CENSUS OF INDIA, 1981

DISTRICT CENSUS HANDBOOK

PART A—VILLAGE AND TOWN DIRECTORY

SAMBALPUR

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The District Census Handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The District Census Handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features alongwith the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in views. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the corelation of the amenities

with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and accordingly to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirement of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class—I and Class—II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement-IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in Statement-V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the column on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahasil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and Tahasil/Police station/C. D.Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri A. R. Nanda, I. A. S., the Director of Census Operations, Orissa on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA
Registrar General, India

New Delhi
The 26th April, 1982

PREFACE

It has been the tradition of Indian Census to present demographic data in as detailed a manner as possible so as to serve effectively the interests of the users of Census data. 1981 Census has been completed leaving behind a vast mass of data collected carefully and meticulously on a country-wide basis by an army of trained enumerators. It is needless to mention that modern Census is no more confined to mere counting of heads. It is a kind of stock-taking, as it were, of the nation's human wealth. It has collected information of every individual, besides a host of other activities, institutions, establishments, services and so on. Thus, it has become an indispensable instrument of policy for development planning-referred to by planners, data users, scholars and people from different disciplines and aims at presenting a complete picture of man in socio-economic and cultural settings.

District Census Handbook was first introduced as an auxilliary to 1951 Census and appeared as a State Government publication in more comprehensive and ambitious form in subsequent censuses. Under the existing instruction, the Director of Census has the responsibility of providing the Census data as well as non-census socio-economic and administrative statistics for this publication which is the responsibility of the State Government. In 1951 and 1961, it was published in one volume. During 1971, this publication was proposed to be presented in three parts. Part-A incorporated the Town and Village Directories, Part-B incorporated the Primary Census Abstract and provided data upto village level for the rural area and upto enumeration block level for the urban area. Part-C incorporated other Census tables and administrative statistics.

According to the publication programme of 1981 Census, it has to be pubilshed in two parts. Part-A will comprise the Village and Town Directory whereas Part-B will contain Village and Town-wise Primary Census Abstract. The first Part— Part-A consists of important statistical information relating to each town besides an array of statistical data relating to land use and various other amenities available in each village. Part-B of the present publication contains the essential census data known as Primary Census Abstract which provides demographic details of each district, tahasil, police station and down to each village and town and within the town, each ward. The aforesaid statistical information is enriched by the administrative map of the administrative units viz., district, tahasil and police station, availabe in the publication. These maps have been prepared in the Directorate of Census on the basis of maps obtained from the competent local authorities. In the Police Station maps, villages have been presented by their location code number for want of space. For the names of villages, one would have to refer to the alphabetical list of village of each tahasil, which are available both in Part-A and Part-B for facility of the readers.

With the object of avoiding delay and also to make each volume handy and not-too-bulky, it has been decided to bring out 1981 District Census Handbook in two parts.

In pursuance of the scheme for publication of the District Census Handbook, an analytical note has been provided explaining the census concepts adopted in the operation for easy appreciation of the subjects covered in the directory. An administrative map of the district is given at the beginning of the volume. Brief history of the district has

been provided for introducing the district to the reader. The scope of Village Directory, Town Directory, Statements and Primary Census Abstract has been explained with reference to the contents of statements available in the publication.

The geographical aspect of the district including decadal jurisdictional changes available in the publication is intended to make it more informative. Another venture of 1981 is presentation of major characteristics of the district particularly in relation to the economic resources as furnished by the district authorities in the various fields of administration. This is directed to provide an interesting profile of the district to the reader as well as appreciation of developmental activity in the district during the decade. Notes on different codes used in this directory have been provided for the convenience of the reader in understanding the data. Note on places of religious/historical interest has been provided to make the publication more interesting. The analysis of census results of the district at the end will be of some interest to the readers and data users.

Information on amenities in the Village Directory has been collected from the Tahasildars and Block Development Officers. A very few selected items were collected through the census enumerator during his door-to-door visit. The Executive Officers of Municipalities and Notified Area Councils provided such data on towns. The collection and compilation of such massive data of each village and town was a stupendous task. Despite all possible care taken through intensive check and re-check to remove discrepancies in facts and figures, possibility of errors still creeping in can not be altogether ruled out.

I must express my deep gratitude to Shri P. Padmanabha, I. A. S., Registrar General and Census Commissioner, India and Shri N. G. Nag, Deputy Registrar General (Social Studies) for the timely guidance and advice through circulars.

I must place on record my deep appreciation and thanks to the Departments of Government of Orissa, heads of Departments, local bodies, District Officers, Tahasildars, Block Development Officers, Executive Officers of Municipalities and Notified Area Councils for whose active co-operation and help the voluminous compilation has been possible.

For providing additional information on general characteristics of the district as economic activity, decadal changes (1971—81) of special note, I am grateful to Shri S. N. Khuntia, I. A. S. and Shri A. K. Tripathy, I. A. S., District Magistrates and Shri T. K. Mishra, I. A. S. (I), Shri B. Khatai, O. A. S., Additional District Magistrate-cum-District Census Officers, Sambalpur who had taken keen interest in making this compilation more informative.

For timely scrutiny, compilation and tabulation of District Census Handbook data, the supervision and assistance rendered by Shri B. Sahu, O. A. S. (I), N. C. Dutta, O. A. S. (I), J. Panda, O. A. S. (I), P. C. Roy, O. A. S. (I), and P. K. Mohapatra, O. A. S. (I), Deputy Directors-in-charge of Regional Tabulation Offices and their staff are worth mentioning. The job would have been difficult but for their diligent and tireless effort.

In my office, I am specially thankful to Shri S. K. Swain, Deputy Director, Shri Madan Mohan Das, O. A. S., Deputy Director, Shri C. R. Mohanty, Asst. Director and the staff of District Census Handbook, Map and Printing branches of the Census Directorate for diligence and zeal shown in this important assignment. Its expeditious preparation has placed a heavy burden on all officers and staff of this office. To each of them I am deeply obliged. The Deputy Director of Survey & Map Publication, Orissa, Cuttack has ensured printing and to him I offer my thanks.

Bhubaneswar,
September, 1982.

A. R. NANDA

ANALYTICAL NOTE

Census Concepts

Some of the important concepts and definitions used in 1981 Census and frequently mentioned in this publication are briefly explained below.

Village

It has been the Census tradition to present statistics by rural-urban break-up. Villages and Towns are universally accepted as the basic units of human habitation. A "Village" refers to any tract of land recognised as a village by the local administration in the revenue record. The revenue village may have a definite surveyed boundary or not. The revenue village may comprise several hamlets which do not have definite boundary or areas distinctly marked. The revenue village is inclusive of the sites of residence of the inhabitants and the entire area including hills, nalas, cultivable land and village forest, but excluding reserve forest. An uninhabited village is one which does not have any residential population in the entire tract. A revenue village may comprise several hamlets with a boundary in case of a surveyed village or a notional boundary in case of unsurveyed village; but the entire village is one unit for presentation of census data.

There are some forest villages located inside reserve forests and recognised by the State Government, which have been taken as villages for the purpose of census. Similarly, inside the reserve forest, some clusters of habitation were located, which are sometimes unauthorised in the eye of law. Such cases were also recognised as villages by way of treating clusters inside the jurisdiction of a forester's beat as one village. In course of the decade, several areas in the State remaining unsurveyed upto the previous census, have been surveyed in the meanwhile and such villages were included in the frame of current census.

Town

No society can be strictly termed as fully urban or completely rural. The dividing line is a far from sharp, since condition varies from country to country and it has not been possible to formulate a uniform definition which can be applicable to all places.

For the purpose of 1981 Census in India, an urban area has been defined as :

(a) all places with a Municipality, Corporation or Cantonment Board or Notified Town Area, and

(b) all other places satisfying the following criteria :

(i) a minimum population of 5, 000,

(ii) atleast 75 per cent of the male working population engaged in non-agricultural (and allied) activity,

(iii) a population density of atleast 400 per Sq. Km. (or 1, 000 per Sq. Mile).

Similar criteria were also adopted during 1971 Census.

Thus the area statutorily notified by the State Government as "Municipalities" and "Notified Area Councils" have been brought under the urban frame of Census. Besides, there are some marginal cases having distinct urban characteristic which as such do not qualify to be town by the State Government. Such cases—13 in number throughout the State were finalised by the Director of Census in consultation with the District Magistrates, which have been presented under the nomenclature of non-statutory census town, satisfying the following conditions :

(a) a minimum population of 5, 000 as projected in 1981 ;

(b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits ;

(c) a density of population of atleast 400 per Sq. Km. (or 1, 000 per Sq. Mile)

Classification of Towns

It has been customary for the census to classify the towns according to the size of their popu-lation. For 1981 operation, the classification was as follows :

CLASS	POPULATION
I	1,00,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000— 9,999
VI	Less than 5,000

Urban Agglomeration

The concept of "Urban Agglomeration" introduced during 1971 Census has also been adopted during 1981 to take care of the continuous urban spread of a recognised urban area. Very often, large railway colonies, university campuses, port areas and military camps etc. come up around the statutory boundary limit of the city or town having distinct urban characteristics. Such areas may not by themselves qualify to be treated as towns, but form a continuous spread with the town as 'out-growths' of the town and deserve to be treated as urban. Such town(s) together with their out-growths have been treated as urban units and are called "Urban Agglomerations". Thus an Urban Agglomeration may comprise :

(a) a city with continuous urban out-growth, (the part of the out-growth being outside the statutory limits but falling within the boundaries of the adjoining village or villages) or

(b) one town with similar out-growth or two or more adjoining towns with their out-growths as in (a) or

(c) a city and one or more adjoining towns with their out-growths all of which form a continuous spread.

Accordingly, eight Urban Agglomerations have been formed in the 1981 Census throughout the State.

Standard Urban Area

During the 1971 Census, a new concept of "Standard Urban Area" was introduced in the context of urban classification. The Standard Urban Area is defined as the projected growth area of a city or town having a population of 50, 000 or more during a period of two or three decades. While delineating Standard Urban Area it is not only necessary to take into account the towns and villages which will get merged into it, but also the intervening areas which are potentially urban. The Standard Urban Area is a long-term planning area having a growth potential in a longer time span. In the context of developmental planning for urban areas, it is desirable to fix the Standard Urban Area beyond the boundary of large town having growth potential over a period of 20 years or so.

The standard urban area includes all areas which have any or all of the following characteristics (b) to (e), while characteristic (a) should be the basic minimum :

(a) Core town having minimum population of 50,000;

(b) Predominent urban land use;

(c) Intensive interaction with urban centres as reflected in communication for the purposes of work and secondary educational facilities; extension of city bus service, sale of commodities like milk, dairy products, vegetables (other than those transported by rail or truck haul) and purchase of food grains, clothes, general provisions etc. by the consumers directly;

(d) Anticipated urban growth as a result of future location of industry, market, transport and communication, administrative and servicing facilities;

(e) Existence of big villages with large popu lation of working force engaged in non-agricultural and industrial categories.

Taking these factors into account the following standard urban areas were formed during the 1971 Census; 1. Sambalpur

2. Raurkela, 3 Baleshwar, 4. Cuttack, 5 Jeypur, 6. Brahmapur, 7. Bhubaneswar and 8. Puri. The standard urban areas of these towns were finalised in consultation with the Town and Country Planning Organisation of Government of India and Town Planning Organisation of Government of Orissa and are continued in 1981 Census.

There is subtle difference between the standard urban area and urban agglomeration. For the urban agglomeration out-growths should be contiguous having distinct urban characterstics, whereas, standard urban areas would cover both urban and rural areas around a core town which are likely to be urbanised within a period of two to three decades.

Building

A "Building" is generally a single structure on the ground. Sometimes, it is made up of more than one component unit which are used or likely to be used as dwellings (residence) or establishments, such as shops, business houses, offices, factories, workshops, schools, places of entertainment, places of worship, godowns and stores etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. Usually, a structure will have 4 walls and a roof. However, there are some areas where the very nature of construction of house is such that there may not be any wall. A typical example of this may be found in the Nolia habitation at Puri, where the house does not have wall, but an entrance and the conical roof which almost touches the ground. Such structures are also treated as buildings.

Census House

A 'Census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

An "occupied residential house" is a census house which is partly or wholly used for the purpose of residence at the time of Census enumeration.

Household

A 'Household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of un-related persons or having a mix of both. Example of unrelated households are boarding houses, messes, hotels, residential hotels, rescue homes, jails and ashrams etc. These are called "institutional households". There may be one member households, two-member-households or multi-member-households. For Census purposes, each one of these types is regarded as a household. If a group of persons who are un-related to each other live in a census house, but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person is treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen.

Enterprise

An "Enterprise" is an undertaking engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption. The workers in an enterprise may consist of members of the household or hired workers or both. An enterprise may be owned and operated by one household or by several households jointly (on a partnership basis) or by an institutional body. The activities of an enterprise may be carried on in a single census house or in more than one census house or in the open i.e. without premises. The activity of the enterprise may also be carried on only for a part of the year but on a fairly regular basis. It may also be possible that more than one enterpreneurial activity can be carried out in one census house. However, the results of such economic census after tabulation are being brought out by the Central Statistical Organisation separately. This excercise was extended to provide data for the planners regarding categories of agricultural and non agricultural enterprises. The voluminous data included location of enterprise, description of the activities of enterprise, nature of operation,

type of ownership, social group of owner, power/fuel used for the activity and the total number of hired persons usually working in the enterprise.

Literate

A person is considered to be literate if he is able to read and write in any language with understanding. A person who can merely read but can not write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 4 years or less have been treated as illiterate, even if the child is going to school and may have picked up reading and writing a few odd words

Scheduled Caste

The Scheduled Castes are specified in the Government of India (modification) order of 1956. 93 castes have been notified as Scheduled Castes in this State.

One caste, viz., 'Kuli' in Sambalpur district has been dropped from the Scheduled Caste list as per the Amendment Order, 1976.

Worker and Working Population

The population of a country can be divided into economically active and inactive. The economical active group is generally referred to as the working population. What proportion of our population are engaged in work or are economically active and what job they do for their living, these are the issues which the Census proposed to obtain through its massive operation in order to provide a broad dimensional picture of the labour-force. The Censuses conducted so far contain a wealth of economic data. There have been experimentations with the definitions from Census to Census and as a result, the definition of working force has rarely remained unchanged between two Censuses as would be evident from the paragraphs to follow.

"The means of livelihood" approach was adopted from 1901 upto 1951. From 1901 to 1921 the expressions used were "Workers" and "Dependents". In 1931, the concepts used were "earner", "working dependent" and "non-working dependent". In 1951, the categories were "self supporting persons", "earning dependents" and "non-earning dependents". In 1961 and 1971, however, there was a shift to thel abour-force approach, according to which a person was treated as "worker" if his activity during ther eference period was productive one. Thus, from 1961 the concept of worker and non-worker came into being. The difference in the concepts in 1961, 1971 and 1981 Censuses is summarised below :

(a) 1961 CENSUS

"Workers" = mian workers + marginal workers of 1981
"Non-workers" = non-workers of 1981

(b) 1971 CENSUS

"Workers" = main workers of 1981.
"Non-workers" = marginal workers + non-workers of 1981.

The questions which were canvassed in the individual slips during 1981 Census to elicit information on the characteristics of the population were as follows :

I. Q. 14A Worked any time at all last year ?
Yes
No (H/ST/D/R/B/I/O)

II. Q. 14B If yes in 14A, did you work for major part of last year ?
Yes (1)/No. (2)

III. Q. 15A Main activity last year ?
Yes in 14B (C/AL/HHI/OW)
No in 14B (H/ST/D/R/B/I/O)

IV. Q. 15B 14B Yes—Any other work any time last year ? Yes (C/AL/HHI/OW)/No
14B No—Work done any time last year ? (C/AL/HHI/OW)

V. Q. 16 If no in 14A or 14B, seeking/ available for work ? Yes (1)/No (2)

Basically, during 1981 Census the questions have been formulated so as to divide the population into those who have worked any time at

all during the last year and those who have not worked at all. Having classified the population into these two broad streams, the next attempt was to divide those who have worked any time into two sub-streams viz., those who have worked in some economic activity over a period of 6 months or more or in both the agricultural seasons and those whose work can be considered as marginal or secondary (i.e. less than 6 months). Finally an attempt has also been made to determine whether those who are non-workers or those who are marginal workers are either seeking or are available for work.

"Work" has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. In all these questions the reference period is one year preceding the date of enumeration. Some work viz., agriculture and household industry are carried on either throughout the year or during a particular season or part of the year depending on local circumstances. In such cases the reference period has been the broad time span of the agricultural season preceding the enumeration has been kept.

An attempt has been made in this publication to present data relating to "main workers", "marginal workers" and "non-workers" separately. In case of main workers the distribution of such workers among cultivators and agricultural labourers, those engaged in household industry and other workers have also been given. The main workers are those who have worked for a major part of the year preceding the enumeration.

"Marginal workers" are those who have worked any time at all in the year preceding the enumeration but have not worked for a major part of the year. The type of work in which marginal worker were engaged have been elicited through question 15B.

"Non-workers" are those who have not worked any time at all in the year preceding the enumeration.

If the number of main workers, marginal workers and non-workers are added up, one would arrive at the total population itself. In other words, these are exclusive categories.

Main activity of workers has been classified into the following four broad categories :

(i) Cultivator

A person is regarded as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops viz., wheat, paddy, awar, bajra and other crops, such as sugarcane, groundnut etc. and pulses, raw jute and kindred fibre crops, cotton, etc. and does not include fruit, growing of vegetables or keeping orchard or groves or working of plantation like tea, coffee, rubber etc.

(ii) Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation, but merely works in another person's land for wages. An agriculural labourer has no right of lease or contract on land on which he/she works.

(iii) Household Industry

"Household Industry" is defined as an industry conducted by the head of household himself/herself and/or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. It should involve production, processing, servicing or repair of articles or goods, not on the scale of a registered factory. The larger proportion of workers in a household industry should consist of members of the household including the head.

The main characteristics of the "Household industries" are the following :

a) One or more members of the household must participate. Participation by hired labour must be minimum.

b) The activity should relate to some production, processing, servicing, repairing or making and selling of goods.

c) The goods produced should not be for consumption by the household itself but should be wholly or partly for sell.

d) In an urban area the industry must be carried on in the precincts of the house in which the household lives. In the rural areas, the industry may be anywhere within the limits of the village.

e) The activity should not be on the scale of a registered factory.

f) Professions such as those practised by Pleader, Doctor, Barbar, Musician, Dancer, Dhobi, Astrologer etc. will not be Household Industry.

(iv) Other Workers

All workers i.e. those who have been engaged in some economic activity during the last one year, but are not cultivators or agricultural labourers or engaged in household industry are "Other Workers". This includes factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, teachers, priests and artists etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry are other workers.

Other particulars, viz., name of the establishment, description of work, nature of industry, trade or service and class of worker were also obtained in respect of those who returned "household industry" or "Other work" as their activity.

Non-worker

In case of persons who are non-workers throughout, information relating to them has been obtained through categories, as mentioned below.

i) Household duties
ii) Students
iii) Dependents
iv) Retired persons or rentiers
v) Beggars etc.
vi) Inmates of institutions
vii) Other non-workers

(i) Household duties

This covers all persons who are engaged in un-paid home duties and who do no other work, or have not done any work at all during the last one year. If a person who normally attends to household duties is also engaged in some economic activity, then he or she is a worker. For example, a housewife may help in family cultivation or agriculture or make and sell cowdung-cakes etc. at odd times. She is treated as worker.

(ii) Students

This will cover all full-time students and children attending school. If a student participates in some economically productive work, like helping sometimes as an un-paid family worker in family cultivation etc. such students should be treated as a worker and not as student. Very often the daughter in the family helps in the household work though she is studying full time, in which case she is treated as student.

(iii) Dependent

This includes all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. Dependents include even able-bodied persons who can not be categorised in any other category of non-worker but are dependent on others.

(iv) Retired persons or rentiers

A person who has retired from service and is doing no other work and is not employed again in some full time work or engaged in some other work such as cultivation, business, trade etc. or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he/she does not have to work comes under this category. If a retired person is doing some work, in such case he/she is a worker.

(v) Beggar

This covers beggars, vagrants or persons without indication of source of income and those without specified source of subsistence, who are not engaged in economically productive work.

(vi) Inmates of institutions

This covers convicts in Jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc. in such institution. However, an under-trial prisoner enumerated in a jail is recorded for the work he/she was doing before he/she was apprehended. Similarly a person temporarily in a hospital or similar institution is recorded for the kind of work he/she was doing before being admitted into the hospital or institution. However, the previous work is not recorded in respect of long term under trial prisoner or convict or for long term inmates of penal, mental or charitable institutions. A person is considered as 'long term',if he or she is in such an institution for 6 months or more.

(vii) Other non-workers

This includes all non-workers who do not come under any of the above six categories, but are looking for work. A boy or girl who has completed education or has stopped studying and is looking for work comes under this category. Alternatively a person who is merely spending time at home as a dependent and is not doing any work and not seeking any work is not coming under this category. In case of students who may be seeking work and are quite prepared to give up studies, if they get a job they are to be recorded as 'Students'.

Area figure

In keeping with the census tradition, the Surveyor General of India provides the area figures for the State and district level. Hence the area figures of the district along with the spelling of the district name as adopted by the Surveyor General, India has been adopted in the publication, with a view to maintaining uniformity of data at the national level. The area figures of the units down below the district level, viz, tahasil, police station, towns have been given in sq. km. The Tahasildars had reported the area figures in acres in respect of the units in the rural area, whereas the Executive Officers of the urban bodies have reported the area figuers for the urban units. The area report in acres by such functionaries were converted into sq. km. Regarding the area of the villages, the same were also furnished by the Tahasildars. The total area of all tahasils of the district does not add upto the area of the district because the former represents the land-use area and is derived from the figures supplied by the local revenue authorities. Similarly the total of the village area may not tally with the rural areas of the tahasil. The difference may be due to the fact that the village area may not necessarily include the area under hills and rivers etc. which are included in the tahasil area besides, there are also varying methods on computation adopted at different levels. Area figures for the unsurveyed revenue villages have been left blank like the forest villages and are indicated as "Not available".

Though there has been no change in the boundary of the State between 1971-81, the revised computation in the area of some districts has resulted in marginal decrease of 135 sq. kms.

Density

The density (population per sq. km.) shown for the State/District/Tahasil/Police Station/Town have been worked out using the area figure corrected upto two places of decimals.

Spelling of administrative unit

As explained above, the spellings of district have been adopted from the Survey of India to maintain uniformity at all-India level. However, the spellings of lower units, viz., tahasils, police stations, village, town are in confirmity with the spellings available in the State Government records.

Physically handicapped persons

It is customary for the Census to introduce new concepts in every Census. Accordingly an attempt was made during the houselisting operation conducted in April-May, 1980 to find out the statistics regarding the physically handicapped

persons all over the country. Physically handicapped persons were broadly recorded under three categories, viz., totally blind, totally crippled and totally dumb.

The term "Totally crippled" refers to such persons who have not lost their arms or limbs. The loss of arms or legs or all the 4 limbs refers to loss of both the arms or loss of both the legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus a paralytic who has lost use of both the legs or both the arms was taken as totally crippled, though the limbs are physically available. However, the loss of either one arm and/or leg did not classify a person as totally crippled. There are other situations where a person unfortunately suffers from more than one of the aforesaid disabilities. In such cases, the intention was to record the persons by greater disability. For example, a person may be both blind and dumb or blind and crippled. In such cases the intention was to find out the greater disability, whether blindness is considered as greater disability than either dumbness or being crippled. Similarly being crippled is greater disability than being dumb. In the extreme cases, where a person suffered from all the 3 disabilities, it was recorded under the category 'blind' which is certainly the most unfortunate disability. It was usual to find a person blind or crippled due to old age and such cases were also taken note of and categorised under appropriate classification since he suffered from disabilities.

Brief History of the District

The district of Sambalpur has been named after the headquarters town Sambalpur. According to O'Malley, the town itself derives its name from the presiding Goddess 'Samalai' whose image was found by Balaram Dev, the first Chauhan Raja of Sambalpur, beneath a simul (silk cotton) tree. The present district of Sambalpur was in ancient time a part of South Kosala, which roughly comprises the modern districts of Raipur and Bilaspur in Madhya Pradesh and the districts of Sambalpur, Balangir and Sundargarh of Orissa. From about 14th Century A. D. Sambalpur came under the Chauhan rule of Patna, who was the head of a cluster of 18 States, It lapsed to the East India Company in 1849 when the last Raja Narayan Singh died without any issue. It was then administered by the principal assistant of the agent for the South-west frontier new headquarters at Ranchi, which was subsequently changed in 1854 to Commissioner of Chhotnagpur. The great revolt of 1857 had been supressed elsewhere by 1858 except in the district of Sambalpur, where it continued till surrender of Surendra Sai, the leader of the rebelion and claimant of the Sambalpur raj. In 1860, Sambalpur was transferred to Orissa division of Bengal but in April, 1862 it was made over to the newly constituted central province. In 1905 October the bulk of the district was retransferred to the province of Bengal and was made a part of Orissa division. On April, 1912 the province of Orissa and Bihar were separately constituted and on 1-4-1936 the separate province of Orissa was created. The zamindari of Khariar, which was in Raipur district of Central province was brought to Orissa and made a part of Sambalpur district. It costituted new Sub-division of the district, viz., Nuapada Sub-division. In this process 61 villages of Padmapur taluk in Raigarh district of Central province was transfferred and included as part of Sambalpur Sub-division. After merger of the princely state on 1-1-1948, Bamra was amalgamated in the district of Sambalpur being divided into two Sub-divisions viz., Debagarh and Kochinda. In October 1949, another ex-state of Rairakhol, a Sub-division in Dhenkanal district was transferred to Sambalpur and formed a sub-division. Another new sub-division at Padmapur was formed on 1-7-1969 by taking some areas of Bargarh Sub-division. During the decade 1971-81, another new Sub-division was created at Jharsuguda, by way of taking a portion of Sambalpur Sadar Sub-division.

The district has been divided into 7 Sub-divisions viz., Sambalpur, Bargarh, Rairakhol, Kochinda, Debagarh, Padmapur and Jharsuguda The sub-division is kept in charge of a Sub-divisional officer who looks after both general and developmental administration. For Revenue administration, the district has been divided into 8 tahasils, each kept in charge of a Tahasildar subject to supervision by the Sub-Divisional officer and Collector of the District. The District has been further divided into 129 number of Revenue inspector circles, each circle comprising a group of villages and kept in-charge of a Revenue Inspector to carry on day-to-day revenue administration under the direct supervision of the Tahasildar.

For developmental administration, the district has been divided into 29 development blocks, each kept in-charge of a Block Development Officer. For efficient functioning of developmental administration, the district has been divided into 301 number of Grampanchayats, which are local bodies. There are 10 statutory towns in the district under the name of Municipality and Notified Area Council having specified area of jurisdiction. By March, 1981, the district had 36 police stations for maintaining general administration including law and order.

District Census Hand Books

Among the traditional documentation of the Census, the fairly comprehensive and uniform publication of District Census Handbook (D. C. H.) consisting of town and village directory and town and villagewise Primary Census Abstract (P.C.A.) has been found to be very useful and are constantly referred to by the planners and data users. The District Census Handbook is the only publication that incorporates the data down to a village level in rural area and upto ward level in the urban area. The data published in these volumes are of immense value to the planners, scholars and administrators for the purpose of village level, block level and district level planning and studies. It is a publication of the State Government. The cost thereof is borne by the State Government. However, the Director of Census of the State is responsible to the extent of providing necessary data which are obtained through Census

This document was first published as an auxiliary to 1951 Census, consequent upon the request of the Government of India to State Government to publish District Census Handbooks containing statistical information relating to villages, towns and police stations etc. of the districts. The State Government agreed to this and decided to bring out District Census Handbook as a priced publication to be published in the State Government Press. This publication since then is continuing with unbroken chain. Apart from giving the rural statistical information, it readily gives a complete list of villages contained within a Police-Station and District. It will not, however, be out of place to mention here that in many districts, complete list of villages is not maintained properly and the present list is the result of extensive enquiries and contacts with different agencies and can be regarded as exhaustive.

To make the data component more illustrative maps of the district, tahasil and police station are also published in the publication. The Police Station maps showing the villages as per the population size, having different amenities represented in approved legend will help the readers in easy appreciation.

According to the 1951 publication programme the District Census Handbook was published in one volume and did not contain information given in the village and town directory. Apart from this the brief introduction of the district, general features, density map, prescribed tables for general population, economic tables, social and cultural tables and village statistics were provided in the District Census Handbook. The Primary Census Abstract was given under the heading "village statistics". However, the information on villagewise list of displaced persons, and information on small scale industries were presented in the 1951 District Census Handbook volume.

Similarly, 1961 Census publication was presented in one volume. This volume was divided into 3 parts. First part contained the introduction of the district, second part contained the census tables and the official statistics was given in the third part. The information given in the Village Directory and Town Directory for 1981 Census was not given in the 1961 District Census Handbook. The villagewise Primary Census Abstract was given in the second part under the heading of "Village Directory". The information on villagewise list of industries and tables on fairs and festivals were presented in 1961 District Census Handbook publication.

According to the 1971 Census publication programme, the District Census Handbooks were to be published in 3 volumes; Part-A containing the data on amenities, Part-B incorporating Primary Census Abstract (P. C. A.) and Part-C giving administrative statistics and census tables. District Census Handbooks, part-A and part-B for the 1971 Census could be published quickly. Both these volumes were in great demand by the data users, as they contained a vast mass of data on amenities available in the Village/Town alongwith demographic features. In regard to the District Census Handbook Part-C, we faced difficulties in collecting administrative statistics from various Offices and our progress in

publishing the report was considerably delayed. After obtaining necessary statistics, much difficulty had to be encountered in printing of the part-C, which was pending in the State Government Press at Cuttack for a pretty long time. Under compelling circumstances the manuscript could be printed in the Private Presses located at Cuttack and elsewhere. In view of the inordinate delay in collecting administrative statistics which would in any case be available to the data users in the publications of the respective Statistical bureaus/departments of the State Government there was re-thinking in the matter to drop the publication of part-C of the District Census Handbook for the 1981 Census.

However, it has been decided to publish the 1981 District Census Handbook in two parts. Part 'A' would be confined to village and town directory, whereas part 'B' would be confined to village and townwise Primary Census Abstract including Scheduled Castes and Scheduled Tribes Primary Census Abstract upto Police Station/ Town levels. Despite the fact that publication of both the parts in one volume would have enhanced the value, it could not be helped in respect of the bigger districts comprising large number of villages and towns. Therefore, the publication has been broken up into two volumes (Part 'A' and 'B').

By and large, the contents of the Village and Town Directory are almost similar to those adopted for 1971 Census, barring a few changes necessitated by the requirements of the planners and data users.

The new feature of 1981 format is having provision of the distance range of the particular amenities to a village where it is not present. A few items of information like adult literacy centres have been introduced in the village directory to meet some requirement of the Minimum Needs Programme.

Another introduction viz., "total population and number of households" for each village has been shown in the village directory to ascertain the co-relation of the amenities with population and number of household they serve. Since current day planning has been initiated from the Community Development Block level, villages coming under each Community Development Block has been furnished in the annexure of the village directory for the facility of the administrators and planners, which is a departure from the earlier Censuses.

Similarly in the Town Directory, information on Scheduled Castes and Scheduled Tribes population in statement-IV and availability of adult literacy centres in statement-V are innovations keeping in view the requirement of Minimum Needs Programme.

The significant change in the Town Directory is the provision of class of town in all statements for analysis of the infrastructure of amenities.

Both the Village and Town Directory and objectives of various columns thereunder alongwith the connotation of various abbreviations used therein have been explained in the relevant sections.

Scope of Village Directory

The data on village directory have been presented Tahasil/P.S.-wise and Village-wise. The village includes revenue village and the clusters of habitation located in any tract mentioned thereunder. The names of villages have not been arranged alphabetically since location code thereof have been provided in ascending order. However, for facility of the readers, an alphabetical list of villages under each Police Station with its location code numbers has been provided at the beginning of the village directory. In case of a village treated as an out-growth of an urban agglomeration, the code number and name have been provided minus data thereof which has been shown against such core town. In case of part-village forming a portion of an out-growth, the corresponding data has been shown in the village directory. In case of census towns, such villages have been listed in the village directory without any data on amenities, for which the town directory has to be referred to. However, the land utilisation data for such census town has been made available in Appendix—II

It has been the tradition of census to present maps of constituent administrative units beginning with the district, followed by Tahasils, and Police Stations thereunder. All the maps so presented in this volume have been authenticated by the concerned revenue authorities in so far as the boundary and spellings and locations are concerned. In case of the units adjacent to the coast land of the State, such maps have been cleared by the Survey of India through the office of the Registar General, India.

In addition to the district map, the administrative map of each Tahasil/Police Station has been given in the beginning of the village directory of that Tahasil/Police Station. The boundaries of Police Stations in the Tahasil, location of towns, large villages, rivers, roads, railways, hills forests and important institutions such as High Schools, Colleges, Medical Institutions, Post & Telegraph Offices etc. have been shown in the Tahasil map. An administrative map of the Police Station has also been presented in the beginning of the village directory of that Police Station giving the boundaries of the villages in location codes and towns located within it and other details similar to the Tahasil map. Besides, villages have also been shown through symbolic representation by different population sizes. The uninhabited villages have been shown by cross marks (X). The shaded portion of the map represents the area of the towns.

The information on Village Directory has been provided in the statement containing 20 columns giving areas of the village in hectares, population and number of households, amenities viz., educational, medical, drinking water, power supply, post and telegraph and communication etc. available in the village. In case of non-availability of any of the amenities the distance range of its availability has been provided in the directory. Similarly, the land uses pattern of the village providing the extent of forest area, area under irrigation, un-irrigated area, culturable waste and area not available for cultivation have been indicated in the directory in hectares. Places of religious, historical/archaeological interest have been shown for reference of the readers.

COLUMN 14— *Staple Food* :— Staple food refers to grain and only relates to the majority population of the village using for major portion of the year. Combination of grains in staple food viz., rice, wheat and maize etc. have been indicated.

COLUMN 15 to 19—*Land Use* :— The land use pattern given in the village directory conforms to the pattern of classification of

land use as recommended by the Ministry of Agriculture, Government of India. The guidelines in this regard are as follows. :

1. Forests
2. Not available for cultivation :
   (a) Lands put to non-agricultural uses
   (b) Barren and un-culturable lands
3. Other un-cultivated lands excluding fallow lands :
   (a) Permanent pastures and other *grazing lands*
   (b) Lands under miscellaneous tree crops and groves not included in the net area sown
   (c) Culturable wastes
4. Fallow lands :
   (a) Fallow lands other than current fallows
   (b) Current fallows
5. Net area sown.

In the village directory Column-15 (forest) represents, the category one above. Column-16 (Irrigated) and column-17 (un-irrigated) given break-up of agricultural land, which are a combination of categories-4 (a+b) and 5 above. Column-18 (culturable waste) corresponds to category-3 (a+b+c) above. Column-19 (area not available for cultivation) corresponds to category-2 (a+b). Area figures of the village have been shown in hectares. The total of figures under columns 15 to 19 will not necessarily tally always with the total area of the village as indicated in column-3 of the directory, as there are waterways and hills etc. which may not be included in the land use statistics of the village.

Forests may mean either state owned or private forest and whether wooded or maintained as potential forest land. There are situations where patches of land have been put to agricultural use within the statutory notified forest and have been considered as forest by the revenue administration. These areas have been treated as forest. In Orissa, forest is broadly known under two categories, viz., village forest, known in local parlance as khesra forest and reserved or protected forest. The village forest constitutes an integral part of the village area unlike the reserve or protected forest. This is because communal right in land is not exercisable in the areas known as reserve forest under the Orissa Forest Act.

Leaving aside this, 4 Appendices in the village directory have been presented in this publication, which is a distinct feature of the current census publication.

These are :

i) Tahasil/Police station-wise abstract of educational, medical and other amenities.

ii) Land-utilisation data in respect of non-municipal towns(Census Towns).

iii) Tahasil/Police Station-wise list of villages where no amenities are available and

iv) Tahasil/Police Station-wise list of villages indicating the proportion of Scheduled Caste/Scheduled Tribe population to the total population by ranges.

These appendices are new to the present census which provides Tahasil-wise abstract of villages on different priorities. The intention is that the abstract will be helpful for planning inputs in areas/villages where the basic infrastructure is lacking. Similarly the Appendix—IV will be helpful for planning of welfare programmes, for Scheduled Castes/ Scheduled Tribes at micro-level, as it provides data by ranges of Scheduled Caste/Scheduled Tribe population.

Scope of Town Directory

The town directory is intended to cover all the towns in the district statutorily notified as such as also the non-municipal census towns. The towns have been arranged in the town directory in the alphabetical order and do not cover strictly the military areas. The data on amenities and other aspects presented in codes has been explained in detail in separate chapters. Regarding the urban agglomeration the conventional creation of census the names of such agglomerations have been indicated which is similar to the name of the main town of the agglomeration. The particulars for such constituents of the agglomeration have been furnished separately. Such presentation was operationally found to be convenient to have an idea of the particulars of the city or town agglomeration in toto and also severally.

Regarding the out-growths which do not classify to be treated as town, the particulars are not separately available. The directory particulars relating to the out-growths have been merged with the different town and have not been shown separately.

To sum up the earlier format of 1971 D.C.H. Part-A has been restructured for 1981 census, keeping in view the objectives of the Planning Commission for the Minimum Needs Programme and the revised 6th Five Years Plan. More interest has been taken to know the over-all infrastructure in terms of amenities, however, modest or from whatever source it may have been provided.

Information on town directory has been furnished in 6 separate Statements. The scope and the content of the statement adopted for the towns is briefly explained below :

Statement I—This statement gives the status and growth history of the town. In columns 1 and 2, serial No. of the towns in alphabetical order and names of the town with class and civic administrative status have been furnished. In columns 3 and 4 location code of the town has been indicated giving the names of the tahasil under which it is located. Column 5 gives the area figures of the town in sq. kms. The number of households including the house-less household has been shown in column 6. In columns 7 to 15 the population alongwith the growth rate of town from 1901 to 1981 have been shown, for easy comparability. In column 16 density i.e. population per sq. km. has been furnished. In columns 17 to 19 the sex ratios (females for 1,000 males) as recorded from the 1961 census onwards have been furnished.

Statement II—It provides the physical aspects and location of the town. In columns 3 to 5 the average rainfall and temperature have been furnished. Distance of the town in kilometers from the State Headquarters, District Head-quarters, Sub-divisional Headquarters/Tahasil Headquarters, the nearest city with population of one lakh or more, railway station, bus route, navigable rivers/canals within 10 kms. It have also been indicated in column 6 to 12 respectively.

Statement III—The statement reveals a picture of the municipal finance for the year 1978-79. The receipts of the urban local body from various sources have been provided under columns 4 to 10 whereas the expendi-ture under various items have been disclosed under coumns 11 to 17.

Statement IV—It gives information relating to civic and other amenities as it stood in 1979. Scheduled Castes and Scheduled Tribes have been given under columns 5(a) and 5(b) of the statement. The road length in kms. has been shown under column 6. The system of sewerage, number and type of latrines available in the town in addition to the method of disposal of night soil have been shown under columns 7 to 11. Columns 12 and 13 of the statement deals with the source of water supply and system of storage of the town.

Column 14 of the statement provides the availability of fire service if any in the town. In case, such service is not available in the town, the name of the nearest place where available has been shown alongwith the distance from town. Electrification with number of connections for different uses has been shown in columns 15 to 19 of the statement.

Statement V—In this statement information relating to medical, educational, recreational and cultural facilities in the town has been shown. Medical facility available in the town has been shown in columns 4 and 5. Educational facilites, viz., number of different types of Colleges. Technical Schools, recognised commercial and vocational institutions, Higher Secondary Schools, Secondary Schools, M. E. Schools, Primary Schools and Adult Literacy Centres have been indicated in columns 6 to 15. Column16 shows the Working Women's Hostel with the number of seats. Columns 17 to 20 of the statement discloses recreational and cultural facilities like Stadia and Cinema halls etc. available in town. In case of non-availability of medical and educational facilities in the town the name of the nearest place along with the distance where the ficility is available has been given.

Statement VI—This represents the information on Trade, Commerce, Industry and Banking as it stood in 1979. In columns 3 to 5, important commodities as imported into the town have been mentioned as against the exported items out of the town shown under columns 6 to 8. The names of the three important commodities manufactured in the town have been shown in columns 9 to 11. Number of banks, number of agricultural credit socities and number of non-agricultural credit societies available in the town have been furnished in columns 12 to 14 respectively in the statement.

There is no notified slum area in any of the towns of the State. Hence, the prescribed statement IV-A has not been provided in the Town Directory.

The towns having out growths have been provided in an Appendix to the Town Directory showing their population separately.

Physical Aspects

This is one of the western-most district of the State of Orissa and is roughly triangular in shape. The district lies between 24° 43'N and 22°11'N latitude and 82°39'E and 85°13'E longitude. It is bouded by Sundargarh district (Orissa) in North, Balangir district (Orissa) in South, Dhenkanal district (Orissa)in East, Raipur and Raigarh districts (Madhya Pradesh) in West. The area according to the Surveyor General, India is 17,516 Sq. Kms., which ranks second in the State area-wise. The population of the district is 2 280·976 according to 1981 Census and population-wise, the district ranks fifth in the State. This population comprises 3,50,078 Scheduled Caste and 6,23,555 Schedulud Tribe population. The percentage of Scheduled Caste and Scheduled Tribe population to the total population of the district works out to 15·35 and 27·20 respectively.

The district consists of wide expanse of fairly open country fringed by forest clad hills and series of low hill ranges. Topographically, there are two district regions in the district. The region has undulating up lands varying in elevation from 146 M to 288·6M above sea level and comprises of the blocks in Sambalpur (Dhankauda, Maneswar, Jujomura, Rengali Blocks), Jharsuguda (Jharsuguda, Lakhanpur Kolabira, Kirimira, Laikera Blocks) and Bargarh (Bargarh, Barapali, Bheden, Bhatli, Attabira and Ambabhona blooks) Sub-divisions. The Sambalpur and Bargarh Sub-divisions contained vast area of plain land and consequent upon the construction of Hirakud Dam this has become most fertile tract. The secord region consists of forest clad hills as well as series of low hilly ranges with a fairly open expanse. In this region fall all other blocks (in Padmapur, Debagarh and Rairakhol Sub-divisions. The Sub-division of Kochinda has, however, both plain and hill ranges. Debagarh tahasil has a alluvial area. The South-western boundary of the district is formed by the magnificient hill known as "Gandhamardan" which lies in Padmapur area.

The district has many hill ranges. The Barapahar range in Bargarh Sub-division has a height of 691 metres at the peak of Debrigarh. The other group of Gandhamardan running along the southern boundary separates the district from Balangir. The highest peak of Nrusinha-nath (985·72 metres) is one of the picturesque spot. In Debagarh Sub-division, Khajuria range has a height of 745 meters, Pradhanpat and Kaidanta ranges have 743 and 816 meters respectively. The Usha-Kothi range in Kochinda Sub-division are thickly wooded which adjoin Badarama reserves.

River Mahanadi traverses in the district for about 122 Kms. in the district. The second big river Brahmani flows in Debagarh Sub-division for a distant of 48 Kilometers. The other rivers are of minor importance and are tributaries of river Mahanadi or small nalas. The principal tributaries of Mahanadi is Ib which falls into Hirakud reservoir and its tributaries like Bheden. To the west, the principal tributaries of Mahanadi are Jira and Jhaun which flow through the Bargarh plains. The other river Ong originating in Kalahandi district enters Borashamber in south-west corner of the district. The rivers are having rocky bed and mostly dry up in summer, hence do not provide facility for navigation. Hirakud reservoir on river Mahanadi is the main dam of 4800 meters with nearly 21 Kms. of low earthen dyke at the flanks. The reservoir of the dam has an water spread of 777 Sq. Kilometers at the high level. This serves as a flood control besides at the high level. This serves as a flood control besides water storage for irrigation and power generation.

The climate of the district is of extreme type hot and dry in summer, hot and humid in the rainy season besides dry and cloud in the winter season. May is usually the hotest month of the year when the mean daily maximum temperature rises upto 41° C· The coldest month of the year is December having mean daily minimum temperature is 12 1° C. The South-west monsoon season is from mid June to the end of September.

The annual average rain fall of the district is 1527 mm. The district gets rain fall from the south-west monsoon. The rainy season usually starts from June and ends in September. Presently the rain recording stations have been established at each development block headquarters.

Jurisdictional Changes— During the decade 1971-81 one new Sub-division was created at Jharsuguda, thereby bringing the total number of Sub-division of this district to seven. This Sub-division comprises the entire Jharsuguda Tahasil and 12 villages of Katarbaga Police Station under Sambalpur Sadar Tahasil earlier forming the jurisdiction of Sambalpur Sadar Sub-division.

During the decade, a new tahasil was created with the headquarters at Attabira by way of transfering the entire Bheden Police Station and Attabira Police Station forming a part of Bargarh Tahasil earlier.

Major Characteristics of the District

Mining—The important minerals found in the district are coal, fireclay, lime stone and graphite. Coalreserve is available in Rampur area where private sector is operating the mines. Fireclay deposits are also confined to the Rampur coal fields areas where exploitation have been under taken by the private sector. The fireclay supply mainly goes to the Refractory Plants at Belpahar, Rajagangapur and Jamshedpur, besides Steel Plant at Raurkela and Ceramic Industry at Jharsuguda. Limestone deposits as well as dolomite are available in Padmapur, Lakhanpur, Dungri and Sauntamul areas. Mines are being exploited by M/s. I.D.C. a State owned enterprise to feed the cement factory at Bargarh. In course of time mineral based industries have come up for exploitation of the potential. During 1980-81, 41 mines were working in the district, which include 20 under graphite, 2 under fireclay, 5 under coal, 2 under limestone, 1 under chinaclay, 7 under fireclay and 3 under quartize. The exploitation is mostly through manual process and transportation is primarily through road ways. The State Government received a mining revenue of Rs. 61,05,794.68. during 1980-81, besides the cess on royality amounting to Rs. 14.78-lakhs.

Forest—By 1981 March, the district had a forest area of 6002.68 Sq. Kms. out of which reserve forest alone accounted for 3548.98 Sq. Kms. the rest coming under demarcated protected forest and un demarcated protected forest. The nature of the forest is mainly that of northen tropical dry deciduous type, though moist deciduous species occur in same parts of Debagarh. The forests are of 3 main types viz., (i) Sal (ii) Dry mixed forest and (iii) Bamboo forest.

Forests occupy an important place in the economy. Its influence on agriculture is substantial. A perennial vegetative cover is maintained by the forests, which check soil erosion, prevents greater run off of water. The forest produce provide employment to a considerable segment of the population. The principal forest produce are timber, fire wood, bamboo and kendu leaf. In the recent past, Forest Corporation, as well as Kenduleaf Corporation, State Government Undertakings have started operating on the ferests alongwith the private sector. Kenduleaf has become the State Government trade and export oriented. The minor forest produce include gum, mahua-flower, myro balam, sabaigrass, wax etc.

Power—The state is a typical example of poverty. The large deposits of minerals remain unexploited for want of power. Consequent upon the construction of Hirakud Multi-purpose Project, there has been increase in power supply in the State. The installed capacity is 270 M. W., which is supplied to the State. So far 1540 villages have been electrified in the district besides 231 hamlets. During 1980-81 59 Lift Irrigation Points alongwith 445 Dug-well projects were energised in the district.

Industry—The old type industries were weaving of cotton and tusser cloth besides manufacture of bellmetal utensils. The silk weaving was a principal industry of the district and received recognition as back as 1853. It was also exported outside the districts.

In the post independence era, consequent upon construction of Hirakud Multi-purpose Project, the industrial activity of the district received a thurst. Cluster of industries came up around Hirakud and Brajarajnagar. Aluminium Industries at Hirakud, Paper Mill at Brajarajnagar, Refractory unit at Belpahar came up in private sector. One weaving spinning mill at Tora near Bargarh alongwith cement and sugar factory at Bargarh besides Bhaskar Textile Mills at Jharsuguda are of recent origin.

The Industrial Development Corporation of Orissa, a Government of Orissa Undertaking has set up industries like, Transmission Line Towers, Alluminium Conductors and Copper Winding wires besides Mild steel rounds, Tor steel angles at Hirakud. Industrial Promotion and Investment Corporation of Orissa Ltd. (IPICOL), a State Government Undertaking has also established concrete product industry at Jharsuguda and it has further programme of establishing the units like P. S. C. railway sleepers at Sambalpur, Refractories, Packing papers, and Sanitary ware at Jhatsuguda and Foreign Liquor shop at Bargarh. These industries on completion will change the industrial map of the district.

The Orissa Industrial Infractructural Development Corporation (IDCO) a State Government Undertaking are also assisting orderly establishment af industries in the State by way of establishment of industrial estates in the designated industrial areas. This Corporation is constructing ready built sheds for location of small and medium industries besides providing developed sites with infrastructure for establishment of Industries. In Sambalpur district, the Corporation has already established industrial estates with ready built sheds at Jharsuguda, Sambalpur and further expansion in areas like Sambalpur and Hirakud are in progress.

Coming to the Small Scale/Village Industries, the District Industries Centres were set up by the State Government during the year 1978 to bring about rapid development of small, village and cottage industries to provide additional avenues of employment besides reduction of regional imbalance with regard to industrial development. The objective includes appraisal project, recommendation to the lending institutions for timely availabillty of loan, providing technical assistance, organising training programme for man power development besides assuring market and raw material for industries. Under the artisan sector, 2,699 units were achieved during 1980-81, with an investment of Rs. 15.72 lakhs which provided employment to 3,890 persons. Similarly under small scale industry sector 128 units were achieved during the year 1980-81 with an investment of Rs. 63.73 lakhs which provided employment scope for 1,238 persons. The units so set up by the D.I C. include Blacksmithy, Bee-keeping, Bell-metal, Cane and Bamboo, Carpentry, Food processing and preservation, Rope, Handloom and Khadi, Leather products and Village pottery etc. Under handicraft side, 92 units were established during the year 1980-81, which include 64 under Dhokra casting, 14 under applique works, 5 under stone works. Other trade like tailoring, electrical repair, servicing, cycle, radio repair, etc. are also finding favour in the rural areas.

Agriculture—Agriculture is the main stay of the people. Consequent upon construction of Hirakud Dam, more areas of the district are getting irrigation facility and scope for additional coverage has increased.

Broadly speaking 4 types of soil are available in the district. The red forest soil is available in Rairakhol and Kochinda Subdivisions which are suitable for orchards and dry crop like arhar. The brown forest soil is also available in Kochinda area which is suitable for growth of fruit bearing trees. The sandy soil are suitable for groundnut and pulses which is available through out the district. The clay loam and clay soil is mostly found in berna lands available at the bottom of a depression and receive drainage from the slopes on either side. This soil is available in Rengali, Jharsuguda and Laikera areas besides Padmapur and Paikamal.

During 1980-81, the district had 6,21,629 hectres of cultivated area with the following classification.

Att	...	1,44,127
Mal	...	1,71,750
Berna	...	1,67,603
Bahal	...	1,38,149
Total		**6,21,629**

Out of the aforesaid area, 1,32,458 hectres receive irrigation whereas 4,89,171 hectres come under non-irrigated area. Accordingly, cropping pattern is prescribed by departmental authority for the cultivators. The district had a coverage of 6,72,633 hectres under khariff besides 1,81,041 hectres under Rabi during 1980-81 and under the following major classifications.

	KHARIFF	RABI
1. Paddy	4,98,014	...
2. High yielding variety	1,44,191	73,915
3. Pulses	53,307	39,290
4. Oil seed	41,268	17,673

Diversification of paddy crop to non-paddy crop in the uplands is being insisted upon for maximising agricultural production. In the ayacut areas of major projects like Hirakud Dam Special Agricultural Planning Authority under the designation of Command Area Development Authority has been set up at Sambalpur having jurisdiction over eleven blocks where concentrated efforts are being made for maximisation of production. The achievement under CADA has been discused separately.

Irrigation— In the past irrigation was mostly done through tanks. According to the Imperial Gazetteer (1908) the irrigated area of the district was only 31 Sq. miles. However, by 1931 the irrigated area was increased to 89,646 hectres and this irrigation was from tanks and wells. The ordinary irrigation tanks locally known as Kata is constructed by putting a strong earthen embankment across a branch channel so as to hold up water to be used for irrigation. "Munda" is also a embakment of similar size across the branch channel, whereas "Bandha" is a four sided tank. Hirakud dam over the river Mahanadi made a great land mark in the system of irrigation in the district. Through canal system, vast acreage have been provided with irrigation. The district had a potential of 5.705 lakh hectares under major and medium irrigation. However, through minor irrigation (flow) additional extent of 18·753 lakh hectres are receiving irrigation. In all, the existing 296 minor irrigation projects are providing irrigation facilities to 76,969 acres under Kharif besides 5,405 acres under rabi. From other projects, kharif ayacut of 36,006 and rabi ayacut of 6,500 acres have also been assured of irrigation facility.

Few ongoing projects like Saipalla, Dumerbahal (in Kalahandi district), Gohira in Debagarh Sub-division and Jharabandha in Padmapur Sub-division on completion will provide additional irrigation potential to the district.

To harness the ground water potential, Lift Irrigation Points alongwith dug-well projects have been taken up extensively in the district which will assure irrigation facilities particularly for rabi crop. During 1980-81, 3,059 dug-wells were sunk in the district.

Pisciculture— In the earlier days, pisciculture was so to say non-existent. The Mahanadi river was the sole natural source of fish supply. Consequent upon construction of Hirakud Dam, the reservoir thereof besides Grampanchayat and private tanks constitute the main source of inland pisciculture in the district. The total potential of the district has been estimated at 10,721.6 hectres, out of which 920 hectres were covered during the year 1980-81. During 1980-81, from the departmental farms 62.165 lakhs of fry were distributed to the fish farmers alongwith production of quality spawn to the extent of 165.61 lakhs by Hetchery Production Method. Demonstration on intensive fish production was also taken up in an water area of 17.50 acres. Under reservoir fishery, 266 beneficiaries were covered in 38 units of the district during 1980-81.

Fish Farmers Development Agency is also developing pisciculture by way of leasing out tanks on long term basis and providing necessary finance for development of infrastructure and fish rearing. During 1980-81, 49 cases with an water area of 79.10 acres were covered and 112 fish farmers were given training to develop pisciculture.

Animal Husbandry--The settlement report of 1926 states that the cattle of the district is generally poor. To look after the animal husbandry administration, the district has been divided into 2 veterinary districts with the headqurater s at Sambalpur and Bargarh. In all there are 2 hospitals, 46 dispensaries, 136 live-stock aid centres in the district besides special poultry unit, pig breeding and goat rearing state level farm located at Chipilima. The cattle census taken up in 1977 discloses the following live stock population of the district.

1	Cattle	...	1,723,420
2	Buffalo	...	126,747
3	Sheep	...	78,643
4	Goat	...	258,772
5	Pig	...	5,268
6	Poultry	...	663,585
7	Horse & Pony	...	191
8	Ducks	...	10,042

Upgrading of cattle stock as well as supplementing the agrarian income of the individuals has received attention though various programmes undertaken by the department. Various schemes like dairy, sheep rearing, goat rearing, piggery and poultry keeping have been encouraged through different programmes. During 1980-81, the achievement was 600 dairy units, 2749 sheep and goat rearing units, 94 pig units in the district. Provision of quality fodder cultivation is being popularised through various demonstrations and an extent of 39 acres were covered under fodder cultivation during 1980-81.

A state level live-stock breeding farm was started at Chipilima in 1965-66 in an area covering two thousand acres. Here integrated units under cattle breeding, poultry, sheep, goat and piggery have started. Suitable breeds from this farm are being distributed as an encouragement to take up various animal husbandry programme for supplementing the agrarian income. A live-stock research centre has also being functioning, here from 1967 besides a full-fledged laboratory. With the Indo-Danish Collaboration, exotic cattle breeding is being developed here. Similarly exotic breed under sheep rearing, goat rearing, pig rearing are being made here for supply to different parts of the state. Under fodder cultivation, babul plantation is being taken up for extension purposes.

Co-operation—Organised indigenous banking was un-known in the past and usually credit system was confined to the village money lender, saukar, mahajan and gauntias upto 1945 when the Central Co-operative Bank was established. However, the traditional class of creditors had their impact in thhir rural area.

In the post independence era, the activity of Co-operatives has been manifold and there has been decentralisation of banking facilities. By 1981 there were 304 Co-operative Societies which include 9 LAMPS, 2 Cold Storages, 55 Primary Consumer Co-operative Stores, One Co-operative Sugar Factory etc. The total membership as on June 1981 was 1,57,73 3. The Co-operative Bank has 19 branches located in various parts of the district, which provide necessary credit facility. The Land Development Bank similarly has 7 branches located in the district and advance credit to the needy people. According to the Credit Plan of the district (1980-82) prepared by the State Bank of India, there were 81 branches of Commercial Banks in different parts of the district to provide necessary credit to the individuals.

Drinking Water—Provision of drinking water to all the villages has assumed importance in the recent plan period. According to the survey made, there were 2039 tube wells, besides 748 sanitary wells sunk in the district so far. Moreover the existing drinking water wells in some villages also dry up in summer and pose drinking water problem. Emphasis has been laid to cover the problem villages on priority.

Education—In the earlier days a Budhist Vihar (Monastery) is said to have developed at Muchilinda (identified with Melchhamunda in Padmapur sub-division) the ruins are still to be seen where Budhist Philosophy were taught. The great writers like Bhima Bhoi was born in

Rairakhol sub-division. The great Gangadhar Meher belongs to this district. Western education had its beginning in the district when Zilla School was established in 1852. During 1930 there were 2 High Schools, 6 Middle English Schools in the district. In the ex-state like Rairakhol there were 5 schools in 1907-08. In Bamara ex-state one English School was established in 1892, which was converted into High School later.

In course of time there has been phenomenal growth of educational institutions in the district. Duriug 1906-07 there were 120 schools which included one High School, 6 M. E. Schools and 113 Primary Schools. During 1951, there were 11 High Schools, 42 M.E. schools and 725 Primary Schools besides one College. In 1961 there were 6 Colleges, 22 High Schools, 150 M. E. Schools and 1634 Primary Schools. By 1981 March there were 218 High Schools, 660 M. E. Schools and 2,616 Primary Schools. Emphasis has also been given for spread of education among the weaker section and women of the district. For spread of technical education and higher education one Engineering School at Jhirsuguda and one Industrial Training Institute at Hirakud is functioning. University of Sambalpur came into existence on 1. 1. 1968 including faculties like arts, science, commerce, engineering, law etc.

Various incentives are also made available to the students to encourage education in the form of free supply of nationalised text book in primary stage. Pre-matric and post-matric scholarships were also given to the students.

Communication— During the earlier times some important routes connecting northern India with the Decan were passing through the present district Sambalpur. During the rule of Chauhans, improvement to the communication system of the district was taken over. The land revenue settlement of northern province, 1886, mentions one important trade route from Ganjam to Sambalpur via Sonapur and Binika which was known as the salt route. In the first-half of the 19th century there was a mail route from Calcutta to Bombay, which passed through Sambalpur and Raipur, the route was infested by rebels. In the ex-state of Bamara, there was a route from Bamara railway station to Debagarh. The Cuttack-Sambalpur route passed through Rairakhol.

There has been marked improvement in communication system in the post independence era. National Highway No. 42 passes through this district. National Highway No. 6 which connects Calcutta and Bombay also traverses through Bargarh, Sambalpur and Debagarh Sub-divisions of the district. There are other categories of roads in the district as mentioned below alongwith the route length under each category.

CATEGORY OF ROAD	ROAD LENGTH (in Kms.)
1. National Highway	329.6
2. State Highway	249.4
3. Major district road	466.7
4. Other district road	268.1
5. Classified village road	431.4
6. R. E. O. Road	792.0

All the Sub-divisions, Tahasils and Block headquarters are having all weather communication facility. The Orissa State Transport Company plies buses in most of the routes and private sectors are also allowed to run their buses. The district has all weather road communication facility with the state headquarters, district headquarters and important towns inside and outside the State.

Harijan and Tribal Welfare—In the earlier days the educationally backwardness of the district was attributed to a considerable proportion of the population coming under aboriginals and semiaboriginals. In course of time and particularly after independence, the upliftment of the weaker section of the Community received momentum. Special types of Schools under the name of Ashram Schools, Sevashram were opened in the areas having tribal/caste majority. Residential Schools were also constructed for the tribal/students having facility for training in different avocations like

agriculture, weaving, carpentry, bee keeping etc. Kanyashram were also opened to encourage female education.

By March, 1981, there were 7 High Schools, 3 M. E Schools, 165 Sevashrams in the district under the management of the Harijan and Tribal Welfare Department. To encourage education among the weaker section of the community various incentives like supply of free text books, pre-matric scholarship, post-matric scholarship are being made available. During 1981, 5,442 Scheduled Caste besides 7,204 Scheduled Tribe students were benefitted under pre-matric scholarship. Similarly post-matric scholarships were given to 371 Scheduled Caste and 819 Scheduled Tribe students.

For giving special attention for the upliftment of the tribals, the entire Kochinda Subdivision has been covered under ITDA programme. Under this scheme, various amenities on social front alongwith the economic sector are being provided for the benefit of the community. During 1981, 41 dug-wells were sunk besides other measures which benefitted 262 individuals. For supplementing the agrarian income, schemes under goatery, piggery and dairy were taken up for the tribals.

With a view to make available direct family benefit to more and more tribals, Modified Area Development Approach (MADA) has been taken up in selected pockets, where tribal concentration is of 50% or more and the population is ten thousand or more. Individual benefit oriented schemes in the core economic sector like agriculture, animal husbandry, irrigation, communication, education have been taken up in such area. This MADA Scheme is in operation in 11 blocks of the district viz., Dhankauda, Rengali, Jujomura, Maneswar, Barkote, Reamal, Kirmira, Laikera, Kolabira, Paikamal and Jharbandh. During 1981, 9 persons were supplied with cows, 82 persons with bullocks, 22 persons with pig, 410 persons with goat besides 62 persons under dug-wells.

In addition to above, these weaker sections are given priority during the distribution of agricultural land for cultivation and home-stead land for construction of dwelling houses.

Housing—Provision of housing facility for the houseless persons has assumed importance in the recent plan period. Integrated housing scheme was initiated in the year 1976-77 under which ready built houses were provided to the identified houseless persons. By march, 1981, 675 houses were constructed, out of which 661 houses were delivered to the identified beneficiaries which include 390 Scheduled Caste and 234 Scheduled Tribe persons.

Village housing project scheme is under implementation which provides loan assistance to the individuals for construction of houses in their own sites. Under this programme, the district had received special allotment in the areas covered under ITDA Programme, besides providing houses in the flood prone areas. Loan assistance were also made available to the individuals coming under middle income group and low income group category. During 1980-81, 28 individuals were covered under middle income group housing besides 19 individuals under low income group housing. Due priority is being given for Schduled Caste and Schduled Tribe persons in this regard.

Trade & Commerce—Rice is the staple export to out side the district. Often exports include coal, oil-seed, hemp, hides and forest products such as timber, kenduleaf, mahua flower and bamboo. The principal imports are salt, sugar, kerosene oil, wheat, cement, building materials, consumer goods, cotton yarn etc. Sambalpur, Bargarh and Jharsuguda are the principal centres of trade. Bargarh and Talpatia are the chief cattle markets.

The consumer stores located at different places also take up the transaction for sale of consumer goods at fair price. Four regulating market committees also assist in trade activities. The Regional Co-operative Marketting Society in the district having its branches at 8 different places serve the purpose of procurement of paddy and sale of fertiliser, pesticides and agricultural implements to the consumers. Storage of articles is done in the godowns set up by the Food Corporation of India at different places. There are in allone

Central Ware-house, one State Ware-house, 331 Co-operative Godowns in the district as revealed from the credit plan of the district (1980-82) published by the State Bank of India.

The Co-operative Bank, Land Development Bank with its branches through out the district besides the net work of 81 branches of scheduled banks meet the financial need of the traders.

Essential commodities are distributed through the Civil Supply Branch of the Collectors Office and the Supply Corporation of the State Government for facility of the consumers. During the year 1980-81, the district had received the following articles for consumption.

1	Wheat	...	4,800 M.T.
2	Sugar	...	10,860 M.T.
3	Cement	...	7,600 M.T.
4	K. Oil	...	9,600 K.L.
5	Rice	...	13,161.3 M.T.

For facility of the consumer, the essential commodities are marketted through the fair price shops and such number by 1981 March was 1,632 scattered through out the district.

Land tenure—The chequered history of the land had an unmistakable impact on its revenue administration. The Bengal Rent Act of 1859 was applicable in this district. The Central Provinces Land Revenue Act of 1881, and the Central Provinces Tenancy Act of 1898 were in force and subsequently substituted by Central Provinces Land Revenue Act of 1917 and the Central Provinces Tenancy Act of 1920. Broadly speaking, the land revenue administration can be divided into two tracts viz., Khalasa and the Zamindaries. The Khalasa used to indicate land held directly from Government. The village head-man in the Khalasa area used to be called as Gauntia, who was responsible for payment of the lump sum assessment of the village for a specified period for which it was leased out. Proprietor rights were conferred on Gauntia in 1862. There were also Malguzars, who were full proprietors in villages held by them. The Zamindaries were tracts held by proprietors having feudal status. There were, however, sixteen Zamindaries in the district, out of which Borasamber was the largest.

Earlier settlement was made in 1854 and subsequent settlements were done in 1876 and 1908. Under the provision of Survey Settlement Act, settlement operation was undertaken in Sambalpur and Bargarh Sub-division during 1961.

In Rairakhol area, the earlier settlement was completed in 1898 and the revisional settlement was taken up in 1917. In Bamara ex-state, the regular settlement was completed in 1928-29 and another minor settlement was taken up between 1941-47. According to the present settlement, lands have been classified under different categories, as follows :—

1. Bahal Kharipani-I Dofasali
2. Bahal Kharipani-II Dofasali
3. Bahal Pani-I Dofasali
4. Bahal Pani-II Dofasali
5. Bahal Kharipani-I
6. Bahal Kharipani-II
7. Bahal Pani-I
8. Bahal Pani-II
9. Bahal Khari
10. Bahal Sadharana
11. Bahal Jalachar
12. Berna Kharipani-I Dofasali
13. Berna Pani-I Dofasali
14. Berna Kharipani-II Dofasali
15. Berna Pani-II Dofasali
16. Berna Kharipani-I
17. Berna Pani I
18. Berna Kharipani-I
19. Berna Pani-II
20. Berna Khari
21. Berna Sadharana
22. Mala Kharipani-I Dofasali
23. Mala Pani-I Dofasali
24 Mala Kharipani-II Dofasali

25. Malapani Dofasali
26. Mala Kharipani-II
27. Mala Pani-II
28. Mala Kharipani-I
29. Mala Pani-I
30. Mala Khari
31. Mala Sadharana
32. Ata Pani-I Dofasali
33. Ata Kharipani-I Dofasali
34. Ata Kharipani-I
35. Atapani-I
36. Ata Kharipani-II Dofasali
37. Ata Pani-II Dofasali
38. Ata Kharipani-II
39. Ata Pani-II
40. Ata Umhari
41. Ata Sadharna
42. Ata Khari
43. Bari Kharipani-I
44. Bari Pani-I
45. Bari Kharipani-II
46. Bari Pani-II
47. Bari Khari
48. Bari Sadharana
49. Barcha Khari
50. Barcha
51. Kachhar
52. Pana Baraja
53. Bogayat-I
54. Bogayat-II
55. Bogayat-III
56. Ghara
57. Bandha, Kata, Munda etc.

Tenancy—Consequent upon the abolition of estates and agrarian reforms brought about by legislative measures in the recent past, almost a total change has been effected in the tenancy system. The effect has been so fundamental and wide spread that the entire texture of relationship between the state and the land holder on the one hand and the tanant with immediate landlords on the other has under gone a metamorphosis. As a result, the status of land has changed its complex and character in the same manner as the rights of the persons to hold them. The reality in the status connoting the same rights in more than one way under different names had to be rationalised through comprehensive legisletive measures.

Details of such land tenure are given below:

1. Rayat
2. Bebondobasta
3. Sikim

Government land under possession of Revenue Department are recorded as Abadya Jogya Anabadi, Abadya Ajogya Anabadi, Sarbasadharan and Rakhit. By March, 1981, record of rights in respect of 2,234 number of villages in the district have been finalised.

Decadal Changes (1971-81)

Distribution of Government waste land for Agricultural and Homestead purposes—This scheme is in operation from the year 1972. Persons identified as landless by the Tahasildar are given two acres of Government waste land for agricultural purposes, free of salami with priority for the weaker section of the community. Similarly house sites are allotted in favour of the houseless persons at the rate of four decimals of land each free of premium. The achievement in this respect for the year 1980-81 in the district is as follows :

	For Agricultural purposes		For Homestead purposes	
	No. of persons	Area	No. of persons	Area
1 Scheduled Caste	100	Ac. 174.86	32	Ac. 2.58
2 Scheduled Tribe	194	Ac. 339.21	57	Ac. 6.32
3 Others	294	Ac. 525.11	81	Ac. 17.54
Total	**588**	**Ac. 1039·18**	**170**	**Ac. 26.44**

Command Area Development Authority (CADA)—The Command Area Development Authority was constituted and registered into a society during the year 1976-77 with the primary objective of ensuring optimum use of irrigation potential already created by Hirakud system for maximisation of agricultural production in the Command Area and close the gap between the irrigation potential created and actual utilisation. The headquarters of CADA is at Sambalpur having jurisidiction over 11 blocks of Sambalpur district besides 3 blocks of Balangir district. The CADA authority has been giving stress on the following aspects.

i) Development of field channels and field drains within the command of each outlet.

ii) Land levelling

iii) Consolidation of holding and realignment of field boundries.

iv) Ground water exploitation.

Under major irrigation through Hirakud system, an ayacut of 1,54,000 hectres under kharif besides 1,11,052 hectres under rabi are coming under the jurisdiction of CADA. This refers to Bargarh, Barapali, Bhatli, Attabira, Bheden, Bijepur, Dhankauda, Maneswar, Jujomura, Rengali and Jamankira Development Blocks of the district. Lift Irrigation points in Maneswar, Jujomura, Bargarh and Bheden blocks have been taken up by the organisation which has assured irrigation to 920 hectres. The organisation has also taken up dug-well projects in the blocks coming under its jurisdiction.

Under agricultural front, field channel/ drains were constructed to assure irrigation. Multiple cropping pattern is gradually gaining popularity by the farmers by way of diverting their attention to the low duty crops and under this programme 2,521 hectres were covered under demonstration by March, 1981. Fodder demonstration has also been taken up in 46 hectres. Under Minikit Programme, 13,921 kits were distributed. Farmers are also being encouraged by way of different incentives, such as supply of agricultural implements subsidy on ground water development like dug-well etc.

Places of Historical and Tourist Importance

Sambalpur serves as the gateway to the bewitching western zone of Orissa, abounding in lush green forests, colourful wildlife, exquisite array of hills, waterfalls of streming pearls rich tribal life and culture, folk songs and dances and a variety of monuments.

The town Sambalpur, the district headquarters, can be conveniently made the base for visiting the various places of interest in the district as well as other districts of western Orissa. To suggest a few, a travellers' itinerary for the district of Sambalpur may include Hirakud Dam, Nrusinghanath Hills, Ushakothi (Badrama) Sanctuary, Pradhanpat Waterfall and Huma Temple in addition to other places of individua l choice.

Sambalpur—It is the district headquarters and the chief commercial centre of the district. It derives its name from the presiding deity of the district Samaleswari endearingly called "Samalai" by the local people. The goddess is enshrined in a temple called Samalai Gudi on the bank of the river Mahanadi. The temple stands on a square size plinth surmounted by a spire adorned with miniature temple designs on all sides. The other important monuments of the town are the Budharaja temble, dedicated to Lord Siva and stands on the top of Budharaja hill. A panoramic view of the town can be had from the top of this hill. A similar view can be had from the Tourist Bungalow adjoining the circuit house a top the brooks hill. Bara Jagannath temple, Brahmapura temple, Ananta Sajya temple and the temple of Pataneswari are among monuments of historic importance.

Sambalpur is fomous for its handloom textile works which has earned international fame in recent time. The textiles for their unique pattern, design and texture community come under the patent name of Sambalpuri.

On the Jharsuguda-Titilagarh line of S. E. Railway one could alight at Sambalpur railway station and utilise the services of the Tourist Office. Sambalpur is a visiting place of interest in Sambalpur district. By road it is 321 Kms. from Bhubaneswar, 286 Kms. from Cuttack, 192 Kms. from Raurkela, 620 Kms. from Calcutta and 1,426 Kms from Bombay.

Hirakud Dam—Only 10 Kms. north of Sambalpur the longest dam of the world stands in its loan majesty across the great river Mahanadi which drains an area of 1,33,090 Sq. Kms. more than twice the area of Ceylon. The bulk of Hirakud Dam contains earth, concrete and masonary materials "sufficient to make a road 8 meters wide and pave it from Kanyakumari to Kasmir and Amritsar to Dibrugarh in Assam."

From horizon to horizon the reservoir forms the largest artificial lake in Asia with an area of 746 Sq. Kms. with a shore line over 640 Kms. A twenty one kilometres drive on the dyke affords a unique experience of calm serenity and majesty of nature. One can enjoy the sight of the mighty Hirakud Dam and the fantastic expanse of water from the top of the revolving minarate called Gandhi Minar. One can comfortably stay at Ashok Nivas, a luxury Guest House adjoining the Nehru Minar at the other end of the Dam. As the largest multi-purpose river valley project of the world it is a real gift to the nation "all for happiness and prosperity"

Although there is a railway station by the name Hirakud but it is 10 kms. away from the Dam and 16 kms. from the Hirakud township and no transport facilities are available at the railway station for proceeding to the township or visiting the dam. It is therefore advisable to alight at Sambalpur.

Good motorable road 16 Kms. from Sambalpur.

Ushakothi—The famed wild life sanctuary at Badrama has already gained prominence among the international tourists as a place of

destinational tour. Among various fauna of tropical forest the sanctuary preserves elephant tiger, gour, sambar, black-panthar, deer, wild bear, and many other species. One could have a sight of these animals from the watch towers near the saline tank or the waterholes. One could as well drive along the forest roads and watch them. Nearest railway head is at Sambalpur. Ushakoth is 42 kms. from Sambalpur on N H. 6.

Nrusinghanath— The temple of Vidala-Nursingha stands at the foot of the picturesque Gandhamardan hills. On the other slope of this hill are the famous Harishankar temple and the captivating waterfalls. It gained a place in history in the early part of Christian Era being fomous as "Haranapapa" (destroyer of Sins) among the ancient pilgrims In his account Hiuen T' Sang referred to this place as Po-lo-mo-lo-ki-li-or or Parimalagiri which was a renowed seat of Buddhist culture. The ruins found on the plateau at the hill-top, about ten miles long, speak volumes in mute voice. Local traditions ascribe that this is a part of Gandha-mardan hill which Hanuman carried on his shoulders from Himalayas to save the life of Laxman. The hill is also rich in medicinal herbs and the entire surrounding is very pleasant in summer. Nearest railway stations are at Khariar Road and Bargarh on the S. E Railway at a distance of 53 kms. and 100 kms. respectively. Good motorable road of 165 kms. is available from Sambalpur and Nrusinghanath is at a distance of 100 kms. from Bargarh.

In all places Government Bungalows are available for accommodation of the visitors.

Analysis of Village and Town Directory Data

Introduction of new table in District Census Handbooks is a novel feature of 1981 Census which is aimed at providing a brief analysis of results for facility of the planners, data users. 13 inset tables have been provided in this publication. The content of each table is explained below in brief.

Table—1 depicts the distribution of villages according to the amenities under each tahasil of Sambalpur district.

TABLE—1

Distribution of villages according to the availability of different amenities.

Sl. No.	Name of Tahasil	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Padmapur	687	628 (91·41)	233 (33 92)	687 (100·00)	90 (13·10)	49 (7·13)	84 (12·23)	144 (20 96)	348 (50 66)
2	Bargarh	324	294 (90·74)	69 (21·30)	324 (100 00)	93 (28·70)	36 (11·11)	34 (10·49)	77 (23·77)	248 (76 54)
3	Jharsuguda	350	301 (86·00)	69 (19 71)	350 (100·00)	82 (23·43)	45 (12 86)	66 (18·86)	38 (10·86)	247 (70 57)
4	Kochinda	488	323 (66·19)	42 (8 61)	488 (100·00)	72 (14·75)	34 (6·97)	42 (8·61)	88 (18 03)	206 (42·21)
5	Debagarh	680	343 (50·44)	18 (2 65)	676 (99 41)	57 (8·38)	32 (4 71)	73 (10·74)	98 (14·41)	21 (3·09)
6	Rairakhol	364	208 (57·14)	7 (1 92)	361 (99·18)	22 (6·04)	12 (3·30)	33 (9·07)	84 (23 08)	18 (4·95)
7	Sambalpur	371	291 (78 44)	56 (15·09)	371 (100·00)	58 (15·63)	48 (12·94)	71 (19·14)	137 (36·93)	234 (63 07)
8	Attabira	172	160 (93·02)	17 (9 88)	172 (100 00)	46 (26·74)	21 (12 21)	45 (26·16)	30 (17·44)	137 (79·65)
	Total District	**3,436**	**2,548 (74·16)**	**511 (14·87)**	**3,429 (99·80)**	**520 (15·13)**	**277 (8·06)**	**448 (13·04)**	**696 (20·26)**	**1,459 (42 46)**

Out of 3,436 inhabited villages in the district, 2,548 villages are having educational facility, 511 villages are enjoying medical facilities, drinking water facility is available in 3,429 villages, Post & Telegraph facilities in 520 villages, market and hat facility in 277 villages, communication facility in 448 villages and power supply facility in 1,459 villages, 696 are approached by pucca road. It is clear from the table about the backwardness of the district.

Proportion of rural population served by different amenities in different tahasils of the district is shown in Table—2.

TABLE—2

Proportion of Rural Population served by different amenities

Sl. No.	Name of the Tahasil	Total Population of inhabited villages in the Tahasil	Proportion of Rural Population served by the amenity of—							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Padmapur	425,452	97 69	51·32	100·00	27·35	15 72	18 63	25 90	65 43
2	Bargarh	318,454	98·20	29·55	100 00	56·13	19 92	14 89	36 75	90 80
3	Jharsuguda	255,296	96·47	35·29	100 00	48·12	29·01	36 80	20 54	90·31
4	Kochinda	178,893	88·66	23·65	100·00	34·56	19 27	20·33	28 55	62·57
5	Debgarh	184,090	82·54	13·04	99·97	29·02	15·21	25·84	27 52	9·88
6	Rairakhol	82,309	87 00	11·65	100·00	25·24	13 30	25 51	28 78	20 34
7	Sambalpur	253,977	94·43	27·67	100·00	36·84	31·47	33·49	51 65	82·05
8	Attabira	229,072	97·10	20·49	100·00	52·64	20 11	32·33	25·09	93 71
	Total	**1,927,543**	**94·41**	**30·90**	**100·00**	**39·85**	**20·95**	**25 14**	**30·80**	**70 97**

Out of 1,927,543 rural population of the district 94.41 per cent of the population are served by educational facility, 30.90 per cent by medical facility, 39.85 per cent by Post & Telegraph, 20.95 per cent by market and hat facility, 25.14 per cent by communication facility, 70.97 per cent by power supply facility and 30.80 per cent of pucca road facility, drinking water facility is available to the entire rural population of the district except a few in Debagarh Tahasil where 99.97 per cent of the rural population are enjoying drinking water facility in the village.

Table—3 depicts the distribution of villages having certain amenities arranged by distance range from the place where these are available.

TABLE—3

Distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available

Village not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	—5 Kms.	5-10 Kms.	10+Kms.	Total (Cols. 2 to 4)
1	2	3	4	5
1 Education	835	27	26	888
2 Medical	1,059	791	1,075	2,925
3 Drinking water	7	.	.	7
4 Post & Telegraph	1,942	559	415	2,916
5 Market/Hat	1,501	945	713	3,159
6 Communication	1,403	692	893	2,988

Out of 3,436 inhabited villages in the district the educational facility is available in 888 villages, medical facility in 2,925 villages, drinking water in 7 villages, P & T facility in 2,916 villages, market and hat facility in 3,915 villages and communication facility in 2,988 villages. Most of the villagers are enjoying these facilities within a distance of less than 5 kms.

Table—4 depicts the distribution of villages according to the distance from the nearest town and availability of different amenities in the district.

TABLE—4

Distribution of villages according to the distance from the nearest town and availability of different amenities.

Distance Range from the nearest town (in Kms.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of—							
		Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10
0-5	113	99 (87·61)	13 (11·50)	113 (100 00)	23 (20·35)	11 (9 73)	14 (12·39)	55 (48·67)	91 (80·53)
6-15	536	441 (82·28)	73 (13·62)	536 (100·00)	109 (20·34)	49 (9·14)	80 (14·93)	179 (33·40)	352 (65·67)
16-50	2,333	1,722 (73·81)	408 (17·49)	2,327 (99·74)	354 (15·17)	196 (8 40)	313 (13·42)	385 (16·50)	937 (40 16)
51+	454	286 (63·00)	17 (3·74)	453 (99·78)	34 (7·49)	21 (4 63)	41 (9·03)	77 (16 96)	79 (17·40)
Unspecified	...	...	...	...	...	...	...	...	...
Total	**3,436**	**2,548 (74·16)**	**511 (14·87)**	**3,429 (99·80)**	**520 (15·13)**	**277 (8·06)**	**448 (13·04)**	**696 (20·26)**	**1,459 (42 46)**

Out of 3,436 inhabited villages, 2,333 villages are coming under the distance range of 16—50 Kms. from the nearest town, 536 villages are coming under the distance range of 6—15Kms. 454 villages are coming under the distance range of more than 50 Kms. and the rest 113 villages are under 0—5 Kms. from the nearest town. It is revealed from the table that the villages nearer to the town are enjoying more facility than those which are away from the town.

Distribution of villages according to the population range and amenities available is shown in table—5.

TABLE—5

Distribution of villages according to Population Range and Amenities Available

Population range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of—							
		Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10
—499	2,165	1,293 (59·72)	96 (4·43)	2,158 (99·68)	71 (3·28)	49 (2·26)	149 (6·88)	3,25 (15·01)	528 (24 39)
500—1,999	1,146	1,130 (98·60)	359 (31·33)	1,146 (100·00)	344 (30 02)	174 (15·18)	249 (21·73)	312 (27·23)	809 (70 59)
2,000—4,999	114	114 (100·00)	48 (42·11)	114 (100·00)	94 (82·46)	45 (39·47)	43 (37·72)	49 (42 98)	111 (97·37)
5,000+	11	11 (100·00)	8 (72·73)	11 (100·00)	11 (100·00)	9 (81·82)	7 (63.64)	10 (91·92)	11 (100 00)
Total	**3,436**	**2,548 (74 16)**	**511 (14·87)**	**3,429 (99·80)**	**520 (15·13)**	**277 (8·06)**	**448 (13·04)**	**696 (20·26)**	**1,459 (42 46)**

Most of the villages of the district are coming under the lowest population range of less than 5000 population. It is seen that villages having more population are enjoying better facility than the villages coming under the lower population range. All the villages coming under the highest population range i.e. 5000 and above are enjoying educational facility, drinking water facility, P & T facility and power facility and other facilities are also available in more than 60% of the villages coming under this range.

Main staple food in the majority of the villages in each tahasil of the district is shown in table—6.

TABLE—6

Main Staple Food in the majority of villages in each Tahasil

Sl. No.	Name of the Tahasil	Main Staple Food
1	2	3
1	Padmapur	Rice
2	Bargarh	Rice
3	Jharsuguda	Rice
4	Kochinda	Rice
5	Debagarh	Rice
6	Rairakhol	Rice
7	Sambalpur	Rice
8	Attabira	Rice

It is revealed from the table that main staple food in all the tahasils is rice.

Table—7 depicts that distribution of villages according to the land use pattern of different tahasils of the district.

TABLE—7

Distribution of villages according to land use

Sl. No.	Name of the Tahasil	No. of inhabited villages	Total area (in hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Padmapur	687	264,847 16	83·98	4·29
2	Bargarh	324	122,796 04	84·79	31 52
3	Jharsuguda	350	151,224·43	78 18	0·97
4	Kochinda	488	141,955·49	51 66	1·83
5	Debagarh	680	161,929·36	48·40	1·78
6	Rairakhol	364	106,141·52	34.70	4·97
7	Sambalpur	371	146,317·18	73·42	15·47
8	Attabira	172	77,934·15	82·74	68·16
	Total District	**3,436**	**1,173,145·33**	**68·64**	**13·49**

Note : The area figures for uninhabited villages and villages for which the land use data are not available are excluded from the total.

It is revealed from the table that percentage of irrigated area to total cultivable area is only 13.49 per cent which implies that the irrigation facility is not sufficient to the district. In the meantime some minor project as well as a number of other projects have been taken up in the district to provide irrigation facility to the inhabitants of the district. It is hoped that an appreciable extent of area in the district will be served by the irrigation facility in the near future.

Table—8 shows the growth, density and sex ratio of urban population in the district in relation to the State.

TABLE—8

Growth, Density and Sex-Ratio of Urban Population in the District in relation to the State

Census Year	SAMBALPUR						ORISSA					
	Total Population	Urban Population	Percentage of Urban Population	Decadal Percentage variation in Urban Population	Density (Population per Sq. km.)	Sex-ratio (No. of females per 1,000 males)	Total Population	Urban Population	Percentage of Urban Population	Decadal Percentage variation in Urban Population	Density (Population per Sq. km.)	Sex ratio (No.of females per 1,000 males)
1	2	3	4	5	6	7	8	9	10	11	12	13
1951	1,301,804	51,838	3·98	+29·97	742	882	14,645,946	594,070	4·06	+44·01	1,195	881
1961	1,508,686	115,375	7 65	+122·57	1,051	804	17,548,846	1,109,650	6 32	+86 79	1,078	807
1971	1,844,898	221,777	12 02	+92·22	869	849	21,944,615	1,845,395	8·41	+66 30	1,113	845
1981	2,280,976	353,433	15·49	+59·36	1,216	879	26,370,271	3,110,287	11 79	+68·54	1,359	859

The percentage of urban population to total population of the district during the current decade (15·49%) is higher than that of the State average of 11·79%. This is due to the existence of Sambalpur city in the district. Percentage of urban population in 1951 census was only 3 19% which was lower than that of the State average. But in the succeeding decades it has surpassed the State average. The growth rate of urban population of the district is 59·36% during the current decade which is lower than that of the State growth rate of 68·54%. The density of population i. e. population per sq km. is also less in urban areas of the district than that of the State average, but the sex ratio i.e. number of females per 1000 males is mo e than that of the State.

Table—9 gives the new town created/ declassified in 1981 Census.

TABLE—9

New towns added/de-classified in 1981 Census

Name of the Town	Population in 1981 Census
1	2
(a) Added	Nil
(b) De-Classified	
(i) Govindpur	7,175

In addition to the list of towns in 1971 no new town has been created rather one census town namely Govindpur has been declassified during the current decade as it could not fulfil the criteria required for declaring a place as census town.

Per capita receipt and expenditure in town have been shown in Table—10.

TABLE—10

Per Capita Receipt and Expenditure in Towns 1978-79

Class, name & civic status of the town	Per Capita Receipt (in Rs.)			Per Capita Expenditure (in Rs.)

* The town having outgrowth.

The financial aspects have been presented in this table in all the towns of the district. Coming to the receipt side the per capita receipt has been assessed at Rs. 49.06 in the district, out of which Rs. 16.36 through tax, Rs 32.70 through other sources under government grant etc. As regards expenditure side per capita total expenditure under urban area of the district is Rs. 41.93. Out of which Rs. 4.78 is utilised under general administration, Rs. 11.28 under public health and Rs. 7.14 on public works, Rs. 7.13 on public institutions and Rs. 11.60 in other aspects. It is revealed from the table that the financial position of the urban bodies in the district is better.

Table—11 depicts the number of Schools per 10,000 population in the towns.

(c) III Hirakud (N.A.C)	1
Total	4

* The town having out-growth

It is revealed from the table that only 4 beds are available per 10,000 urban population in the district.

Table—13 depicts the most important commodities manufactured in towns and the commodities imported and exported.

TABLE—13

Most Important commodity manufactured, exported and imported in Towns.

Class, name and civic status of the town	Most Important Commodity		
	Manufactured	Exported	Imported
1	2	3	4
IV Barapali (N.A C)	Handloom Clothes	Handloom and Tussore Clothes.	Cotton and thread
III Bargarh (M)	Cement	Handloom Cloth & Yarn.	Building materials.
II Brajarajnagar (N·A·C)	Paper	Paper	Machine parts
III Burla (N A C)	See Sambalpur Urban Agglomeration		
IV Debagarh (M)	Wooden Furniture	Timber	Cloth
III Hirakud (N A·C)	See Sambalpur Urban Agglomeration		
II Jharsuguda (M)	Thread	Thread	Grocery articles.
V Kochinda (N·A C)	Gudakhu	Chilly	Grocery articles.
IV Padmapur (N.A.C.)	Handloom Clothes	Rice	Whea,
Sambalpur Urban Agglomerati n	See Constituent Units		
(a) I Sambalpur (M) *	Bidi	Paddy and Rice	Wheat
(b) III Burla (N·A C) *	Wheat products	Fish	Electrical goods
(c) III Hirakud (N.A·C)	Aluminium Ingot	Aluminium Ingots	Alumina Powder

* The town having out-growth

It is revealed from the table that Handloom Cloth, Cement, Paper, Thread, Gudakhu, Bidi and Aluminium are manufactured and exported from the town whereas building materials, cloth grocery article, aluminium goods etc. are some of the main commodities which are imported to the urban area of the district.

SECTION–I

VILLAGE DIRECTORY

Codes used in the Village Directory

In the Village Directory various amenities and other data have been indicated by codes for want of space. The codes used in different columns are explained below.

COL. 5—**Educational Amenities** :

This column is intended to provide availability of educational facility in the village under the following codes :

1.	Primary or Elementary School	... P
2.	Junior Secondary or Middle School	... M
3.	Matriculation or Secondary	... H
4.	Higher Secondary/Intermediate/ Pre-University/Junior College	...PUC
5.	College	... C
6.	Industrial School	... I
7.	Training School	... Tr.
8.	Adult literacy Class/Centre	... Ac
9.	Other Educational Institutions	... O

Schools upto Class-V have been treated as Primary School and have included Nursery School, Kindergarten School, Pre-basic School, Pre-Primary School, Junior Basic School, upto Class-V. Schools upto Class-VII have been treated as Junior Secondary or Middle English School. Schools upto Class-XI (Matriculation) have been considered as Secondary or High School. This also includes High Madarsa upto Class-X. Schools or Colleges upto Class-XII are considered as Higher Secondary Schools. In case of composite Schools like M. E. with Primary classes or Higher Secondary Schools with M. E. classes, those have been included in the number of Primary School and Middle School respectively. In a village having two Primary Schools and one M. E. with primary classes, the total number of Primary Schools in the village has been recorded as three and M. E. as one.

In this process, the number of institutions have been determined and presented under the approved code. In cases of availability of more number of institutions of a type, the number has been indicated within bracket after the code. In case the amenity is not available in the village the same has been shown by a dash(—) in the relevant column having a note of the distance range regarding its availability.

COL. 6—**Medical Amenities** :

Availability of such amenities has been presented under the following codes. In case of availability of more number of institutions of a type, such number has been indicated within bracket against the abbreviation. Where the amenities are not available,it has been indicated by a 'dash' in the relevant column with a note thereunder including distance range of its availability.

Hospital	...	H
Maternity and Child Welfare Centre	...	MCW
Maternity Home	...	MH
Child Welfare Centre	...	CWC
Health Centre	...	HC
Primary Health Centre	...	PHC
Primary Health Sub-centre	...	PHS
Dispensary	...	D
Family Planning Centre	...	FPC
T. B. Clinic	...	TB
Nursing Home	...	NH
Registered Private Practitioner	...	RP
Subsidised Medical Practitioner	...	SMP
Community Health Worker	...	CHW
Others	...	O

COL. 7—Drinking water Amenities :

The types of potable drinking water supply sources available within the village has been indicated by the following codes. If the amenities are not available in the village it has been presented by a dash (—) in the relevant column and the distance range of its availability thereunder.

Tap Water	...	T
Well Water	...	W
Tank Water	...	Tk
Tubewell Water	...	TW
Hand Pump	...	HP
River Water	...	R
Fountain	...	F
Canal	...	C
Lake	...	L
Spring	...	S
Nallah	...	N
Others	...	O
Information not available	...	NA

COL. 8—Post & Telegraph :

Availability of amenities in the village has been presented under the following codes. In case of non-availability it has been presented by a dash (—) in the relevant column also indicating the distance range thereunder.

Post Office	...	PO
Telegraph Office	...	TO
Post and Telegraph Office	...	PTO
Telephone connection	...	Phone

COL. 10—Communication :

Availability of public transport like bus, rail and water way to the village have been indicated by the following codes. In case of non-availability, it has been presented by a dash (—) in the said column with the distance range of its availability mentioned thereunder.

Bus Stop	...	BS
Railway Station	...	RS
Navigable Watar Way (including river, canal, back-watar etc.)	...	NW

COL. 11—Approach to the Village :

This is a new introduction in the 1981 Census not covered by the 1971 series. Approach to the village refers to the state of road etc. leading to the village. The intention is to see whether the village is approachable both in fair and foul weather and whether it is inaccessible sometime in the year. Such approach has been presented under the following codes.

Pucca Road	...	PR
Kutcha Road	...	KR
Navigable River	...	NR
Navigable Canal	...	NC
Navigable Water Way (other than river or canal)	...	NW
Foot Path	...	FP

COL. 13—Power Supply :

If the power is actually available in the village in any form, then the same has been presented in this column under the following codes.

Electricity for domestic purpose	...	ED
Electricity for Agriculture	...	EAg
Electricity for other purposes like industrial or commercial etc.	...	EO
Electricity for all purposes listed above	...	EA

COL. 20—**Remarks including any place of religious, historical or archaeological interest :**

This column is intended to record particulars of any place of importance as well as the information on number of copies of news papers coming to the village and motor cycles/scooters, cars/jeeps and tractors available in the village. The codes used in this column are as follows.

N—Copies of the news papers coming to the village.

M—Motor cycles/Scooters available in the village.

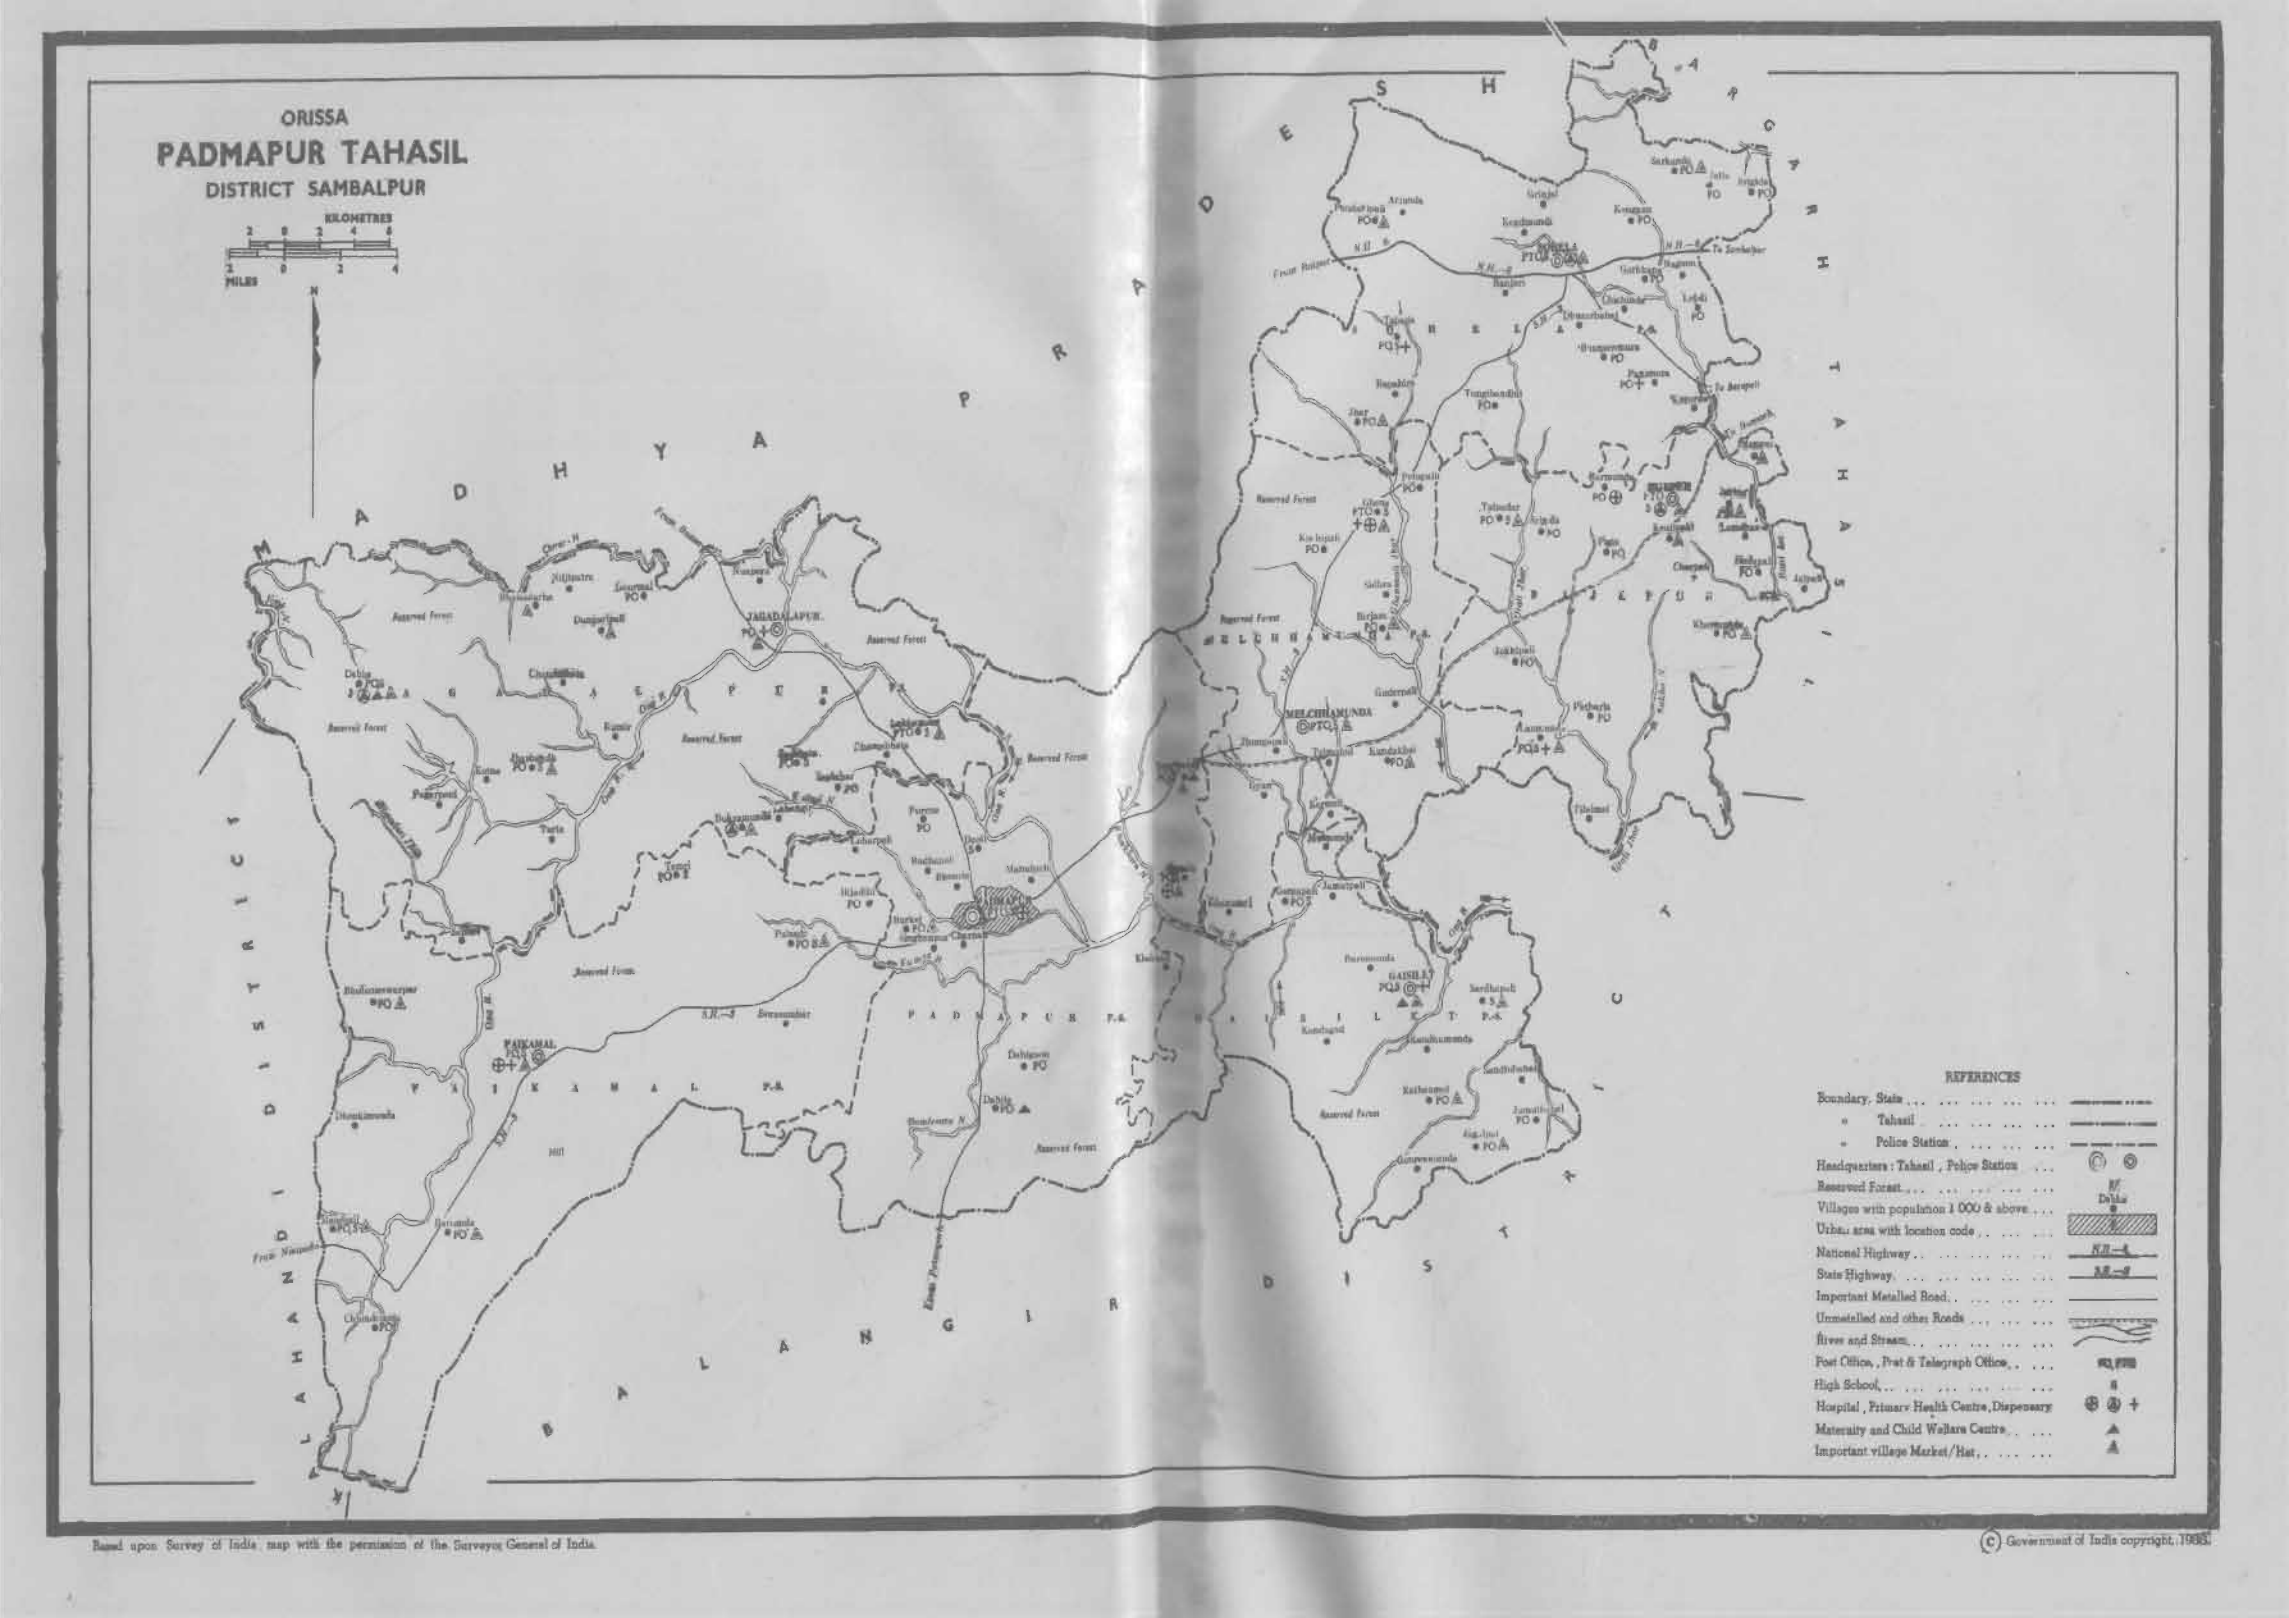

C—Cars/Jeeps available in the village

T—Tractors available in the village

The information presented under this column is illustrated below.

N-32, M-2

Here N-32 represents the copies of newspapers viz. 32 and M-2, the number of motorcycles/scooters viz. 2.

SECTION–II

TOWN DIRECTORY

Codes used in the Town Directory

STATEMENT—I

Status and growth history :

Col. 2—Class, name and civic administration status.

Class has been introduced to facilitate analysis on town directory data at State and all-India levels. It has been presented according to 1981 Census population of the core town in following ranges by the classification noted against each.

POPULATION		CLASS
1,00,000 and above	...	I
50,000—99,999	...	II
20,000—49,999	...	III
10,000—19,999	...	IV
5,000— 9,999	.	V
Below 5,000	...	VI

The name of the town has been shown in this column, with the correct spelling as adopted in the official record. Regarding the civic administration status, the town as it stood in 1980 has been indicated by the following abbreviations :

Municipality	...	M
Notified Area Council	...	NAC
Census Town	...	CT

STATEMENT—II

Physical aspects and location of towns :

Col. 12—The name of the navigable river/canal which is situated within a distance of 10 kms. has been shown under this column with distance from the referrent town. After the name of the river/canal 'R' for river and 'C' for canal has been given in brackets to denote whether it is a river or canal as illustrated below.

Mahanadi (R)—5

STATEMENT—IV

Civic and other Amenities :

Col. 6—Road length (in kms.)

Information under this column has been obtained from the officer in-charge of the concerned urban local body. There are cases where the municipalities/notified area council maintain their roads accounts separately. Pucca roads and kutcha roads available in the town have been presented under the abbreviation 'PR & KR' respectively.

Col. 7—System of sewerage :

The sewerage system is implied the net work of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal in the town. For the towns which are not provided with such underground sewerage system, availability of open surface drain or box drain etc. have been mentioned. The various type of sewerage/drainage system have been indicated upto two places in the town under the following codes :

Sewer	...	S
Open Surface Drains	...	OSD
Box Surface Drains	...	BSD
Sylk Drains	...	SD
Cesspool method	...	CD
Pit system	...	Pt

Col. 11—Method of disposal of night soil :

Information in this regard has been obtained from the local body and the prevalent method of disposal of night soil has been presented with the following codes upto two places in order of their importance in the town. The objective of providing such data is to collect information which could help Government to provide a programme of stopping the practice of

removal of night soil as head loads and also minimising the use of human labour in the process of disposal.

Head Loads	...	HL
Baskets	...	B
Wheel Barrows	...	WB
Septic Tank latrines	...	ST
Sewerage	...	S

Col. 12 & 13—Protected water supply :

The information collected from the local offices has been incorporated in these columns, in some cases such data had to be obtained from the State Public Health Engineering Department. The information on sources of water supply has been indicated in Col. 12 as against the system of storage with capacity in litres (in brackets) which has been presented in Col. 13. The same has been presented under following codes :

Over Head Tank	...	OHT
Service Reservoir	...	SR
River infiltration gallery	...	IG
Bore Well Pumping system	...	BWP
Pressure tank	...	PT
Tubewell Water	...	TW
Tap water	...	T
Well water	...	W
Tank water	...	Tk

The first five codes started above relate to the system of storage whereas, the remaining four codes represent the different sources of water supply.

STATEMENT—V

Medical, Educational, Recreational and Cultural facilities.

Col. 4 & 5—Medical facilities— Hospitals/ Dispensaries and beds available :

Information in this regard has been collected from the local offices. However, the institutions run by private doctors have not been included in these data, which have been restricted to the institutions run/aided by Government/ Semi-Government/ Local bodies/ Charitable institutions/ Social service agencies. The various types of institutions have been presented under the following codes :

Hospital	...	H
Dispensary	...	D
Health Centre	...	HC
Family Planning Centre	...	FC
T. B. Clinic	...	TB
Nursing Home	...	NH
Others	...	O

For places where medical facilities are not available, the name of the nearest place in the same district or nearest district, if in the same State or other State and its distance from the town where the facility is available has been indicated. All types of hospitals/dispensaries etc. whether allopathic, ayurvedic or homoeopathic have been covered. These are further distinguished by providing additional codes :

A—Ayurvedic

U—Unani

Hom—Homoeopathic

In case of allopathic, no separate code has been given.

Col. 6 to 9—Educational facilities :

Information in this regard has been collected from the local officials and to the extent possible have been checked up with the informotion available in the office of the Director of Public Instructions of the State. For the place where more than one institutions of each type is available, the number thereof has been given against each in brackets. The codes used for different institutions are as follows :

Arts only	...	A
Science only	...	S
Arts and Science only	...	AS
Commerce only	...	C
Arts and Commerce only	...	AC
Combined of all categories Arts, Science and Commerce	...	ASC
Law	...	L

Col. 10—Recognised shorthand, typewriting and vocational training institutes :

Information has been collected from the local authorities. Here "recognised" means the institution recognised by statutory authority like Education Department, Commerce Department or Labour Department of the Government or semi-Government or autonomous bodies. The institution of each type has been presented under the following codes :

Shorthand	...	Sh
Typewriting	...	Type
Shorthand and Typewriting	...	Sh. Type
Others	...	O

Col. 11-14—Higher Secondary/ Intermediate/ PUC (Pre-University College)/ Junior College Level, Secondary/ Matriculation, Junior Secondary/ Middle Schools and Primary Schools :

Information in this regard has been collected from the local authority and presented under the following codes;

Primary School	...	P
Junior Secondary or Middle School	...	M
Matriculation or Secondary	...	H
Higher Secondary/ Intermediate/ Pre-University/ Junior College/ '10+2' system whether held in Schools or Colleges.	...	PUC

If educational facility is not available in the town, the name of the nearest place in the same district or name of the nearest district in the same State or other State with its distance from the town where the facility is available has been indicated.

Col. 17 to 20—Number of recreational and cultural facilities :

Information in this respect has been obtained from the local authority. Touring cinema has been eliminated from our purview and only permanent cinema theaters have been included. Community halls, auditorium have been added in this column as the same are becoming a common feature of the urban landscape. Information on Public libraries including reading rooms has been collected from the local authority and presented under the following codes :

Public Library	...	PL
Reading Room	...	RR
