STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

District Census Hand-books for each of the 43 Districts in Madhya Pradesh

PREFACE

The publication of District Census Hand-books, which was begun in the 1951 Census, represents a significant step in the process of making census statistics available for the smaller territorial units basic to executive and developmental administration. Apart from the fact that the proper implementation of policy depends on the ability of the administrative authorities concerned to quantify accurately the variables involved, it is at these levels that policies get really thoroughly tested; also, policies can fail—and probably have failed—because their statistical basis was weak. It is undoubtedly necessary that gaps in statistics at lower levels be filled as rapidly as possible. It was not possible at this Census to base all census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.

2. What we have tried to do in the 1961 Census Hand-books is to make them more informative by the inclusion of as many categories of non-census statistics as possible; some of these are climate, agriculture, co-operation, industry, banking, education, health etc. There is also an introductory note to each Hand-book high-lighting the more striking fea ures. It has not been possible for the Census Organisation to check the accuracy of the figures supplied by various authorities; it is to be hoped that some other organisation, better equipped for the purpose, will take up this task.

3. For the seventeen districts of Mahakoshal (Part of erstwhile Madhya Pradesh) and for Panna and Tikamgarh districts of erstwhile Vindhya Pradesh, which are part of the present State of Madhya Pradesh, the area figures for districts and tahsils furnished by the Director of Land Records and presented in Table A-I are internally inconsistent in the sense that the tahsil areas do not add up to the district area. This inconsistency arose from the fact that, in the case of these districts, the district area includes, but the tahsil areas exclude, 'forest' area for which the tahsilwise breakup was not then available. Later on, while this Hand-book was in the press, the Director of Land Records brought out revised area figures for the year 1962-63 for tahsils and districts, which among other improvements, do not suffer from the defect of internal

inconsistency even in case of these nineteen districts. Revision of Table A-I on the basis of these area figures was not feasible at this late stage; the only alternative was to print these revised area figures also in this Hand-book.

4. One unfortunate fact about these Hand-books is that they became available to the users rather late in the decade. This is partly due to the considerable time required for the collection of information from various authorities and partly to difficulties in printing. Owing to the fact that State presses, with a heavy back-log of printing weighing down on them, would find it impossible to print all the District Census Hand-books themselves, arrangements have been made for printing them in private presses. If these Hand-books are to have a useful life of more than four or five years of inter-censal decennium, more expeditious methods for the collection of non-census statistics, for the preparation and checking of the manuscripts and for printing will have to be devised.

5. The Census Organisation is grateful to the Government of Madhya Pradesh for having been so kind as to undertake the publication of these Hand-books and to the Superintendent, Government Printing and his organisation—particularly the Assistant Superintendent, Printing, Government Regional Press, Indore and his staff—for the printing arrangements made. The inspiration behind this ambitious venture is that of our indefatigable Registrar General, Shri Asok Mitra, to whom we are all deeply grateful. Our thanks are also due to the various authorities who supplied us with all the necessary statistics.

G. JAGATHPATHI

NOTES AND EXPLANATIONS

This note gives the meanings and explanations of terms and concepts used in this Handbook. This is necessary because, without a proper grasp of the meanings of such simple concepts as building, house, household, worker, etc., it is not possible to appreciate the data presented in the Handbook. Thus, one who does not know that an unpretentious hut in the thick of Bastar forests with unplastered bamboo walls and a thatch roof and with space hardly enough for two cots is not a whit less of a building than the Indian versions of the skyscrapers in one of the metropolitan cities, or that a central jail housing all manner of criminals and shady characters is as much a household as the household of the most pious and god-fearing citizen in the State, may not be able to appreciate what exactly the figures represent. Besides explaining the terms and concepts, the note also contains brief notes on the salient and peculiar features of some of the Census tables presented in this Handbook.

Census.—The Census in India is a decennial operation taking place in February-March of the first year of every decade. It ensures coverage of *all* members of the population irrespective of age. The operations constituting a *Census* involve, besides counting of heads, the counting of numerous attributes of the person counted. These are demographic, social, economic and cultural in nature. The number of these attributes regarding which information is recorded has been increasing from census to census and is limited only by considerations of cost, time and organisation.

Population.—The important thing about a population is that it is dynamic. It is a constantly changing entity. These changes take place by the natural processes of birth and death as well as by migration. A statement of population has therefore little sense unless the point of time to which it relates is also stated. A population figure is correct only for a particular point of time; and, even though in practice one may omit to indicate this point of time, one should none the less be clear about it. The population figures presented herein refer to the sunrise of 1st March, 1961, unless otherwise stated.

Rural-Urban Classification:—Data collected at a Census is usually presented separately for the rural and urban areas. A 'town' or a 'town-group' constitutes an urban area. A 'town' in the 1961 Census was either (i) a municipality, cantonment or corporation; or (ii) a habitation with a population at least of 5,000 with atleast three-fourths of the adult male population being engaged in non-agricultural pursuits. The rural-urban classification, being operationally cardinal and prior in point of time to the census count, had to be tackled earlier and a list of 219 towns in the State was therefore, prepared much earlier than the census proper. This included 28 habitations which were tentatively treated as towns, the intention being that, after the 1961 Census data became available, their cases would be re-examined. Later on, however, no modification was made in the list, even though 7 towns did not satisfy either the minimum population criterion or the one based on the ratio of non-agricultural adult males being 75% or greater. These are Gogaon in West Nimar, Datla Bandhi in Chhindwara (both under 5,000 in population); and, Icchawar, Patan, Pendra, Akaltara, Arang respectively in Sehore, Jabalpur, Bilaspur, Bilaspur, and Raipur Districts (not satisfying the economic criterion). The reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to sneak into the list of towns as municipalities, and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than was already present. The cases of Chachaura-Binaganj town in Guna District and Sardarpur-Rajgarh in Dhar District are peculiar in that each of these two municipal towns consists of two distinct habitations separated by 2 miles in the first and 3 miles in the second case.

All areas, which were not urban were rural. They consisted of 'villages'. A very large majority of the census villages were 'revenue villages', which had well demarcated or recognised boundaries, and which included not only the inhabited portion (or portions) but also agricultural land and uninhabited waste (or other) lands. The census village was thus not synonymous with a habitation or a dwelling; in fact, a village could contain two or more distinct habitations separated by considerable distances known variously as 'tola' or 'mazra' or 'para'. Besides, in many districts there were forest villages, situated inside Reserved forests and without clearly demarcated boundaries. The areas entered against these villages in the Village Directory are thus only approximate. It is to be noted that being, as observed by Martin [Census Superintendent (old) Madhya Pradesh, 1911 and Census Commissioner for India, 1921] arbitrary

The only term requiring explanation is household industry, the others being self-explanatory. As regards household industry, a three-fold test was laid down, *viz*:—

(a) "Household Industry" should consist of manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) "Household Industry" should be on the household scale where the workers mainly will be the Head of the household himself and/or members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a *registered factory* but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such free movement is not possible, and therefore, for household industry in urban areas we should consider only those industries which are located or at least the major part of whose work is located at home.

Class of Worker:—A worker, other than a cultivator, agricultural labourer or a worker at household industry could be: (i) an Employer, that is, who hires one or more persons in his work; (ii) an Employee, that is, who does his work under others for wages or salary in cash or kind; (iii) a Single Worker, that is, who is doing his work without employing others, except casually, and without the help of other members of the family, except casually (this includes workers working as members of a co-operative); and (iv) a Family Worker, that is, who is doing his work in his own family without wages or salary in cash or kind. A person could be an employee in a household industry also.

PRINCIPAL AND SECONDARY WORKER:

Table B-VII Part A and Part B involve the concepts of principal and secondary work. For every worker the principal work had to be indicated in the case of a person who was engaged in more than one work, and also the secondary work if he was engaged in two or more than two productive activities. The concepts of primary and secondary work had nothing to do with the income accruing to a person from his work. The principal work of a person was that activity which took up most of his time; similarly the secondary work (in case a person was engaged in two or more than two kinds of work) was that which took up less time than the principal work but greater than the other kinds of work. Unless specifically stated to the contrary in the table heading itself the tables in the Handbook are based on the principal work of a person.

Non-workers:—The non-working section of the population also was divided into eight classes according to the nature of their activities. Thus a non-worker could be (i) a full time student or child attending school, (ii) a person engaged in home duties (like a housewife or other adult female who does no other work) (iii) dependent including an infant or child not attending school, a person permanently disabled from work because of illness or old-age; (iv) a retired person who is not employed again, rentier, a person living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work and who does no other work; (v) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence; (vi) a convict (not an undertrial who was to be recorded for the work he did before being admitted to Jail); (vii) persons who were seeking employment for the first time; and (viii) persons who previously had worked, but were out of employment, and were again seeking work.

Education Levels:—A person was treated as illiterate if he did not satisfy the test of literacy, this meaning the ability both of reading and writing. The test of reading was held to be satisfied if a person could read printed matter or easily legible manuscripts. The test of writing was the ability to write a simple letter. The minimum educational level is primary or junior basic, and this includes all persons who have passed this examination but have not passed the next higher level examination *i.e.*, matriculation or higher secondary. Persons who had formal schooling but had not passed the primary or junior basic level examination were literates without any educational levels. A person belonging to any particular educational level means a person who has passed the examination denoting that level.

INDUSTRIAL AND OCCUPATIONAL CLASSIFICATION OF WORKERS:

Workers have also been classified according to their occupation and industry. The concepts of 'industry' and 'occupation' are of fundamental importance in connection with all economic activity and it is necessary that they should not be confused with each other. By "industry" is meant the sector of economic activity in which a worker is engaged *e.g.*, the textile industry, mining industry, etc., whereas by 'occupation' is meant the exact function that a worker performs in that sector *e.g.*, fitter, carpenter, typist, etc. Occupation thus is "a trade, profession or type of work performed by an individual independent of the worker's industry, status or years of experience".

THE INDIAN STANDARD INDUSTRIAL CLASSIFICATION (I. S. I. C.):

The industrial classification used in some of the economic tables of this hand-book is the 'Standard Industrial Classification' prepared by the Ministry of Labour and Employment, Government of India. Under this scheme of classification, the whole range of economic activity is divided into nine 'divisions', and a code number is given to each. The first digit of the code number of any specific economic activity stands for the 'Division' under which that activity is classified. Each division is then divided into a number of major groups not exceeding ten. The first and second digits of the code number represent the division and the major group into which an economic activity is classified. Each major group is again sub-divided into a number of minor-groups not exceeding ten, and the first, second and third digits in the code number of any economic activity represent the division, the major group and the minor group into which it is classified. To illustrate, the industrial 'code', '261', represents an economic activity corresponding to minor group 261 in major-group 26 of Division 2. A reference to the Standard Industrial Classification will show that the minor group code stands for the economic activity 'Dying and bleaching of silk' in the major group 'Textiles Silk' of the Division: 'Manufacturing'. The 'Divisions', 'Major Groups' and 'Minor Groups' of the Standard Industrial Classification are printed immediately after this note as Appendix I.

NATIONAL CLASSIFICATION OF OCCUPATIONS (NCO):

Table B-V gives the occupational classification by sex of persons at work other than cultivation. This classification is based on the 'National Classification of Occupations' prepared by the Ministry of Labour and Employment, Government of India. Each *occupation* is represented by a code number containing a number of digits (extending in the NCO upto 5). We have used only the three digit Code number for classifying occupation. All occupations are divided into ten divisons to each of which a digit is allotted. The first digit of the code number of an occupation stands for the 'Division' into which it is classified. Each division is then sub-divided into a number of groups not exceeding ten. The first and second digits of the code number represent the 'Division' and 'Group' into which an occupation is classified. Each group again is divided into a number of families not exceeding ten and the first three digits of the code number stand for the division, group and family into which an occupation is classified. To illustrate, the code number 911 stands for the family 911 (Cooks, cook-bearers, domestic and institutional) included in the Group 91 (Housekeepers, Cooks, Maid and related workers) included in the 'Division' 9 (Service, Sport and Recreation workers). The Divisions, Groups, and Families of the National Classification of Occupations are printed after this note as Appendix II.

It may be mentioned that the three digit industrial code can easily be extended into a four-digit code on the principles illustrated earlier to secure greater precision in the classification of the economic activitity of a worker. This has in fact been done in case of workers at household industry, and these four-digit code numbers have been used in Table B XIV Part B.

B—(ii) Household Economic Tables:—Tables belonging to this series differ from others in two respects: (i) they have been prepared from information recorded on the household schedules, while the other tables are prepared from information recorded on the individual slips; (ii) whereas the other tables are based on the total population, the tables in this series are prepared from the data contained in a 20% sample of all households. The instructions for selecting the sample are reproduced below:—

"Every fifth household from the starting random household will be selected to make a 20% sample. The sample household will be marked continuously for rural areas of a tahsil/taluka and for urban areas of a district *i.e.*, households left over in a household pad should be carried over to the next household schedule pad for the selection of sample households.

"Before making the sample households the household schedule pads should be arranged in the order of location code numbers of villages in a Taluka or Tahsil in the case of a rural area and in the order of location code numbers of towns in a district for urban areas. The first sample household should be chosen randomly among the first five households in the first household schedule pad and stamped (s) as selected. This random number (random start) should be chosen separately for rural areas of each taluka/tahsil and for

the urban area of the district. From the first random household every fifth household should be continuously stamped as selected..... The sample should be continuously marked for all the pads of villages in a tahsil and urban areas in a district. If in a particular household schedule pad at the end, some households (these will be four or less) are left after marking of the sample household, the housedolds left over should be carried over to the next household schedule pad and the appropriate household in that pad should be marked as a sample household".

C.—Social and Cultural Tables:

This series contains 8 tables of which Table C-1 is prepared from data abstracted from the 20% sample of households.

Marital Status:—As regards marital status a person could be (i) never married, (ii) married, (iii) widowed and (iv) divorced or separated. The figures given do not necessarily indicate the legal position. Thus, persons who lived together as man and wife and who were regarded as such by society were treated as 'married' even though there might not be any legally valid marriage between them.

Age.—The age of a person was recorded in completed years as on the last birth day at the time of enumeration, so that a child who had not completed a year of its existence was recorded as of age '0' Inspite of the best efforts, distortion of ages is common phenomenon in Indian Census. This distortion is ascribable to the combined effect of a variety of causes like, for example, digit-preference, age-bias and estimation error and its most obvious manifestation is the heaping of the ages at digits ending in 0 or 5 and in even rather than in odd numbers.

Mother Tongue:—Mother tongue is the language spoken in childhood by a person's mother to the person, or mainly spoken in the household.

Religion:—Separate figures are given only for the six main religions: Hindu, Muslim, Jain, Sikh, Christian and Buddhist. Figures for persons professing other religions have been clubbed together under the head: Other Religions and persuasions'

Scheduled Castes and Scheduled Tribes:—In view of the constitutional safeguards guaranteed to persons belonging to scheduled castes and scheduled tribes with a view to ameliorate their social and economic condition, basic census figures are for the first time being published separately for each scheduled caste and scheduled tribe. A scheduled caste or a scheduled tribe means a caste or a tribe included in the Order issued by the President of India under Articles 341 (1) and 342 (1) of the Constitution, amended, if necessary in accordance with Articles 341 (2) and 342 (2) thereof. It should be remembered that the population of a particular scheduled caste or tribe as given in the tables does not necessarily mean the entire population of that caste or tribe in the district. This is so because scheduling of a caste or tribe under the Constitution is *territorial* so that a caste or a tribe scheduled in a district, (or a tahsil or tahsils of a district) is not necessarily a scheduled caste in other districts (or other tahsils of the same district). Thus Gond is a scheduled tribe in all tahsils of Jabalpur District except Jabalpur Tahsil so that the figures for Gond population in Jabalpur District exclude the Gonds of Jabalpur Tahsil. Secondly, some of the scheduled tribes have not been given independent status in some parts of the State by the Order but have been clubbed together with some major tribe, while, in other parts of the State, they have not been so clubbed but have been included as distinct scheduled tribes. Thus, in the districts of the Mahakoshal region of the State, the tribe Agaria has been clubbed, along with many another, with Gond as the latter's sub-tribe. In these districts, therefore, figures relating to Agaria tribe, whose ethnic identity with Gond is controversial, do not appear independently in the tables of these districts, but are included in the figures for Gond. In the Vindhya Pradesh region, however, Agaria is Scheduled tribe in its own right and in the districts belonging to that region Agaria population appears separately in the relevant tables.

Religion of Scheduled Castes and Tribes:—A scheduled caste can exist only in Hindu and Sikh religions and in no other religion. A scheduled tribe, however, may be found in any religion.

E—Housing Tables:—The Handbook includes five tables on housing. In using these tables, it should be remembered that they are prepared from the data on households abstracted from the 'Houselists'. Tables E-I and E-III are based on the full count while table E-II, E-IV and E-V are prepared from a 20% sample of households entered in the Houselists. Houselisting was non-synchronous with census proper, having taken place in the month of September-October, 1960, about five month before the reference date of the Census. Also, the population of households entered in the houselists is not necessarily identical with the population of households in respect of which household schedules were filled at the time of the Census. Thus the samples of households drawn from the household schedule, and from the house lists are different samples.

The instruction for drawing the 20% sample of households from the houselists are reproduced below:—

"Before marking the sample households the Houselists should be arranged in order of location code numbers in the case of rural areas for tahsil etc., and in the case of urban areas other than towns with population of 50,000 and over. In the case of towns with population of 50,000 and over the Houselists should be arranged in order of blocks. The first sample household should be chosen randomly among the first five households in the first Houselist. From that every fifth household from the first random household should be continuously marked..... The sample should be marked continuously for all the Houselists. If in a particular Houselist at the end two households are left after the marking of the sample households then these households should be carried over to the next Houselist and the third household in that list should be marked as sample households".

Census House and Census Households:—The concepts of "building" "house" and "household" are important and differ somewhat from their connotations in common speech. A building refers to the entire structure on the ground. A census house is a structure or part of structure inhabited or vacant or a dwelling, a shop, a shop-*cum*-dwelling or place of business, workshop, school etc., with a separate entrance. A census house was thus a building, or part of a building with a separate entrance. A census house could have a variety of uses, residential as well as non-residential; or it might be vacant (at the time of houselisting).

A household was defined as "a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so." A household necessarily lived in a census house or part of a census house. The definition of a household was broad enough to include all persons living together in a census-house and dining from the same kitchen, even if they were not related to one another. Such were the institutional households, like jails, hostels, hospitals etc. The house in which a household lived could either be owned or rented. All census-houses which were not owned by the households living in them were treated as 'rented' even though no rent was being actually paid.

"Factory" and "Workshop":—As is clear from its definition, a Census house could be a workshop. A workshop is a place where some kind of production, repair or servicing goes on, or where goods or articles are made and sold. A bigger workshop which was either registered under the Indian Factories Act or was of the scale of a registered factory was returned as a factory. For a manufacturing, repairing or servicing establishment to be registered under the Indian Factories Act, it should have ten or more workers if using power and twenty or more workers if not using power.

VILLAGE DIRECTORY AND ITS APPENDICES:

Village Directory:—The Village Directory corresponds to the Primary Census Abstract of the 1951 Census. It gives for each village of the district: (a) information relating to area, census houses, households, scheduled castes and scheduled tribes and literacy; and (b) the classification of the population into workers and non-workers, and again 'workers' into their 'Industrial Categories' separately for both the sexes. For facilitating comparison with the Census Handbook of 1951 the serial number at which the village is to be found in 1951 Handbook is also given. A new feature introduced in this Census is the presentation of additional information about each village relating to schools, hospitals, child and maternity welfare centres, medical practitioners, electricity, post and telegraph offices etc. This has been done by entering symbols against the name of each village. Another novel feature is the presentation in eleven appendices of useful information relating to villages and towns *i.e.*, industrial establishments, places situated on bus routes, or within five miles of a railway station, places having pucca wells, markets, public reading rooms, drains etc.

To enable the reader to locate the village in the Village Directory without much difficulty, an alphabetical index of village names is given. This gives for each village the 1961 location code number of the village (in the Village Directory, villages are arranged according to their Location Code Numbers); and its location code number in the 1951 Hand-book.

APPENDIX—I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below.

Major Group (Code)	Description	Minor Group (Code)
	Division O—Agriculture, Livestock, Forestry, Fishing and Hunting.	
00	Field Produce and Plantation Crops:—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines & orchards	006
	Production of wood, bamboo, cane reeds, thatching grass etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 & flowers) not covered above	009
01	Plantation Crops:—	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	Forestry and Logging:—	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	Fishing:—	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	Livestock and Hunting:—	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax, and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047

Major Group (Code)	Description	Minor Group (Code)
	Production of other animal husbandry products such as skin, bone, ivory & teeth	048
	Division 1—Mining and Quarrying:—	
10	Mining and Quarrying:—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and Quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2 & 3—Manufacturing:—	
20	Foodstuffs:—	
	Production of rice, atta, flour, etc. by milling, Dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur, from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	Beverages:—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products:—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacoo	225
	Manufacture of other tobacco products	226
23	Textile—Cotton:—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239

Major Group (Code)	Description	Minor Group (Code)
24	Textile—Jute:—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool:—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	Textile—Silk:—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	Textile—Miscellaneous:—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of water-proof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding, and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	Manufacture of Wood and Wooden Products:—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture & fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	Paper and paper Products:—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	Printing and Publishing:—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301

Major Group (Code)	Description	Minor Group (Code)
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stiching, sizing and other allied work connected with binding industry	303
31	Leather and Leather Products:—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by Code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather foot-wear	314
	Repair of all other leather products except footwear	315
32	Rubber, Petroleum and Coal Products:—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	Chemicals and Chemical Products:—	
	Manufacture of basic industrial chemicals such as acids, alkalis & their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals & chemical products not covered above (including inedible oils and fats)	339
34	Non-metallic Mineral Products other than Petroleum and Coal:—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture ot stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery:—	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357

Major Group (Code)	Description	Minor Group (Code)
35	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	Basic Metals and their products except Machinery and Transport Equipment:—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating, (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369
37	Machinery (All kinds other than transport) and Electrical Equipment:—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	Transport Equipment:—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats, and manufacture of marine engines	386
	Manufacture & repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	Miscellaneous manufacturing Industries:	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of Musical Instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4—Construction	
40	Construction:—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	Electricity and Gas:—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of Gas in gas works and distribution to domestic and industrial consumers	502
51	Water Supply and Sanitary Services:—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60	Wholesale Trade:—	
	Wholesale trading in cereals and Pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish dairy products eggs, poultry and other foodstuff (not covered else where)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	Retail Trade:—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeats, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrellas, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
66	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and papers	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
67	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689

Major Group (Code)	Description	Minor Group (Code)
69	Trade and Commerce Miscellaneous:—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
Division 7.—Transport, Storage and Communication:		
70	Transport:—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	Storage and Ware Housing:—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold-storage	721
	Operation of storage of other type	722
73	Communication:—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8.—Services:		
80	Public Services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing & operation of financial institution each of which is classified in the appropriate industry groups):—	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public Service in Navy	801
	Public Service in Air Force	802
	Public Service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public service in administrative departments and offices of State Governments	809
81	Educational and Scientific Services:—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	Medical and Health Services:—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic particulars	820
	Veterinary services rendered by organisations and individuals	821

Major Group (Code)	Description	Minor Group (Code)
83	Religious and Welfare Services:—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for promotion of welfare of the community such as relief societies red-cross organisation for the collection and allocation of contribution for charity	832
84	Legal Services:—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organizations and individuals	841
85	Business Services:—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as of those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news agency, news paper correspondent, columnist, journalists, editors, authors	853
86	Community Services and Trade and Labour Associations:—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political, and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	Recreation Services:—	
	Production of motion picture and *allied services such as processing* editing etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor etc. racing.	873
88	Personal Services:—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning services)	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commericial photographic studios	885
89	Services (not elsewhere classified):—	
	Services rendered by organisations or individuals not elsewhere classified	890
	Division 9—Activities not adequately described:	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900
	Fresh entrants to the Labour Market	999

APPENDIX—II

NATIONAL CLASSIFICATION OF OCCUPATIONS

(**Code Structure**)

Which classifies occupations into

331 Occupational Families (three-digit code numbers)

75 Occupational Groups (two-digit code numbers)

11 Occupational Divisions (one-digit code numbers)

Note I.—The Classification does not provide separate code numbers for Apprentices, Foremen and Instructors (in-plant only). These may be classified by giving the prefixes of "A", "B", or "C" respectively before the code number of the occupation which is being learned, supervised or instructed.

Note II.—n. e. c.—not elsewhere classified.

DIVISIONS, GROUPS AND FAMILIES

0 *Professional, Technical and Related Workers*:

00 Architects, Engineers and Surveyors:—

- 000 Architects
- 001 Civil Engineers (including overseers)
- 002 Mechanical Engineers
- 003 Electrical Engineers
- 004 Chemical Engineers
- 005 Metallurgical Engineers
- 006 Mining Engineers
- 007 Surveyors
- 009 Architects, Engineers and Surveyors, n. e. c.

01 Chemists, Physicists, Geologists and other Physical Scientists:—

- 010 Chemists, except Pharmaceutical Chemists
- 011 Pharmaceutical Chemists
- 012 Physicists
- 013 Meteorologists
- 014 Geologists and Geophysicist
- 015 Mathematicians
- 019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.

02 Biologists, Veterinarians, Agronomists & Related Scientists:—

- 020 Biologists and Animal Scientists
- 021 Veterinarians
- 022 Sliviculturists
- 023 Agronomists and Agricultural Scientists
- 029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.

03 Physicians, Surgeons and Dentists

- 030 Physicians and Surgeons, Allopathic
- 031 Physicians, Ayurvedic
- 032 Physicians, Homeopathic
- 033 Physicians, others
- 034 Physiologists
- 035 Dentists
- 039 Physicians, Surgeons and Dentists, n.e.c.

04 Nurses, Pharmacists and other Medical & Health Technicians:—

- 040 Nurses
- 041 Midwives and Health Visitors
- 042 Nursing Attendants and Related Workers
- 043 Pharmacists and Pharmaceutical Technicians
- 044 Vaccinators
- 045 Physiotherapists, Masseurs and Related Technicians
- 046 Sanitation Technicians
- 047 Optometrists and Opticians
- 049 Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants see 091).

05 Teachers:—

- 050 Teachers, University
- 051 Teachers, Secondary Schools
- 052 Teachers, Middle and Primary Schools
- 053 Teachers, Nursery and Kindergarten Schools
- 059 Teachers, n.e.c.

06 Jurists:—

- 060 Judges and Magistrates
- 061 Legal Practitioners and Advisers
- 062 Law Assistants
- 069 Jurists, and Legal Technicians (including Petition Writers)

07 Social Scientists and Related Workers:—
- 070 Economists
- 071 Accountants and Auditors
- 072 Statisticians and Actuaries
- 073 Geographers
- 074 Psychologists
- 075 Personnel Specialists
- 076 Labour and Social Welfare Workers
- 077 Sociologists and Anthropologists
- 078 Historians, Archeologists, Political Scientists and Related Workers
- 079 Social Scientists and Related Workers, n.e.c.

08 Artists, Writers and Related Workers:—
- 080 Authors
- 081 Editors, Journalists and Related Workers
- 082 Translators, Interpreters and Language Specialists
- 083 Painters, Decorators and Commercial Artists
- 084 Sculptors and Modellers
- 085 Actors and Related Workers
- 086 Musicians and Related Workers
- 087 Dancers and Related Workers
- 089 Artists, Writers and Related Workers n.e.c.

09 Draughtsmen, and Science and Engineering Technicians, n.e.c.
- 090 Draughtsmen
- 091 Laboratory Assistants
- 099 Science and Engineering Technicians, n.e.c.

0X Other Professional, Technical and Related Workers:—
- 0X0 Ordained Religious Workers
- 0X1 Non-ordained Religious Workers
- 0X2 Astrologers, Palmists and Related Workers
- 0X9 Other Professional, Technical and Related Workers, n.e.c.
- 0X4 Geographers

1 *Administrative, Executive and Managerial Workers*
- 0X3 Librarians, Archivists and Related

Workers:

10 Administrators and Executive Officials, Government:—
- 100 Administrators and Executive Officials, Central Government (All Defence Services Personnel to be included in this family)
- 101 Administrators and Executive Officials, State Government
- 102 Administrators and Executive Officials, Local Bodies.
- 103 Administrators and Executive Officials, Quasi-Government
- 104 Village Officials
- 109 Administrators and Executive Officials, Government, n.e.c.

11 Directors and Managers, Whosesale and Retail Trade:—
- 110 Directors and Managers, Wholesale Trade
- 111 Directors and Managers, Retail Trade

12 Directors, Managers and Working Proprietors, Financial Institutions:—
- 120 Directors, Managers and Working Proprietors, Banks
- 121 Directors, Managers and Working Proprietors, Insurance
- 129 Directors, Managers and Working Proprietors, Financial Institutions,

13 Directors, Managers and Working Proprietors, other:—
- 130 Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling
- 131 Directors, Managers and Working Proprietors, Construction
- 132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary.
- 133 Directors, Managers and Working Proprietors, Manufacturing
- 134 Directors, Managers and Working Proprietors, Transport and Communication
- 135 Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services
- 136 Directors, Managers and Working Proprietors, Other Services
- 139 Directors, Managers and Working Proprietors, n.e.c.

2 *Clerical and Related Workers*:

20 Book-keepers and Cashiers:—
- 200 Book-keepers, Book-keeping and Accounts Clerks
- 201 Cashiers
- 202 Ticket Sellers and Ticket Inspectors including ushers and Ticket Collectors (excluding those on moving transport)

21 Stenographers and Typists:—
- 210 Stenographers
- 211 Typists

22 Office Machine Operators:
- 220 Computing Clerks and Calculating Machine Operators
- 221 Punch Card Machine Operators
- 229 Office Machine Operators, n.e.c.

28 Clerical Workers, Miscellaneous:—
- 280 General and other Ministerial Assistants and Clerks
- 289 Miscellaneous Office Workers including Record keepers, Moharrers, Diaphers, Packers and Binders of office papers.

29 Unskilled Office Workers:—
- 290 Office Attendants, Ushers, Hall Porters etc. n.e.c.

3 *Sales Workers*:

30 Working Proprietors, Wholesale and Retail Trade:—
- 300 Working Proprietors, Wholesale Trade
- 301 Working Proprietors, Retail Trade

31 Insurance and real estate salemen, salesmen of securities and services, and auctioneers:—
- 310 Agents and Salesmen, Insurance
- 311 Agents, Brokers and Salesmen, Real Estate
- 312 Brokers and Agents, Securities and Shares
- 313 Auctioneers
- 314 Valuers and Appraisers
- 319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.

32 Commercial Travellers and Manufacturers' Agents:—
- 320 Commercial Travellers
- 321 Manufacturers' Agents
- 329 Commercial Travellers and Manufacturers' Agents, n.e.c.

33 Salesmen, Shop Assistants and Related Workers:—
- 330 Salesmen and Shop Assistants, Wholesale and Retail Trade
- 331 Hawkers, Pedlars and Street Vendors
- 339 Salesmen, Shop Assistants and Related Workers, n.e.c.

34 Money-Lenders and Pawn-Brokers:—
- 340 Money-Lenders (including Indigenous Bankers)
- 341 Pawn-Brokers

4 *Farmers, Fishermen, Hunters, Loggers and Related Workers*:

40 Farmers and Farm Managers:—
- 400 Cultivators (Owners)
- 401 Cultivators (Tenants)
- 402 Farm Managers, Inspectors and Overseers
- 403 Planters and Plantation Managers
- 404 Farmers and Farm Managers, Animals, Birds and Insects Rearing
- 409 Farmers and Farm Managers, n.e.c.

41 Farm Workers:—
- 410 Farm Machinery Operators
- 411 Farm Workers, Animals, Birds and Insects Rearing
- 412 Gardeners (malis)
- 413 Tappers (Palm, Rubber trees, etc.)
- 414 Agricultural Labourers
- 415 Plantation Labourers
- 419 Farm Workers, n.e.c.

42 Hunters and Related Workers:—
- 420 Hunters
- 421 Trappers
- 429 Hunters and Related Workers, n.e.c.

43 Fishermen and Related Workers:—
- 430 Fishermen, Deep Sea
- 431 Fishermen, Inland and Coastal Waters
- 432 Conch and Shell gatherers, Sponge and Pearl Divers
- 439 Fishermen and Related Workers, n.e.c.

44 Loggers and other Forestry Workers:—
- 440 Forest Rangers and Related Workers
- 441 Harvesters and Gatherers of Forest Products including lac (except logs)
- 442 Log Fellers and Wood Cutters
- 443 Charcoal Burners and Forest Product Processors
- 449 Loggers and other Forestry Workers, n.e.c.

5 *Mines, Quarrymen and Related Workers*:

50 Miners and Quarrymen:—
- 500 Miners
- 501 Quarrymen

502 Drillers, Mines and Quarries
503 Shot Firers
509 Miners and Quarrymen, n.e.c.

51 Well Drillers and Related Workers:—
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas

52 Mineral Treaters:—
520 Mineral Treaters

59 Miners, Quarrymen and Related Workers, n.e.c.:—
590 Miners, Quarrymen and Related Workers, n.e.c.

6 *Workers in Transport and Communication Occupations*:

60 Deck Officers, Engineer Officers and Pilots, Ship:—
600 Deck Officers and Pilots, Ship
601 Ship Engineers

61 Deck and Engine-room Ratings (Ship), Barge Crews and Boatmen:—
610 Deck Ratings (Ship), Barge Crews and Boatmen
611 Engine-Room Ratings, Firemen and Oilers, Ship

62 Aircraft Pilots, Navigators and Flight Engineers:—
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators

63 Drivers and Firemen, Railway Engine:—
630 Drivers
631 Firemen

64 Drivers, Road Transport:—
640 Tramcar Drivers
641 Motor Vehicle and Motor Cycle Drivers
642 Cycle Rickshaw Drivers and Rickshaw Pullers
643 Animal Drawn Vehicle Drivers
649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)

65 Conductors, Guards and Brakesmen (Railway):—
650 Conductors
651 Guards
652 Brakesmen

66 Inspectors, Supervisors, Traffic Controllers, Despatchers, Transport:—
660 Inspectors, Supervisors and Station Masters
661 Traffic Controllers
662 Signalmen and Pointsmen

67 Telephone, Telegraph and Related Telecommunication Operators:—
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operators
679 Telephone, Telegraph and Related Tele-Communication Operators, n.e.c.

68 Postmen and Messengers:—
680 Postmen
681 Messengers (including Dak Peons)

69 Workers in Transport and Communication Occupations, n.e.c.
690 Ticket Sellers, Ticket Inspectors, including Ushers and Ticket Collectors on moving Transport
691 Conductors, Road Transport
692 Workers in Transport Occupations, n.e.c.
693 Inspectors, Traffic Controllers and Despatchers, Communications
694 Workers in Communication Occupation, n.e.c.

7-8 *Craftsmen, Production Process Workers, and Labourers not elsewhere classified*:

70 Spinners, Weavers, Knitters, Dyers and Related Workers:—
700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.
701 Blow-room Workers and Carders
702 Spinners, Piecers and Winders
703 Warpers and Sizers
704 Drawers and Weavers
705 Pattern Card Preparers (excluding Printers)
706 Bleachers, Dyers and Finishers
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
709 Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.

71 Tailors, Cutters, Furriers and Related Workers:—
- 710 Tailors, Dress Makers and Garment Makers
- 711 Hat and Head-gear Makers
- 712 Furriers
- 713 Upholsterers and Related Workers
- 714 Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
- 715 Sewers, Embrioderers and Darners, Textile and Fur Products
- 719 Tailors, Cutters, Furriers and Related Workers, n.e.c.

72 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers:—
- 720 Shoe Makes and Shoes Repairers
- 721 Cutters, Lasters, Sewers, Footwear and Related Workers
- 722 Harness and Saddle Makers
- 729 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers, n.e.c.

73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers:—
- 730 Furnacemen, Metal
- 731 Annealers, Temperers and Related Heat Treaters
- 732 Rolling Mill Operators, Metal
- 733 Blacksmiths, Hammersmiths and Forgemen
- 734 Moulders and Coremakers
- 735 Metal Drawers and Extruders
- 739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers n.e.c.

74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers:—
- 740 Precision Instrument Makers, Watch and Clock Makers and Repairmen
- 741 Jewellers, Goldsmiths and Silversmiths
- 742 Jewellery Engravers

75 Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers:—
- 750 Fitter-Machinists, Tool-makers and Machine Tool Setters
- 751 Machine Tool Operators
- 752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
- 753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
- 754 Sheet Metal Workers
- 755 Plumbers and Pipe Fitters
- 756 Welders and Flame Cutters
- 757 Metal Plate and Structural Metal Workers
- 758 Electro-Platers, Dip-Platers and Related Workers
- 759 Tool-Makers, Machinists, Plumbers, Welders, Platers and Delated Workers, n.e.c. (including Metal-engravers other than printing)

76 Electricians and Related Electrical and Electronics Workers:—
- 760 Electricians, Electrical Repairmen and Related Electrical Workers
- 761 Electrical and Electronics Fitters
- 762 Mechanics-Repairmen, Radio and Television
- 763 Installers and Repairmen, Telephone and Telegraph
- 764 Linemen and Cable Jointers
- 769 Electricians and Related Electrical and Electronics Workers, n.e.c.

77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers:—
- 770 Carpenters, Joiners, Pattern Makers (Wood)
- 771 Shipwrights and Body Builders
- 772 Sawyers and Wood Working Machinists
- 773 Coach and Body Builders
- 774 Cart Builders and Wheel Wrights
- 775 Cabinet Makers
- 779 Carpenters, Joiners, Cabinet Makers, Coopers. and Related Workers, n.e.c.

78 Painters and Paper Hangers:—
- 780 Painters and Paper Hangers

79 Bricklayers, Plasterers and Construction Workers n.e.c.:—
- 790 Stone Cutters, Stone Carvers and Stone Dressers
- 791 Bricklayers, Plasterers, Masons
- 792 Glaziers

- 793 Cement Finishers and Terrazzo and Mosaic Workers
- 794 Hut Builders and Thatchers
- 795 Well Diggers
- 799 Bricklayers, Plasterers and Construction Workers, n.e.c.

80 Compositors, Printers, Engravers, Book-Binders and Related Workers:—
- 800 Type-setting Machine Operators
- 801 Compositors
- 802 Proof-Readers and Copy Holders
- 803 Printers (Paper)
- 804 Printers (Textile)
- 805 Photo-Litho Operators, Photo-lithographers
- 806 Engravers, Etchers & Block Makers (Printing)
- 807 Stereotypers
- 808 Book Binders
- 809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.

81 Potters, Kilnmen, Glass and Clay Formers and Related Workers:—
- 810 Furnacemen, Kilnmen and Ovenmen
- 811 Potters, and Related Clay Formers
- 812 Blowers and Benders, Glass
- 813 Moulders and Pressers, Glass
- 814 Grinders, Cutters, Decorators and Finishers
- 815 Pulverisors and Mixers, Cement, Clay and other Ceramics
- 819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.

82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers:—
- 820 Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers
- 821 Crushers and Pressers, Oil Seeds
- 822 Dairy Workers (Non-Farm)
- 823 Khandsari, Sugar and Gur Makers
- 824 Bakers, Confectioners, Candy and Sweetmeat Makers
- 825 Makers of Aerated Water and Brewers
- 826 Food Canners, Preservers and Related Workers
- 827 Butchers
- 828 Coffee and Tea Blenders and Related Workers
- 829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.

83 Chemical and Related Process Workers:—
- 830 Batch and Continuous Still Operators
- 831 Cookers, Roasters and other Heat Treaters, Chemical and Related Processes
- 832 Crushers, Millers and Calenderers Chemical and Related Processes
- 833 Paper Pulp Preparers
- 834 Paper Makers
- 839 Chemical and Related Process Workers, n.e.c.

84 Tobacco Preparers and Products Makers:
- 840 Curers, Graders and Blenders, Tobacco
- 841 Cigarette Machine Operators
- 842 Cheroot, Cigar and Bidi Makers
- 843 Snuff and Zarda Makers
- 849 Tobacco Preparers and Product Makers, n.e.c.

85 Craftsmen and Production Process Workers n.e.c.
- 850 Basketry Weavers and Related Workers
- 851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
- 852 Plastics Products Makers
- 853 Tanners, Fellmongers, Pelt Dressers and Related Workers
- 854 Photographic Dark Room Workers
- 855 Makers of Musical Instruments and Related Workers
- 856 Paper Products Makers
- 859 Craftsmen and Production Process Workers, n.e.c.

86 Testers, Packers, Sorters and Related Workers:—
- 860 Checkers, Testers, Sorters, Weighers and Counters
- 861 Packers, Labellers and Related Workers

87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers:—
- 870 Operators, Stationary Engines and Related Equipment

871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and Other Construction Machinery, n.e.c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine, and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.

89 Labourers, n.e.c.:—
890 Loaders and Unloaders
899 Labourers, n.e.c.

9 *Service, Sports and Recreation Workers.*

90 Fire Fighters, Policemen, Guards and Related Workers:—
900 Fire Fighters and Related Workers
901 Police Constables, Investigators and Related Workers
902 Customs Examiners, Patrollers and Related Workers
903 Watchmen and Chowkidars
909 Fire Fighters, Policemen, Guards, and Related Workers, n.e.c.

91 House Keepers, Cooks, Maids and Related Workers:—
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
911 Cooks, Cook-Bearers (Domestic and Institutional)
912 Butlers, Bearers, Waiters, Maids and other Servants (Domestic)
913 Ayas, Nurse-maids
919 House-Keepers, Cooks, Maids, and Related Workers, n.e.c.

92 Waiters, Bartenders and Related Workers
920 Waiters, Bartenders and Related Workers (Institutional)

93 Building Care-Takers, Cleaners and Related Workers:—
930 Building Care-Takers
931 Cleaners, Sweepers and Watermen

94 Barbers, Hairdressers, Beauticians and Related Workers:—
940 Barbers, Hairdressers, Beauticians and Related Workers

95 Launderers, Dry Cleaners and Pressers:—
950 Laundrymen, Washermen and Dhobies
951 Dry-cleaners and Pressers

96 Athletes Sportsmen and Related Workers:
960 Athletes, Sportsmen and Related Workers

97 Photographers and Related Camera Operators:—
970 Movie Camera Operators
979 Other Photographers

99 Service, Sports and Recreation Workers, n.e.c.:—
990 Embalmers and Undertakers
999 Service, Sport and Recreation Workers, n.e.c.

X *Workers not Classifiable by occupation*

X0 Workers without occupations:—
X00 Workers without occupations: Matriculates and above
X08 Workers without occupations: Literates
X09 Workers without occupations: Others

X8 Workers Reporting Occupation Unidentifiable or Unclassifiable:—
X80 Workers reporting occupations unidentifiable or unclassifiable

X9 Workers not Reporting Occupation:—
X90 Workers not Reporting occupation.

INTRODUCING THE DISTRICT

by

K. S. Bhatnagar

Deputy Superintendent of Census Operations,
Madhya Pradesh

The District :

Shajapur district in Bhopal Division is situated in the north western corner of the State, between latitude 23°06' and 24°19' north and longitude 75°41' and 77°02' east. The district is bounded by Ujjain in the west, Dewas in the south, Sehore in the east, Rajgarh in north-east and Jhalawar district of Rajasthan in the north. The district takes its name from the main town-Shajapur-named in the honour of Shah Jahan who halted here in 1640. It is said that the original name was Shahjahanpur which by usage was reduced to Shajapur. Since the time of Gwalior State it has remained a district. The area of the district increased as a result of merger of Agar district (now a tahsil) in 1903.

At the time of formation of Madhya Bharat in 1948 it was a district and continued thereafter as such with the addition of more villages from former Bhopal, Indore, Dewas Senior and Junior States, Sonkatch tahsil and Ujjain tahsil. The details being:—

Table-Showing villages received on transfer to Shajapur district in 1948.

S. No.	No. of villages transferred	Transferring unit	Tahsil to which transferred
1	2	3	4
1	5	Bhopal State	Shajapur
2	12	Tarana Tahsil of Mahidpur District, Holkar State.	Shajapur
3	2	Dewas Tahsil (Senior)	Shajapur
4	3	Dewas Tahsil (Junior)	Shajapur
5	27	Sonkatch Tahsil of Ujjain District, Gwalior State.	Shajapur
6	2	Ujjain Tahsil	Shajapur
7	2	Mahidpur Tahsil, Holkar State	Agar
	53		

From May 1948 to 31.10.1956 Shajapur remained a part of Gwalior Division (Gwalior 245 miles), but on formation of the new State of Madhya Pradesh it came under Bhopal division, (Bhopal 130 miles).

Flora :

There is hardly any forest in the district. In the village jungle, however, the following trees are commonly met with :

babul (*Acacia arabica*), khair (*Acacia catechu*), neem (*Melia indica*), aam (*Mangifera indica*), jamun (*Eugenia jambolana*), chhola (*Butea frondosa*), khajur (*Phoenix sylvestris*), dhow (*Anogeissus latifolia*), mahua (*Madhuca latifolia*), ber(*Zizyphus jujuba*),chandan (*Santalum alburm*),imli(*Tamarindus indica*),sheesham (*Dalbergia sissu*), khirni (*Mimusops hexandra*), bargad (*Ficus bengalensis*), pipal (*Ficus religiosa*), bel (*Aegle marmelos*) and karonda (*Carissa spinarem*). Recently some area of scrub jungle has been transferred to the Forest Department in Agar and Susner tahsils.

Fauna :

There being very little of cover big animals are not found. An occasional panther may still be seen. Jackals, foxes are common and hynae comparatively rare. Among other domestic animals, cows, buffalos and malwi bullocks are found. The latter species is a very sturdy one and a breeding farm to supply the bulls is located at Agar. Local variety of fishes are found in the rivers. No crocodiles have been reported. Snakes and scorpions of all description are met. Among the game birds, partridges, sand groves, green pigeons and migratory ducks are seen. The common crow,

pigeon, hawks, owls and doves are also met with. It has been observed that the wild life is becoming scarcer each year; this is partly due to land utilisation, whereby the scrub jungle is cleared, and also due to indiscriminate poaching in the last few years.

The River System :

There are no big rivers in the district. The drainage of the rivers is towards north–the rivers flowing to join the Chambal and then ultimately the Yamuna. Some of the important rivers are :—

The Kali Sindh :

The river Kali Sindh, flows from south to north in Shajapur tahsil and joins the river Chambal. It forms the border with Rajgarh district. It retains water in big pools and appears suitable for lift irrigation.

The Lakhunder :

The river is a tributary of the river Kali Sindh and flows mostly in Ujjain district and Shajapur, Agar tahsils.

The Cheelar :

The river flows in Shajapur tahsil, where a medium project has been undertaken.

The Parwati :

The river Parwati flows in Shajapur tahsil and is perennial containing plenty of water. It flows north forming the border of Rajgarh district with Vidisha. The river offers potential sites for lift irrigation.

The Newaj :

The river flows towards the south of Shajapur tahsil and enters Rajgarh district. In some patches it contains plenty of water.

The Chhoti Kali Sindh :

It enters Agar tahsil from Tarana tahsil of Ujjain district. It is perennial and flows north, ultimately into the Chambal. It retains water in big pools and offers good scope for lift irrigation as is already being done at Pat Parsi in Ujjain district.

Climate :

The district enjoys, a mild climate being on the Malwa Plateau. The seasons are well defined. The monsoons break by the third or fourth week of June and July and August are the rainiest months. The monsoon begins to taper off by September and October is warm and humid, but the nights begin to get cooler. The rainfall average for the decade is 949.4 mms. the highest being 1,514 mms. in 1959. From November the winter commences and goes upto February. The winter is generally mild. From the end of March the summer commences and May is the hottest month. The nights however remain pleasant. There is no meteorological station in the district. The record of rainfall has been maintained by the land records staff.

II

The Administrative Set-up
The Representation of the People in the Lok Sabha.

The district is tagged on to the Rajgarh and Dewas Parliamentary Constituency. The relevant extract from Delimitation of Parliamentary and Assembly Constituencies Order, 1961, VI M.P., is as follows :—

Schedule VI

Madhya Pradesh.

A–Parliamentary Constituencies	
Serial No. and name of the Constituency	Extent in terms of Assembly Constituencies
1	2
29. Rajgarh	(227) Biaora, (228) Rajgarh, (229) Khilchipur, (230) Sarangpur, (231) Narsingarh, (all from Rajgarh district), (232) Shujalpur, (235) Susner, (236) Agar.
32. Dewas	(233) Gulana, (234) Shajapur, (both from Shajapur district), (237) Mahidpur, (238) Tarana, (from Ujjain district,) (250) Dewas, (251) Sonkatch, (252) Bagli, (253) Kannod, (all from Dewas).

In the State Legislature

The district returns five members to the State Legislature. The constituencies are:—

B-Assembly Constituencies

S.No. and name of the Constituency	Extent of the Constituency
1	2
	Shajapur District
232. Shujalpur.	Shujalpur tahsil (excluding patwari circle Nos. 1 to 17 and 71 to 80)
233. Gulana[SC]	Patwari circle Nos, 28 to 32, 44 to 46 and 55 to 87 in Shajapur tahsil and patwari circle Nos. 1 to 17 and 71 to 80 in Shujalpur tahsil.
234. Shajapur	Shajapur tahsil (excluding patwari circle Nos. 28 to 32, 44 to 46 and 55 to 87).
235. Susner	Susner tahsil.
236. Agar	Agar tahsil.

Thus there is only one Scheduled Caste seat. The 1962 General Elections were held on the above basis.

The Revenue Administration

The Collector is the Chief Revenue Authority for the district and heads the administration. He is a member of the Indian Administrative Service. He is also the District Magistrate in which capacity he is responsible for the maintenance of law and order. He co-ordinates the activities of all other departments, except judiciary and thus occupies a pivotal position in the administration. With all this and the pressure of developmental activity and democratic de-centralisation his position becomes very important. He is assisted by Assistant / Deputy Collectors (from I. A. S./State Civil Service), one of whom, usually the senior one is posted at Shujalpur and the rest have their headquarters at Shajapur Each tahsil is in the charge of a Tahsildar assisted by one or more assistants, called Naib-Tahsildars. Each tahsil has a sub-tahsil office *viz.* Barod in Agar-Nalkhera in Susner–Avantipur Barodia in Shujalpur and Gulana in Shajapur. The sub-office or a tappa is under the charge of a Naib-Tahsildar. A tahsil is further divided into Revenue Inspector's Circles under a Revenue Inspector, who supervises the work of patwaris. A patwari is the chief village accountant and keeps the records of the land and revenues payable thereon.

Table— Showing tahsils, R.I. Circles, Patwari Halkas and Police Stations.

1	2	3	4	5
District	No. of Tahsils	No. of R.I. Circles	No. of Patwari Halkas.	No. of Police Stations.
Shajapur	4	14	332	13 P.S., & 4 Outposts.

Among the Deputy Collectors, two are Sub-Divisional Officers and Magistrates. Eversince the State times there has been a complete separation of the Executive from Judiciary and hence the Sub-Divisional Magistrates apart from their other executive work are responsible for disposing cases under the Preventive Chapters of the Criminal Procedure Code.

The Settlement

All lands in the district have been surveyed and settled. It is the responsibility of the Collector to keep all land records papers upto-date. He is assisted by the staff of the Land Records in this. The areas were settled at different stages of time under former States:—

As many as 1,061 villages out of 1,132 were settled between 1923-26 as Zamindari villages in erstwhile Gwalior State. The details being—

Tahsils.

Shajapur District	Shajapur	Shujalpur	Agar	Susner
1	2	3	4	5
1061 villages	337	242	262	220

The other 71 villages were mostly Jagir villages and some came from other States. (please see page xxxvii). They were settled at different periods ranging from 1911-15 for 14 Asandhya Jagir villages to 1940 45 for 11 Ramakhedi Jagir villages.

There has been no revision and the same rates continue. In the last few years the Record of Rights Officer had made some re-assessment of Jagir villages in Agar. They have now been assessed at Circle Rates.

The revenue history of the district has been normal. Except for some suspension of land revenues owing to damage by hail storm, which was purely of a local character, no remission or suspension have been made.

No difficulty in recovering land revenues has been experienced.

The Village Officials.

For the collection of land revenue a patel for each village is appointed by the Collector. The patwari draws up the forecast of the revenues payable and assists the patel in collection of land Revenue. The Patel is paid remuneration at the following rates :—

Table—Showing remuneration paid to Patel.

Land Revenue and Miscellaneous Revenue collected.

		Rates in (Rupee)
1	On the first Rs. 1,500	6 P. in the rupee
2	On the second Rs. 1,500	4 P. in the rupee
3	On the third Rs. 1,500	3 P. in the rupee
4	On the fourth Rs. 1,500	2 P. in the rupee
5	For the balance exceeding Rs 6,000	1 P. in the rupee

Provided that the annual remuneration of any patel in respect of any village shall not be less than Rs.36.00. The remuneration is paid from the treasury once in each year. Lately panchayats have also been delegated the powers of collection of land revenue. Also for each village or a few villages a chowkidar or the watchman is appointed.

The Judiciary.

The district falls under the jurisdiction of the Sessions Judge at Guna. An Addl. Sessions Judge is, however, posted at Shajapur, for trial of the sessions cases. Apart from the Addl. District Judge, First Class Magistrates who are also empowered as Civil Judges have been posted at all tahsil headquarters except at Susner, which is linked to Agar. The judicial officers are subject to the administrative control of the High Court of Judicature.

The Police Department.

The administrative head of the Police department in the district is the Superintendent of police, who is an officer of the Indian Police Service. He is assisted by two gazetted officers (Deputy/Assistant Superintendents of Police), one posted at Shajapur and the other at Shujalpur. The entire force is dispersed throughout the district under 13 police stations including 4 outposts and the Reserve Police stationed at Shajapur. Each police station is in the charge of a Sub-Inspector who sometimes is assisted by an A.S.I. He is known as the Station Officer. The break up of police stations is :—

Tahsil	Police Stations.
1	2
1 Shajapur	(1) Shajapur, (2) Sundersi, (3) Momin Barodia, (4) Gulana and two out-posts *viz.* at Maksi and Berchha.
2 Shujalpur	(1) Shujalpur, (2) Avantipur, (3) Kalipipal and two out-posts at Akodia and Shujalpur Mandi
3 Agar	(1) Agar; (2) Barod and (3) Kanad.
4 Susner	(1) Susner, (2) Nalkhera and (3) Soyat.

The Medical Department.

The Civil Surgeon is in the over all charge of the administration of the department. He is assisted by Medical Officers at all the tahsil headquarters. Besides these there are three civil dispensaries at Akodia, Barod and Sundersi where Assistant Medical Officers assist the Civil Surgeon. Besides these there are 23 Ayurvedic dispensaries.

The Public Works Department.

An Executive Engineer is in the charge of all public buildings and roads including their construction and maintenance. Previously he was also looking after Rajgarh district, but recently Rajgarh district has been separated from his charge. There are now 3 Sub-divisions

(1) Shujalpur, (2) Agar and(3) Shajapur . The total road mileage looked after by the former division (including those of Rajgarh district) is as follows :—

Type of Roads.

	National Highway	Class I
Mileage	77 miles and 5 furlongs	345 miles

During the decade the mileage under Class I roads has gone up from 309 in 1952 to 345 in 1960.

The Irrigation Department.

An Executive Engineer looks after the irrigation works in Rajgarh and Shajapur districts. His headquarters are at Narsingarh, (District Rajgarh) 80 miles from Shajapur.

An Assistant Engineer is posted at Shajapur and Shujalpur for looking after the minor irrigation work. There are three medium projects costing over Rs. 10 lacs but less than Rs. 5, crores in the division (the division also includes Rajgarh district). These are :—

Name of the Scheme	Tahsil and district	Area likely to be irrigated in acres	Area actually irrigated in acres	Remarks
1	2	3	4	5
Barodia	Narsingarh (Rajgarh)	2,250	15	Work started in November 56 and completed in 1960-61. Irrigation started only from 1961-62.
Chhapi River Project.	Khilchipur (Rajgarh)	6,500		Work yet to commence
Cheelar River Project.	Shajapur (Shajapur)	13,000		Work in progress. Expected to be completed in June 1967

Apart from these, there are as many as 69 minor irrigation works from different sectors *viz.*, C.D., N. E. S., or Collector Sector, which are in progress at various stages. The details being:

List of Minor Irrigation Works under the Division of PWD Irrigation Branch Narsingarh.

Shajapur District

District/Tahsil	Pre-Plan works (PWD Sector)	1st Plan works (PWD Sector)	2nd Plan works (all Sectors)	3rd Plan works (PWD Sector) In Progress	C.D.N.E.S. Sector completed	C.D.N.E.S. Works in Progress	Collector Sector Completed	Grand Total
1	2	3	4	5	6	7	8	9
Shajapur District	38	3	...	2	18	6	2	69
1 Susner Tahsil	12	...	...	...	2	1	2	17
2 Agar ,,	4	...	...	1	9	...	...	14
3 Shajapur ,,	15	1	...	...	4	1	...	21
4 Shujalpur,,	7	2	...	1	3	4	...	17

In addition to these there is a Survey Investigation Sub Division at Shajapur. A Project Engineer (Assistant Engineer) for Cheelar Dam is also posted here.

Tribal Welfare Department:

A District Organiser has been posted here and the following Schools and Welfare Centres are run by the Department:—

Name of the Institution	*No. of Students.*
1	2
1 Vimukta Jati Ashram School, Shajapur	125
2 Vimukta Jati Kalyan Kendra, Kali Sindh.	80
3 Vimukta Jati Sanskar Kendra, Nipaniya.	42
4 Harijan Balvadi, Berchha	58
5 Harijan Balvadi, Jamner	43
6 Vimukta Jati Balvadi, Umaria-Ka-Kheda	43
7 Harijan Chhatravas	20

The Agriculture Department.

The Department is now under a Deputy Director, Agriculture whose headquarters are at Shajapur. The department with a view to boost up agricultural production has been carrying out various programmes. Some of them are indicated below:—

(*1*) *Improved Seed Multiplication Farm:-* The farm located at Girwar, one mile from Shajapur, supplies improved variety of seeds. Also in the farm is a Horticultural Nursery which supplies saplings of fruit bearing trees. These are grafted and then supplied. Recently a few private nurseries have also grown up.

Mandis.

Mandis are the licensed markets for disposing agricultural produce. These are under the department. The mandies are located at Agar, Susner, Shajapur, Shujalpur, Akodia, Nalkhera, Kalapipal and Berchha.

Other Activities.

Besides these the department has also been distributing fertilisers and manures and with the help of a plant protection unit arranges to remedy the threat of pests to the crops and checks soil erosion, contour bunding has been carried out.

The Co-operative Department.

During the Plan periods the co-operative movement has been taking roots in a steady manner. An Assistant Registrar Co-operative looks after the working of the department. The number of Co-operative Banks and Societies is as follows:-

Agr. Credit Societies		Non-Agr. Credit Societies	Central Banks	Grain Banks	General Marketing Societies	Farming Societies	Irrigation Societies
Large	Small						
1	2	3	4	5	6	7	8
21	349	30	4	23	5	23	1

There is a Co-operative Training School at Agar trainning village level officials for managing the Co-operative Societies.

The N. E. S. Blocks.

The entire district is covered by seven N. E. S. Blocks. The oldest is the one at Susner. The details of the Blocks are:

S. No.	Name of the Block	Tahsil	Date of Establishment	Number of villages	Area in Sq. miles	Remarks
1	2	3	4	5	6	7
1	Susner	Susner	2.10.54	222	499	Started as N.E.S. converted on 2.10.57. Reverted to stage II on 2.10.61.
2	Agar	Agar	2.10.56	141	281	Converted to Stage II on 1.4.63
3	Barod	Agar	2.10.57	140	280	Extended upto 30.9.63
4	Shajapur	Shajapur	1. 4.59	185	344	Started as P. E. Converted to Stage I on 1.4.60
5	Kalapipal	Shujalpur	2.10.62	127	254	Stage I
6	Shujalpur	Shujalpur	2.10.61	141	313	Stage I
7	Gulana (Momin Barodia)	Shujalpur	2.10.62	174	360	P. E.

Source:—Development Commissioner, Madhya Pradesh

The Education Department.

A District Education Officer is posted at Shajapur. He looks after the schools in the district. There is a Govt. Degree College at Shajapur and a private one at Shujalpur. The Principal of the College is administratively under the Director of Collegiate Education. The number of junior or primary schools has gone upto 444 in 1960-61 as against 196 in 1951-52. Two Basic Training Colleges have been established at (1) Shajapur (2) Shujalpur. There has been considerable expansion in the educational facilities in the district.

The Industry Department.

An Assistant Director of Industries looks after the small industries. His headquarters, however, are at Dewas. A Seri-culture Demonstration Scheme has been started under Susner Block and imparts training to 5-6 persons.

Local Bodies- Urban.

There are five municipalities in the district *viz.* Shajapur, Shujalpur, Susner, Agar and Nalkhera. Out of these Agar is the oldest having been founded in 1893* and Nalkhera the youngest, established on. 1.5.1956. The importance of Agar in the district 70 years ago, was due to the cantonment and its being the headquarters of the Political Agent.

Details regarding municipalities:-

Name of the Municipality	Date of Establishment.	Number of Elected Councillors.
1	2	3
1 Shajapur	1.9.1923	15
2 Shujalpur	5.3.1926	15
3 Susner	1947	8
4 Nalkhera	1.5.1956	8
5 Agar	1893	16

Out of these the income of Shajapur Municipality was the highest being Rs. 236,244 in 1963 64.

Rural:

In the erstwhile State of Madhya Bharat a three tier system of rural local bodies-Panchayats, prevailed. At the base was a Gram Panchayat, for one village or a group of villages. Co-terminus with an N.E.S. Block was Kendra Panchayat which supervised the work of these gram panchayats. There are 7 Kendra Panchayats and 265 Gram panchayats. At the apex was the Mandal Panchayat which exercised supervisory jurisdiction over the other bodies. The panchayats are playing a useful role in the rural development. As a measure of progresssive de-centralisation as many as 52 panchayats have been given the powers to collect land revenue. The three tier system has now been revised.

To provide the rural population with speedier and cheaper justice, 14 Nyaya Panchayats have been constituted. They are established under the Act and are empowered to try petty civil and criminal cases. The table below gives the tahsilwise break up of all panchayats.

Tahsil	Gram Panchayat	Kendra Panchayat	Mandal Panchayat	Nyaya Panchayat
1	2	3	4	5
Shajapur	84	2	One for the District.	4
Shujalpur	74	2		4
Agar	57	2		3
Susner	50	1		3
Total	265	7		14

According to the new set up there are 194 panchayats thus giving 5.8 villages per panchayat.

Other Offices.

Apart from these the following offices are also located at Shajapur: (1) State Excise, (2) Sales Tax, (3) Employment Exchange, (4) District Livestock Officer, (5) District Publicity Officer, (6) Soil Conservation, (7) The Fisheries Development and (8) Cattle Breeding Farm for rearing the Malvi breed of bullocks.

In addition to Executive Engineer, Irrigation at Narsingarh, Sessions Judge at Guna, and Assistant Director of Industries at Dewas, the District Statistical Officer also has his office at Dewas.

* Gazetteer Gwalior State C. E. Luard.

III
THE PEOPLE
The Growth of the Population.

During the last sixty years the population has grown by 72. 02%, which is well below the average growth for the State 92 .00% during the corresponding period. The table below gives the details for the growth:

Table—Showing variation of Population 1901-61
District Shajapur

Year	Population	Increase + Decrease—	Decade variation		
			Percentage Increase+ Decrease—	Bhopal Division Increase —	Madhya Pradesh Increase + Decrease —
1	2	3	4	5	6
1901	305,863	...	...	...	...
1911	333,977	+ 28,114	+ 9.19	+ 15.38	+ 15.30
1921	327,959	— 6,018	— 1.80	— 2.52	— 1.38
1931	362,714	+ 34,755	+ 10.60	+ 7.90	+ 11.39
1941	408,279	+ 45,565	+ 12.56	+ 7.62	+ 12.34
1951	433,216	+ 24,937	+ 6.11	+ 4.17	+ 8.67
1961	526,135	+ 92,919	+ 21.45	+ 27.38	+ 24.17
1901-61			+ 72.02	+ 73.80	+ 92.00

The 1901 returns reveal a loss of 13.19% population in Gwalior State and Malwa was the worst sufferer. J. W. D. Johnstone the then Census Commissioner wrote*:—

"The famine of 1896-1897 affected Malwa chiefly in the enhancement of prices which left the people less than their normal means of meeting the difficulties that followed. When, therefore, the rains failed in 1899, this province suffered most acutely.

A famine in Malwa is an almost unheard of calamity. It is a country of fertile soil and general prosperity. Its past immunity from the dread scourge became actually the chief cause of its misfortunes. The Darbar and the people themselves were alike taken by surprise, and relief measures were somewhat late in being undertaken, the consequence being a terrible loss of life which finds its ghastly proof in the Census figures before us. To aggravate the condition of Malwa, the rainfall of 1900 was generally in excess to the no small damage of the crops. Hence this hitherto favoured country shows a decrease of population varying from 10 percent to over 30 percent in different districts, a higher deficit than any other portion of the Gwalior State."

Thus the twentieth century opened with a substantial decrease and the pace of the population remained somewhat slow throughout.

By 1911 Agar which was a district in 1901 had been merged with Shajapur. The population showed an increase. The district, (as of those days) returned an increase of 8.8%. The re-cast district, however, increased by 9.19%. The decade immediately following the famine was more or less normal and so the population grew. The growth, however, was much higher in some other districts of the State *viz.* (Bhilsa district of the State showed a rise of 38.3%). H. M. Bull£ attributes it to two reasons. Firstly Malwa did not suffer from famine conditions. Secondly the low lying districts

* Census of India 1901, Vol. XXI-Gawalior, Part I, Report, by J. W. D. Johnstone, p. 24.

£ The Central India State Census Series. Vol. I-Gwalior State, Census Report for 1911, Part I & II-Text and Tables by H.M. Bull, M.A. (Cantab) Census Commissioner, Gwalior State.

viz. Gwalior, Bhind and Morena suffered from damage by frost in 1904-05 followed by famine in 1905-06 and this was followed by a hat-trick of lean years in 1907, 1908 and 1909. This led to an exodus of population to southern districts of Bhilsa (Vidisha), Isagarh (Guna). It is probably true that some of them also came to the district. During this period the State and Bhopal division showed an increase of 15.30% and 15.38% respectively. It was only in Gwalior division that population decreased during this decade.

The 1911-21 decade proved to be most disastrous for the growth. It was a dark-decade when men, women and children perished in great numbers. The district recorded a decrease of 1.08%, which is slightly more than the decrease in the State (-1.38%), but less than Bhopal division (-2.52%). The dark-decade started with a belated monsoon which reduced the yield of Kharif crops and high mortality due to plague in 1911-12. Again in 1915-16 rainfall was ill-distributed and scanty, and the yield of the crops below average. In 1918-19 there was a great scarcity and though famine was not declared yet relief measures were adopted. Then came influenza which played havoc on the already debilitated population. Thus came to a close this dark-decade, whose effects remained visible for many years to come.

This ill-wind of pestilence and scarcity that swept across the country and decimated countless families every where, excepting in Vidisha district in the division which showed an increase of 17.20%*. All the other districts showed a decrease.

As the dark-decade closed, signs of a better future began to appear. The worst being over, the population began to grow and in 1931 the district returned an increase of 10.60% and surprisingly enough it was Vidisha where there was a decrease of 0.64%, which has been ascribed by Ranglal to the absence of temporary field labourers who came from contiguous districts, as the Census was taken before the crops were ready. This is what the Census Commissioner wrote£ about Shajapur district.

"This district has suffered not so much from short crops as from the fall in the price of cotton. It shows the smallest increase in this Natural Division. The Susner parganah, which shows the lowest rate of increase, suffers from its remoteness from the main lines of communications. The comparatively large increase in Agar is due to the fact that at the time of the census a large number of temporary immigrants were employed there in the construction of the Ujjain-Agar Railway."

After 1931, however, the district has shown a continuous increase. The increase of 10.60% in 1931 is higher than the increase in Bhopal division 7.90% and only slightly less than the increase in the State 11.39%.

The 1931-41 decade showed an increase of 12.56% which is nearly in accordance with the growth in the State. The other districts of the division however did not show such an increase; therefore the decade variation for Bhopal division was only 7.62%. The general conditions remained fairly normal during the period.

During the 1941-51 decade, the district was completely recast with villages from other States being added to it. During the decade the increase was to the tune of 6.11%. Bhopal Division in general, showed an increase of 4.47% only. When viewed against this setting, the growth was fair. This is what Ranglal wrote about the growth.@

"The population of the district has increased by 6.1 percent and now stands 41.6 percent higher than it did fifty years ago. The variations in the growth rates of individual tahsils are difficult to account for. During the last

@ Census of India, 1951, Vol. XV-Madhya Bharat and Bhopal Part I-A, Report, by Ranglal B. A., Census Commissioner, Madhya Bharat, Page 12.

decade the crops have been invariably un-satisfactory. This district also seems to be losing population by emigration."

The growth rate when compared to the State 8.67% is slightly less. The decade 1941-51 was never known for high rate of growth.

During 1951-61 the growth is 21.45% which is somewhat less than the State figure of 24.17% but much below Bhopal Division figure of 27.38%. In Bhopal Division, however, only Sehore and Raisen districts have shown an increase of over 30%. Sehore district with 44.32% increase shows the highest increase in the State, but this is due to the establishment of Heavy Electricals Limited at Govindpura and the Capital of the State at Bhopal. This probably accounts for a slightly higher growth in the division, in a decade where conditions were more or less normal and uniform.

The Growth of Population in Rural & Urban Areas.

The table below indicates the growth of rural and urban population in the district :—

Table—Showing percentage variation of population 1901-1961

+ Increase
– Decrease

District	T/R/U	1901-61	1951-61	1941-51	1931-41	1921-31	1911-21	1901-11
1	2	3	4	5	6	7	8	9
Shajapur	T	+ 72.02	+ 21.45	+ 6.11	+ 12.56	+ 10.60	— 1.80	+ 9.19
	R	+ 69.12	+ 18.74	+ 6.61	+ 9.12	+ 11.27	— 0.69	+ 10.80
	U	+ 102.98	+ 52.53	+ 0.67	+ 70.91	+ 0.26	— 16.14	— 8.00

The Urban Areas.

In 1901 the district had four towns *viz.* Shajapur, Agar, Shujalpur and Susner. Agar Cantonment was treated as a separate town. From 1901 to 1931 the urban areas suffered a loss of population which was very high in 1921. In 1921 towns with better medical facilities showed some increase i. e., Ujjain. It is only after 1931 that the increase in urban areas is consistent. In 1941 there were six towns and this accounts for a high rate of increase. In 1951 the number of towns again went down to 3. During the present decade the increase has been to the tune of 52.53% which accords fairly well with State growth of 47.70%. During the last sixty years the urban growth in the district is much less than that of the State generally.

The Rural Areas.

The growth in the rural areas is well below the State average. Although the growth has been more or less continuous after 1921, the rate of growth is somewhat slow as compared to the State.

The Density of Population.

During the decade the pressure of population has increased in all tahsils. The table below indicates the changes:—

Table showing density of Population

District/ Tahsils	Population per sq. mile			Percentage + Increase
	1941	1951	1961	
1	2	3	4	5
Shajapur District	170	181	221	22.09
Shujalpur Tahsil	174	190	235	23.63
Shajapur Tahsil	190	203	246	21.18
Agar Tahsil	156	160	194	21.25
Susner Tahsil	156	163	196	20.25

During the last twenty years the Shajapur tahsil continued to remain most densely populated tahsil of the district; although Shujalpur appears to be catching up fast. In Agar tahsil the pressure has increased only lately.

When compared to other adjoining districts of the division the position of the district is as follows :—

Name of the District	Population per sq. mile*
1	2
Madhya Pradesh	190
Bhopal Division	174
Ujjain District	282
Ratlam District	257
Dewas District	167
Sehore District	209
Rajgarh District	218
Jhalawar (Rajasthan)	204
Kotah (Rajasthan)	177

Thus Shajapur with 221 persons per sq. mile shows a greater concentration than that found in Bhopal division or State. Barring Ratlam and Ujjain districts it is more thickly populated than the other adjoining areas.

The Tahsils, Towns and Villages.

The entire population of the district 526,135 persons, lives in 5 towns and 1,127 villages out of which 1,064 are populated. For administrative purposes they come under four tahsils *viz.* (1) Susner, (2) Shujalpur, (3) Agar and (4) Shajapur.

The Tahsils.

The tahsils are comparatively small in area-the average area for a tahsil being 596.25 Sq. miles. The table below gives some details about the area and population of each tahsil :—

Name of District/ Tahsil.	Area in Sq. miles	Population	Population per sq. mile	Ranking	No. of inhabited villages	Towns
1	2	3	4	5	6	7
Shajapur District	2,385	526,135	221		1,064	5
Susner Tahsil	491	96,461	196	3	207	2
Agar Tahsil	561	108,794	194	4	276	1
Shujalpur Tahsil	635	148,964	235	2	246	1
Shajapur Tahsil	698	171,916	246	1	335	1

Thus Shajapur tahsil not only has the highest number of inhabited villages but also the highest population and the heaviest concentration. It is the biggest in area as well. Only Susner tahsil has returned two towns, all others returning one each. All the four tahsils are known after their main town and the fifth town is Nalkhera in Susner tahsil.

Susner Tahsil.

The tahsil lies in the north of the district and forms a boundary with Khilchipur tahsil of Rajgarh district in north-east and with Kotah and Jhalawar districts of Rajasthan in north. The main rivers are : the Badi Kali-Sindh, the Lakhunder, the Banganga and the Kanthali.

In the erstwhile State, Nalkhera was a tahsil, it was later added to Susner. The population of the two towns is : Susner 5,292 and Nalkhera 5,245. During the decade there has been no change. Some of the important offices located here are: (1) The Tahsil Office (2) The Block Office (3) Civil Dispensary (4) Veterinary Hospital (5) Municipal Office (6) Police Station and (7) Inspector of Schools.

The main crops are the kharif ones *viz.* jowar, cotton and maize. During the years 1956–57 to 1960–61 the percentage of kharif crops to rabi has varied between 91% in 1960–61 to 77% in 1957–58.

Agar Tahsil

The tahsil is situated towards north-west of the district and forms a border with Jhalawar district of Rajasthan. At the beginning of the twentieth century Agar was a district but with the revision of districts during 1901–11 decade it was merged into Shajapur in 1903. The main rivers are : the Chhoti Kali Sindh, the Lakhunder and the Cheelar. Agar town (population 11,486) was a Cantonment of the English and the Scindias during its chequered history. It is said to named after Agariya a Bhil who

* Calculations are based on the latest area figures (1962-63) supplied by the Director Land Records at the time of going to the Press and differ only slightly from those published in Part II-A-General Population Tables. Figures for Jhalawar have been taken from Paper I of 1963-Census of India, 1961, published by the Registrar General, India.

founded it in the tenth century. It was captured by Scindias in 1801 and in 1844 it became a cantonment. In 1857 the troops mutinied and in 1858 the British stationed, the Central India Horse, a Cavalry formation, in the town. It was also the headquarters upto 1895 of the Political Agent. Two villages from Mahidpur tahsil, now in Ujjain district, were added on the formation of Madhya Bharat. There has been no change in the jurisdiction during the decade. Among the important offices located here, the following may be mentioned : (1) The Judicial Magistrate and Tahsil Courts, (2) Block Development Office, (3) The Inspector of Schools, (4) The Civil Dispensary, (5) The Veterinary Dispensary, (6) The Police Station, (7) The Municipal Offices and (8) The State and Central Excise Inspectorates. There are two Higher Secondary Schools one for the boys and the other for the girls. The tahsil is mostly a Kharif Crop growing area and jowar cotton and ground-nut are grown. Lately area under ground-nut has been going up, chiefly because of its good price. Among the rabi crops wheat and gram is grown. Irrigation is mostly by wells.

Shujalpur Tahsil.

The tahsil lies to the east of Shajapur. To the north of Shujalpur lies Sarangpur a tahsil in Rajgarh district and towards the east lies Sehore District. Since 15 August 1956 it has become the headquarters of a Sub-Divisional Officer. The main rivers are the Parwati and the Newaj.

The main town, after which the tahsil is known is an ancient one having been founded by Shujat Khan who became the Governor of Malwa in the sixteenth century. The cenotaph of Ranoji Scindia the founder of the Gwalior dynasty is near Shujalpur town, population 13,690. Shujalpur town is on the broad-guage Bhopal-Indore-Nagda sector of the Western Railway and is an important Mandi which exports food-grains. During the decade there has been no change in the jurisdiction. The, following are some of the important offices located here : (1) The Sub-Divisional Office (Civil), (2) Police, (3) Sub-Divisional Office (PWD), (4) Assistant Engineer Irrigation, (5) Magistrate Ist Class and Civil Judge, (6) the Tahsil Office, (7) The Civil Dispensary, (8) The Block Office, (9) The Police Station, (10) Municipal Office and (11) Sub-Inspector Excise.

Both the Kharif and Rabi crops are grown in more or less equal proportion. The wheat grown is of excellent quality. The Sugar Mills at Sehore consume a good proportion of the sugar-cane grown in the district. Some of the best area under crops lies in the tahsil. The main kharif crops are jowar, ground-nut and cotton. There are 5 ginning factories in the tahsil out of which 3 are functioning.

Shajapur Tahsil.

Shajapur tahsil, named after its main town (population 17,317) is in the southern part of the district, adjoining Tarana tahsil of Ujjain district in south west and Sonkatch of Dewas district in the south. The main rivers are the Cheelar, the Lakhunder and the Kali Sindh. It is situated on the National High way 3, the Agra-Bombay Road; being 60 miles away from Indore. Its rail head is Berchha on the Bhopal Indore-Nagda sector of the western Railway branch line. After the formation of Madhya Bharat the tahsil underwent many changes, for as many as 46 villages were added. These came from : Tarana tahsil, 12; Dewas (Senior) State 2; Dewas (Junior) State 3; Sonkatch tahsil (now in Dewas district) 27 and Ujjain tahsil 2.

All the district offices are located here.

The Towns.

In 1961, the number of towns has increased to 5, from 3 in 1951. The number of towns in the district, during the previous censuses was as follows :—

Number of towns in

District	1961	1951	1941	1931	1921	1911	1901
Shajapur	5	3	6	3	4	4	4

The present five towns are : Shajapur, Shujalpur, Agar, Susner and Nalkhera. The changes in their classification are indicated below :—

Classification of Towns

Tahsil	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8
Susner	V	...	VI	...	...	...	...
Nalkhera	V	...	VI	...	...	...	...
Agar	IV	IV	V	V	V	V	IV
Shajapur	IV	IV	IV	V	V	V	V
Shujalpur	IV	IV	V	V	V	V	V

Class IV : Population 10,000 to 19,999
Class V : Population 5,000 to 9,999
Class VI : Less than 5,000

It follows from the above that Agar, Shajapur and Shujalpur have all along been enumerated as towns. In 1901, 1911 and 1921, Agar Cantonment was enumerated as a separate town and thus there were four towns. Similarly in 1941 Agar Cantonment was treated as a separate town, hence the district returned six towns.

The area and population of the towns is indicated below :—

Name of the town	Area in sq. miles.	Population Persons	Males	Females	Persons per sq. mile	Classification of the town
1	2	3	4	5	6	7
Shajapur	2.33	17,317	9,145	8,172	7,432	IV
Shujalpur	2.50	13,690	7,388	6,302	5,476	IV
Agar	1.36	11,486	5,883	5,603	8,446	IV
Susner	0 10	5,292	2,745	2,547	52,920	V
Nalkhera	0.08	5,245	2,772	2,773	65,563	V

From the above it follows that Shajapur is the biggest town in the district but Nalkhera appears to be most thickly populated. This, however, is not so, because the statistics of the area do not appear to be accurate and in view of this, the congestion appears excessive. The same is also true of Susner.

In the urban areas, the number of persons per occupied house is as follows :—

(1) Shujalpur 6.1
(2) Shajapur 5.7
(3) Susner 5.5
(4) Agar 5.2 and
(5) Nalkhera 5.0

The district figure stands at 5.58% which is slightly more than the comparable figures for Bhopal Division 5 25% and the State 5 42%.

The Villages.

A village in the district has on an average 445 persons. This figure is considerably higher, than that of a village for Bhopal division 329 or the neighbouring district of Rajgarh 280 or even the State 394. In the area the average is 2.12 sq. mile which is below the State figure of 2.21 but above that of Bhopal division 2.08 sq. mile. In the district itself villages in Shujalpur tahsil with 549.9 persons per village appear more populous. The number of persons per village in other tahsils is : (1) Shajapur 461; (2) Susner 415; (3) Agar 353 and (4) Shujalpur 549.9.

The table below gives the details of de-populated villages.

Name of the tahsil	1951 Total	1951 Habited	1951 Un-inhabited	1961 Total	1961 Habited	1961 Un-inhabited	Variation in total number of villages
1	2	3	4	5	6	7	8
Susner	222	209	13	220	207	13	- 2 (Susner and Nalkhera are now towns)
Agar	279	277	2	279	276	3	No change
Shujalpur	266	247	19	266	246	20	No change
Shajapur	362	334	28	362	335	27	No change
District Shajapur	1,129 + 3 towns	1,067	62	1,127 + 5 towns	1,064	63	

Thus during the decade two villages of 1951 became towns. There has been an increase of 1 un-inhabited village and the number of villages has increased from 62 in 1951 to 63 in 1961.

The Size of the Villages & Changes during the decade.

As may be expected from the foregoing description a great majority of the villages sustain less than 500 persons. The table below gives the percentage of villages and population.

Table-Showing the Percentage of Villages and Population.

		Less than 500		500 999		1,000-1,999		2,000-4,999	
District	Year	Percentage of No. of villages in this class to total No. of villages	Percentage of Population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population
1	2	3	4	5	6	7	8	9	10
Shajapur	1961	73.88	41.87	18.70	28.27	5.26	15.74	2.16	14.12
	1951	81.82	50.26	12.84	23.59	3.84	14.16	1.50	11.99

Nearly three fourths of the villages 73.88% have a population of less than 500 persons and in terms of the total population these total up nearly two fifths or 41. 87% of the population. Another noticeable feature of the table is that the number of villages of this category has diminished during the decade.

The number of villages of population (500-999) shows an increase, their percentage has gone up during the decade from 12.84% to 18.70%. Even in the population, they now return a little over one fourth i.e. 28.27% showing an increase of 4.68%. The increase continues in villages of 1,000-1,999 and 2,000-4,999 population which together now return 29.86% of population as against 26.15 % returned previously. Thus from the above it becomes apparent that the villages have grown in size of population.

The number of villages in terms of the above population groups is:—

Villages with population.

		Between				
	Less than 200	200-499	500-999	1,000-1,999	2,000-4,999	5,000-9,999
No. of villages	285	501	199	56	23	...

The Occupied Houses

During the decade the number of occupied houses have increased as follows:—

Year	Number of Occupied Houses	Increase	Percentage variation
1951	84,710		
1961	103,299	+ 18,589	+ 21.94

Whereas the population increased by 21.45% the number of houses has increased by 21.94%. Thus the growth of the number of houses has kept pace with the population and crowding per house seems to have remained unchanged during the decade. The houses are generally made of mud-walls, which are covered by roofs of big grass or khakra leaves and locally made tiles. Houses of unburnt and burnt bricks are also found. Nearer the road side, the house covered with galvanised iron sheets and Mangalore tiles may also be seen.

When compared to some other districts the number of persons per occupied house in the district is as follows:—

Persons per occupied house

State District	Total	Rural	Urban
1	2	3	4
Madhya Pradesh	5.20	5.16	5.42
Shajapur Distt.	5.09	5.04	5.58
Rajgarh Distt.	5.51	5.54	5.23
Ujjain Distt.	5.57	5.19	6.59
Sehore Distt.	5.16	5.01	5.45
Dewas Distt.	5.05	5.06	5.00
Mandsaur Distt.	5.12	5.13	5.09

Thus pressure per occupied house is more or less same in all these districts excepting Rajgarh and Ujjain where the pressure is slightly more.

There are 45 households per sq. mile in the district as against 36 in Bhopal Division and 39 in the State. The position *vis-a-vis* other adjacent districts is indicated below:—

State District	Density of Households per Sq. mile. Total	Rural	Urban
1	2	3	4
Madhya Pradesh	39	33	1,372
Shajapur District	45	41	1,643
Rajgarh District	44	40	684
Sehore District	44	28	1,545
Ujjain District	57	38	3,947
Dewas District	33	29	1,752
Mandsaur District	41	32	2,658

During this decade the number of households has gone up from 35 to 45 per sq. mile. When compared to other adjacent districts Shajapur appears more congested, though by no means heavily populated.

The Proportion of Sexes.

Males have always outnumbered the females. In the north western parts of the State the proportion of the females falls rather low, but as one goes south, and Shajapur district is in south, the position improves *vis-a-vis* these districts, but at no stage was district known to return more females than males. The changes in proportion of sexes are indicated below.—

Females per 1,000 males

Total Rural Urban	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8
Total	943	966	946	927	932	942	N.A.
Rural	948	967	947	927	930	941	N.A.
Urban	898	959	941	928	960	947	931

The proportion has thus varied between 927 and 966 females per 1,000 males. In the last decade, it appears that there were fewer female births. Even in the rural areas the proportion has gone down by 19. In the urban areas the number has fallen by 61 which is very considerable. Fewer females may reasonably be expected in urban areas, but this was not so in 1921 or 1911.

The table below gives the proportion of sexes in other adjacent districts:—

State/ Division/ District	Females per 1,000 males.
1	2
Madhya Pradesh	953
Bhopal Division	919
Shajapur District	943
Rajgarh District	917
Sehore District	864
Dewas District	937
Ujjain District	921
Mandsaur District	925

The returns of Shajapur accord well with those of other districts excepting Sehore district where rapid industrialisation along with the growth of the capital of the State seems to upset the above pattern.

The Vital Statistics.

In 1953 the Madhya Bharat State Government promulgated the Madhay Bharat Births, Deaths, Marriages Registration Act, 1953 basing it on a similar Act of 1886 of the Government of India, making the registration of births and deaths compulsory, but it was never enforced. The position regarding the maintenance of vital statistics, therefore, has been far from satisfactory. During the decade, under the existing laws the municipalities and the panchayats were required to maintain statistics of briths and deaths. Both these local bodies have not been able to keep an accurate statistics and the position remained practically the same as was described by Rangalal in 1955. In the Report of Operations connected with the Improvement of Population Data M. B. 1952, he wrote:—*

"The arrangements for the registration of births and deaths are unsatisfactory even in large municipal towns. The Director's Report as to the agency responsible for the reporting of the deaths in urban areas is silent. All that is known is that generally the responsibility has been laid either on members of the family of the deceased or on sweepers or on both".

* Census of India Paper No. 2-1955, Sample Census of Births & Deaths 1952-53. (Page 259 Para 3)

Whereas the position was bad enough in the municipalities, it was much worse in the case of panchayats; Kendra Panchayats were made responsible to arrange for the registration of births, deaths and marriages in their jurisdiction provided it could find funds for the purpose. The Gram Panchayats were supposed to record births and deaths and send the figures monthly to the Mandal Panchayats through the Kendra Panchayats which submitted returns to the Deputy Director of Health Services. The municipalities also sent these returns to the Deputy Director concerned who after consolidation sent it to the Director Health Services. The panchayats failed to grasp the importance of this duty and no regular records were maintained. As a result of continued neglect no statistics worth the name was ever compiled.

The births and deaths statistics of the Corporations are generally those that are made available to them by the Government or municipal hospitals and such others as may have been collected by their Health Department. The coverage is no means full as many births and deaths are never reported. There being no supervising agency, it is impossible to verify the accuracy. In 1952 when an experimental Census of births and deaths was conducted in Madhya Bharat the results were as follows:

1 Period covered by Census – 30.10.51 to 18.10.52
2 Period for which figures were supplied by the Health Department – 1.11.51 to 30.10.52

Births and deaths rates per 1,000 of population calculated on basis of:–

District	Result of experimental Census		Figures supplied by Health Deptt.	
	Births	Deaths	Births	Deaths
1	2	3	4	5
State of M.B.	33.0	18.8	10.4	6.5
Plateau which includes Shajapur Distt.	34.7	22.0	12.0	8.1

The absence of accurate statistics causes great difficulty in estimating the annual rate of natural increase. No wonder it was then estimated at between 1.4 to 1.6 percent annually.

The Age Tables.

The table below shows the distribution 100 persons by age and sex:—

Age-group	Percentage of population in the age-group						Sex-ratio	
	Shajapur			State				
	P	M	F	P	M	F	Shajapur	State
1	2	3	4	5	6	7	8	9
All ages	**100.0**	**51.5**	**48.5**	**100.0**	**51.2**	**48.8**	**943**	**953**
0-4	15.9	8.0	7.9	16.4	8.2	8.2	987	996
5-9	14.0	7.2	6.8	14.3	7.3	7.0	932	966
10-14	10.1	5.4	4.7	10.1	5.4	4.7	855	847
0-14	*40.0*	*20.6*	*19.4*	*40.8*	*20.9*	*19.9*	*933*	*947*
15-19	8.3	4.2	4.1	7.9	4.1	3.8	975	929
20-24	9.1	4.5	4.6	8.6	4.2	4.4	1,014	1,069
25-29	8.3	4.2	4.1	8.8	4.5	4.3	994	939
30-34	7.0	3.7	3.3	7.4	3.9	3.5	916	897
15-34	*32.7*	*16.6*	*16.1*	*32.7*	*16.7*	*16.0*	*977*	*959*
35-39	5.9	3.1	2.8	5.8	3.1	2.7	890	878
40-44	5.3	2.7	2.6	5.3	2.8	2.5	985	950
45-49	4.2	2.2	2.0	4.2	2.2	2.0	881	886
50-54	3.9	2.0	1.9	4.0	2.1	1.9	962	908
55-59	2.2	1.3	0.9	2.1	1.1	1.0	694	903
35-59	*21.5*	*11.3*	*10.2*	*21.4*	*11.3*	*10.1*	*901*	*905*
60-64	2.5	1.3	1.2	2.4	1.2	1.2	922	1,080
65-69	1.1	0.6	0.5	0.9	0.4	0.5	913	1,157
70 +	2.2	1.1	1.1	1.8	0.7	1.1	1,081	1,373
60 +	*5.8*	*3.0*	*2.8*	*5.1*	*2.3*	*2.8*	*977*	*1,190*
Age not stated	Neg.	Neg.	Neg.	0.1	0.1	Neg.	1,141	898

The table is based on ungraduated ages and though the quinquennial groupings adopted below suppress the distorting effects of age heaping at multiples of 5, still the data unless corrected or smoothed, is not fit enough to permit analysis by quinquennial age-groups. Therefore the scrutiny is confined to age intervals 0–14, 15–34, 35–59 and 60+ or those corresponding to the children,the young persons, the middle aged and old persons.

From the table it follows that nearly two fifths or 40.04% of the population is in the 0-14 age group which is nearly comparable to the State figure of 40.8%. In the 15–34 age group the population is nearly one third or 32 70%. Thus the youthful population of the district forms 72.74% or a little less than three fourths. The middle aged-group forms 21.50%. Thus 94.24% of the population is accounted for by these age-groups. In the 60+ age-group there are 5.8%. The figure is slightly higher than the State figure of 5.1%.

As far as the sex ratio is concerned it is 933 for 0–14, 977 for 15–34, 901 for 35–59 and 977 for 60+. Thus for all these age-groups the number of females is less. That fewer females than males were born in the last decade is borne out by the sex ratio in 0–4, and 5–9 age-groups which 987 and 932 respectively. Only in the age-group 20-24 is the sex ratio high, there being 1,014 females per 1,000 males.

The inset table below gives the percentage distribution of population in 1951 and 1961 by broad are groups. Whereas the 1951 data is based on 10% sample, the 1961 is on the total population. In making the comparasion, however, we are assuming that the 10% represented the universe.

Table- Showing distribution of population in 1951 and 1961 in broad age-groups.

Age-group	Population based on 10% Sample		Percentage	
	1951	1961	1951	1961
1	2	3	4	5
Total	43,211	526,135	100.0	100.0
0-14	16,789	210,681	38.9	40.1
15-34	14,871	172,047	34.4	32.7
35-59	9,170	112,710	21.2	21.4
60+	2,334	30,560	5.4	5.8
A.N.S.	47	137	0.1	Neg.

The table reveals that (a) in the 0-14 age-group there has been an increase of 1.2% (b) in the 15-34 age-group the decrease is to the tune of 1.7%. The composition of other age-groups has not materially changed.

Table Showing the details of the marital status.

Age-group	Total Population		Never Married		Married		Widowed		Divorced or separated		Unspecified	
	M	F	M	F	M	F	M	F	M	F	M	F

70+	100	100	6.22	0.22	52.52	8.47	41.15	91.16	0.11	0.15	...	...
Age not stated	100	100	89.06	91.78	6.25	5.48	1.56	...	...	...	3.13	2.74

Persons in the age-group 0-9 were tabulated as never married. The fact that nearly 58.04 females have been returned as married in the 10–14 age group suggests the possibility of the existence of marriage in the ages nearer 9, specially among the females. This argument loses some force, as far as males are concerned for only 22.30% have been returned as married from this age-group. Thus marriages, if performed before the age of 9 are more of an exception.

In the 15-19 age group, 93.63% females are married. Thus the age of marriage among the females is mostly between 15-19, although marriages also take place a little earlier. There are very few widows 0.93%; still fewer divorced females 0.22% and only 5.22% were unmarried. As far as the males are concerned nearly a little over half of them are married, 51.51% and a little less than half unmarried 47.76%. The age group cannot thus be taken to be marriage age of the boys; although many of them get married just before stepping out of their teens.

The percentage of married females is highest in the age group 20-24 being 96.80% and very low in the case of never married being only 0.84%. From this age-group and onwards the percentage of widows or divorced or separated begins to rise, for 2.01% females are widows. Among the males the percentage of married persons is high being 78.16% and yet a little less than one fifth 19.90% among them are unmarried.

In the 25–29 age group the above pattern persists; and only 0.55% females still remain unmarried. The widows 3.76% exceed the unmarried in this age group. Among the males 88.87% are married and a little more than one twelfth remained unmarried. The widowers are 2.31%. The same pattern appears to persist, in the 30-34 and 35–39 age-groups. In these only 0.23% and 0.32% females are unmarried and 6.46% and 13.46% widowed. The married females of 35–39 age-group come down to 85.79% and therefore a steady decline in the married women is discernible. Thus from 15 to 39 years the percentage of married women remains high. With regard to the males 90.82% in 30–34 and 90.21% in 35–39 age-groups are married, only 5.12% and 4.23% remain unmarried.

With regard to the age-groups 40-44, 45-49, 50–54 and 55–59, the following trends are noticeable.

Among the females the percentage of married women begins to decline steadily and crashes to 42.23% in 55-59 age-group. As against this the percentage of widows increases and reaches 57.13% in the above age-group. Even in upper age-groups the percentage of divorced or separated never reaches more than 0.58% in 45-49 age-group. It therefore follows that females are generally either married or widowed. There are very few divorcees.

Among the males excepting in 55-59 age-group, where 78.15% are married, in other age-groups nearly four fifths are married. Widowers reach 18.62% mark in 55–59 age group.

In the 60–64 and 65–69 the salient features are (a) as against 23.80% and 30.15% widowers among the males, the percentage of widows is much higher being 75.17% and 80.06% and that (b) even in advancing years of life the percentage of married males is much higher than females.

Migration.

A little less than two thirds of the population, 334,573 persons or 63.59% of the district was enumerated in the place, where they were born. This suggests a bulk of the population is almost immobile. A little over one fifth of the population 111,525 persons or 21.20% was enumerated in the district of birth. This emphasises limited mobility of the population. Thus a little over four-fifths of the population 84.79% was born and enumerated in the district itself. Of the population that migrated to Shajapur as many as 20,557 persons or 3.91% of the population came from Rajgarh district. Other persons born in neighbouring districts hail from (1) Dewas 1.26%; Sehore 2.16%; (3) Ujjain 2.42% and from non-contiguous districts 2.10%. Only 0.09% were born outside India. The table below gives the details.

Table-Showing the place of birth-Shajapur District.

	Place of birth	Persons	Percentage
	1	2	3
1	Persons born in the		
	(a) Place of Enumeration	334,573	63.59
	(b) District of Enumeration	111,525	21.20
2	Contiguous Districts	51,270	9.75
	(a) Dewas Distt.	6,639	1.26
	(b) Sehore Distt.	11,343	2.16
	(c) Ujjain Distt.	12,731	2.42
	(d) Rajgarh Distt.	20,557	3.91
3	Non-Contiguous Distts.	11,023	2.10
4	In Other Districts of Madhya Pradesh	62,293	11.85
5	In Other States of India	17,214	3.27
6	Outside India	499	0.09
7	Unclssifiable	31	Neg.
	District Population	526,135	100.00

Religion.

The district has returned the following six major religions:—(1) Hindus; (2) Muslims; (3) Jains; (4) Christians; (5) Sikhs and (6) Buddhists. There were no returns for Jews and Parsees. The table below gives the comparative data regarding growth of population religionwise.

Table— Showing Population Variation Religionwise (1951-1961)

Religion	1951		1961		Decade Variation	
	Persons	Percentage	Persons	Percentage	Persons	Percentage
1	2	3	4	5	6	7
Total population	433,216	100.0	526,135	100.0	+92,919	+ 21.4
Hindus	392,152	90.5	472,794	89.9	+80,642	+ 20.6
Muslims	34,940	8.1	45,542	8.7	+10,602	+ 30.3
Sikhs	226	0.1	248	Neg.	+ 22	+ 9.7
Jains	5,855	1.3	7,434	1.4	+ 1,579	+ 27.0
Christians	43	Neg.	108	Neg.	+ 65	+151.2
Buddhists	...	...	4	Neg.	+ 4	+100.0
Others	...	...	5	Neg.	5	+100.0

From the above table it follows that the Muslim population has shown a high rate of growth 30.3%, a rate much higher than district increase of 21.4%. The increase in Christians appears in terms of percentage high, but it is not so. The Buddhists are returned for the first time. The Jains have also returned a higher increase 27.0%, than the Hindus 20.6%, whose increase is below the district figure of 21.4%.

The Hindus

They live in the rural and urban areas, but in the latter areas they constitute only 66.17% of the population as against 89.9% of the district population.

The Muslims

The total population 45,542 persons–23,482 males and 22,060 females represents an increase of 30.3% over the 1951 population. A little more than one fourths-30.87% or 14,059 persons are living in urban areas, which represents a fairly high percentage of Muslims as urban dwellers. Muslims in urban areas constitute 26.51% of the total urban population of the district.

The Jains

Out of a total population of 7,434 persons, 3,690 persons or 49.64% live in urban areas and the remaining a little more than half in rural areas. The total population of Jains in urban areas constitute 6.96% of the urban areas. Thus Hindus 66.17%, Muslims 26.51% and Jains 6.96%form the bulk–99.64% of urban population.

The Mother Tongue.

In 1951 fourteen languages-four of them had

seventeen dialects among them-were returned. In 1961, as many as 38 languages have been returned. The table below gives the details of the major languages returned as mother tongue. (Languages with 2,500 or above speakers alone included in the table).

Table—Showing Language (Mother Tongue) Returns.

Language	Percentage	Population			Total	Urban	Rural
		Persons	Males	Females			
1	2	3	4	5	6	7	8
Total population	100.00						
1 Hindi	86.26	100.00	52·14	47.86	100	91.70	8.30
2 Malvi	5.78	100.00	52.49	47.51	100	99.00	1.00
3 Marathi	0.52	100.00	52.63	47.37	100	37.31	62.69
4 Gujarati	0.52	100.00	24.02	75.98	100	65.13	34.87
5 Urdu	6.31	100.00	43.18	56.82	100	66.04	33.96

From the above it follows that Hindi is the main language spoken in the district. With 453,834 persons returning it as mother tongue constitute 86.26% of the total population. Urdu with 33,206 speakers constitute 6.31% of the total population. Another interesting feature of Urdu speakers is that as against 8,476 males 13,454 females from rural areas have returned it as mother tongue. The returns of the above languages in 1951-61 are given in the inset table below.

Table-Showing decade variation of speakers in main languages of the district.

Language	Decade Variation		+ Increase − Decrease	Percentage Variation (+) (—)
	1951	1961		
1	2	3	4	5
Hindi	359,427	453,834	+ 94,407	+ 26.27
Urdu	6,071	33,206	+ 27,135	+446.96
Malvi	60,119	30,416	— 29,703	— 49.41
Gujarati	1,122	2,727	+ 1,605	+143.05
Marathi	1,764	2,715	+ 951	+ 53 91

From the above tables it follows that during the decade more persons than ever returned Urdu as their mother tongue, the growth of Urdu speakers has been phenomenal. Local enquiries reveal that a certain section of a community conducted a campaign to return Urdu as their mother tongue. Some complaints were also made to the District authorities reiterating that Urdu should be recorded as their mother-tongue. The mother-tongue was recorded as actually returned by a deponent. The complaints were particularly from Agar tahsil. The rise in the number of Gujarati and Marathi speakers has been of a fairly high order. Among other languages that have shown an increase in the number of speakers, the following deserve a mention (1951 figures given in bracket for enabling comparison).

Marwari 1,333 (619), Punjabi 341 (201), Sindhi 552 (314), and Telugu 63 (11). The following foreign languages have been returned: Chinese 1, English 2, Arabic 40 and Persian 9. The following appear for the first time: Kannad 22, Nepali 8, Malayalam 4 Oriya 1 and Tamil 14.

Literacy

The district has returned 141 literates per 1,000 persons. This is a marked improvement over the 1951 return when only 8.4% were returned as literates. The variation is indicated below:—

Table-Showing decade variation in Literacy

Year	Total Literates P.	M.	F.	Increase persons (only)	Percentage Variation
1	2	3	4	5	6
1951	36,486	32,073	4,413		
1961	74,325	63,191	11,134	+ 37,839	+ 103.71

Yet with all this progress the district remains much behind the State literacy figure of 17.1%. The position of other district *vis-a-vis* Shajapur in this respect is Dewas 17.3%; Ujjain 23.4%, Sehore 21.5% and Rajgarh 10.0%

Among the tahsils the break up of 100 literates between males and females is as follows:-

District/Tahsil	Persons	Males	Females
1	2	3	4
Shajapur District	100.00	85.02	14.98
Susner Tahsil	100.00	86.43	13.57
Agar Tahsil	100.00	82.02	17.98
Shajapur Tahsil	100.00	84.46	15.54
Shujalpur Tahsil	100.00	86.65	13.35

As between the rural and urban areas the position in tahsils is as follows:—

Total Literates 100

District/Tahsil	Total	Rural	Urban
1	2	3	4
Shajapur District	100.00	71.64	28.36
Susner Tahsil	100.00	71.84	28.16
Agar Tahsil	100.00	63.94	36.06
Shajapur Tahsil	100.00	71.25	28.75
Shujalpur Tahsil	100.00	76.56	23.44

Among the tahsils the literacy is as follows:-

Table-Showing Literacy Tahsilwise

District/Tahsil	Total Rural Urban	Persons	Males	Females
1	2	3	4	5
Shajapur District	T	14.13	23.34	4.36
	R	11.25	19.85	2.19
	U	39.75	53.64	24.30
Susner Tahsil	T	13.50	22.63	3.79
	R	10.89	19.22	2.06
	U	34.82	49.99	18.15
Agar Tahsil	T	11.78	18.95	4.32
	R	8.43	14.67	1.93
	U	40.22	55.06	24.65
Shajapur Tahsil	T	15.63	25.55	5.03
	R	12.38	21.81	2.36
	U	44.62	58.13	29.50
Shujalpur Tahsil	T	14.51	24.41	3.99
	R	12.23	21.71	2.26
	U	37.01	49.69	22.14

From the above it appears that Shajapur tahsil leads in literacy among the tahsils and is followed by Shujalpur.

The Scheduled Castes & Tribes

The Scheduled Castes and Tribes in the district were enumerated with the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956. Owing to this modification it is not possible to compare the 1951 figures with the present ones. The district has returned 119,650 persons, 60,393 males and 59, 257 females as Scheduled Castes and 45 persons, 35 males and 10 females as Scheduled Tribes.

Scheduled Castes

In all 24 castes have been returned. There are five castes which have returned more than 1,000 persons. These are Bagri 10,152; Balais 51,842 Chamars 48,873; Mehtar 3,096 and Nat 2,214. They constitute 97.10% of the total Scheduled Caste population of the district. The other castes returned are: (1) Banchada 947, (2) Bargunda 494, (3) Basod 241, (4) Bedia 21, (5) Bhanumati 151, (6) Chidar 44, (7) Dhed 8, (8) Dom 99, (9) Dhanuk 33, (10) Kanjar 384 (11) Khatik 226, (12) Koli 279, (13) Kotwal 6, (14) Mahar 24, (15) Meghwal 2, (16) Pardhi 408, (17) Pasi 63, (18) Sansi 35 and (19) Mang 8.

The Balais

Numerically it is the most important caste in the district. There are 51,842 persons or 43.33% of the total Scheduled Castes of the district. They live mostly in the rural areas. The term Balai according to Russel and Hiralal is derived from the Hindi word *bulahi* meaning one who calls or is a messenger. Thus Balais are a functional caste of weavers and village watchmen. Ranglal in his 1931 Report wrote*: "The Balai is probably an offshoot of the large Koli caste and in many places the two groups are in their own parlance indistinguishable." Their main occupations are:

Category of work
(For explanation of categories please see p. iii of notes and Explanations)

Total Workers	I	II	III	IV	V	VI	VII	VIII	IX
100.00	46.84	45.32	2.52	0.64	0.11	0.41	0.05	0.37	3.64

Total persons 1,000
Workers 630
Non-workers 370

Balais are thus mostly engaged as cultivators, agricultural labourers, in other services and in mining, quarrying etc. The rate of participation is much higher as compared to the district.

The Chamars

Numerically the second important caste of the district. The Chamars are workers in leather and hides; the name being derived from Sanskrit '*charm*' meaning skin or hide and *kar* worker : hence "charmkar". They are the traditional shoe makers, shoe repairers, the cobbler and one who flays and tans hides. They number 48,873 persons or 40.85% of the total Scheduled Castes. They live mostly in rural areas. Their occupational pattern is :

Category of work

Total Workers	I	II	III	IV	V	VI	VII	VIII	IX
100.00	27.76	50.16	3.45	12.14	0.51	0.86	0.11	0.09	4.92

Most of the workers are engaged as agricultural labourers and in cultivation. In the Household Industry 12.14% are working. This consists of making and mending leather goods. Other services claim 4.92%. As many as 665 persons are still engaged in tanning and flaying of skins and hides. Among the Chamars there are 611 workers per 1,000 persons. This is a high participation rate when compared to the district figure of 537.

Bagris.

There are 10,152 Bagris which constitute 8.48% of the total Scheduled Castes. In 1901 their traditional occupation was returned as labourers and cultivators. The table below indicates their distribution among different occupations.

Category of work

Total Workers	I	II	III	IV	V	VI	VII	VIII	IX
100.00	32.73	41.97	5.48	14.68	0.05	0.28	0.02	0.21	4.58

Total persons 1000
Workers 602
Non-workers 398

A majority of the workers are engaged as agricultural labourers followed by cultivation, household industry and workers in other services account for nearly all the workers of the caste. The participation rate is much higher than the district rate which is 537 only.

Mehtars.

Mehtar or Bhangi is the traditional caste of sweepers. The 1931 Report mentions about them as being untouchables. They are no longer regarded as such. They number 3,096 persons or 2.59%of the total Scheduled Caste population. The table below indicates their occupational pattern :

Category of work

Total Workers	I	II	III	IV	V	VI	VII	VIII	IX
100.00	8.30	27.54	10.21	0.13	0.13	0.59	0.20	1.98	50.92

Total persons 1000
Workers 490
Non-workers 510

* Census of India, 1931, Vol. XXII-Gwalior, Part I - Report, by Ranglal, p. 234.

Thus their highest number is in other services followed by workers as agricultural labourers and in mining, quarrying etc. The rate of participation 490 is much less than the district figure of 537. As many as 209 (Urban) +352 (Rural) = 561 are still engaged in scavenging.

Nat.

This is the traditional caste of acrobats, gypsies and performers. The tribe derives its name from 'Nata' Sanskrit meaning dancer. They constitute 1.85% of the population, numbering 2,214 persons. Their occupational pattern is as follows :

	Category of work								
Total Workers	I	II	III	IV	V	VI	VII	VIII	IX
100.00	23.67	54.82	6.93	2.07	0.08	...	4.86	...	7.57

Thus they are mostly working as agricultural labourers, or cultivators, followed by workers in other services and in Mining and Quarrying etc. Out of 1,000 persons 567 persons have been returned as workers. This is a slightly higher rate of participation than that returned by the district.

The Scheduled Tribes.

There are only 45 persons–35 males and 10 females who have been returned as Scheduled Tribes. These are mostly Gonds (39) Korku (4) and unclassifiable (2). The details being :—

Name of the Tribe	Total			Urban			Rural		
	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10
Total	45	35	10	15	8	7	30	27	3
Gond	39	32	7	13	7	6	26	25	1
Korku	4	2	2	–	–	–	4	2	2
Unclassifiable	2	1	1	2	1	1	–	–	–

Out of these 45 persons, 29 males and 6 females live in Shajapur tahsil and 8 in Shujalpur and 2 in Susner town. Shajapur is thus one of the very few districts in the State which has so little Scheduled Tribes Population. Among other districts which have returned few Scheduled Tribes the following may be mentioned : Sagar and Damoh both nil, Ujjain 130, Indore 462, Bhind 477 and Mandsaur 534.

The Rural/Urban Population.

For every 1,000 persons in the district,899 are living in rural areas. This underlines the rural nature of the district. When compared to other adjoining districts the position is—

District	Proportion of rural/urban population to 1,000 total population	
	Rural	Urban
1	2	3
Ujjain District.	676	324
Dewas District	849	151
Sehore District	640	360
Rajgarh District	905	95
Jhalawar (Rajasthan)	923	77

Out of the above districts Sehore and Ujjain districts have important cities, in which industries are located : hence Shajapur should not be compared to them. When compared to the other districts Shajapur appears to have a greater proportion of urban population than others.

The decade variation of urban population has been as follows—

District	Proportion of Rural/Urban population to 1000 total population.					
	1951			1961		
	Total	Rural	Urban	Total	Rural	Urban
Shajapur District	1,000	920	80	1,000	899	101

Thus the decade shows an increase in the proportion of urban dwellers. During the decade the addition of Susner and Nalkhera in urban areas has also been responsible for the increase. The break-up of rural/urban composition during the decade is as under—

District/ Tahsil	1951			1961		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
Shajapur Disirict	100.00	100.00	100.00	100.00	100.00	100.00
Agar Tahsil	20.85	20.08	29. 3	20.68	20.57	21.66
Susner Tahsil	18.64	20.27	...	18.33	18.16	19.87
Shajapur Tahsil	32.62	32.00	39.78	32.68	32.68	32.66
Shujalpur Tahsil	27.89	27.65	30.59	28.31	28.59	25.81

Thus Shajapur continues to have the maximum urban concentration. This is due to its being the district headquarters. Shujalpur the main trade centre of the district retains its second position in urban concentration although with a reduced proportion. This is due to emergence of Nalkhera and Susner as towns. These constitute 19.87% of the urban population. The rural proportion of the population have remained more or less unchanged except in the case of Susner–where the same rural population is now in the urban category.

The Working Force.

Out of a population of 526,135 persons 282,665 have been returned as workers; thus for every 1,000 persons there are 537 workers. The comparable position of the district with others is indicated below—

State/Division/ District	Total Population			Total Workers		
	P	M	F	P	M	F
1	2	3	4	5	6	7
Madhya Pradesh	1000	1000	1000	523	602	440
Bhopal Division	1000	1000	1000	504	603	396
Shajapur District	1000	1000	1000	537	606	464
Sehore District	1000	1000	1000	463	593	313
Ujjain District	1000	1000	1000	487	579	387
Dewas District	1000	1000	1000	520	580	456
Rajgarh District	1000	1000	1000	549	625	467

A high participation rate does not necessarily indicate an economic advancement even though it may suggest less of dependency. It has generally been observed that districts with little urban characteristics and dependent mostly on agricultural economy return higher participation rate. The above remarks explain the lesser participation figures of Ujjain, and Sehore. Thus if anything a higher participation rate emphasises the essential backwardness of the tract mainly due to lack of of industrialisation and lack of the growth of urban areas.

Workers

For the Census Working Categories please see p.iii of notes and explanations.

The Non-Workers.

The non-workers (463 per 1,000) are divided into eight categories- (1) full time students (2) engaged in household duties, (3) dependents or infants and disabled, (4) retired, rentier or of independent means, (5) beggars, vagrants etc., (6) inmates of institutions (7) persons seeking employment for the first time and 8) unemployed but seeking work. The table below gives the details of the non-workers as classified in the above categories.

Table–Showing the Classification of Non-workers

Non-workers as	Total			Rural			Urban		
	P.	M.	F.	P.	M.	F.	P.	M.	F.
1	2	3	4	5	6	7	8	9	10
Total non-working population	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00
Full time students	11.67	22.73	3.05	9.85	20.02	1.68	22.66	41.24	10.60
Household duties	15.78	0.04	28.03	13.80	0.04	24.83	27.72	...	45.70
Dependents, infants and disabled	71.56	75.70	68.35	75.46	78.64	72.91	48.06	55.62	43.16
Retired, rentier, or independent means	0.36	0.45	0.29	0.30	0.30	0.30	0.73	1.46	0.26
Beggars, Vagrants etc.	0.54	0.89	0.27	0.54	0.87	0.28	0.56	1.06	0.24
Inmates of institutions	0.01	0.02	0.01	Neg.	0.01	...	0.06	0.11	0.03
Persons seeking employment for the first time	0.03	0.06	Neg.	0.02	0.04	...	0.06	0.15	Neg.
Unemployed but seeking work	0.05	0.11	Neg.	0.03	0.08	...	0.15	0.36	0.01

From the above it follows that the non-workers are mainly from three categories. Persons who are dependents, infants and disabled constitute 71.56% of the entire category, this is followed by those engaged in household duties. As many as 28.03% of female non-workers are

engaged in this category: the males only constitute 0.04% in this category. Full time student account for 11.67% of the non-workers: the-males completey outnumber female non-workers in this category. In the urban areas 41.24% of the non-workers are from this category and even among the females the percentage goes upto 10.60% as against 1.68% in rural areas and 3.05% for the district. Thus these three categories account for 99.01% of the non-workers, in the district (98.%44 in urban areas and 19.11% in the rural areas). Among the rest beggars and vagrants account for 0.54% followed by rentier and retired types 0.36% in the district and 0.73% and 0.56% in the urban areas respectively.

The Table below gives the details of the pattern of work:—

The Pattern of Work

S. No.	Category	Category of work Description	Total No. of workers in the category	Percentage to total No. of workers in the district	Ranking
1	2	3	4	5	6
1	I	Cultivation	169,420	59.9	1
2	II	As Agricultural Labourer	58,652	20.8	2
3	III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied-activities	9,709	3.4	5
4	IV	At Household Industry	16,023	5 7	4
5	V	In Manufacture other than Household Industry	2,230	0.8	7
6	VI	In Construction	1,734	0.6	8
7	VII	In Trade & Commerce	6,537	2.3	6
8	VIII	In Transport, Storage and Communications	1,413	0.5	9
9	IX	In Other Services	16,947	6.0	3

Thus cultivation and agricultural labourers account for over four fifths or 80.7% of the workers. This is followed by Other Services and Household Industries which are mostly spread out in the rural areas. Very few workers have been returned under the head Manufacturing other than Household Industries. This is due to the fact that there are very few industries in the district. Even the pattern of trade and commerce is of the conventional and retail type. The break-up of the pattern of the work in the district is indicated in the table below:—

Table–Showing 100 workers distributed among the categories of work, tahsilwise.

District/ Tahsil	Total workers	Workers in I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10	11
Shajapur District	100.0	59.9	20.8	3.4	5.7	0.8	0.6	2.3	0.5	6.0
Susner Tahsil	100.0	64.5	16.0	4.5	5.4	0.5	0.4	2.2	0.2	6.3
Agar Tahsil	100.0	61.3	20.8	3.2	4.6	1.0	0.6	2.7	0.4	5.4
Shajapur Tahsil	100.0	60.3	22.3	2.5	5.2	0.8	0.8	2.1	0.7	5.3
Shujalpur Tahsil	100.0	55.5	22.2	3 9	7.0	0.8	0.6	2.5	0.6	6.9

From the above Shujalpur tahsil returns the least population of workers in cultivation although it along with agricultural labourers returns over three fourths 77.7% of its total working force in these two categories. Another noticeable feature about Shujalpur is that, in the district it returns the highest percentage of workers in the Household Industry and in Other Services. Shujalpur is the only rail head on broad guage among all the tahsils. Susner tahsil has the highest percentage in cultivation: but workers as agricultural labourers total only 16.0%. It is Shajapur tahsil which has the highest percentage of workers 82.6% in these two categories. Among the tahsils Agar is nearest in conforming to the pattern of work in the district.

Cultivation.

The total area according to the Director of Land Records is 1,526,365 acres (1960–61) and there is no forest area. Shajapur is the only district in the State which has no forest area. Even the industrial city district of Indore and most densely populated district of Bhind have returned some forest area. The break-up of the total area is :—

Total Area	Area not available for cultivation.	Non-Agricultural area (acres)	Barren and uncultivable land	Area under uncultivated land other than fallow lands	Permanent pasture and other grazing lands
1	2	3	4	5	6
1,526,365	277,554	65,245	212,309	434,881	168,676

Land under miscellaneous trees and crops not included in Col. 11	cultivable waste	Total fallow land	Current fallow	Net area sown	Area cropped more than once
7	8	9	10	11	12
406	265,799	23,189	8,060	790,741	29,836

Thus of the total area, 51.81% is the area net-cropped. The area cropped more than once is only 29,836 acres or 3.64% of the total cropped area, which is very little. It would be interesting to note that in 1900–01 the total irrigated area was 6% and out of 354,180 acres net sown in the district. After sixty years although the net cropped area more than doubled itself the irrigated area went down a little more than half.

During the decade there has been an increase in the net area cropped The increase is indicated below—

Year	Area net sown	Decade variation	Percentage variation
1951–52	689,151		
1960–61	790,741	+ 101,590	+ 14.74

The net area sown has steadily been going up. Excepting in 1955–56 when the area net sown was less than the preceding year, the area has shown steady rise. Thus in 1960–61 the area net sown was the highest during the decade.

The Cropping Pattern.

In the beginning of the twentieth century the district sowed more kharif crops than the rabi ones. This position continues even now. The table gives the details of cropping pattern–

Table-Showing Cropping Pattern
Area Sown under various Crops in 1960-61.

District/ Tahsil	AREA SOWN UNDER										
	Net Area Sown	Rice	Jowar	Maize	Wheat	Total Cereals and Millets	Gram	Tur	Other Pulses	Total Pulses	Total Food-grains
1	2	3	4	5	6	7	8	9	10	11	12
Shajapur District	100	1.83	37.62	2.65	19.37	61.73	3.77	2.77	3.04	9.59	71.32
Susner Tahsil	100	2.48	41.52	5.99	4.22	54.53	2.07	1.74	2.54	6.37	60.90
Agar Tahsil	100	0.56	45.37	4.73	4.61	56.09	2.31	2.46	1.84	6.61	62.71
Shajapur Tahsil	100	1.98	37.22	1.48	15.34	56.07	3.34	3.11	2.86	9.32	65.40
Shujalpur Tahsil	100	2.13	30.94	0.54	40.70	74.36	6.01	3.23	4.24	13.50	87.86

District/ Tahsil	AREA SOWN UNDER								
	Total Condiments and Spices	Total Food Crops	Ground nut	Total Oil-seeds	Cotton	Total Non-Food-crops	Total Area Sown (net area-100) Area sown more than once	Net Area Sown	Area Sown more than once
1	13	14	15	16	17	18	19	20	21
Shajapur District	1.57	73.74	3.12	3.98	25.33	30.02	3 77	96.36	3.64
Susner Tahsil	2.18	63.52	4.84	5.75	37.10	43.98	7.61	92.93	7.07
Agar Tahsil	0.78	63.98	0.70	1.37	37.96	40.53	4.52	95.68	4.32
Shajapur Tahsil	2.50	68.69	6.03	6.71	26 89	34.01	2.71	97.36	2.64
Shujalpur Tahsil	0.88	90.04	1.05	2.16	9.47	12.07	2.12	97.92	2.08

The following salient features deserve some mention.

Only in Shujalpur tahsil the acreage under rabi crops is proportionately high being nearly 50%. The soil in this tahsil is comparatively rich being of the black cotton variety. The cultivation is mostly of the dry type and the potential irrigation sources seem to be the privately owned wells, the lift irrigation sites on the rivers and the medium sized projects. Digging of wells seems to have made some headway and good results may be expected. The cultivators appear to be taking to irrigation and sowing of cash crops.

The Crops : (Area figures refer to the year 1960–61)

Kharif Crops
Food Crops

Rice:—Rice was sown in 14,632 acres in 1951–52 and 14,502 in 1960–61; thus the acreage has not changed much. This, however, represents the highest acreage under this crop. During the intervening years it varied between 10,980 acres in 1955–56 to 14,202 in 1956–57. The rice is of coarse variety and is unirrigated.

As among the tahsils the area sown in Susner 2.48% is proportionately the highest. Rice is sown in 1.83% of the net area. Rice was sown in about 5,000 acres at the beginning of the century. The best quality rice of the district EB. 17 also locally called Basmati is grown in Polai village in Shujalpur tahsil.

Jowar :—The acreage under jowar has been more or less steady during the decade. It fell to 216,451 acres in1956–57, the highest area under jowar was 297,493 acres in 1960-61 which constituted 37.62% of the net area sown. Jowar was sown in about 25% of the area of the old district in the years 1901–02 to 1904–05. During that period opium was sown in almost 28% of the area. This has been discontinued now. Jowar is sown all over the district, but proportionately the acreage is highest in Agar tahsil where 45.37% of the total area is sown with jowar.

Maize—Maize is sown in 21,019 acres or 2.66% of the net area sown. The acreage under maize has been steady throughout and has not varied much. The proportionate acreage is highest in Susner 5.99% and lowest in Shujalpur 0.54%. It is an unirrigated crop.

Tur—Tur was sown in 21,938 ac es or in 2.77% of the net area sown. The area has remained more or less constant during the decade except in the year 1953–54 when 30,082 acres were sown. It is mostly unirrigated. Among the tahsils, the area under tur is proportionately highest in Shujalpur being 3.23%; although the variation is not very conspicious.

Bajra;—Bajra was sown in 1,127 acres. The area has shown some increase during the decade yet it is still in a negligible proportion.

Non–Food Crops

Sugar cane:—The area under sugarcane is 3,754 acres. The variation during the decade has been somewhat erratic for the acreage has varied from 999 acres in 1952–53 to 4,907 in 1956–57. It is entirely an irrigated crop. The increase, lately in the area under sugarcane, is due to the good prices of sugarcane and gur. Although Sehore Sugar Mills take some produce specially from Shujalpur tahsil, but much cane is still left over and the cultivators now make 'gur' jaggery out of it. The boom in gur prices makes it profitable. There are as many as 6 centres for collecting the sugarcane for transmission to Sehore Mills : these are :—(1) Kalapipal, (2) Narola, (3) Bhaisawa, (4) Peepliyanagar, all in Shujalpur tahsil and (5) Nipania, and (6) Maina in Ashta tahsil, but these centres are nearer some villages in Shujalpur tahsil.

Ground Nut.

Groundnut is sown in 24,700 acres or 3.12% of the sown area. In Shajapur tahsil 6.03% of the total area is sown with ground-nut. Proportionately this is the highest acreage only 718 acres were irrigated. The crop is mostly unirrigated and in the past few years owing to good prices seems to have been very popular. The ground nut of Mori village in Susner tahsil is extremely popular and considered as the best in the district.

Cotton—Cotton was sown in 200,370 acres. The acreage has varied only slightly during the decade. Cotton was sown in almost the same proportion at the beginning of the century. There are as many as 45 (thirteen were not functioning)* Ginning and Pressing Factories. The proportionate area under cotton is highest in Agar tahsil being 37.96% closely followed by Susner. It is the least in Shujalpur. Cotton is mostly an unirrigated crop and grows well in the black soil found in the district. In 1960–61 cotton was sown in 25.33% of the total area. Whereas area under cotton shows a decrease, the area under ground nut has steadily been increasing. It has been pointed out that the cotton crop is more vulnerable to natural calamities and the risk involved is thus greater. Ground nut, however, is a more hardy crop, hence preferred. The Deshi Cotton Breeding farm has been conducting research and supplying improved varieties of seed.

---

* Source:—List of Industrial Establishments in M.P. 1961 compiled by Chief Inspector of Factories, M.P. Labour Department, Indore (M.P.)

Til:—The acreage under til has varied from 3,711 acres in 1956–57 to 8,836 in 1951–52. It was sown in 3,971 acres in 1960–61.

Linseed :—The acreage under linseed has varied form 2,646 in 1957–58 to 8,866 in 1951-52. It is mostly sown as a subsidiary crop and is unirrigated.

The Rabi Crops

The *rabi* crops are sown in winter but reaped before the commencement of summer. These are wheat, gram, barley, condiments and spices.

Wheat :—

Nearly one fifth of the area 19.37% is sown with wheat. The area has shown great variation, it was 63,988 acres in 1951–52 and rose to 223,561 in 1958–59. It was sown in 153,239 acres in 1960–61 and only 10,337 acres or 6.75% were irrigated. Thus wheat is mostly of the un-irrigated type. The pattern has remained more or less the same during the last few years. Among the tahsils, Shujalpur shows 40.70% of the area being sown with wheat and this is the highest proportion of wheat sown in the district. Wheat grown in Shujalpur tahsil is of a very good quality.

Gram :—

The acreage under gram has remained more or less steady during the decade. It was sown in 29,834 acres although only a year before in 1959–60 the acreage was 50,791 acres. Only 1,364 acres or 0.67% are irrigated. Among the tahsils Shujalpur has returned the highest proportion of the area sown with gram.

Barley :—

Barley is sown in 678 acres and the acreage had never been very high.

Condiments and Spices :—

The area under condiments and spices has been going up steadily. It was only 6,872 acres in 1951–52 and has risen to 12,434 acres in 1960–61. These are mostly irrigated and grow in small areas. The main ones are : onions, garlic, chillies, coriander and ginger.

Fruits and Vegetables

There has been an increase in the area under fruits and vegetables. The main fruits are:—lemons, oranges, mosambis and mangoes of the local variety. The Horticulture Farms and Nursery at Shajapur has supplied saplings to many cultivators. A few cultivators have taken to horticulture only recently. Such farms may be found in Lohari, Rampura, Newasa, Mojhania, Sunhera all in Shujalpur tahsil, Momin Barodia and Shajapur in Shajapur tahsil, Jamunia in Susner and in Agar.

The Irrigation Facilities

Only 30,270 acres out of 1,526,365 acres or 3.83% of area sown is irrigated. The area under irrigation has nearly doubled itself. The details are :—

Year	Area Irrigated	Decade Variation	Percentage Variation
1	2	3	4
1951--52	17,193		
1960--62	30,270	+ 12,777	+ 73.04

The main sources of irrigation are the wells and tanks canals; the details being :—

Total Area Irrigated	Sources			
	Wells	Canals	Tanks	All other sources
1	2	3	4	5
30,270	26,133	974	2,881	282

Apart from this a sum of Rs. 4,251,834 has been advanced in 1963–64 and 1964–65 for construction of 4,221 irrigation wells. At the time of going to press (July 65), 1965 had been completed and another 2,283 were in progress. These when complete will boost up the irrigation by about a nother 10,000 to 15,000 acres. (Also please see under Irrigation pp xli).

Agricultural Practices.

The district lies in the Malwa Plateau with a mean elevation of 1450 above sea level. A major part of the soil is the black cotton soil which is locally known as *Kali*–and is classified into three categories viz. I, II and III. In the

other lighter soils—*salgatta, khardi, gorma, dhamni*—ground-nuts, maize and fruit trees are grown. The district has no forest and during the decade there has been considerable progress in land utilisation.

Out of the four tahsils-the following three Agar, Susner and Shajapur grow kharif crops, rabi crops constituting only 15%. In Shujalpur tahsil the percentage is 50.50 and wheat is grown in considerable area. The rainfall varies between 30" to 35" in all the three tahsils excepting Shujalpur where it is between 35" to 40". With this meagre rainfall and very limited facilities of irrigation, the cultivation thus remains of the dry type. When the Cheelar river and Piplia Kumhar Projects are completed, 20,000 acres of land are likely to be brought under irrigation.

In the last few years some efforts to improve methods of cultivation have been made. One Seed Multiplication Farm was established In 1958-59 near Shajapur and improved varieties of seeds are supplied to the cultivators through the agencies of N. E. S. Blocks.

A Nursery has been established for supplying saplings. The distribution of fertilisers has been going up each year. This emphasises the growing popularity of the fertilisers. The 'chauphali' or four rows system of sowing cotton seems to be becoming very popular, it ensures easier sericulture operations.

A Plant Protection Unit has been established in the district recently-July 63. Among the improved implements that are noticed are : canes crusher, winnowers, Indore Ridgers (particularly useful for ground-nut cultivation). The cultivators are taking to irrigation, atleast slowly, because this depends on many factors, a few of which beyond their control. A preference for cash crops over food crops is also noticeable. In the beginning of the twentieth century, opium was sown; this has now been discontinued and except for a few acres near Barod, opium is not sown now.

As in the case of Rajgarh district the Agra-Bombay National Highway 3, seems to weave a pattern of cultivation-economic growth-in short- away of life. Towards the east and south east, the rabi cultivation is comparatively more and soil is of higher fertility than that which is opposite in the western of the High-way. Thus in Shujalpur tahsil a cultivator is more well to-do than his counter part in Agar or Susner tahsil.

Agricultural Labourers

The agricultural labourers form two distinct categories (a) the permanent types called *harwaye* (b) the casual type.

The Permanent Type:

The *harwayes* are usually engaged on a season to season basis, that is from the commencement of operations connected with cultivation from before the end of summer, to the beginning of next summer by which time the rabi crops have been cut and stored. This gives *harwayes* a period of 9-10 months of work. They are paid between Rs. 300.00 to Rs. 350.00 for the season, which gives them an average of Rs 25.00 to Rs. 30.00 per month. The payments are usually in kind; grain is advanced and price adjusted against the wages. Besides these they may also be given gifts like clothes, shoes on festivals. They are locally easily available. Only cultivators with large holdings (over 15 acres) engage them. The rest manage with the casual labourers.

The Casual Type

When wheat is about to be cut in *Chaitra* (March/April) labourers are known to come from places as far as Rewa. They are paid in kind and the system is known *Bisauri* or *Dasauri* meaning "for twenty or for ten" respectively. By this mode of payment they receive one stack for every twenty or the ten cut by them. By this method they earn 3 to 5 kilos of wheat a day. In Shujalpur tahsil, which mostly grows wheat, a comparative scarcity of labourers has been observed : but for this the labourers are otherwise available.

Sometimes the labourers are also engaged on cash payment. The rates vary and are higher in summer because the day is long which means

more working hours and that heat makes conditions difficult. It is reported that during summer it is difficult to find labourers for less than Rs. 2.00 per day. In other seasons rate of payment is Rs. 1.50 for males. Some labourers are also known to come from the Rajasthan side particularly in Susner tahsil.

In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied Activities.

There are 9,709 persons 8,793 males and 916 females constiuting 3.4% of the total workers in this category. The main categories are:—

S. No.	Code No.	Brief Description of the Category	No. of Workers			Percentage to the Category
			Persons	Males	Females	
1	2	3	4	5	6	7
1	005	Production of other crops (including vegetables) not cvered above (the following have been already covered production of cereals, pulses fibre crops and oil seeds).	133	75	58	1.4
2	031	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	156	156	...	1.6
3	040	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat.	8,882	8,180	702	91.5

The calling is almost entirely rural in scope for 92.35% are in the rural areas.

Workers in the Household Industry.

There are 16, 023 persons 10,734 males and 5,289 females or 5.7% of the total workers in the Household Industries. These are mainly spread out in the rural areas, the urban area having returned only 12.15%. The following are some of the major household industries:—

S. No.	Code No.	Brief Description of the category	No. of Workers			Percentage to total workers	Ranking
			Persons	Males	Females		
1	2	3	4	5	6	7	8
1	206	Production of butter, ghee, cheese and other dairy products	761	440	321	4.75	8
2	207	Production of edible fats and oils other than hydrogenated oil	460	251	209	2.87	10
3	235	Cotton weaving in handlooms	382	216	166	2.38	12
4	273	Making of textile garments including raincoats and headgears	1,401	1,160	241	8.74	4
5	282	Manufacture of structural wooden goods including treated timber such as beams, posts doors, windows	1,252	1,252	...	7.81	5
6	288	Manufacture of material from cork bamboo, cane leaves and other allied products	2,151	678	1,473	13.42	3
7	310	Currying, tanning and finishing of hides and skins and preparation of finished leather	857	470	387	5.35	7
8	311	Manufacture of shoes and other leather footwear	2,395	1,790	605	14.95	1
9	340	Manufacture of structural clay products such as bricks, tiles etc.	441	266	175	2.75	11
10	350	Manufacture of earthenware and earthen pottery	2,222	1,286	936	13.87	2
11	369	Manufacture of sundry hardwares	1,015	844	171	6.33	6
12	393	Manufacture of jewellery silverware and wares using gold and other precious metals	573	546	27	3.58	9

Re: The Household Industry:

The details of the first five household industries are given below:—

Making of shoes and leather foot wear is one of the major household industry. It is mostly confined to the Chamars and excepting for 330 persons 218 males and 112 females who work in the urban areas, the rest work in the rural areas. Their finished products are mostly shoes. This is followed by making earthen wares and pottery mostly by the Kumhars The calling is almost entirely rural manufacture of materials from bamboos, cork canes come next with 2,151 persons. This too s a rural vocation and more women than men have been returned as workers. The making of textile garments engages 1,401 persons. They are again mostly from rural areas and the garments manufacture are used by the local population. Manufactured of structural wooden goods and beams is carried on by males only and in rural areas. The category includes villages carpenters making structures for the houses.

Workers in Manufacturing other than Household Industry

There are 2,230 persons 1,979 males and 251 females constituting 0.8% of the total workers in this category. They work mostly in the urban areas where as many as 1,715 persons 1,529 males and 186 females constituting 76.91% of the workers in the category, live. Some of the main categories of work are:-

S No.	Code No.	Brief Description of the category.	No. of Workers			Percentage to total workers	Ranking
			Persons	Males	Females		
1	2	3	4	5	6	7	8
1	200	Production of rice, atta, flour, etc. by milling, dehusking and processing of crops and food grains.	198	194	4	8.88	4
2	209	Production of other food products such as sweet-meat and condiments, muri murki etc.	174	165	9	7.80	5
3	230	Cotton ginning, cleaning pressing and baling	258	243	15	11.57	3
4	273	Making of textile garments including raincoats and headgear	318	307	11	14.26	1
5	340	Manufacture of structural clay products such as bricks and tiles	284	148	136	12.74	2
6	393	Manufacture of jewellery, silverwares and wares using gold and other precious metals	139	138	1	6.23	6

Some details regarding the first three categories are—

(i) The making of textile garments including raincoats and headgear is confined to urban areas and includes tailoring establishment, (ii) the making of structural products like bricks and tiles is also confined to urban areas and that both males and females are engaged in the work, and (iii) cotton ginning and baling is spread out in the rural and urban areas: the proportion in urban area being slightly higher. This is perhaps so, because of the existence of the Ginning Factories in the following rural areas:- (1) Berchha 5 (2 closed); (2) Badodia 1; (3) Badod 2, (4) Momin Badodia 1, (5) Soyat 1, (6) Paylil(closed), (7)Kalapipal4 (1 closed), (8) Akodia 4 (2 closed), (9) Tanodia 1 (closed), (10) Zokar 1, (11) Kalapipal Mandi 1 (closed) and (12) Kali Sindh 1 (closed).

The employment of workers in these factories is a variable factor and the peak period is between middle of November to about the end of January. The appended statement gives the details of these factories.

List of Ginning Factories in Shajapur District.

S. No.	Name of place	Total No.	Closed	Continued	Average No. of persons employed	
					Average	Employed
1	2	3	4	5	6	7
1	Shajapur	4	1	3	98	100
2	Susner	3	1	2	...	86
3	Agar	6	1	5	136	237
4	Berchha	5	2	3	...	250
5	Nalkhera	4	...	4	68	100
6	Badodia	1	...	1	...	45
7	Badod	2	...	2	...	75
8	Moman-Badodia	1	...	1	4	...
9	Soyat	1	...	1	...	26
10	Payli	1	1	...	...	...
11	Shujalpur	5	2	3	10	300
12	Kalapipal	4	1	3	10	75
13	Akodia	4	2	2	103	100
14	Tanodia	1	1	...	...	...
15	Zokar	1	...	1	...	65
16	Kalapipal Mandi	1	1	...	...	...
17	Kalisindh	1	1	...	...	...
	Total	45	14	31	429	1,459-1,888

The assessment by the Chief Inspector of Factories gives the average workers at 429 as against actual figure of 258 persons (243 males and 15 females) against minor group 230:cotton, ginning, cleaning, pressing and baling on the reference date. As far as other manufacturing categories are concerned, manufacture of food stuffs and jewellery follow each other.

From the above statement it follows that there are no major industries in the district.

Workers in Construction

The district returns 1,734 persons 1,566 males and 168 females constituting 0.6% of the total workers in this category. The details are:—

S. No.	Code No.	Brief Description of the Category	No of Workers			Percentage to total workers
			P	M	F	
1	2	3	4	5	6	7
1	400	Construction and maintenance of buildings including erection, flooring, decorative. constructions electrical and sanitary installations.	1,229	1,127	102	70.88
2	401	Construction and maintenance of roads, railways, bridges and tunnels.	402	338	64	23.18

Nearly 41.74% of workers in Code No. 400 are from urban areas. It follows that they are engaged in various construction activities in the towns mostly as masons or general workers, In Code No. 401 the workers are generally those with the Railways or the Public Works Department.

Workers in Trade and Commerce.

There are 6,537 persons:- 6,067 males and 470 females or 2.3% of the workers in this category. As many as 47.64% of these are from urban areas. The details of trade and commerce are:—

S. No.	Code No.	Brief Description of the Category	No. of Workers P	M	F	Percentage to to total workers	Ranking
1	2	3		4		5	6
1	600	Wholesale trading in cereals and pulses	433	432	1	6.62	3
2	640	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, etc.	3,275	2,922	353	50.10	1
3	644	Retail trade in tobacco, bidi, cigarettes and other tobacco products.	335	325	10	5.12	5
4	650	Retail trading in fibres, yarns, silks, and other hosiery products	681	681	...	10.42	2
5	689	Retail trade in goods unspecified	394	338	56	6.03	4

From the above it follows that there is not much of trade or commerce in the district and mostly it is confined to retail trade of all sorts. Nearly two thirds of the workers in retail trade under code No. 640 are from the rural areas. A litte less than half of the workers in trade, under Code No. 650 are in urban area and nearly three fourths (351 out of 433) under the Code No. 600, wholesale trade are from the urban areas. Thus the pattern of trade in the district is the conventional type.

Workers in Transport, Storage and Communications :—

There are 1,413 persons:–1,408 males and 5 females or 0.5% of the total workers who have been returned in the above category. Out of these 551 persons:–548 males and 3 females or 38.99% of the category are in urban areas. The details are :—

S. No.	Code No.	Brief Description of the Category	No. of Workers Persons	Males	Females	Percentage to total workers	Ranking
1.	2	3	4	5	6	7	8
1	700	Transporting by railways	708	706	2	50.11	1
2	701	Transporting by bus service	164	164	...	11.61	2
3	702	Transporting by motor vehicles other than omnibus	128	128	...	9.06	4
4	703	Transport by road, through other means of transport such as hackney, carriage, bullockcart, ekka.	161	161	...	11.39	3

Workers in railways constitute the single biggest group in the above category. Out of 708 workers, 101 are in the urban areas of Shujalpur and Agar. Of the workers in the other categories as many as 127 out of 164 are from urban areas. Under the code No. 702 and 703 there are 69 out of 128 and 132 out of 161 persons in the urban areas. Thus this vocation is mostly urban in its range.

Workers in Other Services :

This category has returned 16,947 persons 12,054 males and 4,893 females as workers. They constitute 6.0% of the total workers and are spread out in urban and rural areas in the following proportion : 366 : 634.

The details of the category are

S. No.	Code No.	Brief Description of the Category	No. of Workers			Percentage to total workers	Ranking
			Persons	Males	Females		
1	2	3	4	5	6	7	8
1	500 and 501	Generation and transmission of electricity	25	25	...	...	...
		Distribution of electric energy	49	49	...	...	...
			74	*74*	...	*0.44*	*12*
2	511	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	701	361	340	4.14	8
3	803	Public service in police	1,054	1,054	...	6.22	4
4	805	Public service in administrative departments and offices of quasi-government organisation, municipalities local boards etc.	316	313	3	1.86	11
5	809	Public service in administrative departments and office of the State Government	1,407	1,392	15	8 30	3
6	811	Educational services such as those rendered by colleges schools and similar other institutions of non-technical type	1,702	1,537	165	10.04	2
7	820	Public health and medical services rendered by organisations and individuals such as by hospitals etc.	498	313	185	2.94	9
8	831	Religious and allied services rendered by pandit, priest, preceptor, fakir etc.	726	707	19	4.28	7
9	872	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties etc.	968	834	134	5.71	5
10	880	Services rendered to households by domestic servants, cooks	432	334	98	2.55	10
11	884	Hair dressing, and other services rendered by barbers, beauticians etc.	904	904	...	5.33	6
12	900	Activities unspecified and not adequately described	6,459	2,969	3,490	38.11	1

As many as 6,459 persons or 38.11% of the category could not be classified, for want of insufficient information particularly regarding their industrial classification. The Educational Services (811) have returned 1,702 persons or 10.04%. This is due fo considerable expansion in the educational facilities in the district (Also please see Education Department p. xliii). The increasing responsibilities of the Government under a welfare State are again reflected in the number of workers under Code 809 under which 1,407 workers have been returned. The Police force shows 1,054 persons. This is followed by workers under Code 872, which include members of circus, carnivals, dancing parties theatres etc. During this period (February-March) in the various melas, one often comes across such performers.

The Decade Variations 1951–61.

The table below gives the decade variation in various services:–

S. No.	Code No.	Brief description of the Category	1951 P	1951 M	1951 F	1961 P	1961 M	1961 F	Variation
1	2	3	4	5	6	7	8	9	10
1	820-21	Medical and Health Services	228	134	94	540	355	185	+ 136.84
2	810-11	Educational Services and Research	638	575	63	1,848	1,669	179	+ 189.66
3	803	Police (Other than village watchman)	526	525	1	1,054	1,054	...	+ 100.38
4	809	Employees of State Government	913	871	42	1,407	1,392	15	+ 54.11
5	805	Employees of local Boards & Municipalities	191	160	31	316	313	3	+ 65.45
6	880-81	Domestic Services	621	569	52	439	340	99	– 29.31
7	884	Barbers and beauticians	1,08	1,044	37	904	904	...	– 16.37

The increase in the educational services is the highest followed by almost all categories except those under domestic services barbers and beauticians have shown a great increase. Another striking feature is the increase in the number of female employees in Medical Health and Educational Services.

The Communications

The Rail Link

There is no air port or a landing strip in the district. The district headquarters Shajapur is not connected by rail yet. The Maksi Guna Broad Guage Section of the Western Railway, when complete and open to traffic will bring Shajapur on the rail. The link is under construction. When completed it will run through the central part of the district passing through Rajgarh to Guna. It will open up these two districts The Bhopal-Ujjain Nagada-Indore. Broad Guage passes through the southern part of the district and the present rail link is through Berchha a railway station about 9 miles south of Shajapur. Shujalpur, however, is on this sector and as a result of being on the rail head and possessing a good hinter land of wheat tract, has become an important grain exporting centre. The other stations connecting important villages are Parwati, Shujalpur, Kali Sindh, Kalipipal, Akodia, Berchha and Maksi.

A narrow guage train on the Central Railway Agar Ujjain branch line connects the northern part of the district. There is not much of passenger traffic on this route, because the train is very slow and buses plying between Agar and Ujjain are faster and more in frequency.

The Roads.

The district is fairly well served by the roads; the main ones being : the Agra Bombay National Highway 3.

This road provides an all weather communication with Indore and Gwalior in particular, for the district depends on the former for its requirements of consumer goods. At Maksi (15 miles from Shajapur) the road branches off to Ujjain (24 miles from Maksi) providing a valuable link, for sending cotton bales, oil-seeds and other raw products, from the district. This is the main artery of communication. The link with Gwalior was mostly for administrative purposes, for apart from being a district in

Gwalior State, the district also came under the Gwalior Commissioner's Division between 1948–56. The distance to Indore and Gwalior is 60 and 245 miles respectively. Also from Shajapur buses to Gwalior, Bhopal, Indore, Guna, Shivpuri and Rajgarh and Ujjain districts are available. Trucks carrying goods pass through Shajapur, through out the day and night and are easily available for carrying loads.

Ujjain–Agar Road :

The road connects Agar to Ujjain and is an all weather one, however, sometimes owing to high floods in Kali Sindh the traffic is held up near Pat Parsi 16 miles from Agar. The road also connects Agar with Susner, Nalkhera and thereafter to Rajasthan.

Sarangpur–Agar.

This road branches off at Sarangpur which is on the National Highway 3, and 18 miles north of Shajapur. It provides the district town, with a link to Agar and Susner. Generally the road carries traffic through out the year but sometimes the bridge on the river Lakhunder gets submerged and holds up traffic.

Shujalpur-Pachore

The road connects Shujalpur to Pachore on the National Highway 3, and though the road is pacca but traffic is quite often held up owing to low lying culverts. It is an important road for Rajgarh district providing an effective rail link. The distance is 24 miles.

Akodia-Sarangpur :

This is a connecting road about 17 miles long. It provides rail head connection to Sarangpur.

Ashta–Shujalpur.

The road connects Shujalpur to Bhopal and branches off from Ashta on Indore-Bhopal road. It has only recently been opened to road traffic. Prior to this Shujalpur was only connected by the train from Bhopal.

The Post and Telegraphs ;

There are six telegraph offices in the district *viz.* Shajapur and Agar 2 each, Shujalpur and Susner one each. Besides the above there are 93 sub-post office which are placed in the charge of these above post offices. This gives an average of 5,315 persons per post office.

CONCLUSION

The Lay Out.

Situated in the Malwa plateau, with most of the area unserved by railways, the district remained comparatively isolated. The areas of Agar and Susner tahsils remained much cut off in the earlier days. The expansion of road traffic in the post-war-era and the net work of roads, criss-crossing the district have helped in its recent growth. The region of better communications is also the area of good cultivation and better economic prosperity. Shujalpur tahsil is thus favourably situated. The opening up the communication lines by the Maksi-Guna, Broad guage link should prove of immense help in improving the economy of the area.

The District and Statistics.

The district occupies 1.40% of the surface of the State and returns 1.63% population, which suggests that the density of population is somewhat higher than the State generally. The district ranks thirty first in population and thirty fourth in area In area it is a little more than three times bigger than Datia, the smallest district and is more than six times smaller than Bastar, the largest district of the State. In population, it is nearly two and half times Datia, the smallest and a little less than one-fourths of Bilaspur the biggest. In population, Rajgarh, Jhabua and Seoni are in the same range as Shajapur. In area, Rewa, Rajgarh and Ujjain are nearly as big as Shajapur. Both in area and population the district is below 'the average' for the State. It ranks twenty eighth in the matter of the growth of population in the last sixty years. By no means has the district returned high rate of growth. The sex ratio in the district is 943 females per 1,000 males, which is below the State figure and essentially underlines a shortage of females.

The Economy.

The population lives mostly in the rural areas and cultivation is the main prop of the economy. The cultivation is again of a dry type and potential for irrigation is very limited. The district has to depend on wells and sites for lift irrigation to irrigate the area. The recent spurt in prices of food grains has had a noticeable effect on the pattern of cultivation, since

cash crops appear to be favoured over others. The cultivators are making good use of the National Extension Service Blocks and seem to be overcome by an irresistible desire to improve their methods and pattern. As a result of this many new wells have been dug and orchards grown. The cultivation of opium once very popular and rewarding has now been given up (though smuggling of it continues). The acreage under cotton, does not keep all ginning factories running. The groundnut prices have brought in some boom. The newly dug wells would improve the economy of the cultivators, when they are fully utilised.

Cultural.

The religious composition of the district has remained more or less the same as in 1951 although the rate of growth among Muslims is high being 30.3% during the decade. Among the mother tongues returned speakers of Urdu show a great rise. Although the literacy has shown some progress but the district with 8.4% literacy remains much behind. The decade also saw a big increase in the number of educational institutions. More hospitals and dispensaries than ever before are now functioning. The welfare activities of Government has given more and more opportunities of employment as is revealed by figures under "Other Services". They continue to grow fast.

The Divide.

As in the case of Rajgarh district the Agra Bombay National Highway 3, seems to weave a pattern of cultivation – economic growth - in short a way of life. For as one goes from Shjapur on the Highway towards north, one finds that towards the east of the highway, the areas are more fertile producing more of wheat and sugar cane and generally more prosperous than those opposite to it on the western side. The best cultivated area in the district of wheat is towards *Harla-Kalai* and *Akodia* both in Shujalpur tahsil. The area around Gulana in Shajapur tahsil is also some of the best cultivated area in the district. On the western side, however, the pattern is somewhat different and though cultivation towards Agar is good, yet its economic returns are not so high and not comparable to Shujalpur or Shajapur.

List of Important Places in the District.

Barodiya: (Population 2,654):– A big village situated on the Agar Sarangpur road in Shajapur tahsil, A Police Station is located here.

Agar: (Population 11,486):– Agar was once a British Cantonment. It is 41 Miles north of Ujjain and is situated in the Malwas plateau at an elevation of 1765 feet above sea level. The town is said to be named after the Agariya Bhil who founded it in the tenth Century. It was captured by the Jhala Rajputs. In the eighteenth century the Marathas arrested it from the Rajputs. In 1801 it was captured by the Bapujee Scindia who almost razed it to ground but Daulat Rao Scindia got it rebuilt. It was a district till 1904.

In early 1857 it remained under the control of Gwalior Contingent Force and the Mahidpur Contingent but by July the local troops revolted and killed a few Europeans. It was recaptured by the English and the Central India House, a cavalry formation was stationed here. It also became the headquarters of western Malwa Political Agency from 1860 to 1895. Having been a British cantonment, the town is fairly well laid out though subsequent growth seem to blur the overall effect. It is now a tahsil headquarters. A municipality was formed in 1893 and is the oldest in the district.

Berchha: (Population 3,418):– Berchha is the rail link for Shajapur town being about 10 miles away. It was a jagir village once.

Gulana: (Population 2,054):– It is situated 17 miles west of Shujalpur and is a sub-tahsil or tappa. The area around Gulana is fertile and some of the best cultivated area lies near it.

Kanad: (Population 3,101):- The village Kanad Kasba is situated about 10 miles. east of Agar and was once a sub-tahsil. It is an old village and came under Sarangpur Sarkar; it saw some fighting in the 18th century finally coming into Scindia's hands in 1725. In 1901 it had a population of 2,366 persons which indicates its importance in the past, since then the village has lost in population.

Nalkhera: (Population 5,245) :- It is situated 16 miles north of Agar and was once a tahsil headquarters now it is included in Susner tahsil.

Shajapur. (Population 17,317):- The district gets its name from the above town which according to Joseph Tiefenthales was founded by Shahjehan, who is said to have stopped here while going to and from Malwa in 1640. It has remained the district headquarters throughout and is situated at the base of a trough formed by the adjoining hills. Its elevation therefore is only 1480' above the sea level. The National Highway 3 is the main link of communication. It will come on a railway line, when Guna-Maksi link of the western railway is completed. Although the town was founded over 300 years ago, its growth has been recent. All the offices in a district place are located here and the town depends on Indore and Ujjain for its trade and commerce.

Shujalpur: (Population 13,690):-Shujalpur is a sub-divisional headquarters town in Shajapur district and is said to have been founded by a Jain merchant, Rai Karan. The date of its founding is obscure and even today ward No. 7 is known as "Raikaranpura" after him. It, however, grew up during the Shujat Khan's time and seems to have been named after him. Shujat Khan became the Governor for Malwa Province in 1554 and died the same year. Thus the town is at least over 400 years old.

During the subsequent period, it remained a small Mahal* under the Sarkar£ Sarangpur which was a part of Malwa Suba.@ In 1808 it went over as a Jagir of Pindari chief, Karim Khan. In 1844 it was transferred to the British Government by Treaty of 1844. Two miles away from Shujalpur is the cenotaph of Ranoji Scindia the founder of Gwalior House who died in 1775. It remained a tahsil headquarters in the Gwalior state and in Madhya Bharat upto 15th August 1956 when it was converted in to the headquarters of a resident Sub-Divisional Officer and Magistrate.

Location:

Shujalpur falls in the Malwa plateau and is 1,454 feet above sea level. The area around the town is mostly plain. The town is on the broadguage section of Bhopal-Ujjain-Indore branch line of western Railway. A mile east of Shujalpur flows river Newaj, a perennial river which joins the Chambal.

The township is divided in two parts by the river Jamghad a small rivulet which remains dry for about four months in a year. To the north of the rivulet lies the old city where bulk of the population live. Towards the south where the railway station is located, Mandi or Agricultural Produce Market has grown fast. Between the two the distance is about two miles. Shujalpur was electrified in May 1954 and piped water supply was introduced a year earlier.

The town Shujalpur is in the centre of a fairly rich agricultural area. Its hinter land produces some good wheat, gram, grass and cotton. Shujalpur is a very convenient rail head for two districts *viz.* Rajgarh and Shajapur and so agricultural produce is sold from the controlled Market or Mandi which has grown up fast in the last few years.

Soyat Kalan: (Population 2,406):- It is an old village, situated in the extreme north of the district, about 18 miles away from Susner in the same tahsil. It touches the Rajasthan border.

Susner: (Population 5,292):- It is an old town and during the Mughal time was a part of Sarangpur Sarkar. It is situated on the bank of river Kaushal. There is an old Jain Temple in the Town. On the confluence of Lakhunder and Kali Sindh is a beautiful and picturesque small waterfall Takhla.

Sundersi: (Population 3,254):- Another old village which was a part of Sarangpur Sarkar in the Mughal days. It is said to have been

---

* Mahal- A Sub-division of Sarkar.

£ Sarkar-A Sub-division of Subah under Mughals.

@ Suba- A Province e.g., Subah of Malwa.

founded in Raja Surdashan Singh's time in 1032. In the eighteenth century the Maratha captured it and it literally remained under Maratha domination. For all the three leading Maratha rulers *viz.* Scindias of Gwalior, Holkars of Indore and Puars of Dhar exercised a tri-partile control over the village and at time as many three Naib Tahsildars were staying to administer the area. The shares were apportioned in the following manner : Holkar and Scindia 38.5%, each Puars 23%. The tripartite control came to an end on May 28, 1948 with the formation of Madhya Bharat.

Acknowledgments.

For compiling the above note, I am particularly grateful to Collector, Shajapur, who was good enough to go through the draft note and make useful suggestions for its improvement. The following were extremely helpful. The Office of the Collector, Shajapur ; The Executive Engineer, Irrigation; Narsingarh; The District Statistical Officer, Dewas and the District Agricultural Officer, Shajapur; to all of them our grateful thanks.

APPENDIX I

INDUSTRIAL ESTABLISHMENTS

Note:—This appendix has been prepared from information abstracted from the houselists. It is arranged first districtwise, that is, under the name of the district have been arranged the industries in ascending order of minor groups, showing the total number of establishments within brackets next to each minor group. The information has been shown by total, rural and urban separately. The figures for the tahsil follow the figures for the district as a whole. The total, rural and urban figures for each tahsil for each minor group of industry showing the number of establishments in each in brackets have been presented first. Then follows the list of the villages in the order of their location code numbers with the location code number appearing first, followed by the name of the village. Against each village is shown the minor group or minor groups of industry found in the village with the number of establishments in that minor group shown within brackets against each minor group. For towns, figures have been presented separately for each ward, the number of ward being given first, followed by the industrial code numbers etc. as in the case of villages.

The following examples will make the above note clear:

For example, Shajapur District total 200 (169) signifies that there are 169 establishments in Shajapur District pertaining to Minor Group 200, which stands for "Production of rice, atta, flour etc. by milling dehusking and processing of crops and foodgrains". Susner Tahsil 207 (57) signifies that there are 57 establishments in Susner Tahsil pertaining to Minor Group 207, which stands for "Production of edible fats and oils (other than hydrogenated oil)" Village 2 Barai 311 (1) signifies that there is one establishment pertaining to Minor Group 311 which stands for "Manufacture of shoes and other leather footwear". Susner Town Ward No. 1 209 (6) signifies that there are 6 establishments located in ward No. 1 of Susner Town pertaining to Minor Group 209. which stands for " Production of other food products such as Sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge."

PART II

OTHER DISTRICT STATISTICS

This part contains some useful official statistics pertaining to the district collected and compiled from various agencies (the agency or source is indicated below each Table or Statement) and from official publications. These are presented under the following heads:—

1 Rainfall

2 Economic Statistics:—
- (a) Agricultural
- (b) Prices and Wages
- (c) Live-stock and Taccavi
- (d) Co-operation, Banking and Insurance

3 Administrative Statistics

4 Progress of Community Development Programme

5 Educational Statistics

6 Health, Medical and Vital Statistics:—
- (a) Health and medical
- (b) Vital Statistics

7 Communications Statistics

8 Miscellaneous
