ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the village and block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises non-Census data.

We are deeply indebted to the State Government for their ever willing and prompt help to us at all stages. The District Census Handbooks are being published by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G. A. D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements made by Sri A. Dar, Superintendent, Printing and Stationery, U. P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, I/c New Government Press, Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Sri K.S. Sinha, Deputy Director, Headquarters, the Tabulation Officer and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandrasekhar, Registrar General, India, Sri K. D. Ballal, and Dr. B. K. Roy Burman, Deputy Registrar General and Sri K. K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA
Director of Census Operations,
Uttar Pradesh.

Lucknow
Dated: October 3, 1972.

Introductory Note

1. History of District Census Handbook

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the out break of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory

Part B : Village and Town-wise Primary Census Abstract

Part C : Analytical Report and Administrative Statements--District Census Tables.

2. Scope of District Census Handbook

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, Drinking water supply, Post and Telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Education facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by religion and scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex, scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and live-stock etc, in mining and quarrying in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. Town Directory—given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The Criterin adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as Towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments and Notified Areas.

2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.

3. Other places satisfying all the three under mentioned conditions :

   (i) Population, exceeds 5,000,

   (ii) At least 75% of the male working population engages in non-agricultural pursuits, and

   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons per sq. km.).

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) Statement I—This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined

on the basis of the predominant functional character of the town, to derive which the working population under the broad industrial categories has been regrouped into five functional classifications.

(i)	Primary Activities—	Categories I, II, III, & IV,
(ii)	Industry—	Categories V (a), V (b) and VI,
(iii)	Trade and Commerce—	Category VII,
(iv)	Transport—	Category VIII and,
(v)	Services—	Category IX.

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60% or above, the town is designated as bi-functional. If the total does not yield 60%, the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation
M—Municipal Board
NAC—Notified Area Committee
TC—Town Area Committee
CB—Cantonment Board

(b) Statement II—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest city with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The Geographical Co-ordinates of towns given in col. 3 have been supplied by the Director of Regional Meteorological Centre, New Delhi.

(c) Statement III—It reveals the municipal finances for the year 1968-69. The receipts through taxes ann other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) Statement IV—In the statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Col. 3	PR	....	For Pucca Road
	KR	....	,, Kachcha Road
Col. 4	PT	....	,, Pit Tank
	OSD	....	,, Open surface drain
Col. 8	B	....	,, Basket
	HC	....	,, Hand Cart
	HL	....	,, Head Load
	MT	....	,, Mechanical Transport
Col. 9	TW	....	,, Tube well
	OHT	....	,, Overhead Tank

(e) Statement V—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Col. 3	H	for Hospital
	D	„ Dispensary
	HC	„ Health Centre
	FC	„ Family Planning Centre
	TBC	„ T. B. Clinic
	MCW	„ Maternity and Child Welfare Centre
Col. 5	AS	„ Arts and Science College
Col. 17	PL	„ Public Library
	RR	„ Reading Room

(f) Statement VI : This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured, imported and exported, the number of Banks and agricultural as well as non-agricultural credit societies are given in the statement. The commodities mentioned therein are those having the highest value in currency. In a few cases if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) Statement VII : The Census table C-VII giving distribution of population by religion and scheduled castes/scheduled tribes has been reproduced in this statement. While sex-wise following of the more common religions viz., Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of Others.

4. Village Directory—reveals the general living conditions of peasentry and the over all development that has taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, post and telegragh have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market/*hat* and places of religious, historical or archaeological interest is also given in the statement. If the village is un-inhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for agricultural production prorgamme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Culturable Waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code nos. allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations :

Column 4	JBS	for Junior Basic School
	SBS	„ Senior Basic School
	HSS	„ Higher Secondary School
	C	„ College
	O	„ Others

An appendix has been included summing up the amenities at district level with tahsil wise break up.

The District

A—TOWN DIRECTORY

(a) Statement I—Pilibhit district has three towns, namely Pilibhit M. B., Bisalpur M. B. and Puranpur T.A. There is no change in the total number of towns as compared to 1961. The functional distribution of towns of the district is as follows :—

Table 1

Functional Category	Name of town
(i) Industry-*cum*-Services-*cum*-Commercial	Pilibhit M. B.
(ii) Primary activities-*cum*-Services-*cum*-Commercial	Bisalpur M. B. and Puranpur T. A.

Pilibhit M. B., headquarters of the district, is a multifunctional town comprising 28.1% Industrial, 27.2% Service and 20.7% Commercial class.

Bisalpur M. B. and Puranpur T. A. are also multifunctional towns. Primary activities are predominant in Puranpur (36.9%) and Bisalpur (35.5%) followed by Service class and Commercial workers in both the towns.

(b) Statement II—The physical and locational aspects have been covered in this statement. The figures of annual rainfall and the maximum and minimum temperature were not available with the Director of Meteorological Centre, Delhi so, the information given in Columns 4-6 relates to the nearest observatory in the adjoining district Bareilly.

(c) Statement III—The Per Capita receipt and expenditure by the local bodies in the three towns is as below :—

Table 2

		Per Capita						
		Receipt (Rs.)			Expenditure (Rs.)			
Class of Towns	No. of Towns	Total Receipt	Receipt through Taxes etc.	Receipt from all other sources	Total expenditure	Expenditure on public health and convenience	Expenditure on public institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9
Class II 50,000—99,999 (Pilibhit M. B.)	1	19.90	12.19	7.71	21.95	8.09	3.95	9.91
Class IV 10,000—19,999 (Bisalpur M.B. and Puranpur T. A.)	2	20.13	9.05	11.08	18.57	3.30	8.65	6.62

The per capita receipt of Class II and IV towns is Rs. 19.90 and 20.13 respectively. Against this the per capita expenditure is Rs. 21.95 and 18.57 respectively. The expenditure was more in Puranpur than the income because of previous years commitments of the T. A. C.

(d) Statement IV—All the towns have protected water supply. Road lighting arrangements also exist in all the three towns. Fire fighting service is available in Pilibhit M. B. There is no arrangement of mechanical transport for removing night soil, and hand carts and baskets are used for the purpose in all the towns of the district.

(e) Statement V—Municipal Board Pilibhit has 5 hospitals, 2 dispensaries, 1 T. B. Clinic, 1 family planning centre and 1 maternity and child welfare centre, while Bisalpur M. B. has 2 hospitals, 1 health centre and 1 family planning centre. Puranpur T. A. has 1 hospital and 1 family planning centre. The number of beds per 1,000 persons has been shown in the following table :—

Table 3

Total No. of beds in Medical Institutions	No. of beds per 1,000 population
161	2 (1.57)

The number of beds in the hospitals of the district has increased from 153 in 1960 to 161 in 1969.

The only Degree College of the district, having Arts faculty, is located in Pilibhit M. B., while other towns are devoid of such facility. An Ayurvedic College is also functioning in the Municipal Board. There is no Medical college, Engineering college or Polytechnic in any of the three towns. The number of Higher Secondary, Senior Basic and Junior Basic schools (1969) per 1,000 population are given in the following table :—

Table 4

Name of Town	No. per 1,000 population		
	Higher Secondary	Middle	Primary
Bisalpur	0.20	0.20	0.70
Pilibhit	0.07	0.09	0.92
Puranpur	0.07	0.14	0.41

Pilibhit M. B. and Puranpur T. A. possess 2 and 1 Cinema halls respectively while Bisalpur town has no recreational facility. The facilities of 2 public libraries in Pilibhit town and 1 public library in Puranpur are available to the residents of these towns.

(f) Statement VI—The important commodities manufactured in Pilibhit and Puranpur are wooden articles and *sutli*. Sugar is also manufactured at Pilibhit as the next important commodity. Rice is the main commodity produced in Bisalpur where sugar and *gur* are also manufactured. The most important items imported in all these urban areas are cloth and iron. Salt is also imported in Bisalpur and Puranpur while tobacco is imported in Pilibhit. Sugar is the most important commodity exported from Bisalpur and Pilibhit and wood from Puranpur. The next important items of export from Bisalpur, Pilibhit and Puranpur are *gur*, wood and oilseeds respectively. Rice is also an item of export in all the three urban areas.

(g) Statement VII—The population of all the towns is largely shared by Hindus and Muslims. In Bisalpur M. B., Hindus comprise 62.97% of the population as against 36.6% Muslims. In Pilibhit M. B. Hindus are 62.3% against 35.7% Muslims and in Puranpur there are 60.89% Hindus against 36.5% Muslims. The percentage growth of Hindu population of these towns during the last decade is 22.7 against the growth rate of 19.5% of the Muslim population.

The percentage of Scheduled Castes to total urban population is 7.1 in Pilibhit M. B., 7.0 in Puranpur and 6.3 in Bisalpur. There are only 243 persons belonging to Scheduled Tribes in Pilibhit M. B.

B—VILLAGE DIRECTORY

(a) According to the area in acres the villages have been stratified in the following table :—

Table 5

Area (in acres)	No. of Villages	Percentage
50 acres or less	12	0.9
51-100	22	1.6
101-200	145	10.9
201-500	656	49.2
501-1000	383	28.8
1001-2000	90	6.8
2001-5000	17	1.3
5001 acres and above	7	0.5

For 7 Forest villages no information could be available.

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 1,000 acres are highest claiming the percentage of 78.0. Thereafter, the number of villages goes on decreasing *pari passu* as the size of villages increases. There are 7 villages having an area exceeding 5,000 acres. As regards smaller villages there are only 12 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table ;–

Table 6

Distance from the nearest town (in kms.)	Total No. of villages	No. of villages having				
		Primary Schools	Middle Schools	Higher Secondary Schools	Colleges	Others
0-5	146	53	7	6	..	..
6-10	295	102	10	3	..	..
11-15	312	96	13	..	..	..
16-25	377	115	10	4	..	..
26-50	202	57	5	..	..	..
51-100	..	..	..	..	..	..
101-200	..	..	..	..	..	..
201 and above	..	..	..	..	..	..

For 7 Forest villages no information could be available.

The above table shows that the largest number of institutions including Higher Secondary Schools exist in the villages situate between 16 to 25 kilometres from the nearest town. As regards Higher Secondary Schools 9 only lie within a radius of 10 kms. of the nearest town.

(c) 10 villages in district Pilibhit have hospitals. If all kinds of medical institutions including dispensaries, health centres etc. are taken into account, 45 villages out of 1339 have medical institutions.

The following table presents the number of medical institutions per 100 sq. kms.

Table 7

Name of Tahsil	Total area (in sq. kilometres)	No. of medical institutions of any kind per 100 sq. kilometres
Bisalpur	945.95	1.4
Pilibhit	956.13	3.3
Puranpur	1,177.93	1.1

It transpires that tahsils Bisalpur and Puranpur each have one medical institution per 100 sq. kms. Pilibhit is slightly better of having 3 institutions per 100 sq. kms.

(d) 194 villages are electrified in the district against the total number of 1,339 villages. Their percentage comes to 14.5.

The largest number of electrified villages (94) lie in Tahsil Pilibhit and minimum in Tahsil Bisalpur (47). The power supply in villages with reference to their distance from the nearest town is given in the following table :—

Table 8

Distance from the nearest town	Total No. of villages	Number of villages with Electric Power supply	
		Total villages	Percentage of total electrified villages to total villages
0-5	146	42	28.77
6-10	295	33	11.19
11-15	312	33	10.58
16-25	377	45	11.94
26-50	202	41	20.30
51-100	..	..	..
101-200	..	..	..
201 and above	..	..	..

For 7 Forest villages no information could be available.

The percentage of electrified villages to the total villages is highest i. e. 28.77 for those situate within a radius of 5 kilometres and the minimum percentage of 10.58 is for those situate at a distance 11 to 15 kms. from the nearest town. It is evident from the table that the percentage of electrified villages to total villages generally decreases with the increase of distance from the nearest town. This is because of the fact that power connections are extended from the towns which have already been electrified and as such villages close to the town are taken up first for electrification.

As many as 45 villages of the district are connected by rail, out of the total number of 1,339 villages 13.89% are connected by pucca road and 2.99% by kachcha and pucca roads. The percentage of villages having only kachcha road is 29.05%. The nature of communications

have been shown in the following table, where the villages have been classified according to their distance from the nearest town :—

Table 9

Distance from the nearest town	Total No. of villages	No. of villages connected by						
		PR	KR	PR & KR	PR & T	KR & R	KR & T	Others
0-5	146	32	48	95	8	..	..	16
6-10	295	42	107	95	10	..	1	37
11-15	312	39	96	8	8	1	6	55
16-25	377	53	84	15	6	..	6	80
26-50	202	20	54	7	..	..	..	19
51-100	..	..	..	..	..	..	..	..
101-200	..	..	..	..	..	..	..	..
201 and above	..	..	..	..	..	..	..	..
Total	**1,332**	**186**	**389**	**40**	**32**	**1**	**13**	**207**

For 7 Forest villages no information could be available.

It is evident from the above table that the villages nearest to the town have better facilities of communications and *percontra* the villages situated at a distance of more than 25 kms. from nearest town have lesser means of communications.

(f) There are in all 70 post offices in the rural areas of the district. On an average 1 post office caters to the need of about 19 villages. The number of post offices per 100 sq. kms. in the various tahsils have been shown in the following table :—

Table 10

Name of Tahsil	Total area (in sq. kilometres)	No. of Post Offices per 100 sq. kilometres
Pilibhit	956.14	2
Bisalpur	945.95	2
Puranpur	1,177.93	1
Total	**3,080.02**	**2**

Tahsil Puranpur has the lowest number of post offices, the average being 1 per 100 sq. kms. In the remaining tahsils, the corresponding average is 2.

(g) Wheat and rice are the main staple food in the district.

The cultivated area is 71.2 per cent of the total rural area of the district, of which 19.14 per cent is irrigated area.

The following table shows the average cultivated land, average cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified according to their distance from the nearest town.

Table 11

Distance from the nearest town	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivated waste per village to average cultivated land per village
0-5	146	53,148	364	3,953	27	7.42
6-10	295	105,088	356	9,623	33	9.27
11-15	312	116,207	372	9,352	30	8.06
16-25	377	161,936	430	24,673	65	15.12

For 7 Forest villages no information could be available.

The average cultivated area and average cultivable waste per village shows an indefinite trend as the distance from the nearest town increases. The percentage of cultivable waste to cultivated area is highest in villages which are situated within 16-25 kms. from the town.
