STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

District Census Hand-books for each of the 43 Districts in Madhya Pradesh

PREFACE

The publication of District Census Hand-books, which was begun in the 1951 Census, represents a significant step in the process of making census statistics available for the smaller territorial units basic to executive and developmental administration. Apart from the fact that the proper implementation of policy depends on the ability of the administrative authorities concerned to quantify accurately the variables involved, it is at these levels that policies get really thoroughly tested; also, policies can fail—and probably have failed—because their statistical basis was weak. It is undoubtedly necessary that gaps in statistics at lower levels be filled as rapidly as possible. It was not possible at this Census to base all census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.

2. What we have tried to do in the 1961 Census Hand-books is to make them more informative by the inclusion of as many categories of non-census statistics as possible; some of these are climate, agriculture, co-operation, industry, banking, education, health etc. There is also an introductory note to each Hand-book high-lighting the more striking features. It has not been possible for the Census Organisation to check the accuracy of the figures supplied by various authorities; it is to be hoped that some other organisation, better equipped for the purpose, will take up this task.

3. For the seventeen districts of Mahakoshal (Part of erstwhile Madhya Pradesh) and for Panna and Tikamgarh districts of erstwhile Vindhya Pradesh, which are part of the present State of Madhya Pradesh, the area figures for districts and tahsils furnished by the Director of Land Records and presented in Table A-I are internally inconsistent in the sense that the tahsil areas do not add up to the district area. This inconsistency arose from the fact that, in the case of these districts, the district area includes, but the tahsil areas exclude, 'forest' area for which the tahsilwise breakup was not then available. Later on, while this Hand-book was in the press, the Director of Land Records brought out revised area figures for the year 1962-63 for tahsils and districts, which among other improvements, do not suffer from the defect of internal

inconsistency even in case of these nineteen districts. Revision of Table A-I on the basis of these area figures was not feasible at this late stage; the only alternative was to print these revised area figures also in this Hand-book.

4. One unfortunate fact about these Hand-books is that they became available to the users rather late in the decade. This is partly due to the considerable time required for the collection of information from various authorities and partly to difficulties in printing. Owing to the fact that State presses, with a heavy back-log of printing weighing down on them, would find it impossible to print all the District Census Hand-books themselves, arrangements have been made for printing them in private presses. If these Hand-books are to have a useful life of more than four or five years of inter-censal decennium, more expeditious methods for the collection of non-census statistics, for the preparation and checking of the manuscripts and for printing will have to be devised.

5. The Census Organisation is grateful to the Government of Madhya Pradesh for having been so kind as to undertake the publication of these Hand-books and to the Superintendent, Government Printing and his organisation—particularly the Assistant Superintendent, Printing, Government Regional Press, Indore and his staff—for the printing arrangements made. The inspiration behind this ambitious venture is that of our indefatigable Registrar General, Shri Asok Mitra, to whom we are all deeply grateful. Our thanks are also due to the various authorities who supplied us with all the necessary statistics.

NOTES AND EXPLANATIONS

This note gives the meanings and explanations of terms and concepts used in this Handbook. This is necessary because, without a proper grasp of the meanings of such simple concepts as building, house, household, worker, etc., it is not possible to appreciate the data presented in the Handbook. Thus, one who does not know that an unpretentious hut in the thick of Bastar forests with unplastered bamboo walls and a thatch roof and with space hardly enough for two cots is not a whit less of a building than the Indian versions of the skyscrapers in one of the metropolitan cities, or that a central jail housing all manner of criminals and shady characters is as much a household as the household of the most pious and god-fearing citizen in the State, may not be able to appreciate what exactly the figures represent. Besides explaining the terms and concepts, the note also contains brief notes on the salient and peculiar features of some of the Census tables presented in this Handbook.

Census.—The Census in India is a decennial operation taking place in February-March of the first year of every decade. It ensures coverage of *all* members of the population irrespective of age. The operations constituting a *Census* involve, besides counting of heads, the counting of numerous attributes of the person counted. These are demographic, social, economic and cultural in nature. The number of these attributes regarding which information is recorded has been increasing from census to census and is limited only by considerations of cost, time and organisation.

Population.—The important thing about a population is that it is dynamic. It is a constantly changing entity. These changes take place by the natural processes of birth and death as well as by migration. A statement of population has therefore little sense unless the point of time to which it relates is also stated. A population figure is correct only for a particular point of time; and, even though in practice one may omit to indicate this point of time, one should none the less be clear about it. The population figures presented herein refer to the sunrise of 1st March, 1961, unless otherwise stated.

Rural-Urban Classification:—Data collected at a Census is usually presented separately for the rural and urban areas. A 'town' or a 'town-group' constitutes an urban area. A 'town' in the 1961 Census was either (i) a municipality, cantonment or corporation; or (ii) a habitation with a population at least of 5,000 with atleast three-fourths of the adult male population being engaged in non-agricultural pursuits. The rural-urban classification, being operationally cardinal and prior in point of time to the census count, had to be tackled earlier and a list of 219 towns in the State was therefore, prepared much earlier than the census proper. This included 28 habitations which were tentatively treated as towns, the intention being that, after the 1961 Census data became available, their cases would be re-examined. Later on, however, no modification was made in the list, even though 7 towns did not satisfy either the minimum population criterion or the one based on the ratio of non-agricultural adult males being 75% or greater. These are Gogaon in West Nimar, Datla Bandhi in Chhindwara (both under 5,000 in population); and, Icchawar, Patan, Pendra, Akaltara, Arang respectively in Sehore, Jabalpur, Bilaspur, Bilaspur, and Raipur Districts (not satisfying the economic criterion). The reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to sneak into the list of towns as municipalities, and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than was already present. The cases of Chachaura-Binaganj town in Guna District and Sardarpur-Rajgarh in Dhar District are peculiar in that each of these two municipal towns consists of two distinct habitations separated by 2 miles in the first and 3 miles in the second case.

All areas, which were not urban were rural. They consisted of 'villages'. A very large majority of the census villages were 'revenue villages', which had well demarcated or recognised boundaries, and which included not only the inhabited portion (or portions) but also agricultural land and uninhabited waste (or other) lands. The census village was thus not synonymous with a habitation or a dwelling; in fact, a village could contain two or more distinct habitations separated by considerable distances known variously as 'tola' or 'mazra' or 'para'. Besides, in many districts there were forest villages, situated inside Reserved forests and without clearly demarcated boundaries. The areas entered against these villages in the Village Directory are thus only approximate. It is to be noted that being, as observed by Martin [Census Superintendent (old) Madhya Pradesh, 1911 and Census Commissioner for India, 1921] arbitrary and irregular units of

area, carved out chiefly for revenue and administrative purposes, there are many revenue villages which do not have any habitation. They are not, therefore, of much demographic interest, and their inclusion in the Village Directory is only for a proper tally of area aggregates.

A—General Population Tables:

There are four main tables and three appendices in this series.

Table A-1.—This table presents the basic figures relating to area, houses and population separately for the rural and urban areas of each district, each tahsil, and for each city, towngroup or town. The area figures used in the table for the district and the tahsils are those furnished by the State Director of Land Records. In case of the district, the area figures furnished in 1962 by the Surveyor-General, India are also given. The Surveyor-General does not furnish area figures for tahsils. In case of cities and towns the area figures are furnished by the local urban authority (if any) in charge of the municipal administration, or by the local revenue authorities. Except in case of Raipur and Sagar districts, there is no agreement between the area figures for the district furnished by the Director of Land Records and the Surveyor-General, India. These differences arise principally from the differences in the methods adopted by the two agencies in measuring and computing the area.

In the case of eighteen districts (Bastar, Raipur, Durg, Raigarh, Bilaspur, Surguja, Balaghat, Seoni, Chhindwara, Mandla, Narsimhapur, Jabalpur, Sagar, Hoshangabad, Betul, East Nimar, Tikamgarh and Panna), only the district 'total' and 'rural' figures for area include the forest area; the figures for forest area were not available for individual tahsils in these districts, and hence the tahsilwise area figures for these districts do not include forest area. This fact is important particularly for appreciating the district and tahsil population density figures of these districts. The population density (*i.e.*, persons per square mile) given in column 4 of the table is calculated on the basis of the figures of area supplied by the State Directorate of Land Records.

Occupied Residential House.—This is a Census house which was actually occupied at the time of enumeration for residential purposes either partly or fully. The concept of 'Census house' together with the allied concepts of 'building' and 'household' are dealt with later in this note.

Town Group.—The introduction of the concept of "towngroup" is a new feature of the 1961 Census. One kind of 'towngroup' has its basis in what may be called demographic prognosis, this being that a particular group of towns is situated in such a way, and exhibits some interconnecting features of such a kind, that they can be considered a single demographic entity whose organic nature is likely to become more and more evident in the future. Examples are: Bhopal City with Bairagarh in the West and Heavy Electricals Township in the East; and Durg Town and Bhilai Industrial Township. The other type of towngroup is a group only in name in the sense that it represents a group of localities which geography unites but definition separates. Examples are Sagar Towngroup consisting of Sagar Municipality and Sagar Cantt., and Jabalpur Towngroup (consisting of Jabalpur Corporation, Jabalpur Cantt. and Khamaria). In both these instances, the urban complex is single and continuous, but as each corporation or cantonment is a separate town by definition, it gets split up in the Census into more than one town. In Madhya Pradesh there are six towngroups in all; three of them belong to the first type: Bhopal in Sehore District: Murwara in Jabalpur District and Durg in Durg District; the other three belong to the second type, Pachmarhi in Hoshangabad District, Sagar in Sagar District and Jabalpur in Jabalpur District.

Houseless & Institutional Population:—"Houseless population" means those who did not live and were not enumerated, in Census-houses at the last Census. Obviously these swell the ranks of the social destitutes who, to speak in every day parlance do not have even a roof over their heads, but live under the shade of trees or bridges or on pavements. "Institutional population" means the population that was enumerated in institutions at the last census *i.e.*, in hostels, jails, boarding houses, hospitals etc.

Class of Towns.—Towns are classified into six classes as below according to their population sizes:—

Class	*Population range*
I	100,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000—9,999
VI	Below 5,000

Towns of Class I are also known as Cities.

"Status" of a town means the authority in charge of its local urban administration. Thus a town could have a Municipal Corporation; a Municipality, a Cantonment Board, a Gram Panchayat, a Town or Notified Area Committee, etc.

B—(*i*) *General Economic Tables.*—This series includes 22 tables containing information on certain economic aspects of the population. The concepts involved have undergone significant changes as compared with the 1951 and earlier Censuses. In the 1951 and earlier censuses or at any rate in the last few censuses income or economic independence (and dependence) were treated as the criteria for denoting the economic status of a person. Separate account used to be taken of all persons who were economically independent and of those who were economically dependent. An intermediate category of economic semi-independence was also introduced in the 1931 Census. This consisted of the 'earning dependents' of the 1951 Census and even there the element of income was present. This income-based classification seems to have not infrequently resulted in a suppression of information relating to those who worked in household economic activities but did not actually earn any income like men other than the head of the household and women of the family or children working at the family cultivation or cottage industry but not earning any incomes. The 1961 Census introduced the concept of work and totally abandoned the 'income' approach. Thus all people who worked (*i.e.*, were "economically active") including family workers who were not in receipt of any income, & working children who did not earn enough for their maintenance were treated as workers. On the other hand such persons as a receiver of rents on immovable property, or of interest on securities deposited in a bank, and doing no other work, were treated as non-workers. Persons professionally engaged in anti-social activities (*i.e.*, thieves, robbers, prostitutes, beggars, etc.) were, however, not treated as workers. The approach to the concept of "work" was pragmatic and numerous illustrations were given to clarify the concept. The basis of work was held to be satisfied in the case of seasonal work *i.e.*, work at cultivation, livestock, dairying or household industry if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work was satisfied if the person was employed during any of the fifteen days preceding the day on which he was visited by the Census enumerator. A person who was working but was absent from his work during those fifteen days or for a longer period owing to illness or other causes was treated as worker. Work included not only actual physical work but also effective supervision and direction of work.

The Working Categories:—The primary classification of the population is by means of a simple dichotomy into workers and non-workers. The former is further sub-divided into nine sub-classes or working categories of the Census. These are listed below; the correspondence with the Standard National Industrial Classification is also indicated.

	CENSUS WORKING CATEGORY	CORRESPONDING DIVISION OR MAJOR GROUP OR MINOR GROUP OF NIC
I	Workers in cultivation	Minor Groups 000, 001, 002, 003, 004,
II	Agricultural Labourers ...	The same as in I above
III	Workers in mining, quarrying, live-stock, forestry, fishing, hunting and plantations, orchards and allied activities	Major Groups 01, 02, 03 and 04 and Division 1; Minor Groups 005, 006, 007, 008, 009 (if not classifiable as household industry)
IV	Workers in household industry ...	Minor Groups 005 to 009, 013, 014, 015, 020 to 026, 031, 032, 040 to 048, 107, Divisions 2 & 3 (excepting Minor Groups 201, 217, 218, 232, 252, 260, 290, 324, 325, 338 and 380) if on a household scale
V	Workers in manufacturing other than household industry ...	Divisions 2 & 3
VI	Workers in construction ...	Division 4
VII	Workers in Trade and Commerce ...	Division 6
VIII	Workers in Transport Storage and Communications ...	Division 7
IX	Workers in other services ..	Divisions 5, 8 & 9

The only term requiring explanation is household industry, the others being self-explanatory. As regards household industry, a three-fold test was laid down, *viz*:—

(a) "Household Industry" should consist of manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) "Household Industry" should be on the household scale where the workers mainly will be the Head of the household himself and/or members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a *registered factory* but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such free movement is not possible, and therefore, for household industry in urban areas we should consider only those industries which are located or at least the major part of whose work is located at home.

Class of Worker:—A worker, other than a cultivator, agricultural labourer or a worker at household industry could be: (i) an Employer, that is, who hires one or more persons in his work; (ii) an Employee, that is, who does his work under others for wages or salary in cash or kind; (iii) a Single Worker, that is, who is doing his work without employing others, except casually, and without the help of other members of the family, except casually (this includes workers working as members of a co-operative); and (iv) a Family Worker, that is, who is doing his work in his own family without wages or salary in cash or kind. A person could be an employee in a household industry also.

PRINCIPAL AND SECONDARY WORKER:

Table B-VII Part A and Part B involve the concepts of principal and secondary work. For every worker the principal work had to be indicated in the case of a person who was engaged in more than one work, and also the secondary work if he was engaged in two or more than two productive activities. The concepts of primary and secondary work had nothing to do with the income accruing to a person from his work. The principal work of a person was that activity which took up most of his time; similarly the secondary work (in case a person was engaged in two or more than two kinds of work) was that which took up less time than the principal work but greater than the other kinds of work. Unless specifically stated to the contrary in the table heading itself the tables in the Handbook are based on the principal work of a person.

Non-workers:—The non-working section of the population also was divided into eight classes according to the nature of their activities. Thus a non-worker could be (i) a full time student or child attending school, (ii) a person engaged in home duties (like a housewife or other adult female who does no other work) (iii) dependent including an infant or child not attending school, a person permanently disabled from work because of illness or old-age; (iv) a retired person who is not employed again, rentier, a person living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work and who does no other work; (v) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence; (vi) a convict (not an undertrial who was to be recorded for the work he did before being admitted to Jail); (vii) persons who were seeking employment for the first time; and (viii) persons who previously had worked, but were out of employment, and were again seeking work.

Education Levels:—A person was treated as illiterate if he did not satisfy the test of literacy, this meaning the ability both of reading and writing. The test of reading was held to be satisfied if a person could read printed matter or easily legible manuscripts. The test of writing was the ability to write a simple letter. The minimum educational level is primary or junior basic, and this includes all persons who have passed this examination but have not passed the next higher level examination *i.e.*, matriculation or higher secondary. Persons who had formal schooling but had not passed the primary or junior basic level examination were literates without any educational levels. A person belonging to any particular educational level means a person who has passed the examination denoting that level.

INDUSTRIAL AND OCCUPATIONAL CLASSIFICATION OF WORKERS:

Workers have also been classified according to their occupation and industry. The concepts of 'industry' and 'occupation' are of fundamental importance in connection with all economic activity and it is necessary that they should not be confused with each other. By "industry" is meant the sector of economic activity in which a worker is engaged *e.g.*, the textile industry, mining industry, etc., whereas by 'occupation' is meant the exact function that a worker performs in that sector *e.g.*, fitter, carpenter, typist, etc. Occupation thus is "a trade, profession or type of work performed by an individual independent of the worker's industry, status or years of experience".

THE INDIAN STANDARD INDUSTRIAL CLASSIFICATION (I. S. I. C.):

The industrial classification used in some of the economic tables of this hand-book is the 'Standard Industrial Classification' prepared by the Ministry of Labour and Employment, Government of India. Under this scheme of classification, the whole range of economic activity is divided into nine 'divisions', and a code number is given to each. The first digit of the code number of any specific economic activity stands for the 'Division' under which that activity is classified. Each division is then divided into a number of major groups not exceeding ten. The first and second digits of the code number represent the division and the major group into which an economic activity is classified. Each major group is again sub-divided into a number of minor-groups not exceeding ten, and the first, second and third digits in the code number of any economic activity represent the division, the major group and the minor group into which it is classified. To illustrate, the industrial 'code', '261', represents an economic activity corresponding to minor group 261 in major-group 26 of Division 2. A reference to the Standard Industrial Classification will show that the minor group code stands for the economic activity 'Dying and bleaching of silk' in the major group 'Textiles Silk' of the Division: 'Manufacturing'. The 'Divisions', 'Major Groups' and 'Minor Groups' of the Standard Industrial Classification are printed immediately after this note as Appendix I.

NATIONAL CLASSIFICATION OF OCCUPATIONS (NCO):

Table B-V gives the occupational classification by sex of persons at work other than cultivation. This classification is based on the 'National Classification of Occupations' prepared by the Ministry of Labour and Employment, Government of India. Each *occupation* is represented by a code number containing a number of digits (extending in the NCO upto 5). We have used only the three digit Code number for classifying occupation. All occupations are divided into ten divisons to each of which a digit is allotted. The first digit of the code number of an occupation stands for the 'Division' into which it is classified. Each division is then sub-divided into a number of groups not exceeding ten. The first and second digits of the code number represent the 'Division' and 'Group' into which an occupation is classified. Each group again is divided into a number of families not exceeding ten and the first three digits of the code number stand for the division, group and family into which an occupation is classified. To illustrate, the code number 911 stands for the family 911 (Cooks, cook-bearers, domestic and institutional) included in the Group 91 (Housekeepers, Cooks, Maid and related workers) included in the 'Division' 9 (Service, Sport and Recreation workers). The Divisions, Groups, and Families of the National Classification of Occupations are printed after this note as Appendix II.

It may be mentioned that the three digit industrial code can easily be extended into a four-digit code on the principles illustrated earlier to secure greater precision in the classification of the economic activitity of a worker. This has in fact been done in case of workers at household industry, and these four-digit code numbers have been used in Table B XIV Part B.

B—(ii) Household Economic Tables:—Tables belonging to this series differ from others in two respects: (i) they have been prepared from information recorded on the household schedules, while the other tables are prepared from information recorded on the individual slips; (ii) whereas the other tables are based on the total population, the tables in this series are prepared from the data contained in a 20% sample of all households. The instructions for selecting the sample are reproduced below:—

"Every fifth household from the starting random household will be selected to make a 20% sample. The sample household will be marked continuously for rural areas of a tahsil/taluka and for urban areas of a district *i.e.*, households left over in a household pad should be carried over to the next household schedule pad for the selection of sample households.

"Before making the sample households the household schedule pads should be arranged in the order of location code numbers of villages in a Taluka or Tahsil in the case of a rural area and in the order of location code numbers of towns in a district for urban areas. The first sample household should be chosen randomly among the first five households in the first household schedule pad and stamped (s) as selected. This random number (random start) should be chosen separately for rural areas of each taluka/tahsil and for

the urban area of the district. From the first random household every fifth household should be continuously stamped as selected..... The sample should be continuously marked for all the pads of villages in a tahsil and urban areas in a district. If in a particular household schedule pad at the end, some households (these will be four or less) are left after marking of the sample household, the housedolds left over should be carried over to the next household schedule pad and the appropriate household in that pad should be marked as a sample household".

C.—Social and Cultural Tables:

This series contains 8 tables of which Table C-1 is prepared from data abstracted from the 20% sample of households.

Marital Status:—As regards marital status a person could be (i) never married, (ii) married, (iii) widowed and (iv) divorced or separated. The figures given do not necessarily indicate the legal position. Thus, persons who lived together as man and wife and who were regarded as such by society were treated as 'married' even though there might not be any legally valid marriage between them.

Age.—The age of a person was recorded in completed years as on the last birth day at the time of enumeration, so that a child who had not completed a year of its existence was recorded as of age '0' Inspite of the best efforts, distortion of ages is common phenomenon in Indian Census. This distortion is ascribable to the combined effect of a variety of causes like, for example, digit-preference, age-bias and estimation error and its most obvious manifestation is the heaping of the ages at digits ending in 0 or 5 and in even rather than in odd numbers.

Mother Tongue:—Mother tongue is the language spoken in childhood by a person's mother to the person, or mainly spoken in the household.

Religion:—Separate figures are given only for the six main religions: Hindu, Muslim, Jain, Sikh, Christian and Buddhist. Figures for persons professing other religions have been clubbed together under the head: Other Religions and persuasions'

Scheduled Castes and Scheduled Tribes:—In view of the constitutional safeguards guaranteed to persons belonging to scheduled castes and scheduled tribes with a view to ameliorate their social and economic condition, basic census figures are for the first time being published separately for each scheduled caste and scheduled tribe. A scheduled caste or a scheduled tribe means a caste or a tribe included in the Order issued by the President of India under Articles 341 (1) and 342 (1) of the Constitution, amended, if necessary in accordance with Articles 341 (2) and 342 (2) thereof. It should be remembered that the population of a particular scheduled caste or tribe as given in the tables does not necessarily mean the entire population of that caste or tribe in the district. This is so because scheduling of a caste or tribe under the Constitution is *territorial* so that a caste or a tribe scheduled in a district, (or a tahsil or tahsils of a district) is not necessarily a scheduled caste in other districts (or other tahsils of the same district). Thus Gond is a scheduled tribe in all tahsils of Jabalpur District except Jabalpur Tahsil so that the figures for Gond population in Jabalpur District exclude the Gonds of Jabalpur Tahsil. Secondly, some of the scheduled tribes have not been given independent status in some parts of the State by the Order but have been clubbed together with some major tribe, while, in other parts of the State, they have not been so clubbed but have been included as distinct scheduled tribes. Thus, in the districts of the Mahakoshal region of the State, the tribe Agaria has been clubbed, along with many another, with Gond as the latter's sub-tribe. In these districts, therefore, figures relating to Agaria tribe, whose ethnic identity with Gond is controversial, do not appear independently in the tables of these districts, but are included in the figures for Gond. In the Vindhya Pradesh region, however, Agaria is Scheduled tribe in its own right and in the districts belonging to that region Agaria population appears separately in the relevant tables.

Religion of Scheduled Castes and Tribes:—A scheduled caste can exist only in Hindu and Sikh religions and in no other religion. A scheduled tribe, however, may be found in any religion.

E—Housing Tables:—The Handbook includes five tables on housing. In using these tables, it should be remembered that they are prepared from the data on households abstracted from the 'Houselists'. Tables E-I and E-III are based on the full count while table E-II, E-IV and E-V are prepared from a 20% sample of households entered in the Houselists. Houselisting was non-synchronous with census proper, having taken place in the month of September-October, 1960, about five month before the reference date of the Census. Also, the population of households entered in the houselists is not necessarily identical with the population of households in respect of which household schedules were filled at the time of the Census. Thus the samples of households drawn from the household schedule, and from the house lists are different samples.

The instruction for drawing the 20% sample of households from the houselists are reproduced below:—

"Before marking the sample households the Houselists should be arranged in order of location code numbers in the case of rural areas for tahsil etc., and in the case of urban areas other than towns with population of 50,000 and over. In the case of towns with population of 50,000 and over the Houselists should be arranged in order of blocks. The first sample household should be chosen randomly among the first five households in the first Houselist. From that every fifth household from the first random household should be continuously marked..... The sample should be marked continuously for all the Houselists. If in a particular Houselist at the end two households are left after the marking of the sample households then these households should be carried over to the next Houselist and the third household in that list should be marked as sample households".

Census House and Census Households:—The concepts of "building" "house" and "household" are important and differ somewhat from their connotations in common speech. A building refers to the entire structure on the ground. A census house is a structure or part of structure inhabited or vacant or a dwelling, a shop, a shop-*cum*-dwelling or place of business, workshop, school etc., with a separate entrance. A census house was thus a building, or part of a building with a separate entrance. A census house could have a variety of uses, residential as well as non-residential; or it might be vacant (at the time of houselisting).

A household was defined as "a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so." A household necessarily lived in a census house or part of a census house. The definition of a household was broad enough to include all persons living together in a census-house and dining from the same kitchen, even if they were not related to one another. Such were the institutional households, like jails, hostels, hospitals etc. The house in which a household lived could either be owned or rented. All census-houses which were not owned by the households living in them were treated as 'rented' even though no rent was being actually paid.

"Factory" and "Workshop":—As is clear from its definition, a Census house could be a workshop. A workshop is a place where some kind of production, repair or servicing goes on, or where goods or articles are made and sold. A bigger workshop which was either registered under the Indian Factories Act or was of the scale of a registered factory was returned as a factory. For a manufacturing, repairing or servicing establishment to be registered under the Indian Factories Act, it should have ten or more workers if using power and twenty or more workers if not using power.

VILLAGE DIRECTORY AND ITS APPENDICES:

Village Directory:—The Village Directory corresponds to the Primary Census Abstract of the 1951 Census. It gives for each village of the district: (a) information relating to area, census houses, households, scheduled castes and scheduled tribes and literacy; and (b) the classification of the population into workers and non-workers, and again 'workers' into their 'Industrial Categories' separately for both the sexes. For facilitating comparison with the Census Handbook of 1951 the serial number at which the village is to be found in 1951 Handbook is also given. A new feature introduced in this Census is the presentation of additional information about each village relating to schools, hospitals, child and maternity welfare centres, medical practitioners, electricity, post and telegraph offices etc. This has been done by entering symbols against the name of each village. Another novel feature is the presentation in eleven appendices of useful information relating to villages and towns *i.e.*, industrial establishments, places situated on bus routes, or within five miles of a railway station, places having pucca wells, markets, public reading rooms, drains etc.

To enable the reader to locate the village in the Village Directory without much difficulty, an alphabetical index of village names is given. This gives for each village the 1961 location code number of the village (in the Village Directory, villages are arranged according to their Location Code Numbers); and its location code number in the 1951 Hand-book.

APPENDIX—I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below.

Major Group (Code)	Description	Minor Group (Code)
	Division O—Agriculture, Livestock, Forestry, Fishing and Hunting.	
00	Field Produce and Plantation Crops:—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines & orchards	006
	Production of wood, bamboo, cane reeds, thatching grass etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 & flowers) not covered above	009
01	Plantation Crops:—	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	Forestry and Logging:—	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	Fishing:—	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	Livestock and Hunting:—	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax, and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047

Major Group (Code)	Description	Minor Group (Code)
	Production of other animal husbandry products such as skin, bone, ivory & teeth	048
	Division 1—Mining and Quarrying:—	
10	Mining and Quarrying:—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and Quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2 & 3—Manufacturing:—	
20	Foodstuffs:—	
	Production of rice, atta, flour, etc. by milling, Dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur, from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	Beverages:—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products:—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacoo	225
	Manufacture of other tobacco products	226
23	Textile—Cotton:—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239

Major Group (Code)	Description	Minor Group (Code)
24	Textile—Jute:—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool:—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	Textile—Silk:—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	Textile—Miscellaneous:—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of water-proof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding, and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	Manufacture of Wood and Wooden Products:—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture & fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	Paper and paper Products:—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	Printing and Publishing:—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301

Major Group (Code)	Description	Minor Group (Code)
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stiching, sizing and other allied work connected with binding industry	303
31	Leather and Leather Products:—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by Code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather foot-wear	314
	Repair of all other leather products except footwear	315
32	Rubber, Petroleum and Coal Products:—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used	
	Manufacture of all kinds of other for industrial purpose	322
	rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	Chemicals and Chemical Products:—	
	Manufacture of basic industrial chemicals such as acids, alkalis & their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals & chemical products not covered above (including inedible oils and fats)	339
34	Non-metallic Mineral Products other than Petroleum and Coal:—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery:—	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357

Major Group (Code)	Description	Minor Group (Code)
35	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	Basic Metals and their products except Machinery and Transport Equipment:—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating, (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38, and 39).	369
37	Machinery (All kinds other than transport) and Electrical Equipment:—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	Transport Equipment:—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats, and manufacture of marine engines	386
	Manufacture & repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	Miscellaneous manufacturing Industries:	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of Musical Instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4—Construction	
40	Construction:—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	Electricity and Gas:—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of Gas in gas works and distribution to domestic and industrial consumers	502
51	Water Supply and Sanitary Services:—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60	Wholesale Trade:—	
	Wholesale trading in cereals and Pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish dairy products eggs, poultry and other foodstuff (not covered else where)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	Retail Trade:—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeats, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrellas, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
66	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and papers	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
67	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689

Major Group (Code)	Description	Minor Group (Code)
69	Trade and Commerce Miscellaneous:—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
Division 7.—Transport, Storage and Communication:		
70	Transport:—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	Storage and Ware Housing:—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold-storage	721
	Operation of storage of other type	722
73	Communication:—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8.—Services:		
80	Public Services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing & operation of financial institution each of which is classified in the appropriate industry groups):—	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public Service in Navy	801
	Public Service in Air Force	802
	Public Service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public service in administrative departments and offices of State Governments	809
81	Educational and Scientific Services:—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	Medical and Health Services:—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic particulars	820
	Veterinary services rendered by organisations and individuals	821

Major Group (Code)	Description	Minor Group (Code)
83	Religious and Welfare Services:—	
	Religious services rendered by religious organisations and their establishments maintained for worship *or promotion of religious activities*, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for promotion of welfare of the community such as relief societies red-cross organisation for the collection and allocation of contribution for charity	832
84	Legal Services:—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organizations and individuals	841
85	Business Services:—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as of those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news agency, news paper correspondent, columnist, journalists, editors, authors	853
86	Community Services and Trade and Labour Associations:—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political, and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	Recreation Services:—	
	Production of motion picture and allied services such as processing editing etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor etc. racing.	873
88	Personal Services:—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning services)	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hair-dressing saloon and beauty shops	884
	Services rendered by portrait and commericial photographic studios	885
89	Services (not elsewhere classified):—	
	Services rendered by organisations or individuals not elsewhere classified	890
	Division 9—Activities not adequately described:	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900
	Fresh entrants to the Labour Market	999

APPENDIX—II

NATIONAL CLASSIFICATION OF OCCUPATIONS

(Code Structure)

Which classifies occupations into

331 Occupational Families (three-digit code numbers)

75 Occupational Groups (two-digit code numbers)

11 Occupational Divisions (one-digit code numbers)

Note I.—The Classification does not provide separate code numbers for Apprentices, Foremen and Instructors (in-plant only). These may be classified by giving the prefixes of "A", "B", or "C" respectively before the code number of the occupation which is being learned, supervised or instructed.

Note II.—n. e. c.—not elsewhere classified.

DIVISIONS, GROUPS AND FAMILIES

0 *Professional, Technical and Related Workers:*

00 Architects, Engineers and Surveyors:—

- 000 Architects
- 001 Civil Engineers (including overseers)
- 002 Mechanical Engineers
- 003 Electrical Engineers
- 004 Chemical Engineers
- 005 Metallurgical Engineers
- 006 Mining Engineers
- 007 Surveyors
- 009 Architects, Engineers and Surveyors, n. e. c.

01 Chemists, Physicists, Geologists and other Physical Scientists:—

- 010 Chemists, except Pharmaceutical Chemists
- 011 Pharmaceutical Chemists
- 012 Physicists
- 013 Meteorologists
- 014 Geologists and Geophysicist
- 015 Mathematicians
- 019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.

02 Biologists, Veterinarians, Agronomists & Related Scientists:—

- 020 Biologists and Animal Scientists
- 021 Veterinarians
- 022 Sliviculturists
- 023 Agronomists and Agricultural Scientists
- 029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.

03 Physicians, Surgeons and Dentists

- 030 Physicians and Surgeons, Allopathic
- 031 Physicians, Ayurvedic
- 032 Physicians, Homeopathic
- 033 Physicians, others
- 034 Physiologists
- 035 Dentists
- 039 Physicians, Surgeons and Dentists, n.e.c.

04 Nurses, Pharmacists and other Medical & Health Technicians:—

- 040 Nurses
- 041 Midwives and Health Visitors
- 042 Nursing Attendants and Related Workers
- 043 Pharmacists and Pharmaceutical Technicians
- 044 Vaccinators
- 045 Physiotherapists, Masseurs and Related Technicians
- 046 Sanitation Technicians
- 047 Optometrists and Opticians
- 049 Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants see 091).

05 Teachers:—

- 050 Teachers, University
- 051 Teachers, Secondary Schools
- 052 Teachers, Middle and Primary Schools
- 053 Teachers, Nursery and Kindergarten Schools
- 059 Teachers, n.e.c.

06 Jurists:—

- 060 Judges and Magistrates
- 061 Legal Practitioners and Advisers
- 062 Law Assistants
- 069 Jurists, and Legal Technicians (including Petition Writers)

07 Social Scientists and Related Workers:—
- 070 Economists
- 071 Accountants and Auditors
- 072 Statisticians and Actuaries
- 073 Geographers
- 074 Psychologists
- 075 Personnel Specialists
- 076 Labour and Social Welfare Workers
- 077 Sociologists and Anthropologists
- 078 Historians, Archeologists, Political Scientists and Related Workers
- 079 Social Scientists and Related Workers, n.e.c.

08 Artists, Writers and Related Workers:—
- 080 Authors
- 081 Editors, Journalists and Related Workers
- 082 Translators, Interpreters and Language Specialists
- 083 Painters, Decorators and Commercial Artists
- 084 Sculptors and Modellers
- 085 Actors and Related Workers
- 086 Musicians and Related Workers
- 087 Dancers and Related Workers
- 089 Artists, Writers and Related Workers n.e.c.

09 Draughtsmen, and Science and Engineering *Technicians, n.e.c.*
- 090 Draughtsmen
- 091 Laboratory Assistants
- 099 Science and Engineering Technicians, n.e.c.

0X Other Professional, Technical and Related Workers:—
- 0X0 Ordained Religious Workers
- 0X1 Non-ordained Religious Workers
- 0X2 Astrologers, Palmists and Related Workers
- 0X9 Other Professional, Technical and Related Workers, n.e.c.
- 0X4 Geographers

1 *Administrative, Executive and Managerial* Workers
- 0X3 Librarians, Archivists and Related

Workers:

10 Administrators and Executive Officials, Government:—
- 100 Administrators and Executive Officials, Central Government (All Defence Services Personnel to be included in this family)
- 101 Administrators and Executive Officials, State Government
- 102 Administrators and Executive Officials, Local Bodies.
- 103 Administrators and Executive Officials, Quasi-Government
- 104 Village Officials
- 109 Administrators and Executive Officials, Government, n.e.c.

11 Directors and Managers, Whosesale and Retail Trade:—
- 110 Directors and Managers, Wholesale Trade
- 111 Directors and Managers, Retail Trade

12 Directors, Managers and Working Proprietors, Financial Institutions:—
- 120 Directors, Managers and Working Proprietors, Banks
- 121 Directors, Managers and Working Proprietors, Insurance
- 129 Directors, Managers and Working Proprietors, Financial Institutions,

13 Directors, Managers and Working Proprietors, other:—
- 130 Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling
- 131 Directors, Managers and Working Proprietors, Construction
- 132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary.
- 133 Directors, Managers and Working Proprietors, Manufacturing
- 134 Directors, Managers and Working Proprietors, Transport and Communication
- 135 Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services
- 136 Directors, Managers and Working Proprietors, Other Services
- 139 Directors, Managers and Working Proprietors, n.e.c.

2 *Clerical and Related Workers:*

20 Book-keepers and Cashiers:—
- 200 Book-keepers, Book-keeping and Accounts Clerks
- 201 Cashiers
- 202 Ticket Sellers and Ticket Inspectors including ushers and Ticket Collectors (excluding those on moving transport)

21 Stenographers and Typists:—
- 210 Stenographers
- 211 Typists

22 Office Machine Operators:
- 220 Computing Clerks and Calculating Machine Operators
- 221 Punch Card Machine Operators
- 229 Office Machine Operators, n.e.c.

28 Clerical Workers, Miscellaneous:—
- 280 General and other Ministerial Assistants and Clerks
- 289 Miscellaneous Office Workers including Record keepers, Moharrers, Diaphers, Packers and Binders of office papers.

29 Unskilled Office Workers:—.
- 290 Office Attendants, Ushers, Hall Porters etc. n.e.c.

3 *Sales Workers*:

30 Working Proprietors, Wholesale and Retail Trade:—
- 300 Working Proprietors, Wholesale Trade
- 301 Working Proprietors, Retail Trade

31 Insurance and real estate salemen, salesmen of securities and services, and auctioneers:—
- 310 Agents and Salesmen, Insurance
- 311 Agents, Brokers and Salesmen, Real Estate
- 312 Brokers and Agents, Securities and Shares
- 313 Auctioneers
- 314 Valuers and Appraisers
- 319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.

32 Commercial Travellers and Manufacturers' Agents:—
- 320 Commercial Travellers
- 321 Manufacturers' Agents
- 329 Commercial Travellers and Manufacturers' Agents, n.e.c.

33 Salesmen, Shop Assistants and Related Workers:—
- 330 Salesmen and Shop Assistants, Wholesale and Retail Trade
- 331 Hawkers, Pedlars and Street Vendors
- 339 Salesmen, Shop Assistants and Related Workers, n.e.c.

34 Money-Lenders and Pawn-Brokers:—
- 340 Money-Lenders (including Indigenous Bankers)
- 341 Pawn-Brokers

4 *Farmers, Fishermen, Hunters, Loggers and Related Workers*:

40 Farmers and Farm Managers:—
- 400 Cultivators (Owners)
- 401 Cultivators (Tenants)
- 402 Farm Managers, Inspectors and Overseers
- 403 Planters and Plantation Managers
- 404 Farmers and Farm Managers, Animals, Birds and Insects Rearing
- 409 Farmers and Farm Managers, n.e.c.

41 Farm Workers:—
- 410 Farm Machinery Operators
- 411 Farm Workers, Animals, Birds and Insects Rearing
- 412 Gardeners (malis)
- 413 Tappers (Palm, Rubber trees, etc.)
- 414 Agricultural Labourers
- 415 Plantation Labourers
- 419 Farm Workers, n.e.c.

42 Hunters and Related Workers:—
- 420 Hunters
- 421 Trappers
- 429 Hunters and Related Workers, n.e.c.

43 Fishermen and Related Workers:—
- 430 Fishermen, Deep Sea
- 431 Fishermen, Inland and Coastal Waters
- 432 Conch and Shell gatherers, Sponge and Pearl Divers
- 439 Fishermen and Related Workers, n.e.c.

44 Loggers and other Forestry Workers:—
- 440 Forest Rangers and Related Workers
- 441 Harvesters and Gatherers of Forest Products including lac (except logs)
- 442 Log Fellers and Wood Cutters
- 443 Charcoal Burners and Forest Product Processors
- 449 Loggers and other Forestry Workers, n.e.c.

5 *Mines, Quarrymen and Related Workers:*

50 Miners and Quarrymen:—
- 500 Miners
- 501 Quarrymen

502 Drillers, Mines and Quarries
503 Shot Firers
509 Miners and Quarrymen, n.e.c.

51 Well Drillers and Related Workers:—
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas

52 Mineral Treaters:—
520 Mineral Treaters

59 Miners, Quarrymen and Related Workers, n.e.c.:—
590 Miners, Quarrymen and Related Workers, n.e.c.

6 *Workers in Transport and Communication Occupations*:

60 Deck Officers, Engineer Officers and Pilots, Ship:—
600 Deck Officers and Pilots, Ship
601 Ship Engineers

61 Deck and Engine-room Ratings (Ship), Barge Crews and Boatmen:—
610 Deck Ratings (Ship), Barge Crews and Boatmen
611 Engine-Room Ratings, Firemen and Oilers, Ship

62 Aircraft Pilots, Navigators and Flight Engineers:—
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators

63 Drivers and Firemen, Railway Engine:—
630 Drivers
631 Firemen

64 Drivers, Road Transport:—
640 Tramcar Drivers
641 Motor Vehicle and Motor Cycle Drivers
642 Cycle Rickshaw Drivers and Rickshaw Pullers
643 Animal Drawn Vehicle Drivers
649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)

65 Conductors, Guards and Brakesmen (Railway):—
650 Conductors
651 Guards
652 Brakesmen

66 Inspectors, Supervisors, Traffic Controllers, Despatchers, Transport:—
660 Inspectors, Supervisors and Station Masters
661 Traffic Controllers
662 Signalmen and Pointsmen

67 Telephone, Telegraph and Related Telecommunication Operators:—
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operators
679 Telephone, Telegraph and Related Tele-Communication Operators, n.e.c.

68 Postmen and Messengers:—
680 Postmen
681 Messengers (including Dak Peons)

69 Workers in Transport and Communication Occupations, n.e.c.
690 Ticket Sellers, Ticket Inspectors, including Ushers and Ticket Collectors on moving Transport
691 Conductors, Road Transport
692 Workers in Transport Occupations, n.e.c.
693 Inspectors, Traffic Controllers and Despatchers, Communications
694 Workers in Communication Occupation, n.e.c.

7-8 *Craftsmen, Production Process Workers, and Labourers not elsewhere classified*:

70 Spinners, Weavers, Knitters, Dyers and Related Workers:—
700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.
701 Blow-room Workers and Carders
702 Spinners, Piecers and Winders
703 Warpers and Sizers
704 Drawers and Weavers
705 Pattern Card Preparers (excluding Printers)
706 Bleachers, Dyers and Finishers
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
709 Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.

71 Tailors, Cutters, Furriers and Related Workers:—
- 710 Tailors, Dress Makers and Garment Makers
- 711 Hat and Head-gear Makers
- 712 Furriers
- 713 Upholsterers and Related Workers
- 714 Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
- 715 Sewers, Embrioderers and Darners, Textile and Fur Products
- 719 Tailors, Cutters, Furriers and Related Workers, n.e.c.

72 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers:—
- 720 Shoe Makes and Shoes Repairers
- 721 Cutters, Lasters, Sewers, Footwear and Related Workers
- 722 Harness and Saddle Makers
- 729 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers, n.e.c.

73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers:—
- 730 Furnacemen, Metal
- 731 Annealers, Temperers and Related Heat Treaters
- 732 Rolling Mill Operators, Metal
- 733 Blacksmiths, Hammersmiths and Forgemen
- 734 Moulders and Coremakers
- 735 Metal Drawers and Extruders
- 739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers n.e.c.

74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers:—
- 740 Precision Instrument Makers, Watch and Clock Makers and Repairmen
- 741 Jewellers, Goldsmiths and Silversmiths
- 742 Jewellery Engravers

75 Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers:—
- 750 Fitter-Machinists, Tool-makers and Machine Tool Setters
- 751 Machine Tool Operators
- 752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
- 753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
- 754 Sheet Metal Workers
- 755 Plumbers and Pipe Fitters
- 756 Welders and Flame Cutters
- 757 Metal Plate and Structural Metal Workers
- 758 Electro-Platers, Dip-Platers and Related Workers
- 759 Tool-Makers, Machinists, Plumbers, Welders, Platers and Delated Workers, n.e.c. (including Metal-engravers other than printing)

76 Electricians and Related Electrical and Electronics Workers:—
- 760 Electricians, Electrical Repairmen and Related Electrical Workers
- 761 Electrical and Electronics Fitters
- 762 Mechanics-Repairmen, Radio and Television
- 763 Installers and Repairmen, Telephone and Telegraph
- 764 Linemen and Cable Jointers
- 769 Electricians and Related Electrical and Electronics Workers, n.e.c.

77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers:—
- 770 Carpenters, Joiners, Pattern Makers (Wood)
- 771 Shipwrights and Body Builders
- 772 Sawyers and Wood Working Machinists
- 773 Coach and Body Builders
- 774 Cart Builders and Wheel Wrights
- 775 Cabinet Makers
- 779 Carpenters, Joiners, Cabinet Makers, Coopers. and Related Workers, n.e.c.

78 Painters and Paper Hangers:—
- 780 Painters and Paper Hangers

79 Bricklayers, Plasterers and Construction Workers n.e.c.:—
- 790 Stone Cutters, Stone Carvers and Stone Dressers
- 791 Bricklayers, Plasterers, Masons
- 792 Glaziers

793 Cement Finishers and Terrazzo and Mosaic Workers
794 Hut Builders and Thatchers
795 Well Diggers
799 Bricklayers, Plasterers and Construction Workers, n.e.c.

80 Compositors, Printers, Engravers, Book-Binders and Related Workers:—
800 Type-setting Machine Operators
801 Compositors
802 Proof-Readers and Copy Holders
803 Printers (Paper)
804 Printers (Textile)
805 Photo-Litho Operators, Photo-lithographers
806 Engravers, Etchers & Block Makers (Printing)
807 Stereotypers
808 Book Binders
809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.

81 Potters, Kilnmen, Glass and Clay Formers and Related Workers:—
810 Furnacemen, Kilnmen and Ovenmen
811 Potters, and Related Clay Formers
812 Blowers and Benders, Glass
813 Moulders and Pressers, Glass
814 Grinders, Cutters, Decorators and Finishers
815 Pulverisors and Mixers, Cement, Clay and other Ceramics
819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.

82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers:—
820 Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers
821 Crushers and Pressers, Oil Seeds
822 Dairy Workers (Non-Farm)
823 Khandsari, Sugar and Gur Makers
824 Bakers, Confectioners, Candy and Sweetmeat Makers
825 Makers of Aerated Water and Brewers
826 Food Canners, Preservers and Related Workers
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.

83 Chemical and Related Process Workers:—
830 Batch and Continuous Still Operators
831 Cookers, Roasters and other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calenderers Chemical and Related Processes
833 Paper Pulp Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n.e.c.

84 Tobacco Preparers and Products Makers:
840 Curers, Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n.e.c.

85 Craftsmen and Production Process Workers n.e.c.
850 Basketry Weavers and Related Workers
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastics Products Makers
853 Tanners, Fellmongers, Pelt Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
859 Craftsmen and Production Process Workers, n.e.c.

86 Testers, Packers, Sorters and Related Workers:—
860 Checkers, Testers, Sorters, Weighers and Counters
861 Packers, Labellers and Related Workers

87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers:—
870 Operators, Stationary Engines and Related Equipment

871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and Other Construction Machinery, n.e.c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine, and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.

89 Labourers, n.e.c.:—
890 Loaders and Unloaders
899 Labourers, n.e.c.

9 *Service, Sports and Recreation Workers.*

90 Fire Fighters, Policemen, Guards and Related Workers:—
900 Fire Fighters and Related Workers
901 Police Constables, Investigators and Related Workers
902 Customs Examiners, Patrollers and Related Workers
903 Watchmen and Chowkidars
909 Fire Fighters, Policemen, Guards, and Related Workers, n.e.c.

91 House Keepers, Cooks, Maids and Related Workers:—
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
911 Cooks, Cook-Bearers (Domestic and Institutional)
912 Butlers, Bearers, Waiters, Maids and other Servants (Domestic)
913 Ayas, Nurse-maids
919 House-Keepers, Cooks, Maids, and Related Workers, n.e.c.

92 Waiters, Bartenders and Related Workers
920 Waiters, Bartenders and Related Workers (Institutional)

93 Building Care-Takers, Cleaners and Related Workers:—
930 Building Care-Takers
931 Cleaners, Sweepers and Watermen

94 Barbers, Hairdressers, Beauticians and Related Workers:—
940 Barbers, Hairdressers, Beauticians and Related Workers

95 Launderers, Dry Cleaners and Pressers:—
950 Laundrymen, Washermen and Dhobies
951 Dry-cleaners and Pressers

96 Athletes Sportsmen and Related Workers:
960 Athletes, Sportsmen and Related Workers

97 Photographers and Related Camera Operators:—
970 Movie Camera Operators
979 Other Photographers

99 Service, Sports and Recreation Workers, n.e.c.:—
990 Embalmers and Undertakers
999 Service, Sport and Recreation Workers, n.e.c.

X *Workers not Classifiable by occupation*

X0 Workers without occupations:—
X00 Workers without occupations: Matriculates and above
X08 Workers without occupations: Literates
X09 Workers without occupations: Others

X8 Workers Reporting Occupation Unidentifiable or Unclassifiable:—
X80 Workers reporting occupations unidentifiable or unclassifiable

X9 Workers not Reporting Occupation:—
X90 Workers not Reporting occupation.

INTRODUCING THE DISTRICT

by

K. S. Bhatnagar

Deputy Superintendent of Census Operations, Madhya Pradesh

THE DISTRICT

About 190 miles almost straight north of Bhopal, the State Capital, in the north-western part of the State and sand-wiched by Jhansi district of Uttar Pradesh and Kotah district of Rajasthan, lies district Shivpuri. Shivpuri occupies an area of 3,934[1] sq. miles and represents nearly an average area-district of Madhya Pradesh, where the average area for a district is 3,982 sq. miles. Whereas in area the district constitutes 2.33% surface of the State but in matter of population it only contributes 1.10 % of the total. This diversity accounts for a comparative lesser density of population which is 142, as compared to 190 per sq. mile for the State. The area figure supplied by Surveyor General India gives the area as 3,986 sq. miles. The difference in area is mostly due to the different methods of computation.

The district is bounded on the west by Kotah district in Rajasthan, on the east by Jhansi district in Uttar Pradesh, on the south by Guna district and in the north by Datia, Gwalior and Morena districts and lies between 24°6′-25°6′ North latitude and 77°0′-78°4′ East longitude. The elevation of the district varies between 900′ to 1,700′ the highest point being 1,711′ in Baraikhera Forest Block. The district is mostly laid out over small hill tops covered with deciduous forests wherein the slope is gentle with verdant vegetation and good forests round about, the landscape is generally very pleasing.

History

The Name—Shivpuri

The name appears to be derived from God 'Shiva'. The old name was Sipri. Even to-day in Jhansi town the bazar on the Shivpuri-Jhansi road is known as Sipri bazar. The district headquarters are also located at Shivpuri which is 1,515′ above MSL and situated at 26° 25′ N and 77° 49′ E. The place is first mentioned during Mughal times in 1564 when Emperor Akbar stayed there for a brief while. During that period it was under the jurisdiction of Narwar Sarkar. Narwar 25° 39′ N 77° 56′ E (population 3,821) is a big village with a still bigger fort around it and a wealth of history behind it. During the times of Gwalior State the district was known as Narwar district although its headquarters were at Shivpuri. Shivpuri remained with the Kachhawaha Rajputs upto 1804 when Scindia captured it. It was taken by the English in 1817 but returned to Scindia next year and since then it has continued to remain with the Gwalior rulers. In 1835 a British Cantonment was established here but in 1857 the Gwalior Cantonment Force rebelled and this caused the English to flee. It was re-captured by the British and restored as a cantonment. In 1859, it is said that the great Indian leader, Tantya Tope was hanged near the present Collectorate. In 1906 the cantonment was abandoned. Shivpuri received great attention from Maharaja Madhao Rao Scindia who constructed a big palace and also developed the city. It was also known as the summer capital of Gwalior State where offices moved in summer months. In the erstwhile Madhya Bharat Shivpuri remained a district and continues as such with practically no change since 1951.

The Physical Features

Geologically the district falls into three divisions:-

(1) The Malwa Trap
(2) The Upper Vindhyas
(3) The Bundelkhand Trap

(1) The Bundelkhand Trap covers the eastern half of the district and covers approximately 1,539

[1] The area figure is as per latest figures (1962-63) supplied by Director, Land Records. Calculations for density of population are based on these.

miles. It is mostly pre-Dharwarian granites consisting of sparsely cultivated uplands and shallow valleys.

(2) The Upper Vindhyas occupy the western half of the district and sandstones of Kaimur, Rewa and Bhander are commonly found in this region. The dips are very shallow and suggest that there has been very little disturbance since Vindhyan period.

(3) The Deccan Trap covers about 426 sq. miles towards the southern parts of the district viz. towards Bhadarwas, Barokra. It mostly covers undulating plains and flat topped ranges of the hills. Laterite and alluminium are also found and cover 374.80 sq. miles.

The Forests

The soil is shallow and this is responsible for supporting poor type of forest in the district. The forest is situated between 24° 15′ and 25° 55′N, 77° 15′ and 98°30′ E on the Vindhyan plateau. The elevation varies from 850′ to 1,711′ above sea level. The forest is bounded on the north by forests of Gwalior, on the east by Jhansi Forest Division, on the south by Guna forests and on the west by Kotah forests. The forests are located on the comparatively low hills of the Vindhyan ranges which are generally flat and called *pathars* where the slopes generally are gentle but there are areas of steep slopes too.

Shivpuri district forms the boundary of the Vindhyan series. There are four principal ranges capped by massive beds of sandstones which taken in order from east to west, belong respectively to Kaimur, Lower Rewa, Upper Rewa, and Lower Bhander Division. Throughout the ranges, the dips are very low and the sandstone outcrops are of enormous width.

The soil conditions are by the nature of circumstances, manifestations of the structure and distribution of the main rock formation. On the *pathars* and steep slopes, the depth of the soil varies from 4″ to 30″. In texture most of the soils contain an appreciable proportion of incompletely weathered pebbles and boulders. Generally in Vindhyan hills the soil is shallow, sandy loam with poor vegetation while the laterite zone is covered by red soil with stony concretions. The Bundelkhand gneiss is covered with well covered drained sandy loam. Deccan Trap mostly yields black cotton soil which is very good for cultivation.

No regular surveying and mapping has been carried out since the initial demarcation and as such correct areas of the forest blocks are not available on account of want of proper demarcation and survey of the blocks. The boundary lines and fire lines marked on the blocks do not coincide with those actually present on the ground. During the last few years the forests of former Khaniadhana, Datia and Orchha States were transferred to Madhya Bharat from Vindhyan forests.

Forest Types:

Chiefly the forests of Shivpuri division are of 'Tropical thorn type' merging into Central Indian mixed deciduous dry type. This type may be further sub-divided into the following sub-type.

1	Kardhai Forests	*Anogeissus pendula*
2	Dhow ,,	*Anogeissus latifolia*
3	Khair ,,	*Acacia catechu*
4	Salai ,,	*Boswellia serrata*
5	Teak ,,	*Tectona grandis*
6	Open Scrub ,,	
7	Grass lands ,,	
8	Miscellaneous	

Kardhai Forests *(Anogeissus pendula):-* This sub-type is commonly met with in localities where the soil moisture is not very low and drainage is good. Steep and moderately gentle slopes where sandstone or granite boulders are half exposed are mostly covered with this sub-type. Kardhai forests are met with prominently in the forest blocks of Karera, Mahmud, Sahi, Chironji, Mamoni, Satkiwai, Satanwada, Raipur, Khari, Narwar, Panihari, Akoda, Piproda, Hirapur, Golakot, and Lakhari. The general proportion of the area of reserved forests of this division in which Kardhai occurs, as pure crop is about 10-15%. The average height of the Kardhai in mature state is about 15′ - 20′ and girth 18″ to 20″. This sub-type is showing great deterioration

and degeneration owing to heavy damage by grazing fire and illicit fellings.

Dhow Forests *(Anogeissus latifolia)*:- It is generally met with in the localities where soil has good moisture and is well drained, prominent places being in forests blocks of Chichora, Khari, Jhanpri, Dongri and Chorepura, The average height is about 20′ to 25′ ond girth 18″ to 22″.

Khair Forests *(Acacia catechu)*:- Pure Khair forests cover approximately 15 to 20% of the total forest area in this division and like Kardhai in Sheopur, Khair is the principal species of Shivpuri forests. Pure Khair is of stunted growth with maximum height of 15′ average being 10′ to 15′ with a girth of 10″ to 14″. Some of the best Khair patches are found in alluvial soils where it has attained a height of 25′.

Salai Forests *(Boswellia serrata)*:- Higher steep slopes of the hills and their tops where soil is shallow are invariably covered by salai forests which mostly occur either as pure crop or in mixture to some extent. This type is usually met with in almost all the blocks, the common places being Ghassari, Khajuri. Surwaya. Chironji, Raipur, Chorepura, Khari, Shergarh, Lakheri, Kainwaha, and Akoda.

Teak Forests *(Tectona grandis)*:-In Shivpuri division mostly teak is only found in parts of Mohar and Betwa blocks and is almost pure. However patches of teak can be seen at Kuwat, Mamoni, Raipur and in Shergarh block near Narwar. In these places natural regeneration is found quite sufficient in seedling and sapling stages but its establishment becomes rather difficult due to various adverse factors.

Open Scrub Forests:- The sub-type is commonly met with in localities where the land is unproductive due to the half exposed sandstone rocks and low moisture content. The crowns of the trees are extremely poor and they look very miserable, the height being 8′ to 10′ and girth about 10″. About 30 to 35% of forest area is under this type of this division. The common species are *palas* or *chhola (Butea monosperma), Khair (Acacia catechu), Tendu (Diospyros melanoxylon), Ber (Zizyphus jujuba)* etc.

Grass Lands:- The areas reserved for the growth of fodder grasses are typical and will have to be classed as separate sub-type. It also contains scrub-growth. The grass lands have been divided into two classes: the Military grass reserve and the Public grass reserve. The common grasses are the *Guner (Themeda quaelrwalvis), Sahi (Sehinia nervosum), Michai (Iseilema laxum), Porwa (Heleropogon contortus)* etc.

Miscellaneous Forests:- In order to get a correct picture of forests belonging to this type it is further divided into dry miscellaneous and moist miscellaneous on local basis. Dry miscellaneous is commonly met with throughout the division, and more commonly in forest blocks of Surwaya Chironji, Ghasari Khajuri, Satkuwari, Khari, Narsinghpur, Budhana, Golakot, Lakhari Kainwaha, Hirapur, Barakhera, Siwan, and Piproda. The Moist Miscellaneous Forest type is generally found in the rich soil moisture conditions which obviously are in *khos*-caves and along water courses. This sub-type commonly occurs in *Khos*, of the forest blocks, Mamoni, Satanwada, Satkunwari, Raipur, Khasi, Akoda, Budhana, and Betwa blocks.

Lines of Export:

The Central Railway narrow-gauge 2′ touches the division at Mohana, Bhangarh, Chorepura, Satanwada and Shivpuri. Forest produce is exported from all over to these stations and thence to Gwalior. There is a net work of P. W. D. roads connecting all the important places like Jhansi, Gwalior, Guna and all the important places of the district.

Method of Exploitation and their Cost:

Timber, fuel, bamboos and grass are cut and extracted by purchasers either by contract or by royalty passes. Coupes to be sold are marked and auctioned annually and the contractors after their term surrender them. Contracts for collections of

grass for military depots are given by the Army authorities. Dry fuel is permitted to be extracted from the whole division except from coupes under working on royalty passes. Felling is done by axe alone. Fire wood and timber are stocked in the coupes. Burning of charcoal is done in the coupes itself. Very often in the deep valleys camels are employed for extraction of charcoal.

The Flora

The commonest species of trees found are:-

Local Name	Botanical Name
Khair	*Acacia catechu*
Kardhai	*Anogeissus pendula*
Dhow	*Anogeissus latifolia*
Salai	*Boswellia serrata*
Tendu	*Diosypyros melanoxylon*
Palas	*Butea monosperma*
Mahua	*Madhuca latifolia*
Karch, karey	*Sterculia urens*
Saja	*Lagerstroemia parviflora*
Koha	*Terminalia arjuna*
Jamun	*Engenia jambolana*
Saj	*Terminalia tomentosa*
Dhaman	*Girewia elastica*
Kaim	*Mitragyna parviflora*
Semal	*Salmalia malabaricum*
Tinach	*Ougenia dalbergioides*
Amaltas	*Cassia fistula*

The normal height of a tree is about 15′ to 20′ and the girth is 16″ to 20″. It has been reported that there is no tendency of the trees increasing or decreasing in height.

The Fauna

Once the forests were thick and a good number of animals were met with. Gradually due to indiscriminate shooting and cutting of forests, wild life has steadily been declining. The district has a Natural Park where, if one is lucky, a good number of animals can be seen, watched and admired. The following mammals are still seen:-

Nahar tiger *(Felis tigris)*, *tenduva*-panther *(Felis pardus)*, *ladaya* jackal *(Cumins aurens)*, *lakkad baggha*, hyena, *(hyaena striata)*, *bhalu*, sloth bear *(Melxerus ursinus)*, *sambhar (Carvas unicolor)*, *suar*, wild boar *(Sus crislatus)*, *lomdi*-fox *(Vulpes bengaleneis)*, *chinkara* (*Gazelle benetti*), *kala hirau*-black buck (*Antilope cervicapra*) and *langur*-black faced monkeys (*Semui pethecus entellus*).

Among the more common birds the following are met with:- the common *myna* (*Acridotheris tristis*), *shikra* hawk (*Astur badius*),the common crow (*Corvus splendis*), the common grey house crow and all black crows (*Corvus macrohynchus*), the *hariyal* green pigeon (*Crocopus chlorgaster*), the grey jungle fowl (*Gallus sonnerati*), the *mor* peacock (*Pavocristatus*), jungle bush quail (*Pordicula asia*tua) and bustard quail (*Turniz pugnax*).

The following insects and reptiles are found:-centipedes.crabs, scorpions, spiders. white-ants, bugs,cockroaches. dragon flies and the common house flies. Snakes of all description both poisonous and non-poisonous are found. The more common among them are cobra, Russel's viper (both deadly), dhaman (nonpoisonous); pythons the Indian rock snakes though not very common are still found. The common lizards are found in abundance.

In the rivers crocodiles and turtles are met with. The following varieties of fishes are found in the rivers and tanks;-moi or chital (*Notopterus chitala* (*Ham*), patola (*Notopterus notopterus* (*Pauas*), Jhalar (*Barilius barila*(*ham*), narain (*Corrhixna mrigala*(*Ham*), rohu (*Labeo rohita* (*Ham*), kalmokhi (*Lepidocephalicht hysguntea*(*Ham*), magwa (*Clorias batrachus* (*Linn*), Sanwal (*Channa striatus* (*Bi*), badis (*Badis* (*Ham*), and bam (*Mastacembelus armatus* (*Ham*).

Climate and Rainfall:

Shivpuri has a dry and cool climate. There is only one meteorological station *viz.* Shivpuri opened in 1961. The hot weather commences from about the middle of April and reaches the zenith by the middle of may. Hot winds (*loo*) blow in May-June but nights are comparatively comfortable. The temperature in June touches 42°C, and the highest temperature recorded is 42.5° By the end or June or early July the rains break and the weather becomes cool, though humid. The district receives its

rain from the Arabian Sea. The rains are over by the end of September and Shivpuri receives about 35" of rain. During the present decade the maximum and minimum rainfalls were 1216.4 mm. and 661.1 mm. respectively in 1956 and in 1953. The number of rainy days averaged 46.4 and there were 63 rainy days in 1956, The winter commences from November and December-January are the coolest months. The temperature falls as low as 40° F in winter but soars upto 112° F in summer. The mean annual temperature of Shivpuri is 74° F. During the cold weather sometimes there are hail storms followed by rains and then the weather becomes cool. During the winter Shivpuri often remains coldest place in the State.

Rivers and Drainage.

The main rivers are:- (1) The Parwati, (2) The Sindh, (3) The Kuno and (4) The Betwa.

(1) The Parwati:- The Parwati is tributary of river Sindh whom it joins near Pawaya in Gwalior district it flows east and has been dammed at Harsi in Gwalior district. It is perennial but not navigable.

(2) The Sindh:- It enters from Guna district and flows north for a while then towards east forming the boundary between Gwalior and Datia districts and finally flows through Bhind to join the Chambal.

(3) The Kuno:-The river is a tributary of the Chambal,flows north from Shivpuri district to Morena and joins the Chambal. It is perennial but not navigable.

(4) The Betwa:- The Betwa or Vetravati rises in Raisen district and flows through Raisen, Vidisha, Guna, Shivpuri and Jhansi districts. Mata Tila Dam is across this river and a few villages from Shivpuri district are submerged under it. The benefits of irrigation will however go to the Jhansi, Datia and Gwalior districts.

II

The Administrative Set up

The Representation of the District in Parliament and State Legislature

For the Parliament the district along with three legislative constituencies returned one member in 1962 General Elections. The following legislative constituencies constitute the Parliamentary Constituency.

A- Parliamentary Constituency

Serial Number and name of Constituency	Extent in terms of Assembly Constituency
3 Shivpuri	1 Sheopur, 2 Bijeygarh, 3 Sabalgarh 33 Karera, 23 Pichhore, 24 Shivpuri, 25 Pohri, 26 Kolaras.

Constituencies (1), (2) and (3) are from Morena district.

For the State Legislature the district returned five legislators including one on the Scheduled Caste seat. The details are:-

B- Assembly Constituency

Serial Number and name of constituency	Extent of constituency
	SHIVPURI DISTRICT
22 Karera	Karera tahsil (excluding patwari circles Nos. 12 to 14 and 22 to 30.)
23 Pichhore	Pichhore tahsil (excluding patwari circles Nos. 1 to 18)
24 Shivpuri	Shivpuri tahsil (excluding patwari circles Nos. 4,11,12,16 to 39,49 to 51 and 53 to 55), patwari circles Nos. 12 to 14 and 22 to 30 in Karera tahsil, and patwari circles Nos. 1 to 18 in Pichhore tahsil
25 Pohri (SC)	Pohri tahsil and patwari circles Nos. 4,11,12,16, to 39,49 to 51, and 53 to 55 in Shivpuri tahsil
26 Kolaras	Kolaras tahsil

The Revenue Administration

The Collector is the Chief Revenue Authority in the district, in which capacity he is responsible for maintaining the land and other revenue records and also collects the revenues on behalf of the government. He is also the District Magistrate, in which capacity he is responsible for the maintenance of law and order. Besides this, he is the chief representative of the government and exercises supervisory control over other departments. He is also the ex-officio Chairman of the District Advisory

Committee in which capacity he draws up, co-ordinates and in many cases executes the development works in his charge. Besides these, many miscellaneous duties are also entrusted to him. In Shivpuri the Collector is assisted by four Deputy Collectors who are members of the State Civil Service. Two of these officers are Sub Divisional Officers and Magistrates. In the magisterial capacity they assist the Collector in maintaining law and order and hear cases under the Preventive Chapters of the Criminal Procedure Code. All the Sub-Divisional Officers SDOs and Deputy Collectors stay at Shivpuri and the SDOs exercise powers of an Assistant Collector, Class I, with respect to their sub divisions which consists of two or more tahsils. The district has five tahsils viz. (1) Shivpuri, (2) Pohari, (3) Kolaras, (4) Karera and (5) Pichhore, and each tahsil is under the charge of a Tahsildar assisted by one or more deputies called Naib Tahsildars. A tahsil is further divided into Revenue Inspector's (R. I.) circles and patwari halkas. The details of the district are:-

Statement showing units of Revenue and Police Administration in Shivpuri district

No. of villages	No. of towns	No. of tahsils	No. of Revenue Inspector's Circles	No. of patwari Halkas	No. of Police Stations
1,486	3	5	17	394	15 4 out posts

One of the peculiar problems of the district is the dacoity, which has been discussed later.

At the village level a headman called patel looks after the government interests and also collects land revenue for which he receives remuneration at a graduated scale given below:-

Table

Land Revenue & Miscellaneous Revenue collected		Rates
1 On the first Rs.	1,500	6 P in the rupee
2 On the second Rs.	1,500	4 P ,,
3 On the third Rs.	1,500	2 P ,,
4 On the fourth Rs.	1,500	2 P ,,
5 For the balance exceeding	6,000	1 P ,,

Provided that the annual remuneration of any patel in respect of any village shall not be less than Rs. 36,00. The remuneration is paid from the treasury once in each year.

Powers to cellect land revenue have also been delegated to a few panchayats in the district. They are paid commission at the same rates.

The Police Department

The Superintendent Police (SP) is directly responsible for the police administration of the district. He is an officer of the Indian Police Service (IPS) and is assisted by one Deputy Superintendent, an officer of the State Police Service. The district has 15 police stations and 4 outposts. Being a dacoit infested area Special Armed Force (SAF) has also been deployed to curb the dacoity. The deposition of SAF depends on the anti-dacoity operations.

The Dacoity Problem

For quite sometime in the past the district has suffered at the hands of dacoits. The thick forest in the region serves as an ideal hiding place for them and nearness of Rajasthan borders takes away the pressure from a pursuit. The gangs are fairly well armed some of them with modern weapons and operate in the northern region of the State moving particularly through Gwalior, Bhind,Morena Shivpuri and Datia districts. In many cases personal vendetta, sex and land disputes lead to the formation of gangs, who ruthlessly kidnap, rampage, loot and finally murder their victims with brutal callousness almost taking fiendish delight in the killings.

Some crime figures are given below to indicate the problem of dacoity.

District Shivpuri

Year	Dacoity	Robbery	Theft	Kidnapping
1951	17	12	N.A.	N.A.
1952	33	19	125	15
1953	32	20	422	3
1954	10	6	116	14
1955	11	3	114	N.A.
1956	12	9	120	1
1957	15	N.A.	N.A.	N.A.
1958	18	31	178	18
1959	16	28	205	16
1960	24	30	249	11
1961	28	38	277	76

The operational areas of the gangs include part of Shivpuri district, such as Pohri, Karera, Kolaras and Shivpuri tahsils. In the past few years starting from Man Singh of Bah tahsil in Agra district as many as thirty-five gangs have been eliminated by the Madhya Pradesh Police and one of the most notorious and crafty dacoit of recent time hailed from Pohri tahsil of the district. He was Amrit Lal who carried a reward of Rs. 25,000/- and was eliminated by one of his gang mates in 1959. In 1953 he looted the police station at Kolaras in an unsuccessful attempt on the life of the then Superintendent Police. Jahar Singh was another notorious dacoit who hailed from the district and was eliminated by the police in 1955. Yet another dacoit leader was Devi Lal Shikari who was eliminated in 1964. All these hailed from Shivpuri and operated in the adjoining areas.

More recently the dacoits seem to show a marked preference for kidnapping for ransom. This assures them of enough money for the gang and also makes fewer enemies. In the last three years of the decade the crime statistics show an upward trend. This is due to the spasmodic activity of various gangs and in particular of Devi Lal Shikari and Amritlal's son, Bala who also turned out to be a dacoit. In the last six years there have been some very notable achievements by the police, but the problem seems to have taken deep roots and at present the solution does not appear within an easy reach, for much still remains to be done.

The Judiciary

There has been a complete separation of Judiciary from the Executive since the State times. Shivpuri falls under the Civil and Sessions district of Gwalior. An Additional District and Sessions Judge is however posted here along with an Additional District Magistrate (ADM) Judicial who is a Class I Magistrate and Civil Judge. The office of a Civil Judge Class II and Magistrate Class I has been combined and they are posted at tahsil headquarters.

Public Health.

There is a district hospital with 119 beds under a Civil Surgeon and besides this there are five Primary Health Centres in the district. Health programmes like Malaria Control, Family Planning are being carried out in the district. The National Malaria Eradication Programme has covered the entire district. It was first started in 1954 and its success has been fair.

Growth of Medical Facilities

In 1951 there were only 38 beds in the hospitals and another 6 in the Primary Health Centres. This has been expanded to 110 and 30 beds respectively. During the decade five Primary Health Centres have been established, a Leprosy Clinic has also come up and as many as five Family Planning Clinics have been set up. Although the family planning programme has not received the expected response, but there has been a rise in the number of cantraceptives issued. The general health of the district remained good. There were no epidemics during the decade. The figures of deaths in district however indicate that dysentry and fevers continued to take toll of lives, while all this progress was being made, it is somewhat surprising that the number of medical practitioners (allopathic) remained the same although Ayurvedic practitioners increased from 13 to 23 during the decade.

The National Extension Service (NES)
Coverage and NES Blocks

The entire district has been covered by NES Blocks. There are eight blocks in the district viz. (1) Shivpuri, (2) Kolaras (3) Bhadarwas, (4) Narwar, (5) Pohri, (6) Karera, (7) Khaniyadhana, (8) Pichhore. The first block at Shivpuri was founded on 2-10-54 and by 1962 the entire district has been covered. The details are given in the following table :-

Table[2]—Showing Particulars of Development Blocks in the district

S. No.	Name of Block with tahsil (in bracket)	No. of villages	Area in sq. miles	Date of establishment	Remarks
1	Shivpuri (Shivpuri)	228	755	2-10-54	Started as NES converted to CD on 1-4-56 and reverted to stage II on 2-4-59
2	Kolaras (Kolaras)	368	194	2-10-55	Reverted to Stage II on 30-9-63
3	Badarwas (Kolaras)	146		2-10-57	Stage I extended upto 30-9-63
4	Pohri (Pohri)	255	612	1-4-60	Stage I since 1-4-61
5	Narwar (Karera)	157	382	2-10-58	Converted to Stage I 2-10-59
6	Karera (Karera)	139	308	1-4-59	Stage I
7	Khaniyadhana (Pichhore)	173	494	2-10-61	Stage I
8	Pichhore (Pichhore)	144	421	2-10-62	Stage I

Local Bodies (Urban)

There are three municipalities in the district *viz.* (a) Shivpuri, (b) Karera, (c) Kolaras, the oldest being Shivpuri which in 1960-61 had an income of Rs. 2,86,983 thus giving a tax incidence of Rs. 10.00 per head. Under the Madhya Bharat Municipalities Act. 1954 it continued as Class I Municipality but under Madhya Preadesh Municipalities Act, 1961 it has been relegated to a Class II Municipality[3].

The Municipality was first established in 1904 and became a Class I municipality in 1912 under Gwalior State. In 1904 eleven members were nominated to it and the Suba (Collector) was its Ex-officio Chairman. In 1946 for the first time the system of non-official Chairman was elected. Under the present set up there are 18 elected and four nominated members. Upto 1913-14 the municipality provided street lamps on the roads. Till 1947 electric street lights were provided upto 11p.m.in the night and thereafter electric street lights have been provided for the whole night. The Municipality also runs (1) Bal Vikas Kendra—Child Welfare Centre, (2) Nagarpalika Vyayamshala—Municipal Gymnasium, (3) Nagarpalika Vachanalaya and Pustakalaya—Municipal Library and Reading Room Drainage system was first introduced in 1941. The Municipality has 6 miles of ashphalted, one mile of cement concrete and over 7 miles of pucca roads.

The Municipality has also constructed three vegetable markets and contribute Rs. 100/- per month towards the running of an Ayurvedic *Aushadhalaya.*

Rural

In the erstwhile Madhya Bharat State a three tier Panchayat system was introduced. At the base was the gram-panchayat constituted for one or a group of villages. The voting for *panchas* was by a secret ballot. Over a group of *gram-panchayat*—generally coterminus with an NES Block, was constituted a Kendra Panchayat which supervised the working of *gram panchayats* and at the appex came *Mandal Panchayat.* In the progressive de-centralisation the *gram panchayats* are beginning to play an important part and as many as 92 *gram panchayats* have been entrusted with the powers to realise land revenue on behalf of the government. The *panchayats* are also playing an important roll in the development programmes of the district. The details of the *panchayats* in the district are as follows:—

2 CD Community Development
Source—Development Commissioner, Bhopal,

3 Class I Municipalities were those which had an income of Rs. 75,000 or above or had a population of 15,000 persons,

Table

Showing the Panchayats of the district.

Total	Gram Panchayat	Kendra Panchayat	Mandal Panchayat	Nyaya Panchayat
330	306	7	1	16

The Nyaya Panchayats

The *Nyaya Panchayats* are lawfully constituted judicial bodies and exercise limited civil and criminal powers of a court. To ensure speedier and cheaper justice in the village, they have been constituted. They try and dispose of petty civil and criminal cases.

The Progress in Education

There has been an all round development in the field of education as would also be obvious from the fact that literacy has advanced from 5.53% in 1951 to 11.57% in 1961 and though it is still much behind some other more advanced districts in the State, yet the progress is unmistakable. The inset table below gives the increase in number of students in the decade.

Table

Showing number of students and teachers

S.No.	Type of Institutions	Year	No. of Institutions	Student		Teachers	
				Boys	Girls	Males	Females
1	Primary or Junior Basic Schools	1951	289	9,509	420	433	21
		1961	537	18,006	1,335	791	47
2	Middle Schools	1951	22	3,452	300	170	8
		1961	29	8,102	1,039	260	35
3	Higher Secondary or Senior Basic Schools	1951	2	912	..	21	..
		1961	9	2,012	525	84	27

Apart from these one Training College and one Professional College (Physical Education), a Degree College also came up during the decade. Thus it may be said that the expansion has been kept up.

The Public works Department

The P. W. D. is under administrative and technical control of an Executive Engineer assisted by Assistant Engineers. There are 106 miles of National Highway and over 198 miles of State Highways and 98 miles of district roads to be looked after apart from the State buildings. (Also please see IV Communications).

The Irrigation Department

The Department is under the technical and administrative control of an Executive Engineer, Irrigation. There are no major irrigation projects in the district. The department looks after the tanks which provide irrigation facilities. The main tanks are:- (1) Baghora, (2) Dinara, (3) Jhaloni, (4) Kaketo, (5) Sevda, (6) Ghapora, (7) Nagda, (8) Gajora and (9) Imlia,

The other important offices located at Shivpuri are:-

(i) The Divisional Forest Officer, DFO
(ii) The Assistant Director of Industries.
(iii) The Assistant Registrar of Co-operatives.
(iv) The District Statistical Officer.
(v) The District Excise Officer.
(vi) The Forest Training School.
(xii) The Sales Tax Office.

The Divisional Forest Officer

Since forests are spread out in the district Divisional Forest Officer assisted by an Assistant Conservator is located here.

The Assistant Director of Industries

There are no major industries in the district. A Katha Mill is located at Mansa-pooram about 3 miles north of Shivpuri. The Department advances loans for starting of small industries.

The Assistant Registrar Co-operatives

The Co-operative movement is fairly old and existed in some form or the other. The decade saw the movement gain some momentum.

III

THE PEOPLE

The Growth of Population

In 1961 the district returned 557,954 persons showing an increase of 81,862 persons or 17.19% during intercensal decade. This increase of 17.19% is somewhat lower than the corresponding increase in neighbouring districts and State. The table below gives the growth of population for the period 1901-61.

Table

Showing variation in population during sixty years in the district, division and State

District	Year	Persons	Decade Variation (+Increase) (—Decrease)	Percentage decade variation	Gwalior division	State
Shivpuri	1901	381,016	..	..	..	..
	1911	427,147	+ 46,131	+ 12.11	— 0.48	+ 15.30
	1921	387,070	— 40,077	— 9.38	— 4.83	— 1.38
	1931	413,521	+ 26,451	+ 6.83	% 9.51	+ 11.39
	1941	458,967	+ 45,446	+ 10.99	+ 14.03	+ 12.34
	1951	476,092	+ 17,125	+ 3.73	+ 7.51	% 8.67
	1961	557,954	+ 81,862	+ 17.19	+ 22.12	+ 24.17
	1901-1961	..	+ 176,938	% 46.44	+ 55.27	% 92.00

The Decades

In 1911 the population increased by 12.11% though in Gwalior division there was a decrease by 0.48%. This was mainly due to a famine in 1904-05 followed by three successive lean years viz. 1907-08-09, in Bhind, Morena, Gwalior districts, then referred to as Bhind, Tonwarghar, Gird and Sheopur in the low-lying tract. This lead to migration of the population of some of these districts to plateau region (which includes the present Shivpuri district then known as Narwar).

The 1911-21 decade saw the severe influenza epidemic 1918-19, there was a total failure of *kharif* crops in northern districts and even the succeeding year 1919-21 was below average. No wonder the district lost in population.

Although in the succeeding decade 1921-31 the population showed an increase of 9.51% in Gwalior division, but Shivpuri returned an increase of 6.83% only. Commenting on this Ranglal, Census Commissioner for Gwalior wrote :-

" The recent census shows a net increase of 24,871 or 6.6% only a rather small rate for a healthy district." (The increase of 6.83% is for the re-adjusted district). He further writes:-

"The full extent of the loss by migration to foreign territory cannot be ascertained but judging from the number of the Gwalior born enumerated in the contiguous State of Kotah, Datia and Jhalawar it is almost certain that the district lost enormously to these States. The face of the country is wild and vast stretches of dense jungles make extensive cultivation impossible. The increase of population is greatest in Kolaras pargana (12.6%) where there is greatest proportion of land fit for cultivation".

The 6.83% rate of growth was undoubtedly slow, but the reasons given above appear fairly convincing.

During 1931-41 decade the growth of the district was fair, looking to the fact that it had all through a tendency to return a slightly lesser increase of population. In 1941-51 the increase had been to the tune of 3.73% only as against 7.51% for Gwalior division and 8.67% for the State. In this decade tahsil Pichhore returned an increase of 2.4% and Kolaras a decrease of 8.2%. There were

4 Census of India, 1231, Vol. XXII, Gwalior, Part I, Report, By Ranglal, Census Commissioner, P. 12.

out-breaks of cholera during the decade and mortality appeared high for the population of persons of age 55 and above was only 512 out of 10,000. In 1951 the growth appears only a little below the average of the division. During the present decade also the growth has been 17.19% which incidentally is the least in the division. In the sixty years 1901-61 the population has grown by 44.46% which is a little below the divisional average of 55.27 %. Thus the rate of growth in Shivpuri has been very slow.

The Tahsils, Towns, Villages and Houses

There are five tahsils viz. (1) Pohri, (2) Shivpuri, (3) Karera, (4) Kolaras, (5) Pichhore. Out of these Pohri and Pichhore are entirely rural. The tahsil headquarters of these are towns / villages of the same name. The details regarding the tahsils are:-

Name of Tahsil	Area in sq. miles	Ranking	Population	Density	Ranking
Pohri	607	5	73,771	122	4
Shivpuri	755	4	93,295	124	3
Karera	760	3	133,708	176	1
Kolaras	886	2	109,922	121	5
Pichhore	926	1	147,258	159	2
District	3,934	..	557,954	142	..

From the above it follows that in area Pichhore is the biggest tahsil but in density of population it is Karera followed by Pichhore.

The Composition of Tahsils

The district underwent major changes in 1951 when, as a sequel to the formation of Madhya Bharat, its jurisdiction was re-drawn. As a result of these changes, 27 villages of Khaniyadhana State were added to Pichhore tahsil and another 27 villages were transferred to Karera tahsil from Vindhya Pradesh. During the present decade there have been no changes in the number of villages although the number of populated villages have decreased. The table below gives the total number of villages:-

Number of villages

+ Increase
— Decrease

Tahsil	1951 Total	1951 Populated	1951 Depopulated	1961 Total	1961 Populated	1961 Depopulated	Variation in depopulated villages (+) (—)
Pohri	255	235	20	255	234	21	+ 1
Shivpuri	227	192	35	227	194	33	— 2
Karera	298	268	30	297	269	28	— 2
Kolaras	368	310	58	367	304	63	+ 5
Pichhore	340	311	29	340	307	33	+ 4
District	**1,488**	**1,316**	**172**	**1,486**	**1,308**	**178**	**+ 6**

The loss of two villages is made good by emergence of two towns—Karera and Kolaras, formerly villages.

There are 1,486 villages in the district and out of these 178 are uninhabited. This leaves 1,308 villages. There have been no change in the number of villages during the decade. The number of depopulated villages has however gone up by 6 during the decade. The position vis-a-vis 1951 is given in the table.

Table

Showing depopulated villages 1951-1961

District/Tahsil	No. of depopulated villages 1951	No. of depopulated villages 1961	+Increase —Decrease
Shivpuri Distt.	172	178	+ 6
Pohri Tahsil	20	21	+ 1
Shivpuri ,,	35	33	— 2
Kolaras ,,	58	63	+ 5
Karera ,,	30	28	— 2
Pichhore ,,	29	33	+ 4

During the decade six villages from tahsil Pichhore have been completely sub-merged under the Mata Tila Dam and another twelve villages have been acquired by the Defence Ministry.

The Towns

There are three towns viz. Shivpuri, Karera and Kolaras. Out of these the last two have been returned as towns for the first time. Shivpuri had been a town throughout. The details of above are:-

Towns	Area	Population	Density
Shivpuri	2. 8	20,681	10,354
Karera	0.32	5,025	15,703
Kolaras	0.08	5,176	64,700
Shivpuri District	3. 2	38,882	12,266

In the cases of Karera and Kolaras it is apparent that urban area figures are not very accurate and hence the density figure cannot be relied upon. The density figure for the district is also thus affected.

Population in the villages

The villages generally contain less than 500 persons. There are 75.16% of the total villages which have less than 500 persons and account for 41.46% of the total population. This category is followed by villages of population range: 500-999 of which type there are 17.05% and account for 29.48% of the population. Only 6.80% villages have a population between 1,000 to 1,999 and they account for 22.37% of the population. This is followed by villages of 2,000 to 4,999 population accounting for .99% of the number and 6.69% of the population. Thus the population in the villages is generally below 500 persons. The villages classified as per tahsil are given below:-

Table

Showing villages classified by population, 1961

		I-Villages with less than 2,000 population				II-Villages with population 2,000 and above			
District/Tahsil		Total No. of inhabited villages	Less than 200	200-499	500-999	1,000-1,999	2,000-4,999	5,000-9,999	Remarks
	Shivpuri District	1,308	489	494	223	89	13	..	
1	Pohri Tahsil	234	107	87	30	8	2	..	
2	Shivpuri ,,	194	82	77	25	10	..	..	
3	Karera ,,	269	73	104	63	25	4	..	
4	Kolaras ,,	304	132	120	34	14	4	..	
5	Pichhore ,,	307	95	106	71	32	3	..	

A village on an avarage has 404. 90 persons and is smaller than the divisional figure of 432.85 persons per village. Similar figure for the State is 394.03 persons per village. Thus in population the villages are essentially small. Figures for Bhind, Morena, Gwalior and Guna districts being 661, 555, 439,271 respectively.

The Area of Villages:.

The average area of a village in the district is 2.64 sq. miles or 1,689.60 acres, the comparable figure for Gwalior division being 2.31 sq. miles or 1,478.40 acres. Thus a village in Shivpuri is slightly bigger than those in the division. Comparable figures of Bhind, Morena, Gwalior, Guna and Datia being 1.80, 3.16, 2.39 and 1.73 respectively.

The Occupied Houses

The entire population, 557,954 persons lives in 108,766 occupied residential census houses or there are 5.13 persons per house. This compares with the adjoining districts in the following manner:-

Table

Showing persons per occupied Census Household

State/Division District	Persons per Occupied Census Houses			1951
	Total	Rural	Urban	
Madhya Pradesh	5.20	5.16	5.42	
Gwalior Division	5.77	5.63	6.56	
Morena District	5.82	5.89	5.14	
Gwalior ,,	6.86	6.01	8.03	
Datia ,,	5.26	5.22	5.49	
Shivpuri ,,	5.13	5.11	5.35	5.25
Guna ,,	5.24	5.23	5.31	

During the decade the variation in number of occupied houses has been as follows:-

No. of Occupied Houses		Decade variation	Percentage variation
1951	1961		
90,626	108,766	+18,140	+ 20.01

It appears from the above that congestion has to a very slight extent been reduced.

The Rural/Urban Population

Out of one thousand persons only 70 persons live in urban areas, the remaining in rural areas. There being only three towns, and these have returned a total population of 38,882 persons the concentration in rural areas is obvious.

From the preceding description it naturally follows that the district is almost entirely rural in its characteristics. This it fairly high and shows the highest concentration of population in rural areas in Gwalior division. The table gives the comparative figures for the neighbouring districts.

Table

Showing the proportion of Rural/Urban population to 1,000 total

State/Division District	Population	
	Rural	Urban
Madhya Pradesh	857	143
Gwalior District	507	493
Morena District	914	86
Datia District	853	147
Shivpuri District	930	70
Guna District	874	126
Kotah (Rajasthan)	811	189
Jhansi (Uttar Pradesh)	762	238

The Proportion of Sexes

In Madhya Pradesh there are 953 females per 1,000 males. Shivpuri however has returned 888 females which is much below the State figure but comparable to the adjoining districts which have returned as follows:- Morena(839),Gwalior(859),Datia (898), Guna (899), Kotah (997) and Jhansi(896). From 1951 when there were 908 females per 1,000 males there has been a decline in the number of females.

In urban areas of the district there are 867 females per thousand males although in Kolaras and Karera have 900 and 908 respectively. The figure falls to 854 in Shivpuri. It has been observed that there are more females in rural areas as compared to urban ones. Kolaras and Karera appearing as urban areas for the first time seem to retain at least this characteristic feature. The changes in proportion of sexes duriug the last sixty years have been as follows:-

Females per one thousand males

Year	1961	1951	1941	1931	1921	1911	1901
Total	888	908	903	899	892	912	NA
Rural	889	908	903	901	894	912	NA
Urban	867	919	907	866	862	919	975

We are not taking the 1901 urban figure into consideration for it represents only a very small proportion of the population *viz.* Shivpuri town (1901 population 10,628 out of 381,016 which was the district population). The fluctuation of proportion has been between 888 in 1961 and 912 in 1911. It is interesting to observe that the proportion of sexes in 1911 was nearly the same as in 1951 but during the present decade the proportion of females has fallen to 888, the lowest in the last sixty years. It therefore follows that the present decade has not been particularly encouraging for births of females. It is difficult to give any reason for it. The district however faithfully mirrors the characteristic feature of the northern region where males outnumber females considerably.

Vital Statistics

In 1953 the Madhya Bharat State Government promulgated the Madhya Bharat Births, Deaths, Marriages Registration Act 1953 basing it on a similar Act of 1886 of the Government of

India, making the registration of births and deaths compulsory, but it was never enforced. The position regarding the maintenance of vital statistics therefore has been far from satisfactory. During the decade, under the existing laws the municipalities and the panchayats were required to maintain statistics of births and deaths. Both these local bodies have not been able to keep any accurate statistics and the position remained practically the same as was described by Ranglal in 1955. In the report of Operations Connected with the Improvement of Population Data M. B. 1952, he wrote[5]:-

"The arrangements for the registration of births and deaths are unsatisfactory even in large municipal towns. The Director's Report as to the agency responsible for the reporting of the deaths in urban area is silent. All that is known is that generally the responsibility has been laid either on members of the family of the deceased or on sweepers or on both".

Whereas the position was bad enough in the Municipalities, it was much worse in the case of *Panchayats*, *Kendra Panchayats* were made responsible to arrange for the registration of births, deaths and marriages in their jurisdiction provided it could find funds for the purpose. The *Gram Panchayats* were supposed to record births and deaths and send the figures monthly to the *Mandal Panchayats* through the *Kendra Panchayats* which submitted returns to the Deputy Director of Health Services. The municipalities also send these returns to the Deputy Director concerned who after consolidation sent it to the Director, Health Services. The *Panchayats* obviously failed to grasp the importance of this duty and no regular records were maintained and the result was that no statistics worth the name were ever compiled.

The births and deaths statistics of the Corporations are generally those that are made available to them by the Government or municipal hospitals and such others as may have been collected by their Health Department. The coverage is by no means full as many births and deaths are never reported. There being no supervising agency, it is impossible to verify the accuracy. In 1952 when an experimental Census of births and deaths was conducted in Madhya Bharat the results were as follows:-

1	Period covered by Census	30-10-51 to 18-10-52
2	Period for which figures were supplied by the Health Department	1-11-51 to 31-10-52

Births and Deaths rates per 1,000 of population calculated on basis of:-

	Result of experimental Census		Figures supplied by Health Department	
	Births	Deaths	Births	Deaths
State of M.B.	33.0	18.8	10.4	6.5
Plateau which includes Shivpuri Distt.	34.7	22.0	12.0	8.1

The absence of accurate statistics causes great difficulty in estimating the annual rate of natural increase. No wonder it was then estimated at between 1.4 to 1.6 percent annually.

Literacy

Shivpuri has returned 116 persons out of 1,000 as literates. This is well below the State figures of 171 persons and is the lowest for Gwalior division. There are only 32 females per thousand who are literate. Comparing with other districts Gwalior with 279 persons returns the highest number of literates.

Table—*Showing Literates*

State/Distt.	No. of persons to 1000 persons	No. of persons to 1000 males	No. of persons to 1000 females
Madhya Pradesh	171	270	67
Morena	149	237	44
Gwalior	279	390	149
Datia	149	244	43
Shivpuri	116	190	32
Guna	138	220	47
Jhansi	200	305	83
Kotah (Rajasthan)	118	190	39

5 Census of India, Paper No. 2-1955, Sample Census of Births & Deaths 1952-53.

Much of this is due to the Scheduled Castes and Tribes population among whom literacy is only 4.25 and 0.77 respectively.

There has been some progress in the figures for literates. (Please also see progress in Education). Amongst women however the figures are very low.

Religion

Shivpuri has returned predominantly Hindu religion. In 1951 six religions were returned and during the decade the position remained same.

The table below gives the figures for 1951 and 1961 for different religions including increase and decrease.

Table—*Religionwise population, 1951-1961*

Religion	1951			1961			Increase Decrease (+) (—)	Percentage (+) (—)
	Persons	Males	Females	Persons	Males	Females		
Hindu	462,485	242,458	226,624	540,457	286,215	254,242	+ 77,972	+ 16 86
Jain	4,013	2,100	1,913	5,001	2,603	2,398	+ 988	+ 24.62
Muslim	9,397	4,808	4,589	11,564	6,092	5,472	+ 2,167	+ 23 06
Sikh	180	93	87	892	605	287	+ 712	+ 395.55
Christian	16	8	8	35	24	11	+ 19	+ 118.75
Buddhist	.	..	..	5	4	1	+ 5	+ 500.00
Zoroastrian	1	1	..	..	..	..	.. 1	— 100 00
Jew	..	..	..	..	..	..	.. ..	..
All Religions	476,092	249,468	226,624	557,954	295,543	262,411	+ 81,862	+ 17.20

Jains and Muslims have shown an increase of 24.62 and 23.06% respectively. A few Sikhs who have come to the district are mostly engaged in forestry and transport.

The inset table below gives the religious composition in 1951 and 1961

Table—*Showing 100 persons classified by religion (1951-1961)*

Distt.	Year	Total	Hindus	Muslims	Jains	others.
Shivpuri	1951	100	97.15	1.98	0.85	.02
	1961	100	96.87	2.08	0.90	.15
	Variation.	..	—.28	+ .10	+ .05	

From the above it would be seen that the percentage composition of Hindu population has slightly decreased and there is slight increase among the muslims. As for the rest it remains more or less the same.

The inset table below gives the number of females returned per thousand males for major religions in the district.

Table—*Showing females per thousand males religionwise*

District	Hindus	muslims	Jains
Shivpuri	888	898	921

Mother Tongue

The district has returned 37 languages as mother tongue as against 13 languages and 3 sub-languages under western Hindi, and 5 under Rajasthani, returned in 1951. Out of these 37 languages only seven languages have returned over 100 speakers. They are Hindi 547,326, Urdu 6,806, Punjabi 1,389, Marathi 934, Marwari 588, Gurumukhi 472 and Sindhi 138 speakers. The comparative figures of 1951 are given below:-

Language	Number of speakers	
	1951	1961
Hindi	547,326 ←	→ 473,173
Urdu	1,510	6,806
Punjabi	618	1,389
Marathi	506	934
Marwari (grouped under Rajasthani)	141	588
Gurumukhi	..	472
Sindhi	26	138

The rise in the number of Urdu speakers is phenomenal. There are no visible reasons. The enumerators took down the language returns, as

given by the persons. There has also a significant rise in the number of Punjabi speakers. This is partly due to increase in number of Sikhs and other Punjabis who have, in the last decade settled in the district.

The Scheduled Castes and Tribes

The Scheduled Castes and Tribes were enumerated in accordance with the Scheduled Castes and Scheduled Tribes list (Modification) Order, 1956. This renders comparability in the case of Scheduled Castes difficult, because there have been some changes in the Scheduled Castes. The district has returned 97,588 persons or 16.89% of the population as Scheduled Castes. The castes with a population of 1,000 persons or above are Chamar or Jatav 71,171,Koli or Kori 10,558, Barhar or Basor 5,203, Bhangi or Mehtar 3,732; Chidar 2,393 and Khatik 1,775.

The Scheduled Castes are mostly spread out in rural areas. The break up being:-

Total	Rural	Urban
97,588	92,136	5,452

The Chamars

The Chamars, Bairwa, Bhambi, Jatav, Mochi or Regar are synonyms of the same caste and represent the traditional workers in leather and hides. Now they work mostly as cultivators, agricultural labourers, workers in leather and only 502 persons all in rural areas carry on the tanning and currying of hides and skins. There has been a radical change in their occupation.

Koli or Kori

The Kolis or Koris are the old weaver caste. About 585 of them are still engaged in the household industry. As for the rest cultivation and work as agricultural labourer is the main occupation.

Barhar or Basor

These are mostly the workers in bamboos or makers of baskets and 883 persons are engaged in working straw and bamboo products.

Bhangi or Mehtar

This is the traditional sweeper caste and out of 3,732 persons 976 or a little over 26.1% are still engaged in scavenging and another 1,215 are engaged in other services.

The Khatik

The Khatik is the butcher or hunter, vegetable seller and general labour class found all over. They mostly are engaged in cultivation 175 persons, trade and commerce 272 and as agricultural labourer 57.

The Scheduled Tribes

The number of Tribes reported as Scheduled has remained the same (54,649) viz. (i) Gond (2), (ii) Saheriya (54,060), (iii) Korkus (nil), others unclassifiable (587). Excepting 216 Saheriyas living in urban area, the rest are all living in rural areas. The population return is:-

Scheduled Tribes 1951-61.

Year	Persons	Males	Females
1951	41,834	22,407	19,403
1961	54,649	28,243	26,406

There has been an increase of 12,815 or 30.63% during the decade. Saheriyas are the main tribe in the district and are spread over in Pichhore, Shivpuri and Kolaras tahsils. The tahsilwise population of Scheduled Tribe is as follows:-

Name of Tahsil	Persons	Males	Females
Pohri	11,514	5,820	5,694
Shivpuri	11,200	5,743	5,457
Karera	3,927	1,987	1,940
Pichhore	15,396	8,181	7,215
Kolaras	12,612	6,512	6,100

In Karera tahsil their number is not so great.

Educationally the Scheduled Tribes are much behind. They have returned only 0.09% literates. Among them 31,127 persons 17,070 males and 14,057 females have been returned as workers which gives them greater number of workers per thousand than the district figure of 524 workers. They are mostly engagad in cultivation 16,265 persons-9,332 males and 6,933 females or 52.24% of the workers; as agricultural labourer 7,722 persons-3,606 males and 3,606females or 35.48% of workers and 2,439 persons

1,344 males and 1,095 females in Mining, Quarrying Forestry etc. thus constituting 7.83% of the workers. These categories account for 10.18% of total workers.

The Saheriyas

The Saheriya is the main tribe returned in the district. They are essentially a forest dwelling tribe who are taking to cultivation and as workers as agricultural labourers. They are mostly found in Morena, Gwalior, Shivpuri, Guna, Vidisha, Sehore and Raisen districts

The Working Force

Workers and Non-Workers

Workers:- For a population of 1,000 persons Shivpuri has returned 524 workers which is nearest to the State average of 523. Excepting Mandsaur which returned 525 workers per thousand population, no other district comes so near the State average. When compared to the adjoining districts the position is:—

District/Division/ State	Workers per 1,000 population		
	Persons	Males	Females
M. P. State	523	602	440
Gwalior Division	437	589	262
Morena District	446	605	255
Gwalior ,,	370	540	173
Datia ,,	486	595	365
Guna ,,	467	602	317
Shivpuri ,,	524	613	423
Jhansi [U. P.]	315	509	84
Kotah [Rajasthan]	330	527	96

It will be noticed that Shivpuri has returned the highest number of male and female workers in the division mainly because among non-urban areas more females are generally returned as workers and secondly where the Scheduled Castes and Tribes population if fairly great the workers are likely to be more.

The Non-workers:- Among the non-workers(265,757), 71.43% are dependents or dis-abled persons, a very great percentage being within 0-14 age group. Besides above, 1960 males and 7,541 females are of the age-group above 60 years have been returned as dependents, with the exception of a solitary male, 18.06% females among non-workers are engaged in domestic chores returned under 'Household duties' This is followed by 9.76% returned as 'Full time students'. while they mostly fall in the age group 0-14 years but as many as 3,001 out of 22,262 males and 188 out of 3,682 females have also been returned from 15-34 age-group. The balance is made up of (i) beggars, vagrants, (ii) retired persons, (iii) persons seeking employment for the first time, (iv) unemployed but seeking employment and inmates of institution.

The Economy of the District

Shivpuri is essentially an agricultural district and so cultivation is the mainstay of the people. The dependance on cultivation can be judged by the fact that out of total of 613 male workers as many as 446 or 75.82% are engaged in cultivation and another 36 or 6.94% in agriculturel labour. Among the females out of 423 workers 342 are working as cultivators and yet another 35 as agricultural labourers. In the case of men and women workers, therefore, agriculture is the main occupation. The table below gives the pattern of workers.

Total population 1,000-Total workers 524

Category	Name of the Occupation.	Number of workers	Percentage to total	Rank
I	Cultivation	397	75.82	1
II	Agricultural labourers	36	6.94	2
III	Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantation, Orchard and Allied Activities.	13	2.46	5
IV	Household Industry	24	4.64	4
V	Manufacture other than Household Industry	3	0.45	8
VI	Construction	4	0.78	7
VII	Trade and Commerce	11	2.16	6
VIII	Transport, Storage and Communications	2	0.37	9
IX	Others Services	34	6.38	3
X	Non-workers	476	..	
	Total workers	**524**	**100.00**	

The table gives the details of the workers, males and females engaged in different occupations.

Total Population - Workers

1,000 Males 613

1,000 Females 423

446	342	37	35	19	6	32	15	4	Nil	7	1	19	3	4	Nil	45	21

Cultivation

The district mostly depends upon the natural rainfall for cultivation. The facilities for irrigation are very limited. Only 13.72% of the net area sown was irrigated in 1960-61. That being the condition, cultivation is mostly of the dry type. In 1960-61 over two-third 69.86% of the area was sown with cereals and millets, a little less than one-fifth 17.56% with pulses and a little over one-tenth 10.71% with oil seeds and the rest with sugar-cane and condiments. The area sown more than once is 10.1% only. The distribution of crops *kharif* and *rabi* is more or less in equal proportion. The variation depends upon rainfall. Despite this general observation, during the last decade the area sown under rabi crops seems to be on the increase. This has been specially true for the years 1956-57, 1957-58, 1958-59 when the rainfall was 1,236.8 mm., 786.7 mm. and 1,212.4 mm. respectively, which is more than 30"-35" average.

Land Utilisation-

There has been an increase in the net area sown during the last decade.

Year	Net area sown	Variation	Percentage
1951–52	574,725 acres		
1960–61	659,016 acres	84,291	14.67

the total area sown in thus 1,029.15 sq. miles or 25.9% of the total surface.

The Crops

The crop pattern is given in the appended statement below:

Table showing area under crops in each Tahsil of Shivpuri district for the year 1960-61.

Distribution of 100 acres by major crops under cultivating area

Area sown under	District	Tahsils				
	Shivpuri	Shivpuri	Karera	Pichhore	Kolaras	Pohri
Total area sown	**100.00**	**100.00**	**100.00**	**100.00**	**100.00**	**100.00**

Non-food crops	10.71	9.42	8.35	11.69	8.70	17.09
Area sown more than once	10.09	5.04	11.64	23.00	1.99	3.36

Jowar.

In 1960-61 the total area sown with Jowar was 1,93,237 acres or 26.38% of the sown area. The area sown has varied between 1,42,053 and 1,93,237 acres.The above is highest acreage under Jowar. It is entirely unirrigated.

Wheat

In 1960-61 wheat was sown in 1,90,799 acres or 26 05% which is the highest acreage figure of the decade. It has shown an upward trend from 142,625 in 1951-52. In 1960-61 46,127 acres or 24.18% of wheat was irrigated.

Gram

The area sown under gram has been showing a steady decline. In 1951 it was 81,773 acres and since then excepting in 1952-53 it has been showing steady decline. In 1960-61 it was 67,690 acres or 9.24% of the total area. It is mostly unirrigated; only 7,574 acres were irrigated.

Maize

The area under maize has been showing a steady increase during the decade. In 1960-61 the area sown was the highest ever having 43,049 acres or 5.86% of the total sown area.

Barley

Barley was sown in 25,470 acres in 1960-61 or 3.5% of total. The acreage has been fairly steady during the decade. It is mostly of the irrigated type, 19,664 acres being irrigated.

Rice

Rice was sown in 25,952 acres or 3.54% of the sown area. The acreage under rice remained steady during the decade. Only 5,336 acres were irrigated.

Bajra

Bajra was sown in 7,730 acres or 1.06% of the sown area.

Tur [Arhar].

Arhar was sown in 7,954 acres or 1.09% of the sown area. It is one of the major pulses sown in the district.

Sugar-cane

Area under sugar-cane has been going up during the decade. It was 7,584 acres or 1.04% of the area sown and excepting 9 acres the rest were irrigated. In 1956 sugar-cane was sown in 8,631 acres the highest in the decade.

The Non-food Crops

Sesamum [Til]

It was sown in 27,700 acres in 1960-61 which is the lowest ever during the decade. In 1954-55 the total acreage was 88,577 acres.

Linseed.

The area under linseed has been showing a steady increase during the decade. It was 9,706 acres in 1951-52 and has gone upto 16,900 acres which constitutes 2.31%.

Irrigation

In the year 1960-61 90,415 acres were irrigated. This shows a 35.94% increase over the 1950-51 figure of 66,504 acres. The total area thus irrigated is 13.72% of the net area sown.

The chief means of irrigation are wells, from which water is drawn by means of Persian-wheels or 'Rehat'. This is followed by tanks and canals. In Pichhore and Karera where sub soil water level is fairly high, the Persian-wheel is quite popular. The following tanks provide irrigation facilities (1) Baghora, (2) Dinara, (3) Jhaloni, (4) Kaketo, (5) Sevda, (6) Ghapora, (7) Nagda-Gajora (8) Imlia. Irrigation by wells account for 75 803 acres and is the main source of irrigation. The local tanks irrigate 8,467 acres, the remainder is irrigated by canals and other sources.

Cattle

The cattle population of the district is 6,79,703[6] heads-which exceeds the human population. The district is not noted for any particular breed. Lately 'Nimari' bullocks have been brought into the district for improving the stock. A sheep development-Farm is run by the Veterinary Department and Bikaneri breed has been imported to improve the stock. The cattle is allowed to graze in the nearby jungle and are generally ill cared for.

6. *Source*:- Director of Land Records, M. P. (1961 Cattle Census)

Agricultural Labourers

In this category there are 20,263 persons or 6.95%of the workers. They are mostly local, although at the time of cutting of winter crops labourers from Jhansi and sometimes from Tikamgarh come. The wages of labourers are based on rates at two stations in the district viz. Satanwara and Khaniyadhana. In 1957-58 the wages at Satanwara and Khaniyadhana were Rs. 1.50 for the males, Re. 1.00 for the females and Re. 0.75 for an adult child. In 1960 however the wages shot up to Rs. 2.50 for males, Rs. 1.50 for females at Satanwara in June 60: for the rest of the year they remained between Rs. 1.75 to Rs. 2.00 for males and Re. 1.00 to Rs. 1.25 for females. There were no complaints regarding scarcity of labourers.

Workers in Mining, Quarrying, Forestry, Fishing, Hunting, and Plantation, Orchards and Allied Activities

There are 7,180 persons-5,537 males and 1,643 females who ara engaged in Mining, Quarrying Forestry etc. They constitute 2.46% of the total workers. Under this head nearly 3,458 persons are engaged in production of live-stock (large heads only) mainly for milk and animal power such as cow, buffalo, goat. In Forestry and Logging 2,055 persons are engaged and another 1,100 are engaged in Mining and Quarrying. Quarrying is mostly for stone, clay, sand, gravel and lime-stone.

Household Industry

In this category 13,570 persons-9,588 males and 3,982 females have been returned. They constitute 4.64% of the total workers. The major Household Industries are :—

(1) Production of milk product by rearing live-stocks (3,060 persons),

(2) Production of edible fats and oils,

(3) Cotton dyeing and bleaching,

(4) Cotton weaving in handlooms,

(5) Manufacture of structural wooden goods (including treated timber),

(6) Manufacture of materials from cork, bamboo etc.,

(7) Manufacture of leather products,

(8) Manufacturing from non-mineral metallic products other than petroleum products.

The industries are on a very limited scale.

Workers in Manufacture other than Household Industry

There are 1,303 persons constituting 0.45% of workers engaged in Manufacture other than Household Industry. They are mostly distributed over various industries like products of atta, rice etc., production of sweetmeats, Manufacture of textile garments sawing and planing of wood. There are no major industries in the district.

Workers in Construction

There are 2,280 persons-2,033 males and 247 females or 0.78% of workers, engaged in constructional activities. Out of these 1,567 are in rural areas and the rest in urban areas.

Workers in Trade and Commerce

There are 6,312 persons 5,654 males and 658 females or 2.16% of the total workers engaged in Trade and Commerce. They are mostly retail traders, excepting about 357 wholesale traders in cereals and pulses. There are in all 418 wholesale traders of various sorts.

Workers in Transport and Storage

In 1951 there were 617 workers in Transport and Storage as against 1,092 in 1961. The increase is partly due to the expansion of road traffic from and to Shivpuri. Whereas in 1951 there were 76 persons with Government Roadways and truck owners and drivers; in 1961 the figure stands at 289+291=580 persons. In the railway too the number of employees has risen from 63 to 116.

Workers in Other Services

There are 18,649 persons or 6.88% of the total workers in this category. They are primarily engaged in 'Public Services' in various government departments like the Administrative Services, the Police, the Defence Services, the Local Boards, Educational Services, the Medical and Health Services, the Religious and Welfare Services, the Recreation Services and the Personal Services. The

corresponding figures for 1951 were 12,824 persons thus showing an increase of 5,825 persons are45.42%. This is mainly due to increase in all branches of government services due to the two Five Year Plans. In the sphere of education alone the number of employees have increased from 629 persons to 2,035 persons. The details being:—

1951 Educational Services Research			1961 Educational and Scientific Services		
Persons	Males	Females	Persons	Males	Females
629	580	49	2,035	1,850	185

IV

COMMUNICATIONS

A slow moving narrow gauge 2′ railway line connects Shivpuri to Gwalior. The rail connection is labourously slow and so people prefer to move by road. Shivpuri is fortunately much better off in its road communications for it lies 72 miles south of Gwalior, on Agra Bombay National Highway 3, which is an excellent all weather road. This road connects the district to Gwalior, Agra, Delhi in north and Guna, Bhopal, Ujjain, Indore and Bombay in the south. Apart from this Highway, Shivpuri is well connected with Jhansi by an all weather National Highway which goes upto Kanpur, Lucknow, and beyond. Another road connects Sheopur, a sub divisional town of Morena district. From the Agra Bombay National Highway another road branches off to Kotah but it gets cut off in rains. The other roads are of local importance. There is no air-port or landing strip in the district. It is however connected by telephone to the other parts of the country.

The railway line was part of Scindia State Railways and later taken over by the Central Railways. The distance between Gwalior and Shivpuri by rail is about 73 miles but the train takes over seven hours to accomplish the journey, and there is only one train leaving Shivpuri-Gwalior each day early in the morning. The faster buses take $2\frac{1}{2}$ hours and the slower ones about 3 to 4 hours. The train journeys are not particularly popular. Thus there being very little of rail roads in the district, roads are the main modes of communications. The railway however receives a fair amount of goods traffic.

There are 105 miles 6 furlongs of National Highway and 32 miles and 4 furlongs of State Highway in the district. Apart from these there are 7 major district roads running into 140 miles 3 furlongs. The National Highways are all weather Highways but the others get cut off during the rains. Minor district roads run for 24 miles 6 furlongs and roads in the National Park run for 99 miles, many of these were constructed as scarcity works.

There is a telephone exchange in Shivpuri, Public Call Offices are also located in Kolaras and Karera. Telegraph offices are located in Kolaras, Shivpuri and Karera. There are seventy-six post offices in the district.

The rail communications to the district are poor, but roads save it from being isolated. To reach the district one may either board a bus from Jhansi or catch a narrow gauge train from Gwalior or a bus from Gwalior. The distance from Jhansi and Gwalior is 61 and 72 miles respectively.

The Summing up

The district ranks fifteenth in area but is thirteenth in population and thirty-seventh in growth of population in the last sixty years. Somewhat picturesquely situated on the fringe of the declining Malwa plateau, with good forest and a few streams running across it and the National Park around the main town the effect is generally very pleasing. In this setting appear the dacoits and pose a difficult problem.

The growth of population has been slow 46.44% growth in the last sixty years, because the district suffered the ravages of famines and epidemics during 1901-11 and 1911-21 decades. The density of population varies between 122 per sq. mile in Pohri to 176 in Karera and villages are generally small 75.16 % having less than 500 persons. The district is rural in composition; the urban areas being very limited. Accordingly cultivation is the main stay of the people for along with agricultural labourers, the workers of these two categories alone contribute 82.76% of the

working force. The cultivation is mostly of the dry type-the irrigated area being only 13.72% of the net area sown. Prospects for a substantial increase in the irrigation facilities do not appear bright either. Both *kharif* and *rabi* crops are sown and being entirely dependent on the rainfall, the monsoons prove to be the deciding factor.

There are practically no industries of any note. The construction works are mostly on a small scale and the district has not lately been able to attract any industrialists or traders. Thus to this extent it remains isolated.

During the decade however there has been good progress in many spheres. The literacy has increased 5.53% in 1951 to 11.57% in 1961. The number of educational institutions and the students have gone up considerably, although it still lags behind the neighbouring districts. Medical facilities have expanded, the net work of roads continues to expand and the entire district has been covered by the National Extension Service Blocks.

References etc.

For the compilation of this note the following publications were frequently referred to. They help in appreciating the demographical changes in the district.

By Ranglal, Census Commissioner,

The Gazetteer of Gwalior State by C. E. Luard still remains one of the most authentic publication of the region and has been frequently referred to. The following officials in the district owe our special thanks for making available all the relevant records for the compilation of the note; the Collector, the Divisional Forest Officer and the District Statistical Officer.

List of Important Places

Places near Shivpuri town

(1) **National Park:**—The National park in Shivpuri lies between Agra-Bombay Road and Jhansi-Shivpuri Road and is 61 sq. miles in area. There is a fine net work of metalled roads over the hills and along the banks of artificial lakes. Tigers, panthers, bears, wild boars, spotted deers are easily found. Two picturesque villas stand in the forest viz. George Castle and Appajis Cottage. They were once used us Shikar cottages. A drive through the National Park is a very pleasant experience. Inside the park is Chand Pata Tank, a beauty spot and very near it is another beauty spot Bhadaiya Kund, a small fountain, the waters of which are known for its medicinal qualities.

(2) The Cenotaphs of Scindias:

Near the city there are two beautiful marble cenotaphs locally known as 'Chhatris'. One is in the memory of Maharani Sakhya Raje (grand mother of the present ruler's father). The second is in the honour of Maharaj Madhao Rao Scindia the present ruler's grand-father. They are exquisitely constructed and gracefully laid out with ponds, gardens and shady walks around.

(3) Banganga:

This place is about three miles from the town and legend has it that Arjuna shot one arrow into the ground from whence rose a spring. Even to-day on the second day after Deewali, 'Bhaidoj' pilgrims take their bath.

(4) Madhav Vilas Palace:

This Palace was built by the late Madhav Rao Scindia, the building rises very gracefully over bushes and thick vegetation that surrounds it. It has lately been taken over by the Government of India.

Other Important Places.

(1) Bhatnawar: (pop. 2,591)

This is a big village 5 miles north of Pohri, the tahsil headquarters. There is a delapidated tenth century temple-almost extinct now. There are also some carved debris and other ruins nearby, suggesting that it had seen more prosperous days.

(2) Dinara: (pop. 749)

Dinara is a small village about 48 miles from Shivpuri on road to Jhansi. It has a picturesque tank said to have been built by Raja Bir Singh Deo of Orchha. The tank irrigates 1,517 acres.

(3) Gudar: (pop. 1,923)

It is an old village about four miles to the south of Khaniyadhana in Pichhore tahsil. It was held in Jagir by Bundela Thakurs of Chanderi. It is known for some of its 10—12th Century antiquities.

(4) Karera: (pop. 5,025)

Karera is a small town and also tahsil headquarters, situated on Jhansi road at a distance of 28 miles from Shivpuri. It is a fortified town and is said to have been built by the Bundela Raja of Orchha. It also has some Muslim monuments.

(5) Kolaras: (pop. 5,176)

Kolaras is a small town and tahsil headquarters. It lies 14 miles south of Shivpuri on the Agra Bombay National Highway and was a flourishing town once.

(6) Magroni: (pop. 1,933)

This village is situated about 4 miles north of Narwar. A Sarai and Mosque built during Aurangzeb's time can still be seen. It was once known for its iron utensils.

(7) Mamoni: (pop. 252)

Mamoni is a small village on the Agra Bombay road 7 miles south of Shivpuri. The village is known for the temple of 'Khoobat Baba', a deified dhobi, who is worshipped mostly by Saheriyas.

(8) Narwar: (pop. 3,821)

Narwar had been important seat of chief of this region, during the Mughal times. Local tradition has it that it used to be the Capital of Raja Nal of Mahabharat. It is said that the town was called Nalapura till about 12 Century A. D. The hill fort of Narwar had been very famous in the medieval history, the fort is perched up on hill 400'high and commands a very impressive view which strategically is secure. There were tanks on the fort, to supply waters to the garrison. The old district was known as Narwar district although the Suba's or Collector's offices were located at Shivpuri.

Narwar through the vissiccitudes of history remained the seat of Kachhawahas, Parihars, Tomars and the Muslims. Scindia captured it in the XIX Century and since 1805, it remained with them. Its population in 1891 was 6,190 persons.

(9) Pichhore: (pop. 4,006).

A big village towards south-east of Shivpuri. It remained with the Bundelas of Orchha, than with the Marathas. It was captured by the British in 1838 and returned to Raja of Jhansi in 1841. In 1860 it was given to the Scindia in exchange for some other territories. Some old Bundela temples survive.

(10) Pohri: (pop. 2,069)

A big village situated about 20 miles northwest of Shivpuri and is also the tahsil headquarters. It was a Jagir in the erstwhile State of Gwalior. A big fort wall runs around the village. The fort was damaged in 1858.

(11) Ranod: (pop. 2,676)

Ranod was once a centre of Shiva worship

and possessed two monasteries. It remained important place even in the Mughal period for there are a few ruined mosques and tombs. The existing monuments are (1) Khokhai Math, (2) Image of Nag Deva, (3) Jhini Jhiria Mosque and(4) a grave stone.

(12) Saisai: (pop. 1,272)

A small village 8 miles south of Shivpuri on the Agra-Bombay Highway. It has a fort of Mughal days and near it also lies an old Jain temple.

(13) Satanwara: (pop. 1,449)

It is a small village 12 miles north of Shivpuri on road to Gwalior. An eleventh century Shiv temple lies in ruins nearby.

(14) Shivpuri: (pop. 28.681)

The town is also the district headquarters. It was referred to in 1564 when Emperor Akbar stopped here to hunt elephants. The Scindias occupied it in 1804. In 1835 the British stationed some troops including Gwalior Contingent Force which revolted in 1857. Tantya Tope the great nationalist leader was hanged near the town. Maharaj Madhav Rao built it up as a summer capital and was greatly fond of it. There are few interesting places, round about the town which have already been described earlier.

(15) Surwaya: (pop. 387)

It is about 19 miles from Shivpuri on Jhansi road. Its ancient name is said to be 'Sarasvati Pattana' (the city of the goddess of learning). It is said to have been an ancient monastery. There is old fortified 'Gadhi' close to the village. The debris lie around recalling its days of yore.

TABLE B—XI

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED *IN RURAL AND URBAN AREAS SEPARATELY*

(BASED ON 20% SAMPLE)

Note:-Figurs 1, 2 and 3 in column 1 stand for : 1. Owned or held from Government. 2. Held from private persons or Institutions for payment in money, kind or share, 3. Partly held from Government and partly from private persons for payment in money, kind or share.

Interest in land cultivated	No. of Cultivating households	Households engaged in cultivation by size of land in acres: Less than 1-	1.0— 2.4	2.5— 4.9	5.0— 7.4	7.5— 9.9	10.0— 12.4	12.5— 14.9	15.0— 29.9	30.0— 49.9	50+	Unspecified

Appendix	IX—Towns and Villages having drains	...	286
Appendix	X—Towns and Villages in which weekly or fortnightly markets are held together with the day on which held	...	287
Appendix	XI—Towns and Villages having co-operative societies together with the description of the society	...	288—289

APPENDIX 1

INDUSTRIAL ESTABLISHMENTS

Note: —This appendix has been prepared from information abstracted from the houselists. It is arrenged first districtwise; that is, under the name of the district have been arranged the industries in ascending order of minor groups; showing the total number of establishments within brackets next to each minor group. The information has been shown by total, rural and urban separately. The figures for the tahsil follow the figures for the district as a whole. The total, rural and urban figures for each tahsil for each minor group of industry showing the number of establishments in each in brackets have been presented first. Then follows the list of the villages in the order of their location code numbers with the location code number appearing first, followed by the name of the village. Against each village is shown the minor group or minor groups of industry found in the village with the number of establishments in that minor group shown within brackets against each minor group. For towns, figures have been presented separataly for each ward, the number of ward being first, followed by the industrial code numbers etc. as in the case of villages.

The following examples will make the above Note clear:—

Shivpuri District Total 200 (121) signifies that there are 121 establishments in Shivpuri District pertaining to Minor Group 200, which stands for "Production of rice, atta, flour etc. by milling, dehusking and processing of crops and foodgrains." Pohri Tahsil Total 207 (69) signifies that there are 69 establishments in Pohri Tahsil pertaining to Minor Group 207, which stands for "Production of edible fats and oil other than hydrogenated oil." Village 3 Umari 350 (1) signifies that in Village Umari, which has 3 as its Location Code Number there is one establishment pertaining to Minor Group 350, which stands for "Manufacture of earthenware and earthen pottery". Shivpuri Town Ward No. 13,220 (1) signifies that there is one establishment located in Ward No. 13 of Shivpuri Town pertaining to Minor Group 220, which stands for "Manufacture of Bidi".
