## PREFACE

Prior to the 1951 Census, there was no regular separate publication at the district level regarding the data collected, although the seeds of the District Census Handbooks can be traced to the 'Village Lists' brought out for every district in 1901 and 'Village Statistics' of every district published in 1911 and 1941. No definite answer is forthcoming as to why such publications, giving village-wise information of occupied houses, break-up of population into males/females and literates, were not brought out in 1921 and 1931. The reason could be transfer from 1921 of certain charges on Census previously met from the provincial revenues to the Central revenues and the Government of India may not have considered it necessary to publish statistics upto the village level. 'Village Statistics' in 1941 were brought out by the Central Provinces and Berar Government and this practice of bringing out district-wise publications at the cost of the State Government has since been continuing.

2. The scope of the district-wise publications, now called the District Census Handbooks, has been undergoing change with each successive Census from 1951. In 1951, the District Census Handbooks only contained the Primary Census Abstract and the Census tables. In view of the usefulness of separate publication for each district, improvements were made at the time of the 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, education, etc. An 'Introductory Note' was also added to highlight the more striking features. Unfortunately, the desire to make district-wise Census publications very comprehensive resulted in late availability of the books to the users. Therefore, this time the District Census Handbooks have been divided into three parts in order to release maximum data, as and when finalised, so that the publications may have a useful life of about seven to eight years of inter-Censal decennium. Part A will contain Primarily non-Census statistics, Part B the Primary Census Abstract and Part C various administrative statistics with a chapter titled "Introducing the district". It may be mentioned here that subsequently a decision has been taken to merge Parts A and B in one volume on grounds of economy.

3. Much of the delay in the publication of the District Census Handbooks after the 1961 Census was due to delay in collection of administrative statistics and the decision to write the Introductory Note in the head office, Separation of administrative statistics and the decision to write the Introductory and the kind Co-operation of the State Government permitting Collectors of the 1961—71 decade to write the chapter on "Introducing the District", likely to go a long way in early publication of all the parts of the District Census Handbooks. Anotherfavourable factor this time is the early decision of the State Government to permit printing in private presses as and when the work-load on the State Government Presses is heavy and likely to result in delay in the bringing out of the District Census Handbook of any district. It would not be out of place to point out here that the work-load in connection with the District Census Handbooks is very much more this time, not only on account of wider coverage but largely due to the decision to bring out the District Census Handbooks in Hindi as well as English. In all, there will be 172 publications, 4 per district of which 2 will be in Hindi and 2 in English. Advance action was taken this time to collect the non-Census data and it is hoped that the combined volume of Parts A and B of all the 43 districts would be out by the end of 1973 and Part C of all the districts by the middle of 1975. This would be a definite improvement on the 1961 performance when printing of the District Census Handbooks covered the period 1964 to 1967.

4. In his Preface to the 1961 District CensusHandbooks, my predecessor, Shri G. Jagathpathi, had observed thus, "It was not possible at this Census to base all Census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.". It has not been possible to adopt the development block as the basic unit for operation and presentation in this Census for more than one reason. Firstly, the office of the Block Development Officer was abolished in December, 1965; its resurrection in the form of office of the Block Development Assistant from 2-10-69 had not taken firm roots up to the time field arrangements for the 1971 Census were finalised. Secondly, the tahsil as a unit of field arrangements has many more advantages, the most significant being the ready availability of that legendary functionary—the patwari—without whose active co-operation it would be a formidable task to determine whether a habited structure in a cultivated field is part of village X or Y. Even, otherwise, since village-wise figures are available, it should not be difficult for those in need of data for intermediate units between the village and the tahsil, like the development block or patwari halka, to compile it by adding figures of concerned villages. The tahsil has for long been a fixed unit of administration and, to my mind, should be retained in preference to the development block whose jurisdiction may undergo a change in accordance with the pace of future development.

5. In conclusion, I would like to place on record my grateful thanks to the Government of Madhya Pradesh for having so kindly agreed to undertake the publication of the Handbooks in hindi as well as english to the various government and semi-government offices for un-hesitatingly making available the non-Census statistics, and to the Controller, Government Press, and his staff for arranging early printing in the Government and private Presses.

# VILLAGE AND TOWN DIRECTORY

PART X (A)

# EXPLANATORY NOTE

**History :**

Prior to 1951 there were no separate Census publications for every district. But at the time of preparatory arrangements for the first Census of Independent India, it was felt that Census statistics should be made available for smaller territorial units basic to the needs of an administration wedded to welfare of the masses. Accordingly, the scheme of District Census Handbooks was conceived and implemented. In view of the usefulness of separate publications for each district, further improvement was made at the time of 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, banking, education, health etc. An introductory note was also added to highlight the more striking features. Unfortunately the desire to make districtwise Census publication very compre hensive resulted in late availability of the books to the users. Therefore, the organisers of the 1971. Centenary Census decided in favour of splitting the District Census Handbooks into three parts and thereby release maximum data, as and when available, so that the publication may have a useful life of seven to eight years of inter-censal decennium.

**Scope :**

(a) Part A of the book is the Village and Town Directory. The Village Directory contains for each village particulars of amenities available in the field of education, medicine, power supply, drinking water supply, post and telegraph facilities and communications. In addition, data relating to particulars of land use, weekly market, places of religious, historical or archaeological interest in the village has also been included. The Town Directory gives for each town in the district in the form of suitable statements the origin and status of the town administration, growth of population, functional category of the town, physical aspects and location, latest municipal financial statements, civic and other amenities, medical, educational and cultural facilities, trade, industry, commerce and banking facilities, population by religion and scheduled castes and scheduled tribes. The abbreviations used in the Directory have been explained separately.

(b) Part B contains for each village and town, the primary census data incorporating area, occupied residential houses, number of households, total population and its break-up by sex, Scheduled Caste and Scheduled Tribe population, literate population and working population by nine broad categories.

(c) Part C will mainly incorporate the administrative statistics pertaining to the district in all the fields of development. The other Census tables pertaining to the district regarding language, religion, migration etc., will also be reproduced. There will be a write-up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade.

**Village Directory :**

This is in the form of one statement. Important statistics for each village have been given under the main head—Amenities and Land Use Data. Other information regarding nearest town with distance, market, staple food and places of religious, historical or archaeological interest have also been given in separate columns. The information regarding "Amenities" cover items like educational and medical institutions, power supply, drinking water, communications and post and telegraph. Under "Land use" the break-up of the total area of the village has been indicated under sub-heads forest, irrigated, unirrigated, cultivable waste and area not available for cultivation.

(a) There are 2,116 villages in the four tahsils of the district and the number of villages, tahsilwise, in 1961 and 1971 are as under :—

| Sl. No. | Tahsil | 1961 | 1971 | Difference |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Raghurajnagar | 905 | 905 | — |
| 2 | Nagod | 499 | 499 | — |
| 3 | Amarpatan | 459 | 459 | — |
| 4 | Maihar | 253 | 253 | — |
| | **Total** | 2,116 | 2,116 | — |

There is no difference in the total number of villages in the district. However, there has been a decrease of one village and increase of one village in Raghurajnagar tahsil as below:—

(i) Village Kolgama (L.C. No. 10/1/760 of 1961) has been included in Satna town.

(ii) Non-municipal urban area of 1961 of Satna town has been treated as a separate village, Satna, L.C. No. 10/1/691.

Thus there is no difference so far as the total number of villages in the tahsil is concerned.

The distribution of the villages with reference to their area in acres is as shown in the inset table below:—

| Area (in acres) | No. of Villages |
|---|---|
| 1 | 2 |
| 50 acres or less | 36 |
| 51—100 | 82 |
| 101—200 | 224 |
| 201—500 | 648 |
| 501—1,000 | 572 |
| 1,001—2,000 | 362 |
| 2,001—5,000 | 166 |
| 5,001 acres and above | 26 |
| Total | 2,116 |

Village Lakhahachaknai (L. C. No. 10/1/802) in Raghurajnagar tahsil has the smallest area of 2.26 acres and is located at a distance of 17.6 kms. from the nearest town, Satna; while village Madwajhar (L.C. No. 13/1/789) also in Raghurajnagar tahsil, has the largest area of 10,223.52 acres in the district and is located at a distance of 35.2 kms. from the nearest town, Satna.

Out of 2,116 villages in the district 648 villages are in the area range of 201-500 acres, while 572,362 and 224 villages are in the area ranges of 501-1,000 1,001-2,000 and 101-200 acres, respectively. 26 villages are in the area range of 5,001 acres and above.

Maximum villages in all the tahsils, except Maihar tahsil, come within the area range of 201-500 acres, while in Maihar tahsil they come within the area range of 5,001 acres as will be seen from the following table containing tahsilwise data:—

| Area (in acres) | Raghuraj-nagar | Nagod | Amar-patan | Maihar | Total |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 50 acres or below | 26 | 2 | 8 | ... | 36 |
| 51—100 | 49 | 14 | 14 | 5 | 82 |
| 101—200 | 113 | 46 | 53 | 12 | 224 |
| 201—500 | 263 | 166 | 166 | 53 | 648 |
| 501—1,000 | 217 | 137 | 135 | 83 | 572 |
| 1,001—2,000 | 141 | 87 | 64 | 70 | 362 |
| 2,001—5,000 | 84 | 40 | 15 | 27 | 166 |
| 5,001 and above | 12 | 7 | 4 | 3 | 26 |
| Total | 905 | 499 | 459 | 253 | 2,116 |

(*b*) *Educational amenities.*—The total number of villages having various educational facilities, within various distance ranges from the nearest town, are as indicated in the inset table below:—

| Distance from nearest town | Total No. of villages | Number of villages having: Primary School | Middle School | High or Higher Secondary School | College | Others |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 5 kms. or less | 121 | 38 | 5 | ... | ... | 1 |
| 6—10 kms. | 215 | 82 | 8 | 2 | 1 | ... |
| 11—15 kms. | 285 | 90 | 15 | 2 | ... | ... |
| 16—25 kms. | 432 | 172 | 25 | 5 | 1 | ... |
| 26—50 kms. | 741 | 255 | 42 | 11 | ... | ... |
| 51—100 kms. | 322 | 87 | 14 | 3 | ... | 1 |
| 101—200 kms. | ... | ... | ... | ... | ... | ... |
| 201 kms. and above | ... | ... | ... | ... | ... | ... |
| Total | 2,116 | 724 | 109 | 23 | 2 | 2 |

Maximum number of villages (741) lie within the distance range 26-50 kms. and maximum number of villages having Primary, Middle and High/Higher Secondary Schools also lie within this range. The number of educational institutions in villages of different tahsils is given below :—

| Sl. No. | Name of Tahsil | Number of Educational Institutions: High or Higher Secondary School | Middle School | Primary School | Others | College |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Raghurajnagar | 10 | 51 | 312 | 2 | 1 |
| 2 | Nagod | 4 | 19 | 137 | ... | ... |
| 3 | Amarpatan | 8 | 29 | 168 | ... | 1 |
| 4 | Maihar | 1 | 13 | 136 | ... | ... |
| | Total | 23 | 112 | 753 | 2 | 2 |

Nineteen villages have two primary schools each, while five villages have three schools each. Three villages have two middle schools each. The area of these villages and the distance from the nearest town

are indicated below :—

| Sl. No. | Name of village | Tahsil | L. C. No. | Total area of the village | Distance from the nearest town in kms. with name | Educational institutions (if more than one) | | |
|---|---|---|---|---|---|---|---|---|
| | | | | | | Primary school | Middle school | High/Higher Secondary school |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |

The particulars of villages having colleges are as below:—

| S. No. | Name of village | Name of Tahsil | L. C. No. | Distance from the nearest town in kms. | |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Kripalpur | Raghurajnagar | 10/1/757 | Satna | 8.0 |
| 2 | Umarahi Mathurian | Amarpatan | 10/3/100 | Maihar | 24.0 |

(*c*) *Medical facilities.*— The availability of medical facilities, per 100 sq. km. and tahsilwise, is as given in the following inset table:—

| | Tahsil | Total area (in sq. kms.) | No. of medical institutions of any kind per 100 sq. kms. |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Raghurajnagar | 3,265.78 | 0.77 |
| 2 | Nagod | 1,805.64 | 0.89 |
| 3 | Amarpatan | 1,252.73 | 1.84 |
| 4 | Maihar | 1,122.37 | 0.98 |

The above table will show that the villages of Amarpatan tahsil have, comparatively, greater medical facilities per 100 sq. km. The number of medical institutions, tahsilwise, is as indicated below : —

| S.No. | Tahsil | No. of medical institutions |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Raghurajnagar | 25 |
| 2 | Nagod | 16 |
| 3 | Amarpatan | 23 |
| 4 | Maihar | 11 |
| | Total | 75 |

About 33 per cent of the medical institutions in the rural areas of the district are in the villages of Raghurajnagar tahsil followed by Amarpatan tahsil where the percentage is about 31.

(*d*) *Power Supply* .— The number of villages having electric power supply within various distance ranges from the nearest town are as indicated in the inset table below :—

| Distance from the nearest town | Total No. of villages | No. of villages with electric power supply |
|---|---|---|
| 1 | 2 | 3 |
| 5 kms. or less | 121 | 25 |
| 6-10 kms. | 215 | 40 |
| 11-15 kms. | 285 | 38 |
| 16-25 kms. | 432 | 27 |
| 26-50 kms. | 741 | 39 |
| 51-100 kms. | 322 | 4 |
| 101-200 kms. | ... | ... |
| 201 kms. and above | ... | ... |
| Total | 2,116 | 173 |

It would be seen that about 8 per cent of the total number of villages have electricity and bulk of them are in the distance range up to 50 kms., from the nearest town. The number of villages having electric power supply, tahsilwise, is as indicated below :—

| Sl. No. | Name of tahsil | Total No. of villages | Villages having electric power supply | Percentage of villages covered by electricity |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Raghurajnagar | 905 | 71 | 7.8 |
| 2 | Nagod | 499 | 56 | 11.2 |
| 3 | Amarpatan | 459 | 20 | 4.4 |
| 4 | Maihar | 253 | 26 | 10.3 |
| | Total | 2,116 | 173 | 8.2 |

The percentage of villages (8.2) having electric power supply in the district is slightly higher than the State percentage ( about 7 ). Within the district, villages of Nagod tahsil have, comparatively, more of this facility, while in Amarpatan tahsil the percentage of villages having electric power supply is low.

(*e*) *Communications*.—The total number of villages and the number of villages connected by different types of communications, falling in different distance ranges from the nearest town are indicated in the inset table below :—

| Distance from the nearest town | Total No. of villages | Number of villages connected by | | | | |
|---|---|---|---|---|---|---|
| | | Pucca road | Kutcha road | Pucca road & rail | Kutcha road & rail | Others (Rail) |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 5 kms. or less | 121 | 67 | 20 | 10 | ... | 1 |
| 6-10 kms. | 215 | 79 | 43 | 1 | ... | 9 |
| 11-15 kms. | 285 | 113 | 60 | 3 | ... | 1 |
| 16-25 kms. | 432 | 122 | 102 | 4 | ... | 1 |
| 26-50 kms. | 741 | 231 | 140 | 3 | 2 | 8 |
| 51-100 kms. | 322 | 52 | 51 | ... | ... | ... |
| 101-200 kms. | ... | ... | ... | ... | ... | ... |
| 201 kms. and above | ... | ... | ... | ... | ... | ... |
| Total | 2,116 | 664 | 416 | 21 | 2 | 20 |

About 32 per cent of the villages are served by "pucca" road. Out of 2,116 villages in the district, 1,103 villages are served either by "pucca" or "kutcha" roads. The number of villages served by "pucca" roads, tahsilwise, and the total number of villages with percentage covered are as below:—

| Sl. No. | Tahsil | Total No. of villages | No. of villages having "Pucca" roads | Percentage |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Raghurajnagar | 905 | 187 | 20.66 |
| 2 | Nagod | 499 | 194 | 38.88 |
| 3 | Amarpatan | 459 | 211 | 45.97 |
| 4 | Maihar | 253 | 93 | 36.76 |
| | Total | 2,116 | 685 | 32.37 |

Comparatively, Amarpatan tahsil has better communication facility, while Raghurajnagar tahsil is poor in this facility. Very few villages are connected by rail.

(*f*) *Post and Telegraph*.—The total number of villages in the tahsils of the district having post

offices, telegraph offices and telephone facility are given below:—

| Sl. No. | Name of tahsil | Total No. of villages | No. of villages having post offices | No. of villages having telegraph offices | No. of villages having telephone |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Raghurajnagar | 905 | 60 | 2 | 4 |
| 2 | Nagod | 499 | 28 | ... | ... |
| 3 | Amarpatan | 459 | 27 | 3 | ... |
| 4 | Maihar | 253 | 20 | 1 | ... |
| | Total | 2,116 | 135 | 6 | 4 |

The number of post offices per 100 sq. km. area in each tahsil is indicated in the following inset table :—

| Sl. No. | Name of tahsil | Total area in sq. km. | No. of post offices per 100 sq. km. |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Raghurajnagar | 3,265.78 | 1.8 |
| 2 | Nagod | 1,805.64 | 1.6 |
| 3 | Amarpatan | 1,252.73 | 2.2 |
| 4 | Maihar | 1,122.37 | 1.8 |

Comparatively, rural areas of Amarpatan tahsil have better postal facility per 100 sq. km. Only six villages have telegraph and four villages have telephone facility in the district. The names and particulars of these villages are as under.

| Sl. No. | Name of tahsil | Name of village having telegraph office | | Name of village having telephone | |
|---|---|---|---|---|---|
| | | Name | L. C. No. | Name | L.C. No. |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Raghurajnagar | (i) Jaitwara | 10/1/492 | (i) Jaitwara | 10/1/492 |
| | | (ii) Royani | 10/1/533 | (ii) Deoar | 10/1/671 |
| | | | | (iii) Rampur Baghelan | 10/1/881 |
| | | | | (iv) Sohawal | 10/1/683 |
| 2 | Amarpatan | (i) Amarpatan (tahsil headquarter) | 10/3/86 | | |
| | | (ii) Umrahi Mathurian | 10/3/100 | | |
| | | (iii) Ramnagar | 10/3/229 | | |
| 3 | Maihar | Gahwara | 10/4/72 | | |

(*g*) *Staple food.* —Wheat and Rice constitute staple food in bulk of the villages of the tahsils of the district 'Kodo' and 'Jowar' also constitute staple food in few villages of the district.

(*h*) *Land use pattern.*- (i) According to the village papers about 20 per cent of the area in the district is under forest. The percentage of the forest area, tahsilwise, is as indicated below :—

| Sl. No. | Tahsil | Percentage |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Raghurajnagar | 19.77 |
| 2 | Nagod | 32.78 |
| 3 | Amarpatan | 15.50 |
| 4 | Maihar | 5.68 |
| | Total | 20.08 |

It may be noticed that, comparatively, less forest area is in Maihar tahsil, while about 33 per cent of the area of Nagod tahsil is under forest.

(ii) The net cropped area in the year 1968-69 increased by 20.31 per cent as compared to the area in 1960-61. The percentage of area under irrigation to area under crops during the years 1960-61 and 1968-69 comes to 0.49 and 1.89, respectively. The area under irrigation during this period increased by 466.31 per cent.

(iii) The following inset table shows the percentage of average cultivable waste per village in different distance ranges from the nearest town:—

| Distance | Number of villages | Total cultivated land | Average cultivated land per village | Total cultivable waste | Average cultivable waste per village | Percentage of average cultivable waste per village to average cultivated land per village |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 5 kms. or less | 121 | 51,504.72 | 425.66 | 11,982.15 | 99.03 | 23.27 |
| 6-10 kms. | 215 | 96,318.87 | 447.99 | 31,291.89 | 145.54 | 32.49 |
| 11-15 kms. | 285 | 117,871.64 | 413.58 | 33,971.33 | 119.20 | 28.82 |
| 16-25 kms. | 432 | 202,340.30 | 380.34 | 44,515.53 | 103.05 | 27.09 |
| 26-50 kms. | 741 | 327,976.62 | 442.61 | 91,106.08 | 122.95 | 27.78 |
| 51-100 kms. | 322 | 93,306.11 | 289.77 | 43,646.02 | 135.55 | 46.78 |
| 101-200 kms. | ... | ... | ... | ... | ... | ... |
| 200 kms. and above | ... | ... | ... | ... | ... | ... |
| Total | 2,116 | 889,318.26 | ... | 256,513.00 | ... | ... |

Ordinarily, the nearer a village to an urban area, the lesser is the proportion of cultivable waste but the above inset table does not show a consistent trend in this regard and there is some deviation in the distane ranges 11-15 kms. and 16-25 kms.

In the whole district, 256,513 acres (in round figures) of land has been classified as cultivable waste which constitutes about 14 per cent of the total aera of the villages in the district. The table below indicates the percentage of cultivable waste in each tahsil:—

| S. No. | Tahsil | Percentage |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Raghurajnagar | 18.06 |
| 2 | Nagod | 12.95 |
| 3 | Amarpatan | 8.56 |
| 4 | Maihar | 9.56 |
| | Total | 13.94 |

It would be seen that comparatively, the percentage of cultivable waste in Amarpatan tahsil is less (about 9 per cent), while it is maximum in Raghurajnagar tahsil (about 18 per cent).

**Town Directory :**

This is in the form of Seven Statements. But before discussing the information collected in the Seven Statements, it would be better to first understand certain concepts which determines urban areas.

(a) **Definition of town.**— A 'town' in the 1961 Census was either, (i) a Municipality, Cantonment or Corporation; or (ii) a habitation with a population of at least 5,000 with atleast three-fourths of the adult male population engaged in non-agricultural pursuits. Accordingly there were 219 towns in the State. However, seven towns did not

satisfy either the minimum population criterion or the one relating to ratio of non-agricultural adult males being 75% or more. But the list already finalised was not changed subsequently; the reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to get included in the list of towns as Municipalities and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than what was already present. In the 1971 Census there was no material change in the concept of town and a list of 247 towns was prepared originally. Three more towns were added in the list due to the fact that two places were declared as municipal and the third fulfilled the necessary criterion to qualify a place as urban and ultimately 250 towns were recognised in the State. All areas which are not towns have been included in the list of villages.

(*ii*) *Urban Agglomeration*:--The concept of Urban Agglomeration has been adopted for the 1971 Census with the intention to present the population data in the District Census Handbook in respect of urban areas in such a manner that "*de-facto* urban agglomeration" is a recognisable entity, data pertaining to which will be the sum of the data of not only the *de-jure* (within Municipal/other statutory limits) urban area but also of its outgrowths in different directions which are obviously urban in character and form a continuous urban spread. This has been considered necessary so that future comparisons or studies of the particular urban agglomeration is factual and not vitiated by the time differential which exists between the delineation of municipal boundaries and the actual growth of the urban area.

(*iii*) *Standard Urban Area* — This new concept has been developed for the 1971 Census and the essentials of a Standard Urban Area are :—

(1) It should have a core town of a minimum population size of 50,000.

(2) The contiguous areas made up of other urban as well as rural administrative units should have close socio-economic links with the core town; and

(3) The probabilities are that this entire area will get fully urbanised in a period of two to three decades. This concept has been developed to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture.

(**b**) **The Seven Statements.**—Very useful data regarding the towns have been given in the statements and they have been collected and compiled from various agencies and official publications. The source and period of the information has been indicated below each Statement. It would not be out of place to mention here that analysis of data collected from diverse sources has its own limitations, mostly due to sketchy and incomplete information. All the same, the data compiled and presented throws sufficient light on the present stage of progress in each town.

(*i*) *Statement No. I*.— This statement presents the basic data relating to population of the towns for each decennium from 1901 to 1971 and the civil administration status in 1970. The civic administration status of the town indicates the authority incharge of its administration. Thus a town could have a Municipal Corporation, a Municipality, a Cantonment Board, a Gram Panchayat, a Notified Area Committee, etc.

(*ii*) *Statement No. II* .—This statement contains information regarding latitude/longitude, annual rainfall, temperature, distance from the nearest city with population of 1 lac or more and State, District and Tahsil headquarters. Distances from Railway Station and Bus route have also been indicated.

(*iii*) *Statement No. III*.—The statement contains information regarding receipt and expenditure of local bodies under different main heads indicating the indebtedness and general financial position and expenditure on public utility works. The information has been furnished for the years 1968-69, 1969-70 and 1970-71 in order to have an idea whether the concerned urban body is improving financially or not.

(*iv*) *Statement No. IV*. This statement contains information regarding amenities, e. g., road length, sewerage system, types of latrines, water supply, fire-fighting service etc. in the different towns.

(v) *Statement No. V* .—This statement contains information regarding various important facilities available in the town *viz.*, medical, educational, recreational and cultural.

(vi) *Statement No. VI* .—This statement throws light on the business and credit facilities commanded by the towns and contains information regarding trade, commerce, industry and banking.

(vii) *Statement No. VII*.—This statement contains data regarding population by religion and Scheduled Castes/Scheduled Tribes with male/female break-up for the year 1971. This is the only statement based on 1971 Census figures.

**Towns :**

There are 4 tahsils and 4 towns in Satna district as indicated below:—

| S.No. | Tahsil | Town | L.C. No. | Class |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Raghurajnagar | Satna | 10/I | II |
| 2 | Nagod | (i) Nagod | 10/II | V |
| | | (ii) Unchahara | 10/III | V |
| 3 | Amarpatan | ... | ... | ... |
| 4 | Maihar | Maihar | 10/IV | IV |

Out of 4 towns in the district 2 are located in Nagod tahsil. Amarpatan tahsil is entirely rural in nature. Satna is the headquarter of the district and continues to be recognised as town since 1901. Other towns which continue to be recognised as towns since 1901 are Maihar and Unchahara. Nagod was recognised as town in 1911. The following are the urban agglomeration and Standard Urban Area in the district:—

| Sl. No. | Name of town forming agglomeration | Name(s) of Village (s) treated as urban outgrowth | Wholly/ Partly | L.C. No. |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | Satna | (i) Ghoordang | Wholly | 10/1/710 |
| | | (ii) Satna Rly. Colony | N.A. | N.A. |
| 2 | Nagod | Namtara | Partly | 10/2/118 |
| | **Standard Urban Area** | | | |
| | *Urban Components* | | | |
| | (1) Satna | | | M |
| | (2) Railway Colony | | | N·A. |
| | (3) Ghoordang | | | 10/1/710 |
| | *Rural Components* | | | |
| | (1) Amaudha Kalan | | | 10/1/678 |
| | (2) Amaudha Khurd | | | 10/1/679 |
| | (3) Bardadih | | | 10/1/694 |
| | (4) Matehna | | | 10/1/697 |
| | (5) Umri | | | 10/1/698 |
| | (6) Mahdewa | | | 10/1/699 |

**Statement No. 1** .—(i) The category of town administration in 1970 has been indicated in column 5 of the statement. Satna and Maihar have municipalities, while Nagod and Unchahara have gram panchayats. The population of the towns have, by and large shown constant increase in every decade since their continued recognition as towns except as indicated below :—

| S.No. | Name of town | Decade Population | | Reduction in population |
|---|---|---|---|---|
| | | Year | Population | |
| 1 | 2 | 3 | 4 | 5 |
| 1 | Maihar | 1911 | 7,904 | |
| | | 1921 | 6,885 | 209 |
| 2 | Nagod | 1911 | 4,028 | |
| | | 1921 | 3,298 | 730 |
| 3 | Satna | 1901 | 7,471 | |
| | | 1911 | 7,192 | 279 |
| 4 | Unchahara | 1911 | 4,507 | |
| | | 1921 | 4,339 | 168 |

During the decade 1901-11 the fall in population in Satna town may be due to plague.*

During the decade 1911-21 the fall in population in Maihar, Nagod and Unchahara towns may be due to fatal influenza epidemic and scarcity of 1918-19**

(ii) Column 14 of the statement shows the functional classification of the towns in 1961 as indicated in the following inset table :—

| Functional category | Total No. of towns |
|---|---|
| 1 | 2 |
| Industry | 3 |
| Industry-*cum*-*Service*-*cum*-Trade & Commerce | 1 |
| Total | 4 |

The method adopted for the functional classification is elucidated below :—

(b) The nine industrial categories were grouped into the following five functional characteristics :—

(i) Primary Activities (Comprising Category I, Cultivation, II-Agricultural Labourer and III-Mining and Quarrying, Fishing, Livestock, Hunting, etc.).

* Census of India 1911, Volume XVII, Central India Agency, Report and Table—Page-5.

** Census of India 1961, District Census Hand Book, Satna district, P—Xliv.

(ii) Industrial (Comprising Category IV-Household Industry, V-Manufacturing other than Household Industry and VI-Construction).

(iii) Commercial (Comprising Category VII-Trade and Commerce).

(iv) Transport (Comprising Category VIII,-Transport, Storage and Communications).

(v) Services (Comprising Category IX-Other Services).

The percentage of total workers under the above five functional characteristics were calculated for each town and the predominant function(s) of each town was/were determined. If one functional characteristic of a town absorbed more than 40 per cent of the total workers the town was designated by that function. In case no single characteristic claimed 40 per cent of the workers, two predominant characteristics together claiming a percentage of 60 or above were taken to represent the town. If these two failed to account for 60 per cent of the total workers, the first three characteristics were taken to represent the town.

**Statement II** :—The physical and locational aspects as in 1969 have been covered carved out of the Raghurajnagar tahsil of the north Rewa district of erstwhile Rewa State and as many as ten other Sanad States. Satna district lies on the Vindhyan Plateau, which has an average altitude of 1,000 feet to 1,100. feet From this plateau rise several hills, some of them enclosing higher plateaus, belonging to the Vindhya system.*

The district receives its rainfall from the precipitation of the Arabian sea monsoon.

The temperature data of Satna town has been indicated for all the towns. Substituted data for the towns as indicated above have been mentioned because the data for such towns is not available and temperature is more or less similar to that of Satna town. The towns get annual rainfall of about 1056 mm. to 1137 mm. The range of maximum and minimum temperature of the towns is from 32.1°C to 18.7°C. The temperature data is based on daily average temperature.

All the towns are on bus route. All the towns except Nagod are connected by railway. Satna is the nearest railway station for Nagod town. Jabalpur is the nearest city by road for Maihar and Unchahara towns, while Allahabad in Uttar Pardesh is the nearest city by road for Satna and Nagod towns. The district headquarter town, Satna is at a distance of 500 Kms. by road from the State headquarter, Bhopal.

**Statement III.** —On the basis of population in 1971 Census the towns of the district have been categorised as below :—

| S.No. | Name of town | Population in 1971 | Class |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Maihar | 15,177 | IV |
| 2 | Nagod | 7,578 | V |
| 3 | Satna | 57,531 | II |
| 4 | Unchahara | 9,662 | V |

The statement would show that the total expenditure is within the total receipts of the local bodies except in the following cases:—

| Sl. No. | Local body in the town of | Year of excess expenditure | Total receipt | Total expenditure | Amount by which the expenditure is more than total receipt | Percentage of excess expenditure to total receipt |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Nagod | 1968–69 | 23,700 | 27,900 | 4,200 | 17.72 |
| | | 1970-71 | 30.200 | 31,700 | 1,500 | 4.97 |
| 2 | Satna | 1970–71 | 392,200 | 560,800 | 168,600 | 42.99 |
| 3 | Unchahara | 1968–69 | 18,100 | 20,100 | 2,000 | 11.05 |
| | | 1969-70 | 22,200 | 24,000 | 2,100 | 9.46 |

*Census of India 1961--District Census Handbook, Satna district. pp. XXXVII and VIII.

Column 7 of the above table would show that the percentage of excess expenditure to total receipt of the local bodies of Satna for the year 1970-71 and Nagod for the year 1968-69 is noticeably high. This is mainly due to substancial expenditure under the heads connected with public utility works and general administration. Receipt through taxes etc., have also shown, by and large, an upward trend during these years except in the following cases :—

| S No. | Name of town | Year | Extent of shortfall in receipt through taxes etc. |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Maihar | 1969–70 | 36,300 |
| 2 | Satna | 1970–71 | 41,100 |

The total receipt of local bodies, by and large, shown an upward trend except in the fallowing cases:—

| S.No. | Local body in the town of | Year |
|---|---|---|
| 1 | Maihar | 1970–71 |
| 2 | Nagod | 1970-71 |
| 3 | Satna | 1970–71 |

Government grants have substantially supplemented the receipt of local bodies. Loans have been obtained by the local bodies of Maihar, Satna and Unchahara towns. The per capita receipt and expenditure under broad heads is as indicated in inset table below:—

| Class of town | No. of towns | Year | Per capita (Rupees) | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | | | Receipt | | | Expenditure | | | |
| | | | Total receipt | Receipt through taxes etc. | Receipt from all other sources | Total Expenditure | Expenditure on Public Health Conveniences | Expenditure on Public Institutions | Expenditure on all other aspects |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| Class I (1,00,000 & over) | | ... | ... | ... | ... | ... | ... | ... | ... |
| Class II (50,000—99,999) | 1 | 1968-69 | 7.36 | 2.17 | 5.19 | 3.93 | 0.15 | 0.14 | 3.64 |
| | | 1969-70 | 8.39 | 2.76 | 5.63 | 6.75 | 1.83 | 0.14 | 4.78 |
| | | 1970-71 | 6.82 | 2.05 | 3.77 | 9.75 | 2.15 | 0.16 | 7.44 |
| Class III (20,000—49,999) | | ... | ... | ... | ... | ... | ... | ... | ... |
| Class IV (10,000—19,999) | 1 | 1968-69 | 18.80 | 4.33 | 14.47 | 7.77 | 1.57 | ... | 6.20 |
| | | 1969-70 | 20.29 | 1.94 | 18.35 | 15.09 | 10.31 | 0.77 | 4.01 |

The above table would show that the total per capita receipt matches fairly well with the total per capita expenditure and in a few cases the total per capita expenditure is higher than the total per capita receipt. The per capita expenditure on public health and conveniences as against per capita receipt through taxes etc. is encouraging. In some cases the expenditure of the local bodies shown in column 15 of Statement No. III under head "Others" constitutes quite high percentage of the total expenditure.

**Statement IV.** —All the towns have electricity. Electric connections have also been given for industrial and commercial purposes. Street lights have also been provided in the towns. Water

supply thorugh taps is available in Satna town only. Fire brigade facility is available in Satna town only.

**Statement V.** —(i) *Medical facilities.* –Hospital facility is available in Satna, Maihar and Unchahara towns, while Nagod has a primary health centre. Besides hospital, Satna has a dispensary and a family planning clinic. The number of beds per thousand population is as indicated in the inset table below:--

| Total No. of beds in Medical Institutions | No. of beds per 1,000 Population |
|---|---|
| 1 | 2 |
| 160 | 1.8 |

(ii) *Educational facilities.* — Satna has one Arts College and another combined College of Arts, Commerce and Science. Besides, there is an Arts and Commerce College which is located in the revenue area of village Kripalpur ( L. C. No. 10/1/757 ) outside the municipal limits of Satna town.

Higher secondary/high schools are located in all the towns. The number of Higher secondary/high schools, middle schools and primary schools per thousand population is as shown in the following inset table. For a more realistic appreciation, the population in the age-group 0-14 has been considered for primary and middle schools, while population in the age-group 15-19 has been considered for higher secondary/high schools.

| Sl. No. | Name of the town | Number per 1,000 population | | |
|---|---|---|---|---|
| | | Higher secondary or secondary | Middle | Primary Junior secondary |
| 1 | 2 | 3 | 4 | 5 |
| 1 | Maihar | 2.4 | ... | 1.4 |
| 2 | Nagod | 1.6 | 0.3 | 0.3 |
| 3 | Satna | 1.0 | 0.3 | 1.2 |
| 4 | Unchahara | 1.4 | 0.2 | 0.9 |

(iii) *Recreational and Cultural facilities:* – Cinema house facility is available in all the towns. Public library and reading room facility is available in Satna and Unchahara only.

**Statement VI.**—All the towns have bank facility. All the towns except Maihar have agricultural credit societies. Non-agricultural credit society is available in Satna town only. Coal, Cotton, Gud, cloth, tobacco, petrol, iron and metal are the main items of import in the towns. Lime, limestone, Betel leaves, *tendu* leaves, oil seeds, cement, stone, cables, bronze utensils and timber wood are the main items of export from the towns. Lime, *bidi*, bricks, bamboo articles, cement, ironsticks, capacitor cables, charcoal and bronze utensils are the important items of manufacture in the towns.

**Statement VII.**—About 64 per cent of the urban population is in Satna town followed by Maihar where the percentage is about 17.

Majority of the urban population follow hindu religion; next come followers of islam religion. Townwise percentage of the population following hindu religion is as indicated below:-

| S. No. | Town | Percentage in round figures | |
|---|---|---|---|
| | | Hindu | Islam |
| 1 | 2 | 3 | 4 |
| 1 | Maihar | 79 | 20 |
| 2 | Nagod | 80 | 19 |
| 3 | Satna | 89 | 8 |
| 4 | Unchahara | 87 | 13 |

Townwise percentage of the population following different religions and percentage of scheduled

castes and scheduled tribes is as indicated below:—

| S. No. | Name of town | Percentage | | | | | | | Religion not stated | Percentage of Scheduled Castes | Percentage of Scheduled Tribes |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Buddhist | Christian | Hindu | Jain | Islam | Sikh | Others | | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Maihar | 0.01 | 0.12 | 79.20 | 0.42 | 19.73 | 0.51 | ... | ... | 9.38 | 5.76 |
| 2 | Nagod | ... | 0.13 | 79.53 | 1.83 | 19.32 | 0.19 | ... | ... | 22.21 | 16.11 |
| 3 | Satna | 0.03 | 0.41 | 89.03 | 1.99 | 8.10 | 0.31 | ... | 0.12 | 10.55 | 3.21 |
| 4 | Unchahara | ... | 0.01 | 87.15 | 0.19 | 12.54 | 0.10 | ... | ... | 16.58 | 2.64 |

The percentage of Scheduled Castes population is comparatively high in Nagod town (about 22 per cent), while in other towns the percentage of Scheduled Castes varies from about 9 to 17 per cent. Highest percentage (about 16) of Scheduled Tribes is in Nagod town. The percentage of Scheduled Tribes in other towns varies from about 3 to 6.

Note:—Persons returning different sect/faith have been included under the main religion as below:—
In Satna town Hindu includes Gujarati (F. 1), Punjabi ( F. 5), Sindhi (M.61, F.60), Bengali (M. 4, F. 4).
in Nagod Town Hindu includes Sindhi ( M. 36, F. 44).

# PRIMARY CENSUS ABSTRACT

PART X (B)

# EXPLANATORY NOTE

## I. General:

In Part A, the picture of the district as revealed by non-Census data has been discussed. In this note, the progress made by the district in the 1961-71 decade would be dealt with on the basis of information collected in the individual slip that was canvassed in the 1971 Census. Broadly speaking, the changes that have come about in the matter of total population, its growth-rate and density, sex-ratio, literacy, Scheduled Castes and Scheduled Tribes, working population, occupied residential houses and number of households have been discussed.

## II. Population :

The population of Satna district is 913,531 while the population of Madhya Pradesh is 41,654,119. The population of Satna district, thus comes to 2.19 per cent of the State population. The rural population is about 90 per cent of the district population whereas the urban population is 10.36 per cent as against the State percentage of 16.29. In other words, the district is rural in character. Highest percentage of the district population is found in Raghurajnagar tahsil (about 45 per cent) and the reason for this is that the population of district headquarters town, Satna is included in this Tahsil. Satna district ranks 18th among the 43 districts of the State in population. During the decade 1961-71, the district population growth rate has been 31.56 against the State growth rate of 28.67. The area of the district is 7,495 sq. kms. In other words, it has 1.69 per cent of the State area and ranks 27th in area among the districts of the State. The density of population per sq. km. of the district is 122 against the State density of 94 and the district ranks 12th in density in the State. The sex-ratio, number of females per 1,000 males, of the district and the State is 950 and 941, respectively. Tahsil Raghurajnagar has got sex-ratio lower than the district sex-ratio while the remaining three tahsils have higher sex-ratio.

## III. Literacy :

1. The percentage of literacy in the district comes to about 21 as against the State literacy percentage of about 22. In 1961 also, the literacy percentage of the district (15.59) was lower than the State percentage of 17.13. The district has made some progress to increase the rate of literacy during the decade 1961-71.

2. The literacy percentage among the males in the district (32.34) is slightly lower than the State percentage (32.70). Among females also, the literacy percentage in the district (8.59) is lower than the State percentage of about 11.

3. Among the tahsils, Raghurajnagar tahsil has the highest literacy percentage of about 24, while Maihar tahsil has the lowest percentage of about 17.

4. The same pattern is seen in male literacy in the tahsils. Among males, Raghurajnagar tahsil is at the top (about 36 per cent), while Maihar tahsil with about 28 per cent comes last. Among females Raghurajnagar tahsil leads in literacy (about 11 per cent), while Amarpatan tahsil with 5.90 per cent comes last.

## IV. Workers :

In the district, about 38 per cent of the population comes under the category of workers (main activity) against the State percentage of about 37. The percentage of female workers to total female population (about 22) is higher than the State percentage (about 19). Within the district, comparatively greater percentage (about 40) of workers (males and females) have been returned from Amarpatan tahsil. Nagod tahsil has returned the lowest percentage of workers (37.21). Among female workers, Amarpatan tahsil with 26.02 per cent leads other tahsils of the district, while Nagod tahsil with 20.36 per cent comes last. Among the workers in the district, about 42 and 36 per cent are cultivators and agricultural labourers, respectively, as against the State percentage of about 53 and 27. Under the category "Other workers" the district percentage (21.13) is higher than the State percentage of 20.58. Among females, the district percentage of agricultural labourers (about 62), and other workers (about 11.28) is higher than the State percentage of about 49 and 10, respectively, while for cultivators

the district percentage (about 26) is lower than the State percentage (about 41). Comparatively, highest percentage of cultivators (about 46) and agricultural labourers (about 41) has been returned from Amarpatan tahsil. Lowest percentage of cultivators (about 40.97) and agricultural labourers (about 33) have been returned from Raghurajnagar tahsil.

### V. Scheduled Caste and Scheduled Tribe :

The percentage of Scheduled Castes to total population of the district ( 12.66) is slightly lower than the State percentage (13.09). The percentage of Scheduled Tribes to total population of district (about 14) is lower than the State percentage (20.14). Highest percentage (13.81) of Scheduled Castes is in Nagod tahsil, while lowest percentage (9.70) is in Amarpatan tahsil. As regards Scheduled tribes population, highest percentage (19 53) has been returned from Maihar tahsil, while lowest percentage (11.17) is in Nagod tahsil.

### VI. Occupied Residential Census Houses:

The district has 148,007 occupied residential Census Houses against the State figure of 6,822,767 which comes to 2.16 per cent. During 1961, there were 137,450 occupied residential Census houses in the district against the State figure of 6,230,854 which came to 2.20 per cent. There has been very slight change in the percentage during the decade. The number of households and persons per occupied residential Census house in 1961 and 1971 are indicated below :—

| State/ District | Year | No. of Residential Census Houses | No. of House-holds | No. of house-holds per occupied residential Census House | No. of person per residential Census Houses |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| State | 1961 | 6,230,854 | 6,615,580 | 1.06 | 5.2 |
| District | 1961 | 137,450 | 147,088 | 1.07 | 5.1 |
| State | 1971 | 6,822,767 | 7,740,289 | 1.13 | 6.1 |
| *District* | *1971* | *148,007* | *170,591* | *1.15* | *6.2* |

It would thus be seen that the pressure on occupied residential Census houses has increased during the decade in the district as well as in the State. Comparatively, Raghurajnagar tahsil (with about 45 per cent) claims the highest percentage of occupied residential Census houses in the district.

### VII. Villages and Towns :

There are 2,116 villages in Satna district, which comes to 2.74 per cent of total villages in the State. The percentage of inhabited villages to total villages in the district is about 83.03 against the State percentage of about 92. There are 250 towns in the State out of which the district claims four—Maihar, Nagod, Satna and Unchahara.

*NOTE*:—(1) U.A. = Urban Agglomeration.
M = Municipality.
OG = Urban Outgrowth.

(2) **Urban Outgrowth** :—

1. Village Ghoordang, L.C. No. 710 of Tahsil Raghurajnagar is wholly included.
2. Village Satna Railway Colony, (Information Not available).
3. Village Namtara, L.C. No. 118 of Tahsil Nagod is partly included.
4. The total area figure given for the district is provisional 'Geographical Area' as supplied by the Surveyor General of India.
5. The Urban area figures are those supplied by the local bodies.
6. The rural area of the district has been derived by substracting the urban area figures supplied by the local bodies from the total area figure of the district.
7. Total area figures of the tahsils are according to village papers as supplied by the Director of Land Records, Madhya Pradesh, Gwalior.
