INTRODUCTORY NOTE

1. History of District Census Handbook.

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the outbreak of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of develoment and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and non-Census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning the development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory

Part B : Village and Town-wise Primary Census Abstract

Part C : Analytical Report and Administrative Statement—District Census Tables.

2. Scope of District Census Handbook.

Part A of the Handbook comprises the Town and Village Directory. In village Directory, particulars of amenities in regard to Education, Medical, Power supply, drinking water supply, Post and telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Educational facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of the town by Religion and Scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex,

scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and livestock etc., in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. Town Directory given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as town, and according to thier average annual income from their own resources, these have been classified into different classes of local bodies. The Criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as Towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments & Notified Areas.

2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.

3. Other places satisfying all the three undermentioned conditions :

   (i) Population exceeds 5,000.

   (ii) At last 75% of the male working population engages in non-agricultural pursuits, and

   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons per sq. km.).

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) Statement I - This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971, Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town,

to derive which, the working population under the broad industrial categories has been regrouped into five broad functional classifications: –

(i) Primary Activities-Categories I, II, III, & IV
(ii) Industry-Categories V (a) V (b) and VI
(iii) Trade and Commerce-Category VII
(iv) Transport-Category VIII, and
(v) Services-Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60% or above, the town is designated as bi-functional. If the total does not yield 60%, the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statemnt are :

C – Municipal Corporation

M – Municipal Board

NAC – Notified Area Committee

TC – Town Area Committee

CB – Cantonment Board

(b) Statement II—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest City with its distance, name of district and tahsil headquarters, railway stations and bus routes etc., have been indicated.

(c) Statement III—It reveals the municipal finances for the year 1968-69. The receipts through taxes and others sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) Statement IV— In this statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Col. 3	PR	.....For Pucca Road
	KR	..... „ Kachcha Road
Col. 4	PT	..... „ Pit Tank
	OSD	..... „ Open surface
Col- 8	B	..... „ Basket
	HC	..... „ Hand Cart
	HL	..... „ Head Load
	MT	..... „ Mechanical Transport
Col. 9	TW	..... „ Tube Well
	OHT	..... „ Overhead Tank

(e) Statement V—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Col. 3	H	..... For Hospital
	D	..... „ Dispensary
	HC	..... „ Health Centre
	FC	..... „ Family Planning Centre
	TBC	..... „ T. B. Clinic
	MCW	..... „ Maternity and Child Welfare Centre
Col. 5	AS	..... „ Arts and Science College
Col. 17	PL	..... „ Public Library
	RR	..... „ Reading Room

(f) Statement VI—This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured, imported and exported, the number of Banks and agricultural as well as non-agricultural credit societies are given in the statement. The commodities mentioned therein are those having the highest value in currency. In a few cases, if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) Statement VII—The census table C-VII giving distribution of population by religion and scheduled castes/scheduled tribes has been reproduced in this statement. While sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'Others'.

(5) Village Directory reveals the general living conditions of peasantry and the overall development that has taken place in the countryside. The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, post and telegraph have been given in columns 4 to 9 of this directory. Besides, the information relating to staple food, distance from nearest town, days of market/hat and places of religious, historical or archaeological interest is also given in the statement. If the village is un-inhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for Agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations :

In Column 4

JBS for Junior Basic School

SBS ,, Senior Basic School

HSS ,, Higher Secondary School

C ,, College

O ,, Others

In Column 5

H for Hospital

D ,, Dispensary

FC ,, Family Planning Centre

HC ,, Health Centre

MCW ,, Maternity & Child Welfare Centre

O ,, Others

In Column 6

E for Electricity

In Column 7

T for Tap

HP ,, Hand pipe

W ,, Well

WE ,, Well with Electricity

TK ,, Tank

R ,, River

F ,, Fountain

C for Canal

WF ,, Waterfall

L ,, Lake

TWE ,, Tube-well with Electricity

O ,, Others

In Column 8

KR for Kachcha Road

PR ,, Pucca Road

T ,, Train

CR ,, Canal Road

R ,, River

C ,, Canal

In Column 9

PO for Post office

TO ,' Telegraph office

PTO ,, Post and Telegraph office

Phone ,, Telephone

In Column 12

T for Total

C ,, Canal

W ,, Well

WE ,, Well with Electricity

TW ,, Tube-well

TWE ,, Tube-well with Electricity

TK ,, Tank

R ,, River

WF ,, Waterfall

L ,, Lake

F ,, Fountain

O ,, Others

In Column 18

T for Temple

M ,, Mosque

C ,, Church

G ,, Gurudwara

HP ,, Historical Place

RP ,, Religious Place

A ,, Archaeological monument

EA ,, Electricity for Agricultural purpose

An appendix has been included summing up the amenities at district level with tahsil-wise break-up.

THE DISTRICT

A—Town Directory

(a) Statement–I

Pithoragarh district has only one town, namely Pithoragarh M. B., which has been treated as urban for the first time in 1971 Census. The functional category of this town is as follows :—

Table 1

Functional Category	Name of Town
Services	Pithoragarh M. B.

Pithoragarh M. B., the headquarters of district, is a mono functional town having 56.9% of its workers in the Service Class.

(b) Statement–II

The physical and locational aspects have been covered in this statement. The figures of annual rainfall and the minimum temperature for the town were not available with the Director of Meteorological Centre, Delhi so the information given in Col. 4-6 relates to the nearest observatory in the adjoining district.

(c) Statement–III

The Per Capita receipt and expenditure of the local body is as below :—

Table 2

		Per Capita						
		Receipt (Rs.)			Expenditure (Rs.)			
Class of Towns	No. of Towns	Total Receipt	Receipt through taxes etc.	Receipt from all other sources	Total expen-diture	Expendi-ture on public health & convenience	Expendi-ture on pubic institutions	Expendi-ture on all other aspects
	2	3	4	5	6	7	8	9
Class IV 10,000 to 19,999 Pithoragarh M. B	1	23.11	10.68	12.43	15.73	6.13	0.01	9.59

The per capita receipt of this town is Rs. 23.11. Against this the per capita expenditure is Rs. 15.73.

(d) Statement–IV

Pithoragarh has protected water supply, road lighting arrangements and fire fighting service. There is no arrangement of mechanical transport for removing night soil and baskets are used for the purpose in the town.

(e) Statement–V

Pithoragarh M. B. has 3 hospitals, 1 T. B. clinic and 1 family planning centre. The number of beds per 1,000 persons has been shown in the following table.

Table 3

Total No. of beds in Medical Institutions	No. of beds per 1,000 population
136	(11.4) 12

The number of beds in the hospitals of the district has increased from 25 in 1960 to 96 in 1969.

One Degree College having Arts and Science faculties is located in Pithoragarh M. B. There is no Medical College, Engineering College or Poly-technic in the town. The number of Higher Secondary, Middle and Primary schools (1969) per 1,000 population are given in the following table.

Table 4

Name of Towns	No. per 1,000 population		
	Higher secondary schools	Middle schools	Primary schools
Pithoragarh M. B.	0.42	0.08	0.67

Pithoragarh M. B. has 1 Cinema hall, 1 stadium, 1 reading room and public library.

(f) Statement–VI

The articles manufactured in Pithoragarh town are furniture, wooden goods and ropes. The important commodities imported in the town are wheat, rice and flour. Potatoes, Chillies & Wool are the main commodities exported from Pithoragarh.

(g) Statement—VII

The population of the town is largely shared by Hindus and Muslims. Hindus comprise 91.3% of the population as against 5 1% Muslims.

The percentage of scheduled caste persons is 13.5 which is higher in comparison to scheduled tribes (1.9%) in the town.

B--Village Directory

(a) According to the area in acres the villages have been stratified in the following table.

Table 5

Area (in acres)	No. of villages	Percentage
50 acres or less	232	14·4
51-100	264	16·3
101-200	347	21.5
201-500	479	29.6
501-1000	203	12.6
1001-2000	75	4·6
2001-5000	16	1.0
5001 acres and above	...	...

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 1,000 acres are highest claiming the percentage of 42.2. Thereafter, the number of villages goes on decreasing as the size of villages increases. There are no villages having an area exceeding 5,000 acres. As regards smaller villages, there are only 232 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table.

Table 6

Distance from the nearest town (in kms.)	Total No. of villages	Number of villages having				
		Primary School	Middle School	Higher Secondary School	College	Others
0-5	60	8	3	1	...	...
6-10	110	28	4	...	...	...
11-15	119	36	3	...	...	...
16-25	237	56	10	4	...	...
26-50	328	81	14	2	...	...
51-100	294	79	12	6	...	...
101-200	467	167	14	5	...	...
201 and above	1	1	...	...	...	...
Total	**1616**	**456**	**60**	**18**	...	...

The above table shows that the largest number of institutions including Higher Secondary Schools exist in the villages situate between 101 to 200 kilometres from the nearest town. The village which lies above 201 kms. has the least number of institutions. As regards Higher Secondary Schools, only 1 is functioning within a radius of 15 kms.

(c) 29 villages in district Pithoragarh have hospitals. If all kinds of medical institutions including dispensaries, health centres etc. are taken into account, 90 villages out of 1616 have medical institutions.

The following table presents the number of medical institution per 100 sq. kms.

Table 7

Name of Tahsil	Total area (in Sq. Kms.)	No. of medical institution of any kind per 100 Sq. Kms.
Dharchula	207.98	8
Didihat	665.81	4
Munsiari	413.42	4
Pithoragarh	79.12	6

It transpires that tahsils Didihat and Munsiari each have 4 medical institutions per 100 sq. kms. Dharchula and Pithoragarh are slightly better of having 8 and 6 institutions per 100 sq. kms. respectively.

(d) None of the villages are electrified in the district.

Table 8

Distance from the nearest town	Number of villages with Electric Power Supply		
	Total No. of villages	Total	Percentage of total electrified villages to total villages
0-5	60	...	...
6-10	110	...	...
11-15	119	...	...
16-25	237	...	...
26-50	328	...	...
51-100	294	...	...
101-200	467	...	...
201 and above	1	...	...
Total	**1616**		...

The means of communications within a radius of 1 mile from the villages have been shown in colum 8 of village Directory. 6.44% are connected by pucca road and 5.14% by kachcha and pucca roads. The percentage of villages having only kachcha roads is 83.42. The nature of communications have been shown in the following table, where the villages have been classified according to the distance from the nearest town.

Table 9

Distance from the nearest town	Total No. of villages	Number of villages connected by							
		Pucca Road	Kachcha Road	Pucca & Kachcha Road	Pucca Road & River	Kachcha Road & River	Pucca Road & Train	Kachcha Road & Train	Others
0-5	60	7	49	2	...	...	...	...	...
6-10	110	6	93	5	...	...	...	...	...
11-15	119	9	100	4	...	...	...	...	...
16-25	237	23	172	18	...	...	...	...	
26-50	328	15	284	7	...	...	...	...	...
51-100	294	15	249	23	...	...	...	...	...
101-200	467	29	400	24	...	...	...	...	...
201 & above	1	...	1	...	...	...	...	...	...
Total	**1616**	**104**	**1348**	**83**	...	...	...	...	...

It is evident from the above table that the villages nearest to the town have better facilities of communications. The village situate at a distance of more than 200 kms. from the nearest town has only one Kachcha road as the means of communication.

(f) There are in all 174 Post Offices in the rural areas of the district. On an average, 1 post office caters to the need of about 9 villages. The number of Post Offices per 100 sq. kms. in the various tahsils have been shown in the following table :—

Table 10

Name of Tahsil	Total area (in Sq. Kms.)	No. of Post Offices per 100 Sq. Kms.
Dharchula	207·97	18
Didihat	665.81	8
Munsiari	413.42	6
Pithoragarh	79.12	71
Total	**1366.32**	**13**

Tahsil Munsiari has the lowest number of post offices, the average being 6 per 100 sq. kms. In the remaining tahsils, the corresponding average is 18, 8 and 71.

(g) Wheat and rice are the staple food in the district.

The cultivated area is 41·47% of the total rural area of the district, of which 17·21% is irrigated area.

The following table shows the average cultivated land, average cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified according to their distance from the nearest town.

Table 11

Distance from the nearest town	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivable waste per village to average cultivated land per village
0-5	60	5,425	90	5,291	88	97.7
6-10	110	9,668	88	13,737	125	142.0
11-15	119	11,170	94	23,556	198	210.6
16-25	237	20,179	85	37,660	159	187.0
26-50	328	27,641	84	39,303	120	142.8
51-100	294	25,201	86	39,152	133	154·6
101-200	467	40,581	87	85,996	184	211.4
201 & above	1	159	159	409	409	257.2
Total	**1,616**	**140,024**	**87**	**245,104**	**152**	**174·7**

The average cultivable waste per village shows an increasing trend as the distance from the nearest town increases upto 15 kms. but subsequently there is a fall. The percentage of cultivable waste to cultivated area is highest in the village situate at a distanceexceeding 200 kms. from the nearest town.
