CENSUS OF INDIA 1961

Central Government Publications

Census Report, Volume X—Maharashtra, is published in the following Parts

I-A and B	..	General Report
I-C	..	Subsidiary Tables
II-A	..	General Population Tables
II-B (i)	..	General Economic Tables—Industrial Classification
II-B (ii)	..	General Economic Tables—Occupational Classification
II-C (i)	..	Social and Cultural Tables
II-C (ii)	..	Migration Tables
III	..	Household Economic Tables
IV	..	Report on Housing and Establishments
V-A	..	Scheduled Castes and Scheduled Tribes in Maharashtra—Tables
V-B	..	Scheduled Castes and Scheduled Tribes in Maharashtra—Ethnographic Notes
VI (1—35)	..	Village Surveys (35 monographs on 35 selected villages)
VII-A	..	Handicrafts in Maharashtra
VII-B	..	Fairs and Festivals in Maharashtra
VIII-A	..	Administration Report—Enumeration (For official use only)
VIII-B	..	Administration Report—Tabulation (For official use only)
IX	..	Census Atlas of Maharashtra
X (1—12)	..	Cities of Maharashtra (15 Volumes—Four volumes on Greater Bombay and One each on other eleven Cities)

State Government Publications

25 Volumes of District Census Handbooks in English

25 Volumes of District Census Handbooks in Marathi

Alphabetical List of Villages in Maharashtra

J-1814—4-B-(Nanded.)

PREFACE

On the suggestion of the Census Commissioner, India, the Government of Maharashtra decided to publish the District Census Handbooks on the basis of the material collected during the 1961 Census for all the districts in Maharashtra. A Committee consisting of the Executive Editor and Secretary of the District Gazetteers (Revision) Editorial Board, the Superintendent of Census Operations, Maharashtra, and the Director, Bureau of Economics and Statistics, Maharashtra, was appointed to determine the contents and review the drafts of each volume. This is one of the twenty-five volumes compiled in the Maharashtra Census Office and published under that scheme.

District Handbooks had been published from the 1951 Census data also. As in the past, the present volume contains a set of 1961 Census Tables for the district and also presents basic demographic and economic information for each village separately. The following improvements have, however, been made in the 1961 series :—

(i) The addition of a comprehensive note introducing the district ;

(ii) The four-coloured map of the district ;

(iii) Taluka maps showing the location of each village in the district supplemented by alphabetical lists of villages ;

(iv) Supplementary information showing basic amenities available for each village ; and

(v) Addition of Part III containing 33 Tables on other official statistics.

These new features will make the volume a valuable reference for the Central and State Governments, District Administrators, departments engaged in planning and development work, legislators, private trade and business. Need for such material is far greater today as the functions of planning and implementation of development schemes have now percolated to district, taluka and village levels.

Marathi version of this volume is also being issued separately.

Part I of the volume presents villagewise statistics, Part II contains the 1961 Census Tables prepared for the district and Part III contains official statistics on Climate, Rainfall, Agriculture, Industry, Education, Health and a few other aspects. An explanatory note is added at the beginning of each part to describe the layout of the Tables and the terms or concepts used. Parts I and II are based entirely on the data collected at the 1961 Census. Part III is based on the material furnished by the District Statistical Officer and the officers of the departments concerned. Villagewise populations shown in Part I are valid for Sunrise of 1st March 1961 and are not adjusted for seasonal migration to or from other areas.

The introductory note at the beginning of the volume describes the present administrative set-up and some of the socio-economic facets of life in the district. It will illustrate how the statistics presented in the volume could be used for economic accounting or as controls of plan achievements in the district. For this note, we have drawn heavily on the District Gazetteers,

Survey and Settlement Reports, Annual Administration Reports and other Government publications. Some Heads of Departments also supplied the latest available material for the volume. We are indebted to them all.

Any views expressed in the introductory note or elsewhere in the volume are personal and the Government is not responsible for them.

In the Census Office, every one has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I should specially mention Shri N. Y. Gore, Tabulation Officer, for his sincere and thorough work on compilation and proof-reading of Part I, Shri G. S. Gokarn, Tabulation Officer, for his painstaking work on MSS and proofs of Parts II and III, Shri S. K. Deshpande, Shri D. G. Pansare and Shri R. E. Chowdhary for assistance in preparing the introductory note, Shri S. Y. Pradhan and Shri B. M. Nagarkar, Draughtsmen, for Maps, Charts and Diagrams. Shri S. G. Deshpande of our office at Nagpur looked after the layout of the Tables and printing of the volume. Shri R. G. Phadke and Shri D. V. Rangnekar, Deputy Superintendents of Census Operations, and Shri G. M. Rajadhyaksha, Tabulation Officer, made valuable contributions at all stages and specially in the preparation of notes. Acknowledgments are due to Shri S. R. Desai, Manager, Government Press and Book Depot, Nagpur, and Shri J. D. Gandhi, Manager, Government Photozincographic Press, Poona. In spite of heavy pressure of work on their presses they did their best to print this volume speedily.

I am obliged to Shri Asok Mitra, I.C.S., Census Commissioner, India, for valuable suggestions for improving this volume. I am also indebted to Shri Setu Madhava Rao and Shri M. A. Telang, Members of the District Census Handbook Committee, who not only supplied useful material from their departments but also read through the MSS and encouraged us through this venture.

INTRODUCING THE DISTRICT

This note describes the administrative set-up and some socio-economic facets of life in the district

THE DISTRICT IN MAHARASHTRA

FIG. 2

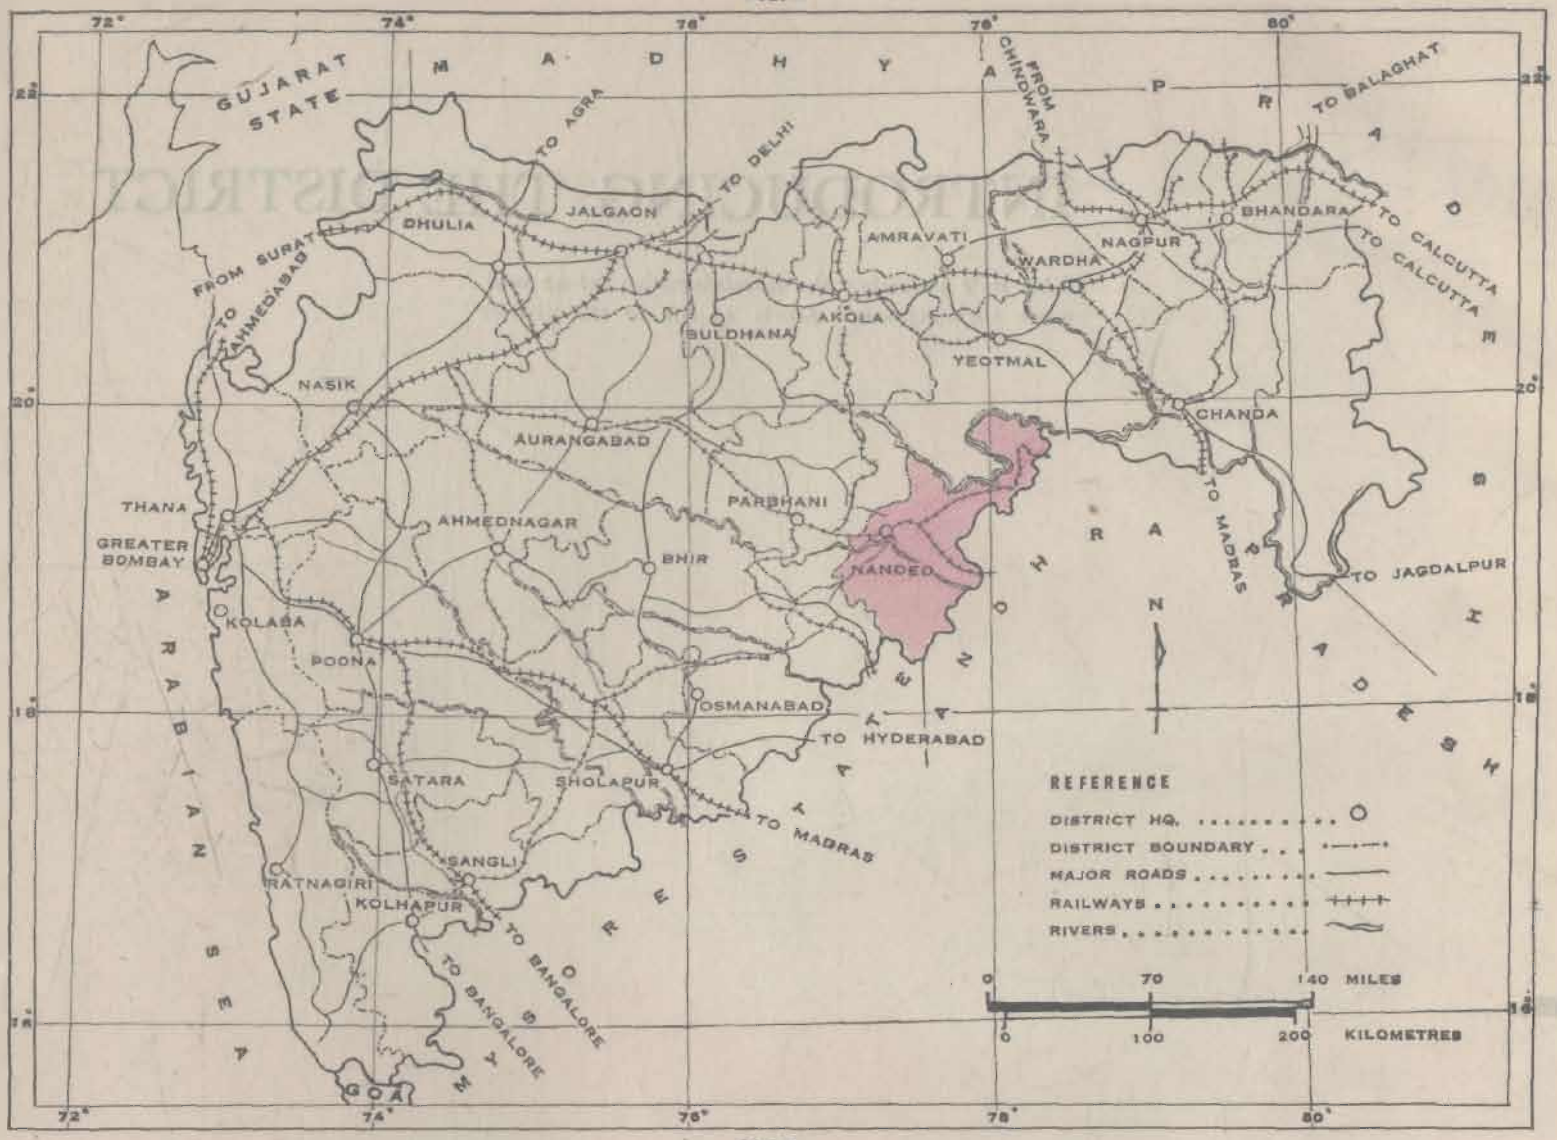

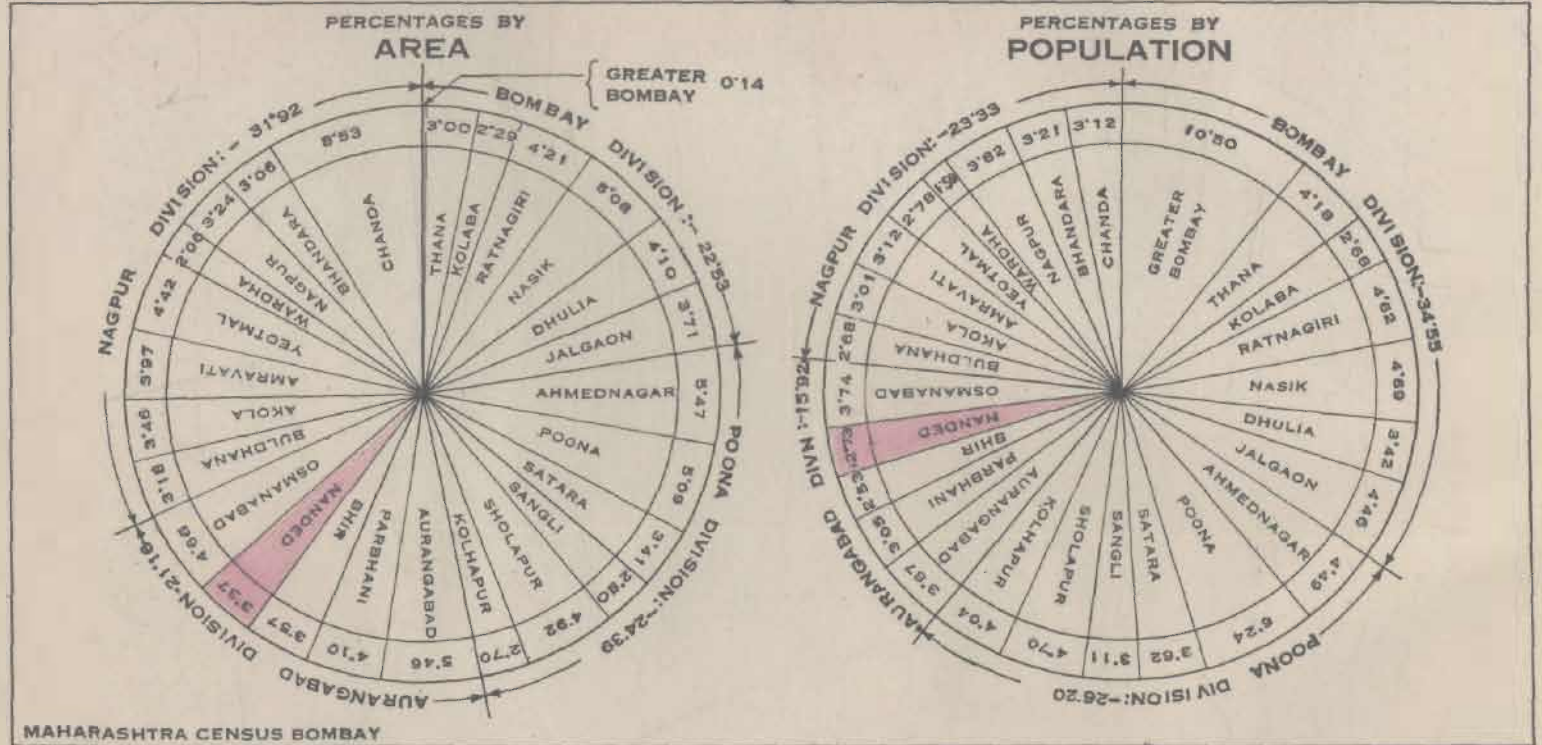

FIG. 3

H-747-G. P. Z. P. POONA-1962

INTRODUCING THE DISTRICT

PHYSICAL FEATURES

The district lies in the Godavari basin. The river Godavari enters the district from the west and flows eastwards through the central part of the district. It controls almost the entire drainage system of the district. The northern portion of the district lies in the valley of Penganga, which is also a sub-basin of the Godavari basin.

The district lies between 18°15′ and 19° 55′ N. latitude and 77° 7′ and 78° 15′ E. longitude. It is bounded on the north by Yeotmal district, on the east and south by Adilabad and Nizamabad districts of Andhra Pradesh, on the south-west by Osmanabad district and towards the west by Parbhani district.

The area of the district is 3,989·7 sq. miles and the population in 1961 is 1,079,674. In terms of area and population it forms 3·37 per cent and 2·73 per cent of the State, respectively. The Figures facing this page show the position of the district in the State.

Hill Ranges

There is only one main system of hills known as Bhag or Thanvari range. It traverses the district from north-west to south-east.

There are a few minor ranges of hills in the Nanded, Kandhar, Hadgaon talukas and Bhokar Mahal.

Important Rivers

The most important river of the district is the Godavari. Other rivers are the Manjra, Manyad, Saraswati, Penganga, Ashna, Sita and Lendi.

The Godavari enters from the west and flowing past Nanded in the centre of the district passes out into Nizamabad. Manjra, the largest tributary of Godavari flows from south to north and forms the boundary between the district and Andhra Pradesh. Manyad flows through Kandhar taluka from west to east and forms the natural boundary between Mukhed mahal and Deglur taluka on one hand and Biloli taluka on the other. An irrigation project has been undertaken on this river in Kandhar taluka during the Second Plan period. Saraswati takes its source in Wakhad hill and flows from north to south through the eastern portion of the district and finally meets Godavari near the village Malkautha. Ashna flowing in the eastern direction falls into Godavari on the left bank about two miles from Nanded town. Sita also comes from north and meets Godavari. Lendi flows from west to east in Deglur taluka. It runs partly along the southern boundary and after taking a slightly northerly course passes through Deglur taluka and meets Manjra.

The Penganga forms the northern boundary of the district, flowing in an easterly direction. Further downstream it falls into Wardha river in Yeotmal district.

Climate

Monthly temperature records are available for Nanded station only. Table 1 in Part III shows monthly temperature records for ten years 1951 to 1960.

The rainy season starts from June and lasts up to the end of September. It is followed by cold weather from October to February and by hot weather from March to May. The climate in the district is dry and subject to extremes of heat and cold. It is very hot in summer and fairly cold in winter. The hottest month is May and lowest temperature is reached some time during December and January.

Within the district, the seasons show local variations also. Kinwat taluka in the extreme north-east is comparatively more hot. There are wide seasonal variations in temperatures even at Nanded.

The climate of the district is considered to be good for cattle. The cows and bulls are more robust and grow larger in size than those found in other districts of the State, the noteworthy among them is Kandhari breed.

Rainfall

Table 2 in Part III shows figures of monthly rainfall and number of rainy days for ten years 1951 to 1960.

Rainfall is not uniform in all parts of the district. The average annual rainfall of Deglur is 1,178·2 mm. while Mukhed gets 876·4 mm. annually on an average.

The district gets about 75 per cent of the rain from the south-west monsoons, 16 per cent during October to December, i.e. post-monsoon period and 2 per cent from winter monsoons during January and February. Pre-monsoon showers contribute about 7 per cent of the total rainfall. August records heavy rainfall which is about 45 per cent of the total annual rainfall of the district.

Dependability of Rainfall and Scarcity Areas

The mean rainfall of Nanded station is 896·37 mm. The standard deviation is 261·62 mm. and the coefficient of variability is 29·20 per cent. As rainfall reliability is measured by the coefficient of variability, the degree of reliability at Nanded may be said to be moderate.

There is no area in the district which can be marked out as having suffered continuously due to deficient rains. The Fact-Finding Committee appointed by the Government of Bombay in 1960 has, therefore, come to the conclusion that this district may be regarded as free from chronic scarcity.

Soils

The soils of the district are in general black and fertile. The ridges and spurs from the uplands, which are all of trap formation, reduce the cultivable area considerably. The best black soils are found in a narrow strip of land on the banks of the Godavari and its tributaries.

Good black soil is found along the banks of Manjra and Manyad rivers in Biloli taluka, while elsewhere it is undulating, much inferior in quality and covered with loose stones. It grows rabi as well as kharif crops. The soil of Nanded taluka consists principally of rich black alluvial deposit. Near the foot of the hills black soil is scarce and it is of a very poor description.

Deglur taluka is considered to possess the best soil in the whole of the district. With the exception of a small portion of the taluka towards the west, the soil is of superior quality and most suitable for rabi crops.

Kandhar taluka generally possesses black and rich soil and grows rabi crops. Nearly half of the taluka is covered with hills and has light soils. It is undulating and covered with loose stones where kharif crops are chiefly grown.

About three-fourths of Hadgaon taluka is highly fertile. The portion along the banks of Penganga is the most fertile. Towards the south, nearer the hills, the soil is rather mixed up with certain saline matter.

In Bhokar mahal and Kinwat taluka, except for the hilly tracts, the entire land is of black cotton soil.

Minerals

The only mineral found in the district is limestone. Deposits of intertrappean limestone have been found to occur in Kinwat taluka. The limestone is not uniform in grade and is highly siliceous at places. The reserves have been estimated at ten million tons.

Building materials like Deccan trap or basalt, sandstones and brick clay are also found in this district.

Forests

The area under forests is over three hundered square miles. It makes 8·27 per cent of the total geographical area. About 290 square miles are in charge of Forest Department. Major part of the forests in this district is in Kinwat taluka where 25 per cent of the area is under forests. Kinwat and Hadgaon talukas and Bhokar mahal are gifted with dense forests, and these three areas together account for 95 per cent of the district forests.

This district has various types of forest from sparse and stunted to dense and evergreens of high rainfall areas.

Teak, bamboo and grass are the main forest products.

Natural Zones

Nanded is one of the most homogeneous districts in Maharashtra and does not have any well-defined natural zones.

The southern portion of the district is, however, a little different because of its poor hilly soils and crop pattern dominated by yellow jowar. The north-eastern taluka of Kinwat is again different because of its extensive forests and barren areas. Northern plateau portion of the district consisting of most of Hadgaon taluka is very favourable for wheat. The rest of the central area of the district is flat, fertile land of black cotton soils and grows cotton, jowar, groundnut and pulses.

ADMINISTRATIVE SET-UP

Brief History

In the year 1905, Mudhol taluka of Nizamabad district was transferred to Nanded district and the erstwhile Bhaisa taluka was merged in it. Taluka Aowla Narsapur of Nizamabad district was abolished and a new taluka was formed with headquarters at Kinwat. Another taluka with headquarters at Osmannagar(Lathi) was also abolished and its villages were divided between Biloli and Kandhar. The northern villages of Nanded taluka were transferred to Kalamnuri taluka in Parbhani district and a few other portions transferred to Hadgaon and Mudhol talukas. Headquarters of Kandhar taluka were for many years at Mukhed.

There were no major changes in the district or taluka boundaries up to the year 1948.

In the year 1949, the Sarf-e-Khas taluka with headquarters at Khadka (or Mukaramabad) was taken over under Sarf-e-Khas (Merger) Regulation. All the other Jagirs in the district were also abolished and taken over under direct Government administration in the same year under the Hyderabad (Abolition of Jagirs) Regulation.

Consequent upon the integration of Sarf-e-Khas and Jagir areas the boundaries of all the talukas were reconstituted in the year 1950. Two new mahals were created, one with headquarters at Mukhed and another at Bhokar.

With the Reorganisation of States in 1956, the district was transferred from Hyderabad State to Bombay State. Two Revenue Circles of Deglur taluka and three Revenue Circles of Mudhol taluka were transferred, to Andhra Pradesh. Two talukas (Kinwat and Rajura) and one Revenue Circle from Boath taluka were transferred from Adilabad district. The remaining Dharmabad Revenue Circle of the erstwhile Mudhol taluka was included in Biloli taluka. Islapur Revenue Circle was included in Kinwat taluka. Rajura taluka, which was isolated and about 300 miles away from the district headquarters, was transferred to Chanda district in the year 1959.

The district forms a part of Maharashtra since 1st May 1960.

Present Set-up

For administrative purposes, the district is at present divided into six talukas and two mahals. The area, number of inhabited villages, number of towns, 1961 population and the position in the district by percentages of area and population for each taluka and mahal are as follows:—

District/Taluka (1)	Name of Head-quarters (2)	Area in square miles (3)	No. of inhabited villages (4)	No. of Towns (5)	1961 population (6)	Percentage of area (7)	Percentage of population (8)
NANDED DISTRICT	Nanded	3,989·7	1,325	11	1,079,674	100·0	100·0
1 Kinwat Taluka	Kinwat	801·9	191	1	117,137	20·1	10.8
2 Hadgaon Taluka	Hadgaon	601·0	186	1	137,236	15·0	12.7
3 Nanded Taluka	Nanded	394·9	181	2	196,307	9·9	18.2
4 Bhohal Mahal	Bhokar	399·4	127	1	88,137	10·0	8.2
5 Kandhar Taluka	Kandhar	629·1	200	1	173,412	15·8	16.1
6 Biloli Taluka	Biloli	563·5	218	3	176,055	14·1	16.3
7 Mukhed Mahal	Mukhed	337·9	124	1	101,477	8·5	9.4
8 Deglur Taluka	Deglur	262·0	98	1	89,913	6·6	8.3

General Administration and Revenue

The Collector is in charge of general administration, law and order, treasury, land revenue and civil supplies. He is assisted by a Resident Deputy Collector in his office and two Deputy Collectors who hold charge of the two revenue divisions and have their headquarters at Nanded and Deglur, respectively. Six Tahsildars are in charge of six taluka offices and two Naib-tahsildars in charge of the two mahal offices.

Land Revenue Settlements

Prior to 1866, the district used to be annually farmed out and the revenue contractors were allowed a percentage commission for collection. The farming system was replaced by regular officers appointed in the districts and talukas in 1866. The original survey and settlement was started in 1885 which introduced the ryotwari system of land revenue in the district.

In the original settlements, lands were assessed separately on the basis of individual soil classification, though the general level of assessment was fixed empirically with reference to the dependability of rainfall, crop pattern, average yields, prices, levels of rent, nearness to the markets, facilities of communications and other similar factors observed from tract to tract. Individual lands were never reclassified during the second revision settlements and landholders were generally allowed the benefits of improvements effected by them during the term of settlements untaxed. The comparative incidence of land revenue from field to field is thus generally the same as it was at the time of the first revision settlement and the enhancements made from settlement to settlement were brought about only by raising the levels of land revenue assessments over a tract uniformly.

The method of land revenue assessments is broadly the same as in the other districts of Maharashtra. In the case of lands irrigated by wells,

small *bandharas* and tanks, the land revenue is integrated and is inclusive of the charge for water supplied.

The original Revenue Survey and Settlement of different talukas (excepting Kinwat taluka) in the district was completed between 1885 and 1892. The first revision settlement was completed between 1904 and 1918 and the second revision settlement between 1924 and 1927. In Kinwat taluka, the original survey settlement was made in 1908 and first revision settlement in 1918. The land revenue rates have not been revised since then in spite of the expiry of the terms of the revision settlements.

A special assessment of two annas per rupee, i.e., 12·5 per cent of land revenue on dry crop land and one anna per rupee, i.e., 6·25 per cent of land revenue on irrigated land has, however, been imposed on all the lands in the district under the Hyderabad Land (Special Assessment) Act, 1952. Jagir villages had been surveyed and settled in some cases through the Government Survey and Settlement Department, in others by the Jagirdars' own establishments. Land revenue rates in Jagir villages were generally higher than the adjoining Government villages. A majority of such cases had been examined by the Government after the abolition of Jagirs in 1949 and their higher rates have been brought down to the levels of adjoining Government villages.

Table 24 in Part III shows demand and collection of land revenue during the ten years from 1951 to 1960 for the district and each taluka separately.

The areas and number of villages for each taluka in the district have varied from settlement to settlement. Jagir villages had not been covered by the original or revision settlements. Surveys and settlements for Jagir villages were taken up in 1946. The general policy was to fix land revenue rates comparable with those in the adjoining Government villages. Departures made from this policy were, as described above, set right in most of the cases by scaling down the settled rates to the adjoining levels after the abolition of Jagirs.

Bhokar and Mukhed mahals were newly formed in 1950 by transferring villages from adjoining talukas. Because of such recently settled villages and because of the territorial changes in the taluka boundaries from time to time, most of the talukas today have a more varied pattern of land revenue assessments than what is seen in the reports of earlier settlements. Even then the maximum rates fixed at each settlement or revision settlement or the average land revenue rates per acre should be quite reliable indices of the incidence of land revenue as obtaining in the district from taluka to taluka or in the same taluka from settlement to settlement. Those rates for dry, garden and rice lands for each taluka are shown below :—

Taluka	Original Settlement / Revision Settlement	Year	Guarantee period	No. of villages	Average land revenue per acre	Group	Villages	Maximum rates per acre		
								Dry lands	Garden lands	Rice lands
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)

Assembly and Parliamentary Constituencies

Since 1957, the district has seven Assembly seats. In 1957, Biloli constituency was a double-member constituency with one of the two seats reserved for Scheduled Castes. After abolition of the double-member constituencies in 1961, the seat from Mukhed is reserved for Scheduled Castes.

Number of voters on rolls for each Assembly constituency in 1961 was as follows :—

Assembly Constituency	Number of voters on rolls
(1) Kinwat	77,117
(2) Hadgaon	81,765
(3) Nanded	75,031
(4) Dharmabad	73,488
(5) Biloli	69,820
(6) Kandhar	71,092
(7) Mukhed	87,229
Total ..	535,542

In the 1962 General Elections, the Assembly constituencies Kinwat, Hadgaon, Nanded, Dharmabad, Biloli and Kandhar together made one Parliamentary constituency called the Nanded constituency and the remaining Assembly constituency Mukhed combined with Assembly constituencies of Ahmadpur, Udgir, Nilanga and Latur from Osmanabad district made another Parliamentary constituency called the Latur constituency.

The total number of voters on rolls in the district in 1961 was 535,542. The total population 21 years and above according to the 1961 Census is 501,568. Comparison can, however, be only approximate as the two figures relate to two different dates in the year 1961.

Administration of Justice

The District and Sessions Judge is the head of the Judicial Department in the district. The judiciary is entirely separated from the executive. The Collector continues to be the District Magistrate and the Deputy Collectors and Tahsildars are vested with magisterial powers. But those powers are limited to Schedule 3/3-A-4-5 of the Criminal Procedure Code in its application to Maharashtra State and none of them ever tries any criminal case. The District Magistrate does not have any administrative control over the other magistrates who try criminal cases in the district. This separation of the judiciary from the executive had been brought about in the district in the year 1921.

The District and Sessions Judge is assisted by one Assistant Judge and Additional Sessions Judge. He has jurisdiction over the entire district. He attends to civil and criminal work both original and appellate.

The Civil Judge (Senior Division) attends to civil matters of unlimited value over the entire district.

There are also six Civil Judges (Junior Division) with headquarters at different taluka places in the district. They deal with regular civil suits of value of subject-matter below Rs. 10,000. They also try ordinary criminal cases.

The Civil Judges (Junior Division) at Nanded and Deglur have extended jurisdiction over Bhokar and Mukhed mahals, respectively.

Police

The Police force in the district works under the (District) Superintendent of Police who is assisted by two Deputy Superintendents and two Circle Police Inspectors. There are 27 Police Stations in the district. Their headquarters and jurisdictions are shown below :—

Taluka	Police Station Headquarters	Number of villages
Kinwat ..	(1) Kinwat	64
	(2) Mahor	46
	(3) Islapur	34

Mukhed Mahal	(24) Mukhed	64
	(25) Mukramabad	61
Deglur ..	(26) Deglur	73
	(27) Mirkhel	40

Average number of villages and population per Police Station in the district is 51 and 39,888 against 69 and 62,547 in the State, respectively.

Crime statistics for the district for the years 1950, 1955 and 1960 have been shown in Table 28 in Part III.

Municipalities

All the eleven towns in the district have Municipal Committees functioning under the Hyderabad District Municipalities Act, 1956. The year of establishment, the year of the last general election, the term of the elected body, the total number of elected councillors and the number of seats reserved for Scheduled Castes, Scheduled Tribes and women are shown below for each municipality separately.

Most of the municipalities are established during the last two decades. The oldest municipality is that of Nanded. It would be completing thirty years in 1965.

The 11 municipalities together cover 100 per cent of the urban population or 14·44 per cent of the total 1961 population of the district.

The taxation level of each of the municipalities is shown below :—

Name of the Municipality	1961 population	Year 1961-62		
		Total receipts	Receipts from Municipal taxes	Per capita Municipal tax
		Rs.	Rs.	Rs.
(1) Kinwat ..	7,221	41,890	24,435	3·38
(2) Hadgaon ..	5,522	37,261	23,493	4·25
(3) Nanded ..	81,087	9,67,259	2,63,900	3·25
(4) Mudkhed ..	6,601	26,312	13,446	2·04
(5) Peth Umri ..	4,443	25,630	19,169	4·31
(6) Kandhar ..	6,630	25,407	13,210	1·99
(7) Biloli ..	4,440	38,760	5,288	1·19
(8) Kundalvadi ..	8,761	27,359	5,449	0·62
(9) Dharmabad ..	9,917	43,384	26,083	2·63
(10) Mukhed ..	6,610	16,180	7,148	1·08
(11) Deglur ..	14,636	1,15,405	36,814	2·52

The general level of municipal taxation is very low.

Name of the Municipality	Year of establishment	Year of of the last General Election	Statutory term in years	1961 population	Total No. of Municipal Councillors	Seats reserved for		
						Scheduled Castes	Scheduled Tribes	Women

ZILLA PARISHAD AND PANCHAYAT SAMITIS

With a view to promoting development of democratic institutions and securing greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralisation of powers and functions, a Zilla Parishad and eight Panchayat Samitis have been established in the district in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samitis Act of 1962. The areas under the jurisdiction of the Zilla Parishad and the Panchayat Samitis correspond to the district and taluka boundaries except in the case of municipal towns which are not covered by them. The Zilla Parishad covers 97·70 per cent of the area and 85·56 per cent of the total population of the district. The population covered is entirely rural and no town lies in the Zilla Parishad jurisdiction. The number of villages and population included under the Zilla Parishad and each Panchayat Samiti are shown on the next page. The position of each Panchayat Samiti in the Zilla Parishad is also shown separately by percentages of area and population in 1961.

—	Name of Head-quarters	Area in square miles	Number of inhabited villages	Population in 1961	Percentage by area	Percentage by population
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Zilla Parishad, Nanded	Nanded ..	3,897·9	1,325	923,806	100·0	100·0
(1) Kinwat Panchayat Samiti ..	Kinwat ..	788·9	191	109,916	20·2	12·0
(2) Hadgaon Panchayat Samiti ..	Hadgaon ..	591·1	186	131,714	15·2	14·0

(8) Deglur Panchayat Samiti ..	Deglur ..	254·7	98	75,277	6·5	8·0

Constitution

The Zilla Parishad has 47 directly elected councillors. Out of these 47 seats, one seat has been reserved for Scheduled Castes and two for Scheduled Tribes. In addition, a woman councillor has been co-opted by the elected councillors. There are five associate councillors who are chairmen of five federal co-operative societies conducting bussiness in the district. The elected chairmen of all Panchayat Samitis are also *ex-officio* councillors.

At the Block (taluka) level, the Panchayat Samiti consists of all elected and co-opted councillors from the area of the Block and a chairman of a co-operative society conducting the business of purchase and sale of agricultural produce in the area of the Block as an associate member and a chairman of a co-operative society conducting the business in agriculture in the area of the Block as a co-opted member. Sarpanchas elected by members of village panchayats are also elected members of the Panchayat Samiti. Their number is at the rate of two for each electoral division in the area of the Block.

Elections were held in the year 1962. The term of office of the councillors is five years. The Zilla Parishad has elected the President and Vice-President from amongst the elected councillors.

An Officer in the senior scale of I.A.S. works as the Chief Executive Officer to the Zilla Parishad. The Parishad is also assisted by various departments and the heads of those departments at the district level are Officers of Class I or Class II Service under the State Government. At the Block level, the Panchayat Samitis have elected chairmen and deputy chairmen. The Block Development Officers work as secretaries to the Panchayat Samitis. The Executive authority for the purpose of carrying out the provisions of the Maharashtra Zilla Parishad and Panchayat Samitis Act vests in the Chief Executive Officer and the Block Development Officers. The Deputy Chief Executive Officer works as a Secretary to the Zilla Parishad.

Committees and Office-bearers

The Zilla Parishad functions through a Standing Committee presided by the President and six Subject Committees for Finance, Works, Agriculture, Co-operation, Education and Health. Two subject committees are presided by the Vice-President and four by two chairmen elected by the Zilla Parishad to preside over two specified subject committees each. The Deputy Chief Executive Officer works as Secretary of the Standing Committee, while the District Heads of Departments work as Secretaries to the subject committees concerned. Co-ordination between the subject committees is achieved through the Standing Committee which includes the chairmen of all the subject committees as members.

The Panchayat Samitis do not have Subject Committees.

The elected President of the Zilla Parishad is paid an honorarium of Rs. 500 per month. The Vice-President and the two Chairmen of the Subject Committees are paid an honorarium of Rs. 300 per month. The elected Chairmen and Deputy Chairmen of the Panchayat Samitis are paid an honorarium of Rs. 300 and Rs. 150 per month, respectively. All these persons are also provided with rent-free accommodation as is deemed suitable for them by the Zilla Parishad.

Functions

The Divisional and State Officers of the Government continue to exercise technical supervision and give guidance to Zilla Parishad and Panchayat Samitis. The State Government has powers to give direction to the Zilla Parishad regarding works and schemes in the interest of National or State Development Plans. Inspection and supervision are carried out by the Divisional Commissioners.

Except for a few safeguards, the developmental and administrative functions of Government are now with the creation of democratic bodies at the district and Block level, devolved on them. In other words, the State Government has divested itself of the responsibility of local activities which are now left to the people's initiative and resources.

The developmental and administrative subjects transferred to the Zilla Parishad and Panchayat Samitis have been listed in Schedules I and II to the Maharashtra Zilla Parishad and Panchayat Samitis Act. By and large, all functions of Government administration including development activities at the district level, but excluding matters relating to law and order, judicial and quasi-judicial functions, and development functions involving high technical skill like Research Stations, etc., have been devolved on the Zilla Parishad and Panchayat Samitis. All Class III and Class IV employees of the Government Departments now transferred to the Zilla Parishads have been absorbed as employees of the Parishad. The Village Talati (or Patwari) and the entire village establishment of the Revenue Department have been transferred to the Parishad through the Village Panchayats, though for collection of land revenue and maintenance of Record of Rights they continue to work under the Revenue Officers.

The Zilla Parishad has replaced the erstwhile statutory bodies known as District Local Board and District Panchayat Mandal. The functions of non-statutory body known as the District Development Board have of course been absorbed. Municipalities, however, remain unaffected as municipal areas are excluded from the jurisdiction of the Zilla Parishad.

Finance

The law provides for levy of a cess at the rate of twenty naye paise on every rupee of land revenue and at a rate not exceeding nineteen naye paise per rupee of water rate. The Zilla Parishad can levy taxes on profession, trade, calling or employment and taxes on water-supply, public entertainments, amusements and pilgrims, special tax on land and buildings and other taxes. The stamp duty on transfer of certain immovable properties may be increased by one-half per cent by Government for payment to the Zilla Parishad.

The financial assistance given by the State Government includes 70 per cent of the land revenue collected within the area of the Parishad. When, however, the amount of land revenue payable falls short of the amount arrived at on the basis of two rupees *per capita* of the population of the district as appearing in the Census of 1961, an equalisation grant covering the difference will be paid to the Zilla Parishad. Government also pays what are called purposive grants being grants for specific works and development schemes transferred to the Zilla Parishad at the rate of not less than 75 per cent of the expenditure. An establishment grant equal to 75 per cent of the average annual cost on account of salaries and allowances is paid in respect of the posts held by the staff of Government transferred to the Parishad which are included in the District Technical Service (Class III), District Service (Class III) and District Service (Class IV). The other grants include a deficit adjustment grant payable at full rates during the first five years and to be progressively reduced in the next ten years after which it will not be payable, incentive grants calculated to achieve speedier development and grants for Plan schemes.

If in pursuance of the proposal of a Zilla Parishad or a Panchayat Samiti, a cess on land revenue at a rate in excess of the minimum rate prescribed by the Act is levied by the State Government in the whole of the district or in a Block, the Zilla Parishad or the Panchayat Samiti, as the case may be, shall be paid every year by the State Government a grant called the local cess matching grant.

The total revenue receipts of the Zilla Parishad for the year 1963-64 are Rs. 148·75 lakhs. The major portion of the receipts is of receipts from Government. They are 83·2 per cent and the Zilla Parishad receipts are 16·8 per cent of the total revenue receipts. Major items of Zilla Parishad's receipts are local fund cess and cess on water rates.

The total revenue expenditure is Rs. 148·26 lakhs. Following are the major items of expenditure :—

General Administration	4·1	per cent
Education	36·4	,,
Community Development Project	24·5	,,
Buildings and Communications ..	14·7	,,
Miscellaneous	6·4	,,
Other items	13·9	,,

The Zilla Parishad intends to increase local fund cess by 30 nP. per rupee of land revenue from 1963-64.

Per capita expenditure over different development heads is as follows :—

	Rs.	nP.
General Administration	0	66
Education	5	84
Community Development Project	3	94
Buildings and Communications ..	2	36

Establishment

The establishment of the Zilla Parishad comprises gazetted and non-gazetted staff.

The non-gazetted staff consists of the employees of the former local bodies and those of the various State Government Departments now transferred to the Zilla Parishad.

There are 5 Class I and 33 Class II Gazetted Officers working under the Zilla Parishad. The total strength of the non-gazetted employees of Class III and Class IV categories is 3,495. Besides there are 245 gram panchayat secretaries, 269 talatis and 109 gram sevaks on the establishment of the Zilla Parishad.

VILLAGE PANCHAYATS

The number of independent village panchayats, the number of group village panchayats and the number of villages covered by group village panchayats are shown below :—

Taluka/Mahal	Number of inhabited villages	Number of independent village panchayats	Number of group village panchayats	Number of villages covered by group village panchayats
1. Nanded ..	181	70	52	123
2. Hadgaon..	186	111	38	80
3. Kinwat ..	191	67	58	136
4. Bhokar ..	127	87	20	45
5. Deglur ..	98	62	18	44
6. Biloli ..	218	139	44	94
7. Kandhar..	200	151	24	49
8. Mukhed ..	124	94	14	29
Total ..	1,325	781	268	600

Note.—The figures in column (5) perhaps include hamlets and the total of columns (3) and (5) does not, therefore, tally with the figures in column (2).

The break-up of the total annual income of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in '000)	Percentage of total income
Grants	837	58·70
Taxes on houses and properties ..	20	1·40
Octroi	..	..
Other taxes	270	18·93
Total taxes	290	20·33
Income from other sources ..	299	20·97
Total Income	1,426	100·00

The first item includes the Government grant of 30 per cent of the land revenue collected in the village or one rupee per head of population whichever is more.

The village panchayats also get the entire local fund cess collected in the village. At present it is collected at 20 nP. per rupee of land revenue. The village panchayats can raise it with Government approval up to 100 nP. per rupee of land revenue.

Out of 1,049 village panchayats, 93 have levied taxes on houses and properties. None of them have so far started collecting octroi.

The break-up of the total annual expenditure of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in '000)	Percentage of total expenditure
Administration	277	25·70
Health and Sanitation	68	6·37
Public Lighting	157	14·55
Other items	575	53·38
Total Expenditure	1,077	100·00

Other items include improvement of village roads, construction of new drinking water wells or repairs to old wells or construction of panchayat *ghars*, schools and such other buildings.

Functions of the Talati (Patwari), village panchayat secretary and assistant gram sevak are now combined in one official who now works under the Village Panchayat.

POPULATION

Table A-I in Part II shows the 1961 population of the district and each taluka for total, rural and urban areas separately. Definition of rural and urban areas may be seen in paragraphs 8 and 9 of the Explanatory Note to Part II. Table A-II shows the district population and its variation at each Census since 1901 and the variation in population for each taluka during 1951—61.

Variation

The population of the district and decade variation rates since 1901 are as shown in the next column.

Year	Population	Decade Variation	Rate of Variation
1901 ..	550,261	..	..
1911 ..	671,066	+120,805	+21·95
1921 ..	649,825	−21,241	−3·17
1931 ..	706,773	+56,948	+8·76
1941 ..	784,289	+77,516	+10·97
1951 ..	883,531	+99,242	+12·65
1961 ..	1,079,674	+196,143	+22·20

Figure to the right shows the total, rural and urban population of the district for the last seven Censuses.

In the decade 1901—11 the population of the district increased by 22 per cent. During the earlier decade the district had suffered heavily because of famine. The satisfactory crop conditions and recovery from the famine contributed to the huge growth of population. In addition, the opening of the Godavari Valley Railway line and consequent expansion of industries and commerce were other contributory factors. In the following decade, crop failures and the influenza epidemic of 1918-19 together led to a decrease of 3·17 per cent in population. In the decade 1921—31 the population increased by 8·76 per cent particularly due to the improved crop conditions. The population continued to increase in the district since 1931 onwards. The decade 1951—61 has witnessed the highest growth rate of 22·2 per cent. This large increase in the population during the decade 1951—61 is the result of control of epidemics and other diseases since 1950. The death rate has thus been reduced and has resulted in the higher growth rate although the birth rate may not have increased to any appreciable extent.

The 1951—61 decade variation for the district and each of the taluka is as follows :—

	Percentage Variation 1951—61
NANDED DISTRICT	+22·20
1 Kinwat Taluka	+32·79
2 Hadgaon Taluka	+26·32
3 Nanded Taluka	+20·29
4 Bhokar Mahal	+21·10
5 Kandhar Taluka	+19·53
6 Biloli Taluka	+16·37
7 Mukhed Mahal	+23·62
8 Deglur Taluka	+24·08

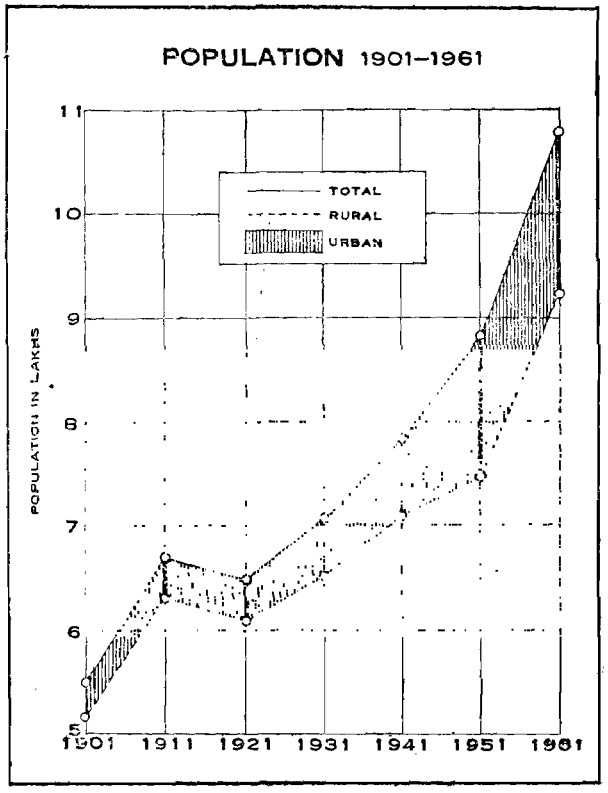

Figure on page (11) shows the areawise pattern of 1951—61 growth of population within the district.

Kinwat taluka in the north has recorded the highest increase (32·79 per cent) while Biloli taluka on the east has registered the lowest increase (16·37 per cent) over 1951. Kinwat, Hadgaon and Deglur talukas and Mukhed mahal are above the district average and Nanded, Kandhar and Biloli talukas and Bhokar mahal are below that average.

The net percentage increase since 1901, 1921 and 1951 for the district and the State has been as follows :—

	Nanded District	Maharashtra
1901—1961	96·21	103·97
1921—1961	66·15	89·71
1951—1961	22·20	23·60

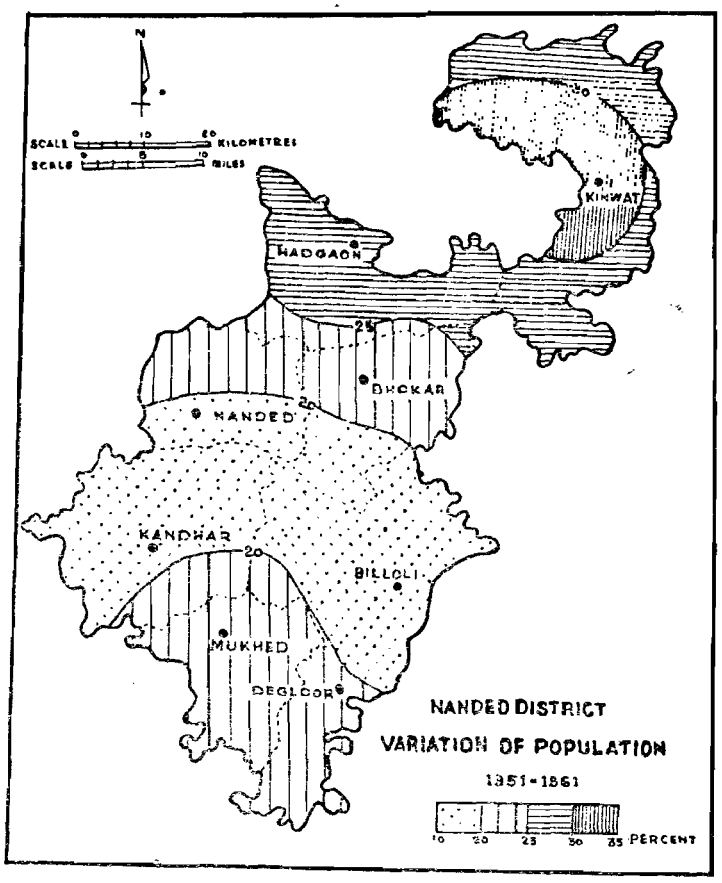

The district growth rates have always been lower than the State average.

Density of Population

The densities of population for Maharashtra, Nanded district and its talukas for 1951 and 1961 are as follows :—

	Density per square mile		Percentage of district population in 1961
	1951	1961	
MAHARASHTRA ..	271	334	..
NANDED DISTRICT ..	221	271	100·00
1 Kinwat Taluka ..	110	146	10·85
2 Hadgaon Taluka ..	181	228	12·71
3 Nanded Taluka ..	413	497	18·18
4 Bhokar Mahal ..	182	221	8·16
5 Kandhar Taluka ..	231	276	16·06
6 Biloli Taluka ..	268	312	16·31
7 Mukhed Mahal ..	243	300	9·40
8 Deglur Taluka ..	277	343	8·33

Urban Population

Urban population of the district at each Census and its variation since 1901 are shown in Table A-IV in Part II. The same table also shows the variation in population for each town in the district. The number of towns, the rate of decade variation in urban population and the percentage of urban population to total population at each Census since 1901 for the district and the State are as follows :—

Year	Nanded District			Maharashtra		
	No. of Towns	Rate of variation in urban population	Percentage of urban population to total population	No. of Towns	Rate of variation in urban population	Percentage of urban population to total population
1901	4	..	6·14	219	..	16·59
1911	4	+15·44	5·82	232	+0·99	15·13
1921	4	+6·11	6·37	238	+18·72	18·50
1931	6	+32·11	7·74	258	+15·54	18·60
1941	7	+39·31	9·72	266	+27·11	21·11
1951	12	+81·48	15·65	383	+62·42	23·75
1961	11	+12·70	14·44	266	+21·32	28·22

In the Figure on page (10) the actual urban population of the district since 1901 is shown by the shaded portion between the two lines. The net growth in urban population of the district over that of 1901 is 361·07 per cent as against 246·96 per cent for the State.

Figure on page (12) shows the approximate contours of density of population in 1961 within the district.

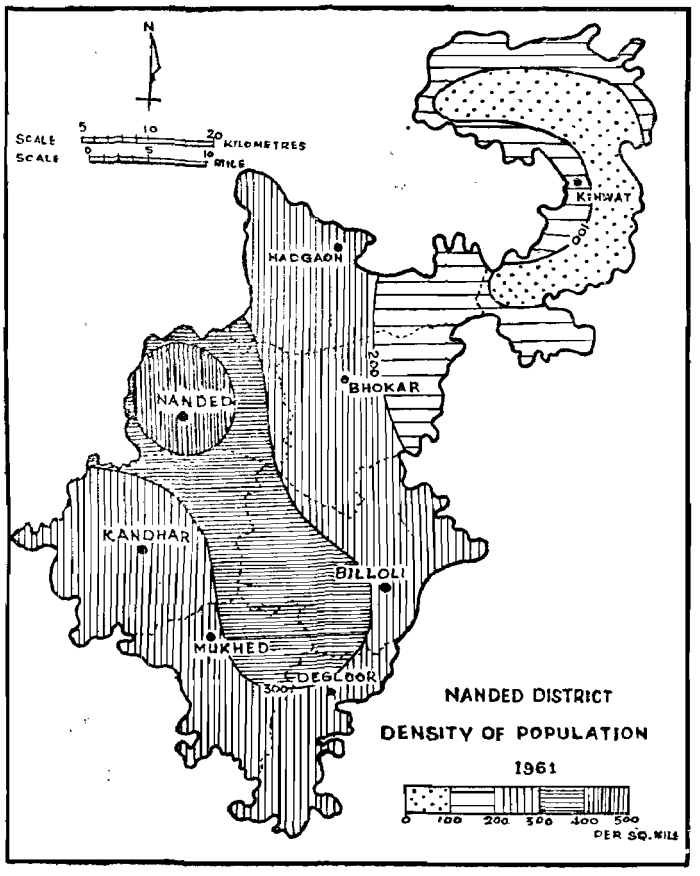

The density of population of the district has increased sharply from 163 persons per square mile in 1921 to 271 persons per square mile in 1961. At every Census the density of the district has been lower than that of the State average.

Density of population varies from 146 persons per square mile in Kinwat taluka to 497 persons per square mile in Nanded taluka. The differences are due to the effect of topography in the talukas and partly to the growth of towns. The northern area comprising Hadgaon and Kinwat talukas and Bhokar mahal, is particularly hilly and accounts for a major portion of the forest area in the district. The density in this area is, therefore, low whereas in the central and southern areas the soil is fertile; they are well served by water of Godavari and its tributaries. In addition the cotton ginning and pressing factories and oil mills are concentrated in Nanded town. The high density in Nanded taluka is very largely due to the existence of Nanded town. Nanded taluka with an area of nearly 10 per cent of the district alone accounts for nearly one-fifth of the total district population.

Nanded district is less urbanised than the State. The proportion of urban population decreased both for the district and the State in 1911. Since then it has gradually increased up to 1951. There was a decrease in the last decade. The number of towns had also increased continuously since 1911 to 1951. The drop in the number of towns in 1961 is due to the rigid application of the redefinition of urban areas in that year. One town named Himayatnagar (Wadhona) was declassified in 1961 as a village.

There is no addition of any new town in 1961. The population of the declassified town was 5,029 or 3·64 per cent of the urban population in 1951. If the population of that town is excluded from the 1951 urban population, the 1961 urban population would be higher by 16·95 per cent over 1951. The net growth of 12·70 per cent now seen in the above table is thus due solely to the change of the definition of urban areas and the declassification of a town.

Nanded, the district headquarters, is the most important town in the district. It is one of the most important commercial and industrial towns in Aurangabad Division also. Population of Nanded town has increased by 277·68 per cent over 1921 and by 471·68 per cent over 1901.

Rural Population

The rates of variation in rural population and the percentages of rural population to total population of the district and the State since 1901 are as follows :—

Year	Nanded District		Maharashtra	
	Rate of variation in rural population	Percentage of rural population to total population	Rate of variation in rural population	Percentage of rural population to total population
1901	..	93·86	..	83·41
1911	+22·38	94·18	+12·68	84·87
1921	—3·74	93·63	—6·77	81·50
1931	+7·17	92·26	+14·77	81·40
1941	+8·59	90·28	+8·54	78·89
1951	+5·25	84·35	+7·72	71·25
1961	+23·96	85·56	+24·51	71·78

The net increase in rural population of the district has been 78·87 per cent over that of 1901 and 51·84 per cent over that of 1921. The corresponding figures for the State are 75·53 per cent and 67·08 per cent, respectively.

The rates of variation of rural population have never followed any trend. The urban population had grown faster at the expense of rural population. As a result the rural population increased at a lower rate than the total population. Its growth rate was higher than the total population rate in 1911 and 1961. The percentage of rural population gradually declined both for the district and the State since 1911. It has shown an opposite trend only in 1961. That was partly due to the declassification of a town and addition of its 1961 population in the rural population.

Size of Villages

Table A-III in Part II shows for the district and for each taluka the number of villages and their population for each class of villages. The distribution of population by size of villages for the district and the State is as follows :—

Size Class	Nanded District		Maharashtra	
	Percentage of the No. of villages to total No. of villages	Percentage of population to total rural population	Percentage of the No. of villages to total No. of villages	Percentage of population to total rural population
Less than 500 ..	45·21	18·30	47·72	15·02
500—999 ..	36·60	37·64	28·55	25·71
1,000—1,999 ..	13·96	27·07	16·62	28·55
2,000—4,999 ..	4·00	15·12	6·18	22·40
5,000 and above ..	0·23	1·87	0·93	8·32

Villages with less than 1,000 population are 81·81 per cent of the total number of villages in the district and have 55·94 per cent of the rural population. Villages with more than 1,000 population are 18·19 per cent of the total number of villages and account for 44·06 per cent of the rural population. Thus 42·19 per cent of the rural population of the district is concentrated in villages with population between 1,000—4,999.

The area, number of inhabited villages, rural population, average population per village and number of villages per 100 sq. miles of rural area are shown below for the State, district and each taluka separately :—

State/District/Taluka	Area in square miles (Rural)	Number of inhabited villages	Rural population	Average population per inhabited village	Number of inhabited villages per 100 square miles of rural area
(1)	(2)	(3)	(4)	(5)	(6)
MAHARASHTRA	115,736·3	35,851	28,391,157	792	31
NANDED DISTRICT	3,897·9	1,325	923,806	697	34
1 Kinwat Taluka	788·9	191	109,916	575	24
2 Hadgaon Taluka	591·1	186	131,714	708	31
3 Nanded Taluka	385·4	181	108,619	600	47
4 Bhokar Mahal	396·2	127	83,694	659	32
5 Kandhar Taluka	623·5	200	166,782	834	32
6 Biloli Taluka	533·0	218	152,937	702	41
7 Mukhed Mahal	325·1	124	94,867	765	38
8 Deglur Taluka..	254·7	98	75,277	768	38

The average population per village in 1961 is 697 in the district against 792 in Maharashtra. The average population per village within the district varies from 575 in Kinwat taluka to 834 in Kandhar taluka. The number of villages per 100 square miles is 34 in the district against 31 in Maharashtra. Among the talukas of the district, Kinwat taluka has 24 villages per 100 square miles compared to 47 in Nanded taluka. It may be added that the above discussion is based on villages with their administrative boundaries and does not take into account the existence of wadis or hamlets within those boundaries.

Age Distribution

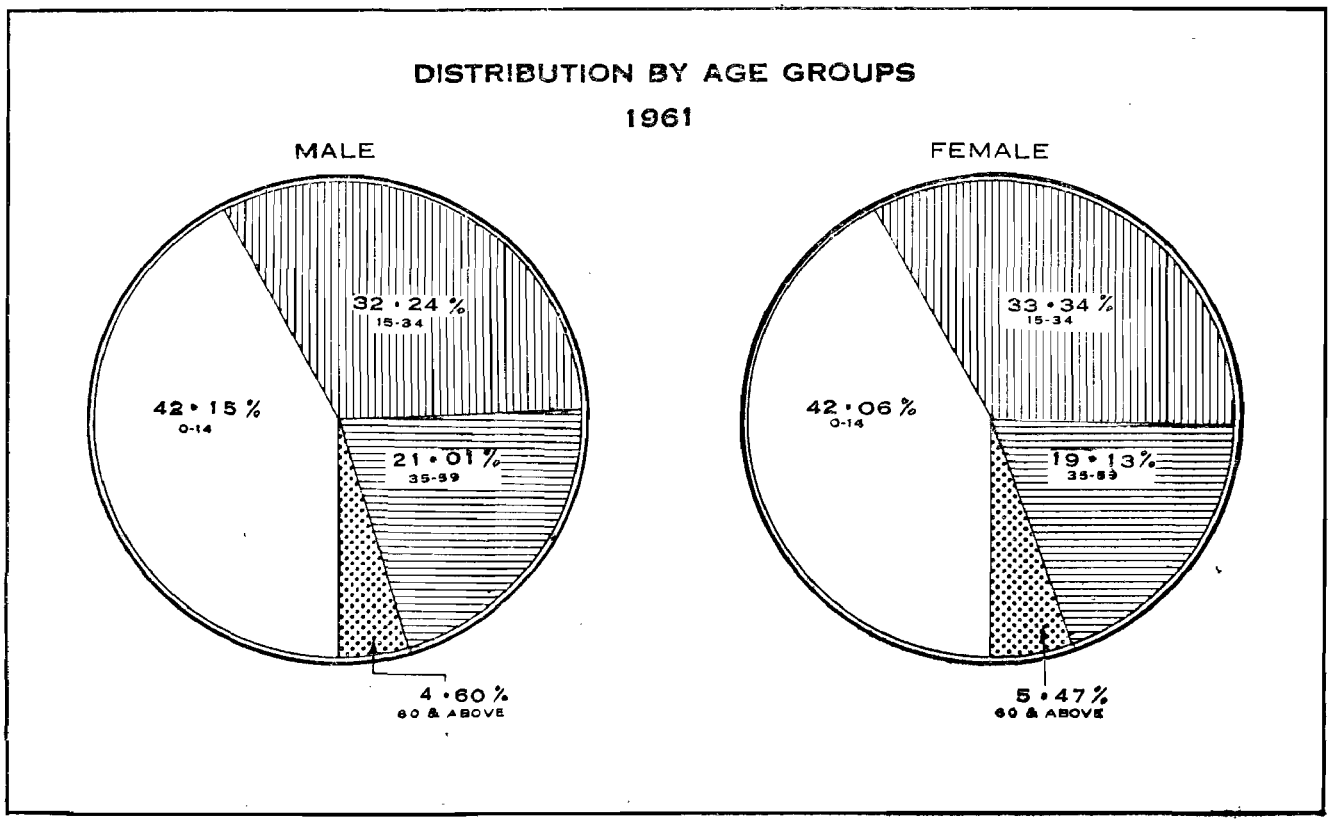

Tables C-II and C-IV in Part II show the distribution of the district population by five-year age-groups and by single year ages, respectively. Broad age-groups are also shown in Tables B-I, B-II and C-III. The proportions of population by broad age-groups in 1961 for the district and the State are shown in the next column separately for males and females compared with the corresponding proportions for 1951 in the district.

Figure below shows the distribution of the district population by broad age-groups for males and females separately.

Percentages of population by age-groups

Age-groups	Nanded District				Maharashtra	
	1951		1961		1961	
	Males	Females	Males	Females	Males	Females
0—4 ..	13·01	13·22	15·16	15·55	14·65	15·39
5—14 ..	28·25	27·97	26·99	26·51	25·55	25·77
0—14 ..	41·26	41·19	42·15	42·06	40·20	41·16
15—34 ..	31·81	32·78	32·23	33·33	32·70	33·13
35—59 ..	22·30	19·74	21·02	19·14	22·09	20·16
15—59 ..	54·11	52·52	53·25	52·47	54·79	53·29
60 and over	4·63	6·29	4·60	5·47	5·01	5·55
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

During the decade 1951—61 the proportion of children aged 0—4 increased from 13·01 per cent to 15·16 per cent for males and from 13·22 per cent to 15·55 per cent for females. Exactly opposite trend is observed for the age-group 5—14 both for males and females. On the whole the younger population in the age-group 0—14 has increased both for males and females during the last decade. The proportion of persons in the older age-group (60 and over) has decreased both for males and females though it is seen more for females. Consequently the proportion of persons in the age-group 15—59 has decreased both for males and females, though males are more affected in this age-group. Compared with the State, the district population is more youthful.

Dependency Ratio

The ratio between dependants (age-groups 0—14 and 60+) and 100 of supporting (age-group 15—59) population has an economic significance. The dependency ratios and their two components of youth (0—14) and aged (60+) groups are shown below for 1951 and 1961 for the district and the State separately :—

	Nanded District			Maharashtra		
	Youth	Aged	Total	Youth	Aged	Total
1951 Total	77·3	10·2	87·5	69·9	9·3	79·2
1961 Total	79·7	9·5	89·2	75·2	9·7	84·9
Rural	79·7	9·6	89·3	80·6	10·8	91·4
Urban	79·5	9·1	88·6	63·1	7·3	70·4

The dependency ratios are higher in Nanded district than those for Maharashtra. The dependency ratios for the State and the district are both higher in 1961 than those of 1951. For the district, the youth dependency has increased during the last decade while the other component of dependency, *viz.*, aged, has decreased. The increase in dependency may be the result both of high fertility and declining mortality. The 1961 population in the district, thus, has a larger load of dependants than that of 1951. The dependency load is, moreover, larger in rural than urban areas.

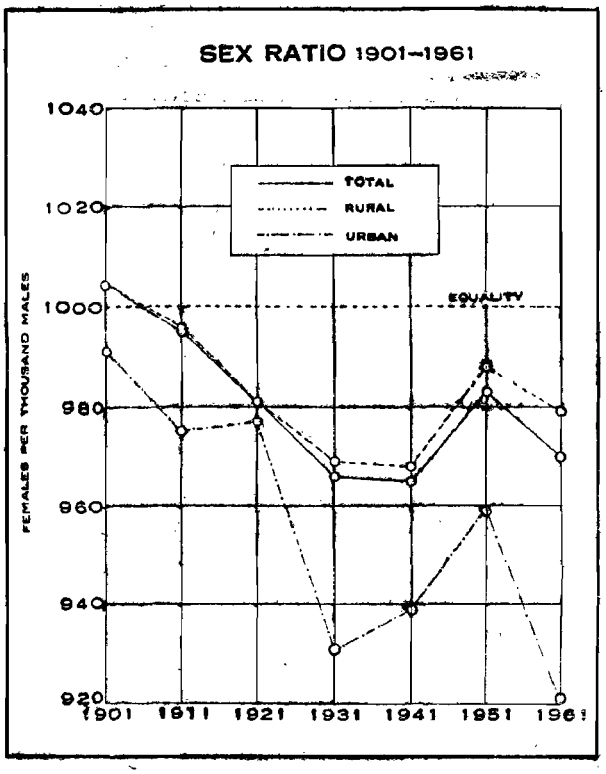

Sex Ratios

The following have been the sex ratios (number of females per 1,000 male population) for the district and the State since 1901 for total, rural and urban areas separately :—

Year	Nanded District			Maharashtra		
	Total	Rural	Urban	Total	Rural	Urban
1901 ..	1,004	1,004	991	978	1,002	866
1911 ..	995	996	975	966	1,000	796
1921 ..	981	981	977	950	994	776
1931 ..	966	969	931	947	987	790
1941 ..	965	968	939	949	990	810
1951 ..	983	988	959	941	1,000	807
1961 ..	970	979	921	936	995	801

Figure in the next column shows the variation in the sex ratios since 1901 for the district total, rural and urban areas separately.

Since 1901, the sex ratio of the population of the district varied between 965 and 1,004 while that of the State varied between 936 and 978. At each Census the district has recorded a higher sex ratio than the State, i.e. the district always had

comparatively more females than the State average. 1901 recorded a sex ratio of 1,004 in the district which was higher than equality. Except for 1901, the district rural sex ratio has always been lower than the State rural sex ratio while urban sex ratio of the district was consistently higher than the corresponding sex ratio of the State. Rural-urban differences in sex ratios of the district are not much significant.

Following are the sex ratios for different age-groups of population for the district total, rural and urban areas :—

Age-groups	Total	Rural	Urban
0—14 ..	968	973	939
15—34 ..	1,003	1,020	912
35—59 ..	884	889	852
60+ ..	1,154	1,157	1,138
All ages ..	970	979	921

For all the age-groups the sex ratios are high in rural areas compared to those in urban areas. The sex ratios of total population for age-groups 15—34 and 60+ are higher than equality. The high rural sex ratio in the age-group 15—34 indicates the out-migration of young adult males from rural areas to urban areas within and outside the district for work and higher education. The older age-group has recorded a very high sex ratio both for rural and urban areas.

The sex ratios for each taluka in the district for total, rural and urban areas separately are as follows :—

	Total	Rural	Urban
NANDED DISTRICT ..	970	979	921
1 Kinwat Taluka ..	1,000	1,002	973
2 Hadgaon Taluka ..	985	989	898
3 Nanded Taluka ..	933	964	896
4 Bhokar Mahal ..	1,002	1,007	918
5 Kandhar Taluka ..	948	949	916
6 Biloli Taluka ..	997	997	997
7 Mukhed Mahal ..	957	960	925
8 Deglur Taluka ..	966	972	940

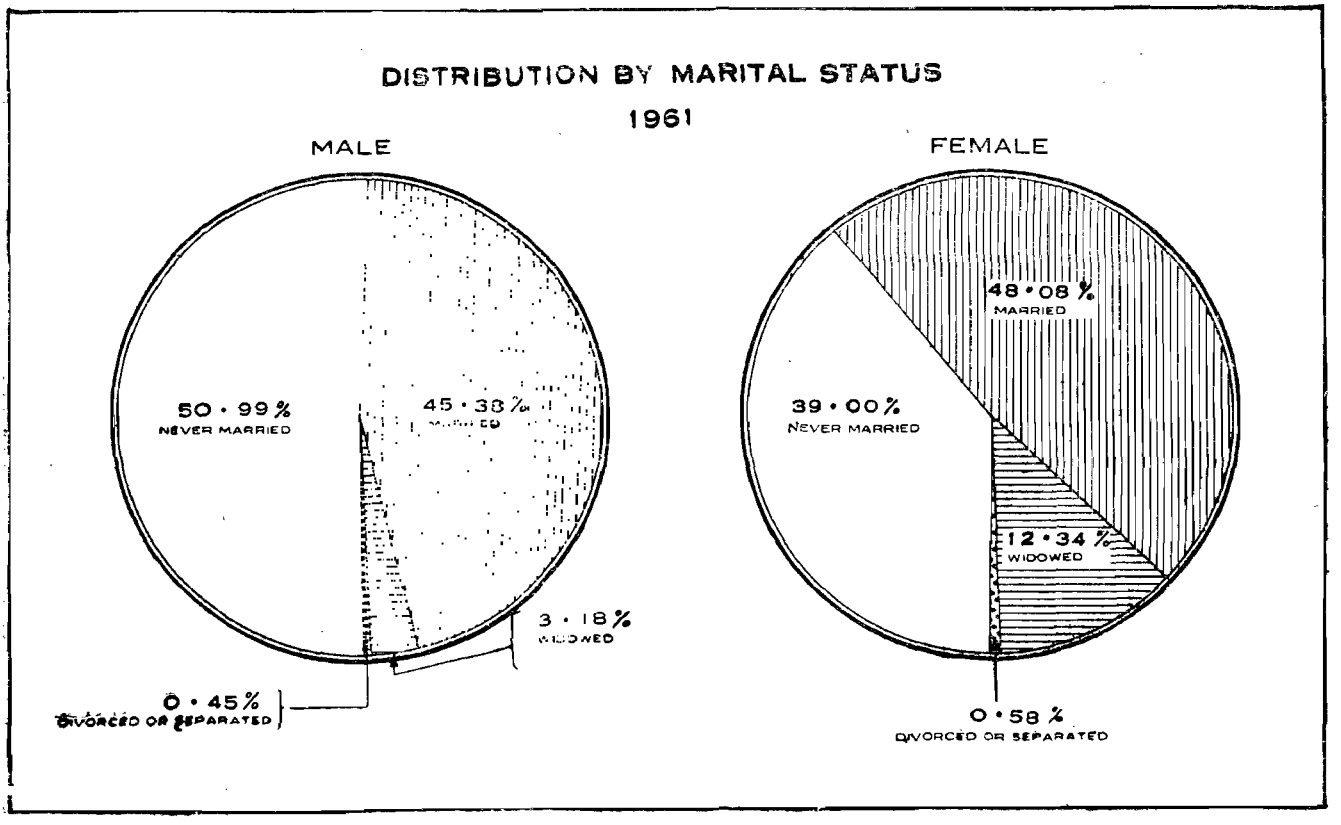

Within the district, the sex ratio varies from 933 in Nanded taluka to 1,002 in Bhokar mahal. Kinwat taluka has an equality of the two sexes. Sex ratios in Bhokar mahal and Biloli taluka are also near equality. Urban sex ratio is the lowest in Nanded taluka. This is due to the large town of Nanded. Rural and urban sex ratios for Biloli taluka are identical.

Marital Status

Table C-II in Part II shows the distribution of population by marital status by five-year age-groups. The percentages of population for broad age-groups classified by marital status are shown below compared to those of 1951.

Figure below shows the distribution of the district population by marital status for males and females separately.

Year	Age-group	Total	Marital Status							
			Never married		Married		Widowed		Divorced or separated	
			Males	Females	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
1951 ..	0—14 ..	100	94·95	78·60	4·84	20·88	0·21	0·48	..	0·04
	15—34 ..	100	23·59	2·26	73·41	91·96	2·67	5·19	0·33	0·59
	35—54 ..	100	1·54	0·32	89·15	61·94	8·85	37·23	0·46	0·51
	55+ ..	100	0·95	0·44	71·97	15·56	26·86	83·84	0·22	0·16
	All ages ..	100	47·06	33·21	48·22	51·24	4·51	15·23	0·21	0·32
1961 ..	0—14 ..	100	98·09	90·48	1·87	9·33	0·04	0·11	Negligible	0·08
	15—34 ..	100	28·88	2·65	68·52	93·15	1·79	3·09	0·81	1·11
	35—54 ..	100	1·31	0·17	91·25	67·11	6·69	31·84	0·75	0·88
	55+ ..	100	0·93	0·09	78·30	19·52	20·06	80·09	0·71	0·30
	All ages ..	100	50·99	39·00	45·38	48·08	3·18	12·34	0·45	0·58

During the 1951—61 decade the proportion of never married has increased both for males and females. The proportion of widowed has decreased both for males and females. The proportion of divorced or separated showed an increase but it is hardly of any numerical importance. All these changes contributed in lowering the proportion of married both for males and females. The rise in age at marriage of the total population may be seen from the marital status distribution by age-groups. The proportion of never married in age-groups 0—14 and 15—34 has increased both for males and females.

Child Woman Ratio

The following are the child woman ratios for 1951 and 1961, i.e., the number of children 0—4 years age-group for every 1,000 women of the 15—44 years age-group as well as for every 1,000 married women of 15—44 years age-group. The proportion of widows of 15—44 years age-group to 1,000 married women of 15—44 years age-group is also shown for comparison :—

	No. of children 0-4 years age-group per 1,000 women of 15-44 years age-group	No. of children 0-4 years age-group per 1,000 married women of 15-44 years age-group	No. of widows per 1,000 married women (both in 15-44 years age-group)
1951 District Total ..	603	693	122
1961 District Total ..	712	796	81
Rural ..	710	790	82
Urban ..	730	832	74

The child woman ratio for urban areas is higher than that for rural areas. When standardised for married women of 15—44 years age-group, it is again higher in urban areas. This may indicate either a higher fertility or a high survival rate in urban areas of the district. Over the decade, the ratio has increased from 603 to 712. It may be partly due to both a higher birth-rate and somewhat reduced infant mortality.

The number of widows per 1,000 married women in the age-group 15—44 is reduced from 122 in 1951 to 81 in 1961. The incidence of widowhood is higher in rural areas than in urban areas.

Migration

The 1961 Census showed the proportions of population enumerated at place of birth and other places as shown below.

65·78 per cent of the population was enumerated at places of birth. This percentage for males is 80·62 but for females it is only 50·48. The difference is due to women married outside their places of birth. This marriage migration of females is remarkable from within the district and from other districts of Maharashtra. Even among persons born outside the State females outnumber males. Nanded being a border district, marriage may be an important factor for a large number of females migrating from the adjoining districts of Andhra Pradesh.

The sex ratios in the district population by five-year age-groups for total, rural and urban areas are as follows :—

Age-group	Sex Ratios		
	Total	Rural	Urban
All ages ..	970	979	921
0—4 ..	995	997	985
5—9 ..	1,007	1,012	977
10—14 ..	886	895	839
15—19 ..	982	1,019	813
20—24 ..	1,179	1,211	1,017
25—29 ..	957	949	1,008
30—34 ..	897	913	804
35—39 ..	846	856	790
40—44 ..	936	942	897
45—49 ..	876	880	855
50—54 ..	914	923	857
55—59 ..	807	793	906
60+ ..	1,154	1,157	1,138

Proportions of population by places of birth

——	Total Population	Place of enumeration	Elsewhere in the district	Outside the district but in Maharashtra	Outside Maharashtra
(1)	(2)	(3)	(4)	(5)	(6)
Persons	1,079,674	709,417	255,048	69,294	44,648
Males	547,974	441,369	64,970	23,761	17,372
Females	531,700	268,048	190,078	45,533	27,276
Percentage to total population—					
Persons	100·00	65·78	23·65	6·43	4·14
Males	100·00	80·62	11·87	4·34	3·17
Females	100·00	50·48	35·80	8·58	5·14

The rural-urban differentials of sex ratios are ess in younger and the older age-groups, though rural sex ratio is almost always higher than urban sex ratio. Only for age-groups 25—29 and 55—59 the urban sex ratio exceeded the corresponding rural sex ratio. Rural-urban differences are more significant in adult age-groups among which the age-group 20—24 has the highest sex ratio. The high sex ratio in age-group 20—24 may be due to the movement of young adult males in search of jobs or for higher education outside the district. The sudden drop in the sex ratio for age-group 55—59 for total and rural population may also be partly due to misreporting of ages of women of that group in the higher age-group. The older age-group 60 and over has recorded a very high sex ratio both for rural and urban population.

The percentage distribution of male population born at the place of enumeration, born elsewhere within the district and born outside the district by nine categories of economic activity and of non-workers is shown below. An explanation of the nine categories will be found in the Explanatory Note to Part II, paragraphs 42 to 52.

The proportion of non-workers is lower in the population born at places other than the place of enumeration. Cultivators have a higher proportion among those born at the place of enumeration. Agricultural labourers appear to be migrating within the district. Males born outside the district are predominant in non-agricultural sectors.

(1)	Categories of Workers I (2)	II (3)	III (4)	IV (5)	V (6)	VI (7)	VII (8)	VIII (9)	IX (10)	Non-workers (11)
District Total	27·81	16·34	3·32	2·90	1·75	0·75	2·78	0·61	4·83	38·91
Born at place of enumeration	30·79	15·34	3·41	2·53	1·08	0·37	2·25	0·34	3·11	40·78
Elsewhere in the district	17·64	22·97	3·46	4·42	2·88	1·94	4·31	1·11	9·59	31·68
Outside the district	12·14	16·65	2·11	4·43	7·13	2·97	6·07	2·73	15·77	30·00

Size of the Household

Table C-I-A in Part II shows the proportion of sample households classified by size. Percentage proportions of different types of households are as follows :—

	Total	Rural	Urban
Single member	5.80	5.44	7.99
2—3 members	22.83	22.63	24.05
4—6 members	46.17	47.10	40.54
7—9 members	18.88	18.74	19.71
10 members and more	6.32	6.09	7.71
All sizes	100.00	100.00	100.00

Among the different size groups, households with 4 to 6 members are more common (46·17 per cent) than the others. The percentage distribution of rural and urban households by their size shows that single and small size households are more (32·04 per cent) in urban areas than in rural areas (28·07 per cent). The average size of the household for the district is 5·14. It is 5·13 in rural areas and 5·17 in urban areas. The size of household is slightly more in urban areas.

Household Composition

Table C-I-B in Part II shows the distribution of sample households by the type of their composition. The percentage distribution of population of sample households by relationship for the district is shown below :—

(1)	Total Males (2)	Total Females (3)	Rural Males (4)	Rural Females (5)	Urban Males (6)	Urban Females (7)
(1) Heads of households	35·42	2·91	35·58	2·90	34·44	3·00
(2) Spouses of heads of households	0·09	31·90	0·09	31·98	0·11	31·37
(3) Married sons	8·25	..	8·62	..	6·07	..
(4) Other married relations	4·93	16·75	4·92	17·20	4·99	14·00
(5) Never married, widowed or divorced relations.	49·78	48·22	49·42	47·73	51·92	51·28
(6) Unrelated persons	1·53	0·22	1·37	0·19	2·47	0·35
Total	100·00	100·00	100·00	100·00	100·00	100·00

35·42 per cent of the males are heads of households as against 2·91 per cent for females. Married sons are 8·25 per cent of the total males. 49·78 per cent males and 48·22 per cent females which incidentally form the largest group are never married, widowed or divorced relations. Proportion of unrelated persons is 1·53 per cent for males and only 0·22 per cent for females. Nearly 32 per cent females are spouses of heads of households. High proportion of females in other married relations includes the daughters-in-law and married daughters or sisters of the heads. The heads of the households and their spouses have a higher proportion in rural areas. The proportion of married sons is less in urban areas. It may indicate that the joint family is being replaced by the biological family more in urban areas. Unrelated persons have a higher proportion in urban areas. Domestic servants are included in this category and they appear to be staying with the households more in urban than in rural areas.

Population Projections

On the basis of analysis of demographic data obtained in the 1961 Census, Professor K. V. Ramchandran of the Demographic Training and Research Centre, Chembur, Bombay, has, on our request, worked out projections for the total population, population in school-going ages (6—11 years) and the labour force (15—59 years) for the district for years 1966, 1971, 1976 and 1981. His projected estimates are shown below :—

	Total Population (in '000)	Population in school-going ages 6—11 (in '000)	Labour force age-group 15—59 (in '000)
Actual 1951 ..	884	*154	*467
Actual 1961 ..	1,080	182	570
Projected 1966 ..	1,231	188	650
Projected 1971 ..	1,388	210	742
Projected 1976 ..	1,568	225	855
Projected 1981 ..	1,776	238	988

*Estimated figures taken from 1951 Sample Census Tables.

LANGUAGES

Table C-V in Part II shows the population by nine major languages for the district and each taluka and town separately. The distribution of languages by rural and urban areas of the district is as follows :—

Language	Percentage to total population			Percentage of each language in	
	Total	Rural	Urban	Rural areas	Urban areas
(1) Banjari ..	4.56	5.23	0.52	98.34	1.66
(2) Gondi ..	1.22	1.42	0.08	99.06	0.94
(3) Gujarati ..	0.17	0.06	0.78	32.29	67.71
(4) Hindi ..	1.37	0.64	5.72	39.69	60.31
(5) Kannada ..	1.66	1.84	0.57	95.04	4.96
(6) Marathi ..	73.28	78.30	43.55	91.42	8.58
(7) Punjabi ..	0.25	0.08	1.30	26.44	73.56
(8) Telugu ..	6.34	4.99	14.39	67.25	32.75
(9) Urdu ..	10.84	7.20	32.39	56.87	43.13
(10) Others ..	0.31	0.24	0.70	67.58	32.42
All Languages ..	100.00	100.00	100.00	85.56	14.44

Marathi is the principal language and is the mother-tongue of 73·3 per cent of the population. In rural areas Marathi speakers account for 78·3 per cent of the population. They make only 43·6 per cent of the population in urban areas. Urdu has the second largest number of speakers. They make 10·8 per cent of the total population in the district. It is spoken more in urban areas where its speakers make as much as 32·4 per cent against 7·2 per cent for rural areas. Telugu has the third largest number of speakers. They make 6·3 per cent of the total population of the district. It is also spoken more in urban areas where its speakers make as much as 14·4 per cent against 5 per cent for rural areas. The speakers of Banjari or Lamani, Gondi and Kannada are concentrated mostly in rural areas. The speakers of all other languages are on the other hand concentrated in urban areas.

The comparative position of the languages in 1901, 1951 and 1961 is as follows :—

Language	Percentage to total population		
	1901	1951	1961
(1) Banjari	0.58	2.14	4.56
(2) Gondi	..	..	1.22
(3) Gujarati	0.12	0.10	0.17
(4) Hindi	0.81	1.11	1.37
(5) Kannada ..	5.37	4.12	1.66
(6) Marathi	70.01	65.47	73.28
(7) Punjabi	0.12	0.15	0.25
(8) Telugu	13.88	14.54	6.34
(9) Urdu	9.00	12.09	10.84
(10) Others	0.11	0.28	0.31
All Languages ..	100.00	100.00	100.00

The proportion of Marathi speakers decreased from 70·01 per cent in 1901 to 65·47 per cent in 1951 and has increased to 73·28 per cent in 1961

The percentage of Urdu speakers increased from 9 per cent in 1901 to 12·09 per cent in 1951, but has decreased to 10·84 per cent in 1961. The proportion of Telugu speakers has increased from 13·88 per cent in 1901 to 14·54 per cent in 1951 and has decreased to 6·34 per cent in 1961. The proportion of Kannada speakers decreased from 5·37 per cent in 1901 to 4·12 per cent in 1951 and further to 1·66 per cent in 1961. The percentage of Gujarati, Hindi, Punjabi and Banjari or Lamani have increased over the last sixty years. Gondi was reported by 1·22 per cent of the population in 1961. It was not reported in 1901 and 1951. 1901 percentages are pertaining to the district as it existed in that year. The 1951—61 variation is also due to the transfer of predominantly Telugu-speaking areas to Andhra Pradesh. The figures of proportion of languages for 1901, 1951 and 1961 are not strictly comparable.

RELIGIONS

Table C-VII in Part II shows the population by religions for the district and each taluka and town separately. The distribution of population by religions in rural and urban areas of the district is as follows :—

	Percentage to total population			Percentage of each religion	
	Total	Rural	Urban	Rural areas	Urban areas
(1) Buddhist ..	7.47	7.75	5.79	88.81	11.19
(2) Christians ..	0.05	0.01	0.28	19.74	80.26
(3) Hindus ..	81.16	84.75	59.87	89.35	10.65
(4) Jains	0.16	0.09	0.60	46.26	53.74
(5) Muslims ..	10.89	7.33	32.00	57.58	42.42
(6) Others ..	0.27	0.07	1.46	21.41	78.59
All Religions ..	100.00	100.00	100.00	85.56	14.44

81·2 per cent of the population reported their religion as Hindu. Hindus are 84·8 per cent in rural areas and 59·9 per cent in urban areas. Buddhists account for 7·8 per cent in rural areas and 5·8 per cent in urban areas. Muslims are only 7·3 per cent in rural areas but make as much as 32 per cent in urban areas. Christians are more numerous in urban areas. Jains and followers of the other religions are also more in urban areas. The Hindus and Buddhists are more numerous in rural areas than in urban areas. Christians are the most urbanised group and Hindus the least urbanised.

The comparative position of religions in 1901 and 1961 is as shown in the next column.

	Percentage to total population	
	1901	1961
(1) Buddhists	Nil	7.47
(2) Christians	Negligible	0.05
(3) Hindus	89.81	81.16
(4) Jains	0.19	0.16
(5) Muslims	9.80	10.89
(6) Others	0.20	0.27
All Religions	100.00	100.00

The proportion of Muslims increased from 9·8 per cent to 10·9 per cent from 1901 to 1961. The proportion of Christians was negligible in 1901 and has increased to 0·05 per cent in 1961. The percentage of Hindus has gone down by 8·7 per cent because some persons belonging to Hindu Scheduled Castes returned their religion as Buddhist or Nav-Bauddha in the 1961 Census. The combined proportion for Hindus and Buddhists is also lower in 1961, than in 1901. The percentage of Jains has decreased from 0·19 per cent in 1901 to 0·16 per cent in 1961. The percentage of others has increased from 0·20 per cent in 1901 to 0·27 per cent in 1961. It may be added that the 1901 percentages are for the district as it existed in that year and are not strictly comparable with those of 1961.

Sex ratio for each religion is as follows :—

Buddhists 971, Christians 982, Hindus 970, Jains 845, Muslims 974, All religions 970.

High sex ratio for Christians indicates that more of their males are going out of the district for work. Lowest sex ratio is observed for Jains. It may indicate their migration from outside the district.

SCHEDULED CASTES

Table SCT-I-Part A in Part II shows the population and its distribution by workers and non-workers for each Scheduled Caste by sex, for the district and each taluka separately. Actually, 32 castes are notified as Scheduled Castes in the district but only 17 (including Mang-Garodi) are reported in the district in 1961.

The distribution of those 17 castes by rural and urban areas of the district is as shown on the next page.

Name of Scheduled Caste	Population		Percentage to total population of the district	Percentage of each Scheduled Caste population in	
	Males	Females		Rural Areas	Urban Areas
(1)	(2)	(3)	(4)	(5)	(6)
*All Scheduled Castes	59,609	59,270	11·01	92·08	7·92
(1) Anamuk	..	4	N	100·00	..
(2) Beda Jangam	5	..	N	20·00	80·00
(3) Bhangi	88	83	0·02	21·05	78·95
(4) Byagara	1	..	N	..	100·00
(5) Chambhar	2,413	2,404	0·45	78·68	21·32
(6) Dakkal	7	8	N	66·67	33·33
(7) Dhor	440	452	0·08	65·13	34·87
(8) Ellamalwar	5	10	N	100·00	..
(9) Holeya	822	776	0·15	100·00	..
(10) Madiga	950	935	0·17	70·93	29·07
(11) Mahar	21,489	21,475	3·98	90·84	9·16
(12) Mala	30	29	0·01	98·31	1·69
(13) Mala Dasari	2	3	N	100·00	..
(14) Malajangam	80	61	0·01	100·00	..
(15) Mang (including Mang-Garodi) ..	33,219	32,924	6·13	94·78	5·22
(16) Manne	1	..	N	..	100·00
(17) Mashti	2	..	N	100·00	..

* Inclusive of persons from the Scheduled Castes who have not reported their individual castes. N=Negligible.

The remaining 14 Scheduled Castes for which no one was returned in the 1961 Census in the district, are as follows :—

(1) Aray Mala, (2) Arwa Mala, (3) Bindla, (4) Chalvadi, (5) Holeya Dasari, (6) Kolupulvandlu, (7) Mala Hannai, (8) Mala Masti, (9) Mala Sale, (10) Mala Sanyasi, (11) Mitha Ayyalvar, (12) Mochi, (13) Samagara, (14) Sindhollu.

Out of the 17 Scheduled Castes including Mang Garodi enumerated in the district, the largest number is of Mangs (including Mang-Garodi). Mahars and Chambhars are the next two largest groups while Madiga and Holeya who are numbering between 1,500 to 2,000 are the fourth and the fifth. The remaining Scheduled Castes together have 1,311 population which makes less than 0·15 per cent of the total population of the district. Anamuk, Beda Jangam, Byagara, Mala Dasari, Manne and Mashti castes have very small population in the district.

The comparative position of the Scheduled Castes population in 1951 and 1961 within the district is as follows :—

	Percentage to total population in		
	Total area	Rural area	Urban ar ea
All Scheduled Castes—			
1951	17.60	19.06	10.17
1961	11.01	11.85	6.04

The reduction of the proportion from 17·60 to 11·01 is the result of a large number of persons from the erstwhile Hindu Scheduled Castes returning their religion as Buddhist or Nav-Bauddha. These conversions to Buddhism were, however, chiefly from among the Mahars. Due to the change of religion they are not treated as Scheduled Castes, as the Constitution recognises Scheduled Castes from Hindu and Sikh religions only. The combined proportion of the Scheduled Castes and Buddhists in 1961 is 18·48 which is slightly larger than that of 1951.

Literacy

Tables SCT-III-Parts A (i) and B (i) in Part II show the literacy and educational levels for each Scheduled Caste.

The percentages of literacy for the district population, for all Scheduled Castes and each Scheduled Caste are as shown below :—

The Scheduled Castes, as a group, are much behind in literacy compared to the general population of the district. Their females, particularly appear to be very much behind. The three most numerous Scheduled Castes, *viz.*, Mang, Mahar and Chambhar do not seem to be taking advantage of the educational facilities and concessions available to them in the district.

Name of Scheduled Caste	Percentage of Literacy					
	Rural			Urban		
	Total	Males	Females	Total	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
District Average	12·26	21·20	3·12	32·26	45·69	17·68
All Scheduled Castes	3·41	6·55	0·25	14·87	25·82	3·58
(1) Anamuk	No literates	..	No literates	..	..	..
(2) Beda Jangam	No literates	No literates	..	25·00	25·00	..
(3) Bhangi	11·11	22·22	No literates	22·96	35·71	9·23
(4) Byagara	..	..	..	No literates	No literates	..
(5) Chambhar	6·73	12·88	0·68	17·72	29·21	5·27
(6) Dakkal	No literates	No literates	No literates	20·00	33·33	No literates
(7) Dhor	12·39	22·68	2·07	10·61	20·13	1·85
(8) Ellamalwar	13·33	40·00	No literates	..	..	..
(9) Holeya	1·06	2·07	No literates	..	..	..
(10) Madiga	3·07	5·92	No literates	8·03	16·34	0·69
(11) Mahar	4·21	8·08	0·35	20·38	34·77	5·61
(12) Mala	5·17	10·34	No literates	100·00	100·00	..
(13) Mala Dasari	No literates	No literates	No literates	..	..	..
(14) Malajangam	24·82	37·50	8·20	..	..	..
(15) Mang (including Mang-Garodi)	2·64	5·10	0·15	8·84	16·14	1·19
(16) Manne	..	..	..	No literates	No literates	..
(17) Mashti	No literates	No literates	..	..	..	..

Economic Activity

The industrial classification of persons at work and non-workers for the district average, for all Scheduled Castes and for each Scheduled Caste is as follows :—

	Percentage of Workers in Categories			Non-workers
	Cultivation	Agricultural labour	All other activities	
District Average	22·97	18·75	10·44	47·84
All Scheduled Castes	6·96	43·16	11·15	38·73
(1) Anamuk	..	..	100·00	..
(2) Beda Jangam	20·00	..	20·00	60·00
(3) Bhangi	6·43	2·92	39·77	50·88
(4) Byagara	..	..	100·00	..
(5) Chambhar	6·21	22·46	25·60	45·73
(6) Dakkal	..	..	20·00	80·00
(7) Dhor	5·61	4·04	32·40	57·96
(8) Ellamalwar	..	46·67	13·33	40·00
(9) Holeya	7·63	45·31	9·76	37·30
(10) Madiga	5·84	40·95	9·92	43·29
(11) Mahar	9·21	40·78	11·00	39·01
(12) Mala	32·20	..	6·78	61·02
(13) Mala Dasari	..	..	20·00	80·00
(14) Malajangam	36·17	2·13	3·55	58·16
(15) Mang (including Mang-Garodi)	5·53	47·00	9·92	37·54
(16) Manne	..	..	..	100·00
(17) Mashti	..	..	..	100·00

The proportion of workers among the Scheduled Castes is larger than the average for total population of the district. Nearly 50 per cent of the Scheduled Castes population works in agricultural activities. Their participation in agriculture is more as agricultural labourers than as cultivators. It may be so because of the traditional association of some Scheduled Castes with certain household industries and services.

Size of Land Cultivated

Tables C-I and SCT-V-Part A in Part II show a broad classification of cultivating sample households by size of land cultivated for the district rural population and all Scheduled Castes in rural areas, respectively. The proportions are as follows :—

Size of land cultivated	District rural population		All Scheduled Castes	
	No. of sample households	Percentage	No. of sample households	Percentage
All sizes	21,159	100·00	1,237	100·00
Less than 5 acres	2,701	12·77	451	36·46
5 to 9·9 acres	3,587	16·95	248	20·05
10 to 29·9 acres	11,140	52·65	455	36·78
30 acres and over	3,731	17·63	83	6·71

Out of a sample of 21,159 cultivating households 1,237 or about 6 per cent households are from the Scheduled Castes in rural areas, as against their population which is 11·85 per cent of the total rural population of the district. 36·46 per cent of the cultivating households of the Scheduled Castes

are cultivating less than five acres of land against the corresponding average of 12·77 per cent for the district. The percentage of households cultivating land over five acres among the Scheduled Castes is 63·54 per cent as against the corresponding average of 87·23 per cent for the district. The proportion of households cultivating large holdings is thus smaller in the case of Scheduled Castes.

SCHEDULED TRIBES

Table SCT-I-Part B in Part II shows the population of Scheduled Tribes by each Scheduled Tribe separately. Six Scheduled Tribes out of seven notified tribes of the district are reported in the 1961 Census. Their total population is 40,597 or 3·76 per cent of the total population of the district.

The distribution of Scheduled Tribe population by rural and urban areas is as follows :—

Name of Scheduled Tribe	Population		Percentage to total population of the district	Percentage of each Scheduled Tribe population in	
	Males	Females		Rural areas	Urban areas
*All Scheduled Tribes.	19,990	20,607	3·76	99·31	0·69
(1) Andh ..	10,738	10,820	2·00	99·85	0·15
(2) Bhil ..	720	722	0·13	99·93	0·07
(3) Gond ..	6,837	7,241	1·30	99·14	0·86
(4) Kolam ..	569	682	0·12	91·29	8·71
(5) Pardhan ..	1,092	1,104	0·20	99·13	0·87
(6) Thoti ..	34	30	N	100·00	..

* Inclusive of persons from the Scheduled Tribes who have not reported their individual tribe. N=Negligible.

The one Scheduled Tribe for which no one was returned in the district in the 1961 Census is "Koya".

Andh with 21,558 persons is the predominant tribe followed by Gond with 14,078 persons. Thoti has only 64 persons. All the Scheduled Tribes are mostly concentrated in the rural areas of the district.

Andhs are reported from the talukas of Hadgaon, Kinwat and Nanded and Bhokar Mahal, Gonds and Pardhans are mostly from Kinwat taluka.

The Scheduled Tribe population in the district has increased from 34,895 in 1951 to 40,597 in 1961.

Literacy and Education

The Scheduled Tribes as a group like the Scheduled Castes are also very much behind in literacy and education compared to the general population of the district. Their females appear to be the most depressed in this respect, as their rate of literacy is very low.

Economic Activity

Nearly 96 per cent of the workers from Scheduled Tribes work as cultivators and agricultural labourers. The proportions of workers for the Scheduled Tribes are more than those for general population. However, the proportion of workers in cultivation among the Scheduled Tribes is more or less the same as that of the general population. Compared to Scheduled Castes, more persons among the Scheduled Tribes are found to be owning lands.

WELFARE OF BACKWARD CLASSES

The subject of welfare of Scheduled Castes, Scheduled Tribes and other Backward Classes in the district is now in the purview of the Zilla Parishad. In the membership of Standing Committee which is the most powerful committee of the Zilla Parishad at least two members from Scheduled Castes, Scheduled Tribes and other socially and educationally backward classes are required to be elected by the Parishad. This Standing Committee acts as the Subject Committee for that subject and the District Social Welfare Officer works under it. The Zilla Parishad is also legally required to spend adequate amounts for the amelioration of the condition of the Scheduled Castes, Scheduled Tribes and of any socially and educationally backward classes and in particular for the removal of untouchability.

Various schemes for the welfare of Scheduled Castes, Scheduled Tribes and other educationally or socially backward classes are in operation in the district :—

(1) *Educational.*—These include schemes of granting tuition fees at all stages of education irrespective of age and income, examination fees of recognised examinations and scholarships to the students from the Scheduled Castes, Scheduled Tribes, Nomadic and semi-Nomadic Tribes, Vimukta Jatis and the Backward Classes. The concession is awarded in the Primary Schools, High Schools or Technical Schools. 4,274 students benefited from and Rs. 81,632 were spent on these schemes during the year 1962-63. Rs. 18,556 were spent on 48 backward class hostels and three cosmopolitan hostels in the district during

1962-63. Rs. 9,522 were spent as building grant to two Backward Class hostels.

(2) *Schemes for Economic Uplift.*—These include schemes of granting loan-*cum*-subsidy for cottage industries and professions and of assistance for purchase of milch cattle to the Scheduled Castes and other Backward Classes. Under the scheme of loan-*cum*-subsidy for cottage industries and professions, Rs. 21,020 were given to 118 beneficiaries from the Scheduled Castes and Backward Classes from under-developed rural areas during the year 1962-63 and Rs. 5,700 were spent on 31 beneficiaries under the scheme of assistance for purchase of milch cattle.

(3) *Housing.*—A number of housing societies of Backward Classes have been formed in the district. These societies construct houses for their members. Financial assistance in the form of loans and subsidies is given to these societies. Assistance in cash or kind for repairs to houses of Scheduled Castes and other Backward Classes is also provided. Under this scheme Rs. 6,497 were incurred during 1962-63. Out of which Rs. 772 were utilised for providing building sites for 62 houses.

(4) *Drinking Water Wells.*—An amount of Rs. 37,600 was spent under this scheme. Rs. 600 were spent for repairs of wells in or near Scheduled Castes localities for three wells while Rs. 37,000 were incurred for sinking 38 drinking water wells for Scheduled Castes and other Backward Classes.

(5) *Medical Aid to Scheduled Castes.*—Monetary aid is given to deserving persons belonging to the Scheduled Castes and Rs. 2,147 were spent during the year on 59 beneficiaries.

(6) *Agricultural.*—This includes financial assistance to poor deserving agriculturists from Scheduled Tribes, Vimukta Jatis in under-developed rural areas and other Backward Classes. Under this scheme Rs. 14,350 were spent on 48 beneficiaries for the purchase of ploughs, bullocks, oil pumps and seeds, while Rs. 20,171 were spent for propagation of improved agricultural implements during the year 1962-63.

(7) *Schemes for Removal of Untouchability.*—These include various schemes of publicity against untouchability. Sanskar Kendras and Balwadis are organised, film shows and gatherings are addressed at fairs and other places. Kirtan programmes and Melas, inter-caste dinners, celebration weeks and days are also arranged. Building sites are given to Scheduled Castes in caste Hindu localities and subsidy is paid to caste Hindu landlords for letting their premises on hire to Scheduled Castes. Prizes are also awarded to villages which show outstanding work for removal of untouchability. Rs. 13,212 were spent under this scheme during 1962-63.

The schemes which were already in operation before the Third Five-Year Plan are treated as committed schemes and those added under the Third Plan are separately treated as Plan schemes. The expenditure described above against each scheme is out of the committed schemes and also includes expenditure on the Plan schemes. There are in addition some more schemes sponsored by the Central Government.

Economic Criterion of Backwardness

Castewise basis of classification of "Other Backward Classes" has now been replaced by a new classification based on income. The income limit was raised from Rs. 900 to Rs. 1,200 per annum with effect from 1st June 1960. All persons whose annual income from all sources does not exceed this limit are irrespective of their religion, caste or community treated as belonging to the "Other Backward Classes".

Concessions to Buddhists

From 1st May 1960, the Scheduled Caste converts to Buddhism are treated as eligible for all concessions and facilities available to Scheduled Castes except the statutory concessions under the Constitution and certain special schemes for removal of untouchability, etc., which cannot by their very nature apply to non-Hindus.

EDUCATION

There has been a rapid growth in the number of primary and secondary institutions during the decade 1951—60. However, the district literacy rates still lag far behind the State averages.

Growth of Literacy

Percentage of literacy in the district for total, males and females since 1901 is as shown in the next column.

	Total	Males	Females
1901	2.18	4.35	0.04
1911	2.09	4.07	0.11
1921	1.86	3.52	0.18
1931	2.67	4.97	0.30
1941	6.15	9.84	2.33
1951	7.89	13.69	1.97
1961	15.14	24.83	5.16

Figure to the right shows the growth of literacy in the district for total population, males and females separately.

Real improvement in the literacy rate has come about only after 1951. It increased from 7·89 per cent in 1951 to 15·14 per cent in 1961. Female literacy also increased from 1·97 per cent to 5·16 per cent during the same period. This improvement may be due to the expansion of educational facilities during the first two Plans. The scheme of compulsory primary education introduced in the district in 1953 may be another contributing factor.

The Primary Census Abstract in Part II shows the number of literate males and females for total, rural and urban areas of each taluka separately The Village Directory in Part I furnishes such numbers for each village and for each ward of every town separately.

Percentage proportions of literates out of total population for males and females are shown below for total, rural and urban areas of each taluka separately :—

State/District/Taluka	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
MAHARASHTRA	29·82	42·04	16·76	21·46	33·51	9·34	51·07	61·62	37·90
NANDED DISTRICT ..	15·14	24·83	5·16	12·26	21·20	3·12	32·26	45·69	17·68
1 Kinwat Taluka	12·19	20·75	3·64	11·25	19·53	2·98	26·63	39·00	13·92
2 Hadgaon Taluka	14·97	24·92	4·88	14·40	24·18	4·51	28·59	41·63	14·08
3 Nanded Taluka	23·33	34·79	11·05	13·28	22·76	3·45	35·78	49·18	20·84
4 Bhokar Mahal	12·14	21·07	3·24	11·03	19·44	2·68	33·11	50·37	14·30
5 Kandhar Taluka	13·94	23·63	3·71	13·00	22·51	2·98	37·68	51·56	22·52
6 Biloli Taluka	12·45	21·37	3·49	11·17	19·87	2·53	20·89	31·89	9·84
7 Mukhed Mahal	12·27	21·14	3·01	11·16	19·55	2·42	28·23	43·59	11·62
8 Deglur Taluka	15·16	24·58	5·40	11·81	20·14	3·23	32·37	47·06	16·73

Figure on page (25) shows the spread of literacy in the district by isopleths.

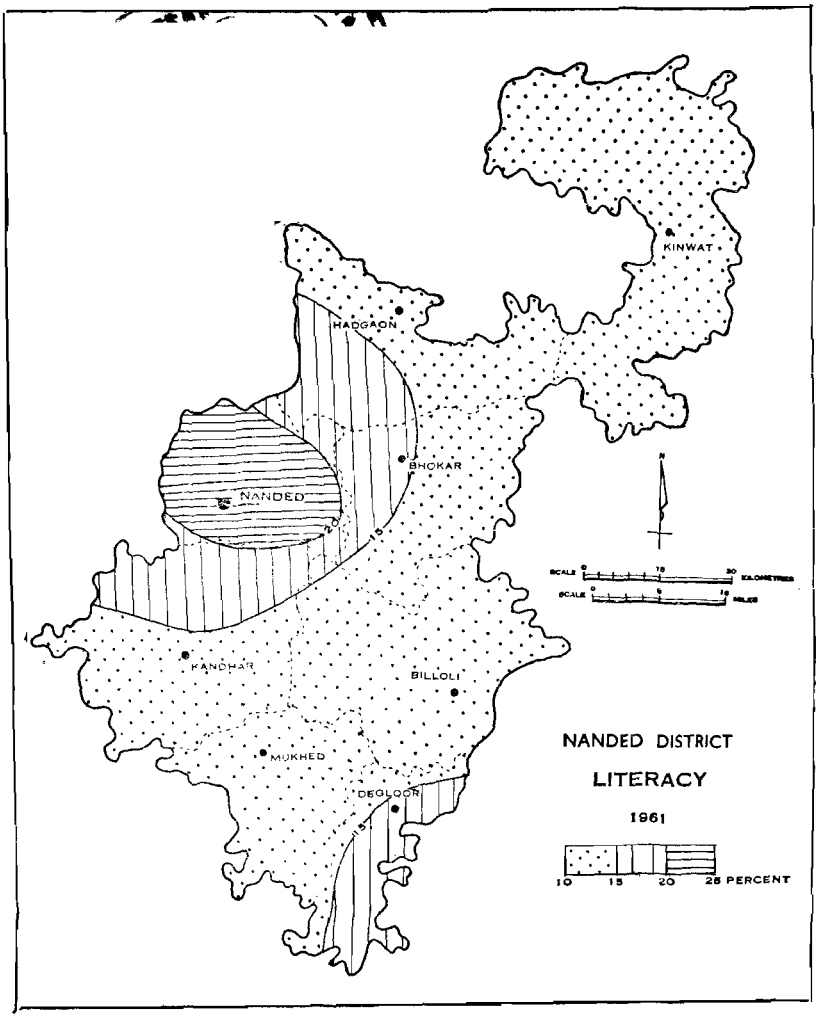

The highest literacy rates in the district are naturally in the area around Nanded town. Literacy rate drops down beyond this region in all directions. A portion in the south-east of the district in Deglur taluka, is again seen with higher literacy rates due mainly to the large urban population of Deglur town.

Within the district, the percentage of literacy is highest (23·33) in Nanded taluka and lowest (12·14) in Bhokar Mahal. In rural areas, Hadgaon taluka ranks first with 14·40 per cent. In urban areas, Kandhar taluka has the highest literacy for to al male and female population.

Literacy by Age

The percentages of literates by age-groups for the district total, rural and urban areas are as follows. Actual figures are shown in Tables C-III-A, B and C in Part II which also give figures for different educational levels separately. Average literacy rates are low for males and females mainly because of the low rates for age-groups 15—34 and 35—59. This indicates that efforts for spreading education are a recent occurrence.

Age-group	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
All ages	15·14	24·83	5·16	12·26	21·20	3·12	32·26	45·69	17·68
0—4	..	..	..	..	..	..	..	..	..
5—14	19·28	28·53	9·57	16·07	25·26	6·48	38·22	47·34	28·24

Primary Education

Table 15 in Part III shows the number of primary schools and pupils in them for the district and each taluka in 1951, 1956 and 1961.

The number of primary schools and their classification as on 31st March 1962 are as follows:—

	Total	Basic			Non-basic		
		Senior basic	Junior basic	Single-Teacher	Single-Teacher	I-IV Multi-teacher	Middle I-VII
Total No. of Schools.	1,009	15	72	1	668	222	31
Central Govt.	1	..	..	..	1	..	..
Zilla Parishad	982	15	72	1	662	204	28
Private ..	26	..	..	..	5	18	3

There has been a rapid growth in the number of primary schools during the last ten years. The number of primary schools was 403 in 1951. It increased to 668 in 1956 and to 983 in 1961. On 31st March 1962 their number is 1,009. Out of the 1,009 primary schools, 982 are managed by the Zilla Parishad (previously by the State Government) and only 26 schools are managed by private institutions. The State Government's share in the expenditure incurred in 1961-62 was 99·9 per cent. The expenditure on primary education is incurred by the State Government through grants-in-aid to the Zilla Parishad and building loans and grants to primary teachers'

training colleges. Similarly, wards of parents whose annual income does not exceed Rs. 1,200 get free education. The cost borne by the schools on this account is reimbursed from the State Government. Students from Scheduled Castes and Scheduled Tribes similarly get free education at the cost of the Government and scholarships are given to them at the rate of Rs. 3 per year in I and II standards and Rs. 6 per year in III and IV standards. Government also gives aid to backward class and mixed hostels for meeting their cost on students belonging to Scheduled Castes and Scheduled Tribes.

The policy of converting primary schools into basic schools is also making steady progress. During the Second Plan period 69 primary schools were converted into basic schools. There were 88 basic schools in the district on 31st March 1962.

By 31st March 1962, 11 towns and 919 villages in the district had primary schools. 406 villages did not have even schooling facilities.

Total number of teachers in primary schools was 1,928. Out of them 403 or 20·9 per cent were trained teachers.

Other indices of the progress of primary education in the district compared to those of the State averages are as follows :—

(As on 31st March 1962)

	Nanded District	Maharashtra
Average population served by a primary school	1,083	1,135
Average area served by a primary school (sq. miles).	4·6	3·4
Pupils per teacher	36	38
Pupils per school	69	127
Average annual salary per teacher (Rs.)	1,039	1,250
Average annual expenditure per school .. .. .. (Rs.)	2,300	4,903
Average number of teachers per school	1·9	3·3
Percentage of trained teachers ..	20·9	64·8

Free primary education has been in force in the district since 1922 in accordance with the educational policy of the Nizam's Government. Under the Compulsory Education Act, 1951, the scheme of compulsory primary education was introduced in the district in 1953 in 20 villages of Nanded taluka for the children in the age-group 6—11. In 1955, the scheme was extended to cover 20 villages of Kandhar taluka.

One of the Third Plan schemes is to extend the scheme of compulsory primary education to all children in the age-group 6—11. A provision of Rs. 70·59 lakhs has been made for primary education in the Third Plan of the district. 1,250 additional teachers would be appointed in primary schools. 227 class-rooms are proposed to be built during this period. The number of students is expected to rise by 62,500.

Secondary Education

The number of institutions imparting secondary education and number of pupils both boys and girls for the years 1951, 1956 and 1961 are shown in Table 15 in Part III. A list of high schools with number of students for each of them may be seen in Table 16.

By 31st March 1962, the number of institutions and their classification in the district are as follows :—

	Total	Higher Secondary Schools		Middle Secondary schools
		Multi-purpose	Ordinary	
State	24	2	22	..
Private	39	1	28	10

Total number of students on roll in the secondary schools as on 31st March 1962 was 15,682. Out of them, 13,882 were boys and 1,800 girls. Total number of teachers was 687. Out of them, 230 or 33·5 per cent were trained teachers. Other indices of secondary education compared to the State averages are as follows :—

	Nanded District	Maharashtra
Population served by each high school ..	17,347	13,805
Area served by each school (Sq. miles) ..	74·4	40·8
Pupil-teacher ratio	23	25
Pupils per secondary school	249	338
Average annual salary per teacher .. (Rs.)	1,555	1,870
Average annual expenditure (direct) per secondary school .. .. .. (Rs.)	21,539	39,543
Average number of teachers per secondary school	10·9	13·7

Figure on page (27) shows the proportions for literates and different educational levels among males and females for rural and urban areas separately.

The progress of secondary education in the district has also been quite rapid. The number of secondary schools increased from 8 in 1951 to 14 in 1956 and to 45 in 1961. It was 63 on 31st March 1962. The secondary schools are dispersed throughout the district. Kinwat taluka has one which is the smallest number in the district. Nanded taluka has as many as 13 secondary schools.

Private institutions manage about 62 per cent of the secondary schools in the district. The Government share in the total expenditure on secondary education in 1961-62 is, however, 78·6 per cent. It is incurred through different schemes of grants for maintenance, salaries, buildings, building sites, equipment, freeships, scholarships, loans, etc., and special concessions to Scheduled Castes, Scheduled Tribes or other Backward Class students.

Looking to the rapid growth in the number of pupils in primary schools, the number of pupils in the secondary schools may rise to 23,000 by 1965-66 and to 32,000 by 1970-71.

H.S.C. and H.S. (M.P.) S.C. Examinations

Secondary School Certificate Examination Board, Poona, conducts these public examinations at the end of the secondary school course. These are different from S.S.C. examinations held in Bombay and Poona Divisions. Two examinations are held every year in March (or April) and October and Nanded, Deglur and Kandhar are the examination centres in the district. The number of candidates who appeared and passed from those centres during the year 1962 are as follows :—

	Appeared	Passed
H.S.C. Examination held in—		
March 1962	1,317	557
October 1962	810	316
H.S. (M.P.) S.C. Examination held in—		
April 1962	238	104
October 1962	177	43

Higher Education

Talukawise list of colleges is given in Table 16 in Part III along with the 1960-61 number of students for each college.

In 1951 there was only one college at Nanded. The number of colleges increased by three in 1960-61 and five in 1962-63. There is also a research institution, *viz.*, Sanskrit Mahavidyalaya at Nanded. The five colleges provide education in Arts, Science, Commerce and Ayurved. The number of college students was 728 in 1962-63. Out of the five colleges, only one, *viz.*, Government Ayurvedic College at Nanded is managed by Government. The remaining four are managed by private institutions and receive grants for maintenance, dearness allowance and buildings from Government. Two out of them are situated at Nanded, one at Kandhar and one at Deglur.

Technical Education

There are at present three Government Technical Institutions functioning in the district at Nanded. The Technical Training Centre imparts training in handloom weaving, tailoring and carpentry. The Industrial Training Institute provides for training in courses of mechanical and civil draughtsmen, electrician, fitter, machinist, moulder, pattern-maker, turner and welder. The third institution is the Industrial Training Institute, Parbhani, which is temporarily located at Nanded for want of suitable accommodation at Parbhani.

The total number of students undergoing training in the first two institutions was 167 in 1964-65.

Libraries

There are 14 libraries in the district recognised by the State Government. During 1962-63 an amount of Rs. 2,486·50 was paid as grant-in-aid to these libraries.

Printing Presses, Journals and Newspapers

There are 14 printing presses in the district. The total number of journals and newspapers is five. Out of them one is a daily, one weekly and three journals.

Radio Licences

The number of radio licences in the district has increased from 409 in 1954-55 to 622 in 1959-60 and to 751 in 1960-61.

Cinema Theatres

There are 11 permanent cinema theatres and three touring talkies in the district as on 21st December 1963.

HEALTH AND MEDICAL AMENITIES

The Health Department's work in the district is now in the purview of the Zilla Parishad. A Subject Committee looks after its working and the District Health Officer works as Secretary to that Committee as well as the Officer-in-charge of health activities in the district.

Drinking Water Supply

Column (5) of the Village Directory in Part I shows the sources of supply and adequacy of drinking water for each village in the district.

One town and 231 villages draw drinking water from rivers, 48 villages from nallahs, three villages from tanks, 846 villages and eight towns from wells and 197 villages and two towns have more than one of these sources of water supply. Drinking water supply is not adequate in 298 villages and in one town.

Malaria Eradication

A malaria control programme was introduced in the district in 1948. Patients affected by malaria were treated under that programme. That programme had, however, ignored the preventive aspect. It was in 1958 that a special unit was started with a view to eradicating malaria. During 1958 to 1960, every house in the district was sprayed with DDT six times. Kinwat taluka was given an extra round of spraying in 1960-61. Second phase of the programme of finding out cases of malaria commenced in October 1960. During this phase every house was visited once in a fortnight.

Anti-T.B. Campaign

Mass vaccination of B.C.G. was undertaken in the district during the Second Plan period. A centre for treating T. B. patients was also started at Nanded in 1956-57.

Leprosy Control

Four survey, education and treatment units have been established in the district for finding out leprosy patients and treating them. There are also two subsidiary centres at Mukramabad and Kinwat. By the end of March 1961, 2,165 patients were treated.

Smallpox

1,944 persons died due to smallpox in the district in 1958. That number came down to eight in 1960.

Family Planning Centres

There were six family planning centres functioning in 1960-61 at Nanded, Deglur, Hadgaon, Kinwat, Kandhar and Mudkhed. 265 vasectomy and five tubectomy operations were performed during 1960-61.

Medical Facilities

Medical facilities available in the district are shown in Table 17 in Part III. The figures in the table relate to the facilities provided by Government and other aided institutions. The number of private practitioners, hospitals and dispensaries is not shown there.

The number of doctors and nurses, number of beds available and the number of indoor and outdoor patients increased between 1951—61. The number of doctors and nurses increased from 11 and 5 in 1951 to 23 and 14 in 1961, respectively. The number of beds increased from 82 in 1951 to 184 in 1961. The number of indoor and outdoor patients increased from 8,479 and 586,340 in 1956 to 63,818 and 757,236 in 1961, respectively.

Hospitals

There were two Government hospitals in 1961. One of them is the Civil Hospital (now called the General Hospital) at Nanded. The hospital is provided with Pathological Laboratory, Domicilliary Services, T. B. Clinic, etc., for diagnosis and treatment. It is also equipped with medical and surgical units. In 1963-64 there were 113 beds in the hospital.

The other Government hospital is the Ayurvedic Hospital at Nanded attached to the Ayurvedic College. It has a provision of 60 beds.

Dispensaries

There were only 13 dispensaries in 1961. Their number increased to 27 in 1963-64. Out of the 27 dispensaries, one is managed by Government and the rest by the Zilla Parishad.

Primary Health Centres

There were six primary health centres functioning in 1961 at Neemgaon in Nanded taluka, Mirkhed in Deglur taluka, Barahali in Mukhed mahal, Koli in Hadgaon taluka, Peth Umri in Bhokar mahal and Islapur in Kinwat taluka. At the end of 1963-64 their number increased to nine and their combined provision of beds to 48. A maternity home has also been started at Deglur in 1961.

The total number of persons working as physicians, surgeons, dentists, nurses, pharmacists and other medical and health technicians in the district is 963.

The persons returned in the 1961 Census as Physicians, Surgeons and Dentists and their classifications by sex are shown in Table B-V in Part II. The number of medical personnel per one lakh population in the district is 16 as against 54 in Maharashtra.

HOUSING

Tables E-I, E-II, E-IV and E-V in Part II present material on different aspects of housing in rural and urban areas of the district and each taluka separately.

64·46 per cent of the houses are used as dwellings, 22·60 per cent as cattle-sheds, etc. 5.93 per cent were vacant at the time of the Census and the remaining are used as shops, workshops or factories, schools, etc.

The density of residential houses per square mile in the district has increased along with the density of population per square mile from 36·2 in 1951 to 52·6 in 1961. The number of persons per residential house has, however, decreased from 6·12 in 1951 to 5·14 in 1961. This may be a sign of increased mobility of population from rural to urban areas, as well as a tendency towards smaller families in urban areas.

Classified by " owned " and " rented " categories, 85·68 per cent of the dwellings in the district are owned and only 14·32 per cent are rented. The proportion of owned is higher (91·08 per cent) in rural areas and very much lower (52·40 per cent) in urban areas. This low proportion of 52·40 per cent for the urban areas in the district is however higher than the average of 30·28 per cent for all urban areas of Maharashtra.

Out of the various materials used for walls, stone is predominant in the district with a proportion of 45·81 per cent. Because of the existence of many hill ranges, good building stones occur in most parts of the district. The proportions of stone in the talukas of Kinwat, Hadgaon and Biloli are a little lower and the difference is made up by grass, leaves, reeds, etc., in the case of Kinwat and by mud in Hadgaon and Nanded talukas. Stone is used for walls more in rural areas than in urban areas. Its proportion in the rural areas is 50·18 per cent as against 18·87 per cent in urban areas. Mud as well as grass, leaves, reeds, etc. for walls are used in almost equal proportion in both rural and urban areas of the district. Burnt bricks appear to be used more in urban areas with a proportion of 21·87 per cent against 1·23 per cent in rural areas. Unburnt bricks are used in 8·33 per cent of dwellings in urban areas and 1·19 per cent in rural areas.

Out of the materials of roof, tiles are predominant in the district with a proportion of 57 per cent. Tiled roofs are, however, more common in rural areas. Their proportion in rural areas is 59·89 per cent as against 39·13 per cent in urban areas. The proportions of tiles in Kinwat and Nanded talukas are lower and the difference is made up by grass, leaves, reeds, thatched wood, etc. in the case of Kinwat, and by corrugated iron or zinc sheets in Nanded. Roofs of corrugated iron or zinc sheets which have proportions of 16·62 per cent and 39·22 per cent in rural and urban areas, respectively, are second in predominance in the district. Grass, leaves, thatched wood for the roofs or generally flat roofs of wooden beams or rafters are more common (20·56 per cent) in rural areas than (10·33 per cent) in urban areas.

Classified by the number of rooms occupied, 67·75 per cent households are occupying one-room dwellings and 19·90 per cent are occupying two-room dwellings. The households occupying larger number of rooms are more in urban than in rural areas. Average number of persons per room is 3·49 for total, 3·53 for rural and 3·24 for urban areas.

AGRICULTURE AND IRRIGATION

Agriculture is the most important economic activity as it engages 79·99 per cent of the working population in the district. Many others also work in industries related to processing of agricultural produce or trade, transport and services ancillary to agriculture.

The statistics regarding land utilisation, crop pattern, irrigation, wholesale and harvest prices, livestock and agricultural implements, etc., are presented in Tables 3 to 10 in Part III.

Cultivating Seasons

As in other areas of the State, in this district also there are two agricultural seasons, *viz.*, kharif and rabi. But the district usually has more area under kharif crops than rabi crops. In 1959-60 the ratio between areas under kharif and rabi crops was 82:18. Kharif jowar, cotton, tur, groundnut and rice are the main crops grown in kharif season and wheat, rabi jowar, gram, safflower and linseed are the principal crops grown in rabi season.

Jowar is grown in both the seasons. But compared to rabi jowar, the district has much larger area under kharif jowar; 80 per cent of the total area under jowar being sown in kharif season.

Sugarcane is a perennial crop but its area is very small in the district.

A crop calendar showing monthwise agricultural operations for principal crops is given on page (31).

Land Utilisation

The pattern of land utilisation in the district and each of its talukas is shown below compared with that of the State. All the figures are based on averages for the three years from 1957-58 to 1959-60 :—

Administrative Unit	Percentage of geographical area										
	Total geographical area	Forests	Barren and uncultura-ble	Land put to non-agricultural uses	Culturable Waste	Permanent pastures	Miscella-neous tree crops and groves	Current fallows	Other fallow land	Net area sown	Gross cropped area

The Figure on page (33) shows the land utilisation pattern for the year 1959-60 for the district and each taluka separately.

The net area sown in the district is 68·88 per cent of the geographical area as against 57·69 per cent for Maharashtra. Compared to the State averages the district has smaller proportions of barren and unculturable areas and of forest. The proportion of area under current fallows is however nearly two and half times as great as the State average.

Within the district the proportion of net area sown to the total geographical area ranges between 45·25 per cent in Kinwat taluka and 91·95 in Deglur taluka. Kinwat taluka has 25·10 per cent of the geographical area under forests and 7·20 per cent under culturable waste. The proportion of net area sown is, therefore, very low there.

Deglur taluka does not have area under forests and permanent pastures and consequently has a high proportion of net area sown. The proportions of barren lands and fallow lands are very low in all the talukas. 10·11 per cent of the geographical area in Bhokar mahal is under permanent pastures.

Because of numerous changes in the classification of land utilisation effected in 1950-51 and changes in the administrative boundaries of the district, it is not possible to determine if there has been any shift in the pattern of land utilisation over the last 40—50 years.

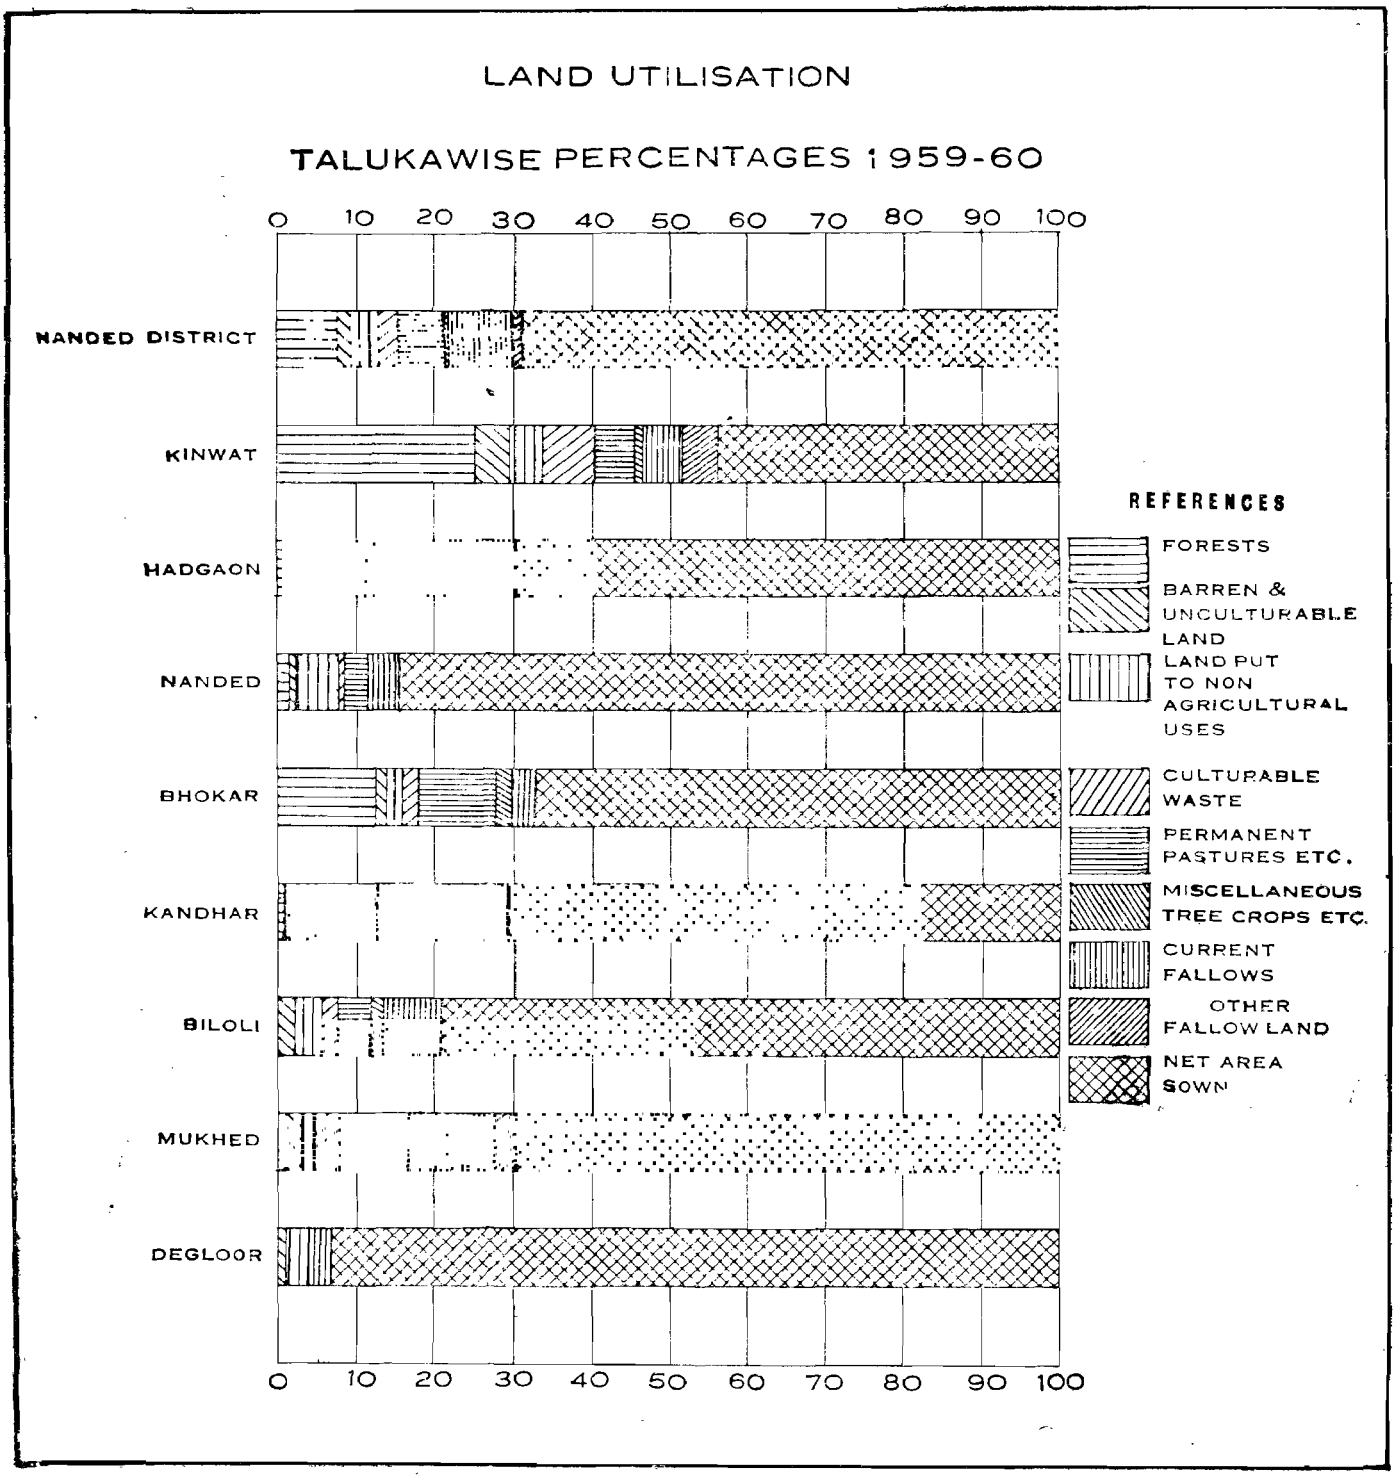

Crop Pattern

The proportions of areas under important food and non-food crops for the district and each of its talukas are shown below compared with the corresponding figures for Maharashtra. All figures are averages for three years 1957-58 to 1959-60.

Figure on page (35) shows the crop pattern for the district and each taluka separately. Jowar is obviously the most important among food crops of the district covering 40·16 per cent of the gross cropped area. Pulses come next in importance with 15·81 per cent of cropped area. Tur, mung and gram are the important pulses grown in the district. Compared to the State averages the district has lower proportions under food crops such as rice, wheat, other cereals and sugarcane. Bajri is rarely grown. All the food crops together make 66·56 per cent of gross cropped area as against 69·88 per cent for the State. Other food crops cover only 3·31 per cent of gross cropped area as against 5·59 per cent for the State. Chillies which occupy 90 per cent area in that group are an important crop in Biloli taluka. The district acreage under chillies is the largest among all districts in the State. Nanded has a regulated market where chillies are one of the regulated commodities.

Among non-food crops about 4 to 5 per cent of the area is covered by cotton. The rest of the area is occupied by oil-seeds and other non-food crops including fodder crops. Groundnut covers more than half the area under oil-seeds. Linseed and safflower are the other important oil-seeds. Tobacco has a very small area.

Details of cropped area	Percentage of gross cropped area in

The proportion of food crops has increased from 59·47 per cent in 1952-53 to 66·81 per cent in 1959-60. Amongst the food crops, proportion of cereals has increased from 40·11 per cent to 48·52 per cent. The proportion of pulses has decreased from 16·80 per cent to 14·71 per cent. The proportion of area under condiments and spices has also increased from 2·10 per cent to 2·93 per cent. The area under sugarcane has increased by more than 100 per cent. The area under fruits and vegetables has increased by 1,800 acres (or by 37·5 per cent). Among cereals the area under rice and wheat increased nearly 2½ times and that under jowar increased from 584,300 acres in 1952-53 to 738,100 acres in 1959-60. The proportion of areas under oil-seeds has reduced from 6·58 per cent in 1952-53 to 5·41 per cent in 1959-60. The areas under cotton also decreased by 35,000 acres. A part of the increase in the area under food crops may be due to an improvement in the agricultural statistics. Areas of food crops had been subjected to levy of foodgrains and they might have been under-reported in those years.

As comparable statistics are not available for the entire district for years prior to 1952-53, it is not possible to study whether there is any significant shift in the crop pattern of the district during the last 40—50 years.

Generally speaking the crop pattern in the district is inferior to the average for the State. The gross value of output per acre in the district, in fact is the lowest in the State. The State's crop pattern is itself poor in the all-India setting because of high proportion of jowar, bajri and other low value crops. The district proportions of low value crops like jowar are higher and that of high value crops like rice, wheat, etc. are lower than the State averages. Coupled with these are the very low proportions of irrigated areas and lower yield per acre for cotton and pulses. All these factors together contribute to degrade the rank of the district to the lower place in the crop pattern in Maharashtra.

Within the district, the cropping pattern varies according to soil types and rainfall. The high proportion of food crops can be seen in all talukas. It is the highest (77·46 per cent) in Deglur taluka. Rice has significant proportions only in the north-eastern tract consisting of Kinwat and Hadgaon talukas and Bhokar mahal. Wheat is predominant in Hadgaon and Deglur talukas. Its proportion in Hadgaon taluka is more than twice the State average. The proportion of jowar is higher than State average in each taluka. Nanded taluka has nearly half the cropped area under jowar. Bajri is mainly found in Kinwat taluka. The southern portion has a large proportion of area under pulses, mainly tur, mung and gram. Slightly more than a fifth of cropped area in Mukhed mahal is occupied by pulses. Among other food crops, more than 40 per cent of the district area under condiments and spices (mainly chillies) is in Biloli taluka. Fruits and vegetables are mainly grown in Nanded and Hadgaon talukas. Sugarcane is concentrated in Kandhar and Nanded talukas.

Among non-food crops, cotton is largely grown in the northern and central portions of the district. Oil-seeds (mainly groundnut) have large proportions in Kandhar and Biloli talukas. Other oil-seeds have larger proportion in Deglur taluka. Half of the district area under tobacco is in Deglur and Biloli talukas.

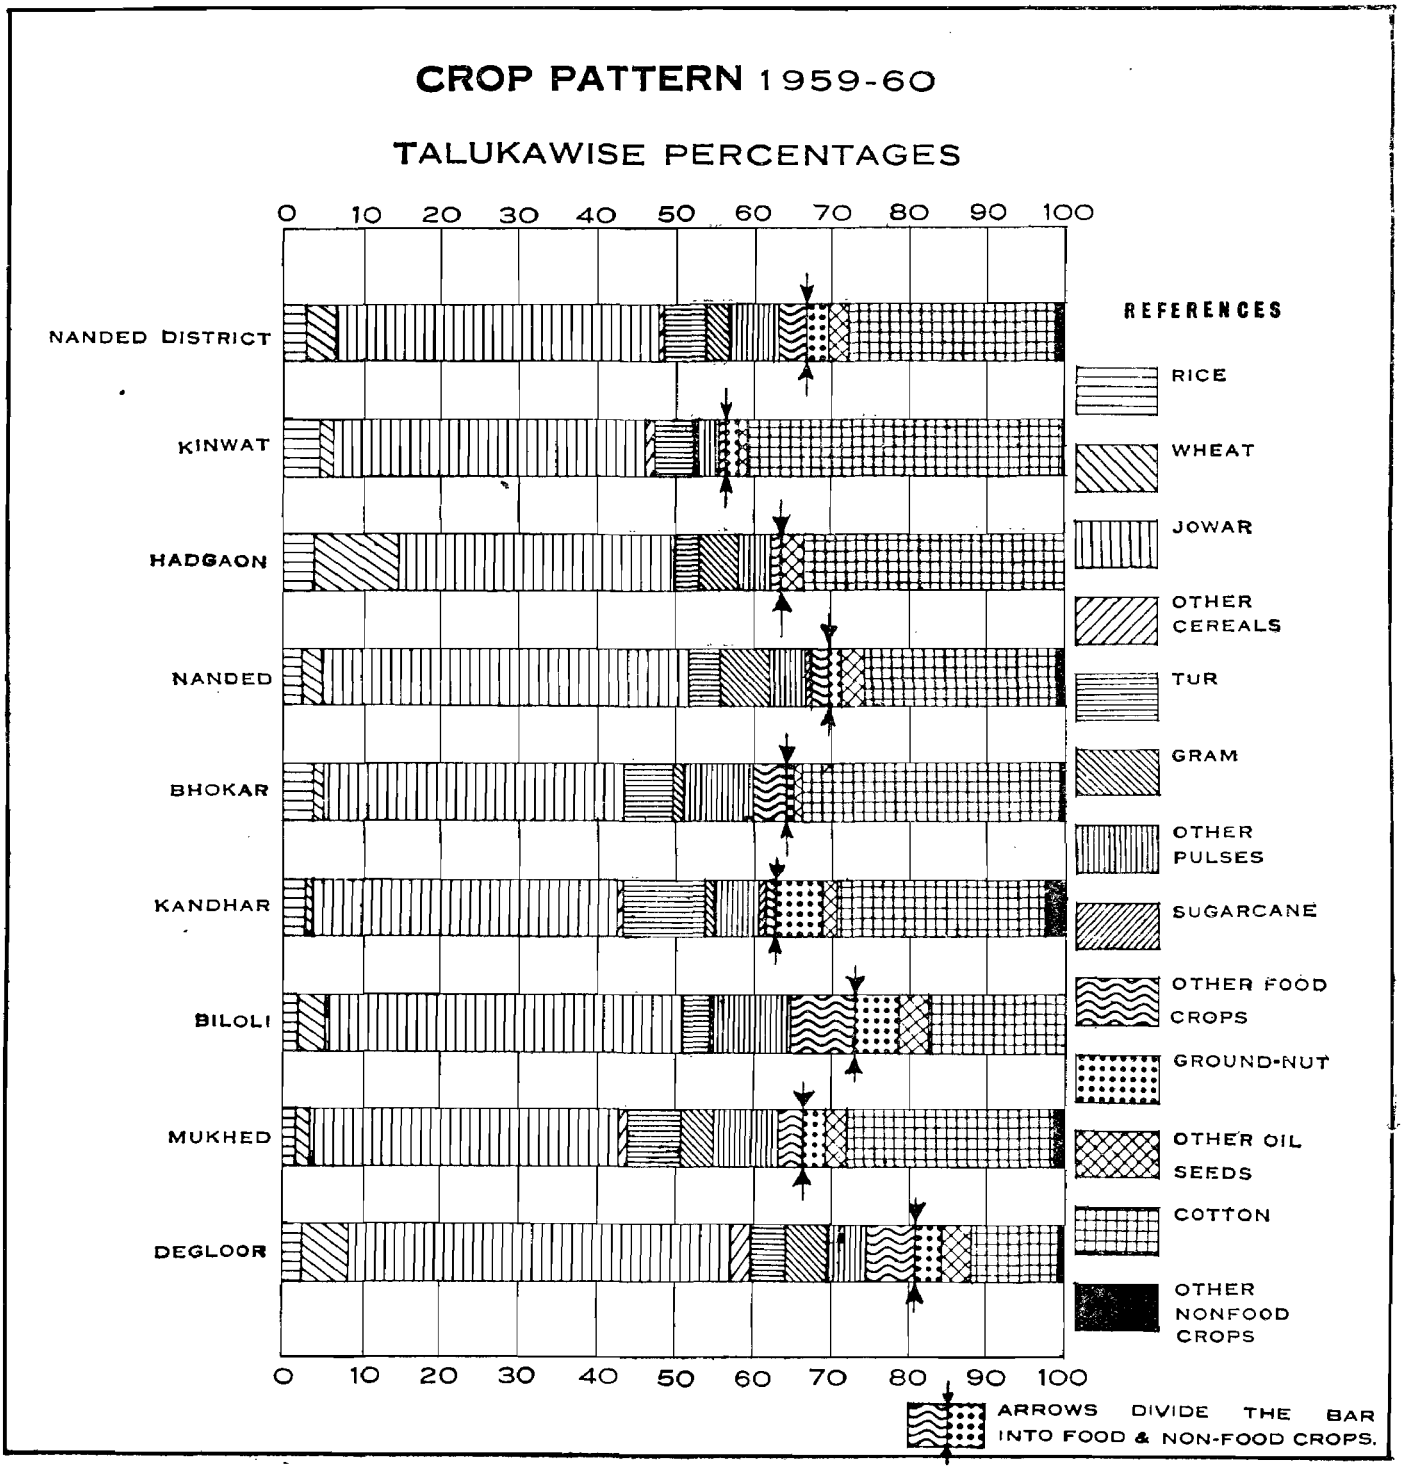

Nine-year average yields and 1958-59 acreages and outturns of important crops for the district are shown below taking corresponding figures for Maharashtra as 100:—

	Nine-year average yield per acre	1958-59 area	1958-59 outturn
MAHARASHTRA	100.00	100.00	100.00
Rice	54.85	1.70	0.56
Wheat	105.38	3.47	3.51
Jowar	106.00	5.52	5.82
Tur	60.74	7.67	5.36
Gram	90.38	5.44	4.07
Sugarcane	60.98	1.61	1.04
Cotton	74.24	7.91	7.83
Groundnut	113.60	1.91	2.01
Sesamum	44.85	7.85	4.69
Rape, Mustard and Linseed ..	98.95	5.11	5.08
Tobacco	96.44	0.74	0.95

The district average yields are lower than the State averages for most of the crops, but not for wheat, jowar and groundnut. They are very low for sugarcane, tur, rice and sesamum. More than 5 per cent of acreage under each crop of jowar, tur, gram, cotton, sesamum and linseed group in Maharashtra is covered in the district. The district makes more than 5 per cent contribution in the State's outturn of jowar, tur and cotton.

The Techno-Economic Survey of Maharashtra has estimated the gross value of output per acre of cropped area in 1955-56 at Rs. 44 for the district as against Rs. 76 for the State and Rs. 126 for India.

The density of population, proportion of workers working on land to total workers, gross area sown per worker on land and the proportion of gross irrigated area

to gross cropped area are shown below for the district and each of its talukas compared with the State averages :—

Administrative Unit	Density of population per square mile	Percentage of workers working on land to total workers	Gross area sown per worker on land (acres)	Percentage of gross irrigated area to gross cropped area
MAHARASHTRA ..	334	69.91	3.50	6.23
NANDED DISTRICT	271	79.99	3.96	1.30
1 Kinwat Taluka ..	146	88.36	3.97	0.46
2 Hadgaon Taluka..	228	88.43	3.87	0.53
3 Nanded Taluka ..	497	59.43	4.36	2.46
4 Bhokar Mahal ..	221	84.80	4.39	0.65
5 Kandhar Taluka..	276	84.24	3.65	1.98
6 Biloli Taluka ..	312	81.72	3.61	2.46
7 Mukhed Mahal ..	300	77.22	3.99	0.54
8 Deglur Taluka ..	343	77.77	4.50	0.59

79·99 per cent of the total workers work on land. 44·05 per cent are cultivators and 35·94 per cent are agricultural labourers. The proportion of workers working on land is higher than the State average (69·91 per cent). The gross area sown per worker on land is 3·96 acres as against 3·50 acres for the State.

Within the district, the proportion of workers working on land ranges between 59·43 per cent in Nanded taluka and 88·43 per cent in Hadgaon taluka. Nanded taluka has a large urban population and there are a number of industrial establishments. Therefore the proportion of workers working on land is comparatively low there. The gross area sown per worker on land is highest (4·50 acres) in Deglur taluka and lowest (3·61 acres) in Biloli taluka.

Because of lower proportion of irrigated areas and low retentive capacity of soil for moisture, the proportion of net area sown under double crops to the total net area sown in the district is considerably lower than the State average of 5·05 per cent in 1959-60. The proportion has however increased gradually from 0·13 per cent in 1952-53 to 0·64 per cent in 1955-56 and to 0·90 per cent in 1958-59. The net area sown more than once was the largest (29,300 acres or 1·67 per cent of the net area sown) in 1959-60. Within the district, in 1959-60 the proportion of net area sown more than once to the gross cropped area was high in Deglur taluka (8·31 per cent) and moderate in Nanded taluka (3·46 per cent), Mukhed mahal (3·04 per cent) and Bhokar mahal (2·22 per cent). The other talukas had negligible areas under double crops.

Irrigation

The proportion of gross irrigated area to gross cropped area for the district (1·30 per cent) in the year 1959-60 is considerably lower than the average for the State (6·23 per cent). The net irrigated area in 1959-60 is however 4,200 acres more than the area irrigated in 1950-51. The proportion of gross irrigated area to the gross cropped area in 1959-60 is highest in Nanded and Biloli talukas (each 2·46 per cent). Kandhar taluka (1·98 per cent) and Bhokar mahal (0·65 per cent) have some noticeable proportions of irrigated areas. All the other talukas have negligible areas under irrigation.

Table 4 in Part III gives the break-up for irrigated areas by sources of irrigation separately for each taluka and the district. Wells are the major source of irrigation, irrigating 89·89 per cent of the net irrigated area. The remaining 10·11 per cent are irrigated by tanks. Two-thirds of the irrigated areas in Kinwat and Deglur talukas are irrigated by tanks. The entire (1,000 acres) irrigation in Bhokar mahal is by wells. Tank irrigation has declined from 2,500 acres in 1950-51 to 1,900 acres in 1959-60. There is however an increase of 5,200 acres in the area under wells.

A recent but remarkable improvement is in the number of oil engines and electric pumps used for irrigation. The number of oil engines increased from 30 in 1951 to 636 in 1961 and the number of electric pumps from 2 in 1951 to 30 in 1961. Nanded taluka has the largest number of oil engines (155) and electric pumps (17).

Crop Pattern under Irrigation

Table 5 in Part III shows the crop pattern under irrigation. In the year 1959-60, almost entire irrigated area (99·57 per cent) was under food crops. Rice is the principal irrigated crop covering 28·76 per cent of gross irrigated area. Wheat occupied another 7·72 per cent, sugarcane 24·89 per cent, other cereals 14·16 per cent and the remaining (24·04 per cent) by other crops including condiments, spices, etc. Only 0·43 per cent of the gross irrigated area was covered by non-food crops such as by fodder crops. Although a large part of irrigated area is under rice, the irrigated crop makes only 13·51 per cent of the total area under rice. Only 1,800 acres out of 65,700 acres under wheat are irrigated.

Production

The annual outturn of principal crops in the district is shown in Table 6 in Part III. The average production of foodgrains, sugarcane and oil-seeds from 1951 to 1956 and from 1956 to 1960 compares with the production of 1951-52 as follows :—

Crop	Average production in hundred tons during		
	1951-52	1951—56	1956—60
Rice	70	75	98
Wheat	43	92	100
Jowar	658	1,279	1,606
Other cereals	13	11	1
Total cereals	784	1,457	1,815
Total pulses	506	476	357
Total foodgrains	1,290	1,933	2,172
Groundnut	228	197	129
Cotton (in bales of 392 lbs. each)	800	589	725

This comparison by taking one single year as base may not be very much conclusive as that base year might have itself been a very favourable or a very bad agricultural season. A levy of foodgrains had been made during 1951, 1952 and 1953 and the agricultural statistics for these years may not be very reliable. However, the comparison brings out some very interesting results.

In the First Plan period the average annual production of total foodgrains increased by 49·84 per cent over the 1951-52 production. The corresponding increase during the Second Plan period is 68·37 per cent. The production of total cereals during the Second Plan period is nearly two and one-third times the 1951-52 production. The production of pulses during the First Plan period was lower by 5·93 per cent and during the Second Plan period it was lower by 29·45 per cent than the 1951-52 production. Among the cereals, average annual production of wheat and jowar during the First Plan period was almost double and during the Second Plan period, it was nearly two and half times the 1951-52 production. On the other hand there was a substantial fall in the annual average production of groundnut and cotton during both the Plan periods.

Agricultural Implements

The number of agricultural implements for the district and for each of its talukas for the years 1951, 1956 and 1961 are separately shown in Section C of Table 9 in Part III.

The remarkable increase in the number of oil engines and electric pumps used for irrigation purpose only has already been described earlier. Between 1951 and 1961, the number of iron ploughs increased more than three times and the number of wooden ploughs by 32·09 per cent. Both the types together, however, increased by 36·22 per cent. The number of sugarcane crushers operated by power increased from 4 in 1951 to 101 in 1961 and those worked by bullocks from 250 in 1951 to 445 in 1961. The number of tractors in 1956 was 48. It reduced to only five in 1961. This was perhaps due to transfer of the Government tractor unit to Andhra Pradesh.

By using standard average prices for the agricultural implements shown in Table 9 in Part III, the total outlay on them for the year 1961 may be estimated at Rs. 113·15 lakhs or Rs. 6·44 per acre of the net sown area. The agricultural implements not shown in the table may not together make more than Rs. 2 per acre. The total outlay on this item in the district may approximately be presumed to be less than Rs. 9 per acre.

Agricultural Extension

Agricultural development in the district is now looked after by the Zilla Parishad. A Subject Committee of the Zilla Parishad deals with it and the Agricultural Development Officer works as a Secretary to that Committee. There are Agricultural Extension Officers at taluka level working under the Block Development Officers. The latter work as the Secretaries of the Panchayat Samitis.

Talatis and Gram Panchayat Secretaries work as Assistant Gram Sevaks. Village Panchayats are expected to work for agricultural extension at the village level.

Agricultural Research

A Cotton Research Station had been established at Nanded in 1941. It has a farm area of 123·98 acres. Research is carried on different varieties of cotton.

Agricultural Improvement

Increasing the area under irrigation.—The most important single item of increasing agricultural production is to increase the area under irrigation. The increase of 4,200 acres in the irrigated area over that of 1950-51 has already been described. This has been brought about by construction of new wells and renovation and repairs to the old ones. The work of construction of two new tanks was taken up during the Second Plan period. On completion, this will raise the irrigation potential by about 5,700 acres. In addition to this, about 2,000 new wells were constructed and about 1,000 old wells were repaired. This increased irrigation potential by about 2,400 acres. The Third Plan envisages new minor irrigation works irrigating about 800 acres in addition to the existing works in progress. The Plan also includes schemes of construction of 1,500 wells and installation of 500 pumping sets.

Work on a medium irrigation project known as "Manar Dam Project" near Warwant village in Kandhar taluka was started during the Second Plan period. It is a two-stage project. The first stage will raise irrigation potential by about 25,000 acres. On completion of the second stage, additional 2,000 acres will be brought under irrigation.

Purna project near Sidheshwar village in Parbhani district is also likely to irrigate about 41,000 acres in this district.

With these increasing facilities for irrigation, the question of full utilisation of created potential is likely to assume importance. Statistics of the available potential and its actual utilisation are, however, not available separately for the district.

Improved seeds.—Another item in improving food production is the recommendation of better varieties or strains of crops. The Agriculture Department

has recommended the following improved varieties or strains of crops for the district :—

Paddy	..	HR-19
Cotton	..	G-1946 (for Nanded district, except Kinwat taluka).
		Buri 147 (for Kinwat taluka only).
Gram	..	Chafa
Tur	..	C-II
Mung	..	China-781
Wheat	..	PH 64-4 (Rust resistant)
Rabi Jowar	..	PJ-4-R
Kharif Jowar	..	PJ-4 K, PJ-8 K E and PJ-24K.

Seed farms have been established at eight places to render improved seeds to farmers. The combined area of all the seed farms is 531·08 acres.

Bunding and Terracing.—2,649 acres of area was bunded during the first two Plan periods. The target for the Third Five-Year Plan is not available for the district separately since the scheme is implemented as State level scheme.

Livestock

The number of livestock for the years 1951, 1956 and 1961 has been shown separately for each taluka and the district in Table 9 in Part III.

The total livestock as per 1961 Livestock Census in the district is about ten lakhs. This makes only 56 livestock per 100 acres of cultivated area. The corresponding figure for the State is 139.

The total bovine population in the district in 1961 is 80·06 per cent of the total livestock. The number of male bovines over three years are 2·19 lakhs. The area cultivated per pair of male bovines over three years is thus 16·33 acres, as against 5·84 acres for the State. There are 3·01 lakhs of female bovines over three years. That makes 279 female bovines over three years per 1,000 population in the district as against the State average of 159.

During the decade 1951—61 there has been an overall increase of 30·47 per cent in the livestock. Increase is observed in all types of livestock except horses and ponies and sheep whose numbers have declined from 4,800 to 4,000 and from 47,500 to 40,300, respectively.

The number of cattle and buffaloes increased by 26·98 per cent and 37·59 per cent, respectively. During the same period the increase in the number of goats is 62·32 per cent. The number of poultry has also increased by 70,400 or by 78·22 per cent from 1956 to 1961.

Veterinary Facilities

There is one Veterinary Hospital at Nanded with a District Diagnostic Centre attached to it. There are also nine veterinary dispensaries located at the following places :—

(1) Deglur, (2) Kandhar, (3) Biloli, (4) Bhokar, (5) Kinwat, (6) Mukhed, (7) Hadgaon, (8) Kalambar and (9) Dharmabad.

There are 12 veterinary aid centres located at different places in the district.

Treatment of animal diseases, control of epidemics, castration of scrub bulls and control and destruction of animal parasites are the main services rendered at these dispensaries.

Majority of the local breed found in the district is of non-descript type. Deoni breed has been recommended for the tract. One key village centre has been established at Deglur for improving the quality of breed. Six key village units are attached to it. Two breeding bulls of Deoni breed are located at each key village unit and four Deoni bulls are at the main centre Deglur. Both, natural and artificial insemination breeding are practised at these centres.

Under the premium bull scheme, 15 Deoni breeding bulls have been distributed amongst the interested cattle breeders at half cost subsidy and maintenance subsidy.

One supplementary cattle breeding centre has been established in Deglur taluka with five contiguous villages for upgrading non-descript type of cattle by Deoni bulls.

There are two poultry demonstration centres in the district, one at Deglur and the other at Nanded. These two poultry centres distribute the hatching eggs, chicks and improved cockerels amongst villagers.

AGRARIAN STRUCTURE AND LAND REFORMS

Land Tenures

The common system of land tenure throughout the district is Ryotwari.

Under the ryotwari system, each field is considered a separate holding, which the ryot holds directly from the State, and the holder is called the occupant. The right of occupancy depends on the regular payment of the assessment and in case of failure to meet the demand, it is liable to forfeiture and the land reverts to the State.

The other important systems of tenure which were prevalent in the district were the Jagirs and Inams. All Jagirs and Inams (except Deosthan Inams) have now been abolished under the various measures of land reforms.

All hereditary Watan lands held for village services have also been abolished and all village servants now work on a salary basis. The occupancy rights of abolished inam lands have been conferred on their holders or tenants, as the case may be, on condition of payment of occupancy price to the Government and/or compensation to the erstwhile holders. Consequential processes of determining titles for occupancy rights and of recovery of occupancy price or compensation are in some cases still in progress. The process of abolition of intermediary interests in land is thus being completed in the district.

Record of Rights

A Record of Rights in land is maintained by the Revenue Department for each village separately. It is integrated with annual crop returns and inspections and is, therefore, easily maintained up to date. Rights on land in respect of ownership, tenancy, mortgage and other encumbrances are recorded and a form is maintained for each parcel of land separately. It is obligatory on every person acquiring any right on land to report it within three months. Annual revenue accounts are prepared on the basis of the Record of Rights.

Ownership Rights to Tenants

Tenancy rights are regulated under the Hyderabad Tenancy and Agricultural Lands Act which is in force since June 1950. It provides security of tenure to and payment of only reasonable rents by the tenants.

In pursuance of the "Land to the tiller" policy, the Act provides for compulsory transfer of ownership rights of tenanted lands to the protected tenants from 26th January 1956. This was an important step towards the removal of absentee landlordism which was one of the disincentives in any programme of agricultural improvement.

Up to 31st March 1963, ownership rights have been conferred upon 8,078 tenants for 82,908·78 acres of land in the district. Number of cases in which the Revenue Officers settled the price is 6,850. In 334 cases price of land has been mutually settled by tenants and landlords.

Size of Landholdings

Census Table B-X in Part II of this Volume shows that 53·49 per cent of the total number of households cultivate land and the remaining 46·51 per cent do not cultivate any land.

Census Table B-XI in Part II shows the break-up of cultivating households by size of land cultivated and by the interest in the land. 82·31 per cent of the cultivating households cultivate their owned lands only. 4·26 per cent of the households cultivate tenanted lands only and the remaining 13·43 per cent cultivate lands partly owned and partly taken on lease. Percentage distribution of cultivating households by the size of land cultivated is shown below.

The distribution of households in Table B-XI and the same shown in percentages in column 2 below, is based on cultivation (operational) holdings as returned in the 1961 Census.

A classification of holdings on the basis of area owned (against the area cultivated) for the year 1952-53 is shown in Table 10 in Part III. The percentage distribution of these ownership holdings is also shown in column 3 below :—

Area	1961 cultivation holdings	1952-53 ownership holdings
Less than 1 acre	0.41	3.66
1 to 4.9 acres	12.33	21.89
5 to 9.9 acres	16.83	24.10
10 to 14.9 acres	18.01	15.36
15 to 29.9 acres	34.62	22.26
30 to 49.9 acres	13.20	8.42
50 acres and over	4.60	4.31
Total ..	100.00	100.00

The average size of cultivation holding in the district in 1960-61 is 19·36 acres. Average size of the ownership holding in the district was 15·73 acres against the average of 11·95 acres for the State.

Ceiling on Holdings of Agricultural Land

The Maharashtra Agricultural Lands (Ceiling on Holdings) Act came in force from 26th January 1962. Three local areas, *viz.*, Kinwat, Nanded and Mukhed have been notified in the district with different ceiling areas, for dry crop land, *viz.*, 114, 96 and 108 acres respectively. In the case of irrigated lands, the ceiling area in all the three local areas is the same, *viz.*, 18 acres in the case of perennially irrigated areas, 27 acres in areas irrigated in two seasons, and 48 acres in areas which get irrigation water for one season. Holders of land in excess of the ceiling areas are not now free to transfer or partition any land until the land in excess of the ceiling is determined under the Act. They were required to furnish returns of their holdings to the Collectors. The Collectors are to make enquiries to determine the surplus lands and take them over in possession. Those lands shall afterwards vest in the State Government. The Act also provides for payment of compensation to the holders at specified rates and for distribution of surplus lands to landless or other persons in the prescribed order of priority. At the moment the enquiries to be made by the Collectors are in progress.

Consolidation of Holdings

This scheme is not yet started in this district.

The provisions of the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, stopping further fragmentation are, however, enforced in the district.

The standard areas specified as minimum necessary for profitable cultivation under the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, are as follows :—

Dry crop land	1·50 acres.
Bagayat land	0·50 acres.

All plots of land less in area than the standard areas are treated as fragments and their transfer except to holders of contiguous plots is prohibited.

CO-OPERATION

Administration

The Deputy Registrar of Co-operative Societies is in charge of the co-operative movement in the district. He is assisted by two Assistant Registrars who have territorial jurisdiction and deal with all the aspects of the co-operative movement in the district. In addition, an Assistant Registrar works under the Zilla Parishad. He carries out the duties of registration, deciding appeals against non-admission of members, approval to bye-laws and administrative supervision in respect of co-operative societies whose working capital does not exceed Rs. 5 lakhs and whose jurisdiction does not extend beyond the district. The Zilla Parishad also looks to the promotion and extension of co-operative movement in the district.

The co-operative movement lacked popular enthusiasm till attainment of independence. Since the introduction of Five-Year Plans and with emphasis on development of rural areas, concentrated efforts were made during the last decade which have resulted in a rapid progress in the co-operative movement in the district. Nearly 90 per cent of villages in the district are now covered by rural co-operatives. Besides agricultural credit, the activities are now extended to processing of agricultural products, dairying, farming, marketing, etc. Many of these processing co-operatives have, however, yet to make much progress.

The following description is based on the report for the year 1960-61.

Co-operative Credit

(*a*) *Agricultural Credit Societies.*—The number and membership of Agricultural Credit Societies have increased at a rapid pace during the last decade especially during the Second Plan period.

The position of Agricultural Credit Societies in 1957-58 and 1960-61 is as shown in the next column.

	1957-58	1960-61
(1) Number of Agricultural Credit Societies	441	890
(2) Number of members	20,276	47,137
(3) Share Capital (Rs. in lakhs) ..	5·20	25·83
(4) Reserve and other funds (Rs. in lakhs).	1·52	0·39
(5) Working capital (Rs. in lakhs) ..	27·54	97·13
(6) Number of members to whom loans were advanced	..	36,022
(7) Amount advanced (Rs. in lakhs) ..	15·98	82·56
(8) Amount recovered (Rs. in lakhs) ..	11·57	64·03
(9) Loans outstanding (Rs. in lakhs) ..	21·13	77·09
(10) Overdues (Rs. in lakhs)	6·83	8·51

Average membership per primary society in the district is 53 against the average of 96 members for Maharashtra. 89·01 per cent villages in the district have been covered.

Total owned funds (share capital *plus* reserve funds) of the primary agricultural credit societies in the district amounted in 1960-61 to Rs. 26·22 lakhs and formed 26·99 per cent of their working capital against 26 per cent for Maharashtra.

The loan operations of all the primary agricultural societies in the district amounted to 82·56 lakhs in 1960-61. The average amount of loan per borrowing member in the district worked out to Rs. 229 as against Rs. 329 for Maharashtra.

During the period 1958—61, the number of societies has increased by 100 per cent and membership has increased by 132·48 per cent. Their share capital increased by Rs. 20·63 lakhs and the working capital from Rs. 28 lakhs in 1957-58 to Rs. 97 lakhs in 1960-61. There is also an increase of Rs. 66·58 lakhs in the amount advanced as loans by the societies in 1960-61 over the amount advanced in 1957-58. There is also a substantial improvement in the proportion of overdues to the outstanding loans from 32·32 per cent in 1957-58 to 11·04 per cent in 1960-61. All these items indicate the satisfactory progress made by co-operatives in this sector.

(*b*) *Central Co-operative Bank.*—The Central Co-operative Bank was established at the district headquarters in 1923 and has been working as a federal financing agency catering for the credit requirements of all the primary credit societies in the district. Since 1962, the Zilla Parishad also transacts its financial business through this bank.

In the year 1960-61, the position of the Bank was as follows :—

(1) Number of members—		
(*a*) Individuals		181
(*b*) Societies		998
(2) Paid-up share capital ..	(Rs. in lakhs)	13·29
(3) Reserve and other funds ..	(Rs. in lakhs)	2·37
(4) Deposits—		
(*a*) Individuals	(Rs. in lakhs)	20·62
(*b*) Societies and Banks..	(Rs. in lakhs)	13·54
(5) Borrowings—		
(*a*) State Co-operative Bank and the Reserve Bank of India ..	(Rs. in lakhs)	51·00
(*b*) Government ..	(Rs. in lakhs)	0·95
(*c*) Other sources ..	(Rs. in lakhs)	1·73
(6) Working Capital	(Rs. in lakhs)	103·50
(7) Cash—		
(*a*) On hand	(Rs. in lakhs)	5·21
(*b*) At Banks	(Rs. in lakhs)	15·54
(8) Investments—		
(*a*) Government and other Trustee Securities	(Rs. in lakhs)	2·17
(*b*) Others	(Rs. in lakhs)	6·51
(9) Percentage of cash in hand to deposits		15·25
(10) Percentage of investment to deposits		25·41
(11) Loans outstanding—		
(*a*) Individuals	(Rs. in lakhs)	0·07
(*b*) Societies	(Rs. in lakhs)	73·22
(12) Percentage of loans outstanding to deposits ..		214·55
(13) Percentage of loans outstanding to working capital		70·81
(14) Overdues	(Rs. in lakhs)	11·95
(15) Percentage of overdues to loans outstanding ..		16·31
(16) Cost of management ..	(Rs. in lakhs)	2·12
(17) Percentage of cost of management to working capital		2·05
(18) Loss	(Rs. in lakhs)	0·17
(19) Number of branches and pay offices in the district		8

During the year 1960-61, the society membership of the Bank increased by 11·33 per cent but the individual membership has fallen down by 11 members over 1959-60. The share capital of the Bank has increased by 23·86 per cent and there is an addition of Rs. 3·04 lakhs in its owned funds. Its working capital has increased by Rs. 28·83 lakhs. The Bank advanced loans of Rs. 122·46 lakhs as against Rs. 71·46 lakhs in the previous year. The proportion of overdues to outstanding loans has however increased from 10·72 per cent in 1959-60 to 16·31 per cent in 1960-61. This points out to the need of improving recoveries. The Bank also suffered a loss of Rs. 17,000 during the year as against a profit of Rs. 28,000 in the previous year.

(*c*) *Land Mortgage Bank.*—The Primary Land Mortgage Bank was established at Nanded in 1956, with a view to providing long term finance to cultivators. The Bank has two branches, one at Kandhar and other at Biloli. The membership of the Bank is 5,365, paid-up share capital Rs. 1·29 lakhs and working capital Rs. 17·95 lakhs. Loans amounting to Rs. 7·23 lakhs were advanced during the year. The Bank has recently got its bye-laws amended to give the loans to the societies. There is a proposal to open a new branch at Deglur for financing joint farming societies.

(*d*) *Urban Banks and Credit Societies.*—There are 18 urban credit and other societies in the district. Three of them are urban credit societies and 15 salary earners' societies. Their combined membership is 3,185, paid-up share capital 2·26 lakhs and working capital Rs. 3·49 lakhs. Four of the salary earners' societies are more or less defunct. Efforts are being made to improve the working of others. One of the societies, *viz.*, "Osmanshahi Mill Employees' Co-operative Society" is running a fair price shop for its members.

Agricultural Processing Societies

Two cotton ginning and pressing societies and one paddy husking society have been organised very recently. The combined membership of the ginning and pressing societies is 1,593, share capital Rs. 1·79 lakhs and working capital Rs. 1·84 lakhs. The paddy husking society has 448 members, Rs. 31,000 as share capital and also Rs. 31,000 as working capital. The societies have yet to purchase machinery, etc.

Industrial Societies

There are 18 weavers' societies and 98 other industrial societies. Of the 18 weavers' societies 15 are handloom weavers' societies and three wool weavers' societies. The combined membership of the weavers' societies is 3,501, share capital Rs. 78,000 and working capital Rs. 2·94 lakhs. The number of looms under co-operative fold is 2,848. The value of goods produced by the societies during the year amounted to Rs. 1·72 lakhs. Fifteen powerlooms were allotted to the Handloom Weavers' Co-operative Society, Deglur. This society was awarded first prize by the District Co-operative Board, Nanded, for its outstanding work.

The other types of industrial societies include 9 oil ghanis, 7 cane and bamboo workers, 24 tanning, 20 leather working, 7 carpentry and smithy, 13 pottery and brick-making, 2 coir and rope-making,

2 neera and palm gur, 14 miscellaneous, etc. Their combined membership is 1,802, share capital Rs. 1·40 lakhs and working capital Rs. 2·74 lakhs. The value of production of these societies is Rs. 2·11 lakhs and sale value Rs. 2·64 lakhs.

Forest Labourers' and Labour Contract Societies

There are five forest labourers' societies and four labour contract societies.

The combined membership of forest labourers' societies is 174, share capital Rs. 3,000 and working capital Rs. 13,000. Labour contract societies have 124 members, share capital Rs. 2,000 and working capital Rs. 4,000. The labour contract societies received Rs. 1,000 as loan and Rs. 3,000 as subsidy from the Government.

Co-operative Farming Societies

There are three collective farming and seven joint farming co-operative societies. The collective farming societies have 79 members, share capital of Rs. 13,000 and working capital of Rs. 38,000. The area cultivated by the societies is 514·48 acres out of 579·48 acres under their command.

The combined membership of the seven joint farming societies is 92, their share capital Rs. 12,000 and working capital Rs. 18,000. The societies have 1,398 acres under their command out of which 380 acres were cultivated during the year.

Fishery Societies

Four co-operative fishery societies have been organised during the year under report. They have 190 members, share capital Rs. 2,000 and working capital Rs. 6,000. Fishery rights are given to the members of the societies in certain tanks and rivers.

Dairy Societies

There is one milk supply union and six milk supply societies. The combined membership of the milk supply union is 15 individuals, the paid-up capital Rs. 3,000 and working capital Rs. 26,000. Milk worth Rs. 14,000 was sold during the year. The union made a profit of Rs. 3,000. The combined membership of the milk supply societies is 174 individuals, share capital Rs. 4,000 and working capital Rs. 11,000. Milk worth Rs. 9,000 was sold during the year.

Purchase and Sales Societies and Unions

There is one district marketing society, five taluka marketing societies, three taluka co-operative associations and two multi-purpose societies included in the category of "Marketing Societies". The district purchase and sales union has 567 members. Its share capital is Rs. 72,000 in which Government's contribution is Rs. 25,000. The value of goods marketed and distributed by the District Union amounted to Rs. 75·99 lakhs. The primary marketing societies together have 283 society members and 2,551 individual members and a share capital of Rs. 2·13 lakhs. The Government has contributed Rs. 60,000 in the share capital of the societies. The purchase and sale by the societies amounted to Rs. 26·12 lakhs and Rs. 22·39 lakhs, respectively.

The working of the four taluka marketing societies at Peth Umri, Deglur, Kinwat and Hadgaon is reported satisfactory. The three taluka co-operative associations at Nanded, Kandhar and Biloli are defunct for a long time. The multi-purpose society at Kalambar did not transact any business during the year. The other multi-purpose society at Karkheli transacted *adat* business to the tune of nearly 50,000 rupees.

Consumers' Movement

There are five primary consumers' stores in the district, four of which are located in Kinwat taluka which is declared as a scheduled area. Two of these stores are organised during the year. The combined membership of all the societies is 411, share capital Rs. 11,000 and working capital Rs. 31,000. During the year 1960-61 the value of sales of these societies amounted to Rs. 22,000. Assistance was given by the Social Welfare Department for the maintenance of qualified staff and therefore the societies could work more effectively during the year 1960-61. Two of these societies made a profit of Rs. 1,000 and three other neither showed any profit nor loss. One of the societies, *viz.*, Police Department Co-operative Consumers Stores is defunct.

Housing Societies

There are 26 co-operative housing societies of which 15 are for persons belonging to Backward Classes. 16 of these societies are organised during the year under report. The total membership of all societies is 1,036, share capital Rs. 1·05 lakhs and working capital Rs. 11·83 lakhs. Six independent houses valued at Rs. 60,000 have been constructed by the members of the societies. The societies have constructed 42 independent houses and 70 tenements at a total cost of Rs. 11·17 lakhs.

Co-operative Activity for Backward Classes

Four farming societies (one joint farming and three collective farming) and 15 housing societies have been organised for Backward Class persons.

The farming societies have membership of 70 individuals, share capital of Rs. 17,000 and working capital of Rs. 45,000. Government has contributed

Rs. 12,000 towards their share capital. Subsidy of Rs. 9,000 and loans of Rs. 16,000 are also granted as financial assistance. The societies together cultivated 429·48 acres of land during the year.

Of the 15 housing societies as many as 12 societies were registered at the end of the year. These societies together have a membership of 413 individuals, Rs. 7,000 as share capital and Rs. one lakh as working capital. Efforts are being made to secure land for these societies.

Audit Classification

The audit classification of different types of societies in the district on 30th June 1961 is as shown in the next column.

	Number of societies classified as				No. of Societies not classified	No. of Societies not audited	Total
	A	B	C	D			
(1) Central Co-operative Bank.	..	1	..	..	..	..	1
(2) Agricultural Credit Societies.	4	601	236	13	..	36	890
(3) Non-agricultural Credit Societies.	..	3	2	..	..	13	18
(4) Primary Land Mortgage Bank.	..	..	..	..	..	1	1

FORESTS

The district has an area of 332·77 sq. miles under forests, of which 290·15 sq. miles are in charge of Forest Department and the remaining 42·62 sq. miles in charge of Revenue Department. The forest area makes 8·27 per cent of the total geographical area as against 17·56 per cent for Maharashtra.

The Divisional Forest Officer in charge of the forests has his headquarters at Nanded and works for both Nanded and Parbhani districts. The division is under the Conservator of Forests, Poona Circle, Poona. The forests in charge of the Revenue Department are looked after by the District Collector.

The forests in the district are mostly concentrated in Kinwat taluka. Scattered patches of forests are also found in Nanded and Hadgaon talukas and Bhokar mahal.

The forests belong to "Dry Mixed Deciduous" type and can broadly be sub-divided into following sub-types :—

(*a*) *Dry Teak type.*—This is confined to Kinwat taluka and Nanded and Bhokar ranges. Teak forms at least 20 per cent of the crop. Its associates are Dhavda, Salai, Moi or Moyna, Ain, Kalam, Hiwas, Khair, Tiwas, Palas, Galida, Dhaity, etc. Bamboo grows in a limited area of Kinwat forests.

(*b*) *Mixed miscellaneous type.*—This type is closely intermingled with the above type and is distinguished from it mostly by lesser proportion of teak. The other composition remains the same.

(*c*) *Thorny scrub type.*—All erosion affected areas on lower slopes of hills and sometimes extending over the whole of many of the smaller blocks particularly in Deglur range and some portions of Nanded range are represented by this type. The main species found are Ber, Dehti, Hankala, Mutielka, Amoni and Menga.

(*d*) *Grass land type.*—Many of the smaller blocks in Deglur range are reduced to grass lands on account of very shallow soil and overgrazing. Paonya, Kusal and Sheda are the principal species of grass found. Rosha grass is also fairly common.

The most valuable species found in the forests is teak. It is an important constructional timber. The other important species having high constructional value are Ain, Dhawda, Kalam, etc. There are many other species which are useful as fuelwood. Tembhurni leaves (used for Bidi industry) are an important minor produce of the forests. Another important minor produce is gum from Dhavda and Babul.

The forest produce is exploited through agencies to whom contract is given and also through the forest labourers' co-operative societies. These societies are given certain privileges by the department. The annual revenue of the forests in the district is about Rs. 8 lakhs. According to the 1961 Census, 344 persons are engaged in forestry and logging as principal work. Their distribution by industry minor group is shown in Table B-IV-C in Part II.

Exploitation of the forests is regulated by scientifically prepared working plans which are different for different types of forests. In Kinwat taluka the forests are worked under "Coppice with reserve system" with a felling cycle of 40 years. The forests of other talukas are being worked under the "Improvement felling system" also with a felling cycle of 40 years. The work of revision of the working plans for the forests is in progress.

A number of schemes have been taken up in the Five-Year Plan for the development of forests. The following schemes have been included in the Third Five-Year Plan :—

(1) *Afforestation for soil conservation.*—It has been proposed to afforest about 1,000 acres. So far 450 acres have already been afforested.

(2) *Plantation of Teak.*—It has been decided to raise teak plantations to the extent of 310 acres. Till the end of 1963-64, 110 acres of teak plantation have already been raised.

(3) *Establishment of Nurseries.*—One nursery has been opened.

The forests contain variety of wild life like tiger, panther, sambhar, chinkera, wild boar, bear, etc. Tigers are found in the forests of Kinwat taluka. Panthers are common throughout the forests. Amongst wild birds, pigeons, pea fowls and partridges are quite common.

FISHERIES

Fishing activities in the district are naturally restricted to inland waters only, rivers, tanks and ponds being the chief sources. The important rivers in the district are Godavari, Manjra and Penganga. The total length of perennial rivers in the district is about 300 miles. There are also nine perennial tanks and 172 seasonal tanks and ponds which provide 2,240 acres of water spread area.

The commercially important varieties of fish found in the district are :—

Baloo, Murrel, Koli Murrel, Dokh, Tam, Rahoo, Maroof, Singhi, Baam, Kanwa, Kolus, Potiac, Patola, Seengal, Khidla, Boori, Yellshal, Peora, Geehul, Murri, Kaneri, Chapti, Kobir, Pathar Chatu, Bekdi, Selam, Katarna, Ghegra, Tamboo, Gangaoli, Ghod Zinga, Mungarod Zinga and Matechakal Zinga.

These varieties are however not of a fast-growing type. As such, under the Five-Year Plan schemes, quick growing "Bengal Carps" are stocked annually in the perennial water tanks for propagation of pisciculture. The varieties stocked are Catla-Catla, Rohu and Mrigal. During the Second Five-Year Plan period about 1·71 lakhs of Fry was stocked while during the first two years of the Third Plan the quantity stocked amounted to about 2·83 lakhs.

According to the 1961 Census, 476 persons are engaged in fishing as principal work. 454 of them are males and 22 females. Fishermen in the district belong to the communities known as Dheemer, Bhoi, Kahar and Koli. Since fishing industry has a limited scope, some of the fishermen undertake seasonal agriculture and some others take to roasting of grams. Fishing is generally done with the help of drag nets known as Mahajal, cast nets called Malota or Fek Jal, gill nets (Yeele or Udan), etc. The nets are mostly made of cotton twine but nowadays nylon is also effectively used.

Four co-operative societies of fishermen have been organised in the district recently. These co-operative societies are given financial assistance in the form of loans and subsidy for purchase of fishery requisites, nylon twines, etc. They are also helped to secure tanks and ponds on lease for purposes of pisciculture.

MINING AND QUARRYING

Deposits of intertrappean limestone are reported to occur in Kinwat taluka. The limestone is not uniform in grade and is highly siliceous in places. The reserves are estimated at 10 million tons. The deposits are located at remote places where transport is difficult. The deposits are not worked at present.

Large areas of the district are covered with Deccan trap—a material of great use in building industry.

The mining activities in the district are restricted to quarrying of stones. According to the 1961 Census, 1,436 persons are reported to be engaged in quarrying of stone, clay, sand, etc. 1,038 of them are males and 398 females. Two persons are also reported as engaged in other mining activities. They may be workers in neighbouring districts, temporarily residing in Nanded during the 1961 Census period.

INDUSTRIES

Except for the textile mill at Nanded, the other 15 large-scale registered factories are processing industries such as cotton ginning and pressing and oil mills. The rest of the non-agricultural employment in the district leans heavily on village and cottage industries, i.e., the village crafts working on traditional lines with the locally available raw materials or for local demand. Cheap power from Paras Thermal Station near Akola and the Hydro-Electric Project on Purna river is likely to be available soon and there is a bright scope for industrial development in future.

There are in all 32,221 workers engaged in manufacturing industries, 21,837 or 67·77 per cent of them are in household industries and 10,384 or 32·23 per cent in non-household industries. The total number of workers in the registered factories in 1961 is 6,015 which makes 18·67 per cent of all workers engaged in industries or only six factory workers per thousand of total population against 20 per thousand of total population in Maharashtra.

The distribution of workers engaged in each industry major and minor groups is shown in Table B-IV-C in Part II. The number of establishments and the number of workers for each industry minor group prepared from the houselists are also shown separately for each village in the Village Industries Table presented at the end of Part II.

Large-scale Factories

There are 15 large-scale registered factories in the district using power and employing 50 or more workers.

Osman Shahi Textile Mill is at Nanded. It was established in 1923 with the initiative of the former Hyderabad State Government. This is a composite unit having 902 looms and 38,798 spindles and employing about 5,529 workers daily. The cloth manufactured by the mill is exported all over the country and also outside India.

There are 11 large-scale ginning and pressing units located at Karkheli (1), Nanded (4), Mudkhed (2) Peth Umri (1), Palsi (1), Nigam (1) and Bhokar (1). Together they employ about 1,430 workers.

There is a large-scale unit of extraction of oil at Deglur employing about 90 workers. There is also a cotton gin in this unit.

There is a large dal-processing mill at Nanded which has about 500 workers.

About 66 workers are working in the State Transport Workshop at Nanded.

There are proposals for a co-operative sugar factory at Kalambar. Similarly, a cement factory is proposed in Kinwat taluka.

Small-scale Registered Factories

There are about 23 small-scale registered units in the district employing about 300 workers. These units are mainly flour mills, ginning and pressing units, dal mills, oil mills, timber saw mills, printing presses, etc.

The number of registered factories has increased from 32 in 1956 to 42 in 1961. The number of workers has, however, decreased from 6,036 in 1951 to 6,015 in 1961. This decrease is comparatively very small and appears to be mainly due to variation in seasonal employment in cotton ginning and pressing units and in oil mills.

According to the Census of Manufacturing Industries in 1959, the manufacturing industries in the district had a combined fixed capital of Rs. 58·95 lakhs and working capital of Rs. 70·54 lakhs. The total value of annual production was Rs. 193·34 lakhs and the value added by manufacturing was Rs. 48·29 lakhs. These figures relate only to the industries covered by the Census of Manufacturing Industries Act.

The value added by manufacturing in the district in 1959 was, however, only 0·24 per cent of the total for Maharashtra.

Small-scale and Cottage Industries

In the cottage and small-scale industries sector, cotton ginning and pressing, oil mills, steel processing, manufacture of Azo dyes, napthols, basic colours, soap, cement concrete products, gur-making, weaving, tanning, carpentry, brick-making, etc., are the important industries in the district. Some of these manufacturing industries are traditional crafts conducted on household and cottage industries scale and mostly cater to the local needs. Ginning and pressing is an important processing industry serving the cotton growing areas of the district. There are a number of cotton ginning and pressing units spread at Nanded, Dharmabad, Deglur, Kinwat, Mukhed, Bhokar, Peth Umri, Karkheli, Mudkhed, Himayatnagar and Loha. Most of these units have oil mills for off-season working. Oil mills with expellers have been established at important groundnut growing centres like Nanded, Deglur, Kandhar, Dharmabad, etc.

15,447 workers are engaged in production and rearing of livestock. The district has nearly 10 lakhs of livestock population according to 1961 Cattle Census. "Deoni" and "Kandhari" are the well-known breeds for milk and for cultivation in the district.

Cotton spinning and weaving in mills engages 3,624 workers. Most of these workers are from the Osman Shahi Textile Mills of Nanded.

3,033 persons are engaged in making earthen pottery. They include the village potters. Most of them still work on the traditional *baluta* system under which they get a fixed quantity of foodgrains at the harvest time for supply of earthenware during the year.

2,942 workers are engaged in rearing of sheep for wool. Wool weaving is an important small-scale industry in the district. Mukhed and Shahapur are the two centres where wool weavers' societies have been formed. Kamblis or blankets of wool are woven on throw shuttle.

3,673 workers are engaged as drawers and weavers in textile industry.

There are 270 flour or rice mills engaging 538 workers. 2,798 workers are engaged as tailors. These include the tailors who make garments for men and women. 2,990 persons are engaged as carpenters who manufacture, fix or repair doors and door frames, wooden roof beams, furniture and agricultural implements.

The proportions of different groups of artisans to one lakh of total population in the district are as follows :—

Blacksmiths 87, Carpenters 277, Shoe-makers and repairers 137, Potters 301, Tailors and dress-makers 259, Spinners and weavers 452, Basket weavers 149.

Coarse cloth is printed for screens and tablecloths at Deglur. Copper and brass are turned out at Mukhed. A co-operative furniture manufacturing factory has been established at Nanded. The locations of the various important cottage industries in the district are given in the next column.

Cottage Industry	Location
(1) Oil crushing ..	Nanded, Kandhar, Deglur, Dharmabad, Loha, Mukramabad, Betmogara and Mukhed.
(2) Saw milling ..	Nanded, Kinwat, Sahasrakund and Bhorad.
(3) Gur	Hadgaon, Yeoti, Kundalvadi, Wanegaon, Phulbail, Jamb and Peth Umri.
(4) Handloom ..	Nanded, Kundalwadi, Jahoor, Dharmabad, Wanegaon, Mudkhed, Loha, Kandhar, Mukramabad, Manaspuri, Karadkhed, Shahapur and Mukhed.
(5) Dyeing	Himayatnagar, Nanded and Mukhed.
(6) Soap making..	Nanded, Kandhar and Deglur.
(7) Leather tanning	Nanded, Kinwat, Dharmabad, Loha, Phulbail, Jahoor, Himayatnagar, Mukhed and Mukramabad.
(8) Pottery	Kundalvadi, Phulbail, Eklara, Betmogara and Mukhed.
(9) Bricks and Tiles	Kundalvadi, Yeoti, Phulbail, Eklara, Betmogara, Shahapur and Karadkhed.
(10) Bamboo works	Wanegaon, Kundalvadi, Dharmabad, Mukhed and Hadgaon.
(11) Metal works ..	Nanded, Kundalvadi, Dharmabad, Kandhar, Loha, Mukhed, Mukramabad and Deglur.
(12) Smithy works	Nanded, Loha, Hadgaon, Mukhed and Kundalvadi.

The Industries Department has opened centres at Deglur, Peth Umri and Nanded to impart training in leather works at the first two places and tailoring at the latter. Similarly a centre to impart training in smithy has been established at Mukhed. Industrial co-operatives have been formed and help in the form of machinery, training and finance is given to handloom, leather working, woollen weaving and other cottage industries.

The "Master Plan" prepared by the Industries Department in 1960 had indicated scope for establishment of the following new industries in the district :—

(1) Spinning mill;
(2) Processing and finishing plant for cloth and yarn;
(3) Solvent extraction of oilseeds/cakes;
(4) Cotton seed oil;
(5) Fat splitting and distillation of fatty acids;
(6) Sugar; and
(7) Cement.

Industrial Estates

A Co-operative Industrial Estate has been established at Nanded in the Third Five-Year Plan period.

POWER

The number of electrified towns and villages in the district is only 12. Their talukawise lists are given in Table 31 in Part III. The total population of these electrified places is 14 per cent of the total population of the district.

The district consumption of electricity on different items for eight years is shown in Table 30 in Part III.

The *per capita* consumption is naturally much lower than the State average, as only 12 towns and villages in this district had been electrified up to 1960-61.

Consequent upon the reorganisation of States the Maharashtra State Electricity Board took up the distribution of electricity in the district. Prior to this period, a limited electric supply to Nanded town was done through the Osman Shahi Mills. The Maharashtra State Electricity Board set up a diesel generating station of 714 kw. at Nanded and started generation of power in 1960. The capacity of this station has now been stepped up to 1,500 kw. so as to meet the increasing demand of power of Nanded town. There is also a diesel generating station at Deglur. Power is supplied to Biloli, Kundalvadi and Dharmabad from the Deglur generating station through a 11 k. volts line. There is another independent diesel power station at Kinwat. It has to a great extent catered to the need of power for the saw mills in Kinwat taluka. Power for Hadgaon is supplied through 11 k. volts line from the Umerkhed Power Station in Yeotmal district.

With a view to meeting the increasing industrial demand of electricity in the district, the Maharashtra State Electricity Board has proposed to connect

Parbhani town *via* Yeldari to Paras Thermal Power Station of Akola with a line of 1,320 k. volts. A 66 k. volts line will then carry power from Parbhani to Nanded. This sub-station is, further, expected to be connected to Khaparkheda Thermal Power Station in Nagpur.

The Purna hydro-electric project (near Yeldari Dam) with an installed capacity of 15,000 kw. is under construction. The project when completed will supply power to Nanded and other districts of Aurangabad Division.

TRADE AND COMMERCE

Cotton, linseed, oil, ghee, jowar, cloth and foodgrains are the chief exports while cotton and woollen goods, rice, sugar, kerosene, salt, copper and brass vessels, groceries, spices, gur, etc., are the principal imports of the district. Most of the trade is with the adjoining districts. Cotton and linseed are mainly sent to Bombay and ghee and oils are sent to Hyderabad or Akola. Commodities such as foodgrains, cotton, etc., are brought from villages through commission agents or the agents themselves go to the villages and purchase the produce from the producers. The distribution of goods beyond the wholesale trade centres is done at market places and weekly bazars held at different places and on different days of the week.

Shops

Almost every village has one or more shops except the smallest. These shops provide the inhabitants with their day-to-day requirements. They deal in all kinds of grains, salt, groceries, oils, gur, spices, coconut, soap, tea, tobacco, betelnut, chillies and innumerable articles required by people for their daily use. There are in all 7,995 shops in the district. 5,610 are in rural areas and 2,385 in urban areas. These do not include the shops temporarily set up in the weekly markets and fairs. The number of shops per 1,000 dwellings is 37·9 for the district as a whole, 30·8 for rural areas and 82·9 for urban areas. It will be seen that the shops per 1,000 dwellings in urban areas are nearly three times more than in rural areas. The ratio between shops and 1,000 dwellings for the district is more than that of the State average of 36·4. Talukawise number of shops may be seen in Table E-I in Part II.

Weekly Markets

These markets are popularly known as " Bazars " and are distributing rather than collecting centres. All sorts of articles like foodgrains, pulses, oils, chillies, spices, gur, cloth, fruit, vegetables, etc., are sold in these markets. Pedlars and hawkers set up booths on market days. Agriculturists from nearby villages also bring their farm produce. The traders and shopkeepers belonging to the market place also set up temporary stalls. Buyers come from nearby villages within 4-5 miles. The weekly markets start by about two in the afternoon and close by six to enable both buyers and sellers to reach home before it is dark.

Column (7) of the Village Directory in Part I shows for each village in the district if a weekly market is held and if so, on which day of the week. A list of weekly markets in the district given in Table 32 in Part III shows the location and day on which each bazar is held. The map facing page 211 shows the locations of all these markets and also the days on which they are held.

There are altogether 96 weekly and bi-weekly markets in the district. Out of these 21 are also cattle markets. 18 weekly markets are held on Sunday, 11 on Monday, 9 on Tuesday, 15 on Wednesday, 14 on Thursday, 18 on Friday and 11 on Saturday.

The map facing page 211 will show that four or five weekly markets cluster as satellites around a central village. Each has its bazar on one of the week days keeping the pedlars and hawkers engaged throughout the week and also providing a choice to buyers to go to one nearby market or the other.

Fairs

So far as trade is concerned, fairs are complementary to weekly markets. They are attended by unusually large number of local people, pilgrims and neighbouring villages and considerable quantity of agricultural produce and other articles of daily use, in addition to toys and other luxury goods, are brought for sale. They are chiefly distributing rather than collecting centres. A list of fairs held in the district showing their locations, durations and dates and approximate number of persons attending is presented in Table 33 in Part III. The map facing page 212 shows locations of all these fairs having 1,000 or more gatherings in the district.

A volume giving details regarding fairs and festivals in Maharashtra is also published separately.

Trade Centres

Apart from the weekly markets and fairs, (1) Nanded, (2) Mudkhed, (3) Peth Umri, (4) Dharmabad, (5) Deglur, (6) Karkheli, (7) Mukhed, (8) Kundalvadi, (9) Kinwat, (10) Bhokar, (11) Loha, (12) Naigaon and (13) Hadgaon are important trade centres in the district as far as collection and export of agricultural produce are concerned. The Agricultural Produce Markets at these places are regulated under the Hyderabad Agricultural Markets Act No. II of 1339 (Fasli) and are managed by

market committees. Nanded is the most important trade centre in the district. The annual turnover in this market alone exceeds 1·56 crores. Cotton, groundnut, chillies and jowar are the main commodities regulated at most of these markets.

The annual turnover in some of the selected markets in the year 1958-59 was as follows :—

Market Committee	Total Value Rs.
(1) Nanded	1,56,73,388
(2) Dharmabad	78,62,846
(3) Peth Umri	32,60,841
(4) Karkheli	6,08,101
(5) Kinwat	13,74,592
(6) Kundalvadi	43,27,260
(7) Deglur	85,12,657
(8) Mudkhed	9,30,465
Total ..	4,25,50,150

The market committees in the regulated markets are given loans for constructing godowns for storage of agricultural produce brought by the farmers.

Workers in Trade and Commerce

The total number of persons engaged in trade and commerce in the district in 1961, is 16,211, out of which 8,127 or 50·13 per cent are in rural areas and 8,084 or 49·87 per cent are in urban areas. The number of workers in trade and commerce makes 2·88 per cent of all the workers in the district. 32·60 per cent of the district total are in Nanded taluka alone.

Only 6·08 per cent of the workers in trade and commerce are engaged in wholesale trade, 87·51 per cent in retail trade and 6·41 per cent in miscellaneous trade and commerce. 94·82 per cent of the wholesalers are in urban areas.

The number of wholesalers trading exclusively in cereals and pulses is 208. Mostly, the wholesale trade of cereals and pulses appears to be combined with wholesale trade of gur, sugar, spices, groundnut, oil, etc., as the number for this group is 469.

A detailed break-up of the workers in trade and commerce by industry major groups and minor groups is shown in Table B-IV-C in Part II.

Banking Offices

A list of banking offices with their years of establishment, type and location is given in Table 23 in Part III. Their break-up by talukas and type is shown below :—

	Number of Banking Offices			
	Scheduled	Non-Scheduled	Co-operative	Total
DISTRICT TOTAL ..	7	..	6	13
1 Kinwat Taluka ..	1	..	1	2
2 Hadgaon Taluka ..	..	..	1	1
3 Nanded Taluka ..	5	..	1	6
4 Bhokar Mahal ..	..	..	1	1
5 Kandhar Taluka ..	..	..	1	1
6 Biloli Taluka ..	1	..	..	1
7 Mukhed Mahal ..	..	..	..	..
8 Deglur Taluka ..	..	..	1	1

Nanded is the district headquarters and an important trade centre. Nanded taluka is, therefore, leading in banking activities and has nearly half of the total number of banking offices in the district.

All the talukas with an exception of Biloli have at least one branch of the Central Co-operative Bank. Mukhed mahal has no banking office at all. There are no non-scheduled banks in the district.

Financial transactions of the Government are done through the district treasury, sub-treasuries and branches of the State Bank of Hyderabad. There are sub-treasuries at each taluka headquarters. The State Bank of Hyderabad has its branches at Nanded, Kinwat and Dharmabad. The State Bank of India also has a branch at Nanded.

COMMUNICATIONS AND TRANSPORT

The district has 138·80 miles of metre gauge railway line of the Central Railway comprising two sections. One of these sections, popularly known as the Godavari Valley Railway from Manmad to Hyderabad traverses the district from east to west for 40 miles with eight railway stations on the way. Four of these stations, *viz.*, Limbgaon, Nanded, Mugat and Mudkhed are in Nanded taluka. Shivangaon and Peth Umri are in Bhokar mahal and Karkheli and Dharmabad are in Biloli taluka. The other line, the Mukhed-Adilabad line, has a length of about 98·80 miles in the district and has eleven stations, *viz.*, Sahasrakund, Dhanora, Boath Road, Kinwat and Ambadi in Kinwat taluka, Hadgaon Road, Jawalgaon (Julgaon Nizam) and Himayatnagar in Hadgaon taluka and Bember, Bhokar and Therban in Bhokar mahal.

Existing railway mileage in the district is 3·48 per 100 sq. miles of area against 2·66 miles per 100 sq. miles in the State.

Table 21 in Part III shows the existing road mileage in the district as well as its break-up by the type of road surface. The district map and the taluka maps in Part I show all these roads.

Nanded is well connected by roads and rail with other important centres in the district as well as with the adjoining districts of Parbhani, Osmanabad, Bidar in Mysore State and Nizamabad in Andhra Pradesh. However, there are no adequate road connections between the taluka headquarters. Taluka headquarters like Mukhed and Kinwat are not connected by roads to Nanded. The roads in rural areas are fair weather roads and are useless during the monsoons. No National Highway passes through the district.

During the period 1951—61, the State Highways increased by 3·11 miles. The major district roads increased by 59·12 miles, the other district roads by 8·27 miles and the village roads by 17·68 miles. The total increase in all types of roads (excluding municipal roads) is 88·18 miles.

Under the Nagpur Plan, the district should have 1,703·6 miles of roads. It was short of that target by 1,465·12 miles on 31st March 1961.

There is a landing ground (air strip) at Nanded.

New Roads

The following roads are under construction (as on 31st March 1962) :—

(1) Peth Umri-Naigaon, (2) Deglur-Udgir, (3) Dharmabad-Raher, (4) Kinwat-Mahor, (5) Nanded-Purna, (6) Ardhapur-Tamsa, (7) Hadgaon-Yelegaon, (8) Bhokar-Bhaisa, (9) Karadkhed-Wazar, (10) Bhokar-Islapur-Kinwat.

Posts, Telegraphs and Telephones

The district is included in the Nanded Postal Division. Head Post Office is situated at Nanded and sub-offices at taluka headquarters and towns. The bigger villages have branch post offices. During the year 1961-62 there were 21 sub-post offices and 203 branch post offices in the district.

There are telegraph offices at the following seven places :—

(1) Nanded, (2) Bhokar, (3) Dharmabad, (4) Himayatnagar, (5) Kinwat, (6) Mudkhed Station, (7) Peth Umri.

The following five places have telephone connections :—

(1) Nanded, (2) Bhokar, (3) Dharmabad, (4) Kinwat, (5) Mudkhed Station.

Passenger Road Transport

Passenger road transport in the district had been nationalised as early as in 1932. The transport organisation used to function as one of the Government Departments. It has now been amalgamated in the Maharashtra State Road Transport Corporation since 1st July 1961. Private passenger buses operate only on *kachha* roads in fair season. By the end of the Second Five-Year Plan, the extent of nationalisation of passenger road transport was 52 per cent. It is proposed to extend it to 76 per cent by the end of the Third Five-Year Plan. It is also proposed to construct additional bus stations, pick-up stands and provide other facilities for the travelling public during the Third Five-Year Plan.

The district is included in the jurisdiction of Aurangabad Division of State Road Transport Corporation. There is a proposal to have a new division at Nanded. There is already a large depot at Nanded. It runs buses on 28 routes which make 113 single trips per day. No separate figures for passenger transport are available for the district, as the division also included Aurangabad, Osmanabad, Bhir and Parbhani districts. The State Road Transport also runs a City Bus Service in Nanded town.

Goods Transport

Separate figures for lorries operated in the district are not available, as the Regional Transport Officer working at Aurangabad, keeps combined records for his region including Aurangabad, Bhir, Parbhani, Nanded and Osmanabad districts.

Workers in Transport and Communications

2,950 persons are engaged in transport and 347 in postal, telegraphic and telephone communications. Out of the workers in transport, 759 are in railway transport, 478 in motor and bus transport and 1,713 in other kinds of transport like bullock-carts, horses on hire, coolies, etc.

Communications in Rural Areas

The Village Directory in Part I gives information for each village in the district whether it is served by a railway or a road or has a post office or not.

CONSTRUCTION

The total number of persons engaged in construction is 4,973. 4,124 are males and 849 are females. Their distribution by minor groups is shown in Table B-IV-C in Part II.

15·68 per cent of the workers are engaged in the construction and maintenance of dams, waterways and canals, etc., 24·61 per cent in construction and maintenance of roads, bridges, telegraph and

telephone lines, etc., and 59·70 per cent in construction and maintenance of buildings, etc. The large proportion of workers engaged in the construction of buildings includes those working on private houses as well as those engaged in construction of buildings for administrative offices, residential quarters for Government employees, schools, hospitals, hostels, public quarters, houses for backward classes and co-operative societies.

All the workers engaged in construction together make only 0·88 per cent of the total workers in the district.

OTHER SERVICES

37,081 persons are engaged in " Other Services ". 26,440 are males and 10,641 are females. The major categories out of them are (1) Public Services; (2) Educational Services and (3) Personal Services. " Public Services " include administrative employees of Central, State and Local Governments. " Educational Services " include all classes of teachers and " Personal Services " include domestic servants as well as barbers, washermen and others rendering services to persons or households. The distribution of workers in other services by minor groups is shown in Table B-IV-C in Part II.

6·58 per cent of the total workers in the district are engaged in " Other Services " as against 8·53 per cent in the State. 15·17 per cent of the total workers in " Other Services " in the district are engaged in " Public Services " and 8·91 per cent in " Educational Services ". Both these proportions are lower than the corresponding proportions (23·86 per cent and 12·40 per cent) for Maharashtra. The low proportions of " Public Services " and " Educational Services " may be due to comparatively very small number of urban centres, business and recreation services and educational institutions in the district. Even the proportion of " Personal Services " in the district is lower, i.e., 18·44 per cent than the State average of 27·15 per cent.

The number of domestic servants is 918 or one for 1,176 population. The number of barbers is 1,602. The number of persons in laundry services (including washermen) is 2,838.

There are 178 legal practitioners and 863 persons working in medical and health services excluding veterinary services.

The number of persons including the teaching staff in technical schools and colleges is 88 and that in other schools and colleges is 3,198.

The number of State Government employees including those now working under the Zilla Parishad is 4,699.

BROAD ASPECTS OF ECONOMY

Individual sectors of economy of the district have so far been described separately. A few broad aspects may now be discussed for the economy as a whole.

Labour Participation Rates

The proportions of workers to total population, males and females, for the district and each taluka are as follows :—

	Percentage proportion of workers		
	Total	Males	Females
MAHARASHTRA	47·91	57·09	38·10
NANDED DISTRICT ..	52·16	61·09	42·96
1 Kinwat Taluka ..	53·08	60·72	45·43
2 Hadgaon Taluka ..	56·03	61·59	50·40
3 Nanded Taluka ..	42·37	55·90	27·88
4 Bhokar Mahal	55·99	62·26	49·73
5 Kandhar Taluka ..	52·94	61·92	43·47
6 Biloli Taluka	55·54	63·78	47·27
7 Mukhed Mahal ..	53·18	63·27	42·64
8 Deglur Taluka ..	53·41	61·91	44·62

Labour participation rate varies from 56·03 per cent in Hadgaon taluka to 42·37 per cent in Nanded taluka. Except in Nanded taluka, the labour participation rates are higher in all other talukas than those for Maharashtra. This is so also for males and females separately. Participation rate for males is the highest (63·78 per cent) in Biloli taluka and female participation is highest in Hadgaon taluka (50·40 per cent). Nanded taluka has lower participation rates because of the larger urban sector of its population. Higher participation rates in all the other talukas reflect the extreme dependence on agriculture and general backwardness of economy in the district.

Primary, Secondary and Tertiary Sectors

The Primary Census Abstract shows the distribution of workers in the nine categories of economic activity. Table B-IV-C in Part II shows detailed industrial classification of all workers other than those at cultivation. The percentage distribution of workers in primary, secondary and tertiary activities for the district and the State is as follows :—

		Total workers	Primary	Secondary	Tertiary
Maharashtra	Total ..	100·00	72·25	12·34	15·41
	Rural ..	100·00	88·73	5·68	5·59
	Urban ..	100·00	11·97	36·69	51·34
Nanded District	Total ..	100·00	83·46	6·48	10·06
	Rural ..	100·00	89·31	4·63	6·06
	Urban ..	100·00	29·60	23·50	46·90

The primary sector is predominant in the district with 83·46 per cent of the workers engaged against the State average of 72·25 per cent. The proportion engaged in the secondary sector is about half of the State average. Even the proportion (10·06 per cent) of workers engaged in tertiary sector is considerably lower than the corresponding State average (15·41 per cent). Urban areas are not so bad and 23·50 per cent workers are engaged in secondary sector against Maharashtra's average of 36·69 per cent. As has been explained earlier, this comparatively larger urban proportion is due to the cotton mill and other manufacturing industries at Nanded.

Categories of Economic Activity

The distribution of workers, males and females by nine categories of economic activity for the district and the State is as follows :—

	Maharashtra			Nanded District		
	Persons	Males	Females	Persons	Males	Females
I Cultivation	46.11	40.69	54.79	44.05	45.53	41.87
II Agricultural Labour ..	23.80	18.12	32.90	35.94	26.74	49.43
III Mining, quarrying, livestock, fishing, etc.	2.16	2.97	0.86	3.35	5.44	0.28
IV Household Industry ..	4.39	4.80	3.74	3.88	4.75	2.60
V Manufacturing other than household industry.	6.88	10.22	1.54	1.84	2.86	0.35
VI Construction	1.24	1.69	0.53	0.88	1.23	0.37
VII Trade and Commerce ..	4.52	6.61	1.17	2.88	4.55	0.43
VIII Transport, Storage and Communications.	2.36	3.65	0.29	0.60	1.00	0.01
IX Other Services	8.54	11.25	4.18	6.58	7.90	4.66
Total ..	100.00	100.00	100.00	100.00	100.00	100.00

Although the proportion of workers engaged in cultivation is a little lower in the district than that of the State, the proportion of workers engaged as agricultural labourers is one and a half times greater in the district than the State average. Both taken together, the district proportion of workers on land is 10 per cent larger than the State average. This is so because no alternative employment in industry except in Nanded town is available in the district. The proportions in other services, trade and commerce and manufacturing industry are also lower. The district proportion of 1·84 per cent in manufacturing other than household industry is much less compared to the State average of 6·88 per cent.

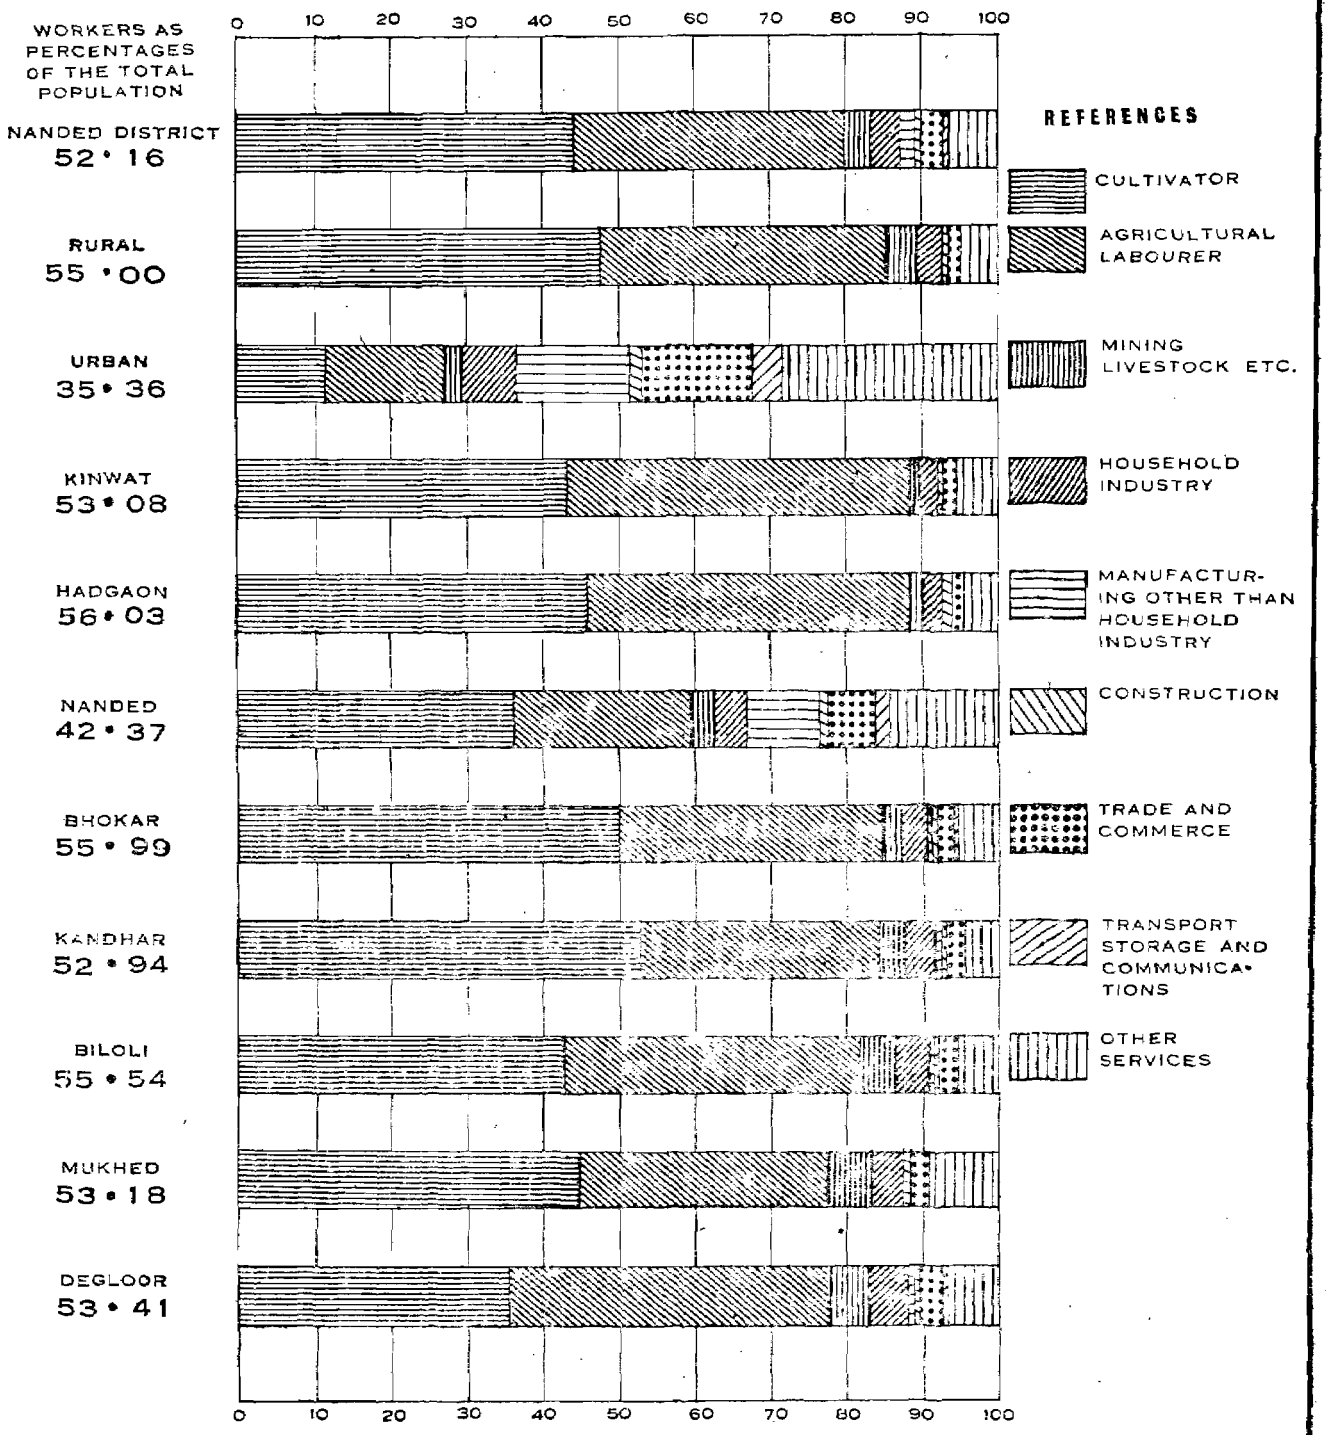

Talukawise distribution of workers in nine categories of economic activities is shown below. Corresponding figures for the State and the district are also shown for comparison.

Distribution of workers by nine categories of economic activity is also shown in the Figure on page (52) for the district and each taluka separately.

The proportions of cultivators and agricultural labourers differ considerably from taluka to taluka. The proportion of cultivators varies between 35·58 per cent for Deglur taluka and 52·78 per cent for Kandhar taluka. The proportion of agricultural labourers varies from 23·25 per cent in Nanded taluka to 45·31 per cent in Kinwat taluka. Such wide variations within the district are due to the differences in the fertility of soils and the cropping and landholding patterns. The proportion of workers engaged in manufacturing other than household industry (Category V) in Nanded taluka is so high only because of its large urban population. Nanded taluka naturally has 14·26 per cent workers engaged in other services.

State / District / Taluka	I Cultivator	II Agricultural labourer	III Mining, quarrying, live stock, forestry, fishing, hunting, etc.	IV Household industry	V Manufacturing other than household industry	VI Construction	VII Trade and Commerce	VIII Transport, Storage and Communications	IX Other Services	Total
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
MAHARASHTRA	46.11	23.80	2.16	4.39	6.88	1.24	4.52	2.36	8.54	100.00
NANDED DISTRICT	44.05	35.94	3.35	3.88	1.84	0.88	2.88	0.60	6.58	100.00
1 Kinwat Taluka	43.05	45.31	1.13	2.54	0.40	0.85	1.69	0.40	4.63	100.00
2 Hadgaon Taluka	45.91	42.52	1.54	2.76	0.38	1.29	1.71	0.20	3.69	100.00
3 Nanded Taluka	36.18	23.25	2.99	4.48	9.46	1.02	6.35	2.01	14.26	100.00
4 Bhokar Mahal	49.80	35.00	2.32	3.42	0.58	0.77	2.12	0.58	5.41	100.00
5 Kandhar Taluka	52.78	31.46	3.44	3.93	0.57	0.83	2.40	0.19	4.40	100.00
6 Biloli Taluka	42.63	39.09	4.61	4.48	0.59	0.64	2.50	0.40	5.06	100.00
7 Mukhed Mahal	44.66	32.56	5.89	4.28	0.41	0.88	2.61	0.37	8.34	100.00
8 Deglur Taluka	35.58	42.19	5.15	5.05	0.76	0.78	3.03	0.50	6.96	100.00

TALUKAWISE DISTRIBUTION OF WORKERS 1961

Labour Participation by Age

The labour participation rates by age-groups are shown below for the district for total, males and females separately. Corresponding figures for the State are also shown for comparison :—

Age-groups	Nanded District			Maharashtra		
	Total	Males	Females	Total	Males	Females
All ages	52·16	61·09	42·96	47·91	57·09	38·10
0—14	14·55	16·51	12·53	8·72	8·62	8·84
15—34	81·06	93·38	68·77	74·53	87·45	60·90
35—59	84·20	97·65	68·98	81·57	96·86	63·68
60+	51·13	76·80	28·89	49·13	72·82	26·28

Participation rates in the district are higher than the corresponding State averages both for males and females and for all age-groups. This may be an index of under developed economy of the district.

Workers by Educational Levels

The distribution of workers by educational levels shown in Table B-III in Part II is shown below by percentages for the district. Corresponding figures for the State are also shown for comparison:—

	Illiterate	Literate (without educational level)	Primary or Junior Basic	Matriculation and above
Maharashtra ..	68·65	14·11	13·91	3·33
Nanded district ..	84·09	10·09	4·91	0·91

Because of the lower literacy rates in the district the proportion (84·09 per cent) of illiterate workers to total workers is much higher than the State average (68·65 per cent). The proportions of literates without educational level, with primary and matriculation level and above are consequently lower than those for the State. The proportion of matriculation and above is less than a third of the State average.

Status of Employment

Table B-IV-B in Part II shows the distribution of workers by status of employment for non-household industries. The percentage proportions of employers, employees, single workers and family workers in the district for total, rural and urban areas are as shown in the next column. Corresponding figures for Maharashtra are also shown for comparison. The four classes of workers are defined in paragraph 58 in the Explanatory Note to Part II :—

	Total workers	Class of workers			
		Employers	Employees	Single workers	Family workers
Maharashtra—					
Total ..	100·00	3·96	62·18	26·52	7·34
Rural ..	100·00	1·57	46·47	38·58	13·38
Urban ..	100·00	4·98	68·90	21·37	4·75
Nanded District—					
Total ..	100·00	2·08	39·82	45·18	12·92
Rural ..	100·00	0·97	30·30	53·18	15·55
Urban ..	100·00	3·76	54·22	33·08	8·94

Single workers and family workers have much larger proportions in the district than the State average. The differences are more marked for single workers and also in urban areas for family workers than the State averages. This is a reflection of small shops and pedlars dominating the scene. The proportion of employees are lower as a consequence of the preponderance of single workers and family workers. The district also has a lower proportion of employers than the State average.

Percentage Distribution in Household Industry by Employees and others

The proportion of employees, i.e., hired workers and others in household industries in the district total, rural and urban areas is shown in Table B-IV-A in Part II. The percentage distribution with corresponding figures for Maharashtra is as follows:—

		Total workers	Employees	Others
Maharashtra	Total	100·00	8·18	91·82
	Rural	100·00	4·91	95·09
	Urban	100·00	16·35	83·65
Nanded District	Total	100·00	5·27	94·73
	Rural	100·00	3·41	96·59
	Urban	100·00	13·46	86·54

Household Industries in the district engaged a smaller proportion of employees than the State average. The work in household industries is mostly done by heads of households and/or family workers.

Secondary Work

The proportions of workers also engaged in some other secondary economic activity for three categories of principal work for Maharashtra and the district are as shown on the next page (Actual figures are shown in Table B-VII-A in Part II).

Principal Work	Total Rural Urban	Percentage of total Workers by categories of secondary Work		
		I	II	IV
MAHARASHTRA				
I Cultivation	Total ..	..	17.85	1.97
	Rural ..	..	18.03	1.98
	Urban ..	..	10.54	1.32
II Agricultural Labour ..	Total ..	13.17	..	0.94
	Rural ..	13.46	..	0.97
	Urban ..	7.12	..	0.31
IV Household Industry ..	Total ..	14.78	6.97	..
	Rural ..	19.61	9.38	..
	Urban ..	2.70	0.95	..
NANDED DISTRICT				
I Cultivation	Total ..	..	9.09	1.02
	Rural ..	..	9.09	1.01
	Urban ..	..	9.00	1.17
II Agricultural Labour ..	Total ..	4.34	..	1.03
	Rural ..	4.46	..	1.05
	Urban ..	1.67	..	0.58
IV Household Industry ..	Total ..	6.43	6.40	..
	Rural ..	7.41	7.48	..
	Urban ..	2.13	1.63	..

Proportions of workers engaged in secondary work are lower for the district than the State averages for all the three categories.

This perhaps indicates that there is not much shifting of work from season to season and that the seasonal migration within the district is also comparatively in small proportion.

Occupational Classification

Table B-V in Part II shows the distribution of non-agricultural workers by occupation. The percentage distribution for the State and the district is as follows. The occupational classification is described in the Explanatory Note to Part II :—

	Occupational Division	Maharashtra	Nanded District
0	Professional, technical and related workers.	6·42	4·87
1	Administrative, executive and managerial workers.	3·89	2·54
2	Clerical and related workers	9·13	4·15
3	Sales workers	12·23	11·66
4	Farmers, fishermen, hunters, loggers and related workers.	7·64	17·30
5	Miners, quarrymen and related workers ..	0·75	0·83
6	Workers in transport and communication occupations.	3·57	2·73
7 & 8	Craftsmen, production process workers and labourers not elsewhere classified.	45·99	47·80
9	Service, sport and recreation workers ..	10·27	8·12
X	Workers not classifiable by occupation ..	0·11	...
	Total ..	100·00	100·00

Workers in occupational division 4 farmers, fishermen, etc., have a larger proportion in the district than the State average.

Occupational divisions 7 and 8 also have a slightly higher proportion in the district than the State average. The proportion of workers in occupational division 2 clerical and related workers is significantly lower, *viz.*, 4·15 per cent for the district against the State average 9·13 per cent.

Non-workers

The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II. Percentage distribution for the district is shown below :—

	District Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
(1) Full-time students	27.20	4.98	24.62	3.84	38.53	9.48
(2) Household duties	0.24	35.57	0.25	32.30	0.22	48.51
(3) Dependants, infants and disabled	70.28	58.85	73.56	63.28	55.87	41.36
(4) Retired, rentiers or persons of independent means.	0.48	0.26	0.23	0.24	1.55	0.34
(5) Beggars, vagrants, etc.	0.97	0.28	0.94	0.30	1.10	0.20
(6) Inmates of institutions	0.06	N	0.02	N	0.26	N
(7) Persons seeking employment for the first time.	0.33	0.01	0.17	0.01	1.03	0.01
(8) Unemployed but seeking work ..	0.44	0.05	0.21	0.03	1.44	0.10
Total ..	100.00	100.00	100.00	100.00	100.00	100.00

N = Negligible.

There is a marked difference in the distribution pattern for non-workers among males and females. 27·20 per cent out of male non-workers are full-time students while corresponding proportion for females is 4·98 per cent. The reason is that 35·57 per cent females who are engaged in household duties are also included as non-workers. Male dependants have a higher percentage than female dependants to their respective non-working population. Other categories together have less than one per cent of non-working female population. There are rural-urban differences in the proportion of dependants. They are due to the large proportion of females in urban areas as non-workers. The rural and urban differences are similar both for males and females. Both in urban and rural areas the percentage of dependants is higher and that for full-time students lower. The percentage of females engaged in household duties is higher in urban areas than in rural areas. The percentage of unemployed is 2·47 and 0·38 for males in urban and rural areas and almost negligible in both cases for females. Proportions of full-time students among females are lower both in urban and rural areas than that of males. The difference is not, however, entirely due to social customs of attending more to the education of boys than that of girls. The proportions for females are lower also because the group of non-workers contains a large number of adult women engaged in household duties.

PART I

VILLAGE DIRECTORY

This Directory renders an account of each Village and each ward of Town

J-1814-I—1-A—(Nan.)

EXPLANATORY NOTE

This Part I presents 1961 Population Census figures for all villages and towns in the district. In the case of towns, the figures are also presented separately for each ward. These basic statistics are not published for such small administrative units in any other country in the world.

2. For each village, ward or town are shown its area, number of occupied residential houses, number of households, total population and its break-up by sex, literacy, Scheduled Castes, Scheduled Tribes workers and non-workers. The figures for workers are further split up by sex and by a broad classification of industrial activity in nine categories described in paragraph 16 below.

3. In the village directory, the villages are presented talukawise and within a taluka in the order of their location code numbers. These code numbers had been assigned to them for organising 1961 Census work and follow a regular north-west to south-east direction. The taluka map shows approximate locations of all villages with their code numbers. An alphabetical list of villages will be found facing each taluka map. It shows the code number for each village and its population in 1951 and 1961. The taluka map and the alphabetical list will together facilitate location of any village in the village directory as well as on the spot.

4. A "village" is a statutorily recognised village having a defined boundary and separate land records. Hamlets, wadies or padas have, therefore, not been shown separately. On the other hand, statutorily recognised villages having no population have been shown with separate code numbers but with words "uninhabited" shown against them.

5. Forest villages, however, make an exception. They are population centres situated within reserved forest areas. Their Population mainly consists of forest labourers and their families. Most of them are, however, permanent localities and also have attached cultivated areas leased out by the Forest Department under certain conditions. Their land records are not maintained by the Revenue Department. Statistics for these forest villages have also been presented in the village directory. They may, however, be distinguished from other statutory revenue villages from the letters "(FV)" suffixed after their names.

6. Survey of India maps, taluka maps, previous Census Handbooks and many other official sources have been referred both to secure accurate coverage and to get the correct spellings of village names. A very high standard of accuracy may now be claimed for both.

7. Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

(*a*) a population of over 5,000 ; and

(*b*) 75 per cent or more of male workers engaged in non-agricultural occupations.

Census figures for all these towns are presented wardwise after the completion of rural portion. Their names will also be found in the alphabetical lists of villages in capital letters with code numbers shown in roman figures. They are also shown on the taluka map.

8. The taluka maps and the alphabetical lists are both improvements over the 1951 District Census Handbooks. The village figures are, moreover, extracted directly from census records and not, as was done in 1951, from their copies prepared for some other purposes. The figures presented in the village directory, therefore, tally with the taluka and district Census tables perfectly.

9. Information contained in columns (3) to (7) of the village directory is based on village enumeration reports prepared by the Talaties or Patwaries during October/November, 1960, at the time of house numbering and house listing for 1961 Census. Because of the geographical arrangement of the villages these five columns indicate the general pattern of distribution of some basic amenities within a taluka. Village enumeration reports contained many more useful items of information on the villages, which could not be presented in the village directory for want of space. They are preserved in the offices of the District Statistical Officers.

10. The area figures in column (8) have been obtained either from the Mamlatdars/Tahsildars or taken from the 1951 Census Handbooks.

11. In column (9) of the village directory, the occupied houses include houses used as dwellings or partly as dwellings and partly for some other purposes, *e.g.*, shop-*cum*-dwellings, etc.

12. Columns (14) to (17) of the village directory present, for the first time, villagewise figures of population of Scheduled Castes and Scheduled Tribes.

13. For columns (18) and (19) a "literate" is a person who knows both reading and writing.

14. For the definition of a "worker" or a "non-worker" and for a detailed description of industrial categories the Explanatory Note to Part II may have to be referred.

15. The villagewise figures for industries and the number of workers have been presented in a separate table appearing in Part II of the Handbook.

16. The following abbreviations have been used in the village directory :—

ABBREVIATIONS AND SYMBOLS USED

IN COLUMN HEADINGS

F *for* Females.

M *for* Males.

P *for* Persons.

I Working as Cultivator.

II Working as Agricultural Labourer.

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV Working at Household Industry.

V Working in Manufacturing other than Household Industry

VI Working in Construction.

VII Working in Trade and Commerce.

VIII Working in Transport, Storage and Communications.

IX Working in Other Services.

IN NOTATIONS

In Column (2)

E *for* Electricity.

FV *for* Forest Village.

In Column (3)

Po *for* Post Office.

R *for* Connected by Road.

Rh *for* Rest-houses and Choultries.

Rly *for* Connected by Railway.

To *for* Telegraph Office.

In Column (4)

C *for* Higher Institutions including Colleges.

H *for* High School.

M *for* Middle School.

P *for* Primary School.

T *for* Technical Institutions.

IN NOTATIONS

In Column (5)

C *for* Canal.

N *for* Nallah.

Riv *for* River.

S *for* Protected Water Supply.

Sp *for* Spring.

Tk *for* Tank.

W *for* Well.

X *for* Inadequacy of Drinking Water

In Column (6)

D *for* Dispensaries.

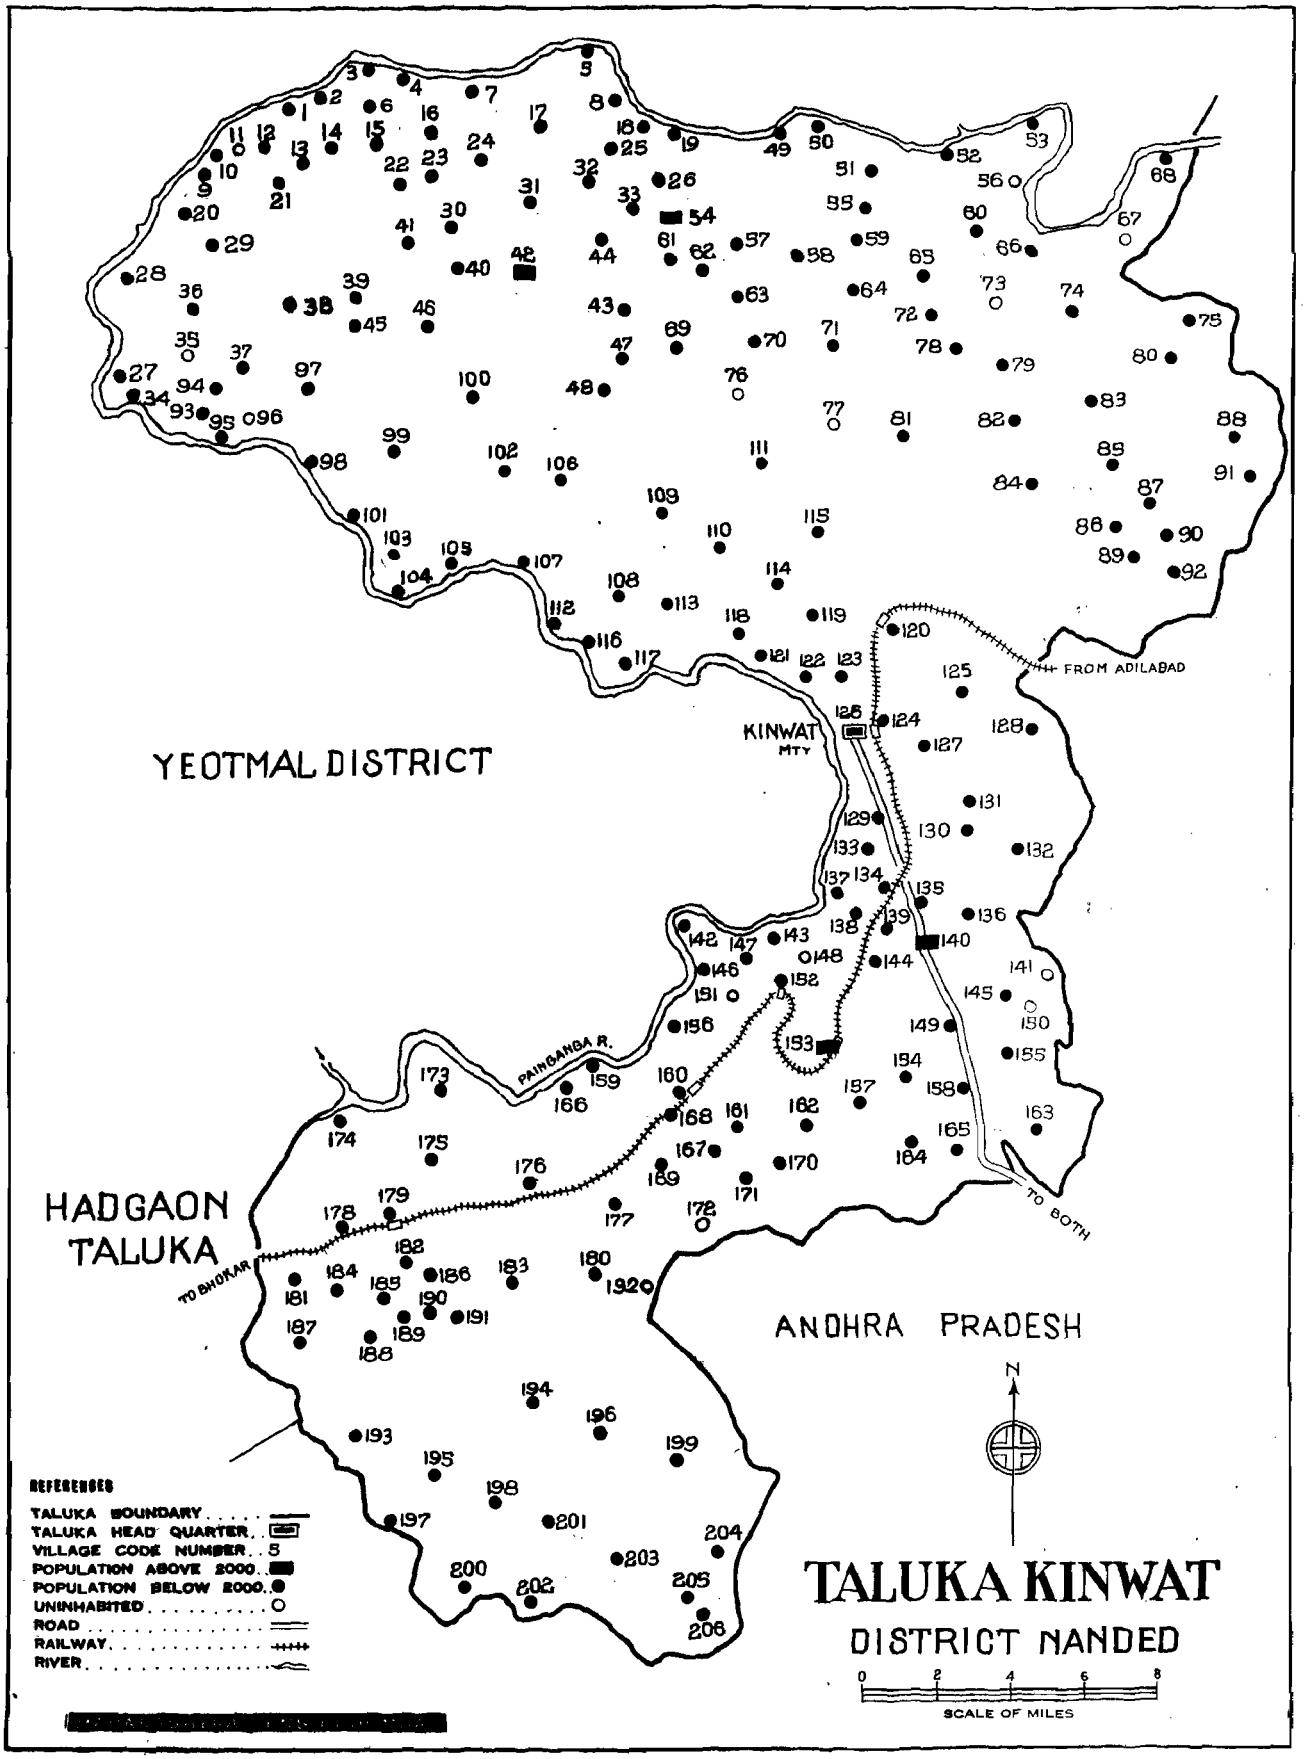

Hos *for* Hospital.

Mp *for* Medical Practitioner

In Column (8)

NA *for* Not Available.

Number of Establishments and Workers for Industries classified by Minor Groups of Industrial Classification 170

EXPLANATORY NOTE

This Part contains 58 Tables presenting 1961 Census data for the district. 29 Tables also present material for each taluka and 6 for each town separately. The talukawise and townwise tables have been prepared specially for this volume.

2. A few Tables (e.g., A-IV, B-VI, B-VIII-A, etc.) present material for urban areas only. An urban area is the aggregate of all towns in the district or in the taluka concerned. All the other tables present material for total, rural and urban areas separately. In a few cases (e.g., B-III-D, B-VIII-B, B-IX, C-III-B, etc.) talukawise break-up is given for rural areas only because the corresponding data for the urban areas had been compiled only for the district as a whole and not for each taluka separately.

3. Tables on migration and a few other topics could not be included in this volume for want of space. They will be found in the volumes of the Maharashtra Census Report.

4. An account of how the Census was taken and a description of the definitions and concepts followed will be found in Part II-A of the Maharashtra Census Report. The material presented here relates to the 1st March 1961, which was the reference date fixed for the Census and which very closely approximated the completion of the Second Five-Year Plan. An analysis of this material will be found in the Introductory Note on the district at the beginning of this volume.

5. The following paragraphs contain brief notes on the tables included in this Part. Concepts and definitions of terms used are briefly described in the notes on the tables where those terms first appear in the Series. Each table starts with the entries for the district and the talukas follow in the order of their code numbers fixed by their geographical locations for purposes of the 1961 Census.

A SERIES

GENERAL POPULATION TABLES

6. There are four General Population Tables and three Appendices in this Series. They are the basic population tables. They will be useful to study the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the district.

Table A-I

7. This table presents area, density, number of villages and towns, occupied residential houses and population total, males and females. Material is presented for the district and for each taluka (Tahsil or Mahal) for total, rural and urban areas separately. Towns are shown immediately after the entries of the taluka in which they are situated.

J-1814-II—11-A-(Nanded).

8. A town or an urban area is a place which has a municipality, a cantonment or a civil line or a population of 5,000 or over and at least 3/4 ths of male population dependent on non-agricultural pursuits. A population enumerated in urban areas is urban population and the population enumerated in all other places is rural population. Total includes the population of both urban and rural areas.

9. Area figures have been obtained through Revenue and Municipal Officers. Rural area is the difference between the Total and the Urban areas. The area figures for the district have been obtained from the Director of Land Records.

10. The term "village" has been explained in paragraphs 4 and 5 of the Explanatory Note to Part I.

11. The figures for number of occupied residential houses include houses used partly as dwellings and partly for some other purpose like shop, workshop, factory, etc., but do not include vacant residential houses where no person was found to be residing at the time of the Census.

Appendix I

12. This shows the territorial changes that have taken place during the decade. Units which had some change in area in the decade are only shown here.

Appendix II

13. This shows the number of villages which in spite of a population of 5,000 or over have not been treated as towns and the number of towns which have less than 5,000 population but which have been treated as towns only because they have Municipalities. Columns (4) and (7) show the percentage of populations in villages of over 5,000 and towns of less than 5,000 to the respective rural or urban populations of the district or the taluka concerned.

Appendix III

14. *Houseless Population.*—Houseless persons were enumerated in all areas on the night of 28th February 1961. These include: (i) persons who might be doing domestic service or some other work with one or more households but who do not reside in any house and sleep in the corridors, verandahs or passages in buildings or on the streets; (ii) wandering or nomadic tribes found to be staying in temporary huts, rahooties, etc., or residing without any such huts just on the open grounds; and (iii) beggars, vagrants, tramps, sadhus, fakirs, lepers, etc., who are found on the footpaths, streets, otlas, in places like parks, gardens, seashore, railway yards, etc.

15. *Institutional Population* includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

Table A-II

16. This table presents population of the district for the seven Censuses from 1901 to 1961 and the variation by actual figures and percentages. Population figures for 1951 and 1961 and variation during the decade are presented for each taluka separately. The population figures for earlier Censuses shown in the table have been adjusted for the boundaries or areas of the district and talukas as they existed at the time of 1961 Census.

Table A-III

17. This table gives for the district and each taluka the distribution of inhabited villages classified by seven population size groups which are: (i) less than 200; (ii) 200—499; (iii) 500—999; (iv) 1,000—1,999; (v) 2,000—4,999; (vi) 5,000—9,999; and (vii) 10,000 and above.

18. Hamlets are included in the village. The classification here is on the basis of the combined population of the village and its hamlets if there are any. In other words, the classification is not strictly according to the size of each individual nucleus of rural population but is based on the size of population of the revenue village which may in some cases be a single nucleus of population and in others a group of two or more scattered localities.

Table A-IV

19. This table shows the growth of each town since 1901. It shows population for each town for the last seven Censuses. Towns are presented in the following six classes classified by their population in 1961. Within a class, the names of towns are arranged in the order of population:

Class I	..	100,000 and over.
Class II	..	50,000 to 99,999.
Class III	..	20,000 to 49,999.
Class IV	..	10,000 to 19,999.
Class V	..	5,000 to 9,999.
Class VI	..	Less than 5,000.

20. Where two or more towns are adjacent and together form a compact urban unit, the entire town group is classified with reference to the combined population of the group. In such cases, the total population of the group is shown along with the population of each of its constituent towns.

21. Where a town was not treated as a town in some earlier Census, its population at that Census had been included in rural population. It is not presented here as the table presents figures of urban population only.

22. The total urban population of the district and its variation in the last sixty years are shown at the beginning of the table.

J-1814-II—11-B-(Nanded).

B SERIES

(i) GENERAL ECONOMIC TABLES

23. There are 16 Tables in this Series showing the distribution of population by economic activity correlated with sex, age and educational levels. The classification by economic activity is first by workers and non-workers. The workers are then classified in nine broad categories of economic activity. A more elaborate classification of workers by industry under the Standard Industrial Classification Scheme is presented in Tables B-IV-A, B and C and by occupation under the National Occupational Classification in Table B-V. Two Tables B-VII-A and B-VII-B show the classification of workers by secondary work. The last three tables present distribution of non-workers by sex, age and eight broad classes.

24. In the 1951 Census Reports, the population was classified into eight livelihood classes and each class was further divided with reference to economic status into—

(i) self-supporting persons;

(ii) earning dependents; and

(iii) non-earning dependents.

25. The concept of dependency has been abandoned for economic classification at the 1961 Census. Instead, the population is classified into workers and non-workers. The emphasis is now on work and not on income or economic dependence.

26. A person is classified as worker if—

(*a*) in case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season; and

(*b*) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

27. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

28. "Work" includes not only actual work but effective supervision and direction of work also.

29. Persons under training as apprentices with or without stipend or wages are regarded as workers.

30. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, etc., or any such work she has been treated as a worker.

31. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce.

32. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

33. The population classified as workers here is the economically active population including family workers but not including unemployed persons.

34. The Census Questionnaire did not have any question to determine the extent of full employment or under-employment.

35. Classification of workers doing two or more different types of work, has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

Primary Census Abstract

36. This table shows 1961 summary figures for the district and talukas, each for total, rural and urban areas separately. Similar details for each village, town and ward of a town are presented in Part I.

37. For each unit, the table shows area in square miles, number of occupied houses, number of households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and number of workers and non-workers. The workers are shown further classified for nine categories of economic activity.

38. Column (5) shows the number of households for each unit. The " household " is slightly different from a " family ". A " household " is a group of persons who commonly live together in the same house and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A domestic servant residing and eating at the employer's house is a member of the household. Similarly, a friend or a guest (related or unrelated) residing and eating with the host during the Census period is treated as a member of the (host) household. On the other hand, a son or a daughter residing in a hostel (may be in the same town) is not treated as a member of the household.

39. Columns (9) to (12) of the Primary Census Abstract show population of the Scheduled Castes and Scheduled Tribes, respectively, by males and females. The figures are related only to the two group totals of all Scheduled Castes and all Scheduled Tribes. Their break-up by individual Scheduled Caste or Scheduled Tribe will be found in Table SCT-I.

40. The limitations in coverage of these two groups may be mentioned here. The groups of Scheduled Castes or Scheduled Tribes do not include all backward castes or tribes living in the district. They include only the castes or tribes declared as Scheduled Castes or Scheduled Tribes in the district. In cases where a caste or a tribe is declared as a Scheduled Caste or a Scheduled Tribe for a specified area that caste or tribe has been separately presented only for that specified area and not for any other areas of the district.

41. Columns (13) and (14) show figures for literates and educated persons. A " literate " is a person who can both read and write a simple letter. Persons having higher education are also included in these figures. More material on literacy and education cross tabulated with age-groups is presented in Table C-III.

42. The workers are shown classified by sex and in the following nine categories of economic activity :—

I	As Cultivator.
II	As Agricultural Labourer.
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV	At Household Industry.
V	In Manufacturing other than Household Industry.
VI	In Construction.
VII	In Trade and Commerce.
VIII	In Transport, Storage and Communications.
IX	In Other Services.

Category I

43. This category includes both the owner cultivators and tenant cultivators. Along with Workers personally doing work on land are also included persons who are engaged in supervision or

direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

Category II

44. All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

Category III

45. Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

46. A "Household Industry" is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. A household industry is not run on the scale of a registered factory. Thus, the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas, household industry is confined to the house.

47. A household industry relates to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader, doctor, barber, washerman or astrologer. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

Category V

48. "Manufacturing" includes all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as household industry.

Category VI

49. This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, waterways, reservoirs, etc.

Category VII

50. This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stocks and shares, insurance, moneylending, banking, etc.

Category VIII

51. This category includes workers engaged in transport activities by air, rail, road or water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as Posts, Telegraph, Telephones, Wireless Signalling, Information and Broadcasting are also included in this category.

Category IX

52. This category includes (i) Public utility services like electricity or gas or water-supply, sanitary services; (ii) Central, State or Municipal employees; (iii) Professional services; (iv) Trade or labour associations, Recreation services, etc.

Tables B-I and B-II

53. This combined table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by four broad age-groups. The material is presented for the district and each taluka as well as for total, rural and urban areas separately. Towns are also shown immediately after the entries of the talukas in which they are situated. For talukas which do not have any urban areas, entries are given only for totals which correspond to those for rural areas.

Table B-III

54. This table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by educational levels. Material for the district is presented for total, rural and urban areas separately while that for the talukas is presented only for rural areas. The classification by educational levels is more elaborate in the case of the urban areas. Classification by educational levels and age-groups will be found in Table C-III.

Industrial Classification

55. Industry of a worker is that branch of economic activity in which he is engaged in producing goods or services. Tables B-IV-A, B-IV-B, B-IV-C, B-VII-A and B-VII-B of the present Series and Tables B-XIII, B-XIV-A, B-XIV-B and B-XVI of the following Series show the distribution of workers by industry according to the Standard Industrial Classification which is reproduced as Appendix I to this note. For want of space it has not been possible to give description of each group of industry in the tables. They are shown only by industry codes in one, two or three digits as the case may be.

56. The nine categories shown in the Primary Census Abstract and Tables B-I, B-II and B-III conform to the industry divisions as follows :—

	Category	Industry Division
I	Cultivator	Minor groups 000, 001, 002, 003 and 004 from Division 0.
II	Agricultural Labourer ..	
III	Mining, Quarrying, etc...	Division 0 except minor groups 000 to 004 and Division 1.
IV	Household Industry ..	Division 0 except minor groups 000 to 004, Divisions 1, 2 & 3.
V	Manufacturing	Division 2 & 3.
VI	Construction	Division 4.
VII	Trade and Commerce ..	Division 6.
VIII	Transport, Storage and Communications.	Division 7.
IX	Other Services	Divisions 5, 8 and 9.

Table B-IV-A

57. This table gives the distribution of workers engaged in household industry by status of employment and by each division and major group (Appendix I) of household industry separately. Material is presented only for the district but for total, rural and urban areas separately. Major groups of household industry which do not have any workers in the district are not shown here. Columns (7) and (8) show the workers who work at their own household industry (i.e., who are either employers, single workers or family workers in those household industries). Columns (5) and (6) on the other hand show the workers who are working as employees in household industries not of their own.

Table B-IV-B

58. This table presents distribution of all workers (other than those working in categories I, II and IV) by industry divisions and major groups (Appendix I) and by employment status. Material is presented for the district only but for total, rural and urban areas separately. Classification of workers by employment status is in four classes " employer ", " employee ", " single worker " and " family worker ".

An " employer " is a person who employs other persons in order to perform economic activity in which he is engaged.

An " employee " is a person who usually works under some other person for salary, or wages in cash or kind.

A " single worker " is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone else, not even members of his household, except casually.

A " family worker " is a member who works, without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Table B-IV-C

59. This is a very important table as it gives the employment position in all sectors of economy in the district. It shows the distribution of all workers (other than those in categories I and II) by industry division, major groups and minor groups according to the Standard Industrial Classification (Appendix I). The number of workers against each division, major group or minor group, is further split up and shown separately for household industry and non-household industry. Material is presented only for the district but for total, rural and urban areas separately. Major or minor groups which do not have any workers in the district are not shown here.

Occupational Classification

60. Occupation of a worker is the function which he performs in any branch of economic activity (which is called his industry). For a clerk working in a textile mill, the industry is textile and occupation is clerical. For a person working as a driver on a bank's vehicle, the industry is banking and occupation is driver.

61. Tables B-V and B-VI show the distribution of workers by occupation according to the National Occupational Classification Scheme which is reproduced as Appendix II to this note.

Table B-V

62. This table presents the distribution of workers (other than those engaged in categories I and II) by occupational divisions and groups (Appendix II). For each division or group the workers are shown by a categorywise break-up of their industry. The material is presented only for the district but for total, rural and urban areas separately. Occupational groups which do not have any workers in the district are not shown in the table. For an occupational group which has all the workers in only one category of industry, only one line shows the total workers for that group as well as for that category of industry.

Occupational distribution of workers in the 1961 Census has been worked out and presented in Maharashtra Census Report, Part II-B (ii) even for Occupational families, i.e., up to three digits. For want of space it is presented here for occupational groups, i.e., up to two digits only.

Table B-VI

63. This table presents the distribution of workers (other than categories I and II) classified by sex, occupational divisions (Appendix II), broad age-groups and by educational levels. This table is presented only for the total urban area of the district.

Table B-VII-A

64. This table presents workers engaged as cultivators, agricultural labourers and at household industry classified by the nature of their secondary work. In case a worker is engaged in two or more kinds of work the one which consumes larger portion of his time (not necessarily earning a larger portion of his income) is treated as his principal work, another consuming second larger portion of his time is his secondary work. The secondary work is shown in the table classified only in three broad categories, viz., IV-Household Industry, I-Cultivator and II-Agricultural Labourer. Workers who may be engaged in secondary work in other categories, *viz.*, III, V, VI, VII, VIII and IX are not shown in this table. The break-up of principal work in household industry by major industrial groups (Appendix I) is shown in column (1). It will enable analysis of workers engaged in secondary work by major branches of their principal work at household industry. The material is presented for the district only but for total, rural and urban areas separately.

Table B-VII-B

65. This table shows workers engaged in non-household industry categories III and V to IX as principal work and doing some additional work in household industry. The additional work in household industry is classified by industrial divisions (Appendix I) only. Similarly, the break-up of principal industry in column (1) is also by industrial divisions only. Workers engaged in the industry divisions shown in column (1), but who are doing additional work in any sector other than household industry are not shown in this table. Material is presented for the district only but for total, rural and urban areas separately.

Table B-VIII-A

66. This table presents the distribution of unemployed persons aged 15 and above by age-groups and educational levels. The number of unemployed have been further split up by persons seeking employment for the first time and persons employed before but now out of employment and seeking work. Material is presented only for the total urban area of the district. Such detailed information on the unemployed is compiled for the first time in the 1961 Census.

Table B-VIII-B

67. This table presents the distribution of unemployed aged 15 and above in rural areas of the district by educational levels. The break-up of educational levels is not as elaborate as in Table B-VIII (Part A) and classification by age-groups or by persons seeking employment for the first time, etc., is not shown in this table. As a compensatory factor, the material is presented for the rural area of the district and each taluka separately.

Table B-IX

68. This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers. Such information on the non-working population had never been compiled before. The material is presented for the district separately for total, rural and urban areas and for each taluka for rural areas only.

(ii) HOUSEHOLD ECONOMIC TABLES

69. Tables B-X to B-XVI present the economic activity of the households as units. They relate to—

(i) the size of or interest in land cultivated and/or the household industry conducted by the households; and

(ii) the number of family workers and/or hired workers working in either of the two activities separately or combined in both.

70. In the case of countries of such economic status as ours where not all the goods produced enter the money market and where much of what is produced is consumed by the family itself, presentation of information on economic activity of individuals alone is likely to be slightly misleading unless that information is supplemented by material relating to economic activity of the households as entities. Such information is presented here for the first time. These tables are prepared from the household schedules specially introduced for that purpose as one of the three Questionnaire forms in the 1961 Census. The tables have been prepared on a 20 per cent sample of all the households in the district drawn for rural and urban areas separately.

71. Cultivation here includes cultivation both as owners and tenants. Size of holding shown is also of Operational holding, i.e., land actually cultivated and does not include land owned but not cultivated by the household.

Table B-X

72. This table presents distribution of sample households by those—

(i) engaged neither in cultivation nor household industry;

(ii) engaged in cultivation only;

(iii) engaged in household industry only; and

(iv) engaged both in cultivation and household industry.

The material is presented for the district and each taluka for total, rural and urban areas separately.

Table B-XI

73. This is an important table. It shows the distribution of sample households engaged in cultivation classified by size of land and interest in land cultivated. Ten size-groups are shown horizontally while the interests in land are classified in three types, *viz.*—

(*a*) Entirely owned or held from Government.

(*b*) Entirely held from private persons or institutions for payment in money, kind or share.

(*c*) Partly held from Government and partly from private persons or institutions for payment in money, kind or share.

The material is presented separately for total, rural and urban areas of the district and only for rural areas of each taluka.

Table B-XII

74. This table shows the distribution of sample households engaged in cultivation classified by size of land cultivated and the total number of family workers and hired workers. The material is presented for the district for total, rural and urban areas separately and only for rural areas of each taluka.

Table B-XIII

75. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and by industry division and major group of the household industry (Appendix I). The table shows

the sizes of cultivation holdings and the branches of household industry for which the two household economic activities combine in varying degrees. The material is presented only for the district but for rural and urban areas separately.

Table B-XIV-A

76. This table shows the distribution of sample households engaged in household industry only by the number of workers engaged and by industry division and major groups of the household industry (Appendix I). Material is presented for the district only but for total, rural and urban areas separately.

Table B-XIV-B

77. This table shows the distribution of sample households engaged in household industry only classified by industry minor groups (Appendix I) for the household industry. The industry minor group is shown with a break-up in four-digit codes in column (1). *These four-digit codes are shown in Appendix III.* The material is presented for the district only but for total, rural and urban areas separately.

Table B-XV

78. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and the number of family workers and hired workers working in the two activities combined. The material is presented for the district for total, rural and urban areas and for each taluka only for rural areas separately.

Table B-XVI

79. This table shows the distribution of sample households engaged in household industry classified by the period for which the household industry is worked and by industry division and major groups (Appendix I) of the household industry. A further split-up of figures is shown for household industry combined with cultivation and without cultivation. The material is presented for the district only but for total, rural and urban areas separately.

C SERIES

SOCIAL AND CULTURAL TABLES

80. There are 11 tables in this Series dealing with Social or Cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Castes and Scheduled Tribes. The first two Tables C-I-A and C-I-B relating to Size and Composition of Households are prepared from the household schedules on a 20 per cent sample. All the other tables are prepared from individual slips and on a total count.

Table C-I-A

81. This table presents distribution of sample households classified by their size and by economic activity, i.e., by work in cultivation or household industry. Households working at cultivation are further classified by size of land holding. The material is presented only for the district but separately for total, rural and urban areas. Classification by economic activity as well as by size of land holding is presented only for rural areas and classification by size of the household is alone presented for total and urban areas. This table is prepared from household schedules on a 20 per cent sample. This table appears as Table B-XVII in Part III of the Maharashtra Census Report.

82. The classification by size is as one member, small (2 to 3), medium (4 to 6), large (7 to 9) and very large (over 10) households. By definition, a Census household is not the same as a family. The household also includes persons who are not members of the family but who were residing with the family during the Census period. This table will give a general idea of the family sizes as in the majority of families outsiders are not likely to be present.

Table C-I-B

83. This table presents distribution of population of sample households by heads of the households, spouses of heads of households, married relations, never married, widowed or divorced relations and unrelated persons. These details are also shown for sample households classified by economic activity, i.e., participation in cultivation or household industry. For cultivation, the sample households are further classified by size of land holdings. This table is prepared from the household schedules on a 20 per cent sample. Material is presented for the district only but for total, rural and urban areas separately. The classification of households by economic activity and size of land holding is, however, shown for rural areas only. This table is of sociological interest indicating the strength of the joint family system.

Table C-II

84. This table presents distribution of population by sex, age and marital status. Classification of age between 10 and 70 years is by five-year age-groups. The other two groups are 0—9 years and 70 and over. The entire population in 0—9 years age-group has been treated as never married and no further classification by marital status is shown against them. The material is presented only for the district but for total, rural and urban areas separately. From this table it may be ascertained whether proportions in various marital status groups have changed since the last Census and whether any trend is observed in age of marriage. A corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table is, however, prepared on a full count.

Tables C-III-A, B and C

85. These three tables present the distribution by age, sex, literacy and educational levels. Classification by age is by five-year age-groups up to 59 years. Classification by educational levels is the same as in Table B-III. It is more elaborate in the case of urban areas. Part A presents material only for the district total while Part B presents material for rural areas of the district and of each taluka separately. Part C presents material only for the district urban areas but with more elaborate classification by educational levels.

86. These tables are a measure of the growth of literacy in the total population as well as in the different age-groups since the last Census. They are also likely to furnish information on the spread of adult education. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. These tables have been prepared on a full count.

Table C-IV

87. This table presents distribution of the district population by single year ages both for males and females separately. Figures presented are based on the actual returns recorded in the Census, i.e., they have not been smoothed or adjusted for preferences for digits 0, 5, etc. The material is presented only for the district total.

88. This is an important demographic table which is used for computing mortality rates. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table has been prepared on a full count.

Table C-V

89. This table presents the distribution of population by mother-tongues. The figures are presented only for 9 top-ranking mother-tongues in the district. Figures for all the other mother-tongues have been shown combined in the group "Others". Mother-tongues are arranged in the alphabetical order. Material is presented for total, rural and urban areas for the district and each taluka separately. At the end material is also presented for each town separately. A foot-note is added to show the number of speakers in the district for each of the mother-tongues combined in the group "Others".

90. "Mother-tongue" is defined as a language spoken by the person's mother to the person in his childhood or mainly spoken in the house. Dialects have been included in the main languages on the basis of Grierson's Classification.

91. Another Table (C-VI) on bilingualism has been prepared in the 1961 Census. It is not included in this volume and may be found in Part II-C of the Maharashtra Census Report.

Table C-VII

92. This table presents distribution of population by religion. Eight main religions have been shown in their alphabetical order. All other religions returned in the Census are combined in the group "Others". Figures for various sects returned as religion during the Census have been combined with the main religions concerned.

Table C-VIII-A

93. This table presents the total population of Scheduled Castes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka separately. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Castes.

Table C-VIII-B

94. This table presents the total population of Scheduled Tribes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Tribes.

SCT, SC & ST SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

95. There are 11 Tables in this Series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. These classes of people are declared by the President's orders issued under Articles 341 and 342 of the Constitution of India as Scheduled Castes or Scheduled Tribes. Under Article 46 of the Constitution, the State has to promote, with special care, the educational and economic interests of the weaker sections of the people and in particular of the Scheduled Castes and Scheduled Tribes and has to protect them from social injustice and all forms of exploitation. For ensuring adequate representation to these classes, seats are also reserved for them in the House of the People, State Legislature and other elective bodies.

96. These special tables have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each Scheduled Caste and Scheduled Tribe separately.

97. These tables relate to economic activity, education, mother-tongue and classification of persons not at work. Material is presented for each Scheduled Caste and Scheduled Tribe separately. It will be useful information for formulating various schemes for their welfare.

98. Classification by Castes and Tribes is on the basis of returns recorded in response to question 5 (c) of the 1961 Census Questionnaire. Every person was asked if he belonged to one of the Scheduled Castes or Scheduled Tribes notified for the district and in case he belonged to one of them he was asked the name of his caste or tribe. Paragraph 40 above on the Primary Census Abstract explains the limitations of these castewise or tribewise figures. The population of Scheduled Castes shown here is much less than that for the district in 1951 as many persons from that group have returned their religion as Buddhist or Nav-Buddha, and under the Constitution, there can be Scheduled Castes only among Hindus and Sikhs and in no other religion.

99. Two more Tables SCT-II and SCT-IV on age, marital status and religion of the Scheduled Castes and Scheduled Tribes prepared in the 1961 Census are not presented here for want of space. They may be seen in Part V-B of the Maharashtra Census Report.

Table SCT-I-A

100. This table presents the distribution of Scheduled Castes population by economic activity. Material is presented for the total of all Scheduled Castes as well as for each Scheduled Caste separately. Scheduled Castes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents castewise break-up of the material presented in Table C-VIII (Part A). The last group of castes "not stated" is of persons who were returned as belonging to Scheduled Castes but in whose case the name of the Scheduled Caste concerned had not been stated in the Census.

101. Columns (28) to (31) present Scheduled Castewise figures of persons engaged in unwholesome occupations like tanning, currying of hides and skins and scavenging. The number of workers shown in these occupations as well as in any other category is on the basis of principal work. Persons engaged in cultivation or any other activity as principal work and also engaged in tanning, currying or scavenging as secondary work are not included in the figures of columns (28) to (31).

102. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

J-1814-II—12-A-(Nanded).

103. There are some more castes declared as Scheduled Castes for the district. They are not shown in this table because no one belonging to those castes was enumerated in 1961 Census in the district.

Table SCT-I-B

104. This table presents the distribution of Scheduled Tribes populations by economic activity. Material is presented for the total of all Scheduled Tribes as well as for each Scheduled Tribe separately. Scheduled Tribes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents tribewise break-up of the material presented in Table C-VIII (Part B). The last group of tribes "not stated" is of persons who were returned as belonging to Scheduled Tribes but in whose case the name of the Scheduled Tribe concerned had not been stated in the Census.

105. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

106. There are some more Scheduled Tribes declared as Scheduled Tribes for the district. They are not shown in this table because no one belonging to those tribes was enumerated in 1961 Census in the district.

Table SCT-III-A (i)

107. This table presents the distribution of each Scheduled Caste population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-A (ii)

108. This table presents the distribution of each Scheduled Tribe population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-B (i)

109. This table presents the distribution of population for each Scheduled Caste by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-III-B (ii)

110. This table presents the distribution of population for each Scheduled Tribe by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-V-A

111. This table presents the distribution of sample Scheduled Caste households of the district (Rural) by interest in land cultivated and by size of land cultivated. The interests in land cultivated are shown in three categories :—

(i) entirely owned or held from Government ;
(ii) entirely held from private persons or institutions for payment in money, kind or share; and
(iii) partly held from Government and partly from private persons, etc.

Classification by size of land cultivated is the same as in the B Series household economic tables. Material here is presented only for the district rural and for all the Scheduled Castes as a group. The table is prepared from the household schedules on a 20 per cent sample.

Table SCT-V-B

112. This table for Scheduled Tribes (same as Part A) is presented only for the district rural. The table is prepared from the household schedules on a 20 per cent sample.

Table SC-I

113. This table presents the total non-working population of all the Scheduled Castes as a group classified by four categories of non-workers, *viz.*—

(i) full-time students ;
(ii) persons seeking employment for the first time ;
(iii) persons employed before but now out of employment and seeking work ; and
(iv) others.

The non-working population is further classified by educational levels. The material is presented for the district only but for total, rural and urban areas separately.

Table ST-I

114. This table presents the distribution of population of each Scheduled Tribe by mother-tongue and the subsidiary languages spoken. Material is presented only for the district but for total, rural and urban areas separately. Scheduled Tribes are arranged in their alphabetical order and mother-tongues when there are more than one for any Scheduled Tribe are also shown in the alphabetical order.

Table ST-II

115. This table presents the total non-working population of each Scheduled Tribe classified by four categories of non-workers, *viz.*—

(i) full-time students ;
(ii) persons seeking employment for the first time ;
(iii) persons employed before but now out of employment and seeking work ; and
(iv) others.

The material is presented for the district only but for total, rural and urban areas separately.

E SERIES

HOUSING TABLES

116. There are five tables in this Series. Four of them relate to housing conditions and furnish data on the purposes for which the houses are used, the tenures on which they are occupied by the households, material of construction of walls and roofs and the distribution of households by the number of rooms occupied. The last table relates to industries and shows the number of establishments and the number of workers for each industry classified by industry division, major groups and minor groups. Another Table (E-III) on industrial establishments prepared from the houselists gives a break-up by industry and the fuel used cross tabulated by the size of the establishments. It is not presented here for want of space. It may be seen in Part IV of the Maharashtra Census Report.

117. All the five tables of this Series are prepared from the houselists which were prepared at the time of numbering of houses in September-October of 1960. Such data on housing conditions are furnished here for the first time.

118. A "house" was defined for purposes of the Census as "a structure or part of a structure inhabited or vacant, a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., having a separate entrance. The entrance may be directly on the road, street, or lane or to a common staircase, courtyard or a gate".

Table E-I

119. This table presents the distribution of houses classified by uses to which they are put to. The various uses are shown in columns (4) to (16) Houses which were not being used for any purpose at the time of houselisting were treated as vacant. A "workshop" is a place where some kind of production, processing, repairs or servicing of goods goes on a commercial scale. Manufacturing or processing establishments registered under the Factories Act are treated as factories. When a house was used both as a shop and as a dwelling or workshop and as a dwelling it is treated as a shop-*cum*-dwelling or workshop-*cum*-dwelling. The houses which were used as schools, offices, factories or restaurants and also used by some people for residence, have been treated for purposes of this table as schools, offices, factories or restaurants and not as school-*cum*-dwelling, office-*cum*-dwelling and so on.

J-1814—II—12-B-(Nanded).

120. The last category of " Others " includes all purposes not included in columns (4) to (15) prominent among them being cattle-sheds, garages, show-rooms, locked houses, etc. Table E-I presents material for the district and each taluka and for total, rural and urban areas separately. The table is prepared from the houselists on a full count.

Table E-II

121. This table presents the distribution of sample households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. " Rent free " or " Caretaker " occupation is included in the " Rented " category. The houses occupied under each tenure are further classified by the nature of uses such as dwellings, shop-*cum*-dwellings, etc. Tenure of occupation of non-residential houses such as schools, hospitals, etc., is not shown here.

122. This table is prepared from the houselists and on a 20 per cent sample.

123. Material is presented for the district and each taluka and for total, rural and urban areas separately.

Table E-IV

124. This table presents distribution of sample houses used wholly or partly as dwelling by material of wall and material of roof. The material of wall is the material out of which most of the walls of the house are constructed. Where a house has separate portions each of different material, the material of the walls for this table is the one out of which the walls of the main bed-rooms are constructed. Similarly, the material of roof is one out of which most of the roof exposed to weather is constructed. In case of multi-storeyed buildings, the intermediate floor is treated as the roof of the lower storey.

125. Material is presented here for the district and each taluka and for total, rural and urban areas separately. This table is prepared from the houselists on a 20 per cent sample.

Table E-V

126. This table presents the distribution of sample households classified by the number of rooms occupied. For each class of households the total number of members of the households is shown by males and females separately. This will help measure congestion or overcrowding particularly in urban areas.

127. The table is prepared from the houselists on a 20 per cent sample. The material is presented for the district and each taluka and for total, rural and urban areas separately.

128. The table relates only to the family households. Institutional households like hostels, boardings, prisons, etc., are not shown here.

129. A " room " has four walls with a door and a roof overhead and is not less than $6' \times 6'$. Unenclosed verandah, kitchen, store, garage, cattle-shed, etc., though used for residential purposes are not treated as rooms. Households residing in such places are shown in columns (7) to (9) as having no regular room.

Table on Industrial Establishments and Workers

130. This is a very important table and presents the number of establishments and number of workers for each branch of industry classified by industry divisions and minor groups according to the Standard Industrial Classification (Appendix I). For each industry division, minor group figures are shown in the brackets first for the number of establishments and second for the number of workers.

131. The table is prepared from the houselists on a full count. Material is presented here for the district and talukas for total, rural and urban areas as well as *for each village and town* separately. The presentation is in the run-on style and the villages are shown both by their names and code numbers. These latter will help locate them in the taluka maps included in Part I. Villages which do not have any industrial establishments are not shown here. Similarly, for any village, town or taluka, the industry minor codes for which there are no establishments are not shown in the table.

132. The material presented here relates to September-October of 1960. Establishments where processing, repairing or servicing of goods is done are also included along with the manufacturing establishments. The number of workers shown here includes the proprietor and/or the other household members if any were working in the industry during the week preceding the enumerator's visit.

133. The list of industries presented here may not include some seasonal industries which were not actually working during the period when houselists were prepared, *viz.*, September-October 1960.

APPENDIX I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into—

9 Divisions
45 Major Groups
343 Minor Groups

The divisions, major groups and minor groups with their Code numbers, are listed below:—

DIVISIONS

0	Agriculture, livestock, forestry, fishing and hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary Services
6	Trade and Commerce
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

MAJOR GROUPS

Division 0—Agriculture, livestock, forestry, fishing and hunting

00	Field produce and Plantation crops
01	Plantation crops
02	Forestry and Logging
03	Fishing
04	Livestock and Hunting

Division 1—Mining and Quarrying

10	Mining and Quarrying

Division 2 and 3—Manufacturing

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile—cotton
24	Textile—jute
25	Textile—wool
26	Textile—silk
27	Textile—miscellaneous
28	Manufacture of wood and wooden products
29	Paper and paper products
30	Printing and publishing
31	Leather and leather products
32	Rubber, Petroleum and coal products
33	Chemicals and chemical products
34-35	Non-Metallic Mineral Products other than petroleum and coal.
36	Basic Metals and their products except machinery and transport equipment.
37	Machinery (all kinds other than Transport) and Electrical equipment.
38	Transport Equipment
39	Miscellaneous Manufacturing Industries

Division 4—Construction

40	Construction.

Division 5—Electricity, Gas, Water and Sanitary Services

50	Electricity and Gas
51	Water-supply and Sanitary Services

Division 6—Trade and Commerce

60—63	Wholesale Trade
64—68	Retail Trade
69	Trade and Commerce Miscellaneous

Division 7—Transport, Storage and Communication

70-71	Transport.
72	Storage and Warehousing
73	Communications

Division 8—Services

80	Public Services
81	Educational and Scientific Services
82	Medical and Health Services

Division 8—Services—*contd.*

83	Religious and Welfare Services
84	Legal Services
85	Business Services
86	Community Services and Trade and Labour Associations.
87	Recreation Services
88	Personal Services
89	Services (not elsewhere classified)

Division 9—Activities not adequately described

90	Activities unspecified and not adequately described (This includes new entrants to the labour market)

MINOR GROUPS

Major Group Code (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops*—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize.	000
	Production of pulses, such as arhar, moong, masur, urid, khesari, other gram.	001
	Production of raw jute and kindred fibre crops.	002
	Production of raw cotton and kindred fibre crops.	003
	Production of oilseeds, sugarcane and other cash crops.	004
	Production of other crops (including vegetables) not covered above.	005
	Production of fruits and nuts in plantation, vines and orchards.	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above.	009
01	*Plantation Crops*—	
	Production of tea in plantation ..	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium..	014
	Production of other plantation crops not covered above.	015
02	*Forestry and Logging*—	
	Planting, replanting and conservation of forests.	020
	Felling and cutting of trees and transportation of logs.	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forests.	023
	Production of fodder by exploitation of forests.	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests.	025
	Production and gathering of other forest products not covered above.	026
03	*Fishing*—	
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries.	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond.	032

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting—*concld.*	
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat.	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as pig.	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry-farming.	043
	Rearing of bees for the production of honey, wax and collection of honey.	044
	Rearing of silk worms and production of cocoons and raw silk.	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth.	048
	Division 1—Mining and Quarrying	
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone.	107
	Mining of chemical earth such as soda ash ..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt.	109
	Division 2 and 3—Manufacturing	
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, de-husking and processing of crops and food-grains.	200
	Production of sugar and syrup from sugarcane in mills.	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy.	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits.	203
	Slaughtering, preservation of meat and fish and canning of fish.	204
	Production of bread, biscuits, cake and other bakery products.	205
	Production of butter, ghee, cheese and other dairy products.	206
	Production of edible fats and oils (other than hydrogenated oil).	207
	Production of hydrogenated oils (Vanaspati) ..	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge.	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery.	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice.	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water ..	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco.	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms ..	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine.	239
24	*Textile—Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta.	244
25	*Textile—Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile ..	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom ..	263
	Weaving of silk textile by handloom ..	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine ..	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products.	270
	Manufacture of hosiery and other knitted fabrics and garments.	271
	Embroidery and making of crepe lace and fringes.	272
	Making of textile garments including raincoats and headgear.	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags.	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin.	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling.	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above.	279

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures.	283
	Manufacture of other wooden products such as utensils, toys, artwares.	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest.	286
	Manufacture of boxes and packing cases other than plywood.	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products.	288
	Manufacture of other wood and allied products not covered above.	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill.	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade.	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp.	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals.	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block-making and other work connected with printing industry.	302
	All types of binding, stitching, sizing and other allied work connected with binding industry.	303
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather.	310
	Manufacture of shoes and other leather footwear.	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur.	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles.	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear.	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose.	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat.	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries.	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere.	326

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified.	330
	Manufacture of dyes, paints, colours and varnishes.	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fireworks.	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap.	335
	Manufacture of soap and other washing and cleaning compounds.	336
	Manufacture of turpentine, synthetic resin and plastic products and materials (including synthetic rubber).	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats).	339
34	*Non-metallic Mineral Products other than Petroleum and Coal—*	
	Manufacture of structural clay products such as bricks, tiles.	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing.	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355.	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above.	357
	Manufacture of other non-metallic mineral products not elsewhere specified.	359
36	*Basic Metals and their Products except Machinery and Transport Equipment—*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods.	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms.	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate.	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can.	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products.	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*concld.*	
37	*Machinery (All kinds other than Transport) and Electrical Equipment—*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery.	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors.	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories.	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers.	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone.	378
	Manufacture of electric machinery and apparatus, appliances not specified above.	379
38	*Transport Equipment—*	
	Manufacture, assembly and repairing of locomotives.	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363.	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines).	382
	Manufacture of motor vehicles engines parts and accessories.	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear.	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines.	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines.	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles.	389
39	*Miscellaneous Manufacturing Industries—*	
	Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies.	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies.	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals.	393
	Manufacture and tunning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen.	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group.	399
	Division 4—Construction	
40	*Construction—*	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations.	400
	Construction and maintenance of roads, railway bridges, tunnels.	401
	Construction and maintenance of telegraph and telephone lines.	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells.	403

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	*Electricity and Gas—*	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers.	502
51	*Water-Supply and Sanitary Services—*	
	Collection, purification and distribution of water to domestic and industrial consumers.	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation.	511
	Division 6—Trade and Commerce	
60	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere).	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products.	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water.	603
	Wholesale trading in intoxicants such as wines, liquors.	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products.	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder ..	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle.	611
	Wholesale trading in toilets, perfumery and cosmetics.	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware.	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings.	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products.	616
	Wholesale trading in petrol, mobil oil and allied products.	617
	Wholesale trading in other household equipment not covered above.	618
62	Wholesale trading in bricks, tiles and other building materials.	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products.	621
63	Wholesale trading in paper and other stationery goods.	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical.	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb.	632
	Wholesale trading in all kinds of transport and storage equipment.	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment.	636
	Wholesale trading in scientific, medical and surgical instruments.	637
	Wholesale trading in precious metals and stones, gold and silverware and jewellery.	638
	Wholesale trading in all goods not covered above.	639

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*contd.*	
64	*Retail Trade—*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry.	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water.	641
	Retail trading in intoxicants such as wines, liquors.	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products.	644
	Retail trading in fuel such as coke, coal, firewood and kerosene.	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, ready-made garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles).	650
	Retail trading in toilet goods, perfumes and cosmetics.	651
	Retail trading in medicines and chemicals ..	652
	Retail trading in footwear, headgear such as hat, umbrella, shoes and chappals.	653
	Retail trading in tyres, tubes and allied rubber products.	654
	Retail trading in petrol, mobil oil and allied products.	655
66	Retail trading in wooden, steel and other metallic furniture and fittings.	660
	Retail trading in stationery goods and paper..	661
	Retail trading in metal, procelain and glass utensils.	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above.	664
67	Retail trading in bricks, tiles and other building materials.	670
	Retail trading in hardware and sanitary equipment.	671
	Retail trading in wood, bamboo cane, bark and thatches.	672
	Retail trading in other building materials ..	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances.	680
	Retail trading in transport and storage equipments.	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear.	683
	Retail trading in clock and watch, eye glass, frame.	684
	Retail trading in scientific, medical and surgical instruments.	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing.	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous—*	
	Importing and exporting of goods and commodities.	690
	Real estate and properties	691
	Stocks, shares and futures	692

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*concld.*	
69	*Trade and Commerce Miscellaneous*—concld.	
	Providents and insurances	693
	Money-lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
	Division 7—Transport, Storage and Communication	
70	*Transport—*	
	Transporting by railways	700
	Transporting by tramway and bus service ..	701
	Transporting by motor vehicles (other than omnibus).	702
	Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka.	703
	Animal transporting by animals such as horses, elephant, mule, camel.	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving.	705
	Transporting by boat, steamer, ferry, etc., by river, canal.	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean.	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	*Services incidental to transport—*	
	Such as packing, carting travel agency.. ..	710
72	*Storage and Warehousing—*	
	Operation of storage such as warehouses ..	720
	Operation of storage such as cold storage ..	721
	Operation of storage of other type	722
73	*Communication—*	
	Postal, telegraphic, wireless and signal communications.	730
	Telephone communication	731
	Information and broadcasting	732
	Division 8—Services	
80	*Public Services* (This does not include Govt., quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups).	
	Public Services in Union and State army including territorial corps and volunteer corps.	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government.	804
	Public service in administrative departments and offices of quasi-Government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments.	809
81	*Educational and Scientific Services—*	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions.	810

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 8—Services—*contd.*	
81	*Educational and Scientific Services*—concld.	
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type.	811
	Scientific services and research institutions not capable of classification under any individual group.	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners.	820
	Veterinary services rendered by organisations and individuals.	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations.	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk.	831
	Welfare services rendered by organisation operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity.	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi.	840
	Matrimonial services rendered by organisations and individuals.	841
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals.	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals.	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies.	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors.	853

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 8—Services—*concld.*	
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations.	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library.	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals.	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing.	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks.	880
	Services rendered to households such as those by governess, tutor, private secretary.	881
	Services rendered by hotels, boarding houses, eating-houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities.	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services.	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shops.	884
	Services rendered by portrait and commercial photographic studios.	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified.	890
	Division 9—Activities not adequately described	
90	*Activities unspecified and not adequately described*—	
	Including activities of such individulas who fail to provide sufficient information about their industrial affiliation to enable them to be classified.	900
	Fresh entrants to the Labour Market	999

J-1814-II—13-A-(Nanded).

APPENDIX II

NATIONAL CLASSIFICATION OF OCCUPATIONS

A Code structure which classifies occupations into—

11 Occupational Divisions (one-digit code numbers)

75 Occupational Groups (two-digit code numbers)

Note.—n. e. c.=not elsewhere classified.

DIVISIONS

0 Professional, technical and related workers

1 Administrative, executive and managerial workers

2 Clerical and related workers

3 Sales workers

4 Farmers, fishermen, hunters, loggers and related workers

5 Miners, quarrymen and related workers

6 Workers in transport and communication occupations

7-8 Craftsmen, production process workers and labourers not elsewhere classified

9 Service, sport and recreation workers

X Workers not classifiable by occupations

DIVISIONS AND GROUPS

0 Professional, Technical and Related Workers

00 Architects, Engineers and Surveyors
01 Physicists, Chemists, Geologists and other Physical Scientists
02 Biologists, Veterinarians, Agronomists and Related Scientists
03 Physicians, Surgeons and Dentists
04 Nurses, Pharmacists and other Medical and Health Technicians
05 Teachers
06 Jurists
07 Social Scientists and Related Workers
08 Artists, Writers and Related Workers
09 Draughtsmen, Science and Engineering Technicians, n. e. c.
0X Other Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers

10 Administrators, and Executive Officials, Government
11 Directors and Managers, Wholesale and Retail Trade
12 Directors, Managers and Working Proprietors, Financial Institutions
13 Directors, Managers and Working Proprietors, Other

2 Clerical and Related Workers

20 Book-Keepers and Cashiers
21 Stenographers and Typists
22 Office Machine Operators
28 Clerical Workers, Miscellaneous
29 Unskilled Office Workers

3 Sales Workers

30 Working Proprietors, Wholesale and Retail Trade
31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
32 Commercial Travellers and Manufacturers' Agents
33 Salesmen, Shop Assistants and Related Workers
34 Money Lenders and Pawn Brokers

4 Farmers, Fishermen, Hunters, Loggers and Related Workers

40 Farmers and Farm Managers
41 Farm Workers
42 Hunters and Related Workers
43 Fishermen and Related Workers
44 Loggers and Other Forestry Workers

J-1814—II—13-B (Nanded).

5 Miners, Quarrymen and Related Workers

50 Miners and Quarrymen
51 Well Drillers and Related Workers
52 Mineral Treaters
59 Miners, Quarrymen and Related Workers, n. e. c.

6 Workers in Transport and Communication Occupations

60 Deck Officers, Engineer Officers and Pilots, Ship
61 Deck and Engine-Room Ratings (Ship), Barge Crews and Boatsmen.
62 Aircraft Pilots, Navigators and Flight Engineers
63 Drivers and Firemen, Railway Engine
64 Drivers, Road Transport
65 Conductors, Guards and Brakesmen (Railway)
66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport
67 Telephone, Telegraph and Related Telecommunication Operators
68 Postmen and Messengers
69 Workers in Transport and Communication Occupations, n. e. c.

7-8 Craftsmen, Production Process Workers, and Labourers not elsewhere Classified

70 Spinners, Weavers, Knitters, Dyers and Related Workers
71 Tailors, Cutters, Furriers and Related Workers
72 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers
73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers
74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers
75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers
76 Electricians and Related Electrical and Electronics Workers
77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers
78 Painters and Paper Hangers
79 Bricklayers, Plasterers and Construction Workers, n. e. c.
80 Compositors, Printers, Engravers, Book Binders and Related Workers
81 Potters, Kilnmen, Glass and Clay Formers and Related Workers
82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers
83 Chemical and Related Process Workers
84 Tobacco Preparers and Products Makers
85 Craftsmen and Production Process Workers, n. e. c.
86 Testers, Packers, Sorters and Related Workers
87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers
89 Labourers, n. e. c.

9 Service, Sport and Recreation Workers

90 Fire Fighters, Policemen, Guards and Related Workers
91 House Keepers, Cooks, Maids and Related Workers
92 Waiters, Bartenders and Related Workers
93 Building Caretakers, Cleaners and Related Workers
94 Barbers, Hairdressers, Beauticians and Related Workers
95 Launderers, Dry Cleaners and Pressers
96 Athletes, Sportsmen and Related Workers
97 Photographers and Related Camera Operators
99 Service, Sport and Recreation Workers, n. e. c.

X Workers not Classifiable by Occupations

X0 Workers without occupations
X8 Workers Reporting Occupations Unidentifiable or Unclassifiable
X9 Workers not Reporting Occupations

APPENDIX III

Common Household Industries with their Industrial Code Numbers

Note—n. e. c.=not elsewhere classified

Industrial Code Number	Household Industry
Major Group 00—Field Produce and Plantation Crops	
005·1	Production of Vegetables
005·2	Production of roots, etc., not included above
006·1	Production of fruits and nuts in plantation, vines and orchards
006·2	Production of copra (from coconuts)
007·1	Production of thatching grass
007·2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass)
008·1	Production of juice (Neera) by tapping coconut trees
008·2	Production of juice by tapping other palms like date, Palmyra n. e. c.
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above
Major Group 01—Plantation Crops	
013	Production of tobacco in plantation
015·1	Pan Cultivation
015·2	Plantation crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan
Major Group 02—Forestry and Logging	
023·1	Production of Charcoal
023·2	Production of other fuels by exploitation of forests
024	Production of fodder by exploitation of forests
025·1	Production of Kathha
025·2	Production of Lac
025·3	Production of gum
025·4	Production of resins, barks, herbs, wild fruits, berries and leaves, etc., n. e. c.
026	Production and gathering of other forest products not covered above
Major Group 03—Fishing	
030	Production of fish by fishing in sea
031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries.
032	Production of pearls, conch shells, sponges, sea herbs, corals, etc., by gathering or lifting from sea, river, pond
Major Group 04—Livestock and Hunting	
040·1	Rearing of goat for milk and animal power
040·2	Rearing of buffalo for milk and animal power
040·3	Rearing of cows for milk and animal power
040·4	Rearing of camels and other big domestic animals
040·5	Production and rearing of livestock mainly for milk and animal power n. e. c.
041·1	Sheep breeding and rearing
041·2	Production of wool
042·1	Rearing and production of pigs and goats (mainly for slaughter)
042·2	Rearing and production of other animals (mainly for slaughter) n. e. c.
043·1	Poultry keeping and production of eggs
043·2	Rearing and production of ducks, hens, etc., and other small birds, *e.g.*, pigeons, parrots, peacock, maina, etc.
044·1	Bee keeping for production of honey and wax
044·2	Collection of wax and honey
045	Rearing of tassar/eri/mulberry and other silk worms and production of cocoons and raw silk
046·1	Dog breeding, rearing of rabbits and guinea-pigs
046·2	Rearing of other small animals and insects n. e. c.
048·1	Collection of bones
048·2	Manufacture of glue from animal carcasses.
048·3	Manufacture of gut
048·4	Production of other animal husbandry products such as skin, ivory, teeth and hair, etc.

Industrial Code Number	Household Industry
Major Group 10—Mining and Quarrying	
107·1	Extraction of chalk
107·2	Quarrying of lime-stone
107·3	Stone and slate quarrying
107·4	Quarrying of sand, clay, gravel, etc., n. e. c.
Major Group 20—Foodstuffs	
200·1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.
200·2	Hand pounding of rice by Dhekhi or Ukhal
200·3	Production of rice by milling, dehusking and processing of paddy by rice mill.
200·4	Grinding of chillies, turmeric, etc.
200·5	Production of pulses
200·6	Parching of grains
200·7	Production and processing of other crops and foodgrains n. e. c.
202·1	Gur and Khandsari making from sugarcane and palm
202·2	Production of bhoora and candy
202·3	Production of jaggery from coconut and palmyra juice (neera)
202·4	Production of other indigenous products from sugar and jaggery n. e. c.
203·1	Manufacture of achar, pickles, chutney and murabba
203·2	Production of sauce, jam and jelly
203·3	Processing of cashewnut
203·4	Manufacture of kokam products
203·5	Fruit preservation (canning of fruits)
203·6	Making dried vegetables
203·7	Production of other fruit products and preservation of fruits n. e. c.
204·1	Slaughtering, preservation of meat and fish and canning of fish
204·2	Fish currying or curing and salting (currying applies more to skin and hide)
205	Production of bread, biscuit, cake and other bakery products
206	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products
207	Oil pressing ghani, kolhu or by small machines
209·1	Confectionery
209·2	Making of sweetmeats, laddu, peda, barphi, batasa, etc.
209·3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.
209·4	Making of chura or chira, muri, murki, khoi
209·5	Making of chat
209·6	Making of dalmot, chanachur (jor) garam, rewari, etc.
209·7	Making of other food products for residuary snacks
209·8	Production of other food products like cocoa, chocolate, toffee, lozenge
Major Group 21—Beverages	
210·1	Manufacture of vinegar from coconut juice (neera)
210·2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery
211	Production of country liquor from material obtained from sources other than trees and shrubs
212·1	Production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees
212·2	Production of other indigenous liquors from other materials from trees and shrubs
214·1	Production of mineral water
214·2	Production of aerated water such as sodawater, lemonade, etc.
215	Production of ice
216	Production of ice-cream, ice-candy or kulphimalai, milk-shake, etc.
218	Grinding of Coffee
219·1	Preparation of sharbats and squashes
219·2	Preparation of jeerapani
219·3	Production of other beverages n. e. c.

Industrial Code Number	Household Industry
Major Group 22—Tobacco Products	
220	Manufacture of bidi
221	Manufacture of cigars and cheroots
223	Manufacture of hookah tobacco
224	Manufacture of snuff
225	Manufacture of jerda, kimam, khaini and other chewing tobacco
226	Manufacture of other tobacco products n. e. c.
Major Group 23—Textile—Cotton	
230	Cotton ginning, cleaning, carding, pressing and baling
231	Cotton spinning (by charkha and takali)
233·1	Dyeing of cloth (cotton) and yarn
233·2	Bleaching of cloth (cotton) and yarn
233·3	Tie and dye (bandhani) of cloth and yarn
234	Cotton cloth weaving in powerlooms
235	Cotton cloth weaving in handlooms
236	Manufacture of khadi textile in handlooms
237	Printing of cloth (cotton)
238·1	Making of fishing net
238·2	Making of mosquito net
238·3	Making of other nets
239·1	Making of sacred thread
239·2	Making of thread, rope, cordage and twine (cotton)
Major Group 24—Textile—Jute	
240	Jute pressing and baling
241	Jute spinning and weaving of mats, asanis, etc.
242	Dyeing and bleaching of jute
244·1	Making of rope and cordage, out of hemp
244·2	Making of rope and cordage, out of jute
244·3	Making of rope by palm fibre
244·4	Making of rope by date palm fibre
244·5	Making of fibre, sunn-hemp fibre
244·6	Making of other products from jute and similar fibres such as hemp, mesta
Major Group 25—Textile—Wool	
350	Wool baling and pressing
251	Cleaning, sorting, carding, scouring and processing of wool
253	Spinning of wool by charkha or takali
254	Weaving of woollen cloth in powerloom such as blankets, asanis, etc.
255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.
256·1	Embroidery with various colours, combinations of various threads and art work in woollen textile
256·2	Shawls (with traditional borders)
Major Group 26—Textile—Silk	
261	Dyeing and bleaching of silk
262·1	Spinning of tussar, other than in mills
262·2	Spinning of eri, other than in mills
262·3	Spinning of silk, other than in mills n. e. c.
263·1	Weaving of Traditional silk (Atlas) by powerloom
263·2	Weaving of tussar by powerloom
263·3	Weaving of eri by powerloom
263·4	Weaving of silk and artificial silk in powerloom n. e. c.
264·1	Weaving of mashru, himroo, brocade, kinkhab by handloom
264·2	Weaving of silk and artificial silk in handloom n. e. c.
265	Printing of silk textile
266·1	Goaf making
266·2	Making of silk cordage, rope and twine n. e. c.
Major Group 27—Textile—Miscellaneous	
270·1	Making of durries
270·2	Making of carpets and druggets
270·3	Manufacture of other similar textile products n. e. c.
271·1	Making of hosiery goods such as banyans, socks, sweaters, mufflers, etc.
271·2	Making of nalas and azarbands
271·3	Making of parandas and chootelas

Industrial Code Number	Household Industry
Major Group 27—Textile—Miscellaneous—*concld.*	
271·4	Manufacture of hosiery and other knitted fabrics and garments n. e. c.
272·1	Embroidery and making of phulkari
272·2	Making of jari thread, zardoshi
272·3	Traditional embroidery
272·4	Patchwork embroidery
272·5	Lace garland making
272·6	Making of fringes and crepe laces
272·7	Making of kargota, main garlands, shell garlands, etc.
272·8	Making of other embroidery products n. e. c.
273·1	Making of cap, hat and other headgear
273·2	Traditional garments
273·3	Chrochet work (bora caps)
273·4	Making of textile garments including raincoats and headgears n. e. c.
274·1	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags, etc.
274·2	Making of newar
274·3	Manufacture of other made-up textile goods like mattress, quilt, rezai, etc., n. e. c.
275	Manufacture of waterproof textile products such as oil cloth, tarpaulin, etc.
276·1	Making of namda felt
276·2	Making of suzani (padded quilts)
276·3	Processing of coconut fibre for upholstery
276·4	Handicraft articles made of flax and fibre
276·5	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n. e. c.
277·1	Manufacture of coir matting, cactus fibre for ropes and rope making from coconut fibre
277·2	Making of brush, broom, etc., from coconut fibre
277·3	Coir spinning
277·4	Coconut curing
277·5	Other allied products of coir industry n. e. c.
278	Manufacture and repair of umbrellas
279·1	Making of daura (thread), batua, cotton thread, buttons
279·2	Manufacture of dolls and toys (rags and cotton)
279·3	Manufacture of other textile products not elsewhere classified
Major Group 28—Manufacture of Wood and Wooden Products	
280	Sawing, planing and milling of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows
283·1	Carpentry works concerned with repairs of agricultural implements (wood)
283·2	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures
284·1	Lecquerware (if on wood)
284·2	Manufacture of wooden utensils, artware and decorative wooden boxes (patras)
284·3	Manufacture of wooden toys
284·4	Sandalwood and other wood carving
284·5	Bead making from wood
284·6	Sawdust and plaster figure making
284·7	Marquetry boxes (inlay work)
284·8	Manufacture of photo frames and framing of photo paintings, etc.
284·9	Manufacture of other wooden products n. e. c.
285	Manufacture of match splinters, plywood and veneers
287	Manufacture of boxes and packing cases other than plywood
288·1	Making of box from moonj grass
288·2	Making of rope mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes
288·3	Making of mats, handfans and umbrellas from palm leaves
288·4	Making of sirki, moora and chhaj
288·5	Making of baskets and broomsticks
288·6	Making of donas (drone) and pattals (patravali) from leaves

Industrial Code Number	Household Industry
Major Group 28—Manufacture of Wood and Wooden Products—*concld.*	
288.7	Caning of chairs.
288.8	Making of chicks, cuscus-tati and fans, sticks and poles from bamboo
288.9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n. e. c.
289.1	Making of sticks and poles from wood
289.2	Making of wooden kharaus and other wooden sandals
289.3	Making of cartwheels
289.4	Manufacture of other wood and allied products n. e. c.
Major Group 29—Paper and Paper Products	
291	Manufacture of pulp and paper by hand
292.1	Making of envelopes and paper bags
292.2	Papier mache articles
293.3	Making of kite
292.4	Paper decorations for homes
292.5	Making of card-board boxes and cards
292.6	Making of paper toys
292.7	Making of paper flowers, etc.
292.8	Manufacture of other paper products from paper, paper board and pulp n. e. c.
Major Group 30—Printing and Publishing	
301	Printing and publishing of books.
302.1	Printing works, printing of handbills, invitation cards, etc.
302.2	Lithography, engraving, etching, block making, type cutting and other work connected with printing industry
303	Book binding, stitching, sizing and other work connected with book binding industry
Major Group 31—Leather and Leather Products	
310.1	Flying, processing of hides and skins including taxidermy
310.2	Currying, tanning and finishing of hides and skins, preparation of finished leather
310.3	Stuffed animals.
311.1	Making of leather boots, shoes or chappals (slippers, sandals)
311.2	Making of Poola shoes
311.3	Manufacture of other footwear n. e. c.
312	Making of clothing and wearing apparel (except footwear), made of leather and fur
313	Manufacture of leather products such as leather upholstery suit cases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (Kos), charsa and other articles
314	Repair of shoes, chappals and other leather footwear
315	Repair of all other leather products except footwear
Major Group 32—Rubber, Petroleum and Coal Products	
320	Vulcanising tyres and tubes
321	Manufacture of chappals from torn tyres and other rubber footwear
322	Manufacture of rubber products from natural and synthetic rubber including raincoats, oil cloths, waterproof cloths, etc.
Major Group 33—Chemicals and Chemical Products	
331.1	Manufacture of dyes, paints, colours, abir, sindoor, varnish, etc.
331.2	Manufacture of indigo
332	Manufacture of fertilizer (including from bones).
333	Manufacture of fireworks and other explosives such as *pataka*, etc.
334	Manufacture of matches
335.1	Manufacture of incense and perfumes.
335.2	Manufacture of Agarbatti
335.3	Manufacture of rose water
335.4	Manufacture of powder, snow cream, bindi, tikali, hair oil and nail polish
335.5	Manufacture of kumkum and hinglo
335.6	Manufacture of mascara and kajal

Industrial Code Number	Household Industry
Major Group 33—Chemicals and Chemical Products —*concld.*	
335.7	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations
335.8	Manufacture of perfumes, cosmetics and other toilet preparation n. e. c.
336.1	Manufacture of soap and washing soda.
336.2	Manufacture of other washing and cleaning compounds n. e. c.
337.1	Manufacture of plastic toys
337.2	Making of plastic buttons
337.3	Manufacture of other plastic goods
337.4	Making of celluloid goods
337.5	Manufacture of turpentine, synthetic resin and other materials n. e. c.
338	Salt production.
339.1	Manufacture of ink including fountain pen ink.
339.2	Making of candles
339.3	Making of tooth powder
339.4	Making of boot polish and inedible oils, etc.
339.5	Manufacture of other chemicals products n. e. c.
Major Group 34-35—Non-metallic Mineral Products other than Petroleum and Coal	
340.1	Making of bricks
340.2	Manufacture of roofing tiles
340.3	Manufacture of other clay products n. e. c.
341.1	Manufacture of cement door frames and sanitary fittings
341.2	Manufacture of cement jali and tiles
341.3	Making of cement statues
341.4	Making of cement products n. e. c.
342.1	Manufacture of lishu
342.2	Manufacture of lime
343.1	Stone carving
343.2	Marble carving
343.3	Granite carving
343.4	Manufacture of other structural stone goods, stone dressing and stone crushing n. e. c.
344	Making of chakki, chakla, silaut, lorha, jainta, utensils and other articles from stone
345	Manufacture of stone images and toys.
346.1	Making of images from soap stone.
346.2	Manufacture of images, toys and other articles of plaster of paris
348.1	Mica splitting
348.2	Manufacture of mica products, including mica grinding
350	Making of earthenware such as pottery, etc.
351	Manufacture of crockery
353.1	Making of glass bangles
353.2	Making of glass beads
353.3	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)
354	Manufacture of Laboratory glass apparatus
355	Making of clay models, earthen images, busts and statues
356.1	Making of earthen toys and artware
356.2	Decorative ceramics
357	Manufacture of glass and glass products except optical and photographic lenses
Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment	
360.1	Re-rolling of M. S. Rods
360.2	Manufacture of iron and steel including smelting, refining, rolling, etc., such as billets, blooms, tubes, rods n. e. c.
362	Manufacture of arms and weapons and their repair service
364	Manufacture of iron and steel furniture.
365.1	Making of utensils of brass and bell metal
365.2	Making of brassware
365.3	Making of bottom part of hookha from brass and bell metal

Industrial Code Number	Household Industry
Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment—*concld.*	
365·4	Making of brass and bell metal ornaments
365·5	Making of other brass and bell metal products n.e.c.
366·1	Making of aluminium utensils
366·2	Making of other aluminium products n. e. c.
367·1	Making of tin utensils
367·2	Making of articles from tin sheets
367·3	Copper utensils
367·4	Bronze works including bronze images, medals and articles of alloys
367·5	Manufacture of other metal products (excluding iron, brass, bell metal, aluminium) n. e. c.
368·1	Lacquerware (if on metal)
368·2	Nickel plating and electroplating
368·3	Engraving, embossing, polishing and welding of metal products
368·4	Enamelling and galvanizing of metal products
368·5	Plating and electroplating of metal n. e. c. including silverplating, goldplating, E. P. N. S., etc.
369·1	Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc.
369·2	Manufacture of light engineering goods including bolts and screws
369·3	Making of iron utensils (*e.g.*, buckets, etc.) and articles from iron sheets
369·4	Making and repairing of locks and trunks
369·5	Cutlery
369·6	Manufacture of pins
369·7	Manufacture of scales, weights and measures
369·8	Foundry Industry (including blacksmithy)
369·9	Manufacture of other sundry hardware such as G. I. pipe, wire net, etc., n. e. c.
Major Group 37—Machinery (All kinds other than Transport) and Electrical Equipment	
370	Manufacture of mechanical water pumps, tube-well pumps, air pumps, etc.
372	Manufacture of small machine tools and machine parts
373	Manufacture of sewing machine parts
375	Repairing and servicing of fans
376	Manufacture of insulated wires
377·1	Manufactre of storage batteries
377·2	Manufacture of charging batteries
377·3	Manufacture of other batteries n. e. c.
378	Repairing and servicing of radios
379·1	Manufacture of domestic electrical appliances
379·2	Repairing and servicing of electrical apparatus, heaters, oven, etc.
Major Group 38—Transport Equipment	
382	Manufacture of body of trucks and buses including carpentry and joinery work involved
384	Repairing and servicing of automobiles

Industrial Code Number	Household Industry
Major Group 38—Transport Equipment—*concld.*	
385·1	Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc.
385·2	Manufacture of rickshaw parts
386	Manufacture of boats and barges
388	Repair of cycle and rickshaw
389	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki, cab, wheelbarrow, handbarrow, etc.
Major Group 39—Miscellaneous Manufacturing Industries	
390·1	Repair of spectacles
390·2	Manufacture of small photographic equipment
390·3	Manufacture of optical and photographic equipment n. e. c.
391	Manufacture of scientific goods
392	Repairing and servicing of watches and clocks
393·1	Inlay work with ivory and brass
393·2	Goldsmithy
393·3	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones.
393·4	Silver artware, including Silver repousse work on copper (such as in Tanjore) and silver images.
393·5	Silver filigree industry
393·6	Manufacture of gold and silver leaves
393·7	Gold covering work (fancy jewellery)
393·8	Bidriware industry
393·9	Manufacture of jewellery, silverwares, etc., n. e. c.
394	Manufacture, repairing and tunning of musical instruments such as harmonium, tabla, sitar, bansuri, etc.
395·1	Manufacture of chalk pieces
395·2	Making of slate and slate pencil
395·3	Making of rubber stamps
395·4	Manufacture of fountain pen parts
395·5	Manufacture of other stationery articles such as pencils, penholders, etc.
396·1	Manufacture of deshi sports goods such as lezzim and dumbells.
396·2	Making of rubber balls and balloons
396·3	Manufacture of other sports goods n. e. c. bats, rackets balls, etc.
399·1	Making of tikka and cowdung cakes
399·2	Making of beads from conch shells and horn goods
399·3	Making of traditional objects such as Orissa, Mysore and Tanjore paintings, etc.
399·4	Making of lac bangles
399·5	Making of buttons (bone, shell, ivory)
399·6	Making of gangavan (making of wig from human hair).
399·7	Making of garlands from flowers, camphor, sandal-wood shavings, seeds and other materials like beads, etc.
399·8	Repair of petromax lights, etc.
399·9	Making and repairing of goods n. e. c.

APPENDIX I

Statement showing 1951 Territorial Units constituting the present 1961 set-up of the District

District/Taluka	1951 Territorial Units — Name	Area — Sq. Miles (3-a)	Area — Sq. Km. (4-b)
(1)	(2)		
NANDED DISTRICT	As in 1951	3,875.9	10,038.6
	Plus Islapur Circle of Boath Taluka and Kinwat Taluka of Adilabad District of former Hyderabad State.	+801.9	+2,076.9
	Minus Bichkonda and Jukkal Circles of Deglur Taluka and Mudhol Taluka (except Dharmabad Circle) transferred to Andhra Pradesh State.	—688.1	—1,782.2
	Total ..	3,989.7	10,333.3
Kinwat Taluka	As in 1951	608.6	1,576.3
	Plus Islapur Circle of Boath Taluka of Adilabad District of former Hyderabad State.	+193.3	+500.6
	Total ..	801.9	2,076.9
Biloli Taluka	As in 1951	444.2	1,150.5
	Plus Dharmabad Circle of former Mudhol Taluka of Nanded District.	+119.3	+309.0
	Total ..	563.5	1,459.5
Deglur Taluka	As in 1951	528.6	1,369.1
	Minus Bichkonda and Jukkal Circles transferred to Andhra Pradesh State.	—266.6	—690.5
	Total ..	262.0	678.6

APPENDIX II

Number of Villages with a Population of 5,000 and over and Towns with a Population under 5,000

District/Taluka	Villages with a Population of 5,000 and over — Number	Population	Percentage of Total Rural Population	Towns with a Population under 5,000 — Number	Population	Percentage of Total Urban Population

EXPLANATORY NOTE

The scope of the 1961 District Census Handbooks has been enlarged to include in this Part, Official Statistics on climate and rainfall, agriculture, industry, education, health and a few other topics. The material presented here was mainly collected and compiled by the District Statistical Officer, for this volume. The concerned Departments of the State and Central Governments have also been consulted. For most of the Tables the footnotes show the sources from which the material has been obtained.

2. There are 33 Tables in this Part. They may be broadly grouped as follows :—

(1) Climate and Rainfall—Tables 1 and 2.
(2) Agriculture—Tables 3 to 10.
(3) Industries—Tables 11 to 14.
(4) Education—Tables 15 and 16.
(5) Public Health—Tables 17 to 19.
(6) Miscellaneous—Tables 20 to 33.

(1) CLIMATE AND RAINFALL

Table 1

This table presents the highest and the lowest temperatures recorded at one or more stations in the district for all the 12 months for the years 1951 to 1960. Annual averages are shown in the last column.

Temperature data are maintained by the Meteorological Department and are published in their monthly weather reports and their summary which is published annually.

Table 2

This table shows monthly and annual rainfall and the number of rainy days for the various stations in the district. "Normal rainfall" [column (28)] is the average rainfall over a long period—usually 80 years. Where rainfall records over such a long period are not available it may be the average for a shorter period—in some cases even five years. Rainfall records are maintained at taluka headquarters, dispensaries and a few police stations where rain-gauges have been supplied. These statistics are published in Part III of the State Government Gazette and Annual Season and Crop Reports issued by the Department of Agriculture. They are subsequently consolidated and issued by the Meteorological Department in two annual publications, *viz.*, " Daily Rainfall of India " and " Monthly Rainfall of India ".

Rainfall statistics are presented in this table separately for each of the ten years from 1951 to 1960.

(2) AGRICULTURE

Table 3

This table shows the utilisation of land and areas under various crops. Material is presented for the district as a whole and for each taluka separately. It is presented for ten years 1950-51 to 1959-60 :

(i) *Geographical area* : This area represents the total land area and is worked out from the Survey and Settlement Records. The changes in the geographical area from year to year may be due to territorial changes or corrections on account of adjustments in the areas of former unsurveyed villages which are now surveyed ;

(ii) *Forests* : This category includes all areas actually under forests whether State-owned or private and classed or administered as forests under any legal enactment dealing with the forests ;

(iii) *Barren and unculturable land* : This includes barren and unculturable lands like mountains, river beds, etc. (land which cannot be brought under cultivation unless at a very high cost) ;

(iv) *Culturable waste* : This includes lands which can be brought under cultivation but which have not been cultivated or having been cultivated for some time have not been cultivated successively for more than five years. Such lands may either be fallow or covered with shrubs ;

(v) *Permanent pastures and other grazing lands* : This includes all grazing lands whether they are permanent pastures and meadows or not ;

(vi) *Miscellaneous tree crops and groves not included in the net area sown* : This category includes lands under casuarina trees, thatching grass, bamboo bushes or other trees used for fuel, etc. Lands which are not included under orchards are included in this class. These are lands which are put to some agricultural use but whose area is not included in the net area sown ;

(vii) *Current fallows* : This includes lands which are left fallow during the current year only ;

(viii) *Other fallow land* : All lands which have been cultivated but which are temporarily out of cultivation for a period of not less than one year and not more than five years;

(ix) *Net area sown*: The net area sown is the actual area under crops counting areas sown more than once in the same year only once ;

(x) *Gross cropped area*: This is the sum of areas under all crops and represents the sum of net area sown and area sown more than once in the year.

After the land utilisation statistics under section A in column (1) the table presents in section B the details of areas under different crops. The crops are classified in two main groups, *viz.*, foodcrops and non-foodcrops. Foodcrops are further grouped by "cereals, pulses and others". Non-foodcrops are similarly shown under "oilseeds and others".

The data on land utilisation and areas under crops are primarily prepared by the village officials of the Revenue Department. They are subsequently consolidated by the Agriculture Department.

Talukawise land utilisation and crop statistics are being presented for the first time in this volume. They have not been published so far anywhere else.

Table 4

This table presents gross and net irrigated areas and the distribution of net irrigated area by sources of irrigation. To facilitate comparison, the gross cropped area is also shown in column (3). The data are presented for three years, *viz.*, 1950-51, 1956-57 and 1959-60. Presentation is for the district as a whole and for each taluka separately.

Table 5

This table shows the acreages of various crops under irrigation for each year from 1950-51 to 1959-60. To facilitate comparison, the gross cropped area and the gross irrigated area are presented in the beginning. This is followed by acreages under irrigation for each crop.

The material is presented for the district as a whole and for each taluka separately.

Sources for the district and talukawise material are different and there may, therefore, be a few small discrepancies between the two sets of figures.

Table 6

This table presents the outturn and average yields per acre of principal crops in the district. The crops presented are foodcrops like rice, wheat, jowar, bajri, ragi, maize, tur, gram and sugarcane and non-foodcrops like groundnut, sesamum, cotton and tobacco. Crops which are locally important are only shown in this table.

The outturn figures are in hundred tons while average yields are shown in pounds per acre.

J-1814-III—26-B-(Nanded).

The estimates of average yields and production in respect of rice, bajri, kharif and rabi jowar, wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted annually by the Agriculture Department. The estimates of yields for other remaining crops are based on the anna valuation figures and normal yields reported by the Revenue Officers. The figures relate to the years 1950-51 to 1959-60.

Table 7

This table presents wholesale prices of principal crops. The material is presented for previous years by monthly averages and for the last year separately for each month. The prices shown are for the places having regulated markets or for the District Headquarters.

Table 8

This table presents harvest prices of principal crops. The "harvest price" is the average wholesale price at which the commodity is disposed of by the producer to the trader at the village site during the specified harvest period. These prices are published in the Season and Crop Reports. The figures relate to the years 1950-51 to 1959-60.

Table 9

This table presents figures for livestock and agricultural implements for the district and each taluka separately for three years : 1951, 1956 and 1961. The material is obtained from the three Livestock Censuses conducted in those years. The reference date to which the data relate is the 15th April of the concerned year.

"Poultry" in section B of the table includes hens, cocks, chicken, ducks, drakes and ducklets.

Section C presents statistics for agricultural implements. The figures for carts shown in the table are in respect of carts used for agricultural purposes only.

The number of tractors is inclusive of those owned by the Government and those owned by private persons.

The material is presented for the district as a whole and for each taluka separately.

Table 10

This table presents the distribution of the number of land holdings and their areas by size of holdings. The material has been taken from the census of agricultural holdings conducted in the year 1952-53 or 1953-54 in different parts of the State.

The figures presented here are for ownership holdings and the area figures are in terms of converted dry acres, *i.e.*, calculated after giving due weightage for irrigated lands.

Where the district has undergone major changes because of the reorganisation of States in 1956 or 1960, the material relates to the area of the district as it existed in the year 1952-53 or 1953-54.

(3) INDUSTRIES

Table 11

This table presents, for each industry, the total number of working factories, the number of man-days for which they worked during the year and the average daily number of workers employed classified by adults (18 years and above), adolescents (15 to 17 years) and children (14 or less). Statistics presented in columns (3) to (11) relate only to the reporting factories. The number of non-reporting factories and their estimated average daily number of workers are shown in columns (12) and (13). These details of factories are further split up by the type of industry shown under column (1) both by industry code and a brief description. The industry codes shown here (as well as in Table 12) are those used for compilation of data by the Chief Inspector of Factories. They are different from the Standard Industrial Classification used in the Census Tables and reproduced in Appendix I to the Explanatory Note to Part II.

The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

The word " factories " here includes only the registered factories. They are of three types—

(i) Factories using no power but employing 20 or more workers;

(ii) Factories using power and employing 10 or more workers; and

(iii) Factories not covered by (i) and (ii) above but notified by the Government as covered by the Factories Act.

The material presented in this table is for all the three types combined.

Table 12

This table presents the distribution of factories for each type of industry by size of employment. For each size group, the number of factories and their total working strength are shown for each industry separately. The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

Table 13

This table presents the distribution of factories for each type of industry by the number of days worked during the year. The material is shown for each industry and the number of factories and their total workers are shown for each group of working periods. This will show the seasonal or perennial pattern of employment in industries in the district. Material is presented only for the district as a whole and relates to the year 1961.

Table 14

This table presents a summary of data regarding the manufacturing industries as obtained through the annual Census of Manufacturing Industries conducted during the year 1958.

The 1958 Census had covered only 29 important industries. It moreover covered only the factories using power and employing 20 or more workers.

The figures for capital, etc., relate to 31st December 1958. "Value" added by manufacture denotes the increase in the total value of commodities as calculated by deducting the cost of materials, supplies, containers, fuel, electric energy and depreciation of fixed assets from the total value of the products.

The table presents only the combined figures for the 29 industries covered in the 1958 Census.

(4) EDUCATION

Table 15

This table shows the number of different types of educational institutions in the district and the total number of pupils (boys and girls) and teachers for each type for the years 1951, 1956 and 1961. The material is presented for the district as a whole and for each taluka separately.

The number of institutions relates to the academic year ending June and the number of pupils is as on 31st March of the respective years.

Table 16

This table presents a list of colleges and high schools in the district with their locations. The material relates to 31st March 1961, and does not include institutions started after that date.

Lists are presented talukawise.

(5) PUBLIC HEALTH

Table 17

This table shows medical facilities available in the district. The material is presented for three years 1951, 1956 and 1961 and shows the number of hospitals, maternity homes, dispensaries, rural health centres, doctors, nurses, beds available and indoor and outdoor patients treated.

Material is presented for each taluka separately.

The material presented here includes only civil hospitals and Government dispensaries, Local or Municipal Funds institutions, private aided or Railway dispensaries. It does not cover private unaided institutions run by individuals or associations. Similarly, the number of doctors, nurses or patients shown in this table does not include that relating to unaided hospitals, dispensaries or private practitioners.

Table 18

This table shows data about births, deaths and infant deaths for the years 1951 to 1960. Wherever possible, figures for each taluka are also shown separately. For the districts of Aurangabad and Nagpur divisions, material is available and presented only for the years 1957 and onwards.

The figures of infant deaths relate to deaths of children below one year.

The coverage and reporting on births, deaths and epidemic diseases in the rural areas are incomplete in many respects. The material presented in Tables 18 and 19 should not, therefore, be treated as any accurate representation of actual conditions in the district and should be used only after allowing a margin for those limitations. The Department of Public Health is working on many schemes to improve the present position in respect of vital statistics.

Table 19

This table shows the number of deaths due to principal causes in the district for the 10 years 1951 to 1960. The causes of deaths shown are cholera, smallpox, plague, dysentery and diarrhoea, fever, respiratory diseases and other causes. The figures of fever include deaths due to enteric fever, cerebro-spinal fever, malaria, influenza, typhus, etc. Respiratory diseases include pneumonia, pulmonary tuberculosis, whooping cough, etc. In the other causes are included diphtheria, chicken-pox, poliomyelitis, leprosy, cancer, deaths from child birth, etc.

(6) MISCELLANEOUS

Tables 20 to 31

Tables 20 to 31 are self-explanatory and need no further clarification.

Table 32

This table presents talukawise lists of weekly markets. The table also shows the day on which the weekly bazar is held. Places where cattle bazars are held are also indicated. The list is based on the information collected from the Mamlatdar's offices and the Census enumerators' reports, prepared in September-October 1960.

Table 33

This table gives a talukawise list of villages where different religious or cultural fairs are held. The list includes only those fairs which have a congregation of 1,000 or more. Information regarding—

(i) Location Code Number,
(ii) the name of the village in which the fair is held,
(iii) distance from Railway station and S. T. Bus stop,
(iv) name of the fair, and month and date of the fair, and
(v) average congregation

is furnished for each fair separately.

The list is prepared on the basis of information collected from the District Superintendents of Police, Municipalities and the Census enumerators' reports. The number of people gathering at the fair is based on eye estimates and should be treated as a broad approximation.

Table 1—Highest and Lowest Temperatures
