NAGARJUNASAGAR

The motif presented on the cover page is the world famous 'Nagarjunasagar Dam' built across river Krishna near Nandikonda village in Nalgonda district

The multipurpose Nagarjunasagar Project with its tallest and largest masonry dam and third biggest man-made lake on the globe is verily the tourists' paradise. It is nature's beauty spot with ancient monuments of historical and archaeological significance for holiday goers, a study spot for technicians and technical students. It is a nerve centre of prosperity for millions of people

The picturesque valleys full of woods and pastures dotted with hills and dales, the roaring river, rolling in all fury, splashing her waters revengefully against the massive walls of the mighty dam, the azure blue skies descending majestically over the dark-deep-blue waters of the enticing but elusive Krishna; the bewitching water-falls of the rippling rivulet, Chandravanka at Ethipothala, 11 kms. down stream of the dam site and finally the world famous Nagarjunakonda, strewn with magnificent monuments of a by-gone age, vie with one another in commanding and compelling tourists' attention and admiration. The water falling from the dam at a height of 91.44 metres is a thrilling scene specially during nights with lighting arrangements.

The recommendations of the Khosla Committee for the construction of this dam with two canals on either side were approved by the Government of India and the foundation stone was laid on the 10th December, 1955 by late Pandit Jawaharlal Nehru, the first Prime Minister of India. The tireless efforts of thousands of technicians and sweat and toil of labourers for twelve years gave shape to the dam. The project originally called 'Nandikonda Project' was later renamed as 'Nagarjunasagar Project' after the great Saint Nagarjunacharya who propagated Mahayana Buddhism in the valley of Nagarjunakonda during the 2nd century A. D.

The project has a 284.9 sq km. reservoir formed by the world's tallest masonry dam of 124.7 metres. The reservoir is the third largest man-made lake in the world. The right and the left canals of the dam are named after the first two Prime Ministers of the country – late Jawaharlal Nehru and late Lal Bahadur Sastry, respectively. The length of right canal is 202 kms and the left canal is 179 kms. The right canal's potential is about 4.76 lakh hectares spread over Guntur, Kurnool, Prakasam and Nellore districts and the left canal 3.92 lakh hectares spread over Nalgonda Khammam and Krishna districts. The dam has the power generating capacity of 9;00,000 K.W.

Vijayapuri, the township now grown up along the dam is named after the forgotten capital town of Ikshvaku kings in whose regime a highly advanced civilization that thrived and flourished in the Nagarjuna-konda valley particularly during 3rd century A. D. More than thirty establishments of various sects and schools came into existence in the valley within a span of hundred years and attracted scholars from several lands.

Nagarjunasagar Project is the pride of the nation as a whole and of the people of Andhra Pradesh in particular whose share and involvement are great contributory factors in the building of the project.

(Nagarjunasagar is well connected by road from Hyderabad and several important towns in Andhra Pradesh. Macherla is the nearest railway station at a distance of 32 kms. The Nagarjunakonda Island is about 11 kms. upstream from the dam and is accessible by motor launches covering a distance of 4 kms. from the nearest shore).

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to district administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class I and Class II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part–A of the volume contains village and town directory and Part–B the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. S. Jaya Rao, I.A S., Director of Census Operations, Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Dr. N. G. Nag, Deputy Registrar General (Social Studies) of my office, Dr B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head-quarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi

P. PADMANABHA
Registrar General, India

PREFACE

District Census Handbook is the most important of the local publications brought out by the Census Organisation. This is a joint venture of the State and Central Governments. The chapter on HISTORY OF DISTRICT CENSUS HANDBOOK detai.s its history and growth right from the inception of Census in 1872, while the foreword of the Registrar General and Census Commissioner, India highlights the scope and significance of the tremendous improvements brought about from time to time since 1951 to 1981, in the presentation of data so as to meet the demands of planning and administrative needs of the Governments and the data users. Needless to say that it is of immense use to planners, administrators, academicians, scholars, researchers, social workers, etc.

The restructuring of the format of the Village Directory at the 1981 Census has been done particularly to incorporate the exhaustive data on infrastructure in relation to amenities and land use pattern to meet the needs of micro-level and local area planning for rural areas as well as to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. It is further intended to help regulating the provision of goods and services and also to enable minimising regional imbalances in the process of development. The formats of the Town Directory have also been modified to meet the requirements of the Minimum Needs Programme, by adding statements on civic and other amenities in slums in Class I and Class II towns, columns on Scheduled Castes and Scheduled Tribes population, adult literacy centres, working women's hostels, etc. In the process of collection of data for this volume, various State and Central Government departments have extended their kind co-operation The District Census Handbook comprises two parts—Part A – Detailed analytical note supported by a number of inset tables based on Census and non-Census data in relation to infrastructure and Part B – Village and Town Directories as well as Primary Census Abstract of Villages and Towns.

In this joint venture of the State and Central Governments, while the collection, processing including compilation tabulation and finalisation of the write up have been done by the Directorate of Census Operations, Andhra Pradesh, under the Ministry of Home Affairs, Government of India, the paper and printing costs are borne by the Government of Andhra Pradesh State. I offer my grateful thanks to Sri S.R. Rama Murthy, I.A.S. (Retd.), former Chief Secretary of the Government of Andhra Pradesh and Sri M. Appa Rao, Joint Secretary (Retd.), General Administration (Elections) Department for the kind co-operation and encouragement extended by them at the time of 1981 Census. Grateful thanks are also due to Sri Shravan Kumar, I.A.S., the present Chief Secretary, Sri B.N. Jaya Simha. I.A.S., Special Chief Secretary, General Administration Department and Chief Electoral Officer who is also in charge of Census and to Sri P.V. Gopala Rao, I.A.S., Deputy Secretary, General Administration Department, for extending their kind co-operation. The Director of Printing and Stationery has been helpful in selecting good private presses for printing the Handbooks.

My grateful thanks are due to Sri S.S. Jaya Rao, I.A.S., Director of Census Operations, Andhra Pradesh, under whose direction the entire Census Operations programme was successfully carried out in the State. He has retired from service after superannuation in April, 1984. I am extremely grateful to Sri P. Padmanabha, I.A.S., former Registrar General and Census Commissioner of India whose constant guidance and advice were a source of strength and to Dr. N.G Nag, Deputy Registrar General (Social Studies) who has formulated the contents of the Handbook in detail. Grateful thanks are also due to Dr. B K. Roy, Deputy Registrar General (Map) under whose guidance the Map Division has scrutinised the district map and the taluk maps evincing very keen interest and to Sri M.M. Dua, Senior Research Officer (now Deputy Director), who has scrutinised the data presented here, with very minute care. I feel it a proud privilege and bounden duty to offer my sincere and grateful thanks to Sri V.S. Verma, I.A.S., Registrar General and Census Commissioner, India and to Sri V.P. Pandey, Joint Registrar General, India for their constant guidance and advice in both administrative and technical matters.

In the finalisation of the write up, compilation and processing of data for the volume, I have been ably assisted by Sri B. Satyanarayana, as Deputy Director and as Assistant Director of Census Operations, with the assistance of an efficient team led by Smt. P. Lalitha, Investigator who has gained rich experience and specialised this subject. Sri Shyam Deo, Research Officer, ably guided the Map Section in the preparation of various maps included in this publication. I am thankful to all those officials who have contributed in bringing out this voluminous publication.

The following officials who have worked on the present volume of Nalgonda District Census Handbook deserve my thanks for their contribution.

Sri	N. C. Hanumantha Reddy, Tabulation Officer	Drafting, Scrutiny and Supervision of Printing

CONTENTS

Part-A		Pages
1	Important statistics of the district	ix–x
2	Map of the district	Facing Page [1]
3	Analytical note	
	(i) Brief history of the district	[1–3]
	(ii) General, physical aspects, hills, rivers, flora, fauna, climate, rainfall, soils, history of district as an administrative unit and changes in its component parts in general and during the decade in particular ...	[4–20]
	(iii) Major characteristics of the district particularly in relation to the economic resources namely forestry, minerals and mining, electricity and power, land and land-use pattern, tenancy, agriculture, animal husbandry, fishery, industry, trade and commerce, transport, etc. ...	[21–22]
	(iv) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district ...	[23–26]
	(v) Census concepts of rural and urban areas and other terms namely census house, household, scheduled castes/scheduled tribes, literates, main worker, marginal worker, non-worker, etc. ...	[27–29]
	(vi) The history of district census handbook, scope of village directory, town directory statements and PCA ...	[30–40]
	(vii) Brief analysis of the village and town directory, PCA data based on inset tables and a note on physically handicapped persons ...	[41–58]

Part-B : Village and Town Directory and Primary Census Abstract

SECTION I – VILLAGE DIRECTORY

(i)	Note explaining the codes used in the Village Directory ...	1–2
(ii)	Village Directory with Taluk Map on facing page of alphabetical list	
	1 Yadagirigutta Taluk	3–11
	2 Bhongir Taluk	13–25
	3 Ramannapet Taluk	27–37
	4 Mothkur Taluk	39–53
	5 Thungathurthi Taluk	55–65
	6 Suryapet Taluk	67–79
	7 Nakrekal Taluk	81–93

PART - A

ANALYTICAL NOTE

HISTORY

Nalgonda district formed part of the Kakatiya kingdom and after its downfall, it became part of Bahmani kingdom and subsequently passed on to Qutb Shahi dynasty of Golconda and on its fall was annexed to Mughal empire from which it was detached in the early part of the eighteenth century on the establishment of Hyderabad State by the Asaf Jahi dynasty. Finally it became part of Andhra Pradesh with effect from 1st November, 1956 under the scheme of Reorganisation of States. The early history of the Deccan of which Nalgonda district forms a part is given below.

Early Hindu Period

In pre-historic times, the great Dravidian race occupied Southern India including a major portion of the Deccan plateau. It is uncertain as to when the Aryans invaded the Deccan. The empire of Asoka (273–231 B.C.), however, seems to have had control over the whole of Berar and a considerable portion of the Deccan plateau. The Andhras were the next kings who ruled the Deccan. They are mentioned in the Asokan inscriptions but their rise to power dates from about 220 B.C. Gradually extending their sway from Krishna delta, they soon possessed an empire reaching to Nasik. This dynasty seems to have come to an end in the third century A.D., but the reasons for the collapse are little known. The Pallavas who ruled south of Krishna possibly might have extended their power to this region. The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A.D., and founded an empire spreading east and west across the peninsula with their capital at Kalyani. Pulakesin II (608–42 A.D.), ruled practically the whole of India south of Narbada river and even came into contact with Harshavardhana of Kanuj. Throughout their period of supremacy the Chalukyas were at war with the Pallavas. In the middle of the eighth century the Chalukyas were displaced by the Rashtrakutas of Malkhed in Gulbarga district. About 973 A.D., the Chalukyan dynasty was restored and for nearly 200 years maintained its position, inspite of fierce struggles with the Cholas and Hoyasalas of Dorasamudra. The Chalukya power fell about 1189 A.D., to the Hoyasalas and Yadavas, the latter of whom established themselves at Deogiri. The Yadavas were the last great Hindu rulers of the Deccan, for Vijayanagar Kingdom which was founded half a century later after the advent of the Muhammadans, never acquired much sway in the Deccan proper.

Muhammadan Period

Alla-ud-din Khilji led the first Muhammadan expedition into the Deccan in 1294 against the Yadava ruler of Deogiri and coerced him into submission. In 1296, he assassinated his own uncle and seized the throne, and sent an expedition to Deogiri. His first expedition was dispatched in 1303 against the Kakatiya Kings of Warangal, who had established themselves there since the middle of the 12th century. This having failed, he sent a second expedition under Malik Kafur in 1309, which resulted in the submission of the Raja who agreed to pay tributes. Muhammad-bin-Tughlak conducted a later campaign against Warangal and finally broke the Kakatiya power in 1321. In 1310 Malik Kafur was sent against the Hoyasala Raja of Dwarasamudra (Halebid in Mysore). In 1318 when Harpal, the Deogiri ruler rebelled, he was defeated and put to death and with him the Yadava dynasty ended. When Muhammad-bin-Tughlak ascended the throne in 1325 at Delhi, the Muhammadans were masters of the Deccan from North to South. The chief Rajas of Telangana acknowledged their sway and paid tributes. He changed the name of Deogiri as Daulatabad and made it his capital. A few years later, the Imperial Governors of the Deccan revolted resulting in the establishment of the Bahmani dynasty. Zafar Khan, who styled himself as Ala-ud-din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulbarga, he made the latter place his capital and commenced his reign in 1347 A.D. The Bahmani Kingdom extended from Berar in the north to the left bank of the Tungabhadra in the south and from Dabal on the west coast to the Telangana tracts in the east. After the fall of this dynasty, the Barid Shahi

Source : Nalgonda District Census Hand Book, 1961 PP. A10 to A12

dynasty came into power. Amir Barid, who assumed sole charge of the affairs of the Bahmani Kingdom after the downfall of the Bahmani dynasty, was engaged in constant wars with the rulers of Bijapur and Berar; seen many vicissitudes and finally died in Daulatabad in 1538. He was succeeded by his son Ali Barid who was the first to assume the title of Shah. In 1565, he marched along with the other Deccan Kings against the Rajah of Vijayanagar and in the memorable battle of Tallikota, the Vijayanagar ruler was defeated and his fate sealed. Ali Barid died in 1582 and he was succeeded by three other Kings The Qutb Shahi dynasty next came into prominence. Qutb ul-Mulk Sultan Kuli, a Turk of noble family, who was Governor of the Golconda province under the Bahmanis took advantage of the distracted state of the kingdom under Muhammad Shah of the Barid Shahi dynasty and declared his independence establishing the Qutb Shahi dynasty which reigned from 1512 to 1687 A.D

When the Mughals invaded the Deccan, the local rulers formed an alliance against them, but after defeating the invaders, they fell out among themselves, enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcomed at Golconda by Abdullah Qutb Shah. In 1635 A D., Shah Jahan who had then become the emperor, sent a farman to Golconda which was well received. Mir Jumla, the king's minister, appealed to Aurangazeb for help against his master in 1655 AD., and this afforded a pretext for Aurangazeb to invade the territory Hyderabad was plundered, but Abdullah sued for peace and paid arrears of tribute. He died in 1674 A.D., and was succeeded by his nephew Abdul Hasan also called Tana Shah. After the fall of Bijapur in 1686 A.D., Aurangazeb turned his attention to Golconda which was taken in the following year. Tana Shah was made a prisoner and died in 1704 A.D., and with him the Qutb Shahi line ended. This dynasty was followed by Asaf Jahi dynasty to which the present Nizam belongs. The Asaf Jahi dynasty was founded by Asaf Jah, distinguished General of Aurangazeb, a Turkoman by descent. After a long service under the Delhi emperor, he was appointed as Subedar or Viceroy of the Deccan in 1713 A.D., with the title of Nizam-ul-Mulk, which has since become the hereditary title of the family. The Mughal empire at this period was on the verge of decline owing to internal descensions and attacks from without. Amidst the general confusion, Asaf Jah had little difficulty in asserting his independence against the degenerate and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were harassing the western part of his newly acquired territory. His independence was the cause of much jealousy at Delhi and the court party secretly instructed Mubariz Khan, Governor of Khandesh to oppose him by force of arms. A battle was fought at Shakarkhelda in the Buldana district of Berar in 1724 A.D., when Mubariz Khan was totally defeated and lost his life. This battle established the independence of Asaf Jah who annexed Berar and fixed his residence at Hyderabad and established his dominions. Nalgonda district along with the rest of the Telangana came under the control of the Asaf Jahi dynasty.

After the death of Asaf Jah, Nazir Jung his second son and Muzaffar Jung his grandson by one of his daughters, strove for the succession. At this time the English and French were contending for supremacy in the East and each of the claimants secured the support of one of these powers; Nazir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nazir Jung, Muzaffar Jung was proclaimed the sovereign. Dupleix, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan chiefs and the French then selected Salabat Jung, a brother of Nazir Jung and son of Asaf Jah, as ruler. Ghazi-ud-din, the eldest son of Asaf Jah, who, it was alleged, had relinquished his claim at first now appeared as a claimant, supported by the Marathas, but his sudden death put a stop to further struggles. The English and the French were now contesting power and influence in the Deccan, but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatend and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asaf Jah, at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761 A. D., and Nizam Ali Khan was proclaimed ruler.

In 1766 A.D., the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in times of war, and receive 6 lakhs of rupees per annum when no troops were required, the Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D., by which the East India Company and the Nawab of

Carnatic engaged to assist the Nizam with troops whenever required by him, on payment. In 1790 A.D, war broke out between Tipu Sultan and the British and a treaty of alliance was concluded between the Nizam, the Marathas and the British. Tipu, however, concluded peace and had to relinquish half of his dominions which was divided among the allies. In 1798 A.D., another treaty was concluded between the Nizam and the British. On the fall of Seringapatnam (Sri Rangapattanam) and the death of the Tipu Sultan, the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the Peshwas from the treaty. In 1800 A.D., a fresh treaty was concluded between the Nizam and the British by which Nizam ceded all the territories which had accrued to him under the treaties of 1792 and 1799, i.e., Cuddapah, Kurnool, Anantapur and Bellary districts known as the 'ceded districts' of Madras. Nizam Ali Khan died in 1803 and he was succeeded by his son, Sikandar Jah. On the death of Sikandar Jah in 1829 his son Nasir-ud-Doula succeeded. Nasir-ud-Doula died in May, 1857 and he was succeeded by his son Afzal-ud-Doula. In 1869 on the death of Afzal-ud-Doula, his son Mir Mahbub Ali Khan Bahadur became the ruler. As he was only three years old then, a regency was constituted for the administration of the country, with Salar Jung I as regent and Nawab Shams-ul-Umara as co-regent, the British Resident being consulted on all important matters concerning the welfare of the State. On the death of the co-regent in 1877, his half-brother Nawab Vikar-ul-Umara was appointed as co-administrator, but he also died in 1881. With this Sir Salar Jung remained the sole administrator and regent till his death in 1883. In 1884, Mir Mahbub Ali Khan having attained majority was installed as ruler by Lord Rippon. On the death of Mir Mahbub Ali Khan in 1911, Mir Osman Ali Khan ascended the throne. In 1947 when the country attained independence, the princely States were given the choice either to remain independent or to join the Indian Union. The Nizam's dominions became part of the Indian Union in 1948 as a part 'B' State and in 1956, during the Reorganisation of States, the Hyderabad State was trifurcated and the nine predominantly Telugu speaking districts of Mahbubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur, Gulbarga and Bidar were transferred to Mysore (Karnataka) State while the Marathwada comprising the five districts of Aurangabad, Osmanabad, Bhir, Parbhani, Nanded and portion of Bidar which is predominantly Marathi speaking was transferred to Maharashtra State. These changes were effected on 1st November, 1956.

PHYSICAL ASPECTS

Nalgonda was formerly known as Neelagiri (Blue hill). It is bounded on the north by Medak and Warangal districts, on the south by Guntur and partly by Mahbubnagar districts; on the east by Khammam and Krishna districts, on the west by Rangareddi and Mahbubnagar districts. The total area of the district is 14,240 Sq. Kms. and the population, according to the 1981 census is 2,279,685. The district at present comprises 15 taluks viz., Yadagirigutta, Bhongir, Ramannapet, Mothkur, Thungathurthi, Suryapet, Nakrekal, Chandoor, Nalgonda, Nampalli, Devarakonda, Nidamanur, Miryalguda, Huzurnagar and Kodad.

Nalgonda district lies between 16°25' and 17°50' of the northern latitude and 78°40' and 80°5' of the eastern longitude. The general slope of the district is from West and Northwest to Southeast. A range of hills runs through the taluks of Nalgonda and Devarakonda and enters Achampet taluk of Mahbubnagar district. Another range of low hills starts in the southwest of the district and extends from the vicinity of Dindi river in a north eastern direction as far as Khammam district. A third range known as the Nalla Pahad after reaching Dindi and Peddavagu rivers, bifurcates one span extending north and the other joining the second range. A fourth range, in the northwest of the district runs in the northwesterly direction as far as Sirikonda and then taking a sudden turn towards the east extends for 18 Kms. and turns again due north passing between Narayanpur and Ibrahimpatnam curving again towards Vemalkonda. Besides these, there are a number of isolated hills some of which are situated in one or other of the ranges mentioned above.

Flora : The flora of Nalgonda district is very poor when compared to other districts of the State. The reserved forest areas present a dry undulating landscape with sudden small outcrops of granite or basalt, which support a xerophytic flora like Salvadora, Euphorbia, thorny scrubs, and dry grasses. Along the wet fields and depressions, green patches of mesophytic type of flora like Typha Angustata and cyperus rotundus, large trees of mango which are planted, phoenix sylvestris and number of grasses along watercourses.

The forests of Nalgonda fall under two broad classes viz.,

1) **Southern Dry mixed deciduous forest**: This type of forest occurs on the hill slopes and does not exceed four to six metres in height and the majority of the crop is of pole stage. It is generally fit for fuel. Some of the species of this type are Anogeissus latifolia (Chirumanu), chloroxylon Swietenia (Billudu), Hardwickia binata (Eppa) etc.

2) **Southern thorn forest** : Wherever the climate and soil conditions are very poor, this type of forest is found. On hill tops and slopes Mundulea suberosa forms an associate with Acacia Sundra. The other species found in association with Albizzia Amara, Acacia Sundra and Mundulea suberosa are Acacia leucophloea, Acacia latronum, Dichrostachys Cinerea, Flacourtia species and Zizyphus.

Fauna : Nalgonda district was, once upon a time rich in wild life with tigers, leopards, cheetahs, bears, hyenas, wolves, sambars, spotted deers, antelopes etc. In the early years of this century, the wild animals have been decimated. The construction of the Nagarjunasagar has also unwittingly contributed to the near disappearance of wild life in this district.

The leopard, jungle cat (fellis chaus), the striped hyaena and jackal can be seen occasionally in the forests.

The large flying foxes and the yellow bats, the five-striped palm squirrel, porcupine (Hystrix indica), the wild boar (Sus scrofa) the antelopes, reprensented by the Indian chinkara (Gazella Gazella) etc. are some of the common animals found in this district. Among the Avifauna

---

Source : Andhra Pradesh District Gazetteers, 1979 - Nalgonda District
District Census Hand Book, 1961 Census - Nalgonda District

peafowl, partridges, quail, rock pigeon and jungle fowl are found in large numbers.

Rivers : The district is drained and watered by the rivers Krishna, Musi, Aler, Peddavagu, Dindi, Hallai (ruralised form of Ahalya) and Kongal. The Krishna river, which is the most important river forms the southern boundary. It first touches the district at Yelleswaram in Devarakonda taluk and after a course of 85 Kilometres in this district in the easterly direction, it enters Krishna district. The Musi river is the next important river in this district. It enters this district from northwest and flows east for a distance of 64 Kilometres but after its joining with Aler river, it flows in a south easterly direction till it falls into the Krishna near Vadapalle (Wazirabad) after a course of 153 Kilometres in this district. Peddavagu and Dindi are two other important rivers that flow in Devarakonda taluk and merge into Krishna river. Hallai river, rises in the hills West of Narayanpur in Nalgonda taluk, flows in a south easterly direction for about 72 Kms when it is joined by Kongal river near Kongal village and continuing in the same direction, falls into the Krishna river. Its total length is 132 Kilometres. Aler river flows in Yadagirigutta taluk and joins Musi river. All these rivers are tapped for irriga tional purposes. The Nagarjunasagar project, constructed across the Krishna river, Musi project across the Musi river and Dindi project across the Dindi river are some of the important irrigation projects.

Climate : The climate of this district is very hot in summer and is generally dry except during the Southwest monsoon season. The year may be divided into four seasons. The winter season from December to mid-February followed by the summer season which lasts till the first week of June. June to September is the southwest monsoon season. October and Novemer constitute the post monsoon or retreating monsoon season.

Rainfall : The rainy season starts in June and ends in September. The rainfall in the district increases from southwest to northeast. The rainfall from June to September constitutes about 71 percent of the annual rainfall. There is some rainfall during the summer and post monsoon months and it is mainly in the form of thundershowers. The average annual rainfall in the district is *701.4 mm.

Changes in Administrative Units and its Component parts : Nalgonda district was not a homogeneous administrative unit in the past and its component parts were under the control of various dynasties at different periods of time, namely, the Satavahanas, Ikshvakus, Pallavas, Vishnukundins, Eastern Chalukyas, Rashtrakutas, Chalukyas of Kalyani, Yadavas of Devagiri, Kakatiyas, Musunuri Chiefs of Warangal Recherlas of Rachakonda and Devarakonda, Bahmanis, Qutb Shahis, Mughals and Asaf Jahis.

Nalgonda district originally formed part of Warangal Subah and was transferred in 1905 to Medak Subah with five taluks, namely 1) Nalgonda 2) Bhongir 3) Suryapet 4) Devulapalle (Devalpalli) and 5) Devarakonda. In the same year, the district gained two taluks of Cheriyal and Kodad from Warangal district but the name of Kodad taluk was changed to Pochamcherla. With the addition of these two taluks in 1905, the district witnessed many changes in its territorial composition. A number of villages were added to Cheriyal from Wardhannapet taluk of Warangal district and the head quarters of the taluk was shifted to Jangaon. The name of the taluk of Devulapalle was changed to Miryalguda. A new taluk named Huzurnagar was formed out of Khammam, Suryapet and Miryalguda taluks. Till 1950, the district did not undergo any further changes except the creation of a new taluk named Ramannapet by the transfer of 120 villages from Bhongir taluk. In the same year, some minor changes took place. During the decade 1951 to 1961, the district underwent certain territorial changes. It lost the taluk of Jangaon to Warangal district in 1953 on the eve of the formation of Khammam district and in 1958, the (uninhabited) village of Hafeezpuram was transferred from Ramannapet taluk in this district to Ibrahimpatnam of Hyderabad district. Against this loss in territory, the district gained in 1958, Madnapur village in Kalvakurthi taluk of Mahbubnagar district as well as the Munagala Pargana comprising 23 villages from Krishna district on account of its transfer to Huzurnagar taluk in 1959. The district also gained in the same year, an area of five Square Kilometres from Palnad taluk (Guntur district) which on account of its contiguity was added to Miryalguda taluk mainly for use in connection with the construction of the Nagarjunasagar project. For administrative convenience, the village of Bethavolu was transferred from Suryapet taluk to Huzurnagar in 1959. Thus, the number of taluks came round to seven, namely - (1) Nalgonda 2) Suryapet 3) Bhongir 4) Miryalguda 5) Ramannapet 6) Huzurnagar and 7) Devarkonda and the number of taluks remained same both at 1961 and 1971 Censuses.

* Statistical supplement to part II of Andhra Pradesh Gazette, Hyderabad dated 15-1-1981 · P. 85 Monthly and Annual Rainfall table for the yeat 1978

At 1981 Census, Nalgonda district comprised 15 taluks divided under three revenue divisions as shown below. The urban portion of the district consists of 10 towns.

STATEMENT SHOWING THE REVENUE DIVISIONS IN NALGONDA DISTRICT, 1981

Sl. No.	Name of Sub-division/ Revenue division	Name of Taluk	Name of Town (M)/(P)
1	2	3	4

		3 Nidamanur	3 Vijayapuri North (-)
		4 Kodad	4 Kodad (P)
		5 Nampalli	..
		6 Huzurnagar	..

The taluks in the district have undergone many jurisdictional changes between 1971 and 1981. There is increase in the number of taluks though there has been decrease in the number of villages during the decade. For the sake of convenience, the jurisdictional changes in the district during the decade have been shown in the following statement.

Note : 1 The district Geographical Area figures are as supplied by the Surveyor General, India

2 The total of the area figures of taluks, will not tally with the district area figures because the former represent land use area and are derived from the figures supplied by the 'State Survey Department'.

3 Villages shown under column 5 do not include the villages given under column 8

MAJOR CHARACTERISTICS

Forestry : Nalgonda district does not contain large or important forests. Of a total geographical area of 1,424,000 hectares, forests occupy 82,254 hectares which is about 6% of the total area of the district. Most of the forests in the district worth the name are left in two or three taluks namely Devarakonda, Miryalguda and Ramannapet. In other taluks, they are either absent or negligible. The forest vegetation of the district belongs to the dry deciduous tropical thorn forest type of the Krishna basin. The flora is generally associated with stunted growth *of Ippa, Tirman, Sandra, Abnas, Satin, Narlinga Amaltas, Tarvar, Kanugu, Tamarind* and *Seethaphal* etc. The undergrowth generally consists fodder grass The wood from the forests of the district is fit only for fuel and for agricultural implements like ploughs. Plantation area raised by forest department upto 1981 is 500 hectares for fuel and 49 hectares for Eucalyptus.

Minerals : Generally the district is poor in mineral wealth. The only deposit so far found to be of economic value is the clay (Kaolin) deposit near Chintrala. The Palnad lime stones in the southern fringe of the district are a good source for cement industry. Calcium carbonate content varies from 76% to 87% with Magnesium carbonate in traces. Investigations of Wazirabad-Medlacheruvu areas revealed the existence of almost inexhaustible quantities of cement grade limestone based on the potentiality of cement grade lime stone. There are four cement factories viz., Rasi Cement Limited, Deccan Cement Limited, Nagarjuna Cement Limited and Sagar Cement Limited. Quartz is also found in many localities. It is used for abrasive purposes and it is best because of sharp angles. Talukwise mineral resources for the year 1981–82 are as follows.

Talukwise Mineral Sources

Taluk	*Minerals*
Ramannapet, Devarakonda and Nidamanur	Quartz
Miryalaguda	Quartz, Lime Stone
Huzurnagar and Kodad	Lime Stone

Electricity : Rural electrification has been undertaken in a big way during the decade from 1971 to 1981 and it is one of the most important constituents of the infrastructure for any industrial development in the modern sense and power is more and more essential for the economic development of the villages. As on 31–12–1979, about 883 villages out of 1,115 total inhabited villages were electrified forming 79.19% of the total villages in the district. At the end of 1981, the number of services provided for different categories were as follows :

Categorywise Services

1.	Domestic	51,350
2.	Non-Domestic	9,515
3.	Industrial	3,043
4.	Agriculture	44,851
5.	Public lighting	845
6.	Public water	214
	Total	109,818

Agriculture : Nalgonda is predominantly an agricultural district. The major crops of the district are paddy, jowar, bajra, groundnut and castor. The total cultivable area is 752.882 hectares. The area having irrigation facilities is 239,620 hectares while the area under dry cultivation is 513,262 hectares. The main irrigation sources are left canal of Nagarjuna Sagar project in Miryalguda Taluk, Musi project in Suryapet Taluk and Dindi project in Devarakonda Taluk. The district stood first in the State in the coverage of area under bajra crop. The normal area under this crop during the year 1981-82 was 109.039 hectares.

Animal Husbandry : The number of veterinary institutions at 1981 comprised 10 Veterinary Hospitals, 50 livestock supervisory units, one ambulatory clinic, 154 livestock institutions, one district clinical laboratory and one liver fluke control scheme laboratory. Deputy Director being the head at the district level and is responsible for implementing all the schemes. The livestock census as per 1983 is as follows :

Cattle	937,942
Buffaloes	399,536
Sheep	544,633
Goats	339,096
Horses	1,729
Pigs	54,909
Poultry	160,284

Considering the size of the livestock, Nalgonda district stands first for cattle and goats, fourth for sheep, sixth for buffaloes, and seventh for poultry among all other districts of the state. Fodder development has gained importance in view of the fact that green fodder not only improves the milk production but also reduces the cost of maintenance. Fodders of both leguminous and non-leguminous types are being raised. Improved varieties of seeds of fodder are distributed through distribution of seeds, minikits, fodder demonstration plots and community fodder development plots. There are six milk chilling and cooling centres located at Bhongir, Alair, Suryapet, Chityal, Nalgonda and Nampalli with a daily handling capacity of 58,000 litres. There are 297 milk collection centres in the district. About 323 milch animals were supplied to weaker sections through various agencies like IRDP, DPAP self employment and SFDA.

PLACES OF INTEREST

Places of Religious, Historical or Archaeological importance: Places of religious institutions (temples) and mutts and of historical or archaeological importance in the district are presented in the following statement for the convenience of the reader.

STATEMENT SHOWING THE MONUMENTS/TEMPLES AND MUTTS IN NALGONDA DISTRICT

Sl. No.	Taluk	Name of the town/ village	Name of the Monument/ Temple/Mutt
1	2	3	4
1	Yadagirigutta	Kurraram	1. Menhir (Megalithic tombs, pre-historic burials)
			2 Sri Siva Temple and Sri Basavanna Temple (Kakatiya style)

6	Nakrekal	Nakrekal	Stone circle (pre-historic burials) cairns and Menhirs (pre-historic burials)
		Eduluru	Cairns circles (Megalithic tombs, pre-historic burials)
7	Chandoor	Rachakonda	Fort (old Hindu fort conquered and added to by Sultan Quli Qutb Shah, the first king of Golconda)
8	Nalgonda	Nalgonda	1. Fort (This fort was originally built by the Kakatiya Rajas but some portions of the fort were constructed during Golconda regime)
			2. *Old dam : Telugu and Persian inscriptions.* (Built in 1551 by Ibrahim Qutb-Shah)
			3. Cairns (pre-historic burials)
			4. Hindu Temple (Three Kakatiya temples of very superior order)
		Thipparthi	Stone circle (pre-historic burials)
9	Devarakonda	Devarakonda	Fort (old Hindu fort conquered by Quli Qutb Shah of Golconda)
		Mosangi	Buddhist and Andhra site (of 1st Century A.D.)
10	Miryalaguda	Miryalaguda	1. Fort (old Hindu Fort)
			2. Stone circles (Megalithic tombs, pre-historic burials)
			3. Cairns (Megalithic tombs, pre-historic burials)
11	Huzurnagar	Huzurnagar	1. Stone circles (Megalithic tombs, pre-historic burials)
			2. Cairns (Megalithic tombs, pre-historic burials)

Source : The Director, Archaeology and Museums, Hyderabad, Andhra Pradesh.

Places of Tourist Interest :

Alair (Yadagirigutta Taluk) : Alair town named after the river Aleru flowing nearby is situated at a distance of 22 kilometres from Bhongir. The important places of worship in this town are the temples of Sri Rama, Ranganayakaswami and Siva for the Hindus. The place is noted for a rock known as Ramula Banda and a sacred Gundam in which Hindus have a sacred dip on auspicious days. The festival of Sri Rama Navami is celebrated here for 7 days from Chaitra Suddha Navami to Purnima.

Bhongir (Bhongir Taluk) : Bhongir town is located at a distance of 51.5 kilometres from Hyderabad and is situated at the foot of a fortified rock, 609.6 metres above the sea level. The awe-inspiring rock of Bhongir and its impregnable fort and the beautifully fortified courts which have survived the vicissitudes of time excite the imagination of the visitors. The fort is associated with the rule of the heroic queen Rudramadevi and her grandson Prataparudra. This town is an important trading centre noted for its pottery. There are three temples of Siva, two temples of Anjaneya, four Mosques, a Church and a Darga of Syed Jamal Bahar. Sri Rama Navami occuring in March-April and Syed Jamal Bahar Urs in September-October are the most important religious festivals celebrated at the place and on these occasions, large number of devotees congregate. An Ashram known as Kanduri Narasimha Chari Rajayogi Guru Ashram is in existence.

Kolanpak (Yadagirigutta Taluk) : It is a place of much historical importance. The thirteen huge

pillars excavated by the State archaeological-department contained inscriptions. The main attraction of this place is the well-maintained Jain temple of Mahavira. The place is also celebrated for the temples of Viranarayana, Somesvara, Visvesvara and Hanuman, and the sculpture on these temples are remarkable. A noteworthy phenomenon of Kolanpak is that, if one stands on the tank bund which is about 1.6 kilometres from the village and calls out Dhana Malli, a plaintive voice responds to the call though there is no hillock or a rock nearby to treat the response as an echo. This place is an important pilgrim centre and the Utsavam held every year attracts a large number of devotees. Viranarayanaswamy Utsavam and Sri Rama Navami are the most important festivals, celebrated during March - April.

Yadagiripalle (Yadagirigutta Taluk) : Yadagiripalle is situated at a distance of 4.82 kilometres from the Raigir railway station on the Hyderabad-Kazipet section of the South Central Railway, 12.87 kilometres from Bhongir and 64.37 kilometres from Hyderabad. The village is connected with Hyderabad and Kazipet by a good road on which buses ply regularly. There is a hill called Yadagirigutta in the village on which the famous shrine of Sri Lakshmi Narasimhaswamy stands. The temple of Sri Lakshmi Narasimhaswamy is accessible to the pilgrims by four routes. There are wide stone steps to ascend the hill and also a motorable road to the top from down below. Sri Lakshmi Narasimhaswamy Brahmotsavam is celebrated for eleven days from Phalguna Suddha Vidiya to Dwadasi (February-March) with much grandeur and it is attended by thousands of devotees from all over the State. It is one of the most important tourist centres in the State.

Gundlapalle (Yadagirigutta Taluk): This village assumed importance owing to the construction of a dam across the river Dindi near the village. This is an ideal spot for excursions.

Mellacheruvu (Kodad Taluk) : This village has a temple of Sambhulingeswaraswamy built by the Kakatiya Kings which came to be known as Dakshina Kasi. A notable feature of the temple is that on the top of the lingam there is a hole of about two inches in circumference which is full of water in all seasons. The Kalyanotsavam of the deity is celebrated annually during Mahasivaratri and on this occasion about 10,000 Hindu devotees from various districts congregate.

Mattapalle (Huzurnagar Taluk) : Mattapalle village is situated on the bank of the river Krishna and considered to be very sacred. The temple which is known as Lakshmi Narasimha Kshetram is an ancient cave temple and the atmosphere here is extremely serene and rich in nature. The annual festival of the deity celebrated during April - May draws a congregation of about four to five thousand Hindus.

Nandikonda (Nidamanur Taluk) : This is a small village on the bank of the Krishna, about 64.37 kilometres from Miryalaguda. This place became prominent owing to the construction of the Nagarjunasagar Project across the river Krishna. The nearest railhead to Nagarjunasagar is Macherla about 29 kms. away. There is regular bus service from Macherla to Nagarjunasagar. Apart from this, regular bus service is available from Hyderabad, Vijayawada, Guntur and other important towns of the State. The world famous Nagarjunakonda, where Buddhist remains were excavated, is about 8.05 kilometres from here. The most important structure discovered was the Ikshvaku citadel with its grand fortification wall, ditch, gates to army barracks inside and a great rectangular stadium. This place was mentioned as Vijayapuri in an inscription engraved on one of the pillars in the Buddhist structures. Several Buddhist structures like monasteries and Pillared halls were unearthed here and some of the finds are preserved in a museum of the Central Archaeological Department.

Vadapalle (Miryalaguda Taluk) : The fort at this place is known for its architectural beauty. It gives the viewer a glimpse of the glorious historical past. This fort was built by the famous Kakatiya King Prataparudra. The two renowned temples at the place are those of Sri Narasimhaswamy and Agastheswaraswamy. There are three *dipams* before the idol of Narasimhaswamy and the middle one which is directly below the nose of the deity twinkles, while the other two remain steady. The carving of the deity is so skillful that the visitors get an impression that the twinkling is due to the respiration of the Lord. The significance of the temple of Sri Agastheswaraswamy is that there is a crevice on the top of the Sivalingam and it is always filled with water. Even if some of the water is removed, the level reaches again within no time. On account of these factors, the place has attained religious importance and is now one of the important pilgrim centres in the district.

Vijayapuri North (Nidamanur Taluk) : This town gained importance due to the construction of

the Nagarjunasagar dam across the river Krishna and lies on the northern side of the river and is known as vijayapuri North. The site of the project is a tourist spot and attracts a large number of visitors from all over. There are beautiful air-conditioned rest-houses providing boarding and lodging facilities to the visitors.

Nalgonda (Nalgonda Taluk) : It is located at a distance of 103 kilometres from Hyderabad City and about 79 kilometres from the Bhongir railway station There are many worth seeing monuments like forts and temples which have survived the ravages of the time and human vandalism, proclaiming the glorious past of the place. An item of archeological interest at the town is the monolithic pillar of the Kakatiya period (13th Century), nearly 13 metres high erected on a plotform. The places of worship in this town are two Siva temples, a Rama temple, eight Mosques and two Churches. The most important religious festivals celebrated at Nalgonda are Sivaratri during February-March, Sri Rama Navami during March-April and the Urs of Lateef Shah Vali Alla Khadri during August-September.

At a distance of 2.4 kilometres from Nalgonda, there is a place called Panugal which is historically important. The Kakatiyas constructed here many temples which are renowned for their architectural beauty, of these, the shrines of Pachchala Someswaraswamy, Chhaya Someswaraswamy and Chennakesavaswamy are the most important. Sivaratri, celebrated here every year, attracts thousands of Hindu devotees. Making of brass vessels is an important industry in this place.

Rachakonda (Chandoor Taluk) : This place situated amidst hill ranges, is 64 kilometres from Nalgonda and is of great archaeological interest. There are five temples at the place which depict the beauty of the Kakatiya art and architecture. Of them, the shrine of Sri Rama is the most important The base of the hillock on the left side is called Pattabhigutta. Near Pattabhigutta, there is a small cave with a tunnel at a height of over 16 metres on the right hand side, through which five images of Sri Rama Pattabhishekam and Dasavatharas sculptured on a rock can be seen. Sri Rama Navami and the Urs near Galib Shahid Darga are the most important festivals celebrated here.

Mothkur (Mothkur Taluk) : This village has a temple of Ramalingaswamy constructed during the reign of the Kakatiyas of Warangal. An interesting feature is that the sculpture in the temple resembles that of the gateways of Warangal fort. Sri Ramalingaswamy Utsavam, celebrated for 12 days during March-April, attracts a large number of devotees.

Pillalamarri (Suryapet Taluk) : This is an ancient village of much historical importance. There are beautiful ancient temples which are preserved and maintained by the State Government and these are fine specimens of Hindu religious architecture. There are also paintings and inscriptions in the old Kakatiya temples with exquisitely carved stone pillars. Ancient coins were also discovered at this place. Pillalamarri is the birth place of the famous Telugu poet Pillalamarri Pina Veerabhadrudu. Lord Chennakesavaswamy Utsavam, celebrated during February-March is attended by a large number of Hindu devotees.

CENSUS CONCEPTS

Rural and Urban areas : It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i. e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 persons while Provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census Operations, however was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census.

i) A minimum population of 5,000,

ii) Atleast 75% of the male working population is in non-agricultural pursuits,

iii) A density of population of atleast 400 persons per sq. km.

The urban criteria of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural activities and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below :

Classification of towns	Population size
Class I	100,000 and above
Class II	50,000 – 99,999
Class III	20,000 – 49,999
Class IV	10,000 – 19,999
Class V	5,000 – 9,999
Class VI	below 5,000

The class I towns are termed as cities.

Standard Urban Areas : Besides classification of all places into rural and urban areas, two more concepts viz., Urban Agglomeration and Standard Urban Area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and the same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of a standard urban areas are – (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaced the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessarily contiguous to one another but were to some extent inter-dependent. The data for such town groups become incomparable from census to census as the boundries are towns themselves changed and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971 Census. In Andhra Pradesh, 31 units have been selected

for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripherial units.

Urban Agglomeration : Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An Urban Agglomeration constitutes

a) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages) :

b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a) :

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz , Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House : A census house is a building or part of a building having a separate main entrance from the road or common court-yard or stair case etc., used or recognised as a separate unit. It may be inhabited or vacant.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hostels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes/Scheduled Tribes : Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, Scheduled Castes and Scheduled Tribes lists, Amendment Act, 1976, notified under the Government of India, Ministry of Home Affairs, Notification No. BC 12016/34/76-SCT-V dated 27-7-1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates : A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker: The definition of work adopted in 1981 Census is as follows :

> "Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work".

In the concept of work a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired according as he spent his time basically as a 'worker', engaged in production of goods and services or as a non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work such as agriculture, etc., the last one year. Persons engaged atleast for a day in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person who was basically a non-worker such as a student, or 'housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have a detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-Workers : All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven categories :

1. Household duties i.e., all those persons basically engaged in unpaid home duties doing no other work ;
2. Students i.e., all full-time students or children attending school ;
3. Retired persons or a rentier i.e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work :
4. Dependent i.e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either, but are purely dependent.
5. Beggars, etc., i.e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work ;
6. Institutional inmates i.e., a convict in a jail or an inmate of penal, mental or charitable institution; and
7. Other non-workers - all non-workers who may not come under any of the above six categories.

Marginal Workers : A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz., the District Gazetteers consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of volume B was also stopped after 1931 Census. Due to the world war II, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Ongole have been published.

The Village Statements: Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

District Census Handbooks : Sri R. A. Gopala Swamy, I. C. S., the then Registrar General, India and Ex-officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the earlier censuses. This suggestion was accepted by most of the State Governments Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts. Part I containing the administrative statistics and Part II the census tables whereas in composite Madras State, the Handbooks were brought out in one single volume for each disirict.

Pattern of District Census Handbooks at 1961 : At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I. C. S., the then Registrar General, India. District Census Handbooks of 1961 of the Andhra Pradesh included four parts The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteers of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz., General population tables, economic tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of village and town directory which was the most vital part

of the Handbook, giving the villagewise and townwise primary census abstract i. e,. particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine such tables containing villagewise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census : At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons — 1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., Part A, Part B and Part C as shown below.

Part - A : Village and Town Directory
Part - B : Village and Town Primary Census Abstract
Part - C : Administrative Statistics and Report.

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However the printing of Part C was given up.

Pattern at 1981 Census : At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in a single volume, the grouping of which would enhance the value of publication as the data given therein are closely interrelated.

Part - A : Analytical note
Part - B : Village and Town Directory, Village and Townwise Primary Census Abstract.

It has been decided not to go in for administrative statistics that is Part - C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics, would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and seven statements on town directory are on the same pattern canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory : As was done in the past, the village directory has been prepared for all the villages in the State and these are presented talukwise in the District Census Handbook (D.C.H.) For convenience of references, an alphabetical list of villages together with location code numbers in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Cols. 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of the forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or under water, etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests (Col. 15) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and unirrigated (Cols. 16 & 17) This includes the land under the following three categories.

(i) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) Other fallows :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming, etc.

(iii) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. Culturable Waste: (Column 18) This includes the land under the following three categories.

(i) Permanent pastures and other grazing lands :

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) Miscellaneous tree crops, groves not included in the area sown :

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation. (Col. 19) : This includes the land under the following two categories.

(i) Land put to non-agricultural uses:

All lands occupied by buildings, roads and railways or underwaters, e.g., rivers and canals and other lands put to uses other than agricultural.

(ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e., which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest, and for information on the number of copies of newspapers, circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village.

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned.

In the Appendix to the village directory taluk level totals of the amenities have been furnished which gives the picture of the district as a whole. At the 1981 Census, additional items viz., total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communication has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back ground that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory : There are seven statements in the Town Directory which include several particulars pertaining to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted at 1971 Census except a few additional columns. The titles of the statements are as follows:

Statement	I :	Status and growth history
Statement	II :	Physical aspects and location of towns, 1979
Statement	III :	Municipal finance 1978-79
Statement	IV :	Civic and other amenities, 1979
Statement IV A :		Civic and other amenities in notified slums, 1979
Statement	V :	Medical, Educational, recreational and cultural facilities, 1979
Statement	VI :	Trade, Commerce, Industry and banking, 1979

With a view to facilitate analysis of data, a few new columns have been introduced The columns – class of town, in every statement is a significant addition. By taking the class of town into consideration the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of civic administrative status in statement III and IV and population in statement IV and V also serve the same purpose. The formats of the town directory have been devised to suit the Minimum Needs Programme of the Planning Commission. As a sequel to this programme the columns, Scheduled Castes and Scheduled Tribes population in statement IV and Aoult Literacy Classes/Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in Statement IV, the Educational Facility in Statement V is not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same state or other state where available along with its distance from the referrent town has been given. This is a new feature of 1981 Census at it is necessary to identify the areas that have no specific facility in the district.

Statement VII i. e., population by Religion and Scheduled Castes/Scheduled Tribes in towns of 1971 Census was discontinued at the 1981 Census and a new statement IV-A has been introduced to explore the possibility of civic and other amenities available in notified slums in Class I and II towns only.

The following ten places form part of urban in Nalgonda district at the 1981 Census.

1. Bhongir
2. Chandoor
3. Devarakonda
4. Kodad
5. Miryalaguda
6. Nalgonda
7. Ramannapet
8. Suryapet
9. Vijayapuri North
10. Yadagirigutta

Of these Bhongir. Nalgonda and Suryapet are municipalities. All others except Vijayapuri North are panchayat towns. The civic status of Vijayapuri North is not yet determined.

Of these ten towns Chandoor, Devarakonda, Ramannapet and Yadagirigutta, were classified as towns for the first time in the 1981 Census in consideration of the distinct urban features. Bhongir and Nalgonda are treated as towns as early as 1901 Census. Miryalaguda and Suryapet were class fied as towns from 1941 and Vijayapuri North was classified as town from 1961 Census, while Kodad was classified as town from 1971 Census.

None of the towns in this district has been treated either as an Urban Agglomeration or Standard Urban Area.

There are no class I towns in Nalgonda district. Nalgonda the district headquarters, is the most populous town in the district with the population of 62,458 falls under the category of Class II. The Class III towns are Miryalaguda, Suryapet, Bhongir and Kodad arranged in the order of composition with a population ranging between 20,000 and 49,999. Devarakonda and Vijayapuri North are the two Class IV towns with a population ranging between 10,000 and 19,999. While Chandoor, Ramannapet and Yadagirigutta having a population of 5,000 to 9,999 are class V towns. The urban population of the district is 259,517 out of the total population of 2,275,685 persons thus constituting an urban population of 11.38% for Nalgonda district as against 6.7% at 1971. The increase in proportion of urban is partly due to the addition of four new census towns at 1981.

Statement I : Status and growth history

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 census and sex ratio for three decades from 1961 to 1981 census of each town in columns 2 to 19.

In this as well as in all other Town Directory statements, columns 1 & 2 relate to serial number and class, name and civic administrative status of the towns, class of the town has been introduced to facilitate analysis of Town Directory data at the state and all India levels. This is presented according to 1981 population of the core town as per the population size classification.

Population	Class
100,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9 999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like 'M' for Municipality, 'P' for Panchayat. The location code number under column 3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at State and all India level. Area in sq. kms. and number of households including houseless households for each town is included in the Town Directory for the first time at 1981 Census. The population of the town with decadal growth rate from 1901 Census to 1981 is given in columns 7 to 15. The percentage growth rate is indicated in brackets below the population. Density for 1981 is a new column (Col. 16) introduced to facilitate analysis of Town Directory data. It has been calculated taking into account the area and the population of 1981 Census of the town and presented per sq. kms. Sex-ratio from 1961 to 1981 Censuses has been given in columns 17 to 19. This is also a new addition to facilitate analysis of Town Directory data. Sex-ratio defined here is number of females per 1,000 males.

Bhongir showed a significant fall in its population in the decade 1911–21 due to the wide spread epidemic influenza at that time throughout the Telangana area. This town had again shown a fall in its population in 1961. After the completion of construction work on Nagarjunasagar Project at Vijayapuri North town, a large section of people

engaged in the project construction had left the place. Further the main Vijayapuri Town was bifurcated and a portion of it was named as Vijayapuri South was transferred to Guntur District during the decade 1961-71. Due to these facts, there is depletion of its population at the 1971 Census. The variation in population between 1971 and 1981 seems to be more conspicuously high in Nalgonda, Miryalaguda, Suryapet, and Kodad towns compared to the other towns.

Of the ten towns in the district, Kodad is the only town having an area of 41.44 sq. kms. Next to it comes Devarakonda with an area of 26.26 sq. kms. The third important town so far as area is concerned is Suryapet with an area of 23.65 sq.kms.

Miryalaguda with an area of 1.47 sq. kms. records the highest density of 30,020 persons per sq km. as against the district average density of 160 persons per sq. km. Nalgonda, the district head quarters town has recorded a density of 4891 persons per sq. km.

Statement II : Physical aspects and location of towns, 1979.

This statement has 12 columns and depicts physical aspects and location of towns in the district. Under columns 3 to 5 in the statement data relating to rainfall and maximum and minimum temperature recorded in 1971 Census and also in Statistical Supplement to Part II of the Andhra Pradesh Gazette dated 15th January, 1981 were given. If this information was not available for any town then the particulars available for the nearest town have been given against such towns. The district is ill-served so far as the railways are concerned. Out of ten towns in the district, Bhongir and Nalgonda are only the two towns directly connected by rail. A part of the district is served by the South Central Railway with its Secunderabad and Kazipet broad gauge line passing through Bhongir Town.

All the towns in the district have bus communication facility and A.P.S.R T.C. has been providing necessary transport facilities to all the towns in the district. This is due to availability of bus service even during the period of the Nizam's regime when the road transport was nationalised.

Statement III : Municipal Finance, 1978-79

This data for inclusion in this statement was obtained from the respective statutory and non-statutory bodies from their budgets and accounts.

The table shows that out of ten towns in the district three towns i.e., Bhongir, Kodad and Ramannapet have an excess of expenditure over income. In Ramannapet and Yadagirigutta towns, more than 40% of their total receipts is utilised for purposes of public health and conveniences. For public institutions like schools and libraries, except three towns, i.e,, Chandoor, Devarakonda and Yadagirigutta the rest have not spent anything from their incomes. Vijayapuri North has no civic administration of its own hence the particulars are not furnished.

Statement IV : Civic and other amenities, 1979

The title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

The most striking feature in all the towns has been conspicuous absence of underground drainage system. The sewerage system available is the open surface drains in all the towns of the district except Vijayapuri North which has only sewerage system. In addition to the open surface drains, Kodad has sewerage system also. Out of ten towns, eight towns have protected water supply through taps and the remaining towns have this supply through tubewells. All the ten towns have electric supply for domestic as well as industrial purposes. Yadagirigutta has no industrial connections.

Power consumptions for domestic service in A. P. includes supply of energy for lighting fans and domestic purposes in residential premises and supply in poultry farming units upto 100 birds. Industrial Service means supply for purposes of manufacturing, processing and/or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government Departments or co-operative house building societies and pumpsets of railways for whatever purpose they may be used. Commercial service includes the supply of energy for ligts, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, thorough-fares including parks, markets, cart stands, bridges and for traffic signalling. Supply of energy to places of worship like churches, temples, mosques, Gurudwaras, educational institutions, student hostels, municipal guest houses, T. B's, circuit houses of the Government, charitable institutions and recognised service/ institutions are included in 'Others'.

Suryapet has the highest number of industrial connections followed by Nalgonda, the district headquarters. Vijayapuri North town has the largest number of Road lighting points and the next largest is Nalgonda Town.

Statement IV A : Civic and other amenities in notified slums, 1979.

This is a new statement on civic and other amenities provided to the people living in notified or recognised slums in class I and class II towns. Since the magnitude of slum is greater in respect of classes I and II towns, presentation of data on slums is limited to classes I and II towns only. The class I towns do not figure in Nalgonda district. Nalgonda is the only class II town in the district.

Statement V : Medical, Educational, Recreational and Cultural facilities in towns, 1979.

In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district. All the towns in the district have hospitals. There are 72 medical institutions which include Government Hospitals, Dispensaries, Nursing Homes, Family Planning Centres, Health Centre, Leprosy Control Unit, Maternity and Child Welfare Centre and T. B. Clinic together with a total bed strength of 822 catering to the medical needs of a total urban population 259,517 persons. Institutions covering all systems of medicine have been included in the statement.

Nalgonda, Miryalaguda, Vijayapuri North and Bhongir towns possess medical facilities with 187, 175, 130 and 100 beds respectively and this is comparatively better than the other towns of the district. There are 151 persons per bed in Vijayapuri North, 252 persons in Miryalguda and 256 persons in Kodad.

There are only 4 Degree Colleges one each at Bhongir, Kodad, Nalgonda and Suryapet. There are 9 Junior Colleges Higher or Secondary Schools, 31 Secondary or High Schools, 49 Junior Secondary or Upper Primary Schools and 95 Primary Schools in all the towns put together in the district.

A different method has been adopted in presenting the number of educational institutions. Composite schools like middle schools with primary classes or secondary schools with middle classes, have been included in the number of primary and middle schools respectively. For example, if in a town there are two primary schools upto say Class IV and one high school from Class I to X, the number of primary schools in the town is given as 3 and that of middle school as one and secondary school as one even though there are physically only three educational institutions. Again a composite school having classes upto Class XII has been divided as shown below :

Class I to IV : Primary
Class V to VIII : Middle
Class IX to X : Secondary
Class XI to XII : Higher Secondary

Thus the number of educational institutions physically existing within a town have not been presented but has been presented by the grouping of the classes in the institutions and treating each group as a school of its kind.

This grouping holds true irrespective of educational institutions they belong to. For instance, the grouping marked as Higher Secondary i.e., Class XI and XII may physically belong to a college but for the purpose of Town Directory these two classes put together constitute one unit of a Higher Secondary School and the rest of the college has been treated as college.

There is no stadium in Nalgonda district. Regarding recreational and cultural aspects, there are 28 cinema halls and 23 public libraries including reading rooms in all the towns of the district. Besides this, there are 4 community halls in the district, one each at Devarakonda, Miryalaguda and two at Vijayapuri North.

Statement VI : Trade, Commerce, Industry and Banking, 1979.

Nalgonda district like the other districts in the state is mainly an agricultural tract and the majority of its population live on agriculture and allied persuits. The important rivers that flow in this district are Krishna, Musi, Aler, Peddavagu and Dindi. The Nagarjuna Sagar Project is constructed across the river Krishna near the village Nandikonda. Musi Project across Musi river and Dindi Project across Dindi are some of the other important irrigation projects in the district. Besides this, the river canals, tanks, ponds and wells are the other irrigation sources available. The important crops of the district are Bajra, Jowar, Groundnut and Paddy among the food crops and oil seeds, pulses and cotton among the commercial crops.

Nalgonda district is a backward district in Andhra Pradesh. There are no large scale industries in this district and the industrial sector in this district is mostly dominated by village and small industries. Among the small scale industries, the Engineering Work Shops, Saw Mills, Printing Presses, Washing Soap, Polethylene tubes, plastic products, card board, Aluminium utensils etc., are important. Rice and oil seeds are the important crops of the district and a good number of rice mills and oil mills are spread over the district.

The units of manufacturing cement products and ink and tanneries at Nalgonda are also important. Most of these are concentrated at Nalgonda, Suryapet, Bhongir and Miryalaguda.

Among the medium scale industries, Vasaspathi factory under the name of M/s. Coromandel (P) Ltd., is coming up on the proposed industrial development area at Nagarjuna Sagar. This district is also noted for cottage industries. Manufacturing of brass utensils and weaving of handloom fabrics are the traditional occupations in the district The Chitki sarees of Pochampalle of the district have wide reputation in the State and outside also. An industrial estate is also provided at Suryapet to promote industrial activities of the region.

Banks play an important role in the industry, trade and commerce particularly in mobilising the savings of the community and making them available for investment for productive activities.

The district is served by a net work of 37 banks of which 8 are situated in Nalgonda, 6 each at Miryalaguda and Suryapet, 4 each in Bhongir, Devarakonda and Kodad, 2 in Ramannapet, 1 each in Chandoor, Vijayapuri North and Yadagirigutta.

Seven agricultural societies and 149 non-agricultural credit societies are serving the total urban population of the district.

Primary Census Abstract :

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village / ward levels in rural / urban areas respectively. Till the 1971 Census the Primary Census Abstract and some other tables were generated by breaking the Individual Slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the Individual Slips. The data on Primary Census Abstract were obtained by compilation of data available in Part-II of the Household Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/locality/block of a town in urban areas.

1. Location Code number and name of village/town and area.
2. Total number of occupied residential houses and total number of households.
3. Total population and its sex breakup.
4. Population of Scheduled Castes and Scheduled Tribes by sex break-up.
5. Literate persons by sex.
6. Total main workers (I to IX categories) and the breakup of the workers into four broad categories, viz.,

Category I	:	Cultivators
Category II	:	Agricultural Labourers
Category V (a)	:	Household Industry
Category III, IV, V (b) & VI to IX	:	Other workers and also the marginal workers and non-workers by sex.

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year. Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in the Primary Census Abstract, villages and towns have been arranged in the ascending order of their L. C. Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L. C. Numbers is given at the beginning of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract are required

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 irrespective of whether they lived in normal residential houses or huts or in institutions like hospitals, hostels, asylums, boarding houses, hotels, etc. or houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract

As per the 1981 Census count the population of Nalgonda district is as follows :

	Persons	Males	Females
Total	2,279,685	1,157,738	1,121,947
Rural	2,020,168	1,021,421	998,747
Urban	259,517	136,317	123,200

Cols. No. 1 & 2 : Indicate L. C. No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Srikakulam district and ending with Nalgonda district. In this process Nalgonda district was allotted L. C. No. 23. Likewise the taluks in each district were given numbers serially in a clockwise order and the villages in each taluk were assigned serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L. C. Nos of villages were given in Arabic numerals while those of towns were given in Roman numerals.

Col. 3 : This column shows the area of villages in hectares while the area of town is given in sq. kms. based on the information furnished by the respective State agencies. Where the area of a particular village/town was not available, the fact was noted as N. A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P. C. A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly, the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The area figures of the districts in the State are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a district put together may not tally with the district area figures.

Col. 4 : Number of occupied residential houses in a village/town includes partly residential houses also.

Col. 5 : This column includes houseless households and institutional households as well.

Cols. 6 to 8 : Total population includes houseless and institutional population with sex breakup.

Cols. 9 to 12 : Under these columns the population of S. Cs. and S. Ts. by sex is given. A copy of the list of S. Cs. and S. Ts. in Andhra Pradesh as notified in Presidential Order No. BC 12016/34/76-SCT V dated 27-7-1977 is given below :

List of Scheduled Castes in Andhra Pradesh

1 Adi Andhra

24 Pardhan
25 Porja, Parangiperja
26 Reddi Dhoras
27 Rona, Rena
28 Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29 Sugalis, Lambadis
30 Thoti (in Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31 Valmiki (in the Agency tracts)
32 Yenadis
33 Yerukulas

Cols. 13 & 14 : Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Cols. 15 to 28 : At the 1981 Census, population has been broadly divided into three sections based on main activity viz., workers, marginal workers and non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under the item Analytical Note.

Work : Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more. in other words worked for 6 months or more are classified under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator : For purposes of census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer : A person who works in another persons land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry : Household industry is defined as an industry conducted by the head of the household himself/herself and are by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers : All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce,business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 446,219 occupied residential houses and 456.118 households in Nalgonda district compared to 342,256 residential houses and 367,554 households in 1971 registering an increase of 30.38% in number of residential houses and 24.10% in number of households.

The total number of persons returned at the 1981 Census in Nalgonda district is 2.279,685 as against 1 819,738 in 1971 census, thus recording an increase of 25.28% as against the State growth rate of 23.10%. The proportions of rural and urban population to the total population in the district works out to 88.62% and 11.38% respectively in 1981 Census compared to 93.3% and 6.7% in 1971. There are 969 females per every 1,000 males at the 1981 Census when compared with State index of 975 females per 1000 males. The ratio of 965 females per every 1.000 males was recorded at 1971 Census.

Nalgonda district returned 511,542 literates at 1981 Census forming 22.44% of the total population of the district compared with 310,343 literates constituting 17.05% at 1971 Census. The sex break-up of literacy rates during 1981 Census are 31.59% among males and 13.00% among females. Rural-urban break up of literacy rates indicate 18.80% of population are literates in rural, while this is 50.79% in urban population. The corresponding rural and urban rates of literacy at 1971 are 15.00% and 45.69% respectively.

In Nalgonda district there are 1,012,044 workers constituting 44.39% of the total population as against 813,900 workers forming 44.73% in 1971 Census. Among males the workers constituted 58 58% while among females only 29 76% are workers.

BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA

There are 1,147 villages in the district at the 1981 Census as against 1,165 at 1971. Reasons for variation are Eleven villages are submerged under Nagarjunasagar Dam after 1971 census and 7 villages are reported as fully included in various Towns. 4 villages are treated as towns during the decade. Out of the 1,147 villages, 1,115 are inhabited while 32 villages are uninhabited. 5 inhabited villages are reported as partly included in different towns of the district. The balance of 11 villages which are fully included in urban areas are not taken into account in computing the total number of villages in the district. The following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

Nalgonda taluk has more urban population than other taluks, while Chandoor taluk has the least urban population as per 1981 Census. 5 taluks are returned as wholly rural taluks.

Table 1

POPULATION, NUMBER OF VILLAGES AND TOWNS, 1981

* Treated as Census town in 1981 Census

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 500–1,999 population and form 55.42% of total villages in this district.

Table 3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3
- 199	38	3.41
200 - 499	99	8.88
500 - 1,999	618	55.42
2,000 - 4,999	310	27.80
5,000 - 9,999	46	4.13
10,000 +	4	0.36
Total	**1,115**	**100.00**

Table 4 presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per sq. km. of each village have been worked out by using the area figures corrected upto two places of decimal The highest proportion of villages is observed in the density range of 101–200. More than 75% of villages come under density group 100 and above. This district has returned the density of 160 persons per square kilometre as against 195 persons for the State.

Table 4

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
- 10	6	0.54
11 - 20	12	1.08
21 - 50	45	4.04
51 - 100	168	15.07
101 - 200	635	56.95
201 - 300	176	15.78
301 - 500	55	4.93
501 +	18	1.61
Total	**1,115**	**100.00**

According to 1981 Census the population of Scheduled Castes in Nalgonda district is 372,413 accounting for 16.34% of the total population of the district. Scheduled Caste population in this district forms 4.68% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range 62.33% of the villages have Scheduled Caste population in a percentage range 16 and above. Only 2.87% of villages are without Scheduled Caste population.

Table 5

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
Nil	32	2.87
5 or less	44	3.95

51 and above	70	6.28
Total	**1,115**	**100.00**

Table 7 provides the total population, Scheduled Caste and Scheduled Tribe population and the percentage of Scheduled Caste and Scheduled Tribe population to total population of the towns in the district.

The total Scheduled Castes population in all the urban areas of the district at 1981 Census was 27,382 persons representing 10.55% of the total urban population. Among the towns, proportions of Scheduled Castes population varies from 3.49% in Chandoor Panchayat to 12.45% in Bhongir Municipality.

The Scheduled Tribes population in all the urban areas of the district according to 1981 Census is 6.355 persons constituting 2.45% of the total urban population. The proportions of Scheduled Tribes population vary from 0.10% in Yadagirigutta Panchayat to 6.04% in Kodad Panchayat.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

Name of the Town	Total Population	Total Scheduled Caste Population	Total Scheduled Tribe Population	Percentage of Scheduled Caste Population to total population	Percentage of Scheduled Tribe Population to total Population
1	2	3	4	5	6

The following table 8 gives the literacy rates by population ranges of villages in the district. Nalgonda district occupies 15th rank in literacy amongst the districts in Andhra Pradesh State. The proportion of literates of this district constitutes 3.19% of the total Andhra Pradesh literates.

Highest literacy rate of 31.80% is found in villages with 10,000+ population.

Table 8

LITERACY RATES BY POPULATION

RANGES OF VILLAGES

Range of Population	No. of villages in each range	Literacy rate
1	2	3
- 199	38	9.88
200 - 499	99	13.12
500 - 1,999	618	16.65
2,000 - 4,999	310	18.82
5,000 - 9,999	46	22.22
10,000 +	4	31.80
Total	**1,115**	**18.75**

The table 9 shows the literacy rate for the towns in the district as per 1981 Census.

The literates in all the 10 urban areas in the district together constitute 131,797 forming 50.79% of the urban population. Among the towns, the literacy rate varies from 30.72% in Yadagirigutta town to 57.83% in Nalgonda town. Being the district headquarters and the location of several district administrative offices and educational institutions, Nalgonda town tops in proportions of literates.

Table 9

LITERACY RATES FOR TOWNS

Name of the Town	Literacy rate
1	2
Bhongir	50.42
Chandoor	34.11
Devarakonda	57.01
Kodad	39.16
Miryalaguda	45.19
Nalgonda	57.83
Ramannapet	45.48
Suryapet	53.67
Vijayapuri North	56.84
Yadagirigutta	30.72
All Towns	**50.79**

Table 10 presents the proportions of literates, workers, non-workers, Scheduled Castes/Scheduled Tribes population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is a highest concentration of Scheduled Castes and Scheduled Tribes population in the rural areas than in the urban areas. Nalgonda district has returned 22.44% of the total population of the district as literates. Nalgonda taluk has returned 32.56% of literates and this is the highest in the district Suryapet taluk has returned the largest number of workers 93,835 in its rural areas accounting for 8.96% of the total rural workers of the district and 53.51% of the total rural population of the taluk. Thungathurthi taluk stands first among the taluks in the district in the proportion of workers to total population. Nampalli taluk has returned 18.52% of Scheduled Caste population while the least is in Miryalaguda taluk with 13.89%. In rural areas of taluks, Suryapet and Bhongir taluks have occupied first and last places with 18.52% and 14.77% respectively. The percentage of Scheduled Caste population in urban areas ranges between 12.45% to 3.49% among the taluks. Devarakonda taluk has recorded highest proportion of Scheduled Tribe population with 23.40% while Nalgonda taluk has the least proportion of Scheduled Tribe population with only 0.72%.

Distribution of villages according to the availability of different amenities by taluks is presented in this table. As seen from the table, drinking water facilities are available in all the villages, while amenities of education, power supply, P & T, Medical, approach by pucca road and communications are available in respect of 96.14%, 79.19%, 59.64%, 52.83% 48.07% and 46.82% of villages respectively. Market facilities are inadequate and only a meagre proportion of 2.87% of villages have market facilities.

The table clearly sets out the taluk-wise position of various amenities.

Table 11

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Sl.No.	Name of Taluk	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking Water	Post & Telegraph	Market	Communications	Approach by Pucca Road	Power Supply

Table No. 12 gives the proportion of rural population served by the different amenities and also provides this information taluk-wise.

7.37 per cent of population has only market facilities. More than 60% of the population has power supply. P & T. approach by pucca road. medical and communication, while almost 100% of the population has access to education and drinking water.

Table 12

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

The following table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There is no village in this district which does not have drinking water facility. Only 43 villages do not have education facility within the village, but these are available at different distance ranges. Large number of villages do not have market, medical, communication and P & T facilities within the village, but are available at different distance ranges.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms.	5-10 kms.	10+ kms.	Total (Cols.2-4)
1	2	3	4	5
1. Education	31	7	5	43
2. Medical	166	174	186	526
3. P & T	248	137	65	450
4. Market	169	278	636	1,083
5. Communication	242	235	116	593

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities. 3.86% of the villages have town within the range of 0-5 kms. About 24.40 per cent of the villages have towns within a range of 6-15 kms., while the balance have nearest town located within 16-50 kms. and 51+kms. forming 70.31% and 1.43% respectively. As given in other tables on amenities, market facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in Kms.)	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market	Communication	Approach by Pucca Road	Power Supply
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
0-5	43 (3.86)	42 (97.67)	20 (46.51)	43 (100.00)	23 (53.49)	..	25 (58.14)	24 (55.81)	37 (86.05)

Total	**1,115**	**1,072 (96.14)**	**589 (52.83)**	**1,115 (100.00)**	**665 (59.64)**	**32 (2.87)**	**522 (46.82)**	**536 (48.07)**	**883 (79.19)**

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500-1,999, 2,000-4,999 and 5,000+are considered and the villages are distributed in these ranges. About 55.43% of the villages are in the range of 500-1,999, while the villages less than 500 and those in the range of 2,000-4,999 form 12.29% and 27.80% respectively. Only 4.48% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages falling in these ranges are also on the increase. As has been observed earlier, only the market facilities are not adequate in the villages falling in the ranges other than 5,000+.

Table 15

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

The staple food in majority of the villages in each taluk is given in this table.

Rice and jowar are the two staple foods in the villages in Nalgonda district.

Table 16

MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH TALUK

Sl.No.	Name of Taluk	Main Staple Food
(1)	(2)	(3)
1	Yadagirigutta	Rice, Jowar
2	Bhongir	Rice, Jowar
3	Ramannapet	Rice, Jowar
4	Mothkur	Rice, Jowar

10	Nampalli	Rice, Jowar
11	Devarakonda	Rice, Jowar
12	Nidamanur	Rice, Jowar
13	Miryalaguda	Rice, Jowar
14	Huzurnagar	Rice, Jowar
15	Kodad	Rice, Jowar

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 64.98% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 2,198,133 hectares 495,660 hectares forming 14.65% is only tenable. Thungathurthi taluk has the largest percentage of cultivable area of 82.56% while the irrigated area is only about 12.90% of cultivable area. Nidamanur taluk has the least proportion of cultivable area of 38.74%. Among the taluks in the district Huzurnagar taluk has the highest percentage of irrigated area 39.72% to total cultivable area of the taluk.

Table 17

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

1981	53,549,673	12,487,576	23.32	48.62	3,157	948

The following table 19 indicates the towns added/declassified at the 1981 Census with their population.

Chandoor, Devarakonda, Ramannapet and Yadagirigutta are the four towns newly added to the list of 1971 Census. There is no declassification of town at the 1981 Census in this district.

Table 19

NEW TOWNS/TOWNS DECLASSIFIED IN 1981 CENSUS

Name of Town	Population 1981 Census
(1)	(2)
a) Added	
(i) Chandoor	6,358
(ii) Devarakonda	16,838
(iii) Ramannapet	8,021
(iv) Yadagirigutta	7,217
b) Declassified	
Nil	..

This table 20 deals with the finances indicating the receipt and expenditure in towns in the district as on 1979.

Of the 10 urban areas in the district, the highest per capita receipt is noticed in Suryapet Municipality (Rs. 29.24) followed by Miryalaguda Panchayat (Rs. 24.78) and Bhongir Municipality takes the third rank (Rs. 24.27). The lowest per capita receipt is recorded in Ramannapet Panchayat (Rs. 11.42). Receipts through taxes is highest in Bhongir Municipality (Rs. 17.12) while this is lowest in Miryalaguda Panchayat (Rs. 3.53). From all other sources together, the highest per capita receipt is seen in Miryalaguda Panchayat (Rs. 21.25) followed by Suryapet Municipality (Rs. 17.64) and Kodad Panchayat (Rs. 14.73), while the lowest per capita receipt is recorded by Chandoor Panchayat (Rs. 5.99). Vijayapuri North has got no local body.

Suryapet Municipality stands first among the urban areas of the district with its per capita expenditure of Rs. 28.01 followed by Bhongir Municipality (Rs. 24.90) and Kodad Panchayat (Rs. 22.44). Chandoor Panchayat ranks last in per capita expenditure of Rs. 10.32. The per capita expenditure of Rs 8.26 on public health and conveniences in Yadagirigutta is the highest among the towns while Chandoor has the minimum of Rs. 0.85. The highest per capita expenditure of Rs. 0.77 on public institutions like schools and libraries is recorded by Chandoor Panchayat. No expenditure is incurred by Bhongir, Kodad, Miryalaguda, Nalgonda, Ramannapet and Suryapet towns for this purpose.

All the civic bodies are functioning on sound lines with surplus budget except Bhongir, Kodad and Ramannapet towns which are running with deficit budget. Devarakonda, Miryalaguda and Nalgonda towns are having considerably more per capita expenditure.

Table 20

V Yadagirigutta (P)	..	1·39	1·39	2.77
Total	**0.35**	**1.19**	**1.89**	**3.66**

From the table 22, it can be seen that the number of beds available in urban areas of this district is 3.17 per every 1,000 population. More number of beds are concentrated in Nalgonda town, the district headquarters, than other towns in the district. The bed-population ratio is highest in Vijayapuri North where there are 659 beds per 1,000 population. Miryalaguda, Kodad and Bhongir towns have recorded the bed population ratio more than the district average. The remaining all other towns have this ratio less than the district index.

Table 22

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS

Class, name and civic status of the town	No. of beds in medical institutions per 1,000 population

Physically Handicapped Persons

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After independence, the data for the physically handicapped persons in our country were collected for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities. totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows.

"The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms, will be totally crippled, though the legs or arms as such are still physically present."

In case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example if a person was both blind and dumb or blind and crippled etc., blindness was noted for him as blindness is considered a greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. In an extreme case where a person suffered from all the disabilities was taken under blind, since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in Nalgonda district is given below.

STATEMENT SHOWING THE DISTRIBUTION OF PHYSICALLY HANDICAPPED PERSONS BY TALUKS IN NALGONDA DISTRICT

Physically handicapped form 0.22% of the total population in the district, comprising 0.23% of rural and 0.12% of urban population. Out of the total 4,959 persons recorded as physically handicapped, i.e., totally blind, totally crippled and totally dumb in the district, as many as 4,679 persons forming 94.35% are from rural areas only. Among the total physically handicapped in the district 39.44% are totally blind, 33.86% are totally crippled and 26.70% are totally dumb. The survey revealed that Kodad taluk has recorded the highest number of physically handicapped persons accounting for 682 persons, the lowest being Mothkur taluk with 186 persons.

PART - B

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I – Village Directory

SECTION II – Town Directory

SECTION III – Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides village-wise information about the amenities and land use pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

Educational : (Column No. 5)

P	:	Primary or Elementary School (Upto Class IV)
M	:	Middle School or Junior Secondary (from Class V to VIII)
H	:	Matriculation or Secondary School (from Class IX and X)
JC	:	Higher Secondary / PUC / Intermediate / Junior College
C	:	College
I	:	Industrial School
Tr	:	Training School
AC	:	Adult Literacy Class / Centre
O	:	Other Educational Institutions which include Sanskrit Pathasala, Senior Basic School

Medical : (Column No. 6)

H	:	Hospital
MCW	:	Maternity and Child Welfare Centre or Maternity and Child Health Centre
MH	:	Maternity Home
CWC	:	Child Welfare Centre
HC	:	Health Centre
PHC	:	Primary Health Centre
PHS	:	Primary Health Sub-Centre
D	:	Dispensary
FPC	:	Family Planning Centre
TB	:	T. B. Clinic
NH	:	Nursing Home
RP	:	Registered Private Practitioner
SMP	:	Subsidised Medical Practitioner
CHW	:	Community Health Worker
O	:	Others

Drinking Water : (Column No. 7)

T	:	Tap
W	:	Well
TK	:	Tank
TW	:	Tube Well
HP	:	Hand Pump
R	:	River
F	:	Fountain
C	:	Canal
L	:	Lake
S	:	Spring
N	:	Nallah
O	:	Others
NA	:	Information not available

Post and Telegraph : (Column No. 8)

PO	:	Post Office
TO	:	Telegraph Office
PTO	:	Post and Telegraph Office
Phone	:	Telephone Connection

Communications : (Column No. 10)

BS	:	Bus stop
RS	:	Railway Station
NW	:	Navigable Waterway

Approach to village : (Column No. 11)

PR	:	Pucca Road
KR	:	Kuccha Road
NR	:	Navigable River
NC	:	Navigable Canal
NW	:	Navigable Waterway
FP	:	Foot Path

Power Supply : (Column No. 13)

ED	:	Electricity for domestic purpose
EAG	:	Electricity for Agriculture
EO	:	Electricity for other purposes like industrial, commercial, etc.
EA	:	Electricity for all purposes listed above

Irrigated by source : (Column No. 16)

GC	:	Government Canal
PC	:	Private Canal
W	:	Well (without electricity)
WE	:	Well (with electricity)
TW	:	Tube Well (without electricity)
TWE	:	Tube well (with electricity)
TK	:	Tank
R	:	River
L	:	Lake
WF	:	Water Fall
O	:	Others
T	:	Total

Remarks, etc. : (Column No. 20)

N	:	Copies of the News Papers (coming in the village)
M	:	Motor Cycles/Scooters
C	:	Cars/Jeeps
T	:	Tractors
NNA	:	News Papers number not available

As an example an entry showing figures like P(2), or D(2), or T(35.21), TK(35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35.21 hectares and extent of land irrigated by water from tanks is 35.21 hectares.

Where a facility is not available in the village, the distance at which the facility available is shown in broad ranges viz., — 5 kms., 5–10 kms. and 10 + kms. of the nearest place.

SECTION II — Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in statements are briefly explained herein. Statement I has been compiled in this office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col. 2 to denote the civic status of town, the codes used are :

Municipal Corporation/ Corporation	M. Corp.
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area/Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In Statement IV Col. 6 to differentiate category of road the following abbreviations are used.

Pucca Road	PR
Kuccha Road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt

In Col. 11 the various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows:

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell pumping system	BWP
Pressure tank	PT
Tubewell Water/ Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In Statement V under Col. 4 to indicate the type of medical facility available to the citizens, the following codes are used.

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T.B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institution of any type, the number of such institutions is noted within brackets eg : D (2); NH (7) etc.

To distinguish the medical institutions as Allopathic or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H (A-1,2), D (Hom.-2, U-1)

Here H(A-1, 2) represents one ayurvedic and 2 allopathic hospitals and D (Hom.-2, U-1) represents 2 homoeopathic and 1 unani dispensaries.

The Codes used for Col. 6 are as follows :

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institution of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short-hand, typewriting and other vocational training institutions If there are more than one institution of each type the number is given against each in brackets.

Short-hand	SH
Typewriting	Type
Short-hand & Typewriting	Sh. Type
Others	O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B.Ed. College, Teacher's Training institutes, Music / Dancing School, Nursing School, etc., are covered under "Others."

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-primary School. Schools upto Class VIII are treated as Junior Secondary or Middle Schools. Schools upto Class X are treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/Intermediate/Pre-University/ Junior College, etc.

Under Col. 20 the abbreviations given are as follows :

Public Library	PL
Reading Room	RR
