ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the Village and block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises Non-census data.

We are deeply indebted to the State Government for their ever willing and prompt help to us at all stages. The District Census Hand books are being published by us on their behalf. I wish to express my gratitute to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G. A. D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole hearted co-opration in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published one in Hindi and two in English. The arrangements made by Sri A.Dar, Superintendent, Printing and Stationery, U.P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, I/c New Government Press Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Shri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Techical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandrasekhar, Registrar General, India, Sri K. D. Ballaj, and Dr. B. K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravarty. Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA
Director of Census Operations,
Uttar Pradesh.

Lucknow
Dated: October 3, 1972.

Introductory Note

1. History of District Census Handbook.

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the out break of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory

Part B : Village and Town-wise Primary Census Abstract

Part C : Analytical Report and Administrative Statements—District Census Tables.

2. Scope of District Census Handbook.

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, drinking water supply, Post and telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religous, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Education facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by religion and scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex, scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and live stock etc, in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. **Town Directory**—given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The Criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as Towns :—

1. All Municipal Corporations Municipal Boards, Cantonments & Notified Areas.
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three under mentioned conditions :
   (i) Population exceeds 5,000.
   (ii) At least 75% of the male working population engages in non-agricultural pursuits, and
   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons per sq. km.).

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) Statement I—This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which, the working population under the broad industrial categories has been regrouped into five broad functional classifications.

(i) Primary Activities-Categories I, II, III & IV
(ii) Industry-Categories V (a), V (b) and VI
(iii) Trade and Commerce-Category VII
(iv) Transport-Category VIII, and
(v) Services-Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60%

or above, the town is designated as bifunctional. If the total does not yield 60%, the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation
M—Municipal Board
NAC—Notified Area Committee
TC—Town Area Committee
CB—Cantonment Board

(b) **Statement II**—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest City with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The altitudes of the towns given in col. 3 have been supplied by the Surveyor General of India.

(c) **Statement III**—It reveals the municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) **Statement IV**—In this statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Col·3	PR	.....	For Pucca Road
	KR	———	,, Kachcha Road
Col.4	PT	———	,, Pit Tank
	OSD	.....	,, Open surface drain
Col.8	B	———	,, Basket
	HC	—....	,, Hand Cart
	HL	———	,, Head Load
	MT	———	,, Mechanical Transport
Col.9	TW	———	,, Tube well
	OHT	———	,, Overhead Tank

(e) **Statement V**—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Col.3	H	———	For Hospital
	D	———	,, Dispensary
	HC	———	,, Health Centre
	FC	———	,, Family Planning Centre
	TBC	———	,, T.B.Clinic
	MCW	—...	,, Maternity and Child welfare Centre
Col..5	AS	———	,, Arts and Science College
Col.17	PL	.....	,, Public Library
	RR	—..	,, Reading Room

(f) **Statement VI**: This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured,imported and exported, the number of Banks and agricultural as well as non-agricultural credit socities are given in the statement, The commodities mentioned therein are those

having the highest value in currency. In a few cases, if the town is famous for manufac turing or exporting some particular item, even though the money value is not high, such items have been included.

(g) Statement VII : The census table C VII giving distribution of population by religion and scheduled castes/schedule tribes has been reproduced in this statement. While sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of Others.

(5) Village Directory : reveals the general living conditions of peasentry and the over all development that has taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, Post and telegraph have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market hat and places of religious, historical or archaeological interest is also given in the statement. If the village is un-inhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for Agricultural production prorgamme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) unirrigated, (iv) Culturable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code nos. allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations:

In Column 4

JBS	for Junior Basic School
SBS	„ Senior Basic School
HSS	„ Higher Secondary School
C	„ College
O	„ Others

In Column 5

H	for Hospital
D	„ Dispensary
FC	„ Family planning Centre
HC	„ Health Centre
MCW	„ Maternity & Child welfare Centre
O	„ Others

In Cloumn 6

E	for Electricity

In Column 7

T	for Tap
Hp	„ Hand Pipe
W	„ Well
WE	„ Well with Electricity
TK	„ Tank
R	„ River
F	„ Fountain

C for Canal
WF ,, Waterfall
L ,, Lake
TWE ,, Tube-well with Electricity
O ,, Others

In Column 8

KR for Kachcha Road
PR ,, Pucca Road
T ,, Train
CR ,, Canal Road
R ,, River
C ,, Canal

In Column 9

PO for Post office
TO ,, Telegraph office
PTO ,, Post and Telegraph office
Phone ,, Telephone

In Column 12

T for Total
C ,, Canal
W ,, Well
WE ,, Well with Electricity
TW ,, Tube-well
TWE ,, Tube-well with Electricity
TK ,, Tank
R ,, River
WF ,, Waterfall
L ,, Lake
F ,, Fountain
O ,, Others

In Column 18

T for Temple
M ,, Mosque
C ,, Church
G ,, Gurudwara
HP ,, Historical Place
RP ,, Religious Place
A ,, Archaeological monument
EA ,, Electricity for Agricultural purpose

An appendix has been included summing up the amenities at district level with tahsil wise break up.

The District

A—Town Directory

(a) **Statement 1**—Shahjahanpur district consists of six towns, namely Shahjahanpur M. B., Shahjahanpur Cantt., Roza, Powayan, Jalalabad and Tilhar. There is no change in the total number of towns as compared to 1961. The functional distribution of towns of the district is as follows :

Table 1

Functional Category	Name of towns
(i) Industry-*cum* Services-*cum*-Commercial	Shahjahanpur M. B.
(ii) Services	Shahjahanpur Cantt.
(iii) Transport	Roza
(iv) Services-*cum*-Commercial	Powayan
(v) Commercial-*cum*-Primary activitities -*cum*-Services	Jalalabad
(vi) Primary activities-*cum*-Commercial-*cum*-Industry	Tilhar

Shahjahanpur M. B., the headquarters of district, is a multifunctional town comprising 29.1% Industrial, 27.3% Service and 17% Commercial class.

Shahjahanpur Cantonment and Rly. Settlement Roza are mono-functional towns comprising 63.1% service class and 89.8% transport workers respectively. Roza town is situate at a distance of 5 Km. from the district headquarters and provides good transport facilities. Powayan, a bi-functional town (Services-*cum*-Commercial) is situate at a distance of 29 Kilometers from the district headquarters. This town is predominantly service-class (38.7%) followed by commercial workers (25.67%).

Jalalabad is a multi-functional town with Commercial-*cum*-Primary Activities-*cum*-Services class with percentages 28.7, 25.2, and 18.6 respectively and is situate at a distance of 39 kilometers from the district headquarters. This town is farthest from the district headquarters and has Primary activities as its predominant function. Like Jalalabad, Tilhar town is also a multifunctional town. The distance of Tilhar from the district head-quarters is 25 kilometers.

(b) **Statement II**—The physical and locational aspects have beencovered in this statement. The figures of annual rainfall and the maximum and minimum temperature were not available with the Director of Meteorological Centre, Delhi so the information

given in Col. 4-6 relates to the nearest observatory in the adjoining districts. The figures reveal that all the towns enjoy the same rainfall except Powayan and Tilhar where the rainfall is higher

(c) **Statement III**—The Per Capita receipt and expenditure by the local bodies in the six towns is as below :

Table 2

Per Capita

Class of Towns	No. of Towns	Receipt (Rs.)			Expenditure (Rs.)			
		Total Receipt	Receipt through Taxes etc.	Receipt from all other sources	Total expen diture	Expendi- ture on public health and conve nience	Expendi ture on public institutions	Expendi- ture on all other aspects
1	2	3	4	5	6	7	8	9
Class I 100,000 and over								
Shahjahanpur M. B.	1	21.96	13.40	8.56	19.97	8.41	3.11	8.45
Class III 20,000 to 49,999								
Tilhar M. B.	1	20.05	9.86	10.19	14.73	2.99	3.92	7.82
Class IV 10,000 to 19,999								
Jalalabad T. A.	1	9.64	4.41	5.23	12.43	3.62	—	8.81
Class V 5,000 to 9,999								
Powayan T. A., Railway settlement Roza N. A. and Shahjahanpur Cantt.	3	12.86	3.77	9.09	12.83	7.47	0.46	4.90

The per capita receipt of Class I, III, IV and V towns is Rs. 21.96, 20.05, 9.64 and 12.86 respectively. Against this the per capita expenditure is Rs. 19.97, 14.73, 12.43 and 12.83 respectively. The expenditure (12.43) was more in Jalalabad than the income (9.64) because of commitments of the T.A.C. of the past years (1967-68).

(d) **Statement IV**—All the towns excepting Jalalabad, Powayan and Tilhar have protected water supply. Road lighting arrangements exist in all the six towns. Fire fighting service is available in two towns viz, Shahjahanpur M. B. and Shahjahanpur Cantonment. There is no arrangement of mechanical transport for removing night soil and hand carts and baskets are used for the purpose in all the towns of the district.

(e) **Statement V**—Both Jalalabad and Powayan towns have 1 hospital and 1 family planning centre. Railway Settlement Roza has 1 hospital, 1 dispensary and 1 family planning centre. Shahjahanpur Cantt. has 3 hospitals and 1 family planning centre. Shahjahanpur M. B. has 5 hospitals, 2 dispensaries, 1 T. B. clinic and 2 family planning centre. Tilhar has 2 health centres and 1 family planning centre. The number of beds per 1,000 persons has been shown in the following table.

Table 3

Total No. of beds in Medical Institutions	No. of beds per 1,000 population
317	2 (1.62)

The number of beds in the hospitals of the district has increase from 170 in 1960 to 317 in 1969.

One Degree College having Arts and Science faculties as well as 1 Degree College with Arts faculty only are located in Shahjahanpur M. B, while other towns are devoid of such a facility. There is no medical college, Engineering College or Polytechnic in any one of the six towns. The number of Higher Secondary, Senior basic and Junior basic schools (1969) per 1,000 popultation are given in the following table.

Table 4

Name of Town	No. per 1,000 population		
	Higher Secondary	Middle	Primary
Jalalabad	0.27	0.18	0.36
Powayan	0.34	0.22	0. 5
Roza	0.39	0.39	0,98
Shahjahanpur Cantt.	0.12	—	0.12
Shahjahanpur M. B.	0.11	0.09	0.444
Tilhar	0.14	0.04	0.60

Shahjahanpur M. B. and Tilhar possess 3 and 1 Cinema hall respectively while other towns have'nt this recreational facility. The facilities of 1 reading room in Powayan town, 1 public library in Roza and 1 in Shahjahanpur M. B. are available to the residents.

(f) **Statement VI** The articles manufactured in Jalalabad town are earthen pots, *gur* and shoes. In powayan town, utensils, sheera molasses and sugar are the main manufacturing commodities and in Shahjahanpur M. B, readymade garments, jute and military socks are the chief articles that are manufactured. In Tilhar, sugar, rice and gur are manufactured. The most important commodity imported in Roza is Diesel oil while cloth is imported in all the remaining towns. Salt and Kerosene oil are also imported in the towns. Iron is imported in Jalalabad.

Readymade garments, tents, military socks are exported from Shahjahanpur Cantt and wine, carpets and sugarcane from Shahjahanpur M. B. Pure ghee, potatoes, melon, wheat etc. are the main commodities exported from all the towns and opium is exported from Tilhar.

(g) **Statement VII** The population of all the towns is largely shared by Hindus and Muslims. In Tilhar town, Muslims comprise 50.5% of the population as against 48.8% Hindus. The religionwise distribution is reversed in Railway Settlement Roza Notified Area where Hindus are 82.3% against 7.9% Muslims. The percentage growth of Hindu Population of these towns during the last decade is 12,74% which is far short of the growth rate of 20.16% of the Muslim population.

The percentage of scheduled caste persons is higher in comparison to scheduled tribes in all the towns. There are only two towns viz. Jalalabad and Shahjahanpur Cantt. where there are no persons belonging to scheduled tribes.

Village Directory

(a) According to the area in acres the villages have been stratified in the following table.

Table 5

Area (in acres)	No. of Villages	Percentage
50 acres or less	20	0.82
51-100	100	4 12
101-200	360	14.84
201-500	122	50.33
501-1000	559	23.04
1000-2000	128	5.28
2001-5000	37	1.53
5001 acres and above	—	—

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 1,000 acres are highest claiming the percentage of 73.37. Thereafter, the number of villages goes on decreasing as the size of villages increases. There are no villages having an area exceeding 5,000 acres, As regards smaller villages, there are only 20 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table.

Table 6

Distance from the nearest town (in kms)	Total No. of of villages	No. of villages having				
		Primary School	Middle School	Higher Secondary School	Colleges	Others
0-5	188	55	5	2	—	—
6-10	437	151	15	1	—	—

11-15	488	153	14	—	—	—
16-25	921	314	27	27	—	—
26-50	380	118	10	1	—	—
51-100	12	2	—	—	—	—
101-200	—			—	—	—
201 and above	—	...	—	—	—	—

The above table shows that the largest number of institutions including Higher Secondary Schools exist in the villages situate between 16 to 25 kilometers from the nearest town. The villages which lie within a radius of 51 to 100 kms have the least no. of institutions presumably because the students in these areas experience difficulty in travelling such long distances to the nearest town for prosecuting their studies As regards Higher Secondary Schools, 3 only lie within a radius of 10 kms.

(c) 16 villages in district Shahjahanpur have hospitals. If all kinds of medical institutions including dispensaries, health centre etc, are taken into account, 54 villages out of 2426 have medical institutions.

The following table presents the number of medical institution per 100 Sq. Kms.

Table 7

Name of Tahsil	Total area (in sq. Kilometers)	No. of medical institution of any kind per 100 sq. kilometers.
Powayan	1529-39	2
Tilhar	1067-70	1
Shahjahanpur	1001-78	1
Jalalabad	945-74	1

It transpires that tahsils Tilhar, Shahjahanpur and Jalalabad each have one medical institution per 100 sq. kms. Powayan is slightly better off having 2 institutions per 100 sq. kms.

(d) 357 villages are electrified in the district against total number of 2426 villages. Their percentage comes to 14.72.

The largest number of electrified villages (205) lie in Tahsil Powayan and minimum in Tahsil Tilhar (31). The power supply in villages with reference to their distance from the nearest town is given in the following table :

Table 8

Distance from the nearest town	Total No. of villages	Number of villages with Electric Power supply	
		Total	Percentage of total electrified villages to total villages
0-5	188	60	31.91
6-10	437	95	21,74
11-15	488	43	8.81

16-25	921	95	10.31
26-50	380	63	16.58
51-100	12	1	8.33
101:200	—	—	—
201 and above	—	—	—
Total	2,426	357	14.27

The percentage of electrified villages to the total villages is highest i. e, 31.9 for those, situated within a radius of 5 kilometers and the minimum percentage of 8.33 is for those situated at a distance 51 to 100 kms. from the nearest town. It is evident from the table that the percentage of electrified villages to total villages generally decreases with the increase of distance from the nearest town. This is because of the fact that power connections are extended from the towns which have already been electrified and as such villages close to the town are taken up first for electrification.

The means of communications within a radius of 1 mile from the villages have been shown in column 8. As many as 28 villages of the district are connected by rail, out of the total number of 2426 villages. 11.04% are connected by pucca road and 2,18% by kachcha and pucca roads. The percentage of villages having only kachcha roads is 28.8%, The nature of communications have been shown in the following table, where the villages have been classified according to their distance from the nearest town.

Table 9

Distance from the nearest twon	Total No. of villages	No. of villages connected by							
		PR	KR	PR & KR	PR & R	KR & R	PR & T	KR & T	Others
0-5	188	33	49	9	-	-	6	—	37
6-10	437	68	152	7	-	-	3	—	89
11-15	488	62	119	15	-	-	5	5	102
16-25	921	79	251	22	-	-	5	-	174
26-50	380	25	128	—	-	-	3	1	53
51-100	12	1	—	—	-	-	-	-	5
101-200	—	-	—	—	-	-	-	-	-
201 and above	-	-	—	—	-	-	-	-	-
Total	2,426	268	622	53	—	-	22	6	464

It is evident from the above table that the villages nearest to the town have better facilities of communications and *percontra* the villages situated at a distance of more than 100 kms. from the nearest town have no means of communications.

(f) There are in all 119 post offices in the rural areas of the district. On an average, 1 post office caters to the need of about 20 villages. The number of Post Offices per

100 Sq. kms. in the various tahsils have been shown in the following table :—

Table No. 10

Name of Tahsil	Total area (in Sq. kilometers)	No. of Post Offices per 100 Sq. kilometers
Powayan	1529.39	2
Tilhar	1067.70	3
Shahjahanpur	1001.78	3
Jalalabad	945.74	3
Total	4544.61	3

Tahsil Powayan has the lowest number of Post offices, the average being 2 per 100 Sq. kms. In the remaining tahsils, the corresponding average is 3,

(g) Wheat and rice are the staple food in the district.

The cultivated area is 77.06 percent of the total rural area of the district, of which 31.18 percent is irrigated area.

The following table shows the average cultivated land, average cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified according to their distance from the nearest town.

Table No. 11

Distance from the nearest town	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	percentage of average cultivated waste per village to average cultivated land per village
0-5	188	56722	302	4542	24	7.9
6-10	437	142873	343	16907	39	11.4
11-15	488	175718	360	22643	46	12.8
16-25	921	332537	361	54842	60	16.6
26-50	380	144930	381	21358	56	14.7
51-100	12	5625	469	258	21	4.5
101-200	--	—	—	—	—	—
201 and above	—	--	—	--	—	—
Total	2426	865405	357	120550	50	14.0

The average cultivated area and average cultivable waste per village shows an increasing trend as the distance from the nearest town increases upto 25 kms but subsequently there is a fall The percentage of cultivable waste to cultivated area is higher in villages within 5 kms from the town.
