VILLAGE & TOWNWISE PRIMARY CENSUS ABSTRACT

VALSAD DISTRICT

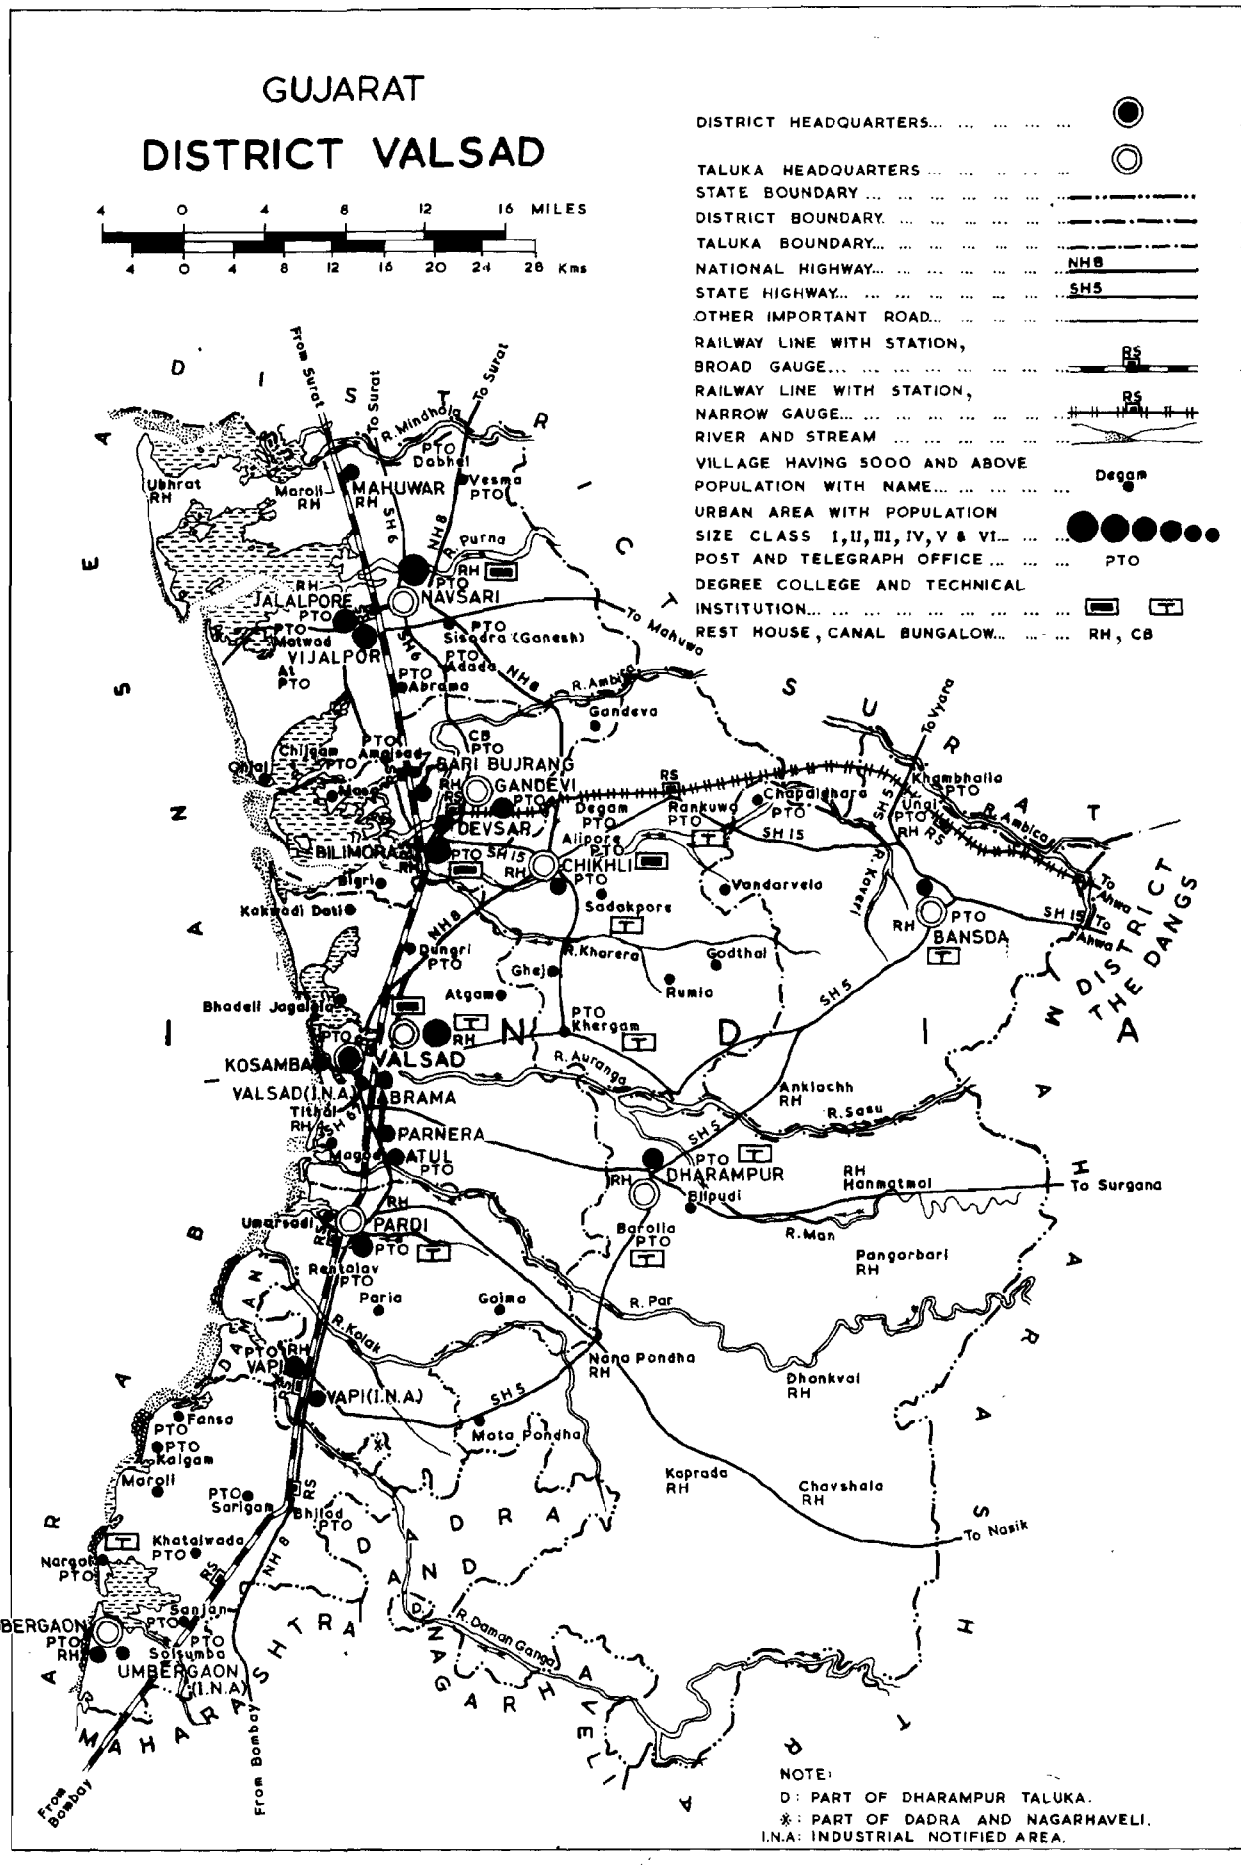

R. S. CHHAYA
OF THE INDIAN ADMINISTRATIVE SERVICE
Director of Census Operations
Gujarat

ATUL-VALSAD

Atul is a model Industrial Township which covers an area of about 4.36 sq. km. This township is located between two key communication arteries : the Western Railway on the west and National Highway No. 8 on the East.

In 1952, Atul started its manufacturing programme with just 16 dyestuffs on the basis of know-how from the American Cyanamid company. Today Atul has its own Indigenuous know-how developed by its R & D Laboratories. The manufactured range covers a variety of over 200 versatile dyestuffs like tulathols, tulabases and tulagenes, Acid dyes, Direct dyes, Azo and Disperse dyes and Flourescent brightning agents. They cater the needs of a vast group of Industries like textiles of cotton, wool, silk, rayon and nylon like petroleum, soap, jute, food, leather, paper, and synthetic fibres

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State governments, is one of the most valuable product of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part–A related to village and town directory, Part–B to village and town PCA and Part–C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formate of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the formet of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land–use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessiable. A new column, 'total population and number of households' has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class–I and Class–II towns (Statement IV–A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part–A of the volume contains village and town directory and Par–B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The district and Tahsil/Police Station/C D Block, etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and Census Organisation. The data have been collected and compiled in the State under the direction of *Shri R. S. Chhaya* the Director of Census Operations, *Gujarat* on benalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head quarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

NEW DELHI
the 26th April, 1982

P. PADMANABHA
Registrar General, India

PREFACE

The District Census Handbooks are printed during every decadal Census from 1951. These District Census Handbooks are prepared by the Census Organisation and DCHB unit of the State Government. These are published by the State Government at their own cost. The District Census Handbooks are the first publication in the series of 1981 Census publication. The Census Organisation has been collecting an enormous data both during the Census Enumeration period as well as after the Census Enumeration period. This data is very valuable to the Administrators, Economists, Planners, Research Workers, Scholars and other intelligentsia and also to the several institutions dealing with social-economic and developmental aspects of the State. It is absolutely necessary that this data after its collection is printed in the time and reaches the data users also in time. It is a matter of great satisfaction that the present volume is being published in the minimum possible time after the Census count.

The Census count in Gujarat State was taken during the period February-March 1981. The provisional figures collected through the District Census Officers were published and presented to the Chief Minister of Gujarat State on 23rd March, 1981. After the declaration of the provisional count six Regional Tabulation Offices were opened at different places in the State. Three such Regional Tebulation offices were opended at Ahmadabad, one at Vadodara, one at Surat and one at Rajkot. The Census records were edited and checked in these offices and the Primary Census Abstract for all the areas of the State were prepared. For this purpose 1,102 Tabulators, 184 Checkers and 61 Supervisors were temporarily engaged for a period of ten months. These offices were supervised by Deputy Directors of Census Operations who were taken on deputation from the State Government.

The District Census Handbook for the 1981 Census is published in two parts as follows :

I. Part A

(1) Village Directory

(2) Town Directory

II. Part B - District/Talukawise Primary Census Abstract

Both the Parts A and B of the District Census Handbook for 1981 Census have been combined and printed in one volume.

The Village Directory contains compresensive information about the basic amenities available at the village level such as medical, educational, drinking water, etc. The Town Directory also consists of information about the status, growth history, municipal finances, civic and other amenities, etc.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Castes/Scheduled Tribes population and the information pertaining to workers and non-workers. A special feature of the 1981 District Census Handbook is the inclusion of Scheduled Castes/Scheduled Tribes Primary Census Abstracts which given complete District/Taluka/Townwise data on Scheduled Castes/Scheduled Tribes.

The data for the Village Directory has been collected through the Taluka Development Officers who in turn obtained the data from the village officials through their Statistical Assistants. In the District Census Handbook Cell this data subjected to a very close scrutiny and inaccuracies or dificiencies where noted were again got, checked through the Statistical Assistants. For this purpose persons were deputed to the districts for obtaining the informations quickly. The area figures as reported by the village officials were also checked with the figures reported by the District Inspectors of Land Records. Utmost care has been taken to see that the spelling of the villages are correct. Some of the data collected from the village level has also been cross checked with the data which was supplied by the different Directorates and the Heads of the Departments of the State Government. The information pertaining to the District write-up (Jtem V of the Analytical Note) has been obtained through the Collector and the District Development Officers and the other district heads.

The data on Town Directory has been obtained through the various local bodies such as Municipal Corporation, Municipalities, Nagar Panchayats and Gram Panchayats. These were also checked in the Directorate by a Special Cell.

The Primary Census Abstract and Town Directory with their Inset Tables have been prepared in the Directorate whereas Village Directory alongwith its Inset Tables have been prepared in District Census Handbook Cell.

Maps

In each volume one district map showing the taluka boundaries, location of towns and villages having a population of 5,000, communications, etc., has been printed. Taluka maps for each of the talukas in the district are also inserted in the District Census Handbook. These taluka maps indicate the boundaries of the village and towns within the taluka and the location code numbers of each village. The maps were prepared in the Map Section of the Director of Census Operations.

Acknowledgement

The compilation of a huge mass of data which is printed in this book requires the active help and co-operation of the State Government in addition to the help and co-operation of all the officers and staff members of the Census Directorate. I am deeply indebted to Shri H. K. L. Kapoor, Chief Secretary to the Government of Gujarat for extending all help in the matter. Shri K. Rammoorthy who was working as Secretary, General Administration Department, during the Census Enumeration period extended his whole-hearted co-operation.Shri V.Krishnamurthy who subsequently took over as Secretary, General Administration Department, also took active interest in the progress of Census work. I would like to make a special mention about the extra facilities granted by the State Government by way of creation of a Special Cell for the compilation of District Census Handbooks. One post of Deputy Director and several posts of Research Assistants, Statistical Assistants, Clerks and Typists have been sanctioned by the State Government specially for the compilation of the data. The services of all these persons were placed at the disposal of the Directorate for the compilation work.

Shri G. S. Shah, Director, Bureau of Economics & Statistics, Government of Gujarat, also rendered very valuable help by providing whatever data was required for cross-checks and by providing personnel for the Special Cell of District Census Handbook.

The Collectors and the District Development Officers incharge of the districts and the Municipal Commissioners incharge of the Municlpal Corporation areas, have extended their whole-hearted co-operation for the Census work. The Resident Deputy Collectors, the Deputy Collectors incharge of Sub-Divisionals, the District Statistical Officers, the Deputy District Development Officers, the Mamlatdars, the Taluka Development Officers, the Chief Officers of the Municipalities, the Deputy Mamlatdars and the Statistical Assistants at the District/Taluka levels, all played an important role in the Census work. I express my deep gratitude to all of them. After the Census count a large number of young boys and girls coming right from the Schools and Colleges were employed as Tabulators, Checkers and Supervisors and all of them worked very hard for the compilation of the useful data.

She P. T. Thakkar, Director of Printing and Stationery, Government of Guiarat, has taken the interest in the printing of the Handbooks. I hereby acknowledge the valuable help, guidence and assistance rendered by him and other officers of the Printing Department. Shri P, K. Choksi, Printing Inspector in this Directorate, looked after the printing jobs very well.

In the Census Directorate Shri J. K. Patel, Deputy Director of Census Operations (Tech) was looking after the Compilatson Section so far as Census data was concerned. The collection and compilation of data for the Village Directory was looked after by Mrs. Neelaben A. Bhatt, Deputy Director whose services were placed at the disposal of the Directorate. Both these officers have put in hard labour for the compilation and printing of the data.

Shri K. H. Desai, Shri V. A. Sathe, Shri K. R. Shridharani and Shri S. D. Vadera, who were officers on deputation from the Gujarat Administrative Service, supervised the editing, checking and compilation work at the Regional

Offices in Ahmadabad, Surat, Vadodara and Rajkot respectively. Shri P. J. Jhala and Shri M. A. Malwade, who were officers on deputation from the State Government from the Bureau of Economics and Statistics, supervised the editing, checking and compliation work at Regional Tabulation Offices in Ahmadabad. Shri V. H. Vasavada, Deputy Director from the General Administrative Service looked after the administration work. All these officers worked diligently and accurately during their service in the Census Organisation.

In the Directorate Shri J. K. Patel, Deputy Director was assisted by Shri R. V. Sanghani and Smt. D. D. Jhala, Investigators and Statistical Assistants Shri K. P. Patel, Shri R. R. Upadhyay, Kum. J. R. Megha, Smt. M. B. Patel and Smt. K. S. Mehta. The typing of Primary Census Abstract was undertaken in a special section which was headed by Investigator Shri M. H. Patel. In the State Cell of District Census Handbook Smt. Neelaben A. Bhatt, Deputy Director was assisted by the Assistant Director Shri V. R. Gandhi and Research Assistants Kum. T. K. Shah and Smt. S. B. Solanki and Statistical Assistants Smt. H. A. Patel, Smt. C. C. Mehta, Shri S. V. Patel and Shri P. K. Shastri.

In the Map Section the work of preparation of State/District/Taluka maps was looked after by Shri K. M. Dhawale, Senior Geographer and Shri B. L. Arya, Geographer. They were ably assisted by Shri K. K. Patel, Artist, Sarvashri M. S. Bhatt and B. J. Modi, Senior Draftsman and Sarvashri D. A. Maroo, R. K. Joshi, G. M. Kosti, B. C. Trivedi and M. A. Shukla, Draftsmen.

The work of dictations and typing of notes, reports, tables etc., was undertaken by Shri J. A. Harry, Confidential Assistant in the Directorate diligently with speed and accuracy. He was assisted by a number of Typists in the office.

Limitations of space prevent me from making individual mention of all those who have contributed to the making of this volume so accurate and complete. Quite a large number of Assistant Compilers, Computors, Clerks, Typists, Proof Readers, Draftsmen, Artist, etc., have contributed valuable help in this work.

Finally, I would like to express my deep gratitude to Shri P. Padmanabha, IAS, Registrar General, Government of India, and Sarvashri K. K. Chakravorty, V. P. Pandey, N. G. Nag and Dr. B. K. Roy, Deputy Registrars General, for the guidence given to me from time to time.

AHMADABAD
18th August, 1982

R. S. CHHAYA
Director of Census Operations,
Gujarat

ANALYTICAL NOTES AND TABLES

I. Census Concepts of Rural and Urban Areas and other terms, viz., Census House, Household, Scheduled Castes / Scheduled Tribes, Literates, Main Workers, Marginal Workers, Non-Workers, etc.

The 1981 Census was carried out in Gujarat in two stages. The first stage of houselisting was completed in the months of June-July 1980. The houselists thus prepared provided a frame for the enumeration work. In the second stage the house to house Census enumeration was carried out from 9th February, 1981 to 28th February, 1981 with reference date as Sunrise of 1st March, 1981. The enumeration of houseless population was carried out on the night of 28th February, 1981. A revisional round was also taken from 1st March, 1981 to 5th March, 1981. In this revisional round the Enumerators recorded new births that had taken place after their last visit for enumeration but before the Sunrise of 1st March, 1981 and also any visitor(s) that had moved into household and who had been away from his/her/their place of normal residence throughout the enumeration period, or an entire household that had moved into the jurisdiction of the enumeration during this period and which had not been enumerated before. The names of persons who had died after the enumeration period but before the Sunrise of 1st March, 1981 were deleted from the Individual Slips which had been filled up during enumeration period.

In Gujarat prior to the taking of 1981 Census a special programme of updating permanent house-numbering scheme in the different parts of the State was also carried out in co-ordination with the Local Bodies and State Government. The permanent house-numbering scheme in Gujarat was introduced during the 1971 Census and the District/Taluka Panchayats, Municipal Corporations, Municipalities, Nagar Panchayats and Village Panchayats played a very useful role in fixing the number plates on the houses and buildings.

After the Census count was over the Enumerators submitted the figures to the Charge Officers through their Supervisors. These figures were obtained by the Director of Census Operations through the District Census Officers and the figures after compilation were declared on 23rd March, 1981 as Provisional Census Figures for 1981 Census. Paper 1 showing those figures was printed and published and distributed on a complimentary basis.

During the Census Operations mainly two Census records were filled up by the Enumerators in each block. These were (1) Household Schedules and (2) Individual Slips. The different concepts which were adopted during the houselisting stage as well as during the Census enumeration are as follows :

(i) Rural and Urban Areas

Rural Areas

The basic unit for rural areas is a revenue village which has a definite boundary. The revenue village may comprise several hamlets but the entire village has been treated as one unit for presentation of the data.

Urban Areas

Urban areas have been specifically defined for the 1981 Census. The criteria adopted during the 1981 Census was almost the same as adopted in 1961 and 1971 Censuses. The following criteria were adopted for classifying urban areas in the States :

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria :

1. A minimum population of 5,000;
2. At least 75% of the male working population engaged in non-agricultural (and allied) activity;
3. A population of at least 400 persons per sq.km. or a population of 1,000 per sq. mile.

The slight variation of the criteria adopted in 1981 and that adopted in 1961–1971 Censuses was that during 1981 Census the persons working in activities such as fishing, logging, etc., were treated as par with cultivators and agricultural labourers whereas in 1961–1971 Censuses these were treated as engaged in non-agricultural activity.

(ii) Census House

A 'Census House' is a building or part of a building having separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both. In case of a building having a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, were considered as separate Census houses.

(iii) Census Household

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated household are boarding houses, messes, hostels, residential hotels, rescue homes, jails, etc. These are called 'Institutional Households.'

(iv) Scheduled Castes/Scheduled Tribes

The Scheduled Castes and Scheduled Tribes as notified under the Constitution for Gujarat State have been treated as Scheduled Castes and Scheduled Tribes for the purpose of Enumeration. A list of such Scheduled Castes/Scheduled Tribes notified for Gujarat is as under :

GUJARAT

(The Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976 (No. 108 of 1976 dated the 18th September, 1976)

Scheduled Castes

1. Ager
2. Bakad, Bant
3. Bawa Dedh, Dedh Sadhu
4. Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar
5. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli
6. Chalvadi, Channaya
7. Chenna Dasar, Holaya Dasar
8. Dangashia
9. Dhor, Kakkayya, Kankayya
10. Garmatang
11. Garoda, Garo
12. Halleer
13. Halsar, Haslar, Hulasvar, Halasvar
14. Holar, Valhar
15. Holaya, Holer
16. Lingader
17. Mahar, Taral, Dhegu Megu
18. Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar, Antyaj
19. Mang, Matang, Minimadig
20. Mang Garudi
21. Meghval, Meghwal, Menghvar
22. Mukri
23. Nadia, Hadi
24. Pasi
25. Senva, Shenva, Chenva, Sedma, Rawat
26. Shemalia
27. Thori
28. Tirgar, Tirbanda
29. Turi
30. Turi Barot, Dedh Barot

Scheduled Tribes

1. Barda
2. Bavacha, Bamcha
3. Bharwad (in the Nesses of the forests of Alech, Barada and Gir)
4. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri, Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
5. Charan (in the Nesses of the forests of Alech, Bawada and Gir)
6. Chaudhri (in Surat and Valsad districts)
7. Chodhara
8. Dhanka, Tadvi, Telaria, Valvi
9. Dhodia
10. Dubla, Talavia, Halpati

11. Gamit, Gamta, Gavit, Mavchi, Padvi
12. Gond, Rajgond
13. Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
14. Kokna, Kokni, Kukna
15. Koli (in Kutch district)
16. Koli Dhor, Tokre Koli, Kolcha, Kolgha
17. Kunbi (in the Dangs district)
18. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
19. Padhar
20. Paradhi (in Kutch district)
21. Pardhi, Advichincher, Phanse Pardhi (excluding Amreli, Bhavnagar, Jamnagar, Junagadh, Kutch, Rajkot and Surendranagar district)
22. Patelia
23. Pomla
24. Rabari (in the Nesses of the forests of Alech, Barada and Gir)
25. Rathawa
26. Siddi (in Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar districts)
27. Vaghri (in Kutch district)
28. Varli
29. Vitola, Kotwalia, Barodia

(v) Literates

A person who can both read and write with understanding in any language is taken as 'literate'. A person who can merely read but Cannot write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

(vi) Main Workers, Marginal Workers, Non-Workers

During the 1981 Census 'Work' had been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. The work involves not only actual work but also effective supervision and direction of work.

The reference period for 'Work' is one year preceding the date of enumeration. The main-worker was a person who had worked for the major part of the year in that activity. By major part of the year it was intended to find out as to whether a person had worked for 183 days or more or in other words worked for six months or more. Those who had worked for less than six months or 183 days were treated as marginal workers. A Non-Worker was one who had no economical activity during the year.

The information on 'Workers' and Non-Workers' were obtained through Q. Nos. 14(a) to 16 of the Individual Slip. The main activity of workers has been classified into four categories, viz., cultivator, agricultural labourer, household industry and other worker. These terms are explained below:

Cultivator

For purposes of the census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) will not be treated as cultivator.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajri, ragi, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

Household Industry

Household Industry is defined as an industry conducted by the head of the household himself/ herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a household industry should consist of member of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factory Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this is not to be treated as 'HHI'. Thus, the meaning of the term 'run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion applies in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it is not to be considered a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or Doctor or Barber, Musician, Dancer, Waterman, Dhobi, Astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Workers

All workers, i. e. those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in Household Industry, are 'Other Workers'. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, Municipal employees, teachers, priests, entertainment artists, etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry, are 'Other Workers'.

II. Brief History of District and District Census Handbook

[A] History of the District

Valsad district which formed part of the former Surat district, was created as a separate district on 1-6-1964, by transfering eight talukas of Surat district. For the purposes of revenue administration the district is divided into two sub-divisions and eight talukas, viz. Navsari, Valsad, Pardi, Umbergaon, Gandevi, Chikhli, Bansda and Dharampur.

[B] History of District Census Handbook

Prior to the 1951 Census the Census figures were brought out villagewise under a booklet known as 'Village Handbook' which contained only the population totals of villages.

These book were prepared by the Census Organisation on behalf of the State Government and published by the latter. It was for the first time in 1951 Census that a more detailed and well organised book known as 'District Census Handbook' was brought out by the Census Organisation. The 1951 Census Handbook contained the villagewise Primary Census Abstracts which also included the information on post offices, railway stations and the nearest bazars of each village. The handbook also contained several district tables.

During the 1961 Census the District Census Handbooks were brought out which contained the Primary Census Abstracts as well as certain district tables.

During 1971 Census also the District Census Handbooks were published which in addition to the Primary Census Abstracts contained a village Directory showing the different village amenities and land-use of all the villages in the district. A separate portion known as 'Town Directory' was also included in the District Census Handbook. The Handbook was divided into three subparts known as Part-A, which contained the Village Directory and Town Directory, Part-B, which contained the Primary Census Abstracts and Part-C which contained the Introductory Essay, Official Statistics, etc.

For the 1981 Census the District Census Handbook is being brought out in two Parts, Part XIII-A and Part XIII-B, Part XIII-A will contain the Village and Town Directory whereas Part XIII-B will contain the Primary Census Abstracts both General and Scheduled Castes/ Scheduled Tribes. The Part C as it was brought out during the 1971 Census has been dropped.

III. Scope of Village Directory, Town Directory and Primary Census Abstract

The District Census Handbooks which are now being printed during every Census after the 1951 Census, are very important publications of the Census Organisation. With the emphasis by the Planning Commission on the 'Minimum Needs Programme' of the rural areas the District Census Handbook has become an important tool in the hands of the Administrators, Planners, Policy Makers and Academicians. For the 1981 Census the District Census Handbook has been divided into two parts which are combined in one volume. The details of the contents of each of these two parts are as follows :

PART A : VILLAGE AND TOWN DIRECTORY

Village Directory

This Part A contains the non-census statistics of each village and town in the district. The Village Directory gives villagewise particulars of amenities available for each village in the spheres of education, medical, power supply, drinking water, post and telegraph, communication, land-use, weekly markets and places of religious, historical and archaeological interests in the village. During the 1981 Census additional information regarding (1) copies of the newspapers coming in the village, (2) number of motor-cycles and scooters available in the village, (3) number of cars and jeeps available in the village and (4) number of tractors available in the village have been added. The above non-census data of the Village Directory was collected from the Taluka Development Officers of each Taluka Panchayat in the State. In Gujarat under the democratic decentralisation scheme the Panchayats are now exercising very wide powers and the post of Statistical Assistants are under the administrative and technical control of the Taluka Panchayats. Besides, the Talati-*cum*-Mantris at the Village level who are the base village functionaries are also under the control of the Taluka Panchayats. The proformaes for soliciting the information were despatched to the Talati-*cum*-Mantris through the Taluka Development Officers and these after they were filled up were checked by the Taluka Development Officers and also by the Districts Statistical Officers who work under the administrative and technical control of the District Panchayats. The data thus received was checked fully in the District Census Handbook unit of State Government. At the end of Village Directory a taluka abstract in Appendix-I of educational, medical and other amenities is also prepared and printed. Appendix-II which shows the land utilisation data in respect of non-municipal towns is printed. In Appendix-III the talukawise list of villages where no amenities relating to educational, medical, drinking water, post and telegraph, communication, power supply and market/hats, are available have been shown. Appendix-IV shows talukawise list of villages according to the proportion of Scheduled Castes/Scheduled Tribes population by ranges. The last two appendices have been included for the first time in the 1981 Census.

Town Directory

The Town Directory portion furnishing the data for each town in the district is exihibited in seven statements covering (1) the status and growth of the civic administration, (2) physical aspect and location of town, (3) the civic finances of the towns, (4) the civic and other amenities in the towns, (5) the medical, educational, recrea-

tional and cultural facilities in the towns, (6) trade, commerce, industries and banking in the towns and lastly (7) the civic and other amenities in notified slums wherever they exist.

The non-census data for each of the towns for the Town Directory were obtained from the Municipal authority in case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. An Appendix showing the towns with their outgrowths with population is also prepared and attached at the end of the Town Directory.

PART B : PRIMARY CENSUS ABSTRACT

Part B gives for each village and for each ward of the town, the primary census data incorporating area of the town in Sq. Kms. and of the villages in hectares, the number of occupied residential houses, the number of households, total population and its break-up by sex, Scheduled Castes and Scheduled Tribes population, literate population and working population by four broad categories, viz., (1) cultivators, (2) agricultural labourers, (3) those working in household industries and (4) other workers. There is a slight departure in the presentation from the 1971 categories which were in all nine categories.

The Scheduled Castes / Scheduled Tribes Primary Census Abstracts at the District/Taluka/City level are also printed in Part B of the Handbook.

IV. Physical aspects highlights on the changes in the jurisdiction of the district during the decade including its boundaries and any important event on geographic or geophysical aspect

There have been no major jurisdictional changes in the district boundaries during the last decade. The administrative jurisdiction of all the talukas of the district as shown in 1971 Census is the same during 1981 Census except a few changes in villages/towns which are as under :

Six(6) villages (2 each in Valsad, Gandevi and Navsari taluka) which were rural areas in 1971 Census have been classified as towns for the purpose of enumeration in 1981 Census. These villages are as under :

Taluka	L. C. No. of 1971 Census	Name of Village
Valsad	36	Kosamba
	68	Parnera
Gandevi	30	Sari Bujrang
	45	Devsar
Navsari	19	Mahuwar
	75	Vijalpor

Umbergaon, Valsad and Vapi Industrial Notified Areas have been treated as towns of Umbergaon, Valsad and Pardi talukas respectively as they have been notified as industrial areas by the State Government under G.R. Nos. GHU-75/43, 44 & 45/GID/4084 (VIII; IX & X)-CH dt. 6-5-75

Udwada, which was declared as town of Pardi taluka in 1971 Census is declassified as rural areas in 1981 Census.

In addition to above rural/urban changes 6 places of the district are added as independent villages in 1981 Census as these villages have been reported to treat them as independant villages by the concerned revenue authorities. These villages are as under :

Taluka	L. C. No.	Name of Village
Valsad	2	Kakvadi Danti
	44	Thakkarwada
Gandevi	49	Govandi Bhathala
Navsari	27	Danti
	28	Dipala
	135	Krushnapur

Moreover, village Desra (L. C. No. 50 of 1971) is deleted from the village list of 1981 Census as it is merged in Bilimora Municipal limit as reported by the concerned revenue authority.

V. Major characteristics of the district particularly in relation to the economic resources namely Agriculture, Irrigation, Co-operation, Livestock and Animal Husbandary, Industries, Power Supply, Transport and Communication, Prices, Insurance, Education, Medical and Public Health etc.

[1] Agriculture

(a) Land Utilisation

The total reporting are in the district in the

year 1979–80 was 5.14 lakh hectares. The details of Land Utilisation of the year 1979–80 are as under.

Land Utilisation

Sl. No.	Classification of area	Area in '00 hectares
1	Forest	1,250
2	Barren and uncultivable land	113
3	Land put to non agricultural use	365
4	Culturable waste	202
5	Permanent pasture and other grazing land	78
6	Land under miscellaneous tree crops and groves not included in area sown	..
7	Current fallows	133
8	Other fallows	81
9	Net area sown	2,922
	Total area	**5,144**

(b) Area under Major Crops

Area under Major Crops in the year 1971–72, 1975–76 and 1980–81 are shown in the table below.

Area under different crops

(in '00 hectares)

Sl. No.	Crop	Area under different crops		
		1971–72	1975–76	1980–81
1	Rice	897	918	903
2	Ragi	174	160	177
3	Jowar	172	207	125
4	Wheat	36	43	45
5	Kodra	..	..	28
6	Other Cereals	51	69	14
7	Total Cereals	1,330	1,397	1,292
8	Tur	79	79	98
9	Gram	10	9	8
10	Other Pulses	278	263	193
11	Total Pulses	367	351	299
12	Sugarcane	29	50	86
13	Groundnut	39	27	29
14	Cotton	141	50	15

The above figures show the main food crops are Rice, Ragi, Jowar, Wheat, Kodra and Tur whereas non-food crop are Sugarcane, Groundnut and Cotton

(c) Yield per hectares

During the year 1971–72, 1975–76, and 1980–81, the yield per hectare of important crops in the district is as under :

Yield per hectare

(in kg.)

Sl. No.	Crop	1971–72	1975–76	1980–81
1	Wheat	1,391	..	2,001
2	Rice	1,382	1,388	1,613
3	Jowar Kharif	557	902	675
4	Pulses Ravi	470	523	516
5	Pulses Kharif	426	368	418
6	Sugarcane	6,538	6,600	5,907
7	Groundnut Kharif	526	868	1,027
8	Groundnut Summer	..	..	1,981
9	Cotton	120	27	174
10	Chillies	900	1,091	900

(d) Crop Calendar

The month of sowing and harvesting of different crops are given below :

Crop Calendar

Sl. No.	Crop	Months of Sowing	Months of harvesting
1	Paddy	June	From 15th October to 15th December
2	Wheat	From 15th November to 15th December	End of March
3	Jowar	July	End of January
4	Bajri	June–July	From September to October
5	Groundnut	June	From November to December
6	Cotton	June	From January to April
7	Sugarcane	October, November, January	January, November, December

(e) Scarcity

The scarcity affected villages in district during the year 1971–72, to 1979–80 are as under :

Scarcity

Sl. No.	Year	Scarcity affected villages
1	1971–72	..
2	1972–73	474
3	1973–74	..
4	1974–75	..
5	1975–76	..
6	1976–77	..
7	1977–78	..
8	1978–79	..
9	1979–80	..

[2] Irrigation

The irrigated area during the year 1971-72, 1975-76, and 1979-80 are as under :

Area Irrigated by Crops

(In '00 hectares)

Sl. No.	Crop	1971-72	1975-76	1979-80
1	Rice	170	163	198
2	Wheat	36	43	36
3	Sugarcane	29	50	79
4	Chillies	10	11	16
5	Other food Crops	153	161	197
6	Total food crops	398	428	526
7	Cotton	19	9	3
8	Groundnut	...	8	5
9	Other Non-food crops	5	4	3
10	Total Non-food crops	24	21	11
	Total Gross area under irrigation	**422**	**449**	**537**

The main irrigated crops are Rice, Wheat Sugarcane and Chillies, whereas other crops are mainly depending on the monsoon.

Sources of Irrigation

During the year 1971-72, 1975-76 and 1979-80 the sources of irrigation are as follow :

Irrigation by Source

(in '00 hectares)

Sl. No.	Source	1971-72	1975-76	1979080
1	Government Canal	58	170	188
2	Tanks	79	39	33
3	Wells	236	150	221
4	Other Sources	22	7	7
5	Net Area irrigated	395	366	449
6	Gross Area irrigated	422	449	537

The major source of irrigation in the district is wells followed by Government Canal.

Minor Irrigation

The major irrigation schemes under construction as on 31-12-80 were Bkandhara scheme in village Navtad and Chikaliya of Bansda Taluka Total gross command area of 1480 hectares will be irrigated under these schemes.

[3] Co-Operation

Co-operatives societies has been playing an incresingly important role in the rural economy of this district during the last decade. A super structure of Co-operative Societies with an apex bank at the State level, the District Central Co-operative Banks at the district level and Co-operative Societies at the village level is built up with the objective of strengthening the rural economy. The Agricultural Credit Co-operative Societies advance short and medium term loans to their members for purchasing seeds, fertilizers, agricultural implements etc. The head office of the District Co-operative Bank is located at Valsad. The details regarding Co-operative societies during the year 1971-72, 1975-76 and 1979-80 are as under :

Co-operatives Societies

Sl. No.	Co-operative Societies	Item	1971-72	1975-76	1979-80
1	Primary Agricultural Credit Societies	Societies	230	235	221
		Members (in '00)	910	1,150	1,069
2	Primary Non-agricultural Credit Societies	Societies	68	85	108
		Members (in '00)	270	350	540
3	Primary Consumers Stores	Societies	22	28	34
		Members (in '00)	73	83	106
4	Primary Marketing Societies	Societies	15	14	15
		Members (in '00)	109	114	116
5	Central and State Marketing Societies	Societies	2	2	2
		Members (in '00)	2	2	2
6	Primary Processing Societies(Including Spinning)	Societies	9	11	13
		Members (in '00)	111	201	292
7	All other types of Primary Societies	Societies	338	494	705
		Members (in '00)	515	583	885
8	All other types of Societies Central and State)	Societies	7	6	6
		Members (in '00)	56	62	70

The data reveals an incresing trend in the field of Co-operative societies. It would be obeserved from the above figures that during the year 1979-80 majority of the Co-operative Societies are Primary Agricultural Credit Societies followed by Primary Non-Agricultural Credit Societies. In the year 1971-72 the total Co-operative Societies were 691 which are increased to 1,104 during the year 1979-80.

During the decade the scheduled banks have also increased their credit activities in the different spheres of agricultural industry etc.

[4] Livestock and Animal Husbandary

(a) Livestock

According to the Livestock Censuses of 1972 and 1977, the livestock population of the district is found to be distributed as under :

Livestock

Sl. No.	Category of Livestock	1972	1977
I	**Total Livestock**	**627,376**	**614,316**
	A Bullocks and Cows	*385,236*	*373,636*
	(1) Males over 3 years	171,559	168,032
	(2) Females over 3 years	112,287	109,106
	(3) Young stock	101,390	96,498
	B Buffaloes	*97,015*	*107,604*
	(1) Males over 3 years	11,801	11,126
	(2) Females over 3 years	53,589	62,252
	(3) Young stock	31,625	34,226
	C Sheep	*9,152*	*9,078*
	D Goats	*132,766*	*120,041*
	E Horses and Ponies	*1,650*	*1,539*
	F Mules	*1*	*2*
	G Donkeys	*312*	*589*
	H Camels	*10*	*27*
	I Pigs	*1,234*	*1,800*
II	*Poultry*	*773,060*	*662,898*

It would be seen from the table that there was a considerable decrease in the livestock population during the 1972 and 1977. The number of poultry birds decreased from 773,060 to 662,898.

During the year 1979–80 there were 10 Veterinary dispensaries and 25 Stockmen centres and Primary treatment centres.

The milk supply in all the talukas of the district is well organised. The total number of Milk Co–operative Societies in the district were 221 in the year 1979–80.

(b) Agricultural Tools and Implements

The following table shows the agricultural implements in the district during the year 1972 and 1977 as per the Livestock Censuses.

Agricultural Implements

Sl. No.	Name of Agricultural Implement	1972	1977
1	Plough	94,867	92,248
	(1) Wooden	89,309	86,270
	(2) Iron	5,558	6,078
2	Carts	44,960	41,790
3	Sugarcane Crushers	244	187
4	Oil Engines	5,509	6,734
5	Electric Motors & Pumps	2,233	3,796
6	Tractors	334	561

It will be observed from the above statement that the use of modern agricultural implements like Iron ploughs, Oil Engines, Electric Motors, Pumps and Tractors indicates an increasing trend during the period 1972–1977.

[5] Fishries

In Pardi, Navsari, Valsad, Umbergaon and Gandevi taluka there are fishing activities. According to Livestock Census 1977, persons engaged in these activities were 14,573.

There were 20 Fishing Co–operative Societies in the year 1979–80 in this district. The total fish production during the year 1979–80 was 4,490 tons.

[6] Industries

The following table gives the details of important industries classified by major groups of industry during the year 1981.

Distribution of Important Industrial Establishments by Major Industry Groups

Sl. No.	Major group	Description	No. of establishment	No. of persons employed
1	23	Manufacture of Cotton Textiles	29	10,775
2	31	Manufacture of Chemical & Chemical products (except products of petrolium & Coal.)	200	9,953
3	28	Manufacture of Paper & Paper Products and printing, publishing & allied industries	152	2,974

Sl. No.	Major group	Description	No. of establi-shment	No. of persons employed
4	34	Manufacture of Metal products & parts except machinery and transport equipment	77	2,459
5	35	Manufacture of Machinery & Machinery Tools & parts except electrical machinery	94	2,390
6	32	Manufacture of Non-metallic mineral products	46	1,924
7	30	Manufacture of Rubber, Plastic, Petrolium & Coal products	84	1,836

Establishment engaged in the manufacture of cotton textiles provided employment to a major portion of the industrial workers, followed by the manufacture of chemicals and chemical products (except products of petrolium & coal). These two industries together provided employment to 47.49 per cent of the industrial workers.

The establishment engaged in manufacture of paper and paper products and printing, publishing and allied industries, manufacture of metal products and parts except machinery and transport equipments, manufacture of machinery and machinery tools and parts except electrical machinery cover 17.92 per cent of total industrial workers.

During the houselisting operations for the 1981 Census an Economic Census was also conducted in the year 1980 alongwith the houselisting operations. The Economic Census was conducted through the Bureau of Economics and Statistics at the state level and through the Central Statistical Organisation at the National level. The preliminary provisional results of Economic Census 1980 have been published by the State Bureau. According to the provisional figures the total enterprises in Valsad district in both rural and urban areas are 42,105 out of which 4,849 were agricultural enterprises whereas 37,256 were non-agricultural enterprises. The total number of persons actually working in these enterprises are 183,404 out of which 10,640 persons were working in agricultural enterprises whereas 172,764 persons were working in non-agricultural enterprises.

During the 1981 Census out of total workers 36.18 per cent were cultivators, 24.95 per cent were agricultural labourers, 2.05 per cent were in household industry and 36.82 per cent were other workers.

A District Industrial Centre was established at Valsad on 2-10-78. This centre also provides loans to new entrepreneurs and also provides working capital requirements of the industries. The centre also helps the industries for building up the infrastructure facilities and providing materials. There were 319 small scale industries units at the end of 1980. A large number of small scale industries in the year 1980 are pertaining to, chemical industry (71), followed by power and transport industries (41), wooden industry (24) and glass, earthware and cement industries (22).

Industrial Estates managing by Gujarat Industrial Development corporation in the district at the end of the year 1980 are (1) Bilimora (2) Navsari (3) Umbergaon (4) Vapi (5) Valsad and (6) Unai.

Industrial Estates at Sarigam is developing estate. The total number of sheds completed in all these estates as on March 1981 were 1,172 whereas 225 sheds were under construction and 245 sheds are yet to be started. The total number of persons employed in these units were 23,815 as on March 1981.

[7] Trade and Commerce

There were 150 Joint Stock companies in the district as on 31-3-'80, with authorised capital of 3,669.80 lakh and paid up capital of 1,630.19 lakh. In the year 1978 there were 148 commercial banks at 78 places in the district whereas there were 44 co-operative banks at 30 places.

[8] Power Supply

The Gujarat Electricity Board is the chief source of electric power in the district. The use of electricity both in the rural and urban has increased rapidly during last decade.

During 1971 Census 232 villages were electrified, within a last decade they are increased to

561 which covers 68.33 per cent of total inhabited villages of the district.

[9] Transport and Communication

(a) Roads

In the year 1971–72 the total road mileage was 1,876 kms. which increased to 2,440 kms. in the year 1980–81. The detail information regarding types of roads for the year 1971–72, 1975–76 and 1980–81 are as under ;

Roads

(in kms.)

Sl. No.	Year	National Highways	State Highways	Major District Road	Other Roads	Village Roads	Total
1	1971–72	111	299	328	422	716	1,876
2	1975–76	111	318	492	500	671	2,092
3	1980–81	110	367	400	450	1,113	2,440

It would be observed from the above that there is a improvement in the net work of roads in the district.

(b) Railways

There are 165 kms. of railways in the district and the number of railway station are 22.

(c) Ports

There are eight ports in Valsad district, namely. Kolak, Maroli, Umbergaon, Vansi-borsi, Valsad, Bilimora, Umarsadi and Onjal.

(d) Post and Telegraph

All the towns of the district have post, telegraph and phone facilities. The villages with post, telegraph and phone facilities which are 459, 26 and 133 respectively.

(e) State Road Transport

Out of 821 inhabited villages 654 villages are connected by State Road Transport buses.

[10] Prices

The retail prices per kilogram of some of the important commodities during the month of January 1971, January 1976 and January 1981 are as follow :

Retail Prices

(in Rs.)

Sl. No.	Commodity	Retail Prices per kg.		
		Jan. 1971	Jan. 1976	Jan. 1981
1	Rice-Fine	1.75	3.05	3.55
2	Rice-Medium	1.55	2.25	2.40
3	Rice-Coarse	1.23	1.77	1.90
4	Wheat-Medium	1.30	2.20	2.35
5	Wheat-Coarse	1.10	2.00	2.10
6	Jowar	0.85	1.40	1.75
7	Bajri	0.75	1.40	1.70
8	Gram Dal	1.50	2.75	5.50
9	Tur Dal	2.05	2.87	5.50
10	Groundnut Oil	4.90	5.40	12.55
11	Gur	1.00	2.00	3.75
12	Sugar	1.80	4.70	7.20

[11] Insurance

The Life Insurance activity in the district during the year 1971–72, 1975–76 and 1980–81 are shown below.

Life Insurance Activity

Sl. No.	Year	No. of Policies	Sum Assured (in Lakh)
1	1971–72	9,938	729.91
2	1975–76	9,021	872.69
3	1980–81	8,146	1,146.60

[12] Education

Education plays an important role in the national development programme. Primary education is compulsory both for boys and girls in the age group 6–11 years. The State Government has been making all efforts to provide at least one primary school in each village of the state, so this basic necessity can be within the reach of every rural citizen. After the formation of District Panchayats in Gujarat the function of primary education has been transferred to the District Panchayats in the rural areas, whereas in urban areas the same is under municipalities.

Education facilities in the district for the year 1971–72, 1975–76 and 1979–80 are as under :

Educational Facilities

Sl. No.	Education		1971-72	1975-76	1979-80
1	Primary Education	Institutions	1,238	1,340	1,438
		Pupils	210,397	239,163	285,044
		Teachers	5,994	6,763	7,891
2	Secondary Education	Institutions	121	130	144
		Pupils	47,624	57,980	57,451
		Teachers	1,717	1,916	2,255
3	Higher Education	Institutions	9	13	13
		Pupils	6,816	10,050	7,634
		Teacher	294	404	334

[13] Medical and Public Health

(a) Medical Institutions in Rural Areas

There are 5 hospital, 35 dispensaries, 177 family planning centres, 18 primary health centres, 153 primary health sub-centres, 43 maternity and child welfare centres and 1,027 community health workers in the district.

(b) Medical Institutions in Urban areas

Hospital facility is available in 7 towns viz, Bansda, Bilimora, Chikhli, Navsari, Pardi, Umbergaon and Valsad. There are 13 towns viz. Atul, Bansda, Bilimora, Chikhli, Devsar, Dharampur, Gandevi, Kosamba, Navsari, Jalalpore, Sari Bajrang, Umbergaon and Valsad have the facility of dispensary. Bansda, Bilimora, Chikhli, Gandevi and Valsad, i.e., 5 towns have facility of family planning centre. There are 4 towns viz. Chikhli, Gandevi, Navsari and Valsad have the facility of nursing home. The facility of health centre is available in Mahuwar, Chikhli and Parnera, Bansda, Chikhli, Dharampur and Valsad towns have the faci'ity of T.B. clinic.

VI. Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the town of the district

Sl. No. 1	Name of Taluka 2	L.C. No. 3	Name of Town/Village 4	Details of religions, historical or archeological interest 5
1	Valsad	I	Valsad	There is a Sanitorium and the Sardar Vallabhabhai Patel Memorial Building.
2	Valsad	49	Mngarwadi	There is an old 'Vav' or step-well and also the temple of Koteshwar Mahadev.
3	Valsad	IV	Parnera	The Parnera hill rises to a height of about 500 feet above the plain. Originally the top of the hill was fortified by the Hindus and the fort remained under the Raja of Dharampur till Mahmud Begda, king of Gujarat, captured it about the end of the 15th Century. After remaining for some time under the Muslim rulers, it fell into the hands of a chief of bandits. The portugese took it in 1558 and again in 1568 when the fortifications where destroyed. After remaining in ruins for more than a hundred years, the fort was taken and rebuilt by Moro Pandit, one of the generals of Shivaji in April 1676. Parnera remained under the Marathas for about a century and was taken by the British in 1780. The fort was at first occupied by a military party as a protection against the raids of Pindharis. But early in the 19th Century the garrison was removed and the fort was dismantled during the muting of 1857. Ruins of the fort are still found at the summit of the hills. There is a temple of the Chandika Mata at the top of the Parnera hill where a fair with a congregation of about 4,000 people is held on Ashwin Sud 8 (September)
4	Pardi	1	Udwada	The village is the holy place of pilgrimage for Parsis. The scared fire from the Navsari Atashbehram (fire temple) was secretly carried to Udwada by some Parsi Priests owing to some dispute among them. During the Pateti holydays and on other auspicious day, thus place is visied by Parsis.

Sl. No.	Name of Taluka	L.C. No.	Name of Town/Village	Details of religious, historical or archaeological interest
1	2	3	4	5
5	Umbergaon	41	Sanjan	When the kingdom of Persia Passed in the middle of the sixth Century A.D. from shah Yazdezard to the Arabs, the Persians who Stuck to their old faith led a hard life for a hundred years hidding themselves in the hills, than they moved to the coast and settled in the city of Ormaz. At the advice of a learned priest they set sail for India, fifteen years after they had settled at Ormaz, and landed at the island of Diu on the south cast of Saurashtra. They stayed at Diu for nineteen years and then on the advice of an aged priest, they set sail for Gujarat. Overtaken by a storm in the way they anchored at the safe shore near Sanjan, The Yadav chief of South Gujarat, Jadi Rana permitted them to choose a spot and settle on their agreeing to certain conditions. A temple for the holy fire of Behram was begun to be constructed and completed by the help of the Yadav Chief in 790 A.D. The parsi settlement at Sanjan soon prospered and most of the Parsis remained at Sanjan for about 300 years though a few dispersed in various directions, Broach, Variav, Anklesvar, Cambay and Navsari. In another 200 years a large number of the Parsis with their Dasturs (Priests) also left Sanjan. About A.D. 1490 Alefkhan, the Prime Minister of Sultan Mahmud of Gujarat invaded Sanjan. The parsis under the leadership of Ardeshir fought for their Raja (Hindu Chief) but, in the final scuffee, Ardeshir was killed, Sanjan fell into the hands of Mohammedans and most of the surviving Parsis fled with their Sacred Fire to the adjoining hill of Bahrut where they lived for twelve years. The Sacred fire was then removed to Bansda in 1502, from Bansda to Navsari in 1566, from Navsari to Bulsar in 1741 and finally in 1742, from Bulsar to Udwada where it is still burning. Sanjan is thus a holy Place for Parsis.
6	Gandevi	XII	Gandevi	In this town, a fair is held on Kali Chaudash, when about 16,000 people assemble at the fair for the worship of Hanumanji.
7	Gandevi	XIII	Bilimora	A fair is held here on the Cocoanut day and Dariadev is worshipped before the commencement of sea Voyages after the monsoon. Another fair is held on Divasa on the 8th and 9th day of the Hijri month of Shawwal, Urs is held here.
8	Gandevi	27	Amalsad	There is a temple of Andhakeshwar, which was built by a blind Vanjara. A fair is held at this place on Kartik Sud 15 (November).
9	Navsari	XVI	Navsari	In Navsari the first Settlement of the Parsis took place in 1142 A.D, the town then being a feudal village under the sway of the Muslim Emperors of Delhi The Parsi Desais who were granted extensive lands used to collect the revenues for the Muslim Emperors. It is known as the vilayat of the Parsis and was the birth place of the well-known patriot Dadabhai Navrojaji and famous industrialist Jamshedji Tata, whose birth-place, Dasturwadi is preserved in it original condition. The Dudhia lake an ancient take occupying 105 acres of area, with Ram Tekri in the centre and with an ancient temple of Asapuri on it west bank, is situated on the Southern outskirts of Navsari.
10	Navsari	109	Dandi	Mahatma Gandhi started civil disobedience movement against the British regime in 1930 from this village. The salt law was broken by Mahatma Gandhi from this village. A monument to commemorate the most important and unique event. Viz. the Dandi march

Sl. No. 1	Name of Taluka 2	L.C. No. 3	Name of Town/Village 4	Details of religious, historical or archaeological interest 5
10	Navsari	109	Dandi (Contd.)	which set the whole country a flame with political fervour has been set up at a cost of Rs. 29,290.
11	Chikhli	XX	Chikhli	There is a temple of Mallika Arjun on the bank of the Kaveri.
12	Chikhli	30	Fadvel	Near Fadvel, a place known as 'Samaradev' lie two big carved stones of the Maratha age.
13	Chikhli	82	Nandhai	There is a shrine of God Shiva known as 'Gupteshwar Mahadev' near the bank of river. According to a local legend, there was a shivaling hidden in the groves of green trees. Later a Dhodia of Khergam, now deceased, saw this ling in his dream and constructed a temple at this place and a kund of Gangaji in the river. As the ling was hidden, the God Shiva is now known as 'Gupteshwar Mahadev'.
14	Bansda	8	Unai	Temple of Unai Mata and Pilgrimage place. It is famous for its hot water springs. They are held to be an ancient as Rama and are believed to have been brought into existence by an arrow shot by him, into the ground.
15	Dharampur	117	Arnai	Arnai is known for having Spring of hot water.
16	Dharampur	214	Nagar	Nagar was the ancient capital of the Dharampur State. As Ram Raja had conquered this area from the Bhils about 800 years ago, it was called Ramnagar after his name. In 1576 the Chief of Ramnagar met Raja Todar Mal at Broach, gave him Rs. 12,000 and four horses and agreed to serve the Gujarat Viceroy with 1,000 cavalry. He and the chief of Ghar helped Shivaji in his attacks on Surat (1664-70). In 1672, the fort of Ramnagar was taken by Shivaji.

VII. Brief analysis of the Village and Town Directory and Primary Census Abstracts data based on Inset Tables

NOTE ON VILLAGE DIRECTORY

The different types of amenities available at the village level in each of the talukas of the district has been tabulated in the form of Village Directory. The Statement shows the different types of amenities and land-use in each village. At the end of the Village Directory a talukawise abstract of all the amenities has been prepared and printed as Appendix-I. It can be seen from the Appendix-I that out of 821 inhabited villages, 784 villages have primary education facility. There are only 37 villages are without primary school excluding the deserted villages. The number of villages where the primary school is not available are 6 in Navsari taluka and 31 in Dharampur taluka. The talukas of Valsad, Pardi, Umbergaon, Gandevi, Chikhli and Bansda are fully covered with primary education facility.

There are 35 villages in the district which have dispensary, whereas 5 villages have hospital, 40 villages have maternity and child welfare centre. 18 villages have primary health centre. 179 villages have family planning centre. 153 villages have primary health sub-centre. There are in all 639 villages having community health worker.

As regards drinking water ordinary surface wells are the main source of the drinking water facility and 795 villages have such types of wells. There are 106 villages where water is available through taps and in 8 villages water is available through tubewells whereas 54 villages get supply through canals. In addition there are 110 tanks

and 312 villages are also on the river side. There is only one village in Valsad taluka where drinking water facility is not available. All the villages, except one village, in the district have drinking water facility, however, this will not mean that abudant water supply is available throughout the year at all these sources.

In respect of post, telegraph and phone facilities, 356 villages have post offices, 3 villages have post and telegraph facility, 103 villages have both post office and phone facility, 23 villages have post, telegraph and phone facilities and 7 villages have only phone facility.

Out of 821 villages, 654 villages have bus facility. The villages where the bus facility is not available are 7 in Valsad, 7 in Pardi, 3 in Umbergaon, 2 in Gandevi, 8 in Navsari, 6 in Chikhli, 22 in Bansda and 112 in Dharampur. There are 12 railway stations in the district and 8 villages have navigable waterway.

As regards the electric power supply, out of 821 villages, 561 villages have electric power supply either for domestic of for agricultural or for industrial purposes. This means that almost 68.33 per cent of the villages have been electrified in the district Valsad. Pardi, Umbergaon, Gandevi, Navsari, Chikhli and Bansda are the talukas where more than 70 per cent of the total villages have been electrified.

On the basis of the amenities noted in the Village Directory a brief analysis of the different amenities has been made which is as follows :

Amenities in villages

Table No. 1 shows the distribution of villages according to the availability of different amenities.

TABLE 1

Distribution of villages according to the availability of different amenities

Sl. No.	Name of Taluka	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communication	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Valsad	87	87 (100.00)	34 (39.08)	86 (98.85)	72 (82.76)	3 (3.45)	81 (93.10)	54 (62.07)	75 (86.20)
2	Pardi	79	79 (100.00)	27 (34.18)	79 (100.00)	61 (77.22)	9 (11.39)	72 (91.14)	56 (70.89)	67 (84.81)
3	Umbergaon	49	49 (100.00)	21 (42.86)	49 (100.00)	36 (73.47)	7 (14.29)	46 (93.88)	36 (73.47)	48 (97.96)
4	Gandevi	53	53 (100.00)	21 (39.62)	53 (100.00)	44 (83.02)	2 (3.77)	51 (96.23)	41 (77.36)	51 (96.23)
5	Navsari	139	134 (96.40)	49 (35.25)	139 (100.00)	99 (71.22)	.. ..	131 (94.24)	102 (73.38)	127 (91.37)
6	Chikhli	84	84 (100.00)	37 (44.05)	84 (100.00)	66 (78.57)	9 (10.71)	78 (92.86)	58 (69.05)	78 (92.86)
7	Bansda	94	94 (100.00)	26 (27.66)	94 (100.00)	46 (48.94)	9 (9.57)	74 (78.72)	48 (51.06)	68 (72.34)
8	Dharampur	236	205 (86.86)	34 (14.41)	236 (100.00)	68 (28.81)	15 (6.36)	126 (53.39)	56 (23.73)	47 (19.92)
	Total	**821**	**785 (95.62)**	**249 (30.33)**	**820 (99.88)**	**492 (59.93)**	**54 (6.58)**	**659 (80.27)**	**451 (54.93)**	**561 (68.33)**

All villages in the district have drinking water facility except one villages, either by way of a well or tank or tubewell or handpump, or river, etc. It is also seen that about 96 per cent of the total villages of the district have the facility of primary education and 4 per cent villages do not have primary education Valsad, Pardi, Umbergaon, Gandevi, Chikhli and Bansda talukas have primary education facility in all the villages.

The medical amenities are available in 30.33 per cent of the total villages of the district, the percentage varies from 44.05 per cent in Chikhli taluka to 14.41 per cent in Dharampur taluka.

It is also observed that about 60 per cent of the total villages of the district have the facility of post and telegraph. Among the various talukas, the highest percentage of 83.02 per cent is recorded in Gandevi taluka as against the lowest of 28.81 per cent found in Dharampur taluka. The rest of 6 talukas have these facilities quite satisfactory.

It can be seen from the table that only about

7 per cent of the villages have market/hat facilities. The percentages vary between 3.45 per cent in Valsad taluka to 14.29 per cent in Umbergaon taluka. There is no market/hat facility in the taluka of Navsari.

The communication facilities by way of bus or railway are available in 80 per cent of the total villages of the district. The highest percentage of 96.23 per cent in Gandevi taluka whereas the lowest one is in Dharampur taluka which is only 53.39 per cent.

Out of total inhabited villages of the district, 55 per cent villages have pucca approach road. Only 24 per cent of the villages of Dharampur taluka are connected by the pucca approach road. In Gandevi taluka 77.36 per cent of the total villages have the facility of pucca approach road, which is the highest in the district.

In respect of electric power supply 68 per cent of the total villages of the district have this facility of electric power supply. Seven talukas, namely, Gandevi with (96.23 per cent), Umbergaon with (97.96 per cent), Navsari with (91.37 per cent), Chikhli with (92.86 per cent), Valsad with (86.20 per cent), Pardi with (84.81 per cent) and Bansda with (72.34 per cent) fall above the district average, whereas Dharampur taluka with (19.92 per cent) is below the district average.

Proportion of rural population served by different amenities

Table No. 2 shows the proportion of rural population served by different amenities.

TABLE 2

Proportion of Rural Population served by different amenity

Sl. No.	Name of Taluka	Total population of inhabited villages in the taluka	Proportion of Rural Population served by the amenity of							
			Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communi-cation	Appro-ached by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Valsad	175,221	175,221	94,460	173,985	162,373	9,042	170,031	114,143	156,217
			(100.00)	(53.91)	(99.29)	(92.67)	(5.16)	(97.04)	(65.14)	(89.15)

			(100.00)	(64.96)	(100.00)	(88.62)	(24.48)	(96.50)	(77.26)	(98.58)
4	Gandevi	120,643	120,643	70,942	120,643	112,397	10,379	117,959	95,535	116,152
			(100.00)	(58.80)	(100.00)	(93.16)	(8.60)	(97.78)	(79.19)	(96.28)
5	Navsari	224,704	222,533	74,258	224,704	193,653	..	219,994	190,440	209,565
			(99.03)	(33.05)	(100.00)	(86.18)	..	(97.90)	(84.75)	(93.26)
6	Chikhli	208,180	208,180	123,432	208,180	187,400	28,150	201,220	164,447	197,691
			(100.00)	(59.29)	(100.00)	(90.02)	(13.52)	(96.66)	(78.99)	(94.96)
7	Bansda	137,258	137,258	57,777	137,258	93,222	23,296	111,831	71,163	110,819
			(100.00)	(42.09)	(100.00)	(67.92)	(16.97)	(81.48)	(51.85)	(80.74)
8	Dharampur	222,957	216,715	66,458	222,957	119,809	30,573	159,729	145,945	93,718
			(97.20)	(29.81)	(100.00)	(53.74)	(13.71)	(71.64)	(65.46)	(42.03)
	Total	**1,385,274**	**1,376,861**	**658,574**	**1,384,038**	**1,131,813**	**155,338**	**1,266,341**	**1,015,099**	**1,164,111**
			(99.39)	**(47.54)**	**(99.91)**	**(81.70)**	**(11.21)**	**(91.41)**	**(73.28)**	**(84.03)**

It will be seen from the above table that Valsad, Pardi, Umbergaon, Gandevi, Chikhli and Bansda taluka have been fully covered by primary education facility whereas the facility in other talukas is almost nearer to it. As regards medical facilitiy the rural population coverage is 47.54 per cent. In the district, the rural population coverage by drinking water facility is 99.91 per cent. In all the talukas of district, except Valsad taluka, it is 100 per cent. In respect of post and telegraph facilities the talukas of Valsad, Pardi, Umbergaon, Gandevi, Navsari and Chikhli are well covered whereas the rest of talukas are below the district average. In market/hat facilitiy

the rural population coverage is only 11.21 per cent and among the various talukas the biggest coverage of 24.48 per cent is recorded in Umbergaon taluka against the lowest coverage of 5.16 per cent recorded in Valsad taluka.

As regards communication the rural population coverage is fairly wide except in Bansda and Dharampur talukas where these are 81.48 per cent and 71.64 per cent respectively as compared to more than 96 per cent in other talukas. The position of approach to the village by pucca road is good and about 73 per cent of the rural population is covered by pucca approach road to their villages. The position in Valsad, Bansda and Dharampur is not so good where about 65 per cent, 52 per cent and 65 per cent of the rural population have pucca road facility.

As regards power supply the talukas of Umbergaon, Gandevi, Navsari and Chikhli have the large coverage whereas Dharampur has the least coverage.

Distribution of villages not having certain amenities arranged by distance ranges from the place where they are available

Table No. 3 shows the distribution of villages not having certain amenities arranged by distance ranges from the places where they are available.

TABLE 3

Distribution of villages not having certain amenities arranged by distance ranges from the places where these are available

Sl. No.	Village not having the amenity of	Number of villages where the amenity is not available and available at distance of			
		-5 Kms	5-10 Kms	10+ Kms	Total (Cols.3-5)
1	2	3	4	5	6
1	Education	31	4	1	36
2	Medical	523	41	8	572
3	Drinking Water	1	..	..	1
4	Post and Telegraph	230	76	23	329
5	Market/Hat	281	152	195	628
6	Communication	100	37	25	162

It will be observed from the above table that in all 36 villages of the district have no primary education facility available in the villages. Out of these 36 villages, in 35 villages this facility is available at a distance of less than 10 kms. and in 1 village the same is available at a distance of 10 or more kms. away from the village.

Out of 821 villages, 572 villages of the district have no medical facility out of which 564 villages have this facility available at a distance of less than 10 kms. Whereas in 8 villages the same are available at a distance of 10 kms. or more from the village. There is only one village in the district where any type of drinking water facility is not available. In this village the facility is available at a distance of less than 5 kms. away from the village.

In respect of post and telegraph facility, 329 villages have no such facilities out of that 306 villages have such a facility at a distance of less than 10 kms. from the village, whereas 23 villages have this facility at a distance of 10 or more kms. from the village.

As regards market/hat facility in 628 villages of the district have no systems of weekly or fortnightly market/hat. In 433 villages have such a facility are available at a distance of less than 10 km. and in 195 villages the same are available at a distance of 10 or more km. away from the village.

As regards communication facility 162 villages have no such facility, out of that 137 villages have such a facility at a distance of less than 10 km. from the village whereas 25 villages have this facility at a distance of 10 or more km. from the village.

Distribution of villages according to the distance from the nearest town and availability of different amenities

Table No. 4 show the distribution of villages according to the distance from the nearest town and availability of different amenities.

TABLE 4

Distribution of villages according to the distance from the nearest town and availability of different amenities

Sl. No.	Distance Range from the nearest town (in kms)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
			Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communication	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	0–5	170	167 (98.24)	60 (35.29)	170 (100.00)	135 (79.41)	5 (2.94)	149 (87.65)	131 (77.06)	163 (95.88)
2	6–15	338	337 (99.70)	116 (34.32)	337 (99.70)	235 (69.53)	23 (6.80)	315 (93.20)	210 (62.13)	291 (86.09)
3	16–50	279	253 (90.68)	69 (24.73)	279 (100.00)	117 (41.94)	25 (8.96)	183 (65.59)	105 (37.68)	107 (38.35)
4	51+	34	28 (82.35)	4 (11.76)	34 (100.00)	5 (14.71)	1 (2.94)	12 (35.29)	5 (14.71)	..
5	Unspecified	..	..	..	..	..	..	..	..	..
	Total	**821**	**785 (95.62)**	**249 (30.33)**	**820 (99.88)**	**492 (59.93)**	**54 (6.58)**	**659 (80.27)**	**451 (54.93)**	**561 (68.33)**

In the district 170 villages are at a distance range of 0–5 kms. nearest town, out of which 135 villages have facility for post and telegraph and 131 villages have approach by pucca road. About 60 villages have medical facility and only 5 villages have market/hat facility. The other facilities of primary education, drinking water, communication and power supply are quite satisfactory.

Out of 821 villages, 338 villages are situated at a distance range of 6–15 kms. from the nearest town. Out of these villages 235 villages have post and telegraph facilities, whereas 291 villages have power supply, 210 villages have approach by pucca road, 116 villages have medical facility and only 23 villages have market/hat facility. The other facility are satisfactory.

There are 279 villages at a distance range of 16–50 kms. from the nearest town, out of which 117 villages have post and telegraph facilities, whereas 105 villages have approach by pucca road, 69 villages have medical facility and only 25 villages have market/hat facility.

There are 34 villages in the distance range of 51 kms, and more from the nearest town. Out of these villages, 12 villages have communication facility, 5 villages have post and telegraph facility and approach by pucca road, 4 villages have medical facility and only 1 villages has market/hat facility. The other facility of drinking water and education are satisfactory.

Distribution of villages according to population range and amenities available

Table No. 5 shows the distribution of villages according to population range and amenities available.

TABLE 5

Distribution of villages according to population range and amenities available

Sl. No.	Population range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
			Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communication	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Up to 499	131	96 (73.28)	3 (2.29)	131 (100.00)	13 (9.92)	2 (1.53)	61 (46.56)	33 (25.19)	30 (22.90)
2	500–1,999	467	466 (99.79)	103 (22.06)	466 (99.79)	266 (56.96)	19 (4.07)	381 (81.58)	245 (52.46)	324 (69.38)
3	2,000–4,999	191	191 (100.00)	112 (58.64)	191 (100.00)	181 (94.76)	26 (13.61)	185 (96.86)	145 (75.92)	176 (92.15)
4	5,000 and above	32	32 (100.00)	31 (96.88)	32 (100.00)	32 (100.00)	7 (21.88)	32 (100.00)	28 (87.50)	31 (96.88)
	Total	**821**	**785 (95.62)**	**249 (30.33)**	**820 (99.88)**	**492 (59.93)**	**54 (6.58)**	**659 (80.27)**	**451 (54.93)**	**561 (68.33)**

It will be seen from the table that there are 131 villages below 500 population, out of which the maximum facility is available in respect of drinking water with 100 per cent, followed by primary education with 73.28 per cent, communications with 46.56 per cent, approach by pucca road with 25.19 per cent, power supply with 22.90 per cent, post and telegraph with 9.92 per cent, medical with 2.29 per cent and lastly market/hat with 1.53 per cent.

There is an increasing trend in the availability of facilities, with the increase in population range of the villages and ths villages with more than 5,000 population are fully covered by education, drinking water and communication facilities.

Staple food

Table No. 6 shows the main Staple food in the majority of the villages in each taluka of the district.

TABLE 6

Main staple food of villages in each taluka

Sl. No.	Name of Taluka	Main staple food
1	2	3
1	Valsad	Rice, Jowar, Wheat, Nagli
2	Pardi	Rice, Jowar, Wheat
3	Umbergaon	Rice, Jowar, Wheat, Nagli
4	Gandevi	Rice, Jowar, Wheat, Maize
5	Navsari	Rice, Jowar, Wheat
6	Chikhli	Rice. Jowar, Wheat
7	Bansda	Rice, Jowar, Wheat, Nagli
8	Dharampur	Rice, Jowar, Nagli, Ragi

Rice, Jowar and Wheat are the main Staple food of most of the villages of the talukas, namely Valsad, Umbergaon, Bansda and Dharampur, Nagli is found to be a staple food. In Dharampur taluka Ragi is found as a staple food, whereas Maize is found in Gandevi taluka.

Land-use

Table No. 7 shows the distribution of villages according to their land-use.

TABLE 7

Distribution of villages according to land use

Sl. No.	Name of Taluka	No. of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Valsad	87	46,606.00	39,340.00 (84.41)	3,873.00 (9.84)
2	Pardi	79	39,568.00	37,273.00 (94.20)	1,674.00 (4.49)
3	Umbergaon	49	34,836.00	26,062.00 (74.81)	541.00 (2.08)
4	Gandevi	53	25,553.00	19,413.00 (75.97)	7,032.00 (36.22)
5	Navsari	139	71,532.00	48,278.00 (67.49)	16,483.00 (34.14)
6	Chikhli	84	57,342.00	51,647.00 (90.07)	6,213.00 (12.03)
7	Bansda	94	59,346.00	32,382.00 (54.56)	717.00 (2.21)
8	Dharampur	236	163,432.00	68,813.00 (42.10)	726.00 (1.06)
	Total	**821**	**498,215.00**	**323,208.00 (64.87)**	**37,259.00 (11.53)**

The irrigated area to the total cultivable area in the district is 11.53 per cent, Pardi has the highest of 94.20 per cent cultivable area to total area, followed by Chikhli taluka with 90.07 per cent, whereas in other taluka varies between 42.10 per cent to 84.41 per cent

As regards irrigation facilities Gandevi and Navsari have irrigation facilities of 36 per cent and 34 per cent to total cultivable area respectively whereas Bansda with 2.29 per cent and Dharampur with 1.06 per cent are very low in irrigation.

Note on Town Directory

The list of urban areas for the purpose of 1981 Census was finalised in consulation with the State Government. The following criteria were applied for the purpose of determining any area as an urban area.

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified town area :

(b) All other places which specified the following criteria.

(i) A minimum population 5,000;

(ii) At least 75% of the male working population engaged in non-agricultural (and allied) activity;

(iii) A population of at least 400 persons per sq. km. or a population of 1,000 persons per sq. miles.

The Town Directory has been complied in seven statement given in the Section II for all the urban areas of the district. For presentation of the data, the towns of the district have been arranged in alphabetical order. The details of the data covered in these statements are as follows :

Note on Statement-I

Townwise details relating to status and growth history are given in this statement by arranging the towns in alphabetical order. The civic administrative status of each town has been recorded in Col. 2 of the statement. Col. 5 shows the area in sq. km. of the town whereas Col. 6 shows the number of household including houseless population. Col. 7 to 15 shows the decadal growth history beginning from 1901 till 1981. The last Cols. 16 to 19 shows the density and sex ratio of 1961, 1971 and 1981 for each of these towns. Out of 22 towns, 3 towns have municipalities, 4 have nagar panchayats and remaining 13 have village panchayats, 1 town is non-municipal and the area of the remaining three towns are notified as Industrial Area.

There is only one city in the district which has a population of more than one lakh, i.e. Navsari City. Valsad (M) have a population of 72,969 persons, whereas Bilimora has a population of 43,755 persons. There are six towns viz. Dharampur, Gandevi, Jalalpore, Vijalpore, Pardi, and Vapi which have a population of more than 10,000 but less than 20,000. Two towns namely Umbergaon INA and Valsad INA have a population of only 912 persons and 408 persons respectively.

The populatation growth rate of the different towns from 1901 to 1981 have been shown from Col. 7 to Col. 15 of Statement-I. It will be seen from this statement that during the last decade Navsari City has shown the growth rate of 46.33, Whereas Jalalpore, Vapi, Va sad (M), Bilimora, Umbergaon, Pardi and Atul have higher than the growth rate of the district which ranges from 25.10 to 44.16.

The rest of the towns of Bansda, Chikhli, Dharampur, Gandevi, Abrama have population growth rate below the district growth rate during the last decade.

Note on Statement-II

This statement gives the physical aspects of the location particulars of towns.

Particulars regarding temperature and rainfalls have been obtained from the Director General of Observatories, Meterological department, Government of India.

Distance between Gandhinagar, the State Headquarter and the town of the district vary from the minimum of 323 kms. from Chikhli and maximum of 418 kms. from Umbergaon. The District Headquarter Valsad City is 363 kms. away from Gandhinagar, the State Headquarter. There are 8 towns namely Atul, Bilimora, Gandevi, Navsari, Pardi, Umbergaon (VP), Valsad (M) and Vapi (NP) are connected by railways and except Devsar, Sari, Bujrang and Valsad INA all the towns have bus facilities.

Note on Statement-III

This statement gives details of towns finances. The statement shows the receipt and expen-

diture under several heads. The receipts are shown differently for (1) Receipts through taxes, (2) Revenue derived from municipal property and power apart from taxation, (3) Receipts through Government grants, (4) Receipts through loans, (5) Receipts through advances and (6) Receipts through other sources. The expenditure side has been classified as expenditure on (1) General Administration, (2) Public Safety, (3) Public Health, (4) Public Works, (5) Public Institutions and (6) Others on the basis of this statement.

Table No. 8 has been prepared which shows per capita receipt and expenditure of all towns of the district.

Table No. 8 above shows the per capita receipt in the different cities and towns.

TABLE 8

Per capita receipt and expenditure in towns

The highest per capita receipt is in Bilimora followed by Valsad (M) and Navsari in descending order. In respect of per capita expenditure the highest expenditure is in Bilimora followed by Valsad (INA), Valsad (M) and Navsari. The per capita expenditure on general administration

is the highest in Valsad INA followed by Bilimora. As regards public works Valsad Municipality has spent the highest at Rs. 28.39 per capita.

Note on Statement–IV

Statement–IV shows the civic and other amenities available in the towns.

All the towns except Dharampur, Gandevi, Jalapore, Navsari, Sari Bujrang, Bansda, Devsar & Vapi (NP) have open surface service drainage. Dharampur, Bansda, Devsar & Navsari have sewrage systems. Whereas Gandevi, Sari–Bujrang and Vapi (NP) have cesspool method system and Jalapore, Pardi have pit system. As regards latrines there are still 715 service latrines in Bilimora and 610 latrines in Chikhli which require to be converted to septic tank latrines. As regards the medhod of the night soil disposal also the head-load system is prevalent in Abrama and Valsad (M).

The water supply system in the towns of Atul, Bilimora, Dharampur, Mahuwar, Navsari, Valsad, Vijalpor, Vapi and Vapi INA is through taps whereas of the towns of Bansda, Dharampur, Jalapore, Vijalpor, Umbergaon VP, Umbergaon INA and Valsad INA get their supply from tubewells. The towns of Devsar, Gandevi, Kosmba, Pardi, Parnera, Sari–Bujrang, Abrama and Vapi get their supply from wells.

The town of Atul, Bilimora, Dharampur, Navsari, Abrama, Valsad (M) Valsad INA and Vapi INA have got their own fire–fighting services.

All the towns are electrified in the district.

Note on statement IV A

This statement shows the civic and other amenities in slums. The information for slum areas is collected for class I and II towns. There are only two such towns viz. Navsari (M) and Valsad (M) in the district. Of which, Valsad municipal authority has not reported the information.

It can be seen from the statement that there is only one slum pocket in Navsari (M) having population of 860 persons. This slum area has been provided with Open Surface Drainage facility. Wheel Barrows system for disposal of night soils, Water supply through taps, and stand–post. This area is also electrified.

Note on Statement–V

This statement gives details relating to medical, educational, recreational other cultural facilities in the towns. In the case of medical institutions only Government, Semi–Government and Charitable Institutions have been covered. Hospital facilities are available in Bansda, Bilimora, Chikhli, Navsari, Pardi, Umbergaon, Valsad (M) and Vapi INA towns. Bansda, Chikhli, Dharampur and Valsad (M) have T. B. Clinics. While Chikhli, Mahuwar, Pannera and Vapi (NP) towns have health centres facilities.

Table No. 9 shows the total number of beds in medical institutions per 1,000 population in all the towns of the district.

	Total		**3.99**

It is found that Navsari City has the highest number of beds 8.38 per 1,000 population followed by Bansda, Pardi, Valsad (M) and Gandevi with 5.86, 4.90, 4.70 and 4.44 beds per 1,000 population respectively. Umbergaon (VP) has got only 0.60 beds per 1,000 population. Only four towns have college education facilities. Bilimora and Chikhli each have one Arts and Commerce College. Navsari has one Arts College, one Commerce College, one Science College and one Law College. The district Head-quarter Valsad has one Science College, one Arts College, one Arts and Commerce College, one Arts and Science College and one Law College. Besides Valsad has also a good Polytechnic, which provide sufficient technical hands for the Industries in the district. There is no Medical and Engineering College in the district. All the towns except Abrama, Devsar, Sari-Bujrang, Umbergaon INA have higher Secondary, Secondary and all the towns except Valsad INA have primary school facilities and only 6 towns namely Bansda, Bilimora, Chikhli, Navsari, Valsad (M) and Vapi (NP) have got adult literacy centres.

Table No. 10 shows the number of different categories of schools per 10,000 population in towns of the district.

Note : In Gujarat State the Levels of Education are classified as under :

(i) Primary (From standard I to VII passed)

(ii) Secondary/Matriculation (From standard VIII to X passed)

(iii) Higher Secondary (From standard XI to XII passed)

Hence the details under Col. 5 are not shown.

The average number of higher Secondary, intermediate, junior college per 10,000 population for all towns is 1.080 such averages in respect of number of secondary/matriculation and is 1.080. The average number of primary schools per 10,000 population for all towns is 2.597.

As regards the primary education, the maximum number of primary school per 10,000 population is found in Umbergaon INA which is 10.965 followed by Sari-Bujrang with 8.666 and Chikhli with 8.406.

The towns of Atul, Bansda, Bilimora, Chikhli, Dharampur, Gandevi, Navsari, Pardi, Umbergaon (VP) and Valsad (M) have facilities for recognised shorthand/type writing institutions. There are four stadies one each at the town of Atul, Bansda, Valsad (M) and Vapi (NP). The number of cinema houses in Navsari city are 6 which is the maximum number in any single city or town. There are no cinema facilities in Abrama, Chikhli, Devsar, Jalalpore, Vijalpore, Parnera, Sari-Bujrang, Umbergaon INA and Valsad INA.

Note on Statement-VI

Statement-VI shows the details regarding trade, commerce, industry and banking in the towns.

The important commodities imported in the towns of the district are Raw Materials of Colour Chemicals, Sugar, Timber wood, Unpolished diamonds, Vegetables, Pulses, Sugarcane, Wood, Cotton yarn, Gur, Fertilizer, Cloth, Foodgrains, Aluminium and Raw Materials for Machinery. The commodities which are exported out of the towns are Colour, Paddy, Leminated Sheets, Rice, Roofing Tiles, Sugar Cloth, Bobbin, Chikoo, Electrical Material, Sugarcane, Aluminum products and Grass Bales. The important commodities manufactured in the towns of the district are Colour Chemicals, Paddy, Laminated Sheets, Cioth, Brass Unensils, Galvanised Wire, Textile Articles, Rice, Electrical Material, Paper Boxes. Bobin Aluminium products, Chemicals etc.

Table No. 11 shows the details of the important commodities manufactured, imported and exported in the different towns of the district.

All the towns and cities except Devsar, Mahuwar and Sari Bujrang have facilities of banking and except Abrama, Atul, Bilimora, Parnera, Umbergaon INA, Abrama, Valsad INA and Vapi INA, all the towns and cities have agricultural credit societies and also except Bilimora, Devsar, Kosamba, Mahuwar, Pardi, Parnera, Sari Bujrang, Umbergaon INA, Valsad INA, Vapi, Vapi INA all the towns and cities have non-agricultural credit societies.

Appendix given in Section II shows the towns showing their out growth with population.

Note on Primary Census Abstract

The District Primary Census Abstract of Valsad district showing talukawise total, rural and urban population is included in part B of the volume. The district Primary Census Abstract is followed by Scheduled Castes/Scheduled Tribes Primary Census Abstract and Village/Townwise Primary Census Abstract.

A brief analysis of the Primary Census Abstract is as follows :

Population, number of villages and number of towns 1981 in the district

Table No. 12 shows the population, areas, number of villages and number of towns within talukas of the district.

TABLE 12

	Total	**388,862**	**205,051**	**183,811**	**822**	**821**	**22**

The total population of Valsad district is 1,774,136 during the 1981 Census which works out at 5.20 per cent of the total State population. The rural population is 5.90 per cent of the total rural population of the State whereas the urban population is 3.67 per cent of the total urban population of the State.

The district ranks 10th in population out of total 19 district of the State.

It will be seen from the above table that out of total 822 villages in the districts 821 villages are inhabited whereas only one village is uninhabited. There are 22 towns in the district. The highest number of villages are found in Dharampur taluka which are 236 followed by Navsari taluka with 139 villages and Bansda taluka with 94 villages respectively. The minimum number of villages 49 are in Umbergaon taluka.

The maximum urban population is in Navsari taluka followed by Valsad and Gandevi talukas.

The proportion of urban population in the district to the total population is 21.92 per cent which is low as compared to proportion in the State 31.10 per cent.

Decadal change in distribution of population in the district

Table No. 13 shows the talukawise details regarding the decadal change in the population during the last decade of 1971-81.

TABLE 13

The decadal growth rate of population the district is 24.17. The decadal growth rate Navsari, Pardi and Valsad taluka is above the district growth rate whereas for the rest of the talukas it is below the district growth rate. In case of rural areas Pardi, Dharampur, Bansda, Umbergaon and Chikhli talukas are above the district growth rate. In respect of urban areas Navsari and Valsad have growth rate higher than the district whereas the urban areas of the other talukas have growth rate below the district growth rate.

Distribution of villages by population ranges

The details of distribution of villages by population ranges are given in the Table No. 14.

TABLE 14

Distribution of village, by population ranges

Sl. No.	Range of Population	No. of villages in each range	Percentage of villages in each range
1	2	3	4
1	Less than 200	27	3.29
2	200 - 499	104	12.67
3	500 - 1,999	467	56.88
4	2,000 - 4,999	191	23.27
5	5,000 - 9,999	30	3.65
6	10,000 and above	2	0.24
	Total	***821**	**100.00**

* Exclusive of 1 uninhabited villages and 4 entire villages included in Valsad Urban Agglomeration.

Out of total villages 56.88 per cent villages are found in the population range 500-1,999, 23.27 per cent villages and 12.67 per cent villages are in the population ranges of 2,000-4,999 and 200-499 respectively. Only 3.29 per cent villages are within the 0-200 population range. There are 30 villages which have a population range of 5000-9999 and only 2 villages are in the population range of 10,000 and above.

Density of Population

Table No. 15 shows the distribution of villages by density of population.

TABLE 15

Distribution of villages by density

Sl. No.	Range of Density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	2	3
1	Less than 10	..	..
2	11 - 20	3	0.37
3	21 - 50	18	2.19
4	51 - 100	101	12.30
5	101 - 200	147	17.91
6	201 - 300	169	20.58
7	301 - 500	267	32.52
8	501 and above	115	14.01
9	Not Known	1	0.12
	Total	***821**	**100.00**

* Exclusive of 1 uninhabited villages and 4 entire villages included in Valsad Urban Agglomeration.

Out of 821 inhabited villages, 267 villages are within the density range of 301-500 persons per sq. km., 169 villages are within the range of 201-300 persons per sq. km. whereas 147 villages have a density range of 101-200 persons per sq. km. There are 21 villages have a very law density range up to 50 persons per sq. km. There are 115 villages which have a high density range of 501 and above persons per sq. km.

Proportion of Scheduled Castes/Scheduled Tribes population to the total population of the villages and towns

The total Scheduled Castes population of the district is 54,989 which is 2.26 per cent of the total Scheduled Castes population of the State whereas the total Scheduled Tribes population of the district is 968,518 which is 19.98 per cent of the total Scheduled Tribes population. The Scheduled Castes population of the district is 3.10 per cent of the total district population whereas the Scheduled Tribes population is 54.59 per cent of the total district population.

Table No. 16 gives the proportion of Scheduled Castes population to total population in the villages.

TABLE 16

Proportion of Scheduled Castes population to total population in the villages

Sl. No.	Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3	4
1	NIL	355	43.24
2	5 or less	345	42.02
3	6 - 10	89	10.84
4	11 - 15	23	2.80
5	16 - 20	2	0.25
6	21 - 30	6	0.73
7	31 +	1	0.12
	Total	***821**	**100.00**

* Exclusive of 1 uninhabited village and 4 entire villages included in Valsad Urban Agglomeration.

There are 355 villages in the district which have no Scheduled Castes population at all. There are 345 villages where the percentage of total Scheduled Castes population to total population is 5.00 per cent or less. In 89 villages the percentage of Scheduled Castes population to total population is between 6 to 10 per cent whereas 32 villages have more than 11 per cent of the total population as Scheduled Castes population, out of which only one village has about more than 31 per cent of the total population as Scheduled Castes population.

Table No. 17 shows the proportion of Scheduled Tribes population to the total population of the villages.

TABLE 17

Proportion of Scheduled Tribes population to total population in the villages

Sl. No.	Percentage range of Scheduled Tribes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3	4
1	NIL	1	0.12

6	36 - 50	85	10.35
7	51 +	614	74 79
	Total	***821**	**100.00**

Exclusive of 1 uninhabited village and 4 entire villages included in Valsad Urban Agglomeration.

There is only one village which has no Scheduled Tribes population. The majority of the villages i.e., 614 villages, have 51 or more per cent of the population as Scheduled Tribes.

In 85 villages the percentage of Scheduled Tribes to total population is between 36 to 50 per cent. Whereas 39 villages have 26 to 35 per cent of the population as Scheduled Tribes. In 31 villages the percentage of Scheduled Tribes to total population is between 16 to 25 per cent whereas 27 villages have 6 to 15 per cent of the population as Scheduled Tribes and in 24 villages the percentage of Scheduled Tribes to total population is 5 per cent or less.

Table No. 18 shows the proportion of Scheduled Castes/Scheduled Tribes population in the different towns of the district.

TABLE 18

	(b) Valsad	72,969	2,199	18,294	3.01	25.07
19	Valsad INA	408	3	31	0.74	7.60
20	Vapi	19,620	783	4,742	3.99	24.17
21	Vapi INA	6,147	73	626	1.19	10.18
22	Vijalpor			*(See Navsari Urban Agglomeration*		
	Total	**388,862**	**15,702**	**93,313**	**4.04**	**24.00**

It will be seen that the proportion of Scheduled Castes population to the total population is maximum in Abrama town. In the case of proportion of Scheduled Tribes population to total population is maximum in Dharampur town.

Literacy rates in villages and towns

The literacy rate in the district which as 37.50 in 1971 Census has increased to 46.95 during the 1981 Census. This is higher than the State literacy rate of 43.70. The district ranks 6th in the literacy rates in the State during the 1981 Census. The male literacy rate is 55.74 and female literacy rate is 37.99 which are both higher than the State literacy rate of 54.44 and 32.30 respectively.

Literacy rates by population range of villages

Table No. 19 shows the literacy rates of the different population ranges of the villages of the district.

TABLE 19

Literacy rates by population ranges of villages

Sl. No.	Range of Populotion	No. of villages in each range	Literacy Rate
1	2	3	4
1	Less than 200	27	9.77
2	200 - 499	104	22.80
3	500 - 1,999	467	36.57
4	2,000 - 4,999	191	47.00
5	5,000 - 9,999	30	49.68
6	10,000 and above	2	42.97
	Total	***821**	**42.38**

* Exclusive of 1 uninhabited village and 4 entire villages included in Valsad Urban Agglomeration.

It is seen from these figures that the literacy rate is directly connected to the population size of the village, the increase in size of population also shows the increase in literacy rate. In the district two villages in population range of 10,000 and more shows the literacy rate higher than the State literacyrate. Out of 821 villages, 598 villages in the population range upto 1,999 have literacy rate below the district literacy rate 42.38 whereas 223 villages in the population range of 2,000 and more have literacy rate higher than the district literacy rate.

Literacy rates of towns

Table No. 20 shows the literacy rates of the towns of the district.

TABLE 20

Literacy Rates for Towns

Sl. No.	Name of Town	Literacy Rate
1	2	3
1	Abrama	*(See Valsad Urban Agglomeration)*
2	Atul	74.81
3	Bansda	55.41
4	Bilimora	63.97

Scheduled Castes/Scheduled Tribes population

The proportion of Scheduled Castes population to total population is vary from 0.57 per cent in Dharampur taluka to 5.22 per cent in Umbergaon taluka. The respective proportion in the rural area of talukas vary from 0.54 per cent in Dharampur taluka to 5.06 per cent in Umbergaon taluka. In the urban areas of talukas the same vary from 0.96 per cent in Dharampur taluka to 7.19 per cent in Umbergaon taluka. As regards the proportion of Scheduled Tribes to total population it is vary from 93.96 per cent in Dharampur taluka to 29.37 per cent in Navsari taluka. In the urban areas of talukas it vary from 18.58 per cent in Chikhli taluka to 49.12 per cent in Dharampur taluka.

The lowest and highest percentage of Scheduled Tribes population to the total population in the rural areas of the district are found in Gandevi taluka and Dharampur taluka with 33.68 and 96.79 per cent respectively.

Literates

The proportion of literate population to the total population of the talukas vary from 19.70 per cent in Dharampur taluka to 60.02 per cent in Gandevi taluka. The highest and lowest proportion of literate persons to the total rural population of the talukas are found in Gandevi taluka 57.79 and Dharampur taluka 17.52 respectively. The proportion of literate persons to the total urban population of the taluka, vary from 54.16 per cent in Dharampur taluka to 69.94 per cent in Chikhli taluka. The taluka of Umbergaon, Chikhli, Bansda and Dharampur have literacy rate below the district literacy rate of 46.95.

Workers and Non-workers

The proportion of main workers and marginal workers to the total population is 36.38 and 6.40 per cent respectively in the district. It is also worth nothing that proportion of main workers in respect of male and female workers to the total male and female population of the district is 53.50 and 18.94 correspondingly, whereas quite reverse trend is noticed in respect of marginal workers where proportion of male workers and female workers is 1.05 and 12.46 respectively. From table No. 21 it will be seen that in respect of urban areas of the talukas the proportion of male main workers to the total male population of the taluka vary from 49.85 per cent in Dharampur taluka to 56.97 per cent in Pardi taluka. The respective percentage of female workers vary from 7.44 per cent in Navsari taluka to 13.50 per cent in Dharampur taluka. It is also evident that the number of total marginal workers in rural areas in each taluka is very high as compared to its counterparts urban areas. The proportion of total workers to total population vary from 37.15 per cent in Gandevi taluka to 52.63 per cent in Dharampur taluka. The respective proportion also vary in case of male workers from 52.37 per cent in Umbergaon taluka to 58.33 per cent in Dharampur taluka.

Growth rate, density and sex ratio of urban population

Table No. 22 shows the growth rate, density and sex ratio of urban population in the district in relation to the state.

TABLE 22

Growth, density and sex ratio of urban population in the district in relation to the state

Sl. No.	Census Year	Valsad District					
		Total population	Urban population	% Urban population	Decadal percentage Variation in Urban population	Density (population per sq. km.)	Sex Ratio (No. of Females per 1000 Males)
1	2	3	4	5	6	7	8
1	1951	937,380	123,409	13.17	..	N.A.	966
2	1961	1,137,801	181,655	15.97	+47.20	2,341	942
3	1971	1,428,742	256,416	17.95	+41.16	2,368	919
4	1981	1,774,136	388,862	21.92	+51.65	2,704	896

TABLE 22 - Contd.

Sl. No.	Census Year	Gujarat State					
		Total population	Urban population	% Urban population	Decadal percentage Variation in Urban population	Density (population per sq. Km.)	Sex Ratio (No. of Females per 1000 Males)
1	2	9	10	11	12	13	14
1	1951	16,262,657	4,427,896	27.23	..	N.A.	920
2	1961	20,633,350	5,316,624	25.77	+20.07	2,799	896
3	1971	26,697,475	7,496,500	28.08	+41.00	1,625	893
4	1981	34,085,799	10,601,653	31.10	+41.42	2,225	905

It is observed from the table that the proportion of urban population to total population in Valsad district is lower than the State average during all the four censuses. The urban population in the district which was 123,409 in 1951 Census is now 388,862 in 1981 Census. The density of population in 1981 Census at 2,704 persons per sq. km. which was 2,368 persons per sq. km. in 1971 Census. The sex ratio which was 966 female per 1,000 males in 1951 Census has come down to 896 females per 1,000 males in 1981 Census.

Proportion of slums population in towns

Table No. 23 shows the proportion of slums population in towns.

TABLE 23

Proportion of slums population in towns

Sl. No.	Class, Name and Civic status of Town	Proportion of the slums population to total population of the town	Desity in slums (per Sq. Km.)
1	2	3	4
1	I Navsari (M)	0.81	4,300
2	II Valsad (M)	Not reported by Municipal Authority	

It can be seen from this table that 0.81 proportion of slum population to total population of the town is found in Navsari (M). The density in slum area of Navsari (M) is 4,300 per sq. km.

Valsad Municipal authority has not reported the information. Hence the information of Valsad (M) is nil in this table.

New towns added / towns declassified in 1981 census

Table No. 24 given below gives the information of new towns added or towns declassified in 1981 Census.

It can be seen from the table that nine new viz. Valsad INA, Kosamba, Parnera, Vapi INA, Umbergaon INA, Devsar, Sari Bujrang, Mahuwar and Vijalpor have been added as new towns during 1981 Census with population of 408, 7771, 6314, 6147, 912, 6363, 5770, 5827 and 12206 respectively.

As regards declassification it can be observed that only one town, namely, Udwada, which has a population of 4,582 persons is declassified in 1981 Census.

TABLE 24

New towns added/towns declassified in 1981 census

Sl. No.	Name of Town	Population 1981 Census
1	2	3
(a)	Added	
	(i) Valsad INA	408
	(ii) Kosamba	7,771
	(iii) Parnera	6,314

PART XIII-B

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE FOR PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1981 Census provides information in respect of each village in rural area and town/ward in Urban area. It gives information about the area of the village in hectares and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literates. The entire population of village/town/ward is divided into main workers, marginal workers and non-workers and main workers are further divided in to four broad industrial categories as under :

1 Cultivators (I)

2 Agricultural Labourers (II)

3 Household Industry
Manufacturing, Processing, Servicing and Repairs [V(a)]

4 Other Workers [III, IV, V(b) & VI to IX]

The sexwise break-up of total main workers (industrial category I to IX) has been presented in addition to similar break-up for each broad industrial category of workers, marginal workers and non-workers.

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :

1	Municipal Corporation	MC
2	Municipality	M
3	Non-Municipal Area	NM
4	Nagar Panchayat	NP
5	Village Panchayat	VP
6	Cantonment	Cantt.
7	Notified Area	n.a.
8	Industrial Notified Area	INA
9	Not Available	NA
10	Urban Agglomeration	UA
11	Out-growth	OG

The following conversion factor has been used for converting acres into hectares and hectares into KM.^{2} :

Acres X 0.40467 = Hectares
Hectares X 100 = Km^2.

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Taluka/Mahals will not tally with the district figures because the former represent 'land use' area are derived from the figures supplied by the Director of Laud Records.

These represent Provisional "Geographical area" figures supplied by the Surveyor General. Figures for urban area are thaoe supplied by the local bodies. figures for rural area are derived by subtracting the urban area from the total area of the district. The total of the area figures of Talukas/Mahals will not tally with the district figures because the former represent "Land Use" area and are derived from the figures supplied by the Director of Land Records.
Area included in Malvan L. C. No. 1)
