MOTIF

Forts are the windows through which one can peep into the historical past.

Pratapgad Fort, constructed in 1656, was one of the most formidable hill-forts of Chhatrapati Shivaji, overlooking the vital road to Deccan. It is at this place Shivaji killed Afzal Khan, the Bijapur General, who tried to strangle Shivaji trecherously.

Pratapgad is about 65 km from the district headquarter town of Satara–the capital of Maratha Empire during the period of Chhatrapati Shahu from 1707 to 1749. During this epoch making era, domain of the Maratha Empire spread far and wide in the country.

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulating local level and regional plans and as an aid to District administration. The district census hand book is the only publication which provides Primary Census Abstract (PCA) data upto village level for rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part–A related to village and town directory, Part–B to village and town PCA and Part–C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the corelation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of SC & ST population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class–I and Class–II towns (Statement IV–A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part–A of the volume contains village and town directory and Part–B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value.

This publication is joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri P. P. Mahana, the Director of Census Operations, Maharashtra on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA,
Registrar General, India.

New Delhi,
the 26th April 1982.

ACKNOWLEDGEMENTS

The preceding foreword of the Registrar General and Census Commissioner, India, is quite exhaustive and gives the reader a complete account of the District Census Handbook project. As has been mentioned therein, the publication of District Census Handbooks of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organisation of the Government of India. The design for the 1981 District Census Handbooks was evolved centrally by the Census Commissioner, India. The contribution of the Government of Maharashtra comes by way of bearing the cost of printing. We are thankful to the Census Commissioner and to his band of devoted officers in the Social Studies Division for the valuable guidance they have given us, and to the Government of Maharashtra for the readiness they have shown to print and publish these handbooks. Our grateful thanks are also due to the District Inspectors of Land Records for helping us in marking village boundaries on the tahsil maps we have prepared and presented in these handbooks, and for recording a certificate of authenticity on each such map we referred to them.

Shri P. P. Mahana, who held the office of Director of Census Operations, Maharashtra, and guided the operations of the 1981 Census, left this organisation on 14th December 1982. The data presented in these handbooks were collected and compiled under the direction and guidance of Shri Mahana. We would deem it our duty, therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this directorate, the undersigned exercised overall supervision over the work of the project, while the main brunt of day-to-day supervision was borne by Shri A. S. Dange, Deputy Director. He was ably assisted in this work by Shri Madhav Shyam, Research Officer (Map) and Smt. V. Y. Joshi, Shri G. M. D. Lone and Shri V. S. Nagle, Assistant Directors. The list of their colleagues in the District Census Handbook Unit who put in untiring efforts to bring the project to fruition is fairly long and is not being given here for want of space. However, all these unnamed assistants in various grades who attended to the voluminous work of compilation, typing, comparing, checking and mapping, etc. deserve our heart-felt thanks.

A. W. MAHATME,
Joint Director of Census Operations

Census Directorate, Maharashtra, Bombay.
Dated 26th January 1984 (Republic Day).

Note.—The source for the total area figures in respect of the districts is the Surveyor General of India, while that for the total area figures in respect of the tahsil is the State Land Records Department. The total areas, as also the rural areas, for the tahsils in district may not, therefore, strictly add upto the corresponding figures shown against the district. Names of towns treated as such for the first time in 1981 have been printed in italics.

APPENDIX 1 TO SUMMARY TABLE 1

Tahsilwise number of Villages with population of 5,000 or over and of Towns with population under 5,000

(Tahsils which have nothing to show for this statement have been omitted from presentation)

District/Tahsil	Villages with population of 5,000 or over			Towns with population under 5,000

ANALYTICAL NOTE

HISTORY AND SCOPE OF DISTRICT CENSUS HANDBOOK

The District Census Handbook compiled by the State Directorate of Census Operations is, in effect, a joint venture of the State Government and Census Organisation. Its publication was started from 1951 census. Not only it has become a regular feature of every census but also coverage has been enlarged and rationalized. Naturally, this document is constantly being consulted by the planners, administrators, academicians and researchers alike. The 1981 district census handbook is fourth in the unbroken series.

In 1951, district census handbook contained important census tables and the primary census abstract for each village and town in the district. The scope of district census handbook was enlarged at the 1961 census by including descriptive account of the district and administrative statistics in addition to the census tables and the primary census abstract of every village and town. The 1971 district census handbook series was organised in three different parts, Part A related to the village and town directory, Part B to village and townwise primary census abstract (PCA) and Part C to analytical report, administrative statistics, census tables, analytical tables based on the PCA and amenity data for every village. However, for Maharashtra State (as also for many other states in India) only Part A and Part B of the district census handbook were published. Part C altogether had to be given up primarily due to the problems relating to printing.

1981 district census handbook is comprised of two parts-Part A and Part B. Part A includes village and town directory and Part B village and townwise primary census abstract. While designing the format of 1981 district census handbook data on some new items, such as adult literacy centres, primary health subcentres and community health workers has also been included.

Village and Town Directory as well as primary census abstract included in the district census handbook are expected to meet the requirements of the planners for micro level planning. Similarly, the additional data for town directory in respect of civic and other amenities in Class I and Class II towns are oriented to minimum needs programme especially in respect of slum dwellers. The data on amenities by size of town would be of great interest to the scholars and planners alike.

Brief History of the District

Inscriptions as old as 200 B. C. reveal that probably the oldest known place in Satara district is Karad (mentioned as Karhakada). It is also believed that Wai in Satara district is the "Viratnagri" where Pandavas lived in the 13th year of their exile.

In the deccan, the Mauryan empire was followed by the rule of Satavahanas. For about two centuries (between 550 A. D. to 750 A. D.) Satara, as also the Southern Maharashtra, was ruled by 'Chalukyas' of Badami and was later by Rastrakutas, Silaharas and Yadav of Devgiri, the Bahamanis, Adil Shahi, Shivaji (Maratha rule), Shahu Ram Raja and Shahu II Pratapsinh. Princely state of Satara came under British rule on 10th February, 1818.

In 1848, the district Satara (earlier called as Satara Province) comprised of eleven sub-divisions namely Bijapur (now a part of Karnataka State), Jaoli, Karad, Khanapur, Khatav, Koregaon, Pandharpur, Satara, Targaon, Valva and Wai. In 1856, twelve new mahals were formed and these were Pimpaude in Koregaon, Khandala in Wai, Bamnoli in Jaoli, Kole in Karad, Shirala and Peth in Valva, Helvak in Targaon, Mayni in Khanapur, Natepute and Pusegaon in Khatav, and Sangola and Bhalvani in Pandharpur. The sub-divisional boundaries were again overhauled in the year 1862 and the then Satara district included the sub-divisions of Bijapur, Jaoli, Karad, Khanapur, Khatav, Koregaon, Malshiras, Man Pandharpur, Patan, Satara, Targaon, Valva, Wai and Khandala Peta in Wai and Shirala Peta in Valva. In the same year Bijapur sub-division was transferred to Belgaum district (now in Karnataka State). Targaon taluka was transferred to Satara district from Belgaum in 1863 and Pandharpur was transferred to Solapur in 1864. Targaon subdivision got abolished in 1867. Malshiras was transferred to Solapur in 1875 and Malcompeth Peta (later named as Mahableshwar) was formed in 1884. Khandala Peta was abolished in 1927 and was re-constituted in 1947.

Consequent upon the merger of former Indian States, the district received parts of Phaltan, Jamkhandi, Akkalkot, Bhor, Aundh, Sangli and one village from Pune district. A new taluka of Phaltan was created in 1949. In the same year the district was bifurcated into two; North Satara and South Satara. The South Satara with its head quarters at Sangli included four talukas namely Khanapur, Tasgaon, Valva and Shirala Peta. The remaining portion of the district was called as North Satara district. In 1958, one village from Khanapur taluka of South Satara district was transferred to Karad taluka of North Satara District. With the reorganisation of states in 1956, both the districts were included in Bombay State. Since 1960, they form parts of Maharashtra State and in the same year *i. e.* 1960, the name of North Satara district was changed to Satara district, and that of South Satara to Sangli District.

At the time of 1961 census, Satara district comprised of 9 talukas and 2 mahals which among themselves included 1,160 inhabited villages (and 14 uninhabited) and ten towns. During 1961-71 the mahals were upgraded as talukas thus, raising their number to 11. At the time of 1971 census, the district had 11 tahsils comprising of 1,167 villages (including 25 uninhabited) and 14 towns. 5 new towns were added at the time of 1971 Census and one town namely Satara suburban of 1961 census was merged into Satara city. (Tahsil and Taluka are synonymous terms and prior to 1971 tahsil was referred to as taluka). Since then, the number of tahsils in the district has remained unchanged till the reference date of March 1, 1981. However, there have been certain changes as to the number of villages within the tahsils during the previous decade. With the upgrading of hamlets/wadis in the district, the number of villages has gone up to 1,437 (including 20 uninhabited). Consequent upon

the declassification of five towns and with the creation of one town (Koregaon) qualified the specific criteria to be declared as town, the number of towns in the district has gone down from 14 (in 1971) to 10 (in 1981). Incidently, all the five towns declassified at the 1981 census were created only at the time of 1971 census.

Location, Relief and Drainage

Situated in the river basins of Bhima and Krishna rivers, the Satara district extends between 17°5′ and 18°11′ North latitude and 73°33′ and 74°54′ East longitude. It is flanked by district Pune to the North, Solapur to the East, Sangli to the South and districts of Raigarh and Ratnagiri to the West.

District Satara covers an area of 10,484 km.² and has a population of 2,038,677 as per the latest 1981 Census. Among the 26 districts in the State, it ranks 17th in area and 15th in population.

Sahyadri and Mahadeo are the two main systems of hill ranges in the district. Sahyadri range runs in north-south direction and the Mahadeo range stretches east and south-east wards. With the exception of hills in Mahabaleshwar and Koyna-Valley, all other hills are low, barren and rugged. Mahabaleshwar with an altitude of 1,436 metres is the highest point in the district.

Within the district, the seasons show local variations. In the Western part climate is cool and healthy as compared to eastern part. The plains of Wai have temperate climate throughout the year. In the Central part there is considerable heat during hot months. In general warmth increases as one proceeds from western to eastern part.

Krishna is the main river in the district. Other important rivers in the district are; Koyana, Nira, Man, Veena, Kudali, Urmodi, Vasana, Yerala and Tarali. Krishna river with its source in the Mahabaleshwar plateau traverses through the district for about 160 kms. before entering into the adjoining Sangli district. It, in association with seven other feeders, drains the major part of the district. Five of these seven feeders namely; Kudali, Venna, Urmodi, Tarali and Koyana flow to the right and the remaining two (Vasana and Yerala) to the left of Krishna river. Among all these seven feeders, Koyana is the largest.

The Nira and the Man are tributaries of Bhima river. The former flows along the northern boundary of the district and the latter south-eastwards.

Climate

The district neither experiences abrupt changes of temperature nor extremes of heat or cold. The rainy season starts from middle of June and ends by September. It is followed by sultry weather from October till the middle of November, winter from November to January, dry hot time from February to March and hot weather from April to middle of June. Within the district, the seasons show local variations. In the western part climate is cool and healthy as compared to eastern part. The plains of Wai have temperate climate throughout the year. In the central part there is considerable heat during hot months. In general warmth increases as one proceeds from western to eastern part.

The rainfall is not uniform throughout the district. Within the district it receeds from west to east. The extreme western part gets over 5,000 mm. of rainfall while the extreme eastern part receives rainfall between 1,200 mm. to 2,000 mm. In the Central Zone the rainfall varies between 600 mm. to 1,200 mm. The normal annual rainfall is maximum (6,182.3 mm.) in Mahabaleshwar and minimum (473.0 mm.) in Phaltan-Statement II. About 85 per cent of the rainfall is received during the monsoon months of June to September.

Soil

The soil in the district is observed to be of different textures. In the west, it is formed from red laterite of the ghats. Rich black soil is found in the low lands of the valleys of Krishna and Koyana rivers flowing through Wai, Jaoli and Patan tahsils.

Soil in the central region consists of medium to deep black alluvium. Krishna valley soils are said to be the richest in the Deccan and especially the part of Krishna valley falling in the Satara and Karad tahsils. For the most part it is finest black alluvium highly retentive to moisture.

The soil in Khandala and Phaltan tahsils is poor and stony near the hills. However, along the Nira river and its tributaries there are good black soils. On the eastern part of Khandala tahsil, the soil is poor, shallow and whitish.

Census Houses and Households

Columns 4 and 5 of the primary census abstract give total number of occupied residential census houses and the number of households. According to Indian census, 'Census House' is a building or a part thereof having a main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant, residential, non-residential or both. A 'household' is a group of persons who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented them from doing so. A 'household' may be of persons related by blood or of unrelated persons, or having a mix of both. There may be single member or more than one member households. Households of unrelated persons termed as 'institutional households' include boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc.

Houseless population or houseless households include persons who do not have any fixed place of residence but go on moving from place to place, camp at night, or just live on the streets, in gardens or in open places.

Distribution of Population in Rural and Urban Areas

As per 1981 census, the population of Satara district stands at 2,038,677 including 989,122 males and 1,049,555 females. This makes 3.25 per cent of state's population over 3.41 per cent of its area. Among the 11 tahsils in the district, Karad (382,677) is the most populous (Table 1).

TABLE 1

Population, Number of Villages and Towns, 1981

Serial No.	Name of Tahsil	Population									No. of Villages		No. of towns
		Total			Rural			Urban			Total	Inhabited	
		P	M	F	P	M	F	P	M	F			
1	2	3	4	5	6	7	8	9	10	11	12	13	14

3.	Khandala	82,574	40,048	42,526	82,574	40,048	42,526	..	..	..	61	60	..
4.	Koregaon	190,605	90,821	99,784	153,478	72,126	81,352	37,127	18,695	18,432	99	99	3
5.	Phaltan	224,018	113,606	110,412	190,159	95,921	94,238	33,859	17,685	16,174	117	116	1
6	Man	145,223	71,238	73,985	130,474	63,908	66,566	14,749	7,330	7,419	91	91	1
7.	Khatav	202,701	96,186	106,515	202,701	96,186	106,515	..	..	..	96	95	..
8.	Karad	382,677	194,459	188,218	328,313	165,419	162,894	54,364	29,040	25,324	163	162	1
9.	Patan	233,265	107,160	126,105	233,265	107,160	126,105	..	..	..	265	256	..
10.	Jaoli	105,287	47,186	58,101	105,287	47,186	58,101	..	..	..	206	200	..
11.	Mahabaleshwar ..	36,475	18,798	17,677	18,779	9,270	9,509	17,696	9,528	8,168	55	55	2
	District total ..	2,038,677	989,122	1,049,555	1,772,885	850,402	922,483	265,792	138,720	127,072	1,437	1,417	10

Other tahsils in order of their size of population are : Satara (292,635); Patan (233,265); Phaltan (224,018); Khatav (202,701); Koregaon (190,605); Man (145,223); Wai (143,217); Jaoli (105,287); Khandala (82,574) and Mahabaleshwar (36,475). It follows that within the district the most populous tahsil has more than 10 times the population of the least populous tahsil.

The basic unit for rural area is a revenue village. A 'village' may be defined as a statutory recognised unit having definite boundary and separate land records. Urban areas on the other hand are specially defined for census purposes. The criteria adopted for 1981 census is :

(*a*) All places with a municipality, corporation or cantonment board or notified town area.

(*b*) All other places which satisfy the following criteria :

(*i*) A minimum population of 5,000.

(*ii*) At least (75%) of male working population engaged in non-agricultural (and allied) activities.

(*iii*) A population of at least 400 persons per km^2.

Out of 2,038,677 persons in the district, 1,772,885 (86.96%) live in the countryside and the remaining 265,792 (13.04%) in the towns. Thus, in Maharashtra State (where 35.03% of the total population is urban), Satara is among one of the less urbanised districts.

Size Class and Status of Towns

For the purpose of comprehensive analysis of varied demographic characteristics, towns have been divided into the following classes by population size :

Class I	..	1,00,000 and above
Class II	..	50,000—99,999
Class III	..	20,000—49,999
Class IV	..	10,000—19,999
Class V	..	5,000— 9,999
Class VI	..	Below 5,000

In 1981, there has been addition of one town viz. Koregaon as it qualified the specific criteria to be declared as census town (Table 2).

TABLE 2

New Towns/Towns declassified in 1981 Census

Name of the town 1	Population 1981-census 2
(*a*) Added—	
(*i*) Koregaon (C. T.) ..	14,594
(*b*) Declassified—	
(*i*) Bhade ..	2,682
(*ii*) Gokul Tarf Helwak ..	2,666
(*iii*) Humbrali ..	1,478
(*iv*) Patan ..	7,352
(*v*) Sadashivgad ..	4,709

On the contrary, five of the 14 towns which existed in 1971 were declassified at the time of 1981 census. These declassified towns included Bhade, Gokul Tarf Helwak, Humbrali, Patan, Sadashivgad. Incidentally all these five towns were added only at the time of 1971 census.

Of the 10 towns in the district, two (Satara and Karad) are Class II; two (Phaltan and Wai) are class III; four (Mhasvad, Koregaon, Rahimatpur and Satara-Road) are class IV; and two (Mahabaleshwar and Panchgani) are class V. With the exception of Koregaon and Satara-Road all others are municipal towns.

Urban Agglomeration

There is no urban agglomeration in this district.

Standard Urban Area

Standard Urban Area (S. U. A.) concept introduced in 1971, has been followed in 1981 as well.

The essential requirements for the constitution of S. U. A. are ;

(*i*) It should have a core town of a minimum population of 50,000 ;

(*ii*) The contiguous areas made up of other urban as well as rural administrative units should have mutual socio-economic links with the core town ; and

(*iii*) In all probability this entire area should get fully urbanised within a span of two or three decades.

The constituent units of Standard Urban area in Satara district are as follows :—

Satara SUA : Urban Components :

1. Satara (M).

Rural Components :

1. Karanje T. Satara. 2. Godoli.

Table (3) given below provides villages by population ranges and their percentage to total inhabited villages in the district.

TABLE 3

Distribution of Inhabited Villages by Population Ranges

Range of Population 1	No. of villages in each range 2	Percentage of villages in each range 3
—200	116	8.19
200–499	294	20.75
500–1,999	758	53.49
2,000–4,999	217	15.31
5,000–9,999	29	2.05
10,000+	3	0.21
All ranges ..	1,417	100.00

A village on an average has a population of 1,251 persons and 7.0 km.² of area. (The corresponding figures for the state as a whole are 1,036 persons and 7.67 km.²). Thus, in terms of population size, villages in Satara District are bigger as compared to the State as a whole. Of the 1,417 inhabited villages, 116 (8.19%) are small sized with a population of below 200, 294 (20.75%) in the size class 200–499, 758 (53.49%) in the size class 500–1,999, 217 (15.31%) in the size class 2,000-4,999, 29 (2.05%) in the population range of 5,000–9,999 and the remaining 3 (0.21%) in the size class of 10,000 and above. It is interesting to observe that 29 villages are in the population range of 5,000 to 9,999 and three have a population of at least 10,000 each.

Population Growth, Density and Sex Ratio

During the decade 1971–81, Satara district recorded a growth rate of (18.02%). In other words 1981 census added 311,301 persons to the 1971 population of the district. However, the growth rate of population in Satara district was much below the state average growth rate of (24.54%). The comparatively lower growth rate in Satara district during 1971–81 is probably due to male selective out-migration to the districts of employment opportunities. Within the district, Karad tahsil experienced the highest (23.04%) growth rate, which too is lower than the state average growth rate. Other tahsils which recorded growth rate above the district average include Satara (21.94%), Mahabaleshwar (20.81%), Man (20.26%) and Phaltan (20.04%). (Table 4). It is also observed that in the district, rural growth rate (18.18%) exceeded the urban growth rate (16.96%). Within the district the difference is phenomenal in Karad (rural 25.87% and urban 8.32%) and Man (rural 20.71% and urban 16.44%) tahsils (Table 4).

TABLE 4

Decadal Change in Distribution of Population

Name of tahsil 1	Population 1971 Total 2	1971 Rural 3	1971 Urban 4	1981 Total 5	1981 Rural 6	1981 Urban 7	Percentage decadal (1971–81) Variation Total 8	Rural 9	Urban 10

11. Mahabaleshwar ..	30,191	15,967	14,224	36,475	18,779	17,696	+20.81	+17.61	+24.41
District total ..	1,727,376	1,500,119	227,257	2,038,677	1,772,885	265,792	+18.02	+18.18	+16.96

In the post independence period (1951–81) the urban growth rate recorded in 1951 census was the highest (44.84%) in the district and also in the State (62.42%) (Table 5).

TABLE 5

Growth, Density and Sex-Ratio of Urban population in the District in relation to the State

Census Year	District						State					
	Total population	Urban population	%Urban population	Decadal percentage variation in urban population	Density (population per Km²)	Sex ratio (No. of females per 1,000 males)	Total population	Urban population	%Urban population	Decadal percentage variation in urban population	Density (population per Km²)	Sex ratio (No. of females per 1,000 males)

N. A.—Not Available

In 1961, the urban population declined by 1.19 per cent in the district whereas in the State, the urban growth rate came down to (21.32%). This was attributed to the declassification of towns which in itself was the result of change in definition of urban areas. During 1961–71, urban growth rate in the district and the state rose to 43.45 and 40.75 per cent respectively. The latest census of 1981 recorded an urban growth rate of 16.96 per cent for the district and 39.99 per cent for the State. The rural growth rate during this decade was 18.18 per cent for the district and 17.55 per cent for the state.

Among the various towns in the district, the growth rate was the highest (28.43%) for Karad town (Statement-I). Phaltan (26.46%); Satara (25.44%); Panchgani (25.04%); Mahabaleshwar (23.82%) and Wai (17.21%) are the other towns in the district where the growth rate exceeded the district average. On the contrary the growth rate was the lowest at 5.17 per cent for Satara-Road town.

Satara district has an average density of 194 persons per km². This is lower than the state average density of 204 persons per km². Within the district, however one can see wide variations. Karad Tahsil (358) is the most thickly populated tahsil. On the other hand Man tahsil with a density of barely 101 persons per km² is at the tail.

Table 6 shows the distribution of villages according to density ranges.

TABLE 6

Distribution of Villages by Density

Range of density (per km²)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
—10	20	1.41
11–20	18	1.27
21–50	85	6.00
51–100	245	17.29
101–200	428	30.20
201–300	257	18.14
301–500	184	12.99
501+	55	3.88
Not known	125	8.82
All density ranges	1,417	100.00

For convenient understanding of patterns, village have been grouped under eight different density ranges. Table reveals that about one-fourth (368) of the inhabited villages recorded a density of upto 100 persons per km². In about three-fifths (869) villages, it varied between 100–500, and in 55 villages the density was more than 500 persons per km². For the remaining 125 inhabited villages the density of population could not be worked out for want of their area figures. In conformity with the state pattern there has been consistent rise in the urban density of population in the district since the post independence period. It has increased from 497 persons per km² in 1961 to 751 persons per km² in 1981 in the district as compared to from 1,694 (1961) to 3,736 (1981) for the state as such. Among the various towns in the district Karad recorded the highest (21,403) density of population (Statement-I). On the contrary Mahabaleshwar with a density of merely 59 persons per km² is at the bottom.

1981 census recorded a sex ratio of 1,061 females per 1,000 males in the district which is significantly higher than the sex ratio for the state as a whole (937 females per 1,000 males).

TABLE 6 (i)

Sex Ratio 1901—1981

Year	District	State
1901 ..	1,031	978
1911 ..	1,025	966
1921 ..	1,030	950
1931 ..	1,006	947
1941 ..	1,035	949
1951 ..	1,051	941
1961 ..	1,047	936
1971 ..	1,037	930
1981 ..	1,061	937

Above table reveals that since the beginning of this century the sex ratio in Satara district has always remained higher than that of the State. The district is also showing an increasing trend in sex ratio for the last three censuses.

Within the district the sex ratio differs strikingly. The Table 6(ii) given below shows that Jaoli tahsil with a sex ratio of 1,231 ranks at the top and Mahabaleshwar tahsil having a sex ratio of 940 is at the bottom. Other tahsils where females out-numbered males include, Patan (1,177), Wai (1,112), Khatav (1,107), Koregaon (1,099), Satara (1,064), Khandala (1,062) and Man (1,039). In other words, eight out of eleven tahsils in the district are female biased.

TABLE 6 (ii)

Sex Ratio by Tahsils, 1981

District/Tahsil	Females per 1,000 males, 1981
Satara District ..	1,061
Satara tahsil ..	1,064
Wai tahsil ..	1,112
Khandala tahsil ..	1,062
Koregaon tahsil ..	1,099
Phaltan tahsil ..	972
Man tahsil ..	1,039
Khatav tahsil ..	1,107
Karad tahsil ..	968
Patan tahsil ..	1,177
Jaoli tahsil ..	1,231
Mahabaleshwar tahsil ..	940

The urban sex ratio in the district (916) is also significantly higher than that of the State (850).

Scheduled Castes and Scheduled Tribes

For evolving any suitable plan for socio-economic uplift of the scheduled castes and scheduled tribes, the government need to have the necessary data about them and for this, census is the main source. One of the highlights of 1981 census as that of 1971 and 1961 censuses was, the collection of detailed information on the socio-economic characteristics of scheduled castes and scheduled tribes population. There is no standard definition of scheduled castes or scheduled tribes. Scheduled castes include castes, races of tribes as are declared to be scheduled castes by the president of India by public notification under article 341(i) of the Indian Constitution. Similarly, scheduled tribes mean all such tribes of tribal community as are declared by the president of India to be treated as scheduled tribes under article 342 (i) of the Indian Constitution. For Maharashtra State, 59 castes and 47 ribes have been declared to be recognised as scheduled castes and scheduled tribes respectively and the list of scheduled castes and scheduled tribes in the state is given below.

Scheduled Castes and Scheduled Tribes in Maharashtra State

I. LIST OF SCHEDULED CASTES

1. Ager.
2. Anamuk.
3. Aray Mala.
4. Arwa Mala.
5. Bahna, Bahana.
6. Bakad, Bant.
7. Balahi, Balai.
8. Basor, Burud, Bansor. Bansodi.
9. Beda Jangam. Budga Jangam.
10. Becar.

At the time of 1981 census, scheduled castes population in Satara district was 126,630 including 63,235 males and 63,395 females. They constitute 6.21 per cent of the total district population as against 5.39 per cent in 1971. Of the total scheduled castes population in the district, 104,598 (82.60%) live in the rural and the remaining 22,032 (17.40%) in the urban areas. 462 villages in the district have no scheduled castes population (Table 7).

TABLE 7

Proportion of Scheduled Caste Population to Total population in the Villages

Percentage range of scheduled caste population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
No S. C. Population	462	32.60
—5	552	38.96
6—10	262	18.49
11–15	87	6.14
16—20	28	1.98
21—30	19	1.34
31+	7	0.49
All ranges	1,417	100.00

Among the remaining 955 villages, the share of scheduled caste population is less than 5 per cent in 552 villages; 6 to 10 per cent in 262 villages; 11–15 per cent in 87 villages; 16–20 per cent in 28 villages; 21–30 per cent in 19 villages and more than 30 per cent in 7 villages in the district.

Table 7(i) shows tahsilwise proportion of scheduled castes and scheduled tribes population to the total population in the district for 1971 and 1981.

TABLE 7 (i)

Scheduled Caste and Scheduled Tribe Population 1971 and 1981

District/Tahsil	Percentage of scheduled caste population to total population		Percentage of scheduled tribe population to total population	
	1971	1981	1971	1981
1	2	3	4	5
Satara District	5.39	6.21	0.21	0.64
Satara tahsil	5.69	6.16	0.29	0.62
Wai tahsil	3.16	3.99	0.71	1.40
Khandala tahsil	4.59	5.41	0.08	0.79
Koregaon tahsil	4.78	5.26	0.14	0.61
Phaltan tahsil	7.51	9.23	0.13	0.59
Man tahsil	7.91	8.80	0.01	0.19
Khatav tahsil	5.94	6.78	0.06	0.26
Karad tahsil	6.10	6.87	0.01	0.23
Patan tahsil	3.88	4.21	0.12	0.53
Jaoli tahsil	2.05	2.44	1.10	1.61
Mahabaleshwar tahsil	4.20	6.99	0.23	4.04

As per 1981 census, the scheduled tribes population in Satara district stands at 13,060 (6,567 males and 6,493 females) and they comprise barely 0.64 per cent (as against 0.21 per cent in 1971) of the district population. 90 per cent of scheduled tribes population is rural by residence and 10 per cent resides in urban areas of the district. Out of 1,417 inhabited villages in the district, 1,034 villages have no scheduled tribes population (Table 8).

TABLE 8

Proportion of Scheduled Tribe Population to Total Population in the Villages

Percentage range of scheduled tribe population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
No S. T. Population.. ..	1,034	72.97
—5	335	23.64
6—15	30	2.12
16–25	6	0.42
26–35	1	0.07
36—50	4	0.28
51+	7	0.50
All ranges ..	1,417	100.00

Among the remaining 383 villages, the proportion of scheduled tribes population to total population is less than 5 per cent in 335 villages; 6 to 15 per cent in 30 villages; 16–25 per cent in 6 villages; 26–35 per cent in one village; 36–50 per cent in 4 villages and above 50 per cent in 7 villages of the district.

In urban areas, scheduled castes constitute 8.29 per cent and scheduled tribes 0.48 per cent of the total urban population (Table 9).

TABLE 9

Proportion of Scheduled Castes/Scheduled Tribes population in towns

Name and civic status of the town	Total population	Total scheduled caste population	Total scheduled tribe population	Percentage of scheduled caste population to total population	Percentage of scheduled tribe population to total population
1	2	3	4	5	6
Karad (M.Cl.) ..	54,364	3,075	192	5.66	0.35
Koregaon (C.T.) ..	14,594	854	121	5.85	0.83
Mahabaleshwar (M.Cl.) ..	9,061	919	181	10.14	2.00
Mhasvad (M.Cl.) ..	14,749	1,613	19	10.94	0.13

All towns ..	265,792	22,032	1,276	8.29	0.48

Scheduled castes percentage is more than 10 in Mahabaleshwar, Mhasvad and Phaltan towns.

Literacy

Any person who is able to both read and write with understanding in any language is recorded as a literate by the Indian census. The latest 1981 census revealed that 48.15 per cent of the total population in the district is literate against the state average literacy rate of 47.18 per cent. Among the various districts in the state, Satara district ranks 7th in terms of literacy rate (the district improved its position from 10th in 1971 to 7th in 1981).

Within the district the literacy rate is highest (55.99%) in Satara tahsil and the lowest (36.04%) in Man tahsil (Table 12). From Table 10, it may also be observed that size of the village and literacy are positively related.

TABLE 10

Literacy Rates by Population Ranges of Villages

Range of population	No. of villages in each range	Literacy rate
1	2	3
–200 ..	116	27.37
200–499 ..	294	34.57
500–1,999 ..	758	43.02
2,000–4,999 ..	217	48.12
5,000–9,999	29	51.89
10,000+ ..	3	54.66
All ranges ..	1,417	45.41

Among the various towns in the district Satara recorded the highest literacy rate of 72.60 per cent (Table 11).

TABLE 11

Literacy Rates for Towns

Name and civic status of the town	Literacy rate
1	2
Karad (M.Cl.) ..	65.34
Koregaon (C.T.) ..	63.47
Mahabaleshwar (M.Cl.) ..	64.66
Mhasvad (M.Cl.) ..	44.05
Panchgani (M.Cl.) ..	71.66
Phaltan (M.Cl.) ..	63.01
Rahimatpur (M.Cl.) ..	61.49
Satara (M.Cl.) ..	72.60
Satara Road (C.T.) ..	64.41
Wai (M.Cl.) ..	69.66
All towns ..	66.41

By contrast, the literacy rate was the lowest (44.05%) in Mhasvad town.

During the span of 80 years (1901-81) the literacy rate in the district increased from 3.95 per cent in 1901 to 48.15 per cent in 1981 [Table 11 (i)].

TABLE 11 (i)

Progress of Literacy, 1901–81

Year	Total	Males	Females
1901	3.95	7.75	0.27
1911	3.50	6.70	0.39
1921	4.61	8.32	0.99
1931	6.52	11.79	1.30
1941	15.01	25.68	4.53
1951	20.60	33.50	6.30
1961	33.98	47.41	21.16
1971	38.32	52.38	24.77
1981	48.15	61.39	35.67

The progress in literacy was slow till 1931 when hardly 6.52 per cent of the district population was literate. The post 1931 period experienced a comparatively faster growth. In 1951, one in every five persons (20.60%) was literate. The ratio narrowed to one in three (33.98%) in 1961, two out of five (38.32%) in 1971 and nearly one in two (48.15%) in 1981. Thanks to the opening of new schools and adult literacy centres under five year plans in the post independence period.

Literacy rates of two sexes differ sharply in 1981 census, the ratio of male to female literacy being 3 : 2 (61.39% male literates and 35.67% female literates). This ratio was 2 : 1 (52.38% males and 24.77% females) in 1971, and 2 : 1 (47.41% males and 21.16% females) in 1961. Sexwise literacy has thus been narrowing although it continues to be wide in itself.

Like male-female differentials there exists disparity in the literacy rates of rural and urban areas. As against 45.41 per cent of literates in rural areas as per 1981 census, there are 66.41 per cent literates in urban areas of the district. Between the two sexes, the differential is discernable more among females (32.77% rural and 56.73% urban) than among the males (59.12% rural and 75.28% urban).

Working Population

'Work' may be defined as participation in economically productive activity. The participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction.

There has been some conceptual change for defining the worker at the 1981 census. A trichotomy of main workers, marginal workers and non-workers has been adopted instead of the dichotomy of workers and non-workers in 1971 and 1961. However, while accepting this conceptual change the feasibility of making the data comparable with the previous censuses was duly considered. Conceptually, the main workers plus the marginal workers of 1981 are almost comparable with the 'workers plus non-workers with secondary work' of 1971 and 'workers' of 1961. Further, for 1981 census on the recommendation of planning Commission and Central Statistical Organisation, only four industrial categories of main workers i. e. cultivators, agricultural labourers, workers engaged in household industries and other workers have been adopted against the nine industrial categories of workers in 1971 and 1961.

For main workers major part of the preceding year (at least six months or 183 days) was adopted while those who worked for sometime during the preceding year but not for the major part, have been treated as marginal workers. All those, who had not worked at all during the last year, were recorded as non-workers. Persons engaged in household duties, students, dependents, retired persons, rentiers, beggars are some of the categories grouped as non-workers.

1981 census recorded 33.56 per cent of the district population as main workers, 7.88 per cent as marginal workers and the remaining 58.56 per cent as non-workers (Table 12).

TABLE

The corresponding figures for the state as such are 38.71, 3.85 and 57.44 per cent. Thus, one third of the population of the district is engaged in economically productive activity, as main workers. Within the district, work participation rate recorded at 1981 census was the highest (38.47 %) in Jaoli tahsil and the lowest (28.99 %) in Koregaon tahsil.

As per 1981 census the male participation rate (47.09 %) is more than double that of females (20.81 %).

1981 census results revealed that among the main workers in the district, 52.90 per cent are cultivators, 18.40 per cent agricultural labourers, 2.73 per cent engaged in household industry and 25.97 per cent engaged in other services. The corresponding percentages for the state as a whole are 35.12 per cent, 26.63 per cent, 2.55 per cent and 35.70 per cent. Evidently, more than two-third (71.30 %) of the main workers in the district are directly engaged in agriculture as cultivators or agricultural labourers. Male and female participation rate as cultivators is substantially higher than that of the state, whereas the position is reverse for participation as agricultural labourers.

In Satara district, 7.88 per cent of the population was recorded as marginal workers (1.52% among the males and 13.87% among females). The high incidence of marginal workers among females as compared to males is understandable as the former besides, looking after their household duties tend to engage themselves in some economically productive activity to lend support to their male counterparts.

Availability of Amenities–Education

Educational amenity is available in 97.18 per cent of inhabited villages and they contain 99.60 per cent of the rural population of the district (Table 13 and 14).

TABLE 13

Distribution of Villages according to the availability of different amenities

Serial No.	Name of tahsil	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities

	Total of all tahsils ..	1,772,885	1,765,751 (99.60)	888,652 (50.12)	1,772,885 (100.00)	1,267,800 (71.51)	469,165 (26.46)	1,392,310 (78.53)	941,283 (53.09)	1,627,736 (91.81)

In three tahsils namely; Koregaon Phaltan and Mahabaleshwar all the villages have educational amenity. The position is equally good in Satara, Khatav, Wai, Khandala, Karad, Man and Jaoli tahsils where more than 99 per cent of the rural population has the privilege of having this facility within the village. Of the 40 villages devoid of educational amenity, 34 are in the population range of below 500 ; 3 in the size class of 500–1,999 and 3 in size class of 2,000–4,999 (Table 15).

TABLE 15

Distribution of Villages according to population range and amenities available

IV Rahimatpur (M. Cl)	1.71	2.57	2.57	5.14
II Satara (M. Cl)	2.40	1.80	1.92	2.76
IV Satara Road (C. T.)	1.84	1.84	2.76	5.52
III Wai (M. Cl.)	1.62	1.62	2.03	5.68
All towns ..	2.22	1.96	2.11	3.76

On an average, the population to institution ratio in urban areas of the district is, 10,000 : 2.22 Higher Secondary / Int. / PUC / Junior colleges; 10,000 : 1.96 Secondary/Matriculation schools ;, 10,000 : 2.11 Junior secondary/middle schools and 10,000 : 3.76 primary schools. In other words, there is a higher secondary / Int / PUC / Junior college for every 4,505 persons ; secondary / matriculation school for every 5,111 persons ; Junior secondary/ middle school for every 4.746 persons and primary school for every 2,658 persons in the district.

Medical

Medical institutions of any type (specified in the village directory) exist only in about one out of every four 27.03 per cent villages in the district and these villages in themselves contain 50.12 per cent of the rural population of the district. Within the district, the position is best in Phaltan tahsil where 98.28 per cent of the villages are equipped with some kind of medical facility (Table 13) and 97.86 per cent of its population gets the benefit (Table 14). By contrast, the situation is poor in Mahabaleshwar, Jaoli and Patan, where the proportion of villages having medical facility is barely 7.27 per cent, 7.50 per cent and 9.77 per cent respectively.

Among the 1,034 villages which do not have any medical facility, the same is available at a distance upto 5 kms. for 373 villages, at a distance of 5 to 10 kms. in respect of 400 villages and beyond 10 kms. for the remaining 261 villages in the district (Table 16).

Table 19 gives the number of beds per 1,000 of population in the towns.

TABLE 19

No. of Beds in Medical Institutions on Towns

Class, name and civic status of the town		No. of beds in medical institution per 1,000 population
1		2
II	Karad (M. Cl.)	5.33

II	Satara (M. Cl.)	5.09
IV	Satara Road (C. T.)	1.38
III	Wai (M. Cl.)	8.84
	All towns ..	5.20

On an average there are 5.20 beds per thousand persons in the urban areas of the district. In other words one bed is available after every 192 persons.

Drinking Water

It is heartening to note that all the villages in the district have drinking water amenity.

Post and Telegraph

44.32 per cent of the inhabited villages in the district have post and telegraph facility and these villages account for 71.51 per cent of the rural population of the district. Within the district, Phaltan tahsil with 94.83 per cent of villages having post and telegraph facility enjoys the place of pride. These villages cover 95.21 per cent of its population. Mahabaleshwar tahsil on the contrary with only-fifth (20.00%) of its villages having post and telegraph facility is at the bottom.

789 villages in the district do not have facility of post and telegraph office within the village. Among them it is available upto a distance of 5 kms. for 395 villages ; at a distance of 5–10 kms. for 256 villages and beyond 10 kms. for the remaining 138 villages. Among the 628 villages, 40 villages are in the size class below 500 ; 353 villages in the size class 500–1,999 ; 204 villages in size class 2,000-4,999 and 31 villages with a population 5,000+have the availability of post and telegraph facility within their respective village boundaries (Table 15).

Market/Hat

Market/hat is being held only in 137 (9.67%) villages in the district and these villages account for 26.46 per cent of the district's rural population.

Among the 1,280 villages where market/hat is not being held, the facility for the same is available at a distance of upto 5 kms. in respect of 438 villages, at a distance of 5 to 10 kms. for 511 villages, and beyond 10 kms in respect of 331 villages in the district. Of the 137 villages where market/hat are being held 3 are in population size class below 500, 34 in population range of 500–1,999, 74 in the range 2,000–4,999 and 26 in the population range of 5,000+.

Communications

842 villages in the district have the bus stop/ railway station/waterway within the village and they serve more than three-forth (78.53%) of the rural population of the district. Out of the remaining 575 villages, it is available within a distance of 5 kms. in respect of 249 villages, at a distance of 5–10 kms. in respect of 186 villages and beyond 10 kms. for the remaining 140 villages. Further, 152 villages in the population range below 500, 453 villages in the range of 500–1,999 and 205 villages in the range of 2,000–4,999 have this facility within the village. It may also be added that cent per cent (32 villages) in size class 5,000+ have this facility within the village.

Approach by Pucca Road

524 (36.98%) villages in the district are approachable by pucca road and these villages constitute 53.09 per cent of the rural population in the district. The situation is comparatively poor in Man tahsil where only 17 (18.68%) villages are linked will pucca road. According to size class 80 villages with population below 500, 282 villages in population size class 500–1,999 ; 135 villages in the population range 2,000–4,999 and remaining 27 villages in the category 5,000 and above are approachable through pucca roads.

Power Supply

The rural electrification programme assigned importance from the third five year plan and this has resulted in accelerating the supply of power in rural areas. 1,125 (79.39%) villages in the district now get the power supply. It is also observed that cent per cent of the villages in Khandala tahsil get power supply. On the contrary, in Patan tahsil three-fifth (60.55%) of the villages have this facility. Among the 1,125 villages equipped with this amenity, 237 are in the size class of population below 500 ; 644 in the range of 500–1,999 ; 212 in size class 2,000–4,999 and 32 in the category 5,000+ and their proportion of total villages under respective categories is 57.80, 84.96, 97.70 and cent per cent respectively.

Land Utilisation

Columns 15 to 19 of the village directory give land use pattern of each village in the district. Classification of land use adopted here corresponds to the classification recommended by the Ministry of Food and Agriculture.

Forest

About 137, 585 hectares (13.29%) of the total geographical area of the district is under forest. The forests are found mainly on the undulating terrain and hill ranges of Sahyadri on the eastern slopes. Broadly speaking following three varieties of forests are found in the district :

(*i*) Evergreen Sahyadri forest.

(*ii*) The plantation on the slopes of off-shoots of Sahyadri hills which run eastwards.

(*iii*) Bush sprinkled hills to the east of river Krishna.

The major forest produce in the district includes timber, fire-wood and charcoal. Among the minor forest produce are grass, hirada, shikekai, apta and tembhurni leaves.

Irrigated, Un-irrigated and Culturable Waste Areas

Data pertaining to irrigated area (by source), un-irrigated area and culturable waste is given under columns16, 17 and 18 respectively of the village directory

72.62 per cent of the total area in the district is cultivable. Within the district, the proportion of culturable land to total land is highest (81.16%) in Khatav tahsil and the lowest (35.31%) in Mahabaleshwar tahsil. Other tahsils where proportion of cultivable area exceeds the district average are Satara (79.63%), Koregaon (76.49%), Karad (77.35%), Khandala (73.09%) and Phaltan (80.56%).

12.56 per cent of the total cultivable area is irrigated. Phaltan is the only tahsil in the district where more than one-third (35.50%) of the cultivable area is irrigated.

TABLE 20

Distribution of Villages according to the Land Use (in hectares)

Serial No.	Name of tahsil	No. of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to the total cultivable area
1	2	3	4	5	6
1	Satara ..	183	87,541.23	79.63	7.38
2	Wai ..	100	60,310.00	65.23	17.56
3	Khandala ..	60	52,498.85	73.09	17.06
4	Koregaon ..	99	85,715.00	76.49	4.85
5	Phaltan ..	116	113,099.00	80.56	35.50
6	Man ..	91	157,577.54	67.00	7.95
7	Khatav ..	95	134,007.00	81.16	9.50
8	Karad ..	162	105,108.00	77.35	19.30
9	Patan ..	256	138,555.00	70.19	3.49
10	Jaoli ..	200	78,806.60	59.70	4.30
11	Mahabaleshwar ..	55	22,159.74	35.31	6.34
	Total of all tahsils ..	1,417	1,035,377.96	72.62	12.56

Staple food

Among the main staple food, jowar is the most important. Next in order of importance is rice. Regionwise rice and 'nachani' in the western, jowar and bajra in the eastern, and wheat and jowar in the Central part of the district, are the combinations of main staple food of the people (Table 21).

TABLE 21

Main Staple Food in the Majority of Villages in each Tahsil

Serial No.	Name of tahsil	Main staple food	Serial No.	Name of tahsil	Main staple food
1	Satara ..	Wheat, Jowar	7	Khatav ..	Jowar, Bajra
2	Wai ..	Wheat, Jowar	8	Karad ..	Rice, Jowar
3	Khandala ..	Rice, Wheat	9	Patan ..	Rice, Nachani
4	Koregaon ..	Jowar, Bajra	10	Jaoli ..	Rice, Nachani
5	Phaltan ..	Jowar, Bajra	11	Mahabaleshwar ..	Rice, Nachani
6	Man ..	Jowar, Bajra			

Municipal Finance

Table 22 gives per capita receipts and expenditure (in rupees) for every town in the district.

TABLE 22

Per capita receipt and expenditure in towns

Class, name and civic status of the town	Per capita								
	Receipt (in Rs.)			Expenditure (in Rs.)					
	Total	Receipt through taxes	Receipt from all other sources	Total expenditure	General administration	Expenditure on public health and conveniences	Public works	Expenditure on public institutions	Other aspects
1	2	3	4	5	6	7	8	9	10
II. Karad (M.Cl.) ..	105.97	63.96	42.01	90.72	9.97	50.07	15.16	..	15.52
IV Koregaon (C. T.) ..	47.31	32.60	14.71	42.02	7.63	5.01	12.79	4.26	12.33
V Mahabaleshwar (M.Cl.)	235.51	101.53	133.98	192.25	32.00	34.99	50.22	37.52	37.52
IV Mhasvad (M. Cl.) ..	49.02	23.32	25.70	42.58	6.65	9.56	6.64	0.27	19.46
V Panchgani (M. Cl.) ..	85.72	50.24	35.48	94.56	16.41	31.18	26.48	..	20.49
III Phaltan (M. Cl.) ..	133.93	49.26	84.67	142.42	17.42	32.78	25.46	0.48	66.28
IV Rahimatpur (M. Cl.) ..	26.72	15.06	11.66	23.11	7.58	1.58	3.71	0.03	10.21
II Satara (M. Cl.) ..	101.72	46.22	55.50	99.40	12.48	34.40	15.32	25.45	11.75
IV Satara Road (C. T.) ..	14.60	5.45	9.15	8.66	0.69	2.37	..	3.55	2.05
III Wai (M.Cl.) ..	7.02	4.16	2.86	5.47	0.78	0.60	0.94	0.41	2.74
Total ..	89.18	43.30	45.88	84.04	11.02	28.44	15.04	9.75	19.79

On an average the per capita receipt is Rs. 89.18. Out of which Rs. 43.30 is received through local taxes and the remaining Rs. 45.88 from all other sources. The total expenditure incurred per head is Rs. 84.04 of which Rs. 11.02 is on general administration, Rs. 28.44 on public health and conveniences, Rs. 15.04 on public works, Rs 9.75 on public institutions and Rs. 19.79 on all other aspects. Among all the towns, both the receipts received and the expenditure incurred per head are highest in Mahabaleshwar town.

Minerals

With the exception of building stone, lime stone and little iron ore deposits, in the western part of the district, minerals of notable economic importance are not known to have occurred in any part of the district. The iron ore found here is of low grade. Clay found near the river banks is of good quality for making bricks and tiles.

Fisheries

The length of perennial rivers in the district is 184 kms. There are 28 perennial tanks. The commercially important varieties of fish found in the district are Catala, Cyprinut, Rohu and Mrigal.

Industries

Of the six important sugar factories in the district, two each are in Karad, and Phaltan tahsils and one each in Patan and Wai tahsils. The other important industries in the district include Maharashtra Scooters Limited at Satara, Ogale Glass Works at Ogalewadi (near Karad), Cooper Oil Engines at Satara Road in Koregaon tahsil and some cement product industries at Satara and Karad. The Nimbaker Seeds Establishment produces various types of hybrid and high yielding seeds.

Trade and Commerce

The agricultural produce of the district is mainly collected at the trading centres of Karad, Satara, Koregaon and Phaltan towns. The major portion of foodgrains, oilseeds, turmeric, cotton, gur, sugar etc. collected meets the local requirements within the district. However, some quantity of the same are being exported to districts of Ratnagiri, Pune and Gr. Bombay. The Chief articles of import in the district include salts, coconuts, betelnuts, dates, groceries, copper and brass pots, cloth etc. (Table 23).

TABLE 23

Most important commodities manufactured, imported and exported in towns

Class, name and civic status of the town	Most important commodities		
	Manufactured	Exported	Imported
1	2	3	4
II Karad (M Cl.)	.. Glass articles	Gur	.. Cloth
IV Koregaon (C. T.)	.. Groundnut oil	Beef	.. Cloth
V Mahabaleshwar (M Cl.)	.. Walking sticks	Honey	.. Wheat
IV Mhasvad (M. Cl)	.. Sarees	Cotton bales	.. Cloth
V Panchgani (M. Cl)	.. Fruit jam	Fruit jam	.. Foodgrains
III Phaltan (M. Cl)	.. Sugar	Sugar	.. Sugarcane
IV Rahimatpur (M. Cl)	.. Ayurvedic medicines	Groundnut	.. Cloth
II Satara (M. Cl)	.. Hosiery	Pulses	.. Sugar
IV Satara Road (C. T.)	.. Diesel engines	Diesel engines	.. Jowar
III Wai (M. Cl)	.. Gur	Turmeric	.. Jowar

Places of Tourist Importance

The hill resorts Mahabaleshwar and Panchgani are important tourist attractions in the district. Museums at Aundh (Khatav tahsil) and Shivaji Museum at Satara ave archaeological importance. Yemai fair at Aundh (Khatav), Mahadeo fair at Shinganapur (Man), Ramdas fair at Chafal (Patan) and Parali (Sajjangad) and Khandoba fair at Pal (Karad) have big religious importance. Historically, Satara, Phaltan, Aundh and Pratapgad are important places in the district.

PART A—VILLAGE AND TOWN DIRECTORY

SECTION I

VILLAGE DIRECTORY

SECTION I—VILLAGE DIRECTORY

Note Explaining the Abbreviations used in the Village Directory

The 'Village Directory' gives the list of villages, their area, population, amenities such as educational, medical, communications, drinking water facilities etc. available to them and also the land use of each village. For this purpose, villages have been arranged tahsilwise in order of their location code number. The inclusion of alphabetical list of villages and the map of every tahsil depicting location of villages by population size, urban-spread and important infrastructural facilities available therein will further help the readers in identifying any village in the tahsil.

'Village' is a statutory recognised unit having a definite boundary and separate land records. In case, a village is treated as an outgrowth of urban agglomeration, data on amenities and land use for that village have not been given in the Village Directory but shown along with the urban component. For those villages which have partly merged in an outgrowth, data pertaining to remaining part of the village is shown in the Village Directory and for the part merged or treated as an outgrowth, the details have been given under the concerned urban agglomeration. If a Village, has fully merged in the town, the same has been specified as such in the Village Directory. However, all such villages do appear in the Village Primary Census Abstract for any cross reference. Similarly villages treated as Census Towns (urban) for the first time in 1981 Census are shown both in the Village Directory and the Village Primary Census Abstract for making any cross reference and no data relating to the amenities available have been indicated in the Village Directory. However, land use data for all such villages can be seen in the Appendix-II of the Village Directory.

If a village has fully merged into another village, the location code number and name of the merged village are given both in the Village Primary Census Abstract and the Village Directory at the appropriate place. Data in respect of these two villages put together appear against the village with which the other village has merged.

The "un-inhabitated " villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 *i.e.* the location code number, name and area of the village. In addition to all the above details, following four appendices to Village Directory have also been included :—

Appendix (i) Tahsilwise abstract of educational, medical and other amenities;

Appendix (ii) Land utilisation data for census towns;

Appendix (iii) Tahsilwise list of villages with no amenities available; and

Appendix (iv) Tahsilwise list of village according to proportion of Scheduled Castes/Scheduled Tribes population.

The first two appendices were also prepared for 1971 District Census Handbook. Appendices (iii) and (iv), added in 1981, are expected to help the planners for planning inputs in areas/villages where basic infrastructure is lacking and also for evolving suitable plans for the welfare of Scheduled Castes and Scheduled Tribes.

The Village Directory form has 20 columns and the details given under each column are as under :–

Column 1 gives the location code number of each village as the same is essential for indentification of the village.

Column 2 indicates name of the village. For filling up of this column, 1971 District Census Handbook has been used as the basis.

Column 3 shows area figures (in hectares) as supplied by the State Revenue Department. For towns however, the area figures are in km^2.

Column 4, which gives population and the number of households in each village has been introduced for 1981 census to examine the corelation between the amenities available to the population and the number of households. Figures given within brackets against total population in this column refer to the number of households in the village.

Data on amenities such as educational, medical, communications, availability of drinking water, days of market/hat etc. are shown under columns 5 to 11 of the Village Directory. Additional feature for 1981 District Census Handbook is that in case if amenity is not available within the referrent village, a dash (—) is shown in the column and next to it, in brackets the distance from the village in broad ranges viz,. upto 5 km. 5–10 km. and 10 + km. to the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provision of goods and services as well, so as to minimise the regional imbalances in the process of development.

Column 5 exhibits the availability of educational facilities viz. primary or elementary school, junior secondary or middle school, matriculation or secondary school, higher secondary/intermediate/pre-university/junior college, college, industrial school, training school, adult literacy school/centre and other educational institutions (Sanskrit pathshala, senior basic school, makhtab etc.)

If in a village, secondary school has middle and primary classes also the same has been counted as three schools *i.e.* secondary, middle and primary school. In case, there are more than one institutions of any type in a village their number is indicated within brackets against the prescribed

abbreviation. Following abbreviations have been used for presenting data on educational amenities :—

Primary or Secondary School ..	P
Junior Secondary or Middle School ..	M
Matriculation or Secondary School ..	H
Higher Secondary/Intermediate/Pre-University/Junior College (PUC) ..	PUC
College, any college (graduate level and above) like Arts, Science, Commerce etc.	C
Industrial School	I
Training School	Tr.
Adult Literacy Class/Centre	AC
Other Educational Institutions ..	O

Column 6 provides data on medical facilities available in the village. If in a village no medical facility is available 'dash' (—) has been placed and within the brackets the distance in broad ranges (upto 5 kms, 5–10 kms. and above 10 kms. of the nearest place where the most modest medical amenity such as dispensary/community health worker is available) has been indicated. Various types of medical institutions included and codes used for them are as follows :—

Hospital	H
Maternity and Child Welfare Centre ..	MCW
Maternity Home	MH
Child Welfare Centre	CWC
Health Centre	HC
Primary Health Centre	PHC
Primary Health Sub-centre	PHS
Dispensary	D
Family Planning Centre	FPC
T. B. Clinic	TB
Nursing Home	NH
Registered Private Practitioner ..	RP
Subsidised Medical Practitioner ..	SMP
Community Health Worker	CHW
Others	O

Column 7 gives information regarding availability of drinking water within the village. In case more than one source is available for drinking water, the same has been mentioned. Following abbreviations have been used for indicating the source of drinking water in the village :—

Tap water	T
Well water	W
Tank water	Tk
Tube-Well water	TW
Hand pump	Hp
River water	R
Fountain	F
Canal	C
Lake	L
Spring	S
Nallah	N
Others	O
Information Not Available	NA

Column 8 shows postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village. Various abbreviations adopted for indicating this information are :—

Post Office	PO
Telegraph Office	TO
Post and Telegraph Office	PTO
Telephone Connection	Phone

Column 9 gives information on day or days of the market/hat held in the village. This information is based on local enquiry and generally relates to weekly or bi-weekly market. If in any case, the market is held monthly or fortnightly it has been recorded accordingly in this column. In case weekly or bi-weekly or monthly market/hat is not being held, the column has been left blank.

Column 10 represents information as to whether the village is served by any mode of public transport like bus, rail, and water-way and the same has been indicated as follows :—

Bus Stop	BS
Railway Station	RS
Navigable Water-way (including river, canal and back-water etc.) ..	NW

Column 11 refers to the state of roads etc. in the village. This will help us in determining as to whether the village is approachable both in fair and foul weather. Following abbreviations have been used for stating this information.

Pucca Road	PR
Kaccha Road	KR
Navigable River	NR
Navigable Canal	NC
Navigable Waterway (other than river or canal) ..	NW
Foot Path	FP

Column 12 gives the distance in Kilometres within brackets from the nearest town. In case, the nearest town is located in another state the name of the state has also been indicated.

Column 13 relates to the availability of power supply to the village. The various sources of power supply have been indicated through the following codes :—

Electricity for Domestic purpose ..	ED
Electricity for Agriculture	EAg
Electricity for Other purpose like Industrial, Commercial etc.	EO
Electricity for All purposes listed above ..	EA

In case the power supply is released only for specific purpose, say agriculture or other, it has been stated accordingly.

Column 14 gives staple food (only in terms of grains) of the majority people of the village during the major part of the year. This may be rice, wheat, jowar, maize, ragi, etc. or a combination of grains where it is difficult to determine a particular grain.

Column 15 to 19 give the details about land utilization. The land use pattern given in the Village Directory conforms to the classification recommended by the Ministry of Food and Agriculture, Government of India, which maintains the land records under the following five categories :—

(1) Forests.

(2) Not available for cultivation—

(*a*) lands put to non-agricultural uses.

(*b*) barren and unculturable land.

(3) Other uncultivated lands excluding fallow land.

(*a*) permanent pastures and other grazing lands.

(*b*) lands under miscellaneous tree crops and groves not included in the net area sown.

(*c*) culturable wastes.

(4) Fallow lands.

(*a*) fallow lands other than current fallows.

(*b*) current fallows.

(5) Net area sown.

Column 15 shows all the lands classed as forest under any legal enactment dealing with forest or administered as forests, whether state owned or private. In case, any portion of such land is not actually wooded but put to some agricultural use that portion is included under the appropriate heading of cultivated or un-cultivated land.

Columns 16 and 17 cover all agricultural lands including the net area sown with crops and orchard and also the current and other fallow lands. Net area sown represents the area sown under various crops and orchards. Areas sown more than once in the same year have been counted only once. Column 16 indicates extent of irrigated lands under various types of irrigation e.g. canal, tank, wells, tubewells etc. and codes adopted for indicating various sources of irrigation are as under:-

Government Canal	GC
Private Canal	PC
Well (without Electricity)	W
Well (with Electricity)	WE
Tube Well (without Electricity) ..	TW
Tube Well (with Electricity)	TWE
Tank	Tk
River	R
Lake	L
Water Fall	WF
Others	O
Total	T

Column 18 gives information on culturable wastes lands and includes land available for cultivation whether or not taken up for cultivation once. Area taken up for cultivation once but not cultivated during the preceding five years or more in succession is also covered under this column. Such lands may either be fallow or covered with shrubs and jungles which are not put to any use. These lands may be assessed or unassessed and found in isolated blocks or within the cultivating holdings. Lands under thatching grasses, bamboo, bushes and other groves for fuels etc., which are not included under orchards or forests, are included in this category. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest areas, are also included in this column.

Column 19 shows land not available for cultivation such as barren, unculturable land and land put to non-agricultural uses. All lands covered under buildings, roads, railways, rivers, canals, etc. form part of the land under non-agricultural uses. Barren and unculturable lands include mountains, rocks, deserts etc. which cannot be brought under cultivation, except at a very highcost.

Column 20 has been filled up on the basis of local enquiry. Besides, recording the particulars of places of importance, it gives information on number of newspapers coming in the village, motor cycles/scooters, cars/jeeps and tractors available in the villages. Appropriate codes listed below have been used for presenting this information and number of items available is mentioned against the code used :—

N .. Copies of Newspapers coming in the village.

M .. Motor cycle/scooters available in the village.

C .. Cars/jeeps available in the village.

T .. Tractors available in the village.

PS .. Police Station.

*Excludes Villages witn no S. C. and S. T. Population as also totally Uninhabited Villages.
(*N. B.*—Ranges with 'nil' entries nave been omitted.)

SECTION II

TOWN DIRECTORY

Note Explaining The Abbreviations Used In Town Directory

The 'Town Directory' gives for each town the area, population in 1981 and past censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. Seven statements (I to VI and IV-A) have been included for presentation of this data. All the towns in the district are arranged in alphabetical order. In case of all urban agglomerations the particulars for each constituent town of agglomeration have been furnished separately, also. Obviously separate information could not be furnished in respect of outgrowths which did not qualify to be treated as independent towns. However, in all such cases asterisk mark has been placed against their names to indicate that they have outgrowths and details of their particulars have been merged with the referrent towns.

Data presented in the seven statements have largely been procured from the municipal bodies and for non-municipal towns the respective tahsildars supplied the information.

Statement I shows status and growth history of the towns in the district. Column 2 in this statement indicates class, name and civic administration status of a town (as in 1980). Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the state and the national level. Census towns have no urban civic status. Following abbreviations have been used to indicate the civic status of the town :—

Municipal Corporation/Corporation ..	M. Corp.
Municipality	M.
Municipal Council	M. Cl.
Non-Municipal	N. M.
Cantonment Board/Cantonment ..	C. B.
Notified Area/Notified Area Committee/ Notified Committee.	N. A.C.
Census Town	C. T.

Columns 7 to 15 give population and growth rate of towns since 1901 and would help in drawing the trends in their growth rate. Columns 5, 6, 16 and 17 to 19 showing area in km^2, number of households including houseless households, density and sex ratio respectively are new additions and are expected to facilitate in analysing the town directory data both at the state and the national level.

Statement II shows physical aspects and location of each town. In physical aspects only the rainfall and temperature data as obtained from the Director-General of Meteorological Survey of India have been shown. Towns for which information could not be obtained from Meteorological Survey of India, the same has been collected locally or calculated in relation to the nearest town, to the extent possible. Columns 6 to 12 have been filled up on the basis of local enquiry. Distances respectively from the state, district and tahsil headquarters and the nearest city (Urban area with a population of 100,000+) would help in determining the location of a town. Communication facilities available are shown by railway station, bus route and navigable river/canal.

Statement III deals with municipal finances for the statutory and also non-statutory town bodies managing civic administration of the town provided they have separate budgets and accounts of their own.

Statement IV provides information on the civic and other amenities available in the town, Total population given under column 4 and Scheduled Castes/Scheduled Tribes population given in column 5 have been added to help in measuring amenities in respect of population size of the weaker sections of the community in the town. The information on the road length within the town shown under column 6 has been obtained from municipality (except for the highways). Codes used are :—

Pucca road	PR
Kuccha road	KR

Columns 7 to 11 reflect the information on system of sewerage, number of latrines and method of disposal of night soil.

Codes used are :—

Sewer/Sewerage	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit system	Pt
Head Loads	HL
Baskets	B
Wheel Barrows	WB
Septic Tank Latrines	ST

Columns 12 and 13 indicate sources of protected water supply to the inhabitants of the towns. The information of major source of water supply is given in the column 12 and on major source of storage and capacity under column 13. For stating this information following codes have been used :—

Overhead Tank	OHT
Service Reservoir	SR
River Infiltration Gallery ..	IG
Borewell pumping system ..	BWP
Pressure Tank ..	PT
Tubewell water/Hand pump ..	TW
Tap Water	T
Well water	W
Tank water	TK

Column 14 gives information regarding availability of fire fighting services. In case, it is not available in the referrent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Columns 15 to 19 pertain

to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

The newly added Statement IV-A provides data on civic and other amenities in the notified or recognised slums of towns with a population of above 50,000 (*i.e.* class I and II towns).

Statement V gives information regarding availability of medical, educational, recreational and cultural facilities available in the town. 1981 population figures for each town have also been indicated and this will facilitate in analysing data on facilities available on the people.

Data on medical facilities have been obtained from the district and sub-divisional medical officers and shown under columns 4 and 5. All types of medical institutions whether allopathic, ayurvedic or homoeopathic have been covered and indicated by way of following codes:—

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T. B. Clinic	TB
Nursing Home	NH
Ayurvedic	A
Unani	U
Homoeopathic	Hom
Others	O

In case, more than one institution of any type is available, the exact number is shown within the brackets.

The information on educational amenities (Cols. 6 to 9) is exhibited as :—

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only ..	AC
Combined for all categories—	
Arts, Science and Commerce ..	ASC
Law	L

Column 10 pertains to the number of recognised shorthand, typewriting and vocational training institutes (grouped as others) which include applied art/painting college, pharmacy college, B. Ed. college, teacher's training school, music/dancing institute, nursing school, etc. Various codes used for indicating this data are :—

Shorthand	SH
Typewriting	Type
Shorthand and Typewriting ..	Sh. Type
Others	O

Keeping in view the 'Minimum Needs Programme' of the Planning Commission, the information regarding adult literacy classes/centres etc. has also been collected and presented under column 15. Similarly, in view of the spurt in the employment of women in towns, information on number of working women's hostels and seats available therein has been given under column 16. This information would help in formulating plans for opening new hostels in order to meet the housing needs of the single working woman.

Columns 17 to 20 show recreational and cultural facilities available in the town. These include stadia, cinema, auditoria/drama, community halls, public libraries indicated as 'PL' and the reading rooms indicated as 'RR'.

Statement VI presents information regarding trade, commerce, industry and banking services in the town. Columns 3 to 11 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column No. 12. Columns 13 and 14 show number of agricultural and non-agricultural credit societies respectively in each town.

STATEMENT I

Status and Growth History

Serial No.	Class, name and civic administration status of Town	Location Code No.	Name of Tahsil	Area (in km²)	Number of households including Houseless households (in 1981 Census)	Population and growth rate of the town at the censuses of									Density (1981 Census)	Sex Ratio

Note— The source for the total area figures in respect of the districts is the Surveyor General of India, while that for the total area figures in respect of the Tahsil in the State Land Records Department. The total area, as also the rural areas, for the Tahsils in District may not, therefore, strictly add up to the corresponding figures shown against the district.

Names of towns treated as such for the first time in 1981 have been printed in italics.

APPENDIX TO DISTRICT URBAN PRIMARY CENSUS ABSTRACT

Urban blockwise figures of total, SC and ST population
