FOREWORD

The District Census Handbook (DCH), compiled by the Census organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulating local level and regional plans and as an aid to District administration. The district census hand book is the only publication which provides Primary Census Abstract (PCA) data upto village level for rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, " total population and number of households " has been introduced to examine the corelation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of SC & ST population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/ centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value.

This publication is joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri P. P. Mahana, the Director of Census Operations, Maharashtra on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA,
Registrar General, India.

New Delhi,
the 26th April 1982.

ACKNOWLEDGEMENTS

The preceding foreword of the Registrar General and Census Commissioner, India, is quite exhaustive and gives the reader a complete account of the District Census Handbook project. As has been mentioned therein, the publication of District Census Handbooks of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organisation of the Government of India. The design for the 1981 District Census Handbooks was evolved centrally by the Census Commissioner, India. The contribution of the Government of Maharashtra comes by way of bearing the cost of printing. We are thankful to the Census Commissioner and to his band o devoted officers in the Social Studies Division for the valuable guidance they have given us, and to the Government of Maharashtra for the readiness they have shown to print and publish these handbooks. Our grateful thanks are also due to the District Inspectors of Land Records for helping us in marking village boundaries on the tahsil maps we have prepared and presented in these handbooks, and for recording a certificate of authenticity on each such map we referred to them.

Shri P. P. Mahana, who held the office of Director of Census Operations, Maharashtra, and guided the operations of the 1981 Census, left this organisation on 14th December 1982. This handbook relates to Raigarh district and is the first to appear from out of the handbooks scheduled for the twenty-six districts of Maharashtra. The data presented in these handbooks were collected and compiled under the direction and guidance of Shri Mahana. We would deem it our duty, therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this directorate, the undersigned exercised overall supervision over the work of the project, while the main brunt of day-to-day supervision was borne by Shri A. S. Dange, Deputy Director. He was ably assisted in this work by Shri Madhav Shyam, Research Officer (Map) and Smt. V. Y. Joshi, Shri G. M. D. Lone and Shri V. S. Nagle, Assistant Directors. The list of their colleagues in the District Census Handbook Unit who put in untiring efforts to bring the project to fruition is fairly long and is not being given here for want of space. However, all these unnamed assistants in various grades who attended to the voluminous work of compilation, typing, comparing, checking and mapping, etc., deserve our heart-felt thanks.

A. W. MAHATME,
Joint Director of Census Operations.

Census Directorate, Maharashtra, Bombay.
Dated 26th January 1984 (Republic Day).

Note.—The source for the total area figures in respect of the districts is the Surveyor General of India, while that for the total area figures in respect of the tahsil in the State Land Records Department. The total areas, as also the rural areas, for the tahsils in district may not, therefore, strictly add up to the corresponding figures shown against the district.

Names of towns treated as such for the first time in 1971 which continue as towns in 1981 have been marked with an asterick(*).

APPENDIX 1 TO SUMMARY TABLE 1

Tahsilwise number of Villages with populations of 5,000 or over and of Towns with populations under 5,000

(Tahsils which have nothing to show for this statement have been omitted from presentation)

District/Tahsil	Villages with populations of 5,000 or over			Towns with populations under 5,000		
	Number	Population in the concerned villages	Percentage to rural population of the respective District/Tahsil	Number	Population in the concerned towns	Percentage to urban population of the respective District/Tahsil

ANALYTICAL NOTE

HISTORY AND SCOPE OF DISTRICT CENSUS HANDBOOK

The District Census Handbook compiled by the State Directorate of Census Operations is, in effect, a joint venture of the State Government and the Census Organisation of the Govt. of India. Its publication was started from 1951 census. Not only has it become a regular feature of every census but even its coverage has been enlarged and rationalized. Naturally, this document is constantly being consulted by the planners, administrators, academicians and researchers alike. The 1981 district census handbook is the fourth in the unbroken series.

In 1951, district census handbook contained important census tables and the primary census abstract for each village and town in the district. The scope of district census handbook was enlarged at the 1961 census by including descriptive account of the district and administrative statistics in addition to the census tables and the primary census abstract of every village and town. The 1971 district census handbook series was organised in three different parts. Part A related to the village and town directory, Part B to village and townwise Primary Census Abstract (PCA) and Part C to analytical report, administrative statistics, census tables, analytical tables based on the PCA and amenity data for every village. However, for Maharashtra State (as also for many other states in India), only Part A and Part B of the district census handbook were published. Part C had to be given up mainly because of the problems relating to printing.

1981 district census handbook is comprised of two parts—Part A and Part B. Part A includes village and town directory and Part B village and townwise primary census abstract. While designing the format of 1981 district census handbook, data on some new items, such as adult literacy centres, primary health subcentres and community health workers has also been included.

Village and Town Directory as well as primary census abstract included in the district census handbook are expected to meet the requirements of the planners for micro level planning. Similarly, the additional data for town directory in respect of civic and other amenities in Class I and Class II towns are oriented to minimum needs programme especially in respect of slum dwellers. The data on amenities by size of town would be of great interest to the scholars and planners alike.

Brief History of the District

The present Raigarh district, the name given after the historical fort 'Raigad', is the erstwhile Kolaba district of Maharashtra State. It is believed, as early as BC 225, Kolaba ports of Ceul, Mahad, Chodeganv and Rajpuri in Janjira State were the centres of trade. At that time probably, the entire Kolaba coast was ruled by a power which had its sway over both the Konkan and the Deccan. The trade in these ports shrank from foreign commerce to local traffic when Kolaba became a part of Gujarat ruled by a local chief. Thereafter, the dynasty suffered frequent changes during the Early, Medieval, Maratha and the British periods. In 1869, it attained the full-fledged status of the district and the then Kolaba district included Udheri, Revdanda, Shanksi (Pen), Rajpuri (Roha) and Raigarh (Mahad). In the year 1883, it gained Panvel and Uran (Karanja) Peta talukas from Thane district. In 1891, it gained Karjat taluka from Thane district. Kolaba district at that time comprised of the sub-divisions of Alibag, Mangaon, Roha, Pen, Naghothana Peta, Panvel, Uran Peta and Mahad. Naghothana Peta was later abolished in the decade 1921—31. Khalapur Peta got abolished in 1932. A new taluka 'Khalapur' was formed in the year 1946.

Consequent upon the merger of the parts of the former Indian states with the district, the taluka boundaries were reorganised in the year 1949. Poladpur, Shrivardhan, Mhasla, Sudhagad and Murud were formed as new talukas. With the reorganisation of states in 1956, the Kolaba district was incorporated in Bombay State. Since 1960, it forms a part of Maharashtra State.

At the time of 1961 census, the district comprised of 8 talukas and 6 mahals which in themselves included 1,778 inhabited villages and 12 towns. During the decade 1961—71, the mahals were upgraded as talukas, thus raising the number of talukas to 14. At the time of 1971 census, the district had 14 tahsils comprised of 1,766 villages (including 67 uninhabited) and 14 towns. (Tahsil and Taluka are synonymous terms and prior to 1971 tahsil was referred to as taluka). Since then the number of tahsils in the district has remained unchanged till the reference date of March 1, 1981. However, there have been certain changes as to the number of villages within the tahsils during the previous decade. With the upgrading of hamlets/wadis in the district, the number of villages has gone up to 1,885 (including 58 uninhabited). Likewise, two places (Goregaon and Kegaon) qualified the specific criteria to be declared as towns, raising the number of towns in the district to 16.

Location, Relief and Drainage

Situated in the coastal Maharashtra, district Raigarh spreads between 17°51′ North to 19°80′ North latitude and 72°51′ East to 73°40′ East longitude. It is flanked by district Thane to the north, district Pune to the east and Ratnagiri to the south. The Arabian Sea makes its western boundary having a length of about 250 kms.

District Raigarh covers an area of 7,148.0 km² and has a population of 1,486,452 as per 1981 census. It ranks 24th both in area and population among the 26 districts in the state. In other words, Raigarh is one of the smallest districts in the state both in terms of area and population.

Raigarh district is located in the Konkan coastal lowland region. Its topography is somewhat uneven due to the presence of many spurs projecting out from the Sahyadri. The main Sahyadri scarp with a crestline of peaks and saddles makes its eastern horizon.

The district is traversed by numerous rivulets emanating from the Sahyadris and merging into the Arabian sea after a short journey. For a convenient understanding of its drainage patterns, the district may be divided into three sections viz. North, Central and Southern.

Northern Raigarh covering Karjat, Panvel, Uran, Pen and Sudhagad tahsils is drained by three streams namely, Ulhas, Godi (or Panvel) and Patalganga (Bhagwat-Amba). Ulhas stream originates from rift valley and flows northwards and merges ultimately into the bassien creek in the same district. Godi (or Panvel) has a south-western orientation. Patalganga river with its source in the Khandala portion of Sahyadrian scarp meanders north-westwards to meet the sea.

Central Raigarh (including tahsils of Roha, Murud and southern parts of Sudhagad tahsil) is drained mainly by Kundalika and Manded rivers. Kundalika river emerges from deep scarps of Sahyadri. The Manded river (with its source in the central part of eroded plateaus) pools the waters of all the rivers and empties them into the sea.

Southern Raigarh covering Mangaon, Shrivardhan, Mhasla, Mahad and Poladpur tahsils is drained by Sahyadri river along with four tributaries of Ghot, Ghandhar, Kol and Nageshri rivers. Savitri river originates from Sahyadri. It meets the Arabian Sea near Devghar.

Climate

Due to its coastal location, Raigarh district is characterised by a mild, warm and humid climate as typical of the western coastal lowland of India in general. Summer season (March to May) is followed by rainy season (June to September). October to November make the period of retreating monsoons and December to February are the winter months. The annual variation of temperature is not so large. May is the hottest month with mean temperature in the vicinity of 35°C and January the coldest with mean temperature of about 15°C. Likewise, the daily range of temperature is also small. However, humidity is high throughout the year. Rainfall in Raigarh district is not uniform but is seasonally concentrated. More than 95 per cent of the annual rainfall is received during monsoon months of June to September. Within the district it increases from west to east. The normal annual rainfall is highest at Matheran (5167.5 mm) and lowest (2072.3 mm) at Uran and Kegaon (Statement II).

Soil

The sub-soil stratum consists of 'Deccan Trap' rock which is completely impervious to percolation and causes shortage of water in summer despite the fact that district receives ample rainfall. On the hill slopes, the soil is reddish in colour and is used for grass crops. The shell sands near the coasts are suitable for plantation of coconuts and betelnuts. The reddish brown and coffee brown soils are excellent for paddy cultivation. Three broad soil types in the district are:

(*i*) Coarse shallow soil trap
(*ii*) Laterite and lateritics soil
(*iii*) Coastal alluvium and coastal saline.

Census Houses and Households

Columns 4 and 5 of the primary census abstract give the number of occupied residential census houses and the number of households. According to Indian census, 'Census House' is a building or a part thereof having a main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant, residential, non-residential or both. A 'household' is a group of persons who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented them from doing so. A household may be of persons related by blood or of unrelated persons or having a mix of both. There may be single member or more than one member households. Households of unrelated persons termed as 'institutional households' include boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc.

Houseless population or houseless households include persons who do not have any fixed place of residence but go on moving from place to place, camp at night, or just live on the streets, in gardens or in open places.

Distribution of Population in Rural and Urban Areas

As per 1981 census, the population of Raigarh district stands at 1,486,452 including 726,512 males and 759,940 females. This makes 2.37 per cent of State's population over 2.32 per cent of its area. Among the 14 tahsils in the district, Panvel tahsil (201,582) is the most populous (Table 1).

TABLE 1

Population, Number of Villages and Towns, 1981

Serial No.	Name of tahsil	Population									No. of villages		No. of towns
		Total			Rural			Urban			Total	Inhabited	
		P	M	F	P	M	F	P	M	F			
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1	Alibag	163,961	79,949	84,012	142,664	69,053	73,611	21,297	10,896	10,401	202	181	2

3	Panvel ..	201,582	104,579	97,003	160,858	83,051	77,807	40,724	21,528	19,196	176	173	2
4	Karjat	129,492	66,827	62,665	108,079	55,322	52,757	21,413	11,505	9,908	175	175	3
5	Khalapur	98,092	51,250	46,842	65,990	33,727	32,263	32,102	17,523	14,579	122	121	1
6	Pen	118,945	58,960	59,985	104,173	51,354	52,819	14,772	7,606	7,166	165	149	1
7	Sudhagad ..	46,427	22,740	23,687	46,427	22,740	23,687	....	....	....	94	93	..
8	Roha	108,320	54,295	54,025	96,539	47,902	48,637	11,781	6,393	5,388	161	160	1
9	Mangaon	158,071	72,747	85,324	152,258	69,865	82,393	5,813	2,882	2,931	243	243	1
10	Mahad	143,712	66,221	77,491	128,516	58,302	70,214	15,196	7,919	7,277	178	178	1
11	Poladpur	50,340	22,649	27,691	50,340	22,649	27,691	....	....	....	83	83	..
12	Mhasla	52,343	22,440	29,903	52,343	22,440	29,903	....	....	....	82	80	..
13	Shrivardhan	69,298	30,816	38,482	55,558	23,976	31,582	13,740	6,840	6,900	75	75	1
14	Murud	55,895	26,247	29,648	44,660	20,843	23,817	11,235	5,404	5,831	72	70	1
	District total ..	1,486,452	726,512	759,940	1,276,576	616,281	660,295	209,876	110,231	99,645	1,885	1,827	16

Other tahsils in order of their size of population are Alibag (163,961), Mangaon (158,071), Mahad (143,712), Karjat (129,492), Pen (118,945), Roha (108,320), Khalapur (98,092), Uran (89,974), Shrivardhan (69,298), Murud (55,895), Mhasla (52,343), Poladpur (50,340) and Sudhagad (46,427). It follows that within the district the most populous tahsil has more than four times the population of the least populous tahsil.

The basic unit for rural area is a revenue village. A 'village' may be defined as a statutory recognised unit having definite boundary and separate land records. Urban areas on the other hand are specially defined for census purposes. The criteria adopted for 1981 census is—

(*a*) All places with a municipality, corporation or cantonment board or notified town area;

(*b*) All other places which satisfy the following criteria:—

(*i*) A minimum population of 5,000;

(*ii*) Atleast 75 per cent of male working population engaged in non-agricultural (and allied) activities;

(*iii*) A population of atleast 400 persons per km².

Out of 1,486,452 persons in the district, 1,276,57g (85.88%) live in the countryside and the remainina 209,876 (14.12%) in the towns. Thus, in Maharashtr, State (where 35.03% of the total population is urban) Raigarh is among the less urbanised districts.

Size Class and Status of Towns

For the purposes of comprehensive analysis of varied demographic characteristics, towns have been divided into the following classes by population size:—

Class I	...	100,000 and above
Class II	...	50,000—99,999
Class III	...	20,000—49,999
Class IV	...	10,000—19,999
Class V	...	5,000—9,999
Class VI	...	Below 5,000.

In 1981, there has been addition of two new towns Goregaon and Kegaon as they qualified the specific criteria to be declared as census towns (Table 2).

TABLE 2

New Towns/Towns declassified in 1981 Census

Name of the towns	Population 1981-census
1	2
(*a*) Added—	
(*i*) Goregaon (C.T.)	5,813
(*ii*) Kegaon (C.T.)	6,635
(*b*) Declassified—Nil	Nil

Of the 16 towns in the district, two (Khopoli and Panvel) are class III; seven (Alibag, Mahad, Murud, Pen, Roha-Ashtami, Shrivardhan and Uran) are class IV; five (Goregaon, Karjat, Kegaon, Neral and Revdanda) are class V and the remaining two (Matheran and Rasayani) are class VI (Statement I). Six of these 16 towns are non-municipal. The towns in this district are either medium sized or small sized.

Table (3) below provides villages by population ranges and their percentage to total inhabited villages in the district.

TABLE 3

Distribution of Inhabited Villages by population Ranges

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3
—200	236	12.92
200—499	634	34.70
500—1,999 ..	871	47.67
2,000—4,999	79	4.33
5,000—9,999	7	0.38
10,000+	....	....
All ranges ..	1,827	100.00

A village on an average has a population of 699 persons and 3.7 km² of area. Of the 1,827 inhabited villages, 236 (12.92%) are small sized with a population of below 200; 634 (34.70%) in the size class 200–499; 871 (47.67%) in the size class 500—1,999; 79 (4.33%) in size class 2,000—4,999; and the remaining 7(0.38%) in size class 5,000—9,999. For a broader generalisation the villages have been further grouped as : small sized (population below 500), medium sized (500—1,999), large sized (2,000—4,999) and exceptionally large sized (5,000+). Within the district small sized villages share 47.62 per cent of the total inhabited villages and 19.80 per cent of the rural population in the district, medium sized 47.67 per cent of villages and 58.98 per cent of population, large sized 4.33 per cent of villages and 17.39 per cent of population, and exceptionally large sized 0.38 per cent of villages and 3.83 per cent of population.

Population Growth, Density and Sex Ratio

Raigarh district registered the highest ever growth rate of 17.69 per cent during the decade 1971-81. The decade added 223,449 persons to the 1971 population of the district. However, the growth rate of population in Raigarh district was lower than that of Maharashtra State (24.54%). The comparatively lower growth rate in Raigarh district during 1971-81 is probably due to the male selective migration to the neighbouring district of Greater Bombay for better economic opportunities. Within the district, Panvel tahsil experienced the highest (35.88%) growth rate followed closely by Khalapur tahsil (35.86%)

Other tahsils which recorded growth rate above the district average include Uran (26.12%), Roha (19.61%) and Pen (18.74%). Faster growth of population in these tahsils appears to be the result of inmigration associated with the rapid industrial expansion in these areas. It is also observed that during 1971-81, the urban growth rate was less than the rural in Alibag (14.68% rural and 14.16% urban) and Murud (10.90% rural and 0.22% urban) tahsils (Table 4).

During 1951-81, the urban growth rate recorded at the 1951 census was the highest both in the district (50.73%) and the state (62.42%) (Table 5). In 1961, it came down to 11.09 per cent in the district and to 21.32 per cent in the state. During 1961-71, urban growth rate in the district and the state was 43.03 per cent and 40.75 per cent respectively. At the latest census of 1981 the district recorded an urban growth rate of 37.54 per cent against the state average of 39.99 per cent. Among the various towns in the district, Khopoli recorded the highest (76.85%) growth rate (Statement I). Karjat (41.46%) and Panvel (39.36%) are the other towns in the district where the urban growth rate exceeded the district average. By contrast the growth rate in Murud town was just 0.22 per cent during 1971-81.

TABLE 4

Decadal Change in Distribution of population

Name of tahsil	Population						Percentage decadal (1971-81) variation		
	1971			1981

N.A.—Not Available.

Raigarh district has an average density of 208 persons per km². This is somewhat higher than the state average density of 204 persons per km². Within the district, however, one can see wide variations. Uran (483) is the most thickly populated tahsil. On the contrary Sudhagad tahsil has a density of barely 101 persons per km². It appears that coastal and industrially developed tahsils are relatively more densely populated.

Table 6 shows distribution of villages according to density ranges. For convenient understanding of patterns, villages have been grouped under eight different density ranges.

TABLE 6

Distribution of Villages by Density

Range of density (per km.^{2})	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
—10 ..	249	13.63
11—20 ..	12	0.66
21—50 ..	100	5.47
51—100 ..	308	16.86
101—200 ..	525	28.73
201—300 ..	255	13.96
301—500 ..	201	11.00
501+ ..	118	6.46
Not known ..	59	3.23
All density ranges ..	1,827	100.00

Table reveals that about two-third (1,194) of the inhabited villages recorded a density of upto 200 persons per km^2. In about one-quarter (456) villages it varied between 201 and 500, and 118 villages recorded a very high density of more than 500 persons per km^2. For the remaining 59 villages, density of population could not be worked out for want of their area figures. In conformity with the state patterns there has been consistent rise in the urban density of population in the district since the post-independence period. It has increased from 881 persons per km^2 in 1951 to 1,574 persons per km^2 in 1981 (Table 5). Among the various towns in the district, Alibag recorded the highest density (7,763) as per 1981 census (Statement I).

1981 census recorded a sex ratio of 1,046 females per 1,000 males in the district. This is significantly higher than that of the state as a whole (937 females per 1,000 males). This phenomenon could be primarily associated with male selective migration mainly to the neighbouring district of Greater Bombay and also to other parts.

TABLE 6 (i)

Sex Ratio 1901–1981

Year	District	State
1901 ...	1,000	978
1911 ...	1,023	966
1921 ...	1,028	950
1931 ...	1,009	947
1941 ...	1,036	949
1951 ...	1,040	941
1961 ...	1,058	936
1971 ...	1,056	930
1981 ...	1,046	937

Above table shows that sex ratio in Raigarh district has always remained higher than that of the state since the beginning of the century. The sex ratio in the district showed a consistently rising trend (but for the year 1931) till 1961 when the sex ratio stood at 1,058. Since 1961, the sex ratio in the district has been narrowing down. It was 1,056 in 1971 and 1,046 in 1981.

Within the district, the sex ratio differs strikingly. Mhasla tahsil with a sex ratio of 1,333 ranks at the top and Khalapur tahsil (914) is at the bottom [Table 6 (*ii*)]. Other tahsils where females out-numbered males include Shrivardhan (1,249), Poladupur (1,223), Mangaon, (1,173), Mahad (1,170), Alibag (1,051), Sudhagad (1,042) and Pen (1,017). Broadly speaking the sex ratio is higher in the southern as compared to the northern parts of the district. It appears that southern areas are sending out higher proportion of male migrants to the Greater Bombay and the other parts of the state.

TABLE 6 (ii)

Sex Ratio by Tahsils, 1981

District/Tahsil	Females per 1,000 males 1981
Raigarh District ..	1,046

Mhasla tahsil ..	1,333
Shrivardhan tahsil ..	1,249
Murud tahsil ..	1,130

The urban sex ratio (904) in the district is significantly higher than that of the state (850). Trend over the past few decades (Table 5) reflects gradual fall in the urban sex ratio in the district since 1951 while for the state there is a consistent rise in the urban sex ratio since 1961.

Scheduled Castes and Scheduled Tribes

For evolving any suitable plan for socio-economic uplift of the scheduled castes and scheduled tribes, the government need to have the necessary data about them and for this, census is the main source. One of the highlights of 1981 census as that of 1971 and 1961 censuses was the collection of detailed information on the socio-economic characteristics of scheduled caste and scheduled tribe population. There is no standard definition of scheduled castes or scheduled tribes. Scheduled castes include castes, races or tribes as are declared to be

scheduled castes by the President of India by public notification under article 341(i) of the Indian Constitution. Similarly, scheduled tribes mean all such tribes of tribal community or part or group within such tribe or tribal community as are declared by the President of India, to be treated as scheduled tribes under article 342 (i) of the Indian Constitution. For Maharashtra State, 59 castes and 47 tribes have been declared to be recognised as scheduled castes and scheduled tribes respectively and the list of scheduled castes and scheduled tribes in the state is given below :—

Scheduled Castes and Scheduled Tribes in Maharashtra State

I. LIST OF SCHEDULED CASTES

1. Ager.
2. Anamuk.
3. Aray Mala.
4. Arwa Mala.
5. Bahna, Bahana.
6. Bakad, Bant.
7. Balahi, Balai.
8. Basor, Burud, Bansor, Bansodi.
9. Beda Jangam, Budga Jangam.
10. Bedar.
11. Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Nona, Ramnami, Rohit, Samgar, Samagara, Satnami, Surjyabanshi, Surjyaramnami.
12. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
13. Bindla.
14. Byagara.
15. Chalvadi, Channayya.
16. Chenna Dasar, Holaya Dasar, Holeya Dasari.
17. Dakkal, Dokkalwar.
18. Dhor, Kakkayya, Kankayya, Dohor.
19. Dom, Dumar.
20. Ellamalvar, Yellammalawandlu.
21. Ganda, Gandi.
22. Garoda, Garo.
23. Ghasi, Ghasia.
24. Halleer.
25. Halsar, Haslar, Hulasvar, Halasvar.
26. Holar, Valhar.
27. Holaya, Holer, Holeya, Holiya.
28. Kaikadi (in Akola, Amravati, Bhandara, Buldana, Nagpur, Wardha and Yavatmal districts and Chandrapur district other than Rajura tahsil).
29. Katia, Patharia.
30. Khangar, Kanera, Mirdha.
31. Khatik, Chikwa, Chikvl.
32. Kolupulvandlu.
33. Kori.
34. Lingader.
35. Madgi.
36. Madiga.
37. Mahar, Mehra, Taral, Dhegu Megu.
38. Mahyavanshi, Dhed, Vankar, Maru-Vankar.
39. Mala.
40. Mala Dasari.
41. Mala Hannai.
42. Mala Jangam.
43. Mala Masti.
44. Mala Sale, Netkani.
45. Mala Sanyasi.
46. Mang, Matang, Minimadig, Dankhni Mang, Mang Mahashi, Madari, Garudi, Radhe Mang.
47. Mang Garodi, Mang Garudi.
48. Manne.
49. Mashti.
50. Meghval, Menghvar.
51. Mitha Ayyalvar.
52. Mukri.
53. Nadia, Hadi.
54. Pasi.
55. Sansi.
56. Shenva, Chenva, Sedma, Ravat.
57. Sindhollu, Chindollu.
58. Tirgar, Tirbanda.
59. Turi.

II. LIST OF SCHEDULED TRIBES

1. Andh.
2. Baiga.
3. Barda.
4. Bavacha, Bamcha.
5. Bhaina.
6. Bharia Bhumia, Bhuinhar Bhumia, Pando.
7. Bhattra.
8. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
9. Bhunjia.
10. Binjhwar.
11. Birhul, Birhor.
12. Chodhara (excluding Akola, Amravati, Bhandara, Buldana, Chandrapur, Nagpur, Wardha, Yavatmal, Aurangabad, Bid, Nanded, Osmanabad and Parbhani districts).
13. Dhanka, Tadvi, Tetaria, Valvi.
14. Dhanwar.
15. Dhodia.
16. Dubla, Talavia, Halpati.
17. Gamit, Gamta, Gavit, Mavchi, Padvi.
18. Gond, Rajgond, Arakh, Arrakh, Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimmi, Bhuta, Koilabhuta, Koilabhuti Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatta, Gatti, Gaita, Gond Gawari, Hill Maria, Kandra, Kalanga, Khatola Koitar, Koya, Khirwar, Khirwara Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Naikpod, Nagwanshi, Ojha, Raj, Sonjhari Jhareka, Thatia, Thotya, Wade Maria, Vade Maria.
19. Halba, Halbi.
20. Kamar.

21. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari.
22. Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri.
23. Khairwar.
24. Kharia.
25. Kokna, Kokni, Kukna.
26. Kol.
27. Kolam, Mannervarlu.
28. Koli Dhor, Tokre Koli, Kolcha, Kolgha.
29. Koli Mahadev, Dongar Koli.
30. Koli Malhar.
31. Kondh, Khond, Kandh.
32. Korku, Bopchi, Moussi, Nihal, Nahul, Bondhi, Bondeya.
33. Koya, Bhine Koya, Rajkoya.
34. Nagesia, Nagasia.
35. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka.
36. Oraon, Dhangad.
37. Pardhan, Pathari, Saroti.
38. Pardhi, Advichincher, Phans Pardhi, Phanse Pardhi, Langoli Pardhi, Behelia, Bahellia, Chita Pardhi, Shikari, Takankar, Takia.
39. Parja.
40. Patelia.
41. Pomla.
42. Rathawa.
43. Sawar, Sawara.
44. Thakur, Thakar, Ka Thakur, Ka Thakur, Ma Thakar, Ma Thakar.
45. Thoti (in Aurangabad Bid, Nanded, Osmanabad and Parbhani districts and Rajura tahsil of Chandrapur district).
46. Varli.
47. Vitolia, Kotwalia, Barodia.

At the time of 1981 census scheduled caste population in Raigarh district was 25,182 including 12,794 males and 12,388 females. They constitute 1.69 per cent of the total district population as against 1.22 per cent in 1971. Of the total scheduled castes population in the district, 17,560 (69.73%) live in the rural and the remaining 7,622 (30.27%) in the urban areas. 1,265 villages in the district have no scheduled caste population (Table 7).

TABLE 7

Proportion of Scheduled Caste Population to Total Population in the Villages

Percentage range of scheduled castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
No S.C. Population ..	1,265	69.24
—5	453	24.79
6—10	63	3.45
11—15	23	1.26
16—20	6	0.33
21—30	8	0.44
31+	9	0.49
All ranges ..	1,827	100.00

Among the remaining 562 villages, the share of scheduled caste population is less than 5 per cent in 453 villages; 6 to 10 per cent in 63 villages; 11 to 15 per cent in 23 villages; 16 to 20 per cent in 6 villages; 21 to 30 per cent in 8 villages and more than 30 per cent in 9 villages in the district.

Table 7(*i*) shows tahsilwise proportion of scheduled caste and scheduled tribe population to the total population in the district for 1971 and 1981.

TABLE 7(*i*)

Scheduled Caste and Scheduled Tribe Population 1971 and 1981

District/Tahsil	Percentage of scheduled caste population to total population		Percentage of scheduled tribe population to total population	
	1971	1981	1971	1981
1	2	3	4	5
Raigarh District ..	1.22	1.69	8.99	12.80
Alibag tahsil	0.89	1.43	6.29	15.72
Uran tahsil	0.71	1.97	3.17	8.74
Panvel tahsil	1.30	2.00	9.22	11.78
Karjat tahsil	1.11	1.47	23.59	22.11
Khalapur tahsil ..	1.05	1.63	21.05	18.36
Pen tahsil	1.19	0.91	12.13	15.65
Sudhagad tahsil.. ..	0.92	1.45	20.30	19.20
Roha tahsil	1.19	1.65	9.55	14.18
Mangaon tahsil ..	1.77	1.94	5.74	7.42
Mahad tahsil	1.33	2.11	2.71	4.33
Poladpur tahsil	0.99	1.31	1.63	3.84
Mhasla tahsil	1.63	2.28	3.92	8.49
Shrivardhan tahsil ..	1.21	1.43	1.50	12.37
Murud tahsil	1.47	1.87	4.14	18.62

As per 1981 census, the scheduled tribe population in Raigarh district stands at 190,210 (96,461 males and 93,749 females) and they comprise 12.80 per cent (as against 8.99% in 1971) population of the district. Spurt in the proportion of scheduled tribe population in the district as in other parts of the state is primarily the result of the removal of area restrictions for recognising the tribal population as scheduled tribe in the state. In the district 91.68 per cent of the scheduled tribe population is rural by residence and 8.32 per cent resides in the urban areas.

Out of 1,827 inhabited villages in the district, 574 villages have no scheduled tribe population. (Table 8).

TABLE 8

Proportion of Scheduled Tribe Population to Total Population in the Villages

Percentage range of scheduled tribe population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
No S. T. Population ..	574	31.42
—5	409	22.39
6—15	300	16.42
16—25	172	9.41
26—35	116	6.35
36—50	90	4.93
51+	166	9.08
All ranges ..	1,827	100.00

Among the remaining 1,253 villages, the proportion of scheduled tribe population to total population is less than 5 per cent in 409 villages, 6 to 15 per cent in

300 villages; 16 to 25 per cent in 172 villages; 26 to 35 per cent in 116 villages; 36 to 50 per cent in 90 villages and above 50 per cent in 166 villages of the district.

In urban areas the scheduled castes and scheduled tribes constitute 3.63 per cent and 7.54 per cent of the total population respectively (Table 9).

TABLE 9

Proportion of Scheduled Castes/Scheduled Tribes population in towns

Name and civic status of the town	Total population	Total scheduled caste population	Total scheduled tribe population	Percentage of scheduled caste population to total population	Percentage of scheduled tribe population to total population
1	2	3	4	5	6
Alibag (M. Cl.)	14,051	565	2,155	4.02	15.34
Goregaon (C.T.)	5,813	409	6	7.04	0.10
Karjat (C.T.)	7,970	113	126	1.42	1.58
Kegaon (C.T.)	6,635	759	186	11.44	2.80
Khopoli (M.Cl.)	32,102	789	2,744	2.46	8.55
Mahad (M. Cl.)	15,196	962	65	6.33	0.43
Matheran (M.Cl.)	3,920	411	163	10.48	4.16
Murud (M. Cl.)	11,235	222	1,426	1.98	12.69
Neral (C. T.)	9,523	152	1,427	1.60	14.98
Panvel (M. Cl.)	37,073	1,324	1,083	3.57	2.92
Pen (M. Cl.)	14,772	511	987	3.46	6.68
Rasayani (C. T.)	3,651	313	45	8.57	1.23
Revdanda (C. T.)	7,246	92	2,570	1.27	35.47
Roha-Ashtami (M. Cl.)	11,781	226	233	1.92	1.98
Shrivardhan (M. Cl.)	13,740	291	2,253	2.12	16.40
Uran (M. Cl.)	15,168	483	364	3.18	2.40
All towns	209,876	7,622	15,833	3.63	7.54

Concentration of scheduled castes is more in the towns of Kegaon and Matheran and the scheduled tribes find concentration in the towns of Revdanda, Shrivardhan, Alibag, Neral and Murud.

Literacy

Any person who is able to both read and write with understanding in any language is recorded as a literate by the Indian census. The latest 1981 census revealed that 45.59 per cent of the total population in the district is literate against the state average literacy rate of 47.18 per cent. Among the various districts in the State, Raigarh district ranks 12th in terms of literacy rate.

Within the district the literacy rate is maximum 54.63 per cent in Alibag tahsil and the minimum 36.18 per cent in Poladpur tahsil (Table 12). It is also observed that size of the village and literacy rate are positively corelated (Table 10).

TABLE 10

Literacy Rates by Population Ranges of Villages

Range of population	No. of villages in each range	Literacy rate
1	2	3
—200	236	35.24
200–499	634	36.31
500–1,999	871	40.92
2,000–4,999	79	50.48
5,000–9,999	7	56.15
10,000+	..	..
All ranges	1,827	42.23

Among the various towns in the district Karjat recorded the highest literacy rate of 73.73 per cent in 1981 (Table 11).

TABLE 11

Literacy Rates for Towns

Name and civic status of the town	Literacy rate
1	2
Alibag (M. Cl.)	69.53
Goregaon (C. T.)	68.38
Karjat (C. T.)	73.73
Kegaon (C. T.)	64.43
Khopoli (M. Cl.)	56.08
Mahad (M. Cl.)	72.30
Matheran (M. Cl.)	59.85
Murud (M. Cl.)	70.24
Neral (C. T.)	61.59
Panvel (M. Cl.)	69.43
Pen (M. Cl.)	69.39
Rasayani (C. T.)	73.21
Revdanda (C. T.)	61.30
Roha-Ashtami (M. Cl.)	69.87
Shrivardhan (M. Cl.)	59.24
Uran (M. Cl.)	66.36
All towns ..	66.01

By contrast the literacy rate was the lowest 56.08 per cent in Khopoli town.

During the span of 80 years (1901–81) the literacy rate in the district increased from 4.68 per cent in 1901 to 45.59 per cent in 1981 [Table 11(i)].

TABLE 11(i)

Progress of Literacy, 1901-81

Year	Total	Males	Females
1901 ..	4.68	9.05	0.27
1911 ..	4.90	9.23	0.64
1921 ..	5.28	9.30	1.31
1931 ..	6.75	11.73	1.76
1941 ..	13.19	21.57	4.95
1951 ..	19.20	29.40	9.40
1961 ..	24.56	36.37	13.40
1971 ..	35.32	47.25	24.03
1981 ..	45.59	57.42	34.27

The progress in literacy was slow till 1931 when hardly 6.75 per cent of the district population was literate. The post 1931 period experienced a comparatively faster growth. Besides other factors, this faster growth in the post 1931 period was in association with the quickening pace of urbanisation. In 1951, one in every five persons (19.20%) was literate. The ratio narrowed to one in four (24.56%) in 1961, one in three (35.32%) in 1971 and nearly one in two (45.59%) in 1981. Thanks to the opening of new schools and adult literacy centres under five year plans in the post-independence period.

Present 1981 literacy rates of two sexes differ sharply, the ratio being nearly 5 : 3 (57.42% male literates and 34.27% female literates). This ratio was 2 : 1 (47 25% males and 24.03% females) in 1971, and 3 : 1 (36.37% males and 13.40% females) in 1961. Sexwise literacy has thus been narrowing although it continues to be wide in itself.

Like male-female differentials there exists disparity in the literacy rates of rural and urban areas. As against 42.23 per cent of literates in rural areas as per 1981 census, there are 66.01 per cent literates in urban areas of the district. Between the two sexes, the differential is larger for females (30.66% rural, 58.20% urban) than for the males (54.62% rural and 73.06% urban).

Working Population

'Work' may be defined as participation in economically productive activity. The participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction.

There has been some conceptual change for defining the worker at the 1981 census. A trichotomy of main workers, marginal workers and non-workers has been adopted instead of the dichotomy of workers and non-workers in 1971 and 1961. However, while accepting this conceptual change the feasibility of making the data comparable with the previous censuses was duly considered. Conceptually, the main workers *plus* the marginal workers of 1981 are almost comparable with the 'workers *plus* non-workers with secondary work' of 1971 and 'workers' of 1961. Further, for 1981 census on the recommendation of Planning Commission and Central Statistical Organisation, only four industrial categories of main workers i.e. cultivators, agricultural labourers, workers engaged in household industries and other workers have been adopted against the nine industrial categories of workers in 1971 and 1961.

For main workers major part of the preceding year (at least 6 months or 183 days) was adopted while those who worked for sometime during the preceding year but not for the major part, have been treated as marginal workers. All those who had not worked at all during the last year, were recorded as non-workers. Persons engaged in household duties, students, dependents, retired persons, rentiers, beggars are some of the categories grouped as non-workers.

1981 Census recorded 37.39 per cent of the district population as main workers, 4.36 per cent as marginal workers and the remaining 58.25 per cent as non-workers (Table 12).

TABLE

The corresponding figures for the state as such are 38.71 per cent; 3.85 per cent and 57.44 per cent. Thus, nearly two-fifths of the population of the district is engaged in economically productive activity. Compared to 1971, there has been little rise in the work participation rate both in the district (35.88% in 1971 and 37.39% in 1981) and the state (36.48% in 1971 and 38.71% in 1981). Within the district participation rate recorded at 1981 census was the highest (43.50%) in Roha tahsil and the lowest (32.12%) in the Murud tahsil.

Male participation rate (48.92%) is nearly double than that of female (26.37%) as per 1981 census. The female participation rate in the district increased from 23.47 per cent in 1971 to 26.37 per cent in 1981 (19.70% to 23.98 % in the State). By contrast, there was slight bent in the male participation rate (48.99 % in 1971 and 48.92% in 1981) although in the state it showed a marginal rise (52.09% in 1971 and 52.51% in 1981).

1981 work participation rate is more in the rural (38.27%) than the urban (32.03%). Between the two sexes the differential is larger among the females (28.71% rural and 10.84% urban) than the males (48.51% rural and 51.19% urban).

1981 census results revealed that among the main workers in the district, 51.98 per cent are cultivators, 14.20 per cent agricultural labourers, 1.94 per cent engaged in household industry and 31.88 per cent engaged in other services. The corresponding percentages for the state are 35.12 per cent, 26.63 per cent, 2.55 per cent and 35.70 per cent. Evidently, two-thirds of the workers in the district are directly engaged in agriculture as cultivators or agricultural labourers. Male and female participation as cultivators in the district is substantially higher than that of the state. Whereas the position is reverse for the participation as agricultural labourers. This aspect is more significant for females than males.

About 4.36 per cent of the persons in the district were recorded as marginal workers 1.68 per cent among the males and 6.93 per cent among females. The high incidence of marginal workers among females as compare to males is understandable as the former besides, looking after their household duties tend to engage themselves in some economically productive activity to lend support to their male counterparts.

Availability of Amenities—Education

Educational amenity is available in nine out of ten (90.48%) villages in the district and these villages contain 96.67 per cent of the rural population of the district. (Table 13 and 14)

TABLE 13

The situation regarding schools in the villages is still better in six out of the fourteen tahsils namely; Mahad (98.31%), Mangaon (97.53%), Poladpur (96.39%), Roha (96.25%), Pen (94.63%) and Shrivardhan (90.67%). On the contrary, Murud tahsil with only 68.57 per cent of its villages having educational amenity and serving 87.55 per cent of its population, is at the bottom. Of the 174 villages devoid of educational amenity, 152 are in the population range of less than 500; 21 in the size class 500-1,999; and 1 in the size class 2,000-4,999.

TABLE 15

All towns ..	1.38	1.57	1.33	4.91

On an average, the population to institution ratio in urban areas in the district is : 10,000 : 1.38 higher secondary/Int./PUC/Junior colleges; 10,000 : 1.57 secondary/matriculation schools; 10,000 : 1.33 middle school and 10,000 : 4.91 primary schools. In other words among urbanitees, there is a higher secondary/ Int./PUC/Junior College for every 7,237 persons; secondary/matriculation school for every 6,360 persons; middle school for every 7,496 persons and primary school for every 2,038 persons in the district.

Medical

Medical institutions of any type (specified in the village directory) exist only in one out of every ten (10.73%) villages in the district and these villages in themselves in the district and these villages in themselves contain 26.55 per cent of the rural population of the district. This, of course, is not a happy situation. As is true with other rural areas of Maharashtra State, more so in the country as such, unwillingness on the part of medical personnel to work in the rural sector is one of the main causes. However, the establishment of primary health centres, opening of rural dispensaries and cottage hospitals are bound to steadily change the complexion in future.

Within the district, the position is best in Uran tahsil where 30.43 per cent of the villages are equipped with some kind of medical facility (Table 13) and 50.72 per cent of its population gets the benefit (Table 14). On the other hand, in Poladpur tahsil, just 3.61 per cent of the villages covering 12.71 per cent of its population enjoy the facility in the villages itself. Even Karjat tahsil which is farily big in size, the medical facility is available only in 5.14 per cent of its villages covering 12.54 per cent of population.

Among the 1,631 villages which do not have any medical facility, the same is available at a distance of upto 5 kms. for 735 villages, at a distance of 5-10 kms. in respect of 577 villages, and beyond 10 kms. for the remaining 319 villages in the district (Table 16). It is also observed that all the big sized 7 villages (5,000+) are equipped with some kind of medical facility within the village and 25 villages are in the population range of below 500.

Table 19 gives the number of beds per 1,000 of population in the towns.

TABLE 19

No. of Beds in Medical Institutions in Towns

Class, name and civic status of the town	No. of beds in medical institutions per 1,000 population	Class, name and civic status of the town	No. of beds in medical institutions per 1,000 population
1	2	1	2

IV. Mahad (M.Cl.)	1.32	IV. Shrivardhan (M. Cl.)	0.51
VI. Matheran (M. Cl.)	3.57	IV. Uran (M. Cl.)	1.71
IV. Murud (M. Cl.)	1.96		
V. Neral (C. T.)	0.63	All towns ..	2.33

On an average there are 2.33 beds per thousand of population in the urban areas of the district.

Post and Telegraph Offices

Nearly one-fifth (19.32%) of the inhabited villages in the district have post and telegraph offices and these villages have 36.89 per cent of the rural population of the district. Within the district, Shrivardhan tahsil having a post office after every third village (33.33%) and serving more than three fifths (64.85%) of its population, enjoys the place of pride. The position is, however, worst in Khalapur tahsil where there is a post office after every 24th village.

1,474 villages in the district do not have facility of post office. Among them it is available within a distance of 5 kms. for 977 villages; at a distance of 5-10 kms. for 402 villages and beyond 10 kms. for the remaining 95 villages in the district. Among the 353 villages, 56 villages are in size class less than 500; 230 villages are in size class 500-1,999; 61 villages are in size class 2,000-4,999; and remaining 6 villages with a population 5,000+ have the availability of post and telegraph offices within their respective villages (Table 15).

Market/Hat

Market/hat is held barely in 34 (1.86%) villages in the district and these villages account for 4.66 per cent of the district's rural population. It is also observed that in three tahsils namely; Uran, Panvel and Shrivardhan, no market/hat is held.

Among the villages where market/hat is not held, the same is available at a distance of upto 5 kms. for 480 villages; 5–10 kms. for 569 villages and beyond 10 kms. in respect of 450 villages in the district. This excludes 294 villages for which distance of the nearest place where such facility is available is not specified. Of the 34 villages where market/hat are held, 3 are in size class less than 500, 19 in population range of 500-1,999, 11 in the range 2,000–4,999 and 1 in the population range of 5,000+.

Communications

1,007 villages in the district have the availability of bus stop/railway station/water way within the village and they serve about two-third (66.98%) of the rural population of the district. Among the remaining 820 villages, it is available within a distance of 5 kms. in respect of 499 villages, at a distance of 5-10 kms. in respect of 266 villages and beyond 10 kms. for the remaining 55 villages. Among the 1,007 villages, 388 villages with this amenity are in the population range below 500, 541 villages are in the range of 500-1,999 and 71 villages in the range of 2,000—4,999 and the remaining 7 villages in the range of 5,000+.

Approach by Pucca Road

797 (43.62%) villages in the district are approachable by pucca road and they serve 54.27 per cent of the rural populatJon of the district. The position is rather poor in Poladpur tahsil where only 22.89 per cent of the villages are linked with pucca roads. Among the 797 villages linked with pucca road 313 villages are in the population range below 500, 419 villages in the range of 500-1,999 and 58 villages in the range of 2,000-4,999 and the remaining 7 in the range of 5,000+.

Power Supply

The rural electrification programme assigned importance from the third five year plan and this has resulted in accelerating the supply of power in the rural areas. 1,310 villages in the district now get the power supply. It is also observed that in Mhasla and Shrivardhan tahsils cent per cent of the villages get power supply. In Mangaon tahsil only one-half of the villages have this facility. Among the villages with availability of power supply, 541 are in the population range below 500; 686 in the population range of 500–1,999; 76 in 2,000–4,999 and 7 in the population range of 5,000+ and their proportion to total villages under various categories is 62.18, 78. 76, 96. 20 and 100 per cent respectively.

Villages which do not have any amenity (except drinking water) are 43 in number (Appendix III) and they account for 0.46 per cent of the district's rural population. Tahsilwise break-up of these villages is Karjat (11), Alibag (10), Panvel (6), Roha (4), Khalapur (3), Pen (3), Sudhagad (3), Murud (2) and Mangaon (1). Further, 34 of these villages are in the population range of below 200, 7 in the range of 200–499 and 2 in the size class 500–999. The non-availability of any kind of amenity (except for drinking water) in 43 villages, 174 villages without any school, 1,631 villages devoid of medical facility, 1,474 villages not having postal facility, no market/hat in 1,793 villages, 820 villages without the facility of bus stop/railway station/water way, 1,030 villages not approachable through pucca road and 517 villages not having power supply, is certainly not a happy situation. A positive relationship between the size of village and amenity provided is observed.

Land Utilization

Columns 15 to 19 of the village directory give land use pattern of each village in the district. Classification of land use adopted here corresponds to the classification recommended by the Ministry of Food and Agriculture.

Forest

Nearly one-fifth of the total area is under forests. This indicates that the district Raigarh is somewhat more forested in comparison to the Maharashtra State as a whole. Within the district northern tahsils (with clearly marked hill ranges) have rich forests. Higher slopes associated with high rainfall are among the two main factors responsible for the development of forests in these areas.

Among the various species found in the district, teak is the most valuable. Greater Bombay and Pune provide the main market for this teak wood. The other species found in the district include Ain, Devdar, Khinjal and Khair.

Irrigated, Un-irrigated and Culturable Waste Areas

Data pertaining to irrigated area (by source), un-irrigated area and culturable waste is given under columns 16, 17 and 18 respectively of the Village Directory. Within the District Poladpur is the tahsil where more than 3/4 of the area is cultivated and its corresponding percentage is 82.

TABLE 20

Distribution of Villages according to the Land Use (in hectares)

Serial No.	Name of tahsil	No. of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to the total cultivable area
1	2	3	4	5	6
1	Alibag	181	47,742.31	62.26	....
2	Uran	46	18,481.00	53.76	....
3	Panvel	173	54,567.33	36.01	1.22
4	Karjat	175	63,499.00	62.92	5.83
5	Khalapur	121	36,754.86	45.84	3.20
6	Pen	149	47,696.04	52.26	0.68
7	Sudhagad	93	45,954.00	28.84	2.93
8	Roha	160	65,921.98	48.75	6.19
9	Mangaon	243	92,008.86	54.43	3.84
10	Mahad	178	81,385.00	63.92	0.06
11	Poladpur	83	37,574.45	82.41	....
12	Mhasla	80	32,742.00	56.20	0.33
13	Shrivardhan	75	25,237.05	73.18	0.31
14	Murud	70	24,420.69	47.87	0.73
	Total of all tahsils ..	1,827	673,984.57	54.61	2.12

Other tahsils where proportion of cultivated area exceeds the district average (about 55%) include Shrivardhan (73%), Mahad (64%), Karjat (63%), Alibag (62%) and Mhasla (56%). In the remaining tahsils proportion of cultivated area is less than the district average i.e. Mangaon (54%), Uran (54%), Pen (52%), Roha (49%), Murud (48%), Khalapur (46%), Panvel (36%) and Sudhagad (29%).

Barely 2.12 per cent of the cultivated area is irrigated. Roha and Karjat tahsils are the only exceptions having fair proportion (6.19% and 5.83% respectively) of the cultivated area under irrigation.

Staple Food

Amongst the cereal crops in the district, paddy is the most important. Next in order of importance is 'nachani'. Throughout the district, rice is the main staple food of majority of the population (Table–21).

TABLE 21

Main Staple Food in the Majority of Villages in each Tahsil

Serial No.	Name of tahsil	Main staple food	Serial No.	Name of tahsil	Main staple food

*Total ..	75.87	35.07	40.80	74.07	12.60	17.45	12.65	6.46	24.91

**Note.*—Total excludes Rasayani Town. N. A. :—Not Available.

On an average the per capita receipt is Rs. 75.87 out of which Rs. 35.07 is received through local taxes and the remaining Rs. 40.80 from all other sources. The total expenditure incurred per head is Rs. 74.07 of which Rs. 12.60 is on general administration, Rs. 17.45 on public health and conveniences, Rs. 12.65 on public works, Rs. 6.46 on public institutions and Rs. 24.91 on all other aspects. Among all the towns, both the receipts received and the expenditure incurred per head are highest in Matheran town.

Minerals

So far no mineral of notable economic importance has been discovered in the district. The traps are, however, considered to be one of the best material for use as building stones, road metal and ballast, found in are abundance in the district.

Bauxite occurs along the west coast in Murud, Roha and Shrivardhan tahsils and these occurances are seen in low line crest adjoining the sea. Deposits of Usroli, Supegaon, Dahera and Wakalkar are of good importance. The thickness of bauxite ranges from 5 to 8 feet below a capping of 5 to 10 feet laterite. The mineral content in the ore ranges from 55 to 65 per cent. Iron ore of low grade and ochre deposits also occur in the district. These ochre deposits are considered to be very useful in the manufacture of paints. Building stone is also found in various parts of the district.

Fisheries

As far fisheries are concerned, Raigarh district ranks among the most important districts in the state. Fishing is carried out all along the district coast line with main concentration upto a distance of about 15 kms. from the coast. The marine fishery predominates over the inland water fishery. The main centres of marine fishery are : Vora, Karanja, Rewas, Thal, Navedar, Navgaon, Alibag, Nagaon, Revdanda, Korlai, Nandgaon, Murud, Reajpuri Dighi, Bharadkol, Shrivardhan and Bagmandle. The main varieties of fish found here include Saranga (white pomfret), Halwa, (black pomfret), Dadha, Rawas, Ghol, Koth, Bombil, Kolambi, Karanadi, Shingala, Wam, Mandeli, Mushi, Pakat, Waghli (Bolad, Bhing, Palla, Shevand, Blams Oysters etc.). As compared to the marine fishery, the inland or fresh water fishing is of lesser importance. Commercially important varieties of inland water fish include : Shinghala (Kirkit), Murrel, Shivda (Pahadi or Daku), Chamar (Chalat), Pal (Dandaonya), Khanlaya, Khavar, Kolshi, Zinga, Boi, Kalunder, Kharabi, Muri etc.

Industries

The industrial activity is not developed in the district except for Karjat, Khopoli, and Panvel. In fact, Raigarh district is one of the 13 districts identified as ' Industrially Backward ' in the State. In order to mobilise industrialisation, the Maharashtra Industrial Development Corporation has identified Roha and Taloja in Panvel tahsil as focal points and here industrial units are being encouraged. In March 1970, the state government set up the City and Industrial Development Corporation (CIDCO) for undertaking the planning and development of twin city across the Bombay Harbour in order to lessen the industrial as well as residential pressure on Greater Bombay. Except for a few, the existing industrial units in the district are in general, on small scale. Salt manufacturing at Uran and Panvel, paper and pulp, coated fabrics and chemicals at Khopoli, R.C.C. pipes at Pen, grinding wheels, segments stones, sticks etc. at Mora (Uran) are the main large scale industries in the district. Among the agro-based industries, except for rice mills, there is no other main industry. The only other agro-based industry of some significance is the canning of fruits.

Trade and Commerce

The chief articles of export in the district are rice, salt, betelnuts, coconuts, fresh and dry fish, etc. (Table-23).

Most of these are exported to Bombay. Of the manufactured articles, grinding wheels manufactured at Mora in Uran tahsil have a demand outside the country also. Vegetables produced in the district are mostly exported to Greater Bombay and other districts above the ghat. Grocery, grains of all varieties (except rice), wheat, sugar, gur, tobacco, fruits etc. are the most important articles of import and most of these goods come from Greater Bombay and Thane.

TABLE 23

Most important commodities manufactured, imported and exported in towns

Class, name and civic status of the town	Most important commodities		
	Manufactured	Exported	Imported
1	2	3	4
IV Alibag (M. Cl.)	....	Dry Fish	Rice
V Goregaon (C. T.)	Copper and Brass Tin	....	Paddy
V Karjat (C. T.)	Small Plastic articles	Rice	Wheat, Jowar, Edible oil
V Kegaon (C. T.)	Rice	Rice	Barli Food.
III Khopoli (M. Cl.)	Steel Pipes	Steel Pipe	H. R. Coils
IV Mahad (M. Cl.)	Copper and Brass Utensils	Rice	Tobacco
VI Matheran (M. Cl.)	Shoes	Leather goods	Food-grains
IV Murud (M. Cl.)	....	Rice	Food-grains.
V Neral (C. T.)	Plastic articles	Rice	Wheat Jowar, Edible oil, Bajra
III Panvel (M. Cl.)	Salt	Salt	Iron
IV Pen (M. Cl.)	Statues and Idol of plaster	Poha	Salt, Tobacco
VI Rasayani (C. T.)	Chemicals	Vegetables	Grocery
V Revdanda (C. T.)	....	Coconut	Wheat
IV Roha-Ashtami (M. Cl.)	Rice	Rice	Raw Materials of copper brass.
IV Shrivardhan (M. Cl.)	....	Betelnut	Sugar
IV Uran (M. Cl.)	Grinding wheels	Grinding wheels	Gram.

Places of Tourist's Importance

Elephanta Caves in Gharapuri island of Uran tahsil and Matheran in Karjat tahsil are important tourist attractions in the district. Raigarh Fort in Mahad tahsil and Shirdhon fort in Panvel tahsil have historical significance. Steps are under way for developing Nagaon and Kihim in Alibag tahsil for seaside resorts. The ' Holiday Camp ' at Murud is a place of natural beauty. Pali in Sudhagad tahsil, Madh in Khalapur tahsil, Hari-Hareshwar in Shrivardhan tahsil and Chaul in Alibag tahsil are the places of religious importance.

PART A—VILLAGE AND TOWN DIRECTORY

SECTION I

VILLAGE DIRECTORY

SECTION I—VILLAGE DIRECTORY

Note Explaining the Abbreviations used in the Village Directory

The ' Village Directory ' gives the list of villages, their area, population, amenities such as educational, medical, communications, drinking water facilities etc. available to them and also the land use of each village. For this purpose, villages have been arranged tahsilwise in order of their location code number. The inclusion of alphabetical list of villages and the map of every tahsil depicting location of villages by population size, urban-spread and important infrastructural facilities available therein will further help the readers in identifying any village in the tahsli.

' Village ' is a statutory recognised unit having a definite boundary and separate land records. In case, a village is treated as an outgrowth of urban agglomeration, data on amenities and land use for that village have not been given in the Village Directory but shown alongwith the urban component. For those villages which have partly merged in an outgrowth, data pertaining to remaining part of the village is shown in the Village Directory and for the part merged or treated as an outgrowth, the details have been given under the concerned urban agglomeration. If a village, has fully merged in the town, the same has been specified as such in the Village Directory. However, all such villages do appear in the Village Primary Census Abstract for any cross reference. Similarly, villages treated as Census Towns (urban) for the first time in 1981 Census are shown both in the Village Directory and the Village Primary Census Abstract for making any cross reference and no data relating to the amenities available have been indicated in the Village Directory. However, land use data for all such villages can be seen in the Appendix-II of the Village Directory.

If a village has fully merged into another village, the location code number and name of the merged village are given both in the Village Primary Census Abstract and the Village Directory at the appropriate place. Data in respect of these two villages put together appear against the village with which the other village has merged.

The " un-inhabitated " villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e. the location code number, name and area of the village. In addition to all the above details, following four appendices to Village Directory have also been included :—

Appendix (*i*) Tahsilwise abstract of educational, medical and other amenities;

Appendix (*ii*) Land utilisation data for census towns;

Appendix (*iii*) Tahsilwise list of villages with no amenities available; and

Appendix (*iv*) Tahsilwise list of villages according to proportion of Scheduled Castes/Scheduled Tribes population.

The first two appendices were also prepared for 1971 District Census Handbook. Appendices (*iii*) and (*iv*), added in 1981, are expected to help the planners for planning inputs in areas/villages where basic infrastructure is lacking and also for evolving suitable plans for the welfare of Scheduled Castes and Scheduled Tribes.

The Village Directory form has 20 columns and the details given under each column are as under :—

Column 1 gives the location code number of each village as the same is essential for identification of the village.

Column 2 indicates name of the village. For filling up of this column, 1971 District Census Handbook has been used as the basis.

Column 3 shows area figures (in hectares) as supplied by the State Revenue Department. For towns however, the area figures are in km.^{2}

Column 4, which gives population and the number of households in each village has been introduced for 1981 census to examine the corelation between the amenities available to the population and the number of households. Figures given within brackets against total population in this column refer to the number of households in the village.

Data on amenities such as educational, medical, communications, availability of drinking water, days of market/hat etc. are shown under columns 5 to 11 of the Village Directory. Additional feature for 1981 District Census Handbook is that in case if amenity is not available within the referent village, a dash (—) is shown in the column and next to it, in brackets the distance from the village in broad ranges *viz.*, upto 5 km, 5–10 km, and 10+ km to the nearest place where the facility is available. has been given. This will help not only for local area planning but in regulating the provision of goods and services as well, so as to minimise the regional imbalances in the process of development.

Column 5 exhibits the availability of educational facilities viz. primary or elementary school, junior secondary or middle school, matriculation or secondary school, higher secondary/intermediate/pre-university/ junior college, college, industrial school, training school, adult literacy school/centre and other educational institutions (Sanskrit pathshala, senior basic school, makhtab etc.).

If in a village, secondary school has middle and primary classes also the same has been counted as three schools i.e. secondary, middle and primary school. In case, there are more than one institutions of any type in a village their number is indicated within brackets

against the prescribed abbreviation. Following abbreviations have been used for presenting data on educational amenities :

Primary or Secondary School	P
Junior Secondary or Middle School	M
Matriculation or Secondary School	H
Higher Secondary/Intermediate/Pre-University/Junior College (PUC).	PUC
College, any college (graduate level and above) like Arts, Science, Commerce etc.	C
Industrial School	I
Training School	Tr.
Adult Literacy Class/Centre	AC
Other Educational Institutions	O

Column 6, provides data on medical facilities available in the village. If in a village no medical facility is available ' dash ' (—) has been placed and within the brackets the distance in broad ranges (upto 5 kms, 5-10 kms and above 10 kms of the nearest place where the most modest medical amenity such as dispensary/community health worker is available) has been indicated. Various types of medical institutions included and codes used for them are as follows :—

Hospital	H
Maternity and Child Welfare Centre	MCW
Maternity Home	MH
Child Welfare Centre	CWC
Health Centre	HC
Primary Health Centre	PHC
Primary Health Sub-centre	PHS
Dispensary	D
Family Planning Centre	FPC
T. B. Clinic	TB
Nursing Home	NH
Registered Private Practitioner	RP
Subsidised Medical Practitioner	SMP
Community Health Worker	CHW
Others	O

Column 7 gives information regarding availabilty of drinking water within the village. In case more than one source is available for drinking water, the same has been mentioned. Following abbreviations have been used for indicating the source of drinking water in the village :—

Tap water	T
Well water	W
Tank water	Tk
Tube-Well water	TW
Hand pump	Hp
River water	R
Fountain	F
Canal	C
Lake	L
Spring	S
Nallah	N
Others	O
Information Not Available	NA

It may also be added that in Raigarh district all the villages have the drinking water facility.

Column 8, shows postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village. Various abbreviations adopted for indicating this information are :—

Post Office	PO
Telegraph Office	TO
Post and Telegraph Office	PTO
Telephone Connection	Phone

Column 9, gives information on day or days of the market/hat held in the village. This information is based on local enquiry and generally relate to weekly or bi-weekly market. If in any case, the market is held monthly or fortnightly it has been recorded accordingly in this column. In case weekly or bi-weekly or monthly market/hat is not being held, the column has been left blank.

Column 10 represents information as to whether the village is served by any mode of public transport like bus, rail, and water-way and the same has been indicated as follows :—

Bus Stop	BS
Railway Station	RS
Navigable Water-way (including river, canal and back-water etc.).	NW

Column 11, refers to the state of roads etc. in the village. This will help us in determining as to whether the village is approachable both in fair and foul weather. Following abbreviations have been used for stating this information.

Pucca Road	PR
Kaccha Road	KR
Navigable River	NR
Navigable Canal	NC
Navigable Waterway (Other than river or canal.)	NW
Foot Path	FP

Column 12 gives the distance in Kilometres within bracket from the nearest town. In case, the nearest town is located in another state the name of the state has also been indicated.

Column 13 relates to the availability of power supply to the village. The various sources of power supply have been indicated through the following codes :—

Electricity for Domestic purpose	ED
Electricity for Agriculture	EAg
Electricity for Other purpose like Industrial, Commercial etc.	EO
Electricity for All purposes listed above	EA

In case the power supply is realeasd only for specific purpose, say agriculture or other, it has been stated accordingly.

Column 14 gives staple food (only in terms of grains) of the majority people of the village during the major

part of the year. This may be rice, wheat, jowar, maize, ragi etc. or a combination of grains where it is difficult to determine a particular grain.

Columns 15 to 19 give the details about land utilisation. The land use pattern given in the Village Directory conforms to the classification recommended by the Ministry of Food and Agriculture, Government of India, which maintains the land records under the following five categories :—

(1) Forests.

(2) Not available for cultivation—
  (*a*) lands put to non-agricultural uses.
  (*b*) barren and unculturable land.

(3) Other uncultivated lands excluding fallow land.
  (*a*) permanent pastures and other grazing lands.
  (*b*) lands under miscellaneous tree crops and grooves not included in the net area sown.
  (*c*) culturable wastes.

(4) Fallow lands.
  (*a*) Fallow lands other than current fallows.
  (*b*) current fallows.

(5) Net area sown.

Column 15 shows all the lands classed as forest under any legal enactment dealing with forest or administered as forests, whether state owned or private. In case, any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

Columns 16 and 17 cover all agricultural lands including the net area sown with crops and orchard and also the current and other fallow lands. Net area sown represents the area sown under various crops and orchards. Areas sown more than once in the same year have been counted only once. Column 16 indicates extent of irrigated lands under various types of irrigation e.g. canal, tank, wells, tubewells etc. and codes adopted for indicating various sources of irrigation are as under :—

Government Canal	GC
Private Canal	PC
Well (without Electricity) ..	W
Well (with Electricity)	WE
Tube Well (without Electricity) ..	TW
Tube Well (with Electricity) ..	TWE
Tank	Tk
River	R
Lake	L
Water Fall	WF
Others	O
Total	T

Column 18 gives information on culturable wastes lands and includes land available for cultivation whether or not taken up for cultivation once. Area taken up for cultivation once but not cultivated during the preceding five years or more in succession is also covered under this column. Such lands may either be fallow or covered with shrubs and jungles which are not put to any use. These lands may be assessed or unassessed and found in isolated blocks or within the cultivating holdings. Lands under thatching grasses, bamboo, bushes and other grooves for fuels etc., which are not included under orchards or forests, are included in this category. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest areas, are also included in this column.

Column 19 shows land not available for cultivation such as barren, unculturable land and land put to non-agricultural uses. All lands covered under buildings, roads, railways, rivers, canals etc. form part of the land under non-agricultural uses. Barren and unculturable lands include mountains, rocks, deserts etc. which cannot be brought under cultivation, except at a very highcost.

Column 20 has been filled up on the basis of local enquiry. Besides, recording the particulars of places of importance, it gives information on number of newspapers coming in the village, motor cycles/scooters, cars/jeeps and tractors available in the villages. Appropriate codes listed below have been used for presenting this information and number of items available is mentioned against the code used:

N ..	Copies of Newspapers coming in the village.
M ..	Motor cycles/scooters available in the village.
C ..	Cars/jeeps available in the village.
T ..	Tractors available in the village.
PS ..	Police Station.

(*N.B.*—Ranges with ' nil ' entries have been omitted.)

SECTION II

TOWN DIRECTORY

Note Explaining The Abbreviations Used In Town Directory

The ' Town Directory ' gives for each town the area, population in 1981 and past censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finances, civic, medical, educational and other amenities, and trade, commerce, industry, and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. Seven statements (I to VI and IV-A) have been included for presentation of this data. All the towns in the district are arranged in alphabetical order. In case of all urban agglomerations the particulars for each constituent town of agglomeration have been furnished separately, also. Obviously separate information could not be furnished in respect of outgrowths which did not qualify to be treated as independent towns. However, in all such cases asterisk mark has been placed against their names to indicate that they have outgrowths and details of their particulars have been merged with the referrent towns.

Data presented in the seven statements have largely been procured from the municipal bodies and for non-municipal towns the respective tahsildars supplied the information.

Statement I shows status and growth history of the towns in the district. Column 2 in this statement indicates class, name and civic administration status of a town (as in 1980). Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the state and the national level. Census towns have no urban civic status. Following abbreviations have been used to indicate the civic status of the town:—

Municipal Corporation/Corporation ..	M. Corp.
Municipality	M.
Municipal Council	M.Cl.
Non-Municipal	N.M.
Cantonment Board/Cantonment ..	C.B.
Notified Area/Notified Area Committee/ Notified Committee.	N.A.C.
Census Town	C.T.

Columns 7 to 15 give population and growth rate of towns since 1901 and would help in drawing the trends in their growth rate. Columns 5, 6, 16 and 17 to 19 showing area in Km^2, number of households including houseless households, density and sex ratio respectively are new additions and are expected to facilitate in analysing the town directory data both at the state and the national level.

Statement II shows physical aspects and location of each town. In physical aspects only the rainfall and temperature data as obtained from the Director-General of Meteorological Survey of India have been shown. Towns for which information could not be obtained from Meteorological Survey of India, the same has been collected locally or calculated in relation to the nearest town, to the extent possible. Columns 6 to 12 have been filled up on the basis of local enquiry. Distances respectively from the state, district and tahsil head quarters and the nearest city (Urban area with a population of 100,000+) would help in determining the location of a town. Communication facilities available are shown by railway station, bus route and navigable river/ canal.

Statement III deals with municipal finances for the statutory and also non-statutory town bodies managing civic administration of the town provided they have separate budgets and accounts of their own.

Statement IV provides information on the civic and other amenities available in the town, Total population given under column 4 and Scheduled Castes/Scheduled Tribes population given in column 5 have been added to help in measuring amenities in respect of population size of the weaker sections of the community in the town. The information on the road length within the town shown under column 6 has been obtained from municipality (except for the highways). Codes used are:—

Pucca road ..	PR
Kuccha road ..	KR

Columns 7 to 11 reflect the information on system of sewerage, number of latrines and method of disposal of night soil.

Codes used are: —

Sewer/Sewerage	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit system	Pt
Head Loads	HL
Baskets	B
Wheel Barrows	WB
Septic Tank Latrines	ST

Columns 12 and 13 indicate sources of protected water supply to the inhabitants of the towns. The information of major source of water supply is given in the column 12 and on major source of storage and capacity under column 13. For stating this information following codes have been used:—

Overhead Tank	OHT
Service Reservoir	SR
River Infiltration Gallery	IG
Borewell pumping system	BWP
Pressure Tank	PT
Tubewell water/Hand pump ..	TW
Tap Water	T
Well water	W
Tank water	TK

Column 14 gives information regarding availability of fire fighting services. In case, it is not available in the referrent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Columns 15 to 19 pertain to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

The newly added Statement IV-A provides data on civic and other amenities in the notified or recognised slums of towns with a population of above 50,000 (*i.e.* class I and II towns).

Statement V gives information regarding availability of medical, educational, recreational and cultural facilities available in the town. 1981 population figures for each town have also been indicated and this will facilitate in analysing data on facilities available on the people.

Data on medical facilities have been obtained from the district and sub-divisional medical officers and shown under columns 4 and 5. All types of medical institutions whether allopathic, ayurvedic or homoeopathic have been covered and indicated by way of following codes:—

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
Maternity and Child Welfare Centre ..	MCW
T.B. Clinic	TB
Nursing Home	NH
Ayurvedic	A
Unani	U
Homoeopathic	Hom
Others	O

In case, more than one institution of any type is available, the exact number is shown within the brackets.

The information on educational amenities (Cols. 6 to 9) is exhibited as:

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Combined for all categories—Arts, Science and Commerce.	ASC
Law	L

Column 10 pertains to the number of recognized shorthand, typewriting and vocational training institutes (grouped as others) which include applied art/painting college, pharmacy college, B.Ed. college, teacher's training school, music/dancing institute, nursing school, etc. Various codes used for indicating this data are:—

Shorthand	SH
Typewriting	Type
Shorthand and Typewriting ..	Sh. Type
Others	O

Keeping in view the ' Minimum Needs Programme ' of the Planning Commission, the information regarding adult literacy classes/centres etc. has also been collected and presented under column 15. Similarly, in view of the spurt in the employment of women in towns, information on number of working women's hostels and seats available therein has been given under column 16. This information would help in formulating plans for opening new hostels in order to meet the housing needs of the single working woman.

Columns 17 to 20 show recreational and cultural facilities available in the town. These include stadia, cinema, auditoria/drama, community halls, public libraries indicated as ' PL ' and the reading rooms indicated as ' RR '.

Statement VI presents information regarding trade, commerce, industry and banking services in the town. Columns 3 to 11 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column No. 12. Columns 13 and 14 show number of agricultural and non-agricultural credit societies respectively in each town.

STATEMENT I

Status and Growth History
