1981 CENSUS PUBLICATION PROGRAMME

KERALA STATE

Paper/Part number	*Title and subject matter*
Paper 1 of 1981	Provisional Population Totals
Paper 2 of 1981	Rural-urban Composition (Provisional Totals) Workers and Non-workers (Provisional Totals) Disabled persons
Paper 3 of 1981	Final Population Totals
Paper 4 of 1981	Primary Census Abstract for Scheduled Castes and Scheduled Tribes
Paper 5 of 1981	Final Totals of workers and non-workers
Part I	Administration Report—Enumeration and Tabulation (Not for sale). (For office use only)
Part II–A	General Population Tables (A–Series—Tables A–1 to A–5)
Part II–B	Primary Census Abstract
Part III–A & B (i)	General Economic Tables (B–Series—Tables B–1 to B–8 & B-11 to B-17)
Part III–A & B (ii)	General Economic Tables (B—Series—Tables B–18 to B–20)
Part III A&B (iii)	General Economic Tables (B—Series—Tables B 21&B 22)
Part IV–A	Social and Cultural Tables (C–Series—Tables C–1 to C–6)
Part V–A & B	Migration Tables (D–Series—Tables D–1 to D–8, D-13 & D-15)
Part VI–A & B	Fertility Tables (F–Series—Tables F–1 to F–27)
Part VII	Houses and Disabled population — Report and Tables (H–Series—Tables H–1 and H–2)
Part VIII–A & B	Household Tables (HH–Series—Tables HH–1 to HH 9, HH 11, HH 12 & HH 17)
Part IX	Special tables on Scheduled Castes and Scheduled Tribes (SC–Series—Tables SC–1 to SC–6; ST–Series—Tables ST–1 to ST–9)
Part X–A	State Town Directory
Part X–B	Survey Reports on selected towns
Part X–C	Survey Reports on selected villages
Part XI	Ethnographic Notes and special studies on Scheduled Castes and Scheduled Tribes
Part XII	State Census Atlas
Part XIII–A & B	District Census Handbooks—One volume for each district (Village & Town Directories and Primary Census Abstract)

FOREWORD TO THE D.C.H. SERIES

The District Census Handbook (DCH), compiled by the Census Organization on behalf of the State Governments, is one of the most valuable products of the census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The District Census Handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and ward-wise for each city or town. It also provides data on infrastructure and amenities in villages and towns etc.

The District Census Handbook series was initiated during the 1951 census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part–A related to village and town directory, Part–B to village and town PCA and Part–C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States Part–C was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series, some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the village in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in Statement V are also

added *inter alia* with this view. A significant addition is class of town in all the six statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 census.

In order to avoid delay in publication of 1981 DCH series, it has been so designed that Part–A of the volume contains village and town directory and Part–B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tehsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and tehsil/police station/CD block etc. level maps depicting the boundaries and other important features have been inserted at appropriate places to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the state under the direction of Sri. M. Vijayanunni, Director of Census Operations, Kerala on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office, Dr. B.K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M.M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA,

New Delhi

Registrar General and Census Commissioner, India.

PREFACE TO THE D. C. H. SERIES

The District Census Handbooks (DCH) constitute an important set of census publications brought out by the census organization which are widely made use of by the state government and its district-level and lower officials for planning, development and administration purposes as well as by a large cross-section of data users like academicians, scholars, researchers and other non-governmental agencies.

This volume presents the Village and Town Directories under Part A and the Primary Census Abstract under Part B. The Village Directory gives for each village the area, population, educational, medical, civic and other amenities and land use. The Town Directory gives for each town the area, population characteristics, physical aspects, communications, municipal finance, educational, medical, civic and other amenities and trade, commerce, industry and banking facilities. The Primary Census Abstract presents certain other basic data like number of residential houses and households, literates, scheduled caste and tribe population, workers by main categories, marginal workers and non-workers.

The data presented under Village and Town Directories were furnished by the Village officers through the Tahsildars in respect of rural villages and by the Commissioners or Executive officers concerned in respect of urban areas respectively. The data presented under Primary Census Abstract were collected during the census operations by the census field organization consisting of enumerators, supervisors, charge officers and district census officers. Thanks are due to all these field officials who have provided the basic data required for the compilation of this volume.

The preparation of the statements and tables for this volume was undertaken in the Census Directorate of Kerala, Trivandrum by M. K. Vilasini, Statistical Assistant and M. Parvathi Ammal, P.Rahima Beevi, S.Radhamoni and B.Prasannakumari, Computors under the guidance of Smt. P.M.Rugmini Amma, Investigator. A. Sadasivan Achari, V. Thulaseedharan and Michael Gomez, Draughtsmen and S. Krishna Pillai, Artist drew the maps and art work. C. Sarojini Amma, U. D. Clerk typed the manuscript and M. P. Raghunathan, Printing Inspector attended to the printing aspects. Shri K. Gopinathan I, Assistant Director wrote the preliminary draft and S. Jayashanker, Assistant Director prepared the final draft and attended to the production of the volume at all stages. I record my appreciation for the painstaking and dedicated services rendered by all my colleagues in giving shape to this volume.

While the collection and tabulation of data and the designing, compilation and production of these District Census Handbook volumes were undertaken by the Census Department at its own expenses, in keeping with the past practice, the state government agreed to bear the cost of printing which is only appropriate since the state government departments and offices are the major users of these handbooks and the bulk of the copies are made available to them free of cost. It is hoped that all data-users will find the format and contents of the 1981 DCH series convenient and useful.

M. VIJAYANUNNI,
Director of Census Operations, Kerala.

Trivandrum.

105/490—2

REFERENCE DATES ADOPTED FOR THIS VOLUME

The Village Directory and Town Directory data were gathered as on 1st October, 1979 and hence relate to the position as on that date. The Primary Census Abstract (PCA) data and general statistics were collected during the census operations as on 1st March, 1981 ,which was the reference date for the 1981 census and hence this volume presents census and statistical data on the district, taluks, villages, towns, panchayats and development blocks as per their jurisdiction on 1st March, 1981 without reference to the subsequent changes, if any, in the jurisdiction of these units. How-ever, if changes in jurisdiction had occurred in the case of any unit during the period after 1st March, 1981, an indication to that effect has been given, for information, against the administrative units concerned which have undergone changes.

ANALYTICAL NOTE

GENERAL

Evolution and scope of the District Census Handbook

The District Census Handbook was introduced for the first time in the 1951 census. The lay-out of the volume comprised of a short account of the district and the people, important census tables, rural statistics and urban statistics separately covering details of area, houses, population, number of literates, distribution of livelihood classes, the number of institutions; and general information on amenities etc. in respect of each village. The data for the area forming part of the present Kerala State were included in the District Census Handbooks of South Kanara and Malabar of Madras State and in the District Census Handbooks for the districts of Trichur, Kottayam, Quilon and Trivandrum of the erstwhile Travancore–Cochin State.

2. A detailed procedure was adopted for the preparation of the District Census Handbooks in the 1961 census. The District Census Handbook was divided into three parts viz. Part–A dealing with the general description of the district, progress made during the last decade, review of population, literacy, employment, unemployment, household economic data and gazetteer; Part–B covering census tables; and Part–C consisting of Village and Town Directory showing the amenities, Primary Census Abstract (PCA) and the number of industrial establishments according to type. At the time of the 1961 census, there were 9 districts in the state viz. Cannanore, Kozhikode, Palghat, Trichur, Ernakulam, Kottayam, Alleppey, Quilon and Trivandrum and for each district a separate volume was published.

3. In the 1971 census, the content of District Census Handbook was modified. It comprised of three parts-Part–A comprising of the Town and Village Directory, Part–B Village and Town Primary Census Abstract and Part–C Census tables. Of these, Parts A and B were combined and published as one volume and Part–C as another volume. The presentation of Panchayat and Community Development Block PCA was a special feature of the DCH of 1971. There were 10 districts (Cannanore, Kozhikode, Malappuram, Palghat, Trichur Ernakulam, Kottayam, Alleppey, Quilon and Trivandrum) at the time of the 1971 census (ie. 1st April 1971). On 26th January 1972, a new district, Idukki, was formed carving out portions of Ernakulam and Kottayam districts. To cater the needs of the data users, a special volume on Idukki was also published subsequently.

4. In the 1981 census, the District Census Handbook for each district is brought out in one volume comprised of two parts–Part–A Village and Town Directory and Part–B Primary Census Abstract. At the outset, an analytical note is given which depicts a general background on the district and the analytical results on the statements and tables included in the volume. It is hoped to serve as a useful reference book for administrators, planners and scholars.

Village Directory

5. The Village Directory included in this volume gives the amenities available in each village in respect of educational, medical, drinking water, markets, power supply, post and telegraph, communications, approach to villages, places of archaeological and religious interest and distribution of land use area. A consolidated abstract of all these amenities for each taluk is presented as an Appendix in Section I. Land utilisation data in respect of census towns (villages), list of villages where no amenities are available and taluk-wise list of villages according to the proportion of SC/ST population by ranges are the other appendices included in Section I.

6. The amenities available in the rural areas of the district are presented in the Village Directory. If an amenity is not available in the referent village, the distance, in broad ranges, from the nearest place where the amenity is available is given. The re-structuring of the formats for the 1981 District Census Handbook is intended to incorporate more data on infrastructural aspects in relation to amenities useful for rural planning. Some new items of information such as adult literacy centres, primary health sub-centres etc. have been added in the present volume as compared to 1971.

Town Directory

7. The Town Directory data are presented in six statements in which the towns are arranged in alphabetical order within the district. These statements include status of towns (ie. corporation, municipal, cantonment, township, non-municipal), population for the period 1901 to 1981, physical aspects, location, municipal finance, civic and other amenities, educational, medical, recreational and cultural facilities and trade, commerce, industry and banking etc.

8. Part–B consists of the Primary Census Abstract (PCA). PCA comprises of basic population data (ie. population, number of SC and ST, literates, workers and their categories and non-workers) upto the level of desom for rural areas and wards for census towns. Another salient feature of the 1981 census is the introduction of an additional PCA on Scheduled Castes and Scheduled Tribes. In addition, the Community Development Block and Panchayat PCA are also presented in the DCH volumes of Kerala.

Census Concepts

RURAL-URBAN AREAS

9. The classification of rural and urban areas adopted in census is as follows. Urban areas comprise of statutory towns and non-municipal towns (census towns). It may, however, be noted that

Panchayats include non-municipal towns also. The concepts of urban and rural adopted in the 1981 census are given below:

URBAN

(i) *Statutory towns*—all places with local authority like corporations, municipalities, cantonments, notified town areas etc. irrespective of whether they satisfy the criterion laid down under item (ii) below:

(ii) *Census towns*—all other places which satisfy the following criteria:

(a) A minimum population of 5,000;

(b) A density of population of at least 400 per sq. km. (1000 per sq. mile) and

(c) At least 75 per cent of the male working population engaged in non-agricultural pursuits.

10. Accordingly, in the 1981 census in Kerala, all statutory towns were treated as towns irrespective of whether they satisfied the three-fold criteria or not. The criteria were then strictly applied to all revenue villages based on the 1971 census data and all villages which satisfied the criteria were treated as Census Towns. Census Towns (Non-Municipal Towns) are places treated as towns only for the purpose of Census. In the present census, industrial category III comprising of activities like fishing, livestock, hunting, plantations and orchards etc. was treated as allied agricultural activity and was not treated as a non-agricultural occupation for the purpose of the third criterion mentioned above. Thus, the third criterion was calculated with reference to the figures for working categories IV to IX given in the Primary Census Abstract of the 1971 Census.

RURAL

11. It is rather difficult to give a precise definition for rural area. The urban areas were defined in each census and all the residuary portion is treated as rural. Since varying definitions were followed for urban areas in each census, the composition of rural areas also varied from census to census.

URBAN AGGLOMERATION

12. The concept of urban agglomerations adopted for the first time in the 1971 census was an improvement of the concept of *town group* adopted in the 1961 census. The same urban agglomeration concept has been continued in the 1981 census. An Urban Agglomeration is a continuous urban spread consisting of a town and its adjoining urban outgrowths or two or more physically contiguous towns together with continuous well-recognized urban outgrowths, if any, of such towns. For example, around a core city or statutory town there might have come up sizable and well-established urban appendages like railway colonies, university campuses, ports, military camps etc. which are part of a continuous urban spread though outside the statutory limits of the core city or town. While such outgrowths, will fall in the adjoining revenue village, it will not be realistic to treat such urban outgrowths as rural units. At the same time, each such individual area by itself may not satisfy the minimum population limit to qualify to be treated as an independent urban unit. Such areas deserve to be reckoned along with the core town and the continuous urban spread including the core town and such urban outgrowths are treated as an urban agglomeration. The constituents of an urban agglomeration should satisfy the conditions of urbanisation, contiguity and viability. These are the general principles based on which urban agglomerations are formed.

13. The following are the possible different situations in which urban agglomerations would be constituted:

(i) A city or town with a continuous growth which is outside the statutory town limits but coming within the boundaries of the adjoining village or villages.

(ii) Two or more adjoining towns with their outgrowths.

(iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

14. The area constituting an urban agglomeration may keep on changing from census to census depending upon the changing boundaries of the statutorily notified main urban unit as well as the extent of other urban outgrowths. However, only those which are actually contiguous are treated as part of an agglomeration and not areas which are not contiguous now but which are expected to form a continuous urban spread some time in the future. The intention in delineating the urban agglomeration is to take into account the present urban spread only. (The potentiality of development of urban growth in the next decade or two is covered separately under the concept of *Standard Urban Area*)

15. Urban Agglomerations were formed for the first time in Kerala in the 1981 census. The two urban agglomerations of the district are Guruvayur and Trichur.

STANDARD URBAN AREA

16. Another concept developed in the 1971 census for tabulation of census data was that of the standard urban area. The essential requirements of a Standard Urban Area are:

(i) it should have a core town of a minimum population size of 50,000;

(ii) the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town, and

(iii) the probabilities are that this entire area will get fully urbanized in a period of two to three decades.

The intention was if data for the standard urban area were to be made available upto 1991, it is likely to yield much more reliable and meaningful picture to study urbanization around large urban nuclei. In the 1971 census, 13 standard urban areas were formed in the State. All these SUAs continued in the 1981 census. Details of SUA are available in Part II A- General Population Tables.

CENSUS HOUSE

17. A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

HOUSEHOLD

18. A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called 'Institutional households.' There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as a 'household.'

Scheduled Castes and Scheduled Tribes

19. The 1956 order was amended by the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976 (No. 108 of 1976) and it was this revised list which was adopted in the 1981 census. The revised list is given below:

SCHEDULED CASTES

1 · Adi Andhra (ആദി ആന്ധ്ര)
2 · Adi Dravida (ആദി ദ്രാവിഡാ)
3 · Adi Karnataka (ആദി കർണ്ണാടക)
4 · Ajila (അജീല)
5 · Arunthathiyar (അരുന്ധതിയാർ)
6 · Ayyanavar (അയ്യനവർ)
7 · Baira (ബൈറാ)
8 · Bakuda (ബകുഡ)
9 · Bandi (ബാൻഡി)
10 · Bathada (ബതഡ)
11 · Bellara (ബല്ലാറാ)
12 · Bharatar (ഭരതർ)
13 · Boyan (ബോയൻ) (excluding the areas comprising the Malabar district as specified by sub-section (2) of section 5 of the States Reorganisation Act, 1956 (37 of 1956)
14. Chakkilliyan (ചക്കിലിയൻ)
15 · Chamar, Muchi (ചാമർ, മുച്ചി)
16 · Chandala (ചണ്ഡാല)
17 · Cheruman (ചെറുമൻ)
18 · Domban (ഡോംബൻ)
19 · Gavara (ഗവാറാ)
20 · Godagali (ഗൊഡഗാളി)
21 · Godda (ഗൊഡ്ഡാ)
22 · Gosangi (ഗോസാംഗി)
23 · Hasla (ഹഡ്ല)
24 · Holeya (ഹോളയ)
25 · Kadaiyan (കടൈയൻ)
26 · Kakkalan (കക്കാലൻ)
27 · Kalladi (കല്ലാടി)
28 · Kanakkan, Padanna (കണക്കൻ, പടന്ന)
29 · Karimpalan (കരിംപാലൻ)
30 · Kavara (കവാറാ)
31 · Koosa (കൂസാ)
32 · Kootan, Koodan (കൂടൻ, കൂഡൻ)
33 · Kudumban (കുടുംബൻ)
34 · Kuravan, Sidhanar (കുറവൻ, സിദ്ധനർ)
35 · Maila (മൈല)
36 · Malayan (മലയൻ) (in the areas comprising the Malabar district as specified by sub-section (2) of section 5 of the States Reorganisation Act, 1956 (37 of 1956)
37 · Mannan (മന്നാൻ)
38. Mavilan (മാവിലൻ)
39 · Moger (മോഗർ)
40 · Mundala (മുണ്ടാല)
41 · Nalkeyava (നാളകേയവ)
42 · Nalkadaya (നൽക്കടയ)
43 · Nayadi (നായാടി)
44 · Padannan (പടന്നൻ)
45 · Pallan (പള്ളൻ)
46 · Palluvan (പള്ളുവൻ)
47 · Pambada (പംബാട)
48 · Panan (പാണൻ)
49 · Panchama (പഞ്ചമ)
50 · Paraiyan, Parayan, Sambavar (പറൈയൻ, പറയൻ, സാംബവർ)
51 · Paravan (പരവൻ)
52 · Pathiyan (പതിയൻ)
53 · Perumannan (പെരുമന്നാൻ)
54 · Pulayan, Cheramar (പുലയൻ, ചേരമർ)
55 · Pulaya Vettuvan (പുലയ വേട്ടുവൻ)
56 · Puthirai Vannan (പുതിരൈ വന്നാൻ)
57 · Raneyar (റണെയർ)
58 · Samagara (സമഗാര)
59 · Samban (സാംബൻ)
60 · Semman (സെമ്മാൻ)
61 · Thandan (തണ്ടാൻ)
62 · Thoti (തോട്ടി)
63 · Vallon (വള്ളോൻ)
64 · Valluvan (വള്ളുവൻ)
65 · Vannan (വണ്ണാൻ)
66 · Velan (വേലൻ)
67 · Vetan (വേടൻ)
68 · Vettuvan (വേട്ടുവൻ)

SCHEDULED TRIBES

1 · Adiyan (അടിയാൻ)
2 · Arandan (അരണ്ടൻ)
3 · Eravallan (ഇരവാലൻ)
4 · Hill Pulaya (ഹിൽപുലയൻ)
5 · Irular, Irulan (ഇരുളർ, ഇരുളൻ)
6 · Kadar (കാടർ)
7 · Kammara (കമ്മാറാ) (in the areas comprising the Malabar district as specified by sub-section (2) of section 5 of the States Reorganisation Act, 1956 (37 of 1956)
8 · Kanikaran, Kanikkar (കാണിക്കാരൻ, കാണിക്കാർ)

106/490—10

9 · Kattunayakan (കാട്ടുനായിക്കൻ)
10 · Kochu Velan (കൊച്ചുവേലൻ)
11 · Konda Kapus (കൊണ്ടകപ്പുസ്)
12 · Kondareddis (കൊണ്ടറെഡ്ഡി)
13 · Koraga (കൊരഗ)
14 · Kota (കൊടോ)
15 · Kudiya, Melakudi (കുടിയ, മേലക്കുടി)
16 · Kurichiyan (കുറിച്ചിയൻ)
17 · Kurumans (കുറുമൻ)
18 · Kurumbas (കുറുംബൻ)
19 · Maha Malasar (മഹാമലസർ)
20 · Malai Arayan (മല അരയൻ)
21 · Malai Pandaram (മലപണ്ടാരം)
22 · Malai Vedan (മലവേടൻ)
23 · Malakkuravan (മലക്കുറവൻ)
24 · Malasar (മലസർ)
25 · Malayan (മലയൻ) (excluding the areas comprising the Malabar district as specified by sub-section (2) of section 5 of the States Re-organisation Act, 1956 (37 of 1956)
26 · Malayarayar (മലഅരയർ)
27 · Mannan (മന്നാൻ)
28 · Marati (മാറാട്ടി) (in Hosdurg and Kasaragod taluks of Cannanore district)
29 · Muthuvan (മുതുവാൻ) Mudugar, Muduvan (മുഡുഗർ, മുഡുവൻ)
30 · Palleyan (പള്ളെയൻ)
31 · Palliyan (പള്ളിയൻ)
32 · Palliyar (പണിയാർ)
33 · Paniyan (പണിയൻ)
34 · Ulladan (ഉള്ളാടൻ)
35 · Uraly (ഊരാളി)

20. Substantial changes have occurred in the 1981 list as compared to the 1971 list by way of addition of new castes/tribes which satisfy the prescribed criteria, deletion of certain castes/tribes which do not satisfy the criteria, transfer from the caste list to the tribe list and *vice versa*, removal of area restrictions etc. The following are the changes between the lists adopted in the 1971 census and 1981 census.

(i) 7 Scheduled Castes (Boyan, Chakkiliyan, Kuravan or Sidhanar, Nayadi, Pallan, Paraiyan, Parayan or Sambavar and Valluvan) and 6 Scheduled Tribes (Irular or Irulan, Kadar, Kammara, Malayan, Marati and Muthuvan or Mudugar or Muduvan) have no change in the areal restrictions from 1971 to 1981 while the remaining 61 Scheduled Castes and 29 Scheduled Tribes have undergone changes in areal jurisdiction as per the revised list.

(ii) In the lists of SC and ST adopted in the 1971 census, 'Ulladan' was a Scheduled Caste and 'Ulladan (Hill dwellers)' was a Scheduled Tribe. As per the revised list, Ulladan has been deleted from the SC list and the name of the tribe 'Ulladan (Hill dwellers)' has been changed as 'Ulladan.'

(iii) Uraly was a Scheduled Caste as well as a Scheduled Tribe in 1971. But Uraly has now been deleted from the list of SC and retained only under ST.

(iv) 2 Scheduled Tribes viz. Malayekandi and Vishavan which had no population in 1971 have now been deleted from the list of ST.

(v) While 'Pulayans' came under both SC and ST in 1971, they no longer come under ST as per the 1976 revised list and are only SC.

21. On a comparison of the figures of SC and ST for 1971 with those of 1981, it can be seen that the deletion of Pulayan from the list of Scheduled Tribes and the removal of the area restriction for Pulayan under SC have resulted in a substantial fall in the ST population and increase in the SC population in the State, especially in the erstwhile Malabar region.

Literacy

22. A person who can both read and write with understanding in any language was taken as a literate. A person could merely read but could not write was not a literate. It was also not necessary that a person who was a literate should have received any formal education or should have passed any minimum educational standard. All children below the age of 4 years or less were treated as illiterates, even if they are school-going children and might have picked up reading and writing a few odd words.

Economic questions in the 1981 census

(a) Questions in the Individual Slip (Universal)

23. Following are the economic questions in the Individual Slip (Universal) which were canvassed in all areas and filled up for all individuals at the time of the 1981 census.

Q.14A. Worked any time at all last year?

Yes

No (H/ST/R/D/B/I/O)

Q.14B. If yes in 14A, did you work for major part of last year? Yes (1) /No (2)

Q.15A. Main activity last year?

Yes in 14B (C/AL/HHI/OW)

No in 14B (H/ST/D/R/B/I/O)

If HHI/OW in 15A

(i) Name of establishment
(ii) Description of work
(iii) Nature of industry, trade or service
(iv) Class of worker

Q.15B. 14B Yes—Any other work any time last year?

Yes (C/AL/HHI/OW)/No

14B No—Work done any time last year? (C/AL/HHI/OW)

If HHI/OW in 15B

(i) Name of establishment
(ii) Description of work
(iii) Nature of industry, trade or service
(iv) Class of worker

Q.16. If No in 14A or 14B, seeking/available for work?
Yes (1)/No(2)

(b) QUESTIONS AND THEIR IMPLICATIONS

24. The first question 14A in 1981 is intended to divide the population into two basic streams based on a liberal definition of work. Work was defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involved not only actual work but also effective supervision of work. The reference period was the preceding one year. Question 14A was intended to find out whether a person had done any work at all during the last year or whether he did not work at all and if it was the latter, how the person spent his time as a non-worker. The question was expected to net all workers irrespective of the quantum of their contribution to economic activity. In other words, full-time workers, part-time workers and marginal workers were netted by this question. This question also gave the number of persons who belong to the non-worker category of H (Household duties), ST (Students), D (Dependents), R (Retired or rentier persons), B(Beggars, vagrants etc.), I (Inmates of institutions) and O(Other non-workers) recorded in Question 14A, to ascertain whether the person had worked for the major part of the year. All persons who had worked for 183 days or six months or more were treated as having worked for the major part of the year. Question 15A was intended to elicit information on the details of the main activity (working or non-working) in which he was engaged during the major part of the year. In Q.15B, details of secondary work, if any, for workers (Yes in 14B) and marginal work for all persons did not work for the major part (No in 14B) were collected. Q.16 ie. 'seeking work or available for work' was asked of all persons who had no work at all for the entire year (No in Q. 14A) and no work during major part of the year (No in 14B). In order of the questions was designed after a pilot study (in 1978) and two pretests (in 1978 and 1979), the intention being to net all full-time workers, marginal workers, persons having secondary work and persons seeking or available for work.

25. The concepts of main workers, marginal workers and non-workers are briefly indicated below:

(i) *Main workers*:— The main workers are those who have worked for major part of the year preceding the enumeration. In other words, those for whom the answer would have been 'Yes' in Q.14A and 'Yes (1)'in Q.14B of the Individual Slip (Universal) are categorised as main workers. Workers are further divided into cultivators, agricultural labourers, those engaged in household industry and other workers based on the information available in Q. 15A.

(ii) *Marginal workers*:—Marginal workers are those who have worked any time at all in the year preceding the enumeration but have not worked for the major part of the year. In other words marginal workers would be those for whom the entry in Q. 14A of the Individual Slip (Universal) is 'Yes' and the entry in Q. 14B of the slip is 'No(2)' The type of the work in which the marginal workers were engaged is collected through Q. 15B of the Individual Slip (Universal) but at this stage data on such marginal workers have not been generated.

(iii) *Non-workers*: — Non-workers are those for whom the answer is 'No' in Q.14A of the Individual Slip (Universal). They are persons who have not worked any time at all in the year preceding the enumeration period.

(iv) *Work-participation rate*:—The term 'work-participation rate' used in this census refers to the proportion of workers to total population and *not* the proportion of the labour force to total population, though the latter is often the conventional usage. This distinction has to be noted while referring to the figures given in this volume. Again, as per the definitions of main workers, marginal workers and non-workers, these are exclusive categories and hence if the number under the 3 categories are added together one will arrive at the total population itself.

(c) RELATIONSHIP WITH THE INDUSTRIAL CATEGORIES ADOPTED IN THE 1981 AND 1971 CENSUSES.

26. The correspondence of the respective categories of workers in the 1981 and 1971 censuses for the presentation of PCA in the 1971 census are given below:

1981 *Census*	*Related industrial category adopted in the* 1971 *census*	
Cultivator (C)	Category	I
Agricultural Labourer (AL)	,,	II
Household Industry (HHI)	,,	V(a)
Other workers (OW)	,,	III, IV, V(b) and VI to IX

INTRODUCTION TO THE DISTRICT

27. Trichur is the abbreviation of the Malayalam name 'Trissivaperoor' which means the place with the name of sacred Siva. The district with this town as its headquarters and falling in the central region of the state lies between 10° 10′ and 10° 46′ north latitudes and 75° 57′ and 76° 54′ east longitudes. It is bounded on the north by Ponnani taluk of Malappuram district and Ottappalam taluk of Palghat district, on the east by the Alathur taluk of Palghat district and Pollachi taluk of Coimbatore district, on the south by Devicolam taluk of Idukki district and Kunnathunad, Alwaye and Parur taluks of Ernakulam district and on the west by the Lakshadweep sea.

Brief history of the district

28. Trichur district has played a significant role in the political history of not only Kerala but also of South India from the prehistoric age to the modern times. Scholars assign the period of megalithic

monuments from 3rd century B.C. to 1st century A.D. or even earlier (i.e. between 700 and 400 B.C.) The megalithic monuments found here are the dolmens, port-hole cists, menhirs, *Kudakallus* (hood stones) or *Toppikallus* (umbrella stones) and rock-cut caves. Dolmens occur, at Karikulam (near Varandrappilly in the Palappilly Reserve forest), Pattikkad (near Kunnathupadam on the hills of Vellayanimala reserve forest) and at Mukkathode (near the Adirappilli falls). Port-hole cists are seen in Porkolam and Thiruvilwamala, while burial cists are located at Puzhakkal (in Trichur taluk) and Karalam (in Mukundapuram taluk). Menhirs are scattered in the district but mainly seen at Anappara, Kuttur, Churattukara, Muttam and Komalaparathala. The Toppikallu and Kudakallu are found at Eyyal (south-east of Ariyannur temple), Chiramanangad (locally known as Kudakalluparambu) and Vellarakal. Rock-cut caves occur at Chowannur, Kandanissery, Kakkad, Porkolam, Eyyal and Kattakampal. The temples, churches, mosques, inscriptions, coins, historical sites, forts and monuments also give an insight into the historical past of the district.

29. In the Sangam age (the first four or five centuries of the Christian era), the whole of the present Trichur district was included in the early Chera Empire who ruled vast portions of Kerala with their capital at Vanchi which is believed to be close to the sea port of Muziris or modern Kodungallur. After establishing suzerainty over the major part of Trichur district, the Cheras established their capital at Karupadanna, 5 or 6 miles north of Kodungallur. It was from this capital they expanded their territory northwards upto Poozhinad and eastwards upto the Kongu country. Even at the sangam age, Muziris (ie. Kodungallur) was a busy place with its harbour crowded with variety of ships, large warehouses and bazaar. It also functioned as the foremost port for foreign trade on the west coast of India attracting many peoples of the world viz. Assyrians, Babylonians, Phonecians, Egyptians, Greeks, Romans, Chinese and Arabs.

30. After the Sangam age till the beginning of 9th century A.D. hardly anything is known about the history of Kerala or that of the district. The period from 9th to 12th century was the period of the second Chera Empire, popularly known as Kulasekhara Empire set up by Kulasekhara Varman or Kulasekhara Alwar (800–820 A.D.) He was a Vaishnava saint and the author of *Perumal Thirumozhi* (a Tamil devotional work) and *Mukundamala* (a short devotional lyric in Sanskrit). The history of the district during this period is closely linked with the history of the Chera Empire. Probably in the 8th century A.D., the Cheras established their capital at Makotai or Mahodayapuram which was near to the coast and from here they ruled the entire territory. Mahodayapuram is identified with Thiruvanchikkulam. Rama Varma Kulasekhara Perumal, the last ruler of the second Chera Empire, moved his capital from Mahodayapuram to Quilon in 12th century.

31. Though the capital of Kulasekharas was shifted to Quilon, the importance of Mahodayapuram did not dwindle as it continued to be the seat of the Perumpadappu Swaroopam for three centuries from 13th to 15th. Perumpadappu Swaroopam is the oldest and most respected of the Swaroopams of Kerala and it has a long tradition. The early history of the Perumpadappu Swaroopam prior to 1500 A.D. is not available but the view is that the Perumpadappu Moopil or the ruler of Cochin was the son of a sister of the last Kulasekhara and thus he was considered as the direct heir under the matrilineal system. Since the Perumpadappu Moopil was the lineal descendants of the Kulasekharas of Mahodayapuram and direct inheritors of their proud traditions, they had won the respect and allegiance of the chieftains and the people though it was not a major political power till the advent of the Portuguese. The earliest seat of Perumpadappu Swaroopam was probably at Pazhayannur and from there the Perumpadappu Moopil might have moved to Chitrakootam in the Perumpadappu village in Vanneri. With the invasion of Valluvanadu by the Zamorin of Calicut in the second half of the 13th century, Perumpadappu Moopil had to abandon the Vanneri Palace and shift to Mahodayapuram. However, it is seen that the chiefs of Perumpadappu Swaroopam had their headquarters at Mattancherri, Njarakkal, Udayamperoor, Palluruthi, Irinjalakuda, Vellarappilli and Trippunithura, though the reasons for the change in headquarters and their period are unknown. As a result of heavy floods in 1341 A.D., the harbour at Kodungallur became silted and the port became unsuitable for trade. The narrow sand banks which separated the backwater and the Cochin gave way in the deluge and the present Cochin harbour came into existence. In course of time the traders at Kodungallur migrated to Cochin. The importance of Kodungallur was thus slowly declined and instead Cochin rose into prominence. By about 1405, the rulers of Perumpadappu Swaroopam shifted their capital from Mahodayapuram to Cochin. A notable landmark in the history of Perumpadappu Swaroopam is the commencement of a new era, called Puduvaipu Era which commemmorates the formation of Vypeen island, consequent on the great deluge.

32. During the period, the Zamorin of Calicut (belonging to the Nediyiruppu Swaroopam) was fighting for the political suzerainty of the region and consequently the chiefs of Perumpadappu Swaroopam had to wage wars with them. In the course of the war during 14th and 15th centuries the Zamorin acquired a large part of the present Trichur district and by the close of 15th century he had acquired a sort of control over Cochin. Taking advantage of the internal dissensions in the Perumpadappu Swaroopam, the Zamorin defeated the ruler of Cochin and occupied his Palace at Trichur and installed his partisan on the throne of Cochin.

33. When Pedro Alvarez Cabral, the Portuguese captain, came to Cochin on 24th December 1500, the ruler of Cochin, who had enmity with the Zamorin, gave him a warm reception and provided all trading facilities. The actions of the ruler of Cochin distressed the Zamorin and he demanded the expulsion of the Portuguese from the Cochin territory. This was refused and ultimately a war broke out between the forces of Zamorin and the forces of Cochin assisted by

the Portuguese. In 1504 Portuguese forces captured Kodungallur. In 1513 and again in 1540, the Portuguese entered into treaties with the Zamorins against the wishes of Cochin. Portuguese had political supremacy and monopoly over the trade of spices in the coast. In 1550 war broke out between Zamorin and the Portuguese resulting in demolishing the Chaliam Fort in 1571. By this time the Dutch entered in the political scene of Kerala.

34. At the beginning of 17th century, Portuguese power in Kerala began to decline and the internal dissensions in the Perumpadappu Swaroopam helped the Dutch in obtaining a footing here. After conquering the fortress of Pallippuram and the port of Cranganore (Kodungallur), the Dutch conquered the Cochin port in 1663. They installed prince Vira Kerala Varma of *Mootha Thavazhy* on the throne of Cochin and entered into a treaty with him by which they undertook to protect the state from foreign aggression, besides agreeing to deliver all the cinnamon and pepper produced in the country. The treaties in 1673 and 1674 gave more powers to the Dutch which resulted in internal dissensions in the royal house. Zamorin along with the Dutch fought against the Portuguese and during these conquests, he took control over Mapranam, Arattupuzha, Urakam and the areas west thereof besides Enamakkal, Chettuvai, Korattikara, Kadavallur and certain villages in Vanneri. But the Zamorin refused to return them to the Raja of Cochin, the argument being that as per the agreement, these are to be returned only if the war expenses are paid by the Cochin Raja. Though the Raja of Cochin sought the help of the Dutch to regain these territories, the Dutch were initially reluctant to help him and wage war against the Zamorin. But later when the Zamorin invaded Irinjalakuda, the Dutch was compelled to drive him back. The Dutch also took possession of Chettuvai and Pappinivattam in 1710 and many of the Cochin territories occupied by the Zamorin were handed over to the Cochin ruler. However, several parts of Cochin territory still remained with the Zamorin. Chettuvai was a strategic place and in 1714 the Dutch started the erection of a fort here. Before its completion, the Zamorin's forces stormed the garrison in 1715 and took possession of it. Though the Zamorin retook Chettuvai and Pappinivattam from the Dutch, the Dutch assisted by the forces of Cochin Raja defeated him in 1718. Most of the Cochin territories occupied by Zamorin were handed over by the Dutch to the Cochin ruler Raja Rama Varma. The Zamorin again attacked Cochin during 1755–57 and by 1758 practically the whole of present Trichur district except a small portion of Trichur taluk was in the possession of the Zamorin. Kerala Varma (1760–75), the successor of Rama Varma, entered into a treaty with Travancore to regain the lost territories from Zamorin and thereupon Travancore forces under the command of Dalava Marthanda Pillai and D'Lannoy defeated Zamorin and drove him away from the entire Cochin territory, except Perumpadappu and few other Cochin villages in Vanneri before 1763. After the expulsion of Zamorin from Cochin territory, the ruler of Cochin strengthened the royal power by taking away all the administrative powers from the local chieftains and vested them to the officers appointed by the Raja. From 1769 to 1805 Raja Rama Varma, popularly known as Sakthan Thampuran, was at the helm of affairs of Cochin State though he actually ascended to the throne in 1790. He was mainly responsible for the destruction of power of the feudal chieftains and the increase of royal power. His antifeudal measures with several administrative reforms paved the way for progress in the Cochin state. However, during this period, the State was subjected to the Mysorean invasions. In 1776 Cochin became a tributary of Mysore under Hyder Ali. After Hyder Ali's death, Tippu ascended the throne. Though Tippu Sultan was friendly to the ruler of Cochin for some time, he later treated Cochin as his enemy when the Cochin ruler refused to co-operate in attacking Travancore. In 1789 Tippu entered the Cochin territory from Coimbatore leading a huge army and they devastated large areas in the present Trichur district. He made Trichur as his headquarters of the areas conquered by him in Kerala. Though Tippu was marching towards Travancore and reached upto Alwaye after conquering Parur and Alangad, he had to retreat abruptly when the British army was marching towards his capital at Seringapatanam. Soon after the departure of Tippu, the Raja of Cochin entered into a treaty with the East India Company. After the death of Sakthan Thampuran Cochin was under a weak ruler and in 1809 he was forced to sign a new treaty with the British East India Company, according to which Cochin became a subsidiary ally of the British. Resident Macauley installed a favourite of him as the Dewan of Cochin State. However, as the affairs of the State was mismanaged by him, Munro assumed the charge of Dewan in 1812. The period from 1812 marked the beginning of a new era of administrative progress in the history of Cochin and of the district under several Dewans.

35. The freedom movement which was gaining momentum in India had its echoes in the district also. In 1919 a Committee of the Indian National Congress had been functioning in Trichur. E. Ekkanda Warrier who later became the first Chief Minister, was one of the active workers of the Congress since its inception. In the Civil Disobedience Movement of 1921, several persons in Trichur town and other places in the district courted arrest. The Satyagraha in front of the Guruvayur temple for the entry of Harijans into the temple in 1931–32 under the leadership of K. Kelappan, A.K. Gopalan etc. was a memorable event in the history of the National Movement. This helped to create a strong public opinion in the country in favour of Temple Entry and the Abolition of untouchability. In 1937 a political conference was held at Trichur under the presidentship of Dr. Pattabhi Seetharamayya. In 1938 a system of Government based on diarchial pattern in which the administration of certain departments was entrusted to an elected member of the legislative to be nominated by the Maharaja was introduced. After the elections under this scheme, Ambat Sivarama Menon of Cochin Congress Party assumed office as a minister in 1938. Later A.R. Menon and T.K. Nair also joined one after the other. But the people were not satisfied with the system and there were agitations for full responsible government based on adult franchise. On 26th

January 1941 a new political organisation called Cochin State Praja Mandal, which subscribed to the aims and policies of the Indian National Congress, took shape under the leadership of V.R. Krishnan Ezhuthassan. The first session of Praja Mandal was held at Irinjalakuda in January 1942 in spite of the measures taken by the Government to prevent it. During the Quit India Movement a public meeting was held at Trichur on 15th August 1942 to protest against the arrest of Mahatma Gandhi. In August 1946 the Maharaja of Cochin announced his decision to transfer all departments of State Government except Law and Order and Finance to the control of Ministers responsible to the State Legislature. Thereafter the first popular Government of Cochin consisting of Panampalli Govinda Menon, C.R. Iyyunni, K. Ayyappan and T. K. Nair assumed office. Cochin achieved full responsible government after India attained independence in August 1947.

36. Trichur district had a prominent role in the formation of Aikya Kerala. The Aikya Kerala Movement was first initiated in 1928 at the State Peoples' Conference held at Ernakulam which was later endorsed at the Payyannur Political Conference. The Cochin Legislative Council which met on 29th July 1946 under Sri Kerala Varma, the Maharaja of Cochin favoured the formation of Kerala State. A sub-committee under the presidentship of K. P. Kesava Menon for this purpose was met at Cheruthuruthi in late 1946 and decided to convene an Aikya Kerala Conference and accordingly the conference was held at Trichur in April 1947. The reigning Maharaja of Cochin participated in the conference and declared himself in favour of the establishment of a United Kerala State comprising the three administrative units of Malabar, Cochin and Travancore. This conference passed a resolution demanding the early formation of the state. The integration of Travancore and Cochin State on 1st July 1949 was a first step in the achievement of Aikya Kerala and finally it became a reality when the Kerala State was formed on 1st November in 1956 on linguistic basis.

Formation of the district and changes in jurisdiction

37. Cochin state had been divided into *Nadus* each under a chief, till the regaining of territories from Zamorin in 1763. Immediately after that these *Nadus* were divided into *Kovilakathumvathukkals* or taluks. Each taluk was placed under a *Karyakkar* exercising both judicial and executive power. The taluks were further subdivided into *Pravarthis* which formed the units of administration managed by *Pravarthiars,* assisted by *menons* or accountants and *chandrakkars* or cash keepers. The taluks were grouped into two divisions *Vadakkemugham* and *Thekkemugham,* each under a *Sarvadhikaryakkar.* The Cochin areas in the present Trichur district formed part of the Vadakkemugham or the northern sub-division. The head of the administration was *Valiya Sarvadhikaryakkar* or Prime Minister. Accordingly the Cochin state comprised of 10 *Kovilakathumvathukkals* (or taluks) viz. Cochin, Kanayannur, Cranganore, Mukundapuram, Kodasseri, Talappilly, Chelakkara, Enamakkal, Trichur and Chittur. In 1860 the number of taluks were reduced to six by amalgamating Chelakkara with Talappilly, Kodasseri with Mukundapuram, and Enamakkal with Trichur and combining Cochin and Kanayannur into Cochin-Kanayannur. A new district named Trichur was formed with 8 taluks with effect from 1st July 1949 ie. 6 taluks of the erstwhile Cochin State viz. Talappilly, Chittur, Trichur, Mukundapuram, Cranganore and Cochin-Kanayannur and 2 taluks viz. Kunnathunad and Parur of the erstwhile Travancore state.

38. On 1st October 1956, three new taluks viz. Cochin, Kanayannur and Alwaye were carved out in the district taking into account of the regions transferred from the erstwhile Malabar district. The minor territorial changes which were effected in the same date were the transfer of Mukundapuram taluk and Kottappuram kara of Vadakkekara village of Parur taluk to the Cranganore taluk and addition of Puthenchira village of Parur taluk to Mukundapuram taluk. On 1st January 1957 when Malabar district was reorganized into Cannanore, Kozhikode and Palghat districts, a new taluk Chowghat was formed out of Nattika and Chowghat firkas of the erstwhile Ponnani taluk and added to the Trichur district. On the same date the Chittur taluk of Trichur district was formed part of the newly formed Palghat district. On 15th March 1957, five more villages from Ponnani taluk of Palghat district were added to the Chavakkad taluk. Consequent on the formation of Ernakulam district on 1st April 1958, Kanayannur, Cochin, Alwaye, Kunnathunad and Parur taluks were separated and included in it. Trichur district had thus 5 taluks viz. Chavakkad, Talappilly Trichur, Mukundapuram and Kodungallur. On 5th December 1971, 5 grouped villages consisting 9 villages of Chavakkad taluk viz. Edathiruthi, Chendrappinni, Kaipamangalam, Perinjanam, Pappinivattam, Koolimuttam, Ala, Panangad and Padinjare Vemballur were transferred to Kodungallur taluk. Thereafter there were no jurisdictional changes till the census of 1981.

Administrative units

39. There are two systems of administrative set up. Under the revenue system, the district is divided into revenue divisions. taluks, firkas and further into revenue villages. Villages have their constituent units known as muris or desoms. Under the local self-government system there are the corporations, municipalities, townships and panchayats. Development blocks consisting of several panchayats have been formed for the implementation of development activities. This volume presents data for all these units.

40. The entire district falls under one revenue division as Trichur, comprising of 5 taluks and 238 revenue villages. Of the villages, 25 lie completely within urban areas (statutory towns and census towns) and 12 lie partly in urban and partly in rural. The remaining 201 villages are entirely rural. There were 17 development blocks and 98 panchayats in the district.

TABLE 1

VILLAGES, TOWNS AND PANCHAYATS AS ON 1st MARCH, 1981

District/Taluk	Total No. of revenue villages	No. of revenue villages falling in			No. of towns		No. of	
		Rural areas only	Partly in rural and urban areas	Urban areas only	Statutory towns	Census towns	Development blocks	Panchayats
1	2	3	4	5	6	7	8	9
Trichur	**238**	**201**	**12**	**25**	**7**	**18**	**17**	**98**
1. Chavakkad	*17	14	1	2	2	1	3	16
2. Talappilly	**74**	70	4	..	1	..	3	22
3. Trichur	72	55	2	15	1	15**	4	24
4. Kodungallur	18	15	..	3	1	1	2	9
5. Mukundapuram	57	47	5	5	2	1	5†	27

*Villages combined for administrative convenience as per notification No. 11964/B1/63/RD. dated 28-10-1964 are taken as village in Chavakkad taluk whereas constituents of grouped villages have been taken as villages in other taluks.

** Excluding Peringavu urban outgrowth.

† Mala Development Block falls in Mukundapuram taluk (comprising of 4 panchayats) and in Kodungallur taluk (one panchayat)

Topography

41. The district slopes from the Western ghats in the east to the Lakshadweep sea in the west falling under three distinct natural divisions viz. the highland, midland and lowland. The highland with extensive ravines and dense forests rises in terraces and the hills, go to heights of over 1,220 metres above the mean sea level. The midland (or plains) lies in gentle slopes with some outlying hills and stretches upto the backwaters. The plains contains extensive paddy fields, interspersed by rivers and canals. The lowland formed out of sand, silt and alluvium brought down by rivers lies as a narrow stretch bordering the sea. This sandy area is low and swampy and several parts are flooded during heavy monsoons.

MOUNTAINS

42. The mountains of the district form an irregular outline all along the majestic Western ghats with ridges and conical peaks, some of which appear to stand isolated. Towards west, the chain of hills gradually descend in heights. The Machad hills in Talappilly taluk, the Paravattani hills in Trichur taluk and the Palappilli, Kodasseri and Adirappalli hills deserve special mention. There are about 30 peaks in this district, their heights ranging between 330 metres and 1,439 metres. Karimala Gopuram, the highest peak in the district (1,439 metres), lies at the boundary of Chittur taluk of Palghat district and Mukundapuram taluk of Trichur district.

RIVER SYSTEM

43. This district is benefited by the waters of 4 major rivers viz. Bharathapuzha, Keecheri (Wadakkancherry), Karuvannur and Chalakudy.

(a) *Bharathapuzha*

44. Bharathapuzha (251 km.) flows as the northern boundary of Trichur district for about 40 kilometres. Many streams rising from the forests of Palghat and Trichur districts join this river. Cheerakuzhy (also known as Pazhayannur or Gayathri river), a tributary of Bharathapuzha, joins Bharathapuzha at Kuthampilli near Thiruvilwamala. This river leaves the district at the north-western boundary of Kadavallur village of Talappilly taluk. About a kilometre west of Painkulam, the Killimangalam thodu also joins the river.

(b) *Keecheri river*

45. Keecheri, otherwise known as Wadakkancherry river, rises from the Machad hills and flows westwards touching Wadakkancherry, Nelluvayi and Keecheri before joining the backwaters at Chettuvai. It has a length of 43 km. and a total drainage area of 255·89 sq. km. The only irrigation project in this river basin is Vazhani.

(c) *Karuvannur river*

46. Manali river (originating from Paravattani hills) and Kurumali river (formed by the union of Chimoni rising from Palappilli hills and Muppili rising from Kodasseri hills) combines at Palakkadavu near Arattupuzha and takes the name of Karuvannur river. From Arattupuzha Karuvannur river flows as common boundary between Trichur and Mukundapuram taluks. This river, before emptying, branches into two, one into the Manakodi lake and the other into the Chettuvai backwaters. The total length of the river is about 65 kilometres and has a total drainage area of 828.80 sq. kilometres. Peechi dam, constructed across Manali river, helps to control the floods at Karuvannur and to irrigate about 19344·0 hectares of land.

(d) *Chalakudy river*

47. Chalakudy, the longest (144 km.) river in the district, has four main tributaries viz. Sholayar, Parambikulam, Kuriar (or Thekkadi) and Karapara.

Rising from the Western Ghats from Nelliampathi hills and Anamalai it flows through wild areas as far as a anjirappalli, a distance of about 80 km. Then it takes Kwinding course of about 32 km. through fertile tracts of inhabited and cultivated areas and finally joins the right arm of Periyar river at Elanthikara about 10 km. east of Kodungallur. The Chalakudy river is well harnessed by constructing hydro-electric dams at Peringalkuthu and at Sholayar. Chalakudy river, after joining with the Periyar river, flows along the boundary of Trichur and Ernakulam districts for about 5 kilometres before emptying into the sea.

48. Besides the above major rivers, there is a small river viz. Viyyur river (24 km.) which rises from Paravattani hills and empties into the Enamakkal lake.

SEA COAST

49. The district has a long sea coast of about 50 km. forming the western boundary of Chavakkad and Kodungallur taluks extending from Punnayurkulam in the north to Azhikode in the south. Azhikkal (Kodungallur) is the only minor port on this coast. Many foreign travellers had visited this ancient port on the Kerala coast for trade contacts. It was an important outlet 'centre of condiments and spices to Europe till Cochin rose to prominence. In recent times, Chettuvai has become an important centre of fishing with facilities for mechanised fishing.

BACKWATERS AND LAKES

50. The backwaters, locally called as *Kayals*, lie parallel to the sea coast interconnected by canals. Some rivers also flow into them and at two places viz. Kodungallur and Chettuvai, they join with the sea. Forming part of a continuous water-way from Badagara to Trivandrum the inland navigation system of the district provides facilities for all types of country boats throughout the year. The water of these backwaters is saltish in most part of the year but during rainy season it is fresh except in the openings of the sea. Kattakampal in Talappilly taluk, Enamakkal and Manakkody in Trichur taluk and Muriyad in Mukundapuram taluk are the important fresh water lakes in the district. Of these, the Kattakampal lake extends over to portions of Talappilly and Ponnani taluks. The Enamakkal and Manakkody lakes receive the flow from Karuvannur, Wadakkancherry and Viyyur rivers. These lakes are inter connected and they together cover an area of over 64.75 sq. km. These backwaters are channelled at two points, Enamakkal in the north and Karanchira in the south. Many small streams feed the Muriyur lake. The notable canals in the district are the Canoli canal, the Shanmugham canal and the Puthenthode, besides large number of irrigation canals, constructed as part of the various irrigation porjects.

Climate

51. The district is having a tropical humid climate with four seasons—dry weather (December to February), hot weather (March to May), south-west monsoon (June to September) and retreating or north-east monsoon (October and November). Temperature starts rising in February and the hottest months are March, April and upto the middle of May. At the end of May or early June, the south-west monsoon commences and extends over to September. This period experiences heavy rainfall which accounts for more than 70% of the annual rainfall in the district. June and July are the months having maximum rainfall. Post-monsoon or retreating monsoon season is during October-November.

52. The average daily maximum temperature during the hottest months is around 32° C in the coastal regions and about 37° C in the interior. The normal rainfall in the district is above 3,000 mm., of course with some variation in certain years. The relative humidity in the air is generally over 70 per cent, especially during th period of monsoons. However, during December tc March it varies between 40 and 50 per cent.

Forests

53. The forest area in the district accounts for 36.20 per cent of the total area of the district and they fall in all taluks except in Kodungallur and Chavakkad taluks. Mukundapuram taluk is having more than half of its area under forests. The forest area in the district comes under Trichur and Chalakudy forest divisions. Trichur forest division extends over Talappilly, Trichur and Mukundapuram taluks, whereas Chalakudy forest division falls entirely within Mukundapuram taluk. There are unsurveyed reserve forest areas outside village boundaries in all the three taluks. There are 4 ranges viz. Wadakkancherry, Pattikkad, Peechi and Palappilly in Trichur forest division. Of these, Wadakkancherry range falls in Talappilly taluk, Pattikkad and Peechi ranges in Trichur taluk and Palappilly range in Mukundapuram taluk. Though there are five ranges in Chalakudy division, only 3 ranges viz. Pariyaram, Vazhachal and Sholayar fall in Trichur district and all these are in Mukundapuram taluk. Sholayar and Vazhachal ranges are completely outside village boundaries. Kalady range of Chalakudy Division falls in Ernakulam district and Thundathil range falls inErnakulam and Idukki districts. The forests of this district comprises of moist deciduous evergreen and semi-evergreen. The moist deciduous, which thrive on rich loamy soil and upto an altitude of 914.4 metres above the mean sea level, occur on a major portion of the eastern tracts of the Trichur forest division. The tropical evergreen forests or shola with its luxurient vegetation with lofty trees are found in the Sholayar valley. The semi-evergreen forests, which lie between the moist deciduous and evergreen forests occur in the Adirappalli reserve of the Chalakudy forest division. These forests with valuable trees like teak ebony etc. give shelter to different species of animals and birds. There are also rubber, tea and coffee plantations in these forest tracts.

Soils

54. Sandy, alluvial, laterite and forest soil are found in the district. The coastal taluks of Kodungallur and Chavakkad have sandy soil which varies in texture form pure sand to sandy loam and they are deficient in plant, foods and limes. The low-lying areas on the western region of Trichur and Mukundapuram taluks and in some portion of Chavakkad taluk have alluvial

soil known as *kole*, which is enriched with organic matter, nitrogen and potash but are deficient in phospherous and calcium. The laterite soil occurs as a continuous belt in the central region of Trichur, Talappilly and Mukundapuram taluks and they contain hydrated oxides of iron and aluminium. The eastern regions of Talappilly, Mukundapuram and Trichur taluks have forest soil, which is characterised by a surface layer of organic matter derived from forest growth.

Geology

55. Archaean gneisses and crystalline schists with a narrow coastal belt of recent sediments and laterite are found in the district. The major rock type within the archaean is the biotite-granite gneisses consisting essentially of quartz and felspar with variable degree of biotite.

Economic minerals

56. Clay is found in several parts of the district which is suitable for the manufacture of bricks and tiles. There are many tile factories and brick making units at Karuvannur, Pudukkad, Ollur, Wadakkancherry, Amballur, Kuttanallur, Karanchira (Kattoor), Chalakudy and Arippalam. At Kizhuppillikkara, near Trichur, China clay also is found. Ilmenite bearing sands are found at Manassery, Pallippuram and Puthiyakadaprom near Chavakkad. Bands of ilmenite sand 0.30 to 0.46 metres are found in the ridge north of Blangad Beach. In a few places near Irinjalakuda and Wadakkancherry and over the gneiss in the vicinity of Adat and Vilanga, iron ore mostly laterite in quality is found. Kaolin occurring below laterite is found at Kizhuppillikkara, Chalakkudy, Pullut etc. Monozite in poor concentration occur near Chavakkad. In Kodungallur and Chavakkad taluks limeshell is also available.

Agriculture

57. Trichur district has more than 75 per cent of the total geographical area under different crops. The important crops are paddy, tapioca, cocoanut, arecanut, cashew, banana, rubber, pulses etc. Paddy, the most important among the food crops cultivated in the district, is occupied by 47.66 per cent (in 1980-81) of the total cropped area of the district which has an yield of 1.34 tons per hectare. Of the three crops of paddy viz. autumn (virippu), winter (mundakan) and summer (punja), winter crop is the most important in the quantity of production. In the autumn crop production of paddy is the lowest due to inadequacy of rainfall, drought etc. Mundakan is partly rainfed and partly irrigated while punja, the summer crop, is mainly dependent on irrigation. Cultivation of paddy in low lying reclaimed areas known as *kole* cultivation (spreading over to 12,000 hectares of Chavakkad, Cherpu, Anthicad, Irinjalakuda, Vellangallur, Kodakara, Mala and Mullassery blocks) is a speciality in the agricultural operations of this district. As the bunds are temporary, this cultivation is done only once in a year, between January and May. With the construction of permanent bunds in these areas, a second crop also can be raised. Cocoanut is the second important crop in the district as well as the most important commercial crop, occupying 23.34 per cent of total cropped area during 1980-81. The alluvial deposits of silt and sandy soil found in the coastal regions and in the lower slopes of the laterite hills of the interior parts are the principal areas of cocoanut cultivation. Arecanut, another perennial crop grown in almost all taluks, is intensively cultivated in Mukundapuram and Talappilly taluks, the major producing centres being Pazhanji, Wadakkancherry, Kunnamkulam, Irinjalakuda and Trichur. Pazhanji is also the biggest pooling centre for arecanut in South India. Rubber is planted in Talappilly, Trichur and Mukundapuram taluks of which, the largest area is in Talappilly taluk. Rubber production in the district in 1980-81 was 6,739 tons with an average yield of 0.72 tons per hectare. Cashew is grown in almost all parts of the district especially in dry lands and lands not suited for any other cultivation. Due to the extension of irrigation facilities, the area under cashew is being slowly converted into other crops. Mango, jack fruit, banana, pineapple etc. are some of the fruits extensively grown in this district. Fruit canning industry, based mainly on pineapple, is concentrated in Trichur district. Banana cultivation is carried out in areas having irrigation facilities. Chalakudy block has the largest area under banana and different varieties of plantains are available there. Pulses and pepper also are cultivated in this district. Spices like ginger, turmeric etc. are also grown in small areas in some places.

Irrigation

58. There are four major irrigation projects in Trichur district viz. Peechi, Chalakkudy, Vazhani and Cheerakuzhy. Peechi project consists of a straight gravity type masonry dam, 24 km. east of Trichur, across the Manali river, a tributary of Karuvannur river, and a canal system consisting of two main canals on either bank with branch canals and distributaries. The length of the left bank canal is 44.5 km. and that of the right bank canal is 37.7 km. They irrigate over 15,000 hectares of paddy land. Under the Chalakudy scheme a weir (3.66 metres high and 185 metres long) is constructed across Chalakudy river at Tumbermuzhi about 16 km. of Chalakudy town, which diverts the water of the river for supporting the existing paddy cultivation and conversion of large area of dry lands on either side of the river into paddy fields. The right bank canal is 37 km. long with 18 branch canals and the left bank canal is 19.3 km. long with 16 branch canals. These canals help to irrigate an area of over 20,000 hectares of paddy. Vazhani scheme consisting of an earthern dam at Vazhani, across the Wadakkancherry river (a tributary of Keecheri river) has a distribution system of a left bank main canal of 39.2 km. and 3 branch canals of total length 18.2 km. The storage of the reservoir is augmented by diverting water from Kakkinikad valley by a pick up weir and a canal of length 3.8 km. The river has a total ayacut of 5,180 hectares. Under the Cheerakuzhy project a regulator across Gayathri river (Cheerakuzhy) at Kuzhippillipra has been constructed to divert the water through a main canal of length 25 km. on the left bank with a branch canal of length 40 km. This benefits several villages of

106/490—12

Talappilly taluk and irrigates about 1,000 hectares of paddy fields. Besides these, the Chimenimupli kola irrigation project involving one dam at Chimeni 28 km. of Emballur across Chimeni puzha and another dam at Mupli 20 km. east of Kodakara across Muplipuzha is also being implemented which ultimately irrigate over 20,000 hectares including 11,000 hectares of kole lands. Apart from the above major irrigation projects, the district has several minor irrigation schemes. The important crops that irrigated in 1980–81 were paddy (48,409 hectares), cocoanut (29,717), arecanut (6,243) and banana (660).

Tenancy

59. The land tenures of the district prior to the passing of Kerala Land Reforms Act, 1963 were jenmom, pandaravaka verumpattam, pandaravaka kanom, service inams, varam, kuzhikanam, kudiyirippu, kudikidappu etc. But with the enactment of the Kerala Land Reforms Act, 1963 which came into effect from early 1970 these land tenures have lost their relevance. The Land Reforms Act of 1963 repealed the Kerala Agrarian Relations Act, 1960 the Malabar Tenancy Act, 1929 the Cochin Verumpattomdars Act VIII of 1118 (ME), the Madras Cultivating Tenants (Payment of Fair Rent) Act, 1956 and the Travancore–Cochin Prevention of Eviction of Kudikidappukars Act, 1955, and enacted a single statute governing the relationship between landlord and tenant throughout the State. This Act amended subsequently caused to abolish the Jenmi-Kudiyan system from the state and helped the tenants to become owners of lands. *Kudikidappukars* got the right of purchasing the houses where they were living, along with 10 cents of land around it, paying the amount fixed by Government. A ceiling was fixed for the extent of land to be possessed and the land above the ceiling was taken over by the Government and distributed to landless persons. Thus the Land Reforms Act has brought out revolutionary changes in the district.

Animal Husbandry

60. According to the Livestock census conducted in 1977, there were 2·04 lakh cattle, 0·56 lakh buffaloes, 1·54 lakh goats, 1,613 pigs and 11·3 lakhs fowls and 29,124 ducks in the district. In most of the cases the improved varieties outnumber the desi (local) type. Trichur district has the distinction of having the headquarters of the Kerala Agricultural University and also having a college of Veterinary and Animal Science in the State. Under the Animal Husbandry department, there are 42 veterinary hospitals including one mobile veterinary hospital and 2 artificial insemination centres manned by veterinary surgeons in the district. There is a central veterinary store at Trichur to supply medicines and other equipments required by the veterinary institutions. Besides these, there is a veterinary hospital at Kokkalai, a livestock farm, poultry farm and a pig breeding farm at Mannuthy and a cattle breeding farm at Thumburmuzhy, under the Kerala Agricultural University. Milk is in surplus in the district. There are more than hundred co-operative milk societies functioning in the district.

Fisheries

61. This district has a sea coast of over 50 kilometres. The means of livelihood of the people in the coastal areas of Kodungallur and Chavakkad taluks is fishing. Fish forms an important food item of the people in the district, especially in the coastal areas. Though there are about 14 different varieties of fish in the district, mackerels and oil sardines are the most important ones. Oil sardines are also used as manure and for oil extraction. Main fishing centres in the district are Chavakkad, Nattika and Kodungallur. Mechanised boats also are engaged in fishing in the districts and Azhikode and Chettuvai have facilities for harbouring these mechanised boats. The district having ample fresh water resources in the form of rivers, reservoirs, lakes, irrigation canals, ponds and tanks have good potential for the inland water fishing but inland water fishing is not much developed in the district. The Fish Farmers' Development Agency started in Trichur in 1979 is an important step towards the development of inland fishing.

Electricity and Power

62. There are two major hydroelectric projects in Trichur district. They are Peringalkuthu and Sholayar. Peringalkuthu was the first hydroelectric project commissioned in former Cochin state by constructing a dam across the Chalakudy river with a storage capacity of 33·98 million cubic metres at Peringalkuthu, about 60 km. away from Trichur town. The total installed capacity is 280·32 million kwh. Sholayar is connected with Chalakudy sub-station by two 110 kv. transmission lines. Sholayar hydroelectric project, the second power scheme in Trichur district, has three dams viz. first one at a height of 57·61 metres above the bed across the main Sholayar river, second at height of 25·91 metres across the valley on the left bank of the river and the third with a composite structure with rubble masonry face wall and earthern dam of 9·14 metres high. The reservoir has a capacity of 153·48 million cubic metres. The total installed capacity is 473·04 million kwh. Two more hydroelectric schemes viz. Adirappilly scheme and Peringalkuthu right bank scheme are also contemplated in this district. Besides the 110 kv. sub stations at Chalakudy, there are 66 kv. sub-stations at Viyyur, Kunnamkulam, Kandassankadavu, Wadakkancherry and Ollur. Electricty is available in all the villages and towns of the district.

Industries

63. Trichur, one of the industrially backward districts in the State, has more than 20 large and medium industrial units. The important among them are the Sitaram Textiles Ltd. at Trichur. Alagappa Textiles at Alagappanagar, Kerala Lekshmi Mills at Mulankunnathukavu, Vanaja Textiles Ltd. at Kurichikkara, Trichur Cotton Mills at Nattika, Keltron Power Devices Ltd. at Mulankunnathukavu, Appolo Tyres Ltd. at Chalakudy, Chalakudy Refractories Ltd. at Chalakudy, Kerala Solvent Extraction Ltd. at Irinjalakuda and Eddy Current Controls Ltd. at Chalakudy. Manufacturing of bricks and tiles is the most important

industry in the district employing the largest number of workers and it is concentrated in and around Ollur, Pudukkad, Karuvannur, Amballur etc. depending on the availability of raw materials viz. China clay, which is required for making them. Printing and binding, which is concentrated at Kunnamkulam, is a fairly developed industry in the district. The canning industry and oil mills employ over 500 persons. There are some soap making units also in the district. There are also a number of traditional industries like handloom weaving, oil crushing, pottery, carpentry,black-smithing, mat weaving, basket making, toddy tapping, coir industry, fish curing, bell metal, curing of arecanut, bamboo works etc. Oil crushing industry is flourishing in almost all parts of the district. Kora grass mats are produced in Killimangalam in Talappilly taluk. Curing of arecanut is mostly found in Talappilly taluk. A large number of people are engaged in beedi making. in the district, especially in Chavakkad taluk. The manufacture of furniture in Chevoor, wood carving in Cherpu, bell metal industry in Irinjalakuda and Nadavarambu area, Khus-Khus mats and products at Valappad are the other important cottage industries in the district. These industries together provide employment to about 16,000 people and turn out goods about Rs. 25 crores per annum.

Transport

64. Trichur district has got 70 km. of railway line falling under the Trivandrum Railway Division, the extreme railway stations being Vallathol Nagar in the north and Koratti Angadi in the south. The preliminary work on the construction of the railway line in the district was undertaken as early as 1898 when the then Cochin Government took up the laying of a narrow gauge track connecting Shoranur with Ernakulam. This line was opened for goods traffic on 2nd June 1902 and for all kinds of traffic on 16th July 1902. It was subsequently converted into a broadguage line. The doubling of the railway track in this section is nearing completion. Till 18th October 1979, the Shoranur-Ernakulam section was under the Olavakkot Division (later named as Palghat Division). On 2nd October 1979 it became part of the Trivandrum Division.

65. The district is well-connected by roads viz. National Highway, State Highways, district roads village roads, municipal and panchayat roads. The National Highway 47 with a length of 64 km. passes through Chalakudy, Kodakara, Puducad, Amballur, Ollur, Trichur, Mannuthy, Pattikkad and Vaniampara. The N.H. 17 enters the district at Kottappuram and leaves at Chettuvai touching Sreenarayanapuram, Triprayar and Vadanappalli. The Chalakudy–Anamalai road and the Kodungallur–Shoranur road are the two state highways. As mentioned earlier, the district has a well developed system of roads with a total length of about 2,160 km. The details of roads classified by different categories are as follows:

Category	*Length in km.*
Total	2,159
National Highway (NH 47 & 17)	133
State Highway	186
District roads	588
Village roads	974
Municipal and Panchayat roads	278

66. The inland water transport system is well developed. The lagoons and backwaters which lies parallel to the sea are used by country crafts and motor boats.

PLACES OF IMPORTANCE

Arattupuzha (Trichur taluk)

67. Arattupuzha, situated 12 km. to the south of Trichur town, is famous for the *Arattupuzha Pooram* held on the *Pooram* asterism in the month of Meenam (March - April) every year. This is one of the most colourful festivals of the state attracting large number of people from different parts of the state. During the festival at the Lord Sastha temple here, idols of deities of 46 temples in the neighbourhood of the village such as the Arattupuzha temple, the Amma Thiruvady temple at Urakam, Sree Rama Temple at Triprayar, the Bhagavathy temple at Cherpu are brought at night in procession on rows of caparisoned elephants with music, trumpets, tomtom and illumination. When all the processions join before dawn, there will be about fifty or sixty elephants. All the deities taken in procession will have holy immersion (*Arat*) in the water of Arattupuzha river. Another chief attraction is the significant fireworks. Probably because of this '*Arat*' festival, the place would have got the name 'Arattupuzha'. There are two Primary Schools, an Upper Primary School, a Family Welfare Centre and a Key Village Centre, a Post Office, 5 temples and one church.

Chalakudy (Mukundapuram taluk)

68. Chalakudy, located 30 km. south of the district headquarters and 17 km. from the taluk headquarters, is a prominent municipal town on the National Highway 47 between Trichur and Ernakulam. It is a place of historical importance as it was the base of Tippu Sultan during the attack on the 'Travancore lines' (known as Krishnankotta or Nedumkotta). It is also an important centre of timber business. Chalakudy is also an important Railway Station in the Shoranur-Cochin section of the Southern Railway. It has a Government College, 4 High Schools, 4 Upper Primary Schools, 6 Lower Primary Schools, a Municipal Library, 2 Allopathic hospitals, a Primary Health Sub-centre, a Government Ayurvedic Dispensary, a Government Veterinary Hospital, a Post and Telegraph Office, two bus stands, market, 9 banks, 5 cinema theatres, 8 temples, 4 churches and one mosque. The Peringalkuthu Hydroelectric Project is 40 km. east of the town. Sholayar Hydroelectric Project also is connected to Chalakudy. Adirappalli water falls, near the town, is a place of tourist attraction. Chalakudy is a key trading centre in pepper.

Chavakkad (Chavakkad taluk)

69. Situated about 31 km. north-west of Trichur and 5 km. east of Chettuvai located in N H–17, Chavakkad, the headquarters of Chavakkad taluk, is an important place in the district. The Catholic Syrin Church of Palayur, located about a kilometre south-east of Chavakkad, is one of the seven churches founded by St. Thomas, the Apostle, in the middle of the 1st century i.e. 52-54 AD. It is believed that a temple here was converted as the church, after the preachings of the Apostle. A garden known as Jewish Hill near the church was once the site of Jewish Synagogue. There were remnants of a fort about a kilometre east of the church. It is associated with Haidros Kuttee, a lieutenant of Hyder Ali. The place was also used to be called 'Koottingal'. The mausoleum of Haidros Kuttee at Manathala near Chavakkad and his scene of death near Chavakkad mosque are regarded as sacred centres by the local Muslim population. The Viswanatha temple on the eastern side of Tippu Sultan Road and the Canoli canal which connects Ponnani with the erstwhile Cochin state are added attractions. Chavakkad is an important trading centre for copra, coir and fish. Of late, Chavakkad is nick-named as mini-Gulf as several persons have sought jobs in Gulf countries and there is considerable flow of money which have made remarkable changes in the living conditions of many households and the appearance of the town. There are 3 High Schools, 6 Upper Primary Schools, 7 Lower Primary Schools, Taluk Headquarters Hospital, Health Centre, T.B. Hospital, Veterinary hospital, Sub-post offices, 8 banks, Post and Telegraph Office, markets, besides 7 temples, 3 churches and 5 mosques.

Chelakkara (Talappilly taluk)

70. Chelakkara, located 35 km. north-east of Trichur, is a historical place where in 1762 a fierce battle was fought between Zamorin and the combined forces of Travancore and Cochin states. The Travancore forces were under the command of Dalava Marthanda Pillai and D'Lannoy. The combined forces drove the Zamorin's forces beyond the northern boundary of the then Cochin state. Now this place is having 2 High Schools, 4 Lower Primary Schools, a Government Allopathic Hospital, Family Welfare Centre, Government Ayurvedic Hospital, Post and Telegraph Office, 3 banks, a co-operative society, a Talkies, 4 temples, 3 churches and 3 mosques.

Cheruthuruthy (Talappilly taluk)

71. Situated on the left bank of Bharathapuzha and 35 km. north of Trichur, Cheruthuruthy is the seat of Kerala Kalamandalam founded in 1930 by the Poet Sri Vallathol Narayana Menon. This institution has been largely responsible for the revival of several traditional art forms of Kerala, particularly Kathakali and Mohiniyattam, The academy offers comprehensive courses in music and dance with emphasis in kathakali, mohiniyattam, thullal and folk dances. It is well-served by rail and road. To commemmorate the memory of the Poet, the railway station was renamed as Vallatholnagar. There are 2 Primary Schools, 2 Middle Schools, a High School, Training School, a Health Centre, an Ayurvedic Hospital, Key Village Centre, Post & Telegraph Office, a bank, a talkies, 4 temples and 2 mosques here.

Chettuvai (Chavakkad taluk)

72. Chettuvai or Manappuram (in Engandiyoor village), located 11 km. north-west of Trichur, is a sandy region formed out of the silt and alluvium brought by the rivers. The Chettuvai river and the backwaters find an outlet to the sea at Chettuvai. Though the Dutch were the first to settle here, they left Chettuvai in 1691 in favour of the British. In 1714 the Dutch again took possession of the territory and thereafter its control changed several times between the Zamorin and the Dutch. The Dutch erected a fort at Chettuvai and named it '*Fort William*'. A tombstone preserved in Chavakkad taluk office commemorates the death of its first commandant Captain Lieutenant Heer Wilhelm Blasser. The island and the fort were the scene of several fierce encounters between the Dutch and the Mysore rulers (Hyder Ali and Tippu Sultan) for about fifty years till Colonel Martley finally cleared Chettuvai of the Mysorians in 1790. Tippu Sultan Road passing through the territory is believed to be the route used by Tippu's forces and it reminds the people about several wars fought here. It has now been converted as N H 17. Chettuvai was a place of some commercial importance till the turn of the century but remained unimportant and under developed thereafter. Of late, the Gulf-boom has changed the face of Chettuvai. It is now being developed into a fishing centre with facilities of mechanised fishing boats. With the construction of the long awaited bridge at Chettuvai, the pace of development of the place will further be accelerated.

Guruvayur (Chavakkad taluk)

73. Guruvayur, (31 km. north-west of Trichur) a renowned centre of pilgrimage in India, owes its fame to the Sree Krishna Temple there. It is believed that the place got the name Guruvayoorpuram from the installation and consecration of the idol by Guru, the preceptor of the Devas and Vayu, the Lord of the winds. By usage for years, Guruvayoorpuram became Guruvayur. The idol itself is believed to have been the one worshipped by Vasudeva, the father of Lord Krishna and, therefore, the temple is considered as Vaikuntam, the abode of Vishnu. The exact period of consecration of the idol is not known. However, there is evidence that the temple was in flourishing condition in the 16th century. The temple is closely associated with Sree Melpathur Narayana Bhattathiri who composed the great Sanskrit devotional poem *Narayaneeyam* as an offering while he was ill and his illustrious contemporary Sree Poonthanam Namboothiri who wrote memorable and splendid poems like *Gnanappana*, *Sreekrishnakarnamrutham* and *Santhanagopalam*. Sree Chembai Vaidyanatha Bhagavathar, the great carnatic musician is also reported to have regained his lost voice through devotion to Guruvayoorappan. Tippu Sultan, during his invasion of Malabar and Cochin, not only left Guruvayur temple untouched but ordered to give an annual grant to the temple for the conduct of daily poojas and offerings. In recent times a fire broke out causing great damage and consequently the temple is being renovated beautifully without making any structural changes to the Sanctom-Sanctorum and *mandapam*. As in the case of most of the temples, the structures of this temple was also constructed on different periods eg. western entrance in 1747. *Deepasthambha* in the front in 1836, remodelling of *Sreekovil* and *Mandapam* in 1855, *Koothambalam* and *Nalambalam* in 1893. Guruvayur has figured prominently during the freedom struggle because of the famous episode known as Guruvayur Satyagraha led by the leaders like K. Kelappan, A.K. Gopalan etc. and also with the blessings of Mahatma Gandhi, aiming at the eradication of untouchability and to obtain right of worship for Harijans in the temple. Though the historic Satyagraha began on 1st November 1931, the temple was thrown open to Harijans only in 1946, fifteen years later. Due to the growing importance of Guruvayur as a pilgrim centre, the area around the temple has been constituted into a township by the Guruvayoor Township Act, 1961. Guruvayur is well-connected by roads from other parts of the district and state. There are frequent bus services from here. A sub station of K.S.R.T.C. is also functioning here, though private transport services dominate. The proposed Trichur–Kuttippuram railway line passes through Guruvayur. There are several lodges and hotels to cater to the needs of pilgrims. Punnathur kotta (fort), the former residence of a Naduvazhi Punnathur Nambidi, is situated at Kottappadi, 3 km. north of Guruvayoor. Erected between 1754 and 1758 A.D., it is a low tiled building enclosing an open courtyard with spacious garden and adjoining temples and tanks. Some of the most intricate and skilful carvings can be seen on the doors of this building. Several old documents written on cadjan leaves in *Kolezhuthu* had been kept in the record room of the building. Now the land and buildings are under the possession of Guruvayur Devaswom and is locally known as 'Anaparambu' as it is used for keeping the elephants of the temple while the buildings are used for the stay of the mahouts. Within the township area there is a College, 2 High Schools, 2 Upper Primary Schools, 6 Lower Primary Schools, an Allopathic Hospital managed by the Guruvayur Devaswom, a Maternity and Child Welfare Centre, a Primary Health Centre, a Government Ayurvedic Hospital, a Veterinary Hospital, a Telephone Exchange, Post and Telegraph Office, 8 Banks, 11 temples, one church and 5 mosques. Of these temples, the Mammiyur Siva temple and the recently consecrated Venkitachalapathi temple also deserve special mention.

Irinjalakuda (Mukundapuram taluk)

74. Situated about 21 kilometres south of Trichur on the Trichur–Kodungallur route, Irinjalakuda is the headquarters of Mukundapuram taluk. The town is famous for its Koodalmanikkam temple which is dedicated to Bharatha. A special feature of the temple is its large circular *Sreekovil* enclosed by wooden walls. There is a version that this temple was once a Jaina shrine, the deity being that of the Jain Digambara, Bharateswara. The temple has several inscriptions dating back to the 11th regnal year of Emperor Sthanu Ravi of which the engraved granite slab in the inner

106/490—13

Prakara of the temple to the north of *Sreekovil* is important. The Tachudaya Kaimal, appointed by the Maharaja of Travancore exercises full rights of management and control of the spiritual as well as the temporal affairs of this richly endowed temple. The annual festival in the temple is celebrated on a grand scale during April–May. The Shanmugham Canal which is connected with the Canoli canal is an important waterway to Cochin harbour. The Municipal Council at Irinjalakuda was established as early as 1937. This town is educationally advanced with two Colleges, 6 High Schools, 2 Upper Primary Schools and 9 Lower Primary Schools, besides taluk headquarters hospital, 2 Maternity and Child Welfare Centres, Veterinary Hospital, Head Post Office, Telegraph Office, Telephone Exchange, 2 markets, 2 theatres, 7 temples, a church and a mosque.

Kodungallur (Kodungallur taluk)

75. Kodungallur (50 km. south-west of Trichur) was known as Muziris to Greeks and Romans, Muchiri to early Tamil poets and lately as Cranganore. It is a place of great historical importance as a centre of trade and commerce with foreigners like the Jews, the Phonecians, the Greeks, the Romans and the Arabs, even before the beginning of the Christian era. Pliny described the place in the first century of Christian era as the 'first emporium in India.' It is believed that the temple in honour of Augustus was founded here by the Roman colonists. As claimed by the Jews, Christians and Mohammadans, their first settlement in India is at Kodungallur. The first mosque founded in the whole of India is situated near Cheraman Malik Manzil in Kodungallur. A striking feature is that the mosque faces east unlike other mosques which faces Mecca. The earliest church in Kerala also was found here by St. Thomas, the appostle at the middle of the first century. Thiruvanchikulam near Kodungallur is believed to be the capital of Chera kings during the Sangam age. It is believed that the palace of Kulasekharas once stood at the site now known as Cheraman Parambu near Kodungallur. After the great deluge in 1341, the importance of Kodungallur was lost as ships found difficult to approach Kodungallur. Kodungallur is widely known for its Kurumba Bhagavathi temple and its annual Bharani festival in the month of *Meenam* (March–April). The temple is believed to have been founded by the mythical Chera emperor Senguttuvan, the hero of *Chilappathikaram*. A pilgrimage to this temple during the festival is considered sacred and is believed to be a potential deterrent to infectious diseases because the virgin Goddess Kali enshrined in this temple is supposed to preside over small pox and cholera. The earlier practices of the recitation of a series of obscene songs sung loudly on the way and inside the temple has now been discontinued. Similarly the bloody sacrifice of large number of cocks have been stopped in 1954, though the pilgrims still continue to let a cock fly in front of the alter as a symbolic offering. Rice, salt, chillies, curri stuffs, betel leaves and nuts, a little turmeric powder and pepper are the other items taken by the pilgrims. Recently Kodungallur has been elevated as a municipal town. Within the municipal limits there are one Government Arts and Science College, 2 High Schools, one Upper Primary School, 7 Lower Primary Schools, an Allopathic hospital, an Ayurvedic dispensary, Telephone Exchange, Post and Telegraphic Office, 8 banks, 3 cinema theatres, 2 temples a church and two mosques. The town is on the threshold of development and is likely to regain its past glory with the completion of the bridge at Kottappuram on the NH–17 which connects Bombay with Cochin.

Kunnamkulam (Talappilly taluk)

76. Kunnamkulam, situated 22 km. north of Trichur, is the chief centre of Jacobite Syrian Christians in the district with many old churches in and around. One of the oldest Jacobite Syrian churches is at Arthat, 3 km. south of Kunnamkulam. The possession of the church and its property was the subject of a prolonged dispute between Jacobites and reformed Syrians. Chiralayam and Kakkad, suburbs of Kunnamkulam were the seats of Ayanikur Nambidi and Kakkad Karanavappad respectively. Porkulam, a prehistoric site, is 3 km. north of Kunnamkulam, where an image of a seated Budha is kept and worshipped over a heep of burial stones in a corner of a temple. Porkulam is also called Vedakkad (meaning the forest of Vedas) because here many dialogues were held by famous poets like Uddanda Sastri and Kakkasseri Bhattathiri. It was also the birth place of Payyur Bhattathiris. Kunnamkulam is an important centre of arecanut trade. Book binding industry thrives here. The important institutions here are Government Junior Technical School, 5 High Schools, an Upper Primary School, 9 Lower Primary Schools, a Government Blind and Deaf School, a Government Allopathic hospital Govenment Ayurvedic dispensary, a Government Veterinary Poly Clinic, Telephone Exchange, Post & Telegraph Office, markets, 7 banks, 3 cinema theatre 7 temples, 3 churches and 2 mosques. The *munimadas* here is an archaeological monument.

Mathilakam (Kodungallur taluk)

77. Mathilakam (in Pappinivattam village) on the NH–17 is situated 9 km. north of Kodungallur and 35 km. south-west of Trichur. The Trippakkulam Siva temple is believed to have been consecrated by Lord Parasurama. According to *Chilappathikaram*. the great scholar Ilango Adikal, younger brother of Senguttuvan, resided here. This place was also a jain stronghold in the early centuries. There are two Private High Schools, 2 Upper Primary Schools, 4 Lower Primary Schools, a Family Welfare Centre, a Government Veterinary Hospital, a Post & Telegraph Office, 3 banks, a theatre, 2 churches and 2 mosques.

Mulankunnathukavu (Trichur taluk)

78. Situated 10 km. north of Trichur, Mulankunnathukavu (in Killannur Village) is an important place in the Trichur–Shoranur section of the Southern Railway. The place got the name after the famous Ayyappankavu (Sastha temple). There are also 3 other temples and 3 churches in this village. The T.B. Sanatorium, which has now been converted into Trichur Medical College is situated 3 km. north of Mulankunnathukavu in Vellappaya village.

Mullurkkara (Talappilly taluk)

79. Mullurkkara which lies 27 km. north of Trichur is historically important as it was the seat of Manakot Nair chief of Ayirunad whose territories were annexed by Paliath Achan in 1740 in retaliation against his acceptance of Zamorin's suzerainty. Paliath Achan also constructed a fort here to protect his territory from the Zamorins. The place has a U.P. School, L.P. School, Government Ayurvedic Dispensary, a cinema theatre, 4 temples, a church and 2 mosques.

Ollur (Trichur taluk)

80. Ollur, situated 5 kilometres south of Trichur on the National Highway, is well-known for its tiles, rice mills and timber industries. Synthetic stones imported from Switzerland are polished and processed here and are re-exported to foreign countries. There is an industrial estate in this town. Ollur is a centre of Roman Catholics in the district with a famous ancient Roman Catholic church. There are also 3 other churches and 5 temples in this town, besides 4 High Schools, 2 Upper Primary Schools, 2 Lower Primary Schools, a Veterinary hospital, Post and Telegraph Office and cinema talkies.

Oorakam (Trichur taluk)

81. Oorakam (Urakam) which was the scene of fierce battle between the forces of Zamorin and Cochin Raja is situated 11 km. south of Trichur. It was also the scene of battle between the Dutch and the Zamorin's forces and they pillaged the famous 'Amman Thiruvadi' temple of this place. There is only one Lower Primary School, Primary Health Centre, Post Office, a Bank and 2 temples in Oorakam desom.

Pavaratti (Chavakkad taluk)

82. Situated 30 km. north-west of Trichur, Pavaratti is an important educational centre with a Sahitya Deepika Sanskrit College, a Basic Training School, 4 High Schools, 5 U.P.S., 12 L.P.S., a private hospital, a Government Dispensary, 2 Family Welfare Centres, Post & Telegraph Offices, 4 banks, a cinema talkies, 7 temples, 3 churches and 5 mosques. The festival of St. Joseph's Parish Church which is celebrated every year on the third Saturday and Sunday after the Easter, attracts lakhs of devotees.

Pazhanji (Talappilly taluk)

83. Pazhanji is situated 28 km. north-west of Trichur and it is an important trading centre of arecanut. It has one High School with U.P.S., 3 Lower Primary School, a Health Centre, a Family Welfare Centre, a Leprosy Clinic, a Veterinary Hospital, Public Call Office, Post & Telegraph Office, 3 banks, 3 temples, 3 churches and a mosque.

Pazhayannur (Talappilly taluk)

84. Pazhayannur, located 45 km. north-east of Trichur, is famous for its Bhagavathi temple, the tutelary deity of the Cochin Royal house. There is a high school with U.P.S., 2 Lower Primary Schools, Public Call Office, Post & Telegraph Office, 4 Banks, one cinema talkies, 4 temples and 3 mosques. The Cheerakuzhi regulator across Pulazhipuzha is also situated on the eastern boundary of Pazhayannur village.

Peechi (Trichur taluk)

85. Situated 24 kilometres east of Trichur, Peechi is known for the irrigation dam constructed across Manali river. The dam, 700 ft. long and 134 ft. high, forms a reservoir with a water spread of 3200 acres. The extensive botanical gardens and parks with attractive fountains and cascades and the beautiful lake with facilities for cruise and also enable to see wild animals in their natural habitat. The Peechi Rest House and the Swimming pool are the other attractions which made the place as a tourist attraction. Kerala Engineering Research Institute is also located here.

Perumanam (Trichur taluk)

86. At a distance of about 10 km. south of Trichur Perumanam (in Urakam village) has a renowned temple dedicated to Siva. The temple has some mural paintings on the *Sreekovil* belonged to the 17th and 18th centuries. Till 1763, the temple was administered by Yogatirippad, the ecclisiastical head of Perumanam, who was elected by the Namboothiri yogams of the area. Saktan Tampuran put an end to the system of Yogatirippad and the temple was taken over by the Government, though some dispute in the management of the temple with Travancore was in existent after the cessation of Parur in 1764. However, it was finally settled in 1882 and the temple came under the full control of Cochin.

Puducad (Mukundapuram taluk)

87. Puducad (in Thoravu village) is situated 11 km. south of Trichur. The Alagappanagar Polytechnic, located 2 km. from here in the neighbouring Amballur village is an important institution. Besides, there is a High School, 2 Upper Primary School, a Lower Primary School, a Government Hospital, a Primary Health Centre, a Veterinary Hospital, a Post & Telegraph Office, 7 banks, 5 temples and a church.

Thiruvilwamala (Talappilly taluk)

88. Situated 51 km. north-east of Trichur, Thiruvilwamala is famous for its temple built on the top of an extensive granite hill and dedicated to Sree Rama and Lakshmana. The annual *Ekadasi* festival held during February–March attracts thousands of pilgrims. Very near to the temple, there are two important sites viz. *Punarjani* and *Rakshasappara*. *Punarjani* is a cave with two openings and the general belief is that one who passes through it will be extinguished from sins. The Rakshasappara is believed to be the place where Sree Rama and Lakshmana slained the *Rakshasas*, (demons) during their *Vanavasa*. There are a Government High School with U.P.S., a Lower Primary School a Nursery School, a Government Ayurvedic Dispensary, Post & Telegraph Office, 2 banks, 7 temples and 3 mosques.

Trichur (Trichur taluk)

89. Trichur, the headquarters of Trichur district, is derived its name from the word 'Trissivaperur'

meaning the town with the name of Lord Siva. The town is built around the Vadakkunnathan (Siva) temple, which is believed to have been founded by Parasurama. The legend goes that Adi Sankaracharya was born out of the prayers of his parents to Lord Vadakkunnathan. This ancient temple, one of the largest and best endowed in the district, is enclosed by a thick masonry wall with four lofty *gopurams*, all represent the classical Kerala style of architecture. Besides the principal deity, there are other small shrines within its *Nalambalam*. It has a few ancient mural paintings dating back to the 16th and 17th centuries. In the sixteenth century the Maharajas of Cochin had their residence at Trichur. Trichur has seen many battles and had been captured and occupied by the Zamorin, Hyder Ali and Tippu Sultan. A detatchment of Madras Infantry was stationed here from 1809 to 1900. 'Trichur Pooram' Pooram asterism in the month of *Medam* (April-May) every year, is famous within and outside the state and it attracts large number of devotees as well as persons from all walks of life. The origin of the Pooram festival was the outcome of the torrential rains in a certain year which prevented the *Poorakkars* of Trichur to participate the Arattupuzha pooram. They were stranded in the midway and could not participate in the festival, resulting in insult from the Arattupuzha people. Disgusted with this act and following the advice offered by Sakthan Thampuran, the *Poorakkars* of Trichur decided to celebrate the Pooram in the month of Medam, as their usual celebration of the Pooram at Arattupuzha in Meenam was intercepted. The earlier Arattupuzha pooram was thus divided into two *Poorams*—46 Gods and Goddesses associating with the Arattupuzha Pooram and 10 with the Trichur pooram. Of late only nine Gods and Goddesses participate in the Pooram and the Panakkappilly temple is now not represented. The festival is mainly conducted in the *Thekkinkadu maidan*, now known as 'the round.' It is worth mentioning that there is no special pooja or offering or Utsavam connected with the festival in the Vadakkunnathan temple and Vadakkunnathan is only a spectator in the celebration of Pooram festival in which Kanimangalam, Karamukku, Chembookavu, Laloor, Choorakkattukara, Nethralakavu, Ayyanthole, Paramekkavu and Thiruvambadi are represented. Of these temples, Thiruvambadi and Paramekkavu situated on the northern and eastern sides of the Vadakkunnathan temple are important. Thiruvambadi was originally a Devi temple and on a later date the idol of Sree-krishna was installed and now greater veneration and importance is given to Lord Krishna. Paramekkavu is a Bhagavathi temple. The festival comprising of richly bedecked elephants from all these temples, the particular colourful attraction being the meeting of the two rival groups representing the Paramekkavu and Thiruvambadi each lying with the other in making the procession of elephants and display of fireworks. Mural paintings from all parts of the state are copied and exhibited in the Archaeological Museum and Picture Gallery at the Town Hall. The Zoo at the Public Gardens is noted for its reptile house. Trichur is an important centre of Syrian Christians. The Puthen Palli at Trichur considered to be one of the largest churches in India is very beautiful with a blend of Indian and Gothic styles of architecture. Trichur is a commercial centre and a centre of chitti companies and well-connected by railway line and roads. Several bus routes originates from here. There is a district depot of Kerala State Road Transport Corporation. However, private buses dominate the road transport in the town. There are several educational institutions including an Engineering College, Training College etc. in and around the town. The seat of Kerala Agricultural University is at Mannuthy on the outskirts of the town. The offices of Kerala Sahithya Academy and Kerala Sangeetha Nataka Academy are located in Trichur, the cultural capital of Kerala.

Trikkur (Mukundapuram taluk)

90. Trikkur, situated 16 km. south of Trichur is famous for its rock-cut temple dedicated to Lord Sankaranarayana on a granite hill. There is a High School, 2 U.P.S., 2 L.P.S., a Government Dispensary, a Veterinary Hospital, Post Office, 2 banks, 4 other temples and a church.

Triprayar (Chavakkad taluk)

91. Located 23 km. west of Trichur, Triprayar (in Nattika village) is famous for its Sree Rama temple. The annual festival Triprayar Ekadasi held in the month of *Vrichigam* (November-December) attracts large number of pilgrims. The important institutions here are the Sree Rama Polytechnic, a private Arts and Science College, 2 U.P.S., one Allopathic hospital and post office and 2 temples.

Wadakkancherry (Talappilly taluk)

92. Wadakkancherry, the headquarters of Talappilly taluk is situated on the western bank of Wadakkancherry river 19 km. north of Trichur. The Vazhani dam constructed to harness the waters of Wadakkancherry river is situated 8 km. east of Wadakkancherry. All important institutions are located in the area covered by portions of Kumaranellur, Wadakkancherry and Enkakkad villages. They include a Government Industrial School, a College, 2 High Schools, 2 U.P.S., 4 L.P.S., Telephone Exchange, Post and Telegraph Office, a Government hospital, a homoeopathic dispensary, a Veterinary Hospital, 5 temples, 2 churches and 4 mosques besides Munsiff courts.

ANALYSIS OF DATA

District and taluk-wise census data

(i) AREA

93. Trichur district has an area of 3,032 sq. km. according to the Surveyor General of India which constitute 7·8 per cent of the total area of the state. 7·10 per cent of the district area falls in urban areas as against the corresponding percentage of 4·60 at the state level. There is wide disparity in area between taluks of the district. Mukundapuram is the largest taluk in the district (1,316 sq. km.) while Kodungallur taluk is the smallest (144·9 sq. km.). The details of area, population and number of villages and towns in the district and the taluks are given in Table 2.

TABLE 2

POPULATION, NUMBER OF VILLAGES AND TOWNS, 1981

District/Taluk	Total Rural Urban	Area in sq. km.	Population			Number of villages		Number of towns
			Persons	Males	Females	Total	Inhabited

	R	1273.1	595,047	286,651	308,396	52	52	..
	U	42.9	79,102	38,567	40,535	..	..	3

(ii) POPULATION

94. According to the census of India 1981, Trichur district had a population of 2,439,543 which works out to 9·58 per cent of the total population of the state. Among taluks Mukundapuram with 6·7 lakh persons is the most populous and Kodungallur with 2·5 lakh persons is the least populous. Trichur district has only 21·10 per cent of its population in urban areas against the corresponding 18·74 per cent in the state. The highest proportion of urban population is in Trichur taluk (44·55 per cent) whereas in Talappilly taluk the urban population constitute only 4·17 per cent.

(iii) SEX RATIO

95. In all censuses, Trichur has recorded a predominence of females. At the turn of the century (in 1901 census) the sex ratio (females per 1,000 males was 1,004 and it gradually increased till 1951 and then showed a decline in 1961 and 1971 censuses and then increased in 1981, the figures being 1,009 in 1911, 1,051 in 1921, 1,075 in 1931, 1,082 in 1941, 1,105 in 1951, 1,093 in 1961, 1,081 in 1971 and 1,100 in 1981. Among the districts of Kerala, Trichur has the highest sex ratio which indicate an excess of 100 females for every 1,000 males, whereas at the state level the excess of females being only 32. The sex ratio is even more in rural areas with 1,108 as against 1,070 in urban areas. Among the taluks of the district, the highest sex ratio is in Chavakkad taluk (1,182) and the lowest is in Trichur taluk (1,069). In the district as well as in all the taluks (except Chavakkad) the sex ratio in rural areas is higher than that in urban areas. In Chavakkad taluk, however, the sex ratio in urban areas is slightly

106/490—14

higher (1,185) as compared to rural areas. The low ranks in sex ratio are held by Mukundapuram taluk in the rural areas and Trichur taluk in the urban areas.

(iv) DENSITY OF POPULATION

96. Eighty years ago (in 1901) the density of population of the district was only 225 persons per sq. km. and it doubled by the 1951 census and reached more than three and a half times in 1981. The density figures for these censuses were 254 in 1911, 268 in 1921, 328 in 1931, 381 in 1941, 463 in 1951, 557 in 1961, 702 in 1971 and finally 805 in 1981. The densities of the district have all along been higher than the state rates in all censuses, the disparity being 150 persons in 1981 (ie. 805 persons per sq. km. for Trichur as against 655 for the state). However, the most densely populated taluk in the district is the coastal taluk Kodungallur (1,747) while lowest density is recorded in Mukundapuram taluk (512) which has a vast tract of forests. Chavakkad, Trichur and Kodungallur taluks have density of above, 1,000 and also higher than that of the district average whereas Talappilly and Mukundapuram taluks record lower densities than that of the district. There is wider disparity in density of population between rural and urban areas at the district level, the density in urban areas being more than three times the density in rural areas. The density in urban areas is higher than that of rural areas of all taluks, of which, the density in the urban areas are 4 times in Talappilly and Mukundapuram taluks, while that of Trichur is more than 3 times. The highest density in rural areas is in the coastal taluk of Kodungallur. Mukundapuram taluk which has a large tract of forest areas has the lowest density. But in urban areas, though the lowest density is in Mukundapuram taluk, the highest density is in Talappilly taluk having only one town viz. Kunnamkulam.

(iv) GROWTH OF POPULATION

97. The decennial growth of population shows fluctuations from census to census indicating a decline in rate during every alternate decade ie. 12.65 in 1901–11; 5·72 in 1911–21; 22·14 in 1921–31; 16·17 in 1931–41; 21·53 in 1941–51; 20·32 in 1951–61; 26·09 in 1961–71 and 14·60 in 1971–81. The decennial growth rate in the present decade (14·60) is below the state growth rate (19·24). Among taluks, the growth rates vary between 13·68 per cent in Trichur taluk and 15·62 per cent in Kodungallur taluk. In rural areas of the district the growth rate during 1971–81 is only 2·44 per cent in contrast to 106·04 per cent in the urban areas. Obviously this is because several villages in 1971 have been treated as towns in the 1981 census

TABLE 3

DECADAL CHANGE IN DISTRIBUTION OF POPULATION

District/ Taluk	P M F	Population 1971 Total	1971 Rural	1971 Urban	1981 Total	1981 Rural	1981 Urban	Percentage variation decadal (1971-81) Total	Rural	Urban

* Newly added towns of 1981

P—Persons; M—Males; F—Females

ie. 9 towns in 1971 as against 25 towns in 1981 census. Consequent on treating more villages as towns the rural population in Trichur taluk has decreased by 23·72 per cent against the increase of urban population by 191·60 per cent. On the contrary in Talappilly taluk where the number of towns has decreased from 3 in 1971 to 1 in 1981, the urban population has decreased by 50·63 per cent whereas the rural population has increased by 22·74 per cent. Generally the growth rates of rural and urban areas are closely linked with the addition and declassification of towns. The decennial growth rate during 1971–81 for males is 13·58 per cent against 15·54 per cent for females. The decline in the growth rate of males coupled with the decline in the growth rate of the district indicate large number of outmigrants, especially in the absence of any striking imbalance of vital events among males. Kodungallur taluk has the highest growth rate of females (17·00 per cent) and Trichur taluk has the lowest growth rate (14·72 per cent) during the decade. In the case of males, the highest decadal growth rate, 14·87 per cent, is in Talappilly taluk and the lowest growth rate is in Trichur taluk. The difference between the growth rate of males and females is largest in Kodungallur taluk and least in Chavakkad taluk.

(v) Scheduled Castes and Scheduled Tribes

98. In Trichur district, in the census of 1981, 302,085 persons have returned as Scheduled Castes and 3,227 persons as Scheduled Tribes. accounting for 12·38 per cent and 0·13 per cent respectively of the total population. The proportion of Scheduled Castes in the district is higher than that of the state (viz.) 10·02 per cent whereas the proportion of Scheduled Tribes is much less than that of the state (viz.) 1·03 per cent. According to the census of 1971 there were 216,237 persons as Scheduled Castes and 9,383 persons as Scheduled Tribes in the district constituting 10·16 and 0·44 per cent of total population. The main reason for the decline in the number of Scheduled Tribes was the reclassification of some Scheduled tribes in 1971 as Scheduled Castes as per the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act 1976, particularly among Pulayas in Chavakkad taluk which had a population of 6,921 in 1971. The proportion of the Scheduled Castes in the district in 1981 accounts for 11·85 per cent of the total Scheduled Caste population in Kerala whereas the population of Scheduled Tribes in the district is only 1·23 per cent of the Scheduled Tribe population of the state.

99. In the population of the district, 12·38 per cent are scheduled castes in contrast to 13·48 per cent in the rural areas and 8·27 per cent in the urban areas. The proportion of scheduled castes in the population is highest in Talappilly taluk (15·91 per cent) and lowest in Kodungallur taluk (9·92). The proportion of Scheduled Castes in Chavakkad and Talappilly taluks are higher than that of the district and in the other taluks it is lower. Though Talappilly taluk ranks highest among taluks in the proportion of scheduled castes in both rural and urban areas, the lowest position is now held by Kodungallur taluk in the rural areas and Trichur taluk in the urban areas.

100. Scheduled Tribe population is very small in the district constituting only 0·13 per cent of the population. The highest proportion of 0·30 per cent is in Mukundapuram taluk. In Kodungallur taluk there are only 2 persons belonging to Scheduled Tribes. No Scheduled Tribe has been returned from the urban areas of Kodungallur and Mukundapuram taluks.

(vi) Literacy

101. In Trichur district 73·59 per cent of the population are literates in 1981 whereas only 70·42 per cent for the state. The literacy rate among males is 77·31 and among females it is 70·21 against 75·26 and 65·73 respectively in the State. Therefore, the disparity of male and female rates is less in the district compared to the position in the State. In contrast to 1971 the literacy rate has gone up by about 12 points for total, 11 points for males and 13 points for females, which indicate that the growth of female literacy over the decade is significant. The literacy rates in rural and urban areas of the district are 72·16 and 78·93 respectively as against 69·11 for rural and 76·11 for urban in the State. Coming to male literacy rate for 1981 urban rates are higher by 6 points while for females the difference is 7 points. The highest literacy rate is in Trichur taluk (78·29 per cent) and the lowest in Talappilly taluk (67·65). These rankings hold good in respect of male and female literacy also. Keeping the general pattern the literacy rate in rural areas is lower than that in urban areas at the district and in taluks. However, Chavakkad taluk records only marginal difference between rural and urban rates. The highest rural literacy rate is in Trichur taluk and the lowest in Talappilly taluk. But in urban areas the highest literacy rate is in Talappilly taluk with almost equal rate in Trichur taluk while the lowest rate is in Chavakkad taluk.

(vii) Workers

102. The change in concept of workers has already been explained earlier. In the district, total workers constitute 29·63 per cent of the population, 26·60 per cent being main workers and the rest marginal workers. There is considerable disparity in male and

female work participation rates based on main work and consequently in the total work participation. While 38·73 per cent of males are main workers only 15·56 per cent of females are engaged in main work. But in the case of marginal work, the participation rate is 3·08 per cent for males 2·99 per cent for females. Though there is no significant difference between rural and urban areas in respect of the total work participation rates, male rate is higher in urban areas than in rural areas whereas for females the rate in rural areas is higher than that in urban areas. The low work participation rate among main workers in urban areas is more significant in respect of the low participation rate of females. Just the contrary the male participation rate among main workers is higher in urban areas. The proportion of marginal workers to population is higher in rural areas than in urban areas in the case of both males and females.

103. Considering total workers ie. main workers and marginal workers together, the total work participation rate is highest in Talappilly taluk (32·98, 44·33 and 22·79 per cent respectively for total, males and females) and lowest in Chavakkad taluk (24·52, 35·95 and 14·85 for total, males and females). In Chavakkad and Mukundapuram taluks the rates are higher in rural areas than urban areas. In Kodungallur taluk the rates of persons and males are higher in urban areas and in Talappilly and Trichur taluks the rates of males are higher in urban areas.

104. In the case of main workers, the higher participation rate is in Talappilly taluk 29·91, 41·30 and 19·69 per cent respectively for total, males and females and the lowest participation rate is in Chavakkad taluk with 22·66, 34·04 and 13·03 per cent respectively. In all the taluks the participation rate for females is higher in rural areas than in urban areas. In Mukundapuram taluk, the rates are higher in rural areas for total, males and females. In all other taluks the rates for males are higher in urban areas. The total rates for males are higher in urban areas in Talappilly, Trichur and Kodungallur taluks compared to rural rates.

105. The percentage of marginal workers is highest in Kodungallur taluk with 4·22, 4·15 and 4·28 per cent respectively for total, males and females and is lowest in Chavakkad taluk with 1·85, 1·90 and 1·81 per cent respectively. In all the taluks except Kodungallur, the proportion of marginal workers in rural areas is higher than that in urban areas, whereas in Kodungallur taluk it is higher in urban areas in respect of total and males. However, in the case of females there is not much difference between rural and urban rates. In Chavakkad and Talappilly taluks the proportion of marginal workers in urban areas is very low.

Village-wise census data

(i) POPULATION

106. There are 213 villages constituting the rural population of the district. Of these, 12 are residuary portions of villages partly lying within the statutory towns and, therefore, only the area and population of the residuary portion of these villages are considered here. More than 70 per cent of the villages in the district are having population of 5,000 and above and about 30 per cent have population above 10,000. There are only two villages with a population less than 200. They are Kunnamkulam in Talappilly taluk with 99 persons and Poonkunnam in Trichur taluk with 21 persons. Of these, Kunnamkulam village, which is treated as rural, is the residuary portion of the village lying outside the Kunnamkulam municipality. Poonkunnam is covered mostly by paddy fields with low habitation. There are no villages in the population range 200–499. About a quarter of the villages are in the population range 2,000–4,999. Villages having population between 5,000 and 9,999 form the largest group claiming 43 per cent of the total number of villages in the district. Table 5 shows the number and percentage of villages in the district under different population ranges.

TABLE 5

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3
Total	**213**	**100·00**
Less than 200	2	0.94
200—499	..	..
500—1999	6	2.82
2000—4999	50	23.48
5000—9999	92	43.19
10000—14999	32	15.02
15000—19999	15	7·04
20000—29999	14	6·57
30000—34999	2	0·94
35000+	..	..

In respect of area and population, the largest village in the district is Panancherry in Trichur taluk with 66·71 sq. km. and 34,051 persons. Other villages with a population of 25,000 and above are Valappad (29,885), Orumanayur (29,592) and Punnayur (25,190) in Chavakkad taluk; Kaipamangalam (26, 275) in Kodungallur taluk and Mattathur (32,930) and Kodasery (28, 062) in Mukundapuram taluk.

(ii) DENSITY

107. Of the 213 villages in the district, 195 are having density of population of above 500 persons per sq. km.

TABLE 6

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
Total	**213**	**100.00**
—10	..	..
11—20	1	0.47
21—50	..	..
51—100	1	0.47
101—200	1	0.47
201—300	4	1.88
301—500	11	5.16
501+	195	91.55

106/490—15

All the 15 villages of Chavakkad taluk, 20 villages of Talappilly taluk, 28 villages of Trichur, 13 villages of Kodungallur taluk and 26 villages of Mukundapuram taluk have density of more than 1,000 persons per sq. km. There are 5 villages in the district having density of population above 2,000. They are Edavilangu (2,096), Eriyad (2,259) and Azhikode (2,258) of Kodungallur taluk; Pavaratty (2,013) of Chavakkad taluk and Chelakkara (2,018) of Trichur taluk. Poonkunnam village, major portion of which are paddy fields, is the village with lowest density of 14 persons per sq. km. Kunnamkulam village is having a density of 90 persons only. Attur (134) is the only village in the density range of 101–200. There are 4 villages (3 in Talappilly taluk and 1 in Trichur taluk) in the density range 201–300 and 11 villages (8 in Talappilly taluk and 3 in Trichur taluk) in the density range 301–500.

(iii) Scheduled Castes and Scheduled Tribes

108. Scheduled Castes live mostly in rural areas which works out to 85·91 per cent of the Scheduled Caste population of the district. Scheduled castes are returned from all the villages of the district, except the small Poonkunnam village of Trichur taluk. However, in 6 villages the strength of scheduled castes is less than 6 per cent of the population. More than 65 per cent of the villages in the district fall in the range of 6–15 per cent of scheduled castes in their population.

TABLE 7

PROPORTION OF SCHEDULED CASTE POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of scheduled caste population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
Total	**213**	**100.00**
NIL	1	0.47
less than 6	6	2.82
6—10	57	26.76
11—15	82	38.50
16—20	37	17.37
21—30	28	13.14
31 and above	2	0.94

Among the villages, 82 (constituting 38·50 per cent of the total villages) have the proportion of scheduled castes ranging between 11 and 15 per cent of the population and 57 villages (constituting 26·76 per cent of total ivllages) in the range of 6–10 per cent. In 30 villages (constituting over 14 per cent of the total villages) the proportion of scheduled castes among population is over 20 per cent. Of these, 2 villages viz. Chelakkode and Vennur in Talappilly taluk are having more than 35 per cent of the population as scheduled castes.

109. As already seen, the population of scheduled tribes is too small in the district. 99 per cent of the scheduled tribes live in rural areas. There are scheduled tribes in only 44 out of 213 villages and even in these villages, their strength is less than 3 per cent of the population of the village. In many cases their presence is only nominal.

TABLE 8

PROPORTION OF SCHEDULED TRIBE POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of scheduled tribe population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3

NIL	169	79.34
less than 6	44	20.66
6—15	..	..
16—25	..	..
26—35	..	..
36—50	..	..
51 and above	..	..

Kodassery village of Mukundapuram taluk has the highest number of scheduled castes with 724 persons followed by Panancherry village (570) of Trichur taluk.

110. In the urban population of the district, 8·27 per cent are scheduled castes whereas only 0·01 per cent are scheduled tribes. Among the total scheduled castes only 14 per cent lives in urban areas against a corresponding percentage of 1 per cent for scheduled tribes. There are scheduled castes in all the 25 towns of the district. But scheduled tribes have been returned from only 9 towns and even in these towns their number is too small.

The highest proportion of scheduled castes to total population is in Kanimangalam town (18·42 per cent) and the lowest proportion in Trichur municipality (4·41 per cent). But in absolute numbers Trichur town leads in respect of Scheduled Castes (3,524 persons) as well as Scheduled Tribes (12 persons)

TABLE 9

(iv) LITERACY

111. Excluding the two villages with population of less than 200, where the rate of literacy is less than 60 per cent, there is not much difference in literacy rates of villages of different population sizes. In villages of population size group 2,000–4,999, 71 per cent are literates and in other size groups 72 per cent literates.

TABLE 10

LITERACY RATES BY POPULATION RANGES OF VILLAGES

Range of population	No. of villages in each range	General literacy rate
1	2	3
Total	**213**	**72.27**
—200	2	57.50
200—499	..	..
500—1,999	6	72.02
2,000—4,999	50	71.07
5,000—9,999	92	72.22
10,000+	63	72.51

112. In all the towns of the district, except Chavakkad municipality, the literacy rate is more than 75 per cent. In Chavakkad town only 64·97 per cent are literates. The highest literacy rate 83·74 per cent is in Trichur town. Among the towns other than Chavakkad, the lowest literacy of 75·92 per cent is in Vilvattom town.

TABLE 11

LITERACY RATES FOR TOWNS

	Town (in alphabetical order)		General literacy rate

Village Directory Data

113. All the 213 villages of the district have the amenities of drinking water, communication, pucca road and electric supply. 204 villages have at least one educational institution and 179 villages have at least one medical institution. 206 villages have Post and Telegraph offices. But markets are available only in 72 villages.

TABLE 12

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

District/ Taluk	No. of inhabited villages	Number (with percentage) of villages having one or more of the following amenities: Educational	Medical	Drinking water	Post & Telegraph	Market/ hat	Communication	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
Trichur	**213**	**204(95.77)**	**179(84.04)**	**213(100)**	**206(96.71)**	**72(33.80)**	**213(100)**	**213(100)**	**213(100)**
1. Chavakkad	15	15(100)	15(100)	15(100)	15(100)	10(66.67)	15(100)	15(100)	15(100)
2. Talappilly	74	71(95.95)	55(74.32)	74(100)	73(98.65)	16(21.62)	74(100)	74(100)	74(100)
3. Trichur	57	53(92.98)	44(77.19)	57(100)	53(92.98)	26(45.61)	57(100)	57(100)	57(100)
4. Kodungallur	15	15(100)	15(100)	15(100)	14(93.33)	8(53.33)	15(100)	15(100)	15(100)
5. Mukundapuram	52	50(96.15)	50(96.15)	52(100)	51(98.08)	12(23.08)	52(100)	52(100)	52(100)

Among the taluks of the district, Chavakkad taluk have all the amenities except market in all the 15 villages of the taluk. Even in the case of markets, this taluk having markets in 10 out of 15 villages, is in a far better position than other taluks. All the 15 villages of Kodungallur taluk have all the amenities except Post and Telegraph and markets. But it is only in one village of the taluk where there is no Post and Telegraph office. In 7 villages, there are no markets. Among the other taluks, there is no educational institution in 2 villages of Mukundapuram, 3 villages of Talappilly and 4 villages of Trichur. There are medical institutions in all except 2 villages of Mukundapuram taluk, while no medical institution is located in 13 villages of Trichur taluk and 19 villages of Talappilly taluk. There are Post and Telegraph offices in all villages in the district except in 4 villages of Trichur taluk and one village each in Talappilly, Kodungallur and Mukundapuram taluks. Markets are available only in 21·62 per cent of the villages in Talappilly, 23·08 per cent of the villages in Mukundapuram and 45·61 per cent of villages in Trichur taluk.

114. The following table gives the proportion of population served by each of the amenities given in the earlier table.

TABLE 13

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

District/ Taluk	Total population of inhabited villages in the taluk	Proportion of rural population served by the amenity of: Educational	Medical	Drinking water	Post and Telegraph	Market/ hat	Communication	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
Trichur	**1,924,760**	**98.97**	**93.08**	**100**	**99.19**	**40.62**	**100**	**100**	**100**
1. Chavakkad	317,199	100	100	100	100	66.68	100	100	100
2. Talappilly	447,274	98.61	82.32	100	99,98	24.21	100	100	100
3. Trichur	370,866	98.41	86.79	100	98.18	50.20	100	100	100
4. Kodungallur	194,374	100	100	100	96.41	50.48	100	100	100
5. Mukundapuram	595,047	98.71	99.14	100	99.70	29.87	100	100	100

In the district, 98·97 per cent of the population are served by educational institutions, 93·08 per cent by medical institutions and 99·19 per cent by Post and Telegraph offices. Markets serve only 40·62 per cent of the population. The other amenities viz. drinking water, communication, pucca road and power supply are available to the entire rural population. In Chavakkad taluk, the entire population is served by all the amenities (except markets) and in Kodungallur taluk, all the amenities (except Post and Telegraph and markets) are available to the entire population. In Talappilly, Trichur and Mukundapuram taluks more than 98 per cent of the population are served by educational institutions. While more than 99 per cent of the population in Mukundapuram taluk are served by medical institutions, in Talappilly taluk they serve only 82·32 per cent and in Trichur taluk 86·79 per cent of the population. It is in Kodungallur taluk where the proportion of population served by Post and Telegraph offices is the least. But even in this taluk 96·41 per cent of the population are served by such offices. More than 50 per cent of the population in Trichur and Kodungallur taluks and more than 66 per cent of the population in Chavakkad taluk are served by markets. Only 24·21 per cent of the population in Talappilly taluk and 29·87 per cent of the population in Mukundapuram taluk are served by markets.

115. In the case of villages not having Educational and Post and Telegraph institutions in them they are available within a radius of 5 km. Out of 34 villages having no medical institutions within them, 33 villages have the facility within a distance of 5 km. and that of one village (viz. Vennur in Talappilly taluk) it is available at a distance range of 5–10 km. In the case of 141 villages which have no market facilities, 53 villages have it within a distance of 5 km., 61 villages within a distance range of 5–10 km. and 27 villages have it at a distance of more than 10 km.

TABLE 14

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Village not having the amenity of	Number of villages where the amenity is not available and available at a distance of			
	—5 km	5—10 km	10+km	Total cols (2-4)
1	2	3	4	5
Educational	9	..	..	9
Medical	33	1	..	34
Post and Telegraph	7	..	..	7
Market	53	61	27	141

116. In amenities like drinking water, communication, approach to pucca road and power supply, all the villages provide the facility irrespective of the distance from the nearest town. In respect of other amenities like educational, medical, post and telegraph and market, the villages have to depend on other neighbouring villages or towns.

TABLE 15

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in km.)	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Educational	Medical	Drinking water	Post & Telegraph	Market/hat	Communication	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
Total	**213**	**204(95.77)**	**179(84.04)**	**213(100)**	**206(96.71)**	**72(33.80)**	**213(100)**	**213(100)**	**213(100)**
0–5	47	41(87.23)	40(85.11)	47(100)	43(91.49)	10(21.28)	47(100)	47(100)	47(100)
6–15	123	122(99.19)	104(84.55)	123(100)	121(98.37)	49(39.84)	123(100)	123(100)	123(100)
16–50	43	41(95.35)	35(81.40)	43(100)	42(97.67)	13(30.23)	43(100)	43(100)	43(100)
51+	..	..	..	..	..	..	..	..	..

The data do not show any correlation between the distance from nearest town and the availability of amenities. Among the villages within 5 kilometres distance from a town, 87·23 per cent have educational facilities. Similarly among the villages within the range of 6–15 km. and 16–50 km. from the nearest town, 99·19 per cent and 95·35 per cent of the villages respectively have the facility. There is no village in the district at a distance of more than 50 km. from a town. Medical institutions are available in 85·11 per cent of the villages situated at a distance of 0–5 km. from the nearest town as against 84·55 per cent of villages situated within 6–15 km. and 81·40 per cent of villages situated within 16-50 km. from the nearest town. Post and Telegraph offices are available in 91·49 per cent of villages, which are located within a radius of less than 5 km. from a nearest town. 98.37 per cent and 97.67 per cent of the villages located within the radius of 6–15 km. and 16–50 km. respectively away from the nearest town also have Post and Telegraph fecilities. Markets are available only in 21·28 per cent of villages situated within a distance of 5 km. from the nearest town whereas they are available in 39·84 per cent of villages situated

106/490—16

at a distance of 6–15 km. and in 30·23 per cent of villages located at a distance of 16–50 km. from the nearest town.

117. It may be seen that the availability of amenities is related to the population size of the villages. The proportion of villages not having certain amenities is more among small-sized villages compared to large-sized villages. In the two small villages having less than 400 population, there are no educational, medical, post and telegraph institutions and market.

TABLE 16

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of: Educational	Medical	Drinking water	Post & Telegraph	Market/ hat	Communication	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
Total	**213**	**204(95.77)**	**179(84.04)**	**213(100)**	**206(96.71)**	**72(33.80)**	**213(100)**	**213(100)**	**213(100)**
Upto 499	2	..	..	2(100)	..	..	2(100)	2(100)	2(100)
500–1999	6	3(50.00)	2(33.33)	6(100)	4(66.67)	..	6(100)	6(100)	6(100)
2000–4999	50	47(94.00)	32(64.00)	50(100)	48(96.00)	11(22.00)	50(100)	50(100)	50(100)
5000+	155	154(99.35)	145(93.55)	155(100)	154(99.35)	61(39.35)	155(100)	155(100)	155(100)

118. The staple food of the people in all the villages is rice. In several villages wheat also has been reported along with rice.

119. The Ministry of Food and Agriculture has recommended the adoption of the following categories under land use in the presentation of data.

1. Forests
2. Not available for cultivation
   (a) Land put to non-agricultural uses
   (b) Barren and uncultivable lands
3. Other uncultivated lands excluding fallow lands
   (a) Permanent pastures and other grazing lands
   (b) Lands under miscellaneous tree crops and groves not included in the net area sown
   (c) Culturable wastes
4. Fallow lands
   (a) Fallow lands other than current fallows
   (b) Current fallows
5. Net area sown

More than one third (36·20%) of the total area of the district is under forest. Though more than half (51·17%) of the land is cultivated, irrigated area is only 18·58 per cent of the total area of the district. Forest areas are confined to the eastern tract of Talappilly, Trichur and Mukundapuram taluks of which more than half (64·69 per cent) of the area is in Mukundapuram taluk. In Chavakkad and Kodungallur taluks, more than 80 per cent of the land are cultivated and in Mukundapuram taluk the cultivated land is less than 40 per cent of the total area.

TABLE 17

DISTRIBUTION OF LAND USE AREA (PER CENT)

District/ Taluk	Forests	Cultivated land: Irrigated	Cultivated land: Unirrigated	Culturable waste	Area not available for cultivation
1	2	3	4	5	6
Trichur	**36.20**	**18.58**	**32.59**	**6.38**	**6.25**
Chavakkad	..	29.38	52.59	9.87	8.16
Talappilly	22.84	21.59	37.07	11.06	7.44
Trichur	39.31	22.04	27.65	5.36	5.64
Kodungallur	..	22.40	61.93	8.18	7.49
Mukundapuram	51.12	13.48	26.31	3.64	5.45

120. Only 57·55 per cent of the area of the district is cultivable. Mukundapuram taluk has only 43·43 per cent cultivable area whereas the neighbouring Kodungallur taluk has 92·51 per cent cultivable areas. Only 32·29 per cent of the cultivable area of the district its irrigated. The proportion of irrigated land is highest in Trichur taluk and lowest in Kodungallur taluk.

TABLE 18

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

District/Taluk	No. of inhabited villages	Total area in hectares*	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5
Trichur	**213**	**277,865.16**	**57.55**	**32.29**
1. Chavakkad	15	21,126.42	91.84	31.99
2. Talappilly	74	65,602.22	69.72	30.96
3. Trichur	57	52,232.53	55.04	40.04
4. Kodungallur	15	11,595.15	92.51	24.22
5. Mukundapuram	52	127,308.84	43.43	31.05

* The total area is according to village papers and do not agree with the area figures under rural areas derived from the area figures supplied by the Surveyor General, India.

Analysis of Town Directory Data

121. More than one fifth of the population of the district is urban. Though the proportion of urban population in the state has gradually increased from 13·48 per cent in 1951 to 18·74 per cent in 1981, the proportion of urban populationi nT richur district was almost static in the censuses of 1951, 1961 and 1971, but has almost doubled in the last census. In all the previous decades, the proportion of urban population in Trichur district was lower than that of the State, though in the last census, it showed an increase consequent on treating more places as urban.

TABLE 19

GROWTH, DENSITY AND SEX RATIO OF URBAN POPULATION IN THE DISTRICT IN RELATION TO THE STATE

	Census year	Trichur district	Kerala state
1. Total population	1951	1,403,099	13,549,118
	1961	1,688,271	16,903,715
	1971	2,128,797	21,347,375
	1981	2,439,543	25,453,680
2. Urban population	1951	164,182	1,825,832
	1961	185,652	2,554,141
	1971	249,845	3,466,449
	1981	514,783	4,771,275
3. Percentage of urban population	1951	11.70	13,48
	1961	11.00	15.11
	1971	11.74	16.24
	1981	21.10	18.74
4. Decadal percentage variation in urban population	1951	..	+52.72
	1961	+ 13.08	+39.89
	1971	+ 34.58	+35.72
	1981	+106.04	+37.64
5. Urban density (Population per sq. km.)	1951	NA	NA
	1961	2,210	2,285
	1971	2,464	2,585
	1981	2,391	2,669
6. Sex ratio (Number of females per 1000 males)	1951	1,064	992
	1961	1,065	991
	1971	1,067	997
	1981	1,070	1,021

N.A. Not available.

122. In all the previous censuses, the sex ratios in urban areas of the state were in favour of males, but this trend has been reversed in the 1981 census with an excess of 21 females for every 1,000 males. The corresponding sex ratio in the urban areas of the district were in favour of females in all the previous censuses.

123. The density of population in the urban areas of Trichur district is less than that of the state in all the last three censuses. There was not much difference in urban density between the district and state in 1961. In the 1971 census the urban density of the district has gone up but in 1981 it went down. The sudden drop in the density in 1971 is the overall effect of treating new areas as urban in 1981, which are less congested.

124. The analysis on urban data is complete only if the details of the changes in the constituents of urban areas are known. Details of newly formed towns and declassified towns are given hereunder.

TABLE 20

NEW TOWNS/TOWNS DECLASSIFIED IN 1981 CENSUS

IV Kunnamkulam (M)	133.78	58.64	75.14	118.95	57.64	14.49	35.19	0.41	11.22
II Trichur (M)	239.00	91.04	147.96	218.81	9.98	27.57	131.79	1.90	47.57

The highest per capita receipt and expenditure is in Trichur Municipality and the lowest in Chavakkad Municipality. In all towns, except Guruvayur Township, the per capita expenditure is less than the per capita income. But in Guruvayur township, major share of expenditure is under 'other aspects.' Per capita expenditure on general administration is considerably higher in Kunnamkulam Municipality than in other municipalities. It accounts for about half of the total per capita expenditure. Considering all the statutory towns together, the per capita receipts is 125·15 and the per capita expenditure is 106·10 per cent.

126. There is no junior college or higher secondary school in any of the towns, though colleges for graduate and post-graduate studies are located in some of the towns. The degree colleges provide facilities for studying in pre-degree classes. Kunnamkulam municipality has 2·57 high schools per 10,000 population followed by Irinjalakuda (2·30) and Trichur (2·00). There are no secondary schools in Avinissery, Iringaprom, Marathakkara and Vilvattom towns. In the case of upper primary schools also Kunnamkulam tops the list with 3·09 schools per 10,000 population. Trichur municipality tops with 3 upper primary schools per 10,000 population. The lowest number of upper primary schools per 10,000 population is in Kanimangalam Census town. The largest number of Primary Schools per 10,000 population is in Guruvayur Township (10·08) and the lowest in Marathakkara census town (0·91).

ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

Educational facilities

P — Primary or Elementary School
M — Junior Secondary or Middle School
H — Matriculation or Secondary
PUC — Higher Secondary /Intermediate/Pre- University/Junior College
C — College, Any College (graduate level and above) like Arts, Science, Commerce etc.
I — Industrial School
Tr — Training School
Ac — Adult Literacy Class/Centre
O — Other educational institutions. These may include Sanksrit Pathshals, Senior Basic School, Makhtabe etc.

Medical facilities

H — Hospital
MCW — Maternity and Child Welfare Centre
MH — Maternity Home
CWC — Child Welfare Centre
HC — Health Centre
PHC — Primary Health Centre
PHS — Primary Health Subcentre
D — Dispensary
FPC — Family Planning Centre
TB — T.B. Clinic
NH — Nursing Home
RP — Registered Private Practitioner
SMP — Subsidised Medical Practitioner
CHW — Community Health Worker
O — Others

Drinking water facilities

T — Tap water
W — Well water
TK — Tank water
TW — Tubewell water
Hp — Hand pump
R — River water
F — Fountain
C — Canal
L — Lake
S — Spring
N — Nallah
O — Others
NA — Information not available

Post and Telegraph

PO — Post Office
TO — Telegraph Office
PTO — Post and Telegraph Office
Phone — Telephone Connection

Communications

BS — Bus
RS — Railway Station
NW — Navigable waterway (including river, canal backwaters etc.)

Approach to village

PR — Pucca road
KR — Kaccha road
FP — Footpath
NR — Navigable river
NC — Navigable canal
NW — Navigable waterway (other than river or canal)

Electrification facilities

ED — Electricity for domestic purpose
EAG — Electricity for agriculture
EO — Electricity for other purpose like industrial, commercial etc.
EA — Electricity for all purposes listed above

Irrigated by source

GC — Government Canal
PC — Private Canal
W — Well (without electricity)
WE — Well (with electricity)
TW — Tube-well (without electricity)
TWE — Tube-well (with electricity)
TK — Tank
R — River
L — Lake
WF — Waterfall
O — Others
T — Total

196/490—19

PRIMARY CENSUS ABSTRACT

Fly-leaf

The Primary Census Abstract is the basic table compiled manually on full count basis from the information collected in the individual slip and the household schedule Part II (Population Record). Primary Census Abstract comprises of basic data such as area, occupied residential houses, number of households, sex-wise distribution of total population, scheduled castes, scheduled tribes, literates, main workers and their categories, marginal workers and non-workers up to the desom/kara level for rural areas and ward level for urban areas. District Primary Census Abstract up to the level of taluks and towns, village and desom Primary Census Abstract town and ward Primary Census Abstract and Development Block and Panchayat Primary Census Abstract have been presented in four separate tables. In addition, the District Primary Census Abstract for Scheduled Castes and Scheduled Tribes have also been presented separately in two tables.
