A—CENTRAL GOVERNMENT PUBLICATIONS

The publications relating to Punjab bear Volume No. XIII, and are bound separately as follows :—

Part I-A	..	General Report
Part I-B	..	Report on Vital Statistics
Part I-C(i)	..	Subsidiary Tables
Part I-C(ii)	..	Subsidiary Tables
Part II-A	..	General Population Tables
Part II-B(i)	..	General Economic Tables (Tables B-I to B-IV, B-VIII and B-IX)
Part II-B (ii)	..	General Economic Tables (Tables B-V to B-VII)
Part II-C (i)	..	Social and Cultural Tables
Part II-C (ii)	..	Migration Tables
Part III	..	Household Economic Tables
Part IV-A	..	Report on Housing and Establishments
Part IV-B	..	Tables on Housing and Establishments
Part V-A	..	Special Tables on Scheduled Castes and Scheduled Tribes
Part V-B	..	Ethnographic Notes on Scheduled Castes and Scheduled Tribes
Part VI	..	Village Survey Monographs : 44 in number, each relating to an individual village
Part VII-A	..	Report on Selected Handicrafts
Part VII-B	..	Report and Tables on Fairs and Festivals
Part VIII-A	..	Administrative Report: Enumeration (Not for sale)
Part VIII-B	..	Administrative Report: Tabulation (Not for sale)
Part IX	..	Socio-Economic Atlas

PREFACE

The main reports and statistical volumes pertaining to the 1961-census fall under three broad groups on the basis of territory coverage. The All-India Reports and Tables compiled in the office of the Registrar General, India, encompass the entire country. The reports compiled by the State Superintendents relate to individual States and Centrally Administered Territories. The third group consists of District Census Handbooks the scope of which is limited to individual Districts, and they give information for each town and village. The Handbooks have been compiled by the Superintendent of Census Operations, but are published by the State Government.

The District Census Handbooks were published for the first time at the 1951-census. They proved very useful with the officers working in Community Development Blocks, Tahsils and Districts, and were consulted in connection with elections and by students of social sciences interested in local problems. It was, therefore, decided to continue with this series at the 1961-census. This Handbook contains the essential census data for each village and town (according to wards) in the District. Besides, some very useful information collected from various State Departments has been included in it, trying to make it a self-contained book of reference for the District.

The book is divided into four parts. Part I is mostly descriptive and consists of four chapters. Chapter I introduces the District, giving information on its location, physical features, climate, fauna and flora, towns and places of interest, a brief history of the District and its administrative machinery. In Chapter II are discussed the use of land, main crops and irrigation, industries, trade and commerce, and communications. In Chapter III the salient features of population are discussed. Chapter IV deals with social and developmental activities, and achievements during the First and Second Five-Year Plans.

In Part II are presented the statistics secured from various Government Departments relating to rainfall, temperature, land utilisation, irrigation, area and yield of principal crops, livestock, industry co-operation, education, printing and publishing, entertainments, medical and health, births and deaths, transport and communications, community development activities, banks and insurance, and justice. Then comes a Table on the fairs and festivals in the District.

The Tables relating to the 1961-census are presented in Part III. Part IV contains a Directory of Villages and Towns, showing the location of educational institutions, hospitals and dispensaries, post and telegraph offices, electrification and protected water-supply; area; number of occupied residential houses and households living therein; population; persons belonging to Scheduled Castes and Scheduled Tribes; number of literate and educated persons; number of workers in nine broad industrial categories; and number of non-workers.

The book contains several maps. There is a map of the District showing the administrative boundaries, roads and railways, rivers and canals, and location of towns. Another map shows the distribution of population in the District by dots: the population of towns is shown by proportionate circles; and of rural areas by dots, one dot representing 200 persons. For each Tahsil in the District two types of maps have been prepared, one showing the location of social amenities, and the second showing the boundaries of villages and towns. These maps were prepared in the Cartographic Section in the State Census Office, jointly by Kumaris Ranbir Sokhi and Satwinder H. Singh, both M.As' in Geography.

This publication is the outcome of the joint efforts of a large number of workers and Government Departments, and grateful acknowledgement is made of the help received from them. Within the Census Organisation mention needs to be made of Shri Jaswant Singh Dilawary, Statistical Assistant and Shri Vishwa Mitter, Supervisor, under the supervision of Shri T. P. Garg, P.C.S., Deputy Superintendent of Census Operations, for preparing the Tables presented in Part II and of Shri Goverdhan Dass Singla, Statistical Assistant and Sarvshri Dharam Paul Jain and Joginder Nath Suri, Tabulation Assistants, under the supervision of Shri Pawan Kumar, Tabulation Officer, for preparing the Tables presented in Parts III and IV.

Shri T. P. Garg, P.C.S., Deputy Superintendent of Census Operations, Punjab, paid a number of visits to the various parts of the Rohtak District, and after collecting information by personal observations and discussions with a large number of persons, produced the draft of this Handbook.

My thanks are due also to Shri K. C. Kuriyan, Controller of Printing & Stationery, Punjab, and his Deputy, Shri Tara Chand, for their personal attention in the printing of the book.

R. L. ANAND,

Superintendent of Census Operations,
and Enumeration Commissioner, Punjab.

PART I

INTRODUCTION TO THE DISTRICT

CHAPTER I

INTRODUCTION

Name.—The District derives its name from its headquarters town 'Rohtak' which is a corrupted form of Rohtasgarh, a name still applied to the ruined sites of two older cities; one lying immediately north of the present town and known as 'Khokhra Kot' and the other about three miles to the east. The legend goes that one Raja Rohtas founded the city and named it after himself, and with this legend is also associated the name of a tank outside Gohana town.

Location & boundaries.—The District lies between 28°-22'-30" and 29-°17'-54" north latitude and 76°-9'-12" and 77°-10'-12" east longitude, and is compact in shape. It is bounded by Karnal and Sangrur Districts on the north, Gurgaon and Mahendragarh Districts on the south, the Union Territory of Delhi and Gurgaon District on the east and Districts of Sangrur, Hissar and Mahendragarh on the west.

Area.—The total area of the District according to the Surveyor General of India is 2,330 sq. miles but the Director of Land Records, Punjab, puts it at 2,332.2 sq. miles. The District ranks ninth in area among the 19 Districts of the State. The area of each of its four Tahsils, according to Village Papers, is as follows:—

Tahsil	Area (Sq. miles)		
	Total	Rural	Urban
Gohana	553.2	551.3	1.9
Sonepat	448.4	446.7	1.7
Rohtak	517.1	512.6	4.5
Jhajjar	813.5	810.9	2.6

PHYSICAL FEATURES

The centre of the District is about 730 ft. above the sea level, and there is a gentle slope of one foot per mile from north to south up to Jhajjar and thereafter an ascent southwards. In the northern Tahsil there is also a considerable slope from the west to east. The District cannot claim of any grand scenery but the canals with their belts of trees, the lines of sand hills and some low rocky hills in the south-west of Jhajjar lend a variety to the landscape.

River system.—Except the Jumna, the deep stream of which carves the eastern boundary of the District, there is no perennial river in the District. The Sahibi *nadi*, rising from the hills in Jaipur after passing through the Gurgaon District, flows into Rohtak. It is known for its vagries. Mention may also be made of the Kasawti *nadi*, a hill torrent which rises in Jaipur hills and flows through Rewari Tahsil of Gurgaon to Jhajjar Tahsil of this District, ending in Jahazgarh *Jhil*. The Najafgarh *Jhil* located mainly in the Union territory of Delhi, is also responsible for damage in the south-east corner of the District when it gets flooded by inflow of water from torrents and drains.

Drainage.—Because of its undulating surface, the District suffers from inundation during the monsoon; most of the drains flow towards inland depressions instead of flowing into some river. The most important among them is Drain No. 8 which in its course comes within two miles of the Rohtak town. It starts at Gohana and after traversing southwards for 55 miles tails off in Jahazgarh *Jhil* in Jhajjar Tahsil. Another system of drains starts from Juan and Bhatgaon *Jhils* and they run through the eastern border of the District. During the peak rainy season the drains overflow and at places develop breaches in embankments, thus causing extensive loss to crops and property. The Drain No. 8 is nefarious in this respect, because of its passing by Rohtak town. To meet this menace, the Government proposes to add to this drain a diversion at Gohana from where a portion of the water will be carried to the West Juan Drain leading to the Najafgarh *Jhil*. From a point near Bakheta, another channel will be dug eastward taking water from the diversion drain to the Jumna river. It is also proposed to connect effectively the Jahazgarh *Jhil* with the Najafgarh *Jhil* and widen and deepen the Najafgarh Drain, connecting the latter *Jhil* with the Jumna. When these projects are completed, Rohtak District should become immune to the ravages of monsoon.

Geology.—With the exception of a few small out-liers of Alwar Quartzite, there is nothing of geological interest in the District which is almost entirely covered by alluvium.

Minerals.—The District does not have any important minerals. *Kankir* is found in many parts of the District at depth of 2 to 3 feet below the surface. Licences to extract it are given by the Collector of Mines and Quarries. Useful building stone is found in the quartzite hills of village Guriani and the neighbouring villages. Salt peter is collected at a number of places and the nine refineries at Gohana, Jhajjar, Rohtak and Sonepat extract salt peter by indigenous method of crystallisation.

CLIMATE

The climate of the District is more moderate than of many other Districts in the State. In daily talk the year is distributed broadly into three seasons, each of four months; *Karsa* or the hot season, *Chaumasa* or rainy season and *Jada* or winter. In March the cold begins to give way to warmth and the weather becomes mild and pleasant unless disturbed and again made cool by an occasional thunder shower accompanied by hail. A great rise in temperature and ferocity in the sun shine is experienced in April. This is sometimes so intense that *rabi* crops ripen a week earlier than *Baisakhi.* The temperature continues to rise till June which is the hottest month. Hot winds blow steadily from the west and bring dust storms from the neighbouring Rajasthan desert. There are, however, no disastrous cyclones or hurricanes. The first rain usually falls between 25th June and 15th July, marking the climax of summer. July and August have widespread rains. The last summer-rain occurs between mid-September to mid-October and thereafter the nights become deliciously cool. Frost occurs about the close of the year and sometimes again in February. The climate on the whole is dry and healthy.

Statistics regarding temperature are not forthcoming as the Meteorological Department does not record the temperature of any place in the District.

RAINFALL

Table 1* in Part II contains monthly figures of the number of rainy days and amount of fall during 1951 to 1960 for the four Tahsil headquarter towns. The decennial average figures are given below:—

Town	Average annual Rainfall (cms)
Gohana	58.7
Sonepat	54.9
Rohtak	57.5
Jhajjar	51.6

There is practically no rain during April to June and between December to February. The little rain in winter is very much welcomed since it is good for the *rabi* crops. The most important characteristic of the local rainfall is its extreme partiality. Heavy rain is often received at one place, while at another a few miles away, it may be quite dry. The resulting precariousness of cropping is deplorable. The winter rains are scanty and uncertain. Consequently the *kharif* is the important harvest and the *rabi* on unirrigated lands is precarious.

Fauna.—The District is reputed for its large herds of antelope and gazelle. Hare, foxes and jackals are very common and wild cats are also found here and there. Wild pig is also seen occasionally. Of the poisonous varieties, the cobra is quite common. Besides lizards, chameleons are quite plentiful. Of game birds, the partridges, duck, goose teal and crane are common.

Flora.—The District is not adequately wooded. The finest trees and the greatest variety are to be found along the banks of the old canals. Here *shisham* (Dalbergia sissoo), *siris* (Albizzia lebbek), mulberry *tut* (Morus), mango (Mangifera indica), *pipal* (Ficus religiosa), *guler* (Ficus cunia), *ber* (Ficus indica), *lasura* (Cordea mysa) and *shimual* (Bombax heptophylla) are to be found. *Shisham* is the most common on the road sides. Of small trees and shrubs, *kair*(Chapparis aphylla) and the *ber* or *jhar pala* (Zyzyphus jajuba) grow abundantly in unweeded fields and provide valuable fodder. Other noticeable shrubs are *konger* (Istachia integerrima), *merelan* (Lycium europaeum) and other thorny growths which seem to affect sandy soils as does the *naffans* or prickly pear (Cactus). The common weeds are *aak* (Calotropis procera) and the *kandai-satia nasan* (Arem one mexicana). The grasses are numerous, the most common being *munj* (Sachharum sara) on sandy tracks and *dub* (Cynodon dactylon) which grows in abundance where soil is good and moist.

*Page 40

HISTORY*

The town of Rohtak is stated to have been founded by a Powar Raja, Rohtas, and was rebuilt by the famous Prithvi Raj in 1160. It was invaded and probably destroyed by Mohammed Bin Sam, founder of the Ghori dynasty. During the reign of Akbar the present District was a part of the *Suba* of Delhi.Akbar bestowed the town of Maham, in *jagir* upon Shahbaz Khan, an Afghan. In the second half of the 18th century the District was held partly by Biloch Bahadur Khan and Najaf Khan and partly by Walter Reinhardt, husband of *Begum* Samru of Sardhana. From 1785 to 1803 the north of the District was occupied by the Raja of Jind while the Southern and Western parts were held by the Marathas. On 30th December, 1803, however, the Marathas gave their portion of the District to the East India Company and soon after the Raja of Jind also tendered his allegiance.

The formation of the District dates back from the year 1809. At first it was part of the *Shimali Zillah* which stretched from Panipat to Sirsa. In 1824, a separate District was made consisting of the Gohana, Kharkhauda, Mandauthi, Rohtak-Beri, and Maham-Bhiwani Tahsils.The District was of the shape of a triangle, Gohana forming the apex, and the base extending from Bhiwani to Mandauthi. The District was abolished in 1841 but in the following year it was created anew.

The three famous ruling houses connected with the District were; the Dujana family, the Jhajjar Nawab's family and the Bahadurgarh house, before the events of 1857, which casued two of them to disappear from the role of native rulers.

Events of 1857.—The troops at Meerut went into rebellion on the 10th May, 1857 and on the following day seiged Delhi. By the 24th of May the District had been abandoned by its officers and had all signs of law and orders thrown to the winds and became the scene of faction fights. Law and order was restored on the 26th September, twelve days after the fall of Delhi. As a result the Nawab of Jhajjar was hanged and his property annexed, and the Nawab of Bahadurgarh forfeited all his possessions. This necessitated several administrative changes. Jhajjar, including Narnaul, Kanaundh, Dadri and the rest of the old territory was crea'ed into a District. In 1858, the two Districts of Jhajjar and Rohtak passed to the Punjab. Dadri was given to the Raja of Jind and Narnaul to Patiala and Kanti and Bawal to Nabha. Jhajjar District was abolished in July, 1860 and Jhajjar Tahsil was added to Rohtak. In 1861, Maham Tahsil was abolished.

A regular settlement of Jhajjar and Bahadurgarh was completed in 1862 and the revised settlement of the whole District came into force in 1879. In 1878, the new alignment of the Western Jumna Canal was taken in hand and drainage channels were constructed throughout the District. The second revised settlement took place in 1909.

At present the District is administratively arranged into two Sub-Divisions and four Tahsils.

TOWNS AND PLACES OF INTEREST

Maham (Area 1.37 sq. miles : Pop.(1961)9,300).—It is a small town twenty miles west of Rohtak and bears traces of former importance. The town has a Municipal Committee, a Post Office and a Police Station. There is an old *bauli* with five gates. Here a *mela* is held annually in *Bhadon.*

Gohana (Area 0.55 sq. mile: Pop. (1961) 11,076).—The town of Gohana, situated on the Rohtak branch of the Western Jumna Canal, is 19 miles north-east of Rohtak. It is the headquarters of the Tahsil and has a Municipal Committee of the Class III. The town was electrified in 1956. A *Jal Jholni Mela* is held here in the month of *Bhadon,* when the idol of Krishna is taken out in procession and is immersed in water in the evening.

The Drain No. 8 which flows at some distance from the town is being broadened and because of its taking in its ambit a local tank, now almost touches half the perimeter of the town. This has led to the damage of some buildings lying on the outskirts and deterioration in the drainage of sullage water. It is hoped that when the scheme is completed and the bank of the drain is levelled, this complaint of the town will be removed.

Along the road leading from Rohtak there are four units engaged in refining salt peter by the process of crystalisation.

Sonepat (Area 1.69 sq. miles : Pop. (1961) 45,882).—This second biggest town of the District lies on the Delhi-Ambala railway line, 27 miles from Delhi. Some hold that the town was founded by Raja Soni who named it after him. While other associate it with Swaranprast of the Mahabharat times. The town is developing rapidly in industries of different types. Its 'Industrial Area' has several big factories. The most important among them is the Atlas Cycle Company, engaging some two thousand workers and producing about 2 lakh bicycles in a year. Its sister concern, the Mico Industries manufactures free-wheels and chains, and is perhaps the only concern in this line in India. Other industrial units of considerable size are engaged in the production of radios, miniature bulbs,

*Source.—District Gazetteer of Rohtak, 1910.

glassware, iron goods, porcelain, paints, waxes, salt peter refining and tapes. The total number of industrial workers n these modern factories is about eight thousand. To meet the requirements of land for industries and to provide housing facilities to workers, the Government have framed an industrial-cum-housing scheme at Sonepat. The Government is also running an Industrial Training Institute and a Surgical Instruments Training Centre.An Industrial School for girls and a Quality Marking Centre also exist. The Labour Welfare Department has established a Labour Colony and a Labour Welfare Centre for the convenience and recreation of labourers. The National Productivity Council has also opened a branch at Sonepat for providing expert guidance to the producers.

There are two Colleges here: C. R. A. College and Hindu College; three High Schools for boys and another two for girls. The Sub-Divisional offices of the Drainage, Buildings and Roads, Public Health and Electricity branches of the Public Works Department are also located in the town.

The grain market of the town claims to be the third in the whole of India for assembling and export of *gur*.

The town is served with a Class II municipality which is handicapped of funds since the Industrial Area which could add substantially to its finances by way of House Tax and Terminal Tax is outside the municipal limits.

Rohtak (Area 4.5 sq. miles: Pop. (1961) 88,193).—The town of Rohtak lies about 44 miles northwest of Delhi and is connected with it both by rail and road. The town is said to have been founded by one of the Powar Rajputs, Raja Rohtas, who gave it the name of Rohtasgarh. The town is said to have been rebuilt during the reign of Prithvi Raj. In 1828 General Mundy speaks of "the ancient and consequently ruinous town of Rohtak. The wide circuit of its dilapidated fortifications and the still elegant domes of many time-worn tanks tell melancholy tales of goneby grandeurs". Before Partition the Muslims played an important role in the life of the town. Barring a few hundred they have left for Pakistan. The town has a number of mosques, some of which are elegant buildings of the Moghul times. Some beautiful *mandirs* have been constructed in recent years, the more important among which is the Durga *Mandir*. At one time the old town, situated on a high land, had a wall all around with gates, which have outlived utility and only three gates can now be seen and they too are dilapidating. The centre of the town now is Chowk Bhiwani from which roads lead out to Hissar, Bhiwani, Jind and Delhi, and these roads are used day and night by buses and trucks.

The town is a market centre in agricultural produce and has also a big timber market. In 1956, a co-operative sugar factory was established, as also a roller flour mill. A cotton spinning mill went into production in 1963. Besides, there are some cotton ginning factories which are very busy in the season on account of increasing acreage under cotton.

Among places of public utility are the Civil Hospital, the Municipal Library, Water Works, Sir Chhotu Ram Park and Mansarover Park. The educational institutions comprise four Arts and Science Colleges, one College of Education, an Ayurvedic College and a Medical College, five Higher Secondary Schools and four High Schools. There are also four technical institutions where training in various crafts is imparted to boys and girls. These institutions trained 446 technicians (322 boys and 124 girls) during 1960.

Bahadurgarh (Area 1.00 sq. mile: Pop. (1961) 14,982).—The town lies 18 miles from Delhi on the Rohtak-Delhi road. Its old name was Sharafabad. In 1754 it was given in *jagir* by Alamgir II to Bahadur Khan and Tej Mohammed, *Bilochis* of Farrukhnagar, who built a fort and called the place Bahadurgarh. The town has a Municipal Committee of Class II. The public buildings here are the Kamla Nehru Hospital and a grain market called Fateh *Mandi*. Four High Schools cater to the educational needs of the town. On the outskirts of the town the 'Industrial Area, designed in 1949 has some 75 industrial units, chief among whom are the Hindustan Twyford Company producing sanitary wares, H.R. Bhalla and Sons manufacturing cycles, Hindustan Engineering Works manufacturing cycle spokes and United Steel works manufacturing ammunition boxes.

Beri (Area 1.00 sq. mile: Pop. (1961) 10,840).—Lying 15 miles south of Rohtak on the direct road between Delhi and Bhiwani, Beri is a trade centre of some sort. Two fairs are held here annually in the month of *Chet* and *Asoj* in honour of *Devi*. A large number of devotees from all walks of life and different places come here to make their offerings to the goddess and many of them perform the tonsure ceremony of their children. Two cattle fairs are also held during the months of *Phagan* and *Bhadon*, where sale and purchase of cattle is executed and prizes are distributed to the owners of the best cattle.

Jhajjar (Area 0.65 sq. mile: Pop. (1961) 14,234).—The headquarters of a Sub-Division, the Jhajjar town is 35 miles west of Delhi and 21 miles south of Rohtak. It was formerly the seat of the *Nawab* of Jhajjar. After the confiscation of the *Nawab*, it became the headquarters of a British District but was abolished in 1860 and added to the Rohtak District. The town has a Municipal Committee of Class II, a Degree College, a Polytechnic and a *Sainik* School. The principal buildings are the old palace of the *Nawab*, now used as Tahsil office and the Jahan Ara Garden, now converted into a rest house. The town is known in the neighbourhood for its pottery. Recently (1963) a private enterprise has established a factory for the production of aerosol products such as boot polish, shampoo, etc.

7

ADMINISTRATION

For general administration, Punjab is divided into three Commissioner's Divisions and further into 19 Districts. Rohtak is one of the six Districts under the administrative control of the Commissioner, Ambala Division, subject to over all control of the State Government. The District is in the overall charge of a Deputy Commissioner.

Deputy Commissioner and his Assistants.—In recent years the District administration has widened its scope from mere maintenance of law and order and collection of land revenue. There is now greater stress on developmental activities. The administration of the District is vested in the Deputy Commissioner who continues to be the hub of the District administration. As District Magistrate, he is responsible for the maintenance of law and order and is the head of the District Police and Prosecuting Agency. As Collector, he is incharge of the revenue administration. He is the highest revenue judicial authority in the District. He is the Registrar of transactions of immovable property. As Deputy Commissioner, he is the executive head of the District. He co-ordinates the activities of the various departments, executes developmental schemes and looks after measures against floods, locusts, etc. He controls and guides the working of Municipal and Market Committees and Community Development Blocks. He has an important role to play in the *Panchayati Raj* set up, in his capacity as the supervising authority of *Panchayat Samitis* and *Zila Parishad* by way of general guidance explaining to them Government policies. He is responsible for the execution of development and planning schemes and as the Chairman of the Standing Committee of General Administration and Development, he co-ordinates the activities of the various nation building departments. He has to keep his fingers on the pulse of the people and presents such of their grievances to Government as he himself cannot redress.

In these multifarious duties, the Deputy Commissioner is assisted by a number of Assistant Commissioners and Extra Assistant Commissioners at the District headquarters and at the Sub-Divisional and Tahsil levels.

Sub-Divisions and Tahsils.—There are 4 Tahsils in the District: Gohana, Sonepat, Rohtak and Jhajjar, the last having the Sub-Tahsil of Nahar. In pursuance of the Government policy of decentralising authority and converting Tahsils into Sub-Divisions, Sub-Divisional Officers (Civil) have been posted at Sonepat and Jhajjar. The Sub-Division at Sonepat is the oldest in the State and was created in 1912 while the Jhajjar Sub-Division was formed in 1955. The Sub-Divisional Officer is either an Assistant or an Extra Assistant Commissioner and exercises control over Tahsildar and Naib -Tahsildars. His powers vis-a-vis the Sub-Division are analogous to that of the Deputy Commissioner vis-a-vis the District, though he exercises them in consultation with and without detriment to the authority of the Deputy Commissioner. He also exercises First Class Magisterial powers.

The Tahsildars and Naib-Tahsildars are vested with Class II and Class III magisterial powers, respectively, and on the revenue side they are Assistant II Grade Collectors. Besides, they play an important part in accelerating the execution of various development schemes. Their services are utilised to the maximum at the time of any emergency. They are assisted in revenue work by the Office *Kanungo* and a number of Field *Kanungos* and *Patwaris*. The preparation of village records and revenue statistics rests with the *Patwaris* of whom there are 344, each incharge of a circle consisting of one or more villages.

The *Lambardar* collects the land revenue and deposits it in the Government treasury. He is in many ways an important part of the administration and looks after the law and order situation in his area and sends periodical information about births and deaths as also any breach of law to the nearest police station. For this purpose a *Chaukidar* is also appointed to assist him. The *Patwari* and *Chaukidar* receive monthly salaries while the *Lambardar* whose office is hereditary, gets 5 per cent of the land revenue collection.

Judiciary.—Separation of judiciary from the executive has not yet been affected in the District. On the civil side, the administration of justice is headed by the District and Sessions Judge, Rohtak, who is assisted by a Senior Sub-Judge at the headquarters and 3 Sub-Judges, posted at Rohtak, Sonepat and Jhajjar, respectively. On the criminal side, the administration of justice is controlled by the District Magistrate, Rohtak, who is assisted by the Additional District Magistrate and Sub-Divisional and Resident Magistrates.

Government cases for the Civil and Sessions Courts are presented by the District Attorney who is under the administrative control of the Legal Remembrancer, Punjab. The Prosecuting Inspector, assisted by Prosecuting Sub-Inspectors, conducts the cases for the State in the courts of Magistrates.

Police.—The District Police administration is controlled by the Superintendent of Police who assists the District Magistrate in the maintenance of law and order. He functions under the administrative control of the Deputy Inspector-General of Police, Ambala Range and is assisted by one Deputy Superintendent. The organisation under

him consists one Assistant/Deputy Superintendent, 3 Inspectors, 28 Sub-Inspectors, 41 Assistant Sub-Inspectors, 91 Foot Head Constables, 686 Foot Constables and 6 Mounted Constables. The lowest unit of police administration is the police station, serving a number of villages or a town. The Sub-Inspector is the incharge of a police station. There are 14 police stations and 3 police outposts in the District.

Jails.—There is the District Jail at Rohtak and a Sub-Jail at Sonepat. The Jail at Rohtak is under the charge of a whole-time Superintendent. Its authorised accommodation is for 207 inmates, including a women's ward under a Matron. The Sub-jail at Sonepat is under the local S.D.O. (Civil).

Community Development.—The District stands divided into the following 15 Community Project and National Extension Service Blocks (early 1963):—

Tahsil	Name of the Block
Rohtak	Rohtak, Ganaur, Kalanaur
Gohana	Gohana, Maham, Qathura, Mudlana
Sonepat	Sonepat, Kharkhauda (At Sampla), Rai
Jhajjar	Jhajjar, Bahadurgarh, Nahar, Sahlawas, Beri

A Block consists of some 54 villages and is under the charge of a Block Development and Panchayat Officer who has been vested with powers of Panchayat Officer under the Punjab Gram Panchayat Act, 1952. The B. D. P. Os. are under the immediate administrative control of the S. D.Os. (Civil). They have no administrative functions and are mainly concerned with the promotion and execution of development schemes. He is the ex-officio Executive Officer of the Block *Samiti.*

The Block Development and Panchayat Officer has a number of Extension Officers belonging to various departments to assist and advise him in their respective spheres like the agriculture, industries, co-operation and education. At the lowest rung of the Extension Service Scheme are the Village Level Workers and Lady Social Workers who attend to development and social educational plans aiming at improving the social, economic and health conditions of the rural population.

Zila Parishad, Panchayat Samiils and Panchayats.—The *Panchayat Samitis,* one for each Development Block, elected under the Panchayat Samitis and Zila Parishads Act, 1961, cater to the requirements of the areas under their jurisdiction in respect of agriculture, health and rural sanitation, social education, co-operation and allied activities. Their members are elected from amongst the members of the village *Panchayats,* constituting the Block.

At the District level, a *Zila Parishad,* consisting of representatives from village *Panchayats, Panchayat Samitis* and some co-opted and nominated members, has replaced the age old District Board. The *Zila Parishad* is responsible for the framing of District Plans. It guides and supervises the *Panchayat Samitis,* scrutinises their budgets and undertakes a good deal of special development works.

The Punjab Gram Panchayat Act, 1952, provides for the establishment of a *Panchayat* in every village with a population of not less than 500 persons or a group of smaller villages with a joint population of not less than 500. At present there are 709 *Gram Panchayats* in the District with a total membership of 4,593 persons.

Elected on the basis of adult franchise, the *Gram Panchayats* are statutory bodies and charged also with the functions including criminal, civil and revenue justice, besides administrative and executive duties. These powers at the moment are limited, but will be extended in due course, as this experiment in decentralisation of authority proves successful. They have been empowered to levy certain taxes and are allowed a specific percentage of land revenue of the village to provide them the necessary funds for discharging their functions. The setting up of these small village republics is, in fact, a bold step forward in the process of democratic decentralisation.

Government Departments.—The working of the Co-operative Depratment in the District is looked after by an Assistant Registrar with his headquarters at Rohtak. The office of the Deputy Registrar, who looks after the administration of the Department in various Districts, is also located here.

The work of the Agriculture Department in the District is under the District Agriculture Officer. He is assisted by specialists in Horticulture, Plant Protection, Soil Science, etc., at the District Headquarters and Agriculture Inspectors and Sub-Inspectors in the N.E.S. Blocks.

There are two Industrics Officers one at the District headquarters and the other at Sonepat. They are assisted by suitable number of Inspectors and Sub-Inspectors. For rural industrialisation and development work, Block Level Extension Officers are posted in various Blocks. Technical education in various crafts is imparted by the Government Training Institutes at Rohtak and Sonepat. Besides, there are Instructors and Demonstrators working in the various Industrial Centres.

The Civil Surgeon is incharge of the hospitals and civil dispensaries in the District and the District Medical Officer of Health looks after the rural dispensaries and the Primary Health Centres and general sanitation in the rural areas. Besides, each Municipality has health staff of its own.

The District Animal Husbandry Officer has under him a staff of 25 Doctors, 87 Compounders and Livestock Assistants working in 26 veterinary hospitals and 6 dispensaries in the District.

The District Excise and Taxation Officer looks after the excise administration in the District and the collections of entertainment duty, sales tax, immovable property tax and state excise duties. The District Food and Supplies Officer looks after the procurement, movement and distribution of foodgrains and other controlled commodities.

The District Inspector and Inspectress of Schools are responsible for the inspection of Middle and Primary Schools for boys and girls, respectively. The supervision of High and Higher Secondary Schools is done by the Divisional Inspector of Schools, Ambala.

Construction and maintenance of Government buildings and roads in the District are under the charge of the Executive Engineer, Rohtak Provincial Division, Rohtak. Similarly, there are Executive Engineers for Electricity, Public Health, Drainage and Irrigation works.

The District Welfare Officer looks after the welfare programmes for Scheduled Castes and Backward Classes. The District Public Relations Officer does publicity and propaganda work.

Local Bodies.—Each of the seven towns (Rohtak, Maham, Gohana, Sonepat, Bahadurgarh, Beri and Jhajjar) has a Municipal Committee. Only one among them, at Rohtak, is a Class I Municipality.

CHAPTER II

ECONOMY

This chapter is divided into four sections: A-Agriculture, Irrigation and Livestock, B-Industries, C-Trade & Commerce, and D-Communications.

A-AGRICULTURE

Peasantry.—As in other Districts of Punjab, agriculture is the chief activity of the people of Rohtak. At the time of 1951-census, 65.6 per cent of the population here was dependent on agriculture. The 1961-census revealed that 69.9 per cent of the workers in the District were cultivators and agricultural labourers. The agricultural population in the 1951-census included the agricultural rent receivers, who in 1961-census were classed among non-workers. The District is fortunate in having sturdy and hard-working Jats who constitute the largest number of agriculturists.

There are three broad types of active workers in agriculture; proprietors, tenants and labourers. A large majority of cultivators are peasant proprietors owning and cultivating their own lands. Accretions to their numbers have accrued from the various land reforms introduced in the post Independence period. Feudal institutions like *jagirdari* and *biswedari* have been liquidated. Occupancy tenants have now become full-fledged proprietors. Similarly, many among the tenants-at-will, who were able to purchase land under the law, have also become proprietors. Some landlords circumvented the law by entering into *benami* transactions and mutate their lands in favour of their relatives and confidants so as to retain ownership under a different guise. But now ceilings have been prescribed and law is becoming more helpful to tenants to purchase the land they till.

One consequence of the land reforms has been that such landlords whose only interest in land was to realise rent, have now taken to cultivation with their own hands and by the labourers in order to avoid their lands passing to the latter. This change has given an incentive to mechanised farming on large holdings. Many tenants were evicted and in the absence of alternative vocations of their choice, they have had to accept to work as agricultural labourers. In most cases the resources at their disposal are meagre and they cannot afford to purchase lands even when law affords them opportunity. The result is that the number of agricultural labourers is swelling as the discussion in the next chapter would show.

LAND UTILIZATION

Total area.—As regards size, the District enjoys ninth position among the 19 Districts of the State. The total area of the District (1961), according to the Surveyor General of India, is 2,330 sq. miles. However, according to Village Papers maintained by the Director of Land Records, Punjab, the area of the District measures 2,332.2 sq. miles (1,492,606 acres). The discrepancy in the two sets of figures may be due to the survey area being calculated in blocks, while the area in Village Papers is obtained by adding the area of individual villages. For showing land utilisation and density of population, the figures as supplied by the Director of Land Records, Punjab and referred to also as the figures according to Village Papers, have been utilised in this report.

Table 2* of Part II shows the geographical area of the District and its classification according to the use in terms of quinquennial average figures from 1901 to 1961. The difference in the total area figures over the period of time has been due to inter-District transfers, alluvium and diluvium and re-measurement of land. Table 3† shows detailed figures for each Assessment Circle in the District for the year 1960-61.

Forests.—Mention has already been made of the District not having any regular forests, and about the general paucity of trees. In 1960-61, the Forest Department operated on 6,101 acres, most of which consisted of strips along the roads, canal banks and railway lines. One reserve forest at Nahar (Jhajjar Tahsil) comprising an area of 424 acres and forest nurseries at various places in the District occupying 24 acres, are also being administered by the Forest Department.

Area not available for cultivation.—This class comprises of absolutely barren and uncultivable lands and lands put to non-agricultural uses such as lands under buildings, roads and canals. The combined area of such lands is 118,985 acres or about 8 per cent of the total area of the District. There has been some increase during the decade in this type of land due to construction of new buildings and roads.

Other uncultivated lands excluding fallow lands.—This category relates to culturable wastes, grazing lands, and lands under tree groves not included under the sown area. Such lands cover 141,170 acres, forming above 9 per cent

*Page 42 †Page 43

of the total area of the District. The area under these categories of land is declining because of extension in cultivation during the decade and the process is expected to continue in the years to come.

Cultivated area.—In revenue terminology, a land is styled as 'cultivated' if it had been sown even once during the previous four harvests. Cultivated area comprises of (i) fallow land, and (ii) net area sown. The figures relating to such land during the quinquenniums ending in 1952-53 and 1962-63 are given below :—

	Average of 5 years ending	
	1952-53	1962-63
Fallow lands (acres)	74,769	70,918
Percentage to total area	5.0	4.8
Net area sown (acres)	1,140,873	1,159,667
Percentage to total area	76.4	77.7
Cultivated area (acres)	1,215,642	1,230,585
Percentage to total area	81.4	82.5

In the State as a whole the cultivated area forms 65 per cent of the total area. The high figure of 82.5 for Rohtak is due to nature being generous in giving the District a larger share of land which can be ploughed. At the same time it is a tribute to the diligence of the farmers who have exploited it to their advantage.

Irrigation (Table 4 Part II)*.—The handicap of inadequate and uncertain rainfall in the District has been offset to a limited extent by canal irrigation . Amritsar and Ferozepur are, perhaps, the best irrigated Districts in India with 90 and 63 per cent of the cropped area receiving irrigation. For Rohtak District the corresponding figure is 33, lower than the State figure of 41.

Canal irrigation.—The predominent source of irrigation in the District is the Government canals. The Western Jumn a Canal, the oldest in the State, enters the District at village Ahulana and leaves it at Halalpur, benefiting mostly the Rohtak and Gohana Tahsils. The average area served by canals during the five years ending 1962-63 was 399,280 acres representing only 34.4 per cent of the average net area sown during the same period.

Tube-wells and other wells.—The only alternative means of irrigation are percolation wells and a few tube-wells. The area served by wells increased from 13,260 acres in 1908-09 to 73,800 acres in 1960-61, and lies mostly in Jhajjar and Sonepat Tahsils.

Crops irrigated (Table 5 Part II)†.—There has been a steady increase in the area of crops irrigated in the District during the last sixty years, from 133,385 acres during the quinquennium 1898-1903 to 536,867 acres during 1958-63. More than half the area under wheat and almost the entire area under sugar-cane receives irrigation while gram and *Jowar* are preponderately *barani.*

Main crops.—There are two main harvests in Punjab: the *rabi* (*hari*) and the *kharif* (*sawani*). The *rabi* or spring harvest consists mainly of wheat, gram, barley and some fodder crops. They are sown in October-November and harvested from mid-March to mid-May. The *kharif* or autumn harvest consists of rice, maize, *Jowar, bajra,* pulses, sugar-cane and cotton. These crops are sown in June-August and reaped from early September to late December. Sugar-cane and cotton are sown a little earlier. Some crops come in between these two harvests. For example *toria* matures late in December and is labelled as *zaid* (extra) *kharif.* Similarly, tobacco and millets are harvested late in June, and are styled as *zaid* (extra) *rabi.*

Wheat.—Wheat, the golden grain, is the most important food crop and is the staple diet of the Punjabis. The grain is eaten by man in various forms and the chaff is fed to cattle. The crop was grown on an area of 325,852 acres and its production was, 171,900 tons in 1960-61. The yield per acre at 1,182 lbs. during 1960-61 is, however, modest as compared with some other Districts. The production of wheat in the District has more than doubled during the decade.

Rice.—Rice is sown very restrictedly in the District, chiefly because of lack of water-supply and irrigation facilities. It occupied 7,313 acres in 1950-51 and 11,747 acres in 1960-61. The production of rice was 2,600 tons in 1950-51 and 7,600 tons in 1960-61.

*Page 44 †Page 44

Barley.—Barley is a *rabi* cereal, and is hardier than wheat and requires less time in maturing. Barley is mostly mixed with wheat while making flour, and in a small way is eaten in the form of *sattu* (parched and ground) and for making malt. Barley occupied an area of 27,548 acres in 1960-61 in the District and its production was estimated at 9,700 tons.

Bajra.—Bajra is a *kharif* grain and is grown extensively in the District, chiefly in Jhajjar Tahsil. Grown on 251,908 acres in 1960-61, the production of grain was estimated at 21,900 tons. *Bajra* is a *barani* crop with low water requirements and grows even on poor sandy soils.

Jowar.—This is another *kharif* grain, and is grown *barani*. In 1960-61, it was sown on 232,152 acres and the production of grain was estimated at 15,000 tons.

Maize.—Maize is not a common crop of the District. In 1960-61 only 13,436 acres were devoted to it, mostly in Sonepat Tahsil. The production was estimated at 5,800 tons during the same year.

Gram.—Gram is a *rabi* pulse and suits the District very well. It is eaten by human beings in the form of *chapaties,* cooked as a pulse, or as parched grains, and for animals it is the most popular concentrate. Its green shoots and pods are eaten raw or cooked and is the chief ingredient for *pikoras* (gram flour mixed with vegetables fried) is a very popular dish in Punjab. Among all foodgrains gram occupies the largest area, but since it is grown on unirrigated lands its acreage fluctuates with timeliness of rains. Its acreage in 1960-61 was 433,606 and the production was of the tune of 152,400 tons.

Moong.—Moong is usually sown as a subordinate crop with *jowar* or *bajra.* Sown over an area of 630 acres, its production was 100 tons in 1960-61.

Massar.—This *rabi* pulse is fairly popular and is sown mostly alone on *sailab* land. 4,311 acres were devoted to it in 1960-61 and its production was estimated at 900 tons.

Rape and Mustard.—These oilseeds are prized for bringing to the farmer cash money . They are suited to dry and *barani* lands. An area of 25,563 acres was under them in 1960-61, and the production was about 4,900 tons.

Sugar-cane.—Sugar-cane is the most paying crop provided the land is good and heavily manured and irrigation is bountiful. It stays in the field for almost a year and requires a lot of labour. The same root throws up cane for three successive harvests. With the growing demand for sugar in the country, the acreage devoted to this crop increased from 50,941 in 1950-51 to 101,374 in 1960-61. The production in terms of *gur* was 202,900 tons as against 83,300 tons in 1950-51. Sonepat, Rohtak and Gohana Tahsils together have 90 per cent of the cane area in the District. A substantial portion of the cane is consumed by the sugar mills, one at Rohtak and the other at Panipat. The remaining crop is converted into *gur* and *shakkar,* the former in lumps weighing 4 to 5 kilos each.

Cotton (American and *desi*).—Punjab has responded well to the demand for cotton in India which became deficit on Partition. Not only has more and more area been devoted to the crop, but there has been a shift from indigenous (*desi*) varieties to the long-staple varieties, collectively called American *Kapas.* The Rohtak District had 27 acres under American cotton and 20,564 acres under *Desi* cotton in 1950-51. In 1960-61, the acreage was 24,446 and 10,481 respectively. The yield per acre in Rohtak is low as compared with Hissar and Ferozepur. The crop is sown predominently on irrigated lands. The District produced 20,300 bales of lint in 1960-61 as against 7,800 bales in 1950-51. Cotton is a very paying crop and its value is next only to wheat grown in the District. A major portion of the cotton lands is in Gohana Tahsil.

Chillies.—Chillies is another cash crop grown chiefly in Sonepat Tahsil. It occupied 6,492 acres in 1960-61 when its production was 1,800 tons.

Tobacco.—This is yet another cash crop which occupied 434 acres in 1960-61. The production estimated at 1200 tons is smoked in the form of dry leaves pounded and mixed with molasses smouldered under burning charcoal or dung in earthen *chilam* and the smoke passed through water in the *hukka.*

Agricultural Machinery and Implements (Table 11-Part II)*.—Mechanised cultivation is gaining in momentum. The District had 51 tractors, 87 oil engines with pumping sets, 26 electric pumps in 1956 ; the respective figures of 1961 are 626, 96 and 67. The shift to mechanised farm has received impetus with the rising prices of agricultural articles, and happily the farmers are investing their savings in agricultural machinery which goes for larger production and higher income.

Livestock (Table 10 Part II)†.—Rohtak has made a name in the country for its *Hariana* bread of cattle which are compact animals. The bullocks are good for quick draft and the cows are fairly good milkers though with a short lactation period compared with the *Sahiwal* cows. It is a dual purpose breed. For rich and heavy yields of milk the Rohtak buffaloes rank as number one.

*Page 48 †Page 47

We have seen that cash crops rank fairly high in the agricultural economy of the District. The sale of animals to other States is another source of handsome income to the rural population.

The oxen of the villages round Beri and Jhajjar have a special reputation. The *Nawab* of Jhajjar kept some bulls of *Nagore* breed at Chhuchhakwas and allowed the cattle of the surrounding areas to have recourse to them. Table 10 shows the number of animals in the District counted on 8 occasions between 1920 and 1961. There are no regular pastures in the District but the banks of the Yamuna and the natural growth of grass on fallow lands all over the District provide good grazing during the monsoon season. For the rest of the year the wheat straw and some cultivated green crops are the mainstay for the animals.

Cattle.—There was a mild decline in the number of cattle between 1923 and 1940, which was made up in subsequent years. The number of bulls has remained constant in the case of bullocks which are needed for cultivation. The number of breeding bulls increased from 906 in 1951 to 1,175 in 1961.

Buffaloes.—Buffalo, because of its richer milk, finds favour with the farmer since he can then have ample *lassi* and butter. Besides, the buffalo stands stall feeding better than the cow. The number of buffaloes has consequently shown a steady increase; it almost doubled between 1920 (166,211) and 1961 (314,178).

Horses, Ponies and Mules.—Rohtak is not a horse breeding District, and with the speedier modes of travel coming in vogue the equine population has been dwindling. Their number was 8,926 in 1920 and 6,661 in 1961. The Guriani Pathans in the District were once known for horse breeding but this trade finished completely after Partition when they left the country *enbloc.*

Sheep and Goats.—These animals are kept all over the District, but their number declined from 135,309 in 1945 to 56,726 in 1961. This is due to most of the rearers before Partition being Muslims who having left the country did not find substitutes to carry on the trade which is not lucrative and carries a social stigma.

Camels.—Camel occupies an important position in the rural economy of dry and sandy areas for transport and ploughing. Camel is a rough forager and can subsist on any shrub and can stand any amount of heat and drought. In 1961, they counted 9,392 in the District out of which 4,500 were in Jhajjar Tahsil alone. With the higher transport requirements they are increasingly put before the carts, their present number being three times what it was in 1945.

Bullock Carts.—The number of carts mostly driven by bullocks increased from 35,073 in 1951 to 57,491 in 1961. These carts have an important use for the farmer for transporting agricultural produce, since he has nothing to spend for traction for his bullocks he has to keep in any case.

Cattle Fairs.—As stated earlier, Rohtak District is important for the export of cattle and buffaloes. The bullocks go mostly to Uttar Pradesh and cows and buffaloes to Bombay and Calcutta. Besides the regular flow of animals effected by specialised dealers who have link both in the District and the centres outside, the *Zila Parishad* and some Block *Samitis* and Municipal Committees organise cattle fairs which are attended in large numbers by sellers and buyers. An idea of the quantum of sales effected in these fairs can be had from the following figures of the fee realised on the sale of animals, imposed at a rate of six pies per rupee of the sale price.*

Year	Number of animals sold at the cattle fairs	Amount of fees realised (Rupees)
1961-62	70,522	4,98,611
1962-63	90,451	6,57,090
1963-64	77,752	60,3,478

Animal fairs are held annually, bi-annually, or even quarterly at sixteen places in the District. The biggest fair is that of Jahazgarh and the next in importance are those held at Bahadurgarh, Sampla and Rohtak. The venues of other fairs are Lakhan Mazra, Dujana, Dulehra, Kharkhauda, Kalanaur, Sonepat, Mohana, Maham, Bhakli, Machhrauli Gohana and Nahar.

B—INDUSTRIES

The District has made rapid progress in the industrial field since Independence. The units are of different types and are located chiefly at Sonepat, Bahadurgarh and Rohtak.

*Deputy Commissioner, Rohtak.

At the time of 1961 census, the workers in household industry and manufacturing counted 62,392 persons (Table B I, Part III)*. The number of registered factories in 1951 was estimated at 27 which rose to 41 by the end of the First Plan and to 75 during the Second Plan. A glance at Table 12 and 13 of Part II† will show that industry in the District is expanding and becoming more diversified. The more important industries of the District are described below.

Cycles and their parts.—Bicycle, a cheap sort of conveyance, is an item of necessity for the middle class people. It has been in use for a very long time, but its manufacture is of recent origin. The manufacture of cycle parts has been included in the list of priority programmes of industrial development. The District has two big establishments manufacturing complete bicycles, one each at Sonepat and Bahadurgarh. Also a few concerns have taken to the manufacture of cycle parts such as chains and free-wheels. The Atlas Industries Ltd., with its sister concern, the Mico Industries, at Sonepat, is about the biggest cycle factory in the country. The Atlas factory was established in 1950 entirely with the Indian capital and is equipped with automatic and precision machinery. It provides employment to about 2 thousand labourers per shift and manufactures about 200,000 complete bicycles a year. Besides, Messrs H.R. Bhalla and Sons have also established a factory at Bahadurgarh with an assembling capacity of 2,500 cycles a month.

Steel wire products.—The manufacture of steel wire goods such as barbed wire, nails and penal pins etc. was set up by Messrs Bawa Iron and Steel Works in 1952 at Sonepat. Its goods are consumed for the most part by Electricity, Irrigation, Forests and Public Health Departments in Punjab.

Ammunition boxes.—Messrs United Steel and Allied Industries Bahadurgarh with 150 workers produce some 300 ammunition boxes per day for the Defence requirements.

Sanitary wares.—Messrs Hindustan Twyford have established a big factory at Bahadurgarh for the production of various types of sanitary wares, claimed to be the most modern factory in Asia and the largest unit in the line in India. Its assets run into 1½ crore rupees. With 700 persons it produces 200 pieces of sanitary wares daily and aims at producing 1,500 pieces a day.

Sugar and Khandsari.—A co-operative sugar mill was established at Rohtak in 1956 at a cost of Rs. 1 crore. The factory employs some 900 persons and produced 147,341 bags of sugar in 1960-61. Besides, 197 units in the District are engaged in producing *khandsari.* They are in Sonepat Tahsil. Eleven among these use power crushers and power centrifugals, and are located at Gohana (6), Sonepat (3) and Rohtak (2). The biggest *khandsari* unit in the District is located at village Madina and is run by an Industrial Co-operative Society. The total production of *khandsari* by these units was about 18,000 maunds during 1960.

Sewing Machines.—A big assembling unit of USHA machines has been established at Sonepat. Besides, there are many small units manufacturing sewing machine parts at Rohtak and Bahadurgarh.

Agricultural Implements.—Sonepat, Rohtak, Bahadurgarh and Sampla have quite a large number of small units for the manufacture of various agricultural implements. Nine units at Sonepat manufacture chiefly tractor parts and the units at Sampla manufacture sugar-cane crushers.

Electrical goods.—Two units at Sonepat are engaged in the production of electric porcelain, miniature bulbs and insulated wires.

Surgical equipment.—Three concerns at Sonepat and one at Bahadurgarh manufacture surgical equipments like scissors and trays, etc. Besides, there is an institution for imparting training in the manufacture of surgical instruments at Sonepat which is run by the State Government.

Paper processing, packing and wrapping paper.—One plant at Bahadurgarh produces paper from used paper. The other plants at Sonepat and Bahadurgarh are engaged in the production of packing and wrapping paper like ice cream packing paper.

Optical goods.—There is one plant each at Sonepat and Bahadurgarh, manufacturing frames and optical lenses, respectively.

Weights and measures.—Two units at Sonepat and one each at Bahadurgarh and Rohtak manufacture weights and measures.

Salt peter.—There are 9 salt peter refining units in the District : five units are located at Gohana, two at Sonepat while one each at Jhajjar and Rohtak.

*Page 140 †Pages 49 & 51

Aerosol Products.—Messrs Raja Industries have established a sizeable factory at Jhajjar, for the manufacture of shoe polish, cosmetics, insecticides and laundry starches. They claim it to be the only factory of its kind in the country.

Besides, there are other concerns in the District engaged in flour milling and in the production of battery plates, air pumps, G. I. pipes, steel structures, sodium silicate, rubber goods, tin containers, hosiery goods, shoes, *niwar* and tapes, etc.

Industrial Estates.—The only urban industrial estate in the District is at Sonepat having 18 sheds, and it was established in 1961. The object of such industrial estate is to assist the small scale industrialists by providing them modern factory buildings of standard design, fitted with electric power and water connection. The immediate availability of readymade factory building on rent or higher purchase basis reduces the time-lag between the planning and starting of industries and also saves the entrepreneurs from the blocking of their capital in land and building. The establishment of industrial estates also checks the haphazard growth of industries in towns and avoids the creation of industrial slums. The Common Facility and Development Centres which form part of the Estates, further assist the entrepreneurs by providing them technical know-how and standardising their production.

There are two 'Industrial Areas' in the District, one each at Bahadurgarh and Sonepat. The one at Bahadurgarh having 80 industrial plots, was established in 1949 while the other at Sonepat having 123 plots, was established just after Partition. They were established with a view to rehabilitating the displaced persons from Pakistan. Almost all the plots at both these places have been sold out and are humming with activity. An Industrial-cum-Housing Scheme at Sonepat is under active consideration of the Government. Various factors such as the requirement of land for new industries, housing facilities for workers, controlling industrial over-crowding and solving the problem of industrial ribbon development have led to the origin of the scheme. For this purpose Government has acquired 500 acres of land at village Bandepur on Rathdhana road. Other facilities available to the industrialists and labourers at Sonepat are an Industrial Training Institute, Surgical Instrument Training Centre, Industrial School for Girls, Quality Marking Centre, Allied Engineering Branch of the National Productivity Council, a Labour Colony with 250 quarters and a Labour Welfare Centre.

Provision for the establishment of a Rural Industrial Estate at village Rai (Sonepat Tahsil) exists during the Third Five-Year Plan. A sum of Rs. 3.15 lakhs has already been earmarked by the Government for this purpose. This estate will have 14 sheds which when completed, will prove very useful to the local artisans. Rural Industrial Estates at Jhajjar and Beri and Urban Industrial Estate at Rohtak are also proposed to be set up during the Third Five-Year Plan period. A Heat Treatment Centre is proposed to be set up very soon at Bahadurgarh, which will provide facilities for effecting the desired chemical properties in metals through heat treatment.

C—TRADE AND COMMERCE

The location of and commodities chiefly dealt in the five regulated markets in the District, are shown below.

Market	Main commodities sent out
Gohana	Wheat, *shakkar*, maize and *gowara*
Sonepat	Wheat, *jowar*, *shakkar*, cotton *desi* and *tara mira*
Rohtak	Wheat, gram and *gur*
Sampla	*Gur*, *shakkar*, gram and wheat
Bahadurgarh	*Gur*, *shakkar*, gram, wheat, paddy and *sarson*

Sarson, *gur*, *shakkar*, gram, sugar and other foodgrains are exported from these markets in large quantities. The principal imports into the District are salt, coal, gunny bags, kerosene oil, cloth, iron, machinery and raw material for various industries.

D—COMMUNICATIONS

The District is fairly well served with roads and railways.

Railways.—A strip of 16 miles of broad gauge railway line runs in this District parallel to the Grand Trunk Road. The Delhi-Bhatinda railway line runs right across the District and covers about 35 miles in the District. From Rohtak railway station, a line runs up to Gohana ; it was dismentled in 1942 but was relaid in 1959. The metre gauge Rewari-Bhatinda railway line covers only 9 miles in the District between the stations of Kosli and Jharli. There are 19 railway stations in the District as listed in Table 34*.

* Page 66

Roads (Table 32)**.—The post-Partition period has seen considerable expansion in road construction in the District as the following figures show :—

Year	Road mileage		
	Total	Metalled	Unmetalled
1950-51	791	333	458
1960-61*	931	517	414

There are five Districts in the Punjab which have a longer road length than Rohtak : Kangra (1,483 miles), Hissar (1,416), Gurgaon (1,128), Karnal (1,020) and Ferozepur (978). However, if road mileage is considered in terms of area, Rohtak enjoys good position, with a mile of road for 2.5 sq. miles area.

The Delhi-Hissar-Sulemanki National Highway has a strip of 52 miles in the District on which fall Bahadurgarh, Sampla and Rohtak. The Grand Trunk Road enters the District at mile 15 and after traversing 23 miles leaves it at 38th mile. The road runs parallel to the Delhi-Ambala railway line and passes along Sonepat. Other important roads are the Sonepat-Kharkhauda-Rohtak, Sonepat-Gohana, Delhi-Kharkhauda, Chhuchakwas-Salhawas, Sampla-Kharkhauda, Salhawas-Kosli-Nahar, Beri-Maham, Jhajjar-Farrukhnagar, Gohana-Lakhan Mazra, Matan Hail-Jharli-Bahu and Chhara-Bahadurgarh Road. Besides, there are several link roads connecting towns and villages with the bigger roads. Gohana, Rohtak and Jhajjar each have five roads converging to them.

Road transport.—The number of various kinds of motor vehicles registered in the District showed a phenomenal increase from 533 in 1951 to 2,563 in 1961.

Water-ways and Airways.—Ferries are maintained by the *Zila Parishad.* The direct contact of Rohtak with Uttar Pradesh is through five ferries on the Yamuna. It will be a great facility for trade if a bridge across the river is built at Baghpat, connecting the flourishing town of Sonepat with Meerut.

Post and Telegraph (Table 33 Part II)@.—In 1910, the District had only 55 post offices. The position in 1961 improved to the extent shown below.

Tahsil	Number of Post Offices
Gohana	62
Sonepat	47
Rohtak	65
Jhajjar	98
Total	**272**

There is now a post office serving on an average three villages or for every 9 square miles.

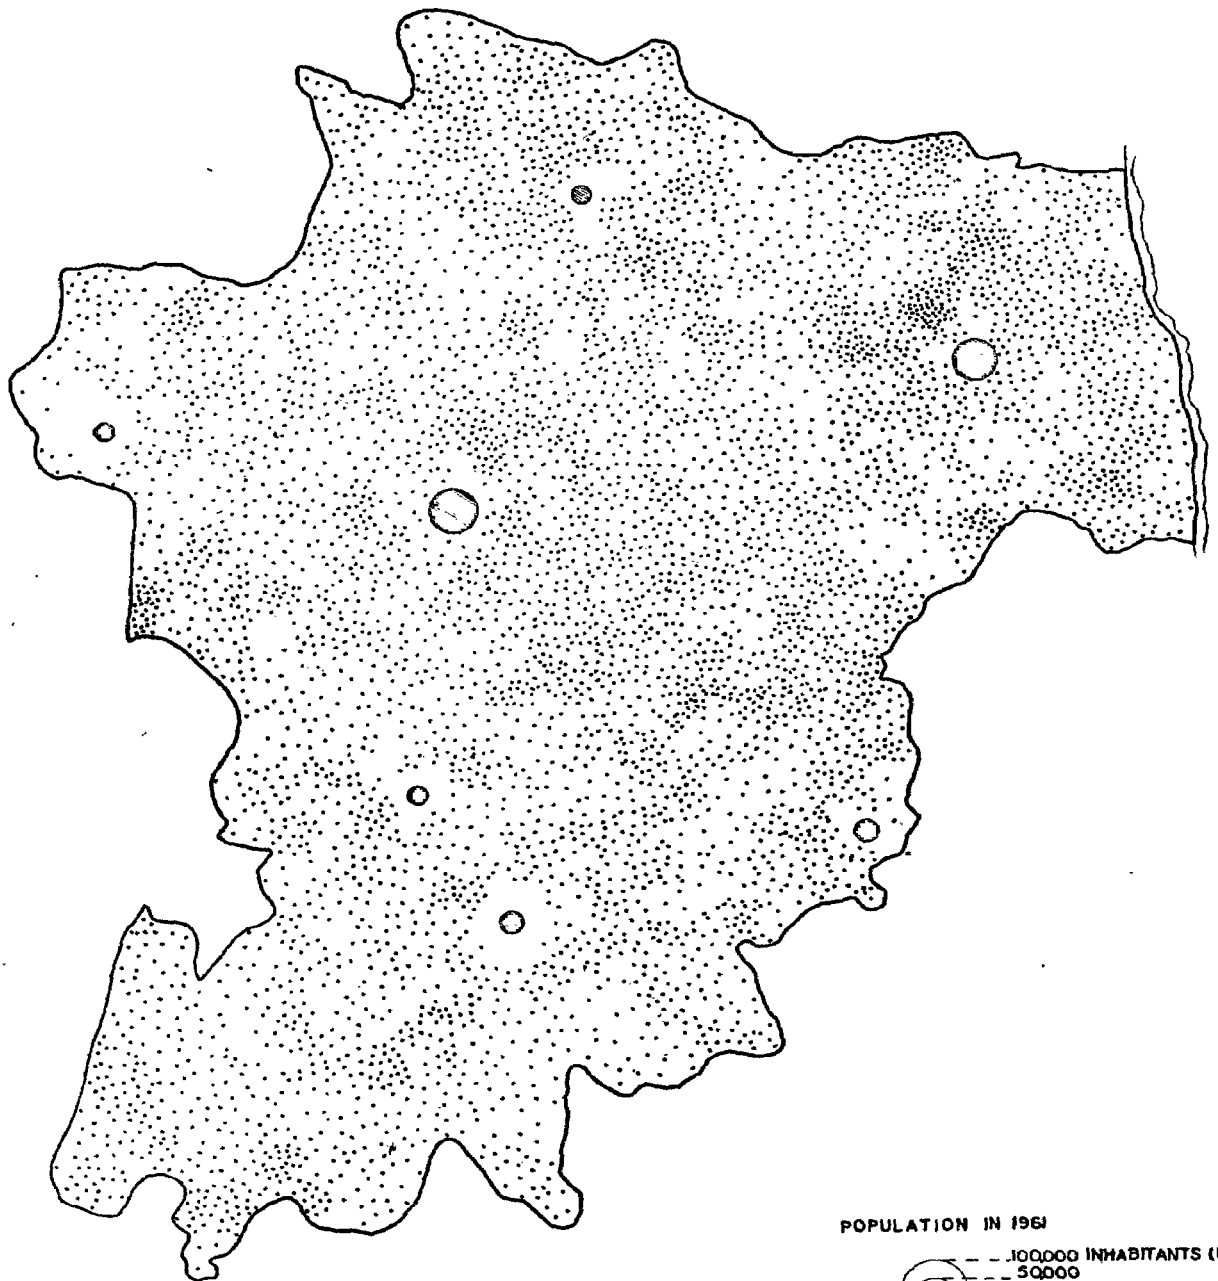

There was no telephone exchange in the District in 1910 and telegraph facilities were available at 6 post offices. But 12 telephone exchanges, including public call offices, functioned in 1961 and telegraph facilities were available at 19 post offices.

**Page 63 @Page 65 *1960-61 figures also include 64 miles of roads maintained by the Municipal Committees in the District.

CHAPTER III

POPULATION

Part III of this book contains Tables relating to 1961 census. These Tables are preceded by an exhaustive note explaining their contents and terms used. The more important facts contained in these statistics are stated below.

Area (Table A-I)*.—The Rohtak District covers 2,332.2 sq. miles (6,040.4 sq. km) and is divided into four Tahsils : Jhajjar (814 sq. miles), Gohana (553), Rohtak (517) and Sonepat (448).

Population.—On the sun-rise of the 1st March, 1961, the District had 1,420,391 persons (751,225 males, 669,166 females). Rohtak ranks sixth in population among Punjab Districts, the first being Ferozepur with 1,619,116 persons.

Growth of Population.—The District had 858,184 persons in 1901. During the next 60 years (1901—61) the population increased by 65.5 per cent. The population of Punjab, as at present constituted, similarly increased from 13,265,860 in 1901 to 20,306,812 in 1961, denoting an increase of 53.1 per cent. The pace of increase during the six decenniums since 1901 can be seen from the following figures. In four out of six decades the increase was faster in Rohtak than in the State as a whole.

Decade	Percentage decade variations	
	Rohtak	Punjab
1901—11	—13.7	—10.0
1911—21	+ 7.8	+ 4.4
1921—31	+ 4.5	+ 9.6
1931—41	+18.4	+17.8
1941—51	+13.7	+ 0.2
1951—61	+26.6	+25.9

There was a net decrease all over the State during 1901—11 owing to the large number of deaths from epidemics. The decade 1941—51 bore the holocaust of Partition on the heels of which a large number of Muslims migrated to Pakistan and the Non-Muslims moved in from that side and settled in different parts of India. As a result of this movement the population recorded in 1951 did not show any appreciable increase in Punjab. The Districts removed from Pakistan, however, registered substantial increase because the emigration and immigration more or less balanced and the natural increase was not camouflaged. The Rohtak District because of proximity to Delhi had good scope for gainful employment, attracted quite a number of the refugees. The years, 1951—61, were free of diseases and health measures taken by Government considerably reduced the death rate while the birth rate remained almost unchanged. That is why the year 1961 witnessed an increase of 26.6 per cent over the figures of 1951. This high rate of population growth is a matter of great concern, and if this rate persists, it will lead the country into difficult problems.

Density of Population.—Punjab has on an average 429 persons to a square mile with Jullundur District as the most thickly populated (914) and Lahaul & Spiti as the sparsest (6). The number of persons per square mile in Rohtak District works out to 609 and in this respect it ranks fifth among the 19 Districts in the State. Out of the four Tahsils constituting the Rohtak District, the highest density of population is in Rohtak Tahsil which supports 765 persons on a square mile. This is mainly because of inclusion of Rohtak Town in this Tahsil. The lowest density is in Jhajjar Tahsil which supports 505 persons per square mile. The eastern portion of this area suffers from floods almost every year.

The towns in the District have great congestion, having 18,077 persons per square mile as compared with 9,476 in the Punjab towns as a whole.

* Page 136

Villages.—The District has in all 806 villages of which 45 are uninhabited (*be-charag*), of which 34 are located in Jhajjar and Sonepat Tahsils. 27 out of 31 villages in the District with population less than 200 are located in Jhajjar and Sonepat Tahsils.

The number of persons per inhabited village works out to 1,611 in Rohtak District against 763 for the villages in the State as a whole. The villages in Rohtak and Gohana Tahsils are big units with 2,441 and 2,262 persons per village respectively whereas the villages in Jhajjar and Sonepat Tahsils are compartively smaller units with an average population of 1,287 and 1,221 persons.

There are, however, 22 villages in the District with population between 5,000 and 9,999. 186 villages have population between 2,000 and 4,999 whereas 244 villages have population between 1,000 and 1,999. The village Dighal in Tahsii Jhajjar has the highest population (8,233) among the villages in the District.

Towns.—In Table A-IV* particulars are given of the 7 towns in the Rohtak District.

There is no Class I town (population 100,000 and above) in the District, and the only Class II town (50,000—99,999) is Rohtak with a population of 88,193, and next to it is only Class III town (20,000 —49,999) Sonepat with a population of 45,882. During 1951-61 the population of this town increased by 52.0 per cent due to the growth of industry, and its short distance from Delhi.

Among Class IV towns (10,000—19,999) are Bahadurgarh, Jhajjar, Gohana and Beri. Except Beri these towns have also shown a remarkable growth in population during 1951-61. The only Class V town (5,000—9,999) is Maham with a population of 9,300.

In the District 86.3 per cent of the total population lives in villages and 13.7 per cent in towns. The corresponding figures for the State are 79.9 and 20.1 per cent, respectively.

Sex Ratio.—In Punjab there are 864 females per 1,000 males which is the lowest figure among the States in India : the corresponding figure for the Indian Union is 941. In the area comprising Rohtak, Gurgaon and Mahendragarh Districts, the sex ratio is higher than the State average, and the number of females per thousand males is 891,881 and 929, respectively. There has been an improvement in favour of women during the last half century as the following figures show :—

FEMALES PER THOUSAND MALES

Year	Rohtak District	Punjab
1901	881	848
1911	856	807
1921	852	821
1931	864	830
1941	915	850
1951	893	858
1961	891	864

Among the four Tahsils, Jhajjar leads with 909 females per 1,000 males followed by Gohana (891), Rohtak (885) and Sonepat (875).

Age composition.—In Table C-II**, the population of the District is distributed by age groups. A Table is given on next page in which totals have uniformly been taken as 1,000.

*Page 139 **Page 216

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY AGE GROUPS

Age Group	Total Population			Rural		Urban	
	Persons	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7	8
All ages	1,000	1,000	1,000	1,000	1,000	1,000	1,000
0—9	330.65	330.01	331.37	334.19	332.29	304.04	325.48
10—14	128.56	129.83	127.12	131.37	127.78	120.26	122.95
15—19	86.25	88.98	83.18	85.95	82.42	107.84	88.00
20—24	76.09	69.91	83.03	67.56	82.48	84.54	86.53
25—29	70.88	66.05	76.30	65.27	76.14	70.94	77.32
30—34	57.96	54.82	61.48	54.21	61.37	58.59	62.21
35—39	47.86	45.19	50.85	44.10	50.85	51.97	50.85
40—44	50.02	50.25	49.77	50.40	49.93	49.33	48.79
45—49	39.25	40.76	37.56	41.36	37.88	37.00	35.49
50—54	37.05	38.77	35.13	39.02	34.96	37.18	36.19
55—59	19.67	21.57	17.53	21.74	17.51	20.53	17.67
60—64	25.78	28.50	22.72	28.88	22.79	26.14	22.24
65—69	11.45	13.69	8.93	13.96	8.93	12.00	8.91
70+	18.23	21.38	14.70	21.73	14.39	19.18	16.72
Age not stated	0.30	0.29	0.33	0.26	0.28	0.46	0.65

A District, situated as Rohtak is, has substantial inflow and outflow of population in different stages of life, and it will not be safe to draw any inference categorically. However, generally speaking, the age pyramid has a broad base and tapers rather obliquely. Roughly speaking, 4 out of every 10 persons are below the age of 15, 5 in the groups 15 years to below 55 and only 1 past the age of 55.

The age span of females is generally lower than the males. Males of the age 50 years and above are 124 per 1,000 males, the corresponding figure for females is 99. This disparity is a bit larger in villages than in towns. The girls in rural areas unfortunately still do not receive the same care as boys and after marriage they have the extra handicap of maternity trouble and stress of domestic life.

A large number of persons shift from villages to towns for study and livelihood, leaving their families in villages. When past the age of useful work, some among them go back to their villages. The effect of this type of movement is reflected in rural and urban age composition. In the age group 15 to below 55 years, there are 497 per thousand males in towns as compared with 448 in villages. The corresponding figures among females are 485 and 476, respectively. In the earlier and later ages, the figures for rural areas are larger.

In Table C-II* persons in different age groups are further classified according to their marital status. To comprehend the significance of these figures, 1,000 males and 1,000 females for the District as a whole and for urban and rural areas are distributed according to their marital status.

1,000 MALES AND FEMALES CLASSIFIED ACCORDING TO MARITAL STATUS

Marital Status	TOTAL		RURAL		URBAN	
	Males	Females	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000	1,000	1,000
Never Married	561.18	461.89	558.68	456.28	576.77	497.76
Married	388.38	469.59	388.63	476.06	386.81	428.14
Widowed	49.99	67.94	52.33	67.22	35.40	72.59
Divorced or Separated	0.18	0.22	0.16	0.18	0.34	0.44
Unspecified status	0.27	0.37	0.20	0.26	0.68	1.07

It will be noticed that in the District as a whole some 56 per cent of males and 46 per cent of females are unmarried. The higher proportion of the unmarried among males is due to shortage of females which aspect has been studied earlier. Correspondingly there is a higher proportion of the married among females (47 per cent) than among males (39 per cent).

Marriage in this country is universal and there is always an explanation for an old bachelor and spinster. In the following Table the unmarried males and females are classified according to age in terms of 1,000 males and females.

AGE COMPOSITION OF 1,000 NEVER MARRIED MALES AND FEMALES

Age groups	RURAL		URBAN	
	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000
0—9	598.18	728.26	527.14	653.88
10—14	223.15	233.21	205.47	233.31
15—19	100.65	36.09	162.78	94.81
20—24	29.71	1.27	70.65	13.79
25—29	12.06	0.30	14.85	1.46
30—34	7.32	0.22	5.00	0.60
35—39	5.44	0.08	3.07	0.42
40—44	5.82	0.11	3.25	0.16
45—49	4.46	0.04	1.83	0.16
50—54	4.29	0.05	1.85	0.18
55—59	2.45	0.01	0.87	0.04
60—64	2.98	0.05	1.17	0.02
65—69	1.32	0.02	0.57	0
70+	1.84	0.03	0.83	0.02
Age not stated	0.33	0.26	0.67	1.15

*Page 216

It will be seen that there are only 29 males per 1,000 males who are past the age of 34 and only 2 spinsters per 1,000 females who are past the age of 19 years in rural areas. The corresponding figures for urban areas are 13 and 17 respectively.

Literacy.—Three Tables labelled as C-III* give information on literacy by age groups, sex and educational levels in rural and urban areas of the District. The position is summarised below.

LITERATES PER THOUSAND POPULATION ABOVE THE AGE OF FIVE YEARS

Educational level	Rohtak District						Punjab					
	Total		Rural		Urban		Total		Rural		Urban	
	M	F	M	F	M	F	M	F	M	F	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13
Total	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000
Illiterate	610	892	656	935	330	614	611	831	681	896	346	568
Literate	390	108	344	65	670	386	389	169	319	104	654	432
Literate without educational level	168	58	152	36	271	199	167	85	155	63	211	175
Primary or Junior Basic	172	43	161	27	234	145	166	70	137	38	276	200
Matriculation and above	50	7	31	2	165	42	56	14	27	3	167	57

Roughly speaking only one male out of 3 and one female out of nine can read and write, the test adopted for literacy. Roughly, half this number had schooling and one male in 20 and one female in 143 had crossed the Matriculation level.

The ruralites have a considerable leeway to make up in order to come up to the stage reached by the urbanites. In Rohtak towns there are 670 per 1,000 males and 386 per 1,000 females who are literate, but in villages they are as few as 344 and 65, respectively. This feature is common throughout the State where the literacy per 1,000 is 654 for males and 432 for females in towns and 319 and 104 respectively in rural areas.

Mother tongue (Table C-V)**.—Rohtak is a Hindi-speaking District as the following figures relating to mother tongue indicate.

Mother tongue	Number	Per 1,000
Hindi	1,404,850	989·1
Punjabi	14,289	10·0
Urdu	995	0·7
Others	257	0·2
Total	**1,420,391**	**1,000.0**

Religion (Table C-VII)@.—Distribution according to religion is shown below. The Muslims are found chiefly in the villages of Sonepat Tahsil.

Religion	Number	Per 1,000
Total Population	1,420,391	1,000
Hindus	1,400,347	985·9
Muslims	7,349	5·2
Sikhs	6,439	4·5
Jains	5,471	3·8
Buddhists	405	0·3
Christians	355	0·3
Religion not stated	25	N

Place of birth (Table D-II)†.—As many as 69 per cent of the persons enumerated in the District were born in the very town or village where they were enumerated in 1961. Among the rural population this percentage works out to 72.5 and in urban areas to 46.5, denoting a higher degree of mobility among townsmen.

* Page 220 ** Page 222 @ Page 224 † Page 226

Among males as many as 85.1 per cent were born at the place of enumeration as against 50.8 per cent among females. The low figure for females springs from the extra factor of their leaving the ancestral home after marriage.

14.6 per cent of the persons were born at another place within the District. This percentage is 4.5 in the case of males and as high as 25.8 per cent in the case of females, due to the factor of marriage. Persons born in the Punjab Districts other than Rohtak formed 6.3 per cent of the population. Even in this group the percentage of females (11.1) is higher than of males (2.1).

The Punjab born persons formed 89.8 per cent of the District population. The remaining 10.2 per cent were from outside Punjab. Among them 56,979 persons (four per cent of the total population of the District) hailed from other States in India and 87,481 persons (6.2 per cent) reported to have born in Pakistan, coming here in the wake of Partition.

Persons born in other Indian States were mostly from Delhi (25,846), Uttar Pradesh (24,817) and Rajasthan (5,275).

Scheduled Castes.—The 1961 census recorded 243,958 persons (127,121 males and 116,837 females) belonging to various Scheduled Castes, forming 17.2 per cent of the total population of the District. Among the Scheduled Castes enumerated, *Chamars* claimed the highest number (121,124), followed by *Balmikis* (61,136), *Dhanaks* (46,586), *Kabirpanthis* (7,885), *Khatiks* (2,718) and *Bawarias* (1,340).

The 1951 census recorded 198,922 persons belonging to the Scheduled Castes in the District, thus showing an increase of about 23 per cent during 1951-61. Neither the 1951 census nor the 1961 census recorded any person as belonging to the Scheduled Tribes in the District.

Among 243,958 persons belonging to the Scheduled Castes in the District, 22,654 persons or nine per cent were recorded as literate. They consisted of 21,227 males and 1,427 females.

Households.—Out of 1,420,391 persons in the District 4,613 were houseless (Table A-I, Appendix III*), such as the members of the wandering tribes, tramps, *sadhus* and pavement dwellers. The remaining 1,415,778 persons lived in households. A 'Household' has been defined as a group of persons commonly living together and taking their meals from a common kitchen unless exigencies of work prevent any one of them from doing so. The total number of households in the District was 222,567.

For studying the size and other characteristics of households, a 20 per cent sample was drawn and analysed. In this sample, persons living in institutions such as jails, orphanages, hospitals, hostels, boarding houses, Defence and Police personnel living in barracks or under canvas tents were excluded, since such households do not function as economic entities. The Tables relating to these households are B-X to B-XVII, C-I and SCT-V**.

The average size of a household in the District is 6.4 persons. Households and persons are distributed below according to size of the household.

HOUSEHOLDS ACCORDING TO NUMBER OF MEMBERS

Size of household	Households		Persons	
	Number	Percentage to total	Number	Percentage to total
Total	44,228	100·0	282,097	100·0
Single member	2,456	5·5	2,456	0·9
2—3 members	6,453	14·6	16,670	5·9
4—6 members	16,458	37·2	83,548	29·6
7—9 members	12,153	27·5	94,728	33·6
10 or more members	6,708	15·2	84,695	30·0

As many as 46.3 per cent of the households in the villages were engaged in cultivation in the capacity of peasant proprietors and tenants, but excluding such households as had let out their lands in entirety or were dependent on landless agricultural labour. The households of peasant proprietors and tenants in rural areas are distributed on the next page according to the size of land which they claimed to be cultivating.

* Page 137 ** Pages 192 to 214, 214 & 252

HOUSEHOLDS ENGAGED IN CULTIVATION ARRANGED ACCORDING TO SIZE OF OPERATIONAL HOLDINGS

Size of holding	Per thousand distribution of households	
	Rohtak	Punjab
Less than 1 acre	7·23	23·16
1.0 to 2.4 acres	63·29	95·49
2.5 to 4.9 acres	107·77	125·25
5.0 to 7.4 acres	166·25	154·63
7.5 to 9.9 acres	117·25	101·63
10.0 to 12.4 acres	161·73	130·11
12.5 to 14.9 acres	73·19	60·25
15.0 to 29.9 acres	231·37	217·47
30.0 to 49.9 acres	52·65	64·09
50.0 +	14·14	22·86
Unspecified	5·13	5·06

Households cultivating on less than 5 acres of land or more than 30 acres are comparatively small in Rohtak District, and this is a desirable feature.

Workers and Non-workers.—In Table B-I*, the 1961 populaion of the District is distributed into broad industrial categories of workers, and non-workers. The terms are explained in the note appearing before Census Tables. The figures reduced in terms of 1,000 population are given below:—

DISTRIBUTION OF 1,000 PERSONS BY EACH INDUSTRIAL CATEGORY

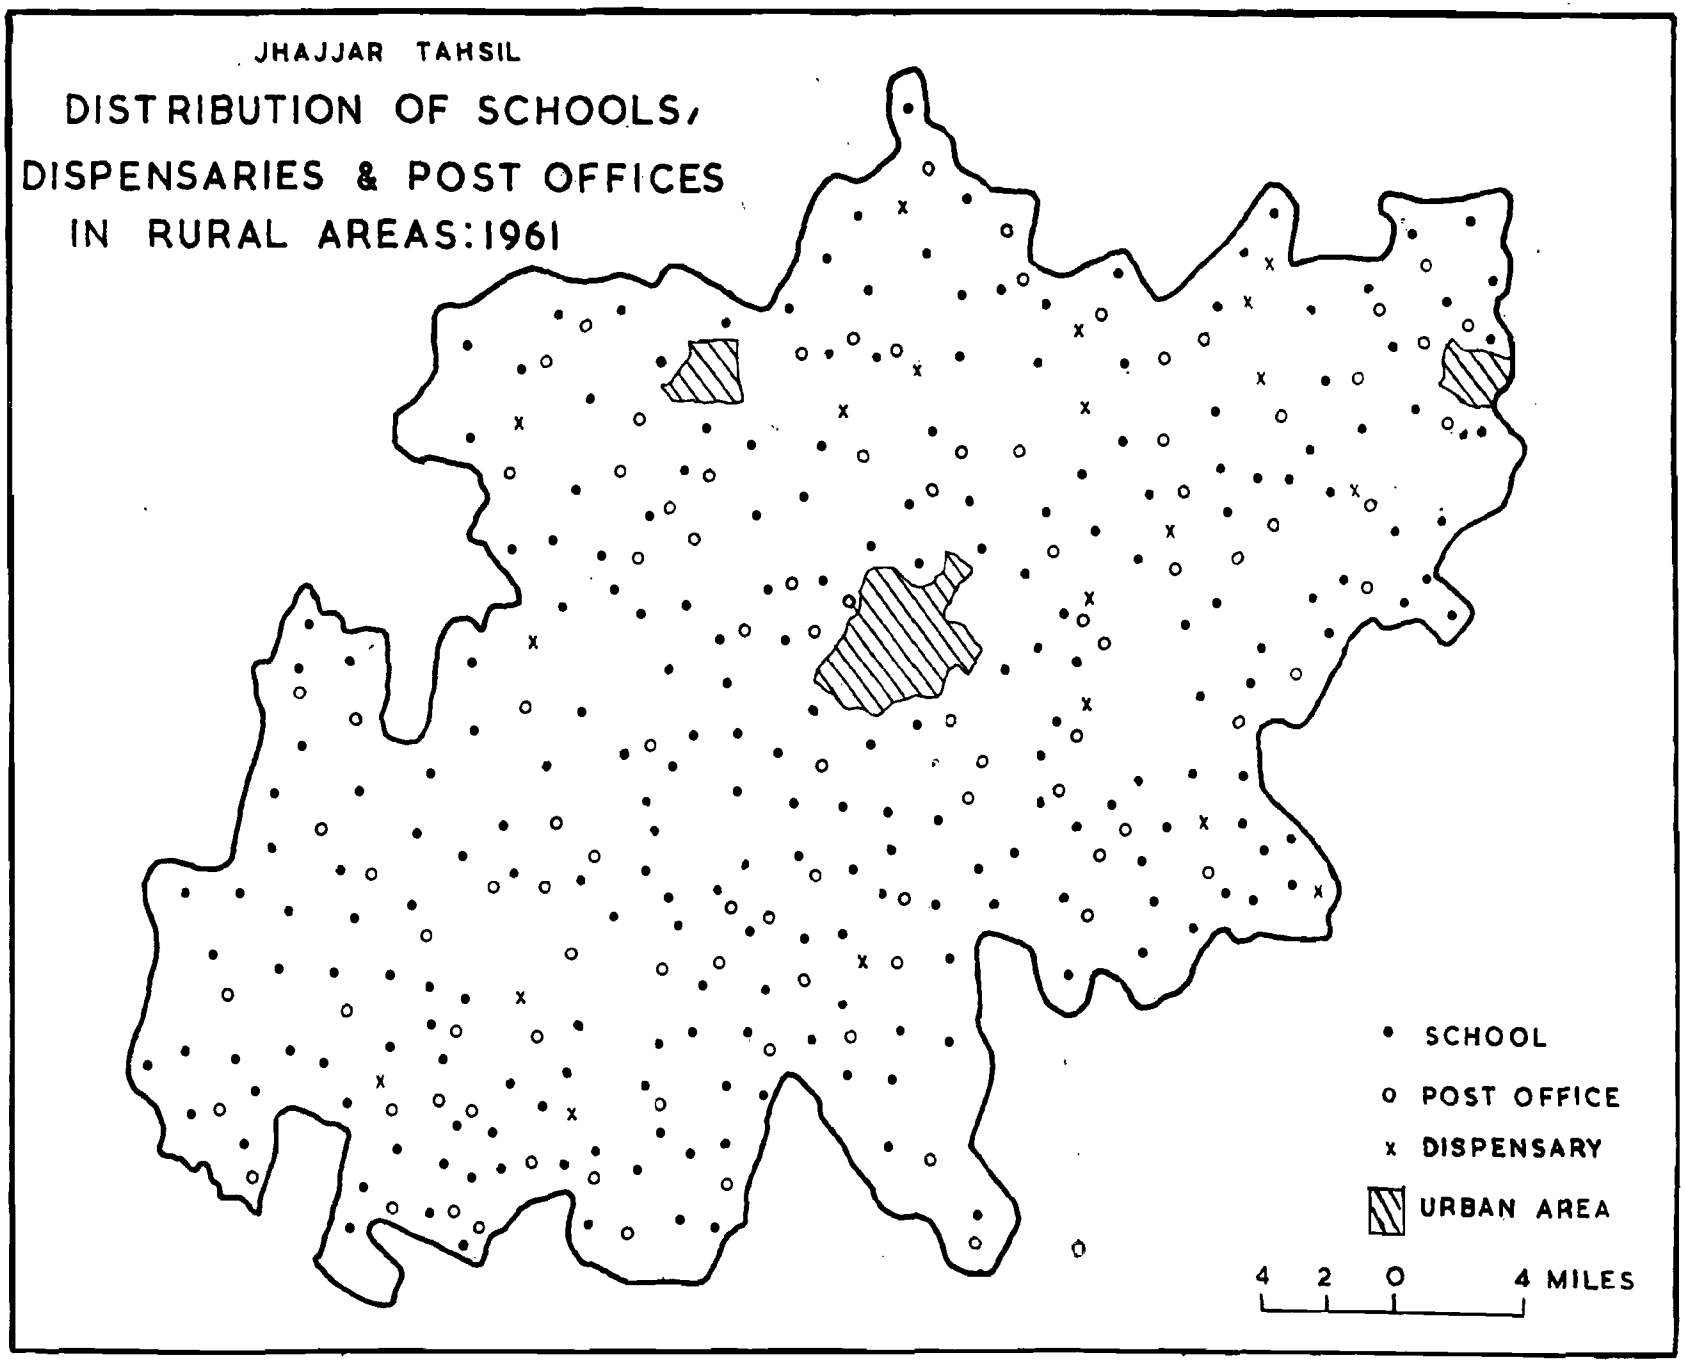

Industrial Category	Rohtak District			Punjab		
	P	M	F	P	M	F
Total population	1,000	1,000	1,000	1,000	1,000	1,000
Non-Workers	610	519	713	650	471	858
Workers	390	481	287	350	529	142

*Page 140

The Table on the previous page throws penetrating light on the economic and social life of the people of Rohtak District. It has 390 workers per thousand population as against 350 in the State as a whole. The number of male workers is, however, smaller than in the State (481 against 529). This may partly be due to men going out of the District for service and other vocations. The women on the other hand are yoked in work to a very large extent: whereas 287 per thousand female population is in gainful work, the corresponding figure for the State is 142. A glance at the Table given earlier showing age composition shows that females between the age of 12 and 50 years count for about 500 per thousand females. And among them to have 287 working directly for augmenting family income is a very high figure. In villages barring the well-placed families, there is hardly a woman who does not do work besides the household duties. Some persons hold that the Rohtak men in villages do not work as much as they should and extort hard labour unduly from their womenfolk.

Agriculture (peasant proprietors, tenants and agricultural labourers) absorbs 277 persons per 1,000 in Rohtak District as against 224 in the State as a whole. However, on account of the larger size of holdings generally the District has agricultural labourers to a larger extent. The ranks of agricultural labourers are stated to have swelled partly as a result of land legislation since Independence, inducing the owners to oust the tenants, many among whom acquiesced to work as labourers.

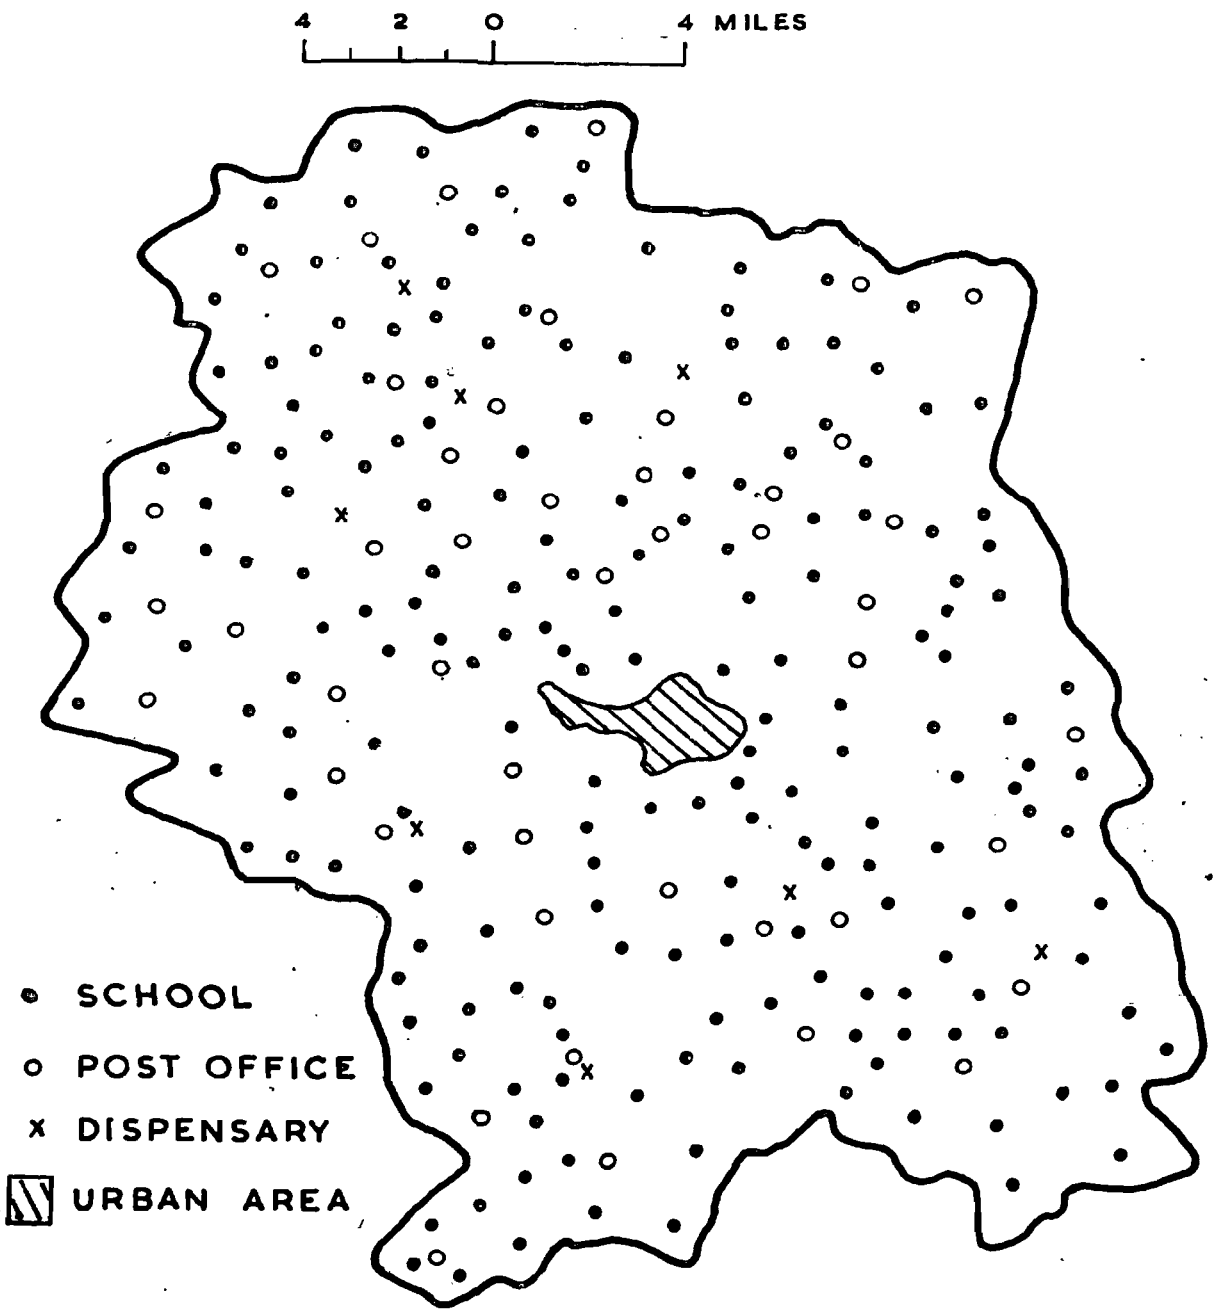

The proportion of population working in industry (household and other type) is just equal to that of Punjab, but construction and trade & commerce absorb comparatively a smaller proportion.

CHAPTER IV

SOCIAL AND DEVELOPMENTAL ACTIVITIES

Education (Tables 16 to 18—Part II)*.—In 1951 the literacy percentage in the District was 9.7. By 1961 this figure improved to 21.3, comparing with 24.2 for the State and 24.0 for the Indian Union. The literacy among Punjab Districts varies between Simla (43.6 per cent) and Sangrur (16.5 per cent).

Rohtak has made a quick improvement in the field of education during the two Plan Periods, as the following figures reveal:—

	SCHOOLS		SCHOLARS	
	Boys	Girls	Boys	Girls
1951-52				
Primary Schools	299	90	21,315	9,279
Middle Schools	102	7	23,413	1,739
High Schools	43	3	19,155	1,103
Total	**444**	**100**	**63,883**	**12,121**
1960-61				
Primary Schools	568	126	72,328	15,626
Middle Schools	84	33	9,997	7,135
High Schools	71	13	36,709	6,721
Higher Secondary Schools	3	1	3,220	810
Total	**726**	**173**	**122,254**	**30,292**

In Rohtak District in 1961, the school going boys were 42.9 per cent of the male population past 5 years and below 20 years in age but the girl students were only 12.4 per cent of females in this age group.

Primary education has been made compulsory and the new schools have been opened mostly in rural areas to reduce the distance the children have to cover for schooling. The schools are fairly well spread among the Tahsils, though girls' schools are comparatively few in Jhajjar Tahsil.

The Scheduled Castes and Backward Classes have still not shed off completely the apathy towards their childrens' education. The introduction of compulsory primary education, free education up to the middle standard and the stipends and scholarships that are being awarded to the students belonging to these classes in all institutions including colleges under the various schemes, will in due course bring them in line with the general population. It is heartening that the proportion of girls among students is rising gradually. The private associations in the District working in educational field are chiefly the Jat Education Trust and the Vaish Education Trust. They are running a number of schools and colleges at various places in the District.

* Pages 56-57

Technical Education (Table 17*).—There are at present two Industrial Training Institutions for boys at Rohtak and Sonepat which impart training in various crafts such as smithy, wood work, radio mechanism, etc. Other such institutions are three Government Industrial Schools for girls, located one at Sonepat and the other two at Rohtak. There is one Surgical Instruments Centre at Sonepat which imparts training in making surgical instruments. Arrangements for commerce course exist in Vaish College, Rohtak. The *Ayurvedic* College at Rohtak was established in 1957 and the Government Medical College, Rohtak commenced work in 1960-61. During 1960, 443 boys and 154 girls were receiving training in various arts and crafts in technical and industrial institutions.

Colleges (Table 18**).—There were four Arts and Science colleges in the District in 1951. During the decade 1951-60 three more colleges were established. The number of college students in the District was 1,627 (1,590 boys and 37 girls) in 1951 and 5,547 (5,238 boys and 309 girls) in 1960. It is heartening that the girls are going in for college education in larger number.

Training College.—This college at Rohtak had 139 men and 48 women on its rolls during 1960.

Cultural Activities.—Most of the colleges and many educational institutions have their own dramatic and fine arts clubs. Two clubs at Rohtak and one at Sonepat provide facilities to their members in games and recreation. In rural areas a number of Youth Clubs, *Mahila Samitis, Kisan Sewak Sanghs, Balwaris* and Community Centres have been organised.

Cinemas (Table 21†).—The number of cinema houses in the District increased from three in 1951-52 to seven in 1960-61. Rohtak has three cinemas and Jhajjar and Sonepat have two each. In addition to these permanent cinemas are the moving talkies (two at Gohana), theatrical societies and circuses which visit the District off and on. Besides providing entertainment to the public, such activities bring handsome income to the State exchequer by way of the Entertainment Tax which amounted to Rs. 338,060 in 1959-60 against Rs. 73,863 in 1951-52 (Table 45††).

Libraries.—The Public Library at Rohtak and the Municipal Library at Sonepat are fairly well stocked. Besides, a number of libraries have been opened in the rural areas under the Community Development Programme during 1951-61.

Newspapers and Journals.—Table 20 @ (Part II) contains a list of newspapers, magazines and periodicals published in the District. They cover diverse topics but most of them have limited circulation and are of indifferent standards. Most of them were started after independence. The weekly Jat Gazette, published at Rohtak and started in 1916, is the oldest among them.

Printing Presses.—The particulars of 25 printing presses in the District are given in Table 19 £ (Part II). 17 of them are located at Rohtak, 7 are in Sonepat and one at Bahadurgarh. They are small units but are fairly adequate for the local needs.

Radios (Table 22$—Part II).—In 1961 there were 5,799 broadcast receiving licences in the District as against 4,486 in 1959. In villages, radios have been installed in the *Panchayatghars* where the rural folk listen to various programmes, particularly the *Dehati* Programme broadcast for them by the All-India Radio, Delhi.

Social Welfare Activities.—The Social Welfare Departmnt of the State Government provides financial assistance in the form of loans and subsidies for buildinghouses, small scale and cottage industries and education of their children. It also assists them in acquiring land for cultivation.

The Indian Red Cross Society has a branch in the District. A branch of the All India Women's Society looks after the social and moral hygiene of the forsaken women and helps the administration in checking of immoral traffic in women and children. The District also has branches of the Central Social Welfare Board, Child Welfare Society and St. John Ambulance also exist in the District.

---

*Page 56 ** Page 56 † Page 60 †† Page 74 @ Page 59 £ Page 58 $ Page 60

Political Parties.—The District is politically conscious and participates zealously in elections, as is reflected by the following figures :—

Year	Name of Political Party	No. of M.L.As. elected	No. of M.Ps. elected	No. of votes in the District		Votes Polled		Percentage of votes polled	
				For Lok Sabha	For Vidhan Sabha	For Lok Sabha	For Vidhan Sabha	For Lok Sabha	For Vidhan Sabha

	Independent	1	..						
	Total	**11**	**2**	**983,260**	**759,026**	**708,605**	**549,378**	**75.4**	**72.4**

Medical and Public Health.—(Tables 23, 24 and 25**).—With the spread of education and scientific treatment of human ills coming nearer the reach of the people, the methods of faith cure and quackery are taken resort by fewer people now. Most of the patients are treated according to allopathic system. The Homoeopathy is, however, practised by a few persons in towns. *Ayurvedic* and *Unani* systems are favoured by some people because of the simple and familiar medicines prescribed. Government has given better recognition to these systems and the number of *ayurvedic* dispensaries in the District increased from two in 1953-54 to 21 in 1960-61 (Table 24).

In 1961, there were 44 hospitals and dispensaries in the District equipped with 520 beds and they admitted 14,656 indoor patients. The Civil Surgeon looks after the civil hospitals and dispensaries run by the District Board (now *Zila Parishad*). Besides, the Medical College Hospital at Rohtak provides treatment in a big way.

The District Medical Officer of Health has under him 9 Primary Health Centres, 3 Primary Health Units (Table 28)@, 8 Maternity and Child Welfare Centres (Table 25) and 2 Family Planning Centres (Table 27)††.

SPECIALISED INSTITUTIONS

(i) *Tuberculosis.*—Arrangements exist in all major institutions for the treatment of this disease and there are two T.B. clinics, one each at Rohtak and Sonepat, where specialised treatment is given.

*At the time of 1952 and 1957 General Elections there were two double member Constituencies in the District. Thus the votes polled were counted twice for these two Constituencies.

** Page 60 @ Page 61 †† Page 61

(ii) *Small pox.*—Small pox eradication programme was launched and completed in the District during the Third Five-Year Plan, where more than 90 per cent of the population was vaccinated by a team of doctors, supervisors, and vaccinators. Vaccination is done also in the hospitals and dispensaries.

(iii) *Malaria* (Table 26*).—A Malaria Control Unit was established in the District in 1953-54, under the National Malaria Control Programme. The unit now carries malaria surveillance operations side by side with spraying. By 1960-61, the number of villages and towns thus covered had gone up to 567 involving 952,934 persons at an expenditure of Rs. 228,312.

General Sanitation.—Sanitation in general is the function of the Municipal Committees. In rural areas, which are now covered by the National Extension Service Blocks, the work is looked after by the Block Staff and the Primary Health Units. The P.W.D. Public Health Division have executed a number of rural water-supply schemes. The Block Development authorities also provide grants to the *Panchayats* for installing hand-pumps and tube-wells.

Medical Facilities.—In 1961, there was a medical institution on an average for 54 square miles and 33,032 persons. This criterion places the District fairly behind many others in the State. With the passage of time, the District will have many more institutions, so that the patients have not to go over long distances for treatment.

Crimes.—The incidence of crime in the District is comparatively low despite its bordering on Delhi and Uttar Pradesh offering temptations for smuggling and other anti-social activities. Table 42** in Part II, shows the results of trials in criminal courts of the District.They appear to be on the increase, but this may be partly due to better registration and detection. The cases instituted in 1950 and 1961 were looked into some detail. It was found that there was a decline in offences against person and property. This was matched by an increase in excise cases. In 1950, 42 murders occurred in the District, against 20 in 1961. Four dacoities occurred in 1950 but none in 1961. The number of burglaries was 375 in 1950 and 147 in 1961. The number of robberies declined from 67 in 1950 to 3 in 1960, and of thefts from 403 in 1950 to 251 in 1961. 553 cases of riots occurred in 1950 but in 1961 there were only 8 such cases. 166 cases were detected under the Arms Act in 1950 but only 47 in 1961. Under the Excise Act the number of cases, however, increased from 176 in 1951 to 445 in 1961 and this may be due to the District being declared a dry area in the State. The number of cases for all crimes declined from 3,344 in 1950 to 1,557 in 1961.

DEVELOPMENTAL ACTIVITIES

The following account relates to the trinity of *Samoohik Vikas, Sehkari Samaj* and *Panchayati Raj*, i.e., Community Development, Co-operation and *Panchayats*.

Community Development (Table 38*).—The administrative set up of the Community Development work has been given in the first Chapter. Sonepat, Rai and Ganaur Blocks were started, first of all, in 1951. By 1956, another 5 Blocks were started. The entire rural area now (early 1963) stands covered by 15 Development Blocks.

The programme of Community Development and National Extension Service occupies an important place in bringing technological advances, particularly in the field of agriculture, to the door of the farmer. The aim is to improve the whole texture of rural life by kindling in it a self generating process of change and growth. People's participation and contribution in this programme is of prime importance. It is not easy to assess this factor because it is mostly in the shape of manual labour which is difficult to evaluate. Therefore the achievements of these Blocks cannot be set out in exact terms, but in a general description of their activities

Improved seeds and implements, and green manure and fertilizers are supplied to the cultivators at subsidized prices. They are encouraged to preserve dung in pits. The development authorities help the farmer in reclaiming land and in laying out model farms. Financial assistance is given for constructing percolation wells and installing pumping sets and tube-wells.

Cow and buffalo bulls of good breed are supplied and artificial insemination centres have been opened at eleven places in the District. Each centre has a few key villages attached to it and has pedigree bulls.

Health and sanitation activities cover hospitals, rural health centres, rural dispensaries, child welfare and maternity centres, construction of drains, dry latrines and smokeless *chullas*, pavement of streets, installation of hand-pumps and sinking of wells for drinking water.

Educational activities cover new schools, upgrading of old schools, conversion of schools into Basic type and construction and repairing of school buildings. In adult literacy centres, men and women are encouraged to learn the 3 Rs' ; this experiment has, however, yet to prove its efficacy.

* Page 61 ** Page 73 † Page 69

Libraries and reading rooms are started and young villagers are encouraged to organise into youth clubs. *Mahila Samitis* are organised for the welfare of the women folks. Children's parks and *Balwaries* (nurseries) are started for the children. *Panchayatghars* and Community Centres and free Radio Sets are provided for the benefit of the community at large.

People are encouraged to construct *kacha* roads, to repair old paths and macadamize *kacha* roads. They are helped in organising themselves into co-operative credit societies, industrial societies, farming societies, and service societies of various kinds.

Village and small-scale industries are encouraged by setting up demonstration-cum-training centres, in various crafts. The Block authorities have tried also to set up model villages to serve as examples for other villages.

Co-operation (Tables 14 and 15*).—The co-operative movement, initiated a long time ago, made steady progress and the number of societies went on increasing till the Partition which affected its growth considerably. The apex institutions like the Provincial Co-operative Bank and the Punjab Co-operative Union were left in West Pakistan. Deposits accumulated for long years, were lost overnight. Mass migration of the Muslim members suddenly depleted the ranks of societies and the loans advanced to them became bad debts. With patience and hard work the co-operative movement, however, recovered from that rude shock within a few years and dashed for still better achievements as is indicated by the following figures :—

Year	Number of societies	Number of members
1950-51	1,151	46,130
1955-56	1,904	87,738
1959-60	2,888	167,633

By 1960-61, 11.8 per cent of the entire population of the District had been brought within the fold of the co-operation.

Banks and banking unions finance the societies affiliated to them. There were two such banks in the District in 1950-51, with membership of 532 and working capital of 2,567 thousand rupees. They issued loans to the tune of 357 thousand rupees. In 1959-60 there was only one such bank but its membership increased to 1,415 and its working capital increased to 8,456 thousand rupees and the loans issued stood at 5,512 thousand rupees.

Credit societies form the pivot in the movement, and they inculcate the habit of thrift among the members ; they mobilise rural savings, and serve the twin purpose of thrift and credit. Another feature of these societies is that non-credit worthy elements of rural economy are not denied the facilities of credit. There are some credit societies whose membership and loan operations are confined exclusively to *Harijans*. In 1950-51, there were 174 Agricultural Credit Societies with a membership of 4,360 and a working capital of 431 thousand rupees and these societies issued loans of 91 thousand rupees. By 1959-60, their number went up to 805 with a membership of 42,869 and a working capital of 7,809 thousand rupees ; in that year they issued loans to the tune of 4,366 thousand rupees.

The District has taken appreciable strides in the direction of co-operative marketing and processing of agricultural products. In 1950-51, there was no marketing society in the District, but in 1959-60, there were six such societies with a membership of 1,549. Besides functioning as commission agents in the markets, these societies purchase wheat and other commodities for Government whenever required. There is one co-operative sugar factory at Rohtak. Its membership increased from 26 in 1953-54 to 10,082 in 1959-60.

Milk supply societies arrange for the supply of milk to Delhi and other towns. In 1959-60 there were 20 such societies with membership of 334. The number of farming societies increased from 4 with 86 members in 1950-51 to 30 with 1,678 members in 1959-60.

To help artisans in the purchase of raw material and disposal of finished products, small-scale and cottage industries are organised on co-operative lines. There were 38 weavers' societies in the District in 1959-60 with 533 members, 11 consumer's societies with 1,284 members, 18 housing societies with 664 members and 2 supervisors' unions with 293 members.

*Pages 53 & 54

Panchayati Raj (Table 36 Part II)*.— The British regime did a great damage to the rural society by substituting village *Panchayats* with a centralised system of administration. If rural India was to rediscover itself, it was felt strongly that the *Panchayat* system must be revived. To quote Mahatma Gandhi, "India's Independence must begin at the bottom. Thus every village will be a republic or a *Panchayat* having full powers. In this structure composed of innumerable villages, there will be ever-widening, never ascending circles. Life will not be a pyramid with the apex sustained by the bottom. But it will be an oceanic circle whose centre will be the individual, always ready to perish for the village". Other leaders fully shared this view and accordingly the organisation of village *Panchayats* was made one of the directive principles of the State Policy in the Constitution of India.

The Punjab Gram Panchayat Act, 1952, with its subsequent amendments, and the Panchayat Samitis and Zila Parishad Act, 1961, form the corner-stone of the *Panchayati Raj*. This structure consists of three tiers : a *Panchayat* at the village level, a *Panchayat Samiti* at the Block or Tahsil level and a *Zila Parishad* at the District level. These three institutions are linked with each other by means of indirect elections. They do not constitute a hierarchy where one is subordinate to another. They have clearly defined spheres of activities and independent sources of revenue. This enables them to function without losing initiative and self-reliance.

Gram Panchayats.—The village *Panchayat* has 5 to 9 members including a *sarpanch* elected by adult franchise. There is adequate representation for women and for the Scheduled Caste persons. In case no woman is elected as a *panch* one is co-opted as additional *panch*. The election to the *Panchayat* is held by secret ballot and its term is 3 years. The first general election for *gram Panchayats* were held in 1953 and for a second time in 1961.

In 1951-52, the number of *gram Panchayats*, with very restricted functions, under the Punjab Village Panchayats Act, 1939, in the District was 368 with a total membership of 2,208. In 1960-61, the number of gram *Panchayats* rose to 709 with a membership of 4,593.

The *Panchayats* are expected to provide a cheap and ready justice. They have been given powers to try minor offences like petty thefts, hurt, afray and committing public nuisance. They are under the control of the District Magistrate who can hear appeals against their orders and can transfer cases from one *Panchayat* to another. The *Panchayats* have been given powers also to try civil and revenue cases upto a certain pecuniary limit and in respect of these cases they are under the control of the District Judge and the Collector, respectively.

Most of the villages are, however, faction ridden and the system of elections has unfortunately added to their factional spirit and the *Panchayats* proceedings are often marred by group rivalries and group feelings. These are, perhaps, pangs of birth and with the spread of education, proper guidance and maturity of public opinion, it is hoped that things will improve.

In 1953-54, 1961 criminal cases were instituted with the *gram Panchayats* in the District while 93 cases were pending in the beginning of the year. Of these 1,892 cases were decided and 252 cases were dismissed. In that year, the *Panchayats* also tried 1,788 civil and revenue cases, out of which 326 cases were dismissed and 1,666 cases were decided. In 1960-61, the number of fresh criminal cases instituted before the *Panchayats* was 432 while 64 cases were pending in the beginning of the year. The number of cases decided was 375. On the civil and revenue side in 1960-61, 494 cases were instituted while 452 cases were decided.

The figures quoted above call for two observations. First, there has been a substantial reduction in the number of cases coming before the *Panchayats*. This reduction has been attributed to the villagers having preference for regular courts to adjudicate their disputes where they expect more impartiality. Second, a majority of cases coming to the *Panchayats* are compromised. This is a pleasing feature making for harmony among the village community.

Besides, the *Panchaya's* look to the requirements in their respective areas in regard to agriculture, education, animal husbandry, health and sanitation, including water-supply works of public utility, games and sports, industries, medical health and relief to the poor. They are expected to arrange 50 per cent of the cost of local development works sponsored by the Development Department in cash, kind or labour. With the help of the department concerned, many among the *Panchayats* have done some really good work. Tables 36 and 38† throw light on the progress made by *Panhayats* in various spheres through their own efforts and through the assistance of the Community Development Department and other departments.

The village common lands now vest with the *Panchayats*. They receive a percentage of land revenue collections and grants from the Government and some times from the local bodies. They levy house tax, professions tax, and raise voluntary contributions. The fines and penalties which they impose are also transferred to their funds. In 1960-61, the total income of the *Panchayats* in the District was 2,125 thousand rupees and their total expenditure on education and libraries, public works, public health and agriculture and veterinary service and administration amounted to 2,728 thousand rupees.

*Page 67 †Pages 67 & 69

Panchayat Samitis.—There is a *Panchayat Samiti* for each Block. It consists of : (i) 16 members, elected by the *Panches* and *Sarpanches* ; (ii) 2 members elected by Co-operative Societies; and (iii) 1 member elected by the Market Committees. Besides, every M.L.A. with his constituency in the Block and such members of the Punjab Legislative Council as the Government may specify, work on the *Samiti*, as associate members. Two women interested in social work and four persons belonging to the Scheduled Castes, if not elected otherwise, work as co-opted members. The S.D.O. (Civil) and the Block Development and Panchayat Officer of the Block work as *ex-officio* members. The associate and *ex-officio* members do not have the right to vote. The Chairman and the Vice-Chairman are elected from among the elected members for a term of three years. The Block Development and Panchayat Officer is the *ex-officio* Executive Officer of the *Samiti*.

The *Panchayat Samiti* provides and makes arrangements for carrying out the requirements of the area under its jurisdiction in respect of animal husbandry and fisheries, health and rural sanitation, communications, social education, co-operation and other such miscellaneous duties as development of cottage and small-scale industries and other local development works. The *Samiti* is also the agent of the Government for the formulation and execution of Community Development programmes.

The sources of income with the *Samiti* would be the Local Rate, as charged by the *Zila Parishad*, the fees derived from public institutions like schools and markets, fees from fairs and shows, rents and profits accruing from property vested in it, and such monies and grants as Government may place at its disposal from time to time. The *Samiti* can, with the permission of the *Zila Parishad* impose any tax which the State Legislature has powers to impose under the Constitution.

Zila Parishad.—The *Zila Parishad* consists of the Chairman of every *Panchayat Samiti*, two members elected by each *Panchayat Samiti*, every M.P., M.L.A., M.L.C. of the District and the Deputy Commissioner. Two women and five members belonging to Scheduled Castes, if not elected otherwise, are co-opted as members. The M.Ps., M.L.As., M.L.Cs. and the Deputy Commissioner do not have the right to vote. The *Parishad* has a Chairman and a Vice-Chairman elected for three years by the members.

The *Parishad* consolidates and co-ordinates the plans prepared by the *Panchayat Samitis*, examines and approves the budgets of the *Panchayat Samitis* and advises the Government concerning *Panchayats* and *Panchayat Samitis* and keeps watch over agricultural production programmes and construction works.

The income of the *Parishad* accrues from the Central or State Government funds allotted to it, grants from All-India bodies and institutions for the development of cottage, village and small-scale industries, a share in the land cess, income endowments and such contributions as the *Zila Parishad* may levy on the *Panchayat Samitis*.

The *Zila Parishad* has already started functioning in the District, replacing the age old District Board.

Local Bodies and Towns (Table 37*—Part II).—As mentioned in Chapter I, there are Municipal Committees functioning at all the 7 towns in the District. Most of these Committees are of long standing and five of them were instituted earlier than the present century. Among the present Municipal Committees, one belongs to Class I, 4 Class II and 2 belong to Class III. Two Municipal Committees have less than 1 sq. mile area to administer. The Rohtak Municipal Committee has the maximum area to administer which is 4.5 sq. miles. The number of members of the various Municipal Committees in the District varies between eight to twenty.

The combined revenue of all the Municipal Committees in the District during 1960-61 amounted to Rs. 6,363,522. Rohtak has revenue of over 15 lakh rupees, and Bahadurgarh and Sonepat have 5.4 lakh and 7.9 lakh rupees, respectively. Jhajjar, Beri and Gohana make between 1 and 3 lakh rupees while the income of Maham Municipal Committee is less than 1 lakh rupees. The income per capita was highest for Bahadurgarh (Rs. 36.36) and the lowest for Maham (Rs. 7.81). Octroi constitutes 46 per cent of the total revenue.

The combined expenditure of the Municipal Committees during 1960-61 amounted to Rs. 3,488,440. The highest expenditure was on public health (28.3 per cent) followed by water-supply (20.8 per cent), public safety (14.8 per cent) and Municipal property (8.05 per cent). The expenditure per capita was highest for Bahadurgarh Rs. (35.31) and the lowest for Maham (Rs. 8.22).

Electrification of Villages.—Apart from large industrial potential for power which is being built in the urban areas of the District, the demand in the rural areas is increasing, and in the State's Third Five-Year Plan development of power is a very important item. Electrification has changed the face of towns and villages. By 31st March, 1961, all the seven Municipal towns, and 125 villages in the District had been electrified. By the end of 1962-63, 213 villages in the district would have been electrified. Energy resources in the District are mainly hydel.

EXPLANATORY NOTE

The scope of the District Census Handbook has been enlarged this time, so as to include statistics on a variety of subjects listed below. The material was collected from the concerned departments and the co-operation from them is acknowledged in the form of a foot note under each Table.

There are in all 51 Tables in this Part grouped under the following heads:

Rainfall	Table 1
Agriculture	Tables 2 to 9
Livestock and Implements	Tables 10 and 11
Industry	Tables 12 and 13
Co-operation	Tables 14 and 15
Education	Tables 16 to 18
Printing and Publishing	Tables 19 and 20
Entertainments	Tables 21 and 22
Medical and Health	Tables 23 to 29
Vital Statistics	Tables 30 and 31
Transport and Communications	Tables 32 to 35
Local Administration	Tables 36 to 38
Banks, Insurance and Savings	Tables 39 to 41
Justice and Administration	Tables 42 to 48
Miscellaneous	Tables 49 and 50
Fairs and Festivals	Table 51

RAINFALL

Table 1 presents monthly and annual rainfall and the number of rainy days, separately during ten years ending 1960, for the various stations in the District. In the last column has been shown the average rainfall in each month during the years 1951 to 1960. These figures are very interesting, since they bring out the seasonal distribution of rains.

The rainfall figures have been given in inches, but the annual figures have been shown also in centimetres. Rainfall records are maintained at various important stations in the District.

AGRICULTURE

Table 2 shows the utilisation of land in the District for the period 1901—1961. Information has been worked out for the quinquenniums centring around the census years 1901, 1911, 1921, 1931, 1941, 1951 and 1961. In this case the year is the agricultural year, ending with the 30th June.

The classification of area has been made according to the following scheme:—

(i) *Geographical area* represents the total land area as worked out from the Surveyor General and Village Papers. The changes in the area may be due to territorial adjustments, or remeasurement of land.

(ii) *Forests* include all area actually under forests, whether State owned or private, and administered as forests.

(iii) *Land not available for cultivation* comprises land put to non-agricultural uses, barren and uncultivable land like mountains, river and canal beds, roads and railway lines, buildings, etc.

(iv) *Other uncultivable land* includes (a) culturable wastes and other fallow (b) permanent pastures and other grazing lands; and (c) land under miscellaneous tree crops and groves, not included under net area sown.

Category (a) comprises land which can be brought under cultivation but which has not yet been cultivated or has remained uncultivated successively for more than four years. Category (b) includes all such lands which are used permanently for grazing or collection of grass. Category (c) includes lands bearing fruit orchards and other plantations.

(v) *Fallow land* is of two types: First lands which have remained out of cultivation for a period not less than one year but not more than 4 years; second lands which are left fallow up to one year only (current fallows).

(vi) *Net area sown* is the area on which sowing is actually done during the course of a year.

(vii) *Area sown more than once* is that portion of the net sown area which was sown more than once in a year.

(viii) *Total cropped area* is the gross area under all crops in a year, and is the total of net area sown and area sown more than once.

The sources of information for this Table are the Indian Agricultural Statistics (Volumes I and II) and the Annual Season and Crop Reports published by the Director of Land Records, Punjab.

Table 3 shows assessment circle-wise classification of land in the District for 1960-61: total area according to Village Papers; area under forests; area not available for cultivation; area available for cultivation; and cultivated area according to means of irrigation.

No publication has so far given such a useful and comprehensive data. It is for the first time that such information was collected.

Table 4 presents net area irrigated from (1) Government canals, (2) private canals, (3) tanks, (4) tube-wells, (5) other wells and (6) other sources The information is presented for the same quinquenniums as selected for Table 2.

Table 5 presents gross area irrigated under various food and non-food crops in the District, for selected quinquenniums during 1901-61.

Table 6 shows area under principal crops in the District for selected quinquenniums during 1901-61. The principal crops have been classified into three categories: (i) Basic food crops; (ii) Other food crops ; and (iii) Non-food crops.

Table 7 presents the average yield per acre of principal crops in the District; rice, wheat, *jowar, bajra,* maize, barley, gram, potatoes, sugar-cane, chillies, sesamum, rape, mustard and cotton. Information is given for 11 years ending 1960-61, and the yield figures are in terms of lbs. per acre.

Table 8 presents wages for man, woman and child separately for skilled and unskilled workers in selected agricultural occupations in the District during 1951, 1956 and 1960. Wages are in terms of rupees per normal working day of 8 hours and have been given for each month separately. The information relates to only one village.

Table 9 presents arrival of various agricultural commodities for sale in different regulated markets in the District during the year ending 30th June, 1961.

LIVESTOCK AND IMPLEMENTS

Table 10 presents figures for livestock and poultry for the District for the years 1920, 1923, 1935, 1940, 1945, 1951, 1956 and 1961. Poultry includes hens, cocks, chickens, ducks, drakes and ducklets.

Table 11 provides information on agricultural implements and machinery for the District and each Tahsil for 1951, 1956 and 1961. The information is collected along with quinquennial livestock census, conducted by the Director of Land Records, Punjab.

INDUSTRY

Table 12 relates to the working of registered factories during the years 1951, 1956 and 1960.

Table 13 gives particulars about registered factories in Punjab as on 31st December, 1961. It also gives detailed information regarding the number of workers and nature of work.

CO-OPERATION

Table 14 presents information on various types of co-operative societies in the District. Particulars are given of the number of societies, their membership, working capital and loans issued. The figures relate to the years 1950-51 to 1959-60.

Table 15 gives the number and membership of various types of non-credit co-operative societies in the District during 1950-51 to 1959-60.

EDUCATION

Table 16 presents the progress of school education in the District during the years 1951-52 to 1960-61. Information has been given separately for Primary, Middle, High and Higher Secondary Schools. Part (a) of the Table shows the number of schools and Part (b) the number of scholars for boys and girls schools.

Table 17 presents for each industrial school in the District scholars studying during the years 1951 to 1960.

Table 18 gives the number of Arts and Science and Professional colleges in the District during the year ending 1960.

PRINTING AND PUBLISHING

Table 19 relates to printing presses in the District working in 1960: the year of declaration, the language/languages in which the matter can be printed, the number of printing machines and the power of propulsion.

Table 20 lists the news-papers, magazines and periodicals published in the District during 1961: the place of publication, the year of establishment, the language, the number of copies printed, retail selling price, and its main interest. The publications have been arranged according to the frequency of their circulation.

ENTERTAINMENTS

Table 21 shows the number of cinema houses in the District during the years 1951-52 to 1959-60.

Table 22 shows the number of broadcast receiving licences issued in the District during the calendar year 1959, 1960 and 1961.

MEDICAL AND HEALTH

Table 23 shows the number of hospitals and dispensaries in the District as on 1st January, 1961, and the number of beds for each type of hospital and dispensary.

Table 24 shows the number of hospitals and dispensaries providing ayurvedic treatment in the District during the years 1951 to 1961 and the number of 'Vaids' and 'Hakims' working there.

Table 25 shows the cases treated and expenditure incurred by each maternity and child welfare centre in the District during the calendar year 1960.

Table 26 presents the work done and expenses incurred by the malaria control unit from 1953 to 1961 in the District.

Table 27 informs about the number of persons sterilized and other steps undertaken by the family planning centres in the District during 1960-61.

Table 28 shows the location of the primary health units and centres and rural health centres as on 1st October, 1961.

Table 29 shows prosecutions under Pure Food Act in the District during 1960.

VITAL STATISTICS

Table 30 shows the number of births and deaths sex-wise as recorded in the District during the years 1951 to 1960.

Table 31 gives the number of deaths classified according to different causes and of infant mortality for the years 1951 to 1960.

TRANSPORT AND COMMUNICATIONS

Table 32 gives road mileage in the District as on the 31st March, 1961. Information is categorised according to the roads maintained by Public Works Department and *Zila Parishad* and by the Municipal Committees; according to national highways, state highways, major district roads, minor district roads and village roads; and according to metalled and unmetalled roads.

Post Offices.—Table 33 gives a list of post offices in the District as on 31st March, 1961.

Railway Stations.—Table 34 is a list of railway stations located in the District.

Table 35 is a polymetrical Table showing distances as between different places in the District.

LOCAL ADMINISTRATION

Panchayats.—Table 36 shows the working of *Panchayats* in the District during 1960-61 : number of *Panchayats*, their membership, beneficial and judicial activities, and income and expenditure.

Local Bodies.—Table 37 deals with Local Bodies in the District as on 31st March, 1961. It gives information for each Local Body, area served, population, the number of members and income and expenditure during1960-61.

Community Development.—Table 38 shows tne community development activities in the District as on 31st March, 1961 for each Block, its stage, area, number of villages and population covered, Government expenditure and people's participation in terms of money in the First and Second Five-Year Plans, and achievements in different spheres.

BANKS, INSURANCE AND SAVINGS

Table 39 shows the various banks operating in different towns of the District as on the 31st March, 1961.

Table 40 shows the number of new insurance policies issued and sum assured annually in the District from 1957 to 1960.

Table 41 gives a detailed account of various small saving schemes launched and progress achieved in the District during 1957-58 to 1960-61.

JUSTICE AND ADMINISTRATION

Table 42 gives information regarding criminal justice, cases tried and persons convicted in the District annually from 1951 to 1960.

Table 43 shows the sanctioned strength of Police and the number of Police Stations in the District as on 31st December, 1960.

Table 44 gives information about jails and their inmates classified according to the periods of the sentence in the District as on the 31st December, 1960.

Table 45 shows the receipts from State Excise Duties, Sales Tax, Entertainment Tax and Motor Spirit Tax in the District annually from 1950-51 to 1960-61.

Table 46 presents land revenue receipts in the District during 1950-51 to 1960-61.

Table 47 shows transactions in land by sales, mortgages, redemption and gifts and exchanges during 1951-52 to 1960-61.

Table 48 presents the number of instruments registered and value of property transferred in the District annually from 1951 to 1960.

MISCELLANEOUS

Table 49 presents important events occurred in each Tahsil of the District during the period 1950—61.

Table 50 shows the monuments and better known places of worship or tourist interest in rural areas of the District, arranged according to Tahsils. Information is also given about its distance from nearest railway station and whether any fair is held there.

FAIRS AND FESTIVALS

Table 51 relates to fairs and festivals. The material for this Table was collected from a number of agencies: headmasters of schools, *patwaris*, Police Stations, District Officers of Health and municipal committees.

The faris and festivals are arranged for villages in Tahsils according to the Hadbast numbers. Information is given for each fair relating to the date on which it falls, duration, its significance and any legend connected with it, mode of observance and other entertainments, approximate number of visitors and the distance they come from, whether restricted to any particular castes or observed generally, and the commodities sold.

*About 250 years ago a saint, Baba Buddha showed some *chamatkar* (wonder) here. In his honour and memory, people constructed great help to the village and even laid down his life for it.

†In olden times, this place is reported to be the capital of a Chakravarti Raja named Chakwabin famed both for his prowess and after finishing the trouble-maker. Once the Raja held a big *Yagya* and invited all Rishis, Munis and Sadhus to it. One Chunkat Rishi who as an alternative to the non-acceptance of the invitation. The Rishi first tried to leave the kingdom but later accepted Raja's challenge to first arrow, his capital with the second, and finally the Raja himself with the third. Formerly the river Yumna is said to flow by this early hours of the morning before anybody could have his turn.

a tank and *smadh* and a fair began to be held. Another version is that the fair is held in memory of a person Buddha Baba who rendered

sense of Justice. He had a *chakkar* (a circular sharp-edged weapon) which would go out to the rescue of anybody in trouble and return lived about four miles away at village Chulkana declined the invitation. The Raja asked the Rishi either to leave his kingdom, or, to fight, fight. He successfully w thstood the attack opened by the Raja, and using three arrows of *kusha* (a grass), he destroyed Raja's army with the place, but now there is only a small pond existing there which never dries. Some secret saint is reported to take his bath here in the very

Table SC-I	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes of the District and for Rural areas of Selected Tahsils.	253

EXPLANATORY NOTE

The Tables presented below have been prepared from the data collected during the 1961-census. Some of the Tables give information upto Tahsil and Town level, and have been prepared exclusively for this volume. Tables A-IV, B-III (Part A), B-VI, C-VIII (Part A), C-III (Part B), and SCT-III (Part A) give information only for urban areas. Tahsilwise tables for urban areas could not be prepared since sorting of slips was done for noncity urban area of the District as a single unit. Slips for the five cities in the State were, however, sorted separately. The Tables have been grouped under suitable series and are explained below.

A—SERIES : GENERAL POPULATION TABLES

These Tables deal with distribution of population in 1961 and its growth since 1901. There are four Tables and three Appendices in this series.

Table A-I shows area both in square miles and square kilometres ; number of villages, inhabited and uninhabited ; number of towns ; number of occupied houses ; and population for the District, each Tahsil and Town, with sex break-up. The figures for Towns have been given below the Tahsils in which they are located. Figures are given for the total, rural and urban areas, separately.

The area figures for the District and Tahsils were obtained from the Director of Land Records, Punjab and those for urban areas from the respective Local Bodies. Rural figures were worked out by substracting the urban figures from the total area figures.

Occupied residential houses refers to those houses which were actually used for residence, either exclusively or jointly with some other use. Thus vacant houses and houses used for shops, factories, workshops, offices, etc., have not been included in these figures.

In the 1961-census an *urban area* or *town* was defined as a place having a local administration, such as Municipal Committee or Cantonment Board,or an area treated as a town because of its having (a) population exceeding 5,000, and (b) at least 75 per cent of its male workers were engaged in non-agricultural pursuits.

Persons were enumerated according to the place of their residence and not their place of work, except in the case of visitors who were enumerated wherever the enumerators met them and on inquiry were told that such persons had not been enumerated before. The population so recorded in towns has been styled as *urban population* and the rest as *rural population.*

Village as in previous censuses, refers to an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government had otherwise declared as an 'estate'. This definition of *village* is identical with that of '*mauza*' under section 3 (1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to a residential site. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called '*tikkas*' in Kangra District except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit is '*phati*'. In Lahaul and Spiti District the revenue estate is referred to as '*kothi* and its components as '*gaon*'.

Appendix I shows the territorial changes which took place during the decade 1951—61. Such Tahsils as had not undergone any change of area during the decade have not been mentioned in the appendix.

Appendix II shows the number and population of villages each having 5,000 or more persons, and towns with population under 5,000. The population living in such big villages and towns of small size has also been shown as percentage of total, rural and urban population, under cols. 4 and 7.

Appendix III relates to the houseless and institutional population.

Members of wandering tribes, tramps, pavement dwellers and others who do not live as households comprise the *houseless population.* These persons were enumerated on the night between the 28th February and 1st March, 1961.

Residential institutions such as, jails, hostels, hotels and boarding houses, were treated as households, and their inmates were treated as members of these households. Policemen and Defence personnel living in barracks or under canvas, and taking their meals from a common kitchen, were also treated as *institutional* population.

Table A-II shows the population of the District at the time of censuses, from 1901 to 1961, and variations in population—in absolute figures and percentage—in each decade. The population figures for the previous censuses have been adjusted according to the 1961 territory of the District.

In **Table A-III** the villages have been graded according to the size of population as shown below, and for each group the number of villages and population have been shown.

Villages with population—

(a) less than 200 ;
(b) 200 and 499 ;
(c) 500 and 999 ;
(d) 1,000 and 1,999 ;
(e) 2,000 and 4,999 ; and
(f) 5,000 or more.

The term 'village' has already been defined.

Table A-IV shows the population of each town since 1941. The absolute and percentage variations during the two decades have also been worked out. Where a town was not treated as such in any earlier census, its population for that census has not been shown in this Table.

Where two or more towns are adjacent and together form a compact urban unit, their combined population as a town group has also been worked out.

B—SERIES : ECONOMIC TABLES

The Tables of this series relate for the most part to economic activities : thirteen among them deal with the population as individuals and the other nine as households. The population has been distributed in the first instance into Workers and Non-workers. The Workers have been classified (a) into nine industrial categories, further sub-divided into major and minor groups as listed in the "Indian Standard Industrial Classification"(Annexure A) adopted by the Government of India, and (b) according to occupations listed in the "National Classification of Occupations" (Annexure B).

In earlier censuses income or economic independence was taken as the criterion for measuring the economy of the country. Account was made of all the persons who were economically independent and those who were economically dependent. An intermediate category of semi-dependence was introduced from the 1931 census. This category was called 'working dependent' in 1931, 'partly dependent' in 1941 and 'earning dependent' in 1951. A radical change was made in 1961 on the basis of classification of population, discarding economic independence in favour of work.

In the 1961 census a person was classed as worker if engaged in seasonal work and worked at least for an hour a day throughout the greater part of the working season. If engaged in any trade, profession or service, the basis of work was satisfied if the person was employed during any of the fifteen days preceding the enumeration. Of course, the concept of work covered also supervision and direction of work.

A person who was working but was absent from work due to illness or other reasons, was also counted as a worker. A person who was offered work but did not actually join was, however, taken as a non-worker. Persons under training as apprentices with or without stipends or wages were also recorded as workers.

An adult woman who was engaged in household duties but did no other productive work to directly augment the family resources was not considered to de a worker. But if in addition to her household work she engaged herself in an activity, such as rice-pounding for sale or wages, domestic service for wages, collecting and selling grass or firewood, or making and selling cow-dung cakes, she was treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royalty or rent or dividend receivers, who earned an income but were not participating in any productive work were not treated as workers unless they also worked in cultivation, industry, trade, profession, business or commerce.

A public or social service worker actively engaged in public service or furthering the cause of a political party was recorded as a worker.

The census questionnaire did not have any question to determine the position about a person being fully or partially employed.

A person doing more than one work was classed under the principal work which consumed a larger portion of his working time, and not according to the work which brought him major portion of income.

Table B-I gives figures for workers and non-workers according to sex and broad age-groups. Workers have been classified into the following nine industrial categories :—

(1) as cultivators ;
(2) as agricultural labourers ;
(3) in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities ;
(4) at household industry ;
(5) in manufacturing other than household industry ;
(6) in construction ;
(7) in trade and commerce ;
(8) in transport, storage and communications ; and
(9) in other services.

Cultivator is a person who is engaged in cultivation on his own or rented land, i.e., an owner-cultivator or tenant.

Agricultural Labourer is a person who works on another person's land for wages in cash, kind or share of produce.

Household Industry is an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Construction refers to construction and maintenance of buildings, roads, railways, bridges, canals, etc. The other five categories are self-explanatory.

Non-worker is a person who is not at work, as defined above.

Table B-III (Part A) has been prepared only for the urban areas and gives the classification of workers and non-workers by educational levels. Workers have been distributed further into nine industrial categories.

In the 1961-census, the test for literacy was ability to read and write a simple letter. A person who fulfilled this test was taken as *literate*. In case he had attained any educational standard, the highest examination passed was recorded in the enumeration slip.

These qualifications have been grouped into six educational levels. The sixth level "Technical Degree or Diploma equal to Degree or Post-Graduate Degree" is sub-divided into seven groups.

Table B-III (Part B) relates to rural areas, and the educational levels are confined only to (i) Primary or Junior Basic, and (ii) Matriculation or above.

Table B-IV (Part A) A shows the distribution of workers engaged in household industry by sex and class of workers, They have been divided further into branches of industry listed in the "Indian Standard Industrial Classification" (Annexure A). Figures have been given for total, rural and urban areas for the District. Tahsil figures are only for rural areas, and up to the industrial Divisions. Major groups which do not have any figures, have been excluded from this Table. In cols. 5 and 6 the workers, who work as employees in the household industry run by others, have been shown. 'Others' under cols. 7 and 8 include workers, who work at their own household industries.

Table B-IV (Part B) shows the distribution of workers engaged in industrial categories III, V, VI, VII, VIII and IX. Workers have further been divided into various Divisions and major groups according to the "Indian Standard Industrial Classification" (Annexure A). Material is given only for total and urban areas. Figures for rual areas have not been given in order to save space. Workers have further been classified into employers, employees, single workers and family workers.

An employer is a person who employs other persons in order to perform economic activity in which he is engaged.

An employee is a person who works under others for wages or salary in cash or kind. Persons who are employed as Managers, Superintendents, Agents, etc. and in that capacity employ or control other workers on behalf of their employer have also been taken as employees.

Single worker is a person who works of his own accord without employing others and without the help of other members of the family. This includes members of co-operatives also.

Family workers is a person who works in his own family without wages or salary.

Table B-IV (Part C) shows the distribution of all workers, other than cultivators and agricultural labourers into various Industrial Divisions, Major Groups and Minor Groups of "Indian Standard Industrial Classification" (Annexure A). The number of workers in each Division, Major Group or Minor Group has been divided further into workers in household industry and workers in non-household industries. Material is given only for total and urban areas. Tahsil figures for rural areas are given up to Industrial Divisions. Major and Minor Groups, which do not employ any worker, have not been included in this Table.

Table B-V gives the distribution of persons at work, other than cultivators and agricultural labourers, according to their occupation. Occupations have been divided into various Divisions, Groups and Families according to the "National Classification of Occupations" (Annexure B). Break-up according to Industrial categories has also been shown for each Occupational Division, Group and Family. Total and urban figures have been given for the District. But in the case of Tahsils, rural figures have been given only up to Occupational Divisions.

Table B-VI presents the distribution of workers, other than those engaged in cultivation. This has been prepared only for urban areas and up to the Divisions of the "National Classification of Occupations" (Annexure B). Persons of each Occupational Division have been further classified by broad age groups and educational levels.

Table B-VII has been prepared into two parts. **Part-A** is a cross tabulation of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour, or (iii) household industry. **Part-B** gives data of the persons who are principally engaged in non-household industry, trade, business, profession or service but have household industry as secondary work.

This Table has been prepared separately for total, rural and urban population for the District. For Tahsils, figures have been given only for Industrial Divisions and that too for rural areas.

Table B-VIII has been prepared in two parts : **Part-A** for urban areas, and **Part-B** for rural areas. They show the distribution of unemployed persons aged 15 and above, by educational levels. The unemployed persons are the total of columns 19 to 22 of Table B-IX.

In **Part-A**, unemployed persons have been further divided into two groups : (i) seeking employment for the first time ; and (ii) persons employed before but now out of employment and seeking work. These groups have been divided into different age groups also. **Part-B** gives Tahsilwise information also.

Table B-IX relates to non-workers and gives their distribution into the following eight types of activities by broad age groups :—

(i) whole time students doing no other work ;
(ii) persons engaged in unpaid home duties ;
(iii) dependents, including children not attending school, and persons permanently disabled from work because of illness or old age ;
(iv) retired persons, not employed again, rentiers and other persons of independent means without having to work ;
(v) beggars, vagrants or independent women without an indication of their source of income ;
(vi) convicts in jail or inmates of a penal, mental or charitable institutions ;
(vii) persons seeking employment for the first time ; or
(viii) persons employed before but now out of employment and seeking work.

Separate figures have been given for total, rural and urban areas for the District and only rural figures in case of Tahsils.

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables (B-X to B-XVII) have been prepared from a 20 per cent sample of household schedules. In the census history, information for the household as a whole has been collected for the first time.

The Household Schedule consists of two parts. In **Part-I**, after recording the name of the head of the household and whether he belonged to a Scheduled Caste or Scheduled Tribes, the following particulars were recorded about the household.

A. If the household was engaged in cultivation, the area of land with it under ownership and tenancy, and any portion of holding given out to others for cultivation. Information about area rented out was also recorded for the households who owned land and had given the entire holding to others for cultivation ;

B. If the household was engaged in household industry, the nature of the industry and the number of the months in a year it was conducted ; and

C. Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

Part-II was filled in from Individual Slips of the persons residing in that household.

Table B-X contains information on sampled households which have been divided into the following four categories :—

(i) engaged neither in cultivation nor in household industry ;
(ii) engaged in cultivation only ;
(iii) engaged in household industry only ; and
(iv) engaged both in cultivation and household industry.

The number of households given in column 3 if multiplied by 5 will not tally with that given in the Primary Census Abstract, because the schedules relating to institutions were not taken into account for drawing the sample.

In **Table B-XI** the sampled households, engaged in cultivation, have been classified by interest in land and size of land cultivated. This Table has been prepared for rural and urban areas separately. Interest in land is of the following three types :—

(i) owned or held from Government ;
(ii) held from private persons or institutions for payment in money, kind or share ; and
(iii) partly owned or held from Government, and partly from private persons for payment in money, kind or share.

These types of interest in land has been cross-tabulated by different sizes of land-holdings.

Table B-XII classifies the cultivating households by (1) size of land cultivated, and (2) number of family and hired workers engaged in cultivation. Sex break-up of the family workers has also been given.

Table B-XIII shows the distribution of sampled households engaged both in cultivation and household industry, into different sizes of land holding, separately for rural and urban areas of the District. Household industries have been divided into Major Groups according to "Indian Standard Industrial Classification" (Annexure A).

Table B-XIV has been prepared into two parts, separately for total, rural and urban population of the District. In **Part-A** the households have been distributed by nature of household industry and number of persons engaged into the following five size groups :—

(i) 1 person ;
(ii) 2 persons ;
(iii) 3 to 5 persons ;
(iv) 6 to 10 persons; and
(v) more than 10 persons.

This part gives data up to Major Groups, while **Part-B** gives the distribution up to Minor Groups. Col. 2 gives description of the industry.

Table B-XV is similar to Table B-XII, but relates to such households as were engaged simultaneously in cultivation and household industry.

Table B-XVI attempts distribution of sampled households engaged in household industry, according to period of working and number of persons engaged therein, separately for total, rural and urban areas of the District. Data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately.

Table B-XVII distributes the households according to the number of their members. For rural areas the following additional information has been given :—

(i) households engaged neither in cultivation nor in household industry
(ii) those in household industry only ;
(iii) those engaged in cultivation ; and
(iv) distribution of cultivating households according to the size of their operational holdings.

C—SERIES : SOCIAL AND CULTURAL TABLES

Eight Tables, dealing with social and cultural aspects such as age, marital status, literacy and education, language, religion appear under this series. Table C-I has been prepared from a 20 per cent sample of the household schedules, while other Tables are prepared on full count from the individual slips.

Table C-I shows the composition of sampled households according to relationship to the head of the family. Size of operational holdings with the households is also shown for rural areas on the same lines as in Table B-XVII.

Table C-II presents data on age and marital status for total, rural and urban population of the District, and for rural population only in the case of Tahsils. Marital status has been divided into : (i) never married ; (ii) married ; (iii) widowed ; and (iv) divorced and separated. In 1961 census, quinquennial age groups, as recommended by the United Nations for population census, have been adopted.

Age groups 0-4 and 5-9 have been combined, since all the persons up to the age of 9, have been treated as 'never married'.

From this Table, it can be ascertained whether proportions, in various marital status conditions, have increased or decreased since the last census and whether any trend is observed in the age of marriage. This also gives an account of mortality in each marital status and also in different age groups. Data in col. 9 on married females by age groups can be utilised for forecasting the future births. In 1951-census, this Table was prepared on 10 per cent sample, but this time on a full count.

Table C-III has three parts : Part-A for all areas ; Part-B for urban areas ; and Part-C for rural areas. Population in various age groups has been classified according to educational levels. The educational levels for all areas and rural areas are the same whereas for urban areas they have been further divided into various groups since education is more pronounced and diversified in urban areas.

Table C-V shows the distribution of population by mother tongue separately for total, rural and urban population in the District and for rural population in the Tahsils.

Mother tongue was defined as the language spoken by the person's mother to the person in his childhood or mainly spoken in the house. If the mother died in a child's infancy, the language mostly spoken in the person's home in childhood was recorded.

A Table on bilingualism has also been prepared in 1961-census. This Table is not included in this volume, and may be found in Part II-C (i) of Punjab Census Report.

Table C-VII shows the distribution of population according to six main religions, for total, rural and urban areas of the District. All other religions have been grouped under "Others." Tahsilwise figures have also been given for rural areas.

Table C-VIII shows the distribution of Scheduled Caste population according to literacy and nine industrial categories of workers, and non-workers, separately for total, rural and urban population in the District.

Scheduled Castes are the castes listed in the Scheduled Castes and Scheduled Tribes List Modification Order (Ministry of Home Affairs Notification No. SRO/2477-A, dated the 29th October, 1956). These castes, in Punjab are :—

1. Throughout the State—
(1) Ad Dharmi ; (2) Bangali ; (3) Barar, Burar or Berar ; (4) Batwal; (5) Bauria or Bawaria; (6) Bazigar ; (7) Balmiki, Chura or Bhangi ; (8) Bhanjra ; (9) Chamar, Jatia Chamar, Rehgar, Raigar, Ramdasi or Ravidasi ; (10) Chanal ; (11) Dagi ; (12) Dhanak ; (13) Dumna, Mahasha or Doom ; (14) Gagra ; (15) Gandhila or Gandil, Gondola ; (16) Kabirpanthi or Julaha ; (17) Khatik ; (18) Kori or Koli ; (19) Marija or Marecha ; (20) Mazhabi ; (21) Megh ; (22) Nat ; (23) Od ; (24) Pasi ; (25) Perna ; (26) Pherera ; (27) Sanhai ; (28) Sanhal ; (29) Sansi, Bhedkut or Manesh ; (30) Sapela ; (31) Sarera ; (32) Sikligar ; and (33) Sirkiband.

2. Throughout the State except the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur—

   (1) Darain ; (2) Dhogri, Dhangri or Siggi ; and (3) Sansoi.

3. In the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur—
   Deha, Dhaya or Dhea.

D—SERIES : MIGRATION TABLES

Six Tables were prepared on this subject. Migration has been inferred from the place of birth, a question asked from each individual during the 1961-census. Two allied questions were whether the birth place was a rural or urban area, and the duration of residence at the place of enumeration if born elsewhere.

In this book only one Table has been included ; the other Tables are to be found in Part II-C (ii) of the Punjab Census Report.

Table D-II presents the figures for persons born (1) at place of enumeration, (2) elsewhere in the District, (3) in other Districts of the State, (4) in other States of India, and (5) in other countries. Births have been classified into rural and urban areas. This information when studied with the place of enumeration sheds an interesting light on the movement of population from villages to towns and *vice versa.*

E—SERIES : HOUSING TABLES

Prior to 1961-census, the preparation of houselists differed from State to State since the main idea was to prepare the framework for conducting the census. In the 1961-census, one uniform pattern for houselist has been adopted. In the houselist, data on housing such as material of wall, roof, number of rooms, the uses to which they are put, as well as data relating to establishments such as the names of the establishments and the products produced, number of persons working, and kind of fuel and power used and number of males and females living therein in case it was used as dwelling, was collected. Five Tables have been prepared in this series from the data so collected. Tables E-I and E-III have been prepared on full count and the other three Tables on 20 per cent samples out of the dwellings. Table E-III, which gives the number of workshops and factories in each industry by kind of fuel and size of employment, has not been given here for want of space. Instead, a running statement, showing the number of establishments in each industry for each village and town has been given. Industries have been shown according to Code numbers of the "Indian Standard Industrial Classification" reproduced at Annexure 'A'. Other Tables present data for the District and its Tahsils for total, rural and urban areas, separately, as well as for towns with a population of 50,000 or more. Urban figures of each Tahsil are inclusive of town figures, if any shown thereunder.

Table E-I shows the distribution of census houses according to the use they are put to. Col. 4 gives the number of "vacant houses" which are found vacant at the time of houselisting.

In the earlier censuses the "*census house*" was defined as a dewlling with a separate main entrance. In the 1961-census the concept of "census house" was made broad as to cover any "structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school, etc., with a separate entrance."

Table E-II prepared on 20 per cent sample shows the distribution of census households living in census houses according to their tenure status. Houses lived in by the owners were classed as "owned" and the houses lived in any other capacity were shown as "rented."

Table E-IV has been prepared from a 20 per cent sample and distributes the houses according to the predominent material going into the construction of walls and the roofs.

Where a house consisted of separate structures, each of different materials, the material out of which the walls of the main bed-rooms had been built, was recorded. The roofs were classified on the same basis. In case of multi-storeyed buildings, the intermediate floor or floors have been taken as the roofs of the lower floors.

Table E-V has also been prepared on 20 per cent sample, and shows the distribution of households according to number of rooms occupied by them, such as no regular room, one room, two rooms, three rooms, four rooms, and five rooms or more. The number of persons comprising the households have also been given according to the number of rooms they occupied.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution of India has provided special safeguards for the members of the Scheduled Castes and President of India has notified the Castes which fall in the list of Scheduled Castes for this purpose. This list has been given in the explanatory note to Table C-VIII above. Hence it has been found desirable to give information in regard to these castes separately, though they have been included in the general population Tables.

According to the Presidential Order referred to above the Scheduled Tribes are found in this State only in Lahaul & Spiti District. Similar Tables have also been prepared for them and may be found in the State Census Report, Part V-A, and District Census Handbook for Lahaul & Spiti.

Table SCT-I classifies into workers and non-workers the number of each Scheduled Caste giving further details according to nine industrial categories of workers. Since most of the members of the Scheduled Castes are engaged in special types of occupations, such as " tanning and curing of hides and skins" and "scavanging" number of persons following these occupations have also been given under Cols. 27 to 30.

Table SCT-II presents data for each caste according to age and marital status. The age groups adopted are 0—14, 15—44, and 45+.

Table SCT-III has been prepared in two parts, dealing with urban and rural areas, respectively. In this Table members of each caste have been classified according to educational levels.

Table SCT-IV furnishes data for each caste according to religion, separately for rural and urban areas of the District. Members of the Scheduled Castes can only be either Hindus or Sikhs, so their religion-wise break-up is confined to these two religions.

Table SCT-V has been prepared on 20 per cent sample from the households, showing their distribution according to interest in land cultivated and size of operational holdings.

Table SC-I classifies the members of the Scheduled Castes who are not at work by the type of activity according to educational levels. Only three activities of non-workers out of the eight adopted for the general population (given in the note for Table B-IX) have been taken and others have been lumped together under 'Others' in cols. 11 and 12.

ANNEXURE 'A'

Indian Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)s
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops—*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing—*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 0—Agriculture, livestock, forestry, fishing and hunting—concld.		
04	*Livestock and Hunting*— concld.	
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
Division 1—Mining and Quarrying		
10	*Mining and Quarrying*—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
Division 2 & 3—Manufacturing		
20	*Foodstuffs*—	
	Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, chease and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219

India Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
22	*Tobacco Products*—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jarda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile-Cotton*—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile-Silk*—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile-Miscellaneous*—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases bedding materials, mattress, textile bags	274

Indian Standard Industrial Classification—contd.

Majorp Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—contd.		
27	*Textile-Miscellaneous*—concld.	
	Manufacture of water proof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixture	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing*—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block-making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code No. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purposes	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—contd.		
32	*Rubber, Patroleum and Coal Products*—concld.	
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*—	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and material (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34-35	*Non-metallic Mineral Products other than Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stoneware, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products Except Machinery and Transdort Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, belt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major groups 36, 37, 38 and 39)	369

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—concld.		
37	*Machinery (All kinds other than Transport) and Electrical equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators. transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehilces engine parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal-drawn and hand drawn-vehicles	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
Division 4—Construction		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative, constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tube-wells, wells	403
Division 5—Electricity, Gas, Water and Sanitary Services		
50	*Electricity and Gas*—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502

Indian Standard Industrial Classification—contd.

Major Group (Code)	Discription	Major Group (Code)
Division 5—Electricity, Gas, Water and Sanitary Services—concld.		
51	*Water Supply and Sanitary Services*—concld.	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
Division 6—Trade and Commerce—		
60-63	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholsale trading in clocks, eye glasses frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64-68	*Retail Trade—*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (Seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retails trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeat condiments, cakes, biscuits, etc.	646
	Retails trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products ; (this includes retail trading in piece-goods of cotton wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 6—Trade and Commerce—concld.		
64-68	*Retail Trade*—concld.	
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo, cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous*—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fans, microphone, rickshaw, etc.	699
Division 7—Transport, Storage and Communication		
70	*Transport*—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting, travel agency	710

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 7—Transport, Storage and Communication—concld.		
72	*Storage and Warehousing*—	
	Operation of storage such as ware houses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	*Communication*—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8—Services		
80	*Public Services* (This does not include Government, Quasi-Government or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisations, municipalities local boards, etc.	805
	Public services in administrative departments and offices of State Government	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	*Medical and Health Services*—	
	Public Health and medical services rendered by organisations, and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841

Indian Standard Industrial Classification—concld.

Major Group (Code)	Description	Minor Group (Code)
Division 8—Services—concld.		
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals	850
	Business Services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business Service rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc. racing	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studious	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified	890
Division 9—Activities not adequately described		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900

ANNEXURE 'B'

National Classification of Occupations

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—		
00	*Architects, Engineers and Surveyors—*	
	Architects	000
	Civil Engineers (including overseers)	001
	Mechanical Engineers	002
	Electrical Engineers	003
	Chemical Engineers	004
	Metallurgical Engineers	005
	Mining Engineers	006
	Surveyors	007
	Architects, Engineers, and Surveyors, n.e.c.	009
01	*Chemists, Physicists, Geologists and other Physical Scientists—*	
	Chemists	010
	Pharmaceutical Chemists	011
	Physicists	012
	Meteorologists	013
	Geologists and Geophysists	014
	Mathematicians	015
	Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.	019
02	*Biologists, Veterinarians, Agronomists and Related Scientists—*	
	Biologists and Animal Scientists	020
	Veterinarians	021
	Silviculturists	022
	Agronomists and Agricultural Scientists	023
	Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.	029
03	*Physicians, Surgeons and Dentists—*	
	Physicians and Surgeons, Allopathic	030
	Physicians, Ayurvedic	031
	Physicians, Homeopathic	032
	Physicians, Others	033
	Physiologists	034
	Dentists	035
	Physicians, Surgeons and Dentists, n.e.c.	039
04	*Nurses, Pharmacists and other Medical and Health Technicians—*	
	Nurses	040
	Midwives and Health Visitors	041
	Nursing Attendants and Related Workers	042
	Pharmacists and Pharmaceutical Technicians	043
	Vaccinators	044
	Physiotherapists, Masseurs and Related Technicians	045
	Sanitation Technicians	046
	Optometrists and Opticians	047
	Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants, see 091)	049
05	*Teachers—*	
	Teachers, University	050

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—concld.		
05	*Teachers*—concld.	
	Teachers, Secondary Schools	051
	Teachers, Middle and Primary Schools	052
	Teachers, Nursery and Kindergarten Schools	053
	Teachers, n.e.c.	059
06	*Jurists*—	
	Judges and Magistrates	060
	Legal Practitioners and Advisers	061
	Law Assistants	062
	Jurists and Legal Technicians, n.e.c. (including Petition Writers)	069
07	*Social Scientists and Related Workers*—	
	Economists	070
	Accountants and Auditors	071
	Statisticians and Actuaries	072
	Geographers	073
	Phychologists	074
	Personnel Specialists	075
	Labour and Social Welfare Workers	076
	Sociologists and Anthropologists	077
	Historians, Archeologists, Political Scientists and Related Workers	078
	Social Scientists and Related Workers, n.e.c.	079
08	*Artists, Writers and Related Workers*—	
	Authors	080
	Editors, Journalists and Related Workers	081
	Translators, Interpreters and Language Specialists	082
	Printers, Decorators and Commercial Artists	083
	Sculptors and Modellers	084
	Actors and Related Workers	085
	Musicians and Related Workers	086
	Dancers and Related Workers	087
	Artists, Writers and Related Workers, n.e.c.	089
09	*Draughtsmen, and Science and Engineering Technicians, n.e.c.*—	
	Draughtsmen	090
	Laboratory Assistants	091
	Science and Engineering Technicians, n. e. c.	099
0X	*Other Professional, Technical and Related Workers*—	
	Ordained Religious Workers	0X0
	Non-ordained Religious Workers	0X1
	Astrologers, Palmists and Related Workers	0X2
	Librarians, Archivists and Related Workers	0X3
	Other Professional, Technical and Related Workers, n.e.c.	0X9
Division 1—Administrative, Executive and Managerial Workers—		
10	*Administrators and Executive Officials, Government*—	
	Administrative and Executive Officials, Central Government	100
	Administrators and Executive Officials, State Government	101
	Administrators and Executive Officials, Local Bodies	102
	Administrators and Executive Officials, Quasi-Government	103
	Village Officials	104
	Administrators and Executive Officials, Government, n.e.c.	109
11	*Directors and Managers, Wholesale and Retail Trade*—	
	Directors and Managers, Wholesale Trade	110
	Directors and Managers, Retail Trade	111

National Classification of Occupation—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 1—Administrative, Executive and Managerial Workers—concld.		
12	*Directors, Managers and Working Proprietors, Financial Institutions—*	
	Directors, Managers and Working Proprietors, Banks	120
	Directors, Managers and Working Proprietors, Insurance	121
	Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.	129
13	*Directors, Managers and Working Proprietors, Others—*	
	Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling	130
	Directors, Managers and Working Proprietors, Construction	131
	Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary	132
	Directors, Managers and Working Proprietors, Manufacturing	133
	Directors, Managers and Working Proprietors Transport and Communication	134
	Directors, Managers and Working Proprietors; Recreation, Entertainment and Catering Services	135
	Directors, Managers and Working Proprietors, other Services	136
	Directors, Managers and Working proprietors, n.e.c.	139
Division 2—Clerical and Related Workers—		
20	*Book-keepers and Cashiers—*	
	Book-keepers, Book-keeping and Accounts Clerks	200
	Cashiers	201
	Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors (excluding those on moving transport)	202
21	*Stenographers and typists—*	
	Stenographers	210
	Typists	211
22	*Office Machine Operators—*	
	Computing Clerks and Calculating Machine Operators	220
	Punch Card Machine Operators	221
	Office Machine Operators, n.e.c.	229
28	*Clerical Workers, Miscellaneous—*	
	General and other Ministerial Assistants and Clerks	280
	Miscellaneous Office Workers including Record Keepers, Muharrers, Despatchers Packers and Binders of office papers	289
29	*Unskilled Office Workers—*	
	Office Attendants, Ushers, Hall-porters, etc., n.e.c.	290
Division 3—Sales Workers—		
30	*Working Proprietors, Wholesale and Retail Trade—*	
	Working Proprietors, Wholesale Trade	300
	Working Proprietors Retail Trade	301
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers—*	
	Agents and Salesmen, Insurance	310
	Agents, Brokers and Salesmen, Real Estate	311
	Brokers and Agents, Securities and Shares	312
	Auctioneers	313
	Valuers and Appraisers	314
	Insurance and Real Estate Salesmen, Salesmen of Scurities and Services, and Auctioneers, n.e.c.	319
32	*Commercial Travellers and Manufacturers' Agents—*	
	Commercial Travellers	320
	Manufacturers' Agents	321
	Commercial Travellers and Manufacturers' Agents, n.e.c.	329

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 3—Sales Works—concld.	
33	*Salesmen, Shop Assistants and Related Workers—*	
	Salesmen and Shop Assistants, Wholesale and Retail Trade	330
	Hawkers, Pedlars and Street Vendors	331
	Salesmen, Shop Assistants and Related Workers, n.e.c.	339
34	*Money-Lenders and Pawn Brokers—*	
	Money-Lenders (including Indigenous Bankers)	340
	Pawn Brokers	341
	Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—	
40	*Farmers and Farm Managers—*	
	Cultivators (Owners)	400
	Cultivators (Tenants)	401
	Farm Managers, Inspectors and Overseers	402
	Planters and Plantation Managers	403
	Farmers and Farm Managers, Animals, Birds and Insects Rearing	404
	Farmers and Farm Managers, n.e.c.	409
41	*Farm Workers—*	
	Farm Machinery Operators	410
	Farm Workers, Animals, Birds and Insects Rearing	411
	Gardeners (Malis)	412
	Tappers (Palm, Rubber trees, etc.)	413
	Agricultural Labourers	414
	Plantation Labourers	415
	Farm Workers, n.e.c.	419
42	*Hunters and Related Workers—*	
	Hunters	420
	Trappers	421
	Hunters and Related Workers, n.e.c.	429
43	*Fishermen and Related Workers—*	
	Fishermen, Deep Sea	430
	Fishermen, Inland and Coastal Waters	431
	Conch and Shell Gatherers, Sponge and Pearl Divers	432
	Fishermen and Related Workers	439
44	*Loggers and Other Forestry Workers—*	
	Forest Rangers and Related Workers	440
	Harvesters and Gatherers of Forest Products including lac (except logs)	441
	Log Fellers and Wood Cutters	442
	Charcoal Burners and Forest Product Processers	443
	Loggers and Other Forestry Workers, n.e.c.	449
	Division 5—Miners, Quarrymen and Related Workers—	
50	*Miners and Quarrymen—*	
	Miners	500
	Quarrymen	501
	Drillers, Mines and Quarries	502
	Shot Firers	503
	Miners and Quarrymen, n.e.c.	509
51	*Well Drillers and Related Workers—*	
	Well Drillers, Petroleum and Gas	510
	Well Drillers, other than Petroleum and Gas	511

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 5—Miners, Quarrymen and Related Workers—concld.		
52	*Mineral Treaters*—	
	Mineral Treaters	520
59	*Miners, Quarrymen and Related Workers, n.e.e.*—	
	Miners, Quarrymen and Related Workers, n.e.c.	590
Division 6—Workers in Transport and Communication Occupations—		
60	*Deck Officers, Engineer Officers and Pilots, Ship*—	
	Deck Officers and Pilots, Ship	600
	Ship Engineers	601
61	*Deck and Engine-Room Ratings (Ship), Barge Crews and Boatmen*—	
	Deck Ratings (Ship), Barge Crews and Boatmen	610
	Engine-Room Ratings, Firemen and Oilers, Ship	611
62	*Aircraft Pilots, Navigators and Flight Engineers*—	
	Aircraft Pilots	620
	Flight Engineers	621
	Flight Navigators	622
63	*Drivers and Firemen, Railway Engine*—	
	Drivers	630
	Firemen	631
64	*Drivers, Road Transport*—	
	Tramcar Drivers	640
	Motor Vehicle and Motor Cycle Drivers	641
	Cycle Rickshaw Drivers and Rickshaw Pullers	642
	Animal Drawn Vehicle Drivers	643
	Drivers, Road Trasnsport, n.e.c. (including Palki and Doli Bearers)	649
65	*Conductors, Guards and Brakesmen (Railways)*—	
	Conductors	650
	Guards	651
	Brakesmen	652
66	*Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport*—	
	Inspector, Supervisors and Station Masters	660
	Traffic Controllers	661
	Signalmen and Pointsmen	662
67	*Telephone, Telegraph and Related Tele-communication Operators*—	
	Telephone Operators	670
	Telegraphists and Signallers	671
	Radio Communication and Wireless Operators	672
	Tele-printers Operators	673
	Telephone, Telegraph and Related Tele-communication operators, n.e.c.	679

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 6—Workers in Transport and Communication Occupations—	
68	*Postmen and Messengers—*	
	Postmen	680
	Messengers (including Dak Peons)	681
69	*Workers in Transport and Communication Occupations, n.e.c.—*	
	Ticket sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport	690
	Conductors, Road Transport	691
	Workers in Transport Occupations, n.e.c.	692
	Inspectors, Traffic Controllers and Despatchers, Communication	693
	Workers in Communication Occupations, n.e.c.	694
	Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—	
70	*Spinners, Weavers, Knitters, Dyers and Related Workers—*	
	Fibre Preparers, Ginners, Cleaners, Scourers, etc.	700
	Blow-room Workers and Carders	701
	Spinners, Piecers and Winders	702
	Warpers and Sizers	703
	Drawers and Weavers	704
	Pattern Card Preparers	705
	Bleachers, Dyers and Finishers (excluding Printers)	706
	Knitters and Lace Makers	707
	Carpet Makers and Finishers	708
	Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.	709
71	*Tailors, Cutters, Furriers and Related Workers—*	
	Tailors, Dress Makers and Garment Makers	710
	Hat and Head-gear Makers	711
	Furriers	712
	Upholsterers and Related Workers	713
	Pattern makers, Markers and Cutters, Textile Products, Leather Garments and Gloves	714
	Sewers, Embroiderers and Darners, Textile and Fur Products	715
	Tailors, Cutters, Furriers and Related Workers, n.e.c.	719
72	*Leather, Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers—*	
	Shoe makers and Shoe repairers	720
	Cutters, Lasters, Sewers, Footwear and Related Workers	721
	Harness and Saddle Makers	722
	Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related workers n.e.c.	729
73	*Furnancemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers—*	
	Furnacemen, Metal	730
	Annealers, Temperers and Related Heat Treaters	731
	Rolling Mill Operators, Metal	732
	Blacksmiths, Hammersmiths and Forgemen	733
	Moulders and Coremakers	734
	Metal Drawers and Extruders	735
	Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers, n.e.c.	739

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsman, Production Process Workers and Labourers, n.e.c—contd.		
74	*Precision Instrument Makers, Watch Makers, Jewellers and Related Workers*—concld.	
	Precision Instrument Makers, Watch and Clock Makers and Repairmen	740
	Jewellers, Goldsmiths and Silversmiths	741
	Jewellery Engravers	742
75	*Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers*—	
	Fitter-Machinists, Tool-makers and Machine Tool Setters	750
	Machine Tool Operators	751
	Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)	752
	Machanics-Repairmen (except Electrical and Precision Instrument Repairmen)	753
	Sheet Metal Workers	754
	Plumbers and Pipe Fitters	755
	Welders and Flame Cutters	756
	Metal Plate and Structural Metal Workers	757
	Electro-Platers, Dip Platers and Related Workers	758
	Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers, n.e.c. (including Metal-engravers other than Printing)	759
76	*Electricians and Related Electrical and Electronics Workers*—	
	Electricians, Electrical Repairmen and Related Electrical Workers	760
	Electrical and Electronics Fitters	761
	Mechanics-Repairmen, Radio and Television	762
	Installers and Repairmen, Telephone and Telegraph	763
	Linemen and Cable Jointers	764
	Electricians and Related Electrical and Electronics, n.e.c.	769
77	*Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers*—	
	Carpenters, Joiners, Pattern Makers (Wood)	770
	Shipwrights and Body Builders, (Wood)	771
	Sawyers and Woodworking Machinists	772
	Coach and Body Builders	773
	Cart Builders and Wheel Wrights	774
	Cabinet Makers	775
	Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers, n.e.c.	779
78	*Painters and Paper Hangers*—	
	Painters and Paper Hangers	780
79	*Bricklayers, Plasterers and Construction Workers, n.e.c.*—	
	Stone Cutters, Stone Carvers and Stone Dressers	790
	Bricklayers, Plasterers, Masons	791
	Glaziers	792
	Cement Finishers and Terrazzo and Mosaic Workers	793
	Hut Builders and Thatchers	794
	Well Diggers	795
	Bricklayers, Plasterers and Construction Workers, n.e.c.	799
80	*Compositors, Printers, Engravers, Book-Binders and Realted Workers*—	
	Type-setting Machine Operators	800
	Compositors	801
	Proof-Readers and Copyholders	802
	Printers (Paper)	803
	Printers (Textile)	804
	Photo-Litho Operators, Photo-Lithographers	805

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 7-8—Craftsmen, Productions, Process, Workers, and Lobourers, n.e.c.—contd.	
80	*Compositors, Printers, Engravers, Book Binders and Related Workers*—concld.	
	Engravers, Etchers and Block Makers (Printing)	806
	Stereotypers	807
	Book-Binders	808
	Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.	809
81	*Potters, Kilnmen, Glass and Clay Formers and Related Workers*—	
	Furnacemen, Kilnmen and Ovenmen	810
	Potters and Related Clay Formers	811
	Blowers and Benders, Glass	812
	Moulders and Pressers, Glass	813
	Grinders, Cutters, Decorators and Finishers	814
	Pulverisors and Mixers, Cement, Clay and other Ceramics	815
	Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.	819
82	*Millers, Bakers, Brewmasters and Related Food and Beverage Workers*—	
	Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers	820
	Crushers and Pressers, Oil seeds	821
	Dairy Workers (Non-Farm)	822
	Khandsari, Sugar and Gur Makers	823
	Bakers, Confectioners, Candy and Sweetmeat Makers	824
	Makers of Aerated Water and Brewers	825
	Food Canners, Preservers and Related Workers	826
	Butchers	827
	Coffee and Tea Blenders and Related Workers	828
	Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.	829
83	*Chemical and Related Process Workers*—	
	Batch and Continuous Still Operators	830
	Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes	831
	Crushers, Millers and Calenderers, Chemical and Related Processes	832
	Paper Pulp Preparers	833
	Paper Makers	834
	Chemical and Related Process Workers, n.e.c.	839
84	*Tobacco Preparers and Products Makers*—	
	Curers, Graders and Blenders, Tobacco	840
	Cigarette Machine Operators	841
	Cheroot, Cigar and Bidi Makers	842
	Snuff and Zarda Makers	843
	Tobacco Preparers and Product Makers, n.e.c.	849
85	*Craftsmen and Production Process Workers, n.e.c.*—	
	Basketry Weavers and Related Workers	850
	Tyre Builders, Vulcanisers and Related Rubber Products Makers	851
	Plastics Products Makers	852
	Tanners, Fellmongers, Pelt Dressers and Related Workers	853
	Photographic Dark Room Workers	854
	Maker of Musical Instruments and Related Workers	855
	Papers Products Makers	856
	Craftsmen Production Process Workers, n.e.c.	859
86	*Testers, Packers, Sorters and Related Workers*—	
	Checkers, Testers, Sorters, Weighers and Counters	860
	Packers, Labellers and Related Workers	861

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen Process Workers and Labourers, n.e.c.—concld.		
87	*Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers*—	
	Operators, Stationary Engines and Related Equipment	870
	Boilermen and Firemen	871
	Crane and Hoist Operators	872
	Riggers and Cable Splicers	873
	Operators of Earth-moving and Other Construction Machniery, n.e.c.	874
	Materials handling Equipment Operators	875
	Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment	876
	Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.	879
89	*Labourers, n.e.c.*—	
	Loaders and Unloaders	890
	Labourers, n.e.c.	899
Division 9 Service, Sport and Recreation Workers —		
90	*Fire Fighters, Policemen, Guards and Related Workers*—	
	Fire Fighters and Related Workers	900
	Police Constables, Investigators and Related Workers	901
	Customs Examiners, Patrollers and Related Workers	902
	Watchmen and Chowkidars	903
	Fire Fighters, Policemen, Guards and Related Workers, n.e.c.	909
91	*House Keepers, Cooks, Maids and Related Workers*—	
	House Keepers, Matrons, Stewards (Domestic and Institutional)	910
	Cooks, Cook-Bearers (Domestic and Institutional)	911
	Butlers, Bearers, Waiters, Maids and Other Servants (Domestic)	912
	Ayas, Nurse-maids	913
	House Keepers, Cooks, Maids and Related Workers, n.e.c.	919
92	*Waitors, Bartenders and Related Workers*—	
	Waiters, Bartenders and Related Workers (Institutional)	920

Notes.—1. †The sq. km. and density figures of urban areas of Tahsil/District are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this, the area figures relating to sq. km. are further adjusted to make the Tahsil/District totals tally.

2. The following abbreviation has been used for the status of a Town :—
M.C.=Municipal Committee.

APPENDIX I TO TABLE A-I

Statement showing the 1951 territorial units constituting the present set up of District and Tahsil

District/Tahsil	1951 Territorial Units Name	1951 Territorial Units Area

TABLE B-V

OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

TABLE B-V

OCCUPATIONAL CLASSIFICATION, BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

Note.—Families having less than 1 % of the Workers of the Respective Division, (less than 0.5 % in case of families of Division 7-8), have been shown in this Table, but are given in the Appendix to this Table. Divisions thus affected are marked with an Asterisk (*).

APPENDIX TO TABLE B-V

Families having less than 1% of Workers of the respective Division, (less than 0·5% in case of Families of Division 7-8), have been shown in this Appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities
IV At Household Industry
V In Manufacturing other than Household Industry
M=Males
VI In Construction
VII In Trade and Commerce
VIII In Transport, Storage and Communications
IX In Other Services
F=Females

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry, having less than 10 per cent of the figures of the respective Division, have been shown in this Appendix. The following abbreviations have been used:—

IN ADDITION TO CULTIVATION	WITHOUT CULTIVATION
A means 1—3 Months	E means 1—3 Months
B means 4—6 Months	F means 4—6 Months
C means 7—9 Months	G means 7—9 Months
D means 10 Months to 1 Year	H means 10 Months to 1 Year
X means Months not stated	Y means Months not stated

PART IV

DIRECTORY

Information is presented separately for each Tahsil of the District as under:

A. Village Directory (Rural Areas), and

B. Town Directory (Urban Areas).

CONTENS

		Page
Gohana Tahsil	: Villages	iv
	: Towns	x
Sonepat Tahsil	: Villages	xii
	: Towns	xxii
Rohtak Tahsil	: Villages	xxvi
	: Towns	xxxii
Jhajjar Tahsil	: Villages	xxxviii
	: Towns	1

EXPLANATORY NOTE

1. In this Part are presented for each Village and Town in the District, its area and 1961 population, classified by sex and main industrial categories. The term *village,* in all censuses from 1901, has been used for an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government has otherwise declared as an *estate.* This definition of village is identical with that of *mauza* under section 3(1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to residential sites. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as *mauza,* but the smaller units are called *tikkas* in Kangra District, except in Kulu where the revenue estate is termed as *kothi* and the smaller unit as *phati.* In Lahaul and Spiti District, the revenue estate is referred to as *kothi* and its smaller component as *gaon.*

2. Villages having no population have been shown as *Uninhabited.* They have been retained in the Directory since they bear Hadbast numbers.

3. In the Village Directory, villages are presented Tahsilwise, and within a Tahsil in order of their Location Code Numbers. The Code Numbers were assigned for the purpose of 1961 Census work, as far as possible arranging the villages from north-west to south-east. The Hadbast numbers are shown in **Column 2.** The Tahsil map shows the location of each village identified by its Hadbast number.

4. The Town Directory, appearing after the Village Directory of each Tahsil, presents Census figures for all towns in that Tahsil, giving details for their Wards/Blocks. An Urban area or Town is a place having local administration, such as Municipal Committee or Cantonment Board, or has been treated as a Town because of its having:

(a) a population of over 5,000; and

(b) 75 p.c. or more of male workers there engaged in non-agricultural occupations.

5. **Column 3** gives information on *amenities* based on the *Village Notes* prepared by the Patwaris at the time of the 1961 Census. These *Village Notes* contain several useful items of information which it has not been possible to present in this Directory for want of space. The *amenities* relate to education, medical facilities, Post and Telegraph, safe water-supply and electrification, and are indicated by the following abbreviations:—

P—Primary School.

M—Middle School.

H—High School.

C—College, including higher institutions.

T—Technical Institution.

D—Dispensary.

Rhc—Rural Health Centre.

Hos—Hospital.

Mp—Medical Practitioner.

Mcw—Maternity and Child Welfare Centre.

Po—Post Office.

P&T—Post and Telegraph Office.

S—Safe or protected supply of drinking water.

E(A)—Electricity for agricultural use.

E(D)—Electricity for domestic use.

Information on 'amenities' was not collected for urban areas.

6. **Column 4** shows geographical area, information for which was obtained from the Village Papers as supplied by the Deputy Commissioners in the case of rural areas. The information for urban areas was obtained from local authorities, and wherever possible checked from the records of the Department of Local Self-Government.

7. **Column 5** relates to *occupied houses,* i.e., houses used as dwellings, or conjointly as dwellings and for some other purpose, e.g., shop-cum-dwellings. **Column 6** shows the number of *households.* A *household* means the entire group of persons who commonly live together in the same house, and take their meals from the common kitchen or mess.

8. **Columns 10 to 13** present the number of persons belonging to Scheduled Castes and Scheduled Tribes as notified in Government of India, Ministry of Home Affairs communication No. S.R.O. 2477-A, dated the 29th October, 1956 and published as "The Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956".

9. **Columns 14 and 15** give the number of literate and educated persons. A *literate* person was taken as one who could read and write a simple letter. In case he had passed a written examination as proof of an educational standard, he was recorded as *educated.*

10. **Columns 16 to 37** present figures for *Workers* and *Non-workers.* For the definition of the term *Workers* and a *Non-worker* and description of the categories of workers, the reader may see the Explanatory Note to Part III in this volume. The nine categories of workers have been denoted by Roman numerals:

I—Working as cultivator (owner cultivator or tenant).

II—Working as agricultural labourer.

III—Working in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities.

IV—Working on household industry.

V—Working in manufacturing other than household industry.

VI—Working in construction.

VII—Working in trade and commerce.

VIII—Working in transport, storage and communications.

IX—Working in other services.
