19 DISTRICT CENSUS HANDBOOKS

PREFACE

Census in India has all along been a scientific and systematic survey. Gradually through the decades it has also aimed at providing besides a statistical account of the population surveyed, a picture of the Socio-Economic condition of the people. With this end in view, the Census authorities in India have always interested themselves. side by side with the counting of the people, at making several special studies relating to the life of the people.

One of these special features of the Census of India at present is the preparation and publication of the District Census Handbooks. These were first published in the 1951 Census. Upto 1951, after each Census, only the list of villages along with population was published. But for the first time in 1951, general population tables, literacy tables and social and economic tables were published in the District Census Handbooks.

When preliminary work on the 1961 Census started in 1959, the question of enlarging the coverage of subjects included in the District Handbooks was also examined. A broadsheet indicating the items on which information had to be gathered from the various Departments was circulated by the Registrar-General, India, and at the First Conference of Superintendents of Census Operations held at Delhi towards the end of 1959 the delegates agreed that it was quite within the bounds of possibility to gather information on all the topics suggested by the Registrar-General. It was agreed that the contents of the District Census Handbook, on matters of general information, should not compete with the District Gazetteers.

The scope of the Village Directory included in each District Handbook has been enlarged. In addition to giving the Primary Census Abstract of the village concerned, the Directory gives information about the various amenities available in the village. It is thus possible to get from the Village Directory not only information about the population and the economic activities of the people but also about the level of development attained by the village in regard to the provision of the various amenities. Many of the Census Tables published in the District Handbook furnish information down to the level of a Taluk and they may prove useful in drawing up Taluk Development Plans. Besides the Census Tables and Village Directory, some administrative statistics pertaining to the District concerned, have also been furnished. It was also thought that the usefulness of these volumes would be enhanced by inclusion of District maps and Taluk maps set in suitable squares to facilitate easy location of the villages in the Taluk maps. In order that the readers may get a bird's eye-view of the cultural heritage of the State, a note on it has also been included, which though not exhaustive, should give a glimpse of our rich heritage.

These handbooks have been compiled by the Census Organisation under the general instructions of the Registrar-General. They are being printed and published by the State Government who have also approved the list of items to be included and the mode of presentation.

In the course of the Census operations, I have received assistance and co-operation from several institutions and individuals. It is impossible for me to express my gratitude to each of them individually. However, I will be failing in my duty if I do not express my deep sense of gratitude to Sri. A. Mitra, I.C.S., Registrar-General, India, who has been a source of constant help, inspiration and guidance all through the Census operations of 1961. I am also grateful to the Government of Mysore and its staff at all levels, for the unstinted co-operation extended to me in this work.

MYSORE STATE, 1961

Area in Square Miles

(As furnished by the Surveyor General of India)

MYSORE STATE, 1961

Population

INTRODUCTION

RAICHUR DISTRICT with an area of about 5,436 square miles lies between 15° 10′ and 16° 50′ north latitude and between east longitude 75° 80′ and 77° 50′. Its population according to the 1961 Census is 11,00,895 which works out to 202·51 to the square mile.

In terms of area and population the District is 7·36% and 4·66% of the State respectively as would be clear from the diagram on the facing page.

To the north of the District flows the river Krishna and to its south flows the river Tungabhadra. It is bounded on the east by Gadwal Taluk (Andhra Pradesh) and to its west lie Dharwar and Bijapur districts.

The whole District consisting of nine taluks, namely Raichur, Manvi, Sindhnur, Gangavati, Koppal, Yelburga, Kushtagi, Lingsugur and Deodurg, falls within the northern maidan region, the chief characteristics of which are large expanses of treeless surface, black soil, an occasional hill and some lower belts following the main rivers. Compact villages, dry cultivation (excepting in the irrigated zones of the projects recently started), large holdings, and many landless labourers are features of the rural life.

The District lies between two rivers, namely the Krishna and the Tungabhadra, and is generally referred to as Raichur Doab, meaning the country between two rivers. The geological features of the area are represented by the gneissic complex in which the Dharwar series of rocks occur as definite bands and outlying patches. The area is traversed by a network of dykes. The topography of the area may be considered as represented by the two broad valleys, one sloping towards the Krishna in the north and the other towards the Tungabhadra in the south, with elevated and undulating country between the two valleys. The highland is cut up into a number of meandering transverse minor valleys in the south. As a result, the watershed of the region is controlled by the zone of elevated ground and the watercourses, which originate in this, drain on either side to Krishna and Tungabhadra rivers.

The predominant soil in Raichur District is the black cotton soil which is derived from the disintegration of Hornblende schists which are metamorphic derivations of older volcanic flows. However, reddish-sandy soil, light grey loamy soil and reddish-brown soil also occur.

A range of hills, 14 miles long, begins at Daryapur village in Gangavati Taluk and ends in the same taluk. There are three other ranges, one entering from north-west of Raichur towards Yergera for 15 miles, and in Raichur and Manvi taluks 10 miles long, and the third in the south of the District. There are two ranges of hills in Kushtagi and Lingsugur taluks. The general slope of the country is from the north-west towards the east.

Generally speaking, the District is devoid of forests, except in the hilly portions, the total percentage of such areas to the land area being about 4·24 only. The most important trees are Teak, Ebony, Bijasal (*Pterocarpus marsupium*), nallamaddi (*Terminalia tomentosa*), Eppa (*Hardwickia binata*), Tarwar (*Cassia auriculata*), Mangoes, Tamarind, Neem and species of Ficus. In Sindhnur and Yelburga, there are no forests at all. With a view to economic management, the forests of this district were included in the Gulbarga Division formerly. But with the increase in tempo of works in Raichur District, particularly the afforestation works as also the foreshore-*cum*-dry afforestation works and raising of irrigation plantations in the Tungabhadra project area, a separate forest division has been constituted for the District. The management of the forests is governed by the Hyderabad Forests Act, 1355 Fasli. The total area covered by forests is 1,64,409–91 acres of which 5,992–03 acres are declared protected under Section 29 of the H.F.A., 45,780–76 acres are declared reserved under Section 19, 71,663–83 acres are proposed under Section 4 for reservation, 39,371 acres are unclassified but demarcated forests and 1,602–29 acres are unclassified and undemarcated forests. Distillation of Rosa-grass oil, on a small scale, is carried out in the forests as also the collection of tanning bark.

Owing to the absence of thick forests, no large game is found; but in the hills leopards, bears, hyenas and wolves are met with occasionally.

The District is rich in mineral wealth. The history of gold mining in the District dates back to the

remote past. There are several old workings found scattered over parts of Hutti, Wandali, Maski and Topaldoddi. The Hutti mines are quite famous. Red ochre occurs in Kushtagi. Fieldspar of ceramic use is found in Raichur Taluk. The gritty murrum near Maski forms very good material for the manufacture of tiles, bricks and pottery. The granites and gneisses and the traprocks of the District are of exceptional quality and are of high decorative value owing to their pleasing colours. The sandstones of Hanamsagar village of Kushtagi Taluk have been found to be very well suited for carving purposes and the famous temples at Badami bear sufficient proof to its quality and durability. A large number of salt workings are found scattered in the District, the most important of which are the ones located in Sindhnur, Lingsugur and Raichur Taluks. Apart from the above, there are several other economic minerals in the District.

The principal rivers of the District are the Krishna and the Tungabhadra, with several other smaller tributaries.

The Krishna enters the District at Exhampet in Deodurg Taluk and flows for a distance of 130 miles in a south-easterly direction. It drops from the table land of Deccan proper down to the alluvial doabs of Shorapur and Raichur, the fall being as much as 408 feet in about 3 miles. This river makes a natural boundary between the Gulbarga and the Raichur districts before receiving the Bhima in Gulbarga District.

The Tungabhadra is the chief tributary of the Krishna, fed by a number of streams in the northern half of the old Mysore State. It is formed by the union of the twin rivers Tunga and Bhadra which both rise in the Western Ghats at Gangamula and unite at Kudali in Shimoga District. The river first forms the boundary between Dharwar on one side and Chitradurga and Bellary districts on the other and later separates Bellary and Raichur districts. Ultimately it joins the Krishna a few miles beyond Kurnool in the Andhra Pradesh State.

A multipurpose project called the 'Tungabhadra Project' has been constructed on this river by putting up a dam across the river near Munirabad. This project which was started as a joint venture of the former Madras and Hyderabad States now benefits Mysore and Andhra Pradesh States. In Gulbarga Division it is intended to irrigate 5,80,000 acres in the taluks of Koppal, Gangavati, Sindhnur, Manvi and Raichur, besides generating power to the extent of 75,000 K.W. on the Raichur side. There is also a major anicut across the river about 30 miles south-west of Raichur called the Rajolibanda Diversion Scheme under which about 7,000 acres of Raichur Taluk come under irrigation, besides about a lakh of acres in Andhra Pradesh.

The climate of Raichur District is hot and dry. However, Kushtagi and Yelburga Taluks are not so hot as compared with other taluks. The temperature rises up to 39° C. or 40° C. in April and May and falls to 16° C. or 20° C. in November and December.

The rainfall is capricious and though the District lies between two big rivers, it faces drought conditions quite often. The average rainfall is about 579·3 mm. most of which is between June and October.

History

The District which was a part of the Hyderabad State till recently has a hoary past. Legends mention about Rama's visit to Kishkinda, identified with the modern Vijayanagar and Anegundi. The history of Raichur is traced as far back as the Nala-Damayanti period. The dominions of the Buddhist king Ashoka (272–231 B.C.) are said to have covered the whole of Berar and a considerable portion of the north-western and eastern tracts of the old Hyderabad State. From about 220 B.C. the Andhras rose to power and held their sway from the Krishna Delta to Nasik. About 100 years later this dynasty came to an end.

The next dynasty of importance is that of the Chalukyas, who rose to power in Bijapur District about 550 A.D. with their capital at Badami. Pulikeshi II (608–642 A.D.) ruled practically the whole of India south of Narmada. Throughout this period they were at war with the Pallavas and their fortunes and dominions varied. In the middle of the eigth century (A.D.) they were displaced by the Rashtrakutas of Malkhed in Gulbarga District; but in 973 A.D. the Chalukyan dynasty was restored with Kalyani as capital, their rule extending for about 200 years more. The Chalukyan power fell about 1189 A.D. to the Hoysalas and Yadavas. The Yadavas of Devagiri (Daulatabad) were the last great Hindu rulers of the Deccan, for the Vijayanagar empire which was founded half a century after the advent of the Muhammedans, never acquired much sway in the Deccan proper.

Allauddin Khilji led the first Muhammedan expedition into the Deccan, in 1294 A.D. against the Yadavas and coerced them into submission. In 1303 A.D. he sent an unsuccessful expedition against the Kakatiyas of Warangal, but the second expedition in 1309 A.D. under Malik Khafur was successful. In 1310, Malik Khafur put an end to the Hoysala rule and in 1318 A.D. the Yadava rule came to an end. In 1321 A.D. Muhammad-bin-Tugalak broke the Kakatiya power, with the result that in 1325 A.D. the Muhammedans were masters of the Deccan. Muhammad-bin-Tugalak changed the name of Devagiri to Daulatabad and made it his capital. A few years later the imperial Governors of the Deccan revolted and this resulted in the establishment of the Bahmani dynasty, founded by Zafar Khan who styled himself as Alluddin Hasan Shah Gangu Bahmani. He commenced his rule in 1347 A.D. with Gulbarga as his capital.

The Bahmani kingdom extended from Berar in the north to the left bank of Tungabhadra in the south and from Dabhol on the west to the Telangana tracts in the east. The Raichur Doab was frequently passing from the Vijayanagar kings to the Bahmani kings and back.

Allauddin's successor Mahammad Shah waged wars against Vijayanagar (1366 A.D.) and Warangal (1371 A.D.) and acquired great booty. In 1398 A.D. King Firoz marched against the Vijayanagar king who had made inroads into Raichur Doab and inflicted a defeat on him. However, in 1417 A.D. Firoz had to suffer a heavy defeat at the hands of the Vijayanagar and Warangal kings.

The Barid-shahi kingdom succeeded the Bahmani kings. In 1565, Ali-Barid with the other Deccan kings marched against Ramaraya of Vijayanagar and the memorable battle of Talikota sealed the fate of the Vijayanagar empire. Raichur Doab became part of the Baridshahi kingdom. Kutb-ul-muik, a Turk of noble family, who was the Governor of Golkunda under the Bahmanis declared his independence and established the Kutubshahi dynasty which reigned from 1512 A.D. to 1687 A.D.

When the Moguls invaded the Deccan, the local rulers formed an alliance against them; but after defeating them they fell out among themselves, thus enabling the imperial troops to gradually subdue the country.

Raichur Doab thus came under the house of the Nizams, founded by Asaf Jah, a distinguished General of Aurangazeb. He was first appointed Subedar or Viceroy of the Deccan in 1713 A.D., with the title of Nizam-ul-mulk, which became the hereditary title of the family. The Mogul power was then on the decline and so Asaf Jah had little difficulty in asserting his independence. But he had to repel the inroads of the Marathas. The battle at Shakarkhelda (Fathkhelda) in the Buldana District in 1724 A.D. with Mubariz Khan of Khandesh established the independence of Asaf Jah. On Asaf Jah's death, the French and the English tried to extend their respective influence in the State by siding with the rival contenders to the throne vacated by Asaf Jah. But ultimately the English succeeded in their attempts and they entered into several treaties of offensive and defensive alliances with the Nizams. On the fall of Seringapatam and the death of Tipu Sultan, the Nizam participated largely under the treaty of Mysore (1799 A.D.) in the division of territory, and his share was increased because of the Peshwa's withdrawal from the treaty. In 1800 A.D. a fresh treaty was concluded between the Nizam and the British.

On the death of Sikandar Jah in 1829 A.D., his son Nasir-uddaulah succeeded. In 1839 A.D. a Wahhabi conspiracy was discovered in Hyderabad as in other parts of the country, but this was quelled in time. In 1847 A.D. a serious riot took place between the Shiahs and the Sunnis. As the pay of the contingent troops had fallen in arrears, a treaty was signed with the British in 1853 A.D., by which besides Berar the districts of Osmanabad and Raichur Doab were also ceded to the British. But pleased with the attitude of the Nizam during the rising of 1857 (first war of Independence), the British restored Osmanabad and Raichur Doab to the Nizam in 1861 A.D.

Mir Mahbub Ali Khan Bahadur succeeded to the Nizam's Gadi in 1869 A.D. Being only three years old then, a regency was constituted for the administration of the State, with Sir Salar Jang I as regent and Nawab Shams-ul-umara as co-regent, the Resident being consulted on all important matters. In 1884 the Nizam having attained majority was installed by Lord Rippon. In 1902 the assigned districts of Berar were leased in perpetuity to the British Government, at an annual rental of Rs. 25 lakhs. In 1911 or so Mir Mahbub Alikhan was succeeded by the Nizam Oosman Ali Khan.

In 1948 Government of India were forced to take Police Action against the State and curb the Razaakar movement which directly impaired the security of the country. From 26-1-1950 Hyderabad became a part B State with the Nizam as Rajapramukh.

Until about the commencement of this century the whole State of Hyderabad, excluding Sarf-e-khas or crown district of Atraf-e-balda was divided, for administrative purposes, into 4 subahs or divisions and there were 15 districts and one Amaldan or Sub-District. In 1905, the districts were reconstituted, Lingsugur District being broken up and the Amaldan being converted into a district. Gulbarga Division was constituted with an area of 19,825 square miles. But in 1922, this Division was abolished and the districts from this Division came under the direct control of the Revenue Secretariat. However, in 1929 the Division was revived and continued till Police Action in 1948, when again it was done away with. It was only after the reorganisation of the States from 1-11-1956 that a Revenue Division with the entire area coming over from former Hyderabad State to the new State of Mysore came into existence. Alampur and Gadwal taluks, which formed a part of Raichur District, were transferred to Mahaboobnagar District of Andhra Pradesh. Yelburga and Koppal, which formed the important Salar Jung Jahagirs, continued in the Raichur District.

As a result of the State reorganisation, 9 taluks of Raichur District, 10 taluks of Gulbarga District and 4 taluks of Bidar District were transferred to the new Mysore State from the old Hyderabad area. These three districts now constitute Gulbarga Division.

The People and Their Social Condition

The District has a total population of 11,00,895 of whom 9,40,273 reside in the rural areas and 1,60,622 reside in urban areas. But many of the so called urban areas are really overgrown villages.

The District faces scarcity and famine conditions intermittently and so the economic condition of the people cannot be said to be always secure.

The people are hardy and good husbandmen. They are simple and have a religious bent of mind. They regularly attend the fairs held annually at several places in the vicinity.

The ordinary Hindu festivals are the Holi, the Divali, the Dasara, the Nagapanchami, the Ramanavami, the Pitrapaksha and the Shivaratri. The Pola festival is celebrated at several places when the cattle are garlanded and decorated, and led through the village accompanied by their owners. The Mahammedans observe the Mohurrum, the Bakrid, the Id of Ramzan, the Shab-i-barat, the Duazdahum-i-sharif and the Yazdatum.

There are very few amusements in which the cultivators indulge. In the evenings they gather at the village chavdi and join in gossip or pass the time with their families, discussing the season and the condition of the crops. Occasionally they go to neighbouring markets or visit places of pilgrimage and fairs in the neighbourhood. Sometimes they enjoy the performance of strolling actors, and the recitation of religious poems is very popular.

The staple food consists chiefly of cakes of jowar and bajra. Along with cakes are eaten curries made of vegetables and pulses, onion, oil or ghee seasoned with tamarind or chillies or both.

The ordinary form of dress for a villager is a dhoti or waistcloth, a short jacket or coat of cotton, a turban of red, white or yellow colour and a 'kambli' or blanket, which he almost always carries. The women wear a sari which is a piece of cloth 5 or 6 yards long and about 4 feet broad, one end being fastened round the waist, while the other is carried over the head and shoulders covering the rest of the body. In addition to the sari, the women wear a choli or short bodice. The Muhammedan women sometimes wear a langha or petticoat, with a choli and dupatta, the last covering the head and the body. They also observe Purdah. Waddar females discard the choli altogether, but wrap the end of the sari round the upper part of the body.

In each village, there will be one or more elderly persons, whose advice is sought when taking decisions on important issues like holding of fairs, settling local disputes, settling marriages, etc.

Medical, Public Health and Animal Husbandry

The rainfall in the district is uncertain and scanty. As such though the District lies between two big rivers, namely the Krishna and the Tungabhadra and is called 'Raichur Doab', it faces famine conditions frequently. Many villages face scarcity of drinking water also with the result that cholera makes its frequent appearance. In several villages the Guinea-worm trouble is also largely prevalent. The climate of the District, though not salubrious, is quite good.

Upto 1960, nine Primary Health Units of Government of India pattern have started functioning. As the medical facilities provided in the District were far from adequate, an expansion programme has been undertaken. A new District Hospital with 240 beds is being constructed at Raichur.

The following particulars as they stood at the end of 1960, relatng to all medical institutions including those run by local bodies, getting Government aid, etc., will throw some light on the medical and public health facilities provided in the District:

1. No. of Medical Institutions:

   (2) Female 1

In Indian medicine, there are 11 Ayurvedic and 6 Unani dispensaries.

There are no special breeds of local cattle found in the District except the Krishna valley breed on the banks of river Krishna. The white cattle of Deoni breed commonly seen in the district are generally imported from Telangana side. They are a hardy stock with black-tipped tails. Other imported breeds commonly seen are the Khammamett and Devarkonda breeds. Sheep and goats of the ordinary kind are bred everywhere. Cattle frequently face scarcity of fodder during drought.

The foot and mouth disease, anthrax and rinderpest are the common cattle diseases.

The achievements made during the first two five-year plan periods in the field of Animal Husbandry are:

	1956–57	1960–61
1. No. of Veterinary Hospitals and Dispensaries ..	5	14
2. No. of breeding bulls distributed ..	6	16
3. Artificial Inseminations done ..	6,553	15,000
4. No. of animals treated against various diseases	39,560	1,00,000

Agriculture and Irrigation

Raichur is situated in the metamorphic and trap regions and its varieties of soil are regar, masab, milwa and reddish or lateritic. The last-mentioned soil is much prized and so are also the regar and milwa; but the masab is a very poor soil, and needs water and heavy manuring. Regar predominates in Raichur, Manvi and Deodurg Taluks, where rabi crops are extensively raised, while reddish and milwa soils are used for kharif crops. In the reddish or milwa soil, a moderate fall of 12 to 15 inches of rain is sufficent to mature the crop, while regar needs 25 to 30 inches.

The principal crops of the District together with the area under each are:

Crops	Area in acres
Rice ...	34,438
Kharif Jowar ...	3,56,797
Rabi Jowar ...	4,24,533
Bajra ...	1,20,447
Wheat ...	1,81,981
Gram ...	28,325
Cotton ...	7,13,774
Tur ..	46,327
Groundnut ...	2,94,137

The entire taluks of Sindhnur and Yelburga are plains with best cultivated black cotton soils (regar).

There are two distinct agricultural seasons, namely kharif and rabi. Kharif sowing is done usually just after the south-west monsoon starts and the rabi sowing is done in September or October.

The Department of Agriculture has sponsored several extension schemes such as distribution of improved seeds, fertilisers, insecticides and fungicides, tractor and bulldozer services, etc., to promote agriculture.

The achievements in the field of agriculture during the first two five-year plan periods are:

	1956–57	1960–61
Total food production ..	2,00,952 tons	2,20,057 tons
Area brought under cultivation ..	18,20,000 acres	20,40,000 acres
Seed farms opened ..	5	5
Improved seeds distributed	10,500 mds.	21,826 mds.
Urban/Rural compost prepared	20,000 tons	72,615 tons
Area protected against pests and diseases	1,28,441 acres	2,16,118 acres
Area brought under Japanese method of cultivation	..	12,824 acres
Number of landless and other poor people granted lands	145	1,318
Area of land thus granted	6,479 acres	12,857 acres

It is worth noting that even prior to this, there were some irrigation channels in Koppal and Gangavati Taluks of pre-Mogul times constructed by the Vijayanagar kings. They irrigated about 5,000 acres.

There are two major irrigation projects in the District, namely, the Tungabhadra Project and the Rajolibanda Division Project.

The left bank canal of the Tungabhadra Project runs through the taluks of Koppal, Gangavati, Sindhnur, Manvi, Deodurg and Raichur and is planned to be constructed up to mile 127 providing assured water supply to an area of about 5,80,000 acres. The details of the cropping pattern are:

Crop	Area in acres
1. Sugarcane ..	15,000
2. Abi paddy ..	50,000
3. Rabi paddy ..	10,000
4. Light irrigation kharif ..	2,00,000
5. Mid-rabi cotton ..	75,000
6. Light irrigated rabi ..	2,00,000
7. Garden	30,000
Total ..	5,80,000

At present irrigation is in progress in three taluks, namely, Koppal, Gangavati and Sindhnur.

The Rajolibanda Division Scheme consists of an anicut across the Tungabhadra river near Rajolibanda village of Manvi Taluk and a 72 mile long canal, which after covering a length of 27 miles in Mysore State, enters the Andhra Pradesh. The anicut is situated about 80 miles below the Tungabhadra reservoir. The construction of the anicut was completed and water was made available to the main canal in 1958–59. 15 villages of Raichur Taluk can be irrigated by this Rajolibanda Division Scheme canal. The cropping pattern is as follows:

Crop	Area in acres
1. Abi and Rabi paddy ..	2,063–10
2. Garden	541–00
3. Light irrigation ..	3,343–38
Total ..	5,940–08

As in 1958–59, the total number of irrigation canals (Govt.) in the District were 12 covering a mileage of 50, the irrigational wells and tanks were 4,399 and 781 in number. The total area under irrigation was 33,078 acres of which 18,626 acres were under the influence of canals, 10,401 acres under tanks, 2,746 acres under wells and 1,305 acres under other sources.

The achievements in the field of irrigation during the first two five-year plan periods are:

	1956–57	1960–61
Major and medium projects undertaken ..	2	2
Minor irrigation works:		
(*a*) Tanks constructed and restored ..	..	17
(*b*) Irrigation wells sunk ..	200	2,239
Loans advanced for irrigation wells	Rs. 4,00,000	Rs. 44,78,000
Area brought under irrigation	22,500 acres	1,89,000 acres

Natural Calamities

1924.—There were floods in Tungabhadra river, but no damage was caused either to life or property.

1934.—Due to heavy hailstorm the crops were badly damaged in Sindhnur Taluk.

1943.—There was acute scarcity of Jowar in Kushtagi Taluk. Consequently Bajra was consumed in the entire taluk. It was called as "Sajji Bara".

1949.—Due to outbreak of plague in many villages of Sindhnur Taluk, Land Revenue was suspended.

In Lingsugur Taluk relief by way of Tagavi was given to sufferers from cyclone.

In Kushtagi Taluk there were heavy rains which lasted for 20 days and nearly 70% of the houses collapsed. It was called "Swati Bara".

In Manvi Taluk nearly 100 houses were collapsed due to heavy rains and relief to the extent of Rs. 8,447·13 was given. In Yelburga Taluk due to heavy rains for 8 days houses collapsed throughout the Taluk. Cash relief was given to the tune of Rs. 1,000. In Gangavati Taluk, loss was sustained to the extent of Rs. 50,000 and relief was afforded to the tune of Rs. 7,050 by way of Tagavi.

1950–51.—Due to heavy rain houses collapsed in many villages of Sindhnur Taluk. As a relief measure Government advanced cyclone Tagavi loan to the sufferers.

1954.—Due to heavy rain followed by hailstorms Rabi crop in Kailur and nearby villages of Manvi Taluk was affected. A number of agriculturists who were in their fields to pick cotton were injured. Immediate medical aid was given to the victims. The standing rabi crop was badly affected and Land Revenue amounting to Rs. 21,250–83 nP. was suspended.

1960–61.—Floods in Tungabhadra river damaged 40 and 4 houses respectively in the villages of Chikalpavi and Yadwal in Manvi Taluk. Crops standing in 369–12 guntas were also damaged. Families whose houses were damaged were given relief at the rate of Rs. 40 per house. Grains and clothes worth Rs. 720 were supplied by the "Red Cross Society". Wherever crops were damaged financial aid was given, the total relief amounting to Rs. 5,000.

As a measure of permanent relief, it has been decided to shift both these villages to safer sites, which have already been selected and allotted to the sufferers free of cost. Apart from this, a loan of Rs. 45,000 has been sanctioned to the sufferers in addition to gratuitous relief of Rs. 40,000. Thus an amount of about Rs. 1,00,000 has so far been spent for their rehabilitation. This flood also touched Gangavati Taluk; but there was no loss either to life or property.

Education and Literacy

The achievements in the field of Education during the first two five-year plan periods are:

	1956–57	1960–61
No. of Educational Institutions:		
Colleges	1	1
High Schools (including Higher Secondary and Multipurpose)	9	16
Middle Schools	34	112
Primary Schools (including Pre-primary and Nursery Schools)	676	1,130
Technical Institutions	1	2
Total number of students	35,950	65,050
Total number of teachers	1,013	1,651
Literacy percentage (1951)	9·3%	13·22%
Number of students given Educational concessions like Scholarships, Freeships, etc.	2,113	6,660

In 1962, there were 30 High Schools in the District giving a ratio of 1 to 36,400 population. The area served by a High School comes on an average to 181·20 sq. miles.

The percentage of literates has increased from 9·3 in 1951 to 13·22 in 1961. The highest percentage of literates is found in Koppal Taluk, where it is 20·5 and the lowest is in Deodurg Taluk with 10·1. The percentage of literacy in urban areas alone has increased from 18·9 in 1951 to 29·95 in 1961. Amongst the urban areas, it is highest in Munirabad with 39·92% and lowest in Mudgal with 18·8%.

Occupation, Manufacture and Trade

Agriculture is the principal occupation of the people. With the development of the Tungabhadra and Rajolibanda projects, more and more area is producing

irrigated crops like paddy, sugarcane, etc. Even from earlier times nearly 5,000 acres are being irrigated by the pre-Mogul channels, where sugarcane is being raised. Thus there is plenty of scope for developing sugar industry. The Salar Jung Sugar Mills Limited, at Munirabad, which started crushing with a daily crushing capacity of 250 tons from 1952–53, has been expanded gradually to crush 600 tons a day and steps are afoot to further extend the capacity to 1,000 tons a day. Another sugar factory is proposed to be established at Gangavati.

The District is quite rich in oilseeds. Already a vegetable oil mill for producing oil by solvent extraction process has been established at Raichur, its installed capacity being 100 tons of oilcakes crushing per day. At Munirabad a new undertaking to manufacture sulphuric acid (16,500 tons per annum) and superphosphate (40,000 tons per annum) has been licensed. A co-operative spinning mills with an initial installed capacity of 12,500 spindles is likely to come up soon. An industrial licence has been issued to establish a paper and pulp mills at Munirabad to manufacture 15,000 tons of paper and pulp per annum. The raw material for this will be mainly bagasse from the sugar mills at Munirabad, Hospet and Kampli.

The Hutti Gold Mines employ nearly 2,000 workers. These mines produce about 15,000 to 16,000 ozs. of gold valued at about Rs. 50 to 60 lakhs per year.

There are several small-scale industries in the District. They deal with manufacture of groundnut oil and cakes, ginning of cotton, tannery, etc. To overcome the difficulties faced by these small-scale industries, it is proposed to establish two industrial estates—one at Raichur and the other at Lingsugur. Kinnal, a village about 8 miles away from Koppal, is famous for its toys, weaving, pottery and preparing combs from horns.

It is estimated that there are about 7,600 handlooms engaged in the weaving of cotton and woollen fabrics. Nearly 50% of them have come into the co-operative fold. The district is also famous for its traditional embroidery work.

The principal exports consist of jowar and other foodgrains, linseed, castor-seed, leather and hides, bones and horn, sugarcane and products, cotton, etc.

The diagrams on the facing page show the distribution of the population among workers in nine categories and non-workers both for the State and the District.

Communications

The Bombay-Madras broad-gauge railway line passes through the District, its length within the District being about 50 km.

The District is backward in communications. The total length of the roads in the District is 918 miles of which 867 miles are in charge of the Public Works Department and the balance in charge of the local bodies.

Of the 867 miles in charge of the Public Works Department, 4 miles are cement-concreted, 147 miles are blacktopped, 388 miles are covered with waterbound macadan, 313 miles are treated with other kinds of surface material and 15 miles consist of natural soil.

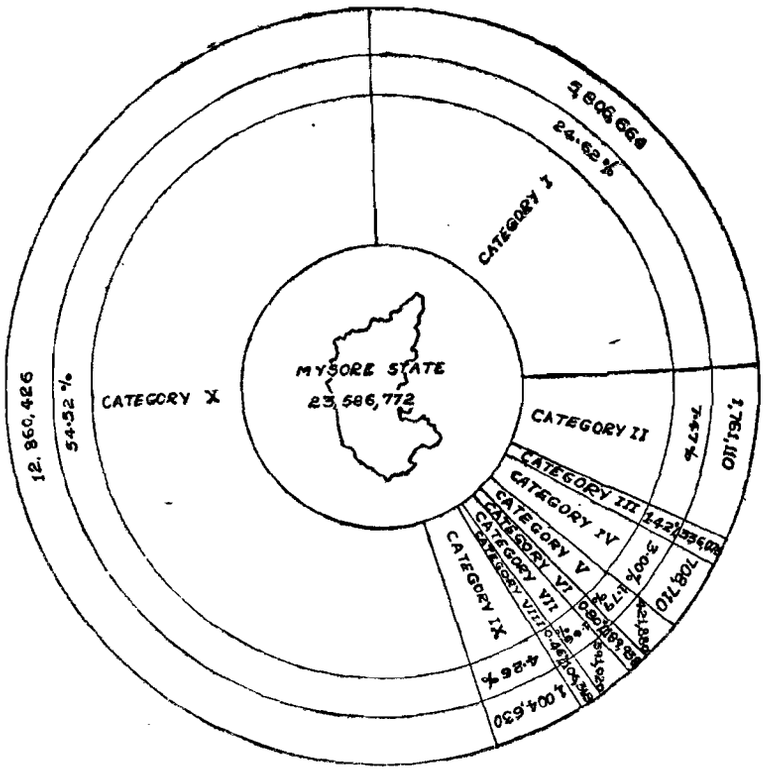

There are no national highways passing through the District. 326 miles form the State highways, 191 miles form the major district roads, 99 miles form the other district roads, and 251 miles form the village roads.

The State highways and their length within the District is as follows:

		Miles	Fur.
1.	Hyderabad-Bangalore Road (*via* Kurnool) ..	35	0
2.	Raichur-Ginegerah Road ..	101	0

Land Tenures and Land Reforms

Broadly speaking, the District had two types of land tenures: (1) Khalsa or Divani lands under the direct management of Government and (2) Non-khalsa lands, the revenue of which had been wholly or partly assigned for some special purpose. The latter comprised, (*a*) sarf-e-khas lands and the jahgir or inams. The sarf-e-khas lands were merged in divani in 1949. Divani lands as well as most of sarf-e-khas lands are generally held on purely Ryotwari tenure, where the Ryot holds the land directly from the State. There are not therefore many intermediaries between the Government and the actual tiller of the soil as in the Zamindari estates. The occupant in such cases is called the Pattadar, the right of occupancy being subject to the regular payment of the assessment by the Pattadar. In the case of failure to meet the demand, the Pattadar's rights are forfeited. Still, as the recognised occupants were not obliged to cultivate the lands personally, certain inferior tenures developed, which are known as Potpattedari, Shikmidari, and Asami-shikmi (tenants at will). In non-khalsa area, however, which covered the jahgirs and inams, there were several other problems especially when dealing with the tenants. The Jahgirdars did not concede occupancy rights to their cultivators, with the result that they could enhance rents at their pleasure. These Jahgirs, consisting of free grants of one or more villages, could be classed under four heads, *viz.*, (1) Al-tamgha which are grants of a hereditary and permanent nature, (2) Zat Jahgirs or personal grants for the maintenance of the grantees, (3) Paigah Jahgirs or grants to the nobles of the State for maintaining troops for the Nizam and (4) Tankhwah-i-mahallat or grants in lieu of certain local payments that were binding on the State. The Inam lands consisted of grants for service or charitable purposes, either free of revenue or subject to a quit rent.

In fact Paigah villages constituted one of the important estates in the State, and the history of the Paigah nobles who held these grants, dated back to the reign of Akbar. Another important estate in the Hyderabad State was the Salarjung Estate.

Land Revenue assessment in the ex-Paigah villages was very high as compared with the Rah in the adjoining Divani villages. By way of relief ever since the abolition of the Paigahs, the Government is granting every year suspension of 25% in the land revenue of these villages, where the average rate of assessment does not exceed 100% or more of the average rate in the adjoining Divani villages, and where it exceeds by 100%, the suspension given is 50%. Steps are afoot to bring in uniformity in the rate of assessment.

Till 1945, when the Hyderabad Asami Shikmi Act was passed, there were two kinds of tenants: (1) shikmidars and (2) asami-shikmidars. Shikmidars were permanent tenants and possessed rights similar to the Pattadars. Asami-shikmidars were tenants responsible to the holders for payment of rent. After 12 years of continuous tenancy, they could be deemed to be shikmidars, but in practice no tenant could prove such a period of continuous possession.

The Hyderabad Government appointed a Tenancy Committee and as a result of their recommendations, the Hyderabad Asami Shikmis Act of 1945 was enacted. This Act gave fixity of tenure to all new tenants for 10 years and empowered Government to fix maximum rates of rent. A class of tenants was declared as protected and granted permanency of tenure subject only to the payment of lawful rent.

The appointment of the Hyderabad Agrarian Reforms Committee in 1949 was a landmark in the history of land reforms. On its recommendations the Hyderabad Tenancy and Agricultural Lands Act of 1950 was enacted, the main objects of which were to improve the status of tenants, to impose a limit on the size of holdings, to abolish absentee landlordism and to encourage preservation of lands in the hands of genuine agriculturists. The Act largely followed the Bombay Act, with the result that there is similarity among several of the provisions of these two Acts. This Act recognised two categories of tenants, *viz.*, (1) protected tenants and (2) Asami-shikmis, prohibited any lease of land after 3 years of the commencement of the Act excepting under certain circumstances, introduced the concept of "economic holding", limited the maximum rent to $\frac{1}{3}$ of the crop or its value in the case of irrigated lands except under wells and $\frac{1}{4}$ in the case of unirrigated land or irrigated land under wells. One important feature of the Act was the use of compulsion for the formation of co-operative farming societies. If an application was made to the Registrar of Co-operative Societies by any ten or more persons of a village or two or more contiguous villages holding between them 50 acres or more for the formation of a Co-operative Farming Society, the Registrar has to grant a certificate of registration after enquiry. Provision had also been made for the formation of a co-operative farm of uneconomic holdings.

As a result of this Act, the landholders started indulging in the large-scale eviction of tenants and to

put an end to this, the Hyderabad Prevention of Evictions Ordinance of 1952 was passed. During 1951–52 and 1952–53, tenancy records also were prepared to safeguard the position of protected and ordinary tenants. In order to further improve the status of tenants and to provide for the implementation of the recommendations of the Planning Commission, the Hyderabad Tenancy and Agricultural Lands Amending Act of 1954 was passed. According to this Act, instead of "the economic holding" the unit of a "family holding" was devised, the maximum limits of rent were fixed in terms of multiples of land revenue, restrictions were put to claims being made to the possession of land for personal cultivation, ceilings were put to further acquisitions of land, provisions were made to the purchase of land by tenants at reasonable rates, and standards for efficient cultivation were prescribed besides introducing several other progressive features.

On the reorganisation of State and after inclusion of these territories in the Mysore State an Ordinance was issued on 11th March 1957, suspending the provisions relating to the land-holders' right to terminate protected tenancy and also staying all proceedings, whether for termination of tenancy or for resumption of land which were pending on 11th March 1957. Surrenders of lands were required to be verified by Tahsildars in his office. The Ordinance also contained a provision that all the lands surrendered by a tenant, in excess over the extent which along with the extent already in the holding of the landlord, would make up three family-holdings should be taken over by Government and leased out to Co-operative Farming Societies, Agricultural Labourers, Landless persons and other Agriculturists in that order. The Hyderabad and Madras Areas Tenancy (Suspension of Provisions and Amendment) Act, 1957, has replaced this Ordinance.

In 1957, a committee, called the Mysore Tenancy Agricultural Land Laws Committee, was set up to consider the feasibility of having a common law for the new State of Mysore. The Committee made several recommendations including conferment of ownership on tenants in certain cases, restricting the powers of resumption of land by landlords, putting a ceiling on the possession of land, etc.

A Land Reforms Bill drafted generally on the basis of the recommendations of this Committee was introduced in the Legislature in November, 1958. The Bill as modified by the Select Committee was passed by both the Houses of the State Legislature in 1961 and has received the President's assent also. The State Government has not yet notified the date from which this Act comes into force.

Houses and Households

The villages in the District consist of either (1) linear cluster or assemblage with a regular open space or straight street provided between parallel rows of houses or (2) square or rectangular cluster or agglomerate with straight streets running parallel or at right angles to one another. The houses have generally a rectangular ground plan with flat roof. The house of the common cultivator consists of three or four small rooms, the walls being of mud and the roof thatched or mud-plastered, and the rooms being built round a courtyard.

According to the Census of India, 1961, the total number of houses and households is 2,15,673 and 2,20,863 respectively. This gives an average of 39·67 houses and 40·63 households per square mile. The average number of inmates comes to 4·98 per household.

The table on the facing page gives the talukwise distribution of houses, households and population.

Local Bodies

There are three city municipalities in the District at Raichur, Gangavati and Koppal and six town municipalities at Deodurg, Manvi, Sindhnur, Lingsugur, Mudgal and Kushtagi. The total membership of all the municipalities is 154.

Before the enactment of the Mysore Village Panchayats and Local Boards Act, 1959, there were 147 panchayats covering as many villages. They were constituted under the Hyderabad Village Panchayats Act, 1951 and Hyderabad Gram Panchayat Act, 1956. With the passing of the Mysore Act of 1959, 382 village panchayats and 9 town panchayats, covering 1,531 villages, have been constituted.

The Mysore Act of 1959 has made one more fundamental change in the organisation of the local bodies. Before the passing of this Act, there was one District Board for the whole District. But now this has been replaced by 9 Taluk Boards, one for each taluk. The membership of all the 9 Taluk Boards together consists of 155 persons elected on the basis of adult franchise.

APPENDIX XIV-B

FAIRS AND FESTIVALS

District: Raichur

1. *Sri Kanakachalapathi temple fair at Kanakgiri (Taluk: Gangavati).*—This is an annual Jatra celebrated from Phalguna Bahula Thritiya to Saptami in the month of March. The daily utsava (festivities) starts in the early hours every day between 4 and 5 a.m. with 'Karpura arati' which will be largely attended. Every day different Vahana processions of God will be taken out in the manner as at Tirupati Devasthanam, of which Garuda Vahana procession is the most important. On Saptami day, the temple chariot will be drawn, this being the most important function of the Jatra celebrations.

This Jatra is associated with the ancient temple of Sri Kanakachalapathi. The temple is a beautiful piece of South Indian architecture of Vijayanagar times. The sculpture on this Gopuram and walls depicts scenes from Hindu mythology. There are various legends connected with this temple. It is said that Lord Narasimha pleased with the penance of Kanaka Rishi manifested himself and took the form of a Linga (Saligram) in response to the prayers of the sage. Another legend goes to say that one Sri Parsappa Naik, a bedar, saw Tirupati Venkataramana in his dreams and got directions to search for a Saligrama here. He carried this news to King Devaraya of Vijayanagar who personally visisted the place and on seeing this Saligrama, got this temple constructed and endowed a Jagir of 12 villages for the maintenance of the temple.

This fair which is being conducted from the 15th century or so is largely attended by people of all castes and communities, the attendance being largest (about 15 to 20 thousand) on the Rathotsava day. The affairs of the temple are managed by a Committee appointed by Government, under the Presidentship of the Tahsildar of Gangavati. The offerings and rents of shops, etc., form the main source of income. The transport facilities are provided by the State's Road Transport, who run additional buses during the fair. There are some stone mantaps round the temple where accommodation is available to a limited number of pilgrims. The sanitary arrangements, during the fair, are looked after by the District Health Authorities.

2. *Sri Ambadevi fair, Somlapur (Taluk: Sindhnur).*—This jatra is held annually from Pushya Suddha Chaturdashi to Pushya Vadya Panchami, the most important day being the Poornima, when the temple chariot is drawn.

This fair is associated with Sri Ambadevi. Legend goes that Sri Chidanand Swami, a saint from Bellary District, undertook penance here when Goddess Ambadevi gave him darshan. She, at the prayers of her devotee, stayed here in a chakra. So one can see in this temple a copper idol of Ambadevi installed in a Chakra.

The affairs of the temple are managed by a Committee of members, appointed by Government with the Tahsildar of Sindhnur as its President. The attendance during the fair ranges between 20 and 30 thousands. Offerings from devotees and rents from shops, etc., form the main source of income of the temple. The sanitary arrangements during the fair are attended to by the District Health authorities. The Road Transport Department caters to the needs of transport during the fair.

3. *Sri Mangleswar fair, Mangalore (Taluk: Yelburga).*—This annual fair is celebrated in the month of Phalguna, The fair lasts for about 9 days and the attendance is about 4,000 to 6,000 people. The temple has got service Inam lands to the extent of 117 acres and the mutsaddi of the temple looks to the management of the fair.

4. *Sri Amareshwar temple fair, Devarbhupur (Taluk: Lingsugur).*—This fair is held annually on Phalguna Suddha Purnima. The temple is located amidst hillocks covered with green foliage, about 8 miles away from Lingsugur. One peculiar feature of the temple is that all through the year water will be flowing from the seat of the idol. The attendance during the fair is about 50,000 people. It is said that during the fair, not a single fly or crow will be seen near the temple. There is a belief that a bath in the pond besides the temple, cures leprosy patients.

APPENDIX XV

GAZETTEER OF PLACE NAMES AND PLACES OF TOURIST INTEREST

Anegundi (*Taluk: Gangavati*).—9 miles from Gangavati is situated on the left bank of the Tungabhadra. It was the seat of the Rajas of Anegundi, who were the lineal descendants of the kings of Vijayanagar. Anegundi means 'Elephant pit,' being the place where the elephants of the Vijayanagar kings were kept. Sri Ranganatha Temple, Pampa Sarovar, Lakshmi Temple, Kamal Mahal and Nava Brindavan are important places of archaeological, architectural, historical and religious importance. There are famous edicts of Krishnadeva Raya and Vijaya Vidyaranya, Founder of Vijayanagar Kingdom.

Deodurg (*Taluk: Deodurg*).—Situated about 34 miles west of Raichur is the Taluk Headquarters. It contains an old fort and was the stronghold of the Paliegars. To the north of the town is a hill containing Talc.

Devarbhupur (*Taluk: Lingsugur*).—About 11 miles from Lingsugur is known for the temple of Amareshwar, where annually a big fair is held, as also a cattle fair. Annually there is a sale of jaggery worth over a lakh of rupees in about a week's time.

Gangavati (*Taluk: Gangavati*).—Headquarters of the Taluk, it is situated 9 miles to the north of Anegundi and about 2 miles to the east of Tungabhadra. It is a commercial centre known for trade in grains and Jaggery. There are proposals to set up a Sugar Factory here. There is a Rural Artisan Training Institute imparting training in toy making, wool-weaving and cotton-weaving.

Hutti (*Taluk: Lingsugur*).—Situated about 11 miles away from Lingsugur is famous for the Gold Mines. More than 95% of the shares of the Hutti Gold Mines Company Limited are held by the Government of Mysore. The mines which employ more than 2,000 workers produce about 15,000 to 16,000 ozs. of gold every year.

Itagi (*Taluk: Yelburga*).—Situated about 18 miles away from Koppal has got a beautiful temple of Sri Mahadeva, constructed by Sri Mahadeva Dandanayak, Senapati of Chalukyan dynasty.

Jaladurga (*Taluk*: *Lingsugur*).—An island fort in the river Krishna at a distance of about 8 miles from Lingsugur was a key fort for the Adilshahi kings of Bijapur. A lucid description of this fort appears in Meadows Taylor's book, ***Noble Queen*** published in 1874 A.D. This fort is now a deserted village and if developed can be a good picnic spot.

Kallur (*Taluk*: *Yelburga*)—Situated about 10 miles west of Raichur, is a commercial place, and has three temples and two mosques.

Kanakgiri (*Taluk: Gangavati*).—13 miles from Gangavati on Gangavati:—Lingsugur Road is a place of pilgrimage known for the temple of Kanakachalapathi, of great architectural beauty.

Kuinal.—8 miles away from Koppal, is famous for toys. The Chitragars are adept at making palanquins and cradles, images of deities, toys, etc. Other industries here are weaving, pottery and preparing combs from horns.

Koppal (*Taluk*: *Koppal*).—Both the Taluk and Revenue Sub-division headquarters, is connected both by road and rail. The fort on the Koppal hill is remarkable from architectural and historical points of view. During the first war of Independence in 1857, this place was besieged by Bhima Rao. Sir John Malcolm described it as the strongest place he had seen in India. There is a famous Gavimath which runs a High School and a College. There are Asokan edicts also at Koppal. There is a Rural Artisan Training Institute imparting training in carpentry, smithy, tanning and leather stitching. Bhagyanagar is known for its handloom weaving and there is also a tanning centre for embroidery and tailoring.

Kuknoor (*Taluk: Yelburga*).—A roadside village about 9 miles from Yelburga is famous for Mahamayi Devi temple which is said to have been in existence since the days of Chandrahasa. "Lakshmisa" in his *Jaimini Bharat* describes this village as 'Kuntalapura'.

Kushtagi (*Taluk: Kushtagi*).—Is the headquarters of the taluk.

Lingsugur (*Taluk*: *Lingsugur*).—Is the taluk headquarters and was till 1905 the headquarters of Lingsugur District. The Mahaboob Bazar, 2 miles north of the town, was the site of a cantonment while the district was held by the British from 1853 to 1860.

Manvi (*Taluk: Manvi*).—Is the Taluk Headquarters, situated 90 miles north-east of the Tungabhadra Dam from which it derives a lot of benefit in irrigation. There is a famous temple of Sri Jagannathswami. There is an old fort, now in ruins and also there are several old inscriptions.

Maski (*Taluk: Lingsugur*).—Situated 17 miles away from Lingsugur, is a historical place. There is an edict of Asoka carved on a rock located on a closeby hillock, which reveals that empire of Asoka had extended even here. Here, black and red funeral pottery, polished stone implements, and chert flakes belonging to 1,000 B.C. or earlier have been unearthed. Thus this place has acquired considerable archaeological importance. It is also stated that gold ore is available nearby.

Mudgal (*Taluk*: *Lingsugur*).—Was formerly the headquarters of Lingsugur Taluk. It is a historical place with an old fort of considerable importance. The fort was the seat of the Yadava governors of Deogiri in 1250 A.D. It came successively into the possession of the Rajas of Warangal, the Bahmani and Bijapur kings before falling into the hands of Aurangzeb. There is an old Roman Catholic Church. The Moharum celebrations here attract a large crowd.

Munirabad (*Taluk: Koppal*).—It has assumed great importance due to the construction of the Tungabhadra dam here. A large extent of agricultural lands in Koppal, Gangavati, Sindhnur and Raichur taluks has already been brought under irrigation and there is considerable scope for further development. There is a sugar factory and there are proposals to start new factories to manufacture paper and pulp from agricultural residues such as sugarcane bagasse, and also sulphuric acid and superphosphate. It is a tourist centre.

Pura (*Taluk: Kushtagi*).—Is a village about 5 miles away from Tawargera and is famous for "kotilingas" where annually a big fair is held.

Raichur (*Taluk: Raichur*).—Is the District Headquarters and is a railway station on the Madras-Bombay railway line. According to an old inscription in the fort, it was built by Gore Gangayya Ruddivaru in 1294 A.D. A short distance from the west gate of the fort are the remains of an old palace, now used as a jail. Outside the eastern gate is a mosque having a single minaret 240 feet high and 30 feet in circumference, built in 1503 A.D. A good view of the surrounding country is obtained from the top of this minaret. The Jama masjid in the town was bulit in 1618 A.D. There are several cotton presses in the town and steps to establish a co-operative spinning mill are afoot. There is a college.

Sindhnur (*Taluk: Sindhnur*).—Is the Taluk Headquarters. It is a place of commercial importance particularly in cotton. Half a mile from the town is a stone mosque said to have been erected during Aurangzeb's reign.

Somlapur (*Taluk: Sindhnur*).—Situated 14 miles from Sindhnur is famous for the Amba Devi temple situated at the foot of a hill. Annually a big fair is held here.

Yelburga (*Taluk: Yelburga*).—Is the headquarters of the taluk.

PART II

CENSUS TABLES AND VILLAGE DIRECTORY

EXPLANATORY NOTE TO CENSUS TABLES

The information collected at the time of house-listing and enumeration for the 1961 census, has been extensively analysed and the data has been reduced to nine series of tables as follows :

(*i*) A Series	..	General Population tables
(*ii*) B(i) Series	..	General Economic tables
(*iii*) B(ii) Series	..	Household Economic tables
(*iv*) C Series	..	Social and Cultural tables
(*v*) D Series	..	Migration tables
(*vi*) E Series	..	Housing and Establishment tables.
(*vii*) S.C.T. Series		Special tables for the Scheduled Castes and Scheduled tribes.
(*viii*) S.C. Series	..	Special tables for the Scheduled Castes only.
(*ix*) S.T. Series	..	Special tables for the Scheduled tribes only.

2. The total number of tables found in all the above Series excluding D series is 55 and they are presented in the various volumes of the Mysore Census Tables. This information being voluminous, it has not been possible to incorporate it in toto in the District Census Handbook. However, some of this data which has been presented up to the District level in the state volumes has been reproduced here by further breaking it down to the taluk level. This has been possible in the case of rural areas only as the urban figures have been compiled for the District as a whole. The D series tables have not been presented in the District census hand book.

3. The material presented here excepting in E series of tables relates to the 1st of March 1961, which was the reference date for the 1961 Census. The information in E series tables refers to the August-September 1960 period.

4. Before giving brief notes on the tables in this part, so as to facilitate their study, it is necessary to know the concepts and definitions of some of the general terms used. Concepts and definitions of other particular terms will appear at the beginning of each series where those terms first appear.

5. For census purposes :

(*i*) A ' Census House ' is defined to be a structure or a part of a structure inhabited or vacant, or used for non-residential purposes such as place of business workshop, school, etc., having a separate entrance.

(*ii*) A ' Census Household ' is defined to be a group of persons who commonly live together in the same census house and who would take their meals from a common kitchen unless exigencies of work prevented any of them from doing so.

(*iii*) ' Houseless Persons ', as the name itself indicates are those persons who at the time of enumeration were not found residing in houses. Persons like pavement dwellers, beggers without any house to live in were grouped under the category of Houseless Persons.

(*iv*) 'Institutional Population': Hospitals, Boarding Homes, Hostels, Jails and such other agencies which provide boarding, lodging and similar facilities have been termed " Institutions". All people who were enumerated in these institutions are brought under Institutional Population.

(*v*) ' Literacy and Education ' : All persons who were able to read and understand, any simple letter in any language either in print or in manuscript and to write simple letter are considered ' Literate ' for census purposes. If any addition to being able to read and write, any person has passed an examination or examinations as proof of an educational level attained, the highest examination passed was recorded in the enumeration slip.

(*vi*) " Non-workers " are persons who do not work in the sense explained in para 5 (xii) *infra* and include

(*a*) a full time student or child attending school who does no other work, such as making articles at home for sale, nor even helps part-time in his own family cultivation, industry, trade or business ;

(*b*) a person solely engaged in unpaid home duties like housewives, etc. ;

(*c*) a dependant including an infant or child not attending school, a person permanently disabled from work because of illness or old age ;

(*d*) a retired person who is not employed again, renter, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work or who does no other work ;

(*e*) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence ;

(*f*) a convict in jail (an undertrial prisoner has been shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution ;

(*g*) a person who was not employed before but was seeking employment for the first time ;

(*h*) a person who was employed before but was out of employment at the time of enumeration and was then seeking employment.

(*vii*) " Occupied Residential House " is a dwelling house and also includes a house used partly as a dwelling and partly for some other purpose like shop, workshop, factory etc., but does not include a vacant residential house where no person was found to be residing at the time of the Census.

(*viii*) " Scheduled Castes " are such castes, races or tribes or parts of groups within such castes, races or tribes as are declared to be Scheduled castes, by the President's orders issued under article 341 of the Constitution of India.

(*ix*) " Scheduled tribes " are such tribes or tribal communities or parts of groups within such tribes or tribal communities as are declared to be scheduled tribes by the President's orders issued under article 342 of the Constitution of India.

(*x*) " *Town or an ' Urban Area '* ". For the first time in the 1961 Census, uniform and somewhat rigid tests were sought to be applied throughout the country for an area to be recognised as an urban unit. The criteria prescribed are :

(A) All Municipalities, Cantonments, notified areas and other places enjoying recognised local administration like Civil lines have been treated automatically as towns.

(B) For other areas, the eligibility yardsticks applied are :

(*a*) a population of not less than 5,000,

(*b*) a density of not less than 1,000 persons per square mile and

(*c*) at least three fourths of the adult male population should be employed in pursuits other than agriculture.

The Superintendents of Census Operations were empowered to treat as towns any other places, which while not fulfilling any of the above conditions, possessed pronounced urban characterstics and amenities.

(*xi*) A " Town Group " covers an area which actually forms one demographic unit though it may be administered by more than one civic body and has been treated as a single unit for presenting the census statistics on account of demographic, economic, industrial or geographical unity.

(*xii*) " Worker " ; A person who is gainfully employed in any economic or social activity is taken as a worker. But he has to satisfy a minimum criterion if he is to be called a " Worker " for census purposes. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the person's enumeration. However, a person who is working, but was absent from the work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes was treated as " worker ". The basis of work in the seasonal occupations such as cultivation, livestock, dairying, Household industry, etc., is that the person should have had some regular work of more than an hour a day, throughout the greater part of the working season. " Work " includes in either case, not only actual work but effective supervision and direction of work. Persons under training as apprentices with or without stipend or wages have been regarded as working. A public or social worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party has been regarded as working.

(*xiii*) A " Village " has been defined as the area included within the jurisdiction of a revenue village and as such is inclusive of even scattered hamlets and isolated home-steads coming within the boundaries of a revenue village.

A Series

GENERAL POPULATION TABLES

6. In this series, there are four tables with three appendices. They comprise the basic population tables being useful in the study of the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the District.

Table A-I

7. This table presents area, density of population, number of inhabited and uninhabited villages, number of towns, number of occupied residential houses, sex-wise population totals, etc., for the rural and urban areas separately.

Appendix I

8. This indicates the territorial changes which have taken place during the decade 1951-1961.

Appendix II

9. This shows the number of villages which have not been treated as towns inspite of a population of 5,000 or over and the number of towns which have been classed as towns inspite of a population of less than 5,000. Columns (4) and (7) show the percentage of population of such areas to the respective rural or urban population of the state.

Appendix III

10. This gives the houseless and institutional population in the rural and urban areas separately. The houseless persons were enumerated on the night of 28th February 1961.

Table A-II

11. This table presents the variation in the population of the District and the Taluk from 1901 for each decade. The figures for the earlier censuses have been adjusted to the boundaries of the District and the Taluks as obtained in 1961.

Table A-III

12. This table pertaining to rural areas only gives for the district and each Taluk the distribution of villages classified by the following six population size groups, *viz.*, (*i*) less than 200, (*ii*) 200-499, (*iii*) 500-999, (*iv*) 1,000-1,999, (*v*) 2,000-4,999, (*vi*) 5,000-9,999. All places with a population of 10,000 or more have come under towns.

Table A-IV

13. Like the villages in table A-III towns have been classified here into six categories according to the population as follows :

(*i*) Class I	..	Population of 100,000 and over
(*ii*) Class II	..	Population of 50,000—99,999
(*iii*) Class III	..	Population of 20,000—49,999
(*iv*) Class IV	..	Population of 10,000—19,999
(*v*) Class V	..	Population of 5,000—9,999
(*vi*) Class VI	..	Population less than 5,000

14. Town groups have been treated as a single town in obtaining the class totals. The class totals give the total population of the towns/town-groups in that class in that census, The population of such of the places as are treated as towns in one or more of the earlier censuses but are treated as rural for the 1961 census has also been taken into account when obtaining the class totals, even though such places are not brought in the body of the table. This table dealing exclusively with urban areas gives a true picture of the urbanisation in the District.

PRIMARY CENSUS ABSTRACT

15. This table, as the name itself denotes, provides an abstract of primary information relating to the census, covering a wide range of data such as the area, number of houses and households, sex-wise totals of population, population of Scheduled castes and Scheduled tribes, number of literates, number of workers and non-workers, workers being further classified under nine categories of economic activity. The information given here is for the District and Taluks each for total, rural and urban areas separately. Details for each village and town are presented elsewhere.

16. The workers are classified in the following nine categories of economic activity

I. As Cultivator
II. As Agricultural Labourer
III. In mining, quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and allied activities.
IV. At Household industry
V. In manufacturing other than Household Industry.
VI. In construction

VII. In Trade and Commerce
VIII. In Transport, storage and Communications
IX. In other services.

Category I

17. "A Cultivator" is a person who is engaged either as employer, single worker or family worker in (*a*) cultivation of land or supervision or direction of cultivation of land owned or held from Government or (*b*) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Category II

18. "An Agricultural Labourers" is a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation.

Category III

19. Workers engaged in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities.

Category IV

20. A "Household Industry" is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory

21. Household Industries relate to production, processing, servicing, repairing or making and selling of goods. They do not cover such professions as Pleader, Doctor, Barber, Washerman or Astrologer, etc. All persons engaged in household industries have been brought under this category.

Category V

22. Workers in "manufacturing other than household Industry" are persons who are working as Employers, Employees, single workers or family workers in activities connected with the production, processing, servicing or repairing of goods in factories, workshops or other similar establishments, which do not qualify to be included under Household industries as defined in the previous paragraph have been brought under this category.

Category VI

23. Workers in Construction : Persons who are engaged in Construction, maintenance, upkeep, repairs and similar occupations of buildings, roads, bridges, dams, Canals and construction of electrical, water supply and sanitary installations, etc., are brought under this category.

Category VII

24. Workers in Trade and Commerce : Persons engaged in wholesale or retail trade in goods, or dealing with Insurance, Stocks, Shares or employed in Banking and Financial Institutions have been classified as workers in trade and commerce.

Category VIII

25. Workers in Transport, storage and communication activities : Persons employed in Railway, Road Transport, Post and Telegraph and other agencies have been brought under this category.

Category IX

26. Workers in "Other services". This is the last category of workers which comprises employees of Central and State Governments, local bodies, Quasi-governmental bodies and those engaged in educational and scientific services, medical and health services, Religious and welfare services, legal services, business services, community services and trade and labour associations, Recreation services, personal services, and other miscellaneous activities not covered by any of the categories listed above.

B SERIES

(*i*) *GENERAL ECONOMIC TABLES*

27. These tables give the distribution of population by economic activity correllated with sex, age and educational levels. Based on Economic activity the entire population is first classified into two broad groups, *viz.*, workers and non-workers and the workers are then classified in nine broad categories of economic activity. An elaborate classification by industry under the standard industrial classification scheme is presented in tables B-IV A, B and C and by occupation under the National Occupational Classification in table B-V. Classification of workers by secondary work is also presented in tables B-VII A and B-VII B.

28. The 1951 Census reports were prepared on the concept of dependency by first classifying the population into eight livelihood classes and then by further dividing each class with reference to economic status into (*i*) self supporting persons, (*ii*) earning dependents and (*iii*) non-earning dependents.

But now this concept has been abandoned and instead the population is classified into workers and non-workers, the emphasis being on work and not on income or economic dependence. These two terms, *viz.*, workers and non-workers, have been defined in paras 5 (*xii*) and 5 (*vi*) respectively.

29. Classification of workers doing two or more different types of work has been done on the basis of this principal work that is, the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

Table B-I and B-II

30. This combined table gives the composition of workers in the nine industrial categories and non-workers by four broad age groups and also according to sex. The material is presented for the District, Taluks and towns.

Table B-III

31. This table is presented in two parts, B-III A and B-III B, the former presenting the data for the urban areas of the District as a whole and the latter for the rural areas of each Taluk. These tables give the distribution of workers in 9 industrial categories and non-workers by educational levels, the educational levels being presented in an abridged form when dealing with rural areas.

Industrial classification

32. Before we proceed further, it is quite necessary to know the implications of certain terms and codes used in describing each group of industry in the tables.

33. In these tables, the economic activity of workers other than cultivators, and Agricultural labourers has been coded according to the pattern available in the Standard Industrial Classification issued by the Ministry of Labour and Employment, Government of India. According to this classification all economic activities have been grouped under 9 divisions which are divided into 45 major groups and further subdivided into 343 minor groups. The actual description of the divisions, the major groups and the minor groups of the industrial classification is given in annexure A. The minor groups refer to the industry of the workers which signifies that sector of the economic activity in which the worker is engaged, such as textile industry, automobile industry, etc.

The term " industry " should not be confused with the word " occupation ". The latter describes the exact function that an individual performs within the industry such as fitter in automobile workshop, clerk in the Railway Department, etc.

34. An " Employer " is a person who has to employ other persons in order to perform his work 'that is, he is not only responsible for his own personal work but also for giving work to others in his industry. But a person who employs domestic servant solely for household duties is not an employer. So also a person who has subordinates under him in his office where he is employed by others, is not an employer, even if he has the power to employ others in his office on behalf of his own employers.

35. An " Employee " is a person who usually works under some other person for salary or wages in cash or kind.

36. A " single worker " is a person who works by himself but not as Head of Household in a Household Industry. He is not employed by anyone else and in his turn does not employ anybody else not even members of his household except casually. This difinition of a single worker also includes a person who works in joint partnership with one or several persons hiring no employees and also a member of a producers' co-operative. Each one of the partners or members of such co-operatives has been deemed to be a single worker.

37. A " family worker " is a member who works without receiving wages in cash or kind in an industry, business or trade conducted mainly by the members of the family and ordinarily does at least one hour of work every day during the working season.

Table B-IV

38. Table B IV is presented in three parts. Part A relates to workers engaged in Household Industries, Part B relates to workers engaged in non-household industry, trade, business, profession or service and part C is the combination of the earlier two parts giving the total number of workers engaged in household as well as non-household industry, trade, business, profession or service. While Part A and B deal with the employment status of workers by major groups of standard Industrial classification (Annexure A) Part C deals with the total number of workers by minor groups of standard industrial classification (Annexure A). It is worth noting that in all these three parts, cultivators and Agricultural labourers are not included.

39. Tables B-V and B-VI show the distribution of workers by occupation (*vide* para 33 above) according to the National Occupational Classification scheme which is reproduced as Annexure B to this note.

Table B-V

40. In this table the occupational classification of workers in each of the categories III to IX has been presented. For the District as a whole and for the urban areas of the District, the information is given for all the occupational families and for rural areas which are presented at the District and Taluk levels, the figures are given for each occupational Division only.

Table B-VI

41. This table, restricted to urban areas only, gives the distribution of workers by occupational Divisions and Broad age groups.

Table B-VII

42. This table is presented in two parts. Part A deals with persons working principally (i) as cultivators, (ii) as agricultural labourers or (iii) at Household industry classified by sex and with secondary work, (i) at Household industry, (ii) as cultivators and (iii) as agricultural labourers. Part B gives the classification of persons working principally in non-household industry, trade, business, profession or service and secondarily in household industry. In the case of a worker engaged in two or more kinds of work, the one which consumes larger portion of his time (not necessarily earning a larger portion of his income) is treated as his principal work, and another consuming second larger portion of his time is shown as his secondary work. As in many of the earlier tables, the figures for the rural areas are presented for each Taluk and each Industrial Division while those given at the District level are presented separately for rural and urban areas, and also for the District as a whole, for each Industrial Division and major group.

Table B-VIII

43. This table is presented in two parts. Part A deals with urban areas and Part B with rural areas. Part A which gives figures for all the urban areas of the District gives the classification of the unemployed aged 15 and over by broad age groups and educational levels. Part B which presents information at the District and Taluk levels gives the classification of the unemployed aged 15 or over, by educational levels (in an abridged form).

Table B-IX

44. This table deals with the distribution of non-workers by broad age groups and the eight types of activity mentioned in sub-para (vi) of para 5 above. At the District level, figures are given for the whole District under total separately for Rural and also urban areas. At the Taluk level the figures are given for rural areas only.

(*ii*) *HOUSEHOLD ECONOMIC TABLES*

45. The tables presented in this series, have been prepared from a twenty per cent sample of Households. Unlike the Economic tables BI to B IX the information contained in this series has been compiled with the household and not the individual as the unit.

Table B-X

46. This table presents distribution of sample households under the following heads :

(i) Households engaged neither in cultivation nor in household industry.

(ii) Households engaged in cultivation only.

(iii) Households engaged in Household industry only and

(iv) Households engaged both in cultivation and Household industry.

In this table also at the District level, figures are given for the whole District under total, separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

Table B-XI

47. This presents the distribution of sample Households, engaged in cultivation classified by size of land and interest in land cultivated. The interests in land have been exhibited under the following three broad categories :

(i) Entirely owned or held from Government.

(ii) Entirely held from private persons or institutions for payment in money, kind or share.

(iii) Partly held from Government and partly from private persons for payment in money, kind or share.

For urban areas the material is presented up to the District level and for rural areas up to the District and Taluk levels.

Table B-XII

48. This is prepared in respect of sample households engaged in cultivation only. The size of land held by the households is cross-tabulated against the number of hired and family workers. The material is presented for the District for total, rural, and urban areas separately and only for the rural areas of each Taluk.

Table B-XIII

49. This table has been prepared in respect of sample households engaged both in cultivation and Household industry. The details of the Household Industry have been presented by the Divisions and major groups of the Standard Industrial Classification (Annexure A). The material is presented in this table for rural and urban areas of the District separately.

Table B-XIV

50. This table presented in two parts, deals with the sample households engaged in Household Industries only. In Part A, tabulation of households classified by major groups (Annexure A) of principal household Industries and the number of persons engaged is made and Part B gives the number of Households engaged in Household Industry classified by minor groups (Annexure C) of principal Household Industry. The information is given for the district as a whole.

Table B-XV

51. This table shows the distribution of sample households engaged both in cultivation and Household Industry calssified by size of land, number of family workers and hired workers engaged in these activities. As usual, the District figures presented here are for total, rural and urban areas separeatly, while the Taluk figures relate to rural areas only.

Table B-XVI

52. This table deals with sample Households engaged in Household Industry. The principal industry conducted by the Household by division and major group (Annexure A) has been tabulated against the period of working and the total number of workers engaged in the household industry. This is up to the District level only.

Table B-XVII

53. In this table the sample households have been classified by size and participation of the members of the household in household cultivation or industry. In the case of households engaged in cultivation, the size of land under cultivation has also been tabulated against the size of sample households.

C Series

SOCIAL AND CULTURAL TABLES

54. These tables deal with social or cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Caste and Scheduled Tribes. Table C-I has been prepared from a 20 per cent sample of households and as such relates to households. The other tables in this series are prepared on a cent per cent check and they relate to individuals and not households.

Table C-I

55. This table gives the family composition of households and has been presented at the District level only.

Table C-II

56. This table presents distribution of population by age, sex and marital status. Classification of age between 10 and 70 years is by five year age groups. The entire population in 0-9 years age group has been treated as never married. At the District level, figures are given for the District under total, separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

Table C-III

57. This table presented in three parts, gives a picture of literacy in the total population as well as in the different age groups. Part A which is presented for the total population of the District and Part C which is presented for the rural population of the District and Taluks have only 4 educational levels. Part B which relates to urban population of the District, however, has 14 educational levels.

Table C-V

58. This table is on mother tongue. At the District level figures are given for the whole District under Total separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

Table C-VII

59. This table presents distributions of population by Religion. At the District level figures are given for the whole District under total separately for Rural and also

Urban areas. At the Taluk level the figures are given for rural areas only.

Table C-VIII

60. This table is presented in 2 parts. Part A gives the total population of Scheduled Castes classified by literacy and by economic activity. Part B gives similar information in respect of Scheduled Tribes. At the District level figures are given for the District under total separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

Special Tables for Scheduled Castes and Scheduled Tribes.

SCT.—Series

SPECIAL TABLES FOR SCHEDULED CASTES AND TRIBES

61. These special tables have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each scheduled caste and Scheduled tribe separately. Classification by caste and Tribes is on the basis of returns recorded in response to the questions in the census questionaire at the time of enumeration. Table SCT. V has been prepared for the households of Scheduled castes and Scheduled tribes occuring in the 20 per cent sample drawn for preparing the Household Economic tables (B series).

Table SCT-I

62. This table consists of two parts. Part A which relates to Scheduled castes gives the distribution of persons belonging to each of the Scheduled castes according to their economic activity. It also gives the number of workers engaged in special occupations such as tanning and currying of hides and skins, scavenging, etc. Part B gives similar information for the Scheduled tribes but does not include information on special occupations. This table is prepared separately for the urban and rural areas.

Table SCT-II

63. This table presented in two parts—Part A for Scheduled castes and Part B for Scheduled tribes—gives the marital status under three broad Age groups. This is presented for the District as a whole.

Table SCT-III

64. This table is presented in two parts, each part having in turn two sub parts. Parts A(i) and B(i) give the figures on the educational levels of persons belonging to each of the Schedule castes in the urban and rural areas respectively. Similar information for the Scheduled tribes is presented in tables A (ii) and B (ii). The classification by educational levels is somewhat reduced in the case of rural areas.

Table SCT-IV

65. This table presented in two Parts-Part A for Scheduled castes and Part B for Scheduled tribes-gives the classification of persons according to religion.

Table SCT-V

66. This table prepared from the Scheduled castes and Scheduled tribe households found in the 20 per cent sample is in two Parts. Part A relates to Scheduled Castes and Part B to Scheduled tribes. This table gives the formation regarding the sampled households engaged in cultivation classified by the interest in land and size of the land cultivated. This table has been prepared for the rural areas of the District only.

Table SC-I

67. In this table the total non-working population of all the Scheduled castes as a group is distributed among the following four groups based on the activity :

(i) Full time Students.

(ii) Persons seeking employment for the first time.

(iii) Persons employed before but now out of employment and seeking work ; and

(iv) Others.

Each group is further classified by educational levels. At the District level the figures are given for the District under total separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

ST. SERIES—Special tabler for Scheduled Tribes only.

68. There are two tabler in this series. At the District level figure are given only for total. At the Taluk level the figures are given for Rural Areas only.

Table ST-I

69. This table presents the distribution of population of each Scheduled tribe by mother tongue and the subsidiary languages spoken.

Table ST-II

70. In this table, the total non-working population of each Scheduled tribe has been distributed among the following four groups, based on activity :

(i) Full-time students;

(ii) Persons seeking employment for the first time;

(iii) Persons employed before but now out of employment and seeking work; and

(iv) Others.

E.—Series

HOUSING TABLES

71. There are five tables in this series, compiled from the information recorded in the Houselists prepared in 1960. Tables E-I and E-III have been done on full count and the other three tables namely E-II, E-IV and E-V have been for a systematic sample containing 20 per cent of the households.

Table E-I

72. This table presents the distribution of houses classified by uses to which they are put to in the rural and urban areas of the District and Taluk separately. (The figures for towns with a population of 50,000 and over have also been presented separately under the taluk concerned).

Table E-II

73. This table presents the distribution of sample Households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. Thus only houses over which the occupant has got full and absolute rights of ownership, disposal either as an individual or as a coparcener, have been treated as owned houses. All other houses have been treated as rented. The houses occupied under each tenure are further classified by the nature of uses. Tenure of occupation of non-residential houses such as schools, hospitals etc., is not shown.

Table E-III

74. In this important table, all industrial activities coming under workshops and factories have been shown, giving details of the products manufactured or serviced, Kind of fuel or power used, number of persons employed etc. This table is presented for the District only, giving the figures separately for Rural and Urban areas and also for towns with a population of 50,000 or more. The industrial activity is classified by Division, Major Group and Minor Group as per I.S.I.C.

Table E-IV

75. This table presents distribution of sample houses used wholly or partly as dwellings by material of wall and material of roof. The material of the wall is the material out of which most of the walls of the house are constructed. Similarly the material of roof is one of which most of the roof exposed to weather is constructed. The figures presented here relate to rural and urban areas of the district and Taluk separately and also for towns with a population of 50,000 and more.

Table E-V

76. This table compiled on a 20 per cent Sample Count gives an idea of the degree of congestion in households and rooms. A "room" has four walls with a door and a roof overhead and is not less than 6'X6' unenclosed verandah, Kitchen, store, garage, cattleshed, etc., though used for residential purposes are not treated as rooms.

B-IV. PART C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS OF PERSONS AT WORK OTHER THAN CULTIVATION

NOTE:—Minor groups having less than 1% of workers of the respective divisions (Less than 0·5% in case of divisions 2 & 3) have not been shown in the Table. The divisions thus affected are marked with an asterisk (*). Such minor groups are shown run on in Appendix to this Table. It may be further noted that lines with nil entries have been omitted from this Table.

APPENDIX TO TABLE B-IV—PART C

Minor groups having less than 1% of workers of the respective divisions (less than 0·5% in case of Minor Groups of Divisions 2 and 3 only) have been shown in this Appendix. The following abbreviations have been used:

'HI' for Household Industry, 'NHI' for Non-Household Industry, 'M' for Males and 'F' for Females.

B–V. OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

Note—Occupational Families having less than 1 per cent. of workers in the respective Occupational Division in the case of Divisions other than 7 and 8, and less than 0·5 per cent. in the case of Divisions 7 and 8 are not exhibited in this Table. Figures for such Families have been shown in run-on lines in the Appendix to this Table. Divisions thus affected are marked with an asterisk (*).

VILLAGE DIRECTORY

VILLAGE DIRECTORY

Explanatory Note

The Village Directory prepared Talukwise, for the whole District besides giving the population figures recorded in the 1961 Census for each village and place treated as a town, incorporates much other useful information like the area, number of occupied houses, number of households, break up of the population by sex, scheduled castes, scheduled tribes, literacy, workers in the 9 categories, non-workers, etc. In Column 2, the amenities found in each village have also been indicated by using abbreviations.

2. Expressions like 'Village,' 'Town', 'Literate', 'Scheduled Caste', 'Scheduled Tribe', 'Worker' and 'Non-Worker', etc., have been defined and a detailed description of the industrial categories, given in the explanatory note to the census tables, particularly paras 5 and 19–29 of that note.

3. The figures for towns are presented below the rural areas of the Taluk concerned, the information being given blockwise. The blocks are grouped by Municipal Wards or Divisions wherever possible.

4. The villages are presented in the order in which location code numbers were assigned to them for the 1961 Census. However, to facilitate easy location of the villages, an alphabetically arranged list of villages giving the location code number is given before the Village Directory for each Taluk. Villagewise list of industrial establishments for each Taluk is also presented with the abstract for the District at the end of this Section.

5. In the Taluk Map, the villages are denoted by their 1961 Census location code numbers. The map is also divided into convenient squares—such as A–1, B–1, A–2, B–2, etc., and the location of any village can be traced in the map, by reference to the alphabetical index to the villages, wherein its location code number and the particular square in which it lies in the map have also been indicated.

6. Information regarding the amenities in each village and the area of each village has been obtained from the Revenue authorities.

The following abbreviations have been used in the Village Directory:—

In Column Headings:

P for Persons which means the total of males and females

M for Males

F for Females

I Working as Cultivator

II Working as Agricultural Labourer

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities

CULTURAL HERITAGE OF KARNATAKA

CULTURAL HERITAGE OF KARNATAKA

KARNATAKA has had a long and glorious past. Its antiquity is traced even to the Vedas and other scriptures. A Kannada alphabet has been read even into the pictographic representations of Mohenjodaro. The excavations at Chandravalli, Maski, Brahmagiri, Konnur and several other places have proved that Karnataka is rich in prehistory of thousands of years having attained a high status even then. Being an integral part of India, Karnataka has contributed to the moving pageant of Indian culture as a whole, and, as such it has a significant place in the annals of India, both historical and cultural. So a peep into the cultural heritage of Karnataka is worth taking. However, it should never be imagined that the culture of Karnataka is in any way distinct from that of the other parts of India. It only forms a part of it and contributes towards the richness of the Indian culture as a whole.

The scope of the survey now undertaken being limited, it is not possible to fully touch upon all the ancient glories of this land. However, an attempt has been made to take a broad survey in the fields of Religion and Philosophy; Art, Architecture and Music; Painting and allied arts, Literature and Journalism.

By no stretch of imagination can this attempt claim to have any originality as the material has been collected from the works of several scholars and research workers. The only idea of presenting this with the Census Report is to keep the common man apprised of his and his country's heritage and also to give him a stimulus to engage himself in the field of research and study of the unexplored sources of the cultural and historical background.

1. Religion and Philosophy

Karnataka is predominantly a land of Religion and Philosophy. Its religious history is varied, the remarkable feature being that from even prechristian era, the doors of Karnataka have been kept open not only to all the great religions of India but also other parts of the world, besides the religions which sprang up on its own soil.

When the Aryans came to settle down in South India, they followed the Vedic religion of sacrifice, modified by the later school of devotion to God Siva or Vishnu. Side by side, the Dravidian form of worship of the Cobra, Spirits and trees were also prevalent. The worship of 'Shakti' in the form of several female deities with their animal sacrifices also appears to have been prevalent then.

Under the above conditions Jainism and Buddhism with the gospel of 'Ahimsa' came to Karnataka. Of the two, Jainism appears to have been the first to come (some scholars hold the view that Buddhism was the first to come) with the Mauryan Emperor Chandragupta and his spiritual guide Bhadra Bahu in about 300 B.C. and it has lasted longer. Jainism spread from its spiritual centres at Sravan Belagola, Karkala, Koppala, etc. Its principles of Ahimsa and of spiritual self-reliance had a special appeal.

Buddhism had its influence during the days of King Ashoka when it secured a large number of converts mostly in Banavasi and round about areas. But Jainism had already struck deep roots and so it could not be supplanted by a religion which to the common man, was not very much different.

The rise of Shankaracharya in the 8th century was a good augury for Brahminism and Vedic culture. He established 4 principal Mutts, perhaps the earliest and most famous being the Matha of Sringeri. The philosophy propounded by Shankara is styled as Advaita, the philosophy of absolute Monism. By him interpretation of Brahman Shankara opposed the 'Negative void' doctrine of heterodox philosopher.

Second of the triad of "three great Acharyas" was Ramanujacharya (11th century) who though hailing from Tamil Nad spent his years of enlightenment in Karnataka. His system goes by the name of Visishtadvaita or qualified Monism. The doctrine of Ramanuja gave great prominence to the Bhakti cult.

The third Acharya was Madhwa born in 1238 near Udipi. He taught the Dvaita doctrine, the doctrine characterised by unqualified dualism and devotion to Vishnu. He founded eight pontifical seats at Udipi for the worship of Krishna, whose temple also he erected.

About the middle of the 12th century a great revolution took place in North Karnataka when Basava of Bagewadi revived the Veerasaiva faith. Though

Basava is considered to be the main founder of this faith by some, some believe that Ekanta Ramayya was the founder. Some others believe the pancha-charyas, *viz.*, Ekorama, Panditaradhya, Revana and Marula and Vishvaradhya founded this system. Doing away with the sacredotal side of religion, Basava, reduced it to simple rules of conduct. The religious climate of those days was surcharged with devotion and mysticism. He gave stimulus to the school of devotion to Shiva and built up the Veerasaiva institution of Anubhava Mantapa in Kalyana, the capital of King Bijjala of the Kalachurya house.

Like the Veerasaiva mysticism, the 'Dasakuta' established by Naraharithirtha and Shripadaraya and which held sway for about 200 years, is indigenous to the soil of Karnataka. The famous Dasas like Purandharadasa and Kanakadasa spread the message of Dasakuta, which is based on the impermanence of this worldly existence, devotion and complete dedication to Vishnu, and sound moral principles in human dealings. Both these schools of mysticism though employing different modes, have preached the same principles of ethics through the path of devotion or 'Bhakti'.

Islam was introduced into Karnataka in the 14th century, though it had entered the western coast earlier. In South India, it was only in Karnataka that this religion had first taken some root and flourished.

Christianity started to exert its real influence from 17th century onwards, gathering a momentum in 19th century, even though the earliest Christian settlement appears to have been at Kalyanpur near Udipi, where it is said a Christian Bishop used to reside much earlier.

This brief survey shows that Karnataka has been either the birth place or a nursery for several faiths. All the faiths of Karnataka had their royal patronage from time to time. But there is ample evidence to show that wide and sympathetic toleration for the various faiths was the general characteristic of all times. Even to this day, there are several shrines worshipped both by Hindus and Muslims, *e.g.*, Yamanur in Dharwar District and Baba Budangiri in Chikmagalur.

2. Art, Architecture and Engineering

Karnataka has created a unique position for itself in the field of art and architecture. The aesthetic traditions and culture of Historical Karnataka have been brilliant. Their love of the beautiful has found expression in many forms of art. One peculiarity of the art of Kannadigas has been that generally it has been made to subserve the highest ends of life, as found in their philosophy and religion.

Considering architecture and sculpture, Karnataka has made a great contribution not only to Indian art but to the art of the world. Its styles of architecture and sculpture have been original and also present a variety. As historically Karnataka was ruled both by Hindu and Muslim dynasties, we find architecture of both the styles. Geographically too, Karnataka is situated between the Northern and extreme Southern parts of India. If we find in the North, Indo-Aryan style of architecture, in the South we have the Dravidian school of architecture. Karnataka has imbibed the best of these two styles of architecture and has introduced an architectural style of its own.

The Karnataka architecture can be divided into the following groups, *i.e.*, Kadamba, Chalukya, Hoysala Vijayanagara, Buddhist, Ganga and Mahommedan respectively. Though in the very early period there might have been a few temples like that of Banavasi, it appears that the architecture of Karnataka really began with the Buddhist Chaityas, Viharas and rock-cut caves of the Asokan and Satavahana periods followed by the Shiva and Vishnu temples during the early Kadamba and Chalukya periods. Jaina architecture spread during the reign of Kadamba and Ganga kings. But the highest originality and grandeur of Karnataka architecture was manifested during the Chalukyan and Hoysala periods between the 8th and 13th century. During the reign of Vijayanagara kings, there was further augmentation of the traditions influenced by the Dravidian art. Mahommedan architectures mainly consisting of mosques and tombs, Gulbarga, Bijapur and Bidar, have a style of their own. It is impossible in architecture in general and particularly in Indian architecture to strictly define each group of architecture, correct to the letter. This is due to imperceptible fusion or intermixture of different styles of Indian architecture and also different methods of classification and nomenclature adopted at different times. Karnataka architecture too is not an exception to this rule. In fact Hoysala style is an evolution of the Nagar, Kadamba and Chalukya styles, while still remaining distinct.

The Kadamba style.—Kadambas had constructed a number of temples in their capital at Banavasi in North Kanara District and also at Halsi in Belgaum District. Kadambas were the first to introduce two different parts, *viz.*, Garbhagudi and Sukanasi as till then there used to be only one hall for the temple.

The Saiva temple at Talgunda, the temples at Kadoli, Hattikesvara temple at Halsi where we find Kadamba's, innovation of perforated screens or pierced window on either side of the main door, the Kallesvara temple and the famous Kamalanarayana temple at Degamve are fine examples of Kadamba architecture. In the Varahanarasimha temple of Halsi, they introduced four panels each crowned by a Kirtimukha. At Yalwatti, we can see the Kadamba style tower of the temple. The image of Lakshminarayan at Halsi is elegant in carving and majestic in pose. The images of this period are both in dynamic and static poses *e.g.*, the image of Durga in Sorab Taluk and dancing girls sculptured in Degamve temple.

The Chalukya style.—Here we notice a lot of influence of the Dravidian style. The temple consists of five parts called Vimana which includes both the Garbhagudi and Sukanasi, Mukhamantapa, Gopura on the Mahadwara, Hajara and Dwaramantapa. Built of granite (kaggallu) the ground plan is generally four cornered, though some temples with more corners are also to be found. The top structure above the Vimana has a close resemblance to a Buddhist stupa. However, the chief distinguishing feature is that prominence is given to the tower on the main gate rather than tower on the main shrine. Chalukyan architecture is a perfect blending of the two then prevalent schools of architecture, *viz.*, the northern Indo-Aryan or Vaishnava style and the Southern Dravidian or Saiva style. The characteristic feature of the Dravidian style is the existence of more than one storey with an horizontal arrangement in the tower whereas the tower of the northern temple has a perpendicular arrangement with the towers getting smaller with the increase in height. The Chalukyan artists followed the Dravidian style in the matter of general outlines, adding to the number of storeys and reducing the size of each higher storey but they adopted the radial symmetry of the tower from the northern style. To this fusion of the northern and southern styles they added a variety of ornamental details. In fact it is difficult to find any part that is not decorated.

Aihole, with about 70 temples, Pattadkal with about 10 temples (one of them being Jaina) and Badami with the fine cave temples are the very important places where we can see this style of architecture. They are all in Bijapur District. Other notable places in the State are Lakkundi, Haveri, Niralgi, Galagnath, Hanagal, Bankapur, Kundgol, Laxmeshwar, Tilawalli, Anavatti, Itgi, Kuravatti, Gadag, Dambal, Unakal all in Dharwar District.

The caves at Ajanta and Badami and the temples at Pattadkal and Aihole form the main structures of the period. The caves at Badami, the Kameswara cave at Ellora, the facade and the capitals of the pillars in Cave I and XXIV at Ajanta, the Durga and Virupaksha temple at Aihole contain marvellous specimens of sculpture. Special mention has to be made of the marvellous cave temple of Kailas at Ellora. It was the work of Rashtrakuta king Krishna.

The Hoysala style.—This is richly represented by the temples of Belur, Halebidu and Somanathapura. They are the most exquisite specimens of he epic grandeur, variety and massiveness of Karnataka architecture more so because of the fine blending of architecture and sculpture. They immortalise in stone, religion, history and contemporary life in the form of dance, dress, manners, etc. Fergusson has compared the Hoysalesvara and Kedareswara temples of Halebidu with the Parthenon of Athens.

The Hoysala architecture is free from Dravidian influence to a large extent and so it is the most original contribution of Karnataka to Indian architecture and sculpture. The chief distinguishing feature of this style is that unlike the Kadamba and Chalukyan temples, the temples are star shaped. Then in Hoysala temples we have a conglomeration of shrines in the same temple. Again no two pillars of the Hoysala temple are similar to each other. The five parts of a Hoysala temple are Vimana, Navaranga, Mukhamantapa, Dwaramantapa, and Sabhamantapa. But unlike the Chalukyan temples, the Gopura is on the main shrine.

The Hoysala sculpture is known for its Bhuwaneshwaris, Madankai or Bracket figures, the Dwarapalas, the images of the shrines and the figures on the walls The Hoysala images are generally static in pose.

The temples are constructed of chloritic schist.

The Vijayanagar style.—The ancient city of Vijayanagara, once the capital of a fabulous kingdom has now fallen into obscurity. In spite of the desolation, every building, temple, palace has its own story of grandeur and also sorrow. The Virupaksha or Pampapathi temple with its unique seven storeys Gopura is a marvellous piece of engineering. The Gopura which is a hollow pyramid, 120 feet high has a staircase within its thick walls.

The incomplete and unconsecrated Vithala temple has inside its courtyard, a stone 'Rath' or the vehicle of God. On either side of the courtyard stand two

Mantapas which are exquisite for their fine design and workmanship. But the wonder of the ruins is the great Mantapa in front of the shrine. The roof of this Mantapa is supported by huge granite ornamented slabs consisting of a central slab surrounded by detached shafts and each of these shafts emits a separate note when struck.

The King's balance, a huge stone trough measuring nearly 42 feet in length and three feet square hollowed to the thickness of 5 inches, the Hazararama temple, the Narasimha Monolith about 22 feet high are but a few examples of the Vijayanagara architecture and sculpture.

It is doubtful if there could have been any equals to the sculpture of Vijayanagara craftsmen in providing variety and for their caricaturistic touch pregnant with realism, vitality and power.

The social history of this age has been unravelled in stone at Srisailam, Mudabidri and Bhatkal besides at Hampi.

The Lotus Mahal which combines Hindu style roof and cornices with Mahommedan style arches, shows the influence of the latter style on the constructional works during this period.

The Ganga style.—The contribution of Jainism to the art of Karnataka is chiefly noteworthy in the field of iconography. The chief achievement in this respect is found in the three well-known colossi of Karnataka, *viz.*, the statues of Gommateswara or Bahubali at Shravanbelgola, Karkala and Venoor which are 56½ feet, 41 feet and 35 feet respectively. The statues are carved from Granite Tor. The colossal images, standing under an open sky are symbols of peace in stone, of the triumph of human personality over sorrow and strife. Whereas at Sravana Belagola and Venoor, we discern a smile on those wonderful lips of the statues, at Karkala we find a complete absorption in meditation.

The Jain buildings consist mainly of Bettas, Basadis, and monasteries. Other contributions of this period are the "Thousand pillar Basti" of Mudabidri, the "Free standing pillar" or the Manastamba, rock-cut caves as in Ellora. The Ellora caves cut in the reign of Rashtrakuta King Krishna I can be claimed as a contribution of Karnataka architecture. The Jain temples at Mudabidri have a peculiar feature of their own being characterised by its sloping roofs of flat overlapping slabs.

The Mahommedan architecture.—The various mosques and tombs at Gulbarga, Golkonda and Bijapur have attracted the attention of several tourists. Most of these buildings are devoid of sculpture but are specimens of great technical and engineering skill. The 'Golgumbaz' of Bijapur is one of the most remarkable buildings in the world. It is a huge square building surmounted by an immense dome forming wonderful whispering gallery and measuring 198 feet outside and 175 feet inside.

If Golgumbaz is remarkable for its size and simplicity, Ibrahim Roza at the other end of Bijapur is so for its lightness and ornament. Other historical buildings in the city are the picturesque 'Sat Mazli', 'Jod Gumat', 'Jummamasjid' and several other monuments. The building art at Bijapur is structurally the most competent phase of architecture in the Deccan. The hemispherical dome and the arch are the chief features of this form.

The best examples of Saracenic architecture are to be found at Sira. The domes here are not large, but of a very light and elegant design, being raised on a sort of floral cup.

The palaces of Hyder and Tippu at Srirangapatna and Bangalore, the mosque at Srirangapatna, the Gumbaz of Hyder and Tippu and the summer palace are other examples of Islamic architecture.

This brief survey, which cannot claim to be complete by any standards, will show how much Karnataka has contributed to Indian architecture and sculpture.

Engineering in ancient Karnataka was moulded by the needs of the age which were comparatively few and simple.

The first need of man is food and so naturally the first concern was to conserve water flowing in the valleys during the rains, for irrigational purposes. The ancient Karnataka Engineers formed small reservoirs and tanks by throwing barriers of earth or 'bunds' across the valleys. This water used to be taken out, by channels. The Engineers were also adept at the selection of sites for these tanks. 'Arasikere' tank at Halebid was built by the Hoysalas in the 11th century. 'Moti Talav' of Pandavapura Taluk and 'Vishnusamudra' at Belur were constructed in the 12th century. Madag-tank' and 'Ayyankere' near Sakrepatna are reported to have been built by King Rukmangada of Mahabharatha fame. A number of 'Anicuts' were also built centuries back. Sri Rama Devaru Anicut across the Hemavati near Holenarasipur was built in 1533 A.D. Chikka Devaraja Wodeyar built a series of anicuts across the Cauveri in the 17th century; so also

'Rayanala' and 'Basavanala' are described as the premoghul channels from the Tungabhadra.

The talents of the people were also directed towards cultural pursuits and artistic productions, among which architecture and sculpture were the main branches covering Engineering. But with the fall of the Vijayanagara Kingdom, and the advent of the British, the popular expression of the natural talent in Engineering, Sculpture and architecture started disappearing. Engineering skill started being used for only utilitarian purposes and that too, to the minimum extent necessary. The pace of progress in all the parts of Karnataka was not uniform, the advance being relatively more in Mysore. This was mainly due to the three great rulers of Mysore—Sri Chamaraja Wodeyar, Sri Krishnaraja Wodeyar and Sri Jayachamaraja Wodeyar and to the three eminent ministers—Sir K. Seshadri Iyer, Sir M. Visvesvaraya and Sir Mirza Ismail.

Mysore adopted the discoveries of science and the advances of modern engineering before the other parts of India. The Cauveri falls at Sivasamudram were harnesed in the beginning of the present century and electric power was generated. The streets of Mysore and Bangalore were the first to be electrically lit in India. The electrical transmission lines from Sivasamudram to Bangalore and Kolar were the longest open lines then attempted in the world. Mysore was also the first to adopt the technique of damming up rivers by high masonry dams for irrigational purposes. The Boranakanive Dam and the Marikanive Dam were the first to be constructed. The Krishnarajasagara, started in 1912, is a combined Hydro-Electric and Irrigation Project with a capacity to irrigate about 1,38,000 acres of land. The bigger Mahatma Gandhi Hydro-Electric Scheme on the Sharavathi at Jog, supplies power to several parts in the Northern Karnataka too. The Pampasagara across Tungabhadra at Hospet, Ghataprabha canals in Belgaum District, the Bhadra Reservoir at Lakkavally, the Tunga Anicut near Shimoga, the Nugu Reservoir at Heggadadevanakote Taluk are some of the other big works.

Under architecture, the recent buildings are varied in style. The palace in Bangalore is a happy blend of the Hindu and the Indosaracenic styles. The Central College at Bangalore is in the Gothic style. Vidhana Soudha at Bangalore is a monumental structure which combines the Dravidian style with the modern style.

The Mysore Iron and Steel Works at Bhadravati, the Hindustan Aircraft Factory, the Indian Telephone Industries, Bharat Electronics, Hindustan Machine Tools, the Government Electric Factory, the Government Porcelain Factory, Electrical Lamps Factory, the Government Soap Factory and a host of other factories at Bangalore and elsewhere in Karnataka, only prove how the talent of the people on the engineering front can be utilised if properly harnessed.

3. Handicrafts

Along with the other parts of the country, Karnataka too has a glorious past and has been known for its traditional crafts. We can be proud of it all the more because the village communities of craftsmen have generally been the centres of those crafts. This art has never been employed just for its own sake ; it has always been an art with purpose. They are the material symbols of India's unique cultural ethos. These are not the products of the mindless machines, but have been entirely the outcome of the admirable skill of the individual craftsmen in the arrangement of form and colour. The products have always been inimitably Indian. Due to the encouragement of the powerful and even petty Indian rulers of the past, the art had reached almost a state of perfection, having survived several vicissitudes to which they were subjected. But during the years of bondage under foreign rulers, the art was slowly disappearing and had reached almost a dormant stage ; but now, thanks to the national government, it is showing a promise of recapturing all its ancien glory

Karnataka too has ancient artists who have displayed their skill in metal sculpture ; Jewellery ; woodcrafts and wood carving ; stone carving ; Ivory carving and in laying pottery, ceramics and glassware ; clay figures and folktoys ; Handwoven textiles ; Hand embroidery ; Carpets and rugs ; Baskets and mats ; and several other crafts.

Metal sculpture.—The most important phase of this Indian art developed and flourished in the South, down from the river Tungabhadra to Cape Comorin. The art saw its greatest development in the 9th century and was always on the rise till the 16th century. It reached its zenith in the reign of Krishna Devaraya of Vijayanagar, a famous specimen in copper showing this great king with his two consorts standing side by side in the shrine of Venkatesha at Tirupati, is known for its artistic skill.

Most of the ancient metal figures have been made of copper or brass and not bronze which was considered to be an impure alloy for divine purpose. The alloy that was considered ideal was 'Pancha loha' consisting of gold, silver, copper, brass and lead. The technique of casting is known as the 'Lost wax' process, in which only one piece can be obtained at a time and duplicates are not possible.

The finest examples of metal sculpture of the past represent the divinities in their various aspects, particularly Siva and Parvathi. There are rules and regulations laid in the 'Silpa Shastras' which codified the characteristics, poses, Mudras, etc., and which the craftsmen had to follow when representing divine figures. They could express their own creative genius when representing semi-religious figures like nymphs, Gandharvas, Apsaras, animal forms, etc.

South Indian bronzes are supreme examples of the metal sculptor's genius. Their dynamic symmetry in poses, absorbing serenity of expression and rhythmic sways are but some of the aspects for which they are admired. The most important and dramatically conceived of all the divine images are representations of 'Nataraja' in which Siva personifies the kinetic aspect of his divinity. The image of Sharada made of Panchaloha at Sringeri is a fine specimen of art. Along with divine representations, figures of important persons of those days were also being made. The deepas or deepams are beautiful figures of human beings holding lamps, as a symbol of burning devotion of the donors.

There are very few pieces of bronzes of the Chalukyan period. The art during Hoysa'a period was florid and highly decorative. During the Vijayanagara period, a simple style came into force. With the post-Vijayanagar period came decadence and poverty of the creative urge.

However, even to this day we find several hereditary craftsmen in South Kanara, North Kanara, Mysore, Belgaum and some other districts.

Jewellery and metal crafts in Gold and Silver.—The Indian's innate love of personal adornment is well-known. It is this love that has kept alive the art of jewellery making through the centuries. Generally made of the purest and finest materials, it is known for its delicacy, artistic designs and varied nature. The art of jewellers of Bangalore, Mysore, South and North Kanaras has become famous. They produce ornaments from the smallest possible amount of the precious metal, the gold being often beaten to the thinness of paper but at the same time maintaining its strength and effect of solidity. They do so in spite of their poor equipment, relying more on their own skill than on a large number of tools or machinery.

The 'Bidri-ware' taking its name from Bidar, whose Muslim craftsmen have always been famous for this work, consists of a special style of work which may be called "Damascening" in silver. The alloy used for these wares differs from place to place, but generally consists of copper, zinc and lead or tin. The work is of two kinds the "Teh Nishan" in which the design is deeply cut and "Zar Nishan" which rather resembles the encrusted ware of Tanjore. The articles commonly made are ash trays, salvers, hukka bowls, spittoons, cups, plates, tumblers, flower vases, surahis, plaques, boxes, etc. Bidriware has special significance in the Hyderabad Karnataka due to the custom of presenting a complete set of Bidriware utensils, etc., to the bridegroom at marriages.

Wood crafts and wood carving.—This is really an ancient craft in Karnataka. The skilled carpenters of the land were especially prominent in the use of rosewood (blackwood) and teakwood. The furniture, as we see to-day is apparently a foreign importation but they were not unknown in the past as thrones for our kings and emperors. In the past, and to a certain extent even to-day, our craftsmen have shown their skill at veneering. Not only wood veneers but sandalwood, ivory, horn and tortoise shell have been veneered on surfaces made of inferior wood.

In wood carving Karnataka was and is one of the best known for rich ornamentation, skilful execution and characteristic designs. It is a mixed form of indigenous and Chalukyan art. It is a decorative art mostly using celestial or divine forms. In fact the State has achieved a fame for its sandalwood carving. A variety of the most beautiful and artistic articles are prepared from sandalwood by engraving, inlaying, veneering, etc. Shimoga, North Kanara, Mysore are the most important districts known for this work.

Stone carving.—Even a casual visit to any historical place of Karnataka is sure to convince any person, how adept our craftsmen were in this art. The details have been discussed when dealing with architecture and sculpture.

Ivory carving and Inlaying.—This too is an ancient art. The Portuguese traveller Paes has described a chamber in the Vijayanagar palace as "all of ivory as well as the chamber as the walls from top to bottom and the pillars of the cross timbers had roses and flowers of lotuses, all of ivory, and all well executed, so that, there could not be better". Even to-day Mysore is a place of importance in ivory works. The objects generally produced are elephants, cows, peacocks, tigers, idolls, human figures, etc. Articles like combs, caskets, cigarette boxes, necklaces, bangles, chessmen, toys, paper cutters, and the like have foreign market. Jungle and sport scenes also abound in the ivory carving in bas-relief produced in Mysore, and sometimes the articles are further enriched with black

lac. In fact Mysore craftsmen excel in ivory inlaying in wood, in spite of the fact that his tools are crude. They produce excellent pieces of furniture in ebony inlaid with ivory, the finest example being the ivory inlaid doors of 'Tippu Sultan's Mausoleum'. Another peculiar feature of the Mysore work is that it has a simple chaste dignity, the surface of the article being decorated and not overloaded with ornamentation.

Pottery, Ceramics and Glassware.—The unglazed earthenware, red, brown, yellow or grey made in every village, represents the simplest and purest form of art. The origin of this art can be traced to prehistoric times. So varied are the shapes and so beautiful the workmanship! There is a special pot for almost evry special purpose. Now ornamental designs are painted or etched on the prepared surface, and sometimes the pots are also glazed.

The tools used are generally simple. Chief of them being a flywheel revolving horizontally, weighted round the rim with lumps of clay and set into motion with the hand. As the wheel merrily revolves the craftsman's skillful hands shape the mass of clay, gently into the required shape and form. Then the vessel is taken out for drying and baking, polish being given to the baked vessels.

Like pottery, artistic glassware, mostly bangles were also made in very remote times. These bangles of different colours are sometimes ornamented also.

Clay figures and Folk Toys.—The excavations at Chandrawalli have proved that clay figures and toys were being made even in prehistoric times in Karnataka. Our ancient craftsmen spared no pains to supply their children with toys representing domestic and wild animals, and deities of the Hindu Pantheon. They also produced pots and pans in miniature. The toys whether of clay, wood or metal form the very essence of folk art. The discoveries at 'Gombigudda' near Jamkhandi have also revealed that this art was in a high state of development in the past. Even to-day places like Gokak, Honavar, Kumta, Channapatna, Mysore and Bangalore are famous for their toys. In Channapatna and Gokak several articles of wood are made and then lacquered. Folk toys in a way are the autobiography of the people of this land.

Handwoven textiles.—Of all the art manufacture of India, her beautiful textiles are the oldest. The products of our weavers have been compared to "exquisite poetry in colourful fabrics". Celebrated among them were the Dacca Muslins, now a thing of the past. But even to-day Karnataka does produce a lot of quality Muslin. Almost every district of Mysore has its centres for producing handwoven cottons, though in this machine age, they face several vicissitudes. However, it is in silks more than cottons that Mysore is now famous. The Mysore silks with shots of Gold lending to them an enchanting beauty are in great demand even outside our own country.

Hand embroidery.—Hand embroidery has been widely practised in Karnataka since very early times. 'Kasuti' is a beautiful form of embroidery, done in those places which were ruled at one time or the other by the Chalukyan and Vijayanagar rulers. This type of embroidery still exists in Belgaum and Dharwar districts, though it has been generally a handicraft and a pastime for the female folk meant more for their personal use. The designs of the Kasuti are generally related to temple architecture. The famous 'Ilkal' saries made in Bijapur district, are charming with their borders in green, red or purple, the embroidery covering the whole material. In fact, in every district and in several households we will find women folk doing embroidery work for their own use, if not for commercial purposes.

Carpets and Rugs.—The art of manufacture of carpets is not an indigenous one but seems to have been introduced by the Saracens. Bijapur, Dharwar, Belgaum, Bangalore and several other places in the State produce carpets. Almost every district in the 'Maidan' area produces 'Kambalis'. Mention has also to be made of 'druggets' made in Bangalore. Made from waste wool clipping and often of wool from dead sheep, they are naturally much cheaper.

Baskets and Mats.—In the bamboo growing areas of Karnatak it is a common sight to find men and women from particular classes weaving baskets, as they move from place to place. In the coastal districts of South and North Kanaras, where cocoanut is grown in abundance, delightful and richly coloured coir floor-coverings are prepared. The coir fibre is spun into yarn and woven into beautiful floor coverings. Sometimes, the decoration motif is inlaid or stencilled on the mat and sometimes the design is woven as in textiles. These mats are known for durability, sound deadening and soil and damp resisting qualities.

Besides this there are several other crafts like making of incense-sticks, soaps, etc., which are very popular in Karnataka even to this day.

4. Painting and Allied Art

With regard to painting, though Kannada poetry revels in describing old portraits and pictures, very few specimens have come down to us excepting those at Ajanta and Badami. Considering the extent of the Karnataka territory, the then Kannada artists may have contributed to the amazing frescoes of Ajanta, between 1st century, B.C. and 7th century A.D. Pulakesi II, a Chalukyan king from Badami, has been represented in one of the frescoes. We can also see some blurred paintings on the ceilings of one of the Badami caves, and some paintings of the Vijayanagara period in the Virupaksha temple at Hampi.

Kannada poets Rudrabhatta and Ponna mention a famous painter by name Cirghatti.

The linear carvings and drawings of animals and human figures belonging to the period of pre-history discovered in 'Gombigudda' hill near Jamkhandi also indicate that some more treasures of the type may see the light of the day, if further research work is undertaken.

Even now, there is ample talent in cradle painting, claymodelling, making of dolls, wooden flora and fauna, sandalwood and ivory carvings, etc., as is borne out by the skilled craftsmen and painters of Channapatna, Mysore, Sagar, Shimoga, Kumta, Gokak, Kankeri and other places.

5. Dance, Drama and Music

These three allied arts were in a well developed state for several centuries in Karnataka. A Tamil work of the 2nd century by name 'Silappadikaram' mentions of Kannada actresses and dancers who entertained King Senguttavan in the Nilgiri Hills. Pattadkal inscriptions refer to a well known actor by name Natasevya. Several inscriptions of old reveal a rich variety of dance poses. Dance was almost the exclusive monopoly of temple girls but appears to have been regularly practised by ladies of upper classes also, during the Hoysala and Vijayanagar periods. 'Bharat Natya and Kathakali' are the famous modes of Indian dances in which many Karnataka artists have earned a name. Special mention needs to be made of Jatti Thayamma of Mysore.

The Kannada theatre was represented by folk plays based mostly on epic and historical themes known as Bylata and Yakshagana. It is true, the word Yakshagana would mean 'a style of music'; but the word is now understood to mean a form of musical dance-drama played in the open air. Its traditional form is a very rich one, though corrupted to a certain exten these days due to the influence of the modern cinema or drama forms.

Its songs are written literature, set to a separate style of music, also called 'Yakshagana' which is virile and operatic in nature. The themes are mostly from Mahabharata, Ramayana, Puranas and Bhagwata. Powerful extempore prose dialogues, rhythmic style of dancing, colourful and demonstrative costumes and the songs of the 'Bhagwata' in a high pitch to th accompaniment of an elongated drum or *maddale* and a pair of cymbals, keep the audience spellbound through the night. Its 'Gamak and Tan' are different and portray the various aspects of dramatic emotions. The contents of the songs are translated or developed in dialogue by the characters.

The earliest reference to Yakshagana was in Kannada works of 1105 A.D. and 1185 A.D. During the 17th century, there were three eminent composers, *viz.*, Devidasa of Udipi (1640 A.D.), Nagappayya of Koteshwar (1640 A.D.) and Subba of Brahmavara (1680 A.D.). In the 18th century Rama of Karur, Ramabhatta of Hattiangadi and Venkata of Pandeshwar were prominent.

We have at least 150 themes chosen for those plays and over 100 plays are available in print to-day. The 17th century plays mention over 100 Ragas as belonging to Yakshagana. The themes chosen are mainly heroic in content. As such there are no dramas without a battle, there being very few exceptions to this rule.

The "Maddale" or drum work is such as to lend itself to exquisite footwork. Another drum called "Chande" is used when depicting valour or battle. But rhythm is the essence of every action. Simple settings, lighted only by dim oil-fed lamps, create a sense of illusion and impress the personality of the various characters.

There are now about a dozen troupes attached to various temples in the North and South Kanaras and the hinterland of these districts. Most of the actors are farmers by profession and so the plays are taged generally between December and May when they get respite.

However, this ancient indigenous art of Karnataka is facing its darker days now. Already two other adjuncts of this type of drama namely the doll play and the leather doll play have died on account of their attempts to imitate other arts. Sivarama Karanth, who is an authority on 'Yakshagana' and his associates have been striving to keep this ancient art not only alive but

also pure. Besides this indigenous form of open air plays, there are several professional troupes and amateurs who regale the audience by staging modern dramas.

In regard to music also Karnataka has an outstanding achievement to its credit. It has developed a school of music which is called " Karnataka Music," in which fusion, to a certain extent, of the Aryan and Dravidian modes of music has taken place. It is distinguished from the Northern or Hindusthani music by a scientific correlation of Tala and Raga with greater stress on rhythm. Besides those common to Hindustani music, it has also its own system of Ragas and Alapanas. Another interesting feature is that probably Karnataka is the only State in India where there is patronage for both Hindusthani and Karnataka styles. North of Tungabhdra river, Hindusthani music is more in vogue and south of it there is predominance of Karnataka music.

Viraballa (12th century) also known as 'Sangita-prasangabhangi' was one of the earliest musicians of Karnataka. Gopalnayaka of the Vijayanagara court is reputed to have had a contest in music with Amir Khusru of Allauddin Khilji's court. The mystics of the Dasakuta, the Vachankaras, Sharanas and others built up a tradition for this music by simplifying it when singing devotional songs.

Sarangadeva, Kalinatha, Ramamatya, Somanatha, Venkatamukhi, Telaja Rajendra, Bhavabhatta, Purandardasa, Pundalika are some of the famous authors who have written independent works on music.

Vina, Tal, Maddale, Damaruga, Mahamuraja, Turya Nirghosana, Trivali, Mridanga, Kahala, Shankha, Bheri, Patapa, Ghhante, Kausala are some of the old musical instruments enumerated in many of the epigraphic and literary records.

6. Literature

Kannada literature is one of the oldest literatures of India, in antiquity it being next to only Sanskrit, and Prakrit literatures and perhaps to that of Tamil. It is a rich heritage not only of the Kannada people but also of other Indian people as a whole. Till about the end of the 19th century, the number of Kannada writers recorded is over 1,148 though the number of their works has not been computed.

Though the earliest available work in Kannada is 'Kavirajamarga (9th century) either written by the Rashtrakuta king Nripatunga or by Srivijaya under the patronage of Nripatunga, the earliest Kannada record is the Halmidi lithic inscription ascribed to about 450 A.D. This together with another inscription of 500 A.D. has established that 'Kavirajamrga' is a prominent milestone in the History of Kannada literature and not a starting point. A few Kannada words also are met with in Prakrit work called 'Gathasaptasati' of 200 A.D. which clearly indicates that the establishment of the language and its traditions were being cultivated from a period earlier than that of 'Kaviraja marga'. However, the literature produced up to 850 A.D. has not yet come to light. Kavirajamarga is a work on poetics referring to 'Palagannada', *i.e.*, Old Kannada, Puratanakavis and Purvacharyas. Its importance is more historical than aesthetic.

In 853 A.D. Asaga, a Sanskrit scholar, wrote 'Karnataka Kumara Sambhava' in Kannada, Gunanandi (900 A.D.) and Gunavarma I (900 A.D.) were poets of great reputation of the period.

Between 9th and 12th century classical tradition in Kannada literature flourished magnificently. It can be called the golden age of Old Kannada literature. The excellence of the literary achievements of the writers, particularly the poets, of this period have never been surpassed. Pampa (942 A.D.) who is honoured as the 'Adi Mahakavi' in Kannada was not only the first but also the foremost poet of the era. He was a master of Jaina Philosophy in the court of Arikesari II, a prince of the Chalukya family. When aged only 39 years, he composed the 'Adi Purana' and a few years later 'Vikramarjuna Vijaya' or 'Pampa Bharata'. His style and diction are remarkable for economy and suggestiveness. Ponna (950 A.D.) who wrote 'Bhuvanaika Ramabhyudaya', 'Santipurana', and 'Jinaksarmale' was his contemporary but under more lucrative circumstances. Other famous personages of this era were Chavundaraya I (978 A.D.) author of 'Chavundaraya Purana', Nagavarma I 'author of 'Chhandombudhi' and Karnatak Kadambari', Ranna (993 A.D.) author of 'Parashurama Charita' 'Chakreshwara Charita', 'Gadayuddha', Nagachandra (1100 A.D.) author of 'Ramachandra Purana' or 'Pampa Ramayana' and 'Mallinathapurana', and Nagavarma II (1145 A.D.) author of 'Kavyavalokana' and 'Vashikosha'.

The works during this period were both literary and scientific. Particularly in the 11th century, the writers attached more value to technical and cientific topics. 'Panchatantra' of Durgasimha is a famous work of the 11th century. Nagavarmacharya (1070 A.D.) is the first to give us 'Shatakas' in Kannada literature.

In the middle of the 12th century, there was the rise of a new literary movement. The spoken language of the people was fast changing from old Kannada into middle Kannada. Jain authors like Nayasena started writing popular stories in simple Kannada. Religious reformers among Veerasaivas, like Basava took up the spoken language and gave it a literary status by starting the vast 'Vachana' literature in simple but forceful Kannada. Famous among the 'Vachanakaras' are Basava, Allamaprabhu, and Akkamahadevi. For beauty, for complete expression of the goal towards the higher life and poetic grace, Shri Basaveshwara's Vachanas are unsurpassed. They are valuable for their ethical content also.

In 1200 A.D. Harihara, author of 'Sivasaranara ragalegalu' and Raghavanka author of 'Harischandra Kavya', 'Siddharamapurana' and Kereya Padmarasa, author of 'Dikshabodhe', started works in pure Kannada metres like Ragale and Shatpadi. Eminent poets of this period were Nemichandra (1170 A.D.) Rudrabhatta (1180 A.D.) and Janna (1209 A.D.). Kesiraja wrote a book on Kannada Grammar called 'Sabdamanidarpana'. There were several technical works too. Rajaditya (1191 A.D.) wrote 6 treatises on Mathematics. Kirtivarma (1125 A.D.) wrote 'Govaidya' a treatise on cattle diseases. Jagaddala Somanatha (1150 A.D.) wrote 'Karnata Kalyana Karaka' a work on Ayurvedic medicine. Ratta Kavi (1300 A.D.) wrote 'Ratta Matha' a treatise on Meteorological topics. Mangaraya (1360 A.D.) wrote his 'Khagendramani-Darpana' a treatise on poisons and their antidotes. Sridharacharya (1150 A.D.) wrote his 'Jatal atilaka', a work on Astrology.

The period from 14th century to the 16th century was really the golden age for Kannada literature under the patronage of Vijayanagara Kings. When poets of all faiths added to the treasure of Kannada literature. Kumara Vyasa or Narayanappa (1430 A.D.) as he was known, who wrote the first ten parvas of the Mahabharata in Kannada, and Kumara Valmiki (1500 A.D.) were great literary geniuses of the period. Purandaradasa and Kanakadasa popularised the Bhakti cult by composing devotional songs in Kannada and founding the 'Dasa Kuta'. Lakshmisha (1550 A.D.) wrote his famous 'Jaimini Bharata' Chamarasa wrote his famous 'Prabhulingalile'. There was a revival of Virasaiva literature also due to the efforts of Lakkana Dandesa (1428 A.D.) Chamarasa (1430 A.D.) Tontad Siddeswara (1470 A.D.), Nijaguna Shivayogi (1500 A.D.). Virupaksha Pandita (1584 A.D.). Vachanakaras like Tontad Siddhalinga, and Ghanalinga also came into prominence. Jaina writers like Mangarasa III (1509 A.D.), Salva (1550 A.D.) and Ratnakaravarni (1557 A.D.), also brought forth great literary writings. Particular mention has to be made of Ratnakaravarni's 'Bharatesavaibhava' composed in Sangatya metre, which is considered one among the greatest poems in Kannada. Kumara Vyasa, Chamarasa, Virupaksha Pandita, Lakshmisha, and Kumara Valimiki used 'Shatpadi' group of metres. "Tripadi" the most native of all Kannada metres, which is used even to this day, was also used by several Kannada poets like Nijaguna Shivayogi. But the most popular 'Tripadis' are those of Sarvagna, whose work is a veritable encyclopaedia.

Though the literary productions of this and the previous periods were stimulated by religious movements of the time, the Kannada poets then had amply shown a catholicity of outlook. Adikavi Pampa, Vachanakaras, Dasars, Sharnas and the rest had in one voice developed the attitude that humanity is one. The works were not only classical and popular literature but also on scientific and technical subjects.

Old Kannada (Palakannada) ceased to be a living language by about 1150 A.D., though it was being used by learned writers till about 1400 A.D. After that, more and more books started coming up in medieval Kannada—language of the people of the day—though Old Kannada was making its sporadic appearances now and then.

In the 17th century the Mysore Ruler Chikkadevaraja Wodeyar patronised the development of literature. Poets like Tirumalarya and Chikupadhyaya rendered Srivaishnava legends into Kannada. Sarvagna, the people's poet was the author of a large number of popular Tripadis. Shadakshari was also a famous poet of the century.

The 18th century is noted for the rise of 'Yakshaganas' with as settled technique of their own combining dialogue, music and dance.

However, with the fall of the Vijayanagara kingdom and the advent of the British, the literary movement in Karnataka got a severe setback. Karnataka was cut up into several divisions like Mysore Karnataka, Madras Karnataka, Hyderabad Karnataka, Bombay Karnataka, and Kannada regions in several smaller princely states. There was also a change in the educational system in the various areas, due to the introduction of English. However Mummadi Krishnaraja, Ruler of Mysore (1794 to 1868) was a great patron of arts and was himself a man of letters, credited with several writings

mostly in prose. Naturally prose writings started assuming prominence. The researches of Mr. B. L. Rice in Mysore resulted in the publication of *Epigraphia Carnatika*. In Madras Karnatak, missionary Scholars like Rieve and Rev. Kittel made a scientific study of Kannada language. There was slowly a transition from medieval to modern Kannada, in which Kempu Narayana's 'Mudramanjusha' (1823 A.D.) is a landmark. Basavappa Sastri translated Kalidasa's 'Shakuntala' and Shakespeare's 'Othello'. Other noted works of this period are Mulbagal's translation of 'Uttararamacharita' and Turmarifs version of Bana's 'Kadambari'. But the work that created history towards the end of the 19th century was Muddana's 'Ramashwamedha', a novel epic.

Between 1900 and 1920 A.D. can be seen the dawn of Modern Kannada, in the form of journalism, translation and adaptation. The foundation of the Kannada literary academy in 1914 was a prominent landmark during the period. After 1920, almost all forms of literary expression known to the modern world have been introduced in Kannada.

There has been marked achievements in the output of poetry with new metres and new themes. B. M. Srikantia's 'English Geetegalu' and his sweet rendering of several other English verses into Kannada, D. V. Gundappa's philosophical poem 'Vasanta Kusumanjali' and 'Mankuthimmana kagga'. Masti's (Srinivasa) 'Aruna', 'Binnaha', Panje Mangeshrao's 'South Wind' and the 'Song of Kodagas', Govind Pai's 'Nadadeepa', D. R. Bendre's (Ambikatanayadatta) 'Gari', 'Murthi', 'Nadaleela' and 'Sakhigeeta', Sali's 'Chitrasrashti', K. V. Puttappa's 'Men of Letters', 'Raktakshi', etc., V. Sitaramiah's 'Light and Shadow', 'Grapes and Pomegranates', Rajaratnam's 'Songs of Ratna', P. T. Narasimhachar's 'Mango Foliage', Madhurchanna's 'My Lover', Gokak's 'Kalopasaka', Mugali's 'Basinga', Diwakar's commentaries on the 'Gita' and 'Upanishads' are just a few of several works in the fields of lyrics. The output has also variety. Sri is a master of 'Ode' in Kannada; Masti is known for blank verse; Govind Pai is a neo-classicist in song; Panje Mangeshrao is known by the lyric movement; K. V. Puttappa is known for his derivative poetry; Bendre is famous for his sonnets; Vinayaka for his free verse and Rajaratnam for his colloquial lyric.

In the field of novels, M. S. Puttanna, Galaganath, Kerur with his 'Indira' and 'Yadumaharaja', A. N. Krishna Rao's 'Sandhyaraga', Gokak's 'Ijjodu', Karanth's 'Deva Dutaru', Devudu's 'Antaranga', Mugali's 'Baluri' and 'Karna Purusha', Adya's 'Vishwamitra Srishti', Puttappa's 'Subbamma', Inamdar's 'Murabatte', Kattimani's 'Madi Madidavaru', Masti's 'Channabasava Nayaka', Beechi's 'Dasakuta' and several others have brought forth excellent novels.

Bendre, Kerur, Panje, and Masti have achieved fame in short stories. Among women short story writers, Gaouramma, Kalyanamma, Shyamala, Smt. Karanth, Jayalakshmi Srinivasan and others are noted. Some of the other short story writers are Ananda, Anandkanda, Gorur Ramaswami, Krishnakumara, A. N. Krishna Rao and Tengse.

In the field of dramas, Yakshaganas maintained the dramatic and historic traditions. Then in response to the demands of the popular theatre, legendary plays like Garuda Sadasiva Rao's 'Paduka Pattabhisheka', 'Choutichandra', 'Venkataramiah's 'Mandodari', Kadengodlu's 'Hidimbe', Sitaramiah's 'Sohrab and Rustum', Joshi's 'Rajavallabha', Historical plays like D. V. Gundappa's 'Vidyaranya', Masti's 'Talikote', Samsa's 'Vigada Vikramaraya', Social plays like Kundgol's 'Shikshana Sambhrama', Bendre's 'Tirukara Pidugu' etc., came to be written. But the most famous among the playwrights was T. P. Kailasam, whose plays can be compared with the best in any language. His stay in England, gave his plays a highly modernised technique. In all his writings we find a subtle blending of satire and humour, of realism and idealism, of lyric and dramatic movement. In fact it can be rightly said that the Kannada social play began with him. His plays 'Tollu Gatti', 'Poli Kitti', 'Home Rule',, etc., are real masterpieces. Another leading dramatist is Adya whose social plays 'Harijanwara', 'Daridra Narayana', 'Vaidya Raja', are noted for their satire. There are several other types of plays like verse plays, blank verse plays, song plays, etc., in Kannada.

Essays, Biographies and Autobiographies have also made their mark in modern Kannada literature.

Though it cannot be claimed that modern Kannada literature has carried sensation into the heart of all knowledge, the brief survey clearly shows that Kannada has a long and rich literary heritage and that a new literature is sprouting on the old traditional foundations. In the beginning, Sanskrit and Prakrit literature served as a model for Kannada, but as Kannada literature developed, important innovations started creeping in. Kannada has also to a certain extent

contributed towards the development of Sanskrit. Unlike the Sanskrit literature, a mixture of prose and verse known as 'Champu' form of composition prevailed in Kannada and this was later adopted in Sanskrit too. So also the 'Vachana' style is a characteristic prose pattern of Kannada literature. The poetical forms of composition in the various Kannada meters like 'Ragale', 'Shatpadi', 'Sangatya' and 'Tripadi' are peculiar to Kannada only. Even though most of the themes in old Kannada literature have drawn their inspiration from mythology, epic, history, etc., several Kannada writers have impregnated their own ideas in their works.

There is also an abundant variety of Kannada folk songs and ballads, many of them being quite humorous even when conveying a moral. Several of the writings also are rich with patriotic feelings.

7. Journalism

Mysore saw the first printing press in 1850, started by Rev. J. Garret of Wesleyan Mission to propagate his missionary ideals. The first newspaper to be started in the State was 'Kasim-Ul Akbar' in Hindi in 1863 and the first Kannada newspaper was 'Karnataka Prakashika' published in 1865 as a weekly. Then in 1866, the Government of Mysore published an Anglo-Kannada weekly, 'The Mysore Gazette' under the editorship of L. Rickett. In 1874, the Kannada Prakashika was revived as a Kannada-English weekly. The first Kannada monthly to be started was 'Hitabodhini' from Mysore in 1881. The first Kannada daily was 'Suryodaya Prakashika' founded in 1881. In 1900 Yajaman Veerabasappa founded a Kannada weekly by name 'Mysore Star'.

After the transfer of the administration in Mysore by the British to the Hereditary rulers in 1881, the Kannada Press got a new impetus. Public spirited men like 'Vriddhapitamaha' M. Venkatakrishniah started his Kannada weekly 'Vrittanta Chintamani' in 1885, to work for the national and democratic ideals. 'Kannada Nadegannadi' was started by the brothers M. Gopala Iyengar and M. Srinivasa Iyengar in 1895. However the Press Act of 1908 not only put an end to the publication of Nadegannadi but also the editor was deported from the State. In 1910, Venkatakrishnaiah started a weekly 'Sadhvi' at Mysore. The weekly 'Bharati' of Navaratna Krishnaswamy, started in 1907, had also a very short span of life due to the Press Act of 1908.

But in 1910, the Kannada Press entered a new era when a number of dailies, weeklies and monthlies were started. Tirumale Thathacharya Sharma established 'Vishwa Karnataka', both as a daily and a weekly, to uphold the high traditions of nationalist journalism. However, in 1944, Government banned its publication for an alleged seditious editorial and an open letter to the Viceroy. However, it was restarted in 1947.

A special feature of the Kannada Press is the rise of 'The one man' papers wherein the roles of manager, editor, compositor, etc., are all combined in one person and they are also priced low. They have a mainly local appeal.

Other Kannada dailies of to-day are Janavani, Prajavani, Tainadu, and several others. Among weeklies are Prajamata, Janapragati, Chitragupta and many more.

Special mention has to be made of Sri D. V. Gundappa a linguist and journalist of renown, who has started the "Gokhale Institute of Public Affairs" and to propagate the ideals of the Institute has started a monthly bi-lingual journal by name "Public Affairs" in which both national and international affairs are discussed in both English and Kannada.

In Bombay Karnataka "Hitechhu" was the first newspaper to be started. It was published from Kaladgi in 1870. By 1880, three newspapers, *viz.*, "Vijaya", "Rajahamsa" and "Karnataka" started in Dharwar. So also there were three published from Belgaum. Manadakatte Kalyanappa and Vibhuti Hucchaiah started two monthlies "Chandrodaya" and "Pushpamallika" in Dharwar. In 1884, Desai Sheenappa started "Karnataka Patra", a weekly. In 1885 a number of weeklies were started, chief of which were "Lokashikshana", "Karnatakavritti", "Lokabandhu", "Rajahamsa" and "Dhananjaya". Mention has to be made of Mudaveedu Krishna Rao, and other journalists of those days of national upsurge for their unqualified patriotism. Kerur Vasudevacharya was responsible for two weeklies—"Kannada Kesari" and "Sachitra Bharata" from Hubli and one 'Shubhodaya" from Dharwar.

1922 saw the birth of "Karmaveera" started by Kabbur Madhva Rao, Hukkerikar Ramarao, and Ranganatha Diwakar. Then Samyukta Karnataka was started by them. The People's Education Trust of which Diwakar is the sole trustee, owns both of them. They have started a monthly by name "Kasturi" also.

Alur Venkatarao, Vamanarao Desai, Hanumantharao Moharay, Naik are all associated with these publications.

After independence, several other newspapers have started. " Navayuga " edited by Shri T. R. Neswi and " Vishalakarnataka " edited by H. R. Itgi. " Prapancha ", a weekly and " Vishwawani ", a daily edited by Patil Puttappa are some of them worth mentioning.

From Hyderabad Karnataka area, ' Hyderabad Samachar ' and ' Sadhana ' are among those published. Coorg has ' Kodugu Vrittanta '.

In South Kanara, " Kannada Samachara " a monthly started in 1842, by the Basel Mission was the first work. This was followed by " Kannada Vartika ", in 1857, " Krista Sabhapatra " in 1869, Satya Deepike in 1896, ' Vaidika Mitra ' in 1910, ' Suvarta Prasaraka ' in 1922 and ' Krista Hitavadi ' in 1924. They were generally devoted to discussion of Christianity. In 1887, ' Sudarshana ' a monthly was published from Udipi. The Basel Mission published ' Satya Deepike ' in 1896. Sri Panje Mangeshrao contributed several essays to it. Sri Bolar Vithal Rao published " Suvasini " in 1900. In 1907, Sri V. S. Kamath started " Swadeshabhimani ". In 1919, Sri B. Vithal Rao started ' Kantheerava ' with which Shri Hurali Bhima Rao was associated. Shri A. B. Shetty started ' Navayuga ' at Udipi in 1921. In 1928, a leading weekly ' Rashtra Bandhu ' was started. ' Prabhat ' a weekly was started in 1928 by Shri Sehnoy, K.V.

As a reaction to the evangelistic zea of the Christian missionaries, several periodicals of other faiths like Krishna Sukti (1905), Jains Bandhu (1913), ' Bhakti Sandesha ' (1918), ' Veda Sandesha ' (1926), ' Sadguru Padaseve ' (1926), ' Sidharama Pracharike ' ' Sri Krishnasandesha ' (1938), ' Viveka-Abhudya ' (1941), and ' Paryaya Prakashini (1942) were started.

Among the magazines mainly devoted to literary subjects ' Ananda ' (1916), ' Kannada Kogile ' (1916), ' Vasantha ' (1923), ' Karnataka Kesari ' (1928), ' Sahitya ' (1929), ' Kalachandra ' (1935), 'Triveni ' and ' Pravasi ' (1936), ' Jayakarnataka ' are some.

Dr. Bharadwaja's ' Tilaka Sandesh ' (1919), Sri H. R. Mallya's ' Satyagrahi ' (1921), ' Swadeshi Pracharika ' (1934) and ' Desha Bhakta ' (1940) dealt mainly with politics.

' Nava Bharata ' a daily started in 1941 by Sri V. S. Kudva is one of the leading dailies.

In 1915, Sri Karanth brought out ' Bodhini ' and this was followed by Panje Mangeshrao's ' Balachandra' (1932) and Mukundarao's ' Vidyodaya '. They were all magazines devoted to education. Shivarama Karantha's ' Bala Prapancha ' an Encyclopeadia in Kannada, in magazine form was being published in parts, was very popular. Molahalli Shiva Rao published a journal ' Sahakari ' (1919) or Co-operation movement.

After the attainment of independence, several newspapers and journals have not only appeared on the scene but also have made a marked progress.

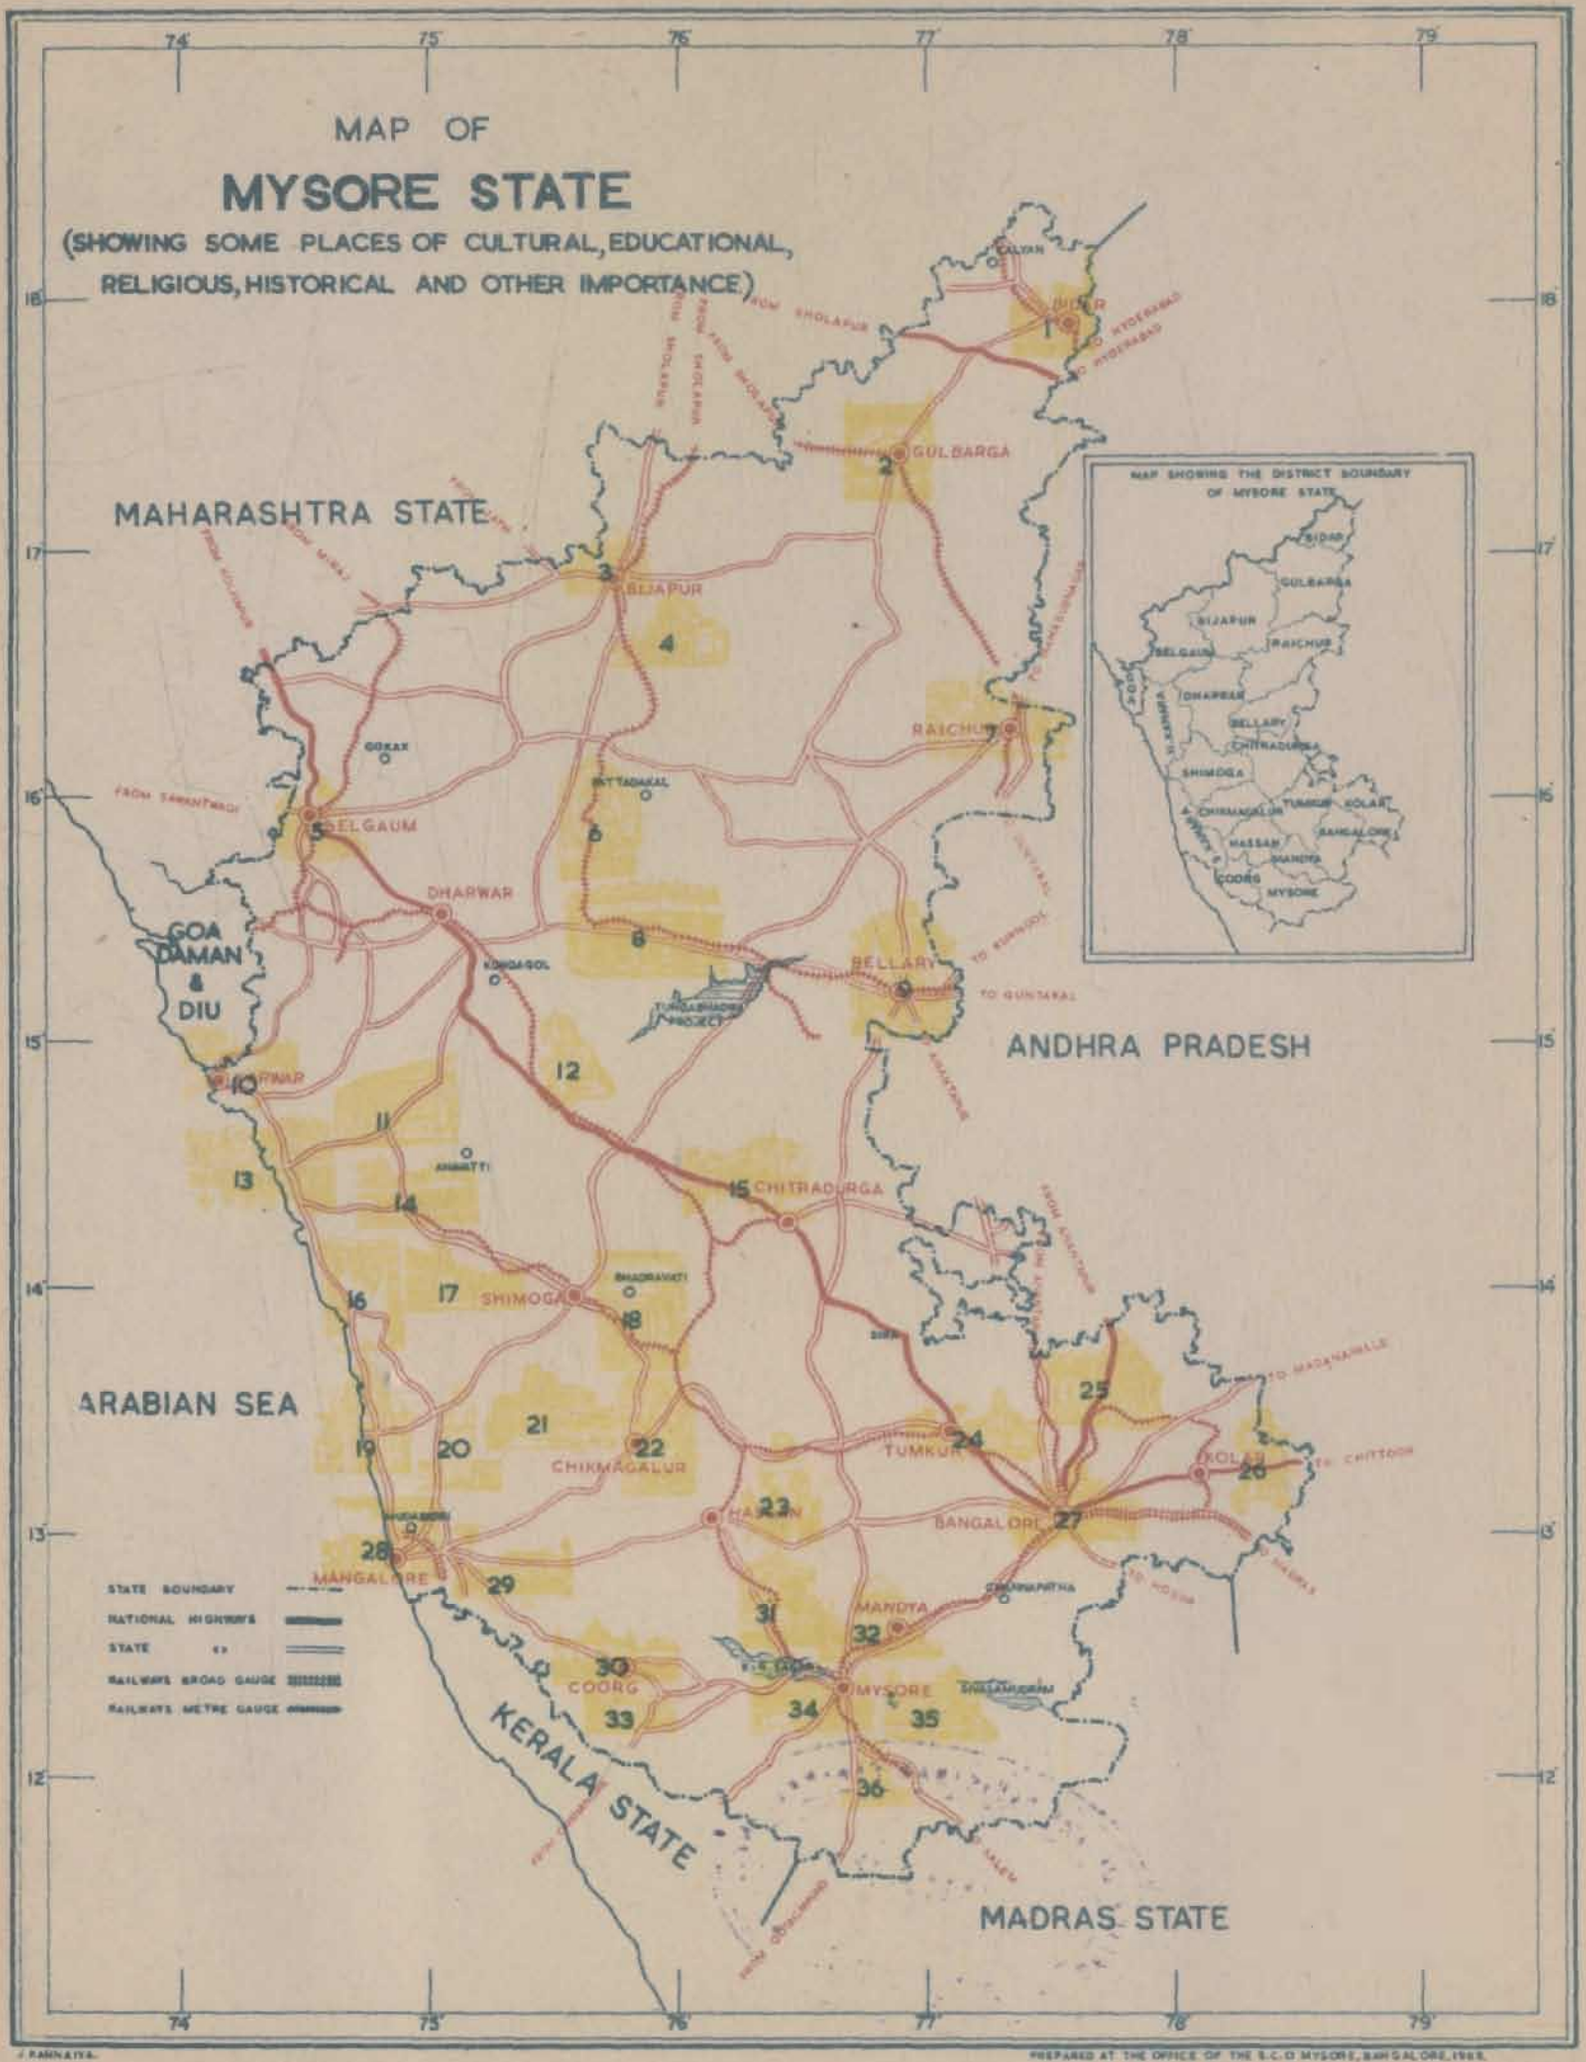

Udayachandra (1947), Sarvodaya (1949), Sangathi (1948), Vicharavani (1950), Shanti-Sandesha (1952), Samachara (1953), Rashtramata (1953), Janapremi (1954), Samajwadi (1955), Dhingaya (1954), Kaliyuga (1954), Prakasha, Raybhari (1952), Sandhyadeepa (1954) are some of those started recently.

There are a number of journals in Konkani and English also. South Kanara has produced a number of able journalists, among whom the name of Sri B. Shiva Rao is worth mentioning.

Though Karnataka started its journalism seven or eight decades after the first newspaper of India was born near Calcutta in 1780, the State's march towards progress in this field is quite noteworthy. It is true that many of the newspapers and journals of old listed above are no more seeing the light of the day. Even then, there are several other current newspapers and journals which have not figured in this survey, brief, it being.
