PREFACE

It has been the practice since 1951 to publish for each District a Census Handbook, containing the Census Statistics for each Village and town in the District together with certain administrative statistics collected from the various Departments of the State Government. This publication was compiled by the Census Department and published by the State Government. The contents of the District Census Handbook have been considerably improved during the subsequent Censuses and in 1971 this publication is being brought out in three separate parts—

Part – A — Village and Town Directory

Part – B — Village and Townwise Primary Census Abstract; and

Part – C — Analytical Report and Administrative Statements and District Census Tables.

The history and orgin of the District Census Handbook have been given in the Introductory Note of this volume.

The present volume of Part-A has two sections-Village Directory and Town Directory. In the Village Directory, basic information relating to the villages such as Educational, Medical, Drinking water supply, Electricity, Communications, Post and Telegraphs facilities as well as information on area; staple-food, land use data and other allied information are given. In the second section viz. Town Directory, information for the Towns about the Status, growth history, functional category, Physical aspects, Municipal finance, Civic and other amenities are presented. Details about the Medical, Educational, Recreational facilities available in the towns as well as particulars regarding Trade, Commerce, Industry and Banking are also given. The population particulars of the towns as per 1971 Census together with the population of these towns since 1901 and Religious composition of the population in 1971 are also furnished.

The details other than population particulars presented in these statements have been obtained from the concerned Departments of the State Government for which I am thankful to the Collector. I am also grateful to the Revenue subordinates as well as the Municipal Commissioners for the assistance that they have rendered.

I take this opportunity to express my gratitude to Sri A. Chandra Sekhar, Registrar General, India for the guidance given to me and for continuing the publication of the District Census Handbooks during 1971 Census also.

K. CHOCKALINGAM,
Director of Census Operations,
Tamil Nadu & Pondicherry.

Acknowledgment

It is my pleasant duty to acknowledge the able assistance given by the following officers and staff of my office in the preparation of this volume.

1. Shri V. Selvaraj, I.A.S., Deputy Director
2. ,, V. R. Chandran, Deputy Director
3. ,, M. Panchapakesan, Investigator
4. ,, Anser Ahmed, Investigator
5. ,, S. Govindarajulu, Statistical Asst.
6. ,, T. Chellaganapathy, Statistical Asst.
7. Smt R. Rukmani, Computor
8. Shri P. Victor Jayaraj, U. D. C.
9. ,, N. B. Muruganandam, U.D.C.
10. ,, A. Rajamani, Artist.

K. CHOCKALINGAM,
Director of Census Operations.

VILLAGE AND TOWN DIRECTORY

INTRODUCTORY NOTE

General:

The District Census Handbook for each district presenting the Census data for the villages and towns of the District is being published from 1951 Census. Till then, the village statistics showing merely the number of houses and population by religion in respect of each village and town was used to be published as supplement. In 1951, the general population tables, economic tables and village-wise and town wise statistics relating to taluks were presented as Part I and Social and cultural tables as Part II. In 1961 also, the district census handbook was published in two volumes-in Volume I, all the Census tables giving talukwise data with a narrative report were published and Volume II was confined to present village-wise and town wise statistics known as Primary Census Abstract and the official statistics. Since the primary Census Abstract gives the basic data like population, literates, scheduled castes, scheduled tribes and the industrial classification of workers and non-workers and as these data are finalised in the first stage of tabulation itself, it has been decided in this Census to present the District Census Handbook in 3 parts - Part A containing the village and town Directory which will show the land use pattern data, basic amenities available in the villages and the conditions of the towns - Part B furnishing the village and town Primary Census Abstract - Part C presenting the administrative statistics collected and compiled from various departments and a short analytical report. This method of preparing the Handbook in 3 parts is also to facilitate the timely publication of the basic data relating to villages and towns which are required by various departments and research scholars.

The present volume being Part A presents the village and town Directory as the titles suggest. It lists out all the villages and towns.

Village Directory

In the Village Directory, for each taluk, a statement showing the villages, their extent, the amenities like educational, medical, water-supply, communications, Postal, etc. available within each village and the land use pattern is given. The staple food of the population of each village has also been noted. An alphabetical list of villages has also been prepared indicating the code number of the village for purposes of quick reference. A taluk-wise abstract showing the total number of institutions and number of villages where basic amenities like educational, medical, drinking-water supply, communications, postal, etc. are available, has also been prepared and given as appendix II.

The particulars relating to village Directory have been collected from the concerned Tahsildars.

Definition of concepts and terms used in Village Directory

(1) *Location code Number* – Numbers have been assigned to the administrative units of district, taluk and village in the case of rural areas and District, town and ward in the case of urban areas to denote their location. By a combination of these numbers, it would be possible to know the exact location of an area. The district number is given along with the name of

the district on the cover page and the taluk number is shown against the taluk name in the concerned pages. The village number and town number has been given against the name of the concerned unit. To distinguish the town from the village, the town numbers alone have been given in Roman numerals and these numbers have been assigned in a continuous order for the district as a whole whereas the numbers for the villages have been assigned in Arabic numerals for each taluk separately.

Educational Amenities:

Primary School	—	Upto Vth Standard
Middle School	—	Upto VIIIth Standard
High School	—	Upto XIth Standard

Power Supply:

Villages having electrification facilities for agricultural purposes only, are also taken as electrified and a suitable indication in this regard has been noted in the remarks column.

Communications:

Villages having Railway Station within a mile are taken as served by train facilities. Villages connected by road are also indicated in this column.

Staple food:

Food of the majority population of the village during the major portion of the year is taken as staple food.

Forest:

This includes all actually forested area, the lands classified or administered as forests under any legal enactment dealing with forests whether state owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion has been included under the appropriate heading of cultivated or uncultivated land.

Irrigated and unirrigated:

Irrigated and unirrigated covers all agricultural land and includes net area sown with crops and orchards and also current and other fallows.

As far as possible, the extent of irrigated land under different types or irrigation and the total area irrigated have also been indicated. For each taluk, the total area irrigated under the sources of river, tank and well have also been indicated separately.

Cultivable waste:

This include lands fit for cultivation, whether or not taken up for cultivation or once taken up for cultivation but not cultivated for more than five years in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or unassessed and may lie in isolated blocks or within cultivated holdings. Lands under thatching grasses, bamboo bushes and other groves for fuels etc., which are not

included under orchards or forests shall also come under this head. All grazing lands whether they are permanent pastures and meadows or not, village common and grazing lands withiu forest areas are included in this column.

Area not available for cultivation:

This includes land not available for cultivation such as barren and uncultivable land and land put to non agricultural use. Land put to non agricultural use are lands occupied by buildings, roads and Railways or under water, e.g. Rivers and Canals and other lands put to uses other than agricultural purposes.

Barren and uncultivable lands cover all lands like mountains, deserts, etc., lands which cannot be brought under cultivation unless at a high cost, whether such land is in isolated blocks or within cultivated holdings.

Town Directory

The details relating to each of the towns have been presented in the form of 7 statements as given below:—

Statement 1 – Status, growth history and functional category of towns

Statement 2 – Physical aspect and location of towns (as on 1969)

Statement 3 – Municipal finance (as on 1968-69)

Statement 4 – Civic and other amenities (as on 1969)

Statement 5 – Medical, educational, recreational and cultural facilities in towns (as on 1969)

Statement 6 – Trade, Commerce, Industry and Banking (as on 1969)

Statement 7 – Population by religion (as per 1971 Census)

The particulars for the Statements 2 to 6 have been obtained from the Municipal Commissioners and Executive Officers of the concerned towns and the statements 1 and 7 have been compiled from the Census records.

Census Definition of Towns

Urban area – Places having the following characteristics have been treated as urban.

1) A municipal corporation area or a municipal area, a Town Committee or notified Area Committee or a Contonment Board;

2) If it does not have the above administrative status, then it should have the following urban characteristics:
   (a) A minimnm population of 5,000 (estimated for 1971 Census)
   (b) A density of not less than 400 per Sq. km., i.e. 1000 per Sq. mile.
   (c) 75% of the male working population should be in non-agricultural sector.

Even places which do not satisfy the above criteria, if considered as suitable for being declared as urban in the openion of the concerned Collector due to other reasons, have been

declared as Urban. The urban area having population of less than one lakh is known as "town" and the area having population of more than one lakh is called "city".

There are 34 towns, out of which 5 have been treated as towns for the first time in this Census.

The areas treated as towns for the first time during this Census are given in Appendix (1)

Definition of concepts and terms used in Town Directory :

(1) *Urban Agglomeration* : An urban agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths or two or more physically contiguous towns together with continuous, well recognised urban outgrowths, if any, of such towns.

There are 3 Urban agglomerations in Ramanathapuram District constituting 11 agglomerate towns.

The details of urban agglomerations with its constituent units are given in Appendix (2)

(2) *Standard urban area* : Rural and urban areas contiguous to the towns and cities having population of 50,000 and more which have at present influence and interaction with the core town and also places which are likely to have such influence and inter-action have been delineated as standard urban areas. Thus all areas contiguous to the core towns of population of 50,000 and above having any or all of the following characteristics have been included.

(a) Predominant urban land use;

(b) Intensive inter action with the urban centres as reflected in commutation for the purposes of work and secondary education facilities; extension of city bus service; sale of commodities like milk, dairy products, vegetables (other than those transported by rail or truckhaul) and purchase of food grains, cloths and general provisions etc. by the consumers directly;

(c) Anticipated urban growth as a result of locational decisions relating to industry, market, transport and communications, administrative and servicing functions;

(d) Existence of big village with a large proportion of working force engaged in non agricultural industrial catagories.

Thus, the standard Urban Area can be defined in short as the projected growth area or city, as it would be in 1991, taking into account not only the towns and villages which would get merged into the city but also the intervening areas which are potentially "Urban".

There are 5 standard urban areas in this district and the details of units included in it are given in the Appendix.

(3) *Civic Administrative Status* : It denotes whether a town is a corporation or a municipality or a panchayat or a township.

(4) *Functional category*: Based on the percentage of workers in broad types of economic activities, the functional category for the town has been determined. The workers are characterised into 9 industrial categories which is based on the nature of economic activities carried on in an establishment. The following are the 9 industrial categories

I Cultivators
II Agricultural Labourers
III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities
IV Mining and Quarrying
V Manufacturing Processing, Servicing and repairs
a) Household Industry
b) Other than Household Industry
VI Construction
VII Trade and Commerce
VIII Transport, Storage and Communications and
IX Other services

These 9 categories have been re-grouped into 5 broad functional categories. They are as follows:—

(i) *Primary Activities (Oultivation and allied activities)* comprising of industrial categories I, II, III & IV

(ii) *Industry* (Manufacturing, construction and allied activities) Comprising of industrial categories V (a) and (b) & VI

(iii) *Trade and Commerce* comprising of indastrial category VII

(iv) *Transport* comprising of industrial category VIII

(v) *Services* comprising of industrial category IX

In cases where the percentage of workers under any one of the above five broad categories form 40% or more of the total workers, the concerned category alone would have been indicated against this column. If the percentage is less than 40, then the next predominant category also is taken into account and if the total of the two forms 60% or above, both the broad categories would have been indicated. If the total of the two major categories falls below 60% then the third predominant category is also taken into account and then the name of all the three concerned categories would have been indicated.

A town where only one functional category has been indicated can be described as 'Mono-functional town' i.e. to say a town having only one predominant function. A town against which two broad categories have been recorded is known as 'Bi-functional town' i.e. to say a town having two functional categories. A town in which three functional categories have been noted is known as 'Multi-functional town' i.e. to say a town which has more than two predominant functional categories.

Bus Route: The zero within brackets in col. 12 of Statement II denotes that the referrent town is enjoing road transport facilities.

Statement III:

This refers to the "receipts and expenditure" of Municipal Finance for 1968–69. The various sources of receipt and expenditure are furnished in terms of hundreds.

Statement IV:

The civic and other amenities existing in the towns as on 1969 are given. For cols. other than electrification the data were obtained from the Executive Officers and Municipal Commissioners of the concerned towns. Electrification particulars were obtained from the Electricity Board, Madras.

Electrification:

(i) Domestic Connection: This refers to the number of services given to houses for domestic purposes, for fans, lighting, etc.,

(ii) Industrial Connection: This refers to the number of services effect to L.T. Industries such as workshops, flour mills, oil mils, grinding mechines, cotton ginning, Engineering Industries etc.,

(iii) Commercial Connection: This refers to the services given to shops, business houses, public institutions like offices and schools and Commercial establishments.

(iv) Road lighting points: This refers to the number of points of street lights which will be maintained by the Board and for which consumption charges will be paid to the Board by respective local bodies. For some town Panchayats, the number of services effected alone has been furnished under street lights and not the points.

(v) Other connection: This refers to the number of services effected for agricultural purposes.

Statement V:

In this statement Medical, Educational, Recreational and Cultural facilities of the towns as on 1969 were furnished. The data for Educational facilities were obtained from the Executive Officers and from the University of Madras.

Recognised Shorthand typewriting and other vocational training Institutes: The term 'recognised' means institutes recognised by some statutory authority like Education Department, Commerce Department, Labour Department etc., of the Government or by some Government or autonomous bodies, public sector projects etc.,

Cinemas: This refers only to the permanent cinema theatres and does not include touring cinema theatres.

Statement VI:

In this statement, trade, commerce, industry and banking facilities in the towns as on 1969 are furnished. Banking particulars were obtained from the Reserve Bank of India. The number of agricultural and non-agricultural credit soeieties were collected from the Registrar of Co-operative Societies.

Statement VII:

The religion-wise population as per 1971 Census are furnished and these have been compiled from the Census records.

Tank ... 9,787 hectares

APPENDIX II

Abstract showing Educational, Medical and other amenities available in the ~~Taluk~~

KARAIKUDI TALUK

Nature of facilities available 1	No. of institutions 2	No. of villages where such facilities are available. 3	Remarks. 4
EDUCATIONAL			
Primary School	51	38	
Mildde School	10	10	
High School	7	7	
College	...	..	
Any other educational institutions	3	1	
Library	3	3	
Reading Room	4	4	
MEDICAL			
Hospital	1	1	
Health Centre	1	1	
Dispensary	5	5	
Family Planning Clinic		...	
Mobile Health Van		...	
Medical Practitioners		...	
Maternity and Child Welfare Centre	5	5	
POWER SUPPLY			
Available		29	Power Supply not available in 23 Villages
DRINKING WATER			
Tap		1	
Well		43	
Tank		7	
Tube Well		...	
River		...	
Any other source of drinking water		...	
COMMUNICATIONS			
Pucca Road		36	
Kutcha Road		14	
POSTAL & TELEGRAPH			
Post Office		23	
Telegraph Office		4	
Telephone connections		5
