PAECOTTA (YETHAM)

The motif given on the cover page brings out a familiar sight somewhat peculiar to Srikakulam district as one travels on the Calcutta—Madras National Highway. It is the device used to lift water from a ground well popularly known as "Yetham" in Telugu, its English equivalent being paecotta.

The usual mechanism of paecotta consists of a long arm pivoted between two posts. In Srikakulam district the agriculturists normally grow a tree which branches out into a 'Y' shape. These two sturdy branches are used as support for operating the "Yetham". The shorter part of the arm carries a weight of stone or a ball of clay, and the longer part a rope or long stick to which a bucket is fastened. This is set up on the bund of a pool, water course or well. The worker pulls the longer arm down until the bucket dips into the water, and then, assisted by the counter weight, lifts the full bucket and pours the water into the ditch from which water passes on to the land. The foliage of the tree provides the much-wanted shade by the farmer to take rest after hard work. When the crop comes up ripe for harvest, the 'Y' shaped part of tree is used as couch to watch the crops against pilferers—men, animals and birds.

The Yetham system of irrigation is in common use mostly in Srikakulam, Visakhapatnam and to some extent in East Godavari Districts of the State. The fairly high water table, soils with an admixture of sand particularly along the coast line and an abundance of Palmyra trees are mainly responsible for the extensive use of paecotta in these districts compared to other districts in the State where other water lifting apparatus such as the single or double 'mhote', Persian wheel (rahat), Archimedian Screw etc., which are an improvement over the traditional paecotta are in greater use. While in respect of large-scale irrigation flow of water is regulated from dams and reservoirs through a net work of canals and channels, the paecotta is particularly useful in respect of small-scale irrigation where vegetables, coarse grains, garden plantations etc., are raised.

Andhra Pradesh which is one of the predominant agricultural States in the country has about 33 lakh hectares of land under irrigation from different sources of irrigation constituting roughly 28% of the net area sown. About 4½ lakh hectares forming about 14% of the State's total-irrigated land are under well irrigation excluding the land irrigated under tube-wells. A considerable part of land under well irrigation is irrigated by paecottas in Srikakulam district. In a normal year, when the climatic conditions are conducive to agricultural operations, about 14,000 hectares of land forming 5% of the total irrigated land in Srikakulam district is irrigated by wells—mostly with paecottas

PREFACE

The District Census Handbooks which were first published at the 1951 Census proved to be very useful to the State and Central Government Departments, private agencies and academic bodies like Universities and Research Institutions. The scope of these Handbooks was enlarged to make them more useful during the 1961 Census. Considering the delay in the publication of these Handbooks due to difficulties in finding suitable presses which could undertake huge printing work of this kind, it was considered desirable to split up the 1971 Census Handbooks into three parts *viz.*, Part A — Village and Town Directory, Part B — Village and Town. Primary Census Abstract and Part C — Analytical Report, Departmental Statistics and District Census Tables. This was done mainly with a view to publishing Parts A and B which contain not only the population data upto the village and town level but also the particulars about the basic amenities *etc.*, available in the towns and villages, as early as possible for public use. The scope and contents of these three parts are elaborated in the introduction of this volume. I am glad to record here that Parts A and B of the 1971 Census Handbooks of all the 21 Districts in the State have been finalised already and I expect that before the end of 1974 Parts A and B for all the 21 Districts would have been published.

The compilation of these Handbooks is being done from the 1951 Census in the Office of the Director of Census Operations while the cost of paper, printing, *etc.*, required for these volumes is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of printing and paper for the 1971 Census Handbooks. I am grateful to the Andhra Pradesh State Government and in particular to the Additional Chief Secretary to the Government of Andhra Pradesh, Shri S. A. Quader, IAS., for their co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for assisting me by selecting suitable presses for undertaking the printing of the Handbooks. The data presented in the Village and Town Directories are obtained from different State Government and Central Government Departments but for whose co-operation Part-A of the Handbooks could not have been compiled. I am thankful to all of them for furnishing me the required data.

I am extremely grateful to Shri A. Chandra Sekhar, IAS., Registrar General, India and Dr. B.K. Roy Burman, Deputy Registrar General, India who formulated the contents of these Handbooks in detail and rendered spontaneous help and encouragement to me at all stages.

The following staff of my Office worked on the present volume of Srikakulam District Census Handbook under the guidance and supervision of Shri P. S. R Avadhany, Deputy Director of Census Operations and Shri K. Narasimha Murthy, Assistant Director of Census Operations of my Office.

Sri P. B. Sunder Raj, Tabulation Officer Smt. P. Lalitha, Tabulation Officer Sri T. Brahmiah, Statistical Assistant Sri K. V. Sarma, Statistical Assistant	Drafting, Scrutiny and Supervision
Sri A. V. Krishna Reddy, Computor	Supervision of Printing
Sri N. Gangaraju, Computor Sri K. Devadass, Assistant Compiler Sri S. Ramakrishna, Assistant Compiler	Collection and Compilation
Sri P. Innayya, Junior Reader, G.C.P. Sri Abid Yar Khan, Junior Reader, G.C.P.	Proof Reading

Sri A. Venkateswara Rao, Assistant Compiler	Scrutiny of Maps
Sri M. N. Ram Mohan, Artist	Supervision of Mapping Work
Sri Syed Ahmed, Senior Draughtsman	Preparation of Maps
Sri M. J. Sadiq, Draughtsman	
Sri N. G. Swamy, Draughtsman	
Sri Mohiuddin Hassan, Draughtsman	
Sri M. Shankaraiah, Draughtsman	
Sri Md. Yakub Ali, Draughtsman	
Sri B. Raghu Ram, Draughtsman	
Smt. Daya Saxena, Draughtsman	
Sri D. Koteswara Rao, Computor	

I am grateful to their services.

I trust that this humble effort on the part of the Census Organisation would meet with the appreciation it deserves.

T. VEDANTAM

Director of Census Operations

INTRODUCTION

GENERAL BACKGROUND OF THE DISTRICT CENSUS HANDBOOK

District Manuals and District Gazetteers

Prior to 1905, the erstwhile composite Madras Government compiled and published a District Manual for each district. It contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography but also a few statistical tables including those relating to population which became obsolete within a few years of their publication. The Madras Government, therefore, replaced these District Manuals by another publication known as the District Gazetteer consisting of two Volumes 'A' and 'B'. Volume A contained descriptive matter and such general tables as might be necessary to explain the text and Volume B contained detailed statistics. They decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of Volume B was also stopped after 1931 Census. Due to the II World War, the District Gazetteers were not published after the 1941 Census.

In the erstwhile Hyderabad State also the Gazetteer Volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of some districts like Cuddapah and Anantapur have been published already.

The Village Statements

Apart from these District Manuals and Gazetteers, the Census data upto village level used to be published in a brochure called "Village Statement" for each district immediately after every census from 1872 upto 1941.

The Village Statements merely showed the number of occupied houses and population by religion of each village and town and they did not contain any more details. From the 1951 Census, Village Statements were replaced by the District Census Handbooks.

District Census Handbooks

The idea of compiling the District Census Handbooks for each district in place of Village Statements was first entertained and put forward at the 1951 Census by Sri R. A. Gopalaswamy, I. C. S., the then Registrar General, India and *ex-officio* Census Commissioner of India as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the "District Census Handbook" and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the district should be printed and published at their own cost, in the same manner as the Village Statistics of the past censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for all the districts at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing Administrative Statistics and Part II the Census Tables. In the composite Madras State, the Handbooks were brought out in one single volume only for each district.

Pattern at 1961 Census

At the 1961 Census, the scope of the District Census Handbooks was significantly enlarged by Sri Ashok Mitra, I. C. S., the then Registrar General, India. The District Census Handbooks of 1961 Census of Andhra Pradesh were divided into four parts. The first part contained narrative description of the Physical features, History, Social, Economic and Demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the Administrative Statistics of various departments. The third part contained the 1961 Census Tables *viz.*, General Population Tables, Economic Tables, Cultural and Migration Tables, Special Tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of

Village and Town Directory which was the most vital part of the Handbook, giving villagewise and townwise Primary Census Abstract *i.e.*, particulars of area households, population, Scheduled Castes, Scheduled Tribes, literates, broad categorisation of working population *etc.* Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine Sub-Tables containing villagewise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen *etc.*, were given after Village and Town Directory. A tabular statement on Fairs and Festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census

The District Census Handbooks proved to be very useful and valuable publications and had considerable demand by public as well as the official users of the census data. At the 1971 Census, it was therefore, decided not only to continue the publication of the District Census Handbooks but also to enlarge its scope further.

At the 1961 Census, there was some delay in the publication of the District Census Handbooks due to the inadequate printing facilities. In order to avoid delay in publication and also to make available the more important census data to the planners, administrators and other users who may be not only eager but in dire necessity to use the information in their respective spheres, it has been decided to bring out the District Census Handbooks in three parts *viz.*, Part A, Part B and Part C. Part A contains Village and Town Directory. Part B contains Village and Town Primary Census Abstract. Part C contains Administrative Statistics and Analytical Report. Parts A and B of the District Census Handbooks of this State are being brought out in one volume and Part C will be brought out in a separate volume for each district a little later.

A brief out-line on the scope of each of these three parts is given below.

Part A: Village and Town Directory

In this part, the Village Directory is given first and then the Town Directory.

Village Directory : It is arranged talukwise and gives for each village, particulars of amenities available in respect of educational and medical institutions, power and drinking water supply, post and telegraph facilities, communications, particulars of land use, markets, places of religious, historical or archaeological interest in the village.

Town Directory : The Town Directory portion contains data in seven statements. Particulars like the civic administration status, its origin, the growth and decline of its population, functional category, physical aspects and location, municipal finances, civic and other amenities, medical, educational, recreational and cultural facilities, trade, industry, commerce and banking facilities and lastly the religious composition of the town and the Scheduled Castes/Tribes population inhabiting are presented in seven statements. These particulars are given for each town in the district arranged in alphabetical order.

Part B: Village and Town Primary Census Abstract

This part gives for each Revenue Village and also for each Enumerator's Block and Ward of a town, the Primary Census data *i.e.*, area, occupied residential houses, number of households, total population and its breakup by sex, scheduled castes and scheduled tribes population, literate population, working population by nine broad categories of cultivators, agricultural labourers, those working in livestock, forestry, fishing, plantations *etc.*, in mining and quarrying, in manufacturing, in construction, in trade and commerce, in transport, storage and communications and in other services and the non-working population as per 1971 Census.

Part C: Administrative Statistics and Report

This part comprises the various administrative statistics pertaining to the district with special reference to the development taken place during 1961-70 in different spheres and also the 1971 Census tables relating to the General Population, Economic characteristics, Cultural and Migration features, Housing and Establishment tables and data pertaining to the district regarding Language and Religion. A write up, indicating the changes in the socio-economic and demographic characteristics of the district and the developmental activities that have taken place in the decade in the various fields like Agriculture, Industries, Trade and Commerce, Education, Medical and Public Health, Community Development *etc.*, is given at the beginning of this part.

In view of the elaborate write up already given in the 1961 District Census Handbooks, the present write up will be brief and it will cover the present decade only.

Rural and Urban classification of areas

It is customary to classify the population of every country at a Census as Rural and Urban. Such a classification has considerable significance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence at the beginning of each census, the criteria for treating a place as town (*i.e.*, urban) or rural are evolved and the areas are then classified accordingly as per the definition so evolved.

From the year 1891, the census definition of a town in this country was more or less the same till 1941 and it was slightly modified in 1951. The towns broadly comprised all Municipalities of whatever population and every other continuous collection of houses, permanently inhabited by not less than 5,000 persons, which the provincial Directors of Census Operations, having regard to the character and relative density of population, their importance as centres of trade decided them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 Census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 Census also. The following criteria are adopted for treating a place as a town at the 1971 Census.

1. All places with a Municipality, Corporation or Cantonment or Notified Town Areas, and

2. All other places which satisfied the following criteria.

   (a) a minimum population of 5,000

   (b) a density of population of at least 1,000 persons per Sq. mile (400 persons per Sq. Km.) and

   (c) at least three fourths (75%) of the male working population is non-agricultural.

In respect of marginal cases, the Directors of Census Operations of the States were given discretion to decide a place as town or village.

The Towns are distributed into six classes as detailed below :

Classification of Towns	*Population size*
Class I	100,000 and above
Class II	50,000-99,999
Class III	20,000-49,999
Class IV	10,000-19,999
Class V	5,000- 9,999
Class VI	Below 5,000

The Class I Towns are termed as Cities.

Besides classification of all places into Rural and Urban areas, two new concepts *viz.*, Urban Agglomeration and Standard Urban Area were newly evolved at the 1971 Census. They are briefly explained below.

Urban Agglomeration

In several areas around a core city or statutory town have come up fairly large and well recognised Railway Colonies, University Campuses, Port areas, Military Camps, *etc.* Even though they are outside the statutory limits of a Corporation, Municipality or Cantonment, they fall within the revenue boundary of the place by which the town itself is known or in the revenue boundary of the neighbouring village. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units and at the same time each such individual area by itself may not satisfy the minimum population limits to qualify to be treated as an independent town. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban outgrowth would deserve to be treated as an integrated urban area. At the 1971 Census such continuous urban spreads have been treated as integrated urban areas and defined as Urban Agglomerations. This concept of Urban Agglomeration replaced the concept of Town-group followed in the 1961 Census. An urban unit is treated as an urban agglomeration in the following situations:

(a) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of the adjoining village or villages).

(b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in *(a)* and

(c) A city and one or more adjoining towns with their outgrowths all of which forming a continuous spread.

Thus the Urban Agglomeration represents wholly the urban population only. In Andhra Pradesh, the following four places are treated as Urban Agglomerations.

Name of the Urban Agglomeration (1)	*Constituent units in the Urban Agglomeration* (2)
1 Visakhapatnam Urban Agglomeration	(*a*) Visakhapatnam City
	(*i*) Visakhapatnam Municipality
	(*ii*) Gajuvaka Outgrowth
	(*b*) Gopalapatnam
2 Rajahmundry Urban Agglomeration	(*a*) Rajahmundry Municipality
	(*b*) Rajahmundry Non-Municipal Area
3 Vijayawada Urban Agglomeration	(*a*) Vijayawada Municipality
	(*b*) Patamata
	(*c*) Gunadala
4 Hyderabad Urban Agglomeration	(*a*) Hyderabad Municipal Corporation
	(*i*) Hyderabad Division
	(*ii*) Secunderabad Division
	(*b*) Secunderabad Cantonment
	(*c*) Malkajgiri
	(*d*) Alwal
	(*e*) Uppal Khalsa
	(*f*) Balanagar
	(*g*) Fatehnagar
	(*h*) Macha Bolaram
	(*i*) Osmania University
	(*j*) Lalaguda
	(*k*) Kukatpalle
	(*l*) Moosapet
	(*m*) Bowenpalle
	(*n*) Zamistanpur

The Standard Urban Area (S.U.A.)

The concept of the Standard Urban Areas has been evolved for the first time at the 1971 Census to give out a more meaningful picture of the urban growth. The town-group concept adopted at the 1961 Census did not effectively tackle the problems involved in reporting urban statistics apart from lacking a uniform application throughout the country. It also did not bring out a spatially contiguous territory of urban-rural settlements but merely bound up loosely clustered population popularly known as the satellite towns or the constituent units whose jurisdictions were subjected to frequent changes and thus lacked in stability. The intervening rural areas were also left out of the account. Consequently the conclusions drawn became not only invalid over a time but also lost spatial comparability with similar data processed both within the country and outside. These shortcomings reduced considerably the utility of the town-group concept which was also found somewhat inadequate for the purpose for which it was developed. To enable the presentation of urban statistics on a uniform basis and also to ensure comparability of the census data from one decade to another and with similar data available from other countries, the concept of Standard Urban Area has been envisaged and adopted at the 1971 Census.

The Standard Urban Area is defined as the projected growth area of a city or town as it would be in another three decades taking into account not only the towns and villages which will get merged into it but also the intervening areas which are potentially urban. The tract includes all extra Municipal urban out-growth such as the suburbs (industrial and residential), Railway Colonies, Civil Lines, Cantonments and also such of those villages that are likely to be urbanised during the next three decades. The Standard Urban Area is thus an area which extends well beyond the chief core city or town and contains all likely developments over the next 30 years. It will remain a statistical reporting unit for the next three successive censuses, irrespective of the jurisdictional changes of the local administrative units within the tract. The Standard Urban Area will be identified by the administrative units that it encompasses namely the city, the town, the village. The boundaries of the Standard Urban Area will be the administrative boundaries of the peripheral units.

In demarcating the Standard Urban Area the following criteria are followed:

(*i*) The core town should have a minimum population of 50,000

(*ii*) The contiguous areas should be made up of other urban as well as rural administrative units having close and mutual socio-economic links with the core town and

(*iii*) The entire area included in the Standard Urban Area is likely to be urbanised in a span of two to three decades.

In Srikakulam District, Srikakulam with its surrounding villages is treated as Standard Urban Area.

PART - A

VILLAGE AND TOWN DIRECTORY

SECTION I - Village Directory
SECTION II - Town Directory

SECTION I
VILLAGE DIRECTORY

The main purpose of the Village Directory is to indicate the available important facilities like educational, medical, drinking water supply, communications and electric supply in each village. The collection and presentation of such data was first attempted at the 1961 Census and the different facilities available were shown by abbreviated letters under five columns along with the Primary Census Abstract. But at the 1971 Census it was decided to present such particulars in greater detail in the Village Directory and to give the Primary Census Abstract separately. Besides presenting the data on basic amenities like educational, medical, electricity, drinking water supply, communications, posts and telegraphs, the particulars about the staple food commonly used by the majority of the people, land utilisation, the name and distance of the nearest town, the market/shandy days, places of historical or religious or archaeological or tourist importance, if any, of the villages have also been collected and presented in the Village Directory. The Villagewise Primary Census Abstract is presented separately in Part B of this Volume.

In the Village Directory, the Revenue Village is taken as the lowest unit for presentation of data. The villages are arranged in the ascending order of Location Code Numbers assigned to the villages. Unlike the Town Directory, the Village Directory contains only one statement. An Alphabetical List of villages with the Location Code Numbers against them is given at the beginning of the Village Directory of each taluk. This facilitates the reader to select the required village from the Alphabetical List and after knowing its location code number to obtain the necessary particulars from the Village Directory. The Village Directoy is broadly divided into four broad sections *viz.*, location particulars, basic amenities like education, medical *etc.*, land utilisation and distance from urban area and the importance of the village as a religious or tourist centre.

Columns 1 to 3 deal with the location code number, name and the total area of the village. The area given under Col. 3 is as per the data furnished by the Tahsildar and the State Survey Department. Columns 4 to 9 give the basic amenities available in the village such as the educational, medical, electricity, drinking water, communications, postal facilities.

The educational facilities are shown by the following symbols under column 4.

P	...	Primary or Elementary School
M	...	Middle School
H	...	High School or Higher Secondary School
C	...	College
T	...	Technical Institution

If there are more institutions than one of a type in the village the number of institutions precedes the abbreviations *eg.*, 3P, 2M, 3H *etc.*

Medical and Public Health facilities existing in the village are shown by the following symbols under Column 5.

H	...	Hospital
D	...	Dispensary
Mcw	...	Maternity and Child Welfare Centre
Fpc	...	Family Planning Centre
Phc	...	Primary Health Centre

If the village is electrified then it is indicated by the letter E under column 6.

The types of drinking water supply sources available within the village are indicated as below under column 7.

T	...	Tap
W	...	Well
Tk	...	Tank
Tw	...	Tube Well
R	...	River
C	...	Canal
V	...	Vagu

If there are any other sources of drinking water other than the above, then such sources have been spelt out.

If the village is served by one or more of the following means of communications within a distance of one mile from the village, then the communication facilities of the village under column 8 have been indicated as given in the next page.

PR ... Pucca Road
KR ... Katcha Road
T ... Train
R ... River
C ... Canal

The postal facilities, if any, existing in the village are indicated under column 9 by the following symbols:

PO ... Post Office
TO ... Telegraph Office
PTO ... Post & Telegraph Office
Phone ... Telephone

If a village does not have any of the above facilities then " .. " is indicated against such village under relevant column.

The staple food of the majority of the population of the village during the major portion of the year is indicated under column 10 as given below. If variety of grains are mainly used in the village, then they have been indicated accordingly.

Ri ... Rice
W ... Wheat
J ... Jowar
B ... Bajra
Ra ... Ragi
M ... Maize
Mi ... Millets (Korra, Arika, Variga *etc.*)

Columns 11 to 15 relate to the land utilisation statistics. Under column 11 the extent of the forest area is given. Under columns 12 and 13 the extent of the cultivated area in the village is given. The extent of area irrigated together with area irrigated under different irrigational sources such as canals, tanks, wells, tube wells *etc.*, are given, wherever available under column 12 while under column 13 the extent of land unirrigated is given. Column 14 gives the extent of cultivable waste. The area not available for cultivation such as village site, rivers, canals, tanks, wells *etc.*, is given under column 15.

The various types of land use given under each of the 11 to 15 columns are listed out and the concepts explained below.

1 Forests (Col. 11) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2 Cultivated area with breakup of irrigated and unirrigated (Columns 12 and 13). This includes the land under the following three categories.

(*i*) *Net area sown* :
The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(*ii*) *Current fallows* :
This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

(*iii*) *Other fallows* :
This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming etc.

3 Culturable waste (Column 14) This includes the land under the following three categories.

(*i*) *Miscellaneous tree crops, groves not included in the area sown.*
Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel etc., which are not included under "Orchards" are classed under this category.

(*ii*) *Culturable waste :*
This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

3 Culturable waste (Col. 14)-(*Concld.*)

(*iii*) *Permanent pastures and other grazing lands :*
These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

4 Area not available for cultivation (Column 15)

This includes the land under the following two categories.

(*i*) *Barren and uncultivable land :* This covers all barren and uncultivable land like mountains, etc., *i.e.*, which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

(*ii*) *Land put to non-agricultural uses:* All lands occupied by buildings, roads and railways or under waters, *e.g.*, rivers and canals and other lands put to uses other than agricultural.

Under column 16 the distance of the village from the nearest town in Kms. is given. The days on which weekly market/shandies, if any, held in the village are given under column 17. If the village has any historical/religious/archaeologicals and tourist importance, it has been indicated under column 18.

All the above particulars are based on the data obtained from the Tahsildars and Local Bodies concerned and also from the concerned departments like Postal, Medical, Education, Electricity *etc.*

Srikakulam district comprises of both agency tracts and plains portion. The agency areas lie only in the taluks of Salur, Parvathipuram and Palakonda. The remaining eight taluks are completely plains portions. Srikakulam district has a total area of 9,743.0 Sq. Kms. of which an area of 1,318.3 Sq. Kms. is agency tract. Out of the total population 2,589,991 living in this district 83,353 persons are in agency areas and the remaining 2,506,638 persons are in plains area. There are in all 3,080 villages in this district at 1971 Census. There has been a fall in the number of villages from 3,546 to 3,080 in this district during the decade and this is partly due to the transfer of some villages from Bobbili and Salur taluks to Visakhapatnam district in connection with the formation of a new taluk of Gajapathinagaram and also partly due to the regrouping the villages under Survey and Settlement Operations.

Inhabited and Uninhabited Villages

This district consists of 3,080 villages out of which 2,865 are inhabited and 215 are uninhabited. These villages are spread over both in agency and plains portions. The agency tract contains 417 villages (384 inhabited and 33 uninhabited) while the remaining villages 2,663 villages (2,481 inhabited and 182 uninhabited) are in the plains portion.

Villages Classified by Geographical Area

A table showing the distribution of villages by size class of area and taluk is given below. It may be seen from it that there are 121 villages or about 3.93% of the total villages including the uninhabited villages in the district with an area of less than 50 acres each only. 194 villages or about 6.30% of the total villages have an area ranging from 51-100 acres each. 411 villages or about 13.34% of the total villages in the district belong to a range of 101-200 acres each while 910 or about 29.55% of the total villages belong to an area range of 201-500 acres. There are 643 and 423 villages constituting a percentage of 20.88 and 13.73 of the total villages belonging to an area range of 501-1,000 acres and 1,001 to 2,000 acres respectively. There are 115 villages with an area of 2,001 to 5,000 acres each and 9 villages with an area of 5,000 acres or above. There is relatively an higher proportion of villages in the area range of 201 to 500 acres each and it is generally so in the taluks of the district, except in Cheepurupalle, Salur, Narasannapet and Ichchapuram. Cheepurupalle, Salur and Narasannapet taluks have higher proportion of villages with an area of 501-1,000 acres each while in Ichchapuram villages with an area of 1,001-2,000 acres each are in higher proportion. Area particulars are not available for 254 villages in the district of which more are in Parvathipuram and Pathapatnam taluks.

STATEMENT 1

Talukwise Distribution of Villages by Size Class of Geographical Area

DISTRIBUTION OF VILLAGES CLASSIFIED BY POPULATION

The distribution of inhabited villages classified according to broad size classes of population in each taluk is given in the following table.

STATEMENT 2

TALUKWISE DISTRIBUTION OF VILLAGES CLASSIFIED BY POPULATION

Name of the Taluk	Total No. of Villages (Inhabited)	No. of Villages by Population						
		Less than 200	200–499	500–999	1,000–1,999	2,000–4,999	5,000–9,999	10,000 and above
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
1 Srikakulam .	187	20	49	53	40	22	2	1
2 Cheepurupalle .	300	22	60	92	85	37	4	..
3 Bobbili .	197	15	37	58	45	40	2	..
4 Salur .	210	74	59	40	28	8	1	..
5 Parvathipuram .	440	196	117	60	51	15	1	..
6 Palakonda .	423	86	106	109	95	26	1	..
7 Pathapatnam .	443	136	136	92	63	15	1	..
8 Narasannapet .	166	13	36	55	45	17	..	..
9 Tekkali .	284	70	90	69	42	13	..	..
10 Sompeta .	166	22	50	46	36	11	1	..
11 Ichchapuram .	49	3	7	10	14	13	2	..
Total	**2,865**	**657**	**747**	**684**	**544**	**217**	**15**	**1**

It will be noticed from the above table that a relatively large number of villages *i.e.*, 1,404 or 49.00% of the total inhabited villages have less than 500 population. A large number of these villages are in the taluks of Salur, Parvathipuram, Palakonda, Pathapatnam and Tekkali. 684 villages or about 23.87% of the total inhabited villages belong to a population size of 500-999. There are 544 and 217 villages falling under the population range of 1,000-1,999 and 2,000-4,999 respectively constituting 18.98% and 7,57% to the total inhabited villages, while villages in the population range of 5,000–9,999 and 10,000 or more each are 15 and 1 respectively.

The population in villages bering L. C. Nos. 8,35, 187, 271, 272, 273, 324, 325A, 326, 328, 329, 330 and 332 of Parvathipuram taluk had completely migrated to villages bearing L.C. Nos. 9, 32, 188, 274, 327, 331, 341 and 349 of the same taluk at the time of enumeration on account of Naxalite trouble resulting in considerable increase in population of these villages compared to the position in 1961.

EDUCATIONAL FACILITIES

Education is one of the basic facilities that has to be provided to the people. An idea of the extent and the level to which it has been provided in the rural areas of the district can be had from the following table. The villages are classified by the distance to the nearest town with which the villages have established commercial, social and other links so that the position in this regard in the remote villages could be compared with the situation in the villages closer to the urban areas.

STATEMENT 3

EDUCATIONAL FACILITIES

Distance from the nearest town in Kms.	Total No. of villages (Inhabited)	No. of villages having			
		Primary Schools	Middle Schools	High or Higher Secondary Schools	Other educational institutions
(1)	(2)	(3)	(4)	(5)	(6)
5 or less .	232	150	9	2	..
		(64.6)	(3.9)	(0.9)	
6–10 .	504	368	25	26	..
		(73.0)	(5.0)	(5 1)	
11–15 .	416	247	26	15	..
		(59.4)	(6.2)	(3.6)	
16–25 .	711	408	29	33	..
		(57.4)	(4.1)	(4.6)	
26–50 .	465	256	19	12	1
		(55.0)	(4.1)	(2.6)	(0.2)
51–100 .	140	67	9	5	..
		(47.9)	(6.4)	(3.6)	
Unspecified .	397	161	6	10	..
		(40.6)	(1.5)	(2.5)	
Total .	**2,865**	**1,657**	**123**	**103**	**1**
		(57.8)	**(4.3)**	**(3.6)**	**(0.2)**

Note: Figures in brackets are percentages to total villages in the respective distance groups.

Among 2,865 inhabited villages in the district 1,657 or about 57.84% of the total inhabited villages have Primary Schools and 1,208 villages or about 42.16% of the inhabited villages have no educational institution of any type. This proportion is fairly large compared to that in other districts and speaks of the backwardness of the district. 123 villages or about 4.29% of the inhabited villages have Middle or Upper Primary Schools while 103 villages or about 3.59% of the total inhabited villages have High/Higher Secondary Schools in the district. The proportion of villages with Middle/High Schools is also very low compared to other districts in the State. The other educational institutions generally include Training Schools, Oriental Schools, *etc.* There are no colleges in the rural parts of any of these eleven taluks in the district.

Medical Facilities

Expansion of the medical facilities particularly in the rural areas has been emphasised from time to time in the development plans. An idea of the extent of the availability of these facilities in the rural parts of the district can be had from the following table.

STATEMENT 4

NUMBER OF MEDICAL INSTITUTIONS

Name of the Taluk	No. of Medical Institutions			
	Hospitals	Dispensaries	Others (Phc, Fpc & Mcw)	No. of Medical Institutions per 100 Sq. Kms. Rural area
(1)	(2)	(3)	(4)	(5)
1. Srikakulam	1	6	4	1.96
2. Cheepurupalle	..	5	14	1.61
3. Bobbili	1	3	2	0.69
4. Salur	1	5	4	1.05
5. Parvathipuram	1	6	4	0.72
6. Palakonda	1	6	6	1.04
7. Pathapatnam	1	6	3	0.83
8. Narasannapet	1	6	2	1.76
9. Tekkali	2	6	2	1.47
10. Sompeta	1	1	2	0.74
11. Ichchapuram	..	3	1	1.82
Total	**10**	**53**	**44**	**1.11**

There are 107 medical institutions of various types in the rural parts of the district. There are 10 Hospitals spread over the rural parts of all the taluks except Cheepurupalle and Ichchapuram. But all the taluks have Dispensaries and in all 53 Dispensaries are accounted in the rural parts of the district. In addition to the Hospitals/Dispensaries, there are 44 other medical institutions such as Primary Health Centres, Family Planning Centres, Maternity and Child Welfare Centres, *etc.* Among the 11 taluks of the district 9 taluks are having hospitals, dispensaries and other medical institutions while the remaining 2 taluks have only dispensaries and other medical institutions. On an average there is only 1.1 medical institutions for every 100 Sq. Kms. of rural area in this district.

Electrification

Rural electrification has been undertaken in a big way during the decade 1961-70 as it is essential for the economic development of the villages where a large part of over population resides. A statement giving the number of villages including the uninhabited where electricity supply is available is given below. The villages are classified by their distance to the nearest town so as to have an idea as to how far the rural areas remote from the urban centres are provided with electricity supply.

STATEMENT 5

NUMBER OF VILLAGES HAVING ELECTRICITY

Distance from the nearest town in Kms.	Total No. of villages	No. of villages where electric supply is available	Percentage to total villages
(1)	(2)	(3)	(4)
5 or less	251	70	27.9
6–10	527	118	22.4
11–15	445	67	15.1
16–25	763	110	14.4
26–50	508	66	13.0
51–100	153	5	3.3
Unspecified	433	44	10.2
Total	**3,080**	**480**	**15.6**

There are in all 480 villages or about 15.55% of the total villages in the district which are electrified. The proportion of villages having power supply in this district is low compared to other districts in the State. It may be seen from the above statement that the proportion of villages electrified decreases as the distance from the nearest town increases indicating thereby that a large proportion of villages closer to towns are electrified than remote villages. The highest proportion is observed in the villages in a distance of 5 Kms. as less followed by the villages in the distance range of 6–10 Kms. Only 5 villages in the

distance range of 51–100 Kms. are electrified. The talukwise break up of the 480 electrified villages and the percentage of villages electrified to the total villages including the uninhabited are given below.

STATEMENT 6

TALUKWISE DISTRIBUTION OF ELECTRIFIED VILLAGES

Name of the Taluk	Total No. of villages	No. of electrified villages	Percentage of villages electrified to total number of villages in taluk
(1)	(2)	(3)	(4)
1 Srikakulam .	210	43	20.5
2 Cheepurupalle .	319	63	19.7
3 Bobbili .	211	71	33.6
4 Salur .	225	36	16.0
5 Parvathipuram.	480	49	10.2
6 Palakonda .	438	48	10.9
7 Pathapatnam .	491	38	7.7
8 Narasannapet .	168	31	18.4
9 Tekkali .	307	70	22.8
10 Sompeta .	182	20	11.0
11 Ichchapuram .	49	11	22.4
Total	**3,080**	**480**	**15.6**

It will be seen from the statement 6 that the rural parts of Bobbili taluk have an higher proportion of electrified villages *i.e.*, 33.6% followed by Tekkali and Ichchapuram with 22.8% and 22.4% respectively while the rural parts of Pathapatnam taluk has the lowest proportion of electrified villages with 7.7%. The proportion of electrified villages in all the taluks of the district is quite inadequate.

COMMUNICATION FACILITIES

A statement showing the number of villages by type of road with which they are connected is given below by classifying the villages by distance to the nearest town. A village having access to the roads within a reach of one mile or 1.6 Kms. is considered as having been connected with the roads.

STATEMENT 7

COMMUNICATION FACILITIES

Distance from the nearest town in Kms.	Total No. of villages	Number of villages connected by		
		Pucca road	Katcha road	Train
(1)	(2)	(3)	(4)	(5)
5 or less .	251	73	106	..
		(29.1)	(42.2)	
6–10 .	527	138	200	4
		(26.2)	(38.0)	(0.8)
11–15 .	445	99	144	2
		(22.2)	(32.4)	(0.5)
16–25 .	763	126	266	6

		(13.2)	(34.4)	(0.2)
Total	**3,080**	**577**	**1,036**	**18**
		(18.7)	**(33.6)**	**(0.6)**

POSTAL FACILITIES

The statement given on the next page indicates the talukwise distribution of villages having post offices and telegraph offices and telephone facilities *etc.*, together with an average number of post offices for every 100 Sq. Kms. rural area.

STATEMENT 8

POSTAL AND TELEGRAPHIC FACILITIES

	Name of the Taluk	Inhabited Villages	Total Number of villages having			
			Post Offices	Telegraph Offices	Tele-phones	No. of Post Offices per 100 Sq. Kms.
	(1)	(2)	(3)	(4)	(5)	(6)
1	Srikakulam	187	56	2	..	10.0
2	Cheepurupalle	300	97	..	..	8.2
3	Bobbili	197	81	..	..	9.3
4	Salur	210	39	..	..	4.1
5	Parvathipuram	440	64	1	..	4.2
6	Palakonda	423	98	..	..	7.8
7	Pathapatnam	443	52	1	1	4.3
8	Narasannapet	166	46	..	..	9.0
9	Tekkali	284	45	..	..	6.6
10	Sompeta	166	13	2	2	2.4
11	Ichchapuram	49	24	..	..	10.9
	Total	**2,865**	**615**	**6**	**3**	**6.4**

Among the total number of 2,865 inhabited villages in this district 615 villages have post offices and only 6 villages have telegraph offices. Only 3 villages are having telephone facilities. More than three fourths of the inhabited villages in the district do not have even post offices. It may, therefore, be said that communication facilities in the rural areas of Srikakulam district are not adequate. On an average, there are about 6 post offices for every 100 Sq. Kms. rural parts in this district.

STAPLE FOOD

Rice and Jowar constitute the chief staple food of the people in the villages of this district. The small millets like Ragi, Bajra, Korra, are also used as staple food in some parts of the district.

CULTIVATED LAND

The average cultivated land, the average cultivable waste land and percentage of cultivable waste to cultivated land per village is given in the following table classified by the distance to the nearest town. All land sown, current and other fallows are considered as cultivated land while cultivable waste includes pastures, grazing land and area under miscellaneous trees, groves and does not include orchards.

STATEMENT 9

PERCENTAGE OF AVERAGE CULTIVABLE WASTE TO AVERAGE CULTIVATED LAND PER VILLAGE BY DISTANCE

Distance from the nearest town in Kms.	Number of villages	Total cultivated land (in Acres)	Average cultivated land per village (in Acres)	Total cultivable waste (in Acres)	Average cultivable waste per village (in Acres)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less	244	97,420	399	7,803	32	8.0
6-10	510	231,302	453	12,834	25	5.5
11-15	417	171,045	410	10,599	25	6.0
16-25	687	267,681	390	12,463	18	4.6
26-50	459	169,063	368	9,018	20	5.4
51-100	88	52,199	593	7,407	84	14.1
Unspecified	333	50,126	150	9,644	29	19.3
Total	**2,738**	**1,038,836**	**379**	**69,768**	**25**	**6.6**

On an average the area under cultivation in each village is 379 acres, while the extent of cultivable waste is 25 acres only. There is cultivable waste in each village equivalent to about 6.6% of the cultivated land in this district which could be brought under the plough, perhaps with some efforts. The taluk-wise picture is also given below to have a comparative assessement of each taluk in the district.

STATEMENT 10

PERCENTAGE OF AVERAGE CULTIVABLE WASTE TO AVERAGE CULTIVATED LAND PER VILLAGE BY TALUKS

Name of the Taluk	Number of villages	Total cultivated land (in Acres)	Average cultivated land per village (in Acres)	Total cultivable waste (in Acres)	Average cultivable waste per village (in Acres)	Percentage of average cultivable waste per village to average cultivated land per village

11. Ichchapuram	49	38,573	787	1,353	28	3.5
Total	2,738	1,038,836	379	69,768	25	6.6

N. B: 342 villages (One village of Srikakulam, 4 villages of Cheepurupalle, 2 villages of Bobbili, 99 villages of Parvathipuram, 6 villages of Palakonda, 220 villages of Pathapatnam, one village of Narasannapet, 5 villages of Tekkali & 4 villages of Sompeta taluks) for which land utilisation particulars are not available, are not considered in arriving at the average figures under columns 5 to 7.

The average cultivated land per village is comparatively more in Ichchapuram, Narasannapet and Bobbili taluks while it is less in Parvathipuram taluk. The proportion of average cultivable waste to the cultivated land is more in Parvathipuram taluk while it is very less in Narasannapet and Srikakulam taluks where the proportions are 1.0% and 1.5% respectively.

The amenities discussed in the preceeding paras reveal that.

(i) minimum educational facilities are not available in 42.16% of the total inhabited villages of the district.

(ii) there is only one medical institution for every 100 Sq. Kms. rural area.

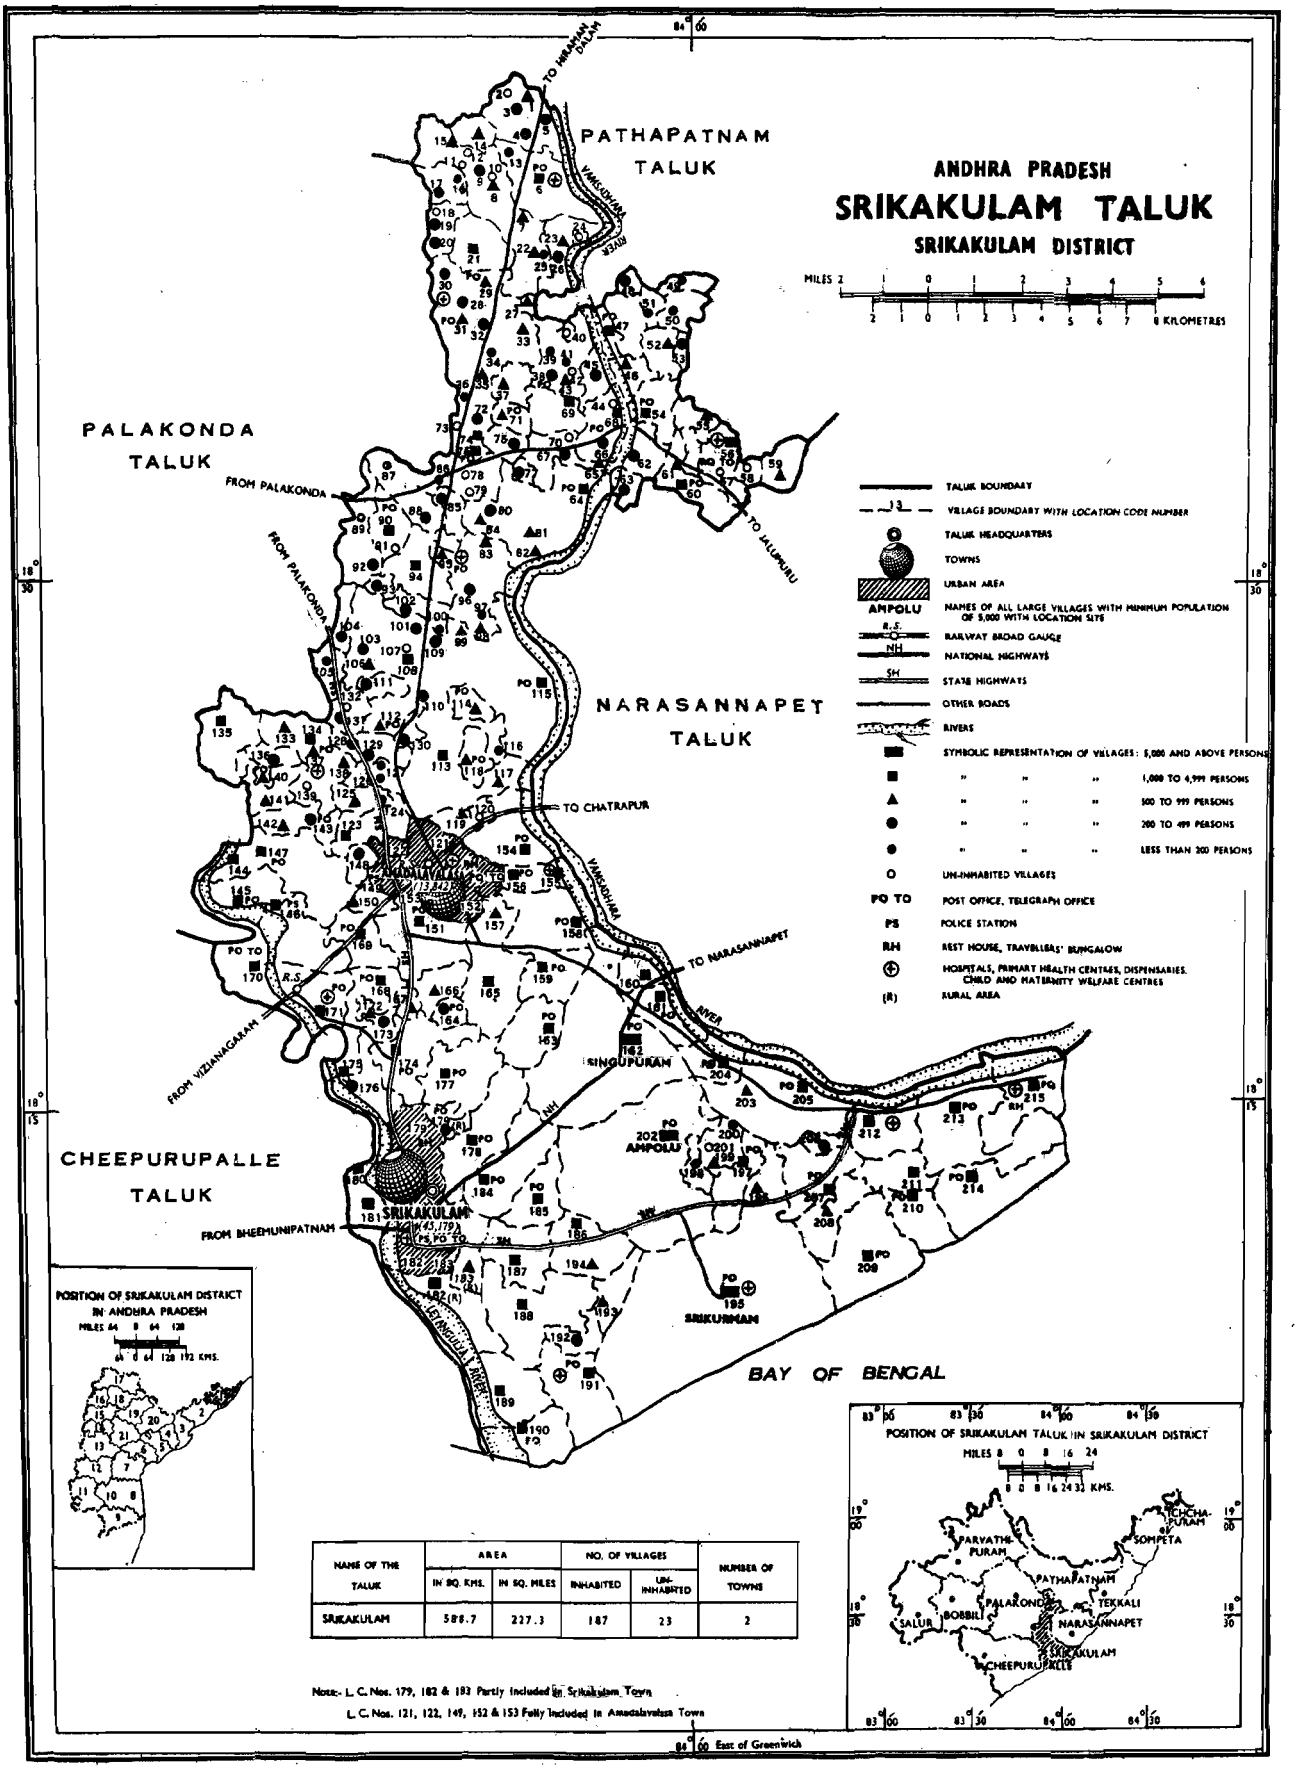

(iii) only 15.6% of the total villages in the district are provided with electricity.

(iv) only 18.7% of the total villages in the district are connected with pucca roads, and

(v) only 21.46% of the total villages have postal communication.

These factors indicate that further development in these fields is necessary in the rural parts of the Srikakulam district.

SECTION II

TOWN DIRECTORY

Town Directory

The Town Directory gives information on various aspects of each town recognised at the 1971 Census in this district. The towns in the district have been arranged alphabetically and the several particulars relating to them are given in the following seven statements.

Statement	I	Status, Growth History and Functional Category of Towns
Statement	II	Physical Aspects and Location of Towns
Statement	III	Civic Finance
Statement	IV	Civic and other Amenities in Towns
Statement	V	Medical, Educational, Recreational and Cultural Facilities in Towns
Statement	VI	Trade, Commerce, Industry and Banking Facilities
Statement	VII	Population by Religion and Scheduled Castes/Scheduled Tribes in Towns

The following sixteen places have been treated as towns in Srikakulam District at the 1971 Census.

1 Srikakulam	9 Rajam
2 Amadalavalasa	10 Narasannapet
3 Cheepurupalle	11 Tekkali
4 Kondapalem *alias* Sriramnagar	12 Parasamba *alias* Kasibugga
5 Bobbili	13 Palasa
6 Salur	14 Sompeta
7 Parvathipuram	15 Mandasa
8 Palakonda	16 Ichchapuram

Srikakulam District is the northern most part of Andhra Pradesh and it may be divided into two natural regions, namely, the hilly region called the Agency area in the north-western part of the district and the plains portion which is mostly sandy on account of its proximity to the sea. The Agency parts do not have any towns and all the 16 towns are in plains.

Among the sixteen towns mentioned above Amadalavalasa, Kondapalem *alias* Sriramnagar, Palasa and Parasamba *alias* Kasibugga have been recognised as urban areas during the 1971 Census only. Among the remaining 12 towns, Mandasa and Cheepurupalle were treated as towns from 1941 and 1951 onwards respectively. The remaining ten towns *viz.*, Srikakulam, Bobbili, Salur, Parvathipuram, Palakonda, Rajam, Narasannapet, Tekkali, Sompeta and Ichchapuram were treated as towns as early as in 1901. Veeraghattam, a town in 1961 Census is declassified into rural in 1971 Census.

The number of towns in this district from census to census corresponding to the present jurisdiction of the district is given below:

Census Year	No. of Towns
1901	10
1911	12
1921	12
1931	12
1941	15
1951	16
1961	13
1971	16

It may be seen from the above that the number of towns in the district increased at the 1911 Census and remained stationary at the next two censuses, 1921 and 1931 and thereafter increased again. The application of a more uniform and a stricter definition of a town in 1961 had resulted in declassification of a good number of towns in the State in 1961 Census. Consequently there was a fall in the number of towns in this district also in 1961. The number increased at the 1971 Census by the addition of new towns referred to in the preceding para. None of the towns in this district has been treated as Urban Agglomeration. Srikakulam town with some of its surrounding villages as detailed below is treated as a Standard Urban Area in this district.

Standard Urban Area	Component Units	
	Urban	Rural
(1)	(2)	(3)
1. Srikakulam	1. Srikakulam	1. Ragolu
		2. Akkivaram
		3. Gudem
		4. Patrunivalasa
		5. Balaga
		6. Fazulbegpeta
		7. Gujarathipeta
		8. Patha Srikakulam
		9. Arasavilli
		10. Peddapadu
		11. Voppangi

The total urban area in this district is 182.2 Sq. Kms. constituting 1.87% of the total geographical area of the district and the urban population of the district is 275,720 persons constituting 10.64% of the total population and is distributed among the 16 towns in the district. The corresponding urban population in 1961 was 204,640 constituting 8.74% of the total population of the district. Srikakulam town, the district headquarters, has a population of 45,179 persons and is the largest town in this district from the point of view of population. There are no class I & II towns *i.e.*, towns with a population of a lakh or more and towns with a population of 50,000 to 99,999 in this district. Srikakulam, Salur, Bobbili and Parvathipuram are the Class III towns whose population ranges from 20,000 to 49,999 each. Palakonda, Ichchapuram, Amadalavalasa, Tekkali, Narasannapet, Sompeta and Cheepurupalle are the seven towns next in the order and are Class IV towns the population of which ranges from 10,000 to 19,999 each. The remaining five towns namely Rajam, Parasamba *alias* Kasibugga, Kondapalem *alias* Sriramnagar, Palasa and Mandasa are Class V towns, the population of which ranges from 5,000 to 9,999 each. There are no Class VI towns with a population of less than 5,000 in this district. The smallest urban unit in this district is Mandasa with a population of 6,628 only. The largest town in the district according to area is Salur with 35.17 Sq. Kms. while Narasannapet is the smallest unit with an area of 5.18 Sq. Kms. only.

Statement I—Status, Growth History and Functional Category of Towns

In this statement the civic status of each of the towns determined at the 1971 Census with its population since 1901 or from the Census in which it was treated as urban for the first time is given. An idea of the pace at which the population in these towns is increasing from census to census can be had from this statement. The functional characteristics of these towns as determined in 1961 and 1971 Censuses based on the proportion of working population returned under each industrial category are also shown in this statement. These particulars indicate as to how the economic pattern of the town has changed from 1961 to 1971.

The civic status of the town *i.e.*, whether the town is a Municipality or a Panchayat is indicated by an abbreviated letter like 'M' for Municipality and 'P' for Panchayat. Among the 16 towns in this district 4 towns are classified as Municipalities and 12 towns as Panchayats. Srikakulam, Bobbili, Salur and Parvathipuram are the four Municipalities in tl district. Palasa, Parasamba *alias* Kasibugga, Amadal valasa and Kondapalem *alias* Sriramnagar are n towns. Among the remaining 12 towns only two tow *viz.*, Cheepurupalle and Tekkali have shown a con nuous growth in their population. But the growth not proportionate compared to the average trend in t State. The remaining towns though had their incr ments in their population but showed a fall in one two decades ending in 1911, 1921, 1941, 1951 and 196

Srikakulam, the district headquarters town show a decline in its poulation growth till 1931. At the 19 Census also, the town had registered only a slight i crease of 1.78% over its previous population. Howeve there was a big spurt in the town's population duri the decades 1951-61 and 1961-71. Berhampur, lyi in Orissa State and the towns of Kharagpur, Adr Bilaspur and Culcutta city with vast employme opportunities seemed to have attracted a large numb of people from this town in the earlier decades of th century. But in the later half of the century, the loc tion of the district headquarters in Srikakulam tow on the formation of a separate district in 1950, t establishment of the District Judge's Court in the tov and also the expansion of town by including certa adjoining areas during 1951-61 had resulted in con derable growth of poulation of the town in the subs quent years.

Bobbili town showed a fall in its population i 1921 and a low growth in the subsequent censuse Bobbili was affected by the famine conditions th existed during 1911-21. This town was also the hea quarters of an erstwhile zamindari. The abolition zamindari in 1948 had some initial dampening effe on the growth of population of this town to son extent.

Salur town showed a fall in population in 192 and a low growth in other decades. This town situated in a remote and backward tract of th district. During 1911-21 this town was said to hav been affected by cholera epidemic and scarcity cond tions which resulted in the fall of its population. Th slump in its growth in the next decades was due the fact that a fraction of its population was attracte by the Duduma Hydel Scheme and Dandakaran Rehabilitation Scheme in the neighbouring Oriss State. Salur town, though a Municipality, presents depressing look.

Parvathipuram town also showed a fall in i population both at 1911 and 1921 Censuses. Th town remained very backward and unhealthy till aft

the separation of Orissa State when some developmental schemes were implemented. With the opening of rail communications at the town, trade and commerce improved and several administrative offices were located there and consequently there was considerable growth of population.

Palakonda showed a decline of population in 1931 only. This might perhaps be due to drought and epidemics that prevailed then.

Rajam is another small town in Srikakulam District that showed a fall in population both at 1911 and 1921 Censuses.

Narasannapet also suffered a fall of population in 1911 and 1941. The fall might perhaps be due to the epidemics that spread in those areas during that time.

Mandasa is a remote little town, recognised as urban in 1941. It was once the headquarters of the Rajah of Mandasa. The fall in its population at 1941 and 1951 censuses was due to the abolition of zamindari and the consequent emigration of a number of original settlers from Madras who had been engaged in the old Samsthanam's establishment. The establishment of a Development Block in 1956 helped the town to increcase its population.

Sompeta suffered a fall in population during the periods 1911-21 and 1931-41. There had been no developmental activity worth the name that could attract the outsiders to this urban centre. On the other hand several families from this town emigrated to the tea estates of Assam as also to Burma, Andaman Islands and also to Nairobi.

The fall in the population of Ichchapuram in 1901-1911 and the poor growth of population in the subsequent decades is due to the emigration of the local population to Burma as also to Berhampur in Orissa for purposes of education and employment.

FUNCTIONAL CATEGORY

Functional category by the very nature of urban development, the towns are bound to serve a variety of purposes. In order to know to what extent the functions are diversified and the predominant characteristic is accentuated, a scheme of statistical classification was evolved at the 1961 Census. Accordingly each town can be classified broadly under the following categories *viz.*,

(i) **Primary Activity:**—Agriculture, Mining and Fishing (Census Industrial Categories I,II and III of 1961 Census and Categories I, II, III and IV of 1971 Census)

(ii) **Industrial:**—Industry including Construction (Census Industrial Categories IV, V and VI of 1961 Census and V(a) and V(b) and VI of 1971 Census)

(iii) **Commercial**:—Trade and Commerce (Census Industrial Category VII of 1961 and 1971 Censuses)

(iv) **Transport**:—Transport (Census Industrial Category VIII of 1961 and 1971 Censuses)

(v) **Services:**—Other Services (Census Industrial Category IX of 1961 and 1971 Censuses)

The predominant functional character of a city/town is determined on the basis of the following principles:

(a) If the proportion of working population is more than 40% of the total working population of the city/town in any one of the above characteristics then the city/town was designated by that characteristic.

(b) If the proportion is not more than 40% in any one of the characteristics then the next predominant characteristic was taken into account and if the first two predominant characteristics combined together have a proportion over 60% then the town was designated as having the two characteristics and was termed as Industrial-*cum*-Services or Industrial-*cum*-Trade and Commerce *etc.*

(c) If the combined proportion of the first two predominant characteristics is less than 60% then the third predominant characteristic is also taken into consideration in designating the functional type of the city/town. Such cases are recorded as Industrial-*cum*-Trade and Commerce-*cum*-Primary Activity *etc.*

The functional types of the different towns in the district as determined at the 1961 and the 1971 Censuses on the lines indicated above are show below.

Functional Category	Name of Town	
	1961	1971
(1)	(2)	(3)
Primary Activities	Cheepurupalle, Rajam	Cheepurupalle, Ichchapuram, Bobbili, Mandasa, Palakonda, Salur & Tekkali.
Industry	..	Kondapalem *alias* Sriramnagar
Primary Activities-*cum*-Industry	Ichchapuram	..
Primary Activities-*cum*-Services	Palakonda, Palasa, Parasamba *alias* Kasibugga, Sompeta and Tekkali	..
Primary Activities-*cum*-Services-*cum*-Industry	Bobbili, Mandasa, Narasannapet, Salur and Srikakulam	Rajam
Primary Activities-*cum*-Services-*cum*-Trade and Commerce	Parvathipuram	Parvathipuram
Primary Activities-*cum*-Transport-*cum*-Trade and Commerce	..	Parasamba *alias* Kasibugga
Primary Activities-*cum*-Industry-*cum*-Trade and Commerce	..	Palasa, Narasannapet, Sompeta and Amadalavalasa
Services-*cum*-Industry-*cum*-Trade and Commerce	..	Srikakulam

The functional category at 1961 Census for Amadalavalasa, Kondapalem *alias* Sriramnagar, Palasa and Parasamba *alias* Kasibugga is not given above as they were not towns at 1961 Census. There is no change in the functional category of Cheepurupalle and Parvathipuram towns at 1961 and 1971 Censuses. In respect of other towns there is a slight change in the functional category. The functional category of Rajam which was Primary Activities in 1961 had changed into Primary Activities-*cum*-Services-*cum*-Industry in 1971. Ichchapuram, whose functional category at the 1961 Census was Primary Activities-*cum*-Industry has changed into Primary Activities in 1971. The functional category of Palakonda, Palasa and Tekkali has changed from Primary Activities-*cum*-Services in 1961 to Primary Activities in 1971. The functional categories of Palasa, Sompeta and Parasamba *alias* Kasibugga changed from Primary Activities-*cum*-Services in 1961 to Primary Activities-*cum*-Industry-*cum*-Trade and Commerce and Primary Activities and Transport-*cum*-Trade and Commerce respectively in 1971. The functional categories of Bobbili, Mandasa and Salur changed from Primary Activities-*cum*-Services-*cum*-Industry in 1961 to Primary Activities in 1971. The functional categories of Narasannapet and Srikakulam changed from Primary Activities-*cum*-Services-*cum*-Industry in 1961 to Primary Activities-*cum*-Industry-*cum*-Trade and Commerce and Services-*cum*-Industry-*cum*-Trade and Commerce respectively in 1971.

Statement II—Physical Aspects and Location of Towns

This statement deals with physical aspects and location of towns in this district. The data relating to average annual rainfall presented under Col. represent the average rainfall of the preceding 50 year but wherever it is otherwise on account of non-availability of data for all the 50 years, the fact has bee indicated in the statement. The maximum and minimum temperatures recorded during 1969 are give under Cols. 4 & 5. If for any of the towns in th district the particulars regarding average rainfall an the maximum and minimum temperatures are no available, the particulars of the nearest town have bee given against them.

The name and the nearest city with population o a lakh or more is shown under column 6 while unde columns 7 to 9 the name of the State Headquarters the District Headquarters, Revenue Divisional Headquarters together with the distance from the town concerned are shown. The nearest Railway Station and Bus Stand with the distance from the town are given under Cols. 10 and 11. If navigation and sea port facilities are available within 10 and 50 Kms. respectively they are also given under columns 12 and 13.

The climate varies in the different parts of the district. Generally April to June are the hottest months in the year. The climate is moderate in the coastal taluks particularly Sompeta, Ichchapuram and Srikakulam. In the rest of the district the summers are too hot and winters too cold being hilly areas. The maximum temperature among the towns in the district varies from 35.0°C to 47.8°C while the minimum temperature ranges from 10.7°C to 34.0°C.

The lowest temperature is recorded at Amadalavalasa while the highest temperature is recorded at Salur, Parvathipuram and Palakonda towns.

The district is benefited by both the south-west and north-east monsoons. Most of the rainfall is received during the south-west monsoon period *i.e.*, from June to September. Moderate rainfall is received during north-east monsoon period (October to December). The average rainfall in the towns is sufficient to the local needs, and it ranges from 938.0 mm. to 1,286. 2 mm. among the towns of this district. The highest annual rainfall is recorded at Parvathipuram *viz.*, 1,286.2 mm. and the lowest at Amadalavalasa and Srikakulam, with 938.0 mm. Maximum amount of rain is received during the south-west monsoon period.

All the towns are taluk headquarters except Amadalavalasa, Kondapalem *alias* Sriramnagar, Rajam, Palasa, Parasamba *alias* Kasibugga and Mandasa which are located at a distance of 112, 8, 21, 26, 26 and 15 Kms. from their respective taluk headquarters. Six towns are at a distance of 50 Kms. or less from the district headquarters, another six towns are within 51-100 Kms. and four at 100 Kms. and above.

The district has a satisfactory net work of road and rail communications in the plains area. All the sixteen towns in the district are well connected by buses. The bus transport in the district is under private management. The Madras-Calcutta National Highway is the most important road in this district and its total length is 134 Kms. in the district. It passes through Cheepurupalle, Srikakulam, Narasannapet, Tekkali, Sompeta and Ichchapuram taluks touching the towns of Srikakulam, Narasannapet, Tekkali and Ichchapuram. Another National Highway which branches off from Vizianagaram of Visakhapatnam district to Raipur of Madhya Pradesh passes through Bobbili and Parvathipuram. Besides the road communications, the district is also served by rail transport. The broad-gauge as well as narrow-gauge lines pass through the district. There are two broad-gauge lines, one connecting Madras and Howrah and passing through seven towns *viz.*, Kondapalem (Garividi), Cheepurupalle, Amadalavalasa, Tekkali, Mandasa, Palasa, Ichchapuram and another connecting Vizianagaram and Raipur and passing through two towns *viz.*, Bobbili and Parvathipuram with a branch line radiating to Salur. There is also a narrow-gauge line passing through this district connecting Tekkali and Pathapatnam. The remaining six towns *viz.*, Srikakulam, Palakonda, Rajam, Narasannapet, Parasamba *alias* Kasibugga and Sompeta are not directly connected with the rail communications and they are at a distance of 10, 59, 18, 5, 2 and 5 Kms. to the nearest Railway Station. In order to meet the increasing demand for passenger and goods transport due to increasing economy, modernisation of present railways by introducing high power traction such as diesel engines, private goods road transport are also undertaken in the district.

Further the district is also provided with navigation facilities through river Nagavali providing cheap cargo and passenger transport facility. Srikakulam and Palakonda are the two towns in the vicinity of these navigation facilities. Calingapatnam and Baruva are the two minor sea ports serving the needs of the district. Amadalavalasa, Srikakulam, Narasannapet, Mandasa, Ichchapuram are the five towns nearby these minor sea ports.

Statement III—Civic Finance

Since the introduction of the democratic decentralisation the popular institutions like Panchayats have an important role in the various developmental programmes. The effective run of these institutions would depend naturally on the financial soundness. The receipts from various sources of the Municipalities and Panchayats are presented under Cols. 3 to 8 and their total under Col. 9. The broad items of the expenditure are given under Cols. 10-15 with their total under Col. 16. The total receipts in respect of the six towns *viz.*, Cheepurupalle, Salur, Parvathipuram, Palasa, Tekkali and Sompeta are not adequate to meet their requirements, while the receipts exceeded the total expenditure in the remaining 10 towns. The deficit in respect of Parvathipuram and Tekkali is however more compared to other popular bodies of towns.

Statement IV—Civic and other Amenities in Towns

The Civic and other Amenities being provided to the citizens by the Civic Administration in towns are given in this statement. The particulars given in this statement include internal road system, existence of drainage system, number of latrines by type and method of disposal of night soil, protected water supply with source and capacity of water supply, availability of fire fighting service and electrification particulars relating to the domestic, industrial and commercial sources and road lighting services.

The civic administration in all the towns of the district maintain the roads. Srikakulam stands first in this district in respect of internal road mileage. The information in respect of Palakonda is not available.

The facility of open surface drains is available in all the towns. Besides this facility, the sewerage facility is also available in some of the towns. The facility of either water borne or service latrines is available in all the 16 towns of this district. The bucket system is the chief practice in removing the night soil. Protected water supply is available only in Srikakulam, Salur and Parvathipuram. Fire fighting service facility which has become dire necessity for the modern state to protect life and property from fire accidents, particularly in urban areas is available in three towns *viz.*, Srikakulam, Bobbili and Sompeta. All the towns in this district are electrified.

Statement V—Medical, Educational, Recreational and Cultural Facilities

Medical, Educational, Recreational and Cultural facilities available in the towns are given in this statement. The types of medical institutions with their number in brackets and the total bed strength of each category available in each town are shown under Cols. 3 and 4 respectively.

Medical facilities

The following abbreviations are used under column 3 to show the type of medical facilities available in the town.

H	...	Hospital
D	...	Dispensary
Mcw	...	Maternity and Child Welfare Centre
Fpc	...	Family Planning Centre
Nh	...	Nursing Home
Hc	...	Health Centre
T.B.C.	...	T. B. Clinic

All the 16 towns in the district together have 50 medical institutions which include Hospitals, Dispensaries, Maternity and Child Welfare Centres, Family Planning Centres, Nursing Homes, etc. The total bed strength available in all the 50 medical institutions is 643, to cater the needs of the entire urban population of 275, 720 in this district. Thus there are about 2 beds for every 1,000 urban population in this district. Srikakulam and Sompeta towns with a bed strength of 240 and 142 respectively have more number of beds compared to other towns. This district comprises large leprosy epidemic area. A number of people, to a considerable extent are infected with leprosy. In order to control this disease there is a Leprosy Control Unit functioning at Hiramandalam of Pathapatnam taluk. Facilities for the leprosy treatment are also made available in such parts of the district where it is more prevalent.

Educational Facilities

Particulars of various academic and professional institutions available in the towns are presented under Cols. 5 to 13. The number shown in the brackets is the number of institutions available in the category.

The following abbreviations are used to indicate the type of educational facility available in the town.

ASC	:	Arts, Science and Commerce College
SH	:	Shorthand Institution
TW	:	Typewriting Institution

There are only two combined colleges, one at Srikakulam and the other at Bobbili imparting instructions in Arts, Science & Commerce. There are no Medical or Engineering colleges located in any of the towns in the district. Two Government Polytechnics are in this district, one located at Srikakulam and another at Bobbili. There are altogether 22 Typewriting institutions and 12 Shorthand institutions in the 16 towns of this district of which 7 Typewriting and 6 Shorthand institutions are located in Srikakulam town itself.

There are 35 Higher Secondary or Secondary Schools, 3 Junior Secondary or Middle Schools, 119 Primary Schools and 14 other educational institutions in the urban areas of this district. The other educational institutions generally include the Training Schools, Oriental Schools or Colleges, *etc.*

The following table shows the number of institutions per 10,000 urban population in each town :

Name of Town	No. of schools for 10,000 population		
	Higher Secondary or Secondary	Junior Secondary and Middle	Primary
(1)	(2)	(3)	(4)
1. Amadalavalasa	1.4	..	6.5
2. Srikakulam	0.7	0.2	4 6
3. Cheepurupalle	1.7	..	6.0
4. Kondapalem *alias* Sriramnagar	1.1	..	3.4
5. Bobbili	1.0	0.3	4.2
6. Salur	0.6	..	3.9
7. Parvathipuram	1.7	..	4.7
8. Palakonda	1.1	..	4.5
9. Rajam	6.1	..	3.1
10. Narasannapet	1.6	..	5.6
11. Palasa	2.4	..	1.2
12. Parasamba *alias* Kasibugga	1.1	..	1.1
13. Tekkali	2.3	..	4.6
14. Mandasa	1.5	..	6.0
15. Sompeta	1.7	..	3.4
16. Ichchapuram	0.6	0.6	4.4
Urban Average	**1.4**	**0.1**	**4.4**

There are on an average 1.4 Higher Secondary or High Schools per 10,000 urban population in this district. There are only 0.1 Middle Schools and 4.4 Primary Schools per 10,000 urban population on an average in this district.

Incentives like mid-day meal scheme was also introduced in various schools to educate poor pupils.

There are no stadia in urban areas of this district. There are 26 cinema halls, 4 auditoria and 28 reading rooms including libraries in all the 16 towns together.

Statement VI—Trade, Commerce, Industry and Banking Facilities

In this statement data on trade, commerce, industries and banking facilities available in each town are given under 15 columns. Under columns 3 to 5 the three most important commodities imported into the town are given while under columns 6 to 8 the three most important commodities exported from the town are given. Under columns 9 to 11 the three most important articles manufactured in the town are given. Columns 12 to 14 are devoted to present the banking and co-operative credit facilities available in the town.

The most important commodities under imports, exports and manufacture were decided in terms of the estimated volume of the commodities transacted and in terms of the total out put of the commodities concerned respectively in each of the towns and not on the basis of their value. However, the uniqueness of a town which exhibited special characteritics in the spheres of either industry or manufacturing or mining, *etc* , has been retained by indicating those items of production or manufacture as the case may be in the concerned columns although such commodities did not stand a comparison with the other commodities in sheer terms of the estimated volume of transaction.

Srikakulam District is one of the backward districts in respect of major industries. But for the Ferro Alloys Corporation at Garividi and the three Sugar factories at Amadalavalasa, Bobbili and Seethanagaram the district is devoid of any major industries inspite of its importance in agriculture and forest wealth. There are a number of rivers and hill streams which supply adequate water and they can also be harnessed for establishment of major industries. Mesta is one of the major cash crops raised in this district and all the Mesta produced is being exported to Calcutta.

This district is rich in mineral wealth, particularly in Manganese ore and Lime. Graphite, white clay, Mica and Quartz are also available in Cheepurupalle, Bobbili, Salur, Ranasthalam, Rajam, Garividi, Kurupam, etc. Manganese is available at Cheepurupalle and Salur. The most important among the large and medium industries is the Ferro Alloys Corporation in Cheepurupalle taluk. There are 13 cashewnut processing units at Palasa, 6 salt extraction units along the Coast and workshops relating to light engineering and agricultural implements at Srikakulam and Palasa. Rice and Oil mills and saw mills are distributed among the important centres of the district. Brass and copper utensils are made in Srikakulam. Baruva is known for coir making.

The Andhra Pradesh State Finance Corporation, Hyderabad is also advancing loans for the existing as well as new small scale industrial units on liberal terms and conditions with a view to encourage such industries.

EXPORTS

Srikakulam District is mainly agricultural in character and whatever trade by way of export from this district is done only in agricultural produce. Exports generally cover paddy, rice, oils, chillies, pulses, cashewnut and sugar. Other commodities that are exported are manganese ore, handloom cloth, hides and skins and minor forest produce such as tamarind, myrabalams, *mahua* flower, *mahua* seed, hill brooms, cleaning nuts (nuxvomica) and *adda* leaves.

IMPORTS

Imports into the district are chemical fertilizers, building materials such as cement, iron etc. Motor vehicles, cycles and their parts, petroleum products, machinery, mill cloth, medicines, stainless steel utensils, radios and their parts, plastic goods and other general goods. Amadalavalasa and Parvathipuram are important wholesale centres in this district and the latter is known for its trade in forest produce. Daily markets are existing in all towns, in addition to the weekly shandies. Of all the shandies Chintada shandy near Amadalavalasa on Saturdays is famous.

Banks play an important role in industry, trade and commerce particularly in mobilising the savings of the community and making them available for investment for productive activities. In all, there are 39 banks, 12 agricultural credit societies and 18 non-agricultural credit societies in all the 16 towns.

Statement VII—Population by Religion and Scheduled Castes/Scheduled Tribes

The details of the population as per 1971 Census count by Religion, Scheduled Castes and Scheduled Tribes, with sex break up are given for each town in the district under columns 3 to 22. Only important religions whose population is not less than 10% of the total population of the town are given in the statement, while other religions for which the persons returned are less than 10% of the total population of a town are grouped together and shown under the category "Others" in columns 15 and 16 and 'religion not stated' under columns 17 and 18. The Scheduled Castes and Scheduled Tribes population in the town are shown in columns 19 to 22. 22, 200 persons belonging to Scheduled Castes and 1,645 persons of Scheduled Tribes constituting 9.3% and 0.77% of the total Scheduled Castes and Scheduled Tribes population in the district respectively have been reported in the urban areas of this district.

The particulars presented in the statements II to VI are based on the data received from the Tahsildars and Local bodies concerned and also from the concerned departments like medical, educational and electricity departments, while the particulars furnished in statements I and VII are based on the Census data.

PART B

PRIMARY CENSUS ABSTRACT

In this part of the District Census Handbook the Primary Census Abstract of 1971 Census on the following aspects is presented for each Revenue Village in respect of rural areas and for each Ward and Enumerator's Block of a town in urban areas.

1 Location Code No. and Name of the village/town and area

2 Total number of occupied residential houses and total number of households

3 Total population and its sex breakup

4 Population of Scheduled Castes and Scheduled Tribes by sex breakup

5 Literate and educated persons by sex

6 Total workers and the breakup of the workers into nine categories and also the total non-workers by sex as shown below

Category I Cultivators
Category II Agricultural Labourers
Category III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied Activities
Category IV Mining and Quarrying
Category V Manufacturing, Processing, Servicing and Repairs
(a) Household Industry
(b) Other than Household Industry
Category VI Construction
Category VII Trade and Commerce
Category VIII Transport, Storage and Communications
Category IX Other Services
Category X Non-Workers

A District Abstract containing the Primary Census Abstract data for the district as a whole together with rural and urban breakup and also for each taluk and for each town is first presented. It is followed by the data for each of the villages and towns in the first taluk. The data for the second and subsequent taluk are presented consecutively thereafter. The villages under each taluk are arranged in the ascending order of Location Code Numbers. In the urban areas the data are arranged in the ascending order of Location Code Numbers of towns and also in the ascending order of the ward number. The uninhabited villages and villages which have been fully included in a town have been indicated accordingly. In respect of villages which are partly included in towns the word "Rural" has been added in italics and in brackets after the name of the village and the particulars relating to the rural portion only have been given against such villages. At the beginning of each taluk an Alphabetical List of Villages together with their Location Code Numbers and a taluk map showing all the villages and towns with their boundaries are given. This Alphabetical List of Villages facilitates the reader in locating the required Village and its Location Code Number and thereafter know the Primary Census Abstract particulars. The taluk map facilitates the location of the required village/town. The jurisdiction of each Enumerator's Block is given before the urban/blockwise Primary Census Abstract.

The population data presented in the Primary Census Abstract relate to all persons alive at sunrise on 1st April 1971 and were present within the territory of Srikakulam District whether they lived in normal residential houses or in institutions such as hospitals, hostels, asylums, boarding houses, hotels *etc.*, or whether they were merely houseless persons like the wandering tribes, tramps, pavement dwellers, or those living in boats *etc.* They were all enumerated at the 1971 Census and their basic characteristics have been presented in this Primary Census Abstract.

The total population of Srikakulam District as on 1st April 1971 recorded at the Census enumeration is as follows :

	Total	Rural	Urban
Persons	2,589,991	2,314,271	275,720
Males	1,279,085	1,141,631	137,454
Females	1,310,906	1,172,640	138,266

The criteria adopted for classifying a place as rural or urban and the concepts of Urban Agglomeration and Standard Urban Area have already been explained in the beginning of this volume.

Columns 1 and 2 of the Primary Census Abstract indicate the Location Code Number and name of the village or town concerned. In respect of towns the Ward/Block/Locality numbers and the Enumerator's Block numbers are indicated under column 2.

Location Code is the method by which every village and town in a taluk in every district of a State is identified. Each district in this State has been given a separate code number, serially numbering the districts in a clockwise order starting from Srikakulam district and ending with Nalgonda district. Srikakulam district, in this process, is assinged Location Code No. 1. Within each district the taluks had similarly been allotted Location Code Numbers, the taluk in which the district headquarters lies being allotted Location Code No. 1 and the other taluks are numbered in a clockwise order. The revenue villages within each taluk are assigned separate serial numbers starting from the north-western corner of the taluk and ending with the south-eastern corner in a serpentine order. All the towns within a district were assigned Location Code Nos. in one serial order starting from the town in which the district headquarters is located and in the ascending order of taluk location code numbers. If any taluk has more than one town, then the town in which the taluk headquarters is located is assigned Location Code No. first and then the other towns in the taluk in a clock-wise order. The Location Code Nos. of villages are indicated in Arabic numerals while those of towns in Roman numerals.

Under col.3 the area of each of the villages and towns is given in square miles based on the information furnished by the State Survey Department, the Tahsildar and the Municipal authorities concerned. In respect of certain villages where the area particulars are not available, the fact is noted as "NA". As the area of the taluk comprises not only the area of villages but also the area of reserved forests, hills *etc.*, within the taluk, the area of all the villages and towns in the taluk put together may not be equal to the area of the taluk. The rural area of the taluk is obtained by deducting the total urban area of all the towns in the taluk from the total area of the taluk furnished by the State Survey Department. Similarly the rural area of the district is obtained by deducting the total urban area of all the towns in the district from the total area of the district. It may be pointed out in this connection that the total district area adopted is that furnished by the Survey of India Department and is provisional. The area of the taluks is furnished by the State Survey Department. Hence the total area of all taluks put together may not tally with the district area.

Under col. 4 the total number of occupied residential houses in each village and in each ward and Enumerator's Block of a town are given. These figures include those of partly residential houses also but not of the completely non-residential houses. The total number of households including houseless households and institutional households is given under col. 5.

The total population including houseless and institutional population with sex breakup is given under columns 6 to 8.

Under columns 9 to 12 the population of Scheduled Castes and Scheduled Tribes by sex is given.

The Scheduled Castes and Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I and Schedule II respectively of the Scheduled Castes and Scheduled Tribes Lists (Modification Order 1956) published in the Notification of the Ministry of Home Affairs, New Delhi dated 29th October, 1956. The list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given below.

The number of literate and educated persons given under Cols. 13 and 14. A person who cou both read and write any language with understandi was treated as a literate at the 1971 Census. A pers who could merely read but could not write or vi *versa* was not treated as a literate. The test for rea ing was ability to read any simple letter either in pri or in manuscript. Children aged 4 years and bel were treated as illiterate. The test for education w that the person should have passed a recognised writt examination or examinations as proof of educatior level attained. The highest examination passed w taken as the level of education.

The details of workers and non-workers are giv under Cols. 15 to 38. At the 1971 Census the pop lation has been broadly divided into two sections bas on the main activity *viz.*, (i) Workers and (ii) No Workers.

The definitions and concept in the economic clas fication of the population at the 1971 Census a explained below:

Worker

A 'worker' was a person whose main activity w participation in any economically productive work 1 his physical or mental activity. Work involves n only actual work but effective supervision and directic of work.

A man or woman who was engaged primarily household duties such as cooking for own household c performing one's own household duties or a boy or girl who was primarily a student attending institu tion, even if such a person helped in the family econom activity but not as a full time worker was not treate as a worker for the main activity. On the other hanc if a person was primarily engaged in some economi activity but at the same time attended to some hous hold chores or attended a night school *etc.*, he or sh was treated basically as a worker for the main activit and categorised accordingly.

A person who was working may be either workin as a cultivator, as an agricultural labourer or at household industry or may be doing any otherwork.

Reference Period

The reference period was one week prior to th date of enumeration in the case of regular work i trade, profession, service or business. If a perso had participated in any such regular work on any on of the days during this reference period and this ha

been returned as his main activity the person was categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness, travel, holiday, temporary breakdown or strike *etc.*, was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as economically active and recorded as workers. A person who had merely been offered work but had not actually joined it was not treated as engaged in work. There are certain types of works which are not carried on throughout the year *e.g.*, cultivation, livestock keeping, plantation work, some types of household industry *etc.* A person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year.

Cultivator

For purposes of the Census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, *etc.*, and pulses, raw jute and kindred fibre crops, cotton, *etc.*, and other crops such as sugarcane, groundnuts, tapioca, *etc.*, and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owned land but had given out land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land, was not treated as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share was not treated as cultivator.

Agricultural Labourer

A person who worked in another person's land for wages in money, kind or share was regarded as an 'Agricultural Labourer'. He had no risk in the cultivation but he merely worked in another person's land for wages. The labourer had no right of lease or contract on land on which he worked.

Household Industry

For a person who returned his main activity as engaged in some production or processing of goods such as, say, handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, dairying, cycle repairing, blacksmithy, tailoring *etc.*, it was ascertained if it was a household industry.

A Household Industry was defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not have been run on the scale of a registered factory.

The main criterion of a household industry was the participation of one or more members of a household. This criterion was applied to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence the household industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves ran an industry but at a place away from the precincts of their home, it was not considered a household industry. It should have been located within the precincts of the house where the members lived.

A Household Industry related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions such as pleader or doctor, or barber, musician, dancer, waterman, dhobi, astrologer, *etc.*, or merely trade or business, even if such profession, trade of services were run at home by members of household.

Some times it is likely that the person who may not be working in his own household industry may be working as a petty employee in another household industry. It was, therefore, enquired whether the person who was not working in his own household industry was working in any other household industry as an employee.

Other Workers

A person who gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry was recorded under the category of 'Other Workers'. The type of workers that may come under the category of 'Other Workers' are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers *etc.* In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry were recorded under this residual category. Workers engaged in plantation or forestry were not treated as cultivators or agricultural labourers but as 'Other Workers'.

According to the 1971 Census there were 535,688 residential houses and 547,355 households in Srikakulam District compared to 489,380 residential houses and 496,501 households in 1961. Thus there were 1.02 % households per residential house at 1971 compared to 1 01% households per residential house in 1961.

The total number of persons returned at the 1971 Census enumeration in Srikakulam District was 2,589,991 as against 2,275,493 in 1961 Census recording an increase of 13.8% over the population of 1961. The proportion of rural and urban population to the total population in the district works out to 89.35% and 10.65% respectively in 1971 Census compared to 91.01% and 8. 99% in 1961. There were 1,025 females for every 1,000 males at the 1971 Census as against 1,037 females per 1,000 males in 1961 Census.

The number of literates and educated persons and the number of illiterates reported at 1971 and their comparison with those at 1961 are given below :

NUMBER OF LITERATES AND EDUCATED PERSONS

Year	Number of Literates and Educated persons.	Number of Illiterates	Percentage of Literates to total population of District
1961	359,431	191,062	15.8
1971	479,580	2,110,411	18.52

It is observed that though there has been increase in the proportion of literate persons to total population in absolute numbers, the illiterates have increased inspite of the increased educational facilities. Most of the villages have now atleast primary schools at Present in the district.

The percentage of literates by sex to total population in total, rural and urban areas in the district in 1961 and 1971 are as follows.

PERCENTAGE OF LITERATES TO TOTAL POPULATION IN

	1961			1971		
	T	R	U	T	R	U
Persons	15.8	14.00	33.66	18.52	16.09	38.89
Males	22.70	22.69	46.78	27.67	24.93	50.47
Females	7.03	5.63	21.36	9.58	7.49	27.37

It is observed that the proportion of literate and educated persons as well as the increase in the proportion of literates compared to that in 1961 is low in rural areas compared to the position in the urban areas and conforms to the pattern prevailing in other districts of the State. This is mainly due to the fact that urban areas have more educational facilities and several urban occupations require a minimum level of education and so a larger number of parents try to get the children educated. In the rural areas the main occupation is agriculture or household industry which does not require any minimum educational qualifications. Even boys and girls of school going age are at times required to work in the fields in the rural areas. Moreover the rural areas have relatively less educational facilities.

The increase in the population of literates during the decade 1961–71 is not significant either among males or among females. About 92.51% of the rural females are still illiterates.

1,105,085 workers were returned in 1971 against 1,296,019 workers in 1961 Census. The 42.7% of the total population were workers in 19 as against 56.9% in 1961. The decrease in the proportion of working population in 1971 compared to 1961 Census proportion is mainly due to the change in the definition adopted at the 1971 Census. In 19 even marginal workers who spent most of their time basically as non-workers were also classified under workers while in 1971 only those who were engaged for most of the time in production work were treated as workers. A detailed analysis and comparison with 1961 of work participation rates is given in the chapter on population in Part 'C' of the District Census Hand Books, which will be printed as a separate volume.

The following table gives the percentage distribution of the working population by Industrial Categories in rural and urban areas and for males and females in Srikakulam District.

PERCENTAGE DISTRIBUTION OF THE WORKING POPULATION

Category	Percentage of Workers by category to total workers				
	Persons				
	Total	Rural	Urban	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)
I Cultivators	38.72	40.97	12.62	42.23	31.06
II Agricultural Labourers	37.81	39.39	19.53	29.84	55.23
III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied Activities	3.65	3.75	2.46	4.78	1.16
IV Mining and Quarrying	0.22	0.22	0.20	0.23	0.20
V Manufacturing Processing, Servicing and Repairs					
(a) Household Industry	4.98	4.88	6.17	5.41	4.04
(b) Other than household industry	1.34	0.60	9.95	1.76	0.43
VI Construction	0.40	0.22	2.54	0.54	0.10
VII Trade and Commerce	5.03	3.73	20.09	5.81	3.33
VIII Transport, Storage and Communications	1.15	0.64	7.05	1.62	0.13
IX Other Services	6.70	5.60	19.39	7.78	4.32
Total	**100.00**	**100.00**	**100.00**	**100.00**	**100.00**

Cultivators and Agricultural Labourers in the district constitute more than two thirds of the total workers in the district. Their proportion is as high as 80.36% of the total workers in the rural areas and 32.15% in the urban areas.

Workers in 'Other Services' which include State and Central Government services, educational services, religious and welfare services, local and business services, personal services *etc.*, constitute the second largest section in which 6.70% of the total workers are engaged. The proportion of these workers is higher, naturally in urban areas the proportion being 19.39% as against 5.60% in the rural areas. Trade and Commerce, Household Industry and Live Stock, Forestry, Fishing, Hunting and Plantations *etc.*, are the only other categories accounting for 3% or more but less than 6% of the total workers.

Male agricultural workers account for 72.07% of the total male workers in the district while the corresponding proportion for females is 86.29%. Generally a larger number of females than males work as agricultural labourers because several agricultural operations like sowing, weeding, harvesting, *etc.*, do not involve heavy manual labour. The female participation rates in other industrial categories is low compared to the corresponding male participation rates.

Scheduled Castes and Scheduled Tribes

238,489 persons returned themselves as Scheduled Castes at the 1971 Census compared to 214,327 persons at the 1961 Census recording an increase of 11.3% over the Scheduled Castes' population recorded at the 1961 Census. The Scheduled Castes population of the district in 1971 forms 4.13% of the total Scheduled Castes' population of the State or 9.2% of the total population of the district. The proportion of Scheduled Castes population to total population in the district is relatively low compared to their proportion in the State *viz.*, 13.27%. About 90.7% of the Scheduled Castes population in the district reside in rural parts of the district.

212,459 persons (106,792 males and 105,667 females), returned themselves as Scheduled Tribes at the 1971 Census against 185,542 persons at the 1961 Census recording an increase of 14.5% over the Scheduled Tribes' population in 1961. The Scheduled Tribes' population of the district in 1971, forms 12.8% of the

total Scheduled Tribes population of the State or 8.2% of the total population of the district. The proportion of Scheduled Tribes population to the total population of the district is relatively high compared to the corresponding proportion of 3.8% for the State. Almost the entire population of Scheduled Tribes *viz*,, about 99.2% of the total Scheduled Tribes population in the district reside in the rural parts of the district.

Detailed analysis of demographic data of the 1971 Census is given in the write up in Part–C of District Census Hand Book, which will be published as a separate volume.

Note: Salur Taluk is partly Agency and partly Plains. Village-wise data are shown separately for Agency Villages and Plains Villages under the captions 'Agency' and 'Plains'. Location Code Numbers for all the villages have been given in one serial order for the whole taluk. The Location Code Numbers which do not find place under 'Agency' may therefore find place under 'Plains'.

*T.R.U. area figures are in Sq. Kms. and Village/Town area figures are in Sq. Miles.

Note: Parvathipuram Taluk partly consists of Agency area and partly Plains. Village-wise data are given separately for the Agency Villages and Plains Villages under the captions 'Agency' and 'Plains' respectively although the Location Code Numbers for all the villages have been given in one serial order for the whole taluk. The Location Code Numbers that are unaccounted for under 'Agency Villges' will therefore be found under 'Plains Villages'.

*T.R.U. area figures are in Sq. Kms. and Village/Town area figures are in Sq. Miles.
