Shamlaji is one of the principal Vaishnavite shrines and place of pilgrimage of north Gujarat, worshiped by the tribal people on the either side of the Gujarat–Rajasthan border as also by Caste Hindus. Shamlaji (the Dark God) a form Vishnu is also called Gadadhar (the holder of the mace) and the place is known as the Gadadhar Kshetra. Sakshi Gopal is yet another name of Shamlaji. The temple is a monument of archeological interest. Built of white sand stone and bricks, it has two storeys supported on rows of pillars. Around the temple run at base various thars (layers of friezes) of horses, elephants, men, etc. according to the classical style of Hindu architecture. Episodes from Ramayana and Mahabharata are carved on the outer walls, the temple has a high plinth, sabha-mandap is covered by a number of small domes on a flat roof with the largest dome in the centre. In the sabha-mandap stands a black marble idol of Garuda sitting with folded hands. The idol of Shamlaji, also of black marble, is about four feet tall.

Many devotees visit Shamlaji for darshan on every purnima. Hindus and adivasis attend the fair on large numbers on Kartika Purnima.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and ward-wise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part–A related to village and town directory. Part–B to village and town PCA and Part–C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspec particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class–I and Class–II towns (Statement IV–A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The

addition of the columns on civ ic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The district and Tahsil/Police Station/C D Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of *Shri R. S. Chhaya* the Director of Census Operations, *Gujarat* on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

PREFACE

The District Census Handbooks are printed during every decadal Census from 1951. These District Census Handbooks are prepared by the Census Organisation and DCHB unit of the State Government. These are published by the State Government at their own cost. The District Census Handbooks are the first Publications in the series of 1981 Census Publication. The Census Organisation has been collecting an enormous data both during the Census Enumeration period as well as after the Census Enumeration period. This data is very valuable to the Administrators, Economists, Planners, Research Workers, Scholars and other intelligentsia and also to the several institutions dealing with social-economic and developmental aspects of the State. It is absolutely necessary that this data after its collection is printed in the time and reaches the data users also in time. It is a matter of great satisfaction that the present volume is being published in the minimum possible time after the Census count.

The Census count in Gujarat State was taken during the period February-March 1981. The provisional figures collected through the District Census officers were published and presented to the Chief Minister of Gujarat State on 23rd March, 1981. After the declaration of the provisional count six Regional Tabulation Offices were opened at different places in the State. Three such Regional Tabulation Offices were opened at Ahmadabad, one at Vadodara, one at Surat and one at Rajkot. The Census records were edited and checked in these offices and the Primary Census Abstract for all the areas of the State were prepared. For this purpose 1,102 Tabulators, 184 Checkers and 61 Supervisors were temporarily engaged for a period of ten months. These offices were supervised by Deputy Directors of Census Operations who were taken on deputation from the State Government.

The District Census Handbook for the 1981 Census is published in two parts as follows :

I. Part A

(1) Village Directory

(2) Town Directory

II. Part B

District/Talukawise Primary Census Abstract

Both the Parts A and B of the District Census Handbook for 1981 Census have been combined and printed in one volume.

The Village Directory contains comprehensive information about the basic amenities available at the village leval such as medical, educational, drinking water, etc. The Town Directory also consists of information about the status, growth history, municipal finances, civic and other amenities, etc.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Castes/Scheduled Tribes population and the information pertaining to workers and non-workers. A special feature of the 1981 District Census Handbook is the inclusion of Scheduled Castes/Scheduled Tribes Primary Census Abstracts which gives complete District/Taluka/Townwise data on Scheduled Castes/Scheduled Tribes.

The data for the Village Directory has been collected through the Taluka Development Officers who in turn obtained the data from the village officials through their Statistical Assistants. In the District Census Handbook Cell this data subjected to a very close scrutiny and inaccuracies or deficiencies where noted were again got checked through the Statistical Assistants. For this purpose persons were deputed to the districts for obtaining the informations quickly. The area figures as reported by the village officials were also checked with the figures reported by the District Inspectors of Land Records. Utmost

care has been taken to see that the spellings of the villages are correct. Some of the data collected from the village level has also been cross-checked with the data which was supplied by the different Directorates and the Heads of the Departments of the State Goverment. The information pertaining to the District write-up (Item V of the Analytical Note) has been obtained through the Collector and the District Development Officers and the other district heads.

The data on Town Directory has been obtained through the various local bodies such as Municipal Corporation, Municipalities, Nagar Panchayats and Gram Panchayats. These were also checked in the Directorate by a Special Cell.

The Primay Census Abstract and Town Directory with their Inset Tables have been prepared in the Directorate whereas Village Directory alongwith its Inset Tables have been prepared in District Census Handbook Cell.

Maps

In each volume one district map showing the taluka boundaries, location of towns and villages having a population of 5,000, comunications, etc. has been printed. Taluka maps for each of the talukas in the district are also inserted in the District Census Handbook. These taluka maps indicate the boundaries of the villages and towns within the taluka and the location code numbers of each village. The maps were prepared in the map section of the Director of Census Operations.

Acknowledgement

The compilation of a huge mass of data which is printed in this book requires the active help and co-operation of the State Government in addition to the help and co-operation of all the officers and staff members of the Census Directorate. I am deeply indebted to Shri H. K. L. Kapoor, Chief Secretary to the Government of Gujarat for extending all help in the matter. Shri K. Rammoorthy who was working as Secretary, General Administration Department, during the Census Enumeration period extended his wholehearted co-operation. Shri V. Krishnamurthy who subsequently took over as Secretary, General Administration Department, also tookactive interest in the progress of Census work. I would like to make a special mention about the extra facilities granted by the State Government by way of creation of a Special Cell for the compilation of District Census Handbooks. One post of Deputy Director and several posts of Research Assistants, Statistical Assistants, Clerks and Typists have been sanctioned by the State Government specially for the coilmpation of the data. The services of all these persons were placed at the disposal of the Directorate for the compilation work.

Shri G. S. Shah, Director, Bur eau of Economics & Statistics, Government of Gujarat, also rendered very valuable help by providing whatever data was required for cross-checks and by providing personnel for the Special Cell of District Census Handbook.

The Collectors and the District Development Officers incharge of the districts and the Municipal Commissioners incharge of the Municipal Corporation areas, have extended their wholehearted co-operation for the Census work. The Resident Deputy Collectors, the Deputy Collectors incharge of Sub-Divisionals, the District Statistical Officers, the Deputy District Development Officers, the Mamlatdars, the Taluka Development Officers, the Chief Officers of the Municipalities, the Deputy Mamlatdars and the Statistical Assistants at the District/Taluka levels, all played an important role in the Census work. I express my deep gratitude to all of them. After the Census count a large number of young boys and girls coming right from the schools and colleges were employed as Tabulators, Checkers and Supervisors and all of them worked very hard for the compilation of the useful data.

Shri P. T. Thakkar, Director of Printing and Stationery, Government of Gujarat, has taken the interest in the printing of the Handbooks. I here by acknowledge the valuable help, guidance and assistance rendered by him and other officers of the Printing Department. Shri P. K. Choksi, Printing Inspector in this Directorate, looked after the printing jobs very well.

In the Census Directorate Shri J. K. Patel, Deputy Director of Census Operations (Tech.) was looking after the Compilation Section so far as Census data was concerned. The collection and compilation of data for the Village Directory was looked after by Mrs. Neelaben A. Bhatt, Deputy Director whose services were placed at the disposal of the Directorate. Both these officers have put in hard labour for the compilation and printing of the data.

Shri K. H. Desai, Shri V. A. Sathe, Shri K. R. Shridharani and Shri S. D. Vadera, who were officers on deputation from the Gujarat Administrative Service, supervised the editing, checking and compilation work at the Regional Offices in Ahmadabad, Surat, Vadodara and Rajkot respectively. Shri P. J. Jhala and Shri M. A. Malwade, who were officers on deputation from the State Government from the Bureau of Economics and Statistics, supervised the editing, checking and compilation work at Regional Tabulation Offices in Ahmadabad. Shri V. H. Vasavada, Deputy Director from the General Administrative Service looked after the administration work. All these officers worked diligently and accurately during their service in the Census Organisation.

In the Directorate Shri J. K. Patel, Deputy. Director was assisted by Shri R. V. Sanghani and Smt. D. D. Jhala, Investigators and Satistical Asistants Shri K.P. Patel, Shri R.R Upadhyay, Kum. J.R. Megha, Smt. M.B. Patel and Smt. K.S. Mehta. The typing of Primary Census Abstract was undertaken in a special section which was headed by Investigator Shri M. H. Patel. In the State Cell of District Census Handbook Smt. Neelaben A. Bhatt, Deputy Director was assisted by the Assistant Director Shri V. R. Gandhi and Research Assistants Kum. T. K. Shah and Smt. S. B. Solanki and Statistical Assistants Smt. H. A. Patel, Smt. C. C. Mehta, Shri S. V. Patel and Shri P. K. Shastri.

In the Map Section the work of preparation of State/ District / Taluka maps was looked after by Shri K. M. Dhawale, Senior Geographer and Shri B. L. Arya, Geographer. They were ably assisted by Shri K. K. Patel, Artist, Sarvashri M. S. Bhatt and B. J. Modi Senior Draftsmen and Sarvashri D. A. Maroo, R. K. Joshi, G. M. Kosti, B. C. Trivedi and M.A. Shukla, Draftsmen.

The work of dictations and typing of notes, reports, tables, etc., was undertaken by Shri J. A. Harry, Confidential Assistant in the Directorate, diligently with speed and accuracy. He was assisted by a number of Typists in the office.

Limitations of space prevent me from making individual mention of all those who have contributed to the making of this volume so accurate and complete. Quite a large number of Assistant Compilers, Computors, Clerks, Typists, Proof Readers, Draftsmen, Artist, etc., have contributed valuable help in this work.

Finally, I would like to express my deep gratitude to Shri P. Padmanabha, IAS, Registrar General, Government of India, and Sarvashri K. K. Chakravorty, V. P. Pandey, N. G. Nag and Dr. B. K. Roy, Deputy Registrars General, for the guidance given to me from time to time.

ANALYTICAL NOTES AND TABLES

1. Census concepts of rural and urban areas and other terms, viz., Census House, Household, Scheduled Castes, Scheduled Tribes, Literates, Main Workers, Marginal Workers, Non-Workers, etc.

The 1981 Census was carried out in Gujarat in two stages. The first stage of houselisting was completed in the months of June-July 1980. The houselists thus prepared provided a frame for the enumeration work. In the second stage the house to house Census enumeration was carried out from 9th February, 1981 to 28th February, 1981 with reference date as sunrise of 1st March, 1981. The enumeration of houseless population was carried out on the night of 28th February, 1981. A revisional round was also taken from 1st March, 1981 to 5th March, 1981. In this revisional round the Enumerators recorded new births that had taken place after their last visit for enumeration but before the sunrise of 1st March, 1981 and also any visitor(s) that had moved into household and who had been away from his/her/their place of normal residence throughout the enumeration period or an entire household that had moved into the jurisdiction of the enumeration during this period and which had not been enumerated before. The names of persons who had died after the enumeration period but before the sunrise of 1st March, 1981 were deleted from the Individual Slips which had been filled up during enumeration period.

In Gujarat prior to the taking of 1981 Census a special programme of updating permanent house-numbering scheme in the different parts of the State was also carried out in co-ordination with the Local Bodies and State Government. The permanent house-numbering scheme in Gujarat was introduced during the 1971 Census and the District/Taluka Panchayats, Municipal Corporations, Municipalities, Nagar Panchayats and Village Panchayats played a very useful role in fixing the number plates on the houses and buildings.

After the Census count was over the Enumerators submitted the figures to the Charge Officers through their Supervisors. These figures were obtained by the Director of Census Operations through the District Census Officers and the figures after compilation were declared on 23rd March, 1981 as Provisional Census Figures for 1981 Census. Paper 1 showing those figures was printed and published and distributed on a complimentary basis.

During the Census Operations mainly two Census records were filled up by the Enumerators in each block. These were (1) Household Schedules and (2) Individual Slips. The different concepts which were adopted during the houselisting stage as well as during the Census enumeration are as follows.

(I) Rural and Urban Areas

Rural Areas : The basic unit for rural areas is a revenue village which has a definite boundary. The revenue village may comprise several hamlets but the entire village has been treated as one unit for presentation of the data.

Urban Areas : Urban areas have been specifically defined for the 1981 Census. The criteria adopted during the 1981 Census was almost the same as adopted in 1961 and 1971 Censuses. The following criteria were adopted for classifying urban areas in the States :

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria:

1 A minimum population of 5,000.

2 At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity.

3 A population of at least 400 persons per sq. km. or a population of 1,000 per sq. mile.

The slight variation of the criteria adopted in 1981 and that adopted in 1961-1971 Censuses was that during 1981 Census the persons working in activities such as fishing, logging, etc., were

treated as par with cultivators and agricultural labourers whereas in 1961–1971 Censuses these were treated as engaged in non-agricultural activity.

(II) Census House

A 'Census House' is a building or part of a building having separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both. In case of a building having a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, were considered as separate Census houses.

(III) Census Household

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated household are boarding houses, messes, hostels, residential hotels, rescue homes, jails, etc. These are called 'Institutional Households'.

(IV) Scheduled Castes/Scheduled Tribes

The Scheduled Castes and Scheduled Tribes as notified under the Constitution for Gujarat State have been treated as Scheduled Castes and Scheduled Tribes for the purpose of Enumeration. A list of such Scheduled Castes/Scheduled Tribes notified for Gujarat is as under :

(V) Literates

A person who can both read and write with understanding in any language is taken as 'literate'. A person who can merely read but cannot write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

(VI) Main Workers, Marginal Workers, Non-Workers

During the 1981 Census 'Work' had been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. The work involves not only actual work but also effective supervision and direction of work.

The reference period for 'Work' is one year preceding the date of enumeration. The main-worker was a person who had worked for the major part of the year in that activity. By major part of the year it was intended to find out as to whether a person had worked for 183 days or more or in other words worked for six months or more. Those who had worked for less than six months or 183 days were treated as marginal workers. A Non-Worker was one who had no economical activity during the year.

The information on 'Workers and Non-Workers' were obtained through Q. Nos. 14(a) to 16 of the Individual Slip. The main activity of workers has been classified into four categories, viz., cultivator, agricultural labourer, household industry and other worker. These terms are explained below :

Cultivator

For purposes of the Census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) will not be treated as cultivator.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajri, ragi, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

Household Industry

Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precinct of the house where the household lives in urban areas. The larger proportion of workers in a household industry

should consist of member of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factory Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this is not to be treated as 'HHI'. Thus, the meaning of the term 'run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion applies in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry, but at a place away from the precincts of their home, it is not to be considered a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a Pleader or Doctor or Barber, Musician, Dancer, Waterman, Dhobi, Astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Workers

All workers, i.e., those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in Household Industry, are 'Other Workers'. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, Municipal employees, teachers, priests, entertainment artists, etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry, are 'Other Workers'.

II. Brief history of the District and District Census Handbook

[A] History of the District

Himatnagar, the headquarters of the district was originally founded in 1426 A. D. by Sultan Ahmed I to keep the Raos of Idar in Check. The King Sultan was said to have been found of this place and named it 'Ahmednagar.' Subsequently in 1848 it was reverted to the State of Idar and took its present name 'Himatnagar' after Maharaja Himatsinghji of Idar. The town Idar is picturesquely situated at the foot of Idargadh, a rocky hill, about 500' high towering over the town. The strength of the fort on the hill is proverbial. 'To take Idargadh is to achieve the impossible.' The Chinese Pilgrim Huen Tsang (640) mentions a place which he call O-cha-li, the Chinese way of writng Vadari. Idar is said to have been refounded by Parihar Rajputs, Who, subject to Chitor, ruled there for several generations. Towards the close of the twelth century, the Idar Chief took part with Pruthwiraj, King of Delhi, against the Musalman invaders of India, and was killed in the great Hindu defeat of Thanesar (1193). Idar then fell into the hands of a Koli named Hathi Sord was succeeded by his son Samalio. The latter was killed by a Rathod prince named Sonangji, who took possession of Idar, and became the founder of the dynasty of the Raos who ruled there for several generations.

Other important State that was merged was Vijaynagar. It is predominantly inhabited by the tribal people and is mostly covered by forest and surrounded by hills. About 8 miles away from Vijaynagar, near Abhapur are the seattered ruins of a number of old temples dedicated to Shiva, Mahavir, Sun, etc. The temple of Sarneshwar Mahadev constructed in the year 1100 A. D. was devastated by Alafkhan the brother of Allaudin Khilji at the time of his invasion on Patan. It has beautiful sculpture

carved allround. The archaeological department is taking steps to preserve it.

Ambaliara, Mohanpur, Malpur, Bayad and other States of Sadra Division of the former Western India States Agency were merged in this district. The present district thus consists of 29 merged and integrated States. Prantij and Modasa talukas of former Ahmadabad district were also added to it.

In November 1956, the State were reorganised and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions and Sabar Kantha district became a part of the bigger bilingual State.

Lastly, the Bombay State was bifurcated on 1st May, 1960 and separate States of Gujarat and Maharashtra were formed. Since that date the Sabar Khantha district became a part of the Gujarat State.

[B] History of District Census Handbook

Prior to the 1951 Census the Census figures were brought out villagewise under a booklet known as 'Village Handbook' which contained only the population totals of villages. These books were prepared by the Census Organisation on behalf of the State Government and published by the latter. It was for the first time in 1951 Census that a more detailed and well organised book known as 'District Census Handbook' was brought out by the Census Organisation. The 1951 Census Handbook contained the villagewise Primary Census Abstracts which also included the information on post offices, railway stations and the nearest bazars of each village. The Handbook also contained several district tables.

During the 1961 Census the District Census Handbooks were brought out which contained the Primary Census Abstracts as well as certain district tables.

During 1971 Census also the District Census Handbooks were published which in addition to the Primary Census Abstracts contained a Village Directory showing the different village amenities and land-use of all the villages in the district. A separate portion known as 'Town Directory' was also included in the District Census Handbook. The Handbook was divided into three subparts known as Part-A, which contained the Village Directory and Town Directory, Part-B which contained the Primary Census Abstracts and Part-C, which contained the Introductory Essay, Official Statistics, etc.

For the 1981 Census the District Census Handbook is being brought out in two Parts, Part XIII-A and Part XIII-B. Part XIII-A will contain the Village and Town Directory whereas Part XIII-B will contain the Primary Census Abstracts both General and Scheduled Castes and Scheduled Tribes. The Part-C as it was brought out during the 1971 Census has been dropped.

III. Scope of Village Directory, Town Directory and Primary Census Abstract

The District Census Handbooks which are now being printed during every Census after the 1951 Census are very important publications of the Census Organisation. With the emphasis by the Planning Commission on the 'Minimum Needs Programme' of the rural areas the District Census Handbook has become an important tool in the hands of the Administrators, Planners, Policy Makers and Academicians. For the 1981 Census the District Census Handbook has been divided into two parts which are combined in one volume. The details of the contents of each of these two parts are as follows

PART A : VILLAGE AND TOWN DIRECTORY

Village Directory

This Part-A contains the non-census statistics of each village and town in the district. The Village Directory gives villagewise particulars of amenities available for each village in the spheres of education, medical, power supply, drinking water, post and telegraph, communication, land-use, weekly markets and places of religious, historical and archaeological interests in the village. During the 1981 Census additional information regarding (1) copies of the newspapers coming in the village, (2) number of motorcycles and scooters available in the village, (3)

number of cars and jeeps available in the village and (4) number of tractors available in the village have been added. The above non-census data of the Village Directory was collected from the Taluka Development Officers of each Taluka Panchayat in the State. In Gujarat under the democratic decentralisation scheme the Panchayats are now exercising very wide powers and the post of Statistical Assistants are under the administrative and technical control of the Taluka Panchayats. Besides, the Talati-*cum*-Mantris at the village level who are the base village functioneries are also under the control of the Taluka Panchayats. The proformas for soliciting the information were despatched to the Talati-*cum*-Mantris through the Taluka Development Officers and these after they were filled up were checked by the Taluka Development Officers and also by the District Statistical Officers who work under the administrative and technical control of the District Panchayats. The data thus received was checked fully in the District Census Handbook Unit of the State Government. At the end of Village Directory a taluka abstract in Appendix-I of educational, medical and other amenities is also prepared and printed. Appendix-II which shows the land utilisation data in respect of non-municipal towns is printed. In Appendix-III the talukawise list of villages where no amenities relating to educational, medical, drinking water, post and telegraph, communication, power supply and market/hats, are available have been shown. Appendix-IV shows talukawise list of villages according to the proportion of Scheduled Castes/Scheduled Tribes population by ranges. The last two appendices have been included for the first time in the 1981 Census.

Town Directory

The Town Directory portion furnishing the data for each town in the district is exihibited in seven statements covering (1) the status and growth of the civic administration, (2) physical aspect and location of towns, (3) the civic finances of the towns, (4) the civic and other amenities in the towns, (5) the medical, educational, recreational and cultural facilities in the towns, (6) trade, commerce, industries and banking in the towns and lastly (7) the civic and other amenities in notified slums wherever they exist.

The non-census data for each of the towns for the Town Directory were obtained from the Municipal authority in case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. An Appendix showing the towns with their outgrowths with population is also prepared and attached at the end of the Town Directory.

PART B : PRIMARY CENSUS ABSTRACT

Part-B gives for each village and for each ward of the town the primary census data incorporating area of the town in sq. kms. and of the villages in hectares, the number of occupied residential houses, the number of households, total population and its break-up by sex, Scheduled Castes and Scheduled Tribes population, literate population and working population by four broad categories, viz., (1) cultivators, (2) agricultural labourers, (3) those working in household industries and (4) other workers. There is a slight departure in the presentation from the 1971 categories which were in all nine categories.

The Scheduled Castes/Scheduled Tribes Primary Census Abstracts at the District/Taluka/City level are also printed in Part-B of the Handbook.

IV. Physical aspects, highlights on the changes in the jurisdiction of the district during the decade including its boundaries and any important event on geographic or geophysical aspect

There have been no major jurisdictional changes in the district boundaries during the last decade. The administrative jurisdiction of all the talukas of the district as shown in 1971 Census is the same during 1981 Census except a few changes in villages/towns which are as under :

Meghraj of Meghraj taluka and Malpur of Malpur taluka which were rural villages in 1971 Census have been classified as town for the purpose of enumeration in 1981 Census.

Dhansura of Modasa taluka which was town in 1971 Census has been declassified as rural area in 1981 Census.

In addition to the rural/urban changes 4 villagas are added as independent village in 1981

Census as these villages have been reported to treat them as independent villages by the concerned revenue authorities. These villages are as under :

Sl. No.	Taluka	L.C.No.	Name of village
1	Prantij	33	Sapad
2	Bayad	11	Hirapur Kampo
		99	Madhav Kampo
		159	Desaipur Kampo

Moreover, twenty six villages of the district have been deleted from the village list of 1981 Census as these villages have been reported to be hamlets of nearby villages by the concerned revenue authorities. These villages are as under :

Sl. No.	Taluka/ Mahal	L.C. No.	Name of village during 1971 Census	L.C. No.	Name of village in which included as hamlet during 1981 Census

Rajpur (L. C. No. 94 of 1971) of Himatnagar taluka is renamed as Raipur (L. C. No. 93) in 1981 Census.

V. Major characteristics of the district particularly in relation to the economic resources, namely Agriculture, Irrigation, Co-operation, Livestock and Animal Husbandary, Fisheries, Industries, Power Supply, Transport and Communication, Prices, Insurance, Education, Medical and Public Health, etc.

[1] Agriculture

(a) Land Utilisation

The total reporting area in the district in the year 1979-80 was 7.29 lakhs hectares. The details of land utilisation for the year 1979-80 are as under :

Land Utilisation

Sl. No.	Classification of area	Area in '00 hectares
1	Forest	1,224
2	Barren and uncultivable land	268
3	Land put to non-agricultural use	407
4	Culturable waste	176
5	Permanent pasture and other grazing lands	343
6	Land under miscellaneous crops and groves not included in area sown	..
7	Current fallows land	363
8	Other fallows	91
9	Net area sown	4,415
	Total area	**7,287**

(b) Area Under Major Crops

Area under major crops in the year 1971-72, 1975-76 and 1980-81 are shown in the table below :

Area under different Crops

Sl. No.	Crop	Area under different crops (in '00 hectares) 1971-72	1975-76	1980-81
1	Bajri	667	550	521
2	Wheat	327	378	367

12	Total non-food crops	254	650	907
	Total gross area under irrigation	**722**	**1,224**	**1,578**

The irrigated crops are mainly Wheat, Maize, Bajri Rice, whereas other crops are mainly depending on the monsoon.

Sources of Irrigation

During the year 1971–72, 1975–76 and 1979–80 the sources of irrigation are as follow :

Irrigation by Source

(in '00 hectares)

Sl. No.	Source	1971–72	1975–76	1979–80
1	Government Canals	71	79	88

4	Other Sources	6	2	..
5	Net Area Irrigated	673	1,101	1,381
6	Gross Area Irrigated	722	1,224	1,578

The major source of irrigation in the district is wells followed by Government Canals.

Minor Irrigation

There was one miner irrigation scheme under construction as on 1-1-81 viz. Waidy irrigation scheme. Total gross command area of 2,819 hectares will be irrigated under this scheme after its completion.

Medium Irrigation Scheme

In the year 1980–81 medium irrigation schemes and its ultimate potential and its achievements of potential and utilisation are given below.

Medium Irrigation Scheme

(in '00 hectares)

Sl. No.	Scheme	Ultimate potential	Achievement at the end of 1980–81

[3] Co-operation

Co-operative societies have been playing an increasingly important role in the rural economy of this district during the last ten year A super structure of Co-operative societies with an apex bank at the state level, the District Central Co-operative Bank at the district level and Co-operative societies at the village level is built up with the objective of strengthening the rural economy. The agricultural credit co-operative societies advance short and medium term loans to their members for purchasing seeds, fertilizers, agricultural implements, etc. The head office of the District Co-operative bank is located at Himatnagar.

The details regarding Co-operative societies during the year 1971–72, 1975–76 and 1979–80 are as under.

Co-operative Societies

Sl. No.	Co-operative Societies	Item	1971–72	1975–76	1979–80
1	Primary Agricultural Credit Societies	Societies	462	482	471
		Members (in '00)	990	1,240	1,245
2	Primary Non-agricultural Credit Societies	Societies	49	60	78
		Members (in '00)	130	240	360
3	Primary Consumers Stores	Societies	5	10	9
		Members (in '00)	10	21	15
4	Primary Marketing Societies	Societies	12	16	20
		Members (in '00)	57	102	139
5	Central and State Marketing Societies	Societies	1	1	1
		Members (in '00)	51	67	70
6	Primary Processing Societies (including Spinning)	Societies	10	14	15
		Members (in '00)	171	301	300
7	All other types of Primary Societies	Societies	272	504	1,054
		Members (in '00)	133	378	1,000
8	All other types of Societies (Central and State)	Societies	4	3	5
		Members (in '00)	5	4	7

The data reveals an increasing trend in the field of Co-operative Societies. It would be observed from the above figures that a majority of the Co-operative Societies are Primary Agricultural Credit Societies. The number of Co-operative Societies have increased from 815 in 1971–72 to 1,653 in 1979–80.

During the decade the scheduled banks have also increased their credit activities in the different spheres of agriculture, industry, etc.

[4] Livestock and Animal Husbandary

(a) Livestock

According to the Livestock Census of 1972 and 1977 the cattle population of the district is found to be distributed as under :

Livestock

Sl. No.	Category of Livestock	1972	1977
I	**Total Livestock**	**1,015,266**	**996,940**
	A Bullocks and Cows	424,481	388,032
	(1) Males over 3 years	217,710	206,984
	(2) Females over 3 years	113,977	102,984
	(3) Young stock	92,794	78,064
	B Buffaloes	296,839	310,652
	(1) Males over 3 years	3,271	1,647
	(2) Females over 3 years	172,529	185,648
	(3) Young stock	121,039	123,357
	C Sheep	18,218	25,739
	D Goats	260,057	254,980
	E Horses and Ponies	2,787	4,973
	F Mules	5	67
	G Donkeys	9,212	7,804
	H Camels	3,589	3,470
	I Pigs	78	1,223
II	*Poultry*	150,449	198,089

It would be seen from the above table that there is a considerable decrease in the livestock population between 1972 and 1977.

The number of poultry birds increased from 150,449 to 198,089.

During the year 1979-80 there were 15 veterinary dispensaries and 29 stockmen centres and primary treatment centres.

In this district, there is a poultry farm in Himatnagar taluka which is running under poultry project.

The milk supply in the district is yet to be well organised except in Vijaynagar and Meghraj. There were 751 milk co-operative societies in the year 1979-80. The milk dairy named 'SABAR DAIRY' at Himatnagar taluka managed milk supply of this district.

(b) Agricultural Tools and Implements

The following table shows the agricultural implements in the district during the year 1972 and 1977 as per the Livestock Census.

Agricultural Implements

Sl. No.	Name of Agricultural Implement	1972	1977
1	Plough	146,057	145,221
	(1) Wooden	114,091	111,273
	(2) Iron	31,966	33,948
2	Carts	32,947	32,474
3	Sugarcane Crushers	271	401
4	Oil Engines	28,189	37,283
5	Electric Motors & Pumps	2,752	7,758
6	Tractors	153	446

It will be observed from the above table that the use of modern agricultural implements like Iron Ploughs, Sugarcane Crushers, Oil Engines, Electric Motors and Pumps, Tractors indicate an increasing trend during the period of 1972-77.

[5] Fisheries

There are fishing activities in only 5 talukas namely, Prantij, Khedbrahma, Bhiloda, Meghraj and Himatnagar.

According to the livestock Census 1977, 400 persons were engaged in these activities.

Note on Town Directory

The list of urban areas for the purpose of 1981 Census was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any area as an 'urban area' :

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria :

(i) A minimum population of 5,000;

(ii) At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity;

(iii) A population of at least 400 persons per sq. km. or a population of 1,000 persons per sq. mile.

The Town Directory has been complied in seven statements given in the Section II for all the urban areas of the district. For presentation of the data the towns of the district have been arranged in alphabetical

order. The details of the data covered in these statements are as follow :

Note on Statement I

Townwise details relating to status and growth history are given in this statement by arranging the towns in alphabetical order. The civic administrative status of each town has been recorded in Col. 2 of the statement, Col. 5 shows the area of the town in sq. kms. whereas Col. 6 shows the number of households including houseless population. Cols. 7 to 15 show the decadal growth history beginning from 1901 to 1981. The last Cols. 16 to 19 shows the density and sex ratio of 1961, 1971 and 1981 for each of these towns. Out of 8 towns, 5 towns have Nagar Panchayats, and 3 have Village Panchayats As regards population the maximum population of 39,959 persons is found in the town of Himatnagar, followed by Modasa with a population of 31,989 persons. The other towns are below the population of 20,000. Malpur and Meghraj have population of only 4,698 and 6,454 persons respectively and they both small towns.

The population growth rate of the different towns from 1901 to 1981 have been shown from col. 7 to 15 of statement-I. It will be seen from this statement that during the last decade, Himatnagar town has shown the maximum growth rate of 68.15, whereas Khedbrahma, Modasa and Idar towns have a growth rate of 68.07, 42.28 and 34.33 respectively, which is higher than the growth rate of the district. The rest of the towns of Prantij, Talod have the population growth rate below the district growth rate during the last decade.

Note on Statements II

This statement gives the physical aspects of the location particulars of towns. Particulars regarding temperature and rain-falls have been obtained from the Director General of Observatories, Meterological Depart ment, Government of India and the Regional Metrological Centre, Colaba, Bombay.

It is seen from these figures that the literacy rate is directly connected to the population size of the village, the increase in size of population also shows the inerease in literacy rate.

Out of 1,359 villages the population range of 200-499 and 500-1,999 the literacy rate gets increased in size of population. 728 villages which have a population between 500-1,999 have the literacy rate 35.38 whereas 136 villages which have a population between 2,000-4,999 have the literacy rate 41.72 and 14 villages have a population between 5,000-9,999 persons have literacy rate 49.21. There is only one village in the population range of 10,000 and more have 46.05 literacy rate.

Literacy rates of towns

Table No. 20 shows the literacy rates of the towns of the district.

Scheduled Castes/Scheduled Tribes Population

The proportion of Scheduled Castes population to total population vary from 3.74 per cent in Meghraj taluka to 14.70 per cent in Idar taluka. The respective proportion in the rural areas of talukas vary from 3.79 per cent in Meghraj taluka to 14.97 per cent in Idar taluka and in urban areas of talukas it varies from 17.05 per cent in Malpur taluka to 3.13 per cent in Meghraj taluka.

As regards the proportion of Scheduled Tribes population to total population of district varies from 0.44 per cent in Prantij to 72.10 per cent in Vijaynagar Mahal. The respective proportion in the rural areas of talukas varies from 0.39 in Prantij taluka to 72.10 per cent in Vijaynagar Mahal and in the urban areas of talukas it varies from 0.74 per cent in Prantij taluka to 8.76 per cent in Khedbrahma taluka.

In the urban areas the highest percentage of 8.76 per cent is found in Khedbrahma taluka and the lowest percentage of 0.74 per cent is found in the taluka of Prantij.

Literates

The proportion of literate persons to the total population of the talukas vary from 22.47 per cent in Khedbrahma taluka to 48.33 per cent in Himatnagar taluka. The lowest and highest proportion of literate persons to the total rural population of the talukas are found 18.82 per cent in Khedbrahma and 44.50 per cent in Himatnagar taluka respectively. The proportion of literate persons to the total urban population of the talukas are 52.19 per cent in Khedbrahma taluka to 62.56 per cent in Himatnagar taluka. The talukas of Khedbrahma, Bhiloda, Meghraj, Malpur and Vijaynagar Mahal have literacy rate below the district literacy rate 39.80.

Workers and Non-workers

The proportion of main workers and marginal workers to the total population is 30.38 and 8.94 per cent respectively in the district. It is also worth nothing that proportion of main workers in respect of male and female workers to the total male and female population of the district is 50.79 and 9.46 per cent respectively, whereas quite reverse trend is noticed in respect of marginal workers where proportion of male workers and female workers is 1.03 and 17.05 respectively.

From Table No. 21 it will be seen that in respect of urban areas of the talukas the proportion of male main workers to the total male population of the taluka vary from 41.65 per cent in Meghraj taluka to 49.07 per cent in Himatnagar taluka. The respective proportion of female workers vary from 3.73 per cent in Modasa taluka to 7.18 per cent in Malpur taluka. It is also evident that the number of total marginal workers in rural areas in each taluka is very high as compared to its urban areas. The proportion of total workers to the total population vary from 34.12 per cent in Vijaynagar Mahal to 44.06 per cent in Khedbrahma taluka. The respective proportion is also vary in case of male workers from 44.23 per cent in Vijaynagar Mahal to 54.62 per cent in Bayad taluka.

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE FOR PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1981 Census provides information in respect of each village in rural area and town/ward in urban area. It gives information about the area of the village in hectares and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literates. The entire population of village/town/ward is divided into main workers, marginal workers and non-workers and main workers are further divided into four broad industrial categories as under :

1 Cultivators (I)

2 Agricultural Labourers (II)

3 Household Industry –
Manufacturing, Processing, Servicing and Repairs [V(a)]

4 Other Workers [III, IV, V(b) & VI to IX]

The sexwise break-up of total main workers (industrial category I to IX) has been presented in addition to similar break-up for each broad industrial category of workers, marginal workers and non-workers.

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :

1	Municipal Corporation	MC
2	Municipality	M
3	Non-Municipal Area	NM
4	Nagar Panchayat	NP
5	Village Panchayat	VP
6	Cantonment	Cantt.
7	Notified Area	n. a.
8	Industrial Notified Area	INA
9	Not Available	NA
10	Urban Agglomeration	UA
11	Out-Growth	OG

The following conversion factor has been used for converting acres into hectares and hectares into Km^2 :

Acres x 0.40467 = Hectares

Hectares x 100 = Km^2.

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local authorities Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.
