	(v) Tehsil Reodhar	

PREFACE

The Census Reports in olden times were printed one for the whole Province of Rajputana and another for Ajmer-Merwara. Some of the principal States published their own reports. This time the State Census Reports will contain statistics down to the district level only and a separate volume known as a " District Census Hand book" has been published which will supply basic population data right down to the tehsil level and other statistics for the district as a whole as well as for the Census Tracts composing it.

This Handbook contains five general population tables of A series, three economic tables of B series, five household and age tables of C series, seven social and cultural tables of D series, one table E giving summary for the district and tehsils and a local table (क) showing infirmities by age groups.

Village Directories were published for the first time in 1931 by a few States of Rajputana. The example was followed by all the States in 1941. They contained for each village the population figures by religion and also some other useful information. They were bound in a volume one for each State This time the Village Directories are incorporated in this Handbook under the name of Primary Census Abstracts which show the basic population figures separately for each village, or town-ward classified by livelihood classes instead of religion.

An index of non-agricultural occupations with an explanatory note has also been incorporated.

In addition to the above, some figures of general interest and a review of population figures have also been incorporated.

While every care has been taken to ensure the correctness of figures and village names, certain mistakes might have crept in. I shall be grateful if they are brought to my notice.

Udaipur,
Dated the 23rd February, 1952.

Y. L. DASHORA.

REVIEW OF POPULATION FIGURES

Introduction.

Sirohi is a district in Jodhpur division consisting of the area of the former Sirohi State minus the area given over to the Bombay State. It is situated in the South-West of Rajasthan between 24°–20′ and 25°–17′ North latitude and 72°–60′ and 73°–10′ East longitude; and is bounded on the West and North-West by Jalore, on the East and North East by Udaipur and Pali districts and on the South by Banskatha district of Bombay State. According to Natural Divisions it forms a part of Rajasthan Hills Division.

The district has only one sub-division, five tehsils, eight police stations and two circles.

Population.

This district consists of 4 towns and 334 villages having a population of 2,37,362 persons; (males 1,20,300 and females 1,17,062) of whom only 27,860 persons or 11·7 per cent reside in urban units and the rest in rural ones. This district stands 24th in respect of population among the districts of Rajasthan vide Annexure "A". A majority of villages are of the smallest size with a population below 500 persons. The only towns above 5,000 are (1) Sirohi, (2) Pindwara, (3) Sheoganj and (4) Roheda.

The population of this district as composed to-day, according to the Census of 1941, was 1,97,291 (males 1,01,305 and females 95,986). The last decade has witnessed an increase of 40,071 persons or 20·3 per cent vide Annexure " B ". Its growth is above the average growth in Rajasthan by 5·4 per cent. This growth in urban units has been 75 per cent while that in the rural units is only 15·4 per cent. The number per thousand of total population who live in towns was 79 in 1941 and is 117 in 1951; the urbanisation has increased by 38 per thousand during the decade. This is mainly due to the creation of new towns.

Area and density.

The area of this district is 1671·1 square miles. Thus it covers a little more than 1 per cent of the total area of the State and stands last but one vide Annexure "C". The Director of Land Records, Rajasthan, states the area of this district to be 1705 square miles. It has a density of 142 persons per square mile while the same was 118 in 1941. Its density is above the average density of Rajasthan which is 117 and much above that of Jodhpur Division (62) of which it forms a part, vide Annexure G.

Occupied houses, households, family composition and sex ratio.

The number of occupied houses in this district is 51,106 which are inhabited by 54,013 households; 45,186 houses occupied by 47,502 households in rural areas and 5,920 houses occupied by 6,511 households in urban units. The number of persons per occupied house is 4·5 (4·6 in rural and 4·7 in urban units) in 1951. The same was the proportion in 1941. The average number of persons per household is 4.4 in rural and 4.3 in urban units. The household population of Sirohi district is 2,36,746 (2,08,886 in rural and 27,860 in urban units) i. e. only 616 less than the total population. This last figure represents the houseless persons and inmates of institutions etc. The number of females per thousand males in this district is 973 in total population and 975 in household population. It was 947 in 1941 vide Annexure "E"., in the rural units it is 968 and in the urban 1014.

Literacy.

Number of total literates is 16,537 i.e. 69 per thousand (males 14,196 i.e. 118 per thousand and females 2,341 i. e. 20 per thousand). There has been an increase of 23 literates per thousand (males 39 per thousand and females 9 per thousand) since 1941. The condition is different in rural from urban units as depicted in the inset table.

NUMBER OF LITERATES PER THOUSAND

	Persons	Males.	Females.
Rural	48	86	10
Urban	280	365	97

Economic classification. Principal means of livelihood.

The strength of persons depending directly or indirectly upon agriculture as their principal means of livelihood is 1,26,602. They form 53 per cent of the total population but if we take out of consideration those who are not directly in touch with land i. e. non-cultivating owners of land and their dependants the percentage of actual agriculturists comes to 52. Amongst the agriculturists the largest percentage i. e. 31 is that of cultivators of land wholly or mainly unowned and their dependants. Cultivators of land wholly or mainly owned and their dependants rank second forming a percentage of 15 only. The cultivating labourers and their dependants stand third, who form 5 per cent only. Non-agricultural category forms 47 per cent; people depending on services and miscellaneous sources form 19 per cent of the general population; industrialists also comprise 19 per cent while traders are 8 per cent; transport is very insignificant as it supports only 1 per cent.

In the rural units the agricultural classes form 58 per cent of the population and the non-agricultural classes 42 per cent, i. e. cultivators of unowned land and their dependants form 35 per cent; owner cultivators and their dependants form 16 per cent; cultivating labourers and their dependants form 6 per cent while the non-cultivating owners are a little less than 2 per cent. Of the non-agricultural category in the rural area, the largest number belong to the industrialists, being 18 per cent and those depending upon 'other services and miscellaneous sources' being 17 per cent rank second. The traders come next being 7 per cent. The number of persons engaged in transport industry is inconsiderable being even less than 1 per cent.

In the urban units, the owner cultivators form 11 per cent of the population, and cultivators of unowned land come next with 6 per cent, while cultivating labourers are only 2 per cent; the number of non-cultivating owners of land with their dependants is very insignificant being less than 1 per cent. The non-agricultural category forms 80 per cent, the largest group depends upon 'other services and miscellaneous sources' forming 35 per cent, industrialists being 23 per cent and traders 18 per cent. Only 4 per cent of the population are engaged in transport industry.

Dependence.

Amongst the owner cultivators of this district 37 per cent are selfsupporting, 44 per cent non-earning dependants, and 19 per cent are earning dependants. Amongst cultivators of unowned land 28 per cent are selfsupporting; 54 per cent non-earning dependants and 18 per cent earning dependants. Amongst the cultivating labourers, 35 per cent are selfsupporting; 49 per cent are non-earning dependants and 16 per cent are earning dependants. Out of the non-cultivating owners of land and those receiving agricultural rent 19 per cent are selfsupporting, 77 per cent non-earning dependants and 4 per cent are earning dependants.

Out of the persons employed in industries i. e. production other than cultivation, 27 per cent are selfsupporting; 59 per cent are non-earning dependants and 14 per cent are earning dependants. Amongst traders, 30 per cent are selfsupporting, 67 per cent non-earning dependants, and 3 per cent are earning dependants. Out of the persons whose means of livelihood is transport, 29 per cent are selfsupporting; 62 per cent are non-earning dependants and 9 per cent are earning dependants. Out of the persons whose means of livelihood

is 'other services and miscellaneous sources' 30 per cent are selfsupporting; 63 per cent are non-earning dependants and 7 per cent are earning dependants.

Secondary means of livelihood.

23 per cent of the owner cultivators and 21 per cent of the cultivators of unowned land supplement their income by following secondary occupations. Of the cultivating labourers as many as 20 per cent have to follow secondary occupations. Amongst the rent receivers or non-cultivating owners of land those who follow subsidiary occupations are only 10 per cent.

In the non-agricultural population, 20 per cent of the industrialist class follow secondary occupations and amongst traders only 7 per cent do so. Whereas amongst those who are engaged in transport 14 per cent follow, subsidiary occupations. In the class 'other services and miscellaneous sources they are 9 per cent.

Economic status.

Out of the selfsupporting persons of non-agricultural classes ·1 per cent of the industrialists are employers, 5 per cent employees and 95 per cent are independant workers. Amongst traders 2 per cent are employers, 6 per cent employees and 92 per cent independant workers. In the transport class ·3 per cent are employers, 27 per cent employees and 72 per cent are independant workers. In the 'other services and miscellaneous sources' group less than 1 per cent are employers, 30 per cent employees and 70 per cent independant workers.

Economically inactive persons.

Economically inactive persons can be grouped into two categories.

1. (a) Those who earn their livelihood without any activity e. g. pensioners, stipend holders, receivers of rent from land or buildings or of interest; or (b) those whose activities are uneconomic in their nature e. g , beggers, prostitutes etc. The number of such persons in this district is 1581 (1274 males and 307 females). They form ·6 per cent of the total population of the district. Their further details are given in Annexure "H".

Language

The principal language of this district is Marwari which is really a dialect of Rajasthani. It is spoken by 2, 17, 647 persons i. e. 92 per cent. Of the other languages spoken in this district Bhili is spoken by 9, 724 persons or 4 per cent of the population. Speakers of Girasia dialect of Bhili are 6, 365 persons or 3 per cent. Western Hindi including Brijbhasha, Hindi and Urdu is spoken by 2, 075 persons or 1 per cent only.

Religion.

A vast majority of the people of the district consists of the followers of Hinduism being 92 per cent, next come the followers of Jainism being 6 per cent only. Muslims in this district are 2 per cent. The total number of Zoroastrians and Christians is only 36 and 2 respectively.

The Scheduled Castes population enumerated in this district is 43, 452 i. e. 18 per cent of the total population and there is none belonging to scheduled tribes. A list of scheduled castes notified by the Government of India is appended herewith Annexure "I".

Migrants.

Of the persons enumerated in this district 93 per cent are born in the district itself, while those born in other districts of Rajasthan are 6 per cent only. For districtwise details of the above items see Annexure "F". Persons born in India outside Rajasthan are 2,528 i. e. 1 per cent and those born outside India are only 278.

Displaced persons

The number of Displaced persons in this district is only 256 who have immigrated from West Pakistan (203 in 1947 & 53 in 1948). Majority of them i. e. 174 or 68 per cent are traders, 32 or 12·5 per cent are owner cultivators and the remaining earn their livelihood by other services and miscellaneous sources.

Educational standard by social groups.

Amongst agricultural population 19 per thousand are literates in accordance with the definition prescribed for the census; persons who have passed the Middle School Examination are 7 per thousand. In the non-agricultural population 108 per thousand are literates. Those who have passed the Middle School Examination are 6 per thousand. Matriculates are 4 per thousand. All others who have acquired higher educational qualifications than these number 2·2 per thousand roughly. Among the agricultural population 7 per thousand have acquired higher knowledge than mere literacy, and amongst the non-agricultural population this number is 12 per thousand.

Infirmities.

In this district the total number of persons afflicted by infirmities (the blind, the deaf-mutes, the insane and the leper) are 871 that is 4 per thousand. Blindness is the most prominent, the number being 727 that is 3 per thousand, persons afflicted by the rest of the infirmities are 1 per thousand. Sixty per cent of the total blind persons of the district are in the age group 55 and over.

SCHEME OF CENSUS TABLES.

Census Tables prepared this time fall under the following four broad groups:—

A GENERAL POPULATION TABLES
B ECONOMIC TABLES
C HOUSEHOLD AND AGE (SAMPLE) TABLES
D SOCIAL AND CULTURAL TABLES

There are five Tables under General Population Tables. These are:—

A I AREA, HOUSES AND POPULATION
A II VARIATION IN POPULATION DURING FIFTY YEARS
A III TOWNS AND VILLAGES CLASSIFIED BY POPULATION
A IV TOWNS CLASSIFIED BY POPULATION WITH VARIATIONS SINCE 1901
A V TOWNS ARRANGED TERRITORIALLY WITH POPULATION BY LIVELIHOOD CLASSES

Economic Tables Comprise three separate Tables. These are:—

B I LIVELIHOOD CLASSES AND SUB-CLASSES
B II SECONDARY MEANS OF LIVELIHOOD
B III EMPLOYERS, EMPLOYEES AND INDEPENDANT WORKERS IN INDUSTRIES AND SERVICES BY DIVISION AND SUB-DIVISIONS

There are five Tables in the Group of Household and Age (sample) Tables. These are:

C I HOUSEHOLD (SIZE AND COMPOSITION)
C II LIVELIHOOD CLASSES BY AGE GROUPS
C III AGE AND CIVIL CONDITION
C IV AGE AND LITERACY
C V SINGLE YEAR AGE RETURNS

They have been prepared on sample basis.

Social and Cultural Tables consist of seven Tables These are:—

D I LANGUAGES; D I (i) MOTHER TONGUE; D I (ii) BILINGUALISM
D II RELIGION
D III SCHEDULED CASTES AND SCHEDULED TRIBES
D IV MIGRANTS
D V DISPLACED PERSONS BY LIVELIHOOD CLASSES
D VI NON-INDIAN NATIONALS
D VII EDUCATIONAL STANDARDS

E Summary figures by Administrative Units
(क) Infirmities

DEFINITIONS AND KEY TO SYMBOLS

Definitions.

Tract:—In past censuses the census figures were tabulated by administrative units i.e. districts, tehsils etc. This time in almost all tables the figures have been represented by units which have been technically called "TRACTS". Tracts are of three kinds, (1) all villages of a sub-division taken together form one rural tract; (2) all towns (which are not cities) of a district taken together form an "urban non-city tract" and (3) every city is an "urban city tract" or in short "city tract". A list of tracts comprised in each district has been given in the handbook of the district

Town:—A "Town' has been defined as every municipality, every cantonment or every village which had a population of 5,000 or over in 1941 or any other village which was treated as a town for special reasons by the State Census Superintendent.

City:—A "City" is normally defined as a town with a population of one lac or over, but this definition has been relaxed in Rajasthan, and towns with a population of 50,000 or over have also been treated as cities, to bring the definition in uniformity with the one adopted in the Municipal Act.

Village:—A "Village" means a revenue **mauza** whose revenue is realised under a separate name. It includes all hamlets attached to it.

House.—A "House" has been defined as every structure made of any material which is actually used as human habitation or if not so used is capable of being so used, which has separate main entrance from the strect, lane, by-lane, etc. It includes structures of all kinds such as residential houses, temples, mosques, offices, etc. The minimum which was necessary for qualifying a structure to be classed as a house was at least two walls and a roof made of any material.

Occupied House.—"Occupied houses" were those which were used actually for the residence of human beings.

Household.—A "Household' has been defined to mean and include all persons living in one and the same house and dining at a common mess irrespective of their blood relationship e.g. servants residing with their masters and taking meals in their kitchen were treated as members of the master's household. On the contrary even nearest relatives as husband or wife were treated as separate families if for any reason they happened to live in separate buildings and dine at separate kitchens.

Household Population.—"Household Population" means persons living in numbered houses as members of a commensal family including guests and servants. It does not include (a) houseless persons or (b) inmates of institutions like jails, hospitals, hostels.dak bungalows, boarding houses, orphanages, sarais, dharmashalas, police lines, military lines, asylums, etc.

Displaced person.—A "Displaced person" was defined "as a person who migrated from Western Pakistan after 1st March 1947 or from Eastern Pakistan after 15th October 1946 due to communal disturbances or fear of disturbances or due to partition of India and Pakistan. Children born to such persons after their migration to India were not to be treated as displaced persons."

Ward.—A "Ward" was defined as municipal ward in case of municipal towns. In non-municipal towns wards have been made arbitrarily by the Census Department.

Means of Livelihood:—In former censuses it was customary to represent the basic population data by community or religion. This time an innovation has been made and in most of the tables the figures are published by means of livelihood groups. All occupations have been classified under eight broad classes and given code numbers which are as follows:—

I .. Cultivators of land wholly or mainly owned and their dependants.

II .. Cultivators of land wholly or mainly unowned and their dependants.

III .. Cultivating labourers and their dependants.

IV .. Non-cultivating owners of land, agricultural rent receivers and their dependants.

V .. Production other than cultivation.

VI .. Commerce.

VII .. Transport.

VIII .. Other services and miscellaneous sources.

N. B.—In most of the Tables, the m/l class number is only given instead of describing the class.

Code No.—In the enumeration stage a set of location code numbers was prescribed to identify each inhabited spot whereby the districts were numbered serially within the State, tehsils within a district and cities, towns and villages within a tehsil. Similarly houses were numbered within a village and households within each house. Hamlets were given sub-numbers under the number of the parent village.

Key to Symbols

M/L .. Means of livelihood.
T .. Total.
R .. Rural.
U .. Urban.
P .. Persons.
M .. Males.
F Females.

Letter "M" when used within the name of a city indicates "Municipality", letters "T.B",..Town Board; "N.A",..Notified Area.

A—GENERAL POPULATION TABLES.

A-I—AREA, HOUSES AND POPULATION.

Explanatory Note:—

This table shows for the District of Sirohi, as constituted on March 1951 after the division of old Sirohi State between Rajasthan and Bombay, and for the Tehsils, No. of Villages, Occupied Houses and total Rural population for Males and Females. The last unit contains all towns of the District taken together

The figures of area against each unit have been entered as supplied by the District Officer. The total area of the District as supplied by the Surveyor General of India has been given against the name of the District within brackets. The Tehsilwise area figures could not be made available from the Surveyor General's Office.

The area of old Sirohi State as published in the Census Reports was 1984 Sq. miles out of which 1 71·1 Sq. miles constitutes the present Sirohi District.

It consists of Tehsils Sirohi, Sheoganj, Pindwara, Bhawari and Reodhar, the other Tehsil Abu and a portion of Delwara having merged in Bombay.

S. No.	Administrative unit	Code No.	Area in Sq. miles	Villages	Towns	Occupied houses	Population

A-II- VARIATION IN POPULATION DURING FIFTY YEARS.

Explanatory Notes –

This table compares the population of the previous five censuses with that of the 1951. The figures of past Censuses pertaining to tehsils of the former Sirohi State now merged in Rajasthan have been taken from Provincial Table I of the reports of the past Censuses.

Census Years	Persons	Variation	Males	Variation	Females	Variation
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1901	132062	—	68917		63145	—
1911	160229	+28167	82544	+13627	77685	+14540
1921	157844	—2385	81346	—1198	76498	1187
1931	183194	+25350	94010	+12664	89184	+12686
1941	197291	+14097	101305	+7295	95986	+6802
1951	237362	+40071	120300	+18995	117062	+21076
1901-1951	Net Variation	+105300	—	+51383	—	+53917

A.- III—TOWNS AND VILLAGES CLASSIFIED BY POPULATION

Explanatory Note:—

This Table deals with the Towns as well as villages taken together. They have been classified according to population into classes as shown in the heading of the table The number of Towns and villages belonging to each class and their population sexwise have been shown separately for the district as a whole and for each Tehsil. The towns and villages with a population of 5000 and over are 4 namely Sirohi (11,956), Pindwara (6,52), Sheoganj (5,720), and Roheda (3,663).

A. IV. TOWNS CLASSIFIED BY POPULATION WITH VARIATIONS SINCE 1901.

Explanatory Note:—

This table compares the population of Towns as ascertained at the Census of 1951 with their population in the last 5 censuses. As far as possible adjustments have been made in the population where changes of area have taken place. In the case of newly created towns, unlike the past, no adjustments have been made, since these changes represent net increase in the urban population rather than expansions in area

The number of class is shown against the name of the town. The figures of the previous Censuses have been given against such towns only which were towns in the decades concerned.

In this table the cities and towns have been classified and arranged according to population under six classes namely: —

I .. 100,000 and over
II .. 50,000 and 100,000
III .. 20,000 and 50,000
IV .. 10,000 and 20,000
V .. 5,000 and 10,000
VI .. less than 5,000

Two new towns Pindwara and Roheda have been added this year, the former due to increase in population during the decade and the later due to urban characteristics hence their figures for past censuses have not been entered. Erinpura which was a town in the previous censuses has lost that status due to the abolition of the cantonment hence it does not find place in Table. In the District Total the past census figures include those of Erinpura. This explains the discrepancy between the actual total of the Table (if struck) and the District Summary.

Town	Tehsils and class of Town	Persons	Variation	Males	Variation	Females	Variation

A-V-TOWNS ARRANGED TERRITORIALLY WITH POPULATION BY LIVELIHOOD CLASSES.

Explanatory Note:—

This table gives the number of persons (including dependants) in each Town according to principal means of livelihood instead of religion as in past censuses but the means of livelihood classes I to III have been clubbed together and they have been shown in the columns No. 15 and 16 after the non-agricultural classes.

The towns have been arranged according to population. The nature of the local body functioning in each town is shown in brackets after the name of the town wherever such body is functioning.

Name of town	Code No.	Population			LIVELIHOOD CLASSES											
					Non-Agricultural Classes								Agricultural Classes			
					Persons (including dependants) who derive their Principal means of livelihood from											
					V-Production other than cultivation		VI-Commerce		VII-Transport		VIII-Other services and miscellaneous sources		IV-Non-cultivating owners of land, agricultural rent receivers and their dependants		I-III-Cultivators, cultivating labourers and their dependants.

B. ECONOMIC TABLES.

Explanatory Note:—In the 1951 Census, the economic classification was substituted for the classification based on religion.

The people have been divided into two broad livelihood categories, viz, the Agricultural Classes and the Non-Agricultural Classes.

There are four Agricultural Classes, defined as below:—

(i) Cultivators of land, wholly or mainly owned, and their dependants.

(ii) Cultivators of land, wholly or mainly unowned; and their dependants.

(iii) Cultivating labourers; and their dependants, and

(iv) Non-cultivating owners of land; agricultural rent receivers; and their dependants.

There are four Non-Agricultural Classes, defined as comprising all persons (including dependants) who derive their principal means of livelihood from:—

(v) Production (other than cultivation).

(vi) Commerce.

(vii) Transport.

(viii) Other Services, and Miscellaneous Sources.

All these classes have been referred to as means of Livelihood Classes or in brief M/L Classes.

NOTE.—(a) Land is deemed to be owned "if it is held on any tenure (by whatever name it is known locally) which carries with it the right of permanent occupancy for purposes of cultivation." Such right should be heritable. It may be (but need not necessarily be) also transferable.

(b) A "Cultivator" (Livelihood Class I or II) is distinguished from a "Cultivating Labourer" (Livelihood class III) as the person who takes the responsible decisions which constitute the direction of the process of cultivation. All cultivating labourers are employees of cultivators.

(c) The classification of a person employed in any non-agricultural enterprise or establishment is based on the nature of his own work, not on the nature of the enterprise or establishment concerned. Thus for instance not all railway employees are classifiable under Livelihood Class VII (Transport). Those employed in Railway workshops are classifiable under Livelihood Class V and those employed on constructional services under Livelihood Class VIII.

Livelihood Sub-Classes:—Each of the eight M/L Classes has been divided into three sub-classes, with reference to their economic status as below:—

(i) Selfsupporting persons;

(ii) Non-earning Dependants; and

(iii) Earning Dependants.

Economically active, semi-active and passive persons:

All non-earning dependants are economically passive. They include persons performing house-work or other domestic or personal services for other members of the same family household. But they do not include "unpaid family workers or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise".

All earning dependants are economically semi-active only. Though they contribute to the carrying on of economic activities, the magnitude of their individual contribution is deemed to be too small to justify their description as economically active.

All selfsupporting persons are, ordinarily, economically active. But, there are certain classes and groups which constitute an exception to this rule. These are mentioned below:—

(i) The selfsupporting persons of Agricultural class IV.

(ii) The following groups of selfsupporting persons who are included in non-agricultural class VIII and derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity): -

(a) Non-working owners of non-agricultural property,

(b) Pensioners and remittance holders,

(c Persons living on charity and other persons with unproductive occupations, and

(d) inmates of penal institutions and asylums.

Classification of Economic activities and Economically active persons: –

Economic activities may be defined as including all activities of which the result is the production of useful commodities or the performance of useful services but not including the performance of domestic or personal services by members of a family household to one another.

The most important among all economic activities is the cultivation of land (or the production of the field crops). It stands in a category by itself. All other economic activities may be regarded as falling in another category which may be referred to as "Industries and Services". All these activities may be classified with reference to the nature of the commodity produced or service performed. Under the present scheme, all industries and services are classified in 10 divisions; and these divisions are sub-divided into 88 sub-divisions. The scope of activities included in each sub-division is indicated by its title.

Economically active persons engaged in cultivation, are either cultivators or cultivating labourers i. e., they are persons of sub-class (i) of agricultural classes I to III.

Economically active persons engaged in industries and services are classifiable in the divisions and sub-divisions. All persons included in each sub-division are further divisible into three sections viz.,

(i) Employers.

(ii) Employees, and

(iii) Independant workers.

In effecting this classification, no account has been taken of whether the classified person was actually employed or unemployd on the date of enumeration. He has been allocated to that particular description of economic activity from which he has been in fact deriving a regular (that is non-casual) income, as his principal means of livelihood.

The Tables.

The Economic tables for the State as a whole with break-up for Natural Divisions and districts will be found in Part II B of the Census of India 1951 Report, Volume X, Rajasthan and Ajmer. It also contains a full discussion of the Indian Census Economic Classification Scheme and its

comparison with International Standard Industrial Classification scheme evolved by the United Nations Organisation. This Hand Book contains the above tables for this district in which they are published down to tract level.

The replies recorded in the census slips against census question 9, 10 and 11 have been used for classifying every enumerated person within the frame work of Economic Classification of people described above. The results have been exhibited in the three tables.

(a) Economic Table	I Livelihood classes and sub-classes.
(b) Economic Table	II Secondary means of livelihood.
(c) Economic Table	III Employers, employees, and independant workers in industries and services by divisions and sub-divisions.

Economic Table I.

This table is the result of the record of replies to the census question No. 9 (1). It shows the distribution of population in the eight livelihood classes and 3 sub-classes of each of the M/L class. A complete picture has been presented of economically active, semi-active and passive persons.

Economic Table II.

It specifies the number of selfsupporting persons in each of the 8 classes mentioned above, who have more than one means of livelihood and cross classifies them according to the nature of such secondary means of livelihood under the same eight classes. It also displays the number of earning dependants who supplement (with their own activities) the resources provided for their maintenance by the persons on whom they are dependant. The economic activity of the economically semi-active persons whereby they supplement the above resources has been shown in this Table. The replies recorded in the slips against census question 11 showing the occupation of semi-active persons as also the secondary means of livelihood of selfsupporting persons (with more than one occupation) other than the principal means of livelihood, are the basis or this table.

Economic Tables. III.

This table is limited to economically active persons only. Selfsupporting persons engaged in industries and services have been classified under 10 divisions and sub-divisions thereof. They have been further divided under each division and sub-division into three categories "Employers" "Employees", and "Independant workers".

(a) M/L Class V (Production other than cultivation) corresponds to divisions 0·4 (0-Primary industries not elsewhere specified, 1-Mining and quarrying; 2-Processing and manufacture-foodstuffs, textiles, leather and products thereof; 3-Processing and manufacture metals, chemicals and products thereof; 4-Processing and manufacture not elsewhere specified).

(b) M/L class VI (Commerce) corresponds to Division 6 (Commerce).

(c) M/L class VII (Transport) corresponds to sub-division 7·1 to 7·4 of division 7 (Transport, storage and communications).

(d) M/L class VIII (Other services and miscellaneous sources) includes Division 5 (Construction and utilities), Division 7 (Transport, storage and communication) with the exception of sub-division 7·1 to 7·4; Division 8 (Health, education and public administration) and Division 9 (Services not elsewhere specified). This also includes

other miscellaneous sources of livelihood e.g. income from investment, pensions and family remittances, proceeds of begging and other unproductive activities. These are not, however, included in Economic Table III which is limited to industries and services. Hence there is a difference to this extent between the total self-supporting persons of the non-agricultural classes in Economic Table I and the total of this table.

The reconciliation has been affected by entries of economically inactive persons with the following further classification at the end of the table (colms No. 799 to 808).

(i) Persons living principally on income from non-agricultural property.

(ii) Persons living principally on pensions remittances, scholarships and funds.

(iii) Inmates of jails, asylums, alms-houses.

(iv) Recipients of doles.

(v) Beggars and vagrants.

(vi) All other persons living principally on income derived from non-productive activities.

The Unit of Classification is the organised "Establishment". The commodity produced or the service performed as a result of the work of the organised establishment is the criterion for classifying the establishment. The classification of the establishment is the classification of every member of the establishment.

As regards "Employees", all persons, engaged, in production, commerce or transport (and not being domestic servants) have been classified under the appropriate sub-divisions with reference to their own activity, and without reference to that of their employer. Domestic servants have all been classed in one sub-division without reference to the nature of their work. All other employees (including all managerial and supervisory employees, clerks, messengers, watchmen and unskilled labourers of every description) have been classified with reference to the commodity produced or services rendered by their employers.

In this table occupational returns under some of the sub-divisions are nil and the columns pertaining to such sub-divisions have been omitted for the sake of economising of space, hence there are breaks in the serial number of columns.

B. I—Livelihood Classes and Sub-classes

EXPLANATORY NOTE:—It shows the distribution of population in the eight livelihood classes and 3 sub-classes of each of the M/L class. A complete picture has been presented of economically active, semi-active and passive persons.

C. SERIES—HOUSEHOLD AND AGE (SAMPLE) TABLES

Explanatory Note:—This series consists of the following tables:—

C. I Household (size and composition)
C. II Livelihood Classes by Age Groups.
C. III Age and Civil Conditions.
C. IV. Age and Literacy.
C. V. Single Year Age Returns.

All these tables have been prepared on sample basis. In table C.I nearly 1 in 1000 households has been selected as sample from the National Register of Citizens. In other tables 10% sample has been taken from the enumeration slips pertaining to general population excluding displaced persons population.

C—I—Household (size and composition)

EXPLANATORY NOTE:—This table shows for each census tract the total number of households, household population, the sample households population, and the size and composition of households in the sample household population.

The figures are arranged under two broad groups:—

(i) Size of households
(ii) Composition of households.

in (i) households have been called:

(a) "Small" if the number of inmates is 3 or less.
(b) "Medium" if the number of inmates is between 4 and 6.
(c) "Large" if the number of inmates is between 7 and 9.
(d) "Very large" if the number of inmates is 10 or more.

in (ii) the inmates in a household are described under three heads:

(a) Relationship to the head of the household
(b) Number in broad age groups.
(c) Civil condition.

Serial No.	Administrative Unit	Total No of households	Total Household Population			Total No of Sample Households

C-IV—AGE AND LITERACY

EXPLANATORY NOTE:—This table shows the literacy by age groups of the sample population. The figures of illiterates include those of partially literates i. e. those who can read a simple letter in any script but cannot write one. Literate means one who can both read and write a simple letter in any script.

D. VI.—NON-INDIAN NATIONALS

Note—Only one Nepali National of male sex has been returned in Sirohi District Rural.

D. VII.—EDUCATIONAL STANDARDS

EXPLANATORY NOTE:—It shows educational standards of population. Persons who do not come upto any of the standards specified in the Table and who are literate are classified under the first category 'literate". Literates do not include partially literates i. e. those who can only read but cannot write. The figures of literacy in this table have been obtained by sorting the slips while those published in the P. C. A. or Village Directory have been copied from the abstracts of National Registers of Citizens prepared by the enumerators. This explains the reason of difference if any.

Serial No.	Educational Standard	TOTAL			RURAL			URBAN		
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

PRIMARY CENSUS ABSTRACTS.

Explanatory Note.

These abstracts show figures of population according to eight livelihood classes for every town and each of its ward and village. They also show the area of each village or town and, for each village or town ward the number of occupied houses, house-holds, and literates, males and females separately. These abstracts are in essence a village directory, with the data exhibited according to livelihood classes instead of communities as in 1941. These abstracts have been prepared in two parts: Part I for towns in which all towns of the district are shown together arranged alphabetically, the name of tehsil in which the town is situated being given within brackets against the name of the town. Part II for villages in which the villages have been arranged alphabetically for tehsil and tehsils are arranged by location code numbers in each district. The information regarding the displaced persons, the small scale industries etc., has been given as Head Note on each abstract, for the whole tehsil in the rural and for the whole district in urban abstracts.

In column No. 2 the code number of each village only is given, that of tehsil and district has been given in the Head Note. The area figures given in Col. No. 3 have been obtained from the (Charge Superintendents) Tehsildars etc. The total area of this District as calculated by Surveyor General, India, is 1671·1 square miles.

The figures in Cols. Nos. 6, 7, 27 and 28 have been obtained from the abstracts of the National Registers of Citizens prepared by the enumerators. These registers consist of a transcription of the replies to the more important census questions in respect of every person enumerated. Figures of literates according to the tracts, derived from the census slips shown in Table D. VII, are generally more reliable than the village figures obtained from National Registers of Citizens. The census slip on which the replies to the census questions were recorded was the main document; the National Registers of Citizens was merely a copy. Moreover errors seem to have been committed by the enumerators while preparing the abstracts of National Registers of Citizen

Un-populated villages and hamlets have not been given a place in the abstracts, their lists are given at the end.

Repeated attempts were made to verify the names of villages through the local officers and corrections suggested have been embodied so far as it was practicable. At the time of this verification certain other discrepancies also came to notice namely confusion in the treatment of hamlets was observed in some cases Certain villages belonging to one tehsil were entered in another one, and *vice versa*. The population figures of villages having similar or common names were wrongly entered. In some cases figures of hamlets were found totalled with the village figures twice. This resulted in a slight change in total figures. This explains the difference, if any, between two totals of the Primary Census Abstract and those of tables prepared from it before such verification.
