MICA MINING

The motif displayed on the cover page of the Nellore District Census Hand Book relates to Mica Mining and its allied activities in Nellore District.

Nellore district is endowed with considerable quantities of Mica which has come to be called the Nature's 'Wonder mineral'. It is the chief producing centre in the Andhra Pradesh State and ranks third coming only after Bihar and Rajasthan in India which are quite famous in the world mineral market. India has been supplying approximately 80% of world's consumption of Muscovite Mica and its export has been and is a very important factor in the Indian economy as a source of foreign exchange.

Mica is regarded as one of the world's most strategic minerals. In view of its unique combination of electrical, machanical and chemical properties, even stained or lower quality mica is ideally suited for bridges and spacers in electronic tubes. It is indispensable in all insulating systems of electric machines, electrical instruments, aircraft instrumentation and in many other special industrial fields. It is also reported that "the success of the U. S. S. R.'s Space Research was largely due to the contribution made by Mica in communication and insulation fields" and that Indian Mica was found most suitable for use in the rockets sent to the moon by the scientists of the U. S A

The Nellore Mica belt lies between the latitudes 14°-00' and 15°-00' and longitudes 79°-35' and 80°-00' and extends from Ojili (16 Kms. south of Gudur) to Udayagiri covering an area of about 100 Kms. × 20 Kms.

The Mica pegmatites mined out of the various mica mines in Nellore District are characterised as the Muscovite type which are extensively used for bridges and spacers in electronic tubes.

Mica mining in Nellore District commenced in 1887 A. D. In the beginning only big size blocks could be marketed and the smaller ones had to be thrown away as waste. Then came the revolutionary invention of Mr. Arthur H. S. Dyer by which thin splittings from un-utilised smaller grades of mica could be built up into Micanite sheets of required size and thickness. This invention not only saved the mica mining industry from extinction but also solved the problem of finding suitable mica required by the electrical industry.

The years between 1947 to 1968 constitute a brilliant epoch in the history of the Nellore Mica mining when the productive capacity of the mines reached the maximum. Since 1951, a majority of the mines in the district have been mechanised. Most of the mines are equipped with inclined haulages or winders, Mechanical ventilators, multi-stage high lift pumps required for the sophisticated and efficient operations in the mines and some of the potential mines are equipped even with the most modern type of high duty compressors.

There are in all 114 mining leases for different major minerals in Nellore district of which Mica commands as many as 90 leases. However, only 37 out of these 90 leases are working mines while some were abandoned and some are yet to be exploited. The average annual production of mica in the district has been reported to be around 5,000 tonnes. Revenues to the tune of about Rs. 2.25 lakhs under dead rent and over a lakh of rupees by way of royalty on all the minerals produced in the district, including the Mica, accrue to the Government annually. Of course mica contributes the major share of these revenues.

The 'Nellore Green' along with the 'Bihar Ruby' is in keen demand by a number of foreign markets especially the highly industrialised countries like the U. S. A., the U. K., the West European countries, the U. S. S. R., Japan which constitute the major importing markets for Indian Mica. The value of the annual export of mica from Gudur Mica Market is put around Rs. 2.25 crores.

It is reported that the working life of the existing mines in the Nellore Mica belt, as it appears today, may not last for more than fifteen years. Hence, unless new mines are located and the small mine owners operating small mines which are in the rapid process of elimination since 1960 for want of financial resources etc., are suitably assisted, this industry in the district, which made a mark in the international market, may begin to decline.

PREFACE

The District Census Handbooks which were first published at the 1951 Census proved to be very useful to the State and Central Government Departments, private agencies and academic bodies like Universities and Research Institutions. The scope of these Handbooks was enlarged to make them more useful during the 1961 Census. Considering the delay in the publication of these Handbooks due to difficulties in finding suitable presses which could undertake huge printing work of this kind, it was considered desirable to split up the 1971 Census Handbooks into three parts *viz.*, Part A— Village and Town Directory, Part B — Village and Town Primary Census Abstract and Part C— Analytical Report, Departmental Statistics and District Census Tables. This was done mainly with a view to publishing Parts A and B which contain not only the population data upto the village and town level but also the particulars about the basic amenities *etc.*, available in the towns and villages, as early as possible for public use. The scope and contents of these three parts are elaborated in the introduction of this volume. I am glad to record here that Parts A and B of the 1971 Census Handbooks of all the 21 Districts in the State have been finalised already and I expect that before the end of 1974 Parts A and B for all the 21 Districts would have been published.

The compilation of these Handbooks is being done from the 1951 Census in the Office of the Director of Census Operations while the cost of paper, printing, *etc.*, required for these volumes is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of printing and paper for the 1971 Census Handbooks. I am grateful to the Andhra Pradesh State Government and in particular to the Additional Chief Secretary to the Government of Andhra Pradesh, Shri S. A. Quader, IAS., for their co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for assisting me by selecting suitable presses for undertaking the printing of the Handbooks. The data presented in the Village and Town Directories are obtained from different State Government and Central Government Departments but for whose co-operation Part-A of the Handbooks could not have been compiled. I am thankful to all of them for furnishing me the required data.

I am extremely grateful to Shri A. Chandra Sekhar, IAS., Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General, India who formulated the contents of these Handbooks in detail and rendered spontaneous help and encouragement to me at all stages.

The following staff of my Office worked on the present volume of Nellore District Census Handbook under the guidance and supervision of Shri P. S. R. Avadhany, Deputy Director of Census Operations and Sri K. Narasimha Murthy, Assistant Director of Census Operations of my Office.

Sri P. B. Sunder Raj, Tabulation Officer Smt. P. Lalitha, Tabulation Officer Sri T. Brahmiah, Statistical Assistant Sri K. V. Sarma, Statistical Assistant	Drafting and Scrutiny
Sri A. V. Krishna Reddy, Computor	Supervision of Printing
Smt. K. Subbalakshmi, Computor Kum. K. Anasuya, Assistant Compiler Sri G. V. Ramachandran, Computor Sri S. Ramakrishna, Assistant Compiler	Collection and Compilation
Sri Laxmiah, Junior Reader, G. C. P. Sri P. Innayya, Junior Reader, G. C. P.	Proof Reading

Sri A. Venkateswara Rao, Assistant Compiler	...	Scrutiny and supervision of maps Printing
Sri M. N. Ram Mohan, Artist	...	Supervision of Mapping Work
Sri Syed Ahmed, Senior Draughtsman ,, M. J. Sadiq, Draughtsman ,, N. G. Swamy, Draughtsman ,, M. Hasan, Draughtsman ,, M. Shankariah, Draughtsman ,, Md. Yakub Ali, Draughtsman ,, B. Raghu Ram, Draughtsman Smt. Daya Saxena, Draughtsman Sri D. Koteshwara Rao, Computor		Preparation of maps

I am grateful to their services.

I trust that this humble effort on the part of the Census Organisation would meet with the appreciation it deserves.

POSITION OF NELLORE DISTRICT IN ANDHRA PRADESH

INTRODUCTION

GENERAL BACKGROUND OF THE DISTRICT CENSUS HANDBOOK

District Manuals and District Gazetteers

Prior to 1905, the erstwhile composite Madras Government compiled and published District Manuals for each district. It contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography but also a few statistical tables including those relating to population which became obsolete within a few years of their publication. The Madras Government, therefore, replaced these District Manuals by another publication known as the District Gazetteer consisting of two Volumes 'A' and 'B'. Volume A contained descriptive matter and such general tables as might be necessary to explain the text and Volume B contained detailed statistics. They decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of Volume B was also stopped after the 1931 Census.

In the erstwhile Hyderabad State also the Gazetteer Volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of some districts like Cuddapah and Anantapur have been published already.

The Village Statements

Apart from the District Manuals and Gazetteers, the census data upto village level used to be published in a broachure called "Village Statement" for each district immediately after every census from 1872 upto 1941.

The Village Statements merely showed the number of occupied houses and population by religion of each village and town and they did not contain any more details. From the 1951 Census, the Village Statements were replaced by the District Census Handbooks.

District Census Handbooks

The idea of compiling the District Census Handbook for each district in place of the Village Statements was first entertained and put forward at the 1951 Census by Sri R. A. Gopalaswamy, I.C.S., the then Registrar General, India and *ex-officio* Census Commissioner of India as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the "District Census Handbook" and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the district should be printed and published at their own cost, in the same manner as the village statistics of the past censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbook for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing Administrative Statistics and Part II the Census Tables. In the composite Madras State, the Handbooks were brought out in one single volume only for each district.

Pattern at 1961 Census

At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Asok Mitra, I.C.S., the then Registrar General, India. The District Census Handbooks of 1961 Census of Andhra Pradesh were divided into four parts. The first part contained narrative description of the Physical Features, and History, Social, Economic and Demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the Administrative Statistics of various departments. The third part contained the 1961 Census Tables *viz.*, General Population Tables, Economic Tables, Cultural and Migration Tables, and Special Tables on Scheduled Castes and Scheduled

Tribes. The fourth part consisted of Village and Town Directory which was the most important section of the Handbook, giving village-wise and town-wise Primary Census Abstract *i.e.*, particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorization of working population *etc.* Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine sub-tables containing village wise particulars such as irrigation sources, important crops raised, value of land, Co-operative Societies, Industrial Establishments, Police Stations, list of skilled craftsmen *etc.*, were given after Village and Town Directory. A tabular statement on Fairs and Festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census

The District Census Handbooks proved to be very useful and valuable publications and had considerable demand by public as well as the official users of the census data. At the 1971 Census, it was therefore, decided not only to continue the publication of the District Census Handbooks but also to enlarge its scope further.

At the 1961 Census, there was some delay in the publication of the District Census Handbooks due to the inadequate printing facilities. In order to avoid delay in publication and also to make available the more important census data to the planners, administrators and other users who may be not only eager but in dire necessity to use the information in their respective spheres, it has been decided to bring out the District Census Handbooks in three parts *viz.*, Part A, Part B and Part C. Part A contains the Village and Town Directory. Part B contains the Village and Town Primary Census Abstract. Part C contains Administrative Statistics and Analytical Report. Parts A and B of the District Census Handbooks of this State are being brought out in one volume and Part C will be brought out in a separate volume for each district a little later.

A brief outline on the scope of each of these three parts is given below.

Part A: Village and Town Directory

In this part, the Village Directory is given first and then the Town Directory.

Village Directory : It is arranged taluk-wise and gives for each village, particulars of amenities such as of educational and medical institutions, power and drinking water supply, post and telegraph facilities, communications, markets, particulars of land use, places of religious, historical or archaeological interest in the village.

Town Directory : The Town Directory portion contains data in seven statements. Particulars like the civic administration status, its origin, the growth and decline of its population, functional category, physical aspects and location, municipal finances, civic and other amenities, medical, educational, recreational and cultural facilities, trade, industry, commerce and banking facilities and lastly the religious composition of the town and the scheduled castes'/tribes' population inhabiting are presented in seven statements. These particulars are given for each town in the district arranged in alphabetical order.

Part B: Village and Town Primary Census Abstract

This part gives for each revenue village and also for each Enumerator's Block and ward of a town, the Primary Census data *i.e.*, area, occupied residential houses, number of households' total population and its breakup by sex, Scheduled Castes' and Scheduled Tribes' population, literate population, working population by nine broad categories of cultivators, agricultural labourers, those working in livestock, forestry, fishing, plantations *etc.*, in mining and quarrying, in manufacturing, in construction, in trade and commerce, in transport, storage and communications and in other services and the non-working population as per the 1971 Census.

Part C: Administrative Statistics and Report

This part comprises the various administrative statistics pertaining to the district with special reference to the development taken place during 1961-70 in different spheres and also the 1971 Census Tables relating to the General Population, Economic characteristic, Cultural and Migration features, Housing and Establishment's tables and data pertaining to the district regarding language and religion. A write up, indicating the changes in the socio-economic and demographic characteristics of the district and the developmental activities that have taken place in the decade in the various fields like Agriculture, Industries, Trade and Commerce, Education, Medical and Public Health, Community Development *etc.*, is given at the

beginning of this part. In view of the elaborate write up already given in the 1961 District Census Handbooks, the present write up will be brief and it will cover the present decade only.

Rural and Urban Classification of Areas

It is customary to classify the population of every country at a census as Rural and Urban. Such a classification has considerable significance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence at the beginning of each census, the criteria for treating a place as town (*i.e.* urban) or rural are evolved and the areas are then classified accordingly as per the definition so evolved.

From the year 1891, the census definition of a town in this country was more or less the same till 1941 and it was slightly modified in 1951. The towns broadly comprised all Municipalities of whatever population and every other continuous collection of houses, permanently inhabited by not less than 5,000 persons, which the Provincial Directors of Census Operations, having regard to the character and relative density of population, their importance as centres of trade, decided them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 Census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an Urban unit. The same definition was followed at the 1971 Census also. The following criteria are adopted for treating a place as a town at the 1971 Census :

1. All places with a Municipality, Corporation or Cantonment or Notified Town Areas, and
2. All other places which satisfied the following criteria.
   (a) a minimum population of 5,000
   (b) a density of population of at least 1,000 persons per Sq. mile (400 persons per Sq. Km.) and
   (c) at least three fourths (75%) of the male working population is non-agricultural

In respect of marginal cases, the Directors of Census Operations of the States were given discretion to treat a place as a town or a village.

The Towns are categorized into six classes as detailed below :

Classification of Towns	*Population Size*
Class I	1,00,000 and above
Class II	50,000–99,999
Class III	20,000–49,999
Class IV	10,000–19,999
Class V	5,000–9,999
Class VI	Below 5,000

The Class I Towns are termed as Cities.

Besides classification of all places into Rural and Urban areas, two new concepts *viz.*, Urban Agglomeration and Standard Urban Area were evolved at the 1971 Census. They are briefly explained below:

Urban Agglomeration

In several areas around a core city or statutory town have come up fairly large and well recognised Railway Colonies, University Campuses, Port areas, Military Camps *etc.* Even though they are outside the statutory limits of a Corporation, Municipality or Cantonment, they fall within the revenue boundary of the place by which the town itself is known or in the revenue boundary of the neighbouring village. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units and at the same time each such individual area by itself may not satisfy the minimum population limit to qualify to be treated as an independent town. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban outgrowths would deserve to be treated as an integrated urban area. At the 1971 Census such continuous urban spreads have been treated as integrated urban areas and defined as Urban Agglomerations. This concept of Urban Agglomeration replaced the concept of Town-group followed in the 1961 Census. An urban unit is treated as an urban agglomeration in the following situations:

(a) A city with continuous out-growth (the part of out-growth being out of the statutory limits but falling within the boundaries of the adjoining village or villages).

(b) One town with similar out-growth for two or more adjoining towns with their out-growths as in (a) and

(c) A city and one or more adjoining towns with their out-growths all of which forming a continuous spread.

Thus the Urban Agglomeration represents wholly the urban population only. In Andhra Pradesh, the following four places are treated as Urban Agglomerations.

Name of the Urban Agglomeration	*Constituent Units in the Urban Agglomeration*
(1)	(2)
1 Visakhapatnam Urban Agglomeration	(*a*) Visakhapatnam City
	(*i*) Visakhapatnam Municipality
	(*ii*) Gajuvaka Out-growth
	(*b*) Gopalapatnam Town
2 Rajahmundry Urban Agglomeration	(*a*) Rajahmundry Municipality
	(*b*) Rajahmundry Non-Municipal Area
3 Vijayawada Urban Agglomeration	(*a*) Vijayawada Municipality
	(*b*) Patamata Town
	(*c*) Gunadala Town
4 Hyderabad Urban Agglomeration	(*a*) Hyderabad Municipal Corporation
	(*i*) Hyderabad Division
	(*ii*) Secunderabad Division
	(*b*) Secunderabad Cantonment
	(*c*) Malkajgiri
	(*d*) Alwal
	(*e*) Uppal Khalsa
	(*f*) Balanagar
	(*g*) Fatehnagar
	(*h*) Macha Bolaram
	(*i*) Osmania University
	(*j*) Lalaguda
	(*k*) Kukatpalle
	(*l*) Moosapet
	(*m*) Bowenpalle
	(*n*) Zamistanpur

The Standard Urban Area (S. U. A.)

The concept of the Standard Urban Area has been evolved for the first time at the 1971 Census to give out a more meaningful picture of the urban growth. The town-group concept adopted at the 1961 Census did not effectively tackle the problems involved in reporting urban statistics apart from lacking a uniform application throughout the country. It also did not bring out a spatially contiguous territory of urban-rural settlements but merely bound up loosely clustered population popularly known as the satellite towns or the constituent units whose jurisdictions were subjected to frequent changes and thus lacked in stability. The intervening rural areas were also left out of the account. Consequently the conclusions drawn became not only invalid over a time but also lost spatial comparability with similar data processed both within the country and outside. These short-comings reduced considerably the utility of the town-group concept. To enable the presentation of urban statistics on an uniform basis and also to ensure comparability of the census data from one decade to another and with similar data available from other countries, the concept of Standard Urban Area has been envisaged and adopted at the 1971 Census.

The Standard Urban Area is defined as the projected growth area of a city or town as it would be in another three decades taking into account not only the towns and villages which will get merged into it but also the intervening areas which are potentially urban. The tract includes all extra Municipal urban out-growths such as the suburbs (industrial and residential), Railway Colonies, Civil Lines, Cantonments and also such of those villages that are likely to be urbanised during the next three decades. The Standard Urban Area is thus an area which extends well beyond the chief core city or town and contains all likely developments over the next 30 years. It will remain a statistical reporting unit for the next three successive censuses, irrespective of the jurisdictional changes of the local administrative units within the tract. The Standard Urban Area will be identified by the administrative units that it encompasses namely the city, the town, the village. The boundaries of the Standard Urban Area will be the administrative boundaries of the peripheral units.

In demarcating the Standard Urban Area the following criteria are followed:

(i) The core town should have a minimum population of 50,000

(ii) The contiguous areas should be made up of other urban as well as rural administrative units having close and mutual socio-economic links with the core town and

(iii) The entire area included in the Standard Urban Area is likely to be urbanised in a span of two to three decades.

In Nellore District, Nellore Town with its surrounding villages is treated as Standard Urban Area. Details about Standard Urban Areas are given in Table A-V at Pages 175–185 of Part II–A. General Population Tables of Andhra Pradesh and may be referred to.

PART - A

VILLAGE AND TOWN DIRECTORY

SECTION I - Village Directory

SECTION II - Town Directory

SECTION I

VILLAGE DIRECTORY

The main purpose of the Village Directory is to indicate the available important facilities like educational, medical, drinking water supply, communications and electric supply facilities in each village. The collection and presentation of such data was first attempted at the 1961 Census and the different facilities available were shown by abbreviated letters under five columns along with the Primary Census Abstract. But at the 1971 Census it was decided to present such particulars in greater detail in the Village Directory and to give the Primary Census Abstract separately. Besides presenting the data on basic amenities like, educational, medical, electricity, drinking water supply, communications, posts and telegraphs, the particulars about the staple food commonly used by the majority of the people, land utilisation, the name and distance of the nearest town, the market/shandy days, places of historical or religious or archaeological or tourist importance, if any, of the villages have also been collected and presented in the Village Directory. The Village-wise Primary Census Abstract is presented separately in Part B of this Volume.

In the Village Directory, the revenue village is taken as the lowest unit for presentation of data. The Villages are arranged in the ascending order of Location Code Numbers assigned to the villages. Unlike the Town Directory, the Village Directory contains only one statement. An alphabetical list of villages with the Location Code Numbers against them is given at the beginning of the Village Directory of each taluk. This facilitates the reader to select the required village from the alphabetical list and after knowing its location code number to obtain the necessary particulars from the Village Directory. The Village Directory is broadly divided into four broad sections *viz.*, location particulars, basic amenities like education, medical *etc.*, land utilisation and distance from urban area and the importance of the village as a religious or tourist centre.

Columns 1 to 3 deal with the location code number, name and the total area of the village. The area given under Col. 3 is as per the data furnished by the Tahsildar and the State Survey Department.

Columns 4 to 9 give the basic amenities available in the village such as the educational, medical, electricity, drinking water, communications, postal facilities.

The educational facilities are shown by the following symbols under column 4 :

P	...	Primary or Elementary School
M	...	Middle School
H	...	High School or Higher Secondary School
C	...	College
T	...	Technical Institution

If there are more institutions than one of a type in the village the number of institutions is indicated within brackets against the abbreviations *e. g.*, 3 P, 2 M, 3 H, *etc.*

Medical and Public Health facilities existing in the village are shown by the following symbols under col. 5 :

H	...	Hospital
D	...	Dispensary
Mcw	...	Maternity and Child Welfare Centre
Fpc	...	Family Planning Centre
Phc	...	Primary Health Centre

If the village is electrified then it is indicated by the letter 'E' under column 6.

The types of drinking water supply sources available within the village are indicated as below:

T	...	Tap
W	...	Well
Tk	...	Tank
Tw	...	Tube Well
R	...	River
C	...	Canal

If there are any other sources of drinking water other than the above, then such sources have been spelt out.

If the village is served by one or more of the following means of communications within a distance of one mile from the village, then the communication

facilities of the village under column 8 have been indicated as bellow :-

PR	...	Pucca Road
KR	...	Katchcha Road
T	...	Train
R	...	River
C	...	Canal

The postal facilities, if any, existing in the village are indicated under column 9 by the following symbols :

PO	...	Post Office
TO	...	Telegraph Office
P & TO	...	Post & Telegraph Office
Phone	...	Telephone

If a village does not have any of the above facilities then "..." is indicated against such village under relevant column.

The staple food of the majority of the population of the village during the major portion of the year is indicated under column 10 *e.g.* rice, Jowar, Ragi *etc.* If there is variety of grains mainly used in a village, then they have been indicated, accordingly. *e. g.* Rice and Jowar *etc.*

Ri	...	Rice
W	...	Wheat
J	...	Jowar
B	...	Bajra
Ra	...	Ragi
M	...	Maize

Columns 11 to 15 relate to the land utilisation statistics. Under column 11 the extent of the forest area is given. Under columns 12 and 13 the extent of the cultivated area in the village is given. The extent of area irrigated together with area irrigated under different irrigational sources such as canals, tanks, wells, tube wells *etc.*, are given, wherever available under column 12 while under column 13 the extent of land unirrigated is given. Column 14 gives the extent of cultivable waste. The area not available for cultivation such as village site, rivers, canals, tanks, wells *etc.*, is given under column 15.

The various types of land use given under each of the columns 11 to 15 are listed out below and the concepts explained subsequently :

Forests (Col. 11) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2 Cultivated area with breakup of irrigated & unirrigated (Cols. 12 and 13.) This includes the land under the following three categories.

(*i*) *Net area sown* :
The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(*ii*) *Current fallows* :
This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

(*iii*) *Other fallows* :
This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming etc.

3 Cultivable waste (Col. 14) This includes the land under the following three categories.

(*i*) *Miscellaneous tree crops, groves not included in the area sown.*
Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural uses. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel etc., which are not included under "Orchards" are classed under this category.

(*ii*) *Culturable waste* :
This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

3 Cultivable waste (Col. 14)–*Concld.*

(*iii*) *Permanent pastures and other grazing lands :*

These cover all grazing lands whether they are permament pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

4 Area not available for cultivation (Col. 15)

This includes the land under the following two categories.

(*i*) *Barren and uncultivable land :*

This covers all barren and uncultivable land like mountains, etc., *i.e.*, which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

(*ii*) *Land put to non-agricultural uses:*

All lands occupied by buildings, roads and railways or under waters *e.g.*, rivers and canals and other lands put to uses other than agricultural.

Under column 16 the distance of the village from the nearest town in Kms. is given. The days on which weekly market/shandies, if any, held in the village are given under column 17. If the village has any historical/religious/archaeological tourist importance, it has been indicated under column 18.

All the above particulars are based on the data obtained from the Tahsildars and local bodies concerned and also from the concerned departments like Postal, Medical, Education, and Electricity *etc.*

Villages by Population size

There are, in all, 1,099 villages in the district at 1971 Census of which 1,050 are inhabited and 49 are uninhabited villages. 9 villages of the total inhabited are partly included in different urban areas of the district. Sullurpet taluk has the largest number of villages *viz.*, 159 while Kavali taluk has the smallest number of villages *viz.*, 83. There have been slight changes compared to 1961 Census in the number of villages in a few taluks which is due to the regrouping of villages during the survey and settlement operations. Out of the total 1,050 inhabited villages, 579 villages or about 55% of the total inhabited villages in the district have a population of less than 1,000 each. 273 villages or about 26% of the total inhabited villages in the district are in the population range of 1,000–1,999. There are only 25 villages in the population size of 5,000-9,999 and 3 villages in the population size of 10,000 and above. A large proportion of the villages in these two categories are in Kavali and Kovur taluks. Villages belonging to the population range of 1,000–1,999 seem to be predominant generally in all the taluks. Villages lying in population range of 500 to 999 are predominant in Sullurpet, Venkatagiri and Udayagiri taluks while villages in the range of 2,000-4,999 are predominant in Nellore and Kovur taluks. Relatively Sullurpet and Gudur taluks have a larger number of smaller villages *viz.*, 29 and 23 respectively with a population of less than 200 each.

The distribution of villages by size class of population in each taluk is given below :

STATEMENT I

TALUKWISE DISTRIBUTION OF VILLAGES BY SIZE OF POPULATION

Name of the Taluk	Total Villages (Inhabited)	No. of Villages by Population Size						
		Less than 200	200-499	500-999	1,000-1,999	2,000-4,999	5,000-9,999	10,000 and above
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
1. Nellore	121	6	12	19	39	43	1	1
2. Gudur	136	23	29	33	36	12	3	..
3. Sullurpet	154	29	41	47	27	10	..	..

7. Udayagiri	117	7	26	37	31	14	2	..
8. Kavali	82	5	11	16	21	22	7	..
9. Kovur	87	4	4	11	22	36	9	1
Total	1,050	114	207	258	273	170	25	3

Villages classified by area

There are 349 villages *i.e.*, about 32% of the total villages including the uninhabited ones in the district with an area of less than 1,000 acres each. 242 villages or about 22% of the total villages fall in the area range of 1,001-2,000 acres each. 327 villages or about 30% of the total villages have an area ranging from 2,001-5,000 acres. Only 178 villages have an area of more than 5,000 acres each. There is relatively an higher proportion of villages in the area range of 2,001 to 5,000 acres each in the district and it is generally so in all the taluks except Gudur and Venkatagiri. In these two taluks a larger number of villages generally lie in the area range of 1,001 to 2.000 or 501 to 1,000 acres. Gudur taluk has comparatively more number of villages of smaller size in the district. The area particulars in respect of 3 villages are not available. The statement showing the distribution of villages in each taluk by size class of area is given below :

STATEMENT 2

TALUKWISE DISTRIBUTION OF VILLAGES BY SIZE CLASS OF GEOGRAPHICAL AREA

Name of the Taluk	Total No. of Villages	No. of Villages by Area (in Acres)								
		50 or less	51-100	101-200	201-500	501-1,000	1,001-2,000	2,001-5,000	5,001 & above	Unspecified

Educational Facilities

Education which has come to be viewed now as a potent means of development has a role, which needs no emphasis, in the gradual evolution of an enlightened community. It is, therefore, one of the basic amenities that has to be provided to the people. An idea of the extent and the level to which it has been provided in the rural areas of the district can be had from the statement given below. The villages are classified by the distance to the nearest town with which the villages have established commercial, social and other links.

STATEMENT 3

DISTRIBUTION OF VILLAGES BY EDUCATIONAL FACILITIES AND THE DISTANCE TO THE NEAREST TOWN

Distance from the nearest town (in Kms.)	Total No. of inhabited villages	No. of Villages having				
		Primary Schools	Middl Schools	High/Higher Secondary Schools	College	Others
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less	51	36	5	10	2	..
6-10	111	94	4	5	..	..
11-15	127	103	7	8	..	..
16-25	263	225	12	22	1	1
26-50	296	249	21	23	2	..
51-100	168	153	22	21	1	..
101-200	34	32	2	2	..	..
Total	**1.050**	**892**	**73**	**91**	**6**	**1**

Out of the total 1,050 inhabited villages in the district, Primary Schools exist in 892 villages or about 85% of total inhabited villages. 158 villages constituting 15% of the total inhabited villages do not have even the minimum educational facilities. 73 villages or about 7% of the total inhabited villages have Middle or Upper Primary Schools while 91 villages or about 8% of the total inhabited villages have High or Higher Secondary Schools. There are six colleges of which three are located in the rural areas of Gudur taluk and one in each of Atmakur, Kavali and Kovur taluks. The institutions shown under 'Others' generally include technical schools, basic training schools and oriental colleges, *etc.*

Medical and Public Health Facilities

Expansion of the medical facilities, particularly in the rural areas has been emphasised from time to time in the development plans. An idea of the extent to which these facilities are available in the rural parts of Nellore district can be had from the table below:

STATEMENT 4

NUMBER OF MEDICAL INSTITUTIONS

Name of the Taluk	No. of Medical Institutions		
	Hospitals	Dispensaries	Others (Phc, Fpc & Mcw)
(1)	(2)	(3)	(4)
1. Nellore	2	21	3
2. Gudur	7	24	6
3. Sullurpet	1	7	2
4. Venkatagiri	..	6	1
5. Rapur	3	9	2
6. Atmakur	1	4	3
7. Udayagiri	1	11	3
8. Kavali	5	10	8
9. Kovur	4	10	3
Total	24	102	32

There are 154 medical institutions of various types in the rural parts of the district. These institutions include 24 hospitals, distributed over all the taluks except Venkatgiri taluk, 102 dispensaries and 31 other medical institutions such as Primary Health Centres, Maternity Child Welfare Centres. Hospital facilities do not exist in the rural areas of Venkatagiri taluk while dispensaries and other medical institutions exist in all the taluks. The rural parts of Venkatagiri taluk have comparatively less facilities while the rural parts of Nellore and Gudur taluks have more facilities compared to other taluks in the district. On an average, there is one medical institution for every 100 Sq. Kms. rural area in the district.

Electrification

A statement showing the distribution of villages where power supply is available is given below.

The villages are classified by the distance to the nearest town to have an idea as to how far the rural areas remote from the urban centres are provided with power supply.

STATEMENT 5

NUMBER OF VILLAGES HAVING ELECTRICITY

Distance from the nearest town in Kms.	Total No. of villages	No. of villages where power supply is available
(1)	(2)	(3)
5 or less	51	26
6–10	113	47
11–15	133	58
16–25	277	142
26–50	318	98
51–100	172	34
101–200	34	..
Unspecified	1	..
Total	1,099	405

It may be noticed that a higher proportion of villages nearer to urban areas are electrified than the remote villages. 273 villages or more than two-thirds of the total electrified villages in the district are located with-in a distance of 25 Kms. from the urban areas. The taluk-wise break-up of these 405 electrified villages and the percentage of villages electrified to the total number of villages in each taluk are given in the table below:

STATEMENT 6

TALUKWISE DISTRIBUTION OF ELECTRIFIED VILLAGES

Name of the Taluk	Total No. of villages	No. of electrified villages	Percentage of villages electrified to total number of villages
(1)	(2)	(3)	(4)
1. Nellore	122	90	74.0
2. Gudur	152	67	44.1
3. Sullurpet	159	41	25.8
4. Venkatagiri	145	26	17.9
5. Rapur	115	55	47.8
6. Atmakur	116	24	20.7
7. Udayagiri	118	16	13.5
8. Kavali	83	26	31.3
9. Kovur	89	60	67.4
Total	1,099	405	36.8

Comparatively Nellore taluk has an higher proportion of villages electrified *viz.*, 74.0%. Next to it Kovur taluk comes in the order with 67.4%. Udayagiri taluk has the smallest proportion of villages electrified *viz.*, 13.5%. The proportion of villages electrified in Udayagiri, Venkatagiri and Atmakur taluks is not significant.

Communication facilities

421 villages or about 38% of the total villages including the uninhabited are connected by Pucca road while 447 or about 40% of total villages are by Katcha road only. Rail transport facilities are available in 36 villages or about 3% of the total villages. 231 villages out of 1,099 villages in the district are not connected either by Pucca road or Katcha road.

A statement showing the number of villages by type of road with which they are connected is given below by classifying the villages by distance to the nearest town:

STATEMENT 7

COMMUNICATION FACILITIES

Distance from the nearest town in Kms.	Total No. of villages	Number of villages connected by			
		Pucca road	Katcha road	Train	Others
(1)	(2)	(3)	(4)	(5)	(6)
5 or less .	51	26	20	10	5
6–10 .	113	52	46	5	15
11–15 .	133	61	41	8	31
16–25 .	277	114	124	8	39
26-50 .	318	101	142	5	75
51–100 .	172	57	62	..	53
101–200 .	34	10	12	..	12
Unspecified .	1	..	..	..	1
Total	1,099	421	447	36	231

Postal facilities

The following statement indicates the taluk-wise distribution of villages having post offices, telegraph offices and telephone facilities with average number of post offices for every 100 Sq. Kms. of rural area:

STATEMENT 8

TALUKWISE DISTRIBUTION OF VILLAGES WITH POSTAL COMMUNICATIONS

Name of the Taluk	Total No. of inhabited villages	Total Number of Villages having				
		Post offices	Telegraph Offices	Post & Telegraph Offices	Phones	Average No. of post offices per 100 Sq. Kms.
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1. Nellore .	121	86	2	..	..	6.5
2. Gudur .	136	50	4	..	2	4.2
3. Sullurpet .	154	46	..	..	..	3.2
4 Venkatagiri .	133	49	..	..	..	4.5
5. Rapur .	108	52	..	2	1	3.4
6. Atmakur .	112	73	..	1	1	4.4
7. Udayagiri .	117	65	2	..	..	2.9
8. Kavali .	82	61	2	..	1	4.2
9. Kovur .	87	65	2	..	10	6.6
Total	1,050	547	12	3	15	4.2

Among the total 1,050 inhabited villages in the district, 547 villages have Post offices, 12 villages have telegraph facility, 3 villages have combined Post and Telegraph offices and 15 villages have telephones in the rural areas of the district. For every 100 Sq. Kms. of rural area in the district there are about 4 post offices. The proportion of villages having post offices is higher in Nellore and Kavali taluks while it is low in Udayagiri and Sullurpet compared to other taluks in the district.

Staple Food

The main staple food of people in the rural areas in this district is rice. In a few parts Ragi and Jowar are also reported.

Cultivated Land

A statement showing the average cultivated land and the average cultivable waste per village classified by the distance to the nearest town is given below:

STATEMENT 9

AVERAGE SIZE OF CULTIVATED LAND AND CULTIVABLE WASTE PER VILLAGE BY DISTANCE TO THE NEAREST TOWN

Distance from the nearest town (in Kms.)	Number of Villages	Total Cultivated Land (Acres)	Average Cultivated Land per Village (Acres)	Total Cultivable Waste (Acres)	Average Cultivable Waste per Village (Acres)	Percentage of Average Cultivable Waste per Village to Average Cultivated Land per Village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less .	51	43,552	854	18,299	359	42
6–10 .	113	87,013	770	23,598	209	27
11–15 .	133	105,504	793	34,193	257	32
16–25 .	277	237,460	857	86,663	313	37
26–50 .	318	277,797	874	152,087	478	55
51–100 .	172	196,940	1,145	116,536	678	59
101-200 .	34	8,446	248	30,804	906	365
Unspecified .	1	N.A.	N.A.	N.A.	N.A.	N.A.
Total .	1,099	956,712	871	462,180	421	48

On an average the area under cultivation in each village is 871 acres while the extent of cultivable waste is 421 acres. In other words there is cultivable waste in each village equivalent to about 48% of the cultivated land which could be brought under the plough, perhaps, with some efforts. Areas nearer to urban areas seem to have smaller proportion of cultivable waste lands. The proportion of cultivable waste to the cultivated in the district is considerably high compared to other districts in the State. This is largely due to the barren tracts of land in the Western part of the district *viz.*, Udayagiri, Rapur, Venkatagiri taluks where the lands are not fertile and hardly yield anything worthwhile even with hard labour. The taluk-wise picture is also given below to have a comparative idea of the different taluks in the district.

STATEMENT 10

AVERAGE SIZE OF CULTIVATED LAND AND CULTIVABLE WASTE PER VILLAGE BY TALUKS

Name of the Taluk	Total No. of Villages	Total Cultivated land (Acres)	Average Cultivated land per Village (Acres)	Total Cultivable Waste (Acres)	Average Cultivable Waste per Village (Acres)	Percentage of Average Cultivable Waste per village to average Cultivated Land per Village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1. Nellore	122	172,248	1,412	49,137	403	29
2. Gudur	152	85,255	561	52,461	345	61
3. Sullurpet	159	73,444	462	14,743	93	20
4. Venkatagiri	145	48,521	335	36,624	253	76
5. Rapur	115	78,300	681	50,991	443	65
6. Atmakur	116	145,660	1,256	56,380	486	39
7. Udayagiri	118	73,232	621	126,446	1,072	173
8. Kavali	83	172,667	2,080	51,731	623	30
9. Kovur	89	107,385	1,207	23,667	266	22
Total	**1,099**	**956,712**	**871**	**462,180**	**421**	**48**

The average cultivated land per village is more in Kavali, followed by Nellore while it is less in Venkatagiri taluk. The proportion of average cultivable waste to the cultivated land in each village is more in Udayagiri, Venkatagiri taluks with 173% and 76% respectively indicating the necessity for programming to reclaim the large cultivable waste land in these two taluks.

Conclusions

The several particulars furnished in the Village Directory reveal that:

i) Minimum educational facilities are not available in 15% of the inhabited villages in the district;

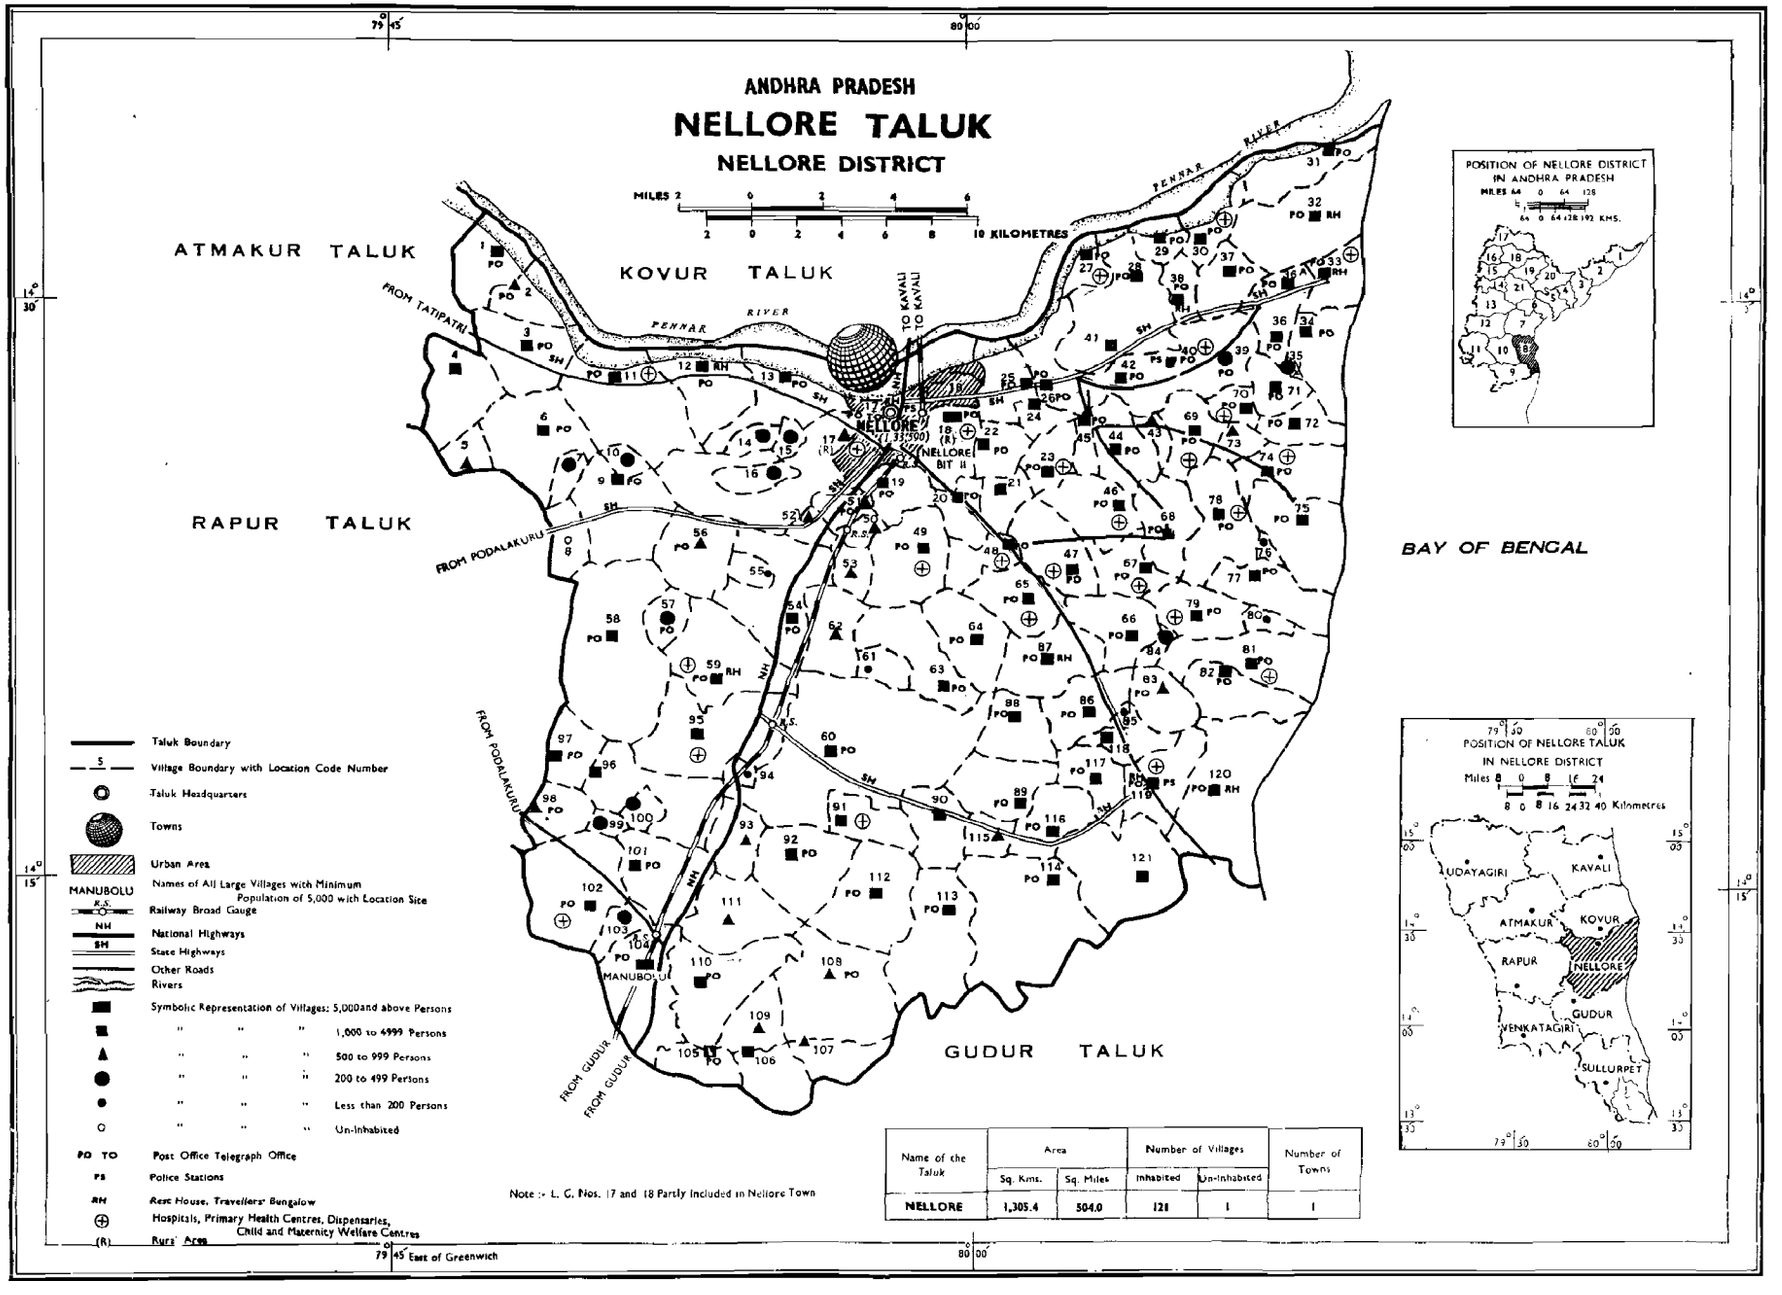

ii) There is about one medical institution for every 100 Sq. Kms. of rural area;

iii) Electricity is available in only 36.8% of the total villages in the district;

iv) Pucca road means of transport is available in about 38% of the total villages, and

v) An extent equivalent to about 48% of the cultivated land is left uncultivated in each village; indicating thereby that further development in these fields is necessary in the rural parts of the Nellore district.

"* Note: After the finalisation of list of villages for 1971 Census, the Tahsildar reported that certain villages, shown in the Village Directory with '*' mark were merged with some other villages during the survey and settlement operations. Hence, these villages are not independent revenue villages at present. However, these villages are shown in this list and as well as in the Village Directory and Primary Census Abstract of Venkatagiri Taluk to maintain continuty of Location Code Numbers already allotted."

SECTION II

TOWN DIRECTORY

Town Directory

In the Town Directory, the towns in the district are arranged alphabetically and the several particulars relating to them are given in the following seven statements:

Statement I Status, Growth History and Functional Category of Towns.

Statement II Physical Aspects and Location of Towns

Statement III Civic Finances

Statement IV Civic and Other Amenities in Towns

Statement V Medical, Educational, Recreational and Cultural Facilities in Towns

Statement VI Trade, Commerce, Industry and Banking Facilities in Towns

Statement VII Population by Religion and Scheduled Castes / Scheduled Tribes in Towns

The following seven places have been treated as Towns in Nellore District at the 1971 Census:

1 Nellore
2 Gudur
3 Sullurpet
4 Naidupet
5 Venkatagiri
6 Kavali
7 Kovur

No new towns have been added to the list of towns in this district at 1971 Census nor any of the 1961 Census towns are declassified at the present Census. Naidupet, Kovur and Sullurpet have been classified as towns from 1911, 1931 and 1941 respectively. All other towns *viz.*, Nellore, Gudur, Venkatagiri and Kavali have been classified as such from 1901. The variation in the number of urban units in the district from census to census is shown below:

Year of Census	No. of urban units
1901	5
1911	6
1921	6
1931	7
1941	9
1951	10
1961	7
1971	7

The decrease in the number of urban units at the 1961 Census is due to the application of the stricter and more uniform definition of a census town in 1961 Census. Three of the taluks of this district *viz.*, Rapur, Atmakur and Udayagiri are purely rural in character and they do not have any areas treated as towns. These taluks having large barren tracts with hardly any easily exploitable resources could not develop urban character.

None of the towns in this district has been treated as urban agglomeration while Nellore with some of its surrounding villages as detailed below is the only town treated as Standard Urban Area in the district.

Standard Urban Area	*Component Units*	
	Urban	*Rural*
(1)	(2)	(3)
Nellore	1. Nellore	1. Nellore (Bit-I)
	2. Kovur	2. Nellore (Bit-II)
		3. Kondayapalem
		4. Allipuram
		5. Padarupalle
		6. Vedayapalem
		7. Gangavaram
		8. Pothireddipalem
		9. Padugupadu

The total urban area in the district is only 75.1 Sq. Kms. constituting 0.56% of total geographical area of the district. The urban population of the district is 253,797 persons constituting 15.8% of the total population and are distributed among the 7 towns. The corresponding proportion of urban population in 1961 was 14.4%. Nellore town a district headquarters has a population of 133,590 persons and is the largest town in the district from population point. It is the only Class I town having a population of one lakh or more in the district. There are no

Class II towns with a population ranging between 50,000 and 99,999. Gudur and Kavali are the two Class III towns with a population lying between 20,000 and 49,999 each. Venkatagiri, Kovur, Sullurpet towns come in order and are Class IV towns whose population ranges from 10,000 to 19,999 persons each. The smallest urban unit from the population point is Naidupet with a population of 9,664 persons. It is Class V town with population ranging between 5,000 and 9,999 persons each. [There are no Class VI towns having a population of 5,000 persons in this district. The largest town in this district according to area is Sullurpet with 18.10 Sq. Kms. followed by Venkatagiri with 16.60 Sq. Kms. and Gudur is the smallest unit with an area of 4.54 Sq. Kms.

Statement I—Status, Growth History and Functional Category of Towns

In this statement the civic status of each of the towns determined at 1971 Census with their population since 1901 or from the Census in which it was treated as urban for the first time is given in columns 6 to 13. The functional characteristics of these towns are determined on the proportion of working population returned at 1961 and 1971 Censuses under each industrial category are also given under columns 14 and 15 of this statement. This could give an idea of the change, if any, in the economic pattern of the town between 1961 and 1971.

The civic status of the town *i.e.*, whether the town is a Municipality or a Panchayat is indicated under column 5 by an abbreviated letter like 'M' for Municipality and 'P' for Panchayat. Nellore, Gudur and Kavali are the only three Municipalities in this district while the remaining 4 towns *viz.*, Naidupet, Sullurpet, Venkatagiri and Kovur are Panchayats. The population of the towns recorded at each of the Censuses from 1901 or from the Census at which it was treated as urban unit is given under columns 6–13.

All the towns in the district except Gudur, Naidupet and Venkatagiri towns, have had a continuous growth of population but the growth in the last one or two decades is more significant than that in the earlier decades which seems to be due to the increased availability of several amenities of life, improved medical facilities and the fall in the general mortality rates. The increase in the population, particularly in the decade 1911–21 is comparatively low in all the towns on account of influenza epidemic that prevailed throughout the State.

In Gudur town there was a large decrease in its population from 17,251 to 8,006 or 53.6% during the decade 1901–1911 which may, perhaps, be attributed to the shrinking in the jurisdiction of the limits of the town. The loss sustained in the population of this town was made up gradually in the later decades. But a spurt in its increase may be seen in the decade 1941–'51 and there after. It is mainly due to its industrial and commercial importance and the expansion of mica Industry in and near the town. The slow rate at which the population is varying from Census to Census in Naidupet is due to the decaying importance of the town. The fall in its population at 1951 and 1961 and the fall of population of Venkatagiri town at 1961 Census is due to the abolition of Venkatagiri Zamindari besides the slump in the handloom trade which resulted in migration of the weavers to the nearby Mica Mines. There had been a fall in Kavali town also at the 1911 Census which may probably be due to the scarcity conditions prevailed in the town resulting in the emigration of the population of the town to the nearby localities to earn their livelihood.

Functional Category

By the very nature of Urban Development, the towns are bound to serve a variety of purposes. In order to have an idea of the extent to which the functions are diversified or the predominant characteristic is accentuated, a scheme of statistical classification was evolved at the 1961 Census. Accordingly each town can be classified broadly under the following categories *viz.*,

(i) **Primary Activity**— Agriculture, Mining and Fishing (Census Industrial Categories I, II and III of 1961 Census and Categories I, II, III and IV of 1971 Census)

(ii) **Industrial:**— Industry including Construction (Census Industrial Categories IV, V and VI of 1961 Census and Categories V(a), V(b) and VI of 1971 Census)

(iii) **Commercial :**— Trade and Commerce (Census Industrial Category VII of 1961 and 1971 Censuses)

(iv) **Transport:**— Transport (Census Industrial Category VIII of 1961 and 1971 Censuses) and

(v) **Services:**— Other Services (Census Industrial Category IX of 1961 and 1971 Censuses)

The predominant functional character of a city/town is determined on the basis of the following principles :

(a) If the proportion of working population is more than 40% of the total working population of the city/town in any one of the above five characteristics then the city/town was designated by that characteristic

(b) If the proportion is not more than 40% in any one of the characteristics, then the next predominant characteristic was taken into account and if the first two predominant charcteristics combined together have a proportion of over 60% then the town was designated as having the two characteristics and was termed as Industrial – *cum*–Services or Industrial – *cum*–Commercial, *etc.*

(c) If the combined proportion of the first two predominant characteristics is less than 60% then the third predominant characteristic is also taken into consideration in designating the functional type of the city/town. Such cases are recorded as Industrial – *cum* – Commercial *-cum*–Services or Industrial-*cum*-Services –*cum*-Primary Activities, *etc.*

Examined against this background the seven towns of this district fall under the following classification:

Functional Category	Name of Town	
	1961	1971
(1)	(2)	(3)
1 Primary Activities	Sullurpet	Naidupet, Sullurpet, Kovur
2 Industry	Venkatagiri	Venkatagiri
3 Industry–*cum*–Primary Activities	Naidupet	..
4 Services–*cum*–Industry	Nellore, Kovur	..
5 Services–*cum*–Primary Activities –*cum*–Trade and Commerce	Gudur, Kavali	..
6 Industry–*cum*–Services –*cum*–Trade and Commerce	..	Nellore
7 Trade and Commerce–*cum*–Services–*cum*–Primary Activities	..	Kavali
8 Primary Activities–*cum*–Industry –*cum*–Trade and Commerce	..	Gudur

Statement II—Physical Aspects and Location of Towns

This statement deals with physical aspects and location of towns in the district. There are 13 columns in the statement. Under columns 3 to 5 in the statement data relating to the average annual rainfall and the maximum and minimum temparature recorded in 1969 are given. If this information was not available for any town then the particulars available for the nearest town have been given against such town.

Under column 6 the name of the nearest city with population of a lakh or more is given. Under columns 7 to 9 the name of the State Headquarters, the District Headquarters, Revenue Divisional Headquarters and the Taluk Headquarters together with the distance there from are given. Under the columns 10 and 11 the nearest railway station and bus stand with their distances are given. If navigation and sea port facilities are available to the town they are also given under the columns 12 and 13.

Generally the climate in the district is dry and delightful. The fact that the district lies along the Bay of Bengal, its breeze renders the climate moderate both in winter and summer. The towns which are to the west of the district *viz.*, Venkatagiri and Naidupet, on the rocky plains have comparatively hot summers. The maximum and minimum temperatures among the towns of the district range from 43° C to 46.1° C and 16.7° C to 29.4° C respectively. Venkatagiri town records the highest maximum and minimum temperatures. The average annual rainfall in the towns ranges from 985.7 mm. to 1,164.0 mm. from both south west monsoon and north-east monsoons but the heaviest fall is from north-east monsoon. Sullurpet town recorded the maximum average annual rainfall and Kavali the minimum. Floods, cyclones, droughts are well known to the people in the district because of the whimsical nature of the monsoons in the district.

All the towns are taluk headquarters except Naidupet which is at a distance of 26 Kms. from its taluk headquarters. Three towns are located at a distance of 50 Kms. or less, and the remaining four towns are at a distance of more than 50 Kms. but less than 100 Kms. from the district headquarters.

The district is well served by road and rail communications. The bus transport in the district is under private management. All the towns are

connected with the district Headquarters. There are direct services to Hyderabad, Madras, Tirupati and other important towns of the other districts. Almost all the towns in the district are directly connected by rail. There are two important lines- the main broad-guage line connecting Madras and Calcutta and a branch broad-guage line from Gudur reaching Renigunta. Gudur is an important railway junction.

There has been an increasing demand for passenger and goods transport on these lines due to expansion of trade and commerce, industrialisation and consequent economic development. In order to meet this demand introduction of high power traction such as diesel engines and doubling of the lines are undertaken in this district. Besides modernisation of the railways, private goods and passenger services by road are also being expanded in the district.

Further the district is also provided with navigation facilities providing cheap cargo and passenger movement. Of the seven towns, Sullurpet and Naidupet are the two towns which are in the vicinity of these navigation facilities.

Statement III—Civic Finances

Since the introduction of the democratic decentralisation the popular institutions like panchayats have an important role in the various developmental programmes. The effective run of these institutions would depend naturally on the financial soundness of these institutions. The receipts from various sources of these Municipalities and Panchayats are presented under cols. 3 to 8 and their total under col. 9. The broad items of the expenditure are given under cols. 10-15 with their total under col. 16. It may be seen from the statement that revenue receipts of Nellore, Venkatagiri and Kovur towns are not adequate to meet their expenditure. The deficit in respect of Venkatagiri is more compared to that in the other two deficit towns. In Gudur town 'Other sources' under receipts as well as expenditure seem to have recorded an higher proportion to total receipts/expenditure.

Statement IV—Civic and other Amenities in Towns

The various amenities being provided to the people by the Civic Administration in towns are given in this statement under 16 columns. Particulars are given in respect of internal road facility, the existences and nature of drainage system, protected water supply, the availability of fire fighting services and electrification to domestic, industrial and commercial spheres and road lighting services and 'Others'.

The Government have a programme of stopping the practice of removing the night soil by means of head loads and to minimise the human labour in the process of removal of night soil at various stages. The particulars furnished under col. 8 will therefore be helpful to assess the extent to which this objective of the Government has so far been achieved.

The civic administration in each of the towns of the district maintains roads. Nellore records the highest internal road mileage in the district. All the 7 towns have the open surface drains besides the sewerage system in Nellore, Gudur, Naidupet and Sullurpet. The facility of either the water borne or service latrines is reported to be available in all the 7 towns and the wheel barrows system seems to be the chief practice of removing the night soil but in a few towns *viz.*, Gudur, Naidupet and Sullurpet the bucket system prevails. Protected water supply which is the primary responsibility of the civic administration of the towns, is reported to be available only in Nellore, Gudur and Kavali. Fire fighting service facility is available in three towns only *viz.*, Nellore, Gudur, and Kavali. Power supply is available in all the seven towns.

Statement V—Medical, Educational, Recreational and Cultural Facilities in Towns

Medical, Educational, Recreational and Cultural facilities available in the towns are given in this statement under 17 columns. The types of medical institutions with their number within brackets and the total bed strength of each category available in each town are shown under cols. 3 and 4 respectively. The following abbreviations are used under column 4 to show the type of medical facilities available in the town.

Medical Institutions :

H	...	Hospital
D	...	Dispensary
MCW	...	Maternity and Child Welfare Centre
FPC	...	Family Planning Centre
PHC	...	Primary Health Centre
NH	...	Nursing Home
TBC	...	T.B. Clinic

All the 7 towns in the district together have 99 Medical institutions which include Hospitals, Dispensaries, Maternity and Child Welfare Centres, Family Planning Centres, Nursing Homes, T.B. Clinics *etc.*, of which the district 'Headquarters' Hospital, the T.B. clinic, the ABM Hospital, the St. Joseph Maternity Hospital at Nellore and the Government Hospitals at Gudur and Kavali are important and well equipped. Medical facilities under welfare activities are available in the regions of mica mines near Gudur. The total bed strength available in all the 99 institutions is 1,270 catering to the needs of the entire urban population of 253,797 persons in the district. Thus there are about 5 beds for every 1,000 urban population in the district. Nellore and Kavali towns are better placed compared to other towns with a bed facility of 1,012 and 150 respectively.

Educational Facilities:

The extent to which educational facilities are available in the towns of Nellore District are furnished in the statement, under cols. 5 to 13. The number shown in brackets is the number of institutions available in the category.

The following abbreviations are used to indicate the type of educational facility available in the town:

A : Arts College
AS : Arts and Science College
AC : Arts and Commerce College
ASC : Arts, Science and Commerce College
SH : Shorthand Institution
TW : Typewriting Institution

There are five colleges in all the seven towns together, of which two colleges, one at Nellore and the second at Kavali impart instruction in Arts, Science and Commerce subjects; two colleges one at Nellore and another at Venkatagiri town impart instruction in Arts Subjects only; and one college imparts instructions in Arts and Science at Gudur town. There is one Graduate Teacher Training College and one Oriental College at Nellore town. Institutions teaching Medicine, Engineering, Veterinary Science, Agriculture, Home Sciences are not located in any of the towns except the three polytechnic institutions, two located at Nellore town and one at Gudur. There is one Industrial Training Institute at Kavali town. There are 21 type writing and 10 shorthand institutions in the district, the bulk of which are at Nellore.

There are 31 Higher Secondary or Secondary Schools, 8 Junior Secondary/Middle Schools and 110 Primary Schools in the Urban areas of the district. The following table shows the number of these institutions per 10,000 urban population in the district:

Name of Town	No. of schools per 10,000 population		
	Higher Secondary or Secondary	Junior Secondary/ Middle	Primary
(1)	(2)	(3)	(4)
Nellore .	1 0	0.3	3.4
Gudur .	1 0	0.3	4.1
Naidupet .	4.1	1.0	4.1
Sullurpet .	1.6	0.8	6.3
Venkatagiri .	1.7	0.6	6.3
Kavali .	1.4	..	5.7
Kovur .	1.2	..	5.9
District urban average	**1.2**	**0.3**	**4.3**

Regarding the recreational and cultural aspect, there are 22 Cinema halls, 6 Auditorium halls and 22 reading rooms including libraries in all the 7 towns together. A majority of these *viz.*, 11 cinema halls, 3 auditoria and 9 libraries including reading rooms are located at Nellore town which besides being the district Headquarters is a reputed cultural centre and a film journalist centre. Thus Nellore is the most important town in the district and in view of its expanding commercial and industrial activities, there is scope for its further development in the years to come.

Statement VI—Trade, Commerce, Industry and Banking Facilities

In this statement, data on trade, commerce, industry and banking facilities available in each town are given under fifteen columns. Under columns 3 to 5 the three most important commodities imported into the town are given while under columns 6 to 8 the three most important commodities exported from the town are given. Under columns 9 to 11 the three most important articles manufactured in the town are given. Columns 12 to 14 are devoted to present the banking and co-operative credit facilities available in the town.

The three most important commodities under imports, exports and manufacture were decided in terms

of the estimated volume of the commodities transacted and in terms of the volume of total output of the commodities concerned respectively in each of the towns and not on the basis of the value. However, the uniqueness of a town which exhibited special characteristics in the spheres of either industry or manufacture or mining etc., has been retained by indicating those items of production or manufacture as the case may be in the concerned columns although such commodities did not stand a comparison with the other commodities in sheer terms of their estimated volume of transaction.

Nellore district like other districts in the State is predominantly agricultural. The principal rivers that drain the district are the Penna with two anicuts at Sangam and Nellore and the Swarnamuki. The other rivers are Musi, Paleru, Manneru and Kandleru. The other irrigation sources are the tanks, wells which are rain fed. The places which depend on rain-fed tanks and wells *viz.*, Venkatagiri and Sullurpet towns are exposed to famine during drought years. Paddy is the chief cereal crop and Nellore is known as the chief exporting centre of rice mainly to the neighbouring Tamil Nadu. The other important food crops are Jowar, Bajra, Ragi, Horsegram etc. Among commercial crops, chillies, castor and groundnut are the important crops. Cotton and tobacco are also raised in small extents. The district is also widely also known for mica mines which are concentrated in Gudur taluk.

IMPORTS

The principal imports into the district are pulses, sugar, beedi leaves, chemical fertilisers, cement, mill cloth of various types including teryene and terylen, electrical goods, agricultural machinery and equipment.

EXPORTS

Among the commodities exported from this district, Mica is important and is largely being exported from Gudur and its surrounding places mainly to Japan, East European countries and U.S.A. earning considerable foreign exchange. Next to mica, paddy is exported mainly from Nellore since rich harvests are reaped from deltaic areas of the district but most of the trade is with the adjoining Tamil Nadu The other items exported are turmeric, betal leaves, lemon fruits, chillies, yarn, handloom sarees and tiles.

The industrial sector in the district is very inadequate to meet the needs of the district and is dominated by cottage and village type industries. Among the chief industries in this district, the mica mining industry the Ceramic Factory, the Glass Factory located at Gudur, the Straw Board Factory at Nellore the Spinning Mill at Sullurpet are important. The important Small scale industries are the light engineering industries at Gudur, the small units at Nellore producing polythene tubings, bags and ceramic products, the rice and oil mills which are concentrated in the rich paddy and oil seeds producing areas in the district, straw factories in Nellore and the sainless steel units spread over 3 or 4 centres of the district. The handloom sarees of Venkatagiri which are known throughout the State, match manufacturing at Nellore, beedi manufacturing at Naidupet and tile manufacturing at Kavali are some of the important cottage industries in the district. One Assisted Private Industrial Estate is located at Nellore. It is thus seen that Nellore and Gudur are assuming industrial prominence and are fastly developing. Kavali and Kovur are the other urban areas coming up in industrial activities.

Generally the towns are noted as marketing centres where the wholesale markets known as *'mandis'* are located. The export and import of various commodities seen above will take place in those centres. For obvious reasons these centres are also serving as the link markets for several commodities coming in from the neighbouring taluks. Nellore, Kavali, Naidupet, and Gudur are the chief commercial centres of the district with large wholesale and retail markets which play a prominent role in trade by virtue of their having good communications. A substantial volume of wholesale business of the district in mica, rice, turmeric, chillies *etc.*, is transacted at these booming trade centres. Besides the trade importance of some of these centres, they are rapidly developing into important industrial centres.

Banks play an important role in Industry, Trade and Commerce particularly in mobilising the savings of the community and making them available for investment for productive activities. The district presents a fair picture in the field of banking since every town has one or more banks. In all, there are 29 banks, 8 Agricultural Credit Societies, and

23 non agricultural credit societies, in all the 7 towns together. But many of these namely 16 banks and 14 non-agricultural credit societies are located in Nellore itself.

Statement VII—Population by Religion and Scheduled Castes/Scheduled Tribes

The details of the population, as per the 1971 Census count, by Religion, Scheduled Castes and Scheduled Tribes with sex break-up are shown for each of the towns in the district under columns 3 to 22. Only important religions whose population is not less than 10% of the total population of the town are given in the statement, while other religions which account for less than 10% of the total population of a town are grouped together and shown under the category *viz.*, "Others" in columns 15 and 16. The Scheduled Castes and Scheduled Tribes population in a town are shown under columns 19-22. 19,145 persons are reported under Scheduled Castes in urban areas of this district accounting for 6.0% of the total Scheduled Castes population in the district, while only 17,172 persons are reported under Scheduled Tribes in urban areas constituting 13.2% of the total Scheduled Tribes population in the district.

The particulars presented in the statements II to VI are based on the data obtained from the Tahsildars and local bodies concerned and also from, the concerned departments like Medical, Educational Electricity departments or *etc.*, while the particulars furnished in Statements I and VII are based on the Census data.

PART B

PRIMARY CENSUS ABSTRACT

In this part of the District Census Handbook the Primary Census Abstract of 1971 Census on the following aspects is presented for each Revenue Village in respect of rural areas and for each Ward and each Enumerator's Blocks of a town in urban areas.

1 Location Code No. and Name of the village/town and area

2 Total number of occupied residential houses and total number of households

3 Total population and its sex breakup

4 Population of Scheduled Castes and Scheduled Tribes by sex breakup

5 Literate and educated persons by sex

6 Total workers and the breakup of the workers into nine categories and also the total non-workers by sex as shown below:

Category I Cultivators

Category II Agricultural Labourers

Category III Livestock, Forestry, Fishing Hunting and Plantations, Orchards and allied Activities

Category IV Mining and Quarrying

Category V Manufacturing, Processing, Servicing and Repairs

(a) Household Industry

(b) Other than Household Industry

Category VI Construction

Category VII Trade and Commerce

Category VIII Transport, Storage and Communications

Category IX Other services

Category X Non-Workers

A District Abstract containing the Primary Census Abstract data for the district as a whole together with rural and urban breakup and also for each taluk and for each town is first presented. It is followed by the data for each of the villages and towns in the first taluk. The data for the second and subsequent taluks are presented consecutively thereafter. The villages under each taluk are arranged in the ascending order of Location Code Numbers. In the urban areas the data are arranged in the ascending order of Location Code Numbers of towns and also in the ascending order of the Ward Number. The uninhabited villages and villages which have been fully included in a town have been indicated accordingly. In respect of villages which are partly included in towns the word "*Rural*" has been added in italics and in brackets after the name of the village and the particulars relating to the rural portion only have been given against such villages. At the beginning of each taluk an Alphabetical list of Villages together with their Location Code Numbers and a taluk map showing all the villages and towns with their boundaries are given. This Alphabetical List of Villages facilitates the reader in locating the required Village and its Location Code Number and thereafter know the Primary Census Abstract particulars. The taluk map facilitates the location of the required village/town. The jurisdiction of each Enumerator's Block is given before the urban/blockwise Primary Census Abstract.

The population data presented in 38 cols. of the Primary Census Abstract relate to all persons alive at sunrise on 1st April, 1971 and were present within the territory of Nellore district whether they lived in normal residential houses or in institutions, such as hospitals, hostels, asylums, boarding houses, hotels *etc.*, or whether they were merely houseless persons like the wandering tribes, tramps, pavement dwellers, or those living in boats *etc.* They were all enumerated at the 1971 Census and their basic characteristics have been presented in this Primary Census Abstract.

The total population of Nellore district as on 1st April, 1971 recorded at the Census enumeration is as follows:

	Total	Rural	Urban
Persons	1,609,617	1,355,820	253,797
Males	810,701	681,609	129,092
Females	798,916	674,211	124,705

The criteria adopted for classifying a place as rural or urban and the concepts of Urban Agglomeration and Standard Urban Area have already been explained in the beginning of this volume.

Columns 1 and 2 of the Primay Census Abstract indicate the Location Code Number and the name of the village or town concerned. In respect of towns the Ward/Block/Locality numbers and the Enumerator's Block Numbers are indicated under col. 2.

Location Code is the method by which every village and town in a taluk in every district of State is identified. Each district in this State has been given a separate code number, serially numbering the districts in a clock-wise order starting from Srikakulam district and ending with Nalgonda district. Nellore district,in this process,is assigned Location Code No.8. Within each district the taluks had similarly been allotted Location Code Numbers, the taluk in which the district headquarters lies being allotted Location Code No. 1 and the other taluks are numbered in a clock-wise order. The revenue villages within each taluk are assigned separate serial numbers starting from the north-western corner of the taluk and ending with the south-eastern corner in a serpentine order. All the towns within a district were assigned Location Code Nos. in one serial order starting from the town in which the district headquarters is located and in the ascending order of taluk location code numbers. If any taluk has more than one town, then the town in which the taluk headquarters is located is assigned Location Code No. first and then the other towns in the taluk in a clock-wise order. The Location Code Nos. of villages are indicated in Arabic numerals while those of towns in Roman numerals.

Under col. 3 the area of each of the villages and towns is given in square miles based on the information furnished by the State Central Survey Office, the Tahsildar and the Municipal authorities concerned. In respect of certain villages where the area particulars are not available, the fact is noted as "NA". As the area of the taluk comprises not only the area of villages but also the area of reserved forests, hills *etc.*, within the taluk, the area of all the villages and towns in the taluk put together may not be equal to the area of the taluk. The rural area of the taluk is obtained by deducting the total urban area of all the towns in the taluk from the total area of the taluk furnished by the State Survey Department. Similarly the rural area of the district is obtained by deducting the total urban area of all the towns in the district from the total area of the district. It may be pointed out in this connection that the total district area adopted is that furnished by the Survey of India Department and is provisional. The area of the taluks is furnished by the State Survey Department. Hence the total area of all taluks put together may not tally with the district area.

Under col. 4 the total number of occupied residential houses in each village and in each Ward and Enumerator's Block of a town are given. These figures include those of partly residential houses also but not of the completely non-residential houses. The total number of households including houseless households and institutional households is given under col. 5.

The total population including houseless and institutional population with sex breakup is given under cols. 6 to 8.

Under cols. 9 to 12 the population of Scheduled Castes and Scheduled Tribes by sex is given.

The Scheduled Castes and Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I and Schedule II respectively of the Scheduled Castes and Scheduled Tribes Lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi dated 29th October, 1956. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given below.

LIST OF SCHEDULED CASTES AND SCHEDULED TRIBES IN ANDHRA PRADESH

SCHEDULED CASTES

I. Throughout the State

1 Chalavadi
2 Chamar, Mochi or Muchi
3 Madiga
4 Mala

II. *Throughout the State except* Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts.

1 Adi Andhra
2 Adi Dravida
3 Arundhatiya
4 Bariki
5 Bavuri
6 Chachati
7 Chandala
8 Dandasi
9 Dom, Dombara, Paidi or Pano

10 Ghasi, Haddi or Relli, Chachandi
11 Godagali
12 Godari
13 Gosangi
14 Jaggali
15 Jambuvulu
16 Madasi Kuruva or Madari Kuruva
17 Mala Dasu
18 Madiga Dasu and Mashteen
19 Matangi
20 Mundala
21 Paky or Moti
22 Pambada or Pambanda
23 Pamidi
24 Panchama or Pariah
25 Relli
26 Samban
27 Sapru
28 Thoti

III. In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda.

1 Anamuk
2 Aray (Mala)
3 Arwa Mala
4 Beda (Budga) Jangam
5 Bindla
6 Byagara
7 Chambhar
8 Dakkal (Dokkalwar)
9 Dhor
10 Ellamalwar (Yellammalawandlu)
11 Holeya
12 Holeya Dasari
13 Kolupulavandlu
14 Mahar
15 Mala Dasari
16 Mala Hannai
17 Mala Jangam
18 Mala Masti
19 Mala Sale (Netkani)
20 Mala Sanyasi
21 Mang
22 Mang Garodi
23 Manne
24 Mashti
25 Mehtar
26 Mitha Ayyalvar
27 Samagara
28 Sindhollu (Chindollu)

SCHEDULED TRIBES

I. Throughout the State

1 Chenchu or Chenchwar
2 Koya or Goud with its sub-sects-Rajah or Rasha Koyas Lingadhari Koyas (ordinary), Kottu Koyas, Bhine Koya and Rajkoya.

II. Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts.

3 Valmiki

The number of literate and educated persons is given under cols. 13 and 14. A person who could both read and write any language with understanding was treated as a literate at the 1971 Census. A person who could merely read but could not write or *vice versa* was not treated as a literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterate. The test for education was that the person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

The details of Workers and Non-Workers are given under cols. 15 to 38. At the 1971 Census the population has been broadly divided into two sections based on the main activity *viz.*, (I) Workers and (II) Non-Workers

The definitions and concepts adopted in the economic classification of the population at the 1971 Census are explained below:

Worker: A 'Worker' was a person whose main activity was participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

A man or woman who was engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who was primarily a student attending institution, even if such a person helped in the family economic activity but not as a full time worker, was not treated as a worker for the main activity. On the other hand, if a person was primarily engaged in some economic activity but at the same time attended to

some household chores or attended a night school *etc.*, he or she was treated basically as a worker for the main activity and categorised accordingly.

A person who was working may be either working as a cultivator, as an agricultural labourer or at a household industry or may be doing any other work.

Reference Period : The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this had been returned as his main activity the person was categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness, travel, holiday, temporary breakdown or strike *etc.*, was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as economically active and recorded as workers. A person who had merely been offered work but had not actually joined it was not treated as engaged in work. There are certain types of works which are not carried on throughout the year *e.g.* cultivation, livestock keeping, plantation work, some types of household industry *etc.* A person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year.

Cultivator : For purposes of the Census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner of lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, *etc.*, and pulses, raw jute and kindred fibre crops, cotton, *etc.*, and other crops such as sugarcane, groundnuts, tapioca, *etc.*, and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owned land but had given out land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land, was not treated as cultivator. ' Similarly, a person working in another person's land for wages in cash, kind or share was not treated as cultivator.

Agricultural Labourer : A person who worked in another person's land for wages in money, kind or share was regarded as an 'Agricultural Labourer'. He had no risk in the cultivation but he merely worked in another person's land for wages. The labourer had no right or lease or contract on land on which he worked.

Household Industry : For a person who returned his main activity as engaged in some production or processing of goods such as, say, handloom weaving, dyeing, carpentry, beedi rolling, pottery manufacture, dairying, cycle repairing, blacksmithy, tailoring *etc.*, it was ascertained if it was a household industry.

A Household Industry was defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not have been run on the scale of a registered factory.

The main criterion of a household industry was the participation of one or more members of a household. This criterion was applied to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence the household industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves ran an industry but at a place away from the precincts of their home, it was not considered a household industry. It should have been located within the precincts of the house where the members lived.

A Household Industry related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions such as pleader or doctor, or barber, musician, dancer, waterman, dhobi, astrologer *etc.*, or merely trade or business, even if such profession, trade or services were run at home by members of household.

Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. It was, therefore, enquired whether the person who was not working in his own household industry was working in any other Household Industry as an employee.

Other Workers: A person who gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry was recorded under the category of 'Other Workers'. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all government servants, municipal employees, teachers, mining workers, political or social workers, building labourers *etc.* In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry were recorded under this residual category. Workers engaged in plantation or forestry were not treated as cultivators or agricultural labourers but as 'Other Workers'.

According to the 1971 Census there were 330,935 residential houses and 341,405 households in Nellore district compared to 294,854 residential houses and 299,912 households in 1961. Thus there were 1.03 households per residential house at 1971 compared to 1.02 households per residential house in 1961.

The total number of persons returned at the 1971 Census enumeration in Nellore district was 1,609,617 as against 1,398,904 in 1961 Census recording an increase of 15.1% over the population of 1961; The proportions of rural and purban opulation to the total populations in the district work out to 84.2% and 15.8% respectively in 1971 Census compared to 85.6% and 14.4% in 1961. There were 985 females for every 1,000 males at the 1971 Census as against 989 females per 1,000 males in 1961 Census.

The number of literates and educated persons and the number of illiterates as per the 1961 and 1971 Censuses are given below:

NUMBER OF LITERATES AND EDUCATED PERSONS

Year	Number of Literates and Educated persons	No. of Illiterates	Percentage of Literates to Total Population of the dist.
1961	325,636	1,073,268	23.28
1971	431,814	1,177,803	26.83

It is observed that though there has been increase in the proportion of literate persons to total population, the number of illiterates has increased inspite of the increased educational facilities. Most of the villages have at least primary schools in the district.

The percentage of literates by sex to total, rural and urban areas in the district in 1961 and 1971 are as follows:

PERCENTAGE OF LITERATES TO TOTAL POPULATION IN

	1961			1971		
	T	R	U	T	R	U
Persons	23.28	19.31	46.83	26.83	22.31	50.94
Males	32.00	27.59	57.62	35.24	30.50	60.27
Females	14.45	10.99	35.49	18.29	14.03	41.28

The proportion of literates and educated persons continues to be low in the rural areas. It is generally so with other districts also in the State. This is mainly due to the fact that urban areas have more educational facilities and several urban occupations require a minimum level of education so that a large number of parents try to get their children educated, whereas the rural areas have relatively less educational facilities and the predominant rural occupation of Agriculture or Household Industry, generally does not require the workers in these fields to be educated. Even boys and girls of school going age are required to work in the fields in the rural areas. More than 85% of the rural females are still illiterates.

662,598 workers were returned in 1971 as against 719,746 workers in 1961 Census. Thus 41.2% of the total population were workers in 1971 as against 51.5% in 1961. The decrease in the proportion of working population in 1971 compared to the 1961

Census proportion is mainly due to the change in the definition adopted at the 1971 Census. In 1961 even marginal workers who spent most of their time basically as non-workers were treated as workers while in 1971 only those who were engaged for most of the time in production work were treated as workers. A detailed analysis and comparision with 1961 of work participation rates is given in the chapter on population in Part 'C' of the district census, which will be printed separately.

The following table gives the percentage distribution of the working population by Industrial Categories in rural and urban areas and for males and females in Nellore district.

PERCENTAGE DISTRIBUTION OF THE WORKING POPULATION

Category	Persentage of workers by category to total workers				
	Persons				
	Total	Rural	Urban	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)
I Cultivators	24.95	27.60	6.36	31.57	8.34
II Agricultural Labourers	47,02	51.54	15.22	36.09	74.47
III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards & Allied Activities	3.82	4.21	1.03	4.74	1.49
IV Mining and Quarrying	0.60	0.66	0.15	0.60	0.62
V Manufacturing, Processing, Servicing and Repairs					
(a) Household Industry	3.52	3.10	6.47	3.91	2.54
(b) Other than Household Industry	3.92	2.32	15.22	4.72	1.91
VI Construction	1.13	0.80	3.40	1.42	0.38
VII Trade and Commerce	5.14	2.80	21.62	5.76	3.59
VIII Transport, Storage and Communications	2.30	1.38	8.67	3.13	0.17
IX Other Services	7.60	5.59	21.86	8.06	6.49
Total	100.00	100.00	100.00	100.00	100.00

Cultivators and Agricultural Labourers in the district constitute more than two-thirds of the total workers in the district. Their proportion is as high as 79.14% of the total workers in the rural areas. Percentage workers in 'Other Services' which includes State and Central Government services, educational services, religious and welfare services, local and business services, personal services etc., takes the second place providing employment to 7.60% of total workers. Trade and Commerce, Household Industry, Manufacturing other than household industry and Livestock, Forestry, Fishing etc., are the only other categories accounting for 3% or more but less than 6% of the total workers.

Male agricultural workers *i.e.*, cultivators and agricultural workers account for about 67.66% of the total male workers in the district while the corresponding proportion for females is about 82.81%. Generally a large number of females than males work as as agricultural labourers because several agricultural operations like sowing, weeding, harvesting *etc.*, do not involve, heavy manual labour. The female participation rates in most of the other industrial categories is low generally compared to the corresponding male participation rates.

317,591 persons returned themselves as Scheduled Castes at the 1971 Census compared to 275,918 persons at the 1961 Census recording an increase of 15.10% over the Scheduled Castes, population recorded at the 1961 Census. The Scheduled Castes population of the district in 1971 forms 5.50% of the total Scheduled Castes, population of the State or 19.73% of the total population of the district. The proportion of Scheduled Castes, population to total population in the district is relatively high compared to their proportion in the State *viz.*, 13.27%. About 93.97% of Scheduled Castes, population in the district reside in rural parts of the district as they are generally unable to find suitable employment in the urban areas because many of them are illiterate.

130,277 persons (67,642 males and 62,635 females) returned themselves as Scheduled Tribes at the 1971 Census against 117,451 persons at the 1961 Census recording an increase of 10.92% of over the Scheduled Tribes, population in 1961. The Scheduled Tribes, population of the district in 1971 forms 7.86% of the total Scheduled Tribes, population of the State or 8.09% of the total population of the district. The proportion of Scheduled Tribes, population to

total population of the district is also relatively high when compared to the corresponding proportion of 3.81% for the State. As in the case of Scheduled Castes, population, a large section of Scheduled Tribes, population *viz.*, about 86.82% of the total Scheduled Tribes population in the district reside in rural parts of the district.

Detailed analysis of demographic data at the 1971 Census is given in the write up in Part-C of the district Census Handbook, which will be published as a separate volume.

*88	Zangalapalle

"* Note: After the finalisation of list of villages for 1971 Census, the Tahsildar reported that certain villages, shown in the Village Directory with '*' mark were merged with some other villages during the survey and settlement operations. Hence, these villages are not independent revenue villages at present. However, these villages are shown in this list and as well as in the Village Directory and Primary Census Abstract of Venkatagiri Taluk to maintain continuty of Location Code Numbers already allotted."
