## MAHABALESHWARA TEMPLE, GOKARNA

### (Motif on the cover)

The illustration on the cover page represents the image of Lord Ganesha in Mahabaleshwara temple at Gokarna. It is built of granite and is in the Dravidian style of architecture.

Gokarna, situated on the shores of the Arabian Sea is in North Kanara District. It is a place of great antiquity and sanctity. The epics *Ramayana* and *Mahabharatha* and the *Puranas* bear several references to this holy place. The name *Mahabaleshwara* to the principal deity here was conferred by Ravana when he failed to uproot the *Atmalinga* of Lord Ishwara which got transfixed at Gokarna. According to the legend, Ravana secured, by way of a boon from Lord Ishwara, the *Atmalinga* (the Linga that Ishwara had created of his own essence and constantly wore on his neck) so that his mother could worship it at home. The boon was however subject to the condition that the *Atmalinga* should not be set on the ground until Ravana reached his home. The powers that Ravana would so obtain caused dismay among the Gods who planned to deprive Ravana of the *Atmalinga*. Ganapathi, disguised as a Brahmin boy appeared at Gokarna at the time that Ravana was passing through and Vishnu with his discus caused an artificial sunset. Eager to perform his evening prayers, the orthodox Ravana sought the help of Ganapathi and entrusted him with the *Atmalinga* asking him not to lay it on the ground. Ganapathi, however, after calling out the name of Ravana thrice in quick succession laid the *Atmalinga* on the earth before Ravana could reach him. The *Atmalinga* became immoveable and since then the place has been venerated.

Besides the great temple of Mahabaleshwara, there are as many as 30 smaller shrines and 30 *thirthas* (sacred ponds) which are held in high reverence. The Vijayanagar Kings such as Bukka (1350–79 A.D.), Harihara II (1379–1401 A.D.), Sri Krishna Deva Raya (1509–29 A.D.) and Sadasiva Raya have made several grants to the temples at Gokarna and Sri Krishna Deva Raya is said to have visited Gokarna in 1508 A.D. and weighed himself against gold.

# PREFACE

It has been the tradition of the Census of India to present demographic data in as detailed a manner as possible so as to serve effectively the interests of the users of census data. It has also been a tradition to publish special volumes which incorporate both demographic and non-census data which are considered to be of great utility. In accordance with this practice, taluk and village tables used to be published which were, in the 1951 Census, replaced by the District Census Handbook series. These Handbooks replaced Part IV—Taluk Tables and Part V—Village Tables of the earlier ceususes and presented a large number of tables of economic, demographic and social significance for taluks and urban areas. The 1961 District Census Handbooks were improved by extending the coverage and administrative statistics were also presented for each district for the preceding decade. The 1971 Census continues, as part of its Tabulation Plan, the District Census Handbook series.

The District Census Handbook is presented in three parts for each District. Part A incorporates the Town and Village Directories. Part B incorporates the Primary Census Abstracts and includes data, in the case of the rural areas, at the village level and in the case of urban areas at the block level. Part C incorporates other Census Tables and administrative statistics. For convenience, Parts A and B of the District Census Handbook are presented in one volume while Part C by itself is a separate volume.

Explanatory notes have been incorporated explaining the scope and content of the various statements, column headings etc. In addition, in Part B, an introduction is included wherein the changes in the jurisdiction, if any, of the district or of the taluks and the changes in the number of villages between 1961 and 1971 are explained. It would be useful to read these notes before one goes to the tables.

In this volume, the district and taluk maps have been incorporated. These maps have been prepared in this office on the basis of maps obtained from the competent authorities concerned. In the district map, to avoid crowding, the names of villages where community facilities exist have not been mentioned but their location code numbers have been indicated. Similarly, in the taluk maps, villages are indicated by their Location Code numbers. For the names of the villages, one would have to refer to the alphabetical list of villages of each of the taluks concerned. These alphabetical lists are incorporated in Parts A and B of this volume.

In the preparation of Part A of the District Census Handbook we have had the ready and full co-operation of all the Departments of the State Government. Our whole-hearted thanks are tendered to them gratefully. Part B is essentially demographic in nature and has been the end product of the tabulation of the enumeration results.

In the preparation of this volume we have had the benefit of the guidance and advice of Sri A. Chandra Sekhar, I.A.S., Registrar General and Census Commissioner for India. We have also been considerably assisted by the willing co-operation of Sri K. D. Ballal, Deputy Registrar General, Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) and Sri K. K. Chakravorty, Assistant Registrar General. We are deeply indebted to them for all the assistance rendered.

The District Census Handbook (Parts A and B) presented in this volume is among the first few of the 1971 Census publications. Its early preparation has laid a heavy burden on all the officers and staff of this office. To each one of them I am deeply obliged. The Director of Printing and Stationery of the State Government has ensured printing in time and to him we offer our thanks. This is a State Government Publication and the interest evinced by the State Government has encouraged us, for which our thanks are tendered.

February, 1974.

P. PADMANABHA

# TOWN DIRECTORY

# TOWN DIRECTORY

## EXPLANATORY NOTES

The Town Directory consists of seven Statements the titles of which are as follows:—

| | | |
|---|---|---|
| Statement | I | Status, Growth History and Functional Category of Towns. |
| Statement | II | Physical Aspects and Location of Towns, 1969. |
| Statement | III | Municipal Finance, 1968-69. |
| Statement | IV | Civic and Other Amenities, 1969-70. |
| Statement | V | Medical, Educational, Recreational and Cultural Facilities in Towns 1969-70. |
| Statement | VI | Trade, Commerce, Industry and Banking, 1969-70. |
| Statement | VII | Population by Religion and scheduled Castes and Scheduled Tribes 1971. |

Statements I and VII have been complied in this office, and Statements II to VI by obtaining the data from the Local Bodies having administrative control over the towns. The scope of the data and the meaning of the abbreviations used in each Statement are explained herein.

The concept of urban agglomeration has been adopted for presenting certain basic results of the 1971 Census. Smaller towns that are contiguous to a city or a major town and come within its urban influence are grouped together to constitute such aglomerations. In Mysore, five such agglomerations (*viz.*, those named after *Bangalore, Mangalore, Belgaum, Bhadaravati* and *Kolar Gold Fields*) have been recognised. In the Town Directory statements also, information relating to the Agglomeration and its constituent units has been presented at one place in bold print so that the serial order in which the Towns in a District are arranged does not get interrupted. Thus the names of the units which constitute the Agglomeration appear twice in each statement even though the particulars are provided at one place only.

**STATEMENT I:** *Status, Growth History and Functional Category of Towns.*

COLUMN 3: LOCATION CODE NO. :—Location Code assigned to the town in the 1971 Census consists of two elements an arabic numeral and one roman numeral separated by an oblique. The arabic numeral indicates the order of the District within the State when arranged in alphabetical order. Similarly the roman numeral indicates the order of the town within the District when arranged alphabetically.

COLUMN 4: NAME OF TALUK:—Name of the taluk in which the particular town is situated is given here.

COLUMN 5: CIVIC ADMINISTRATION STATUS 1970: The following abbreviations are used to indicate the civic administration status:

| | |
|---|---|
| (1) Municipal Corporation .. | C |
| (2) Municipality .. | M |
| (3) Town Committee/Town Area Committee/Council .. | TC |
| (4) Cantonment Board .. | CB |
| (5) Town Panchayat .. | TP |
| (6) Village Panchayat Committee .. | P |
| (7) Sanitary Board .. | SB |
| (8) Notified Area Committee/Council. | NAC |
| (9) Others such as Town Board, Industrial Township, Project Areas not administered by any Civic Authority. | Indicated in full |

COLUMNS 5 TO 13: POPULATION OF THE TOWN AT THE CENSUSES OF 1901 TO 1971 :—Population figures for the towns since 1901 indicate their growth from Census to Census. Such figures have not, however, been furnished for the previous Censuses in respect of towns treated as towns for the first time in 1971 Census since they were rural areas formerly. The 1971 Census population figures are furnished in Column 13.

COLUMNS 14 AND 15: FUNCTIONAL CATEGORY 1961 CENSUS AND 1971 CENSUS :—In 1961 Census the workers were classified into nine industrial categories according to their activity, as follows :—

| | |
|---|---|
| I | Cultivator ; |
| II | Agricultural labourer ; |
| III | Mining, quarrying, live-stock, forestry, fishing, hunting, plantations, orchards and allied activities ; |
| IV | Household industry ; |
| V | Manufacture—other than household industry; |
| VI | Construction; |
| VII | Trade and commerce; |
| VIII | Transport, storage and communications; and |
| IX | Other services. |

The 1971 *Census classification of workers remains* basically the same but for the following deviations:—

(*i*) *Category III of the 1961 classification has been* split into two by recognising 'mining and quarrying' as an independent category and it now bears Category Number IV.

(*ii*) *As a consequence of (i) above, the* IV category of 1961 has been grouped with category V and particulars workers engaged in 'manufacturing, processing, servicing and repairs activities' have been presented under two sub-headings, *viz.*,

V (*a*) Household Industry, and
(*b*) Other than Household Industry.

In order to determine the functional category of towns, these nine industrial categories are combined and re-grouped to yield five broad classifications by economic activity as under:—

| *Economic activity* | *Industrial category number as per* | |
|---|---|---|
| | 1961 *Census* | 1971 *Census* |
| (1) Primary activities. | I, II & III | I, II, III & IV |
| (2) Industry .. | IV, V & VI | V(*a*), V(*b*) & VI |
| (3) Trade and Commerce .. | VII | VII |
| (4) Transport .. | VIII | VIII |
| (5) Services .. | IX | IX |

Then, for each town the percentage of workers under each of these five classes of economic activities to the total number of workers is calculated. If the percentage under any of these five activities equals or exceeds 40, such a town is regarded as *monofunctional* and that activity is specified in column (14 or 15). If the percentages are less than 40 in each and if the figures against any two add up to 60 or more, then such a town is regarded as *bifunctional* and the two predominant activities are specified under column 14 (or 15). In case, the percentages of any two of the activities do not add up to 60 per cent such a town is regarded as *multifunctional* and in such a case, three of the predominant activities are specified under column 14 (or 15).

**STATEMENT II:** *Physical Aspects and Location of Towns, 1969.*

COLUMN 3: ALTITUDE:—Altitude is given in metres above Mean Sea Level. The asterisk mark indicates that the data have been furnished by the Director-General of Observatories. In all other cases, information as furnished by the Director, Southern Circle, Survey of India, has been adopted.

COLUMN 4: ANNUAL RAINFALL (in millimetres):—An asterisk mark placed at the top of the data, indicate that the data have been furnished by the Director General of Observatories and also that it is 30 years (1931-60) standard normal. In other cases, the figure represents the average rainfall over the period 1960-69 (yearwise data obtained from the Bureau of Economics and Statistics, Mysore).

COLUMNS 5 AND 6: MAXIMUM AND MINIMUM TEMPERATURE (in Degree Centigrade):—The asterisk mark indicates that the data have been furnished by the Director General of Observatories and also that it is 30 years standard normal (1931-1960).

Since specific information is not available for most of the towns, corresponding data available for the nearest town situated at approximately the same altitude, have been adopted. Such entries are distinguished by the notation 'N' (nearest).

NOTE:—In columns 3 to 6 when data in respect of the particular town are not available, corresponding data for the nearest town are given, and in such cases the symbol 'N' (nearest) has been used.

COLUMNS 7 TO 14: NAME OF, AND ROAD DISTANCE TO, IMPORTANT CENTRES:—Column headings are self explanatory. Distances are given in kilometres. If the referent town itself happens to be the headquarters of district, or sub-division, taluk, etc., then the distance is noted as O in the relevant column. In column 12 when one or more bus routes pass through the town, the name of the town is repeated and distance is indicated as O. In column 13, the abbreviations R and C stand for River and Canal respectively.

**STATEMENT III:** *Municipal Finance, 1968-69.*

Actual receipt and expenditure of the civic administrative body are furnished.

In the case of industrial townships and the like where civic amenities are the responsibility of the factory authorities themselves, the relevant particulars have been obtained from these authorities. Generally, as no taxes are levied by the factory authorities, receipts are mainly by way of house rent (if provided by the authority) and, water and electricity charges recovered from the occupants of the residential quarters. Under expenditure, the amount spent on social overheads are shown.

City Improvement Trust Boards have been functioning only in the cities of Bangalore and Mysore. In Mandya during 1968-69, the Sugar Factory was responsible for providing amenities to the residents in Mandya Sugar Town, now included within the municipal limits of Mandya. In these cases, the receipt and expenditure are furnished separately for the two agencies.

**STATEMENT IV:** *Civic and Other Amenities, 1969-70.*

COLUMN 3: ROAD LENGTH:—Total length of all types of roads (*i.e.*, Cement, asphalt, metalled, mud etc.) including the length of National and State Highways, lying within the town limits is given in kilometres. Wherever information is available separately for *pucca* roads and *katcha* roads this has been noted in this column.

COLUMN 4: SYSTEM OF SEWERAGE/DRINAAGE:—The codes used for this column are:

| | | |
|---|---|---|
| (*i*) Sewers (either combined or separate).. | | S |
| (*ii*) Open Surface Drains | .. | OSD |
| (*iii*) Box Drains | .. | BSD |
| (*iv*) Sylk pattern Drains | .. | SD |

Even when only a portion of the town is served by any particular type of sewerage or drainage, the relevant code or codes have been entered under this column.

COLUMN 5: WATER-BORNE LATRINES:—Total number of flush-out latrines in the town (both private and public) has been indicated in this column. It is only in a few towns that such latrines are connected to sewers.

COLUMN 6: SERVICE LATRINES:—Total number of service (also called daily cleaned or DC for short) latrines, both private and public, in the town is entered under this column.

COLUMN 7: OTHER TYPES OF LATRINES:—Total number of other types of latrines, if any, in the town is furnished here.

COLUMN 8: METHOD OF DISPOSAL OF NIGHT-SOIL:—The manner in which the night soil is collected and transported to the trenching grounds is indicated under this column using the following abbreviations:—

| | | |
|---|---|---|
| (1) Headloads | .. | HL |
| (2) Baskets | .. | B |
| (3) Wheel Barrows | .. | WB |
| (4) Hand Carts | .. | HC |
| (5) Others such as bullock carts, trucks, nightsoil tankers, tempos, etc. | | Specified without using abbreviations. |

For flush-out latrines which are connected to sewers 'S' is the abbreviation used. If such latrines are connected to septic tanks 'ST' is used.

COLUMNS 9 AND 10: PROTECTED WATER SUPPLY: SOURCE AND CAPACITY:—In column 9 source of protected water supply is indicated using the following codes:

| | | |
|---|---|---|
| (1) River | .. | R |
| (2) Tank/Lake | .. | TK |
| (3) Tube Well | .. | TW |
| (4) Bore Well | .. | BW |
| (5) Canal | .. | C |
| (6) Reservoir | .. | RES |
| (7) Open wells | .. | W |

In column 9, in respect of towns not having protected water supply a dash is used.

The quantity of water supply led out from the Storage Tank to the consumers per day is given in litres in column 10. By "Protected water supply" is meant supply of water through taps irrespective of whether the water so supplied has been filtered and chlorinated or not.

COLUMN 11: FIRE-FIGHTING SERVICE:—Whether fire-fighting services exist or not within the limits of the town has been indicated by 'Yes' or 'No' as appropriate.

COLUMNS 12 TO 16: ELECTRIFICATION:—Under these columns, data regarding number of electrical connections (installations) are furnished. Information relates to the period 1969-70 generally. The data obtained from the Municipal authorities were got cross checked with those obtained from the Mysore State Electricity Board.

*Definitions of the column headings are as follows :—*

(i) *Domestic:*— Connections to residential buildings, schools, temples, non-commercial hostel buildings and hospitals for lighting, heating and cooking are classified as domestic connections. All-electric-homes are also included under this category.

(ii) *Commerical:*—Connections to commerical establishments such as wholesale and retail shops, hotels, restaurants, tea stalls, cinema, theatres, offices, private nursing homes, shops run by medical practitioners, commercial hostels and such other premises which are used either partly or wholly for commercial purposes are classified as commercial connections.

(iii) *Industrial:*—Such connections (either high tension or low tension) include supply of power to industrial establishments where processes of manufacturing, servicing or repairs are carried on with the use of power. Apart from factories, smaller establishments such as flour mills, hullers, coffee grinders, etc., also come within the purview of this category.

(iv) *Road Lighting:*—The actual number of street lights in the towu has been furnished.

(v) *Others:*—Connections to pumpsets, waterworks, temporary connections, etc., are furnished under this column wherever information was readily available. Data under this column are not uniform and hence cannot be compared.

**STATEMENT V:** *Medical, Educational, Recreational and Cultural Facilities in Towns, 1969-70.*

COLUMN 3: HOSPITALS, DISPENSARIES, T.B. CLINICS, HEALTH CENTRES, NURSING HOMES: Particulars regarding the different types of medical institutions fnnctioning in the town are indicated by the following codes:—

| | | |
|---|---|---|
| (i) Hospital (equipped with facilities for the treatment of in-patients) | .. | H |
| (ii) Dispensary | .. | D |
| (iii) Health Centre (under this category the Government of India Pattern Primary Health Centres are also included) | .. | HC |

| | | |
|---|---|---|
| (iv) | T.B. Clinic (if being run as an independent unit) | .. TBC |
| (v) | Family Planning Centres | .. FC |
| (vi) | Leprosy Centre or Clinic | .. LC |
| (vii) | Others, such as private nursing homes & clinics run by registered medical practitioners | O |

Wherever Family Planning Centres (FC) and Maternity Wards (MW) are attached to Hospitals or Primary Health Centres, this has been indicated within brackets using the codes FC or MW as the case may be. Under (i) to (vi) above, only the institutions run by Government, local bodies or religious and social institutions have been included. Full data on such facilities offered by private agencies are not readily available.

COLUMN 4: BEDS:—Number of beds provided for in-patients in the medical institutions mentioned under column 3 is noted here.

COLUMN 5: COLLEGES: ARTS, SCIENCE, COMMERCE, ETC.—The number of colleges in the town providing general education in different faculties has been indicated under this column using the following abbreviations:—

| | | |
|---|---|---|
| (i) | Arts only | .. A |
| (ii) | Science only | .. S |
| (iii) | Commerce only | .. C |
| (iv) | Arts and Science | .. AS |
| (v) | Arts and Commerce | .. AC |
| (vi) | Science and Commerce | .. SC |
| (vii) | Arts, Science and Commerce | .. ASC |
| (viii) | Law | .. L |
| (ix) | College of Education | .. Ed. |
| (x) | Agricultural | .. Ag. |
| (xi) | Home Science | .. HS |
| (xii) | College for Oriental Degrees (Sanskrit, etc.) | .. OS |
| (xiii) | Teachers Certificate Course | .. TCH |

Since no special provision has been made for certain professional subjects such as law, education, etc., in the format, these have been included under column 5.

COLUMN 6: MEDICAL COLLEGES:—Colleges providing education in Allopathic, Ayurvedic, Unani and Homeopathic systems of medicine have been indicated separately using the abbreviations 'Al' for Allopathic, 'Ay' for Ayurvedic, 'Un' for Unani and 'Ho' for Homeopathy. For Dental College the abbreviation 'D' has been used.

COLUMNS 7 AND 8: ENGINEERING COLLEGES AND POLYTECHNICS:—These are self explanatory.

COLUMN 9: RECOGNISED SHORTHAND, TYPEWRITING AND OTHER VOCATIONAL TRAINING INSTITUTES:—

Abbreviations used in this column are as follows:—

| | | |
|---|---|---|
| (i) | Shorthand Institute | .. Sh. |
| (ii) | Typewriting Institute | .. Type |
| (iii) | Both Shorthand and Typewriting | .. Sh. Typ. |
| (iv) | Artisan Training Centre/Institute | .. ATI |
| (v) | Occupational Training Institute | .. OTI |
| (vi) | Industrial Training Institute | .. ITI |
| (vii) | Tailoring Training Centre | .. TT |
| (viii) | Gramodyog Training Centre | .. GT |
| (ix) | Technical Training Centre | .. TTC |

COLUMNS 10 TO 12: HIGHER SECONDARY OR SECONDARY, JUNIOR SECONDARY OR MIDDLE AND PRIMARY SCHOOLS:—Schools providing Primary and secondary education have been classified according to the system of categorisation adopted by the Director of Public Instructions in Mysore, Bangalore.

(i) High Schools and Higher Secondary Schools are those where education is provided from Standard VIII and upwards upto Standard X or XI. These include composite schools which provide education from Standard I or Standard V upto Standard X or XI. Such composite schools have been treated as single units and their number indicated under column 10.

(ii) Junior Secondary or Middle Schools are those which provide education from Standard I to VII or V to VII.

(iii) Primary Schools are those where education is provided up to Standard IV.

(*Under columns 10 to 12, Urdu, Tamil and* Marathi medium schools, if any, in the town are also included).

COLUMN 13: OTHER EDUCATIONAL FACILITIES: Others include nursery schools and Sanskrit and Arabic Schools which provide religious education, etc., and which are not classified as schools or colleges.

COLUMN 14: STADIA:—The number of stadia, if any, built according to modern standards has been shown under this column. Ordinary play grounds attached to educational institutions, voluntary organisations, etc., and also 'parks' do not come within the purview of this column.

COLUMN 15: CINEMAS:—Touring Talkies of temporary nature are excluded and only the number of permanent cinema theatres is given under this column.

COLUMN 16: AUDITORIA/DRAMA HALLS: Number of auditoria and drama halls in the town is furnished.

COLUMN 17: PUBLIC LIBRARIES INCLUDING READING ROOMS:—Information about public libraries and reading rooms has been furnished clubbing the two, except in a

few cases where data are separately available. 'PL' and 'RR' are the abbreviations used to denote Public Library and Reading Room respectively.

**STATEMENT VI:** *Trade, Commerce, Industry and Banking, 1969-70.*

COLUMNS 3 TO 5: IMPORTS:—Names of three most important commodities imported into the town either for local consumption or for export in the same or modified form, have been indicated here.

COLUMNS 6 TO 8: EXPORTS:—Names of three most important commodities exported, based on the estimated value or volume of transactions, have been indicated here.

COLUMNS 9 TO 11: MANUFACTURE: Names of three important commodities manufactured in the town based on volume or value of commodities produced have been indicated. Wherever relevant, names of articles manufactured in the town and known for their uniqueness have been included even though the volume or value of such products may not be appreciable or important from the point of view of scale of operations.

COLUMN 12: NUMBER OF BANKS:—Banks include both commercial and co-operative banks and for computing the numbers, each branch has been treated as a unit.

COLUMN 13: NUMBER OF AGRICULTURAL CREDIT SOCIETIES:—Self explanatory.

COLUMN 14: NUMBER OF NON-AGRICULTURAL CREDIT SOCIETIES:—Non-agricultural credit societies include Industrial Co-operatives, House Building Co-operatives, Consumers' Co-operatives, Employees' Co-operatives, Fishermen Co-operatives and the like which provide credit for non-agricultural purposes.

COLUMN 15: REMARKS:—Remarks, if any, are given in this column.

**STATEMENT VII:** *Population by Religion and Scheduled Castes/Scheduled Tribes, 1971.*

This shows the distribution of population by religion and the numerical stength of Scheduled Castes and Scheduled Tribes.

# VILLAGE DIRECTORY

# VILLAGE DIRECTORY

## EXPLANATORY NOTES

The Village Directory consists of eighteen columns and provides village-wise information about the amenities and land use pattern in the villages. In the case of *Beeharak* (un-inhabited) villages, information is furnished only regarding land use (Cols. 3 and 11 to 15). Data presented in columns 1 to 18 have been obtained mainly from the Tahsildars and Deputy Commissioners. Towards the end of 1969, blank forms (with Kannada version of column headings) and copies of instructions printed in Kannada (explaining the manner in which each column should be filled) were mailed to the Tahsildars who in turn, distributed these forms to their Revenue Inspectors and collected the information.

The completed forms received back in this Directorate were scrutinised and omissions and mistakes observed were rectified, either by field visits to districts or through correspondence or both. The scope of each column heading and abbreviations used are given below:—

COLUMN 1: LOCATION CODE:—With a view to ensuring that every village, inhabited or un-inhabited in the Taluk is taken into account for purposes of Census Operations, location code numbers are assigned to each of the villages in a particular order. This number is noted under this column.

COLUMN 2: NAME OF THE VILLAGE:—In this column, the name of the *asli* (Main) village is given. An *asli* village may have some hamlets associated with it. The information in columns 3 to 18, therefore, is for the *asli* village and for the hamlets, if any, together. However, the names of hamlets with a population of 500 and over are mentioned below the name of the *asli* village with details, in columns 4 to 9, of amenities located in these hamlets.

In some cases, large parts of the original village are now included in municipal areas, leaving a small portion out of municipal jurisdiction. The latter is considered 'Rural' and classified as a village. To render the position clear the word Rural is mentioned in brackets against such places.

COLUMN 3: TOTAL AREA OF THE VILLAGE:—The total geographical area of the village has been furnished in acres.

*COLUMNS 4 TO 9: Amenities available within the Village.*

COLUMN 4: EDUCATIONAL:—Codes used to indicate the availability of educational facilities within the village are:

| | | |
|---|---|---|
| (i) | For schools providing education from Standard I to IV. These are generally called Lower Primary Schools .. | Pr.S. |
| (ii) | For schools providing education either from Standard I to VII or from Standard V to VII .. | Mid.S. |
| (iii) | For schools providing education either from Standard I to X or V to X or VIII to X. (This includes Higher Secondary Schools, *i.e.*, XI Standard also) .. | Sec.S. |
| (iv) | All colleges including vocational colleges .. | C. |

NOTE: Where more than one such institution exists, the number is noted within brackets.

COLUMN 5: MEDICAL: Medical facilities available within the village have been indicated by the following codes:

| | | |
|---|---|---|
| (i) | Hospital equipped with beds for in-patients .. | H |
| (ii) | Dispensary .. | D |
| (iii) | Health Centre including Government of India Pattern Primary Health Centre .. | HC |
| (iv) | Health Unit of Old Mysore Type | HU |
| (v) | Family Planning Centre .. | FC |
| (vi) | Subsidised Medical Practitioner | SMP |
| (vii) | Maternity and Child Welfare Centre | MCW |

COLUMN 6: POWER SUPPLY:—'E' is noted in this column if electricity is supplied to the village either for industrial (or agricultural) purposes or lighting or both.

COLUMN 7: DRINKING WATER:—The codes used to indicate the sources of drinking water in the village are:

| | | |
|---|---|---|
| (i) | Taps .. | T |
| (ii) | Wells .. | W |
| (iii) | Tanks .. | TK |
| (iv) | Tube Wells .. | TW |
| (v) | Rivers .. | R |
| (vi) | Canals .. | C |
| (vii) | Fountains .. | F |

OFFICE OF THE REGISTRAR GENERAL, INDIA
2515
LIBRARY

| | | |
|---|---|---|
| (viii) Hand Pumps | .. | HP |
| (ix) Other sources such as ponds, streams, etc. | .. | O |

COLUMN 8: COMMUNICATIONS:—The following codes are used:

| | | |
|---|---|---|
| (i) *Pucca* Road, *i.e.*, the road surface may be cement, asphalt, metal or water bound macadum | .. | PR |
| (ii) *Katcha* Road, *i.e.*, roads with natural soil, including cart-tracks | .. | KR |
| (iii) Railway Station | .. | T |
| (iv) Navigable River | .. | R |
| (v) Navigable Canal | .. | C |

In case a village is served by *Pucca* Roads as also by *Katcha* Roads, the latter have not been taken into consideration for purposes of this column.

A village is assumed to be served by any of these communication facilities if such facilities are available within one mile of the village.

COLUMN 9: POSTAL AND TELEGRAPH:—Postal and Telegraph facilities available within the limits of the village have been indicated by the following codes:—

| | | |
|---|---|---|
| (i) Post Office. This may be a branch or sub-office or may even be the office of the extra departmental delivery agency | .. | PO |
| (ii) Telegraph Office | .. | TO |
| (iii) Post and Telegraph facilities | .. | PTO |
| (iv) Telephone connection (apart from public call office, if any, the connections given to private parties have also been considered). | | Phone |

COLUMN 10: STAPLE FOOD:—Staple food (*i.e.*, staple cereals) of the major portion of the population of the village has been indicated here.

*COLUMNS 11 TO 15 : Land Use :—This information is based on annual village records for 1968-69 generally.*

COLUMN 11: FOREST:—All lands actually classified as forest or administered as forests under any legal enactment dealing with forests, whether State-owned or Private, have been shown under this column. Wherever forest lands have been assigned for cultivation, the corresponding areas have been excluded from forest area and included under cultivated land.

COLUMN 12: IRRIGATED:—The net area irrigated from both private and public sources of water supply is indicated using the following abbreviations:

| | | |
|---|---|---|
| (i) Canal | .. | C |
| (ii) Well (with or without electricity) | .. | W |
| (iii) Tube well (with or without electricity). | | TW |
| (iv) Tank | .. | TK |
| (v) River | .. | R |
| (vi) Water fall | .. | WF |
| (vii) Others | .. | O |

Under this column, all lands classified as wet and garden lands by the Survey and Settlement Department are included. In South Kanara District, however, the extent of wet lands (which are classified into class I, class II and class III) only are shown under column 12 and the garden lands are shown under column 13 along with "other dry". All the three classes of wet lands in South Kanara District yield one crop of paddy : class II land yields an additional crop and class I yields two additional crops both of which are generally paddy. For all the three classes of wet land, rain is generally the source of water supply.

In Coorg District the rainfed wet lands have been included under column 13 along with the area under plantation crops, such as, coffee, cardamom, orange, etc. So also in the Districts of Shimoga, Chikmagalur and North Kanara rainfed wet lands yielding paddy are shown under column 13.

COLUMN 13: UN-IRRIGATED:—The extent of un-irrigated but cultivated lands including current fallows if any, has been furnished under this column.

This column also includes data on the special categories referred to in the note on column 12 above.

COLUMN 14: CULTIVABLE WASTE:—The area noted under this column includes lands fit for cultivation but not cultivated for more than five years in succession. Such lands which are not put to any use, may be either fallow or covered with shrubs and jungle. They may be assessed or unassessed and may lie in isolated blocks or within cultivated holdings. Lands under thatching grasses, bamboo bushes and other groves for fuel, etc., which are not already included under orchards or forests, have also been included here. All grazing lands whether they are permanent pastures or not, are also included under this column.

A little clarification would be necessary regarding lands considered 'cultivable waste'. In certain Districts of the State *Gomala* or *Gairana* (pastures) are set apart in each village for purposes of grazing the village cattle and generally these are considered as 'not available for cultivation'. However, when applications for assignment of lands are received, the revenue authorities work out whether any lands out of the existing pastures can be considered as in excess of requirement in relation to the nnmber of livestock and whether such lands can be granted for cultivation. Thus the availability or otherwise of any portion of village pastures varies from year to year.

Further, the area noted under this column may not always be available for cultivation as quite often such areas are found to be either already under occupation, authorised or un-authorised, and even authorised lands

might not have been entered as being 'cultivated' in the village records in a few cases. Some portions of pastures may also be actually un-cultivable being hillocks and barren fields. The area furnished under this column is, therefore, only approximate.

COLUMN 15: AREA NOT AVAILABLE FOR CULTIVATION:—The area noted under this column includes the land not available for cultivation such as barren and uncultivable lands and also lands put to non-agricultural uses. Land put to non-agricultural use includes all lands occupied by buildings, roads and railways, area under water, *e.g.*, rivers, canals, and tanks and land put to uses other than agricultural.

Barren and un-cultivable land covers hills, mountains, etc., and lands which cannot be brought under cultivation unless at a high cost.

COLUMN 16: NEAREST TOWN AND DISTANCE:—Name of the nearest census town, irrespective of whether it is located in the same district or not has been noted.

COLUMN 17: MARKETS HELD IN THE VILLAGE:—The days on which weekly markets are held are indicated here.

COLUMN 18: REMARKS:—Particulars of religious, historical or archaeological importance besides interesting information if any, regarding a village as available from published material has been briefly given in Appendix No. IV. The reference to this Appendix has been indicated by numbers in such cases in this column.

*General:* (i) For each Taluk, Appendix I furnishes the villages arranged in an alphabetical order to facilitate cross reference.

(ii) Appendix II gives talukwise abstract of educational, medical and other amenities in respect of only the rural areas.

(iii) In a few cases, villages have been classified as Census Towns because they happen to satisfy the livelihood test or other characteristics which were applied for determination of urban areas. In such cases, for information the land use statistics are furnished in a separate Appendix for the District as a whole (APPENDIX-III).

## APPENDIX IV

Brief Note on Places of Religious, Historical and Archaeological Importance

### ANKOLA TALUK

1. ANKOLA:—A few hundred yards away to the west of the village site are found the remnants of a small fort which seems to have once been surrounded by a moat. The walls of granite and laterite are about 15 feet high and the circumference of the fort is about 600 yards. Except for an old temple of Rudresvar (or Kotesvar) the fort is bereft of any other buildings. According to local tradition the fort was built by one of the Sonda kings. Besides this fort, Ankola has several well built temples and a Roman Catholic chapel.

During the 16th century A.D., Ankola was a flourishing centre of trade and in the treaty concluded in 1547 A.D., between the Portugese and the Vijayanagar kings it finds a mention as one of the ports where the subjects of the Vijayanagar empire could exchange their goods with those of the Portugese. In 1730 A.D., Ankola came under the sovereignty of the Kolhapur Rajas and in 1763, Haibat Jang, the general of Haidar Ali, attacked and reduced the fort. An English detachment was sent to capture Ankola in 1783 A.D. Francis Buchanan who visited the place in 1801 A.D. describes it as a minor fort with a small market. Now, Ankola is the headquarters of a Taluk.

2. BILEHOINGI:—A portion of this village called Gangavali is a small port. It has a temple dedicated to the goddess Ganga. On the *Ganga Ashtami* day (8th day of Kartik (Oct.—Nov.) a visit to the temple is considered very meritorious and the temple on this day attracts a large number of devotees when the processional image of Mahabaleshvar is brought from Gokarn and bathed in the river in front of this temple. The local belief is that the river and the Goddess represent the river Ganga, which came from Shayadris at the request of king Bhagiratha.

The Karneshwar *Linga* near the Ganga temple is said to have been installed by Vishvakarma, the celestial architect, when he performed austerities which gained him a knowledge of the divine architecture.

3. BELEKERI:—This village is a famous health resort. During the early years of the British rule in this region it is said that Belekeri was subject to frequent harassment by Komarpaik and Halepaik robbers.

4. AVERSA:—The village has a shipshaped shrine of Kantradevi the family goddess of the Kharvis (fishermen community). The image of the goddess is said to have been recovered from the sea. During the Dasara or Navarathri, the goodess is worshipped with great solemnity by the Kharvis and the Konkanis.

### BHATKAL TALUK

1. HADVALLI:—The village has a Jain temple besides the ruins of some old buildings. It is said to have once been a flourishing Jain town. The Jain temple has beautiful idols of 24 Thirthankaras, made out of white and black marble. The old name of Hadavalli appears to be Sanghitapura.

2. MAVALLI:—Murdeshvar, a hamlet of Mavalli is a small fort and is one of the five places where the temples of Shiva were built by Ravana. This temple is standing on a lofty fortified promontory insulated by a narrow channel at high water. A temple called Kandugiri, built by the Jain chiefs of Kaikini, also exists here. Annual fair is held in honour of this god. There are thirty *virgal's* and inscriptions near Murdeshvar.

3. BAILUR:—Of the Markandesbvara and Lakshmi temples here, the former is said to be an ancient structure. This temple is said to have been endowed with lands and repaired by some Nayars in about 1434 A.D.

### HALIYAL TALUK

1. SAMBRANI—:In 1695 A.D., Gemelli Careri, an Italian traveller, who visited this place has recorded that it was then the headquarters of a Sonda chief (whom he has called Sonde Kiranikaraja) and was surrounded by a mud fort. In 1799 A.D., this village was the scene of a battle between the Marathas and the British in which the former were routed.

2. HOSUR:—The village has four elaborately carved stones. One of them has traces of an inscription and also depicts the scene of a man being carried in a litter.

### HONAVAR TALUK

1. HALDIPUR:—For purposes of revenue administration Haldipur is divided into three parts: I, II, and III respectively. These three, put togethers, formerly constituted a town. A socio-economic survey was conducted at Haldipur I as part of the 1961 census operations. Annual car festivals are held at three of the temples located here.

This place was under the rule of the Bednur chiefs (1570-1763 A.D.) and that of Haidar Ali and Tipu Sultan during (1763-1800 A.D.), Basavarajadurga, better known as the fortified island, is about a mile off the Haldipur coast. The island was fortified all round, with a stone wall with guns mounted on towers, by Shivappa Naik of Bednur (1648-1670 A.D.). In the history of Honavar this island figures several times. The fortifications are now in ruins.

Haldipur was formerly the headquarters of Honavar sub-division. Its old name of *Handipur* or 'Hog's Town' is said to have been changed by Haidar Ali to Haldipur or 'Turmeric Town'.

2. CHANDAVAR:—This place is said to have been built by Sarpan malik, apparently Sherif-ul-Mulk the Bijapur general who conquered the north of Kanara towards the close of the 16th century. In 1608 Chandavar was occupied by Venkatappa Naik of Ikkeri who stopped the southward progress of the Musalmans. There is a large Roman Catholic church dedicated to Saint Francis Xavier.

3. HULEGAR & NAGAR BASTIKERI:—These two villagesare situated on the opposite banks of the Sharavathi. The river between Honavar and these villages is navigable for light country craft. Gersappa is the name of a locality in the Huligar village. It has extensive ruins having been the capital of Jain chiefs of Gersappa (1409-1610 A.D.). In its prosperous day, it is said to have contained a hundred thousand houses and eighty four temples. The Gersappa Chiefs were encouraged by the Vijayanagar Kings as seen from a grant made in 1409 A.D., by Itchappa Wodeyar Pritani, the Gersappa chief by order of Pratap Dev Rao of Vijayanagar, to a temple of Gunavati near Manki. Itchappa's son married one of the seven daughters of the last Byrasu Wodeyar (chief of Karkal) and his daughter Bhairadevi inherited all he territories of her six meternal aunts, as they died without children. She became almost independent of Vijayanagar. Early in the seventeenth century Bhairadevi of Gersappa was attacked and defeated by Venkatappa Naik. the chief of Bednur. The Italian Traveller Della Valle, who accompanied a Portugese embassy to Venktappa Naik of Bednur in 1623 A.D. and who passed through Gersappa describes the place "as once a famous city the seat of the queen, the metropolis of a province. The city and the place had fallen to ruin and were evergrown with trees, nothing was left but some peasant's huts."

## KARWAR TALUK

1. SUNKERI:—The village has the famous church of 'Our Lady of Conception' built in about the beginning of the 19th century by Father Francis Xavier, a Carmelite Missionary, with the aid of the British Government. The roof of the church is supported on large masonry pillars six feet square at the base. The image of Our Lady of Conception stands on a plain altar.

2. BINGA:—Binga is a port with a harhour affording safe anchorage to vessels of any size throughout the year. Binge Bay is sheltered from the north wind by the Binge hills and from the south west storms by the island of Anjidiv, which lies 2 miles to the south.

3. CHITAKULA:—Under the forms of *Sindabur, Chintabor, Cintapor, Cintacala, Cintacora, Chittikula* and Chitekula, the place finds a mention in the writings of many authors from Masudi (ahout 900 A.D.), the Arab traveller to Ogilby (1660 A.D.) the British geographer. Basavalinga, a Sonda Chief (1697-1745 A.D.), is said to have built a fort at Chitakula, on the north bank of the river mouth and named it Sadashivagad after his father. Since then the name Chintakula has been supplanted by Sadashivagad. This fort has now been partly destroyed for the construction of West Coast Road. For a brief period (1752-1754 A.D.), the Portugese held this place. In 1754 A.D., it was surrendered by them to the Sonda Chief in lieu of four villages and permission to build a fort near Bhatkal. In 1763 A.D., this fort was captured by Haidar Ali's General Fazl-ulla-khan. Half a mile east of Sadashivagad on the top of Samvar hill, there is another fort called Samvargad. Kumargad here is another fortified island of some interest. It has a temple of Narasimha.

Annual fair is held in honour of this deity in December. The island was partly fortified by Shivaji and called Sidhgad. It was completed in 1715 A.D., and renamed as Kurmagadh by Basavalinga, a Sonda Chief. From the Sonda Chief the fort was captured by Haidar Ali in 1763 A.D. Maratha forces seized the fort in 1790 A.D., but in 1792 A.D., it was restored back to Tipu. The British forces under Captain Stone took it over in 1799 A.D.

4. MAJALI:—At Shiveshvar a place near Majali are found the ruins of a fort and of several temples dedicated to Shiva. The fort is said to have been built by Sherif-ul-Mulk, a Bijapur general in 1606 A.D. In 1675 A.D., Fryer, the well known English traveller, noticed it as "a strong place just then conquered by Shivaji". It then came into the possession of the Sonda chief Sadashiv (1674-1697 A.D.) In 1763 A.D., Haibat Jang, better known as Mir Fazal-ulla-khan, whom Haider Ali had sent to conquer the Sonda territories persued the Sonda chief to Shiveshvar when the latter fled to that place. When Fazal-ulla-khan arrived there, the Sonda chief fled to Goa and the fort was surrendered to Fazal-ulla-khan. In 1764, the Marathas attacked Shiveshvar both on land and sea but were beaten back. The fortifications of Shiveshvar were pulled down by a detachment of General Mathews in 1783 A.D. Shiveshvar was the chief town of a petty division under Ankola in 1803 A.D.

5. MUDGERI:—There is a temple dedicated to God Naganatha, the car-festival of which takes place every year during May.

6. KADRA:—The village is situated on the banks of the river Kalinadi. There are traces of a ruined fort. It is said to have been first fortified by Sherif-ul-mulk, the Bijapur general in about 1610 A.D., Fryer, a well known English traveller visited this place during the year 1675 A.D. and has observed that it was a strong place and had been conquered by Shivaji. In 1715 A.D., the fort is said to have been pulled down by Basavalinga, a Sonda chief. During the two decades of Haidar Ali's regime (1763-1783 A.D.), the Kadra division formed an important part of his territories.

Three miles north of Kadra, at the top of a spur of the Sahyadris at a place called *Arbitembi*, there is a curious wall of loose granite stones enclosing an open space of about thousand feet round. It is said that a group of ship-wrecked Arab sailors who took to brigandage put up this wall and that they were subdued by Sadashiva Raya, the fifth Sonda chief (1674-1697 A.D.)

7. SHIRVE:—There is a temple dedicated to Nandi (Bull).

8. SHIRWAD:—Sidhapur a hamlet of this village is called Saitanpur by the Muslims. There are two ruined forts one called *Halekote* (old fort) and the other *Lakdi* fort (wood fort). Sidhapur was the capital of Habu kings.

**KUMTA TALUK**

1. AGHANASHINI:—The village has the temples of *Kameshvar Mahadev and Ganapathi. According to* a legend, *Kama* (cupid) whom Shiva had burnt for evoking lust in him, could not enter Gokarna in his accursed state. He therefore installed a *linga* at Aghanashini and offered worship. Shiva being pleased, brought down the Ganges, (the modern Aghanashini or Tadri) in which *Kama* bathed, purified himself and entered Gokarna. The river at Aghanashini is considered very holy.

2. GOKARN:—Gokarn is a famous place of pilgrimage. It is here that the *Atmalinga* which Shiva made of his own essence, in his wrath with Brahma's world and wore on his neck came to be established under the following circumstances. Kaikasi, mother of Ravana, the sovereign of Lanka, wanted to worship one crore *lingas* and told her son of her desire. Unable to find such a large number of *lingas* in Lanka, Ravana consulted some sages, who told him that the merit of worshipping one crore *lingas* could be obtained by offering a *bilva* leaf every day to the *Atma linga*. Ravana then performed severe austerities to obtain the *Atma linga*. Shiva, who was immensely pleased at Ravana's devotions granted the boon subject to the condtion that the *linga* should not be set on the ground until Ravana reached his capital. This gift alarmed the Gods because, the *linga* was so powerful that if worshipped for three years in succession, it gave the worshipper (in this case Ravana the arch enemy of the Gods) power equal to Shiva himself. They went to Shiva and were told that the only way to dispossess Ravana of the *Atma linga* was to see that it was set on the ground before he reached Lanka. The gods arranged that Ganapathi, son of Shiva, should loiter at Gokarna as a Brahmin lad and, with the help of Vishnu, outwit Ravana. It was three O'clock in the afternoon, when Ravana reached Gokarn. Vishnu held his discus before the sun and Ravana, observing the sunset, was in dilemma, for, he had to offer his evening prayers without losing any more time. Luckily, he saw a Brahmin lad (the disguised Ganapathi), in charge of a herd of cows and asked the young Brahmin to hold the *linga* for a while so that he could say his prayers. Ganapathi feigned unwillingness, but on being pressed, agreed to hold the *linga* on condition that if, after waiting and calling out his name thrice, Ravana did not relieve him, he would set the *linga* on the ground. Ravana gave the *linga* to Ganapathi and walked to the sea. Not long after he had gone, Ganapathi called out his name three times burriedly and, before Ravana could return, set the *linga* on the ground. Ravana's efforts to pick up the *linga* were in vain. Ravana called it 'Mahabaleshvar' and fell in a faint.

The temple of Mahabaleshvar is built of granite in the Dravidian style. The shrine is said to be the work of Vishwakarma, the celestial architect and the copper spire and outer hall of some Brahmins of Coondapur. It is said that Ravana, annoyed at Ganapathi's device to deprive him of the *Atma linga*, prevented Vishwakarma from finishing the temple in one night. He became a cock and crew long before day-break, when the divine architect had finished the body of the shrine and was about to begin the spire.

Besides the great temple of Mahabaleshvar there are twenty smaller shrines and thirty *thirthas* which are held in high reverence. Each one of them has its own legend or *puranic* account. Of these, the temples of Ganapathi and Shankarnarayan and the Koti-tirth need special mention. The Ganapathi temple is situated about forty paces behind Mahabaleshwar temple. The granite image of Ganapathi here bears the mark of a violent blow which Ravana gave him when he found that Ganapathi had cheated him. Shiva is said to have rewarded Ganapathi for rescuing the *Atma linga* by ordering that Ganapathi should be worshipped before Mahabaleshvar.

Koti-tirtha is a large oblong pond to the south east of Mahabaleshvar temple. It is said to have been brought to Gokarn from the Himalayas. According to a legend, once when Garuda was searching for food, he saw on Mount Meru a snake named Durmukh. He caught Durmukh in his beak and flew west. When he reached Shatashring peak of Meru, Durmukh. wriggled out of his talons and glided into a hole in the mountain. Garuda could not follow him and to force Durmukh out of his hiding. Garuda lifted the hill in his beak and flew towards the sea. Brahma was enraged at this act of Garuda and he laid the weight of the three worlds on the hill. Garuda was groaning under the load, when sage Agastya heard his groan at Gokarna and relieved him by taking the hill on his left hand and settling it to the south east of the Mahabaleshwar temple. As a result of the shock the hundred million holy springs and streams in the heart of the hill rolled into one and formed the Koti-thirtha which now contains the virtues of them all.

The Shankarnarayana temple to the east of Koti-thirtha contains an image which is half Shiva and half Vishnu. The story is that Bhasmasura, a giant, having pleased Shiva by performing austerities gained the power of reducing to ashes any person by merely laying his hand on the head of his victim. The giant tried to lay his hand on Shiva's head to test the efficacy of the gift. Shiva fled to *Vaikunta*, the abode of Vishnu, who, sensing the danger, divided himself in two. One

half became a beautiful woman, whom he told to wheedle Bhasmasura out of his dangerous power and destroy him. The other half joined Shiva and went with him to the underworld. The woman whom Vishnu made, charmed Bhasmasura and turned him to ashes by inducing him to touch his own head. Vishnu and Shiva then came back from the underworld close to the temple of Shankarnarayana at a pool called 'Unmajjani' or the outcoming.

In honour of Mahabaleshvar, an annual fair and car festival are held during Maha Shivaratri (February-March). The devotees bathe in the Koti-thirtha and in the Arabian sea at the mouth of the Tamraparni rivulet and offer gifts to priests; worship Ganapathi first and proceed to the Mahabaleshvar temple. A visit to the shrine on Shivarathri day is regarded as very meritorious.

Gokarn is a place of great antiquity. It has been mentioned in *Ramayana* as the scene of the austerities performed by Bhagiratha and in Mahabharata as the south west limit to which the hermitages of the sages and the seat of Gods had spread.

Eight stone inscriptions and one copper plate grant are found at Gokarn. Five of the inscriptions are in temples (one each in the temples of Mahabaleshvar, Narasimha, Maruti, Vitbal and Tamragauri) while the other three are in private dwellings.

About the middle of the eighth century A.D., Lokaditya, a chief of Gokarn, is said to have married the the sister of Mayuravarma, founder of the second Kadamba dynasty. Vijayanagar kings Bukka (1350-1379 A.D.), Harihara II (1370-1401 A.D.), Krishnadeva Raya (1508-1530 A.D.) and Sadashiva Raya (1542-1573 A.D.), made grants at Gokarn. Krishnadeva Raya of Vijayanagar is said to have weighed himself against gold at Gokarn in 1508 A.D. In 1665 A.D., Shivaji is mentioned as having paid respects at the temple of Mahabaleshvar. Thus the place is of some interest from the historical point of view also.

3 MIRJAN:—This is a place of some historical importance and lies on low ground in a bend of the Tadri river. The chief object of interest is the ruins of a fort which is said to have been built by Sarpan-malik or Sherif-ul-Mulk (1608-1640 A.D.). According to the local tradition Malik was a poor Muslim boy who herded the cattle of Chandrayan Hebbar of Mirjan. One day while tending the cows he fell asleep on a *Katte* (stone platform) at the foot of a *pipal* tree. As the cattle did not return in time, Chandrayan Hebbar went in search of Malik and found a cobra sheltering Malik against the sun with its hood, while the boy slept at the foot of the tree. The serpant glided away as Hebbar approached. Malik was thereafter called *Sarpan Malik* or the 'lord of snakes'. He thereafter went to Mysore, gathered a small force and returned to his village, making petty conquests. He built Mirjan and Ankola forts and ruled as a petty chief at Mirjan between 1608-1640 A.D. and is said to have rewarded the Hebbar family by granting Achave village. The Hebbar family built a platform round the old *pipal* tree where Malik had slept and every year during Dasara, the family hold a fair when Muslims are invited, old swords etc., are worshipped as trophies and fowls sacrificed.

Mirjan is supposed to be the ancient Muziris, one of the chief centres of Greek and Roman trade with India, in the first, second and third centuries A.D. Under the Vijayanagar kings (1336-1587 A.D.), Mirjan was held by local feundatory chiefs. In 1510 A.D., Dalboquerque went to Mirjan to meet the Honnavar chief Thimmaya. During the first half of the 17th century, Kanara as far as Mirjan continued under Bijapur. It was then that Sarpan-malik built a strong fort here and changed its name to Isar. During the later part of his reign, Shivappa Naik of Bednur (1648-70 A.D.), took over Mirjan. In 1675 A.D., Fryer, the well known English traveller describes Mirjan fort as very fine, double walled and trenched with high turrets on the bastions. In 1678 A.D., the Portugese were allowed to build a factory and a church at Mirjan by a treaty with the Bednur chief. Mirjan was a small harbour in the extreme south of the Sonda chief's territory in 1720 A.D. In 1757 A.D., Marathas seized Mirjan and in 1783 A.D., General Mathews captured Mirjan along with Rajmandurg the island fort at the mouth of the Mirjan river.

4. YAN:—This place is also called Bairava Kshetra and is situated in a beautiful valley almost encircled by spurs from the Sahyadris. This reputed place of pilgrimage with shrines of Shiva and Parvati is approached by two steep foot-paths one from the Harita pass and the other from the Vaddi pass. The hills above provide a fine view of the Yan valley and of the large pinnacled limestone rocks rising from the hillside over the tree tops like the battlements of a castle. Several great masses stand out further down the ravine of which the rock near the upper end of the pass is held sacred. It contains a cave 120 feet long 10 feet broad and 10 feet high. Near the middle of this cave, from a small ledge or knob of rocks close to the roof, a small stream drips on a granite *Linga*. To the south, little below is a smaller cave with a bronze image, nine feet high, of Chaudi-amma, a form of Parvathi.

According to the local myth, in ancient days hills and mountains too had wings and used to fly from place to place. During their fihghts the hills used to cause much danger to the dwellers on earth. Therefore, Lord Indra cut off their wings. There upon, Sahya mountain being unable to move, complained to his brother the Himalaya, that he was helpless and no longer safe. Himalaya requested his son-in-law, Shiva, to provide a safe place for Sahya and Shiva employing Vishvakarma had a safe dwelling built for Sahya in the Yan cave. At first the cave was full of gold and gems, but they were seized by two demons, whom Shiva drove away. Shiva's efforts to dislodge the demons, it is said, reduced the cave, to its present roughness and gloom.

According to Skandapurana, when Yan valley was part of the bed of the ocean two giant brothers Raktaksha (Red-eye) and Krishnaksha (Black-eye) obtained from Brahma a *Viman* and a boon from Shiva that they

should never be beaten. Relying these gifts, the giants attacked Kubera the God of wealth, to snatch from him his famous milk-white horses. Kubera finding these giants too strong, sent his horses to Sahya's impregnable city and surrendered to the giants. The giants attacked Sahya, but could not take his fort. Reminded by Sukracharya of their *Viman*, they reached the top of the rock with its help and captured Sahya's abode, the Yan cave. Annoyed by the success of the giants, the Gods sent Narada to devise a scheme to ruin the giants. Narada came to Yan and admired its magnificance and told the giants that the only things required to make it perfect was the Shiva's crescent and Shiva's wife Parvathi. This induced the giants to demand these gifts. At their impertinence Shiva and Parvati were so enraged that they immediately assumed terrible forms and drove out Krishnaksha from the upper cave and Raktaksha from the lower cave.

Annual fair takes place here in *magha* (February-March) during Mahashivarathri.

5. HOLEGADDE:—There is a temple of Mahadev (11th century A.D.), at Dhareshwar, a hamlet of this village. It has some inscriptions and its walls are ornamented with sculptures. The *linga* in the temple is known as *Dhareshvar or Doreshvar*. It is explained that the *Dhareshvar linga* emerged out of the dor (cord) of the cloth which covered the Atma *linga* brought by Ravana to Gokarn and installed there by the guiles played by Gods. Enraged on finding that the *linga* set on ground by Ganapathi had became immoveable Ravana flung the covering of the *linga* into air. Part of it fell at the place now called Dhareshvar, where it grew into a *linga* called Dhareshvar.

Around the temple there are five *thirthas* called Rudrakunda, Chakra thirtha, Shanka thirtha, Vasudha thirtha and Naga thirtha. These five pools are said to have been dropped with Dhareshvar hill from the Saptasringa peak of *Meru* mountain, which Garuda was carrying to Gokarna.

## SIDDAPUR TALUK

1. KONDLI (SIDDAPUR):—This was the capital of a petty chief and in the past had a fort wall surrounded by a moat. Inside the remnants of this fort is located a large temple of Kalamma.

2. KODKANI:—Near this village, there is a famous waterfall known as Jog Falls from the neighbouring village of Jog. The waterfall is on the Sharavathi river, which has a breadth of about 230 feet above the falls. The Sharavati leaps over a cliff, 832 feet in height, along four separate channels each of which keeps a considerable body of water till late February or early March. Two of the four falls, the Raja and the Roarer, are in the hook or curve nearly opposite each other, the other two the Rocket and La-Dame Blanche, fall over the straight line or handle of the hook. All fall from the same level into a pool 130 feet deep.

3. BILGI:—This village has a ruined fort and remnants of a palace. The chief object of interest here is the Parshvanath *basti*. which is said to have been built in about 1593 A.D., by Narasimha, the founder of the town. It was enlarged in about 1650 A.D., by a Jain prince Ghautevadia, who supplied it with the images of Neminath, Parshvanath and Vardhaman. The basti is in the minutely ornamented style, which is known as the Dravidian or the Southern. There are two well preserved inscription stones dated 1558 A.D. and 1625 A.D., recording grants of villages and lands to the temple. The walls of the shrine are formed by slabs which reach the whole height of the walls. The upper part of the walls of the hall or *mantap* are formed in the same way and are set on a carved screen wall. The outer hall has four round pillars of black-stone and at each side of this outer hall is a small shrine. Bilgi has temples of Virupaksha, Mahadev and Hanuman also. The Virupaksh temple is a plain building with an inscribed slab to the right of the entrance. The Hanuman temple has a smaller inscription which is much defaced.

During the 17th century A.D., Bilgi was a separate principality under the chiefs called *Paligars* who were closely connected with the Coorg family and were tributaries of Keladi or Bednur kings. In 1799 A.D., it fell to the British.

4. UNCHALLI:—The place is noted for a beautiful cascade known as the Lushington Falls named after a collector of Kanara who discovered them about 1845 A.D.

## SIRSI TALUK

1. BANAVASI:—It is an ancient village situated on the left bank of the Varada river. It is surrounded by a mud wall. The chief object of interest here is the temple of Mudhukeshvar which is said to have been built by Jakanacharya. The temple is built in a courtyard whose outerwall is covered so as to form rooms and shrines which are dedicated to Ganapathi, Narasimha and Kadambeshwara. According to the local tradition, the temple was built by Vishnu in memory of two demons Madhu and Kaitabha, whom he killed. In and near this temple are found twelve inscriptions which vary in date from about the second to the seventeenth century A.D. Banavasi has a jain temple also.

Banavasi is said to have been known as 'Kaumudi' in *Krita yuga*, Jayanti in *Treta yuga*, Beindivi in *Dvapara yuga* and Vanavasi or Banavasi in *Kaliyuga*. Banavasi is mentioned in 240 B.C., as the place to which Rakshita a Buddhist monk, was sent by emperor Asoka to spread Buddhism. In about 100 B.C., Bhutapala, the donor of the great Karle cave in west Poona, is described as coming from *Vejayanti*, which is supposed to be Banavasi. An inscription in the local Madhukeshvar temple of 50 to 100 A.D., shows that Banavasi and the territory of which it was the capital, was governed by king Haritiputra Shatakarni of the Dutu (or chutu) family. The Egyptian geographer Ptolemy has referred to Banavasi in 150 A.D. Banavasi was

the capital of a family of Kadamba kings in the fourth and fifth centuries. A stone inscription of 634 A.D., records that Pulikeshi II of the Badami Chalukyas laid siege to Banavasi. In 947-48 A.D., the Banavasi province was governed by a family known as Chellketans or Chellpataks, who were feudatories to the Chalukyas. Except for short spells under the Kalachuris and Yadavas (1108-1183 A.D.), (1220-1278 A.D.), and Hoysala Ballals (1047-1310 A.D.), Banavasi continued to be the capital of a family of Kadamba kings in the 11th, 12th and early 13th centuries A.D. It came under Vijayanagar kings during the fourteenth century and up to 1560 A.D. and passed on to the Sonda family thereafter. Arasappa, the first king of Sonda family (1555-1598 A.D.) and Raghu Naik (1618-1638 A.D.), the third king, have left records at Banavasi dated 1579 A.D. and 1628 A.D., of grants made by them to Mudhukeshvar temple.

A Socio-economic survey of the village was conducted as part of the 1961 census operations.

2. SONDA:—Between 1590 and 1764 A.D., Sonda was the capital of the Sonda chiefs. In 1764, the place was destroyed by Haidar Ali of Mysore.

The only objects of interest now are its old fort and the *mathas* belonging to Smarthas, Vaishnavas and Jains. The fort stands on high ground to the south of the Sondi brook. It is ruined and deserted and its high walls are hidden by trees and brushswood. The masonry shows traces of considerable architectural skill. Of the three *Mathas*, the Jain monastery is small and is said to belong to the eighth century A.D. The Smartha monastery is known as the *Honalli matha* and the Vaishnava monastery as the *Terbidi or Vadiraj matha*. The Honalli matha is the headquarters of the spiritual teacher of Having Brahmins. A car festival in honour of Narasimha, the presiding deity, is held during *Vaishakh* (April) which lasts for a week. The *Terbidi matha* is a branch of the Vaishnava monastery of Udipi in South Kanara District. It is held in speccial reverence because it contains the tomb of its founder Vadiraja, who was the tenth *Guru* after Madhvacharya.

## SUPA TALUK

1. ULVI:—According to a Jain version this is the place where Basaveshwara (12th century), the Lingayats saint is supposed to have died. It is said that Basaveshwara fled to Ulvi, which was then called Vrishabhanagar, from Kalyan after the outbreak of the rebellion which resulted in the death of king Bijjala (1167 A.D.). He was pursued by Bijjala's son, who laid siege to the city. Then, it is said, Basaveshwara threw himself into a well in despair and drowned himself. From that time the place came to be called *Ulvi* or 'the saviour', because Basaveshwara hoped to save himself by taking refuge there. The Lingayats however hold that Basaveshvara was absorbed into a *Linga* at Sangameshvar temple.

According to a local account, Ulvi was formerly ruled by a Mahar or Holeya chief named Chanur. This territory passed on to Mysore Sultans (18th century), who appointed one Sadashiv as their Governor, at Ulvi. Sadashiv lived in a fortified house near Shivathirtha. The fort here is said to have been built by Barde Babu Rao.

Ancient remains, temples, reservoirs, wells and watercourses point to Ulvi as having been a place of importance at one time. *Gavi matha* is the oldest of the temples here. Another object of interest here is a temple of Basaveshvar built of laterite, The 'Bubble well' or *Budbud Talab*, a beautiful spring, is yet another object of interest.

## YELLAPUR TALUK

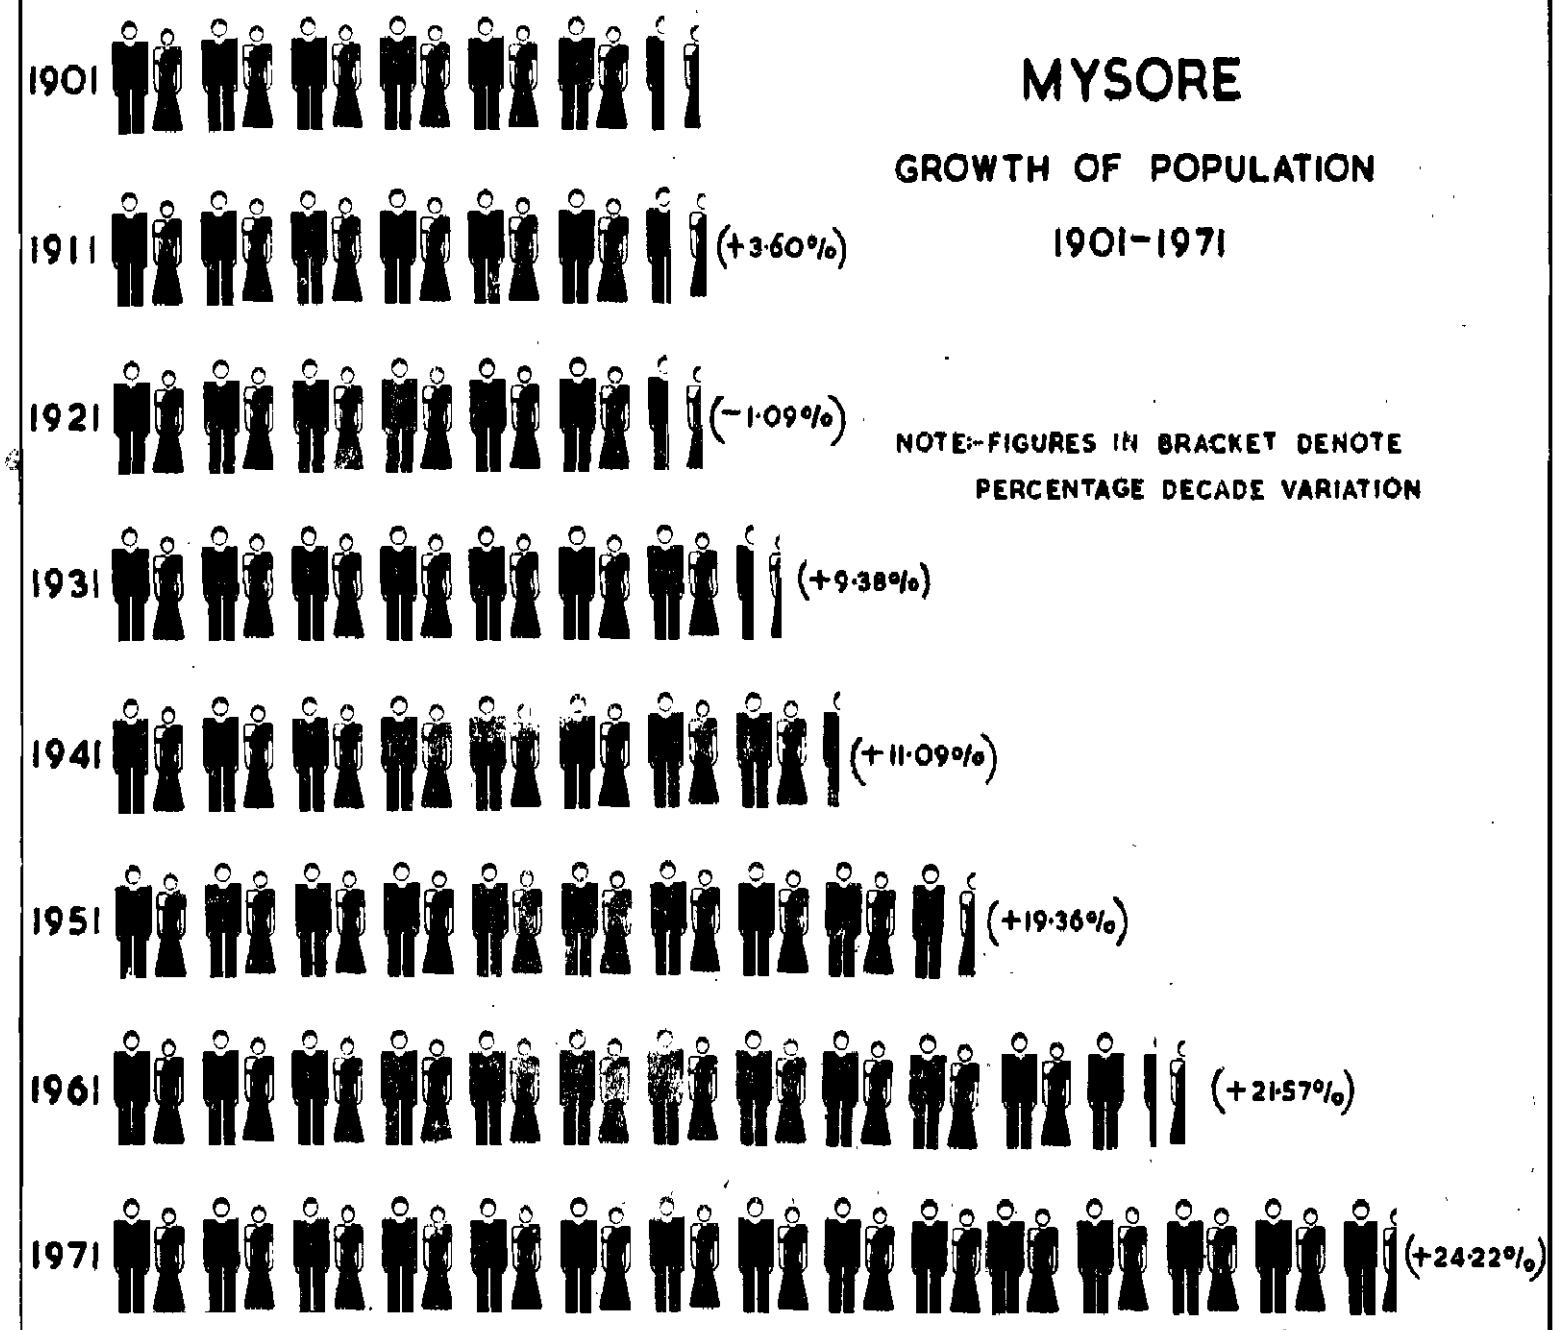

1. LALGULI:—A series of picturesque water falls are noticed here. On a cliff there is a temple of Hanuman. It is said that the Sonda chiefs used to hurt the condemned prisoners into this gorge.

2. MAGOD:—The rivers Bedti and Gangavali form a picturesque water fall here.

## PRIMARY CENSUS ABSTRACT

# INTRODUCTION

North Kanara district, which is situated in the north-west coastal part of Mysore State lies between 13°55′ and 15°31′ North latitude and between 74°9′ and 75°10′ East longitude. The district covering an area of 10,276 Sq. kms. has a population of 849,105 persons of which 433,946 are males and 415,159 are females. The density of population works out 83 persons per Sq. km.

The district is bounded on the north by the Union Territory of Goa and Khanapur taluk of Belgaum district, on the east by Dharwar district, on the south by Shimoga and South Kanara districts and on the west by the Arabian sea.

The district consists of the eleven taluks of Ankola, Bhatkal, Haliyal, Honavar, Karwar, Kumta, Mundgod, Siddapur, Sirsi, Supa and Yellapur. There are eight towns in the district, namely :

**1. Dandeli 2. Karwar 3. Sirsi 4. Bhatkal**
**5. Haliyal 6. Honavar 7. Kumta 8. Yellapur**

The district had the same number of taluks in 1961. In the 1961 Census, there were 1,363 villages which at the 1971 Census 1,356 places are listed as villages. The variation in the number of villages between 1961 and 1971 is explained below :—

**1. Ankola Taluk :**

89 villages in 1961 and 88 villages in 1971.
The Two villages Bhavikeri I and Bhavikeri II of 1961 (L.C. No. 42 and 43) are treated as a single village in 1971 called Bhavikeri (L.C. No. 88).

**2. Bhatkal Taluk :**

65 villages in 1961 and 64 villages in 1971.
The village Mashari, (L.C. No. 23 of 1961) which was treated as a separate village in 1961 has been treated as hamlet of village Kerehittal village (L.C. No. 22 of 1971) on its amalgamation with this village in 1959.

**3. Haliyal Taluk :**

131 villages in 1961 and 132 villages in 1971.
Kumbarkop, which was classified as a town in 1961 has been deleted from the list of towns as it has been partly merged with the Dandeli (N.A.). The area lying outside Notified Area of Dandeli has been treated as a separate village *viz.*, Halekumbarkop (L.C. No. 88) in 1971 and included in the list of villages.

**4. Honavar Taluk :**

99 villages in 1961 and 97 villages in 1971.
The villages Hanchalli and Kabbinahakkal which were treated as two separate villages in 1961 (L.C. No. 58 and 59) are now treated as a single *viz.*, Hanehalli—Kabbinahakkal (L.C. No. 58 in 1971).

The Sharavathy River Port which was treated as a separate village in 1961 is deleted from the list of villages since this area comes within the municipal limits of Honavar.

**5. Karwar Taluk :**

61 villages in 1961 and 59 villages in 1971.
The village Chitakula and Majali were each split up into two villages for purposes of census in 1961 (L.C. No. 58 and 59 and 60 and 61). But in 1971 each of these villages is taken as single village.
This has resulted in reduction of 2 villages between 1961 and 1971.

**6. Kumta Taluk :**

121 villages in 1961 and 122 villages in 1971.
Increase by one village between 1961 and 1971 is due to inclusion of Gokarn in the list of villages. This was classified as a town in 1961 but has been declassified in 1971 Census, reverting to the status of a village.

**7. Mundgod Taluk :**

94 villages in 1961 and 94 villages in 1971.
No change in the number of villages between 1961 and 1971.

**8 Siddapur Taluk :**

202 villages in 1961 and 201 villages in 1971.
One village Gubbagaon of 1961 (L.C. No. 150) has been deleted from the list of villages in 1971 as it has since been amalgamated with the village Tyagali (1971 L.C. No. 151). Under Order No. RD 19 BRD 58, dated 2nd December 1968.

**9. Sirsi Taluk :**

227 villages in 1961 and 227 villages in 1971.
No change.

**10. Supa Taluk :**

141 villages in 1961 and 140 villages in 1971.
The village Virampali (plywood area) (L.C. No. 36 of 1961) is deleted from the list of villages as it is merged with the Dandeli Notified Area.

**11. Yellapur Taluk :**

133 villages in 1961 and 132 villages in 1971.
Yellapur which was treated as a village in 1961 has been classified as a Town in 1971 and, therefore is deleted from the list of villages in 1971.

The decrease in the number of towns by one between 1961 and 1971 is due to declassification of two towns Kumbarkop (NM) and Gokarn in 1971 and addition of Yellapur as town in 1971 on its satisfying the criteria prescribed for classifying a place as town.

The Dandeli Town group consisting of Dandeli (NA) Dandeli (NNA) and Kumbarkop (NM) in 1961 has ceased to exist in 1971 as the constituent units of Dandeli (NNA) and Kumbarkop (NM) have now been included within the notified limits of Dandeli (NA) the limits of which were extended in 1963. The town is called Dandeli (NA) in 1971.

# EXPLANATORY NOTE

In Part B of the District Census Handbook of each district the "Primary Census Abstracts" are presented. These are the basic tables of demographic importance obtained on a full count of the individual slips. These tables are furnished villagewise for the rural sector and by Enumerator Block in respect of each Census Town in the urban sector.

The Primary Census Abstract, the P.C.A. as commonly referred to, for the District and its constituent Taluks arranged alphabetically, is presented first. The P.C.A. data for the urban units within each taluk are also included therein. In the tables the abbreviations T, R and U are used. T stands for total, R for rural and U for urban. After the District P.C.A. a map of each Taluk, village list and the Taluk P.C.A. follow.

The concept of Urban Agglomeration has been adopted for presentation of some of the basic results of the 1971 Census replacing the 'Town-Group' concept of the 1961 Census. Small towns around a city or a major town which are contiguous and are within its urban influence are grouped together with the city or the major town to constitute an Urban Agglomeration. In Mysore State, five such Urban Agglomerations named after the respective cities of Bangalore, Belgaum, Bhadravati, Kolar Gold Fields and Mangalore have been recognised. Separate statements of the P.C.A. data of these agglomerations are presented in the respective District Census Handbooks.

COLUMN 1, LOCATION CODE NUMBER: The Location Code Number is the number assigned to each village within a Taluk and each Census town within a district in a particular order. The numbers assigned to taluks and villages are International numerals while those assigned to towns are Roman numerals. The Districts in the State were arranged alphabetically and numbered serially with International numerals.

North Kanara District has the location code number 15. The taluks and towns of the District bear the following location code numbers:

| Name of Taluk | Loation Code No. | Name of Town | Location Code No. |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| Ankola | 15/1 | Bhatkal | 15/I |
| Bhatkal | 15/2 | Dandeli (Notified area) | 15/II |
| Haliyal | 15/3 | Haliyal | 15/III |
| Honavar | 15/4 | Honavar | 15/IV |
| Karwar | 15/5 | Karwar | 15/V |
| Kumta | 15/6 | Kumta | 15/VI |
| Mundgod | 15/7 | Sirsi | 15/VII |
| Siddapur | 15/8 | Yellapur | 15/VIII |
| Sirsi | 15/9 | | |
| Supa | 15/10 | | |
| Yellapur | 15/11 | | |

COLUMN 2. NAME OF VILLAGE/TOWN/WARD/URBAN ENUMERATOR'S BLOCK: Names of villages and towns corresponding to the location code numbers given in Column 1, are noted here.

The particulars presented against each village include the data relating to the *asli* (main) village and also its hamlets, if any. Large hamlets which returned a population of 500 or more have been separately mentioned in Appendix No. I in view of their sociological importance. But, for such hamlets, only the particulars of population by sex, as culled out from the Enumerator's Daily Posting Statements are furnished. The population data of such hamlets should, therefore, be regarded as only approximate since it is not based on actual tabulation but only on the Enumerator's Daily Posting Statements.

The Census village corresponds generally to the Revenue village and its jurisdiction is defined as the area included within the geographical boundaries of the Revenue village bearing the same name. When a portion of the Revenue village stands incorporated in a municipality, the area so included is regarded as part of the town. In all such cases, the remaining land situated outside the municipal limits, if any, is considered as a separate Census village-unit for purposes of enumeration. For such residuary area the suffix 'Rural' has been noted against the name of the place which may also have been indicated as a Town under the same Taluk. The P.C.A. presented against such places relates to the area situated beyond the municipal limits of the concerned towns.

A Revenue village, the entire geographical area of which stands included within the limits of a municipality, ceases to be a Census village by virtue of its having been accounted for under the concerned town.

Reserve forest areas which do not form part of any Revenue village are also reckoned as Census villages and such geographical units are assigned location code numbers along with other villages of the concerned taluk.

Regarding urban areas, the name of the town, the names (numbers/alphabets) assigned to the constitutent Municipal Wards/Divisions, if any, and the number assigned to each enumerator's block within it are given in this column. The jurisdiction of each block is indicated in a statement immediately after the tables of the urban-block P.C.A. of the Taluk.

The places administered by Municipal Corporations, Municipalities, Cantonment Boards, Notified Area Committees or Local Bodies such as Town Boards, Civil Lines, etc., are classified as urban areas or towns. Besides, certain other places which satisfied the following criteria are also classified as Census Towns :

(*a*) Minimum population of 5000 persons.

(*b*) Density of 1000 persons per sq. mile (or 400 persons per sq. km.)

(*c*) At least 75 per cent of the male working population engaged in pursuits other than agriculture.

A few other places which did not satisfy fully these conditions but were regarded as having pronounced urban characteristics are also classified as towns.

COLUMN 3. AREA OF VILLAGE IN ACRES AND TOWN/WARD IN $Km^2$: The particulars of the total geographical area of the Village furnished by the Tahsildars of the concerned Taluks, and of the Towns and their constituent Municipal Divisions or Wards as furnished by the Local Bodies concerned are given in acres and sq. kms. respectively in this column. The area of the District as furnished by the Surveyor General, India through the Central Statistical Organisation is shown against the District total, while the area of each Taluk as furnished by the Director of Survey, Settlement and Land Records in Mysore is shown against the Taluk total. No attempt has been made to reconcile the area figures obtained from these three different sources.

In some cases, the villages bear the same name as the adjacent town for example, Bellary (Rural). These indicate cases where only a part of the village area is included in the contiguous municipal area, leaving some portion within the rural area which, therefore, is included in the village list. It has not always been possible to determine the exact areas of the portions of such villages included within municipal limits. Therefore, no attempt at determining the exact area of that part of the village in the rural limits has been made. The area shown in this column against such cases includes the area merged within the limits of the contiguous town.

COLUMN 4. NUMBER OF OCCUPIED RESIDENTIAL HOUSES: A Census House is defined as "a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit". In this column the number of such houses which were in actual use for residential purposes either partly or wholly, at the time of the enumeration (*i.e.*, between 10-3-71 and 31-3-71) is given.

COLUMN 5. NUMBER OF HOUSEHOLDS: A Household is defined as "the entire group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevent them from doing so". It may consist entirely of persons related to each other or may be made up of a few related and other unrelated persons or of totally unrelated persons. A household may also consist of a single individual. Those households which are made up of groups of unrelated persons such as in hostels, inmates of jails, boarding houses, hotels, chummeries, etc., are regarded as Institutional Households. Households that do not live in Census Houses are called Houseless Households. The total number of households including Institutional Households and Houseless Households, if any, in the village or the bolck is given here.

COLUMNS 6, 7 AND 8: TOTAL POPULATION (Including Institutional and Houseless population): The column headings are self-explanatory. The abbreviations 'P', 'M' and 'F' appearing in several sub-columns of the P.C.A. stand for the number of Persons, Males and Females respectively.

COLUMNS 9 AND 10. SCHEDULED CASTES: These two columns furnish the population of Scheduled Castes by sex. By Scheduled Castes are meant "all such castes, races or tribes or parts or groups within such castes, races or tribes as are deemed under Article 341 of the Constitution of India to be the Scheduled Castes for the purposes of the Constitution of India". Scheduled Castes are limited only to Hindus and Sikhs.

COLUMNS 11 AND 12. SCHEDULED TRIBES: These two columns furnish the population of Scheduled Tribes by sex. By Scheduled Tribes are meant "all such tribes or tribal communities or parts of a group within such tribes or tribal communities as are deemed under Article 342 of the Constitution of India to be Scheduled Tribes for the purposes of the Constitution of India". *Persons belonging to the Scheduled Tribes may profess* any religion.

The Scheduled Castes and Tribes notified in the State are indicated in Appendix No. II. The data on the individual Scheduled Castes and Scheduled Tribes are presented in Part C of the District Census Handbook.

COLUMNS 13 AND 14. LITERATE AND EDUCATED PERSONS: A person who can both read and write with understanding in any language is regarded as literate even though such a person may not have attained any educational standard or may not have received any formal education. By convention, all children of the age 4 years or less are treated as illiterate even if a child of this age-group is going to a school and may have picked up reading and writing.

If, in addition to being a literate, any person has attained any level of education such as primary, middle, high school stages, etc., such details were enumerated during the census count. The number of males and females shown under columns 13 and 14 respectively includes not only those who were literate without having attained any level of education but also those who have attained various educational levels.

COLUMNS 15 TO 36. WORKERS: A *worker* is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but also effective supervision and direction of work.

A person who is engaged primarily in household duties such as cooking for one's own household or performing one's own household duties or is primarily a student attending some institution but, either occasionally or regularly, helps (not as a full-time worker) in the economic activity pursued by the household only during his or her spare time is not regarded as a worker. The main activity of each individual, *i.e.*, how the person engages himself or herself mostly, was ascertained and all those engaged in any activity which is economically productive (*i.e.*, resulting in production of goods and services) were deemed to be workers.

The workers are further classified into nine industrial categories and the distribution of the total workers by sex is given under Columns 17 to 36.

For convenience of presentation, the detailed descriptive headings of the nine Industrial categories have not been printed in the PCA tables but only the indu-

strial Category Number is given. The corresponding descriptions are as follows:

| Category | Description | Column Nos. |
|---|---|---|
| I. | Cultivators | 17–18 |
| II. | Agricultural labourers | 19–20 |
| III. | Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities | 21–22 |
| IV. | Mining and Quarrying | 23–24 |
| V. | Manufacturing, Processing, Servicing and *repairs* | |
| | (*a*) Household Industry | 25–26 |
| | (*b*) Other than Household Industry | 27–28 |
| VI. | Construction | 29–30 |
| VII. | Trade and Commerce | 31–32 |
| VIII. | Transport, Storage and Communications | 33–34 |
| IX. | Other services | 35–36 |

*CATEGORY I.* CULTIVATORS: A person is a *cultivator* if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind of share. Cultivation involves ploughing, sowing and harvesting and all other activities (such as digging of channels for water, weeding etc.), in the production of cereals and millet crops, pulses, raw jute and kindred fibre crops, sugar cane, groundnut, tapioca, oil seeds etc. Cultivation does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plants.

*CATEGORY II.* AGRICULTURAL LABOURERS: A person who works in another person's land for wages in money, kind or share and does not have any right of lease or contract on the land on which he or she works is regarded as an *agricultural labourer*.

*CATEGORY III.* LIVESTOCK, FORESTRY, FISHING, HUNTING AND PLANTATIONS, ORCHARDS AND ALLIED ACTIVITIES: This category includes all workers engaged in livestock rearing, forestry, fishing, hunting and plantations, orchards and allied activities.

*CATEGORY IV.* MINING AND QUARRYING: All those who are engaged in mining and quarrying activities are included in this category.

*CATEGORY V.* MANUFACTURING, PROCESSING, SERVICING AND REPAIRS: Workers engaged in manufacturing, processing, servicing and repair activities are sub-divided into those who are engaged in Household Industry and those who are not so engaged. Household Industry is defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and where the household lives in urban areas, only within the premises of the household. Such an industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. Further, such an industry should not be run on the scale of a registered factory. A person may be a labourer or a petty employee in an industry which is a household industry run by some other household. The number of persons engaged in Household Industry are categorised as V (*a*).

The number of workers who are engaged in such activities but in establishments which do not qualify themselves to be classified as Household Industries as defined above are shown under Category V (*b*).

*CATEGORY VI.* CONSTRUCTION: Workers who are engaged in construction, maintenance, upkeep, repair and similar activities of buildings, roads, bridges, dams, canals and construction of electrical, water-supply and sanitary installations, etc., are brought under this category.

*CATEGORY VII.* TRADE AND COMMERCE: Workers in trade and commerce include all those engaged in wholesale or retail trade in goods; in dealing with insurance, stocks and shares, employed in banking and financial institutions, etc., either as proprietors or in any other capacity in such establishments.

*CATEGORY VIII.* TRANSPORT, STORAGE AND COMMUNICATIONS: Workers in transport, storage and Communications include those who work in establishments such as the railways, road transport, post and telegraphs and such other organisations or establishments which are engaged in the Transport, Storage and Communications sectors of the national economy.

*CATEGORY IX.* OTHER SERVICES: 'Other Services' constitutes the last category and includes employees of the Central and State Governments, local bodies and quasi-local bodies and other organisations or institutions engaged in educational, scientific, medical and health services. Religious and welfare services, legal services, business services, community services and trade and labour associations, recreation services, personal services and other miscellaneous activities not covered in any of the remaining 8 categories specified above, are included here.

*MAPS.* A map of each of the taluks in the district has been included along with an alphabetical list of villages indicating the location of the villages in the map. The taluks maps are based on the maps brought out by the Director of Survey, Settlement and Land Records in this State. The map of the district in this volume and of the State are also, incidentially, based on the maps produced by this authority.

In the taluk maps, to the extent possible, the boundaries of the villages have been marked along with their location code numbers. However, in a few cases, the maps contain areas enclosed within the symbol for village boundaries but not having any location code number mark. Such areas are drawn on the basis of the original survey maps and represent 'Kavals' (Pastures), reserve forests etc. They also include places treated as main villages previously but now amalgamated with neighbouring villages under Government Orders. For the purposes of the Census, all such areas have been included in neighbouring villages for Census enumeration. Similarly, there are villages whose boundaries have not been clearly determined.

In such cases, the location has been indicated and location code number has also been given but the boundaries have not been marked.

*CATEGORY X.* COLUMNS 37 AND 38. NON-WORKERS: Non-workers are those whose main activity is economically non-productive and includes those engaged in honsehold duties, full-time students, rent receivers, retired persons, infants and old persons, beggars, vagrants, inmates of penal, mental or charitable institutions, etc. It also includes those non-workers who were seeking work.

The Industrial Categories of 1961 and 1971 Censuses are generally similar except for the separate categorisation of 'Mining and Quarrying' and consequential renumbering of 'Household Industry'. In comparing the data of these two Censuses this change must be kept in view. For convenience, the categorisation of 1971 and 1961 are indicated below:

**Industrial Categories of 1971 and 1961 Censuses**

| Category | 1971 | 1961 |
|---|---|---|
| Cultivators ... | I | I |
| Agricultural Labourers ... | II | II |
| Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and allied activities | III | III |
| Mining and Quarrying ... | IV | |
| Manufacturing, Processing, Servicing and Repairs Household Industry ... | V (*a*) | IV |
| Other than household industry ... | V (*b*) | V |
| Construction ... | VI | VI |
| Trade & Commerce ... | VII | VII |
| Transport, Storage and communications | VIII | VIII |
| Other Services ... | IX | IX |
| Non-workers ... | X | X |

# NOTE

1. @The areas of the State and each of the District represent ' Geographical area ' and have been supplied by the Surveyor General, India. The figures for urban areas are those supplied by the Local Bodies. Area figures for Rural areas are derived by subtracting the Urban areas from the total area of the districts and reported by the Surveyor General, India. The total of the Area figures of the Taluks will not tally with the District figures because the former represents ' Land-use ' area and are derived from figures supplied by the Director of Survey, Settlement and Land Records in Mysore.

2. Towns treated as such for the first time in 1961 Census which continue as towns in 1971 Census are shown with Asterisk (*) on their left.

3. Towns treated as such for the first time in 1971 are printed in italics.

4. The following abbreviations used for indicating the status of a town are given within brackets against names of the towns.

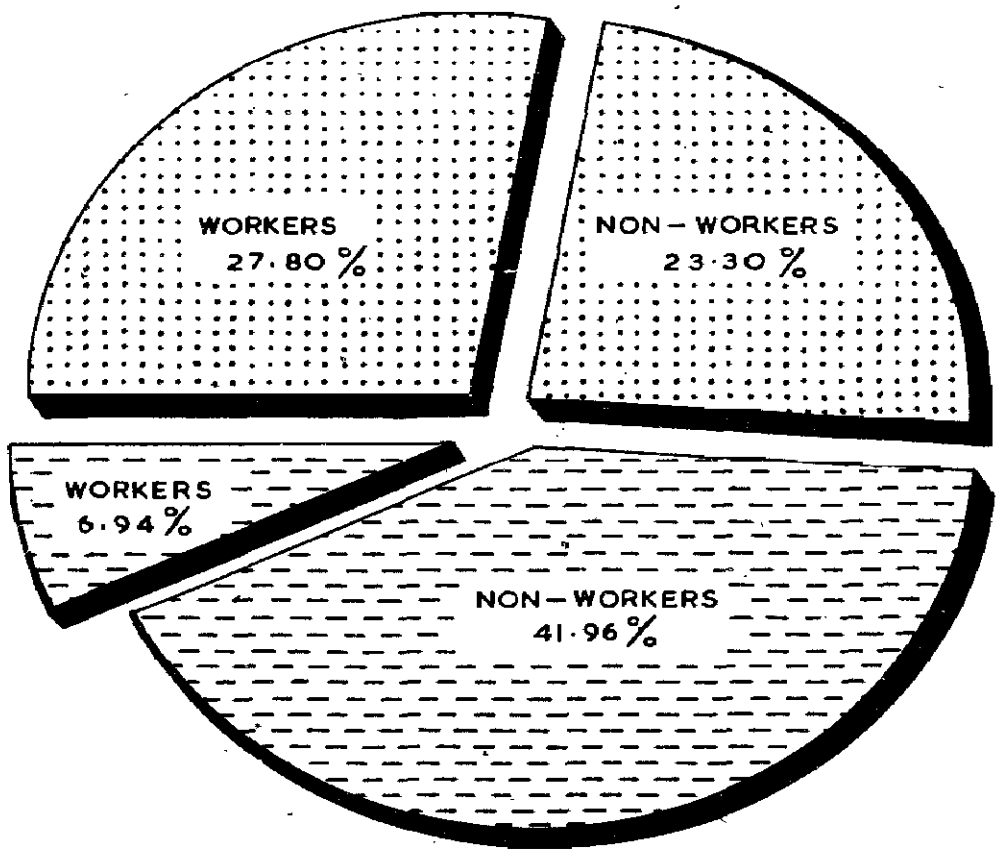

| | |
|---|---|
| C. | Municipal Corporation |
| C.B. | Contonment Board |
| M. | Municipal Town |
| N.A.C. | Notified Area Committee |
| P. | Panchayat |
| S.A. | Special Area |
| S.B. | Sanitary Board |
| T.B. | Town Board |
| T.P. | Town Panchayat |

5. Under column 3 following abbreviations are used:

T: Total R: Rural U: Urban

## SCHEDULED CASTES AND SCHEDULED TRIBES IN MYSORE STATE

### Scheduled Castes

"Scheduled Castes" means such castes, races or tribes or parts or groups within such castes, races or tribes as are deemed under Article 341 (of the Constitution of India) to be the Scheduled Castes for the purposes of the Constitution of India.

According to the *Constitution (Scheduled Castes) Order* 1950 and the *Constitution (Scheduled Castes) (Part C States) Order* 1951 as modified by *The Scheduled Castes and Scheduled Tribes Lists (Modification) Order*, 1956 and all subsequent amending Notifications issued up-to-date, the castes indicated under each of the different regions specified hereunder, have been declared as Scheduled Castes in the respective regions of the Mysore State.

No person who professes a religion different from the Hindu or the Sikh shall be deemed to be a member of a Scheduled Castes.

### Scheduled Tribes

"Scheduled Tribes" means such tribes or tribal communities or parts of or groups within such tribes or tribal communities as are deemed under Article 342 (of the Constitution of India) to be Scheduled Tribes for the purposes of the Constitution of India.

According to the *Constitution (Scheduled Tribes) Order*, 1950, and the *Constitution (Scheduled Tribes) (Part C States) Order* 1951 as modified by *The Scheduled Castes and Scheduled Tribes Lists (Modification) Order*, 1956 and all subsequent amending Notifications issued up-to-date, the communities indicated under each of the different regions specified hereunder have been declared as Scheduled Tribes in the respective regions of the Mysore State.

Persons belonging to the Scheduled Tribes may profess any religion.
