Initial planning for large scale development of Petrochemical Industry in India commenced in the early 60's.

I.P.C.L. Vadodara is fully owned by the Govt. of India. Under the direction of this undertaking, one big IPCL is established near Vadodara at the cost of Rs. 400 crores. This is the first Public Sector undertaking of its king in the country. In this complex Aromatics plant was the first to commence in 1973 and Naphtha—Cracker plant was second to commence and to go into production in 1978. The complex of IPCL comprises the Aromatics plant, Olefins plant and Down-stream units, such as Low Denisity Polyethylene, Polypropylene, Polybutadiene Rubber, Ethylene Glycol, Linear Alkyl Benzene, Acrylonitrile, Acrylic Fibre, Acrylates and Vinyl Chloride/Polyvinyl Chloride. The complex includes integrated off site facilities comprising 18 systems, the research centre and the production applicatlon centre.

Petrochemicals are the substitutes of traditional materials for industrial and domestic goods and resulted not only the technological superiority of the products but also a prise advantage over the traditional materials like metal, wood, glass, cotton, wool, natural rubber, leather, timber, etc. For a developing economy such as ours Petrochemicals are of very great economy relevance from the point of view of supplementing material resources as well as providing employment.

# FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and ward-wise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory. Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspec particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The

addition of the columns on civ ic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The district and Tahsil/Police Station/C D Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of *Shri R. S. Chhaya* the Director of Census Operations, *Gujarat* on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

# PREFACE

The District Census Handbooks are printed during every decadal Census from 1951. These District Census Handbooks are prepared by the Census Organisation and DCHB unit of the State Government. These are published by the State Government at their own cost. The District Census Handbooks are the first Publications in the series of 1981 Census Publication. The Census Organisation has been collecting an enormous data both during the Census Enumeration period as well as after the Census Enumeration period. This data is very valuable to the Administrators, Economists, Planners, Research Workers, Scholars and other intelligentsia and also to the several institutions dealing with social-economic and developmental aspects of the State. It is absolutely necessary that this data after its collection is printed in the time and reaches the data users also in time. It is a matter of great satisfaction that the present volume is being published in the minimum possible time after the Census count.

The Census count in Gujarat State was taken during the period February–March 1981. The provisional figures collected through the District Census officers were published and presented to the Chief Minister of Gujarat State on 23rd March, 1981. After the declaration of the provisional count six Regional Tabulation Offices were opened at different places in the State. Three such Regional Tabulation Offices were opened at Ahmadabad, one at Vadodara, one at Surat and one at Rajkot. The Census records were edited and checked in these offices and the Primary Census Abstract for all the areas of the State were prepared. For this purpose 1,102 Tabulators, 184 Checkers and 61 Supervisors were temporarily engaged for a period of ten months. These offices were supervised by Deputy Directors of Census Operations who were taken on deputation from the State Government.

The District Census Handbook for the 1981 Census is published in two parts as follows :

I. **Part A**

(1) Village Directory

(2) Town Directory

II. **Part B**

District/Talukawise Primary Census Abstract

Both the Parts A and B of the District Census Handbook for 1981 Census have been combined and printed in one volume.

The Village Directory contains comprehensive information about the basic amenities available at the village leval such as medical, educational, drinking water, etc. The Town Directory also consists of information about the status, growth history, municipal finances, civic and other amenities, etc.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Castes/Scheduled Tribes population and the information pertaining to workers and non-workers. A special feature of the 1981 District Census Handbook is the inclusion of Scheduled Castes/Scheduled Tribes Primary Census Abstracts which gives complete District/Taluka/Townwise data on Scheduled Castes/Scheduled Tribes.

The data for the Village Directory has been collected through the Taluka Development Officers who in turn obtained the data from the village officials through their Statistical Assistants. In the District Census Handbook Cell this data subjected to a very close scrutiny and inaccuracies or deficiencies where noted were again got checked through the Statistical Assistants. For this purpose persons were deputed to the districts for obtaining the informations quickly. The area figures as reported by the village officials were also checked with the figures reported by the District Inspectors of Land Records. Utmost

care has been taken to see that the spellings of the villages are correct. Some of the data collected from the village level has also been cross-checked with the data which was supplied by the different Directorates and the Heads of the Departments of the State Goverment. The information pertaining to the District write-up (Item V of the Analytical Note) has been obtained through the Collector and the District Development Officers and the other district heads.

The data on Town Directory has been obtained through the various local bodies such as Municipal Corporation, Municipalities, Nagar Panchayats and Gram Panchayats. These were also checked in the Directorate by a Special Cell.

The Primay Census Abstract and Town Directory with their Inset Tables have been prepared in the Directorate whereas Village Directory alongwith its Inset Tables have been prepared in District Census Handbook Cell.

**Maps**

In each volume one district map showing the taluka boundaries, location of towns and villages having a population of 5,000, comunications, etc. has been printed. Taluka maps for each of the talukas in the district are also inserted in the District Census Handbook. These taluka maps indicate the boundaries of the villages and towns within the taluka and the location code numbers of each village. The maps were prepared in the map section of the Director of Census Operations.

**Acknowledgement**

The compilation of a huge mass of data which is printed in this book requires the active help and co-operation of the State Government in addition to the help and co-operation of all the officers and staff members of the Census Directorate. I am deeply indebted to Shri H. K. L. Kapoor, Chief Secretary to the Government of Gujarat for extending all help in the matter. Shri K. Rammoorthy who was working as Secretary, General Administration Department, during the Census Enumeration period extended his wholehearted co-operation. Shri V. Krishnamurthy who subsequently took over as Secretary, General Administration Department, also tookactive interest in the progress of Census work. I would like to make a special mention about the extra facilities granted by the State Government by way of creation of a Special Cell for the compilation of District Census Handbooks. One post of Deputy Director and several posts of Research Assistants, Statistical Assistants, Clerks and Typists have been sanctioned by the State Government specially for the coilmpation of the data. The services of all these persons were placed at the disposal of the Directorate for the compilation work.

Shri G. S. Shah, Director, Bur eau of Economics & Statistics, Government of Gujarat, also rendered very valuable help by providing whatever data was required for cross-checks and by providing personnel for the Special Cell of District Census Handbook.

The Collectors and the District Development Officers incharge of the districts and the Municipal Commissioners incharge of the Municipal Corporation areas, have extended their wholehearted co-operation for the Census work. The Resident Deputy Collectors, the Deputy Collectors incharge of Sub-Divisionals, the District Statistical Officers, the Deputy District Development Officers, the Mamlatdars, the Taluka Development Officers, the Chief Officers of the Municipalities, the Deputy Mamlatdars and the Statistical Assistants at the District/Taluka levels, all played an important role in the Census work. I express my deep gratitude to all of them. After the Census count a large number of young boys and girls coming right from the schools and colleges were employed as Tabulators, Checkers and Supervisors and all of them worked very hard for the compilation of the useful data.

Shri P. T. Thakkar, Director of Printing and Stationery, Government of Gujarat, has taken the interest in the printing of the Handbooks. I here by acknowledge the valuable help, guidance and assistance rendered by him and other officers of the Printing Department. Shri P. K. Choksi, Printing Inspector in this Directorate, looked after the printing jobs very well.

In the Census Directorate Shri J. K. Patel, Deputy Director of Census Operations (Tech.) was looking after the Compilation Section so far as Census data was concerned. The collection and compilation of data for the Village Directory was looked after by Mrs. Neelaben A. Bhatt, Deputy Director whose services were placed at the disposal of the Directorate. Both these officers have put in hard labour for the compilation and printing of the data.

Shri K. H. Desai, Shri V. A. Sathe, Shri K. R. Shridharani and Shri S. D. Vadera, who were officers on deputation from the Gujarat Administrative Service, supervised the editing, checking and compilation work at the Regional Offices in Ahmadabad, Surat, Vadodara and Rajkot respectively. Shri P. J. Jhala and Shri M. A. Malwade, who were officers on deputation from the State Government from the Bureau of Economics and Statistics, supervised the editing, checking and compilation work at Regional Tabulation Offices in Ahmadabad. Shri V. H. Vasavada, Deputy Director from the General Administrative Service looked after the administration work. All these officers worked diligently and accurately during their service in the Census Organisation.

In the Directorate Shri J. K. Patel, Deputy. Director was assisted by Shri R. V. Sanghani and Smt. D. D. Jhala, Investigators and Satistical Asistants Shri K.P. Patel, Shri R.R Upadhyay, Kum. J.R. Megha, Smt. M.B. Patel and Smt. K.S. Mehta. The typing of Primary Census Abstract was undertaken in a special section which was headed by Investigator Shri M. H. Patel. In the State Cell of District Census Handbook Smt. Neelaben A. Bhatt, Deputy Director was assisted by the Assistant Director Shri V. R. Gandhi and Research Assistants Kum. T. K. Shah and Smt. S. B. Solanki and Statistical Assistants Smt. H. A. Patel, Smt. C. C. Mehta, Shri S. V. Patel and Shri P. K. Shastri.

In the Map Section the work of preparation of State/ District / Taluka maps was looked after by Shri K. M. Dhawale, Senior Geographer and Shri B. L. Arya, Geographer. They were ably assisted by Shri K. K. Patel, Artist, Sarvashri M. S. Bhatt and B. J. Modi Senior Draftsmen and Sarvashri D. A. Maroo, R. K. Joshi, G. M. Kosti, B. C. Trivedi and M.A. Shukla, Draftsmen.

The work of dictations and typing of notes, reports, tables, etc., was undertaken by Shri J. A. Harry, Confidential Assistant in the Directorate, diligently with speed and accuracy. He was assisted by a number of Typists in the office.

Limitations of space prevent me from making individual mention of all those who have contributed to the making of this volume so accurate and complete. Quite a large number of Assistant Compilers, Computors, Clerks, Typists, Proof Readers, Draftsmen, Artist, etc., have contributed valuable help in this work.

Finally, I would like to express my deep gratitude to Shri P. Padmanabha, IAS, Registrar General, Government of India, and Sarvashri K. K. Chakravorty, V. P. Pandey, N. G. Nag and Dr. B. K. Roy, Deputy Registrars General, for the guidance given to me from time to time.

## ANALYTICAL NOTES AND TABLES

### 1. Census concepts of rural and urban areas and other terms, viz., Census House, Household, Sheduled Castes, Scheduled Tribes, Lterates, Main Workers, Marginal Workers, Non-Workers, etc.

The 1981 Census was carried out in Gujarat in two stages. The first stage of houselisting was completed in the months of June-July 1980. The houselists thus prepared provided a frame for the enumeration work. In the second stage the house to house Census enumeration was carried out from 9th February, 1981 to 28th February, 1981 with reference date as Sunrise of 1st March, 1981. The enumeration of houseless population was carried out on the night of 28th February, 1981. A revisional round was also taken from 1st March, 1981 to 5th March, 1981. In this revisional round the Enumerators recorded new births that had taken place after their last visit for enumeration but before the Sunrise of 1st March, 1981 and also any visitor(s) that had moved into household and who had been away from his/her/their place of normal residence throughout the enumeration period or an entire household that had moved into the jurisdiction of the enumeration during this period and which had not been enumerated before. The names of persons who had died after the enumeration period but before the Sunrise of 1st March, 1981 were deleted from the Individual Slips which had been filled up during enumeration period.

In Gujarat prior to the taking of 1981 Census a special programme of updating permanent house-numbering scheme in the different parts of the State was also carried out in co-ordination with the Local Bodies and State Government. The permanent house-numbering scheme in Gujarat was introduced during the 1971 Census and the District/Taluka Panchayats, Municipal Corporations, Municipalities, Nagar Panchayats and Village Panchayats played a very useful role in fixing the number plates on the houses and buildings.

After the Census count was over the Enumerators submitted the figures to the Charge Officers through their Supervisors. These figures were obtained by the Director of Census Operations through the District Census Officers and the figures after compilation were declared on 23rd March, 1981 as Provisional Census Figures for 1981 Census. Paper 1 showing those figures was printed and published and distributed on a complimentary basis.

During the Census Operations mainly two Census records were filled up by the Enumerators in each block. These were (1) Household Schedules and (2) Individual Slips. The different concepts which were adopted during the houselisting stage as well as during the Census enumeration are as follows.

**(I) Rural and Urban Areas**

*Rural Areas :* The basic unit for rural areas is a revenue village which has a definite boundary. The revenue village may comprise several hamlets but the entire village has been treated as one unit for presentation of the data.

*Urban Areas :* Urban areas have been specifically defined for the 1981 Census. The criteria adopted during the 1981 Census was almost the same as adopted in 1961 and 1971 Censuses. The following criteria were adopted for classifying urban areas in the States :

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria :

1 A minimum population of 5,000;

2 At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity;

3 A population of at least 400 persons per sq. km. or a population of 1,000 per sq. mile.

The slight variation of the criteria adopted in 1981 and that adopted in 1961-1971 Censuses was that during 1981 Census the persons working in activities such as fishing, logging, etc., were

treated as par with cultivators and agricultural labourers whereas in 1961-1971 Censuses these were treated as engaged in non-agricultural activity.

**(II) Census House**

A 'Census House' is a building or part of a building having separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both. In case of a building having a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, were considered as separate Census houses.

**(III) Census Household**

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated household are boarding houses, messes, hostels, residential hotels, rescue homes, jails, etc. These are called 'Institutional Households'.

**(IV) Scheduled Castes/Scheduled Tribes**

The Scheduled Castes and Scheduled Tribes as notified under the Constitution for Gujarat State have been treated as Scheduled Castes and Scheduled Tribes for the purpose of Enumeration. A list of such Scheduled Castes/Scheduled Tribes notified for Gujarat is as under :

**(V) Literates**

A person who can both read and write with understanding in any language is taken as 'literate'. A person who can merely read but cannot write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

**(VI) Main Workers, Marginal Workers, Non-Workers**

During the 1981 Census 'Work' had been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. The work involves not only actual work but also effective supervision and direction of work.

The reference period for 'Work' is one year preceding the date of enumeration. The main-worker was a person who had worked for the major part of the year in that activity. By major part of the year it was intended to find out as to whether a person had worked for 183 days or more or in other words worked for six months or more. Those who had worked for less than six months or 183 days were treated as marginal workers. A Non-Worker was one who had no economical activity during the year.

The information on 'Workers and Non-Workers' were obtained through Q. Nos. 14(a) to 16 of the Individual Slip. The main activity of workers has been classified into four categories, viz., cultivator, agricultural labourer, household industry and other worker. These terms are explained below :

**Cultivator**

For purposes of the Census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) will not be treated as cultivator.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajri, ragi, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

**Agricultural Labourer**

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

**Household Industry**

Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precinct of the house where the household lives in urban areas. The larger proportion of workers in a household industry

should consist of member of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factory Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this is not to be treated as 'HHI'. Thus, the meaning of the term 'run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion applies in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry, but at a place away from the precincts of their home, it is not to be considered a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a Pleader or Doctor or Barber, Musician, Dancer, Waterman, Dhobi, Astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of the household.

**Other Workers**

All workers, i.e., those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in Household Industry, are 'Other Workers'. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, Municipal employees, teachers, priests, entertainment artists, etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry, are 'Other Workers'.

## II. Brief history of the District and District Census Handbook

### [A] History of the District

The district comprieses part of Baroda district of the former Baroda State and former Indian States of (1) Chhota Udaipur, (2) Sankheda Mewas, (3) Pandu Mewas and (4) Bhadarva. Baroda which was the capital of Baroda State is now the headquarter of the district and is situated at the bifurcation point of Bombay-Delhi and Bombay–Ahmadabad Section of western Railway.

The Marathas invaded Gujarat in A. D. 1705 and took the advantage of the confusion that ensued after the death of Mogul Emperor Aurangzeb in A. D. 1707. Peshwa Balaji Vishwanath advanced on the viceroy of Gujarat Khaderao Dabhade, Maratha Senapati, at the outset intended to acquire from the Moguls the right to levy the tribute and then Chauth and Sardeshmukhi. They obtained many sands to levy tributes from Emperor Muhammad Shah at Delhi. From this time their right to levy tribute in Gujarat was confirmed. Shortly after 1720, the Senapati received authority from the Raja of Satara to realise the dues established by usage from Gujarat and Balglan. One of his officers named Damaji Gaekwad, who had shown much gallantry in the battle, received from the Shahu Raja of Satara the title of Samsher Bahadur (Illustrious Swordsman). On Damaji's death which occurred in 1721, his place of Lieutenant to Senapati was filled by his nephew Pilaji, the son of Jhingoji Gaekwad. Later Pilaji was given by the peshwa the title of Sena Khas Khel (Commander of the Special Band). The military power of Maratha forced Sarbulandkhan, the Mogul Viceroy at Ahmedabad to recognise their right of Chauth and Sardeshmukhi in Gujarat. Pilaji Gaekwad then founded the House of Gaekwad at Baroda betwe en 1721-1732 which

existed as a separately princely State till it merger in Bombay State in 1949. The Chhota Udaipur Chiefs claim to belong to the clan of Khichi Chohans whose Chief Anhal is said to have been created bp Vashishtha Muni out of the Agni Kund on Mount Abu. According to the bardic accounts, a descendent of Patai Rawal alias Jaysinh, the last Chohan Raja of Champaner eastablished a small kingdom at Mohan or Alimohan on the banks of the river Narmada. In the course of time probably during the decay of Mogul power in the early part of the 18th centuary, the capital was moved 20 miles north to Chhota Udaipur on the banks of the river Or. Baji Rawal is said to have founded Chhota Udaipur. It continued to remain a separate State till it was merged in Bombay province in 1949.

Sankheda Mewas estaes-some of the consisting of one or two villages and with proprietors little more than husbandmen, were under seven groups, viz., the Chohan group, the Rathod group, the Chavda group, the Gorigroup, the the Dhima group, the Solanki group, and the Parmar group. All these eastate have been merged with the Bombay province after Independence and now from part of Baroda district. The proprietors Pandu Mewas estates were tributary chief. All these groups of estates were merged with Bombay State in 1949 and included in Baroda district.

In November, 1956, the States were reorganised and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions and Vadodara district became a part of the bigger bilingual State.

Lastly, the bilingual Bombay State was bifurcated on 1st May. 1960 and separate States of Gujarat and Maharastra were formed. Since that dat the Vadodara district became a part of the Gujarat State.

**[B] History of District Census Handbook**

Prior to the 1951 Census the Census figures were brought out villagewise under a booklet known as 'Village Handbook' which contained only the population totals of villages. These books were prepared by the Census Organisation on behalf of the State Government and published by the latter. It was for the first time in 1951 Census that a more detailed and well organised book known as 'District Census Handbook' was brought out by the Census Organisation. The 1951 Census Handbook contained the villagewise Primary Census Abstracts which also included the information on post offices, railway stations and the nearest bazars of each village. The Handbook also contained several district tables.

During the 1961 Census the District Census Handbooks were brought out which contained the Primary Census Abstracts as well as certain district tables.

During 1971 Census also the District Census Handbooks were published which in addition to the Primary Census Abstracts contained a Village Directory showing the different village amenities and land-use of all the villages in the district. A separate portion known as 'Town Directory' was also included in the District Census Handbook. The Handbook was divided into three subparts known as Part-A, which contained the Village Directory and Town Directory, Part-B which contained the Primary Censns Abstracts and Part-C which contained the Introductory Essay, Official Statistics, etc.

For the 1981 Census the District Census Handbook is being brought out in two Parts, Part XIII-A and Part XIII-B. Part XIII-A will contain the Village and Town Directory whereas Part XIII-B will contain the Primary Census Abstracts both General and Scheduled Castes and Scheduled Tribes. The Part-C as it was brought out during the 1971 Census has been dropped.

**III. Scope of Village Directory, Town Directory and Primary Census Abstract**

The District Census Handbooks which are now being printed during every Census after the 1951 Census, are very important publications of the Census Organisation. With the emphasis by the Planning Commission on the 'Minimum Needs Programme' of the rural areas the District Census Handbook has become an important tool in the hands of the Administrators, Planners, Policy Makers and Academicians. For the 1981 Census the District Census Handbook has been divided into two parts which are

combined in one volume. The details of the contents of each of these two parts are as follows.

## PART-A : VILLAGE AND TOWN DIRECTORY

### Village Directory

This Part-A contains the non-census statistics of each village and town in the district. The Village Directory gives villagewise particulars of amenities available for each village in the spheres of education, medical, power supply, drinking water, post and telegraph, communication, land-use, weekly markets and places of religious, historical and archaeological interests in the village. During the 1981 Census additional information regarding (1) copies of the newspapers coming in the village, (2) number of motor-cycles and scooters available in the village, (3) number of cars and jeeps available in the village and (4) number of tractors available in the village have been added. The above non-census data of the Village Directory was collected from the Taluka Development Officers of each Taluka Panchayat in the State. In Gujarat under the democratic decentralisation scheme the Panchayats are now exercising very wide powers and the post of Statistical Assistants are under the administrative and technical control of the Taluka Panchayats. Besides, the Talati-*cum*-Mantris at the village level who are the base village functioneries are also under the control of the Taluka Panchayats. The proforma for soliciting the information were despatched to the Talati-*cum*-Mantris through the Taluka Development Officers and there after they were filled up were checked by the Taluka Development Officers and also by the District Statistical Officers who work under the administrative and technical control of the District Panchayats. The data thus received was checked fully in the District Census Handbook Unit of the State Government. At the end of Village Directory a taluka abstract in Appendix-I of educational, medical and other amenities is also prepared and printed. Appendix-II which shows the land utilisation data in respect of non-municipal towns is printed. In Appendix-III the talukawise list of villages where no amenities relating to educational, medical, drinking water, post and telegraph, communications, power supply and market/hats, are available have been shown. Appendix-IV shows talukawise list of villages according to the proportion of Scheduled Castes/Scheduled Tribes population by ranges. The last two appendices have been included for the first time in the 1981 Census.

### Town Directory

The Town Directory portion furnishing the *data for each town in the district is exhibited* in seven statements covering (1) the status and growth of the civic administration, (2) physical aspect and location of towns, (3) the civic finances of the towns, (4) the civic and other amenities in the towns, (5) the medical, educational, recreational and cultural facilities in the towns, (6) trade, commerce, industries and banking in the towns and lastly (7) the civic and other amenities in notified slums wherever they exist.

The non-census data for each of the towns for the Town Directory were obtained from the Municipal authority in case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. An Appendix showing the towns with their outgrowths with population is also prepared and attached at the end of the Town Directory.

## PART-B : PRIMARY CENSUS ABSTRACT

Part-B gives for each village and for each ward of the town the primary census data incorporating area of the town in sq. kms. and of the villages in hectares, the number of occupied residential houses, the number of households, total population and its break-up by sex, Scheduled Castes and Scheduled Tribes population, literate population and working population by four broad categories, viz., (1) cultivators, (2) agricultural labourers, (3) those working in household industries and (4) other workers. There is a slight departure in the presentation from the 1971 categories which were in all nine categories.

The Scheduled Castes/Scheduled Tribes Primary Census Abstracts at the District/Taluka/town level are also printed in Part-B of the Handbook.

## IV. Physical aspects, highlights on the changes in the jurisdiction of the district during the decade including its boundaries and any important event on geographic or geophysical aspect

There have been no major jurisdictional changes in the district boundaries during the last decade. The administrative jurisdiction of all the talukas of the district as shown in 1971 Census is the same during 1981 Census except a few changes in villages/towns which are as under :

Three (3) villages of Vadodara taluka and one village each of Jetpur Pavi and Chhota Udaipur talukas which were rural areas in 1971 Census have been classified as towns for the purpose of enumeration in 1981 Census. These villages are as under :

| Sl. No. | Taluka | L.C.No. | Name of village |
|---|---|---|---|
| 1 | Vadodara | 17 | Bajwa |
| | | 27 | Chhani |
| | | 54 | Tarsali |
| 2 | Jetpur Pavi | 83 | Jetpur |
| 3 | Chhota Udaipur | 231 | Kavant |

Over and above Nandesari Industrial Notified Area and Petro-chemical Complex Industrial Notified Area of Vadodara taluka which have been notified by the State Government under G. R. Nos. CHU-75/4041/GID 1974/4084 (V & VI)-CH dated 6-5-75 are also treated as towns for the purpose of 1981 Census.

In addition to the above rural/urban changes 4 places (one each in Vadodara and Savli Taluka and two in Jetpur-Pavi Taluka) are added as independent villages in 1981 Census as these villages are independent villages as reported by the concerned revenue authorities. These villages are as under :

| Sl. No. | Taluka | L. C. No. | Name of village |
|---|---|---|---|
| 1 | Vadodara | 39 | Raypu a |
| 2 | Savli | 133 | Lamdapura |
| 3 | Jetpur-Pavi | 72* | Umarva |
| | | 73* | Rampura |

* Villages transferred from Chhota Udaipur taluka.

Moreover, 38 villages of the district are deleted from the village list of 1981 Census as these villages have been reported to be hamlets of nearby villages/town are by the concerned revenue authorities. These villages are as under :

| Sl. No. | Taluka/ Mahal | L.C. No. | Name of village during 1971 Census | L.C. No. | Name of village in which included as hamlets during the 1981 Census |
|---|---|---|---|---|---|
| 1 | Vadodara | 36* | Gotri | I | Vadodara |

Major characteristics of the district particularly in relation to the economic resources, namely, Agriculture, Irrigation, Co-operation, Livestock and Animal Husbandary, Fisheries, Industries, Power Supply, Transport and Communication, Prices, Insurance, Education, Medical and Public Health, etc.

### [1] Agriculture

*(a) Land Utilisation*

The total reporting area in the district in the year 1979-80 was 7.77 lakh hectares. The details of land utilisation for the year 1979-80 are as under :

**Land Utilisation**

| Sl. No. | Classification of area | Area in '00 hectares |
|---|---|---|
| 1 | Forest | 794 |
| 2 | Barren and uncultivable land | 63 |
| 3 | Land put to non-agricultural use | 662 |
| 4 | Culturable waste | 319 |
| 5 | Permanent pasture and other grazing land | 332 |
| 6 | Land under miscellaneous tree crops and groves not included in area sown | .. |
| 7 | Current fallows | 191 |
| 8 | Other fallows | 26 |
| 9 | Net area sown | 5,385 |
| | **Total area** | **7,772** |

*(b) Area Under Major Crops*

Area under major crops in the year 1971-72, 1975-76 and 1980-81 are shown in the table below :

**Area under different Crops**

| Sl. No. | Crop | Area under different crops (in '00 hectares) | | |
|---|---|---|---|---|
| | | 1971-72 | 1975-76 | 1980-81 |
| 1 | Rice | 528 | 435 | 540 |
| 2 | Jowar | 511 | 483 | 608 |
| 3 | Maize | 126 | 225 | 201 |
| 4 | Wheat | 108 | 155 | 182 |
| 5 | Bajri | 192 | 186 | 149 |
| 6 | Other Cereals | 282 | 340 | 105 |
| 7 | Total Cereals | 1,747 | 1,824 | 1,785 |
| 8 | Tur | 148 | 209 | 322 |
| 9 | Gram | 24 | 14 | 17 |
| 10 | Other Pulses | 117 | 130 | 134 |
| 11 | Total Pulses | 289 | 353 | 473 |
| 12 | Cotton | 2,783 | 2,591 | 1,972 |
| 13 | Groundnut | 176 | 199 | 155 |

The above figures show that the main food crops are Rice, Jowar, Maize, Wheat Bajri, Tur and Gram, whereas non-food crops are Cotton and Groundnut.

*(c) Yield per Hectare*

During the year 1971-72, 1975-76 and 1980-81 the yield per hectare of important crops in the district is as under :

**Yield per Hectare**

(in Kg.)

| Sl. No. | Crop | 1971-72 | 1975-76 | 1980-81 |
|---|---|---|---|---|
| 1 | Wheat | 1,611 | 2,099 | 2,131 |
| 2 | Summar Bajri | .. | 995 | 1,477 |
| 3 | Kharif Jowar | 728 | 598 | 1,383 |
| 4 | Ravi Jowar | 809 | 755 | 1,140 |
| 5 | Rice | 876 | 903 | 627 |
| 6 | Ravi Pulses | 391 | 333 | 364 |
| 7 | Potatoes | 27,631 | 16,830 | 13,410 |
| 8 | Sugarcane | 5,045 | 4,800 | 4,625 |
| 9 | Groundnut Kharif | 989 | 1,155 | 596 |

*(d) Crop Calendar*

The months of sowing and harvesting of different crops are given below :

**Crop Calendar**

| Sl. No. | Crop | Months of sowing | Months of harvesting |
|---|---|---|---|
| 1 | Paddy | June | September-November |
| 2 | Wheat | November-December | March-April |
| 3 | Jowar | September-October | February-March |
| 4 | Bajri | June | August-September |
| 5 | Groudnut | June | November-December |
| 6 | Cotton | June | February-April |

*(e) Scarcity*

The scarcity affected villages in the district during the year 1971-72 to 1979-80 are as under :

Vadodara and Sinor talukas have higher percentage of cultivable area to total area 94.23 and 94.14 per cent respectively, whereas the percentage of other talukas varies between 62.23 to 88.99 per cent. Sinor and Karjan have irrigation facilities of about 45 per cent and 34 per cent respectively to the total cultivable area whereas Tilakwada Mahal is very poor in irrigation.

**Note on Town Directory**

The list of urban areas for the purpose of 1981 Census was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any area as an 'urban area,

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria :

(i) A minimum population of 5,000;

(ii) At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity;

(iii) A population of at least 400 persons per sq. km. or a population of 1,000 persons per sq. mile.

The Town Directory has been complied in seven statements given in the Section II for all the urban areas of the district. For presentation of the data, the towns of the district have been arranged in alphabetical order. The details of the data covered in these statements are as follow :

**Note on Statement I**

Townwise details relating to status and growth history are given in this statement by arranging the towns in alphabetical order. The civic administrative status of each town has been recorded in Col. 2 of the statement, Col. 5 shows the area of the town in sq. km. whereas Col. 6 shows the number of households including houseless population. Cols. 7 to 15 shows the decadal growth history beginning from 1901 to 1981. The last Cols. 16 to 19 shows the density and sex ratio of 1961, 1971 and 1981 for each of these towns. Out of 19 towns, 1 towns has Municipal corporation, 1 has Municipality, 5 have nagar panchayats, 8 have village panchayats, whereas two towns are non-municipal town and the areas of remaining two towns are notified as industrial areas. There is only one city in the district which has a population of more than one lakh i. e. Vadodara city. The towns of Dabhoi and Padra have population 44,357 and 30,702 persons respectively. Chhota Udaipur has a population of 18,243 persons whereas Karjan has a population of 15,447 persons. The remaining towns are below the population of 15,000. There are eleven to towns viz. Bahadarpar, Bajwa, Bodeli, Fertilizernagar. Jawaharnagar, Jetpur, Kavant, Petro-Chemical Complex, Sankheda, Sinor and Vaghodia which have a population of more than 5,000 but less than 10,000. Nandesari town has a population of only 1,504 persons.

The population growth rate of the different towns from 1901 to 1981 have been shown from cols. 7 to 15 of statement-I. It will be seen from this statement that during the last decade Vadodara city have shown maximum growth rate of 57.11 per cent. Jawaharnagar towns have shown growth rate of 32.61 per cent respectively, which is higher than the growth rates of the district. Karjan town has a growth rate of 29.07 per cent whereas Chhota Udaipur has a growth rate of 27.47 per cent. Padra has a growth rate of 26.72 per cent and Vaghodia has a growth rate of 24.42 per cent whereas Bodeli has a growth rate of 22.68 per cent. The growth rate of rest of the towns vary from 4 to 17 per cent.

It is also interesting to note that population of Vadodara city has been more than double within last 20 years from population of 309,716 in 1961 to 734,473 in 1981. This steep rise is due to rapid industrial growth of city.

**Note on Statement II**

This statement gives the physical aspects of the location particulars of towns.

Particulars regarding temperature and rainfalls have been obtained from the Director General of Observatories, Meterological Department, Government of India.

Distance between Gandhinagar, the State Headquarters and the towns of the district vary from the minimum of 120 kms. from Nandesari to a maximum of 250 kms. from Kavant. The District Headquarters, Vadodara city is 147 kms. away from Gandhinagar, the State Headquarters. The towns except Fertilizernagar, Jawaharnagar, Kavant, Nandesari, Petro-Chemical Complex and Tarsali are conected by railway. All the towns have bus facility.

**Note on Statement III**

This statement gives the details of town finances. The statement shows the receipts and expenditure under several heads. The receipts are shown differently for (1) Receipts through taxes, (2) Revenue derived from municipal property and power apart from taxation, (3) Receipts through Government grants, (4) Receipts through loans, (5) Receipts through advances and (6) Receipts through other sources. The expenditure side has been

classified as expenditure on (1) General Administration, (2) Public Safety, (3) Public Health, (4) Public Works, (5) Public Institutions and (6) Others. On the basis of this statement, Table No. 8 has been prepared which shows per capita receipt and expenditure of all towns of the district.

**Per capita receipt and expenditure in town**

Table No. 8 shows the per capita receipt and expenditure in the different cities and towns.

# PRIMARY CENSUS DISTRICT

## EXPLANATORY NOTE FOR PRIMARY CENSUS ABSTARCT

Primary Census Abstract of 1981 Census provides information in respect of each village in rural area and town/ward in urban area. It gives information about the area of the village in hectares and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literates. The entire population of village/town/ward is divided into main workers, marginal workers and non-workers and main workers are further divided into four broad industrial categories as under :

1 Cultivators (I)

2 Agricultural Labourers (II)

3 Household Industry -
Manufacturing, Processing, Servicing and Repairs [ V(a) ]

4 Other Workers [ III, IV, V(b) & VI to IX ]

The sexwise break-up of total main workers (industrial category I to IX) has been presented in addition to similar break-up for each broad industrial category of workers, marginal workers and non-workers.

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :

| | | |
|---|---|---|
| 1 | Municipal Corporation | MC |
| 2 | Municipality | M |
| 3 | Non-Municipal Area | NM |
| 4 | Nagar Panchayat | NP |
| 5 | Village Panchayat | VP |
| 6 | Cantonment | Cantt. |
| 7 | Notified Area | n. a. |
| 8 | Industrial Notified Area | INA |
| 9 | Not Available | NA |
| 10 | Urban Agglomeration | UA |
| 11 | Out-Growth | OG |

The following conversion factor has been used for converting acres into hectares and hectares into $Km^2$ :

Acres x 0.40467 = Hectares

Hectares x 100 = $Km^2$.

• These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local authorities. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.

• These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local authorities. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.
