FOREWORD

THE State of Orissa represents 4·9 per cent of the area and 4·02 per cent of the population of India. Nature has been generous in providing the State with untold wealth in minerals, water, fertile land and forests. The rich alluvial soil in the deltaic areas as well as along the river basins, as also most of the uplands, are capable of producing a large variety of crops. The water-shed areas of the major rivers and hill tracts are covered with vast forests of great economic value. The State has roughly half the mineral wealth of India hidden underground awaiting exploitation. Vast quantities of water flow down the rivers which, fortunately for Orissa, are strategically dispersed over the entire State, and, if harnessed properly, will banish the twin spectre of floods and droughts haunting vast areas of culturable lands, and at the same time provide water for irrigating millions of acres in the coastal areas and upland and for generating large quantities of hydro-electric power for use in industry, and also make available hundreds of miles of irrigation-*cum*-navigation waterways for inland transport, and large areas for fish culture, recreation and tourism. These bounties of nature, the variety of picturesque landscapes and the long seacoast have attracted people from different parts of the country so that through the centuries a fine blend of human material and culture has developed. The ancient maritime achievements and the artistic stone edifices of great archaeological value stand out as symbols of the glorious past heritage.

The Census Operations during the past two decades have revealed many interesting statistical details. The Census Report of 1961 embodied in a number of Handbooks, each devoted to one of the 13 districts of the State, contains descriptive and statistical accounts intended to facilitate comprehensive study of conditions obtaining in a district as well as in the smallest village unit within it. I am happy to note that the plan and the scope of the Handbooks have been so designed as to make them useful books of reference.

The narrative account of each district covering geography, political history, population, education, economic activities, industries, agriculture and many other subjects, present a graphic picture of the district. This, along with the latest Census Tables, giving the social, economic, cultural and demographic data of the district, give an extensive array of statistical record.

A notable feature is the detailed statistics given in the Village Directory in the Handbook for each district, containing various items of information relating to each one of the 46,466 inhabited villages. They furnish very valuable information ,which would provide indispensable material required by research scholars, anthropologists, social workers and people engaged in rural and regional planning.

Another feature of the District Handbooks is that they have been further enriched by inclusion of maps of the districts as well as maps of all the police stations in the district, giving location, boundary and survey and alignment of each village within a police station. Combination of the maps with the informative data will indeed be very useful and is commended as a utility publication of a high order.

I congratulate the Superintendent, Census Operations, Orissa, Shri M. Ahmed, I. A. S., and his colleagues, staff and others who have helped him in producing the Census Reports in the form of Handbooks through remarkable perseverance and zeal. These Census Reports will rank as outstanding works of public utility.

A. N. KHOSLA

Governor of Orissa

PREFACE

AMONG the many gifts of the Census of India, one is the scheme of preparation and publication of the District Census Handbook which was first introduced in 1951. The Registrar General, India, recommended to State Governments that the publication of the District Census Handbooks containing the Census data of 1951 for each district of the State be undertaken by them. In response, a number of States in India undertook the printing of the Handbooks relating to their respective districts at their own cost. In Orissa, however, the printing was not undertaken for reasons possibly of financial nature, but the Census Organization completed its task of preparing manuscript volumes of all the 13 districts of the State. Apprehending that the vast amount of labour and energy spent in the preparation of the complete set of Handbooks for the State would go to waste if printing was not undertaken, the Superintendent of Census Operations took resort to the alternative of cyclostyling about 100 copies of the Handbooks of each district, a measure which ultimately turned out to be no less burdensome than printing, in view of the great bulk of the volumes. These sets were distributed to the State Government, the Central Government and to important institutions and organizations. But it was found shortly afterwards that the demand from various sources was too large to be satisfied with the available number of cyclostyled sets. It was a mistake indeed not to have printed the books.

At the commencement of the Censuses of 1961, the Registrar General, India recommended to all the Chief Secretaries of State Governments in India in his letter No.27/1/60-R.G., dated the 21st November 1960 that the State Governments take into consideration the great importance of the series of detailed statistics available up to the level of village for purpose of rural and regional planning, and agree to print at their own cost the District Census Handbooks of all the districts. The matter was given full consideration and ultimately the Revenue Department in their Memo. No. VC—19/61—13593—R., dated the 13th March 1962 requested the Superintendent of Census Operations, Orissa, to arrange for preparation of the Handbooks and to send the manuscripts to the Orissa Government Press for printing in due course. The compilation of the present Handbook was undertaken by the Census Organization under the circumstances.

The Handbook as now presented is more elaborate than its counterpart in 1951. The main items of its contents were laid down in the scheme of the Registrar General with a view to ensure as far as possible uniformity of subject matter to be embodied in the Handbooks of all the States in India. According to the scheme, the Handbook is divided into 3 parts. Part I contains a Chapter, namely, 'Introducing the District', which is a descriptive account of the district relating to various aspects which a reader might feel inclined to look for before he enters into the vast array of statistics that follow. Subjects, such as, history, physical features, natural calamities, communication, public health, calendar of events and a multitude of others have been dealt with in a brief but comprehensive scale, relevant for a publication of this nature. Part II of the Handbook contains a series of statistical Tables relating to 1961 Census in their great variety an details. Part III contains many official statistics obtained from various Departments of Government. Names of the Departments furnishing the information are mentioned at the bottom of the text.

A considerable portion of this Handbook could not have been compiled but for the co-operation and assistance of the State Government and the respective Departments. The Departments concerned extended their unfailing co-operation in furnishing whatever notes or information were required from time to time. I wish to record my appreciation and thanks for all the co-operation thus received from the Departments of the State Government, particularly from the State Gazetteer section and the statistical units of the Directorates of Health, Public Instruction, Agriculture and Food Production as well as from the offices of the Chief Conservator of Forests, the Registrar of Co-operative Societies, the Director of Community Development and Panchayati Raj and the Regional Director of National Savings, Orissa. I am grateful to the Ministry of Defence, Government of India, for having permitted the publication of the maps contained in this volume, and to the Registrar General, India, for giving an outline of the scheme according to which the Handbook has been prepared and for giving general guidance from time to time.

I am glad to place on record my unstinted appreciation of the zeal and perseverance with which the officers of this organization contributed to the preparation of the Handbook. Many of the facts and figures embodied herein had to be built up with a great amount of diligence from raw materials, some of which were recovered by contact with the lower administrative units and some picked up and

screened from a mass of reports and annual returns lying unchecked with the topmost departmental authorities . This was entrusted to Shri Shiva Kinkar Das, Tabulation Officer, who completed the task with admirable resourcefulness. The compilation of the Tables in Part II entailed strenuous work on the Central Tabulation Branch of my office, headed by Shri V. Rajeshwar Rao, Deputy Superintendent, who took pains for their systematic collation and presentation. Shri Binoy Charan Mohanti, another Tabulation Officer of the organization, was useful in examining economic, industrial and some similar aspects of the district. The text of the political history of the district has been contributed by Dr. N. K. Sahu, M. A., Ph. D., a reputed scholar on the history of Orissa. I am hankful to him for taking trouble to provide an authoritative and illuminating account of the district. Finally, I can visualize the amount of strain which will have to be undergone by the officer who may eventually remain in charge of proof reading and printing, when the stage comes. Without the sincere co-operation of all these officers and the staff under them, it would have been hardly possible to present the formidable array of statistics and many other materials of non-census and census origin which fill the pages of this volume within the scheduled time.

PART I

INTRODUCING THE DISTRICT

Contains

Notes on Location, Boundaries, Physical Features, History, Area and Population, Housing, Administration, Natural Calamities, Communication, Education, Literacy, Economic Activities, Industries, Agriculture, Irrigation, Animal Husbandry, Public Health, Community Development, Panchayati Raj, Co-operation, National Savings, Places of Interest and Calendar of Importan events.

INTRODUCING THE DISTRICT—PURI

LOCATION AND BOUNDARIES

Puri district, which is located centrally in the coastal tract of Orissa, lies between 19°28'N and 20°35'N latitudes and between 84°29'E and 86°25'E longitudes. Its boundaries extend in the north to Cuttack and Dhenkanal districts, in the south to the Bay of Bengal and Ganjam district, in the west to Baudh-Khondmals and Dhenkanal districts and in the east to the Bay of Bengal.

PHYSICAL FEATURES

The district contains two distinct physiographical divisions, namely, a plain alluvial tract in the south and the south-east, and a hilly tract to the north and the north-west. The eastern part has sea coast with a littoral tract of a few miles having a row of sand hills. Beyond this tract, to the north, is a large alluvial country just a few feet above the sea level. This area is mostly subjected to inundation and contains many marshy swamps. Further north are vast stretches of flat fertile rice lands, beyond which the country assumes a varying level interspersed with small patches of forests which mark the beginning of the hilly tracts. The hill ranges in the west and north-western part break the country into small well cultivated fertile valleys intersected by small streams. Unlike the eastern portion, this part of the country has a higher elevation and is above flood level. River Mahanadi flows in the north-eastern boundary and many small rivers traverse the eastern part of the district. Except Mahanadi river which flows from west to east, all others run north to the south. The hilly tracts in the west have many hill streams which fall into the river Mahanadi finally. The Chilka lake, a vast expanse of brackish water with a length of 44 miles and a breadth in the north 20 miles tapering in the south to 5 miles or less lies in the south-western part of the district. It has an average depth of 5 to 6 feet and abounds in fish of estuarian varieties. The water area is approximately 244 square miles during dry season which increases to 450 square miles during the rains. The district has a variety of soils, namely, saline soil in the littoral tract, a vast area of alluvial soil behind the saline strip, laterite soil in the western part and a small patch of black cotton soil in the south-eastern part of the district. An extent of 1415 square miles or 35 per cent of area of the district is covered by forests which are of northern tropica semi-evergreen type. The forests in Nayagarh have a luxuriant growth of sal, piasal, sisu and other timber producing trees. White clay is the only mineral product which is embedded in the core of the earth at Jagannath Prasad.

*Climate and rainfall

The deltaic regions of the district enjoy an equable temperature all the year round. In the inland hilly tracts, the climate is comparatively drier with high temperature in hot months and slightly cooler in winter. The cold season lasts from December to February followed by the hot season from March to May. The period between June and September is the monsoon season while October and November constitute the post-monsoon transition period. The temperature rises continuously from March to May. The mean daily maximum temperature in the month of May is 31·9°C (89·5° F) at Puri and 38·0° C (100·4°F) at Bhubaneswar. With the arrival of the monsoons by about the middle of June, the temperature drops considerably in the interior but the drop is small in the coastal areas. With the withdrawal of the monsoons towards the end of September, the coastal areas experience a light increase in day temperature. In the interior of the district, both day and night temperatures begin to

*Adapted from the notes of Deputy Director General of observatories (Climatology and Geophysics), India Meteorological Department, Poona.

decrease gradually till December which is the coldest month. The mean daily minimum temperature in that month at puri is 17·1°C (62·7°F) and at Bhubaneswar it is 15·7°C(60·3°F).

The average annual rainfall in the district is 1488 mm (58·58"). The rainfall generally decreases from north-east to south-west. The monsoon arrives over the district by about the 2nd week of June and withdraws early in October. About 74 per cent of the annual rainfall is received during the months of June to September, July being the rainiest month. The variation of annual rainfall from year to year in the district is not large. On an average there are 71 rainy days in a year.

Relative humidities are generally high throughout the year in coastal areas but in the interior of the district it is slightly lower particularly in non-monsoon months. Winds are fairly strong particularly in the coastal region in summer and monsoon months. The speed of the wind is much less in the post-monsoon months and in winter. Depressions and cyclonic storms originating in the Bay of Bengal in the pre-monsoon and post-monsoon months pass through the district causing widespread rain and high winds. Thunderstorms, which are sometimes violent, ocour in the pre-monsoon months of April and May as well as in October.

HISTORY

The present district of Puri formed in ancient time a part of the country of Kalinga. In the 4th century B. C, Kalinga was under the rule of Mahapadmananda, the king of Magadha. The Hathigumpha inscription reveals that the Nanda king excavated an aqueduct in Kalinga which was later on extended by Kharavela through Tanasuli (Tosali) and Nagari (Kalinga Nagari). Kalinga Nagari is identified with modern Sisupalgarh in the light of the excavation of the site in 1948. It is suggested that the aqueduct excavated by the Nanda king was located in the region now comprising the Puri district. According to some scholars the river Daya represents the canal originally excavated by Mahapadmananda. After Mahapadma his 8 sons succeeded one after the other to the throne of Magadha and the last Nanda king was overthrown by Chandragupta Maurya with the help of Kautilya. It was probably by that time that Kalinga declared herself independent of Magadha. Neither Chandragupta Maurya nor his son Bindusara attempted to reconquer Kalinga. Asoka, the son and successor of Bindusara invaded Kalinga in the 8th year of his reign in 261 B. C. . The Rock edict XIII of Asoka presents a graphic description of the horrors of his Kalinga war, as an after-effect of which he embraced Buddhism. Kalinga was incorporated into the empire of Magadha and was constituted a separate province under a prince of the blood royal. The political headquarters of Kalinga under Asoka was at Tosali identified with modern Dhauli six miles to the south of Bhubaneswar in Puri district. The Maurya empire began to decline towards the end of the 2nd century B. C. . The last Maurya emperor Brihadratha was murdered by his Commander-in-chief Pushyamitra Sunga in 185 B. C. who started the rule of Sunga dynasty in Magadha. There is no evidence to show whether Kalinga was a part of the Sunga empire or not. About the beginning of the 1st century B. C. the Chedi dynasty became powerful in Kalinga. Kharavela the third ruler of this dynasty was one of the most powerful kings of his time (middle of the 1st century B. C.). The Hathigumpha inscription presents vivid accounts not only of his boyhood but also of his rule as a crown prince and as king of Kalinga. During his boyhood he was carefully educated and he started his rule as crown prince at the age of 15. On completion of the 24th year, his coronation was performed and he was vested with full power. He was a great military genius. He strengthened the fortification of his capital Kalinga Nagari in the first year of his rule and during the 2nd year

mobilised his army towards Asika and reached as far as the river Krishna. In his fourth regnal year he subdued Rathikas and Bhojakas. He twice invaded Magadha, once in his 8th regnal year and again in his 12th regnal year. During his latter campaign Brihaspatimitra the ruler of Magadha surrendered to him. In his 11th regnal year he defeated the confederacy of the Tamil princes among whom the king of Pandya was very prominent. We do not know of the activities of Kharavela after his 13th regnal year. He was probably succeeded by his son Kudepasiri and the latter by Vadukha.

The history of this region after the decline of the Chedi rule till the rise of the Matharas in the middle of the fourth century A. D. remains more or less obscure. There are however evidences to show that the Muruṇda family ruled over this area from the 2nd century A. D. up to the 3rd century A. D. A gold coin belonging to a king named Dharma Damadhara came to light during the Sisupalgarh excavation. This king is considered by scholars to be of Murunda family. About the middle of the 4th century A. D. Samudragupta invaded the Kalinga region. But it is not known whether the present Puri district came under his rule or not. After the retreat of Samudragupta, the Matharas became powerful in Kalinga. They started a small principality round about modern Paralakhemundi which gradually extended into a large empire from the Mahanadi in the north to the river Krishna in the south. The headquarters of the Mathara empire was at Simhapura which was sometimes shifted to Pistapura.

After the fall of Matharas, the Eastern Gangas became powerful in the Ganjam region from about 500 A. D. In the 2nd half of the 6th century A. D. a dynasty named Sailodbhava organized a new kingdom comprising northern parts of Ganjam district and almost the whole of Puri district. The territory was called Kongoda probably bacause it formed out of the portions of Kalinga and Odra countries. It is said that a hero named Pulindasena prayed to God Swayambhu for a glorious ruler and in fulfilment of his prayer a royal person came out of the rocks and was adopted by him. He was called Sailodbhava and the dynasty was named after him. A notable ruler of this dynasty was Madhavavarman who ruled from 610 to 660 A. D. He was at the beginning a feudatory of Sasanka, the ruler of Karnasuvarna. But later on he became independent. The Chinese pilgrim Yuan-Chwang visited Kongoda in 637 A. D. during his rule. He has left a glorious account of the kingdom. Madhavavarman was succeeded by his son Ayasobhita Madhyamaraja who celebrated some Vedic sacrifices. After his death there was a domestic quarrel between his two sons Dharmaraja and Madhava, and the latter was defeated in the battle of Phashika. But his cause was supported by Tivaradeva, king of South Kosala, who attempted to interfere in the affairs of Kongoda. The combined army of Madhava and Tivaradeva was defeated by Dharmaraja. In 736 A. D. a new dynasty named Bhauma-Kara rose to power in Utkala. Sivakara I Unmatta Simha, a powerful ruler of this dynasty drove out the Sailodbhavas and occupied Kongoda. During the Bhauma-Kara rule a new territory known as Airavatta Mandala was organized comprising the modern Nayagarh-Khandapara region of Puri district. The territory was under the rule of the chiefs of Nandodbhava family who were the feudatories of Bhauma-Karas. The Daspalla region of the district was a part of Khinjalimandala under the rule of the Bhanja kings who were also the feudatories of the Bhauma-Karas.

About the middle of the 10th century A. D. the rule of the Bhauma-Karas was supplanted by that of the Somavamsis. Yayati-II Mahasivagupta was the first Somavamsi king to occupy Eastern Orissa. He and his son Udyota Mahabhavagupta were great temple builders and the Lingaraj temple at Bhubaneswar has been attributed to them. The last king of this dynasty was Karnadeva who was defeated and killed by Chodaganga Deva about 1110 A. D. Famous

ples like Lingaraj, Brahmeswara, Mukteswara and Rajarani were constructed by the Somavamsi kings at Bhubaneswar. Chodaganga Deva who conquered Utkala was a great patron of Vaishnavism and constructed the famous temple of Jagannath at Puri. From his time onwards the religious centre of gravity in Orissa shifted from Bhubaneswar to Puri. The Sun temple at Konarak was built by the Ganga ruler Narasimha I who ruled during 1238—1264 A. D. The Ganga kings ruled up to 1434 A. D. when the throne was seized by Kapileswar Rautray, the minister of the last Ganga King Bhanu Deva IV. Kapileswar Deva started the rule of Solar dynasty. He was a great warrior and is generally regarded as the greatest king of Orissa after Kharavela. He was succeeded by his son Purusottam Deva in 1467A.D.He was at first defeated by Bahamani Sultan Mahamad III and Saluva Narasimha, the ruler of Chandragiri. But later on he retrieved his prestige and power and over-ran the Godavari and Krishna Doab. Saluva Narasimha who had by that time usurped the throne of Vijayanagar was defeated by him. Purusottam married his daughter Rupamvika and brought from Vijayanagar the idols of Gopala and Ganesh as well as the Ratna Vedi on which the images of Jagannath stand at present inside the sanctum of the Puri temple. He was succeeded by his son Prataprudra Deva in 1497 A. D. In 1512 A. D. Krishna Dev Ray, king of Vijayanagar invaded Orissa and Prataprudra Deva being defeated ceded some of his territory to Krishna Dev Ray who married one of his daughters. Sri Chaitanya visited Orissa during the time of Prataprudra Deva and the town of Puri became a seat of his activities. Famous poets and philosophers like Balaram Das, Jagannath Das and Achutananda popularised the cult of Jagannath during that time. After Prataprudra Deva, his minister Govinda Bidyadhar usurped the throne and ruled up to 1549. After him there followed a period of anarchy which lasted up to 1559 when Mukunda Harichandana became the ruler of Orissa. Orissa passed into the hands of the Afghans after the death of Mukunda Deva in 1568 A. D. and subsequently in 1592 A. D. Mansimha established the Mughal rule.

In 1568 A.D. Ramchandra Deva-I, the son of Danai Bidyadhar, minister of the king Govindabidyadhar declared himself as Raja of Khurda. In 1592 A.D.he was recognised by Mansimha not only as the successor of the former Gajapati line of kings but also as the controller of Jagannath temple at Puri. His successors continued to rule over Khurda kingdom and were honoured as Gajapati Kings. During the rule of Birkishore Deva Orissa was occupied by the Marhattas in 1751 A. D. In 1760 A.D. Narayan Deva the ruler of Khimidi invaded the Khurda kingdom and Birkishore Deva could defeat him with the help of the Marhattas as a result of which a portion of his territory including Purusottamkshetra was taken away by the Marhattas.The British occupied Orissa in 1803 A. D. Mukunda Deva-II, Raja of Khurda at the beginning helped the British, but later on became hostile towards them and revolted against the new Government with the help of the Rajas of Kanika, Kujang and other chiefs. Subsequently the Raja was defeated and his territory was confiscated. He was sent as a prisoner to the fort of Barabati, Cuttack and later on removed to Midnapur. He was, however, released in 1807 A. D. and was allowed to live in the palace at Balisahi in Puri town. In 1817 A. D. the Paiks of Orissa revolted against the maladministration and economic extortion of the British Government. The leader of the Paiks was Bakshi Jagabandhu Bidyadhar who was a commander of the forces of the Raja of Khurda. The Paik rebellion was a formidable one and the British Government for a time was on its last leg in Orissa. But the Paiks being inferior in number and equipment could not successfully encounter the well disciplined and better armed troops of the British and the rising was suppressed with strong hands. Raja Mukunda Deva died a captive in November, 1817 A. D. He was the last king of Khurda and after him his successors came to be known as the Rajas of Puri.

During 1818—1828 A. D., Puri and Khurda were under the administration of a Joint Magistrate and Deputy Collector whose headquarters was located at Khurda. In 1829 A. D. the district of Puri was formed and the same year the headquarters was shifted from Khurda to Puri town. The Indian National movement had its impact in Orissa and the Satyabadi school founded by Pandit Gopabandhu Das played a great role in the movement. The school was closed in 1926 A. D. due to apathy of the Government.

The district took active part during the Salt Satyagraha of 1930 A. D. and the Quit India Movement of 1942 A. D. After independence of India the district made rapid progress in development works. The area of the district was considerably enlarged when on 1st January, 1948 the ex-states of Ranpur, Nayagarh, Khandpara and Daspalla were added to it. These ex-states at present constitute the Nayagarh subdivision of the district.

AREA AND POPULATION

Area

Puri district extends over an area of 4,043·3 square miles according to the estimate of local Revenue authorities. Neither the jurisdiction of the district nor the district boundaries have undergone any change during the decade 1951-61. The area of the district according to the Surveyor General, India, stands at 3,999 square miles. The difference of 44·3 square miles cannot be reconciled as the Surveyor General does not maintain the record of the administrative units below the district level. The area of the smaller administrative units as obtained from the local authorities have been added to find out the total area of the district indicated above. This figure is adopted for the calculation of density and similar other purposes. The divergent methods of survey followed by the Surveyor General, India and the local authorities may account for the difference in the two figures.

Area of the lower units

The district is divided into four subdivisions having twenty-nine police stations for administrative convenience. The Table A-I of the General Population Tables gives the particulars of area, density, villages, towns, houses, households and sexwise population of each of the administrative units. However, the area of each subdivision together with the number of police stations contained in each of them is given below:

District/Subdivision	Area in		No. of police stations
	Sq. miles	Sq. Kms	
Puri District	4,043·3	10,472·3	29
Sadar Subdivision	1,409·3	3,650·2	10
Bhubaneswar Subdivision	332·0	860·0	5
Khurda Subdivision	739·0	1,914·0	5
Nayagarh Subdivision	1,563·0	4,048·1	9

Territorial changes

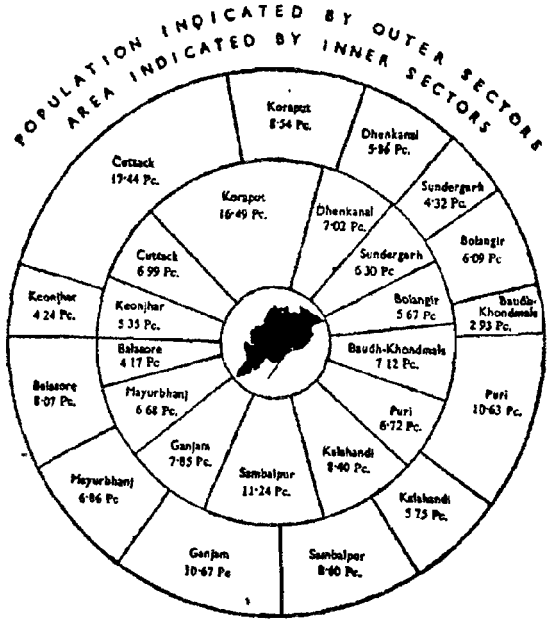

Balianta and Balipatna police stations of Sadar subdivision together with Bhubaneswar, Chandka and Jatni police stations of Khurda subdivision have been grouped together to form a new subdivision, namely, Bhubaneswar. Except the formation of this new subdivision, no other territorial changes have taken place.

Comparison with other districts

The district having 6·72 per cent of the State's area and 10·63 per cent of the State's population occupies the eighth and third places respectively among the thirteen districts of the State. The following diagram gives an impression of the size

and population of the district compared with other districts.

PERCENTAGE OF POPULATION AND AREA OF DISTRICTS

Town

A town is a continuous group of houses inhabited by usually not less than 5,000 persons which, having regard to the character of population, the relative density of dwelling, the importance of the place as a centre of trade, administration and human associations, the Census authorities decide to treat as a town for Census purposes. One important test with regard to the character of the population is that there must be a considerable preponderance of inhabitants dependent on non-agricultural professions as means of livelihood.

Khurda and Nayagarh have been declared as towns in 1961, in accordance with the liberal interpretation of the above definition. This has increased the total number of towns in the district to five. The classification of the towns by population in 1961 Census with variation from 1941 is given in Table A-IV of the General Population Tables. However, the towns with their class sizes are given below :

Class of town	Name of town	Population		
		Persons	Males	Females
Class II	Puri	60,815	33,626	27,189
Class III	Bhubaneswar	38,211	22,580	15,631
Class IV	Jatni	16,068	8,638	7,430
Class IV	Khurda	12,497	6,465	6,032
Class V	Nayagarh	5, 15	3,311	2,504

Village

A village means a revenue village or a Mouza other than that which is absorbed within the area of a town or a city. It may contain one or many groups of houses or hamlets or on the other hand contain no houses at all. The number of inhabited villages in the district which increased from 4,405 in 1941 to 5,068 in 1951 declined sharply to 4,374 in 1961. The variation of the number from decade to decade can be attributed to various circumstances, such as, merger of small hamlets with big villages or emergence of big hamlets as independent villages. The number of uninhabited villages has increased from 629 in 1951 to 663 in 1961. The percentage of villages classified by the size of population and the percentage of population living in them are given in the following statement along with the respective figures for the State for comparative study.

Village with population of	Census year	Puri		Orissa	
		Percentage of No. of villages to total No of villages	Percentage of population to total population	Percentage of No. of villages to total No. of villages	Percentage of population to total population
Less than 500	.. 1951	84·71	55·81	84·00	51·70
	1961	75·40	40·01	77·80	41·66
500—999	.. 1951	12·06	27·25	12·09	28·69
	1961	17·33	30·19	15·78	30·30
1,000—1,999	.. 1951	2·68	12·04	3·41	15·24
	1961	5·78	19·15	5·41	20·24
2,000—4,999	.. 1951	0·53	4 53	0·49	4·25
	1961	1·40	9·36	0·97	7·25
5,000—9,999	.. 1951	0·02	0·37	0·01	0·12
	1961	0·09	1·29	0·04	0·55

The decline in the percentage of small villages with less than 500 population and the percentage of population living in them, and the corresponding increase in the medium sized villages with population of 500 to 1,999 and large sized villages with population of 2,000 and above compares favourably with the respective percentages in the entire State. The conspicuous rise in the percentage of big villages with population of 2,000 to 4,999 and 5,000 and above and the percentage of population living in them signifies growth of rural areas during the decade 1951-61.

Density of population

The density of 461 persons per square mile is much above the State average of 292 persons The density of 389 persons per square mile in 1951 Census was also much higher than the then State figure of 244 persons per square mile. The increase in the density of the district during the decade is commensurate with the growth of population. The rural and urban densities are 433 and 2,857 persons per square mile respectively. Column 4 of the Table A-I gives the density of each administrative unit in the district. The density of each police station above or below that of the district as well as that of the State is given below along with the density of 1951.

Police stations with density above that of the district			Police stations with density below that of the district but above that of the State			Police stations with density below that of the State		
Name of PS	1951	1961	Name of PS	1951	1961	Name of PS	1951	1961
Puri Town PS	7,547	9,356	Banpur	331	380	Krushnaprasad	52	66
Sadar	539	620	Khandpara	374	454	Brahmagiri	236	287
Satyabadi	694	790	Odagaon	250	302	Chandka	252	281

Police stations with density above that of the district			Police stations with density below that of the district but above that of the State			Police stations with density below that of the State		
Name of PS	1951	1961	Name of PS	1951	1961	Name of PS	1951	1961
Delang	721	795	Ranpur	289	341	Gania	113	140
Pipli	723	853				Daspalla	112	129
Nimapara	683	814				Nuagaon	140	174
Gop	493	576						
Kakatpur	557	678						
Bhubaneswar	727	1,121						
Balipatna	844	968						
Balianta	835	927						
Jatni	799	933						
Khurda	491	553						
Tangi	457	609						
Begunia	448	481						
Bolgarh	619	775						
Nayagarh	524	669						
Fategarh	473	512						
Sarankul	411	504						

The six police stations mentioned in the last group of the above statement are the sparsely populated areas which have recorded low density. The four police stations in the second group have recorded higher densities above that of the State, but they are much below the district average. The nineteen police stations in the first group are the thickly populated areas of the district. The high rate of density in these police stations contribute to the high density of the district exceeding the State figure.

Growth of population

The statement below shows the growth of population of the district from decade to decade.

Year	Population	Percentage variation
1901	1,325,575	..
1911	1,351,525	+ 2·0
1921	1,214,573	—10·1
1931	1,346,602	+10·9
1941	1,455,888	+ 8·1
1951	1,572,262	+ 8·0
1961	1,865,439	+18·7

The population of the district which was decimated after the great famine of 1866 partially recovered by the time Census was taken in 1872. The growth was accelerated during the following ten years with a gain of 17·6 per cent, but during the next two decades, namely, in the Censuses of 1891 and 1901, the growth of population slowed down, the percentage of increase being 5·6 and 9·4 respectively. This growth took place in spite of some adverse conditions like failure of crops, floods and the cyclone in the year 1891 and food scarcity in 1897. During the first decade of the present century the rate of growth fell down to a very low percentage. In 1901, there was a partial loss of winter paddy in Khurda and along the borders of Chilka lake. Although the years 1902 to 1904 were good from the harvest point of view, the next four years faced with failure of crops and various other distresses which led deaths to outnumber births. Mortality was great in 1908 on account of a serious outbreak of cholera but the last two years of the decade had good harvests and improved conditions. Consequently there was only a small increase of 25,950 persons or 2·0 per cent over the population of 1901.

From 1911 came a decade of unfavourable circumstances as in other coastal districts of Orissa. The decade began with deficiency of rainfall in 1911 and excess rainfall followed by a cyclone in October 1912. There was outbreak of cholera which led to the rise in death rate. Next four years from 1913 to 1916 were prosperous on the whole. Heavy rainfall in November, 1917 washed away the ripe crop and there was food scarcity in the areas round the Chilka lake which along with fever raised the death rate. This was followed by a disastrous outbreak of influenza in 1918 which continued till the year 1919 in full force. Floods in 1917, serious drought in 1918 and the influenza epidemic of 1918-1919 raised the death rate in 1919 to an unprecedented height of 70·3 per mille. The number of deaths in 1919 was twice the number of births. During all these years, birth rate was gradually sinking, reaching 35·6 in the year 1920. As a result there was decrease in population when the Census was taken in 1921. The population of the district came down from 1,351,525 in 1911 to 1,214,573 in 1921 with a decrease of 136,952 or 10·1 per cent.

The opening year of the decade 1921-30 had the continuing effects of the natural calamities of the previous decade and the number of deaths was in excess of the number of births. There was improvement during the years 1922 and 1923 on account of good harvests and absence of epidemics and a portion of the loss sustained in the previous decade was recouped. The following three years relapsed into unhealthy and unfavourable conditions with the advancement of a virulent type of malaria in 1925. In 1926 there was smallpox epidemic and high floods which resulted in further deterioration till 1927. The year 1928 and the remaining two years of the decade brought bumper crops and there was also no natural calamity. Cholera practically disappeared during these years. General health of the people was good and the birth rate was markedly high. This led to the increase of population to an extent of 132.029 or 10·9 per cent over the population of 1921, which is the highest during the last fifty years.

The period 1931-40 was one of general progress and advancement. Public health during the decade was much better than it was previously, but the district was not completely free from epidemics and other diseases. The year 1932 was unhealthy because of extensive outbreak of cholera, smallpox, dysentery and diarrhoea. The latter being in epidemic form carried away 5·1 per mille of the population. Cholera was practically an annual visitor to the district along with dysentery and diarrhoea. In 1938 and 1939 there was a heavy loss of lives again from these epidemics. Malaria had extensively spread over the district during the decade particularly affecting the Sadar subdivision and the villages bordering

the Chilka lake especially under Banpur and Tangi police stations and in Parikud. The sufferings from malaria around the Chilka lake was so great that it attracted the attention of the Provincial Government who organized remedial and research measures to prevent its recurrence. There was insufficient rainfall during the years 1931, 1934, 1935 and 1937 which was not conducive to good harvests. There was also a very heavy rainfall in 1933 when the district experienced one of the heaviest floods. Extensive relief operations were organized to remove the distress. In the year 1936, the weather conditions were not favourable and the harvest was below normal. There was a cyclone in October 1938 which damaged the crop particularly in Krushnaprasad police station. The coastal tracts suffered not only from drought but also from overflow of saline water. In the year 1938, there were also high floods which caused breaches to embankments and damage to standing crops. Gratuitous relief was given in the flood affected areas till December but emigration to Calcutta, Rangoon and Jamshedpur increased to a great extent. In 1939, the Sadar subdivision considerably suffered from floods in August and September and there was poor outturn of crop. In 1940, the district also suffered from excessive rainfall. In spite of all these adverse conditions, prosperity of the people became so deeprooted during the decade, that an increase of population to the extent of 109,286 or 8·1 per cent over the population of 1931 was the result of the Census of 1941.

The decade 1941-51 is noted for some adversities. In November 1942, a severe cyclone accompanied by heavy rain passed over the district causing considerable damage to crops, cattle and houses. This necessitated distribution of gratuitous relief and grant of taccavi loans to the distressed people for construction of houses and purchase of seeds and cattle. Ring bunds in Parikud were reconstructed at a heavy cost to provide employment to the people and to prevent lands from being flooded by the salt water of Chilka. Grain golas were also opened in scarcity areas. In the years1943 and 1944, floods visited the district for a number of times. Shortage of foodgrains in deficit areas was met by export from surplus areas. There was excessive rainfall in the year 1946 during the sowing and flowering season which resulted in poor outturn of paddy. In 1947, the rainfall was not only inadequate but uneven in different months which also affected the crops. There was deterioration in public health during the decade. The district suffered extensively from dysentery, cholera and diarrhoea, particularly in the first half of the decade. The outbreak of smallpox in 1945 carried away a large number of men. The district, particularly the Sadar subdivision, and the areas round the Chilka lake, became very malarious. The material and health conditions were, however, better than in Cuttack and Balasore districts. The Census of 1951 showed a satisfactory growth of population in the district having an increase of 116,374 persons or 8·0 per cent over the population of 1941. The growth was partly due to establishment of the State Capital at Bhubaneswar.

The last decade 1951-61 is definitely a period of economic prosperity. Occasional flood occurring in 1955,1958 and 1960 have not adversel affected the material conditions of the people. There has been agricultural development and the yield of crops is very good. Public health had shown marked improvement. Malaria and smallpox are no longer seen in epidemic form. Major part of the district is covered by the National Extension Service and Community Development Blocks. Apart from the diversified activities in the field of agriculture, animal husbandry, education, public health and social welfare work under the two five-year plans, delta irrigation works as a flood protection measure are in full swing. Trade and Commerce have also expanded. The decade with its economic prosperity has also the highest growth of population unknown in the previous decades. The percentage growth in each of the police stations is given below.

10—19·9 per cent			Above 20 per cent		
Name of PS		Percentage	Name of PS		Percentage
Sadar	..	17·50	Brahmagiri	..	20 75
Satyabadi	..	13·87	Kakatpur	..	21·81
Delang	..	10·29	Tangi	..	21·47

Daspalla	..	19·59			
Ranpur	..	16·66			

None of the police stations in the district has recorded less than 10 per cent growth, the minimum being 10·29 per cent in Delang police station. Eighteen police stations in Column 1 have recorded growth of varying percentages between 10·29 and 19·21. The percentage of growth in the eleven police stations mentioned in the other column have exceeded the State average of 19·82 per cent. In spite of the spectacular increase in the population in each of the police stations, the district average of 18·7 per cent has not crossed the State average of 19·82 per cent.

Urban Population

The statement below shows the growth of urban population from decade to decade :

Year		Persons	Decade variation	Percentage decade variation	Males	Females
1901	..	49,334	..	..	25,932	23,402
1911	..	39,686	— 9,648	—19·56	22,905	16,781
1921	..	38,694	— 992	— 2·50	21,805	16,889
1931	..	37,568	— 1,126	— 2·91	20,703	16,865
1941	..	41,055	+ 3,487	+ 9·28	22,705	18,350
1951	..	75,544	+34,489	+84·01	41,734	33,810
1961	..	133,406	+57,862	+76·59	74,620	58,786

Puri, which was the only town in the district till 1951, has not recorded satisfactory growth of urban population. The population declined during the three decades ending in 1911, 1921 and 1931. Favourable trend in the growth of urban population is noticed for the first time in 1941 when the population increased by 9·28 per cent. The addition of two new towns, namely, Bhubaneswar and Jatni in 1951 Census contributed to the high percentage of growth during the decade 1941-51. The rise in the percentage of urban population during the decade 1951-61 is the result of the inclusion of two more new towns, namely, Khurda and Nayagarh. The number of females is less than that of the males in all the decades.

Age

In 1951 the Age Tables were tabulated on 10 per cent sample basis. But a departure has been made in the present Census by compiling the Tables on full count basis. The sex-wise population in the broad age-groups according to 1961 Census is given below.

Age-group		Persons	Percentage of District population	Males	Percentage of District population	Females	Percentage of District population
All ages	..	1,865,439	100	930,663	49·9	934,776	50·1
0—14	..	716,857	38·4	357,561	19·2	359,296	19·2
15—34	..	602,268	32·3	297,333	15·9	304,935	16·4
35—59	..	436,723	23·4	224,534	12·0	212,189	11·4
60+	..	108,518	5·8	50,547	2·7	57,971	3·1
Age not stated	..	1,073	0·1	688	0·1	385	N

Children in the age-group 0—14 constitute 38·4 per cent of the total population while the persons in the working age-groups 15—34 and 35—59 are 55·7 per cent. Old persons of 60 years and above are 5·8 per cent, and 0·1 per cent could not state their age. The percentage of females in the age-group 35—59 is less than that of the males. Further division of the above age-groups is given in Table C-III of the Cultural Tables.

Sex Ratio

The sex ratio of the district from decade to decade is given below along with the ratio of the State for comparison.

		Puri			Orissa		
Year		Total	Rural	Urban	Total	Rural	Urban
1901	..	1,008	1,012	902	1,037	1,039	967
1911	..	1,022	1,033	733	1,056	1,058	947
1921	..	1,096	1,108	775	1,086	1,089	963
1931	..	1,078	1,087	815	1,067	1,071	924
1941	..	1,082	1,091	808	1,053	1,058	914
1951	..	1,029	1,042	810	1,022	1,029	881
1961	..	1,004	1,023	788	1,001	1,015	807

The rise in the sex ratio during 1911 and 1921 was arrested in 1931 when the sex ratio declined. In 1941 the sex ratio went up again but declined during 1951 and 1961. The sex ratio for the district and the rural areas is above that of the State during all the decades from 1921 to 1961. However, the urban sex ratio which has fluctuated from decade to decade is below that of the State in all the decades.

Marital Status

The marital status of all persons in the district according to the broad age-groups is furnished in the Table C-II of the Cultural Tables. The marital status of 1,000 persons of each sex in general population compared with previous Censuses of 1951 and 1941 are given below :

	Males			Females		
Marital Status	1961	1951	1941	1961	1951	1941
Never Married	502	450	503	415	373	350
Married ..	471	522	458	464	474	463
Widowed ..	24	28	39	118	153	187
Divorced/Separated ..	2	NA	NA	2	NA	NA
Unspecified ..	1	NA	NA	1	NA	NA

The proportion of unmarried females gradually increased from 1941 to 1961 while the proportion of never married males which abruptly declined in 1951 had a rise in 1961. The proportion of married persons of both sexes has displayed similar trends having an increase in 1951 and decrease in 1961. The ratio of widowed persons of both sexes has manifested downward trend from decade to decade. As it is desirable to make a similar comparison of married persons in different age-groups, the distribution of 1,000 persons by age-groups in each sex compared with the previous Censuses of 1951 and 1961 is given below :

	Males			Females		
Age-groups	1951	1951	1941	1961	1951	1941
0—14 ..	7	12	6	17	41	36
15—34 ..	422	400	409	603	601	642
35—54 ..	422	439	449	318	316	285
55 and above ..	148	149	136	62	42	37
Age not stated	1	..	.	N	..	..

The negligible proportion of married persons in the age-group 0—14 indicates the gradual disappearance of child marriage. While the proportion of married females is the highest in the age-group 15—34 in all the decades, the proportion of males is the highest in the age-group 35—54 during the decades 1941 and 1951. In 1961, the proportion of males in the age-groups 15—34 and 35—54 is equal. The ratio of married females in the age-group 55 and above has increased from decade to decade while fluctuation is noticed in the case of males.

Religion

The distribution of population by religion is given in Table C-VII of the Cultural Tables. The distribution of 1,000 persons in all the principal religions of the district from 1941 to 1961 is given below :

	1961	1951	1941
Hindus ..	980	980	980
Muslims ..	19	19	19
Christians ..	1	1	1

The above figures indicate consistency in the proportion of all the major religions in different decades.

Migration

The movement of population within the district or from one district to another within the State or beyond the State is generally necessitated by economic reasons or social ties. Place of birth determines the extent of migration. The following statement gives the absolute figures and percentages.

	Persons	Males	Females
Persons born at place of enumeration	1,291,699 (69·2%)	837,385 (90·0%)	454,314 (48·6%)
Persons born elsewhere in the district of enumeration	471,766 (25·3%)	58,379 (6·3%)	413,387 (44·2%)
Persons born in other districts of the State	80,265 (44·3%)	23,533 (2·5%)	56,732 (6·1%)
Persons born in other States in India	14,708 (0·8%)	8,016 (0·9%)	6,692 (0·7%)
Persons born in countries outside India	4,216 (0·2%)	2,120 (0·2%)	2,096 (0·2%)
Unclassifiable ..	2,785 (0·2%)	1,230 (0·1%)	1,555 (0·2%)
Total ..	1,865,439	930,663	934,776

It appears from the above statement that 69·2 per cent of the total population of the district are enumerated at their birth places. 90 per cent of the males and 48·6 per cent of the females are born at the place of enumeration which suggest that female migrants constituting 51·4 per cent outnumber their male counterparts who constitute only 10 per cent. 6·3 per cent of the males and 44·22 per cent of the females are born in the district of enumeration while 2·5 per cent of the males and 6·1 per cent of the females are born outside the district but within the State. 1·2 per cent of the males and 1·1 per cent of the females have come from outside the State. The predominance of females in all the categories of migrants except those coming from outside the State indicates that they have moved from one village to another or from one police station to another consequent to their marriage while participation in economic activities may be the secondary aspect. Majority of the males appear to have moved out of their birth places for economic pursuits.

The influence of migration has considerable effect on the growth of population during the decade. Some of the police stations which have recorded high percentage of growth above 25 per cent are already mentioned earlier. If the percentage growth is analysed, the extent of migration in each police station could be detected. The analysis for two police stations is given below after excluding the migrants living for more than ten years in order to estimate the percentage of population movement during the decade 1951-61.

Name of police station	Percentage increase of population 1951—61	Percentage of migrants to total population of police station who are born			Percentage of rural immigrants to rural population
		Within the same district	Outside the district but within the same State	Outside the State	
Bhubaneswar ..	54·18	7·62	0·43	0·04	16·71
Krushnaprasad ..	27·74	9·33	1·75	0·03	11·12

The above figures indicate that the migrants within the district constitute the highest percentage in both the police stations. Migrants from outside the State are negligible in the above police stations.

Duration of residence usually determines the purpose of migration and the following statement shows the period of residence of all migrants in the district.

Duration of residence	Born elsewhere in the district of enumeration		Born outside the district but within the State of enumeration		Born outside the State but within the country		Born outside the country	
	Males	Females	Males	Females	Males	Females	Males	Females
Less than 1 year	8,210	24,777	3,597	5,207	1,258	1,150	101	322
1— 5 years ..	15,460	82,560	4,581	12,499	1,369	1,092	478	453
6—10 years ..	6,602	57,907	3,325	7,668	672	854	101	238
11—15 years ..	5,711	56,232	2,381	8,574	1,287	860	183	506
16 years and over ..	20,009	184,734	8,785	22,183	3,311	2,630	1,217	573
Period not stated ..	2,387	7,177	864	601	119	106	40	4

The 'Unclassifiables' are excluded from the above figures due to their insignificant number. 42,884 males and 276,292 females have lived for more than a decade and may have to be regarded as semi-permanent or permanent migrants. Out of them 25,720 males and 240,966 females were born within the district. 10,700 males and 66,667 females have stayed for periods varying between 6—10 years of whom the majority in both sexes were also born within the district. Majority of the males might have migrated for jobs, but the females appear to have moved out consequent to their marriages besides some economic pursuits. 21,888 males and 96,604 females have resided for periods varying between 1—5 years of whom the majority in both sexes are within the district. It can be reasonably inferred that marriage is the main reason for the female migration. Some of the males might have been born in the parental residence of their mothers while the rest might have gone out in search of jobs. Persons who have stayed for less than a year can be deemed as casual migrants.

The classification of the migrants into nine industrial categories of workers and non-workers is given below:

	Industrial category	Born elsewhere in the district of enumeration		Born in other districts of the State		Born outside the State	
		Males	Females	Males	Females	Males	Females
I	As Cultivator ..	13,023	12,844	2,823	1,985	560	27
II	As Agricultural labourer ..	5,457	14,583	825	1,509	109	7
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities ..	1,622	2,857	629	221	222	5
IV	At Household Industry ..	2,559	15,661	855	1,328	151	45
V	In Manufacturing other than Household Industry ..	921	2,036	607	252	300	13
VI	In Construction ..	568	16	903	10	278	..
VII	In Trade and Commerce ..	2,391	2,585	1,341	647	1,248	101
VIII	In Transport, Storage and Communications ..	1,204	19	1,300	57	1,696	22
IX	In Other Services	12,548	8,033	6,203	1,814	843	825
	Non-workers	18,086	354,753	8,047	48,909	2,609	5,647

Migrants from outside the country are not included as they constitute a small fraction. The participation of large number of females in Categories I, II, IV and IX shows that they are economically active along with their husbands. Female workers in small number are found in other categories. The female non-workers are the highest in all categories.

The following statement shows the extent of in-migration and out-migration from the selected States :

State:	Immigration		Emigration	
	Males	Females	Males	Females
Andhra Pradesh ..	1,837	2,298	182	185
Assam ..	216	85	614	261
Bihar ..	1,040	466	983	543
Madhya Pradesh ..	723	233	Not available	
Madras ..	435	286	Not available	
Punjab ..	424	403	14	2
Rajasthan .	374	188	1	..
Uttar Pradesh .	552	225	Not available	
West Bengal ..	2,089	2,022	Not available	
Outside India:				
Pakistan ..	1,993	2,003	Not available	
Nepal ..	92	55	Not available	

The immigrants from the States of Andhra Pradesh, Bihar and West Bengal and from Pakistan constitute the largest number in both sexes. The above figures indicate that they have moved with their families. Piligrim centres of all-India importance which are located in the district appear to have attracted people from all the States. The number of emigrants to Bihar is the largest presumably for better economic pursuits in industrial towns. Employment in Assam Tea Plantations has also attracted a small number of emigrants. As the information regarding emigrants is not available from most of the States it is not possible to work out the net migration of the district.

Scheduled Tribes

A person is said to belong to a Scheduled Tribe, if he belongs to any one of the tribes specified in the Scheduled Castes and Scheduled Tribes List (Modification) Order, 1956. There is no clear indication of the criterion for specifying Scheduled Tribes, but it appears that the following aspects were taken into consideration, namely, (*i*) tribal origin,(*ii*) primitive way of life and habitation in remote and less accessible areas and (*iii*) general backwardness. 62 tribes are notified as Scheduled for this State of whom 29 are found in this district. As the list of tribes changed from Census to Census, the variation of their population from decade to decade is not a true index of the growth of tribal population. In 1951 Census, there were only 42 tribes in the State. According to the Scheduled Castes and Scheduled Tribes List (Modification) Order, 1956, one tribe, namely, Gorait was omitted from the 1951 list and 21 new tribes were added. These new tribes are Bhottada or Dhotada, Bhumia, Bhunjia, Bhumij, Desua-Bhumij, Dharua, Didayi, Gandia, Holva, Kandha Gauda, Kol, Kotia, Lodha, Madia, Matya, Omanatya, Parenga, Pentia, Rajuar, Shabar or Lodha and Sounti. The inclusion of these new tribes has contributed to the increase of the tribal population during the decade 1951-61.

The Scheduled Tribes population has increased from 62,714 in 1951 to 67,474 in 1961. The sex composition and percentage to total population of the district for 1951 and 1961 Censuses are given below:

Census Year	Tribal population of the district	Percentage to total population	Males	Females
1951	62,714	4·0	30,691	32,023
1961	67,474	3·6	32,976	34,498

Although the percentage to total population of the district slightly declined during 1961, the growth of Scheduled Tribe population amounts to 7·6 per cent during the decade. The sex ratio from 1,043 females to 1,000 males in 1951 increased to 1,046 females in 1961.

Eight tribes are numerically important in the district and their particulars are given below:

Name of the Tribe	Persons	Males	Females
Bhuiya or Bhuyan ..	347	176	171
Gond, Gondo ..	562	250	312
Kawar .	348	151	197
Kharia or Kharian ..	1,344	661	683
Khond, Kond or Kandha including Nanguli Kandha and Sitha Kandha ..	31,845	15,779	16,066
Saora, Savar, Saura or Sahara	26,188	12,567	13,621
Shabar or Lodha ..	4,468	2,165	2,303
Sounti ..	322	179	143
Total ..	65,424	31,928	33,496

The above tribes constitute 97 per cent of the total tribal population. Shabar or Lodha and Sounti are the new tribes of 1961 and they have contributed to the rise in the percentage of the tribal population.

The industrial classification of the tribal population in the district is given below:

Industrial category	Males	Females
WORKERS		
I As Cultivator ..	10,358	4,176
II As Agricultural Labourer ..	5,159	3,399
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities ..	1,542	2,498
IV At Household Industry .	692	1,559
V In Manufacturing other than Household Industry ..	47	356
VI In Construction .	1	1
VII In Trade and Commerce ..	264	1,187
VIII In Transport, Storage and Communications ..	12	..
IX In Other Services ..	2,434	1,359
NON-WORKERS .	12,467	19,963

Majority of the tribal workers in both the sexes are engaged in agricultural occupations and other services. The industrial classification for each of the tribes is given separately in Table SCT-I Part B.

The non-workers constitute 37·8 per cent of the males and 57·9 per cent of the females. Their classification is given below:

Classification	Males	Females
Total Non-workers .	12,467	19,963
Full-time students ..	2,094	1,173
Persons seeking employment for the first time ..	20	..
Persons employed before but now out of employment and seeking work:	8	
Others ..	10,345	18,790

The number of full-time students is extremely low and the persons seeking employment are practically negligible. Majority of the males and females appear to have been engaged in household duties.

The marital status of the tribal population is furnished below:

Marital status	Age-groups							
	0—14 years		15—54 years		45+years		Age not stated	
	Males	Females	Males	Females	Males	Females	Males	Females
Never Married	12,733	12,612	2,470	1,624	18	29	35	6
Married	87	245	11,153	13,206	5,355	3,245	7	2
Widowed	2	1	288	1,031	717	2,350	..	2
Divorced/Separated	.	..	49	93	21	47	..	..
Unspecified	9	1	14	..	15	4	3	..

Separate information for each of the tribes is given in Table SCT-II Part B. The proportion of married persons in both the sexes is highest in the age-group 15—44 while the maximum number of widowed persons are found in the age-group 45+. The small number of married persons in the age-group 0—14 indicates the gradual disappearance of child marriage.

Scheduled Castes

A person is said to belong to a Scheduled Caste if he belongs to any one of the castes specified in the Scheduled Castes and Scheduled Tribes List (Modification) Order, 1956. 93 castes are notified as scheduled for this State in the said order of whom 53 castes are found in this district. As in the case of Scheduled Tribes, no definite test has been prescribed for the specification of Scheduled Castes. But it appears that originally the prevailing notion of untouchability, though now abolished and forbidden under Article 17 of the Constitution, was the guiding factor in drawing up the list of untouchables or depressed classes which is more or less equivalent to the present day Scheduled Castes. The castes having professions which involve the physical handling of dirty and putrefying matter and other so-called unclean jobs, such as skinning and tanning of hides, sweeping of streets, scavenging, etc., were grouped under this class of backward population. The objective was to confine the list to the section of population which, on account of its traditional position in the society, suffered from various religious and social disabilities, such as, prohibition from entry into temples or drawing water from the village wells or admission of their children into the village schools. It was recognised that the criterion of classification of such backward population should gradually change from religious or social considerations to the degree of backwardness in economic and educational spheres.

As the lists of Scheduled Castes changed from Census to Census, the growth of Scheduled Caste population cannot be strictly compared. There were 92 Scheduled Castes at the time of 1951 Census. By the time 1961 Census took place, the list had been revised by the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956. Seven castes, namely, Bhumij, Desua Bhumij, Dharua, Gunju or Ganju, Kumbhar, Pradhan, and Sukuli from the 1951 list were omitted, two castes, namely, Mochi or Muchi and Satnami were merged with Chamar and ten castes, namely, Bhoi, Chakali, Chandhai-Maru, Gorait or Korait, Kummari, Musahar, Namasudara, Sauntia (Santia,) Tanla and Ujia were added to the list. The periodical alteration of the list has rendered difficult the calculation of the growth of population.

The Scheduled Caste population of the district has increased from 255,276 in 1951 to 264,615 in 1961. The sex composition and the percentage to total population of the district are shown below:

Census Year	Scheduled Caste population of the district	Percentage to total population	Males	Females
1951	255,276	16·2	121,514	133,762
1961	264,615	14·2	131,385	133,230

The percentage to total population of the district has declined in 1961. The small growth of 3·7 per cent during the decade may be due to the changes in the list of Scheduled Castes. While the number of males has increased in 1961, the number of females has decreased resulting in the abrupt fall of sex ratio from 1,101 females per 1,000 males in 1951 to 1,014 females in 1961.

Twelve castes are numerically important in the district. The names of the castes together with their sex-wise population are given below:

Name of Caste	Persons	Males	Females
Bariki ..	2,973	1,466	1,507
Bauri ..	87,288	43,266	44,022
Bhoi ..	21,369	10,883	10,486
Dandasi ..	2,774	1,357	1,417
Dewar ..	6,534	3,274	3,260
Dhoba or Dhobi ..	32,345	16,232	16,113
Dom, Dombo, or Duria Dom	3,839	1,968	1,871
Haddi, Hadi or Hari ..	23,039	11,009	12,030
Kandra or Kandara ..	25,537	13,140	12,397
Pan or Pano ..	35,354	17,287	18,067
Tiar or Tior ..	3,593	1,806	1,787
Tanla ..	4,408	2,213	2,195
Total ..	249,053	123,901	125,152

The above castes constitute 94·1 per cent of the total Scheduled Caste population. As the caste-wise population for the previous censuses is not available, it is not possible to indicate the increase or decrease of a particular caste during the decade.

The classification of the Scheduled Castes into nine industrial categories of workers and non-workers is given below:

Industrial category	Males	Females
WORKERS		
I As Cultivator ..	30,016	4,926
II As Agricultural Labourer ..	24,931	13,780
III In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities ..	5,691	1,119
IV At Household Industry ..	4,622	8,874
V In Manufacturing other than Household Industry ..	402	770
VI In Construction ..	116	8
VII In Trade and Commerce ..	1,073	1,397
VIII In Transport, Storage and Communications ..	608	31
IX In Other Services ..	13,777	8,351
UNWHOLESOME WORK:		
Tanning, currying of hides and skins ..	325	161
Scavenging ..	1,000	777
NON-WORKERS ..	50,149	93,974

Majority of the workers in both the sexes are found in industrial categories I, II, IV and IX. The non-working females constitute the highest number of all categories. The industrial classification of each caste is given in Table SCT-I Part A separately for Rural and Urban areas. Number of persons engaged in unwholesome activities are also shown above.

The non-workers constitute 38·2 per cent of the males and 70·5 per cent of the females. Their broad classification is given below:

Classification	Males	Females
Total Non-workers ..	50,149	93,974
Full-time Students ..	11,159	4,380
Persons seeking employment for the first time ..	123	3
Persons employed before but now out of employment and seeking work ..	24	..
Others ..	38,843	89,591

The number of persons seeking employment are very few and the number of full-time students is exceedingly low. Majority of the non-workers in both the sexes appear to be engaged in household duties.

The marital status of the Scheduled Caste population by their broad age-groups is shown below:

Marital Status	Age-groups							
	0—14 years		15—44 years		45+ years		Age not stated	
	Males	Females	Males	Females	Males	Females	Males	Females
Never Married	48,468	49,278	13,152	3,769	205	295	9	2
Married	608	1,655	43,755	49,815	20,075	13,011	7	3
Widowed	9	15	1,383	3,842	3,282	10,839	2	2
Divorced/Separated	..	4	245	316	177	307	..	..
Unspecified	2	24	..	13	6	40	..	..

The number of married persons in the age-group 15—44 is the highest in both sexes while large number of widows are found in the age-group 45+. Presence of married persons in the age-group 0—14 indicates the existence of child marriage in spite of all efforts to eradicate the evil practice. Details for each caste are given in Table SCT-II Part A.

Language

Out of 58 languages returned in the State as mother-tongue, twenty are spoken in this district. The number of speakers of each language, sexwise, is given in Table C-V of the Cultural Tables. The distribution of 1,000 persons by mother-tongue compared with the population for the State is given in the following statement in respect of all the languages spoken in the district.

Language	Puri			Orissa		
	Total	Rural	Urban	Total	Rural	Urban
1. Bengali ..	7	4	52	7	5	44
2. Burmese ..	N	N	..	N	N	N
3. English ..	N	N	1	N	N	1
4. Gujarati ..	N	N	2	1	N	7
5. Hindi ..	3	1	34	10	5	87
6. Kannada ..	N	N	N	N	N	N
7. Khond/Kondh ..	1	N	N	8	9	2
8. Kui ..	4	4	N	29	31	1
9. Malayalam ..	N	..	1	N	N	4
10. Marathi ..	N	N	N	N	N	1
11. Marwari ..	N	N	1	N	N	1
12. Nepali ..	N	N	2	N	N	1
13. Oriya ..	963	975	806	823	835	644
14. Persian ..	N	..	N	N	N	N
15. Punjabi ..	N	N	2	1	N	5
16. Savara ..	N	N	N	12	13	3

18. Tamil ..	N	N	1	N	N	4
19. Telugu ..	9	4	72	23	17	99
20. Urdu ..	13	12	26	12	9	66

N=Negligible

Oriya is the predominant language of the district. The proportion of speakers is much above the corresponding figures for the State. Urdu, Telugu, Bengali and Hindi languages have small proportion of speakers. The number of speakers of the remaining languages is negligible.

HOUSING

Housing Census

For the first time in India, a housing census was conducted during 1960 to take stock of all existing structures, residential and non-residential houses. Various useful information, such as roof and wall materials, tenure status, number of rooms per household, number of persons per room, and in case of factories and workshops, some essential data like line of production, number of employees and kind of fuel or power used in addition were collected during this count. The total number of houses recorded in the district was 373,081 of which 14,631 were vacant at the time of house-listing. The following Table indicates the distribution of various types of houses.

Type of Census houses	Census houses	
	Number	Percentage to total number of Census houses
Total number of Census houses ..	373,081	100·00
Census houses vacant at the time of house-listing ..	14,631	3·92
Dwelling ..	283,124	75·89
Shop-*cum*-dwelling ..	2,739	0·73
Workshop-*cum*-dwelling ..	20,734	5·56
Hotels, sarais, tourist homes and inspection houses ..	671	0·18
Shops excluding eating houses ..	7,163	1·92
Business houses and offices ..	1,436	0·39
Factories, workshops and worksheds ..	1,882	0·50
Schools and other educational institutions including training classes, coaching and shop classes ..	2,231	0·60
Restaurants, sweetmeat shops and eating places ..	234	0·06
Places of entertainment and community gathering (Panchayat Ghar) ..	2,117	0·57
Public health and medical institutions, hospitals, health centres, doctors' clinics, dispensaries, etc. ..	461	0·12
Others ..	35,658	9·56

By far, the majority of houses, as in other parts of the State, is the dwelling house. Workshop-*cum*-dwellings constitute the second largest group, and the least number was that of restaurants, sweetmeat shops and eating places.

It is recorded that only 41·3 per cent of houses in urban areas are hired out on rent and the balance of 58·7 per cent are occupied by their owners. In the rural areas, however, the percentage of rented houses is very much less being only 1·5 per cent, the balance of 98·5 per cent being in occupation of owners.

Density of dwellings

Out of 283,124 dwellings in the district, 260,564 are in rural areas and 22,560 in towns. In every 100 square miles of area in the district there are 7,002 dwellings. The density of dwellings per 100 square miles, for Rural and Urban areas is 6,520 and 48,308 respectively.

Materials of walls and roofs

Majority of houses in the rural areas have mud walls and thatched roofs. Next to mud-walled houses are the houses having walls of leaves, reeds and bamboos. Houses with brick walls form the highest number in the urban areas.

98·5 per cent of houses in rural areas and 57·8 per cent of houses in towns have thatched roofs. Roofs with corrugated iron, zinc or other metal sheets, asbestos sheets, bricks, concrete, etc. are rarely seen in the rural areas, but nearly 36·3 per cent of such houses are there in urban areas. Among other varieties of roofings, tiles, slate and shingle are used in about 0·6 per cent of houses in rural areas and in 5·9 per cent of houses in urban units.

Number of rooms and persons residing per room

Houses with 3 rooms or more form the majority in the district. Those with lesser number of rooms constitute only 44·6 per cent of the total houses. About 15·2 per cent of the houses have one room and the percentage of two-roomed houses is 29·4. The number of persons inhabiting a room works out to 1·61 in the rural areas and 1·67 in urban areas, against the district and State averages of 1·61 and 2·07 persons respectively.

ADMINISTRATION

State Headquarters

Since formation of Orissa into a separate province, Cuttack was the capital of the State till 1949 when some Departments of Secretariat moved to Bhubaneswar signifying shifting of the State Capital there. All the Secretariat Departments are now located at Bhubaneswar along with the offices of Heads of Departments except a few,namely,the offices of Inspector General of Police, Director of Public Instruction, Board of Revenue, High Court, Transport Controller, Commissioner of Commercial Taxes and Bureau of Statistics and Economics which are still at Cuttack. A new township containing Government offices and residential quarters for staff which has sprung up at Bhubaneswar is known as New Capital. The administration of New Capital is under an Estate Officer who is also an *ex-officio* Deputy Secretary to Government in the Political and Services Department. Two universities, namely, Utkal University and the University of Agriculture and Technology are located in the New Capital. Some of the Central Government Departments like the Office of the Accountant General, Orissa also function here.

There are nineteen Departments in the Secretariat, each under a Secretary. A Secretary of a Department is assisted by Deputy Secretaries, Under-Secretaries and Assistant Secretaries. Some of the bigger Departments have also Additional Secretaries, Joint Secretaries and Registras. Some of the posts of Deputy Secretaries and Under-Secretaries and all posts of Assistant Secretaries and Registrars are filled in by ministerial officers of the Secretariat by promotion. The remaining posts of Deputy Secretaries and Under-Secretaries are filled in by officers of Indian Administrative Service and Orissa Administrative Service. The posts of Secretaries, Additional Secretaries and Joint Secretaries are manned by Indian Administrative Service Officers. The Chief Secretary functions as Secretary to the Council of Ministers and he is also the Secretary to Government in the Political and Services Department. There is also an Additional Chief Secretary who is the Development Commissioner and Secretary to Government in the Planning and Co-ordination Department. There is a Planning Board under the Planning and Co-ordination Department. The Directors of Community Development, Grama Panchayats and Tribal and Rural Welfare have also the status of Additional or Joint Secretaries according to their seniority in the I. A. S. cadre and they do not have separate Directorates under them. All the Secretariat Departments are located in one building.

The offices of the Heads of Departments are located at different places within the capital area. Each Department is either under a Director or on officer of equivalent status. Except in a few technical Departments, such as, Health, Veterinary Bureau of Statistics and Economics and P. W. D. etc., all other Heads of Departments are officers belonging to Indian Administrative Service. The Heads of Departments are also assisted by Additional, Joint, Deputy and Assistant Directors who belong to State Services.

A few semi-Government Organizations have their headquarters at Bhubaneswar. Some of them are Central Social Welfare Board, Orissa Mining Corporation, Industrial Development Corporation, Construction Corporation, Khadi and Village Industries Board, etc.

District Administration

The district of Puri is one of the oldest districts of the State. Its area underwent a change in 1948-49 when the ex-state areas of Nayagarh, Daspalla, Khandpara and Ranpur were added to it. The district at present has four subdivisions comprising 29 police stations.

The general administration of the district is in charge of a Collector having his headquarters at Puri. He works under the Commissioner, Central Division whose headquarters is at Cuttack.

The Collector also functions as the District Magistrate and is usually an officer belonging to the cadre of Indian Administrative Service. He looks after law and order problems, civil supplies management, treasury and all development works within the district. An Additional District Magistrate belonging to Class I of Orissa Administrative Service assists him in his work. Officers from Orissa Administrative Service, Class II and Subordinate Administrative Service are in immediate charge of various subjects at district headquarters. The sanctioned strength of such officers at the district headquarters in 1964 was 8 and 1 respectively. The administrative officers have also the powers of Magistrate of first, second or third class, according to their experience.

Each of the 4 subdivisions is under the charge of a Subdivisional Officer who is either an officer from Orissa Administrative Service, Class II or from Indian Administrative Service. The Subdivisional Officer is assisted by Deputy Collectors and Sub-Deputy Collectors who are also vested with magisterial powers of the first, second or third class. The sanctioned *strength of the Executive Magistrates in the four subdivisions of the district is as follows :

Subdivisions	Number of Deputy Collectors and Deputy Magistrates	Number of Sub-Deputy Collectors and Sub-Deputy Magistrates
Puri ..	5	5
Khurda ..	2	3
Bhubaneswar ..	2	2
Nayagarh ..	2	4

**** Crimes and Criminal Justice**

Separation of judiciary from the executive having been given effect to, the judicial functions of the Magistrates in the matter of criminal cases, have been taken over by Judicial Magistrates who are under the administrative control of the District and Sessions Judge, Puri. An Additional District Magistrate (Judicial) posted at Puri helps the District and Sessions Judge in this work. There are 10 Judicial Magistrates in the district, four of whom are posted at Puri, two at Bhubaneswar and the rest at Daspalla, Nayagarh, Khurda and Khandpara, one at each. The trial of criminal cases is now conducted by these Judicial Magistrates who have powers of first, second or third class Magistrates under Cr. P. C. The number of criminal cases reported during the past decade to different courts in the district, cases tried, persons acquitted, discharged or committed are given in a Table in Part III. Majority of the crimes committed was theft, the second highest number being burglary. Of such crimes as dacoity, robbery and murder, the highest number was that of murder. During the decade, 1951-60, the criminal offences reported to the courts number 81,509 which gives an average of 8,151 cases per year.

Police

The smallest unit of police administration is a Thana, i. e., a police station, and it is in charge of a Sub-Inspector of police. There are in addition to the Officer-in-charge, other Sub-Inspectors, Assistant Sub-Inspectors and Constables according to the necessity in each police station. The Thanas are grouped into Circles, each of which is under an Inspector who supervises over the working of the police stations in his circle. Above him and at the head of the district police Administration is a Superintendent of Police belonging to the Indian Police Service. To assist the Superintendent of Police in administration there were one Additional Superintendent of Police and two Deputy Superintendents in 1960. There is an

* Government of Orissa, Revenue Department Resolution No. 29459—III-ER-75/64-R., dated the 8th May 1964

** Notes on crimes based on Table 6·02 of Quarterly Bulletin of Statistics, Orissa for June, 1961 and letter No. 8200—XXIX-1/63, dated the 24th December 1963 from the High Court, Orissa.

Armed Police Reserve at Puri under a Sergeant-Major. One battalion of Orissa Military Police under an Assistant Commandant is stationed at Nayagarh. Out of the two Deputy Superintendents working in the district, one is stationed at Nayagarh. The total strength of the police force under the control of the Superintendent of Police in 1960 was 1,224. This works out to one policeman to an area of 063·3 square miles and a population of 1,524. The expenditure on police establishment in the district during 1960 was Rs. 14,02,900 and the cost of police *per capita* of population works out to Rs. 0·75 paise. The strength of district police-force during the years, 1951, 1956 and 1960 are given in a Table in Part III.

Judiciary

The administration of civil justice is under the District and Sessions Judge who is stationed at Puri. There are 2 Subordinate Judges and 5 Munsifs under the District and Sessions Judge. The Subordinate Judges are stationed at Puri and Bhubaneswar. Three of the Munsifs are posted at Puri and the remaining two at Nayagarh and Khurda. The District Judge and the Sub-Judges try civil suits of any pecuniary limit, whereas the powers of a Munsif is limited to Rs. 4,000.

Parliamentary and Assembly constituencies

The district has been delimited into 2 Parliamentary constituencies and 15 Assembly constituencies under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961. Both the Parliamentary constituencies are general seats. Out of the Assembly constituencies, 3 are reserved for Scheduled Castes. The last general election for the Parliament seats was held in the year 1962 and that for the State Assembly in 1961.

Treasury

The District Treasury is located at Puri and it is under a Treasury Officer who belongs to Orissa Finance Service (Senior Branch). Under the District Treasury there are 6 Sub-treasuries at Bhubaneswar, Daspalla, Khurda, Khandpara, Nayagarh and Ranpur. All the subdivisional headquarters have Sub-treasuries, expcept Puri, which is served by the District Treasury. The banking transaction at the District Treasury and Sub-treasuries at Bhubaneswar and Khurda are carried on by the State Bank of India. There is a currency chest at Nayagarh.

Jails

There is a District Jail at Puri. Its capacity in December 1962 was 175. It has under it five Sub-jails located at Khurda, Bhubaneswar, Khandpara, Daspalla and Nayagarh. The capacity of these jails, as in December 1962, were 21, 35, 47, 30 and 53 respectively. The District Jail has 1 Jailor, 1 Assistant Jailor, 1 Assistant Surgeon, and other staff as detailed in a Table in Part III.

***Commercial Taxes**

For purposes of assessment and collection of Sales Tax, the district is divided into 2 circles. One of the circles, namely, Puri Circle I has jurisdiction over police station areas of Balipatna and Balianta under Bhubaneswar subdivision and Puri Sadar subdivision excluding Parikud and Malud islands. The rest of the district is under Circle II. The two circles Puri I and Puri II were created in 1947 and 1951 respectively and are each under a Commercial Tax Officer. The former circle has 2 Assistant Commercial Tax Officers, whereas in the latter, there are 1 Additional Commercial Tax Officer and 5 Assistant Commercial Tax Officers. The Commercial Tax Officers and Additional Commercial Tax Officers belong to Orissa Finance Service (Senior Branch) and the Assistant Commercial Tax Officers to Orissa Finance Service (Junior Branch).

Next to land revenue, the highest income in the district has been on account of Sales Tax in later years of the past decade. The income is steadily rising, and from Rs. 12,63,000 in 1951-52 it went up to Rs. 20,51,000 during 1960-61. Yearwise collections on account of Sales Tax are shown in a Table in Part III.

* Letter No 13162-CT, dated the 3rd June 1962 from the office of the Commissioner, Commercial Taxes, Orissa

Stamps, Documents registered and Properties transferred

The sale proceeds from stamps from year to year are given in a Table in Part III. The highest annual sale of stamps was Rs. 10,12,719 in the year, 1953-54 and the lowest was Rs. 6,56,330 in the year 1955-56.

There are 10 Sub-Registration Offices in the district,9 out of which have full-time Sub-Registrars. Registration work in the other station, Daspalla is looked after by a part-time officer of the Revenue Department. The Additional District Magistrate, Puri functions as the District Registrar.

During the period 1951-60, a total number of 523,042 documents was registered. The value of properties transferred amounted to Rs. 15,66,50,318 during 1952—60. The number of registration is generally on the increase. One of the Tables in Part III shows the number of documents registered and the value of properties transferred annually during 1951—60.

Entertainment Tax

Figures of collection of Entertainment Tax for the years from 1953-54 are only available and these are given in a Table in Part III of this Handbook. The income is on the increase and in 1960-61 it stood at Rs. 92,556. There are 6 cinema houses in the district, 2 at Puri, 2 at Bhubaneswar and one each at Jatni and Balugaon.

Excise revenue

The excise administration of the district is in charge of a Superintendent of Excise, whose headquarters is at Puri. He functions under the administrative control of the District Magistrate. In the earlier years of the past decade excise revenue was the principal source of income to the district. The collections in some years even exceeded the land revenue. The revenue has, however, gone down during the past decade. There was a precipitous fall during 1956-57 on account of prohibition on manufacture, possession and sale of liquor with effect from 1-4-1956. The annual collections on account of excise revenue are given in a Table in Part III.

Land revenue

The Collector is in charge of land revenue administration of the district. The annual collections from land revenue are given in one of the Tables in Part III. The income is rising steadily but the collections in the year 1960-61 were less than those in the previous years.

Municipalities and Notified Area Councils

1961 Census records 5 towns in the district with a total population of 133,406. Of these towns, only one, namely, Puri has a Municipality, and three others, Bhubaneswar, Khurda and Nayagarh have Notified Area Councils. These local bodies are constituted under Bengal Municipal Act and Orissa Municipal Act, 1950. The year of start of the Municipalities and Notified Area Councils with population and number of councillors in each are as follows :

Municipalities/ Notified area councils	Population 1961	Year of start	No. of councillors
1. Puri ..	60,815	1881	25
2. Bhubaneswar	38,211	1952	13
3. Khurda ..	12,497	1960	12
4. Nayagarh ..	5,815	1953	9

The only town, which is not under any Municipality or Notified Area Council is Jatni. The population of the Municipal and Notified Areas is 117,338 being 6·29 per cent of total population and 87·96 per cent of urban population of the district.

A Chairman is the head of the Municipality or Notified Area Council and an Executive Officer looks after the day t day functions including the general administration. The obligatory functions of the local bodies are public health including vaccination, maintenance of public tanks and wells, roads, libraries, street lighting and scavenging. The income accrues from Government grants, taxes on holdings, carriages, lighting and latrines and licence fees from pounds and other municipal properties, etc. Taxes and fees are levied at varying rates and on different items by each Municipality and Notified Area Council.

NATURAL CALAMITIES

770 .. The great Bengal famine was seriously felt in the district resulting in considerable loss of lives.

1774-75 .. There was serious scarcity of foodgrains due to failure of rains.

1792-93 .. The last great famine of the 18th century swept away a large fraction of the population.

1866 .. The greatest of Orissa's famines called the Nalanka famine resulted in unparalleled catastrophe of frightful sufferings and countless deaths.

1891 .. There was failure of crop resulting from floods and cyclones.

1897 .. Scarcity of food was extensive.

1901 .. There was partial loss of winter paddy in Khurda and along the borders of the Chilka lake.

1908 .. There was great mortality due to a serious outbreak of cholera.

1911 .. There was deficiency of rainfall which adversely affected crops.

1912 .. There was excess of rainfall followed by cyclone which adversely affected crops and caused outbreak of cholera.

1917 .. Heavy rainfall in November washed away ripe crop and caused scarcity in the area round Chilka lake.

1918 .. The disastrous epidemic of influenza appeared in the district. There was failure of monsoon which reduced the stock of foodgrains, and the price also went up on account of war conditions.

1918—*contd.* The death rate rose to 47·7 per thousand and went on rising till 1919 when the death rate reached the unprecedented level of 70·3 per mille. The position was made worse by a severe drought.

1925 .. A virulent type of malaria visited the district.

1926 .. A severe outbreak of smallpox combined with the effects of floods resulted in further deterioration of conditions which continued till 1927.

1933 .. The district experienced one of the heaviest floods which necessitated extensive relief operations.

1938 .. There was a cyclone which damaged crop particularly in Krushnaprasad police station. The coastal tracts suffered from over-flow of saline water.

1939 .. Heavy loss of life resulting from dysentery, diarrhoea, cholera and malaria. Banpur and Tangi police stations were particularly affected. The sufferings from malaria around the Chilka lake was considerable.

1942 .. A severe cyclone accompanied by heavy rain passed over the district causing considerable damage to crops, cattle and houses.

1945 .. An outbreak of smallpox carried away a large number of men.

1954 .. Unfavourable rainfall reduced the outturn of crops to 5/8th.

1955 .. Heavy floods

COMMUNICATION

Roads

There is a net-work of good roads throughout the district. The Calcutta-Madras National Highway runs through the district via subdivisional headquarters of Khurda. Other subdivisional headquarters are connected by State Highways. The total mileage of roads in the district is 1,832 miles and 5 furlongs. It is composed of 68 miles of National Highways, 120 miles and 6 furlongs of State Highways, 485 miles and 1 furlong of District Roads, 1,021 miles and 6 furlongs of important Revenue Roads and 137 miles of other roads maintained by local bodies. Except the revenue roads and the roads under the local bodies, all other roads are maintained by the P. W. D. The concerned Municipality and Notified Area Councils maintain the roads falling within their jurisdiction and the Revenue Roads are looked after by the District Revenue staff. Calcutta-Madras National Highway runs from north-east to south-west almost parallel to Howrah-Madras Railway tract of S. E. Railways. The two State Highways start from this National Highway at different points. One starts from Bhubaneswar, and connects Puri, the district headquarters and the other starts from Khurda and runs to the west till it enters the district of Baudh-Khondmals touching on its way many important places like Nayagarh, Daspalla, etc.

The density of road mileage in the district is 45 miles per 100 sq. miles of area against the State average of 36 miles. This indicates that the district enjoys a better road system in the State. In the past, the district was inadequately served with roads. Till the middle of 19th century not a single good road was traceable. The Cuttack-Puri and Cuttack-Ganjam roads traversing through Khurda and Bhubaneswar subdivisions are the only roads of antiquity in the district.

Railways

Howrah-Madras line of S. E. Railways which passes through this district serves the subdivisions of Khurda, Bhubaneswar and Sadar. A branch line from Khurda also runs to Puri through the Sadar subdivision. The entire area of Nayagarh subdivision is away from the Railway tract. The total railway mileage of the district being 140 Kms, we get 1·34 Kms of railways per 100 Sq. Kms of area. This density is much higher than the State average which is 0·96 Km.

There are 11 railway stations on the main Howrah-Madras line and four stations on Khurda Road-Puri branch line. Including five passenger halts, the total number of stations on both these lines are twenty. Among these stations, the largest number of passenger traffic, mostly pilgrims, is handled by Puri station. Khurda Road station also handles an appreciable extent of passenger traffic, being the starting point of various bus services mostly to the western part of the district. It is also a junction station where the headquarters of the Divisional Superintendent of South-Eastern Railways, having jurisdiction from Bhadrak to Vizianagram is located. The details of the Railway stations indicating average number of passengers handled and the facilities available to passengers are given in a Table in Part III of this publication.

Common conveyances

Both in the towns and in the interior parts bicycles are used as a common mode of conveyance. Bus services also run to various parts of the district. In areas which are still without good roads, bullock carts are made use of. Cycle-rickshaws are found in towns and also in important rural areas. Hackney carriages are rare and very few of them are found in Puri town. Palanquins which are carried by human beings are used in inaccessible areas and also in functions like marriage.

According to records maintained by District Police Office, 504 cars, 242 buses and lorries, 13 taxies and 219 other motor vehicles including motor cycles were registered in the district by 31st December 1961.

Bus services

Most of the routes in the district have been taken over by the Orissa Road Transport Organization which is a tripartite (State Government, Railways and Public) transport undertaking. One of the zonal headquarters of this organization is located at Jatni (Khurda Road). Buses from Jatni connect various places like Daspalla, Nayagarh, Ranpur, Khandpara, Bhubaneswar, Kaluparaghat, etc. On fair-weather route one of the buses connects Puri with Bolangir. Many other buses pass through this district and connect important stations, such as, Bhubaneswar, Khurda, Puri, etc., with the neighbouring districts. Some of these services are Cuttack-G.Udayagiri, Cuttack-Baudh, Cuttack-Berhampur and all of them ply daily. A good many private buses and contract carriages also ply within the district and most of them operate on Puri-Konarka, Puri-Bhubaneswar routes. Passenger fares charged for upper and lower classes in Transport Service buses are 6-6½ paise and 5 paise respectively per mile. The passenger fare in Janata class is, however, 5 paise per mile.

***Posts and Telegraph**

In 1951 there were 153 Post Offices and 8 Telegraph Offices in the district. The number increased to 384 and 43 respectively in 1961. The expansion can be attributed to the various developmental schemes adopted and implemented by the Posts and Telegraph Department during the past two Plan periods. On 1st April 1961, 88 of the Post Offices had Postal Savings Bank facilities. All the Panchayat Samiti headquarters have now post offices. There are 6 telephone exchanges, 6 public call offices with extension facilities and a few other public call offices. The telephone exchange at Bhubaneswar has the highest number of connections being a central battery operated exchange with a capacity of 900 lines. The exchanges at Jatni, Puri and Khurda are also operated on central battery but their capacity is less being 200, 300 and 50 lines respectively. The remaining two exchanges are at Balugaon-Banpur and Sakhigopal and have a capacity of 25 lines each. These are operated on satelite auto-exchange. The public call office with extension facilities are available at Khandpara, Daspalla, Nayagarh, Pipli, Nimapara and Tangi.

The State Police Department maintains wireless units at Puri and Khurda for official use.

LITERACY AND EDUCATION

Literacy

In 1961 Census 550,184 persons of the district have been returned as literates of whom, 426,113 are males and 124, 071 are females. The percentage of literacy thus works out to 29·5 comprising 22·8 males and 6·7 females against the State averages of 17·4 per cent and 4·3 per cent respectively. In the 1951 Census, the percentage of literacy was 21·8. So there has been an increase of 7·7 per cent during the decade. Among the males, the percentage of literacy works out to 45·8 whereas among the females the said percentage is 13·3. The corresponding figures of 1951 for males and females are 37·1 and 6·9. Out of the literates 496,096 persons do not have any educational qualification, 37,507 have read up to primary or Junior basic standard, and the rest are either matriculates or have higher qualification.

Persons belonging to the age of 4 years or less generally do not have any chance of acquiring literacy. When such persons are excluded from the total population, a slightly higher percentage of literacy is obtained. The following Table compares the percentages worked out on this basis for the two Censuses of 1961 and 1951 :

	Percentage of Literacy		
Census	Persons	Males	Females
1961 ..	34·0	26·3	7·7
1951 ..	25·0	21·0	4·0

Thus in the Census of 1961, an improvement is noticed to the extent of 9·0 per cent in the total population above the age-group of 0—4 years.

*Telephone Directory, Orissa circle, November, 1961

Besides the usual educational facilities available in the district, an intensive adult education programme was undertaken during the decade. The scheme was undertaken both by the Education Department and the Community Development Blocks. The adult literacy centres are run mainly at nights by the primary school teachers and volunteers who get as remuneration a sum of Rs. 5 per adult made literate during a period of six months. There has been a progressive increase in the number of adult literacy centres from year to year. The total number of such centres existing in 1960-61 was 1,838 out of which 312 were run by the Education Department and 1,526 by the Community Development Blocks.

The district is one of the advanced districts of the State having the rate of literacy higher than the State average. The statement below gives the percentage of literacy in various police station areas and subdivisions :

District/Subdivision/ police station		Total number of literates	Percentage of literacy
Puri District	..	550,184	29·5
Sadar Subdivision	..	217,307	29·0
Bhubaneswar Subdivision	..	94,791	36·9
Khurda Subdivision	..	111,159	29·3
Nayagarh Subdivision	..	126,927	26·4
Puri Town	..	29,078	47·8
Sadar PS	..	22,045	23·9
Krushnaprasad PS	..	3,760	19·1
Brahmagiri PS	..	20,635	25·5
Satyabadi PS	..	27,701	29·4
Delang PS	..	15,638	28·8
Pipli PS	..	19,769	28·5
Nimapara PS	..	29,958	31·8
Gop PS	..	23,546	29·7
Kakatpur PS	..	25,177	24·3
Bhubaneswar PS	..	34,652	46·8
Balipatna PS	..	19,789	32·4
Balianta PS	..	14,018	30·8
Chandka PS	..	7,884	27·2
Jatni PS	..	18,448	38·8
Khurda PS	..	37,160	35·3
Banpur PS	..	22,143	25·1
Tangi PS	..	19,060	25·6
Begunia PS	..	19,080	29·4
Bolgarh PS	..	13,716	29·5
Nayagarh PS	..	25,797	30·1
Fategarh PS	..	17,047	26·6
Khandpara PS	..	10,812	20·7
Gania PS	..	8,033	28·4
Daspalla PS	..	12,153	25·7
Nuagaon PS	..	4,568	21·3
Odagaon PS	..	14,472	25·5
Sarankul PS	..	15,308	26·9
Ranpur PS	..	18,737	27·2

The rate of literacy is highest in Bhubaneswar subdivision and lowest in Nayagarh subdivision. Among the police stations, Puri Town police station records the highest percentage whereas Krushnaprasad police station has the lowest percentage.

Literacy among Scheduled Castes and Scheduled Tribes

The Scheduled Castes and Scheduled Tribes account for 14·2 per cent and 3·6 per cent of the total population of the district. The statement below gives the percentage of literacy among them.

Caste/Tribe	Total S. C/S. T. population	Total literates amongst the S.C/S.T.	Percentage of literacy
Scheduled Castes	264,615	35,770	13·5
Scheduled Tribes	67,474	6,921	10·3

The standard of literacy of Scheduled Castes and Scheduled Tribes is below the district average. The standard of literacy among the Scheduled Castes is, however, higher than that of the Scheduled Tribes.

In order to improve their educational standard special facilities have been provided for them. Sevashrams and Ashram Schools have been opened in areas predominantly inhabited by the Scheduled Tribes and Castes. The number of such institutions stood at 50 in the year 1961. Provision has been made for imparting free education with free supply of reading and writing materials to the students in these institutions. Stipends and lump grants are also given to them for study in High Schools, Middle English Schools and Upper Primary Schools. Reading and writing materials like books, slates, pencils, etc., are also supplied to them free of cost at primary education stage. A list of Sevashrams and Ashram Schools is furnished in Part III.

Educational Institutions

The district being under direct administration of Government from an early period has greater facilities for education than many other districts, particularly those which formed parts of princely states till their merger with the State in 1948-49. There are now 6 Colleges for teaching arts and science subjects, one Sanskrit College, one Higher Secondary School and as many as 45 High Schools. The number of Primary and M. E. Schools were 2,027 and 160 respectively during 1960-61. Utkal Krushi Mahavidyalaya and the College of Veterinary Science and Animal Husbandry are also there in the district. The Utkal University which is located at Bhubaneswar has Post-graduate teaching Departments. The University of Agriculture and Technology is located at Bhubaneswar and the Regional College of Education run by the Government of India is also there. Among the professional and special schools are 8 Elementary Training Schools, 1 Industrial School, a School for Deaf and Dumb and another for Blind children, 26 Sanskrit Tols, 9 Institutions of Dance and Music, one Ayurvedic Training Centre,3 Dai Training Centres, one Nursing and Midwives Training Centre, one Gramasevak Talim Kendra, one Home Economics Training Centre, a Regional Social Education Organisers' Training Centre, and an Accounts Training School. There are also 67 Basic Schools, 48 Sevashrams and 2 Ashram Schools in various parts of the district. A Sainik School has also been opened recently at Bhubaneswar. The details of all these educational institutions have been given in part III of this Handbook. The activities under different spheres of education are indicated below.

Primary Education

In the year 1950-51, there were 1,028 primary schools and their number increased to 2,027 in 1960-61. 28 of the primary schools are specially meant for girls. Out of these primary schools as many as 1,987 are recognised by the Government. On the average, the district has one primary school in every 2·0 sq. miles of area and one to every 920 persons, the State averages of such area and population being 2·9 sq. miles and 850 persons. The district has, therefore, better facilities of primary education than other parts of the State. This improvement is due to various measures undertaken during the past decade. Some of the measures taken for spread of primary education were enrolment drive, the supply of free mid-day meals, the grant of various scholarships for merit, merit-*cum*-poverty, proficiency in arithmetic (to those who secure more than 90 per cent of marks in arithmetic) and grants for maintenance of students in hostels. Additional facilities were provided in order to encourage women's education and some of them were appointment of school mothers to look after girl students in schools, free supply of dress for regular attendance in the schools and appointment of lady teachers through sympathetic selection methods.

Zilla Parishad and Panchayat Samitis are now looking after primary education in the Rural areas. In the Community Development Block areas, the Panchayat Samitis maintain the primary schools, but in other places they are managed by the Zilla Parishad directly.

Notes on Education based on Government of Orissa, Education Department brochure "Education in Orissa, 1962"

In the towns, where there are Municipalities or Notified Area Councils, these schools are managed by them. Government grants for primary education are placed with the Zilla Parishad and the concerned Municipality or Notified Area Council for their maintenance.

The scales of pay of primary school teachers, both under the Government and under private management, were revised during 1961. According to qualifications, primary school teachers now get pay in different grades. Rs. 65—85 is the scale of pay for Upper Primary, Lower Elementary trained or Middle English trained teachers and Rs. 100—185 is given to Matric trained teachers. In addition, they also get usual dearness allowance.

Secondary Education

In the field of secondary education also, rapid progress has been made in the district during the decade under report. Against 28 High Schools and 70 Middle Schools existing during 1950-51, the district had by 1960-61 as many as one Higher Secondary School, 45 High Schools and 160 Middle Schools. The Higher Secondary School is located at Puri and it is specifically meant for girls' education. The institution imparts education up to Class XII, which is deemed equivalent to Pre-University standard. The final examination is conducted by the Board of Secondary Education, Orissa. The institution is under direct management of the Government.

Out of the 45 High Schools, one is a girls' school. Only nine of these 45 High Schools are Government managed, 26 are aided by the Government and the remaining 10 are run by private management, Agriculture as optional subject is taught in three of these High Schools. On an average for every 89·9 square miles of area and 41,454 population there is one High School against the State average of one High School to every 164·4 square miles and for 47,948 persons. In the field of secondary education, the [illegible] also stands on a better footing.

Up to the 1956 annual examination, Utkal University conducted the final examination of High Schools. The Board of Secondary Education, Orissa took it over with effect from 1956 supplementary examination. During 1960, 39 out of these 45 High Schools sent up students for the High School Certificate Examinations. The number of the students appearing in these Examinations and those passing therefrom, between 1956 (supplementary) and 1960 (supplementary) along with the percentages of success, are given in a Table in Part III of this publication.

Out of the M. E. Schools, 12 are exclusively meant for girls. Though all the girls' schools are recognised by the Government, 16 of the schools for boys are not recognised. The examination at the end of M. E. standard was till recently conducted by the concerned District Inspector of Schools. It has now been taken over by the Board of Secondary Education, Orissa.

To encourage secondary education, a number of merit and merit-*cum*-poverty scholarships at Middle and High School stages are now given, both for boys and for girls. There are also some special facilities for girl students. They are not required to pay any school fee up to Class VII. At the High School stage, half fees are charged from those whose guardians pay income-tax or agricultural income-tax while others continue to enjoy free studentship. Award of attendance scholarships and maintenance stipends like those in Primary stage are also continued in Middle School and High School stages.

The scales of pay of secondary school teachers underwent a revision in 1961. They now draw pay in six different scales, depending upon their qualifications. An Untrained matriculate gets pay in the scale of Rs. 80—135 in Government schools and Rs. 80—125 in non-Government schools, whereas a Trained graduate teacher draws pay in the scales of Rs. 185—325 and Rs. 175—300 in Government and non-Government schools respectively.

College Education

In the matter of college education, the district has also made rapid progress. There was only one college in 1951 at the district headquarters which was teaching up to degree standard in arts subjects and up to intermediate standard in science subjects. The district has now 6 colleges for general education in arts and science. Two of them are managed by Government and the remaining four run under private enterprise. The Utkal Krushi Mahavidyalaya admits Matriculates for a five-year course leading to degree in agriculture. Post-graduate teaching in various subjects is also conducted in this institution. The College of Veterinary Science and Animal Husbandry started since 1959 admits I. Sc. passed students for a four-year course leading to Bachelors' degree. Some of the Post-graduate teaching departments of Utkal University function in the University campus at Bhubaneswar. A Regional College of Education which trains students for Bachelors' and Masters' degrees in education has been recently set up at Bhubaneswar by the Government of India.

Professional and Special Schools

Lists of professional and special schools,Sevashrams and Ashram Schools and Basic Schools existing in the district are given in different Tables in Part III. Among the various categories of professional and special schools, the important institutions are Sainik School, Deaf and Dumb School, Blind School, Gramasevak Talim Kendra, Home Economics Training Centre, Social Education Organisers' Training Centre and Ayurvedic Training Centre. All these institutions except Ayurvedic Training Centre, which is at Puri, are located at Bhubaneswar. The Sainik School started since January, 1962 prepares boys for Indian High School Certificate Examination and for the Entrance Examination to National Defence Academy. It is a residential school having military bias. The Gramasevak Talim Kendra is another Government managed institute which was initially started in 1955 to give training in extension methods for six months to Village Level Workers who passed from the then Basic Agricultural Schools. It has been converted into a Gramasevak Talim Kendra subsequently which now provides an integrated training for one and a half years. A pass from this institution enables a candidate to secure employment as a Gramasevak in any Community Development Block. The Home Economics Training Centre started in 1955 trains up Gramasevikas in a period of one year. The Mukhyasevika Talim Kendra (Social Education Organisers' Training Centre) opened in 1958 is a regional centre where girls from the eastern zone of India are admitted to a ten months training course for appointment as Social Education Organisers. Both these institutions are managed by Government.

Newspapers and Journals

As many as 16 journals are issued from the district, mostly from Bhubaneswer. Some of them are school and college magazines. The important of these journals are the Orissa Review, Orissa Historical Research Journal and Orissa Tribes Research Journal. The names of the journals, their address, price, frequency of issue and language are contained in a list given in Part III of this Handbook.

Libraries and Reading rooms

A list of the more important libraries and reading rooms getting aid from the Education Department has been given in a Table in Part III

ECONOMIC ACTIVITIES

The economic classification of population adopted in 1951 has undergone a substantial change in 1961 to facilitate collection of more comprehensive data. The chief criteria for such classification in the 1951 Census were "economic dependance" and "income". But according to the economic classification scheme of 1961 Census the population has been divided into two broad classes, viz., "workers" and "non-workers". The term "workers" includes all persons working as well as the working children irrespective of their earning income.

Workers

The working population has further been grouped into nine broad industrial categories, namely,

(I) As Cultivator ; (II) As Agricultural Labourer; (III) In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations,Orchards and Allied activities ; (IV) At Household Industry ; (V) In Manufacturing other than Household Industry ; (VI) In Construction ; (VII) In Trade and Commerce ; (VIII) In Transport, Storage and Communications ; and (IX) In Other Services.

There are 649,026 workers in the district comprising 556,095 males and 92,932 females. The workers thus constitute 34·8 per cent of the total population. Table B-I of the General Economic Tables shows the total number of workers in each industrial category along with the break up for sex and broad age-groups. The proportionate distribution of 1,000 persons, males and females, under each industrial category in the district and in the State with rural and urban break-up is furnished below:

			Puri			Orissa		
			Total	Rural	Urban	Total	Rural	Urban
Total population	..	M	1,000	1,000	1,000	1,000	1,000	1,000
		F	1,000	1,000	1,000	1,000	1,000	1,000
Total workers	..	M	598	600	573	608	610	572
		F	99	100	97	266	274	131
I As Cultivator	..	M	352	379	34	363	387	42
		F	21	23	1	133	140	9
II As Agricultural Labourer	..	M	82	88	14	92	98	12
		F	22	24	5	57	60	4
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities		M	20	20	20	11	11	16
		F	5	5	2	4	4	5
IV At Household Industry	..	M	29	30	17	33	32	34
		F	27	27	14	28	29	19
V In Manufacturing other than Household Industry		M	5	3	31	8	2	88
		F	4	3	4	2	1	9
VI In Construction	..	M	3	2	23	3	2	25
		F	N	N	N	N	N	2
VII In Trade and Commerce	..	M	18	13	74	13	9	63
		F	5	5	14	4	4	11
VIII In Transport, Storage and Communications		M	8	3	65	6	2	50
		F	N	N	3	N	N	4
IX In Other Services	..	M	81	62	295	79	67	227
		F	15	13	54	38	36	68
Non-workers	..	M	402	400	427	392	390	428
		F	901	900	903	734	726	869

M=Males F=Females N=Negligible

Majority of male workers in the Rural areas are concentrated in Category I whereas in the Urban areas, majority of both male and female workers are seen in Category IX "Other Services". This high rate in Category VII being above the State rate signifies that the district has advanced considerably in the field of trade and commerce.

Primary, Secondary and Tertiary Sectors

The nine industrial categories of workers are classed into three sectors, viz., Primary, Secondary and Tertiary. Primary Sector consists of workers in Categories I and II representing the agricultural classes together with Category III excluding those working in mines and quarries, Categories IV to VI together with those working in mines and quarries under Category III and workers in gas and electricity supply under Category IX form the Secondary Sector. All the remaining categories, namely, VII , VIII and IX excluding the workers in gas and electricity supply comprise the Tertiary sector. The distribution of 1,000 persons in each of these sectors for Rural and Urban areas of the district and the State is furnished below:

	Puri			Orissa		
	Total	Rural	Urban	Total	Rural	Urban
Total population ..	1,000	1,000	1,000	1,000	1,000	1,000
Primary Sector ..	250	266	41	328	348	43
Secondary Sector ..	35	34	54	39	34	102
Tertiary Sector ..	63	47	269	70	59	230
Non-workers ..	652	653	636	563	559	625

Higher concentration of workers in the Rural areas is noticed in the Primary Sector whereas in the Urban areas concentration of workers is more in the Tertiary Sector. This indicates the agricultural character of the rural and diversified economic activities of the urban population.

Sex ratio of workers

The sex ratio (Number of females per 1,000 males) among total workers and each industria category of workers is furnished below for the district and the State.

	Puri			Orissa		
	Total	Rural	Urban	Total	Rural	Urban
Total workers ..	167	170	133	438	456	185
I As Cultivator ..	60	61	22	367	368	179
II As Agricultural Labourer ..	276	276	278	619	622	296
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities ..	250	266	71	375	391	242
IV At Household Industry ..	907	919	656	858	890	444
V In Manufacturing other than Household Industry	658	1,149	96	181	469	79
VI In Construction ..	9	16	4	60	61	59
VII In Trade and Commerce ..	294	363	153	321	436	130
VIII In Transport, Storage and Communications ..	24	6	32	53	27	69
IX In Other Services ..	192	211	145	479	545	232

Higher proportion of female workers exceeding the State average is noticed in Categories IV and V. In all other categories, proportion of both in the Rural and Urban areas is below the corresponding State averages.

Classification according to ISIC and NCO

The Indian Census Economic Classification adpoted at the 1951 census was neither purely industrial nor purely occupational but was a combination of both. There were only 10 divisions and 88 subdivisions of industries and services. This scheme has been given up in the present Census and separate data for industries and occupations based on Indian Standard Industrial Classification and National Classification of Occupations were collected for the first time. This two-fold classification, though primarily intended to secure more detailed data of the sectors of production and services and of personal talents and skills, will also serve well to maintain comparability of the present with the past.

Indian Standard Industrial Classification

The nine industrial categories of workers described above almost correspond to the nine broad divisions of the Indian Standard Industrial Classification. The divisions, major groups and minor groups of Categories III to IX are given in Table B-IV, Parts A, B and C of the General Economic Tables. The following Table gives the figure of their distribution per 10, 000 males and 10,000 females in each division for the district and the State, with Total and Urban break-up.

Divisions of I. S. I. C.		Puri		Orissa	
		Males	Females	Males	Females
All Divisions	T	10,000	10,000	10,000	10,000
	U	10,000	10,000	10,000	10,000
Division 0 Agriculture, Livestock, Forestry, Fishing and Hunting	T	1,370	976	1,005	657
	U	383	366	248	249
Division 1 Mining and Quarrying	T	71	85	128	151
	U	10	..	103	266
Division 2 & 3 Manufacturing	T	1,862	5,190	2,265	3,606
	U	897	1,808	2,316	2,227
Division 4 Construction	T	205	6	218	26

Division 8 Services	T	4,837	2,769	5,106	4,970
	U	5,319	5,953	4,421	5,795
Division 9 Activities not adequately described	T	10	..	27	12
	U	..	..	1	1

T—Total U—Urban

Proportion of male workers in both Total and Urban areas of the district in Divisions 0, 5, 6 and 7 and in Division 8 of Urban area is above the State average. This indicates large scale participation of male workers in different economic activities of the district. Proportion of female workers in Divsions 0 and 6 is also above the corresponding State averages.

National Classification of Occupations

Classification of workers according to divisions, groups and families of the National Classification of Occupations is given in Table B-V of the General Economic Tables. The following Table shows the proportionate distribution in each division for 10,000 males and 10,000 females along with the State figure.

Divisions of N. C. O.		Puri		Orissa	
		Males	Females	Males	Females
All Divisions	T	10,000	10,000	10,000	10,000
	U	10,000	10,000	10,000	10,000
Division 0 Professional, Technical and Related workers ..	T	1,033	165	717	105
	U	1,366	961	770	461
Division 1 Administrative, Executive and Managerial workers ..	T	166	16	210	14
	U	376	39	353	62
Division 2 Clerical and Related workers ..	T	727	46	451	36
	U	1,774	423	1,661	354
Division 3 Sales workers ..	T	1,053	880	838	527
	U	1,245	978	1,327	810
Division 4 Farmers, Fishermen, Hunters, Loggers and Related workers	T	1,406	1,050	1,025	668
	U	610	317	386	250
Division 5 Miners, Quarrymen and Related workers ..	T	64	9	109	107
	U	1	2	49	3
Division 6 Workers in Transport and Communication occupations	T	320	94	308	19
	U	672	918	729	219
Division 7-8 Craftsmen, Production Process workers and Labourers not elsewhere classified	T	4,213	6,702	5,608	7,595
	U	2,178	4,075	3,842	6,349
Division 9 Service, Sports and Recreations workers	T	962	1,033	833	615
	U	1,573	2,246	1,190	1,439
Division X Workers not classifiable by occupation	T ..	56	5	501	314
	U	205	41	193	53

T=Total U=Urban

A major proportion of both male and female workers is found concentrated in Division 7-8. In Divisions 0, 2, 4 and 9, proportion of male workers is above the State average.

Higher proportion of female workers above the corresponding State figures is seen in Divisions 0, 2, 3, 4, 6 and 9.

Craftsmen and Production Process workers

The following Table shows the total number of workers in ten selected crafts, in order of their numerical importance. Their proportion to 10,000 persons of the respective divisions severally for total males and females have also been furnished.

Description	Number of Artisans			Proportion per 10,000		
	Total	Males	Females	Total	Males	Females
Spinners, weavers, knitters, dyers and related workers ..	15,682	6,513	9,169	765	426	1,759
Millers, bakers, brew masters and related food and beverage workers ..	12,733	4,564	8,169	621	299	1,567
Basketry weavers and related workers ..	7,608	2,855	4,753	371	187	912
Jewellers, goldsmiths and silversmiths ..	3,251	3,200	51	159	209	10
Carpenters, joiners, cabinet makers, coopers and related workers ..	3,105	3,105	..	151	203	..
Potters and related clay formers ..	2,809	2,129	680	137	139	130
Sheet metal workers ..	2,219	1,925	294	108	126	56
Tailors, cutters, furriers and related workers ..	1,383	1,107	276	67	72	53
Blacksmiths, hammersmiths and forgemen ..	1,231	1,220	11	60	80	2
Leather cutters, lasters and sewers (except gloves and garments) and related workers ..	421	347	74	21	23	14

Non-workers

All those who do not come under the nine industrial categories of workers are treated as non-workers. There are 1,216,413 non-workers, constituting 65·2 per cent of the population of the district, of whom 374,569 are males and 841,844 are females. The details of their activities are furnished in the Table given below:

Classification of Non-workers	Persons	Males	Females
Total non-working population ..	1,216,413	374,569	841,844
Full-time students ..	219,221	135,361	83,860
Household duties ..	501,335	7,342	493,993
Dependants, infants and disabled ..	478,373	219,359	259,014
Retired, rentier or independent means	3,690	2,062	1,628
Beggars, vagrants, etc.	11,099	7,900	3,199
Inmates of penal, mental and charitable institutions ..	434	346	88
Persons seeking employment for the first time ..	1,835	1,810	25
Persons employed before but now out of employment and seeking work ..	426	389	37

Majority of the male non-workers are dependants, infants or disabled persons while majority of female non-workers do household duties. There are 7,342 male non-workers doing household duties and it may not be deemed as an abnormal feature as in some households male members look after the up-keep of the house, tend the cattle and take care of the children when the women folk are busy in the market or go out in economic pursuits, such as, hawking of garden fruits and vegetables or eatables made at home, such as *chura*, *murhi*, etc. In large families, some male members are not interested to find out jobs due to their preoccupation at home which are mostly in the form of assisting the elderly members. Such members are classed as persons doing household duties.

The details of non-workers are furnished in Table B-IX in Part II of this Handbook.

Industrial Establishments

For the first time in 1960 a comprehensive housing census was undertaken to collect information about different types of houses existing

in the State along with various other details like their mode of construction, accommodation, etc. The most valuable of them was the data relating to different kinds of industrial establishments beginning from a large sized factory to a small scale industry carried on in the households. These industries are classified according to the power used, viz., factories and workshops run by (*i*) electricity, (*ii*) liquid fuel, (*iii*) coal, wood and bagasse, (*iv*) other power and (*v*) no power. Statistics were also collected to further classify them according to size of employment, viz., factories employing one person, 2—5 persons, 6—9 persons, 10—19 persons, 20—49 persons, 50—99 persons and 100 persons or more. The data so compiled have been given in E-III Table furnished in Part II.

There are 22,616 houses in the district which are used as workshops, factories or workshop-*cum*-dwellings of which 685 are in the Urban areas and the rest in the Rural areas. Classification of the factories according to power used and size of employment is furnished below:

(1) Factories classified by power:	
Factories run by electricity ..	36
Factories run by liquid fuel ..	56
Factories run by coal, wood and bagasse	6,641
Factories run by other power ..	930
Factories run by no power ..	14,953
(2) Factories classified by size of employment:	
Factories employing one person ..	11,801
Factories employing 2—5 persons ..	10,505
Factories employing 6—9 persons ..	241
Factories employing 10—19 persons ..	41
Factories employing 20—49 persons ..	21
Factories employing 50—99 persons ..	7
Factories employing 100 persons and above	Nil

There are 69 different types of industries in the district when the industries are grouped according to I S. I. Classification Scheme. Some of the major industries according to their numerical importance are given below:

Name of industry	Total number of establishments
1. Manufacture of materials from cork, bamboo, cane, leaves and other allied products ..	4,919
2. Cotton weaving in hand-looms ..	2,933
3. Manufacture of wooden industrial goods other than transport equipment, such as, bobbin and similar equipment and fixtres ..	2,466
4. Manufacture of earthenware and earthen pottery ..	2,168
5. Manufacture of jewellery, silverware and wares using gold and other precious metals ..	1,979
6. Cotton spinning other than in mills	1,962
7. Manufacture of coir and coir products	1,264
8. Manufacture of sundry hardwares ..	1,094

Workers employed in Household Industries

52,062 persons in the district comprising 27,307 males and 24,755 females are employed in household industries. They constitute 2·8 per cent of the total population and 8·0 per cent of the total workers as against the State averages of 3·0 per cent and 6·9 per cent respectively. Of the total persons employed in household industries 2,115 belong to the Urban areas and the rest are from Rural areas. Household industries like manufacture of earthen potteries and weaving have absorbed majority of workers.

Small-scale Industries

According to the survey conducted by the Director of Industries in 1961, there are 74 small-scale industries in the district of which 5 have capital investment of Rs. 50,000 or more each. The

break-up of these industries according to their line of production is given below:

Line of production	Number
Chemical and pharmaceutical industries ..	3
Wood engineering industries ..	10
Printing and allied industries ..	7
Textile industries ..	3
Iron and steel industries ..	11
Leather industries ..	2
Ceramic industries ..	3
Consumer goods industries ..	25
Servicing industries ..	6
Non-ferrous industries ..	4

Factories

Section 2 (m) of the Factories Act, 1948 defines a factory as follows:

'Factory' means any premises including the precincts thereof

(i) whereon ten or more workers are working or were working on any day of the preceding twelve months and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or

(ii) whereon twenty or more workers are working or were working on any day of the preceding twelve months and in any part of which a manufacturing process is being carried on without the aid of power, or is ordinarily so carried on but does not include a mine subject to the operation of the Mines Act (XXXV of 1952) or a railway running shed.

Section 85 of the said Act, however, authorises the State Government to declare by notification any place wherein a manufacturing process is carried on, to be a factory within the meaning of the Factories Act, although it does not fulfil the above requirement of law.

A list of such factories existing in the district in 1951 and in 1961 has been given elsewhere. Out of 18 registered factories existing in 1951, 5 units were closed by 1961 and 19 new units started functioning during the decade, thus bringing their total number to 32 in 1961.

Supply of electricity

Electricity supplied to this district is from the Hirakud Hydroelectric Project. 45 places of this district including all the towns have been electrified so far. It is proposed to electrify 19 more villages of the district during the third plan period.

Trade and Commerce

21,613 persons consisting of 16,707 males and 4,906 females are engaged in trade and commerce. They constitute 1·2 per cent of the total population. Of them, 635 persons deal in wholesale trade and 20,917 in retail trades. The remaining 61 workers carry on miscellaneous trades. Of the total wholesale traders, 602 are in the Urban areas and the rest carry on trade in the Rural areas. Out of the total retail traders 10,396 or 49·7 per cent of them deal in cereals and pulses.

The district has a total number of 10,136 shops including shop-*cum*-dwellings, restaurants, etc., out of which 7,608 are in Rural areas and the rest are in towns.

Fairs

The main festivals observed by the people of this district are Ratha Jatra, Dola Jatra, Shivaratri, Chandan Jatra, Jhamu Jatra and Asokastami Jatra, of which the Ratha Jatra of Lord Jagannath at Puri is the most important. The Asokastami Jatra of Lord Lingaraj at Bhubaneswar is also important which attracts a good number of people. Brass and bell-metal utensils, agricultural implements, bamboo made articles and various kinds of cottage industries products are generally sold and purchased in these fairs. Details about the fairs and festivals have been furnished in Part II of this Handbook.

Workers on land

Orissa is primarily an agricultural State where majority of the people depend on agriculture for their livelihood. According to 1961 Census 73·8 per cent of the total workers of the State work as cultivators and agricultural labourers. The percentage of such workers of Puri district is slightly less, being 68·4. The lower percentage is not due to lack of agricultural facilities or insufficient cultivable area but on account of other profitable avenues of employment which attract a substantial portion of the working population, and also on account of the women-folk coming in for employment in a lesser number. The following Table compares the density of population, proportion of workers on land to total workers, gross area sown per worker on land in the district with similar data for State and the neighbouring districts.

State/District	Density of population per sq. mile	Total workers	Workers on land (Cultivators and Agricultural labourers)	Percentage of workers working on land to total workers	Gross cropped area in acres	Gross cropped area per worker on land
Orissa ..	292	7,661,529	5,656,523	73·8	15,829,316	2·8
Puri ..	461	649,026	444,057	68·4	1,301,323	2·9
Ganjam ..	396	921,549	626,757	68·0	1,588,072	2·5
Baudh-Khondmals ..	120	290,151	224,995	77·5	827,287	3·7
Dhenkanal ..	243	425,260	311,329	73·2	834,959	2·7
Cuttack ..	727	1,007,267	649,410	64·5	1,973,297	3·0

Though the percentage of workers working on land is less, gross cropped area available per worker in the district is slightly more than that of the State. The percentage of area under double and multiple cropping in the district is also more than that of the State average and the averages for most of the districts.

Distribution of land area

The total geographical area of the district is 2,587,712 acres, but land utilization statistics are available for 2,587,470 acres or 99·99 per cent of total area. The following Table gives the details of land utilization in the district for the year 1959-60 along with those for the State.

	Puri		Orissa	
	Area in acres	Percentage to total area	Area in acres	Percentage to total area
Total geographical area ..	2,587,712	100	38,509,952	100
(1) Forests ..	763,662	29·51	8,908,558	23·1
(2) Barren and unculturable land ..	148,502	5·74	3,819,723	9·9
(3) Land put to non-agricultural uses ..	160,165	6·19	3,382,753	8·8
(4) Culturable waste ..	161,147	6·23	2,128,127	5·5
(5) Permanent pastures and grazing land ..	127,681	4·93	1,556,709	4·0
(6) Miscellaneous tree crops and groves ..	114,397	4·43	1,695,687	4·4
(7) Current fallow ..	43,802	1·69	1,465,615	3·8
(8) Other fallow lands ..	31,041	1·20	509,924	1·3
(9) Net area sown ..	1,037,073	40·08	14,695,526	38·2
(10) Non-reporting area ..	242	Negligible	347,330	1·0

The percentage of area under forests, culturable waste, permanent pasture and grazing land and net area sown is more than the State average. The area under forests according to Forest Department is slightly higher than the above figures and it is 35·01 per cent of total area of the district. The discrepancy occurs as the principle of demarcation of forest land adopted by the Forest Department is not followed by the Agriculture Department in compiling agricultural statistics.

Cropped area

The total area sown (including area sown more than once) during 1959-60 was 1,301,323 acres or 50·29 per cent of total geographical area of the district. The area under food crops was 1,276,345 acres or 98·08 per cent of the total cropped area. Area under double and multiple cropping which was 264,250 acres during 1959-60 gives an average of 20·3 acres in every 100 acres of the gross cropped area. In the Table given below the gross cropped area, area sown more than once and the percentage of the latter to the former for the year 1959-60 have been furnished for the district along with those of the State and the adjoining districts for comparative study.

	Gross cropped area (acres)	Area sown more than once (acres)	Percentage of area sown more than once to gross cropped area
Orissa ..	15,829,316	1,133,790	7·2
Puri ..	1,301,323	264,250	20·3
Ganjam ..	1,588,072	163,212	10·3
Baudh-Khondmals	827,287	21,921	2·6
Dhenkanal ..	834,959	29,215	3·5
Cuttack ..	1,973,297	437,497	22·2

The district is well-served by rivers and canals and there are also many minor irrigation projects. The percentage of area under irrigation in the district is also more than the State average. It is, therefore, desirable that the people in the district should go in for double and multiple cropping in more extensive scale although at present the district stands next to Cuttack in the matter of possession of area sown more than once.

Irrigation

A Table showing the area under different sources of irrigation from 1952-53 to 1959-60 has been furnished in Part III. By 1959-60 an area of 66,676 acres was irrigated by tanks, 18,404 acres were irrigated by canals and 190,713 acres were under irrigation from wells and other sources. There are many minor irrigation projects of which 65 projects have an ayacut area of 100 acres or more each. A list of such projects has been given in Part III. The main canals in the district are under Delta irrigation system. Percentage of area under irrigation to the net area sown for the year 1959-60 is given below along with the figures for the State and the adjoining districts.

	Net area sown (acres)	Area under irrigation (acres)	Percentage of irrigated area to net area sown
Orissa ..	14,695,526	2,409,667	16·4
Puri :	1,037,073	275,793	26·6
Ganjam ..	1,424,860	394,009	27·7
Baudh-Khondmals ..	805,366	1,598	0·2
Dhenkanal ..	805,744	214,059	26·6
Cuttack ..	1,535,800	349,000	22·7

The district stands second to Ganjam in having higher percentage of area under irrigation. Double and multiple cropping is not practised in the entire irrigated area. According to the statistics for the year 1959-60, area sown more than once was 264,250 acres against a total of 275,793 acres of irrigated area.

Cropping pattern

The relative importance of crops in the district is given in the following Table showing the gross cropped area under each crop grown in the district and the State.

Crops	Puri		Orissa	
	Gross cropped area in acres	Percentage to total cropped area	Gross cropped area in acres	Percentage to total cropped area
Paddy	900,895	69·2	9,907,301	62·6
Wheat	1,093	0 1	20,640	0·1
Ragi	14,818	1·1	188,721	1·2
Maize	3,190	0·2	86,210	0·6
K ulthi	65,100	5·0	288,681	1·8
Green gram	16,778	1·3	432,518	2·7
Black gram	15,750	1·2	125,138	0·8
Red gram	1,360	0·1	114,803	0·7
Sugarcane	4,900	0·4	66,318	0·4
Groundnut	785	0·1	130,536	0·8
Rape	5,000	0·4	213,611	1·4
Sesamum	10,325	0·8	252,325	1·6
Other crops	261,329	20·1	4,002,514	25·3
Total	1,301,323	100·0	15,829,316	100·0

Out of the total cropped area of 1,301,323 acres, cereals were grown on 921,207 acres and pulses on 256,811 acres during 1959-60. The total area under food grains thus stood at 1,178,018 acres. Among cereal crops, paddy occupies the highest position. As in other parts of the State, greater importance is given to cultivation of paddy and the percentage of area under paddy cultivation in the district is also higher than the State average. A large area is given to cultivation of Kulthi though this crop is not of so much importance in the cropping pattern of the State. The percentage of area under cultivation of black gram in the district is also greater than the State average.

Production rates

A Table showing the yield rates of various crops in different years from 1951-52 to 1959-60 has been furnished in Part III. Production of paddy per acre of land during 1959-60 was 844·53 lbs. Three varieties of paddy, namely, autumn, winter and summer are grown; but out of them winter paddy is grown extensively. The sowing and the harvesting periods of paddy and a few other crops are given below:

Crops		Sowing period	Harvesting period
Rice	1. Autumn	.. May	August-September.
	2. Winter	.. June	December
	3. Summer	.. December	March
Ragi		.. July	November
Mung	1. Kharif	.. September-October	February-March
	2. Rabi	.. November-December	March-Apri
Sugarcane		.. January-February	November-December
Sesamum		.. October	January
Maize		.. June	August

Prices of food grains and other important crops

Wholesale price quotations in respect of staple food grains and a few other crops for the years 1957 to 1960 and monthly rates for 1960 are given in a Table in part III. The data relate to three important marketing centres in the district, namely, Puri, Khurda Road and Nayagarh. The prices have varied from year to year.

Agricultural implements and machineries

A census of agricultural implements and machineries existing in the district was taken during each of the livestock censuses of 1945,1957 and 1961 which were the only censuses taken after formation of Orissa into a separate province. On account of the territorial changes of the district which took place in 1948-49, the statistics available in 1945 will not be properly comparable with those recorded in the years 1957 and 1961. However, the Table

on the subject given in Part III will show the number of agricultural implements and machineries in each of these three livestock census years. Between 1957 and 1961, the number of ploughs both wooden and iron, carts, sugarcane crushers and ghanis have gone down, the greatest fall being in the number of ploughs. There were only 12 tractors in 1957 and their number increased to 27 in 1961.

Agricultural farms

There are seven agricultural farms in the district. Their location and acreage are as follows:

Farms		Acreage
1. Puri	..	47·00
2. Sakhigopal	..	64·80
3. Derras	..	500·40
4. Khurda	..	33·00
5. Nayagarh	..	39·44
6. Daspalla	..	35·91
7. Nimapara (Olans)	..	37·80

Most of these farms are paddy seed multiplication farms, but horticulture has been taken up in some of them. The main crop in Sakhigopal farm is coconut. There is a Coconut Research Station at Sakhigopal and its coconut and arecanut seedlings are popular. In Puri farm there is an orchard where grafts of mango, sapeta, guava, lemon, lichi are prepared and sold out. The main product of Derras farm is paddy seeds. Cultivation of crops like sugarcane, wheat, gram and pulses is also taken up here as irrigation facilities are available.

Organization

The agricultural programmes of the district is looked after by a District Agricultural Officer who is stationed at Puri . He is subordinate to the Director of Agriculture and Food Production-Orissa, who holds his office at the State Capital at Bhubaneswar. In each of the Community Development Blocks, there is an Agricultural Extension Officer to look after the agricultural extension programmes.

ANIMAL HUSBANDRY AND VETERINARY SERVICES

The Animal Husbandry and Veterinary administration of the district is in charge of a District Animal Husbandry and Veterinary Officer whose headquarters is at Puri. There were in 1963 one hospital, 17 dispensaries and 75 stockman centres in the district. One poultry demonstration farm has been set up at Pipli with a strength of 100 birds. A regional poultry farm has been set up at Bhubaneswar by the Government of India with a strength of nearly 2,000 birds for supply of one day old chicks within the State and also to the neighbouring States of Bihar, Bengal and Assam and the Union territories of Manipur and Tripura. Expanded nutrition programme to supply eggs for feeding expectant and nursing mothers is also worked out in three of the Community Development Blocks. 21 artificial insemination centres and 16 bull centres are in operation. A private dairy farm exists at Puri with 20 buffaloes yielding about 2½ maunds of milk per day. The common cattle diseases prevalent in the district are Haemorrhagic septicemia, Black-quarter, Rinderpest, Rumurnal disorders, Avitominasis and mineral deficiencies. Rinderpest out-break in sporadic form was reported during the year 1960-61 which took a toll of 515 animals.

During the previous decade, two livestock censuses were conducted in the district during 1957 and 1961. The total livestock recorded at 996, 868 in 1957 increased to 1,172,786 in 1961. There was increase in number of all livestock except sheep, horses and ponnies whose number in 1961 went down from 117,820 and 6,886 to 72,823 and 3,513 respectively. There has, however, been an appreciable increase in the number of goats which stood at 130,599 in 1961.

PUBLIC HEALTH

Administration

The public health activities and medical administration of the district are under the charge of a District Health Officer and a Civil Surgeon respectively and both of them are stationed at Puri. They have jurisdiction over the entire district. By April 1961, as many as 22 hospitals, 36 dispensaries and 12 primary health centres had been set up and 822 beds for in-door patients were available in these hospitals and primary health centres. The strength of doctors and Kavirajs in these institutions were 89 and 10 respectively. Treatment at the Government institutions is given free. Ten family planning centres were also opened in the district and the earliest of them was the one at Ranpur, started during 1958. There is a hospital for specialised treatment of Tuberculosis cases at Chandpur with 160 beds where patients from all parts of the State are admitted.

Vital Statistics—Registration system

The district being one of the older districts of the State, the area except the ex-states which merged with the district in 1948 had the benefit of registration system for collection of vital statistics for a long time. So vital statistics for Puri Sadar, Bhubaneswar and Khurda subdivisions are available for a longer period than those for Nayagarh subdivision comprising the ex-state areas of Khandpara, Ranpur, Nayagarh and Daspalla. Immediately after merger of these states an interim arrangement was made with effect from July 1948, to collect weekly figures of attacks and deaths arising from cholera and smallpox with a view to take preventive measures and vital statistics began to be collected subsequently with effect from the 1st January 1952 in these areas. The entire district thus came under registration system with effect from January 1952.

The Bengal Births and Deaths Registration Act (Act IV of 1873) has been extended and the agency employed for collection of the vital occurrences in the Rural areas during the decade under report was the village chowkidar. According to the prescribed procedure, the chowkidar is to collect informations about births and deaths during his rounds in the villages and report them at the police stations on the weekly or fortnightly parade days. The Thana Officer is to consolidate the reports thus received from the chowkidars under his police station and send monthly returns to the District Health Officer. The chowkidars, instead of taking this work within their legitimate sphere of duty, considered it as an imposition on them and neglected in furnishing correct and regular reports. The Thana Officers, busy as they are in ever-increasing law and order problems, paid no attention to check the reports received from the chowkidars. Thus the entire structure of vital statistics was built on what was reported by the chowkidars, the resultant statistics being admittedly far from truth. A further set-back to the system was caused by the transfer of the chowkidars to the pay roll of the Grama Panchayats during the later part of the past decade. After their transfer they avoided to come to the parades at the police stations and consequently the reporting of vital statistics suffered. An arrangement has since been made to collect these statistics through Grama Panchayats.

The Urban area of the district comprises Puri, Bhubaneswar, Nayagarh, Jatni and Khurda towns, but vital statistics for the last mentioned three towns are included in the reports of their respective police stations. The Urban area vital statistics for Puri district, therefore, relate to Puri and Bhubaneswar towns only. But births and deaths reported during 1951 were for Puri town only as Bhubaneswar town was not even under a Notified Area Council then After formation of a Notified Area Council, vital occurrences began to be collected separately for Bhubaneswar town from 1952. In Puri and Bhubaneswar towns, vital statistics are collected by the health staff of the concerned Municipality and Notified Area Council wherefrom monthly returns of statistics are sent to the District Health Officer.

On receipt of the monthly returns of births and deaths from the Thana Officers and the Urban units, the District Health Officer, Puri compiles monthly reports of births and deaths for the district and sends the same to the Director of Health Services, Orissa who compiles the State figures. The system is no doubt well defined but during the decade under report, it worked more in its breach. Defaults occurred at the stages of collection, reporting and compilation which led to under-registration.

Births and deaths

During the decade 1951-60, 270,409 deaths and 407,872 births took place in the district. The figures for the year 1951 do not include the events of Nayagarh subdivision as it came under registration system with effect from January 1952. The increase in population during the past decade according to vital statistics is only 137,463 comprising 76,464 males and 60,999 females whereas the increase of population during the decade according to Census of 1961 is 293,177. The discrepancy between the two figures cannot be satisfactorily explained as being due to migration gain which is not reflected in vital statistics and/or exclusion of the figures for Nayagarh subdivision for the year 1951. The incompleteness of vital statistics could be responsible for this huge difference.

Registration rates

The birth and death rates for the decade 1951-60 on the registered events are worked out at 24·4 and 16·2 respectively against 29·9 and 27·1 in the earlier decennium of 1941-50. Though there has been decline in both birth and death rates during the decade 1951-60 the fall in the death rate is precipitous.

The annual birth and death rates for the 10 years 1951—60 were as follows :-

Years	Birth rate per 1,000 population			Death rate per 1,000 population		
	Total	Rural	Urban	Total	Rural	Urban
1951	29·1	28·9	34·1	23·3	23·2	26·2
1952	21·8	21·6	25·7	18·9	18·7	22·7
1953	23·8	23·5	29·4	17·0	16·9	19·9
1954	24·3	24·2	26·7	14·5	14·4	16·9
1955	24·5	24·2	31·3	12·3	12·0	18·9
1956	25·8	25·4	34·7	14·0	13·7	20·8
1957	21·8	21·4	29·7	17·1	16·9	20·7
1958	21·2	20·5	33·8	17·4	17·0	24·2
1959	27·4	27·0	35·7	13·8	13·6	16·7
1960	25·3	24·5	41·0	15·8	15·6	20·2
1951—60 (Decennium)	24·4	24·0	32·5	16·2	15·9	20·5

Birth rate has been higher in towns than in Rural areas for all these years. This is due to availability of better medical facilities for maternity cases in towns which attracted good many cases from Rural areas. Maintenance of records of births is comparatively more efficient in towns, where the events are mostly reported by hospitals handling maternity cases and the sanitary staff of the Urban local bodies. The rates for Urban areas are, therefore, more reliable than those of Rural areas which suffer from under-registration to a greater extent.

Death rates have also been higher in the towns in all these years. Apart from better working of the registration machinery in towns, the cause of higher death rates may be the religious faith of people. Puri and Bhubaneswar which are sacred places of pilgrimage receive a large number of Hindu devotees of older age-group who generally fall easy prey to fatal diseases and succumb.

Causes of death

Deaths from different diseases and their proportion to total deaths during the decade 1951-60 were as follows :

Diseases	number of deaths	Percentageto total deaths
1. Cholera ..	2,945	1·09
2. Smallpox ..	6,080	2·25
3. Fever ..	118,843	43·96
4. Dysentery and diarrhoea ..	22,456	8·30
5. Respiratory diseases ..	10,475	3·87
6. Wounds and accidents	2,680	0·99
7. Other causes ..	106,930	39·54
Total ..	270,409	100

Fever

Fever and the diseases classified under "Other causes" have taken the highest toll of human lives. Next in order for causing mortality are dysentery, diarrhoea and respiratory diseases. In common with other parts of the State, people in Puri district suffer greatly from fever which accounted for 43·96 per cent of total mortality during the past decade. Since the primary collectors of vital occurrences possess very little knowledge to diagnose the particular cause of death other than some of the specific and well-known diseases like smallpox and cholera they are likely to have misclassified several other causes under fever, though the real cause of death may not have been so . This misclassification has, no doubt, inflated the figures of death from fever but it could not have been large enough to alter the general trend. Forests cover about 35 per cent of the total area of the district and a major part of the district remains innundated during the rainy season for long periods. Malaria, the principal disease among fevers, is endemic in these forest and flooded areas and causes majority of deaths. Deaths from fever occur all the year round but the mortality is generally greater in the rainy season. During the last decade the highest casualties, on an average, were in the month of August. A total number of 511,497 malaria cases were treated in the hospitals and other medical institutions in the district during the past decade. Happily, the attendance of malaria patients at hospitals has gone down considerably towards the later years of the decade.

Next to fever, the largest mortality has been on account of "Other causes". The group "Other causes" combine various diseases other than, those classified under cholera, smallpox, fever dysentery and diarrhoea, respiratory diseases, and wounds and accidents. All these causes except cholera and smallpox are heterogenous and include diseases some of which differ from each other in their characteristics. The two specific causes of mortality for which records are maintained are cholera and smallpox. During the past decade both of them were prevalent in the district.

Cholera

Cholera visited the district in all the years of the decade 1951-60 except during 1960. The greatest mortality was in the year 1952 when 658 persons died. Deaths in the years 1956—58 were also quite heavy. Casualties were reported continuously from March 1956 to the end of 1959 except during the months of January and May in 1957.

Smallpox

On the other hand, smallpox was endemic in the district during all the 10 years of the decade and has taken a much greater toll than cholera. Deaths during 1954, 1955, 1956 and 1960 were, however, negligible, being only 45, 14, 41 and 2 respectively. The greatest mortality was in the year 1958, being 3,699 when it was in the form of epidemic from January till the end of September. In this epidemic deaths in the months of March, April and May were greater, being 502, 562 and 499 respectively. The police station areas of Puri Sadar, Satyabadi, Brahmagiri, Khurda, Begunia, Banpur, Sarankul, Odagaon and Khurda town were the worst affected areas in this epidemic.

Infant deaths

The total infant mortality in the district during the past decade was 66,546 or 24·61 per cent of total deaths. The highest number of deaths is recorded in the year 1960. 39·46 per cent of deaths occurred in respect of children of pre-school going age. The decennial infant death rate for 1951—60 was 163·2 per mille of live births, and this rate is higher than the State rate of 145·6. Among annual rates the infant death rate was highest in the year 1951, being 249·3 and the lowest rate of 88·1 was recorded in the year 1956. The decennial rates for Rural and Urban areas were 166·4 and 153·1 respectively.

COMMUNITY DEVELOPMENT AND PANCHAYATI RAJ

Community Development

The Community Development programme aims at all round development of Rural areas and it was inaugurated in Orissa in October 1952. The original pattern was Community Projects running for a term of 3 years with an allotment of Rs. 65 lakhs each. Then came Community Development Blocks with a budgetary allotment of Rs. 15 lakhs each, which had also the same period of operation for 3 years. From 1954, the pattern changed to National Extension Service Blocks, Community Development Blocks and Post-Intensive Blocks which were to run *seriatim*, each for a term of 3 years. Though the period of operation of a National Extension Service Block was 3 years, after the progress of development reached a certain standard and the Block had done a minimum of about 2-2½ years under National Extension Service programme, it was converted into a Community Development Block. After completion of the Community Development term the Block entered into Post-Intensive phase during which period a sum of Rs. 30,000 was available annually for expenditure on local works and social education for a period of 3 years. The allotment of funds for a National Extension Service Block was Rs. 4 lakhs and the developmental expenditure at the Community Development stage inclusive of the amount spent during National Extension Service stage was limited to Rs. 12 lakhs. This pattern also did not last long and the 3 phases of development were concised into 2 stages, namely, Stage I and Stage II. A Block undergoes these two phases for a period of 5 years each. The financial allotments are Rs. 12 lakhs and Rs. 5 lakhs for Stage I and Stage II Blocks respectively. The Stage I period is preceded by one year of pre-extension work exclusively in the field of agriculture for which a provision of Rs. 18,800 is also available. The expenditure incurred in the pre-extension stage is, however, ultimately adjusted against Stage I grants. This revised programme came into operation with effect from the 1st April 1958 and is still in force. All the National Extension Service Blocks existing on the 31st March 1958 were taken under Stage I and the Post-Intensive Blocks under Stage II. The Community Development Blocks were allowed to complete their full term and then revert to Stage II.

The normal population coverage by a Block is 66,000 for plain areas and 25,000—30,000 for tribal areas. On this basis, Puri district has been delimited into 30 Blocks. Nayagarh Community Development Block was the first Block to be started in this district. On the 31st March 1961 through different allotment series, 18 Blocks in all covering a total area of 2,494 sq. miles had been opened in the district. Out of these Blocks, 13 were in Stage I, 2 in Stage II and 3 in Pre-Extension stage on 31-3-1961.

The Block programme is executed through the agency of the Grama Panchayats. With the Panchayati Raj scheme coming into action, Panchayat Samitis are now responsible for

planning and execution of the programme according to the broad outlines of the schemes indicated by the Government and the felt needs of the people. The Block funds are placed at the disposal of the Panchayat Samitis as grants-in-aid and loans for implementation of the developmental schemes. In the Block programme the emphasis is, no doubt, on agriculture and industry but priority is also given for provision of supply of water for irrigation and drinking purposes, education, medical and communication facilities. A total expenditure of Rs. 79,83,101 was incurred in the Blocks in Puri district on the Community Development programme up to the end of 1960-61, the break-up of which under broad heads of development is as follows :

	Rs.
1. Staff and contingencies and Block buildings ..	25,47,567
2. Animal husbandry and agricultural extension ..	4,70,975
3. Irrigation ..	12,65,364
4. Health and rural sanitation ..	8,80,252
5. Education ..	5,60,730
6. Social education ..	5,89,183
7. Communication ..	7,16,494
8. Rural arts, crafts and industries ..	1,58,880
9. Housing ..	7,93,656

Among the achievements up to the end of 1960-61, important items are : undertaking or completion of 44 minor irrigation projects, functioning of 1,049 co-operative societis, and opening of 7 primary health centres. As a part of social education programme, 148 mahila samitis were also organized and 44,630 adults were made literate. The achievement under communications programme is laying of 332 miles of roads and construction of 196 bridges and culverts.

Grama Panchayats

In the beginning, Grama Panchayats in this State were responsible mostly for municipal functions in the Rural areas. As years went by, their activities extended to execution of developmental schemes. Under the Community Development programme, which was initiated during the First Five Year Plan period, the Grama Panchayats were given a more active role in the execution of developmental activities in their areas. To begin with, they functioned as agencies of the Government for execution of the developmental programmes, but towards the later part of the Second Plan period they began to plan and execute their own programmes of development. These changes of democratic decentralization of power subsequently brought in the present Panchayati Raj system, which is a 3-tier system with the Grama Panchayat at the village level and the Zilla Parishad at the district level, the intermediate level being occupied by the Panchayat Samiti.

A Grama Panchayat normally covers 5,000 persons but this limit is relaxed in special cases. The constitution of Grama Panchayats is regulated by the Orissa Grama Panchayat Act, 1948. A Sarpanch is at the head of a Grama Panchayat, and he is assisted by a Naib Sarpanch. The Grama Panchayat members are elected by the villagers on the basis of adult franchise, and from amongst them are elected a Sarpanch and a Naib Sarpanch who hold their office for a period of 3 years. A paid Secretary maintains the accounts and records of the Grama Panchayat. The Grama Panchayat fund is made up of grants and loans received from the Government, as also of taxes and other internal incomes arising out of various schemes, such as, pisciculture, co-operative societies, poultry development, markets, ferries, etc. The fund is usually lodged in a Savings Bank account at the nearest Post Office. Village sanitation, maintenance of public roads, lighting and public tanks, scavenging, public health, registration of births and deaths are some of the important functions of a Grama Panchayat.

There were 38 Grama Panchayats in the district during 1951-52 and their number increased to 275 in 1957-58 out of which 274 Panchayats functioned during 1959-60. With the increase in number, the income and expenditure of the Grama Panchayats have also gone up. From the

total income of only Rs. 99,359 and expenditure of Rs. 79,445 during 1953-54, the amounts went up to Rs. 11,50,061 and Rs. 6,79,158 respectively in the year 1959-60. Taxes alone yielded a total revenue of Rs. 2,31,892 during the year 1959-60, the highest collections being on account of Panchayat tax which amounted to Rs. 1,62,392. From other sources, i. e., lease of market sheds, fees from cattle pounds, irrigation, pisciculture, ferries and ghats, licence fees, etc., the Grama Panchayats got Rs. 1,27,034 during 1959-60. Government grants during the year amounted to Rs. 2,42,285 out of which Rs. 97,632 were grants for maintenance of rural police. Loans to the tune of Rs. 5,48,850 including paddy loans for Rs. 4,86,400 and loans for pisciculture amounting to Rs. 28,250 were also received from the Government. The expenditure included pay and allowances of staff and contingencies amounting to Rs. 3,06,955 and the costs of developmental and other works amounting to Rs. 3,72,202.

The Grama Panchayats in the district maintain village police, the total number of which was 1,783 by the end of 1959-60. None of the Adalti Panchayats functioned during this year.

The yearwise details of number of Grama Panchayats, villages covered, number of Adalti Panchayats, cases handled by Adalti Panchayats, number of village police maintained by Grama Panchayats, income and expenditure of Grama Panchayats for the years 1951-52 to 1959-60 have been given separately in a Table in Part III.

Panchayat Samitis

In accordance with the provisions of the Orissa Panchayat Samitis and Zilla Parishad Act, 1959, Panchayat Samitis were established in the State. This district has been delimited into 30 Panchayat Samitis, and all of them functioned simultaneously with effect from 26th January 1961. A Panchayat Samiti is coterminous with a Development Block. Out of these Panchayat Samitis, 18 were areas which had Community Development Blocks already and the remaining 12 were Shadow Blocks or areas demarcated to have Community Development Blocks in due course.

The Panchayat Samitis are largely elected bodies, and consist of both official and non-official members. The official members are the Block Development Officer and the representatives of various Departments of the State Government in the district who are ordinarily posted at the Block level. The non-official members are Sarpanches of Grama Panchayats and an additional representative elected from each GramaPanchayat area who is not a member of the Grama Panchayat. Due representation of women and Scheduled Castes and Scheduled Tribes is secured in membership of the Samiti. Both official and non-official members take part in the discussions of the Panchayat Samiti meetings, but the official members are not entitled to vote. Non-official members of the Panchayat Samiti hold their office for a period of 4 years. The head of the Panchayat Samiti is the Chairman, who is assisted by a Vice-Chairman, and both of them are elected from among the non-official members. The Chairman generally presides over meetings of the Panchayat Samitis, and in his absence the Vice-Chairman takes the chair. A Panchayat Samiti meets once in every alternate month in the minimum. The Chairman gets an honorarium of Rs. 100 per mensem and is provided with rent-free accommodation or Rs. 50 as houserent allowance in lieu thereof.

The Samiti plans, executes and supervises over all developmental programmes in its area. It is also responsible for primary education, management of trusts and endowments which the Government may entrust, vaccination,registration of births and deaths and supervises over the work of the Grama Panchayats within its jurisdiction. Keeping in view the felt needs of the people and broad outlines of the schemes indicated by the Government, the Panchayat Samiti prepares its annual budget proposals and submits them to the Zilla Parishad for approval. The schemes are executed after Zilla Parishad has sanctioned them. There is a Panchayat Samiti Fund which is augmented by grants and loans from the Government, aids from all-India

bodies and institutions, donations and contributions, etc., and it is lodged at the nearest Government treasury. The Block Development Officer is the Executive Officer of the Panchayat Samiti and draws on this fund, as and when necessary by issue of cheques. The main sources of income of the Panchayat Samiti are the loans and grants from the Government which are generally routed through the Zilla Parishad. The Community Development funds are, however, directly paid to the Samiti. The work and accounts of the Panchayat Samiti are open to audit and inspection by the Government officials.

Zilla Parishad

A Zilla Parishad is the highest institution in the Panchayati Raj system. The Parishad has both official and non-official members. The official members are the Collector, the Subdivisional Officers and the District Heads of different Departments of the State Government. The Chairmen of all the Panchayat Samitis in the district, M. Ps., M. L. As. and Members of Rajya Sabha elected from the district are the non-official members of the Zilla Parishad. One of the non-official members should be a female. The Parishad is headed by a Chairman, who is assisted by a Vice-Chairman and both of them are elected from amongst the non-official members. The tenure of office of all the non-official members including the Chairman and the Vice-Chairman is 4 years. The Parishad is required to meet at least once in every 3 months and all such meetings are generally presided over by the Chairman and in his absence, by the Vice-Chairman. Official members take part in the discussions of the meetings of the Parishad but have no right of voting. The Chairman of Zilla Parishad gets an honorarium of Rs. 200 and a houserent allowance of Rs. 50 per mensem.

The Zilla Parishad mainly approves the schemes and budgets of the Panchayat Samitis, distributes funds among them and supervises over the execution of the various schemes. The day-to-day work of the Parishad is managed by an Executive Officer, who belongs to Orissa Administrative Service, Class I. The Zilla Parishad has also a fund to which the grants and loans from the Government, aids from all-India bodies and internal incomes are credited. The money is lodged in an account at the Government Treasury. The Executive Officer of the Zilla Parishad functions as the drawing and disbursing officer in respect of this fund.

The Zilla Parishad for Puri district was constituted with effect from the 14th February 1961 and it functions at Puri.

CO-OPERATION

The re-organization of credit co-operative societies at all levels and the strengthening of credit structure with State-participation in the share-capital is one of the most important features of the co-operative movement during the past decade. The weaker units were provided with share-capital contribution and were given subsidy for maintaining trained and efficient managerial staff. Several new schemes were put into operation and old societies were re-vitalized.

The agricultural co-operative societies advance loans both in cash and kind. Most of them give loans on short-term basis, whereas there are others to advance medium-term credits. There is provision for grant of long-term loans also. Short-term loans generally include cash, nucleus paddy seeds, green manure seeds, chemical fertilizers and other production pre-requisites including insecticides, agricultural implements, etc. Funds required for sinking or repair of wells, purchase of cattle and agricultural machineries and cost of minor improvements to land are some of the items classified under medium-term loan. The non-agricultural co-operative societies do not, however, advance any loan.

The co-operative movement in the district has made steady progress during the past few years. The total number of primary co-operative societies during 1960-61 was 1,953 which had 128, 051 members and Rs. 3,52,83,196 as working capital. The central financing agency for the co-operative societies is the Central Bank at Khurda. The number, membership and working capital of different categories of co-operative societies existing in the district during 1960-61 are given in a Table in Part III. Both in number and in membership the small-sized co-operative societies lead the rest. These societies among the specific categories have the highest amount of working capital. One in every 15 persons in the district is a member of co-operative society and per member a sum of Rs. 275·53 P. is available as working capital on the average.

NATIONAL SAVINGS

The National Savings movement was first started during the earlier years of the second World War and was then called the Defence Savings Scheme. Its objectives were to collect money for defence purposes and to fight inflation. During the post-war period, the activities of this movement were directed towards inculcating the habit of thrift among the people so as to obtain their savings for augmentation of the resources for the Five-Year Plans. In recent years, it is also helping in collecting funds to strengthen the defence in the National Emergency. The scheme was more or less on an experimental basis till 1948. In 1949 it was spread over to all the districts in the State including Puri.

The various National Savings securities which are available now are the 12-Year National Defence Certificate, the 10-Year Defence Deposit Certificate, the 15-Year Annuity Certificate, the Premium Prize Bonds, the Cumulative Time Deposit Scheme and the Post Office Savings Bank Accounts. The securities are available in different denominations and carry varying rates of interest. The gross and net sale-proceeds from all the National Savings securities in Puri district during the past 3 years are given below :

Year	Gross sale	Net sale
	(in thousands of rupees)	
1960-61	83,33	24,59
1961-62	83,04	17,99
1962-63	98,77	17,58

The targets and achievements in the sale of National Savings securities in the district during these 3 years were as follows :

Year	Target	Achievement
	(in thousands of rupees)	
1960-61	15,00	24,59
1961-62	25,00	17,99
1962-63	25,00	17,58

PLACES OF INTEREST

Puri

It is the district headquarters and is situated on the shore of the Bay of Bengal at a distance of 499 Kms from Howrah and 90 Kms from Cuttack. The place is the terminus of the branch Railway line which runs from Khurda Road. It is also connected by an all-weather motorable road with Cuttack and Bhubaneswar, the State capital. The town is famous as a place of pilgrimage and also as a place of health resort. Both combined, make Puri an interesting and pleasant place for a short change in the hot and cold seasons though the climate during the rains is not so much congenial. It being the seat of Lord Jagannath attracts pilgrims from all parts of India throughout the year. The temple of Lord Jagannath and many other temples are located in the town where there is a wide thoroughfare known as Badadanda which extends from the front of the temple of Lord Jagannath to Gundichabadi. On its either side are located various kinds of shops.

The sea here is shallow for about a mile from the beach and a sea bath in summer is really refreshing. By the side of the sea shore there are

many hotels having all modern amenities. the prominent among them being the South Eastern Railways Hotel. The Raj Bhavan, Circuit House, the District Collector's office and other Government offices are located by the side of the sea shore.

The town has a Municipality since 1881 and its population in 1961 Census was 60,815. The town is electrified and contains many Dharmasalas and lodging houses. There are daily markets and 2 cinema halls.

Bhubaneswar

It is a famous place of pilgrimage having a number of temples containing masterpieces of old architectural and sculptural designs. Besides, it is now the capital of the State. The town lies on the main Howrah-Madras route of the South Eastern Railways, 437 Kms away from Howrah and 26 Kms from Cuttack. It is connected by road with Cuttack and Puri and the Calcutta-Madras National Highway passes through it. The town is air-linked with Calcutta and the I. A. C. conducts bi-weekly services from Calcutta to Bhubaneswar and back. The railway line divides the town more or less into two parts, the old and new. The old town is important from religious point of view and contains the famous temples of Lord Lingaraj, Rajarani and Mukteswar. There is a perennial stream at Kedaragouri inside the town, water of which is considered to be having digestive properties. The new township contains office buildings of Government including Secretariat and residential quarters of Government officials. It is a well-planned town having straight and wide roads flanked on both sides by modern buildings. The Secretariat building is the highest and the longest, the other buildings of importance being Raj Bhavan, Assembly Hall, Rabindra Mandap, Accountant General's Office, University campus and State Museum. There are 2 cinema halls, one near the new town and other in the old town. The new town which is also called New Capital has all the modern amenities of electricity, sewrage system and has daily and bi-weekly market places. Bhubaneswar is also a subdivisional headquarters. The police administration is under the charge of an Additional Superintendent of Police. There is a Notified Area Council for the town. Its population in 1961 Census was 38,221. Khandagiri and Udayagiri hills containing artistic caves hewn out in rocks are located at a short distance. One of the caves contains inscriptions of Kharavela of Kalinga empire. Dhauli hill, located at a short distance to the south-east of Bhubaneswar is noted for inscriptions of Ashok's edicts.

Many educational institutions have sprung up within and adjacent to the town area. The colleges of Agriculture, Animal Husbandry and Veterinary Science, Regional College of Education, Block Development Officers' Orientation Training Centre and Training Centres for Social Educational Organisers, Grama Sevakas, Grama Sevikas, Sainik School and Schools for Deaf and Dumb and Blind are some of the professional and special educational institutions.

Khurda

It is the headquarters of one of the subdivisions of the district bearing the same name. Its railhead, Khurda Road, a junction station on the main Howrah-Madras route of South Eastern Railways is 7 miles away and is connected with an all-weather road on which buses ply regularly throughout the year. The Calcutta-Madras National Highway also passes through the town. Originally it was a small village but came into prominence during the rule of Bhoi Kings who made it their capital during Mughal period. They lived in a fort at the foot of Barunei hill, a mile to the south of the present town. The town featured prominently during Khurda rebellion of 1804 when the British troops took it over. It contains a small Bazar and has got electricity. Its population in 1961 Census was 12,497 and the town is covered by a Notified Area Council.

The Barunei hill, nearly 1003 ft high, a large portion of which is covered by reserved forests containing teak, is a good place for picnic. At a height of about 100 ft there is the temple of

Barunei, where a large fair is held every year for 3-4 days during Raja Sankranti festival in June. The hill contains several caves and there is also a spring near the temple. In the forests, are found leopards, wolves, bears and deers.

Nayagarh

It was the capital of Nayagarh state and now it is the headquarters of Nayagarh subdivision. Situated between two short ranges of hills, the town presents a beautiful view. To reach Nayagarh one has to go from Khurda Road *via* Khurda. Nayaragh is 44 miles from Khurda Road and the two places are connected by an all-weather road on which regular bus services ply. The town has electricity and a small bazar. Its population in 1961 Census was 5,815 and there is a Notified Area Council for the town.

Kantilo

Kantilo, a small village having a population of 6,377 (1961) in Khandpara police station is a centre of trade in brass metal works. It lies on the right bank of the river Mahanadi. The place is also famous for the temple of Nilamadhab which is surrounded by numerous other temples and overlooks the river Mahanadi from the top of two hills. Covering the entire surface of the two hills, the temple site presents a lovely view wherefrom one can enjoy the scenic beauty of the vast expanse of the river Mahanadi with the surrounding landscape. The place is nearly 40 miles from Khurda Road Railway Station and is about 50 miles up-stream on river Mahanadi from Cuttack.

Satyabadi

A small village in Puri Sadar subdivision under Satyabadi police station, it is about a mile from Sakhigopal station on Khurda Road-Puri branch line of S. E. Railways. The village holds the famous temple of Sakhigopal which attracts a large number of pilgrims round the year. According to a belief among Hindus a pilgrimage to Puri is considered incomplete unless one pays a visit to Sakhigopal. The village is a centre of local trade in grains and coconut. It was the chief centre of national upsurge of Orissa during the early period of National Movement when Utkalmani Pandit Gopabandhu Das founded here the Satyabadi Jatiya Bana Vidyalaya to impart education to young men with a view to arouse in them a spirit of dedication to the cause of motherland and mother-tongue. The oldest Oriya newspaper, "The Samaj' was first started as a weekly paper from this place. The population of this village in 1961 Census is recorded 867. It is the headquarters of a police station and a Panchayat Samiti. There are here an Agricultural farm and a Coconut Research Station.

Pipli

A small village on the main Cuttack-Puri Road about 9 miles away from Bhubaneswar. Its population in 1961 Census was 710. The roads to Konark and Kakatpur branches from here. The place is famous for preparation of canopy locally known as "Chandua". On account of its geographical position, Pipli was of strategic importance in olden days and featured prominently in the history of Orissa. It is now the headquarters of a police station, Tahasil and a Community Development Block. The village has a small bazar.

Kaipadar

A village by the side of Cuttack-Berhampur Road, 7 miles to the south-west of Khurda. It contains a tomb of a muslim saint named Bokhari Sahib which is visited by both Hindus and Muslims. A special preparation of sweet is offered. The population of the village is 1,940 (1961).

Atri

Atri is a small village in Begunia police station, 8 miles from Khurda on Khurda-Nayagarh Road. It contains a sulphur hot spring. There is a temple nearby where Sivaratri and Makar Sankranti festivals are held and are attended by a large number of people.

Konark

The famous Sun God temple, now in ruins, is located at this place. It is considered to be a supreme achievement of the eastern school of architecture and sculpture. Konark is reached by road from Cuttack, Bhubaneswar and Puri, its distance from Cuttack and Bhubaneswar being 62 miles and 40 miles respectively. There are regular bus services to Konark from these three places. There are a Tourist Bungalow and an Inspection Bungalow near the site of the temple. A big fair called 'Maghasaptami Mela' is held here every year (January-February).

Baramul Ghati

A magnificent and picturesque mountain gorge in the north-west corner of Daspalla in the course of the river Mahanadi. It is an ideal place for outing where games are found in abundance in the jungle. The place is about 26 miles from Kantilo. There is an Inspection Bungalow at Chhamundia, 5 miles to the east of Barmul.

Astarang

A village under Kakatpur police station on the river Devi where it joins the sea. It is an important centre of production of salt through the process of evaporation. It has a market where trade in fish is carried on. Its population in 1961 Census was 1,388.

Kakatpur

A small village on the bank of the river Prachi, it is the headquarters of a police station of the same name. Its population in 1961 Census was 1,431. The place is famous for the temple of Mangala. On Chaitra Sankranti day (April), priests with pitcher full of water and offerings of flower walk over a narrow trench containing lighted embers near the temple. Kakatpur is connected with Cuttack and Bhubaneswar by bus services.

CALENDAR OF IMPORTANT EVENTS

1853	..	First settlement of Nayagarh ex-state
1855	..	Severe flood
1858	..	Ekrajat Mahal granted revenue-free to Raja of Khurda in lieu of cash payments.
1863	..	Munsif Court established at Puri
1864	..	An allopathic dispensary, second of its kind in the district, opened at Khurda.
1865	..	Establishment of a Sanskrit School at Puri, which in 1913 was raised to the status of a college named Sadasiva Sanskrit College.
1866	..	The great famine Na' anka and a terrible flood
1871	..	Puri, Lodging House Act assented
1877	..	Dibyasingha Deva, a king of Khurda tried for murder of a Sadhu and later on transported for life.
1881	..	Puri Municipality established
1885	..	Puri District Board constituted
1896	..	Kotdesh Estate sold for arrears of rent.
1897	..	Famine
1897—99		Permanent settlement of Sadar subdivision
1898	..	Settlement of Khurda subdivision, Settlement of Daspalla ex-state
1899	..	Settlement of Ranpur ex-state
1901	..	A branch railway line from Khurda Road reached Puri.
1908	..	Puri Bank established
1909	..	Satyabadi School founded by Pandit Gopabandhu Das.
1910	..	Settlement of Khandpara ex-state
1912	..	Khurda Bank established
1913	..	Government House built at Puri
1914	..	Khond rebellion of Daspalla
1917	..	Flood
1918	..	Severe outbreak of influenza

1921 .. Satyabadi School converted into National Educational Centre

The Raghunandan Library of Puri established

1924 .. Outbreak of a violent type of malaria

1926 .. Satyabadi School closed

1928 .. Death of Utkalmani Pandit Gopabandhu Das

1933 .. Settlement of Nayagarh ex-state Heavy Flood

1935 .. Puri Joint Water Works started functioning

1936 .. Sub-Judge's Court established at Puri

1937 .. Flood

1938 .. A heavy cyclone

1939 .. Major Bazalgette, the then Political Agent was killed by a violent mob at Ranpur

1942 .. A severe cyclone

1944 .. Samanta Chandra Sekhar College, Puri, started as a second grade college which in 1948 was raised to first grade

1945 .. Outbreak of a severe type of small-pox

1946 .. Foundation of Capital of Orissa laid at Bhubaneswar

1948 .. Merger of states of Nayagarh, Daspalla, Khandpara and Ranpur

Liquidation of Puri Bank

1949 .. The Gopabandhu Ayurveda Vidya-pitha established at Puri

1954 .. Government took over administration of District Board and local Boards

1955 .. A severe flood

1956 .. Disturbances at Puri on account of States' re-organization. Police firing on a mob

1957 .. District Judge's Court established at Puri. Buxi Jagabandhu Bidyadhar College, Bhubaneswar established

1958 .. Basanta Manjari Swasthyanivas (T. B. Hospital) started at Chandpur

1959 .. Creation of Bhubaneswar subdivision. Heavy Flood

1960 .. Separation of judiciary from executive

1961 .. Establishment of Zilla Parishad

PART II

CENSUS TABLES

Contains

General Population Tables—A-I to A-IV with appendices, General Economic Tables—B-I and B-III to B-IX, Household Economic Tables—B-X to B-XVII, Social and Cultural Tables—C-I, C-II, C-III, C-V, C-VII and C-VIII, Housing and Establishment Tables—E-I to E-V, Tables on Scheduled Castes and Scheduled Tribes—SCT-I to SCT-V, SC-I, ST-I and ST-II, Villagewise List of Industries and List of Fairs and Festivals.

TABLE-A SERIES

GENERAL POPULATION TABLES

General Population Tables comprise four Tables, A-I to A-IV which are briefly described below:

2. Table A-I—Area, Houses and Population—This Table supplies information regarding area, number of inhabited and uninhabited villages, number of towns and sexwise population for each police station and subdivision in the district.

3. The area shown in Col. 3 (*a*) is based on the figures received from the local revenue authorities who also maintain the area figures relating to smaller units, such as, police stations. The Surveyor General, India has not got area figures for units below the district and so the area of the district as received from him has not been adopted. The area in sq. km. shown in Col. 3(*b*) has been calculated at the rate of 1 square mile = 2·590 square kms.

4. Definitions—The definitions of the terms **village**, town, house, occupied residential house, **houseless** persons and institutional population **are** given in the fly-leaf to Table A-I in the Census Report of 1961, Vol. XII, (Orissa) Part II-A.

5. There are three appendices to this Table which are as follows :

(*i*) Appendix I shows the changes in the jurisdiction of the Police Stations and Subdivisions since 1951. The annexure to this Appendix gives the names of all villages which are transferred from the jurisdiction of one police station to another.

(*ii*) Appendix II gives the number of villages with population of 5,000 and over and towns with population of under 5,000.

(*iii*) Apppendix III gives the houseless and institutional population in each police station and subdivision.

6. Table A-II— Variation in population during sixty years —This Table furnishes data on the variation of population for seven censuses from 1901 to 1961. Its importance lies in the fact that it gives the growth of population from decade to decade. In the absence of reliable vital statistics or any other source of information it forms the main source of estimation of population. The percentage variation from decade to decade is also shown in this Table.

7. Table A-III—Villages classified by population—This Table gives the number and population of groups of villages in the various population sizes, namely, less than 200, 200 to 499, 500 to 999, 1,000 to 1,999, 2,000 to 4,999, 5,000 to 9,999 and 10,000 and above.

8. The information is furnished for each subdivision and police station in the district.

9. Table A-IV — Towns classified by population with variation since 1941—This Table shows the growth of each town in this district since the Census of 1941. The area of the town at the 1961 Census, both in square miles and square kilometres is also given. The term 'Town' has already been defined in the fly-leaf to Table A-I published in Part II-A of the Census Report of Orissa.

TABLE A-I—AREA, HOUSES AND POPULATION

Table A-I

Foot Note:— (1) † The Square Kilometres and density figures of Urban areas of Police Station/Subdivision/District are worked out using the area figures corrected up to two places of decimals obtained by adding the areas of the Towns in the respetcive units and not using the area figures given in the Table. In addition to this the figures relating to Square Kilometres are further adjusted to make the Police Station/Subdivision/District totals tally.

(2) Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with asterisk (*on their left.

(3) Towns treated as such for the first time in 1961 are printed in italics.

The following abbreviations have been used:—
T for Total
R for Rural
U for Urban
PS for Police Station
M for Municipality
NAC for Notified Area Council

APPENDIX I TO TABLE A-I

TABLE-B SERIES

GENERAL ECONOMIC TABLES

The contents of the General Economic Tables which are presented in this volume are briefly explained below :

2. **Table B-I—Workers and Non-workers classified by sex and broad age-groups**—This is a summary Table prepared from the Primary Census Abstract giving the total population, the nine industrial categories of workers and also the number of non-workers. Sex split-up is shown in each case. Each category is divided into four broad age-groups, viz., 0—14, 15—34, 35—59 and 60+. The classification of workers and non-workers by age-groups is a special feature of 1961 Census. These age-groups correspond to different stages of life which have special significance with reference to capacity to work, viz., children, young persons, middle-aged persons and elderly persons. Classification of non-working population has not been provided in this Table to avoid unwieldiness, but is given in another Table.

3. **Table B-III—Industrial Classification of Workers and Non-workers by Educational Levels**—This Table is presented in two parts. Part A relates to Urban areas and Part B to Rural areas. The educational levels which are given in both the parts are shown below :

Part A

Illiterate
Literate (without educational level)
Primary or Junior Basic
Matriculation or Higher Secondary
Technical diploma not equal to degree
Non-technical diploma not equal to degree
University degree or Post-graduate degree other than technical degree
Technical degree or diploma equal to degree or Post-graduate degree in the following branches
Medicine
Agriculture
Veterinary and Dairying
Technology
Teaching and others

Part B

Illiterate
Literate (without educational level)
Primary or Junior Basic
Matriculation and above

4. The nine industrial categories of workers and also the non-workers are cross-tabulated by literacy and educational standards mentioned above.

5. **Table B-IV Part A—Industrial Classification by sex and class of worker of Persons at work at Household Industry**—The distinction between household industry and non-household industry is drawn for the first time during the current Census. This part deals with workers engaged in household industry only. The data up to Divisions and Major Groups are shown separately for Total, Rural and Urban for this district.

6. **Table B-IV Part B—Industrial Classification by sex and class of worker of Persons at work in Non-household Industry, Trade, Business, Profession or Service**—This part deals with Categories III, V, VI, VII, VIII and IX. All these categories are sorted into 'Divisions' and 'Major Groups' according to the nature of the industry. They are further cross-tabulated according to the class of worker, namely, employer, employee, single worker and family worker. The data up to Divisions and Major Groups are shown separately for Total and Urban for the district.

7. **Table B-IV Part C—Industrial Classification by Sex, Divivsions, Major Groups and Minor Groups of Persons at work other than Cultivation**—As the Minor Gropus are not shown in the Tables A and B, this Table combines both in order to give the Minor Groups in addition to the Divisions and Major Groups. Separate columns are provided for the workers at household industry and non-household industry.

8. Minor Groups having less than 1 per cent of workers of the respective Divisions (less than 0·5 per cent in case of Minor Groups of Division 2 & 3), have not been shown in this Table. Divisions thus affected are marked with an asterisk (*). They are given separately in the Appendix.

9. Complete Code description of Divisions, Major Groups and Minor Groups according to I. S. I. C. are given below for reference as they are used in many Tables:

Major Group (Code)	Description	Minor Group (Code)
Division 0—Agriculture, Livestock, Forestry, Fishing and Hunting		
	Field Produce and Plantation Crops	
	Production of cereal crops (including Bengal gram), such as, rice, wheat, jowar, bajra, maize ..	000
	Production of pulses, such as, arhar, moong, masur, urd, khesari, other gram ..	001
	Production of raw jute and kindred fibre crops ..	002
	Production of raw cotton and kindred fibre crops ..	003
	Production of oil-seeds, sugar-cane and other cash crops ..	004
	Production of other crops (including vegetables) not covered above ..	005
	Production of fruits and nuts in plantations, vines and orchards ..	006
	Production of wood, bamboo, cane, reeds, thatching grass, etc. ..	007
	Production of juice by tapping palms ..	008
	Production of other agricultural produce (including fruits and nuts not covered by Code No. 006 and flowers) not covered above ..	009
	Plantation Crops	
	Production of tea in plantation	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above ..	015
02	*Forestry and Logging*	
	Planting, replanting and conservation of forests ..	020
	Felling and cutting of trees and transportation of logs ..	021
	Preparation of timber ..	022
	Production of fuel including charcoal by exploitation of forests ..	023
	Production of fodder by exploitation of forests ..	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests ..	025
	Production and gathering of other forest products not covered above ..	026
03	*Fishing*	
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish firms and fish hatcheries ..	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond ..	032
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power, such as, cow, buffalo, goat ..	040
	Rearing of sheep and production of wool ..	041

Major Group (Code)	Description	Minor Group (Code)
	Rearing and production of other animals (mainly for slaughter), such as, pig ..	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey ..	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products, such as, skin, bone, ivory and teeth	048
Division 1—Mining and Quarrying		
10	*Mining and Quarrying*	
	Mining of coal ..	100
	Mining of iron-ores ..	101
	Mining of gold and silver ores	102
	Mining of manganese ..	103
	Mining of mica ..	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone ..	107
	Mining of chemical earth, such as, soda ash ..	108
	Mining and quarrying of non-metallic products not classified above, such as, precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt ..	109

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing		
20	*Foodstuffs*	
	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and food grains ..	200
	Production of sugar and syrup from sugar-cane in mills ..	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy	202
	Production of fruit products, such as, jam, jelly, sauce and canning and preservation of fruits ..	203
	Slaughtering, preservation of meat and fish and canning of fish ..	204
	Production of bread, biscuits, cake and other bakery products ..	205
	Production of butter, ghee, cheese and other dairy products ..	206
	Production of edible fats and oil (other than hydrogenated oil) ..	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products, such as, sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge ..	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery ..	210
	Production of country liquor ..	211

Major Group (Code)	Description	Minor Group (Code)
	Production of indigenous liquor, such as, toddy, liquor from mahua, palm juice ..	212
	Production of other liquors not covered above ..	213
	Production of aerated and mineral water ..	214
	Production of ice ..	215
	Production of ice-cream ..	216
	Processing of tea in factories ..	217
	Processing of coffee in curing works ..	218
	Production of other beverages ..	219
22	*Tabacco Products*	
	Manufacture of bidi ..	220
	Manufacture of cigars and cheroots ..	221
	Manufacture of cigarette and cigarette tobacco ..	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff ..	224
	Manufacture of jerda and other chewing tobacco ..	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills) ..	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching ..	233
	Cotton weaving in power-looms	234
	Cotton weaving in handlooms. .	235
	Manufacturing of Khadi textile in handlooms ..	236
	Printing of cotton textile ..	237
	Manufacturing of cotton nets ..	238
	Manufacturing of cotton, cordage, rope and twine ..	239
24	*Textile—Jute*	
	Jute pressing and baling ..	240
	Jute spinning and weaving ..	241
	Dyeing and bleaching of jute ..	242
	Printing of jute textile ..	243
	Manufacture of other products, like rope, cordage from jute and similar fibre, such as, hemp, mesta ..	244
25	*Textile—Wool*	
	Wool baling and pressing ..	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill ..	252
	Wool spinning other than in mill ..	253
	Wool weaving in power-loom ..	254
	Wool weaving in handloom ..	255
	Embroidery and art work in woollen textile ..	526
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk ..	261
	Spinning of silk other than in mills ..	262
	Weaving of silk textile by power-loom ..	263
	Weaving of silk textile by hand-loom ..	264
	Printing of silk textile ..	265
	Manufacture of silk cordage, rope and twine ..	266

Major Group (Code)	Description	Minor Group (Code)
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products ..	270
	Manufacture of hosiery and other knitted fabrics and garments ..	271
	Embroidery and making of crepe, lace and fringes ..	272
	Making of textile garments including raincoats and headgear ..	273
	Manufacture of made up textile goods except wearing apparel, such as, curtains, pillow cases, bedding materials, mattress textile bags ..	274
	Manufacture of waterproof textile products, such as, oilcloth, tarpaulin ..	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling ..	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas ..	278
	Processing and manufacture of textile products not covered above ..	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures ..	281
	Manufacture of structural wooden goods (including treated timber), such as, beams, posts, doors and windows ..	282
	Manufacture of wooden industrial goods other than transport equipment, such as, bobbin and similar equipment and fixtures ..	283
	Manufacture of other wooden products, such as, utensils, toys and artwares ..	284
	Manufacture of veneer and ply-wood ..	285
	Manufacture of ply-wood products, such as, tea chest ..	286
	Manufacture of boxes and packing cases other than ply-wood ..	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products ..	288
	Manufacture of other wood and allied products not covered above ..	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill ..	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade ..	291
	Manufacture of products, such as, paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp ..	292

Major Group (Code)	Description	Minor Group (Code)
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals ..	300
	Printing and publishing of books ..	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry ..	302
	All types of binding, stitching, sizing and other allied work connected with binding industry ..	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather ..	310
	Manufacture of shoes and other leather footwear ..	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur ..	312
	Manufacture of leather products (except those covered by code Nos. 311,312), such as, leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles ..	313
	Repair of shoes and other leather footwear ..	314
	Repair of all other leather products except footwear ..	315
32	*Rubber, Petroleum and Coal Products*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear ..	321
	Manufacture of rubber goods used for industrial purpose ..	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat ..	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries ..	324
	Production of coal-tar and coke in coke oven ..	325
	Manufacture of other coal and coal-tar products not covered elsewhere ..	326
33	*Chemical and Chemical Products*	
	Manufacture of basic, industrial chemicals, such as, acids, alkalis and their salts not elsewhere specified ..	330
	Manufacture of dyes, paints, colours and varnishes ..	331
	Manufacture of fertilizers ..	332
	Manufacture of amunition, explosives and fire-works ..	333
	Manufacture of matches ..	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap ..	335
	Manufacture of soap and other washing and cleaning compounds ..	336

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber) ..	337
	Manufacture of common salt ..	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats) ..	339
34-35	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products, such as, bricks, tiles	340
	Manufacture of cement and cement products ..	341
	Manufacture of lime ..	342
	Manufacture of structural stone goods, stone dressing and stone crushing ..	343
	Manufacture of stonewares, other than images ..	344
	Manufacture of stone images ..	345
	Manufacture of plaster of paris and its products ..	346
	Manufacture of asbestos products ..	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery ..	350
	Manufacture of chinaware and crockery ..	351
	Manufacture of porcelain and its products ..	352
	Manufacture of glass bangles and beads ..	353
	Manufacture of glass apparatus	354
	Manufacture of earthen images, busts and statues ..	355
	Manufacture of earthen toys and artwares except those covered by code No. 355 ..	356
	Manufacture of glass and glass products except optical and photographic lenses and glass productsc overed above	357
	Manufacture of other non-metallic mineral products not elsewhere specified ..	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms, such as, billets, blooms, tubes, rods ..	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms ..	361
	Manufacture of armaments ..	362
	Manufacture of structural steel products, such as, joist, rail, sheet, plate ..	363
	Manufacture of iron and steel furniture ..	364
	Manufacture of brass and bell-metal products ..	365
	Manufacture of aluminium products ..	366
	Manufacture of metal products (other than of iron, brass, bell-metal and aluminium), such as, tin can ..	367

Major Group (Code)	Description	Minor Group (Code)
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products ..	368
	Manufacture of sundry hardwares, such as, G. I. pipe, wire net, bolt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39) ..	369
37	*Machinery (All kinds other than Transport) and Electrical Equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery ..	370
	Manufacture and assembling of prime mover and boilers other than electrical equipment, such as, diesel engines, road-rollers, tractors ..	371
	Manufacture of machine-tools	372
	Manufacture of textile machinery and accessories ..	373
	Manufacture of heavy electrical machinery and equipment, such as, motors, generators, transformers ..	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery ..	377
	Manufacture of electronic equipment, such as, radio, microphone ..	378
	Manufacture of electric machinery and apparatus, appliances not specified above ..	379
38	*Trasnport Equipment*	
	Manufacture, assembling and repairing of locomotives..	380
	Manufacture of wagons, coaches, tramways and other railroad equipment other than that covered by code No. 363 ..	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines) ..	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories, such as, saddle, seat-frame, gear ..	385
	Building and repairing of water transport equipment, such as, ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines ..	387
	Repairing of bicycles and tricycles ..	388
	Manufacture of other transport equipment not covered above, such as, animal-drawn and hand-drawn vehicles ..	389

Major Group (Code)	Description	Minor Group (Code)
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies ..	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies..	391
	Assembling and repairing of watches and clocks ..	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals ..	393
	Manufacture and tuning of musical instruments ..	394
	Manufacture of stationery articles not covered elsewhere, such as, pencil, penholder, fountain pen ..	395
	Manufacture of sports goods ..	396
	Manufacture and repair work of goods not assignable to any other group ..	399
Division 4 — Construction		
40	*Construction*	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations ..	400
	Construction and maintenance of roads, railways, bridges, tunnels ..	401
	Construction and maintenance of telegraph and telephone lines ..	402
	Construction and maintenance of waterways and water-reservoirs, such as, bund, embankments, dam, canal, tank, tube-wells, wells ..	403
Division 5—Electricity, Gas, Water and Sanitary Services		
50	*Electricity and Gas*	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers ..	502
51	*Water-Supply and Sanitary Services*	
	Collection, purification and distribution of water to domestic and industrial consumers ..	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation ..	511
Division 6—Trade and Commerce		
60—63	*Wholesale Trade*	
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere) ..	601

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in all kinds of fabrics and textile products, such as, garments, hessian, gunny bag, silk and woollen yarns, shirtings, suitings, hosiery products ..	602
	Wholesale trading in beverages, such as, tea (leaf), coffee (seed and powder), aerated water..	603
	Wholesale trading in intoxicants, such as, wines, liquors	604
	Wholesale trading in other intoxicants, such as, opium, ganja, etc. ..	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products ..	606
	Wholesale trading in animals ..	607
	Wholesale trading in straw and fodder ..	608
	Wholesale trading in medicines and chemicals ..	610
	Wholesale trading in fuel and lighting products, such as, coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics ..	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware ..	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings ..	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products ..	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above ..	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products ..	621
	Wholesale trading in paper and other stationery goods ..	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical ..	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb ..	632
	Wholesale trading in all kinds of transport and storage equipment ..	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eyeglasses, frames ..	635
	Wholesale trading in hardware and sanitary equipment ..	636
	Wholesale trading in scientific, medical and surgical instruments ..	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery ..	638
	Wholesale trading in all goods not covered above ..	639

Major Group (Code)	Description	Minor Group (Code)
64—68	*Retail Trade*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry ..	640
	Retail trading in beverages, such as, tea (leaf), coffee (seed and powder), aerated water ..	641
	Retail trading in intoxicants, such as, wines, liquors ..	642
	Retail trading in other intoxicants. such as, opium, ganja, etc. ..	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products ..	644
	Retail trading in fuel, such as, coke, coal, firewood and kerosene ..	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc. ..	646
	Retail trading in animals ..	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textile and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles ..	650
	Retail trading in toilet goods, perfumes and cosmetics ..	651
	Retail trading in medicines and chemicals ..	652
	Retail trading in footwear, headgear, such as, hats, umbrellas, shoes and chappals ..	653
	Retail trading in tyres, tubes and allied rubber products ..	654
	Retail trading in petrol, mobil oil and allied products ..	655
	Retail trading in wooden, steel and other metallic furniture and fittings ..	660
	Retail trading in stationery goods and paper ..	661
	Retail trading in metal, porcelain and glass utensils ..	662
	Retail trading in earthenware and earthen toys ..	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials ..	670
	Retail trading in hardware and sanitary equipment ..	671
	Retail trading in wood, bamboo, cane, bark and thatches ..	672
	Retail trading in other building materials ..	673
	Retail trading in agricultural and industrial machinery equipment tools and appliance ..	680
	Retail trading in transport and storage equipments ..	681
	Retail trading in electrical goods like electric fan, bulb, etc. ..	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eyeglass, frame ..	684
	Retail trading in scientific, medical and surgical instruments ..	685
	Retail trading in precious stones and jewellery ..	968

Major Group (Code)	Description	Minor Group (Code)
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing ..	687
	Book-selling ..	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce—Miscellaneous*	
	Importing and exporting of goods and commodities ..	690
	Real estate and properties ..	691
	Stocks, shares and futures ..	692
	Providents and insurances ..	693
	Money-lending (indigenous)	694
	Banking and similar type of financial operation ..	695
	Auctioneering ..	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods, such as, electric fan, microphone, rickshaw, etc. ..	699
Division 7—Transport, Storage and Communications		
70-71	*Transport*	
	Transporting by railways ..	700
	Transporting by tramway and bus service ..	701
	Transporting by motor vehicles (other than omnibus) ..	702
	Transporting by road through other means of transport, such as, hackney carriage, bullock cart, ekka ..	703
	Animal transporting by animals, such as, horse, elephant, mule, camel ..	704
	Transporting by man, such as, carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving ..	705
	Transporting by boat, steamer, ferry, etc., by river, canal ..	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean ..	707
	Transporting by air ..	708
	Transporting by other means not covered above ..	709
	Services incidental to transport, such as, packing, carting travel agency ..	719
72	*Storage and Warehousing*	
	Operation of storage, such as, warehouses ..	720
	Operation of storage, such as, cold storage ..	721
	Operation of storage of other type ..	722
73	*Communications*	
	Postal, telegraphic, wireless and signal communications ..	730
	Telephone communication ..	731
	Information and broadcasting	732
Division 8—Services		
80	*Public Services (This does not include Government, Quasi-Government or local body activities other than administrative, in such fields as, transport, communications, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institutions each of which is classified in the appropriate industry group)*	
	Public Services in Union and State army including territorial corps and volunteer corps ..	800

Major Group (Code)	Description	Minor Group (Code)
	Public Service in Navy ..	801
	Public Service in Air Force ..	802
	Public Service in Police ..	803
	Public Services in administrative departments and offices of Central Government ..	804
	Public Services in administrative departments and offices of Quasi-Government organization, municipalities, local boards, etc. ..	805
	Public Services in administrative departments and offices of State Governments ..	809
81	*Educational and Scientific Services*	
	Educational services, such as, those rendered by technical colleges, technical schools and similar technical and vocational institutions ..	810
	Educational services, such as, those rendered by colleges, schools and similar other institutions of non-technical type ..	811
	Scientific services and research institutions not capable of classification under any individual group ..	812
82	*Medical and Health Services*	
	Public health and medical services rendered by organizations and individuals, such as, by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	820
	Veterinary services rendered by organizations and individuals	821
83	*Religious and Welfare Services*	
	Religious services rendered by religious organizations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organizations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk ..	831
	Welfare services rendered by organizations operating on a non-profit basis for the promotion of welfare of the community, such as, relief societies, red-cross organization for the collection and allocation of contributions for charity ..	832
84	*Legal Services*	
	Legal services rendered by barrister, advocate, solicitor, mukhtar, pleader, mukurie, munshi ..	840
	Matrimonial services rendered by organizations and individuals	841
85	*Business Services*	
	Engineering services rendered by professional organizations or individuals ..	850
	Business services rendered by organizations of accountants, auditors, book-keepers or like individuals	851

Major Group (Code)	Description	Minor Group (Code)
	Business services rendered by professional organizations or individuals, such as, those of advertising and publicity agencies ..	852
	Business services rendered by professional organizations or individuals, such as, those rendered by news agency, newspaper correspondents, columnists, journalists, editors, authors ..	853
86	*Community Services and Trade and Labour Associations*	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organizations..	860
	Services rendered by civic, social, cultural, political and fraternal organizations, such as, ratepayers' association, club, library ..	861
	Community services, such as, those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*	
	Production of motion picture and allied services, such as, processing, editing, etc. ..	870
	Recreation services rendered by cinema houses by exhibition of motion pictures ..	871
	Recreation services rendered by organizations and individuals, such as, those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organizations and individuals including horse, motor, etc., racing ..	873
88	*Personal Services*	
	Services rendered to households, such as, those by domestic servants, cooks ..	880
	Services rendered to households, such as, those by governess, tutor, private secretary ..	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organizations to provide lodging and boarding facilities ..	882
	Laundry services rendered by organizations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning services ..	883
	Hairdressing, other services rendered by organizations and individuals, such as, those by barber, hairdressing saloon and beauty shops ..	884
	Services rendered by portrait and commercial photographic studios ..	885
89	*Services (not elsewhere classified)*	
	Services rendered by organizations or individuals not elsewhere classified ..	890
	Division 9—Activities not adequately described	
90	*Activities unspecified and not adequately described, (This includes new entrants to the Labour Market)*	

Major Group (Code)	Description	Minor Group (Code)
	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified..	900
	Fresh entrants to the Labour Market ..	999

19. Table B-V—Occupational Classification by Sex of Persons at work other than Cultivation—This Table gives the occupational classification of persons who are working in non-agricultural occupation, separately for Total and Urban Divisions, Groups and Families according to National Classification of Occupations are shown in it. Information regarding persons working in household industry and non-household industry is also supplied.

11. Families having less than 1 per cent of the workers of the respective Division (less than 0·5 per cent in case of families of Divisions 7-8), have been not shown in this Table, but are given in the Appendix. Divisions thus affected are marked with an asterisk (*).

12. Code description of families not appearing in this Table are given below :.

000 Architects
002 Mechanical Engineers
003 Electrical Engineers
004 Chemical Engineers
005 Metallurgical Engineers
006 Mining Engineers
007 Surveyors
009 Arctitects, Engineers and Surveyors, n.e.c.
010 Chemists except Pharmaceutical Chemists
011 Pharmaceutical, Chemists
012 Physicists
013 Meteorologists
014 Geologists and Geophysicists
015 Mathematicians
019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.
020 Biologists and Animal Scientists
022 Silviculturists
023 Agronomists and Agricultural Scientists
029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.
032 Physicians, Homeopathic
033 Physicians, Other
034 Physiologists
035 Teachers
036 Dentists
039 Physicians, Surgeons and Dentists, n.e.c.
040 Nurses
041 Midwives and Health Visitors
044 Vaccinators
045 Physiotherapists, Masseurs and Related Technicians
047 Optimetrists and Opticians
052 Teachers, Middle and Primary Schools
053 Teachers, Nursery and Kindergarten Schools
059 Teachers, n.e.c.
060 Judges and Magistrates
061 Legal Practitioners and Advisers
062 Law Assistants
069 Jurists and Legal Technicians, n.e.c. (including Petition Writers)
070 Enconomists
071 Accountants and Auditors
072 Statisticians
073 Geographers
074 Psychologists and Acturaries
075 Personnel Specialists
076 Labour and Social Welfare Workers, Social Workers who are not elected officials
077 Sociologists and Anthropologists
078 Historians, Archeologists, Political Scientists and Related Workers
079 Social Scientists and Related Workers, n.e.c.
080 Authors
081 Editors, Journalists and Related Workers
082 Translators, Interpreters and Language Specialists
083 Painters, Decorators and Commercial Artists
084 Sculptors and Modellers
085 Actors and Related Workers
087 Dancers and Related Workers
089 Artists, Writers and Related Workers, n.e.c

090 Draughtsmen
091 Laboratory Assistants
099 Science and Engineering Technicians, n.e.c.
0X4 Geographers
0X8 Political Workers (who are not elected officials)
0X9 Other Professional, Technical and Related Workers, n.e.c.
110 Directors and Managers, Wholesale Trade
111 Directors and Managers, Retail Trade
120 Directors, Managers and Working Proprietors, Banks
121 Directors, Managers and Working Proprietors, Insurance
129 Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.
130 Directors, Managers and Working Proprietors Mining, Quarrying and Well Drilling
132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary
139 Directors, Managers and Working Proprietors, n.e.c.
200 Book-keepers, Book-keeping and Accounts Clerks
201 Cashiers
202 Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors (Excluding those on moving Transport)
210 Stenographers
211 Typists
220 Computing Clerks and Calculating Machine Operators
221 Punch Card Machine Operators
229 Office Machine Operators, n.e.c.
310 Agents and Salesmen, Insurance
311 Agents, Brokers and Salesmen, Real Estate
312 Brokers and Agents, Securities and Shares
313 Auctioneers
314 Valuers and Appraisers
319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers, n.e.c.
320 Commercial Travellers
321 Manufacturers' Agents
329 Commercial Travellers and Manufacturers' Agents, n.e.c.
339 Salesmen, Shop Assistants and Related Workers, n.e.c.
340 Money-lenders (including Indigenous Bankers)
341 Pawn-Brokers
400 Cultivators (Owners)
401 Cultivators (Tenants)
403 Planters and Plantation Managers
409 Farmers and Farm Managers, n.e.c. (Vegetable and Fruit Growers)
410 Farm Machinery Operators
413 Tappers (Palm, Rubber trees, etc.)
414 Agricultural Labourers
415 Plantation Labourers
419 Farm Workers, n.e.c.
420 Hunters
421 Trappers
429 Hunters and Related Workers, n.e.c.
432 Conch and Shell Gatherers, Sponge and Pearl Divers
439 Fishermen and Related Workers, n.e.c.
443 Charcoal Burners, Kattha makers and Forest Product Processers
449 Loggers and Other Forestry Workers, n.e.c.
500 Miners
502 Drillers, Mines and Quarries
503 Shot Firers
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas
520 Mineral Treaters
590 Miners, Quarrymen and Related Workers, n.e.c.
600 Deck Officers and Pilots, Ship
601 Ship Engineers
611 Engine-Room Ratings, Firemen and Oilers Ship
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators
630 Drivers
631 Firemen
640 Tramcar Drivers
649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)
650 Conductors
651 Guards
652 Brakesmen
661 Traffic Controllers

670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operators
694 Workers in Communication Occupations, n.e.c.
701 Blow-room Workers and Carders
703 Warpers and Sizers
705 Pattern Card Preparers
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
711 Hat and Head-gear Makers
712 Furriers
714 Pattern Makers, Makers and Cutters, Textile Products, Leather Garments and Gloves
715 Sewers, Embroiderers and Darners, Textile and Fur Products
719 Tailors, Cutters, Furriers and Related Workers, n.e.c.
720 Shoe Makers and Shoe Repairers
721 Cutters, Lasters, Sewers, Footwear and Related Workers
722 Harness and Saddle Makers
729 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers, n.e.c.
730 Furnacemen, Metal
731 Annealers, Temperers and Related Heat Treaters
732 Rolling Mill Operators, Metal
734 Moulders and Coremakers
735 Metal Drawers and Extruders
739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers, n.e.c.
740 Precision Instrument Makers, Watch and Clock Makers and Repairmen
742 Jewellery Engravers
750 Fitter-Machinists, Tool-makers and Machine Tool Setters
751 Machine Tool Operators, Knife Makers
752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
755 Plumbers and Pipe Fitters
756 Welders and Flame Cutters
757 Metal Plate and Structural Metal Workers
758 Electro-Platers, Dip Platers and Related Workers
759 Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers, n.e.c. (including Metal-engravers other than Printing)
760 Electricians, Electrical Repairmen and Related Electrical Workers
761 Electrical and Electronics Fitters
762 Mechanics-Repairmen, Radio and Television
763 Installers and Repairmen, Telephone and Telegraph
764 Linemen and Cable Jointers
769 Electricians and Related Electrical and Electronics Workers, n.e.c.
771 Shipwrights and Boat Builders (Wood)
772 Sawyers and Wood Working Machinists
773 Coach and Body Builders
774 Cart Builders and Wheelwrights
775 Cabinet Makers
779 Carpenters, Joiners, Cabinet Makers, Cooper and Related Workers, n.e.c.
780 Painters and Paper Hangers
790 Stone Cutters, Stone Carvers and Stone Dressers
792 Glaziers
793 Cement Finishers and Terrazzo and Mosaic Workers
794 Hut Builders and Thatchers
795 Well Diggers
799 Bricklayers, Plasterers and Construction Workers, n.e.c.
800 Type-setting Machine Operators
801 Compositors
802 Proof Readers and Copy Holders
803 Printers (Paper)
804 Printers (Textile)
805 Photo Litho Operators, Photo-Lithographers
806 Engravers, Etchers and Block Makers (Printing)
807 Stereotypers
808 Book Binders
809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.

810 Furnacemen, Kilnmen and Ovenmen
812 Blowers and Benders, Glass
813 Moulders and Pressers, Glass
814 Grinders, Cutters, Decorators and Finishers
815 Pulverisors and Mixers, Cement, Clay and Other Ceramics
819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.
823 Khandsari, Sugar and Gur Makers
825 Makers of Aerated Water and Brewers
826 Food Canners, Preservers and Related Workers
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, Makers of Ice, n.e.c.,
830 Batch and Continuous Still Operators
831 Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calendrers, Chemical and Related Processes
833 Paper Pulp Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n.e.c.
840 Curers, Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n.e.c.
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastic Products Makers
853 Tanners, Fellmongers, Pelt Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
860 Checkers, Testers, Sorters, Weighers and Counters, Weighmen
861 Packers, Labellers and Related Workers
870 Operators, Stationary Engines and Related Equipment
871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and Other Construction Machinery, n.e.c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.
900 Fire Fighters and Related Workers
902 Customs Examiners, Patrollers and Related Workers
909 Fire Fighters, Policemen, Guards and Related Workers, n.e.c.
913 Ayas, Nurse-maids
919 House Keepers, Cooks, Maids and Related Workers, n.e.c.
930 Building Care-takers
951 Dry-cleaners and Pressers
960 Athletes, Sportsmen and Related Workers
970 Movie Camera Operators
979 Other Photographers
990 Embalmers and Undertakers
999 Service, Sport and Recreation Workers n.e.c.
X00 Workers without Occupations, Matriculates and above
X08 Workers without Occupations, Literates
X09 Workers without Occupations, Other

13. Table B-VI—Occupational Divisions of Persons at work other than at Cultivation, classified by sex, broad age-groups and educational levels in Urban areas only—This Table gives the data up to Divisions of the National Classification of Occupations for all the Urban areas in the district. It deals with literate workers other than those who work as cultivators and as agricultural labourers. The population under each division is classified by four broad age-groups 0—14, 15—34, 35—59, 60+ and Age not stated, which are further cross-tabulated according to the educational levels.

14. Table B-VII Part A—Persons working principally (i) as Cultivators,(ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and by secondary work (i) at Household Industry, (ii) as Cultivator or (iii) as Agricultural Labourer—This Table is a cross-tabulation in the case of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour or (iii) household industry. This is an important Table as it shows the extent to which cultivation is supplemented by household industry and *vice versa*. The type of household industries for the district are shown in Divisions and Major Groups of I. S. I. C. separately for Total, Rural and Urban. Major Groups having secondary workers less than 5 percent of the principal workers are omitted from this Table and shown in Appendix. The affected Divisions are marked with an asterisk (*).

15. Table B-VII Part B—Industrial Classification by sex of Persons working in Non-household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry, This Table gives the data on the basis of cross-tabulation in the case of persons who are principally engaged in non-household industry etc. It shows the principal workers in each Division and Major Group followed by additional workers in each Division and Major Group. It is presented separately for Total, Rural and Urban.

16. Table B-VIII Parts A and B—Persons unemployed aged 15 and above by sex, broad age-groups and educational levels—This Table which deals with the classification of unemployed persons by their educational standards and age-groups is presented in two parts: Part A for the Urban areas and Part B for the Rural areas in this district.Both these parts give separate data in respect of those who are seeking employment for the first time and for those persons who were employed before but are now out of employment and are seeking work. In the first case the broad age-groups are 15—19, 20—24, 25—29, 30—34, 35+and in the latter case 15—19, 20—24, 25—34, 35—44, 45—59 and 60+ The educational levels as given in Table B-III Parts A and B are followed in these Tables respectively for finding out the educational qualifications of the unemployed persons in the respective age-groups.

17. Table B-IX—Persons not at work classified by sex, broad age-groups and type of activity—This Table deals with the categorization of non-workers according to their eight-fold activities. The data for the broad age-groups are given separately for Total, Rural and Urban in respect of the district; but for each subdivision and police station it is supplied for Rural only. The study of age-groups with reference to age-tables will throw light on the children of school going age who are not attending school and persons in working age-groups who are not working.

APPENDIX TO TABLE B-IV PART C

Minor Groups having less than 1 per cent of the workers of the respective Divisions, (less than 0·5 per cent in case of Minor Groups of Division 2 & 3) which have been omitted in the Table B-IV Part C are shown in this Appendix. The figures of these Minor Groups giving the number of Minor Group and the number of male and female workers separately for household industry and non-household industry are shown in run on lines.

2. The following abbreviations are used:—

H. I.—Household Industry

N. H. I.—Non-household Industry

T—Total

U—Urban

M—Males

F—Females

3. The three digit code number which represents the Minor Group is followed by household industry or non-household industry with the respective male and female workers within brackets.

APPENDIX TO TABLE B-V

Families having less than 1 per cent of the workers of the respective Division (less than 0·5 per cent in case of families of Divisions 7-8), which are omitted in Table B-V have been shown in this Appendix.

2. Abbreviations—The following symbols and abbreviations are used:

III—In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV—At Household Industry

V—In Manufacturing other than Household Industry

VI—In Construction

VII—In Trade and Commerce

VIII—In Transport, Storage and Communications

IX—In Other Services

M—Males F—Females

3. The three digit code number which represents the occupational family is followed by the industrial category in roman figures with its respective number of male and female workers inside the brackets.

APPENDIX TO TABLE B-VII PART A

This Appendix shows the Major Groups of Household Industry where persons having Secondary work are less than 5 per cent of the persons at the Principal work. The two digit code numbers stand for the Major Groups of I. S. I. C. The figures in brackets represent the male and female workers under the Major Groups shown before the brackets.

The following symbols and abbreviations are used:

T—Total · R—Rural U—Urban

II—As Cultivator

III—As Agricultural Labourer

M—Male F—Female

02 T-II (M-1, F-0), III (M-3, F-3), R-II (M-1, F-0), III (M-3, F-3);
03-T II (M-3, F-0), R-II (M-3, F-0);27 T-III (M-63, F-27),
III (M-7, F-69), R-II (M-60, F-27), III (M-3, F-69),

TABLE-B SERIES

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables are compiled for the first time in 1961 Census. The contents of each Table appearing in this volume are briefly explained below:

2. Table B-X—Sample Households (i) engaged neither in Cultivation nor Household Industry, (ii) engaged either in Cultivation or Household Industry, but not in both and (iii) engaged both in Cultivation and Household Industry for All areas—This Table is prepared on a 20 per cent sample of households and for Total, Rural and Urban households. All the households are divided into four categories :

(*i*) Households engaged neither in Cultivation nor in Household Industry

(*ii*) Households engaged in Cultivation only

(*iii*) Households engaged in Household Industry only

(*iv*) Households engaged both in Cultivation and Household Industry

This Table is important as it divides all the households into three main sectors of economic activity. The information is supplied for the district and each police station in the district.

3. Table B-XI—Sample Households engaged in Cultivation classified by Interest in Land and Size of Land Cultivated in Rural and Urban areas separately—This Table, which is prepared on a 20 per cent sample of households for Rural and Urban areas separately, presents a more detailed examination of the Cultivating Households which have been separated in the previous Table. Households engaged in Cultivation are classified according to the size of land cultivated. The holding sizes in acres are less than 1 acre, 1·0—2·4, 2·5—4·9, 5·0—7·4, 7·5—9·9, 10·0—12·4, 12·5—14·9, 15·0—29·9, 30·0—49·9, and 50+acres. It is further cross-tabulated by interest in land, namely, (*i*) land owned or held from Government, (*ii*) held from private persons or institutions for payment in money, kind or share and (*iii*) partly held from Government and partly from private persons for payment in money, kind or share. This Table gives useful information on the size of the holdings in this district and also in each police station.

4. Table B-XII—Sample Households engaged in Cultivation only classified by Size of Land Cultivated and Number of Family Workers and Hired Workers in Rural and Urban areas separately—This Table which is compiled on a 20 per cent sample of households, has made further study of households engaged in Cultivation. Each household having a particular size of holding mentioned in Table B-XI has been cross-tabulated with reference to number of persons working in cultivation. Cultivating households according to number of persons of either sex engaged in cultivation are classified into five groups, namely, 1 person, 2 persons, 3—5 persons, 6—10 persons and more than 10 persons. The hired workers are separated from family workers whose sex-composition is also given. This is an important Table as the size and scale of agricultural enterprise in the Rural and Urban areas of this district and in the Rural areas of each police station can be deduced from it.

5. Table B-XIII—Sample Households engaged both in Cultivation and Household Industry showing Size of Land Cultivated classified by Principal Household Industry in Rural and Urban areas separately—This Table which is prepared on a 20 per cent sample of households for Rural and Urban areas, deals with households engaged both in Cultivation and Household Industry. The nature of Household Industry in which cultivating households with a particular size of holding are engaged, are presented in this Table. The nature of the Household Industry is indicated by Divisions and Major Groups of I. S. I. C. This Table throws light on Household Industries which are carried on as ancillary to cultivation. It endeavours to establish correlation between size and scale of Cultivation with that of Household Industry.

6. Table B-XIV—Sample Households engaged only in Household Industry classified by Principal Household Industry in All areas—

PART A—**Households classified by Major Groups of Principal Household Industry and number of persons engaged**

PART B—**Households classified by Minor Groups of Principal Household Industry—**

This Table which relates to households engaged in Household Industry only is prepared on a 20 per cent sample of households. It is presented in two parts. Part A deals with Households classified by Major Groups of Principal Household Industry and number of persons engaged. The number of persons engaged in each industry are grouped under 1, 2, 3—5, 6—10 and more than 10 persons. This information is supplied for Divisions and Major Groups of I. S. I. C. separately for Total, Rural and Urban. Part B deals with Households classified by Minor Groups of Household Industry. Number of Households engaged in Household Industry under each Minor Group is shown in it for All areas.

7. Table B-XV—Sample Households engaged both in Cultivation and Household Industry classified by Size of Land in Rural and Urban areas separately—This Table which is prepared on a 20 per cent sample of households shows the households engaged both in Cultivation and Household Industry by size of holdings in Rural as well as Urban areas. An analysis has been made of persons working in these households with reference to the size of the holdings. In cases where more than 1 person are employed, the number of family workers and hired workers are separated. This Table establishes correlationship between the scale of Household Industries and the scale of Cultivation.

8. Table B-XVI—Sample Principal Household Industry classified by period of working and total number of workers engaged in Household Industry in All areas—This Table which is confined to Principal Household Industry only, is prepared separately for Total, Rural and Urban areas for this district on the basis of 20 per cent sample of households. It gives data in respect of Households engaged both in Household Industry and Cultivation or in Household Industry without Cultivation. Household Industries dealt in this Table are shown by Divisions and Major Groups. As many of the Household Industries are seasonal, this Table indicates the number of Households engaged in industrial occupations for different periods in the year ranging from 1—3 months, 4—6 months, 7—9 months and 10 months to 1 year.

9. Table B-XVII—Sample Households classified by (i) number of male and female members by size of Households and (ii) engaged (*a*) neither in Cultivation nor in Industry (*b*) in Household Industry only and (*c*) in Cultivation sub-classified by size of land cultivated—This Table which is compiled on a 20 per cent sample of households gives data for Total, Rural and Urban areas of this district. It is intended to show family sizes distributed according to 1 member, 2—3 members, 4—6 members, 7—9 members and 10 members and over. This is cross-tabulated by households of Rural areas engaged (*i*) neither in Cultivation nor in Household Industry, (*ii*) in Household Industry only and (*iii*) in Cultivation. Households of Rural areas engaged in Cultivation are further classified according to the sizes of the holding, i.e., less than 1 acre, 1·0—2·4, 2·5—4·9, 5·0—7·4, 7·5—9·9, 10·0—12·4, 12·5—14·9, 15·0—29·9, 30·0—49·9 and 50+acres. This Table is important as it endeavours to correlate the size of the Household with the economic activity of the Household, particularly in the Rural areas.

10. The total number of households and its sexwise population of this district is given below:

Total Rural Urban	Total No. of House-holds	Total Household Population		
		Persons	Males	Females
1	2	3	4	5
Total	364,284	1,860,357	926,684	933,673
Rural	337,210	1,727,355	852,374	874,981
Urban	27,074	133,002	74,310	58,692

TABLE B-X—HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY *FOR ALL AREAS*

(Based on 20 per cent sample)

District/Police Station	Total Rural Urban	Total No. of households	Households engaged neither in cultivation nor household industry	Households engaged in cultivation only	Households engaged in household industry only	Households engaged both in cultivation and household industry

(Based on 20 per cent sample)

PART B—HOUSEHOLDS CLASSIFIED BY MINOR GROUPS OF PRINCIPAL HOUSEHOLD INDUSTRY

Code No. of I.S.I.C.	Household Industry Minor Group (Description)	Number of Households		
		Total	Rural	Urban
1	2	3	4	5
	All Industries	**2,640**	**2,413**	**227**
0090	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above	2	..	2
0151	Pan cultivation	2	2	..
0232	Production of other fuels by exploitation of forests	8	8	..
0260	Production and gathering of other forest products not covered above	1	..	1
0310	Production of fish by fishing in inland waters and ponds including fishfarms and fish hatcheries	1	1	..
0401	Rearing of goat for milk and animal power	7	7	..
0402	Rearing of buffalo for milk and animal power	8	8	..
0403	Rearing of cows for milk and animal power	56	52	4
0405	Production and rearing of livestock mainly for milk and animal power, n.e.c.	60	54	6
0411	Sheep breeding and rearing	1	1	..
0421	Rearing and production of pigs and goats (mainly for slaughter)	11	11	..
0431	Poultry keeping and production of eggs	3	1	2
0484	Production of other animal husbandry products, such as, skin, ivory, teeth and hair, etc	1	..	1
1072	Quarrying of limestone	1	..	1
1074	Quarrying of sand, clay, gravel, etc. n.e.c.	7	7	..
2001	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.	1	1	..
2006	Parching of grains	124	115	9
2021	Gur and khandsari making from sugarcane and palm	2	2	..
2041	Slaughtering, preservation of meat and fish and canning of fish	22	3	19
2050	Production of bread, biscuit, cake and other bakery products	1	1	..
2060	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products	24	23	1
2070	Oil pressing ghani, kolhu or by small machines	29	29	..
2092	Making of sweetmeats, laddu, peda, barphi, batasa, etc.	95	65	30
2097	Making of other food products for residuary snacks	135	130	5
2200	Manufacture of bidi	2	..	2
2210	Manufacture of cigars and cheroots	1	1	..
2240	Manufacture of snuff	1	1	..
2250	Manufacture of jerda, kimam, khaini and other chewing tobacco	3	2	1
2300	Cotton ginning, cleaning, carding, pressing and baling	3	3	..
2310	Cotton spinning (by charkha and takali)	120	120	..
2331	Dyeing of cloth (cotton) and yarn	3	3	..
2340	Cotton cloth weaving in powerlooms	1	1	..
2350	Cotton cloth weaving in handlooms	280	275	5
2381	Making of fishing net	27	27	..
2391	Making of sacred thread	1	..	1
2444	Making of rope by date palm fibre	1	1	..
2446	Making of other products from jute and similar fibers, such as, hemp, mesta	8	6	2
2500	Wool baling and pressing	1	1	..
2711	Making of hosiery goods, such as, banyans, socks, sweaters, mufflers, etc.	1	1	..
2731	Making of cap, hat and other head-gear	32	21	11
2732	Traditional garments	3	3	..
2741	Weaving of khes, bedcovers, curtains, pillow cases and table cloth, cloth bags, etc.	3	2	1
2742	Making of newar	1	1	..
2750	Manufacture of waterproof textile products, such as, oil cloth, tarpaulin, etc.	1	..	1
2774	Coconut curing	167	167	..
2780	Manufacture and repair of umbrellas	2	2	..
2793	Manufacture of other textile products not elsewhere classified	1	1	..
2800	Sawing, planing and milling of wood	15	8	7
2810	Manufacture of wooden furniture and fixtures	20	14	6
2820	Manufacture of structural wooden goods (including treated timber), such as, beams, posts, doors, windows	13	13	..

2882	Making of roap mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes ..	1	1	..
2883	Making of mats, handfans and umbrellas from palm leaves ..	262	261	1
2884	Making of sirki, moora and chhaj ..	2	2	..
2885	Making of baskets and broomsticks ..	145	140	
2887	Canning of chairs ..	14	..	1
2888	Making of chicks, cuscus-tati and fans, sticks and poles from bamboo ..	148	148	..
2889	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products, etc. ..	6	6	..
2891	Making of sticks and poles from wood ..	1	1	..
2922	Papier-mache articles ..	6	1	5
3030	Bookbinding, stitching, sizing and other work connected with bookbinding industry ..	1	..	1
3111	Making of leather boots, shoes or chappals (slippers, sandals) ..	18	7	11
3140	Repair of shoes, chappals and other leather footwear ..	3	3	..
3210	Manufacture of chappals from torn tyres and other rubber footwear ..	2	2	..
3330	Manufacture of fire works and other explosives, such as, pataka, etc. ..	2	2	..
3357	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations ..	5	4	
3361	Manufacture of soap and washing soda ..	1	..	
3401	Making of bricks ..	3	3	..
3422	Manufacture of lime ..	6	6	..
3434	Manufacture of other structural stone goods, stone dressing and stone crushing, etc. .	2	2	..
3440	Making of chakki, chakla, silaut, lorha, jainta, utensils and other articles from stone .	4	4	..
3450	Manufacture of stone images and toys .	5	1	
3500	Making of earthenware, such as, pottery, etc. .	113	88	2
3561	Making of earthen toys and artware .	2	..	2
3653	Making of bottom part of hookah from brass and bell-metal .	1	..	
3654	Making of brass and bell-metal ornaments .	3	3	..
3655	Making of other brass and bell-metal products, n.e.c. .	120	117	
3662	Making of other aluminium products, n.e.c. ..	1	1	..
3672	Making of articles from tin sheets ..	2	2	..
3674	Bronze works including bronze images, medals and articles of alloys ..	1	1	..
3675	Manufacture of other metal products (excluding iron, brass, bell-metal, aluminium), n.e.c.	5	5	..
3691	Manufacture of agricultural implements, such as, ploughshare, khurpi, kudal, etc. ..	7	6	1
3694	Making and repairing of locks and trunks ..	1	1	..
3698	Foundry Industry (including blacksmithy) ..	26	23	3
3699	Manufacture of other sundry hardwares, such as, G. I. Pipe, wire net, etc. ..	1	1	..
3880	Repair of cycle and rickshaw ..	4	2	2
3920	Repairing and servicing of watches and clocks ..	1	..	1
3932	Goldsmithy ..	256	237	19
3933	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones ..	10	9	1
3940	Manufacture, repairing and tuning of musical instruments, such as, harmonium, tabla, sitar, bansuri, etc. ..	13	12	1
3991	Making of tikka and cowdung cakes ..	4	3	1
3993	Making of traditional objects, such as, Orissa, Mysore and Tanjore paintings, etc. ..	9	8	1
3997	Making of garlands from flowers, camphor, sandal wood shavings, seeds and other materials, like beads, etc. ..	4	1	3
3998	Repair of petromax lights, etc. ..	1	1	..
3999	Making and repairing of goods, n.e.c. ..	9	7	2

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry having less than 10 per cent of the figures of their respective Divisions which are omitted from the main Table are shown in this Appendix. These Major Groups followed by number of households together with the period of working within brackets, are given in run on lines. It is prepared separately for Total, Rural and Urban areas.

The following symbols are used :—

With Cultivation

1 to 3 months	..	A
4 to 6 months	..	B
7 to 9 months	..	C
10 to 12 months	..	D
Months not stated	..	X

Without Cultivation

1 to 3 months	..	E
4 to 6 months	..	F
7 to 9 months	..	G
10 to 12 months	..	H
Months not stated	..	Y

Total—00 (B-4, D-1, X-3, H-2) ; 01 (D-7, H-2) ; 02 (D-4, H-9) ; 03 (B-1, D-2, H-1) ; 22 (B-1, D-4, G-1, H-6) ; 24 (B-1, C-2, D-1, X-1, F-2, H-5, Y-2); 25 (B-1, H-1) ; 27 (A-13, B-60, C-25, D-116, X-15, E-8, F-25, G-15, H-155, Y-8) ; 29 (F-1, H-5) ; 30 (B-1 , F-1) ; 31 (D-4, H-21) ; 32 (G-2) ; 33 (B-2, D-9, F-2, H-5, Y-1) ; 34-35 (A-18 , B-135, C-83, D-215, X-20, E-2, F-15, G-9, H-107, Y-2) ; 36 (A-7, B-59, C-28, D-152, X-6, E-5, F-33, G-17, H-113) ; 38 (B-2, C-1, D-4, H-4) ; 39 (A-5, B-48, C-29, D-157, X-4, E-2, F-20, G-18, D-258, Y-9).

TABLE-C SERIES

SOCIAL AND CULTURAL TABLES

The contents of the Social and Cultural Tables appearing in this volume are briefly explained below:

2. Table C-I—Composition of Sample Households by Relationship to Head of Family classified by size of land Cultivated (Based on 20 per cent sample—This Table shows the family composition of households engaged in different occupations, namely, (i) households engaged neither in cultivation nor in household industry, (ii) households engaged in household industry and (iii) households engaged in cultivation. The last category of households are further split up according to the size of the land cultivated by them. It is presented separately for Total, Rural and Urban.

3. This Table gives the sex composition of the members in a household. Heads of Households and their spouses, family members and unrelated persons are shown separately. Heads of Households can be males or females. Married relations are separated from unmarried family members and among the former the married sons are shown distinct from other married relations. This Table may be of sociological interest indicating the strength of the joint family system.

4. The Heads of households are shown as less than the total number of households in some areas on account of the fact that some enumerators had apparently not indicated any person as the Head of household in the 'Population Record' where the conventional Head of household was absent from the household at the time of enumeration and had not been enumerated in that household.

5. **Table C-II— Age and Marital Status**—This Table shows the marital status of all enumerated persons by their age-groups and sexwise, separately for Total, Rural and Urban. The age-groups conform to international requirements. This is an important demographic Table from which it can be ascertained whether proportions in various marital status conditions have increased or decreased since the last Census and whether any trend is observed in the age of marriage. The data on married females by age-groups can be utilized for forecasting the future births from age specific birth rates.

6. **Table C-III—Age, Sex and Education—**

This Table is presented in three parts:

Part A—Age, Sex and Education in All areas

Part B—Age, Sex and Education in Urban areas only

Part C—Age, Sex and Education in Rural areas only

The information which is supplied for broad educational levels is given for five-yearly age-groups up to 34,one age-group for35—44, another for 45—59 and still another for 60+. The educational levels are different for Urban and Rural areas. They are the same as given in Table B-III Parts A and B. This Table is important as it measures the growth of literacy in the total population as well as in different age-groups since last Census.

7. **Table C-V—Mother-tongue (Alphabetical order)**—This Table shows the large number of languages and dialects spoken in the district.

8. **Table C-VII— Religion**—This Table shows the distribution of population according to Religion. It is prepared for Total and Rural areas only.

9. Table C-VIII—Scheduled Castes and Scheduled Tribes:

Part A—Classification by literacy and industrial category of Workers and Non-workers among Scheduled Castes

Part B—Classification by literacy and industrial category of Workers and Non-workers among Scheduled Tribes

This Table which gives separate data for Total, Rural and Urban is presented in two parts. Part A relates to the Scheduled Castes and Part B to the Scheduled Tribes. Both the parts show the distribution of population of Scheduled Castes and Scheduled Tribes respectively by literacy and classification of workers into nine industrial categories and the total number of non-workers. This is a general Table prepared for the first time.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

Note—Only Rural figures are supplied for Subdivisions/Police Stations.

TABLE-E SERIES

HOUSING AND ESTABLISHMENT TABLES

Table E-I—Census Houses and the uses to which they are put—This Table gives details of Census Houses according to their use. It is based on full count figures and furnishes data in respect of the district as a whole. Figures relating to smaller administrative units, viz., subdivisions and police stations with rural and urban break-up will be available in the Report on Housing and Establishments(Census of India, 1961, Volume XII—Orissa Part IV-B).

2. Census Houses which did not contain any household during house-listing operation have been shown as vacant in this Table. Occupied Census Houses have been classified into various categories as furnished in the Table, such as, dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, etc.

3. To facilitate study of the Table, definitions of terms used are furnished below :

Census House—A Census House means a structure or a part of a structure inhabited or vacant or a dwelling, a shop-*cum*-dwelling or a place of business, workshop, school, etc., with a separate main entrance.

Shop and shop-cum-dwelling—A shop is a place where articles are sold for cash or for credit.

When a part of the Census House is used as shop and the other part as dwelling it is termed as shop-*cum*-dwelling.

Workshop, factory and workshop-cum-dwelling—A Census House is considered to be a factory or a workshop if some kind of production, processing, repair or servicing is undertaken therein or if goods or articles are made and sold. The definition is broad enough to cover all kinds of work premises beginning from a big factory to a petty workshed where activities connected with production, processing, etc., are undertaken. however meagre the scale might be.

When a part of the workshop is used as residence, the Census House is treated as workshop-*cum*-dwelling.

Business Houses—Business Houses are those that are meant for transactions in money or commercial commodities, e. g. bank, exchange, etc.

4. Table E-II—Tenure Status of Sample Census Households living in Census Houses used wholly or partly as dwelling—This Table furnishes details in respect of tenure status of households living in Census Houses used wholly or partly as dwelling. It has been prepared on the basis of 20 per cent sample. It gives figures for the district as a whole. Statistics in respect of smaller units, such as, subdivisions and police stations with rural and urban break-up are given in the Report on Housing and Establishments. The total, rural and urban break-up have been further sub-classified according to the tenure status of Census Households.

The term "Census Household" occurring in this Table means a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

"Shop-*cum*-dwelling" and "Workshop-*cum*-dwelling" have been explained in the fly-leaf to Table E-I.

5. Table E-III—Census Houses used as Factories and Workshops classified by industry, power and no power used and size of employment—This Table gives the distribution of workshops and factories in the district with rural and urban break-up by different kinds of fuels used. Factories and workshops are divided into five categories according to the fuel used, viz., factories and workshops run by—

(*i*) Electricity

(*ii*) Liquid fuel

(*iii*) Coal, wood and bagasse

(*iv*) Other power and

(*v*) No power

Factories and workshops classified by different kinds of fuels as above, have further been subdivided by size of employment, viz., factories employing—

1 Person
2—5 Persons
6—9 Persons
10- 19 Persons
20—49 Persons
50—99 Persons and
100 Persons and above

6. Size of employment has been determined on the basis of average number of persons employed per day in a factory or workshop. The average number of persons working per day has been worked out from the total number of workers including apprentices, either paid or unpaid, employed in the factory or workshop including the owner or proprietor and any of his family members (if working) who were employed during the week preceding the date of enumerator's visit.

7. Figures furnished in Col. 1 of this Table relate to broad group of industries coded under the Indian Standard Industrial Classification Scheme. Further break-up of these industries is available in the Report on Housing and Establishments. The system of notation adopted in the scheme of classification of industries has been explained elsewhere in this volume for convenience of reference.

8. **Table E-IV—Distribution of Sample Households living in Census Houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof**—Like Table E-II this Table has also been prepared on 20 per cent sample. The number of sample households living in Census Houses used wholly or partly as dwelling has been furnished in this Table separately for each type of predominant materials of wall and of roof. The figures shown are for the district as a whole. Statistics in respect of smaller territorial units, such as, subdivisions and police stations will be available in the Report on Housing and Establishments. This Table classifies various types of predominantly used wall materials into nine categories, viz.,

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt brieks
(6) C. I. sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) Other materials

9. Likewise, the materials which predominantly compose the roof have been shown under seven different classes, viz.,

(1) Grass, leaves, reeds, thatch, wood or bamboo
(2) Tiles, slate or shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone
(7) Other materials

'Roof' means the outer surface of the roof exposed to weather but not the ceiling. In case of multistoreyed building, the intermediate floors have been treated as the roofs of the corresponding lower floors.

10. **Table E-V—Sample Households classified by number of members and by number of rooms occupied**—This Table, which has been prepared on 20 per cent sample, relates to households classified by number of members by males and females separately and by number of rooms occupied. It gives the break-up of the total sampled households into households either having no regular room or each having one room, two rooms, three rooms, four rooms and five rooms or more. The figures furnished in the Table are in respect of the district as a whole. Statistics in respect of smaller territorial units, such as, subdivisions and police stations have been furnished in the Report on Housing and Establishments.

11. A room is defined as a structure which usually has four walls with one door way at least and with roof overhead and is wide and long enough for a person to sleep in, i. e., it should be at least 6 ft long. Unenclosed verandah, kitchen, store, garage, cattleshed and latrine are not treated as rooms.

TABLE-SCT SERIES

TABLES ON SCHEDULED CASTES AND SCHEDULED TRIBES

Special Tables have been devised during the Census of 1961 to give the population figures for each Scheduled Caste and Scheduled Tribe by their religion, age, marital status, education, etc. The contents of each Table appearing in this volume are briefly described below.

2. **Table SCT-I—Industrial Classification of Persons at work and of Non-workers by sex**—This Table is presented in two parts :

Part A—Industrial Classification of Persons at work and of Non-workers by sex for Scheduled Castes only

Part B—Industrial Classification of Persons at work and of Non-workers by sex for Scheduled Tribes only

This Table gives the population of each Scheduled Caste and Scheduled Tribe separately for Rural and Urban. It also shows in which section of industry, members of each Scheduled Caste and Scheduled Tribe are working. Information regarding each Caste and Tribe which are often required for drawing up various welfare schemes are given in this Table.

3. The total population of the Scheduled Castes and Scheduled Tribes in the district, each subdivision and police station is given in the statement below :

District/Subdivision/Police Station		Scheduled Castes			Scheduled Tribes		
		P	M	F	P	M	F
1		2	3	4	5	6	7
PURI DISTRICT	..	264,615	131,385	133,230	67,474	32,976	34,498

Sarankul PS	..	6,438	3,113	3,325	916	445	471
Ranpur PS	..	5,486	2,589	2,897	4,975	2,370	2,605

4. **Table SCT-II—Age and Marital Status**—This Table is presented in two parts :

Part A—Age and Marital Status for Scheduled Castes

Part B—Age and Marital Status for Scheduled Tribes

This Table which corresponds to Table C-II supplies information regarding the marital status of the individual Scheduled Caste and Scheduled Tribe in the broad age-groups of 0—14, 15—44, 45+ and Age not stated.

5. **Table SCT-III Part A—(i) Education in Urban areas only for Scheduled Castes, (ii) Education in Urban areas only for Scheduled Tribes ; Part B—(i) Education in Rural areas only for Scheduled Castes, (ii) Education in Rural areas only for Scheduled Tribes**—The literacy and educational levels for each Scheduled Caste and Scheduled Tribe are shown in this Table. The different educational levels for Urban areas and Rural areas are given below :

Urban areas	Rural areas
Illiterate ..	Illiterate
Literate (without educational level)	Literate (without educational level)
Primary or Junior Basic ..	Primary or Junior Basic
Matriculation or Higher Secondary	Matriculation and above
Technical diploma not equal to degree	
University degree or Post-graduate degree other than technical degree	
Technical degree or diploma equal to degree or Post-graduate degree	

6. **Table SCT-IV—Religion**—This Table is given in two parts : Part A relates to the Scheduled Castes and Part B to the Scheduled Tribes. Scheduled Castes may belong to either Hindu or Sikh religion only. None of the members of Scheduled Castes in this State have returned themselves as Sikh. As all the Scheduled Castes are Hindus and as their population is already available in SCT-I Part A, the corresponding portion of this Table is omitted.

7. Part B shows the Scheduled Tribes who may belong to any Religion. The religions returned in this State are Christian, Hindu and Sarna.

8. **Table SCT-V Part A—Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only for members of Scheduled Castes (Based on 20 per cent sample) and Part B—Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only for members of Scheduled Tribes (Based on 20 per Cent sample)**—This Table which corresponds to Household Economic Table B-XI gives useful information regarding the size of holding of Scheduled Castes and Scheduled Tribes separately for Rural areas only. The interest in land is classified into three categories mentioned below :

I. Owned or held from Government

II. Held from private persons or institutions for payment in money, kind or share

III. Partly held from Government and partly from private persons for payment in money, kind or share

Each of the above categories are cross-tabulated according to the size of the land cultivated by each household.

9. **Table SC-I—Persons not at work classified by Sex, Type of Activity and Educational Levels for Scheduled Castes**—This is a Special Table prepared for total Scheduled Castes and not for individual caste. Three categories of non-working

population, namely, full-time students, persons seeking employment for the first time and persons employed before but now out of employment and seeking work are shown in this Table along with the total non-workers in this district. It gives useful information regarding students and unemployed persons among the Scheduled Castes. The above categories of non-workers are further classified according to their broad educationeal levels indicated below

Illiterate
Literate (without educational level)
Primary or Junior Basic
Matriculation or Higher Secondary
Above Matriculation or Higher Secondary

10. **Table ST-I—Mother-tongue and Bilingualism for Scheduled Tribes**—This is one of the Special Tables meant for Scheduled Tribes only. This Table displays the peculiar languages and dialects of the tribal population. The dialect of each of the tribes is given. Those members of the tribes who have moved out of their homes and speak one other language in addition to the mother-tongue as a result of their contact with local population are also shown in this Table. This Table is very useful for the linguistic study of tribal population. It also helps to find out as to how many of the tribes have forgotten their original language after coming in contact with the local language or the language of the majority. Secondary languages having speakers less than 0·1 per cent of the population are omitted.

11. **Table ST-II—Persons not at work classified by Sex and Type of Activity for Scheduled Tribes**—This is the second Special Table for the Scheduled Tribes corresponding to SC-I for the Scheduled Castes. It differs from the latter Table in as much as it gives the data for each Scheduled Tribe but does not show the broad educational levels. Besides the total non-working population of each tribe, three categories of non-workers, namely, full-time students, persons seeking employment for the first time and, persons employed before but now out of employment and, seeking work are presented in it for this district.

LIST OF INDUSTRIES IN THE DISTRICT OF PURI

The Table furnished hereafter gives a list of industries conducted in the urban and rural areas of district Puri. The list has been prepared in the following manner:

Various industries existing in a particular village were enlisted at first. The villages were then arranged in the order in which they appear in the Village Directory. In this manner the list of villages within one particula police station was completed. This was followed by similar lists of other police stations, one after the other.

Indication of the existence of a particular industry is given against the village concerned, not by mentioning the descriptive name of the industry, but by recording the code number of the industry, as prescribed under the Indian Standard Industrial Classification Scheme. This code number is followed by another figure enclosed in brackets which represents the total number of establishments relating to that particular industry existing within the village concerned.

In presenting the consolidated list of a police station, first of all the aggregate list of industries for the police station as a u[illegible] given. This aggregate list is then broken up into a consolidated list for rural areas and a similar list for urban areas, if the police station has got both rural and urban areasg Similar procedure has been adopted in presentin the consolidated list for the District. Lastly comes the individual village list, indicating all such villages as may have one or more industries. Names of villages which have no industry of any approved type, have been omitted from the list.

The industrial code numbers have been exhibited against a village (or police station or district as the case may be) in ascending order. For example, Division "0" of the I. S. I. C. Scheme appears first, followed by Division "2 & 3".

A list of code numbers showing against each the name of the industry to which it relates is furnished in the note to Table B Series (General Economic Tables) for convenience of reference.

TABLE ON FAIRS AND FESTIVALS IN THE DISTRICT OF PURI

This Table gives a list of villages where important fairs or festivals of the district are held,. The names of the villages have been arranged police-stationwise according to their serial numbers in the Primary Census Abstract. The list includes only those fairs which attract a large number of people of the village or outside.

Column 1 of the Table gives the name of the village together with its serial number. The name of the fair or festival held in the village is furnished in Column 2, while Columns 3 and 4 respectively furnish the name of the month in which such fair is held and the approximate number of persons attending the fair.

The list is prepared on the basis of information furnished by the primary school teachers of the locality concerned to whom a list of questionnaire was circulated by post with request to furnish the replies. The number of people gathering at the fair is based on eye estimation and may, therefore, be treated as approximate. Name of the month in Column 3 is in terms of English calendar month which does not exactly coincide with the Oriya month. The name of the English month, when the festival usually falls, has, therefore, been furnished in this column.

Besides the above information, a few more details were collected through the agency of the primary school teachers. Such details will be available in another volume where the Fairs and Festivals of Orissa are proposed to be published in an elaborate manner.

PART III

OFFICIAL STATISTICS

Contains

Statistics relating to Rainfall, Agriculture, Public Health, Vital Events, Administration, Police, Jails, Co-operative Societies, Revenues, Community Development, Grama Panchayats, Education, Animal Husbandry, Mines, etc.

OFFICIAL STATISTICS

This part contains statistics relating to different Departments of the State Government, such as, Agriculture, Public Health Administration including Police and Jails, Co-operative Societies, Education, Community Development, Grama Panchayats and Mines, etc., which are embodied in 40 Tables. The statistics were collected from different offices, mostly by deputing staff from this organization. Except only in a few cases where it was possible to take out the figures from published reports of the Departments concerned, most of these statistics had to be gathered from the various official registers and manuscript reports. The names of the Departments from which the statistics were obtained are indicated below the concerned Tables. The Tables pertaining to different subjects given in this Part may be broadly classified as follows:

Subjects	Table Nos.
Rainfall and temperature ..	1— 3
Agriculture ..	4—10
Public health including vital statistics ..	11—15
Administration ..	16—20
Education ..	21—29
Community Development ..	30—32
Grama Panchayats and Panchayat Samitis	33—34
Animal Husbandry ..	35
Co-operation ..	36
Miscellaneous ..	37—40

The district of Puri is one of the old districts of the State. The records for some of the items are, therefore, available from 1936 onwards, the year of formation of Orissa into a separate province but those were not in as much details as they are now maintained. After merger of the neighbouring princely states, the boundaries of the districts were redrawn in 1949 and the area of the district was increased. The earlier records are, therefore, not in a comparable position with those for the post-merger years. Hence the collection and production of various official statistics in this Part are limited to the decade 1951-60 only. The various Tables presented are briefly explained as follows:

Rainfall and Temperature—Rainfall statistics have been given in two Tables. Tables 1 (*a*), 1(*b*), 1(*c*), 1(*d*) and 1(*e*) give the monthly rainfall and number of rainy days for five selected rain recording stations in the district for different years of the decade 1951-60. The district has 16 rain recording stations out of which only five stations, namely, Banpur, Bhubaneswar, Daspalla, Nayagarh and Puri were found to be having comparatively more complete records than others. None of the above 5 stations falls within Khurda subdivision. The records for Bhubaneswar station may, however, be taken to represent the position for Khurda subdivision. The figures reproduced in this Table (Table 1 series) have been taken from the rainfall statistics maintained by the Director of Agriculture and Food Production, Orissa, some of which were published in Orissa Gazette.

Table 2 gives the normal monthly rainfall and rainy days based on the records of the 16 rain recording stations of the district during the period from 1901 to 1950. These have been taken from the Memoirs of the India Meteorological Department, Volume XXXI—Part III. This Table also shows the rainfall and number of rainy days for the district for each of the years along with the average for the past decade, based on the records maintained by the Director of Agriculture and Food Production, Orissa.

The rain recording stations work under the responsibility of local officials of various departments who might be conveniently available at the station, namely, Thana Officers, Medical Officers, School Teachers, or subordinate Revenue Officers. They are expected to record daily rainfall, if any, and submit monthly reports direct to the Director of Agriculture and Food Productions Orissa. According to the approved arrangements, this report should reach the Directorate of Agriculture and Food Production, Orissa by the 21st of the following month. But in actual practice, many stations defaulted or delayed inordinately in despatching the reports. Such default or delay was either due to the post of the Officer-in-charge of the station lying vacant for a considerable length of time or on account of the rainrecording instruments lying damaged. As a result, the rainfall records of most of the stations in the district were not maintained regularly or properly. In 1960, 10 out of the 16 stations did not send their reports. Those 6 stations, which sent the returns, even did not report records for all the months of the year. The rainfall records of the district are, therefore, incomplete and defective.

Table 3 gives statistics about temperature There are two observatories in the district one a Puri and the other at Bhubaneswar. Records of Puri station are available for a number of years whereas those for Bhubaneswar are available for seven years (by 1962). The records of Puri observatory represent the condition in the deltaic region whereas those of Bhubaneswar are representative of the interior part of the district. The monthly records of temperature for the year 1961 and normal monthly temperature of Puri observatory have been given in this Table. The data was obtained from the Director, Regional Meteorological Centre, Calcutta, and Deputy Director General of Observatories (Climatology and Geophysics), Poona.

Agriculture—The undermentioned seven Tables give the agricultural statistics relating to the district.

Table Nos.	Particulars
4	.. Land utilization and area under crops
5	.. Classification of area by sources of irrigation
6	.. Minor irrigation projects with ayacut area of 100 acres or more each
7	.. Estimated yield rates of principal crops per acre
8	.. Average wholesale price quotations in respect of staple foodgrains and other important crops during years 1957 to 1960
9	.. Statistics of wages and working hours
10	.. Agricultural implements and machineries during the live stock censuses of 1945, 1957 and 1961

The compilation of primary Agricultural statistics of a district is done by the District Collector. He furnishes annual statements in prescribed proforma called the Season and Crop Reports to the Director of Agriculture and Food Production, Orissa who is responsible for compilation and presentation of the statistics for the State. It was noticed that submission of these annual returns during the past decade was delayed or neglected by the Collectors. Most of these returns also lacked accuracy. An attempt was, therefore, made to collect the statistics through a second source i. e., the Community Development Blocks. By the end of 1959-60, only 57·8 per cent of area of the State was covered by the Blocks, and hence complete data for the district was also not available from this source.

Out of the above 7 Tables, Tables 4 and 5 contain statistics about land and areas taken from the Season and Crop Reports, which were verified in the Directorate of Agriculture and Food Production. None of these reports except the one for 1952-53 has been published so far. The reports for 1950-51 and 1951-52 could not be traced, and hence the Tables 4 and 5 contain statistics for only 8 years from 1952-53 onwards.

Area under the nine categories of land utilization, namely, forests, land put to non-agricultural uses, barren and unculturable land, culturable wastes, fallow other than current, pastures and grazing land, land under miscellaneous tree crops and groves not included in net area sown, net area sown and current fallow are given in Table 4. This Table also gives the area under some of the important crops, as also under such heads as, total serials, total pulses, total foodgrains, fruits and vegetables, other food crops, non-food crops, etc. The heads of categorization under land utilization adopted in this Table are defined as follows:

(1) *Forests*—These include all actually forested areas on land, classed or administered as forests under any legal enactment dealing with forests, whether State-owned or private.

(2) *Land put to non-agricultural uses*—These include all land occupied by buildings, roads and railways, those under water, e. g., rivers and canals and other lands put to uses other than agricultural.

(3) *Barren and unculturable land*—All barren and unculturable land like mountains, etc., are shown under this category. The land, which cannot be brought under cultivation except at an exorbitant cost is also classed as unculturable, whether such land is in compact blocks or within cultivated holdings.

(4) *Culturable wastes*—These include land available for cultivation, whether not taken up for cultivation or abandoned after a few years for one reason or the other. Such land may be either fallow or covered with scrubs and jungles, which are not put to any use. They may be assessed or unassessed to revenue, and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for 5 years in succession is also included under this category.

(5) *Fallow other than current*—All land, which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than 5 years, are included under this category. These land may have been kept fallow for one or more reasons, namely, poverty of the cultivator, inadequate supply of water, malarial climate, silting of canals and rivers and unremunerative nature of farming.

(6) *Pastures and grazing land*—These include all grazing land, whether they are permanent pastures and meadows or not. Village common and grazing land within forest areas are also included under this category.

(7) *Area under miscellaneous tree crops and groves, not included in net area sown*—These include all cultivable land, which is not included in "net area sown", but is put to some agricultural use.

(8) *Net area sown*—This covers net area sown with crops and orchards, the area sown more than once during a year being counted once only.

(9) *Current fallow*—This covers normally cropped areas which are kept fallow during the current year. For example, if any seedling area is not cropped again in the same year, it may be treated as current fallow.

(10) *Total cropped area*— It represents the total area covered with crops, i.e., the sum total of areas covered by all crops, areas sown with crops more than once during the year being counted as separate areas for each crop.

(11) *Area sown more than once*—It represents the area on which crops are cultivated more than once during the agricultural year. The acreage is generally obtained by deducting those under "net area sown" from those under "total cropped area".

Table 5 shows the area under different sources of irrigation, namely, canals, tanks, wells and other sources, for the 8 years from 1952-53 to 1959-60.

Table 6 gives a list of minor irrigation projects, together with their types and irrigation potentiality. There are many smaller projects in the district, but only those having ayacut areas of hundred acres or more

are included in this list. The list was obtained from the Rural Engineering Organization, Orissa which is responsible for execution of various minor irrigation works all over the State. Besides executing their own projects, the Rural Engineering Organization is meant to help the Panchayati Raj institutions in the execution of minor irrigation projects costing not more than Rs. 10 lakhs or having an ayacut up to 4,000 acres.

Table 7 gives the rates of yield per acre for 16 principal crops in the district for each year from 1951-52 to 1959-60. The rates have been based on estimated area and production of different crops. The basic data were obtained from the Directorate of Agriculture and Food Production, Orissa from which the estimated yield rates were worked out. The estimated yield rates may not, therefore, be equal to the actual yield rates.

Table 8 shows the price quotations in respect of some of the important crops grown in the district. It has been compiled from the published reports of the Directorate of Marketing, Orissa. Rates per standard maund or 37·25 Kgs are given in this Table. The 3 marketing centres of the district for which information is given are, Puri, Khurda-Road and Nayagarh. They serve all subdivisions except Bhubaneswar subdivisio . The data given for Khurda Road may hold good for Bhubaneswar. Annual figures of price quotations for the period 1957-59, and both annual and monthly price quotations for the year 1960 have been reproduced in this Table. Figures for earlier years are not available, and those for the years subsequent to 1960 were not also published by the time this Handbook went to the Press.

Table 9 shows the average rates of wages and working hours for skilled and unskilled workers during the period from 1956 to 1959. The terms "agricultural labourer" and "subsidiary agricultural labourer" used in this Table are explained at the bottom thereof.

Number of agricultural machineries and implements recorded in 1945, 1957 and 1961 live stock censuses are given in Table 10. These were collected from the livestock census reports of the Director of Animal Husbandry and Veterinary Services, Orissa. After formation of the separate province of Orissa in 1936, livestock censuses were conducted in the State on three occasions durir g 1945, 1957 and 1961. Data obtained during all these three censuses have been given in this Table. But the statistics for the year 1945 may not be properly comparable with those for the subsequent two counts of 1957 and 1961 due to the territorial changes of the district during 1948-49.

Public health including vital statistics —The following five Tables relate to this subject :

Table Nos.	Particulars
11	.. Number of live births, still births and deaths in each year during 1951—60, according to sex, for rural and urban areas
12	.. Deaths according to causes for rura and urban areas in each year duringl 1951—60
13	.. Deaths by sex, accordi 1951—60
14	.. Number of births and deaths in each month during 1951—60
15	.. List of hospitals, dispensaries and primary health centres

The birth and death statistics given in Table 11—14 were collected from the registers maintained in the Statistical unit of the Health Directorate, Orissa by the staff deputed from this organization. The three Tables nos. 11, 12 and 13 present only annual figures, whereas the fourth Table contains monthly records. Table 11 gives the number of live and still births and deaths by sex separately for rural and urban areas. Deaths under the seven broad heads, under which they are recorded, namely, cholera, smallpox, fever, dysentery and diarrhoea, respiratory diseases, wounds and accidents and other causes are shown in Table 12 for rural and urban areas. Deaths of males and females in different age-groups are shown in Table 13. Live and still births and deaths due to the seven causes noted above in each month during 1951—60 are given in Table 14.

The terms "live birth" and "still birth", used in these Tables are defined as follows :

Live birth—Live birth is the com plete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such separation, breathes or shows any other evidence of life, such as beating of heart, etc.

Still birth—Birth of the already dead or very nearly dead child is considered still birth.

A list of hospitals, dispensaries and primary health centres existing during 1961 showing their location, year of start and number of beds in each of them is given in Table 15. These details were supplied by the Health Directorate, (Statistical Unit), Orissa.

Administration —Five Tables have been given on this subject. They are as follows:

Table Nos.	Particulars
16	.. Number of criminal cases reported to different courts, tried and disposed of during 1951—60
17	.. Strength of district police during the years 1951,1956 ,and 1960
18	.. Statistics of jails
19	.. Receipts relating to land revenue, excise revenue, sales tax, entertainment tax, motor spirit tax and stamps during 1951—61
20	.. Number of documents registered and value of property transferred during 1951—60

The statistics in Table 16 were partly collected from the published annual reports on criminal justice of the High Court, Orissa and partly from the statement supplied by it in absence of any printed annual reports for the concerned years.

The Inspector General of Police, Orissa supplied information about the strength of police in various ranks in the district for each year during 1951—60. The Table 17, however, shows their number only for 3 years, *viz.*, 1951, 1956 and 1960. Cost of police per capita of population, area and population served per member of the police shown in this Table are based on the 1961 Census figures.

The statistics pertaining to jails, supplied by the Inspector General of Prisons, Orissa, are given in Table 18 which shows the number of jails and sub-jails, the capacity of district jail and its strength of staff.

Table 19 contains the figures of various revenue collected in each year in the district from 1950-51 to 1960-61 under some of the important heads of receipt, namely, land revenue, excise revenue, sales tax, entertainment tax, motor spirit tax and sale proceeds of stamps. These statistics were obtained from various Departments of the State Government and the names of the Departments and offices supplying the data are shown at the bottom of the Table.

Table 20 shows the number of documents registered and value of property transferred between 1951 to 1960. These were collected from the office of the Board of Revenue, Orissa.

Education— The Tables given are as follows :

Table Nos.	Particulars
21	.. List of colleges, higher secondary and high schools
22	.. Number of students appearing at and passing the high school certificate examinations during 1956—60
23	.. Number of primary schools existing during 1955-56 and 1960-61
24	.. Number of M. E. schools existing during 1955-56 and 1960-61
25	.. List of professional and special schools
26	.. List of sevashrams and ashram schools
27	.. List of basic schools
28	.. List of newspapers and journals
29	.. List of important libraries and reading rooms

The statistics given in these Tables were collected mostly from the office of the Board of Secondary Education, Orissa and from the Statistical Unit in the office of the Director of Public Instruction, Orissa. Except a published list of high schools and Annual Report of Registrar of Newspapers for India from which lists of higher secondary and high schools, newspapers and journals were

taken,the statistics for no other item were available from any published report. The required information had, therefore, to be collected from the concerned offices.

Table 21 gives a list of colleges, higher secondary and high schools in the district. The number of students appearing at the high school certificate examinations, together with the number of successful students and the percentage of success at various examinations conducted during 1956—60 are given in Table 22. Table 23 shows the number of primary schools existing in the district during 1955-56 and 1960-61, the final years of the past two Five Year Plans. Similar information concerning middle schools is given in Table 24. A list of professional and special schools, *viz.*, elementary training schools, industrial schools, schools for handicapped, music and dance schools, sanskrit tols, etc., will be found in Table 25. Table 26 gives a list of sevashrams and ashram schools, together with the names of the post offices and police stations under whose jurisdiction they lie. Table 27 contains a list of basic schools, and it shows the year of start of the schools.

Table 28 contains a complete list of newspapers and journals issuing from the district. Only the bigger libraries and reading rooms receiving aid from the Education Department are shown in the Table 29. The location, dates of establishment, Government grant received and the number of books held by some of these libraries are given in the Table.

Community Development—The following 3 Tables present the achievements of the Community Development Blocks during the past decade.

Table Nos.	Particulars
30	.. List of Blocks with their coverage of villages, Grama Panchayats and area
31	.. Achievements in the C. D. Block programme to the end of 1960-61
32	.. Expenditure incurred under broad heads of development in the Community Development Blocks in each year during 1953-54 to 1960-61

The first allotment of a Block to the district was made in October, 1953. The statistics given in the above 3 Tables, therefore, relate to the period from 1953-54 onwards. The expenditure figures have been compiled from the registers maintained in the office of the Financial Adviser, Community Development and Panchayati Raj Department, and the statistics relating to physical achievements are taken from the reports of the Administrative Intelligence unit of the same Department. Table 30 gives a list of Community Development Blocks in existence on 31st March 1961 together with their dates of start, their headquarters, number of villages, Grama Panchayats and area covered by each. Table 31 shows the physical achievements under some of the important items of the Block programme up to the end of 1960-61. The achievements against a few of these items for all the Blocks were not available and have not been given. Such items have been distinguished from the rest.

Details of expenditure under broad heads of the programme, such as, block headquarters, staff and contingencies, animal husbandry and agricultural extension, irrigation, health and rural sanitation, education, social education, communication, rural arts, crafts and industries and housing for all the blocks together for each year between 1953-54 and 1960-61 are given in Table 32. The Blocks submit their monthly expenditure returns to the Financial Adviser of the Community Development Branch of the Community Development and Panchayati Raj where these are compiled and verified with the Accountant General's actuals before adoption of final figures. The statistics given in this Table have been taken from the expenditure registers maintai ed in the Financial Adviser's office.

Grama Panchayats and Panchayat Samitis—Table 33 giving a list of Panchayat Samitis and Grama Panchayats existing in December, 1960, and Table 34, which shows the number of Grama Panchayats with their income and expenditure and number of Adalti Panchayats during the past decade, are the only two Tables given on this

subject. The informations given in Table 33 were collected from a published Notification of the Grama Panchayat Department and the statistics in Table 34 have been taken from the Annual Reports of the said Department.

Animal Husbandry—Table 35 gives the number of different categories of main livestock, recorded in the three livestock censuses of 1945, 1957 and 1961. The figures for 1961 counts show the livestock belonging to Government, semi-Government and other institutions actually found living on 15th April, 61 at sunrise. The Census was conducted by the Director of Animal Husbandry and Veterinary Services, Orissa.

Co-operation—The number of Co-operative Societies in different categories, namely, central bank, small-sized, large-sized, multipurpose, grain golla, marketing, non-agricultural credit, housing, weavers and other industrial and non-industrial Co-operative Societies, together with their membership and working capital during 1960-61, are given in Table 36. These statistics were supplied by the office of the Registrar of Co-operative Societies, Orissa.

Miscellaneous—The following additional Tables have been given :

Table Nos.	Particulars
37	.. List of cinema houses and printing presses
38	.. List of railway stations
39	.. List of mines and production of minerals
40	.. List of registered factories in 1951 and 1961

The headings of Tables 37—39 are self-explanatory. Table 40 contains a list of the more important registered factories in the district. This has been compiled from the lists obtained from Chief Inspector of Factories, Orissa. The terms 'factory' and 'worker' used in this Table are defined as follows :

'*Factory*' means any premises including the precints thereof—

(*i*) whereon ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried o or

(*ii*) whereon twenty or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on without the aid of power, or is ordinarily so carried on, but does not include a mine subject to the operation of the Mines Act, 1952 (XXXV of 1952), or a railway running shed.

Section 85 of the said Act, however, authorise the State Government to declare by notification, any place, wherein a manufacturing process is carried on, to be a factory within the meaning of the Factories Act, 1948, although it does not fulfil the above requirements of law, provided that the manufacturing process is not being carried on by the owner only with the aid of his family.

'*Worker*' is defined to mean a person employed, directly or through any agency, whether for wages or not in any manufacturing process, or in cleaning any part of the machinery or premises used for a manufacturing process, or in any other kind of work incidental to, or connected with the manufacturing process, or the subject of the manufacturing process.

Number of Blocks in existence—18

Total area covered by Blocks—2,494 *Sq. miles*

Activities	Unit	Achievements to the end of 1960-61
1	2	3
I. Agriculture including irrigation		
1. Total cultivable area	acres ..	608,275
2. Total area under paddy cultivation during 1960-61	acres ..	431,178
3. Area covered by Japanese method during 1960-61	acres ..	4,367
4. Total area fit for Rabi cultivation	acres ..	413,661
5. Area brought under Rabi cultivation in 1960-61	acres ..	252,764
6. Area benefited by soil conservation measures	acres ..	..
7. Minor Irrigation Projects taken up or completed	numbers ..	44
8. Net additional area brought under irrigation	acres * ..	9,946
9. Improved paddy seeds distributed during 1960-61	maunds ..	3,845
10. Chemical fertilizers distributed during 1960-61	maunds * ..	53,137
11. Improved implements distributed	numbers * ..	1,052
II. Animal Husbandry		
1. Veterinary Dispensaries and Hospitals	numbers * ..	13
2. Stockman Centres	numbers * ..	46
3. Artificial Insemination Centres—		
(*a*) Main Centres	numbers * ..	4
(*b*) Sub-Centres	numbers * ..	16
III. Fisheries		
1. Tanks brought under pisciculture by Panchayats	numbers —	..
IV. Co-operation		
1. All types of Societies	numbers ..	1,049
2. Membership in Co-operative Societies	numbers ..	63,507
V. Health and Rural Sanitation		
1. Rural latrines constructed	numbers * ..	8,274
2. Drains constructed	yards * .	133,045
3. Soakage pits constructed	numbers * .	6,465
4. Primary Health Centres	numbers .	7
5. Rural Dispensaries	numbers .	27
6. Maternity and Child Welfare Centres	numbers * .	15
7. Family Planning Centres ..	numbers * ..	6

Table 31—Achievements in the Community Development Blocks to the end of 1960-61—*concld.*

Activities	Unit	Achievements to the end of 1960-61
1	2	3
8. Cases treated during 1960-61		
(*a*) In Primary Health Centres	.. numbers * ..	47,929
(*b*) In Rural Dispensaries	.. numbers * ..	362,929
(*c*) In Maternity and Child Welfare Centres	.. numbers * ..	8,309
(*d*) In Family Planning Centres	.. numbers * ..	3,137
9. Drinking water wells constructed and renovated	.. numbers * ..	2,364
10. Smokeless *Chullas* installed	.. numbers * ..	288
VI. Education		
1. Total numbers of schools	..	1,495
VII. Social Education		
1. Mahila Samitis	.. numbers ..	148
2. Membership of Mahila Samitis	.. numbers ..	4,338
3. Literacy adult centres started	.. numbers ..	1,526
4. Adults made literate	.. numbers ..	44,630
5. Village leaders trained	.. numbers ..	13,728
6. Reading rooms and libraries functioning	.. numbers * ..	636
7. Youth Clubs	.. numbers * ..	673
8. Farmers' Unions	.. numbers * ..	65
VIII. Communication		
1. Mileage of roads executed	.. miles ..	332
2. Bridges and culverts constructed	.. numbers ..	196

* Represents figures for 11 Blocks

VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory which gives the Primary Census data in respect of each inhabited village according to the Census of 1961, shows the area in acres, number of occupied residential houses and households, total number of persons enumerated including inmates of institutions and houseless persons, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and the total number of workers and non-workers. In addition to these Census data, information regarding some amenities available in each village like educational institutions, medical facilities, postal and telegraphic facilities, protected drinking water supply, rural electrification and road communications are indicated in abbreviations after the name of each village. This information was obtained from different Departments of the State Government and Director of Posts and Telegraphs, Orissa Circle.

2. The inhabited villages in each police station are serially arranged and numbered. The names of uninhabited villages are also listed separately with serial number and shown at the end of each police station.

3. Relevant extract from the Primary Census Abstract showing the summary figures for the district is given at the commencement of the Table. The summary figures for each subdivision are also furnished at the beginning of each subdivision and similar figures for each police station precede the Village Directory of the respective police station.

4. **Area**—The area figures supplied by the local revenue authorities are adopted in column 3. They are shown in acres for each inhabited village. For other units like town, police station, subdivision, and the district, they are shown in square miles.

5. **Definitions**—Terms appearing in the column headings are defined as follows :

(i) *House*—A house means a 'Census House', that is to say, a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., with a separate main entrance.

(ii) *Occupied Residential House*—An occupied residential house is a Cenus House which is partly or wholly used for purpose of residence at the time of Census enumeration.

(iii) *Household*—A household means the entire group of persons who commonly live together and take their meals from a common mess unless the exigencies of work prevented any of them from doing so.

(iv) *Scheduled Caste and Scheduled Tribe*—A person is said to belong to a Scheduled Caste, if he belongs to any one of the castes specified in the Scheduled Castes and Scheduled Tribes Order (Amendment) Act, 1956. A person is said to belong to a Scheduled Tribe, if he belongs to any one of the Tribes specified in the Scheduled Castes and Scheduled Tribes Order (Amendment) Act, 1956.

(v) *Literate and Educated Persons*—A person is said to be literate if he can read and write a simple letter. An educated person is one who has passed a written examination of a recognized educational standard.

(vi) *Worker*—A worker is one who is engaged in economic activity of the following nine categories. "Work" includes not only actual work but also effective supervision and direction of work. The nine categories of economic activities mentioned above comprise persons who are engaged—(I) as Cultivator, (II) as Agricultural Labourer, (III) in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities, (IV) at Household Industry, (V) in Manufacturing other than Household Industry, (VI) in Construction, (VII) in Trade and Commerce, (VIII) in Transport, Storage and Communications, (IX) in Other Services.

I. Cultivator—A cultivator is a person who is engaged either as employer, single worker or family worker in (*a*) cultivation of land, or supervision or direction of cultivation of land owned by himself or by a member of his household or held from Government ; (*b*) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

II. Agricultural Labourer—An agricultural labourer is a person who works in another person's land in lieu of wages in cash, kind or share without exercising any right of supervision or direction in matters connected with cultivation.

III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities —

This category is not defined as it isself-explanatory.

IV. Household Industry—A household industry is an industry conducted by the Head of the household himself and/or mainly members of he household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. It should relate to production, processing, servicing, repairing and making and selling of goods. It does not include professions, such as, pleader or doctor or barber or washerman or astrologer.

V. Manufacturing other than Household Industry.
VI. In Construction,
VII. In Trade and Commerce,
VIII. In Transport, Storage and Communications,
IX. In Other Services.

} These categories of workers are not defined separately as they are self-explanatory.

(vii) *Non-worker*—A person is said to be not working if he or she does not come under any of the categories of "Worker" mentioned above. A person who has been offered work but has not actually joined it, is treated as a non-worker. The activities of non-workers have been classified into the following eight categories :

(*a*) a full-time student or child attending school who does no other work,

(*b*) a person engaged in unpaid house duties (like housewife or other adult female) who does no other work nor help regularly even part-time in family cultivation, industry, trade or profession,

(*c*) a dependent, including an infant or child not attending school or a person permanently disabled from work because of old age or illness,

(*d*) a retired person, a rentier, a person living on agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work,

(*e*) a beggar, a vagrant, or an independent woman without indication of source of income or a person of unspecified source of existence,

(*f*) a convict in jail or an inmate of a penal, mental or charitable institution,

(*g*) a person who has not been employed before but is seeking employment for the first time, and

(*h*) a person employed before but now out of employment and seeking work.

6. **Abbreviations**—The following abbreviations have been used in the Table :

I. *Educational Institutions*—

P for Primary School
M for Middle School
H for High School
C for Higher Institutions including Colleges.
T for Technical Institutions

II. *Medical and Public Health facilities*—

D for Dispensaries
RHC for Rural Health Centres
HOS for Hospital
MP for Medical Practitioners
MCW for Maternity and Child Welfare Centres

III. *Drinking Water facilities*—

S for Safe or protected water-supply including pipes, tube-wells, etc.

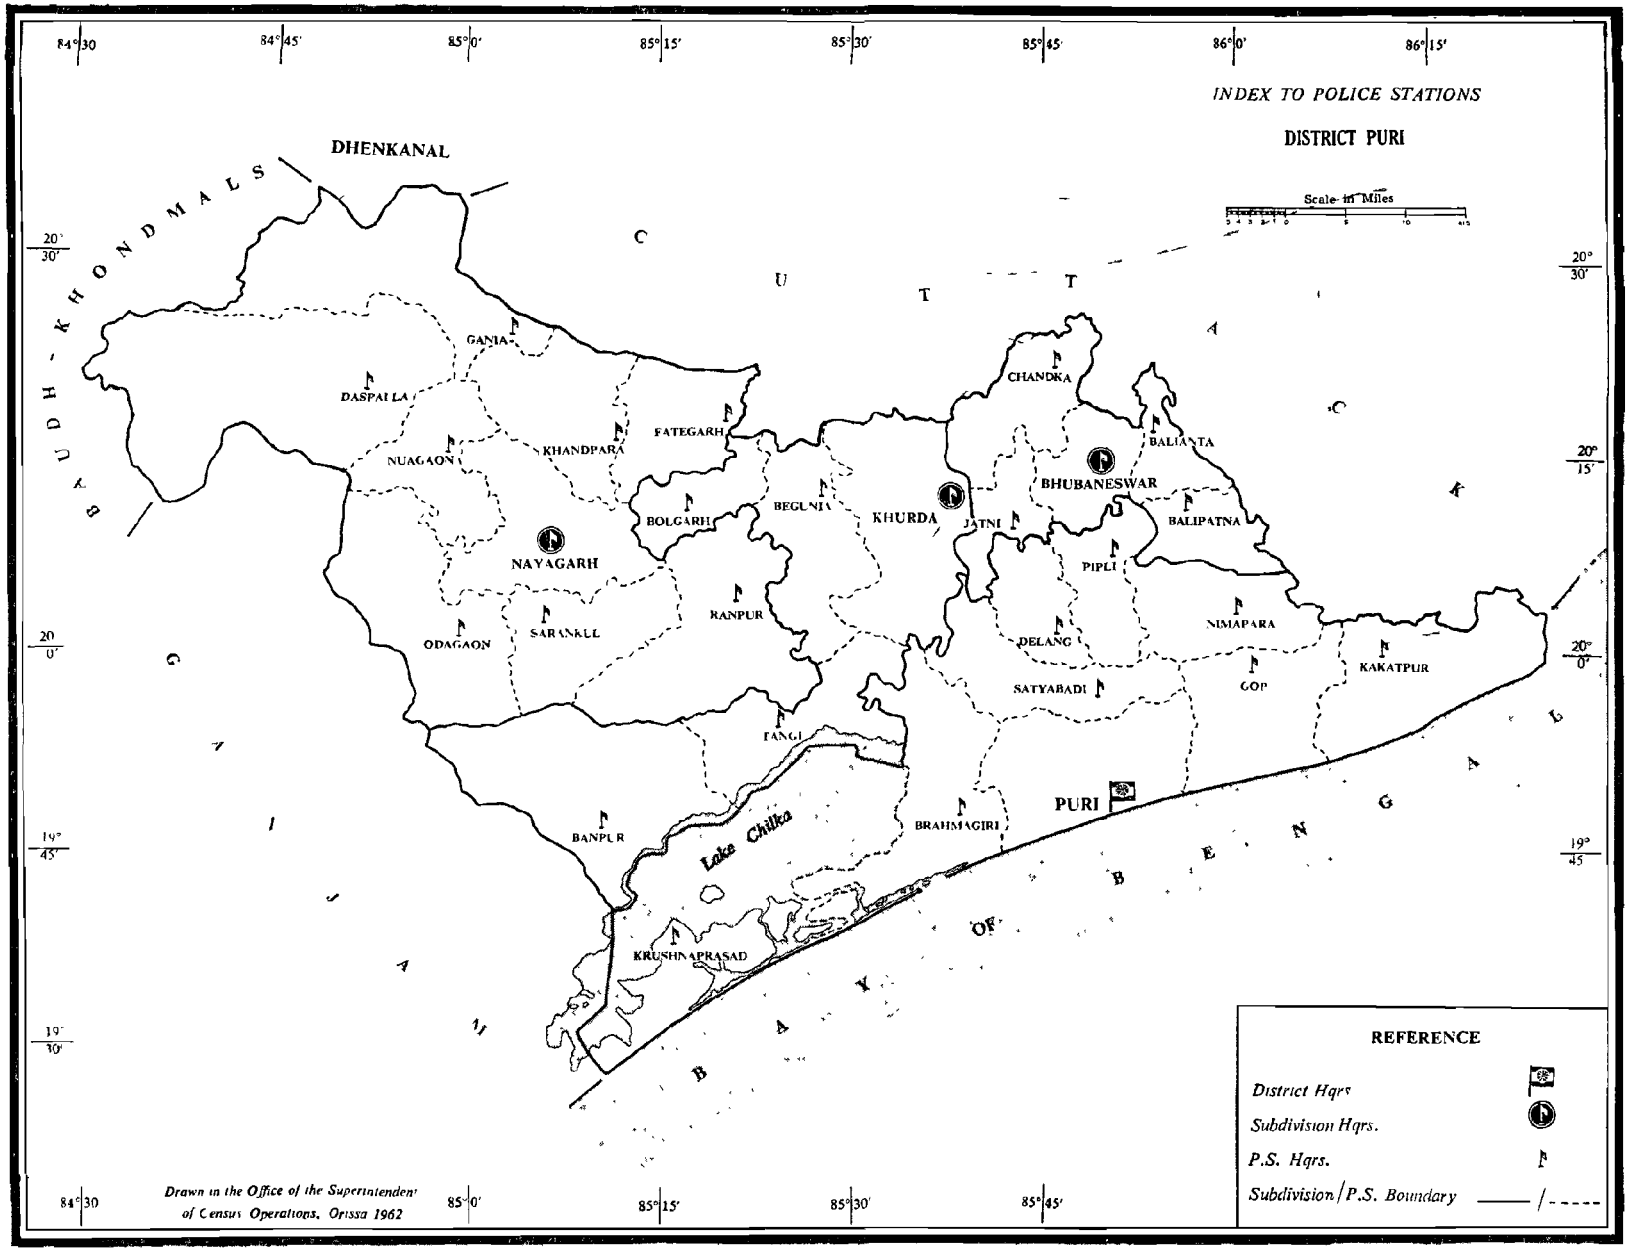

IV. *Communication and Transport facilities*—

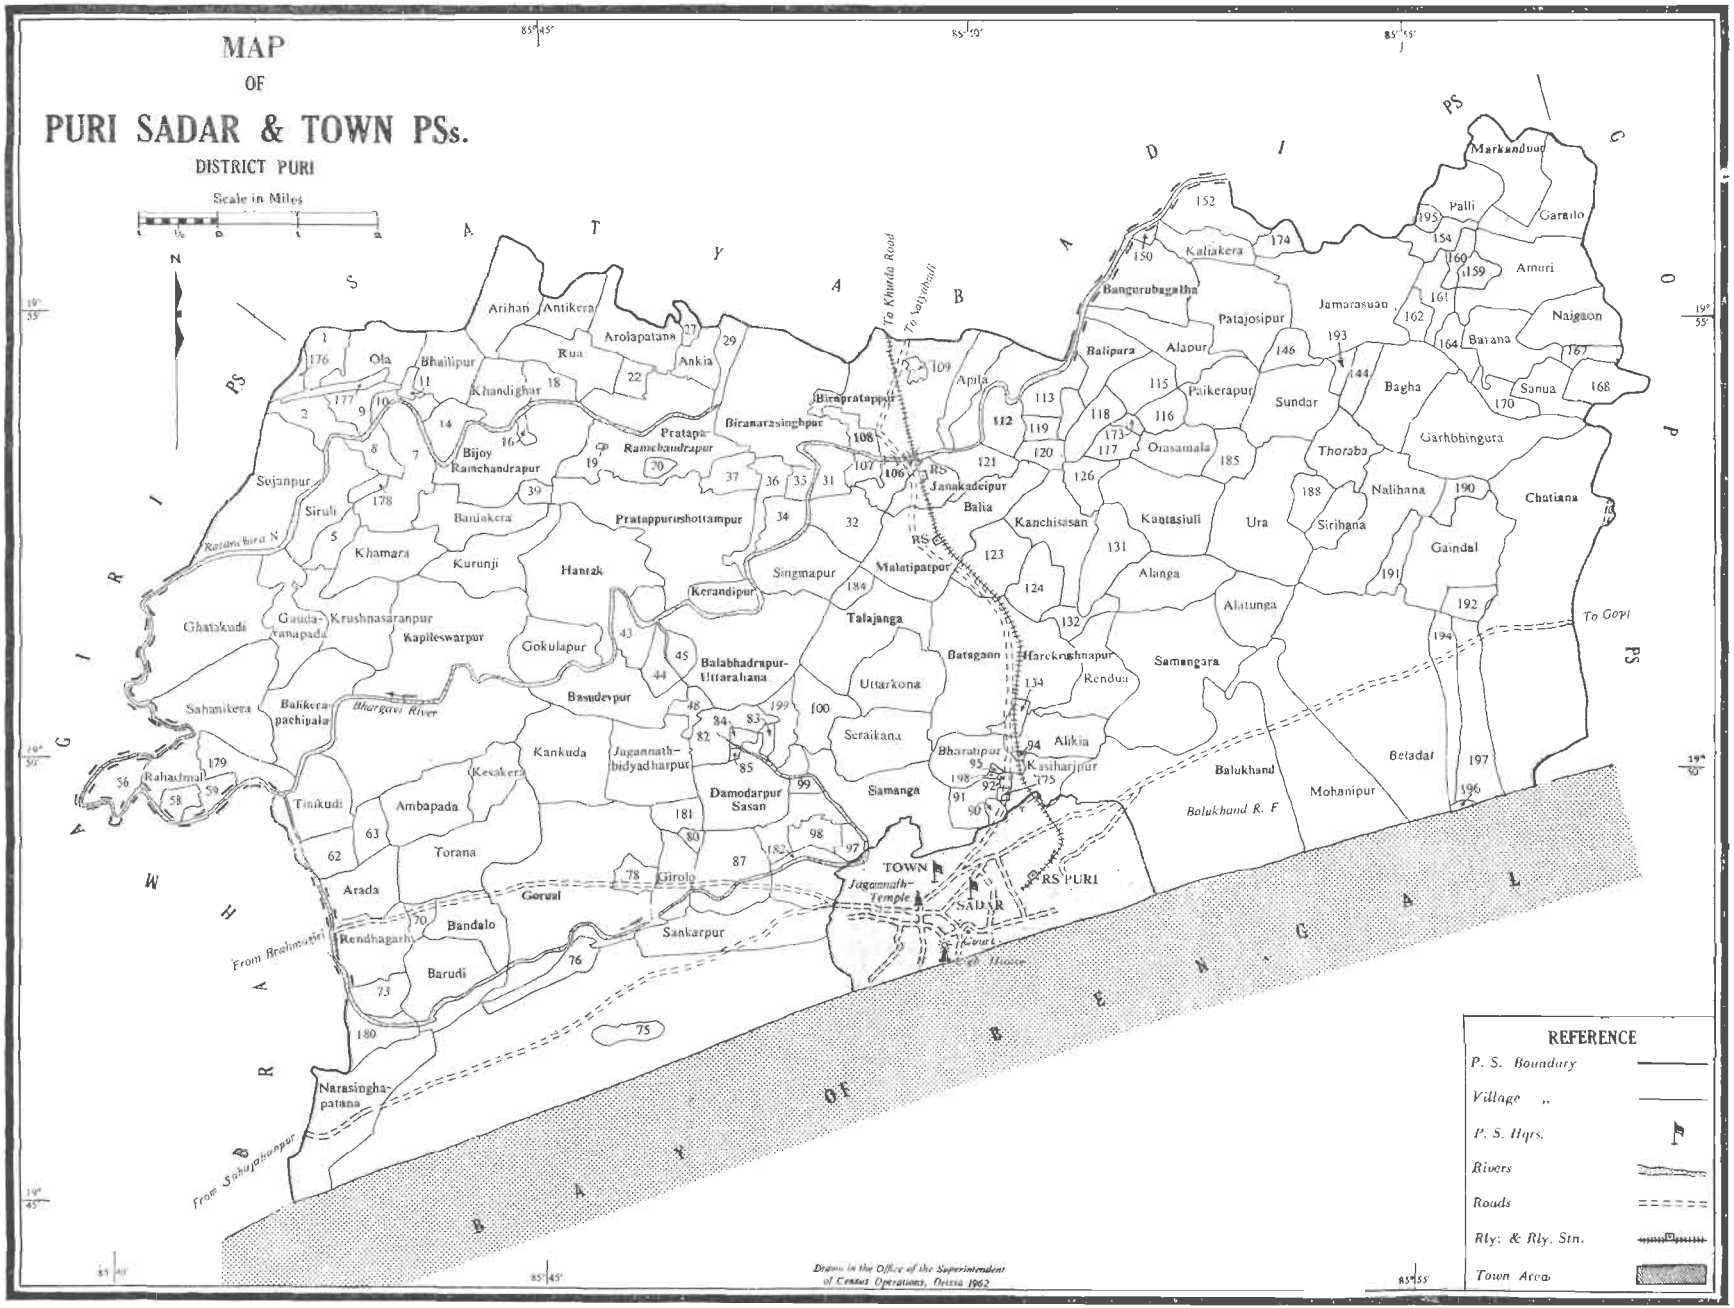

Po for Post office without telegraph office
Pto for Post office combined with telegraph office
PoTo for Post office and telegraph office separately
R for connected by road

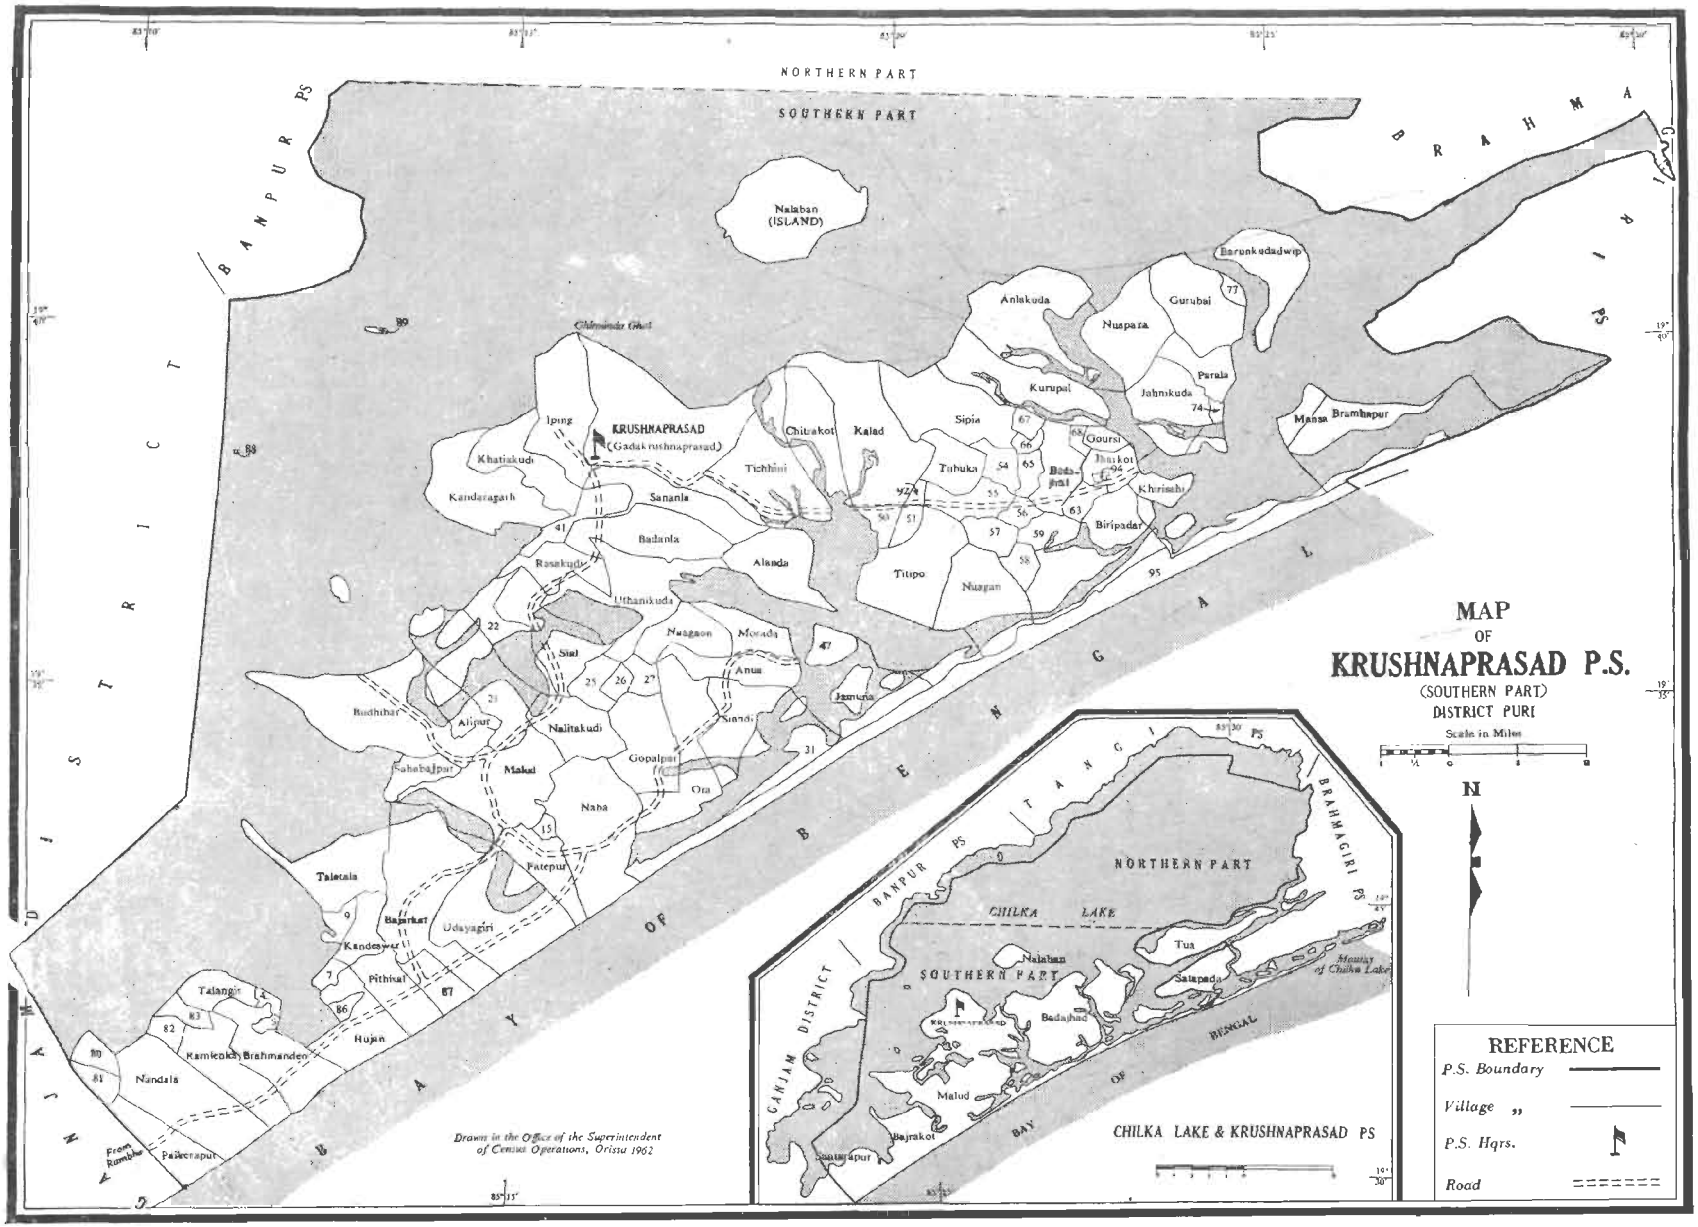

V. *Rural Electrification*—

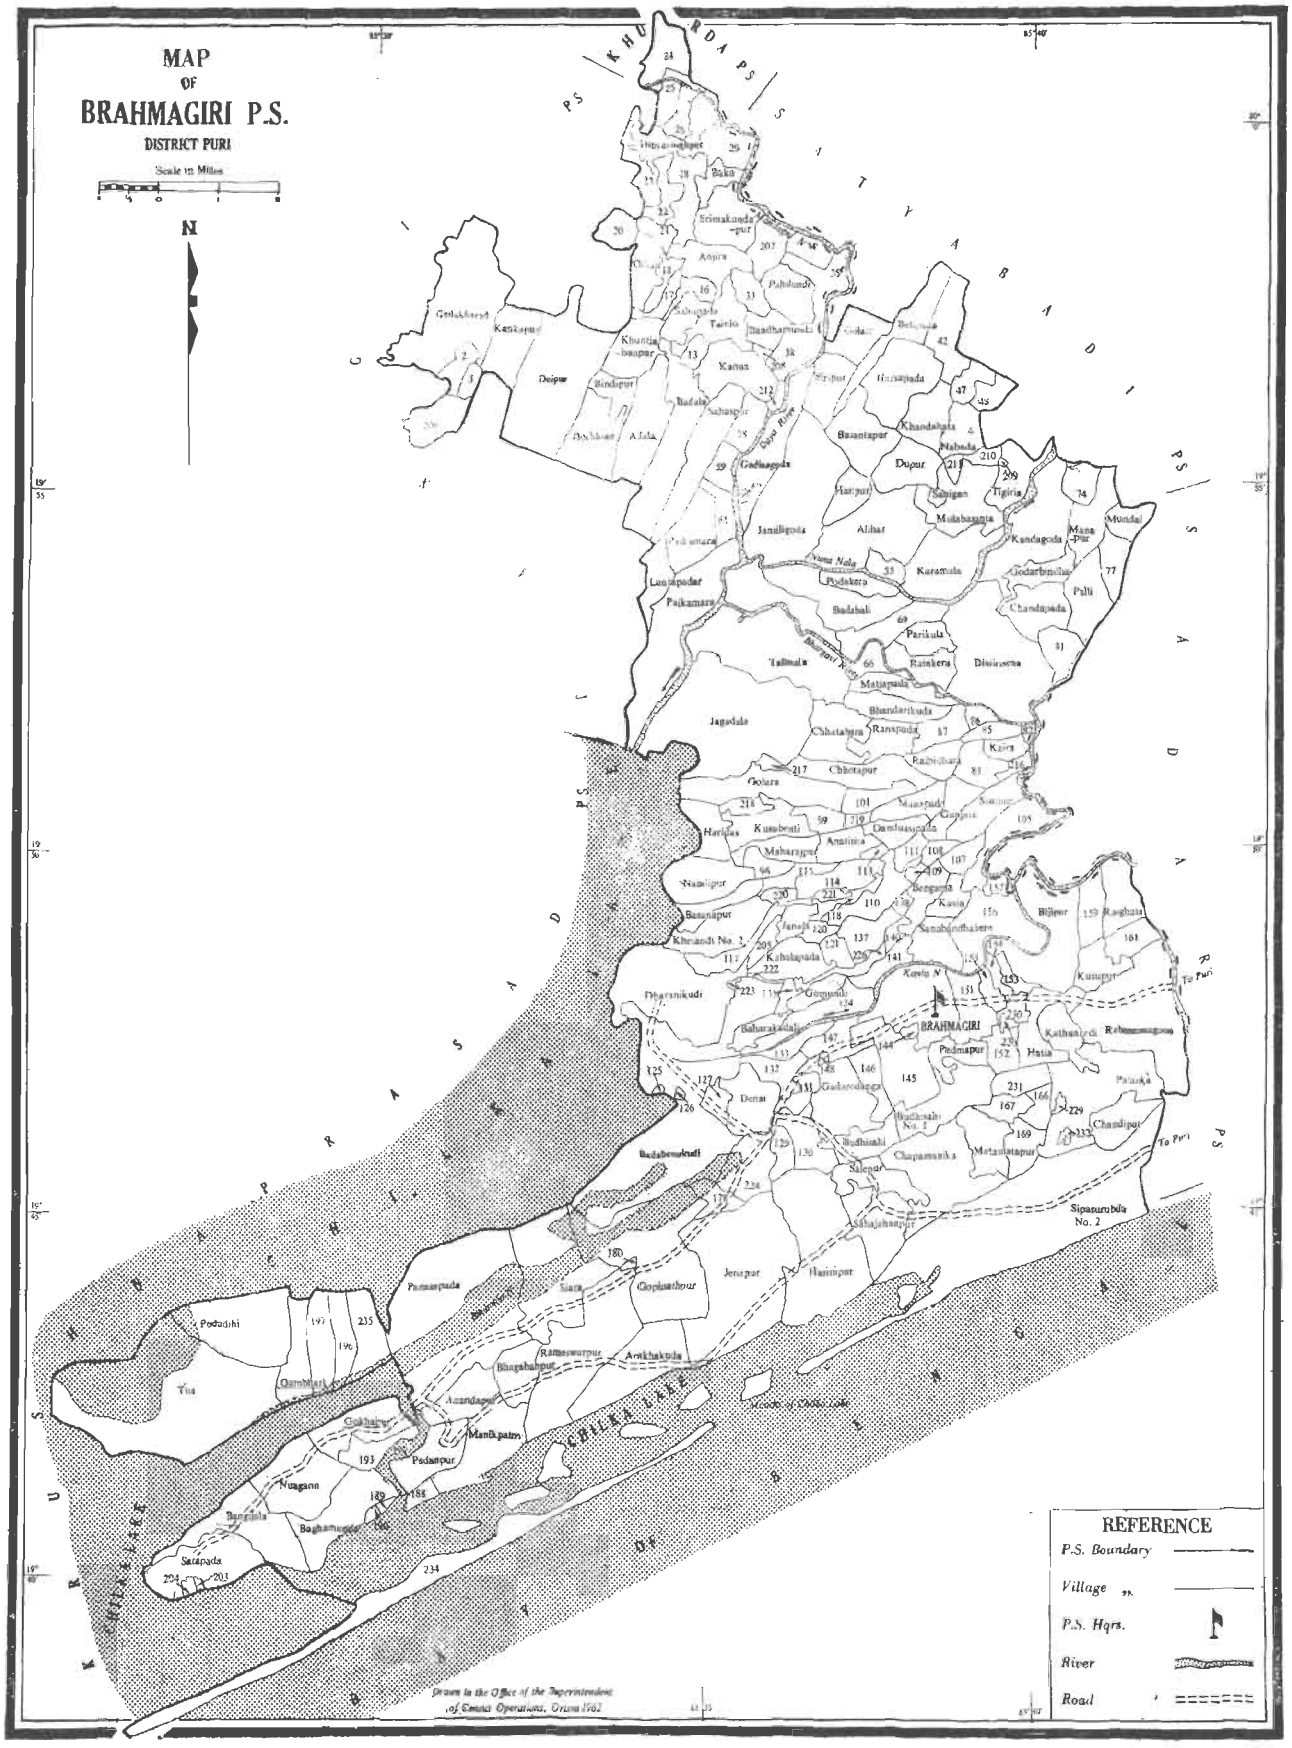

E for Electricity

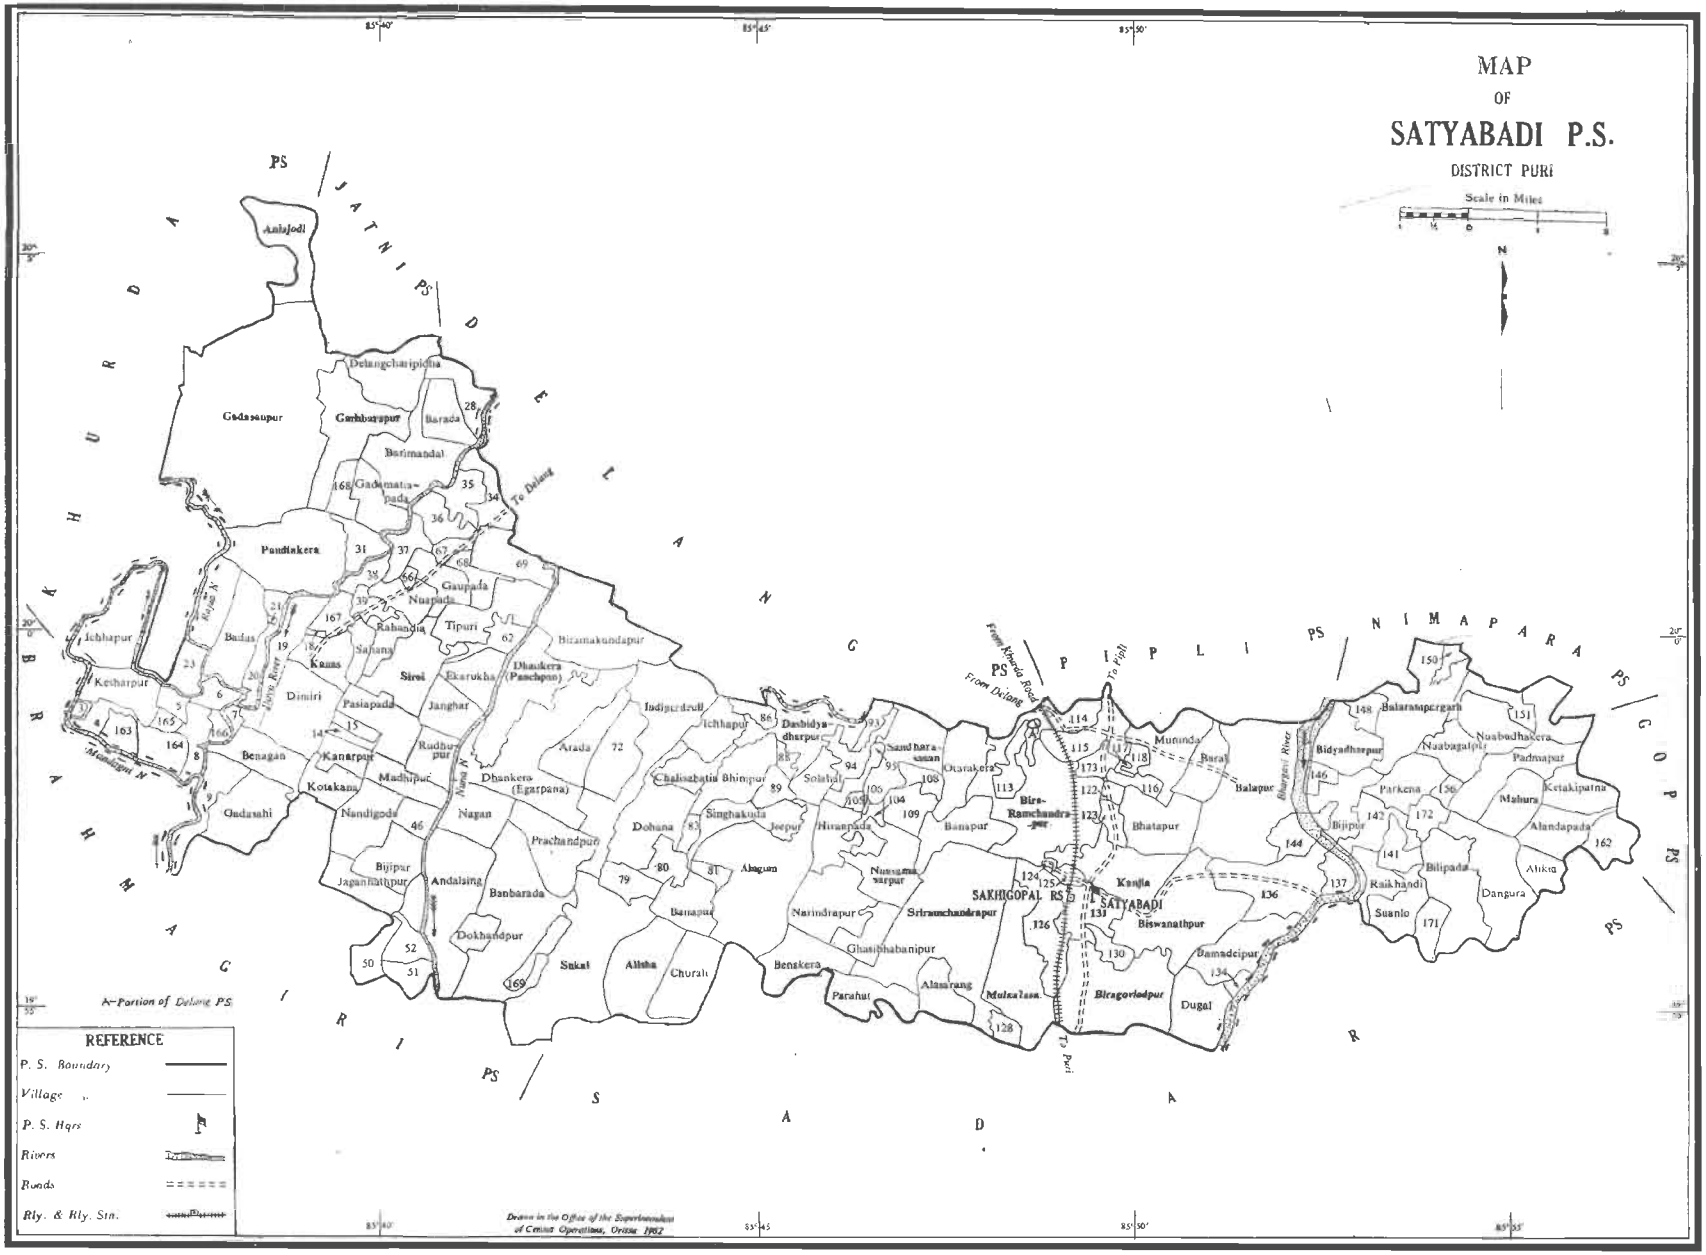

7. The total number of persons enumerated as shown in columns 6 to 8 include the inmates of institutions and houseless persons.
