19 DISTRICT CENSUS HANDBOOKS

PREFACE

Census in India has all along been a scientific and systematic survey. Gradually through the decades it has also aimed at providing besides a statistical account of the population surveyed, a picture of the Socio-Economic condition of the people. With this end in view, the Census authorities in India have always interested themselves, side by side with the counting of the people, at making several special studies relating to the life of the people.

One of these special features of the Census of India at present is the preparation and publication of the District Census Handbooks. These were first published in the 1951 Census. Upto 1951, after each Census, only the list of villages along with population was published. But for the first time in 1951, general population tables, literacy tables and social and economic tables were published in the District Census Handbooks.

When preliminary work on the 1961 Census started in 1959, the question of enlarging the coverage of subjects included in the District Handbooks was also examined. A broad sheet indicating the items on which information had to be gathered from the various Departments was circulated by the Registrar General, India, and at the First Conference of Superintendents of Census Operations held at Delhi towards the end of 1959, the delegates agreed that it was quite within the bounds of possibility to gather information on all the topics suggested by the Registrar General. It was agreed that the contents of the District Census Handbook, on matters of general information, should not compete with the District Gazetteers.

The scope of the Village Directory included in each District Handbook has been enlarged. In addition to giving the Primary Census Abstract of the village concerned, the Directory gives information about the various amenities available in the village. It is thus possible to get from the Village Directory not only information about the population and the economic activities of the people but also about the level of development attained by the village in regard to the provision of the various amenities. Many of the Census Tables Published in the District Handbook furnish information down to the level of a Taluk and they may prove useful in drawing up Taluk Development Plans. Besides the Census Tables and Village Directory, some administrative statistics pertaining to the District concerned, have also been furnished. It was also thought that the usefulness of these volumes would be enhanced by inclusion of district maps and taluk maps set in suitable squares to facilitate easy location of the villages in the taluk maps. In order that the readers may get a bird's eye-view of the cultural heritage of the State, a note on it has also been included, which though not exhaustive, should give a glimpse of our rich heritage.

These handbooks have been compiled by the Census Organisation under the general instructions of the Registrar General. They are being printed and published by the State Government who have also approved the list of items to be included and the mode of presentation.

In the course of the Census operations, I have received assistance and co-operation from several institutions and individuals. It is impossible for me to express my gratitude to each of them individually. However, I will be failing in my duty if I do not express my deep sense of gratitude to Sri A. Mitra, I.C.S., Registrar General, India, who has been a source of constant help, inspiration and guidance all through the Census operations of 1961. I am also grateful to the Government of Mysore and its staff at all levels, for the unstinted co-operation extended to me in this work.

Surveyor General of India)

Population

INTRODUCTION

TUMKUR DISTRICT with an area of about 4,073 square miles lies between 12° 45' and 14° 6' North latitude and between 76° 31' and 77° 28' East longitude. Its greatest length from North to South is 102 miles and its extreme breadth from East to West is 67 miles. The population of the District according to the Census of 1961 is 13,67,402 which works out to an average of 336 persons to the square mile.

It is bounded on the north by Chitradurga District and Anantpur District of Andhra Pradesh ; on the east by Kolar and Bangalore Districts; on the south by Mysore District ; and on the west by Chitradurga, Chikmagalur and Hassan Districts.

For administrative purposes, the District with its headquarters at Tumkur is divided into ten Taluks *viz.*, Tumkur, Madhugiri, Koratagere, Sira, Pavagada, Chicknayakanahalli, Gubbi, Tiptur, Turuvekere and Kunigal.

From climatic point of view, the whole District can be classified as falling within the southern maidan area. The whole region has rather a harsh environment and has to face draught frequently—particularly the eastern parts. The yield of staples is rather low though compensated to a certain extent by a wide veriety of cash cropping over a considerable area. The rainfall decreases eastwards with increasing variability.

The general plateau surface is interrupted by ranges of higher ground. Red, gravelly or sandy soils predominate on the plateau tops. The valley regions, which are not very deep, frequently benefit from soil erosion higher up, and often have deeper and richer loans. There is considerable dominance of tank irrigation.

The Southern Taluks generally consist of undulating plains (except round about Huliyurdurga, where the country is wooded and hilly) interspersed with tall and well grown tress. Here we find several coconut and other palm gardens in the vicinity of tanks. In the Taluks of Gubbi, Tiptur, Turuvekere and Chiknayakanhalli, coconut is raised even in dry lands. To the east of Tumkur, we come across a hill country intersected by several valleys. The residential vegetation on these hills generally consists of dry, thorny shrubs. As we proceed to the north east-to Pavagada and Madhugiri Taluks, we come across a fertile tract irrigated from perennial springs, reached at a depth of only a few feet from the surface. These springs are called ' talparigis '. Water from these Talparigis is either conducted directly by channels to the fields, or *via.*, small wells worked by ' Kapile '. These springs, however, dry up in summer.

A considerable range of hills, forming the eastern boundary of the Krishna river system in Mysore, runs dirth and south through the eastern regions of the District. Entering its limits from the north with Kamadurga (3,537 feet) and Nidugal (3,485 feet) in Pavagada Taluk, it continues with Midigesidurga (3,414 feet) and includes several prominent peaks *viz.*, Madhugiri Durga (3,935 feet), Channarayana Durga (3,744 feet), Koratagere (2,906 feet), Devarayadurga (4,154 feet), Nijagal (3,569 feet) Hutridurga (3,713 feet), Huliyurdurga (3,086 feet), etc.

Prominent peaks which represent trignometrical survey stations are Ramadevarbetta, Seethakal, Dodanaravangala, Byalya, Pavagada, Bommenhalli, Chowdenhalli, Hemgiri, Rangasawamibetta and Devarayanadurga.

To the west of these chain of hills, there is a love range commencing at Kibbanhalli which runs north-west past Chiknayakanahalli before joining the centre belt of Chitradurga District.

There are only a few streams running through the district, Jayamangali stream rises in Devarayanadurga and flows north-east into the North Pinakini, Shimsha rises to the South of this hill and joins the Cauvery after taking a southward direction, The North Pinakini flows through the extreme north-east corner of the district, in Pavagada Taluk.

On the slopes of the Devarayanadurga, we find the principal forest of the district, Round about Koratagere, we find some fuel jungles. North of Kibbanhalli, there are forests growing 'Karachi' (Hardwickia Binata). There are several forest plantations producing sandalwood. casuarina and cassia. Tumkur. Koratagere. Madhugiri and Kunigal are the best wooded Taluks.

Wild animals are very scarce, confined to only areas round about Devarayanadurga, where we map

come across Tiger, Panther, Bear, etc. In Sira, deer may sometimes be found. In Madhugiri and Tiptur, cheetas are found. In Pavagada Taluk deer and wild boar are common.

Most of the rock groups of the State are represented in the district with the exception of charnockites. The schists region extends north and south to the east of Huliyar. These schists include members of both the lower and upper Dharwars. The manganese ores and the limonite or haematitic iron ores are found in lenticular patches in these rocks in close proximity to the basic chloritic schists. Between Huliyar and Bukkapatna is a hornblendic trap known as 'Bellara trap' which was being worked for gold in the past. This gold search was revived in the 40's and abandoned about 1955.

Bordering the schist region either side, is the gneissic region consisting of a biotite granitic gneiss. Near the eastern border of the district is the granitic region consisting of prophyritic closepet granite. These rocks together with the quartzitic rock near Dodguni and Kondali are used as building rocks. The dark grey potstone of the Turuvekere trap takes a fine polish and is used for the Mysore Palace.

The schists are the chief mineral producing rocks of the districts. Iron ores are found near Kondli, Dodguni Karakurchi and Bukkapatna. There are indications of gold in the Bellara trap and to the east of Koratagere. Manganese is found near Karakurchi, Dodguni and Janehar. Limestone occurs near Kondli, Huliyar, Voblapur, etc. Potstone, useful for carving utensils, occurs near Banasandra. Yellow and red ochres are worked near Janehar. Corundum occurs in Koratagere, Madhugiri, Pavagada Taluks. Earth Soda has been noticed in Sira Taluk and Graphite in Koratagere Taluk.

If in the South and South-East regions the climate is akin to that of Bangalore, to the north of Sira it is akin to that of Chitradurga. As we move east it gets warmer and warmer.

The average rain fall of the district is about 26 inches nearly one-third of which falls in September and OctoberIt is only in the Taluks of Tumkur, Kunigal, and Turuvekere that the annual rain exceeds 25 inches. Pavagada Taluk is the driest in the district with the rain-fall veryrarely exceeding 20 inches.

The year can be divided into three seasons. July to November, the rainy season, December to February, the dry but cool season, and March to June, the dry and warm season.

History

There are several legends of ancient times associated with the District. Kadaba tank is said to have been constructed by the orders of Rama ; emperor Nriga is said to have been cured of leprosy by a bath in the Nagini stream ; Salivahana is said to have been born at Hale Tanduga near Turuvekere ; Sampige in Gubbi Taluk claims to oe the ancient Champakanagar, the Capital of Sudhanva ; Village Kaidala near Tumkur is considered to be the birth place of the great sculptor and architect, Jakanachari ; Sumati, the king of Karnatak is said to have captured Devarayandurga from a robber by name Andhaka or Lingaka. There are many more such narrations.

There are several inscriptions to show that Tumkur was in the possession of Gangas from an early period, upto at least 974 A.D., when Marasimha, the last of the race died.

In the east of the District, there are many memorials associated with the Nolambas or Nonambas, of Pallava discent. It seems they had their capital at Penjeru or Henjeru now identified with the village Hemavati, situated on the northern border of Sira, in Madaksira Taluk. The Nolambas had their strong hold at Nidugal, in Pavagada Taluk. Nolambas had matrimonial relationships with the Gangas in the ninth century when Nolambadhiraja married Jayabbe, sister of a Ganga king. His son, Mahendra, ousted the Cholas and other rivals. Mahendra's son Ayyappa Deva fought with the Gangas. Though the Chalukya supremacy started in or about 980 A.D., it was more or less a nominal control, Nolambas still wielding considerable influence.

Hoysalas succeded the Gangas after defeating King Irungola of the line of kings who had assumed the title " Lords of Oreiyur ". On the death of Someswara, the Hoysala dominions were divided between his two sons.

Some inscriptions of the Henjeru Chola and Hoysala periods do acknowledge the supremacy of the Chalukyas in the District. It appears the Hoysalas, Vinayaditya and Vishnuwardhana (at the beginning of his reign) were ruling under them.

In the 14th century the Vijayanagar Kings started ruling in the district. It was under their sovereignity that several feudatory States of local interest arose. The Nidugal chiefs descending from Tippa Nayaka were ruling Nidugal Hill fort and many others. Tippa Nayaka was also known by the title of " Kathari-Raya ". On his death, his territories were divided among his seven sons but they were ultimately driven out by the Bijapur rulers. Timmana Nayak retired to the hill of Nidugal, paying a tribute of 3,000 pagodas to Sira. On the capture of Sira by Haidar Ali in 1761 A.D. the Nidugal chief, Timmana Nayak, submitted, to the conqueror, who imposed on him a tribute of 7,000 pagodas and the supply of 300 men. But after his death, they lost possession of all the territory.

Holavanhalli or Korampur, in the east was founded by Baire Gouda or Viragouda, whose history is so prominent in connection with the Bangalore and Kolar Districts. But the rule of these chiefs did not last long as the Magadi chief defeated them and gave it to his own brother Ankanagouda. Bairegouda with his eldest son Dadda Baichegouda sought the protection of Sira court. His younger son Sanna Baichegowda, however, reconquered his father's territory with the help of the Dodballapur chief. But within two years the Sira army attacked Dodballapur and captured it. Bairegouda fell in the seige and his eldest son Dodda Baichegowda was invested with the Government of Holavanhalli. He extended his territory to a large extent before the Mysore army under Hyder Ali annexed all the possessions.

Maddagir line of chiefs arose in a similar manner and extended its influence to Madhugiri, Channarayanadurga and other places in the north of the District But their rule ended in 1678. Hagalwad chiefs succeeded in capturing Kandikere and Shettikere on the fall of Vijayanagar empire. They extended their territories consderably and it was then that the chief assumed the name Sal Nayak. The seat of this government was established at Chikanayakanahalli. The Chiknayakanahalli government changed hands several times between the Muhammedans and Marattas till it was ultimately reduced by the Mysore army under Chikkadevaraya. At Hebbur a small Zamindari was formed under Halegouda or Timmagouda which was seized for a time by Kempegouda of Magadi and then by Hagalvadi chief, before it was finally united to Mysore.

After the overthrow of the Vijayanagar empire in the battle of Talikot in 1565 A.D., the Bijapur army overran all the north of the District in 1638 forming what was called Karnatic Bijapur under Shahji (father of Shivaji).

In 1687 A.D. the Mogul army under Aurangzeb defeated Bijapur and Golconda Kings and conquered all their territories. They made Sira, capital of the new province consisting of seven paraganas of Basavapatna, Budihal, Sira, Penukonda, Dodballapur, Hoskote and Kolar. The big mosque at Sira was built in 1696 A.D. In 1757, Sira was taken by the Mahrattas and in 1757, Sira was taken by the Mahrattas and restored two years after on the conclus on of peace with Mysore. In 1761, it was taken by Haidar Ali but fell again to to the Mahrattas in 1766 A.D. and was with them till it was conquere by Tippusultan in 1774 A.D. In 1791 A.D., it again reverted to the Mahrattas but only for a brief period.

At the end of the 17th century Chikka Devaraja effected the conquest of all the territory which was not appropriated by the Bijapur government established at Sira. Thus, Ketasamudra Kandikere, Handalgere, Gulur Tumkur, and Honnavalli are enumerated among his conquests, after which he seized Jadakanadurga and changed its name to Chikkadevaraya Durga, now Devarayadurga. Madhugiri, Midagesi, Bijjavara and Channarayadurga were also subdued in his reign. The remainder of the District fell to Mysore on the conquest of Sira by Haider Ali in 1761 A.D.

In the beginning of the present century, the district was included in the Madhugiri Faujdari. In 1832 A.D. when the British assumed administration of Mysore, the district of Tumkur was formed including it in the Chitradurga Division. In 1863 A.D. this Division was was broken up and Tumkur District was included in the new Nandydurg Division. In 1882 A.D. it was extended so as to include Chitradurga was a Sub-Division. In 1886 Chitradurga was restored as a District, but Pavagada Taluk remained as part of Tumkur District. In 1948, this District along with all other princely State areas merged in India and in 1950 became a part of the Republic of India.

The People and their Social Condition

The district has a population of 1,367,402 of whom 138,989 reside in the urban areas of (1) Chikkanaikanhalli, (2) Gubbi, (3) Koratakere, (4) Kunigal, (5) Madhugiri, (6) Pavagada, (7) Sira, (8) Tiptur, (9) Tumkur,

(10) Turuvekere and (11) Y.N. Hoskote. However, even these urban areas have more or less a rural appearance.

Majority of the people depend upon agriculture with subsidiary occupations. The weekly markets are held in almost all Taluk Headquarters and at centres numbering about 37 in all for the convenience of the people and at these places transactions are made on a large scale. They not only serve the ecomonic needs of the people but also provide an opportunity for social contacts among the people.

A number of fairs are also held annually at several places. The principal fairs are Sibi Narasimhaswami Rathotsava at Sibi, Siddganga Jatra at Siddaganga, Narasimhaswami Rathotsava at Devarayanadurga, Dandina Marammana Jatra at Madhugiri, Shri Laxminarasimhaswami Jatra at Doddadhalivatta,, Sri Ganga Brahmeshwara Jatra at Pattanayakanahalli, Sri Subramanyaswamy Jatra at Nagalmadike, Sri Sankaresvaraswami Jatra at Kergodi, Sri Narasimhaswami Jatra at Hathgal, Sri Siddalingeswaraswami Jatra at Yediyur, Sri Anjaneyaswami Car Festival at Kyamenhalli. These fairs are largely attended. Besides their religious importance, they also provided entertainment and a change in the simple routine of the village folk.

The people are a hardy lot and their needs being few, the villages are mostly self-sufficient. Their staple food consists of Ragi which is supplemented with rice by the well-to-do persons.

The male folk wear a dhoti with or without Kacha and a shirt. The female folk wear a saree and a blouse.

Medical, Public Health, Veterinary and Animal Husbandry.

The achievements during the first two 5 year plan periods are :—

In Indian Medicine, there are 29 Ayurvedic and four Unani Hospitals in the District.

The breed of the cattle improve as we move northwords. Among bullocks, those of Madhugiri and Turuvekere are highly esteemed on account of their breed. Buffaloes are commonly used both for agricultural and dairy purposes. Cows are plentiful, but poor in size, breed and yield of milk, sheep of good breed are met with in Chikkanayakanahalli and the taluks to the south and the west.

The common cattle diseases are foot and mouth diseases, the throat disease (Anthrax) and rinderpest.

The statistics regarding animal husbandry relating to the first two 5 year plan periods are—

	1956—57	1960—61
Number of Veterinary Hospitals and Dispensaries ..	26	34
Number of Breeding Bulls distributed ..	62	78
Artificial insemination done ..	3,000	8,420
Number of Animals treated against various diseases ..	1,044,640	4,684,822

Agriculture and Irrigation

The soil, in the District, is generally hard and poor excepting in the Taluks of Madhugiri, Chikkanayakanahalli, and the eastern and northern parts of Sira and Koratagere. There are vast tracts of fallow lands where even a blade of grass does not grow. But the soil in the lands irrigated by thanks, streams and spring channels is very fertile. The southern and western Taluks have red soil and certain large tanks. The soil in the eastern Taluks is sandy and in the north we come across some black cotton soil.

The principal crops and the acreage under each of them are as follows :—

1. Paddy	..	118,257 acres
2. Ragi	..	385,914 acres
3. Groundnut	..	87,407 acres
4. Cocoanut	..	72,892 acres
5. Sugarcane	..	6,450 acres
6. Arecanut	..	8,695 acres

Paddy crop is raised in Tumkur, Gubbi, Sira Kunigal and Koratgere Taluks under tanks. In parts of Sira, Madhugiri, Pavagada, and Koratgere, it has been cultivated by lift irrigation, the extent varying from 1 to 2 acres under each well. Especially in the after group of villages, the cultivation of paddy is intensive.

Ragi is mostly a rainfed crop in the entire district except in northern parts of Sira, Koratgere and Madhugiri and the whole of Pavagada Taluk where it is raised by well irrigation also.

Groundnut crop which is raised in Sira, Madhugiri, Pavagada and Koratgere Taluks is mostly rainfed excepting in seasons of scanty rainfall when water by lift irrigation is also supplied.

Sugarcane, which is an irrigated crop is mostly confined to Kunigal Taluk.

Tiptur, Chikkanayakanahally, Gubbi and Turuvekere are known for cocoanut cultivation. Arecanut is the second commercial crop in the District, raised under secure irrigation facilities.

Several agricultural extension schemes like the manufacture of rural and urban compost, the Japanese method of paddy cultivation, cultivation of green manure in cocoanut gardens and paddy fields, raising of sunhemp as an 'akkadi' crop along with Ragi, etc. are being implemented.

The achievements in the field of agriculture during the period of the first two 5 year plans are—

	1956–57	1960–61
Total food production (in lakh tons.) ..	7–19	8–69
Area brought under cultivation ..	1,220,228 acres	1,250,324 acres.
Seed farms opened ..	..	3
Improved seeds distributed	52 tons.	90 tons

	1956-57	1960-61
Manures and Fertilisers distributed ..	1,920 tons.	3,098 tons.
Urban and Rural Compost prepared ..	37,570 tons.	49,933 tons.
Area protected against pests and diseases ..	2,590 acres.	16,000 acres.
Area brought under Japanese method of cultivation ..	21,000 acres.	25,077 acres.
Taccavi advanced ..	N.A.	Rs. 6,022,960
Number of landless and other people granted land ..	..	16,202
Area of land thus granted ..	..	75,153 acres.

The District is well known for tanks. There are two major irrigation projects, *viz.* Marconahally in Kunigal Taluk and Boranna Kanive in Chikkanayakanahalli Taluk which irrigate 16,000 acres and 2,000 acres respectively. It is estimated that the total number of tanks is round about 1,500. In the north eastern parts of the district, irrigation is done by perennial springs, reached at a depth of only a few feet below the surface. These springs called 'Talparigis' areprominent in Madhugiri and Pavagada Taluks.

The acheivements in the field of irrigation during the first two 5 year plan periods are—

	1956—57	1960—61
Major and medium irrigation projects undertaken	3	3
Minor irrigation works—		
(*a*) tanks constructed and and restored.	261	427
(*b*) irrigation wells sunk	547	1,074
Loans advanced for sinking irrigation wells and subsidy sanctions ..	Rs. 126,195	Rs. 2,361,210
Area brought under irrigation	205,507 acres.	2,49,06 acres.

Natural Calamities

The one natural calamity that frequently occurs in the District is the draught due to failure of rains. The measures adopted by Government generally are suspension of the collection of land revenue, and starting of relief works to provide employment to the people of the famine stricken areas. The relief works consist of desiliting of tanks, laying of roads etc., Besides, Government also sanctions loans for sinking irrigation wells, purchase of irrigation pump sets, etc. There are no other specific instances of natural calamities in the district during the period except occassional accidental fires occurring here and there.

Education and Literacy

The achievements in the field of education during the period of the first two 5 year plans are—

	1956—57	1960—61
Number of educational institutions—		
(*a*) Colleges ..	1	1
(*b*) High Schools (including/ Higher Secondary and Multi-purpose) ..	24	39
(*c*) Middle Schools ..	84	96
(*d*) Primary Schools (including Pre-Primary and Nursery Schools) ..	1,496	1,802
	1,496	1,802
Total Number of Students ..	75,181	97,523
Total Number of Teachers ..	2,591	3,370
Literacy percentage ..	17.5	22.5
Number of students given educational concessions like scholarships, freeships, etc., in colleges ..	2,600	9,800

In 1962, there were 55 High Schools, in the District giving a ratio of 1 to 34,800 population. The average area served by each High School comes to 73.78 square miles.

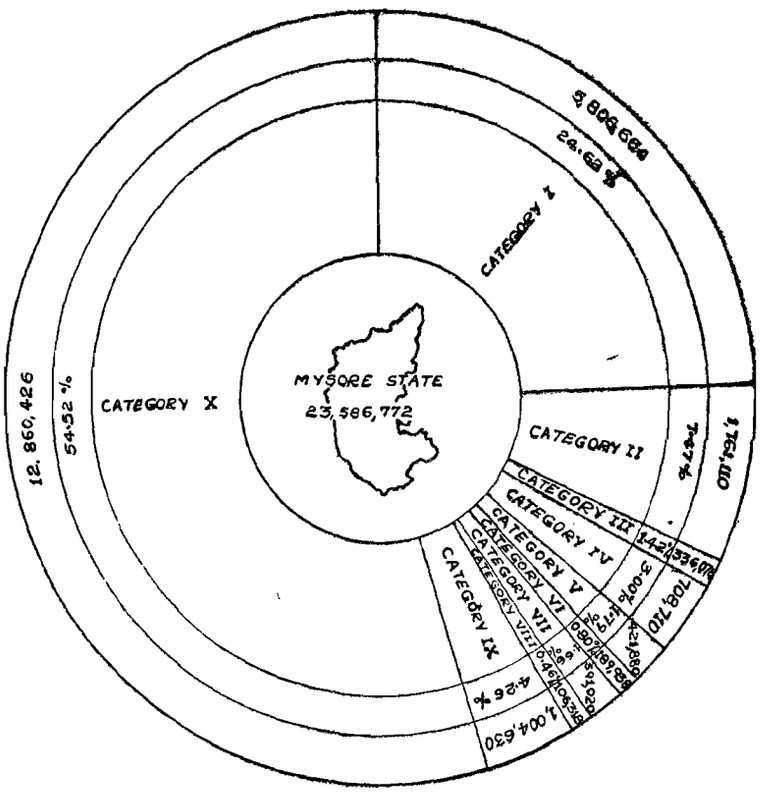

The percentage of literates has increased from 17.5 in 1951 to 22.5 in 1961. The literacy percentage is highest in Tiptur Taluk with 29.3 and lowest in Pavagada Taluk with 16.1. The percentage of literates in urban areas alone has increased from 44.3 in 1951 to 48.5 in 1961. Tumkur tops in the percentage of urban literates with 54.7 and Y. N. Hoskote has the lowest percentage with only 33.9.

Occupation, Manufacture and Trade

Though agriculture is the main occupation of the people of the District, there is a fairly large population engaged in trade and commerce. Cocoanut, ragi, paddy, groundnut, etc., are the major commodities of export.

The district is sufficiently rich in minerals and steps are being taken to exploit the mineral wealth, important of which are Manganese, Limestone, Soapstone, quartz, feldspar, garnet, asbestos, etc. Gold is also found in native form associated with white quartz reefs in the basic grey traps of Bellara.

There are several industries in the District, food processing being the premier industry among them. In view of the large availability of oil seeds and paddy grown in this and in the neighbouring districts, a number of rice and oil mills have been started in the District.

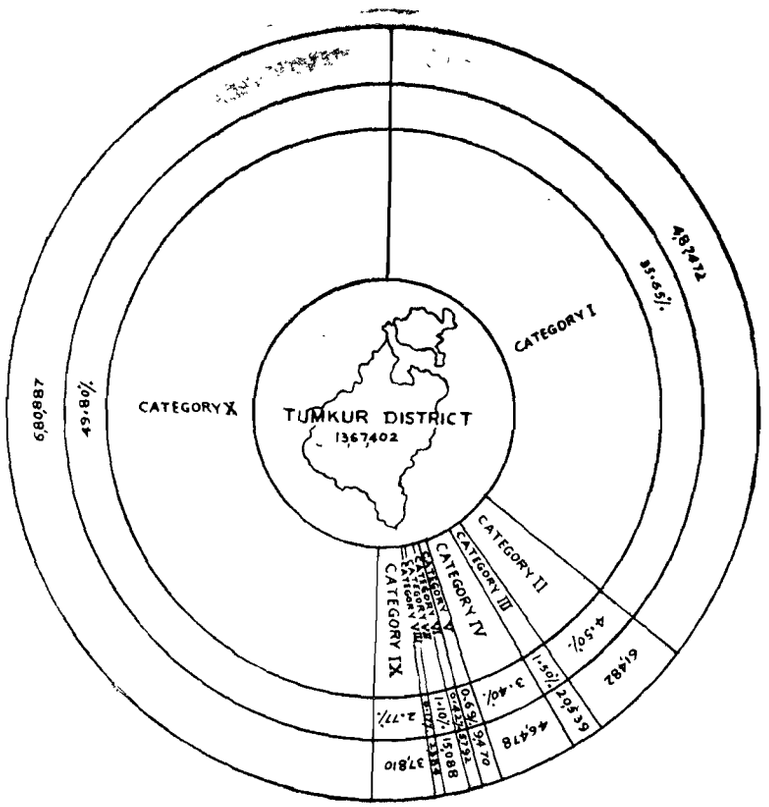

MYSORE STATE, 1961

Population classified by nature of work

TUMKUR DISTRICT 1961

Population classified by nature of work

Mysore cements have established a cement factory at Ammasandra in Turuvekere Taluk. This has a capacity to produce two lakh tons of portland cement annually, providing employment to over 1,000 persons.

There are several small scale industries in the District. Tumkur taluk has industries producing furniture, slate pencils, crayons, country carts, glass bangles, etc. In Madhugiri Taluk Oil pressing and manufacture of oil cakes is a large industry, besides several other smaller industrial units producing cotton cloth, shoes, etc. Sira produces mats, coarse woollen rugs (Kamblies), shoes, etc. Pavagada and Chikkanayakanahalli produce Kamblies, cotton cloth, etc. Gubbi Taluk is noted for the cotton and silk weaving done on a large scale at Kallur village. Annapura and several other villages in Tiptur Taluk carry out cotton weaving on a large scale. Kunigal Taluk is chiefly noted for its silk production. Bidangere and Gottigere villages of this taluk are known for the manufacture of iron implements.

The growth of small scale industries has been greatly hampered by the absence of proper locational facilities, power, water supply, etc. To overcome these difficulties, two industrial estates, one at Tumkur and the other at Madhugiri have been sanctioned.

There are nearly 10,000 handlooms engaged in the weaving of cotton, woollen and silk fabrics in this District. More than 75% of these have been brought under the co-operative fold.

The achievements in the sphere of industries during the first two 5 year plan periods are—

	1956-57	1960-61
Small scale industries ..	4	7
Cottage industries ..	6	7
Value of industrial output ..	477,100 Rs.	2,000,000 Rs.

Communication

The southern railway from Bangalore to Poona runs through the District for 58½ miles from east to west, with stations at Hirehalli, Tumkur, Gubbi, Nittur Yelladbagi, Banasandra, Karadi, Tiptur and Konehalli.

The total length of the roads in the District is 1757-7 miles of which 1,444-6½ miles is in charge of the P.W.D., 292-0 in charge of the local bodies and 21-0½ in charge of the Forest Department. The total length of cement concreated road incharge of the Public Works Department is 31-7¾ miles, black topped is 157-5½ miles ; 747-4½ miles is of water bound macadum; 197-7 miles is treated with other kinds of surface material and 209-6 miles consists of natural soil.

National Highway No. 4 which connects Bombay and Madras *via* Bangalore passes through the District over a length of 51-4 miles. Of the remaining roads, 113-1 miles form the State Highways, 637-1 miles from the major District roads, 439-5½ miles form other District roads and 203-3 miles form the village roads.

The State Highways running through the District and their total length within the District are as follows:—

(1) Bangalore—Honawar Road ..	55—3 miles
(2) Bangalore—Mangalore Road ..	16—6 miles
(3) Roads within Tumkur Town limits	3—0 miles
(4) Kibbanahalli—Huliyar Road ..	21—3 miles
(5) Hiriyur—Huliyar Road ..	5—5 miles
(6) Kibbanhalli—Turuvekere Road ..	11—0 miles

The achievements during the period of the first two five year plans are—

	1956-57	1960-61
Length of National and State Highways ..	51 miles	134 miles
Tarred roads ..	138 miles	230 miles
Metalled roads ..	696 miles	759 miles
Unmetalled roads and village roads.	82 miles	223 miles

F. Land Tenures and Land Reforms.

The two systems in which the land tenures in the District could be divided were (1) Ryotwari and (2) Inams including Jahgirs, Jodi and Khayamgutta villages. In the former category there was no intermediary between the Government and the Cultivator whereas in the latter there used to be the 'Inamdar' thus reducing the position of the cultivator to that of an ordinary tenant, generally a tenant-at-will, subject to rackrenting and objection at the pleasure of the 'Inamdar'.

Some of the Inams constituted whole villages while others consisted of a few specified lands in a village. The latter were called Minor. The whole Inam villages fell into three categories, *viz*, (1) Sarvamanya villages free of all demands excepting local, education and other cesses on the reconded value recovered from the holders ; (2) Jodi villages with a light assessment consisting of the original Jodi and the quit rent, if any, imposed during the Inam settlement

and cesses, and (3) Khayamgutta villages paying Khayamgutta with cesses on it. One special peculiarity of the Khayamgutta Inams was that they were heritable and also transferrable.

There were in all 5 classes of Inams as follows :—

I. Personal Inams—

(*a*) Inams for personal benefit.

(*b*) Brahmadaya Inams including Agrahar Inams.

II. Religious (Devadaya) and Charitable (Dharmadaya) Inams—

III. Kodagi Inams for maintenance of wells and tanks.

IV. Service Inams—

(*a*) Miscellaneous Service Inams (such as Deshpande, Deshmukhi, Deshkulkarni, etc.).

(*b*) Inams to artisans and others for services rendered to the village community.

(*c*) Village service Inams.

V. Miscellaneous Inams comprising of grants for miscellaneous Police Revenue and Commercial, Services as district from village service.

As the conditions prevailing in the Inam villages were not conducive to the general dvelopment not only in the condition of the tiller but also in the progress of cultivation, two Committees were set up in 1915 and 1916 to enquire into these Inams. But as the deliberations of these Committees did not lead to any useful results, a Commission of seven members was set up in July, 1918. Government considered the recommendations made by this Commission and also heard the case as put fourth by the Inamdars and passed orders on 2nd July, 1925 and 22nd July, 1927, to alleviate the grievances put fourth on either side. In 1928 the Mysore Land Revenue Code was amended so as to implement the recommendations made and orders contained in the above two Notifications. By these amendments the rights of Kadim or permanent tenants were protected even when the Principal's rights were forfeited, rules for drawing presumption of permanent tenancy were elaborated guaranteeing some security to longstanding tenants and tenants carrying out improvements of more or less a permanent nature, orders passed by Inamdars holding a commission under Section 99 of the Land Revenue Code were made appealable and in general an attempt was made to secure for the tenants in Inam villages, rights similar to those of Registered Occupants under Government.

But inspite of these measures the rift between Inamdars and their tenants did not get narrowed down. The insecurity among tenants continued to be there and the Inamdars were complaining of irregular payment of rent by tenants. This rift led to frequent litigation and so an Inam Commission consisting of officials and non-officials was set up in 1932, to enquire into the facts and make necessary recommendations. The Chief recommendations of this Commission were to enlarge the superintendnece of Government over those villages by introducing survey and settlement without waiting for the Inamdar's consent ; entrusting the work of collection of Revenue annual jamabandi, etc., to Government employees ; enlarging the scope of taking over villages under Government management ; extending the rules for granting remissions for failure of rains to these villages ; acquiring by Government power to extinguish the Inam tenure of villages when the Inamdars relinquish their right, etc.

On the basis of these recommendations necessary amendments to the Land Revenue Code were effected in 1939 and 1940. The 'Alienated Villages Purchase Act' enabling Government to purchase an alienated village at the request of the holders at a price agreed to by the latter, was also passed in 1944.

Inspite of these steps, the expected improvements in the condition of the inam villages did not materialise. The Inamdars also did not take advantage of the Act of 1944, in selling their Inam villages. The amenities provided by Government and the District Boards did not reach the Inam villages. The tenants continued to suffer many of the handicaps and disadvantages they faced before the introduction of these reforms. Considering all these factors, a Committee was set up in 1948 for the revision of the Land Revenue system in the Old Mysore State. The main recommendations of this Committee were, the outright abolition of the Inam tenure on payment of compensation to the Inamdars ; to vest occupancy rights in the permanent tenants, Kadim tenants, and tenants at will, by recovering occupancy price from the tenants falling in the latter two catogories ; paying reasonable compensation for the resumed charitable and religious Inam so as to ensure that there would be adequate income for the normal expenditure of those institutions, etc.

As a result of the enquiry and recommendation of this Committee the State Government have passed the Mysore Personal and Miscellaneous Inams Abolition Act of 1954 and the Mysore Religious and Charitable Inams Abolition Act of 1955. The work of

resumption of these Inams and payment of compensation is in progress. Some provisions in the Mysore Personal and Miscellaneous Inams Abolition Act were amended by an amendment Act of 1957.

Another problem that was inviting the attention of Government was the improvement in the condition of tenants at large including those in Inam villages. Before the enactment of the Mysore Tenancy Act, 1952, the rights of tenants were regulated by the Mysore Land Revenue Code, 1888. According to this Act, there were three classes of tenants, *viz.* (1) Kadim tenants in Inam Lands paying only land Revenue but with permanent rights ; (2) Permanent tenants holding land for more than 12 years, or recognised as such by contract or exercising the right of transfer and (3) tenants at will. The lot of the tenants, particularly the tenants-at-will was so in-secure that the Government had to intervene by passing the Mysore Tenancy Act, 1952, which guaranteed the continuance of all the tenancies for at least a period of five years from the date of application of the Act. It restricted the right of resumption of land by the land-lords on grounds of personal cultivation from all tenants in continuous possession for a period exceeding 12 years before 1st April 1951. The maximum rent was also stipulated at one half of the produce. However, steps were taken to see that the cultivation did not suffer due to the neglect of tenants by vesting powers of ejectment by land-lords in cases of sub-letting or sub-dividing lands, leaving the lands fallow, failure to pay rent, causing destruction or permanent injury to the land, using lands for purposes other than agriculture, etc.

This Act after its introduction as an experimental measure in certain areas in 1952 was extended to the whole State excepting Bellary in 1954 and to Bellary in 1955.

Certain amendments to this Act were being considered when the reorganisation of States took place.

On the Reorganisation of States, the whole problem had to be viewed from a broader angle as different laws were in force in the various integrated areas. So, in order to regulate the land tenancies and also to consider the feasibility of having a common law for the New State of Mysore, a Committee was set up in 1957. The Committee made several recommendations including conferment of ownership on tenants in certain cases, restricting the powers of resumption of land by land-lords, putting a ceiling on the possession of land, etc.

A Land Reforms Bill drafted generally on the basis of the recommendations was introduced in the Legislature in November, 1958. The bill as modified by the Select Committee was passed by both the Houses of Legislature in 1961 and has received the President's assent. The State Government has not yet notified the date from which this comes into force.

Houses and Households

According to the Census of India 1961, the total number of houses and households is 2,52,664 and 2,54,995 respectively. This gives an average of 62.0 houses and 62.6 households per square mile. The average number of inmates comes to 5.4 per house.

Most of the buildings have a rectangular ground plan with flat roofs of mud, though in the southern and western parts of the district we do come across some houses with tiled roofs.

The following table gives talukwise distribution of houses, households and population.

Village Panchayats

There are about 512 village panchayats functioning in the District, since the coming into force of the Mysore Village Panchayats and Local Boards Act, 1959. The affairs of the Panchayats are administered by a Committee of elected members. Provision is also made in the Act for the reservation of seats for women and members of Scheduled Castes and Scheduled Tribes. The Act defines the powers and functions of these Panchayats.

Administration

For administrative purpose, Tumkur District is divided into ten Taluks. The governance and welfare of the people is entrusted mainly (*a*) to several Government Departments which function through their District Offices and in part (*b*) to Taluk Boards, Municipalities and Village Panchayats.

The Revenue administration of the district is divided into three sub-divisions, *viz.* Tumkur, Tiptur and Madhugiri Sub-Divisions. Tumkur Sub-Division comprises of Tumkur, Gubbi and Kunigal Taluks, Tiptur Sub-Division comprises of Tiptur, Turuvekere and Chiknayakanahalli Taluks and Mudhugiri Sub-Division comprises of Madhugiri, Sira, Koratagers and Pavagada Taluks. Assistant Commissioners are in-charge of Revenue Sub-Divisions and Tahsildars are in-charge of the Taluks. The Block Development Officer of the Block is the Chief Executive Officer of the Taluk Board whose President is an elected entity.

For the maintenance of law and order, the District is in overall charge of the Superintendent of Police He is assisted by a Deputy Superintendent at headquarters and an Assistant Superintendent of Police who is in exclusive charge of Tiptur (Police) Sub-Division. The Sub-Division circles, station and outposts in the District are as follows :—

APPENDIX XV—B

FAIRS AND FESTIVALS

(1) *Sri Anjaneyaswamy Jatra, Kyamenahalli, Koratagere Taluk:—*

Kyamenahalli village is situated in Holavanahalli Hobli of Koratagere Taluk, just a mile and a half from Holavanahalli and about four-five miles from Koratagere, the taluk headquarters. The car festival of Sri Anjaneyaswamy and the jatra come off in the months of January—February every year. The temple is an ancient one and local enquiries disclose that this temple was constructed at the instance of Janamejayaraya of Pandava dynasty. The temple is situated at the confluence of the two small rivers Jayamangali and Garudachala. The jatra goes on for about ten-twelve days. The cattle fair held will be participated by about 20,000 heads of cattle. The cattle fair and the car festival are all managed through Government agency assisted by a committee of Dharmadarsies.

The temple derives its income annually by the auction of the right to collect fees on cattle, shops, cinemas, etc. During the jatra season a number of special buses run from the neighbouring taluks to this place.

The total average turn-over of the sale of cattle during jatra will be in the neighbourhood of Rs. 1,00,000.

(2) *Sri Subramanyaswamy Jatra—Nagalmadike, Pavagada Taluk:—*

The temple, Subramanyaswamy, is situated on the bank of North Pinakini river. It is the biggest Jatra in the Taluk. The car festival and the jatra come off on " ಪುಷ್ಯಶುದ್ಧಷಷ್ಠಿ ". This is an ancient temple and the car festival and jatra are going on for the past several decades. Hindus of all castes gather at the line of the fair. The cattle fair held as an adjunct of the car festival is participated by about 8,000—10,000.

The car festival and jatra are managed by Government with the assistance of a committee of Dharmadarsies. The expenditure in connection with the car festival and jatra will be met from the income derived from auction sale of the right to collect fees on cattle, ground rent from shops, etc. during jatra. The jatra will go on for a period of seven to eight days. Transport facilities will be available to this place from the various nearby Taluks and Towns.

(3) *Sri Siddeswaraswamy Jatra at Hariharapura in Pavagada Taluk:—*

This Jatra is held in the month of December for about seven days. Here also the Jatra and cattle fair are conducted through Government agency assisted by a committee of Dharmadarsies. There will be a cattle fair with about 2,000—3,000 heads of cattle participating. About 5,000—6,000 people gather here during jatra. Cattle shows will be arranged and suitable prizes will be awarded to the best cattle.

(4) *Sri Channabasaveswaraswamy Jatra in Gubbi:—*

The Jatra commences in the month of February and lasts for about a week. This is one of the important jatras in the district. The Jatra is associated with Channabasaveswaraswamy temple which, it is stated, was founded by Saint Channabasanna *alias* Gubbiyappa. Thousands of devotees from nearby and far places attend the jatra and offer worship and services to the deity. The idol of Sri Channabasaveswaraswamy made of gold and silver will be placed on a silver palanquin and taken in procession round the town. About 2,000—3,000 devotees assemble during the Jatra time. The chatrams round the temple accommodate a large number of visiting devotees. The expenditure in connection with the conduct of Jatra will be met partly by Government grants and partly by subscriptions from devotees. The Jatra is arranged through government agency assisted by a committee of Dharmadarsies.

(5) *Sri Siddalingeswaraswamy Jatra, Siddaganga, Tumkur District (commonly known as Siddaganga Jatra):—*

The temple, Siddalingeswaraswamy, is situated on a small hillock near Kyathasandra which is just three to three and half miles from Tumkur on Tumkur—Bangalore high-way. There is also a mutt called Siddaganga mutt at the bottom of the hillock. The place is connected by rail on Poona—Bangalore section of the southern railway. The jatra commences on Shivarathri day of every year. As an adjunct to this jatra, a cattle fair is also held. About 20,000 devotees attend this jatra which runs on for over ten days. About 15,000—20,000 heads of cattle participate in the cattle fair. The turn-over from the sale of cattle during the jatra will be in the neighbourhood of a lakh of rupees. The mutt authorities arrange for the feeding of the poor and the visiting devotees during jatra time. This is considered to be a place of pilgrimage by Veerashivas.

(6) *Sri Narasimhaswamy Jatra, Devarayanadurga:—*

Devarayanadurg is a fortified hill nine mile to the east of Tumkur Town. This is situated amidst wild and extensive forest. On the lowest elevation is situated the Lakshminarasimha temple, a dravidian structure. The annual car festival takes place in the month of Chaitra, when thousands of people from nearby for and places gather. The visiting people are accommodated to some extent in the cells and mantapams on the hill. The car festival and jatra are organised through Government agency. This is one of the very important car festivals in the district.

(7) *Sri Lakshminarasimhaswamy Jatra, Seebi, Tumkur Taluk:—*

Seebi is a village—fifteen miles from Tumkur on Tumkur—Sira road. There is an ancient temple of Sri Narasimhaswamy, the annual car festival of which, coming off in 'Magha' is attended by a large number of devotees. A cattle fair is also held as an adjunct to the car festival. About 4,000—5,000 heads of cattle are brought here for sale and the turnover will be in the neighbourhood of about Rs. 20,000 to 30,000.

(8) *Dandinamaramma Jatra, Madhugiri:—*

The temple is on the Tumkur—Madhugiri road—about half a mile from the town towards Tumkur. The Jatra comes off in the month of March and runs on for a week. The Jatra is organised by a committee of local people assisted by the Town Municipality. A cattle fair is also held. About 10,000 to 15,000 people gather, and about 5,000 to 6,000 cattle participate in the fair.

(9) *Sri Anjaneyasamy Jatra, Gondihalli, Madhugiri Taluk:—*

Gondihalli is a small village on Madhugiri—Hindupur Road at a distance of four miles from Madhugiri. The jatra in the name of Anjaneyaswamy was for a long time arranged by the local people but the management has since been taken over by Government. A cattle fair is also held and the Jatra runs on for a week. About 6,000 heads of cattle are brought here for participation in the fair.

(10) *Sri Bandi Ranganathaswamy Jatra, Tavarekere, Sira Taluk:—*

The village Tavarekere is in Sira Taluk on Sira—Chitradurga Road—four-five miles from Sira. Sri Bandi Ranganathaswamy temple is an ancient structure. On the Rathasapthami day of every year, the car festival takes place. The jatra and cattle fair last for a week. About 10,000 to 15,000 people and 4,000 to 5,000 cattle participate. The jatra is held under the supervision of Government Agency assisted by a committee of management.

(11) *Sri Mahadeswaraswamy Jatra, Danayakanapura Kaval (Turuvekere Taluk):—*

Danayakanapura Kaval is an uninhabited village in Turuvekere Taluk. The annual jatra held in the name of Mahadeswaraswamy is one of the biggest cattle fairs in the Taluk. The cattle fair lasts for seven days and about 4,000 to 5,000 cattle come here during the fair.

(12) *Sri Siddalingeswaraswamy Jatra, Yediyur, Kunigal Taluk:—*

The temple, Siddalingeswaraswamy, is situate at a distance of twelve miles from Kunigal on Bangalore-Hassan road. The jatra is being held in the month of Chitra. A Cattle fair is also held during the Jatra. About 20,000 devotees from all over the State attend this Jatra.

The Jatra is associated with the temple, Siddalingeswaraswamy. According to the legend, at the close of the 15th century, one Siddalinga, a Veerashiva spiritual teacher and a great scholar, is stated to have been absorbed in the practice of Yoga and ant-hills grew round him. Since he practiced Yoga in a garden, he got the name of Thotada Siddalinga and ultimately called Thotada Siddalingeswaraswamy. He finally entered an underground cave for Yoga and closed the door. He never returned. A temple has been built here by his disciples.

The jatra is held through Government agency assisted by a committee of Dharmadarsies.

CENSUS TABLES AND VILLAGE DIRECTORY

EXPLANATORY NOTE TO CENSUS TABLES

The information collected at the time of house-listing and enumeration for the 1961 census, has been extensively analysed and the data has been reduced to nine series of tables as follows :

(*i*) A Series	..	General Population tables
(*ii*) B(i) Series	..	General Economic tables
(*iii*) B(ii) Series	..	Household Economic tables
(*iv*) C Series	..	Social and Cultural tables
(*v*) D Series	..	Migration tables
(*vi*) E Series	..	Housing and Establishment tables.
(*vii*) S.C.T. Series		Special tables for the Scheduled Castes and Scheduled tribes.
(*viii*) S.C. Series	..	Special tables for the Scheduled Castes only.
(*ix*) S.T. Series	..	Special tables for the Scheduled tribes only.

2. The total number of tables found in all the above Series excluding D series is 55 and they are presented in the various volumes of the Mysore Census Tables. This information being voluminous, it has not been possible to incorporate it in toto in the District Census Handbook. However, some of this data which has been presented up to the District level in the state volumes has been reproduced here by further breaking it down to the taluk level. This has been possible in the case of rural areas only as the urban figures have been compiled for the District as a whole. The D series tables have not been presented in the District census hand book.

3. The material presented here excepting in E series of tables relates to the 1st of March 1961, which was the reference date for the 1961 Census. The information in E series tables refers to the August-September 1960 period.

4. Before giving brief notes on the tables in this part, so as to facilitate their study, it is necessary to know the concepts and definitions of some of the general terms used. Concepts and definitions of other particular terms will appear at the beginning of each series where those terms first appear.

5. For census purposes :

(*i*) A ' Census House ' is defined to be a structure or a part of a structure inhabited or vacant, or used for non-residential purposes such as place of business workshop, school, etc., having a separate entrance.

(*ii*) A ' Census Household ' is defined to be a group of persons who commonly live together in the same census house and who would take their meals from a common kitchen unless exigencies of work prevented any of them from doing so.

(*iii*) ' Houseless Persons ', as the name itself indicates are those persons who at the time of enumeration were not found residing in houses. Persons like pavement dwellers, beggers without any house to live in were grouped under the category of Houseless Persons.

(*iv*) 'Institutional Population': Hospitals, Boarding Homes, Hostels, Jails and such other agencies which provide boarding, lodging and similar facilities have been termed " Institutions". All people who were enumerated in these institutions are brought under Institutional Population.

(*v*) ' Literacy and Education ' ; All persons who were able to read and understand, any simple letter in any language either in print or in manuscript and to write simple letter are considered ' Literate ' for census purposes. If any addition to being able to read and write, any person has passed an examination or examinations as proof of an educational level attained, the highest examination passed was recorded in the enumeration slip.

(*vi*) " Non-workers " are persons who do not work in the sense explained in para 5 (xii) *infra* and include

(*a*) a full time student or child attending school who does no other work, such as making articles at home for sale, nor even helps part-time in his own family cultivation, industry, trade or business ;

(*b*) a person solely engaged in unpaid home duties like housewives, etc. ;

(*c*) a dependant including an infant or child not attending school, a person permanently disabled from work because of illness or old age ;

(*d*) a retired person who is not employed again, renter, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work or who does no other work ;

(*e*) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence ;

(*f*) a convict in jail (an undertrial prisoner has been shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution ;

(*g*) a person who was not employed before but was seeking employment for the first time ;

(*h*) a person who was employed before but was out of employment at the time of enumeration and was then seeking employment.

(*vii*) " Occupied Residential House " is a dwelling house and also includes a house used partly as a dwelling and partly for some other purpose like shop, workshop, factory etc., but does not include a vacant residential house where no person was found to be residing at the time of the Census.

(*viii*) " Scheduled Castes " are such castes, races or tribes or parts of groups within such castes, races or tribes as are declared to be Scheduled castes, by the President's orders issued under article 341 of the Constitution of India.

(*ix*) " Scheduled tribes " are such tribes or tribal communities or parts of groups within such tribes or tribal communities as are declared to be scheduled tribes by the President's orders issued under article 342 of the Constitution of India.

(*x*) " *Town or an 'Urban Area'* ". For the first time in the 1961 Census, uniform and somewhat rigid tests were sought to be applied throughout the country for an area to be recognised as an urban unit. The criteria prescribed are :

(A) All Municipalities, Cantonments, notified areas and other places enjoying recognised local administration like Civil lines have been treated automatically as towns.

(B) For other areas, the eligibility yardsticks applied are :

(*a*) a population of not less than 5,000,

(*b*) a density of not less than 1,000 persons per square mile and

(*c*) at least three fourths of the adult male population should be employed in pursuits other than agriculture.

The Superintendents of Census Operations were empowered to treat as towns any other places, which while not fulfilling any of the above conditions, possessed pronounced urban characterstics and amenities.

(*xi*) A " Town Group " covers an area which actually forms one demographic unit though it may be administered by more than one civic body and has been treated as a single unit for presenting the census statistics on account of demographic, economic, industrial or geographical unity.

(*xii*) " Worker " : A person who is gainfully employed in any economic or social activity is taken as a worker. But he has to satisfy a minimum criterion if he is to be called a " Worker " for census purposes. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the person's enumeration. However, a person who is working, but was absent from the work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes was treated as " worker ". The basis of work in the seasonal occupations such as cultivation, livestock, dairying, Household industry, etc., is that the person should have had some regular work of more than an hour a day, throughout the greater part of the working season. " Work " includes in either case, not only actual work but effective supervision and direction of work. Persons under training as apprentices with or without stipend or wages have been regarded as working. A public or social worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party has been regarded as working.

(*xiii*) A " Village " has been defined as the area included within the jurisdiction of a revenue village and as such is inclusive of even scattered hamlets and isolated home-steads coming within the boundaries of a revenue village.

A Series

GENERAL POPULATION TABLES

6. In this series, there are four tables with three appendices. They comprise the basic population tables being useful in the study of the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the District.

Table A-I

7. This table presents area, density of population, number of inhabited and uninhabited villages, number of towns, number of occupied residential houses, sex-wise population totals, etc., for the rural and urban areas separately.

Appendix I

8. This indicates the territorial changes which have taken place during the decade 1951-1961.

Appendix II

9. This shows the number of villages which have not been treated as towns inspite of a population of 5,000 or over and the number of towns which have been classed as towns inspite of a population of less than 5,000. Columns (4) and (7) show the percentage of population of such areas to the respective rural or urban population of the state.

Appendix III

10. This gives the houseless and institutional population in the rural and urban areas separately. The houseless persons were enumerated on the night of 28th February 1961.

Table A-II

11. This table presents the variation in the population of the District and the Taluk from 1901 for each decade. The figures for the earlier censuses have been adjusted to the boundaries of the District and the Taluks as obtained in 1961.

Table A-III

12. This table pertaining to rural areas only gives for the district and each Taluk the distribution of villages classified by the following six population size groups, *viz.*, (*i*) less than 200, (*ii*) 200-499, (*iii*) 500-999, (*iv*) 1,000-1,999, (*v*) 2,000-4,999, (*vi*) 5,000-9,999. All places with a population of 10,000 or more have come under towns.

Table A-IV

13. Like the villages in table A-III towns have been classified here into six categories according to the population as follows :

(*i*) Class I	..	Population of 100,000 and over
(*ii*) Class II	..	Population of 50,000—99,999
(*iii*) Class III	..	Population of 20,000—49,999
(*iv*) Class IV	..	Population of 10,000—19,999
(*v*) Class V	..	Population of 5,000—9,999
(*vi*) Class VI	..	Population less than 5,000

14. Town groups have been treated as a single town in obtaining the class totals. The class totals give the total population of the towns/town-groups in that class in that census, The population of such of the places as are treated as towns in one or more of the earlier censuses but are treated as rural for the 1961 census has also been taken into account when obtaining the class totals, even though such places are not brought in the body of the table. This table dealing exclusively with urban areas gives a true picture of the urbanisation in the District.

PRIMARY CENSUS ABSTRACT

15. This table, as the name itself denotes, provides an abstract of primary information relating to the census, covering a wide range of data such as the area, number of houses and households, sex-wise totals of population, population of Scheduled castes and Scheduled tribes, number of literates, number of workers and non-workers, workers being further classified under nine categories of economic activity. The information given here is for the District and Taluks each for total, rural and urban areas separately. Details for each village and town are presented elsewhere.

16. The workers are classified in the following nine categories of economic activity

I. As Cultivator
II. As Agricultural Labourer
III. In mining, quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and allied activities.
IV. At Household industry
V. In manufacturing other than Household Industry.
VI. In construction

VII. In Trade and Commerce
VIII. In Transport, storage and Communications
IX. In other services.

Category I

17. " A Cultivator " is a person who is engaged either as employer, single worker or family worker in (*a*) cultivation of land or supervision or direction of cultivation of land owned or held from Government or (*b*) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Category II

18. " An Agricultural Labourers " is a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation.

Category III

19. Workers engaged in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities.

Category IV

20. A " Household Industry " is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory

21. Household Industries relate to production, processing, servicing, repairing or making and selling of goods. They do not cover such professions as Pleader, Doctor, Barber, Washerman or Astrologer, etc. All persons engaged in household industries have been brought under this category.

Category V

22. Workers in " manufacturing other than household Industry " are persons who are working as Employers, Employees, single workers or family workers in activities connected with the production, processing, servicing or repairing of goods in factories, workshops or other similar establishments, which do not qualify to be included under Household industries as defined in the previous paragraph have been brought under this category.

Category VI

23. Workers in Construction : Persons who are engaged in Construction, maintenance, upkeep, repairs and similar occupations of buildings, roads, bridges, dams, Canals and construction of electrical, water supply and sanitary installations, etc., are brought under this category.

Category VII

24. Workers in Trade and Commerce : Persons engaged in wholesale or retail trade in goods, or dealing with Insurance, Stocks, Shares or employed in Banking and Financial Institutions have been classified as workers in trade and commerce.

Category VIII

25. Workers in Transport, storage and communication activities : Persons employed in Railway, Road Transport, Post and Telegraph and other agencies have been brought under this category.

Category IX

26. Workers in " Other services ". This is the last category of workers which comprises employees of Central and State Governments, local bodies, Quasi-governmental bodies and those engaged in educational and scientific services, medical and health services, Religious and welfare services, legal services, business services, community services and trade and labour associations, Recreation services, personal services, and other miscellaneous activities not covered by any of the categories listed above.

B SERIES

(*i*) *GENERAL ECONOMIC TABLES*

27. These tables give the distribution of population by economic activity correllated with sex, age and educational levels. Based on Economic activity the entire population is first classified into two broad groups, *viz.*, workers and non-workers and the workers are then classified in nine broad categories of economic activity. An elaborate classification by industry under the standard industrial classification scheme is presented in tables B-IV A, B and C and by occupation under the National Occupational Classification in table B-V. Classification of workers by secondary work is also presented in tables B-VII A and B-VII B.

28. The 1951 Census reports were prepared on the concept of dependency by first classifying the population into eight livelihood classes and then by further dividing each class with reference to economic status into (*i*) self supporting persons, (*ii*) earning dependents and (*iii*) non-earning dependents.

But now this concept has been abandoned and instead the population is classified into workers and non-workers, the emphasis being on work and not on income or economic dependence. These two terms, *viz.*, workers and non-workers, have been defined in paras 5 (*xii*) and 5 (*vi*) respectively.

29. Classification of workers doing two or more different types of work has been done on the basis of this principal work that is, the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

Table B-I and B-II

30. This combined table gives the composition of workers in the nine industrial categories and non-workers by four broad age groups and also according to sex. The material is presented for the District, Taluks and towns.

Table B-III

31. This table is presented in two parts, B-III A and B-III B, the former presenting the data for the urban areas of the District as a whole and the latter for the rural areas of each Taluk. These tables give the distribution of workers in 9 industrial categories and non-workers by educational levels, the educational levels being presented in an abridged form when dealing with rural areas.

Industrial classification

32. Before we proceed further, it is quite necessary to know the implications of certain terms and codes used in describing each group of industry in the tables.

33. In these tables, the economic activity of workers other than cultivators, and Agricultural labourers has been coded according to the pattern available in the Standard Industrial Classification issued by the Ministry of Labour and Employment, Government of India. According to this classification all economic activities have been grouped under 9 divisions which are divided into 45 major groups and further subdivided into 343 minor groups. The actual description of the divisions, the major groups and the minor groups of the industrial classification is given in annexure A. The minor groups refer to the industry of the workers which signifies that sector of the economic activity in which the worker is engaged, such as textile industry, automobile industry, etc.

The term " industry " should not be confused with the word " occupation ". The latter describes the exact function that an individual performs within the industry such as fitter in automobile workshop, clerk in the Railway Department, etc.

34. An " Employer " is a person who has to employ other persons in order to perform his work 'that is, he is not only responsible for his own personal work but also for giving work to others in his industry. But a person who employs domestic servant solely for household duties is not an employer. So also a person who has subordinates under him in his office where he is employed by others, is not an employer, even if he has the power to employ others in his office on behalf of his own employers.

35. An " Employee " is a person who usually works under some other person for salary or wages in cash or kind.

36. A " single worker " is a person who works by himself but not as Head of Household in a Household Industry. He is not employed by anyone else and in his turn does not employ anybody else not even members of his household except casually. This difinition of a single worker also includes a person who works in joint partnership with one or several persons hiring no employees and also a member of a producers' co-operative. Each one of the partners or members of such co-operatives has been deemed to be a single worker.

37. A " family worker " is a member who works without receiving wages in cash or kind in an industry, business or trade conducted mainly by the members of the family and ordinarily does at least one hour of work every day during the working season.

Table B-IV

38. Table B IV is presented in three parts. Part A relates to workers engaged in Household Industries, Part B relates to workers engaged in non-household industry, trade, business, profession or service and part C is the combination of the earlier two parts giving the total number of workers engaged in household as well as non-household industry, trade, business, profession or service. While Part A and B deal with the employment status of workers by major groups of standard Industrial classification (Annexure A) Part C deals with the total number of workers by minor groups of standard industrial classification (Annexure A). It is worth noting that in all these three parts, cultivators and Agricultural labourers are not included.

39. Tables B-V and B-VI show the distribution of workers by occupation (*vide* para 33 above) according to the National Occupational Classification scheme which is reproduced as Annexure B to this note.

Table B-V

40. In this table the occupational classification of workers in each of the categories III to IX has been presented. For the District as a whole and for the urban areas of the District, the information is given for all the occupational families and for rural areas which are presented at the District and Taluk levels, the figures are given for each occupational Division only.

Table B-VI

41. This table, restricted to urban areas only, gives the distribution of workers by occupational Divisions and Broad age groups.

Table B-VII

42. This table is presented in two parts. Part A deals with persons working principally (i) as cultivators, (ii) as agricultural labourers or (iii) at Household industry classified by sex and with secondary work, (i) at Household industry, (ii) as cultivators and (iii) as agricultural labourers. Part B gives the classification of persons working principally in non-household industry, trade, business, profession or service and secondarily in household industry. In the case of a worker engaged in two or more kinds of work, the one which consumes larger portion of his time (not necessarily earning a larger portion of his income) is treated as his principal work, and another consuming second larger portion of his time is shown as his secondary work. As in many of the earlier tables, the figures for the rural areas are presented for each Taluk and each Industrial Division while those given at the District level are presented separately for rural and urban areas, and also for the District as a whole, for each Industrial Division and major group.

Table B-VIII

43. This table is presented in two parts. Part A deals with urban areas and Part B with rural areas. Part A which gives figures for all the urban areas of the District gives the classification of the unemployed aged 15 and over by broad age groups and educational levels. Part B which presents information at the District and Taluk levels gives the classification of the unemployed aged 15 or over, by educational levels (in an abridged form).

Table B-IX

44. This table deals with the distribution of non-workers by broad age groups and the eight types of activity mentioned in sub-para (vi) of para 5 above. At the District level, figures are given for the whole District under total separately for Rural and also urban areas. At the Taluk level the figures are given for rural areas only.

(*ii*) *HOUSEHOLD ECONOMIC TABLES*

45. The tables presented in this series, have been prepared from a twenty per cent sample of Households. Unlike the Economic tables BI to B IX the information contained in this series has been compiled with the household and not the individual as the unit.

Table B-X

46. This table presents distribution of sample households under the following heads :

(i) Households engaged neither in cultivation nor in household industry.

(ii) Households engaged in cultivation only.

(iii) Households engaged in Household industry only and

(iv) Households engaged both in cultivation and Household industry.

In this table also at the District level, figures are given for the whole District under total, separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

Table B-XI

47. This presents the distribution of sample Households, engaged in cultivation classified by size of land and interest in land cultivated. The interests in land have been exhibited under the following three broad categories :

(i) Entirely owned or held from Government.

(ii) Entirely held from private persons or institutions for payment in money, kind or share.

(iii) Partly held from Government and partly from private persons for payment in money, kind or share.

For urban areas the material is presented up to the District level and for rural areas up to the District and Taluk levels.

Table B-XII

48. This is prepared in respect of sample households engaged in cultivation only. The size of land held by the households is cross-tabulated against the number of hired and family workers. The material is presented for the District for total, rural, and urban areas separately and only for the rural areas of each Taluk.

Table B-XIII

49. This table has been prepared in respect of sample households engaged both in cultivation and Household industry. The details of the Household Industry have been presented by the Divisions and major groups of the Standard Industrial Classification (Annexure A). The material is presented in this table for rural and urban areas of the District separately.

Table B-XIV

50. This table presented in two parts, deals with the sample households engaged in Household Industries only. In Part A, tabulation of households classified by major groups (Annexure A) of principal household Industries and the number of persons engaged is made and Part B gives the number of Households engaged in Household Industry classified by minor groups (Annexure C) of principal Household Industry. The information is given for the district as a whole.

Table B-XV

51. This table shows the distribution of sample households engaged both in cultivation and Household Industry calssified by size of land, number of family workers and hired workers engaged in these activities. As usual, the District figures presented here are for total, rural and urban areas separeatly, while the Taluk figures relate to rural areas only.

Table B-XVI

52. This table deals with sample Households engaged in Household Industry. The principal industry conducted by the Household by division and major group (Annexure A) has been tabulated against the period of working and the total number of workers engaged in the household industry. This is up to the District level only.

Table B-XVII

53. In this table the sample households have been classified by size and participation of the members of the household in household cultivation or industry. In the case of households engaged in cultivation, the size of land under cultivation has also been tabulated against the size of sample households.

C Series

SOCIAL AND CULTURAL TABLES

54. These tables deal with social or cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Caste and Scheduled Tribes. Table C-I has been prepared from a 20 per cent sample of households and as such relates to households. The other tables in this series are prepared on a cent per cent check and they relate to individuals and not households.

Table C-I

55. This table gives the family composition of households and has been presented at the District level only.

Table C-II

56. This table presents distribution of population by age, sex and marital status. Classification of age between 10 and 70 years is by five year age groups. The entire population in 0-9 years age group has been treated as never married. At the District level, figures are given for the District under total, separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

Table C-III

57. This table presented in three parts, gives a picture of literacy in the total population as well as in the different age groups. Part A which is presented for the total population of the District and Part C which is presented for the rural population of the District and Taluks have only 4 educational levels. Part B which relates to urban population of the District, however, has 14 educational levels.

Table C-V

58. This table is on mother tongue. At the District level figures are given for the whole District under Total separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

Table C-VII

59. This table presents distributions of population by Religion. At the District level figures are given for the whole District under total separately for Rural and also

Urban areas. At the Taluk level the figures are given for rural areas only.

Table C-VIII

60. This table is presented in 2 parts. Part A gives the total population of Scheduled Castes classified by literacy and by economic activity. Part B gives similar information in respect of Scheduled Tribes. At the District level figures are given for the District under total separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

Special Tables for Scheduled Castes and Scheduled Tribes.

SCT.—Series

SPECIAL TABLES FOR SCHEDULED CASTES AND TRIBES

61. These special tables have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each scheduled caste and Scheduled tribe separately. Classification by caste and Tribes is on the basis of returns recorded in response to the questions in the census questionaire at the time of enumeration. Table SCT. V has been prepared for the households of Scheduled castes and Scheduled tribes occuring in the 20 per cent sample drawn for preparing the Household Economic tables (B series).

Table SCT-I

62. This table consists of two parts. Part A which relates to Scheduled castes gives the distribution of persons belonging to each of the Scheduled castes according to their economic activity. It also gives the number of workers engaged in special occupations such as tanning and currying of hides and skins, scavenging, etc. Part B gives similar information for the Scheduled tribes but does not include information on special occupations. This table is prepared separately for the urban and rural areas.

Table SCT-II

63. This table presented in two parts—Part A for Scheduled castes and Part B for Scheduled tribes—gives the marital status under three broad Age groups. This is presented for the District as a whole.

Table SCT-III

64. This table is presented in two parts, each part having in turn two sub parts. Parts A(i) and B(i) give the figures on the educational levels of persons belonging to each of the Schedule castes in the urban and rural areas respectively. Similar information for the Scheduled tribes is presented in tables A (ii) and B (ii). The classification by educational levels is somewhat reduced in the case of rural areas.

Table SCT-IV

65. This table presented in two Parts-Part A for Scheduled castes and Part B for Scheduled tribes-gives the classification of persons according to religion.

Table SCT-V

66. This table prepared from the Scheduled castes and Scheduled tribe households found in the 20 per cent sample is in two Parts. Part A relates to Scheduled Castes and Part B to Scheduled tribes. This table gives the formation regarding the sampled households engaged in cultivation classified by the interest in land and size of the land cultivated. This table has been prepared for the rural areas of the District only.

Table SC-I

67. In this table the total non-working population of all the Scheduled castes as a group is distributed among the following four groups based on the activity :

(i) Full time Students.

(ii) Persons seeking employment for the first time.

(iii) Persons employed before but now out of employment and seeking work ; and

(iv) Others.

Each group is further classified by educational levels. At the District level the figures are given for the District under total separately for Rural and also Urban areas. At the Taluk level the figures are given for rural areas only.

ST. SERIES—Special tabler for Scheduled Tribes only.

68. There are two tabler in this series. At the District level figure are given only for total. At the Taluk level the figures are given for Rural Areas only.

Table ST-I

69. This table presents the distribution of population of each Scheduled tribe by mother tongue and the subsidiary languages spoken.

Table ST-II

70. In this table, the total non-working population of each Scheduled tribe has been distributed among the following four groups, based on activity :

(i) Full-time students ;

(ii) Persons seeking employment for the first time ;

(iii) Persons employed before but now out of employment and seeking work ; and

(iv) Others.

E.—Series

HOUSING TABLES

71. There are five tables in this series, compiled from the information recorded in the Houselists prepared in 1960. Tables E-I and E-III have been done on full count and the other three tables namely E-II, E-IV and E-V have been for a systematic sample containing 20 per cent of the households.

Table E-I

72. This table presents the distribution of houses classified by uses to which they are put to in the rural and urban areas of the District and Taluk separately. (The figures for towns with a population of 50,000 and over have also been presented separately under the taluk concerned).

Table E-II

73. This table presents the distribution of sample Households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. Thus only houses over which the occupant has got full and absolute rights of ownership, disposal either as an individual or as a coparcener, have been treated as owned houses. All other houses have been treated as rented. The houses occupied under each tenure are further classified by the nature of uses. Tenure of occupation of non-residential houses such as schools, hospitals etc., is not shown.

Table E-III

74. In this important table, all industrial activities coming under workshops and factories have been shown, giving details of the products manufactured or serviced, Kind of fuel or power used, number of persons employed etc. This table is presented for the District only, giving the figures separately for Rural and Urban areas and also for towns with a population of 50,000 or more. The industrial activity is classified by Division, Major Group and Minor Group as per I.S.I.C.

Table E-IV

75. This table presents distribution of sample houses used wholly or partly as dwellings by material of wall and material of roof. The material of the wall is the material out of which most of the walls of the house are constructed. Similarly the material of roof is one of which most of the roof exposed to weather is constructed. The figures presented here relate to rural and urban areas of the district and Taluk separately and also for towns with a population of 50,000 and more.

Table E-V

76. This table compiled on a 20 per cent Sample Count gives an idea of the degree of congestion in households and rooms. A "room" has four walls with a door and a roof overhead and is not less than 6′X6″ unenclosed verandah, Kitchen, store, garage, cattleshed, etc., though used for residential purposes are not treated as rooms.

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into—

9 Divisions
45 Major Groups
343 Minor Groups

The divisions, major groups and minor groups with their code numbers are listed below—

DIVISIONS

0 Agriculture, livestock, forestry, fishing and hunting
1 Mining and Quarrying
2 & 3 Manufacturing
4 Construction
5 Electricity, Gas, Water and Sanitary services
6 Trade and Commerce
7 Transport, Storage and Communication
8 Services
9 Activities not adequately described

	Cotton weaving in handlooms ..	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets ..	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile—Jute—*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute ..	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta ..	244
25	*Textile—Wool—*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill ..	252
	Wool spinning other than in mills ..	253
	Wool weaving in powerloom ..	254
	Wool weaving in handloom.. ..	255
	Embroidery and art work in woollen textile	256
26	*Textile—Silk—*	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk ..	261
	Spinning of silk other than in mills ..	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products ..	270
	Manufacture of hosiery and other knitted fabrics and garments ..	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags ..	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling ..	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above ..	279
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood ..	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares ..	284
	Manufacture of veneer and plywood..	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood.. ..	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products.	288
	Manufacture of other wood and allied products not covered above. ..	289

NOTE—1 The Square kilometres and density figure of the urban areas of Taluk/District/State are worked out using the area figures corrected up to two places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this the area figures relating to Square kilometres are further adjusted to make the Taluk/District/State totals tally.

2 Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with asterisk (*) on their left.

3 Towns treated as such for the first time in 1961 are printed in italics.

4 The following abbreviations have been used for the status of a town given within brackets against names of the towns: M=Municipal Town.

5 Under column 2, the following abbreviations are used:—T : Total R : Rural U : Urban.

B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

Note :— Occupational Families having less than 1 per cent of workers in the respective occupational Division in the case of Divisions other than 7 & 8 and less than 0.5 per cent in the case of Division 7 & 8 are not exhibited in this Table. Figures for such Families have been shown in run-on lines in the Appendix to this table. The Divisions thus affected are marked with an asterisk(*).

VILLAGE DIRECTORY

VILLAGE DIRECTORY

EXPLANATORY NOTE

The Village Directory prepared Talukwise, for the whole District besides giving the population figures recorded in the 1961 Census for each village and place treated as a town, incorporates much other useful information like the area, number of occupied houses, number of households, break up of the population by sex, scheduled castes, scheduled tribes, literacy, workers in the 9 categories, non-workers, etc. In column 2, the amenities found in each village have also been indicated by using abbreviations.

2. Expressions like ' Village ', ' Town ', ' Literate ', ' Scheduled Caste ', ' Scheduled Tribe', ' Worker', and Non Worker ', etc., have been defined and a detailed description of the industrial categories, given in the explanatory note to the census tables, particularly paras 5, and 16 to 26 of that note.

3. The figures for towns are presented below the rural areas of the Taluk concerned, the information being given blockwise. The blocks are grouped by Municipal Wards or Divisions wherever possible.

4. The villages are presented in the order in which location code numbers were assigned to them for the 1961 Census. However, to facilitate easy location of the villages, an alphabetically arranged list of villages giving the location code number is given before the Village Directory for each Taluk. Total, Rural, Urban and village-wise List of industrial establishments for each taluk, is also presented with the abstract for the District at the end of this Section. Figures given in the brackets indicate the number of Establishments under the minor group, the code number of which precedes the brackets.

5. In the Taluk map, the villages are denoted by their 1961 Census location code numbers. The map is also divided into convenient squares such as A—1, B—1, A—2, B—2, etc., and the location of any village can be traced in the map, by reference to the alphabetical index to the villages, wherein its location code number and the particular square in which it lies in the map have also been indicated.

6. Information regarding the amenities in each village and the area of each village has been obtained from the Revenue authorities.

CULTURAL HERITAGE OF KARNATAKA

CULTURAL HERITAGE OF KARNATAKA

KARNATAKA has had a long and glorious past. Its antiquity is traced even to the Vedas and other scriptures. A Kannada alphabet has been read even into the pictographic representations of Mohenjodaro. The excavations at Chandravalli, Maski, Brahmagiri, Konnur and several other places have proved that Karnataka is rich in prehistory of thousands of years having attained a high status even then. Being an integral part of India, Karnataka has contributed to the moving pageant of Indian culture as a whole, and, as such it has a significant place in the annals of India, both historical and cultural. So a peep into the cultural heritage of Karnataka is worth taking. However, it should never be imagined that the culture of Karnataka is in any way distinct from that of the other parts of India. It only forms a part of it and contributes towards the richness of the Indian culture as a whole.

The scope of the survey now undertaken being limited, it is not possible to fully touch upon all the ancient glories of this land. However, an attempt has been made to take a broad survey in the fields of Religion and Philosophy; Art, Architecture and Music; Painting and allied arts, Literature and Journalism.

By no stretch of imagination can this attempt claim to have any originality as the material has been collected from the works of several scholars and research workers. The only idea of presenting this with the Census Report is to keep the common man apprised of his and his country's heritage and also to give him a stimulus to engage himself in the field of research and study of the unexplored sources of the cultural and historical background.

1. Religion and Philosophy

Karnataka is predominantly a land of Religion and Philosophy. Its religious history is varied, the remarkable feature being that from even prechristian era, the doors of Karnataka have been kept open not only to all the great religions of India but also other parts of the world, besides the religions which sprang up on its own soil.

When the Aryans came to settle down in South India, they followed the Vedic religion of sacrifice, modified by the later school of devotion to God Siva or Vishnu. Side by side, the Dravidian form of worship of the Cobra, Spirits and trees were also prevalent. The worship of 'Shakti' in the form of several female deities with their animal sacrifices also appears to have been prevalent then.

Under the above conditions Jainism and Buddhism with the gospel of 'Ahimsa' came to Karnataka. Of the two, Jainism appears to have been the first to come (some scholars hold the view that Buddhism was the first to come) with the Mauryan Emperor Chandragupta and his spiritual guide Bhadra Bahu in about 300 B.C. and it has lasted longer. Jainism spread from its spiritual centres at Sravan Belagola, Karkala, Koppala, etc. Its principles of Ahimsa and of spiritual self-reliance had a special appeal.

Buddhism had its influence during the days of King Ashoka when it secured a large number of converts mostly in Banavasi and round about areas. But Jainism had already struck deep roots and so it could not be supplanted by a religion which to the common man, was not very much different.

The rise of Shankaracharya in the 8th century was a good augury for Brahminism and Vedic culture. He established 4 principal Mutts, perhaps the earliest and most famous being the Matha of Sringeri. The philosophy propounded by Shankara is styled as Advaita, the philosophy of absolute Monism. By him interpretation of Brahman Shankara opposed the 'Negative void' doctrine of heterodox philosopher.

Second of the triad of "three great Acharyas" was Ramanujacharya (11th century) who though hailing from Tamil Nad spent his years of enlightenment in Karnataka. His system goes by the name of Visishtadvaita or qualified Monism. The doctrine of Ramanuja gave great prominence to the Bhakti cult.

The third Acharya was Madhwa born in 1238 near Udipi. He taught the Dvaita doctrine, the doctrine characterised by unqualified dualism and devotion to Vishnu. He founded eight pontifical seats at Udipi for the worship of Krishna, whose temple also he erected.

About the middle of the 12th century a great revolution took place in North Karnataka when Basava of Bagewadi revived the Veerasaiva faith. Though

Basava is considered to be the main founder of this faith by some, some believe that Ekanta Ramayya was the founder. Some others believe the pancha-charyas, *viz.*, Ekorama, Panditaradhya, Revana and Marula and Vishvaradhya founded this system. Doing away with the sacredotal side of religion, Basava, reduced it to simple rules of conduct. The religious climate of those days was surcharged with devotion and mysticism. He gave stimulus to the school of devotion to Shiva and built up the Veerasaiva institution of Anubhava Mantapa in Kalyana, the capital of King Bijjala of the Kalachurya house.

Like the Veerasaiva mysticism, the 'Dasakuta' established by Naraharithirtha and Shripadaraya and which held sway for about 200 years, is indigenous to the soil of Karnataka. The famous Dasas like Purandharadasa and Kanakadasa spread the message of Dasakuta, which is based on the impermanence of this worldly existence, devotion and complete dedication to Vishnu, and sound moral principles in human dealings. Both these schools of mysticism though employing different modes, have preached the same principles of ethics through the path of devotion or 'Bhakti'.

Islam was introduced into Karnataka in the 14th century, though it had entered the western coast earlier. In South India, it was only in Karnataka that this religion had first taken some root and flourished.

Christianity started to exert its real influence from 17th century onwards, gathering a momentum in 19th century, even though the earliest Christian settlement appears to have been at Kalyanpur near Udipi, where it is said a Christian Bishop used to reside much earlier.

This brief survey shows that Karnataka has been either the birth place or a nursery for several faiths. All the faiths of Karnataka had their royal patronage from time to time. But there is ample evidence to show that wide and sympathetic toleration for the various faiths was the general characteristic of all times. Even to this day, there are several shrines worshipped both by Hindus and Muslims, *e.g.*, Yamanur in Dharwar District and Baba Budangiri in Chikmagalur.

2. Art, Architecture and Engineering

Karnataka has created a unique position for itself in the field of art and architecture. The aesthetic traditions and culture of Historical Karnataka have been brilliant. Their love of the beautiful has found expression in many forms of art. One peculiarity of the art of Kannadigas has been that generally it has been made to subserve the highest ends of life, as found in their philosophy and religion.

Considering architecture and soulpture, Karnataka has made a great contribution not only to Indian art but to the art of the world. Its styles of architecture and sculpture have been original and also present a variety. As historically Karnataka was ruled both by Hindu and Muslim dynasties, we find architecture of both the styles. Geographically too, Karnataka is situated between the Northern and extreme Southern parts of India. If we find in the North, Indo-Aryan style of architecture, in the South we have the Dravidian school of architecture. Karnataka has imbibed the best of these two styles of architecture and has introduced an architectural style of its own.

The Karnataka architecture can be divided into the following groups, *i.e.*, Kadamba, Chalukya, Hoysala Vijayanagara, Buddhist, Ganga and Mahommedan respectively. Though in the very early period there might have been a few temples like that of Banavasi, it appears that the architecture of Karnataka really began with the Buddhist Chaityas, Viharas and rock-cut caves of the Asokan and Satavahana periods followed by the Shiva and Vishnu temples during the early Kadamba and Chalukya periods. Jaina architecture spread during the reign of Kadamba and Ganga kings. But the highest originality and grandeur of Karnataka architecture was manifested during the Chalukyan and Hoysala periods between the 8th and 13th century. During the reign of Vijayanagara kings, there was further augmentation of the traditions influenced by the Dravidian art. Mahommedan architectures mainly consisting of mosques and tombs, Gulbarga, Bijapur and Bidar, have a style of their own. It is impossible in architecture in general and particularly in Indian architecture to strictly define each group of architecture, correct to the letter. This is due to imperceptible fusion or intermixture of different styles of Indian architecture and also different methods of classification and nomenclature adopted at different times. Karnataka architecture too is not an exception to this rule. In fact Hoysala style is an evolution of the Nagar, Kadamba and Chalukya styles, while still remaining distinct.

The Kadamba style.—Kadambas had constructed a number of temples in their capital at Banavasi in North Kanara District and also at Halsi in Belgaum District. Kadambas were the first to introduce two different parts, *viz.*, Garbhagudi and Sukanasi as till then there used to be only one hall for the temple.

The Saiva temple at Talgunda, the temples at Kadoli, Hattikesvara temple at Halsi where we find Kadamba's, innovation of perforated screens or pierced window on either side of the main door, the Kallesvara temple and the famous Kamalanarayana temple at Degamve are fine examples of Kadamba architecture. In the Varahanarasimha temple of Halsi, they introduced four panels each crowned by a Kirtimukha. At Yalwatti, we can see the Kadamba style tower of the temple. The image of Lakshminarayan at Halsi is elegant in carving and majestic in pose. The images of this period are both in dynamic and static poses *e.g.*, the image of Durga in Sorab Taluk and dancing girls sculptured in Degamve temple.

The Chalukya style.—Here we notice a lot of influence of the Dravidian style. The temple consists of five parts called Vimana which includes both the Garbhagudi and Sukanasi, Mukhamantapa, Gopura on the Mahadwara, Hajara and Dwaramantapa. Built of granite (kaggallu) the ground plan is generally four cornered, though some temples with more corners are also to be found. The top structure above the Vimana has a close resemblance to a Buddhist stupa. However, the chief distinguishing feature is that prominence is given to the tower on the main gate rather than tower on the main shrine. Chalukyan architecture is a perfect blending of the two then prevalent schools of architecture, *viz.*, the northern Indo-Aryan or Vaishnava style and the Southern Dravidian or Saiva style. The characteristic feature of the Dravidian style is the existence of more than one storey with an horizontal arrangement in the tower whereas the tower of the northern temple has a perpendicular arrangement with the towers getting smaller with the increase in height. The Chalukyan artists followed the Dravidian style in the matter of general outlines, adding to the number of storeys and reducing the size of each higher storey but they adopted the radial symmetry of the tower from the northern style. To this fusion of the northern and southern styles they added a variety of ornamental details. In fact it is difficult to find any part that is not decorated.

Aihole, with about 70 temples, Pattadkal with about 10 temples (one of them being Jaina) and Badami with the fine cave temples are the very important places where we can see this style of architecture. They are all in Bijapur District. Other notable places in the State are Lakkundi, Haveri, Niralgi, Galagnath, Hanagal, Bankapur, Kundgol, Laxmeshwar, Tilawalli, Anavatti, Itgi, Kuravatti, Gadag, Dambal, Unakal all in Dharwar District.

The caves at Ajanta and Badami and the temples at Pattadkal and Aihole form the main structures of the period. The caves at Badami, the Kameswara cave at Ellora, the facade and the capitals of the pillars in Cave I and XXIV at Ajanta, the Durga and Virupaksha temple at Aihole contain marvellous specimens of sculpture. Special mention has to be made of the marvellous cave temple of Kailas at Ellora. It was the work of Rashtrakuta king Krishna.

The Hoysala style.—This is richly represented by the temples of Belur, Halebidu and Somanathapura. They are the most exquisite specimens of the epic grandeur, variety and massiveness of Karnataka architecture more so because of the fine blending of architecture and sculpture. They immortalise in stone, religion, history and contemporary life in the form of dance, dress, manners, etc. Fergusson has compared the Hoysalesvara and Kedareswara temples of Halebidu with the Parthenon of Athens.

The Hoysala architecture is free from Dravidian influence to a large extent and so it is the most original contribution of Karnataka to Indian architecture and sculpture. The chief distinguishing feature of this style is that unlike the Kadamba and Chalukyan temples, the temples are star shaped. Then in Hoysala temples we have a conglomeration of shrines in the same temple. Again no two pillars of the Hoysala temple are similar to each other. The five parts of a Hoysala temple are Vimana, Navaranga, Mukhamantapa, Dwaramantapa, and Sabhamantapa. But unlike the Chalukyan temples, the Gopura is on the main shrine.

The Hoysala sculpture is known for its Bhuwaneshwaris, Madankai or Bracket figures, the Dwarapalas, the images of the shrines and the figures on the walls The Hoysala images are generally static in pose.

The temples are constructed of chloritic schist.

The Vijayanagar style.—The ancient city of Vijayanagara, once the capital of a fabulous kingdom has now fallen into obscurity. In spite of the desolation, every building, temple, palace has its own story of grandeur and also sorrow. The Virupaksha or Pampapathi temple with its unique seven storeys Gopura is a marvellous piece of engineering. The Gopura which is a hollow pyramid, 120 feet high has a staircase within its thick walls.

The incomplete and unconsecrated Vithala temple has inside its courtyard, a stone 'Rath' or the vehicle of God. On either side of the courtyard stand two

Mantapas which are exquisite for their fine design and workmanship. But the wonder of the ruins is the great Mantapa in front of the shrine. The roof of this Mantapa is supported by huge granite ornamented slabs consisting of a central slab surrounded by detached shafts and each of these shafts emits a separate note when struck.

The King's balance, a huge stone trough measuring nearly 42 feet in length and three feet square hollowed to the thickness of 5 inches, the Hazararama temple, the Narasimha Monolith about 22 feet high are but a few examples of the Vijayanagara architecture and sculpture.

It is doubtful if there could have been any equals to the sculpture of Vijayanagara craftsmen in providing variety and for their caricaturistic touch pregnant with realism, vitality and power.

The social history of this age has been unravelled in stone at Srisailam, Mudabidri and Bhatkal besides at Hampi.

The Lotus Mahal which combines Hindu style roof and cornices with Mahommedan style arches, shows the influence of the latter style on the constructional works during this period.

The Ganga style.—The contribution of Jainism to the art of Karnataka is chiefly noteworthy in the field of iconography. The chief achievement in this respect is found in the three well-known colossi of Karnataka, *viz.*, the statues of Gommateswara or Bahubali at Shravanbelgola, Karkala and Venoor which are 56½ feet, 41 feet and 35 feet respectively. The statues are carved from Granite Tor. The colossal images, standing under an open sky are symbols of peace in stone, of the triumph of human personality over sorrow and strife. Whereas at Sravana Belagola and Venoor, we discern a smile on those wonderful lips of the statues, at Karkala we find a complete absorption in meditation.

The Jain buildings consist mainly of Bettas, Basadis, and monasteries. Other contributions of this period are the "Thousand pillar Basti" of Mudabidri, the "Free standing pillar" or the Manastamba, rock-cut caves as in Ellora. The Ellora caves cut in the reign of Rashtrakuta King Krishna I can be claimed as a contribution of Karnataka architecture. The Jain temples at Mudabidri have a peculiar feature of their own being characterised by its sloping roofs of flat overlapping slabs.

The Mahommedan architecture.—The various mosques and tombs at Gulbarga, Golkonda and Bijapur have attracted the attention of several tourists. Most of these buildings are devoid of sculpture but are specimens of great technical and engineering skill. The 'Golgumbaz' of Bijapur is one of the most remarkable buildings in the world. It is a huge square building surmounted by an immense dome forming wonderful whispering gallery and measuring 198 feet outside and 175 feet inside.

If Golgumbaz is remarkable for its size and simplicity, Ibrahim Roza at the other end of Bijapur is so for its lightness and ornament. Other historical buildings in the city are the picturesque 'Sat Mazli', 'Jod Gumat', 'Jummamasjid' and several other monuments. The building art at Bijapur is structurally the most competent phase of architecture in the Deccan. The hemispherical dome and the arch are the chief features of this form.

The best examples of Saracenic architecture are to be found at Sira. The domes here are not large, but of a very light and elegant design, being raised on a sort of floral cup.

The palaces of Hyder and Tippu at Srirangapatna and Bangalore, the mosque at Srirangapatna, the Gumbaz of Hyder and Tippu and the summer palace are other examples of Islamic architecture.

This brief survey, which cannot claim to be complete by any standards, will show how much Karnataka has contributed to Indian architecture and sculpture.

Engineering in ancient Karnataka was moulded by the needs of the age which were comparatively few and simple.

The first need of man is food and so naturally the first concern was to conserve water flowing in the valleys during the rains, for irrigational purposes. The ancient Karnataka Engineers formed small reservoirs and tanks by throwing barriers of earth or 'bunds' across the valleys. This water used to be taken out, by channels. The Engineers were also adept at the selection of sites for these tanks. 'Arasikere' tank at Halebid was built by the Hoysalas in the 11th century. 'Moti Talav' of Pandavapura Taluk and 'Vishnusamudra' at Belur were constructed in the 12th century. Madagtank' and 'Ayyankere' near Sakrepatna are reported to have been built by King Rukmangada of Mahabharatha fame. A number of 'Anicuts' were also built centuries back. Sri Rama Devaru Anicut across the Hemavati near Holenarasipur was built in 1533 A.D. Chikka Devaraja Wodeyar built a series of anicuts across the Cauveri in the 17th century; so also

'Rayanala' and 'Basavanala' are described as the premoghul channels from the Tungabhadra.

The talents of the people were also directed towards cultural pursuits and artistic productions, among which architecture and sculpture were the main branches covering Engineering. But with the fall of the Vijayanagara Kingdom, and the advent of the British, the popular expression of the natural talent in Engineering, Sculpture and architecture started disappearing. Engineering skill started being used for only utilitarian purposes and that too, to the minimum extent necessary. The pace of progress in all the parts of Karnataka was not uniform, the advance being relatively more in Mysore. This was mainly due to the three great rulers of Mysore—Sri Chamaraja Wodeyar, Sri Krishnaraja Wodeyar and Sri Jayachamaraja Wodeyar and to the three eminent ministers—Sir K. Seshadri Iyer, Sir M. Visvesvaraya and Sir Mirza Ismail.

Mysore adopted the discoveries of science and the advances of modern engineering before the other parts of India. The Cauveri falls at Sivasamudram were harnesed in the beginning of the present century and electric power was generated. The streets of Mysore and Bangalore were the first to be electrically lit in India. The electrical transmission lines from Sivasamudram to Bangalore and Kolar were the longest open lines then attempted in the world. Mysore was also the first to adopt the technique of damming up rivers by high masonry dams for irrigational purposes. The Boranakanive Dam and the Marikanive Dam were the first to be constructed. The Krishnarajasagara, started in 1912, is a combined Hydro-Electric and Irrigation Project with a capacity to irrigate about 1,38,000 acres of land. The bigger Mahatma Gandhi Hydro-Electric Scheme on the Sharavathi at Jog, supplies power to several parts in the Northern Karnataka too. The Pampasagara across Tungabhadra at Hospet, Ghataprabha canals in Belgaum District, the Bhadra Reservoir at Lakkavally, the Tunga Anicut near Shimoga, the Nugu Reservoir at Heggadadevanakote Taluk are some of the other big works.

Under architecture, the recent buildings are varied in style. The palace in Bangalore is a happy blend of the Hindu and the Indosaracenic styles. The Central College at Bangalore is in the Gothic style. Vidhana Soudha at Bangalore is a monumental structure which combines the Dravidian style with the modern style.

The Mysore Iron and Steel Works at Bhadravati, the Hindustan Aircraft Factory, the Indian Telephone Industries, Bharat Electronics, Hindustan Machine Tools, the Government Electric Factory, the Government Porcelain Factory, Electrical Lamps Factory, the Government Soap Factory and a host of other factories at Bangalore and elsewhere in Karnataka, only prove how the talent of the people on the engineering front can be utilised if properly harnessed.

3. Handicrafts

Along with the other parts of the country, Karnataka too has a glorious past and has been known for its traditional crafts. We can be proud of it all the more because the village communities of craftsmen have generally been the centres of those crafts. This art has never been employed just for its own sake ; it has always been an art with purpose. They are the material symbols of India's unique cultural ethos. These are not the products of the mindless machines, but have been entirely the outcome of the admirable skill of the individual craftsmen in the arrangement of form and colour. The products have always been inimitably Indian. Due to the encouragement of the powerful and even petty Indian rulers of the past, the art had reached almost a state of perfection, having survived several vicissitudes to which they were subjected. But during the years of bondage under foreign rulers, the art was slowly disappearing and had reached almost a dormant stage ; but now, thanks to the national government, it is showing a promise of recapturing all its ancien glory

Karnataka too has ancient artists who have displayed their skill in metal sculpture ; Jewellery ; woodcrafts and wood carving ; stone carving ; Ivory carving and in laying pottery, ceramics and glassware ; clay figures and folktoys ; Handwoven textiles ; Hand embroidery ; Carpets and rugs ; Baskets and mats ; and several other crafts.

Metal sculpture.—The most important phase of this Indian art developed and flourished in the South, down from the river Tungabhadra to Cape Comorin. The art saw its greatest development in the 9th century and was always on the rise till the 16th century. It reached its zenith in the reign of Krishna Devaraya of Vijayanagar, a famous specimen in copper showing this great king with his two consorts standing side by side in the shrine of Venkatesha at Tirupati, is known for its artistic skill.

Most of the ancient metal figures have been made of copper or brass and not bronze which was considered to be an impure alloy for divine purpose. The alloy that was considered ideal was 'Pancha loha' consisting of gold, silver, copper, brass and lead. The technique of casting is known as the 'Lost wax' process, in which only one piece can be obtained at a time and duplicates are not possible.

The finest examples of metal sculpture of the past represent the divinities in their various aspects, particularly Siva and Parvathi. There are rules and regulations laid in the 'Silpa Shastras' which codified the characteristics, poses, Mudras, etc., and which the craftsmen had to follow when representing divine figures. They could express their own creative genius when representing semi-religious figures like nymphs, Gandharvas, Apsaras, animal forms, etc.

South Indian bronzes are supreme examples of the metal sculptor's genius. Their dynamic symmetry in poses, absorbing serenity of expression and rhythmic sways are but some of the aspects for which they are admired. The most important and dramatically conceived of all the divine images are representations of 'Nataraja' in which Siva personifies the kinetic aspect of his divinity. The image of Sharada made of Panchaloha at Sringeri is a fine specimen of art. Along with divine representations, figures of important persons of those days were also being made. The deepas or deepams are beautiful figures of human beings holding lamps, as a symbol of burning devotion of the donors.

There are very few pieces of bronzes of the Chalukyan period. The art during Hoysala period was florid and highly decorative. During the Vijayanagara period, a simple style came into force. With the post-Vijayanagar period came decadence and poverty of the creative urge.

However, even to this day we find several hereditary craftsmen in South Kanara, North Kanara, Mysore, Belgaum and some other districts.

Jewellery and metal crafts in Gold and Silver.—The Indian's innate love of personal adornment is well-known. It is this love that has kept alive the art of jewellery making through the centuries. Generally made of the purest and finest materials, it is known for its delicacy, artistic designs and varied nature. The art of jewellers of Bangalore, Mysore, South and North Kanaras has become famous. They produce ornaments from the smallest possible amount of the precious metal, the gold being often beaten to the thinness of paper but at the same time maintaining its strength and effect of solidity. They do so in spite of their poor equipment, relying more on their own skill than on a large number of tools or machinery.

The 'Bidri-ware' taking its name from Bidar, whose Muslim craftsmen have always been famous for this work, consists of a special style of work which may be called "Damascening" in silver. The alloy used for these wares differs from place to place, but generally consists of copper, zinc and lead or tin. The work is of two kinds the "Teh Nishan" in which the design is deeply cut and "Zar Nishan" which rather resembles the encrusted ware of Tanjore. The articles commonly made are ash trays, salvers, hukka bowls, spittoons, cups, plates, tumblers, flower vases, surahis, plaques, boxes, etc. Bidriware has special significance in the Hyderabad Karnataka due to the custom of presenting a complete set of Bidriware utensils, etc., to the bridegroom at marriages.

Wood crafts and wood carving.—This is really an ancient craft in Karnataka. The skilled carpenters of the land were especially prominent in the use of rosewood (blackwood) and teakwood. The furniture, as we see to-day is apparently a foreign importation but they were not unknown in the past as thrones for our kings and emperors. In the past, and to a certain extent even to-day, our craftsmen have shown their skill at veneering. Not only wood veneers but sandalwood, ivory, horn and tortoise shell have been veneered on surfaces made of inferior wood.

In wood carving Karnataka was and is one of the best known for rich ornamentation, skilful execution and characteristic designs. It is a mixed form of indigenous and Chalukyan art. It is a decorative art mostly using celestial or divine forms. In fact the State has achieved a fame for its sandalwood carving. A variety of the most beautiful and artistic articles are prepared from sandalwood by engraving, inlaying, veneering, etc. Shimoga, North Kanara, Mysore are the most important districts known for this work.

Stone carving.—Even a casual visit to any historical place of Karnataka is sure to convince any person, how adept our craftsmen were in this art. The details have been discussed when dealing with architecture and sculpture.

Ivory carving and Inlaying.—This too is an ancient art. The Portuguese traveller Paes has described a chamber in the Vijayanagar palace as "all of ivory as well as the chamber as the walls from top to bottom and the pillars of the cross timbers had roses and flowers of lotuses, all of ivory, and all well executed, so that, there could not be better". Even to-day Mysore is a place of importance in ivory works. The objects generally produced are elephants, cows, peacocks, tigers, idolls, human figures, etc. Articles like combs, caskets, cigarette boxes, necklaces, bangles, chessmen, toys, paper cutters, and the like have foreign market. Jungle and sport scenes also abound in the ivory carving in bas-relief produced in Mysore, and sometimes the articles are further enriched with black

lac. In fact Mysore craftsmen excel in ivory inlaying in wood, in spite of the fact that his tools are crude. They produce excellent pieces of furniture in ebony nlaid with ivory, the finest example being the ivory inlaid doors of 'Tippu Sultan's Mausoleum'. Another peculiar feature of the Mysore work is that it has a simple chaste dignity, the surface of the article being decorated and not overloaded with ornamentation.

Pottery, Ceramics and Glassware.—The unglazed earthenware, red, brown, yellow or grey made in every village, represents the simplest and purest form of art. The origin of this art can be traced to prehistoric times. So varied are the shapes and so beautiful the workmanship! There is a special pot for almost evry special purpose. Now ornamental designs are painted or etched on the prepared surface, and sometimes the pots are also glazed.

The tools used are generally simple. Chief of them being a flywheel revolving horizontally, weighted round the rim with lumps of clay and set into motion with the hand. As the wheel merrily revolves the craftsman's skillful hands shape the mass of clay, gently into the required shape and form. Then the vessel is taken out for drying and baking, polish being given to the baked vessels.

Like pottery, artistic glassware, mostly bangles were also made in very remote times. These bangles of different colours are sometimes ornamented also.

Clay figures and Folk Toys.—The excavations at Chandrawalli have proved that clay figures and toys were being made even in prehistoric times in Karnataka. Our ancient craftsmen spared no pains to supply their children with toys representing domestic and wild animals, and deities of the Hindu Pantheon. They also produced pots and pans in miniature. The toys whether of clay, wood or metal form the very essence of folk art. The discoveries at 'Gombigudda' near Jamkhandi have also revealed that this art was in a high state of development in the past. Even to-day places like Gokak, Honavar, Kumta, Channapatna, Mysore and Bangalore are famous for their toys. In Channapatna and Gokak several articles of wood are made and then lacquered. Folk toys in a way are the autobiography of the people of this land.

Handwoven textiles.—Of all the art manufacture of India, her beautiful textiles are the oldest. The products of our weavers have been compared to "exquisite poetry in colourful fabrics". Celebrated among them were the Dacca Muslins, now a thing of the past. But even to-day Karnataka does produce a lot of quality Muslin. Almost every district of Mysore has its centres for producing handwoven cottons, though in this machine age, they face several vicissitudes. However, it is in silks more than cottons that Mysore is now famous. The Mysore silks with shots of Gold lending to them an enchanting beauty are in great demand even outside our own country.

Hand embroidery.—Hand embroidery has been widely practised in Karnataka since very early times. 'Kasuti' is a beautiful form of embroidery, done in those places which were ruled at one time or the other by the Chalukyan and Vijayanagar rulers. This type of embroidery still exists in Belgaum and Dharwar districts, though it has been generally a handicraft and a pastime for the female folk meant more for their personal use. The designs of the Kasuti are generally related to temple architecture. The famous 'Ilkal' saries made in Bijapur district, are charming with their borders in green, red or purple, the embroidery covering the whole material. In fact, in every district and in several households we will find women folk doing embroidery work for their own use, if not for commercial purposes.

Carpets and Rugs.—The art of manufacture of carpets is not an indigenous one but seems to have been introduced by the Saracens. Bijapur, Dharwar, Belgaum, Bangalore and several other places in the State produce carpets. Almost every district in the 'Maidan' area produces 'Kambalis'. Mention has also to be made of 'druggets' made in Bangalore. Made from waste wool clipping and often of wool from dead sheep, they are naturally much cheaper.

Baskets and Mats.—In the bamboo growing areas of Karnatak it is a common sight to find men and women from particular classes weaving baskets, as they move from place to place. In the coastal districts of South and North Kanaras, where cocoanut is grown in abundance, delightful and richly coloured coir floor-coverings are prepared. The coir fibre is spun into yarn and woven into beautiful floor coverings. Sometimes, the decoration motif is inlaid or stencilled on the mat and sometimes the design is woven as in textiles. These mats are known for durability, sound deadening and soil and damp resisting qualities.

Besides this there are several other crafts like making of incense-sticks, soaps, etc., which are very popular in Karnataka even to this day.

4. Painting and Allied Art

With regard to painting, though Kannada poetry revels in describing old portraits and pictures, very few specimens have come down to us excepting those at Ajanta and Badami. Considering the extent of the Karnataka territory, the then Kannada artists may have contributed to the amazing frescoes of Ajanta, between 1st century, B.C. and 7th century A.D. Pulakesi II, a Chalukyan king from Badami, has been represented in one of the frescoes. We can also see some blurred paintings on the ceilings of one of the Badami caves, and some paintings of the Vijayanagara period in the Virupaksha temple at Hampi.

Kannada poets Rudrabhatta and Ponna mention a famous painter by name Cirghatti.

The linear carvings and drawings of animals and human figures belonging to the period of pre-history discovered in 'Gombigudda' hill near Jamkhandi also indicate that some more treasures of the type may see the light of the day, if further research work is undertaken.

Even now, there is ample talent in cradle painting, claymodelling, making of dolls, wooden flora and fauna, sandalwood and ivory carvings, etc., as is borne out by the skilled craftsmen and painters of Channapatna, Mysore, Sagar, Shimoga, Kumta, Gokak, Kankeri and other places.

5. Dance, Drama and Music

These three allied arts were in a well developed state for several centuries in Karnataka. A Tamil work of the 2nd century by name 'Silappadikaram' mentions of Kannada actresses and dancers who entertained King Senguttavan in the Nilgiri Hills. Pattadkal inscriptions refer to a well known actor by name Natasevya. Several inscriptions of old reveal a rich variety of dance poses. Dance was almost the exclusive monopoly of temple girls but appears to have been regularly practised by ladies of upper classes also, during the Hoysala and Vijayanagar periods. 'Bharat Natya and Kathakali' are the famous modes of Indian dances in which many Karnataka artists have earned a name. Special mention needs to be made of Jatti Thayamma of Mysore.

The Kannada theatre was represented by folk plays based mostly on epic and historical themes known as Bylata and Yakshagana. It is true, the word Yakshagana would mean 'a style of music'; but the word is now understood to mean a form of musical dance-drama played in the open air. Its traditional form is a very rich one, though corrupted to a certain exten these days due to the influence of the modern cinema or drama forms.

Its songs are written literature, set to a separate style of music, also called 'Yakshagana' which is virile and operatic in nature. The themes are mostly from Mahabharata, Ramayana, Puranas and Bhagwata. Powerful extempore prose dialogues, rhythmic style of dancing, colourful and demonstrative costumes and the songs of the 'Bhagwata' in a high pitch to the accompaniment of an elongated drum or *maddale* and a pair of cymbals, keep the audience spellbound through the night. Its 'Gamak and Tan' are different and portray the various aspects of dramatic emotions. The contents of the songs are translated or developed in dialogue by the characters.

The earliest reference to Yakshagana was in Kannada works of 1105 A.D. and 1185 A.D. During the 17th century, there were three eminent composers, *viz.*, Devidasa of Udipi (1640 A.D.), Nagappayya of Koteshwar (1640 A.D.) and Subba of Brahmavara (1680 A.D.). In the 18th century Rama of Karur, Ramabhatta of Hattiangadi and Venkata of Pandeshwar were prominent.

We have at least 150 themes chosen for those plays and over 100 plays are available in print to-day. The 17th century plays mention over 100 Ragas as belonging to Yakshagana. The themes chosen are mainly heroic in content. As such there are no dramas without a battle, there being very few exceptions to this rule.

The "Maddale" or drum work is such as to lend itself to exquisite footwork. Another drum called "Chande" is used when depicting valour or battle. But rhythm is the essence of every action. Simple settings, lighted only by dim oil-fed lamps, create a sense of illusion and impress the personality of the various characters.

There are now about a dozen troupes attached to various temples in the North and South Kanaras and the hinterland of these districts. Most of the actors are farmers by profession and so the plays are taged generally between December and May when they get respite.

However, this ancient indigenous art of Karnataka is facing its darker days now. Already two other adjuncts of this type of drama namely the doll play and the leather doll play have died on account of their attempts to imitate other arts. Sivarama Karanth, who is an authority on 'Yakshagana' and his associates have been striving to keep this ancient art not only alive but

also pure. Besides this indigenous form of open air plays, there are several professional troupes and amateurs who regale the audience by staging modern dramas.

In regard to music also Karnataka has an outstanding achievement to its credit. It has developed a school of music which is called " Karnataka Music," in which fusion, to a certain extent, of the Aryan and Dravidian modes of music has taken place. It is distinguished from the Northern or Hindusthani music by a scientific correlation of Tala and Raga with greater stress on rhythm. Besides those common to Hindustani music, it has also its own system of Ragas and Alapanas. Another interesting feature is that probably Karnataka is he only State in India where there is patronage for both Hindusthani and Karnataka styles. North of Tungabhdra river, Hindusthani music is more in vogue and south of it there is predominance of Karnataka music.

Viraballa (12th century) also known as 'Sangita-prasangabhangi' was one of the earliest musicians of Karnataka. Gopalnayaka of the Vijayanagara court is reputed to have had a contest in music with Amir Khusru of Allauddin Khilji's court. The mystics of the Dasakuta, the Vachankaras, Sharanas and others built up a tradition for this music by simplifying it when singing devotional songs.

Sarangadeva, Kalinatha, Ramamatya, Somanatha, Venkatamukhi, Telaja Rajendra, Bhavabhatta, Purandardasa, Pundalika are some of the famous authors who have written independent works on music.

Vina, Tal, Maddale, Damaruga, Mahamuraja, Turya Nirghosana, Trivali, Mridanga, Kahala, Shankha, Bheri, Patapa, Ghhante, Kausala are some of the old musical instruments enumerated in many of the epigraphic and literary records.

6. Literature

Kannada literature is one of the oldest literatures of India, in antiquity it being next to only Sanskrit, and Prakrit literatures and perhaps to that of Tamil. It is a rich heritage not only of the Kannada people but also of other Indian people as a whole. Till about the end of the 19th century, the number of Kannada writers recorded is over 1,148 though the number of their works has not been computed.

Though the earliest available work in Kannada is 'Kavirajamarga (9th century) either written by the Rashtrakuta king Nripatunga or by Srivijaya under the patronage of Nripatunga, the earliest Kannada record is the Halmidi lithic inscription ascribed to about 450 A.D. This together with another inscription of 500 A.D. has established that 'Kavirajamrga' is a prominent milestone in the History of Kannada literature and not a starting point. A few Kannada words also are met with in Prakrit work called 'Gathasaptasati' of 200 A.D. which clearly indicates that the establishment of the language and its traditions were being cultivated from a period earlier than that of 'Kaviraja marga'. However, the literature produced up to 850 A.D. has not yet come to light. Kavirajamarga is a work on poetics referring to 'Palagannada', *i.e.*, Old Kannada, Puratanakavis and Purvacharyas. Its importance is more historical than aesthetic.

In 853 A.D. Asaga, a Sanskrit scholar, wrote 'Karnataka Kumara Sambhava' in Kannada, Gunanandi (900 A.D.) and Gunavarma I (900 A.D.) were poets of great reputation of the period.

Between 9th and 12th century classical tradition in Kannada literature flourished magnificently. It can be called the golden age of Old Kannada literature. The excellence of the literary achievements of the writers, particularly the poets, of this period have never been surpassed. Pampa (942 A.D.) who is honoured as the 'Adi Mahakavi' in Kannada was not only the first but also the foremost poet of the era. He was a master of Jaina Philosophy in the court of Arikesari II, a prince of the Chalukya family. When aged only 39 years, he composed the 'Adi Purana' and a few years later 'Vikramarjuna Vijaya' or 'Pampa Bharata'. His style and diction are remarkable for economy and suggestiveness. Ponna (950 A.D.) who wrote 'Bhuvanaika Ramabhyudaya', 'Santipurana', and 'Jinaksarmale' was his contemporary but under more lucrative circumstances. Other famous personages of this era were Chavundaraya I (978 A.D.) author of 'Chavundaraya Purana', Nagavarma I 'author of 'Chhandombudhi' and Karnatak Kadambari', Ranna (993 A.D.) author of 'Parashurama Charita' 'Chakreshwara Charita', 'Gadayuddha', Nagachandra (1100 A.D.) author of 'Ramachandra Purana' or 'Pampa Ramayana' and 'Mallinathapurana', and Nagavarma II (1145 A.D.) author of 'Kavyavalokana' and 'Vashikosha'.

The works during this period were both literary and scientific. Particularly in the 11th century, the writers attached more value to technical and scientific topics. 'Panchatantra' of Durgasimha is a famous work of the 11th century. Nagavarmacharya (1070 A.D.) is the first to give us 'Shatakas' in Kannada literature.

In the middle of the 12th century, there was the rise of a new literary movement. The spoken language of the people was fast changing from old Kannada into middle Kannada. Jain authors like Nayasena started writing popular stories in simple Kannada. Religious reformers among Veerasaivas, like Basava took up the spoken language and gave it a literary status by starting the vast 'Vachana' literature in simple but forceful Kannada. Famous among the 'Vachanakaras' are Basava, Allamaprabhu, and Akkamahadevi. For beauty, for complete expression of the goal towards the higher life and poetic grace, Shri Basaveshwara's Vachanas are unsurpassed. They are valuable for their ethical content also.

In 1200 A.D. Harihara, author of 'Sivasaranara ragalegalu' and Raghavanka author of 'Harischandra Kavya', 'Siddharamapurana' and Kereya Padmarasa, author of 'Dikshabodhe', started works in pure Kannada metres like Ragale and Shatpadi. Eminent poets of this period were Nemichandra (1170 A.D.) Rudrabhatta (1180 A.D.) and Janna (1209 A.D.). Kesiraja wrote a book on Kannada Grammar called 'Sabdamanidarpana'. There were several technical works too. Rajaditya (1191 A.D.) wrote 6 treatises on Mathematics. Kirtivarma (1125 A.D.) wrote 'Govaidya' a treatise on cattle diseases. Jagaddala Somanatha (1150 A.D.) wrote 'Karnata Kalyana Karaka' a work on Ayurvedic medicine. Ratta Kavi (1300 A.D.) wrote 'Ratta Matha' a treatise on Meteorological topics. Mangaraya (1360 A.D.) wrote his 'Khagendramani-Darpana' a treatise on poisons and their antidotes. Sridharacharya (1150 A.D.) wrote his 'Jatal atilaka', a work on Astrology.

The period from 14th century to the 16th century was really the golden age for Kannada literature under the patronage of Vijayanagara Kings. When poets of all faiths added to the treasure of Kannada literature. Kumara Vyasa or Narayanappa (1430 A.D.) as he was known, who wrote the first ten parvas of the Mahabharata in Kannada, and Kumara Valmiki (1500 A.D.) were great literary geniuses of the period. Purandaradasa and Kanakadasa popularised the Bhakti cult by composing devotional songs in Kannada and founding the 'Dasa Kuta'. Lakshmisha (1550 A.D.) wrote his famous 'Jaimini Bharata' Chamarasa wrote his famous 'Prabhulingalile'. There was a revival of Virasaiva literature also due to the efforts of Lakkana Dandesa (1428 A.D.) Chamarasa (1430 A.D.) Tontad Siddeswara (1470 A.D.), Nijaguna Shivayogi (1500 A.D.). Virupaksha Pandita (1584 A.D.). Vachanakaras like Tontad Siddhalinga, and Ghanalinga also came into prominence. Jaina writers like Mangarasa III (1509 A.D.), Salva (1550 A.D.) and Ratnakaravarni (1557 A.D.), also brought forth great literary writings. Particular mention has to be made of Ratnakaravarni's 'Bharatesavaibhava' composed in Sangatya metre, which is considered one among the greatest poems in Kannada. Kumara Vyasa, Chamarasa, Virupaksha Pandita, Lakshmisha, and Kumara Valimiki used 'Shatpadi' group of metres. "Tripadi" the most native of all Kannada metres, which is used even to this day, was also used by several Kannada poets like Nijaguna Shivayogi. But the most popular 'Tripadis' are those of Sarvagna, whose work is a veritable encyclopaedia.

Though the literary productions of this and the previous periods were stimulated by religious movements of the time, the Kannada poets then had amply shown a catholicity of outlook. Adikavi Pampa, Vachanakaras, Dasars, Sharnas and the rest had in one voice developed the attitude that humanity is one. The works were not only classical and popular literature but also on scientific and technical subjects.

Old Kannada (Palakannada) ceased to be a living language by about 1150 A.D., though it was being used by learned writers till about 1400 A.D. After that, more and more books started coming up in medieval Kannada—language of the people of the day—though Old Kannada was making its sporadic appearances now and then.

In the 17th century the Mysore Ruler Chikkadevaraja Wodeyar patronised the development of literature. Poets like Tirumalarya and Chikupadhyaya rendered Srivaishnava legends into Kannada. Sarvagna, the people's poet was the author of a large number of popular Tripadis. Shadakshari was also a famous poet of the century.

The 18th century is noted for the rise of 'Yakshaganas' with as settled technique of their own combining dialogue, music and dance.

However, with the fall of the Vijayanagara kingdom and the advent of the British, the literary movement in Karnataka got a severe setback. Karnataka was cut up into several divisions like Mysore Karnataka, Madras Karnataka, Hyderabad Karnataka, Bombay Karnataka, and Kannada regions in several smaller princely states. There was also a change in the educational system in the various areas, due to the introduction of English. However Mummadi Krishnaraja, Ruler of Mysore (1794 to 1868) was a great patron of arts and was himself a man of letters, credited with several writings

mostly in prose. Naturally prose writings started assuming prominence. The researches of Mr. B. L. Rice in Mysore resulted in the publication of *Epigraphia Carnatika*. In Madras Karnatak, missionary Scholars like Rieve and Rev. Kittel made a scientific study of Kannada language. There was slowly a transition from medieval to modern Kannada, in which Kempu Narayana's 'Mudramanjusha' (1823 A.D.) is a landmark. Basavappa Sastri translated Kalidasa's 'Shakuntala' and Shakespeare's 'Othello'. Other noted works of this period are Mulbagal's translation of 'Uttararamacharita' and Turmarifs version of Bana's 'Kadambari'. But the work that created history towards the end of the 19th century was Muddana's 'Ramashwamedha', a novel epic.

Between 1900 and 1920 A.D. can be seen the dawn of Modern Kannada, in the form of journalism, translation and adaptation. The foundation of the Kannada literary academy in 1914 was a prominent landmark during the period. After 1920, almost all forms of literary expression known to the modern world have been introduced in Kannada.

There has been marked achievements in the output of poetry with new metres and new themes. B. M. Srikantia's 'English Geetegalu' and his sweet rendering of several other English verses into Kannada, D. V. Gundappa's philosophical poem 'Vasanta Kusumanjali' and 'Mankuthimmana kagga'. Masti's (Srinivasa) 'Aruna', 'Binnaha', Panje Mangeshrao's 'South Wind' and the 'Song of Kodagas', Govind Pai's 'Nadadeepa', D. R. Bendre's (Ambikatanayadatta) 'Gari', 'Murthi', 'Nadaleela' and 'Sakhigeeta', Sali's 'Chitrasrashti', K. V. Puttappa's 'Men of Letters', 'Raktakshi', etc., V. Sitaramiah's 'Light and Shadow', 'Grapes and Pomegranates', Rajaratnam's 'Songs of Ratna', P. T. Narasimhachar's 'Mango Foliage', Madhurchanna's 'My Lover', Gokak's 'Kalopasaka', Mugali's 'Basinga', Diwakar's commentaries on the 'Gita' and 'Upanishads' are just a few of several works in the fields of lyrics. The output has also variety. Sri is a master of 'Ode' in Kannada; Masti is known for blank verse; Govind Pai is a neo-classicist in song; Panje Mangeshrao is known by the lyric movement; K. V. Puttappa is known for his derivative poetry; Bendre is famous for his sonnets; Vinayaka for his free verse and Rajaratnam for his colloquial lyric.

In the field of novels, M. S. Puttanna, Galaganath, Kerur with his 'Indira' and 'Yadumaharaja', A. N. Krishna Rao's 'Sandhyaraga', Gokak's 'Ijjodu', Karanth's 'Deva Dutaru', Devudu's 'Antaranga', Mugali's 'Baluri' and 'Karna Purusha', Adya's 'Vishwamitra Srishti', Puttappa's 'Subbamma', Inamdar's 'Murabatte', Kattimani's 'Madi Madidavaru', Masti's 'Channabasava Nayaka', Beechi's 'Dasakuta' and several others have brought forth excellent novels.

Bendre, Kerur, Panje, and Masti have achieved fame in short stories. Among women short story writers, Gaouramma, Kalyanamma, Shyamala, Smt. Karanth, Jayalakshmi Srinivasan and others are noted. Some of the other short story writers are Ananda, Anandkanda, Gorur Ramaswami, Krishnakumara, A. N. Krishna Rao and Tengse.

In the field of dramas, Yakshaganas maintained the dramatic and historic traditions. Then in response to the demands of the popular theatre, legendary plays like Garuda Sadasiva Rao's 'Paduka Pattabhisheka', 'Choutichandra', 'Venkataramiah's 'Mandodari', Kadengodlu's 'Hidimbe', Sitaramiah's 'Sohrab and Rustum', Joshi's 'Rajavallabha', Historical plays like D. V. Gundappa's 'Vidyaranya', Masti's 'Talikote', Samsa's 'Vigada Vikramaraya', Social plays like Kundgol's 'Shikshana Sambhrama', Bendre's 'Tirukara Pidugu' etc., came to be written. But the most famous among the playwrights was T. P. Kailasam, whose plays can be compared with the best in any language. His stay in England, gave his plays a highly modernised technique. In all his writings we find a subtle blending of satire and humour, of realism and idealism, of lyric and dramatic movement. In fact it can be rightly said that the Kannada social play began with him. His plays 'Tollu Gatti', 'Poli Kitti', 'Home Rule',, etc., are real masterpieces. Another leading dramatist is Adya whose social plays 'Harijanwara', 'Daridra Narayana', 'Vaidya Raja', are noted for their satire. There are several other types of plays like verse plays, blank verse plays, song plays, etc., in Kannada.

Essays, Biographies and Autobiographies have also made their mark in modern Kannada literature.

Though it cannot be claimed that modern Kannada literature has carried sensation into the heart of all knowledge, the brief survey clearly shows that Kannada has a long and rich literary heritage and that a new literature is sprouting on the old traditional foundations. In the beginning, Sanskrit and Prakrit literature served as a model for Kannada, but as Kannada literature developed, important innovations started creeping in. Kannada has also to a certain extent

contributed towards the development of Sanskrit. Unlike the Sanskrit literature, a mixture of prose and verse known as 'Champu' form of composition prevailed in Kannada and this was later adopted in Sanskrit too. So also the 'Vachana' style is a characteristic prose pattern of Kannada literature. The poetical forms of composition in the various Kannada meters like 'Ragale', 'Shatpadi', 'Sangatya' and 'Tripadi' are peculiar to Kannada only. Even though most of the themes in old Kannada literature have drawn their inspiration from mythology, epic, history, etc., several Kannada writers have impregnated their own ideas in their works.

There is also an abundant variety of Kannada folk songs and ballads, many of them being quite humorous even when conveying a moral. Several of the writings also are rich with patriotic feelings.

7. Journalism

Mysore saw the first printing press in 1850, started by Rev. J. Garret of Wesleyan Mission to propagate his missionary ideals. The first newspaper to be started in the State was 'Kasim-Ul Akbar' in Hindi in 1863 and the first Kannada newspaper was 'Karnataka Prakashika' published in 1865 as a weekly. Then in 1866, the Government of Mysore published an Anglo-Kannada weekly, 'The Mysore Gazette' under the editorship of L. Rickett. In 1874, the Kannada Prakashika was revived as a Kannada-English weekly The first Kannada monthly to be started was 'Hitabodhini' from Mysore in 1881. The first Kannada daily was 'Suryodaya Prakashika' founded in 1881. In 1900 Yajaman Veerabasappa founded a Kannada weekly by name 'Mysore Star'.

After the transfer of the administration in Mysore by the British to the Hereditary rulers in 1881, the Kannada Press got a new impetus. Public spirited men like 'Vriddhapitamaha' M. Venkatakrishniah started his Kannada weekly 'Vrittanta Chintamani' in 1885, to work for the national and democratic ideals. 'Kannada Nadegannadi' was started by the brothers M. Gopala Iyengar and M. Srinivasa Iyengar in 1895. However the Press Act of 1908 not only put an end to the publication of Nadegannadi but also the editor was deported from the State. In 1910, Venkatakrishnaiah started a weekly 'Sadhvi' at Mysore. The weekly 'Bharati' of Navaratna Krishnaswamy, started in 1907, had also a very short span of life due to the Press Act of 1908.

But in 1910, the Kannada Press entered a new era when a number of dailies, weeklies and monthlies were started. Tirumale Thathacharya Sharma established 'Vishwa Karnataka', both as a daily and a weekly, to uphold the high traditions of nationalist journalism. However, in 1944, Government banned its publication for an alleged seditious editorial and an open letter to the Viceroy. However, it was restarted in 1947.

A special feature of the Kannada Press is the rise of 'The one man' papers wherein the roles of manager, editor, compositor, etc., are all combined in one person and they are also priced low. They have a mainly local appeal.

Other Kannada dailies of to-day are Janavani, Prajavani, Tainadu, and several others. Among weeklies are Prajamata, Janapragati, Chitragupta and many more.

Special mention has to be made of Sri D. V. Gundappa a linguist and journalist of renown, who has started the "Gokhale Institute of Public Affairs" and to propagate the ideals of the Institute has started a monthly bi-lingual journal by name "Public Affairs" in which both national and international affairs are discussed in both English and Kannada.

In Bombay Karnataka "Hitechhu" was the first newspaper to be started. It was published from Kaladgi in 1870. By 1880, three newspapers, *viz.*, "Vijaya", "Rajahamsa" and "Karnataka" started in Dharwar. So also there were three published from Belgaum. Manadakatte Kalyanappa and Vibhuti Hucchaiah started two monthlies "Chandrodaya" and "Pushpamallika" in Dharwar. In 1884, Desai Sheenappa started "Karnataka Patra", a weekly. In 1885 a number of weeklies were started, chief of which were "Lokashikshana", "Karnatakavritti", "Lokabandhu", "Rajahamsa" and "Dhananjaya". Mention has to be made of Mudaveedu Krishna Rao, and other journalists of those days of national upsurge for their unqualified patriotism. Kerur Vasudevacharya was responsible for two weeklies—"Kannada Kesari" and "Sachitra Bharata" from Hubli and one 'Shubhodaya" from Dharwar.

1922 saw the birth of "Karmaveera" started by Kabbur Madhva Rao, Hukkerikar Ramarao, and Ranganatha Diwakar. Then Samyukta Karnataka was started by them. The People's Education Trust of which Diwakar is the sole trustee, owns both of them. They have started a monthly by name "Kasturi" also.

Alur Venkatarao, Vamanarao Desai, Hanumantharao Moharay, Naik are all associated with these publications.

After independence, several other newspapers have started. " Navayuga " edited by Shri T. R. Neswi and " Vishalakarnataka " edited by H. R. Itgi. " Prapancha ", a weekly and " Vishwawani ", a daily edited by Patil Puttappa are some of them worth mentioning.

From Hyderabad Karnataka area, ' Hyderabad Samachar ' and ' Sadhana ' are among those published. Coorg has ' Kodugu Vrittanta '.

In South Kanara, " Kannada Samachara " a monthly started in 1842, by the Basel Mission was the first work. This was followed by " Kannada Vartika ", in 1857, " Krista Sabhapatra " in 1869, Satya Deepike in 1896, ' Vajdika Mitra ' in 1910, ' Suvarta Prasaraka ' in 1922 and ' Krista Hitavadi ' in 1924. They were generally devoted to discussion of Christianity. In 1887, ' Sudarshana ' a monthly was published from Udipi. The Basel Mission published ' Satya Deepike ' in 1896. Sri Panje Mangeshrao contributed several essays to it. Sri Bolar Vithal Rao published " Suvasini " in 1900. In 1907, Sri V. S. Kamath started " Swadeshabhimani ". In 1919, Sri B. Vithal Rao started ' Kantheerava ' with which Shri Hurali Bhima Rao was associated. Shri A. B. Shetty started ' Navayuga ' at Udipi in 1921. In 1928, a leading weekly ' Rashtra Bandhu ' was started. ' Prabhat ' a weekly was started in 1928 by Shri Sehnoy, K.V.

As a reaction to the evangelistic zeal of the Christian missionaries, several periodicals of other faiths like Krishna Sukti (1905), Jains Bandhu (1913), ' Bhakti Sandesha ' (1918), ' Veda Sandesha ' (1926), ' Sadguru Padaseve ' (1926), ' Sidharama Pracharike ' ' Sri Krishnasandesha ' (1938), ' Viveka-Abhudya ' (1941), and ' Paryaya Prakashini (1942) were started.

Among the magazines mainly devoted to literary subjects ' Ananda ' (1916), ' Kannada Kogile ' (1916), ' Vasantha ' (1923), ' Karnataka Kesari ' (1928), ' Sahitya ' (1929), ' Kalachandra ' (1935), 'Triveni ' and ' Pravasi ' (1936), ' Jayakarnataka ' are some.

Dr. Bharadwaja's ' Tilaka Sandesh ' (1919), Sri H. R. Mallya's ' Satyagrahi ' (1921), ' Swadeshi Pracharika ' (1934) and ' Desha Bhakta ' (1940) dealt mainly with politics.

' Nava Bharata ' a daily started in 1941 by Sri V. S. Kudva is one of the leading dailies.

In 1915, Sri Karanth brought out ' Bodhini ' and this was followed by Panje Mangeshrao's ' Balachandra' (1932) and Mukundarao's ' Vidyodaya '. They were all magazines devoted to education. Shivarama Karantha's ' Bala Prapancha ' an Encyclopeadia in Kannada, in magazine form was being published in parts, was very popular. Molahalli Shiva Rao published a journal ' Sahakari ' (1919) or Co-operation movement.

After the attainment of independence, several newspapers and journals have not only appeared on the scene but also have made a marked progress.

Udayachandra (1947), Sarvodaya (1949), Sangathi (1948), Vicharavani (1950), Shanti-Sandesha (1952), Samachara (1953), Rashtramata (1953), Janapremi (1954), Samajwadi (1955), Dhingaya (1954), Kaliyuga (1954), Prakasha, Raybhari (1952), Sandhyadeepa (1954) are some of those started recently.

There are a number of journals in Konkani and English also. South Kanara has produced a number of able journalists, among whom the name of Sri B. Shiva Rao is worth mentioning.

Though Karnataka started its journalism seven or eight decades after the first newspaper of India was born near Calcutta in 1780, the State's march towards progress in this field is quite noteworthy. It is true that many of the newspapers and journals of old listed above are no more seeing the light of the day. Even then, there are several other current newspapers and journals which have not figured in this survey, brief, it being.
