THE 14TH APRIL, 1976

PREFACE

The 1971 Series of District Census Handbooks of which this represents one volume, are being presented in a new form. The Handbooks have been divided into three sections. Part A presents data obtained from the field on land use patterns, civic amenities such as drinking water, post offices, primary schools etc. available in each village. Part B presents demographic data down to the village level. Part C presents official statistics gathered from sources other than the Census of 1971 and also includes notes on various aspects of each district.

Our attempt has been to present information concerning each district which is at once relevant and as detailed as possible, and we hope these volumes will prove useful to scholars, planners and those who are working to better the economic condition of the people in our State.

Bhaskar Ghose
Director of Census Operations
West Bengal

10th August, 1973

NOTE ON AREA

Total area figures shown in Column No. 4 for the district as a whole in the District Primary Census Abstract represent 'Geographical Area' figures supplied by the Surveyor General, India. Area figures for the total urban sector of the district have been computed from the area figures for the individual urban units supplied by the local bodies concerned. Area figures for the rural sector have been derived by subtracting the urban area from the total area of the district. The total of the area figures of the Police Stations may not agree with the area figures of the district as the former represents 'Land use area' which has been obtained from the Directorate of Land Records & Surveys, West Bengal.

2. The village area figures shown in Column No. 3 in the Villagewise Primary Census Abstract have been shown in hectres. The village area in acres, obtained from the Directorate of Land Records & Surveys, West Bengal, have been converted to hectres by applying the conversion factor, 1 Acre=0.404687 Hectre, in the Census Office. At the bottom of each Villagewise Primary Census Abstract, the total area for the Police Station concerned has been shown in Sq. Km. which corresponds to the 'Land use area' as mentioned in Para 1.

Notes :

† The area of Dum Dum Aerodrome actually extends to three Police Stations, viz., Dum Dum, Rajarhat and Barasat, but its exact area falling under each could not be ascertained. For the purposes of dividing the area of each of these Police Stations into rural and urban, the urban portion has been computed without taking into account the Dum Dum Aerodrome Area. Part of the Dum Dum Aerodrome Area has been accounted for under Dum Dum P. S. because it is in North Dum Dum and Dum Dum municipal towns but the remainder which is the major portion, is included in the rural area of the two remaining Police Stations of Rajarhat and Barasat.

** In case of Police Stations Noapara, Barrackpore, Titagarh and Baranagar, the totals of the area figures of the individual towns shown under them do not agree with the Police Station area figures because of the following :

(i) Municipal area figures have been adopted as furnished by the municipal authorities, while Police Station area figures are based on last published Jurisdiction Lists,

(ii) river areas apperta ning to Police Stations have not always been included in municipal area figures,

(iii) some of the municipalities fall in the Jurisdiction of more than one Police Station.

†† While deriving the twentyfour Parganas District rural area figures, the area figures of Forest Division have not been accounted for as the same are the shares of different Police Stations of the district of Twentyfour Parganas. The population shown against the Forest Division could not be shown separately against each of those Police Station to which it relates.

‡ It is constituent of Calcatta Urban Agglomeration which spread over Nadia, Twentyfour Parganas, Calcutta, Howrah and Hooghly Districts. Consolidated figures of Calcutta Urban Agglomeration are given in Census of India, 1971, Series 22, West Bengal, Part II-A—General Population Tables at page No. 440.

Y Total area figures given in column 4 against District represent 'Geographical' area figures supplied by the Surveyor General. Figures for Urban areas are those supplied by the Local Bodies. Area figures for Rural Areas are derived by subtracting the Urban area from the total area of the District. The total of the area figures of the Police Stations will not tally with the District figures because the former represents 'land use' area and are derived from the figures supplied by the State Director of Land Records.

2 Town treated as such for the first time in 1961 Census which continue as towns in 1971 Census are shown with asterisk (*) on their left.

3 Towns treated as such for the first time in 1971 Census are printed in *italic*.

4 The following abbreviations have been used for the Status of a Town :

M—Municipality

N.M.—Non-Municipal Town

Cantt.—Cantonment
