1951 DISTRICT CENSUS HANDBOOK

DISTRICT THANA

Thana district consisted, at the time of the 1951 Census, of the area of Thana district of Bombay Province, as constituted in 1941, with the addition of 33 villages of the former Bombay Suburban district transferred to it during the decade, and the former Indian State of Jawhar which was merged in the district in 1948.

The district had a 1951 population of 1,518,050 and an area of 3,894.8 square miles, according to the area figures furnished by the Surveyor General of India.

This Handbook contains tables for Thana district, compiled after the 1951 Census of India. The main results of the 1951 Census are embodied in the State Tables, published for the States of Bombay, Saurashtra and Kutch. In this Handbook the data are exhibited in greater detail. The numbers given to tables in this publication correspond to those given in the State Census Report. The following tables for the district have, however, not been included in this Handbook :—

A-II Variation in population during fifty years.
A-IV Towns classified by population with variations since 1901.
D-IV Migrants.

In the E-summary table, some columns have been omitted.

In the case of the C-series of tables, except C-I, the data were extracted on the basis of a sample count of approximately 10% of the census slips instead of a full count of all the slips. The C-I table was prepared from a four percent sample of the households recorded in the National Register of Citizens relating to each town or village.

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the Government of Bombay. In 1951, the basis of classification at the Census was changed from a social to an economic one, and the figures for villages given in the Primary Census Abstracts and in tables A-V, B-I, B-II, C-II and E are according to the following eight Livelihood Classes :—

Agricultural Classes :

I. Cultivators of land, wholly or mainly owned; and their dependants.
II. Cultivators of land, wholly or mainly unowned; and their dependants.
III. Cultivating labourers, and their dependants.
IV. Non-cultivating owners of land; agricultural rent receivers, and their dependants.

Non-Agricultural Classes : Persons (including dependants) who derive their principal means of livelihood from :—

V. Production other than cultivation.
VI. Commerce
VII. Transport
VIII. Other services & miscellaneous sources.

Dependants, whether earning or non-earning were classified at the census according to the principal means of livelihood of the persons on whom they were dependent.

The Primary Census Abstracts, which contain basic information in respect of every village and town, have been arranged according to Talukas and Petas, units into which every district is divided for administrative purposes. The taluka was, however, too small a unit to adopt for preparing the main census tables. Therefore, in the B, C and D series of tables figures have been given for tracts and not for Talukas and Petas. Before sorting the census slips and tabulating the results, tracts were formed by combining the rural and urban areas of two or more talukas or petas.

The tracts into which Thana district was divided for this purpose are shown below :—

Rural Tracts :

(1) Rural areas of Thana and Borivali talukas.

(2) Rural areas of Kalyan, Shahapur and Murbad talukas.

(3) Rural areas of Dahanu, Umbargaon and Jawhar talukas, and Mokhada Peta.

(4) Rural areas of Bassein and Bhivandi talukas.

(5) Rural areas of Palghar and Wada talukas.

Urban Tracts :

(1) Urban areas of Thana, Borivali and Kalyan talukas.

(2) Urban areas of Dahanu, Umbargaon and Jawhar talukas.

(3) Urban areas of Bassein, Bhivandi, Palghar and Wada talukas.

Urban areas comprise the towns shown in table A-V.

Shortly before the 1951 Population Census, a Census of Small Industries was taken, and the results of this census are given in the table called "Small Scale Industries Census-Employment in Establishments," included in this Handbook.

The intention was to find out something about Cottage and Home Industries and small workshops. The larger establishments that is, power-using establishments with 10 or more workers, and non-power using establishments with 20 or more workers, were excluded from the scope of the enquiry as they now submit returns under the Factory Act.

The enquiry did not concern itself also with workers functioning on their own and not employing other people, except when looms were used. Otherwise the concept was of an enquiry which embraced all forms of associate activity where articles were produced, repaired or otherwise treated for sale, use or disposal.

Notes :—(1) The area figure of the district of Thana supplied by the Surveyor General of India is 3,894.8 sq. miles. The area figures shown in column 2 have been obtained from the District Inspector of Land Records, Thana or from local records.

(2) The number of villages shown in column 3 is the number of revenue villages, excluding uninhabited villages and villages which form part of Municipal areas.

55,184	50,062	5,122	28,428	25,745	2,683	26,756	24,317	2,439

(3) The number of towns given in column 4 is the number of towns shown in table A-V. In general, a town means a Municipal area, cantonment area or a place which has a population of 5,000 or more inhabitants and exhibits urban characteristics.

(4) The number of occupied houses given in columns 5, 6 and 7 is the number of census houses that were occupied at the time of the census.

A house for census purposes meant "a dwelling with a separate main entrance." Thus more than one household might be found in the same census house.

B-I.—LIVELIHOOD CLASSES

District :

Note :— Where a person was in receipt of an income and that income was sufficient at least for his own maintenance then he, (or she, as the case might be) was to be regarded as a self-supporting person for purposes of the census enquiry. Any one who was not a self-supporting person in this sense was a dependant. A dependant might be either an earning dependant or a non-earning dependant. The test was whether he

Thana

2. The census definitions of the terms employer, employee and independent worker were as follows :-

Employer : A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood. (Thus, if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason.)

Employee : A person who ordinarily worked under some other person for a salary or a wage in cash or in kind, as a means of earning a livelihood.

Independent Worker: A person who was not employed by anyone else and who did not also employ anyone else in order to earn his livelihood.

INDEX OF NON-AGRICULTURAL OCCUPATIONS

District: THANA

This index shows the number of self-supporting persons, males and females, having as their principal means of livelihood, the productive occupations shown in the index.

The index should be read with Economic Table B--III. There were 3,634 self-supporting persons who derived their principal means of livelihood from unproductive activities as mentioned in the note to that table.

The group code numbers shown in column '2' of the index are the numbers given to the various occupations under the Indian Census Economic Classification Scheme.

Occupation	Group Code No.	Population		
		Persons	Males	Females
1	2	3	4	5
Aerated waters & other beverages manufacture ...	2.40	85	84	1

Primary Census Abstracts

These abstracts show figures of population according to eight livelihood classes for every town and village. In the case of most municipal areas, figures have been given for wards as well. These abstracts are in essence a village directory, with the data exhibited according to livelihood classes, instead of communities as in 1941.

The area figures given in column 3 have been obtained from the-District Inspector of Land Records of Thana or from local records. The total area of Thana District as calculated by the Surveyor General, India, is 3,894-8 square miles.

The figures given in columns 4 and 5 and 9 to 12 have been extracted from the National Registers, prepared by enumerators after the census. These Registers consisted of a transcription of the replies to the more important census questions in respect of every person enumerated. Figures of literates according to tracts, derived from the census slips, shown in table D-VII, are more reliable than the village figures derived from the National Registers. The census slip on which the replies to the census questions were recorded was the main document. The National Register was merely a copy. In addition mistakes seem to have occurred while extracting literacy figures for villages in the Tabulation Office. The percentage of literacy in the district was 25.47 per cent according to table D VII, it was 24.34 per cent according to the 10% sample table C IV and 22.91 per cent according to the figures given in the Primary Census Abstracts.

Information contained in columns 29 to 33 has been extracted from the data collected for each village by the Bombay District Gazetteers (Revision) Editorial Board.

The following abbreviations have been used in the abstract :—

M.	for Municipality.
P. S.	for Primary School.
V. P.	for Village Panchayat.
C. C. S.	for a Co-operative Credit Society.
C. S.	for a Co-operative Society of any other kind.

Sun.	for Sunday
Mon.	for Monday
Tues.	for Tuesday.
Wed.	for Wednesday.
Thurs.	for Thursday.
Fri.	for Friday.
Sat.	for Saturday.

* *Note:*—The village of Manikpur (S. No. 43) was divided into two blocks for census enumeration purposes. The census pads pertaining to the first block appear to have been lost. The data contained in the missing census pads has been reconstructed from the National Register of Citizens.

The corrected population figures for the village and the livelihood class break-up would be as shown opposite:—

Literates		Agricultural Classes							
		I. Cultivators of land wholly or mainly owned and their dependants		II. Cultivators of land wholly or mainly unowned and their dependants		III. Cultivating labourers and their dependants		IV. Non-cultivating owners of land, agricultural rent receivers, and their dependants

Note:—The village of Pimpalas (S. No. 142) was divided into two blocks for census enumeration purposes. Through a mistake in the Census Tabulation Office the population of only one block was taken as the population of the whole village and, on the basis of this figure, population figures for taluka and tract were worked out and shown in the other tables.

The mistake came to light on the verification of the Primary Census Abstract by the Mamlatdar. It was not however possible to revise the figures of population given in the tables.

Note :—(1) The Census of Small Scale Industries was done by revenue officers in addition to their normal work. It was not done simultaneously in all talukas and districts, nor was it possible to give any special training to the staff engaged on this census. In the result, the accuracy of the data furnished by this census cannot be guaranteed. The figures may, however, be regarded as illustrative of the nature of the small scale industries carried on in the District.
