25 Volumes of District Census Handbooks in English

25 Volumes of District Census Handbooks in Marathi

Alphabetical List of Villages in Maharashtra

J-1076—i-B (Poona).

G. PR. P. POONA N. - C 350. H-413.

PREFACE

On the suggestion of the Census Commissioner, India, the Government of Maharashtra decided to publish the District Census Handbooks on the basis of the material collected during the 1961 Census for all the districts in Maharashtra. A Committee consisting of the Executive Editor and Secretary of the District Gazetteers (Revision) Editorial Board, the Superintendent of Census Operations, Maharashtra, and the Director, Bureau of Economics and Statistics, Maharashtra, was appointed to determine the contents and review the drafts of each volume. This is one of the twenty-five volumes compiled in the Maharashtra Census Office and published under that Scheme.

District Handbooks had been published from the 1951 Census data also. As in the past, the present volume contains a set of 1961 Census Tables for the district and also presents basic demographic and economic information for each village separately. The following improvements have, however, been made in the 1961 series :—

(i) The addition of a comprehensive note introducing the district ;

(ii) The four-coloured map of the district ;

(iii) Taluka maps showing the location of each village in the district supplemented by alphabetical lists of villages ;

(iv) Supplementary information showing basic amenities available for each village ; and

(v) Addition of Part III containing 33 Tables on other official statistics.

These new features will make the volume a valuable reference for the Central and State Governments, District Administrators, departments engaged in planning and development work, legislators, private trade and business. Need for such material is far greater today as the functions of planning and implementation of development schemes have now percolated to district, taluka and village levels.

Marathi version of this volume is also being issued separately.

Part I of the volume presents villagewise statistics, Part II contains the 1961 Census Tables prepared for the district and Part III contains official statistics on Climate, Rainfall, Agriculture, Industry, Education, Health and a few other aspects. An explanatory note is added at the beginning of each part to describe the layout of the Tables and the terms or concepts used. Parts I and II are based entirely on the data collected at the 1961 Census. Part III is based on the material furnished by the District Statistical Officer and the officers of the departments concerned. Villagewise populations shown in Part I are valid for Sunrise of 1st March 1961 and are not adjusted for seasonal migration to or from other areas.

The introductory note at the beginning of the volume describes the present administrative set-up and some of the socio-economic facets of life in the district. It will illustrate how the statistics presented in the volume could be used for economic accounting or as controls of plan achievements in the district. For this note, we have drawn heavily on the District Gazetteers,

Survey and Settlement Reports, Annual Administration Reports and other Government publications. Some Heads of Departments also supplied the latest available material for the volume. We are indebted to them all.

Any views expressed in the introductory note or elsewhere in the volume are personal and the Government is not responsible for them.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I should specially mention Shri N. Y. Gore, Tabulation Officer, for his sincere and thorough work on compilation and proof-reading of Part I, Shri G. S. Gokarn, Tabulation Officer, for his painstaking work on MSS and proofs of Parts II and III, Shri S. K. Deshpande, Shri D. G. Pansare and Shri R. E. Chowdhary for assistance in preparing the introductory note, Shri S. Y. Pradhan and Shri B. M. Nagarkar, Draughtsmen, for Maps, Charts and Diagrams. Shri S. G. Deshpande of our office at Nagpur looked after the layout of the Tables and printing of the volume. Shri R. G. Phadke and Shri D. V. Rangnekar, Deputy Superintendents of Census Operations and Shri G. M. Rajadhyaksha, Tabulation Officer, made valuable contributions at all stages and specially in the preparation of notes. Acknowledgments are due to Shri S. R. Desai, Manager, Government Press and Book Depot, Nagpur, and Shri J. D. Gandhi, Manager, Government Photozincographic Press, Poona. In spite of heavy pressure of work on their presses they did their best to print this volume speedily.

I am obliged to Shri Asok Mitra, I.C.S., Census Commissioner, India, for valuable suggestions for improving this volume. I am also indebted to Shri Setu Madhava Rao and Shri M. A. Telang, Members of the District Census Handbook Committee, who not only supplied useful material from their departments but also read through the MSS and encouraged us through this venture.

POONA :

INTRODUCING THE DISTRICT

This note describes the administrative set-up and some socio-economic facets of life in the district

THE DISTRICT IN MAHARASHTRA

FIG. 2

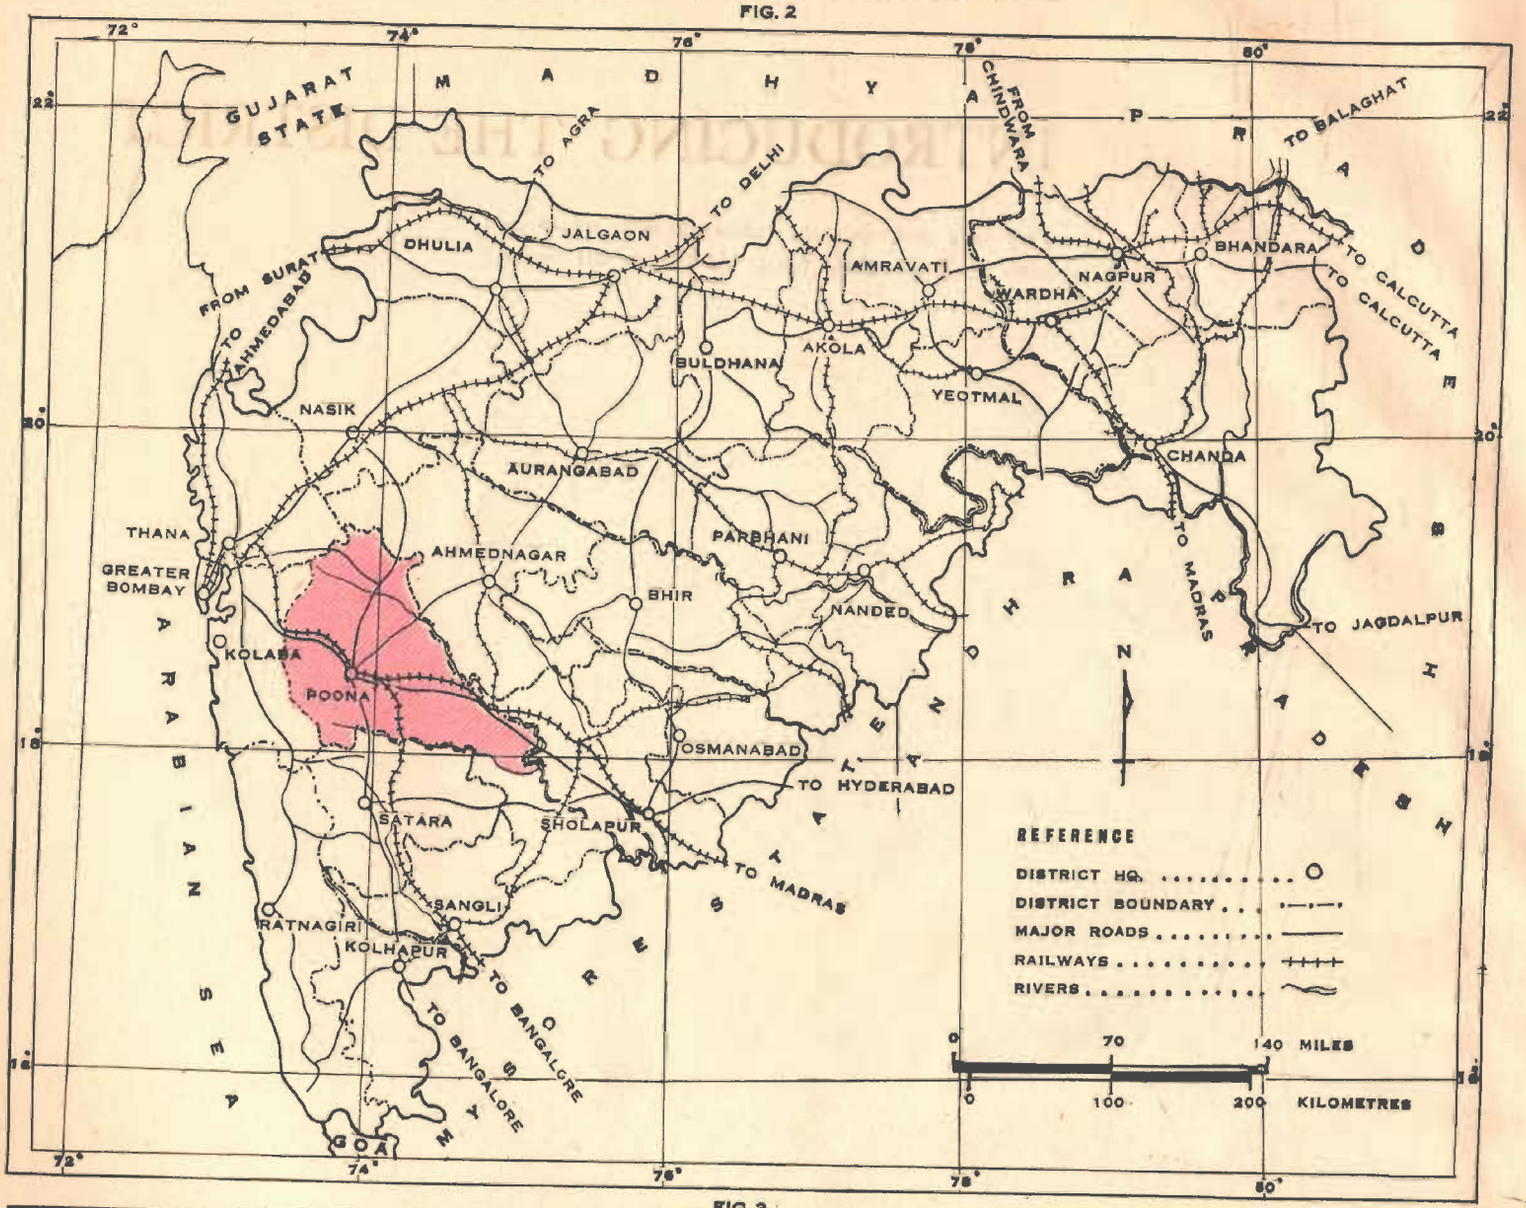

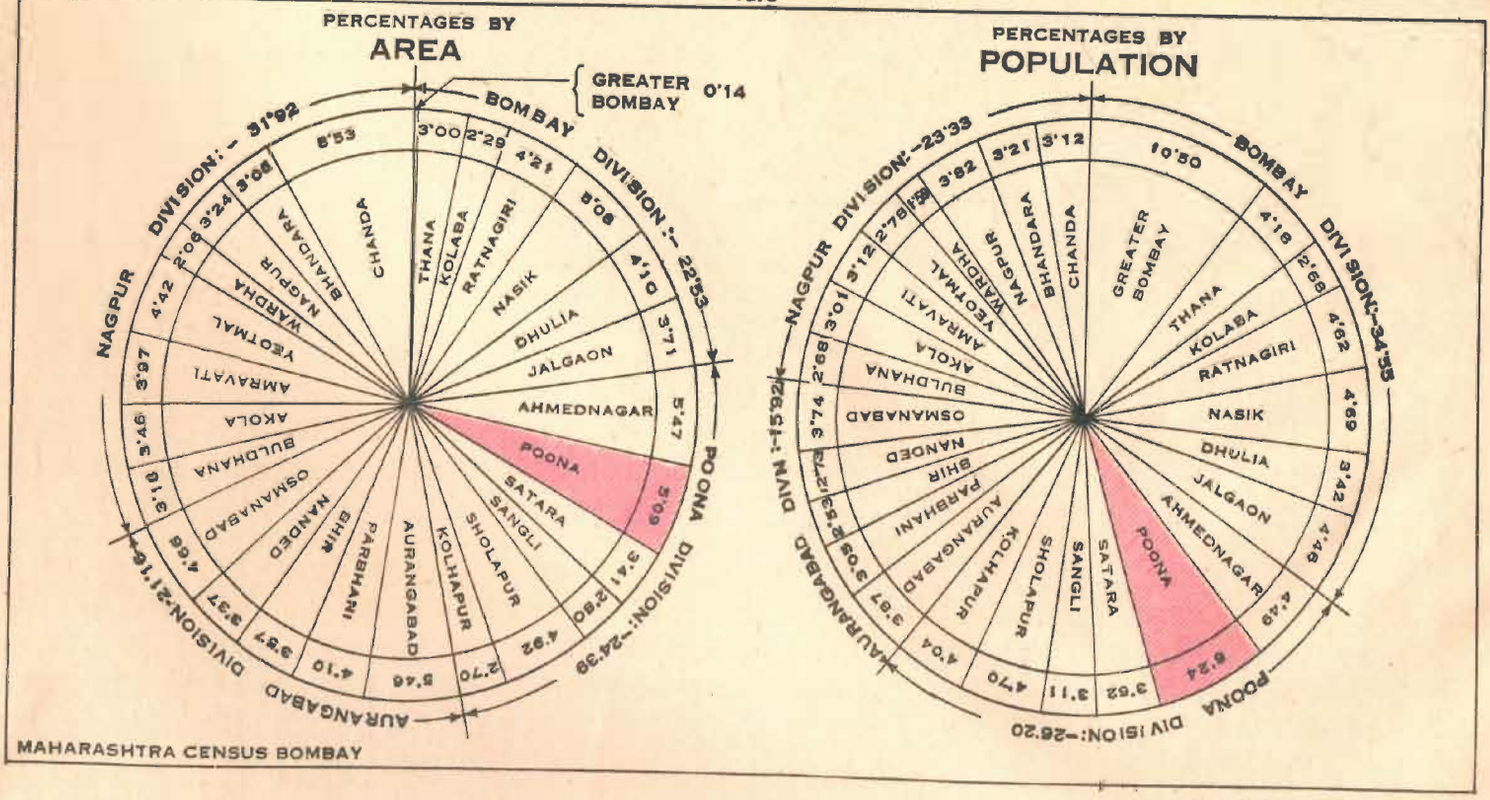

FIG. 3

MAHARASHTRA CENSUS BOMBAY

G. P. Z. P. POONA-1962

INTRODUCING THE DISTRICT

PHYSICAL FEATURES

The district lies in the Bhima and the Nira basin. The main range of the Sahyadri runs along its western boundary. The Bhima river rising in the Sahyadri flows eastwards through the central part of the district and controls the almost entire drainage system of this region. A succession of rivers with their source in the Sahyadri draining the land towards the east or south-east characterises the landscape of the district from Pushpavati in the north to Nira in the south. The branches of the Sahyadri act at places as the watersheds between the river valleys.

The district lies between 17° 54′ and 19° 24′ N. latitude and 73° 19′ and 75° 10′ E. longitude. It is bounded on the north by Ahmadnagar district, on the east by Ahmadnagar and Sholapur districts, on the south by Sholapur and Satara districts and by Kolaba and Thana districts towards the west.

The area of the district is 6,023 square miles and the population in 1961 is 2,466,880. In terms of area and population, it constitutes 5·09 per cent and 6·24 per cent of the State, respectively. The Figures facing this page show the position of the district in the State.

Hill Ranges

The hills of the district belong to two distinct systems. One is the main range of the Sahyadri, which runs north and south for a length of about 73 miles. The other system of hills includes the narrow ridges with flat tops that stretch eastwards and gradually sink into the plain. The leading peaks in the main range of the Sahyadri are in the extreme north; Harischandragad 4,670 feet high, Jivdhan at the head of the Kukadi valley and commanding the Nane Pan, rises about 1,000 feet above the Deccan Plateau, Dhak three miles south of Jivdhan and Ahupe about 10 miles south-west of Dhak. Eight miles south of Ahupe stands Bhimashankar, the sacred source of the river Bhima. Among the prominent peaks to the south of Bhimashankar lie Rajamachi and Nagphani (Duke's Nose).

From the main line of the Sahyadris four belts of hills run eastwards. Of these, beginning from the north, the first and third consist of parallel ridges that fall eastwards till their line is marked only by isolated rocky hills. The second and fourth belts of hills are full of deep narrow ravines. The hills have terraced sides and broad flat tops.

Important Rivers

The main river of the district is the Bhima. Other important rivers are Meena, Kukadi, Vel, Ghod, Pushpavati, Indrayani, Mutha, Mula, Pauna and Nira.

The Bhima rises at Bhimashankar in the Sahyadris in the west of the district and flows south-east through the central parts of the district. It forms the eastern boundary of the district for about 100 miles, before entering Sholapur district.

The main tributaries of the Bhima are the Vel and the Ghod on the left and the Bhama, Indrayani, Mula, Mutha and Nira on the right. The Nira forms the southern boundary of the district for a considerable distance.

Kukadi and Meena are the tributaries of Ghod. Pushpavati is a feeder of Kukadi and the Pauna, that of the Mula.

Climate

Monthly temperature records are available only for Poona Station. Table 1 in Part III shows the monthly temperature records for ten years 1951 to 1960.

The rainy season in the district starts from the beginning of June and lasts up to the end of October. It is followed by cold weather from November to February and hot season from March to May. On the whole, the climate of the district is dry and invigorating. In the cold season dry easterly winds prevail during most part of the day and cool western valley winds in the night and from February onwards there is breeze in the evening. By about the middle of March, the temperature rises somewhat rapidly and hot breeze prevails during daytime. April and May, though the hottest, are not the driest months. In the east and the centre of the district, early in May, heavy rain sometimes occurs.

Rainfall

Table 2 in Part III shows figures of monthly rainfall and number of rainy days for ten years 1951 to 1960.

Rainfall is not uniform in all parts of the district. The average rainfall in the district varies from 4,500 mm. in Lonavla region of Maval taluka in the west to 750 mm. in Poona area and less than 500 mm. in Baramati-Indapur area in the east. The central zone shows a sharp break from the western zone in the rainfall pattern.

The district gets rain mostly from the south-west monsoons. Over the whole district the rain falls from June to October. The eastern part gets showers from north-east monsoon but they are few and erratic. The pre-monsoon rain is generally accompanied by thunder storms.

The seasonal distribution of rainfall varies from zone to zone. Region of Sahyadri in the western zone gets 90 to 95 per cent of the annual rainfall from the south-west monsoon. The percentage decreases to 80 per cent in the Sirur-Indapur region in the east and the south-east.

Dependability of Rainfall and Scarcity Areas

Mean rainfall at Baramati, Lonavla and Poona is 463·30 mm., 4,318·76 mm. and 652·02 mm., respectively. Standard deviation is 130·30 mm., 781·05 mm. and 172·21 mm., respectively. The coefficient of variability is 28·10 per cent, 18·09 per cent and 26·40 per cent, respectively. As rainfall reliability is measured by the coefficient of variability, the degree of reliability of Lonavla area may be said to be high and that of Baramati and Poona areas moderate.

The Fact-Finding Committee appointed by the Government of Bombay in 1960 had, after considering all the factors, reported that the rainfall is not dependable in the following areas and that they are likely to be affected by scarcity conditions as shown below:—

Area	Grade	Estimated frequency
(1) Sirur Taluka	A	Once in 3 years.
(2) Dhond Taluka	A	Once in 3 years.
(3) Northern part of Indapur Taluka not protected by canals.	B	Once in 6 years.
(4) Part of Baramati Taluka not protected by irrigation canals.		
(5) Eastern part of Purandhar Taluka situated on the east of the railway line, and to the east of Rajewadi and Jejuri villages.		
(6) Part of Haveli Taluka situated to the north-east of the Taluka.		

Soils

The soils of the district belong broadly to three classes, namely, black, red and brown. In some places one class of soil blends with another in varying proportions.

The black soil is commonly found in layers several feet deep. It is found in the eastern portion of Khed, Sirur, Dhond and Purandhar talukas and the whole of Baramati and Indapur talukas. The black soil by the side of rivers and large streams is usually of great and uniform depth. Excellent black soil of varying depth with its surface covered with black basalt stones is found on the table-lands. Black soils are particularly suited for the rabi crops such as wheat, gram, rabi, jowar and sugarcane, because of their quality of retaining moisture for a longer time.

The brown coloured soil, commonly known as *tambvat*, is found in the transition tract, *viz.*, the eastern part of Khed and Haveli talukas, and the western parts of Sirur, Dhond and Purandhar talukas. These soils are always shallower and coarser than the black soils. Frequent showers render these soils suitable for wheat and kharif crops, particularly jowar and bajri.

Western portions of the district comprising the talukas of Junnar, Ambegaon, Khed and Purandhar have red soils. These soils grow bajri, groundnut and chillies.

Maval, Mulshi and Bhor talukas and Velhe mahal and the western part of Junnar, Ambegaon and Khed talukas have paddy soil. The best paddy soil is a bright yellow which deepens to black as the quality declines. It is particularly suited for the cultivation of paddy but minor cereals like ragi and vari can also be grown in that soil.

The richest soil of the district is the alluvial soil ranging in colour from pale yellow to dark brown found on the banks of the rivers Meena, Ghod, Bhima, Mutha, Indrayani and Nira.

Minerals

There are no important mineral resources in the district. However, the rocks in the district which are hard and durable are used extensively as building stones. They are excellent for macadam and tarred roads and are among the best materials obtainable in the country. They are also excellent for use as aggregates in cement concrete. They are quarried on a large scale near Chinchwad, Yeravda, etc. Irregular nodules of 'kankar' and gypsum occur in the soil at a number of places, especially in the eastern parts of the district. 'Kankar' is locally used for lime burning.

Forests

Except in its western and hilly parts the district has not much of a forest area, the total for the whole district being 591·05 square miles. The forest types are mainly three, *viz.*, scrub, mixed deciduous and evergreen. They correspond to the eastern, central and western zones of low, medium and high rainfall.

Among the important forest produce in the district are teak (in Junnar, Haveli, Purandhar and Bhor talukas and in Velhe mahal), Hirda (in Khed taluka) and bamboos and Shikekai (in Maval and Mulshi talukas).

Natural Zones

The district can be broadly divided into three zones. The western zone or the Maval tract comprising Maval and Mulshi talukas and western parts of Haveli, Khed, Junnar, Ambegaon and Bhor talukas and the Velhe mahal, has regular and assured rainfall

and red and brown soils. Rice and millets are the main crops with wheat, peas and gram as secondary crops in some places. Wheat is grown as a dry crop in a large area of Maval taluka. This zone accounts for about one-third of the total area of the district. The central zone or the transitional tract comprising central parts of Haveli, Khed, Junnar, Ambegaon and Purandhar talukas has moderate rainfall and brown soils and grows bajri, groundnut and wheat (dry). Sugarcane is grown mostly in areas under irrigation. Similarly, potatoes are grown in Khed and Junnar talukas. The eastern zone or the Desh comprising Baramati, Dhond and Indapur talukas and eastern parts of Haveli, Junnar, Sirur and Purandhar talukas and accounting nearly half the area of the district, has uncertain and insufficient rainfall and constitutes mainly the scarcity area of the district. It has black soil and grows late jowar, bajri and wheat in areas under irrigation. Sugarcane is grown on an extensive scale in Baramati taluka on account of irrigation facilities provided by the Nira Canals. Southern parts of Baramati and Indapur talukas are thus partly protected from famines by the Nira Canal System.

ADMINISTRATIVE SET-UP

Brief History

In 1820, Poona district had 1,213 villages grouped into the following nine sub-divisions :—

Poona City, Bhimthadi, Indapur, Pabal, Khed, Purandhar, Haveli, Maval and Shivner (Junnar).

Pabal sub-division was subsequently abolished and with some villages exchanged Sirur taluka was transferred from Ahmadnagar in 1866-67.

Mulshi peta was separated and brought from Maval to Haveli taluka.

Headquarters of Bhimthadi taluka were transferred from Patas to Supa in 1878. Baramati peta under Bhimthadi taluka was abolished and the headquarters of Bhimthadi taluka were shifted to Baramati and a new peta was created with headquarters at Dhond in 1892.

New Poona City taluka was formed between 1917 and 1921.

Bhimthadi taluka was named as Baramati taluka after 1949. Petas of Ambegaon (under Khed), Dhond, Sirur and Mulshi were raised to full-fledged talukas in 1948-49.

Consequent upon the merger of former Indian States a part of Bhor State was added to the district and one village was transferred from Poona to North Satara district. Taluka of Bhor and Velhe mahal were newly formed in 1949.

With the Reorganisation of States, the district was included in Bombay State in 1956. Since 1960, it forms a part of Maharashtra.

Present Set-up

For administrative purposes, the district is at present divided into 13 talukas and 1 mahal. The area, number of inhabited villages, number of towns, 1961 population and the position of each taluka and the mahal in the district in terms of percentages of area and population are as follows :—

District/Taluka	Name of Headquarters	Area in sq. miles	Number of inhabited villages	Number of towns	1961 population	Percentage of area	Percentage of population
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

14 Bhor Taluka	Bhor ..	342·0	186	1	95,376	5·7	3·9

General Administration and Revenue

The Collector is in charge of general administration, law and order, treasury, land revenue and civil supplies. He is assisted by a Resident Deputy Collector in his office and four Deputy Collectors who hold charge of the four revenue divisions and have their headquarters at Poona, Kirkee, Khed and Baramati, respectively. Thirteen Mamlatdars are in charge of 13 taluka offices and one Mahalkari in charge of one mahal office.

Land Revenue Settlements

The original Revenue Survey Settlement of different talukas in the district were completed between 1836 and 1854. The First Revision Settlement was completed between 1867 and 1894 and the Second Revision Settlement between 1911 and 1926. The Third Revision Settlement was introduced only in Indapur taluka in 1947-48 and guaranteed for 10 years. The land revenue rates have not been revised in spite of expiry of the terms of the revision settlements.

Original survey was made in the erstwhile Bhor State in 1895. The settlement rates have not yet been revised.

In the original settlements, lands were assessed separately on the basis of individual soil classification, though the general level of assessment was fixed empirically with reference to the dependability of rainfall, crop pattern, average yields, prices, levels of rent, nearness to the markets, facilities of communications and other similar factors observed from tract to tract. Individual lands were never reclassified during the second revision settlements and landholders were generally allowed the benefits of improvements effected by them during the term of settlements untaxed. The comparative incidence of land revenue from field to field is thus generally the same as it was at the time of the first revision settlement and the enhancements made from settlement to settlement were brought about only by raising the levels of land revenue assessments over a tract uniformly.

The method of land revenue assessments is broadly the same as in the other districts of Maharashtra. In the case of lands irrigated by wells and small bandharas, the land revenue is integrated and is inclusive of the charge for water supplied. For lands irrigated under Government Canals, the land revenue at dry land rates is assessed and recovered by the Revenue Department while the water rates determined annually on the basis of actual crops raised are assessed by the Irrigation Department and recovered by the Revenue Department.

Table 24 in Part III shows demand and collection of land revenue during the ten years 1951 to 1960 for the district and each taluka separately.

The areas and number of villages for each taluka in the district have varied from settlement to settlement. Inam or Jagir villages had not been covered by most of them. In fact, some of the Inam or Jagir villages were unsurveyed and unsettled as late as in 1947. That work has now been completed. Because of such recently settled villages and because of the territorial changes in the taluka boundaries from time to time, most of the talukas today have a more varied pattern of land revenue assessments than what is seen in the reports of earlier settlements. Even then the maximum rates fixed at each settlement or revision settlement or the average land revenue rates per acre should be quite reliable indices of the incidence of land revenue as obtaining in the district from taluka to taluka or in the same taluka from settlement to settlement. Those rates for dry, garden or rice lands for each taluka are as follows :—

Taluka	Original Settlement or Revision Settlement	Year	Guarantee period	Number of villages	Average land revenue per acre	Group	Maximum rates per acre		
							Dry lands	Garden lands	Rice lands

Assembly and Parliamentary Constituencies

Since 1957 the district has 16 Assembly seats. In 1957, Haveli and Baramati constituencies were double-member constituencies with one of the two seats reserved for Scheduled Castes. After abolition of the double-member constituencies in 1961, the seats from Kirkee and Dhond are reserved for Scheduled Castes.

The number of voters on rolls for each Assembly constituency in 1961 was as follows :—

Assembly Constituency	No. of voters on rolls
(1) Shukrawar Peth	83,352
(2) Kasba Peth	72,538
(3) Shivajinagar	67,857
(4) Poona Cantonment	57,846
(5) Haveli	84,665
(6) Kirkee	59,569
(7) Indapur	70,298
(8) Baramati	66,644
(9) Dhond	65,998
(10) Sirur	59,454
(11) Junnar	69,988
(12) Ambegaon	62,208
(13) Khed	75,327
(14) Maval	77,628
(15) Bhor	75,593
(16) Purandhar	61,755
Total	1,110,700

In the 1962 General Elections, the Assembly constituencies Shukrawar Peth, Kasba Peth, Shivajinagar, Poona Cantonment, Haveli and Kirkee together formed one Parliamentary constituency called Poona constituency. Assembly constituencies Indapur, Baramati, Dhond, Sirur, Junnar and Ambegaon together formed another Parliamentary constituency called Baramati constituency and the Assembly constituencies Khed, Maval, Bhor and Purandhar combined with Assembly constituencies Mahad from Kolaba district and Ratnagiri-Khed from Ratnagiri district together formed the third Parliamentary constituency called Khed constituency.

The total number of voters on rolls in the district in 1961 was 1,110,700. The total population of 21 years and above according to 1961 Census is 1,132,514. Comparison can, however, be only approximate as the two figures relate to two different dates in the year 1961.

Administration of Justice

The District and Sessions Judge is the head of the Judicial Department in the district. The judiciary is entirely separated from the executive. The Collector continues to be the District Magistrate and the Deputy Collectors and Tahsildars are vested with magisterial powers. But those powers are limited to executive cases arising out of chapter VIII of the Criminal Procedure Code and none of them ever tries any criminal case. The District Magistrate does not have any administrative control over the other magistrates who try criminal cases in the district. This separation of the judiciary from the executive has been brought about in the district in 1953.

The District and Sessions Judge is assisted by four Assistant Judges and Additional Sessions Judges. They attend to civil and criminal work both original and appellate and have jurisdiction over the entire district.

There are three Judges of the Small Causes Court. They attend to civil suits under Small Causes Court Act to the extent of Rs. 2,000 and appellate under Poona Corporation Act and civil under Rent Act.

Four Civil Judges (Senior Division) attend to special suits, in which the value of subject-matter is over Rs. 10,000.

There are also six Civil Judges of the Junior Division and eight Civil Judges of the Junior Division and Judicial Magistrates (First Class) with headquarters at different taluka places. They have civil ordinary original jurisdiction up to Rs. 10,000. Nine Judicial Magistrates, First Class, with headquarters at Poona, deal with criminal cases arising in their respective jurisdictions. There are three special Judicial Magistrates, First Class, dealing with cases detected by Anti-corruption Branch and cases under Motor Vehicles Act and the Bombay Provincial Municipal Corporation Act within the limits of Poona Municipal Corporation. Two special Judicial Magistrates, First Class, at Poona and Dhond, respectively, attend to Railway cases. Both the courts are mobile.

Police

The Police force in the district functions under the (District) Superintendent of Police who is assisted by 5 Deputy Superintendents (2 for Rural and 3 for City) and 2 Circle Police Inspectors. There are 29 Police Stations in the district. Their headquarters and jurisdictions are shown below :—

Taluka	Police Station Headquarters	No. of villages
Junnar	1. Junnar	118
	2. Narayangaon	40
Ambegaon	3. Ghodegaon	71
Khed	4. Khed	101

	19. Loni-Kalbhor	39
	20. Dehu Road	8
Dhond	21. Dhond	63
Mulshi	22. Paud	134
Velhe Mahal	23. Velhe	128
Purandhar	24. Sasvad	38
	25. Jejuri	44
Baramati	26. Baramati	29
	27. Vadgaon Nimbalkar	34
Indapur	28. Indapur	84
Bhor	29. Bhor	185

Average number of villages and population per Police Station in the district is 53 and 85,065 as against 69 and 62,547 in the State, respectively.

Crime statistics for the district for the years 1950, 1955 and 1960 have been shown in Table 28 in Part III.

Municipalities

Twelve out of 22 towns in the district have Municipal Committees established under the Bombay Municipal Boroughs Act of 1925 and Bombay District Municipal Act of 1901. The year of establishment, the year of the last general election, the term of the elected body, the total number of elected councillors and the number of seats reserved for Scheduled Castes and Scheduled Tribes and for Women are shown below for each municipality separately.

Almost all the municipalities are quite old. The urban population in the district represents 28·90 per cent of the total population and of the total urban population 12 municipal towns account for 75·86 per cent. The remaining towns, *viz.*, Dapodi, Chinchwad, Poona Cantonment, Dehu, Bhosari, Pimpre Waghere, Khadakvasla, Lohogaon and Kalamb do not have Municipalities.

The Poona Municipality had been functioning from 1857. The Poona Municipal Corporation was established in 1950. The area jurisdiction of the Municipal Corporation has been gradually enlarged. The last such expansion was in 1962 when four villages with a population of 28,000 were included in the Corporation limits.

The taxation level of each of the Municipalities is shown below :—

Name of the Municipality	1961 Population	Year 1961-62		
		Total Receipts	Receipts from Municipal taxes	*Per capita* Municipal tax
		Rs.	Rs.	Rs.
1. Junnar ..	12,141	2,07,802	1,10,996	9·14
2. Alandi ..	3,187	55,932	13,728	4·30
3. Sirur ..	6,234	1,91,421	1,15,345	18·50
4. Lonavla Municipal Borough.	21,713	6,87,577	5,14,792	23·71
5. Talegaon Dabhade.	11,753	1,04,122	82,130	6·99
6. Dhond ..	12,912	1,99,734	1,50,523	11·66
7. Sasvad ..	8,498	1,70,400	95,923	11·28
8. Jejuri ..	3,523	63,054	15,218	4·33
9. Baramati ..	21,118	12,71,721	3,32,484	15·74
10. Indapur ..	5,756	79,449	43,767	7·60
11. Bhor ..	8,627	1,06,214	90,189	10·45

Per capita municipal tax appears to be high at Sirur and Lonavla. The former is an important trade centre and much of the incidence falls on agriculturists who bring their produce for sale and the latter a hill station where much of the incidence of taxation falls on tourists.

Serial No.	Name of the Municipality	Year of establishment	Year of the last General Election	Statutory term in years	1961 Population	Total No. of Municipal Councillors	Seats reserved for		
							Scheduled Castes	Scheduled Tribes	Women

ZILLA PARISHAD AND PANCHAYAT SAMITIS

With a view to promoting development of democratic institutions and securing greater measure of participation by the people in development plans and in local and governmental affairs by decentralisation of powers and functions, a Zilla Parishad and 13 Panchayat Samitis have been established in the district in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samitis Act of 1962. The areas under the jurisdiction of the Zilla Parishad and the Panchayat Samitis correspond to the district and taluka boundaries except in the case of municipal and cantonment towns which are not covered by them. Nine towns, *viz.*, Dapodi, Chinchwad, Bhosari, Dehu, Pimpre Waghere, Khadakvasla, Lohogaon, Dhond and Kalamb which do not have Municipal Committees but which are treated as towns in the 1961 Census are, however, included under the jurisdiction of the Zilla Parishad and Panchayat Samitis concerned. Poona Cantonment is excluded from the jurisdiction of the Zilla Parishad. The Zilla Parishad covers 97·0 per cent of the area and 66·0 per cent of the total population of the district. The population covered includes total rural population and 10·91 per cent of urban population of the district in 1961. The number of villages, number of non-municipal towns and population included under the Zilla Parishad and each Panchayat Samiti are shown below. The position of each Panchayat Samiti in the Zilla Parishad is also shown separately by percentages of area and population in 1961:—

——	Name of Headquarters	Area in sq. mile	Number of inhabited villages	Number of non-municipal towns	Population in 1961	Percentage by area	Percentage by population
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

*Revenue village Mundhawa from Poona City, taluka is included in Velhe Panchayat Samiti.

Constitution

The Zilla Parishad has 58 directly elected councillors. Out of these 58 seats, 4 seats are reserved for Scheduled Castes and 3 for Scheduled Tribes. In addition, a woman councillor has been co-opted by the elected councillors. There are five associate councillors who are chairmen of five federal co-operative societies conducting business in the district. The elected chairmen of all Panchayat Samitis are also *ex officio* councillors.

At the Block (taluka) level, the Panchayat Samiti consists of all elected and co-opted councillors from the area of the Block and a chairman of a co-operative society conducting the business of purchase and sale of agricultural produce in the area of the Block as an associate member and a chairman of a co-operative society conducting the business in agriculture in the area of the Block as a co-opted member. Sarpanchas elected by members of Village Panchayats are also elected members of the Panchayat Samiti. Their number is at the rate of two for each electoral division in the area of the Block.

Elections were held in the year 1962. The term of office of the councillors is five years. The Zilla Parishad has elected the President and Vice-President from amongst the elected councillors.

An Officer in the senior scale of I.A.S. works as the Chief Executive Officer to the Zilla Parishad. The Parishad is also assisted by various departments and the heads of those departments at the district level are Officers of Class I or Class II Service under the State Government. At the Block level, the Panchayat Samitis have elected Chairmen and Deputy Chairmen. The Block Development Officers work as Secretaries to the Panchayat Samitis. The executive authority for the purpose of carrying out the provisions of the Maharashtra Zilla Parishad and Panchayat Samitis Act vests in the Chief Executive Officer and Block Development Officers. The Deputy Chief Executive Officer works as a Secretary to the Zilla Parishad.

Committees and Office-bearers

The Zilla Parishad functions through a Standing Committee presided by the President and six Subject Committees for Finance, Works, Agriculture, Co-operation, Education and Health. Two Subject Committees are presided by the Vice-President and four by two Chairmen elected by the Zilla Parishad to preside over two specified Subject Committees each. The Deputy Chief Executive Officer works as Secretary of the Standing Committee, while the District Heads of Departments work as Secretaries to the Subject Committees concerned. Co-ordination between the Subject Committees is achieved through the Standing Committee which includes the Chairmen of all the Subject Committees as members. The Panchayat Samitis do not have Subject Committees.

The elected President of the Zilla Parishad is paid an honorarium of Rs. 500 per month. The Vice-President and the two Chairmen of the Subject Committees are paid an honorarium of Rs. 300 per month. The elected Chairmen and Deputy Chairmen of the Panchayat Samitis are paid an honorarium of Rs. 300 and Rs. 150 per month, respectively. All these persons are also provided with rent-free accommodation as is deemed suitable for them by the Zilla Parishad.

Functions

The Divisional and State Officers of the Government continue to exercise technical supervision and give guidance to the Zilla Parishad and Panchayat Samitis. The State Government has powers to give direction to the Zilla Parishad regarding works and schemes in the interest of National or State Development Plans. Inspection and supervision are carried out by the Divisional Commissioners.

Except for a few safeguards the developmental and administrative functions of Government are now, with the creation of democratic bodies at the district and Block level, devolved on them. In other words, the State Government has divested itself of the responsibility of local activities which are now left to the people's initiative and resources.

The developmental and administrative subjects transferred to the Zilla Parishad and Panchayat Samitis have been listed in Schedules I and II to the Maharashtra Zilla Parishad and Panchayat Samitis Act. By and large, all functions of Government administration including development activities, at the district level, but excluding matters relating to law and order, judicial and quasi-judicial functions and development functions involving high technical skill like Research Stations, etc., have been devolved on the Zilla Parishad and Panchayat Samitis. All Class III and Class IV employees of the Government Departments now transferred to the Zilla Parishad have been absorbed as employees of the Parishad. The Village Talati (or Patwari) and the entire village establishment of the Revenue Department have been transferred to the Parishad through the Village Panchayat, though for collection of land revenue and maintenance of Record of Rights they continue to work under the Revenue Officers.

The Zilla Parishad has replaced the erstwhile statutory bodies known as District Local Board, District School Board and District Panchayat Mandal. The functions of non-statutory body known as the District Development Board have of course been absorbed. Municipalities, however, remain unaffected as Municipal areas are excluded from the jurisdiction of the Zilla Parishad.

Finance

The law provides for levy of cess at the rate of twenty naye paise on every rupee of land revenue and at a rate not exceeding nineteen naye paise per rupee of water rate. The Zilla Parishad can levy taxes on profession, trade, calling or employment and taxes on water-supply, public entertainments, amusements and pilgrims, special tax on land and buildings and other taxes. The stamp duty on transfer of certain immovable properties may be increased by one-half per cent by Government for payment to the Zilla Parishad.

The financial assistance given by the State Government includes 70 per cent of the land revenue collected within the area of the Parishad. When, however, the amount of land revenue payable falls short of the amount arrived at on the basis of two rupees *per capita* of the population of the district as appearing in the Census of 1961, an equalization grant covering the difference will be paid to the Zilla Parishad. Government also pays what are called purposive grants being grants for specific works and development schemes transferred to the Zilla Parishad at the rate of not less than 75 per cent of the expenditure. An establishment

grant equal to 75 per cent of the average annual cost on account of salaries and allowances is paid in respect of the posts held by the staff of Government transferred to the Parishad which are included in the District Technical Service (Class III), District Service (Class III) and District Service (Class IV). The other grants include a deficit adjustment grant payable at full rates during the first five years and to be progressively reduced in the next ten years after which it will not be payable, incentive grants calculated to achieve speedier development and grants for Plan Schemes. If in pursuance of the proposal of a Zilla Parishad or a Panchayat Samiti, a cess on land revenue at a rate in excess of the minimum rate prescribed by the Act is levied by the State Government in the whole of the district or in Block, the Zilla Parishad or the Panchayat Samiti, as the case may be, shall be paid every year by the State Government a grant called the local cess matching grant.

The total revenue receipts of the Zilla Parishad for the year 1963-64 are Rs. 222·68 lakhs. The major portion of the receipts is of receipts from Government. They form 95·3 per cent and the Zilla Parishad receipts amount to 4·7 per cent of the total revenue receipts. Major items of Zilla Parishad's receipts are local fund cess, cess on water rates and profession tax.

The total revenue expenditure is Rs. 222·46 lakhs. Major items of expenditure are as shown in the next column.

	Per cent
General Administration ..	2·6
Education	59·1
Community Development Project	9·5
Buildings and Communications ..	8·9
Miscellaneous	4·8
Other Items	15·1

Per capita expenditure over different development heads is as follows:—

	Rs.
General Administration ..	0·36
Education	8·08
Community Development ..	1·30
Buildings and Communications ..	1·22

The Zilla Parishad has passed a resolution proposing increase in the levy of cess on Land Revenue from 20 P. to 50 P. in a rupee from the Revenue year 1963-64, *i.e.*, from 1st August 1963.

Establishment

The establishment of the Zilla Parishad comprises the gazetted and the non-gazetted staff. The non-gazetted staff consists of the employees of the former local bodies and those of the various State Government Departments now transferred to the Zilla Parishad.

There are four Class I and thirty-six Class II Gazetted Officers working under the Zilla Parishad. The total strength of the non-gazetted employees of Class III and Class IV categories is 10,201. Besides, an establishment of 272 Gram Panchayat Secretaries, 405 Talatis and 91 Gram Sevaks are working under the Zilla Parishad.

VILLAGE PANCHAYATS

The numbers of independent village panchayats, group village panchayats and villages covered by group village panchayats are shown below :—

Taluka	No. of inhabited villages	No. of independent village panchayats	No. of group village panchayats	No. of villages covered by group village panchayats
1 Junnar Taluka ..	140	50	33	91
2 Ambegaon Taluka	100	34	23	68
3 Khed Taluka ..	158	32	42	125
4 Sirur Taluka ..	79	36	19	44
5 Maval Taluka ..	172	8	44	166
6 Haveli Taluka ..	116	58	20	51
7 Dhond Taluka ..	64	38	12	26
8 Mulshi Taluka ..	132	20	32	113
9 Velhe Mahal ..	124+1*	2	22	129
10 Purandhar Taluka	79	60	8	17
11 Baramati Taluka	63	52	7	12
12 Indapur Taluka	84	33	19	53
13 Bhor Taluka ..	186	20	49	166
Total ..	1,498	443	330	1,061

*Village Mundhawa from Poona City taluka included in Velhe Panchayat Samiti.

NOTE.—The figures in column (5) perhaps include hamlets. The totals of columns (3) and (5) do not therefore tally with column (2).

All the 1,498 villages in the district are covered by the village panchayats.

The break-up of the total annual income of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in'000)	Percentage of total income
	Rs.	
Grants	1,230	38·78
Taxes on houses and properties	394	12·42
Octroi	..	..
Other taxes	1,182	37·26
Total taxes	1,576	49·68
Income from other sources	366	11·54
Total income	3,172	100·00

The first item includes the Government grant of 30 per cent of the land revenue collected in the village or one rupee per head of population whichever is more.

The village panchayats also get the entire local and cess collected in the village. At present it is collected at 20 P. per rupee of land revenue. The village panchayats can raise it with Government approval up to 100 P. per rupee of land revenue. Out of 773 village panchayats, 591 have levied taxes on houses and properties.

The break-up of the total annual expenditure of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in'000) Rs.	Percentage of total expenditure
Administration	458	19·27
Health and Sanitation ..	291	12·24
Public Lighting	235	9·89
Other Items	1,393	58·60
Total Expenditure	2,377	100·00

Other items of expenditure include improvement of village roads, construction of new drinking water wells or repairs to old wells or construction of *panchayat ghars*, schools and such other buildings.

Functions of the Talati (Patwari), Village Panchayat Secretary and Assistant Gram Sevak are now combined in one official who now works under the Village Panchayat.

POPULATION

Table A-I in Part II shows the 1961 population of the district and each taluka for total, rural and urban areas separately. Definition of rural and urban areas may be seen in paragraphs 8 and 9 of the Explanatory Note to Part II. Table A-II shows the district population and its variation at each Census since 1901 and the variation in population for each taluka during 1951—1961.

Variation

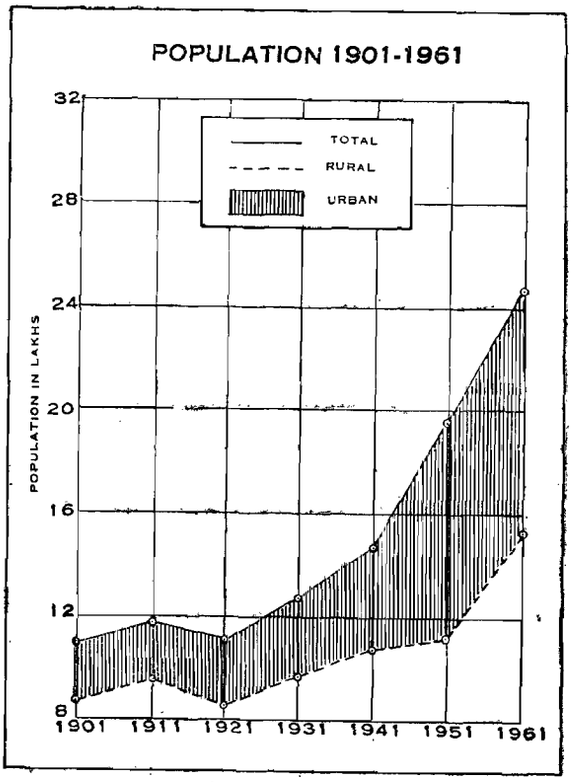

The population of the district and decade variation rates since 1901 are as follows :—

Year	Population	Decade Variation	Rate of Variation
1901	1,095,858	..	..
1911	1,177,238	+81,380	+7·43
1921	1,105,014	−72,224	−6·14
1931	1,275,882	+170,868	+15·46
1941	1,472,972	+197,070	+15·45
1951	1,950,976	+478,004	+32·45
1961	2,466,880	+515,904	+26·44

Figure in the next column shows the total, rural and urban population of the district for the last seven Censuses.

The population of the district increased by 7·43 per cent during the decade 1901—11. In the following decade the severe influenza epidemic took a heavy toll of life which is revealed in a decrease of 6·14 per cent in the district population. Conditions improved after 1921 and there has been a distinct change in the trend of variation since then. The growth rate of order 15·46 in 1921—31 may be attributed to the recovery from the influenza epidemic in 1918 and gradual return of population who had left due to epidemic.

In the last two decades (1941—51 and 1951—61) the population has increased at very high rates of 32·45 per cent and 26·44 per cent. In fact, decade 1941—51 saw a spectacular increase in the district population with the highest rate of growth ever observed for the district. The increase in that decade was the highest recorded by any district in Poona Division. It was primarily due to the growth of Poona City which attracted migrants. The growth during 1951—61 is less than that during the preceding decade but it is too higher than that for the State.

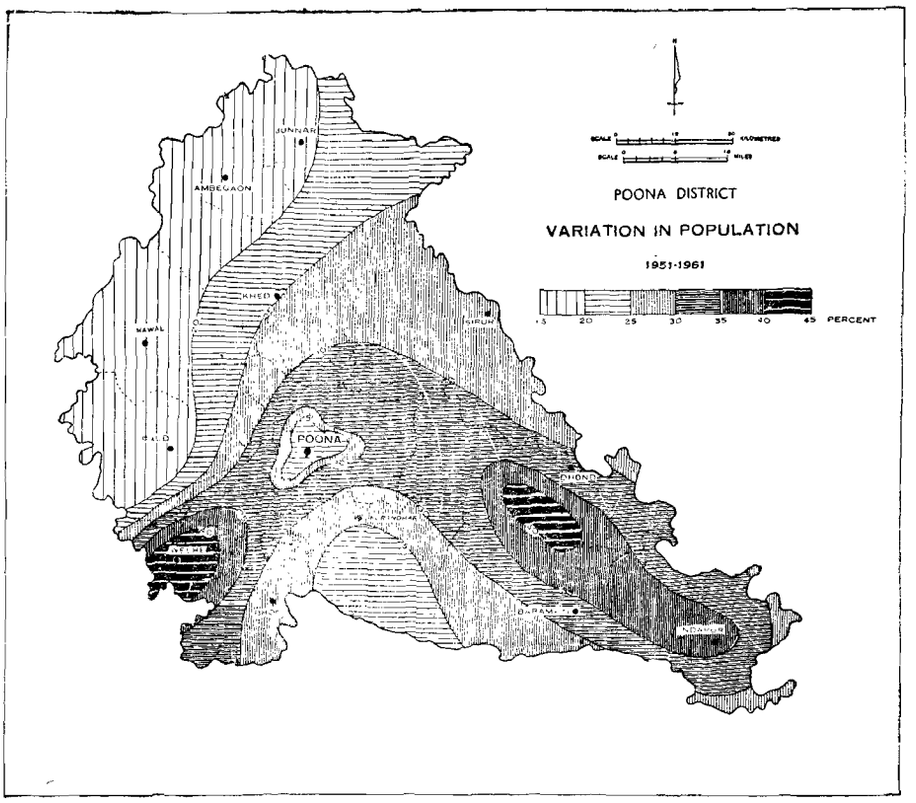

The high increase in the absolute population during the decade 1951—61 is the result of control of epidemic and other diseases since 1950. Malaria, which used to be a major public health problem in the district, has been controlled by DDT spraying. Campaigns for B.C.G. and vaccination against smallpox also have their share in improving the survival rate.

The 1951—61 decade variation for the district and each of the talukas is as follows :—

		Percentage Variation 1951—61
POONA DISTRICT	.. .. ..	+26·44
1	Junnar Taluka	+21·77
2	Ambegaon Taluka	+21·12
3	Khed Taluka	+24·33
4	Sirur Taluka	+28·48
5	Maval Taluka	+18·38
6	Poona City Taluka	+21·62
7	Haveli Taluka	+37·78
8	Dhond Taluka	+44·17
9	Mulshi Taluka	+16·68
10	Velhe Mahal	+46·34
11	Purandhar Taluka	+27·21
12	Baramati Taluka	+29·45
13	Indapur Taluka	+37·06
14	Bhor Taluka	+22·90

Figure to the right shows the areawise pattern of 1951—61 growth of population within the district.

There are wide differences in the decade rates of variation of different talukas. The exclusively rural Velhe mahal has recorded the highest growth rate of 46·34 per cent while the adjoining Mulshi taluka also rural has recorded the lowest growth rate of 16·68 per cent. Sirur, Haveli, Dhond, Purandhar, Baramati, Indapur talukas and Velhe mahal are above the district average and the remaining talukas are below that average. Poona City taluka is among the category of talukas with lower growth rate, in spite of the new industries in the outskirts of the main constituent unit of Poona City.

The net percentage increase in population since 1901, 1921 and 1951 for the district and the State has been as follows :—

	Poona District	Maharashtra
1901—1961	+125·11	+103·97
1921—1961	+123·24	+89·71
1951—1961	+26·44	+23·60

Since 1901 the population of the district has increased by 125 per cent as against nearly 104 per cent for Maharashtra. During the last forty years since 1921, the district population increased by 123 per cent as compared to nearly 90 per cent for the State. Even in the last decade the district maintained a higher growth rate than the State average.

Density of Population

The densities for Maharashtra, Poona District and its talukas for 1951 and 1961 are as follows :—

	Density per square mile		Percentage of district population in 1961
	1951	1961	
MAHARASHTRA	271	334	..
POONA DISTRICT ..	324	410	100·00
1 Junnar Taluka	260	317	6·97
2 Ambegaon Taluka ..	250	303	4·81
3 Khed Taluka	234	291	6·37
4 Sirur Taluka	169	217	5·37
5 Maval Taluka	238	281	4·72
6 Poona City Taluka ..	8,766	10,661	29·29
7 Haveli Taluka	354	483	10·09
8 Dhond Taluka	173	249	5·21
9 Mulshi Taluka	195	227	3·26
10 Velhe Mahal	140	204	1·62
11 Purandhar Taluka ..	243	309	5·13
12 Baramati Taluka.. ..	249	322	7·05
13 Indapur Taluka	192	263	6·24
14 Bhor Taluka	227	279	3·87

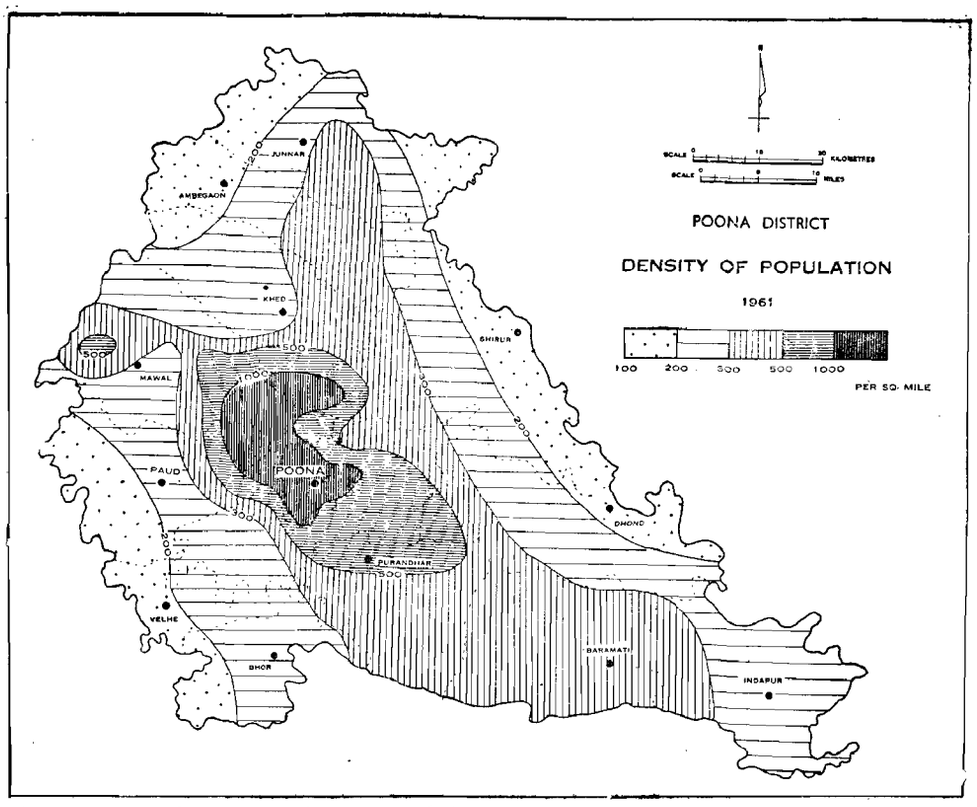

The Figure on page (13) shows the approximate contours of density of population in 1961 within the district.

The density of population of the district has increased sharply from 183 persons per square mile in 1921 to 410 persons per square mile in 1961. The district density has however, always been higher than the State average.

Within the district the density varies from 204 persons per square mile in Velhe mahal to 10,661 persons per square mile in Poona City taluka. Haveli and Poona City talukas with high concentration of urban population have densities higher than the district average and all the remaining talukas are below that average. The high density in Poona City taluka is due to the existence of Poona City in that taluka. There is a marked concentration of population in Poona City and Haveli talukas. Poona City taluka alone with little over 1 per cent of the district area, accounts for the highest (29 per cent) of the district population. Haveli taluka with 8·55 per cent of the district area ranks second with 10·09 per cent of the district population. In all other talukas except Velhe mahal the population is more or less fairly distributed in proportion to the area.

Urban Population

Urban population of the district at each Census and its variation since 1901 are shown in Table A-IV in Part II. The same table also shows the variation in population for each town in the district.

The number of towns, the rate of decade variation in urban population and the percentage of urban population to total population at each Census since 1901 for the district and the State are as follows :—

Year	Poona District			Maharashtra		
	No. of towns	Rate of variation in urban population	Percentage of urban population to total population	No. of towns	Rate of variation in urban population	Percentage of urban population to total population
1901 ..	12	..	20·47	219	..	16·59
1911 ..	15	+2·72	19·57	232	+0·99	15·13
1921 ..	14	+9·13	22·75	238	+18·72	18·50
1931 ..	14	+21·90	24·02	258	+15·54	18·60
1941 ..	15	+30·57	27·17	266	+27·11	21·11
1951 ..	36	+108·60	42·78	383	+62·42	28·75
1961 ..	22	+12·60	38·10	266	+21·32	28·22

In the Figure on page (11) the actual urban population of the district since 1901 is shown by the shaded portion between the two lines. The net growth in urban population of the district over that of 1901 is 319·06 per cent as against 246·96 per cent for the State.

Excluding Greater Bombay district which is entirely urban, Poona District is more urbanised than the State or any other district in the State. The proportion of urban population decreased both for the district and the State in 1911. Since then it gradually increased to an all time high value in 1951. Increase during the last decade is comparatively of very low order. The number of towns had also increased continuously since 1901 till 1951. The drop in the number of towns in 1961 was due to declassification as well as in the rate of variations in urban population of 18 towns because of revision of definition of towns in 1961. The names of declassified towns treated as villages in 1961 are as follows :—

(1) Ale, (2) Belhe, (3) Narayangaon, (4) Otur, (5) Rajuri, (6) Awasari Kh., (7) Ghodegaon, (8) Manchar, (9) Khed, (10) Talegaon Dhamdhere, (11) Hadapsar, (12) Loni-Kalbhor, (13) Manjari Bk., (14) Malegaon Bk., (15) Supe, (16) Bawada, (17) Lasurne, (18) Nimgaon-Ketki.

There was an addition of four new towns in 1961, *viz.*, Dehu, Pimpre Waghere, Khadakvasla and Lohogaon. The population of declassified towns in 1961 was 117,793 or 14·11 per cent of the urban population in 1951. If population of those towns is excluded from the 1951 urban population the 1961 urban population would be higher by 31·10 per cent over 1951. The population of the new added towns in 1961 is 47,323 or 5·03 per cent of 1961 urban population. The net increase of 12·60 per cent now seen in the table above is thus mainly due to the change of the definition of towns and the consequent declassification of eighteen towns.

Poona City is the second largest city in Maharashtra. The population of Poona town-group comprising Kirkee Cantonment, Poona (M. Corp.), Poona Cantonment, Dapodi and Chinchwad, respectively has increased by 349·33 per cent over 1901 and by 271·42 per cent over 1921.

Rural Population

The rates of variation in rural population and the percentages of rural population to total population of the district and the State since 1901 are as follows :—

Year	Poona District		Maharashtra	
	Rate of variation in rural population	Percentage of rural population to total population	Rate of variation in rural population	Percentage of rural population to total population
1901	..	79·53	..	83·41
1911	+8·64	80·43	+12·68	84·87
1921	−9·85	77·25	−6·77	81·50
1931	+13·57	75·98	+14·77	81·40
1941	+10·67	72·83	+8·54	78·89
1951	+4·05	57·22	+7·72	71·25
1961	+36·79	61·90	+24·51	71·78

The net increase in rural population of the district has been 75·20 per cent over that of 1901 and 78·89 per cent over that of 1921. The same figures for the State are 75·53 per cent and 67·08 per cent, respectively.

The rates of variation in rural population have never followed any trend. The urban population appears to have grown faster at the expense of rural population. As a result, the rural population increased at a lower rate than the total population. The percentage of rural population decreased both for the district and the State since 1911, and only in 1961 it has shown an opposite trend. This was mainly due to the declassification of eighteen towns and addition of their 1961 population to the rural population of the district. The low growth rate of rural population and the consequent steep fall in the percentage of rural population in 1951 may be attributed to the addition of 21 new towns to the urban areas of the district in that year.

Size of Villages

Table A-III in Part II shows for the district and for each taluka the number of villages and their population for each class of villages. The distribution of population by size of villages for the district and the State is as shown in the next column.

Size of Class	Poona District		Maharashtra	
	Percentage of number of villages to total number of villages	Percentage of population to total rural population	Percentage of number of villages to total number of villages	Percentage of population to total rural population
Less than 500 ..	42·06	11·03	47·72	15·02
500—999 ..	27·50	19·40	28·55	25·71
1,000—1,999 ..	18·76	25·68	16·62	28·55
2,000—4,999 ..	9·34	26·59	6·18	22·40
5,000 and over ..	2·34	17·30	0·93	8·32

Villages with less than 1,000 population constitute 69·56 per cent of the total number of villages in the district and have 30·43 per cent of the rural population. The corresponding figures for the State are 76·27 and 40·73 per cent. Villages with more than 1,000 population form 30·44 per cent of the total number of villages and account for 69·57 per cent of the total rural population. More than half the rural population of the district is thus concentrated in villages with population between 1,000 and 4,999. In the district, very big villages with population of 5,000 and over account for more than 17 per cent of the total rural population of the district.

The area, number of inhabited villages, total rural population, average population per village, and the number of villages per 100 square miles of rural area are shown below for the State, district and each taluka separately:—

State/District/Taluka	Area in sq. miles (Rural)	Number of inhabited villages	Rural population	Average population per inhabited village	No. of inhabited villages per 100 sq. miles of Rural Area
(1)	(2)	(3)	(4)	(5)	(6)
MAHARASHTRA	115,736·3	35,851	28,391,157	792	31
POONA DISTRICT	5,773·9	1,498	1,526,974	1,019	26
1 Junnar Taluka	540·9	140	159,697	1,141	26
2 Ambegaon Taluka	391·5	100	118,756	1,188	26
3 Khed Taluka	536·8	158	154,041	975	29
4 Sirur Taluka	586·7	79	126,237	1,598	13
5 Maval Taluka	401·4	172	83,003	483	43
6 Poona City Taluka	7·0	1	622	622	14
7 Haveli Taluka	466·7	116	160,002	1,552	25
8 Dhond Taluka	497·1	64	101,375	1,584	13
9 Mulshi Taluka	353·3	132	80,373	609	37
10 Velhe Mahal	196·2	124	40,084	323	63
11 Purandhar Taluka	391·1	79	114,563	1,450	20
12 Baramati Taluka	531·4	63	152,699	2,424	12
13 Indapur Taluka	535·0	84	128,773	1,533	16
14 Bhor Taluka	338·8	186	86,749	466	55

Poona City taluka has only one village with a population of 622 persons while Bhor taluka has the highest number of villages (186) with total population of 86,749.

Average population per village in 1961 is 1,019 in the district as against 792 in Maharashtra. An average village in the district thus has much more population than an average village in the State. The average population per inhabited village among all the talukas varies from 323 in Velhe mahal to 2,424 in Baramati taluka. The number of villages per 100 sq. miles is 26 in the district against 31 in Maharashtra. Among the talukas of the district (excluding Poona City taluka) Baramati taluka has 12 villages per 100 sq. miles compared to 63 villages per 100 sq. miles in Velhe mahal. These observations are based on villages with their

administrative boundaries and do not take into account the existence of wadis, padas or hamlets within those boundaries. In the south-western zone there are small villages situated very close to each other while in the central and eastern plains they are larger but away from each other.

Age Distribution

Tables C-II and C-IV in Part II show the distribution of the district population by five-year age-groups and by single-year ages, respectively. Broad age-groups are also shown in Tables B-I, B-II and C-III. The proportions of population by broad age-groups in 1961 are shown below separately for males and females compared with the corresponding proportions for 1951:—

Percentages of population by age-groups

Age-groups	1951 District Total		1961 District Total		1961 Maharashtra Total	
	Males	Females	Males	Females	Males	Females
0—4 ..	13·59	14·68	15·14	15·81	14·65	15·39
5—14 ..	25·23	24·96	26·41	26·41	25·55	25·77
0—14 ..	38·82	39·64	41·55	42·22	40·20	41·16
15—34 ..	34·98	34·04	31·93	32·82	32·70	33·13
35—59 ..	22·01	21·05	21·58	19·70	22·09	20·16
15—59 ..	56·99	55·09	53·51	52·52	54·79	53·29
60 and over	4·19	5·27	4·94	5·26	5·01	5·55
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

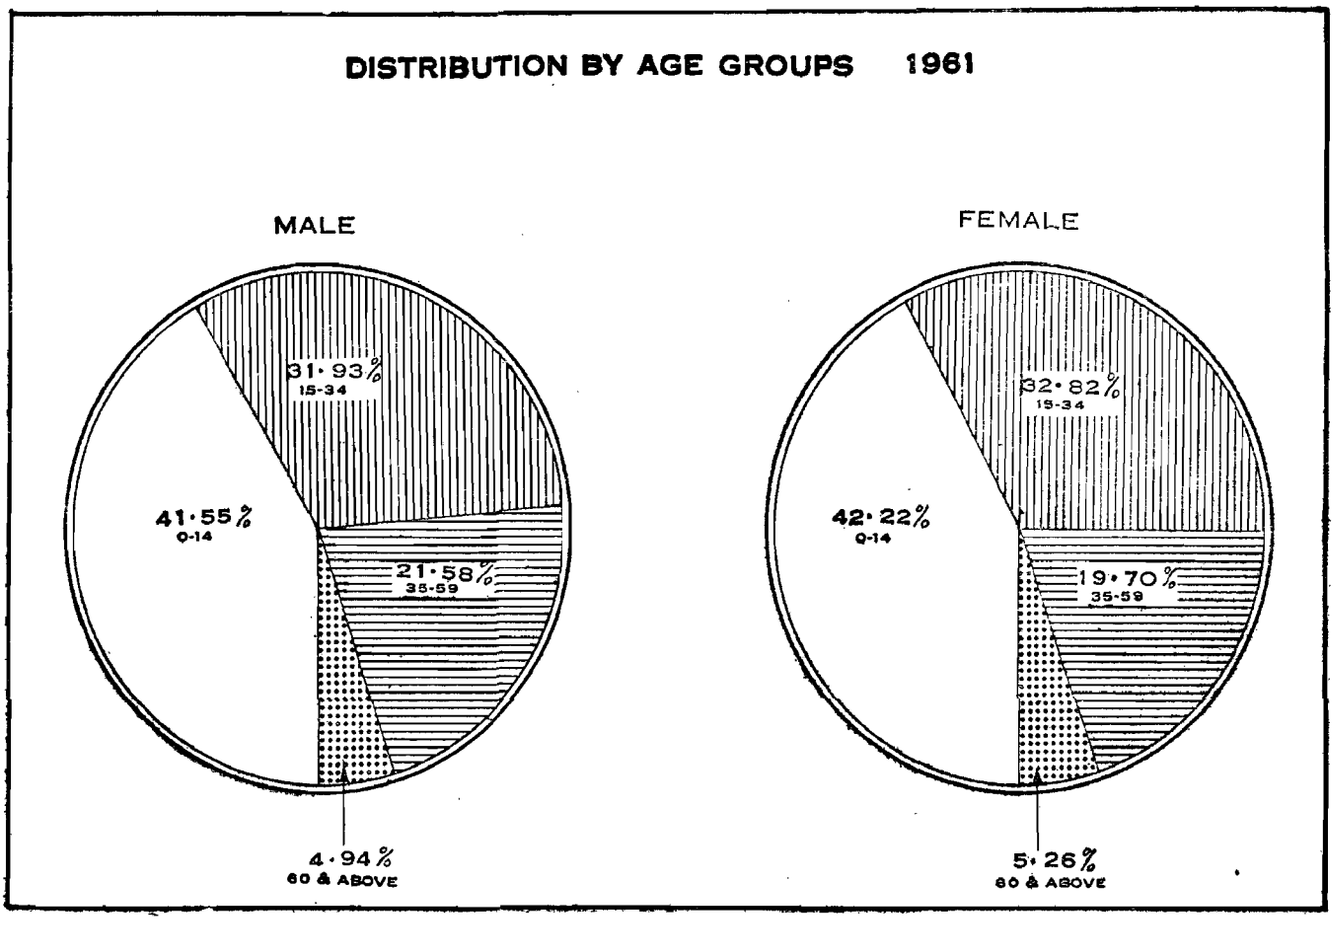

Figure below shows the distribution of the district population by broad age-groups for males and females separately.

During the last decade the proportion of children aged 0—4 increased from 13·59 per cent to 15·14 per cent for males and from 14·68 per cent to 15·81 per cent for females. The same trend of increase in proportions is observed for the age-group 5—14 both for males and females. The proportion of males in the older age-group has increased while that of females has remained almost stagnant in the last decade. All these changes contributed to lower the proportion of persons in the age-group 15—59 both for males and females. Comparison with the age structure of the State reveals that the district population is more youthful.

Dependency Ratio

The ratio between dependants (age-groups 0—14 and 60+) and 100 of supporting (age-group 15—59) population has an economic significance. The dependency ratios and their two components of youth (0—14) and aged (60+) groups are shown below for 1951 and 1961 for the district and the State, separately:—

	Poona District			Maharashtra		
	Youth	Aged	Total	Youth	Aged	Total
1951 Total ..	69·9	8·4	78·3	69·9	9·3	79·2
1961 Total ..	78·97	9·6	88·6	75·2	9·7	84·9
Rural ..	85·5	11·2	96·7	80·6	10·8	91·4
Urban ..	69·5	7·2	76·7	63·1	7·3	70·4

In 1951 the dependency ratio was higher in the State than that for Poona district. In 1961, however, it is higher in the district than that for Maharashtra. The dependency ratios for the State and the district are both higher in 1961 than those for 1951. Both the components of youth and aged have increased. The increase in dependency may be the result both of high fertility and declining mortality. The 1961 population in the district thus has a larger load of dependants than that of 1951. The dependency load is, moreover, larger in rural areas than in urban areas. This may be ascertained from the differences in age structure of rural and urban population resulting from the migration of working age (15—59) people from rural to urban areas within and outside the district.

Sex Ratios

The following have been the sex ratios (number of females per 1,000 male population) for the district, and the State since 1901 for total, rural and urban areas separately :—

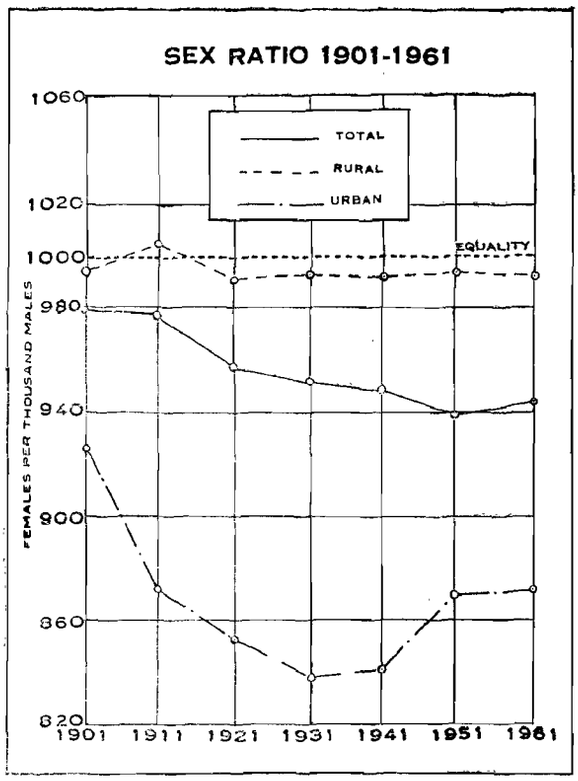

Year	Poona District			Maharashtra		
	Total	Rural	Urban	Total	Rural	Urban
1901	979	994	926	978	1,002	866
1911	977	1,004	872	966	1,000	796
1921	957	990	853	950	994	776
1931	952	992	838	947	987	790
1941	948	992	841	949	990	810
1951	939	994	870	941	1,000	807
1961	944	992	872	936	995	801

Figure in the next column shows the variation in the sex ratios since 1901 for the district total, rural and urban areas separately.

Since 1901 the sex ratio of the district population varied between 939 and 979 while that of Maharashtra varied between 936 and 978. Although the sex ratio of the district was almost always higher than the sex ratio for State, the differences between them are hardly noticeable. While the urban sex ratio of the district was always higher than the urban sex ratio of the State excepting in the year 1931, the rural sex ratio of the district has no definite relationship with the corresponding sex ratio of the State. Rural and urban differences in sex ratios are significant enough to suggest out-migration from rural areas to urban areas of the district.

The following are the sex ratios for different age-groups of population for the district total, rural and urban areas:—

Age-groups	Total	Rural	Urban
0—14	960	963	954
15—34	971	1,060	859
35—59	862	955	730
60 and over ..	1,006	1,005	1,009
All ages	944	992	872

The sex ratio of the population is higher than equality for the older age-group for total, rural and urban areas. For age-groups excluding older age-group the rural sex ratio is higher than the corresponding urban sex ratio. Sex ratio is the least in the age-group 35—59 both for rural and urban areas. The high rural sex ratio in the age-group 15—34 indicates that males are migrating from rural areas to urban areas for work or higher education.

The sex ratios for each taluka in the district for total, rural and urban areas separately are as follows:—

	Total	Rural	Urban
POONA DISTRICT	944	992	872
1 Junnar Taluka ..	1,033	1,035	1,006
2 Ambegaon Taluka	1,032	1,032	..
3 Khed Taluka ..	998	1,000	927
4 Sirur Taluka ..	986	987	973
5 Maval Taluka ..	935	967	861
6 Poona City Taluka	871	782	871
7 Haveli Taluka ..	906	955	787
8 Dhond Taluka ..	931	945	880
9 Mulshi Taluka ..	996	996	..
10 Velhe Mahal ..	973	973	..
11 Purandhar Taluka	1,024	1,025	1,016
12 Baramati Taluka..	970	973	942
13 Indapur Taluka ..	938	946	902
14 Bhor Taluka ..	1,073	1,084	972

Within the district the sex ratio varies from 871 in Poona City taluka to 1,073 in Bhor taluka. The

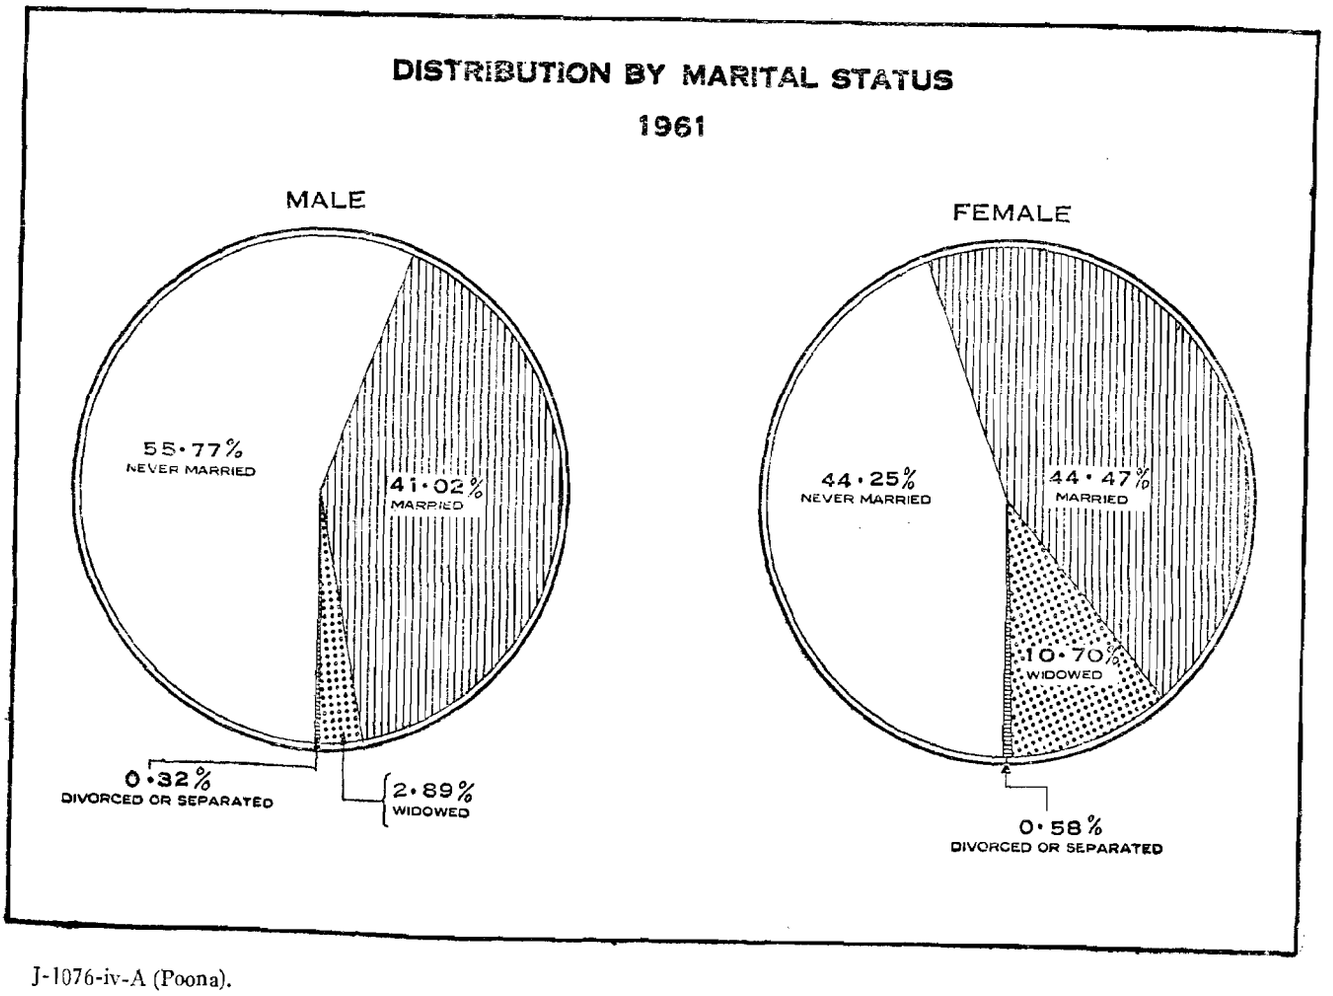

low sex ratio in Poona City taluka is due to the existence of Poona City in that taluka which attracts migrants predominantly males. Junnar, Ambegaon, Purandhar and Bhor talukas have sex ratios higher than equality. Urban sex ratio is the least for Haveli taluka while Poona City taluka having only one village is seen to have the lowest rural sex ratio which is also lower than the urban sex ratio of the taluka. In all other talukas the rural sex ratio is higher than the urban.

Marital Status

Table C-II in Part II shows the distribution of population by marital status by five-year age-groups. The percentages of population for broad age-groups classified by marital status are shown below compared to those of 1951 :—

Year	Age-groups	Total	Marital Status							
			Never married		Married		Widowed		Divorced or separated	
			Males	Females	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
1951	0—14	100	99·03	91·96	0·94	7·89	0·02	0·14	0·01	0·01
	15—34	100	41·38	8·17	57·04	86·52	1·48	5·10	0·10	0·21
	35—54	100	3·11	0·71	87·79	66·69	9·01	32·42	0·09	0·18
	55+	100	1·81	0·74	72·50	18·39	25·60	80·80	0·09	0·07
	All ages	100	53·64	39·43	42·27	46·49	4·03	13·97	0·06	0·11
1961	0—14	100	99·58	96·64	0·42	3·32	..	0·02	..	0·02
	15—34	100	43·02	9·91	55·76	86·15	0·78	2·78	0·44	1·16
	35—54	100	2·60	0·69	91·29	73·60	5·47	24·74	0·64	0·97
	55+	100	1·89	0·62	75·69	25·83	21·67	73·26	0·75	0·29
	All ages	100	55·77	44·25	41·02	44·47	2·89	10·70	0·32	0·58

Figure below shows the distribution of the district population by marital status for males and females separately :—

During the decade 1951—61 the proportion of never married has increased both for males and females, while that of widowed has decreased both for males and females. The proportion of divorced or separated showed an increase which is hardly of any numerical importance. All these changes contributed to lower the proportion of married for both males and females. The rise in the age at marriage for the total population may be seen from the marital status distribution by age-groups. The proportions of never married in age-groups 0—14 and 15—34 have increased both for males and females in the last decade.

Child Woman Ratio

The following are the child woman ratios for 1951 and 1961, i.e., the number of children 0—4 years age-group for every 1,000 women of 15—44 years age-group as well as for every 1,000 married women of 15—44 years age-group. The proportion of widows of 15—44 years age-group to 1,000 married women of 15—44 years age-group is also shown for comparison:—

	Number of children 0—4 years age-group per 1,000 women of 15—44 years age-group	Number of children 0—4 years age-group per 1,000 married women of 15—44 years age-group	Number of widows per 1,000 married women (both in 15—44 years age-group)
1951 District Total ..	644	765	111
1961 District Total ..	738	866	68
Rural ..	798	895	70
Urban ..	644	814	63

The child woman ratio for rural areas is higher than that for urban areas. When standardised for married women of 15—44 years age-group, it is again higher in rural areas. This may indicate either a higher fertility or a higher survival rate in rural areas of the district. Over the decade, the ratio has increased from 644 to 738. It may be due both to a higher birth-rate and possible reduction in infant mortality.

The number of widows per 1,000 married women in the age-group 15—44 decreased from 111 in 1951 to 68 in 1961. The incidence of widowhood is higher in rural areas than in urban areas.

Migration

The 1961 Census showed the proportions of population enumerated at the place of birth and other places as shown in the table below.

56·95 per cent of the population was enumerated at place of birth. This proportion for males is 65·60 but for females it is only 47·78 per cent. The difference is due to women married at places other than their places of birth. This movement of females on marriage appears to be mostly within the district as the proportion of women born outside the district is only 19·40 per cent as against 20·38 per cent for males. Among migrants males outnumber females only for those born outside the State.

The sex ratios in the district population by five-year age-groups for total, rural and urban areas are as follows :—

Age-groups	Sex Ratios		
	Total	Rural	Urban
All ages	944	992	872
0—4	986	992	974
5—9	985	996	964
10—14	894	880	918
15—19	887	952	803
20—24	1,024	1,207	829
25—29	1,041	1,078	989
30—34	928	1,010	825
35—39	851	968	708
40—44	859	980	708
45—49	864	956	721
50—54	896	959	796
55—59	845	875	784
60 and over	1,006	1,005	1,009

The rural-urban differentials of sex ratios are less in younger and older age-groups, though rural sex ratio is almost always higher than urban sex ratio. These differences are more significant in adult age-groups, among which the age-group 20—24 has the highest rural sex ratio. This may be due to the large scale migration of rural males to Poona City for higher education or for jobs in the fast developing industrial areas around that city. Urban sex ratio is more masculine for age-groups 35—39 and 40—44. The sudden drop in the sex ratio of rural and urban population for the age-group 55—59 may be partly due to misreporting of age of women in that age-group in the higher age-group.

Proportions of Population by places of birth

—— (1)	Total population (2)	Place of enumeration (3)	Elsewhere in the district (4)	Outside the district but in Maharashtra (5)	Outside Maharashtra (6)
Persons	2,466,880	1,402,297	570,091	314,749	175,310
Males	1,268,710	830,908	177,551	154,863	103,203
Females	1,198,170	571,389	392,540	159,886	72,107
Percentage to total population—					
Persons	100·00	56·95	23·15	12·78	7·12
Males	100·00	65·60	14·02	12·23	8·15
Females	100·00	47·78	32·82	13·37	6·03

The percentage distribution of male population born at the place of enumeration, born elsewhere within the district and born outside the district by nine categories of economic activity and for non-workers is shown below. An explanation of the nine categories will be found in the Explanatory Note to Part II, paragraphs 42 to 52.

The proportion of non-workers is less among those born at places other than place of enumeration. Cultivators have a higher proportion for those born at the place of enumeration. Agricultural labourers exhibit a tendency to migrate within the district and especially to areas cultivating sugarcane. Migrants are engaged more in non-agricultural sectors. The differences in the percentage distribution of migrants and non-migrants are more significant in categories VII, VIII and IX. The percentage of non-workers is higher among the people migrating from outside the district. It may indicate that a sizable part of such migration is for education in Poona City.

(1)	Categories of Workers I (2)	II (3)	III (4)	IV (5)	V (6)	VI (7)	VII (8)	VIII (9)	IX (10)	
District Total	22·71	3·72	0·93	2·27	5·99	1·90	3·62	2·54	9·18	47·14
Born at place of enumeration	30·94	3·44	0·67	2·13	3·32	0·68	2·11	1·26	3·62	51·83
Elsewhere in the district	14·44	7·60	1·56	3·48	7·84	2·48	4·40	3·91	11·19	43·10
Outside the district	1·99	1·98	1·32	1·91	13·38	5·42	7·96	5·75	25·71	34·58

Size of the Household

Table C-I-A in Part II shows the proportion of sample households classified by size. Percentage proportions of different types of households are as follows :—

	Total	Rural	Urban
Single member ..	8·43	7·35	10·06
2—3 members	22·62	21·01	25·07
4—6 members	40·25	40·12	40·44
7—9 members	20·17	21·42	18·27
10 members and more ..	8·53	10·10	6·16
All sizes	100·00	100·00	100·00

Among the different size groups, households with 4 to 6 members are more common (40·25 per cent) than others. The percentage distribution of rural and urban households by their size shows that single and small size households are more (35·13 per cent) in urban areas than in rural areas (28·36 per cent). The average size of the household in the district is 5·3. It is 5·6 in rural areas and 4·9 in urban areas. The size of household is much smaller in urban areas than in rural areas.

Household Composition

Table C-I-B in Part II shows the distribution of sample households by the type of their composition. The percentage distribution of population of sample households by relationship for the district is shown in the table below.

32·60 per cent of the males are heads of households as against only 4·61 per cent for females. Married sons are 6·75 per cent of the total males. 53·92 per cent males and 51·89 per cent females which incidentally form the largest group are never married, widowed or divorced relations. Proportion of unrelated persons is 2·15 per cent for males and only 0·46 per cent for females. 28·36 per cent females are spouses of heads of households. High proportion of females in other married relations includes the daughters-in-law and married daughters or sisters of the heads. The heads of the households and their spouses have a higher proportion in urban areas. The proportion of married sons is less in urban areas. It may indicate that the joint family is being replaced by the biological family more in urban areas. Unrelated persons have a higher proportion in urban areas. Domestic servants are included in this category and they appear to be staying with the households more in urban areas than in rural areas.

(1)	Total		Rural		Urban	
	Males (2)	Females (3)	Males (4)	Females (5)	Males (6)	Females (7)
(1) Heads of households	32·60	4·61	31·29	4·55	34·76	4·73
(2) Spouses of heads of households	0·15	28·36	0·12	26·84	0·21	31·10
(3) Married sons	6·75	..	8·31	..	4·18	..
(4) Other married relations	4·43	14·68	4·73	17·34	3·92	9·88
(5) Never married, widowed or divorced relations ..	53·92	51·89	53·42	50·87	54·74	53·72
(6) Unrelated persons	2·15	0·46	2·13	0·40	2·19	0·57
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

Population Projections

On the basis of analysis of demographic data obtained in the 1961 Census, Professor K. V. Ramchandran of the Demographic Training and Research Centre, Chembur, Bombay, has, on our request, worked out projections for the total population, population in school-going ages (6—11 years) and the labour force (15—59 years) for the district for years 1966, 1971, 1976 and 1981. His projected estimates are as shown in the next column.

	Total population (in '000)	Population in school-going ages 6—11 (in '000)	Labour force age-group 15—59 (in '000)
Actual 1951	1,951	307*	1,094*
Actual 1961	2,467	417	1,307
Projected 1966 ..	2,854	455	1,484
Projected 1971 ..	3,253	533	1,688
Projected 1976 ..	3,694	588	1,936
Projected 1981 ..	4,190	636	2,222

*Estimated figures taken from 1951 Sample Census Tables.

LANGUAGES

Table C-V in Part II shows the population by nine major languages for the district and each taluka and town separately. The distribution of languages by rural and urban areas of the district is as follows :—

Language	Percentage to total population			Percentage of each language in	
	Total	Rural	Urban	Rural Areas	Urban Areas
(1) Gujarati ..	1·50	0·37	3·33	15·25	84·75
(2) Hindi ..	3·05	0·67	6·93	13·57	86·43
(3) Kannada ..	0·72	0·24	1·49	21·01	78·99
(4) Marathi ..	84·99	95·47	67·97	69·53	30·47
(5) Punjabi ..	0·61	0·02	1·56	1·71	98·29
(6) Sindhi ..	0·71	0·02	1·83	2·26	97·74
(7) Tamil ..	1·07	0·05	2·72	3·03	96·97
(8) Telugu ..	2·06	1·29	3·33	38·55	61·45
(9) Urdu ..	3·98	1·74	7·62	27·05	72·95
(10) Others ..	1·31	0·13	3·22	6·12	93·88
All Languages ..	100·00	100·00	100·00	61·90	38·10

Marathi is the principal language and is the mother tongue of 85 per cent of the population. In rural areas Marathi speakers account for 95·5 per cent of the population, while in the urban areas their percentage is 68. Urdu has the second largest number of speakers and accounts for 4 per cent of the total population in the district. It is spoken more in urban areas where its speakers constitute as much as 7·6 per cent against 1·7 per cent for rural areas. Hindi has the third largest number of speakers. It forms 3·1 per cent of the total population of the district. It is spoken more in urban areas where its proportion is 6·9 per cent against only 0·7 per cent for rural areas. The speakers of all other languages are similarly concentrated in urban areas.

The comparative position of the languages in 1901, 1951 and 1961 is as follows :—

Language	Percentage to total population		
	1901	1951	1961
(1) Gujarati	1·23	1·47	1·50
(2) Hindi	5·29	2·31	3·05
(3) Kannada	0·11	0·97	0·72
(4) Marathi	91·14	86·40	84·99
(5) Punjabi	..	0·67	0·61
(6) Sindhi	..	0·91	0·71
(7) Tamil	0·15	0·99	1·07
(8) Telugu	0·82	1·67	2·06
(9) Urdu	..	3·94	3·98
(10) Others	1·26	0·67	1·31
All Languages	100·00	100·00	100·00

The percentages of Marathi speakers decreased from 91·14 in 1901 to 86·40 in 1951 and further to 84·99 in 1961. The percentage of Hindi speakers also had decreased from 1901 to 1951 but increased in 1961. Urdu was not reported as a Language in 1901, possibly because of its grouping with Hindi in 1901. The proportion of Urdu speakers showed increase in 1961. Punjabi and Sindhi were reported for the first time in 1951. The proportion of Punjabi and Sindhi speakers has remained fairly constant over a decade. The proportions of Gujarati, Tamil and Telugu speakers have increased in 1961 over that in 1901. The proportion of Kannada speakers has also increased in 1951 over 1901. It remained almost constant in the decade 1951—1961. 1901 percentages are pertaining to the Poona district as it existed then.

RELIGIONS

Table C-VII in Part II shows the population by religions for the district and each taluka and town separately. The distribution of religions by rural and urban areas of the district is as follows :—

	Percentage to total population			Percentage of each religion in	
	Total	Rural	Urban	Rural Areas	Urban Areas
(1) Buddhists ..	5·19	5·07	5·40	60·40	39·60
(2) Christians ..	1·83	0·23	4·42	7·84	92·16
(3) Hindus ..	86·77	92·07	78·16	65·68	34·32
(4) Jains ..	1·26	0·59	2·36	28·90	71·10
(5) Muslims ..	4·44	2·02	8·36	28·18	71·82
(6) Others ..	0·51	0·02	1·30	2·02	97·98
All Religions ..	100·00	100·00	100·00	61·90	38·10

86·8 per cent of the population of the district reported their religion as Hindu. Hindus form 92·1 per cent of population in rural areas and 78·2 per cent in urban areas. Buddhists account for 5·1 per cent in rural areas and 5·4 per cent in urban areas. Muslims are only 2 per cent in rural areas but account for as much as 8·4 per cent of the population in urban areas. Christians and followers of other religions similarly have higher proportion in urban areas. The Hindus and Buddhists are more numerous in rural than urban areas. The Christians are the most urbanised group and the Hindus the least urbanised.

The comparative position of the religions in 1901 and 1961 is as follows :—

	Percentage to total population	
	1901	1961
(1) Buddhists	..	5.19
(2) Christians	1.29	1.83
(3) Hindus	93.23	86.77
(4) Jains	0.96	1.26
(5) Muslims	4.19	4.44
(6) Others	0.33	0.51
All Religions	100.00	100.00

The proportion of Muslims has increased from 4·2 per cent to 4·4 per cent over the last sixty years. Christians and Jains have a higher proportion in 1961 than in 1901. The percentage of Hindus has gone down from 93·2 in 1901 to 86·8 in 1961 because some persons belonging to Scheduled Castes group among Hindus returned their religion as Buddhist or Nav-Bauddha. Even the combined proportion for Hindus and Buddhists has declined by 1·3 per cent over the last sixty years. The 1901 percentages however applied to the boundaries of the district as it existed then.

Buddhists have the highest sex ratio of 1,019 followed by Christians 973, Hindus 943, Jains 878, Muslims 932. The sex ratio for all religions works out to 944.

High sex ratio for Buddhists indicates that more of their males are going out of the district for work. Lowest sex ratio is seen for Jains.

SCHEDULED CASTES

Table SCT-I-Part A in Part II shows the population and its distribution by workers and non-workers for each Scheduled Caste by sex for the district and each taluka separately. Out of 24 Castes notified as Scheduled Castes in the district only 14 (including Mang Garudi) are reported in the district in 1961.

The distribution of these 14 Scheduled Castes by rural and urban areas is as shown in the table below.

The remaining 9 Scheduled Castes for which no one was returned in the district in 1961 are as follows :

(1) Chenna Dasar, (2) Halleer, (3) Halsar, (4) Holaya, (5) Meghval, (6) Mukri, (7) Nadia, (8) Tirgar, (9) Turi.

Mang (including Mang Garudi) with 53,115 persons is the predominant Scheduled Caste in the district. Chambhar and Mahar are the second and the third largest groups while Bhangi and Holar are fourth and fifth, respectively. Dhor and Mahyavanshi castes have 1,658 and 256 persons, respectively. The remaining seven Scheduled Castes have together hardly 110 persons which form less than 0·01 per cent of the total population of the district. Ager, Baked, Garoda, Lingader and Shenva castes have very meagre population in the district.

The comparative position of the Scheduled Castes population in 1951 and 1961 within the district is as follows :—

	Percentage to total population in		
	Total Area	Rural Areas	Urban Areas
All Scheduled Castes—			
1951	10.35	9.97	10.85
1961	4.91	4.14	6.17

The reduction of proportion from 10·35 to 4·91 per cent is the result of the conversions of a large number of persons from the erstwhile Hindu Scheduled Castes to Buddhism. Such conversion to Buddhism has, however, been chiefly among the Mahars who were formerly also numerous in the Scheduled Castes of the district. The combined proportion of the Scheduled Castes and Buddhists in 1961 is 10·10 per cent which is closer to that of 1951. The slight reduction in the combined proportion of 1961 over that of 1951 may be attributed to the out-migration of the Scheduled Castes to Bombay and other places for employment.

Name of Scheduled Caste	Population		Percentage to total population of the district	Percentage of each Scheduled Caste population in	
	Males	Females		Rural Areas	Urban Areas
(1)	(2)	(3)	(4)	(5)	(6)
*All Scheduled Castes	62,147	59,090	4.91	52.13	47.87
(1) Ager	2	..	N	100.00	..
(2) Baked	7	..	N	..	100.00
(3) Bhangi	3,570	2,963	0.26	5.97	94.03
(4) Chalvadi	31	35	N	25.76	74.24
(5) Chambhar	15,809	15,445	1.27	66.42	33.58
(6) Dhor	867	791	0.07	27.80	72.20
(7) Garoda	..	4	N	75.00	25.00
(8) Holar	1,429	1,392	0.11	62.89	37.11

(10) Mahar	13,306	12,152	1.03	45.97	54.03
(11) Mahyavanshi	165	91	0.01	98.44	1.56
(12) Mang (including Mang Garudi)	26,920	26,195	2.15	52.36	47.64
(13) Pasi	21	2	N	..	100.00
(14) Shenva	1	1	N	50.00	50.00

*Inclusive of persons from Scheduled Castes who have not reported their individual castes. N=Negligible.

Literacy

Tables SCT-III-Parts A (i) and B (i) in Part II show the literacy and educational levels for each Scheduled Caste. The percentages of literacy for the district population, total Scheduled Castes and each Scheduled Caste are as shown below.

The proportion of literates among Scheduled Castes both males and females is less than that of the general population in the district. The Scheduled Caste as a group however, appears to be trying to cover the gap of literacy between them and the general population. They seem to be taking the advantage of the educational facilities and concessions offered to them. Their females also appear to have made much progress. Among the predominant Scheduled Castes Chambhar, Bhangi and Dhor castes are more advanced in education.

Name of Scheduled Caste	Percentage of Literacy					
	Rural			Urban		
	Total	Males	Females	Total	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)

Economic Activity

The industrial classification of persons at work and non-workers for the total population of the district, all Scheduled Castes and for individual Scheduled Caste is as follows :—

	Percentage of workers in categories			Non-workers
	Cultivation	Agricultural labour	All other activities	
District Total	22.60	3.96	16.13	57.31
All Scheduled Castes	6.38	7.58	26.44	59.60
(1) Ager	..	..	100.00	..
(2) Baked	..	..	100.00	..
(3) Bhangi	0.06	0.05	35.39	64.50
(4) Chalvadi	..	..	48.48	51.52
(5) Chambhar	12.45	5.93	20.26	61.36
(6) Dhor	1.57	0.60	28.65	69.18
(7) Garoda	..	..	..	100.00
(8) Holar	3.44	27.68	16.66	52.22
(9) Lingader	..	..	33.33	66.67
(10) Mahar	7.69	8.45	23.62	60.24
(11) Mahyavanshi	..	..	84.77	15.23
(12) Mang (including Mang Garudi).	3.30	8.27	30.44	57.99
(13) Pasi	..	..	82.61	17.39
(14) Shenva	..	..	50.00	50.00

The proportion of workers among the Scheduled Castes population is less than the corresponding average of the district. Only 34·6 per cent of the workers among the Scheduled Castes are engaged in agricultural activities as against 62·2 per cent for the district average. The proportion of Scheduled Caste workers in cultivation is much lower and those of agricultural labourer and all other activities are higher than the district averages. This may be due to the association of the Scheduled Castes with certain services as well as to a fewer persons owning lands amongst them.

Size of Land Cultivated

Tables C-I-Part A and SCT-V-Part A in Part II show a broad classification of cultivating sample households by size of land cultivated for the district rural population and all Scheduled Castes in rural areas. The proportions are as follows :—

Size of land cultivated	District Rural Population		All Scheduled Castes	
	No. of sample households	Percentage	No. of sample households	Percentage
All sizes	38,871	100.00	893	100.00
Less than 5 acres	14,060	36.17	446	49.94
5 to 9.9 acres	9,831	25.29	208	23.29
10 to 29.9 acres	11,867	30.53	204	22.85
30 acres and over	3,113	8.01	35	3.92

Out of a sample of 38,871 cultivating households, 893 or about 2·3 per cent households are from the Scheduled Castes in rural areas against their population which is 4·14 per cent of the total rural population of the district. 49·94 per cent of the cultivating

households of the Scheduled Castes are cultivating less than 5 acres of land against the corresponding average of 36·17 per cent for the district. The percentage of households cultivating land over 5 acres among the Scheduled Castes is 50·06 per cent against the corresponding average of 63·83 per cent for the district. The proportion of cultivating households is thus smaller in the case of the Scheduled Castes and their participation in agriculture is comparatively more as agricultural labourers.

SCHEDULED TRIBES

Table SCT-I-Part B in Part II shows the population of Scheduled Tribes as a group and of each Scheduled Tribe separately. 15 Scheduled Tribes out of 21 notified tribes of the district are reported in the 1961 Census. Their total population is, however, 89,913 or only 3·44 per cent of the total population of the district.

The distribution of the Scheduled Tribe population by rural and urban areas is as shown in the table below.

The remaining 6 Scheduled Tribes for which no one was returned in the district in 1961 are as follows :—

(1) Barda, (2) Chodhara, (3) Dhanka, (4) Dhodia, (5) Dubla, (6) Pomla.

Koli Mahadev with 56,930 persons is the predominant Scheduled Tribe in the district. 18,514 persons belong to Thakur Tribe while Kathodi has a population of 10,698. The other twelve tribes together have a population of 3,718 persons or a little less than 0·2 per cent of the total population.

Koli Mahadev are predominantly found in the talukas of Junnar, Khed, Maval; and very few in Mulshi taluka and Velhe mahal; Thakur mostly in Junnar, Khed and Maval talukas. Kathodis are, however, more concentrated in Maval, Mulshi, Bhor talukas and Velhe mahal.

The Scheduled Tribe population in the district has increased from 57,623 in 1951 to 89,913 in 1961. The percentage increase during the decade is 56·04 per cent as against the increase of 26·44 per cent in the total population of the district.

Name of Scheduled Tribe	Population		Percentage to total population of the district	Percentage of each Scheduled Tribe population in	
	Males	Females		Rural Areas	Urban Areas
(1)	(2)	(3)	(4)	(5)	(6)

(15) Vitolia	2	..	N	100·00	..

*Inclusive of persons from Scheduled Tribes who have not reported their individual tribes. N= Negligible.

Literacy and Education

The Scheduled Tribes as a group appear to be much backward in literacy and education compared to the Scheduled Castes and the general population in the district. Taking into consideration the predominant groups among these tribes Kathodi appears to be much depressed. Whereas Koli Mahadev appear to be taking advantage of the educational facilities available in the district. However, their proportion of literates is more in urban than in rural areas both for males and females.

Economic Activity

The proportion of workers among the Scheduled Tribes is more than that of the general population. 87·31 per cent of the workers among Scheduled Tribes are engaged in agricultural sector. Their participation both as cultivators and agricultural labourers is more while that in other activities is low, compared to the general population. The greater dependence on Agricultural activities is due to their backwardness and association of a few of them with activities in secondary and tertiary sectors. Koli Mahadev, the predominant group, has a majority of workers under cultivation only.

WELFARE OF BACKWARD CLASSES

The subject of welfare of Scheduled Castes, Scheduled Tribes and other Backward Classes in the district is now in the purview of the Zilla Parishad. In the membership of Standing Committee which is the most powerful committee of the Zilla Parishad, at least two members from Scheduled Castes, Scheduled Tribes and other socially and educationally Backward Classes are required to be elected by the Parishad. This Standing Committee acts as the subject committee for that subject and the District Social Welfare Officer works under it. The Zilla Parishad is also legally required to spend adequate amounts for the amelioration of the condition of the Scheduled Castes, Scheduled Tribes and of any socially and educationally Backward Classes and in particular for the removal of untouchability.

Various schemes for the welfare of Scheduled Castes, Scheduled Tribes and other educationally or socially backward classes are in operation in the district.

(1) *Educational.*—These include schemes of granting tuition fees at all stages of education irrespective of age and income, examination fees of recognised examinations and scholarships to the students from the Scheduled Castes, Scheduled Tribes, Nomadic and semi-Nomadic Tribes, Vimukta Jatis and the Backward Classes. The concession is awarded in the primary schools, high schools or technical schools. Rs. 3,05,928 were spent on these schemes during the year 1962-63. There are 53 Scheduled Caste, backward and cosmopolitan hostels in the district, and Rs. 2,97,302 were spent for maintenance of these hostels in the year 1962-63. Out of this Rs. 30,340 were spent as building grant to 2 backward class hostels.

(2) *Schemes for Economic Uplift.*—These include schemes of granting loan-*cum*-subsidy for cottage industries and professions and of assistance for purchase of milch cattle to the Scheduled Castes and other Backward Classes. Under the scheme of loan-*cum*-subsidy for cottage industries and professions Rs. 19,350 were given to deserving persons from Scheduled Castes and Backward Classes from underdeveloped rural areas during the year 1962-63 and Rs. 4,300 were spent under the scheme of assistance for purchase of milch cattle.

(3) *Housing.*—A number of housing societies of Backward Classes have been formed in the district. These societies construct houses for their members. Financial assistance in the form of loans and subsidies is given to these societies. Assistance in cash or kind for repairs to houses of Scheduled Castes and other Backward Classes is also provided. Rs. 70,215 were incurred over these schemes during 1962-63, out of which Rs. 800 were spent for purchasing building sites for Backward Classes.

(4) *Drinking Water Wells*—An amount of Rs. 26,083 was spent under this scheme. Rs. 4,500 were spent for repairs of wells in or near Scheduled Castes localities while Rs. 5,333 were incurred for construction of drinking water wells for Scheduled Castes.

(5) *Medical Aid to Scheduled Castes.*—Monetary aid is given to deserving persons belonging to the Scheduled Castes and Rs. 1,000 were spent during the year 1962-63.

(6) *Agricultural.*—Financial assistance to poor deserving agriculturists from Scheduled Tribes, Vimukta Jatis, underdeveloped rural areas and other Backward Classes to purchase ploughs, bullocks, implements, seeds, carts, etc., is given. Rs. 24,799 were spent under this scheme during the year 1962-63.

(7) *Schemes for Removal of Untouchability.*—These include various schemes of publicity against untouchability. Sanskar Kendras and Balwadis are organised, film shows are exhibited and gatherings are addressed at fairs and other places. Kirtan programmes and melas, inter-caste dinners, celebration weeks and days are also arranged. Building sites are given to Scheduled Castes in caste Hindu localities and subsidy is paid to caste Hindu landlords for letting their premises on hire to Scheduled Castes. Prizes are also awarded to villages which show outstanding work for removal of untouchability. Rs. 43,327 were spent under these schemes during the year 1962-63.

The schemes which were already in operation before the Third Five-Year Plan are treated as committed schemes and those added under the Third Plan are separately treated as Plan Schemes. The expenditure described above against each scheme is out of the committed schemes and includes expenditure on the Plan Schemes. There are in addition some more schemes sponsored by the Central Government.

Economic Criterion of Backwardness

Castewise basis of classification of 'Other Backward Classes' has now been replaced by a new classification based on income. The income limit was raised from Rs. 900 per annum to Rs. 1,200 per annum with effect from 1st June 1960. All persons whose annual income from all sources does not exceed this limit are irrespective of their religion, caste or community treated as belonging to the 'Other Backward Classes'.

Concessions to Nav-Bauddhas

From 1st May 1960, the Scheduled Castes converts to Buddhism are treated as eligible for all concessions and facilities available to Scheduled Castes except the statutory concessions under the Constitution and certain special schemes for removal of untouchability, etc., which cannot by their very nature apply to non-Hindus.

EDUCATION

The district has occupied prominent position in the field of education and has established its role as a leading centre of education for quite a number of years.

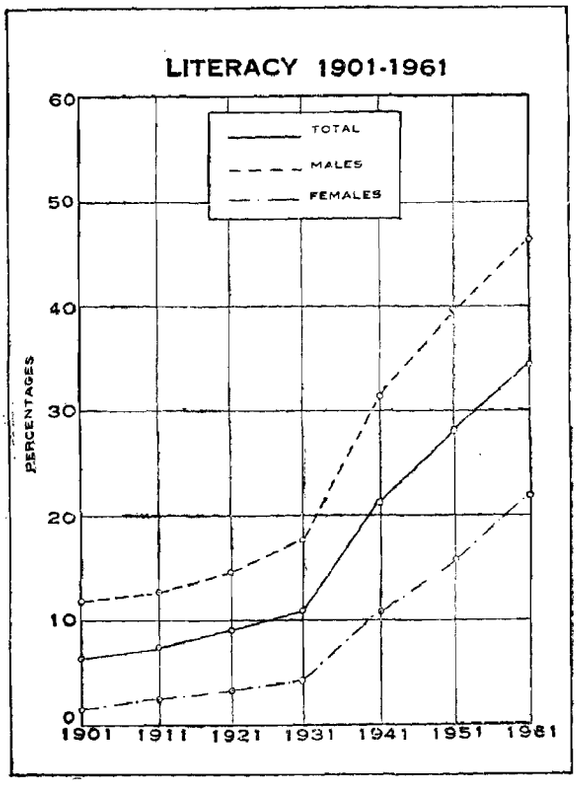

Rapid development in the field of primary and secondary education marks the progress of education in the district during the decade 1951—60. The district ranks second among all the districts of the State excluding Greater Bombay in respect of literacy rate for total population. The district literacy rates are even better than the State averages for total population and for males and females.

Growth of Literacy

Percentage of literacy in the district for total, males and females since 1901 is as follows :—

Year	Total	Males	Females
1901	6·61	11·62	1·50
1911	7·51	12·62	2·26
1921	8·26	13·34	2·97
1931	10·20	16·38	3·72
1941	21·30	31·30	10·72
1951	27·68	39·27	15·36
1961	34·31	46·18	21·74

Figure in the next column shows the growth of literacy in the district for total population, males and females separately. The literacy rate has increased more than five times during the last sixty years. The rise from 10·20 per cent in 1931 to 21·30 per cent in 1941 is noteworthy. The high literacy rates for males and females in the district may be due to the sustained educational activity by social workers over a number of years as well as the expansion of educational facilities in the post-independence era.

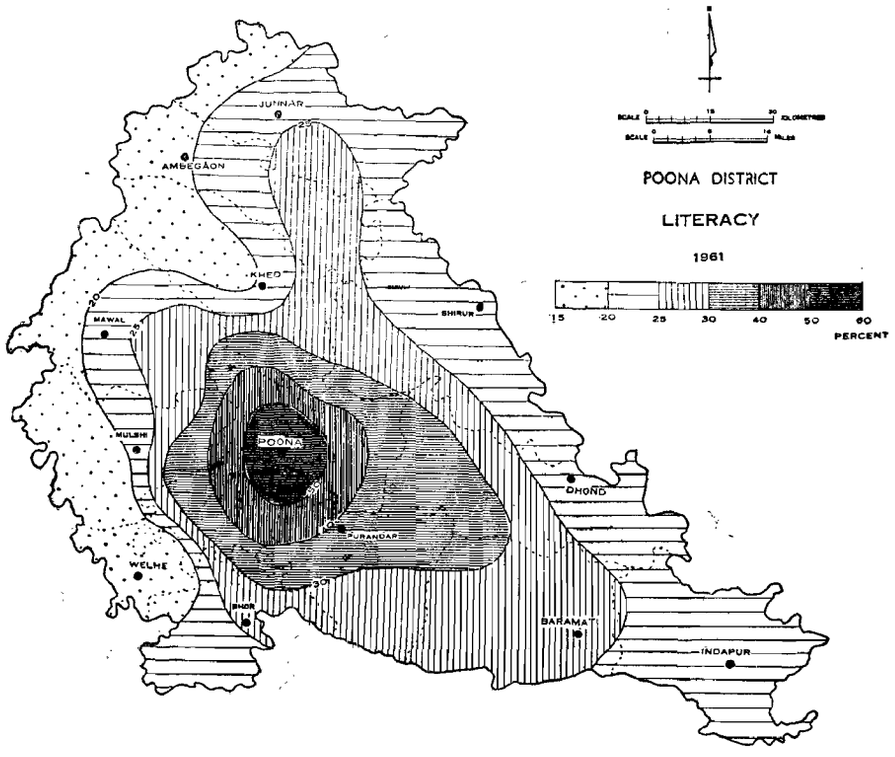

The Primary Census Abstract in Part II shows the number of literate males and females for total, rural and urban areas of each taluka separately. The Village Directory in Part I furnishes such numbers for each village and for each ward of every town separately. Proportion of literates in the district population, for males and females, are shown for total, rural and urban areas of each taluka separately :—

State/District/Taluka	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

OFFICE OF THE REGISTRAR GENERAL 22693 LIBRARY

Figure to the right shows the spread of literacy in the district by isopleths.

Within the district the percentage of literacy is highest in Poona City taluka (56·06 per cent) and lowest in Velhe mahal (14·40 per cent). For rural areas, Purandhar taluka has highest rates for total population and for males and females. For urban areas Poona City has the highest literacy rates for total, males and females.

Literacy by Age

The percentage of literates by age-groups for the district total, rural and urban areas are as shown below. Actual figures are shown in Table C-III-A, B and C in Part II which also gives figures for different educational levels separately.

Average literacy rate for males is as high as 46·18 per cent because of the high rates for the age-groups 5—14, 15—34 and 35—59. It is the reflection of sustained educational activity over a number of years as well as effective campaign for adult education. The high rate of literacy for females in the age-group 5—14 indicates the progress of the scheme of compulsory education in recent years.

Age-group	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
All Ages	34·31	46·18	21·74	22·31	34·56	9·96	53·81	63·92	42·21
0—4	..	..	..	..	..	..	..	..	..
5—14	40·79	49·38	31·69	30·99	42·16	19·18	57·60	61·75	53·19
15—34	48·97	67·13	30·27	32·18	52·40	13·10	72·04	85·38	56·51
35—59	32·13	46·69	15·25	17·71	31·12	3·67	55·29	68·81	36·77
60+	20·87	33·41	8·40	10·19	19·07	1·35	45·04	65·94	24·32

Primary Education

Table 15 in Part III shows the number of Primary schools and pupils in them for the district and each taluka in 1951, 1956 and 1961.

The number of Primary schools and their classification into Basic and Non-Basic as on 31st March 1962 is as follows :—

	Total	Basic			Non-Basic		
		Senior basic	Junior basic	Single teacher	Single teacher	I—IV Multi-teacher	Middle I—VII
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Total number of schools	1,964	269	14	2	891	298	490
Central Government	4	..	..	..	4	..	..
State Government	6	5	..	..	..	..	1
Zilla Parishad	1,442	247	12	2	666	156	359
Municipal	105	10	..	..	4	33	58
Cantonment Board	9	..	..	..	..	1	8
Private	398	7	2	..	217	108	64

J-1076—V-B (Poona).

There has been a rapid growth in the number of primary schools in the district during the last ten years. The number of primary schools was 1,414 in 1951. It increased to 1,714 in 1956 and to 1,939 in 1961. On 31st March 1962, their number is 1,964. 73 per cent of the primary schools are managed by the Zilla Parishad and 20 per cent, i.e., 398 primary schools are managed by private institutions. The State Government's share in the expenditure for primary education is 68·4 per cent in the form of grants-in-aid to Zilla Parishads and building loans and grants to primary teachers' training colleges. In addition wards of parents whose annual income does not exceed Rs. 1,200 get free education. The cost borne by the schools on this account is reimbursed from the State Government. Students from Scheduled Castes and Scheduled Tribes similarly get free education and Scholarships are also given to them at the rate of Rs. 3 per year in I and II standards and Rs. 6 per year in III and IV standards. Government also gives aid to backward class and mixed hostels for meeting their cost on students belonging to Scheduled Castes and Scheduled Tribes.

The policy of converting primary schools into basic schools is also making steady progress. The number of basic schools in the district was 168 in 1951. It increased to 231 in 1956 and to 319 in 1961.

By 31st March 1962, 22 towns and 1,257 villages in the district had primary schools and 207 villages had schooling facilities, i.e., primary schools are situated within a mile from the village. Only 34 villages did not have schooling facilities. Total number of teachers in primary schools was 8,107 of which 5,549 or 68·4 per cent were trained.

Other indices of the progress of primary education in the district compared with those of the State averages are as follows :—

(As on 31st March 1962)

	Poona District	Maharashtra
Average population served by a primary school	1,270	1,135
Average area served by a primary school (square miles)	3·1	3·4
Pupils per teacher	43	38
Pupils per school	176	127
Average annual salary per teacher (Rs.)	1,211	1,250
Average annual expenditure (direct) per school .. .. .. (Rs.)	5,735	4,903
Average number of teachers per school ..	4·1	3·3
Percentage of trained teachers	68·4	64·8

The scheme of compulsory primary education was first introduced in the district in the year 1947 when 298 villages with a population of over 1,000 according to 1941 Census were brought under its purview. The scheme was further extended in 1954 to additional 84 villages having a population of over 1,000 according to 1951 Census and later extended to 357 villages with a population of 500 to 999 and to 682 villages with a population of less than 500. The age-group covered so far is 6 to 11 years. One of the schemes of the Third Plan is to extend the scheme of compulsory primary education to all children in the age-group 6—11.

A provision of Rs. 51·05 lakhs has been made for primary education in the Third Plan for the district. 590 additional teachers would be appointed in primary schools. 207 new class-rooms are proposed to be built during the period. The number of students is expected to rise by 29,500.

Secondary Education

The number of institutions imparting secondary education and number of pupils both boys and girls for the years 1951, 1956 and 1961 are shown in Table 15 in Part III. A list of high schools with number of students for each of them may be seen in Table 16.

By 31st March 1962, the number of institutions in the district and their classification according to management are as follows :—

	Total	Vocational High Schools	Higher Secondary Schools	
			Multi-purpose	Ordinary
State	..	..	..	..
Municipal ..	5	..	2	3
Private ..	168	1	16	151

Total number of students on roll in the secondary schools during the year 1961-62 was 71,477, comprising 48,088 boys and 23,389 girls. Total number of teachers was 2,623. Out of them 2,108 were trained. Percentage of trained teachers was thus 80·4. Other indices of Secondary education compared to the State averages are as follows :—

	Poona District	Maharashtra
Population served by each high school ..	14,422	13,805
Area served by each school (square miles)	34·8	40·8
Pupil teacher ratio	27	25
Pupils per secondary school	413	338
Average annual salary per teacher (Rs.)	2,103	1,870
Average annual expenditure (direct) per secondary school .. .. (Rs.)	53,850	39,543
Average number of teachers per secondary school	15·2	13·7

Figure on page (28) shows the proportions for literates and different educational levels among males and females for rural and urban areas separately.

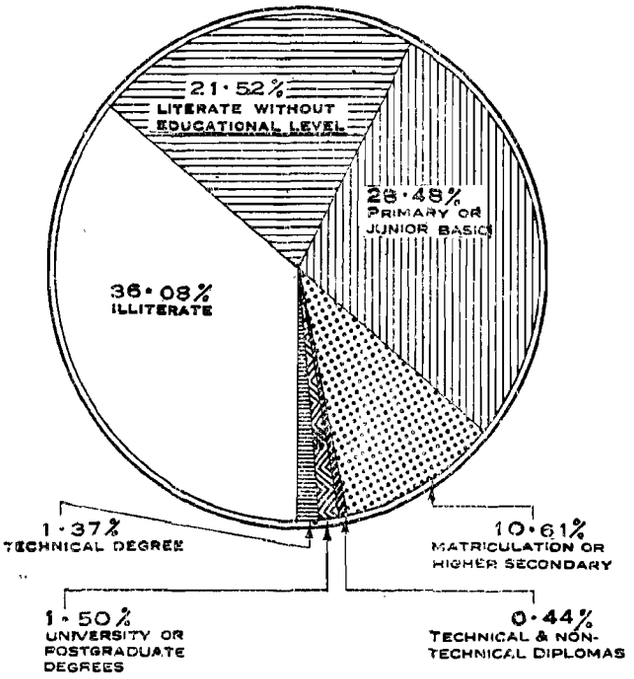

The progress of secondary education in the district is also noteworthy. The number of secondary schools increased from 76 in 1950-51 to 95 in 1955-56 and to 154 in 1960-61. It was 173 on

LITERACY AND EDUCATIONAL LEVELS

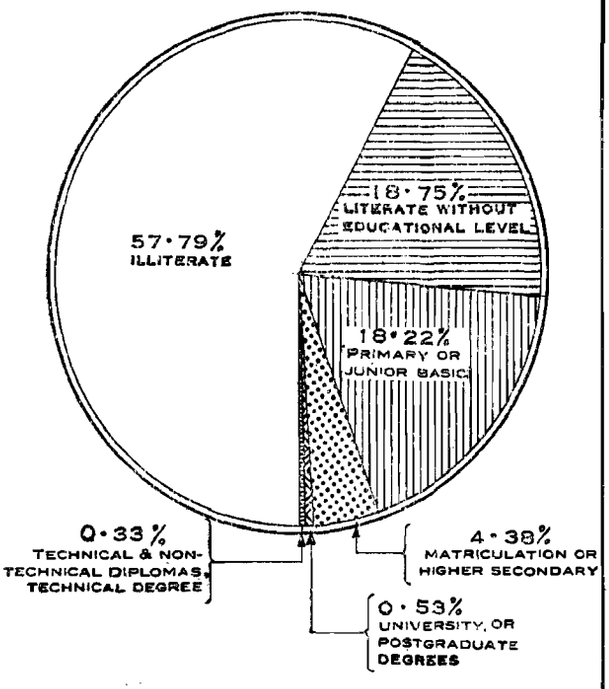

1961

URBAN

MALE

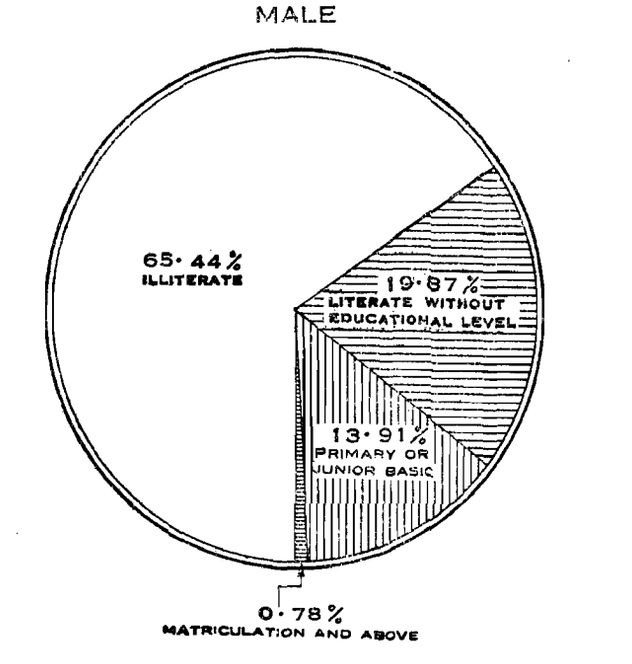

FEMALE

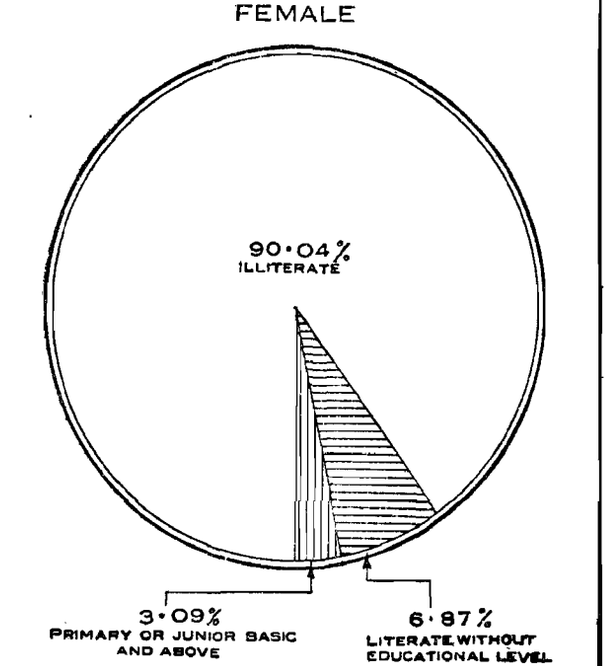

RURAL

MALE

FEMALE

31st March 1962. The secondary schools are dispersed throughout the district. Bhor taluka and Velhe mahal have each one which is the smallest number in the district. Poona City taluka which is mostly an urban area has as many as 76 secondary schools.

Private institutions manage almost all the secondary schools in the district. The Government's share in the total expenditure on secondary education (in 1961-62) is, however, 47·3 per cent. It is incurred through different schemes of grants for maintenance, salaries, buildings, building sites, equipment, freeships, scholarships, loans, etc., and special concessions to Scheduled Castes, Scheduled Tribes and other backward class students.

Looking to the rapid growth in the number of pupils in primary schools, the number of pupils in secondary schools may rise to 87,000 by 1965-66 and to 110,000 by 1970-71.

S. S. C. Examinations

Secondary School Certificate Examination Board, Poona, conducts public examinations at the end of the secondary school course. Two examinations are held every year in March and October. Baramati, Poona Camp and Poona City are the examination centres in the district. The number of candidates who appeared and passed from these centres during the year 1962 are as follows :—

	Appeared	Passed
Examinations held in—		
March 1962	9,042	5,106
October 1962	3,687	1,589

Higher Education

Talukawise list of colleges is given in Table 16 in Part III along with the 1960-61 number of students for each college.

In 1960-61, there were 14 colleges and 7 institutions for special studies in the district. Among the seven institutions four are for research and post-graduate studies, the remaining three institutions are the G. S. Yoga Mahavidyalaya at Lonavla, Sharirik Shikshan Mahavidyalaya at Poona and Co-operative Training College at Poona.

All the colleges except one at Baramati are situated at Poona. They provide courses in Arts, Science, Commerce, Law, Agriculture, Engineering, Teaching and Medicine. Facilities for post-graduate studies are provided by the Poona University, the Deccan College, the Gokhale Institute of Politics and Economics and the Bhandarkar Oriental Research Institute. All the four institutes are at Poona. The number of college students was 13,147 in 1960-61. Only four colleges, *viz.*, the College of Engineering, the College of Agriculture, the B. J. Medical College and the Armed Forces Medical College are managed by the Government. The rest of the colleges are managed by private institutions and receive grants for maintenance, dearness allowance and buildings from Government.

Technical Education

There is a Government Technical High School at Poona which provides for the instruction in the three technical subjects, *viz.*, Workshop Technology, Geometrical Machine Drawing and Elements of Electrical and Mechanical Engineering prescribed for the S. S. C. Examination. Similarly, Moledina Anglo-Urdu High School, E. C. M. Gujarati High School and the J. N. Petit School at Poona also provide education in technical subjects. The Victoria Jubilee Municipal Technical High School at Poona is a technical school in all respects.

The Industrial Training Institute at Aundh and Industrial Training Centre at Poona are both Government institutions which provide training in various trades and professions such as draftsman, electrician, electro-plating, fitter, grinder, machinist, motor-radio-watch repairing, turner, welder, wireless operator, etc. About one-third of the students undergoing training at these institutions are given stipend of Rs. 25 per month.

There are also 30 Government recognised institutions in Poona City which impart education in technical courses according to the syllabus approved by Government.

During the First Five-Year Plan, the College of Engineering at Poona was expanded so as to provide additional admissions for the degree and diploma courses. The number of admissions is at present 150 for each of the degree and diploma courses. In all, 1,200 students are admitted to this college. Teaching in B. E. degree courses in metallurgy and tele-communication have also been started during this period.

Libraries

On 31st March 1964 there were 24 libraries in this district recognised by the State Government. Of these, the regional library at Poona receives annually Government grant-in-aid subject to the maximum of Rs. 30,000. Eleven taluka libraries and 12 town libraries are given a Government grant-in-aid subject to a maximum of Rs. 1,000.

Printing Presses, Journals and Newspapers

There are 203 printing presses in the district. The total number of journals and newspapers published is 190. Out of these 11 are dailies, 18 weeklies, 100 monthlies and 61 journals.

Radio Licences

The number of radio licences in the district increased from 20,189 in 1955-56 to 24,395 in 1959-60 and to 30,002 in 1960-61.

Cinema Theatres

There are 32 permanent cinema theatres, five quasi-permanent theatres and eight touring talkies in the district as on 21st December 1963.

HEALTH AND MEDICAL AMENITIES

The Health Department's work in the district is now in the purview of the Zilla Parishad. A Subject Committee looks after its working and the District Health Officer works as Secretary to that Committee as well as the Officer-in-charge of Health Activities in the district.

Drinking Water Supply

Column (5) of the Village Directory in Part I shows the sources of supply and adequacy of drinking water for each village in the district.

Nineteen towns and six villages have protected water supply. Out of the remaining towns and villages, 325 villages draw drinking water from rivers, 16 villages from tanks, 26 villages from nallahs, four villages from canals, 591 villages and two towns from wells and 530 villages and one town draw water from more than one of these sources. The water supply is not adequate in 325 villages and seven towns.

Malaria Eradication

An intensive campaign against malaria was launched in the district during the period of the First Five-Year Plan under the National Malaria Eradication Programme. For this purpose a special staff of anti-malaria officers and squads was appointed. Under this scheme, each house was sprayed twice a year with DDT. During the period of the First Plan, DDT spraying was undertaken in 11 talukas of this district and 1,045 villages with a population of more than eight lakhs were covered. During the period of the Second Plan anti-malaria operations were continued and each house in this district was sprayed once every year. In Junnar, Ambegaon, Khed, Mulshi and Bhor talukas and in Velhe mahal where the incidence of malaria was found to be comparatively higher, spraying of DDT was done twice a year.

Anti-T. B. Campaign

The B.C.G. vaccination scheme was introduced in 1954 and two teams were stationed in the district. During the period of the First Five-Year Plan over 234,000 prophylactic vaccinations and about 768,000 vaccinations were performed to determine the incidence of the disease.

There are also facilities for treatment of T. B. patients in the district. Camp Hospital at Aundh was converted into a T. B. Hospital during the First Plan period.

Leprosy Control

There is the Kondhwa Leprosy Hospital at Kondhwe which has an accommodation for about 300 patients. The hospital has started a plastic-surgery section in 1958 for the treatment of leprosy patients. About 200 operations were performed by this section till 1960. The State Government gives annual grant of Rs. one lakh to this hospital. The hospital has also provided facilities for giving training in various trades to the patients undergoing treatment.

Family Planning Centres

There are five Government managed family planning centres functioning in the district at Khadakvasla and Dehu in Haveli taluka, Dikasal and Indapur in Indapur taluka and Dhond in Dhond taluka.

There are also family planning centres at Manchar Health Unit, Talegaon Dabhade General Hospital and the Pimpri Penicillin Factory.

Medical Facilities

Medical facilities available in the district are shown in Table 17 of Part III. The figures in the Table relate to the facilities provided by Government and other aided institutions. The numbers of private practitioners, hospitals and dispensaries are not shown there.

The number of doctors and nurses and number of beds available for males and the number of indoor and outdoor patients have all increased between 1951—60. The number of doctors increased from 84 (excluding those under the control of the Civil Surgeon, Poona) in 1950 to 245 in 1955 and to 352 in 1960. Similarly, the number of nurses has also increased from 58 in 1950 to 219 in 1955 (excluding those under the control of the Civil Surgeon, Poona, for both the years) and to 700 in 1960. The number of beds available for males also increased from 3,433 in 1950 to 5,722 in 1960. The number of indoor patients (females) increased from 66,683 in 1950 to 111,510 in 1960. The number of outdoor patients (females) increased from 492,982 in 1950 to 981,865 in 1960.

Hospitals

There are six Government hospitals and seven municipal hospitals in the district. The Sassoon General Hospital at Poona has a provision of 1,069 beds. There are several sections in this hospital such as Pathology, Radiology, X-Ray, Blood-transfusion, Cardiology, Family-Planning, etc. The hospital is attached to the B. J. Medical College at Poona. It also provides facilities for training nurses.

Other Government hospitals in the district are the Pimpri Colony Hospital at Pimpri with 22 beds, the S. P. R. General Hospital at Poona with 20 beds, the G. R. P. General Hospital at Dhond with 20 beds, the Hospital for Diseases of Chest and Throat at Poona with 400 beds and the Central Mental Hospital at Yeravda near Poona with 2,600 beds.

The seven municipal hospitals have a total bed strength of 296. Besides, there are two private-aided hospitals, *viz.*, the Tarachand Ramchand Hospital at Poona with 175 beds and the N. M. Wadia Hospital also at Poona with 111 beds.

Private hospitals in the district are the St. John Mission Hospital, St. Margaret Hospital, John Mission Hospital and the K. E. M. Hospital. All these hospitals are at Poona.

In addition, there are eight hospitals in the district functioning under the supervision of the Public Health Department.

Dispensaries

In 1963, there were eight dispensaries in the district. Out of which three were managed by Municipalities, one by the Zilla Parishad and four were private-aided.

Primary Health Centres

Prior to the year 1955, the dispensaries in the district were managed by two bodies, *viz.*, the District Local Board and the Municipalities. In May 1955, the functions of these two bodies were combined in the rural areas and Primary Health Centres were started to take the place of dispensaries managed by the Municipalities and District Local Board.

In 1963-64, there were 66 Primary Health Centres in the district with an accommodation of 266 beds.

The total number of persons working as Physicians, Surgeons, Dentists, Nurses, Pharmacists and other Medical and Health technicians in the district is 4,729.

The persons returned in the 1961 Census as Physicians, Surgeons and Dentists and their classification by sex are shown in Table B-V in Part II. The number of medical personnel per one lakh population in the district is 70 as against 54 in Maharashtra.

HOUSING

Tables E-I, E-II, E-IV and E-V in Part II present material on different aspects of housing in rural and urban areas of the district and each taluka separately.

64·2 per cent of the houses in the district are used as dwellings, 17·6 per cent as cattle sheds, etc., 9·0 per cent were vacant at the time of the Census and the remaining are used as shops, workshops or factories, schools, etc.

The density of residential houses per sq. mile in the district has increased along with the density of population per sq. mile from 59·6 in 1951 to 72·1 in 1961. The number of persons per residential house has also increased slightly from 5·44 in 1951 to 5·68 in 1961. This appears to be an indication of tendency towards bigger families as well as decreased mobility of population from rural to urban areas.

Classified by "owned" and "rented" categories, 59·17 per cent of the dwellings in the district are owned and 40·83 per cent are rented. The proportion of owned is higher (84·53 per cent) in rural areas but very much lower (18·53 per cent) in urban areas. This low proportion of 18·53 per cent for the urban areas in the district is lower than the average of 30·28 per cent for all urban areas of Maharashtra.

Out of the various materials used for walls, stone appears to be predominant in the district with a proportion of 45·60 per cent. The Deccan trap rock throughout the district yields good building stone and quarries are worked at a number of places in the district. Its proportions in the talukas of Junnar and Poona City are a little lower and the difference is made up by unburnt bricks in the former and burnt bricks in the latter. Grass, leaves, reeds, bamboo, etc., are used next to stone in the talukas of Mulshi, Baramati, Indapur and Velhe mahal. Burnt, bricks are used next in predominance to stone in the district and have a proportion of 28·1 per cent. Stone is used for walls more in rural areas than in urban areas. Its proportion in the rural areas is 65·0 per cent against 14·9 per cent in urban areas. Burnt bricks are, however, more common in the urban areas with a proportion of 59·4 per cent against 8·4 per cent in the rural. Unburnt bricks are used in 13·2 per cent dwellings in rural areas and

4·3 per cent dwellings in urban areas. Dwellings with walls of wattle reeds, millet or cotton stalks, etc., are generally noticed in villages and hilly tracts of the district. They are chiefly owned by the poorer land-holders and field labourers and persons from Backward Class.

Out of the materials of roof, tiles and corrugated iron, zinc or other metal sheets have almost the same use in the district with proportions of 35·7 per cent and 31·1 per cent, respectively. Tiled roofs are, however, more common in rural areas in the district. Their proportion in the rural areas is 44·0 per cent against 22·5 per cent in urban areas. Corrugated iron and zinc or metal sheets are, however, more common in the urban areas with proportion of 46·2 per cent as against 21·6 per cent in rural areas. Roofs of grass, leaves, reeds, thatch, etc., which have proportions of 30·9 per cent and 14·2 per cent in rural and urban areas, respectively, rank next to tiles and corrugated iron and zinc sheets. In the eastern part of the district where rain is scanty, dwellings with flat roofs of wooden beams or rafters, known as "dhabas" are generally noticed.

Classified by the number of rooms occupied, 67·8 per cent households are occupying one-room dwellings and 21·8 per cent are occupying two-room dwellings. The households occupying larger number of rooms are more in urban areas than in the rural areas. Average number of persons per room is 3·56 for total, 4·03 for rural and 2·96 for urban areas.

AGRICULTURE AND IRRIGATION

Agriculture is the most important economic activity in the district which engages 62·23 per cent of the working population in the district as against 69·91 per cent for Maharashtra and 69·52 per cent for India. Sizable proportion of workers are also engaged in industries related to processing of agricultural produce or trade, transport and services ancillary to agriculture.

The statistics regarding land utilization, crop pattern, irrigation, wholesale and harvest prices, livestock and agricultural implements, etc., are presented for the district in Tables 3 to 10 in Part III.

Cultivating Seasons

As in the case of other areas of the State, this district has also two agricultural seasons, *viz.*, Kharif and Rabi. On the whole the district has more or less equal areas under rabi and kharif crops. The proportion, however, changes from year to year depending upon the rainfall. The ratios of areas under kharif and rabi crops in the year 1957-58 was 48 : 52. There are indeed local variations in this pattern and in the eastern sector of the district the rabi crops are much more prominent. Rice, bajri, tur, groundnut and kulthi are the main crops grown in kharif season and rabi jowar, wheat, gram and safflower are the principal crops of rabi season. Jowar is grown in both seasons. But compared to rabi jowar the district excepting Khed taluka has almost negligible area under kharif jowar.

Sugarcane is a perennial crop and its importance is gradually increasing every year.

Crop calendar showing monthwise operations in respect of principal crops in the district is given on page (33).

Land Utilisation

The pattern of land utilisation in the district and each of its talukas is shown on page (35) compared to that of the State. All the figures are based on average for three years from 1957-58 to 1959-60.

The Figure on page (34) shows the land utilisation pattern for the year 1959-60 for the district and each taluka separately.

The net area sown in the district is 62·43 per cent of the geographical area as against 57·69 per cent for Maharashtra. Compared to the State average the district has considerably lower proportion of areas under cultivable wastes, permanent pastures and miscellaneous tree crops. The district proportion under barren and unculturable categories is almost twice the State average. The proportion of area under forests is only 12·25 per cent of the geographical area as against the State average of 17·54 per cent.

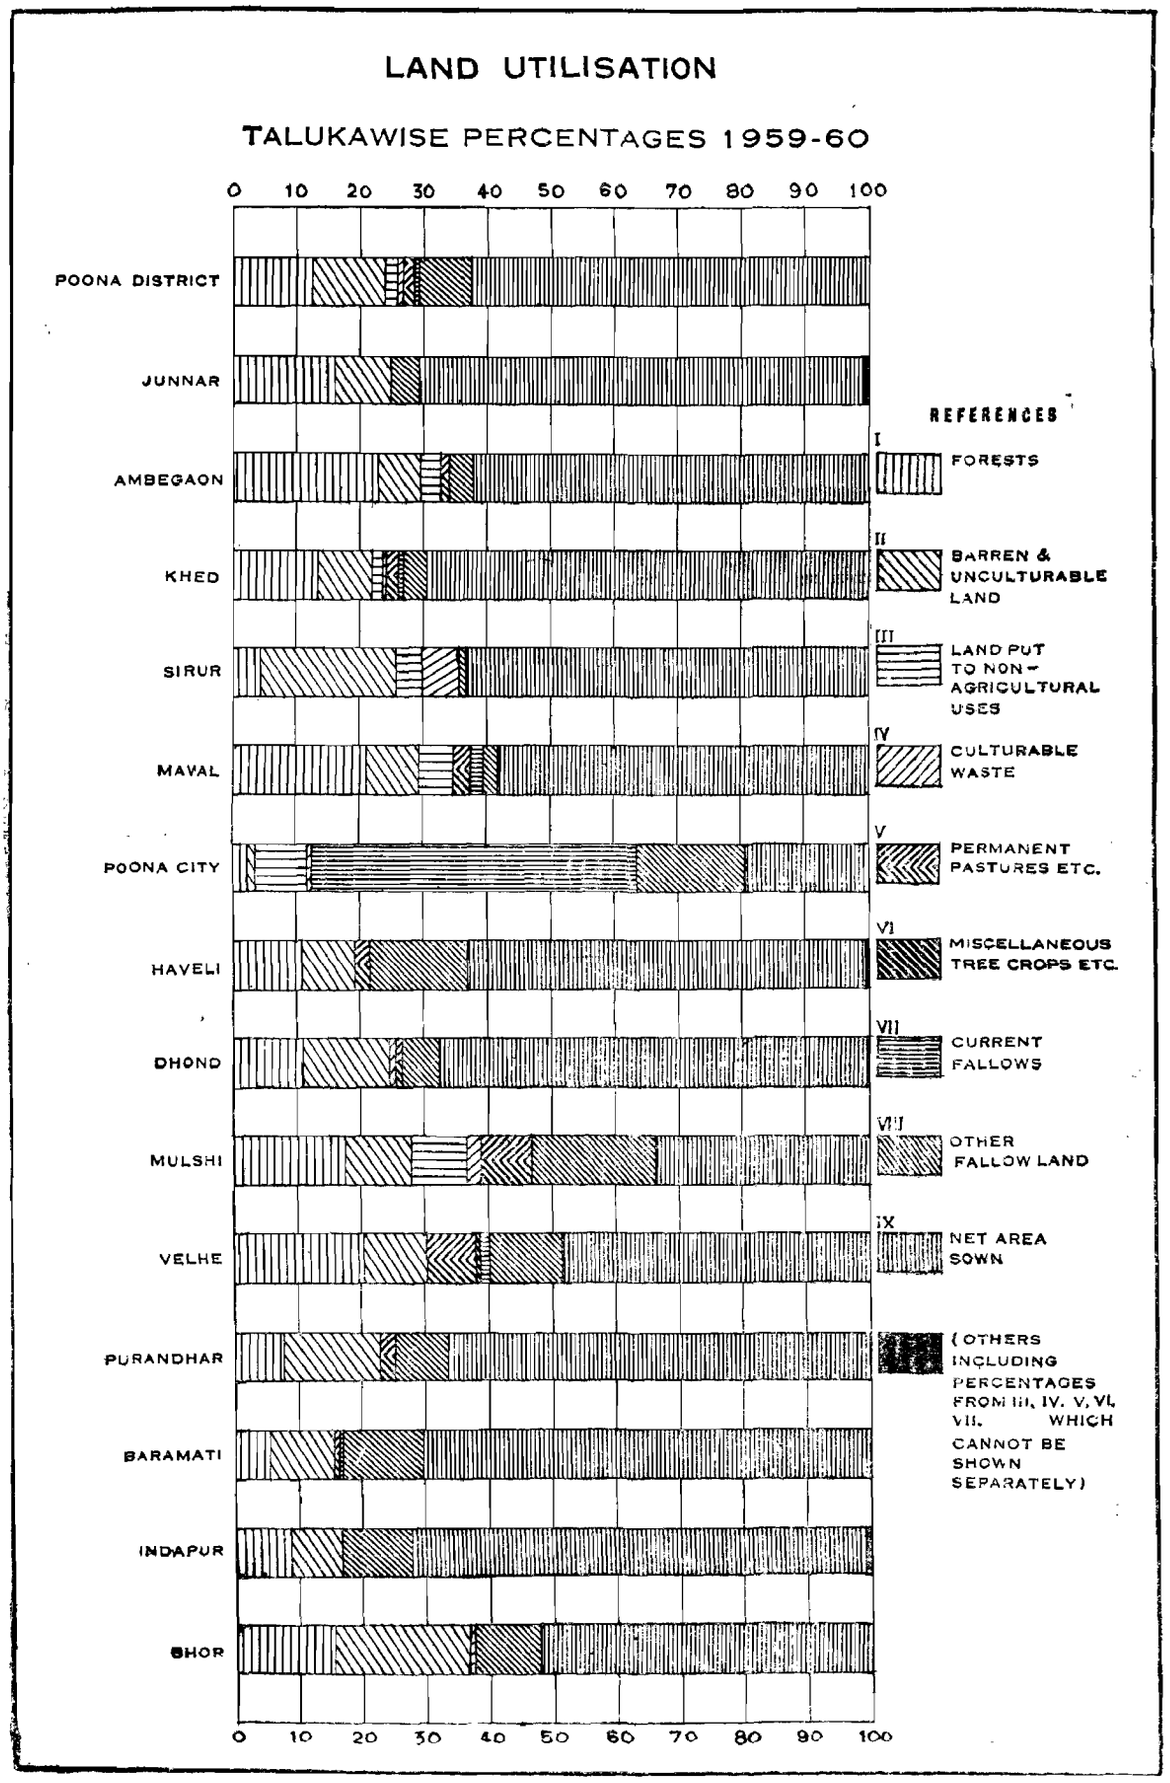

Within the district the proportion of net area sown to the geographical area ranges between 19·66 per cent for Poona City taluka and 71·56 per cent for Indapur taluka. Because of large proportion of areas under forests, barren and unculturable categories, non-agricultural uses and fallow lands, Mulshi taluka also has only 1/3rd of its net area under crops to the total geographical area of that taluka. In all the talukas except Sirur (4·24 per cent) and Mulshi (2·31 per cent), the proportion of cultivable waste is very low. Permanent pastures have significant proportion in Velhe mahal only.

Because of changes in the classification of land utilisation effected in 1950-51 and changes in the administrative boundaries of the district, it is not possible to determine if there has been any shift in the pattern of land utilisation over the last 40—50 years.

Crop Pattern

The proportions of areas under the important food and non-food crops for the district and each of its talukas are shown on page (36) compared with the corresponding figures for Maharashtra. All figures are averages for 3 years 1957-58 to 1959-60.

Figure on page (37) shows the crop pattern for the district and each taluka separately.

The proportion of area under food crops to the gross cropped area in the district is 76·29 per cent as against the average of 69·88 per cent for the State. Jowar, which covers 37·32 per cent of the gross cropped area, a proportion higher than the average for Maharashtra (30·95 per cent) obviously ranks first among all the crops of the district. Next in importance comes bajri, which occupies 18·45 per cent of the gross cropped area. This proportion is nearly twice the State average. In fact Poona ranks third among bajri growing districts of Maharashtra. Pulses cover another 7·90 per cent of the gross cropped area. Gram, kulith and tur are the important pulses of the district. Compared to the State average the district has lower proportions of areas under rice (4·73 per cent) and under wheat (2·08 per cent). However, some of the rich varieties of rice are grown in the district. The 'Ambemohor' variety from this district is considered to be esteemed one.

The proportion of area under sugarcane in the district is 1·05 per cent as against 0·63 per cent for Maharashtra. It is 67 per cent above the State average and some of the important sugar factories are located here. Area under "Other food crops" has proportion even less than half the State average. Nevertheless, fruits and vegetables which have dominating acreage under that group (other food crops) have their own importance in the crop pattern of the district. Figs (Anjir fruit) grown in the district are famous.

Among non-food crops, over 75 per cent of the area is covered by fodder and other miscellaneous crops. Most of the remaining area is occupied by oil-seeds. Safflower is the important oil-seed of the district and covers more than half the area under the oil-seed group. Groundnut occupies another 38 per cent and the remaining is covered by sesamum and others. Area under cash crops like cotton and tobacco is negligible.

The period from 1950-51 to 1959-60 has shown a slight decline (from 79·74 per cent to 75·68 per cent) in the proportion of food crops to the gross cropped area and corresponding increase in the proportion of non-food crops. Amongst food crops, proportion of cereals to the gross cropped area decreased from 69·85

Proportions of areas under important food and non-food crops for the district and each of its talukas

Other non-food crops including fodder crops.	8·20	17·78	14·98	21·47	29·64	2·79	56·93	43·45	32·08	0·92	15·09	54·38	11·97	1·19	0·96	44·16

per cent to 64·70 per cent. The proportion of pulses however increased from 6·34 per cent to 7·53 per cent. The areas under rice and wheat have increased gradually but that of jowar and bajri have fluctuated from year to year. The area under wheat has increased by 5,000 acres while that under rice by 24,000 acres. The area under sugarcane has gradually increased from 18,200 acres in 1950-51 to 30,400 acres in 1959-60. Areas under fruits and vegetables, spices and condiments have also shown substantial increase. The area under groundnut has multiplied more than twice during the period but that under sesamum and other oil-seeds (chiefly safflower) decreased by 19 per cent. Cotton has recorded a considerable increase in acreage during the decade.

Comparable statistics are not available for the entire district for years prior to 1950-51. The proportions of areas under different crops reported by District Gazetteer in 1881-82 were: Cereals 86·17 per cent, Pulses 5·39 per cent, Sugarcane 0·34 per cent, Condiments 0·51 per cent, Fruits and Vegetables 0·57 per cent, Oil-seeds 6·44 per cent and Cotton 0·29 per cent. Among cereals the proportion of jowar was 36·89 per cent, bajri 34·96 per cent, wheat 3·79 per cent and rice 3·00 per cent.

The crop pattern in the district in general can be considered as an average crop pattern of the State.

The State's crop pattern is poor in the all India setting on account of high proportion of jowar, bajri and other low value crops. The district proportion of low value crops like jowar, bajri and small millets are higher and that of rich value crops like rice, wheat, etc., are lower than the State averages. The relieving factors are the higher proportions of area under the commercial crop "Sugarcane", larger irrigated areas and better yield for many of the crops which together raise the gross value of output per acre of cropped area very near to the State average.

Within the district the cropping pattern varies according to soil types and rainfall. The district can be divided into three agricultural zones: (1) The western portion consisting of Velhe mahal, Mulshi and Maval talukas and western portion of Junnar, Ambegaon, Khed and Bhor talukas, (2) the eastern zone comprising Indapur, Baramati, Dhond, Sirur and Purandhar talukas and the eastern portion of Haveli taluka and (3) the middle portion constituting the remaining areas of the districts.

The western zone is hilly and rugged. The rainfall from the south-west monsoon is sufficiently heavy and favourable to kharif crops, like rice and small millets. Consequently these crops predominate in this area. Mulshi, Maval talukas and

Velhe mahal have high proportions of rice, with Mulshi taluka (31·28 per cent) having nearly 5 times the State average (6·67 per cent). Other coarse cereals like ragi and rala also have large proportions in this tract. Kharif jowar is mainly grown in Khed, Mulshi and Junnar talukas, with Khed accounting for nearly 40 per cent of the total kharif jowar grown in the district.

In the eastern zone of the district the rainfall is scanty and mostly dependent on the north-east monsoon. The soil of the tract is black and made fertile by the river Bhima and its tributaries. It is retentive of moisture and very suitable for rabi crops. Rabi jowar is, therefore, the principal crop of this tract. More than half the cropped area in Baramati and Indapur talukas and nearly half the cropped area in Purandhar and Sirur talukas are under rabi jowar. Dhond taluka has 3/4th of the cropped area under rabi jowar.

The central zone of the district has both kharif and rabi crops in somewhat equal proportion and the prominence of rabi crops increases towards the east. Bajri is the main crop of this tract with Junnar and Ambegaon talukas having more than 30 per cent of cropped area under bajri. The proportion of bajri in Junnar taluka is almost 4 times the State average.

Wheat is not an important crop of the district but has significant proportions in Maval (5·29 per cent) and Junnar (4·72 per cent) talukas only. Junnar taluka alone has sizable proportion of pulses (12·27 per cent) which is higher than the State average. Among pulses, Junnar and Khed talukas have large areas under gram and Indapur, Dhond and Baramati talukas have large areas under kulith. Sugarcane is largely grown in the irrigated tracts of Baramati, Indapur, Poona City and Haveli talukas.

Among non-food crops, cotton is cultivated as an irrigated crop in Baramati, Indapur, Dhond and Khed talukas. Groundnut is an important oil-seed in Khed, Bhor, Ambegaon and Junnar talukas and safflower is predominant in the eastern zone. Maval, Poona and Bhor talukas and Velhe mahal have very high proportion of fodder and other non-food crops.

Nine-year average yields and 1958-59 acreages and outturns of important crops for the district are shown in the next column taking corresponding figures for Maharashtra as 100.

	Nine-year average yield per acre	1958-59 area	1958-59 outturn
MAHARASHTRA ..	100.00	100.00	100.00
Rice	98.04	3.96	3.58
Wheat	90.08	2.66	2.78
Jowar	59.12	6.70	4.85
Bajri	121.97	10.99	13.15
Ragi	79.51	6.10	4.92
Tur	73.56	1.40	1.34
Gram	94.50	6.67	7.39
Sugarcane	108.32	9.21	10.31
Cotton	219.70	0.18	0.42
Groundnut ..	109.54	1.91	2.16
Sesamum ..	110.82	1.33	1.56
Rape, mustard and linseed.	127.37	0.13	0.19
Tobacco	109.78	0.74	0.95

The district average yields of rice, wheat, jowar ragi, tur and gram are lower than the averages for State. It is considerably low in case of jowar and tur. The district average yield of cotton is more than twice that of Maharashtra. More than 5 per cent of the area in Maharashtra is covered by each of the food crops, *viz.*, bajri, jowar, ragi, gram and sugarcane in the district. The district covers 9th part of area under bajri in the State and also makes handsome contribution in the Maharashtra's outturn of bajri. The district also produces 10 per cent of the sugarcane grown in Maharashtra.

The Techno-Economic Survey of Maharashtra has estimated the gross value of output per acre of cropped area in 1955-56 at Rs. 74 for the district as against Rs. 76 for the State and Rs. 126 for India.

The density of population, proportion of workers working on land to total workers, gross area sown per worker on land and the proportion of irrigated area to gross cropped area are shown below for the district and each of its talukas compared with the State averages :—

Administrative unit	Density of population per square mile	Percentage of workers working on land to total workers	Gross area sown per worker on land (in acres)	Percentage of irrigated area to gross cropped area
MAHARASHTRA	334	69.91	3.50	6.23

Bhor Taluka ..	279	83.77	3.59	1.85

62·23 per cent of the total workers work on land. Of these 9·29 per cent are agricultural labourers as against 23·80 per cent for Maharashtra. Only Ratnagiri district has a proportion lower than this (*viz.* 6·09 per cent). The proportion of workers working on land is lower than the State average (69·91 per cent). As against this, the gross area sown per worker on land in the district (4·05 acres) is higher than the State average (3·50 acres). This more than compensates for the deficit and coupled with the higher proportion of irrigated areas raised the gross value of agriculture production per worker on land in the district considerably above the State average.

Within the district the proportion of workers working on land to the total working population ranges from 2·47 per cent for Poona City taluka to 90·07 per cent for Khed taluka. The proportion is extremely low in Poona City taluka because of high concentration of urban population. In all other talukas except Haveli, Maval and Dhond, the proportion is higher than the State average. A number of industrial establishments have been located in Haveli taluka and as such the proportion is low there. The gross area sown per worker on land ranges from 1·11 acres in Poona City taluka to 5·53 acres in Dhond taluka. The gross area sown per worker on land is in general large in the eastern zone.

Because of the high proportion of irrigated lands and retentive capacity of the soil of moisture, the proportion of net area sown more than once to the total net area sown in the district is higher than the State average. In 1959-60 the proportion was 10·22 per cent which is slightly more than twice the State average (5·05 per cent). The proportion varies according to rainfall but on the whole it has been increasing gradually during the decade. It was 4·89 per cent in 1950-51, 8·02 per cent in 1953-54, 6·85 per cent in 1955-56 and 9·01 per cent in 1957-58. The net area sown more than once was largest (245,900 acres) in 1959-60. Within the district, the double-cropped areas are large in all talukas of eastern sector except Baramati taluka which has large areas under perennial crop, sugarcane. Sirur taluka has the largest area (73,800 acres) cropped more than once. In the western zone, in soils retentive of moisture, wheat is grown in rabi season after bajri whenever rainfall is sufficient. In the middle portion of the district rabi jowar or wheat is taken after bajri or groundnut and sometimes gram in rabi season is sown after potatoes in kharif season. In the eastern sector irrigated paddy or bajri is grown in the kharif season and wheat or rabi jowar or gram is taken as second crop in rabi season.

Irrigation

The proportion of gross irrigated area to gross cropped area in the district (9·94 per cent) is well above the State average (6·23 per cent). The irrigation is heavy in the eastern sector. In 1959-60 Baramati taluka had 76,000 acres (30·77 per cent) under irrigation, Indapur had 64,500 acres (23·77 per cent), Dhond 23,300 acres (10·05 per cent) and Haveli 20,500 acres (9·12 per cent). As the western zone of the district is hilly and rugged the area under irrigation is insignificantly low. Maval taluka had only 500 acres (0·29 per cent) under irrigation, Mulshi had 200 acres (0·24 per cent) while Velhe mahal had no area under irrigation.

Table 4 in Part III gives the break-up of irrigated areas by sources of irrigation for the district and each taluka separately. Wells are the principal source of irrigation in the district irrigating half (50·04 per cent) of the net irrigated area. Canals irrigate another 47·85 per cent. Tanks irrigate 1·23 per cent and the remaining 0·88 per cent are irrigated by other sources. Tank as a source of irrigation is observed only in Dhond taluka wherein about 2,800 acres are irrigated by tanks. Sirur, Dhond and Indapur talukas have some areas under irrigation by "other sources". Canal irrigation is heavy in Haveli (76·47 per cent), Baramati (71·50 per cent) and Indapur (63·70 per cent) talukas. Junnar, Ambegaon, Khed, Sirur, Dhond, Purandhar and Bhor talukas have areas irrigated predominantly by wells. Mulshi and Maval talukas have very small areas under irrigation and they are entirely irrigated by wells.

The net irrigated area increased from 204,200 acres in 1950-51 to 228,200 acres in 1959-60, i.e., by 24,000 acres or 11·8 per cent. The area irrigated by Government Canals registered some decrease mainly in Haveli taluka.

The area under private canals has, however, increased by 900 acres. Increase is also observed in areas irrigated by tanks (900 acres or 47·37 per cent) and by wells (37,500 acres or 49 per cent) and other sources (1,100 acres or 122 per cent). Dhond, Purandhar and Baramati talukas have recorded very large increase in the irrigated areas during the decade.

A significant increase is also observed in the number of pumping sets worked on oil engines used for irrigation. The number of oil engines which was 1,591 in the year 1951 increased to 4,171 in the year 1961. In 1961, 1,092 oil engines were reported in Baramati taluka, 758 in Indapur taluka and 754 in Haveli taluka.

Crop Pattern under Irrigation

Table 5 in Part III shows the crop pattern under irrigation. In the year 1959-60, 88·32 per cent of the irrigated area was under food crops and only 11·68 per cent under non-food crops. Among food crops bulk of the irrigated area (33·12 per cent)

was covered by jowar. Another 11·53 per cent was covered by sugarcane. Wheat occupied 8·65 per cent, bajri 7·93 per cent, gram 7·25 per cent, rice 3·75 per cent, fruits and vegetables 3·19 per cent, tur 1·86 per cent, maize 0·49 per cent and other food crops including condiments and spices accounted for the remaining 10·55 per cent of the area.

Nearly 84 per cent of the cotton and 44 per cent of wheat cultivated in the district is irrigated and the entire sugarcane cultivation in the district is under irrigation. The percentage of irrigated areas to total cultivated areas under different crops are: rice 7·81 per cent, jowar 8·81 per cent, bajri 4·30 per cent, maize 86·67 per cent, tur 26·63 per cent, gram 28·81 per cent, groundnut 6·74 per cent and fodder crops 3·29 per cent.

During the decade 1950-51 to 1959-60 there has been considerable decrease in the proportion of irrigated areas under cereals to the gross irrigated area. A small increase has been noticed in the proportion of irrigated areas under pulses. Among the cereals, areas under wheat and rice have increased and those under jowar and bajri decreased. Sugarcane and cotton have shown substantial increase in the decade and the proportion of irrigated areas under other food crops has increased slightly.

Haveli, Baramati and Purandhar talukas have large areas under irrigated rice. Irrigated jowar and bajri predominates in Baramati and Indapur talukas. These talukas also have large areas under irrigated wheat and gram.

Production

The annual outturn of principal crops in the district is shown in Table 6 in Part III. The average production of foodgrains from 1951 to 1956 and from 1956 to 1960 compared with the production of 1950-51 is as follows :—

Crop	Average production in hundred tons per year during		
	1950-51	1951—56	1956—60
Rice	344	433	456
Wheat	67	63	81
Jowar	518	788	1,529
Bajri	522	580	612
Ragi	126	108	100
Other cereals	185	122	86
Total cereals	1,762	2,094	2,864
Total pulses	190	207	243
Total foodgrains	1,952	2,301	3,107
Sugarcane	619	586	856
Groundnut	72	109	142

This comparison, taking single year 1950-51, as base, may not be very much conclusive as the base year itself may perhaps be a very favourable or a very bad agricultural season. Nevertheless such comparison brings out some very interesting results.

Compared to the production in 1950-51 the average annual production of foodgrains was higher by 17·89 per cent in the First Plan period and was higher by 59·17 per cent during the Second Plan period. The production in the Second Plan period was higher in case of all the types of cereals except ragi and other cereals. The average annual production of wheat during the First Five-Year Plan period was lower by 5·97 per cent than the 1950-51 production but during the Second Plan period it was higher by 20·90 per cent. The average annual production of jowar during the Second Plan period is almost 3 times the 1950-51 production. There is a substantial increase in the average annual production of rice and bajri also. The average annual production of pulses during Second Plan period is $1\frac{1}{4}$ times and that of groundnut is nearly twice the production in 1950-51. The production of sugarcane dropped slightly during the First Plan period but during the Second Plan period it was more by 23,700 tons over the production in 1950-51.

Agricultural Implements

The number of agricultural implements for the district and for each of its talukas for the year 1951, 1956 and 1961 are separately shown in section 'C' of the Table 9 in Part III.

There has been a remarkable increase in the number of oil engines for irrigation. The number of pumping sets worked on electric power, however, decreased from 120 in 1951 to 92 in 1961. During the decade (1951—1961), the number of wooden ploughs and iron ploughs increased by 9·52 per cent and 21·37 per cent, respectively. This is probably the indication of the suitability of iron ploughs to the tract. Both the types together increased from 97,202 to 109,427 or by 12·58 per cent. The number of sugarcane crushers worked on power decreased from 1,176 in 1951 to 386 in 1961 and that worked by bullocks reduced by 408 or 45·28 per cent. This reduction in number of crushers may perhaps be the reflection of setting up of new sugar factories in the district. The number of tractors which were 49 in 1951 increased to 83 in 1956 but reduced slightly in 1961 to 81.

By using standard average prices to the agricultural implements shown in Table 9 in Part III, the total outlay on them for the year 1961 may be estimated at Rs. 217 lakhs or Rs. 9·01 per acre of the net sown area. The agricultural implements not shown in the table may not together make more than Rs. 2 per acre. The total outlay on this item in the district may approximately be presumed to be less than Rs. 12 per acre.

Agricultural Extension

Agricultural development in the district is now looked after by the Zilla Parishad. A Subject Committee of the Zilla Parishad deals with it and the

Agricultural Development Officer works as a Secretary to that Committee. There are Agricultural Extension Officers at taluka level working under the Block Development Officers. The latter work as Secretaries to the Taluka Samitis. Talatis and Gram Panchayat Secretaries work as Assistant Gram Sevaks. Village Panchayats are expected to work for agricultural extension at the village level.

Agricultural Research

Seven Agricultural Research centres have been established at different places in the district to carry out experiments on different crops.

The Ganeshkhind Fruit Experiment Station was established at Kirkee in 1921 with farm area of 120 acres. Experiments are conducted here mainly on mango and grape crops and on chikoo and guava as subsidiary crops.

A research sub-station was established in Modibag Garden, Poona, in 1920 on 10·38 acres of farm area. Here research is undertaken on mango and chikoo as principal crops and guava, grapes and papaya as subsidiary crops.

The Agriculture College Farm, Poona, was established in the year 1907. It has farm area of 190 acres. The farm is meant for students of the Agriculture College and agricultural research are also carried out on jowar as principal crop and bajri, cotton, maize, sugarcane, suran (root vegetable), yarn, vegetables, etc., as subsidiary crops.

At Kothrud Kuran Farm and Manjri Kuran Farm (both in Haveli taluka) research are made on grasses and Legumes. They have farm areas of 16 and 15 acres, respectively.

There is a Regional Agricultural Research Station at Vadgaon (Mawal taluka) wherein research is made on paddy as principal crop and nagli as subsidiary one. The station was established in 1940 and has 63 acres as farm area.

In the year 1959 one Agriculture Research Station has been established at Lonavla. It is a testing station and has farm acreage of 5 acres.

Agricultural Improvement

(*i*) *Increasing the area under irrigation.*—The most important single item of increasing the agricultural production is increasing the area under irrigation. During the First two Plan periods much emphasis was laid on medium and minor irrigation schemes. During the First Plan period 35 schemes of construction of tanks and bandharas were completed. This raised the irrigation potential by about 3,600 acres. During the Second Plan period 12 medium and minor irrigation schemes were taken up, out of which 8 have been completed which raised the irrigation potential by additional 2,700 acres. The work of the other 4 schemes has been taken up in the Third Plan period as spill over work. When completed these schemes will add up about 4,500 acres to the irrigation potential.

During the First two Plan periods two major irrigation projects were taken up. One of them called the Ghod Project (on boundary of Poona and Ahmadnagar districts) which envisages construction of earthen dam across river Ghod. The work is still in progress and when completed will irrigate 60,800 acres in Ahmadnagar and Poona districts. Another major irrigation project which was taken up during the Second Plan period was the Khadakwasla Project.

As per the project planned in the beginning, an earthen dam was to be constructed at Panshet on river Mutha and the capacity of Khadakwasla dam was to be increased. Unfortunately when the work was almost completed in 1961, the dam burst under floods of the river. The Khadakwasla dam also breached. The accident has resulted in a loss of 50,000 acres of irrigation potential. The project is now being revised.

Another major irrigation project that is being implemented in the district is the Vir Project on Nira river. The cost of construction is estimated at Rs. 551·87 lakhs and on completion it will irrigate 66,000 acre of land. This project will benefit Satara and Sholapur districts.

Construction of new wells and repairs to the old ones is the quickest and cheapest way of increasing the irrigational potential though to a limited extent. Stress is, therefore, also laid on expanding this sector. Between 1950-51 and 1959-60 about 10,600 wells were constructed and/or renovated. The Third Five-Year Plan envisages construction of 4,000 new wells and installation of 1,700 pumping sets with total outlay of 30·59 lakhs.

With the increasing facilities for irrigation the question of full utilisation of the created potential is likely to assume importance. Statistics of the available potential and actual utilisation are not available for the district separately.

(*ii*) *Improved Seeds.*—Another item of improving food production is the recommendation of appropriate varieties or strains of crops suitable for the tract. The Agriculture Department has recommended the following improved varieties or strains of crops for the district :—

(1) Rice	..	Ambemohor 157 and 102, Chimansal 39, Warangal 9.
(2) Jowar	..	Maldandi 35-1.
(3) Bajri	..	Bajri 28-15.
(4) Wheat	..	Jay (Bansi pally-808).
(5) Gram	..	Chaffa (No. 816).
(6) Groundnut	..	Improved Spanish peanut.
(7) Cotton	..	Deviraj 170-C02.
(8) Mung	..	China Mung.

Seed farms have been established at 13 different places in the district to provide improved seed to farmers. The combined area of all the seed farms is 635·70 acres.

(*iii*) *Soil Conservation or Bunding.*—During the First two Plan periods an area of about 2·56 lakh acres has been bunded. In the Third Plan it is estimated that an area of 3·43 lakh acres will be brought under improvement by construction of bunds. In addition to contour bunding up to end of Second Plan period 1,613 acres were terraced. The Third Plan target is 6,000 acres.

Livestock

The number of livestock for the years 1951, 1956 and 1961 has been shown separately for each taluka and the district in Table 9 in Part III.

The total livestock as per 1961 Livestock Census in the district is 15·52 lakhs. This forms 59 livestock per 100 acres of cultivated area. The corresponding figure for the State is 139.

The total bovine population in the district in 1961 is 57·42 per cent of the total livestock. The number of male bovines over 3 years are 3·15 lakhs. The area cultivated per pair of male bovines over 3 years is thus 16·84 acres, as against 5·84 acres for Maharashtra. There are 3·35 lakh female bovines over 3 years in the district. That forms 136 female bovines over 3 years per 1,000 population in the district as against the State average of 159.

During the first half of the decade 1951 to 1961 there was decrease in the number of cattle and sheep. However, during the latter half (1956—61) this has been completely made good with the result that on the whole there has been an overall increase of 20·40 per cent in the total livestock during the decade. Increase is observed in all types of livestock except horses and ponies. The number of cattle and buffaloes increased by 12·04 per cent and 23·36 per cent, respectively. During the same period, the increase in the number of sheep and goats is 34·34 per cent and 26·95 per cent respectively. The number of horses and ponies decreased to even less than half. The number of other livestock multiplied by more than 2½ times during the decade. The number of poultry has also increased by 319,900 or 63·59 per cent.

Veterinary Facilities

There are Veterinary Dispensaries located at the following places in the district :—

(1) Poona, (2) Bhor, (3) Uralikanchan, (4) Bebad Ohal, (5) Talegaon Dhamdhere, (6) Indapur, (7) Manchar, (8) Saswad, (9) Khed, (10) Kedgaon, (11) Junnar, (12) Baramati and (13) Paud.

In addition to this there are Veterinary Aid Centres located at 16 different places in the district. Treatment of animal diseases, control of epidemics, castration of scrub bulls and control and destruction of animal parasites are the main services rendered at these dispensaries.

Majority of cattle and buffaloes found in the district are of non-descript type. Khillar breed of cattle is observed to some extent in the eastern tract and Dangi cattle in the hilly western areas. For milk supply in Poona City, dairy businessmen have maintained Delhi breed of buffaloes. Surti breed is seen in other talukas. The Sindhi and Gir breeds of cows are also popular.

For upgrading the local breed, three supplementary cattle-breeding centres have been established at (1) Nhavra in Sirur taluka, (2) Koregaon Bhima also in Sirur taluka and (3) Lonidevkar in Indapur taluka. 15 premium bulls and 150 premium cows are maintained at these centres. Under the district Premium Bull Scheme 52 premium bulls are located in the intensive cattle-breeding zones.

For improvement of poultry in the district 2 poultry demonstration centres are established at Saswad and Nasarapur. Every year 15 cultivators are trained in poultry feeding, housing and management at each centre and chicks are supplied to the cultivators as per demand on full cost of the chicks.

There are also 4 sheep and wool extension centres in the district established at (1) Vadgaon Nimbalkar, (2) Jejuri, (3) Bhigwan and (4) Kedgaon. The main object is to produce breeding rams in large number in rural areas as demonstration units for popularising various improved methods of management, feeding and housing of sheep.

AGRARIAN STRUCTURE AND LAND REFORMS

Land Tenures

In the past, there were a number of tenures and sub-tenures. The chief among these were :—

(1) *Miras* which was a hereditary and transferable right of occupancy subject to payment of land revenue.

(2) *Kauli* or leasehold included land let for a series of years at an increasing specified assessment.

(3) *Dumala* or land held for service.

(4) *Inamati* or rent alienated land granted in perpetuity.

(5) *Sheri* or managed by Government.

There was also a peculiar local tenure in the Maval known as Palnuk or freedom from cesses.

The Survey Act of 1865 abolished all the above tenures and introduced the Ryotwari tenure of heritable and transferable occupancy rights. This was the first important measure of tenurial reforms which has immensely benefited the region. Later on, lands granted by the Government were subjected to certain restrictions about transfer or sale and the new occupancy rights were called 'new' or 'restricted tenure'. Public utility lands like grazing lands, etc., are held by Government and are now vested in the village panchayats.

There used to be another tenure of Inam lands which were gifted or granted by the Government for meritorious services in the past or in lieu or on condition of some continuing service useful to the Government or to the village community. Inam lands were held free of land revenue. There were five classes of Inams in the district :—

	Year of abolition
(i) Political or Saranjam Inams ..	1952
(ii) Personal Inams	1953
(iii) Hereditary Watan Inams	1951
(iv) Village servants useful to the—	
(*a*) Community	1954
(*b*) Government—Patils	1963
Mahars ..	1959
(v) Deosthan Inams.	

All Inams, excepting the last category of Deosthan Inams held by religious institutions or for religious services, have now been abolished under various measures of land reform. The year in which each class of Inam was abolished is shown above. All hereditary Watan lands held for village services have also been abolished and all village servants now work on salary basis. The occupancy rights of abolished Inam lands have been conferred on their holders or tenants, as the case may be, on condition of payment of occupancy price to the Government and/or compensation to the erstwhile holders. Consequential processes of determining titles for occupancy rights and of recovery of occupancy price or compensation are in some cases still in progress. The process of abolition of intermediary interests in land is thus being completed in the district.

Record-of-Rights

A Record-of-Rights in land is maintained by the Revenue Department for each village separately. It is integrated with annual crop returns and inspections and is, therefore, easily maintained up-to-date. Rights on land in respect of ownership, tenancy, mortgage and other encumbrances are recorded and a form is maintained for each parcel of land separately. It is obligatory on every person acquiring any right on land to report it within three months. Annual Revenue accounts are prepared on the basis of the Record-of-Rights.

Ownership Rights to Tenants

Tenancy rights are regulated under the Bombay Tenancy and Agricultural Lands Act, which is in force since 1948. It provides security of tenure to and payment of only reasonable rents by the tenants.

In pursuance of the "Land to the Tiller" policy, the Act provided for compulsory transfer of ownership rights of tenanted lands to the tenants from 1st April 1957, which is known as the "Tillers' Day". This was an important step towards the removal of absentee landlordism which was one of the disincentives in any programme of agricultural improvement.

Up to 31st March 1964, ownership rights have been conferred upon 16,686 tenants for 58,468 acres of land in the district. Out of these, 8,235 tenants had mutually agreed with the landlords on the price to be paid by them in respect of 28,858 acres. In the remaining cases, the prices were fixed by the Revenue Officers.

Size of Land Holdings

Census Table B-X in Part II of this volume shows that 44·98 per cent of the total number of households cultivate land and the remaining 55·02 per cent do not cultivate any land.

Census Table B-XI in Part II shows the break-up of cultivating households by size of land cultivated and by the interest in the land. 85·71 per cent of the cultivating households cultivate their owned lands only, 2·24 per cent of the households cultivate tenanted lands only and the remaining 12·05 per cent cultivate lands partly owned and partly taken on lease. Percentage distribution of cultivating households by the size of land cultivated is shown below.

The distribution of households in Table B-XI and the same shown in percentage in column 2 below is based on cultivation (operational) holdings as returned in the 1961 Census.

A classification of holdings on the basis of area owned (against the area cultivated) for the year 1952-53 or 1953-54 is shown in Table 10 in Part III. The percentage distribution of these ownership holdings is also shown in column 3 below :—

Area	1961 cultivation holdings	1952-53 ownership holdings
Less than 1 acre	2.63	15.03
1 to 4.9 acres	33.60	31.79
5 to 9.9 acres	25.15	20.77
10 to 14.9 acres	14.29	9.26
15 to 29.9 acres	16.19	13.62
30 to 49.9 acres	5.73	6.61
50 acres and above..	2.41	2.92
Total ..	100.00	100.00

The average size of cultivation holdings in the district in 1960-61 is 11·82 acres. Average size of the ownership holding in the district was 11·70 acres in 1952-53 against the average of 11·95 acres for the State.

Ceiling on Holdings of Agricultural Land

The Maharashtra Agricultural Lands (Ceiling on Holdings) Act came in force from 26th January 1962. Two local areas, *viz.*, Mulshi and Poona have been notified in the district with different ceiling areas for dry crop land, *viz.*, 84 and 96 acres, respectively. In the case of irrigated lands, the ceiling area is the same in both the local areas, *viz.*, 18 acres in the case of perennially irrigated areas, 27 acres in areas irrigated in 2 seasons, and 48 acres in areas which get irrigation water for one season. Holders of land in excess of the ceiling areas are not now free to transfer or partition any land until the land in excess of the ceiling is determined under the Act. They were required to furnish return of their holdings to the Collectors. The Collectors are to make inquiries to determine the surplus lands and take them over in possession. Those lands shall afterwards vest in the State Government. The Act also provides for payment of compensation to the holders at specified rates and for distribution of surplus lands to landless or other persons in the prescribed order of priority. At the moment, the enquiries to be made by the Collectors are in progress.

Consolidation of Holdings

The provisions of the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, were applied to the district in 1948 and work of consolidation of holdings was started in 1948 in Baramati taluka. The scheme is to arrange mutual exchange of small and scattered fragments of holdings and to make the land holdings as compact as possible. The scheme has since been extended to five more talukas.

The number of villages and areas for which the work has been completed up to 31st March 1963 are as follows : —

Taluka	Year in which work was taken up	Number of villages	Area consolidated in acres	Holdings involved
(1) Baramati ..	1948	58	815,936	79,669
(2) Dhond ..	1963	1	4,167	729
(3) Purandhar ..	1954	24	60,873	40,668
(4) Sirur	1961	4	12,286	3,825
(5) Haveli ..	1960	8	25,380	9,792
(6) Khed ..	1962	2	1,540	495
	Total ..	97	920,182	135,178

The standard areas specified as minimum necessary for profitable cultivation under the Prevention of Fragmentation and Consolidation of Holdings Act are as follows :—

(1) Dry Crop lands and Warkas land. 1·0 acre.

(2) Bagait lands .. .. .. 0·25 acre.

(3) Rice lands .. .. .. 0·25 acre.

All plots of land less in area than the standard area are treated as fragments and their transfer except to holders of contiguous plots is prohibited.

CO-OPERATION

Administration

The Deputy Registrar of Co-operative Societies is in charge of the Co-operative movement in the district. He is assisted by two Assistant Registrars who have territorial jurisdiction and deal with all the aspects of the Co-operative movement in the district. In addition an Assistant Registrar works under the Zilla Parishad. He carries out the duties of registration, deciding appeals against non-admission of members, approval to bye-laws and administrative supervision in respect of Co-operative Societies whose working capital does not exceed Rs. 5 lakhs and whose jurisdiction does not extend beyond the district. The Zilla Parishad also looks to the promotion and extension of Co-operative movement in the district.

The Co-operative movement lacked enthusiasm till attainment of independence. Since the introduction of Five-Year Plans and with emphasis on development of rural areas, concentrated efforts were made during the last decade which have resulted in a rapid progress in the Co-operative movement in the district. All the villages in the district are now covered by rural co-operatives. Besides agricultural credit, the activities are now extended to processing of agricultural products, dairying, farming, marketing, etc.

The following description is based on the Report for the year 1960-61.

Co-operative Credit

(*a*) *Agricultural Credit Societies.*—The number and membership of Agricultural Credit Societies have increased at a rapid pace during the last decade especially during the Second Plan period.

The position of Agricultural Credit Societies in 1950-51 and 1960-61 is as under :—

	1950-51	1960-61
(1) Number of Agricultural Credit Societies	422	851
(2) Number of members	31,774	106,752
(3) Share Capital (Rs. in lakhs)	11.18	90.25
(4) Reserve and other Funds (Rs. in lakhs)	8.13	15.39
(5) Working Capital (Rs. in lakhs)	60.69	384.73
(6) Number of members to whom loan advanced	12,328	53,534
(7) Amount advanced (Rs. in lakhs)	36.62	285.31
(8) Amount recovered (Rs. in lakhs)	17.17	92.88
(9) Loans outstanding (Rs. in lakhs)	45.55	329.50
(10) Overdues (Rs. in lakhs)	8.71	89.18

Average membership per primary society in the district is 125 against the average of 96 members for Maharashtra. All the villages in the district have been covered.

Total owned funds (share capital *plus* reserve funds) of the Primary Agricultural Credit Societies in the district amounted in 1960-61 to Rs. 105·64 lakhs and formed 27·46 per cent of their working capital against 26 per cent for Maharashtra.

The loan operations of all the Primary Agricultural Societies in the district amounted to Rs. 285·31 lakhs in 1960-61. The average amount of loan per borrowing member in the district worked out to Rs. 533 as against Rs. 329 for Maharashtra.

During the decade 1951—61, the number of the Agricultural Credit Societies has doubled and the membership multiplied more than 3 times. Their share capital increased by Rs. 79·06 lakhs and the working capital rose from 61 lakhs in 1950-51 to Rs. 385 lakhs in 1960-61. There is also an increase of Rs. 248·69 lakhs in the amount advanced as loans by the societies in 1960-61 over the amount advanced in 1950-51. The pace of recoveries has, however, not been improved which has resulted in raising the proportion of overdues to the outstanding loans from 19·12 per cent in 1950-51 to 27·07 per cent in 1960-61. This indeed points out the need of improving the recoveries.

Besides the financial activities, good progress has also been made by Agricultural Credit Societies in the sphere of services to agriculturists such as distribution of agricultural requisites (like seeds, manure, etc.), marketing of agricultural produces, etc.

(*b*) *Central Co-operative Bank.*—The Central Co-operative Bank was established at the district headquarters in the year 1917 and has been working as federal financing agency catering to the credit needs of all the primary credit societies in the district. Since 1962, the Zilla Parishad also transacts its financial business through this Bank.

In the year 1960-61, the position of the Bank was as follows :—

(1) Number of members—		
(*a*) Individuals		5,661
(*b*) Societies		1,357
(2) Paid-up share capital	(Rs. in lakhs)	45.82
(3) Reserve and other funds	(Rs. in lakhs)	18.91
(4) Deposits—		
(*a*) Individuals	(Rs. in lakhs)	244.11
(*b*) Societies and Banks	(Rs. in lakhs)	91.08
(5) Borrowings—		
(*a*) State Co-operative Bank and the Reserve Bank of India	(Rs. in lakhs)	202.50
(*b*) Government	(Rs. in lakhs)	2.51
(*c*) Other sources	(Rs. in lakhs)	4.79
(6) Working capital	(Rs. in lakhs)	609.72
(7) Cash—		
(*a*) On hand	(Rs. in lakhs)	17.58
(*b*) At Banks	(Rs. in lakhs)	37.05
(8) Investments—		
(*a*) Government and other Trustee Securities	(Rs. in lakhs)	73.23
(9) Percentage of cash in hand to deposits		5.24
(10) Percentage of investment to deposits		21.85
(11) Loans outstanding—		
(*a*) Individuals	(Rs. in lakhs)	13.98
(*b*) Societies	(Rs. in lakhs)	465.86
(12) Percentage of loans outstanding to deposits		143.15
(13) Percentage of loans outstanding to working capital		78.70
(14) Overdues	(Rs. in lakhs)	36.93
(15) Percentage of overdues to loans outstanding		7.70
(16) Cost of management	(Rs. in lakhs)	6.03
(17) Percentage of cost of management to working capital		0.99
(18) Profit	(Rs. in lakhs)	5.34
(19) Total number inclusive of branches, sub-branches and pay offices in the district		30

During the year 1960-61, the society membership of the Bank increased by 16·78 per cent and the individual membership increased by 2·89 per cent. On the whole there has been a small increase in the total membership of the Bank. The share capital of the Bank has, however, increased by 84·24 per cent and there is an addition of Rs. 23·75 lakhs in the owned funds. There is also an increase of Rs. 38·90 lakhs in the working capital. The Bank advanced loans of Rs. 1,006·02 lakhs as against Rs. 549·38 lakhs in the previous year. There has been an improvement in the recoveries also and the proportion of overdues to outstanding loans has slightly decreased from 9·34 per cent to 7·70 per cent. The Bank made a profit of Rs. 5·34 lakhs during the year as against profit of Rs. 3·24 lakhs in the previous year. All these statistics speak about the progress made by the Bank during the year. Eight new branches and pay offices were opened during the year under report.

(*c*) *Land Mortgage Bank.*—Primary Land Mortgage Bank was established at Poona in the year 1935 with a view to providing long-term finance to the cultivators. The membership of the Bank is 2,903, paid-up share capital Rs. 48 thousand and working capital Rs. 8·15 lakhs. Loans amounting to Rs. 3·48 lakhs were advanced during the year. The total outstanding loans amounted to Rs. 6·90 lakhs and the Bank deserves to be properly revitalised.

(*d*) *Urban Banks and Credit Societies.*—There are in all 136 urban banks and credit societies in the district. 14 of them are urban banks, 11 urban credit societies, 75 salary earners' societies, 29 factory workers' societies, 4 millhands' societies and 3 other societies. Their combined membership is 60,413, paid-up share capital Rs. 52·36 lakhs and working capital Rs. 215·84 lakhs. The societies advanced loans of Rs. 211·41 lakhs during the year.

The urban banks and credit societies have proved very useful to the urban populace who is usually in need of regular credit at reasonable rate of interest. Their capital structure and the credit operations undertaken by them deserve a special mention.

Agricultural Processing Societies

One Oil Mill has recently been organised on co-operative basis. The society has 724 members, Rs. 2·02 lakhs as share capital and Rs. 2·03 lakhs as working capital. The oil mill has yet to start production work.

Industrial Societies

There are 19 Weavers' Societies and 110 other Industrial Societies in the district. Of the 19 weavers' societies, 10 are handloom weavers' societies and 9 wool weavers' societies. Their combined membership is 1,615, share capital Rs. 76 thousand and working capital Rs. 2·74 lakhs. The number of looms in the co-operative fold is 1,474. The value of goods produced by the societies during the year amounted to Rs. 6·46 lakhs.

The other types of industrial societies include 16 oil ghanis, 3 cane and bamboo workers', 5 tanning, 15 leather working, 10 carpentry and smithy, 6 metal working, 9 pottery and brick making, 13 coir and rope making, 2 neera and palm gur, 31 miscellaneous, etc. Their combined membership is 4,715, share capital Rs. 4·57 lakhs, of which Government contribution is 1·09 lakhs. Their working capital is Rs. 20·50 lakhs. The value of production of these societies is Rs. 42·50 lakhs and sales value Rs. 19·94 lakhs.

Spinning Mill

There is one Co-operative Spinning Mill in the district. It has membership of 236 individuals, share capital of Rs. 72 thousand of which Government's contribution is Rs. 37 thousand and Rs. 48 thousand as reserve funds. The spinning mill obtained Rs. 5 lakhs as loans during the year. There are 4,186 spindles in the mill and value of sales of finished goods during the year amounted to Rs. 11·10 lakhs. The working of the spinning mill is reported to be satisfactory.

Forest Labourers' Societies and Labour Contract Co-operative Societies

There are 5 Forest Labourers' Societies and 30 Labour Contract Co-operative Societies in the district. The combined membership of forest labourers' societies is 219, share capital Rs. 2,860 thousand and working capital Rs. 17 thousand. The societies received Rs. 9 thousand as loans and Rs. 7 thousand as subsidy from the Government. The forest produce valued at Rs. 21 thousand was extracted by these societies during the year. The labour contract societies have 1,291 members, share capital Rs. 61 thousand and working capital Rs. 3·06 lakhs. The societies received Rs. 8 thousand as loans from the Government. Work contracts valued at Rs. 8·41 lakhs were executed by these societies during the year.

Co-operative Farming Societies

There are 16 Collective Farming and 5 Joint Farming Co-operative Societies in the district. The collective farming societies have 276 members, Rs. 1·28 lakhs as share capital and working capital of Rs. 3·11 lakhs. The societies cultivated all the 961 acres under their command.

The combined membership of 5 joint farming societies is 559, share capital of Rs. 1·60 lakhs and working capital of Rs. 8·35 lakhs. The societies have 2,420 acres under their command of which 961 acres are cultivated. The working of all these 21 societies is in general fair. These being producers' societies special attention is given to their development.

Lift Irrigation Societies

Twenty-six Co-operative Lift Irrigation Societies have been registered in this district. The combined membership of these 26 societies is 1,802, share capital Rs. 4·22 lakhs and working capital Rs. 14·79 lakhs. The area under the command of these societies is 8,206 acres of which 3,584 acres were irrigated during the year. Two of these societies have schemes of well irrigation and others have schemes of lift irrigation on different rivers. 10 societies at Barne, Dalaj, Dingrajwadi, Golegaon, Kumbharvalan, Nimbut, Nangaon, Pargaon, Pimpale-Saudagar and Hatvalan have completed their schemes. The construction work of some other societies is in progress.

Co-operative Sugar Factories

Three Co-operative Sugar Factories have been organised in the district. Two of them, *viz.*, Malegaon Sahakari Sakhar Karkhana, Ltd., Baramati, and Chhatrapati Shivaji Sahakari Sakhar Karkhana, Ltd., Indapur, are in production. Their respective installed crushing capacity is 1,250 and 800 tons per day. These two factories have membership of 27 societies and 6,287 individuals, share capital of Rs. 63·79 lakhs and working capital of Rs. 310·09 lakhs. Government has contributed Rs. 20 lakhs towards the share capital of these factories. 36,756 tons of sugar was produced during the year. The construction work of Messrs. Someshwar Sahakari Sakhar Karkhana, Ltd., is in progress. The Government has contributed Rs. 15 lakhs towards its share capital.

Dairy Societies

There are 45 Milk Supply Societies in the district. The combined membership of these societies is 2,321 individuals, the paid-up capital is Rs. 60 thousand and working capital Rs. 1·79 lakhs. Milk worth Rs. 6·23 lakhs was sold during the year. 15 of the societies made a profit of Rs. 6 thousand, 9 suffered loss of Rs. 2 thousand and 21 others neither showed profit nor loss.

Fishery Societies

There are 6 Co-operative Fishery Societies in the district having membership of 540, share capital of Rs. 5 thousand and working capital of Rs. 12 thousand. The societies were not engaged in catching fish and their sales but had undertaken the credit and supply work during the year.

Purchase and Sales Societies

There is one District Purchase and Sales Union and there are 11 taluka purchase and sales societies, 3 fruit sales societies and 2 other societies in the district. The District Purchase and Sales Union has membership of 631 members. Its share capital is Rs. 1·64 lakhs and working capital Rs. 25·14 lakhs. The marketing and distribution activities undertaken by the union amounted to Rs. 138·50 lakhs. The taluka purchase and sales unions and other societies together have 604 society members, 4,482 individual members and Rs. 6·12 lakhs as share capital. The Government has contributed Rs. 2·34 lakhs in the share capital of the unions. The value of purchase and sales by the unions amounted to Rs. 115·61 lakhs and Rs. 106·33 lakhs, respectively.

Consumers' Movement

There are 63 primary consumers' stores in the district. The combined membership of all the societies is 11,845, share capital Rs. 3·34 lakhs and working capital Rs. 7·51 lakhs. During the year 1960-61 the value of sales of these societies amounted to Rs. 43·95 lakhs. 29 of these societies made a profit of Rs. 68 thousand and 9 suffered a loss of Rs. 7 thousand and 25 other neither showed profit nor loss.

These consumers societies are conducting trade in foodgrains and other essential commodities at a very moderate rate. The distribution of controlled commodities like sugar is also their important activity.

Housing Societies

There are 157 Co-operative Housing Societies in the district of which 67 are for persons belonging to Backward Classes. Their total membership is 6,858, share capital Rs. 9·40 lakhs and working capital Rs. 52·59 lakhs. 599 independent houses valued at Rs. 24·79 lakhs have been constructed by the members of the societies. The societies have constructed 28 independent houses and 121 tenements valued at Rs. 10·81 lakhs.

Co-operative Activity for Backward Classes

Seven Farming Societies and 67 Housing Societies have been organised for Backward Class persons.

The farming societies have membership of two hundred individuals, share capital of Rs. 13 thousand and working capital of Rs. 1·40 lakhs. The area cultivated during the year by the society is 215 acres.

The housing societies have membership of 2,556 individuals, share capital of Rs. 1·08 lakhs and working capital Rs. 21·45 lakhs. The societies constructed 6 tenements during the year.

Audit Classification

The audit classification of different types of societies in the district on 30th June 1961 is as follows :—

Type of society	Number of societies classified as				No. of societies not classified	No. of societies not audited	Total
	A	B	C	D			
(1) Central Co-operative Bank.	..	1	..	..	..	..	1
(2) Agricultural Credit Societies.	95	328	176	60	4	188	851
(3) Non-Agricultural Credit Societies.	48	31	25	9	..	23	136
(4) Primary Land Mortgage Bank.	..	1	..	..	..	..	1

FORESTS

The district has an area of 591·05 square miles under forest, of which 491·51 square miles are in charge of Forest Department and the remaining 99·54 square miles are in charge of Revenue Department. The forest area forms 9·84 per cent of the total geographical area as against 17·56 per cent for Maharashtra.

The forests are administered by the Divisional Forest Officer, Poona Forest Division, with headquarters at Poona. The division works under Conservator of Forests, Poona Circle, Poona. The forest in charge of Revenue Department are looked after by the District Collector.

The forests are distributed in all the talukas of the district. They are, however, mainly found on Sahyadri hill slopes and its spurs in Junnar, Ambegaon, Khed, Maval, Mulshi, Haveli and Bhor talukas and Velhe mahal. Babul forests mostly used for firewood are, however, spread over the banks of the river Mula, Mutha and Bhima in Haveli and Dhond talukas.

The forests in the district fall into four distinct types as under :—

(*a*) *Sub-tropical evergreen type.*—This occurs at the higher elevations of the Sahyadri main range in the west and extends to some distance on the outlying spurs on the eastern flank. Jambul, Pisa, Anjani, Hirda, Ain, etc., are some of the principal species found here. These forests are, however, not commercially much valuable due to their inaccessibility.

(*b*) *The Deciduous type.*—This type of forests is seen in the central region of the district. It can be divided into the moist deciduous and the dry deciduous types. The former comprises Ain, Hed, Kalamb, Amba, Nana, Sawar, Dhaman, etc., and contains some proportion of teak. This type further changes into dry deciduous type with mainly Teak, Dhavda, Khair, Moina, Mhowa, etc., which form the valuable forests of the district though the quality of teak is poor.

(*c*) *The thorn and scrub forests type.*—These forests are typical of the extremely dry conditions. Bor, Hiwar, Yelatur, Hingoni, Neem, Babul, Tarwad are met with in this type. This type is also not much commercially valuable.

(*d*) *The Babul Forests.*—Along the banks of rivers Mula, Mutha and Bhima, on the alluvial soil, pure narrow patches of Babul forests have sprung up. These forests with Neem and tamarind as principal associates are the very valuable forests of the district.

The most important major forest product is teak timber. Besides teak other species included above are useful as timber and as firewood. Fodder and thatching grasses are available in large quantities for grazing of cattle in large areas of the district.

The other commercially important minor associates found in the forests are Apta and Tembhurni leaves useful in Bidi industry, Mhowa flowers and fruits, Shikakai for soap and shampoo, Babul and Tarwad barks and Hirda for tanning, Chillar bark, Agave for rope making, honey, wax, etc.

The forest produce is exploited through the agencies to whom contract is given and also through the Forest Labourers' Co-operative Societies. These societies are given certain privileges by the Department. The annual revenue realised during last ten years varied from Rs. 3·16 lakhs to Rs. 5 lakhs. As per 1961 Census, 3,702 persons are reported as engaged in forestry and logging as principal work. Their distribution for industry minor group is shown in Table B-IV-C in Part II.

Forest produce is transported in bullock-carts and trucks to Junnar, Lonavla, Bhor, Khed and Dhond. From these places the produce is carried to Poona and Bombay by trucks or rail. The important centres for collecting forest produce are Otur, Junnar, Ghodegaon, Khed, Dhond and Poona.

Exploitation of forests is regulated by scientifically prepared working plans which are different for different types of reserved forests. Under the existing plan, working circles are formed as under :—

(1) *The Main (Teak) Working Circle.*—The areas in this circle are marked with the rotation of 40 years with a modified clear felling system. All advance growth or coppice growth of Teak, Hed, Kalamb, Shisham, Tiwas, Ain and Dhavda of and below 12" girth at B.H. on flat and gently undulating grounds are reserved.

(2) *The Fuel Working Circle.*—Babul forests are worked with a rotation of 25 years.

(3) *Pasture areas.*—The method is rotational grazing.

(4) *Protection Working Circle.*—Major felling operations are not carried out in these areas as regeneration does not become successful in these areas.

(5) *Kuran Working Circle.*—Some Kurans are reserved for military farms and units. Kurans on cutting terms are exploited by cutting of grass and other Kurans for grazing only.

For development of forests a number of schemes have been undertaken in the Five-Year Plans. In the Third Five-Year Plan the following schemes have been included amongst others :—

(1) Afforestation of arid and blank areas in 4,000 acre at a cost of Rs. 5 lakhs.

(2) Teak plantation to be raised in 100 acres.

(3) Bamboo plantation to be done in 1,400 acres.

(4) Afforestation and beautification of areas of Shivneri fort.

(5) Development of Bhimashankar Plateau.

(6) Raising of valuable and economic species in the catchment areas (about 5,000 acres) of Bhatghar and Vir dams.

(7) Plantation of cashewnut, teak and other timber fuel. Species to be raised annually in 500 acres in the Ghod valley.

The faunae in the district forest are limited. Panther, wild boar, barking deer, black buck, blue bull and hare are the important species found. Wild fowl, duck, partridge, peafowl, green pigeon, etc., are some of the feathered species commonly met with in the forests.

FISHERIES

Fishing activities in the district are naturally restricted to inland waters only, rivers, tanks and ponds being the chief sources. The total length of perennial rivers in the district is about 560 km. There are also 34 tanks and ponds and 3 reservoirs which provide about 26,700 acres of water spread area which is fairly large for development of fishing industry but it is largely intended for irrigation and runs out considerably by the end of summer.

The commercially important varieties of fish found in the district are :—

Kirkit or Shinghala, Murrel, Shivda (Pahadi or Daku), Chamar or Chalat, Pal or Dandaonya, Khavlya, Khaval, Kolshi, Zinga, Kharabi and Muri.

These varieties are however of not fast growing type. As such, under Five-Year Plan schemes, quick growing "Bengal Carps" are stocked annually in the perennial water tanks for propagation of pisciculture. The varieties stocked are "Catla Catla", Rohu and Mrigal. During the Second Five-Year Plan period about 5·03 lakhs of carp fry and 0·29 lakhs of nursery reared fingerlings were stocked while during only the first 2 years of the Third Plan period the quantity of fry stocked amounted to 3·94 lakhs. In the departmental deep tanks 3·38 lakhs of carp fry were stocked during Second Plan period. Similarly 0·84 lakhs of carp fingerlings (nursery reared fish) were stocked during the first two years of Third Plan period. The quantity of fish netted during the same period was about 7,600 kg.

The fish farm has been established at Hadapsar. The farm is utilised for undertaking research-*cum*-experimental centres on fish culture. Besides this, bay fishes of major carps are reared in the farm and grown up to fingerling size which are then released in the cultivable water sheets in the district.

An aquarium has been maintained by the Poona Municipal Corporation under the guidance of fisheries department.

In 1961 Census, 1,571 persons comprising 1,161 males and 410 females are reported as engaged in fishing as principal work. Fishermen in the district belong to the communities known as Bhois and Kolis. Fishing is generally done with the help of Gill nets of different meshes known as Bhusi, Kut, Tiwari, Pandi, etc., and cast nets known as Pagar. The nets are mostly made of cotton twine but these days nylon is also effectively used. Under the fishery requisites scheme financial assistance in the form of subsidy is given for purchase of nylon and cotton twine.

Six Co-operative Societies of fishermen have been organised in the district. The co-operative societies are given financial assistance in the form of loans and subsidy. They are also helped to secure tanks and ponds for purposes of pisciculture.

MINING AND QUARRYING

Large areas in the district are covered by Deccan Trap which is of use for building construction. Deposits of any minerals of economic importance have not been reported so far anywhere in the district. Mining activity in the district is, therefore, restricted only to quarrying of stones.

In 1961 Census, 1,377 persons are reported as working on quarrying of stones, clay, sand, etc., 974 of them are males and 403 females. 32 persons are also reported as engaged in other mining activities.

INDUSTRIES

The industrial development in this district is primarily that of Poona City and its suburbs. Large-scale and small-scale industries such as engineering, sugar, gur, chemicals, dyes, vegetable oils, pharmaceuticals, glass, brass utensils, processing, etc., have spread in places nearabout Poona on Bombay-Poona railway line. Industries have rapidly developed in the district, specially during the last two decades. There are about 160 large-scale factories at present. However, the non-agricultural employment also leans heavily towards village and cottage industries, i.e., the village crafts working on traditional lines with the locally available raw materials or for local demand. Proximity of Bombay City where industrialisation has no further scope due to lack of space, availability of sufficient power,

swift and efficient transport facilities of rail, road and air links with the City of Bombay and the policy of the Government to locate heavy industries near Poona City have all helped for the bright prospects for further industrial development in the district in the near future.

There are in all 116,102 workers engaged in manufacturing industries, 32,916 or 28·35 per cent of them are in household industries and 83,186 or 71·65 per cent in non-household industries. The total number of workers in the registered working factories in 1961 is 35,361 which forms 28·35 per cent of all workers engaged in industries or only 14 factory workers per thousand of total population against 20 per thousand of total population of Maharashtra.

The distribution of workers engaged in each industry major and minor group is shown in Table B-IV-C in Part II. The number of establishments and the number of workers for each industry minor group prepared from the houselists are also shown separately for each village in the Village Industries Table presented at the end of Part II.

Large-scale Factories

There are about 160 large-scale registered factories in the district with 50 or more workers and using power. Most of these are located in the Poona, Kirkee, Pimpri, Chinchwad and Hadapsar region. Biscuits, cocoa, chocolates, sweets, sugar, cotton textile, paper, printing and book-binding, rubber products, explosives, dyestuffs, pharmaceuticals, glassware, hume pipes, ferrous and non-ferrous, castings, metalware, diesel and other types of engines, compressors, machine tools, electric fans and cables, scientific instruments, etc., are some of the important products manufactured in the district.

As regards cotton textiles, (1) Raja Bahadur Motilal Poona Mills Ltd., Poona, (2) Shivaji Textile Works Co-operative Spinning Mill, Bhor (near Bhatghar) and (3) Shri Ganesh Textiles, Poona, are the important units. Raja Bahadur Motilal Textile Works, Poona, is the biggest textile unit in the district and has 550 looms and 26,180 spindles.

Ginning and pressing units are mostly located in Baramati taluka which employ over 460 workers.

Messers. Hindustan Antibiotics at Pimpri manufacture Penicillin and other antibiotic drugs. At present this is the only Unit in the country.

Walchandnagar Industries, Poona (Walchandnagar), Malegaon Sahakari Sakhar Karkhana Ltd., Baramati and Shri Chhatrapati Shivaji Sahakari Sakhar Karkhana Ltd., Sansar, are the three sugar manufacturing units in the district. The total crushing capacity licensed per day of all these units is 3,800 tons.

A Unit at Walchandnagar manufactures industrial alcohol from molasses.

Paper is manufactured by the Deccan Paper Mills at Mundhwa. The work of printing, lithography, book-binding, etc., is carried out at a number of places, some important ones are (1) Yeravda Prison Press, Poona, (2) Chitrashala Press, Poona, (3) Sakal Printing Press, Poona, (4) Kesari Printing Press, Poona, (5) Aryabhushan and Dnyanprakash Press, Poona, and (6) Government Photozincographic Press, Poona.

Rubber goods are manufactured at Swastic Rubber Products Ltd., Kirkee.

A unit has been established at Bhor, which produces coated cloth such as leather cloth, double-texture water-proof and book binding cloth, etc.

Dye-stuffs organic and inorganic colours, organic pigments and intermediates are prepared by (1) Arlabs Pvt. Ltd., Bhatghar (Bhor), (2) Sahyadri Dye-Stuffs Pvt. Ltd., Poona, and (3) Sudarshan Chemical Industries Pvt. Ltd., Poona. About 900 persons are working in this industry.

Glasswares are manufactured at Ogale Glass Works Ltd., Pimpri and Paisa Fund Glass Works, Talegaon (Dabhade). The latter is manufacturing a variety of glass products and has a pottery section also. This is of special significance as it has its origin in Swadeshi movement days. The J. G. Glass Industries at Pimpri has been established to manufacture glass tubings, jars, glass bottles and Penicillin vials and vacuum bottles are prepared by Eagle Vacuum Bottle Manufacturing Co., Ltd., Talegaon (Dabhade).

Kirloskar Oil Engines Ltd., Kirkee, Ruston and Hornsby (India) Ltd., Chinchwad, are the pioneers in internal cumbustion engines. Sugar machinery is manufactured by (1) Buckau Wolf New India Engineering Works, Pimpri and (2) Walchandnagar Industries Ltd., Walchandnagar. Investa Machine Tools and Engineering Co. Ltd., Chinchwad, and Cooper Engineering Ltd., Chinchwad, are engaged in the manufacture of machine tools. Electrical fans are manufactured by (1) Matchwel Electrical India Pvt. Ltd., Poona and (2) Globe Electrical Industry, Hadapsar. Mahindra Owen (P) Ltd. are manufacturing trailors and automotive equipment. Scientific instruments and scooters, three wheelers and parts thereof are manufactured by Bajaj Electricals Ltd. and Bajaj Auto Ltd. at Poona and Chinchwad. There is one Match factory run on co-operative basis at Poona, giving employment to about 300 women workers. An Industrial

unit has been started at Loni for the production of 22,000 radio sets and metalware components for 72,000 radio sets per annum. A unit in Poona produces coloured and copying pencils. A unit for ink blue and mythelene blue with a capacity of production of 30,000 lbs. per annum for each, has been set up at Poona.

There are four film studios engaged in the production of motion pictures.

There is a Central Workshop of State Road Transport Corporation at Dapodi.

In addition there are about 40 new large-scale licensed units which had not gone into production during the year 1962. They are units of sugar, industrial alcohol, cotton yarn, paper for textile cones and tubes, rubber canvass canveyor belts, automobile parts, oxygen gas, vat dyestuffs, Hamycine, Insulation Injectable Vitamin C, Streptomycin, glasswares, Penicillin vials, steel forging, slotted angle, hand and small tools, steam accumulators, internal cumbustion engines, textile machinery, chemical machinery, power driven pumps, air compressors, machine tools, ball rollers, electrical equipments, radio receivers, cylinder liners, industrial instrument, etc.

Small-scale Registered Factories

In 1962 there were over 600 small-scale registered establishments pertaining to gur, biscuits and confectionery, oil and oil cakes, aerated waters, bidis, handloom and powerloom cloth, dyeing, bleaching and processing, wooden furnitures, paper board and straw, printing and binding, leather tanning, drugs and pharmaceuticals, soap, perfumes and cosmetics, Agarbattis, bricks, cement tiles, iron and steel structurals, foundries, utensils, machinery spare parts, repair of motor vehicles, etc. The largest number of units is for gur, bidis, printing, utensils and repair of motor vehicles. These units are located in the vicinity of Poona City, Pimpri, Chinchwad, Hadapsar and Kirkee. These small-scale establishments together employ over 20 thousand workers.

The total number of registered factories has increased from 662 in 1956 to 716 in 1961. The number of workers in the registered factories also increased from 24,971 in 1956 to 35,361 in 1961.

According to the Census of Manufacturing Industries in 1959, the manufacturing industries in the district had a combined fixed capital of Rs. 1,049·08 lakhs and working capital of Rs. 867·2 lakhs. The total value of annual production was Rs. 1,738·2 lakhs and the value added by manufacturing was Rs. 558·0 lakhs. These figures relate only to the industries covered by the Census of Manufacturing Industries Act.

The value added by manufactures in the district in 1959 is 2·8 per cent of the total for Maharashtra.

Small-scale and Cottage Industries

In the sphere of small industries a wide range of products is manufactured either as consumer goods or as ancillaries for large-scale industries. In the cottage and small-scale industries sector, handloom, powerloom, engineering, gur, oil, soap, french polish manufacturing, basket making, brick making, dyeing and printing, etc., are some of the important industries in the district. Some of these manufacturing industries are traditional crafts conducted on household and cottage industries scale. The important centres for small-scale industries in the district are as follows :—

(1) Cotton Weaving	Poona.
(2) Wool Weaving	Bori, Velhe, Ashade and Jarkhedwadi.
(3) Handloom	Poona, Baramati, Manchar, Saswad, Nimgaon-Ketki, Pimpri, Junnar and Ale.
(4) Powerloom Weaving ..	Poona City.
(5) Brass, Copper and bell-metal works.	Poona City.
6) Footware	Poona City and Suburbs.
(7) Tanning	Poona, Velhe, Baramati, Talegaon Dhamdhere, Talegaon Dabhade, Kalamb and Moshi.
(8) Oil Pressing	Baramati, Bhor, Nasarapur, Supe, Khed, Kadus, Talegaon Dhamdhere, Sirur, Pabal, Junnar and Saswad.
(9) Potteries including Bricks, Tiles and Toys.	Baramati, Shivatakrar (Nira), Chinchwad, Otur, Saswad, Junnar, Ghodegaon, Dehu and Poona.

Production and rearing of livestock engages 11,304 workers. Junnar, Ambegaon, Khed, Maval, Mulshi, and Bhor talukas and Velhe mahal have large number of grazing lands and have, therefore, a good number of milch cattle. Rearing of cattle has become a subsidiary occupation for the agriculturists in this area.

10,805 workers are engaged in the production of sugar from sugarcane in factories. This large number of workers is due to the presence of three sugar producing units in the district. 9,469 persons are working in the manufacture of miscellaneous textile garments. This group includes 8,406 tailors who stitch garments for men and women. 6,024 workers are engaged in the manufacture of rope and cordages from jute. The raw material mainly from jute and similar fibre such as hemp required for this industry is brought from Satara, as the supply in

the district is not adequate. The centres for this industry are Poona, Saswad, Talegaon-Dabhade, Manchar, Khed and Baramati.

The cotton powerloom industry is located mainly at Poona. Side by side the art silk powerloom industry has also developed. There were 98 cotton and 35 art silk powerlooms in the district. There were also 2,211 cotton handlooms in the district on 31st March 1961. There were five oil-seeds crushing units engaging about 105 workers. The silver and brass-ware industry of Poona is wellknown. There are a number of establishments manufacturing utensils in Poona City alone. Next to handloom weaving, the tanning and leather working industries are important. A unit at Poona is producing guts for tennis and badminton rackets. Cadmium sulphate, silver nitrate, etc., are produced by a unit at Poona. Lasurne in Indapur taluka is an important gur manufacturing centre. Manufacture of Agarbatti is carried on in Poona City. Poona, Saswad, Khed and Vadgaon are known for bamboo-working industry. Poona City, Baramati and Indapur talukas are wellknown for bidi manufacturing. Fire bricks are made at Poona, Khed, Saswad and Manchar. Handmade paper is manufactured at Poona and Junnar. Poona City is famous for clay figures of various heights. Tape and felt or 'burnus' is made in Poona City.

There are 1,219 flour or rice mills engaging 2,030 workers. According to Occupational Classification 8,690 workers are engaged as tailors in the district. 13,220 persons are working as farm workers, animal, birds and insects rearing. These include the workers engaged in production and rearing of animals for milk. 6,891 workers are engaged as carpenters, joiners, pattern-makers (wood). They are mostly the carpenters who manufacture, fix or repair doors and door-frames, wooden roof beams, furniture and agricultural implements. 3,730 workers are engaged as electricians, electrical repairmen, linemen and cable jointers, etc., while 5,843 persons have their occupation as mechanics, repairmen, etc. Most of these persons are the workers in various engineering and electrical industrial establishments in both Government and private sectors in the district.

The proportions of different groups of artisans to one lakh of total population in the district are as follows:—

Blacksmiths 199; Carpenters 279; Shoe-makers and repairers 169; Potters 148; Tailors and dress-makers 352; Spinners and weavers 140; Basket weavers 81.

The Industries Department has started peripatetic schools and training centres to impart training to artisans at various places in the district. Training-*cum*-production centres in the manufacture of small tools and other articles such as screw drivers, padlocks, locks, umbrellas, cycle bells and spare parts, etc., have also been started. For conducting research and for training purposes, following institutions have been established: (1) Village Industries Experimental Workshop, (2) Village Industries Research Laboratory, (3) Dyeing and Printing Experimental Laboratory, (4) Wool Utilisation Research Centre and (5) Research Laboratory-*cum*-Sample Production Centre.

Schemes for the development of handloom, woollen and tanning and leather working industries have been included in plan programme of the district. The Maharashtra State Village Industries Board has started three Khadi units, one pollination centre for bee-keeping industry, two handmade paper centres, one centre for intensive development of village industries and 30 tanning pits in the district in consultation and with the financial participation of All India Khadi and Village Industries Commission.

The "Master Plan" prepared by the Industries Department in 1960 had indicated scope for establishment of the following new industries in the district:—

(1) Surgical cotton.

(2) Solid tannin extract (Myrobalans).

(3) Cold storage plant, refrigeration van service for vegetables, fruits, etc.

(4) Alcohol based industries.

(5) Citric acid.

(6) Industrial rubber goods.

(7) Internal combustion engines.

(8) Automobile parts and spare parts for earth-moving equipment.

(9) Industrial plant and machinery.

(10) Machine tools.

(11) Non-ferrous bars and tubes.

(12) Scientific instruments.

(13) Electrical motors, transformers and control switch gears.

(14) Raw film.

Industrial Estates

With the increasing tempo of industrialisation visualised in the near future, facilities for the expansion of industries are provided near Poona in equally suitable areas. Poona is fast developing and expanding due to several reasons. Pimpri-Chinchwad area on Bombay-Poona road is gaining importance for industrial

development and a number of industrial units are coming up in this area day by day. A Trading Estate at Hadapsar has been established during the Second Five-Year Plan under the management of Poona Municipal Corporation. Construction of small-scale and large-scale industrial units is in progress in this area. Facilities like water, electricity, posts, telegraphs, telephones, etc., have been provided in this area.

New Industrial Estates at Parvati, Gultekadi, Lonavla, Baramati and Bhor are proposed to be established initially in the Third Five-Year Plan. The former is a Government Estate while the latter two will be run on co-operative basis.

A functional Government Industrial Estate at Bhosari near Poona has been established specially for radio electronic and electrical instruments.

POWER

The number of electrified towns and villages in this district is 83. Their talukawise lists are shown in Table 31 in Part III. The total population of these electrified places is 44 per cent of the total population of the district.

The district consumption of electricity on different items for eight years is shown in Table 30 in Part III.

The *per capita* consumption is about 27·9 kwh. for the district and is much lower than the State average which is 48·7 kwh. as only 83 towns and villages out of 22 towns and 1,498 inhabited villages in this district have been electrified.

The district receives its electricity supply through the Maharashtra State Electricity Board as well as through private concerns. There are nine distributing agencies including the State Electricity Board in the district. In addition, some of the sugar factories have their own generating stations. The Board has its grids for distribution to the Poona City and the rural areas between Lonavla and Talegaon Dabhade. The power is purchased from Tata Hydro Group and distributed specially in rural areas for agricultural purposes, small-scale and cottage industries and for domestic lighting. Apart from this, Baramati, Dhond and Junnar areas get their electricity supply through generating sets run on diesel oil by private concerns. However, the licensees of Baramati and Junnar area were required to close their diesel power stations which were rendered surplus as a result of power supplied to them from the Koyna Hydro-Electric Project. The stations at Bhor, Nasarapur and Nira-Lonand get supply of electricity from the Bhatghar Hydro-Electric Project of Satara district.

During the period of the First Plan, two schemes benefiting the district were taken up, *viz.*, the Chola Power Station and rural electrification between Lonavla and Talegaon Dabhade. Under the former scheme three production units of 18,000 kw. capacity each were installed at Chola with a view to relieving the power shortage in Bombay-Poona area. Transmission H. T. lines of about 84·25 miles and L. T. lines of 47·67 miles were laid to supply power to the villages in the talukas of Khed and Haveli.

Koyna-Sholapur Extension Scheme, which is part of the Koyna Hydro-Electric Project, strengthens the Bhatghar System by supplying power from the Tata's Ganeshkhind Sub-station, Poona.

With the strengthening of the Koyna-Tata Railway pool, cheap and abundant power will help further industrial growth and provide electricity for domestic use in towns and villages in the district, in near future.

TRADE AND COMMERCE

Poona City serves as an entrepot of the district, as it is connected to Bombay, the main centre of trade in the State as well as to other important places by rail and road. The principal commodities of export from the district are foodgrains, gur, potatoes, vegetables, fruits, betel leaves, colouring roots used for dyeing, manufactured goods like brassware, shoes, silk cloth, handloom cotton cloth, ivory, wooden toys, myrobalans, honey, etc. Vegetables, fruits, betel leaves are exported from Haveli and Purandhar talukas and potatoes from Junnar and Khed. Betel leaves are sent in large quantities to Bombay from Junnar, Khed, Purandhar, Indapur and Baramati. Metalwares are sent to Bombay, Sholapur, Satara and Kolhapur. Rice, jowar, wheat, gram, tur, Kulith, math, udid, mug, "Khursani", other oil-seeds and cotton seeds, " mhowa" flowers, salt, fish, sugar tea, coffee, tobacco, timber, cotton, woollen and silk piecegoods, kerosene oil, match-boxes, etc., are the chief articles mainly imported from Bombay and other adjoining districts. Salt and dry fish are brought from Bombay and Thana. Groceries too are imported mainly from Bombay. Tobacco is brought from Kolhapur.

Agriculturists themselves bring their produce for sale to the markets. Some of the foodgrains and pulses are imported from the villages through commission agents or the agents themselves go to the villages and purchase the produce from the

producers. The distribution of goods beyond the wholesale trade centres is done at market places and weekly bazars held at different places and on different days of the week.

Shops

Every village is within the reach of one of the weekly bazars or in addition has one or more shops. These shops provide the inhabitants with their day to day requirements. They deal in all sorts of articles, such as grains, groceries, oils, gur, spices, salt, cocoanuts, soap, tea, tobacco, betelnuts, chillies and innumerable articles required by people for their daily use. There are in all 17,831 shops in the district, 6,018 are in rural areas and 11,813 in urban areas. These do not include the shops temporarily set up in weekly markets or fairs. The number of shops per 1,000 dwellings is 41·0 for the district as a whole, 22·7 for rural areas and 70·7 in urban areas. It will be seen that the urban areas have about three times more shops than rural areas. The ratio between the shops and 1,000 dwellings for the district is more than the State average of 36·4. Talukawise number of shops may be seen in Table E-I in Part II.

Weekly Markets

The distribution and collection of goods is generally done through trade centres which are popularly known as " bazars ". They are distributing rather than collecting centres. All sorts of articles like foodgrains, pulses, oils, chillies, spices, groceries, gur, cloth, fruits, vegetables, cattle, miscellaneous articles such as pots, pans, etc., are sold in these markets. Besides these articles shoes, ropes, brooms, baskets, blankets, cotton and soap are also offered for sale in some of the selected weekly markets. Pedlars and hawkers set up booths on the market days. Agriculturists from the nearby villages also bring their farm produce. The traders and shop keepers belonging to the market place also set up temporary stalls. Buyers are the villagers from nearby villages within a distance of 4-5 miles and the people of the market place. The weekly markets start early in the morning and after a slack of an hour or so in the afternoon close by six in the evening to enable both the buyers and sellers to reach home before it is dark.

Cattle markets are held once a week at Baramati, Ghodnadi, Junnar, Indapur and Manchar and twice a week in Poona City, *i.e.*, on Wednesdays and Sundays. Horses, ponies, cows, buffaloes, sheep and goats are brought for sale and the buyers are generally the agriculturists.

Column (7) of the Village Directory in Part I shows for each village in the district if a weekly market is held and if so, the day on which it is held.

A list of weekly markets in the district given in Table 32 in Part III and the map facing page 277 shows the location and day on which each bazar is held.

The District Gazetteer had reported only 44 weekly and bi-weekly markets for the district in 1885. Their number in 1960-61 has increased to 126, out of which 10 are also cattle markets. 22 weekly markets are held on Sunday, 14 on Monday, 19 on Tuesday, 14 on Wednesday, 15 on Thursday, 20 on Friday and 22 on Saturday.

The map facing page 277 shows that four or five weekly markets cluster as satellites around a central village. Each has its bazar on one of the week days keeping the pedlars and hawkers engaged throughout the week and also providing a choice to buyers to go to one nearby market or the other.

Fairs

Fairs are complementary to weekly markets and sometimes consist of gathering of unusually large number of persons. They are generally held in honour of some local deities or religious festivals and are chiefly distributing centres. Several temporary shops are opened by pedlars, hawkers, itinerant merchants, villagers and petty shopkeepers. Wholesale traders usually do not attend these fairs for transactions. Considerable quantities of agricultural produce and other articles of daily use, including toys and luxury goods are brought for sale. The buyers are usually the residents from the village and its neighbourhood and pilgrims from distant places. A list of fairs held in the district showing their locations, duration and dates and approximate number of persons attending is presented in Table 33 in Part III. The map facing page 278 shows the location of all the fairs in the district, having 1,000 or more gatherings.

A Census Report presenting detailed information regarding fairs and festivals is also issued separately.

Trade Centres

The chief agencies for spreading imports and gathering exports, apart from weekly markets and fairs, are the wholesale trade centres. There are nine wholesale trade centres in the district, as far as collection and export of agricultural produce are concerned. All these markets are regulated under the Bombay Agricultural Produce Markets Act, 1939.

A list of principal market yards and their sub-markets is given on next page.

Principal Market Yard	Sub-markets
Baramati	..
Khed	Chakan.
Manchar	..
Sirur	Talegaon Dhamdhere, Saswad.
Shivatakrar (Nira)	Bhor.
Poona	..
Dhond	Kedgaon, Yewat.
Indapur	(1) Bhigwan.
	(2) Nimgaon-Ketki.
Junar	..

The commodities at these regulated markets are gur, groundnut, chillies, potatoes, val, etc. The figures of value of turnover of commodities at some of these regulated markets during the year 1958-59 are given below :—

Market Committee	Total value in Rs.
Baramati	1,52,90,446
Khed	5,89,160
Nira	52,38,627
Sirur	27,31,625
Poona	21,00,000

Poona City is a very important collecting and distributing centre for gur, groundnut, other oil-seeds, cotton, chillies, etc. Some of the regulated markets in the district are managed by committees consisting of representatives of agriculturists, traders and the Government. Essential amenities like market yards, buildings, rest-houses, cattle sheds, godowns, fencing, etc., have been provided at these markets. There is a warehouse built by the Government at Bhavani Peth in Poona City. Besides providing adequate storage accommodation, the warehouse serves as a source of easy and adequate credit facilities through negotiable receipts against the agricultural produce stored therein.

Workers in Trade and Commerce

The total number of persons engaged in trade and commerce in the district in 1961 is 51,654, out of which 10,283 or 19·91 per cent are in rural areas and 41,371 or 80·09 per cent are in urban areas. The number of workers in trade and commerce accounts for 4·90 per cent of all the workers in the district. 65·53 per cent of the district total is in Poona City taluka only.

Only 4·03 per cent of the workers in trade and commerce are engaged in wholesale trade, 89·65 per cent in retail trade and 6·32 per cent in miscellaneous trade and commerce. About 97 per cent of the wholesalers are in urban areas.

The number of wholesalers trading exclusively in cereals and pulses is 151 only. Mostly, the wholesale trade of cereals and pulses appears to be combined with wholesale trade of gur, sugar, spices, groundnut, oil, etc., as the number for this group is 505 for the district.

A detailed break-up of the workers in trade and commerce by industry major groups and minor groups is shown in Table B-IV-C in Part II.

Banking Offices

A list of banking offices with their years of establishment, type and location is given in Table 23 in Part III. Their break-up by talukas and type is shown below :—

	Number of Banking Offices			
	Scheduled	Non-Scheduled	Co-operative	Total
DISTRICT TOTAL ..	23	8	32	63
(1) Junnar Taluka ..	..	..	2	2
(2) Ambegaon Taluka ..	..	..	2	2
(3) Khed Taluka ..	2	..	2	4
(4) Sirur Taluka ..	..	..	2	2
(5) Maval Taluka ..	..	1	2	3
(6) Poona City Taluka ..	18	4	12	34
(7) Haveli Taluka ..	..	..	1	1
(8) Dhond Taluka ..	..	..	2	2
(9) Mulshi Taluka ..	..	..	2	2
(10) Velhe Mahal ..	..	..	..	..
(11) Purandhar Taluka ..	..	..	2	2
(12) Baramati Taluka ..	2	1	1	4
(13) Indapur Taluka ..	1	..	1	2
(14) Bhor Taluka ..	..	2	1	3

Poona City being an important commercial centre as well as the district headquarters is leading in banking activities and has more than half of the total number of banking offices in the district. Most of the talukas except Velhe mahal which has no banking offices at all, have at least one branch of the Central Co-operative Bank.

The State Bank of India works for the treasury in the district and has branches at Poona, Baramati, and Khed.

COMMUNICATIONS AND TRANSPORT

Poona City, the district headquarters and Dhond are the important junction stations of the railways in the district. The Bombay-Madras line and the Bombay-Manmad *via* Dhond pass through Poona while the Bangalore line of the Southern Railway starts from Poona city only. The railways pass through the talukas of Baramati, Dhond, Indapur, Haveli, Maval, Purandhar and Poona City and connect these talukas with cities of Poona, Bombay and the adjoining districts of Ahmadnagar, Satara, Sholapur and Nasik.

The Bombay-Madras and the Bombay-Manmad broad-gauge lines have a common line up to Dhond from where a section branches of to Manmad and the other towards Madras *via* Sholapur. Both these lines have a mileage of 113·54 miles in the district. Out of this, 41 miles of electrified double line serves from Khandala to Poona. The remaining 69·94 miles is a single broad-gauge line comprising section of Poona to Hotgi. The single broad-gauge line from Dhond to Manmad has a mileage of about 2·6 miles in the district. Both these lines belong to the Central Railway and have 24 stations on this route through the district. Another Dhond-Baramati narrow-gauge section of the Central Railway emanates from Dhond and has a mileage of 27·31 miles in the district. Besides Dhond, it has four stations.

The Poona-Bangalore metre-gauge line of 48·38 miles of the Southern Railway starts from Poona towards South in the district. This line runs almost parallel to the main line of the Central Railway for about 10 miles. Besides Poona it has 10 stations in the district.

The total railway mileage in the district is 189·23 miles which represents 3·14 miles per 100· miles of area, as against 2·66 miles per 100. miles in the State.

Table 21 in Part III shows the existing road mileage in the district as well as its break-up by the type of road surface. The frontispiece district map and the taluka maps in Part I show all these roads.

Poona City is well connected not only by roads and railways but also by air with important cities and towns in the country. The city which is the district headquarters, as well as the important places in the district are well connected by roads with Bombay, the State Headquarters, and the adjoining district of Ahmadnagar, Satara, Sholapur, Thana and Kolaba. The district headquarters is also well connected by roads with all the taluka headquarters. The western part of the district is a hilly terrain and the roads leading to Thana and Kolaba districts pass through ghats, the important of which is Bhor (Khandala). The roads are comparatively less in number in Khed, Maval, Mulshi and Bhor talukas.

The National Highways serving many places traverse practically the length and the breadth of the district. The Bombay-Bangalore-Madras Highway (National Highway No. 4) touches places like Khed, Poona, etc., the Poona-Hyderabad Road (National Highway No. 9) emanates from Poona and passes through Indapur while the Poona-Sangamner-Nasik Road (National Highway No. 50) starts from Poona and joins the Bombay-Delhi National Highway at Nasik. The total mileage of these National Highways in the district is 210·64 miles.

During the period 1951—61, the National Highway increased by 0·01 miles only. The State Highways increased by 8·25 miles. The Major District roads, however, decreased by 31·64 miles. The other District Roads and Village Roads increased to the extent of 30·15 miles and 18·37 miles, respectively. The total increase in all types of roads (excluding municipal roads) is 25·14 miles. The decrease in the mileage of the major district roads may be due to the transfer to these types of roads into other categories.

Under the Nagpur Plan the district should have 2,405·70 miles of roads. It was short of that target by 774·44 miles on 31st March 1961.

New Roads

Construction of the following roads is in progress (as on 31st March 1962):—

(1) Diversion on Poona-Nasik road near village Eklahare; (2) Mahad-Pandharpur road (near Bhor); (3) Pirangut-Muthe road; (4) Dehu-Alandi-Tulapur road; (5) Approach road to Shivneri fort at Junnar; (6) Kalamb-Anthurne road; (7) Lasurne-Chikhali road; (8) Udhat-Sansar road; (9) Sansar-Kurwali road; (10) Sangavi-Kambleshwar-Late-Korhale road; (11) Kalamb-Lasurne road; (12) Kalamb-Nimsakhar road; (13) Malegaon-Shirashne road; (14) Hadapsar-Nira road.

Improvement of the following roads is in progress (as on 31st March 1962):—

(1) Poona-Paud road; (2) Indapur-Akluj road; (3) Indapur-Nira road.

New Bridges

Work on the following bridges is in progress (as on 31st March 1962):—

(1) Nimgaon Nallah on Indapur-Nira road; (2) Rautwade Nallah on Indapur-Nira road; (3) Nira river at Kalamb; (4) Nira river on Poona-Bangalore road.

Posts, Telegraphs and Telephones

The district is included in the Poona Postal Division. Head Post Office is situated at Poona with sub-offices at taluka headquarters and towns. The bigger villages have branch post offices. During the year 1961-62 there were 95 sub-post offices and 285 branch post offices. Together their number has increased by 78 per cent over that of 1951-52. The number of post-boxes in the district is 310 in 1961-62.

There are Telegraph Offices at the following 63 places :—

(1) A. G. College, (2) Ale, (3) Ammunition Factory, Kirkee, (4) Aundh Camp, (5) Bhawani Peth, (6) Bhigwan R. S., (7) Baramati, (8) Bhor, (9) Chakan, (10) Chinchwad, (11) C. M. E., Kirkee, (12) C.O.D., Dehu Road, (13) Dehu Road Cantonment, (14) Dhond, (15) Deccan Gymkhana, (16) East Kirkee, (17) Ganeshkhind, (18) Ghoda (Ghodegaon), (19) Ghodnadi (Sirur), (20) Ghorpadi, (21) Indapur, (22) Junnar (sirur), (23) Jejuri, (24) Kedgaon, (25) Khadakvasla N. C., (26) Khandala, (27) Khed (Poona), (28) Kirkee, (29) Kirkee Arsenal, (30) Kirkee Bazar, (31) Lonavla, (32) Manchar, (33) Narayangaon, (34) Naval (Lonavla), (35) National Chemical Laboratory, (36) Nira Railway Station, (37) Paud, (38) Pimpri Penicillin Factory, (39) Pimpri Colony, (40) Poona New Bazar, (41) Poona Cantonment East, (42) Rasta Peth, (43) Raviwar Peth, (44) Sadashiv Peth, (45) Sachapir Street, (46) Sasvad, (47) Salisbury Park, (48) Shivajinagar, (49) Southern Command, (50) Sir Parashuram Bhau College, (51) Supa (Poona), (52) Talegaon Dabhade, (53) Talegaon Dhamdhere, (54) Talegaon G. Hospital, (55) Vadgaon, (56) Velhe, (57) Velyachi Peth, (58) Walchandnagar, (59) Wanwadi, (60) Poona Weather Office, (61) Yeravda, (62) Lokmanya nagar, (63) Bhavaninagar.

The following 47 places have Telephone connections :—

(1) A. G. College, (2) Ale, (3) Alandi Deo, (4) Bajirao Road, (5) Baramati, (6) Bhor, (7) Chakan, (8) C. M. E., Kirkee, (9) Dehu Road Cantonment, (10) Dhond, (11) Deccan Gymkhana, (12) Ghoda (Ghodegaon), (13) Ghodnadi (Sirur), (14) Indapur, (15) Junnar, (16) Kedgaon, (17) Khadakvasla North Camp, (18) Khandala, (19) Khed (Poona), (20) Kirkee, (21) Lokmanyanagar, (22) Lonavla, (23) Manchar, (24) Narayangaon, (25) Narayan Peth, (26) National Chemical Laboratory, (27) Nira Railway Station, (28) Parvati Darshan, (29) Paud, (30) Pimpri Penicillin Factory, (31) Pimpri Colony, (32) Poona Head Office, (33) Poona New Bazar, (34) Rasta Peth, (35) Raviwar Peth, (36) Sadashiv Peth, (37) Sasvad, (38) Shivajinagar, (39) Southern Command, (40) Sir Parashuram Bhau College, (41) Talegaon Dabhade, (42) Talegaon Dhamdhere, (43) Talegaon General Hospital, (44) Vadgaon, (45) Velhe, (46) Walchandnagar, (47) Yeravda.

Passenger Road Transport

Poona has the unique distinction of being the first district in the state where the scheme of nationalisation of motor bus transport was introduced. The State Road Transport corporation ran its first bus from Poona to Ahmadnagar in June 1948. During the Plan period, a number of roads connecting the villages were constructed and the buses of the State Road Transport Corporation are running regularly on these roads. This district is included in the jurisdiction of Poona S. T. Division. There are eight depots situated at (1) Bhor, (2) Narayangaon, (3) Khed, (4) Talegaon, (5) Sirur, (6) Shivaji Nagar, (7) Swargate and (8) Baramati. The Divisional headquarters is at Poona. No separate figures for passenger transport are available for the district, as the division also includes part of Satara district. The Baramati Depot from the district is included in the jurisdiction of Sholapur S. T. division. The eight depots together run buses on 155 routes which perform 633 single trips per day. There are also seven permanent and 9 temporary bus stations situated in the district.

Special parcel booking and delivery services have also been arranged by the S. T. at eleven places in the division. Moreover, arrangements in collaboration with the Railways have been made to carry goods at Narayangaon, Manchar and Khed in the district. The parcel service from Poona to Kolhapur and back runs three times a week. Luxury buses run to places like Mahabaleshwar and Lonavla regularly during the summer. Express buses are scheduled for long distances from this division.

Nationalisation of passenger road transport in the district has been completed by the end of the Second Five-Year Plan. The Third Five-Year Plan schemes include expansion of the services to new places on public demand, construction of permanent bus stations and pick-up stands and provision of other facilities for travelling public.

In addition, the City Bus Service which was formerly owned by a private company known as Silver Jubilee Motor Ltd. is run by the Poona Municipal Corporation since 1st March 1950. This City Service also connects suburban places like Kondhwa, Hingne, Pashan, Aundh, Kirkee, etc.

The planes flying between Bombay and Bangalore, Belgaum and Goa halt at Lohogaon aerodrome which is seven miles north-east of Poona City. This aerodrome is under the control of the Defence Department, as it is military airfield. There is also one glider club at Poona.

Goods Transport

Separate figures for lorries operating in the district are not available, as the Regional Transport Officer working at Poona keeps combined records for his region including Poona, Ahmadnagar, Satara, Sholapur, Sangli and Kolhapur districts.

Workers in Transport and Communications

28,553 persons are engaged in transport and 3,404 in postal, telegraphs and telephone communications in the district. Out of the workers in transport 10,754 are in railway transport, 6,546 in motor and bus transport and 11,253 in other kinds of transport like bullock carts, auto rickshaws, tongas, horses on hire, coolies, etc.

Communication in Rural Areas

The Village Directory in Part I gives information for each village in the district whether it is served by a railway or a road or has a post office or not.

CONSTRUCTION

The total number of persons engaged in construction is 29,922, 24,085 are males and 5,837 are females. Their distribution by minor groups is shown in Table B-IV-C in Part II.

37·29 per cent of the workers are engaged in the construction and maintenance of dams, waterways and canals, etc., 14·01 per cent in the construction and maintenance of roads, bridges, etc., 0·17 per cent in the construction and maintenance of telegraph and telephone lines and 48·53 per cent in construction and maintenance of buildings, etc. The large proportion of workers engaged in the construction of buildings includes those working on private houses as well as those engaged in construction of buildings for administrative offices, residential quarters for Government servants, police quarters, hospitals, dispensaries, nurses quarters, tenements under low income group housing scheme, etc.

The proportion of workers under construction of dams, waterways, etc., though smaller than the building activity, is still comparatively high. This is mainly due to the construction of dam on Mutha river at Panshet where on an average 2,000 workers were employed. The dam, started in 1956-57, was completed in June 1961 and was subsequently washed away in July 1961 resulting in the worst calamity in the history of Poona City. The other irrigation projects in the district are canal works of Ghod Dam Project, construction of Vir Dam and other minor irrigation projects.

All workers engaged in construction together constitute only 2·84 per cent of the total workers in the district.

OTHER SERVICES

141,467 persons are engaged in the district in "Other Services", 116,413 comprising males and 25,054 females. The major sectors of their engagements are: (i) Public Services; (ii) Educational Services; and (iii) Personal Services. "Public Services" include administrative employees of Central, State and Local Governments. "Educational Services" include all classes of teachers and "Personal Services" include domestic servants as well as barbers, washermen and others rendering professional services to persons or households. The distribution of workers in other services by minor groups is shown in Table B-IV-C in Part II.

13·43 persons of the total workers are engaged in "Other Services" as against 8·53 per cent in the State. 41·55 per cent of the total workers in "Other Services" in the district are engaged in "Public Services" and 12·82 per cent in "Educational Services". Both these proportions are higher than the corresponding proportions (23·86 per cent and 12·40 per cent) for Maharashtra. This is mainly due to the presence of a number of Central and State Government offices as well as existence of a large number of educational institutions, since Poona is known as a seat of learning. The district is also well advanced in educational field and ranks next to Greater Bombay. The proportion of "Personal Services" in the district is 20·84 per cent which is lower than the State average of 27·15 per cent.

The number of domestic servants is 12,794 or one for 193 population. The number of barbers is 3,883. The number of persons in laundry services including the washermen is 3,112.

There are 823 legal practitioners and 6,316 persons working in medical and health services excluding veterinary services.

The number of persons including the teaching staff in technical schools and colleges is 2,101 and that in other schools and colleges is 14,552.

The number of State Government employees including those now working under the Zilla Parishad is 16,850.

BROAD ASPECTS OF ECONOMY

Individual sectors of economy of the district have so far been described separately. A few broad aspects may now be discussed for the economy as a whole.

Labour Participation Rates

The proportions of workers to total population, males and females for the district and each taluka are as follows :—

	Percentage proportion of workers		
	Total	Males	Females
MAHARASHTRA	47·91	57·09	38·10
POONA DISTRICT ..	42·69	52·86	31·93
1 Junnar Taluka	48·88	51·54	46·31
2 Ambegaon Taluka ..	50·84	52·30	49·42
3 Khed Taluka	52·59	55·38	49·79
4 Sirur Taluka	51·95	56·92	46·91
5 Maval Taluka	45·52	56·12	34·20
6 Poona City Taluka ..	30·35	48·26	9·79
7 Haveli Taluka	42·77	54·32	30·02
8 Dhond Taluka	48·11	57·57	37·96
9 Mulshi Taluka	51·37	57·95	44·76
10 Velhe Mahal	51·83	61·37	42·02
11 Purandhar Taluka ..	46·61	52·15	41·21
12 Baramati Taluka	45·41	54·45	36·09
13 Indapur Taluka	46·65	56·64	36·01
14 Bhor Taluka	47·00	52·28	42·07

The labour participation rate varies from 52·59 in Khed taluka to 30·35 in Poona City taluka. Male participation is highest with 61·37 per cent in Velhe mahal and female participation is highest in Khed taluka with 49·79 per cent. Male participation rates are higher in Dhond and Mulshi talukas and Velhe mahal than the State average of 57·09 per cent. The female participation rates are higher in Junnar, Ambegaon, Khed, Sirur, Mulshi, Purandhar and Bhor talukas and Velhe mahal than the State average of 38·10. Poona City taluka has lower participation rate because whole of the taluka except one village consists of urban area. The male participation rate of 48·26 per cent in Poona City taluka is lower and that of females (9·79 per cent) is still lower than the district and State averages. Very low participation rate for females in Poona City taluka may be due to the less chances of their employment. The district average ratios are also lower than the State average for the total as well as for males and females.

Primary, Secondary and Tertiary Sectors

The Primary Census Abstract shows the distribution of workers in the nine categories of economic activity. Table B-IV-C in Part II shows detailed industrial classification of all workers other than those at cultivation. The percentage distribution of workers in Primary, Secondary and Tertiary activities for the district and the State is as follows :—

		Total workers	Primary	Secondary	Tertiary
Maharashtra ..	Total	100·00	72·25	12·34	15·41
	Rural	100·00	88·73	5·68	5·59
	Urban	100·00	11·97	36·69	51·34
Poona District..	Total	100·00	64·36	14·00	21·64
	Rural	100·00	86·35	8·04	5·61
	Urban	100·00	6·50	29·67	63·83

The primary sector is predominant in the district with 64·36 per cent of the total workers engaged in it as against the State average of 72·25 per cent. The pattern of rural areas is almost similar to that of average for rural area of the State. But the urban areas have much smaller proportion of workers in the primary sector and larger proportion in the tertiary sector than the average for urban areas in Maharashtra. Proportion of workers in secondary sector is larger in rural areas (8·04 per cent) than the rural State average (5·68 per cent) and that in tertiary sector is almost equal in rural areas of the district to the rural State average. The proportion in secondary sector is less in urban areas of the district to that of the State average but as already stated, in tertiary sector the proportion in urban areas of the district is larger than the State urban average.

Categories of Economic Activity

The distribution of workers, males and females, by nine categories of economic activities for the district and the State is as follows :—

Category	Maharashtra			Poona District		
	Persons	Males	Females	Persons	Males	Females
I Cultivation ..	45·11	40·69	54,79	52·94	42·96	70·45
II Agricultural Labour.	23·80	13·12	32·90	9·29	7·04	13·22
III Mining, Quarrying, Livestock, Fishing etc.	2·16	2·97	0·86	1·44	1·75	0·89
IV Household Industry	4·39	4·80	3·74	3·95	4·30	3·33
V Manufacturing other than Household Industry.	6·88	10·22	1·54	7·90	11·34	1·87
VI Construction	1·24	1·69	0·53	2·84	3·59	1·53
VII Trade and Commerce.	4·52	6·61	1·17	4·90	6·85	1·49
VIII Transport, Storage and Communications.	2·36	3·65	0·29	3·31	4·81	0·67
IX Other Services ..	8·54	11·25	4·18	13·43	17·36	6·55
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

As described earlier the district has larger proportion of workers engaged as cultivators than the State average while the district has (9·29 per cent) a very low proportion of agricultural labourers than the State average (23·80 per cent). The proportion of workers engaged in other services is 13·43 per cent in the district which is higher than the State average of 8·54 per cent. In manufacturing other than household industry the district has 7·90 per cent of the workers as against 6·88 per cent for the State average. The proportions in construction, trade and commerce and

transport, storage and communications are higher in the district whereas the proportions in household industry and mining, etc., are lower in the district than the corresponding State average.

Talukawise distribution of workers in nine categories of economic activities is shown below. Corresponding figures for the State and the district are also shown for comparison.

Distribution of workers by nine categories of economic activity is also shown in the Figure on page (61) for the district and each taluka separately.

The proportions both of cultivators and agricultural labourers considerably varies from taluka to taluka. The proportion of cultivators varies between 81·46 per cent for Khed taluka and 1·27 per cent for Poona City taluka. The proportions of agricultural labourers varies from 1·19 in Poona City taluka to 25·13 per cent in Baramati taluka. Poona City taluka has a very negligible rural area and is, therefore, a non-agriculture area. It has 23·02 per cent of its workers engaged in manufacturing industry. 10·18 per cent and 12·04 per cent workers in Haveli and Indapur talukas, respectively, are engaged in manufacturing other than household industry. All the three talukas referred to earlier have much larger proportion of workers engaged in manufacturing other than household industry than the State average 6·88 per cent. Among them Poona City taluka is highly urbanised. Dhond taluka and Velhe mahal have larger proportion of workers engaged in construction. Trade and Commerce and Transport sectors also engage sizable proportion of workers in Poona City taluka. Other services category has also larger proportion of workers in Poona City, Maval and Haveli talukas.

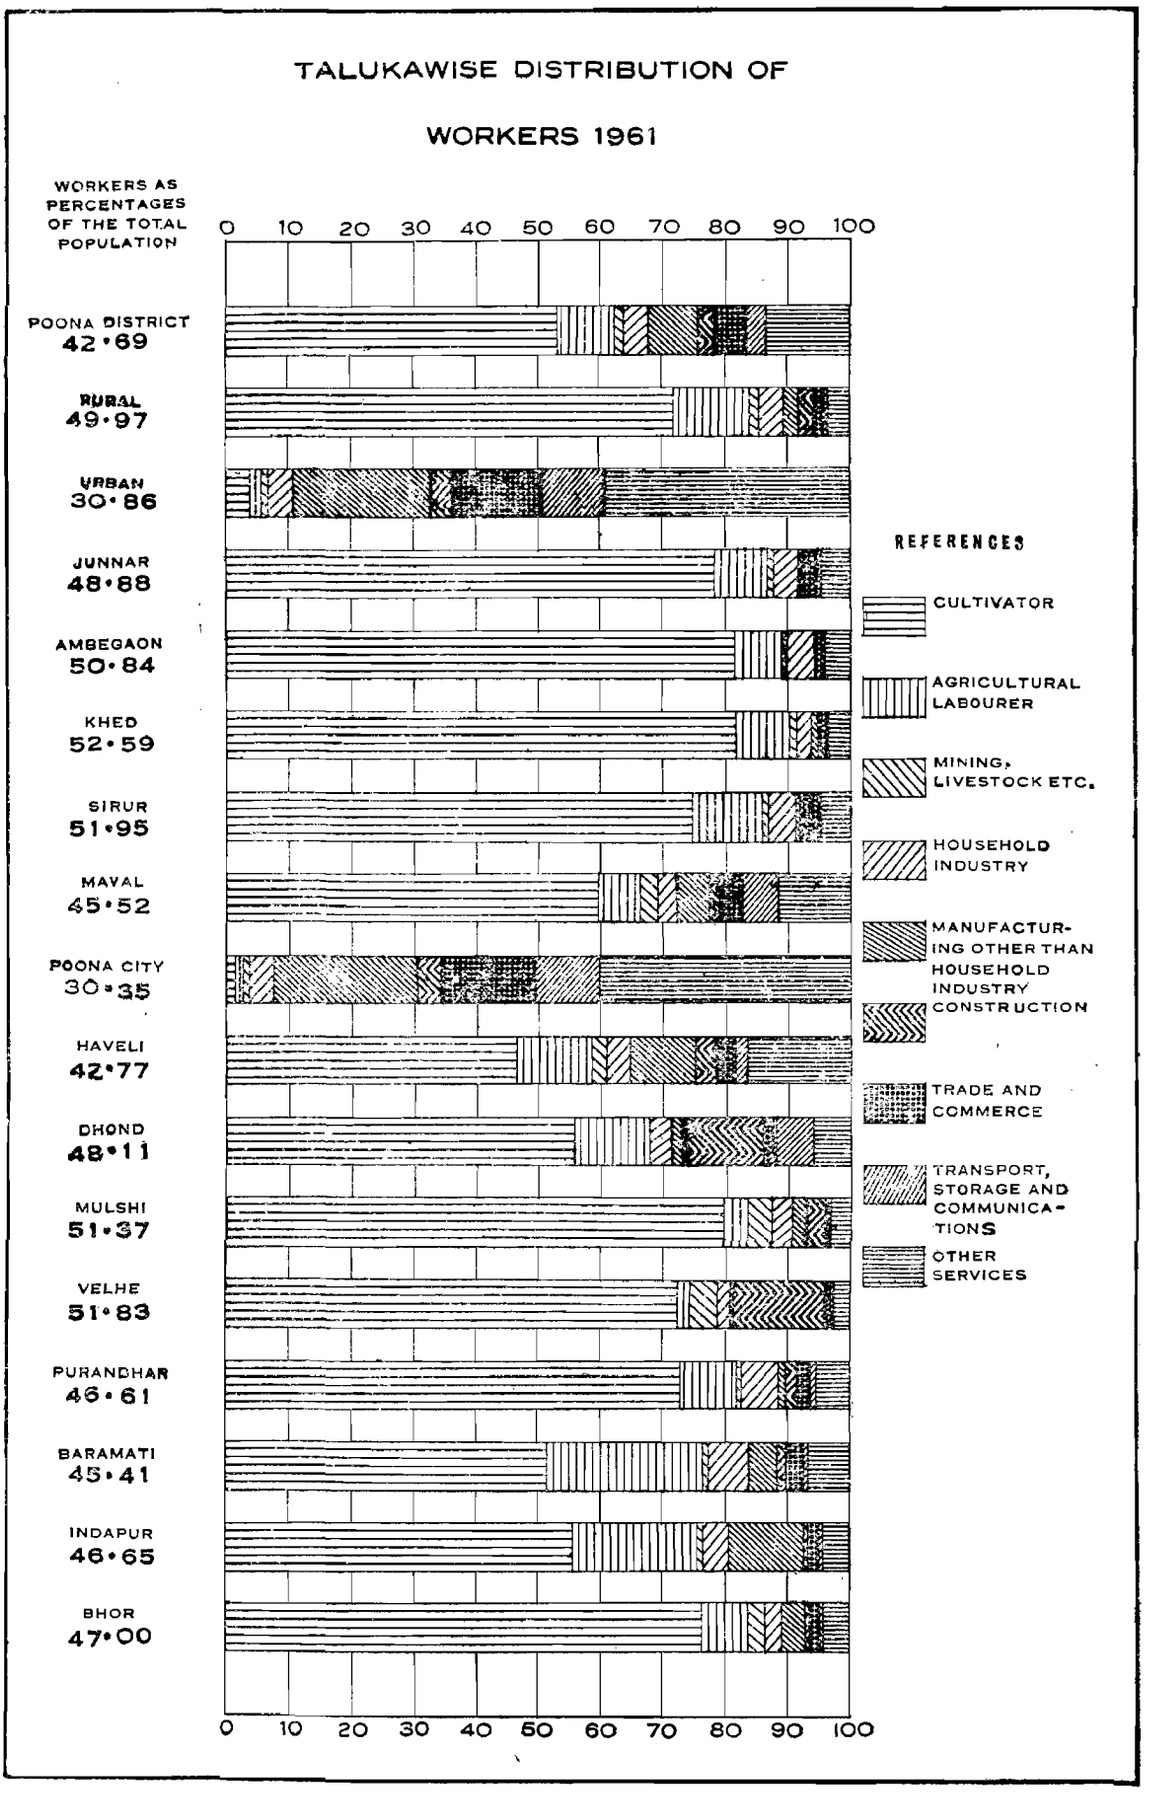

State/District/Taluka	I Cultivator	II Agricultural Labourer	III Mining, Quarrying, Livestock, Fishing, Hunting, etc.	IV Household Industry	V Manufacturing other than Household Industry	VI Construction	VII Trade and Commerce	VIII Transport, Storage and Communications	IX Other Services	Total

Labour Participation by Age

The labour participation rates by age-groups are shown in the next column for the district for total, males and females separately. Correspondirg figures for the State are also shown for comparison.

Participation rates are lower for the district than the State average in all age-groups for total population and both for males and females separately. The lower participation in age-groups 0—14 and 15—34 may be partly due to the fact that many persons in these age-groups are students. Those for age-groups 35—59 and 60+ cannot be explained without further local investigation.

Age-groups	Poona District			Maharashtra		
	Total	Males	Females	Total	Males	Females
All ages	42·69	52·86	31·93	47·91	57·09	38·10
0—14	6·32	6·03	6·62	8·72	8·62	8·84
15—34	67·76	82·94	52·11	74·53	87·45	60·90
35—59	77·27	95·70	55·89	81·57	96·86	63·68

Workers by Educational Levels

The distribution of workers by educational levels shown in Table B-III in Part II is shown below by percentages for the district total. Corresponding figures for the State are also shown for comparison:—

	Illiterate	Literate (without educational level)	Primary or Junior basic	Matriculation and above
Maharashtra ..	68·65	14·11	13·91	3·33
Poona District ..	63·01	15·66	15·72	5·61

Literacy percentage of workers of the district is higher than the State average. The proportions of workers who are literates without educational level and of workers who are educated up to primary or junior basic level are higher. Much higher proportion of workers with education levels Matriculation and above (5·61 per cent) is seen in the district as against the State average of 3·33 per cent. This is so because of certain services and industries prevailing in the district which require employment of skilled and highly educated workers.

Status of Employment

Table B-IV-B in Part II shows the distribution of workers by status of employment for non-household industries. The percentage proportions of employers, employees, single workers and family workers in the district for total, rural and urban areas are as follows. Corresponding figures for Maharashtra are also shown for comparison. The four classes of workers are defined in paragraph 58 in the Explanatory Note to Part II:—

		Total Workers	Class of Workers			
			Employers	Employees	Single workers	Family workers
Maharashtra ..	Total ..	100·00	3·96	62·18	26·52	7·34
	Rural ..	100·00	1·57	46·47	38·58	13·38
	Urban ..	100·00	4·98	68·90	21·37	4·75
Poona District ..	Total ..	100·00	3·49	70·63	19·79	6·09
	Rural ..	100·00	1·34	64·73	23·40	10·53
	Urban ..	100·00	4·27	72·74	18·49	4·50

Family workers and single workers have lower proportions in the district than the State average. The proportions in the district are also lower for employers than those for the State average for total, rural and urban. The proportions of employees are larger as a consequence of the lower proportion of single workers and family workers. The district rural areas have however a very large proportion of employees than the rural average for the State. The higher proportion of employees than that for the State in urban areas is particularly due to the existence of quite a large number of industries in urban areas of the district especially in Poona City taluka.

Percentage Distribution in Household Industry by Employees and Others

The number of employees, *i.e.*, hired workers and others in household industries in the district total, rural and urban areas is shown in Table B-IV-A in Part II. The percentage distribution with corresponding figures for Maharashtra is as follows :—

		Total Workers	Employees	Others
Maharashtra ..	Total ..	100·00	8·18	91·82
	Rural ..	100·00	4·91	95·09
	Urban	100·00	16·35	83·65
Poona District ..	Total ..	100·00	6·09	93·91
	Rural ..	100·00	5·58	94·42
	Urban	100·00	7·34	92·66

Household industries in the district work more with household members than the State. The proportions of employees are lower in the district than the State for total and urban areas. The household industries in the rural areas of the district engage a larger proportion of employees than the State rural average.

Secondary Work

The proportions of workers also engaged in some other secondary economic activity for three categories of principal work for Maharashtra and the district are as follows (Actual figures are shown in Table B-VII-A in Part II) :—

Principal Work		Percentage of total workers by categories of secondary work		
		I	II	IV
MAHARASHTRA—				
I Cultivation	Total	17·85	1·97	
	Rural	18·03	1·98	
	Urban	10·54	1·32	
II Agricultural Labour ..	Total ..	13·17	..	0·94
	Rural ..	13·46	..	0·97
	Urban ..	7·12	..	0·31
IV Household Industry	Total ..	14·78	6·97	..
	Rural ..	19·61	9·38	..
	Urban ..	2·70	0·95	..
POONA DISTRICT—				
I Cultivation	Total	12·29	1·48	
	Rural	12·45	1·49	
	Urban	3·92	0·84	
II Agricultural Labour ..	Total ..	15·06	..	0·99
	Rural ..	15·73	..	1·04
	Urban ..	3·28	..	0·04
IV Household Industry	Total ..	11·37	2·57	..
	Rural ..	15·33	3·60	..
	Urban ..	1·70	0·08	..

The proportion of cultivators also working as agricultural labourers as secondary work and those in household industry also working as cultivators as secondary work are both lower for the district than the State average. The proportion of agricultural labourers also engaged in cultivation as secondary

work is larger for the district than the State average. It is larger for rural area and considerably smaller for urban area than the State average. Proportions of both the cultivators and agricultural labourers also engaged in household industry in the district are almost the same as for the State. In rural area, workers in household industry are also engaged in secondary work as agricultural labourers though less than that for rural State average.

Occupational Classification

Table B-V in Part II shows the distribution of non-agricultural workers by occupation. The percentage distribution for the State and the district is as follows. The occupational classification is described in the Explanatory Note to Part II:—

	Occupational Division	Maharashtra	Poona District
0	Professional, technical and related workers.	6·42	7·46
1	Administrative, executive and managerial workers.	3·89	4·16
2	Clerical and related workers	9·13	14·05
3	Sales workers	12·23	10·64
4	Farmers, fishermen, hunters, loggers and related workers.	7·64	5·89
5	Miners, quarrymen and related workers	0·75	0·22
6	Workers in transport and communication occupations.	3·57	3·98
7-8	Craftsmen, production process workers and labourers not elsewhere classified.	45·99	42·08
9	Service, sport and recreation workers..	10·27	11·27
X	Workers not classifiable by occupation	0·11	0·25
	Total ..	100·00	100·00

The proportion in occupational division 2 (Clerical and related workers) is much higher in the district. Proportions in occupational divisions 0, 1, 2, 6, 9 and X are higher in the district than the State average. Other occupational divisions, *viz.*, 3, 4, 5 and 7-8 have lower proportions in the district to those of the State.

Non-workers

The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II. Percentage distribution for the district is shown below :—

	District Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
(1) Full-time students	39·78	15·17	33 59	9·78	48·02	20'96
(2) Household Duties	0·19	37·21	0·17	27·93	0·21	47'16
(3) Dependants, infants and disabled.	54·99	46·27	64·73	61 78	42·01	29'62
(4) Retired, rentiers or persons of independent means.	1 65	0·65	0·39	0·17	3·33	1'17
(5) Beggars, vagrants, etc.	0·49	0·28	0·41	0·25	0·61	0'31
(6) Inmates of Institutions.	0·81	0·33	0·01	0·05	1'89	0·64
(7) Persons seeking employment for the first time.	1·14	0·05	0·37	0·01	2·16	0·09
(8) Unemployed but seeking work.	0·95	0·04	0·33	0'03	1·77	0·05
Total ..	100·00	100·00	100·00	100·00	100'00	100 00

There is a marked difference in the distribution pattern for non-workers among males and females. 39·78 per cent out of male non-workers are full-time students while the corresponding proportion for females is 15·17 per cent. The reason is that 37·21 per cent females who are engaged in household duties are also included as non-workers. The rural urban differences are similar both for males and females. The proportions of females in the category full-time students being always less than that of the males both in rural and urban areas. In urban areas the percentage of full-time students is higher and that for dependants lower. The percentage of females engaged in household duties is higher in urban areas than in rural areas. The percentage of unemployed is 3·93 and 0·70 for males in urban and rural areas and negligible in both cases for females. As stated above the proportions of full-time students among females are lower both in urban and rural areas than the males. The difference is not, however, entirely due to social customs of attending more to education of boys than that of girls. The proportions for females are lower also because the group of non-workers contain a large number of adult women engaged in household duties.

PART I

VILLAGE DIRECTORY

This Directory renders an account of each Village and each Ward of Town

J-1076—I-1.

EXPLANATORY NOTE

This Part I presents 1961 Population Census figures for all villages and towns in the district. In the case of towns, the figures are also presented separately for each ward. These basic statistics are not published for such small administrative units in any other country in the world.

2. For each village, ward or town are shown its area, number of occupied residential houses, number of households, total population and its break-up by sex, literacy, Scheduled Castes, Scheduled Tribes, workers and non-workers. The figures for workers are further split up by sex and by a broad classification of industrial activity in nine categories described in paragraph 16 below.

3. In the village directory, the villages are presented talukawise and within a taluka in the order of their location code numbers. These code numbers had been assigned to them for organising 1961 Census work and follow a regular north-west to south-east direction. The taluka map shows approximate locations of all villages with their code numbers. An alphabetical list of villages will be found facing each taluka map. It shows the code number for each village and its population in 1951 and 1961. The taluka map and the alphabetical list will together facilitate location of any village in the village directory as well as on the spot.

4. A "village" is a statutorily recognised village having a defined boundary and separate land records. Hamlets, wadies or padas have, therefore, not been shown separately. On the other hand, statutorily recognised villages having no population have been shown with separate code numbers but with word "uninhabited" shown against them.

5. Forest villages, however, make an exception. They are population centres situated within reserved forest areas. Their population mainly consists of forest labourers and their families. Most of them are, however, permanent localities and also have attached cultivated areas leased out by the Forest Department under certain conditions. Their land records are not maintained by the Revenue Department. Statistics for these forest villages have also been presented in the village directory. They may, however, be distinguished from other statutory revenue villages from the letters "(FV)" suffixed after their names.

6. Survey of India maps, taluka maps, previous Census Handbooks and many other official sources have been referred both to secure accurate coverage and to get the correct spellings of village names. A very high standard of accuracy may now be claimed for both.

7. Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

(*a*) a population of over 5,000 ; and

(*b*) Seventy-five per cent or more of male workers engaged in non-agricultural occupations.

Census figures for all these towns are presented wardwise after the completion of rural portion. Their names will also be found in the alphabetical lists of villages in capital letters with code numbers shown inroman figures. They are also shown on the taluka map.

8. The taluka maps and the alphabetical lists are both improvements over the 1951 District Census Handbooks. The village figures are, moreover, extracted directly from census records and not, as was done in 1951, from their copies prepared for some other purposes. The figures presented in the village directory, therefore, tally with the taluka and district Census tables perfectly.

9. Information contained in columns (3) to (7) of the village directory is based on village enumeration reports prepared by the Talaties or Patwaries during October/November, 1960, at the time of house numbering and house listing for 1961 Census. Because of the geographical arrangement of the villages these five columns indicate the general pattern of distribution of some basic amenities within a taluka. Village enumeration reports contained many more useful items of information on the villages, which could not be presented in the village directory for want of space. They are preserved in the offices of the District Statistical Officers.

10. The area figures in column (8) have been obtained either from the Mamlatdars/Tahsildars or taken from the 1951 Census Handbooks.

11. In column (9) of the village directory, the occupied houses include houses used as dwellings or partly as dwellings and partly for some other purposes, *e.g.*, shop-*cum*-dwellings, etc.

12. Columns (14) to (17) of the village directory present, for the first time, villagewise figures of population of Scheduled Castes and Scheduled Tribes.

13. For columns (18) and (19) a "literate" is a person who knows both reading and writing.

14. For the definition of a "worker" or a "non-worker" and for a detailed description of industrial categories the Explanatory Note to Part II may have to be referred.

15. The villagewise figures for industries and the number of workers have been presented in a separate table appearing in Part II of the Handbook.

16. The following abbreviations have been used in the village directory :—

ABBREVIATIONS AND SYMBOLS USED

IN COLUMN HEADINGS

F *for* Females.

M *for* Males.

P *for Persons.*

I Working as Cultivator.

II Working as Agricultural Labourer.

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV Working at Household Industry.

V Working in Manufacturing other than Household Industry.

VI Working in Construction.

VII Working in Trade and Commerce.

VIII Working in Transport, Storage and Communications.

IX Working in Other Services.

IN NOTATIONS

In Column (2)

E *for Electricity.*

FV *for* Forest Village.

In Column (3)

Po *for* Post Office.

R *for* Connected by Road.

Rh *for* Rest-houses and Choultries.

Rly *for* Connected by Railway.

To *for* Telegraph Office.

In Column (4)

C *for* Higher Institutions including Colleges.

H *for* High School.

M *for* Middle School.

P *for* Primary School.

T *for* Technical Institutions.

IN NOTATIONS

In Column (5)

C *for Canal.*

N *for* Nallah.

Riv *for* River.

S *for* Protected Water Supply.

Sp *for* Spring.

Tk *for* Tank.

W *for* Well.

× *for* Inadequacy of Drinking Water.

In Column (6)

D *for* Dispensaries.

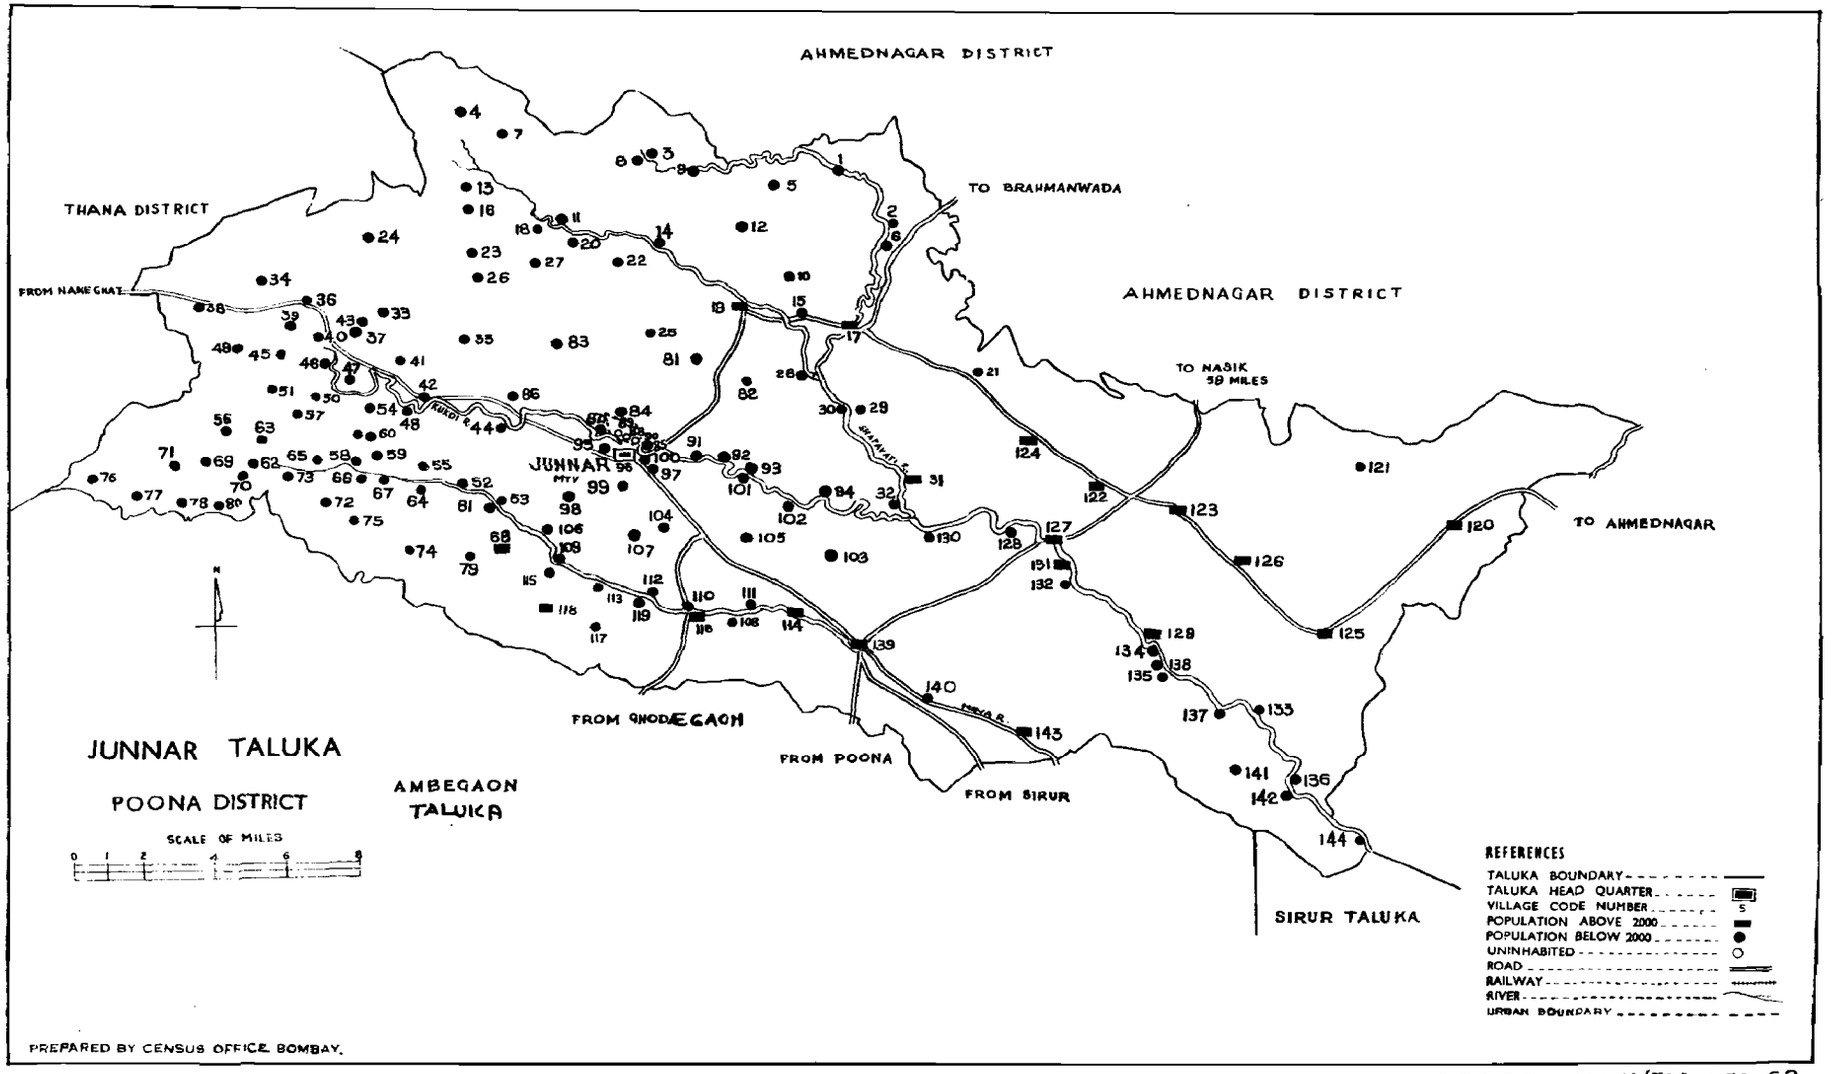

Hos *for* Hospital.

Mp *for* Medical Practitioner.

In Column (8)

NA *for* Not Available.

ALPHABETICAL LIST OF VILLAGES AND TOWNS

6 POONA CITY TALUKA

[Entries in capital letters are for Towns and Urban areas]

Name of village	Code No.	Population 1951	Population 1961
(1)	(2)	(3)	(4)
KIRKEE CANTONMENT Urban Area	I	48,552	58,496
Mundhawe (1)	I	1,048	622
Mundhawe (2)	Included in Urban Area II.		
POONA CANTONMENT Urban Area	III	59,011	65,838
† POONA CITY MUNICIPAL CORPORATION Urban Area	II	480,982	597,562
TOTAL		589,593	722,518

†Two villages, namely, Ghorpadi (Population : 1,303) and Wanwadi (Population : 3,187) of 1951 Census are merged in Poona Corporation in 1961 Census. However the 1951 population of these two villages is not included in 1951 population of Poona Corporation. Hence there is a difference of 4,490 in 1951 Taluka total as shown in this list and that in A-II Table.

Poona City Municipal Corporation area includes villages Bopodi, Aundh, Yerawada, Ghorpadi, Bhamburda, Kasbe Poona, Yerandwana, Parwati and Wanawadi from Poona City Taluka.

E-V .. Sample households classified by number of members and by number of rooms occupied. 221

Number of Establishments and Workers for Industries classified by Minor Groups of Industrial Classification. 222

EXPLANATORY NOTE

This Part contains 58 Tables presenting 1961 Census data for the district. 29 Tables also present material for each taluka and 6 for each town separately. These talukawise and townwise tables have been prepared specially for this volume.

2. A few Tables (e.g., A-IV, B-VI, B-VIII-A, etc.) present material for urban areas only. An urban area is the aggregate of all towns in the district or in the taluka concerned. All the other tables present material for total, rural and urban areas separately. In a few cases (e.g., B-III-D, B-VIII-B, B-IX, C-III-B, etc.), talukawise break-up is given for rural areas only because the corresponding data for the urban areas had been compiled only for the district as a whole and not for each taluka separately.

3. Tables on migration and a few other topics could not be included in this volume for want of space. They will be found in the volumes of the Maharashtra Census Report.

4. An account of how the Census was taken and a description of the definitions and concepts followed will be found in Part II-A of the Maharashtra Census Report. The material presented here relates to the 1st March 1961, which was the reference date fixed for the Census and which very closely approximated the completion of the Second Five-Year Plan. An analysis of this material will be found in the Introductory Note on the district at the beginning of this volume.

5. The following paragraphs contain brief notes on the tables included in this Part. Concepts and definitions of terms used are briefly described in the notes on the tables where those terms first appear in the Series. Each table starts with the entries for the district and the talukas follow in the order of their code numbers fixed by their geographical locations for purposes of the 1961 Census.

A SERIES

GENERAL POPULATION TABLES

6. There are four General Population Tables and three Appendices in this Series. They are the basic population tables. They will be useful to study the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the district.

Table A-I

7. This table presents area, density, number of villages and towns, occupied residential houses and population total, males and females. Material is presented for the district and for each taluka (Tahsil or Mahal) for total, rural and urban areas separately. Towns are shown immediately after the entries of the taluka in which they are situated.

8. A town or an urban area is a place which has a municipality, a cantonment or a civil line or a population of 5,000 or over and at least $\frac{3}{4}$ths of male population dependent on non-agricultural pursuits. A population enumerated in urban areas is urban population and the population enumerated in all other places is rural population. Total includes the population of both urban and rural areas.

9. Area figures have been obtained through Revenue and Municipal Officers. Rural area is the difference between the Total and the Urban areas. The area figures for the district have been obtained from the Director of Land Records.

10. The term "village" has been explained in paragraphs 4 and 5 of the Explanatory Note to Part I.

11. The figures for number of occupied residential houses include houses used partly as dwellings and partly for some other purpose like shop, workshop, factory, etc., but do not include vacant residential houses where no person was found to be residing at the time of the Census.

Appendix I

12. This shows the territorial changes that have taken place during the decade. Units which had some change in area in the decade are only shown here.

Appendix II

13. This shows the number of villages which in spite of a population of 5,000 or over have not been treated as towns and the number of towns which have less than 5,000 population but which have been treated as towns only because they have Municipalities. Columns (4) and (7) show the percentage of populations in villages of over 5,000 and towns of less than 5,000 to the respective rural or urban populations of the district or the taluka concerned.

Appendix III

14. *Houseless Population.*—Houseless persons were enumerated in all areas on the night of 28th February 1961. These include: (i) persons who might be doing domestic service or some other work with one or more households but who do not reside in any house and sleep in the corridors, verandahs or passages in buildings or on the streets; (ii) wandering or nomadic tribes found to be staying in temporary huts, rahooties, etc., or residing without any such huts just on the open grounds; and (iii) beggars, vagrants, tramps, sadhus, fakirs, lepers, etc., who are found on the footpaths, streets, otlas, in places like parks, gardens, sea-shore, railway yards, etc.

15. *Institutional Population* includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

Table A-II

16. This table presents population of the district for the seven Censuses from 1901 to 1961 and the variation by actual figures and percentages. Population figures for 1951 and 1961 and variation during the decade are presented for each taluka separately. The population figures for earlier Censuses shown in the table have been adjusted for the boundaries or areas of the district and talukas as they existed at the time of 1961 Census.

Table A-III

17. This table gives for the district and each taluka the distribution of inhabited villages classified by seven population size groups which are: (i) less than 200; (ii) 200—499; (iii) 500—999; (iv) 1,000—1,999; (v) 2,000—4,999; (vi) 5,000—9,999; and (vii) 10,000 and above.

18. Hamlets are included in the village. The classification here is on the basis of the combined population of the village and its hamlets if there are any. In other words, the classification is not strictly according to the size of each individual nucleus of rural population but is based on the size of population of the revenue village which may in some cases be a single nucleus of population and in others a group of two or more scattered localities.

Table A-IV

19. This table shows the growth of each town since 1901. It shows population for each town for the last seven Censuses. Towns are presented in the following six classes classified by their population in 1961. Within a class, the names of towns are arranged in the order of population:

Class I	..	100,000 and over.
Class II	..	50,000 to 99,999.
Class III	..	20,000 to 49,999.
Class IV	..	10,000 to 19,999.
Class V	..	5,000 to 9,999.
Class VI	..	Less than 5,000.

20. Where two or more towns are adjacent and together form a compact urban unit, the entire town group is classified with reference to the combined population of the group. In such cases, the total population of the group is shown along with the population of each of its constituent towns.

21. Where a town was not treated as a town in some earlier Census, its population at that Census had been included in rural population. It is not presented here as the table presents figures of urban population only.

22. The total urban population of the district and its variation in the last sixty years are shown at the beginning of the table.

B SERIES

(i) GENERAL ECONOMIC TABLES

23. There are 16 Tables in this Series showing the distribution of population by economic activity correlated with sex, age and educational levels. The classification by economic activity is first by workers and non-workers. The workers are then classified in nine broad categories of economic activity. A more elaborate classification of workers by industry under the Standard Industrial Classification Scheme is presented in Tables B-IV-A, B and C and by occupation under the National Occupational Classification in Table B-V. Two Tables B-VII-A and B-VII-B show the classification of workers by secondary work. The last three tables present distribution of non-workers by sex, age and eight broad classes.

24. In the 1951 Census Reports, the population was classified into eight livelihood classes and each class was further divided with reference to economic status into—

(i) self-supporting persons ;

(ii) earning dependents ; and

(iii) non-earning dependents.

25. The concept of dependency has been abandoned for economic classification at the 1961 Census. Instead, the population is classified into workers and non-workers. The emphasis is now on work and not on income or economic dependence.

26. A person is classified as worker if—

(*a*) in case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season ; and

(*b*) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

27. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

28. "Work" includes not only actual work but effective supervision and direction of work also.

29. Persons under training as apprentices with or without stipend or wages are regarded as workers.

30. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, etc., or any such work she has been treated as a worker.

31. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce.

32. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

33. The population classified as workers here is the economically active population including family workers but not including unemployed persons.

34. The Census Questionnaire did not have any question to determine the extent of full employment or under-employment.

35. Classification of workers doing two or more different types of work, has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

Primary Census Abstract

36. This table shows 1961 summary figures for the district and talukas, each for total, rural and urban areas separately. Similar details for each village, town and ward of a town are presented in Part I.

37. For each unit, the table shows area in square miles, number of occupied houses, number of households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and number of workers and non-workers. The workers are shown further classified for nine categories of economic activity.

38. Column (5) shows the number of households for each unit. The " household " is slightly different from a " family ". A " household " is a group of persons who commonly live together in the same house and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A domestic servant residing and eating at the employer's house is a member of the household. Similarly, a friend or a guest (related or unrelated) residing and eating with the host during the Census period is treated as a member of the (host) household. On the other hand, a son or a daughter residing in a hostel (may be in the same town) is not treated as a member of the household.

39. Columns (9) to (12) of the Primary Census Abstract show population of the Scheduled Castes and Scheduled Tribes, respectively, by males and females. The figures are related only to the two group totals of all Scheduled Castes and all Scheduled Tribes. Their break-up by individual Scheduled Caste or Scheduled Tribe will be found in Table SCT-I.

40. The limitations in coverage of these two groups may be mentioned here. The groups of Scheduled Castes or Scheduled Tribes do not include all backward castes or tribes living in the district. They include only the castes or tribes declared as Scheduled Castes or Scheduled Tribes in the district. In cases where a caste or a tribe is declared as a Scheduled Caste or a Scheduled Tribe for a specified area that caste or tribe has been separately presented only for that specified area and not for any other areas of the district.

41. Columns (13) and (14) show figures for literates and educated persons. A " literate " is a person who can both read and write a simple letter. Persons having higher education are also included in these figures. More material on literacy and education cross tabulated with age-groups is presented in Table C-III.

42. The workers are shown classified by sex and in the following nine categories of economic activity :—

I As Cultivator.
II As Agricultural Labourer.
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV At Household Industry.
V In Manufacturing other than Household Industry.
VI In Construction.
VII In Trade and Commerce.
VIII In Transport, Storage and Communications.
IX In Other Services.

Category I

43. This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work on land are also included persons who are engaged in supervision or

direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

Category II

44. All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

Category III

45. Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

46. A "Household Industry" is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. A household industry is not run on the scale of a registered factory. Thus, the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas, household industry is confined to the house.

47. A household industry relates to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader, doctor, barber, washerman or astrologer. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

Category V

48. "Manufacturing" includes all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as household industry.

Category VI

49. This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, waterways, reservoirs, etc.

Category VII

50. This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stocks and shares, insurance, moneylending, banking, etc.

Category VIII

51. This category includes workers engaged in transport activities by air, rail, road or water and in service incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as Posts, Telegraph, Telephones, Wireless Signalling, Information and Broadcasting are also included in this category.

J-1076-II—14-B-(Poona)

Category IX

52. This category includes (i) Public utility services like electricity or gas or water-supply, sanitary services; (ii) Central, State or Municipal employees; (iii) Professional services; (iv) Trade or labour associations, Recreation services, etc.

Tables B-I and B-II

53. This combined table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by four broad age-groups. The material is presented for the district and each taluka as well as for total, rural and urban areas separately. Towns are also shown immediately after the entries of the talukas in which they are situated. For talukas which do not have any urban areas, entries are given only for totals which correspond to those for rural areas.

Table B-III

54. This table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by educational levels. Material for the district is presented for total, rural and urban areas separately while that for the talukas is presented only for rural areas. The classification by educational levels is more elaborate in the case of the urban areas. Classification by educational levels and age-groups will be found in Table C-III.

Industrial Classification

55. Industry of a worker is that branch of economic activity in which he is engaged in producing goods or services. Tables B-IV-A, B-IV-B, B-IV-C, B-VII-A and B-VII-B of the present Series and Tables B-XIII, B-XIV-A, B-XIV-B and B-XVI of the following Series show the distribution of workers by industry according to the Standard Industrial Classification which is reproduced as Appendix I to this note. For want of space it has not been possible to give description of each group of industry in the tables. They are shown only by industry codes in one, two or three digits as the case may be.

56. The nine categories shown in the Primary Census Abstract and Tables B-I, B-II and B-III conform to the industry divisions as follows :—

	Category	Industry Division
I	Cultivator	Minor groups 000, 001, 002, 003 and 004 from Division 0.
II	Agricultural Labourer ..	
III	Mining, Quarrying, etc.	Division 0 except minor groups 000 to 004 and Division 1.
IV	Household Industry ..	Division 0 except minor groups 000 to 004, Divisions 1, 2 & 3.
V	Manufacturing	Divisions 2 & 3.
VI	Construction	Division 4.
VII	Trade and Commerce ..	Division 6.
VIII	Transport, Storage and Communications.	Division 7.
IX	Other Services	Divisions 5, 8 and 9.

Table B-IV-A

57. This table gives the distribution of workers engaged in household industry by status of employment and by each division and major group (Appendix I) of household industry separately. Material is presented only for the district but for total, rural and urban areas separately. Major groups of household industry which do not have any workers in the district are not shown here. Columns (7) and (8) show the workers who work at their own household industry (i.e., who are either employers, single workers or family workers in those household industries). Columns (5) and (6) on the other hand show the workers who are working as employees in household industries not of their own.

Table B-IV-B

58. This table presents distribution of all workers (other than those working in categories I, II and IV) by industry divisions and major groups (Appendix I) and by employment status. Material is presented for the district only but for total, rural and urban areas separately. Classification of workers by employment status is in four classes " employer ", " employee ", " single worker " and " family worker ".

An " employer " is a person who employs other persons in order to perform economic activity in which he is engaged.

An " employee " is a person who usually works under some other person for salary, or wages in cash or kind.

A " single worker " is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone else, not even members of his household, except casually.

A " family worker " is a member who works, without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Table B-IV-C

59. This is a very important table as it gives the employment position in all sectors of economy in the district. It shows the distribution of all workers (other than those in categories I and II) by industry division, major groups and minor groups according to the Standard Industrial Classification (Appendix I). The number of workers against each division, major group or minor group, is further split up and shown separately for household industry and non-household industry. Material is presented only for the district but for total, rural and urban areas separately. Major or minor groups which do not have any workers in the district are not shown here.

Occupational Classification

60. Occupation of a worker is the function which he performs in any branch of economic activity (which is called his industry). For a clerk working in a textile mill, the industry is textile and occupation is clerical. For a person working as a driver on a bank's vehicle, the industry is banking and occupation is driver.

61. Tables B-V and B-VI show the distribution of workers by occupation according to the National Occupational Classification Scheme which is reproduced as Appendix II to this note.

Table B-V

62. This table presents the distribution of workers (other than those engaged in categories I and II) by occupational divisions and groups (Appendix II). For each division or group the workers are shown by a categorywise break-up of their industry. The material is presented only for the district but for total, rural and urban areas separately. Occupational groups which do not have any workers in the district are not shown in the table. For an occupational group which has all the workers in only one category of industry, only one line shows the total workers for that group as well as for that category of industry.

Occupational distribution of workers in the 1961 Census has been worked out and presented in Maharashtra Census Report, Part II-B (ii) even for Occupational families, i.e., up to three digits. For want of space it is presented here for occupational groups, i.e., up to two digits only.

Table B-VI

63. This table presents the distribution of workers (other than categories I and II) classified by sex, occupational divisions (Appendix II), broad age-groups and by educational levels. This table is presented only for the total urban area of the district.

Table B-VII-A

64. This table presents workers engaged as cultivators, agricultural labourers and at household industry classified by the nature of their secondary work. In case a worker is engaged in two or more kinds of work the one which consumes larger portion of his time (not necessarily earning a larger portion of his income) is treated as his principal work, another consuming second larger portion of his time is his secondary work. The secondary work is shown in the table classified only in three broad categories, viz., IV-Household Industry, I-Cultivator and II-Agricultural Labourer. Workers who may be engaged in secondary work in other categories, viz., III, V, VI, VII, VIII and IX are not shown in this table. The break-up of principal work in household industry by major industrial groups (Appendix I) is shown in column (1). It will enable analysis of workers engaged in secondary work by major branches of their principal work at household industry. The material is presented for the district only but for total, rural and urban areas separately.

Table B-VII-B

65. This table shows workers engaged in non-household industry categories III and V to IX as principal work and doing some additional work in household industry. The additional work in household industry is classified by industrial divisions (Appendix I) only. Similarly, the break-up of principal industry in column (1) is also by industrial divisions only. Workers engaged in the industry divisions shown in column (1), but who are doing additional work in any sector other than household industry are not shown in this table. Material is presented for the district only but for total, rural and urban areas separately.

Table B-VIII-A

66. This table presents the distribution of unemployed persons aged 15 and above by age-groups and educational levels. The number of unemployed have been further split up by persons seeking employment for the first time and persons employed before but now out of employment and seeking work. Material is presented only for the total urban area of the district. Such detailed information on the unemployed is compiled for the first time in the 1961 Census.

Table B-VIII-B

67. This table presents the distribution of unemployed aged 15 and above in rural areas of the district by educational levels. The break-up of educational levels is not as elaborate as in Table B-VIII (Part A) and classification by age-groups or by persons seeking employment for the first time, etc., is not shown in this table. As a compensatory factor, the material is presented for the rural area of the district and each taluka separately.

Table B-IX

68. This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers. Such information on the non-working population had never been compiled before. The material is presented for the district separately for total, rural and urban areas and for each taluka for rural areas only.

(ii) HOUSEHOLD ECONOMIC TABLES

69. Tables B-X to B-XVI present the economic activity of the households as units. They relate to—

(i) the size of or interest in land cultivated and/or the household industry conducted by the households ; and

(ii) the number of family workers and/or hired workers working in either of the two activities separately or combined in both.

70. In the case of countries of such economic status as ours where not all the goods produced enter the money market and where much of what is produced is consumed by the family itself, presentation of information on economic activity of individuals alone is likely to be slightly misleading unless that information is supplemented by material relating to economic activity of the households as entities. Such information is presented here for the first time. These tables are prepared from the household schedules specially introduced for that purpose as one of the three Questionnaire forms in the 1961 Census. The tables have been prepared on a 20 per cent sample of all the households in the district drawn for rural and urban areas separately.

71. Cultivation here includes cultivation both as owners and tenants. Size of holding shown is also of Operational holding, i.e., land actually cultivated and does not include land owned but not cultivated by the household.

Table B-X

72. This table presents distribution of sample households by those—

(i) engaged neither in cultivation nor household industry;

(ii) engaged in cultivation only;

(iii) engaged in household industry only; and

(iv) engaged both in cultivation and household industry.

The material is presented for the district and each taluka for total, rural and urban areas separately.

Table B-XI

73. This is an important table. It shows the distribution of sample households engaged in cultivation classified by size of land and interest in land cultivated. Ten size-groups are shown horizontally while the interests in land are classified in three types, viz.—

(*a*) Entirely owned or held from Government.

(*b*) Entirely held from private persons or institutions for payment in money, kind or share.

(*c*) Partly held from Government and partly from private persons or institutions for payment in money, kind or share.

The material is presented separately for total, rural and urban areas of the district and only for rural areas of each taluka.

Table B-XII

74. This table shows the distribution of sample households engaged in cultivation classified by size of land cultivated and the total number of family workers and hired workers. The material is presented for the district for total, rural and urban areas separately and only for rural areas of each taluka.

Table B-XIII

75. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and by industry division and major group of the household industry (Appendix I). The table shows the

sizes of cultivation holdings and the branches of household industry for which the two household economic activities combine in varying degrees. The material is presented only for the district but for rural and urban areas separately.

Table B-XIV-A

76. This table shows the distribution of sample households engaged in household industry only by the number of workers engaged and by industry division and major groups of the household industry (Appendix I). Material is presented for the district only but for total, rural and urban areas separately.

Table B-XIV-B

77. This table shows the distribution of sample households engaged in household industry only classified by industry minor groups (Appendix I) for the household industry. The industry minor group is shown with a break-up in four-digit codes in column (1). *These four-digit codes are shown in Appendix III.* The material is presented for the district only but for total, rural and urban areas separately.

Table B-XV

78. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and the number of family workers and hired workers working in the two activities combined. The material is presented for the district for total, rural and urban areas and for each taluka only for rural areas separately.

Table B-XVI

79. This table shows the distribution of sample households engaged in household industry classified by the period for which the household industry is worked and by industry division and major groups (Appendix I) of the household industry. A further split-up of figures is shown for household industry combined with cultivation and without cultivation. The material is presented for the district only but for total, rural and urban areas separately.

C SERIES

SOCIAL AND CULTURAL TABLES

80. There are 11 tables in this Series dealing with Social or Cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Castes and Scheduled Tribes. The first two Tables C-I-A and C-I-B relating to Size and Composition of Households are prepared from the household schedules on a 20 per cent sample. All the other tables are prepared from individual slips and on a total count.

Table C-I-A

81. This table presents distribution of sample households classified by their size and by economic activity, i.e., by work in cultivation or household industry. Households working at cultivation are further classified by size of land holding. The material is presented only for the district but separately for total, rural and urban areas. Classification by economic activity as well as by size of land holding is presented only for rural areas and classification by size of the household is alone presented for total and urban areas. This table is prepared from household schedules on a 20 per cent sample. This table appears as Table B-XVII in Part III of the Maharashtra Census Report.

82. The classification by size is as one member, small (2 to 3), medium (4 to 6), large (7 to 9) and very large (over 10) households. By definition, a Census household is not the same as a family. The household also includes persons who are not members of the family but who were residing with the family during the Census period. The table will give a general idea of the family sizes as in the majority of families outsiders are not likely to be present.

Table C-I-B

83. This table presents distribution of population of sample households by heads of the households, spouses of heads of households, married relations, never married, widowed or divorced relations and unrelated persons. These details are also shown for sample households classified by economic activity, i.e., participation in cultivation or household industry. For cultivation, the sample households are further classified by size of land holdings. This table is prepared from the household schedules on a 20 per cent sample. Material is presented for the district only but for total, rural and urban areas separately. The classification of households by economic activity and size of land holding is, however, shown for rural areas only. This table is of sociological interest indicating the strength of the joint family system.

Table C-II

84. This table presents distribution of population by sex, age and marital status. Classification of age between 10 and 70 years is by five-year age-groups. The other two groups are 0—9 years and 70 and over. The entire population in 0—9 years age-group has been treated as never married and no further classification by marital status is shown against them. The material is presented only for the district but for total, rural and urban areas separately. From this table it may be ascertained whether proportions in various marital status groups have changed since the last Census and whether any trend is observed in age of marriage. A corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table is, however, prepared on a full count.

Tables C-III-A, B and C

85. These three tables present the distribution by age, sex, literacy and educational levels. Classification by age is by five-year age-groups up to 59 years. Classification by educational levels is the same as in Table B-III. It is more elaborate in the case of urban areas. Part A presents material only for the district total while Part B presents material for rural areas of the district and of each taluka separately. Part C presents material only for the district urban areas but with more elaborate classification by educational levels.

86. These tables are a measure of the growth of literacy in the total population as well as in the different age-groups since the last Census. They are also likely to furnish information on the spread of adult education. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. These tables have been prepared on a full count.

Table C-IV

87. This table presents distribution of the district population by single year ages both for males and females separately. Figures presented are based on the actual returns recorded in the Census, i.e., they have not been smoothed or adjusted for preferences for digits 0, 5, etc. The material is presented only for the district total.

88. This is an important demographic table which is used for computing mortality rates. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table has been prepared on a full count.

Table C-V

89. This table presents the distribution of population by mother-tongues. The figures are presented only for 9 top-ranking mother-tongues in the district. Figures for all the other mother-tongues have been shown combined in the group "Others". Mother-tongues are arranged in the alphabetical order. Material is presented for total, rural and urban areas for the district and each taluka separately. At the end material is also presented for each town separately. A foot-note is added to show the number of speakers in the district for each of the mother-tongues combined in the group "Others".

90. "Mother-tongue" is defined as a language spoken by the person's mother to the person in his childhood or mainly spoken in the house. Dialects have been included in the main languages on the basis of Grierson's Classification.

91. Another Table (C-VI) on bilingualism has been prepared in the 1961 Census. It is not included in this volume and may be found in Part II-C of the Maharashtra Census Report.

Table C-VII

92. This table presents distribution of population by religion. Eight main religions have been shown in their alphabetical order. All other religions returned in the Census are combined in the group "Others". Figures for various sects returned as religion during the Census have been combined with the main religions concerned.

Table C-VIII-A

93. This table presents the total population of Scheduled Castes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka separately. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Castes.

Table C-VIII-B

94. This table presents the total population of Scheduled Tribes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract of Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Tribes.

SCT, SC & ST SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

95. There are 11 Tables in this Series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. These classes of people are declared by the President's orders issued under Articles 341 and 342 of the Constitution of India as Scheduled Castes or Scheduled Tribes. Under Article 46 of the Constitution, the State has to promote, with special care, the educational and economic interests of the weaker sections of the people and in particular of the Scheduled Castes and Scheduled Tribes and has to protect them from social injustice and all forms of exploitation. For ensuring adequate representation to these classes, seats are also reserved for them in the House of the People, State Legislature and other elective bodies.

96. These special tables have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each Scheduled Caste and Scheduled Tribe separately.

97. These tables relate to economic activity, education, mother-tongue and classification of persons not at work. Material is presented for each Scheduled Caste and Scheduled Tribe separately. It will be useful information for formulating various schemes for their welfare.

98. Classification by Castes and Tribes is on the basis of returns recorded in response to question 5 (c) of the 1961 Census Questionnaire. Every person was asked if he belonged to one of the Scheduled Castes Scheduled Tribes notified for the district and in case he belonged to one of them he was asked the name of his caste or tribes. Paragraph 40 above on the Primary Census Abstract explains the limitations of these castewise or tribewise figures. The population of Scheduled Castes shown here is much less than that for the district in 1951 as many persons from that group have returned their religion as Buddhist or Nav-Bauddha, and under the Constitution, there can be Scheduled Castes only among Hindus and Sikhs and in no other religion.

99. Two more Tables SCT-II and SCT-IV on age, marital status and religion of the Scheduled Castes and Scheduled Tribes prepared in the 1961 Census are not presented here for want of space. They may be seen in Part V-B of the Maharashtra Census Report.

Table SCT-I-A

100. This table presents the distribution of Scheduled Castes population by economic activity. Material is presented for the total of all Scheduled Castes as well as for each Scheduled Caste separately. Scheduled Castes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents castewise break-up of the material presented in Table C-VIII (Part A). The last group of castes "not stated" is of persons who were returned as belonging to Scheduled Castes but in whose case the name of the Scheduled Caste concerned had not been stated in the Census.

101. Columns (28) to (31) present Scheduled Castewise figures of persons engaged in unwholesome occupations like tanning, currying of hides and skins and scavenging. The number of workers shown in these occupations as well as in any other category is on the basis of principal work. Persons engaged in cultivation or any other activity as principal work and also engaged in tanning, currying or scavenging as secondary work are not included in the figures of columns (28) to (31).

102. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

103. There are some more castes declared as Scheduled Castes for the district. They are not shown in this table because no one belonging to those castes was enumerated in 1961 Census in the district.

Table SCT-I-B

104. This table presents the distribution of Scheduled Tribes populations by economic activity. Material is presented for the total of all Scheduled Tribes as well as for each Scheduled Tribe separately. Scheduled Tribes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents tribewise break-up of the material presented in Table C-VIII (Part B). The last group of tribes "not stated" is of persons who were returned as belonging to Scheduled Tribes but in whose case the name of the Scheduled Tribe concerned had not been stated in the Census.

105. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

106. There are some more Scheduled Tribes declared as Scheduled Tribes for the district. They are not shown in this table because no one belonging to those tribes was enumerated in 1961 Census in the district.

Table SCT-III-A (i)

107. This table presents the distribution of each Scheduled Caste population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-A (ii)

108. This table presents the distribution of each Scheduled Tribe population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-B (i)

109. This table presents the distribution of population for each Scheduled Caste by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-III-B (ii)

110. This table presents the distribution of population for each Scheduled Tribe by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-V-A

111. This table presents the distribution of sample Scheduled Caste households of the district (Rural) by interest in land cultivated and by size of land cultivated. The interests in land cultivated are shown in three categories :—

(i) entirely owned or held from Government;
(ii) entirely held from private persons or institutions for payment in money, kind or share; and
(iii) partly held from Government and partly from private persons, etc.

Classification by size of land cultivated is the same as in the B Series household economic tables. Material here is presented only for the district rural and for all the Scheduled Castes as a group. The table is prepared from the household schedules on a 20 per cent sample.

Table SCT-V-B

112. This table for Scheduled Tribes (some as Part A) is presented only for the district rural. The table is prepared from the household schedules on a 20 per cent sample.

Table SC-I

113. This table presents the total non-working population of all the Scheduled Castes as a group classified by four categories of non-workers, viz.—

(i) full-time students;
(ii) persons seeking employment for the first time;
(iii) persons employed before but now out of employment and seeking work; and
(iv) others.

The non-working population is further classified by educational levels. The material is presented for the district only but for total, rural and urban areas separately.

Table ST-I

114. This table presents the distribution of population of each Scheduled Tribe by mother-tongue and the subsidiary languages spoken. Material is presented only for the district but for total, rural and urban areas separately. Scheduled Tribes are arranged in their alphabetical order and mother-tongues when there are more than one for any Scheduled Tribe are also shown in the alphabetical order.

Table ST-II

115. This table presents the total non-working population of each Scheduled Tribe classified by four categories of non-workers, viz.—

(i) full-time students;
(ii) persons seeking employment for the first time;
(iii) persons employed before but now out of employment and seeking work; and
(iv) others.

The material is presented for the district only but for total, rural and urban areas separately.

E SERIES

HOUSING TABLES

116. There are five tables in this Series. Four of them relate to housing conditions and furnish data on the purposes for which the houses are used, the tenures on which they are occupied by the households, material of construction of walls and roofs and the distribution of households by the number of rooms occupied. The last table relates to industries and shows the number of establishments and the number of workers for each industry classified by industry division, major groups and minor groups. Another Table (E-III) on industrial establishments prepared from the houselists gives a break-up by industry and the fuel used cross-tabulated by the size of the establishments. It is not presented here for want of space. It may be seen in Part IV of the Maharashtra Census Report.

117. All the five tables of this Series are prepared from the houselists which were prepared at the time of numbering of houses in September-October of 1960. Such data on housing conditions are furnished here for the first time.

118. A "house" was defined for purposes of the Census as "a structure or part of a structure inhabited or vacant, a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., having a separate entrance. The entrance may be directly on the road, street, or lane or to a common staircase, courtyard or a gate".

Table E-I

119. This table presents the distribution of houses classified by uses to which they are put to. The various uses are shown in columns (4) to (16). Houses which were not being used for any purpose at the time of houselisting were treated as vacant. A "workshop" is a place where some kind of production, processing, repairs or servicing of goods goes on a commercial scale. Manufacturing or processing establishments registered under the Factories Act are treated as factories. When a house was used both as a shop and as a dwelling or workshop and as a dwelling it is treated as a shop-*cum*-dwelling or workshop-*cum*-dwelling. The houses which were used as schools, offices, factories or restaurants and also used by some people for residence, have been treated for purposes of this table as schools, offices, factories or restaurants and not as school-*cum*-dwelling, office-*cum*-dwelling and so on.

120. The last category of "Others" includes all purposes not included in columns (4) to (15) prominent among them being cattle-sheds, garages, show-rooms, locked houses, etc. Table E-I presents material for the district and each taluka and for total, rural and urban areas separately. The table is prepared from the houselists on a full count.

Table E-II

121. This table presents the distribution of sample households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. "Rent free" or "Caretaker" occupation is included in the "Rented" category. The houses occupied under each tenure are further classified by the nature of uses such as dwellings, shop-*cum*-dwellings, etc. Tenure of occupation of non-residential houses such as schools, hospitals, etc., is not shown here.

122. This table is prepared from the houselists and on a 20 per cent sample.

123. Material is presented for the district and each taluka and for total, rural and urban areas separately.

Table E-IV

124. This table presents distribution of sample houses used wholly or partly as dwelling by material of wall and material of roof. The material of wall is the material out of which most of the walls of the house are constructed. Where a house has separate portions each of different material, the material of the walls for this table is the one out of which the walls of the main bed-rooms are constructed. Similarly, the material of roof is one out of which most of the roof exposed to weather is constructed. In case of multi-storeyed buildings, the intermediate floor is treated as the roof of the lower storey.

125. Material is presented here for the district and each taluka and for total, rural and urban areas separately. This table is prepared from the houselists on a 20 per cent sample.

Table E-V

126. This table presents the distribution of sample households classified by the number of rooms occupied. For each class of households the total number of members of the households is shown by males and females separately. This will help measure congestion or over-crowding particularly in urban areas.

127. The table is prepared from the houselists on a 20 per cent sample. The material is presented for the district and each taluka and for total, rural and urban areas separately.

128. The table relates only to the family households. Institutional households like hostels, boardings, prisons, etc., are not shown here.

129. A "room" has four walls with a door and a roof overhead and is not less than $6' \times 6'$. Unenclosed verandah, kitchen, store, garage, cattle-shed, etc., though used for residential purposes are not treated as rooms. Households residing in such places are shown in columns (7) to (9) as having no regular room.

Table on Industrial Establishments and Workers

130. This is a very important table and presents the number of establishments and number of workers for each branch of industry classified by industry divisions and minor groups according to the Standard Industrial Classification (Appendix I). For each industry division, minor group figures are shown in the brackets first for the number of establishments and second for the number of workers.

131. The table is prepared from the houselists on a full count. Material is presented here for the district and talukas for total, rural and urban areas as well as *for each village and town* separately. The presentation is in the run-on style and the villages are shown both by their names and code numbers. These latter will help locate them in the taluka maps included in Part I. Villages which do not have any industrial establishments are not shown here. Similarly, for any village, town or taluka, the industry minor codes for which there are no establishments are not shown in the table.

132. The material presented here relates to September-October of 1960. Establishments where processing, repairing or servicing of goods is done are also included along with the manufacturing establishments. The number of workers shown here includes the proprietor and/or the other household members if any were working in the industry during the week preceding the enumerator's visit.

133. The list of industries presented here may not include some seasonal industries which were not actually working during the period when houselists were prepared, viz., September-October 1960.

J-1076-II—15-A-(Poona)

APPENDIX I
STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into—
9 Divisions
45 Major Groups
343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below :—

DIVISIONS

0	Agriculture, livestock, forestry, fishing and hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary Services
6	Trade and Commerce
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

MAJOR GROUPS

Division 0—Agriculture, livestock, forestry, fishing and hunting

00	Field produce and Plantation crops
01	Plantation crops
02	Forestry and Logging
03	Fishing
04	Livestock and Hunting

Division 1—Mining and Quarrying

10	Mining and Quarrying

Division 2 and 3—Manufacturing

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile—cotton
24	Textile—jute
25	Textile—wool
26	Textile—silk
27	Textile—miscellaneous
28	Manufacture of wood and wooden products
29	Paper and paper products
30	Printing and publishing
31	Leather and leather products
32	Rubber, Petroleum and coal products
33	Chemicals and chemical products
34-35	Non-Metallic Mineral Products other than petroleum and coal
36	Basic Metals and their products except machinery and transport equipment
37	Machinery (all kinds other than Transport) and Electrical equipment
38	Transport Equipment
39	Miscellaneous Manufacturing Industries

Division 4—Construction

40	Construction

Division 5—Electricity, Gas, Water and Sanitary Services

50	Electricity and Gas
51	Water-supply and Sanitary Services

Division 6—Trade and Commerce

60—63	Wholesale Trade
64—68	Retail Trade
69	Trade and Commerce Miscellaneous

Division 7—Transport, Storage and Communication

70-71	Transport
72	Storage and Warehousing
73	Communications

Division 8—Services

80	Public Services
81	Educational and Scientific Services
82	Medical and Health Services
83	Religious and Welfare Services
84	Legal Services
85	Business Services
86	Community Services and Trade and Labour Associations
87	Recreation Services
88	Personal Services
89	Services (not elsewhere classified)

Division 9—Activities not adequately described

90	Activities unspecified and not adequately described (This includes new entrants to the labour market)

MINOR GROUPS

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize.	000
	Production of pulses, such as arhar, moong, masur, urid, khesari, other gram.	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops.	003
	Production of oilseeds, sugarcane and other cash crops.	004
	Production of other crops (including vegetables) not covered above.	005
	Production of fruits and nuts in plantation, vines and orchards.	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms.. ..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above.	009
01	*Plantation Crops—*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above.	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs.	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forests.	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests.	025
	Production and gathering of other forest products not covered above.	026
03	*Fishing—*	
	Production of fish by fishing in sea .	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries.	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, ponds	032

J-1076-II—15-B-(Poona)

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting—*concld.*	
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat.	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as pig.	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming.	043
	Rearing of bees for the production of honey, wax and collection of honey.	044
	Rearing of silk worms and production of cocoons and raw silk.	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth.	048
	Division 1—Mining and Quarrying	
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone.	107
	Mining of chemical earth such as soda ash ..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt.	109
	Division 2 and 3—Manufacturing	
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, de-husking and processing of crops and food-grains.	200
	Production of sugar and syrup from sugarcane in mills.	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy.	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits.	203
	Slaughtering, preservation of meat and fish and canning of fish.	204
	Production of bread, biscuits, cake and other bakery products.	205
	Production of butter, ghee, cheese and other dairy products.	206
	Production of edible fats and oils (other than hydrogenated oil).	207
	Production of hydrogenated oils (Vanaspati) ..	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge.	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery.	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice.	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water ..	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco.	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling..	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms..	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine.	239
24	*Textile—Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta.	244
25	*Textile—Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile ..	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom ..	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine..	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products.	270
	Manufacture of hosiery and other knitted fabrics and garments.	271
	Embroidery and making of crepe lace and fringes.	272
	Making of textile garments including raincoats and headgear.	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags.	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin.	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling.	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above.	279

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures.	283
	Manufacture of other wooden products such as utensils, toys, artwares.	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest.	286
	Manufacture of boxes and packing cases other than plywood.	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products.	288
	Manufacture of other wood and allied products not covered above.	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill.	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade.	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp.	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals.	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry.	302
	All types of binding, stitching, sizing and other allied work connected with binding industry.	303
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather.	310
	Manufacture of shoes and other leather footwear.	311
	Manufacture of clothing and wearing apparel (exept footwear) made of leather and fur.	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles.	313
	Repair of shoes and other leather footwear ..	314
	Repair of all other leather products except footwear.	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose.	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat.	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries.	324
	Production of coaltar and coke in coke oven ..	325
	Manufacture of other coal and coaltar products not covered elsewhere.	326

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified.	330
	Manufacture of dyes, paints, colours and varnishes.	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fireworks.	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap.	335
	Manufacture of soap and other washing and cleaning compounds.	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber).	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats).	339
34	*Non-metallic Mineral Products other than Petroleum and Coal—*	
	Manufacture of structural clay products such as bricks, tiles.	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing.	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery ..	351
	Manufacture of porcelain and its products ..	352
	Manufacture of glass bangles and beads ..	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthern toys and artwares except those covered by code No. 355.	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above.	357
	Manufacture of other non-metallic mineral products not elsewhere specified.	359
36	*Basic Metals and their Products except Machinery and Transport Equipment—*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods.	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms.	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate.	363
	Manufacture of iron and steel furniture ..	364
	Manufacture of brass and bell metal products..	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can.	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products.	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*concld.*	
37	*Machinery (All kinds other than Transport) and Electrical equipment—*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery.	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors.	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories.	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers.	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone.	378
	Manufacture of electric machinery and apparatus, applicances not specified above.	379
38	*Transport Equipment—*	
	Manufacture, assembly and repairing of locomotives.	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363.	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines).	382
	Manufacture of motor vehicles engines parts and accessories.	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear.	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines.	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines.	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles.	389
39	*Miscellaneous Manufacturing Industries—*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies.	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies.	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals.	393
	Manufacture and tunning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen.	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group.	399
	Division 4—Construction	
40	*Construction—*	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railway, bridges, tunnels.	401
	Construction and maintenance of telegraph and telephone lines.	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells.	403

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	*Electricity and Gas—*	
	Generation and transmission of electric energy	500
	Distribution of ellectric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers.	502
51	*Water-Supply and Sanitary Services—*	
	Collection, purification and distribution of water to domestic and industrial consumers.	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation.	511
	Division 6—Trade and Commerce	
60	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil fish dairy products, eggs, poultry and other foodstuff (not covered elsewhere).	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products.	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water.	603
	Wholesale trading in intoxicants such as wines, liquors.	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products.	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder ..	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as, coke, coal, kerosene, candle.	611
	Wholesale trading in toilets, perfumery and cosmetics.	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware.	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings.	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products.	616
	Wholesale trading in petro, mobil oil and allied products.	617
	Wholesale trading in other household equipment not covered above.	618
62	Wholesale trading in bricks, tiles and other building materials.	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products.	621
63	Wholesale trading in paper and other stationery goods.	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical.	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb.	632
	Wholesale trading in all kinds of transport and storage equipment.	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment.	636
	Wholesale trading in scientific, medical and surgical instrucments.	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery.	638
	Wholesale trading in all goods not covered above.	639

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*contd.*	
64	*Retail Trade—*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry.	640
	Retail trading in beverages such as tea (leaf), coffee (secd and powder), aerated water.	641
	Retail trading in intoxicants such as wines, liquors.	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products.	644
	Retail trading in fuel such as coke, coal, firewood and kerosene.	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles).	650
	Retail trading in toilet goods, perfumes and cosmetics.	651
	Retail trading in medicines and chemicals ..	652
	Retail trading in footwear, headgear such as hat, umbrella, shoes and chappals.	653
	Retail trading in tyres, tubes and allied rubber products.	654
	Retail trading in petrol, mobiloil and allied products.	655
66	Retail trading in wooden, steel and other metallic furniture and fittings.	660
	Retail trading in stationery goods and paper ..	661
	Retail trading in metal, porcelain and glass utensils.	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above.	664
67	Retail trading in bricks, tiles and other building materials.	670
	Retail trading in hardware and sanitary equipment.	671
	Retail trading in wood, bamboo cane, bark and thatches.	672
	Retail trading in other building materials ..	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances.	680
	Retail trading in transport and storage equipments.	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear.	683
	Retail trading in clock and watch, eye glass, frame.	684
	Retail trading in scientific, medical and surgical instruments.	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing.	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous—*	
	Importing and exporting ofgoods and commodities.	690
	Real estate and properties	691
	Stocks, shares and futures	692

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*concld.*	
69	*Trade and Commerce Miscellaneous*—concld.	
	Providents and insurances	693
	Moneylending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
	Division 7—Transport, Storage and Communication	
70	*Transport—*	
	Transporting by railways	700
	Transporting by tramway and bus service ..	701
	Transporting by motor vehicles (other than omnibus).	702
	Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka.	703
	Animal transporting by animals such as horses, elephant, mule, camel.	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving.	705
	Transporting by boat, steamer, ferry, etc., by river, canal.	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean.	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	*Services incidental to transport—*	
	Such as packing, carting travel agency ..	710
72	*Storage and Warehousing—*	
	Operation of storage such as warehouses ..	720
	Operation of storage such as cold storage ..	721
	Operation of storage of other type	722
73	*Communication—*	
	Postal, telegraphic, wireless and signal communications.	730
	Telephone communication	731
	Information and broadcasting	732
	Division 8—Services	
80	*Public Services* (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups).	
	Public Services in Union and State army including territorial corps and volunteer corps.	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government.	804
	Public service in administrative departments and offices of quasi-Government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments.	809
81	*Educational and Scientific Services—*	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions.	810

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 8—Services—*contd.*	
81	*Educational and Scientific Services*—concld.	
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type.	811
	Scientific services and research institutions not capable of classification under any individual group.	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners.	820
	Veterinary services rendered by organisations and individuals.	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities this includes missions, ashrams and other allied organisations.	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk.	831
	Welfare services rendered by organisation operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity.	832
84	*Legal Services*—	
	Legal services rendered by barriater, advocate, solicitor, mukteer, pleader, mukurie, munshi.	840
	Matrimonial services rendered by organisations and individuals.	841
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals.	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals.	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies.	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors.	853
	Division 8—Services—*concld.*	
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations.	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library.	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures.	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals.	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing.	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks.	880
	Services rendered to households such as those by governess, tutor, private secretary.	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities.	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning. dyeing, bleaching, dry cleaning, services.	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shops.	884
	Services rendered by portrait and commercial photographic studios.	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified.	890
	Division 9—Activities not adequately described	
90	*Activities unspecified and not adequately described* including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified.	900
	Fresh entrants to the Labour Market ..	999

APPENDIX II

NATIONAL CLERIFICATIONS OF OCCUPATIONS

A Code structure which classifies occupations into—

11 Occupational Divisions (one-digit code numbers)

75 Occupational Groups (two-digit code numbers)

Note: n. e. c.=not elsewhere classified.

DIVISIONS

0 Professional, technical and related workers

1 Administrative, executive and managerial workers

2 Clerical and related workers

3 Sales workers

4 Farmers, fishermen, hunters, loggers and related workers

5 Miners, quarrymen and related workers

6 Workers in transport and communication occupations

7-8 Craftsmen, production process workers, and labourers not elsewhere classified

0 Service, sport and recreation workers

X Workers not classifiable by occupations

DIVISIONS AND GROUPS

0 Professional, Technical and Related Workers

00 Architects, Engineers and Surveyors
01 Physicists, Chemists, Geologists and other Physical Scientists
02 Biologists, Veterinarians, Agronomists and Related Scientists
03 Physicians, Surgeons and Dentists
04 Nurses, Pharmacists and other Medical and Health Technicians
05 Teachers
06 Jurists
07 Social Scientists and Related Workers
08 Artists, Writers, and Related Workers
09 Draughtsmen, Science and Engineering Technicians, n. e. c.
0X Other Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers

10 Administrators, and Executive Officials, Government
11 Directors and Managers, Wholesale and Retail Trade
12 Directors, Managers and Working Proprietors, Financial Institutions
13 Directors, Managers and Working Proprietors, Other

2 Clerical and Related Workers

20 Book-Keepers and Cashiers
21 Stenographers and Typists
22 Office Mechine Operators
28 Clerical Workers, Miscellaneous
29 Unskilled Office Workers

3 Sales Workers

30 Working Proprietors, Wholesale and Retail Trade
31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
32 Commercial Travellers and Manufacturers' Agents
33 Salesmen, Shop Assistants and Related Workers
34 Money Lenders and Pawn Brokers

4 Farmers, Fishermen, Hunters, Loggers and Related Workers

40 Farmers and Farm Managers
41 Farm Workers
42 Hunters and Related Workers
43 Fishermen and Related Workers
44 Loggers and Other Forestry Workers

5 Miners, Quarrymen and Related Workers

50 Miners and Quarrymen
51 Well Drillers and Related Workers
52 Mineral Treaters
59 Miners, Quarrymen and Related Workers, n. e. c.

6 Workers in Transport and Communication Occupations

60 Deck Officers, Engineer Officers and Pilots, Ship
61 Deck and Engine-Room Ratinga (Ship), Barge Crews and Boatsmen
62 Aircraft Pilots, Navigators and Flight Engineers
63 Drivers and Firemen, Railway Engine
64 Drivers, Road Transport
65 Conductors, Guards and Brakesmen (Railway)
66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport
67 Telephone, Telegraph and Related Telecommunication Operators
68 Postmen and Messengers
69 Workers in Transport and Communication Occupations, n. e. c.

7-8 Craftsmen, Production Process Workers, and Labourers not elsewhere Classified

70 Spinners, Weavers, Knitters, Dyers and Related Workers
71 Tailors, Cutters, Furriers and Related Workers
72 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers
73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers
74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers
75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers
76 Electrician and Related Electrical and Electronics Workers
77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers
78 Painters and Paper Hangers
79 Bricklayers, Plasterers and Construction Workers, n. e. c.
80 Compositors, Printers, Engravers, Book Binders and Related Workers
81 Potters, Kilnmen, Glass and Clay Formers and Related Workers.
82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers
83 Chemical and Related Process Workers
84 Tobacco Preparers and Products Makers
85 Craftsmen and Production Process Workers, n. e. c.
86 Testers, Packers, Sorters and Related Workers
87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers
89 Labourers, n. e. c.

9 Service, Sport and Recreation Workers

90 Fire Fighters, Policemen, Guards and Related Workers
91 House Keepers, Cooks, Maids and Related Workers
92 Waiters, Bartenders and Related Workers
93 Building Caretakers, Cleaners and Related Workers
94 Barbers, Hairdressers, Beauticians and Related Workers
95 Launderers, Dry Cleaners and Pressers
96 Athletes, Sports men and Related Workers
97 Photographers and Related Camera Operators
99 Service, Sport and Recreation Workers, n. e. c.

X Workers not Classifiable by Occupations

X0 Workers without occupations
X8 Workers Reporting Occupations Unidentifiable or Unclassifiable
X9 Workers not Reporting Occupations

APPENDIX III

COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBERS

Note : n. e. c. = not elsewhere classified

Industrial Code Number	Household Industry
Major Group 00—Field Produce and Plantation Crops	
005·1	Production of Vegetables
005·2	Production of roots, etc., not included above
006·1	Production of fruits and nuts in plantation, vines and orchards
006·2	Production of copra (from coconuts)
007·1	Production of thatching grass
007·2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass)
008·1	Production of juice (Neera) by tapping coconut trees
008·2	Production of juice by tapping other palms like date Palmyra n. e. c.
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above
Major Group 01—Plantation Crops	
013	Production of tobacco in plantation
015·1	Pan Cultivation
015·2	Plantation crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan
Major Group 02—Forestry and Logging	
023·1	Production of Charcoal
023·2	Production of other fuels by exploitation of forests
024	Production of fodder by exploitation of forests
025·1	Production of Kathha
025·2	Production of Lac
025·3	Production of gum
025·4	Production of resins, barks, heros, wild fruits, berries and leaves, etc., n. e. c.
026	Production and gathering of other forest products not covered above
Major Group 03—Fishing	
030	Production of fish by fishing in sea
031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries
032	Production of pearls, conch shells, sponges, sea herbs, corals, etc, by gathering or lifting from sea, river, pond
Major Group 04—Livestock and Hunting	
040·1	Rearing of goat for milk and animal power
040·2	Rearing of buffalo for milk and animal power
040·3	Rearing of cows for milk and animal power
040·4	Rearing of camels and other big domestic animals
040·5	Production and rearing of livestock mainly for milk and animal power n. e. c.
041·1	Sheep breeding and rearing
041·2	Production of wool
042·1	Rearing and production of pigs and goats (mainly for slaughter)
042·2	Rearing and production of other animals (mainly for slaughter) n. e. c.
043·1	Poultry keeping and production of eggs
043·2	Rearing and production of ducks, hens, etc., and other small birds, *e.g.*, pigeons, parrots, peacock, maina, etc.
044·1	Bee keeping for production of honey and wax
044·2	Collection of wax and honey
045	Rearing of tassar/eri/mulberry and other silk worms and production of cocoons and raw silk
046·1	Dog breeding, rearing of rabbits and guinea-pigs
046·2	Rearing of other small animals and insects n. e. c.
048·1	Collection of bones
048·2	Manufacture of glue from animal carcasses
048·3	Manufacture of gut
048·4	Production of other animal husbandry products such as skin, ivory, teeth and hair, etc.

Industrial Code Number	Household Industry
Major Group 10—Mining and Quarrying	
107·1	Extraction of chalk
107·2	Quarrying of lime-stone
107·3	Stone and slate quarrying
107·4	Quarrying of sand, clay, gravel, etc., n. e. c.
Major Group 20—Foodstuffs	
200·1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.
200·2	Hand pounding of rice by Dhekhi or Ukhal
200·3	Production of rice by milling, dehusking and processing of paddy by rice mill.
200·4	Grinding of chillies, turmeric, etc.
200·5	Production of pulses
200·6	Parching of grains
200·7	Production and processing of other crops and foodgrains n. e. c.
202·1	Gur and Khandsari making from sugarcane and palm
202·2	Production of bhoora and candy
202·3	Production of jaggery from coconut and palmyra juice (neera)
202·4	Production of other indigenous products from sugar and jaggery n. e. c.
203·1	Manufacture of achar, pickles, chutney and murabba
203·2	Production of sauce, jam and jelly
203·2	Processing of cashewnut
203·4	Manufacture of kokam products
203·5	Fruit preservation (canning of fruits)
203·6	Making dried vegetables
203·7	Production of other fruit products and preservation of fruits n. e. c.
204·1	Slaughtering, preservation of meat and fish and canning of fish
204·2	Fish currying or curing and salting (currying applies more to skin and hide)
205	Production of bread, biscuit, cake and other bakery products
206	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products
207	Oil pressing ghani, kolhu or by small machines
209·1	Confectionery
209·2	Making of sweetmeats, laddu, peda, barphi, batasa, etc.
209·3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.
209·4	Making of chura or chira, muri, murki, khoi
209·5	Making of chat
209·6	Making of dalmot, chanachur (jor) garam, rewari, etc.
209·7	Making of other food products for residuary snacks
209·8	Production of other food products like cocoa, chocolate, toffee, lozenge
Major Group 21—Beverages	
210·1	Manufacture of vinegar from coconut juice (neera)
210·2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malt in distillery and brewery
211	Production of country liquor from material obtained from sources other than trees and shrubs
212·1	Production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees
212·2	Production of other indigenous liquors from other materials from trees and shrubs
214·1	Production of mineral water
214·2	Production of aerated water such as sodawater, lemonade, etc.
215	Production of ice
216	Production of ice-cream, ice-candy or kulphimalai, milk-shake, etc.
218	Grinding of Coffee
219·1	Preparation of sharbats and squashes
219·2	Preparation of jeerapani
219·3	Production of other beverages n. e. c.

J-1076-II—16-A-(Poona)

Industrial Code Number	Household Industry
Major Group 22—Tobacco Products	
220	Manufacutre of bidi
221	Manufacture of cigars and cheroots
223	Manufacture of hookah tobacco
224	Manufacture of snuff
225	Manufacture of jerda, kimam, khaini and other chewing tobacco.
226	Manufacture of other tobacco products n. e. c.
Major Group 23—Textile—Cotton	
230	Cotton ginning, cleaning, carding, pressing and baling
231	Cotton spinning (by charkha and takali)
233·1	Dyeing of cloth (cotton) and yarn
233·2	Bleaching of cloth (cotton) and yarn
233·3	Tie and dye (bandhani) of cloth and yarn
234	Cotton cloth weaving in powerlooms
235	Cotton cloth weaving in handlooms
236	Manufacture of khadi textile in handlooms
237	Printing of cloth (cotton)
238·1	Making of fishing net
238·2	Making of mosquito net
238·3	Making of other nets
239·1	Making of sacred thread
239·2	Making of thread, rope, cordage and twine (cotton)
Major Group 24—Textile—Jute	
240	Jute pressing and baling
241	Jute spinning and weaving of mats, asanis, etc.
242	Dyeing and bleaching of jute
244·1	Making of rope and cordage, out of hemp
244·2	Making of rope and cordage, out of jute
244·3	Making of rope by palm fibre
244·4	Making of rope by date palm fibre
244·5	Making of fibre, sunn-hemp fibre
244·6	Making of other products from jute and similar fibres such as hemp, mesta
Major Group 25—Textile—Wool	
250	Wool baling and pressing
251	Cleaning, sorting, carding, scouring and processing of wool
253	Spinning of wool by charkha or takali
254	Weaving of woollen cloth in powerloom such as blankets, asanis, etc.
255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.
256·1	Embroidery with various colours, combinations of various threads and art work in woollen textile
256·2	Shawls (with traditional borders)
Major Group 26—Textile—Silk	
261	Dyeing and bleaching of silk
262·1	Spinning of tussar, other than in mills
262·2	Spinning of eri, other than in mills
262·3	Spinning of silk, other than in mills n. e. c.
263·1	Weaving of Traditional silk (Atlas) by powerloom
263·2	Weaving of tussar by powerloom
263·3	Weaving of eri by powerloom
263·4	Weaving of silk and artificial silk in powerloom n. e. c.
264·1	Weaving of mashru, himroo, brocade, kinkhab by handloom
264·2	Weaving of silk and artificial silk in handloom n. e. c.
265	Printing of silk textile
266·1	Goaf making
266·2	Making of silk cordage, rope and twine n. e. c.
Major Group 27—Textile—Miscellaneous	
270·1	Making of durries
270·2	Making of carpets and druggets
270·3	Manufacture of other similar textile products n. e. c.
271·1	Making of hosiery goods such as banyans, socks, sweaters, mufflers, etc.
271·2	Making of nalas and azarbands
271·3	Making of parandas and chootelas

Industrial Code Number	Household Industry
Major Group 27—Textile—Miscellaneous—*concld.*	
271·4	Manufacture of hosiery and other knitted fabrics and garments n. e. c.
272·1	Embroidery and making of phulkari
272·2	Making of jari thread, zardoshi
272·3	Traditional embroidery
272·4	Patchwork embroidery
272·5	Lace garland making
272·6	Making of fringes and crepe laces
272·7	Making of kargota, main garlands, shell garlands, etc.
272·8	Making of other embroidery products n. e. c.
273·1	Making of cap, hat and other head-gear
273·2	Traditional garments
273·3	Chrochet work (bora caps)
273·4	Making of textile garments including raincoats and head-gears n. e. c.
274·1	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags, etc.
274·2	Making of newar
274·3	Manufacture of other made-up textile goods like mattress, quilt, rezai, etc., n. e. c.
275	Manufacture of waterproof textile products such as oil cloth, tarpaulin, etc.
276·1	Making of namda felt
276·2	Making of suzani (padded quilts)
276·3	Processing of coconut fibre for upholstery
276·4	Handicraft articles made of flax and fibre
276·5	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n. e. c.
277·1	Manufacture of coir matting, cactus fibre for ropes and rope making from coconut fibre
277·2	Making of brush, broom, etc., from coconut fibre
277·3	Coir spinning
277·4	Coconut curing
277·5	Other allied products of coir industry n. e. c.
278	Manufacture and repair of umbrellas
279·1	Making of daura (thread) batua, cotton thread, buttons
279·2	Manufacture of dolls and toys (rags and cotton)
279·3	Manufacture of other textile products not elsewhere classified
Major Group 28—Manufacture of Wood and Wooden Products	
280	Sawing, planing and milling of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows
283·1	Carpentry works concerned with repairs of agricultural implements (wood)
283·2	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures
284·1	Lacquerware (if on wood)
284·2	Manufacture of wooden utensils, artware and decorative wooden boxes (patras)
284·3	Manufacture of wooden toys
284·4	Sandal wood and other wood carving
284·5	Bead making from wood
284·6	Sawdust and plaster figure making
284·7	Marquetry boxes (inlay work)
284·8	Manufacture of photo frames and framing of photo paintings, etc.
284·9	Manufacture of other wooden products n. e. c.
285	Manufacture of match splinters, plywood and veneers
287	Manufacture of boxes and packing cases other than plywood
288·1	Making of box from moonj grass
288·2	Making of rope mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes
288·3	Making of mats, handfans and umbrellas from palm leaves
288·4	Making of sirki, moora and chhaj
288·5	Making of baskets and broomsticks
288·6	Making of donas (drone) and pattals (patravali from) leaves

J-1076—II—16-B-(Poona)

Industrial Code Number	Household Industry
	Major Group 28—Manufacture of Wood and Wooden Products—*concld.*
288·7	Caning of chairs.
288·8	Making of chicks, cuscus-tatti and fans, sticks and poles from bamboo.
288·9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n. e. c.
289·1	Making of sticks and poles from wood.
289·2	Making of wooden kharaus and other wooden sandals
289·3	Making of cartwheels.
289·4	Manufacture of other wood and allied products n. e. c.
	Major Group 29—Paper and Paper Products
291	Manufature of pulp and paper by hand
292·1	Making of envelopes and paper bags
292·2	Papier mache articles
292·3	Making of kite
292·4	Paper decorations for homes
292·5	Making of card-board boxes and cards
292·6	Making of paper toys
292·7	Making of paper flowers, etc.
292·8	Manufature of other paper products from paper, paper board and pulp n. e. c.
	Major Group 30—Printing and Publishing
301	Printing and publishing of books
302·1	Printing works, printing of handbills, invitation cards, etc.
302·2	Lithography, engraving, etching, block making, type cutting and other work connected with printing industry
303	Book binding, stitching, sizing and other work connected with book binding industry
	Major Group 31—Leather and Leather Products
310·1	Flying, processing of hides and skins including taxidermy
310·2	Currying, tanning and finishing of hides and skins, preparation of finished leather
310·3	Stuffed animals
311·1	Making of leather boots, shoes or chappals (slippers, sandals)
311·2	Making of Poola shoes
311·3	Manufature of other footwear n. e. c.
312	Making of clothing and wearing apparel (except footwear), made of leather and fur
313	Manufature of leather products such as leather upholstery suit cases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (Kos), charsa and other articles
314	Repair of shoes, chappals and other leather footwear
315	Repair of all other leather products except footwear
	Major Group 32—Rubber, Petroleum and Coal Products
320	Vulcanising tyres and tubes.
321	Manufacture of chappals from torn tyres and other rubber footwear
322	Manufacture of rubber products from natural and synthetic rubber including rain-coats, oil cloths, waterproof cloths, etc.
	Major Group 33—Chemicals and Chemical Products
331·1	Manufacture of dyes, paints, colours, abir, sindoor, varnish, etc.
331·2	Manufactrue of indigo
332	Manufacture of fertilizer (including from bones)
333	Manufacture of fireworks and other explosives such as *pataka*, etc.
334	Manufacture of matches
335·1	Manufacture of incense and perfumes
335·2	Manufacture of Agarbatti
335·3	Manufacture of rose water
335·4	Manufacture of powder, snow cream. bindi, tikali, hair oil and nail polish
335·5	Manufacture of kumkum and hinglo
335·6	Manufacture of mascara and kajal

Industrial Code Number	Household Industry
	Major Group 33—Chemicals and Chemical Products—*concld.*
335·7	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations
335·8	Manufacture of perfumes, cosmetics and other toilet preparations n. e. c.
336·1	Manufacture of soap and washing soda.
336·2	Manufacture of other washing and cleaning compounds n. e. c.
337·1	Manufacture of plastic toys
337·2	Making of plastic buttons
337·3	Manufacture of other plastic goods
337·4	Making of celluloid goods
337·5	Manufacture of turpentine, synthetic resin and other materials n. e. c.
338	Salt production
339·1	Manufacture of ink including fountain pen ink
339·2	Making of candles
339·3	Making of tooth powder
339·4	Making of boot polish and inedible oils, etc.
339·5	Manufacture of other chemical products n. e. c.
	Major Group 34-35—Non-metallic Mineral Products other than Petroleum and Coal
340·1	Making of bricks
340·2	Manufacture of roofing tiles
340·3	Manufacture of other clay products n. e. c.
341·1	Manufacture of cement door frames and sanitary fittings
341·2	Manufacture of cement jali and tiles
341·3	Making of cement statues
341·4	Making of cement products n. e. c.
342·1	Manufacture of lishu
342·2	Manufacture of lime
343·1	Stone carving
343·2	Marble carving
343·3	Granite carving
343·4	Manufacture of other structural stone goods, stone dressing and stone crushing n. e. c.
344	Making of chakki, chakla, silaut, lorha, jainta, utensils and other articles from stone
365	Manufacture of stone images and toys
346·1	Making of images from soap stone
346·2	Manufacture of images, toys and other articles of plaster of paris
348·1	Mica splitting
348·2	Manufacture of mica products, including mica grinding
350	Making of earthenware such as pottery, etc.
351	Manufacture of crockery
353·1	Making of glass bangles
353·2	Making of glass beads
353·2	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)
354	Manufacture of Laboratory glass apparatus
355	Making of clay models, earthen images, busts and statues
356·1	Making of earthen toys and artware
356·2	Decorative ceramics
357	Manufacture of glass and glass products except optical and photographic lenses
	Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment
360·1	Re-rolling of M. S. Rods
360·2	Manufacture of iron and steel including smelting, refining, rolling, etc., such as billets, blooms, tubes, rods n. e. c.
362	Manufacture of arms and weapons and their repair service
364	Manufacture of iron and steel furniture
365·1	Making of uternsils of brass and bell metal
365·2	Making of brassware
365·3	Making of bottom part of hookha from brass and bell metal

Industrial Code Number	Household Industry
	Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment—*concld.*
365·4	Making of brass and bell metal ornaments
365·5	Making of other brass and bell metal products n. e. c.
366·1	Making of aluminium utensils
366·2	Making of other aluminium products n. e. c.
367·1	Making of tin utensils
367·2	Making of articles from tin sheets
367·3	Copper utensils
367·4	Bronze works including bronze images, medals and articles of alloys
367·5	Manufacture of other metal products (excluding iron brass, bell metal, aluminium) n. e. c.
368·1	Lacquerware (if on metal)
368·2	Nickel plating and electroplating
368·3	Engraving, embossing, polishing and welding of metal products
368·4	Enamelling and galvanizing of metal products
368·5	Plating and electroplating of metal n. e. c. including silverplating, goldplating, E. P. N. S., etc.
369·1	Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc.
369·2	Manufacture of light engineering goods including bolts and screws
369·3	Making of iron utensils (*e.g.*, buckets, etc.) and articles from iron sheets.
369·4	Making and repairing of locks and trunks
369·5	Cutlery
369·6	Manufacture of pins
369·7	Manufacture of scales, weights and measures
369·8	Foundry Industry (including blacksmithy)
369·9	Manufacture of other sundry hardware such as G. I. pipe, wire net, etc., n. e. c.
	Major Group 37—Machinery (All kinds other than Transport) and Electrical Equipment
370	Manufacture of mechanical water pumps, tube well pumps, air pumps, etc.
372	Manufacture of small machine tools and machine parts.
373	Manufacture of sewing machine parts
375	Repairing and servicing of fans
376	Manufacture of insulated wires
377·1	Manufacture of storage batteries
377·2	Manufacture of charging batteries
377·3	Manufacture of other batteries n. e. c.
378	Repairing and servicing of radios
379·1	Manufacture of domestic electrical appliances
379·2	Repairing and servicing of electrical apparatus, heaters, oven, etc.
	Major Group 38—Transport Equipment
382	Manufacture of body of trucks and buses including carpentry and joinery work involved.
384	Repairing and servicing of automobiles

Industrial Code Number	Household Industry
	Major Group 38—Transport Equipment—*concld.*
385·1	Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc.
385·2	Manufacture of rickshaw parts
386	Manufacture of boats and barges
388	Repair of cycle and rickshaw
389	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki, cab, wheelbarrow, handbarrow, etc.
	Major Group 39—Miscellaneous Manufacturing Industries
390·1	Repair of spectacles
390·2	Manufacture of small photographic equipment
390·3	Manufacture of optical and photographic equipment n. e. c.
391	Manufacture of scientific goods
392	Repairing and servicing of watches and clocks
393·1	Inlay work with ivory and brass
393·2	Godsmithy
393·3	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones
393·4	Silver artware, including Silver repousse work on copper (such as in Tanjore) and silver images
393·5	Silver filigree industry
393·6	Manufacture of gold and silver leaves
393·7	Gold covering work (fancy jewellery)
393·8	Bidriware industry
393·9	Manufacture of jewellery, silverwares, etc., n. e. c.
394	Manufacture, repairing and tuning of musical instruments such as harmonium, tabla, sitar, bansuri, etc.
395·1	Manufacture of chalk pieces
395·2	Making of slate and slate pencil
395·3	Making of rubber stamps
395·4	Manufacture of fountain pen parts
395·5	Manufacture of other stationery articles such as pencils, penholders, etc.
396·1	Manufacture of deshi sports goods such as lezzim and dumbells
396·2	Making of rubber balls and balloons
396·3	Manufacture of other sports goods n. e. c. bats, rackets, balls, etc.
399·1	Making of tikka and cowdung cakes
399·2	Making of beds from conch shells and horn goods
399·3	Making of traditional objects such as Orissa, Mysore and Tanjore paintings, etc.
399·4	Making of lac bangles
399·5	Making of buttons (bone, shell, ivory)
399·6	Making of gangavan (making of wig from human hair).
399·7	Making of garlands from flowers, camphor, sandal wood shavings, seeds and other materials like beds, etc.
399·8	Repair of petromax lights, etc.
399·9	Making and repairing of goods, n. e. c.

A-I—Area, Houses and Population

EXPLANATORY NOTE

The scope of the 1961 District Census Handbooks has been enlarged to include in this Part, Official Statistics on climate and rainfall, agriculture, industry, education, health and a few other topics. The material presented here was mainly collected and compiled by the District Statistical Officer, for this volume. The concerned Departments of the State and Central Governments have also been consulted. For most of the Tables the footnotes show the sources from which the material has been obtained.

2. There are 33 Tables in this Part. They may be broadly grouped as follows :—

(1) Climate and Rainfall—Tables 1 and 2.
(2) Agriculture—Tables 3 to 10.
(3) Industries—Tables 11 to 14.
(4) Education—Tables 15 and 16.
(5) Public Health—Tables 17 to 19.
(6) Miscellaneous—Tables 20 to 33.

(1) CLIMATE AND RAINFALL

Table 1

This table presents the highest and the lowest temperatures recorded at one or more stations in the district for all the 12 months for the years 1951 to 1960. Annual averages are shown in the last column.

Temperature data are maintained by the Meteorological Department and are published in their monthly weather reports and their summary which is published annually.

Table 2

This table shows monthly and annual rainfall and the number of rainy days for the various stations in the district. "Normal rainfall" [column (28)] is the average rainfall over a long period—usually 80 years. Where rainfall records over such a long period are not available it may be the average for a shorter period—in some cases even five years. Rainfall records are maintained at taluka headquarters, dispensaries and a few police stations where rain-gauges have been supplied. These statistics are published in Part III of the State Government Gazette and Annual Season and Crop Reports issued by the Department of Agriculture. They are subsequently consolidated and issued by the Meteorological Department in two annual publications, *viz.*, " Daily Rainfall of India " and " Monthly Rainfall of India ".

Rainfall statistics are presented in this table separately for each of the ten years from 1951 to 1960.

(2) AGRICULTURE

Table 3

This table shows the utilisation of land and areas under various crops. Material is presented for the district as a whole and for each taluka separately. It is presented for ten years 1950-51 to 1959-60 :

(i) *Geographical area* : This area represents the total land area and is worked out from the Survey and Settlement Records. The changes in the geographical area from year to year may be due to territorial changes or corrections on account of adjustments in the areas of former unsurveyed villages which are now surveyed ;

(ii) *Forests* : This category includes all areas actually under forests whether State-owned or private and classed or administered as forests under any legal enactment dealing with the forests ;

(iii) *Barren and unculturable land* : This includes barren and unculturable lands like mountains, river beds, etc. (land which cannot be brought under cultivation unless at a very high cost) ;

(iv) *Culturable waste* : This includes lands which can be brought under cultivation but which have not been cultivated or having been cultivated for some time have not been cultivated successively for more than five years. Such lands may either be fallow or covered with shrubs ;

(v) *Permanent pastures and other grazing lands* : This includes all grazing lands whether they are permanent pastures and meadows or not ;

(vi) *Miscellaneous tree crops and groves not included in the net area sown* : This category includes lands under casuarina trees, thatching grass, bamboo bushes or other trees used for fuel, etc. Lands which are not included under orchards are included in this class. These are lands which are put to some agricultural use but whose area is not included in the net area sown ;

(vii) *Current fallows* : This includes lands which are left fallow during the current year only ;

(viii) *Other fallow land* : All lands which have been cultivated but which are temporarily out of cultivation for a period of not less than one year and not more than five years;

J-1076-III—32-A-(Poona).

(ix) *Net area sown*: The net area sown is the actual area under crops counting areas sown more than once in the same year only once ;

(x) *Gross cropped area*: This is the sum of areas under all crops and represents the sum of net area sown and area sown more than once in the year.

After the land utilisation statistics under section A in column (1) the table presents in section B the details of areas under different crops. The crops are classified in two main groups, *viz.*, foodcrops and non-foodcrops. Foodcrops are further grouped by "cereals, pulses and others". Non-foodcrops are similarly shown under "oilseeds and others".

The data on land utilisation and areas under crops are primarily prepared by the village officials of the Revenue Department. They are subsequently consolidated by the Agriculture Department.

Talukawise land utilisation and crop statistics are being presented for the first time in this volume. They have not been published so far anywhere else.

Table 4

This table presents gross and net irrigated areas and the distribution of net irrigated area by sources of irrigation. To facilitate comparison, the gross cropped area is also shown in column (3). The data are presented for three years, *viz.*, 1950-51, 1955-56 and 1959-60. Presentation is for the district as a whole and for each taluka separately.

Table 5

This table shows the acreages of various crops under irrigation for each year from 1950-51 to 1959-60. To facilitate comparison, the gross cropped area and the gross irrigated area are presented in the beginning. This is followed by acreages under irrigation for each crop.

The material is presented for the district as a whole and for each taluka separately.

Sources for the district and talukawise material are different and there may, therefore, be a few small discrepancies between the two sets of figures.

Table 6

This table presents the outturn and average yields per acre of principal crops in the district. The crops presented are foodcrops like rice, wheat, jowar, bajri, ragi, maize, tur, gram and sugarcane and non-foodcrops like groundnut, sesamum, cotton and tobacco. Crops which are locally important are only shown in this table.

The outturn figures are in hundred tons while average yields are shown in pounds per acre.

J-1076-III—32-B-(Poona).

The estimates of average yields and production in respect of rice, bajri, kharif and rabi jowar, wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted annually by the Agriculture Department. The estimates of yields for other remaining crops are based on the anna valuation figures and normal yields reported by the Revenue Officers. The figures relate to the years 1950-51 to 1959-60.

Table 7

This table presents wholesale prices of principal crops. The material is presented for previous years by monthly averages and for the last year separately for each month. The prices shown are for the places having regulated markets or for the District Headquarters.

Table 8

This table presents harvest prices of principal crops. The "harvest price" is the average wholesale price at which the commodity is disposed of by the producer to the trader at the village site during the specified harvest period. These prices are published in the Season and Crop Reports. The figures relate to the years 1950-51 to 1959-60.

Table 9

This table presents figures for livestock and agricultural implements for the district and each taluka separately for three years : 1951, 1956 and 1961. The material is obtained from the three Livestock Censuses conducted in those years. The reference date to which the data relate is the 15th April of the concerned year.

"Poultry" in section B of the table includes hens, cocks, chicken, ducks, drakes and ducklets.

Section C presents statistics for agricultural implements. The figures for carts shown in the table are in respect of carts used for agricultural purposes only.

The number of tractors is inclusive of those owned by the Government and those owned by private persons.

The material is presented for the district as a whole and for each taluka separately.

Table 10

This table presents the distribution of the number of land holdings and their areas by size of holdings. The material has been taken from the census of agricultural holdings conducted in the year 1952-53 in different parts of the State.

The figures presented here are for ownership holdings and the area figures are in terms of converted dry acres, *i.e.*, calculated after giving due weightage for irrigated lands.

Where the district has undergone major changes because of the reorganisation of States in 1956 or 1960, the material relates to the area of the district as it existed in the year 1952-53.

(3) INDUSTRIES

Table 11

This table presents, for each industry, the total number of working factories, the number of man-days for which they worked during the year and the average daily number of workers employed classified by adults (18 years and above), adolescents (15 to 17 years) and children (14 or less). Statistics presented in columns (3) to (11) relate only to the reporting factories. The number of non-reporting factories and their estimated average daily number of workers are shown in columns (12) and (13). These details of factories are further split up by the type of industry shown under column (1) both by industry code and a brief description. The industry codes shown here (as well as in Table 12) are those used for compilation of data by the Chief Inspector of Factories. They are different from the Standard Industrial Classification used in the Census Tables and reproduced in Appendix I to the Explanatory Note to Part II.

The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

The word " factories " here includes only the registered factories. They are of three types—

(i) Factories using no power but employing 20 or more workers;

(ii) Factories using power and employing 10 or more workers; and

(iii) Factories not covered by (i) and (ii) above but notified by the Government as covered by the Factories Act.

The material presented in this table is for all the three types combined.

Table 12

This table presents the distribution of factories for each type of industry by size of employment. For each size group, the number of factories and their total working strength are shown for each industry separately. The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

Table 13

This table presents the distribution of factories for each type of industry by the number of days worked during the year. The material is shown for each industry and the number of factories and their total workers are shown for each group of working periods. This will show the seasonal or perennial pattern of employment in industries in the district. Material is presented only for the district as a whole and relates to the year 1961.

Table 14

This table presents a summary of data regarding the manufacturing industries as obtained through the annual Census of Manufacturing Industries conducted during the year 1958.

The 1958 Census had covered only 29 important industries. It moreover covered only the factories using power and employing 20 or more workers.

The figures for capital, etc., relate to 31st December 1958. "Value" added by manufacture denotes the increase in the total value of commodities as calculated by deducting the cost of materials, supplies, containers, fuel, electric energy and depreciation of fixed assets from the total value of the products.

The table presents only the combined figures for the 29 industries covered in the 1958 Census.

(4) EDUCATION

Table 15

This table shows the number of different types of educational institutions in the district and the total number of pupils (boys and girls) and teachers for each type for the years 1951, 1956 and 1961. The material is presented for the district as a whole and for each taluka separately.

The number of institutions relates to the academic year ending June and the number of pupils is as on 31st March of the respective years.

Table 16

This table presents a list of colleges and high schools in the district with their locations. The material relates to 31st March 1961, and does not include institutions started after that date.

Lists are presented talukawise.

(5) PUBLIC HEALTH

Table 17

This table shows medical facilities available in the district. The material is presented for three years 1950, 1955 and 1960 and shows the number of hospitals, maternity homes, dispensaries, rural health centres, doctors, nurses, beds available and indoor and outdoor patients treated.

Material is presented for each taluka separately.

The material presented here includes only civil hospitals and Government dispensaries, Local or Municipal Funds institutions, private-aided or Railway dispensaries. It does not cover private unaided institutions run by individuals or associations. Similarly, the number of doctors, nurses or patients shown in this table does not include that relating to unaided hospitals, dispensaries or private practitioners.

Table 18

This table shows data about births, deaths and infant deaths for the years 1951 to 1960. Wherever possible, figures for each taluka are also shown separately. For the districts of Aurangabad and Nagpur divisions, material is available and presented only for the years 1957 and onwards.

The figures of infant deaths relate to deaths of children below one year.

The coverage and reporting on births, deaths and epidemic diseases in the rural areas are incomplete in many respects. The material presented in Tables 18 and 19 should not, therefore, be treated as any accurate representation of actual conditions in the district and should be used only after allowing a margin for those limitations. The Department of Public Health is working on many schemes to improve the present position in respect of vital statistics.

Table 19

This table shows the number of deaths due to principal causes in the district for the 10 years 1951 to 1960. The causes of deaths shown are cholera, smallpox, plague, dysentery and diarrhoea, fever, respiratory diseases and other causes. The figures of fevers include deaths due to enteric fever, cerebro-spinal fever, malaria, influenza, typhus, etc. Respiratory diseases include pneumonia, pulmonary tuberculosis, whooping cough, etc. In the other causes are included diphtheria, chicken-pox, poliomyelitis, leprosy, cancer, deaths from child birth, etc.

(6) MISCELLANEOUS

Tables 20 to 31

Tables 20 to 31 are self-explanatory and need no further clarification.

Table 32

This table presents talukawise lists of weekly markets. The table also shows the day on which the weekly bazar is held. Places where cattle bazars are held are also indicated. The list is based on the information collected from the Mamlatdar's offices and the Census enumerators' reports, prepared in September-October 1960.

Table 33

This table gives a talukawise list of villages where different religious or cultural fairs are held. The list includes only those fairs which have a congregation of 1,000 or more. Information regarding—

(i) Location Code Number,
(ii) the name of the village in which the fair is held,
(iii) distance from Railway station and S. T. Bus stop,
(iv) name of the fair, and month and date of the fair, and
(v) average congregation

is furnished for each fair separately.

The list is prepared on the basis of information collected from the District Superintendents of Police, Municipalities and the Census enumerators' reports. The number of people gathering at the fair is based on eye estimates and should be treated as a broad approximation.

(b) Gur	169	98	94,364	1,436	46	..	..	3	..	1,485	71	1,173
208 Manufacture of sugar confectionery (cocoa and chocolate).	6	4	50,213	140	25	..	..	..	..	165	2	21
209 Manufacture of miscellaneous food preparations—												
(a) Manufacture of edible oils (other than hydrogenated oils).	5	4	17,241	92	2	..	..	..	..	94	1	10
(g) Cold storage	1	1	3,731	8	4	1	..	..	..	13	..	..
(i) Others	4	4	20,175	72	4	..	..	..	..	76	..	..
211 Distilling, rectifying and blending of spirits	1	1	8,184	38	..	..	..	..	..	38	..	..
214 Soft drinks and carbonated water industries												
(b) Carbonated water industries	3	3	11,803	35	..	..	..	..	..	35	..	..
220 Tabacco manufactures—												
(a) Bidi	24	18	246,864	137	810	..	..	..	7	954	6	295
(d) Snuff	2	2	18,315	35	24	..	..	..	..	59	..	..
231 Spinning, weaving and finishing of textiles—												
(a) Cotton mills	26	22	146,905	2,209	144	..	..	..	..	2,353	4	218
(c) Silk mills	2	2	18,545	50	10	..	..	..	..	60	..	..
(f) Carpet weaving	1	1	6,710	14	8	..	..	..	..	22	..	..
232 Knitting mills	5	4	38,251	103	31	..	..	..	..	134	1	12
233 Cordage rope and twine industries	1	1	9,300	10	8	..	12	..	..	30	..	..
239 Manufacture of textiles not elsewhere classified—												
(b) Artificial leather and oil cloth	1	1	186,042	600	6	..	..	..	..	606	..	..
(c) Others	2	2	9,861	55	13	9	2	..	..	79	..	..
241 Manufacture of boots and shoes (except rubber footwear).	1	..	..	..	..	..	..	..	..	..	1	19
243 Manufacture of wearing appearal (except footwear)—												
(a) Clothing	5	4	48,690	126	43	..	..	..	..	169	1	49
250 Manufacture of wood and cork except manufacture of furniture—												
(a) Saw mills	1	1	12,200	40	..	..	..	..	..	40	..	..
(c) Joinery and general wood working	1	1	6,468	18	3	..	..	..	..	21	..	..
(d) Boxes and packing cases	2	2	16,808	55	..	..	..	..	..	55	..	..
260 Manufacture of furniture and fixtures—												
(a) Wooden	11	7	29,668	115	..	..	..	..	..	115	4	140
(b) Metal	4	2	19,491	63	..	..	..	..	..	63	2	140
271 Pulp, paper and paper board mills—												
(b) Paper	2	2	10,9791	303	71	..	..	..	..	374	..	..
(d) Others	5	3	15,756	47	5	..	..	..	..	52	2	90
280 Printing, bookbinding, etc—												
(a) Letterpress	88	73	834,271	2,846	6	8	..	..	..	2,860	15	204
(b) Other printing including photography.	2	2	102,565	354	11	..	..	..	..	365	..	..
291 Tanneries and leather finishing	3	3	8,030	22	..	..	..	..	..	22	..	..
300 Manufacture of rubber and rubber Products—												
(c) Others	4	4	317,281	948	92	..	..	..	..	1,040	..	..
311 Basic chemicals including fertilisers—												
(a) Artificial manures	2	2	9,414	27	1	3	1	..	..	32	..	..
(b) Heavy chemicals	1	1	12,054	49	..	..	..	..	..	49	..	
319 Manufacture of miscellaneous chemical products—.												
(a) Fine and Pharmaceutical chemicals	7	7	415,054	1,234	160	..	..	..	..	1,394	..	..
(d) Paints, colours and varnishes	4	4	45,932	153	1	..	..	..	..	154	..	..
(e) Soap	2	2	3,612	35	..	..	..	..	..	35	..	..
(f) Others	5	5	65,379	211	4	..	..	..	..	215	..	..
321 Petroleum refineries, etc.—												
(d) Petroleum pumping, filling and storage.	5	5	31,344	101	1	..	..	..	..	102	..	..
