ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and Non-census statistics at the village and block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises Non-census data.

We are deeply indebted to the State Government for their everwilling and prompt help to us at all stages. The District Census Handbooks are being ublished by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G. A. D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole-hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements made by Sri A. Dar, Superintendent, Printing and Stationery, U.P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, In-charge New Government Press, Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Sri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandra Sekhar, Registrar General, India, Sri K. D. Ballal, and Dr. B. K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA

Director of Census Operations

Uttar Pradesh.

Lucknow

INTRODUCTORY NOTE

1. History of District Census Handbook

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the outbreak of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory.

Part B : Village and Town-wise Primary Census Abstract.

Part C : Analytical Report and Administrative Statements—District Census Tables.

2. Scope of District Census Handbook

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, Drinking water supply, Post and Telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Educational facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by Religion and Scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex, scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and live stock etc., in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. Town Directory—given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as Towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments & Notified Areas.
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three undermentioned conditions :
   (i) Population exceeds 5,000
   (ii) At least 75% of the male working population engages in non-agricultural pursuits, and
   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons per sq. km.).

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) Statement I—This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which the working population under the broad industrial categories has been regrouped into five broad functional classifications.

(i) Primary Activities-Categories I, II, III & IV
(ii) Industry-Categories V (a), V (b) and VI
(iii) Trade and Commerce-Category VII
(iv) Transport-Category VIII and
(v) Services-Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60% or

above, the town is designated as bi-functional. If the total does not yield 60%, the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation

M—Municipal Board

NAC—*Notified Area Committee*

TC—Town Area Committee

CB—Cantonment Board

(b) Statement II—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest city with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The Geographical Co-ordinates of towns given in col. 3 have been supplied by the Director of Regional Meteorological Centre, New Delhi.

(c) Statement III—It reveals the municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) Statement IV—In this statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Col. 3	PR	.....	For	Pucca Road
	KR	.....	,,	Kachcha Road
Col. 4	PT	.....	,,	Pit Tank
	OSD	.....	,,	Open surface drain
Col. 8	B	.....	,,	Basket

	HL	.....	,,	Head Load
	MT	.....	,,	Mechanical Transport
Col. 9	TW	.....	,,	Tube well
	OHT	.....	,,	Overhead Tank

(e) Statement V—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Col. 3	H	.....	For	Hospital
	D	.....	,,	Dispensary
	HC	.....	,,	Health Centre
	FC	.....	,,	Family Planning Centre
	TBC	.....	,,	T.B. Clinic
	MCW	.....	,,	Maternity and Child welfare Centre
Col. 5	AS	.....	,,	Arts and Science College
Col. 17	PL	.....	,,	Public Library
	RR	.....	,,	Reading Room

(f) Statement VI—This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities maunfactured, imported and exported, the number of banks and agricultural as well as non-agricultural credit socities are given in the statement. The commodities mentioned therein are those

having the highest value in currency. In a few cases if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) Statement VII—The Census table C-VII giving distribution of population by religion and scheduled castes/scheduled tribes has been reproduced in this statement. Where sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'others.'

(4) Village Directory—reveals the general living conditions of peasantry and the overall development that has taken place in the countryside. The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, post and telegraph have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market/*hat* and places of religious, historical or archaeological interest is also given in the statement. If the village is uninhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations :

Column 4

JBS	For	Junior Basic School
SBS	,,	Senior Basic School
HSS	,,	Higher Secondary School
C	,,	College
O	,,	Others

Column 5

EA	,,	Electricity for Agricultural purpose

An Appendix has been included summing up the amenities at district level with tahsil-wise break up.

THE DISTRICT

A—Town Directory

(a) Statement I—There is no change in the number of towns in the district since 1961 Census and there are only 2 towns viz., Rae Bareli and Jais. The functional distribution of towns of the district is as below :—

Table 1

	Functional Category	Name of Town
(i)	Services-*cum*-Industry	Rae Bareli
(ii)	Commercial-*cum*-Primary Activities-*cum*-Services	Jais

In Rae Bareli Municipal Board, the headquarters of the district, service class comprising 36.4% predominates followed by 25.1% of the working population in the Industrial group.

Jais Town Area, situate 35 Kilometres from Rae Bareli, is a multi-functional town, with 32.8% of the workers engaged in Trade and Commerce, 27% in Primary Activities and 21% in Services.

(b) Statement II—The physical and locational aspects have been covered in this statement. In altitude, there is a nominal difference between the two towns, but they enjoy the same rainfall and temperature variation. The figures of annual rainfall and the maximum and minimum temperature were not available with the Director of Meteorological Centre, Delhi, so the information given in Columns 4-6 relates to the nearest observatory at Fatehpur

(c) Statement III—The per capita receipt and expenditure by the local bodies in the two towns is as below :

Table 2

		PER CAPITA						
		Receipt (Rs.)			Expenditure (Rs.)			
Class of Towns	No. of Towns	Total Receipt	Receipt through Taxes etc.	Receipt from all other sources	Total expenditure	Expenditure on public health and convenience	Expenditure on public institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9
Class III								
Rae Bareli M. B.	1	20.00	11.1	8.9	19.7	6.4	3.5	9.8
Class IV								
Jais T. A.	1	6.4	2.6	3.8	5.0	0.6	...	4.4

The per capita receipt of Rae Bareli Municipal Board and Jais Town Area is 20.00 and 6 4 respectively. Against this per capita expenditure is 19.7 and 5.0 respectively.

(d) Statement IV—Both the towns have protected water supply and road lighting arrangements but no fire fighting service is available in any of them. Mechanical Transport for removing the night soil has been provided in Rae Bareli, although hand carts and baskets are also used for the purpose.

(e) Statement V—Rae Bareli Municipal Board has 4 Hospitals, 5 Dispensaries, 1 T.B. Clinic, 1 Health Centre, 1 Family Planning Centre and 1 Maternity and Child Welfare Centre, Jais Town Area has 2 Hospitals, 1 Dispensary and 1 Family Planning Centre. The number of beds per 1,000 persons has been shown in the following table:

Table 3

Name of Town	Total No. of beds in Medical Institutions	No. of beds per 1,000 persons
Jais	13	1
Rae Bareli	168	4

The number of beds in the Hospitals in Rae Bareli town has increased from 106 in 1960 to 168 in 1969. In Jais, the increase is from 7 to 13 beds.

A Polytechnic as well as one Degree College with Arts and Science faculties are located in Rae Bareli, but these institutions do not exist so far in Jais. The number of Higher Secondary, Senior Basic and Junior Basic Schools per 1,000 population are given in the following table:

Table 4

Name of Town	No. per 1,000 population		
	Higher Secondary Schools/Inter-mediate Colleges/ High Schools	Junior Basic Schools/Senior Basic Schools	Junior Basic Primary Schools
Jais	0.16	0.16	0.16
Rae Bareli	0.13	0.13	0.44

There are 0.16 Higher Secondary schools per 1,000 population in Jais and 0.13 in Rae Bareli. The institutions below High School level per 1,000 population are 0.32 in Jais and 0.57 in Rae Bareli.

Jais towns has no Cinema hall while Rae Bareli has two.

(f) Statement VI—Both the towns of the district are non-industrial towns and the commodities manufactured in Jais are shoes, wooden planks and Bidi. Bidi is also one of the main items of manufacture in Rae Bareli, besides Ban and fire works. Cloth is imported in both the towns. Other items imported in Rae Bareli are iron and Cement. Utensils and grain are imported in Jais. Oilseed is the main item of export in both the towns. Other items exported pertain to animal husbandry like goat, fish, leather and bone.

(g) Statement VII—The population of both the towns is largely shared by Hindus and Muslims. In Jais towns Muslims comprise 57.8% of the population as against 41.5% Hindus. The religionwise distribution is reversed in Rae Bareli where Hindus are 60% against 37.2% Muslims. The number of persons belonging to other religions is negligible. The percentage growth of Hindu population of these towns during the last decade is 29.86% which is slightly higher than the growth rate of Muslim population which is 27%.

There is no Scheduled Tribe in any of these towns. The percentage of Scheduled Caste to the total population in Jais T. A. and Rae Bareli M. B. is 19.46 and 12.48 respectively. The growth rate of Scheduled Caste population in Jais town during the decade is 33.42% which is higher than the 27.58% growth rate of total population of this town.

But in Rae Bareli M. B. 25.09% per cent growth rate of Scheduled Caste population is less than the corresponding rate of total population which is 29.48%.

B—Village Directory

(a) The villages with reference to their area in acres have been stratified in the following table :

Table 5

Area (in acres)	No. of Villages	Percentage
50 acres or less	15	0.8
51-100	82	4.6
101-200	261	14.6
201-500	682	38.2
501-1000	438	24.5
1001-2000	233	13.1
2001-5000	69	3.9
5001 acres and above	4	0.2
Area merged with other villages	2	0.1

The above table shows that the number of medium size villages, i. e. having an area of more than 200 acres but not more than 1,000 acres is highest claiming the percentage of 62.7. Thereafter the number of villages goes on decreasing as the size fo villages increases. There are only 4 villages of very big size having an area of more than 5,000 acres. As regards smaller villages, there are 15 only having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table;

Table 6

Distance from the nearest town	Total no. of villages	No. of villages having				
		Junior Basic Schools	Senior Basic Schools	Higher Secondary Schools	Colleges	Others
5 Kms. or less	46	10	4	...	...	...
6-10 kms.	83	27	2	1	...	...
11-15 Kms.	130	52	7	1	...	...
16-25 Kms.	338	143	24	6	1	...
26-50 Kms.	1,100	409	68	5	...	...
51-100 Kms.	89	26	2	1	...	...
101-200 Kms.	...	...	...	...	...	...
201 Kms. and above	...	...	...	...	...	...

The above table indicates that most of the institutions exist in the villages situate between 26 to 50 kilometres from the nearest town. The villages which lie within a radius of 5 kms. have least no. of institutions presumably because the students in these areas experience little difficulty in travelling such a short distance to the nearest town for prosecuting their studies. As regards the Higher Secondary Schools, 2 only lie within the radius of 15 Kms. as against 11 such schools in the villages having their distance from the nearest town ranging from 16 to 50 Kms.

(c) 49 villages in district Rae Bareli have hospitals. If all kinds of medical institutions including dispensaries, health centres etc. are taken into account, 101 villages have medical institutions out of the total no. of 1,786 villages.

The following table presents the number of medical institutions per 100 sq. kms.:

Table 7

Tahsil	Total area (in sq. kilometres)	No. of medical institutions of any kind per 100 sq. kilometres
Maharajganj	1201.02	3
Rae Bareli	952.67	3
Dalmau	1268.35	2
Salon	1147.14	2

The above table reveals that in Tahsils Salon and Dalmau there are 2 medical institutions per 100 sq. kms. Maharajganj and Rae Bareli are slightly better provided with three institutions per 100 sq. kms.

(d) 275 villages are electrified in the district out of the total number of 1,786 villages. Their percentage comes to 15.4.

The largest number of electrified villages (77) is in Tahsil Salon and minimum in Tahsil Dalmau (63). Power supply in villages with reference to the distance from the nearest town is given in the following table :

Table 8

Distance from the nearest town	Number of villages		
	Total	Electrified	Percentage of electrified villages to total villages
5 Kms. or less	46	21	(45.7)
6-10	83	28	(33.7)
11-15	130	20	(15.4)
16-25	338	43	(12.7)
26-50	1,100	163	(14.8)
51-100	89	...	...
101-200	...	...	...
201 Kms. and above	...	...	...
Total	1,786	275	(15.4)

The percentage of electrified villages to the total villages is highest i. e., 45.7 for villages which are situated within 5 kilometres from nearest town and the minimum percentage of 12.7 is for those situated at the distance of 16 to 25 kms. from the nearest town. It is evident that the percentage of electrified villages to total villages generally decreases with the increase of distance from the nearest town. This is because of the fact that Power connections are extended from the towns which have already been electrified, and as such villages close to the town are taken up first for electrification.

(e) The means of communications within the radius of one mile from the village have been shown in column 8. As many as 99 villages of the district are connected by Rail. Out of 1,786 villages, 21.6% are connected with Pucca Road and 1.2% villages by both Kachcha and Pucca Roads. The percentage of villages having only Kachcha Roads is 21.1. The nature of communications has been shown in the following table, wherein the villages have been classified according to their distance from the nearest town.

Table 9

Distance from the nearest town	Total No. of villages	No. of villages connected by						
		Pucca Road	Kachcha Road	Pucca & Kachcha Road	Pucca Road & River	Pucca Road & Rail	Kachcha Road & Rail	Others
5 Kms. or less	46	16	5	3	...	3	1	1
6-10	83	31	9	1	...	6	...	1
11-15	130	31	18	8	...	3	...	6
16-25	338	82	75	9	...	5	4	14
26-50	1,100	226	239	...	...	35	42	87
51-100	89	...	31	...	...	...	...	...
101-200	...	...	...	...	...	...	...	...
201 Kms. and above	...	...	...	...	...	...	...	...
Total	1,786	386	377	21	..	52	47	109

It is evident from the above table that the villages nearest to the town have better facilities of communications. On the other hand, the villages situated at a distance of 50 Kms. or more from the towns have no other means of communications except Kachcha roads.

(f) There are in all 226 Post Offices in the rural areas of the district. On an average, 1 Post Office caters to the need of about 8 villages. The number of Post Offices per 100 sq. kms. in the various tahsils has been shown in the following table :

Table 10

Tahsil	Total area (in sq. kilometres)	No. of Post Offices per 100 sq. kilometres
Maharajganj	1201.02	6
Rae Bareli	952.67	4
Dalmau	1268.35	4
Salon	1147.14	4

Tahsil Maharajganj has the highest number of Post Offices, the average being 6 per 100 sq. kms. In the remainig tahsils, the corresponding average is about 4.

(g) Wheat and Rice are the main staple food in the district. In tahsil Salon, Gram is preferred to Rice.

(h) The Cultivated area is 64.95 per cent of the total rural area of the district and out of this only 43.37 per cent is Irrigated area. Hence more than half of the cultivated area has so far no facilities for irrigation.

The following table shows the average cultivated land per village, average cultivable waste per village and its percentage to average cultivated area. The villages in this table have been again classified according to their distance from the nearest town.

Table 11

Distance from the nearest town	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivated waste per village to average cultivated land per village
5 Kms. or less	46	12,560	273	3,572	78	28.57
6-10	83	32,452	391	7,640	92	23.53
11-15	130	59,723	459	15,787	121	26.36
16-25	338	161,477	478	44,552	132	27.61
26-50	1,100	439,468	400	122,645	111	27.75
51-100	89	27,619	310	6,712	75	24.19
101-200	...	...	...	...	...	...
