Gujarat is the home of 3,734,422 tribal people constituting 13.99 per cent of the State's total population of 26,697,475. They are the inheritors of an art tradition that is the product of long development and continues to this day in unbroken succession. Isolated communities till recent times, the traditions of their art have been passed down by oral transmission from mother to daughter and father to son and reveals an inspiration and outward expression in forms and motifs that have remained basically unchanged through the years. Many of the art forms of the Adivasis are the result of deep spiritual experience or have their roots in dream, story, myth or legend. Significant forms have thus survived without major alteration through centuries during which the underlying myths and legends have remained basically the same.

They have taken the material of their crafts from the environment around them. One of the commonest materials used was clay, exploiting the plasticity of which they never seem to have tired. Terra-cotta objects are produced on an unimaginably large scale and for a variety of purposes. The rich diffusion of terra-cotta products of innumerable shapes and sizes that may still be found in any area of Gujarat inhabited by the tribal people is testimony to the fact that this tradition continues uninterrupted.

The stylised tribal terra-cotta horse and rider displayed on this volume comes from Surat District. The specimen depicted on this volume is one of a rather unusual genre in that the face of the horse and the long projection behind the rider are considerably exaggerated and offer no easy interpretation. About half the population of the district is tribal.

(Block from an ink tracing by K. D. Vaishnav, Geographer, from a photograph of a specimen at the Tribal Research Institute, Ahmadabad)

CENSUS OF INDIA 1971

LIST OF PUBLICATIONS

Genetral Government Publications—Census of India 1971-Series-5-Gujarat is being published in the following parts :

Part Number	*Subject covered*

PREFACE

The District Census Handbooks are being published regularly since 1951. Earlier they were brought out under the name of "Village Handbooks" and contained only the population totals. They are prepared by the Census Organisation on behalf of the State Government and published by the latter. They are the first to be published in the series of 1971 Census publications, which are now to follow. The need for making available to the State Government, the Census data as early as possible after the taking of the count, has been recognised since long. It is a matter of deep satisfaction that the present volume is being published within a year of the taking of the Census.

The data collected during 1971 Census was tabulated initially at three Regional Tabulation Offices at Surat, Rajkot and Bhavnagar for rural areas and one more Tabulation Office at Ahmedabad which dealt with the slips of urban areas only. The data abstracted at the Regional Offices was brought to Ahmedabad where it was compiled for the State as a whole and is now being published.

The District Census Handbook contains primary data upto the village level for rural areas and enumerator's block level for urban areas. It is for the first time that in 1971 Census we are giving information about urban areas of the State in a separate part called the "Town Directory". We are also giving comprehensive information about rural areas in the "Village Directory". This is further supplemented by the Alphabetical List of Villages for facility of reference.

It has been decided to bring out the District Census Handbooks of 1971 in three parts as under :—

Part A

(1) Town Directory

(2) Village Directory

Part B

(1) Urban Block and Villagewise Primary Census Abstract

Part C

(1) Analytical Report

(2) Administrative Statistics

(3) Census Tables

It was originally decided that each part would be brought out separately. But since the data for parts A and B has been prepared almost at the same time, it is decided to combine these parts into one volume. Part C which has to await the collection of official statistics from various Departments of the State Government and preparation of Census Tables, would be published separately.

The Town Directory consists of information about the status, growth history and functional category of towns and their physical aspects, location, Municipal finances, civic and other amenities like sewerage, protected water supply, fire fighting service, electrification etc. It also contains information about medical, educational, recreational and cultural facilities available at the towns. Detailed information about trade, commerce, industry and banking is also provided here. The population of the towns according to 1971 Census by religion and Scheduled Caste and Scheduled Tribe is furnished here. The Town Directory is a new feature of 1971 Census and the above information has been compiled in it for the first time.

The Village Directory contains comprehensive information about the amenities available at the village such as educational and medical, supply of electric power, drinking water facility, communication through road, rail, kutcha road, pucca road and bus route, existence of post, telegraph and telephone facilities, etc. Further information about staple food, area under various

uses like forest, cultivable land, source and extent of irrigation, cultivable waste and name of the nearest town and its distance, day on which 'bazar' is being held, if any, and its importance from religious, historical and archaeological point of view is recorded here.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Caste and Scheduled Tribe population and the distribution of working population into nine industrial categories of workers and non-workers.

The Analytical Report in Part C takes note of the social, economic and demographic changes which have occurred in the District during the last ten years. The administrative statistics are obtained from various Departments of the State Government and presented in this part which also incorporates a few of the tables generated from the data derived during 1971 Census.

There are 217 towns in Gujarat and 18,709 villages. Compilation of data for such a large number of units within such a short time was indeed a formidable task. The terms and definitions used in the schedules of the Directories were carefully studied and detailed instructions with explanatory notes, about the manner in which they were to be filled, and the source from which data was to be collected were issued by this Directorate to the Taluka Development Officers. The collection of land use data and tallying of area figures for each administrative unit presented an uphill task. The Settlement Commissioner and Director of Land Records was requested in August 1969 to confirm some of the presumptions and furnish necessary guidelines to this Organisation as to how the various figures required could be culled out from the revenue forms maintained at village level.

The printed forms of Village Directories were sent to the Taluka Development Officers with a request that they should be filled by the village officials and scrutinised at taluka level by the Statistical Assistant before returning to this office. The Development Commissioner and the Director, Bureau of Economics and Statistics, issued firm instructions to the field staff to ensure that the information was filled and scrutinised with the utmost care. After this information was received in the Census Directorate, it was subjected to a very close and rigorous checking by a cell which was specially created for the purpose. There were a number of points on which further probe became necessary, where the information was found to be incomplete or inconsistent. Our greatest hurdle was the reconciliation of area figures as reported by the village officials and those reported by the District Inspector of Land Records. A series of meetings had to be held at each District Headquarter, where the Deputy Director in charge of the District Census Handbook Unit had to remain present and point out the glaring inconsistencies reported to the Taluka Development Officers and District Inspectors of Land Records. Thanks to the dedicated efforts of all concerned, we were ultimately able to reconcile completely the area figures for each Village, Taluka and District.

It was noticed that there were minor differences in the spellings of village names reported by the Mamlatdar, Taluka Development Officer and District Inspector of Land Records. Similar differences were also noticed in the total number of villages reported by each agency. These discrepancies were reconciled on the basis of the list of villages published by Revenue Department, information obtained from taluka offices and other published sources. Location code number was given to each administrative unit at the time of taking of the Census in order to avoid repetition of their names.

The Census Directorate had obtained village-wise data relating to drinking water facility, primary and secondary school, post, telegraph and telephone, electrification etc, from the concerned Departments. The data reported in the Village Directory was cross-checked with the

official data to make it accurate and upto date. The data so processed was ultimately posted in the Village and Town Directory statements and typed in four copies. The typed data was again compared with the original manuscripts by a special cell handpicked for the purpose. The taluka totals for the area and amenities have been struck for each column. A number of inset tables have been prepared and included in the note to the District Census Handbook, as desired by the Registrar General, India.

The Town Directory statements were likewise scrutinised by a special cell in the Directorate, and the local authorities were asked to reconcile incomplete or inconsistent information wherever necessary. On account of the instructions issued by the Director of Municipalities, these references received immediate attention. The figures reported by the Municipalities have been cross checked with available statistical data.

Maps

No District Census Handbook can be complete unless it is accompanied by District and Taluka maps. We have, therefore, included at the beginning of each volume a District map showing the taluka boundaries, location of towns and large villages with population size 5000 +, communications, water features etc., and an inset map showing the position of the District in the State in hatching. A Taluka map is inserted before the Primary Census Abstract of each taluka, indicating the boundaries of each village and town within the taluka and the location code number of each village. The villages have been shown by dots of various sizes. One key map showing the location of the taluka within the District in hatching, and another key map showing the position of the District in the State have been inserted here. The urban area is hatched in both the District and Taluka maps, and is further represented by a sphere of varying size according to population.

The District and Taluka maps show several particulars by use of an appropriate symbol.

The preparation of District and Taluka maps, containing such varied information was a task of no small magnitude. The District Inspectors of Land Records had considerable difficulty even in preparing the basic maps and authenticating them. The problem was solved by requesting the Settlement Commissioner and Director of Land Records to call the District Inspectors of Land Records personally to the Office of Director of Census Operations and reconcile all the discrepancies pointed out to them and asking them to authenticate the same on the spot as far as possible, after due verification.

ACKNOWLEDGEMENTS

Compilation of such a large mass of data is impossible without the active help and co-operation of State Government. I am deeply indebted to Shri L. R. Dalal, ICS, Chief Secretary to Government of Gujarat, for agreeing to extend whatever help was sought for. I would like to make a special mention of the warm and wholehearted co-operation which was throughout extended by Shri K. V. Bhatt, Deputy Secretary in the General Administration Department, who was looking after the subject of Census. Whether it was a matter of sanction of staff or for supply of typewriters, or for additional funds for printing of the District Census Handbook volumes, it always received his most immediate attention and sanction was never denied or delayed. He showed a deep understanding of the problems of an organisation like ours, which could function in the State effectively only with the full backing of the State Government.

Shri P. B. Buch, Director of the Bureau of Economics and Statistics, Government of Gujarat, placed at my disposal the entire resources at his command for any work connected with Census. Not only he spared me a few of his best officers and men but his valuable guidance in the matter of presentation of data at several places has served us in good stead. He issued instructions to the District Statistical Officers to attend to

the collection and scrutiny of any Census data and its timely submission; as if it was Bureau's own work. We were always assured that we could fall back upon the resources of the Bureau unreservedly in time of need. But for the wholehearted and most willing cooperation of the Bureau at all levels, the District Census Handbook volumes would not have been what they are today.

I also owe a deep debt of gratitude to Shri U. M. Bhatt, IAS, the then Settlement Commissioner and Director of Land Records for his help in finalising the meanings of terms and definitions used in the Village Directory. It is a matter of deep regret that he is no more with us today. His successor, Shri B. R. Mane Patil, IAS, was equally enthusiastic and helpful and but for the keen interest he took in the finalisation of District and Taluka maps, we would have been placed in serious difficulty.

My sincere and heartfelt thanks are due to the Collectors of the Districts for the wholehearted response I have received from them towards the efficient conduct of Census Operations. The interest and energy evinced by them in organising this vast operation is indeed praiseworthy. Their active participation and involvement in the programme had a far reaching effect on the countless enumerators and supervisors working under them. Their direct interest in the training programme has vastly improved the quality of our returns. The Assistant / Deputy Collectors working under them were made responsible for the urban areas of their jurisdiction. The Mamlatdars and Chief Officers of Municipalities who were appointed as Charge Officers of rural and urban areas respectively bore the real brunt of the work, and displayed great zeal and enthusiasm in shouldering these additional responsibilities. To the Commissioners of Ahmedabad and Surat Corporations I am particularly indebted for providing excellent accommodation for housing the Regional Tabulation Offices. To the Special Charge Officers of Railways, Police, S.R.P., Irrigation Colonies and Forest Department and others I express my gratitude for the readiness with which they stood by us. Last but not the least, my grateful thanks are due to a large number of young boys and girls, coming from schools and colleges, to work as Sorters, Compiler Checkers and Supervisors, for the hard work they put in under difficult conditions of work. They displayed a very high sense of discipline and duty and enabled us to complete our work, at every stage, according to the deadlines set. I have no doubt the traditions of hard and systematic work they have imbibed will serve them in good stead and they will advance in life. They carry our best wishes with them wherever they go.

The District Development Officers who helped us so much in collection of data at the village level through the Taluka Development Officers and the District Statistical Officers working under them, who arranged for the scrutiny of the Town and Village Directory schedules at the taluka level through the Statistical Assistants, deserve a special mention. Had the basic work not been done by them accurately we would have been faced with a serious problem at the time of compilation. To the Heads of various other Departments, who always responded readily to any request made to them for help, I am also indebted. Limitation of space prevents me from making a separate mention of each one of them.

Shri G. J. Gonsalves, Director of Government Printing and Stationery, Government. of Gujarat, who very kindly undertook to arrange the printing of some of the District Census Handbooks at Government presses and others through private presses had always been helpful in solving our difficult problems of printing. I hereby acknowledge the valuable help, guidance and assistance rendered by him in the matter of printing. Thanks are also due to the Manager, Government Photo Litho Press, Ahmedabad, at which all the District and Taluka maps as also the cover page have been printed. The care and patience with which they have attended to this work, has beautified our volumes to no small extent and increased their utility to the reader greatly.

Shri Hashim Ali Sayed, Printing Inspector, whose services were obtained on deputation from the Director, Government Printing and Stationery, rendered exemplary service by looking after the entire printing arrangement. His initiative, drive, and readiness to assume responsibility were a source of great strength to us. Everything he handled, he did perfectly well, and knew his job inside out.

I wish to place on record the valuable contribution made by my colleagues in bringing out this volume. Shri K. F. Patel, Deputy Director of Census Operations (HQ) was looking after this section before a separate staff was sanctioned by the State Government, headed by Shri S. C. Merh, Deputy Director from the Bureau of Economics and Statistics. Even after the creation of this separate cell, there were many occasions on which I had to look to him for help on account of the experience gained by him during 1961 Census. He never objected to the encroachments made on his time and energy, in spite of the fact that they were sometimes substantial. Shri S. C. Merh, Deputy Director of Census Operations (DCHB) put in hard and gruelling hours of work in spite of indifferent health to catch up with the time schedule which was once upset. Shri S. M. Shelke, Research Assistant, from the Bureau working under him, undertook almost the entire burden of Town Directories in addition to other work. Shri S. M. Nayak, Assistant Director of Census Operations, put in an indefatigable effort to ensure accuracy of the data at every stage and successfully coordinated the work throughout. The enthusiasm and energy displayed by Shri C. P. Vyas, Assistant Director of Census Operations, in the matter of preparation of inset tables for District Census Handbook volumes and several other matters connected with it deserve a special mention. The interpretation of the data of the Town and Village Directory is his personal contribution. Shri R.M. Pancholi, Statistical Assistant, prepared the inset tables to be included in the Town and Village Directory. Shri K. M. Patel, Tabulation Officer put in a very strenuous effort for the reconciliation of area figures and final checking of maps. Kr. Fateh Singh Jasol, IAS, Deputy Director of Census Operations, Urban Tabulation Unit, took upon himself, as a labour of love, the scrutiny of work with regard to the preparation of District and Taluka maps and the selection of different motifs which now decorate different volumes of the District Census Handbook. He involved himself in this work with the ardency and fervour so characteristic of him and greatly relieved me of the anxiety on this account. Shri K. D. Vaishnav, Geographer, and his team of draftsmen have produced excellent District and Taluka maps by working on them again and again to incorporate details which were pointed out or received after the maps were once prepared. Shri N. S. Bhatt, Statistical Assistant, has checked them thoroughly. Shri B. I. Patel, Tabulation Officer, in charge of the Central Tabulation Unit took upon himself the entire responsibility for the scrutiny of Primary Census Abstracts and their typing in record time. He discharged his duties with diligence and a high sense of duty. I had in him a pillar of strength on which I could lean for work demanding precision and exactitude. His capacity to turn out work at optimum efficiency in the face of time schedules rigidly set merits avowal. Shri V. A. Dhagia, Tabulation Officer, proved himself a stalwart by shouldering the burden not only of work entrusted to him, but part of the burden of every section, including the Map Section, and rendered yeoman's service. Both the Central Tabulation Units benefited greatly by the care and attention bestowed on them by Shri K. F. Patel, Deputy Director of Census Operations (HQ), whose trained eye could detect the slightest inaccuracy or inconsistency in compilation or presentation. It was due to this team work that we were able to compile such faultless data with admirable speed, and were the first to send the Primary Census Abstracts of all the Districts of the State in one bunch to the Registrar General's Office at New Delhi. Shri Patel's patience and thorough handling of work has yielded rich dividends to us. I have relied heavily on the expertise, acumen and experience of my colleagues and they have undoubtedly

given their best to the Organisation, for which I am deeply indebted to them.

Limitations of space prevent me from making an individual mention of all those who have contributed to the making of this volume so complete and faultless to all of whom I wish to express my sincere thanks.

Finally, I would like to express my very deep gratitude to Shri A. Chandra Sekhar, IAS, Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) for the valuable guidance received from them from time to time. The amount of advance thinking and planning done by them on the subject has now resulted in the production of volumes which will be of lasting value and interest to the general reader, research worker, scholar, administrator and academician.

C. C. DOCTOR,
Director of Census Operations,
Gujarat.

AHMEDABAD
1st March, 1972.

PART X-A

TOWN AND VILLAGE DIRECTORY

TOWN AND VILLAGE DIRECTORY

The Town and Village Directory of the District Census Handbook 1971 differs widely in content and presentation from the corresponding volume of 1961. The earlier volumes mainly contained the Primary Census Abstract for each village for rural area and town/ward/enumerator's block for urban area and was supplemented by some additional information which was collected from (a) village notes specially devised for the purpose and (b) information supplied by Heads of Departments on certain amenities. It was presented in Col. 2 in run on fashion for each village and town followed by the Primary Census Abstract in the remaining columns.

The Town and Village Directory of 1971 Census is presented in Part A of the District Census Handbook. An attempt has been made to interpret the data thrown up in the Town and Village Directories at the beginning under the heading "Introductory Note on Town and Village Directory".

Part B of the District Census Handbook contains purely the Primary Census Abstract.

A number of abbreviations have been used in both the Directories to facilitate presentation. The abbreviations used in each statement of the Town Directory are given below in Statement A. Statement B gives a list of abbreviations used in Village Directory.

STATEMENT A

INTRODUCTORY NOTE ON TOWN AND VILLAGE DIRECTORY

1. History of District Census Handbook

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the erstwhile Government of Bombay. In 1951, the basis of classification of the Census was changed from a social to an economic one and the figures were given in the Primary Census Abstract according to eight Livelihood Classes. The Primary Census Abstract contained the basic information in respect of every village and town. A decision to bring out the District Census Handbooks giving the Primary Census Abstract and important Census tables for every district of the State was taken for the first time in 1951. Census statistics given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates and agricultural and non-agricultural classes distributed under eight main Livelihood Classes. These census statistics were further supplemented by the addition of useful administrative information on the availability of amenities in villages and towns on items like post offices, railway stations, the distance of a bazar from the village, primary schools, village panchayats, co-operative societies, etc. This was a unique achievement of the Indian Census. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Governments. It was, therefore, decided during the Census of 1961 that the District Census Handbooks of 1961 Census should contain a certain minimum of statistical data, maps and other useful information to be adopted uniformly throughout the country. Thus the District Census Handbook of 1961 Census differed widely in the matter of content and coverage from that published in the 1951 Census. The District Census Handbooks of 1961 were sub-divided into the following three parts :-

PART I - THE DISTRICT

(i) Introductory Essay
(ii) Brief Gazetteer of Place Names

PART II - STATISTICS

(i) Census Tables
(ii) Villagewise List of Industrial Establishments
(iii) Handicraft Tables
(iv) Departmental or Official Statistics

PART III - VILLAGE DIRECTORY

(i) Explanatory Note
(ii) Village Directory
(iii) Taluka Maps

Besides Census data, the 1961 District Census Handbooks covered villagewise and townwise information on the availability of different types of amenities such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses etc., shown by means of abbreviations placed against the name of each village. Thus, in the 1961 Census an attempt was made to make the District Census Handbooks more informative.

During the 1971 Census, efforts have been made to compile both census and non-census statistics in a uniform manner under an enlarged perspective. The District Census Handbook of 1971 Census has been divided into three sub-parts with a view to making the census and non-census information available to the data users as quickly as possible. Part A of the District Census Handbook contains the Town Directory and Village Directory. Part B contains the Primary Census Abstracts and Part C contains the Introductory Essay, Official Statistics, Census tables, etc. The details of the contents in each of the parts are described in the following paragraphs.

2. Scope of District Census Handbook 1971

The District Census Handbooks are the only publications which incorporate the data down to the village and block level of a town, which are urgently and frequently required by the data users. They are constantly referred to for several purposes by the administrator, planner, policy-maker and academician. The delay in the publication of the District Census Handbooks would reduce

the value of these very useful publications. In order to avoid delay in the publication the District Census Handbooks of 1971 are sub-divided into three parts, two of which are combined in one volume, and the third published separately. The details of the contents of each of the parts are as follows.

Part A : Town and Village Directory

Part A contains the non-census statistics of each village and town. The Town Directory portion furnishes the data for each town in the district in seven statements covering (1) the status of the civic administration and the functional category of towns and the growth of population since 1901; (2) physical aspects and location; (3) civic finances; (4) civic and other amenities; (5) medical, educational, recreational and cultural facilities; (6) trade, industry, commerce and banking facilities and (7) population by religion.

The Village Directory Section of Part A gives particulars of amenities available for each village in the matter of educational and medical institutions, power supply, drinking water facilities, post and telegraph facilities, communications, particulars of land use, weekly markets and places of religious, historical and archaeological interest in the village.

Part B : Primary Census Abstract

Part B gives for each village and for each block and ward of a town the primary census data incorporating area of the town in square kilometres, and of village in acres and gunthas the number of occupied residential houses, the number of households, total population and its break up by sex, scheduled caste and scheduled tribe population, literate population, and working population by nine broad industrial categories namely (1) cultivators, (2) agricultural labourers, (3) those working in livestock, forestry, fishing, plantations, etc., (4) mining and quarrying, (5) manufacturing, processing, servicing and repairing, (6) in constructions, (7) in trade and commerce, (8) transport, storage, and communications, and (9) in other services and the non-working population.

Part C : Administrative Statistics and Report

Part C would incorporate the administrative statistics, pertaining to the district in various fields of development. The other census tables pertaining to the district regarding mother tongue, religion, migration, etc., will also be reproduced here. A write up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade would also be given.

The non-census data of the village directory and town directory were collected from the local bodies. The villagewise details regarding different types of amenities available at the village, land use data and other information were collected in the village directory form through the Taluka Panchayat offices. These forms were filled by the village officials and were scrutinised by the Statistical Assistants at the Taluka level. The District Statistical Officers supervised the work and carried out percentage scrutiny. The details regarding the number of villages having post and telegraph facilities in the State, those connected with electric power supply, those having all weather and fair weather bus facilities and those without drinking water facilities etc., were obtained from the concerned departments by the Office of the Director of Census Operations. The information recorded in the village directory forms was cross checked with the data obtained from concerned departments, confirmed and made up-to-date.

The non-census data for each of the towns were obtained from the municipal authorities in case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. The information received from the concerned municipalities and panchayats was scrutinised and cross checked with other published official statistics for a few items wherever it was possible.

3. Note on Town Directory

A. The list of urban areas, for the purpose of 1971 Census, was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any area as an urban area.

(1) All places where there is a Municipal Corporation, or a Municipality or a Town Committee or a Notified area or a Cantonment Board have been treated as urban areas.

(2) The remaining places were recognised as enjoying urban characteristics and declared urban areas only if the following conditions were fulfilled.

(a) The estimated population at 1971 Census should be at least 5,000.
(b) The density of population per sq. kilometre should not be below 400.
(c) 75 per cent of the male working population should follow non-agricultural pursuits, and,
(d) In the opinion of the Director of Census Operations any other place where predominant urban characteristics are noticed.

B. The town directory has been compiled in the following seven statements for all the urban areas of a district. For presentation of the data all the towns of a district are arranged in alphabetical order. In Appendix 1 to the Town Directory all the towns of a district are arranged according to their location code numbers. The details of the data covered in these statements are given below:—

Statement I

Statement I gives the details relating to the status of the towns, growth history of towns since 1901 and their functional categories in 1961 Census and 1971 Census.

Statement II

This statement gives details of physical aspects and location of the towns. Under physical aspects are given details relating to altitude of the towns (in metres) annual rainfall (in m.ms) and minimum and maximum temperature (in centigrade). The statement also gives the details of distance of the towns from the nearest city with population of 1 lakh and above, from State Headquarters, from District Headquarters, Sub-divisional and Taluka Headquarters, from the nearest railway station and bus route. It also gives details as to whether or not the town has a navigable river or canal within 10 km. and the name of sea port within 50 km.

Statement III

This statement gives details of Municipal finance for the year 1968–69. It covers the receipts under different heads like receipt through taxes, receipt derived from Municipal property and powers, Government grant, loans, advances and other sources. It also covers the items of expenditure on different heads like general administration, public safety, public health and convenience, public works, public institutions and others.

Statement IV

This statement gives details about civic and other amenities. It covers information on the type of road with length, system of sewerage/drainage, number of latrines by types, method of disposal of night soil, source and capacity of protected water supply and availability of fire fighting services. The statement also gives details of the number of electric connections by types.

Statement V

This statement gives details relating to medical, educational, recreational and cultural facilities in the town. Details relating to medical institutions by types and the number of beds in each type of institutions are also covered. Details regarding different types of educational institutions are given. It also covers details relating to facilities of stadia, cinemas, auditoria or drama halls and libraries.

Statement VI

This statement covers the details relating to trade, commerce, industry and banking. The statement gives details of the three most important commodities imported in the towns, three important commodities exported from the towns and three important commodities manufactured in the towns. It also gives details of the number of banks and cooperative credit societies.

Statement VII

This statement gives the population of the town by religion. Data for this table is extracted from 1971 Census data.

C. Surat District consisted of 21 Talukas and Mahals at the time of the 1961 Census. With the bifurcation of the District into the new Surat and Valsad Districts in 1964 eight of the original Talukas and Mahals of the composite Surat District were transferred to the newly formed Valsad District. At the time of 1961 Census there were 17 urban areas in the composite Surat District of which seven now fall in the truncated and newly created Surat District. The remaining ten areas given urban status in the 1961 Census were transferred to Valsad District on the creation of that District in 1964.

None of the seven original urban areas of the new Surat District have since been declassified. However, Rander which was a separate town at the time of the 1961 Census has since been merged into the Surat Municipal Corporation, thus reducing the present day Surat District tally of the original urban areas from the existing seven to six.

With the recognition of Kosamba, Olpad, Songadh, Udhna and Ukai as urban areas during the 1971 Census the tally of urban areas in Surat district during the 1971 Census, therefore, goes up to 11. Kosamba, Udhna and Ukai have gained urban status for the first time during the 1971 Census. Olpad, which was considered as a town during the 1901 Census and thereafter declassified, regains its urban status after a spell of six decades. Similarly, Songadh which was considered as a town in the 1951 Census and thereafter declassified has also regained its urban status in the 1971 Census.

D. As for agglomerations Katargam and Udhna have been recognised as agglomerations of Surat City.

Details of Standard Urban Areas in the district are as under: -

District	Standard Area and Component Units	Civic Status	Area in Km².
1	2	3	4
Surat	Total Surat (S.U.A.)		96.44
	Urban Components		
	Surat	M.C.	35.56
	Katargam	V.P.	7.01
	Udhna	V.P.	6.80
	Total Urban group		49.37
	Rural Components		
	Umarwada		0.25
	Karanj		1.86
	Fulpada		3.25
	Kapadra		1.68
	Dubhal		1.71
	Limbayat		1.35
	Dindoli		7.26
	Bhestan		6.94
	Bhedwad		1.68
	Pandesara		2.83
	Bhatar		2.30
	Piplod		2.25
	Umra		3.87
	Ved		2.85
	Dabholi		2.54
	Singapor		2.63
	Tunki		1.82
	Navagam, Athwa, Majura, Khatodra, Anjna, Adajan, Rander, Panas	These villages have been included within the limits of Surat Municipal Corporation	
	Total Rural Group		47.07

Note on Statement I

Townwise details relating to status, growth history and functional categories are given by arranging the towns in alphabetical order. The civic administration status of each town has been recorded in column 5 of the statement by using the following abbreviations.

Status	Abbreviation
1. Corporation	C
2. Municipality	M
3. Town Committee/Town Area Committee/Board	TC
4. Notified area Committee/Council	NAC
5. Cantonment Board	CB
6. Nagar Panchayat/Panchayat	P
7. Non-municipal/Non-Town Committee/ Non-Panchayat Committee	NM

No towns in the district have municipalities except Surat City where there is a municipal corporation. 9 towns have panchayats. (2 have nagar panchayats and 7 have gram panchayats) With the implementation of the Panchayat Act in Gujarat from 1-4-1963 places having a population of more than 10,000 but less than 20,000 have been given the status of Nagar Panchayats and those having a population of less than 10,000 persons have been notified as Gram Panchayats. Ukai is a non-municipal/non-panchayat township maintained by the Government of Gujarat.

It can be seen from the statement that there is one town in the district having a population of more than one lakh. There is no town having a population of more than 50,000 but less than one lakh. Those having a population of more than 20,000 but less than 50,000 number one as against no town in 1961; those having a population of more than 10,000 but less than 20,000 number 4 as against 3 in 1961 and those having a population of more than 5,000 but less than 10,000 are 5 as against 2 in 1961.

Columns 14 and 15 of the Statement give the functional category of the town according to 1961 Census and 1971 Census. The method adopted for determining the functional category is uniform for 1961 (Atlas Volume) and 1971 Census. The functional categories are worked out on the basis of the following formula.

The nine Industrial Categories of workers adopted in 1971 Census are grouped into five sectors as follows.

	Categories
(1) Agricultural and its allied activities	I, II, III & IV
(2) Industrial including construction	V, VI
(3) Trade and Commerce	VII
(4) Transport, Storage and Communications	VIII
(5) Other Services	IX

The percentage of workers under each of the above five groups to total working population is worked out for each town. These towns are then classified according to their percentage values which will determine the characteristic of the town as Primary activity, industrial, commercial, transport and service, etc., on the following basis.

(i) If one sector of the economy absorbs more than two-fifths of the total working population (i. e. more than 40 per cent) then the town would be designated by that particular industrial category which is found predominant, e. g. industrial, commercial, transport, service or primary.

(ii) If the percentage falling under any one industrial category is less than 40, then the next predominant industrial category is taken into account, so that their total reaches three fifths of the working population i. e. 60 per cent. Such a town would then be designated as industry-*cum*-service town or commerce-*cum*-transport town etc., as the figures may indicate.

(iii) If the total of any two categories does not come upto 60 per cent, then the third predominant industrial category in order of merit is taken into account and after 60 per cent of the working population is accounted for the town is designated as industry-*cum*-service-*cum*-transport town and so on.

On the above basis each of the towns has been assigned functional categories. Table No. 1 below gives the distribution of towns by different functional categories. It can be seen that 6 towns have one functional characteristic, one town has two and remaining 4 towns have three characteristics.

TABLE No. 1

Distribution of towns by functional categories

Functional Category–1971	Number of Towns
1	2
1. One Characteristic :	
(a) Primary activities	2
(b) Industry	4
	6
2. Two Characteristics :	
(a) Primary activities	1
	1
3. Three Characteristics :	
(a) Primary activities-*cum*-Commerce-*cum*-Industry	1
(b) Primary activities-*cum*-Services-*cum*-Industry	1
(c) Industry-*cum*-Primary activities-*cum*-Commerce	1
(d) Industry-*cum*-Services-*cum*-Primary activities	1
	4
Total	11

Note on Statement II

This statement gives the physical aspects and the location particulars of towns. Particulars regarding data on the altitude of the towns have been obtained from the Director, Survey of India, Western Circle, Abu. Details regarding temperature and rainfall have been obtained from the Director General of Observatories, Meteorological Department, Government of India and the Regional Meteorological Centre, Colaba, Bombay. However, data on rainfall and temperature were not available from the above offices for many towns. In such cases data have been collected from local sources, and remarks to that effect are given at the footnote of the statement.

Surat District is conveniently divisible into two physiographic regions comprising of the narrow eastern tract of hilly land bounded by the Sahyadri and Satpura ranges and the broader western tract from north to south consisting of the alluvial plain of the Tapi sloping westward to the sea. Mandvi, Songadh, Ukai and Vyara towns are located in the eastern tract. Of these, Ukai town situated at an altitude of 134.7 metres above mean sea level enjoys the highest altitude. Mandvi, by comparison is located at an altitude of 50.00 metres above mean sea level. Bardoli, Kathor, Kosamba, Olpad, Surat, Katargam and Udhna towns fall in the western tract of the District. The altitude of the towns in the tract ranges from a maximum of 28.9 metres above mean sea level at Bardoli to a minimum of 6.7 metres at Olpad. The rainfall varies considerably from town to town. The highest rainfall recorded in 1969 was at Vyara (1816.8 m.m.) while the lowest was recorded at Olpad (684.0 m.m.). The climate of the District can be described as hot during the summer and monsoon seasons and mainly temperate for the rest of the year. The summer lasts from March to late June when the temperatures are in the vicinity of 40.0°. C. The winter season, from November to February, is mainly mild but a temperature of 4.4°. C. has been recorded at Ukai in 1969.

The city with a population of 1 lakh or more close to all the towns of the District is Surat City. Bardoli, Kathor, Olpad, Katargam and Udhna are situated within a radius of 50 km. from Surat while the remaining towns of the District are at a greater distance from the city. The towns nearest to Surat City is katargam which is only 4 km. from the City. Ukai, 90 km. from Surat is the town farthest away from the City. Gandhinagar, the State Headquarters, is at a considerable distance from all the towns of the District. It is close to Kosamba which is 245.0 km. from the State Capital and farthest away from Ukai which is 359.9 km. from the State Capital. Five of the towns of the District are not connected by rail while the remaining ones are. The minimum distance between a town not connected by rail and its nearest rail head is between Katargam and Surat (4 km.). At the other end of the scale the greatest distance between a town not connected by rail and its rail head is between Mandvi and Madhi (16 km.). All the towns are, however, connected by bus routes. The Tapi is a navigable river and eight of the District's towns are situated within a distance of 10 km. from it.

The district also has a sea port at Magdalla and six towns of the District are within 50 km. of this port.

Note on Statement III

This statement gives details of town finance. Surat City has a municipal corporation; two towns have Nagar Panchayats and seven have Gram Panchayats. Ukai is a non-municipal/non-Panchayat township. The following table shows the per capita receipt and expenditure by size class of town.

TABLE No. 2

Per capita receipt and expenditure by size class of towns

Size Class of Town	Number of Towns	Per capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total Receipt	Receipt through taxes	Receipt from all other sources	Total expenditure	Expenditure on public health and conveniences	Expenditure on public institutions	Expenditure on all other aspects
I 100,000 and over	1	60.02	32.54	27.48	34.36	10 68	5 97	17.71
II 50,000 to 99,999	..	..	..	..	..	..	..	..
III 20,000 to 49,999	1	27.87	..	27.87	27.87	16.57	..	11.30
IV 10,000 to 19,999	4	12.65	9.58	3.07	13.25	2.11	0.55	10.59
V 5,000 to 9,999	5	9.70	4.51	5.19	6.65	1.61	0.02	5.02
VI Below 5,000	..	..	..	..	..	..	..	..

It would be seen from the above figures that the per capita receipt decreases *pari passu* with the decline in population size, the highest being in Class I towns (Rs. 60.02) and the lowest being in Class V towns where it is Rs. 9.70. similarly, the per capita receipt through taxes diminishes *pari passu* with the decline in population size, the highest being in Class I size towns (Rs. 32.54) and the lowest in Class V towns (Rs. 4.51). Receipt from taxes is nil in the only town falling in Class III (Ukai) owing to the fact that no taxes are levied from the residents of the township which is maintained by the Public Works Department of the State Government. Per capita receipts from other sources are highest in Class III towns (Rs. 27.87) closely followed by Class I town (Rs. 27.48). The lowest per capita receipts from other sources is noticed in Class IV towns where it is Rs. 3.07.

The expenditure side of the table would also show that the per capita expenditure decreases *pari passu* with the decline in population size, the highest being in Class I town (Rs. 34.36) followed by Class III towns (Rs. 27.87). It is the lowest in Class V towns (Rs. 6.65). Per capita expenditure on public health and conveniences is highest in Class III towns (Rs. 16.57) followed by Class I towns (Rs. 10.68). It is very low in Class IV and V towns (Rs. 2.11 and Rs. 1.61 respectively). Per capita expenditure on public institutions is highest in Class I town at Rs. 5.97. It is, however, very low in Class IV and Class V towns at Rs. 0.55 and Rs. 0.02 respectively. Per capita expenditure on all other aspects diminishes *pari passu* with the decline in population size of the towns being highest in Class I towns (Rs. 17.71) and lowest in Class V towns (Rs. 5 02).

Note on Statement IV

Statement IV shows the civic and other amenities available in the town. The following abbreviations are used in the statement.

Column 3

Road length	**Abbreviation**
1. Pucca Road	PR
2. Kutcha Road	KR

Column 4

System of sewerage/drainage

1. Sewer	S
2. Open Surface Drainage	OSD
3. Kutcha Drainage	KD
4. Cess Pool	CS
5. Pit System (or soak pits)	PT

Column 8

Method of disposal of night soil

1. Head Load	HL
2. Baskets	B
3. Wheel Barrows	WB
4. Septic Tank Latrines	ST
5. Sewerage	S
6. Soak Pits or Leaching Pits	PT
7. Tractor, Trailor, Trolleys or Night Soil Tankers	T

Column 9

Source of protected water supply

1. Tap Water	T
2. Tube Well	TW
3. Well Water	W
4. Tank Water	Tk
5. River	R
6. Fountain	F
7. Canal	C
8. Others	O

It can be seen from the table that only two towns of the district viz., Surat and Ukai have sewers for drainage of waste water. Five towns have open surface drainage whereas the rest of the towns have soak pits for disposal of waste water. Water borne latrines are noticed in many towns but service latrines outnumber water borne ones in all the towns except Surat and Ukai. Night soil is disposed off through sewers only in Surat whereas the head load system is yet prevalent in a large number of the towns. There are five such towns in the District. Wheel-barrows are used in five towns for transportation of night soil, whereas night soil tankers are used in two towns for this purpose. Septic tank latrines themselves solve the problem of disposal of night soil in Ukai town. Protected water supply is available in all the towns of the district. Only four towns have fire fighting services, while the rest of the seven towns are devoid of this facility. All the towns of the district are electrified.

Details regarding domestic, commercial, industrial and other connections are given in the Statement. The following definitions have been applied for each of the terms used.

1. Domestic

(i) Heat and Power

Service to a household : supply to cooking ranges, refrigerators, air conditioners, etc., used in the household.

(ii) Lights and Fans

Service to a house which needs only lighting and fan connections.

2. Commercial

(a) Heat and Power

The same as 1 (i) except that the use is for commercial purpose i.e. shops, restaurants, etc.

(b) Lights and Fans

Same as 1 (ii) above except that the use is for commercial purposes i.e. shops, restaurants, etc.

3. Industrial

Power service to any installation at

(i) Low and medium Voltage

Upto 100 HP load for use in establishments such as flour mills, oil mills, ice factories, etc.

(ii) High voltage

Connections given for industrial purpose at a voltage of 11 KV and above.

4. *Street lighting*

Power service given for providing light in the streets of a village or town.

5. Others

(i) Irrigation and Agricultural dewatering

Power given to farmers for pumping water for agricultural purpose.

(ii) Public water supply and sewerage pumping

Power service given for pumping and/or preparation of potable water supply in villages/ towns and for pumping sewerage in the villages or towns.

Note on Statement V

The statement gives details relating to medical, educational, recreational and other cultural facilities in the town. In the case of medical institutions only Government, Semi-Government and charitable institutions have been covered. The abbreviations used in the statement to denote the various types of medical and educational institutions are explained below :-

Column 3 :

Type of medical institutions	Abbreviation
1. Hospital	H
2. Dispensary	D
3. T. B. Clinic	TBC
4. Health Centre	HC
5. Nursing Home	NH
6. Maternity Centre	M
7. Child Welfare Centre	CW
8. Family Planning Centre	FC
9. Other Medical Institutions	O

Column 5 :

Type of College	Abbreviation
1. Arts College only	A
2. Science College only	S
3. Commerce College only	C
4. Arts & Science College only	AS
5. Combined Arts Science and Commerce College	ASC
6. Arts & Commerce College only	AC
7. Law College	L
8. Law & Education College	LE

There is one town viz., Katargam without any kind of medical facility. Hospital facilities are available in five towns. Three towns have maternity centres, one town has tuberculosis clinic and five towns have family planning centres. The following table gives particulars of the number of beds available in each town.

TABLE No. 3

Medical Facilities

Sl. No.	Name of Town	Number of beds in medical institutions	Number of beds per 1000 population
1	Bardoli	134	6.96
2	Kathor	21	2.46
3	Kosamba	...	...
4	Mandvi	7	0.66
5	Olpad	8	1.27
6	Songadh	7	0.98
	Surat City Agglomeration		
7	Surat	803	1.70
8	Katargam	...	...
9	Udhna	7	0.52
	Sub Total of Agglomeration	*810*	*1.64*
10	Ukai	20	0.64
11	Vyara	12	0.63
	Total	1,019	1.69

The total number of beds in the medical institutions of the towns of the District numbers 1,019. The highest number of beds (803) is to be found in Surat, followed by Bardoli (134). The rest of the towns have beds varying from a minimum of 7 in Mandvi and Songadh to a maximum of 21 in Kathor. It can also be seen that Kosamba, Mandvi, Olpad, Songadh, Katargam and Udhna are lowest in the ladder. There are no indoor Medical facilities in Kosamba and Katargam. The District average for all the towns shows that there are 1.69 beds per 1,000 population. Bardoli (6.96), Kathor (2.46) and Surat (1.70) are above the district average whereas the rest of the towns are below the district average. As regards the towns of Surat City agglomeration the number of beds per 1,000 comes to 1.64 which is below the district average. Among the towns of the agglomeration Surat proper is above the

aggregate average, whereas Udhna is below the average. There are no medical facilites in Katagam town as discussed earlier.

Only Surat City has medical and engineering colleges and a Polytechnic. Only Surat and Bardoli have non-technical colleges. The rest of the towns are devoid of any college facilities. Only three towns have other recognised shorthand, typewriting or other such vocational institutions.

Primary and Secondary school facilities are available in all the towns of the district except Kosamba and Ukai which do not have any secondary school. The following table gives details of the number of primary and secondary schools per 1,000 population.

TABLE No. 4

Secondary and Primary schools per 1,000 population

Sl. No.	Name of the town	Number per 1,000 population	
		Secondary school	Primary school
1	Bardoli	0.104	0.208
2	Kathor	0.234	0.234
3	Kosamba	...	0.130
4	Mandvi	0.095	0.258
5	Olpad	0.159	0.159
6	Songadh	0.140	0.279
	Surat City Agglomeration		
7	Surat	0.077	0.263
8	Katargam	0.126	0.251
9	Udhna	0.075	0.075
	Average of Agglomeration	*0.079*	*0.258*
10	Ukai	...	0.096
11	Vyara	0.159	0.317
	Average	0.081	0.247

The average number of secondary schools per 1,000 population for all the towns is 0.081. It can be seen that the following towns viz., Bardoli, Kathor, Mandvi, Olpad, Songadh, Katargam and Vyara are above this average whereas Surat and Udhna are below the average.

The average number of primary schools per 1,000 population for all the towns comes to 0.247. The towns above the average are Mandvi, Songadh, Surat, Katargam and Vyara. The rest of the towns fall below the average. As regards the towns of Surat city agglomeration it is noticed that the nnmber of secondary schools per 1,000 population comes to 0.079 which is below the district average Individually, only. Katargam is above the aggregate average whereas Surat and Udhna fall below the average. The number of primary schools per 1,000 population for all the agglomerated towns taken together comes to 0.258 which is above the district average. Individually, Surat is above this average whereas rest of the towns are below this average.

Only two towns of the district have stadia. Cinema/Cinemas are found in six towns. Auditoria or drama halls are found in three towns. Public libraries are available in all the towns except Kosamba.

Note on Statement VI

Statement VI gives details relating to trade, commerce, industry and banking in the towns. All the towns of the district have banking facilities. Agricultural cooperative credit societies are noticed in all the towns of the district, except Surat and Udhna. Non-agricultural cooperative credit societies are also existant in all the towns except Katargam.

In Surat district there are two important industrial centres. Surat itself is an ancient city and is famous for its traditional industries like Jari goods and Art Silk fabrics. It's neighbour Udhna is a modern industrial centre with the establishment of a cooperative industrial estate producing mainly allied industrial goods of a wide range. Surat, with its powerlooms and jari manufacturing units in almost every household, may be said to be the biggest small-scale industries centre of Gujarat. Surat has always been famous for the production of art silk fabrics and jari goods since olden times. Formerly only pure silk was woven on hand looms but with the introduction of synthetic fibres and modern technology the industry has become a major user of power looms producing a wide variety of art silk fabrics.

Like the art silk industry, the jari industry is also an ancient cottage industry of Surat. The present jari industry is modernised and today meets the demands of almost the entire country. Famous Banarasi and Kanjeevaram sarees proudly carry the jari of Surat.

A third important industry of recent origin is the diamond cutting and polishing industry. This work is also carried on in small scale units usually employing 5 to 10 workers. Availability of skilled workers has induced merchants to set up units or deal with units cutting and polishing diamonds in Surat.

The other important industrial centre in the district is Udhna where a wide range of allied industrial goods are manufactured in the cooperative industrial estate established in 1957. Important commodities manufactured in Udhna are art silk fabrics, automobile parts and machine tools.

Bardoli is yet another town which has acquired importance in recent years owing to the establishment of a sugar factory. Other important industrial activities are the ginning and pressing of cotton and the manufacture of cement products.

Diamond cutting and polishing has also spread in other towns around Surat. One therefore, finds diamond manufacture in Kathor town. Catechue, medicines and chemicals are manufactured in Vyara.

Important commodities exported from industrial towns like Surat and Udhna are art silk fabrics, diamonds, jari goods, from Surat and electrical equipments, micro metre stands, dial stands and art silk fabrics from Udhna.

Mostly agricultural products like foodgrains, bananas, vegetables, groundnut oil, and cotton, are exported from other towns. Bananas and vegetables are exported from Bardoli and Katargam. Cotton is exported from Kosamba, Olpad and Songadh whereas groundnut oil is exported from Mandvi, Songadh and Vyara.

Articles of daily consumption like foodgrains, oil, cloth and sugar are seen to have been imported in most of the towns of the district except Surat and Udhna where industrial raw materials are seen to have been imported.

Notes and explanations on village directory

A brief outline on each of the statement of the Town Directory has been given in the earlier pages. The handbook also incorporates, besides the town directory, villagewise particulars regarding different types of amenities and land use data for 1969 for each of the villages in the district in the Village Directory section of the Handbook. In Surat district there are 1,306 villages distributed in 13 talukas. The following is the distribution of the villages in the various talukas/mahals of the district.

Name of Taluka	Number of villages
(1) Chorasi	108
(2) Olpad	106
(3) Kamrej	69
(4) Mangrol	150
(5) Mandvi	148
(6) Songadh	177
(7) Uchhal	68
(8) Nijhar	89
(9) Vyara	149
(10) Valod	41
(11) Bardoli	85
(12) Mahuva	67
(13) Palsana	49
Total	**1,306**

Six talukas cover more than 100 villages each, whereas the remaining talukas have less than 100 villages each. Songadh taluka has the largest number of villages with 177 whereas Valod has the least number of villages with only 41.

The following abbreviations have been used in the Village Directory section of the Handbook for the terms listed in Col. 2 of the Statement below:-

Column Number	Item	Abbreviation
4	Primary School	Pr.S
	Secondary School	Sec.S
	College	C
	Industrial School	IS
	Training School	Tr.S
	Other Educational Institutions	OS
5	Hospital	H
	Maternity Home/Centre	M
	Child Welfare Centre	CW
	Health Centre	HC
	Dispensary	D
	Family Planning Centre	FC
6	Electricity for any purpose	E
	Electricity for Agricultural purpose only	E(Ag)
7	Tap Water	T
	Well	W
	Tank	Tk
	Tube Well	TW
	River	R
	Fountain	F
	Canal	C
	Other	O
	Not Available	N.A.
8	Pucca Road	PR
	Kutcha Road	KR
	Railway Station	T
	Navigable River	Ng(R)
	Navigation Canal	Ng(C)

	Telegraph Office	TO
	Post & Telegraph Office	PTO
	Telephone	Phone
12	Government Canal	C
	Private Canal	C
	Tube Well	TW
	Other Wells	W
	Tank	Tk
	River	R
	Waterfall	WF
	Other Sources	O

(a) Taluka Abstract of Amenities

A talukawise abstract of the educational, medical and other amenities available at the villages is given in an Appendix to the Village Directory. It can be seen from the abstract that 1,059 villages have primary school facilities. There are thus 247 villages without primary schools of which 88 are deserted villages. The details of villages without a primary school are as follows:—

Sl. No.	Name of Taluka	Number of villages without primary school	Number of deserted villages
(1)	Chorasi	19	7
(2)	Olpad	11	5
(3)	Kamrej	12	..
(4)	Mangrol	23	...
(5)	Mandvi	37	15
(6)	Songadh	45	4
(7)	Uchhal	31	26
(8)	Nijhar	31	26
(9)	Vyara	13	1
(10)	Valod	4	1
(11)	Bardoli	11	3
(12)	Mahuva	5	...
(13)	Palsana	5	..
	Total	247	88

Generally there is one school in every village except some big villages which have more than one school. It would be seen from the above table that in Songadh taluka a large number of villages are devoid of this amenity (42 excluding 4 uninhabited villages).

Only 72 villages or 5.91 per cent of the total villages of the district have secondary schools and 133 or 10.92 per cent of the total have other educational institutions.

It can be seen that only 80 villages or 6.57 per cent have dispensaries. Only 12 villages have the facility of hospitals and 22 villages have maternity homes. Only 3 villages have child welfare centres. 47 villages have primary health centres (including sub-centres) and 45 villages have family planning centres. Thus only a limited number of villages in the district have medical facilities. Only 241 or 19.79 per

cent of the total villages of the district are electrified.

Ordinary surface wells are the main source of drinking water facility. Only 234 villages or 19.21 per cent of the total have tap water supply. Other sources of water supply include tanks (174 villages), rivers (364 villages), canals (25 villages) and others (62 villages).

Only 414 villages or 33.99 per cent of the total are connected with pucca road. 392 villages or 32.18 per cent have post offices, and only 31 villages have both post and telegraph offices. 41 villages in the district have telephones.

(b) Bus Facilities

The details of villages connected by bus facilities have been incorporated in the village directory. Bus facility is considered to be available at the village if a bus stop is available within one mile from the village.

It would be seen from the following figures that 359 villages or 29.48 per cent of the total are connected by bus services throughout the year. There are 486 villages or 39.90 per cent of the total which enjoy this amenity only during the fair season. There are yet 373 villages or nearly 31 per cent of the total number in the district which are devoid of this amenity even during fair season. A talukawise break up of villages connected by bus services is given hereunder.

Villages connected by Bus services

	Name of Taluka/ Mahal	Total number of inhabited villages	Number of villages having bus facilities for the whole year	Number of villages having bus facilities during fair season only	Number of villages without bus facilities
	1	2	3	4	5
1	Chorasi	101	43(42.57)	47(46.54)	11(10.89)
2	Olpad	101	26(25.74)	53(52.48)	22(21.78)
3	Kamrej	69	27(39.13)	29(42.03)	13(18.84)
4	Mangrol	150	29(19.33)	68(45.33)	53(35.34)
5	Mandvi	133	39(29.32)	29(21.81)	65(48.87)
6	Songadh	173	18(10.41)	59(34.10)	96(55.49)
7	Uchhal	42	14(33.33)	26(61.91)	2(4.76)
8	Nijhar	63	5(7.94)	33(52.38)	25(39.68)
9	Vyara	148	55(37.16)	25(16.89)	68(45.95)
10	Valod	40	17(42.50)	17(42.50)	06(15.00)
11	Bardoli	82	36(43.90)	46(56.10)	-(—)
12	Mahuva	67	31(46.27)	30(44.78)	06(8.95)
13	Palsana	49	19(38.78)	24(48.98)	06(12.24)
	Total :-	1,218	359(29.48)	486(39.90)	373(30.62)

(88 uninhabited villages are not included).
(figures in brackets indicate percentage of total villages in each Taluka).

It would be seen that the pecentage of villages having bus facilities throughout the year varies from a minimum of 7.94 per cent in Nijhar taluka to a maximum of 46.27 per cent in Mahuva taluka. Eight talukas viz., Chorasi (42.57 per cent), Kamrej (39.13 per cent), Uchhal (33.33 per cent), Vyara (37.16 per cent), Valod (42.50 per cent), Bardoli (43.90 per cent), Mahuva (46.27 per cent) and Palsana (38.78 per cent) are above the district average whereas the remaining talukas fall below it.

Neraly 40 per cent of the villages in the district enjoy bus facilities only during the fair season. This percentage varies considerably from taluka to taluka. It is minimum in Vyara taluka being only 16.89 per cent and maximum in Uchhal taluka being 61.91 per cent.

There are 374 villages in the district which are devoid of this amenity. The maximum number of such villages (96) are noticed in Songadh taluka.

It is followed by Vyara (68), Mandvi (65) and Mangrol (53). In the rest of the talukas it varies from a minimum of 2 villages in Uchhal talukas to 25 villages in Nijhar taluka. There is no such village in Bardoli taluka.

(c) Distribution of villages by area

The distribution of villages by their areas is given in the following table in 8 size groups.

TABLE No. 5

Distribution of the villages by their areas in acres

Sl. No.	Area in Acres	Number of villages
1	2	3
1	50 acres or less	2(0.15)
2	51 - 100	9(0.70)
3	101 - 200	17(1.31)
4	201 - 500	167(12.92)
5	501 - 1000	462(35.73)
6	1001 - 2000	477(36.89)
7	2001 - 5000	141(10.91)
8	5001 acres and above	18(1.39)
	Total :	1,293 @

@ (Total number of villages in the district is 1,306. 13 villages whose area is amalgamated with other villages are not included.)

Figures in brackets indicate percentage.

It would be seen that the largest number of villages are noticed in the 1,001 to 2,000 acres group (36.89 per cent) followed by the acre group 501-1,000 (35.73 per cent). These two groups together account for 72.62 per cent of the total villages in the district. 12.92 per cent of the total villages of the District are found in the acre group 201-500. A sizeable number of villages (10.91 per cent) are found in the 2,001 -5000 acre group. Only 28 or 2.16 per cent villages are of below 200 acres area each. There are 18 villages where the area per village is more than 5,000 acres.

(d) Distribution of villages by Educational Amenities

Table No. 6 below shows the distribution of villages having educational amenities by distance from the nearest town.

TABLE No. 6

Distribution of villages having educational amenities by distance from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Number of villages having				
			Primary school	Middle school	Higher secondary school	College	Others
1	5 km. or less	155	137(88.39)	...	6(3.87)	3(1.94)	14(9.03)
2	6 - 10 km.	231	205(88.74)	...	13(5.63)	...	34(14.72)
3	11 - 15 km.	238	212(89.08)	...	17(7.14)	...	26(10.92)
4	16 - 25 km.	339	290(85.55)	...	26(7.67)	...	34(10.03)
5	26 - 50 km.	194	166(85.57)	...	10(5.15)	...	18(9.28)
6	51 - 100 km.	61	49(80.33)	...	...	...	7(11.48)
7	101 - 200 km.	...	...	...	...	...	...
8	201 km. and above	...	...	...	...	...	...
	Total	1,218 @	1,059(86.95)	...	72(5.91)	3(0.25)	133(10.92)

@ (88 uninhabited villages are not included).

(Figures in brackets indicate percentage to total number of villages in each distance group.)

The above table will show that 88.39 per cent of the villages situated within a distance of 5 km. from the nearest town have a primary school. This proportion marginally increases with the increase in the distance from the nearest town in the subsequent two distance groups (upto 15 km.). Thereafter this proportion declines to 85.55 per cent for the villages situated within 16 to 25 km. and shows almost the same proportion (85.57 per cent) in the distance group of 26 to 50 km. Only 80.33 per cent of the villages situated beyond 50 km. have primary school facilities.

It would also be seen that the proportion of secondary schools is highest in the distance group of 16 to 25 km. (7.67 per cent of the total villages in that group). It is followed by the distance group of 11 to 15 km. (7.14 per cent). The lowest percentage is noticed in the villages situated within a distance of 5 km. from the nearest town (3.87 per cent). It would also be seen that the percentage of villages having other schools is highest in the distance group of 6 to 10 km. (14.72 per cent) followed by distance groups of 51 to 100 km. (11.48 per cent) and 11 to 15 km. (10.92 per cent). The lowest percentage is observed in the villages situated within a distance of 5 km. from the nearest town (9.03 per cent).

(e) Medical Facilities

Distribution of medical institutions per 100 sq. km. is given in the following table.

TABLE No. 7

Medical facility per 100 sq. km.

Sl. No.	Name of Taluka/ Mahal	Total area (in sq. km.)	Number of medical institutions of any kind per 100 sq. km.
1	Chorasi	583	6.17
2	Olpad	687	2.77
3	Kamrej	379	5.54
4	Mangrol	782	1.53
5	Mandvi	731	3.15
6	Songadh	853	1.52
7	Uchhal	324	3.40
8	Nijhar	400	1.50
9	Vyara	813	2.58
10	Valod	202	5.45
11	Bardoli	379	5.28
12	Mahuva	354	1 13
13	Palsana	201	5.97

Table 7 highlights the fact that the highest number of medical institutions per 100 sq. km. in the rural areas of the district are noticed in Chorasi taluka with 6.17 per cent, closely followed by Palsana mahal with 5.97, Kamrej taluka with 5.54, Valod mahal with 5.45 and Bardoli taluka with 5.28. The least number of medical institutions per 100 sq. km. is noticed in Mahuva taluka (1.13), just below Nijhar taluka with 1.50 and Songadh taluka with 1.52. The rest of the talukas have medical institutions per 100 sq. km. varying from a minimum of 2.58 in Vyara taluka to a maximum of 3.40 in Uchhal taluka.

(f) Electricity

Only 241 villages have electricity. The distribution of these villages by their distance from the nearest town is as under :-

TABLE No. 8

Distribution of villages with electricity and distance from the nearest town

Sl. No.	Distance from the nearest town	Total Number of villages	Number of villages with electric power supply
1	2	3	4
1	5 km. or less	155	54(34.84)
2	6-10 km.	231	66(28.57)
3	11-15 km.	238	43(18.07)
4	16-25 km.	339	53(15.63)
5	26-50 km.	194	24(12.37)
6	51-100 km.	61	1(1.64)
7	101-200 km.	..	..
8	201 km. and above	..	..
	Total	@ 1,218	241(19.79)

@ 88 uninhabited villages are not included.

(Figures in bracket indicate percentage to total number of villages in each distance group.)

Table 8 shows that the Percentage of villages having electric power supply to the total villages in each distance group diminishes *pari passu* with the increase in the distance of the village from the nearest town. It is highest in the villages situated within a distance of 5 km. from the nearest town (34.84), followed by the next distance group of 6 to 10 km. with 28.57 per cent. The percentage gradully diminishes in the subsequent distance groups and reaches the lowest porportion in the villages in the distance group of 51 to 100 km. (1.64 per cent).

(g) Communications

The following table gives the distribution of villages having different type of communication facilities by distance from the nearest town.

TABLE No. 9

Distribution of villages with different communication facilities and distance from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Number of villages connected by					
			Pucca Road	Kutcha Road	Pucca road and river	Pucca road and rail	Kutcha road and rail	Others
1	2	3	4	5	6	7	8	9
1	5 km. or less	155	67(43.23)	49(31.61)	9(5.81)	15(9.67)	7(4.52)	8(5.16)
2	6 - 10 km.	231	97(41.99)	106(45.89)	6(2.60)	7(3.03)	12(5.19)	3(1.30)
3	11 - 15 km.	238	67(28.15)	149(62.61)	4(1.68)	6(2.52)	9(3.78)	3(1.26)
4	16 - 25 km.	339	65(19.17)	242(71.39)	2(0.59)	14(4.13)	4(1.18)	6(1.80)
5	26 - 50 km.	194	41(21.13)	139(71.65)	..	5(2.58)	7(3.61)	..
6	51 - 100 km.	61	5(8.20)	50(81.96)	..	3(4.92)	3(4.92)	..
7	101 - 200 km.	..	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..	..
	Total @	1,218	342(28.08)	735(60.34)	21(1.72)	50(4.11)	42(3.45)	20(1.64)

@ 88 Uninhabited villages are not included.

(Figures in brackets indicate percentage of the total number of villages in each distance group.)

Table 9 shows that the amenity of pucca road diminishes *pari passu* with the increase in distance of villages from the nearest town except in the distance group of 26 to 50 km. where it is higher (21.13 per cent) than that in the distance group of 16 to 25 km. (19.17 per cent) The highest percentage is noticed in the villages situated within a distance of 5 km. from the nearest town (43.23 per cent), whereas the lowest percentage is found in the distance group of 51 to 100 km. (8.20 per cent). *per contra*, the percentage of Kutcha road facility increases *pari passu* with the increase in distance of villages from the nearest town. The percentage increases gradually from 31.61 in the villages within a distance of 5 km. to 81.96 in the distance group of 51 to 100 km. A similar trend is observed in the case of combined amenity of pucca road and river where the percentage is highest in the villages within a distance of 5 km. from the nearest town (5.81) the lowest being in the distance group of 16 to 25 km. (0.59). No trend is indicated in the other cases.

(h) Number of Post Offices

The following table gives the distribution of post offices per 100 sq. km.

TABLE No. 10

Number of post offices per 100 sq. km.

Sl. No.	Name of taluka/mahal	Total area in sq. km.	Number of post offices per 100 sq. km.
1	Chorasi	583	12.35
2	Olpad	687	5.68
3	Kamrej	379	7.12
4	Mangrol	782	5.24
5	Mandvi	731	4.65
6	Songadh	853	3.40
7	Uchhal	324	2.47
8	Nijhar	400	3.00
9	Vyara	813	4.92
10	Valod	202	7.43
11	Bardoli	379	7.92
12	Mahuva	354	6.78
13	Palsana	201	10.45

Table 10 shows that the largest number of post offices per 100 sq. km. is in Chorasi taluka (12.35) followed by Palsana mahal (10.45), Bardoli taluka (7.92), Valod mahal (7.43) and Kamrej taluka (7.12). The least number of post offices per 100 sq. km. is in Uchhal taluka where the incidence is only 2.47 post offices per 100 sq. km. In the rest of the talukas the incidence varies from a minimum of 3.00 post offices per 100 sq. km. (in Nijhar taluka) to a maximum of 6.78 (in Mahuva taluka).

(i) Staple Food

Jowar and Rice constitute the staple food of the District. Wheat is also a staple food of some villages in Chorasi, Olpad, Kamrej, Mangrol, Mandvi, Nijhar and Bardoli talukas.

Distribution of villages by staple food

Sl. No.	Name of taluka	No. of villages reporting staple food						
		Bajri	Jowar	Wheat	Rice	Maize	Kodra	Nagli
1	Chorasi	12	101	85	99	..	..	..
2	Olpad	20	99	95	101	..	..	..
3	Kamrej	..	69	64	67	..	..	..
4	Mangrol	14	148	63	147	17	..	..
5	Mandvi	..	131	33	131	..	14	1
6	Songadh	9	148	15	172	3	95	100
7	Uchhal	..	33	..	37	1	26	20
8	Nijhar	1	56	61	48	4	..	..
9	Vyara	..	147	7	148	..	..	5
10	Valod	..	..	..	..	..	..	..
11	Bardoli	..	82	67	81	..	..	..
12	Mahuva	..	67	2	67	..	..	..
13	Palsana	..	49	46	49	..	..	..

(j) Land Use

The following table gives the percentage of average cultivable waste per village to average cultivated land per village by distance from the nearest town.

The cultivable waste land inlcudes pasture and grazing land and area under miscellaneous trees and groves but does not include orchards.

TABLE No. 11

Percentage of average cultivable waste per village to average cultivated land per village by distance group from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Total cultivated land (in acres)	Average cultivated land per village (in acres)	Total cultivable waste (in acres)	Average cultivable waste per village (in acres)	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7	8
1	5 km. or less	155	135,116	871.7	12,931	83.4	9.57
2	6 - 10 km.	231	225,693	977.0	16,765	72.1	7.38
3	11 - 15 km.	238	204,580	859.6	19,090	80.2	9.33
4	16 - 25 km.	339	295,764	872.5	28,847	85.1	9.75
5	26 - 50 km.	194	156,866	808.6	12,527	64.6	7.99
6	51 - 100 km.	61	50,950	835.2	5,885	96.5	11.55
7	101 - 200 km.	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..
	Total	1,218	1,053,171	864.7	96,045	78.9	9.12
	Uninhabited Villages	88	50,950	..	5,903	..	..
	Grand Total	1,306	1,104,121	845.4	101,948	78.1	9.24

Table 11 shows the highest average cultivated land per village to obtain in the distance group of 6 to 10 km. (977.0 acres) followed by the distance group of 16 to 25 km. (872.5 acres) and the villages within a distance of 5 km. (871.7 acres). The lowest average cultivable land per village is noticed in the distance group of 26 to 50 km. (808.6 acres).

The average cultivable waste per village is highest in the distance group of 51 to 100 km. (96.5 acres) followed by the distance group of 16 to 25 km. (85.1). The lowest average is found in the distance group of 6 to 10 km. being 72.1 acres.

The percentage of average cultivable waste per village to the average cultivated land per village is highest in the distance group of 51 to 100 km. where it is 11.55 per cent and is lowest in the distance group of 6 to 10 km. (7.38).

*Includes area of village Rakab.

Note : —

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Includes area of 'Odhan'.

† Includes area of village 'Sultanpur'.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of primary, secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

*Area amalgamated with village Vadpada (L.C. No. 147).

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Includes area of village 'Vashigam'.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of primary, secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note:—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of primary, secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

*Includes area of village 'Gosarda.'

†Includes area of village 'Nagla'.

Note : —

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

PART X-B

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1971 Census provides information in respect of each village in rural area and town/ward/enumerator's block in urban area. It gives information about the area of the village in acres and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literate and educated persons. The entire population of each village/urban enumerator's block is divided into nine industrial categories of workers and non-workers as under :—

I Cultivators

II Agricultural Labourers

III Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities

IV Mining and Quarrying

V Manufacturing, Processing, Servicing and Repairs
(a) Household Industry
(b) Other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

X Non-workers

The sexwise break-up of total workers (industrial category I to IX) have been presented, in addition to similar break-up for each industrial category of Worker and Non-worker.

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :-

1	Municipal Corporation	MC
2	Municipality	M
3	Non-Municipal Area	NM
4	Nagar Panchayat	NP
5	Village Panchayat	VP
6	Cantonment	Cantt.
7	Not Available	N A
8	Outgrowth	O G

The following conversion factor has been used for converting acres into Km.^{2}

Acres x 0.004047 = Km.^{2}

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.

† Included in the area of Amroli village.

‡ Includes area of Kundal.
