THE DANGS DISTRICT

R. S. CHHAYA
of the Indian Administrative Service
Director of Census Operations
Gujarat

Gujarat's picturesque hill station perches on a plateau in the Dangs forest area of the Sahyadri Range. At an altitude of about 1000 mt., it has a cool, bracing climate, the highest temperature even in the summer months not exceeding 80° F. This is the only hill station in Gujarat.

Saputara means the Abode of Serpents, and a snake image on the banks of the river Sarpaganga is worshipped by the Adivasis on the festivals like Holi.

VILLAGE / TOWNWISE PRIMARY CENSUS ABSTRACT

1 The Dangs Taluka 11—28

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and ward-wise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part–A related to village and town directory. Part–B to village and town PCA and Part–C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspec particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class–I and Class–II towns (Statement IV–A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The

addition of the columns on civ ic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The district and Tahsil/Police Station/C D Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of *Shri R. S. Chhaya* the Director of Census Operations, *Gujarat* on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

NEW DELHI
the 26th April, 1982

P. PADMANABHA
Registrar General, India

PREFACE

The District Census Handbooks are printed during every decadal Census from 1951. These District Census Handbooks are prepared by the Census Organisation and DCHB unit of the State Government. These are published by the State Government at their own cost. The District Census Handbooks are the first Publications in the series of 1981 Census Publication. The Census Organisation has been collecting an enormous data both during the Census Enumeration period as well as after the Census Enumeration period. This data is very valuable to the Administrators, Economists, Planners, Research Workers, Scholars and other intelligentsia and also to the several institutions dealing with social-economic and developmental aspects of the State. It is absolutely necessary that this data after its collection is printed in the time and reaches the data users also in time. It is a matter of great satisfaction that the present volume is being published in the minimum possible time after the Census count.

The Census count in Gujarat State was taken during the period February-March 1981. The provisional figures collected through the District Census officers were published and presented to the Chief Minister of Gujarat State on 23rd March, 1981. After the declaration of the provisional count six Regional Tabulation Offices were opened at different places in the State. Three such Regional Tabulation Offices were opened at Ahmadabad, one at Vadodara, one at Surat and one at Rajkot. The Census records were edited and checked in these offices and the Primary Census Abstract for all the areas of the State were prepared. For this purpose 1,102 Tabulators, 184 Checkers and 61 Supervisors were temporarily engaged for a period of ten months. These offices were supervised by Deputy Directors of Census Operations who were taken on deputation from the State Government.

The District Census Handbook for the 1981 Census is published in two parts as follows :

I. Part A

(1) Village Directory

(2) Town Directory

II. Part B

District/Talukawise Primary Census Abstract

Both the Parts A and B of the District Census Handbook for 1981 Census have been combined and printed in one volume.

The Village Directory contains comprehensive information about the basic amenities available at the village leval such as medical, educational, drinking water, etc. The Town Directory also consists of information about the status, growth history, municipal finances, civic and other amenities, etc.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Castes/Scheduled Tribes population and the information pertaining to workers and non-workers. A special feature of the 1981 District Census Handbook is the inclusion of Scheduled Castes/Scheduled Tribes Primary Census Abstracts which gives complete District/Taluka/Townwise data on Scheduled Castes/Scheduled Tribes.

The data for the Village Directory has been collected through the Taluka Development Officers who in turn obtained the data from the village officials through their Statistical Assistants. In the District Census Handbook Cell this data subjected to a very close scrutiny and inaccuracies or deficiencies where noted were again got checked through the Statistical Assistants. For this purpose persons were deputed to the districts for obtaining the informations quickly. The area figures as reported by the village officials were also checked with the figures reported by the District Inspectors of Land Records. Utmost

care has been taken to see that the spellings of the villages are correct. Some of the data collected from the village level has also been cross-checked with the data which was supplied by the different Directorates and the Heads of the Departments of the State Goverment. The information pertaining to the District write-up (Item V of the Analytical Note) has been obtained through the Collector and the District Development Officers and the other district heads.

The data on Town Directory has been obtained through the various local bodies such as Municipal Corporation, Municipalities, Nagar Panchayats and Gram Panchayats. These were also checked in the Directorate by a Special Cell.

The Primay Census Abstract and Town Directory with their Inset Tables have been prepared in the Directorate whereas Village Directory alongwith its Inset Tables have been prepared in District Census Handbook Cell.

Maps

In each volume one district map showing the taluka boundaries, location of towns and villages having a population of 5,000, comunications, etc. has been printed. Taluka maps for each of the talukas in the district are also inserted in the District Census Handbook. These taluka maps indicate the boundaries of the villages and towns within the taluka and the location code numbers of each village. The maps were prepared in the map section of the Director of Census Operations.

Acknowledgement

The compilation of a huge mass of data which is printed in this book requires the active help and co-operation of the State Government in addition to the help and co-operation of all the officers and staff members of the Census Directorate. I am deeply indebted to Shri H. K. L. Kapoor, Chief Secretary to the Government of Gujarat for extending all help in the matter. Shri K. Rammoorthy who was working as Secretary, General Administration Department, during the Census Enumeration period extended his wholehearted co-operation. Shri V. Krishnamurthy who subsequently took over as Secretary, General Administration Department, also tookactive interest in the progress of Census work. I would like to make a special mention about the extra facilities granted by the State Government by way of creation of a Special Cell for the compilation of District Census Handbooks. One post of Deputy Director and several posts of Research Assistants, Statistical Assistants, Clerks and Typists have been sanctioned by the State Government specially for the coilmpation of the data. The services of all these persons were placed at the disposal of the Directorate for the compilation work.

Shri G. S. Shah, Director, Bureau of Economics & Statistics, Government of Gujarat, also rendered very valuable help by providing whatever data was required for cross-checks and by providing personnel for the Special Cell of District Census Handbook.

The Collectors and the District Development Officers incharge of the districts and the Municipal Commissioners incharge of the Municipal Corporation areas, have extended their wholehearted co-operation for the Census work. The Resident Deputy Collectors, the Deputy Collectors incharge of Sub-Divisionals, the District Statistical Officers, the Deputy District Development Officers, the Mamlatdars, the Taluka Development Officers, the Chief Officers of the Municipalities, the Deputy Mamlatdars and the Statistical Assistants at the District/Taluka levels, all played an important role in the Census work. I express my deep gratitude to all of them. After the Census count a large number of young boys and girls coming right from the schools and colleges were employed as Tabulators, Checkers and Supervisors and all of them worked very hard for the compilation of the useful data.

Shri P. T. Thakkar, Director of Printing and Stationery, Government of Gujarat, has taken the interest in the printing of the Handbooks. I here by acknowledge the valuable help, guidance and assistance rendered by him and other officers of the Printing Depârtment. Shri P. K. Choksi, Printing Inspector in this Directorate, looked after the printing jobs very well.

In the Census Directorate Shri J. K. Patel, Deputy Director of Census Operations (Tech.) was looking after the Compilation Section so far as Census data was concerned. The collection and compilation of data for the Village Directory was looked after by Mrs. Neelaben A. Bhatt, Deputy Director whose services were placed at the disposal of the Directorate. Both these officers have put in hard labour for the compilation and printing of the data.

Shri K. H. Desai, Shri V. A. Sathe, Shri K. R. Shridharani and Shri S. D. Vadera, who were officers on deputation from the Gujarat Administrative Service, supervised the editing, checking and compilation work at the Regional Offices in Ahmadabad, Surat, Vadodara and Rajkot respectively. Shri P. J. Jhala and Shri M. A. Malwade, who were officers on deputation from the State Government from the Bureau of Economics and Statistics, supervised the editing, checking and compilation work at Regional Tabulation Offices in Ahmadabad. Shri V. H. Vasavada, Deputy Director from the General Administrative Service looked after the administration work. All these officers worked diligently and accurately during their service in the Census Organisation.

In the Directorate Shri J. K. Patel, Deputy. Director was assisted by Shri R. V. Sanghani and Smt. D. D. Jhala, Investigators and Satistical Asistants Shri K.P. Patel, Shri R.R Upadhyay, Kum. J.R. Megha, Smt. M.B. Patel and Smt. K.S. Mehta. The typing of Primary Census Abstract was undertaken in a special section which was headed by Investigator Shri M. H. Patel. In the State Cell of District Census Handbook Smt. Neelaben A. Bhatt, Deputy Director was assisted by the Assistant Director Shri V. R. Gandhi and Research Assistants Kum. T. K. Shah and Smt. S. B. Solanki and Statistical Assistants Smt. H. A. Patel, Smt. C. C. Mehta, Shri S. V. Patel and Shri P. K. Shastri.

In the Map Section the work of preparation of State/ District / Taluka maps was looked after by Shri K. M. Dhawale, Senior Geographer and Shri B. L. Arya, Geographer. They were ably assisted by Shri K. K. Patel, Artist, Sarvashri M. S. Bhatt and B. J. Modi Senior Draftsmen and Sarvashri D. A. Maroo, R. K. Joshi, G. M. Kosti, B. C. Trivedi and M.A. Shukla, Draftsmen.

The work of dictations and typing of notes, reports, tables, etc., was undertaken by Shri J. A. Harry, Confidential Assistant in the Directorate, diligently with speed and accuracy. He was assisted by a number of Typists in the office.

Limitations of space prevent me from making individual mention of all those who have contributed to the making of this volume so accurate and complete. Quite a large number of Assistant Compilers, Computors, Clerks, Typists, Proof Readers, Draftsmen, Artist, etc., have contributed valuable help in this work.

Finally, I would like to express my deep gratitude to Shri P. Padmanabha, IAS, Registrar General, Government of India, and Sarvashri K. K. Chakravorty, V. P. Pandey, N. G. Nag and Dr. B. K. Roy, Deputy Registrars General, for the guidance given to me from time to time.

AHMADABAD
18th August, 1982

R. S. CHHAYA
Director of Census Operations, Gujarat, Ahmadabad

ANALYTICAL NOTES AND TABLES

1. Census concepts of rural and urban areas and other terms, viz., Census House, Household, Scheduled Castes, Scheduled Tribes, Literates, Main Workers, Marginal Workers, Non-Workers, etc.

The 1981 Census was carried out in Gujarat in two stages. The first stage of houselisting was completed in the months of June-July 1980. The houselists thus prepared provided a frame for the Enumeration work. In the second stage the house to house Census Enumeration was carried out from 9th February 1981 to 28th February 1981 with reference date as sunrise of 1st March 1981. The enumeration of houseless population was carried out on the night of 28th February 1981. A revisional round was also taken from 1st March 1981 to 5th March 1981. In this revisional round the Enumerators recorded new births that had taken place after their last visit for enumeration but before the sunrise of 1st March 1981 and also any visitor(s) that had moved into household and who had been away from his/her/their place of normal residence throughout the enumeration period or an entire household that had moved into the jurisdiction of the enumeration during this period and which had not been enumerated before. The names of persons who had died after the enumeration period but before the sunrise of 1st March 1981 were deleted from the Individual Slips which had been filled up during enumeration period.

In Gujarat prior to the taking of 1981 Census a special programme of updating permanent house-numbering scheme in the different parts of the State was also carried out in co-ordination with the Local Bodies and State Government. The permanent house-numbering scheme in Gujarat was introduced during the 1971 Census and the District/Taluka Panchayats, Municipal Corporations, Municipalities, Nagar Panchayats and Village Panchayats played a very useful role in fixing the number plates on the houses and buildings.

After the Census count was over the Enumerators submitted the figures to the Charge Officers through their Supervisors. These figures were obtained by the Director of Census Operations through the District Census Officers and the figures after compilation were declared on 23rd March 1981 as Provisional Census Figures for 1981 Census. Paper 1 showing those figures was printed and published and distributed on a complimentary basis.

During the Census Operations mainly two Census records were filled up by the Enumerators in each block. These were (1) Household Schedules and (2) Individual Slips. The different concepts which were adopted during the houselisting stage as well as during the Census enumeration are as follows :

(I) Rural and Urban Areas

Rural Areas : The basic unit for rural areas is a revenue village which has a definite boundary. The revenue village may comprise several hamlets but the entire village has been treated as one unit for presentation of the data.

Urban Areas : Urban areas have been specifically defined for the 1981 Census. The criteria adopted during the 1981 Census was almost the same as adopted in 1961 and 1971 Censuses. The following criteria were adopted for classifying urban areas in the States :

(a) All places with a Municipality, Municipal Corporation or Cantonment Board or Notified Town Area.

(b) All other places which specified the following criteria:

1 A minimum population of 5,000.

2 At least 75 per cent of the male working population engaged in non-agricultural (and allied) activity.

3 A population of at least 400 persons per sq. km. or a population of 1,000 per sq. mile.

The slight variation of the criteria adopted in 1981 and that adopted in 1961-1971 Censuses was that during 1981 Census the persons working in activities such as fishing, logging, etc., were

treated as par with cultivators and agricultural labourers whereas in 1961–1971 Censuses these were treated as engaged in non-agricultural activity.

(II) Census House

A 'Census House' is a building or part of a building having separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both. In case of a building having a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, were considered as separate Census houses.

(III) Census Household

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated household are boarding houses, messes, hostels, residential hotels, rescue homes, jails, etc. These are called 'Institutional Households'.

(IV) Scheduled Castes/Scheduled Tribes

The Scheduled Castes and Scheduled Tribes as notified under the Constitution for Gujarat State have been treated as Scheduled Castes and Scheduled Tribes for the purpose of Enumeration. A list of such Scheduled Castes/Scheduled Tribes notified for Gujarat is as under :

GUJARAT

(V) Literates

A person who can both read and write with understanding in any language is taken as 'literate'. A person who can merely read but cannot write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

(VI) Main Workers, Marginal Workers, Non-Workers

During the 1981 Census 'Work' had been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. The work involves not only actual work but also effective supervision and direction of work.

The reference period for 'Work' is one year preceding the date of enumeration. The main-worker was a person who had worked for the major part of the year in that activity. By major part of the year it was intended to find out as to whether a person had worked for 183 days or more or in other words worked for six months or more. Those who had worked for less than six months or 183 days were treated as marginal workers. A non-worker was one who had no economical activity during the year.

The information on 'Workers and Non-Workers' were obtained through Q. Nos. 14(a) to 16 of the Individual Slip. The main activity of workers has been classified into four categories, viz., cultivator, agricultural labourer, household industry and other worker. These terms are explained below :

Cultivator

For purposes of the Census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) will not be treated as cultivator.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

Household Industry

Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a household indust

should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factory Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this is not to be treated as 'HHI'. Thus, the meaning of the term 'run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion applies in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry, but at a place away from the precincts of their home, it is not to be considered a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a Pleader or Doctor or Barber, Musician, Dancer, Waterm an, Dhobi, Astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other Workers

All workers, i.e., those who have been engaged in some economic activity during the last one year, who are not cultivators, or agricultural labourers or in Household Industry, are 'Other Workers'. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining construction, political or social work, all Government servants, Municipal employees, teachers, priests, entertainment artists, etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry, are 'Other Workers'.

II. Brief history of the District and District Census Handbook

[A] History of the District

The area of the Dangs is believed to be the well-known 'Dandakaranya' of Ramayana where Rama and Sita spent 12 years of their exile. The territory of the Dangs was formerly covered by small principalities presided over by 5 Rajas and 9 Naiks. The territory was merged in the Bombay Satae in 1947 and included in Gujagar State since 1960. It was Placed under the administrative control of the Collector of Surat immediately after merger. Shortly there after it was constituted as a Separate district.

The Dangs is a newly created district, formed after the merger of the Dangs States of the former Gujarat States Agency with the Province of Bombay in 1947. On the creation of the new district of the Dangs, four villages were transferred from it to Surat district and three villages from Surat district were included in it.

In November, 1956, tha states were reorganised and the bigger bilingual States of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kutch regions. The Dangs district alongwith the other districts of Ahmababad Division formed part of the bigger bilingual State.

Lastly,the Bombay State was bifurcated on 1st May, 1960 and separate States of Gujarat and Maharashtra were formed. Since that date The Dangs disrrict became a part of the Gujarat State.

[B] History of District Census Handbook

Prior to the 1951 Census the Census figures were brought out villagewise under a booklet known as ' Village Handbook ' which contained only the population totals of villages. These books were prepared by the Census Organisation on behalf of the State Government and published by the latter. It was for the first time in 1951

Census that a more detailed and well organised book known as 'District Census Handbook' was brought out by the Census Organisation. The 1951 Census Handbook contained the villagewise Primary Census Abstracts which also included the information on post offices, railway stations and the nearest bazars of each village. The Handbook also contained several district tables.

During the 1961 Census the District Census Handbooks were brought out which contained the Primary Census Abstracts as well as certain district tables.

During 1971 Census also the District Census Handbooks were published which in addition to the Primary Census Abstracts contained a Village Directory showing the different village amenities and land-use of all the villages in the district. A separate portion known as 'Town Directory' was also included in the District Census Handbook. The Handbook was divided into three subparts known as Part-A, which contained the Village Directory and Town Directory, Part-B which contained the Primary Census Abstracts and Part-C which contained the Introductory Essay, Official Statistics, etc.

For the 1981 Census the District Census Handbook is being brought out in two Parts, Part XIII-A and Part XIII-B. Part XIII-A will contain the Village and Town Directory whereas Part XIII-B will contain the Primary Census Abstracts both General and Scheduled Castes and Scheduled Tribes. The Part-C as it was brought out during the 1971 Census has been dropped.

III. Scope of Village Directory, Town Directory and Primary Census Abstract

The District Census Handbooks which are now being printed during every Census after the 1951 Census are very important publications of the Census Organisation. With the emphasis by the Planning Commission on the 'Minimum Needs Programme' of the rural areas the District Census Handbook has become an important tool in the hands of the Administrators, Planners, Policy Makers and Academicians. For the 1981 Census the District Census Handbook has been divided into two parts which are combined in one volume. The details of the contents of each of these two parts are as follows :

PART A : VILLAGE AND TOWN DIRECTORY

Village Directory

This Part-A contains the non-census statistics of each village and town in the district. The Village Directory gives villagewise particulars of amenities available for each village in the spheres of education, medical, power supply, drinking water, post and telegraph, communication, Particulars of land-use, weekly markets and places of religious, historical and archaeological interests in the village. During the 1981 Census additional information regarding (1) copies of the newspapers coming in the village, (2) number of motorcycles and scooters available in the village, (3) number of cars and jeeps available in the village and (4) number of tractors available in the village have been added. The above non-census data of the Village Directory was collected from the Taluka Development Officers of each Taluka Panchayat in the State. In Gujarat under the democratic decentralisation scheme the Panchayats are now exercising very wide powers and the post of Statistical Assistants are under the administrative and technical control of the Taluka Panchayats. Besides, the Talati-*cum*-Mantris at the Village level who are the base village functioneries are also under the control of the Taluka Panchayats. The proformae for soliciting the information were despatched to the Talati-*cum*-Mantris through the Taluka Development Officers and these after they were filled up were checked by the Taluka Development Officers and also by the Districts Statistical Officers who work under the administrative and technical control of the District Panchayats. The data thus received was checked fully in the District Census Handbook Unit of the State Government. At the end of Village Directory a taluka abstract in Appendix-I of educational, medical and other amenities is also prepared and printed. Appendix-II which shows the land utilisation data in respect of non-municipal towns is printed. In Appendix-III the talukawise list of villages where no amenities relating to educational, medical, drinking water, post and telegraph, communication, power supply and market/

hats, are available have been shown. Appendix-IV shows talukawise list of villages according to the proportion of Scheduled Castes/Scheduled Tribes population by ranges. The last two appendices have been included for the first time in the 1981 Census.

Town Directory

The Town Directory portion furnishing the data for each town in the district is exihbited in seven statements covering (1) the status and growth of the civic administration, (2) physical aspect and location of towns, (3) the civic finances of the towns, (4) the civic and other amenities in the towns, (5) the medical, educational, recreational and cultural facilities in the towns, (6) trade, commerce, industries and banking in the towns and lastly (7) the civic and other amenities in notified slums wherever they exist.

The non-census data for each of the towns for the Town Directory were obtained from the Municipal authority in case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. An Appendix showing the towns with their outgrowths with population is also prepared and attached at the end of the Town Directory.

PART B : PRIMARY CENSUS ABSTRACT

Part-B gives for each village and for each ward of the town the primary census data incorporating area of the town in sq. kms. and of the villages in hectares, the number of occupied residential houses, the number of households, total population and its break-up by sex, Scheduled Castes and Scheduled Tribes population, literate population and working population by four broad categories, viz., (1) cultivators, (2) agricultural labourers, (3) those working in household industries and (4) other workers. There is a slight departure in the presentation from the 1971 categories which were in all nine categories.

The Scheduled Castes/Scheduled Taibles Primary Census Abstracts at the District/Taluka/City level are also printed in Part-B of the Handbook.

IV. Physical aspects highlights on the changes in the jurisdiction of the district during the decade including its boundaries and any important event on geographic or geophysical aspect

There have been no jurisdictional changes in the district boundaries during the last decade. The administrative jurisdiction of the Danges Taluka as shown in 1971 Census is the same during 1981 Census.

V. Major characteristics of the district particularly in relation to the economic resources, namely, Agriculture, Irrigation, Co-operation, Livestock and Animal Husbandary, Fisheries, Industries, Power Supply, Transport and Communication, Prices, Insurance, Education, Medical and Public Health etc.

[1] Agriculture

(a) Land Utilisation

The total reporting area in the district in the year 1979-80 was 1.72 lakh hectares. The details of land utilisation for the year 1979-80 are as under :

Land Utilisation

Sl. No.	Classification of area	Area in '00 hectares
1	Forest	1,699
2	Barren and uncultivable land	*
3	Land put to non-agricultural use	25
4	Culturable waste	*
5	Permanent pasture and other grazing land	*
6	Land under miscellaneous tree crops and groves not included in area sown	*
7	Current fallows	*
8	Other fallows	*
9	Net area sown	*
	Total area	**1,724**

* Area is included in the forest area.

(b) Area Under Major Crops

Area under major crops in the year 1971-72, 1975-76 and 1980-81 are shown in the table below :

Area under difterent Crops

(in '00 hectares)

Sl. No.	Crops	1971–72	1975–76	1980–81
1	Ragi	146	166	163
2	Rice	53	38	51
3	Jowar	4	4	...
4	Maize	3	4	3
5	Wheat	1	1	3
6	Other Cereals	92	95	53
7	Total Cereals	299	308	273
8	Tur	28	39	27
9	Gram	2	2	2
10	Other Pulses	50	50	45
11	Total Pulses	80	91	74
12	Groundnut	11	12	10

The above figures show pre-dominance of food crops over non-food crops in the district. The main food crops are Ragi and Rice among cereals and Tur and Gram among pulses.

(*c*) *Yield per Hectare*

During the year 1971–72, 1975–76 and 1980–81, the yield per hectare of important crops in the district are given below :

Yield per Hectare

(in Kg.)

Sl. No.	Crop	1971–72	1975–76	1980–81
1	Ragi	1,009	964	874
2	Rice	1,432	1,363	1,099
3	Kharif Pulses	500	250	378
4	Groundnut Kharif	667	..	1,846

(*d*) *Crop Calendar*

The months of sowing and harvesting of different crops are given below :

Crop Calendar

Sl. No.	Crop	Months of sowing	Months of harvesting
1	Paddy	July	October–November
2	Wheat	October–November	March
3	Maize	July	August–September
4	Vari	July	September–November
5	Turdal	July	November
6	Ragi	July–August	January–February

(*e*) *Scarcity*

The Scarcity affected villages in district during the year 1971–72 to 1979–80 are as under :

Scarcity

Sl. No.	Years	Scarcity affected villages
1	1971–72	..
2	1972–73	311
3	1973–74	..
4	1974–75	..
5	1975–76	..
6	1976–77	..
7	1977–78	..
8	1978–79	..
9	1979–80	..

[2] Irrigation

The area irrigated by different crops for the year 1971-72, 1975-76 and 1978-79 was 109, 163 and 108 hectares respcetively, The only source of irrigation in the district is wells.

(3) Co-operation

The district being very small theise is no seperate district Co-operative bank but the Valsad District Co-operative Bank operates in the district through 3 branches in the district. They are located at Ahwa waghai and Saputara. In the year 1979–80 there were 91 Co-operative societies functioning in the district. The details regarding Co-operative societies during the year 1971–72, 1975–76 and 1979–80 are as under.

Co-operative Societies

Sl. No.	Co-operative Societies	Item	1971–72	1975–76	1979–80
1	Primary Agricultural Credit Societies	Societies	30	34	25
		Members (in '00)	6,000	7,097	7,459
2	Primary Non-agricultural Credit Societies	Societies	3	4	5
		Members (in '00)	1,000	992	2,000
3	Primary Consumers Stores	Societies	1	N.A.	1
		Members (in '00)	465	N.A.	37
4	Primary Marketing Societies	Societies	1	1	1
		Members (in '00)	32	40	46
5	Central and State Marketing Societies	Societies	1	N.A.	N.A.
		Members (in '00)	28	N.A.	N.A.
6	All other types of Primary Societies	Societies	34	46	58
		Members (in '00)	6,901	10,196	17,714
7	All other types of Societies (Central and State)	Societies	N.A.	1	1
		Members (in '00)	N.A.	9	9

The data reveals an increasing trend in the field of Co-operative Societies.

[4] Livestock and Animal Husbandry

(a) Livestock

According to the Livestock Census of 1972 and 1977 the cattle population of the district is found to be distributed as under :

Livestock

Sl. No.	Category of Livestock	1972	1977
I	**Total Livestock**	**84,238**	**82,470**
	A Bullocks and Cows	*62,852*	*58,334*
	(1) Males over 3 years	21,470	21,353
	(2) Females over 3 years	20,769	19,910
	(3) Young stock	20,613	17,071
	B Buffaloes	*4,524*	*6,065*
	(1) Males over 3 years	2,590	3,791
	(2) Females over 3 years	1,223	1,385
	(3) Young stock	711	889
	C Sheeps	*157*	*133*
	D Goats	*16,446*	*17,538*
	E Horses and Ponies	*32*	*257*
	F Mules	..	..
	G Donkeys	*10*	*54*
	H Camels	..	..
	I Pigs	*217*	*89*
	II Poultry	*48,676*	*71,882*

The Livestock population in the district has considerably decreased during 1972–77. The number of poultry birds have been increased from 48,676 to 71,882.

During the year 1979–80 there was 1 veterinary dispensary and 8 Stockmen centres. There is one Poultry farm in the district. There were 10 Primary Milk Co-operative Societies in the year 1979–80.

(b) Agricultural Tools and Implements

The following table shows the agricultural implements in the district recorded during the year 1972 and 1977 Agricultual Livestock Censuses.

Agricultural Implements

Sl. No.	Name of agricultural implement	1972	1977
1	Plough		
	(1) Wooden	11,440	11,564
	(2) Iron	117	121
2	Carts	3,471	3,343
3	Sugarcane Crushers	2	1
4	Oil Engines	18	48
5	Electric Motors & Pumps	2	2
6	Tractors	2	1

It is seen that traditional implements like wooden ploughs and carts are the main agricultural implements. During the period 1972 to 1977 iron ploughs and oil engines here shown an increasing trend.

[5] INDUSTRIES

The following table gives the details of important industries classified by major group of industriy during the year 1981.

Distrbuion ot Important Industrial Establishments by Major Industry Groups.

Sl. No.	Major group	Description	No. of establi-shment	No. of persons employed
1	27	Manufacture of wood and wood products, furniture and fixtures	1	100
2	97	Repair services	1	41

During the houselisting operations for the 1981 Census an Economic Census was also conducted in the year 1980 alongwith the Hous listing operations. The Economic Census was conducted through the Bureau of Economics and Statistics at the State Level and through the Central Statistical organisation at the National level. The preliminary provisional results of Economics Census 1980 have been published by the State Bureau. According to the provisional figures the total enterprises in the Dangs district are 2,765 out of which 407 are agricultural enterprises whereas 2,349 are non-agricultural enterprises. The total number of persons actually working in these enterprises are 7,154 out of which 942 persons are working in agricultural enterprises. whereas 6,212 persons are working in non-agricultural enterprises. Further details of the Economic Census are yet to be worked out by the State Bureau.

During the 1981 census out of total workers 63.09 per cent were cultivators, 17.90 per cent were agricultural labourers, 2.03 per cent were in household industry and 16.98 per cent were other workers.

[6] Power Supply

The Gujarat Electricity Board is the chief source of electric power in the district. use of electricity has increased during the last decade.

During 1971 Census, 13 villages were shown as electrified within a period of ten years, the number of villages electrified have arisen to

33 which works out at 10.61 per cent of total inhabited villages of the district.

[7] Transport and Communication

(a) Roads

In the year 1971–72, the total road mileage was 762 kms. which increased to 858 kms. in the year 1980–81. The detail information regarding types of roads for the years 1971–72, 1975–76 and 1980–81 are as under :

Roads

(in kms.)

Sl. No.	Year	National Highways	State Highways	District Major Roads	Other Roads	Village Roads	Total
1	1971–72	..	124	149	222	267	762
2	1975–76	..	125	148	223	468	964
3	1980–81	..	122	138	151	447	858

It would be observed from the above that there is a improvement in the net work of roads in the district.

(b) Railways

There are 5 kms of railways in the district and the number of railway stations are 2.

(c) Post and Telegraph

In the district villages with post, telegraph and phone facilities are 56, 2 and 1 respectively.

(d) State Road Transport

Out of 311 inhabited villages, 135 villages are connected by state Road Transport buses.

[8] Prices

The retail prices per kilogram of Some of the important commodities during the month of January 1971, January 1976 and January 1981 are as follows :

Retail prices per kg. (in Rs.)

Sl. No.	Commodity	Jan. 1971	Jan. 1976	Jan. 1981
1	Rice-Fine	1.95	4.00	3.60
2	Rice-Medium	1.65	3.80	2.40
3	Rice-Coarse	1.45	2.50	2.10
4	Wheat-Medium	1.30	2.25	2.00
5	Wheat-Coarse	1.25	N.A.	1.75
6	Jowar	1.20	2.15	1.50
7	Bajri	0.85	2.00	1.70
8	Gram Dal	1.50	3.00	6.40
9	Tur Dal	2.18	2.80	4.90
10	Groundnut Oil	5.00	7.00	12.55
11	Gur	1.25	2.50	4.00
12	Sugar	2.00	4.50	3.50

[9] Insurance

The Life Insurance activity in the district during the year 1971–72, 1975–76 and 1980–81 is shown below :

Life Insurance Activity

Sl. No.	Year	No. of policies	Sum Assured (In Lakhs)
1	1971–72	28	2.10
2	1975–76	11	0.92
3	1980–81	87	11.37

[10] Education

Education plays an important role in the National Development Programme. Primary education is compulsory both for boys and girls in the age group 6–11 years. The State Government has been making all efforts to provide at least one primary school in each village of the State so this basic necessity can be within the reach of every rural citizen. After the formation of District Panchayats in Gujarat, the function of primary education has been transferred to the District Panchayats in the rural areas,

Education facilities in the district for the year 1971–72, 1975–76 and 1979–80 are as under :

Education Facilities

Sl. No.	Education		1971–72	1975–76	1979–80
1	Primary Education	Institutions	314	334	360
		Pupils	15,300	19,173	24,333
		Teachers	504	587	760
2	Secondary Education	Institutions	3	5	8
		Pupils	455	709	1,325
		Teachers	24	33	50

[11] Medical and Public Health

There is 1 hospital, 8 dispensaries, 20 family planning centres, 2 primary health centres, 17 primary health sub-centres, 7 maternity and child welfare centres and 98 community health workers in the district.

VI. Brief description of places of religion, historical or archaeological importance and places of tourist interest in the district

Sl. No.	Name of Taluka	L.C. No.	Name of Village	Details of religion, historical or archaeological inetrest
1	2	3	4	5
1	The Dangs	6	Bardipada (Saja)	An ancient Castle named Rupgadh.
2	The Dangs	162	Ahwa	Situated about 2000 feet above the sea level covered with thick forest and the scenic beauty are sources of attraction to tourists. From here poisonous snakes are sent to Haffkine Institue, Bombay for preparing injections.
3	The Dangs	184	Pandva	Cave since pandav period.
4	The Dangs	311	Saputura	It is situated on the Waghai-Nasik state highway. About 3200 feet above the sea level, having cold and pleasant climate. It is a famous hill station of Gujarat.

VII. Brief analysis of the Village and Town Directory and Primary Census Abstract data based on inset tables

NOTE ON VILLAGE DIRECTORY

The different types of amenities available at the village level in the district have been tabulated in the form of Village, Directory. This statement shows the different type of amenities and land-use in each village. At the end of the Village Directory a taluka abstract of all the amenities has been prepared and printed as Appendix-I.

All the villages in the district are inhabited. It can be seen from the abstract that out of 311 inhabited villages 306 villages have primary school facilities and only 5 villages are without primary school. 6 villages in the district have dispensary, 1 village in the district has hospital, 5 villages have maternity and child welfare centres, 2 villages have primary health centres, 20 villages have family planning centres and 17 villages have primary health sub-centres. There are 98 villages having community health workers.

As regards drinking water ordinary surface wells are the main source of the drinking water facility. 290 villages have such type of wells, There are only 5 villages where water is avilable through taps and in 3 villages water is available through tubewells. In addition there are 6 tanks and 210 villages are also on the river side. All the villages of the district have drinking water facility. However, this will not mean that abundant water supply is available through out the year at all these sources.

As regards post, telegraph and phone facilities 53 villages have only post office and one village has post office and phone facilities, where as 2 villages have post telegraph and phone facilities. Thus the number of villages having telegraph and telephone facilities in the district are very small.

In respect of communications out of 311 villages only 135 villages have facility of a bus stop. There are 2 railway stations in the district

As regards the electric power supplyout of 311 villages only 33 villages have electric power supply either for domestic or agricultural or industrial purposes. only 10.61 percent of the villages have been electrified in the district.

On the basis of the amenities noted in the village directory, a brief analysis of the different amenities is as under.

Amenities in villages

Table No. 1 shows the distribution of villages according to the avilability of different amenities.

TABLE 1

Distribution of villages according to the availability of different amenities

Sl. No.	Name of Taluka	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communication	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	The Dangs	311	306 (98.39)	42 (13.50)	311 (100.00)	56 (18.01)	15 (4.82)	135 (43.41)	89 (28.62)	33 (10.61)
	Total	**311**	**306 (98.39)**	**42 (13.50)**	**311 (100.00)**	**56 (18.01)**	**15 (4.82)**	**135 (43.41)**	**89 (28.62)**	**33 (10.61)**

All the villages in the district have drinking water facilities either by well or tank or tubwell or hand pump river etc. In the district 98 percent of the total villages have the facilities of primary education. 5 villages are without primary education facility.

The medical amenities are available in only 13.50 per cent of the total villages of the district.

It is also observed from the statement that only 18.01 per cent of the total villages of the district have the facility of post and telegraph.

As regards market hat facilities only 4.82 percent of the total villages of the district have the facility of market hat.

The communication facilities by way of bus or train are available in 43 percent of the total villages of the district. only about 29 percent of the total inhabited villages of the district have pucca road approaches.

As regards power supply only 11 per cent of the total villages of the district have the facility of electric power supply.

Proportion of rural population served by different amenities

Table No. 2 shows the proportion of rural population served by different amenities.

TABLE 2

Proportion of rural population served by different amenities

Sl. No.	Name of Taluka	Total population of inhabited villages in the taluka	Proportion of rural population served by the amenity of							
			Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communication	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	The Dangs	113,664	113,380 (99.75)	330,95 (29.12)	113,664 (100.00)	43,778 (38.52)	21,362 (18.79)	68,764 (60.50)	49,935 (43.93)	27,489 (24.18)
	Total	**113,664**	**113,380 (99.75)**	**330,95 (29.12)**	**113,664 (100.00)**	**43,778 (38.52)**	**21,362 (18.79)**	**68,764 (60.50)**	**49,935 (43.93)**	**27,489 (24.18)**

It will be seen from the table 2 that 99.75 per cent of the rural population is covered by primary education facilities.

As regards medical facilities the population coverage is 29.12 per cent. In drinking water supply facility population coverage is full.

As regards the post and telegraph facilities the populatior coverage is 38.52 per cent, for the market hat facilities, it is only 18.79 per cent, for the communications, it is 60.50 per cent, for the pucca approach road it is 43.93 per cent and for the power supply it is 24.18 per cent.

Distribution of villages not having certain amenities arranged by Distance ranges from the places where these are available

Table No. 3 shows the distribution of villages not having certain amenities arranged by dis-

tance ranges from the places where these are available.

TABLE 3

Distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available

Sl. No.	Village not having the amenity of	Number of villages where the amenity is not available and available at distance of			
		-5 Kms.	5-10 Kms.	10+ Kms.	Total (Cols.3-5)
1	2	3	4	5	6
1	Education	5	..	..	5
2	Medical	164	64	41	269
3	Drinking Water	..	..	..	..
4	Post and Telegraph	175	72	8	255
5	Market/Hat	118	113	65	296
6	Communication	104	51	21	176

It will be observed from the above table that 5 villages of the district have primary education facilities, but it is available at a distance of less than 5 km. Out of 311 villages, 269 villages of the district have no medical facilities, out of that 228 villages have this facility available at a distance of less than 10 kms, whereas in 41 villages the same are available at a distance of more than 10 km. from the village. In respect of post and telegraph facilities, 255 villages have no such facilities and out of that 247 villages have such a facility, at a distance of about less then 10 km. from the village, whereas 8 villages have this facility at a distance of about more than 10 km. away from the village.

As regards market/hat facilities 296 villages have no system of weekly or fortnightly market hat, out of that 231 villages have it avaiable at a distance of less than 10 km. and in 65 villages the same are available at a distance of more than 10 km. from the village. In respect of communication facility 176 villages have no such facility and 155 villages have such a facility at a distance of about less than 10 km. from the village, whereas 21 villages have this facility at a distance of 10 or more km. away from the village.

Distribution of villages according to the distance from the nearest town and availability of different amenities

Table No. 4 shows the distribution of villages according to the distance from the nearest town and availability of different amenities.

TABLE 4

Distribution of villages according to the distance from the nearest town and availability of different amenities

Sl. No.	Distance range from the nearest town (in kms.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
			Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Commu-nication	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11

2	6-15	1	1 (100.00)	1 (100.00)	1 (100.00)	1 (100.00)	1 (100.00)	1 (100.00)	1 (100.00)	1 (100.00)
3	16-50	164	163 (99.39)	32 (19.51)	164 (100.00)	33 (20.12)	8 (4.88)	83 (50.61)	57 (34.76)	23 (14.02)
4	51+	146	142 (97.26)	9 (6.16)	146 (100.00)	22 (15.07)	6 (4.11)	51 (34.93)	31 (21.23)	9 (6.16)
5	Unspecified	..	..	..	..	..	..	..	..	..
	Total	**311**	**306 (98.39)**	**42 (13.50)**	**311 (100.00)**	**56 (18.01)**	**15 (4.82)**	**135 (43.41)**	**89 (28.62)**	**33 (10.61)**

There is no village in the district where the nearest town is located within the distance range of 0-5 kms. only 1 village with all the amenties is situated at a distance range of 6-15 km. from the nearest town. There are 164 villages at the distance range of 16.50 km. from the nearest town. Out of 164 villages only 20 percent villages have post and telegraph facilities, 20 percent have medical facilities. 35 percent have approach by pucca road, 14 percent have electric power supply facility. The other facilities are quite satisfactory There are 146 villages are at the distance rang of 51 and more km. from the nearest town out of which 35 percent villges have communication facilities, 21 percent villages have approach tiy pucca road, 15 percent villages have post and telegraph facilities whereas only 6,4 and 6 percent villages have medical market/hat and power supply facility respectively. The other facilities are quite satisfactory in this range.

Distribution of villages according to population range and amenities available

Table No. 5 shows the distribution of villages according to the population range and amenities available.

TABLE 5

Distribution of villages according to population range and amenities available

Sl. No.	Population range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of															
			Education		Medical		Drinking Water		Post and Telegraph		Market/ Hat		Communication		Approach by Pucca Road		Power Supply	
1	2	3	4		5		6		7		8		9		10		11	
1	Up to 499	257	252	(98.05)	23	(8.95)	257	(100.00)	23	(8.95)	4	(1.56)	88	(34.24)	60	(23.35)	20	(7.78)
2	500–1,999	52	52	(100.00)	17	(32.69)	52	(100.00)	31	(59.62)	19	(17.31)	45	(86.54)	27	(51.92)	11	(21.15)
3	2,000–4,999	1	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)
4	5,000 and above	1	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)	1	(100.00)
	Total	**311**	**306**	**(98.39)**	**42**	**(13.50)**	**311**	**(100.00)**	**56**	**(18.01)**	**15**	**(4.82)**	**135**	**(43.41)**	**89**	**(28.62)**	**33**	**(10.61)**

It would be seen from the table that there are 257 villages below 500 population out of which the maximum facility is available in respect of drinking water (100%) followed by education (98%), communication (34%), approach by pucca road (23%), medical and post and telegraph (9%) power supply (8%) and market/hat (2%).

There is an increasing trend in the availablity of facilities with the increase in population range of the villages.

Staple food

Table No. 6 shows the main staple food in the majority of the villages of the district.

TABLE 6

Main staple food in the majority of villages in each taluka

Sl. No.	Name of Taluka	Main staple food
1	2	3
1	The Dangs	Nagli, Vari, Maize, Rice

Nagli, Vari, Maize, and Rice are the main staple food of most of the villages of the taluka. Bajri, Ragi, Banty and kodra, are also found as staple food.

Land use

Table No. 7 shows the distribution of villages according to land use.

TABLE 7

Distribution of villages according to land-use

Sl. No.	Name of Taluka	No. of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	The Dangs	311	170,819	60,903 (35.65)	124 (0.20)
	Total	**311**	**1,70,819**	**60,903 (35.65)**	**124 (0.20)**

The irrigated area to the total cultivable area in the district is only 0.20% and the cultivable area to total area in the district is 35.65%.

NOTE ON TOWN DIRECTORY

The Dangs district being entirely rural has no urban areas. Therefore the Town Directory Statements I to VI and IV-A and its relevant Inset Tables are not included in the volume. This district was also entirely rural in 1971 census and therefore the Inset Table pertaining to towns added / declassified in 1981 census is also not included.

NOTE ON PRIMARY CENSUS ABSTRACT

The district Primary Census Abstract of the Dangs district showing taluka total, rural population, is included in part B of the volume. The district Primary Census Abstract is followed by Scheduled Castes/Scheduled Tribes Primary Census Abstract and Village/Townwise Primary Census Abstract.

A brief analysis of the Primary Census Abstract is as follows.

Population, number of village and number of towns-1981, in the district.

The Table No. 12 shows the population by areas, number of villages within taluka of the district.

TABLE 12

Population, number of villages and towns, 1981

Sl. No.	Name of Taluka	Population					
		Total			Rural		
		P	M	F	P	M	F
1	2	3	4	5	6	7	8
1	The Dangs Taluka	113,664	57,683	55,981	113,664	57,683	55,981
	Total	**113,664**	**57,683**	**55,981**	**113,664**	**57,683**	**55,981**

Sl, No.	Name of Taluka	Population			No. of Villages		No. of Towns
		Urban			Total	Inhabited	
		P	M	F			
1	2	9	10	11	12	13	14
1	**The Dangs**	..	..	..	311	311	..
	Total	..	..	..	**311**	**311**	..

The total population of the Dangs district is 113,664 during the 1981 Census which works out at 0.33 percent of the total State population. The rural population of the District is 0.48 percent of total rural population of the State. The district ranks 19th in population out of 19 district of the State.

It will be seen from the above table that out of total 311 villages in the district, all are inhabited. There is no town in the district. There is only one taluka in this district and that is the Dangs taluka.

Decadal change in distribution of population in district

Table No. 13 shows the taluka details regarding the decadal change in the population during the last decade of 1971-1981.

TABLE 13

Decadal change in distribution of population

Sl. No.	Taluka	Population						Percentage decadal (1971-81) Variation		
		1971			1981					
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8	9	10	11
1	**The Dangs**	**94,185**	94,185	..	113,664	113,664	..	+20.68	+20.68	..
	Total	**94,185**	**94,185**	..	**113,664**	**113,664**	..	+20.68	+20.68	..

The decadal population growth rate of the district is 20.68 per cent.

Distribution of villages by population ranges

The details of distribution of villages by population ranges are given in Table No. 14.

TABLE 14

Distribution of villages by population ranges

Sl. No.	Range of Population	No. of villages in each range	Percentage of villages in each range
1	2	3	4
1	Less than 200	94	30.23
2	200— 499	163	52.41
3	500—1,999	52	16.72
4	2,000—4,999	1	0.32
5	5,000—9,999	1	0.32
6	10,000 and above	..	..
	Total	**311**	**100.00**

Out of total villages 52.41 per cent villages are found in the population range 200-499, 30.23 per cent villages and 16.72 villages in the population range of 0-200 and 500-1,999 respectively. In the population range 2,000-4,999 and 5,000-9,999, there is only one village in each range.

Density of Population

Table No. 15 shows the distribution of villages by density of population.

TABLE 15

Distribution of villages by density

Sl. No	Range of density (per Sq. Km.)	Total no. of villages in each density range	Percentage of villages in each Density range
1	2	3	4
1	Less than 10	4	1.29
2	11— 20	16	5.14
3	21— 50	72	23.15
4	51—100	117	37.62
5	101—200	89	28 62
6	201—300	11	3.54
7	301—500	..	..
8	501 and above	2	0.64
9	Not Known	..	..
	Total	**311**	**100.00**

The maximum number of villages 117 are within the density range of 51-100 per sq. km. 89 villages are within the range of 101-200 per sq. km. 92 villages have very low density range up to 50 sq. km. There are 13 villages which have a high density range of 201 and more per sq. km.

Proportion of Scheduled Castes and Scheduled Tribes population to total population in the villages and towns.

The total Scheduled Castes population in the district is 750 which is 0.03 per cent of the total Scheduled Castes population of the State, whereas the total Scheduled Tribes population of the district is 104,918 which is 2.16 per cent of the total Scheduled Tribes population of the State. The Scheduled Castes population of the district is 0.66 per cent of the total district population, whereas the Scheduled Tribes population is 92.31 per cent of the total district population.

Table No. 16 gives the proportion of Scheduled Castes population to total population in the villages.

TABLE 16

Proportion of Scheduled Castes population to total population in the villages

Sl. No.	Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3	4
1	Nil	278	89.39
2	5 or Less	32	10.29
3	6 — 10	1	0.32
4	11 — 15	..	..
5	16 — 20	..	..
6	21 — 30	..	..
7	31 and above	..	..
	Total	**311**	**100.00**

There are 278 villages in the district which have no Scheduled Castes population at all, whereas there are 32 villages, where the proportion of Scheduled Castes population to the total population is up to five per cent. In 1 village the percentage of Scheduled Caste population to total population is between 6 to 10 per cent.

Table No. 17 shows the proportion of Scheduled Tribes population to the total population of the villages.

TABLE 17

Proportion of Scheduled Tribes population to total population in the villages

Sl. No.	Percentage range of Scheduled Tribes population to total population	No. of village in each range	Percentage of villages in each range
1	2	3	4
1	Nil	..	..
2	5 or less	..	..
3	6 — 15	..	..
4	16 — 25	..	..
5	26 — 35	..	..
6	36 — 50	2	0.64
7	51 and above	309	99.36
	Total	**311**	**100.00**

Out of 311 villages in the district. 99.36 per cent villages have more than 51 per cent Scheduled Tribes population to total population and only 0.64 per cent villages are in the range of 36 to 50 per cent Scheduled Tribes population to total population.

As there is no town in the district information regarding Table No. 18 is NIL.

Literacy rates in villages

The total literacy rate in the district which was 14.16 per cent in 1971, Census has increased to 29.84 per cent during the 1981 Census. which is lower than the State literacy rate of 43.70 per cent. The district ranks last (Ninteenth) in literacy rate in the State during 1981 Census. The male literacy rate is 38.39 per cent whereas the percentage of female literacy is 21.04 per cent which lower than the State literacy rate of 54.44 per cent and 32.30 per cent respectively.

Literacy rates by population ranges of villages

Table No. 19 shows the literacy rates of the different population ranges of the villages of the district.

TABLE 19

Literacy rates by population ranges of villages

Sl. No.	Range of population	No. of villages in each range	Literacy rate
1	2	3	4
1	Less than 200	94	20.46
2	200— 499	163	25.81
3	500—1,999	52	29.11
4	2,000—4,999	1	46.59
5	5,000—9,999	1	63.38
6	10,000 and above	..	..
	Total	311	**29.84**

It is seen from these figures that the literacy rate is directly connected to the population size of the villages, with the increase in size of population, of the villages, the literacy rate also gets increased. Out of 311 villages in the district, 94 villages in the population range of up to 200 have literacy rate of 20.46 per cent 163 villages in the population range of 200–499 have the literacy rate of 25.81 per cent and 52 villages in the population range of 500–1,999 have literacy rate of 29.11 per cent. In the population range 2,000–4,999 and 5,000–9,999,there is only one village in each group with literacy rate 46.59 and 63.38 per cent respectively.

Literacy rates of towns

As there is no town in the Dangs district, the information regarding Table No. 20 is Nil.

Literates workers and non-worker and Scheduled Caste Scheduled Tribes population in the district.

Table No. 21 given on page – xvii shows the total number of literates workers, non-workers and Scheduled Castes and Scheduled Tribes population in the district as recorded during the 1981 Census.

Scheduled Castes and Scheduled Tribes population

The percentage of Scheduled Castes to total population in the district is 0.66 per cent.

As regards the proportion of the Scheduled Tribes population of the district to the total population in the district is 92.31 per cent.

Literates

The proportion of literate persons to the total population in the district is only 29.84 per cent and the district needs more attention in education.

Workers and Non-workers

The proportion of main workers and marginal workers to the total population is 39.79 and 10.83 per cent respectively.

It is also worth noting that the percentage of main workers in respect of male and female workers to the total male and female Population of the district is 56.29 and 22.78 per cent respectively whereas a reverse trend is noticed in respect of marginal workers where the proportion of male workers is only 0.6 per cent and female workers is 21.30 per cent Out of total population 50.62 per cent are total workers and 49.38 per cent are non-workers.

As there is no town in the district the information regarding Table Nos. 22,23 and 24 is NIL.

TABLE 21

SECTION - II TOWN DIRECTORY

Note : There is no town in the District as such no information for town Directory has been given.

PART XIII-B

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE FOR PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1981 Census provides information in respect of each village in rural area and town/ward in urban area. It gives information about the area of the village in hectares and towns in Square Kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literates. The entire population of village/town/ward is divided into main workers, marginal workers and non-workers and main workers are further divided into four broad industrial categories as under :

1 Cultivators (I)

2 Agricultural Labourers (II)

3 Household Industry –
Manufacturing, Processing, Servicing and Repairs [V(a)]

4 Other Workers (III, IV, V(b) & VI to IX)

The sexwise break-up of total main workers (industrial category I to IX) has been presented in addition to similar break-up for each broad industrial category of workers, marginal workers and non-workers.

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :

1	Municipal Corporation	MC
2	Municipality	M
3	Non-Municipal Area	NM
4	Nagar Panchayat	NP
5	Village Panchayat	VP
6	Cantonment	Cantt.
7	Notified Area	n. a.
8	Industrial Notified Area	INA
9	Not Available	NA
10	Urban Agglomeration	UA
11	Out-Growth	OG

The following conversion factor has been used for converting acres into hectares and hectares into Km^2.

Acres x 0.40467 = Hectares

Hectares x 100 = Km^2.

		U	..	..	..	..	..	..

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.

PRIMARY CENSUS ABSTRACT

MAIN WORKERS														
Total Main Workers (I-IX)		Cultivators (I)		Agricultural Labourers (II)		Household Industry–Manufacturing, Processing, Servicing and Repairs [V(a)]		Other Workers [III, IV, V(b) & VI to IX]		Marginal Workers		Non-Workers		Location Code No.
