1951 DISTRICT CENSUS HANDBOOK

SHOLAPUR DISTRICT.

Sholapur district consisted at the time of the 1951 census of the area of th former Sholapur district of Bombay Province (except for 12 villages transferr to Hyderabad State) with the addition of other areas, principally from the forr Indian States. Though 12 villages were transferred from Sholapur Hyderabad, 58 villages were transferred from Hyderabad to Sholapur. village from Indi taluka in Bijapur district was also transferred to Manga wedha taluka in Sholapur district.

The district gained substantially in area by the addition of the former India States merged in Bombay State. The areas added to the district in this fashi consisted of 2 villages of the former Jámakhandi State, 21 villages of the form Jath State, 13 villages and 2 towns of the former Kurundwad Junior Stat 13 villages of the former Miraj Senior State, 3 villages of the former M Junior State, 28 villages and one town of the former Sangli State and 103 village and one town of the former Akalkot State. The district had a 1951 populatic of 1,505,316, and an area of 5681·8 sq. miles, according to the area figur furnished by the Surveyor General of India.

This handbook contains tables for the district of Sholapur, compiled after the 1951 Census of India. The main results of the 1951 census are embodied in the State Tables published for the States of Bombay, Saurashtra and Kutch. In this handbook, the data are exhibited in greater detail. The numbers given to tables in this publication correspond to those given in the State Census Report. The following tables for the district have, however, not been included in this handbook :—

A—II Variation in population during fifty years.
A—IV Towns classified by population with variations since 1901.
D—IV Migrants.

In the E. Summary table in this handbook, some columns have been omitted In the case of the C-series of tables, except table C-I, the data were extracted on the basis of a sample count of approximately 10 per cent. of the census slips instead of a full count of all the slips. The C-I table was prepared from a four per cent. sample of the households recorded in the National Register of Citizens relating to each town or village.

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the Government of Bombay. In 1951 the basis of classification at the Census was changed from a social to an economic one, and the figures for villages given in the Primary Census Abstract and in tables A—V, B—I, B—II, C—II and E are according to the followir eight Livelihood Classes :—

Agricultural Classes.

I. Cultivators of land, wholly or mainly owned ; and their dependants.
II. Cultivators of land, wholly or mainly unowned ; and their dependant
III. Cultivating labourers ; and their dependants.
IV. Non-cultivating owners of land ; agricultural rent receivers ; and t dependants.

Non-Agricultural Classes.

Persons (including dependants) who derive their principal means of livelihood from—

V. Production other than cultivation.
VI. Commerce.
VII. Transport.
VIII. Other services and miscellaneous sources.

Dependants whether earning or non-earning, were classified at the census, according to the principal means of livenlihood of the persons on whom they were dependent.

The Primary Census Abstracts which contain basic information in respect of every village and town have been arranged according to talukas and petas, units into which every district is divided for administrative purposes. The taluka was, however, too small a unit to adopt for preparing the main Census tables. Therefore in the B, C and D series of tables, figures have been given for tracts and not for talukas and petas. Before sorting the census slips, and tabulating the results, tracts were formed by combining the rural and urban areas of two or more talukas or petas.

The tracts into which Sholapur District was divided for this purpose are shown below :—

Rural Tracts.

(1) Rural areas of Barsi and North Sholapur talukas.
(2) Rural areas of Akalkot and South Sholapur talukas.
(3) Rural areas of Mangalwedha and Pandharpur talukas.
(4) Rural areas of Malsiras and Sangola talukas.
(5) Rural areas of Karmala, Madha and Mohol talukas.

Urban Tracts.

(1) Sholapur City.
(2) Urban areas of Akalkot, Barsi and North Sholapur talukas.
(3) Urban areas of Malsiras, Mangalwedha, Pandharpur and Sangola talukas.
(4) Urban areas of Karmala, Madha and Mohol talukas.

Urban areas comprise the towns shown in Table A—V.

Shortly before the 1951 population census, a census of small scale Industries was taken, and the results of this census are given in the table called "Small Scale Industries Census—Employment in Establishments", included in this handbook.

The intention was to find out something about Cottage and Home Industries, and small workshops. The larger establishments, that is, power-using establishments with 10 or more workers, and non-power using establishments with twenty or more workers, were excluded from the scope of the enquiry as they now submit returns under the Factory Act.

The enquiry did not concern itself also with workers functioning on their own and not employing other people, except when looms were used. If even one loom was used a return was required. Otherwise the concept was of an enquiry which embraced all forms of associate activity where articles were produced, repaired or otherwise treated for sale, use or disposal.

South Sholapur	461·5	80	...	15,225	15,225	...

Note.—(1) The area of the district of Sholapur as communicated by the Surveyor General of India is 5681·8 square miles. The area figures shown in column 2 have been obtained from the District Inspector of Land Records, Sholapur, or from local records.

(2) The number of villages shown in column 3 is the number of revenue villages, excluding uninhabited villages and villages which form part of Municipal areas.

(3) The number of towns given in column 4 is the *number of cities and towns* shown in table A. V. In general, a town means a municipal area, cantonment area or a place which has a population of 5,000 or more inhabitants and exhibits urban characteristics.

Note.—Where a person was in receipt of an income and that income was sufficient at least for his own maintenance then he (or she, as the case might be) was to be regarded as a self-supporting person for purposes of the census enquiry. Any one who was not a self-supporting person in this sense was a dependant. A dependant might be either an earning dependant or a non-earning

SOLAPUR.

ependant. The test was whether he secured a regular income even though it might be small. There the income which he secured was not sufficient to support him that person was an earning ependant. A person who did not earn any income either in cash or in kind was a non-earning ependant.

ECONOMIC TABLE—B-III—EMPLOYERS, EMPLOYEES AND DIVISIONS AND

DISTRICT.

NOTE:—In this B-III table, the self-supporting persons in the non-agricultural classes have been classified according to the productive industries and services in which they were engaged. In addition to the 147,506 self-supporting persons shown in the table 4,389 self-supporting persons derived their means of livelihood from unproductive activities as shown below:—

Unproductive means of livelihood.	Persons.	Males.	Females.
(i) Persons living principally on income from non-agricultural property.	720	336	384
(ii) Persons living principally on income from pensions, remittances, scholarships and funds.	1,064	919	145
(iii) Inmates of jails, asylums, almhouses and recipients of doles ..	275	272	3
(iv) Beggars and vagrants	2,043	1,629	414
(v) All other persons living principally on income from unproductive activities.	287	160	127

SHOLAPUR.

2 *The census definitions of the terms employer, employee and independent worker were as follows:—*

Employer.—A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood. (Thus, if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason).

Employee.—A person who ordinarily worked under some other person for a salary or a wage in cash or in kind as a means of earning a livelihood.

Independent Worker.—A person who was not employed by any one else and who did not also employ any one else in order to earn his livelihood.

DISTRICT SHOLAPUR.

Note.—This index shows the number of self-supporting persons, males and females, having as their principal means of livelihood, the productive occupations shown in the index.

The index should be read with Economic Table B-III. 4,389 self-supporting persons derived their principal means of livelihood from unproductive activities as mentioned in the note to that Table.

The group code numbers shown in column 2 of the index are the numbers given to the various occupations under the Indian Census Economic Classification Scheme.

Occupation.	Group Code No.	Population.		
		Persons.	Males.	Females.

PRIMARY CENSUS ABSTRACTS.

These abstracts show figures of population according to eight livelihood classes for every city, town and village. In the case of Sholapur City and most municipal areas, figures have been given for wards as well. These abstracts are in essence a village directory, with the data exhibited according to livelihood classes, instead of communities as in 1941.

The area figures given in column 3 have been obtained from the District Inspector of Land Records of Sholapur or from local records. The total area of Sholapur District as calculated by the Surveyor General, India, is 5,681·8 square miles.

The figures given in columns 4 and 5 and 9 to 12 have been extracted from the National Registers, prepared by enumerators after the census. These Registers consisted of a transcription of the replies to the more important census questions in respect of every person enumerated. Figures of literates according to tracts, derived from the census slips, shown in table D. VII, are more reliable than the village figures derived from the National Registers. The census slip on which the replies to the census questions were recorded was the main document. The National Register was merely a copy. In addition, mistakes seem to have occurred while extracting literacy figures for villages in the Tabulation Office. The percentage of literacy in the district was 14·98 per cent. according to table D. VII, a figure which differs only by 0·25 per cent. from the figure of 14·73 per cent. derived from sorting the 10 per cent. sample slips, while the literacy figure according to the Primary Census Abstracts was 14·05 per cent.

Information contained in columns 29 to 33 has been extracted from the data collected for each village by the Bombay District Gazetteers (Revision) Editorial Board.

The following abbreviations have been used in the abstract:

M. for Municipality.

P. S. for Primary School.

V. P. for Village Panchayat.

C. C. S. for a Co-operative Credit Society.

C. S. for a Co-operative Society of any other kind.

Sun. for Sunday.

Mon. for Monday.

Tues. for Tuesday.

Wed. for Wednesday.

Thurs. for Thursday.

Fri. for Friday.

Sat. for Saturday.

Note.—The Census of Small Scale Industries was done by revenue officers in addition to their normal work. It was not done simultaneously in all talukas and districts, nor was it possible to give any special training to the staff engaged on this census. In the result, the accuracy of the data furnished by this census cannot be guaranteed. The figures may, however, be regarded as illustrative of the nature of the Small Scale Industries carried on in the District.

Abbreviations used:— T—Total; R—Rural; U—Urban; W—Whole time; P—Part-time.

BOMBAY: PRINTED AT THE GOVERNMENT CENTRAL PRESS.
