PREFACE

Prior to the 1951 Census, there was no regular separate publication at the district level regarding the data collected, although the seeds of the District Census Handbooks can be traced to the 'Village Lists brought out for every district in 1901 and 'Village Statistics' of every district published in 1911 and 1941. No. definite answer is forthcoming as to why such publications, giving village-wise information of occupied houses, break-up of population into males/females and literates, were not brought out in 1921 and 1931 The reason could be transfer from 1921 of certain charges on Census previously met from the provincia· revenues to the Central revenues and the Government of India may not have considered it necessary to publish statistics up to the village level. 'Village Statistics' in 1941 were brought out by the Central Provinces & Berar Government and this practice of bringing out district-wise publications at the cost of the State Government has since been continuing.

2. The scope of the district-wise publications, now called the District Census Handbooks, has been undergoing change with each successive Census from 1951. In 1951, the District Census Handbooks only contained the Primary Census Abstract and the Census tables. In view of the usefulness of separate publication for each district, improvements were made at the time of the 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, education, etc. An 'Introductory Note' was also added to highlight the more striking features. Unfortunately, the desire to make district-wise Census publications very comprehensive resulted in late availability of the books to the users. Therefore, this time the District Census Handbooks have been divided into three parts in order to release maximum data, as and when finalised, so that the publications may have a useful life of about seven to eight years of inter-Censal decennium. Part A will contain Primarily non-Census statistics, Part B the Primary Census Abstract and Part C various administrative statistics with a chapter titled "Introducing the district". It may be mentioned here that subsequently a decision has been taken to merge Parts A and B in one volume on grounds of economy.

3. Much of the delay in the publication of the District Census Handbooks after the 1961 Census was due to delay in collection of administrative statistics and the decision to write the Introductory Note in the head office. Separation of administrative statistics as Part C of the District Census Handbook and the kind Co-operation of the State Government, permitting Collectors of the 1961-71 decade to write the chapter on "Introducing the District," is likely to go a long way in early publication of all the parts of the District Census Handbooks. Another favourable factor this time is the early decision of the State Government to permit printing in private presses as and when the work-load on the State Government Presses is heavy and likely to result in delay in the bringing out of the District Census Handbook of any district. It would not be out of place to point out here that the work-load in connection with the District Census Handbooks is very much more this time, not only on account of wider coverage but largely due to the decision to bring out the District Census Handbooks in Hindi as well as English. In all, there will be 172 publications, 4 per district of which 2 will be in hindi and 2 in english. Advance action was taken this time to collect the non-Census data and it is hoped that the combined volume of Parts A and B of all the 43 districts would be out by the end of 1973 and Part C of all the districts by the middle of 1975. This would be a definite improvement on the 1961 performance when printing of the District Census Handbooks covered the period 1964 to 1967.

4. In his Preface to the 1961 District Census Handbooks, my predecessor, Shri G. Jagathpathi, had observed thus, "It was not possible at this Census to base all Census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.". It has not been possible to adopt the development block as the basic unit for operation and presentation in this Census for more than one reason. Firstly, the office of the Block Development Officer was abolished in December, 1965; its resurrection in the form of office of the Block Development Assistant from 2-10-69 had not taken firm roots up to the time field arrangements for the 1971 Census were finalised. Secondly, the tahsil as a unit of field arrangements has many more advantages, the most significant being the ready availability of that legendary functionary—the patwari—without whose active co-operation it would be a formidable task to determine whether a habited structure in a cultivated field is part of village X or Y. Even, otherwise, since village-wise figures are available, it should not be difficult for those in need of data for intermediate units between the village and the tahsil, like the development block or patwari halka, to compile it by adding figures of concerned villages. The tahsil has for long been a fixed unit of administration and, to my mind, should be retained in preference to the development block whose jurisdiction may undergo a change in accordance with the pace of future development.

5. In conclusion, I would like to place on record my grateful thanks to the Government of Madhya Pradesh for having so kindly agreed to undertake the publication of the Handbooks in hindi as well as english to the various government and semi-government offices for un-hesitatingly making available the non-Census statistics, and to the Controller, Government Press, and his staff for arranging early printing in the Government and private Presses.

BHOPAL :
15 *th August,* 1972.

POSITION OF TAHSIL UJJAIN IN DISTRICT UJJAIN

VILLAGE AND TOWN DIRECTORY

PART X (A)

EXPLANATORY NOTE

History :

Prior to 1951 there were no separate Census publications for every district. But at the time of preparatory arrangements for the first Census of Independent India, it was felt that Census statistics should be made available for smaller territorial units basic to the needs of an administration wedded to welfare of the masses. Accordingly, the scheme of District Census Handbooks was conceived and implemented. In view of the usefulness of separate publications for each district, further improvement was made at the time of 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, banking, education, health, etc. An introductory note was also added to highlight the more striking features. Unfortunately the desire to make districtwise Census publication very comprehensive resulted in late availability of the books to the users. Therefore, the organisers of the 1971 Centenary Census decided in favour of splitting the District Census Handbooks into three parts and thereby release maximum data, as and when available, so that the publication may have a useful life of seven to eight years of inter-censal decennium.

Scope :

(a) Part A of the book is the Village and Town Directory. The Village Directory contains for each village particulars of amenities available in the field of education, medicine, power supply, drinking water supply, post and telegraph facilities and communications. In addition, data relating to particulars of land use, weekly market, places of religious, historical or archaeological interest in the village has also been included. The Town Directory gives for each town in the district in the form of suitable statements, the origin and status of the town administration, growth of population, functional category of the town, physical aspects and location, latest municipal financial statements, civic and other amenities, medical, educational and cultural facilities, trade, industry, commerce and banking facilities, population by religion and Scheduled Castes and Scheduled Tribes. The abbreviations used in the Directory have been explained separately.

(b) Part B contains for each village and town, the primary Census data incorporating area, occupied residential houses, number of households, total population and its break-up by sex, Scheduled Caste and Scheduled Tribe population, literate population and working population by nine broad categories.

(c) Part C will mainly incorporate the administrative statistics pertaining to the district in all the fields of development. The other Census tables pertaining to the district regarding language, religion, migration, etc., will also be reproduced. There will be a write-up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade.

Village Directory :

This is in the form of one statement. Important statistics for each village have been given under the main head —Amenities and Land Use data. Other information regarding nearest town with distance, market, staple food and places of religious, historical or archaeological interest have also been given in separate columns. The information regarding "Amenities" cover items like educational and medical institutions, power supply, drinking water, communications and post and telegraph Under "Land Use", the break-up of the total area of the village has been indicated under sub-heads forest, irrigated, unirrigated, cultivable waste and area not available for cultivation.

(a) There are 1,139 villages in the five tahsils of the district and the number of villages, tahsil-wise, in 1961 and 1971 is as under :—

	Tahsil	1961	1971	Difference
	1	2	3	4
1	Khacharod	222	223	+1
2	Mahidpur	226	227	+1
3	Tarana	210	211	+1
4	Badnagar	192	193	+1
5	Ujjain	281	285	+4
		1,131	**1,139**	**+8**

It may be seen that in all there is an increase of 8 villages in 1971 (4 in Ujjain tahsil and 1 in each of the remaining 4 tahsils). The reasons for the increase are:—

1. **Khacharod tahsil**:—The revenue area of Khacharod Kasba has been treated as a separate village (Location Code No. 16/1/223).

2. **Mahidpur Tahsil**:—The revenue area of Mahidpur Kasba has been treated as a separate village (L.C. No. 16/2/112).

3. **Tarana Tahsil**:—The revenue area of Tarana has been treated as a separate village (L.C. No. 16/3/130).

4. **Badnagar Tahsil**:—The revenue area of Badnagar has been treated as a separate village (L.C. No. 16/4/94).

5. **Ujjain Tahsil**:—The revenue areas of Kothimahal(L.C. No. 16/5/249), Bhaded (L.C. No. 16/5/154), Bherugarh (L.C. No. 16/5/157) and Bhitari Maychak (L.C. No. 16/5/149) have been treated as separate villages.

The area and amenities of the following villages were not furnished by the Tahsildars on the ground that they have been included in the towns and, therefore, these villages have not been considered for discussing the data regarding area and amenities in this note except electricity amenity for village Jiyapura for which information was received from the M.P. Electricity Board.

Tahsil	Name of village	L. C. No.	Town in which included
1	2	3	4
Khacharod	Padalya Kalan	16/1/49	Nagda
	Nagda	16/1/53	,,
	Mehatwas	16/1/58	,,
Ujjain	Jiyapura	16/5/191	Ujjain

The distribution of the villages with reference to their area in acres is as shown in the inset table below:

Area (in acres)	No. of villages
1	2
50 acres or less	1
51—100	..
101—200	8
201—500	103
501—1,000	389
1,001—2,000	464
2,001—5,000	160
5,001 acres and above	10
Area not given	4
Total	**1,139**

Village Semal Khori (L.C. No. 16/3/209) in Tarana tahsil has the smallest area of 25 acres and is located at a distance of 12.8 km. from the nearest town, Shajapur, while village Kharsond Kala (L.C. No. 16/4/59) in Badnagar tahsil has the largest area of 7,543 acres in the district and is located at a distance of 25.6 km. from the nearest town, Badnagar. In all 853 out of 1,135 villages, for which area figures are available, are in the range of 501-2,000 acres. Maximum village in Ujjain tahsil come within the area range of 501-1,000 acres, while in the remaining tahsil they come within the range of 1,001-2,000 acres as will be seen from the following table containing tahsil-wise data of villages for which area figures are available:—

Area in acres	Khacharod	Mahidpur	Tarana	Badnagar	Ujjain	Total
1	2	3	4	5	6	7
50 acres or less	..	..	1	..	..	1
51-100	..	..	..	..	..	..
101-200	..	..	1	4	3	8
201-500	7	23	31	12	30	103
501-1,000	73	73	74	55	114	389
1,001-2,000	99	103	78	78	106	464
2,001-5,000	39	28	24	41	28	160
5,001 & above	2	..	2	3	3	10
Area not available	3	..	..	..	1	4
Total	**223**	**227**	**211**	**193**	**285**	**1,139**

(*b*) *Educational Amenities*:—The total number of villages having various educational facilities within different distance ranges from the nearest town are as indicated in the inset table below:—

Distance from nearest town	Total No. of villages	Number of villages having: Primary School	Middle School	High or Higher Secondary School	College	Others
1	2	3	4	5	6	7
5 kms. or less	130	46	2	..	..	..
6—10 kms.	201	104	9	..	..	..
11—15 kms.	252	125	13	1	..	..
16—25 kms.	457	236	30	5	..	..
26—50 kms.	98	55	8	3	..	..
51—100 kms.	1	..	..	..	..	..
101—200 kms.	..	..	..	..	..	..
201 kms. & above	..	..	..	..	..	..
Total	**1,139**	**566**	**62**	**9**	..	..

Maximum number of villages (457) lie within the distance range of 16-25 km. and maximum number of villages having educational facilities also lie within this range. The number of educational institutions in the villages of different tahsils is given below:—

Tahsil	Number of Educational Institutions: High or Higher Secondary School	Middle School	Primary School
1	2	3	4
Khacharod	1	12	106
Mahidpur	2	8	102
Tarana	1	14	119
Badnagar	3	16	124
Ujjain	2	14	138
Total	**9**	**64**	**589**

Twenty one villages have two primary schools each, while one village has three primary schools. Two villages have two middle schools each. The area of these villages with distances from the nearest town are indicated below:—

S. No.	Name of Village	Tahsil	L. C. No.	Area of the village in acres.	Distance from the nearest town in km. with name	Educational Institutions and number (if more than one): Primary	Middle
1	2	3	4	5	6	7	8
1.	Ghinoda	Khacharod	16/1/85	3,223.00	Khacharod 8.0	2	..
2.	Kasba Unhel	Khacharod	16/1/208	6,373.00	Khacharod 22.4	2	2
3.	Bapaiya	Mahidpur	16/2/6	2,227.09	Alot 14.4	2	..
4.	Gogapur	Mahidpur	16/2/12	1,931.23	Nagda 16.0	..	2
5.	Jhutawad	Mahidpur	16/2/32	3,566.44	Alot 14.4	2	..
6.	Jharda	Mahidpur	16/2/90	3,221.72	Mahidpur 16.8	2	..
7.	Kheda-Khajuriya	Mahidpur	16/2/206	2,977.27	Mahidpur 16.0	2	..
8.	Jagothi	Mahidpur	16/2/219	3,229.59	Mahidpur 22.4	2	..
9.	Tukral	Tarana	16/3/14	3,269.00	Tarana 22.4	2	..
10.	Dhabla Hardu	Tarana	16/3/15	2,337.00	Tarana 25.6	2	..
11.	Nanded	Tarana	16/3/59	4,578.00	Tarana 20.8	2	..
12.	Makdone	Tarana	16/3/61	2,149.00	Tarana 22.4	2	..
13.	Kadodia	Tarana	16/3/72	6,060.00	Shajapur 19.2	2	..
14.	Kanardi	Tarana	16/3/114	2,213.00	Tarana 11.2	2	..
15.	Samgi	Tarana	16/3/145	1,851.00	Shajapur 16.0	2	..
16.	Kanasiya	Tarana	16/3/154	3,825.00	Tarana 16.8	2	..
17.	Sumara-Kheda	Tarana	16/3/167	1,355.00	Tarana 9.6	2	..
18.	Kayatha	Tarana	16/3/190	5,209.00	Tarana 17.6	3	..
19.	Utwas	Badnagar	16/4/43	1,947.00	Badnagar 9.6	2	..
20.	Baloda Lakha	Badnagar	16/4/72	4,094.00	Badnagar 16.0	2	..
21.	Jalodiya	Badnagar	16/4/109	3,472.00	Badnagar 9.6	2	..
22.	Bhidawad	Badnagar	16/4/116	2,445.00	Badnagar 16.0	2	..
23.	Harsodan	Ujjain	16/5/115	2,444.00	Ujjain 10.4	2	..
						45	4

(*c*) *Medical facilities:*—The availability of medical facilities per 100 sq. kms. area, tahsil-wise, is as given in the following inset table:—

Tahsil	Total area (in sq. kms.)	No. of medical institutions of any kind per 100 sq. kms.
1	2	3
Khacharod	1,261.33	0.55
Mahidpur	1,131.83	0.71
Tarana	1,051.54	0.76
Badnagar	1,219.89	0.82
Ujjain	1,359.75	0.96

The above table will show that the villages of Ujjain tahsil have, comparatively, greater medical facilities per 100 sq. kms. The number of medical institutions, tahsil-wise, is as indicated below:—

Tahsil	No. of Medical Institutions
1	2
Khacharod	7
Mahidpur	8
Tarana	8
Badnagar	10
Ujjain	13
Total	**46**

(*d*) *Power Supply:*— The number of villages with electric power supply within various ranges of distance from the nearest town is indicated in the inset table below:—

Distance from the nearest town	Total No. of villages	No. of villages with electric power supply
1	2	3
5 kms. or less	130	47
6—10 kms.	201	38
11—15 kms.	252	31
16—25 kms.	457	60
26—50 kms.	98	14
51—100 kms.	1	..
101—200 kms.	..	..
201 kms. and above	..	..
Total	**1,139**	**190**

It would be seen from the above that about 16 percent of the total number of villages have electricity and about 93 percent of them are in the distance range upto 25 kms. The number of villages having electric power supply, tahsil-wise, is as below:—

Tahsil	Total No. of villages	Villages having electric power supply	Percentage of villages covered by electricity
1	2	3	4
Khacharod	223	29	13.00
Mahidpur	227	25	11.00
Tarana	211	26	12.32
Badnagar	193	32	16.58
Ujjain	285	78	27.36
	1,139	**190**	

The percentage (about 16) of villages having electric power supply in the district is more than the State percentage (about 7). Within the district, villages of Mahidpur tahsil have, comparatively, less of this facility.

(*e*) *Communications:*—Total number of villages and the number of villages connected by different types of communications, falling in different distance ranges from the nearest town, are indicated in the inset table below:—

Distance from the nearest town	Total No. of villages	Number of villages connected by				
		Pucca road	Kutcha road	Pucca road, rail	Kutcha road, rail	Others
1	2	3	4	5	6	7
5 kms. or less	130	32	34	3	1	..
6—10 kms.	201	45	62	1	10	..
11—15 kms.	252	33	52	8	7	..
16—25 kms.	457	37	91	13	8	..
26—50 kms.	98	12	13	3	..	..
51—100 kms.	1	..	..	..	..	..
101—200 kms.	..	..	..	..	..	..
201 kms. & above	..	..	..	..	..	..
Total	**1,139**	**159**	**252**	**28**	**26**	..

Few villages are served by "Pucca" road. Out of 1,139 villages in the district, 465 villages are served by either "Pucca" or "Kutcha" roads. The number of villages served by "Pucca" roads, tahsil

wise, and the total number of villages with percentage covered are as under:—

Tahsil	Total No. of villages	No. of villages having "Pucca" roads	Percentage
1	2	3	4
Khacharod	223	28	12.55
Mahidpur	227	2	0.9
Tarana	211	56	26.54
Badnagar	193	34	17.61
Ujjain	285	67	23.50
Total	**1,139**	**187**	

Comparatively, Ujjain and Tarana tahsils have better communication facilities, while Mahidpur tahsil is poor in this facility.

(*f*) *Post and Telegraph.*— The total number of villages in the tahsils of the district having Post Offices and Telegraph Offices are given below:—

Name of Tahsil	Total No. of villages	No. of villages having post offices	No. of villages having telegraph offices	No. of villages having Telephone
1	2	3	4	5
Khacharod	223	18	1	..
Mahidpur	227	13	1	1
Tarana	211	18	1	..
Badnagar	193	22	..	1
Ujjain	285	22	..	..
Total	**1,139**	**93**	**3**	**2**

The number of post offices per 100 sq. kms. are in each tahsil is as indicated in the following inset table:—

Name of Tahsil	Total area (in sq. kms.)	No. of post office per 100 sq. kms.
1	2	3
Khacharod	1,261.33	1.43
Mahidpur	1,131.83	1.15
Tarana	1,051.54	1.71
Badnagar	1,219.89	1.80
Ujjain	1,359.75	1.62

Postal facility is, by and large, evenly distributed in the tahsils of the district. Two villages (one village in each tahsil Madidpur and Badnagar) of the district have telephone facility, while three villages have telegraph offices.

(*g*) *Staple food.*—"Jowar," wheat and maize constitute staple food in the villages of every tahsil.

(*h*) *Land Use Pattern.*— (i) According to the village papers about 0.84 percent of the area in the district is under forest. The percentage of forest area, tahsil-wise, is indicated below:—

Name of Tahsil	Percentage
1	2
Khacharod	0.2
Mahidpur	Nil
Tarana	4.4
Badnagar	Nil
Ujjain	0.15

It may be noticed that there is no forest area in the villages of Mahidpur and Badnagar tahsils, while there is some forest in Tarana tahsil. Comparatively, Ujjain and Khacharod tahsils have very little forest area.

(ii) The net cropped area in the year 1969 increased by 15.6 percent as compared to the area in 1960-61. The percentage of area under irrigation to area under crops during the years 1960-61 and 1968-69 comes to 1.7 and 2.02, respectively. The area under irrigation during this period increased by 32.7 percent.

(iii) The following inset table shows the average percentage of cultivable waste per village in

different distance ranges from the nearest town:-

Distance from the nearest town	No. of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7
5 kms. or less	130	97,821.55	752.47	22,391.82	172.24	22.89
6—10 kms.	201	196,754.15	978.88	41,633.29	207.13	21.16
11—15 kms.	252	227,601.96	903.18	51,839.49	205.71	22.78
16—25 kms.	457	468,867.04	1,025.97	104,315.58	228.26	22.25
26—50 kms.	98	101,927.55	1,040.08	20,881.79	213.08	20.49
51—100 kms.	1	262.77	262.77	372.82	372.82	141.88
101—200 kms.	..	..	..	..	..	..
201 kms. and above	..	..	..	..	..	..
Total	**1,139**	**1,093,235.02**	..	**241,434.79**	..	..

Ordinarily, the nearer a village to an urban area, the lesser is the proportion of cultivable waste but the above inset table will show that there is some deviation in the distance ranges upto 26-50 kms.

In the whole district, 241,435 acres (in round figure) of land has been classified as cultivable waste which constitutes about 16 percent of the total area of the villages in the district. The percentage of cultivable waste in each tahsil is indicated below:—

Name of tahsil	Percentage of cultivable waste
1	2
1. Khacharod	17.35
2. Mahidpur	26.88
3. Tarana	11.83
4. Badnagar	12.87
5. Ujjain	12.70

This table would show that, comparatively, more cultivable waste is located in Mahidpur tahsil and it comes to slightly over one fourth of the total area of the villages in this tahsil.

Town Directory :

(a) This is in the form of seven Statements. But before discussing the information collected in the seven statements, it would be better to first understand certain concepts which determines urban areas.

(*i*) *Definition of town.* —A 'town' in the 1961 Census was either (i) a Municipality, Cantonment or Corporation; or (ii) a habitation with a population of at least 5,000 with at least three-fourths of the adult male population engaged in non-agricultural pursuits. Accordingly there were 219 towns in the State. However, seven towns did not satisfy either the minimum population criterion or the one relating to ratio of non-agricultural adult males being 75% or more. But the list already finalised was not changed subsequently; the reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to get included in the list of towns as Municipalities and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than what was already present. In the 1971 Census there was no material change in the concept of town and a list of 247 towns was prepared originally. Three more towns were added in the list due to the fact that two places were declared as municipal and the third fulfilled the necessary criterion to qualify a place as urban and ultimately 250 towns were recognised in the State. All areas which are not towns have been included in the list of villages.

(*ii*) *Urban Agglomeration.*— The concept of Urban Agglomeration has been adopted for the 1971 Census with the intention to present the population data in the District Census Handbook in respect of

urban areas in such a manner that "*de-facto* urban agglomeration" is a recognisable entity, data pertaining to which will be the sum of the data of not only the *de-jure*(within Municipal/other statutory limits) urban area but also of its outgrowths in different directions which are obviously urban in character and form a continuous urban spread. This has been considered necessary so that future comparisons or studies of the particular urban agglomeration is factual and not vitiated by the time differential which exists between the delineation of municipal boundaries and the actual growth of the urban area.

(*iii*) *Standard Urban Area*.— This new concept has been developed for the 1971 Census and the essentials of a Standard Urban Area are :—

(1) It should have a core town of a minimum population size of 50,000.

(2) The contiguous areas made up of other urban as well as rural administrative units should have close socio-economic links with the core town,and

(3) The probabilities are that this entire area will get fully urbanised in a period of two to three decades. This concept has been developed to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture.

(*b*) *The Seven Statements.*—Very useful data regarding the towns have been given in the statements and they have been collected and compiled from various agencies and official publications. The source and period of the information has been indicated below each Statement. It would not be out of place to mention here that analysis of data collected from diverse sources has its own limitations, mostly due to sketchy and incomplete information. All the same, the data compiled and presented throws sufficient light on the present stage of progress in each town.

(*i*) *Statement No. I*.— This statement presents the basic data relating to population of the towns for each decennium from 1901 to 1971 and the civic administration status in 1970. The civic administration status of the town indicates the authority incharge of its administration. Thus a town could have a Municipal Corporation, a Municipality, a Cantonment Board, a Gram Panchayat, a Notified Area Committee, etc.

(*ii*) *Statement No. II*.— This statement contains information regarding location (latitude/longitude), annual rainfall, temperature, distance from the nearest city with population of 1 lac or more and State, District and Tahsil headquarters. Distances from Railway Station and Bus route have also been indicated.

(*iii*) *Statement No. III*.— This statement contains information regarding receipt and expenditure of local bodies under different main heads indicating the indebtedness and general financial position and expenditure on public utility works. The information has been furnished for the years 1968-69, 1969-70 and 1970-71 in order to have an idea whether the concerned urban body is improving financially or not.

(*iv*) *Statement No. IV*.—This statement contains information regarding amenities, e. g., road length, sewerage system, types of latrines, water supply, fire-fighting service, etc. in the different towns.

(*v*) *Statement No. V*.— This statement contains information regarding various important facilities available in the town, viz., medical, educational, recreational and cultural.

(*vi*) *Statement No. VI*.— This statement throws light on the business and credit facilities commanded by the towns and contains information regarding trade, commerce, industry and banking.

(*vii*) *Statement No. VII*.—This statement contains data regarding population by religion and Scheduled Castes/Scheduled Tribes with male/female break-up for the year 1971. This is the only statement based on 1971 Census figures.

Towns:

There are five tahsils and six towns in Ujjain district as indicated below:—

Tahsil	Town
1	2
1. Khacharod	1. Khacharod
	2 Nagda
2. Mahidpur	3. Mahidpur
3. Tarana	4. Tarana
4. Badnagar	5. Badnagar
5. Ujjain	6. Ujjain

All the towns are tahsil headquarters, except Nagda. Ujjain is also the headquarter of the district. All these towns continue to be recognised as a town since 1901, except Nagda, which was recognised as a town in 1961. None of these towns have ever been derecognised.

Urban Outgrowths and Standard Urban Area

The following are the urban agglomerations and Standard Urban Area in the district and their components are also mentioned:—

Name of Town	Urban outgrowth(s)	Included Partly/ Wholly	L. C. No.
1	2	3	4
(1) Khacharod	Nil		Nil
(2) Mahidpur	(i) Mahidpur Kasba	(wholly)	16/2/112
	(ii) Barapathar	(wholly)	16/2/122
(3) Tarana	Nil		Nil
(4) Badnagar	(i) Badnagar Kasba	(wholly)	16/4/94
	(ii) Jafla	(Partly)	16/4/96
(5) Ujjain	(i) Nagziri	(wholly)	16/5/136
	(ii) Lalpur	(wholly)	16/5/137
	(iii) Panwasa	(wholly)	16/5/145
	(iv) Goyala	(wholly)	16/5/251
	(v) Malanwasa	(wholly)	16/5/250
	(vi) Ujjain Railway Colony		N.A.
(6) Nagda	Nil		Nil

Standard Urban Area

Name of SUA	Constituent town/villages	L. C. No. 1971
1	2	3
Ujjain	*Urban Components*	
	(i) Ujjain (M.C.)	16/IV
	(ii) Ujjain Railway Colony	N.A.
	(iii) Nagziri	16/5/136
	(iv) Panwasa	16/5/145
	(v) Malanwasa	16/5/250
	(vi) Lalpur	16/5/137
	(vii) Goyala	16/5/251
	Rural Components	
	(i) Dhatrawada	16/5/132
	(ii) Gothada	16/5/243
	(iii) Khilchipur	16/5/148
	(iv) Shakkarwasa	16/5/252

Statement I:—(a) Ujjain city has a corporation, while the rest of the towns have municipalities. The population of all the towns, except Nagda, fell during the decades as mentioned below:—

Name of Town	Dacade population		Reduction in population
	Year	Population	
1	2	3	4
1. Badnagar	1901	10,856	
	1911	8,634	2,222
	1921	8,543	91
2. Khacharod	1901	9,186	
	1911	6,496	2,690
3. Mahidpur	1901	6,681	
	1911	5,620	1,061
	1921	7,062	
	1931	6,834	228
4. Tarana	1911	5,463	
	1921	4,997	466
5. Ujjain	1901	39,892	
	1911	39,295	597

The population of the towns has, by and large, shown constant increase in every decade after their recognition as towns except during the periods mentioned above.

During the decade 1901-1911, all towns, except Tarana, lost in population and the loss in the case of Khacharod and Badnagar was quite high. This was mainly due to famine in Malwa tract towards 1900-1901*. During the decade 1911-1921, only Tarana and Badnagar slightly reduced in population while there was no reduction in population of the other towns despite the very severe epidemic that swept across the country. This is perhaps due to the fact that rural population came to urban areas in the hope of medical facilities and many villages were literally deserted at the time of influenza epidemic.**

During the decade 1921-1931, the population of only Mahidpur town reduced by 228 while the district experienced increase and this slight reduction may be largely due to migration to other

*District Census Handbook—Census of India 1961—Ujjain district, page xliii.

**Ibid., page xliv.

areas of the district. Col. 14 of the statement shows the functional classification of the towns in 1961 as indicated in the following inset table:—

Functional category	Total No. of Towns
1	2
Industry	2
Primary activities-*cum* Industries	1
Services-*cum* Primary activities	1
Industry-*cum* Services-*cum* Primary activities Service	1

The method adopted for the functional classification is elucidated below.

(b) The nine industrial categories were grouped into the following five functional characteristics:—

(i) Primary Activities (Comprising Category I—Cultivation, II—Agricultural Labourer and III—Mining and Quarrying, Fishing, Livestock, Hunting, etc.).

(ii) Industrial (Comprising Category IV—Household Industry, V—Manufacturing other than Household Industry and VI—Construction).

(iii) Commercial (Comprising Category VII—Trade and Commerce).

(iv) Transport (Comprising Category VIII—Transport, Storage and Communications).

(v) Services (Comprising Category IX— Other services).

The percentage of total workers under the above five functional characteristics were calculated for each town and the predominant function(s) of each town was/were determined. If one functional characteristic of a town absorbed more than 40 per cent of the total workers the town was designated by that function. In case no single characteristic claimed 40 per cent of the workers, two predominant characteristics together claiming a percentage of 60 or above were taken to represent the town. If these two failed to account for 60 percent of the total workers, the first three characteristics were taken to represent the town.

Statement II :—The physical and locational aspects as in the 1969 have been covered. The district lies in the region known as Malwa Plateau. The towns get annual rainfall of about 895 mm. to 1352 mm. and range of maximum and minimum temperature is about 39°C. to 8°C. The district enjoys a mild climate. All the towns are on bus route and have railway facility. The district headquarter, Ujjain, is at a distance of 203 km by road from the State headquarter, Bhopal. Ujjain is the nearest city from the towns—Tarana, Nagda, Badnagar and Mahidpur, while Ratlam is the nearest city from the town Khacharod. Indore is the nearest city from the district city, Ujjain.

Statement III :—On the basis of population of 1971, the six towns of the district have been categorised as under:—

Name of town	Population in 1971	Class
1	2	3
1. Badnagar	19,712	IV
2. Khacharod	17,726	IV
3. Mahidpur	14,744	IV
4. Nagda	32,569	III
5. Tarana	12,917	IV
6. Ujjain	203,278	I

The statement would show that the total expenditure is within the total receipts of the local bodies except in the following cases:—

Local Body in the town of	Year of excess expenditure	Amount by which the expenditure is more than receipt	Percentage of excess expenditure to total receipt
1	2	3	4
1. Badnagar	1968-69	12,000	3.83
2. Khacharod	1969-70	19,300	7.09
3. Mahidpur	1968-69	19,400	6.40
4. Nagda	1968-69	10,600	19.50
	1970-71	17,400	10.50
5. Tarana	1968-69	25,200	15.34
6. Ujjain	1968-69	941,100	19.57
	1969-70	206,200	3.47

Column 4 of the above table would show that the percentage of excess expenditure to total receipts of the local bodies of Ujjain, Tarana and Nagda is more than ten percent for the years indicated in the table. The total receipts of the local bodies have, by and large, shown an upward trend. The total receipts of Ujjain corporation, however, reveal a fall during the year 1970-1971 mainly due to reduction of government grant. Similarly the total receipts of the municipalities of Khacharod and Tarana show a decrease during the year 1969-70 by few thousands. Receipts through taxes have also shown, by and large, an upward trend during these years except in the following cases:—

Name of local body	Year	Extent of short-fall
1	2	3
1. Mahidpur Municipality	1970-71	19,200
2. Nagda Municipality	1969-70	11,700
3. Ujjain Corporation	1970-71	380,000

The above table would show that the short fall of Ujjain Corporation in the receipts through taxes is more than three and half lacs which is quite substantial.

No local body, except Nagda municipality, took loan. Government grant has substantially contributed to the receipts of these local bodies and of Ujjain Corporation in particular. The per capita receipt and expenditure under broad heads is indicated in the inset table below:—

Class of town	No. of towns		Per capita (in Rupees)						
			Receipt			Expenditure			
			Total receipt	Receipt through taxes, etc.	Receipt from all other sources	Total expenditure	Expenditure on Public Health conveniences	Expenditure on Public Institutions	Expenditure on all other aspects
1	2	(2A)	3	4	5	6	7	8	9
Class I									
100,000 & over	1	1968—69	23.65	19.72	3.93	28.28	6.32	..	21.96
		1969—70	29.21	24.15	5.06	30.23	7.80	..	22.43
		1970—71	26.58	22.29	4.29	26.30	8.05	..	18.25
Class II									
50,000—99,999		..	...	..	..	..	..	..	..
Class III									
20,000—49,999	1	1968—69	1.66	0.91	0.75	1.99	0.27	..	1.72
		1969—70	2.84	0.56	2.28	2.40	0.38	..	2.02
		1970—71	5.07	0.61	4.46	5.61	0.38	..	5.23
Class IV									
10,000—19,999	4	1968—69	16.25	11.34	4.91	16.36	4.85	0.22	11.29
		1969—70	16.77	13.55	3.22	16.47	5.39	0.29	10.79
		1970—71	21.01	16.59	4.42	19.28	5.80	0.32	13.16
Class V									
5,000—9,999		..	..	..	..	..	..	..	..
Class VI									
Below 5,000		..	..	..	..	..	..	..	..

The above inset table would show that the total per capita receipt matches fairly well with the total per capita expenditure. The per capita expenditure on public health and conveniences is, however, substantially less than per capita receipt through taxes etc. The expenditure of the local bodies other than Nagda municipality, shown in col. 15 of statement No. III under head 'Others' constitutes quite a high percentage of the total expenditure.

Statement IV:—All the towns have electricity and electric connections have also been given for industrial purpose. Street light have also been provided in all the towns. Water tap facility is available in all the towns except Tarana and Nagda. Fire brigade is available only in Ujjain and Khacharod.

Statement V. — Medical facilities. — Every town has a hospital. There is also a Family Planning Clinic at Ujjain and Nagda. In

addition to the above Ujjain has a dispensary and a T. B. Clinic. The number of beds per 1,000 population comes to 1.04 as shown in the following inset table:—

Total No. of beds in medical institutions	No. of beds per 1,000 population
1	2
482	1.2

(*ii*) *Educational facilities* :—Ujjain has the maximum number of educational institutions in the district and the following deserve particular mention:—

(a) Two Arts Colleges

(b) One combined College

(c) One Engineering College

(d) One Polytechnic

(e) Sixteen Higher Secondary/High Schools.

Incidentally it may be mentioned that Vikram University is also located at Ujjain. Badnagar has one Arts and and one Science College, while Khacharod has only an Arts College. Tarana, Nagda and Mahidpur do not have College. Every town has Higher Secondary/High School facility. The number of Higher Secondary/High Schools and Middle Schools and Primary Schools per thousand population is shown in the following inset table. For a more realistic appreciation the population in the age-group 0-14 has been considered for Primary and Middle Schools while population in the age-group 15-19 has been considered for Higher Secondary/High Schools.

Name of the town	Number per 1,000 population		
	Higher Secondary or High School	Middle School	Junior secondary/primary
1	2	3	4
Badnagar	1.0	0.5	1.2
Khacharod	1.2	0.4	0.8
Mahidpur	1.3	0.3	0.6
Nagda	0.1	0.2	0.2
Tarana	1.8	0.5	1.2
Ujjain	0.8	0.4	0.6

(*iii*) *Recreational and cultural facilities:*—All the towns have Cinema houses, the maximum number 8 being located in Ujjain city. Play grounds are available in all the towns except Nagda and Badnagar. Public libraries are also available in all the towns except Nagda.

Statement VI:—There are 16 banks at Ujjain and 3 banks at Khacharod and Nagda, while the remaining towns have 2 banks each. Every town, except Ujjain, has one agricultural credit society. Out of 15 Non-agricultural credit societies in the district, 12 are at Ujjain, 2 at Khacharod and 1 at Mahidpur, while there is none in Tarana, Nagda and Badnagar. Cloth, Sugar, Yarn, Groundnut, Steel and Iron articles and "Kirana" are the main items of import in the 5 towns of the district, while in Nagda the important import items are Sulphur, Pulp and Caustic Soda. Cloth, Royon, Jowar, Oil and Maize are the main items of export. The important items of local manufacture are Cloth, Groundnut oil, Rayon, Soap, "Agarbatti" and Bangles.

Statement VII :—About 68 percent of the town population of the district is in Ujjain city. The percentage of the town population of Ujjain, Nagda Badnagar, Khacharod, Mahidpur and Tarana following Hindu religion comes to about 75, 82, 66, 61, 51 and 75, respectively. Islam religion is followed by about 21, 24, 28, 38 and 23 percent people of Ujjain, Badnagar, Khacharod, Mahidpur and Tarana towns, respectively, while in Nagda town only about 12 percent people follow this religion. About 10 percent people of Khacharod and Mahidpur towns follow Jain religion, while in the rest of the towns the percentage of such persons comes to less than ten. The percentage of people following other religions is not very significant. There is no Christian population in Badnagar. Similarly there is no population following Budh religion in the towns of Badnagar and Tarana. Scheduled Caste population in Ujjain, Nagda and Tarana towns is between 10 and 16 percent, while in other towns, it is less than ten percent. The percentage of Scheduled Tribes in the towns is insignificant.

Note:—Persons following different sect/faith have been included under the main religion as below :—

(i) In Khacharod town, Hindu includes Vaishnav (M. 26, F. 37).

(ii) In Mahidpur Town, Hindu includes Vaidik Dharma (M. 1, F. 1), Vaishnav (M. 1).

(iii) In Nagda Town, Hindu includes Vaishnav (M. 9, F. 15), Arya Vedic (M. 14, F. 8), Kabirpanthi (M. 1); Muslim includes Bohra (M. 2).

(iv) In Ujjain Town, Hindu includes Vaishnav (M. 34, F. 34), Sindhi (M. 12), Sanatan (M. 9, F. 4); Muslim includes Saikh (M. 1) and Other includes Parsi (M. 17, F. 3).

PRIMARY CENSUS ABSTRACT

PART X (B)

EXPLANATORY NOTE

I. General.—In Part A, the picture of the district as revealed by non-Census data has been discussed. In this note, the progress made by the district in the 1961-71 decade would be dealt with on the basis of information collected in the individual slip that was canvassed in the 1971 Census. Broadly speaking, the changes that have come about in the matter of total population, its growth-rate and density, sex-ratio, literacy, Scheduled Castes and Scheduled Tribes, working population, occupied residential houses and number of households would be discussed.

II. Population.—The population of Ujjain district is 862,516, while the population of Madhya Pradesh is 41,654,119. The population of Ujjain district thus comes to about 2.07 percent of the State population. The rural population is about 64.45 percent of the district population whereas the urban population is 35.55 percent as against the State percentage of 16.29 only. In other words, the district is urban in character. Highest percentage of the district population is found in Ujjain tahsil (about 39 percent) and one of the reasons for this is that the population of Ujjain City is part of Ujjain tahsil. Ujjain district ranks 21st among the 43 districts of the State in population. During the decade 1961-71 the district population growth-rate has been 30.34 against the State growth-rate of 28.67. The area of the district is 6,081 sq. km. In other words, it has 1.37 percent of the State area and ranks 36th in area among the districts of the State. The density of population per sq. km. of the district is 142 against the State density of 94 and the district ranks 6th in density in the State. The sex-ratio, number of females per 1,000 males of the district and the State is 918 and 941 respectively. Tahsil Khacharod and Ujjain have got sex-ratio lower than the district sex-ratio while the other tahsils have higher sex-ratio.

III. Literacy.—(1) The percentage of literacy in the district comes to about 28 as against the State literacy percentage of about 22. In 1961 also, the literacy percentage of the district 23.44 was higher than the State percentage of 17.13. The district has made some progress to increase the rate of literacy during the decade 1961-71. Incidentally it may be mentioned that Vikram University is located at the district headquarter, Ujjain.

(2) The literacy percentage among the males in the district (40.03) is higher than the State percentage of about 33. Among females also, the literacy percentage in the district (15.91) is higher than the State percentage of about 11.

(3) Among the tahsils, Ujjain tahsil has the highest literacy percentage of about 39, while Mahidpur tahsil has the lowest percentage of about 17.

(4) The same pattern is seen in male and female literacy in the tahsils. Among males, Ujjain tahsil is at the top (about 51 percent),while Mahidpur tahsil with about 27 percent comes last. Among females, Ujjain tahsil leads in literacy (about 26 percent), while Tarana tahsil with 6.76 percent comes last. One of the reasons for this contrast is that Ujjain City, which is one of the leading towns of the State and where a University is located, is in Ujjain Tahsil.

IV. Workers.—In the district about 33 percent of the population comes under the category of workers (main activity) against the State percentage of about 37. The percentage of female workers (about 12) is appreciably less than the State percentage (about 19). In the district, comparatively more percentage of workers (males and females) have been returned from Mahidpur tahsil. Ujjain tahsil has returned the lowest percentage of workers (29.32). Among

female workers, Tarana tahsil (with 15.16 percent) leads other tahsils of the district, while Ujjain tahsil (with 9.47 percent) comes last. Among the workers in the district, about 42 and 24 percent are cultivators and agricultural labourers, respectively, against the State percentage of about 53 and 27. Under the category "other workers" the district percentage (about 34) is higher than the State percentage of 20.58 which clearly shows that the district is relatively more industrialised. Among females, the district percentage of agricultural labourers (about 58) and other workers (about 17) is higher than the State percentage of about 49 and 10, respectively, while for cultivators the district percentage (about 25) is lower than the State percentage (about 41).

V. Scheduled Caste and Scheduled Tribe.—The percentage of Scheduled Caste to total population of the district (about 23) is significantly higher than the State percentage (about 13), while the percentage of Scheduled Tribes in the district (0.14) is significantly lower than the State percentage (about 20). In the tahsils of the district, quite a high percentage of Scheduled Caste population (about 30) is found in Tarana Tahsil, while in Badnagar tahsil the percentage (about 20) is lowest. The Scheduled Tribe population in Khacharod tahsil is 1.10 percent, while in other tahsils it is even less than one percent.

VI. Occupied Residential Census Houses.—The district has 136,642 occupied residential Census houses against the State figure of 6,822,767 which comes to 2 percent. During 1961 there were 118,755 occupied residential Census houses in the district against the State figure of 6,230,854 which comes to 1.91 percent. There has not been any material change in the percentage during the decade. The number of households and persons per occupied residential Census houses in 1961 and 1971 are indicated below:—

State/ District		No. of residential Census houses	No. of households	No. of households per occupied residential Census house	No. of persons per occupied residential Census house
1		2	3	4	5
State	1961	6,230,854	6,615,580	1.06	5.2
Distt.	1961	118,755	133,443	1.12	5.6
State	1971	6,822,767	7,740,289	1.13	6.1
Distt.	1971	136,642	155,035	1.13	6.3

It would thus be seen that the pressure on occupied residential Census houses has increased during the decade in the district as well as in the State. Comparatively, Ujjain tahsil (with about 36.30 percent) claims the highest percentage of occupied residential Census houses in the district.

VII. Villages and Towns.—There are in all 1,139 villages in Ujjain district, which comes to 1.48 percent of total villages in the State. The percentage of inhabited villages to the total villages in the district is about 98.33 against the State percentage of about 92. There are in all 250 towns in the State out of which the district claims only six.

(3) Town treated as such for the first time in 1961 Census which continues as town in 1971 Census has been shown with an asterisk (*) on its left.

(4) The total area figure given for the district is provisional 'Geographical Area' as supplied by the Surveyor General, India.

(5) The urban area figures have been supplied by the local bodies.

(6) The rural area of the district has been derived by substracting the urban area figures supplied by local bodies from the total area figure of the district.

(7) Total area figures of the tahsils are according to village papers as supplied by the Director of Land Records, Madhya Pradesh.

PRIMARY CENSUS ABSTRACT
