Director of Census Operations
Uttar Pradesh

"GANGOTRI TEMPLE"

Gangotri is about 60 km. from Bhatwari and 89 km. from Uttar Kashi on the right bank of the river Bhagirathi also known as "Ganga". This place is one of the great centres of Hindu pilgrimage on the banks of the Ganga. It is also known as the Gangodhava Kshetra and is situated on the southern side of Himalaya range. It is said that it was the first place where the Ganga came down to the earth and the Gangotri is a combination of the two words, Ganga and Utari (meaning came down), though the source of the river is now at Gaumukh, about 23 km. from this place. There is a great slab of stone in the bed of the river dedicated to Bhagirath, whose efforts are said to have brought the ganga down from the heavens. Here is a temple dedicated to Bhagirath built in the beginning of 18th Century by Gorkha Senapati Amar Singh Thapa. The temple generally opens for pilgrims in the first week of May and closes by the middle of November after commencement of winter. The Pandas then move down to Mukhba a village about 21 km. down stream on the right bank of the river. This place is held in great reverence by the Hindus. Inspite of the difficulties of travel 20.000 to 25,000 pilgrims visit the place during the summer every year.

ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and Non-census statistics at the village and block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises Non-census data.

We are deeply indebted to the State Government for their everwilling and prompt help to us at all stages. The District Census Handbooks are being published by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G. A. D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole-hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements made by Sri A. Dar, Superintendent, Printing and Stationery, U.P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, In-charge New Government Press, Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Sri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandra Sekhar, Registrar General, India, Sri K. D. Ballal, and Dr. B. K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA

Director of Census Operations

Uttar Pradesh.

INTRODUCTORY NOTE

1. History of District Census Handbook

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the outbreak of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory.

Part B : Village and Town-wise Primary Census Abstract.

Part C : Analytical Report and Administrative Statements—District Census Tables.

2. Scope of District Census Handbook

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, Drinking water supply, Post and Telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statement-throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Educational facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by Religion and Scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex, scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and livestock etc., in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. Town Directory—given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as Towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments & Notified Areas.
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three undermentioned conditions :
   (i) Population exceeds 5,000
   (ii) At least 75% of the male working population engages in non-agricultural pursuits, and
   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons per sq. km.).

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) Statement I—This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which the working population under the broad industrial categories has been regrouped into five broad functional classifications :

(i) Primary Activities-Categories I, II, III & IV
(ii) Industry-Categories V (a), V (b) and VI
(iii) Trade and Commerce-Category VII
(iv) Transport-Category VIII and
(v) Services-Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60% or

above, the town is designated as bi-functional. If the total does not yield 60%, the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation

M—Municipal Board

NAC—Notified Area Committee

TC—Town Area Committee

CB—Cantonment Board

(b) Statement II—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest city with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The Geographical Co-ordinates of towns given in col. 3 have been supplied by the Director of Regional Meteorological Centre, New Delhi.

(c) Statement III—It reveals the municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) Statement IV—In this statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Col. 3	PR	.....	For	Pucca Road
	KR	.....	,,	Kachcha Road
Col. 4	PT	.....	,,	Pit Tank
	OSD	.....	,,	Open Surface Drain
Col. 8	B	.....	,,	Basket
	HC	.....	,,	Hand Cart
	HL	.....	,,	Head Load
	MT	.....	,,	Mechanical Transport
Col. 9	TW	.....	,,	Tube Well
	OHT	.....	,,	Overhead Tank

(e) Statement V—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Col. 3	H	.....	For	Hospital
	D	.....	,,	Dispensary
	HC	.....	,,	Health Centre
	FC	.....	,,	Family Planning Centre
	TBC	.....	,,	T.B. Clinic
	MCW	.....	,,	Maternity and Child welfare Centre
Col. 5	AS	.....	,,	Arts and Science College
Col. 17	PL	.....	,,	Public Library
	RR	.....	,,	Reading Room

(f) Statement VI—This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities maunfactured, imported and exported, the number of banks and agricultural as well as non-agricultural credit societies are given in the statement. The commodities mentioned therein are those

having the highest value in currency. In a few cases if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) Statement VII—The Census table C-VII giving distribution of population by religion and scheduled castes/scheduled tribes has been reproduced in this statement. Where sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'others.'

(4) Village Directory—reveals the general living conditions of peasantry and the overall development that has taken place in the countryside. The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, post and telegraph have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market/*hat* and places of religious, historical or archaeological interest is also given in the statement. If the village is uninhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations :

Column 4

JBS	For	Junior Basic School

An Appendix has been included summing up the amenities at district level with tahsil-wise break up.

THE DISTRICT

A—TOWN DIRECTORY

(a) **Statement I**—Uttarkashi district has one town only namely Uttarkashi M. B., There is no change in the total number of towns as compared to 1961. The functional distribution of town of the district is as follows :

Table-1

Functional Category	Name of Town
(i) Services	Uttarkashi M. B.

Uttarkashi M. B., the headquarters of disrict, is a monofunctional town comprising 46.97 % Service class.

(b) **Statement II**—The physical and locational aspects have been covered in this statement. The figures of annual rainfall and the maximum and minimum temperature were not available with the Director of Meteorological Centre, Delhi, and hence no information could be given in Columns 4-6.

(c) **Statement III**—The per capita receipt and expenditure by the local body is as below :

Table-2

		PER CAPITA						
		Receipt (Rs.)			Expenditure (Rs.)			
Class of Town	No. of Town	Total Receipt	Receipt through Taxes etc.	Receipt from all other sources	Total expenditure	Expenditure on public health and convenience	Expenditure on public institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9
Class V 5,000 to 9,999 Uttarkashi M. B.	1	13.9	6.5	7.4	23.9	4.1	1.5	18.3

The per capita receipt of the town is Rs. 13.9, against the per capita expenditure of Rs. 23.9.

(d) **Statement IV**—Uttarkashi town has protected water supply and road lighting arrangements. Fire fighting service is not available in Uttarkashi M. B. There is no arrangement of Mechanical transport for removing night soil. Only hand carts and baskets are used for the purpose in the town.

(e) **Statement V**—Uttarkashi town has 1 hospital and 1 family planning centre. The number of beds per 1,000 persons has been shown in the following table:

Table-3

Total No. of beds in Medical Institutions	No. of beds per 1,000 population
36	6 (5.98)

The number of beds in the District Hospital has increased from 8 in 1960 to 36 in 1969.

There is only one Degree College with Science faculty in Uttarkashi M. B. The number of Higher Secondary, Middle and Primary Schools (1969) per 1,000 population are given in the following table:

Table-4

Name of Town	No. per 1,000 population			
	Higher Secondary Schools	Middle Schools	Primary Schools	Others
Uttarkashi M. B.	0.33	...	0.83	0.17

Uttarkashi M. B. is provided with 1 Cinema Hall and 1 Public library.

(f) **Statement VI**—The articles manufactured in Uttarkashi town are wooden goods, furniture and agricultural implements. The important commodities imported in the town are foodgrains, sugar and cloth. Potatoes, timber and wood are exported from the town.

(g) **Statement VII**—The population of the town is largely shared by Hindus and Muslims. Muslims comprise 3% of the population as against 96.1% Hindus. The percentage growth of Hindu population of the town during the last decade is 11.9% as against the growth rate of 4.7% of the Muslim population.

The percentage of Scheduled Castes persons is higher in comparison to Scheduled tribes in the town.

VILLAGE DIRECTORY

(a) According to the area (in acres) the villages have been stratified in the following table:

Table-5

Area (In acres)	No. of Villages	Percentage
50 acres or less	31	4.5
51-100	77	11.2
101-200	154	22 6
201-500	274	40.1
501-1000	102	14.9
1001-2000	30	4.4
2001-5000	4	0.6
5001 acres and above	9	1.3

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 1,000 acres are highest claiming the percentage of 55.0. Thereafter, the number of villages goes on decreasing as the size of villages increases. There are 9 villages having an area exceeding 5,000 acres. As regards smaller villages, there are only 31 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table:

Table-6

Distance from the nearest town (in Kms.)	Total no. of villages	No. of villages having				
		Primary Schools	Middle Schools	Higher Secondary Schools	Colleges	Others
0-5	19	10	...	...	...	...
6-10	19	13	1	...	...	...
11-15	44	29	1	...	...	...
16-25	45	20	2	...	...	...
26-50	145	64	5	...	...	...
51-100	167	68	11	2	...	1
101-200	244	92	14	1	...	1
201 and above	...	...	...	...	...	...

The above table shows that the largest number of institutions including Higher Secondary Schools exist in the villages situate between 101 to 200 kilometers from the nearest town. As regards Higher Secondary Schools only 3 lie between 51 to 200 kms. from the nearest town.

(c) 15 villages in the district have hospitals. If all kinds of medical institutions including dispensaries, health centres etc. are taken into account, 65 villages out of 683 have medical institutions.

The following table presents the number of medical institutions per 100 sq. kms:—

Table-7

Name of Tahsil	Total area (in sq. kilometres)	No. of medical institutions of any kind per 100 sq. kilometres
Puraula	1824.30	1
Rajgarhi	976.19	2
Dunda	730.43	1
Bhatwari	817.14	3

It transpires that tahsils Puraula and Dunda each have one medical institution per 100 sq. kms. Rajgarhi and Bhatwari are slightly better off having 2 and 3 institutions respectively per 100 sq. kms.

(d) 2 villages are electrified in the district against the total number of 683 villages. Their percentage comes to 0.3.

The power supply in villages with reference to their distance from the nearest town is given in the following table :

Table-8

Distance from the nearest town (in kms.)	Total No. of villages	Number of villages with Electric Power supply	
		Total	Percentage of total electrified villages to total villages
0-5	19	...	...
6-10	19	...	...
11-15	44	1	2.3

(h) The cultivated area is 19.4 % of the total rural area of the district of which 41.6% is irrigated area.

The following table shows the average cultivated land, average cultivable waste and its percentage to average cultivated area per village The villages in this table have again been classified according to their distance from the nearest town :

Table-11

Distance from the nearest town (in kms.)	Number of villages	Total cultivated land (in acres)	Average cultivated land per village (in acres)	Total cultivable waste (in acres)	Average cultivable waste per village (in acres)	Percentage of average cultivable waste per village to average cultivated land per village (in acres)
0-5	19	1,862	98	1,153	61	62.3
6-10	19	2,000	105	2,662	140	133.3
11-15	44	5,335	121	7,875	179	147.9
16-25	45	5,351	119	8,149	181	152.1
26-50	145	18,785	130	23,531	162	124.6
51-100	167	21,426	128	25,977	156	121.9
101-200	224	32,022	131	52,347	215	164.1
201 and above	...	...	...	...	...	...
Total	683	86,781	127	121,694	178	140.2

The average cultivable waste per village increases with the increase of distance from the nearest town. The average cultivated land per village also increases with the increase of distance from the nearest town upto 15 kms., but subsequently there is a fall and an upward trend again.
