grown. Compared to State averages the district has higher proportion of area under wheat and lower proportions of areas under rice and sugarcane. The district proportion of pulses is nearly double the State average. Among pulses, tur, gram and mung are very important.

Oil-seeds occupying about a fifth of the gross cropped area are important among non-food crops. Groundnut occupies 54 per cent of the area under that group. Linseed, safflower, niger seed, etc., share the remaining portion. The district is very famous for groundnut both in variety and coverage. The variety known as " Zablya " is more prominent in the western tract and the " Ghungrya " variety is grown in the eastern tract. The proportion of area under cotton is 5·39 per cent.

From 1950-51 to 1959-60 there is a slight increase from 70·77 per cent to 73·93 per cent in the proportion of food crops to the gross cropped area and corresponding decrease in the proportion of non-food crops. Amongst food crops proportion of cereals has increased from 45·40 per cent to 50·73 per cent but the proportion of pulses has decreased from 22·59 per cent to 20·58 per cent to the total gross cropped area. The increase in the areas under wheat is 57·22 per cent, jowar 33·30 per cent, bajri 35·53 per cent and pulses 13·80 per cent. The area under rice has increased from 19,400 acres to 73,100 acres. The area under fruits and vegetables has declined by 1,300 acres but that under condiments and spices has increased from 42,600 acres to 47,400 acres. The area under groundnut has also multiplied more than one and half times and that under cotton has increased by 21·80 per cent. The area under other oilseeds (consisting mainly of safflower and linseed) has, however, gone down by 58,400 acres or by 23·04 per cent.

Comparable statistics are not available for the entire district for years prior to 1950-51. The proportions of areas under different crops reported by Imperial Gazetteer in 1901 were jowar 70 per cent, wheat 4·1 per cent, bajri 1·6 per cent, rice 2·0 per cent, cotton 3·0 per cent and sugarcane 0·08 per cent.

Generally speaking the crop pattern in the district is inferior to the average for the State. The State's crop pattern itself is poor in the all-India setting because of high proportion of jowar, bajri and other low value crops. The district proportion of low value crops like jowar and other cereals is higher and that of rich value crops like sugarcane, cotton, rice, etc., is considerably lower than the State averages. The district average yields for most of the crops are also lower than the State averages. The relieving factors are higher proportion of areas under wheat and pulses like tur and oil-seeds.

Within the district, the cropping pattern varies according to soil types and rainfall. The district can be broadly classified into three zones by soil types. The eastern tract consisting of Ahmadpur and Udgir talukas has inferior soils which is not retentive of moisture. The kharif crops like yellow jowar, groundnut and cotton are more prominent here. The western taluka of Parenda and Bhum mahal and the southern taluka of Tuljapur have heavy soils retentive of moisture and rabi crops are prominent in this tract. The soils in-between these two zones are of changing type from heavy deep to shallow light and crops of both seasons are taken here, the rabi crops being more prominent in the western portion and kharif crops in the eastern portion.

The high proportion of area under food crops is somewhat even for all talukas except the eastern talukas of Ahmadpur (54·38 per cent) and Udgir (56·38 per cent), which have high proportion of non-food crops like oil-seeds and cotton. Rice is scarce in the western taluka of Parenda and Bhum mahal. It has a high proportion nearing to State average in Tuljapur taluka (6·29 per cent) only. Wheat is prominent in the northern side of the central plateau zone, Kalam (9·45 per cent) reaching twice the State average. Jowar has high proportion in almost all talukas. The proportion is highest in the westernmost taluka Parenda (57·95 per cent). It decreases as from west to east or south, the easternmost talukas Ahmadpur (27·08 per cent) and Udgir (24·30 per cent) having the lowest proportions. Bajri has significant proportion in the southern part of the district only. Tuljapur has (5·74 per cent) and Umarga (5·11 per cent). Sugarcane has a significant proportion only in the central plateau zone.

Excepting Parenda, all the other talukas have high proportions of groundnut. It is highest (14·38 per cent) in Ahmadpur taluka. The other oil-seeds consisting chiefly of safflower and linseed have high proportions in all talukas. It is, however, very high in Tuljapur (11·61 per cent), Ahmadpur (11·21 per cent) and Kalam (10·77 per cent) talukas. Cotton is prominent in eastern talukas of Udgir (19·34 per cent) and Ahmadpur (15·98 per cent) only.

Nine-year average yields and 1958-59 acreages and outturns of important crops for the district are shown below taking corresponding figures for Maharashtra as 100 :—

	Nine-year average yield per acre	1958-59 area	1958-59 outturn
MAHARASHTRA	100·00	100·00	100·00
Rice	51·62	2·34	0·63
Wheat	72·52	6·58	6·05
Jowar	105·31	6·68	8·22
Bajri	116·59	1·22	0·78
Tur	49·84	11·96	6·53
Gram	116·49	12·39	12·75
Sugarcane	82·53	3·80	2·04
Cotton	62·12	2·17	1·33
Groundnut	101·77	10·44	11·98
Sesamum	119·59	3·01	3·13
Rape, mustard and linseed ..	96·84	10·97	9·59
Tobacco	98·67	1·30	0·95

The district average yields are better than the State averages for jowar, bajri, gram, groundnut and sesamum. They are very low for rice, tur and cotton. The district has more than 10 per cent of acreage each under tur, gram, groundnut, rape, mustard and linseed in Maharashtra.

The Techno-Economic Survey of Maharashtra has estimated the gross value of output per acre of cropped area in 1955-56 at Rs. 51 for the district as against Rs. 76 for the State and Rs. 126 for India.

The density of population, proportion of workers working on land to total workers, gross area sown per worker working on land and the proportion of irrigated area to gross cropped area are shown below for the district and each of its talukas compared with the State averages :—

Administrative Unit	Density of Population per square mile	Percentage of workers working on land to total workers	Gross area sown per worker on land in acres	Percentage of gross irrigated area to gross cropped area
MAHARASHTRA ..	334	69·91	3·50	6·23
OSMANABAD DIST...	268	83·52	4·05	4·77
Ahmadpur Taluka ..	271	87·04	3·74	3·46
Parenda Taluka	217	87·78	5·47	6·83
Bhum Mahal	215	80·71	5·26	5·79
Osmanabad Taluka ..	315	81·78	3·89	6·58
Latur Taluka	341	70.24	4·50	1·20
Tuljapur Taluka ..	200	85·26	4·74	5·87
Kalam Taluka	268	85·11	3·95	11·27
Udgir Taluka	273	82·48	3·41	0·31
Ausa Taluka	263	87·09	4·10	2·22
Umarga Taluka	282	85·46	3·61	4·08
Nilanga Taluka	304	84·31	3·45	5·80

83·52 per cent of the total workers work on land. 46·66 per cent are cultivators and 36·86 per cent are agricultural labourers. The proportion of workers working on land is considerably higher than the State average (69·91 per cent). The gross area sown per worker on land (4·05 acres) is also correspondingly higher than the State average (3·50 acres).

Within the district the proportion of workers working on land to the total workers is somewhat even for all talukas. It is low (70·24 per cent) only for Latur taluka which has large urban area. The proportion is thus higher than the State average in every taluka. The gross area sown per worker on land ranges between 3·41 acres for Udgir taluka and 5·47 acres for Parenda taluka.

The proportion of net area sown under double crops to the total net area sown in the district in 1959-60 (2·77 per cent) is considerably lower than the State average (5·05 per cent). This is mainly because of the low retentive capacity of the soil and inadequate irrigation facilities. The proportion, however, varies from year to year depending upon the rainfall. In 1956-57 the proportion was reported as 1·83 per cent, in 1957-58 as 2·70 per cent and in 1958-59 as 2·63 per cent. The net area sown more than once was largest (70,200 acres) in 1959-60. Within the district, the proportion of net area sown more than once to the net cropped area is as high as 7·17 per cent in Nilanga and only 0·11 per cent in Ahmadpur taluka. In 1959-60, Tuljapur, Udgir and Ausa talukas had almost no lands under double cropping.

Irrigation

The gross irrigated area in 1950-51 was 60,100 acres or 2·89 per cent of the gross cropped area. The Imperial Gazetteer reports that the area irrigated in 1901 was 76 square miles, i.e., 48,600 acres or about 4·2 per cent of the cropped area. The sixty years have thus added only 11,500 acres under irrigation. This low rate of increase in comparison with the increase in cultivated area has resulted in the drop in the proportion of area irrigated to area sown. However, during the ten years from 1950-51 to 1959-60, the gross irrigated area increased greatly at an average rate of 6,380 acres per annum. Increase is observed in all the sources of irrigation. The Khasapur Project in Parenda taluka completed during the First Five-Year Plan period provided canal irrigation to 6,700 acres. Tanks constructed in Ahmadpur, Parenda and Osmanabad talukas added 200 acres under irrigation. Construction of new wells and repairs to old ones added more than 40,000 acres to the irrigated area under wells. Thus, the gross irrigated area in 1959-60 was 63,800 acres more than that in 1950-51.

The proportion of gross irrigated area to the gross cropped area in 1959-60 was 4·77 per cent as against 6·23 per cent for Maharashtra.

Within the district the proportion of gross irrigated area to the gross cropped area ranges between 0·31 per cent in Udgir taluka and 11·27 per cent in Kalam taluka. The proportion is higher than the State average only in Kalam (11·27 per cent), Parenda (6·83 per cent) and Osmanabad (6·58 per cent) talukas.

Table 4 in Part III gives the break-up for irrigated areas by sources of irrigation separately for each taluka and the district. Wells are the major source of irrigation, irrigating 93·31 per cent of net irrigated area. Canals irrigate another 6·31 per cent and the remaining 0·38 per cent are irrigated by tanks. The entire canal irrigation (6,700 acres) is in Parenda taluka where a dam has been built across Dudhna river. Tank irrigation is found in Ahmadpur, Osmanabad and Parenda talukas only where proportions of areas irrigated by tanks to the net irrigated areas of the talukas are 2·44 per cent, 2·17 per cent and 0·66 per cent, respectively. Excepting Ahmadpur, Parenda and Osmanabad talukas, the entire irrigation in all the other talukas is by wells. Even in these three talukas the proportion of well irrigation is higher than the other two sources. A recent but remarkable improvement is in the number of oil engines and electric pumps used for irrigation. The number of oil engines increased from 319 in 1951 to 2,730 in 1961 and the number of electric pumps from 16 in 1951 to 57 in 1961. Umarga taluka has the largest number of oil engines (584) and electric pumps (17).

Crop Pattern under Irrigation

Table 5 in Part III shows the crop pattern under irrigation. In the year 1959-60, 97·18 per cent of the irrigated area was under food crops and 2·82 per cent under non-food crops. Among food crops jowar occupied 39·07 per cent, wheat 24·54 per cent, rice 3·63 per cent, sugarcane 11·14 per cent, pulses (mainly gram) 5·97 per cent, maize and other cereals 1·53 per cent, and condiments and spices and other food crops 11·30 per cent. Among non-food crops, cotton occupied only 0·48 per cent, tobacco 0·08 per cent and the remaining area 2·26 per cent was covered by fodder crops. Half the area under maize is irrigated. Entire area under sugarcane is irrigated, while the extent of irrigation of wheat, rice, jowar and pulses is respectively 22·17 per cent, 6·16 per cent, 4·70 per cent and 1·40 per cent. Out of the 128,500 acres under cotton only 600 acres are irrigated.

Production

The annual outturn of principal crops in the district is shown in Table 6 in Part III. The average production of foodgrains, sugarcane and cotton from 1951 to 1956 and from 1956 to 1960 compared with the production of 1951-52 is as follows :—

	Average production in hundred tons per year during		
	1951-52	1951—56	1956—60
Rice	83	88	131
Wheat	63	109	189
Jowar	1,050	1,702	2,133
Bajri	124	79	44
Ragi	4	3	2
Other cereals	46	46	31
Total cereals	1,370	2,027	2,530
Total pulses	788	781	566
Total foodgrains	2,158	2,808	3,096
Sugarcane	209	201	190
Cotton (in bales of 392 lbs. each).	280	185	202

This comparison taking one single year as a base year may not be very much conclusive as the base year itself might have been perhaps a very favourable or a very bad agricultural season. However, such comparison brings out some very interesting results as follows.

In the First Plan period the average annual production of total foodgrains increased by 30·12 per cent over the 1951-52 production. The corresponding increase during the Second Plan period is 43·47 per cent over the 1951-52 production. The production of total cereals during the Second Plan period is higher by 84·67 per cent than the 1951-52 production. The production of pulses during the First Plan period and also during Second Plan period was considerably less than the 1951-52 production. Among the cereals, the average annual production of wheat during the Second Plan period was three times the 1951-52 production. For jowar, it was double and for rice more than one and a half times. There is a substantial decrease in the annual average production of bajri, ragi, other cereals, groundnut and cotton.

Agricultural Implements

The number of agricultural implements for the district and for each of its talukas for the years 1951, 1956 and 1961 are separately shown in Section C of Table 9 in Part III.

The remarkable increase in the number of oil engines and electric pumps used for irrigation purposes has already been described earlier. Between 1951 and 1961 the number of iron ploughs increased three and half times but the number of wooden ploughs declined by 10·04 per cent. Both the types together, however, increased by 43·91 per cent. The number of sugarcane crushers worked by power increased from 32 in 1951 to 782 in 1961. The number worked by bullocks also increased from 489 in 1951 to 918 in 1961 (i. e. by 87·73 per cent). The total for the two types combined is more than three times the number in 1951. The number of tractors has declined from 296 in 1956 to mere 28 in 1961.

By using standard average prices for the agricultural implements shown in Table 9 in Part III, the total outlay on them for the year 1961 may be estimated at Rs. 142 lakhs or Rs. 5·61 per acre of the net sown area. The agricultural implements not shown in the table may not together make more than Rs. 2 per acre. The total outlay on this item in the district may approximately be presumed to be less than Rs. 8 per acre.

Agricultural Extension

Agricultural development in the district is now looked after by the Zilla Parishad. A Subject Committee of the Zilla Parishad deals with it and the Agricultural Development Officer works as a Secretary to that Committee. There are Agricultural Extension Officers at taluka level working under the Block Development Officer. The latter works as a Secretary to the Taluka Samiti. Talatis and Gram Panchayat Secretaries work as Assistant Gram Sevaks. Village Panchayats are expected to work for agricultural extension at the village level.

Agricultural Research

There are four Agricultural Research Centres carrying out experiments in the district. The Plant Breeding Station established at Somnathpur (Udgir taluka) in 1934 has an area of 32 acres. Research is done here on cotton.

There is one Oil-seeds Research Station established at Latur in 1959. Its farm area is 24·23 acres. Experiments are conducted on groundnut as main crop and safflower and linseed as subsidiary crops. Research on paddy is done at the Paddy Research Station at Tuljapur (farm area 10 acres). The Trial-*cum*-Demonstration Farm was established at Songiri (Khasapuri Project) in Parenda taluka in 1958. It has a farm area of 59·12 acres.

Agricultural Improvements

(*i*) *Increasing the Area under Irrigation.*—The most important single item of increasing the agricultural production is enlarging the area under irrigation. Stress is therefore laid on irrigation projects in the Five-Year Plan schemes. The attention is mainly focussed on minor irrigation projects such as construction of *bandharas*, wells and tanks. In the First Plan period more stress was laid on construction of new wells and repairs to old ones. In the Second Plan period the work of construction of four new tanks was started and is being implemented in the Third Plan period. Apart from these spill-over works, new works of construction of four tanks and nine *bandharas* have been included in the Third Five-Year Plan. On completion of these schemes, irrigation potential will be increased by about 8,700 acres.

In addition to these minor irrigation works, the Third Plan includes the spill-over works of four medium irrigation projects known as (1) Khasapuri Project, (2) Thirna Project, (3) Harni Project and (4) Chandani Project. The Khasapuri Project with irrigation potential of about 10,400 acres has already been physically completed. The work of other projects is under progress. The Harni and Chandani Projects will benefit both Osmanabad and Sholapur districts. These three projects, on completion, will together create about 22,500 acres of irrigation potential.

Construction of new wells and renovation to the old ones offer the cheapest and quickest means of increasing the irrigational potential. The Third Plan envisages construction of 1,600 new wells and installation of 700 pumping sets involving an outlay of Rs. 13·55 lakhs.

With the increasing facilities for irrigation the question of full utilisation of potential is likely to assume importance. The statistics of the created potential and its current utilisation are, however, not available separately for the district.

(*ii*) *Improved Seeds.*—Another item of improving food production is the recommendation of appropriate varieties or strains of crops suitable for the tract. The Agriculture Department has recommended the following improved varieties or strains of crops for the district :—

(1) Kharif Jowar ..	P. J. 8K.
(2) Mung	China.
(3) Udid	Sindkheda.
(4) Cotton (Unirrigated)	1422.
(5) Cotton (Irrigated) ..	170-CO_2.
(6) Rabi Jowar	M-35-1.
(7) Wheat	Hy 65-4, N-81.
(8) Groundnut	Karad—4-11 for kharif and Faizpur for summer cultivation.
(9) Paddy	H. R. 19.

Seed farms have been established at nine places in the district to provide improved seed to farmers. The combined area of all the seed farms is 729·58 acres.

(*iii*) *Soil Conservation or Bunding.*—An area of about 57 thousand acres has been bunded during the first two Plan periods. The Third Plan target is 1·15 lakh acres involving an outlay of Rs. 53·20 lakhs, out of which about 67 thousand acres have already been bunded by end of March 1964.

Livestock

The number of livestock for the years 1951, 1956 and 1961 has been shown separately for each taluka and the district in Table 9 in Part III.

The total livestock as per 1961 Livestock Census in the district is 12·86 lakhs. This makes 50 per cent livestock per 100 acres of cultivated area. The corresponding figure for the State is 139.

The total bovine population in the district in 1961 is 75·26 per cent of the total livestock. The number of male bovines over three years are 3·3 lakhs. The area cultivated per pair of male bovines over three years is thus 15·76 acres, as against 5·84 acres for Maharashtra. There are 3·2 lakhs female bovines over three years in the district. That makes 218 female bovines over three years per 1,000 population in the district as against the State average of 158.

During the first half of the decade 1951 to 1961 there was a reduction in all the types of livestock except cattle and goats. This was, however, made good during the latter half (1956—61) with the result that there has been an overall increase of 21·61 per cent in the total livestock. Increase is observed in all types of livestock except horses and ponies and sheep which have reduced from 12,300 to 6,400 and from 106,800 to 76,400 respectively. The number of cattle and buffaloes increased by 18·86 per cent and 26·48 per cent respectively. During the same period, the increase in the number of goats is 80·27 per cent. The number of poultry has multiplied by almost four times.

Veterinary Facilities

There is a Veterinary Hospital with the District Diagnostic Centre at Osmanabad. There are veterinary dispensaries located at the following places :—

(1) Ahmadpur, (2) Parenda, (3) Bhum, (4) Latur, (5) Tuljapur, (6) Kalam, (7) Udgir, (8) Ausa, (9) Umarga, (10) Nilanga.

21 There are in addition veterinary aid centres at 21 places in the district.

Treatment of animal diseases, control of epidemics, castration of scrub bulls and control and destruction of animal parasites are the main services rendered at these dispensaries.

Key village centres have been established at Latur, Tuljapur and Udgir under the Key Village Scheme. Six key village units have been attached each to Latur and Tuljapur centres. The Udgir centre has five key village units. There is also one Extension Block for development of Deoni breed which has been established roundabout the key village block and 16 Deoni bulls have been located at 16 different places.

Under the Premium Bull Scheme, premium bull centres have been located at 25 different places in the district. At each centre one Deoni bull is maintained to upgrade the local indiscript animals.

In addition there are eight Stud Bull centres where one Deoni bull each has been located for natural services.

There is a cattle breeding farm at Udgir for development of Deoni breed. Deoni herd is maintained at this farm and the bull calves reared are distributed among nearby villages to upgrade local indiscript animals.

There is also one sheep breeding farm at Udgir where improved varieties of sheep are bred.

AGRARIAN STRUCTURE AND LAND REFORMS

The system of land tenure prevailing throughout the district is roytwari under which each field is considered a separate holding, which the ryot holds directly from the State. The holder of the field is called the occupant. The right of occupancy depends on the regular payment of the assessment and in case of failure to pay, the land can be forfeited by the State. Due to faulty registration and absence of Record of Rights, absentee landholders known as Pattedars had been recognised as Khatedars for land revenue demand and were in many cases enjoying a sort of intermediary position. This resulted in inadequate security to the actual holders of land and also led to costly and infructuous litigation in Judicial and Revenue Courts. These tenurial deficiencies in the ryotwari system were removed when the Record of Rights was prepared in 1952-53 and actual holders were recognised as occupants and treated as Khatedars for land revenue demand.

The other systems of tenure existing in the past were Jagirs and Inams. Jagirdars were assignees of land revenue. About one-third area of the district consisted of jagirs. They were abolished and their administration taken over under the Hyderabad Jagirs Abolition Regulation in 1949. The Nizam of Hyderabad had his own Jagir which was known as Sarf-e-khas and consisted among others Osmanabad, Kalam and Parenda talukas in the district. Sarf-e-Khas was abolished under the Sarf-e-Khas Merger Regulation of 1949. Inams were revenue-free grants of land made in lieu of past services or on condition of continuing services to the State or village community. All Inams, excepting Mash-rootul Khidmat Inams, have now been abolished under the various measures of land reforms. The exempted category is of lands granted as inam for services to temples, mosques and other religious or charitable institutions.

All hereditary watan lands held for village services have also been abolished and all the village servants now work on a salary basis. The occupancy rights of abolished Inam lands have been conferred on their holders or tenants, as the case may be, on condition of payment of occupancy price to the Government and/or compensation to the erstwhile holders. Consequential processes of determining titles for occupancy rights and of recovery of occupancy price or compensation are in some cases still in progress. The process of abolition of intermediary interests in land is thus being completed in the district.

Record of Rights

A record of rights in land is maintained by the Revenue Department for each village separately. It is integrated with annual crop returns and inspections and is, therefore, easily maintained up-to-date. Rights on land in respect of ownership, tenancy, mortgage and other encumbrances are recorded and a form is maintained for each parcel of land separately. It is obligatory on every person acquiring any right on land to report it within three months. Annual revenue accounts are prepared on the basis of the record of rights.

Size of Land Holdings

Census Table B-X in Part II of this Volume shows that 55·23 per cent of the total number of sample households cultivate land and the remaining 44·77 per cent do not cultivate any land.

Census Table B-XI in Part II shows the break-up of cultivating households by size of land cultivated and by the interest in the land. 81·86 per cent of the cultivating households cultivate their owned lands only. 4·36 per cent of the households cultivate tenanted lands only and the remaining 13·78 per cent cultivate lands partly owned and partly taken on lease. Percentage distribution of cultivating households by the size of land cultivated is shown on the next page.

J-1813—vii-B—(Osmanabad).

The distribution of households in Table B-XI and the same shown in percentages, in column 2 below, is based on cultivation (operational) holdings as returned in the 1961 Census.

A classification of holdings on the basis of area owned (against the area cultivated) for the year 1952-53 is shown in Table 10 in Part III. The percentage distribution of those ownership holdings is also shown in column 3 below :—

Area	1961 Cultivation holdings	1952-53 Ownership holdings
Less than 1 acre	0·28	1·72
1·0 to 4·9 acres	10·34	14·42
5·0 to 9·9 acres	17·45	20·52
10·0 to 14·9 acres..	16·27	16·37
15·0 to 29·9 acres..	29·87	26·82
30·0 to 49·9 acres..	16·75	12·48
50 acres and over	9·04	7·67
Total ..	100·00	100·00

The average size of cultivation holding in the district in 1960-61 is 20·44 acres. Average size of the ownership holding in the district was 20·80 acres in 1952-53 against the average of 11·95 acres for the State.

Ownership Rights to Tenants

Tenancy rights are regulated under the Hyderabad Tenancy and Agricultural Lands Act which is in force since June 1950. It provides security of tenure to and payment of only reasonable rents by the tenants.

In pursuance of the "Land to the Tiller" policy, the Act also provided for compulsory transfer of ownership rights of tenanted lands to the tenants from 26th January 1956. This was an important step towards the removal of absentee landlordism which was one of the disincentives in any programme of agricultural improvement.

Up to 31st March 1963, ownership rights have been conferred upon 4,533 tenants for 52,652 acres of land in the district. 1,034 tenants had mutually agreed with the landholders on the price to be paid by them. In the remaining cases, the prices were fixed by the Revenue Officers.

Ceiling on Holdings of Agricultural Land

The Maharashtra Agricultural Lands (Ceiling on Holdings) Act came into force from 26th January 1962. Three local areas, *viz.*, Kalam, Osmanabad and Udgir have been notified in the district with different ceiling areas for dry crop land, *viz.*, 108, 114 and 126 acres, respectively. In the case of irrigated lands, the ceiling area is the same in all the three local areas, *viz.*, 18 acres in the case of perennially irrigated areas, 27 acres in areas irrigated in two seasons and 48 acres in areas which get irrigation water for one season. Holders of land in excess of the ceiling areas are not now free to transfer or partition any land until the land in excess of the ceiling is determined under the Act. They were required to furnish returns of their holdings to the Collectors. The Collectors are to make enquiries to determine the surplus lands and take them over in possession. Those lands shall afterwards vest in the State Government. The Act also provides for payment of compensation to the holders at specified rates and for distribution of surplus lands to landless or other persons in the prescribed order of priority. At the moment, the enquiries to be made by the Collectors are in progress.

Consolidation of Holdings

This scheme is not yet started in this district.

The provisions of the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, prohibiting further fragmentation are, however, enforced in the district.

The standard areas specified as minimum necessary for profitable cultivation under the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, are as follows :—

Dry crop land	..	2·0 acres.
Bagayat land	..	0·5 acre.

All plots of land less in area than the standard areas are treated as fragments and their transfer except to holders of contiguous plots is prohibited.

CO-OPERATION

Administration

The Deputy Registrar of Co-operative Societies is in charge of the co-operative movement in the district. He is assisted by two Assistant Registrars who have territorial jurisdiction and deal with all the aspects of the co-operative movement in the district. In addition, an Assistant Registrar works under the Zilla Parishad. He carries out the duties of registration, deciding appeals against non-admission of members, approval to bye-laws and administrative supervision in respect of co-operative societies whose working capital does not exceed Rs. 5 lakh and whose jurisdiction does not extend beyond the district. The Zilla Parishad also looks to the promotion and extension of co-operative movement in the district.

The co-operative movement though originated in the second decade of the century lacked popular enthusiasm till the attainment of independence. Concentrated efforts made during the last decade have resulted in the rapid progress in co-operative movement. Almost all the villages in the district are now covered by rural co-operatives. Besides agricultural credit, co-operative activities are now extended to processing of agricultural products, dairying, farming, marketing, etc.

The following description is based on the Report for the year 1960-61.

Co-operative Credit

(*a*) *Agricultural Credit Societies.*—The number and membership of Agricultural Credit Societies have increased at a rapid pace during the last decade especially during the Second Plan period.

The position of Agricultural Credit Societies in 1950-51 and 1960-61 is as under :—

	1950-51	1960-61
(1) Number of Agricultural Credit Societies	139	913
(2) Number of members	3,463	54,833
(3) Share Capital (Rs. in lakhs)	0·71	32·02
(4) Reserve and other funds (Rs. in lakhs)	0·41	2·84
(5) Working Capital (Rs. in lakhs)	3·10	118·28
(6) Number of members to whom loan was advanced	NA	44,358
(7) Amount advanced (Rs. in lakhs)	1·78	101·31
(8) Amount recovered (Rs. in lakhs)	NA	72·52
(9) Loans outstanding (Rs. in lakhs)	NA	84·41
(10) Overdues (Rs. in lakhs)	NA	7·95

NA=Not available.

Average membership per primary society in the district is 60 against the average of 96 members for Maharashtra. 97 per cent of the villages in the district have been covered.

Total owned funds (share capital *plus* reserve funds) of the Primary Agricultural Credit Societies in the district amounted in 1960-61 to Rs. 34·86 lakhs and formed 29·47 per cent of their working capital against 26 per cent for Maharashtra.

The loan operations of all the Primary Agricultural Credit Societies in the district amounted to Rs. 101·31 lakhs in 1960-61. The average amount of loan per borrowing member in the district worked out to Rs. 228 as against Rs. 329 for Maharashtra.

During the decade (1951—1961) the number and the membership of the Agricultural Credit Societies have multiplied nearly 7 and 16 times, respectively. Their share capital has increased by Rs. 31·31 lakhs and the working capital has increased from Rs. 3·10 lakhs in 1950-51 to Rs. 118·28 lakhs in 1960-61. There is also an increase of Rs. 99·53 lakhs in the amount advanced as loans by the societies in 1960-61 over the amount advanced in 1950-51. The proportion of overdues to the outstanding loans is, however, as high as 9·42 per cent and points out the need for improving the recoveries.

Besides the financial activities, good progress has also been made by Agricultural Credit Societies in the sphere of services to agriculturists such as distribution of agricultural requisites (seeds, manure etc.), marketing of agricultural produce, etc.

(*b*) *Central Co-operative Bank.*—There were two Central Co-operative Banks working in the district one at Osmanabad and the other at Latur. In December 1959, these two banks were amalgamated into one bank called "The Osmanabad District Central Co-operative Bank, Ltd." with its head-quarters at Latur. This bank has been working as a federal financing agency catering to the credit requirements of all the primary credit societies in the district. Since 1962, the Zilla Parishad also transacts its financial business through this bank.

In the year 1960-61, the position of the bank was as follows :—

(1) Number of members—		
(*a*) Individuals		95
(*b*) Societies		989
(2) Paid-up share capital	(Rs. in lakhs)	15·87
(3) Reserve and other funds	(Rs. in lakhs)	1·49
(4) Deposits—		
(*a*) Individuals	(Rs. in lakhs)	21·65
(*b*) Societies and Banks	(Rs. in lakhs)	21·65
(5) Borrowings—		
(*a*) State Co-operative Bank and the Reserve Bank of India	(Rs. in lakhs)	64·00
(*b*) Government	(Rs. in lakhs)	1·45
(*c*) Other sources	(Rs. in lakhs)	3·21
(6) Working Capital	(Rs. in lakhs)	129·32
(7) Cash—		
(*a*) On hand	(Rs. in lakhs)	3·07
(*b*) At Banks	(Rs. in lakhs)	24·78
(8) Investments— Government and other Trustee securities	(Rs. in lakhs)	0·26
(9) Percentage of cash in hand to deposits		7·09
(10) Percentage of investments to deposits		0·60
(11) Loans outstanding—		
(*a*) Individuals	(Rs. in lakhs)	0·01
(*b*) Societies	(Rs. in lakhs)	84·23
(12) Percentage of loans outstanding to deposits		194·55
(13) Percentage of loans outstanding to working capital		65·14
(14) Overdues	(Rs. in lakhs)	6·68
(15) Percentage of overdues to loans outstanding		7·93
(16) Cost of management	(Rs. in lakhs)	2·26
(17) Percentage of cost of management to working capital		1·75
(18) Profit	(Rs. in lakhs)	0·72
(19) Number of branches and pay offices in the district		11

During the year 1960-61, the society membership of the bank increased by 11·88 per cent over the year 1959-60, but the individual membership remained the same. On the whole there was an increase of 10·73 per cent in the total membership of the bank than the last year. The share capital of the bank increased by 17·73 per cent. There was an addition of Rs. 2·92 lakhs in the owned funds.

The deposits also increased by 104·53 per cent. There was also an increase of Rs. 59·55 lakhs in the working capital. The bank advanced loans of Rs. 159·85 lakhs as against Rs. 60·48 lakhs advanced in the previous year. There has been an improvement in the recoveries also and the proportion of overdues to the outstanding loans has declined from 8·33 per cent to 7·93 per cent. The bank made a profit of Rs. 72,000 during the year as against a profit of Rs. 27,000 in the previous year. All these statistics speak about the progress made by the bank during the year. The bank now has a branch at each taluka headquarters. There is a proposal to open more branches in the interior villages also.

(*c*) *Land Mortgage Banks.*—There are two Primary Land Mortgage Banks in the district, one at Osmanabad and the other at Udgir. They were established in 1956 with a view to providing long-term finance to cultivators. These banks have their two branches, one at Latur and other at Parenda. In 1960-61, the membership of the banks was 13,950, paid-up share capital Rs. 3·14 lakhs and working capital Rs. 48·19 lakhs. Loans amounting to Rs. 15·45 lakhs were advanced during the year.

The banks collected an amount of Rs. 77,000 towards the rural debentures floated by the State Land Mortgage Bank. Both the Land Mortgage Banks in the district are working on sound lines.

(*d*) *Urban Banks and Credit Societies.*—There are in all 19 urban banks and credit societies in the district. One of them is an urban bank, two urban credit societies and 16 are salary earners' societies. Their combined membership is 4,662, paid-up share capital is Rs. 1·29 lakhs and working capital Rs. 4·08 lakhs. The societies advanced loans of Rs. 85,000 during the year.

Agricultural Processing Societies

There are eight Gur Khandsari societies and three co-operative oil mills organised in the district. The combined membership of the three oil mills is of 163 societies and 1,299 individuals and of the eight Gur Khandsari co-operatives 403 individuals. The paid-up capital of all these 11 societies is Rs. 4·64 lakhs and working capital Rs. 5·25 lakhs. Only six Gur Khandsari societies are in operation and during the year their production was 3,670 Bengal maunds. The societies however sustained a loss.

Industrial Societies

There are 21 weavers' societies and 99 other industrial societies in the district. Of the 21 weavers' societies, nine are handloom weavers'societies, 10 wool weavers' societies and 2 khadi weavers' societies. Their combined membership is 2,637, share capital Rs. 45,000 and working capital Rs. 2·72 lakhs.

The other types of industrial societies include 13 oil ghanis, one cane and bamboo workers, 26 tanning, 4 leather working, 8 carpentry and smithy, 11 pottery and brick-making, 15 coir and rope-making, 2 neera and palm gur, 5 miscellaneous societies, etc. Their combined membership is 2,882, share capital Rs. 1·21 lakhs and working capital Rs. 3·83 lakhs. The value of production of these societies is Rs. 4·54 lakhs and sales value Rs. 4·41 lakhs.

Forest Labourers' and Labour Contract Societies

There are 10 Labour Contract Co-operative Societies in the district. There are no Forest Labourers' Co-operative societies. Most of the Labour Contract Societies belong to Backward Class persons. Their combined membership is 353, share capital Rs. 28,377 and working capital Rs. 60,000. The societies received Rs. 12,000 as loans and Rs. 5,000 as subsidy from the Government. Six of these societies made a profit of Rs. 10,000. Three suffered a loss of Rs. 1,000 and one showed neither loss nor profit. Many of these societies are given work by the authorities of the Government Department, Panchayat Samitis and other private concerns. Work contracts of Rs. 1·10 lakhs were executed by these societies during the year.

Co-operative Farming Societies

There are three joint farming co-operative societies and one collective farming society in the district. The collective farming society has 12 members and Rs. 1,212 as share capital and working capital. The area cultivated by the society is 210 acres out of the 339 acres under its command.

The combined membership of the three joint farming societies is 41, share capital of Rs. 12,455 and working capital of Rs. 39,000. The societies have 628 acres under their command of which 547 acres are cultivated.

For the financial year 1961-62 pilot area has been opened in Latur taluka.

Lift Irrigation Societies

Five Co-operative Lift Irrigation Societies have been registered in the district. These societies have schemes of well irrigation. Four of these schemes are located at—(1) Chikhurda, (2) Ratnapur, (3) Gangapur and (4) Naldurg. The combined membership of these societies is 281, share capital Rs. 5,000 and working capital Rs. 91,000. The area under the command of these societies is 850 acres. Only one society at Chikhurda has completed its work and four others are more or less stagnant. Area of 180 acres was irrigated during the year.

Dairy Societies

There are one dairy union and 19 milk supply societies in the district. Most of these societies have been organised during the year under report. The milk supply societies undertake to collect milk and the same is distributed through the centres of the milk union. The milk union extends credit facilities to the member societies. The union has a membership of 6 societies and 26 individuals, share capital of Rs. 10,000 and working capital of Rs. 33,000.

The combined membership of the milk supply societies is 1,237 individuals, paid-up capital of Rs. 27,000 and working capital Rs. 32,000. Milk worth Rs. 7,000 was sold during the year. Three of the societies made a nominal profit, five suffered a loss of small amounts and 11 others showed neither profit nor loss.

Purchase and Sales Societies and Unions

There are one District Purchase and Sales Society and eight Taluka Purchase and Sales Societies in the district. There are also two Taluka Agricultural Co-operative Associations in the district. The District Purchase and Sales Society has a membership of 284 societies and 3,935 individuals. Its share capital is Rs. 65,460 in which Government's contribution is Rs. 21,000. The value of purchases and sales by the society during the year amounted to Rs. 32·34 lakhs and Rs. 31·71 lakhs, respectively. The Taluka Purchase and Sales Societies and Associations together have 395 society members, 2,584 individual members and Rs. 2·26 lakhs as share capital. The Government has contributed Rs. 84,000 in the share capital of the societies. The value of purchases and sales by the societies and associations amounted to Rs. 37·81 lakhs and Rs. 31·72 lakhs, respectively.

Consumers' Movement

There are four primary consumers' stores in the district. Their combined membership is 339, share capital Rs. 12,000 and working capital Rs. 38,000. During the year 1960-61 the value of sales of these societies amounted to Rs. 2·26 lakhs. Two of these societies made a profit of Rs. 1,000, one suffered a nominal loss and the remaining one showed neither profit nor loss. These stores have been established recently and are engaged in limited activities like running a fair-price shop.

Housing Societies

There are 12 Co-operative Housing Societies in the district, 9 for low-income groups of persons and 3 for persons belonging to Backward Classes. Their total membership is 360, share capital Rs. 31,000 and working capital Rs. 56,000. Sixteen independent houses valued at Rs. 54,000 have been constructed by the members of the societies.

Co-operative Activity for Backward Classes

One Collective Farming Society and three Housing Societies have been organised for Backward Class persons.

The collective farming society has a membership of 12 individuals, share capital of Rs. 600 and working capital of Rs. 612. The area cultivated during the year by the society is 210 acres. The housing societies have been registered very recently. Their membership is 83, share capital Rs. 2,000 and working capital Rs. 3,000. The societies have yet to start work.

Audit Classification

The audit classification of different types of societies in the district on 30th June 1961 is as follows :—

	Number of societies classified as				No. of societies not classified	No. of societies not audited	Total
	A	B	C	D			
(1) Central Co-operative Bank.	..	1	..	..	..	..	1
(2) Agricultural Credit Societies.	9	434	235	34	..	201	913
(3) Non-Agricultural Credit Societies.	..	4	6	..	..	9	19
(4) Primary Land Mortgage Banks.	..	2	..	..	..	..	2

FORESTS

The district has only 5·95 square miles of forests. The forests are administered by the Divisional Forest Officer who has headquarters at Ahmadnagar and works under the Conservator of Forests, Poona Circle.

The forests are mainly in Tuljapur taluka and are of thorny scrub type. The common species found are : Khair, Hiwar, Hankal, Aroni, Apta, Ber, Babul and Neem. The forests have extensive grassy areas in undulating places. The species of grass found are Kusal, Sheda and Marvel.

A major portion of the forest produce is consumed locally. The Forest Department has launched a large-scale afforestation programme and so far an area of about 1,500 acres has been afforested with Neem, Shisam, Shiras, etc. In the Third Five-Year Plan Rs. 20,000 have been sanctioned for afforestation and development of pastures. Another 630 acres of land is to be afforested for soil conservation programme which will involve an outlay of Rs. 70,000.

According to the 1961 Census, 198 persons are engaged in forestry and logging as principal work, 151 of them are males and 47 females.

FISHERIES

Fishery activities in the district are naturally restricted to inland waters only, rivers, tanks and ponds being the chief sources. The total length of perennial rivers in the district is about 85 km. There are also two perennial tanks and eleven seasonal tanks and ponds which provide 1,593 acres of water-spread area.

The commercially important varieties of fish found in the district are Baloo, Murrel, Koli Murrel, Dokh, Tam, Rahoo, Maroof, Singhi, Baam, Kanwa, Kolus, Potiac, Patola, Seengal, Khidla, Boori, Yellshal, Peora, Geehul, Murii, Kaneri, Chapti, Kobir, Pathar, Chatu, Bekdi, Selan, Katarna, Ghegra, Tamboo, Gangaoli, Ghod Zinga, Mungarod Zinga and Matechkal Zinga.

These varieties are however not of the fast-growing type. As such under Five-Year Plan Schemes, quick-growing "Bengal Carps" are stocked annually in the perennial water tanks. The varieties stocked are Catla Catla, Rohu and Mrigal. During the Second Five-Year Plan period about 1·43 lakhs of Fry was stocked while during only the first two years of the Third Plan period the quantity stocked amounted to about 73,000. The Khasapuri project has been selected for deep water fishing and about 80,000 baby fish of major Carp have been stocked in 1962-63.

According to the 1961 Census, 79 persons are engaged in fishing as principal work : 71 of them are males and 8 females. Fishermen in the district belong to the communities known as Dheemer, Bhoi, Kahar and Koli. Since fishing has a limited scope, some of the fishermen undertake seasonal agriculture and some others to roasting of grams. Fishing is generally done with the help of drag nets known as Maha-jal, cast nets called Malola or Phekjal, Gill nets (Yecle or Udan), etc. The nets are mostly made of cotton twine but these days nylon is also effectively used.

MINING AND QUARRYING

The district is covered mostly by Deccan Trap—a material of great use in building industry. No mineral deposits of any kind are reported anywhere in the district. Mining activity is, therefore, restricted only to quarrying of stones. According to the 1961 Census, 1,213 persons are working on quarrying of stones, clay, sand, etc. 1,079 of them are males and 134 females.

INDUSTRIES

There has been almost no industrial development of any significance in the district, perhaps because of inadequate supply of cheap electric power and transport facilities. The only three large-scale industries existing in the district are the cotton ginning and pressing and oil crushing units. The non-agricultural employment in the district, therefore, leans heavily towards the village and cottage industries, i.e., the village crafts working on traditional lines with the locally available raw materials or for local demand. The small-scale and cottage industries are, however, progressing to some extent during the last few years. Prospects for future industrial development in the district are linked up with the supply of cheap power, improvement of transport and communications.

There are in all 35,160 workers engaged in manufacturing industries, 28,734 or 81·72 per cent of them are in household industries and 6,426 or 18·28 per cent in non-household industries. The total number of workers in the registered factories in 1961 is 1,055 only and this makes hardly 3 per cent of all workers engaged in manufacturing industries or only one factory worker per thousand of total population against 20 per thousand of total population of Maharashtra.

The distribution of workers engaged in each industry major and minor groups is shown in Table B-IV-C in Part II. The number of establishments and the number of workers for each industry minor group prepared from the houselists are also shown separately for each village in the Village Industries Table presented at the end of Part II.

Large-scale Factories

There are only three large-scale factories in the district using power and employing 50 or more workers. All the three are at Latur. One of the three is a Ginning and Pressing Factory and employs 64 workers. The other two are oil mills and employ 75 and 95 workers, respectively.

Small-scale Registered Factories

There are 24 small-scale registered units employing nearly 370 workers which manufacture confectionary, oil, paper from waste cloth, oil-cakes and repairing and servicing of motor vehicles, etc.

The number of registered factories has increased from 14 in 1951 to 20 in 1961. The number of workers in registered factories, however, decreased

from 1,331 in 1956 to 1,055 in 1961. This reduction may be attributed to the existence of seasonal factories like cotton ginning and pressing and oil mills in the district, giving mostly seasonal employment. Most of the ginning and pressing units also have oil mills for off-season working.

According to the Census of Manufacturing Industries in 1959, the manufacturing industries in the district had a combined fixed capital of Rs. 3·7 lakhs and working capital of Rs. 7·6 lakhs. The total value of annual production was Rs. 120·7 lakhs and the value added by manufacturing was Rs. 17·7 lakhs. These figures relate only to the industries covered by the Census of Manufacturing Industries Act. The value added by manufacture in the district in 1959 was, however, only 0·09 per cent of the total for Maharashtra.

Small-scale and Cottage Industries

In the cottage and small-scale industries sector, handloom weaving of both cotton and wool, cotton ginning and pressing, oil crushing, tanning and leather working, rope making, making of dolls, earthen pottery and bricks, cane and bamboo works, etc., are the important industries in the district. Some of these manufacturing industries are traditional crafts conducted on household and cottage industries scale. The other industries in the sector are washing soap manufacture, chalk, repair workshop, etc. Industrial co-operative societies have also been formed in case of a number of small industries.

22,231 workers are engaged in the production and rearing of livestock. According to the 1961 Livestock Census, the district has 12·86 lakhs of livestock. Deoni breed of Udgir and Ahmadpur talukas is famous all over the country and has won a number of prizes at the All-India Cattle Shows. Khandari and Khillari are the other two popular breeds in the district.

Rearing of sheep for production of wool engages 5,889 workers. The shepherds usually manufacture kamblis. The woollen yarn is also imported from Hyderabad side. Udgir is famous for the production of kambals of superior quality.

3,946 persons are engaged in the miscellaneous textile industry. These include 3,794 tailors engaged in making garments for men and women. 2,644 workers are engaged in the manufacture of shoes and other leather footwear while 2,263 persons are working in the manufacture of earthenware and earthen pottery.

There are 707 flour mills engaging 1,326 workers. According to the occupational classification 4,210 workers are engaged as carpenters. They are the carpenters who manufacture, fix or repair doors and door-frames, wooden roof-beams, furniture and agricultural implements.

Classified by occupations 3,507 persons are engaged as tailors, dress-makers and garment-makers while 16,175 persons are working as farmers, farm managers, animals, birds and insects rearing. 3,108 workers are engaged as shoe-makers and repairers and 2,217 persons are working as potters. These potters are the village potters most of whom still work on the traditional baluta system under which they get a fixed quantity of foodgrains at the harvest time in lieu of supply of earthenware during the year.

The proportions of different groups of artisans to one lakh of total population in the district are as follows :—

Blacksmiths 93; Carpenters 285; Shoe-makers and repairers 210; Potters 150; Tailors and dress-makers 237; Spinners and weavers 121; Basket weavers 119.

Centres of handloom weaving of cotton and woollen cloth are at Latur, Osmanabad, Parenda, Bhum, Ausa, Udgir, Gunjoti and Murum. On 31st May 1961 there were 1,571 cotton and 98 non-cotton handlooms registered in the district. Extraction of oil from groundnut and Kardi oil-seeds on small-scale basis is done at Osmanabad, Udgir, Ausa Latur, Murud (Latur taluka), Lohara (Umarga taluka), Andora (Tuljapur taluka) and Nalegaon (Ahmadpur taluka). The tanning and leather working industries are also widespread in spite of the fact that hides and skins are usually imported from Hyderabad side. The industry is mainly concentrated at Parenda, Umarga, Gunjoti, Sastur, Lohara and Murum in Umarga taluka, Tuljapur and Andora in Tuljapur taluka and Lamjana in Ausa taluka. The finished products are exported from these areas. Rope manufacture from "Ghayal" which is an agricultural bye-product cultivated on the borders of the fields, is done mainly at Bhum, Washim (Bhum taluka), Naldurg in Tuljapur taluka, Saranwadi and Kapilapuri in Parenda taluka, Dhoki and Gaosood in Osmanabad taluka and Murum and Turori in Umarga taluka.

Recently a paper factory has been opened at Ausa and there are proposals to start a co-operative sugar factory at Dhoki in Osmanabad taluka. The sugarcane crop around Dhoki will be utilised by this factory.

The Industries Department has started a training centre for earthen pottery and "Bidri" works at Udgir. Similarly, there are five schools imparting training in blacksmithy and carpentry at Parenda, Ahmadpur, Nilanga, Bhum and Chakur. Training in wool weaving is given at the centres at Chakur and Nilanga. Cotton and fibre weaving classes are conducted at Lohara and Naldurg while tailoring classes for women are conducted by the Development Blocks at Parenda and Nilanga.

The "Master Plan" prepared by the Industries Department in 1960 had indicated scope for establishment of the following new industries in the district:—

(i) Solvent extraction of oil-seeds/cakes.

(ii) Sugar.

Industrial Estates

There is a proposal to establish at Latur a new industrial estate on co-operative basis.

POWER

The number of electrified towns and villages is only nine. Their talukawise lists are given in Table 31 in Part III. The population of these electrified places is only 8·76 per cent of the total population of the district.

The district consumption of electricity on different items for eight years is shown in Table 30 in Part III.

Per capita consumption is naturally much lower than the State average, as only nine towns and villages in the district had been electrified up to 1960-61.

Before the Reorganisation of States, Latur and Tuljapur were the only two places having power supply from private generator sets. After the reorganisation, the Maharashtra Electricity Board took over the management of the Latur Power House and started supplying power to the town.

In addition a new power house was started at Latur and the combined generation is 544 kw. Electric supply to Osmanabad was started by the Board in August 1959 with a capacity of 100 kw. which is to be stepped up to 150 kw. Independent generating stations have also been established at Bhum, Murum and Udgir and power is supplied also to Parenda and Umarga through 11 k. volts lines. Nilanga and Ausa get power supply from the Latur Power Station while Ahmadpur gets it from Parali-Vaijanath in Bhir district.

The work of supplying electricity to all the taluka headquarters is in progress. It is also proposed to supply electricity to some parts of the district from the Paras Thermal Power Station in Akola district. Some villages from Ahmadpur taluka are expected to be benefited by that scheme.

TRADE AND COMMERCE

The chief exports of the district are jowar, tur, gram, mung, udid, groundnut, safflower, other oil-seeds, cotton, oil, leather, chillies, cattle, sheep, bones and horns, tobacco and "tarvad" bark. Cotton and oil-seeds are exported to Bombay or Hyderabad while udid and groundnut have a demand from Madras. Grains and pulses are brought from villages through commission agents or the agents themselves go to the villages and purchase the produce from the producers. Agriculturists themselves also bring their produce for sale to the markets. The principal imports are salt, dried fish, spices, copper and brass utensils, sugar, kerosene, silk and cotton cloth and other consumer goods, groceries, coconuts etc. The distribution of goods beyond the wholesale trade centres is done at market places and weekly bazars held at different places and on different days of the week.

Shops

Almost every village has one or more shops except the smallest. These shops provide the inhabitants with their day-to-day requirements. They deal in all kinds of grains, salt, groceries, oils, gur, spices, coconuts, washing soap, tea, tobacco, betelnut, chillies and innumerable articles required by people for their daily use. There are in all 12,837 shops in the district: 9,957 are in rural areas and 2,880 in urban areas. This does not include the shops temporarily set up in the weekly markets or fairs. The number of shops per 1,000 dwellings is 47·4 for the district as a whole, 41·9 for rural areas and 99·6 for urban areas. It will be seen that the shops per 1,000 dwellings in urban areas are two and a half times more than those in rural areas. The ratio between shops and 1,000 dwellings for the district is considerably higher than the State average of 36·4. It is probably due to the existence of large trading centres like Latur and Udgir which also serve the adjoining areas in Bhir district and Bidar district of Mysore State. Talukawise number of shops may be seen in Table E-I in Part II.

Weekly Markets

These markets are popularly known as "bazars" and are chiefly distributing rather than collecting centres. All sorts of articles like foodgrains, pulses, oils, chillies, spices, gur, cloth, fruit, vegetables, etc., are sold in these markets. Pedlars and hawkers set up booths on market days. Agriculturists from nearby villages also bring their farm produce. In addition, temporary stalls are set up by traders and shopkeepers who belong to the market place. The weekly markets start by about two in the

afternoon and close by six, so as to enable both the buyers and sellers to reach home before it is dark. People from villages within the radius of 4-5 miles are generally the buyers in these markets.

Column (7) of the Village Directory in Part I shows for each village in the district if a weekly market is held and, if so, on which day of the week. A list of weekly markets in the district given in Table 32 in Part III shows the location and day on which each bazar is held. The map facing page 237 shows locations of all these markets and also the days on which they are held.

There are altogether 126 weekly markets in the district. Out of these, 16 are also cattle markets. Cattle from distant areas are brought for sale at the cattle markets. Trade of camels is a speciality of Udgir market, as these animals are used for transportation in the adjoining hilly and inaccessible areas. Malegaon in Ahmadpur taluka is known for its very large market for horses.

Out of the 126 weekly markets, 19 are held on Sunday, 18 on Monday, 12 on Tuesday, 16 on Wednesday, 25 on Thursday, 24 on Friday and 12 on Saturday.

The map at page 237 will show that four or five markets cluster as satellites around a central village. Each has its bazar on one of the week days keeping the pedlars and hawkers busy throughout the week and also providing a choice to buyers to go to one or the other nearby market.

Fairs

So far as trade is concerned, fairs are complementary to weekly markets. They are attended by unusually large number of local people, pilgrims and neighbouring villagers and considerable quantity of agricultural produce and other articles of daily use, in addition to toys and other luxury goods are brought for sale. They are chiefly distributing centres. A list of fairs held in the district, showing their location, duration and dates and approximate number of persons attending is presented in Table 33 in Part III. The map facing page 238 shows the location of all these fairs having 1,000 or more gatherings in the district.

A volume giving details regarding fairs and festivals in Maharashtra is also issued separately.

Trade Centres

Apart from the weekly markets and fairs, (1) Handarguli, (2) Deoni, (3) Latur, (4) Kalam, (5) Osmanabad, (6) Udgir, (7) Ahmadpur, (8) Nilanga and (9) Murum are important trade centres as far as collection and export of agricultural produce are concerned. The Agricultural Produce Markets at these places are regulated under the Hyderabad Agricultural Markets Act, No. II of 1339 (Fasli). They are managed by the Market Committees. Latur is the most important trading centre as its annual turnover is over three crores of rupees. Latur Market serves a large area from Osmanabad and Bhir districts and Bidar district of Mysore State.

The annual turnover in some of the selected markets in the year 1958-59 was as follows :—

Market Committee	Total Value Rs.
(1) Latur	3,11,93,847
(2) Udgir	73,22,321
(3) Kalam	34,67,240
Total ..	4,19,83,408

A number of godowns for storing agricultural produce brought by farmers in the markets are proposed to be constructed by Government.

Workers in Trade and Commerce

The total number of persons engaged in trade and commerce in the district in 1961 is 18,410, out of which 10,173 or 55·26 per cent are in rural areas and 8,237 or 44·74 per cent are in urban areas. The number of workers in trade and commerce makes 2·39 per cent of all the workers in the district. About 40 per cent of the district number are in Latur (23·87 per cent) and Udgir (16·30 per cent) talukas only.

Only 4·46 per cent of the workers in trade and commerce are engaged in wholesale trade, 88·89 per cent in retail trade and 6·65 per cent in miscellaneous trade and commerce. Nearly 91 per cent of the wholesalers are in urban areas.

The number of wholesalers trading exclusively in cereals and pulses is 425. Forty persons are engaged in the wholesale trade of gur, sugar, spices groundnut, oil, etc.

A detailed break-up of the workers in trade and commerce by industry major groups and minor groups is shown in Table B-IV-C in Part II.

Banking Offices

A list of banking offices with their years of establishment, type and location is given in Table 23 in Part III. Their break-up by talukas and type is shown below :—

	Number of Banking Offices			
	Scheduled	Non-scheduled	Co-operative	Total
DISTRICT TOTAL ..	5	..	12	17
1 Ahmadpur Taluka ..	..	..	1	1
2 Parenda Taluka ..	..	..	1	1
3 Bhum Mahal ..	..	..	1	1
4 Osmanabad Taluka ..	1	..	2	3
5 Latur Taluka	3	..	1	4
6 Tuljapur Taluka ..	..	..	1	1
7 Kalam Taluka ..	..	..	1	1
8 Udgir Taluka ..	1	..	1	2
9 Ausa Taluka	..	..	1	1
10 Umarga Taluka ..	..	..	1	1
11 Nilanga Taluka ..	..	..	1	1

Latur and Osmanabad are important trading centres and have maximum number of banks. Ahmadpur has no banking office. All other talukas have at least one branch office of the Central Co-operative Bank. Financial transactions of the Government are done through the District Treasury and branches of the State Bank of Hyderabad. There are sub-treasuries at each taluka headquarters. The State Bank of Hyderabad has its branches at Latur, Osmanabad and Ausa.

COMMUNICATIONS AND TRANSPORT

The Vikarabad-Parli-Vaijanath broad-gauge line passes through Ahmadpur and Udgir talukas for 43·41 miles. There are eight railway stations on this line in the district: Wadwalnagnath, Janwal, Latur Road and Chakur in Ahmadpur taluka and Lohara, Her, Udgir and Belshakarga in Udgir taluka. The Miraj-Latur narrow-gauge line traverses through Osmanabad and Latur talukas for 35·51 miles. This line was known as the Barshi Light Railway. There are eight railway stations on that line in the district: Latur, Harangool, Ausa Road, Niwali and Murud in Latur taluka and Dhoki, Ter and Palsap in Osmanabad taluka. This line carries very heavy pilgrim traffic during Ashadhi and Kartiki fairs at Pandharpur.

Existing railway mileage in the district is 1·43 miles per 100 sq. miles of area against 2·66 miles per 100 sq. miles in the State.

Table 21 in Part III shows the existing road mileage in the district as well as its break-up by the type of road surface. The district map facing the title page shows all those roads.

The district headquarters is well connected by roads with the adjoining districts of Sholapur, Ahmadnagar and Bhir. But the communication towards Ahmadnagar and southern portion of Nanded are not yet well-developed. All the taluka headquarters are connected with the district headquarters by road. The Sholapur-Hyderabad National Highway passes through the district for 49·27 miles.

During the decade 1951—61, the State highways increased by 161·01 miles, major district roads by 50·52 miles, other district roads by 4·91 miles and village roads by 23·50 miles. The total increase in all types of roads (excluding municipal roads) is 240·01 miles.

Under the Nagpur Plan, the district should have 2,446 miles of roads. It was short of this target by 1,975 miles on 31st March 1961.

New Roads

On 31st March 1962 improvement of Naldurg-Chausala road was in progress. The following roads were under construction :—

(1) Deglur-Udgir road, (2) Nilanga-Udgir road, (3) Pardi-Parenda road *via* Bhum, (4) Udgir-Murki road.

New Bridges

Work on the following bridges was in progress :—

(1) Concrete causeway across Yusuf-Wadgaon stream on Mominabad-Kalam road, (2) R.C.C. slab causeway on Sukli stream on Mominabad-Kalam road, and (3) R. C. C. slab causeway on Sawaleshwar stream on Mominabad-Kalam road.

Posts, Telegraphs and Telephones

The district is included in the Nanded Postal Division. Head Post Office is situated at Osmanabad and sub-offices are at taluka headquarters and towns. The bigger villages have branch post offices. During the year 1961-62 there were 24 sub-post offices and 342 branch post offices in the district.

There are Telegraph Offices at the following seven places: (1) Osmanabad, (2) Ahmadpur, (3) Ausa, (4) Latur, (5) Murud, (6) Tuljapur, (7) Udgir.

The following five places have Telephone connections: (1) Osmanabad, (2) Ausa, (3) Latur, (4) Naldurg, (5) Udgir.

Passenger Road Transport

Passenger road transport had been nationalised as early as in 1932. The transport organisation used to function as one of the Government Departments. It has now been amalgamated in the Maharashtra State Road Transport Corporation since 1st July 1961. Private passenger buses operate on *kachha* roads in fair season. By the end of the Second Five-Year Plan, the extent of nationalisation of passenger road transport was 52 per cent. It is proposed to extend it to 76 per cent by the end of the Third Five-Year Plan. It is also proposed to construct additional bus stations, pick-up stands and provide other facilities for the travelling public during the Third Five-Year Plan.

The district is included in the jurisdiction of Aurangabad division of State Road Transport Corporation. There are two depots at Latur and Osmanabad. No separate figures for passenger transport are available separately for the district. The two depots run buses on 36 routes which make 135 single trips per day.

Goods Transport

Separate figures for lorries operating in the district are not available as the Regional Transport Officer

working at Aurangabad keeps combined records for his region including Aurangabad, Parbhani, Osmanabad, Nanded and Bhir districts.

Workers in Transport and Communications

2,588 persons are engaged in transport and 513 in postal, telegraphs and telephone communications. Out of the workers in transport, 424 are in railway transport, 620 in motor and bus transport and 1,544 in other kinds of transport like bullock-carts, horses on hire, coolies, etc.

The Village Directory in Part I gives information for each village in the district whether it is served by a Railway or a Road or has a Post Office or not.

CONSTRUCTION

The total number of workers engaged in construction is 5,385. 4,854 are males and 531 females. Their distribution by minor groups is shown in Table B-IV-C in Part II.

7·48 per cent of the workers are engaged in the construction and maintenance of dams, waterways and canals, etc., 18·66 per cent in construction and maintenance of roads, bridges, etc. and 73·86 per cent in construction and maintenance of buildings, etc. The high proportion of workers engaged in the construction of buildings includes those working on private houses as well as those engaged in construction of buildings for administrative offices, residential quarters for Government employees, primary and secondary schools, etc.

All the workers engaged in construction together make only 0·70 per cent of the total workers in the district.

OTHER SERVICES

39,057 persons are engaged in the district in "Other Services". 28,934 are males and 10,123 are females. The major categories out of them are: (i) Public Services, (ii) Educational Services, (iii) Personal Services. "Public Services" include administrative employees of Central, State and Local Governments. "Educational Services" include all classes of teachers and "Personal Services" include domestic servants as well as barbers, washermen and others rendering service to persons or households. The distribution of workers in other services by minor groups is shown in Table B-IV-C in Part II.

5·08 per cent of the total workers in the district are engaged in "Other Services" as against 8·53 per cent in the State. 18·16 per cent of the total workers in "Other Services" in the district are engaged in "Public Services" and 13·13 per cent in "Educational Services". The former proportion is much lower while the latter is slightly higher than the corresponding proportions (23·86 per cent and 12·40 per cent) for Maharashtra. The low proportion of "Public Services" may be attributed to comparatively very few urban centres. The higher proportion of "Educational Services" is partly due to the lower proportions of the other two categories. It also indicates the recent development of education and the growing number of primary and secondary schools. The proportion of "Personal Services" in the district is lower (i.e., 17·80 per cent) than the State average of 27·15 per cent, as the district is economically backward and under-developed.

The number of domestic servants is 1,490 or one for 992 population. The number of barbers is 2,289. The number of persons in laundry services including washermen is 1,793.

There are 341 legal practitioners and 864 persons working in medical and health services excluding veterinary services.

The number of persons including the teaching staff in technical schools and colleges is only 29 while that in other schools and colleges is 5,100.

The number of State Government employees, including those now working under the Zilla Parishad, is 5,625.

BROAD ASPECTS OF ECONOMY

Individual sectors of economy of the district have so far been described separately. A few broad aspects may now be discussed for the economy as a whole.

Labour Participation Rates

The proportions of workers to total population, males and females for the district and each taluka are shown in the next column.

	Percentage proportion of workers		
	Total	Males	Females
MAHARASHTRA	47·91	57·09	38·10
OSMANABAD DISTRICT	52·06	60·14	43·56
1 Ahmadpur Taluka ..	51·06	59·30	42·35
2 Parenda Taluka	53·50	62·03	44·62
3 Bhum Mahal	53·60	61·69	45·20
4 Osmanabad Taluka ..	50·79	59·07	42·12
5 Latur Taluka	45·96	57·76	33·29
6 Tuljapur Taluka	51·71	60·62	42·14
7 Kalam Taluka	53·45	60·80	45·67
8 Udgir Taluka	52·53	59·53	45·21
9 Ausa Taluka	57·65	62·14	52·91
10 Umarga Taluka	52·90	60·11	45·28
11 Nilanga Taluka	51·71	60·57	42·50

Labour participation rate varies from 57·65 in Ausa taluka to 45·96 in Latur taluka. Except for Latur taluka, the labour participation rates are higher in all other talukas than those for Maharashtra. This is so even for females but for males they are higher in all the talukas of the district. Participation rates are highest in Ausa taluka both for males and females. Latur taluka has smaller participation rates because of the large urban sector of its population. Higher participation rates in the district are due to its extreme dependence on agriculture and the generally underdeveloped economy.

Primary, Secondary and Tertiary Sectors

The Primary Census Abstract shows the distribution of workers in the nine categories of economic activity. Table B-IV-C in Part II shows detailed industrial classification of all workers other than those at cultivation. The percentage distribution of workers in primary, secondary and tertiary activities for the district and the State is as follows :—

		Total workers	Primary	Secondary	Tertiary
Maharashtra ..	Total ..	100·00	72·25	12·34	15·41
	Rural ..	100·00	88·73	5·68	5·59
	Urban ..	100·00	11·97	36·69	51·34
Osmanabad District.	Total ..	100·00	87·32	4·80	7·88
	Rural ..	100·00	91·13	3·95	4·92
	Urban ..	100·00	39·11	15·55	45·34

The primary sector is predominant in the district with 87·32 per cent of the workers engaged against the State average of 72·25 per cent. The proportion engaged in the secondary sector is almost one-third of the State average. Even the proportion of workers engaged in tertiary sector (7·88 per cent) is almost half of the State average.

Categories of Economic Activity

The distribution of workers, males and females by nine categories of economic activities for the district and the State is as follows :—

	Maharashtra			Osmanabad District		
	Persons	Males	Females	Persons	Males	Females
I Cultivation	46·11	40·69	54·79	46·66	48·16	44·47
II Agricultural Labour ..	23·80	18·12	32·90	36·86	28·07	49·65
III Mining, Quarrying, Livestock, Forestry, Fishing, etc.	2·16	2·97	0·86	3·34	5·49	0·20
IV Household Industry ..	4·39	4·80	3·74	3·73	5·20	1·60
V Manufacturing other than Household Industry.	6·88	10·22	1·54	0·84	1·27	0·21
VI Construction	1·24	1·69	0·53	0·70	1·06	0·17
VII Trade and Commerce ..	4·52	6·61	1·17	2·39	3·73	0·45
VIII Transport, Storage and Communications.	2·36	3·65	0·29	0·40	0·67	0·02
IX Other Services	8·54	11·25	4·18	5·08	6·35	3·23
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

As described earlier the district has larger proportions of workers engaged both as cultivators and agricultural labourers than the State average. It is so because there are no alternative employments available in the district. The proportions in other services, trade and commerce, transport, storage and communications and construction are lower and the proportion of workers in manufacturing industry (0·84 per cent) is insignificant as compared to the State average of 6·88.

Talukawise distribution of workers in nine categories of economic activities is shown below. Corresponding figures for the State and the district are also shown for comparison :—

State/District/Taluka	I Cultivator	II Agricultural Labourer	III Mining, Quarrying, Livestock, Forestry, Fishing, etc.	IV Household Industry	V Manufacturing other than household Industry	VI Construction	VII Trade and Commerce	VIII Transport, Storage and Communications	IX Other Services	Total
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
MAHARASHTRA	46.11	23.80	2.16	4.39	6.88	1.24	4.52	2.36	8.54	100.00
OSMANABAD DISTRICT ..	46.66	36.86	3.34	3.73	0.84	0.70	2.39	0.40	5.08	100.00
1 Ahmadpur Taluka ..	49.51	37.53	2.87	3.60	0.48	0.53	2.09	0.29	3.10	100.00
2 Parenda Taluka ..	56.53	31.25	2.23	3.80	0.46	0.75	1.19	0.12	3.67	100.00
3 Bhum Mahal	53.99	26.72	2.58	5.92	0.36	0.42	1.51	0.08	8.42	100.00
4 Osmanabad Taluka ..	40.77	41.01	3.13	3.12	0.82	0.92	1.82	0.51	7.90	100.00
5 Latur Taluka	35.39	34.85	3.84	3.70	3.19	1.02	6.69	2.02	9.30	100.00
6 Tuljapur Taluka	42.02	43.24	3.00	3.32	0.81	0.45	1.80	0.22	5.14	100.00
7 Kalam Taluka	49.42	35.69	3.71	3.58	0.57	0.52	1.62	0.15	4.74	100.00
8 Udgir Taluka	48.13	34.35	2.78	3.96	1.03	1.05	3.31	0.55	4.84	100.00
9 Ausa Taluka	50.78	36.31	3.77	3.38	0.51	0.52	1.63	0.11	2.99	100.00
10 Umarga Taluka	42.82	42.64	3.74	3.67	0.61	0.66	1.88	0.20	3.78	100.00
11 Nilanga Taluka	48.72	35.59	4.31	3.92	0.32	0.70	2.16	0.11	4.17	100.00

Distribution of workers by nine categories of economic activity is also shown in the Figure facing this page for the district and each taluka separately.

The proportions of cultivators and agricultural labourers differ considerably from taluka to taluka. The proportion of cultivators varies between 35·39 per cent for Latur and 56·53 per cent for Parenda taluka. The proportion for agricultural labourers varies from 26·72 per cent in Bhum Mahal to 43·24 per cent in Tuljapur taluka. Such wide variations within the district are due to the differences in soils and resulting cropping and land holding patterns.

Labour Participation by Age

The labour participation rates by broad age-groups are shown below for the district for total, males and females separately. Corresponding figures for the State are also shown for comparison :—

Age-groups	Osmanabad District			Maharashtra		
	Total	Males	Females	Total	Males	Females
All ages ..	52·06	60·14	43·56	47·91	57·09	38·10
0—14 ..	13·62	15·60	11·58	8·72	8·62	8·84
15—34 ..	82·58	92·91	72·35	74·53	87·45	60·90
35—59 ..	85·61	97·85	71·30	81·57	96·86	63·68
60+ ..	55·36	77·28	28·46	49·13	72·82	26·28

The labour participation rates in the district are higher than the corresponding State averages both for males and females and for all age-groups. This may be an index of the under-developed economy of the district.

Workers by Educational Levels

The distribution of workers by educational levels shown in Table B-III in Part II is shown below by percentages for the district. Corresponding figures for the State are also shown for comparison:—

	Illiterate	Literate (without educational level)	Primary or Junior Basic	Matriculation and above
Maharashtra ..	68·65	14·11	13·91	3·33
Osmanabad District. ..	81·82	11·99	5·27	0·92

Because of lower literacy rates in the district the proportion (81·82 per cent) of illiterate workers to total workers is much higher than the State average (68·65 per cent). The proportions of literates without educational levels and with Primary or Matriculation and above are consequently much lower than those for the State. The proportion of workers by education level Matriculation and above is only 28 per cent of the State average.

Status of Employment

Table B-IV-B in Part II shows the distribution of workers by status of employment for non-household industries. The percentage proportions of employers, employees, single workers and family workers in the district for total, rural and urban areas are as follows. Corresponding figures for Maharashtra are also shown for comparison. The four classes of workers are defined in paragraph 58 in the Explanatory Note to Part II :—

		Total workers	Class of Workers			
			Employers	Employees	Single workers	Family workers
Maharashtra	Total	100·00	3·96	62·18	26·52	7·34
	Rural	100·00	1·57	46·47	38·58	13·38
	Urban	100·00	4·98	68·90	21·37	4·75
Osmanabad District	Total	100·00	1·87	36·27	49·50	12·36
	Rural	100·00	0·94	31·21	54·30	13·55
	Urban	100·00	3·75	46·48	39·82	9·95

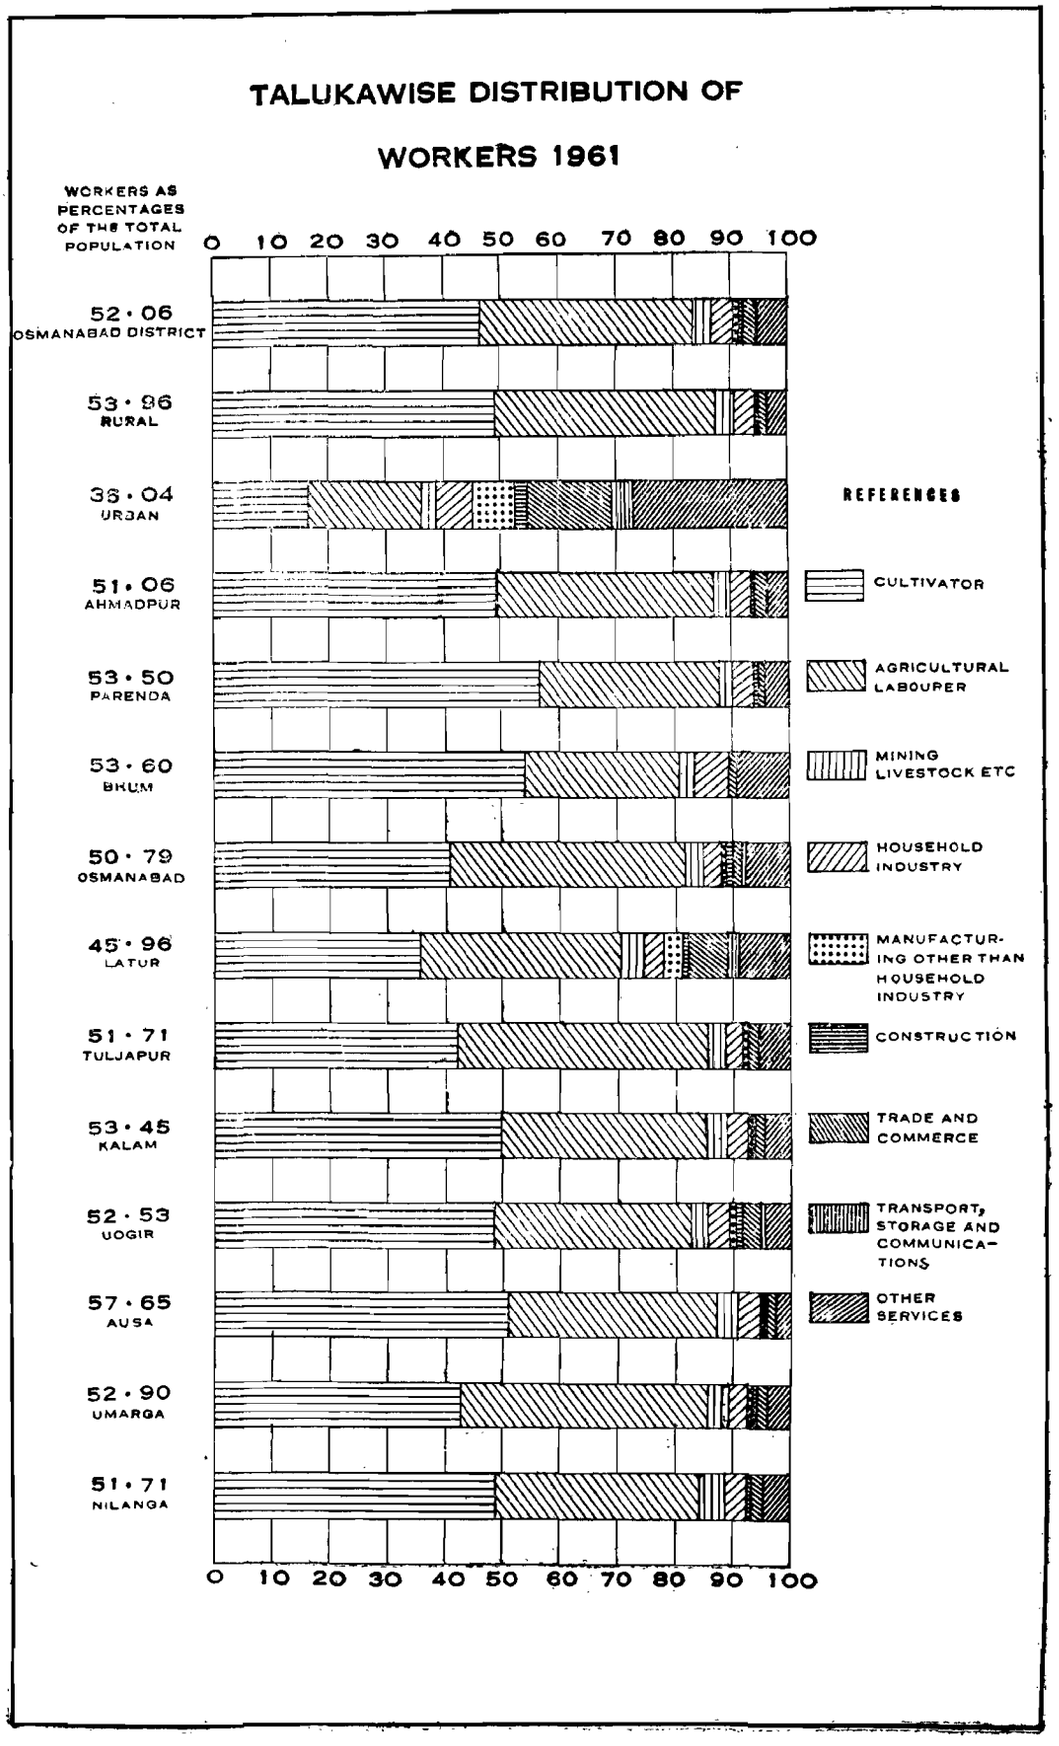

Single workers and family workers have higher proportions in the district than the State average. The differences are more marked for single workers. The urban proportion of family workers in the district is more than twice that of the State average. This is reflection of small shops and pedlars dominating the scene.

Percentage Distribution in Household Industry by Employees and Others

The proportion of employees, i.e., hired workers and others in household industries in the district for total, rural and urban areas is shown in Table B-IV-A in Part II. The percentage distribution with corresponding figures for Maharashtra is as follows :—

		Total workers	Employees	Others
Maharashtra	Total ..	100·00	8·18	91·82
	Rural ..	100·00	4·91	95·09
	Urban ..	100·00	16·35	83·65
Osmanabad District ..	Total ..	100·00	4·35	95·65
	Rural ..	100·00	4·10	95·90
	Urban ..	100·00	6·13	93·87

Household Industries in the district engage a much smaller proportion of employees than the State average. The work in household industries is mostly done by heads of households and/or family workers and as such the participation by hired workers is restricted in the district. The difference is more striking in urban areas.

Secondary Work

The proportions of workers also engaged in some other secondary economic activity for three categories of principal work for Maharashtra and the district are as follows (Actual figures are shown in Table B-VII-A in Part II) :—

	Principal Work		Percentage of total workers by categories of secondary work		
			I	II	IV
MAHARASHTRA ..	I Cultivation	Total ..	..	17.85	1.97
		Rural ..	..	18.03	1.98
		Urban ..	..	10.54	1.32
	II Agricultural Labour	Total ..	13.17	..	0.94
		Rural ..	13.46	..	0.97
		Urban ..	7.12	..	0.31
	IV Household Industry	Total ..	14.78	6.97	..
		Rural ..	19.61	9.38	..
		Urban ..	2.70	0.95	..
OSMANABAD DISTRICT	I Cultivation	Total ..	..	9.75	1.11
		Rural ..	..	9.79	1.11
		Urban	..	8.41	0.97
	II Agricultural Labour	Total ..	8.05	..	0.88
		Rural ..	8.31	..	0.89
		Urban ..	1.55	..	0.45
	IV Household Industry	Total ..	8.05	5.79	..
		Rural ..	8.67	6.27	..
		Urban ..	3.58	2.39	..

Proportions of workers engaged in secondary work are lower for the district than the State averages for all the three categories. The proportions are so even for the corresponding rural and urban sectors, excepting however, household industry workers engaged in the subsidiary activity of cultivation and agricultural labour have a slightly higher proportion in urban area than the urban State average. So also agricultural labourers engaged in the subsidiary activity of household industry have higher proportions in the urban sector than the corresponding urban State average. Agricultural labourers and household industry workers engaged in cultivation in the secondary work have higher proportions particularly in rural areas. This is seen in the State rural as well.

Occupational Classification

Table B-V in Part II shows the distribution of non-agricultural workers by occupation. The percentage distribution for the State and the district is as follows. The occupational classification is described in the Explanatory Note to Part II :—

Occupational Division	Maha-rashtra	Osmana-bad District
0 Professional, technical and related workers	6·42	6·94
1 Administrative, executive and managerial workers.	3·89	3·76
2 Clerical and related workers	9·13	3·16
3 Sales workers	12·23	13·85
4 Farmers, fishermen, hunters, loggers and related workers.	7·64	23·10
5 Miners, quarrymen and related workers ..	0·75	0·95
6 Workers in Transport and Communication occupations.	3·57	1·30
7 & 8 Craftsmen, production process workers and labourers not elsewhere classified.	45·99	39·60
9 Service, sport and recreation workers ..	10·27	7·34
X Workers not classifiable by occupation ..	0·11	..
Total ..	100·00	100·00

Workers in occupational division 4 (Farmers, fishermen, etc.,) have a substantially higher proportion in the district than the State average. The proportion in the occupational divisions 0 and 3 are also higher in the district than the State average. The proportion in occupational division 2 (Clerical and related workers) is significantly lower, *viz.*, 3·16 per cent against the State average 9·13 per cent.

Non-workers

The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II. Percentage distribution for the district is shown below :—

	District Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
(1) Full-time students	29.54	6.96	28.17	6.27	38.39	11.01
(2) Household duties	0.09	33.46	0.10	31.07	0.04	47.40
(3) Dependants, infants and disabled	68.52	59.02	70.24	62.13	57.39	40.86
(4) Retired, rentiers or persons of independent means.	0.52	0.31	0.40	0.30	1.27	0.41
(5) Beggars, vagrants, etc.	0.64	0.21	0.64	0.20	0.63	0.24
(6) Inmates of institutions	0.06	N	0.02	..	0.36	0.01
(7) Persons seeking employment for the first time.	0.34	0.01	0.24	0.01	1.00	0.02
(8) Unemployed but seeking work..	0.29	0.03	0.19	0.02	0.92	0.05
TOTAL ..	100.00	100.00	100.00	100.00	100.00	100.00

N=Negligible.

There is a marked difference in the distribution pattern for non-workers among males and females. 29·54 per cent out of male non-workers are full-time students while the corresponding proportion for females is 6·96. The reason is that 33·46 per cent females who are engaged in household duties are also included as non-workers. The rural-urban differences are similar both for males and females for all the categories. In urban areas the percentage of full-time students is higher and that for dependants lower. The percentage of females engaged in household duties is higher in urban areas than in rural areas. The percentage of unemployed is 1·92 and 0·43 for males in urban and rural areas and negligible in both cases for females. Proportions of full-time students among females are lower both in urban and rural areas than the males. The difference is not, however, entirely due to social customs of attending more to the education of boys than that of girls. The proportions for females are lower because the group of non-workers contains a large number of adult women engaged in household duties. Other categories, *viz.*, categories 4 to 8 each have less than one per cent for both males and females.

PART I

VILLAGE DIRECTORY

This Directory renders an account of each Village and each Ward of Town

11	Nilanga Taluka	69

EXPLANATORY NOTE

This Part I presents 1961 Population Census figures for all villages and towns in the district In the case of towns, the figures are also presented separately for each ward. These basic statistics are not published for such small administrative units in any other country in the world.

2. For each village, ward or town are shown its area, number of occupied residential houses, number of households, total population and its break-up by sex, literacy, Scheduled Castes, Scheduled Tribes, workers and non-workers. The figures for workers are further split up by sex and by a broad classification of industrial activity in nine categories described in paragraph 16 below.

3. In the village directory, the villages are presented talukawise and within a taluka in the order of their location code numbers. These code numbers had been assigned to them for organising 1961 Census work and follow a regular north-west to south-east direction. The taluka map shows approximate locations of all villages with their code numbers. An alphabetical list of villages will be found facing each taluka map. It shows the code number for each village and its population in 1951 and 1961. The taluka map and the alphabetical list will together facilitate location of any village in the village directory as well as on the spot.

4. A "village" is a statutorily recognised village having a defined boundary and separate land records. Hamlets, wadies or padas have, therefore, not been shown separately. On the other hand, statutorily recognised villages having no population have been shown with separate code numbers but with word "uninhabited" shown against them.

5. Forest villages, however, make an exception. They are population centres situated within reserved forest areas. Their population mainly consists of forest labourers and their families. Most of them are, however, permanent localities and also have attached cultivated areas leased out by the Forest Department under certain conditions. Their land records are not maintained by the Revenue Department. Statistics for these forest villages have also been presented in the village directory. They may, however, be distinguished from other statutory revenue villages from the letters "(FV)" suffixed after their names.

6. Survey of India maps, taluka maps, previous Census Handbooks and many other official sources have been referred both to secure accurate coverage and to get the correct spellings of village names. A very high standard of accuracy may now be claimed for both.

7. Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

(*a*) a population of over 5,000 ; and

(*b*) Seventy-five per cent or more of male workers engaged in non-agricultural occupations.

Census figures for all these towns are presented wardwise after the completion of rural portion. Their names will also be found in the alphabetical lists of villages in capital letters with code numbers shown inroman figures. They are also shown on the taluka map.

8. The taluka maps and the alphabetical lists are both improvements over the 1951 District Census Handbooks. The village figures are, moreover, extracted directly from census records and not, as was done in 1951, from their copies prepared for some other purposes. The figures presented in the village directory, therefore, tally with the taluka and district Census tables perfectly.

9. Information contained in columns (3) to (7) of the village directory is based on village enumeration reports prepared by the Talaties or Patwaries during October/November, 1960, at the time of house numbering and house listing for 1961 Census. Because of the geographical arrangement of the villages these five columns indicate the general pattern of distribution of some basic amenities within a taluka. Village enumeration reports contained many more useful items of information on the villages, which could not be presented in the village directory for want of space. They are preserved in the offices of the District Statistical Officers.

10. The area figures in column (8) have been obtained either from the Mamlatdars/Tahsildars or taken from the 1951 Census Handbooks.

11. In column (9) of the village directory, the occupied houses include houses used as dwellings or partly as dwellings and partly for some other purposes, *e.g.*, shop-*cum*-dwellings, etc.

12. Columns (14) to (17) of the village directory present, for the first time, villagewise figures of population of Scheduled Castes and Scheduled Tribes.

13. For columns (18) and (19) a "literate" is a person who knows both reading and writing.

14. For the definition of a "worker" or a "non-worker" and for a detailed description of industrial categories the Explanatory Note to Part II may have to be referred.

15. The villagewise figures for industries and the number of workers have been presented in a separate table appearing in Part II of the Handbook.

16. The following abbreviations have been used in the village directory :—

ABBREVIATIONS AND SYMBOLS USED

IN COLUMN HEADINGS

F *for* Females.

M *for* Males.

P *for* Persons.

I Working as Cultivator.

II Working as Agricultural Labourer.

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV Working at Household Industry.

V Working in Manufacturing other than Household Industry.

VI Working in Construction.

VII Working in Trade and Commerce.

VIII Working in Transport, Storage and Communications.

IX Working in Other Services.

IN NOTATIONS

In Column (2)

E *for* Electricity.

FV *for* Forest Village.

In Column (3)

Po *for* Post Office.

R *for* Connected by Road.

Rh *for* Rest-houses and Choultries.

Rly *for* Connected by Railway.

To *for* Telegraph Office.

In Column (4)

C *for* Higher Institutions including Colleges.

H *for* High School.

M *for* Middle School.

P *for* Primary School.

T *for* Technical Institutions.

IN NOTATIONS

In Column (5)

C *for* Canal.

N *for* Nallah.

Riv *for* River.

S *for* Protected Water Supply.

Sp *for* Spring.

Tk *for* Tank.

W *for* Well.

× *for* Inadequacy of Drinking Water.

In Column (6)

D *for* Dispensaries.

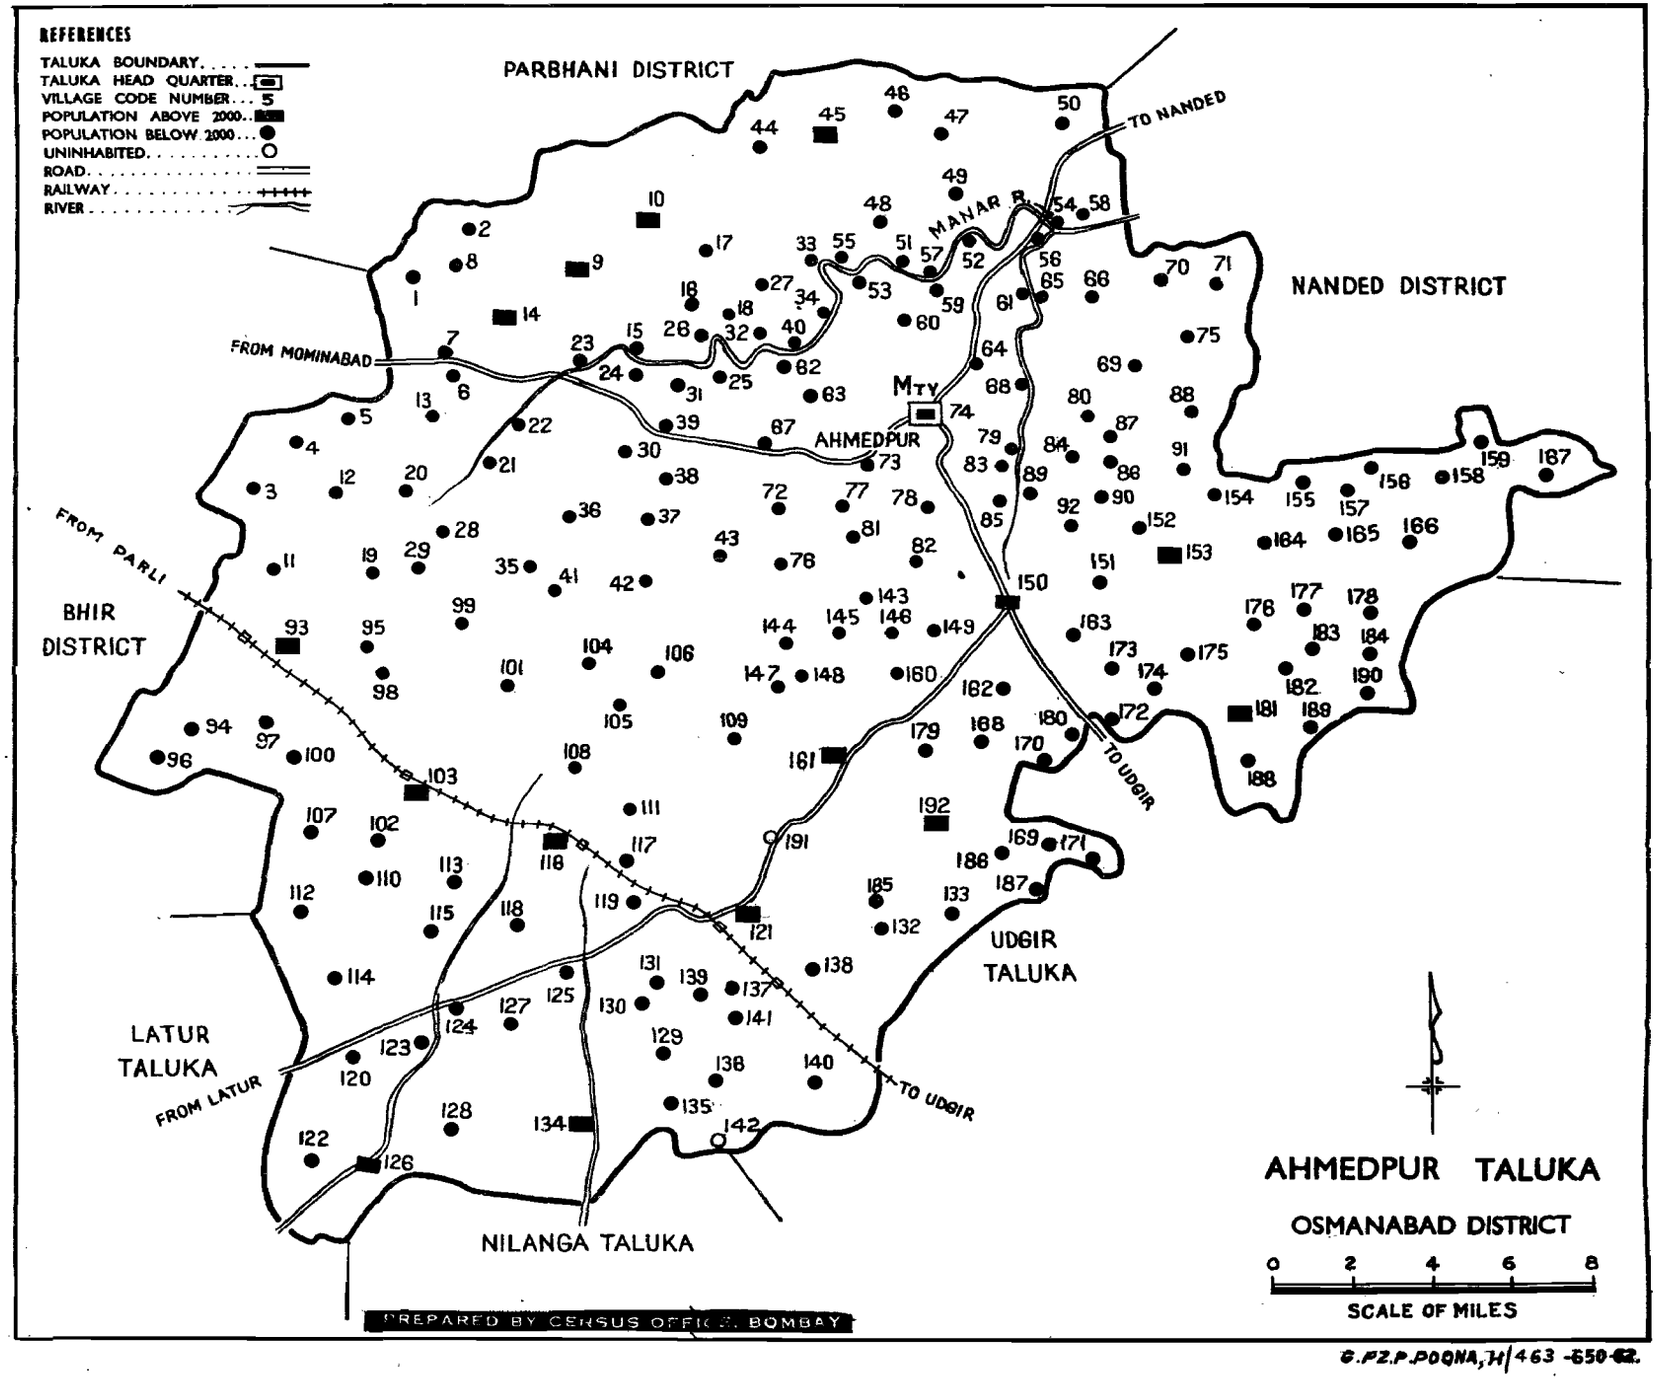

Hos *for* Hospital.

Mp *for* Medical Practitioner

In Column (8)

NA *for* Not Available.

(i) General Economic Tables		
Primary Census Abstract ..		110
B-I and B-II	Workers and Non-workers in Talukas and Towns classified by sex and by broad age-groups	112
B-III ..	Industrial classification of workers and non-workers by educational levels—	
	Part A—District Total	122
	Part B—District Rural	122
	Part C—District Urban	122
	Part D—Talukawise Rural only ..	123
B-IV ..	Part A—Industrial classification by sex and class of worker of persons at work at household industry	125
	Part B—Industrial classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service,	126
	Part C—Industrial classification by sex and divisions, major groups and minor groups of persons at work other than cultivation	128
B-V ..	Occupational classification by sex of persons at work other than cultivation	134
B-VI ..	Occupational divisions of persons at work other than cultivation classified by sex, broad age-groups and educational levels in Urban Areas only	138
B-VII ..	Part A—Persons working principally (i) as cultivators, (ii) as agricultural labourers or (iii) at household industry classified by sex and by secondary work (i) at household industry, (ii) as cultivator or (iii) as agricultural labourer	140
	Part B—Industrial classification by sex of persons working in non-household industry, trade, business, profession or service, who are also engaged in household industry	141
B—ECONOMIC TABLES—*concld.*		
(i) General Economic Tables—*concld.*		
B-VIII ..	Part A—Persons unemployed, aged 15 and above, by sex, broad age-groups and educational levels in Urban Areas only	142
	Part B—Persons unemployed, aged 15 and above, by sex and educational levels in Rural Areas only	142
B-IX ..	Persons not at work classified by sex, broad age-groups and type of activity	144
(ii) Household Economic Tables		
B-X ..	Sample households (i) engaged neither in cultivation nor household industry, (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry	146
B-XI ..	Sample households engaged in cultivation classified by interest in land and size of land cultivated.	147
B-XII ..	Sample households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers	148
B-XIII..	Sample households engaged both in cultivation and household industry showing size of land cultivated classified by principal household industry	152
B-XIV..	Sample households engaged only in household industry classified by principal household industry—	
	Part A—Households classified by major groups of principal household industry and number of persons engaged	153
	Part B—Households classified by minor groups of principal household industry	154
B-XV ..	Sample households engaged both in cultivation and household industry classified by size of land	155
B-XVI..	Sample principal household industry classified by period of working and total number of workers engaged in household industry	160
C—SOCIAL AND CULTURAL TABLES		
C-I ..	Size and composition of sample households—	
	Part A—Size of sample households classified by participation in household cultivation or industry	166
	Part B—Composition of sample households	166
C-II ..	Age and Marital Status	167

J-1813-II—11 (Osmanabad).

SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES		
SCT-I ..	Part A—Industrial classification of persons at work and non-workers by sex for Scheduled Castes for the District and Talukas Rural only.	176
	Part B—Industrial classification of persons at work and non-workers by sex for Scheduled Tribes for the District and Talukas Rural only.	180
SCT-III	Part A (i)—Education in Urban Areas only for Scheduled Castes	182
	Part A (ii)—Education in Urban Areas only for Scheduled Tribes	Not printed.
	Part B (i)—Education in Rural Areas only for Scheduled Castes	182
	Part B (ii)—Education in Rural Areas only for Scheduled Tribes	182
SCT—SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES—*concld.*		
SCT-V..	Part A—Sample households engaged in cultivation classified by interest in land and size of land cultivated by Scheduled Castes in Rural Areas only	183
	Part B—Sample households engaged in cultivation classified by interest in land and size of land cultivated by Scheduled Tribes in Rural Areas only	183
SC—SPECIAL TABLES FOR SCHEDULED CASTES ONLY		
SC-I ..	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes	183
ST—SPECIAL TABLES FOR SCHEDULED TRIBES ONLY		
ST-I ..	Mother-tongue and Bilingualism for Scheduled Tribes	184
ST-II ..	Persons not at work classified by sex and type of activity for Scheduled Tribes	185
E—HOUSING TABLES		
E-I ..	Census houses and the uses to which they are put	186
E-II ..	Tenure status of sample census households living in census houses used as dwelling	187
E-IV ..	Distribution of sample households living in census houses used wholly or partly as dwellings by predominant material of wall and predominant material of roof	188
E-V ..	Sample households classified by number of members and by number of rooms occupied	189
Number of Establishments and Workers for Industries classified by Minor Groups of Industrial Classification		190

EXPLANATORY NOTE

This Part contains 58 Tables presenting 1961 Census data for the district. 29 Tables also present material for each taluka and 6 for each town separately. The talukawise and townwise tables have been prepared specially for this volume.

2. A few Tables (e.g., A-IV, B-VI, B-VIII-A, etc.) present material for urban areas only. An urban area is the aggregate of all towns in the district or in the taluka concerned. All the other tables present material for total, rural and urban areas separately. In a few cases (e.g., B-III-D, B-VIII-B, B-IX, C-III-B, etc.) talukawise break-up is given for rural areas only because the corresponding data for the urban areas had been compiled only for the district as a whole and not for each taluka separately.

3. Tables on migration and a few other topics could not be included in this volume for want of space. They will be found in the volumes of the Maharashtra Census Report.

4. An account of how the Census was taken and a description of the definitions and concepts followed will be found in Part II-A of the Maharashtra Census Report. The material presented here relates to the 1st March 1961, which was the reference date fixed for the Census and which very closely approximated the completion of the Second Five-Year Plan. An analysis of this material will be found in the Introductory Note on the district at the beginning of this volume.

5. The following paragraphs contain brief notes on the tables included in this Part. Concepts and definitions of terms used are briefly described in the notes on the tables where those terms first appear in the Series. Each table starts with the entries for the district and the talukas follow in the order of their code numbers fixed by their geographical locations for purposes of the 1961 Census.

A SERIES

GENERAL POPULATION TABLES

6. There are four General Population Tables and three Appendices in this Series. They are the basic population tables. They will be useful to study the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the district.

Table A-I

7. This table presents area, density, number of villages and towns, occupied residential houses and population total, males and females. Material is presented for the district and for each taluka (Tahsil or Mahal) for total, rural and urban areas separately. Towns are shown immediately after the entries of the taluka in which they are situated.

8. A town or an urban area is a place which has a municipality, a cantonment or a civil line or a population of 5,000 or over and at least 3/4 ths of male population dependent on non-agricultural pursuits. A population enumerated in urban areas is urban population and the population enumerated in all other places is rural population. Total includes the population of both urban and rural areas.

9. Area figures have been obtained through Revenue and Municipal Officers. Rural area is the difference between the Total and the Urban areas. The area figures for the district have been obtained from the Director of Land Records.

10. The term "village" has been explained in paragraphs 4 and 5 of the Explanatory Note to Part I.

11. The figures for number of occupied residential houses include houses used partly as dwellings and partly for some other purpose like shop, workshop, factory, etc., but do not include vacant residential houses where no person was found to be residing at the time of the Census.

Appendix I

12. This shows the territorial changes that have taken place during the decade. Units which had some change in area in the decade are only shown here.

Appendix II

13. This shows the number of villages which in spite of a population of 5,000 or over have not been treated as towns and the number of towns which have less than 5,000 population but which have been treated as towns only because they have Municipalities. Columns (4) and (7) show the percentage of populations in villages of over 5,000 and towns of less than 5,000 to the respective rural or urban populations of the district or the taluka concerned.

Appendix III

14. *Houseless Population.*—Houseless persons were enumerated in all areas on the night of 28th February 1961. These include: (i) persons who might be doing domestic service or some other work with one or more households but who do not reside in any house and sleep in the corridors, verandahs or passages in buildings or on the streets; (ii) wandering or nomadic tribes found to be staying in temporary huts, rahooties, etc., or residing without any such huts just on the open grounds; and (iii) beggars, vagrants, tramps, sadhus, fakirs, lepers, etc., who are found on the footpaths, streets, otlas, in places like parks, gardens, seashore, railway yards, etc.

15. *Institutional Population* includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

Table A-II

16. This table presents population of the district for the seven Censuses from 1901 to 1961 and the variation by actual figures and percentages. Population figures for 1951 and 1961 and variation during the decade are presented for each taluka separately. The population figures for earlier Censuses shown in the table have been adjusted for the boundaries or areas of the district and talukas as they existed at the time of 1961 Census.

Table A-III

17. This table gives for the district and each taluka the distribution of inhabited villages classified by seven population size groups which are: (i) less than 200; (ii) 200—499; (iii) 500—999; (iv) 1,000—1,999; (v) 2,000—4,999; (vi) 5,000—9,999; and (vii) 10,000 and above.

18. Hamlets are included in the village. The classification here is on the basis of the combined population of the village and its hamlets if there are any. In other words, the classification is not strictly according to the size of each individual nucleus of rural population but is based on the size of population of the revenue village which may in some cases be a single nucleus of population and in others a group of two or more scattered localities.

Table A-IV

19. This table shows the growth of each town since 1901. It shows population for each town for the last seven Censuses. Towns are presented in the following six classes classified by their population in 1961. Within a class, the names of towns are arranged in the order of population:

Class I	..	100,000 and over.
Class II	..	50,000 to 99,999.
Class III	..	20,000 to 49,999.
Class IV	..	10,000 to 19,999.
Class V	..	5,000 to 9,999.
Class VI	..	Less than 5,000.

20. Where two or more towns are adjacent and together form a compact urban unit, the entire town group is classified with reference to the combined population of the group. In such cases, the total population of the group is shown along with the population of each of its constituent towns.

21. Where a town was not treated as a town in some earlier Census, its population at that Census had been included in rural population. It is not presented here as the table presents figures of urban population only.

22. The total urban population of the district and its variation in the last sixty years are shown at the beginning of the table.

B SERIES

(i) GENERAL ECONOMIC TABLES

23. There are 16 Tables in this Series showing the distribution of population by economic activity correlated with sex, age and educational levels. The classification by economic activity is first by workers and non-workers. The workers are then classified in nine broad categories of economic activity. A more elaborate classification of workers by industry under the Standard Industrial Classification Scheme is presented in Tables B-IV-A, B and C and by occupation under the National Occupational Classification in Table B-V. Two Tables B-VII-A and B-VII-B show the classification of workers by secondary work. The last three tables present distribution of non-workers by sex, age and eight broad classes.

24. In the 1951 Census Reports, the population was classified into eight livelihood classes and each class was further divided with reference to economic status into—

(i) self-supporting persons ;

(ii) earning dependents ; and

(iii) non-earning dependents.

25. The concept of dependency has been abandoned for economic classification at the 1961 Census. Instead, the population is classified into workers and non-workers. The emphasis is now on work and not on income or economic dependence.

26. A person is classified as worker if—

(*a*) in case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season ; and

(*b*) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

27. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

28. "Work" includes not only actual work but effective supervision and direction of work also.

29. Persons under training as apprentices with or without stipend or wages are regarded as workers.

30. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, etc., or any such work she has been treated as a worker.

31. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce.

32. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

33. The population classified as workers here is the economically active population including family workers but not including unemployed persons.

34. The Census Questionnaire did not have any question to determine the extent of full employment or under-employment.

35. Classification of workers doing two or more different types of work, has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

Primary Census Abstract

36. This table shows 1961 summary figures for the district and talukas, each for total, rural and urban areas separately. Similar details for each village, town and ward of a town are presented in Part I.

37. For each unit, the table shows area in square miles, number of occupied houses, number of households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and number of workers and non-workers. The workers are shown further classified for nine categories of economic activity.

38. Column (5) shows the number of households for each unit. The " household " is slightly different from a " family ". A " household " is a group of persons who commonly live together in the same house and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A domestic servant residing and eating at the employer's house is a member of the household. Similarly, a friend or a guest (related or unrelated) residing and eating with the host during the Census period is treated as a member of the (host) household. On the other hand, a son or a daughter residing in a hostel (may be in the same town) is not treated as a member of the household.

39. Columns (9) to (12) of the Primary Census Abstract show population of the Scheduled Castes and Scheduled Tribes, respectively, by males and females. The figures are related only to the two group totals of all Scheduled Castes and all Scheduled Tribes. Their break-up by individual Scheduled Caste or Scheduled Tribe will be found in Table SCT-I.

40. The limitations in coverage of these two groups may be mentioned here. The groups of Scheduled Castes or Scheduled Tribes do not include all backward castes or tribes living in the district. They include only the castes or tribes declared as Scheduled Castes or Scheduled Tribes in the district. In cases where a caste or a tribe is declared as a Scheduled Caste or a Scheduled Tribe for a specified area that caste or tribe has been separately presented only for that specified area and not for any other areas of the district.

41. Columns (13) and (14) show figures for literates and educated persons. A " literate " is a person who can both read and write a simple letter. Persons having higher education are also included in these figures. More material on literacy and education cross tabulated with age-groups is presented in Table C-III.

42. The workers are shown classified by sex and in the following nine categories of economic activity :—

I As Cultivator.
II As Agricultural Labourer.
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV At Household Industry.
V In Manufacturing other than Household Industry.
VI In Construction.
VII In Trade and Commerce.
VIII In Transport, Storage and Communications.
IX In Other Services.

Category I

43. This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work on land are also included persons who are engaged in supervision or

direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

Category II

44. All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

Category III

45. Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

46. A "Household Industry" is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. A household industry is not run on the scale of a registered factory. Thus, the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas, household industry is confined to the house.

47. A household industry relates to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader, doctor, barber, washerman or astrologer. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

Category V

48. "Manufacturing" includes all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as household industry.

Category VI

49. This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, waterways, reservoirs, etc.

Category VII

50. This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stocks and shares, insurance, moneylending, banking, etc.

Category VIII

51. This category includes workers engaged in transport activities by air, rail, road or water and in service incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as Posts, Telegraph, Telephones, Wireless Signalling, Information and Broadcasting are also included in this category.

J-1813-II—12-B—(Osmanabad)

Category IX

52. This category includes (i) Public utility services like electricity or gas or water-supply, sanitary services; (ii) Central, State or Municipal employees; (iii) Professional services; (iv) Trade or labour associations, Recreation services, etc.

Tables B-I and B-II

53. This combined table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by four broad age-groups. The material is presented for the district and each taluka as well as for total, rural and urban areas separately. Towns are also shown immediately after the entries of the talukas in which they are situated. For talukas which do not have any urban areas, entries are given only for totals which correspond to those for rural areas.

Table B-III

54. This table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by educational levels. Material for the district is presented for total, rural and urban areas separately while that for the talukas is presented only for rural areas. The classification by educational levels is more elaborate in the case of the urban areas. Classification by educational levels and age-groups will be found in Table C-III.

Industrial Classification

55. Industry of a worker is that branch of economic activity in which he is engaged in producing goods or services. Tables B-IV-A, B-IV-B, B-IV-C, B-VII-A and B-VII-B of the present Series and Tables B-XIII, B-XIV-A, B-XIV-B and B-XVI of the following Series show the distribution of workers by industry according to the Standard Industrial Classification which is reproduced as Appendix I to this note. For want of space it has not been possible to give description of each group of industry in the tables. They are shown only by industry codes in one, two or three digits as the case may be.

56. The nine categories shown in the Primary Census Abstract and Tables B-I, B-II and B-III conform to the industry divisions as follows :—

	Category	Industry Division
I	Cultivator	Minor groups 000, 001, 002, 003 and 004 from Division 0.
II	Agricultural Labourer ..	
III	Mining, Quarrying, etc.	Division 0 except minor groups 000 to 004 and Division 1.
IV	Household Industry ..	Division 0 except minor groups 000 to 004, Divisions 1, 2 & 3.
V	Manufacturing	Divisions 2 & 3.
VI	Construction	Division 4.
VII	Trade and Commerce ..	Division 6.
VIII	Transport, Storage and Communications.	Division 7.
IX	Other Services	Divisions 5, 8 and 9.

Table B-IV-A

57. This table gives the distribution of workers engaged in household industry by status of employment and by each division and major group (Appendix I) of household industry separately. Material is presented only for the district but for total, rural and urban areas separately. Major groups of household industry which do not have any workers in the district are not shown here. Columns (7) and (8) show the workers who work at their own household industry (i.e., who are either employers, single workers or family workers in those household industries). Columns (5) and (6) on the other hand show the workers who are working as employees in household industries not of their own.

Table B-IV-B

58. This table presents distribution of all workers (other than those working in categories I, II and IV) by industry divisions and major groups (Appendix I) and by employment status. Material is presented for the district only but for total, rural and urban areas separately. Classification of workers by employment status is in four classes " employer ", " employee ", " single worker " and " family worker ".

An " employer " is a person who employs other persons in order to perform economic activity in which he is engaged.

An " employee " is a person who usually works under some other person for salary, or wages in cash or kind.

A " single worker " is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone else, not even members of his household, except casually.

A " family worker " is a member who works, without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Table B-IV-C

59. This is a very important table as it gives the employment position in all sectors of economy in the district. It shows the distribution of all workers (other than those in categories I and II) by industry division, major groups and minor groups according to the Standard Industrial Classification (Appendix I). The number of workers against each division, major group or minor group, is further split up and shown separately for household industry and non-household industry. Material is presented only for the district but for total, rural and urban areas separately. Major or minor groups which do not have any workers in the district are not shown here.

Occupational Classification

60. Occupation of a worker is the function which he performs in any branch of economic activity (which is called his industry). For a clerk working in a textile mill, the industry is textile and occupation is clerical. For a person working as a driver on a bank's vehicle, the industry is banking and occupation is driver.

61. Tables B-V and B-VI show the distribution of workers by occupation according to the National Occupational Classification Scheme which is reproduced as Appendix II to this note.

Table B-V

62. This table presents the distribution of workers (other than those engaged in categories I and II) by occupational divisions and groups (Appendix II). For each division or group the workers are shown by a categorywise break-up of their industry. The material is presented only for the district but for total, rural and urban areas separately. Occupational groups which do not have any workers in the district are not shown in the table. For an occupational group which has all the workers in only one category of industry, only one line shows the total workers for that group as well as for that category of industry.

Occupational distribution of workers in the 1961 Census has been worked out and presented in Maharashtra Census Report, Part II-B (ii) even for Occupational families, i.e., up to three digits. For want of space it is presented here for occupational groups, i.e., up to two digits only.

Table B-VI

63. This table presents the distribution of workers (other than categories I and II) classified by sex, occupational divisions (Appendix II), broad age-groups and by educational levels. This table is presented only for the total urban area of the district.

Table B-VII-A

64. This table presents workers engaged as cultivators, agricultural labourers and at household industry classified by the nature of their secondary work. In case a worker is engaged in two or more kinds of work the one which consumes larger portion of his time (not necessarily earning a larger portion of his income) is treated as his principal work, another consuming second larger portion of his time is his secondary work. The secondary work is shown in the table classified only in three broad categories, viz., IV-Household Industry, I-Cultivator and II-Agricultural Labourer. Workers who may be engaged in secondary work in other categories, viz., III, V, VI, VII, VIII and IX are not shown in this table. The break-up of principal work in household industry by major industrial groups (Appendix I) is shown in column (1). It will enable analysis of workers engaged in secondary work by major branches of their principal work at household industry. The material is presented for the district only but for total, rural and urban areas separately.

Table B-VII-B

65. This table shows workers engaged in non-household industry categories III and V to IX as principal work and doing some additional work in household industry. The additional work in household industry is classified by industrial divisions (Appendix I) only. Similarly, the break-up of principal industry in column (1) is also by industrial divisions only. Workers engaged in the industry divisions shown in column (1), but who are doing additional work in any sector other than household industry are not shown in this table. Material is presented for the district only but for total, rural and urban areas separately.

Table B-VIII-A

66. This table presents the distribution of unemployed persons aged 15 and above by age-groups and educational levels. The number of unemployed have been further split up by persons seeking employment for the first time and persons employed before but now out of employment and seeking work. Material is presented only for the total urban area of the district. Such detailed information on the unemployed is compiled for the first time in the 1961 Census.

Table B-VIII-B

67. This table presents the distribution of unemployed aged 15 and above in rural areas of the district by educational levels. The break-up of educational levels is not as elaborate as in Table B-VIII (Part A) and classification by age-groups or by persons seeking employment for the first time, etc., is not shown in this table. As a compensatory factor, the material is presented for the rural area of the district and each taluka separately.

Table B-IX

68. This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers. Such information on the non-working population had never been compiled before. The material is presented for the district separately for total, rural and urban areas and for each taluka for rural areas only.

(ii) HOUSEHOLD ECONOMIC TABLES

69. Tables B-X to B-XVI present the economic activity of the households as units. They relate to—

(i) the size of or interest in land cultivated and/or the household industry conducted by the households; and

(ii) the number of family workers and/or hired workers working in either of the two activities separately or combined in both.

70. In the case of countries of such economic status as ours where not all the goods produced enter the money market and where much of what is produced is consumed by the family itself, presentation of information on economic activity of individuals alone is likely to be slightly misleading unless that information is supplemented by material relating to economic activity of the households as entities. Such information is presented here for the first time. These tables are prepared from the household schedules specially introduced for that purpose as one of the three Questionnaire forms in the 1961 Census. The tables have been prepared on a 20 per cent sample of all the households in the district drawn for rural and urban areas separately.

71. Cultivation here includes cultivation both as owners and tenants. Size of holding shown is also of Operational holding, i.e., land actually cultivated and does not include land owned but not cultivated by the household.

Table B-X

72. This table presents distribution of sample households by those—

(i) engaged neither in cultivation nor household industry;

(ii) engaged in cultivation only;

(iii) engaged in household industry only; and

(iv) engaged both in cultivation and household industry.

The material is presented for the district and each taluka for total, rural and urban areas separately.

Table B-XI

73. This is an important table. It shows the distribution of sample households engaged in cultivation classified by size of land and interest in land cultivated. Ten size-groups are shown horizontally while the interests in land are classified in three types, viz.—

(*a*) Entirely owned or held from Government.

(*b*) Entirely held from private persons or institutions for payment in money, kind or share.

(*c*) Partly held from Government and partly from private persons or institutions for payment in money, kind or share.

The material is presented separately for total, rural and urban areas of the district and only for rural areas of each taluka.

Table B-XII

74. This table shows the distribution of sample households engaged in cultivation classified by size of land cultivated and the total number of family workers and hired workers. The material is presented for the district for total, rural and urban areas separately and only for rural areas of each taluka.

Table B-XIII

75. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and by industry division and major group of the household industry (Appendix I). The table shows the

sizes of cultivation holdings and the branches of household industry for which the two household economic activities combine in varying degrees. The material is presented only for the district but for rural and urban areas separately.

Table B-XIV-A

76. This table shows the distribution of sample households engaged in household industry only by the number of workers engaged and by industry division and major groups of the household industry (Appendix I). Material is presented for the district only but for total, rural and urban areas separately.

Table B-XIV-B

77. This table shows the distribution of sample households engaged in household industry only classified by industry minor groups (Appendix I) for the household industry. The industry minor group is shown with a break-up in four-digit codes in column (1). *These four-digit codes are shown in Appendix III.* The material is presented for the district only but for total, rural and urban areas separately.

Table B-XV

78. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and the number of family workers and hired workers working in the two activities combined. The material is presented for the district for total, rural and urban areas and for each taluka only for rural areas separately.

Table B-XVI

79. This table shows the distribution of sample households engaged in household industry classified by the period for which the household industry is worked and by industry division and major groups (Appendix I) of the household industry. A further split-up of figures is shown for household industry combined with cultivation and without cultivation. The material is presented for the district only but for total, rural and urban areas separately.

C SERIES

SOCIAL AND CULTURAL TABLES

80. There are 11 tables in this Series dealing with Social or Cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Castes and Scheduled Tribes. The first two Tables C-I-A and C-I-B relating to Size and Composition of Households are prepared from the household schedules on a 20 per cent sample. All the other tables are prepared from individual slips and on a total count.

Table C-I-A

81. This table presents distribution of sample households classified by their size and by economic activity, i.e., by work in cultivation or household industry. Households working at cultivation are further classified by size of land holding. The material is presented only for the district but separately for total, rural and urban areas. Classification by economic activity as well as by size of land holding is presented only for rural areas and classification by size of the household is alone presented for total and urban areas. This table is prepared from household schedules on a 20 per cent sample. This table appears as Table B-XVII in Part III of the Maharashtra Census Report.

82. The classification by size is as one member, small (2 to 3), medium (4 to 6), large (7 to 9) and very large (over 10) households. By definition, a Census household is not the same as a family. The household also includes persons who are not members of the family but who were residing with the family during the Census period. This table will give a general idea of the family sizes as in the majority of families outsiders are not likely to be present.

Table C-I-B

83. This table presents distribution of population of sample households by heads of the households, spouses of heads of households, married relations, never married, widowed or divorced relations and unrelated persons. These details are also shown for sample households classified by economic activity, i.e., participation in cultivation or household industry. For cultivation, the sample households are further classified by size of land holdings. This table is prepared from the household schedules on a 20 per cent sample. Material is presented for the district only but for total, rural and urban areas separately. The classification of households by economic activity and size of land holding is, however, shown for rural areas only. This table is of sociological interest indicating the strength of the joint family system.

Table C-II

84. This table presents distribution of population by sex, age and marital status. Classification of age between 10 and 70 years is by five-year age-groups. The other two groups are 0—9 years and 70 and over. The entire population in 0—9 years age-group has been treated as never married and no further classification by marital status is shown against them. The material is presented only for the district but for total, rural and urban areas separately. From this table it may be ascertained whether proportions in various marital status groups have changed since the last Census and whether any trend is observed in age of marriage. A corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table is, however, prepared on a full count.

Tables C-III-A, B and C

85. These three tables present the distribution by age, sex, literacy and educational levels. Classification by age is by five-year age-groups up to 59 years. Classification by educational levels is the same as in Table B-III. It is more elaborate in the case of urban areas. Part A presents material only for the district total while Part B presents material for rural areas of the district and of each taluka separately. Part C presents material only for the district urban areas but with more elaborate classification by educational levels.

86. These tables are a measure of the growth of literacy in the total population as well as in the different age-groups since the last Census. They are also likely to furnish information on the spread of adult education. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. These tables have been prepared on a full count.

Table C-IV

87. This table presents distribution of the district population by single year ages both for males and females separately. Figures presented are based on the actual returns recorded in the Census, i.e., they have not been smoothed or adjusted for preferences for digits 0, 5, etc. The material is presented only for the district total.

88. This is an important demographic table which is used for computing mortality rates. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table has been prepared on a full count.

Table C-V

89. This table presents the distribution of population by mother-tongues. The figures are presented only for 9 top-ranking mother-tongues in the district. Figures for all the other mother-tongues have been shown combined in the group "Others". Mother-tongues are arranged in the alphabetical order. Material is presented for total, rural and urban areas for the district and each taluka separately. At the end material is also presented for each town separately. A foot-note is added to show the number of speakers in the district for each of the mother-tongues combined in the group "Others".

90. "Mother-tongue" is defined as a language spoken by the person's mother to the person in his childhood or mainly spoken in the house. Dialects have been included in the main languages on the basis of Grierson's Classification.

91. Another Table (C-VI) on bilingualism has been prepared in the 1961 Census. It is not included in this volume and may be found in Part II-C of the Maharashtra Census Report.

Table C-VII

92. This table presents distribution of population by religion. Eight main religions have been shown in their alphabetical order. All other religions returned in the Census are combined in the group "Others". Figures for various sects returned as religion during the Census have been combined with the main religions concerned.

Table C-VIII-A

93. This table presents the total population of Scheduled Castes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka separately. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Castes.

Table C-VIII-B

94. This table presents the total population of Scheduled Tribes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Tribes.

SCT, SC & ST SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

95. There are 11 Tables in this Series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. These classes of people are declared by the President's orders issued under Articles 341 and 342 of the Constitution of India as Scheduled Castes or Scheduled Tribes. Under Article 46 of the Constitution, the State has to promote, with special care, the educational and economic interests of the weaker sections of the people and in particular of the Scheduled Castes and Scheduled Tribes and has to protect them from social injustice and all forms of exploitation. For ensuring adequate representation to these classes, seats are also reserved for them in the House of the People, State Legislature and other elective bodies.

96. These special tables have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each Scheduled Caste and Scheduled Tribe separately.

97. These tables relate to economic activity, education, mother-tongue and classification of persons not at work. Material is presented for each Scheduled Caste and Scheduled Tribe separately. It will be useful information for formulating various schemes for their welfare.

98. Classification by Castes and Tribes is on the basis of returns recorded in response to question 5 (c) of the 1961 Census Questionnaire. Every person was asked if he belonged to one of the Scheduled Castes or Scheduled Tribes notified for the district and in case he belonged to one of or he was asked the name of his caste or tribe. Paragraph 40 above on the Primary Census Abstract explains the limitations of these castewise or tribewise figures. The population of Scheduled Castes shown here is much less than that for the district in 1951 as many persons from that group have returned their religion as Buddhist or Nav-Buddha, and under the Constitution, there can be Scheduled Castes only among Hindus and Sikhs and in no other religion.

99. Two more Tables SCT-II and SCT-IV on age, marital status and religion of the Scheduled Castes and Scheduled Tribes prepared in the 1961 Census are not presented here for want of space. They may be seen in Part V-A of the Maharashtra Census Report.

Table SCT-I-A

100. This table presents the distribution of Scheduled Castes population by economic activity. Material is presented for the total of all Scheduled Castes as well as for each Scheduled Caste separately. Scheduled Castes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents castewise break-up of the material presented in Table C-VIII (Part A). The last group of castes "not stated" is of persons who were returned as belonging to Scheduled Castes but in whose case the name of the Scheduled Caste concerned had not been stated in the Census.

101. Columns (28) to (31) present Scheduled Castewise figures of persons engaged in unwholesome occupations like tanning, currying of hides and skins and scavenging. The number of workers shown in these occupations as well as in any other category is on the basis of principal work. Persons engaged in cultivation or any other activity as principal work and also engaged in tanning, currying or scavenging as secondary work are not included in the figures of columns (28) to (31).

102. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

103. There are some more castes declared as Scheduled Castes for the district. They are not shown in this table because no one belonging to those castes was enumerated in 1961 Census in the district.

Table SCT-I-B

104. This table presents the distribution of Scheduled Tribes populations by economic activity. Material is presented for the total of all Scheduled Tribes as well as for each Scheduled Tribe separately. Scheduled Tribes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents tribewise break-up of the material presented in Table C-VIII (Part B). The last group of tribes "not stated" is of persons who were returned as belonging to Scheduled Tribes but in whose case the name of the Scheduled Tribe concerned had not been stated in the Census.

105. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

106. There are some more Scheduled Tribes declared as Scheduled Tribes for the district. They are not shown in this table because no one belonging to those tribes was enumerated in 1961 Census in the district.

Table SCT-III-A (i)

107. This table presents the distribution of each Scheduled Caste population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-A (ii)

108. This table presents the distribution of each Scheduled Tribe population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas. Since no Schedule Tribes were returned for Urban Areas this table is not presented.

Table SCT-III-B (i)

109. This table presents the distribution of population for each Scheduled Caste by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-III-B (ii)

110. This table presents the distribution of population for each Scheduled Tribe by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-V-A

111. This table presents the distribution of sample Scheduled Caste households of the district (Rural) by interest in land cultivated and by size of land cultivated. The interests in land cultivated are shown in three categories :—

(i) entirely owned or held from Government;
(ii) entirely held from private persons or institutions for payment in money, kind or share; and
(iii) partly held from Government and partly from private persons, etc.

Classification by size of land cultivated is the same as in the B Series household economic tables. Material here is presented only for the district rural and for all the Scheduled Castes as a group. The table is prepared from the household schedules on a 20 per cent sample.

Table SCT-V-B

112. This table for Scheduled Tribes (same as Part A) is presented only for the district rural. The table is prepared from the household schedules on a 20 per cent sample.

Table SC-I

113. This table presents the total non-working population of all the Scheduled Castes as a group classified by four categories of non-workers, viz.—

(i) full-time students;
(ii) persons seeking employment for the first time;
(iii) persons employed before but now out of employment and seeking work; and
(iv) others.

The non-working population is further classified by educational levels. The material is presented for the district only but for total, rural and urban areas separately.

Table ST-I

114. This table presents the distribution of population of each Scheduled Tribe by mother-tongue and the subsidiary languages spoken. Material is presented only for the district but for total, rural and urban areas separately. Scheduled Tribes are arranged in their alphabetical order and mother-tongues when there are more than one for any Scheduled Tribe are also shown in the alphabetical order.

Table ST-II

115. This table presents the total non-working population of each Scheduled Tribe classified by four categories of non-workers, viz.—

(i) full-time students;
(ii) persons seeking employment for the first time;
(iii) persons employed before but now out of employment and seeking work; and
(iv) others.

The material is presented for the district only but for total, rural and urban areas separately.

E SERIES

HOUSING TABLES

116. There are five tables in this Series. Four of them relate to housing conditions and furnish data on the purposes for which the houses are used, the tenures on which they are occupied by the households, material of construction of walls and roofs and the distribution of households by the number of rooms occupied. The last table relates to industries and shows the number of establishments and the number of workers for each industry classified by industry division, major groups and minor groups. Another Table (E-III) on industrial establishments prepared from the houselists gives a break-up by industry and the fuel used cross tabulated by the size of the establishments. It is not presented here for want of space. It may be seen in Part IV of the Maharashtra Census Report.

117. All the five tables of this Series are prepared from the houselists which were prepared at the time of numbering of houses in September-October of 1960. Such data on housing conditions are furnished here for the first time.

118. A "house" was defined for purposes of the Census as "a structure or part of a structure inhabited or vacant, a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., having a separate entrance. The entrance may be directly on the road, street, or lane or to a common staircase, courtyard or a gate".

Table E-I

119. This table presents the distribution of houses classified by uses to which they are put to. The various uses are shown in columns (4) to (16). Houses which were not being used for any purpose at the time of houselisting were treated as vacant. A "workshop" is a place where some kind of production, processing, repairs or servicing of goods goes on a commercial scale. Manufacturing or processing establishments registered under the Factories Act are treated as factories. When a house was used both as a shop and as a dwelling or workshop and as a dwelling it is treated as a shop-*cum*-dwelling or workshop-*cum*-dwelling. The houses which were used as schools, offices, factories or restaurants and also used by some people for residence, have been treated for purposes of this table as schools, offices, factories or restaurants and not as school-*cum*-dwelling, office-*cum*-dwelling and so on.

120. The last category of " Others " includes all purposes not included in columns (4) to (15) prominent among them being cattle-sheds, garages, show-rooms, locked houses, etc. Table E-I presents material for the district and each taluka and for total, rural and urban areas separately. The table is prepared from the houselists on a full count.

Table E-II

121. This table presents the distribution of sample households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. " Rent free " or " Caretaker " occupation is included in the " Rented " category. The houses occupied under each tenure are further classified by the nature of uses such as dwellings, shop-*cum*-dwellings, etc. Tenure of occupation of non-residential houses such as schools, hospitals, etc., is not shown here.

122. This table is prepared from the houselists and on a 20 per cent sample.

123. Material is presented for the district and each taluka and for total, rural and urban areas separately.

Table E-IV

124. This table presents distribution of sample houses used wholly or partly as dwelling by material of wall and material of roof. The material of wall is the material out of which most of the walls of the house are constructed. Where a house has separate portions each of different material, the material of the walls for this table is the one out of which the walls of the main bed-rooms are constructed. Similarly, the material of roof is one out of which most of the roof exposed to weather is constructed. In case of multi-storeyed buildings, the intermediate floor is treated as the roof of the lower storey.

125. Material is presented here for the district and each taluka and for total, rural and urban areas separately. This table is prepared from the houselists on a 20 per cent sample.

Table E-V

126. This table presents the distribution of sample households classified by the number of rooms occupied. For each class of households the total number of members of the households is shown by males and females separately. This will help measure congestion or overcrowding particularly in urban areas.

J-1813—II—13-A—(Osmanabad)

127. The table is prepared from the houselists on a 20 per cent sample. The material is presented for the district and each taluka and for total, rural and urban areas separately.

128. The table relates only to the family households. Institutional households like hostels, boardings, prisons, etc., are not shown here.

129. A " room " has four walls with a door and a roof overhead and is not less than $6' \times 6'$. Unenclosed verandah, kitchen, store, garage, cattle-shed, etc., though used for residential purposes are not treated as rooms. Households residing in such places are shown in columns (7) to (9) as having no regular room.

Table on Industrial Establishments and Workers

130. This is a very important table and presents the number of establishments and number of workers for each branch of industry classified by industry divisions and minor groups according to the Standard Industrial Classification (Appendix I) For each industry division, minor group figures are shown in the brackets first for the number of establishments and second for the number of workers.

131. The table is prepared from the houselists on a full count. Material is presented here for the district and talukas for total, rural and urban areas as well as *for each village and town* separately. The presentation is in the run-on style and the villages are shown both by their names and code numbers. These latter will help locate them in the taluka maps included in Part I. Villages which do not have any industrial establishments are not shown here. Similarly, for any village, town or taluka, the industry minor codes for which there are no establishments are not shown in the table.

132. The material presented here relates to September-October of 1960. Establishments where processing, repairing or servicing of goods is done are also included along with the manufacturing establishments. The number of workers shown here includes the proprietor and/or the other household members if any were working in the industry during the week preceding the enumerator's visit.

133. The list of industries presented here may not include some seasonal industries which were not actually working during the period when houselists were prepared, viz., September-October 1960.

APPENDIX I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into—

9 Divisions
45 Major Groups
343 Minor Groups

The divisions, major groups and minor groups with their code numbers are listed below—

DIVISIONS

0	Agriculture, livestock, forestry fishing and hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary Services
6	Trade and Commerce
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

MAJOR GROUPS

Division 0—Agriculture, livestock, forestry, fishing and hunting

00	Field produce and Plantation crops
01	Plantation crops
02	Forestry and Logging
03	Fishing
04	Livestock and Hunting

Division 1—Mining and Quarrying

10	Mining and Quarrying

Division 2 and 3—Manufacturing

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile—cotton
24	Textile—jute
25	Textile—wool
26	Textile—silk
27	Textile—miscellaneous
28	Manufacture of wood and wooden products
29	Paper and paper products
30	Printing and publishing
31	Leather and leather products
32	Rubber, Petroleum and coal products
33	Chemicals and chemical products
34-35	Non-Metallic Mineral Products other than petroleum and coal.
36	Basic Metals and their products except machinery and transport equipment.
37	Machinery (all kinds other than Transport) and Electrical equipment.
38	Transport Equipment
39	Miscellaneous Manufacturing Industries

Division 4—Construction

40	Construction

Division 5—Electricity, Gas, Water and Sanitary Services

50	Electricity and Gas
51	Water-supply and Sanitary Services

Division 6—Trade and Commerce

60—63	Wholesale Trade
64—68	Retail Trade
69	Trade and Commerce Miscellaneous

Division 7—Transport, Storage and Communication

70-71	Transport.
72	Storage and Warehousing
73	Communications

Division 8—Services

80	Public Services
81	Educational and Scientific Services
82	Medical and Health Services
83	Religious and Welfare Services
84	Legal Services
85	Business Services
86	Community Services and Trade and Labour Associations.
87	Recreation Services
88	Personal Services
89	Services (not elsewhere classified)

Division 9—Activities not adequately described

90	Activities unspecified and not adequately described (This includes new entrants to the labour market)

MINOR GROUPS

Major Group Code (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize.	000
	Production of pulses, such as arhar, moong, masur, urid, khesari, other gram.	001
	Production of raw jute and kindred fibre crops.	002
	Production of raw cotton and kindred fibre crops.	003
	Production of oilseeds, sugarcane and other cash crops.	004
	Production of other crops (including vegetables) not covered above.	005
	Production of fruits and nuts in plantation, vines and orchards.	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above.	009
01	*Plantation Crops—*	
	Production of tea in plantation ..	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium..	014
	Production of other plantation crops not covered above.	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests.	020
	Felling and cutting of trees and transportation of logs.	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forests.	023
	Production of fodder by exploitation of forests.	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests.	025
	Production and gathering of other forest products not covered above.	026
03	*Fishing—*	
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries.	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond.	032

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting—*concld.*	
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat.	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as pig.	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry-farming.	043
	Rearing of bees for the production of honey, wax and collection of honey.	044
	Rearing of silk worms and production of cocoons and raw silk.	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth.	048
	Division 1—Mining and Quarrying	
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone.	107
	Mining of chemical earth such as soda ash ..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt.	109
	Division 2 and 3—Manufacturing	
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, de-husking and processing of crops and food-grains.	200
	Production of sugar and syrup from sugarcane in mills.	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy.	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits.	203
	Slaughtering, preservation of meat and fish and canning of fish.	204
	Production of bread, biscuits, cake and other bakery products.	205
	Production of butter, ghee, cheese and other dairy products.	206
	Production of edible fats and oils (other than hydrogenated oil).	207
	Production of hydrogenated oils (Vanaspati) ..	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge.	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery.	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice.	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water ..	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco.	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms ..	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine.	239
24	*Textile—Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta.	244
25	*Textile—Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile ..	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom ..	263
	Weaving of silk textile by handloom ..	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine ..	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products.	270
	Manufacture of hosiery and other knitted fabrics and garments.	271
	Embroidery and making of crepe lace and fringes.	272
	Making of textile garments including raincoats and headgear.	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags.	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin.	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling.	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above.	279

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures.	283
	Manufacture of other wooden products such as utensils, toys, artwares.	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest.	286
	Manufacture of boxes and packing cases other than plywood.	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products.	288
	Manufacture of other wood and allied products not covered above.	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill.	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade.	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp.	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals.	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block-making and other work connected with printing industry.	302
	All types of binding, stitching, sizing and other allied work connected with binding industry.	303
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather.	310
	Manufacture of shoes and other leather footwear.	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur.	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles.	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear.	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose.	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat.	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries.	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere.	326

Major Group (Code) (1)	Description (2)	Minor Group (Code)
	Division 2 and 3—Manufacturing—*contd.*	
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids alkalis and their salts not elsewhere specified.	330
	Manufacture of dyes, paints, colours and varnishes.	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fireworks.	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap.	335
	Manufacture of soap and other washing and cleaning compounds.	336
	Manufacture of turpentine, synthetic resin and plastic products and materials (including synthetic rubber).	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats).	339
34	*Non-metallic Mineral Products other than Petroleum and Coal—*	
	Manufacture of structural clay products such as bricks, tiles.	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing.	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355.	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above.	357
	Manufacture of other non-metallic mineral products not elsewhere specified.	359
36	*Basic Metals and their Products except Machinery and Transport Equipment—*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods.	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms.	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate.	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can.	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products.	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*concld.*	
37	*Machinery (All kinds other than Transport) and Electrical Equipment—*	
	Manufa cture and assembling of machinery (other than electrical) except textile machinery.	37
	Manufac ture and assembling of prime mover and bo ilers, other than electrical equipment, such as diesel engines, road rollers, tractors.	371
	M anufacture of machine tools	372
	M anufacture of textile machinery and accessories.	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers.	374
	Manufacture of electric lamps and fans ..	375
	Manufactu,re of insulated wires and cables ..	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone.	378
	Manufacture of electric machinery and apparatus, appliances not specified above.	379
38	*Transport Equipment—*	
	Manufacture, assembly and repairing of locomotives.	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363.	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines).	382
	Manufacture of motor vehicles engines parts and accessories.	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear.	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines.	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines.	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles.	389
39	*Miscellaneous Manufacturing Industries—*	
	Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies.	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies.	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals.	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen.	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group.	399
	Division 4—Construction	
40	*Construction—*	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations.	400
	Construction and maintenance of roads, railway bridges, tunnels.	401
	Construction and maintenance of telegraph and telephone lines.	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells.	403

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	*Electricity and Gas—*	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers.	502
51	*Water-supply and Sanitary Services—*	
	Collection, purification and distribution of water to domestic and industrial consumers.	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation.	511
	Division 6—Trade and Commerce	
60	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere).	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products.	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water.	603
	Wholesale trading in intoxicants such as wines, liquors.	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products.	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder ..	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle.	611
	Wholesale trading in toilets, perfumery and cosmetics.	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware.	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings.	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products.	616
	Wholesale trading in petrol, mobil oil and allied products.	617
	Wholesale trading in other household equipment not covered above.	618
62	Wholesale trading in bricks, tiles and other building materials.	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products.	621
63	Wholesale trading in paper and other stationery goods.	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical.	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb.	632
	Wholesale trading in all kinds of transport and storage equipment.	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment.	636
	Wholesale trading in scientific, medical and surgical instruments.	637
	Wholesale trading in precious metals and stones, gold and silverware and jewellery.	638
	Wholesale trading in all goods not covered above.	639

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*contd.*	
64	*Retail Trade—*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry.	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water.	641
	Retail trading in intoxicants such as wines, liquors.	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products.	644
	Retail trading in fuel such as coke, coal, fire-wood and kerosene.	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, ready-made garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles).	650
	Retail trading in toilet goods, perfumes and cosmetics.	651
	Retail trading in medicines and chemicals ..	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals.	653
	Retail trading in tyres, tubes and allied rubber products.	654
	Retail trading in petrol, mobil oil and allied products.	655
66	Retail trading in wooden, steel and other metallic furniture and fittings.	660
	Retail trading in stationery goods and paper..	661
	Retail trading in metal, procelain and glass utensils.	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above.	664
67	Retail trading in bricks, tiles and other building materials.	670
	Retail trading in hardware and sanitary equipment.	671
	Retail trading in wood, bamboo cane, bark and thatches.	672
	Retail trading in other building materials ..	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances.	680
	Retail trading in transport and storage equipments.	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and head-gear.	683
	Retail trading in clock and watch, eye glass, frame.	684
	Retail trading in scientific, medical and surgical instruments.	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing.	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous—*	
	Importing and exporting of goods and commodities.	690
	Real estate and properties	691
	Stocks, shares and futures	692

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*concld.*	
69	*Trade and Commerce Miscellaneous*—concld.	
	Providents and insurances	693
	Money-lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
	Division 7—Transport, Storage and Communication	
70	*Transport—*	
	Transporting by railways	700
	Transporting by tramway and bus service ..	701
	Transporting by motor vehicles (other than omnibus).	702
	Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka.	703
	Animal transporting by animals such as horses, elephant, mule, camel.	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving.	705
	Transporting by boat, steamer, ferry, etc., by river, canal.	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean.	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	*Services incidental to transport—*	
	Such as packing, carting travel agency.. ..	710
72	*Storage and Warehousing—*	
	Operation of storage such as warehouses ..	720
	Operation of storage such as cold storage ..	721
	Operation of storage of other type	722
73	*Communication—*	
	Postal, telegraphic, wireless and signal communications.	730
	Telephone communication	731
	Information and broadcasting	732
	Division 8—Services	
80	*Public Services* (This does not include Govt., quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups).	
	Public Services in Union and State army including territorial corps and volunteer corps.	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government.	804
	Public service in administrative departments and offices of quasi-Government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments.	809
81	*Educational and Scientific Services—*	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions.	810

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 8—Services—*contd.*	
81	*Educational and Scientific Services*—concld.	
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type.	811
	Scientific services and research institutions not capable of classification under any individual group.	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners.	820
	Veterinary services rendered by organisations and individuals.	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations.	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk.	831
	Welfare services rendered by organisation operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity.	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi.	840
	Matrimonial services rendered by organisations and individuals.	841
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals.	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals.	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies.	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors.	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations.	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library.	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures.	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals.	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing.	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks.	880
	Services rendered to households such as those by governess, tutor, private secretary.	881
	Services rendered by hotels, boarding houses, eating-houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities.	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services.	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shops.	884
	Services rendered by portrait and commercial photographic studios.	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified.	890
	Division 9—Activities not adequately described	
90	*Activities unspecified and not adequately described*—	
	Including activities of such individulas who fail to provide sufficient information about their industrial affiliation to enable them to be classified.	900
	Fresh entrants to the Labour Market.. ..	999

APPENDIX II

NATIONAL CLASSIFICATION OF OCCUPATIONS

A Code structure which classifies occupations into—

11 Occupational Divisions (one-digit code numbers)

75 Occupational Groups (two-digit code numbers)

Note.—n. e. c.=not elsewhere classified.

DIVISIONS

0 Professional, technical and related workers

1 Administrative, executive and managerial workers

2 Clerical and related workers

3 Sales workers

4 Farmers, fishermen, hunters, loggers and related workers

5 Miners, quarrymen and related workers

6 Workers in transport and communication occupations

7-8 Craftsmen, production process workers and labourers not elsewhere classified

9 Service, sport and recreation workers

X Workers not classifiable by occupations

DIVISIONS AND GROUPS

0 Professional, Technical and Related Workers

00 Architects, Engineers and Surveyors
01 Physicists, Chemists, Geologists and other Physical Scientists
02 Biologists, Veterinarians, Agronomists and Related Scientists
03 Physicians, Surgeons and Dentists
04 Nurses, Pharmacists and other Medical and Health Technicians
05 Teachers
06 Jurists
07 Social Scientists and Related Workers
08 Artists, Writers and Related Workers
09 Draughtsmen, Science and Engineering Technicians, n. e. c.
0X Other Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers

10 Administrators, and Executive Officials, Government
11 Directors and Managers, Wholesale and Retail Trade
12 Directors, Managers and Working Proprietors, Financial Institutions
13 Directors, Managers and Working Proprietors, Other

2 Clerical and Related Workers

20 Book-Keepers and Cashiers
21 Stenographers and Typists
22 Office Machine Operators
28 Clerical Workers, Miscellaneous
29 Unskilled Office Workers

3 Sales Workers

30 Working Proprietors, Wholesale and Retail Trade
31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
32 Commercial Travellers and Manufacturers' Agents
33 Salesmen, Shop Assistants and Related Workers
34 Money Lenders and Pawn Brokers

4 Farmers, Fishermen, Hunters, Loggers and Related Workers

40 Farmers and Farm Managers
41 Farm Workers
42 Hunters and Related Workers
43 Fishermen and Related Workers
44 Loggers and Other Forestry Workers

5 Miners, Quarrymen and Related Workers

50 Miners and Quarrymen
51 Well Drillers and Related Workers
52 Mineral Treaters
59 Miners, Quarrymen and Related Workers, n. e. c.

6 Workers in Transport and Communication Occupations

60 Deck Officers, Engineer Officers and Pilots, Ship
61 Deck and Engine-Room Ratings (Ship), Barge Crews and Boatsmen.
62 Aircraft Pilots, Navigators and Flight Engineers
63 Drivers and Firemen, Railway Engine
64 Drivers, Road Transport
65 Conductors, Guards and Brakesmen (Railway)
66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport
67 Telephone, Telegraph and Related Telecommunication Operators
68 Postmen and Messengers
69 Workers in Transport and Communication Occupations, n. e. c.

7-8 Craftsmen, Production Process Workers, and Labourers not elsewhere Classified

70 Spinners, Weavers, Knitters, Dyers and Related Workers
71 Tailors, Cutters, Furriers and Related Workers
72 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers
73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers
74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers
75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers
76 Electricians and Related Electrical and Electronics Workers
77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers
78 Painters and Paper Hangers
79 Bricklayers, Plasterers and Construction Workers, n. e. c.
80 Compositors, Printers, Engravers, Book Binders and Related Workers
81 Potters, Kilnmen, Glass and Clay Formers and Related Workers
82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers
83 Chemical and Related Process Workers
84 Tobacco Preparers and Products Makers
85 Craftsmen and Production Process Workers, n. e. c.
86 Testers, Packers, Sorters and Related Workers
87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers
89 Labourers, n. e. c.

9 Service, Sport and Recreation Workers

90 Fire Fighters, Policemen, Guards and Related Workers
91 House Keepers, Cooks, Maids and Related Workers
92 Waiters, Bartenders and Related Workers
93 Building Caretakers, Cleaners and Related Workers
94 Barbers, Hairdressers, Beauticians and Related Workers
95 Launderers, Dry Cleaners and Pressers
96 Athletes, Sportsmen and Related Workers
97 Photographers and Related Camera Operators
99 Service, Sport and Recreation Workers, n. e. c.

X Workers not Classifiable by Occupations

X0 Workers without occupations
X8 Workers Reporting Occupations Unidentifiable or Unclassifiable
X9 Workers not Reporting Occupations

APPENDIX III

Common Household Industries with their Industrial Code Numbers

Note—n. e. c.=not elsewhere classified

Industrial Code Number	Household Industry
	Major Group 00—Field Produce and Plantation Crops
005·1	Production of Vegetables
005·2	Production of roots, etc., not included above
006·1	Production of fruits and nuts in plantation, vines and orchards
006·2	Production of copra (from coconuts)
007·1	Production of thatching grass
007·2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass)
008·1	Production of juice (Neera) by tapping coconut trees
008·2	Production of juice by tapping other palms like date, Palmyra n. e. c.
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above
	Major Group 01—Plantation Crops
013	Production of tobacco in plantation
015·1	Pan Cultivation
015·2	Plantation crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan
	Major Group 02—Forestry and Logging
023·1	Production of Charcoal
023·2	Production of other fuels by exploitation of forests
024	Production of fodder by exploitation of forests
025·1	Production of Kathha
025·2	Production of Lac
025·3	Production of gum
025·4	Production of resins, barks, herbs, wild fruits, berries and leaves, etc., n. e. c.
026	Production and gathering of other forest products not covered above
	Major Group 03—Fishing
030	Production of fish by fishing in sea
031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries.
032	Production of pearls, conch shells, sponges, sea herbs, corals, etc., by gathering or lifting from sea, river, pond
	Major Group 04—Livestock and Hunting
040·1	Rearing of goat for milk and animal power
040·2	Rearing of buffalo for milk and animal power
040·3	Rearing of cows for milk and animal power
040·4	Rearing of camels and other big domestic animals
040·5	Production and rearing of livestock mainly for milk and animal power n. e. c.
041·1	Sheep breeding and rearing
041·2	Production of wool
042·1	Rearing and production of pigs and goats (mainly for slaughter)
042·2	Rearing and production of other animals (mainly for slaughter) n. e. c.
043·1	Poultry keeping and production of eggs
043·2	Rearing and production of ducks, hens, etc., and other small birds, *e.g.*, pigeons, parrots, peacock, maina, etc.
044·1	Bee keeping for production of honey and wax
044·2	Collection of wax and honey
045	Rearing of tassar/eri/mulberry and other silk worms and production of cocoons and raw silk
046·1	Dog breeding, rearing of rabbits and guinea-pigs
046·2	Rearing of other small animals and insects n. e. c.
048·1	Collection of bones
048·2	Manufacture of glue from animal carcasses.
048·3	Manufacture of gut
048·4	Production of other animal husbandry products such as skin, ivory, teeth and hair, etc.

Industrial Code Number	Household Industry
	Major Group 10—Mining and Quarrying
107·1	Extraction of chalk
107·2	Quarrying of lime-stone
107·3	Stone and slate quarrying
107·4	Quarrying of sand, clay, gravel, etc., n. e. c.
	Major Group 20—Foodstuffs
200·1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.
200·2	Hand pounding of rice by Dhekhi or Ukhal
200·3	Production of rice by milling, dehusking and processing of paddy by rice mill.
200·4	Grinding of chillies, turmeric, etc.
200·5	Production of pulses
200·6	Parching of grains
200·7	Production and processing of other crops and foodgrains n. e. c.
202·1	Gur and Khandsari making from sugarcane and palm
202·2	Production of bhoora and candy
202·3	Production of jaggery from coconut and palmyra juice (neera)
202·4	Production of other indigenous products from sugar and jaggery n. e. c.
203·1	Manufacture of achar, pickles, chutney and murabba
203·2	Production of sauce, jam and jelly
203·3	Processing of cashewnut
203·4	Manufacture of kokam products
203·5	Fruit preservation (canning of fruits)
203·6	Making dried vegetables
203·7	Production of other fruit products and preservation of fruits n. e. c.
204·1	Slaughtering, preservation of meat and fish and canning of fish
204·2	Fish currying or curing and salting (currying applies more to skin and hide)
205	Production of bread, biscuit, cake and other bakery products
206	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products
207	Oil pressing ghani, kolhu or by small machines
209·1	Confectionery
209·2	Making of sweetmeats, laddu, peda, barphi, batasa, etc.
209·3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.
209·4	Making of chura or chira, muri, murki, khoi
209·5	Making of chat
209·6	Making of dalmot, chanachur (jor) garam, rewari, etc.
209·7	Making of other food products for residuary snacks.
209·8	Production of other food products like cocoa, chocolate, toffee, lozenge
	Major Group 21—Beverages
210·1	Manufacture of vinegar from coconut juice (neera)
210·2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery
211	Production of country liquor from material obtained from sources other than trees and shrubs
212·1	Production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees
212·2	Production of other indigenous liquors from other materials from trees and shrubs
214·1	Production of mineral water
214·2	Production of aerated water such as sodawater, lemonade, etc.
215	Production of ice
216	Production of ice-cream, ice-candy or kulphimalai, milk-shake, etc.
218	Grinding of Coffee
219·1	Preparation of sharbats and squashes
219·2	Preparation of jeerapani
219·3	Production of other beverages n. e. c.

Industrial Code Number	Household Industry
	Major Group 22—Tobacco Products
220	Manufacture of bidi
221	Manufacture of cigars and cheroots
223	Manufacture of hookah tobacco
224	Manufacture of snuff
225	Manufacture of jerda, kimam, khaini and other chewing tobacco
226	Manufacture of other tobacco products n. e. c.
	Major Group 23—Textile—Cotton
230	Cotton ginning, cleaning, carding, pressing and baling
231	Cotton spinning (by charkha and takali)
233·1	Dyeing of cloth (cotton) and yarn
233·2	Bleaching of cloth (cotton) and yarn
233·3	Tie and dye (bandhani) of cloth and yarn
234	Cotton cloth weaving in powerlooms
235	Cotton cloth weaving in handlooms
236	Manufacture of khadi textile in handlooms
237	Printing of cloth (cotton)
238·1	Making of fishing net
238·2	Making of mosquito net
238·3	Making of other nets
239·1	Making of sacred thread
239·2	Making of thread, rope, cordage and twine (cotton)
	Major Group 24—Textile—Jute
240	Jute pressing and baling
241	Jute spinning and weaving of mats, asanis, etc.
242	Dyeing and bleaching of jute
244·1	Making of rope and cordage, out of hemp
244·2	Making of rope and cordage, out of jute
244·3	Making of rope by palm fibre
244·4	Making of rope by date palm fibre
244·5	Making of fibre, sunn-hemp fibre
244·6	Making of other products from jute and similar fibres such as hemp, mesta
	Major Group 25—Textile—Wool
350	Wool baling and pressing
251	Cleaning, sorting, carding, scouring and processing of wool
253	Spinning of wool by charkha or takali
254	Weaving of woollen cloth in powerloom such as blankets, asanis, etc.
255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.
256·1	Embroidery with various colours, combinations of various threads and art work in woollen textile
256·2	Shawls (with traditional borders)
	Major Group 26—Textile—Silk
261	Dyeing and bleaching of silk
262·1	Spinning of tussar, other than in mills
262·2	Spinning of eri, other than in mills
262·3	Spinning of silk, other than in mills n. e. c.
263·1	Weaving of Traditional silk (Atlas) by powerloom
263·2	Weaving of tussar by powerloom
263·3	Weaving of eri by powerloom
263·4	Weaving of silk and artificial silk in powerloom n. e. c.
264·1	Weaving of mashru, himroo, brocade, kinkhab by handloom
264·2	Weaving of silk and artificial silk in handloom n. e. c.
265	Printing of silk textile
266·1	Goaf making
266·2	Making of silk cordage, rope and twine n. e. c.
	Major Group 27—Textile—Miscellaneous
270·1	Making of durries
270·2	Making of carpets and druggets
270·3	Manufacture of other similar textile products n. e. c.
271·1	Making of hosiery goods such as banyans, socks, sweaters, mufflers, etc.
271·2	Making of nalas and azarbands
271·3	Making of parandas and chootelas

Industrial Code Number	Household Industry
	Major Group 27—Textile—Miscellaneous—*concld.*
271·4	Manufacture of hosiery and other knitted fabrics and garments n. e. c.
272·1	Embroidery and making of phulkari
272·2	Making of jari thread, zardoshi
272·3	Traditional embroidery
272·4	Patchwork embroidery
272·5	Lace garland making
272·6	Making of fringes and crepe laces
272·7	Making of kargota, main garlands, shell garlands, etc.
272·8	Making of other embroidery products n. e. c.
273·1	Making of cap, hat and other head-gear
273·2	Traditional garments
273·3	Chrochet work (bora caps)
273·4	Making of textile garments including raincoats and head-gears n. e. c.
274·1	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags, etc.
274·2	Making of newar
274·3	Manufacture of other made-up textile goods like mattress, quilt, rezai, etc., n. e. c.
275	Manufacture of waterproof textile products such as oil cloth, tarpaulin, etc.
276·1	Making of namda felt
276·2	Making of suzani (padded quilts)
276·3	Processing of coconut fibre for upholstery
276·4	Handicraft articles made of flax and fibre
276·5	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n. e. c.
277·1	Manufacture of coir matting, cactus fibre for ropes and rope making from coconut fibre
277·2	Making of brush, broom, etc., from coconut fibre
277·3	Coir spinning
277·4	Coconut curing
277·5	Other allied products of coir industry n. e. c.
278	Manufacture and repair of umbrellas
279·1	Making of daura (thread), batua, cotton thread, buttons
279·2	Manufacture of dolls and toys (rags and cotton)
279·3	Manufacture of other textile products not elsewhere classified
	Major Group 28—Manufacture of Wood and Wooden Products
280	Sawing, planing and milling of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows
283·1	Carpentry works concerned with repairs of agricultural implements (wood)
283·2	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures
284·1	Lecquerware (if on wood)
284·2	Manufacture of wooden utensils, artware and decorative wooden boxes (patras)
284·3	Manufacture of wooden toys
284·4	Sandalwood and other wood carving
284·5	Bead making from wood
284·6	Sawdust and plaster figure making
284·7	Marquetry boxes (inlay work)
284·8	Manufacture of photo frames and framing of photo paintings, etc.
284·9	Manufacture of other wooden products n. e. c.
285	Manufacture of match splinters, plywood and veneers
287	Manufacture of boxes and packing cases other than plywood
288·1	Making of box from moonj grass
288·2	Making of rope mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes
288·3	Making of mats, handfans and umbrellas from palm leaves
288·4	Making of sirki, moora and chhaj
288·5	Making of baskets and broomsticks
288·6	Making of donas (drone) and pattals (patravali) from leaves

J-1813—II—14-B (Osmanabad)

Industrial Code Number	Household Industry
	Major Group 28—Manufacture of Wood and Wooden Products—*concld.*
288.7	Caning at chairs.
288.8	Making of chicks, cuscus-tati and fans, sticks and poles from bamboo
288.9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n. e. c.
289.1	Making of sticks and poles from wood
289.2	Making of wooden kharaus and other wooden sandals
289.3	Making of cartwheels
289.4	Manufacture of other wood and allied products n. e. c.
	Major Group 29—Paper and Paper Products
291	Manufacture of pulp and paper by hand
292.1	Making of envelopes and paper bags
292.2	Papier mache articles
293.3	Making of kite
292.4	Paper decorations for homes
292.5	Making of card-board boxes and cards
292.6	Making of paper toys
292.7	Making of paper flowers, etc.
292.8	Manufacture of other paper products from paper, paper board and pulp n. e. c.
	Major Group 30—Printing and Publishing
301	Printing and publishing of books.
302.1	Printing works, printing of handbills, invitation cards, etc.
302.2	Lithography, engraving, etching, block making, type cutting and other work connected with printing industry
303	Book binding, stitching, sizing and other work connected with book binding industry
	Major Group 31—Leather and Leather Products
310.1	Flying, processing of hides and skins including taxidermy
310.2	Currying, tanning and finishing of hides and skins, preparation of finished leather
310.3	Stuffed animals.
311.1	Making of leather boots, shoes or chappals (slippers, sandals)
311.2	Making of Poola shoes
311.3	Manufacture of other footwear n. e. c.
312	Making of clothing and wearing apparel (except footwear), made of leather and fur
313	Manufacture of leather products such as leather upholstery suit cases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (Kos.), charsa and other articles
314	Repair of shoes, chappals and other leather footwear
315	Repair of all other leather products except footwear
	Major Group 32—Rubber, Petroleum and Coal Products
320	Vulcanising tyres and tubes
321	Manufacture of chappals from torn tyres and other rubber footwear
322	Manufacture of rubber products from natural and synthetic rubber including raincoats, oil cloths, waterproof cloths, etc.
	Major Group 33—Chemicals and Chemical Products
331.1	Manufacture of dyes, paints, colours, abir, sindoor, varnish, etc.
331.2	Manufacture of indigo
332	Manufacture of fertilizer (including from bones).
333	Manufacture of fireworks and other explosives such as *pataka*, etc.
334	*Manufacture of matches*
335.1	Manufacture of incense and perfumes.
335.2	Manufacture of Agarbatti
335.3	Manufacture of rose water
335.4	Manufacture of powder, snow cream, bindi, tikali, hair oil and nail polish
335.5	Manufacture of kum kum and hinglo
335.6	Manufacture of mascara and kajal

Industrial Code Number	Household Industry
	Major Group 33—Chemicals and Chemical Products —*concld.*
335.7	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations
335.8	Manufacture of perfumes, cosmetics and other toilet preparation n. e. c.
336.1	Manufacture of soap and washing soda.
336.2	Manufacture of other washing and cleaning compounds n. e. c.
337.1	Manufacture of plastic toys
337.2	Making of plastic buttons
337.3	Manufacture of other plastic goods
337.4	Making of celluloid goods
337.5	Manufacture of turpentine, synthetic resin and other materials n. e. c.
338	Salt production.
339.1	Manufacture of ink including fountain pen ink.
339.2	Making of candles
339.3	Making of tooth powder
339.4	Making of boot polish and inedible oils, etc.
339.5	Manufacture of other chemicals products n. e. c.
	Major Group 34-35—Non-metallic Mineral Products other than Petroleum and Coal
340.1	Making of bricks
340.2	Manufacture of roofing tiles
340.3	Manufacture of other clay products n. e. c.
341.1	Manufacture of cement door frames and sanitary fittings
341.2	Manufacture of cement jali and tiles
341.3	Making of cement statues
341.4	Making of cement products n. e. c.
342.1	Manufacture of lishu
342.2	Manufacture of lime
343.1	Stone carving
343.2	Marble carving
343.3	Granite carving
343.4	Manufacture of other structural stone goods, stone dressing and stone crushing n. e. c.
344	Making of chakki, chakla, silaut, lorha, jainta, utensils and other articles from stone
345	Manufacture of stone images and toys.
346.1	Making of images from soap stone.
346.2	Manufacture of images, toys and other articles of plaster of paris
348.1	Mica splitting
348.2	Manufacture of mica products, including mica grinding
350	Making of earthenware such as pottery, etc.
351	Manufacture of crockery
353.1	Making of glass bangles
353.2	Making of glass beads
353.3	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)
354	Manufacture of Laboratory glass apparatus.
355	Making of clay models, earthen images, busts and statues
356.1	Making of earthen toys and artware
356.2	Decorative ceramics
357	Manufacture of glass and glass products except optical and photographic lenses
	Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment
360.1	Re-rolling of M. S. Rods
360.2	Manufacture of iron and steel including smelting, refining, rolling, etc., such as billets, blooms, tubes, rods n. e. c.
362	Manufacture of arms and weapons and their repair service
364	Manufacture of iron and steel furniture.
365.1	Making of utensils of brass and bell metal
365.2	Making of brassware
365.3	Making of bottom part of hookha from brass and bell metal

Industrial Code Number	Household Industry
	Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment—*concld.*
365·4	Making of brass and bell metal ornaments
365·5	Making of other brass and bell metal products n.e.c.
366·1	Making of aluminium utensils
366·2	Making of other aluminium products n. e. c.
367·1	Making of tin utensils
367·2	Making of articles from tin sheets
367·3	Copper utensils
367·4	Bronze works including bronze images, medals and articles of alloys
367·5	Manufacture of other metal products (excluding iron, brass, bell metal, aluminium) n. e. c.
368·1	Lacquerware (if on metal)
368·2	Nickel plating and electroplating
368·3	Engraving, embossing, polishing and welding of metal products
368·4	Enamelling and galvanizing of metal products
368·5	Plating and electroplating of metal n. e. c. including silverplating, goldplating, E. P. N. S., etc.
369·1	Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc.
369·2	Manufacture of light engineering goods including bolts and screws
369·3	Making of iron utensils (*e.g.*, buckets, etc.) and articles from iron sheets
369·4	Making and repairing of locks and trunks
369·5	Cutlery
369·6	Manufacture of pins
369·7	Manufacture of scales, weights and measures
369·8	Foundry Industry (including blacksmithy)
369·9	Manufacture of other sundry hardware such as G. I. pipe, wire net, etc., n. e.c.
	Major Group 37—Machinery (All kinds other than Transport) and Electrical Equipment
370	Manufacture of mechanical water pumps, tube well pumps, air pumps, etc.
372	Manufacture of small machine tools and machine parts
373	Manufacture of sewing machine parts
375	Repairing and servicing of fans
376	Manufacture of insulated wires
377·1	Manufactre of storage batteries
377·2	Manufacture of charging batteries
377·3	Manufacture of other batteries n. e. c.
378	Repairing and servicing of radios
379·1	Manufacture of domestic electrical appliances
379·2	Repairing and servicing of electrical apparatus, heaters, oven, etc.
	Major Group 38—Transport Equipment
382	Manufacture of body of trucks and buses including carpentry and joinery work involved
384	Repairing and servicing of automobiles

Industrial Code Number	Household Industry
	Major Group 38—Transport Equipment—*concld.*
385·1	Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc.
385·2	Manufacture of rickshaw parts
386	Manufacture of boats and barges
388	Repair of cycle and rickshaw
389	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki, cab, wheelbarrow, handbarrow, etc.
	Major Group 39—Miscellaneous Manufacturing Industries
390·1	Repair of spectacles
390·2	Manufacture of small photographic equipment
390·3	Manufacture of optical and photographic equipment n. e. c.
391	Manufacture of scientific goods
392	Repairing and servicing of watches and clocks
393·1	Inlay work with ivory and brass
393·2	Goldsmithy
393·3	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones.
393·4	Silver artware, including Silver repousse work on copper (such as in Tanjore) and silver images.
393·5	Silver filigree industry.
393·6	Manufacture of gold and silver leaves.
393·7	Gold covering work (fancy jewellery)
393·8	Bidriware industry
393·9	Manufacture of jewellery, silverwares, etc., n. e. c.
394	Manufacture, repairing and tuning of musical instruments such as harmonium, tabla, sitar, bansuri, etc.,
395·1	Manufacture of chalk pieces
395·2	Making of slate and slate pencil
395·3	Making of rubber stamps
395·4	Manufacture of fountain pen parts
395·5	Manufacture of other stationery articles such as pencils, penholders, etc.
396·1	Manufacture of deshi sports goods such as lezzim and dumbells.
396·2	Making of rubber balls and balloons
396·3	Manufacture of other sports goods n. e. c. bats, rackets, balls, etc.
399·1	Making of tikka and cowdung cakes
399·2	Making of beads from conch shells and horn goods
399·3	Making of traditional objects such as Orissa, Mysore and Tanjore paintings, etc.
399·4	Making of lac bangles
399·5	Making of buttons (bone, shell, ivory)
399·6	Making of gangavan (making of wig from human hair).
399·7	Making of garlands from flowers, camphor, sandalwood shavings, seeds and other materials like beads, etc.
399·8	Repair of petromax lights, etc.
399·9	Making and repairing of goods n. e. c.

J-1813—III—27-B (Osmanabad)

EXPLANATORY NOTE

The scope of the 1961 District Census Handbooks has been enlarged to include in this Part, Official Statistics on climate and rainfall, agriculture, industry, education, health and a few other topics. The material presented here was mainly collected and compiled by the District Statistical Officer, for this volume. The concerned Departments of the State and Central Governments have also been consulted. For most of the Tables the footnotes show the sources from which the material has been obtained.

2. There are 33 Tables in this Part. They may be broadly grouped as follows :—

(1) Climate and Rainfall—Tables 1 and 2.
(2) Agriculture—Tables 3 to 10.
(3) Industries—Tables 11 to 14.
(4) Education—Tables 15 and 16.
(5) Public Health—Tables 17 to 19.
(6) Miscellaneous—Tables 20 to 33.

(1) CLIMATE AND RAINFALL

Table 1

This table presents the highest and the lowest temperatures recorded at one or more stations in the district for all the 12 months for the years 1951 to 1960. Annual averages are shown in the last column. However this table is not printed for this district.

Temperature data are maintained by the Meteorological Department and are published in their monthly weather reports and their summary which is published annually.

Table 2

This table shows monthly and annual rainfall and the number of rainy days for the various stations in the district. "Normal rainfall" [column (28)] is the average rainfall over a long period—usually 80 years. Where rainfall records over such a long period are not available it may be the average for a shorter period—in some cases even five years. Rainfall records are maintained at taluka headquarters, dispensaries and a few police stations where rain-gauges have been supplied. These statistics are published in Part III of the State Government Gazette and Annual Season and Crop Reports issued by the Department of Agriculture. They are subsequently consolidated and issued by the Meteorological Department in two annual publications, *viz.*, " Daily Rainfall of India " and " Monthly Rainfall of India".

Rainfall statistics are presented in this table separately for each of the ten years from 1951 to 1960.

(2) AGRICULTURE

Table 3

This table shows the utilisation of land and areas under various crops. Material is presented for the district as a whole and for each taluka separately. It is presented for ten years 1950-51 to 1959-60 :

(i) *Geographical area* : This area represents the total land area and is worked out from the Survey and Settlement Records. The changes in the geographical area from year to year may be due to territorial changes or corrections on account of adjustments in the areas of former unsurveyed villages which are now surveyed ;

(ii) *Forests* : This category includes all areas actually under forests whether State-owned or private and classed or administered as forests under any legal enactment dealing with the forests ;

(iii) *Barren and unculturable land* : This includes barren and unculturable lands like mountains, river beds, etc. (land which cannot be brought under cultivation unless at a very high cost) ;

(iv) *Culturable waste* : This includes lands which can be brought under cultivation but which have not been cultivated or having been cultivated for some time have not been cultivated successively for more than five years. Such lands may either be fallow or covered with shrubs ;

(v) *Permanent pastures and other grazing lands* : This includes all grazing lands whether they are permanent pastures and meadows or not ;

(vi) *Miscellaneous tree crops and groves not included in the net area sown* : This category includes lands under casuarina trees, thatching grass, bamboo bushes or other trees used for fuel, etc. Lands which are not included under orchards are included in this class. These are lands which are put to some agricultural use but whose area is not included in the net area sown ;

(vii) *Current fallows* : This includes lands which are left fallow during the current year only ;

(viii) *Other fallow land* : All lands which have been cultivated but which are temporarily out of cultivation for a period of not less than one year and not more than five years;

(ix) *Net area sown*: The net area sown is the actual area under crops counting areas sown more than once in the same year only once ;

(x) *Gross cropped area*: This is the sum of areas under all crops and represents the sum of net area sown and area sown more than once in the year.

After the land utilisation statistics under section A in column (1) the table presents in section B the details of areas under different crops. The crops are classified in two main groups, *viz.*, foodcrops and non-foodcrops. Foodcrops are further grouped by "cereals, pulses and others". Non-foodcrops are similarly shown under "oilseeds and others".

The data on land utilisation and areas under crops are primarily prepared by the village officials of the Revenue Department. They are subsequently consolidated by the Agriculture Department.

Talukawise land utilisation and crop statistics are being presented for the first time in this volume. They have not been published so far anywhere else.

Table 4

This table presents gross and net irrigated areas and the distribution of net irrigated area by sources of irrigation. To facilitate comparison, the gross cropped area is also shown in column (3). The data are presented for three years, *viz.*, 1950-51 1956-57 and 1959-60. Presentation is for the district as a whole and for each taluka separately.

Table 5

This table shows the acreages of various crops under irrigation for each year from 1950-51 to 1959-60. To facilitate comparison, the gross cropped area and the gross irrigated area are presented in the beginning. This is followed by acreages under irrigation for each crop.

The material is presented for the district as a whole and for each taluka separately.

Sources for the district and talukawise material are different and there may, therefore, be a few small discrepancies between the two sets of figures.

Table 6

This table presents the outturn and average yields per acre of principal crops in the district. The crops presented are foodcrops like rice, wheat, jowar, bajri, ragi, maize, tur, gram and sugarcane and non-foodcrops like groundnut, sesamum, cotton and tobacco. Crops which are locally important are only shown in this table.

The outturn figures are in hundred tons while average yields are shown in pounds per acre.

The estimates of average yields and production in respect of rice, bajri, kharif and rabi jowar, wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted annually by the Agriculture Department. The estimates of yields for other remaining crops are based on the anna valuation figures and normal yields reported by the Revenue Officers. The figures relate to the years 1950-51 to 1959-60.

Table 7

This table presents wholesale prices of principal crops. The material is presented for previous years by monthly averages and for the last year separately for each month. The prices shown are for the places having regulated markets or for the District Headquarters.

Table 8

This table presents harvest prices of principal crops. The "harvest price' is the average wholesale price at which the commodity is disposed of by the producer to the trader at the village site during the specified harvest period. These prices are published in the Season and Crop Reports. The figures relate to the years 1950-51 to 1959-60.

Table 9

This table presents figures for livestock and agricultural implements for the district and each taluka separately for three years : 1951, 1956 and 1961. The material is obtained from the three Livestock Censuses conducted in those years. The reference date to which the data relate is the 15th April of the concerned year.

"Poultry" in section B of the table includes hens, cocks, chicken, ducks, drakes and ducklets.

Section C presents statistics for agricultural implements. The figures for carts shown in the table are in respect of carts used for agricultural purposes only.

The number of tractors is inclusive of those owned by the Government and those owned by private persons.

The material is presented for the district as a whole and for each taluka separately.

Table 10

This table presents the distribution of the number of land holdings and their areas by size of holdings. The material has been taken from the census of agricultural holdings conducted in the year 1952-53 or 1953-54 in different parts of the State.

The figures presented here are for ownership holdings and the area figures are in terms of converted dry acres, *i.e.*, calculated after giving due weightage for irrigated lands.

Where the district has undergone major changes because of the reorganisation of States in 1956 or 1960, the material relates to the area of the district as it existed in the year 1952-53 or 1953-54.

(3) INDUSTRIES

Table 11

This table presents, for each industry, the total number of working factories, the number of man-days for which they worked during the year and the average daily number of workers employed classified by adults (18 years and above), adolescents (15 to 17 years) and children (14 or less). Statistics presented in columns (3) to (11) relate only to the reporting factories. The number of non-reporting factories and their estimated average daily number of workers are shown in columns (12) and (13). These details of factories are further split up by the type of industry shown under column (1) both by industry code and a brief description. The industry codes shown here (as well as in Table 12) are those used for compilation of data by the Chief Inspector of Factories. They are different from the Standard Industrial Classification used in the Census Tables and reproduced in Appendix I to the Explanatory Note to Part II.

The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

The word " factories " here includes only the registered factories. They are of three types—

(i) Factories using no power but employing 20 or more workers;

(ii) Factories using power and employing 10 or more workers; and

(iii) Factories not covered by (i) and (ii) above but notified by the Government as covered by the Factories Act.

The material presented in this table is for all the three types combined.

Table 12

This table presents the distribution of factories for each type of industry by size of employment. For each size group, the number of factories and their total working strength are shown for each industry separately. The material is presented only for the district as a whole and only for one year, *viz.* 1961.

Table 13

This table presents the distribution of factories for each type of industry by the number of days worked during the year. The material is shown for each industry and the number of factories and their total workers are shown for each group of working periods. This will show the seasonal or perennial pattern of employment in industries in the district. Material is presented only for the district as a whole and relates to the year 1961.

Table 14

This table presents a summary of data regarding the manufacturing industries as obtained through the annual Census of Manufacturing Industries conducted during the year 1958.

The 1958 Census had covered only 29 important industries. It moreover covered only the factories using power and employing 20 or more workers.

The figures for capital, etc., relate to 31st December 1958. "Value" added by manufacture denotes the increase in the total value of commodities as calculated by deducting the cost of materials, supplies, containers, fuel, electric energy and depreciation of fixed assets from the total value of the products.

The table presents only the combined figures for the 29 industries covered in the 1958 Census. However this table is not printed for this district.

(4) EDUCATION

Table 15

This table shows the number of different types of educational institutions in the district and the total number of pupils (boys and girls) and teachers for each type for the years 1951, 1956 and 1961. The material is presented for the district as a whole and for each taluka separately.

The number of institutions relates to the academic year ending June and the number of pupils is as on 31st March of the respective years.

Table 16

This table presents a list of colleges and high schools in the district with their locations. The material relates to 31st March 1961, and does not include institutions started after that date.

Lists are presented talukawise.

(5) PUBLIC HEALTH

Table 17

This table shows medical facilities available in the district. The material is presented for three years 1950, 1955 and 1960 and shows the number of hospitals, maternity homes, dispensaries, rural health centres, doctors, nurses, beds available and indoor and outdoor patients treated.

Material is presented for each taluka separately.

The material presented here includes only civil hospitals and Government dispensaries, Local or Municipal Funds institutions, private-aided or Railway dispensaries. It does not cover private unaided institutions run by individuals or associations. Similarly, the number of doctors, nurses or patients shown in this table does not include that relating to unaided hospitals, dispensaries or private practitioners.

Table 18

This table shows data about births, deaths and infant deaths for the years 1951 to 1960. Wherever possible, figures for each taluka are also shown separately. For the districts of Aurangabad and Nagpur divisions, material is available and presented only for the years 1957 and onwards.

The figures of infant deaths relate to deaths of children below one year.

The coverage and reporting on births, deaths and epidemic diseases in the rural areas are incomplete in many respects. The material presented in Tables 18 and 19 should not, therefore, be treated as any accurate representation of actual conditions in the district and should be used only after allowing a margin for those limitations. The Department of Public Health is working on many schemes to improve the present position in respect of vital statistics.

Table 19

This table shows the number of deaths due to principal causes in the district for the 10 years 1951 to 1960. The causes of deaths shown are cholera, smallpox, plague, dysentery and diarrhoea, fever, respiratory diseases and other causes. The figures of fevers include deaths due to enteric fever, cerebro-spinal fever, malaria, influenza, typhus, etc. Respiratory diseases include pneumonia, pulmonary tuberculosis, whooping cough, etc. In the other causes are included diphtheria, chicken-pox, poliomyelitis, leprosy, cancer, deaths from child birth, etc.

(6) MISCELLANEOUS

Tables 20 to 31

Tables 20 to 31 are self-explanatory and need no further clarification.

Table 32

This table presents talukawise lists of weekly markets. The table also shows the day on which the weekly bazar is held. Places where cattle bazars are held are also indicated. The list is based on the information collected from the Mamlatdar's offices and the Census enumerators' reports, prepared in September-October 1960.

Table 33

This table gives a talukawise list of villages where different religious or cultural fairs are held. The list includes only those fairs which have a congregation of 1,000 or more. Information regarding—

(i) Location Code Number,
(ii) the name of the village in which the fair is held,
(iii) distance from Railway station and S. T. Bus stop,
(iv) name of the fair, and month and date of the fair, and
(v) average congregation

is furnished for each fair separately.

The list is prepared on the basis of information collected from the District Superintendents of Police, Municipalities and the Census enumerators' reports. The number of people gathering at the fair is based on eye estimates and should be treated as a broad approximation.
