Poet Narmada was born at Surat on 24th August, 1833 and was a primary school teacher. With Narmad began the Renaissance in Gujarati Literature. He was the herald of the Modern Age. He imbibed new spirit of the West and brought it into his own poetry. Gujarati Poetry, which was uptil now predominantly devotional poetry took a new turn Narmad wrote lyrics, narative poetry, nature poetry, patriotic poetry.

There was no prose worth the name in Gujarati Literature. Narmad started writing in Prose. He wrote essays—both personal and objective and became our Montaigne. He saw that the best medium of spreading one's views was news-paper and started 'DANDIO'—a fortnightly. Through this he attacked fearlessly all that was sham, corrupt, hypocritic and irrational. He also compiled the first ever Dictionary in Gujarati known as 'NARMA KOSH', wrote the history of the world known as 'RAJYA RANG'.

Narmad was our first social reformer. He opposed everything that was superstitious, irrational and against the best interest of the people. As such, he attacked the custom of child-marriage, advocated the widow-remarriage, exhorted the people not to believe in Ghost and witch-crabt. He openly challenged the Bhuvas to administer their Black-Magic on him. No one came forward. It was his greatest victory. He also opposed publicly through his speeches and writing the corrupt religious practices. He died in February, 1886. In a short life-span of fiftythree years, Narmad became a pioneer of Modern Gujarati. His name will ever be cherished and remembered as 'Veer Narmad'.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns,etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts, Part-A related to village and town directory. Part-B to village and town PCA and Part-C Comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census table and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in loeal areas planning but regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development. A few new itms of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in village directory with this objecitive in mind. The new item on approach to the village is to have an idea about the village in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the poplution and numbers of household they serve. Addition of two more appendices listing the valliges where no amenities are available and according to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new Stateement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in Statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The

addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the Primary census abstract for the village and towns has been formulated in the light of changes in the economic and other question canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of village and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and Tahsil/Police Station/C D Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This pubication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of *Shri R. S. Chhaya* the Director of Census Operationts, *Gujarat* on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

PREFACE

The District Census Handbooks are printed during every decadal Census from 1951. These District Census Handbooks are prepared by the Census Organisation and DCHB unit of the State Government. These are published by the State Government at their own cost. The District Census Handbooks are the first publication in the series of 1981 Census Publications. The Census Organisation has been collecting an enormous data both during the Census Enumeration period, as well as after the Census Enumeration period. This data is very valuble to the Administrators, Economists, Planners, Research Workers, Scholars and other intelligentia and also to the several institution dealing with Social-economic and developmental aspects of the State. It is absolutely necessary that this data after its collection is printed in the time and reaches the data users also in time. It is a matter of great satisfaction that the present volume is being published in the minimum possible time after the Census count.

The Census count in Gujarat State was taken during the period February-March 1981. The provisional figures collected through the District Census officers were published and presented to the Chief Minister of Gujarat State on 23rd March, 1981. After the declaration of the provisional count six Regional Tabulation offices were opened at the different places in the State. Three such Regional Tabulation Offices opened at Ahmadabad, one at Vadodra, one at Surat and one at Rajkot. The Census records were edited and checked in these offices and the Primary Census Abstract for all the areas of the State were prepared. For this purpose 1,102 Tabulators, 184 Checkers and 61 Supervisors were temporarily engaged for a period of ten months. These offices were supervised by Deputy Directors of Census Operation who were taken on deputation from the State Goverment.

The District Census Handbook for the 1981 Census is published in two parts as follows :

I Part A

(1) Village Directory

(2) Town Directory

II Part B

District/Talukawise PrimaryCensus Abstract

Both the Parts A and B of the Disitrict Census Handbook for 1981 Census have been combined and printed in one volume.

The Village Directory contains comprehensive information about the basic amenities available at the village level such as medical, educational, drinking water, etc. The Town Directory also consists of information about the status, growth history, municipal finances, civic and other amenities, etc.

The Primary Census Abstract contains Information about the number of occupied residential houses and households, total population including houseless and instiutional population, literacy, Scheduled Castes/Scheduled Tribes population and the information pertaining to the workers and non-workers. A special feature of the 1981 District Census Handbook is the inclusion of Scheduled Castes/Scheduled Tribes Primary Census Abstracts which gives complete Disitrict/Taluka/Townwise data on Scheduled Castes/Scheduled Tribes.

The data for the Village Directory has been collected through the Taluka Development Officers who in turn obtained the data from the village officials throgh their Statistical Assistants In the District Census Handbook Cell this data subjected to a very close scrutiny and inaccuracies or deficiencies where noted were again got checked through the Statistical Assistants. For this purpose persons were deputed to the districts for obtaining the information quiekly. The area figures as reported by the village officials were also checked with the figures reported by the District Inspectors of Land Records. Utmost

care has been taken to see that spelings of the village are correct. Some of the data collected from the village level has also been cross-checked with the data which was supplied by the different Directorates and the Heads of the Departments of the State Goverment. The information pertaining to the District write-up (Item V of the Analytical Note) has been obtained through the Collector and the District Development Officers and the other District heads.

The data on Town Directory has been obtained through the various local bodies such as Municipal Corporation, Municipalities, Nagar Panchayats and Gram Panchyats. These were also checked in the Directorate by a Special Cell.

The Primary Census Abstract and Town Directory with their Inset Tables have been Prepared in the Directorate where as village Directory alongwith its inset Tables have been prepared in District Census Handbook Cell.

Maps

In each volume one district map showing the taluka boundaries, location of towns and villages having a population of 5,000, communications, etc. has been printed. Taluka maps for each of the talukas in the district are also inserted in the District Census Handbook. These taluka maps indicate the boundaries of the villages and towns within the taluka and the location code numbers of each village. The maps were prepared in the map section of the Director of Census Operation.

Acknowledgement

The compilation of a huge mass of data which is printed in this book requires the active help and co-operation of the State Goverment in addition to the help and Co-operation of all the officers and staff members of the Census Directorate. I am deeply indebted to Shri H. K. L. Kapoor, Chief Secretary to the Goverment of Gujarat for extending all help in the matter. Shri K. Rammoorthy who was working as Secretary, General Administration Department, during the Census Enumeration period extended his wholehearted co-operation. Shri V. Krishnamurthy who subsequently took over as Secretary, General Administration Department, also took active interest in the progress of Census work. I would like to make a special mention about the extra facilities granted by the State Government by way of a Special Cell for the compilation of District Census Handbooks. One post of Deputy Director and serveral posts of Research Assistents, Statistical Assistants, Clerks and Typists have been sanctioned by the State Goverment specially for the compilation of the data. The services. of all these persons were placed at the disposal of the Directorate for compilation work.

Shri G. S. Shah, Director, Bureau of Economics & Statistics, Government of Gujarat, also rendered very valuable help by providing whatever data was required for cross-checks and by providing personnel for the Special Cell of District Census Handbook.

The Collectors and the District Development officers incharge of the districtsand the Municipal Commissioners incharge of the Municipal Corporation areas, have extended their wholehearted co-operation for the Census work. The Resident Deputy Collectors, the Deputy Collectors incharge of Sub-Divisionals, the District Statistical Officers, the Deputy District Development Offiicers, The Mamlatdars, the Taluka Development Officers,the Chief Officers of the Municipalities, the Deputy Mamlatdars, and the Statistical Assistants at the District/ Taluka levels, all played an important role in the Census work. I express my deep gratitude to all of them. After the Census count a large number of young boys and girls coming right from the schools and colleges were employed as Tabulators, Checkers and Supervisors and all of them worked very hard for the compilation of the useful data.

Shri P. T. Thakkar, Director of Printing and Stationery, Government of Gujarat, has taken the interst in the printing of the Handbooks. I hereby acknowledge the valuable help, guidance and assistance rendered by him and other officers of the Printing Department. Shri P. K. Choksi, Printing Inspector in this Directorate, looked after printing jobs very well.

In the Census Directorate Shri J. K. Patel, Deputy Director of Census Operations (Tech.) was looking after the Compilation Section so far as Census data was concerned. The collection and compilation of data for the Village Directory was looked after by Mrs. Neelaben A. Bhatt, Deputy Director whose services were placed at the disposal of the Directorate. Both these officers have put in hard labour for the compilation and printing of the data.

Shri K. H. Desai, Shri V. A. Sathe, Shri K. R. Shridharani and Shri S. D. Vadera, who were officers on deputation from the Gujarat Administrative Service, supervised the editing, checking and compilation work at the Regional Offices in Ahmadabad, Surat, Vadodara and Rajkot respectively. Shri P. J. Jhala and Shri M.A. Malwade, who were officers on deputation from the State Government from the Bureau of Economics and Statistics, supervised the editing, checking and compilation work at Regional Tabulation Offices in Ahmadabad. Shri V. H. Vasavada, Deputy Director from the General Administrative Service looked after the administration work. All these officers worked diligently and accurately during their service in the Census Organisation.

In the Directorate Shri J. K. Patel, Deputy Director was assisted by Shri R. V. Sanghani and Smt. D.D. Jhala, Investigators and Statistical Assistants Shri K.P. Patel, Shri R.R. Upadhyay, Kum. J. R. Megha, Smt. M. B. Patel and Smt. K.S. Mehta. The typing of Primary Census Abstract was undertaken in a special section which was headed by Investigator Shri M. H. Patel. In the State Cell of District Census Handbook Smt. Neelaben A. Bhatt, Deputy Director was assisted by the Assistant Director Shri V. R. Gandhi and Research Assistants Kum. T. K. Shah and Smt. S. B. Solanki and Statistical Assistants Smt. H. A. Patel, Smt. C. C. Mehta, Shri S. V. Patel and Shri P. K. Shastri.

In the Map Section the work of preparation of State/District/Taluka maps was looked after by Shri K. M. Dhawale, Senior Geographer and Shri B. L. Arya, Geographer. They were ably assisted by Shri K. K. Patel, Artist, Sarvashri M. S. Bhatt and B. J. Modi Senior Draftsmen and Sarvashri D. A. Maroo, R. K. Joshi, G .M. Kosti, B. C. Trivedi and M. A. Shukla, Draftsmen.

The work of dictations and typing of notes, reports, tables, etc., was undertaken by Shri J.A. Harry, Confidential Assistant in the Directorate, diligently with speed and accuracy. He was assisted by a number of Typists in the office.

Limitations of space prevent me from making individual mention of all those who have contributed to the making of this volume so accurate and complete. Quite a large number of Assistant Compilers, Computors, Clerks, Typists, Proof Readers, Draftsmen, Artist, etc., have contributed valuable help in this work.

Finally, I would like to express my deep gratitude to Shri P. Padmanabha, IAS, Registrar General, Goverment of India, and Sarvashri K.K. Chakravorty, V.P. Pandey, N.G. Nag and Dr. B. K. Roy, Deputy Registrars General, for the guidance given to me from time to time.

ANALYTICAL NOTES AND TABLES

1. Census concepts of rural and urban areas and other terms, viz, Census House, Household, Scheduled Castes, Scheduled Tribes, Literates, Main Workers, Marginal Workers, Non-Workers, etc,

The 1981 Censns was carried out in Gujarat in two stages. The first stage of houselistng was completed in the months of June-July 1980. The houselists thus prepared provided a frame for the enumeration work. In the second stage the house to house Census enumeration was carried out from 9th February, 1981 to 28th February, 1981 with reference date as Sunrise of lst March; 1981. The enumeration of houseless population was carried out on the night of 28th February, 1981. A revisional round was also taken from 1st March, 1981 to 5th March, 1981. In this revisional round the Enumerators recorded new births that had taken place after their last visit for enumeration but before the Sunrise of 1st March, 1981 and also any visitor(s) that had moved into household and who had been away from his/her/their place of normal residence throughout the enumeration period or an entire household that had moved into the jurisdiction of the enumeration during this period and which had not been enumerated before. The names of persons who had died after the enumeration period but before the Sunrise of 1st March, 1981 were deleted from the Individual Slips which had been filled up during enumeration period.

In Gujarat prior to the taking of 1981 Census a special programme of updating permanent house-numbering scheme in the different parts of the State was also carried out in co-ordination with the Local Bodies and State Government. The permanent house-numbering scheme in Gujarat was introduced during the 1971 Census and the District / Taluka Panchayats, Municipal Corporations, Municipalities, Nagar Panchayats and Village Panchayts played a very useful role in fixing the number plates on the houses and buildings.

After the Census count was over the Enumerators submitted the figures to the Charge Officers through their Supervisors. These figures were obtained by the Director of Census Operations through the District Census Officers and the figures after compilation were declared on 23rd March, 1981 as Provisional Census Figures for 1981 Census. Paper 1 showing those figures was printed and published and distributed on a complimentary basis.

During the Census Operations mainly two Census records were filled up by the Enumeratos in each block. These were (1) Household Schedules and (2) Individual Slips. The different concepts which were adopted during t. e houselisting stage as well as during the Census enumeration are as follows.

(1) Rural and Urban Areas

Rural Areas : The basic unit for rural areas is a revenue village which has a definite boundary. The revenue village may comprise several hamlets but the entire village has been treated as one unit for presentation of the data.

Urban Areas : Urban areas have been specifically defined for the 1981 Census. The criteria adopted during the 1981 Census was almost the same as adopted in 1961 and 1971 Censuses. The following criteria were adopted for classifying urban areas in the States :

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria ;

1 A minimum populatiou of 5,000;

2 At least 75 per cect of the male working population engaged in non-agricultural (and allied) activity:

3 A population of at least 400 Persons per sq. km. or a population of 1,000 per sq. mile.

The slight variation of the criteria adopted in 1981 and that adopted in 1961-1971 Censuses was that during 1981 Census the persons working in activities such as fishing, logging, etc,, were

treated as on par with cultivators and agricultural labourers whereas in 1961-1971 Censuses these were treated as engaged in non-agricultural activity.

(II) Census House

A 'Census House' is a building or part of a building having separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both. In case of a building having a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, were considered as separate Census houses.

(III) Census Household

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated household are boarding houses, messes, hostels, residential hotels, rescue homes, jails, etc. These are called 'Institutional Households'.

(IV) Scheduled Castes/Scheduled Tribes

The Scheduled Castes and Scheduled Tribes as notified under the Constitution for Gujarat State have been treated as Scheduled Castes and Scheduled Tribes for the purpose of Enumeration. A list of such Scheduled Castes/Scheduled Tribes notified for Gujarat is as under :

(V) Literates

A person who can both read and write with understanding in any language is taken as 'literate'. A person who can merely read but cannot write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

(VI) Main Workers, Marginal Workers, Non-Workers

During the 1981 Census 'Work' had been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. The work involves not only actual work but also effective supervision and direction of work.

The reference period for 'Work' is one year preceding the date of enumeration. The main-worker was a person who had worked for the major part of the year in that activity. By major part of the year it was intended to find out as to whether a person had worked for 183 days or more or in other words worked for six months or more. Those who had worked for less than six months or 183 days were treated as marginal workers. A Non-Worker was one who had no economical activity during the year.

The information on 'Workers and Non-Workers' were obtained through Q. Nos. 14(a) to 16 of the Individual Slip. The main activity of workers has been classified into four categories, viz., cultivator, agricultural labourer, household industry and other worker. These terms are explained below :

Cultivator

For purposes of the Census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) will not be treated as cultivator.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajri, ragi, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

Household Industry

Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a household industry

should consist of member of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factory Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this is *not to be treated* as 'HHI'. Thus, the meaning of the term 'run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion applies in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry, but at a place away from the precincts of their home, it is not to be considered a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a Pleader or Doctor or Barber, Musician, Dancer, Waterman, Dhobi, Astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Workers

All workers, i.e., those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in Household Industry, are 'Other Workers'. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, Municipal employees, teachers, priests, entertainment artists, etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry, are 'Other Workers'.

II. Brief history of the District and District Census Handbook

[A] History of the District

The present Surat district which was included under the region Known as Lat is believed to have been brought under the Mauryan power during the reign of Chandragupta Mauryas for 319 B. C. It remainded under the Maurya for sometime till it threw off their yoke by about 200 B. C. The history after period is confused and it is difficult to find out the successors of Maurya till the Muslims finally conquered Gujarat in 1299. A.D. The settlement of parsis at Sanjan also took place during this period. According to a poetic account known as Kisseh-i-Sanjan. The parsis who had left persia come to Diu and stayed there for nineteen years. They again set sail for Gujarat and landed near Sanjan in the latter of the seventh century. Jadirana, apparently a Yadav chief of South Gujarat, gave them the permission to settle there on their agreeing 'to learn the language of the country, to make their women dress like Hindu-women, to cease to wear arms and to hold their marriages at night'. Surat, the headquarters of Surat district, is believed to have been founded by Gopi, a Nagar Brahmin who rose to be the Prime Minister in the Saltanate of Gujarat under Mahmud I and Muzaffer II.

The castle of Surat was built in 1546 during the reign of Sultan Mahmud III to protect the city from the onslaught of the Portugese who had plundered it thrice before. Surat then fell into the hands of Emperor Akbar in 1573. The district and the city of Surat in particular enjoyed peace during the reign of Mogul emperors, viz; Akabar, Jahangir and Shah Jahan for the next eighty five years, Surat which rose to be one of the first cities of India during the reign of Shah Jahan; and though sacked twice by Shivaji during the reign of Aurangzeb, the morale of its traders as well as its trade rema-

ined unaffected. Surat had its mint and coins which were current in south Gujarat till 1688. The British opened their factory at Surat in 1613 and the Dutch in 1620. After the death of Aurangzeb it suffered from increasing disorders and the governors of Surat were subject to the court of Delhi in name Only. The french also had estabilished a factory at Surat in 1719 but with the ascendany of the English at Surat and their victories over the French in Southern India, deprived the factory of its importance in the history of Surat. Governor Sorabkhan ultimately styled himself as the Nawab of Surat in 1725 and become independent. Surat was then ruled by independent Governors till 1569 when the English captured the city. The Governors of Surat who were then appointed by the English held to some extent a position of nominal independence till 1800 when the whole admintstration was taken over by the English.

During 1772 Surat was considered as one of the greatest emporiums of trade in India after which it had a time of decline in its fortunes as its foreign trade had practically been transferred to Bombay. after the British the masters of the district, a Muslim named Abdul Rehman tried to break public peace in 1810 but he was successfully curbed down by the Britishers. They had to face the opposition of the people thrice, when they tired to introduce in the district duty on salt 1884. Bengal Standard Weights and Mesures in 1848 and income tax in 1860. The people of Surat again protested when the Licence Tax was introduced in 1878 and a riot had eventually broken out on the occasion. The district had formed a part of the Bombay Presendency and was administered as such till 1947. Surat had also suffered from a very severe flood in 1883 and a great fire in 1889. The Hope bridge across the Tapi was also constructed in 1877 at a cost of Rs. 8.13 lakhs. The holding of historic 23rd session of the Indian National Congress in Surat in 1907, the Bardoli Satyagraha of 1928, the momentous Dandi march undertaken by Mahatma Gandhi tn 1930 are the landmarks in the recent history of the district. After the indepenence, the territories of Dharampur and Bansda States, and the Navsari prant of the former Baroda State were amalguamated with it to form the Surat district of the Bombay State.

In November, 1956, the States were reorganised and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions. The Surat district alongwith the other districts of Ahmadabad Division formed part of the bigger bilingual State.

Lastly, the Bombay Stata was bifurcated on 1st May, 1960 and separate States of Gujarat and Maharashtra were formed. Since that date the Surat district became a part of the Gujarat State.

From Surat district Valsad district was created as separate district on 1-6-1964 by transferring eight talukas, viz., Navsari, Valsad, Pardi, Umbergaon, Gandevi, Chikhli and Dharampur of Surat district for the purpose of revenue administration.

[B] History of District Census Handbook

Prior to the 1951 Census the Census figures were brought out villagewise under a booklet known as 'Village Handbook' which contained only the population totals of villages. These books were prepared by the Census Organisation on behalf of the State Government and published by the latter. It was for the first time in 1951 Census that a more detailed and well organised book known as 'District Census Handbook' was brought out by the Census Organisation. The 1951 Census Handbook contained the villagewise Primary Census Abstracts which also included the information on post offices, railway stations and the nearest bazars of each village. The Handbook also contained several district tables.

During the 1961 Census the District Census Handbooks were brought out which contained the Primary Census Abstracts as well as certain district tables.

During 1971 Census also the District Census Handbooks were published which in addition to the Primary Census Abstracts contained a Village Directory showing the different village amenities and land-use of all the villages in the district. A separate portion known as 'Town Directory' was also included in the District Census Handbook. The Handbook was divided into three

subparts known as Part-A, which contained the Village Directory and Town Directory Part-B which contained the Primary Censns Abstracts and Part-C, which contained the Introductory Essay, Official Statistics, etc.

For the 1981 Census the District Census Handbook is being brought out in two Parts, Part XIII-A and Part XIII-B. Part XIII-A will contain the Village and Town Directory whereas Part XIII-B will contain the Primary Census Abstracts both General and Scheduled Castes and Scheduled Tribes. The Part-C as it was brought out during the 1971 Census has been dropped.

III. Scope of Village Directory, Town Directory and Primary Census Abstract

The District Census Handbooks which are now being printed during every Census after the 1951 Census, are very important publications of the Census Organisation. With the emphasis by the Planning Commission on the 'Minimum Needs Programme' of the rural villages the District Census Handbook has become an important tool in the hands of the Administrators, Planners, Policy Makers and Academicians. For the 1981 Census the District Census Handbook has been divided into two parts which are combined in one volume. The details of the contents of each of these two parts are as follows.

PART-A : VILLAGE AND TOWN DIRECTORY

Village Directory

This Part-A contains the non-census statistics of each village and town in the district. The Village Directory gives villagewise particulars of amenities available for each village in the spheres of education, medical, power supply, drinking water facilities, post and telegraph, communication, land-use, weekly markets and places of religous, historical and archaeological interests in the village. During the 1981 Census additional information regarding (1) copies of the newspapers coming in the village, (2) number of motor-cycles and scooters available in the village, (3) number of cars and jeeps available in the village and (4) number of tractors available in the village have been added. The above non-census data of the Village Directory was collected from the Taluka Development Officers of each Taluka Panchayat in the State. In Gujarat under the democratic decentralisation scheme the Panchayats are now exercising very wide powers and the post of Statistical Assistants are under the administrative and technical control of the Taluka Panchayats. Besides, the Talati-Cum-Mantris at the village level who are the base village functioneries are also under the control of the Taluka Panchayats. The proforma for soliciting the information were despatched to the Talati-Cum-Mantris through the Taluka Development Officers and these after they were filled up were checked by the Taluka Development Officers and also by the District Statistical Officers who work under the administrative and technical control of the District Panchayats. The data thus received was checked fully in the District Census Handbook Unit of the State Government. At the end of Village Directory a taluka abstract in Appendix-I of educational, medical and other amenities is also prepared and printed. Appendix-II which shows the land utilisation data in respect of non-municipal towns is printed. In Appendix-III the talukawise list of villages where no amenities relating to educational, medical, drinking water, post and telegraph, communications, power supply and market/hats, are available have been shown. Appendix-IV shows talukawise list of villages according to the proportion of Scheduled Castes/Scheduled Tribes population by ranges. The last two appendices have been included for the first time in the 1981 Census.

Town Directory

The Town Directory portion furnishing the data for each town in the district is exihibited in seven statements covering (1) the status and growth of the civic administration, (2) physical aspect and location of towns, (3) the civic finances of the towns, (4) the civic and other amenities in the towns, (5) the medical, educational, recreational and cultural facilities in the towns, (6) trade, commerce, industries and banking in the towns and lastly; (7) the civic and other amenities in notified slums wherever they exist,

The non-census data for each of the towns for the Town Directory were obtained from the

Municipal authority in case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. An Appendix showing the towns with their outgrowths with population is also prepared and attached at the end of the Town Directory.

PART-B ; PRIMARY CENSUS ABSTRACT

Part-B gives for each village and for each ward of the town the primary census data incorporating area of the town in sq. kms. and of the villages in hectares, the number af occupied residential houses, the number of households, total population and its break-up by sex, Scheduled Castes and Scheduled Tribes population, literate population and working population by four broad categories. viz., (1) cultivators, (2) agricultural laboures. (3) those working in household industries and (4) other workers. There is a slight departure in the presentation from the 1971 categories which were in all nine categories.

The Scheduled Castes/Scheduled Tribes Primary Census Abstracts at the District/Taluka/City level are also printed in Part-B of the Handbook.

IV. Physical aspects, highlights on the changes in the jurisdiction of the district during the decade including its boundaries and any important event on geographic or geophysical aspect

There have been no major jurisdictional changes in the district boundaries during the last decade. The administrative jurisdiction of all the talukas of the district as shows in 1971 Census is the same during 1981 Census except a few changes in villages/towns which are as under ;

Eight (8) villages of Chorasi taluka and one each village of Olpad and Bardoli taluka which were rural areas in 1971 Census have been classified as towns for the purpose of enumeration in 1981 Census. These villages are as unker ;

Taluka	L. C. No. of 1971 Census	Name of village
Chorasi	24	Karanj
	25	Utran
	26	Nana Varachha
	39	Umra
	48	Limbayat
	71	Bhedvad
	73	Dindoli
	78	Bhestan
Olpad	78	Sayan
Bardoli	10	Kadod

Katargam which was town in 1971 Census, has been deleted from the list of towns of 1981 Census as it is merged in Surat Municipal Corporation.

Pandesara Industrial Notified Area has been treated as town of Chorasi taluka for the purpose of 1981 Census as it has been notified as industrial area by the State Government under G. R. No. GHU-75/42/GID 1974/4084(vii)-CH dated 6-5-75.

In addition to the above rural/urban changes 6 places (one each in Chorasi and Palsana taluka and two each in Olpad and Mahuva taluka) are added as independent villages in 1981 Census as these villages have been reported to treat them as independent villages by the concerned revenue authorities. These villages are as under :

Taluka	L.C.No.	Name of village
Chorasi	94+	Devadh
Olpad	36	Mor
	37	Dandi
Mahuva	30	Karchelia
	31	Dungari
Palsana	1@	Taraj

\+ Transferred from Palsana Taluka

@ Transferred from Chorasi Taluka

Moreover, 15 villages of district are deleted from the village list of 1981 Census as these villages have been reported to be hamlets

of nearby villages/towns by the concerned revenue authorities. These villages are as under :

Taluka	L.C. No.	Name of village during 1971 Census	L.C. No.	Name of village in which included as hamlets during the 1981 Census
Chorasi	11	Ved		
	12	Dabholi

V. Major characteristics of the district particularly in relation to the economic resources, namely, Agriculture, Irrigation, Co-operation, Livestock and Animal Husbandary, Fisheries, Industries, Power Supply, Transport and Communication, Prices, Insurance, Education, Medical and Public Health, etc.

[1] Agriculture

(a) Land Utilisation

The total reporting area in the district in the year 1979–80 was 7.75 lakh hectares. The details of land utilisation for the year 1979–80 are as under :

Land Utilisation

Sl. No.	Classification of area	Area in '00 hectares.
1	Forest	1,417
2	Barren and uncultivable land	595
3	Land put to non-agricultural use	813
4	Culturable waste	186
5	Permanent pasture and other grazing land	242
6	Land under miscellaneous tree crops and groves not included in area sown	40
7	Current fallows	503
8	Other fallows	69
9	Net area sown	3,881
	Total area	7,746

(b) Area Under Major Crops

Area under major crops in the year 1971-72, 1975-76 and 1980-81 are shown in the table below :

Area under different Crops

Sl. No.	Crop	Area under different crops (in '00 hectares) 1971–72	1975–76	1980–81
1	Jowar	954	1,081	971
2	Rice	564	618	549

12	Total non-food crops	141	331	229
13	**Total Gross Area under_irrigation**	702	1,076	1,221

The main irrigated crops are Rice, Wheat, Jowar, Sugarcane and Groundnut, whereas other crops are depending on the monsoon.

Sources of Irrigation

During the year 1971-72, 1975-76 and 1979-80 the sources of irrigation are as follows :

Irrigation by Sources

(in '00 hectres)

Sl. No.	Source	1971-72	1975-76	1979-80
1	Government Canals	435	765	835
2	Tanks	9	15	11
3	Wells	180	175	232
4	Other Sources	20	25	7
5	Net Area Irrigated	644	980	1,085
6	Gross Area Irrigated	702	1,076	1,211

The major source of irrigation in the district is Government Canal followed by wells.

Minor Irrigation

During 1971 to 1980, minor irrigation schemes viz. (1) Wanki, (2) Kevdi, (3) Dodwa Bandhara were completed which provide a total gross command area of 2004 hectares.

In addition to these, 2 minor irrigation schemes were under construction as on 1-1-81 viz. Isar and Ambawadi. Total gross command area of 1620 hectares will be irrigated under all these schemes.

Medium Irrigation

In the year 1980-81 medium irrigation schemes and its ultimate potential and its achievement of potential and utilisation are given as below :

Medium Irrigation Scheme

(in '00 hectares)

Sl. No.	Scheme	Ultimate Potential	Achievement at the end of 1980-81 Potential	Utilisation
1	2	3	4	5
1	Doswada	0.92	0.92	1.08

5	Ver-II	5.47	..	..
	Total	388.77	378.71	182.02

[3] Co-operation

Co-operative has been playing an increasingly important role in the rural economy of this district, during the last ten years. A super structure of Co-operative societies with an apex bank at the state level, the District Central Co-operative Bank at the district level and Co-operatives societies at the village level is built up with the objective of strengthening the rural economy. The Agricultural credit co-operative societies advance short and medium term loans to their members for purchasing seeds, fertilizers, agricultural implements, etc.

The head office of the District Co-operative Bank located at Surat. The details regarding Co-operative societies during the year 1971-72, 1975-76 and 1979-80 are as under :

Co-operative Societies

Sl. No.	Co-operative Societies	Item	1971-72	1975-76	1979-80
1	Primary Agricultural Credit Societies	Societies	378	339	288
		Members (in '00)	900	950	947
2	Primary Non-agricultural Credit Societies	Societies	122	136	146
		Members (in '00)	490	680	860
3	Primary Consumers Stores	Societies	33	38	47
		Members (in '00)	63	74	85
4	Primary Marketing Societies	Societies	58	63	72
		Members (in '00)	393	543	583
5	Central and State Marketing Societies	Societies	3	3	2
		Members (in '00)	45	57	29
6	Primary Processing Societies (including Spinning)	Societies	12	15	16
		Members (in '00)	328	496	576
7	All other types of Primary Societies	Societies	599	863	1,592
		Members (in '00)	735	979	1,639
8	All other types of Societies (Central and State)	Societies	5	5	6
		Members (in '00)	12	19	51

The data reveals an increasing trend in the field of Co-operative Societies. It would be observed from the above figures that a majority of Co-operative Societies are Primary Agricultural Credit Societies. The number of Co-operative Societies have increased from 1210 in 1971-72 to 2169 in 1979-80.

During the decade the scheduled banks have also increased their credit activities in the different spheres of agriculture, industry, etc.

[4] Livestock and Animal Husbandary

(a) Livestock

According to the Livestock Censuses of 1972 and 1977 the cattle population of the district is found to be distributed as under :

Livestock

Sl. No.	Category of Livestock	1972	1977
I	**Total Livestock**	**636,486**	**634,543**
	A Bullocks and Cows	366,413	358,500
	(1) Males over 3 years	171,367	165,973
	(2) Females over 3 years	96,300	97,802
	(3) Young stock	95,746	94,725
	B Buffaloes	120,867	132,566
	(1) Males over 3 years	4,855	2,258
	(2) Females over 3 years	76,779	88,077
	(3) Young stock	39,233	42,211
	C Sheep	7,888	8,314
	D Goats	131,225	127,340
	E Horses and Ponies	5,334	4,975
	F Mules	4	17
	G Donkeys	1,820	1,516
	H Camels	8	48
	I Pigs	2,927	1,267
II	*Poultry*	572,392	822,410

It would be seen from the table that there was a considerable decrease in the livestock population during the 1972 and 1977. There is an increasing trend in buffaloes, sheep, mules and camels and decreasing trend in bullocks, and cows, goats, horse and ponies donkeys and pigs,

The number of poultry birds have increased from 572,392 to 822,410.

During the year 1979–80 there were 12 vaterinary dispensaries and 46 stockmen centres and primary treatment centres.

The milk supply in the district is well orgainsed in all the talukas. The total number of Milk Co-operative Socities in the district were 517 in the year 1979–80.

(b) Agricultural Tools and Implements

The following table shows the agricultural implements in the district during the year 1972 and 1977 as per the Livestock Census.

Agricultural Implements

Sl. No.	Agricultural Implement	1972	1977
1	Plough	88,055	92,586
	(1) Wooden	87,297	80,217
	(2) Iron	10,758	12,369
2	Carts	50,565	47,689
3	Sugarcane Crushers	251	160
4	Oil Engines	6,483	7,224
5	Electric Motors & Pumps	2,721	3,376
6	Tractors	873	1,639

It wll be observed from the above table that the use of modern agricultural implements like Iron Ploughs, Oil engines, Electric Motors and Pumps and Tractors indicate an increasing trend during the period of 1972–77.

(5) Fisheries

There are fishing activitics in only two centres, namely, Surat and Bhagwa. According to the Livestock Census 1977, persons were engaged in these activities were 3,764.

There were 19 fishing Co-operatives societies in the year 1979–80 in this district. The total fish production during the year 1979–80 was 1,853 tons.

[6] Industries

The following table gives the details of important industries classified by major groups of industry during the year 1981.

Distribution of Important Industrial Establishments by Major Industry Groups

Sl. No.	Major Group	Description	No. of establi-shments	No. of persons employed
1	24	Manufacture of wool, silk and synthetic textiles	606	23,793
2	28	Manufacture of paper and paper products and printing, publishing and allied industries	27	5,285
3	23	Manufacture of cotton textiles	21	5,901

1	Chorasi	I	Surat	Surat is popularly believed to have been founded by Gopi, a Nagar Brahmin who rose to be the Prime Minister in the Sultanate of Gujarat under Mohmud I and Muzaffar II. In 1546, Khwaja Safar Salmani who rose to eminence in the court of Gujarat, built at the instance of Sultan Mohmud III of Gujarat, the castle at Surat to protect the city from the onslaught of the portuguese who had plundered it thrice before. Emperor Akbar took possession of Surat in 1573. Surat had its own mint and the coins (Mahmudis) struck there were current in South Gujarat till 1688. The British opened their factory at Surat in 1613 and the Dutch in 1620. In the reign of Shah Jehan, Surat had very prosperous trade. During the regime of Aurangzeb, Shivaji sacked Surat twice but the trade and the morale of the traders were not affected. The later raids of Marathas too could not slacken the trade. Since the time of Akbar, the Governor of the city and the district as also the commander of the castle and the army were appointed by the Mogul Emperors. When, however Aurangzeb died in 1707, the hold of Delhi weakended and in 1725. Sorabkhan, the then Governor, styled himself the Nawab of Surat and his successors also did the same. The English became the masters of the castle in 1759 and finally took over full control of the city and the district in 1,800. Surat has suffered heavy losses in property and in life during heavy floods in the Tapi particularly in 1822, 1837, 1883, 1944 and 1959. Three centuries ago Surat was one of the biggest cities of Gujarat and the chief port of the Mogul Empire. It was the emporium of trade, inland and seaborne and had its ownnint which existed till 1815 A.D, with the development of Bombay as the chief port of the Western Cost of India. the trade, whealth and importance of Surat declined a great deal. After about two centuries, however Surat has improved its trade to some extent. Near the Municipal hall there are the remains of the old recket-court popularly known as Dadimar, which was for the benefit of the Europeans. Close to the Dadimar, stood a wooden cross of the old chaple of the Capuchin friars, which no longer exists further to the north was the portuguese factory a portion of which bears an inscription to that effect and is now the property of a private individual. The rest of the factory has long fallen in to ruins. Behind the Portuguese factory was the French Lodge but all traces of the buildings have disappeared. To the northeast of this site, there was the Armenian church abandoned, as a place of worship towards the end of the first

	Total	1,190	682,336.00	482,936.00 (70.78)	102,779.00 (21.28)

The irrigated area to the total cultivable area in the district is 21.28 per cent. Palsana taluka have the highest 91.76 per cent cultivable area to total area, whereas in other talukas it varies between 36.34 to 91.14 per cent. As regards Olpad and Palsana have 64 per cent and 56 per cent to total cultivable area respectively, whereas Uchchhal with 0.58 per cent and Songadh with 1.96 per cent are very poor in irrigation.

Note on Town Directory

The list of urban areas for the purpose of 1981 Census was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any area as an urban area.

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria :

(i) A minimum population of 5,000;

(ii) At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity;

(iii) A population of at least 400 persons per sq. km. or a population of 1,000 persons per sq. mile.

The Town Directory has been compiled in seven statements given in the Section-II

for all the urban areas of the district. For presentation of the data the towns of the district have been arranged in alphabetical order. The details of the data covered in these statements are as follows ;

Note on Statement I

Townwise details relating to status and growth history are given in this statement by arranging the towns in alphabetical order. The civic administrative status of each town has been recorded in Col. 2 of the Statement. Col. 5 shows the area of the town in sq. km. whereas Col. 6 shows the number of households including houseless population. Cols. 7 to 15 shows the detail growth history begining from 1901 till 1981. The last Cols. 16 to 19 shows the density and sex ratio of 1961, 1971 and 1981 for each of these towns. Out of 21 towns, only one town has municipality, 4 have Nagar Panchyats, 15 have Village Panchayats and area of the remaining town of Pandesara is notified as an Industrial Area. There is only one city in the district which has a population of more than one lakh, i.e. Surat (Urban Agglomeration). There are two towns which have population of about 35,000 i.e. Udhana and Karanj whereas the remaining towns have the population below 35,000. Pandesara INA has a population of only 916.

It will be seen from this statement that during the last decade Udhana has shown the growth rate of 258.44 whereas, Songadh, Surat and Bardoli have growth rate higher than the growth rate of the district which ranges from 46.04 to 69.73.

The rest of the towns of Kathor, Kosamba, Mandvi, Olpad, Vyara have population growth rate below the district growth rate during the last decade.

Ukai (VP) has population growth rate 52.31 because of Ukai project in the district.

Note on Statement II

This statement gives the physical aspects of the location particulars of towns. Particulars regarding temperature and rain falls have been obtained from the Director General of Observatories, Meteorological department, Government of India.

Distance between Gandhinagar the State Headquarters and the towns of the district vary from the minimum of 240 kms. of Kosamba to a maximum of 350 kms. of Ukai. The District Headquarter of Surat is 287 kms. away from Gandhinagar, the State Headquarter. All the towns except Dindoli, Kadod, Kathor, Mandvi, Olpad, Pandesara, Bhedvad, Surat (Urban Agglomeration), Karanj, Limbayat, Nana Varachha, Umra and Ukai are connected by railways and also all the towns except Limbayat, Umra and Utran have bus facilities.

Note on Statement III

This statement gives details of town finances. The statement shows the receipts and expenditure under several heads. The receipts are shown differently (1) Receipts through taxes, (2) Revenue derived from municipal property and power apart from taxation, (3) Receipts through Governments grants, (4) Receipts through loans, (5) Receipt through advances and (6) Receipts through other sources. The expenditure side has been classified as expenditure on (1) General Administration, (2) Public Safety, (3) Public Health, (4) Public Works, (5) Public Institutions and (6) Others. On the basis of this statement Table No. 8 has been prepared which shows per capita receipt and expenditure of all towns of the district.

Table No. 8 shows the per capita receipt in the different cities and towns.

Scheduled Castes/ Scheduled Tribes Population

The proportion of Scheduled Castes population to total population vary from 0.12 per cent in Uchchhal taluka to 6.23 per cent in Kamrej taluka. The respective proportion in the rural area of talukas vary from 0.12 per cent in Uchchhal taluka to 6 14 per cent in Kamrej taluka. In the urban areas of talukas the same vary from 2.24 per cent in Mandvi taluka to 6.99 per cent in Kamrej taluka. The proportion of Scheduled Tribes population to total population vary from 8.89 per cent in Chorasi talukas to 97.44 per cent in Uchchhal taluka.

As regards the lowest and highest percentage of Scheduled Tribes population in rural areas of the talukas are found in Chorasi taluka and Uchchhal taluka respectively. In the urban areas the highest percentage of 32.70 per cent is found in Vyara taluka and the lowest percentage of 6.37 per cent is found in the taluka of Chorasi.

Literates

The proportion of literate persons in the talukas vary from 21.18 per cent in Uchchhal taluka to 58.64 per cent in Chorasi taluka. The lowest and highest proportion of literates in rural area of the talukas are found in Songadh taluka and Chorasi taluka respectively. The respective percentage are 20.04 per cent and 53.69 per cent. The proportion of literate persons in urban areas vary from 54.98 per cent in Mangrol taluka to 61.43 per cent in Vyara taluka. The talukas of Kamreja, Mangrol, Mandvi, Songadh, Uchchhal, Nizar, Vyara, Valod, Bardoli, Mahuva and Palsana are below the average district literacy rate of 46.73 per cent and need attention in education.

Workers and Non-workers

The proportion of main workers and marginal workers to the total population is 47.09 and 11.50 per cent respectively in the district. It is also worth noting that proportion of main workers in respect of male and female workers to the total male and female population of the district is 60.47 and 33.19 correspondingly whereas quite reverse trend is noticed in respect of marginal workers. The proportion of male workers and female workers is 1.18 and 18.29 respectively.

From Table No. 21 it will be seen that in respect of urban areas of the talukas the proportion of male main workers to the total male population of the taluka vary from 48.98 per cent in Vyara taluka to 57.40 per cent in Chorasi taluka.

The respective percentage of female workers vary from 4.81 per cent in Songadh taluka to 13.35 per cent in Kamrej taluka. It is also evident that the numbers of total marginal workers in rural areas in all the taluka is very high as compared to the figures of corresponding urban areas.

The proportion of total workers to the total population vary from 35.44 per cent in Chorasi taluka to 55.10 per cent in Uchchhal taluka. The respective percentage also vary in case of male workers from 56.39 per cent in Olpad taluka to 61.04 per cent in Uchchhal taluka.

PRIMARY CENSUS ABSTRACT

Explanatory note for Primary Census Abstract

Primary Census Abstract of 1981 Census provides information in respect of each village in rural area and town/ward in Urban area. It gives information about the area of the village in hectares and towns in square Kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled castes and Scheduled Tribes, literates. The entire population of village/town/ward is divided in to main workers, marginal workers and non-workers and main workers are further divided/in to four broad industrial categaries as under :-

1 Cultivators (I)
2 Agricultural labourers (II)
3 Household Industry Manufacturing, processing, Servicing and Repairs (V(a))
4 Other workers (III, IV, V(b) & V1 to IX)

The sexwise break-up of total main workers (industrial category I to IX) has been presented in addition to similar break-up for each broad industrial category of workers, marginal worker and non-worker.

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :-

1	Municipal Corporation	MC	7	Notified Area	n.a.
2	Municipality	M	8	Industrial Notified Area	INA
3	Non-Municipal Area	NM	9	Not Available	NA
4	Nagar Panchayat	NP	10	Urban Agglomeration	UA
5	Village Panchayat	VP	11	Out-growth	OG
6	Cantonment	Cantt.			

The following conversion factor has been used for converting acres into hectares and hectares into Km.^{2}

Acres × 0.40467 = Hectares
Hectares × 100 = Km.^{2}

* These figures represent provisional 'Geographical Area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.

* These represenli provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.
