1981 CENSUS—PUBLICATION PLAN

(1981 Census Publications, Series 11 in all India Series will be published in the following parts)

GOVERNMENT OF INDIA PUBLICATIONS

Part I-A	Administration Report-Enumeration
Part I-B	Administration Report-Tabulation
Part II-A	General Population Tables
Part II-B	Primary Census Abstract
Part III	General Economic Tables
Part IV	Social and Cultural Tables
Part V	Migration Tables
Part VI	Fertility Tables
Part VII	Tables on Houses and Disabled Population
Part VIII	Household Tables
Part IX	Special Tables on Scheduled Castes and Scheduled Tribes
Part X-A	Town Directory
Part X-B	Survey Reports on selected Towns
Part X-C	Survey Reports on selected Villages
Part XI	Ethnographic Notes and special studies on Scheduled Castes and Scheduled Tribes
Part XII	Census Atlas
Paper I of 1982	Primary Census Abstract for Scheduled Castes and Scheduled Tribes
Paper I of 1984	Household Population by Religion of Head of Household

STATE GOVERNMENT PUBLICATIONS

Part XIII-A&B District Census Handbook for each of the 45 districts in the State (Village and Town Directory and Primary Census Abstract)

प्राक्कथन

जनगणना संगठन द्वारा राज्य सरकारों की ओर से संकलित जिला जनगणना पुस्तिका जनगणना की एक बहुमूल्य उपलब्धि है। जिला जनगणना पुस्तिका की योजना निर्माताओं, प्रशासकों, विद्वानों और अनुसंधान कर्ताओं को बार-बार आवश्यकता होती है। अन्य बातों के साथ-साथ इस पुस्तिका का उपयोग निर्वाचन क्षेत्रों के परिसीमन, स्थानीय स्तरों के निर्धारण और क्षेत्रीय योजनायें बनाने में भी किया जाता है। यह पुस्तिका जिला प्रशासन चलाने में भी सहायक होती है। जिला जनगणना पुस्तिका ही एक मात्र ऐसा प्रकाशन है जिससे ग्रामीण क्षेत्रों के ग्राम स्तर तक के एवं प्रत्येक नगरीय क्षेत्र के वार्ड वार प्राथमिक जनगणना सार के आंकड़े उपलब्ध होते हैं। इसमें ग्रामों और नगरों आदि में उपलब्ध आंतरिक सुविधाओं के बारे में भी जानकारी मिलती है।

जिला जनगणना पुस्तिका की श्रृंखलाओं का प्रारम्भ 1951 की जनगणना में किया गया था। इसमें जिले के प्रत्येक ग्राम और नगर का प्राथमिक जनगणना सार और जनगणना की महत्वपूर्ण सारणियां थीं। 1961 के दौरान जिला जनगणना पुस्तिका के विषय क्षेत्र का विस्तार किया गया। इसमें जिले का विस्तृत ब्यौरा प्रशासनिक सांख्यिकी, जनगणना सारणियां और प्राथमिक जनगणना सार को मिलाकर ग्राम और नगर निर्देशिका भी शामिल की गई। 1971 की जिला जनगणना पुस्तिका की श्रृंखलाओं को तीन भागों में बांटा गया था। क-भाग में ग्राम और नगर निर्देशिका, ख-भाग में ग्राम और नगर का प्राथमिक जनगणना सार और ग-भाग में विश्लेषणात्मक रिपोर्ट, प्रशासनिक सांख्यिकी, जिला जनगणना सारणियां प्राथमिक जनगणना सार पर आधारित कुछ विश्लेषणात्मक रिपोर्टें और ग्रामों के बारे में वहां उपलब्ध सुविधाओं के आंकड़े शामिल थे। तथापि, कुछ राज्यों में इसमें केवल जिला जनगणना सारणियां ही दी गई थीं। कुछ ऐसे भी मामले थे जहां संकलन और मुद्रण में देरी होने से उक्त पुस्तिका प्रकाशित ही नहीं की गई।

1981 की जिला जनगणना पुस्तिका के फार्म तैयार करते समय ग्राम और नगर निर्देशिका के फार्मों में कुछ नए कालम जोड़कर उन्हें फिर से तैयार किया गया। उक्त फार्म बनाते समय 1971 के आंकड़ों की तुलनात्मकता को भी ध्यान में रखा गया है। ग्रामों में बिजली की आपूर्ति के अलावा बाकी उपलब्ध सभी सुविधाओं को ग्राम निर्देशिका में इस अनुदेश के साथ दिखाया गया है कि यदि कोई विशिष्ट सुविधा किसी ग्राम में उपलब्ध नहीं है तो जिस भी निकटतम ग्राम में उक्त सुविधा उपलब्ध है तो उसकी दूरी भी बतायें। ग्राम निर्देशिका के फार्मों को पुनः तैयार करते समय ग्रामीण क्षेत्र में उपलब्ध समस्त आंतरिक सुविधाओं, विशेषकर सुविधाओं और भूमि उपयोग की किस्मों के बारे में और व्यापक आंकड़े समाविष्ट करने से यह आशा की जाती है कि इससे माइक्रोस्तरीय योजना की आवश्यकता और पूरी हो सकेगी। इससे न केवल स्थानीय क्षेत्रों में योजना तैयार करने में सहायता मिलेगी अपितु माल और सेवाओं को भी विनियमित करने और विकास प्रक्रिया में क्षेत्रीय असंतुलन को कम करने में भी सहायता मिलेगी। संशोधित न्यूनतम आवश्यकता कार्यक्रम की कुछ आवश्यकताओं की पूर्ति के लिए सम्बन्धित जानकारी की कुछ नई मदें जोड़ी गई हैं। ये नई मदें हैं: प्रौढ़ शिक्षा केन्द्र, प्राथमिक स्वास्थ्य-उप केन्द्र और ग्रामों में सामुदायिक स्वास्थ्य कार्यकर्ताओं से संबन्धित मदों को उक्त उद्देश्य को ध्यान में रखते हुए ग्राम निर्देशिका में जोड़ा गया है किसी गांव में आने-जाने के साधनों के बारे में जो नया मद जोड़ा गया है उसका अभिप्राय जिले के उन ग्रामों की जानकारी एकत्रित करनी है जिसमें आना जाना बहुत कठिन है अर्थात् जो अगम्य है। एक नया कालम "कुल जनसंख्या और परिवारों की संख्या" को यह ज्ञात करने के लिए जोड़ा गया है कि उनके गांव की जनसंख्या और परिवार संख्या कितनी है और उनके अनुसार कितनी सुविधायें उपलब्ध है। दो नए परिशिष्ट और जोड़े गए हैं जिनमें से एक उन ग्रामों के बारे में हैं जहां कोई सुविधा उपलब्ध नहीं है तथा दूसरी, कुल जनसंख्या के अनुपात में अनुसूचित जाति और अनुसूचित जनजाति की जनसंख्या से सम्बन्धित है।

नगर निर्देशिका के फार्मों में भी कुछ संशोधन किए गए हैं जिससे की कुछ मदों के बारे में जानकारी मिल सके और न्यूनतम आवश्यकता कार्यक्रम की आवश्यकताओं की पूर्ति हो सके। इसी उद्देश्य को ध्यान में रखते हुए श्रेणी-I और श्रेणी-II के कस्बों की गन्दी बस्तियों में नागरिक और अन्य सुविधाओं के बारे में एक नया विवरण विवरण-IV क) जोड़ा गया है। आशा की जाती है कि इससे प्राप्त जानकारी आयोजकों को गन्दी बस्तियों के सुधार के लिये कार्यक्रम तैयार करने में सहयोग देगी। इसी बात को ध्यान में रखते हुए नागरिक और अन्य सुविधाओं के बारे में विवरण IV में अनुसूचित जातियों और अनुसूचित जनजातियों से सम्बन्धित कालम और विवरण-V में शैक्षिक सुविधाओं के अन्तर्गत प्रौढ़ शिक्षा कक्षाएं/केन्द्रों के बारे में अन्य बातों के साथ-साथ कालम जोड़े गए हैं। नगर निर्देशिका में एक महत्वपूर्ण परिवर्तन सभी सातों विवरणों में कस्बे की श्रेणी के बारे में

है देश के नगरीय क्षेत्रों, में उपलब्ध आंतरिक सुविधाओं की जानकारी का कस्बे की श्रेणी को ध्यान में रखते हुए सर्वोत्तम विश्लेषण किया जा सकता है। कुछ विवरणों में नागरिक प्रशासन की स्थिति और जनसंख्या के कालम जोड़ने से भी इस उद्देश्य की पूर्ति होती है ।

1981 की जनगणना से भरी गई व्यक्तिगत पर्चियों के आर्थिक और अन्य प्रश्नों में जो भी परिवर्तन किए गए, उन्हीं परिवर्तनों को ध्यान में रखते हुए ग्रामों और नगरों के प्राथमिक जनगणना सार के फार्म तैयार किए गए है।

1981 की जिला जनगणना पुस्तिका के प्रकाशन में विलम्ब न हो, इस बात को ध्यान में रखते हुए उक्त खण्ड के भाग क में ग्राम एवं नगर निर्देशिका तथा भाग–ख में ग्राम एवं नगर का प्राथमिक जनगणना सार और तहसील/कस्बा स्तरों तक जनगणना का प्राथमिक सारांश के साथ/अनुसूचित जातियों और अनुसूचित जनजातियों के प्राथमिक जनगणना सार को भी सम्मिलित किया गया है। जिला जनगणना पुस्तिका के महत्व को संवर्धित करने के लिए उसके प्रारम्भ में एक विस्तृत विश्लेषणात्मक टिप्पणी दी गई है जिसमें विभिन्न इनसेट सारिणियां सम्मिलित है। जो प्राथमिक जनगणना सार और अन्य सुविधाओं से सम्बन्धित है जनगणना आंकड़ों पर आधारित हैं। प्रकाशन को पुनः और उपयोगी बनाने की दृष्टि से उपयुक्त स्थानों पर जिला और तहसील पुलिसस्टेशन/सामुदायिक विकास खण्डों आदि के मानचित्रों को लगाया गया है। मानचित्रों में इनकी सीमाए और अन्य महत्वपूर्ण विशेषताएं दिखाई गई हैं।

यह प्रकाशन राज्य सरकार और जनगणना संगठन के संयुक्त प्रयास का फल है। राज्य में आंकड़ों का संकलन श्री के० सी० दुबे, निदेशक जनगणना परिचालन, मध्यप्रदेश के मार्गदर्शन पर राज्य सरकार की ओर से किया गया है। राज्य सरकार ने ही इसके मुद्रण का खर्च वहन किया है। इस प्रकाशन की योजना, रूपरेखा और इसके समन्वय का कार्य मेरे कार्यालय कीसामाजिक अध्ययन प्रभाग में उप महारजिस्ट्रार श्री एन० जी० नाग द्वारा किया गया। डा० बी० के० राय, उप महारजिस्ट्रार (मानचित्र) ने मानचित्रों को तैयार करने में तकनीकी मार्गदर्शन किया। जनगणना निदेशालयों से प्राप्त आंकड़ों की संवीक्षा श्री एम० एम० दुआ अनुसंधान अधिकारी के मार्गदर्शन में मुख्यालय के सामाजिक अध्ययन प्रभाग में की गई। इस परियोजना सम्बन्धित सभी कर्मचारियों को मैं धन्यवाद देता हूं।

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and reseachers. It is inter-alia used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables, village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time,comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incroporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is exepcted to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been intoroduced to meet some of the requirements of the Revised Minimum Need Programme. Such new items of information as adult literacy centres, primary health sub-centres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled casts and scheduled tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The cloumns on Scheduled Castes and Scheduled Tribes population in statemeut IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added inter-alia with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The formet of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed throught the individual slip of 1981 census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA up to Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The district and tahsil/Police Station/C D Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri K. C. Dubey the Director of Census Operations, Madhya Predesh on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head-quarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in the project.

P. PADMANABHA
REGISTRAR GENERAL, INDIA

New Delhi
the 26 th April, 1982

PREFACE

One of the most important publications of the Census are the District Census Handbooks. This publication was begun in this caption since 1951 Census. But prior to this, a similar publication was released in the Census earlier than 1951. That publication was on the title of Village Statistics and it contains only village names and total population thereof. The 1951 Census could, therefore, be said to represent a significant step in the process of making detailed Census statistics available down upto the village level.

In fact the District Census Handbook is the most important publication at the Census and is also perhaps the most widely used. Also perhaps this is the only publication used at the micro-level down upto the tahsil and development block.

The form of the District Census Handbook has gone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view of making the basic statistics available with the data users as early as possible the District Census Handbooks have been split into 2 parts, Part-A contains the Introductory Note on the district and Town/Village Directory. This volume will be found useful to get almost all the non-Census statistics available at one place. Part—B contains an introductory note and the Primary Census Abstract.

One of the innovation of the present Census has been in terms of allotment of Location Code number to the villages. In the earlier Censuses the location code system was such that the villages of a Patwari Circle were found at different serial numbers. Since the Patwari Circle still remains an important administrative unit the Location code numbers have been so given in the present Census that it may be possible to locate all the villages of a particuler Patwari Circle at one place one below the other.

When the planning for the present Census was started in 1979 the tahsils were still revivable as an important unit of the administration the whole planning was, therefore, done taking tahsil as the unit. It was during the course of the Census that some requests were informally received for making blockwise data available. Since these requests were received very late and were also received only in an informal manner, it has not been possible to disturb the original planning of villages arranged according to the location code numbers taking tahsil as one unit. However additional exercise has been done and in addition to the tahsil figures blockwise figures have also been indicated. It is hoped that the availability of these blockwise data will enhance the ntility of this publication.

It is hoped that this handbook will provide the basic statistical support to executive and developmental administration. It is needless to state that the proper implementation of policy depends on the abi lity of the administration authorities concerned.

It may be remembered that the villlagewise area figures given in the Primary Census Abstract and the Village Directory are those based on the village papers while the tahsil totals given in PCA are obtained from the Land Records department which in many cases exclude forest area.

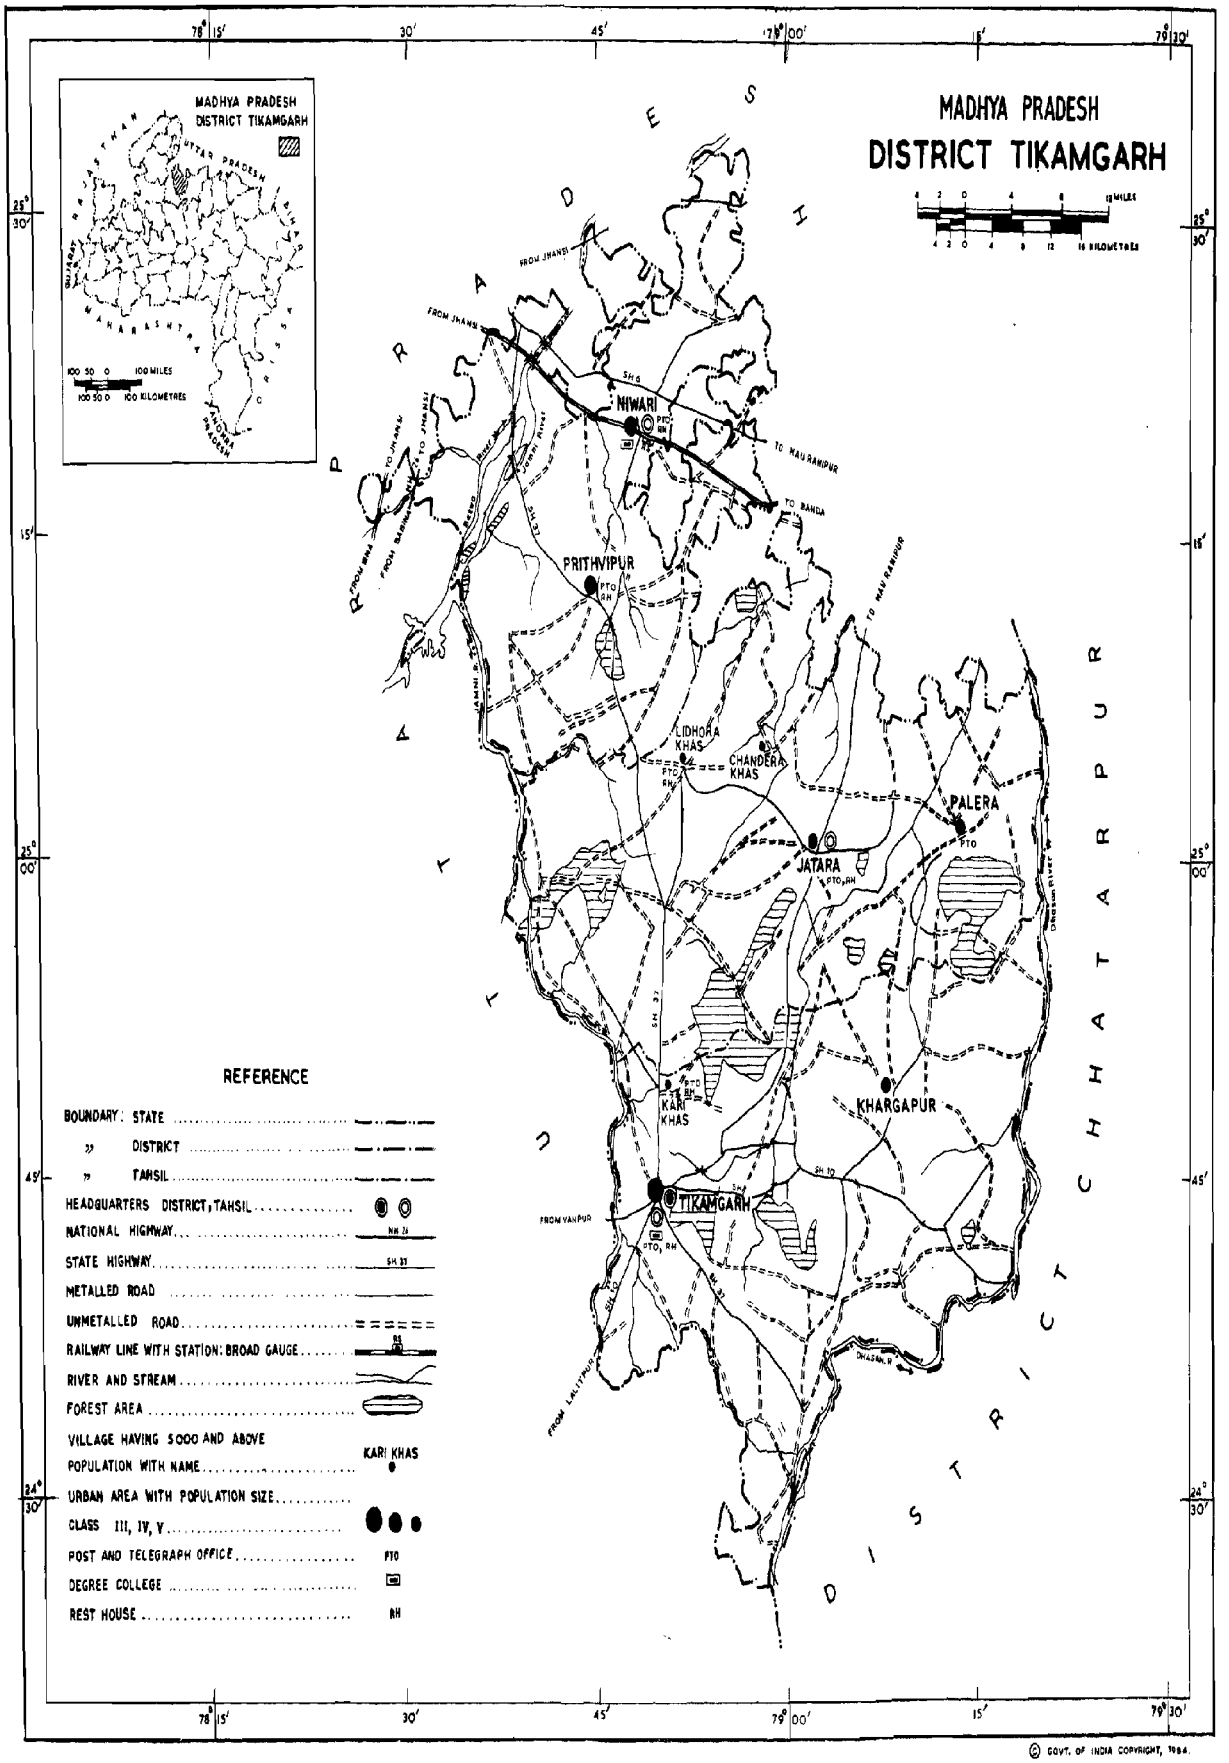

The statistics that are contained in the district census handbooks are the result of a massive and marathon exercise in the compilation and tabulation of voluminous statistics. The compilation of the statisties contained in this volume was carried out by 9 Regional Tabulation Offices each under a Regional Deputy Director of Census Operations. These Regional Offices were run with the help of purely temporary staff-roughly about 1,500 Tabulators, about 250 Checkers and about 80 Supervisors. I am grateful to my colleagues, the Regional Deputy Direetors and those temporary staff for the speed and accuracy in the editing

and basic compilation of more than nearly 522 lakh slips and nearly 1 lakh of household schedules. The compilation of village directory was taken up at the headquarters and I am equally grateful to the officers and staff who have worked whole heartedly on the job in a collective and co-operative venture. It is not possible nor fair to name in this. The maps contained in the handbook have been prepared in the Cartographic Section of my office. However, the analytical note has been prepared by Shri M. L. Sharma Deputy Director of Census Operations.

I am thankful to all who have contributed to bring this publicatian possible. The census organisation is also grateful to the Government of Madhya Pradesh for having been so kind as to undertake the publication of these handbooks and to the Controller, Printing and Stationery, Madhya Pradesh, Bhopal and his staff for the printing arrangements made. The inspiration behind this ambitious venture is that of our indefatigable Registrar General, Shri P. Padmanabha to whom we are all deeply grateful. Our thanks are also due to Shri N. G. Nag, Deputy Registrar General (Social Studies) for all the help that we received from him and his section.

K. C. DUBEY
Director of Census Operations,
Madhya Pradesh.

cludes 77 inhabited villages which have been treated wholly as urban outgrowth of near by City/Town.

Includes 58 Uninhabited villages of which Abdi Area have been merged in nearby City/Town.

Includes 4 Uninhabited villages of which Abdi Area have been merged in nearby City/Town.

विश्लेषणात्मक टिप्पणी

ANALYTICAL NOTE

NOTES AND EXPLANATIONS

This note gives the meanings and explanations of terms and concepts used in this Handbook. This necessary because, without a proper grasp of the meanings of such simple, concepts as building, house, household, workers etc., it is not possible to appreciate the data presented in the handbook. Thus one who does not know that an unpretentious hut in the thick of Bastar forests with unplastered bamboo walls and a thatch roof and with space hardly enough for two cots is not a bit less of a building than the Indian versions of the sky scrapers in one of the metropolitan cities, or that a central jail housing all manner of criminals and shady characters is as much household as the household of the most pious and god-fearing citizen in the State, may not be able to appreciate what exactly the figures represent.

Concepts and Definitions

Rural/Urban

It has been the tradition of the Indian Census to present the Census data for rural and urban areas separately. In fact, in all the Censuses throughout the world this classification of census data into rural and urban units is generally recognised. However, distinction between rural and urban is not yet amenable to a single definition which would be applicable to all countries.

The definition of an urban unit at the 1971 Census was as follows :—

(a) All places with a municipality, corporation, cantonment board or notified town area;

(b) All other places which satisfied the following criteria;

(i) A minimum population of 5,000;

(ii) At least 75 per cent of male working population engaged in non-agricultural pursuits: and

(iii) A density of population of at least 400 per sq. km. (1,000 per sq. mile).

The same criteria is retained at the 1981 Census also so that comparability with the previous Census could be ensured and which should provide basis for analysing of figures and urbanisation in the country. But it has to be remembered that the urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses is that the males working in activities such as fishing, Logging, etc. were treated as engaged in non-agricultural activity and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

Applying the criteria described above, a list of 327 towns was finalised and it is these 327 towns which are treated as urban areas for the purpose of 1981 Census. The Additional Secretary to the Government of India in the Ministry of Home Affairs sent a letter to the Chief Secretaries of the State Governments as back as 10 th may, 1979, requesting them to ensure that no changes are made in the jurisdiction and boundaries of municipalities and revenue villages, tahsils, sub-divisions and districts during the period from 1-1-1980 to 30-6-1981. However, subsequent to our finalisation of rural and urban frame the State Government in the Local Government Department notified many places as notified areas and municipalties. Such places have not been treated as towns for the purpose of Census and the secretary to Government in the Local Government Department had agreed to this arrangements. Similarly the State Government raised the status of 6 municipal committees to that of municipal corporations. These new municipal corporations are also treated as municipal committees.

While dealing with the subject of rural and urban break up mention may be made of the area under the Special Area Development Authority. The Special Area Development Authority have been constituted under the Madhya Pradesh Nagar Tatha Gram Nivesh Adhiniyam, 1973 and they enjoy the the power to function as a municipality so far as the municipal management of that area is concerned.The limits of these Special Areas include large portions of a rural areas comprising number of villages situated

around the core town or village of such Special Area. For example Orchha is a SADA area in Tikamgarh district but there is no town in this area. Similarly, Malanjkhand in Balaghat district, Bheraghat in Jabalpur district, Mandav in Dhar district and similar othar cases are SADA areas but there is no urban area within that. The objective of the SADA area perhaps is to control the future development of these areas in a planned manner and that is all. It was, therefore, not considered desirable to treat such SADA areas at par with other urban bodies like municipal corporations, municipal committee etc. and only that part of it is treated as urban which is really so. As such in the Korba SADA area only Korba town has been treated as urban and rest of the area remains in the rural frame.

Urban Agglomeration :

Apart from town/city the 1971 concept o urban agglomeration is also adopted for the 1981 Census. Very often large railway colonies, university campuses, port areas, military camps, etc. come up outside the statutory limits of the city or town but adjoining it. such areas may not by themselves qualify to be treated as towns but if they form a contiguous spread with the town, they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit and called urban agglomeration. An urban agglomeration may constitute :

(a) A city with continuous outgrowth, (the part outgrowth being outside the statutory limits but failing within the boundaries of the adjoining village or villages);

(b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a); or

(c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Standard Urban Area :

A new concept of Standard Urban Area introduced in 1971 Census will also be followed for the 1981 Census. The essential requirements for the constitution of a Standard Urban Area are–

(i) it should have a core town of a minimum population of 50,000 (ii) the contiguous areas made up of other urban as well as rural administrative units should have mutual socio-economic links with the core town and (iii) in all probability this entire area should get fully urbanised in a period of two or three decades. Certain Standard Urban Areas were determined on this basis in 1971 and some basic data were presented for 1951, 1961 and 1971 for such areas and their components. Similar data have been presented for the Standard Urban Areas in 1981 also. The idea is to present basic data for those areas for four to five decades so that the urbanisation process in these areas can be studied. However, there have been minimum changes in the constituent units of the Standard Urban Areas of 1981 Census as compared to those of 1971, but the list of SUA remains unchanged.

Size Class of Towns :

The urban areas are classified into 6 classes referred to as twons of Class I to VI. The classification is shown below :—

Class I	1,00,000 and above
Class II	50,000 to 99,999
Class III	20,000 to 49,999
Class IV	10,000 to 19,999
Class V	5,000 to 9,999
Class VI	Less than 5,000

It is customary to treat a town having a population of 1 lac and above as a city.

Census House :

A Census House is a building or part of a building having a separate main entrance form the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

If a building had a number of flats or blocks which were independent of one another having separate entrances of their own form the road or a common staircase or a common courtyard leading to a main gate, they have been considered as separate census houses.

In some cases, however, it was difficult to apply the definition strictly. For example, in an urban area, a flat has five rooms, each having direct entrance to the common staircase or courtyard which by definition, had to be treated as five census houses. If all these five rooms were found occupied by single hobsehold entire flat was treated as one census house. In such cases singleness of use was taken into consideration to avoid undue proliferation of the number of census houses.

An occupied residential census house means a a census house which is actually used for residential

purposes, either wholly or partly by one or more households.

Household :

The term household in census is defined as a group of person who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any one of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses,messess, hostels, residential hotels, rescue homes, jails, Ashrams etc. These are called Institutional households. There may be one member households two member households or multi-member households. For census purposes, each one of these types is regarded as a household.

There are three types of households viz., normal, institutional and houseless households. A houseless household is that which is normally found to be residing on the road side, pavements, in hume pipes, under staircases, or in open, temple, mandaps, platforms and the like. Insitittuional households have been explained above. Those households which do not fall in the category of Institutional household and houseless household have been categorised as Normal households, The enumerator was required to indic ate in the Household Scheduled whether the household belonged to 'Institutional household' or 'Houseless household'. For institutional 'I' was written against the question 'Type of household" and 'O' was indicated in the case of houseless household. For normal household, no entry was required to be made.

The enumeration of institutional households was done in the manner the normal households were enumerated during the enumeration period from 9th February to 28 th February, 1981. The houseless households were enumerated on the night of 28th February, 1981.

Scheduled Castes and Scheduled Tribes :

Scheduled Castes and Scheduled Tribes are those found in the Notification of Scheduled Castes/ Scheduled Tribes Order (Amendment) Act, 1976 (108 of 1976). By this amendment, area restrictions for most of the Scheduled Castes and Scheduled Tribes have been removed. However, the area restriction still remains in respect of Dhobi (in Bhopal, Raisen and Sehore districts) Kotwal and Pardhi (in Bhind Dhar, Dewas, Guna, Gwalior, Indore, Jhabua, Khargone Mandsaur, Morena, Ratgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha Districts) and Kumhar (in Chhatarpur, Datia, Panna, Rewa, Satna, Shadol, Sidhi and Tikamgarh districts) Scheduled Castes. Likewise Keer and Pardhi Scheduled Tribes are still restricted only in Bhopal, Raisen and Sehore districts; Mina in Siroj sub-division of Vidisha district; Panika in Chhatarpur, Datia, Panna, Rewa, Satna Shahdol, Sidhi and Tikamgarh districts, Pardhi Baheliia, Chita Pardhi,Langoli Pardhi,Phanse Pardhi, Shikari, Takankar, Takia in (1) Bastar, Chhindwara, Mandla, Raigarh, Seoni and Surguja districts, (2) Balhar thasil of Balaghat district, (3) Betul and Bhainsdehi tahsils of Betul district, (4) Bilaspur and Katghora tahsils of Bilaspur district, (5) Durg and Balod tahsils of Durg district, (6) Chowki, Manpur and Mohalla Revenue Inspectors' Circles of Rajnandgaon district, (7) Murwara, Patan and Sihora tahsils of Jabalpur disrict, (8) Hoshangabad and Sohagpur tahsils of Hoshangabad district and Narsimhapur district, (9) Harsud tahsil of Khandwa district, (10) Bindra-Nawagarh, Dhamtari and Mahasamund tahsils of Raipur district. Persons belonging to the castes/tribes mentioned above found in the districts other than those where Scheduled have not been treated as scheduled castes or schduled tribes as the case may be. It may be mentioned here that schedued lcastes can belomg to the Hindu or the Sikh religion only. The list of Seheduled Castes and Scheduled Tribes relating to Madhya Pradesh relevent to 1981 Census has been given immediately after this note as Annexure-I

Literates and Educated Persons

A person who can both read and write with understanding in any language is treated as literate. A person who can merely read but cannot write, is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

The test for literacy was necessary only when the enumerator had any doubt about any person returning as 'literate'. The test for literacy was ability to read any portion of the Enumerator's Instruction Booklet and to write a simple letter. Ability merely to sign one's name was not considered adequate to qualify a person as being able to write with understanding. If a person claimed to be literate in some other language with which the enumerator

was not familiar, the respondent's word was taken as correct.

All children of the age of 4 years or less were treated as illiterate even if they might be going to school and had picked up reading and writing a few words.

3. Classification of workers by Industrial Category :

At the 1981 Census, the questions which, were canvassed in the Individual slip to elicit information on economic characteristics of the population were as follows :—

(i) Q. 14A Worked any time at all last Year ?

Yes
No (H/ST/D/R/B/I/O)

Q. 14B If yes in 14A, did you work for major part of last year ? Yes (1) No (2)

(ii) Q. 15A Main activity last year ?

Yes in 14B (C/AL/HHI/OW)
No in 14B (H/ST/D/R/B/I/O)

Q. 15B Yes–Any other work any time last year ?
Q 15B Yes (C/AL/HHI/OW) No
Q. 14B No—Work done any time last year ?
C/AL/HHI/OW

(iii) Q .16- If No in 14A or 14B, seeking/available for work ? Yes (1)/No (2)

The above questions were formulated after detailed discussion at the Data User's Conference and technical groups. At the 1961 and 1971 Censuses, the economic questions were based on different approaches, namely, usual status and current status, were adopted with reference period of one year and one week for seasonal and for regular work respectively. Current status approach was thought to be irrelevant in the context of our country where usual status of a worker is considered to be more appropriate.

The above questions are in three parts and have been designed in such a way that first of all it attempts to divide the population into two broad groups viz.,

(1) those who have worked any time at all during the last year, (2) those who have not worked at all. The latter group consists of the non workers. This information is obtained in Q. 14A. Having classified the population into two grups, the next attempt has been to classify those who have worked any time into Main workers and Marginal workers on the basis of time spent on work as well as secondary work, if any, of the Main workers. If a person had worked for six months or more (183 days or more) he was treated as Main worker and if the period of work was less than six months he was regarded as a Marginal Worker. In Q. 15B details of secondary work or marginal work are obtained. Finally an attempt has been made to determine whether those who are non-workers or marginal workers are seeking or are available for work.

It will thus be seen that these questions on economic aspects have been so designed as to identify all workers, full time workers or seasonal workers or marginal workers and non-workers with reference to the activities during the last one year period prior to the date of enumeration.

The various terms and definitions used in collecting the economic data have been explained briefly in the following paragraphs.

Definition of work :

Work has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

For persons on regular employment or engaged in regular type of work, temporary absence during the reference period on account of illness, holiday, temporary closure, strike etc., was not a dis-qualification for treating them as workers.

Persons under training, such as apprentices, with or without stipends or wages were also treated as workers. In the case of a person who had been offered work but had not actually joined, he was not treated as a worker. Rent receivers, pensioners etc., were not treated as economically active unless they also engaged themselves in some economic activity.

In all these questions, the reference period is the one year; preceding the date of enumeration. Certain types of work such as agriculture, household industry like gur making etc. are carried on either throughout

the year or only during certain seasons or part of the year, depending on the local circumstance. In all such cases the reference period has been the broad time span of the agricultural seasons preceding the enumeration.

Main Workers :

The main workers are those who have worked for a major part of the year preceding the enumeration. Main activity of a person who was engaged in more than one activity was reckoned in terms of time disposition. For example, if a person had worked as daily wage labourer for 4 months, as an agricultural labourer for 1 month and as cultivatar for 2 months, he was treated as a Main worker on the basis of total time spent on work and his main activity have been reckoned as Daily Wage Labourer since he spent major part of his time on work in this activity than as cultivator or agricultural labourer.

Marginal Workers :

Marginal workers are those who have worked any time at all in the year preceding the enumeration but have not worked for a major part of the year. For example, if a person who is mostly doing household duties, or is mainly a student, or mainly a dependent or a rentior or a beggar and the like who is basically a non-worker had done some work at some time during the reference period, he was treated as a marginal worker.

Non Workers :

Non-workers constitute of householders, students, dependents, retired persons or rentiers, beggars, inmates of institutions, unemployed persons etc. They are persons who have not worked any time at all in the year preceding the enumeration.

Main activity of workers :

The main activity of workers has been classified into four categories viz., cultivator, agricultural labourer, household industry and other work in the PCA at the 1981 census. A significant departure has, therefore, been made this time while presenting the data on economic activity which relate to only four broad categories indicated above as against nine industrial categories of the 1961 and the 1971 Censuses. The nine categories of the 1971 census were (I) Cultivator, (II) Agricultural labourers, (III) Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & allied activites; (IV) Mining, (V) Manufacturing, Processing and servicing with sub-categories (a) At Household Industry and (b) other than Household Industry (VI) Construction, (VII) Trade and Commerce (VIII) Transport, Storage and Communications; and (IX) Other workers. The correspondence between the categories of 1981 and 1971 are as under :-

1981 Categories	1971 Categories
I	I
II	II
III	V (A)
IV	III IV, V (b), VI, VII, VIII & IX

Cultivator :

For purposes of Census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing, and harvesting and production of cereals and millet crops such as wheat, paddy. jowar, bajra, ragi, etc., and other crops such as sugarcane, groundnuts, topicoca. etc- and pulses. raw jute and kindered fibr crop, cotton etc., and dose not include fruit growing. vegetable growing or keeping orchards or groves or working of plantation like tea, coffee, rubber, cinchona, opium and other medicinal plantations.

Agricultural Labourer :

Persons working in another person's land for wages in money kind or share have been treated as agricultural labourers. An agricultural labourers has no risk in the cultivation and he has no right of lease or contract on land on which he works.

Household Industry':

Household Industry is defined as an industry conducted by the head of the household himself/hereself and or by the members of the households at home or within the village in rural areas and only within the precincts of the house where the household lives in urban ares. The larger proportion

of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered actory which would qualify and has to be registered under the Indian Factories Act.

Household industry relates to production, processing, servicing, repairing or making and selling, (but not merely selling) of goods such as handloom weaving, dyeing, carpentry, bidi rolling. pottery manufacture, bicycle repairing, blacksmithing, tailoring etc. It dose not include professions saeh as pleader or doctor or barber or 'dhobi' even if such professions are run at home by members of the house hold.

Other workers :

All workers, i. e. those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in household industry are 'other workers'. The tjpe of workers that come under this category include factory workers, plantation workers, trade, commerce,business, transport, mining, construction, polititcal or social work, all government servants, municipal employees, teachers, priests, entertaimment artists etc.

ANNEXURE I

MADHYA PRADESH

[The Scheduled Cases and Scheduled Tribes Orders (Amendment) Act., 1976.
Dated the 18 th Septemer, 1976].

Scheduled Castes :

HISTORY AND SCOPE OF DISTRICT CENCUS HANDBOOK

The History of the District Census Handbook Could be traced from the 'Village lists' brought out for every district in 1901 and 'Village Statistics' for every district in 1911. But this was discontinued 1921 and 1931. In 1941, however 'Village Statistics' were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 the practice of bringing out a single volume known as the District Census Handbook, giving villagewise statistics and other Census tables for the district at the cost of the State Government was initiated and is continuing since then.

The District Census Handbook, compiled by the Census Organisation on behalf of the State Govenment is one of the most important publication of the Census and is widely used by planners administrators academicians and researchers.

The scope of the District Census Handbook has gone considerable change since 1951. In 1951. the District Census Handbook contained only the Primary Census Abstract and the Census tables. In view of the usefulness of this publication, improvements were made in 1961 by including non-census data like climate, agriculture. cooperation industry, education, Health etc., as also an 'Introductory' Note for each district. Unfortunately, the desire to make the District Census Handbook more comprehensive delayed its publication. Therefore, in 1971, it was decided to publish the District Census Handbook in three parts in order to release the maximum data as and when finalised. Part A contained the Village Directory which gives villagewise non-census statistics of land use, area and amenities available within the village, Part B contained the Villagewise Primary Census Abstract and Part C contained various administrative statistics. Parts A and B were however, published in one volume since it was economical to do so as data for both the parts become available early. Parts A and B were published separately in Hindi and English versions. Collection of data for Part C was cumbursome and it took unduly long time in its finalisation, and ultimately this publication had to be abondoned in view of the enormous delay in its printing.

In 1981 Census, with a view to avoid delay in bringing out the DCH series, the part containing the administrative statistics has been dropped. Thus the present series of District Census Handbook consists of two volumes viz. DCHB Part A and DCHB Part B. Part A contains the village/Town Directory and Part B contains the Town/Villagewise Primary Census Abstract of the concerned district.

Part A : Village Directory contains information about the name of village, total area of village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, market day, communications, approach to village, distance from the nearest town, power supply, staple food, land use, places of religious, historical and archaeological interest etc.

In addition there are four appendices to the village Directory as under :—

(1) Tahsilwise abstract of educational, medical and other amenities.

(2) Land utilization data in respect of Census towns

(3) Tahsilwise list of villages where no amenities are available, and

(4) Tahsilwise list of villages according to the proportion of Scheduled Castes/Scheduled Tribes population by ranges.

The last two appendices have been included for the first time in 1981 Census. Appendix-III will be helpful for planning input in areas/villages where basic infrastructure is lacking and appendix-IV will be helpful for planning welfare programmes for scheduled Castes/Scheduled Tribes at micro level, particularly in relation to area development orientation programmes.

Similarly the Town Directory contains seven statements as below ;—

Statement I—Status and growth history

Statement II—Physical aspects and location of towns.

Statement III—Municipal Finance

Statement IV—Civic and other amenities

Statement IVA—Civic and other Amenities in Notified Slums.

Statement V—Medical, educationl, recreational and cultural facilitjes.

Statement VI—Trade, Commerce & Industry and Banking.

An additional statement IV-A is meant only for Class-I and Class-II towns giving the civic and other amenities in notified slums. This statement has been introduced for the first time in 1981 census.

Part B—The town/villagewise Primary Census Abstract gives the basic data like area of the village, occupied residential houses, total number of households, population by sex, as also the sexwise population of Scheduled Castes and Scheduled Tribes, literacy and population by sec into four broad industrial categories viz., cultivators, agricultural labourers, household industry and other workers, marginal workes and non-workers.

The inclusion of Primary Census Abstractr relating to the Scheduled Castes and Scheduled Tribes at the tahsil/town level in another important feature of the DCHB series of 1981 Census.

An appendix containing Development Block-wise—'Vikas Khandwar' totals of PCA figures has also been included.

ANALYTICAL NOTE

Tikamgarh district, in Sagar Revenue Division, is situated in the Central-northern part of the State and lies between latitude 24°26' and 26°40' North and longitude 78°26' and79°26' East. The district is bounded by Jhansi and Lalitpur districts of Uttar Pradesh in the west; Hamirpur district of U.P. in the north; Chhatarpur district in the east and the southern edge of the district touches Sagar district. The western boundary of the district is carved out by river Jamni and the eastern boundary by river Dhasan.

Tikamgarh district corresponds to the erstwhile princely State of Orchha, then a treaty State in Central India, under the Bundelkhand Agency. Consequent upon the merger of princely States and the formation of Vindhya Pradesh, a Part-C State in 1948, there was reconstitution of boundaries and thus the district in the present form was constituted. With the reorganisation of States on linguistic basis on 1st November, 1956, Vindhya Pradesh with other territories got merged to form the new State of Madhya Pradesh and Tikamgarh continues to be one of the districts in it. The district is divided into three tahsils viz Niwari on the extreme north; Jatara tahsil occupies the central part of the district and Tikamgarh tahsil on the south. All the tahsil headquarters are connected by all-weather pucca roads, while Niwari is the only tahsil headquarters which is connected by rail and lies on the Jhansi-Manikpur trunk route of Central Railway

During the period when it was a princely State, original capital of this territory was at Orchha. In 1783 it was transferred to Tehri (Tikamgarh was then known by this name) subsequently in 1887 it was officially recongnised as Tikamgarh to avoid confusion with the tehri State of Garhwal. Tikamgarh continued to be the district headquarters while as a district in part C State of Vindhya Pradesh and now in Madhya Pradesh.

The district derives its name from the district headquarters town, Tikamgarh which in turn is derived from 'Tikam'. The word Tikam is one of the appelations of Lord Krishna and hence the name is in honour of Lord Krishna.

Physiography :

Tikamgarh lies in the area of Bundelkhand gneiss, a hard greyish pink granitoidal rock of simple composition traversed by conspicuous quartz reefs, which constitute an integral part of this formation and almost invariably strike in a north-easterly direction. A number of basaltic dikes approximately north-west, at right angles to these reefs. These dikes are probably disintegrated representatives of volcanic rocks of Bijawar series. The district lies in the level plain which forms the Betwa-Dhasan Doab, these two streams being the only rivers of any importance. There are a number of tanks, several being of considerable size such as at Baldeogarh, Ladhaura, Jatara and Birsagar.

Rivers :

Betwa and Dhasan are the important rivers in the district. Jamni, Bargi and Barwa are the tributaries of Betwa.

The Betwa :

In ancient texts it was known as **Vetravati**. The river enters the district 19 kms south of Orchha which is situated on its bank.

The Dhasan :

In earlier period this river was known as **Dasharna** derived from **Dasha** (ten) and **rina** (fort). It forms the eastern boundary of the district flowing from south to north and finally joins the Betwa.

The Jamni :

It is a large stream rising in Sagar district flowing south to north forms the western boundary of Tikamgarh district and finally joins the Betwa.

The Barwa :

The river rises in Barora Pahar and flows into Barwa Sagar lake in Jhansi district. It is a tributary of Betwa river.

Flora and Fauna :

The forests in the district are tropical dry mixed deciduous type and the following varieties of trees, shrubs and herbs are found :

Achar (Buchanania latifolia), am (Mangifera indica) amaltas (Cassia fistula), aonla (Emblica officinalis), babul (Acacia arabica), bel (Aegle marmelos), ber (Zizyphus jujuba), dhaora (Anogeissus latifolia), ghont (Zizyphus xyloppra), imli (Tamarindus indica), jamun (Syzygium oumini), kardhai (Anogeissus pendula), khair (Acacia catechu), mahua (Madhuca latifolia), neem (Melia indica), palas (Butea frondosa), pipal (Ficus religiosa) Saga (Tectona grandis), saj (Terminalia tomentosa), salai (Boswellia serrata), shisham (Dalbergia sissu), tendu (Diospyros melanoxylon).

The following are the more important shrubs and herbs :

harsinagar (Nyetanthes arbortristes), Jharberi (Zizyphus retundifolia), karonda (Carissa opaca), sitaphal (Anona sauomosa), thuar (Euphorbie neri folia).

Among bamboos and grasses the following are the more important ones :-

bans (Dendrocalamus strictus), doob (Cynedon dactylon), kans (Saccharum Spontaneum), khus (Vetivera zizaniodes), munj (Saccharum munja).

Fauna :

The scanty nature of the forests in this district makes unsuited for large animals. Leopards and tigers are very rare. Black buck, Sambhar, chinkara are few. Hyenas, lakkad bagha, jackals, foxes, wild boars are however met with.

Fishes abounds in the rivers and tanks. Crocodiles are said to be found in Dhasan and Betwa rivers but very rarely.

Birds like sparrow, crows, pigeons, doves, patridges, titar, ducks, sandgroves are commonly seen.

Climate :

The climate of the district is extreme type with the maximum temperature touching 44° C in hot summer days. The minimum drops to 5° C during winter. Loo (hot winds) is a common phenomenon during the peak summer months of May and June. With the onset of monsoon, the temperature drops appreciably. The rain commences from early July and August-September are the peak rainy months. During the rains the weather remains sultry associated with high humidity. The district receives an average annual rainfall of 1000 mm. From October the weather improves but this month is the transition period from rainy season to winter season. Winter season actually starts from November. December and January are the coldest months.

From April the mercury starts rising and the summer season commences. Thus there are broadly three seasons in a year.

History :

The history of Tikamgarh district is that of Orchha State. The Orchha chiefs were Bundela Rajputs, claiming to be descendents of Gaharwars of Benaras. The State had no independent existence till comparatively modern times and its early history is that of British Bundelkhand. According to the available records, the first Bundela who acquired power in this locality was Sohanpal, son of petty chieftains in what is now the Jalaun district of Uttar Pradesh, who lived early in the theirteenth century. He appears to have had differences with his father and had left Mohoni, the ancestral home. For some years he had a life of adventure of which nothing is known. He reappeared as the champion of the opressed Rajputs against the tyranny of the Khangar chief of Garh Kander, whose attempts to force the weaker neighbouring Rajputs into matrimonial connections with his family had raised a storm of indignation. Sohanpal, after defeating the Khangars established himself at Garh Kander and married his daughter to the Parmar chief of Pawaya (a village in Gwalior). From this time onwards, the Parmar, Bundelas and Dhandelas, a local branch of the great Chauhan family, formed a separate endogamous group, having no connection with other Rajput clans, though according to the State records, these chiefs had married with the great Rajput families upto Arjunpal's time. On his death Sohanpal succeeded to the Mohoni State. Between 1269 to 1501 eight chiefs ruled, who gradually extended the Bundela dominion. In 1501 Rudra Pratap succeeded. He was a bold and successful leader and managed

to increase his dominions considerably during the confusion caused by Babar's invasion. He died in 153I and was succeeded Bhartichand by his eldest son, Bhartichand'. (1531-54) unsuccessful attempted to oppose Sher Shah on his march to Kalinjer in 1545. On his death in 1554, he was succeeded by his brother Madhukar Shah who was a religious recluse, and the fortunes of the State began to decline from his time.

Vikramjit entered into relations with the British by a treaty made in 1812. He abdicated in favour of his son Dharam Pal in 1817; But on Dharam Pal's death in 1834 resumed charge of the State. He died the same year and was succeeded by his brother, Tej Singh (1834-41). The next chief Sujan Singh died in 1854 and was followed by Hamir Singh (1854-74) who received a sanad of adaptation in 1862. He was succeeded by his brother Pratap Singh. All transit dues were abolished in 1880. In 1884 Pratap Singh ceded all land required for Railways in his territory. The ruler of the State had earned the titles of his highness and Sarawad-i-Rajaha-i Bundelkhand Maharaja Mahendra Savai Bahadur.

Distribution of Area and Population :

With an area of 5,048 sq km. according to the Surveyor General of India, Tikamgarh district contains 0.01 per cent of the total area of the State. In terms of area it stands at 40th position among the 45 districts in the State. Tikamgarh district is about 2-1/2 times larger than Datia, the smallest district and 8 times smaller than Bastar the biggest district in the State.

According to the 1981 Census, 736,981 persons (391,471 males and 345,510 females) have been enumerated in Tikamgarh district. 647,571 persons are found living in 997 inhabited villages and another 89,410 persons in 6 towns of the district. The average population per village works out to 745 persons which is much above the State average of 582. Jatara tahsil has the highest average of 801 persons per village, while Tikamgarh has the lowest of 704. Niwari occupies the intermediate position with an average of 730 persons per village.

The percentage of urban population to total population of the district is merely 12.13 while the corresponding State average is 20.29. It follows that the district is predominantly rural in character. The following table gives the area, population and density in the district, tahsils and towns.

Distribution of area and population

District/Tahsil/Town	Total/ Rural/ Urban	Area (sq. km.)	Population	Density per sq. km.
1	2	3	4	5
Tikamgarh District	**T**	**5,048.0**	**736,981**	**146**
	R	**4,979.0**	**647,571**	**130**
	U	**69.0**	**89,410**	**1,298**
1. Niwari Tahsil	**T**	**1,171.3**	**211.631**	**181**
	R	1,155.8	189,006	164
	U	15.5	22,625	1,463
Niwari (N. A.)	U	14.91	10,462	702
Prithvipur (N. A.)	U	0.55	12,163	22,115
2. Jatara Tahsil	**T**	**1,739.0**	**257,176**	**148**
	R	1,692.0	239,704	142
	U	46.8	17,472	374
Jatara (N. A.)	U	21.23	9,536	449
Palera (N. A.)	U	25.53	7,936	311
3. Tikamgarh Tahsil	**T**	**1,716.3**	**268,174**	**156**
	R	1,709.6	218,861	128
	U	6.7	49,313	7,415
Tikamgarh	U	6.22	42,354	6,809
Khargapur	U	0.43	6,959	16,184

The density of population in the district is 146 which is higher than the State average of 118 persons per sq. km. Within the district Jatara has the lowest density of 148 persons per sq. km.

The following table gives the distribution of villages according to the availability of different amenities.

TABLE 1

Distribution of villages according to the availability of different amenities

Sl. No.	Name of Tahsil	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities: Education	Medical	Drinking water	Post and Telegraph	Market/ Hat	Communi-cations	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10	11
1.	Niwari	259	189 (72.97)	11 (4.25)	259 (100.00)	45 (17.37)	39 (15.06)	26 (10.04)	41 (15.83)	54 (20.85)
2.	Jatara	299	233 (77.93)	19 (6.35)	299 (100.00)	53 (17.73)	57 (19.06)	57 (19.06)	61 (20.40)	64 (21.40)
3.	Tikamgarh	311	240 (77.17)	23 (7.40)	311 (100.00)	57 (18.33)	55 (17.68)	76 (24.44)	91 (29.26)	119 (38.26)
	Total District	**869**	**662 (76.18)**	**53 (6.10)**	**869 (100.00)**	**155 (17.84)**	**151 (17.38))**	**159 (18.30))**	**193 (22.21)**	**237 (27.27)**

It is a happy feature indeed that the drinking water facility is available in all the villages of the district. Well is the main source of drinking water for the rural population of the district.

In the field of education, the district in not far behind as 76.18 per cent of the total number of villages have one or more educational institutions though mostly of primary level. Among the tahsils, Jatara and Tikamgarh are at par while Niwari is slightly below in terms of proportion of villages having schools.

Only 53 out of a total of 869 populated villages have medical facility which is too meagre.

Amenities like post & telegraph, market/hat, communications, approach by pucca road are meagre but the position in this district is somewhat better as compared to its neighbouring districts in Baghelkhand tract. But in case of power supply the situation is not really happy as a little over 1/4th of the total number of villages have it. The above figures however indicate that the district headquarters tahsil viz Tikamgarh is better placed so far as the availability of various amenities in villages is concerned. Jatara is close by while Niwari tahsil is lagging behind.

The following table gives the proportion of rural population served by different amenities.

TABLE 2

Proportion of Rural Population Served by Different Amenities

Sl. No.	Name of Tahsil	Total Population of inhabited villages in the tahsil	Proportion of rural population served by the amenity of							
			Education	Medical	Drinking water	Post & telegraph	Market/ Hat	Communications	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10	11
1.	Niwari	1,89,006	1,75,971 (93.10)	22,936 (12.14)	1,89,006 (100.00)	77,933 (41.23)	70,946 (37.54)	38,997 (20.63)	41,024 (21.71)	48,525 (25.67)
2.	Jatara	2,39,704	2,27,253 (94.81)	55,253 (23.05)	2,39,704 (100.00)	1,06,526 (44.44)	1,12,072 (46.75)	88,099 (36.75)	81,950 (34.19)	94,172 (39.29)
3.	Tikamgarh	2,18,861	2,06,261 (94.24)	49,495 (22.61)	2,18,861 (100.00)	99,481 (45.45)	97,599 (44.59)	94,642, (43.24)	1,03,723 (47.39)	1,18,069 (53.95)
	Total District	6,47,571	6,09,485 (94.12)	1,27,684 (19.72)	6,47,571 (100.00)	2,83,940 (43.85)	2,80,617 (43.33)	2,21,738 (34.24)	2,26,697 (35.01)	2,60,766 (40.27)

Almost all the villages in the district have some or the other source of drinking water and times the entire rural population is better served with this amenity.

The number of villages having educational institutions cover 94.12 percent of the total rural population of the district which leads one to concluded that this amenity is quite adequate.

Similarly the rural population is better served with amenities like post and telegraph and market/ hat. It is heartening that about 43 percent of them can avail these amenities within very easy reach.

Amenities like communications and approach by pucca road available in villages cover about one third of the rural population. In other words the remaining two third rural population has to depend on other nearby villages to avail of these amenities.

More than half the rural population of the district is still deprived of the amenity of power supply.

Inadequate power and light, insufficient roads, rail-roads, poor communications are signs of backwardness. The pace of economic development is therefore very slow and thereby the rural lot stagnates at the bare subsistence level.

The following table gives the distribution of villages not having certain amenities arranged by distance ranges from the places where these are available.

TABLE 3

Distribution of villages not having certain amenities arranged by distance ranges from the places where these are available

Sl. No.	Village not having the amenity of	Number of villages where the amenity is not available at distance of			
		5 Kms.	5–10 Kms.	10+Kms.	Total (Cols 2+4)
1		2	3	4	5
1	Education	195	8	4	207
2	Medical	334	360	122	816
3	Drinking Water	..	..	..	..
4	Post and Telegraph	570	132	12	714
5	Market/Hat	428	237	53	718
6	Communications	386	257	67	710

The figures in the above table, however, indicate that quite a good number of villages not having certain amenities are situated within a distance range of 5 kms from the nearest places where these are available, yet the situation can not be regarded as satisfactory. Even a distance of 5 kms is meaningful in a rural set up with poor communication facilities.

The following table gives the distribution of villages which are having one or more amenities according to distance range from nearest town.

TABLE 4

Distribution of villages according to the distance range from the nearest town and availability of different amenities

Distance range from the nearest town (in kilometres)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Education	Medical	Drinking water	Post and Telegraph	Market/ Hat	Communi-cations	Approach by Pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
0–5	69	58 (84.06)	2 (2.10)	69 (100.00)	12 (17.39)	11 (15.94)	17 (24.64)	23 (33.33)	36 (52.17)
6–15	346	268 (77.46)	26 (7.51)	346 (100.00)	65 (18.79)	61 (17.63)	63 (18.21)	81 (23.41)	81 (23.41)
16–50	448	334 (74.55)	25 (5.58)	448 (100.00)	77 (17.19)	78 (17.41)	78 (17.41)	88 (19.64)	119 (26.56)
51+	6	2 (33.33)	–	6 (100.00)	1 (16.67)	1 (16.67)	1 (16.67)	1 (16.67)	1 (16.67)
Unspecified	—	—	—	—	—	—	—	—	—
Total	869	662 (76 18)	53 (6.10)	869 (100.00)	155 (17.84)	151 (17.38)	159 (18.30)	193 (22.21)	237 (27.27)

Majority of the villages in the district are situated at a distance range of 16-50 kms from a nearest town which is an indication of the fact that not many villages are exposed to urban influence. This is also because the pace of urbanisation is slow. Availability of a particular amenity in a village due to proximity from an urban centre does have relevance so far as it relates to approach by pucca road and power supply. In respect of other amenities, it is the size (population) of the village which matters. Larger the size of a village, greater the amenities available in them. This is substantiated from the figures given in the following table.

TABLE 5

Distribution of villages according to population range and amenities available

Range of Population	Number of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking water	Post and Telegraph	Market/ Hat	Communi-cations	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
Less than-499	417	218	3	417	5	2	26	62	84
		(52.28)	(0.72)	(100.00)	(1.20)	(0.48)	(6.24)	(14.87)	(20.14)
500-1,999	406	398	28	406	107	106	105	103	126
		(98.03)	(6.90)	(100.00)	(26.35)	(26.11)	(25.86)	(25.37)	(31.03)
2,000-4,999	43	43	19	43	43	40	25	25	24
		(100.00)	(44.19)	(100.00)	(93.02)	(93.02)	(58.14)	(58.14)	(55.81)
5,000+	3	3	3	3	3	3	3	3	3
	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)	(100.00)
Total	**869**	**662**	**53**	**869**	**155**	**151**	**159**	**193**	**237**
		(76.18)	**(6.10)**	**(100.00)**	**(17.84)**	**(17.38)**	**(18.30)**	**(22.21)**	**(27.27)**

It may be noticed that the percentage of villages having various amenities is highest in the highest population range. All the 3 villages in the population range of 5000+ are equipped with all the amenities. Thus availability of various amenities has a direct link with the population and, therefore, higher the size class of villages, greater the amenities available in them

The following table gives the main staple food in majority of the villages in each tahsil of the district.

TABLE 6

Main staple food in the majority of villages in each tahsil

Sl. No.	Name of Tahsil	Main staple food
1	2	3
1	Niwari	Wheat, Rice
2	Jatara	Wheat, Rice
3	Tikamgarh	Wheat, Rice

Wheat and Rice are the main staple food of the rural population of the district. Though the district is situated in the wheat growing belt but rice is also an important crop grown in the district because of the existence of numerous tanks, making the land suitable for rice.

The following table gives the distribution of villages according to land use.

TABLE 7

Distribution of Villages According to Land use

Sl. No.	Name of Tahsil	No. of inhabited Villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total Cultivable area
1	2	3	4	5	6
1	Niwari	259	102,056.99	84,302.07 (82.60)	24,636.90 (29.22)
2	Jatara	299	149,713.00	120,736.00 (80.64)	24,602.00 (20.38)
3	Tikamgarh	311	159,116.61	126,547.93 (79.53)	32,287.69 (25.51)
	Total District	**869**	**410,886.60**	**331,586.00 (80.70)**	**81,526.59 (24.59)**

The soil of the district is not of a very high fertility. The greater part of the country being covered with red and yellow soils common to the gneiss area. However in patches intrasive dikes of trap have given deposits of a richer black soil.

According to village papers, 1979-80, about 81 per cent of the total area of the district is cultivable. Niwari tahsil with 82.60 per cent has the highest proportion of cultivable area while Tikamgarh tahsil has the lowest of 79.53 per cent. Niwari tahsil again tops with 29.22 per cent of irrigated area. The major source of irrigation in the district is through well.

The following table gives the cropping pattern of the district as per 1980-81 figures as under:

TABLE 7.1

Cropping Pattern, 1980-81

Crop	Area sown (in hectare)	Percentage to total area

Though the district had a small proportion of urban population till 1971 Census but thereafter the pace of urbanisation has been very fast There has been an addition of 5 towns at the 1981 Census of which 3 viz Prithvipur, Palera and Khargapur are towns added for the first time while 2 (viz. Niwari and Jatara) being the declassified towns of 1961 Census got a new life at the 1981 Census after having fulfilled the eligibil ty test.

Density :

The density of population in urban areas of the district has been fluctuating from census to census which is not because of the rise or fall in the population but because of variation in area figures. Addition of new towns leads inclusion of large chunk of uninhabited area which results in increase of density figure, though the population keeps on increasing.

Sex-ratio :

The sex-ratio ie. the number of females per 1,000 males of the urban population of the district had always been higher than the State averages. There has been a declining trend both in the district and the State as a whole from 1951 to 1971. It had however reversed so far as the State as a whole is concerned but the declining trend continues in the district. It follows that the position is becoming more adverse for females.

The following table gives the details of new towns/towns declassified in 1981 Census.

TABLE 9

New Town/Towns Declassified in 1981 Census

Name of Town	Population 1981 Census
1	2
(a) Added	
(i) Jatara	9,536
(ii) Khargapur	6,959
(iii) Niwari	10,462
(iv) Palera	7,936
(v) Prithvipur	12,163
(b) Declassified	
(i)	
(ii) Nil	
(iii)	

As many as five towns have been added in 1981 Census. Of these Niwari and Jatara are old towns which were declassified at the 1961 Census owing to the rigourous eligibility test applied then. Their reentry at this Census is based on their qualiying the eligibility test.

The following table gives the per capita receipt and expenditure in towns.

TABLE 10

Per capita receipt and expenditure in towns

Class, Name and civic status of the town	Per capita

All the local bodies have maintained their spending well within the limits of earning. On the other hand there has been some saving in each case. The per capita receipt through taxes is highest (23.95) in Tikamgarh town and lowest in Khargapur (0.43). The latter being a new addition and on the expenditure front Jatara has spent highest per capita (10.43) on general administration and also on public works (10.21) Expenditure on public health and conveniences has been highest (11.98). In Tikamgarh Town.

The following table gives the number of schools per 10000 population in towns.

TABLE 11

Schools per ten thousand population in towns

Class, Name and civic status of town	No. per ten thousand population			
	Higher Secondary/ Inter/PUC/ Junior College	Secondary/ Matriculation	Junior Secondary/ Middle	Primary
1	2	3	4	5
V Jatara (N.A.C.)	2.10	...	2.10	3.15
V Khargapur (N.A.C.)	1.44	...	2.87	2.87
IV Niwari (N.A.C.)	2.87	...	1.91	1.91
V Palera (N.A C.)	1.26	...	2.52	2.52
IV Prithvipur (N.A.C)	0.82	...	1.64	3.29
III Tikamgarh (M)	0,47	...	1 89	3 78
District Total	1 12	...	**2.01**	**3.24**

In terms of number of institutions per 10,000 population Tikamgarh town tops with 3.78 while its average in the case of higher secondary schools is lowest. The low average may not be mistaken for the town being less effective on spread of education of the Higher Secondary level as it may be having schools with higher capacity. Thus the number is not merely an indicator of better situation but the size or the capacity that matters.

Tikamgarh town has the highest literacy rate of 49.56 per cent followed by Niwari with 37.84 per cent. The lowest literacy rate of 28.30 is found in Palera town while it is having better average on all score.

The following table gives the number of beds in medical institutions in towns.

TABLE 12

No of Beds in Medical Institutions Towns

Class, name and civic status of the towns	No. of beds in medical institutions per 1,000 population
1	2
V Jatara (NAC)	0.84
V Khargapur (NAC)	0.86
IV Niwari (NAC)	0.76
V Palera (NAC)	1.01
IV Prithvipur (NAC)	0.49
III Tikamgarh (M)	2.01
All towns	1.35

Tikamgarh town having the District Hospital maintains the highest average (i.e. number of beds in medical institutions per 1000 population). The facility available in different towns is not however adequate to cater to the needs of the population living in them.

The following table gives the most important commodity manufactured, imported and exported.

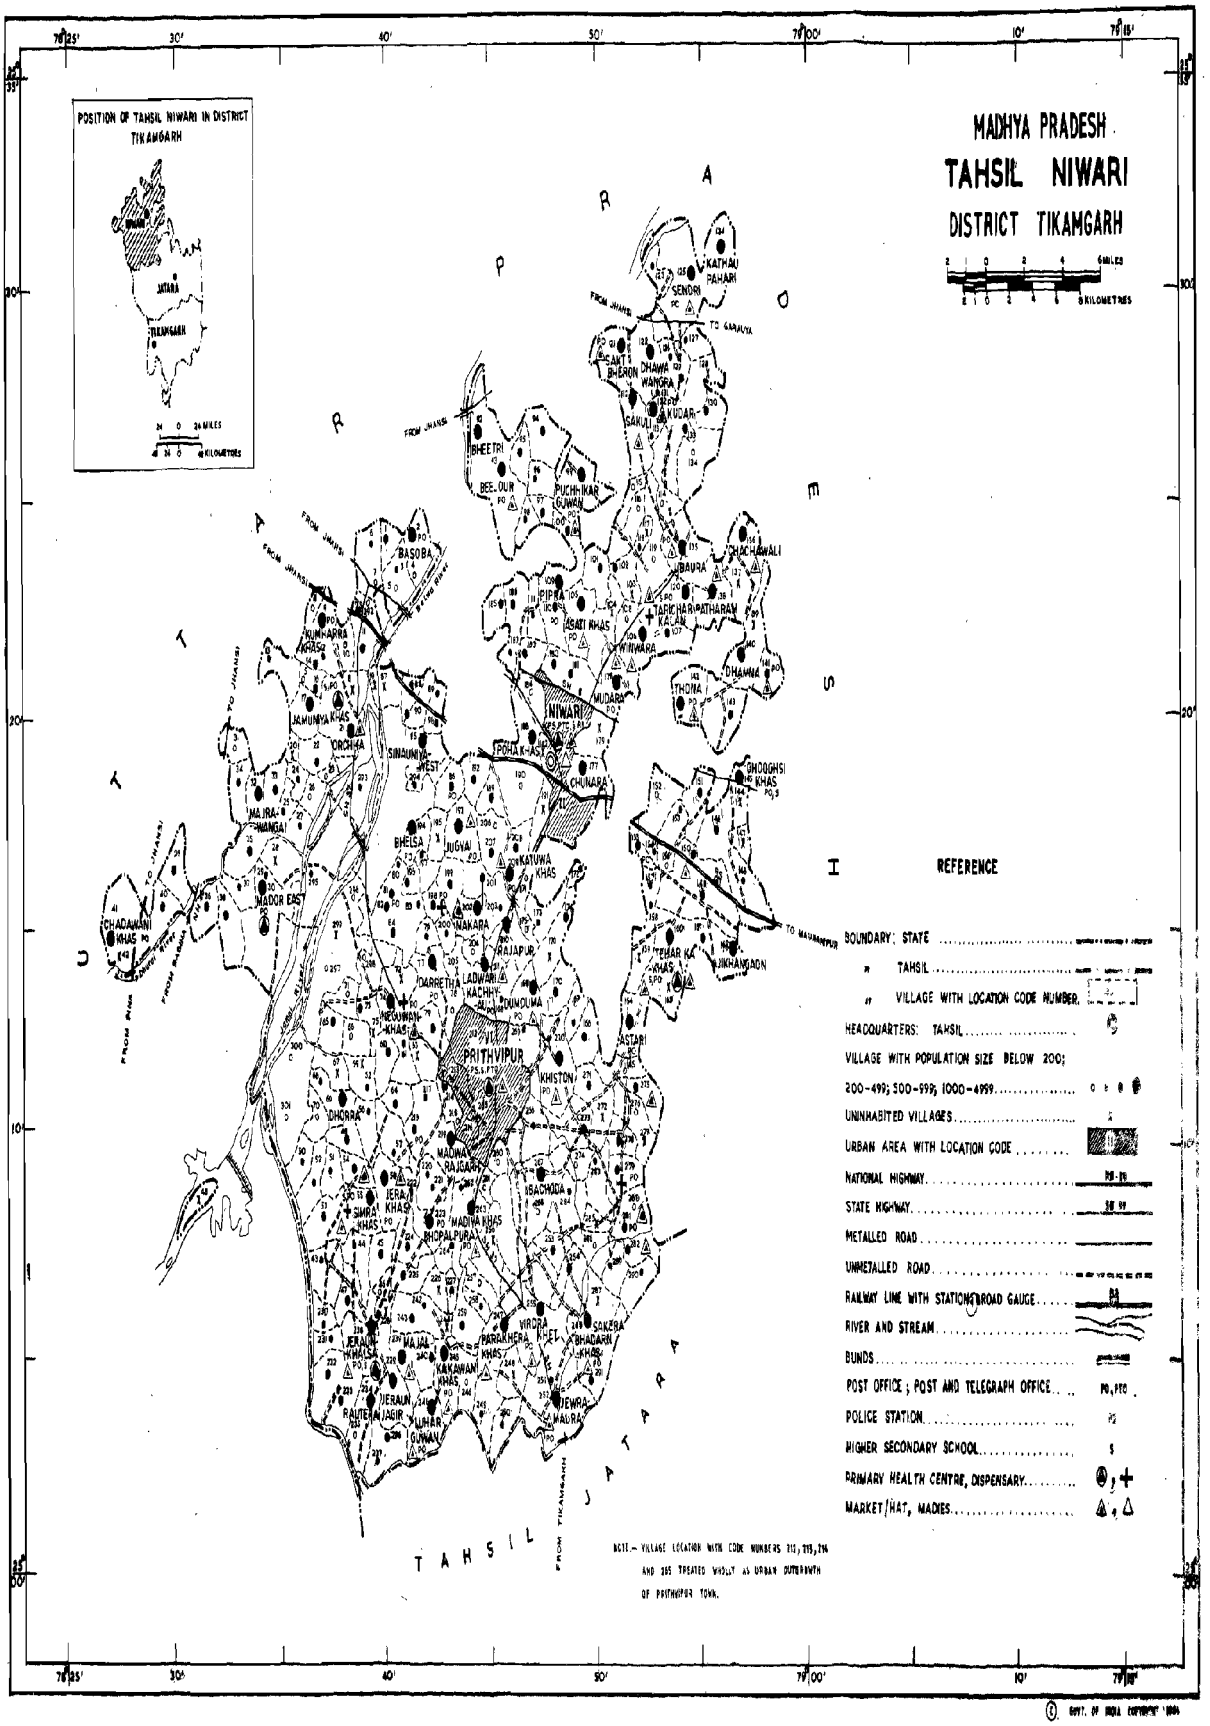

TABLE 13

Most important commodity manufactured, imported and exported in towns

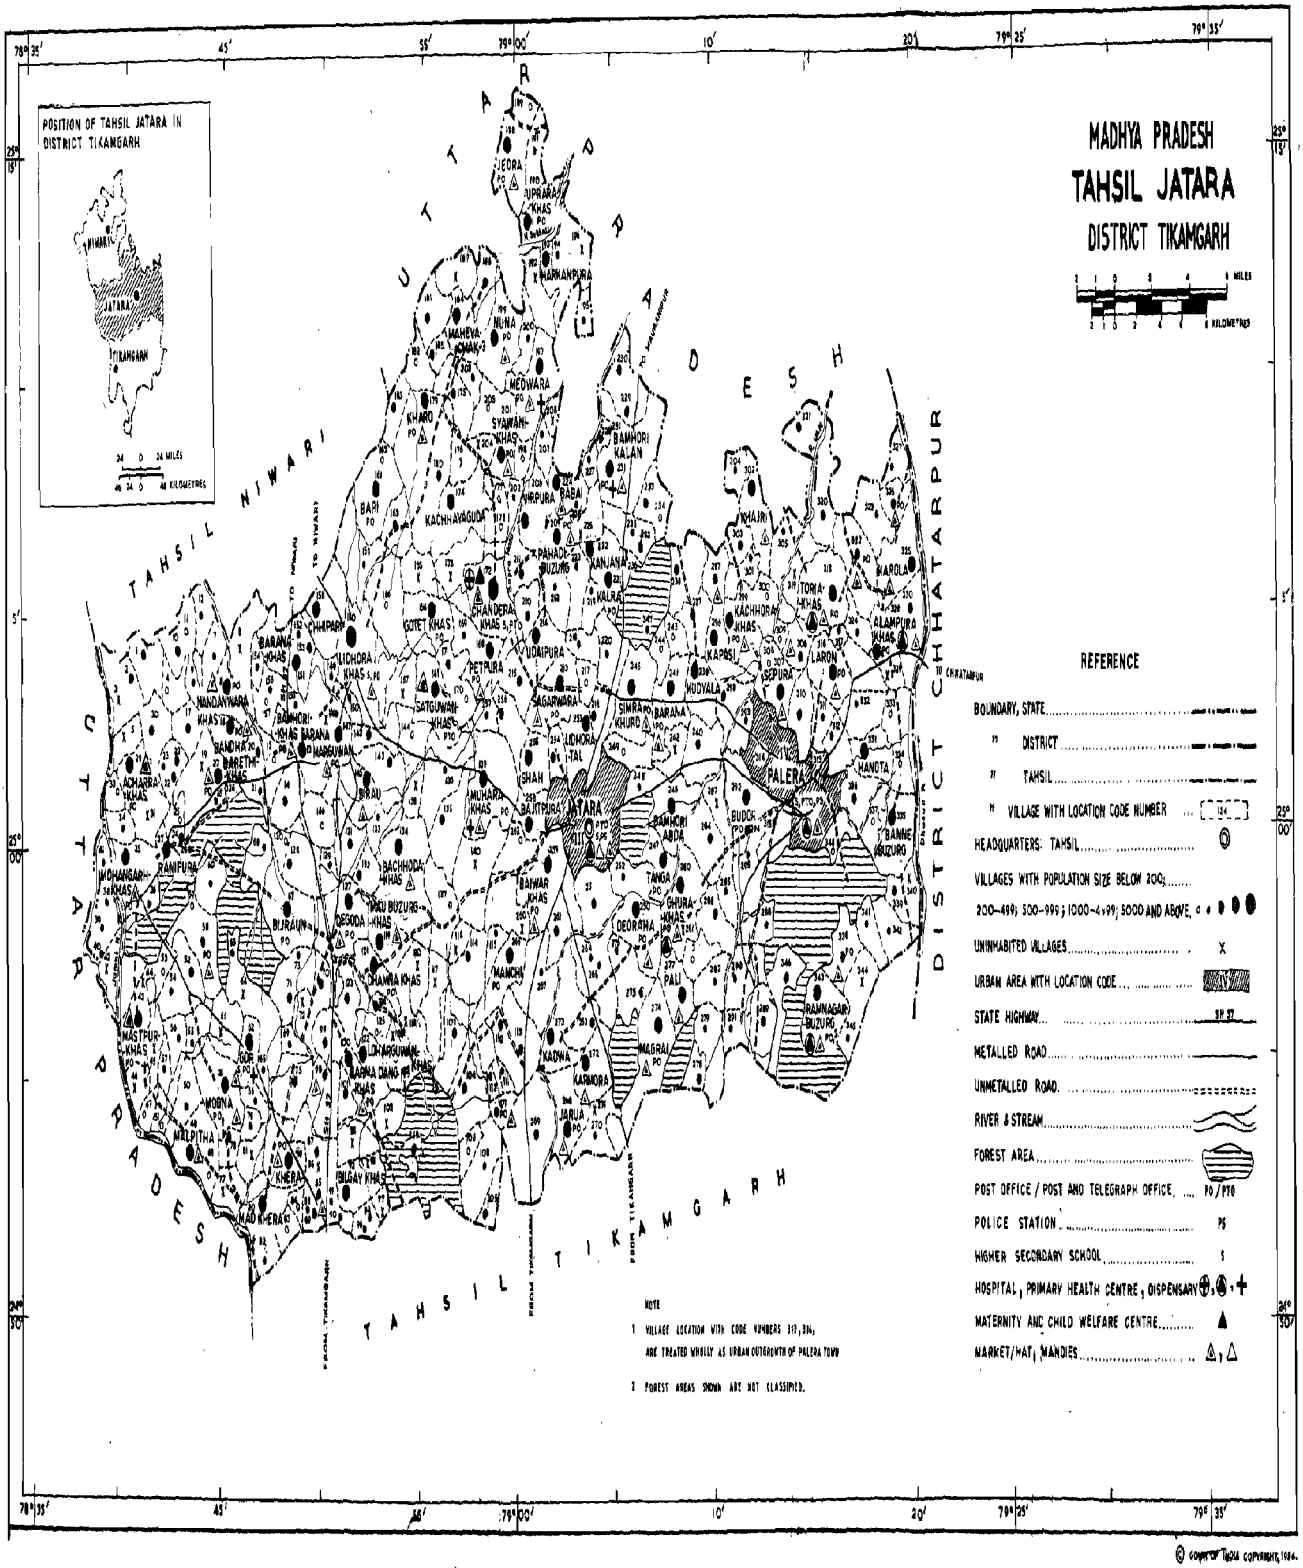

Class, name and civic status of the towns	Most important commodity		
	Manufactured	Exported	Imported

NOTES EXPLAINING THE CODES USED IN THE VILLAGE DIRECTORY

The Village Directory contains information about the name of village, total area of village, total population and the number of households in the village, amenities like education, medical, drinking water, post and telegraphs, market day, communications, approach to village, distance from the nearest town, power supply, staple food, landuse, places of religious, historical and archaeological interest etc. This is further supplemented by information on copies of newspapers coming in the village, number of motor cycles/scooters/cars/jeeps and tractors available in the village.

Every village in a tahsil has been assigned a serial number which is the location code of the village to facilitate identification. Apart from the revenue villages, forest villages have also been listed. Villages that have been treated wholly or partly as urban outgrowths because of their being contiguous to an urban area have also been listed and a note indicating "included wholly or partly as urban outgrowth of such and such town" has also been given against each such villages.

Information about the amenities available has been given in columns 5 to 10 of the Village Directory with the abbreviations used in different columns as indicated below :—

Where there are more than one institution of a type the number of such institutions has also been shown within brackets. If no facility or aminity is available within the village, a 'dash' is shown and next to it in brackets the distance in broad ranges viz., 5km, 5-10 km etc. of the nearest place where the facility/aminity is available has been indicated.

Column 5 : Educational facilities have been shown by adopting the following abbreviations :

P — Primary School
M — Junior Secondary or Middle School
H — Matriculation or Secondary School
PUC — Higher Secondary/Intermediate/Pre- University/Junior College.
C — College (graduate level and above) like Arts, Science, Commerce etc.
I — Industrial School
Tr. — Training School
AC — Adult Literacy class/centre
O — Other Educational Institutions. These may include Sanskrit pathshalas, Senior Basic School, Maktab, etc.

Where figures like P(3), M(2), H(1) etc. occur these denote that the village has three primary, two middle and one Higher Secondary School.

If there are composite schools like Middle school with Primary classes or Higher Secondary schools with Middle classes, these have been included in the number of Primary Schools and Middle schools as the case may be.

Column 6 : Medical facilities have been shown by the use of the following abbreviations :

H — Hospital
MCW — Maternity and Child Welfare Centre
MH — Maternity Home
CWC — Child Welfare Centre
HC — Health Centre
PHC — Primary Health Centre
PHS — Primary Health Sub-Centre
D — Dispensary
FPC — Family Planning Centre
TB — TB Clinic
NH — Nursing Home
RP — Registered Private Practitioner
SMP — Subsidised Medical Practioner
CHW — Community Health Worker
O — Others

Column 7 : The types of the potable drinking water supply and the sources available in the village have been indicated by the following codes :

T — Tap Water
W — Well Water
TK — Tank Water
TW — Tubewell Water
HP — Hand Pump
R — River Water
F — Fountain
C — Canal
L — Lake
S — Spring
N — Nullah
O — Others
NA — Information not available

Column 8 : Post and telegraph facilities have been shown by adopting the following abbreviations :

PO — Post Office
TO — Telegraph Office
PTO — Post and Telegraph Office
Phone — Telephone Connection

Column 10 : Communication facilities have been indicated by the following codes :

BS — Bus Stop
RS — Railway Station
NW — Navigable Waterway (including river, canal, backwaters, etc.).

Only public transport like Bus, rail and waterway have been considerd for this purpose.

Column 11 : Approach to village—This refers to the State of road etc. leading to the village.

This has been indicated by the use of following codes :

PR — Pucca Road
KR — Kuccha Road
FP — Foot Path

Column 12 : Nearest town and distance — The distance in km of the nearest town (whether located in the state or in another state) has been given in brackets under this column.

Column 13 : Power supply : For this purpose, the following codes have been used under this column.

ED — Electricity for Domestic Purpose
EAg — Electricity for Agriculture
EO — Electricity for other purpose like industrial, commercial, etc.
EA — Electricity for all purposes listed above.

Column 15-19 : Land use : Break-up of area under different type of land use viz., forest, irrigated area, unirrigated area, culturable waste and area not available for cultivation has been furnished under columns 15-19.

(a) Forest — This includes all lands classed as forest under any legal enactment dealing with forests or administered as forests, whether state owned or private, and whether wooded or maintained as potential forest land.

(b) Irrigated and unirrigated (land use)—The two columns (cols. 16 and 17) cover all agricultural land and include net area shown with crops and orchards or net cropped area and also current and other fallows. The latter implied all lands which were taken up for cultivation, but are temporarily out of cultivation for a period of not less than a year and more than five years. These columns do not include gross area sown or gross cropped area.

(c) Culturable waste — It includes lands fit for cultivation whether or not taken up for cultivation or once taken up for cultivation but not cultivated for more than 5 years. Grazing land and land under groves have been included under culturable waste but this does not include 'orchards'. To be more precise culturable waste includes :

(a) Permanent pastures and other grazing lands.

(b) Land under miscellaneous trees, crops and groves,

(c) and cultivable lands not put to agriculture.

(d) Area not available for cultivation—This column gives the area of barren and uncultivable lands and lands put to non-agricultural uses like village sites, roads, water rocks and hills etc.

Column 20 — This is a remark column but it has been used to indicate some important information relating to the village. For example , if there is any famous religious, historical or archaeological place in the village it has been indicated in this column. Some useful information like number of copies of news-papers coming in the village, no. of motor cycles, scooters, jeeps, cars, tractors, etc,. are available in the village has been given. The abbreviations used to indicate the above information relating to the village are as below :—

N — Copies of the news papers coming in the village.

M — Motor cycles/scooters available in the village.

C — Cars/Jeeps available in the village

T — Tractors available in the village.

In case there is 'Nil' information for a village a 'dash' has been shown.

खण्ड ख - नगर निर्देशिका

SECTION B - TOWN DIRECTORY

NOTE EXPLAINING THE CODES USED IN THE TOWN DIRECTORY

The details of statement presented in the Town Directory, 1981 are given below :-

Statement- I Status and Growth History

This statement provides some basic data based on the Primary Census Abstract (PCA). In column 2 of the statement the class of the town has been indicated according to 1981 Census Population of the core town as follows:-

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below - 5,000	VI

The Civic administration status of the town as in 1980 has been indicated. Where there is no civic body in the town it has been treated as **Census town.** The following abbreviations have been used to denote the civic status of the town :-

Municipal Corporation	M. Corp.
Municipal Committee/Municipality	MC
Cantonment Board	CB
Notified Area Committee	NAC
Gram Panchayat	GP
Special Area Devlopment Authority	SADA
Census Town	CT

Column 5 : Area (Sq. km) as supplied by the local bodies.

Statement- II : Physical Aspects and Location of Towns

This statement gives for each town, physical aspect and location of towns. In columns 6 to 12 the name of and road distance in Kms. shown within brackets, from the State headquarters, District headquarters, Tahsil headquarters, nearest city with population I lac and above, Railway station, Bus route Navigable river Canal (if within 10 km.) have been presented. If the name mentioned in these columns are the same as the referrent town itself the distance has been recorded as 'o' (zero). In case the railway station (Col. 10) or bus route (Col. 11) is not available in the referrent town, the name of nearest town where the facility is available with distance in kms. from the referrent town has been presented. If navigable river/canal is passing within a distance of 10 km. from the town the name of river/canal with distance has been presented in column 12. The abbreviation R and C stand for River and Canal respectively.

Statement III : Municipal Finance - 1978-79.

The data for this statement is collected from local administrative bodies and has been presented not only in respect of statutory bodies but also in respect of non-statutory bodies managing the civic administration of the town, if they have separate budgets and accounts of thier own pertaining to the town.

Under column 12, the expenditure incurred by the civic authority on ' public safety ' includes such items as fire fighting service, rescue operations during flood and fairs, etc. Likewise, column 15 includes expenditures incurred on schools, colleges and other institutions like public libraries, museum etc. The exact items covered, may however vary from town to town, which would depend on the practice followed in this regard by each local authority.

Statement IV : Civic and other Amenities, 1979

The information given under, columns 2 to 6

are new additions. Information under column 6 represents Pucca and Kachha roads for which abbreviations used are PR and KR respectively. In column 7 the various types of sewerge/drainage systems have been presented as given below:-

Sewer	S
Open Surface Drains	OSD
Box Surface Drains	BSD
Sylk Drains	SD
Casspool Method	CD
Pit System	PT

In Column 8, 9 & 10 information collected from respective local bodies on different types of latrines has been presented. It includes public as well as private latrines.

In Column 11, the abbreviations used for the various prevailent methods of disposal of night soil are given below. where more than one method is used, the information given upto two methods.

Head loads	HL
Baskets	B
Wheel barrows	WB
Septic tank latrine	ST
Sewerage	S

In columns 12 and 13 the sources of protected water supply and the system of storage with capacity therein within brackets have been presented with the following abbreviations. Where more than one source or more than one system of storage exist, the information is restricted to two major sources or systems.

Column 12

Tube well water/Hand pump	TW
Tape water	T
Well water	W
Tank water	TK

Column 13

Overhead Tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell pumping System	BWP
Pressure Tank	PT

In case of availability of fire-fighting service in a town 'yes' has been indicated, otherwise the name of the nearest place where available and the distance in kms within brackets, have been shown.

Statement - IV/A :- Civic and other Amenities in Notified Slums - 1979.

Information relating to civic and other amenities in respect of slum areas of those towns where the population exceeds 50,000 has been presented.

Statement V :- Medical, Educational, Recreational and Cultural Facilities, 1979.

In Columns 4 & 5 the information collected from the State Health Department has been presented. The institutions run by private doctors have not been included. The information is limited for those institutions as are run by or aided by Govt./Semi Govt/ local bodies and charitable institutions or social service agencies like the missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or primary health centres, those have been treated as independent unit and presented separately. The maternity and child welfare centres, veneral disease clinic, chest clinic and leprosy clinic have not been given separately. These have been indicated alongwith other medical institutions in column 4. The following abbreviations have been used.

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	PC
T.B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type the number of such institutions have been indi-

cated within brackets e.g. dispensaries (2) nursing homes (4) etc.

All types of hospitals/dispensaries etc. whether allopathic or ayurvedic or unani or homeopathic have been covered in column 4. These institutions have been indicated with the following abbreviations:-

Ayurvedic	A
Unani	U
Homeopathic	Hom

In case of allopathic, no abbreviation is given.

If no medical facility is available in the referrent town the name of the nearest town with distance thereof has been given. The information on number of beds has not been given as it was not provided by the authorities concerned. In column 6 and 9 the information collected from the Educational Department has been presented with the following abbreviations.

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Combined for all Categories, Arts, Science and Commerce	A SC
Law	L

If there are more than one institutions of a type the number has been against each in brackets.

Column 10 :- The information has been collected from the Educations Department. Where the institutions are found to be located just beyond the boundaries of the town but near the referrent town and for all purpose are considered as belonging to the referrent town only. Such marginal cases have been included in the town directory. If there are more than one institutions of such type the number has been given against each in brackets. The following abbreviations have been used:-

Shorthand Typewriting	SH Type
Others	O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B.Ed, College, Teacher's Training institutions, Music/Dancing School, Nursing School, etc. have been covered under 'Others' However the type of institutions included under 'Others' have been described in the intr-oductory note.

Column 11 & 14:- The information has been collected from the district Education officers. The following abbreviations have been used -

Primary	P
Junior Secondary or Middle School	M
Matriculation or Secondary	Such type of institution does not exit in Madhya Pradesh
Higher Secondary/Intermediate/Pre-University/ Junior College/(10+2) System whether held in Schools or Colleges.	PUC

If there are composite schools like Middle schools with primary classes, or Higher secondary Schools with Middle classes, these have been included in the number of Primary and Middle schools respectively. For example if in a town, there are two Primary schools and one Middle school with primary classes, the number of primary schools in the town have been given as three and that of middle school as one even though there may be only three educational institutions. This also applies in the case of higher secondary schools.

If there are more institutions of a type in the town, these have been indicated with numbers within brackets against the abbreviations e.g. D (3), M (2), H (2), etc.

Column 15--The number of Adult literacy classes has been shown.

If an educational facility is not available in the town, the name of the nearest place where the facility is available, have been given with distance in km from the referrent town.

Column 17–19 : The information has been collected from the Excise Department and concerned local bodies. Touring Cinema talkies have not been taken into account. Communicy halls have been included in column (19).

Column 20:– The information has been collected from Education Department and the local bodies who maintain public libraries and reading rooms and the following abbreviations have been used in presenting them.

Public Library	PL
Reading Room	RR

Statement VI :– Trade, Commerce industry and Banking 1979.

The statement depicts information relating to three most important commodities, imported, exported and manufactured. The commodities have been mantioned in order of volume. Besides, information relating to the number of banks, number of agricultural and non-agricultural socities also been furnished.
