VAMSADHARA PROJECT

The motif given on the cover page brings out the consolidated model of the Vamsadhara Project Head Works of Stage-I and Stage-II. This is a Major Irrigation Scheme envisaged to harness the waters of Vamsadhara River (An interstate river flowing through Orissa and Andhra Pradesh) and brings relief to the famine stricken areas in Srikakulam District and augment the Irrigation potential.

Vamsadhara River takes its rise in the Eastern Ghats of Koraput District of Orissa State and runs along the boundary between Orissa and Andhra Pradesh for 29 Kms. starting from 3 Kms. above Bathili village in Srikakulam District. Flowing further for about 102 Kms. in Pathapatnam, Narasannapet and Srikakulam taluks, it empties into the Bay of Bengal near Kalingapatnam.

The Vamsadhara Project, now under construction across the Vamsadhara, is located at a distance of about a kilometre south-west of Gotta Village in Pathapatnam taluk. The necessity of this project, as a scheme of insurance against famines in the district, was conceived as early as a century ago by Captain Rundall under the aegis of the East India Company. But the proposals could not take final shape due to the non-co-operative attitude of the Zamindars of the area. With the abolition of estates under the Madras Estates (Abolition and Coversion into Ryotwari) Act, 1948 (later on adopted by the Government of Andhra Pradesh), the proposals for a comprehensive Vamsadhara Project were revived and it was decided to execute the project in two stages as detailed below :

Stage-I :

Stage-I comprises of the construction of a Barrage across Vamsadhara River and Excavation of Left Main Canal 108 Kms. long with a net work of distributory system, to irrigate an extent of 59,990 Hectares in 316 villages of Pathapatnam, Srikakulam, Narasannapet, Tekkali, Amadalavalasa, Kotabommali and Palasa taluks. The work of Stage-I was started in the year 1970. The cost of the scheme is estimated at Rs. 37.04 crores as of 1980-81 rates. The work on construction of Gotta Barrage is completed. The excavation of Left Main Canal is almost completed upto 70 Kms. As the excavation of the canal progressed, potential is created partially and waters were progressively being supplied for irrigation since 1977. So far, water is supplied for 28,720 Hectares.

Stage-II :

The Stage-II is pending for want of clearance from Central Water Commission, as the river is an interstate one.

The total cost of the Scheme for Stage-II is estimated as Rs. 148.30 Crores. The Stage-II envisages construction of (i) Barrage at Neradi across Vamsadhara (ii) Flood Flow Canal taking off from Neradi Barrage including Singidi and Parapuram balancing reservoirs (iii) A reservoir across minor valley near Hiramandalam (iv) A link Canal connecting the Hiramandalam reservoir and Gotta Barrage and (v) excavation of Right Main Canal.

A total extent of 43,415 Hectares in 204 villages of Pathapatnam, Srikakulam and Palakonda taluks will be brought under cultivation under Stage-II.

Thus the Vamsadhara Project will prove to be a boon to Srikakulam District in particular and Andhra Pradesh State in general.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *Inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory. Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class I and Class II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *Inter alia* with this view. A significant addition is class of town

in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part — A of the volume contains village and town directory and Part — B the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. S. Jaya Rao, I. A. S., Director of Census Operations, Andhra Pradesh, Hyderabad on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Dr. N. G. Nag, Deputy Registrar General (Social studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head-quarters under the guidance of Shri M. M. Dua, Senior Research Officer, I am thankful to all who have contributed in this project.

NEW DELHI
The 26th April, 1982.

P. PADMANABAH
Registrar General, India

PREFACE

District Census Handbook is the most important of the local publications brought out by the Census Organisation. This is a joint venture of the State and Central Governments. The chapter on **HISTORY OF DISTRICT CENSUS HANDBOOK** details its history and growth right from the inception of Census in 1872, while the foreword of the Registrar General and Census Commissioner, India highlights the scope and significance of the tremendous improvements brought about from time to time since 1951 to 1981, in the presentation of data, so as to meet the demands of planning and administrative needs of the Governments and the data users. Needless to say that it is of immense use to planners, administrators, academicians, scholars, researchers, social workers, etc.

The restructuring of the format of the Village Directory at the 1981 Census has been done particularly to incorporate the exhaustive data on infrastructure in relation to amenities and land use pattern to meet the needs of micro-level and local area planning for rural areas as well as to meet the Minimum Needs and Revised Minimum Needs programmes of the Planning Commission. It is further intended to help regulating the provision of goods and services and also to enable minimising regional imbalances in the process of development. The formats of the Town Directory have also been modified to meet the requirements of the Minimum Needs programme, by adding statements on civic and other amenities in slums in Class I and Class II Towns, columns on Scheduled Castes and Scheduled Tribes population, adult literacy centres, working women's hostels, etc. In the process of collection of data for this volume, various State and Central Government departments have extended their kind co-operation. The District Census Handbook comprises two parts—Part A — detailed analytical note supported by a number of inset tables based on Census and non-Census data in relation to infrastructure and Part B — Village and Town Directories as well as Primary Census Abstract of Villages and Towns.

In this joint venture of the State and Central Governments, while the collection, processing including compilation, tabulation and finalisation of the write up have been done by the Directorate of Census operations, Andhra Pradesh, under the Ministry of Home Affairs, Government of India, the paper and printing costs are borne by the Government of Andhra Pradesh State. I offer my grateful thanks to Sri S.R. Rama Murthy, I. A. S. (Retd.), former Chief Secretary of the Government of Andhra Pradesh and Sri M. Appa Rao, Joint Secretary (Retd.), General Administration (Elections) Department for the kind co-operation and encouragement extended by them at the time of 1981 Census. Grateful thanks are also due to Sri Shravan Kumar, I. A. S., the present Chief Secretary, Sri B. N. Jaya Simha, I. A. S., Special Chief Secretary, General Administration Department and Chief Electoral Officer who is also in charge of Census and to Sri P. V. Gopala Rao, I. A. S., Deputy Secretary, General Administration Department, for extending their kind co-operation. The Director of Printing and Stationery has been helpful in selecting good private presses for printing the Handbooks.

My grateful thanks are due to Sri S. S. Jaya Rao, I. A. S., Director of Census Operations, Andhra Pradesh, under whose direction the entire Census Operations Programme was successfully carried out in the State. He has retired from service after superannuation in April, 1984. I am extremely grateful to Sri P. Padmanabha, I. A. S., former Registrar General and Census Commissioner of India, whose constant guidance and advice were a source of strength and to Dr. N. G. Nag, Deputy Registrar General (Social Studies) who has formulated the contents of the Handbook in detail. Grateful thanks are also due to Dr. B. K. Roy, Deputy Registrar General (Map) under whose guidance the Map Division has scrutinised the district map and the taluk maps evincing very keen interest and to Sri M. M. Dua, Senior Research Officer

(now Deputy Director), who has scrutinised the data presented here, with very minute care. I feel it a proud privilege and bounden duty to offer my sincere and grateful thanks to Sri V. S. Varma, I. A. S. Registrar General and Census Commissioner, India and to Sri V. P. Pandey, Joint Registrar General, India, for their constant guidance and advice in both administrative and technical matters.

In the finalisation of the write up, compilation and processing of data for the volume, I have been ably assisted by Sri B. Satyanarayana, as Deputy Director and as Assistant Director of Census Operations, with the assistance of an efficient team led by Smt. P. Lalitha, Investigator who has gained rich experience and specialised this subject. Sri Y. G. Krishna Murthy, Deputy Director of Census Operation and Sri A. C. Reddy then Assistant Director of Census Operations of my office have also involved in themselves in processing of this most important Census Publication. Sri Shyam Deo, Research Officer, ably guided the Map Section in the preparation of various maps included in this publication. I am thankful to all those officials who have contributed in bringing out this voluminous publication.

The following officials who have worked on the present volume of Srikakulam District Census Handbook deserve my thanks for their contribution.

Sri	N.C. Hanumantha Reddy, Tabulation Officer	Drafting, Scrutiny and Supervision of Printing

PART A

ANALYTICAL NOTE

HISTORY

This district originally formed part of the ancient Kingdom of Kalinga which is supposed to have been founded in the 9th century B. C. The name of Kalinga still survives in the sea side village of Kalingapatnam not far from Srikakulam and in early times a place of importance. Kalinga was for many centuries the citadel of Buddhism in India. The good relations of Kalinga with Ceylon were also kept up for many centuries and in 275 A.D. the celebrated tooth of Buddha was said to have been obtained by the king of Ceylon and shifted to Kandy, a place in Ceylon.

In 260 B.C. King Asoka attacked and conquered Kalinga. One of the famous rock edicts shows clearly that it was the remorse that he had felt for the horrors of this campaign which led him in the same year to espouse the Buddhist religion which he afterwards spread throughout India and Ceylon. The edict states that about 150 thousand persons were carried away captive from Kalinga, 100 thousand were slain and many times that number perished. Some of the terms of this inscription show that Kalinga at that time was quite capable of offering considerable resistance even to such a powerful emperor as Asoka, and that its people were a civilized race. For several centuries after this the history of Kalinga was quite obscure. Inscriptions, however, show that in the 6th century A.D. Kalinga was conquered by the Chalukyas of Badami and in the 7th century by their offshoot the Eastern Chalukyas. The result of this latter campaign was the establishment of the Vengi Kingdom (the ruins of the capital can be found six miles north of Eluru) under the Eastern Chalukya King Vishnu Vardhana I (615-33 A.D.). Copper grants of this monarch found at Cheepurupalle show that he once ruled this tract.

The chronicles are continued by the grants of a series of kings who describe themselves as of the Ganga family, Lords of Kalinga, and worshippers of the Gokarnaswami (Siva) on the Mahendragiri hill and as ruling from Kalinganagara, which has been identified with Mukhalingam on the banks of the Vamsadhara, where notable temples and inscriptions have survived.

The Eastern Chalukyas of Vengi appear to have constantly interfered in the affairs of Kalinga, and Vimaladitya of that line seems to have conquered much of it, since an inscription on Mahendragiri states that the Chola king Rajaraja I of Tanjore overthrew him in 999-1000 and set up a pillar of victory on that hill.

The Gangas were followed by a later line of the same name who, as they also worshipped the Gokarnaswami on Mahendragiri and ruled from Kalinganagara, were apparently of the same family. Calculations from dates in copper grants show that they were in power from the end of the 9th century. One of them, Rajaraja, ascended the throne in 1070-71 and reigned eight years, during which time he is said to have helped the Vengi kings against the Cholas, and afterwards defeated both of them and also the ruler of Utkala (Orissa) and other monarchs. Under his son, Anantavaraman-Choda-Ganga, who ruled from 1078 for about 72 years, this family reached the zenith of its power. Many copper grants and inscriptions of this monarch have been found and these state that he replaced on their thrones the fallen kings of Vengi and Orissa, engaged in wars extending from the Ganges in the north to the Godavari in the south and built the famous temple of Jagannath at Puri. He married at least five times and had by them four sons who ruled after him. The country eventually fell to the Eastern Chalukyas of Vengi and their feudatories. The Yadavas of Devagiri (Daulatabad) and the Kakatiyas of Warangal also claim to have humbled Kalinga at this period.

The Simhachalam temple in Vishakhapatnam district contains inscriptions of several of the later Ganga kings but few details regarding them survive. Their power was on the wane. Narasimha I and two of his successors are said to have resisted attacks from the Muslim kings of Bengal and Delhi. The Reddy kings of Kondavidu in Guntur district are also said to have penetrated into this kingdom. On the death of Ganga king Banudeva IV, his Minister usurped the throne and in 1434-35 founded the Gajapathi dynasty under the title Pratapa Kapileswara with his capital at Cuttack. He started expanding his dominions until they extended from the river Ganges to the river Krishna. His whole reign was spent in warring with the Hindu kings of Vijayanagar who by then were powerful in the south and with the Muslim Bahmani dynasty of the Deccan. His son, Puru-

shottama reigned from 1469 to 1497. His successor was Prataparudra. He is said to have had reverses at the hands of the Vijayanagar king, Krishna Devaraya. The latter seized Udayagiri in Nellore, Kondavidu and Kondapalli in Krishna, Rajahmundry and other fortresses and finally halted at Simhachalam. The Simhachalam temple still contains inscriptions recounting successes and relating how he and his queens presented the God with a necklace of 991 pearls and other costly gifts.

About the end of the 15th century the Bahmani Kingdom split up into several smaller States such as Bijapur [A.D. 1489,] Ahmednagar [1490], and Bidar [1498]. In 1512 the Kingdom of Golconda was founded by Sultan Kutub Shah, said to have been a native of Persia. The latter was so successful that at the end of a long reign he left a territory extending from the river Godavari to beyond the river Krishna and from the sea to a line drawn west of Hyderabad about the 78th degree of east longitude. In 1520 Sultan Kutub Shah defeated the forces of the Hindu chiefs of the Telangana at Kondapalli and there is reason to suppose that Prataparudra was one of the chiefs who suffered discomfiture. In 1571 Ibrahim, the 4th monarch of the Kutub Shahi dynasty, taking advantage of the disturbed conditions of Orissa, made himself master of the Godavari and other districts as far north as Srikakulam. For about 180 years since then this tract which also included the Ichchapur area then known by the name of the 'Chicacole-Circar' was controlled more or less directly by the Muslim authority from Hyderabad.

The principal seat of Government was at Srikakulam where the Faujdar or deputy of the Subha resided, while a Sub-Governor or Naib resided at Ichchapur. The revenues of the country were collected by these two Muslim officers and remitted to the seat of Government at Hyderabad. In the year 1641 Abdullah Kutub Shah sent Sher Mohammed Khan from Hyderabad to Srikakulam to rule over the dependencies north of the Krishna river. Sher Mohammed Khan during his period built a fine mosque at Srikakulam. In 1687 the Kutub Shahi dynasty came to an end when Aurangazeb, the Moghul Emperor, marched down to reduce the south to obedience and had wiped out the kingdom of Golconda and brought the whole country under his direct control. He appointed to the charge of it an officer called the Subedar of the Deccan under whom were a number of local subordinates in control of the various smaller divisions of territory. The five northern circars of Guntur, Kondapalli, Eluru, Rajahmundry and Chicacole had Masulipatnam for their chief town, and the northern most of them, Chicacole continued to be ruled in the same manner as before by a Faujdar residing in that town.

Aurangazeb died in 1707 and his death was followed by great disorder in his southern possessions. In 1724, the Subedar of the Deccan though still continuing nominally subject to the authority of Delhi made himself virtually independent and began appointing his own officers. His first Faujdar of Srikakulam was Anwar-ud-din who afterwards became very famous in the wars of the Carnatic and subsequently came to be known as the Nawab of Carnatic and is the ancestor of the Prince of Arcot. His firm but kindly rule was gratefully remembered for many years afterwards.

This Subedar of the Deccan died in 1748 whereupon the French and the English took opposite sides in the disputed succession which followed. Eventually a French protege, Salabat Jung, secured the post of Subedar and Bussy, the French General, obtained from him in 1753 the four Northern Circars (excluding Guntur) for the support of his troops. Masulipatnam and the country adjacent had been already ceded to the French in 1750; and Bussy sent M. Moracin, the French officer with instructions to take possession of the new acquisitions.

The Faujdar of Srikakulam, Jafar Ali, was extremely disinclined to give up his charge to the French and he persuaded Gajapati Viziarama Raju, head of the Vijayanagar family and the most powerful of the local renter-chieftains, who had come into being during the Muslim rule, to join him in opposing Moracin's entry. The latter, however, seduced Viziarama Raju from this compact by promising to lease him the Rajahmundry and Srikakulam Circars at a rate much below their value. Finding himself deserted, Jafar Ali called in the help of the Maharattas of Nagpur, who crossed the hills, devastated the two Circars, plundered and burnt the Dutch factory at Bheemunipatnam, defeated Viziarama Raju near Vijayanagar; fought an irregular action against the combined forces of that chief and M. Moracin at Tummapala near Anakapalle; and after few adventures returned home with immense booty. Having secured the

loot the Maharattas troubled no further about Jafar Ali's aspiration, whereupon that gentleman was obliged to submit.

In July, 1754 Bussy went in person to Masulipatnam and Rajahmundry, settled affairs in the Circars and appointed Ibrahim Khan as the Faujdar of Srikakulam. Soon afterwards, however relations between him and the Subedar of the Deccan became strained at last an open rupture occured, and for several weeks in the summer of 1756 Bussy was obliged to entrench himself against attack near Hyderabad. The authorities at Madras were only prevented from joining the Subedar against him by the necessity of sending every available man to Bengal. Further Bussy's officers in Circars including Ibrahim Khan disvowed his authority and refused to pay their tribute. Viziarama Raju was the only man who stood by Bussy. He ordered his agents at Hyderabad to assure M. Bussy of his fidelity and the regular payment of his tributes.

Bussy was eventually relieved by reinforcements from Masulipatnam and was received back into the Subedar's favour; and at the end of 1756 he marched into the Circars to restore his fallen authority. Ibrahim Khan fled in terror at his approach. But Viziarama Raju, confident in the proofs of attachment he had given, went to meet him with a body of troops, belonging to him and others of the local chiefs, which numbered 10,000 men. Taking advantage of the support of Bussy he persuaded the latter to attack his bitterest enemy, the chief of Bobbili. Bussy proposed to Bobbili that he should leave his fort and receive instead other land of greater extent and value in another part of the province, but the suggestion was received as an insult. Soon afterwards one of Bussy's detachments was cut off in the woods of Bobbili and in his anger the general determined to expel that chief and all his family. The result was " one of the most ghastly stories which even Indian History has to record." Orme's description is as follows :

"The province of Chicacole has few extensive plains, and its hills increase in frequency and magnitude, as they approach the vast range of mountains that bound this, and the province of Rajahmundry, to the north-west. The hills, and the narrower bottoms which separate them, are suffered to over-run with wood, as the best protection to the opener valleys allotted for cultivation. The Polygar (chieftain), besides his other towns and forts, has always one situated in the most difficult part of his country, which is intended as the last refuge for himself and all of his own blood. The singular construction of this fort is adequate to all the intentions of defence amongst a people unused to cannon, or other means of battery. Its outline is a regular square, which rarely exceeds 200 yards; a large round tower is raised at each of the angles, and a square projection in the middle of each of the sides. The height of the wall is 22 feet, but of the rampart within only 12, which is likewise its breadth at top, although it is laid much broader at bottom; the whole is of tempered clay, raised in distinct layers, of which each is left exposed to the sun, until thoroughly hardened, before the next is applied. The parapet rises 10 feet above the rampart, and is only three feet thick. It is indented five feet down from the top in interstices six inches wide, which are three or four feet as under. A foot above the bottom of these interstices and battlements, runs a line of round holes, another two feet lower, and a third within two feet of the rampart. These holes are, as usual, formed with pipes of baked clay; they serve for the employment of fire-arms, arrows, and lances; and the interstices for the freer use of all these arms, instead of loop-holes, which cannot be inserted or cut in the clay. The towers, and the square projections in the middle, have the same parapet as the rest of the wall; and in two of the projections, on opposite sides of the fort, are gateways, of which the entrance is not in the front, but on one side, from whence it continues through half the mass, and then turns by a right angle into the place; and, on any alarm, the whole passage is choked up with trees, and the outside surrounded to some distance with a thick bed of strong brambles. The rampart and parapet are covered by a shed of strong thatch, supported by posts; the eaves of this shed project over the battlements, but fall so near, that a man can scarcely sqeeze his body between; this shed is shelter both to the rampart and guards against the sun and rain. An area of 500 yards, or more, in every direction round the fort, is preserved clear, of which the circumference joins the high wood, which is kept thick, three, four or five miles in breadth around this centre. Few of these forts permit more than one path through the wood. The entrance of the path from without is defended by a wall, exactly similar in construction and strength to one of the sides of the fort; having its round towers at the ends, and the square projection

with its gateway in the middle. From natural sagacity they never raise this redoubt on the edge of the wood; but at the bottom of a recess, cleared on purpose, and on each side of the recess, raise breast-works of earth or hedge, to gall the approach. The path admits only three men abreast, winds continually, is everywhere commanded by breast-works in the thicket, and has in its course several redoubts, similar to that of the entrance, and like that flanked by breast-works on each hand. Such were the defences of Bobbili; against which Mr. Bussy marched, with 750 Europeans, of whom 250 were horse, four field pieces and 11,000 peons and Sepoys, the army of Viziarama Raju, who commanded them in person.

Whilst the field-pieces plied the parapet of the first redoubt at the entrance of the wood, detachments entered into the side of the recess with fire and hatchet, and began to make a way, which tended to bring them in the rear of the redoubt; and the guard, as soon as convinced of their danger, abandoned their station, and joined those in the posts behind; the same operations, continued through the whole path, which was five miles in length, and with the same success, although not without loss. When in sight of the fort, Mr. Bussy divided his troops into four divisions, allotting one, with the field-piece, to the attack of each of the towers. Ranga Rao was here, with all his parentage, 250 men bearing arms, and nearly twice this number of women and children.

The attack commenced at daybreak, on the 24th January, 1757, with the field-pieces against the four towers; and the defenders, lest fire might catch the thatch of the rampart, had pulled it down. By nine O' clock, several of the battlements were broken, when all the leading parties of the four divisions advanced at the same time with scaling ladders; but, after much endeavour for an hour, not a man had been able to get over the parapet; and many had fallen wounded; other parties followed with as little success, until all were so fatigued, that a cessation was ordered, during which the field-pieces, having beaten down more of the parapet, gave the second attack more advantage; but the ardour of the defence increased with the danger. The garrison fought with the indignant ferocity of wild beasts defending their dens and families. Several of them stood, as in defiance, on the top of the battlements, and endeavoured to grapple with the first ascendants, hoping with them to twist the ladders down; and this failing, stabbed with their lances, but being wholly exposed themselves, were easily shot by aim from the rear of the escalade. The assailants admired, for no European had ever seen such excess of courage in the natives of Indostan, and continually offered quarter, which was always answered by the menace and intention of death not a man had gained the rampart at two O' clock in the afternoon, when another cessation of the attack ensured; on which Ranga Rao assembled the principal men, told them that there were no hopes of maintaining the fort, and that it was immediately necessary to preserve their wives and childern from the violation of Europeans, and the more ignominious authority of Viziarama Raju, A number called without distinction were alloted to the work; they proceeded, every man with a torch, his lance, and poignard, to the habitations in the middle of the fort to which they set fire indiscriminately, plying the flame with straw prepared with pitch and brimstone, and every man stabbed without remorse, the woman or child, whichsoever attempted to escape the flame and suffocation. Not the helpless infant, clinging to the bosom of its mother, saved the life of either from the hand of the husband and father. The utmost excesses whether of revenge or rage, were exceeded by the atrocious prejudices which dictated and performed this horrible sacrifice. The massacre being finished, those who accomplished it returned, like men agitated by the furies, to die themselves on the walls. Mr. Law, who commanded one of the divisions, observed, whilst looking at the conflagration, that the number of the defenders was considerably diminished, and advanced again to the attack. After several ladders had failed, a few grenadiers got over the parapet, and maintained their footing in the tower until more secured the possession. Ranga Rao hastening to the defence of the tower, was in this instant killed by a musket-ball. His fall increased, if possible, the desperation of his friends; who, crowding to revenge his death, left the other parts of ramparts bare; and the other divisions of the French troops, having advanced likewise to their respective attacks, numbers on all sides got over the parapet without opposition: nevertheless none of the defenders quitted the rampart, or would accept quarter; but each fell advancing against or struggling with, an antagonist; and even when fallen and in the last agony, would resign his poignard only to death. The slaughter of the conflict being completed, another much more

dreadful, presented itself in the area below : the transport of victory lost all its joy : all gazed on one another with silent astonishment and remorse, and the fiercest could not refuse a tear to the deplorable destruction spread before them. Whilst contemplating it, an old man, leading a boy, was perceived advancing from a distant recess : he was welcomed with much attention and respect, and conducted by the crowd to Mr. Law, to whom he presented the child with these words : "This is the son of Ranga Rao, whom I have preserved against his father's will". Another emotion now succeeded, and the preservation of this infant was felt by all as some alleviation to the horrible catastrophe, of which they had been the unfortunate authors. The tutor and the child were immediately sent to Mr. Bussy, who, having heard of the condition of the fort, would not go into it, but remained in his tent, where he received the sacred captives with the humanity of a guardian appointed by the strongest claims of nature, and immediately commanded patents to be prepared, appointing the son lord of the territory which he had offered the father in exchange for the districts of Bobbili; and ordered them to be strictly guarded in the camp from the malevolence of enemies.

The ensuing night and the two succeeding days passed in the usual attentions, especially the care of the wounded, who were many; but in the middle of the third night, the camp was alarmed by tumult in the quarter of Viziarama Raju, Four of soldiers of Ranga Rao, on seeing him fall, concealed themselves in an unfrequented part of the fort until the night was far advanced, when they dropped down the walls and speaking the same language, passed unsuspected through the quarters of Viziarama Raju, and gained the neighbouring thickets; where they remained the two succeeding days, watching until the bustle of the camp had subsided; when two of them quitted their retreat, and having by their language again deceived those by whom they were questioned, got near the tent of Viziarama Raju; then creeping on the ground they passed under the back part, and entering the tent found him lying on his bed, alone and asleep. Viziarama Raju was extremely corpulent, in so much that he could scarcely raise himself from his seat without assistance; the two men, restraining their very breath, struck in the same instant with their poignards at his heart; the first groan brought in a sentinel, who fired, but missed; more immediately thronged in, but the murderers, headless of themselves, cried out, pointing to the body, "Look here! We are satisfied." They were instantly shot by the crowd, and mangled after they had fallen; but had stabbed Viziarama Raju in thirty two places. Had they failed, the other two remaining in the forest were bound by the same oath to perform the deed or perish in the attempt."

The situation of this historic fort can still be traced on the west side of the town, and where the subsequent Maharaja of Bobbili in 1891 erected an obelisk bearing inscriptions on stone commemorating the tragedy.

From Bobbili Bussy marched on into Ganjam receiving the submission of the various local chiefs and Zamindars as he went; sent a body of troops from Masulipatnam to capture the English factories at Injaram, Madapollam and Bandamurlanka in the Godavari district and then turned back to attack Vizagapatam settlement in person. Bussy then proceeded southwards and eventually returned to Hyderabad. In July of the next year (1758) he proceeded south to help in the war in the Carnatic and the siege of Madras.

Viziarama Raju's successor Ananda Raju, dissatisfied with the arrangements made by M. Bussy on the death of his predecessor had waited for an opportunity to take his revenge. As soon as Bussy went down south, he captured Vizagapatam from the French garrison which was holding it, sent news of the event to Madras and invited the English there to join him in expelling the French from the Northern Circars. Since Madras authorities were fully occupied at that time this offer was repeated to the English in Bengal. Clive sent Colonel Forde to Vizagapatam by sea with a force of 500 Europeans, 2,000 sepoys and 100 lascars which arrived on the 20th of October, 1758. The first step that Colonel Forde took, after joining the troops to those of Ananda Raju was to re-establish the factory of Vizagapatam where the French had left a small garrison. The united forces then moved south and on the 9th of December near Condore, about 35 miles east-north-east of Rajahmundry, an action was fought with the French which ranks as one of the decisive battles of India in which the French were utterly routed. Forde then pushed on to Rajahmundry the next day without the Raja's rabble and shortly afterwards took Masulipatnam by a most brilliant assault. Salabat Jang, the Subedar of the Deccan, who had advanced within fifteen miles of the place to assist the French,

changed sides at once and on the 14th May, 1759 concluded a treaty with the English granting them the country around Masulipatam, renouncing all friendship with the French and prohibiting the latter from ever again settling in the Northern Circars. Except the tract then ceded to the Company, the rest of the Northern Circars fell once more with dramatic suddenness under the sway of the Subedar of the Deccan. His rule however, extended to it in name only. For the seven succeeding years the completest anarchy ever recorded in history, therefore, prevailed over the Northern Circars.

In 1765 Clive obtained from the Moghul Emperor at Delhi a Firman granting to the company the five Northern Circars. The Subedar, however was in no way pleased at this cession of territory which he regarded as his own and threatened to retaliate by an eruption into the Carnatic. in November, 1766 a treaty was hastily concluded with him by the British, by which the English agreed to pay Rs. 9 lakhs annually for the territory that had already been granted to them as a free gift by the Moghul Emperor. Later however, this tribute was reduced and finally it was completely dropped.

After the withdrawal of all opposition by the Subedar of the Deccan the English Government at Madras at once took steps to secure Ganjam and the province of Ichchapur by passing a resolution in council on the 2nd December, 1766. The idea was not only to settle the tract but also for the purpose of investment and promotion of sale of European goods. Mr. Cotsford was appointed both as Engineer and Resident. He was instructed to make himself acquainted with investments at different factories to assist in finishing the fortifications at Vizagapatam, to report on the condition of the country especially with reference to the requirements of the stores; prospects of providing investments and disposing of any part of European commodities, etc.

In obedience to these instructions Mr. Cotsford proceeded first to Vizagapatam and afterwards to Ganjam early in 1765. He found the country to the north of Vizagapatam in a very disturbed state. Narayana Deo, the Zamindar of Parlakimidi (now in Orissa State), the largest and the most important Zamindar then in that area had possessed himself of the country and refused to submit to the authority of the English, intercepting communication between Bengal and Madras. Sitarama Raju of Vizianagaram also contributed to the worsening of the state of affairs. Mr. Cotsford, though with reservations, reported favourably upon the situation of Ganjam and the chances of making an investment there, but as it was evident that nothing could be done in the district without the presence of troops, he shortly returned to Madras.

In the following year 1768, the English determined to reduce Narayana Deo of Parlakimidi to obedience. Colonel Peach of the Bengal battalion stationed at Masulipatam was ordered to proceed against him. Mr. Cotsford was also instructed to accompany Mr. Peach and to take up his appointment at Ganjam as Resident. Mr. Cotsford arrived in April, 1768. The force under Colonel Peach soon afterwards defeated Narayana Deo in May, 1768 and compelled him to take refuge in the forest country. On the advice of Mr. Cotsford the defeated Raja's son was declared as his successor. However, the actual management of the parlakimidi country was entrusted to a person nominated by the Company. Colonel Peach's battalion continued in the Parlakimidi Zamindari until the country to the south had been partially settled and Mr. Cotsford meanwhile proceeded northward to Ganjam and entered upon his duties of appointment as Resident in July, 1768.

The Chicacole Circar, as administered by the Muslims, had been divided and managed in three divisions, under the names of Ichchapur, Chicacole and Kasimkota. Under the reorganised set up Chicacole and Kasimkota being nearer to Vizagapatam were placed under the control of the Chief and Council at that place but the Ichchapur province on account of its extreme northern location rendered the presence of a Resident at Ganjam absolutely necessary to administer its affairs.

Upon Mr.Cotsford's first assuming possession of the country, his position was somewhat precarious, for to the north at Cuttack there was a large force of Maharattas, whilst in the province itself there were 19 Zamindars, all of a more or less turbulent character. His authority in the district was, therefore, liable to danger at the least appearance of any external troubles. The Zamindars, being semi-independent entertained considerable bodies of feudal retainers, and in

all could muster amongst them, no less than 32,170 foot soldiers, while they had possession of 34 forts for the protection of their respective territories. It was therefore, the Resident's chief care to provoke as little opposition in his management of the country and by gradually destroying the country forts he hoped to reduce the Zamindars to obedience. To assist the Resident in governing the country and collecting its revenues an aggregate force of about 2,000 men commanded by Captain Bandinell was located in different parts of the country but chiefly at Ichchapur, Ganjam and Aska.

The various Zamindars continued to give trouble to the Resident in the payment of tribute and at the slightest provocation they would stop payment. It was only by a show of force that the tributes could be extracted from them. Among the more troublesome were the Raja of Vijayanagar, the Rajas of Goomsur, Atagada and Mohiri. In some cases the Resident had to send forces to take possession of the standing crops upon their failing to settle satisfactorily their tribute. The Agent also felt that he could not deprive the Zamindars of their respective territories and place others in their stead as it would become very difficult to find anyone to accept such a place and who could maintain himself in authority without the assistance of a considerable detachment from the English: the Company at the same time running the risk of promoting a man equally unworthy as the one removed.

The Bengal detachment under Colonel Peach was to leave the country in December, 1768. As there were no other troops, Mr. Cotsford began to enlist a company of peons. He also proceeded to store the fort at Ganjam with provisions as news kept coming from Madras that the Northern Circars were likely to be invaded by the Nizam and the Maharattas. The Resident also thought it advisable to purchase a vessel and keep it in readiness at Ganjam in case matters came to the worst. Although all measures for the security of the country had been taken with as much caution as possible the news of an expected invasion soon leaked out and the Zamindars at once made a dead stop in their payment to the Company. Upon the appearance of an English force the Goomsur Raja retired to the hills and thinking it more prudent not to offer any further resistance he shortly afterwards gave immediate security for the payment of his tribute and prevailed on the detachment to retire from the fort into the camp.

Colonel Peach's Bengal detachment quitted the Parlakimidi Zamindari about the 12th December, 1768 and marched southwards to Vizagapatam. They had hardly left the place before the disturbances commenced. Narayana Deo, the rebel Zamindar immediately began intriguing with the Maharattas in Cuttack inviting them to attack the British and also promising co-operation of Sitarama Raju, the Nizam's former Faujdar and also of the Rajah of Vijayanagar. The British Resident in Cuttack, however, informed Mr. Cotsford that the Maharattas were in no mood to undertake any invasion on account of dissensions among themselves. Mr. Cotsford meanwhile suggested to the Madras Council the expediency of appointing a Resident or Chief at Chicacole supported by five companies of Sepoys for the management of the affairs of Kasimkota and Chicacole. It was not until 1787 that Mr. Cotsford's recommendations appear to have been acted upon.

The Resident's hands had been so fully occupied in coercing the refractory Zamindars of the district that the Company's commercial operations were almost forgotten. In 1771 Mr. Cotsford wrote stating that on mature consideration he thought that the Company would be running a risk in making contracts, as for the most part the merchants live under the Governments of the Zamindars and that they are very insolent and cannot be depended upon. Mr. Cotsford continued to have difficulties with the Estates of Parlakimidi, Vijayanagar and a few other major Zamindaris. Some of their forts had therefore, to be occupied and destroyed resulting in heavy casualties on either side.

At the end of 1773 Mr. Cotsford resigned his appointment as Resident on the plea of his failing health and the Government of fort St. George expressed their appreciation of his able and vigorous administration of the country.

Upon the retirement of Mr. Cotsford it was determined to alter the form of management and therefore, Mr. Charles Smith was appointed as the Chief at Ganjam with a Council to assist him in the administration of his affairs. Disturbances broke out again in 1774, 1775 and 1776 on account of certain Zamindars withholding payments

of tribute. Murders and disturbances together with the usual attendent consequences of military expeditions and assignments of villages to the Company appear to have been constant throughout the period of Mr. Smith's tenure of office as Chief. The Company's troops were constantly employed either in demanding the tributes of the Zamindars who but rarely paid without either compulsion or threats or in quelling disturbances and calling the murderers of the Company's Tahsildars to account. When a Zamindar was refractory the troops were quartered upon him and he was made to pay for their keep.

On the 25th September, 1779, the Ichchapur district was rented to Balakrishna Naidu, formerly the Company's dubash for a period of 10 years and the Zamindars instead of paying tributes to the Residents or Chief in Council were ordered to pay the tribute through the renter into the Company's treasury. Balakrishna soon found himself quite unable to cope with the difficulties of his position although assisted by the Company's troops, and upon falling irretrievably in arrears with all his payments, and giving great dissatisfaction to all the district Zamindars, his own cowle was finally revoked in October, 1781 by an order from the Court of Directors.

On the 3rd October, 1780 a serious mutiny occurred among the Sepoys at Vizagapatam. The settlement at Ganjam was startled by this news. All the English Officers were killed and the Governor of Vizag had been taken prisoner. The ostensible reason for this conduct appears to have been that they were under orders to sail from Vizag to Madras where their services were needed to meet the invasion of Carnatic by Hyder Ali of Mysore. The Zamindar of Parlakimidi, then under surveillance at Vizag was strongly suspected of having engineered this outrage. The Resident at Ganjam upon receiving this information directed Captain Bruce at Aska to march to Chicacole, take the command of the troops there, and proceed against the mutineers, who had placed themselves under Captain Brule, a French prisoner for treasonable correspondence, whom they had released. Subsequently, on hearing that no help was necessary from Chicacole Captain Bruce was directed to report back to Aska.

In 1781 the Circars were within an ace of being ceded back again to Hyderabad in return for a body of horse to be placed at the disposal of the Governor General. Lord Macartney, who had just arrived as Governor of Madras protested, however, with such force against the proposal that it was abandoned.

On the 19th May, 1782 the office of the Resident was abolished. The Council was increased to five members. In 1783 quarrels took place in the settlement at Ganjam which continued almost without intermission until 1786. They appear to have originated at the Council Board out of jealousy of the Chief Mr. John Maxwell Stone, on account of his retaining the immediate management of Haveli lands in his own hands, and the other members of the Council complained that the whole power of the settlement was absorbed by Chengulroy, the Chief's dubash or manager. The quarrels of the Council Board at length became so notorious as to call for the interference of the Government. Mr. Henry Crawford was deputed to Ganjam in 1784 to investigate the complaints and counter complaints made by the different Members. Upon receiving his report on the subject, the Government came to the conclusion, that "the disputes originated from private pique to the chief". They reduced the number of members of Council from 5 to 3.

In 1787 a Circuit Committee arrived and commenced to investigate the revenue resources of the district. Their report dated 25th April, 1788 forms the chief data upon which the permanent settlement was afterwards effected. Mr. Morgan Williams, the Chief in Council in a report dated 31st December, 1787 describes the revenue of Ichchapur district as on the increase and estimates its population at 465,755 persons. The total revenue of the country excluding the whole of the Chicacole Sub-Division was given as 6,35,252 rupees. The trade of the district was described, however, as being on the decline.

On the 17th November, 1790, Mr. H. Crawford who had been previously Collector of the Chicacole Division was appointed as Resident and the Council was abolished. Troubles were meanwhile ripe in the district and a very severe famine was also about to add its horrors to the existing disturbances. The various Zamindars gave any amount of trouble in the form of petty rebellions and also inter-Zamindari skirmishes. It was, therefore, no wonder that with all the troubles of famine and rebellion prevailing from one end of

the district to the other Mr. H. Crawford, the Resident announced to the Government that he was unable to reduce the refractory Zamindars until the situation of affairs in the Carnatic will admit of an addition to his military strength.

As a famine relief measure on the 7th November, 1789 Mr. Crawford issued a proclamation suspending all import and transport duties on grain and other edibles in the Company's Haveli lands. In the Ichchapur and Chicacole divisions people died in thousands. Government seem to have done their best to mitigate the horrors of famine but were powerless to control the evil in an effective manner. In the Chicacole Division Mr. Keating, the Collector, calculated that an average of 3,000 poor people had daily subsisted on the Company's bounty for a period of two years. The importation of paddy for the relief of the poor was ordered by the Board of Revenue and it was found from the Chicacole records that in June, 1792, 10,519 bags of rice were despatched from Kalingapatnam to Ganjam. Large quantities of rice also appear to have been imported from Cuttack via Chilka lake.

The country was plunged in a state of misery and desolation truly deplorable. Whole tracts were depopulated and people were not forthcoming to cultivate the land. Authentic records about the number of people who died etc.. and the number of people relieved are not available. Mr. Warricker, Assistant Collector, wrote on the 15th January, 1792 to Mr. Keating, the Collector at Chicacole as follows "I was an eye-witness of the melancholy effects of famine. About six persons were gathered around a fire and were feeding upon the carcass of a dog killed on suspicion of its being mad". The duration of the famine was increased by the failure of the dry crops in 1792, and the floods that occurred in that year did further damage. The famine seems to have been at its worst about Chicacole, and the Zamindaris of Jalantra, Mandasa, and around the fort of Mahendragiri.

In 1794 the office of Resident and Chief at all the settlements along the coast was abolished and the office of the Collector was established.

By the permanent settlement of 1802 all these ancient Zamindaris were handed over to their owners in perpetuity on a fixed peshkush and a number of other proprietary estates were also called into being by parcelling out the Haveli land into a series of properties and selling these by auction subject to the payment of a permanent peshkush.

Politically this settlement was a failure. These men had for years been treated as feudatories rather than as private landholders; and the functions of the Government had been in part conducted through them; some of them having been entrusted with the responsibility of keeping the hill tribes in order. But under the new arrangement they were unceremoniously set aside; authority over the hillmen was taken away from them; their estates were declared liable to immediate attachment and sale for the default in paying a single instalment of the peshkush; they were irritated by the working of the new revenue and judicial regulations; and the new police force no longer under their control took every opportunity under cover of a pretence of enforcing law and order, of harassing and annoying them.

Owing to all these causes the Zamindars for many years after the introduction of a permanent settlement, were in a chronic state of discontent and disaffection. Too often internal and domestic troubles accentuated their restlessness.

At first, troops were called out and an attempt was made to chastise these disturbers of the public peace. But these expeditions were by no means uniformly successful and cost much in blood and treasure. Recourse was then had to negotiation, the only result of which was to increase the insolence of the malcontents. Around 1832 disturbances became so serious that Mr. George Russell, First Member of the Board of Revenue was sent as Special Commissioner to investigate their causes and concert measures for their suppression.

He was invested with the extraordinary powers, including that of proclaiming martial law if necessary and was supported by a strong force of troops. He took severe action and most of the disturbances were controlled and some of the Estates were forfeited. To check further disturbances of the same kind Act XXIV of 1839 was passed and parts of the district were removed from the operation of much of the ordinary law and were administered directly by the Collector with extraordinary powers conferred upon him in the capacity of the Agent to the Governor.

Subsequently a few of the Zamindaris in the south were from time to time bought in by Government at sales for arrears of revenue and formed into taluks for the purpose of direct administration. Slowly, peace dawned over this disturbed land and law and order prevailed as was the case with the rest of the tract comprising the erstwhile Madras Presidency.

It is now necessary to turn to the history of the Chicacole division between 1767 and 1802, in which year it was incorporated in the Ganjam district. Previous to this date, it had formed the 3rd division of the Vizagapatam district, and included Kasimkota, attached to Vizagapatam. The limits of the 3rd division extended from Chinna Pantulu Daba, 20 miles south of Chicacole, to Kasibugga, 50 miles north of it. Upon the acquisition of the Northern Circars, the district was rented out to Sitaram Raju's the brother of Viziaram Raju, Rajah of Vizianagaram, for a period of 10 years until 1777. In 1777 the rent of the country to Sitaram Raju's appears to have been renewed for a further period of ten years, which expired in 1787. Sitaram Raju's management of the country was most oppressive, and seems to have been highly detrimental to the Company's interests. The country was rack-rented in a wholesale manner, and the renters took what share of the produce they pleased, leaving the remainder to the ryot. Sitaram Raju dispossessed the Brahmins of their charity lands or Agraharams and in recompense, bestowed upon them Haveli villages. The manufacturers and artisans of the country emigrated in large numbers and went to other places where they were less oppressed. At the expiration of Sitharam Raju's lease, Mr. Henry Crawford was appointed in 1787 the first Collector of the Chicacole Division subject to the authority of the Chief and Council at Vizagapatam. Mr. Crawford estimated the probable revenue of the country at four lakhs, including the two large Zamindaris of Parlakimidi and Tekkali. The alienations made by Sitaram Raju had been considerable, so that all lands not uninterruptedly enjoyed for twenty years were ordered to be resumed. As in Ganjam, so in Chicacole, the land customs were numerous and burdensome preventing the produce of the country being sent from those parts where it was plentiful to others where it was scarce.

Mr. Cherry was the last Collector to succeed to the management of the Chicacole division in 1800, and in 1802 when Chicacole was incorporated with Ganjam, Mr. Cherry became the first Collector.

With regard to the revenues of the Chicacole Division they never seem to have exceeded even considerably Mr.Crawford's first estimate of 4 lakhs. The Jama or rent paid by Gajapati Narayana Deo for Parlakimedi was Rs. 86,000, whilst for Tekkali, the last Zamindar, Ram Kistna Jagga Deo, had paid Rs. 24,472 yearly. The average gross collections of the Chicacole Haveli lands from Fasli 1202 to 1206 (1792-1796) were Rs. 2,94,760 making a grand total of Rs. 4,05,232.

Mr. Peter Cherry, who succeeded Mr. Brown in 1802 was the first Collector of Ganjam. In 1803 the Ganjam district comprised all the territory north of the Langulya river near Srikakulam and extended from Mofusbandar on the sea coast in the south to Priagi on the Chilka lake in the north. It included four distinct Havelis and 21 Zamindaris including the large and important one of Parlakimidi. Mr. Cherry's management of the country was vigorous and praiseworthy. He not only introduced the permanent settlement but also established Courts of Judicature. He sold the Haveli or the Government lands and constituted them into proprietary Estates.

During 1816 this district was invaded by the Pindaries. The latter were an off-shoot of the Maharatta armies who had taken to robbing and plundering the country when their Chiefs could no longer afford to pay them. Their strength seems to have been between 4,000 and 5,000 men and they were well mounted. They entered the district through the Jeypore area and proceeded northwards burning and plundering as they went. The Ichchapur and Mansurkota valleys suffered most from their ravages, and as they spread over the country in small detached bodies it was difficult to account for their movements. The troops at Berhampore prevented their molesting this town and near Boirani a body of Pindaries, 1,000 strong, were surprised by Lieutenant Borthwick and a small force, and completely routed them. The Pindaries finally left the region.

In 1816 the Collector was invested with magisterial powers and a separate office of Magistrate was abolished.

There had been bad years in 1837-1838, but in 1839 the season was so disastrous that the

Inhabitants were put to the greatest distress, and many of them migrated, whilst cholera and other diseases carried off multitudes of those who remined. To add to this calamity, the drought that prevailed in the district after September was so severe that several coconut plantations also withered and died from its effects. The Government of that day tried its best to relieve those severely affected by this famine.

The next great famine occured in 1865. Between 1865 and 1866, a famine of the most unparalleled severity desolated the country and slew between 10,000 and 15,000 people by actual starvation. The number of deaths reported was 10,898 but there is no doubt that the total loss of life by starvation was greatly in excess of the return as many hundreds must have perished of whom, no account was kept.

Source : DCHB Srikakulam District-Census 1961, A. P., PP. VIII to XVIII.

PHYSICAL ASPECTS

General : The district of Srikakulam is located between the northern latitudes of 18° 20′ and 19° 10′ and between the eastern longitudes of 83° 5′ and 84° 50′. It is bounded on the south and the west by Vizianagaram district, on the north by Orissa State and on the east by the Bay of Bengal. The total area of the district is 5,837.0 sq. kms. and it has a population of 1,959,352 persons according to the 1981 Census count. The district derived its name from Srikakulam, its headquarters town. Srikakulam district was carved out in 1950, by bifurcating it from Vishakhapatnam district. It remained unaffected in its territorial jurisdiction for quite some time. In November, 1969, the district lost 63 villages from Salur taluk and 44 villages from Bobbili taluk on account of their transfer to the newly constituted Gajapathinagaram of Vishakhapatnam district. Again in 1979 the district had undergone major changes in the territorial limits on account of the formation of a new district namely Vizianagaram. In May 1979, Salur, Bobbili, Parvathipuram and Cheepurupalle were transferred completely to the newly formed Vizianagaram District.

Rivers : The Nagavalli, Vamsadhara, Suvarnamukhi, Vegavathi, Mahendratanaya, Gomukhi, Champavathi, Bahuda and Kumbikotagedda are the important rivers of this district.

The Vamsadhara river rises in the Eastern Ghats in Orissa State and enters Srikakulam district in Pathapatnam taluk, flows between Narasannapet and Srikakulam taluks and finally falls into the Bay of Bengal. The Nagavalli and Suvarnamukhi rivers also originate in the Eastern Ghats of Orissa State. The Nagavalli enters the Parvathipuram taluk of Vizianagaram District and flows through Palakonda taluk. The river forms the boundary between Srikakulam taluk and Cheepurupalle taluk of Vizianagaram district. The Suvarnamukhi river, enters the district in the north western part of Salur taluk, joins the Nagavalli river at Sangam village in Palakonda taluk. Rising in the Pachipenta hills, the vegavathi flows from west to east, ultimately joining the Suvarnamukhi. Gomukhi joins the Suvarnamukhi at Sirlam village in Salur taluk. Mahendratanaya, which is a tributary of the Vamsadhara joins the latter at Komanapalle village in Pathapatnam taluk. The Bahuda river rises in the Eastern Ghats in Orissa State, enters Srikakulam at Boddebada village of Ichchapuram independent sub-taluk and flows through this taluk. The Champavathi flows through Salur and Gajapathinagaram of Vishakhapatnam district. The district has a sea coast of 192 kms.

Climate : Throughout the year the climate is characterised by humidity. Though the summer is oppressive, the seasonal rainfall is quite good. The summer season starts from the middle of February and ends in the mid-week of June. The south-west monsoon season follows the summer season and lasts up to the second week of October. The retreating monsoon season is from mid October to the end of November. The period from December to mid February enjoys a generally fine weather.

Rainfall : The rainfall in the district increases in general from the south-east towards the north-west direction. The rainfall during the rainy season from June to October amounts to about 79 per cent of the annual rainfall; September is normally the rainiest month. The average annual rainfall is less *1116.6 mm.

Flora : The forests in the district exhibit a variety of local changes in quality, composition and density. The forests are of varying types greatly differing in nature, intermixed and interrupted by superior or inferior types. These show much diversity in representation and combinations of the main species. The forests can be broadly classified as follows : 1) South Indian moist deciduous which includes mixed forests, sal forests and hilly

2. District Census Hand Book 1961 Census—Srikakulam District

*Statistical supplement to Part II of Andhra Pradesh Gazette, Hyderabad, dated 15-1-1981 Monthly and Annual Rainfall table for the year 1978, Page 81

savannah, 2) South indian dry deciduous which includes mixed forests and thorn forests and 3) South Indian dry evergreen miscellaneous forests.

Fauna: The land fauna in Srikakulam district is very little. In the past, the district must have been the abode of several wild animals. Human habitation and the indiscriminate destruction of forests resulted in the disappearance of many species. Among the carnivora, the tiger is almost extinct, but leopard, hyena and wolf are occasionally seen in the forests. The jackal, fox, wild-cats and wild dogs are the other carnivorous animals found in this district. The herbivorous class is represented by sambar and the spotted deer or chital, wild goat, bears and wild boars are common. The black buck, the blue bull and the bison are conspicuously absent in these parts. Among the birds, the peafowl, peacock, jungle-fowl, pigeon, parrot, myna, partridges, goose and doves, etc. are common.

Changes in Administrative Unit and Component Parts: Srikakulam district was for a long time not a homogeneous unit and its component parts were under the sway of various dynasties, at different periods of time such as, the Mauryas, Chedis, Satavahanas, Pitribhaktas, Matharas, Eastern Gangas, Ganga Kings of Svetaka, Eastern Chalukyas, Cholas, Velanati Cholas, Kakatiyas, Gajapatis, Qutb Shahis, Mughals and Asaf Jahis. Certain portions of this district were under the old Ganjam district in the erstwhile Madras Presidency prior to the formation of the State of Orissa. While forming the Orissa State in 1936, Srikakulam, Sompeta and Tekkali taluks and portions of Parlakimidi, Ichchapuram and Berhampur taluks, which were in Ganjam district, were however retained in the erstwhile Madras State and added to Vishakhapatnam district, A major portion of Parlakimidi taluk thus retained was constituted into Pathapatnam taluk. Portions of Berhampur and Ichchapuram taluks were clubbed and constituted into Ichchapuram independent sub-taluk. Srikakulam taluk was bifurcated into Srikakulam and Narasannapet taluks. All the above changes were made for administrative convenience. After the abolition of the Zamindaris in 1948, survey and resettlement undertaken in the taken over Zamindari and Inam villages revealed that the enlarged Vishakhapatnam district was very unwieldy for administrative purposes. Consequently, Srikakulam district was carved out in 1950, bifurcating it from Vishakhapatnam district. In this process, the northern half of the old Vishakhapatnam district was included in Srikakulam district with headquarters at Srikakulam, while the southern half was constituted into Vishakhapatnam district. Srikakulam district, thus formed in 1950, remained unaffected in its territorial jurisdiction for quite some time. But in November 1969, this district lost 63 villages from Salur taluk and 44 villages from Bobbili taluk on account of their transfer to the newly constituted taluk of Gajapathinagaram (Gajapatinagaram) in Vishakhapatnam district. Both at 1961 and 1971 censuses, the district consisted of eleven taluks grouped under three revenue divisions as follows :

Name of the Revenue Division	Name of the constituent taluks
1. Srikakulam	1. Srikakulam
	2. Cheepurupalle
	3. Narasannapet
2. Tekkali	1. Tekkali
	2. Sompeta
	3. Pathapatnam
	4. Ichchapuram independent sub-Taluk
3. Parvathipuram	1. Parvathipuram
	2. Palakonda
	3. Salur
	4. Bobbili

During the decade 1971-81 major territorial changes occurred in the composition of the district. Four taluks namely Salur, Bobbili, Parvathipuram and Cheepurupalle have been transferred to the newly formed Vizianagaram district with effect from 1-6-1979 (vide G. O. Ms. No. 700 Rev. (U) dated 18-5-1979). At 1981 Census, Srikakulam district consisted of 14 taluks grouped under 2 revenue divisions as given over-leaf

	6. Hiramandalam	—

Some of the taluks in the district have undergone jurisdictional changes between 1971 and 1981 and there has been slight variation in the total number of villages during the decade. For convenience, the jurisdictional changes in the district during the decade have been presented in the following statement.

1. The district "Geographical Area" figures are as supplied by Surveyor General, India
2. The total of the area figures of tafuks will not tally with the district area figures because the former represents land use area and are derived from the figures supplied by the State Survey Department
3. Villages shown under Col. 5 do not include the villages under colums. 8

MAJOR CHARACTERISTICS

Forestry : The total forest area in Srikakulam district is 70,390 hectares forming 12.04% of the total district area. The existing natural forests in the district are mainly in degraded condition due to grazing and Podu cultivation.

All the forests of the district except those in Palakonda Range were Estate Forests prior to 1948. Those forests have been taken over by the Government when the Madras Estate Abolition Act came into force in 1948. The Estate Forests were managed by Revenue Department till 1951 and were transferred to Forest Department afterwards, vide G. O. Ms. No. 4465, dt. 6-10-51. The present forest division of Srikakulam district was formed with effect form 1-12-63.

The following are the details of plantations raised in Srikakulam district by the Forest Department upto 1981.

Item	Position as on 1981 (Hect)
(1)	(2)
1. Teak plantations	1,095
2. Cashew Plantations	889
3. Bamboo Forests	31,607
4. Fuel Forests	1,840
5. Casuarina Plantations	4,315
6. Eucalyptus plantations	75
7. Coffee plantations	6
8. Mixed plantations	40
9. Minor Forest Produce plantations	400

Teak plantations : Teak plantations have been raised in an extent of 1095 hect. in Palakonda, Pathapatnam and Sompeta Taluks in order to improve the teak availability in the district. During 1979-80 and 1980-81, 669.4 cmt, of teak wood was extracted departmentally from the forests and was sold in public auction.

Casuarina Plantations : In Srikakulam district, casuarina plantations have been raised in an extent of 4,315 hect. in coastal areas at a cost of Rs. 57 lakhs upto 1981, to cater to the fuel and small timber needs besides providing employment opportunities to the weaker sections of the fishermen community living along the coast.

Casuarina shelter belt plantations have also been raised in an area of 124 kms. along the sea coast of Srikakulam district from 1975 to 1981 over a width of 150 hect. with a view to prevent the villages of the fishermen and cultivable lands from sand casting and to create employment potential to the weaker sections of fishermen community.

Fuel Forests : In Srikakulam district 1,840 hect. of natural fuel forests are existing. Every year fuel from these forests is being extracted departmentally and sold in public auction.

Cashew Plantations : Cashew plantations have been raised in 889 hect. Cashewnut is being collected from these plantations and sold in public auction.

Minor Forest Produce Plantations : Under Six Point Formula Programme, Minor Forest Produce Plantations were raised in 400 hect. in Podu areas to arrest Podu cultivation by the tribals by giving them employment.

Minerals and Mining : Srikakulam district is covered by hilly terrain of Eastern Ghats having flat tops of laterite rising to 1,130 metres in altitudes. The major rock formations in the district consist of rocks of Archaeon age comprising granites and charnockites which had intruded into the highly folded and metamorphosed sedimentary rocks represented by Khondalite series. These are overlain by laterite and alluvial soils of recent age.

Srikakulam district is endowed, with minerals such as manganese, quartz, K. L. S. graphite and mica. The manganese deposits are occuring in Rajam and Ponduru taluks. The main important deposits of quartz are seen near Krishnapuram. This mineral is being utilised by the M/s Ferro Alloys Corporation Sriramnagar which is in Vizianagaram district. lime stone, kankar is also extensively available in this district in and around Rajam which is being utilised for the small lime kilns. Occurrences of graphite ore at Kondamuseeruvada of Palakonda taluk is also noticed. Mica occurrences of lower quality are also reported at Santhabommali of Kotabommali taluk. However no systematic survey has been undertaken so far to estimate the deposits.

Besides there is a lot of minor mineral wealth in this district. There are number of hillocks where the rock types seen in the district are being quarried for road metal, railway ballast and masonry constructions. The rock types and khandalites, charnoknites, quartzites, cale-granulites, are being utilised for masonry constructions and sand is being removed from Nagavali, Vamsadhara and Mahendratanaya rivers and used in construction of buildings and other

local requirements. Lime Shell is occurring near Burjapadu in Ichchapuram Taluk and it is used in the preparation of lime by burning. There are number of Quarries (Road metal and rough stone) in different places like Ponduru, Rapaka, Salihundam, Singupuram, Jilleduvalasa, Bendi, Kotabommali, Kondamosuru etc., The above Quarries work regularly in the district.

History of Mining in the district : In Srikakulam district, manganese, graphite, mica, lime stone are the prominent minerals.

Manganese: The manganese mineral bearing area is about 1,000 sq. metres. Mines are located in Cheepurupalle, Bobbili and Salur taluks of present Vizianagaram district and composite Srikakulam district and in Rajam taluk of present Srikakulam district.

Originally, the entire manganese area was under the Zamindari of Maharaja of Vizianagaram. Manganese ore was first found by Alexander, Hubt Scott, sometime before 1852. Local people however utilised manganese ore for medicinal purposes since about 1850. Definite information about the nature of occurrences was given after the 1855 Madras exhibition.

The mangenese ore was originally worked by a small group of entrepreneurs headed by Mr. H. C. Turner (Ex-Collector of Vizag Dt). The first export of manganese ore of 1674 Tonnes was made in 1892 followed by 313 Tonnes in 1893. In the year 1892, Vizianagaram Mining Company Ltd., (V.M.C) (incorporated in England) first obtained a prospecting licence and then entered into an agreement of lease on 14-12-1894 in favour of Mr. H. C. Turner, with Rajah of Vizianagaram for exploitation of Manganese Ore in certain Zamindari and Inam Villages. The lease period granted was in two stages, one from 1896 to 1926 and (2) from 1926 to 1956. The mining operations were carried on since 1896. M/s. Gordon Woodroffe Co., of Kakinada and M/s. A. S. Company of Nellore soon after obtained new lease in the area. The Madras Mining Company (1905-06) later converted into Bobbili Mining Company started working on several small deposits. These companies mined only higher grades and ores above sizes only. Some of the properties were later handed over to the Vizianagaram Mining Co. The V. M. C. carried out mining operations till the company went into liquidation during the year 1946. An application O. P. No. 25 of 1945 was filed on behalf of the company in the High Court, Madras under the Indian Companies Act for liquidation of the company. The ore was put on auction and M/s. Seth Shreeram Durga Prasad and Fateah and Narsinga Das of Tumsar purchased the ore at the mines of all Inam and Zamindari villages and railway siding about 13 200 Tonnes and at Vishakhapatnam Port to a value of Rs. 91,700/- whereas all the mining areas were taken possession by Rajah of Vizianagaram. Then there was an agreement between the Rajah of Vizianagaram and M/s. R. B. S S. D. and F. N. Das on 22.12. '47. Under this agreement ex. A. 97(a), the Rajah agreed to sell the manganese mining machinery and equipment which was purchased by him at the auction for Rs. 1,18,000 (b) for grant of lease of all the mining areas for a period of 49 years (c) for handing over the building and equipment and (d) for the immediate transfer by way of sale of the right to take ore free of royalty from all the dumps of mining areas for Rs. 5,000/-. Accordingly, on 17.11.48, the party took possession of the mining areas and dumps covering a total area of 1,128 acres. Thus there has been a transfer of ownership free of royalty to the party by the Rajah of Vizianagaram besides the creation of mining leases in regard to mining areas of different villages. M/s. R. B. S. S. D. and F. N. Das began to extract ore from the dumps by process of cleaning and also removed ore from a few mines.

During the mining activity of M/s. V. M. C. the high grade ore (with above 40% Mn. content) used to be exported while the ore below 40% Mn. content was thrown as waste. Thus large heaps of dumps containing manganese ore (varying from 25% to 45% Mn. content) are formed by the constant and continuos mining operations for over half a century by M/s. V. M. C. from the year 1896 to 1946 till the company went into liquidation. Thus, this 'accumulated Waste' consists of ore as well as waste earth material.

On 7.9.49, the Vizianagaram Estate was taken over by Government under Estate Abolition Act XXVI 1948. On 27.2.1952, Government took over possession of the mining areas from M/s. R.B.S.S.D. and F.N. Das including the dumps scattered around mine workings. A fresh mining lease was granted on 26.10.53 by Government in favour of the company for 20 years.

Mining activity 1972-75 :

There were 127 mining leases held by 47 lessees as on 1.1.72. Most of the mines yield friable type

of ore. The local buyers used to purchase all types of Manganese ore from the lessees without any restrictions on the size or grade of the material by financing them. But the price offered by the buyers was, however, low and was not economical to all the mine owners to raise the mineral from the mines pit which went deep upto 10 metres, duly observing the safty measures.

In the year 1971, M/s. Metals and Minerals Trading Corporation (M.M.T.C), Government of India undertaking opened its branch at Garividi and started purchasing manganese ore with certain restrictions. Eventually the mines which used to yield low grade ore of friable type and powdered type had to be closed down as the ores produced from them were not to the specifications of the M. M. T. C. and had no market for these types of ores elsewhere.

During the period, number of mines were determined (numbering about 48) by the District Revenue authorities due to non-working of mines. In addition, eight mining leases were surrendered by the lessees themselves. Later in the same year (1974), the mine owners association, Srikakulam district submitted memorandum to the Government representing their grievances viz., relaxation of the restrictions imposed by M. M. T. C. regarding the size of the ore and also for fixation of fair price. M. M. T C. relaxed the restrictions on the size of the ore and also has increased its purchase price and started purchasing powdery ore. Thus, in 1976 the mineral revenue on demand was Rs. 17,94,584,30. Due to the changed conditions several mine owners came forward to commence mining operations and requested the authorities for revival of the determined mines. The export of manganese ore from this district has considerably fallen down from year to year owing to the closure of mines, resulting in loss not only to the mine owners but also to the labour engaged in the industry. There were about 8,000 labourers engaged in this mining field and most of them migrated to other places in search of employment due to the closure of mines. The aggrieved mine owners have represented that they have preferred revisions against the orders of determination, praying restoration of their mining leases and that of the orders of Central Government. The district authorities conveyed a meeting with M. M. T. C. and gave consent to examine the orders in respect of such determined mines which can produce good quality ore useful for export. All the above cases were pending for reconsideration.

All the mines are manually operated and except for laying of surface rail tracks and installation of dump sets in some of the mines, no machinery is employed. Only few mines used explosives, and the rest worked on a rate contract basis given to the labourers. The contract includes mining, screening, hand sorting and jigging. The delivery of ore by the contract labour is by volume the measurement of the ore removed from quarry. During October, 1973 the mining leases granted by Government in favour of M/s. R. B. S. S. D. and F. N. Das expired.

In 1978, State Government through a G. O. Ms. No. 5 Ind. and Comm. M. V. dt. 5.1.78 notified reserving all the manganese mineral, leaving areas of Srikakulam for public sector exploitation.

Quartz : Quartz occurrences are seen in Krishnapuram of Ponduru Taluk. Krishnapuram, quartz bearing area, is the most potential one and other deposits are near Veeraghattam. The quantity of the material is high whereas the occurrences are less In number. Quartz from Krishnapuram is milky white in colour. This is being used by M/s. Ferro Alloys Corporation Ltd., Sriramnagar (Garividi) for the manufacture of Ferro Alloys like Ferro Silicon.

Quartz occurrences are mostly in the shape of small mounds which extend down to the surface. calci-granulite outcrops are seen nearby these exposures. Fresh and hard quartz with less impurities are only being utilised. There are two more quartz workings near Sancham and Sivaram villages which are not under exploitation at present.

In general, quartz is seen with impurities like manganese, iron and pyrite. hard, fresh quartz with less impurities is preferred. Silica is extracted from quartz and utilised for the manufacture of alloys.

Lime Stone : Lime stone occurrences in this district are seen in Garividi - Garbham Road between 3rd and 12th km. stones. Limestone is spreading horizontally like a blanket below 0.6 to 1.0 metres thick soil cover. The thickness of lime stone varies from 1.00 to 1.80 metres. Lime stone is hard and white in colour.

Graphite : Graphite is a mineral variety of the chemical element. One of the softest minerals, it forms chiefly out of carbon in rocks under the action of high temperatures. Graphite is a rare occurrence in Srikakulam district. At present there are no working graphite mines.

Mica : Mica occurs at a few places in the district. Mining has been carried out in various parts of the district but no economic deposits have been located. The mica is of ruby variety mostly spotted and the size varies from 0.5 sq.inch to 1.5 sq. inch.

Electricity and power : Rural electrification has been undertaken in a big way during the decade from 1971 to 1981 and it is essential for the economic development of the villages. As on 31.3.81, 763, out of 1921 inhabited revenue villages were electrified forming 39.7% of the total villages in the district.

The length of transmission lines as on 31.3.81 is given below :

33 K. V.	242.00
11 K. V.	1365.00
L. T.	1567.00

The power sold in the district, category-wise during the year 1980-81 is detailed below :

	Category	Power sold during the year 1980-81 (KWH)
1.	Domestic	12858202
2.	Non-domestic	5339599
3.	Railway lighting	441052
4.	Industrial	5091171
5.	Cottage Industries	26695
6.	Agricultural	4843856
7.	Public lighting	1223928
8.	General purpose	275476
9.	Temporary L.T.	93675
10.	High tension (Excluding Temp. H.T.)	1758487
11.	Temporary H.T.	29063
	Total	**31981204**

The number of services and category - wise connected load as on 31-3-1981 is furnished below:

		No. of services	Connected Load
1.	Domestic	32625	9938
2.	Non-domestic	6868	2993
3.	Industrial	723	7871
4.	Cottage Industries	55	20
5.	Agricultural	1837	7863
6.	Public lighting	768	498
7.	General purpose	449	219
8.	High Tension (excluding Temp.)	10	3793
	Total	**43335**	**33195**

Land and Land use Pattern : The soils in this district belong mainly to the regar or black cotton and red ferruginuous series. Near the hills the red varieties are predominent but towards the coast the soil becomes finer and in the richest valleys there is fertile clay with a tendency to crack on drying. Valuable crops such as paddy, sugar-cane, ragi, Bajra and other cereals are cultivated mainly in black loams. In black clay, jowar and redgram are generally raised. In mud loam, gingelly, ragi, bajra, jowar, horsegram and greengram are grown exclusively, and paddy and sugarcane to some extent. Pulses, groundnut, sweet potatoes and chillies are grown in sandy soils.

Land utilisation : The land utilisation statistics of the district as on 1981 are furnished hereunder :

S.No.	Item	Area in Hectares	% to total geographical area.
1	2	3	4
1.	Total Geographical area	584,315	100.0
2.	Forests	70,358	12.0
3.	Barren and uncultivable land	65,779	11.3
4.	Land put to non-agricultural uses	65,824	11.3
5.	Permanent pastures and other Grazing land	2,536	0.4
6.	Miscellaneous tree crops and groves not included in net area sown	4,397	0.8
7.	Cultivable waste	12,093	2.1
8.	Other fallow lands	10,042	1.7
9.	Current fallows	28,116	4.8
10.	Net area sown	325,170	55.6
11.	Total cropped area	389,698	—
12.	Area sown more than once	64,528	—

Tenancy : The distribution of size of land holdings in Srikakulam district as per 1977 Census of land holdings are shown in the following statement :

STATEMENT SHOWING THE DISTRIBUTION OF SIZE OF LAND HOLDINGS IN SRIKAKULAM DISTRICT AS PER 1977 CENSUS OF LAND HOLDINGS.

	Size Classification In Hectares			Scheduled Castes		Scheduled Tribes		Others		Total	
				Number	Area in Hectares	Number	Area in Hectares	Number	Area in Hectars	Number	Area in Hectares

13.	125-00 and above.			...	...	...	...	13	1,152	13	1,152
	Total			22,817	10,870	15,930	15,600	247,004	311,869	285,751	338,339

Agriculture : This district is predominantly agricultural in character. As per 1981 census there are 353,366 cultivators and 290,400 agricultural labourers in the district forming 18.03% and 14.82% respectively of the total population of the district. Paddy is the chief food crop grown in the district. Groundnut, mesta, sugarcane, coconut and chillies are the chief commercial crops. About 80% of the total area sown in this district is under food crops and these largely depend upon the rainfall. During the South-West monsoon paddy is sown in nearly 50% of the total cropped area. The tillage operations are completed during April to June and raising of crops like paddy, ragi, sugarcane, groundnut, jowar, bajra, mesta and small millets is begun. The sowing operations of paddy is completed by August in Irrigated lands. The North-East monsoon is useful for augmenting supplies to irrigated crops like paddy and sugarcane. Due to close proximity to the hills which are covered with fairly thick forests the irrigation sources receive a good supply of water during the rainy season. The chief irrigation sources in this district are the Nagavali, Narayanapuram Project, Vamsadhara and Pydigam Project. There are also several Minor Irrigation tanks in the district serving as sources of irrigation.

Animal Husbandry : In agricultural economy, Livestock plays an important role. The number of Livestock and Poultry in the district as per the 12th Quinquennial Livestock Census 1977, is given below:

1.	Cattle	406,977
2.	Buffalloes	208,179
3.	Sheep	196,413
4.	Goats	123,816
5.	Horses and Ponies	636
6.	Donkeys	183
7.	Pigs	11,440
8.	Total Livestock	947,644
9.	Fowls	709,773
10.	Ducks	19,034
11.	Total Poultry	729,451

There has been appreciable increase in the number of poultry.

For safeguardingthe health condition of these livestock the following are the Veterinary Institutions existing in Srikakulam District.

Veterinary Hospital	11	
Livestock Supervisory Units	37	
Rural Livestock Units	112	
Rinderpest Checkposts	5	
Rinderpest Immune Belts	3	
Special Veternary Officers	1	
Extension Officer (Animal Husbandry)	16	
District Clinical Laboratory	1	
Centralised Semen Collection Centre	1	
Poultry Marketing Sub-Centre	1	
Feed Mixing Plant	1	Under the control of A.P.D.D.F.
Milk Cooling Centres	2	

Artificial Insemination Work: As on 1-1-1970, there were 30 artificial insemination centres functioning with Liquid Semen Process. Consequent on the establishment of Indo-Swiss Project, the artificial insemination work was introduced with Frozen Semen and now there are 77 artificial Insemination Centres in the district covered by Frozen Semen technology only.

Fodder Development : After the formation of Indo-Swiss Project, the attention over the fodder development increased to boost up the milk production. At present fodder production is introduced in 931 hectares in this district with perennial grass like Guinea, Para N.B. 21, Cowpea and M. P. Chari etc, as seasonal plots.

Dairy Development and other developmental activities : One Milk Cooling Centre is functioning at Arasavilli and serving the ryots by collecting the milk available with them and marketing the same to consumers at Srikakulam and supplying the excess milk to the Co-operative dairy Vishakhapatnam.

One more mini-milk Chilling Centre is functioning at Seethampeta serving the tribal beneficiaries. The departmental agencies like D. R. D. A., I. T. D. A., S. C. B. C. Corporation, State Women Welfare Advisory Board and all Commercial and Co-operative Banks are financing the Small Farmers, marginal farmers and agricultural labourers in establishing dairy units, poultry units, piggery units etc., on subsidised basis.

Poultry Complex : A poultry Complex was started at Kusalapuram near Srikakulam with 10 breeders. Seven have already been supplied with 1,000 day old chicks. The breeders have been provided with 20 cents land on long lease basis. They have also been provided loan through commercial banks and subsidy from the Industries Department. The complex is in good progress.

Sheep production programme : A sheep production programme is implemented in the district and so far 2,583 sheep units were distributed with a

subsidy at 25% and 33⅓%, to Small Farmers, Marginal Farmers and Agricultural Labourers respectively, in the district. Under this programme an amount of Rs. 21.5 lakhs was spent so far towards subsidy.

Fishery : Srikakulam district is having a coastal line of 193 Kms. wits 104 fishermen villages and an approxinate one lakh fishermen population and 25,000 Inland Fishermen. There are 4,900 water Sources suitable for the growth of fish in the district.

The following are the developmental activities that were implemented in the district under Fisheries Programme during the decade from 1971 to 1980

1. The following societies are functioning in the district to cater to the financial needs of fishermen.

Name of the Society	No.of Societies functioning	member-ship	Paid up share capital (in Rs.)
1. Primary Fishermen Co-op. Societies	99	200	1,73,645
2. Harijan Fishermen Co-op. Societies	3	64	640
3. Girijan Fishermen Co-op. Societies	11	265	2,650
4. Burma Refugees Fishermen Co-op. Societies	2	111	5,700
5. Fisherwomen Co-op. Societies	2	205	2,050

2. For the production of Improved Variety of fingerlings, Fish Seed Farms were organised in Ichchapuram and Srikakulam and another in Tribal area i. e., at Demmangi. The annual production of fingerlings of these farms is 75 lakhs and due to the production of fingerlings 1,000 M. Tons of fish is being additionally produced in the district.

3. Under Tribal Development Programme, fingerlings with a value of Rs. 9,401/- were reared in 13 tanks. 44 Tribals were trained in Pisciculture by spending an amount of Rs. 2,448/- for training.

4. Under Harijan Development Scheme, 65 Harijans were given grant to a tune of Rs. 2,52,900/- for rearing fingerlings in four tanks in the district.

5. Nylon Yarn worth Rs. 55,000/- has been supplied to 542 inland fishermen on subsidy basis for the manufacturing of nylon nets.

6. Fisheries Extension Officers were appointed in the five coastal samithis in the district with an annual expenditure of Rs. 20.000/- each, per samithi, to render technical guidance to fishermen under Fisheries Extension Scheme.

7. The D. R. D. A. and various commercial Banks have given financial assistance to the tune of Rs. 68.46 lakhs to 12,074 to Coastal fishermen for the purchase of nylon yarn and to make nets. Due to this, they have caught prawns worth Rs. one crore and exported them to foreign countries and thus their standard of living has increased to a considerable extent.

8. The District Fisheries Commercial Co. op. Society has started functioning in the district during 1976 with a share capital of Rs. one lakh. It has purchased a Transport Van and exported 21 tons of prawn valued at Rs. 16 lakhs to Vishakhapatnam. This society has given 32 Mechanised boats costing Rs. 62 lakhs to Fishermen Co-operative Societies and trained fishermen on loan for the betterment of their fishing activities and to augment their income. It has also given training to 72 fishermen at C. I F. E., Kakinada for raising fish in salt waters.

9. It is also proposed by the Government of India to construct an Inland Fishermen Harbour at Bhavanapadu fishermen village in Tekkali taluk of Srikakulam District with an expenditure of Rs. 546.78 lakhs Due to this 200 mechanised boats can be landed in the harbour, 5,052 M. T. of fish can be extracted with an expected return of Rs. 453.63 lakhs per annum.

10. Under E. P. T. E. Schemes, there are proposals to form roads to all the coastal villages with an expenditure of Rs. 24.18 lakhs

11. Five Out - Board Motor Theppas with a cost of Rs. 0.75 lakhs were supplied to the coastal fishermen.

12. Pucca cyclone shelters were constructed in 33 fishermen villages nearly with an expenditure of Rs. 50 lakhs.

13. Under Fisheries Development Programme, an amount of Rs. 7.15 crores were spent by the Government on the various schemes noted above

and the fishermen are progressing well in all walks of life due to the implementation of these developmental activities.

Industry : Three large and medium scale industries have been commissioned in the district with a total investment of Rs. 196 lakhs providing employment to 1,474 persons.

With a total investment of Rs. 681.66 lakhs, 729 Small Scale Industrial Units have been commissioned generating employment to 8,332 persons.

Under Self Employment Programme, 215 Industrial Units and 188 Business Units were grounded, for which the department had released Rs. 8.79 lakhs towards margin money loan.

Under Special Employment Schemes, 80 Schemes costing Rs. 66.39 lakhs were put on ground providing employment to 218 persons. A margin money of Rs. 8.02 lakhs was released for setting up of these schemes.

Fifty two units were sanctioned and an amount of Rs 22,300/- was sanctioned towards power connection subsidy under Rural Artisan Programme. Forty five units were sanctioned under Rural Artisan Programme with Rs. 25,000/- towards workshed and subsidy. Tool kits worth Rs.57,000/- were supplied to 220 Rural Artisans on 100% subsidy under Rural artisans programme. Five Industrial Co operative Societies were sanctioned with Managerial Subsidy to a tune of Rs. 7,500/- under Rural Artisans Programme. 135 S.S.I. Units were sanctioned with Rs. 29.04 lakhs under Central Subsidy Scheme. 14 Units were sanctioned Rs. 1.76 lakhs towards Refund of Sales Tax under State Incentives (old). 4 Units were sanctioned power subsidy to a tune of Rs. 11,266/- under state incentives (old). 4 Units were sanctioned interest free tax loan to a tune of Rs. 1.02 lakhs under New Incentive Scheme. Under TRYSEM Programme 845 candidates have undergone training in 14 different trades and 373 artisans were supplied with tools kits on 100% subsidy.

Under I.R.D.P. programme 1,932 artisans were assisted and District Rural Development Agency and released subsidy to a tune of Rs. 9.72 lakhs. 4,385 artisans were sanctioned with Cottage Industries loans to a tune of Rs. 9.50 lakhs. 136 artisans engaged in leather trade were sanctioned loan of Rs. 18,774/-. 12 Industrial units were sanctioned loan of Rs. 28,000/- under State aid to Industries Act. Under 5,000 Scheduled Caste Action Plan, 334 scheduled cast artisans were sanctioned loan of Rs. 3.32 lakhs by various banks and the District Rural Development Agency had released Rs. 1.65 lakhs towards subsidy.

Trade and commerce : Srikakulam district is industrially very backward and there is no importance in terms of revenue (of commercial taxes) under Industrial Sector. The revenue of the district is mainly dependent upon agricultural commodities, namely paddy, jute, pulses, oil seeds, cashewnuts and coconuts. The revenue of the district under the control of two commercial tax officers is expected to be increased in the coming years as there will be a better supervision over the trade, as a new commercial tax Officer's post was created at Kasibugga with effect from 6-8-1980 in addition, to the one at Srikakulam.

Industrial Sector : There is one Sugar Factory at Amadalavalasa in this district. Rupees one laksh is being realised on the sales of molases from the factory every year.

2. There are three tiles factories at Ragolu.

3 There is one refined oil factory at Amadalavalasa and it is being run by Jamai Mills. They are having their Head Office at Vizianagaram and taxes are being paid to the Commercial Tax Officer at Vizianagaram.

II. Agricultural Sector : The following are the major commodities which are yielding more revenue in this district.

1. Paddy and Rice : The major crop in this district is paddy. There are nearly 35 Sheller Mills in the district. During the paddy season, several check points are run at the important places viz., Palakonda, Kothapeta, Tekkali, Palasa, Kanchili, Sompeta etc., in this district, and a close watch over this trade is kept.

2. Cashewnut : Palasa taluk is a centre for cashewnut trade. Cashewnuts crop is spread over in surrounding villages of Palasa, Sompeta and Ichchapuram taluks. Cashewnuts or cashew kernel are liable to tax at the point of first purchase in the State. The season for this trade commences from April and ends with September in every year. There will be small quantities of arrivals of cashewnuts from October to March.

During the season several check points are being run at Palasa Petrol Bunk, Roads leading to Sompeta and Akkupalli, Palasa R.S , Palasa Railway Gate, Mokharajola and other important places to check up the arrivals of cashewnuts and the sales of cashew kernels.

3. Groundnuts, Oil and Cake : Groundnut is also one of the main crops in this district. There are 10 mills at Srikakulam, Amadalavalasa. Kothapeta, Kotabommali, Korasavada, Palasa and Sompeta. The arrivals of groundnuts are watched by the territorial officers by running check points at Kothapeta, Palasa Railway Gate, Kanchili and Amadalavalasa Railway Gate. Besides the above Check points, there is also check at the two notified check posts at Srikakulam and Krishnapuram.

During the year 1978-79 and 1979-80 the crop has failed and due to importing of the refined oils viz , palm oil, sunflower oil, cotton seed, refined oil etc., there has been fall in revenue under this commodity in 1978-79 and 1979-80 when compared with the revenue realised in 1977-78.

4. Coconuts : Mainly the dealers at Kanchili are purchasing coconuts purely on commission basis, as and when the stock is lifted by them either through Railway Wagons or Lorries. The dealers are accounting for the transactions and paying A P.G. S.T. on last purchase of coconuts.

The trade in this commodity is concentrated in Sompeta and Ichchapuram Taluks. This is being checked up by the territorial officers in the respective taluks by making frequent visits in that area and also by constant watch over the weekly shandies in the jurisdiction.

5. Jute : Pathapatnam, Srikakulam, Narasannapet, Rajam, Ponduru, Ranasthalam and Palakonda taluks are the main centres in this district for the jute crop. The dealers in Jute business in this district are purchasing jute from ryots and selling part of the stocks to the jute mills of other districts in this state and part of the stocks are exported to Calcutta Jute Mills. The C.S.T. is being realised on such exports besides A.P.G.S.T. as last purchase. The revenue per year under both acts is nearly about 4 to 5 lakhs.

Transport : During the decade 1971 to 1981 there has been considerable increase in the motor vehicles traffic in Srikakulam district. While there were 1,189 motor vehicles on road in 1971 in the then composite Srikakulam district, there were 1,519 motor vehicles in 1981 in the present Srikakulam district itself. Keeping in view of the increased population and the new roads laid in the district, 69 additional buses have been introduced during the decade in question partly augmenting the services on existing routes and partly connecting the hither to unserved areas in the district.

Under the village Link Transport Scheme introduced in 1979, the programme of extending passenger services to rural area was briskly taken up and as many as 452 villages which were hitherto unconnected by transport were connected by opening new routes or by changing the existing routes.

In the field of goods transport, conspicuous development during the decade has taken place due to the grant of nation-wide permits to goods vehicles. In Srikakulam district 11 goods vehicles have been issued with national permits.

The district has a net work of roads in the plains portion. The National Highway from Madras to Calcutta passes through Ranasthalam, Ponduru, Srikakulam, Amadalavalasa, Narasannapet, Tekkali, Kotabommali, Palasa, Sompeta and Ichchapuram Taluks of this district. Roads from this district lead to Vizianagaram district and adjoining State of Orissa. Madras-Calcutta Broad gauge line of the S. E. Railway traverses the taluks of Amadalavalasa, Srikakulam, Narasannapet, Kotabommali, Tekkali, Palasa, Sompeta, Ichchapuram and Ponduru taluks. The district has got 22 broad-gauge and 5 narrow gauge railway stations covering 175 and 37 Kms of railway line respectively. The narrow gauge line which takes off from Naupada in Tekkali taluk proceeds to Parlakimidi and Gunupur in Orissa State via Pathapatnam. The nearest railway station to Srikakulam, the District headquarters is Srikakulam Road on Madras-Calcutta Broad gauge line. The district is well served as regards to postal facilities. The district has a minor sea port at Kalingapatnam.

Places of Interest : Places of Religious, Historical or Archaeological importance.

Places of religious institutions (temples) and mutts and of historical or archaelogical importance in Srikakulam district are presented in the following statement for the convenience of the reader.

Statement Showing the Monuments, Temples and Mutts

SRIKAKULAM DISTRICT

Sl. No.	Taluk	Name of the town/village	Name of the Monument Temples/Mutts
1	2	3	4
1.	Narasannapet	1. Durghasi	*Telugu Inscriptions*
		2. Borigivalasa	Sri Venkateswara Swamy Temple
2.	Srikakulam	1. Patha Srikakulam	Jumma Masjid
		2. *Arasavilli	Sri Suryanarayana Swamy *Temple*
		3. **Srikurmam	Kurmananda Swamyvari Temple
3.	Pathapatnam	1. Mukhalingam	Sri Mukhalingeswara Swamy *Temple*
		2. Mukhalingam	Sri Radha Govinda Mutt
		3. *Kottapalle*	*Sri Radhakanth Mutt*
4.	Palakonda	*Palakonda*	*Sri Gokarna Mutt*
5.	Sompeta	1. *Sariapalle*	Sri Lakshminarayana Mutt
		2. Jalantrakota	Sri Balaji Mutt
		3. Poornasasanam h/o. Sasanam	Sri Chaitanyanityananda Mutt
		4. Kanchili	Sri Jagannadha Swamy Mutt
6.	Tekkali	1. Syamasundarapuram	Sri Jagannadha Mutt
		2 Tekkali	Sri Lakshmana Balaji Mutt
			Sri Radha Kantha Mutt

* The above named institution has an income of Rs. One Lakh and above.

** The above named institution has an income of Rs. Twenty Thousands and above but less than Rs. One Lakh.

PLACES OF TOURIST INTEREST

Kaviti: This village lies on the southern side of Ichchapuram taluk. The coastal belt at this place presents a pleasant appearance as it is covered with large extents of coconut, cashew and jack-fruit plantations. The Uddanam or Udyanavanam area is a scenic spot and is delightful.

Narasannapet: Situated at a distance of 25 kms. from Srikakulam, Narasannapet is the headquarters of the taluk of the same name. Narasannapet is connected by road and the national highway passing through this place is joined by the Kimidi-Kalingapatnam road. Rice milling, handloom weaving and oil pressing are the chief industries at the place. The Venkateswara Kalyanotsavam held in April-May and Jagannathaswami car festival held in June-July attract a large number of devotees.

Palakonda: Palakonda is situated at a distance of 46 kms. from Srikakulam town and is the headquarters of Palakonda taluk. The town is connected by road on which buses ply regularly to the district headquarters town and other important centres. The town contains a small scale industries centre. During June-July Jagannathaswami car festival attracts a large number of devotees.

Srimukhalingam: (Mukhalingam) Srimukhalingam is situated at a distance of about 32 kms. from Pathapatnam. It is famous for the temple of Srimukhalingeswara (Siva), believed to have been built in 9th century. The sculpture in this temple is remarkably elegant and precise and represents the Indo-Aryan style of architecture. The Mahasivarathri festival celebrated every year is attended by about 25,000 pilgrims.

Baruva: Baruva in Sompeta taluk is situated at a distance of 109 kms. from Srikakulam town. A number of buses ply to this place providing link to the urban area Baruva is an important seaport in this district. Two obelisks, one of black and the other of white, fifty feet high, constructed on a site 15 feet above the sea, mark the seaport. Large groves of coconut trees and the green paddy fields make the place picturesque. The swamy seashore which abounds in duck and fish is famous for duck shooting and fishing.

Mandasa: This place is situated at a distance of 26 kms. from Sompeta. At the foot of the Mahendragiri, there is a fort which is considered to be the highest in South India and it is a place of tourist interest. In the village, the temple of Varahaswami attracts the attention of the tourists.

Palasa: Palasa town the headquarters of the taluk of the same name is situated at a distance of 82 kms. from Srikakulam Road. Palasa is famous for cashewnut industry and the cashewnut produ-

ced here is exported to foreign countries and a considerable amount of foreign exchange is earned.

Srikurmam : The Srikurmam village is situated at a distance of 14.5 Kms. to the South-East of Srikakulam town. The village was named after the temple, the presiding deity of which is Lord Vishnu in Kurmavatara. Srikurmam is a famous place of pilgrimage and the temple here is the only one of its kind in the whole of India. The temple is noted for its architectural beauty and contains many inscriptions ranging from the eleventh century A.D. to the nineteenth century A.D. These inscriptions throw light on the different dynasties which have held sway over this region. 'Dolotsavam' is the important festival and more than 20,000 pilgrims congregate on this occasion.

Tekkali : Tekkali is situated at a distance of 55 Kms. from Srikakulam town. It is the headquarters of the taluk and revenue division of the same name. The town owes its importance to a number of cottage industries. The most important of them are those manufacturing bronze vessels. utensils and brasspots. A large number of devotees attend Janardhanaswami festival (June-July) and the Dolotsavam (February-March).

Arasavilli : It is situated at a distance of about 3.5 Kms. from Srikakulam and 17 Kms. from Srikakulam road railway station on the Waltair-Howrah line. The original name is believed to have been Harshavalli or Abode of joy. Another version credits this place with curing of piles and indicates the name of the village as Arsohari (also means piles). The present name is the corrupted form of either of the two names mentioned above. The famous Sun-God temple situated in Arasavilli village is one of the ancient and very few Sun-God temples in our country. The Sthalapurana of this temple narrates that Lord Devendra had founded this temple and installed the existing idol of the Sun-God commonly known as Lord Suryanarayanaswamyvaru. The temple is built in such a way that the sun-rays appear on the feet of the God twice in a year in the months of February and June in the early hours of the day. The rays are focussed on the feet of the idol for few minutes though the five entrance gates of the temple remain closed for a few minutes.

The five idols installed in one place in the temple namely (1) Aditya, (2) Ambica, (3) Vishnu, (4) Ganesa and (5) Maheswara, represent all the faiths. The Sun-God is depicted as riding over a chariot drawn by seven horses driven by Anuru the Ratha Sarathi. All these figures are exquisitely carved out of a single black granite stone.

The Kalyanotsavam at Suryanarayana temple is for 6 days from Chaitra Suddha Ekadasi to Bahula Padyami (March-April) during which period, Kalyanam on Ekadasi and car festival on Triodasi are the important rituals. Krishna Navarathrulu for 9 days from Sravana Bahula Ashtami (July-August), Ksheerabdhyuthsavam or Theppa Thirunala or the floating festival of the Lord in Surya Pushkarini on Karteeka Suddha Dwadasi (October-November), Surya Jayanthi or Rathasapthami on Magha Suddha Saptami (January-February), Kama Dahanam on Phalguna Suddha Chaturdasi (February-March) and Dolotsavam on Purnima are the other festivals at the temple. Sundays during the five months from Magham are considered sacred and pilgrims in thousands congregate during Sundays to offer the hair of their children and to perform marriages in the temple as well as in the choultry attached to the temple

CENSUS CONCEPTS

Rural and urban areas : It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i.e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 persons while provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied through out the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census Operations, however, was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census.

i) A minimum population of 5,000,

ii) Atleast 75% of the male working population is in non-agricultural pursuit,

iii) A density of population of atleast 400 persons per sq. km.

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below :

Classification of towns		Population size
Class	I	100,000 and above
Class	II	50,000 - 99,999
Class	III	20,000 - 49,999
Class	IV	10,000 - 19,999
Class	V	5,000 - 9,999
Class	VI	below 5,000

The class I towns are termed as cities.

Standard Urban Areas : Besides classification of all places into rural and urban areas, two more concepts viz., Urban Agglomeration and Standard Urban Area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of a standard urban area are : (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaced the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessary contiguous to one another but were to some extent inter-dependent. The data for such town groups become incomparable from census to census as the boundares of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971 Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or

three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripherial units.

Urban Agglomeration : Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An urban agglomeration constitutes.

a) A city with continuous out growth (the part of outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages) ;

b) One town with similar outgrowth or two or more adjoining towns with their out growths as in (a) ;

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz, Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House : A census house is a building or part of a building having a separate main entrance from the road or common court yard or stair case etc., used or recognised as a separate unit. It may be inhabited or vacant.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes/Scheduled Tribes : Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes/Tribes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes orders (Amendment) Act, 1976, notified under the Government of India, Ministry of Home Affairs, Notification No. BC 12016/34/76-SCT-V dated 27-7-1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates : A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker : The definition of work adopted in 1981 Census is as follows :

> "Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work."

In the concept of work, a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired according as he spent his time basically as a 'worker', engaged in production of goods and services or as a non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work such as agriculture, etc , the last one year. Persons engaged atleast for a day in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person who was basically a non-worker, such as a student, or housewife but had made some marginal contri-

bution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have as detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-Workers : All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven cetegories :

1. Household duties i.e., all those persons basically engaged in unpaid home duties doing no other work ;
2. Students i.e., all full-time students or children attending school ;
3. Retired persons or a rentier i e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work ;
4. Dependent i.e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either, but are purely dependent.
5. Beggars, etc., i.e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistance and who are not engaged in any economically productive work ;
6. Institutional inmates i.e., a convict in a jail or an inmate of penal, mental or charitable institution ; and
7. Other non-workers-all non-workers who may not come under any of the above six categories.

Marginal Workers : A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz., the District Gazetteer consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of volume B was also stopped after 1931 Census. Due to the II world war, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Prakasam have been published.

The Village Statements: Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement, for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

District Census Handbooks: Sri R. A. Gopala Swamy, I.C.S., the then Registrar General, India and Ex-officio census commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the last censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing the administrative statistics and Part II the census tables whereas in composite Madras State, the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961: At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz., General population tables, economic tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of village and town directory which was the most vital part of the Handbook, giving the village-wise and town-wise primary census abstract i.e., particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public

health and communication facilities available were also indicated against each village and town. Nine such tables containing village-wise particulars such as irrigation sources, important crops raised, value of land, cooperative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census : At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons- 1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., part A, part B and part C as shown below :

Part — A : Village and Town Directory

Part — B : Village and Town Primary Census Abstract

Part — C : Administrative Statistics and Report

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However the printing of part C was given up.

Pattern at 1981 Census : At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in single volume, the grouping of which would enhance the value of publication as the data given therein are closely interrelated.

Part — A : Analytical Note

Part — B : Village and Town Directory and village and Town-Wise Primary Census Abstract.

It has been decided not to go in for administrative statistics that is part-C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics, would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern as canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory : As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook (DCH). For convenience of references an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P&T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars.

There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Cols. 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or under water, etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests (Col. 15) — These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owend or Private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and unirrigated Cols. (16 & 17) — This includes the land under the following three categories.

(i) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) Other fallows :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerate nature of farming, etc.

(iii) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. Culturable waste (Column 18) — This Includes the land under the following three categories.

(i) Permanent pastures and other grazing lands :

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) Miscellaneous tree crops. groves not included in the area sown :

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) Culturable waste :

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation. (Col. 19)

This includes the land under the following two categories.

(i) Land put to non-agricultural uses:

All lands occupied by buildings, roads and railways or underwaters, e.g., rivers and canals and other lands put to uses other than agricultural.

(ii) Barren and uncultivable land :

This covers all barren and un-cultivable land like mountains, etc., i.e., which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest, and for information on the number of copies of newspapers circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village.

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned.

In the Appendix to the village directory, taluk level totals of the amenities have been furnished which gives the picture for the district as a whole. At the 1981 Census, additional items viz., total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back ground that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory : There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted at 1971 Census except for a few additional columns. The titles of the statments are as follows :

Statement I : Status and growth history

Statement II : Physical aspects and location of towns, 1979

Statement III : Municipal finance, 1978-79

Statement IV : Civic and other amenities, 1979

Statement IVA : Civic and other amenities in notified slums, 1979

Statement V : Medical, educational, recreational and cultural facilities in towns, 1979

Statement VI : Trade, commerce, industry and banking, 1979

With a view to facilitate analysis of data, a a few new columns have been introduced. The columns-class of Town, in every statement is a significant addition. By taking the class of town into consideration, the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of civic administrative status in statement III and IV and population in Statement IV and V also serve the same purpose. The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. As a sequel to this programme the columns, scheduled castes and scheduled tribes population in Statement IV and Adult literacy classes/centres in Statement V are identical.

In case such of the amenity as Fire Fighting Service in Statement IV, the educational facility in Statement V is not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same state or other state where available along with its distance from the referrent town has been given. This is a new feature of 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement VII i. e., population by religion and scheduled castes/scheduled tribes in towns of 1971 Census was discontinued at the 1981 Census and a new Statement IV A has been introduced to explore

the possibility of civic and other amenities available in notified slums in Class I and II towns only.

The following eleven places form part of urban in Srikakulam district at the 1981 Census.

1 Amadalavalasa
2 Ichchapuram
3 Mandasa
4 Narasannapet
5 Palakonda
6 Palasa
7 Parasamba@ Kasibugga
8 Rajam
9 Sompeta
10 Srikakulam
11 Tekkali

Of these, Srikakulam only is the municipality and all others are panchayat towns.

Among the eleven towns mentioned above, Ichchapuram, Narasannapet, Palakonda, Rajam, Sompeta, Srikakulam and Tekkali were treated as towns as early as in 1901. Among the remaining Mandasa was declared as town in 1941. The remaining three towns viz:- Amadalavalasa, Palasa and Parasamba alias Kasibugga have been recognised as urban areas in 1971 Census.

None of the towns in this district has been treated as Urban Agglomeration. Srikakulam town with some of its surrounding villages as detailed below is treated as a standard urban area in this district.

Standard Urban Area	Component Units	
	Urban	Rural
(1)	(2)	(3)
1 Srikakulam	1 Srikakulam (M)	1 Akkivaram
		2 Rajolu
		3 Gudem
		4 Patrunivalasa
		5 Balaga (R)
		6 Patha Srikakulam (R)
		7 Arasavilli (R)
		8 Peddapadu
		9 Voppangi

There are no Class I towns i.e.. towns with a population of one lakh or more. Srikakulam, the district headquarters, is the only Class II town with a population of 50,000 to 99,999. Palakonda is a Class III town whose population ranges from 20,000 to 49,999. Amadalavalasa, Ichchapuram, Narasannapet, Palasa, Parasamba alias Kasibugga, Rajam, Sompeta and Tekkali are the eight towns next in the order and are class IV towns in population of which ranges from 10,000 to 19,999 each. Mandasa is a class V town with a population of 5,000 to 9,999. There are no class VI towns with a population of less than 5,000 in the district. The urban population of the district is 213,404 persons consti tuting 10.89% of the total population. The corresponding urban population in 1971 was 163,616 persons constituting 9.24% of the total population of the district. Srikakulam town has a population of 68,145 persons and is the largest town in this district from the point of view of population and also area.

Statement I : Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 census and sex ratio from 1961 to 1981 censuses of each town in columns 2 to 19.

In this as well as in all other Town Directory Statements, columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of Town Directory data at the state and all India levels. This is presented according to 1981 population of the core town, as per the population size classification.

Population	Class
100 000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like 'M' for Municipality and 'P' for Panchayat. The location code number under Col. 3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at state and all India level. Area in Sq. Kms. and number of households including houseless households for each town is included in the Town Directory for the first time in 1981 Census. The population of the town with decadal growth rate from 1901 Census to 1981 is given in Cols. 7 to 15. The percentage growth rate is indicated below the population

in brackets. Density for 1981 is a new column introduced (Col. 16) to facilitate analysis of Town Directory Data. It has been calculated taking into account the area and the population of 1981 Census of the town and presented per Sq. Km. Sex ratio from 1961 to 1981 Censuses has been given in Cols. 17 to 19. This is also a new addition to facilitate analysis of Town Directory data. Sex ratio defined here is number of females per 1,000 males.

Amadalavalasa, Palasa and Parasamba alias Kasibugga were declared as towns in 1971 but they have shown considerable growth in their population during the decade 1971 to '80

There is a fall in the population of Ichchapuram in 1911 Census. The emigration of the local people to Burma as also to Berhampur in Orissa for purposes of education and employment, had resulted in the poor growth of population in the subsequent decades.

Mandasa was once the headquarters of the Rajah of Mandasa. Due to the abolition of Zamindari and the consequent emigration of a number of settlers from Madras who were engaged in old Samsthanam there was a fall in its population at 1951 Census. The location of a Development Block in 1956 helped the town to increase its population.

Due to the epidemics that spread during 1911 and 1941, Narasannapet suffered a fall of population and gradual growth of population in the subsequent censuses can be noticed.

Palakonda showed a decline of population in 1931 Cesus. This fall might be due to drought and epidemics prevailing at that time.

Rajam also suffered a fall of population both at 1911 and 1921 censuses.

Sompeta showed a decline of population in 1921 and 1941. This was due to the emigration of several families to the tea estates of Assam, Burma, Andaman islands and also to Nairobi.

Srikakulam showed a decline in its population at 1911 and 1921 censuses. At the 1931 census, the town had registered only a slight increase of 1.78% over its previous population. Some of the neighbouring towns with vast employment opportunities have attracted a large number of people from this town in the earlier decades of this century. In the later half of the century, on the formation of a separate district in 1950, the location of the district headquarters, the establishment of the District Judge's Court and also the expansion of town by including certain adjoining areas during 1951-61 had resulted in considerable growth of population of the town.

Tekkali had shown a continous growth in its population. But the growth is not proportionate compared to the average trend in the state.

Of the eleven towns in the district, Srikakulam town is having an area of 14.12 Sq. Kms. Next to it comes Sompeta panchayat (11.10 Sq. Kms.). The third important town as far as area is concerned is Palakonda with an area of 10.90 Sq. Kms.

Srikakulam with an area of 14.12 Sq. Kms. records the highest density of 4,826 persons per Sq. Kms. as against the district average density of 336 persons per Sq. Km.

Statement II : Physical aspects and location of Towns, 1979

This statement has 12 columns and depicts physical aspects and location of towns in the district. Under Cols. 3 to 5 in the statement, data relating to the rainfall and the maximum and minimum temperatures recorded in 1971 were given. If this information was not available for any town, the particulars available for that nearest town have been given against such town.

The district has a satisfactory net work of road and rail communications in the plains area. All the eleven towns are connected by buses. Besides the road communications, the district is also served by rail transport. The broad-gauge as well as metre gauge lines pass through the district. There is also a narrow-gauge line passing through this district connecting Tekkali and Pathapatnam. Narasannapet, Palakonda, Parasamba alias Kasibugga, Rajam and Srikakulam are not directly connected with the rail communications and they are at a distance 5, 59, 2, 18 & 10 Kms. to the nearest railway station.

The district is also provided with navigation facilities through river Nagavalli providing cheap cargo and passenger transport facility.

Statement III : Municipal Finance, 1978-79

The data for inclusion in this statement was obtained from the respective statutory and non-statutory bodies from their budgets and accounts.

. The table shows that no town has an excess of expenditure over income except Rajam and Tekkali which are running on deficit budget. In Ichchapuram, Palakonda, Rajam and Tekkali towns, nearly 25% of the total receipts is utilised for purposes of public health and conveniences. For public institutions like schools and libraries, except Srikakulam, Amadalavalasa and Palakonda, the rest of the towns have spent very little or nothing from their incomes.

Statement IV : Civic and other amenities, 1979

As the title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

The facility of open surface drains is available in all the towns. Besides this facility, sewerage and sylk drains facilities are also available in some of the towns. All the towns have protected water supply, the particulars of Parasamba @ Kasibugga are not available. The people in the towns mostly depend on wells for their drinking water and domestic purposes.

All the eleven towns have electric supply for domestic as well as industrial purposes.

In Andhra Pradesh domestic service includes supply of energy for lighting, fans and other domestic purposes within the premises and supply in poultry farming units upto 100 birds. Industrial service means supply for purposes of manufacturing, processing and or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and grain mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government Departments or Co-operative house building societies and pumpsets of Railways for whatever purpose they may be used. Commercial service includes the supply of energy for lights, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, thoroughfares including parks, markets, cart stands, bridges and for traffic signalling. Supply of energy to places of worship like churches, temples, mosques, gurudwaras, educational institutions, student hostels, municipal guest houses T. Bs, Circuit houses of the Government Charitable institutions and recognised service/institutions are included in 'Others'.

Srikakulam has the highest number of industrial connections followed by Amadalavalasa. Srikakulam has the largest number of road lighting points, the next largest being Ichchapuram town.

Statement IV A : Civic and other amenities in notified slums, 1979

This is a new statement on civic and other amenities provided to the people living in notified or recognised slums in Classs I and II towns. Since the magnitude of slum is greater in respect of Class I and II towns, presentation of data on slums is limited to class I and II towns only. Srikakulam is the only Class II town in this district.

Statement V : Medical, Educational Recreational and Cultural facilities in towns, 1979

In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district All the towns in the district together have 56 medical institutions which include hospitals, dispensaries, nursing homes, maternity and child-welfare centres, TB clinic and leprosy centre. The total bed strength available in all the 56 medical institutions is 887 to cater the needs of the entire urban population of 213, 404 persons in the district. Srikakulam and Sompeta towns with a bed strength of 452 and 170 respectively, have more number of beds compared to other towns.

There are only 3 degree colleges, one in Tekkali, and 2 in Srikakulam besides a post graduate centre and a polytechnic college.

There are 9 Junior Colleges or Higher Secondary Schools, 21 Secondary or High Schools, 29 Junior Secondary or Middle Schools and 80 Primary Schools in all towns put together in the district.

A different method has been adopted in presenting the number of educational institutions. Composite schools like middle schools with primary classes or secondary schools with middle classes have been included in the number of primary and middle schools respectively. For Example, if in a town there are two primary schools upto say Class IV and one high school from Class I to Class X, the number of primary schools in the town is given as 3 and that of middle school as one and secondary school as one eventhough there are physically only three educational institutions. Again a composite

school having classes upto class XII have been divided as shown below :

Class	I	to	IV	: Primary
Class	V	to	VIII	: Middle
Class	IX	to	X	: Secondary
Class	XI	to	XII	: Higher Secondary

Thus the number of educational institutions physically existing within a town have not been presented but has been presented by the grouping of the classes in the institutions and treating each group as a school of its kind. This grouping holds true irrespective of educational institutions they belong to. For instance, the grouping marked as Higher Secondary i.e., Class XI and XII may physically belong to a college but for fhe purpose of Town Directory these two classes put together constitute one unit of a Higher Secondary School and the rest of the college has been treated as a college.

There are no stadia in urban areas of the district. There are 21 cinema halls, 2 auditoria and 23 public libraries including reading rooms in all the eleven towns together.

Statement VI : Trade, Commerce, Industry and Banking, 1979

Srikakulam district is one of the backward districts in respect of major industries. The district is devoid of major industries but for a sugar factory at Amadalavalasa, inspite of its importance in agriculture and forest wealth. Mesta is one of the major cash crops raised in the district and all the mesta produced is being exported to calcutta.

The district is rich in mineral wealth particularly in manganese and lime, graphite, white clay, mica and quartz are also available in Ranasthalam and Rajam. There are cashewnut processing units at Palasa, salt extraction units along the coast and workshops relating to light engineering and agricultural implements at Srikakulam and Palasa. Brass and copper utensils are made in Srikakulam. Baruva is known for coir making.

The district is served by a net work of 39 banks of which 9 are located in Srikakulam, 4 each in Amadalavalasa and Rajam, 3 each in Ichchapuram, Narasannapet, Palakonda, Parasamba alias Kasibugga, Sompeta and Tekkali, 2 each in Mandasa and Palasa.

Ten agricultural credit societies and 123 non-agricultural credit societies are serving the total urban population of the district.

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. The Primary Census Abstract and some other tables till the 1971 Census, were generated by breaking the Individual Slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the Individual Slips. The data on Primary Census Abstract was obtained by compilation of data available in Part-II of the Household Schedule, namely population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/locality/block of a town in urban areas.

1 Location code number and name of village/ town and area

2 Total number of occupied residential houses and total number of households

3 Total population and its sex breakup

4 Population of Scheduled Castes and Scheduled Tribes by sex breakup

5 Literate persons by sex

6 Total main workers (I to IX categories) and the breakup of the workers into four broad categories viz.,

Category	I	: Cultivators
Category	II	: Agricultural Labourers
Category	V(a)	: Household Industry
Category	III,IV, V (b) & VI to IX	: Other workers and also the marginal workers and non-workers by sex.

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year. Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in the Primary Census Abstract, villages and towns have been arranged in the ascending order of their L.C. Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L.C. Numbers is given at the beginning of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract is required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 whether they lived in normal residential houses or huts or in institutions like hospitals, hostels, asylums, boarding houses, hotels, etc. or where houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of Srikakulam district is as follows :

	Persons	Males	Females
Total	1,959,352	968,585	990,767
Rural	1,745,948	861,746	884,202
Urban	213,404	106,839	106,565

Col No. 1 & 2 indicate L. C. No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Srikakulam district and ending with Nalgonda district. In this process Srikakulam district was allotted L. C. No. 1. Likewise the taluks in each district were given numbers serially in a clockwise order and the villages in each taluk were assigned serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L C Nos. of villages were given in arabic numerals while those of towns in roman numerals.

Col. 3 : This column shows the area of villages in hectares while the area of town is given in sq. Kms. based on the information furnished by the respective state agencies. Where the area of a particular village/town was not available, the fact was noted as N. A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P. C. A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly, the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The area figures of the districts in the state are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a district put together may not tally with the district area figures.

Col. 4 : Number of occupied residential houses in a village/town includes partly residential houses also.

Col. 5 : This column includes houseless households and institutional households as well.

Cols. 6 to 8 : Total population includes houseless and institutional population with sex break up.

Cols. 9 to 12 : Under these columns the population of S. Cs. and S. Ts by sex is given. A copy of the list of S.Cs. and S.Ts. in Andhra Pradesh as notified in Presidential Order No. BC 12016/34/76-SCT V dated 27-7-1977 is appended hereunder.

30 Thoti (in Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31 Valmiki (in the Agency tracts)
32 Yenadis
33 Yerukulas

Cols. 13 & 14 : Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Col. 15 to 28 : At the 1981 Census, population has been broadly divided into three sections based on main activity viz., workers, marginal workers, non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note

Work : Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more, in other words worked 6 months or more are classified under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator : For purposes of census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer : A person who works in another persons land for wages in money, kind or share is regarded as agricultural labourer. An

agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry : Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers : All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 405,479 occupied residential houses and 421,430 households in Srikakulam district compared to 366,459 residential houses and 374,298 households in 1971 registering an increase of 10.65% in number of residential houses and 12.59% in number of households.

The total number of persons returned at the 1981 Census in Srikakulam district is 1,959,352 as against 1,769,968 in 1971 Census, thus recording an increase of 10.70% as against the State's growth rate of 23.10%. The proportion of rural and urban population to the total population in the district works out to 89.11% and 10.89% respectively in 1981 Census compared to 90.76% and 9.24% in 1971. There are 1,023 females per every 1,000 males at the 1981 Census when compared with state index of 975 females per every 1,000 males. The ratio of 1,033 females per every 1,000 males was recorded at 1971 Census.

Srikakulam district returned 445 209 literates at 1981 Census forming 22.72% of the total population of the district, compared with 336,045 literates constituting 18.99% at 1971 Census. The sex break up of literacy rates during 1981 Census is 32.65% among males and 13.02% among females. Rural-Urban break up of literacy rates indicate 19.61% of population are literates in rural. While this is 48.15% in urban population. The corresponding rural and urban rates of literacy at 1971 are 16.66% and 41.86% respectively.

In Srikakulam district there are 961,298 workers constituting 49.06% of the total population as against 753,691 workers forming 42.58% in 1971 Census. Among males the workers constituted 59.06% while among females only 39.29% are workers.

BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA

There are 2,059 villages in the district at the 1981 Census. Out of 2,059 villages, 1921 are inhabited while 138 villages are uninhabited. As explained in detail under statement 1 (the jurisdictional changes) 14 villages are returned as newly sprung up during the decade. Of the 14 newly sprung up villages, one village is fully included in Narasannapet town by loosing its rural character. Eight inhabited villages are reported as partly included in different towns of the district. 26 villages which are fully included in urban areas are not taken into account in arriving the total number of villages in the district. The following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

Srikakulam taluk has more urban population than other taluks, while Rajam taluk has the least urban population as per 1981 Census and five taluks are returned as exclusively rural taluks.

The following table shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 500-1,999 population and form 46.49% of total villages in this district.

Table 3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3
- 199	340	17.70
200 - 499	496	25.82
500 - 1,999	893	46.49
2,000 - 4,999	173	9.01
5,000 - 9,999	17	0.88
10,000 +	2	0.10
Total	1,921	100.00

The following table presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per sq. km. of each village have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observd in the density range of 301-500. More than 70% of villages come under density group 201 and above. This district has returned a density of 336 persons per square kilometre as against 195 persons for the state.

Table 4

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq. Km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
- 10	11	0.57
11 - 20	16	0.83

101 - 200	278	14.47
201 - 300	348	18.12
301 - 500	578	30.09
501 +	486	25.30
Not known	28	1.46
Total :	1,921	100.00

According to 1981 Census, the population of Scheduled Castes in Srikakulam district is 179,775 accounting for 9.18% of the total population of the district. Scheduled Caste population in this district forms 2.26% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range in the following table. Nearly 53% of the villages have Scheduled Caste population in a percentage range between 0-5 and 11-15. Only 28.01% of villages are without Scheduled Caste population.

Table 5

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Castes population to total Population	No. of villages in each range	Percentage of villages in each range
1	2	3
NIL	538	28.01
- 5	430	22.39
6 - 10	327	17.02
11 - 15	254	13.22
16 - 20	128	6.66
21 - 30	157	8.17
31 and above	87	4.53
Total	1,921	100.00

The Scheduled Tribes population in the district is 105,142 persons forming 5.37% of the total population of the district. As presented in Table 6, 21.24% of the total villages in the district have returned the proportion of Scheduled Tribe Population less than 5% range. More than 50% of the total number of villages have no Scheduled Tribe Population. Among the taluks, highest proportion of Scheduled Tribe population is returned in Hiramandalam taluk accounting for 16.77% of the total Scheduled Tribe population in the district.

Table 6

PROPORTION OF SCHEDULED TRIBE POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Tribe population to total population	No. of villages in each range	Percentage of villages in each range

36 - 50	28	1.46
51 and above	324	16.87
Total	1,921	100.00

Table 7 provides the total population, Scheduled caste and Scheduled tribe population and the percentage of scheduled caste and scheduled tribe population to total population of the towns in the district.

The total scheduled castes population in all the urban areas of the district at 1981 census was 17,819 persons representing 8.35% of the total urban population. Among the towns, proportion of scheduled castes population varies from 4.13% in Ichchapuram to 15.27% in Rajam town.

The scheduled tribes population in urban areas of the district according to 1981 census was 1,306 persons constituting 0.61% of the total urban population. The proportion of scheduled tribes population varies from 0.05% in Palasa town to 1.98% in Mandasa town.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

The following table 8 gives the literacy rates by population ranges of villages in the district. Srikakulam district occupies 19th rank in literacy amongst the districts in Andhra Pradesh State. The proportion of literates of this district constitutes 2.78% of total Andhra Pradesh literates.

Highest literacy rate of 26.76% is found in villages with 10,000 + population.

Table 8

LITERACY RATES BY POPULATION RANGES OF VILLAGES

Table 9 shows the literacy rates for the towns in the district as per 1981 census.

The literates in all the eleven urban areas in the district together constitute 102,758 persons forming 48.15% of the urban population. Among the towns, the literacy rate varies from 34.78% in Palasa to 57.91% in Srikakulam. Being the district headquarters and the location of several district administrative offices and educational institutions, Srikakulam town tops in proportions of literates.

Table 9

LITERACY RATES FOR TOWNS

Name of the town	Literacy rate
1	2
Amadalavalasa	50.18
Ichchapuram	36.68
Mandasa	37.40
Narasannapet	51.10
Palakonda	37.95
Palasa	34.78
Parasamba @ Kasibugga	51.45
Rajam	44.08
Sompeta	42.11
Srikakulam	57.91
Tekkali	47.43
All Towns	**48.15**

Table 10 presents the proportions of literates, workers, non-workers, scheduled castes/scheduled tribes population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is a high concentration of scheduled castes and scheduled tribes population in the rural areas than in the urban areas.

Srikakulam district has returned 22.72% of the total population of the district as literates. Srikakulam taluk has returned 34.14% of literates and this is the highest in the district. Pathapatnam taluk has returned the largest number of workers 94,415 in its rural areas accounting for 10.59% of the total rural workers of the district and 53.03% of the total population of the taluk. Kotabommali taluk stands first among the taluks in the district in the proportion of workers to total population. Hiramandalam taluk has returned 17.07% of scheduled castes population while the least is in Ichchapuram taluk with 2.81%. In rural areas of taluks also, these two taluks have occupied the same positions as in total areas of the taluks. The percentage of scheduled caste population in urban areas range between 4.14% to 15.27% among the taluks. Hiramandalam taluk has recorded highest proportion of scheduled tribe population with 17.73% while Narasannapet taluk has the least proportion of scheduled tribe population with only 0.18%.

Distribution of villages according to the availability of different amenities by taluks is presented in the following table. As seen from the table, educational facility is available only to 82% of the total villages whereas drinking water facility is available in all the villages, while amenities of power supply, approach by pucca road, P & T and communication are available in respect of 39.72%, 37.95%, 29.20% and 24.10% of villages respectively. Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz., 9.68% of villages have medical facility and 3.38% of villages have market facilities.

The table clearly sets out the taluk-wise position of various amenities.

Table 11

Table 12 gives the proportion of rural population served by the different amenities and also provides this information taluk-wise.

25.40 percent of population has medical facilities while only 7% of the population has access to market facilities. Nearly 39% of the population has communication facility. More than 50% of the population has P & T, approach by pucca road and power supply, while almost 100% of the population has access to drinking water. Next to it, 95.68% of the rural population has education facilities.

Table 12

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

Sl.No.	Name of Taluk	Total population of inhabited villages in the Taluk	Proportion of Rural Population served by the amenity of							
			Education	Medical	Drinking Water	Post & Telegraph	Market	Communications	Approach by Pucca Road	Power Supply

Table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. Only 351 villages do not have education facility within the village, but these are available at different distance ranges. Large number of villages do not have market medical, communication and P & T facilities within the village, but are available at different distance ranges.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Village not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms.	5-10 kms.	10+kms.	Total (Cols.2-4)
1	2	3	4	5
1 Education	289	58	4	351
2 Medical	799	612	324	1,736
3 P & T	1,058	263	39	1,360
4 Market	639	691	526	1,856
5 Communication	946	397	115	1,458

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities.

13.12% of the villages have town within the range of 0-5 Kms. About 44.%98 of the villages have towns within a range of 6-15 Kms., while the balance i. e., 36.39% and 5.52% of villages have nearest town located within 16-50 Kms. and 51 + Kms. respectively. The Pattern of distribution of amenities in the villages, associated with the location of villages around the towns in terms of distances do not indicate any significant deviation from each other.

As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in Kms.)	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market	Communi-cation	Approach by Pucca Road	Power Supply

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500-1,999, 2,000-4,999, and 5,000 + are considered and the villages are distributed in these ranges. About 46.49% of the villages are in the range of 500-1,999, while the villages with less than 500 population and those in the range of 2,000-4,999 form 43.52% and 9.01% respectively. Only 0.99% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages falling in these ranges are also on the increase. As has been observed earlier only the medical and market facilities are not adequate in the villages falling in the ranges other than 5,000 +.

Table 15

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	No. of inhabited Villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market	Communi-cation	Approach by pucca Road	Power Supply

13	Ponduru	Rice, Millets
14	Ranasthalam	Rice, Ragi

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 69.98% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 356,536.93 hectares 176,128.59 hectares forming 49.40% is only tenable. Ichchapuram taluk has the largest percentage of cultivable area of 75.71% while the irrigated area is only about 28.08% of cultivable area. Narasannapet taluk which has the least proportion of cultivable area of 56.35% has the highest percentage of 91.84% irrigated area to total cultivable area of the taluk.

Table 17

Table 20 deals with the finances indicating the per capita receipt and expenditure in towns in the district as on 1979.

Of the eleven urban areas in the district, the highest per capita receipt is noticed in Srikakulam Municipality (Rs. 97.80) followed by Amadalavalasa Panchayat (Rs. 25.49) and Rajam Panchayat town (Rs. 24 36) takes the third rank. The lowest per capita receipt is recorded in Mandasa Panchayat (Rs. 12.32). Receipts through taxes is highest in Srikakulam Municipality (Rs. 35.00) while this is lowest in Parasamba @ Kasibugga Panchayat (Rs. 3.31). From all other sources together, the highest per capita receipt is seen in Srikakulam Municipality (Rs. 62.80) followed by Rajam Panchayat (Rs. 19.41) and Sompeta Panchayat (Rs. 16.87) while the lowest per capita receipt is recorded by Amadalavalasa Panchayat town (Rs. 1.11).

Srikakulam Municipality stands first among the urban areas of the district with its per capita expenditure of Rs. 87.21 followed by Rajam Panchayat (Rs. 30.88) and Tekkali Panchayat (Rs. 24.07). Mandasa Panchayat ranks last in per capita expenditure (Rs. 11.50). The per capita expenditure of Rs. 9.91 on public health and conveniences in Srikakulam is the highest among the towns while Mandasa has the minimum of Rs. 1.78. The highest per capita expenditure of Rs. 20.75 on public institutions like schools and libraries is recorded by Srikakulam Municipality. No expenditure is incurred by Ichchapuram, Narasannapet, Parasamba @ Kasibugga, Rajam and Sompeta Panchayats for this purpose.

All the civic bodies are running on sound lines with surplus budget except Rajam and Tekkali towns which are functioning with deficit budget. Srikakulam, Sompeta and Ichchapuram are having considerably more per capita receipts than per capita expenditure.

Table 21 provides the data relating to the availability of educational facilities in different categories per 10,000 population. It may perhaps be mentioned here that data presented refers generally to the institutions that have been recognised by the State Government and are authorised to teach the students for appearing the different grades of examination conducted by the concerned Examination Boards Periodically.

There are 80 primary schools, 29 upper primary schools, 21 high schools and 9 junior colleges in all the urban areas of the district.

Table 21

Total	0.42	0.98	1.36	3.75

From Table 22, it can be seen that the number of beds available in urban areas of this district is low being 4.16 beds per every 1,000 population. Half of the total bed strength in the urban areas of the district is concentrated in Srikakulam town, the district headquarters. The bed population ratio is highest in Sompeta town where there are 13.29 beds per 1,000 population. Srikakulam, Rajam, Palasa and Tekkali towns have recorded the bed population ratio more than the district average. In all other towns this ratio has been less than the district index.

Table 22

Physically Handicapped Persons :

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After the independence, the data for the physically handicapped persons in our country were collected again for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities, totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows :

"The term of totally crippled referes to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms, will be totally crippled, though the legs or arms as such are still physically present."

In case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example, if a person was both blind and dumb or blind and crippled, etc., blindness was noted for him as blindness is considered as greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. In an extreme case where a person suffered from all the disabilities was taken under blind since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in Srikakulam district is given below.

STATEMENT SHOWING THE DISTRIBUTION OF PHYSICALLY HANDICAPPED PERSONS BY TALUKS IN SRIKAKULAM DISTRICT

Physically handicapped form 0.29% of the total population in the district, comprising of 0.31% of rural and 0.15% of urban population. Out of the total 5,696 persons recorded as physically handicapped i.e., totally blind, totally crippled and totally dumb in the district as many as 5,379 persons forming 94.43% are from rural areas only. Among the total physically handicapped in the district 48.23% are totally blind, 23.84% are totally crippled and 27.93% are totally dumb. The survey revealed that Srikakulam taluk has recorded the highest number of physically handicapped persons accounting for 613 persons, the lowest being Hiramandalam taluk with 223 persons.

PART - B

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I - Village Directory
SECTION II - Town Directory
SECTION III - Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides village-wise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

EDUCATIONAL : (COLUMN NO. 5)

P	...	Primary or Elementary School (upto Class IV)
M	...	Middle School or Junior Secondary (Class from V to VIII)
H	...	Matriculation or Secondary School (Class from IX and X)
JC	...	Higher Secondary/PUC/ Intermediate/Junior College
C	...	College
I	...	Industrial School
Tr	...	Training School
AC	...	Adult Literacy Class/Centre
O	...	Other educational institutions which include Sanskrit Pathasala, Senior Basic School,

MEDICAL : (COLUMN NO. 6)

H	...	Hospital
MCW	...	Maternity and Child Welfare Centre or Maternity and Child Health Centre
MH	...	Maternity Home
CWC	...	Child Welfare Centre
HC	...	Health Centre
PHC	...	Primary Health Centre
PHS	...	Primary Health Sub-Centre
D	...	Dispensary
FPC	...	Family Planning Centre
TB	...	T. B. Clinic
NH	...	Nursing Home
RP	...	Registered Private Practitioner
SMP	...	Subsidised Medical Practitioner
CHW	...	Community Health Worker
O	...	Others

DRINKING WATER : (COLUMN NO. 7)

T	...	Tap
W	...	Well
TK	...	Tank
TW	...	Tube Well
HP	...	Hand Pump
R	...	River
F	...	Fountain
C	...	Canal
L	...	Lake
S	...	Spring
N	...	Nallah
O	...	Others
NA	...	Information not available

POST AND TELEGRAPH : (COLUMN NO. 8)

PO	...	Post Office
TO	...	Telegraph Office
PTO	...	Post and Telegragh Office
Phone	...	Telephone connection

COMMUNICATIONS : (COLUMN NO. 10)

BS	...	Bus
RS	...	Railway Station
NW	...	Navigable Waterway

APPROACH TO VILLAGE : (COLUMN NO. 11)

PR	...	Pucca Road
KR	...	Kaccha Road
NR	...	Navigable River
NC	...	Navigable Canal
NW	...	Navigable Waterway
FP	...	Foot Path

POWER SUPPLY : (COLUMN NO. 13)

ED	...	Electricity for Domestic Purpose
EAG	...	Electricity for Agriculture
EO	...	Electricity for Other purposes like industrial, commercial etc.
EA	...	Electricity for All purposes listed above

IRRIGATED BY SOURCE : (COLUMN NO. 16)

GC	...	Government Canal
PC	...	Private Canal
W	...	Well (Without Electricity)
WE	...	Well (With Electricity)
TW	...	Tube Well (without Electricity)
TWE	...	Tube Well (with Electricity)
TK	...	Tank
R	...	River
L	...	Lake
WF	...	Water Fall
O	...	Others
T	...	Total

REMARKS, ETC. ; (COLUMN NO. 20)

N	...	Copies of the News Papers (Coming in the village)
M	...	Motor Cycles/Scooters
C	...	Cars/Jeeps
T	...	Tractors

As an example an entry showing figures like P(2), or D(2), or T(35.21), TK(35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35.21 Hectares and extent of land irrigated by water from tanks is 35.21 Hectares.

Where a facility is not available in the village the distance at which the facility available is shown in broad ranges viz., -5 Kms; 5-10 Kms. and 10+ Kms. of the nearest place where the facility available is given.

SECTION II - Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in statements are briefly explained herein. Statement I has been compiled in this Office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col. 2 to denote the civic status of town, the codes used are :

Municipal Corporation/ Corporation :	M. Corp.
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area/Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In statment IV Col. 6 to differentiate category of road the following abbreviations are used.

Pucca Road	PR
Kuccha Road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt

In Col. 11 the various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel Barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows :

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell Pumping System	BWP
Pressure tank	PT
Tubewell Water/ Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In statement V under Col. 4 to indicate the type of medical facility available to the citizens, the following codes are used :

Hospital	H
Dispensary	D
Health Centres	HC
Family Planning Centre	FC
T. B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets eg : D (2); NH (7) etc.

To distinguish the medical institutions as Allopathic or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

In case of Allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H (A-1,2), D(Hom-2, U-1).

Here H(A-1,2) represents one Ayurvedic and 2 Allopathic hospitals and D (Hom-2, U-1) represents 2 Homoeopathic and 1 Unani Dispensaries.

The Codes used for the Col. 6 are as follows:

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institutions of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short-hand, typewriting and other vocational training institutions. If there are more than one institution of each type the number is given against each in brackets.

Short-hand	SH
Typewriting	Type
Shorthand & Typewriting	Sh. Type
Others	O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B. Ed. College, Teacher's Training institutes, Music/Dancing School, Nursing School, etc. are covered under "Others."

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-primary Schools. Schools upto Class VIII are treated as Junior Secondary or middle Schools. Schools upto Class X is treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary / Intermediate / Pre-University / Junior College, etc.

Under Col. 20 the abbreviations given are as follows:

Public Library	PL
Reading Room	RR

TOWN
