# PREFACE

Prior to the 1951 Census, there was no regular separate publication at the district level regarding the data collected, although the seeds of the District Census Handbooks can be traced to the 'Village Lists brought out for every district in 1901 and 'Village Statistics' of every district published in 1911 and 1941. No. definite answer is forthcoming as to why such publications, giving village-wise information of occupied houses, break-up of population into males/females and literates, were not brought out in 1921 and 1931 The reason could be transfer from 1921 of certain charges on Census previously met from the provincia· revenues to the Central revenues and the Government of India may not have considered it necessary to publish statistics up to the village level. 'Village Statistics' in 1941 were brought out by the Central Provinces & Berar Government and this practice of bringing out district-wise publications at the cost of the State Government has since been continuing.

2. The scope of the district-wise publications, now called the District Census Handbooks, has been undergoing change with each successive Census from 1951. In 1951, the District Census Handbooks only contained the Primary Census Abstract and the Census tables. In view of the usefulness of separate publication for each district, improvements were made at the time of the 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, education, etc. An 'Introductory Note' was also added to highlight the more striking features. Unfortunately, the desire to make district-wise Census publications very comprehensive resulted in late availability of the books to the users. Therefore, this time the District Census Handbooks have been divided into three parts in order to release maximum data, as and when finalised, so that the publications may have a useful life of about seven to eight years of inter-Censal decennium. Part A will contain Primarily non-Census statistics, Part B the Primary Census Abstract and Part C various administrative statistics with a chapter titled "Introducing the district". It may be mentioned here that subsequently a decision has been taken to merge Parts A and B in one volume on grounds of economy.

3. Much of the delay in the publication of the District Census Handbooks after the 1961 Census was due to delay in collection of administrative statistics and the decision to write the Introductory Note in the head office. Separation of administrative statistics as Part C of the District Census Handbook and the kind Co-operation of the State Government, permitting Collectors of the 1961-71 decade to write the chapter on "Introducing the District," is likely to go a long way in early publication of all the parts of the District Census Handbooks. Another favourable factor this time is the early decision of the State Government to permit printing in private presses as and when the work-load on the State Government Presses is heavy and likely to result in delay in the bringing out of the District Census Handbook of any district. It would not be out of place to point out here that the work-load in connection with the District Census Handbooks is very much more this time, not only on account of wider coverage but largely due to the decision to bring out the District Census Handbooks in Hindi as well as English. In all, there will be 172 publications, 4 per district of which 2 will be in hindi and 2 in english. Advance action was taken this time to collect the non-Census data and it is hoped that the combined volume of Parts A and B of all the 43 districts would be out by the end of 1973 and Part C of all the districts by the middle of 1975. This would be a definite improvement on the 1961 performance when printing of the District Census Handbooks covered the period 1964 to 1967.

4. In his Preface to the 1961 District Census Handbooks, my predecessor, Shri G. Jagathpathi, had observed thus, "It was not possible at this Census to base all Census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.". It has not been possible to adopt the development block as the basic unit for operation and presentation in this Census for more than one reason. Firstly, the office of the Block Development Officer was abolished in December, 1965; its resurrection in the form of office of the Block Development Assistant from 2-10-69 had not taken firm roots up to the time field arrangements for the 1971 Census were finalised. Secondly, the tahsil as a unit of field arrangements has many more advantages, the most significant being the ready availability of that legendary functionary—the patwari—without whose active co-operation it would be a formidable task to determine whether a habited structure in a cultivated field is part of village X or Y. Even, otherwise, since village-wise figures are available, it should not be difficult for those in need of data for intermediate units between the village and the tahsil, like the development block or patwari halka, to compile it by adding figures of concerned villages. The tahsil has for long been a fixed unit of administration and, to my mind, should be retained in preference to the development block whose jurisdiction may undergo a change in accordance with the pace of future development.

5. In conclusion, I would like to place on record my grateful thanks to the Government of Madhya Pradesh for having so kindly agreed to undertake the publication of the Handbooks in hindi as well as english to the various government and semi-government offices for un-hesitatingly making available the non-Census statistics, and to the Controller, Government Press, and his staff for arranging early printing in the Government and private Presses.

BHOPAL : A. K. PANDYA

# VILLAGE AND TOWN DIRECTORY

## PART X(A)

# EXPLANATORY NOTE

**History :**

Prior to 1951 there were no separate Census publications for every district. But at the time of preparatory arrangements for the first Census of Independent India, it was felt that Census statistics should be made available for smaller territorial units basic to the needs of an administration wedded to welfare of the masses. Accordingly, the scheme of District Census Handbooks was conceived and implemented. In view of the usefulness of separate publications for each district, further improvement was made at the time of 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, banking, education, health, etc. An introductory note was also added to highlight the more striking features. Unfortunately the desire to make districtwise Census publication very comprehensive resulted in late availability of the books to the users. Therefore, the organisers of the 1971 Centenary Census decided in favour of splitting the District Census Handbooks into three parts and thereby release maximum data, as and when available, so that the publication may have a useful life of seven to eight years of intercensal decennium.

**Scope :**

(a) Part A of the book is the Village and Town Directory. The Village Directory contains for each village particulars of amenities available in the field of education, medicine, power supply, drinking water supply, post and telegraph facilities and communications. In addition, data relating to particulars of land use, weekly market, places of religious, historical or archaeological interest in the village has also been included. The Town Directory gives for each town in the district in the form of suitable statements the origin and status of the town administration, growth of population, functional category of the town, physical aspects and location, latest municipal financial statements, civic and other amenities, medical, educational, cultural facilities, trade, industry, commerce and banking facilities, population by religion and scheduled castes and scheduled tribes. The abbreviations used in the Directory have been explained separately.

(b) Part B contains for each village and town, the primary census data incorporating area, occupied residential houses, number of households, total population and its break-up by sex, scheduled caste and scheduled tribe population, literate population and working population by nine broad categories.

(c) Part C will mainly incorporate the administrative statistics pertaining to the district in all the fields of development. The other Census tables pertaining to the district regarding language, religion, migration etc., will also be reproduced. There will be a write-up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade.

**Village Directory :**

This is in the form of one statement. Important statistics for each village have been given under the main-head—Amenities and Land Use Data. Other information regarding nearest town with distance, market, staple food and places of religious, historical or archaeological interest have also been given in separate columns. The information regarding "Amenities" cover items like educational and medical institutions, power supply, drinking water, communications and post and telegraph. Under "Land use", the break-up of the total area of the village has been indicated under sub-heads forest, irrigated, unirrigated, cultivable waste and area not available for cultivation.

(a) There are 2,090 villages in the four tahsils of the district and the number of villages tahsil-wise in 1961 and 1971 is as under:—

| Sl. No. | Tahsil | 1961 | 1971 | Difference |
|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) |
| 1 | Khurai | 558 | 559 | + 1 |
| 2 | Banda | 307 | 306 | — 1 |
| 3 | Sagar | 531 | 531 | ... |
| 4 | Rehli | 692 | 694 | + 2 |
| | **Total** | **2,088** | **2,090** | **+ 2** |

It may be seen that in 1971 the number of villages have increased in two tahsils while it has reduced in one tahsil. The net result is an increase of two villages in the district in 1971. The reasons for the above variation are :—

1. **Khurai Tahsil.**—The revenue area of Khurai (municipal town) has been treated as a separate village (Location Code No. 30/1/254).
2. **Banda Tahsil.**—Banda village has been recognised as a town in 1971. The Location Code number of Banda in 1961 was 30/2/207.
3. **Rehli Tahsil.**—(a) The revenue area of Garhakota (municipal town) has been treated as a separate village (Location Code No. 30/4/103).
   (b) Jata Kishan (Location Code No. 30/4/694) is a new forest village.

The area of the following eight forest villages of Khurai tahsil was not furnished and, therefore, these villages have not been considered while discussing the data regarding area in this note:—

| Sl.No. | Name of village | Location Code No. |
|---|---|---|
| (1) | (2) | (3) |
| 1 | Patkua | 30/1/552 |
| 2 | Imlagond | 30/1/553 |
| 3 | Maoli | 30/1/554 |
| 4 | Jugpura | 30/1/555 |
| 5 | Kajarkhedi | 30/1/556 |
| 6 | Bhanwarkhedi | 30/1/557 |
| 7 | Kakuria | 30/1/558 |
| 8 | Ubaiyada | 30/1/559 |

The distribution of the villages with reference to their area in acres is as shown in the inset table below:—

| Area (in acres) | No. of villages |
|---|---|
| (1) | (2) |
| 50 acres or less | 3 |
| 51 to 100 | 14 |
| 101 to 200 | 52 |
| 201 to 500 | 477 |
| 501 to 1,000 | 810 |
| 1,001 to 2,000 | 543 |
| 2,001 to 5,000 | 174 |
| 5,001 acres and above | 9 |
| Area not given | 8 |
| **Total** | **2,090** |

Village Patharia Ryatwari (L.C. No. 30/3/46) in Sagar tahsil has the smallest area of 17.90 acres and is located at a distance of 5 Km. from the nearest town, Sagar, while village Wasahari (L.C.No. 30/1/172) in Khurai tahsil has the largest area of 9,367 acres in the district and is located at a distance of 11.2 Kms. from the nearest town, Bina. In all, 1,353 out of 2,082 villages, for which area figures are available, are in the range of 501–2,000 acres. Nine villages are in the range of 5,000 acres and above. Maximum villages in each tahsil also come within the range of 501–2,000 acres as will be seen from the following table containing tahsil-wise data of villages for which area figures are available.

| Area in acres | Khurai | Banda | Sagar | Rehli | Total |
|---|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) | (6) |
| Below 50 Acres | 1 | ... | 1 | 1 | 3 |
| 51 to 100 | 5 | 3 | 1 | 5 | 14 |
| 101 to 200 | 16 | 10 | 4 | 22 | 52 |
| 201 to 500 | 125 | 74 | 103 | 175 | 477 |
| 501 to 1,000 | 233 | 94 | 201 | 282 | 810 |
| 1,001 to 2,000 | 130 | 88 | 156 | 169 | 543 |
| 2,001 to 5,000 | 38 | 34 | 62 | 40 | 174 |
| 5,001 & above | 3 | 3 | 3 | ... | 9 |
| Area not available | 8 | ... | ... | ... | 8 |
| **Total** | **559** | **306** | **531** | **694** | **2,090** |

*(b) Educational Amenities.*—The total number of villages having various educational facilities within different distance ranges from the nearest town are as indicated in the inset table below:—

| Distance from nearest town | Total No. of villages | Number of villages having | | | | |
|---|---|---|---|---|---|---|
| | | Primary school | Middle school | High or Higher secondary school | College | Others |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| 5 Kms. or less | 157 | 51 | 4 | 1 | 1 | ... |
| 6 to 10 Kms. | 309 | 95 | 5 | 1 | ... | ... |
| 11 to 15 Kms. | 397 | 121 | 18 | 2 | ... | ... |
| 16 to 25 Kms. | 641 | 176 | 27 | 6 | 1 | ... |
| 26 to 50 Kms. | 537 | 142 | 21 | 6 | ... | ... |
| 51 to 100 Kms. | 49 | 10 | 1 | ... | ... | ... |
| 101 to 200 Kms. | ... | ... | ... | ... | ... | ... |
| 201 to Kms. & above | ... | ... | ... | ... | ... | ... |
| **Total** | **2,090** | **595** | **76** | **16** | **2** | ... |

Maximum number of villages, 641, lie within the distance range 16–25 Kms. and maximum number of villages having primary and middle schools also lie within this range, while maximum number of villages having High/Higher Secondary School lie within the range of 16–50 Kms. The number of educational institutions in the villages of different tahsils is given in the inset table that follows:—

| Tahsil | NUMBER OF | | |
|---|---|---|---|
| | High School/ Higher Secondary School | Middle School | Primary School |
| (1) | (2) | (3) | (4) |
| Khurai | 3 | 17 | 157 |
| Banda | 1 | 11 | 113 |
| Sagar | 7 | 26 | 164 |
| Rehli | 5 | 22 | 166 |
| **Total** | **16** | **76** | **600** |

Five villages have two primary schools each. The area of these villages with distance from the nearest town are indicated below:—

| S.No. | Name of village | Tahsil | L.C. No. | Area of the village in acres | Distance from the nearest town in Kms. with name | Educational institutions & number (if more than one) | |
|---|---|---|---|---|---|---|---|
| | | | | | | Primary | Middle |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) |
| 1 | Khamari (Rehli) | Rehli | 30/4/68 | 2,239.57 | Rehli 1.6 | 2 | ... |
| 2 | Gunjora | ,, | 30/4/145 | 3,955.09 | Garhakota 12.8 | 2 | ... |
| 3 | Gourjhamar | ,, | 30/4/305 | 1,421.43 | Deori 19.2 | 2 | ... |
| 4 | Deori Naharmau | ,, | 30/4/635 | 904.15 | Deori 44.8 | 2 | ... |
| 5 | Tada Khas | ,, | 30/4/682 | 1,162.37 | Deori 46.4 | 2 | ... |
| | | | | | Total | 10 | ... |

*(c) Medical Facilities.*—The availability of medical facilities per 100 sq. Km. tahsil-wise, is as given in the following inset table :—

| Tahsil | Total area (in Sq. Kms.) | No. of medical institutions of any kind per 100 Sq. Kms. |
|---|---|---|
| (1) | (2) | (3) |
| Khurai | 2,110.85 | 0.7 |
| Banda | 1,333.85 | 0.6 |
| Sagar | 2,421.65 | 1.0 |
| Rehli | 2,380.21 | 0.5 |

The above table will show that the villages of Sagar tahsil have comparatively greater medical facilities per 100 sq. Kms. The number of medical institutions tahsil-wise is as indicated below:—

| | Tahsil | | No. of Medical institutions |
|---|---|---|---|
| | (1) | | (2) |
| 1 | Khurai | ... | 14 |
| 2 | Banda | ... | 8 |
| 3 | Sagar | ... | 24 |
| 4 | Rehli | ... | 13 |
| | | Total | 59 |

About 40 per cent of the medical institutions in the rural areas of the district are in the villages of Sagar tahsil.

*(d) Power Supply.*—The number of villages having electric power supply within various distance ranges from the nearest town are as indicated in the inset table below:—

| Distance from the nearest town | Total No. of villages | No. of villages with electric power supply |
|---|---|---|
| (1) | (2) | (3) |
| 5 to Kms. or less | 157 | 24 |
| 6 to 10 Kms. | 309 | 25 |
| 11 to 15 Kms. | 397 | 27 |
| 16 to 25 Kms. | 641 | 22 |
| 26 to 50 Kms. | 537 | 6 |
| 51 to 100 Kms. | 49 | ... |
| 101 to 200 Kms. | ... | ... |
| 201 to Kms. and above | ... | ... |
| **Total** | **2,090** | **104** |

It would be seen from the above that about 5 per cent of the total number of village have electricity and about 95 per cent of them are in the distance range up to 25 Kms. The number of village having electric power supply, tahsil-wise, is as below :—

| Tahsil | Total No. of villages | Villages having electric Power supply | Percentage of villages covered by electricity |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Khurai | 559 | 24 | 4.29 |
| Banda | 306 | 2 | 0.65 |
| Sagar | 531 | 47 | 8.85 |
| Rehli | 694 | 31 | 4.46 |

The percentage of villages (about 5) having electric power supply is less than the State average percentage (about 7). Within the district, villages of Banda tahsil have comparatively less of this facility.

*(e) Communications.*—The total number of villages and the number of villages connected by different types of communications, falling in different

distance ranges from the nearest town, are indicated in the inset table below :—

| Distance from the nearest town | Total No. of villages | No. of villages connected by | | | | |
|---|---|---|---|---|---|---|
| | | Pucca Road | Kutcha Road | Pucca Road and rail | Kutcha Road and rail | Others |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| 5 to Kms. or less | 157 | 55 | 34 | 6 | 2 | ... |
| 6 to 10 Kms. | 309 | 72 | 85 | 3 | 2 | ... |
| 11 to 15 Kms. | 397 | 60 | 146 | ... | 7 | ... |
| 16 to 25 Kms. | 641 | 75 | 259 | 5 | 4 | ... |
| 26 to 50 Kms. | 537 | 67 | 206 | 4 | 1 | ... |
| 51 to 100 Kms. | 49 | 8 | 16 | ... | ... | ... |
| 101 to 200 Kms. | ... | ... | ... | ... | ... | ... |
| 201 — Kms. and above | ... | ... | ... | ... | ... | ... |
| **Total** | **2,090** | **337** | **746** | **18** | **16** | ... |

Few villages are served by "Pucca" road. Out of 2,090 villages in the district, 1,117 villages are served by either "Pucca" or "Kutcha" road. The number of villages served by "Pucca" roads, tahsil-wise and the total number of villages with percentage covered are as under:—

| Tahsil | Total No. of villages | No. of villages having "Pucca" road | Percentage |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Khurai | 559 | 88 | 15.74 |
| Banda | 306 | 24 | 7.84 |
| Sagar | 531 | 121 | 22.78 |
| Rehli | 694 | 122 | 17.57 |
| **Total** | **2,090** | **355** | |

Comparatively, Sagar and Rehli tahsils have better communication facilities while Banda tahsil is poor in this facility.

*(f) Post and Telegraphs*—The total number of villages in the tahsils of the district having post offices and telegraph offices are given below :—

| Name of Tahsil | Total No.of villages | No.of villages having post offices | No.of villages having telegraph offices | No.of villages having telephones |
|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) |
| Khurai | 559 | 23 | 2 | 2 |
| Banda | 306 | 24 | ... | ... |
| Sagar | 531 | 37 | ... | 3 |
| Rehli | 694 | 36 | ... | ... |
| **Total** | **2,090** | **120** | **2** | **5** |

The number of post offices per 100 sq. Km. area in each tahsil is as indicated in the following inset table:—

| Name of Tahsil | Total area in sq. Km. | No. of post offices per 100 sq. Km. |
|---|---|---|
| (1) | (2) | (3) |
| Khurai | 2,110.85 | 1.0 |
| Banda | 1,333.85 | 1.8 |
| Sagar | 2,421.65 | 1.5 |
| Rehli | 2,380.21 | 1.5 |

Postal facility, by and large, is evenly available in all the tahsils. Telegraph offices are available in 2 villages of Khurai tahsil while telephone facility is available in 2 and 3 villages of Khurai and Sagar tahsils, respectively.

*(g) Staple Food.*—"Jawar" and wheat constitute staple food in village of all the tahsils of the district except that in very few villages of Banda and Rehli tahsils, "Kodo" and rice also constitute staple food.

*(h) Land use pattern.*—(i) According to the village papers, about 12 per cent of the area in the district is under forest. The percentage of the forest area, tahsil-wise, is indicated below :—

| | Tahsil | | Percentage |
|---|---|---|---|
| | (1) | | (2) |
| 1 | Khurai | ... | 5.16 |
| 2 | Banda | ... | 13.33 |
| 3 | Sagar | ... | 13.77 |
| 4 | Rehli | ... | 16.73 |

It may be noticed that there is very little forest area in the villages of Khurai tahsil.

(ii) The net cropped area in the year 1969 increased by 29.72 per cent as compared to the area in 1960-61. The percentage of area under irrigation to area under crops during the years 1960-61 and 1968-69 comes to 1.48 and 1.49, respectively. The area under irrigation during this period increased by 30.06 per cent.

(iii) The following inset table shows the average percentage of cultivable waste per village in different distance ranges from the nearest town: –

| Distance | Number of villages | Total cultivated land | Average cultivated land per village | Total cultivable waste | Average cultivable waste per village | Percentage of average cultivable waste per village to average cultivated land per village |
|---|---|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| 5 Kms. or less | 157 | 102,277.71 | 651.45 | 21.834.79 | 139.08 | 21.35 |
| 6 to 10 Kms. | 309 | 187,781.06 | 607.71 | 38,254.65 | 123.80 | 20.37 |
| 11 to 15 Kms. | 397 | 275,115.60 | 692.99 | 57,571.92 | 145.02 | 20.93 |
| 16 to 25 Kms. | 641 | 399.014.59 | 622.49 | 96,938.13 | 151.23 | 24.92 |
| 26 to 50 Kms. | 537 | 283,302.32 | 527.56 | 118,789.13 | 221.21 | 41.93 |
| 51 to 100 Kms. | 49 | 21,425.05 | 437.25 | 10,219.67 | 208.56 | 47.70 |
| 101 to 200 Kms. | ... | ... | ... | ... | ... | ... |
| 201 toKms.& above | ... | ... | ... | ... | ... | ... |
| | 2,090 | 1,268,916.33 | ... | 343,608.30 | ... | ... |

Ordinarily, the nearer a village to an urban area, the lesser is the proportion of cultivable waste but it may be noticed from the above table that there is some deviation in the distance ranges 6 – 10 Kms. and 11 – 15 Kms. In the whole district, 343,608 acres (in round figure) of land has been classified as cultivable waste which constitutes about 17 per cent of the total area of the villages in the district. The percentage of cultivable waste in each tahsil is as indicated below:—

| Name of tahsil | Percentage of cultivable waste |
|---|---|
| (1) | (2) |
| 1 Khurai | 16.86 |
| 2 Banda | 21.68 |
| 3 Sagar | 12.22 |
| 4 Rehli | 18.89 |
| District | 16.86 |

This table would show that comparatively more cultivable waste is located in Banda tahsil and it comes to slightly more than one-fifth of the total area of the villages in this tahsil.

**Town Directory :**

This is in the form of seven Statements. But before discussing the information collected in the seven Statements, it would be better to first understand certain concepts which determines urban areas.

(*i*) *Definition of town* :—A 'town' in the 1961 Census was either—(i) a Municipality, Cantonment or Corporation ; or (ii) a habitation with a population of at least 5,000, with atleast three-fourths of the adult male population engaged in non-agricultural pursuits.

Accordingly there were 219 towns in the State. However, seven towns did not satisfy either the minimum population criterion or the one relating to ratio of non-agricultural adult males being 75% or more. But the list already finalised was not changed subsequently ; the reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to get included in the list of towns as Municipalities and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than what was already present. In the 1971 Census there was no material change in the concept of town and a list of 247 towns was prepared originally. Three more towns were added in the list due to the fact that two places were declared as municipal and the third fulfilled the necessary criterion to qualify a place as urban and ultimately 250 towns were recognised in the State. All areas which are not towns have been included in the list of villages.

(*ii*) *Urban Agglomeration* :—The concept of Urban Agglomeration has been adopted for the 1971 Census with the intention to present the population data in the District Census Handbook in respect of urban areas in such a manner that "*de-facto* urban agglomeration" is a recognisable entity, data pertaining to which will be the sum of the data of not only the *de-jure* (within Municipal/other statutory limits) urban area but also of its outgrowths in different directions which are obviously urban in character and form a continuous urban spread. This has been considered necessary so that future comparisons or studies of the particular urban agglomeration is factual and not vitiated by the time differential which exists between the delineation of municipal boundaries and the actual growth of the urban area.

(*iii*) *Standard Urban Area* :—This new concept

has been developed for the 1971 Census and the essentials of a Standard Urban Area are :

(i) It should have a core town of a minimum population size of 50,000.

(ii) The contiguous areas made up of other urban as well as rural administrative units should have closed socio-economic links with the core town, and

(iii) The probabilities are that this entire area will get fully urbanised in a period of two to three decades. This concept has been developed to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture.

**The Seven Statements** : Very useful data regarding the towns have been given in the statements and they have been collected and compiled from various agencies and official publications. The source and period of the information has been indicated below each Statement. It would not be out of place to mention here that analysis of data collected from diverse sources has its own limitations, mostly due to sketchy and incomplete information. All the same, the data compiled and presented throws sufficient light on the present stage of progress in each town.

(i) *Statement No. I* : This statement presents the basic data relating to population of the towns for each decennium from 1901 to 1971 and the civic administration status in 1970. The civic administration status of the town indicates the authority incharge of its administration. Thus a town could have a Municipal Corporation, a Municipality, a Cantonment Board, a Gram Panchayat, a Notified Area Committee, etc.

(ii) *Statement No. II* : This statement contains information regarding location (latitude and longitude), annual rainfall, temperature, distance from the nearest city with population of 1 lakh or more and State. District and Tahsil headquarters. Distance from Railway Station and Bus route have also been indicated.

(iii) *Statement No. III* : The statement contains information regarding receipt and expenditure of local bodies under different main heads indicating the indebtedness and general financial position and expenditure on public utility works. The information has been furnished for the years 1968-69, 1969-70 and 1970-71 in order to have an idea whether the concerned urban body is improving financially or not.

(iv) *Statement No. IV* : This statement contains information regarding amenities, *e.g.*, road length, sewerage system, types of latrines, water supply, fire-fighting service, etc. in the different towns.

(v) *Statement No. V* : This statement contains information regarding various important facilities available in the town *viz.*, medical, educational, recreational and cultural.

(vi) *Statement No. VI* : This statement throws light on the business and credit facilities commanded by the towns and contains information regarding trade, commerce, industry and banking.

(vii) *Statement No. VII* : This statement contains data regarding population by religion and Scheduled Castes/Scheduled Tribes with male/female break-up for the year 1971. This is the only statement based on 1971 Census figures.

There are four tahsils and nine towns in Sagar district as indicated below :

| Tahsil | Town | L.C. No. | Class |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| 1 Khurai | 1 Khurai | 30/II | IV |
| | 2 Bina (Etawa) | 30/I | III |
| 2 Banda | 3 Banda | 30/III | V |
| 3 Sagar | 4 Rahatgarh | 30/VI | V |
| | 5 Sagar (Cantonment) | 30/V | III |
| | 6 Sagar (Municipal) | 30/IV | I |
| 4 Rehli | 7 Garhakota | 30/VII | IV |
| | 8 Deori | 30/IX | IV |
| | 9 Rehli | 30/VIII | V |

All the tahsil headquarters are towns. Sagar is also the headquarter of the district. All these towns continue to be recognised as a town since 1901, except the following :

| Town | Year of recognition |
|---|---|
| (1) | (2) |
| 1 Banda | 1971 |
| 2 Rehli | 1961 |
| 3 Rahatgarh | 1961 |
| 4 Sagar (Cantt.) | 1931 |

None of the towns have ever been derecognised.

**Urban Outgrowths and Standard Urban Areas** : The following are the urban agglomeration and

standard urban area in the district and their components are also mentioned :

| Tahsil | Urban agglomeration | Components | L.C. No. of components, if any |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| Khurai | Khurai | Rethore—Partly | 30/1/251 |
| | Bina (Etawa) | Etawa—Wholly | 30/1/105 |
| Banda | Nil | | |
| Sagar | Sagar (M.C.) | (i) Makronia—Wholly | 30/3/39 |
| | | (ii) Gournagar — | — |
| | | (iii) Rajakhedi—Wholly | 30/3/302 |
| | | (iv) Bhainsa—Wholly | 30/3/317 |
| | | (v) Kapuria—Wholly | 30/3/326 |
| Rehli | Rehli | (i) Bamura Jaisingh—Wholly | 30/4/70 |
| | | (ii) Patna Kakri—Wholly | 30/4/72 |

Gournagar, one of the components, is the place where Saugar University is located. The area is not within the statutory limits of either the local bodies of Sagar or any village. It was originally a part of reserve forest and the land was transferred to the University by government notification. Consequently, no location code number could be assigned to Gournagar.

**Standard Urban Area**

| Name of SUA | Components | L.C. No. |
|---|---|---|
| (1) | (2) | (3) |
| Sagar | | |
| | *Urban* | |
| | 1. Sagar (M) | 30/IV |
| | 2. Sagar (Cantt.) | 30/V |
| | 3. Makronia Buzurg | 30/3/39 |
| | 4. Raja Khedi | 30/3/302 |
| | 5. Gaur Nagar | NA |
| | 6. Kapuria | 30/3/326 |
| | 7. Bhainsa | 30/3/317 |
| | *Rural* | |
| | 1. Bararu | 30/3/32 |
| | 2. Jinda | 30/3/33 |
| | 3. Semrabag | 30/3/36 |
| | 4. Amet | 30/3/151 |
| | 5. Arjuni | 30/3/300 |
| | 6. Gadoli Khurd | 30/3/311 |
| | 7. Amaoni | 30/3/314 |
| | 8. Gungucha | 30/3/413 |

**Statement I** : (i) The category of town administration in 1970 is as indicated below :

| Sl. No. | Name of town | Category of town administration |
|---|---|---|
| (1) | (2) | (3) |
| 1 | Khurai | Municipality |
| 2 | Bina (Etawa) | Municipality |
| 3 | Banda | Gram Panchayat |
| 4 | Rahatgarh | Gram Panchayat |
| 5 | Sagar (Cantt.) | Cantonment Board |
| 6 | Sagar (Municipal) | Municipality |
| 7 | Garhakota | Municipality |
| 8 | Deori | Municipality |
| 9 | Rehli | Gram Panchayat |

(ii) The population of Khurai, Garhakota, Deori, Bina (Itawa) and Sagar (Municipal) fell during the decades as mentioned below :

| S.No. | Name of town | Decade | Population | Reduction in population |
|---|---|---|---|---|
| | | Year | Pop. | |
| (1) | (2) | (3) | (4) | (5) |
| 1 | Khurai | 1911 | 6,868 | |
| | | 1921 | 6,078 | 790 |
| 2 | Garhakota | 1901 | 8,508 | |
| | | 1911 | 8,180 | 328 |
| | | 1921 | 5,864 | 2,316 |
| | | 1931 | 8,242 | |
| | | 1941 | 7,888 | 354 |
| 3 | Deori | 1911 | 5,739 | |
| | | 1921 | 5,369 | 370 |
| 4 | Bina (Etawa) | 1931 | 10,849 | |
| | | 1941 | 8,979 | 1,870 |
| 5 | Sagar (M.C.) | 1911 | 45,908 | |
| | | 1921 | 39,319 | 6,589 |

The population of the towns have, by and large, shown constant increase in every decade after their recognition as towns except during the periods mentioned above.

During the decade 1901-1911, only Garhakota lost in population by 328, while the district population increased by 15.24 per cent. This slight reduction in population seems to be mainly due to migration within the district.

During the decade 1911-1921, all the then existing towns, except Bina-Itawa, showed a fall in population due to severe wide spread fatal influenza epidemic which caused heavy mortality.* The district population also fell by 2.38 per cent. The population of Bina (Etawa), however, showed a slight increase (258).

During the decade 1931-1941, the population of only two towns, Garhakota and Bina (Etawa), showed a fall of 354 and 1870, respectively, while the district population increased by 9.56 percent. This reduction in population might be mainly due to migration within the district.

(iii) Column 14 of the statement shows the functional classification of the towns in 1961 as indicated in the following inset table, which does not contain information pertaining to Banda because it was recognised as town for the first time in 1971 :

| Functional category | Total No. of towns |
|---|---|
| (1) | (2) |
| Industry | 5 |
| Services | 1 |
| Transport-*cum*-services | 1 |
| *cum*-Industry | |
| Industry-*cum*-services | 1 |
| Total | 8 |

* District Census Hand Book—Census of India, 1961—Sagar district—Page xxxix.

The method adopted for the functional classification is elucidated below :—

The nine industrial categories were grouped into the following five functional characteristics :

(i) Primary Activities (Comprising Category I—Cultivation, II—Agricultural Labourer and III—Mining and Quarrying, Fishing, Live Stock, Hunting, etc.).

(ii) Industrial (Comprising Category IV—Household Industry, V—Manufacturing other than Household Industry and VI—Construction).

(iii) Commercial (Comprising Category VII—Trade and Commerce).

(iv) Transport (Comprising Category VIII—Transport, Storage and Communications).

(v) Services (Comprising Category IX—Other Services).

The percentage of total workers under the above five functional characteristics were calculated for each town and the predominant function(s) of each town was/were determined. If one functional characteristic of a town absorbed more than 40 per cent of the total workers the town was designated by that function. In case no single characteristic claimed 40 per cent of the workers, two predominant characteristics together claiming a percentage of 60 or above were taken to represent the town. If these two failed to account for 60 per cent of the total workers, the first three characteristics were taken to represent the town.

**Statement II** : The physical and locational aspects as in 1969 have been covered. The district is situated at the south eastern edge of the malwa plateau and is separated from the Narmada valley region, which lies to the south, by a steep escarpment. The towns get annual rainfall of about 1,394 m.m. to 1,182 m.m. The range of maximum and minimum temperature of the towns is about 31 °C and 19.5°C. Ranifall data of Banda, Bina (Etawa), Rahatgarh and Sagar (Cantonment) are not available, while temperature data of only Sagar (Municipal) is available hence the data for the nearest town Sagar (Municipal) has been furnished in the statement for the towns for which data are not available. The climate of the district is generally pleasant and salubrious. All the towns are on bus route. Garhakota, Deori, Banda, Rehli and Rahatgarh do not have railway facility. The district headquarters, Sagar city is at a distance of 184 Km. by road from the State headquarters, Bhopal. Sagar (Municipal) is the nearest city from the towns of the district and it is at a distance of 182 Km. from the other nearest city, Jabalpur. It may be mentioned here that Sagar (Cantonment) is adjacent to Sagar (Municipal).

**Statement III** : On the basis of population of 1971, the nine towns of the district have been categorised as under :

| Sl. No. | Name of town | Population in 1971 | Class |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| 1 | Khurai | 18,810 | IV |
| 2 | Garhakota | 14,616 | IV |
| 3 | Deori | 12,321 | IV |
| 4 | Banda | 7,630 | V |
| 5 | Bina (Etawa) | 33,106 | III |
| 6 | Rehli | 7,920 | V |
| 7 | Rahatgarh | 8,177 | V |
| 8 | Sagar (Cantonment) | 27,343 | III |
| 9 | Sagar (Municipal) | 118,574 | I |

The statement would show that the total expenditure is within the total receipts of the local bodies except in the following cases :

| S.No. | Local body in the town of | Year of excess expenditure | Total Receipt | Total Expenditure | Amount by which the expenditure is more than receipt | Percentage of excess expenditure to total receipt |
|---|---|---|---|---|---|---|
| (1) | (2) | (3) | (4) | (5) | (5) | (6) |
| 1 | Khurai | 1968—69 | 567,000 | 567,900 | 900 | 0.16 |
| | | 1970—71 | 794,200 | 813,500 | 19,300 | 2.43 |
| 2 | Garhakota | 1970—71 | 369,400 | 371,200 | 1,800 | 0.49 |
| 3 | Deori | 1968—69 | 150,000 | 159,600 | 9,600 | 6.40 |
| | | 1970—71 | 255,100 | 261,400 | 6,300 | 2.47 |
| 4 | Bina (Etawa) | 1968—69 | 311,200 | 318,100 | 6,900 | 2.22 |
| | | 1969—70 | 375,000 | 384,600 | 9,600 | 2.56 |
| | | 1970—71 | 388,200 | 419,900 | 31,700 | 8.17 |
| 5 | Rahatgarh | 1970—71 | 10,100 | 10,200 | 100 | 0.99 |
| 6 | Sagar (Cantt.) | 1968—69 | 912,800 | 920,900 | 8,100 | 0.89 |
| | | 1969—70 | 882,600 | 926,400 | 43,800 | 4.96 |

Column 7 of the above table would show that the percentage of excess expenditure to total receipts of

the local bodies of Deori and Bina (Etawa) is more than five for the years indicated in the table.

The total receipts of all the local bodies except Rahatgarh, have, by and large, shown an upward trend. There was a shortfall in Sagar (Cantonment) in 1969-70, but the revenues of Rahatgarh (Gram panchayat) have shown a consistant downward trend. This is mainly due to reduction or absance of government grant.

Receipts through taxes, etc. have also shown, by and large, an upward trend during these years except following cases :—

| S.No. | Local body in the town of | Year | Extent of shortfall |
|---|---|---|---|
| (1) | (2) | (3) | (4) |
| 1 | Banda | 1970-71 | 8,500 |
| 2 | Rehli | 1969-70 | 1,500 |
| 3 | Rahatgarh | 1970-71 | 4,000 |

The above table would show that the shortfall of the local bodies of Banda and Rahatgarh in the receipts through taxes is quite substantial as compared to the total receipts. Government grants have been received by all the local bodies but loan has been taken only by the local bodies of Garhakota, Bina—Itawa and Sagar (Municipal). The per capita receipt and expenditure under broad heads is indicated in the inset table below :

| Class of town | No. of towns | Year | Per capita (in Rupees) | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | | | Receipt | | | Expenditure | | | |
| | | | Total Receipt | Receipt through taxes, etc. | Receipt from all other sources | Total expenditure | Expenditure on Public Health conveniences | Expenditure on Public Institutions | Expenditure on all other aspects |
| (1) | (2) | (2A) | (3) | (4) | (5) | (6) | (7) | (8) | (9) |
| Class 1 | 1 | 1968—69 | 35.46 | 30.23 | 5.23 | 34.99 | 10.94 | 2.08 | 21.97 |
| 100,000 & over | | 1969—70 | 40.54 | 31.07 | 9.47 | 39.23 | 13.16 | 2.70 | 23.37 |
| | | 1970—71 | 47.02 | 35.41 | 11.61 | 45.85 | 16.66 | 3.10 | 26.09 |
| Class II | ... | ... | ... | ... | ... | ... | ... | ... | ... |
| 50,000-99,999 | | | | | | | | | |
| Class III | 2 | 1968—69 | 20.25 | 9.49 | 10.76 | 20.50 | 9.89 | 3.05 | 7.56 |
| 20,000-49,999 | | 1969—70 | 20.80 | 11.69 | 9.11 | 21.69 | 10.65 | 3.22 | 7.82 |
| | | 1970—71 | 22.10 | 12.20 | 9.90 | 22.56 | 11.90 | 3.35 | 7.31 |
| Class IV | 3 | 1968—69 | 17.63 | 12.13 | 5.50 | 17.54 | 5.16 | 3.50 | 8.88 |
| 10,000-19,999 | | 1969—70 | 23.79 | 16.50 | 7.89 | 22.66 | 6.38 | 4.02 | 12.26 |
| | | 1970—71 | 31.01 | 19.82 | 11.19 | 31.61 | 8.97 | 3.95 | 18.69 |
| Class V | 3 | 1968—69 | 2.66 | 1.56 | 1.10 | 2.21 | 0.35 | 0.02 | 1.84 |
| 5,000-9,999 | | 1969—70 | 3.16 | 2.00 | 1.16 | 2.38 | 0.45 | 0.18 | 1.75 |
| | | 1970—71 | 3.55 | 1.64 | 1.91 | 3.44 | 1.46 | 0.01 | 1.97 |
| Class VI | | | | | | | | | |
| Below 5,000 | ... | ... | ... | ... | ... | ... | ... | ... | ... |

The above inset table would show that on the whole the total per capita receipt matches fairly well with the total per capita expenditure. The per capita expenditure on public health and convenience as against the per capita receipt through taxes, etc. is encouraging. The expenditure of quite a good number of local bodies, shown in column 15 of the statement No. III under head "Others", constitutes a high percentage of the total expenditure.

**Statement IV** : All the towns have electricity and street lights. Water tap facility is available in four towns only, *viz.*, Khurai, Rehli, Sagar (Cantonment) and Sagar (Municipal).

Fire brigade is available only in the Sagar group of towns.

**Statement V** : (i) *Medical facilities* : Hospital facility is available at Sagar (Municipal), Rehli, Bina (Etawa) and Garhakota while only Health Centres are located at Khurai, Deori, Banda and Rahatgarh. Sagar (Municipal) has a dispensary and Family Planning Clinic also. The number of beds per 1,000 population has been indicated in the inset table below :—

| Total number of beds in medical institutions | No. of beds per 1,000 population |
|---|---|
| (1) | (2) |
| 168 | 0.67 |

(ii) *Educational facilities* : Sagar (Municipal) has an arts college and Saugar University is located in Gournagar which is outside the statutory limits of the municipality. There are 35 departments in the univer-

sity. Arts college is also located at Bina (Etawa), Deori and Khurai. Besides the above, Deori has a combined college while Khurai has a commerce college. College facility is not available at Garhakota, Banda, Rehli and Rahatgarh. Every town has Higher Secondary/High School facility. The number of Higher Secondary/High Schools, Middle Schools and Primary Schools per thousand population is shown in the following inset table. For a more realistic appreciation the population in the age group 0-14 has been considered for Primary and Middle Schools while population in the age-group 15-19 has been considered for Higher Secondary/High Schools :

| Name of the town | Number per 1,000 population | | |
|---|---|---|---|
| | Higher Secondary or secondary | Middle | Junior secondary/ primary |
| (1) | (2) | (3) | (4) |
| Khurai | 1.5 | 0.2 | 0.6 |
| Garhakota | 1.5 | 0.1 | 0.7 |
| Deori | 1.6 | 0.4 | 0.7 |
| Banda | 1.3 | 0.6 | 0.6 |
| Bina (Etawa) | 1.0 | 0.3 | 0.8 |
| Rehli | 1.0 | 0.2 | 0.5 |
| Rahatgarh | 0.5 | 0.5 | 0.2 |
| Sagar (Cantt.) | 1.5 | 0.1 | 0.2 |
| Sagar (Municipal) | 0.9 | 0.1 | 0.8 |

(iii) *Recreational and Cultural facilities* : Cinema houses are available in all the towns, except Rahatgarh, while play grounds are available at Khurai and Sagar group of towns. Reading rooms/Libraries are available in all the towns except Banda and Rahatgarh.

**Statement VI** : Every town has banking facility and Sagar (Cantt.) is served by the banks located in Sagar (Municipal). Agricultural credit societies are available in all the towns, except Khurai and Banda, while non-agricultural credit societies are not available at Deori, Rahatgarh and Sagar (Cantonment). Salt, oil, cloth, tombacco, "*Kirana*" and medicine are the important items of import in the towns of the district while "*bidi*", wheat and wooden articles are the main items of export.

The important items of local manufacture are *bidi*, shoes, soap, brass estensils, wooden articles and *Agarbatti*.

**Statement VII** : About 48 per cent of the urban population of the district is in Sagar city and it is followed by Bina (Etawa) and Sagar (Cantt.) where the percentage of urban population is about 13 and 11, respectively. Majority of urban population follow hindu religion ; next come followers of islam religion. Town-wise percentage of the population following the above two religions is as indicated below :

| S.No. | Towns | Percentage in Round figures | |
|---|---|---|---|
| | | Hindu | Islam |
| (1) | (2) | (3) | (4) |
| 1 | Khurai | 75 | 11 |
| 2 | Garhakota | 82 | 12 |
| 3 | Deori | 83 | 11 |
| 4 | Banda | 75 | 6 |
| 5 | Bina (Etawa) | 83 | 7 |
| 6 | Rehli | 85 | 10 |
| 7 | Rahatgarh | 52 | 44 |
| 8 | Sagar (Cantt.) | 78 | 15 |
| 9 | Sagar (Municipal) | 80 | 10 |

The percentage of the people following other religions is not very significant except that in Banda, Khurai and Sagar (Municipal) the percentage of people following Jain religion is about 19,13 and 8, respectively. There is no population following Boudh religion in the towns of Khurai, Garhakota, Deori, Banda, Rehli and Rahatgarh. Similarly, there is no population following Christian religion in Garhakota and Deori. Scheduled Caste population is more than 10 per cent in all the towns and it is more than 20 per cent in Khurai, Garhakota and Bina (Etawa). There is no Scheduled Tribe population in any town, because Sagar district does not come within the ambit of the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956.

# PRIMARY CENSUS ABSTRACT

**PART X(B)**

*Please read heading of Col. No. 3 of Tahsil P.C A. as below :*

Area of village in acres and of town/ward in Km.$^2$

# EXPLANATORY NOTE

## I. General :

In Part A, the picture of the district as revealed by non-Census data has been discussed. In this note, the progress made by the district in the 1961-71 decade would be dealt with on the basis of information collected in the individual slip that was canvassed in the 1971 Census. Broadly speaking, the changes that have come about in the matter of total population, its growth-rate and density, sex-ratio, literacy, Scheduled Castes and Scheduled Tribes, working population, occupied residential houses and number of households have been discussed.

## II. Population :

The population of Sagar district is 1,062,291 while the population of Madhya Pradesh is 41,654,119. The population of Sagar district thus comes to 2.55 percent of the State population. The rural population is about 76 percent of the district population, whereas the urban population is 24.50 percent as against the State percentage of 16.29. In other words, the district is urban in character. Highest percentage of the district population is found in Sagar tahsil (about 39 percent) and one of the reasons for this is that the population of Sagar city and Sagar cantonment is included in Sagar tahsil.

Sagar district ranks 10th among the 43 districts of the State in population. During the decade 1961-71, the district population growth-rate has been 33.36 against the State growth-rate of 28.67. The area of the district is 10,246 sq. km. In other words, it has 2.31 percent of the State area and ranks 16th in area among the districts of the State. The density of population per sq. km. of the district is 104 against the State density of 94 and the district ranks 18th in density in the State.

The sex-ratio, number of females per 1000 males, of the district and the State is 892 and 941, respectively. Tahsil Sagar has got sex-ratio lower than the district sex-ratio while the other tahsils have higher sex-ratio.

## III. Literacy:

1. The percentage of literacy in the district comes to about 28 as against the State literacy percentage of about 22. In 1961 also, the literacy percentage of the district (20.52) was higher than the State percentage of 17.13. The district has made some progress to increase the rate of literacy during the decade 1961-71.

2. The literacy percentage among the males in the district (38.79) is higher than the State percentage of about 33. Among females also, the literacy percentage in district (15.68) is higher than the State percentage of about 11.

3. Among the tahsils, Sagar tahsil has the highest literacy percentage of about 35, while Banda tahsil has the lowest percentage of about 20.

4. The same pattern is seen in male and female literacy in the tahsils. Among males, Sagar tahsil is at the top (about 46 percent), while Banda tahsil with about 30 percent comes last. Among females also, Sagar tahsil leads in literacy (about 21 percent), while Banda tahsil with 8.33 percent comes last.

## IV. Workers :

In the district, about 35 percent of the population comes under the category of the workers (main activity) against the State percentage of about 37. The percentage of female workers (about 15) is less than the State percentage (about 19). Within the district, comparatively, greater percentage of workers (males and females) have been returned from Banda tahsil. Khurai tahsil has returned the lowest percentage of workers (32.91). Among female workers, Banda tahsil with 17.72 percent leads other tahsils of the district, while Khurai tahsil with 11.22 percent comes last. Among the workers in the district, about 39 and 25 percent are cultivators and agricultural labourers, respectively, against the State percentage of about 53 and 27. Under the category "other workers", the district percentage (about 35) is higher than the State percentage of 20.58. Among females, the district percentage of agricultural labourers (about 46), and cultivators (about 15) is less than the State percentage of about 49 and 41, while for other workers, the district percentage (about 39) is higher than the State percentage (about 10). The highest percentage of cultivators (about 50) has been returned from Banda tahsil, while Khurai tahsil has returned highest percentage of agricultural labourers. Lowest percentage of cultivators (about 29) and agricultural labourers (about 19) have been returned from Sagar tahsil.

## V. Scheduled Caste and Scheduled Tribe :

The percentage of Scheduled Castes to total population of the district (about 21) is higher than the State percentage (about 13). No Scheduled Tribe population has been indicated in the district because it does not come within the ambit of the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956. In the tahsils of the district, highest percentage of Scheduled Caste population (24.49) is found in Khurai tahsil, while in Rehli the percentage (15.27) is lowest.

## VI. Occupied Residential Census Houses :

The district has 175,162 occupied residential Census houses against the State figure of 6,822,767 which comes to 2.57 percent. During 1961, there were 163,374 occupied residential Census houses in the district against the State figure of 6,230,854 which came to 2.62 percent. There has been very slight change in the percentage during the decade. The number of households and persons per occupied residential Census house in 1961 and 1971 are indicated below :

| | Year | No. of residential Census house | No. of households | No. of households per occupied residential Census house | No. of persons per residential Census house |
|---|---|---|---|---|---|
| | (1) | (2) | (3) | (4) | (5) |
| State | 1961 | 6,230,854 | 6,615,580 | 1.06 | 5.2 |
| District | 1961 | 163,374 | 167,087 | 1.02 | 4.9 |
| State | 1971 | 6,822,767 | 7,740,289 | 1.13 | 6.1 |
| District | 1971 | 175,162 | 199,434 | 1.14 | 6.1 |

It would thus be seen that the pressure on occupied residential Census houses has increased during the decade in the district as well as in the State. Comparatively, Sagar tahsil, (with about 37 percent) claims the highest percentage of occupied residential Census houses in the district.

## VII. Villages and Towns :

There are 2,090 villages in Sagar district which comes to 2.71 percent of total villages in the State. The percentage of inhabited villages to total villages in the district is 89.14 against the State percentage of about 92. There are 250 towns in the State out of which the district claims nine—Bina (Etawa), Khurai, Banda, Sagar Municipal, Sagar cantonment, Rahatgarh, Rehli, Garhakota and Deori.

NOTE : (1) M. = Municipality
O.G. = Urban outgrowth
U.A. = Urban Agglomeration
N.M. = Non-Municipal

(2) Urban outgrowth :

1 Village Rethor, L.C. 251 of Tahsil Khurai is partly included.
2 Village Etawa, L.C. 105 of Tahsil Khurai is wholly included.
3 Village Makronia Buzurg, L.C. 39 of Tahsil Sagar is wholly included.
4 Gaurnagar is a part of Reserved forest.
5 Village Rajakhedi, L.C. 302 of Tahsil Sagar is wholly included.
6 Village Bhainsa, L.C. 317 of Tahsil Sagar is wholly included.
7 Village Kapuria, L.C. 326 of Tahsil Sagar is wholly included.
8 Village Bamura Jaisingh, L.C. 70 of Tahsil Rehli, is wholly included.
9 Village Patna Kakri, L.C. 72 of Tahsil Rehli is wholly included.

(3) Towns treated as such for the first time in 1961 Census which continue as towns in 1971 Census are shown with asterisk (*) on their left.

(4) Town treated as such for the first time in 1971 is printed in Italics.

(5) The total area figure given for the district is provisional 'Geographical Area' as supplied by the Surveyor General of India.

(6) The urban area figure has been supplied by the local body.

(7) The rural area of the district has been derived by subtracting the uroan area figures supplied oy local oodies from the total area figures of the district.

(8) Total area figures of tahsils are according to village papers as supplied by the Director of Land Records, Madhya Pradesh. Tahsilwise area figures exclude 1916.1 $Km^2$ of forest area in the district since tahsilwise break-up is not available.
