GUJARAT

VILLAGE & TOWNWISE PRIMARY CENSUS ABSTRACT

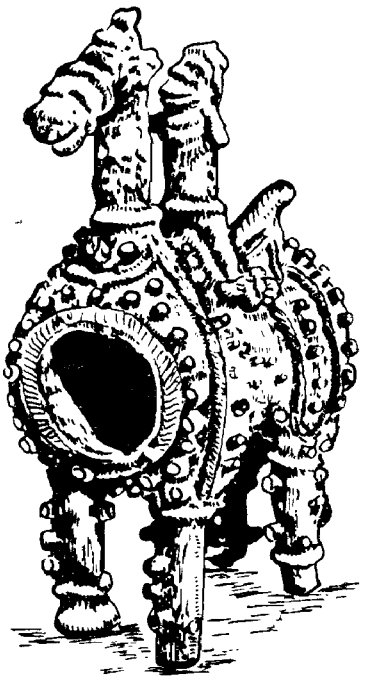

DISTRICT CENSUS HANDBOOK

VADODARA DISTRICT

C. C. DOCTOR
of the Indian Administrative Service,
Director of Census Operations
Gujarat

Gujarat is the home of 3,734,422 tribal people constituting 13.99 per cent of the State's total population of 26,697,475. They are the inheritors of an art tradition that is the product of long development and continues to this day in unbroken succession. Isolated communities till recent times, their traditions of their art have been passed down by oral transmission from mother to daughter and father to son and reveals an inspiration and outward expression in forms and motifs that have remained basically unchanged through the years. Many of the art forms of the Adivasis are the result of deep spiritual experience or have their roots in dream, story, myth or legend. Significant forms have thus survived without major alteration through centuries during which the underlying myths and legends have remained basically the same.

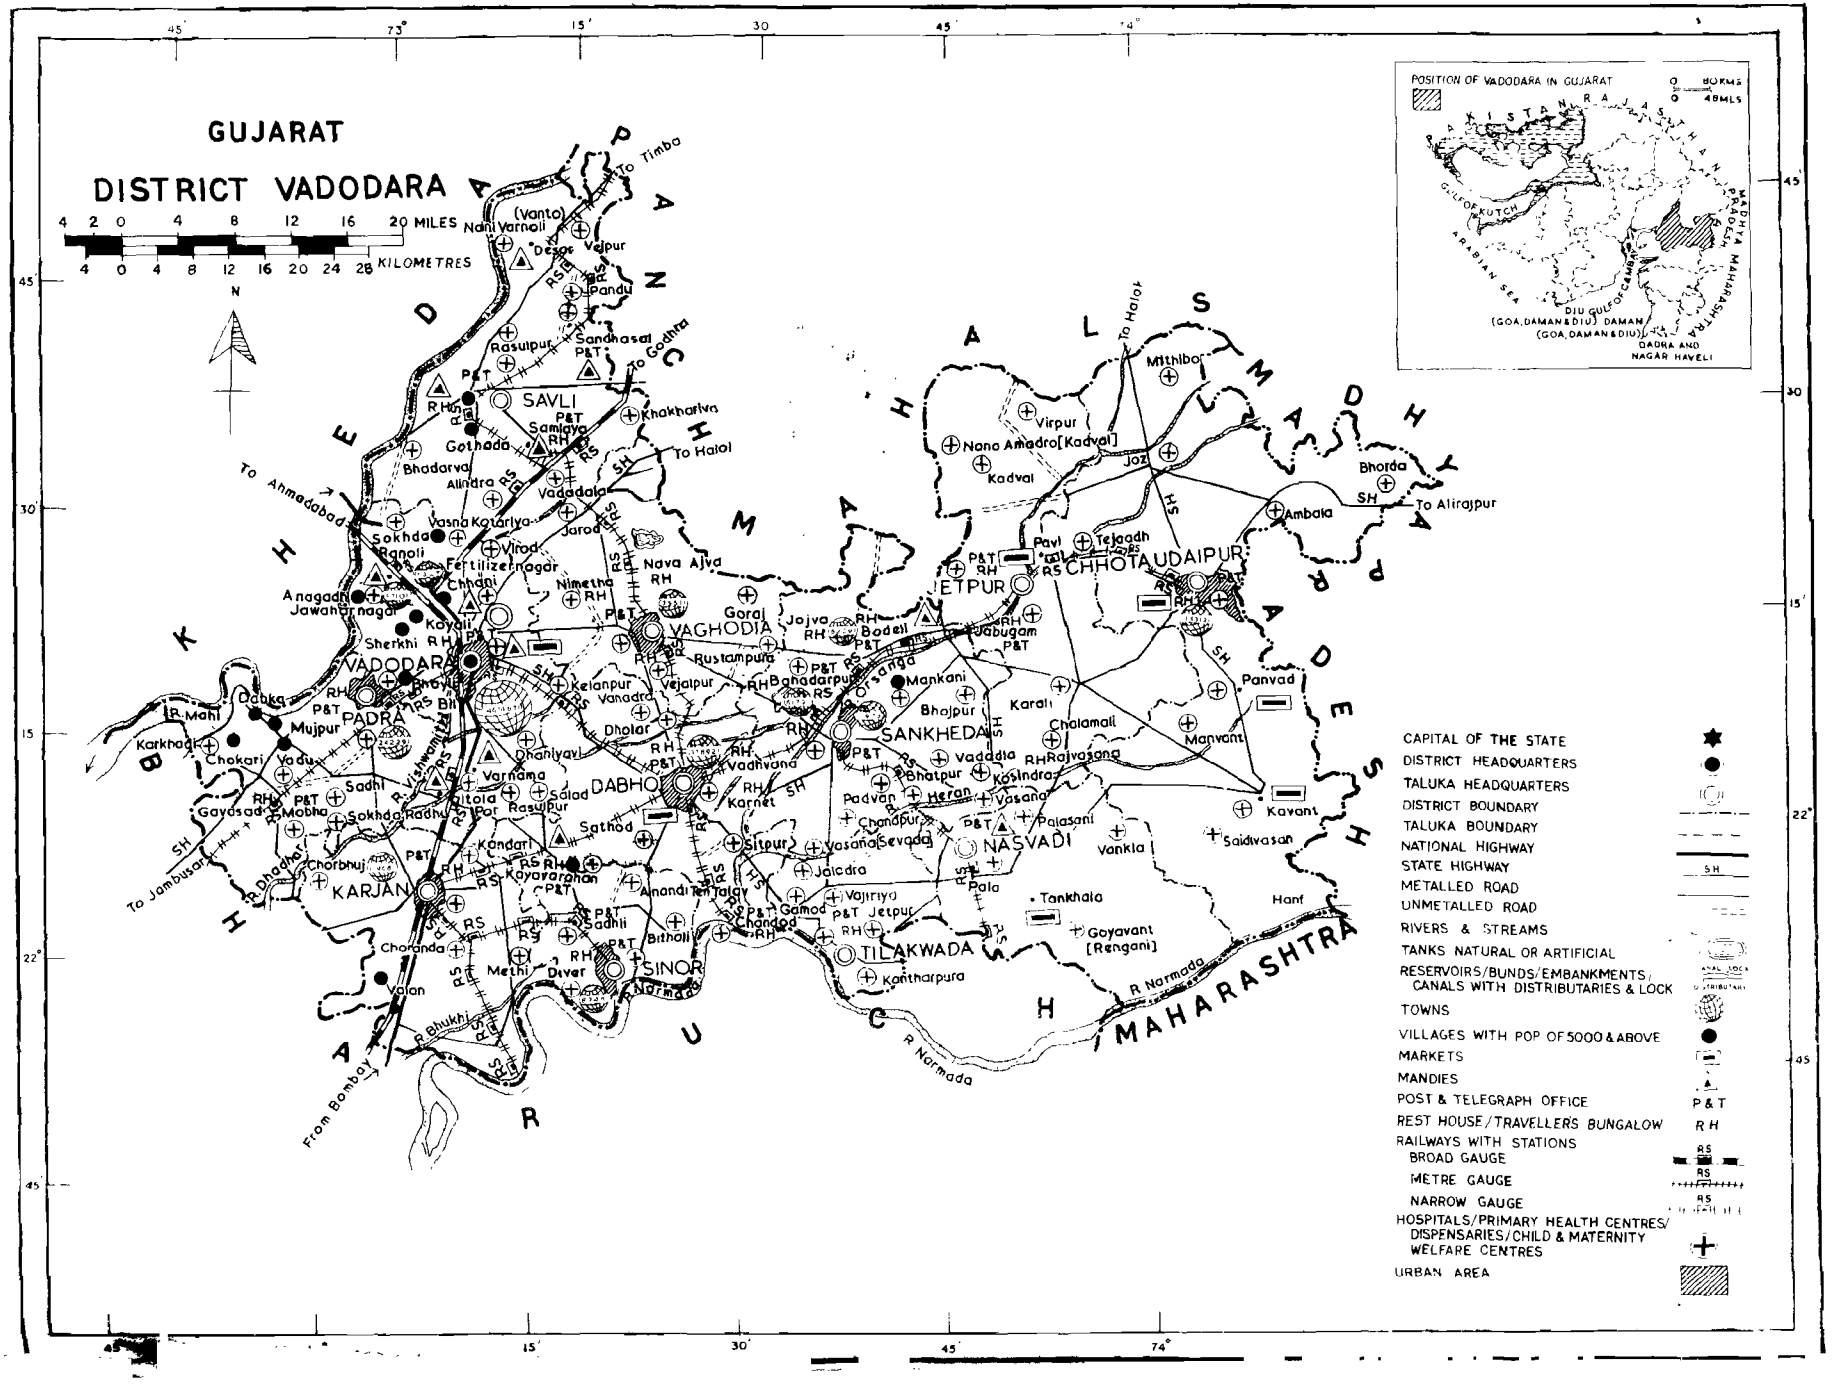

They have taken the material of their crafts from the environment around them. One of the commonest materials used was clay, exploiting the plasticity of which they never seem to have tired. Terracotta objects are produced on an unimaginably large scale and for a variety of purposes. The rich diffusion of terra-cotta products of innumerable shapes and sizes that may still be found in any area of Gujarat inhabited by the tribal people is testimony to the fact that this tradition still continues uninterrupted.

The beautiful horse and rider displayed on this volume comes from the Chhotaudaipur region of Vadodara District. The horse and rider are executed in red clay and show a fine eye for line and symmetry. 23.89 per cent of the population of the District is tribal.

(Block from an ink tracing by K. D. Vaishnav, Geographer, from a photograph of a specimen at the Tribal Research Institute, Ahmadabad)

PREFACE

The District Census Handbooks are being published regularly since 1951. Earlier they were brought out under the name of "Village Handbooks" and contained only the population totals. They are prepared by the Census Organisation on behalf of the State Government and published by the latter. They are the first to be published in the series of 1971 Census publications, which are now to follow. The need for making available to the State Government, the Census data as early as possible after the taking of the count, has been recognised since long. It is a matter of deep satisfaction that the present volume is being published within a year of the taking of the Census.

The data collected during 1971 Census was tabulated initially at three Regional Tabulation Offices at Surat, Rajkot and Bhavnagar for rural areas and one more Tabulation Office at Ahmedabad which dealt with the slips of urban areas only. The data abstracted at the Regional offices was brought to Ahmedabad where it was compiled for the State as a whole and is now being published.

The District Census Handbook contains primary data upto the village level for rural areas and enumerator's block level for urban areas. It is for the first time that in 1971 Census we are giving information about urban areas of the State in a separate part called the "Town Directory". We are also giving comprehensive information about rural areas in the "Village Directory". This is further supplemented by the Alphabetical List of Villages for facility of reference.

It has been decided to bring out the District Census Handbooks of 1971 in three parts as under :—

Part A

(1) Town Directory

(2) Village Directory

Part B

(1) Urban Block and Villagewise Primary Census Abstract

Part C

(1) Analytical Report

(2) Administrative Statistics

(3) Census Tables

It was originally decided that each part would be brought out separately. But since the data for parts A and B has been prepared almost at the same time, it is decided to combine these parts into one volume. Part C which has to await the collection of official statistics from various Departments of the State Government and preparation of Census Tables, would be published separately.

The Town Directory consists of information about the status, growth history and functional category of towns and their physical aspects, location, Municipal finances, civic and other amenities like sewerage, protected water supply, fire fighting service, electrification etc. It also contains information about medical, educational, recreational and cultural facilities available at the towns. Detailed information about trade, commerce, industry and banking is also provided here. The population of the towns according to 1971 Census by religion and Scheduled Caste and Scheduled Tribe is furnished here. The Town Directory is a new feature of 1971 Census and the above information has been compiled in it for the first time.

The Village Directory contains comprehensive information about the amenities available at the village such as educational and medical, supply of electric power, drinking water facility, communication through road, rail, kutcha road, pucca road and bus route, existence of post, telegraph and telephone facilities, etc. Further information about staple food, area under various

uses like forest, cultivable land, source and extent of irrigation, cultivable waste and name of the nearest town and its distance, day on which 'bazar' is being held, if any, and its importance from religious, historical and archaeological point of view is recorded here.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Caste and Scheduled Tribe population and the distribution of working population into nine industrial categories of workers and non-workers.

The Analytical Report in Part C takes note of the social, economic and demographic changes which have occurred in the District during the last ten years. The administrative statistics are obtained from various Departments of the State Government and presented in this part which also incorporates a few of the tables generated from the data derived during 1971 Census.

There are 217 towns in Gujarat and 18,709 villages. Compilation of data for such a large number of units within such a short time was indeed a formidable task. The terms and definitions used in the schedules of the Directories were carefully studied and detailed instructions with explanatory notes, about the manner in which they were to be filled, and the source from which data was to be collected were issued by this Directorate to the Taluka Development Officers. The collection of land use data and tallying of area figures for each administrative unit presented an uphill task. The Settlement Commissioner and Director of Land Records was requested in August 1969 to confirm some of the presumptions and furnish necessary guidelines to this Organisation as to how the various figures required could be culled out from the revenue forms maintained at village level.

The printed forms of Village Directories were sent to the Taluka Development Officers with a request that they should be filled by the village officials and scrutinised at taluka level by the Statistical Assistant before returning to this office. The Development Commissioner and the Director, Bureau of Economics and Statistics, issued firm instructions to the field staff to ensure that the information was filled and scrutinised with the utmost care. After this information was received in the Census Directorate, it was subjected to a very close and rigorous checking by a cell which was specially created for the purpose. There were a number of points on which further probe became necessary, where the information was found to be incomplete or inconsistent. Our greatest hurdle was the reconciliation of area figures as reported by the village officials and those reported by the District Inspector of Land Records. A series of meetings had to be held at each District Headquarter, where the Deputy Director in charge of the District Census Handbook Unit had to remain present and point out the glaring inconsistencies reported to the Taluka Development Officers and District Inspectors of Land Records. Thanks to the dedicated efforts of all concerned, we were ultimately able to reconcile completely the area figures for each Village, Taluka and District.

It was noticed that there were minor differences in the spellings of village names reported by the Mamlatdar, Taluka Development Officer and District Inspector of Land Records. Similar differences were also noticed in the total number of villages reported by each agency. These discrepancies were reconciled on the basis of the list of villages published by Revenue Department, information obtained from taluka offices and other published sources. Location code number was given to each administrative unit at the time of taking of the Census in order to avoid repetition of their names.

The Census Directorate had obtained village-wise data relating to drinking water facility, primary and secondary school, post, telegraph and telephone, electrification etc., from the concerned Departments. The data reported in the Village Directory was cross-checked with the

official data to make it accurate and upto date. The data so processed was ultimately posted in the Village and Town Directory statements and typed in four copies. The typed data was again compared with the original manuscripts by a special cell handpicked for the purpose. The taluka totals for the area and amenities have been struck for each column. A number of inset tables have been prepared and included in the note to the District Census Handbook, as desired by the Registrar General, India.

The Town Directory statements were likewise scrutinised by a special cell in the Directorate, and the local authorities were asked to reconcile incomplete or inconsistent information wherever necessary. On account of the instructions issued by the Director of Municipalities, these references received immediate attention. The figures reported by the Municipalities have been cross checked with available statistical data.

Maps

No District Census Handbook can be complete unless it is accompanied by District and Taluka maps. We have, therefore, included at the beginning of each volume a District map showing the taluka boundaries, location of towns and large villages with population size 5000 +, communications, water features etc., and an inset map showing the position of the District in the State in hatching. A Taluka map is inserted before the Primary Census Abstract of each taluka, indicating the boundaries of each village and town within the taluka and the location code number of each village. The villages have been shown by dots of various sizes. One key map showing the location of the taluka within the District in hatching, and another key map showing the position of the District in the State have been inserted here. The urban area is hatched in both the District and Taluka maps, and is further represented by a sphere of varying size according to population.

The District and Taluka maps show several particulars by use of an appropriate symbol.

The preparation of District and Taluka maps, containing such varied information was a task of no small magnitude. The District Inspectors of Land Records had considerable difficulty even in preparing the basic maps and authenticating them. The problem was solved by requesting the Settlement Commissioner and Director of Land Records to call the District Inspectors of Land Records personally to the Office of Director of Census Operations and reconcile all the discrepancies pointed out to them and asking them to authenticate the same on the spot as far as possible, after due verification.

ACKNOWLEDGEMENTS

Compilation of such a large mass of data is impossible without the active help and co-operation of State Government. I am deeply indebted to Shri L. R. Dalal, ICS, Chief Secretary to Government of Gujarat, for agreeing to extend whatever help was sought for. I would like to make a special mention of the warm and wholehearted co-operation which was throughout extended by Shri K. V. Bhatt, Deputy Secretary in the General Administration Department, who was looking after the subject of Census. Whether it was a matter of sanction of staff or for supply of typewriters, or for additional funds for printing of the District Census Handbook volumes, it always received his most immediate attention and sanction was never denied or delayed. He showed a deep understanding of the problems of an organisation like ours, which could function in the State effectively only with the full backing of the State Government.

Shri P. B. Buch, Director of the Bureau of Economics and Statistics, Government of Gujarat, placed at my disposal the entire resources at his command for any work connected with Census. Not only he spared me a few of his best officers and men but his valuable guidance in the matter of presentation of data at several places has served us in good stead. He issued instructions to the District Statistical Officers to attend to

the collection and scrutiny of any Census data and its timely submission, as if it wa Bureau's own work. We were always assured that we could fall back upon the resources of the Bureau unreservedly in time of need. But for the wholehearted and most willing cooperation of the Bureau at all levels, the District Census Handbook volumes would not have been what they are today.

I also owe a deep debt of gratitude to Shri U. M. Bhatt, IAS, the then Settlement Commissioner and Director of Land Records for his help in finalising the meanings of terms and definitions used in the Village Directory. It is a matter of deep regret that he is no more with us today. His successor, Shri B. R. Mane Patil, IAS, was equally enthusiastic and helpful and but for the keen interest he took in the finalisation of District and Taluka maps, we would have been placed in serious difficulty.

My sincere and heartfelt thanks are due to the Collectors of the Districts for the wholehearted response I have received from them towards the efficient conduct of Census Operations. The interest and energy evinced by them in organising this vast operation is indeed praiseworthy. Their active participation and involvement in the programme had a far reaching effect on the countless enumerators and supervisors working under them. Their direct interest in the training programme has vastly improved the quality of our returns. The Assistant / Deputy Collectors working under them were made responsible for the urban areas of their jurisdiction. The Mamlatdars and Chief Officers of Municipalities who were appointed as Charge Officers of rural and urban areas respectively bore the real brunt of the work, and displayed great zeal and enthusiasm in shouldering these additional responsibilities. To the Commissioners of Ahmedabad and Surat Corporations I am particularly indebted for providing excellent accommodation for housing the Regional Tabulation Offices. To the Special Charge Officers of Railways, Police, S.R.P., Irrigation Colonies and Forest Department and others I express my gratitude for the readiness with which they stood by us. Last but not the least, my grateful thanks are due to a large number of young boys and girls, coming from schools and colleges, to work as Sorters, Compiler Checkers and Supervisors, for the hard work they put in under difficult conditions of work. They displayed a very high sense of discipline and duty and enabled us to complete our work, at every stage, according to the deadlines set. I have no doubt the traditions of hard and systematic work they have imbibed will serve them in good stead and they will advance in life. They carry our best wishes with them wherever they go.

The District Development Officers who helped us so much in collection of data at the village level through the Taluka Development Officers and the District Statistical Officers working under them, who arranged for the scrutiny of the Town and Village Directory schedules at the taluka level through the Statistical Assistants, deserve a special mention. Had the basic work not been done by them accurately we would have been faced with a serious problem at the time of compilation. To the Heads of various other Departments, who always responded readily to any request made to them for help, I am also indebted. Limitation of space prevents me from making a separate mention of each one of them.

Shri G. J. Gonsalves, Director of Government Printing and Stationery, Government. of Gujarat, who very kindly undertook to arrange the printing of some of the District Census Handbooks at Government presses and others through private presses had always been helpful in solving our difficult problems of printing. I hereby acknowledge the valuable help, guidance and assistance rendered by him in the matter of printing. Thanks are also due to the Manager, Government Photo Litho Press, Ahmedabad, at which all the District and Taluka maps as also the cover page have been printed. The care and patience with which they have attended to this work, has beautified our volumes to no small extent and increased their utility to the reader greatly.

Shri Hashim Ali Sayed, Printing Inspector, whose services were obtained on deputation from the Director, Government Printing and Stationery, rendered exemplary service by looking after the entire printing arrangement. His initiative, drive, and readiness to assume responsibility were a source of great strength to us. Everything he handled, he did perfectly well, and knew his job inside out.

I wish to place on record the valuable contribution made by my colleagues in bringing out this volume. Shri K. F. Patel, Deputy Director of Census Operations (HQ) was looking after this section before a separate staff was sanctioned by the State Government, headed by Shri S. C. Merh, Deputy Director from the Bureau of Economics and Statistics. Even after the creation of this separate cell, there were many occasions on which I had to look to him for help on account of the experience gained by him during 1961 Census. He never objected to the encroachments made on his time and energy, in spite of the fact that they were sometimes substantial. Shri S. C. Merh, Deputy Director of Census Operations (DCHB) put in hard and gruelling hours of work in spite of indifferent health to catch up with the time schedule which was once upset. Shri S. M. Shelke, Research Assistant, from the Bureau working under him, undertook almost the entire burden of Town Directories in addition to other work. Shri S. M. Nayak, Assistant Director of Census Operations, put in an indefatigable effort to ensure accuracy of the data at every stage and successfully coordinated the work throughout. The enthusiasm and energy displayed by Shri C. P. Vyas, Assistant Director of Census Operations, in the matter of preparation of inset tables for District Census Handbook volumes and several other matters connected with it deserve a special mention. The interpretation of the data of the Town and Village Directory is his personal contribution. Shri R.M. Pancholi, Statistical Assistant, prepared the inset tables to be included in the Town and Village Directory. Shri K. M. Patel, Tabulation Officer put in a very strenuous effort for the reconciliation of area figures and final checking of maps. Kr. Fateh Singh Jasol, IAS, Deputy Director of Census Operations, Urban Tabulation Unit, took upon himself, as a labour of love, the scrutiny of work with regard to the preparation of District and Taluka maps and the selection of different motifs which now decorate different volumes of the District Census Handbook. He involved himself in this work with the ardency and fervour so characteristic of him and greatly relieved me of the anxiety on this account. Shri K. D. Vaishnav, Geographer, and his team of draftsmen have produced excellent District and Taluka maps by working on them again and again to incorporate details which were pointed out or received after the maps were once prepared. Shri N. S. Bhatt, Statistical Assistant, has checked them thoroughly. Shri B. I. Patel, Tabulation Officer, in charge of the Central Tabulation Unit took upon himself the entire responsibility for the scrutiny of Primary Census Abstracts and their typing in record time. He discharged his duties with diligence and a high sense of duty. I had in him a pillar of strength on which I could lean for work demanding precision and exactitude. His capacity to turn out work at optimum efficiency in the face of time schedules rigidly set merits avowal. Shri V. A. Dhagia, Tabulation Officer, proved himself a stalwart by shouldering the burden not only of work entrusted to him, but part of the burden of every section, including the Map Section, and rendere yeoman's service. Both the Central Tabulation Units benefited greatly by the care and attention bestowed on them by Shri K. F. Patel, Deputy Director of Census Operations (HQ), whose trained eye could detect the slightest inaccuracy or inconsistency in compilation or presentation. It was due to this team work that we were able to compile such faultless data with admirable speed, and were the first to send the Primary Census Abstracts of all the Districts of the State in one bunch to the Registrar General's Office at New Delhi. Shri Patel's patience and thorough handling of work has yielded rich dividends to us. I have relied heavily on the expertise, acumen and experience of my colleagues and they have undoubtedly

given their best to the Organisation, for which I am deeply indebted to them.

Limitations of space prevent me from making an individual mention of all those who have contributed to the making of this volume so complete and faultless to all of whom I wish to express my sincere thanks.

Finally, I would like to express my very deep gratitude to Shri A. Chandra Sekhar, IAS, Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) for the valuable guidance received from them from time to time. The amount of advance thinking and planning done by them on the subject has now resulted in the production of volumes which will be of lasting value and interest to the general reader, research worker, scholar, administrator and academician.

C. C. DOCTOR,
or of Census Operations,
Gujarat.

AHMEDABAD
1st March, 1972.

PART X-A

TOWN AND VILLAGE DIRECTORY

TOWN AND VILLAGE DIRECTORY

The Town and Village Directory of the District Census Handbook 1971 differs widely in content and presentation from the corresponding volume of 1961. The earlier volumes mainly contained the Primary Census Abstract for each village for rural area and town/ward/enumerator's block for urban area and was supplemented by some additional information which was collected from (a) village notes specially devised for the purpose and (b) information supplied by Heads of Departments on certain amenities. It was presented in Col. 2 in run on fashion for each village and town followed by the Primary Census Abstract in the remaining columns.

The Town and Village Directory of 1971 Census is presented in Part A of the District Census Handbook. An attempt has been made to interpret the data thrown up in the Town and Village Directories at the beginning under the heading "Introductory Note on Town and Village Directory".

Part B of the District Census Handbook contains purely the Primary Census Abstract.

A number of abbreviations have been used in both the Directories to facilitate presentation. The abbreviations used in each statement of the Town Directory are given below in Statement A. Statement B gives a list of abbreviations used in Village Directory.

STATEMENT A
List of Abbreviations used in the Town Directory

STATEMENT I

Column : 5

1. Corporation	...	C
2. Municipality	...	M
3. Town Committee/Town Area Committee/Board	...	TC
4. Notified Area Committee/Council	...	NAC

INTRODUCTORY NOTE ON TOWN AND VILLAGE DIRECTORY

1. History of District Census Handbook

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the erstwhile Government of Bombay. In 1951, the basis of classification of the Census was changed from a social to an economic one and the figures were given in the Primary Census Abstract according to eight Livelihood Classes. The Primary Census Abstract contained the basic information in respect of every village and town. A decision to bring out the District Census Handbook giving the Primary Census Abstract and important Census tables for every district of the State was taken for the first time in 1951. Census statistics given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates and agricultural and non-agricultural classes distributed under eight main Livelihood Classes. These census statistics were further supplemented by the addition of useful administrative information on the availability of amenities in villages and towns on items like post offices, railway stations, the distance of a bazar from the village, primary schools, village panchayats, cooperative societies, etc. This was a unique achievement of the Indian Census. The 1951 series of District Census Handbooks, however varied in content and size from State to State depending upon the resources offered by the State Governments. It was, therefore, decided during the Census of 1961 that the District Census Handbooks of 1961 Census should contain a certain minimum of statistical data, maps and other useful information to be adopted uniformly throughout the country. Thus the District Census Handbook of 1961 Census differed widely in the matter of content and coverage from that published in the 1951 Census. The District Census Handbooks of 1961 were sub-divided into the following three parts :—

PART I—THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of place names

PART II—STATISTICS

(i) Census Tables

(ii) Villagewise list of Industrial Establishments.

(iii) Handicraft Tables

(iv) Departmental or Official Statistics

PART III—VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Besides Census data, the 1961 District Census Handbooks covered villagewise and townwise information on the availability of different types of amenities such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses etc., shown by means of abbreviations placed against the name of each village. Thus, in the 1961 Census an attempt was made to make the District Census Handbooks more informative.

During the 1971 Census, efforts have been made to compile both census and non-census statistics in a uniform manner under an enlarged perspective. The District Census Handbook of 1971 Census has been divided into three sub-parts with a view to making the census and non-census information available to the data users as quickly as possible. Part A of the District Census Handbook contains the Town Directory and Village Directory. Part B contains the Primary Census Abstracts and Part C contains the Introductory Essay, Official Statistics, Census tables, etc. The details of the contents in each of the parts are described in the following paragraphs.

2. Scope of District Census Handbook 1971

The District Census Handbooks are the only publications which incorporate the data down to the village and block level of a town, which are urgently and frequently required by the data users. They are constantly referred to for several purposes by the administrator, planner, policy-maker and academician. The delay in the publication, of the District Census Handbooks would reduce the value of these very useful publications. In order to avoid delay in the publication the District Census Handbooks of 1971 are sub-divided into three parts, two of which are combined in one volume, and the third published separately. The details of the contents of each of the parts are as follows.

Part A : Town and Village Directory

Part A contains the non-census statistics of each village and town. The Town Directory portion furnishes the data for each town in the district in seven statements covering (1) the status of the civic administration and the functional category of towns and the growth of population since 1901; (2) physical aspects and location; (3) Civic finances; (4) civic and other amenities; (5) medical, educational, recreational and cultural facilities; (6) trade, industry, commerce and banking facilities and (7) population by religion.

The Village Directory Section of Part A gives particulars of amenities available for each village in the matter of educational and medical institutions, power supply, drinking water facilities, post and telegraph facilities, communications, particulars of land use, weekly markets and places of religious, historical and archaeological interest in the village.

Part B : Primary Census Abstract

Part B gives for each village and for each block and ward of a town the primary census data incorporating area of the town in square kilometres, and of village in acres and gunthas, the number of occupied residential houses, the number of households, total population and its break-up by sex, scheduled caste and scheduled tribe population, literate population, and working population by nine broad industrial categories namely (1) cultivators, (2) agricultural labourers, (3) those working in livestock, forestry, fishing, plantations, etc., (4) mining and quarrying, (5) manufacturing, processing, servicing and repairing, (6) in constructions, (7) in trade and commerce, (8) transport, storage, and communications, and (9) in other services and the non-working population.

Part C : Administrative Statistics and Report

Part C would incorporate the administrative statistics, pertaining to the district in various fields of development. The census tables pertaining to the district regarding mother tongue, religion, migration, etc., will also be reproduced here. A write up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade would also be given.

The non-census data of the village directory and town directory were collected from the local bodies. The villagewise details regarding different types of amenities available at the village, land use data and other information were collected in the village directory form through the taluka Panchayat offices. These forms were filled by the village officials and were scrutinised by the Statistical Assistants at the Taluka level. The District Statistical Officers supervised the work and carried out percentage scrutiny. The details regarding the number of villages having post and telegaraph facilities in the State, those connected with electric power supply, those having all weather and fair weather bus facilities, and those without drinking water facilities etc., were obtained from the concerned departments by the Office of the Director of Census Operations. The information recorded in the village directory forms was cross checked with the data obtained from concerned departments, confirmed and made up-to-date.

The non-census data for each of the towns were obtained from the municipal authorities in case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. The information received from the concerned municipalities and panchayats was scrutinised and cross checked with other published official statistics for a few items wherever it was possible.

3. Note on Town Directory

A. The list of urban areas, for the purpose of 1971 Census, was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any area as an urban area.

(1) All places where there is a Municipal Corporation, or a Municipality or a Town Committee or a Notified area or a Cantonment Board have been treated as urban areas.

(2) The remaining places were recognised as enjoying urban Characteristics and declared urban areas only if the following conditions were fulfilled:—

(a) The estimated population at 1971 Census should be at least 5000.

(b) The density of Population per sq. kilometre should not be below 400.

(c) 75 per cent of the male working population should follow non-agricultural pursuits, and,

(d) In the opinion of the Director of Census Operations any other place where predominant urban characteristics are noticed.

B. The town directory has been compiled in the following seven statements for all the urban

areas of a district. For presentation of the data all the towns of a district are arranged in alphabetical order. In Appendix I to the Town Directory all the towns of a district are arranged according to their location code numbers. The details of the data covered in these statements are given below :—

Statement I

Statement I gives the details relating to the status of the town, growth history of towns since 1901 and their functional categories of towns in 1961 Census and 1971 Census.

Statement II

This statement gives details of physical aspects and location of the towns. Under physical aspects are given details relating to altitude of the towns (in metres) annual rainfall (in m.ms) and minimum and maximum temperature (in centigrade). The statement also gives the details of distance of the towns from the nearest city with population of 1 lakh and above, from State Headquarters, from District Headquarters, subdivisional and Taluka Headquarters, from the nearest railway station and bus route. It also gives details as to whether or not the town has a navigable river or canal within 10 km. and the name of sea port within 50 km.

Statement III

This statement gives details of Civic finance for the year 1968-69. It covers the receipts under different heads like receipt through taxes, receipt derived from Municipal Property and powers, Government grant, loans, advances and other sources. It also covers the items of expenditure on different heads like general administration, public safety, public health and convenience, public works, public institutions and others.

Statement IV

This statement gives details about civic and other amenities. It covers information on the type of road with length, system of sewerage/ drainage, number of latrines by types, methoed of disposal of night soil, source and capacity of protected water supply and availability of fire fighting services. The statement also gives details of the number of electric connections by types.

Statement V

This statement gives the details relating to medical, educational, recreational and cultural facilities in the towns. The details relating to medical institutions by types and number of beds in each type of institution are covered. Details regarding different types of educational institutions are given. It also covers details relating to facilities of stadia, cinemas or drama halls and libraries.

Statement VI

This statement covers the details relating to trade, commerce industry and banking. The statement gives details of three most important commodities imported in the towns, three important commodities exported from the towns and three important commodities manufactured in the towns. It also gives the details of number of banks and cooperative credit societies.

Statement VII

This statement gives the population of the towns by religion. Data for this table is extracted from 1971 Census data.

C. Four more areas of the District acquired urban status during the 1971 Census in addition to the nine such areas already existing since 1961 Census. With the post-1961 merger of Gorva in Vadodara City the tally of urban areas from 1961 Census was reduced from 9 to 8. Thus, with the addition of the four new urban areas of Bodeli, Fertilizernagar, Jawaharnagar (Gujarat Refinery) and the Vaghodia, there are now 12 areas in the District enjoying urban status.

D. There are no town agglomerations in the district but Padra town and Vadodara City have out-growths. The details of such out-growths are given in Appendix II to the Town Directory.

Details of Standard Urban Areas in the district are as under :—

District	Standard area and Component Units	Civic Status	Area in Km.^{2}
Vadodara	Total Vadodara S.U.A.		N.A.
	Urban Components		
	Vadodara City		N.A.
	Vadodara	M.C.	78.13
	Makarpura Village (part)		N.A.
	Total Urban group		N.A.

District	Standard area and Component Units	Civic Status	Area in Km.^{2}
	Rural Components		
	Bapod		3.47
	Harni		13.57
	Sama		4.50
	Gorwa		2.16
	Tarsali		6.11
	Kalali		3.98
	Ataladra		4.10
	Tandalja		4.19
	Karodia		2.15
	Bajuwa		1.91
	Jambuwa		6.24

	Vasna-Saiyad		2.77
	Samiyala		4.99
	Bil		7.49
	Bhayali		18.36
	Udera		3.35
	Dhanora		3.34
	Karchiya		2.22
	Anagadh		11.37
	Ajod		4.06
	Padamla		6.95
	Nandesari		7.85
	Sankarda		7.34
	Fajalpura (Sankarda)		6.14
	Nizampura, Danteshwar, Manjalpur, Akota, Jetalpur, Subbanpur, Wadi-wadi	Included in the limits of Vadodara Municipal Corporation.	
	Rayaka		5.95
	Makarpura (Kasba)		4.28
	Total Rural group		**231.14**

Note of Statement I

Townwise details relating to status, growth history and functional categories are given by arranging the towns in alphabetical order. The civic administration status of each town has been recorded in column 5 of the statement by using the following abbreviations:—

Status	Abbreviation
1. Corporation	C
2. Municipality	M
3. Town Committee/Town area Committee/Board	TC
4. Notified area Committee/Council	NAC
5. Cantonment Board	CB
6. Nagar Panchayat/Panchayat	P
7. Non-municipal/Non-Town Committee/ Non-Panchayat Committee	NM

Vadodara City has a corporation whereas one town in the district has a municipality and 8 towns have panchayats. (2 have nagar panchayats and 6 have gram panchayats). With the implementation of the Panchayat Act in Gujarat from 1-4-1963 places having population of more than 10,000 but less than 20,000 have been given the status of Nagar Panchayats and those having a population of less than 10,000 persons have been notified as Gram Panchayats. Jawaharnagar and Fertilizernagar towns are company townships. It can be seen from the statement that there is one town in the district having a population of more than one lakh. No town in the district has a population between 50,000 and one lakh. Those having a population of more than 20,000 but less than 50,000 number 2 as against 1 in 1961; those having a population of of more than 10,000 but less than 20,000 number 2 as against 3 in 1961 and those having a population of more than 5,000 but less than 10,000 are 7 as against 4 in 1961.

Columns 14 and 15 of the statement gives the functional category of the towns according to 1961 Census and 1971 Census. The method adopted for determining the functional category is uniform for 1961 (Atlas Volume) and 1971 Census. The functional categories are worked out on the basis of the following formula.

The nine Industrial Categories of workers adopted in 1971 Census are grouped into five sectors as follows :—

	Categories
(1) Agricultural and its allied activities	I, II,III & IV
(2) Industrial including construction	V & VI
(3) Trade & Commerce	VII
(4) Transport, Storage & Communications	VIII
(5) Other Services	IX

The Percentage of workers under each of the above five groups to total working population is worked out for each of the towns. These towns are then classified according to their percentage values which will determine the characteristic of the town as Primary activity, industrial, commercial, transport and service, etc., on the following basis:—

(i) If one sector of the economy absorbs more than two-fifths of the total working population (i. e. more than 40 per cent) then the town would be designated by that particular industrial category which is found predominant, e. g. industrial, Commercial, transport, service or Primary.

(ii) If the percentage falling under any one industrial category is less than 40, then the next predominant industrial category is taken into account, so that their total reaches three fifths of the working population i.e. 60 per cent. Such a town would then be designated as industry-*cum*-service town or commerce-*cum*-transport town etc., as the figures may indicate.

(iii) If the total of any two categories does not come upto 60 per cent, then the third predominant industrial category in order of merit is taken into account and after 60 per cent of the working population is accounted for the town is designated as industry-*cum*-service-*cum*-transport town and so on.

On the above basis each of the towns has been assigned functional categories. Table No. 1 below gives the distribution of towns by different functional categories. It can be seen that 5 towns have one functional characteristic, 2 towns have two and 5 towns have three characteristics.

TABLE No. 1

Distribution of towns by functional categories

Functional Category--1971	Number of Towns
1	2
1. One Characteristic :	
(a) Primary activities	3
(b) Industry	2
	5
2. Two Characteristics :	
(a) Industry-*cum*-Services	1
(b) Services-*cum*-Industry	1
	2
3. Three Characteristics :	
(a) Primary activities-*cum*-Commerce-*cum*-Industry	1
(b) Primary activities-*cum*-Services-*cum*-Commerce	1
(c) Industry-*cum*-Primary activities-*cum*-Commerce	1
(d) Commerce-*cum*-Industry-*cum*-Primary activities	1
(e) Commerce-*cum*-Industry-*cum*-Services.	1
	5
Total	12

Note on Statement II

This statement gives the physical aspects and the location particulars of towns. Particulars regarding data on the altitude of the towns have been obtained from the Director, Survey of India, Western Circle, Abu. Details regarding temperature and rainfall have been obtained from the Director General of observatories, Meteorological Department, Government of India and the Regional Meteorological Centre, Colaba, Bombay. However, data on rainfall and temperature were not available from the above offices for many towns. In such cases data have been collected from local sources, and remarks to that effect are given at the footnote of the statement.

It would be seen that Chhota Udaipur, Bodeli and Sankheda towns are on higher altitude compared to the rest of the towns in the District. The altitude in these towns varies from 77.0 metres to 141.0 metres above mean sea level. At Bahadarpur, Vaghodia and Dabhoi it varies from 45.1 metres to 61.0 metres. The altitude of Vadodara, the district Headquarters is 34.0 metres. In the rest of the towns, altitude varies from a minimum of 27.0 metres at Padra to a maximum of 36.5 at Fertilizernagar and Jawaharnagar (Gujarat Refinery). The rainfall also varies considerably from town to town. The minimum rainfall (520.0 m.m.) was recorded at Fertilizernagar and Jawaharnagar (Gujarat Refinery), whereas the maximum was recorded at Chhota Udaipur (1629.0 m.m.). The climate is hot and dry in the summer season lasting from the middle of March to the middle of June. Temperature ranges between 42°c to 47°c during the summer in most of the towns. The cold season lasts from the middle of November upto about February during which the minimum temperature reaches upto 8.9°c (recorded at Chhota Udaipur and Padra towns). Vadodara is the nearest City having more than 1 lakh population for all the towns in the district. Of the towns of the district Jawaharnagar (Gujrat Refinery) is the nearest to Vadodara (6 km.) whereas Chhota Udaipur is the farthest (100.0 km). The distance of Gandhinagar, the State Headquarters, from the towns of the district varies from a minimum of 130.4 km. (from Fertilizernagar) to a maximum of 235.4 km. (from Chhota Udaipur). Bodeli, Chhota Udaipur and Sinor towns are more than 50 km. away from the district headquarters. All the towns of the district except Fertilizernagar and Jawaharnagar (Gujarat Refinery) are connected by railway. Fertilizernagar and Jawaharnagar (Gujarat Refinery) which are not connected by railway are respectively 2 km. and 1 km. away from the

nearest railway station Bajwa. All the towns are connected by bus routes. There is no navigable river or canal within 10 km. of any town of the district nor is there a sea port within 50 km. of any of the towns of the District.

Note on Statement III

This statement gives details of town finance. In the district one town has a Municipal Corporation, one town has a Municipality, 2 have Nagar Panchayats and 6 towns have Gram Panchayats. Two townships Fertilizernagar and Jawaharnagar (Gujarat Refinery) are managed by the respective companies. The following table shows the per capita receipt and expenditure by size class of town.

TABLE No. 2

Per capita receipt and expenditure by size class of towns

Size Class of Town	Number of Towns	Per Capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total Receipt	Receipt through taxes	Receipt from all other sources	Total expenditure	Expenditure on public health and conveniences	Expenditure on public institutions	Expenditure on all other aspects
I 100,000 and over	1	93.78	34.20	59.58	52.61	19.75	6.91	25.95
II 50,000 to 99,999	.	...	...	...	...	...	...	...
III 20,000 to 49,999	2	30.29	16.92	13.37	31.62	9.60	8.51	13.51
IV 10,000 to 19,999	2	35.13	18.43	16.70	32.38	5.76	5.99	20.63
V 5,000 to 9,999	7	172.19	9.80	162.39	170.79	26.87	4.72	139.20
VI Below 5,000	...	...	...	...	...	...	...	...

It would be seen from the above figures that the per capita total receipt is higher in the towns having a population between 5,000 and 9,999 (Rs. 172.19) than the rest of the categories. It is followed by class I towns of 100,000 and above (Rs. 93.78). The per capita receipt in the towns having population between 20,000 and 49,999 and 10,000 and 19,999 is Rs. 30.29 and Rs. 35.13 respectively.

The per capita receipt through taxes is highest in the class I towns (Rs. 34.20). It is Rs. 18.43 in the class IV towns and Rs. 16.92 in the class III towns. It is lowest at Rs. 9.80 in the towns having population between 5,000 and 9,999.

It can also be seen that per capita receipt through other sources is highest at Rs. 162.39 in the towns having population between 5,000 and 9,999 and lowest at Rs. 13.37 in the towns having population between 20,000 and 49,999. It is Rs. 16.70 in the towns having population between 10,000 and 19,999.

As regards per capita expenditure it is lowest at Rs. 31.62 in the towns having population between 20,000 and 49,999. A nearly equal level of per capita expenditure (Rs. 32.38) is noticed in the towns having population between 10,000 and 19,999. It is Rs. 52.61 in the towns having population of 1,00,000 and above and is highest at Rs. 170.79 in the towns having population between 5,000 and 9,999.

The per capita expenditure on public health and conveniences is highest (Rs. 26.87) in the towns having population between 5,000 and 9,999 and lowest (Rs. 5.76) in the towns having population between 10,000 and 19,999. Expenditure on public institutions is Rs. 6.91 in the towns having population of 100,000 and above. Expenditure on all other items is highest (Rs. 139.20) in towns having population between 5,000 and 9,999 and lowest (Rs. 13.51) in the towns having population between 20,000 and 49,999. The higher rates of per capita income and expenditure in class V towns is mainly on

account of higher income and expenditure in Fertilizernagar and Jawaharnagar towns.

Note on Statement IV

Statement IV shows the civic and other amenities available in the town. The following abbreviations are used in the statement.

Column 3	**Abbreviation**
Road Length	
1. Pucca Road	PR
2. Kutcha Road	KR
Column 4	
System of sewerage/drainage	
1. Sewer	S
2. Open Surface Drainage	OSD
3. Kutcha Drainage	KD
4. Cess Pool	CS
5. Pit System (or soak pits)	PT
Column 8	
Method of disposal of night soil	
1. Head Load	HL
2. Baskets	B
3. Wheel Barrows	WB
4. Septic Tank latrines	ST
5. Sewerage	S
6. Soak pits or leaching pits	PT
7. Tractor, Trailor, Trolleys or Night Soil Tankers	T
Column 9	
Source of protected water supply	
1. Tap Water	T
2. Tube Well	TW
3. Well Water	W
4. Tank Water	Tk
5. River	R
6. Fountain	F
7. Canal	C
8. Others	O

Only four towns viz., Fertilizernagar, Jawaharnagar (Gujarat Refinery), Karjan and Vadodara have sewers. Two towns viz., Chhota Udaipur and Sankheda have open surface drainage and seven towns have soak pits for disposal of waste water. Modern underground sewerage yet requires to be constructed in most of the towns of the district. Waterborne latrines obtain in most of the towns as also service latrines which are found in all towns except Fertilizernagar, Jawaharnagar (Gujarat Refinery). Much remains to be done for conversion of service latrines into water borne ones. Night soil is transported in 7 towns as head load and in 4 towns by wheel barrows. Three towns have sewerage for disposal of night soil.

All the towns have protected water supply. Ordinary surface wells are the main source of water supply.

Of the District's 12 towns, 10 have fire fighting services, Sinor and Vaghodia being devoid of this amenity. All the towns of the district are electrified.

Details regarding domestic, commercial, industrial and other connections are given in the statement. The Following definitions have been applied for each of the terms used.

1. Domestic

(*i*) *Heat and Power*

Service to a household: supply to cooking ranges, refrigerators, air conditioners, etc., used in the house-hold.

(*ii*) *Lights and Fans*

Service to a house which needs only lighting and fan connections.

2. Commercial

(*a*) *Heat and Power*

The same as 1(i) except that the use is for commercial purposes i.e., shops, restaurants, etc.

(*b*) *Lights and Fans*

Same as 1(ii) above except that the use is for commercial purposes i.e. shops, restaurants, etc.

3. Industrial

Power service to any installation at

(*i*) *Low and medium voltage*

Upto 100 HP load for use in establishments such as flour mills, oil mills, ice factories, etc.

(*ii*) *High voltage*

Connections given for industrial purpose at a voltage of 11 KV and above.

4. Street Lighting

Power service given for providing light in the streets of village or town.

5. Others

(*i*) *Irrigation and Agricultural Dewatering*

Power given to farmers for pumping water for agricultural purpose.

(*ii*) *Public water supply and sewerage pumping*

Power service given for pumping and/or preparation of potable water supply in villages/towns and for pumping sewerage in the villages or towns.

Note on Statement V

The statement gives details relating to medical, educational, recreational and other cultural facilities in the town. In the case of medical institutions only Government, Semi-Government and charitable institutions have been covered. The abbreviations used in the statement to denote the various types of medical and educational institutions are explained below :—

Column 3

Type of medical institutions	Abbreviation
1. Hospital	H
2. Dispensary	D
3. T. B. Clinic	TBC
4. Health Centre	HC
5. Nursing Home	NH
6. Maternity Centre	M
7. Child Welfare Centre	CW
8. Family Planning Centre	FC
9. Other Medical Institutions	O

Column 5

Type of College	Abbreviation
1. Arts College only	A
2. Science College only	S
3. Commerce College only	C
4. Arts & Science College only	AS
5. Combined Arts Science and Commerce College	ASC
6. Arts & Commerce College only	AC
7. Law College	L
8. Law & Education College	LE

There is no town without one or the other type of medical facility. Hospital facilities are available in 7 towns. Two towns have maternity centres, one town has a tuberculosis clinic and 9 towns have family planning centres. The following table gives particulars of number of beds available in each town.

TABLE No. 3

Medical Facilities

Sl. No.	Name of Town	Number of beds in medical institutions	Number of beds per 1000 population
1	Bahadarpur	15	2.52
2	Bodeli	17	2.73
3	Chhota Udaipur	44	3.07
4	Dabhoi	81	2.14
5	Fertilizernagar	20	3.75
6	Jawaharnagar (Gujarat Refinery)	20	3.50
7	Karjan	34	2.84
8	Padra	12	0.50
9	Sankheda	10	1.25
10	Sinor	3	0.36
11	Vadodara	1519	3.25
12	Vaghodia	11	1.46
	Total	1786	2.96

The total number of beds in the medical institutions of the towns of the district number 1786. The highest number of beds (1519) is to be found in Vadodara, followed by Dabhoi (81), Chhota Udaipur (44) and Karjan (34). The rest of the towns have beds varying from a minimum of 3 in Sinor to a maximum of 20 in Fertilizernagar and Jawaharnagar. It can be seen that Sinor, Sankheda and Padra stand lowest in the ladder. The District average for all the towns shows that there are 2.96 beds per 1000 population. Chhota-Udaipur, Fertilizernagar Jawaharnagar (Gujarat Refinery) and Vadodara are above the district average whereas the rest of the towns are below the district average.

Vadodara is the seat of Maharaja Sayajirao University which has faculties of Arts, Science, Commerce, Law, Engineering, Medical, Fine Arts, Home Science etc. It also has a Polytechnic. Other six towns have non-technical college/colleges. 5 towns viz. Bahadarpur, Fertilizernagar, Jawaharnagar, Sinor and Vaghodia are devoid of any college facilities. Five towns have other recognised shorthand, typewriting or other such vocational institutions.

Primary and Secondary school facilities are available in all the towns of the district. The following table gives details of the number of primary and secondary schools per 1000 population.

TABLE No. 4

Secondary and Primary Schools per 1000 population

Sl. No.	Name of the Town	Number per 1000 population	
		Secondary school	Primary school
1	Bahadarpur	0.162	0.486
2	Bodeli	0.161	0.161
3	Chhota Udaipur	0.140	0.280
4	Dabhoi	0.158	0.396
5	Fertilizernagar	0.188	0.188
6	Jawaharnagar (Gujarat Refinery)	0.525	0.525
7	Karjan	0.083	0.167
8	Padra	0.165	0.124
9	Sankheda	0.125	0.376
10	Sinor	0.120	0.240
11	Vadodara	0.143	0.397
12	Vaghodia	0.132	0.397
	Average	0.148	0.375

The average number of secondary schools per 1000 population for all the towns is 0.148. It can be seen that the following towns viz., Bahadarpur, Bodeli, Dabhoi, Fertilizernagar, Jawaharnagar (Gujarat Refinery) and Padra are above this average whereas the remaining are below the average.

The average number of Primary schools per 1000 population for all the towns comes to 0.375. The towns above the average are Bahadarpur, Dabhoi, Jawaharnagar, Sankheda, Vadodara and Vaghodia. The rest of the towns fall below the average.

Only two towns Fertilizernagar and Jawaharnagar have stadia. Cinema/Cinemas are found in all towns except Bahadarpur, Fertilizernagar and Jawaharnagar. Auditoria or drama halls are found in 5 towns. Public libraries are available in all the towns of the district.

Notes on Statement VI

Statement VI gives details relating to trade, commerce, industry and banking in the towns. All the towns of the district have banking facilities. Agricultural cooperative credit societies are found in all towns except Fertilizernagar, Jawaharnagar and Vadodara. Non-agricultural co-operative credit societies to be found in all towns except Bahadarpur and Jawaharnagar.

There are three important industrial towns in Vadodara district viz., Vadodara, Fertilizernagar and Jawaharnagar (Gujarat Refinery). Vadodara, which until now was known only as a seat of learning, has of late taken long strides towards industrial development. It is now an established centre for manufacture of pharmaceuticals and medicines, glassware, electric motors and switch gear equipment and woollen cloth as well as cotton textiles. It also manufactures tractors, tensile steel and has a number of rolling mills. A number of agricultural implements are being manufactured here besides the engine pumps and their spare parts, bearings, colours, paints, rubber goods, soaps, edible oils etc. With the emergence of two new townships on the outskirts viz., Jawaharnagar and Fertilizernagar the former of which is a township of Gujarat Refinery and the latter of the Gujarat State Fertilizers Company, the industrial development has accelerated to no small extent. The Petro Chemical Complex which has an investment potential of several hundred crores, opens up new vistas for further development. The Fertilizer Complex which is expanding everyday is opening new horizons which are reflected in agricultural production. The exploration of flourspar in Amba Dungar area of Chhota-Udaipur taluka has put the district in the forefront in mineral map of India.

The Naptha Cracker plant installed by the Refinery has greatly helped the establishment of a number of anciliary industries. By the manufacture of Chemical fertilizers like Urea, Ammonium Sulphate and Di-ammonium sulphate at the Fertilizer factory they have set up new records in production. Other important industries in the towns of the district are cotton ginning and pressing in Bahadarpur, Bodeli, Dabhoi and Karjan; groundnut oil processing units in Bodeli, Chhota-Udaipur and Vaghodia. Dabhoi is known for its traditional brass and copperware industry. Medicines are also manufactured in this town. Sankheda is famous for its lacquered wooden furniture. Stone powder is manufactured in Chhota Udaipur and Karjan. Padra is a famous centre for Turdal.

The chief items of export from the towns of the district are medicines, woollen cloth and electric motors and transformers from Vadodara, fertilizers from Fertilizernagar and petroleum products from Jawaharnagar. Padra is the main centre for export of vegetables and Turdal. Cotton is exported from 6 towns of the district. Mainly articles of daily consumption like foodgrains, groundnut oil, cloth are imported in the towns of the district. However, industrial raw materials are the chief items of import in the industrial towns like Vadodara, Fertilizernagar and Jawaharnagar.

Notes and explanations on village directory

A brief outline on each of the statement of the town Directory has been given in the earlier pages. The Handbook also incorporates, besides the town directory, villagewise particulars regarding different types of amenities and land use data for 1969 for each of the villages in the district in the Village Directory section of the Handbook.

In Vadodara district there are 1689 villages distributed in 12 talukas. The number of villages in each of the taluka are as under :—

Sl. No.	Name of Taluka	Number of villages
1	Vadodara	112
2	Karjan	94
3	Padra	82
4	Savli	136
5	Vaghodia	95
6	Dabhoi	118
7	Sankheda	184
8	Jabugam	213
9	Chhota Udaipur	279
10	Nasvadi	219
11	Tilakwada	117
12	Sinor	40
	Total	1689

8 talukas cover more than 100 villages each, whereas the remaining talukas have less than 100 villages each. Chhota Udaipur taluka has the largest number of villages being 279 whereas Sinor taluka has the least number of villages being only 40.

The following abbreviations have been used in the village directory section of the Handbook for the terms listed in col. 2 of the statement below :—

Column Number	Item	Abbreviation
4	Primary School	Pr.S.
	Secondary School	Sec. S
	College	C
	Industrial School	IS
	Training School	Tr. S.
	Other Educational Institutions	OS
5	Hospital	H
	Maternity Home/Centre	M
	Child Welfare Centre	CW
	Health Centre	HC
	Dispensary	D
	Family Planning Centre	FC
6	Electricity for any purpose	E
	Electricity for agricultural purpose only	E(Ag)
7	Tap Water	T

	Other Sources	O

(a) Taluka abstract of amenities

A talukawise abstract of the educational, medical and other amenities available at the villages is given in an Appendix to the Village Directory. It can be seen from the abstract that 1170 villages have primary school facilities. There are thus only 519 villages without primary schools of which 12 are deserted villages. The details of villages without a primary school are as follows :—

Sl. No.	Name of Taluka	Number of villages without primary school	No. of deserted villages
1	Vadodara	8	1
2	Karjan	5	..
3	Padra	1	..
4	Savli	8	..
5	Vaghodia	10	1
6	Dabhoi	11	..
7	Sankheda	52	1
8	Jabugam	74	1
9	Chhota Udaipur	158	..
10	Nasvadi	134	3
11	Tilakwada	58	5
12	Sinor	..	..
	Total	519	12

There are 519 villages without primary school. The maximum number of villages without a primary school are noticed in Chhota Udaipur taluka (158) followed by Nasvadi taluka (134) and Jabugam taluka (74). Tilakwada taluka has 58 villages without primary school and Sankheda taluka has 52 such villages. In the rest of talukas the figures vary from 1 to 11. It can be seen that the bulk of the villages without a primary school are located in tribal areas.

Only 94 villages or 5.61 per cent of the total villages of the district have secondary schools and 123 or 7.33 per cent of the total have other educational institutions.

It can be seen that only 144 villages or 8.59 per cent have dispensaries. Only 3 villages have the facility of hospitals and 58 villages have maternity homes. Only 13 villages have child welfare centres. 64 villages have primary health centres (including sub-centres) and 48 villages have family planning centres. Thus only a limited number of villages in the district have medical facilities.

Only 385 or 22.96 per cent of the total villages of the district are electrified. Chhota Udaipur, Naswadi, Tilakwada and Jabugam talukas have only a few villages electrified as compared to rest of the talukas in the district.

Ordinary surface wells are the main source of drinking water facility. Only 347 villages or 20.69 per cent of the total have tap water supply. Other sources of water supply include tube wells (26 villages), tanks (538 villages) and rivers (720 villages).

Only 477 villages or 28.44 per cent of the total are connected with Pucca Road. 465 villages or 27.73 per cent have post offices, and only 19 villages have both post and telegraph offices. 33 villages in the district have telephones.

(b) Bus facilities

The details of villages connected by bus services have been incorporated in the village directory. Bus facility is considered to be available at the village if a bus stop is available within one mile from the village.

The figures given below show that a little over one fifth (21.76 per cent) of the total villages in the district are connected by bus services throughout the year. There are 464 villages (27.67 per cent of the total) in the district which enjoy this amenity only during the fair season. There is a significant number of villages (848 or 50.57 per cent.) in the district which are not connected by bus services even during the fair season. A talukawise break up of villages connected by bus services is given below :—

Villages connected by Bus Services

Name of Taluka/Mahal	Total No. of inhabited villages	No. of Villages having bus facilities for the whole year	No. of villages having bus facilities during fair season only	No. of villages without bus facilities
1	2	3	4	5
Vadodara	111(100)	49(44.14)	32(28.83)	30(27.03)
Karjan	94(100)	18(19.15)	76(80.85)	... (...)
Padra	82(100)	19(23.17)	59(71.95)	4(4.88)
Savli	136(100)	32(23.53)	38(27.94)	66(48.53)
Vaghodia	94(100)	36(38.30)	21(22.34)	37(39.36)
Dabhoi	118(100)	27(22.88)	43(36.44)	48(40.68)
Sankheda	183(100)	25(13.66)	71(38.80)	87(47.54)
Jabugam	212(100)	23(10.85)	49(23.11)	140(66.04)
Chhota Udaipur	279(100)	67(24.01)	29(10.40)	183(65.59)
Nasvadi	216(100)	26(12.04)	13(6.02)	177(81.94)
Tilakwada	112(100)	35(31.25)	10(8.93)	67(59.82)
Sinor	40(100)	8(20.00)	23(57.50)	9(22.50)
Total	@1677(100)	365(21.76)	464(27.67)	848(50.57)

@ 12 Uninhabited villages are not included.

Figures in brackets indicate percentage of total villages in each taluka.

It would be seen from the above figures that the proportion of villages connected by bus services throughout the year varies from a minimum of 10.85 per cent in Jabugam taluka to a maximum of 44.14 per cent in Vadodara taluka. Seven talukas viz., Vadodara (44.14 per cent), Padra (23.17 per cent.), Savli (23.53 per cent), Vaghodia (38.30 per cent.), Dabhoi (22.88 per cent), Chhota Udaipur (24.01 per cent) and Tilakwada (31.25 per cent) are above the district average whereas the remainder rank below it.

The percentage of villages connected by bus services during the fair season only varies considerably in different talukas. The maximum (80.85 per cent.) is noticed in Karjan taluka. It is followed by Padra (71.95 per cent.), Sinor (57.50 per cent.), Sankheda (38.80 per cent.), and Dabhoi (36.44 per cent.). In the other talukas the figure is less than 30 per cent.

There is a significant number of villages in the district which are devoid of this amenity even during the fair season. The maximum number of such villages is noticed in Chhota Udaipur (183 villages), followed by Nasvadi (177 villages) and Jabugam (140 villages). In the remaining talukas figures vary from a minimum of 4 in Padra taluka to a maximum of 87 in Sankheda. In Karjan taluka there is no such village.

(c) Distribution of villages by area

The distribution of villages by their areas is given in the following table in 8 size groups :—

TABLE No. 5

Distribution of the villages by their areas in acres

Sl. No.	Area in Acres	Number of villages
1	2	3
1	50 acres or less	...
2	51 — 100	12(0.71)
3	101 — 200	61(3.62)
4	201 — 500	357(21.17)
5	501 — 1000	536(31.79)
6	1001 — 2000	506(30.02)
7	2001 — 5000	202(11.98)
8	5001 acres and above	12(0.71)
	Total	@1686 (100)

@ Total number of villages in the district are 1689. Three villages whose area is amalgamated with other villages are not included.

(Figures in brackets indicate percentage.)

It would be seen from the above table that the maximum number of villages (536) have area between 501 and 1000 acres. This group forms 31.79 per cent of the total. It is followed by the area group 1001 to 2000 with 506 villages which forms 30.02 per cent of the total. Thus 61.81 per cent of the villages have area ranging between 501 and 2000 acres. 202 villages or 11.98 per cent have area between 2001 and 5000 acres, while 12 villages or 0.71 per cent have an area of 5001 acres and above. Those below 500 acres are 430 of which 61 villages have area between 101 and 200 acres and 12 villages have area between 51 and 100 acres.

(d) Distribution of villages by educational amenities

Table No. 6 below shows the distribution of villages having educational amenities by distance from the nearest town.

TABLE No. 6

Distribution of villages having educational amenities by distance from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Number of villages having				
			Primary school	Middle school	Higher secondary school	College	Others
1	5 km. or less	176	146(82.95)	...	18(10.23)	1(0.57)	28(15.91)
2	6 — 10 km.	266	232(87.21)	...	20(7.52)	...	31(11.65)
3	11 — 15 km.	272	206(75.74)	...	19(6.99)	...	21(7.72)
4	16 — 25 km.	415	284(68.43)	...	21(5.06)	...	30(7.23)
5	26 — 50 km.	483	249(51.55)	...	9(1.86)	...	12(2.48)
6	51 — 100 km.	64	52(81.25)	...	7(10.94)	...	1(1.56)
7	101 — 200 km.	1	1(100.00)	...	...	...	...
8	201 km. and above	...	...	...	...	...	...
	Total	@1677	1170(69.77)	...	94(5.61)	1(0.06)	123(7.33)

@ 12 uninhabited villages are not included

Figures in brackets indicate percentage to total number of villages in each distance group.

It would appear from the above table that out of 483 villages in the distance group 26 to 50 km., 249 villages have primary schools which forms 51.55 per cent of the villages in that group. In the rest of the group this percentage varies from 68.43 per cent to 100.00 per cent Regarding secondary schools the proportion of such villages varies from the minimum of 1.86 per cent in the distance group of 26 to 50 km. to 10.94 per cent in the distance group of 51 to 100 km. There is only one village beyond 100 km. which has no secondary school. It will also be apparent that the proportion of other types of schools declines *pari passu* with the increase in the distance from the nearest town.

With the increase in distance from the nearest town, the percentage of higher secondary schools decreases in all distance groups except 51 to 100 km. The same applies in case of other type of schools also. The percentage of such schools also diminishes with the distance from the nearest town.

(e) Medical facilities

Distribution of medical institutions per 100 sq. km. is given in the following table :—

TABLE No. 7

Medical facility per 100 Sq. km.

Sl. No.	Name of Taluka	Total area (in sq. km.)	No. of medical institutions of any kind per 100 sq. km.
1	Vadodara	670	9.3
2	Karjan	602	5.0
3	Padra	535	6.9
4	Savli	792	3.8
5	Vaghodia	564	3.9
6	Dabhoi	633	7.1
7	Sankheda	723	3.0
8	Jabugam	799	3.1
9	Chhota Udaipur	1379	1.5
10	Nasvadi	535	2.6
11	Tilakwada	245	4.9
12	Sinor	292	3.8

Table 7 will show that the number of medical institutions per 100 sq. km. is higher in Vadodara taluka than in the other talukas of the district. Vadodara is followed by Dabhoi, with 7.1, Padra with 6.9, Karjan with 5.0 and Tilakwada with 4.9. The lowest proportion is noticed in Chhota Udaipur taluka (1.5).

(f) Electricity

Only 385 villages have electricity. The distribution of these villages by their distance from the nearest town is as under :—

TABLE No. 8

Distribution of villages with electricity and distance from the nearest town

Sl. No.	Distance from the nearest town	Total No. of villages	No. of villages with electric power supply
1	2	3	4
1	5 km. or less	176	90(51.14)
2	6 — 10 km.	265	111(41.73)
3	11 — 15 km.	272	67(24.63)
4	16 — 25 km.	415	82(19.75)
5	26 — 50 km.	483	29(6.00)
6	51 — 100 km.	64	6(9.38)
7	101 — 200 km.	1	..
8	201 km. and above	..	..
	Total	@1677	385(22.96)

@ 12 uninhabited villages are not included.

Figures in brackets indicate prcentage to total number of villages in each distance group.

Table 8 highlights the fact that the proportion of the number of villages electrified diminishes *pari passu* with the increase in the distance from the nearest town upto 50 km. This proportion for the villages within 5 km. is 51.14 followed by those within 6 to 10 km. (41.73 per cent). It is only 6.00 per cent for those situated within the distance of 26 to 50 km. About 9.38 per cent of the villages in the distance group of 51 to 100 km. are electrified while none of the villages beyond 100 km. are electrified.

(g) Communications

The following table gives the distribution of villages having different type of communication facilities by distance from the nearest town.

TABLE No. 9

Distribution of villages with different communication facilities and distance from the nearest town

Sl. No.	Distance from the nearest town	Total No. of villages	Number of villages connnected by					
			Pucca Road	Kutcha Road	Pucca road and river	Pucca road and rail	Kutcha road and rail	Others
1	2	3	4	5	6	7	8	9
1	5 km. or less	176	46(26.14)	80(45.45)	..	27(15.34)	20(11.36)	2(1.14)
2	6 — 10 km.	266	74(27.82)	142(53.38)	..	23(8.65)	23(8.65)	4(1.50)
3	11 — 15 km.	272	56(20.59)	170(62.50)	2(0.74)	21(7.72)	20(7.35)	3(1.10)
4	16 — 25 km.	415	77(18.55)	281(67.71)	..	24(5.78)	22(5.30)	11(2.66)
5	26 — 50 km.	483	91(18.84)	357(73.91)	..	10(2.07)	21(4.35)	4(0.83)
6	51 — 100 km.	64	11(17.19)	36(56.25)	..	13(20.31)	4(6.25)	..
7	101 — 200 km.	1	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..	..
	Total	@1677	355(21.17)	1066(63.57)	2(0.12)	118(7.04)	110(6.56)	24(1.43)

@ 12 Uninhabited villages are not included.

Figures in brackets indicate percentage of the total number of villages in each distance group.

Table 9 shows that 26.14 per cent of the villages situated within 5 km. from the nearest town have pucca roads. This proportion increases marginally in the next distance group of 6 to 10 km. (27.82 per cent.). On the other hand, this proportion is significantly reduced to 20.59 per cent in the distance group of 11 to 15 km. The proportion of such villages in the distance group of 16 to 25 km. is 18.55 per cent. and is almost equal (18.84 per cent.) to the next distance group of 26 to 50 km. Only 17.19 per cent of the villages in the distance group of 51 to 100 km. have pucca roads. This trend is almost reversed in the case of kutcha roads. The proportion of villages with kutcha roads increases with the increase in the distance from the nearest town upto 50 km. The amenity of pucca roads and rail diminishes *pari passu* with the increase in the distance from the nearest town upto 50 km. As regards the combined amenities of Kutcha road and rail the above statement holds equally good. Upto the distance group of 50 km., the amenity of kutcha road and rail decreases with the increase in distance from the nearest town.

(h) Number of Post Offices

The following table gives the distribution of post offices per 100 sq. km.

TABLE No. 10

Number of Post Offices per 100 Sq. Km.

Sl. No.	Name of Taluka/ Mahal	Total area in sq. km.	No. of post offices per 100 sq. km.
1	Vadodara	670	9.3
2	Karjan	602	7.5
3	Padra	535	7.1
4	Savli	792	7.2
5	Vaghodia	564	6.4
6	Dabhoi	633	6.3
7	Sankheda	723	7.3
8	Jabugam	799	3.4
9	Chhota Udaipur	1379	2.5
10	Nasvadi	535	3.4
11	Tilakwada	245	10.2
12	Sinor	292	9.9

Table 10 shows that Tilakwada taluka has the largest number of post offices per 100 sq. km. (10.2). It is followed by Sinor with 9.9, Vadodara with 9.3, Karjan with 7.5, Sankheda with 7.3, Savli with 7.2, Padra with 7.1, Vaghodia with 6.4, Dabhoi with 6.3, Jabugam and Nasvadi each with 3.4 Chhota Udaipur with 2.5 post offices per 100 sq. km. has the lowest number of post offices per 100 sq. km. in the District.

(i) Staple Food

The table below will show that Bajri, Jowar, Wheat and Rice form the main staple food of the district. Maize is also used as a staple food in Jabugam, Chhota Udaipur and Nasvadi talukas.

Distribution of villages by staple food

Sl. No.	Name of Taluka	No. of villages reporting staple food				
		Bajri	Jowar	wheat	Rice	Maize
1	2	3	4	5	6	7
1	Vadodara	79	83	85	105	1
2	Karjan	43	89	91	94	...
3	Padra	75	52	73	75	...
4	Savli	120	75	83	105	...
5	Vaghodia	76	93	57	87	9
6	Dabhoi	95	115	97	110	2
7	Sankheda	136	165	108	167	36
8	Jabugam	83	203	48	150	197
9	Chhota Udaipur	18	238	25	116	277
10	Nasvadi	35	205	21	125	209
11	Tilakwada	79	100	13	72	22
12	Sinor	37	38	35	40	...

(j) Land use

The following table gives the percentage of average cultivable waste per village to average cultivated land per village by distance from the nearest town.

The cultivable waste land includes pastures and grazing land and area under miscellaneous trees and groves but does not include Orchards.

TABLE No. 11

Percentage of average cultivable waste land per village to average cultivated land per village by distance group from the nearest town

Sl. No.	Distance from the nearest town	No. of villages	Total cultivated land (in acres)	Average cultivated land per village (in acres)	Total cultivable waste (in acres)	Average cultivable waste per village (in acres)	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7	8
1.	5 km. or less	176	178532	1014.4	18349	104.3	10.28
2.	6—10 km.	266	294669	1107.8	27814	104.6	9.44
3.	11—15 km.	272	250639	921.5	31696	116.5	12.64
4.	16—25 km.	415	313657	755.8	42062	101.4	13.42
5.	26—50 km.	483	253520	524.9	38395	79.5	15.15
6.	51—100 km.	64	55289	863.9	4424	69.1	8.00
7.	101—200 km.	1	536	536.0	...	...	...
8.	201 and above	...	...	...	...	...	...
	Total	1677	1346842	803.1	162740	97.0	12.08
	Uninhabited Villages	12	1797	...	239	...	...
	Grand Total	1689	1348639	798.5	162979	96.5	12.09

It would be seen from column 5 of the above table that the average area of cultivated land per village is highest (1107.8) in the distance group of 6 to 10 km., followed by the distance group of 5 km. or less with 1014.4. It is lowest (524.9) in the distance group 26 to 50 km. It would also be seen from column 7 of the table that the average cultivable waste land per village is 104.3 in the distance group of 5 km. or less. It is 104.6 per village in the next distance group 6 to 10 km. The average area of cultivable waste land per village is lowest (69.1) in the distance group 51 to 100 km.

It can also be seen from column 8 that the percentage of average cultivable waste land to average cultivated land per village is highest (15.15 per cent.) in the case of villages in the distance group 26 to 50 km. whereas it is only 8.00 per cent in the case of villages which are in the distance group 51 to 100 km.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—
The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other Schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.
The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other Schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities. The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note:—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other Schools. The figures in brackets under Cols. 5to9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other Schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Notes—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other Schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note:—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other Schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

PART X-B

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1971 Census provides information in respect of each village in rural area and town/ward/enumerator's block in urban area. It gives information about the area of the village in acres and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literate and educated persons. The entire population of each village/urban enumerator's block is divided into nine industrial categories of workers and non-workers as under :—

I Cultivators

II Agricultural Labourers

III Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities

IV Mining and Quarrying

V Manufacturing, Processing, Servicing and Repairs
(a) Household Industry
(b) Other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

X Non-workers

The sexwise break-up of total workers (industrial category I to IX) have been presented, in addition to similar break-up for each industrial category of Worker and Non-worker.

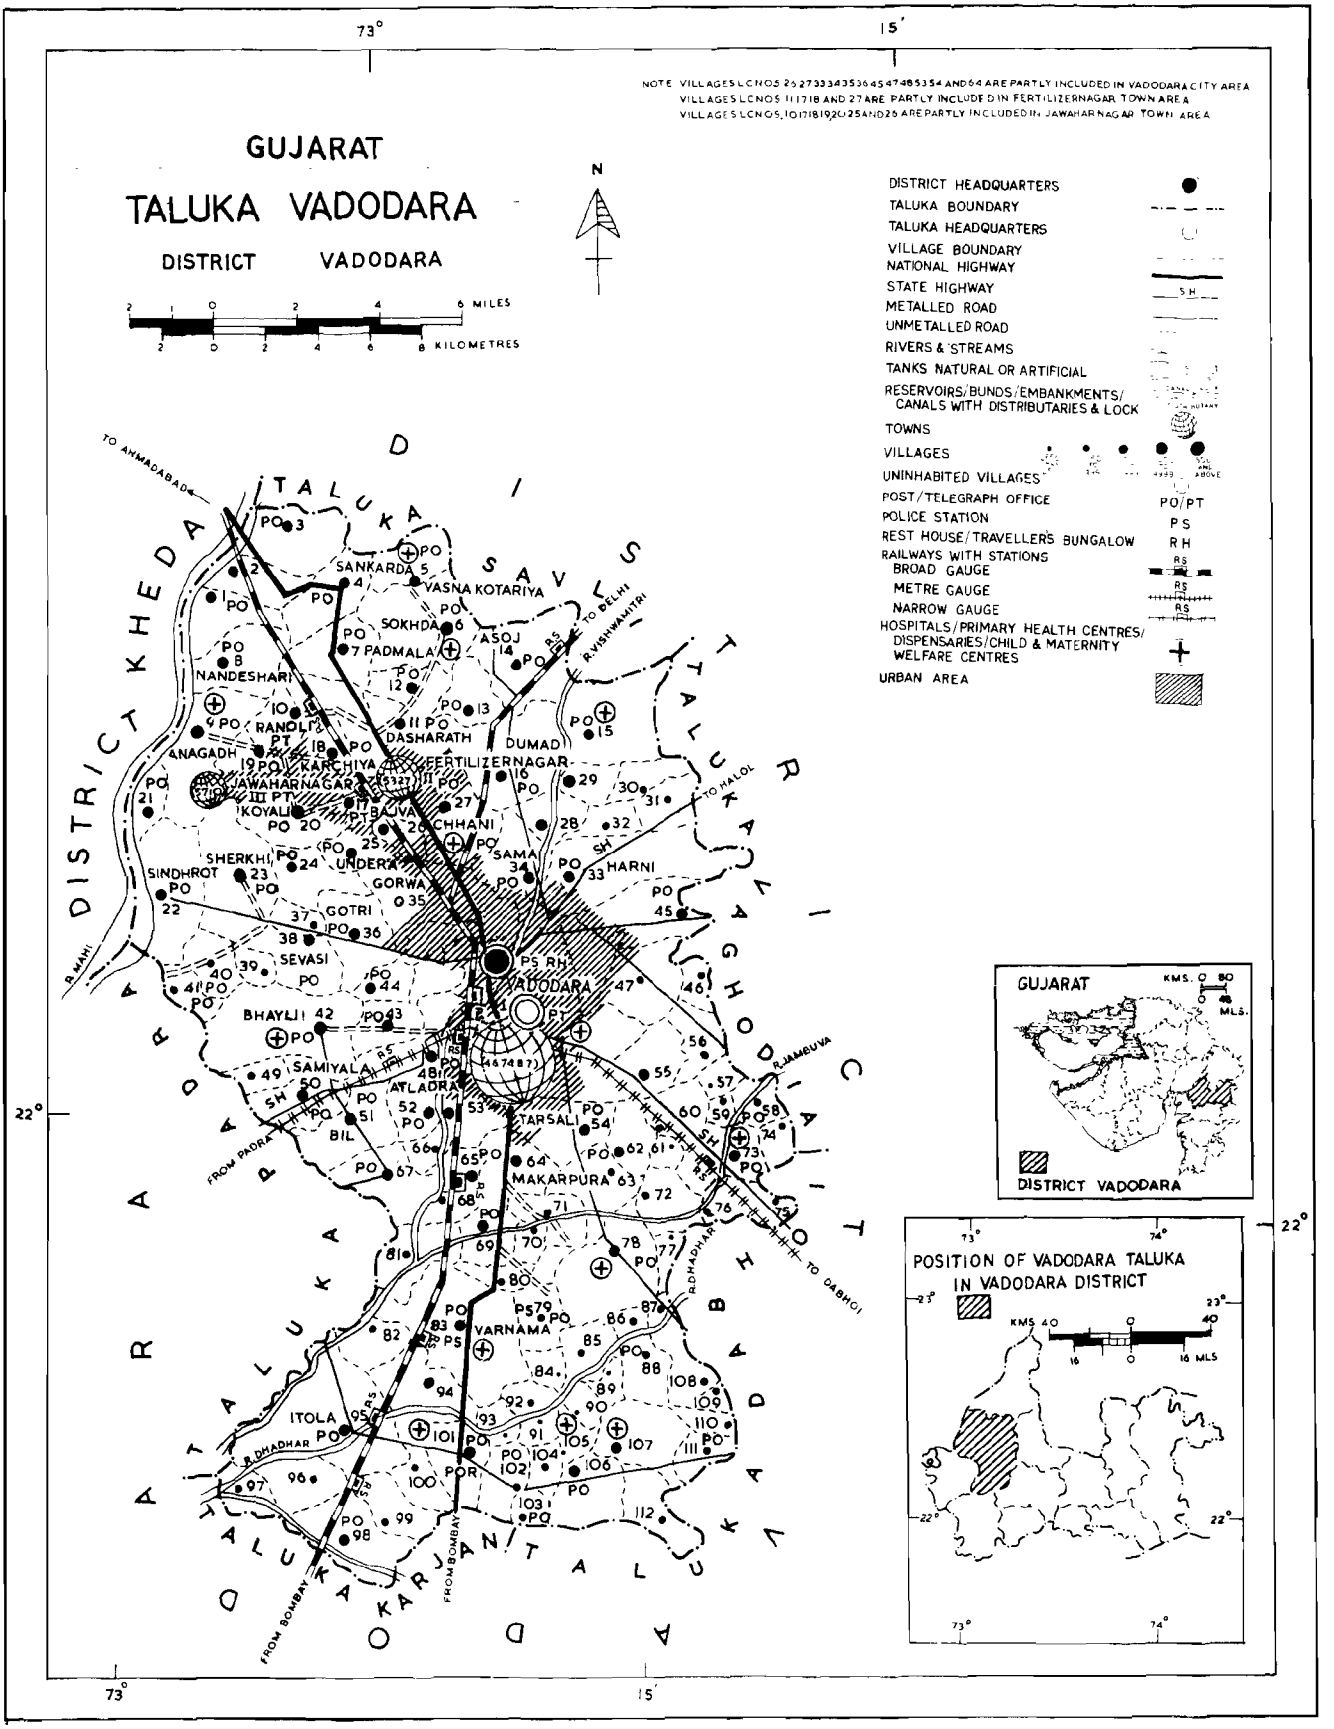

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :-

1	Municipal Corporation	MC
2	Municipality	M
3	Non-Municipal Area	NM
4	Nagar Panchayat	NP
5	Village Panchayat	VP
6	Cantonment	Cantt.
7	Not Available	N A
8	Outgrowth	O G

The following conversion factor has been used for converting acres into Km.

Acres x 0.004047 = $Km.^2$

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for Rural area are derived by substracing the urban area from the total area of the District. The total of the area figures of the Taluka/Mahals will not tally with the district figures becaue the former represent 'land use'area and are derived from the figures supplied by the Director of Land Records.

* * 3-38 Acres have been included in Jawaharnagar Town (Gujarat Refienary)

* * * 400-00 Acres have been included in Fertilizernagar Town.

† 50-15 Acres have been included in Fertilizernagar and 17.32 acres have been included in Jawaharnagar Town (Gujarat Refienary)

† † 16-16 Acres have been included in Fertilizernagar and 622.27 acres have been included in Jawaharnagar Town (Gujarat Refienary)

‡ 98-34 Acres have been included in Jawaharnagar Town (Gujarat Refienary)

‡ ‡ 677-02 Acres have been included in Jawaharnagar Town (Gujarat Refienary)

§ 257-00 Acres have been included in Jawaharnagar Town (Gujarat Refienary)

(1) * 59-28 Acres have been induded in Vadodara M. C. and
39-21 Acres have been included in Jawaharnagar Town (Gujarat Refienary)
** 197-38 Acres habe been included in Vadodara M. C. and
185-15 Acres have been included in Fertilizernagar Town
† 970-37 Acres have been included in Vadodara M. C
†† 444-36 Acres have been included in Vadodara M. C.
‡ 1.754-03 Acres have been included in Vadodara M. C.
‡‡ 295-21 Acres have been included in Vadodara M. C.
× 676-07 Acres have been included in Vadodara M. C.
×× 968-36 Acres have been included in Vadodara M. C.
§ 341-26 Acres have been included in Vadodara M. C.
+ 175-05 Acres have been included in Vadodara M. C.
++ 1073-05 Acres have been included in Vadodara M. C.

* A part of this Village containing population 791 has been included in Vadodara City Agglomeration on page No. 38.
@ 201-26 Acres have been included in Vadodara M. C.
