

CENSUS OF INDIA 1961

RAJASTHAN

DISTRICT CENSUS HANDBOOK

SIKAR DISTRICT

C. S. GUPTA
OF THE INDIAN ADMINISTRATIVE SERVICE
Superintendent of Census Operations, Rajasthan

Printed by Mafatlal Z. Gandhi, at Nayan Printing Press, Ahmedabad-1.

FOREWORD

The Census data has always been considered as indispensable for day to day administration. It is increasingly being considered now as the foundation stone of all regional planning. The publication of this series of District Census Handbooks wherein census statistics is made available for smaller territorial units is, therefore, a significant occasion for it fills many existing gaps in statistics at the lower levels. Many interesting details have been revealed by the Census 1961 and I hope persons engaged in the administration of the State and public in general will appreciate the value and the effort that has gone into the production of such a standard book of reference.

I congratulate the Superintendent of Census Operations, Rajasthan, Shri C. S. Gupta I. A. S. and his colleagues who have done a good job with skill and perseverence.

B. MEHTA
Chief Secretary
to the Government of Rajasthan.

JAIPUR,
1st March, 1966.

PREFACE

The District Census Handbooks, to which series the present volume belongs, are the gifts of the Census of India and were first introduced in 1951. The 1961 series of District Census Handbooks are more elaborate than their counter-part in 1951 and present all important census data alongwith such other basic information as is very relevant for an understanding of the district. A wide variety of information which the Census 1961 collected has already been released in several parts as mentioned elsewhere in this book. The information contained in the present volume will be found useful by the Government, the district administration, persons engaged in regional planning, social workers and scholars in the field of humanities. Unfortunately these Handbooks became available to the users rather late in the decade. This was due to difficulties in printing. The Government Press Jodhpur, to whom this work was assigned by the State Government, had a heavy back-log of printing and found it impossible to print all the books in the series itself. Arrangements had therefore to be made to get these printed through a private press. I trust a more expeditious method for printing of such valuable matter in time will be devised in future.

I am grateful to Shri Asok. Mitra, Registrar General, India for his guidance in this work from time to time. I am greatly beholden to the State Government for their kindly agreeing, as they also did in 1951, to get this series published at their cost.

Dr. U. B. Mathur, Dy. Superintendent Census Operations, Rajasthan assisted me in editing this series. Tabulation Officer Shri S. R. Luhadia assiduously worked for compilation of the information presented in the book and has seen it through the press. Many of the facts and figures incorporated in the book were built up after scrutiny of a lot of raw material and by personal contacts. This task was admirably done by Shri Ram Autar Gupta, Statistical Assistant. Without their sincere cooperation and the assistance rendered by various members of the staff, mentioned overleaf, who were associated with this work, it would have been hardly possible to present the information which is the subject matter of this book. I thank them all.

C. S. GUPTA
Superintendent,
Census Operations, Rajasthan.

JAIPUR,
15th August, 1966.

SECTION I

INTRODUCTION

INTRODUCTION

Prior to the formation of Rajasthan the territory now known as district Sikar was a Thikana of the former Jaipur State. It merged alongwith Jaipur into the United States of Greater Rajasthan in the year 1949. A separate district of Sikar was then formed which continues to date.

Location and Formation

2. District Sikar is situated on the north eastern portion of Rajasthan at an average altitude of 1418.35 ft. and lies between 27°21′ and 28°12′ north latitudes and 74°44′ and 75°25′ east longitudes. It is bounded on the north by Jhunjhunu district, on the north-west by Churu district, on the south-west by Nagaur district and on the south-east by Jaipur district. It also touches Mahendargarh district of Punjab on the north-east corner.

3. The area of the district as reported by the Surveyor General of India is 3,027 Sq. miles and according to village papers it is 2,991.8 Sq. miles or 7,748.8 Sq. kms. The district covers 2.27% of the total area of the State and stands 19th in rank in area amongst the other districts of the State.

4. The district is composed of six tehsils *viz.* Fatehpur, Lachhmangarh, Sikar, Neem-ka-Thana, Sri Madhopur and Danta Ramgarh. There have been a few inter district transfers of area during the inter-censal period as a result of which two villages *viz.*, Boochara and Doodawas with an area of 22.5 Sq. miles and one village named Kot with an area of 12.3 Sq. miles were transferred from Neem-ka-Thana tehsil to Kotputli tehsil of Jaipur district and Udaipurwati tehsil of Jhunjhunu district respectively. Besides, some inter tehsil transfer of areas also took place in the district resulting in the transfer of four villages and one former town Reengus with an area of 25.0 Sq. miles from Sikar tehsil and 161 villages and two former towns *viz.* Khandela and Sri Madhopur with an area of 477.1 Sq. miles from Neem-ka-Thana tehsil to constitute a newly created Sri Madhopur tehsil. Two more villages *viz.* Bheema and Chirasara with an area of 11.1 Sq. miles were transferred from Sikar tehsil to Danta Ramgarh tehsil while the entire Ramgarh tehsil of 1951 with an area of 156.0 Sq. miles was merged in Fatehpur tehsil.

Topography

5. The major part of the district is an undulating sandy tract. The soil of the district varies from sandy to loam. The main range of Aravalli hills runs through the district in the north-east—south-west direction cutting it almost into two parts, the sandy tract composed of Fatehpur, Lachhmangarh and Sikar tehsils and the comparatively fertile part consisting of Neem-ka-Thana, Sri Madhopur and Danta Ramgarh tehsils having sandy loam soil. Almost parallel to the eastern boundary of the district passes another range of the Aravallies across the Neem-ka-Thana and Sri Madhopur tehsils which provides a river system to this part of the district comprising of rivers Dohan, Krishnawati, Sabi, Mendha and tributaries of river Kantli. The highest peak of the Aravallies is Raghunathgarh in Sikar tehsil which is 3,450 ft. above sea level. There is a small lake at Peethampuri in Neem-ka-Thana tehsil.

6. Water level in the district varies from 75 ft. to 125 ft. due to varied configuration of the tract. Some exceptional cases are, however, found such as water is available only at about 20 ft. in Bajor village of Sikar tehsil while it is as deep as 180 ft. in Gothra village of the same tehsil.

Climate

7. The climate of the district is extreme, dry and healthy. In summer the weather remains quite hot and hot winds blow from west to east during day which cause soil erosion while nights are generally pleasant and the mornings cool. The winter season is extremely cold. The district lies in the belt having an average minimum temperature ranging from 12°.5 C to 15°.0 C and an average maximum temperature ranging from 30°.0 C to 32°.5 C. In the year 1961 the maximum temperature recorded at Sikar centre was 41.0° while minimum was found 0.0°. The normal annual rainfall of the district is 43.05 cms. Generally the rainy season lasts from July

to September. The average humidity percentage of Sikar centre was 65.9° during 1961.

Geology and Minerals

8. In hilly areas of the district, building material is available in huge quantity. The hewn and chiselled stone of Raghunathgarh quarries is very beautiful in appearance and is mostly exported to the neighbouring districts. The dull white coloured stone found on the Harsh hills is beautiful but due to high cost of transportation it is used only locally.

9. Various kinds of minerals *viz.*, iron ore, beryl ore, lead ore, calcite, dolomite, limestone, felspar, mica and soap stone are found in the region near the Aravalli hills. The total production for some important minerals in the district during 1960–61 was as under :–

Iron ore	—	61.88 thousand tons
Lime stone	—	39.15 „ „
Calcite	—	3,648 tons

'Jhajra stone' is dug out from the earth at many places and is utilised for lime making. Lime stone is found at Mawanda and Dabla of Neem-ka-Thana tehsil where a good number of lime kilns have come up and are turning out very good quality of lime.

10. The Survey work regarding the preparation of cement from available stones in Mawanda and Patan has already been conducted and a scheme for establishing a cement factory in this area is now said to be under the consideration of the Government.

Forest, Flora & Fauna

11. The total geographical area of the district is 7,748.8 Sq. kms. (2,991.8 Sq. miles) out of which only 0.95% is under forests according to village papers. Forest area is meagre due to scanty rainfall. There are, however, some small 'birs' (grass reserves) which are being preserved. These 'birs' supply fodder to the animals of the towns. The forest area of Neem-ka-Thana sub-division supplies fuel for domestic purposes and timber for preparing agricultural implements and roofing. No commercial product is available in the forests except Salar wood which is used for tanning purposes. The major species in the hills are Dhok (Anogeissus pendula) and Babul (Acacia-arabica) while Kher (Acacia catechu), Pipal (Ficus religiosa), Khejra (Prosopis spicigera) Salar (Boswellia serrata), Siras (Albizzic lebbek), Seesam (Dalbergia sissoo) and Rohira (Tecoma undulata) are found in the plains. The shrubs available in the district are Phog (Calligonum polygonoides) and Aak (Calotropis-procera). Among wild animals leopards, tigers, sambhars and wolves are found in the forests of hilly areas. Monkeys are seen in some parts of Neem-ka-Thana sub-division and at Jeenmata hills. During second five year plan period, two forest nurseries were planted in the district and a sum of Rs. 2.95 lakhs was spent on forests and soil conservation schemes. The district was awarded Governor's Shield for Van-Mahotsava in the year 1959 which shows the public interest towards plantation of trees.

General Administration

12. For the purposes of administration, the district is divided into three sub-divisions, six tehsils and one sub-tehsil as mentioned below:—

Name of sub-division	*Name of tehsil*	*Name of sub-tehsil*
1 Fatehpur	1 Fatehpur	Ramgarh
	2 Lachhmangarh	
2 Neem-ka-Thana	1 Sri Madhopur	
	2 Neem-ka-Thana	
3 Sikar	1 Sikar	
	2 Danta Ramgarh	

13. The Collector is the administrative chief of the district who is also the District Magistrate. Each sub-division is under the charge of a Sub-divisional Magistrate who is vested with the Ist class magisterial powers. Each tehsil is under the charge and supervision of a Tehsildar who is vested with IInd class or IIIrd class magisterial powers, as the case may be, and the sub-tehsil is under the charge of a Naib-tehsildar, a non-gazetted officer, who is not vested with magisterial powers. Besides, Collector, Sub-divisional Officers and Tehsildars who exercise criminal powers, there are courts of Civil and Additional Sessions Judge and Munsiff at Sikar and

Civil Judge Court at Neem-ka-Thana. All the Judicial offices are under the administrative control of the District and Sessions Judge Court of Jhunjhunu.

14. With the advent of democratic decentralisation, 8 Panchayat Samities have been formed out of which 6 are Community Development Blocks. The Panchayat Samities are guided by the Zila Parishad under the chairmanship of the Pramukh and supervised by the Collector of the district who is also the District Development Officer. The Rajasthan Panchayat Samities and Zila Parishad Act, 1959 devolves on these Panchayat Samities the complete charge of the administration of the Block including the implementation of the Community Development Programmes. For imparting the technical guidance to the villagers the Government has deputed its representatives from various departments to the Block so that an all round progress may be achieved. The ultimate aim of the Government is to make these Panchayat Samities the sole agency of all developmental activities at the Block level.

15. There are judicial lock-ups at Fatehpur, Neem-ka-Thana and Sikar which are under the charge of respective Sub-divisional Officers. The office of the Superintendent Police is located at Sikar and that of Deputy Superintendent Police at Sikar and Neem-ka-Thana. 15 police stations and the same number of police out-posts were functioning in the district during the year 1960–61.

Land Use

16. The classification of the land use in the district during 1960–61 was as follows :—

1	Forests	0.95 %
2	Land put to non-agricultural use ...	2.76 %
3	Barren and uncultivable land ...	8.39 %
4	Other uncultivated land excluding fallow land	6.57 %
5	Culturable waste	2.78 %
6	Fallow land	11.51 %
7	Net area sown	67.04 %
	Total	100.00 %
	Area sown more than once	1.80 %

Crop Pattern

17. Agriculturally the district can be divided into two parts. In the former part, comprising of Neem-ka-Thana, Sri Madhopur and Danta Ramgarh tehsils, which is comparatively fertile both crops *viz.* 'Rabi' and 'Kharif' are grown. The latter part consisting of Sikar, Fatehpur and Lachhmangarh tehsils is utilised for single cropping due to the sandy soil and want of irrigation facilities.

18. Out of the total area sown under principal crops during 1960–61, 63.7% of the area was utilised for cereals, 34.9% for pulses, 1.2% for oil seeds and the rest of the area was utilised for growing other crops. Out of the total production of principal crops in the district, 80.71% was of cereals, 12.94% of pulses, 1.74% of oil seeds and the rest was of other crops. The important crops of the district in order of production are bajra, barley, kharif-pulses, wheat, sugarcane, gram and rape/mustard.

19. The district stood fifth in the production of bajra amongst the various districts of the State during 1960–61 and contributed 8.69% of the total production of the State.

Irrigation

20. Means of irrigation in the district are very much limited and mostly consist of wells. Water from wells is usually drawn out with the help of bullocks in the primitive way by using 'Charas' of leather. It is also drawn out by means of 'Dhekli', where it is found only at a few feet deep.

21. During 1960–61, 77,020 acres of area was irrigated in the district of which 89.7% was under food crops including sugarcane. A sum of Rs.35 thousand was spent on irrigation facilities in the district during the second five year plan period.

Animal Husbandry

22. The total livestock population in the district was 1,117 thousand heads according to the Livestock Census of 1961. Out of the total livestock, 30.0% were goats, 29.6% cattle, 26.2% sheep, 9.8% buffaloes and the rest comprised of horses, ponies, mules, donkeys, camels and

pigs. The total poultry in the district was a little over 7 thousand out of which 98.0% were fowls and rest were ducks and others.

23. There are veterinary hospitals located at Sikar, Neem-ka-Thana, Lachhmangarh and Danta Ramgarh and dispensaries at Reengus, Ramgarh, Fatehpur, Sri Madhopur and Khandela. For raising good bulls for breeding purposes, 5 buff bulls of 'Murrah' breed and 35 cow bulls of 'Hariana' breed were supplied during second five year plan period. 19 bulls were purchased under subsidy scheme and 9 bull calves were selected under premium scheme. Besides, private breeding farms were opened – 18 for cattle, 87 for sheep and 3 for poultry. Arrangements for free services have been started in veterinary hospital Sikar.

24. Three Gaushalas are also running in the district under Gaushala Development Scheme at Fatehpur, Lachhmangarh and Sikar. An aid of Rs. 36,980 was given to these Gaushalas during the second plan period.

25. To encourage sheep rearing and wool production, extension centres are functioning at Sikar, Fatehpur, Lachhmangarh, Reengus, Ajeetgarh, Dhod, Khandela and Danta Ramgarh under I.C.A.R. Scheme. Such centres are also running at Danta Ramgarh, Sri Madhopur and Lachhmangarh under Community Development Blocks. During second plan period 50 sheep centres were registered, 5 wool production organisations and 4 sheep shearing centres were established. A sum of Rs. 2.05 lakhs was spent for the development of animal husbandry facilities in the district during the second five year plan.

Agricultural Implements

26. During 1960–61, there were around 60 thousand ploughs, 18 thousand bullock carts, 143 Ghanies, 48 oil engines, 23 tractors, 2 electric pumps and 2 sugarcane crushers in the district.

Agricultural Improvements

27. Agricultural improvement programme was intensified during the second five year plan when a sum of Rs. 15.09 lakhs was spent on this head. 30 thousand Mds. of improved seeds, 0.14 thousand ton of fertilizers, 0.82 lakh ton of manure and 866 implements were distributed to the farmers under various schemes of the Agriculture Department. 18.5 thousand manure pits were dug and 3.9 thousand acres of land was brought under the plough.

Irrigation Development

28. 387 new wells were constructed, 327 wells were repaired or deepened and 21 tanks were deepened and necessary repairs and improvements were done. Under minor irrigation schemes, a scheme for digging 114 wells on the sides of Reengus river from Reengus to Deorala has been surveyed and the Government has sanctioned rupees two lakhs to Sri Madhopur Panchayat Samiti for this scheme. On completion of this scheme, about two thousand bighas of land will be brought under irrigation. Besides, the dam construction work at Raipur Patan in Neem-ka-Thana Panchayat Samiti is under progress which will facilitate irrigation in about 4 thousand acres of land on completion.

Industries and Labour

29. By the end of the year 1961, seven registered factories were functioning in the district. The biggest factory in the district employing 75 persons is Sikar Zila Khadi Gramodyog Samiti which is located at Reengus. The district is industrially backward due to the absence of factors responsible for the development of large scale industry.

30. The main cottage industries in rural areas of the district are Gota-kinari, pottery, black–smithy, carpentary, gold–smithy, cotton spinning and weaving, wool carding, basket, rope, chabbri and 'Pattal' making, stone cutting, shoe making, lac bangle making and 'Mundha-cum-Ban' making.

31. A branch office of the Industries Department was started at Sikar in 1956 for Sikar and Jhunjhunu districts with a view to revive the old industries and help in starting and developing new industries by providing all sorts of facilities. To help the small scale and cottage industries in the district the department has started a scheme of aiding such industries by advancing loans to

the parties. Besides, the Department also issues permits for controlled commodities, machineries, iron and steel, coal, cement, copper, caustic soda, salt etc. It also distributes the looms and accessories to weaver's societies.

32. A sum of Rs. 5.15 lakh was spent on industrial development during second five year plan, comprising of loans to co-operative societies, subsidies, rebates etc. Industrial Estates at Sikar and Neem-ka-Thana have been set up.

33. The district has an employment exchange located at Sikar which was opened in the year 1961. During this year the total number of registrations in the district was over 3.5 thousand.

Trade Union

34. The only registered trade union functioning in the district during 1960-61 was Motor Mazdoor Union at Sikar which was started in the year 1959.

Power

35. The power house at Sikar was established in 1936 by the Thikana of Sikar wich was taken over by the State Electrical and Mechanical Department in 1955. At the time of the formation of Rajasthan State Electricity Board, there were 3 generating sets with 288 Kw. installed capacity and electricity was supplied only for a limited time by the power house. Efforts made continuously for two years resulted in connecting Sikar with Ratangarh to obtain Hydro-electricity from Bhakra. It was a big job as over 700 electric towers had to be fixed up on this 53 miles line. The scheme was switched in March, 1960. The old generating sets are used as stand by.

36. The town of Ramgarh also receives its electricity from the Bhakra Scheme. Formerly it was supplied electricity from Bikaner Power House. Fatehpur and Lachhmangarh towns are also electrified. During the second five year plan a sum of Rs. 18.68 lakhs was spent on power in this district.

Trade and Commerce

37. The main articles that are exported out of this district consist of moong, mustard, sheep, goats, hides and wool while sugar, gur, wheat, gram, leather, metal, kerosene oil, petrol, edible oils, clothes and other general merchandise goods are imported into the district.

38. Neither regulated markets nor big mandies are found in the district, however, there are occasional religious fairs held at various places in the district where villagers purchase articles and commodities of their necessities and sell their surplus food grains, ghee, fodder and fuel. Sikar, Fatehpur, Lachhmangarh, Ramgarh, Sri Madhopur, Neem-ka-Thana, Reengus, Khandela and Ajeetgarh are the towns which are famous for commercial purposes in the district. Facilities of local markets also exist in certain villages which have been shown in the Primary Census Abstract elsewhere in this book.

39. The State Bank of Jaipur has got its branches at Sikar, Lachhmangarh, Danta Ramgarh, Neem-ka-Thana and Sri Madhopur towns and the United Commercial Bank Ltd., at Sikar town.

40. During 1950-51, there were 82 shops dealing in country liquor, 50 in opium and 42 in hemp drugs at the various places in the district. There were only 62 shops of country liquor in 1961 while the number remained the same in case of hemp drugs. There is no opium shop functioning now.

41. There is a permanent cinema house at Sikar town with a seating capacity of 724.

Education

42. During 1956-57 there were 7 Colleges and 9 High Schools, 59 Middle Schools, 388 Primary Schools in the district. The number in case of schools increased to 21 High/Higher Secondary Schools, 67 Middle Schools and 561 Primary Schools during 1960-61. Besides, 44 Junior Basic Schools, 1 Professional School and 107 Schools for special education were also functioning. The total number of scholars in all type of institutions during 1960-61 was 60,528. A sum of Rs. 29.89 lakh was spent on educational facilities in the district during the second five year plan period.

Medical and Public Health

43. Prior to the first five year plan there were 4 allopathic hospitals with 30 beds in addition to three dispensaries. By the end of 1960, there were 8 allopathic

hospitals with 120 beds, 7 allopathic dispensaries and 5 primary health centres with 30 beds.

44. There are maternity and child welfare centres at Sikar, Losal and Neem-ka-Thana with 10, 6 and 2 beds respectively. Special maternity facilities have also been provided in Shri Kalyan Hospital, Sikar having 4 beds where pathological laboratory and X-ray facilities also exist.

45. There are four family planning centres, out of which one is at Sikar, which is under Government Control and the remaining three at Neem-ka-Thana, Dhod and Lachhmangarh are controlled by Panchayat Samities. 11,717 cases were given family planning advices during 1960-61. Out of 12 small pox vaccination centres in the district, 4 are controlled by the Government and the rest 8 are under the control of Panchayat Samities.

46. There are two anti-rabic centres, one in Kalyan Hospital, Sikar and another in Government Hospital, Neem-ka-Thana. Besides these, dental facilities were started in the district in 1959. A separate ward for eye patients is running in Kalyan Hospital, Sikar with 12 beds. A 20 beded isolation ward for the treatment of advanced T.B. cases has also been functioning in the district since 1960. For controlling the disease of Malaria, a Malaria Eradication Unit was started in Sikar town in 1959 which has covered most of the area of the district by spraying D.D.T. There are Dais Training Centres at Sikar and Neem-ka-Thana.

47. The outdoor and in-door patients treated in State Public Allopathic Hospitals of the district were around 228 thousand and 4 thousand respectively during 1960-61 as compared to 67 thousand and 2 thousand respectively during 1950-51.

48. A branch of the Ayurvedic Department was set up at Sikar in 1960 for looking after the ayurvedic facilities in the districts Sikar and Jhunjhunu. During 1960-61, there were 43 ayurvedic dispensaries in the district. A sum of Rs.5.80 lakhs and Rs.0.52 lakh was spent on Medical and Public Health and ayurvedic facilities in the district respectively during the second plan period.

Drinking Water Facilities

49. Very little was done towards the solution of drinking water supply problem for both rural and urban areas of the district in the past. Some arrangements were made by some philanthropists and institutions at some important towns by constructing one or more wells in their Mohallas. During first five year plan, the water supply schemes for village Deorala of Sri Madhopur tehsil, Ganeri of Lachhmangarh tehsil and Mawanda Khurd of Neem-ka-Thana tehsil were sanctioned at an estimated cost of Rs. 50,200, Rs. 19,825 and Rs. 46,000 respectively but nothing could be spent during first five year plan. However, these schemes were carried on during second five year plan and a sum of Rs. 5,992, Rs. 6,226 and Rs. 9,216 was incurred on these schemes respectively. Besides, a philanthropist completed a water supply scheme in village Losal of Danta Ramgarh tehsil with an estimated expenditure of rupees one lakh. Various other schemes are now under progress in rural areas under Village Panchayats. Under urban water supply schemes, a sum of Rs. 18 lakhs was sanctioned by the State Government for Sikar town of which only Rs. 5.70 lakhs were spent during second plan period. In all Rs. 10.48 lakhs were spent on various water supply schemes in the district during the second five year plan.

Housing

50. The Low Income Group Housing Scheme was initially introduced in the district in the last year of the first five year plan by disbursing a loan of Rs. 15 thousand. During second five year plan a sum of Rs. 3.09 lakhs was again disbursed to the public under this scheme for the construction of houses as a result of which 89 houses were constructed and 23 were under construction.

Transport and Communication

51. The district had only 60 miles of roads in 1950-51 which increased to 432 miles by the end of March, 1961. 46.1% of the roads were painted and metalled and the rest 53.9% were of fair weather and dressed up tracks. 9 road works were completed and a sum of Rs. 54.78 lakhs was spent on road development works in the district during the second five year plan.

52. There were 316 motor vehicles on road during the year 1950–51 which increased to 545 by the end of 1961.

53. The district is connected by the Western Railway. The Phulera–Rewari Chord line passes through the district connecting Reengus with Dabla while Sawai Madhopur-Loharu railway line passes through Sikar town. Another railway line Sikar to Fatehpur has been extended upto Churu and passes through Ramgarh town of this district. Thus, all the towns except Khandela are served by railways. The total railway route mileage in the district was 69 in the year 1959. All the important places of the district are connected with bus routes. In the interior of the district, where rail and road facilities are not available, camels, bullock–carts and horses are the chief means of transport. There were 180 post offices, 11 telegraphs offices, 2 telephone exchanges and 6 public call offices in the district during 1960–61.

Local Bodies and Co–operation

54. There are Municipal Boards in the district at Ramgarh, Fatehpur, Lachhmangarh, Sikar, Khandela, Neem–ka–Thana and Sri Madhopur. The main sources of recurring income are octroi duty, vehicle tax, fees from sign boards, and lease from temporary structures etc., while non–recurring income is realised from the sale of land and loans and grants sanctioned by the Government.

55. There is a Zila Parishad, comprising of 8 Panchayat Samities, 292 Gram Panchayats and 55 Nyaya Panchayats in the district as mentioned below :–

Panchayat Samities	*No. of Gram Panchayats*	*No. of Nyaya Panchayats*
Neem–ka–Thana	47	9
Lachhmangarh	37	7
Danta Ramgarh	42	8
Sri Madhopur	28	5
Piprali	29	5
Fatehpur	35	7
Dhod	37	7
Khandela	37	7

56. There is a Central Co-operative Bank and various types of Co-operative Societies in the district. As many as 491 societies (including a Central Co-operative Bank) with a total membership of over 34 thousand were functioning during 1960–61. The working capital of these societies was Rs. 7,240 thousand and the share capital was Rs. 1,186 thousand. A sum of Rs. 4,801 thousand was advanced as loan by the Government to the different Co-operative Societies during the year 1960–61. The deposits and borrowings during the period was around Rs. 567,000 and Rs. 5,467,000 respectively while total liabilities amounted to Rs. 7,475,000. In all 318 societies were functioning at profit, 69 at loss and 104 societies were functioning on no profit no loss basis. During the second five year plan a sum of Rs. 4.64 lakhs, was spent on co-operation in the district.

Community Development

57. The Community Development Programme was taken up in the district for the first time during 1955–56 with the establishment of a block in Neem–ka–Thana. This was followed by the establishment of a block at Lachhmangarh in 1956–57, Danta Ramgarh in 1957–58, Sri–Madhopur in 1958–59, Piprali and Dhod in 1960–61. Thus, by the end of December, 1961, there were 6 blocks in the district. These blocks covered 584 villages consisting of 413 thousand rural population.

58. Under this programme, in 1961 alone about 2.6 thousand Mds. of fertilizers and over 7 thousand Mds. of improved seeds and over 1.2 thousand agricultural implements were distributed to the farmers and about 500 demonstrations were held in the various Panchayat Samities of the district. 472 pedigree birds and animals were supplied. 239 wells were constructed for irrigation purposes. 256 adult literacy centres were started which made 1,345 persons literate. 55 Youth Clubs were started and 19 reading rooms and libraries were opened. Efforts were made to save the crop from pests and other insects by organising a campaign among villagers and 8,629 acres of land was eradicated with rats and catterpillers. All Tehsildars and Vikas Adhikaries were trained by the Locust Entomologist to save the crop from locust menace. A children enrolment drive was organised in the district. Rs. 35.61 lakhs were spent on community development and National Extension Services in the district during the second five year plan period.

Social Welfare

59. There is an office of the State Social Welfare Department at Sikar which was established in 1960 for looking after the welfare activities connected with the uplift of the backward classes in districts Sikar and Jhunjhunu. It also acts as a liasion between prisoners and their relatives.

60. There are two hostels each for 25 students for Meena community located at Sikar and Neem-ka-Thana where the lodging and boarding facilities are provided by the department. Four aided hostels one each at Sikar, Reengus and Fatehpur for Scheduled Castes and one at Neem-ka-Thana for Scheduled Tribes are run in the district by voluntary agencies. Two tailoring classes for Scheduled Caste students at Sikar and Khandela and two for Scheduled Tribes at Reengus and Nayabas (Fatehpur) are also run. Trainees are given a stipend during the training period of two years and after completing the training tools and machines are provided free of charge to enable them to establish their trade in open market. There are social and adult education centres at Sikar, Fatehpur, Neem-ka-Thana, Losal, Khachariyawas and Danta Ramgarh. The Government has also opened three 'Sanskar-Kendras' in Harijan Basti, one full time for females and two part time for males for the development of cultural and religious activities of the Scheduled Castes.

61. For the rehabilitation of Scheduled Castes and Scheduled Tribes subsidy is granted at the rate of Rs. 750 to each family for constructing pucca houses, provided it is also prepared to incur an equal amount in the form of material and labour.

62. Under a scheme an offender, particularly a juvenile delinquent, may at the discretion of the court be released on certain conditions for a specified period during which he is kept under the supervision of a well trained probation officer of the Social Welfare Department instead of sending him to the prison. In this system the training is imparted to the offender and efforts are made to reform him. A sum of Rs. 2.24 lakhs was spent for social welfare and welfare of backward classes in the district during the second five year plan period.

Fairs and Festivals

63. The important fairs held in the district are as under :-

(i) Shyamji :-

This fair is held in village Khatoo of Danta Ramgarh tehsil which is situated at a distance of 20 miles from the tehsil headquarter and 30 miles from Sikar town. The duration of the fair is 3 days i.e. from Phalguna Sudi 10 to 12 every year when people assemble for performing 'Mundhan Sanskars' of their children and to worship at the temple of Shyamji. This temple dedicated to Lord Krishna has been reconstructed and modernised and has been electrified.

(ii) Jeen Mata :-

The temple of Jeen Mata is situated near village Jeenwas of tehsil Danta Ramgarh in the hills popularly known as Jeen Mata hills which is at a distance of 15 miles south of Sikar. Two fairs are held every year in the months of Chaitra and Ashvina when thousands of pilgrims congregate to pay their homage to the Goddess. The place is well served by Dharmshalas. Goriyan is the nearest railway station at a distance of 8 miles.

(iii) Shakambari :-

The temple of Shakambari Devi which is also called 'Sakray Mata' is situated in village Sakray of Sikar tehsil at a distance of about 34 miles from Sikar town. The temple is surrounded by mountains and is located in a mango grove. There are seven kunds behind the temple inter connected with each other. During rains a large number of people come here to enjoy the natural scenery. Fairs are held twice in a year in the months of Chaitra and Ashvina. The place is well served by Dharmshalas where utensils and other necessary commodities are also made available to the pilgrims.

(iv) Cattle Fair, Sikar :-

Cattle fairs are held at Sikar in the months of April and September every year which are organised by the

District Board. In the Cattle fairs of 1958–59, about 7 thousand animals were brought for trade.

(v) Cattle Fair, Sri Madhopur :–

A fair is held from 14th June to 30th June every year and is organised by the Municipal Board, Sri Madhopur. In the Cattle fair of 1958–59, over 3,300 animals were brought for purposes of purchase and sale.

(vi) Cattle Fair, Neem-ka-Thana :–

A fair is held at Neem-ka-Thana and is organised by the Municipal Board, Neem-ka-Thana. The main specie of cattle offered for trade is the famous Hariana breed. In the Cattle fair of 1958–59, over 2,500 animals were brought for commercial purposes.

64. The main festivals among Hindus are Deewali, Dashera, Holi, Teej, Gangaur and Sheetla Ashtmi while Muslims observe Moharrum, Idulfitre, Idul Zuha and Barawafat.

Places of Historical & Archaeological Importance

65. Following places are of great interest :–

Sikar :–

Sikar is the main town of the district having a population of over 50 thousand persons, which is 35.24% of the district's urban population. The town is situated at about 27° 37' north latitudes and 75° 8' east longitudes at a distance of about 107 Kms. (67 miles) by rail from Jaipur. There is a museum which contains the archaeological curious of Harsh which is the main source of attraction to the tourists. The lay out of the town is largely made on the pattern of Jaipur city. The palaces of Rao Raja have their own significance for the visitors. Amongst them mention may be made of the Jubilee Hall constructed in the memory of the Golden Jubilee of Queen Victoria and Madho Niwas named after the Late Rao Raja.

Fatehpur :–

Fatehpur has a population of just over 27 thousand persons which is 18.82% of the district's urban population. The town is famous for its fort which was built by Khan Nawab. It has several mosques. The Nakkarkhana of the fort is now in ruins. There is an old mausoleum of Nawab Daulat Khan. An old temple dedicated to Shri Laxminathji is situated in the heart of the town. Several sadhu's monestaries and Jain temples are other places of interest in the town.

Harshnath :–

The temple of Lord Shiva on the hills of Sri Harshnath is a place of great archaeological interest which is at a distance of seven miles to the south of Sikar town. The inscription found on the hills shows that the temple was built by a king in 973 A.D. and several villages were dedicated to it. The remnants of other temples and a stepped well are noteworthy. The workmanship is very delicate, systematic and symmetrical. Some of the remnants are now lying deposited in Sikar Museum which include some fascinating images of Gods.

Ganeshwar :–

This place is the Headquarter of Ganeshwar Gram Panchayat under Neem-ka-Thana Panchayat Samiti. It is situated at a distance of 6 miles from Neem-ka-Thana and 62 miles from Sikar town. There is a stream of hot water which people visit to take bath.

66. There are historical forts at Deogarh, Raghunathgarh and Lachhmangarh. These are believed to have been built up more than 200 years ago and are situated on the hill tops equipped with water reservoirs.

Electoral Participation & Preferences

67. During the first general elections in the year 1952, there were 7 constituencies in the district with a voting population of 344,752 and 8 seats for the State Vidhan Sabha. 50.9 percent voters exercised their right of franchise. The highest percentage of polling was 47.8% in Sikar tehsil constituency and lowest in Neem-ka-Thana 'B' constituency where 35.0% votes were polled. 4 seats were captured by the Congress, one each by Ram Rajya Parishad and Jan Sangh and the rest 2 by the Krishikar Lok Party. The district was allotted a seat for the House of the People for which the electorate consisted of 338,555 persons. Only 35.0% votes were polled

and the seat was won by a candidate of the Ram Rajya Parishad securing 39.5% of the total votes.

68. During the second general elections in the year 1957, there were 7 constituencies in the district with a voting population of 402,673 and 8 seats in the State Vidhan Sabha. 48.3% voters (57.4% of men and 39.7% of women) exercised their right of franchise. The highest percentage of polling was 59.2% in Danta Ramgarh constituency and the lowest percentage in Sri Madhopur constituency where 41.1% votes were polled. 5 seats were captured by the Congress, 2 by the Jan Sangh and one by the Ram Rajya Parishad. One seat was allotted to the district in the House of the People for which the electorate consisted of 401,593 persons. Only 49.4% votes were polled and the seat was won by the Congress candidate securing 42.4% of the total votes.

SECTION II

PRIMARY CENSUS ABSTRACT
&
OTHER CENSUS TABLES

PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract furnishes the population figures for 1961 Census and is presented in three parts viz. District, Rural and Urban Primary Census Abstracts. These abstracts contain the data in respect of area, number of occupied residential houses and households, total population and its break up by sex, literacy, Scheduled Castes and Scheduled Tribes, workers and non-workers. The workers have further been classified into following nine industrial categories:—

I As Cultivator,
II As Agricultural Labourer,
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities,
IV At Household Industry,
V In Manufacturing other than Household Industry,
VI In Construction,
VII In Trade and Commerce,
VIII In Transport, Storage and Communications and
IX In Other Services.

2. The District Primary Census Abstract furnishes the data for the district total, rural and urban areas, each rural tehsil and for each town separately. The Rural Primary Census Abstract presents the data for the villages while Urban Primary Census Abstract furnishes information for the municipal wards of all the towns in the district.

3. A Revenue Mauza (including its hamlets) is treated as a village while a town is a place having either a Municipality or Cantonment or satisfying the following factors:—

(a) having a minimum population of 5,000 and
(b) having three-fourth of its male adult population engaged in non-agricultural pursuits, or
(c) having a density of approximately 1,000 persons per sq. mile.

Hamlets falling into the revenue areas of the towns but not administered by the municipality are treated as the non-municipal area of the town. The villages in the Rural Primary Census Abstract are presented tehsilwise and within a tehsil in order of their Census location code numbers.

4. In the Urban Primary Census Abstract the data has been presented for each municipal ward of the towns. The blockwise figures for towns could not be presented here for want of space. This information however, is available in the office of the Superintendent, Census Operations, Rajasthan. The data for non-municipal areas attached to a town has been shown just after the wards while for special charges the figures have generally been included in the respective wards.

5. A special column (2a) in the Rural Primary Census Abstract has been provided for showing some of the basic amenities which existed in the villages. These amenities have been shown by means of symbols as under:—

P—Primary School
M—Middle School
H—High/Higher Secondary School
C—College
D—Dispensary
Hos—Hospital
Tmw—Trained Midwife
V—Veterinary Hospital/Dispensary
Pw—Pucca well
Kw—Kutcha well
Tk—Tank
B—Baori (stepped well)
Rly—Railway Station
Po—Post Office
To—Telegraph Office
Lm—Local Market

6. Village marked with an asterisk (*) indicates the location of a Gram Panchayat.

7. The area figures shown in column (3) of the Rural Primary Census Abstract are collected from the Revenue Authorities while this column of the Urban Primary Census Abstract has been left blank as area figures for the wards are not available.

8. Column (4) of the Abstract includes houses used as dwellings or partly as dwellings.

9. Column (5) shows the number of households. A "household" has been defined as a group of persons who commonly live together in the same house and take their meals from a common kitchen. A servant, friend or a guest (related or unrelated) residing and eating with the household during the census period has been treated as a member of the household. On the other hand, a son or a daughter residing in a hostel is not treated as a member of the household.

10. Columns (6) to (8) of the Abstract show the total population and its sex-wise breakup. This also includes houseless and institutional population. Houseless person has been defined as (i) a person who might be doing domestic service or some other work with one or more households but who does not reside in any house and sleeps in the carridors, verandahs or passages in buildings or on the streets; (ii) wandering or nomadic tribes found to be staying in temporary huts, etc. or residing without any such huts just on the open ground; and (iii) beggar, vagrant, tramp, sadhu, fakir, etc. who is found in the foot-paths, streets, in places like parks, gardens, railway yards, etc. Institutional population includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

11. Columns (9) to (12) of the Abstract show the population of Scheduled Castes and Scheduled Tribes and their sex-wise breakups. The further breakups of individual Scheduled Castes/Tribes are given in Table SCT—I.

12. Columns (13) & (14) of the Abstract give the number of literate and educated persons. A "literate" is defined as a person who knows both reading and writing. This also includes the persons having higher education. Detailed information on educational levels has been given in Table B—III and C—III.

13. Columns (15) & (16) give the total number of male and female workers. A person is classified as "worker" if in case of seasonal work like cultivation, livestock, dairying, household industry, etc. he has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household . A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as non-worker. "Work" includes not only actual work but effective supervision and direction of work also.

Persons under training as apprentices with or without stipend or wages are regarded as workers. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, or any such work she has been treated as a worker. Similarly persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

The population classified as workers here is the economically active population including family workers but not including unemployed persons.

14. Columns (17) to (34) furnishes the sex-wise distribution of workers into nine industrial categories. The explanations for these categories are given below:—

Category I

This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work in land are also included persons who are engaged in supervision or direction of cultivation. The term 'cultivation' involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations.

Category II

All other persons working on land as labourers on wages without exercising any supervision or direction and without holding any right upon the land are classified as agricultural labourers and are included in this category.

Category III

Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

A "Household Industry" is an industry conducted by the head of the household himself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory but may use machinery and employ power like steam engine or oil engine or electricity to drive the machinery. Thus, in a rural area the household industry can be located either at home or within the village but in urban area the household industry or at least the major part of its work must be located at home. A household industry relates to production, processing, servicing or repairing and includes making and selling of goods but should not be confined simply to buying and selling. It does not include profession such as pleader, doctor, barber, waterman or astrologer, etc. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

Category V

'Manufacturing' includes all types of production, processing, servicing or repairing of goods which does not

include production or processing under category IV.

Category VI

This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, water-ways, reservoirs, etc.

Category VII

This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stock and shares, insurance, money lending banking, etc.

Category VIII

This category includes workers engaged in transport activities by air, rail, road or water and in services incidental to transport such as packing, carting, loading unloading, etc. Workers engaged in storage, warehousing and communication services such as posts, telegraph, telephones, wireless signalling, information and broadcasting are also included in this category.

Category IX

This category includes (i) Public utility services like electricity or gas or water supply, sanitary services; (ii) Central, State or Municipal employees; (iii) Professional services; (iv) Trade or labour associations, recreation services, etc.

15. Columns (35) & (36) give the total number of male and female non-workers. The following persons have been classified as non-workers:—

1. Full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business.

2. Person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business.

3. Dependant, including an infant or child not attending school, a person permanently disabled from work because of illness or old age.

4. Retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work.

5. Beggar, vagrant or independent woman without indication of source of income and others of unspecified source of income.

6. Convict in Jail (an under-trial prisoner has been shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution.

7. Person who has not been employed before but is seeking employment for the first time.

8. Person employed before but now out of employment and seeking employment.

OTHER CENSUS TABLES

GENERAL POPULATION TABLES

(Note on A-Series)

There are four Tables and five Appendices in this series. These tables, being the basic population tables, furnish information about area, sexwise population and its variation during sixty years, classification of villages and towns by population and the trends of urbanisation in the district.

Table A-I

2. This is the basic population table showing area, density, number of villages and towns, occupied residential houses and population by persons, males and females. The data has been presented for the district as well as for each tehsil for total, rural and urban areas separately. The town figures have been shown immediately after the entries of the tehsil in which they are situated. The abbreviation just after the name of the town has been used to denote that the particular town has a Municipality or a Cantonment.

3. It may be noted that in the previous censuses the density of population and other urban break-ups upto the town level were not mentioned in this table which have been shown separately now for 1961 Census besides furnishing the number of inhabited and uninhabited villages in each tehsil.

4. The area figures both for rural and municipal towns have been obtained from the State revenue authorities. Though the area figures have been collected originally in acres yet these figures have been shown in Sq. miles and Sq. Kms. in columns 3 (a) and 3 (b) respectively after converting them into the respective units. Further, the area figures have been given upto one decimal place in case of the district as well as for each tehsil but such presentation is made upto two decimal places in case of towns.

5. The density of persons has been worked out according to the area shown under column 3 (a) and has been presented separately for the district and for each of the tehsils and towns under column 4.

6. A village and a town has already been defined in para 3 of the note on Primary Census Abstract.

7. For the purpose of 1961 Census, a 'House' is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school etc., giving out on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance. 'Occupied residential houses' are those houses which are used wholly or partly for the purpose of residence by one or more households.

8. In addition to this main table, there are three appendices which were not prepared in the last censuses.

Appendix I

9. This appendix is helpful in finding out the growth of the district to the present area since the last census. The appendix shows the territorial changes that have taken place during the last decade. A brief description of gain and loss of territory in those tehsils which had changes in area during the period is also shown in this appendix. A list of such transferred areas has been given in the annexure to this appendix.

Appendix II

10. One of the criteria for a place to be declared as town is that it should normally have a population of 5,000 and above. For various reasons, several places with a population of 5,000 and over have not been recognised as towns. This appendix gives the tehsilwise number of such places with their population. Further, it also shows the percentage contribution of total rural population of the district of such places.

Appendix III

11. This appendix shows the sexwise figures for houseless and institutional population for the district and each tehsil for total, rural and urban areas separately. Houseless and Institutional population has already been defined in para 10 of the note on Primary Census Abstract.

Table A-II

12. This table compares population figures of the district as ascertained at the 1961 Census with the corresponding figures for the six previous censuses. The figures presented for the six previous censuses in the table, have been adjusted after taking into consideration the territorial changes taken place in the district so as

to afford a correct basis for comparison. This is an important table as it gives the growth of population from decade to decade. It further provides a basis for estimating the population especially in the absence of reliable data for vital statistics. The main change in this table over 1951 Census is that the percentage variation has also been mentioned from decade to decade.

13. The appendix attached to this table shows the population for the district as well as for each tehsil according to their territorial jurisdiction in 1951 besides furnishing the changes in area and the population involved in those changes that have taken place during the last decade. The details of transfers of areas and population in every case have been given in the footnote separately.

Table A-III

14. This table furnishes the sexwise total rural population together with the number of inhabited villages for the district as well as for each tehsil arranged into seven population size groups *viz.*, less than 200, 200-499, 500-999, 1,000-1,999, 2,000-4,999, 5,000-9,999 and 10,000 and above.

15. The main changes in this table over 1951 Census are (i) the group less than 500 has now been split up into two groups *viz.*, less than 200 and 200-499 and (ii) it relates only to villages while in 1951 Census it related to villages and towns both.

Table A-IV

16. This table shows the growth of each town in the district since 1901 together with its sexwise population. It further furnishes the information regarding decade variation in population and its percentage. For the purpose of this table all the towns have been classified into the following six classes according o population:-

Class	I	1,00,000 and above
Class	II	50,000 — 99,999
Class	III	20,000 — 49,999
Class	IV	10,000 — 19,999
Class	V	5,000 — 9,999
Class	VI	Less than 5,000

17. The district totals for a class have been given followed by the various towns in that particular Class. Column No. 2 of the table presents the name of the town and just under it the area of that town has been given both in Sq. miles and sq. Km. The status of the town is separately shown in column No. 3 in an abbreviated form.

18. The main object of this table as indicated above is to show the growth of towns as towns and not how certain places have been converted into towns from villages as such the figures against towns have been shown for those decades only in which they were recognised as towns. The district population for all classes during the previous decades has been arrived at after adding the population of those places which were treated as towns in the corresponding decade but now declassified. As such if a town had not been treated as town in all the previous censuses, it is indicated as declassified in those particular censuses. Towns treated for the first time in 1951 Census have been asterisked*.

19. The change in this table over 1951 Census is that the areas of towns as well as the percentage of decade variations of total population of the towns have been additionally shown in the present census.

20. The appendix to this table shows the area and population of towns of 1951 Census which have been declassified in the present census. Such appendix was not prepared in the previous censuses.

21. A separate volume—Part II-A incorporating the General Population Tables for the State and the districts have been issued in which the concepts used have also been discussed.

TABLE A-I—AREA, HOUSES AND POPULATION

District/Teshil/Town	Total Rural Urban	Area in Sq. miles	Area in Sq. Km.	Population per Sq. mile	No. of Villages Inhabited	No. of Villages Uninhabited	No. of Towns	No. of occupied residential houses	Population Persons	Population Males	Population Females

1 The Sq. Km. and density figures of urban areas of Tehsil/District are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the table. In addition to this the area figures relating to Sq. Km. are further adjusted to make the Tehsil/District totals tally.

2 The following abbreviations have been used for the status of a town e.g.

(M)= Municipality

@ = Entirely Rural

APPENDIX 1 TO TABLE A-I

Statement showing 1951 territorial units constituting the present set up of the district

Note:—

(1) The figures given in brackets in Columns 5 & 6 represent the difference in area between 1951 and 1961 and the figures in brackets in Column 7 show the difference in population between the area as per jurisdiction in 1951 and the present jurisdiction.

(2) The area figures shown under Columns 2, 3, 5 and 6 relate to area figures supplied by the State Revenue Authorities.

*1 (i) 1 village Kot (Code No. 1) with an area of 12.3 Sq.miles and population 489 of Neem-ka-thana tehsil of Sikar district transferred to Udaipurwati tehsil of Jhunjhunu district Vide Govt. Notification No.F.3(18) Rev. D/58 dated 5-9-58

(ii) 2 villages *viz.* Buchara (Code No. 215) and Dudawas (Code No. 214) with an area of 22.5 Sq.miles and population 975 of Neem-ka-Thana tehsil of Sikar district transferred to Kotputli tehsil of Jaipur district Vide Govt. Notification No F.25(15) Rev. 1/54 dated 20-9-54.

*2 Entire former Ramgarh tehsil of this district with an area of 155.5 Sq miles and population 28.583 transferred to this tehsil.

*3 (i) 2 villages *viz.* Bhima (Code No. 16) and Chidasara (Code No 17) with an area of 11.1 Sq.miles and population 1,805 transferred to Danta Ramgarh tehsil of the district from this tehsil.

(ii) 4 villages and 1 town Reengus with an area of 25.0 Sq.miles and population 8,946 transferred to newly constituted Sri Madhopur tehsil of Sikar district from this tehsil.

*4 (i) 1 village Kot (Code No.1) with an area of 12.3 Sq.miles and population 489 of this tehsil transferred to Udai-Purwati tehsil of Jhunjhunu district Vide Govt. Notification No. F.3(18) Rev. D/58 dated 5-9-58.

(ii) 2 villages *viz.* Buchara (Code No 215) and Dudawas (Code No. 214) with an area of 22.5 Sq. miles and population 975 transferred from this tehsil to Kotputli tehsil of Jaipur district Vide Govt. Notification No. 25 (15) Rev. 1.54 dated 20-9-54.

(iii) 161 villages and 2 towns *viz.* Khandela and Sri Madhopur with an area of 477.1 Sq.miles and population 137,087 transferred to newly constituted Sri Madhopur tehsil of this district.

*5 (i) Changes enumerated as against footnote of symbol *3 (ii) above.

(ii) Changes enumerated as against footnote symbol *4 (iii) above.

*6 Changes enumerated as against footnote symbol *3 (i) above.

			1941	24,144	+ 1,898	+ 8.53	12,205	11,939
			1951	45,566	+ 21,422	+ 88.73	22,955	22,611
			1961	..	..	..	..	..

Note:- The district totals for each class of town relating to the years 1901 to 1951 do not correspond with the totals that would be arrived at by adding of the population figures of various towns relating to each census year. This is because that the district figures relating to the past census years also contained the population of those places which were classified as towns in the various censuses.

M = Municipality.

APPENDIX TO TABLE A-IV

Towns in 1951 declassified in 1961

(No new town was added in 1961)

Tehsil	Name of Town	Area * (1951)		Population	
		Sq. Mile	Sq. Km.	1961	1951
1	2	3	4	5	6
Sri Madhopur	Reengus	11.57	29.97	7,286	5,549
Danta Ramgarh	Danta Ramgarh	0.25	0.65	6,058	5,348
Danta Ramgarh	Losal	13.55	35.09	9,019	6,736
Neem-ka-Thana	Guhala	N.A.	N.A.	6,820	5,620

* Largely conjectural

ECONOMIC TABELS

(Note on B-Series)

In 1951 Census Reports, the population was classified on the concept of 'dependency' which has been changed to that of 'workers' and 'non-workers' at the current Census. The change in the concept will be helpful in finding out the realistic picture of the economic activity of those important sections of household workers who otherwise have been left out of account in the past censuses.

2. This series has been divided into two parts *viz.*, (i) General Economic Tables and (ii) Household Economic Tables.

(i) GENERAL ECONOMIC TABLES

3. There are 9 General Economic Tables in this series. The first 3 tables distribute the working and non-working population by economic activity correlated with sex, age and educational levels. A more elaborate classification of workers by industry according to the Standard Industrial Classification is presented in Table B-IV while it has been shown by occupation in Table B-V. Table B-VI provides information about those occupations of National Classification which attract educated personnel in urban areas. Another Table B-VII shows the classification of workers by secondary work and the last two tables distribute the non-workers by sex, age and eight broad classes according to the activities pursued by them.

Table B-I

4. This is a basic economic table prepared on the basis of Primary Census Abstract. In this table the population has been divided into nine industrial categories of workers based on Indian Standard Industrial Classification and a separate category of non-workers (detailed classification of which are available in Table B-IX in Part II-B (ii) of State Census Report) further classified into sex and broad age-groups *viz.* 0-14, 15-34, 35-59 and 60 +. The classification of workers and non-workers by specific age-groups, is a special feature of 1961 Census. The age-groups correspond to the different stages of life which have special significance with reference to capacity to work *viz*, children, young persons, middle aged and elderly persons. Detailed classification of non-workers is, however, given in Table B-IX.

5. This table presents data separately for total, rural and urban population of the district while those for tehsils for rural areas only. Another Table B-II showing such information for each town is not reproduced in this book and has been given in Part II-B (i) of State Census Report.

Table B-III

6. This table has been compiled into two parts. Part A deals with urban population of the district classified into nine industrial categories of workers and a separate category of non-workers cross tabulated by literacy and various educational levels. Part B refers to rural population of the district as well as for each tehsil where educational levels have been confined only to two categories *viz.*, Primary or Junior Basic and Matriculation and above. It is an important table indicating employment of persons of different educational standards amongst the various categories of workers. The educational qualifications of available man-power can be assessed with the help of this table.

Table B-IV

7. This table has been presented in three parts. Part A deals with the industrial classification of worker of persons at work at household industry separately for total, rural and urban parts of the district, showing the figures for divisions and major groups of Indian Standard Industrial Classification. Divisionwise figures for each tehsil in case of its rural areas are also shown.

8. Part B of this table provides the data regarding industrial classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service for total and urban areas of the district by divisions and major groups.

9. In Part C of this table the data has been furnished for industrial classification by sex and divisions, major and minor groups of persons at work other than cultivation for total and urban areas of the district. Such data for rural part of each tehsil is also presented in the supplementry table to B-IV Part-C by divisions only.

10. This table is quite important as it furnishes employment position in respect of various sectors of economy not only indicating the class of the workers *viz.*, employer, employee, single worker, family worker but also by different branches of industry according to divisions and major groups is Parts A and B and also by minor groups of Indian Standard Industrial Classification in Part C.

11. As the information included in Part C of this table is quite voluminous, the minor groups having figures less than 1% of the total workers of the respective division (less than 0.5% in case of division 2 & 3) have been excluded and relegated to the Appendix attached to this part of the table.

12. The Standard Industrial Classification, reproduced as an appendix at the end of note on this series describes in detail the various codes used for divisions, major and minor groups.

Table B–V

13. This is a new table and has been compiled for total and urban population by sex in order to provide information regarding occupational classification in the district engaged in production other than cultivation, further classified into divisions and groups on the basis of the National Classification of Occupations. Under each group the detailed occupational families are shown. Families having less than 1% of workers of the respective division (less than 0.5% in case of families under division 7-8) are not given in this table but are shown in an appendix attached at the end of this table. A fly leaf showing appropriate industrial category is also given in place of industrial category appearing in the table due to insufficient description given in the enumeration slip for industry or coding mistake. The occupational classification of persons engaged in non-agricultural pursuits has been further detailed according to various categories of workers. The categories of workers are same as adopted for Primary Census Abstract.

14. In this table cross tabulation of industry and occupation has been made for the first time while such information was combined in the previous censuses.

Table B–VI

15. This is a new table prepared for the first time in 1961 Census and provides information about those occupations which attract educated personnel. It has been prepared only for urban areas of the district upto divisional level of the National Classification of Occupations. The workers under each occupational division have been classified by broad age-groups *viz.*, 0-14, 15-34, 35-59 and 60 and above. The age-groups have been further classified according to educational levels as adopted in Economic Table B–III Part A. However, the figures for total workers under each occupational division have been provided for total only and not for different age-groups. It may be noted that total workers for each occupational division in this table corresponds to the total workers of urban areas in Table B-V.

Table B–VII

16. This table has been compiled into two parts. Part A presents persons working principally (i) as cultivators (ii) as agricultural labourers or (iii) at household industry classified by sex and by the nature of thire secondary work (i) at household industry (ii) as cultivator or (iii) as agricultural labourer. Such data has been presented in this part by divisions and major groups separately for the total, rural and urban parts of the district and by divisions only in case of rural part of each tehsil.

17. In case a worker is engaged in two or more kinds of work, the work consuming the larger portion of time has been treated his principal work while another consuming larger portion of his time considered his secondary work.

18. Part B of this table presents the industrial classification by sex of persons working in non-household industry, trade, business, profession or service who are also engaged in household industry. Such data has been presented in this part of the table by principal work and additional work based on divisions and major groups for the district as a whole while it has been shown by divisions only in case of each tehsil for its rural areas.

Table B–VIII

19. This is a new table prepared for the first time in the current Census. This table presents the distribution of unemployed persons aged 15 and above by sex and educational levels. It has been compiled into two parts. Part A relates to urban areas and is presented for the district as a whole. Part B relates to rural areas and is presented upto tehsil level.

20. The number of unemployed in Part A of this table have been further split up by (i) persons seeking employment for the first time and (ii) persons employed before but now out of employment and seeking work. The age-groups in the first case are 15–19, 20–24, 25–29, 30–34 and 35+ which are modified in the second case as 15–19, 20–24, 25–34, 35–44, 45–59 and 60+.

21. The break–up of educational levels is much elaborate in Part A which is the same as given in Table B–III Part A while such educational levels are confined only to (i) Primary or Junior Basic and (ii) Matriculation and above, in Part B of this Table.

Table B–IX

22. This table presents the distribution of non–working population by broad age–groups and eight classes of non–workers based on the recommendation of the United Nations Organisation. In this table data has been shown for total, rural and urban areas of the district separately and upto tehsil level for rural areas only. Such information on the non–working population had never been compiled before.

(ii) HOUSEHOLD ECONOMIC TABLES

23. There are 8 Household Economic Tables in this series compiled in the current Census which is a first attempt for collecting economc data on the basis of households in addition to what is collected for each individual. In a predominantly agricultural State where most of the population is in rural areas and where much of the goods produced are consumed by the population itself, collection of information puely on the

basis of individuals tends to go slightly out of focus unless such information is supplemented by information on economic activities of the household as an entity. A decision was, therefore, taken that the information relating to the economic activities of the majority of households *viz.*, cultivation activities and household industry should be collected at the current Census.

24. A household Schedule was used at the Census 1961 for this purpose. In the Part I of this Schedule, information on the extent of land cultivated by the household, either owned or held from Government or held from private persons or institutions for payment in money, kind or share, and extent of land given to private persons for cultivation for payment in money, kind or share was collected. Besides, nature of household industry conducted by the household and the duration of the industry in a year alongwith number of family workers and hired workers engaged in cultivation or household industry or in both was also collected.

25. All these tables have been prepared on the basis of 20% sample of households.

Table B-X

26. This table is prepared on a 20% sample of households and is presented for the district total, rural and urban areas separately and upto tehsil level for rural areas only. The sample households have been classified into four categories *viz*., (i) households engaged neither in Cultivation nor Household Industry, (ii) households engaged in Cultivation only, (iii) households engaged in Household Industry only and (iv) households engaged both in Cultivation and Household Industry. Thus, the table divides all the households in three important sectors of economic activity.

27. Cultivation includes ownership, tenancy cultivation and agricultural labour. The Household Industry relates to production, processing, servicing or repairing and includes making and selling of goods

Table B-XI

28. This table presents data for the district total, rural and urban areas separately and upto tehsil level for rural areas only. In this table a more detailed examination of the cultivating households, which have been separated in the previous table, has been made. Such households have been classified according to the size of land cultivated and cross tabulated by the interest in land cultivated. The sizes of land in acres are given as less than 1, 1.0-2.4, 2.5-4.9, 5.0-7.4, 7.5-9.9, 10.0-12.4, 12.5,14.9, 15.0-29.9, 30.0–49.9, 50+ and unspecified.

29. The interest in land cultivated has been classified into the following three categories :—

(a) entirely owned or held from Government,

(b) entirely held from private persons or institutions for payment in money, kind or share, and

(c) partly held from Government and partly from private persons for payment in money, kind or share.

30. Abbreviations (a), (b) and (c) have been used in place of legends for interest in land cultivated under column 1 of the table and the same have been spelt out at the bottom of the table.

Table B-XII

31. In this table the data has been shown for the district total, rural and urban areas separately and also up to tehsil level for rural areas only. The table will facilitate a further study of households which are engaged only in cultivation, as each household having a particular size of holding mentioned in Table B-XI has been cross tabulated with reference to the number of persons working in cultivation. The holding has been grouped into the following size ranges (in acres); less than 1, 1.0–2.4, 2.5–4.9, 5.0–7.4, 7.5–9.9, 10.0–12.4, 12.5–14.9, 15.0–29.9, 30.0–49.9 and 50+ and unspecified.

32. In case of household where more than one person is working, the number of family workers and hired workers have been separated. Family workers have also been separately tabulated by sex.

Table B-XIII

33. This table is presented separately for rural and urban areas of the district. The table shows the distribution of sample households engaged both in Cultivation and Household Industry classified by size of land cultivated and by size of Household Industry. The Household Industries have been classified according to the code numbers of divisions 0, 1, 2 & 3 and their major groups of Indian Standard Industrial Classification (for detailed description see Appendix at the end of the note on this series). It throws light on Household Industries which are carried on as an ancillary to cultivation in different parts of the district.

Table B-XIV

34. In this table the data has been presented for the total, rural and urban households separately for the district and relates to households engaged only in Household Industry. The table has been prepared in two parts:—

Part A:—It relates to households classified by major groups of principal Household Industry and number of persons engaged in each, grouped under 1, 2, 3-5, 6-10 and more than 10 persons. The Household Industries

have been classified according to the code number of divisions 0, 1, 2 & 3 and their major groups of Indian Standard Industrial Classification (for detailed description of code numbers see Appendix at the end of the note on this series).

Part B:—It relates to households classified by minor groups of principal Household Industry. In cases where there are more than one Household Industry under a minor group, sub-minor group numbers in four digits have been given.

Table B-XV

35. This table has been prepared for households engaged both in Cultivation and Household Industry. The data has been shown separately for total, rural and urban areas of the district. Tehsilwise break-ups for rural areas only could not be given here due to short of space, however, the same is available in Part III of State Census Report. In this table, an analysis has been made of persons working in these households with reference to size of holding. In cases where more than one person is employed, the number of family workers and hired workers are separately given. Similar data in respect of households engaged in Cultivation only has already been given in Table B-XII. A comparison between this table and Table B-XII will show how the combination of Household Industry with Cultivation effects the employment position. This table helps to establish a co-relation between the Household Industry and the scale of Cultivation.

Table B-XVI

36. This table is confined only to Household Industry and the data has been presented separately for the district total, rural and urban areas. The data in respect of Households engaged in Household Industry only or both in Household Industry and Cultivation are given separately. Household Industry is classified according to period of working of the industry grouped under 1–3 months, 4–6 months, 7–9 months and 10 months to one year, and under each category number of households, number of family workers and number of hired workers are given. This table thus, furnishes important data on the seasonality of various household industries and yields inferences on the seasonality of Household Industry with seasonality of Cultivation.

37. The major groups of Household Industry having less than 10% of the figures of the respective division which have been omitted from the table are shown in the Appendix at the end of the table. For detailed description of divisions and major groups of Household Industry see Appendix at the end of the note on this series.

Table B-XVII

38. The data in this table has been presented separately for the district total, rural and urban areas. The family sizes of sample households have been classified according to single member, 2–3 members, 4–6 members, 7–9 members and 10 members and over. It may be noted that although the 'Census Household' is not exactly the same as 'Family' to the extent that it may also include unrelated persons residing with the family during the census count, yet this table gives a general idea of the family sizes as in the majority of families outsiders are likely to be insignificant.

39. The sample households have also been classified by economic activity by work in cultivation or household industry. Households engaged in cultivation have been further classified by size of land holding. Classification by economic activity as well as by size of land holding is presented only for rural areas while classication by size of households is presented for total and urban areas.

40. Separate volumes Part II-B (i) & (ii) for General Economic Tables and Part III for Household Economic Tables have been issued in which the various concepts used, have been discussed in detail.

APPENDIX

STANDARD INDUSTRIAL CLASSIFICATION

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram ..	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms ..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber..	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
02	*Forestry and Logging*—concld.	
	Production of gums, resins, lac, barks, herbs, wildfruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat ..	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter, such as pig ..	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worm and prodnction of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Division 1—Mining and Quarrying	
10	*Mining and Quarrying*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
	Division 1—Mining and Quarrying—concld.	
10	*Mining and Quarrying*—concld.	
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2&3—Manufacturing	
20	*Foodstuffs*	
	Production of rice, atta, flour etc. by milling dehusking and processing of crops and food grains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice ..	212
	Production of other liquors not covered above	213

Major Group (Code)	Description	Major Group (Code)
1	2	3
21	*Beverages*—concld.	
	Production of aerated and mineral water ..	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works ..	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots ..	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills) ..	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile—Jute*	
	Jute pressing and baling..	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
25	*Textile—Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture af made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattres, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281

Major Group (Code)	Description	Minor Group (Code)
1	2	3
28	*Manufacture of Wood and Wooden Products*—concld.	
	Manufacture of structural wooden goods (including treated, timber) such as beams, posts doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, waste paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
31	*Leather and Leather Products*—concld.	
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products* ..	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds o other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images ..	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products ..	347
	Manufacture of mica products ..	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those coverd by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified ..	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products ..	366

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
36	*Basic Metals and their Products except Machinery and Transport Equipment*—concld.	
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which can not be classified in major groups 36, 37, 38 and 39, ...	369
37	*Machinery (All kinds other than Transport) and Electrical Equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery ..	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above ..	379
38	*Transport Equipment*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
38	*Transport Equipment*—concld.	
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and reapair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountainpen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4—Construction	
40	*Construction*	
	Contruction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	*Electricity and Gas*	
	Generation and transmission electric energy	500

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
50	*Electricity and Gas*—concld.	
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	*Water Supply and Sanitary Services*	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage syste mand all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60	*Wholesale Trade*	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products, such as garments, hessian, gunny bag, silk and woolenyarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants, such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale Trade—concld.	
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	*Retail Trade*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (Seed and powder); aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644

Retail Trade—contd.

Retail trading in fuel such as coke, coal, firewood and kerosene 645

Retail trading in food stuffs like sweetmeat condiments, cakes, biscuits, etc. .. 646

Retail trading in animals 647

Retail trading in straw and fodder .. 648

65 Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products, (this includes retail trading in piecegoods of cotton, wool, silk and other textiles) .. 650

Retail trading in toilet goods, perfumes and cosmetics 651

Retail trading in medicines and chemicals.. 652

Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals .. 653

Retail trading in tyres, tubes and allied rubber products 654

Retail trading in petrol, mobiloil and allied products 655

66 Retail trading in wooden, steel and other metallic furniture and fittings 660

Retail trading in stationery goods and paper 661

Retail trading in metal, porcelain and glass utensils 662

Retail trading in earthenware and earthen toys 663

Retail trading in other household equipment not covered above 664

67 Retail trading in bricks, tiles and other building materials 670

Retail trading in hardware and sanitary equipment 671

Retail trading in wood, bamboo cane, bark and thatches 672

Retail trading in other building materials .. 673

68 Retail trading in agricultural and industrial machinery equipment, tools and appliances 680

Retail trading in transport and storage equipments 681

Retail trading in electrical goods like electric fan, bulb, etc. 682

Retail trading in skins, leather and furs and their products excluding footwear and headgear 683

Retail Trade—concld.

Retail trading in clock and watch, eye glass, frame 684

Retail trading in scientific, medical and surgical instruments 685

Retail trading in precious stones and jewellery 686

Retail trading, in musical instruments, gramophone record, pictures and paintings including curio dealing 687

Book-selling 688

Retail trading in goods unspecified .. 689

69 *Trade and Commerce Miscellaneous*

Importing and exporting of goods and commodities 690

Real estate and properties 691

Stocks, shares and futures 692

Providents and insurances 693

Money lending (indigenous) 694

Banking and similar type of financial operation 695

Auctioneering 696

Distribution of motion pictures 697

All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc. .. 699

Division 7–Transport, Storage and Communication

70 *Transport*

Transporting by railways 700

Transporting by tramway and bus service 701

Transporting by motor vehicles (other than omnibus) 702

Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka 703

Animal transporting by animals such as horses, elephant, mule, camel 704

Transporting by man such as carrying of luggage, handcart driving, rickshaw pulling, cycle rickshaw driving 705

Transporting by boat, steamer, ferry, etc. by river canal 706

APPENDIX—*Contd.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
70	*Transport*—concld.	
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	*Storage and Ware Housing*	
	Operation of storage such as ware-houses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type ..	722
73	*Communication*	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
	Division 8—Services	
80	*Public Services* (This does not include Govt, Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups.)	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government ..	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments ..	809
81	*Educational and Scientific Services*	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
81	*Educational and Scientific Services*—concld.	
	Scientific services and research institutions not capable of classification under any individual group	812
82	*Medical and Health Services*	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	*Religious and Welfare Services*	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious, activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk ..	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	832
84	*Legal Services*	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841
85	*Business Services*	
	Engineering services rendered by profesional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies ..	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853

APPENDIX—*Concld.*

Major Group (Code)	Description	Minor Group (Code)
1	2	3
86	*Community Services and Trade and Labour Associations*	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library ..	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	*Recreation Services*	
	Production of motion picture and allied services such as processing editing, etc. ..	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals ..	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc, racing ..	873
88	*Personal Services*	
	Services rendered to households such as those by domestic servants, cooks ..	880
88	*Personal Services*—concld.	
	Services rendered to houscholds such as those by governess, tutor, private secretary ..	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing bleaching, dry cleaning, services	883
	Hair dressing, other services rendered by organisation and individuals, such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89	*Services (not elsewhere classified)*	
	Services rendered by organisations or individuals not elsewhere classified	890
	Division 9—Activities not adequately described	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900
	Fresh entrants to the Labour Market ..	999

APPENDIX TO TABLE B-V

Families having less than 1% of the workers of the respective divisions and less than 0.5% in case of Division 7–8 only have been shown in the appendix. The following abbreviations have been used :–

III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and Allied activities
IV Household Industry
V Manufacturing other than Household Industry
VI Construction
VII Trade and Commerce
VIII Transport, Storage and Communications
IX Other Services

M=Males F=Females

2727	Making of kargota, main garlands shell garlands etc.	15	..	15
2728	Making of other embroidery products n. e. c.	2	1	1
2732	Traditional garments	35	27	8
280	Sawing, planing and milling of wood	1	1	..
281	Manufacture of wooden furniture and fixture	8	5	3
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	4	3	1
2831	Carpentary works concerned with repairs of agricultural implements (wood)	8	8	..
2843	Manufacture of wooden toys	1	..	1
2847	Marquetry boxes (inlay work)	1	1	..
2849	Manufacture of other wooden products n. e. c.	87	70	17
2882	Making of rope mats etc. from moonj and sawai grass and making of cadjar for thatching purposes	9	9	..
2884	Making of sirki, moora and Chhaj	4	2	2

TABLE B-XIV—SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN *ALL AREAS-Concld.*

(Based on 20% Sample)

Part B :- Households Classified by Minor Groups of Principal Household Industry

Household Industry (Code numbers and description of Minor/Sub-minor Groups)		Number of Households		
		Total	Rural	Urban
1		2	3	4
2885	Making of baskets and broomsticks	11	11	..
2886	Making of donas (drone) pattals (patravali) from leaves	3	1	2
3101	Flying, processing of hides & skins including taxidermy	1	1	..
3102	Currying, tanning & finishing of hides and skins, preparation of finished leather	100	80	20
3111	Making of leather boots, shoes or chappals (slippers, sandals)	221	183	38
313	Manufacture of leather products such as leather upholstry suitcases, pocket-books, cigarette & key cases, purses, saddlery, whip, acqua-ducts (Kos), charsa and other articles	3	3	..
314	Repair of shoes, chappals and other leather footwear	20	18	2
3311	Manufacture of dyes, paints, colours, abir, sindoor, varnish etc.	1	1	..
3401	Making of bricks	3	1	2
3403	Manufacture of other clay products n. e. c.	1	1	..
3411	Manufacture of cement door frames & sanitary fittings	1	1	..
3434	Manufacture of ptber structural stone goods, stone dressing & stone crushing n.e.c.	3	3	..
344	Making of chakki, chakla, silaut, lorha, jainta, utensils & other articles from stone	1	..	1
350	Making of earthenware such as pottery etc.	104	83	21

Household Industry (Code numbers and description of Minor/Sub-minor Groups)		Number of Households		
		Total	Rural	Urban
1		2	3	4
3531	Making of glass bangles	17	13	4
3651	Making of utensils of brass & bell metal	4	..	4
3675	Manufacture of other metal products (excluding iron, brass bell metal, aluminium) n. e. c.	1	..	1
3691	Manufacture of agricultural implements such as plough share, khurpi, kudal etc.	9	8	1
3693	Making of iron utensils (e. g. buckets etc.) and articles from iorn sheets	1	1	..
3695	Cutlery	3	..	3
3698	Foundry Industry (including blacksmithy)	27	16	11
389	Manufacture of animal drawn & hand drawn vehicles such as bullock cart, tamtam, lagadi palaki, cab, wheelbarrow, handbarrow etc.	1	1	..
3931	Inlay work with ivory & brass	1	1	..
3932	Goldsmithy	68	53	15
3991	Making of tikka & cowdung cakes	1	1	..
3994	Making of lac bangles	23	15	8
3995	Making of buttons (bone, shell, ivory)	1	1	..
3997	Making of garlands from flowers, camphor, sandal wood shavings, seeds & other materials, like beads etc.	1	1	..
3999	Making & repairing of goods n.e.c.	19	10	9

APPENDIX TO TABLE B-XVI

The major groups of household industry having less than 10 percent of the respective divisions marked with an asterisk have been excluded from the main table and have been shown in run-on-lines in this Appendix. The figure preceding the bracket represents the code number of the major group dropped from the table while alphabets given in brackets are meant for showing the different ranges of period of working in the household industries 'with' or 'without' cultivation as explained below. The numerical figure shown after the alphabets denotes the number of households in that particular range indicated by that alphabet.

With Cultivation		Without Cultivation	
Abbreviations	Class range or period of working	Abbreviations	Class range or period of working
A	= 1 to 3 months	E	= 1 to 3 months
B	= 4 to 6 ,,	F	= 4 to 6 ,,
C	= 7 to 9 ,,	G	= 7 to 9 ,,
D	= 10 Months to 1 year	H	= 10 Months to 1 year
X	= Months not stated	Y	= Months not stated

SOCIAL AND CULTURAL TABLES

(Note on C–Series)

There are 8 tables in this series relating to Social and Cultural aspects. Table C-I has been prepared from Household Schedules on the basis of 20 per cent sample. All the other tables in this series are based on full count and give data regarding age, sex, marital status and education, separately for rural and urban areas, single year age returns, mother tongue in alphabetical order, religion and classification by literacy and industrial category of workers and non-workers among Scheduled Castes and Scheduled Tribes for the district.

2. All the tables of this series have been reproduced in this book except Table C-VI on Bilingualism which can be seen in Part II-C (i) of the State Census Report wherein all tables of this series are contained.

Table C-I

3. This table is prepared on 20% sample from the Census Population Record Part II of the Household Schedule separately for the total, rural and urban areas of the district. The table is of sociological interest as it indicates the strength of the joint family system. It gives the composition of a household by family and non-family members. The family members have been classified into heads of household (who could be males or females) and their spouses, married sons and other married relations and never married, widowed and divorced or separated relations. As the definition of a census household also included outsiders residing with the family during enumeration, such persons have been shown in the table as unrelated persons.

4. The sample households of the rural areas have been classified into 3 categories *viz.* households engaged neither in cultivation nor in household industry, engaged in household industry only and engaged in cultivation. The households engaged in cultivation have further been classified by size of land holdings.

Table C-II

5. This is an important demographic table prepared on full count. It distributes the population by sex, age and marital status. The data has been presented for the districts separately for rural and urban areas while those for tehsils for rural areas only. The population has been distributed into 14 age-groups which is further classified into four types of marital status *viz.* never married, married, widowed, divorced or separated. The age-groups followed in this table largely conform to the international requirements recommended by the United Nations Organisation.

6. This table is likely to be useful for studying the trends in the age of marriage. The data compiled here can be very well used for studying mortality in different marital statuses and also in different age-groups. The data on married females by age-groups can be utilised for forecasting the future births from age specific birth rates. All the persons falling in age-group 0–9* have been treated as 'Never Married' for the purpose of this table.

Table C-III

7. This table distributes the total population by age, sex and educational levels. The population has been distributed in to quinquenial age-groups upto the age of 34 and the age-groups 35–44, 45–59 and 60+. The table has been compiled into three parts. Part A relates to all areas, Part B for urban areas of the district while Part C deals with rural areas down to tehsil level. In Part 'A' and 'C' the educational levels are confined only to (i) Primary or Junior Basic and (ii) Matriculation & above while in Part 'B' these educational levels are much more elaborate as shown in Table B-III Part 'A'.

8. This table can be utilised to measure the growth of literacy in the population as a whole as well as in urban and rural areas separately and in the different age-groups since the last Census. The table is of special interest to the educational authorities for future planning and also to study the public attitudes towards adult education. In 1951 Census data was provided only about illiterate and literate classified into different age-groups on 10 percent sample.

Table C-IV

9. This table has been prepared on full count and presents the distribution of population by single year ages (0 to 100) and by sex. The age in year completed on 1-3-1961 has been given but the infants who could not complete one year on 1-3-1961 have been shown under the age '0' while all old persons aged above hundred have been clubbed together and are shown against item 'Over hundred.' The data has only been presented for the district as a whole, its urban and rural breakups can be seen in Part II-C (i) of State Census Report.

10. The data presented in this demographic table is useful for the Census Actuary for computing mortality rates from the age data of the earlier censuses and for the preparation of life tables. It also provides data for studying bias in age returns at the Census.

Table C-V

11. This table presents data separately for total, rural and urban population of the district and only for total for tehsils classified by sex of persons speaking a particular language or a dialect as mother tongue. The mother tongues are arranged in this table in an alphabetical order.

*Marital Status of this group finds place in a separate monograph–Child Marriages in Rajasthan.

12. According to Census 1961 'Mother Tongue' is the language or dialect spoken in chidhood by the person's mother to the person or mainly spoken in the household.

13. This table is of great interest to philologists in view of a large variety of languages and dialects spoken in the district and will be of great assistance for ensuring the implementation of the various safeguards granted to the linguistic minorities under the constitution.

Table C-VII

14. In this table the population has been distributed in six main religions and the figures of all other religions including the figures of those having 'Indefinite belief' such as Atheists and Agnostics have been clubbed together and noted under heading 'Other Religions and Persuasions'. Separate heading 'Religion not stated' has also been provided for those who do not follow any religion and have given out only their nationalites such as Goans, Israelists, Italians etc.

15. The data of this important sociological table has been presented separately for total, rural and urban areas of the district and also for each tehsil.

Table C-VIII

16. This is a new table compiled in the 1961 Census and presents data separately for total, rural and urban areas of the district and further upto tehsil level for rural areas only. It has been prepared into two parts A & B. Part A presents the data of Scheduled Castes and Part B of Scheduled Tribes.

17. It gives the distribution of population by literacy, classification of workers into different industrial categories based on the Standard Industrial Classification and non-workers. Literacy figures of these communities given for the first time in the present Census.

18. In 1951 Census data for Scheduled Castes and Scheduled Tribes was provided only about total number of persons belonging to Scheduled Castes and Scheduled Tribes classified by sex for the districts and upto sub-division.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20 % Sample)

District	Total No. of Sample Households	Total sample household population			Composition of Households										
					Heads of households		Spouses of Heads of households		Married relations			Never married, widowed and divorced or separated relations		Unrelated persons	
		Persons	Males	Females	M	F	M	F	Sons	Other Males	Other Females	M	F	M	F

HOUSING TABLES

(Note on E-Series)

There are five tables in this series prepared for the first time in this census which have been extracted from the House List prepared at the time of house numbering and house listing operations in 1960. Out of these, four tables *viz.* E-I, E-II, E-IV, E-V relate to housing conditions and furnish data for the purposes for which the houses are used, the tenure on which they are occupied by the households, material of construction of walls and roofs and the households classified by number of members and by number of rooms occupied by them. The data in these tables has been shown for the district as well as for each tehsil separately for total, rural and urban areas.

2. Another table (E-III) on industrial establishments also prepared from the house lists gives a break-up by industry and the fuel used cross-tabulated by the size of establishments, is not presented here for want of space and can be seen in Part IV-B of the State Census Report which presents all the tables of this series. However, the data regarding number of establishments contained in this table is separately compiled down to village level which has been presented in a separate list of industrial establishments.

Table E-I

3. This table has been prepared on full count and furnishes figures of census houses separately for total, rural and urban areas of the district and tehsils and towns with a population of 50,000 or more classified into different categories according to the uses to which they are put. The houses which were found vacant at the time of houselisting have also been shown separately as such. The following are the various types of houses into which occupied houses have been classified :—

Dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, hotels, hostels, sarais, dharamshalas, tourist homes and inspection houses, shops excluding eating houses, business houses and offices, factories registered under the Factories Act and worksheds and workshops not so registered, schools and other educational institutions including training classes, coaching and shop classes, restaurants, sweetmeat shops and eating places, places of entertainment and community gathering (Panchayat Ghar), public health and medical institutions, hospitals, health centres, doctors clinics, dispensaries, etc.

4. Occupied census houses which do not fall in any of the above categories have been classed as 'Others', e.g. temple, mosque, church, cowshed, motor garage, water-hut, engine room, store room, grass shed.

5. The concepts and definitions of the terms occuring in the table are given below :—

A "Census house" is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling, or a place of business, workshop, school, etc. with a separate entrance.

A "Census household" is a group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so.

A "shop" or a "workshed" is a place where articles are sold for cash or for credit.

A "Workshop" is a place where some kind of production, processing, repair or servicing such as paper-making, shoe-making tailoring, cycle-repairing, motor-servicing, halwai's shop, pottery-making, goldsmithy, blacksmithy, etc., are undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act.

A "Factory" is a large workshop which has been registered under the Indian Factories Act.

"Business houses" are those premises where transactions in money or other articles take place such as banks etc.

Table E-II

6. This table has been prepared on the basis of 20 per cent sample of households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses. Shop-*cum*-dwellings and workshop-*cum*-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. Dwellings with other uses are census houses such as offices, schools, temples, mosques etc. which are partly used for residential purposes by watchmen or attendents. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, separately for the total, rural and urban areas of the district and also for tehsils and towns with a population of 50,000 or more.

7. The following concepts and definition have been used in respect of tenure status :—

The term 'owned' was considered to be a situation when a household was living in its own house or a house duly mortagaged to it by some of its debtor.

The term 'rented' meant a situation when a household was found living in a house taken on rent from a landlord or in a house that was taken on lease or in a house for which no rent was being paid with the consent of the landlord.

Table E-IV

8. This table has been prepared on 20 per cent sample of households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings and dwellings with other uses.

The total number of houses given in column 3 of this table gives the totals of all such sampled household. The material out of which most of the walls are made or where a house consists of separate structures, each made of different materials, the material out of which the walls of the main bedrooms, are made has been classified into the following nine categories :—

(1) Grass, leaves, reeds or bamboo
(2) Timber
(3) Mud
(4) Unburnt bricks
(5) Burnt bricks
(6) C. I. Sheets or other metal sheets
(7) Stone
(8) Cement concrete
(9) All other material

9. The material out of which most of the outer roof exposed to the weather is made, i.e., tiles, thatch, corrugated Iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multistoreyed building, the material out of which the intermediate floor or floors is made, has been classified into the following seven categories :—

(1) Grass, leaves, reeds thatch, wood or bamboo
(2) Tiles, slate, shingle
(3) Corrugated iron, zinc or other metal sheets
(4) Asbestos cement sheets
(5) Brick and lime
(6) Concrete and stone slabs
(7) All other material

10. This table has been presented separately for total, rural and urban areas of the district and also for tehsils and towns with a population of 50,000 or more.

Table E-V

11. This table has been prepared on 20 percent sample of households used as dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellnigs and dwellings with other uses. The figures given in column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households have been further classified into the following six categories showing the number of households and number of occupants by sex in each category:—

(i) no regular room
(ii) one room
(iii) two rooms
(iv) three rooms
(v) four rooms
(vi) five rooms or more

12. This table has been prepared separately for the total, rural and urban areas of the district and also for tehsils and towns with a population of 50,000 or more.

List of Industrial Establishments

13. This table gives the number of establishments and the number of workers in each branch of industry classified by minor groups of Indian Standard Industrial Classification (for detailed description see appendix to the Explanatory Note on B-Series). The data is presented in the ascending order of the minor groups showing the figures in the brackets first for the number of establishments and second for the number of workers employed. The information has been extracted from the house list prepared at the time of house numbering and house listing operations in 1960.

14. The data is presented for the district and each tehsil for total, rural and urban areas as well as for each village and town separately. A summary of number of industrial establishments by workers employed has been given separately for the district, tehsils and towns in the begining of this table. The table has been presented in run-on-lines and the villages are shown both by their names and Code numbers. The Code number of the villages will be helpful in finding out the location of the village in the tehsil maps. Villages which do not have any industrial establishments as well as those industry minor groups for which there are no figures in village or town or tehsil have been excluded from the list.

15. The data for some seasonal industries which were not actually working during the period of house listing has not been included. The number of workers also includes the proprietor and the other household members who were working in the industry during the week preceeding the enumerators' visit.

TABLE E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

District/Tehsil/ city or town with a population of 50,000 or more	Total Rural Urban	Total No. of Census houses	Census houses Vacant at the time of house listing	Occupied Census Houses used as: Dwellings	Shop cum-Dwellings	Workshop-cum-Dwellings	Hotels, Sarais, Dharam shalas, Tourist homes & Inspection houses	Shops excluding eating houses	Business houses & offices	Work shops & Factories	Schools and other educational institutions including training classes, coaching and shop classes	Restaurents, sweet meat shops & eating places	Places of entertainment and community gathering (panchayat ghar)	Public Health and medical institutions, hospitals, health centres doctors clinics, dispensaries etc.	Others

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

(Note on SCT, SC and ST Series)

There are 8 Tables in this series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. No special table was prepared for these classes during 1951 Census. The only information collected at that time was the aggregate strength of Scheduled Castes and Scheduled Tribes for the district and sub-divisions. However, together more information for these communities which have been safeguarded in the constitution, special tables have been devised and presented in this series. Part V-A of the State Census Report gives information for the State on this subject.

Table SCT-I

2. This table presents the industrial classification of persons of Scheduled Castes and Scheduled Tribes at work and non-workers by sex. In other words, this table presents caste/tribe wise (arranged in alphabetical order) break-up of the data shown in Table C-VIII. This table has been compiled in two parts. Part A deals with the Scheduled Caste population showing the data for each Scheduled Caste separately in rural and urban areas of the district.

3. Special study regarding the number of persons of Scheduled Castes engaged in unwholesome occupations like tanning, currying of hides and skins, seavenging is also conducted. The number of workers shown in these occupations as well as in other industrial categories is on the basis of their principal work.

4. Part B of this table refers to Scheduled Tribes population and presents the data for each Scheduled Tribe separately in rural and urban areas of the district.

5. A fly-leaf showing the sexwise break-up for Scheduled Castes and Scheduled Tribes in the district as well as for each tehsil is also attached which presents data separately for total, rural and urban areas. Figures of such Scheduled Castes and Scheduled Tribes have also been given for each village and town in the Primary Census Abstract.

Table SCT-II

6. This table distributes the population of Scheduled Castes and Scheduled Tribes according to their marital status of never married, married, widowed, divorced or separated and unspecified status under the age-groups of 0–14, 15–44 and 45+. The total population of these classes acccording to their marital status is also shown separately of all age-groups.

7. This table has been presented in two parts. Part A gives such information for each Scheduled Caste and Part B relates to each Scheduled Tribe providing such information for the district.

8. This is an important demographic table. The age marital status data in the case of Scheduled Tribes give an indication whether the tribal population is decreasing, stable or increasing.

Table SCT-III

9. This table presents the distribution of the population of Scheduled Castes and Scheduled Tribes by sex and educational levels. The table has been compiled in two parts. Part A has been further classified in two parts. Part A (i) provides such type of data for each Scheduled Caste in urban areas only while Part A (ii) presents similar data for urban areas for each Scheduled Tribe.

10. Part B of this table provides the similar information as in Part A for rural arear only, being classified in two parts. Part B (i) deals with Scheduled Castes while Part B (ii) refers to Scheduled Tribes.

11. In case of urban areas the data has been given for educational standards as in Table B-III Part A while such data has been shown for mere literate primary or junior basic and matriculation and above in case of rural areas as in Table B-III Part B.

12. This is an important table, the data of which can be proved very useful for the education department as it throws light on the spread of education among these communities in the rural and urban areas separately. The data will also be helpful to the department for awarding scholarships to the members of these communities.

Table SCT-IV

13. This table presents a distribution of the population of Scheduled Castes and Scheduled Tribes according to their religion. This table is compiled in two parts. Part A provides religionwise data for each Scheduled Caste in the district showing the rural and urban figures together. Similar type of information has been presented for Scheduled Tribes in Part B of this table. It may be noted that the members of Scheduled Castes can be either Hindus or Sikhs while members of Scheduled Tribes may profess different religions.

Table SCT-V

14. This table presents a detailed examination of the rural cultivating households of the Scheduled Castes and Scheduled Tribes and is based on 20% sample. Such households have been classified in various groups according to the size of land cultivated and cross tabulated by the interest in land cultivated.

15. This table is similar to that of household economic table B-XI and is compiled in two parts. Part A presents such data for Scheduled Castes while Part B provides such information for Scheduled Tribes.

Table SC-I

16. This table presents data for students and unemployed persons in non-working population of Scheduled Castes. This is further classified according to the broad educational levels consisting of literates, primary or junior basic and matriculation and above.

17. The data has been shown separately for the district total, rural and urban areas and further down to tehsil level in case of rural areas only. It is very useful table at it indicates the numerical strength of students and unemployed persons among the Scheduled Castes.

Table ST-I

18. Scheduled Tribes have their own peculiar languages and dialects This is due to the fact that this table is prepared showing the number of speakers of that subsidiary language of those members of Scheduled Tribes who have moved out of their homes and as a result of contact with the local persons speak some other subsidiary language to the mother tongue. The number of persons speaking such subsidiary languages *have been shown sex-wise in run-on-lines. The data has* been presented separately for the district total, rural and urban areas for the each Scheduled Tribe.

Table ST-II

19. This table presents data for students and unemployed persons in the non-working population for each individual Scheduled Tribe. The data has been shown separately for district total, rural and urban areas. This table is an important one as it throws light on the progress of education and the unemployment position for each individual tribe.

SECTION III

VILLAGE DIRECTORY
&
SOME OFFICIAL STATISTICS

VILLAGE DIRECTORY

VILLAGE DIRECTORY

(*Note*)

Data collected for the Census 1961 at the village level has already been presented in the Primary Census Abstract. As an ancillary project, some additional information was also collected through a Village Information Schedule, specially designed by this office, and is presented in this Village Directory. Information in this directory and what has been presented in the official statistics and the maps may in certain cases be found to be conflicting. The reason obviously lies in the fact that data has been collected from different sources.

The Directory gives information about the major crop, the distance in miles from the nearest Primary School, Hospital or Dispensary, Railway Station, Post Office, Bus Stand and Police Station for each village. Such information was not collected for unpopulated villages. Where information was not received for a particular item an indication to this effect has been made by putting a '—'.

With a view to assist the reader to locate the villages easily, they have been presented here alphabetically. The names of the villages have also been given in the Devnagri Script. The names of the villages found to be printed wrongly in the Primary Census Abstract have been corrected here.

Crop which has the largest area under cultivation has been treated as the major crop of a village and the following abbreviations have been used to indicate it in Column No. 2 :—

W — Wheat
G — Gram
J — Jowar
B — Barley
Bj — Bajra
M — Maize
R — Rice
P — Pulses
T — Til
WG — Wheat Gram (Gochana)
WB — Wheat Barley (Gojara)
BG — Barley Gram (Bejar)
Md — Mustard
C — Cotton

SOME OFFICIAL STATISTICS

SOME OFFICIAL STATISTICS

(*Note*)

Presented in this section are some tables relating to statistics collected from various official agencies. They cover subjects like rainfall, land utilisation, area and production under crops, irrigational facilities, livestock, agricultural implements, factories, and employment situation. Information about consumption of intoxicants, educational and medical facilities, motor vehicles, progress of co-operative societies, development blocks and panchayat samities is also given in this section. A list of fairs celebrated in the district and the data relating to the electoral participation and preferences for the first two general elections also form a part of this section.

SECTION IV

DISTRICT & TEHSIL MAPS

DISTRICT AND TEHSIL MAPS

(Note)

The district and tehsil maps presented in this section have been prepared and presented for the first time. They form a part of the Census Atlas and have been reproduced here specially with a view to help the reader to locate the places mentioned in the Primary Census Abstract and the Village Directory. The villages have been shown by code numbers in the tehsil maps.

The maps have been photographically reduced to their present size from the original revenue maps and the scale and graticules have been worked out as approximately as possible.

The following is the list of references used for all the maps :—
