DISTRICT CENSUS HANDBOOK

PARTS XII A & B

VILLAGE & TOWN DIRECTORY

VILLAGE & TOWNWISE PRIMARY CENSUS ABSTRACT

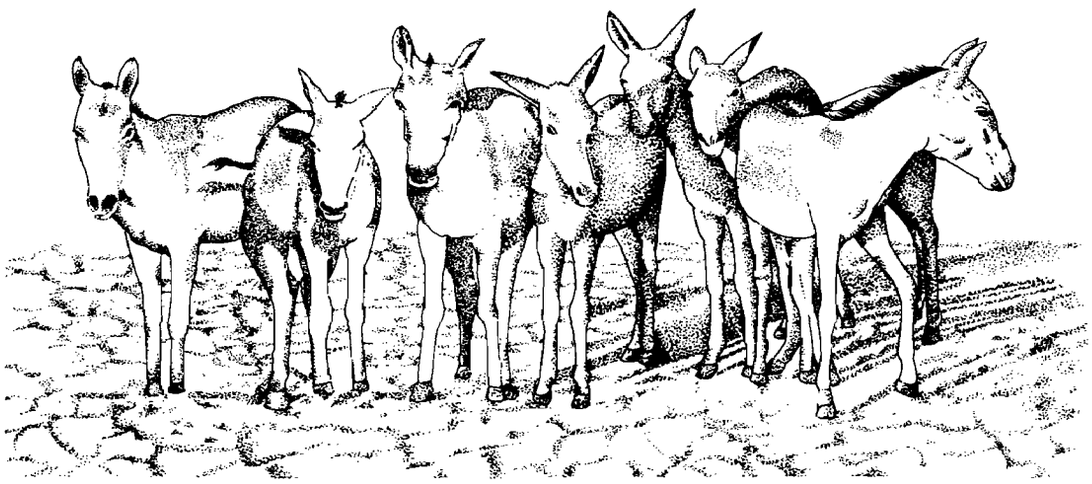

SURENDRANAGAR DISTRICT

N. R. VARSANI

of the Indian Administrative Service,

Director of Census Operations,

Gujarat

The Wild Ass, a special characteristic of the little Rann of Kachchh is of a distinctive variety and is found nowhere else in the world. They are more found on the southern site in Surendranagar District and around Jinjuvada.

The size of the wild ass is higher than the ordinary donkey and his constitution of body is just like Zebra. The height of male wild ass is about 110 centi-meters, and the weight is more than 2 quintals. It has a light brown neck and body, a black stripe down the back and a white belly. It has long ears, but its limbs are stronger. Normally, they move in herds of 10 to 30. They are sturdy and well built creatures and can gallop at about 50 km. per hour over considerable distances.

Formerly, wild asses were found in large numbers in this area, but after independance their numbers are considerably reduced i.e. from 5,000 to only 360, mainly due to decreasing the open flat grass land which is residence of wild ass and frequent spread of epidemics. Thereafter, Government thought and established **Abh***ayaranaya in 1973 in the little Rann of Kachchh area for the increasing the population of wild ass. It is the biggest sanctuary for wild asses in the Asia. Covering an area of 5,000 sq. km. the sanctuary is home to the Indian wild ass. As per the latest census of wild ass, the population of wild ass is 2,072 in 1990. Special staff at Dhrangadhra are taken care, of these wild asses and other animals, resided in this area and as a result number of wild asses are increased in this area.*

It is the best place to see wild asses for the national and international tourists. The sanctuary is open for visitors from February to May. Gujarat Tourism Corporation is introducting land sailing and a new tourist complex here in the near future. The nearest airport is Rajkot which is about 140 kms. from sanctuary. Accommodation is available in Government rest house at Dhrangadhra.

FOREWORD

Publication of the District Census Handbooks (DCHs) was initiated after the 1951 Census and is continuing since then with some innovations/ modifications after each decennial Census. This is the most valuable district level publication brought out by the Census Organisation on behalf of each State Govt./Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has thus proved to be of immense utility to the planners, administrators, academicians and researchers.

The scope of the DCH was initially confined to certain important census tables on population, economic and socio-cultural aspects as also the Primary Census Abstract (PCA) of each village and town (ward-wise) of the district. The DCHs published after the 1961 Census contained a descriptive account of the district administrative statistics, census tables and Village and Town Directories including PCA. After the 1971 Census, two parts of the District Census Handbooks (Part-A comprising Village and Town Directories and Part-B comprising Village and Town PCA) were released in all the States and Union Territories. The third Part (C) of the District Census Handbooks comprising administrative statistics and district census tables, which was also to be brought out, could not be published in many States/UTs due to considerable delay in compilation of relevant material. In 1981 some new features alongwith the restructuring of the formats of Village and Town Directory were introduced in the DCHs. These were published in two parts for each district after the 1981 Census. While Part-A comprised Village and Town Directories, the PCA of villages and towns (ward-wise) including Scheduled Caste and Scheduled Tribe PCA upto tehsil/town level were provided in Part-B. To illustrate, all the amenities except electricity were brought together in the Village Directory and if an amenity was not available in the referrent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet some of the requirements of the Revised Minimum Needs Programme. Similarly, information on approach to the village was also provided for the first time in the Village Directory so as to give an idea about the number of inaccessible villages in each district. In case of Town Directories also keeping in view the requirements of the Minimum Needs Programme, a Statement IV-A on slums was provided so as to enable the planners to chalk out the programmes for providing better civic and other amenities in the slums. In this statement details on civic and other amenities were reported for the slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and Scheduled Tribes population and another on adult literacy classes/centres were added in Statements IV and V respectively.

The manner of presentation of the DCHs for the 1991 Census is by and large the same as followed in 1981. However, the format of PCA has been restructured slightly in the 1991 Census for the benefit of data users. Nine fold industrial classification of main workers has been given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0 - 6 age group has also been included in PCA for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age have been treated as illiterate at the time of the 1991 Census. It is expected that the above mentioned modifications will help the planners in chalking out more effective developmental programmes.

One of the most important innovations in the 1991 Census is the Community Development Block-level presentation of data in the Village Directory and PCA instead of the traditional Tahsil/Taluka/PS level presentation. It is expected that the presentation of Village Directory and PCA data at C.D. Block level will help the planners in formulation of micro level developmental plans, as the C.D. Block is the lowest administrative unit for developmental planning.

In order to facilitate the task of administrators, planners and researchers intending to use Village Directory/PCA data, either from the magnetic tapes/floppies or

from the published records, both the computer and manual codes for each village have been provided for the 1991 Census alongwith the corresponding codes of 1981.

This publication is a joint venture of the State Government/U.T. administration and the Census Organisation. The data have been collected and compiled under the direction of Shri N.R. Varsani, Director of Census Operations, Gujarat on behalf of the State Govt./U.T. administration which has borne the cost of printing. The task of planning, designing and co-ordination of the publication was initiated by Dr. K.P. Ittaman, former Deputy Registrar General (Social Studies) and Shri M.M. Dua, Joint Director. For the sake of uniformity in presentation of information/data and for preparation of analytical note depicting the salient features emerging from a micro-level analysis of Census/non-Census data, a model District Census Handbook from each State and Union Territory was thoroughly scrutinised in the Social Studies Division under the guidance of Shri M.K. Jain, the present Deputy Registrar General (S.S.). This task was carried out by Shri A.K. Singh, Deputy Director who was assisted by Shri N.S. Soam, Assistant Director and his staff. Technical guidance in the preparation of the maps was initially provided by Dr. B.K. Roy, former Deputy Registrar General (Map) and later by Mrs. Minati Ghosh, the present Deputy Registrar General (Map).

I am thankful to all those who have contributed to this project.

New Delhi

A. R. NANDA
Registrar General, India

PREFACE

The 1951 Census, the first Census of Independent India, marked a turning point in the presentation of data when, for the first time, publication of District Census Hand Books, giving basic data about each village, commenced. Incidentally the census coincided with the launching of the First Five Year Plan for developing the key sectors of the country's economy as well as ushering in implementation of development projects for the socio-economic development of masses. Since 1971 District Census Hand Books are prepared by the Census Organisation and the District Census Hand Book Unit of the State Government during every decennial censuses. These are published by the Government of Gujarat at their own cost. The 1991 District Census Hand Books are fifth in the series of such publications. However, it was the 1961 Census that gave a more scientific approach to the presentation of data in the District Census Hand Book by giving among others, division of workers as per standard industrial classification into nine industrial categories as well as non-workers, who were conceptualised for the first time.

The 1991 District Census Hand Books comprise of two parts. The Village and Town Directory in Part-A and villagewise/townwise Primary Census Abstract in Part-B.

Part-A Village Directory

The village directory provides basic data relating to infrastructure, such as pucca/kuccha approach roads to villages. The data about communications facilities, such as bus stop, railway station as well as water ways and availability of electricity in the villages under the rural electrification programme are also given. Amenities in the village include provision of educational, medical, post and telegraph as well as provision of drinking water facilities. The demographic data covering total population and number of households as well as land use data are also given therein.

Town Directory

Here, area of towns, population, status, growth, brief history, physical aspects, communications, municipal finances, trade and commerce, industry, banking facilities, civic and other amenities etc. in each town are given.

Part-B Primary Census Abstract

The primary census abstract mainly deal with presentation of basic data like number of occupied residential households, number of households, sex-wise break up of population (including houseless and institutional population), Scheduled Castes and Scheduled Tribes population, no. of literates, main workers by standard industrial categories, marginal workers and non-workers of village/town/taluka/district, etc. In addition to giving these information, an Appendix to highlight urban block level total population, Scheduled Castes and Scheduled Tribes population is also incorporated.

In the plan of presentation of these data, certain inset tables based on census and data on amenities available in the district precede the data shown in Parts A & B. Besides, an attempt has also been made to define Census concepts, brief history of the district, major/peculiar characteristics of the district as regards availability of economic resources, description of places important from such aspects as religious, historical, archaeological, etc., and those purely serving interest of tourists are also described. This has been specially included in order to give a filip to the aspect of tourism, which is so very assiduously being developed by the State and Central Governments, to attract both inland and foreign tourists traffic. In addition, district/taluka maps indicate respective administrative boundary of units, location of towns/villages having population above certain levels, amenities and other details.

The Five Year Plans have come to stay in the country and whatever development is achieved as a result of implementation of planning from the bottom level such as development of infrastructural facilities as well as basic amenities, etc., is reflected in the District Census Hand-Books and they give to the readers a searching eye whether the development over the years in villages/talukas/districts is lopsided or upto the mark. This is the basic requirement of this type of publications and an attempt has

been made to show whether the Census Hand Books reasonably fulfill these aspirations/requirements.

These District Hand Books are thus useful to planners in planning from bottom as well as to administrators, researchers, educational institutions, including universities and other socio-economic research centres, demographers and demographic research centres as well as students conducting research in demography, social and economic studies, as well as to the local bodies like Panchayats, Municipalities and Municipal Corporations, etc.

The Director expresses his deep gratitude to the following officers of the Government of Gujarat, General Administration Department, for their valuable, help and co-operation in fulfilling all administrative requirements intime for bringing out these publications.

Shri H.R. Patankar, the then Chief Secretary, Shri S.L. Varma, the then Additional Chief Secretary, Shri J.A. Pandya, Deputy Secretary, Shri A.H. Manek, the then Under Secretary, Shri H.L. Madia, Under Secretary, Shri A.H. Gamit, the then Section Officer and Shri M.S. Nanavati, Assistant.

Shri V.B. Savdasia, Director, Economics and Statistics has also helped this organisation not only by placing at the disposal of Census services of competant personnel on deputation as well as provided valuable official statistics for this publication, which have since been incorporated.

The District Collector and the District Development Officer and their concerned staff have extended their warm and wholehearted co-operation for carrying out field work for the census and District Census Hand Book work. A large number of officials of Directorate of Census Organisation and District Census Hand Book Unit have contributed in bringing out these publications.

The Registrar General and Census Commissioner of India, Shri A.R. Nanda, provided encouragement and gave valuable guidance at every stage of the Census work. The various officers in his office particularly Shri N. Rama Rao, Shri M.K. Jain, Smt. Minati Ghosh, Shri A.K. Singh, Shri N.S. Soam and Shri J.P. Joshi had also rendered assistance in no small measure in bringing this work at the final stage of printing.

VILLAGES WITH POPULATION OF 5,000 AND OVER		650	11
NUMBER OF TOWNS		264	11
NUMBER OF TALUKAS		184	9

ANALYTICAL NOTE

Introduction

Keeping in view the needs of planners, specifically for micro-level planning, District Census Hand Book is brought out in two parts i.e. part A and part B for each district in one volume. The part A presents basic data pertaining to the infrastructural facilities and amenities for each village and town, whereas part B gives the primary census abstract data for each village and for each ward of the town. The village wise infrastructural and amenities data were collected through "Village Directory" form from the village level officials i.e. Talati-cum-Mantri, while the townwise infrastructural and amenities data were collected through "Town Directory" form from the local bodies viz. Municipal Corporations, Municipalities, Nagar Panchayats, Village Panchayats etc. The non-census data i.e. amenities and land use pertained to the year 1989-90. The primary census abstract data were compiled from the Individual Slips of 1991 Census and related to the Reference Date as Sunrise of 1st March, 1991.

It is utmost important for the "District Census Handbook" users to acquaint themselves with different census concepts adopted during the houselisting work as well as during the actual census enumeration work, as the tables presented in this publication relate to different census concepts, viz. rural and urban areas, census house, census household, scheduled castes, scheduled tribes, literates, main worker, marginal worker, non-worker etc.

[I] Census concepts and definitions

Rural areas

The Census data are being presented separately for rural and urban areas. It is rather difficult to give an exact definition for rural areas as far as census is concerned. The urban areas are defined in the census. The remaining areas not classified as urban area are known as rural areas. Thus, a rural area is non-urban consisting of 'revenue village' with well defined boundaries, which is the basic lowest unit in the hierarchy of administrative units. The revenue village may comprise several hamlets, yet the entire village is considered as one unit for the presentation of census data. As reported by concerned authorities, the forest area is also treated as separate forest village.

Urban areas

Urban areas are clearly defined for the purpose of Census. Urban areas comprise (1) Statutory towns and (2) non-municipal towns i.e. census towns.

(i) Statutory towns

All places with local authorities like Municipal Corporations, Municipalities, Cantonments and Notified town areas are treated as statutory towns.

(ii) Non-Municipal towns or Census towns

All other places (except statutory towns) which satisfy the following three criteria viz. (a) A minimum population of 5,000 (b) A density of population of atleast 400 per sq.km. or 1000 per sq.mile (c) Atleast 75 per cent of the male working population engaged in non-agricultural and allied pursuits.

The three criterias specified above were strictly applied to all revenue villages based on the preceding census data i.e. 1981 Census data and all revenue villages which satisfied the above criteria were declared as census towns or non-municipal towns for the purpose of census. In the 1981 and 1991 censuses, industrial category III specifying activities like fishing, livestock, hunting, plantations and orchards, etc. were treated at par with cultivators and labourers for the purpose of the third criterion mentioned above. Thus, the third criterion was calculated with reference to the figures for working categories.

The above definition of urban area differs slightly from that of 1961 and 1971 censuses, wherein activities such as fishing, livestock, hunting, plantations and orchards etc. were treated under non-agricultural activities.

Urban Agglomeration

The concept of urban agglomeration, adopted for the first time in the 1971 Census is an improvement over the concept of town group adopted in the 1961 Census. The said concept has been continued in the subsequent censuses of 1981 and 1991. Very often, the growth of towns overlapped the statutory limits of a city or a town. These were reflected in large railway colonies, university campuses, port areas, industrial areas etc. which grow outside the limits of a town, but they revealed a continuous growth with the town. These outgrowths may or may not by themselves qualify to be treated as separate towns, but they deserve to be considered as urban areas. Such a town with its outgrowth area is treated as one urban unit and called 'Urban Agglomeration'. The constituents of an urban agglomeration should satisfy the conditions of urbanization, continguity and viability. These are the general

principles based on which urban agglomeration are formed.

Following are the probable different situations in which urban agglomerations could be constituted.

(i) a city or town with continuous growth, which is outside the statutory town limits, but coming within the boundaries of the adjoining village or villages,

(ii) two or more adjoining towns with their outgrowths,

(iii) a city and one or more adjoining towns with their outgrowths, all of which formed a continuous spread.

Census House

A 'Census House' is a building or a part thereof having a separate main entrance from the road or a common courtyard or staircase etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both. In case of a building having a number of flats or blocks, which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard, leading to the main gate, were considered as separate census houses.

Census Household

A household is a group of persons, who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a combination of both. Examples of such unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams, etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For Census purposes, each one of these types is regarded as a 'household'.

Scheduled Castes/Scheduled Tribes

The Scheduled Castes and Scheduled Tribes as notified under the constitution (Amendment Act of 1976) for Gujarat State have been treated as Scheduled Castes and Scheduled Tribes for the purpose of enumeration. A list of such Scheduled Castes/Scheduled Tribes notified for Gujarat is as under

Scheduled Castes

1 Ager
2 Bakad, Bant
3 Bawa-Dedh, Dedh Sadhu
4 Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Nalia, Telegu Mochi, Kamati Mochi, Ranigar, Rohidar, Rohit, Samgar.
5 Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
6 Chalvadi, Channayya
7 Chenna Dasar, Holaya Desar
8 Dangashia
9 Dhor, Kakkayya, Kankayya
10 Garmatang
11 Garoda, Garo
12 Halleer
13 Halsar, Haslar, Hulasvar, Halasvar
14 Holar, Valhar
15 Holaya, Holer
16 Lingader
17 Mahar, Taral, Dhegu Megu
18 Mahyavansi, Dhed, Dhedh, Vankar, Maru Vankar Antyaj
19 Mang, Matang, Minimadig
20 Mang-Garudi
21 Meghval, Meghwal, Menghvar
22 Mukri
23 Nadia, Hadi
24 Pasi
25 Senva, Shenva, Chenva, Sedma, Rawat
26 Shemalia
27 Thori
28 Tirgar, Tirbanda
29 Turi
30 Turi Barot, Dedh Barot

Scheduled Tribes

1 Barda
2 Bavacha, Bamcha
3 Bharwad (In the Nesses of the forests of Alech, Barada and Gir)
4 Bhil, Bhil Garasia, Dholi-Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
5 Charan (In the Nesses of the forests of Alech, Barada and Gir)
6 Chaudhri (In Surat and Valsad districts)
7 Chodhara
8 Dhanka, Tadvi, Tetaria, Valvi
9 Dhodia
10 Dubla, Talavia, Halpati
11 Gamit, Gamta, Gavit, Mavchi, Padvi

12 Gond, Rajgond

13 Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari

14 Kokna, Kokni, Kukna

15 Koli (In Kachchh district)

16 Koli Dhor, Tokre Koli, Kolcha, Kolgha

17 Kunbi (In Dangs district)

18 Naikda, Nayaka, Cholivala, Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka

19 Padhar

20 Paradhi (In Kachchh District)

21 Pardhi, Advichincher, Phanse Pardhi, (Excluding Amreli, Bhavnagar, Jamnagar, Junagadh, Kachchh, Rajkot and Surendranagar Districts)

22 Patelia

23 Pomla

24 Rabari (In the Nesses of the forests of Alech Barada & Gir)

25 Rathawa

26 Siddi (In Amreli, Bhavnagar, Jamnagar, Junagadh, Rajkot and Surendranagar Districts)

27 Vaghri (In Kachchh Districts)

28 Varli

29 Vitola, Kotwalia, Barodia

The enumerators were instructed to record a person as a Scheduled Caste/Scheduled Tribe provided the name given by the person was found in the above list. Scheduled Castes may belong to Hindu, Sikh or Buddhist religion. However, a person belonging to Scheduled Tribe can profess any religion.

Literates

A person, who can both read and write with understanding in any language, is taken as literate. A person who can merely read but can not write is not considered as literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children upto the age of 6 years are treated as illiterates, even if they are school going children and might have picked up reading and writing a few odd words.

Work

Work has been defined as participation in any economically productive activity. Such participation may be physical or mental in a nature. Work involves not only actual work but also effective supervision and direction of work. It also includes unpaid work on farm or in family enterprise.

Reference period for classification of economic status

In 1991 Census, the economic status of a person has been adopted into following 3 categories, viz. (1) Main Worker (2) Marginal Worker and (3) Non-worker.

The economic status of a person is classified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration.

Main Worker

The main worker is a person who works for the major part of the year i.e. for the 6 months or 183 days or more in one or more than one activity.

Marginal Worker

The marginal worker is a person who works for a period of less than 6 months or 183 days in one or more than one activity.

Non-Worker

A non-worker is a person who had no economic activity anytime during the period of reference of 1 year preceding the date of enumeration. These would cover all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last 1 year. Full time students and children attending schools, all dependents such as infants or children not attending schools or persons permanently disabled from work because of illness or old age, persons retired from service or rentier, beggers, vagrants, convicts in jails or inmates of a penal, mental or charitable institution and all non-workers who may not come under any of the above categories.

The activity of main workers is classified into following 9 categories viz. (1) Cultivator (2) Agricultural labourer (3) Livestock, forestry, fishing, hunting and plantations, orchards and allied activities (4) Mining and quarrying (5) Manufacturing, processing, servicing and repairs (6) Construction (7) Trade and commerce (8) Transport storage and communications and (9) Other services.

1. Cultivator

A person is considered as a cultivator if he or she has been engaged either as an employer, single worker or family worker in cultivation of land owned or held from Government or from private persons or institutions for payment in cash, kind or share in cultivation including supervision or direction of cultivation.

Cultivation involves ploughing, sowing and harvesting and production of cereals and milled crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, groundnut, tapioca, pulses, raw jute, kindered fibre crop cotton etc. It does not include fruit growing, vegetable growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

2. Agricultural Labourer

A person who works on another person's land for wages in cash, kind or share is considered as an agricultural labourer. He/she has no risk in the cultivation, but he/she merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land, on which he/she works.

3. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities

Those who are engaged in rearing up goats, sheep, horses, pigs, ducks, bees, silk-worms are treated as workers under livestock. Similarly, persons engaged in fishing or doing plantation or conservation of forests come under this category of workers.

4. Mining and Quarrying

Persons engaged in different type of mines such as coal, lignite, crude petroleum, natural gas, iron ore, manganese, gold, silver, copper ores and quarries of stones, clay and sandpits, precious and semi precious stones, mica etc. come under this category of workers.

5. Manufacturing, Processing, Servicing and Repairs

The category has been divided into two subcategories namely (a) Household Industry and (b) Other than Household Industry.

5 (a) Household Industry

A Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and within the premises of the house where the household lives in urban areas and that it does not run as a registered factory.

A Household Industry further related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as that of a pleader, astrologer etc. or merely trade or business, even if such professions, trade or services are run at home by members of household.

5 (b) Other than Household Industry

This category of industry deals with production, processing, servicing and repairing done in places other than in household industry.

6. Construction

All persons engaged in construction and maintenance of buildings, roads, railways, telegraphs, telephone, waterways and water reservoirs, hydroelectric projects, industrial plants and activities allied to constructions such as plumbing, heating and air conditioning installation, setting of tiles, marble, brick etc. are treated as workers under this category.

7. Trade and Commerce

This category includes all workers employed in wholesale and retail trade of all kinds and other commercial activities like financing, insurance, real estate and business services and legal services as are rendered by advocate, barristers, pleaders etc.

8. Transport, Storage and Communications

All persons employed in any form of transport either by road, rail, water or air and persons participating in storage, warehousing activities and communications such as postal, telegraphs, telephones and broadcasting are treated workers under this category.

9. Other Services

This class includes all workers engaged in services like electricity, gas, water, public administration and defence services, sanitary services, education, scientific and research services, medical and health services, religious and welfare services, recreational and cultural services and personal services. Thus, it would appear that this category covers all such workers who do not come under any of the industrial categories mentioned in the foregoing paragraphs and also those whose activities have not been adequately described. General labourers who are accustomed to work in various miscellaneous jobs are also classified under 'other services'.

[II] Brief History of the District and the District Census Handbook

(a) History of the District

Archaeological explorations carried out on a small scale in this district have yielded only a few sites of pre-historic settlements. The tools of the late stone age were collected from Sejakpur of Sayla taluka in 1957-58. The earliest period of human habitation revealed at Rangpur represents the Late Stone Age culture dominated by a hunting fishing economy. The tools of Early Man of the paleolithic Age are now discovered in this district.

The chance discovery of a Harappan site near Rangpur in 1931 followed by the small scale excavation conducted by the Archaeological survey of India in 1934, revealed the southern extension of the Indus Valley civilization in Saurashtra. The importance of Rangpur lies in the fact that it is the first Harappan site discovered in Gujarat and is the first site in the Indian sub continent where the Indus civilization is found to have survived longer than in the Indus Valley itself. Rangpur represents a mature Harappan settlement, through it was not an outstanding commercial centre and required no seals.

No information is available about the early history of this district in particular. But it is quite probable that this region was under the control of the same successive dynasties as those in other parts of Gujarat. The documented history of Gujarat commences with the Mauryan period (Circa-322 B.C. - 185 B.C.) when it formed a province of the Mauryan empire during the reign of Chandragupta and Ashoka. The discovery of the coins of kings Menander (Circa 155 - 130 B.C.) and Apollodotus II (Circa 115 - 95 B.C.) in Saurashtra and South Gujarat implies the probable rule of the Indo-Greek kings in Gujarat.

After the integration of the States, the existing Surendranagar district was called 'Zalawad'. The term 'Jhalawad' derives its name from Jhala Rajputs who ruled over a number of States such as Dhrangadhra, Wadhwan, Limbdi, Sayla etc. These Jhalas were formerly known as Makwanas. Harpaldev was the son of Kesar Makwana and his mother was a daughter of the celebrated Karan Ghelo, Solanki king of Patan, the then capital of Gujarat. It is said that Harpaldev received in 838-39 A.D. a grant of 1800 villages from his grandfather for conspicuous valour displayed by him, which relieved king Karan from a great difficulty. Harpaldev then shifted his residence to Patdi, which was made the capital of his dominion. He had three sons. Once while they were playing in the courtyard, a mad elephant broke into it. He would have killed them, when their mother by her miraculous power managed to rescue them from the grip of the elephant. As she caught them, they received the name "Zalas" (derived from the Gujarati word "Jhalavun" to hold) and the district ruled by them came to be called "Zalawad".

The former State of Bajana was founded by the fugitive Jats driven away from Sindh by its ruler. The Sultan of Ahmedabad bestowed 24 villages on their leader. Malik Hedoji for their prowess in the capture of the Champaner fortress. As Malik Haider Khan (one of the Jat leaders) established himself there, Bajana and its neighbourhood came to be known as Nahani Jatvar or little Jatvar. The talukadars of Dasada were Multani Maleks descendents to Malek Bakhan, one of the Thanahdars who lived and prospered in the time of Sultan Ahmed of Gujarat (A.D.1411-1443). For a long time, Dhandhalpur was in the possession of the Babarias who were expelled in A.D. 1790 by Godada Khavad. The Khavads are said to be the off-spring of a Jhala of the Patdi house named Khavadaji who married a Kathi lady.

Reviewing the historical background of various princely States included in this district, it is found that the chiefs of Dhrangadhra were Jhala Rajputs originally a sub-division of the Makwana family claiming descent from Markand Rishi.

They are said to have ruled at Keranti a village in Sindh. Abhesinghji, son of Raja Sahib Chandrasinhji of Halvad received Lakhtar for maintenance from the Dhrangadhra Gadi and founded the house of Lakhtar in the beginning of the 16th century. The Limbdi house of the former Limbdi State sprang from Harpaldev, the common ancestor of the rulers of Dhrangadhra and Limbdi houses. It was Verisalji, the son of Aderaji, who removed the capital to Limbdi. The Parmars who emigrated from Tharparkar in Sindh were permitted by Visaldev, the Vaghela Raja of Wadhwan to encamp on the bank of the Bhogavo river, close to the spot where Muli now stands. After the reign of Solankis of Patan, Wadhwan came into the hands of a branch of the Vaghelas who were dispossessed by the Muslims, where after it fell into the hands of the Jhalas of Halvad. The original owners of Than are said to have been the Babarias whom the Parmars ousted. The Parmars were

followed by the Kathis who made Than their headquarters. Kartalab Khan, the Viceroy of Gujarat dispersed the Kathis and destroyed the temple of the Sun God worshipped by them. Thereafter, Than remained a Muslim Thanah till the Mogul power waned. It then fell into the hands of the Jhalas of Halvad, originally a holding of the Sodha Parmars. Chotila was conquered from Jagasio Parmar by the Khachar Kathis. Most of the Khachar Kathis trace their origin to the Chotila house, one of the twenty States and estates comprising this district.

It would be interesting to review the administrative history of some of the princely States constituting this district. The Surendranagar district consisted of States and estates such as Dhrangadhra, Wadhwan, Limbdi, Lakhtar, Sayla, Chuda, Muli, Bajana, Patdi and the thanas of Vanod, Vithalgadh, Jainabad, Rajpur, Anandpur, Chotila, Bhoika, Zinjhuwada, Dasada and part of Raisankli. All these States and estates were merged into former State of Saurashtra and formed part of the Zalawad district.

The town of Surendranagar from which the district derives its present name was previously known as Wadhwan camp and was the headquarters of the Britesh Political Agent. The Political Agent withdraw from Wadhwan camp and restored it to the Wadhwan ruler in 1946 A.D. It was then renamed Surendranagar in 1947 A.D. after the name of the ruler Shri Surendrasinhji of the former Wadhwan State. The town of Surendranagar has been the district headquarters since 1948. The Surendranagar district is one of the districts of the peninsula of Saurashtra.

In November, 1956, the States were reorganised and the bigger bilingual State of Bombay was formed with Vidarbha, Marathawada, Saurashtra and Kachchh regions and Surendranagar district became a part of the bigger bilingual Bombay State. Lastly, the Bombay State was bifurcated on 1st May 1960 and separate States of Guajarat and Maharashtra were formed. Since that date the Surendranagar district became a part of the Gujarat State.

(b) History of District Census Handbook

Before the 1951 Census, the census figures were published in a booklet known as 'Village Handbook' which contained only villagewise population figures. These books were prepared and published by the Directorate of Census.

The District Census Handbook was introduced for the first time in 1951 Census by the Directorate of Census. It comprised the villagewise primary census abstract figures and information on available amenities. It also contained several tables relating to the district. It varied in content and size from State to State depending upon the resources offered by the respective State Governments.

In 1961 Census, a uniform pattern of District Census Handbook was adopted throughout the country. The project was jointly executed by the Directorate of Census and the State Government. In addition to the English version, it was published for the first time in Gujarati language. The District Census Handbook 1961 was published in three parts viz. Part I, Part II and Part III. Part I related to Introductory Note i.e. general and economic information for the district and a brief gazetteer of place names. Part II pertained to census tables, villagewise list of industrial establishments, tables on handicrafts and departmental statistics. Part III consisted on village directory covering the amenities and primary census abstract data combined in one statement. It also covered district and taluka maps.

It is worthwhile here to note that the State Government has created a separate unit for preparing and publishing District Census Handbooks from 1971 Census onwards. In the 1971 Census, the contents of District Census Handbook were modified. In the preceding censuses, the data on amenities and primary census abstract were covered in one statement whereas in 1971 Census, the data on amenities and primary census abstract were separated into two different parts. Thus, the coverage of amenities data was extended and the land use data were introduced for the first time from 1971 District Census Handbooks. Moreover, a separate portion known as 'Town Directory' was also incorporated for the first time in the District Census Handbook. The 1971 District Census Handbook was published in three parts viz. Part A, Part B and Part C. Part A contained the village and town directory. Part B contained village and townwise primary census abstract data and Part C contained official statistics, besides full count census tables, urban census tables and analytical report on census and related statistics socio-economic and cultural tables (Rural areas) and housing tables. Part A and Part B were combined and published in one volume.

The District Census Handbook 1981 was brought out in two parts - Part A and Part B. Part A contained the village and town directory whereas part B included the primary census abstract data, both General and Scheduled Castes and Scheduled Tribes. Both parts were published in one volume. Part C brought out for 1971 Census was dropped in 1981 Census. However, official statistics and some portion of analytical notes of Part C of 1971 Census were also included in the 1981 District Census Handbook.

For the 1991 Census, the District Census Handbooks are prepared more or less on the same lines of the preceding 1981 Census.

[III] Scope of Village Directory, Town Directory and Primary Census Abstract

As mentioned earlier, the District Census Handbook is brought out in two parts - Part A and Part B. Part A covers the non-census data of village directory and town directory whereas Part B covers the primary census abstract data of 1991 Census. The scope of village directory, town directory and primary census abstract is discussed below.

Scope of Village Directory

For the census work, the villages in the district have been arranged talukawise (C.D. blockwise) and within the taluka (C.D. block), they are shown location codewise. Each village is assigned a location code number for the purpose of identification. Prior to the village directory information, a map and alphabetical list of villages for each taluka (C.D. block) is given in Part A. Village directory contains the non census data of each village. It gives the villagewise basic information relating to infrastructure and amenities available in the sphere of education, medical, drinking water, markets/hats, power supply, post and telegraph, communications, approach road to village and distribution of land use area. In addition, it contains information about total area of each village, total population and number of households and the nearest town and its distance from the village. The information on number of households and total population has been included with a view to examine the co-relation of amenities with the number of households and population they serve. If an amenity is not in existence in the referrant village, the distance in broad ranges from the nearest place, where the amenity is available is given. The broad ranges are (-5 kms.), (5-10 kms.) and (10 + kms.).

The format of village directory has been revised and some items such as staple food of the people, places of religious, historical and archaeological interest, copies of the newspaper coming in the villages, number of motorcycles and scooters, number of cars and jeeps and number of tractors available in the villages have been excluded from the village directory of 1991 District Census Handbook. At the end of village directory, the following 4 appendices have been included in the District Census Handbook 1991, on the same lines of preceding 1981 Census.

Appendix I gives talukawise (C.D. blockwise) information regarding the facilities like educational, medical, drinking water, post and telegraph, communications and power supply available in the villages. In addition, information about the number of institutions is given talukawise (C.D. blockwise) so far as educational and medical amenities are concerned.

Appendix II presents land utilisation data in respect of non- municipal towns i.e. places considered as towns for census purposes.

Appendix III shows a talukawise (C.D. blockwise) list of villages where six amenities (viz. education, medical, post and telegraph, market/hat, communication and power supply) are not available and lastly.

Appendix IV presents a talukawise (C.D. blockwise) list of villages according to the proportion of Scheduled Castes and Scheduled Tribes to the total population by various ranges.

Scope of Town Directory

Town Directory covers the non-census data for each town. It presents important and useful information like civic and other amenities available in all the towns of the district. The information in town directory is covered in following 7 statements, viz. statements I to VI and IV-A. These statements used in the preceding 1981 Census are identical for current 1991 Census also. The details of town directory statements are given below in brief.

Statement I describes the class, name, civic administrative status of the town, its area, growth rates, density and sex ratio.

Statement II indicates physical aspects of each town.

Statement III presents the details of the income and expenditure figures for each town.

Statement IV indicates civic and other amenities in respect of each town.

Statement IV-A gives information about civic and other amenities in notified slums.

Statement V provides the information on availability of medical, educational, recreational and cultural facilities in towns.

Statement VI shows information about the trade, commerce, industry and banking for each town.

In all the statements except IV-A, the towns are arranged in the alphabetical order within the district. The details of these statements are given in the analytical portion of the town directory. In the addition to the above statements, an appendix showing the towns with their outgrowths with population, is incorporated after the town directory statements.

Scope of Primary Census Abstract

Part B consists of the 'District Primary Census Abstract' (District P.C.A.). The District P.C.A comprises basic population data for each village separately in rural areas and for each town/ward separately in urban areas under the following heads, viz. area of villages in hectares and of towns/wards in sq.kms., number of occupied residential houses , number of households, sexwise total population, 0-6 years population, Scheduled Castes and Scheduled Tribes population, literates, main workers classified into 9 industrial categories, marginal workers and non workers.

The Scheduled Castes and Scheduled Tribes P.C.A. at the district/taluka (C.D. block), town level are also presented.

The format of the P.C.A. for the villages and towns/wards in 1991 has been revised as compared to the P.C.A. 1981. In 1981, the main workers were presented into 4 broad industrial categories (i.e. I, II, V(a) and categories III, IV V(b) and VI to IX were combined together in the fourth category) whereas in 1991, the main workers were presented into 9 broad industrial categories. In addition, information for 0-6 years population is added in the revised format of P.C.A.

An appendix gives the urban block level total population and scheduled castes/scheduled tribes population. This is meant for the use of administrative purposes in urban areas. Such data are needed by Urban Planning Authorities and Researchers for conducting other studies in selected blocks.

[IV] Physical aspects - Highlights on the changes in the jurisdiction of the district during the decade including its boundaries and any important event on geographic or geophysical aspect

In each district of Gujarat State, there are two systems of jurisdiction set up viz. (1) revenue system in rural areas and (2) local system in urban areas. Under the revenue system, the district is divided into prants (divisions) and further into talukas and revenue villages. Under the local system, the urban areas are classified into statutory towns, cantonment areas, notified areas etc. In Gujarat State, community development blocks are co-terminus with talukas and the hamlets of villages are not identified.

Surendranagar district consists of 3 Prant (revenue) divisions viz. Wadhwan division which comprises of Wadhwan taluka. Dhrangadhra division comprises of Patdi (Dasada), Halvad, Lakhtar, Dhrangadhra talukas and Limbdi division comprising of Chotila, Limbdi, Muli and Sayla talukas.

For the implementation of development activities, all the above jurisdictions (i.e. village, taluka, prant, district and town) have their own relevance and importance.The handbook contains the villagewise, townwise and talukawise/C.D. blockwise data. Prantwise data are also available by addition of respective taluka figures.

The boundaries of the district and talukas remained unchanged between the period of two censuses i.e. from 1981 to 1991. No change is also observed in the villages/towns of the district during 1991 Census.

(V) Major characteristics of the district particularly in relation to the economic resources, namely Agriculture, Forests, Irrigation, Co-operation, Livestock and Animal Husbandry, Fisheries, Finance, Industries, Power supply, Transport and Communications, Insurance, Education, Medical and Public Health etc.

Economic resources are an important means of subsistence for the working people in the district. The details about economic resources of important sectors are given hereunder in brief.

(1) Agriculture

(a) Land and Land use

The total land in the district was 10.49 lakh hectares during 1989-90. The land classification according to the different uses, for the rural areas of the district for the year 1989-90 is given below on the basis of information collected for the Village Directory.

Land classification of rural area

Sl. No.	Classification of area	Rural land 1989-90 (in '00 hectares)
(1)	(2)	(3)
1	Forests	308
2	Irrigated	619
3	Unirrigated	6,025
4	Culturable waste	1,160
5	Area not available for cultivation	1,791
6	Unspecified	---
	Total	**9,903**

Source: Compiled from Village Directory

(b) Area Under Major Crops

The area under major crops for the years 1980-81, 1984-85 and 1989-90 are indicated in the following table.

Area under major crops

Sl. No.	crops	Area under major crops (In '00 hectares)		
		1980-81	1984-85	1989-90
(1)	(2)	(3)	(4)	(5)
1	Bajri	929	912	1,230
2	Jowar	1,026	987	1,496
3	Wheat	152	336	193
4	Rice	9	11	5
5	Other Cereals	5	..	8
6	Gram	58	77	80
7	Other Pulses	126	163	190
8	Total Foodgrains	2,305	2,486	3,202
9	Groundnut	243	253	296
10	Cotton	3,656	3,666	2,944

Source: Season and Crop Report, Directorate of Agriculture.

The area under all the crops except cotton and rice has increased during 1989-90 as compared to the year 1980-81. It is noticed that the majority of the cropped area was under cotton, jowar and bajri.

(c) Yield per Hectare

The average yield per hectare of the principal crops in the district during the year 1980-81, 1984-85 and 1989-90 is shown below.

Average yield per hectare

Sl. No.	Principal crops	Average yield per hectare (In kg.)		
		1980-81	1984-85	1989-90
(1)	(2)	(3)	(4)	(5)
1	Bajri	311	644	679
2	Jowar	117	142	208
3	Wheat	2,236	1,594	1,295
4	Groundnut	275	359	787
5	Cotton	116	181	191

Source: Season and Crop Report, Directorate of Agriculture.

The average yield per hectare was higher in bajri, jowar, groundnut and cotton whereas the average yield per hectare was lower in wheat crop during the year 1989-90 than that recorded during the year 1980-81.

(d) Crop Calendar

The crop calendar for different crops in the district is revealed below.

Crop calendar

Sl. No.	Crop	Months of sowing	Months of harvesting
(1)	(2)	(3)	(4)
1	Paddy	June	October-November
2	Wheat	November-December	March-April
3	Jowar	June-July	October-November
4	Bajri	June-July	October
5	Groundnut	June-July	November-December
6	Cotton	June-August	November-March

Source: Agriculture Officer, District Panchayat.

(e) Drought and Scarcity

The drought and scarcity affected villages in respect of different types of losses in the district during the years 1980- 81 to 1989-90 are shown below.

Drought and scarcity

Year	Number of revenue villages affected for		
	Losses of crop	Losses of human lives	Losses of livestock
(1)	(2)	(3)	(4)
1980-81	--	--	--
1981-82	--	--	--
1982-83	598	598	598
1983-84	--	--	--
1984-85	--	--	--
1985-86	611	611	611
1986-87	659	659	659
1987-88	659	659	659
1988-89	--	--	--
1989-90	--	--	--

Source: *District Collector.*

(f) Consumption of Fertilisers

The consumption of different type of fertilisers in the district is shown below.

Consumption of fertilisers

Sl. No.	Type of fertiliser	Year(Consumption in '00 tonnes)		
		1979-80	1984-85	1989-90
(1)	(2)	(3)	(4)	(5)
1	Nitrogen	3,943	8,654	10,719
2	Phosphate	2,376	5,281	4,771
3	Potash	207	234	447
	Total	**6,526**	**14,169**	**15,937**

Source: *Directorate of Agriculture.*

The consumption of chemical fertilisers shows an upward trend during 1989-90 as compared to the year 1979-80.

(2) Forests

According to the figures available from the Forest Department for the year ending 1989-90, an area of 491.31 sq.kms. is covered by forests which are found in all the talukas of the district. The seasumwood and firewood are the major products whereas gum, grass, madhukaindika, diaspias milen oxilon, hognut, soapnut are the minor products of these forests.

(3) Irrigation

(a) Area Irrigated by Crops

The area irrigated by different crops in the district for the year 1979-80, 1984-85 and 1986-87 is shown in the following table.

Area under irrigated crops

Sl. No	Crop	Year (In '00 hectares)		
		1979-80	1984-85	1986-87 *
(1)	(2)	(3)	(4)	(5)
1	Wheat	58	115	58
2	Rice	5	11	4
3	Chillies	5	4	1
4	Sugarcane	1	6	6
5	Other Foodcrops	11	38	55
6	Cotton	605	809	710
7	Fodder Crops	24	22	49
8	Other non-food crops	3	30	21
	Total gross area under irrigation	**712**	**1,035**	**904**

*Latest available

Source: *Season and Crop Report, Directorate of Agriculture.*

The food crops irrigated in the district are wheat, rice, chillies and sugarcane whereas non-food crops irrigated are cotton and fodder.

(b) Sources of Irrigation

The area irrigated by different sources in the district are presented below during 1979-80, 1984-85 and 1986-87.

Area irrigated by source

Sl. No.	Source	Year (In '00 hectares)		
		1979-80	1984-85	1986-87*
(1)	(2)	(3)	(4)	(5)
1	Government Canals	121	120	...
2	Tanks	...	5	5
3	Wells	576	857	828
	Net area irrigated	697	982	833
	gross area irrigated	712	1,035	904

*Latest available

Source: *Season and Crop Report, Directorate of Agriculture.*

The above figures indicate that the wells are the main source of irrigation in the district.

(c) Minor Irrigation

Thirty one minor irrigation schemes were completed in the district as on 31.3.1991. They provide a total gross command area of 8,390 hectares.

In addition to above, 65 minor irrigation schemes are under construction in the district as on 31-3-1991. The total gross command area of 3,314 hectares will be irrigated on completion of these schemes.

(d) Medium Irrigation Schemes

The ultimate irrigation potential including the potential created upto June '91 and balance irrigation potential by medium irrigation schemes in the district are shown in the following table.

Medium irrigation schemes
(In '000 hectares)

Sl. No.	Name of Scheme	Ultimate irrigation potential	Potential created upto June '91	Balance irrigation potential
(1)	(2)	(3)	(4)	(5)
1	Brahmani	8.10	8.10	...
2	Bhogavo	1.41	1.41	...
3	Bhogavo II	0.83	0.83	...
4	Limbdi-Bhogavo	1.88	1.88	...
5	Falku	1.08	...	1.08
6	Limbdi-Bhogavo (New Vadod)	3.12	...	3.12
	Total	**16.42**	**12.22**	**4.20**

Source : Irrigation Department, Govt. of Gujarat.

(4) Co-operation

Co-operative activities play a significant role in the rural economy. A super structure of co-operative societies with an apex bank at the State level, the district central co-operative bank at the district level and co-operative societies at the village level is built-up with the objective of strengthening the rural economy. The main office of District Co-operative Bank is located at Surendranagar. The details regarding co-operative societies during the years 1979-80, 1984-85 and 1988-89 are given below.

Co-operative societies

Sl. No.	Type of co-operative societies	Item	Year 1979-80	1984-85	1988-89
(1)	(2)	(3)	(4)	(5)	(6)
1	Primary Agricultural Credit Societies	Societies	311	298	291
		Membership (In '00)	739	802	742
		Paid up capital (in '000 Rs)	27,481	32,500	47,986
2	Primary Non-Agricultural Credit Societies	Societies	53	54	61
		Membership (In '00)	260	490	840
		Paid up capital (in '000 Rs)	5,430	11,866	29,765
3	Primary Consumers Stores	Societies	18	12	13
		Membership (In '00)	27	30	34
		Paid up capital (in '000 Rs)	140	155	225
4	Primary Marketing Societies	Societies	7	7	8
		Membership (In '00)	5	5	7
		Paid up capital (in '000 Rs)	303	489	750
5	Central and State Marketing Societies	Societies	1	1	1
		Membership (In '00)	2	2	2
		Paid up capital (in '000 Rs)	29	28	30
6	Primary Processing Societies (including Spinning & Weaving)	Societies	5	5	5
		Membership (In '00)	18	41	48
		Paid up capital (in '000 Rs.)	235	234	263
7	All other types of Primary Societies	Societies	600	771	873
		Membership (In '00)	242	367	503
		Paid up capital (in '000 Rs)	4,305	7,376	8,638
8	All other types of Societies (Central & State)	Societies	4	4	4
		Membership (In '00)	41	41	42
		Paid up capital (in '000 Rs)	459	1,358	1,902

Source: Registrar of Co-operative Societies.

The number of co-operative societies have increased from 999 in 1979-80 to 1,256 in 1988-89. Thus, the district has made an appreciable progress in the sphere of co-operative movement.

(5) Livestock and Animal Husbandry

(a) Livestock Population

Cattle wealth occupies a pivotal place in the rural economy of the district. According to the livestock censuses of 1977, 1982 and 1988, the livestock population in the district is indicated below.

Livestock

Sl. No.	Category of Livestock	Year 1977	1982	1988
(1)	(2)	(3)	(4)	(5)
[I]	**Total livestock**	**5,28,321**	**7,47,964**	**6,23,386**
A	Bullocks & Cows	2,19,777	2,93,572	2,42,078
(1)	Males over 3 years	95,969	1,03,365	77,733
(2)	Females over 3 years	68,831	1,02,426	92,435
(3)	Young stock	54,977	87,781	71,910
B	Buffaloes	74,867	1,01,713	92,009
(1)	Males over 3 years	534	1,066	1,110
(2)	Females over 3 years	42,909	55,667	50,528
(3)	Young Stock	31,424	44,980	40,371
C	Sheep	94,170	1,77,158	1,13,582
D	Goats	1,31,237	1,55,085	1,63,746
E	Horses & Ponies	4,288	2,184	1,378
F	Mules	41	4	3
G	Donkeys	3,280	6,550	6,416
H	Camels	528	1,282	1,141
I	Pigs	133	10,416	3,033
[II]	**Poultry**	**7,717**	**8,096**	**5,831**

Source: Directorate of Economics & Statistics.

The livestock population has increased from 5,28,321 in 1977 to 6,23,386 in 1988 representing an

addition of 95,065 to the livestock population. A decrease was observed in livestock population during 1988 as compared to the year 1982 mainly due to successive drought in the district from 1985-86 to 1987-88. Poultry birds have shown a decrease from 7,717 in 1977 to 5,831 in 1988.

(b) Animals suffer from a number of diseases. In order to save animal population, following institutions provide medical treatment to the livestock.

Institutions for medical treatment of livestock

Sl. No.	Type of institutions	Number during 1989-90
	(1)	(2)
1	Veterinary dispensaries	15
2	Veterinary mobile dispensaries	5
3	Primary treatment centres	15
4	Stockmen centres and artificial breeding centres	15
5	Sheep and wool extension centres	3

Source: Deputy Director, Animal Husbandry, District Panchayat

Surendranagar Dairy is functioning for the collection and supply of milk. The number of milk co-operative societies in the district has risen from 260 in 1979-80 to 342 in 1989-90.

(C) Agricultural Implements

According to the livestock censuses conducted in the State, the comparative data for agricultural implements in the district for the years 1977, 1982 and 1988 are shown in the following table.

Agricultural implements

Sl. No.	Name of agricultural implements	Year		
		1977	1982	1988
(1)	(2)	(3)	(4)	(5)
I	Plough	39,624	43,095	39,023
(A)	Wooden	38,207	35,116	25,322
(B)	Iron	1,417	7,979	13,701
2	Carts	29,973	30,661	26,981
3	Sugarcane crushers	128	214	191
4	Oil engines	24,334	22,605	20,223
5	Electric motors & pumps	2,163	6,691	5,641
6	Tractors	379	1,364	2,130

Source:: Directorate of Economics and Statistics.

The number of agricultural implements, except wooden ploughs, carts and oil engines has shown an increasing trend during the year 1988 as compared to the year 1977.

(6) Fisheries

Fisciculture activities in the district have been undertaken in the coastal as well as inland waters. There were 15 fishing centres during 1989-90 in three talukas viz; Halvad, Dhrangadhra and Dasada of the district.

The important fisheries statistics for the district are given hereunder for the years 1979-80, 1984-85 and 1989-90.

Fisheries activities in the district

Sl. No.	Item	Year		
		1979-80	1984-85	1989-90
(1)	(2)	(3)	(4)	(5)
1	Total No.of fishing boats	56	156	314
2	Total No.of fishing nets	997	4,774	12,800
3	Fish production (In tonnes)	6	1,292	1,135
4	No.of active fishermen (In '00)	5	15	32
5	Fishermen primary co-operative societies (No.)	...	...	5
6	Membership of fishermen's primary co-operative societies (In '00)	...	...	6
7	Paid up share capital of fishermen's co-operative societies (In '00)	...	...	10

Source: Commissioner of Fisheries.

The above data indicate an increase in the fishing activities in the district during 1989-90 as compared to the year 1979-80.

(7) Finance

Provision of finance is an important factor in the socio-economic growth of the district. The main agency to provide money for development activities in the district are the commercial banks, co-operative banks and private money lenders. The commercial banking facilities available in the district are shown in the following table.

Banking facilities

Type of Bank	No. of Banks	
	1979	1989
(1)	(2)	(3)
Commercial Bank	41	90

Source: D.C.H.B. 1981 and Convener Bank, Dena Bank.

The number of licenced private money lenders in the district was 186 as on 31.12.1989. The advances made by them were Rs. 96.40 lacs during 1989.

(8) Industries

(a) The total number of registered factories and average number of daily workers employed by major group of industries for the year ending 1989 are shown in the following statement.

Distribution of important industrial establishments by major industrial group

Sl. No.	Major group	Description	Year ending 1989	
			No. of establishments	Average No,. of persons employed per day
(1)	(2)	(3)	(4)	(5)
1	20-21	Food products	26	1,231
2	23	Cotton textiles	71	6,413
3	28	Paper and paper products, printing and publishing industries	11	321
4	30	Rubber, plastic, petroleum and coal products	7	799
5	31	Chemicals and chemical products (except products of petroleum and coal)	18	938
6	32	Non-metallic mineral products	133	3,203
7	34	Metal products and parts except machinery and transport equipments	15	343
8	35	Machinery and machine tools and parts except electrical machinery	67	2,142
9	37	Transport equipments and parts	5	133

Source: Office of the Chief Inspector of Factories.

Among the registered establishments, the first three most important establishments are (1) non-metalilic mineral products (2) Cotton textiles and (3) manufacture of machinery and machine tools and parts except electreical machinery. Similarly, the first three most important establishments from the point of view of their employment in order are (1) cotton textiles, (2) Non- metallic mineral products and (3) Manufacture of machinery and machine tools and parts except electrical machinery.

(b) There were in all 2,756 registered small scale industrial units in the district at the end of the year 1989. Of these, 480 are manufacture of metal products, 467 chemical industry and 337 manufacture of glass, cement and earthenware.

(c) Alongwith the houselisting operations for the 1991 Census, Economic Census was also conducted in the year 1990. The latter was conducted through the State Directorate of Economics and Statistics at the State level and through the Central Statistical Organisation at the national level. The preliminary provisional results of Economic Census 1990 have been published by the State Directorate of Economics and Statistics. According to the provisional results, the total enterprises in the district in both rural and urban areas were 42,374. Of which, 4,951 were agricultural enterprises whereas 37,423 were non-agricultural enterprises. The total number of persons actually working in both agricultural and non-agricultural enterprises were 1,13,322.

(d) An industrial estate aims at helping the small entrepreneur in establishing an industry by providing the infrastructure facilities of land, shed, power, water, drainage, transport, storage etc. at one place. Followig industrial estates managed by Gujarat Industrial Development Corporation were established in the district at the end of the year 1989. The details about location and number of sheds completed in each Industrial Estate are given below.

Location and No. of sheds in industrial estate

Sl. No.	Name of Industrial Estate	No. of Sheds completed
(1)	(2)	(3)
1	Surendranagar	178
2	Thangadh	16
3	Limbdi	4
4	Dhrangadhra	12
5	Bamanbore	40
6	Chotila	5
	Total	**255**

Source: Gujarat Industrial Development Corporation.

In addition to above estates, one is under construction and two more have been proposed to be set up in the district by Gujarat Industrial Development Corporation.

(e) Industrial Training Institutions

The following table gives information regarding industrial training institutions working under the control of Directorate of Employment and Training, Government of Gujarat.

Industrial training institutions

Item	No. of institutions	Intake capacity
(1)	(2)	(3)
Government industrial training institution	1	864
Private industrial training institution (Running with the assistance of Grant-in-aid)	1	128

Source: Directorate of Technical Education.

(f) Joint Stock Companies

Joint Stock Companies play a significant role in the economy of the district. The following table shows the number of registered Joint Stock Companies alongwith their authorised capital and paid up capital for the years ending 31.3.79 and 31.3.90.

Joint stock companies

Item	Position as on 31.3.80	31.3.90
(1)	(2)	(3)
Number of joint stock companies registered in the district	44	120
Authorised capital (Rs. in lacs)	741.27	1,506.49
Paid up capital (Rs. in lacs)	414.72	547.27

Source: Registrar of Joint Stock Companies.

(g) Mining

The production of important major and minor minerals in the district is given below.

Mineral production

Sl. No	Minerals	Production (In Metric Tons) 1979	1989-90
(1)	(2)	(3)	(4)
	Major Minerals		
1	Fire clay	1,77,394	92,975
2	Moulding sand	...	7,783
3	Glass sand	71,320	83,348
	Minor Minerals		
1	Sand stone	2,32,578	35,871
2	Lime stone	1,234	512
3	Ordinary clay	6,427	5,592
4	Ordinary sand	13,024	19,963
5	Black trap	86,268	28,708

Source : Directorate of Geology and Mining.

(9) Power supply

Power supply is the chief necessity for the economic development of the district. The main source for power supply in the district is Gujarat Electricity Board. The table below shows the progress in the rural electrification in the district.

Rural electrification

Year ending	No. of electrified villages	No. of pumpsets/ Tube wells energised
(1)	(2)	(3)
1979	343	5,594
1989	645	14,617

Source: Gujarat Electricity Board and Village Directory of DCHB 1981 and 1991.

The above data indicate that facilities of electricity have increased considerably in the rural areas of the district. Out of total 648 inhabited villages, 645 villages are electrified in the district.

(10) Transport and Communication

(a) Transport and Communication facilities are considered an administrative necessity as well as a public convenience. Moreover, a well knit transportation system is a prerequisite for the social and economic development of any district. The linking of one place with the other by road is very essential to provide good transport system. According to the classification of roads made by the Indian Roads Congress, road length in the district by category is given below for the years 1980-81, 1985-86 and 1989- 90.

Type of roads

Sl. No.	Year	Road length in kms. National highways	State highways	District main roads	Other district roads	Village roads	Total
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1	1980-81	121	451	611	426	641	2,250
2	1985-86	121	466	687	474	1,188	2,936
3	1989-90	121	822	911	466	662	2,982

Source: Road and Building Department, Government of Gujarat.

In 1980-81, the total length of roads was 2,250 kms. which increased to 2,982 kms. in 1989-90. This shows an improvement in the net work of roads in the district.

(b) Posts and Telegraphs

All the towns of the district have post, telegraph and telephone facilities. The following table shows the number of villages in the district possessing these facilities.

Communication facilities

Type of communications amenities	No. of villages during 1989
(1)	(2)
Postal	329
Telegraph	16
Telephones	115

Source: Compiled from Village Directory of D.C.H.B. 1991.

(C) State Road Transport

Out of total 648 inhabited villages, 594 villages were connected by State Road Transport facilities during 1989.

(11) Insurance

Life Insurance Corporation doing insurance business play an important role in tapping up a portion of the public savings through the collection of insurance premia. The total business of the life insurance in the district during the years 1980-81, 1985-86 and 1990-91 is presented below.

Life Insurance activity

Sl. No.	Year	No.of policies	Sum assured (In lacs)
(1)	(2)	(3)	(4)
1	1980-81	4,153	507.77
2	1985-86	4,970	794.51
3	1990-91	11,080	2,681.26

Source: Divisional Manager, Life Insurance Corporation

The above table indicates the continuous rise in the number of policies issued and sum assured in the year 1990-91, compared to the earlier years.

(12) Education

Education plays an important role in the field of social and economic growth of the district. Free and compulsory primary education to both boys and girls aged 6-11 was introduced in the Third Five Year Plan. The State Government has been making all efforts to establish atleast one primary school in every village of the State so that this basic necessity can be provided upto each rural citizen. After the introduction of Panchayati Raj in the State, the function of primary education has been entrusted to the District Panchayat for the rural areas whereas it is under local bodies in urban areas. Primary and secondary education facilities available in the district for the years 1979-80, 1984-85 and 1989-90 are given below.

Educational facilities

Sl. No.	Education	Items	Year		
			1979-80	1984-85	1989-90
(1)	(2)	(3)	(4)	(5)	(6)
1	Primary Education	Institutions	736	788	855
		Pupils	1,37,761	1,70,688	1,95,981
		Teachers	3,494	4,124	4,671
2	Secondary and Higher Secondary Education	Institutions	83	108	129
		Pupils	24,493	28,614	35,962
		Teachers	939	1,049	1,168

Source: Directorates of Primary Education and Higher Education.

The above data reveal that the district has made considerable progress in the field of primary and secondary education during the last decade.

(13) Medical Institutions

The details for medical institutions in the rural and urban areas of the district are given below for the years 1979-80 and 1989-90.

Medical institutions

Sl. No.	Medical Institutions	Number			
		Rural areas		Urban areas	
		1979-80	1989-90	1979-80	1989-90
(1)	(2)	(3)	(4)	(5)	(6)
1	Hospitals	5	8	26	38
2	Dispensaries	97	104	41	118
3	Family Planning Centres	81	78	4	8
4	Primary Health Centres/Primary Health sub-centres	79	170	9	8

Source: Compiled from Village Directory and Town Directory Data of 1981 and 1991 D.C.H.B.

The above figures show the overall progress of medical institutions in the rural as well as urban areas during 1989-90 as compared to the year 1979-80.

(VI) Major social and cultural events, natural and administrative developments and miscellaneous activities of note during the decade.

The available information on important social, cultural etc. activities in the district is briefly given in the following paragraphs.

(1) Minor Irrigation Scheme in Gundiyala Village

Rs. 36.00 lakhs had been utilised for minor irrigation scheme in Gundiyala village of Wadhwan taluka in the year 1983 which creates irrigation facility in 284 acres of agricultural land.

(2) Falku Irrigation Project in Dhrangadhra

The work on Falku Irrigation Project near Dhrangadhra is started in the year 1986. This project expenditure will be Rs. 10.00 crores. The work is in progress and will be completed near June 1993. 1,220 hectares of land will be irrigated in this project when the work is completed.

(3) Jain Temple at Doriya

Shankheshwar temple was constructed in Doriya village of Sayla taluka on National Highway eight. In this temple, marble stone was utilised. The amount of Rs. 15 lakhs was spent for construction.

(4) Archaeological importance of Nagvada Village of Dasada Taluka

Archaeological department of Maharaja Sayaji Rao University was taken up the work of research in Nagvada village for Harppan cultural. The ruins of this place such as ornaments and one died woman schalated were dis-

covered. This shows that this place is important for the point of view of archaeology.

(5) Bravery of Dhudiben

In the year 1989, 16 years old Dhudiben and her six years old brother Jasraj was going for grazing cattle surrounding the village Soribhanda of Sayla taluka. When the cattle of Dhudiben was grazing, one wolf came there and picked up her brother Jasraj and ran away. Dhudiben saw this, she ran after the wolf and attacked on it with her stick. In this way, she saved the life of her brother. Indian Council for Child of Delhi gave an award to Dhudiben for her bravery. This award was handed over by Prime Minister of India in the year 1989.

(6) Mardia Chemical Ltd. in Sitagadh Village

Mardia Chemical Ltd. Project was established in Sitagadh village of Sayla taluka. Crores of rupees is spent for establishment of this ultra modern plant. Dye Inter Mediate Chemical is produced in this plant.

(VII) Brief description of places of religious, historical or archaeological importance and places of tourist interest in the villages / towns of the district

Sl. No. (1)	Name of taluka (2)	L.C. No. (3)	Name of town/village (4)	Details of places of religious, historical or archaeological importance and places of tourist interest etc. (5)
1	Wadhwan	1	Wadhwan	(1) The Wadhwan city is on the Bhogavo river. It is the place where Ranakdevi became SATI. Her small temple (paliyo) still stands on the southern bank of the Bhogavo river. It is a protected national monument. (2) There are two ancient stepwells (Vavs) viz. Madhavav and Gangavav. Both the stepwells are preserved as protected monuments. (3) Wadhwan was originally known as Vardhmanpuri and was a centre of Jainism. Acharya Harishen wrote his 'Bharat Kathakosh' here in 933 A.D. It is a place of pilgrimage for the Jains because there are the foot -prints (paglas) of Mahavir Swami. (4) There is one large Swaminarayan temple of the Wadhwan Gadi at Wadhwan.
2	Wadhwan	II	Surendranagar	Surendranagar, the district headquarters, is on the river Bhogavo. It was established in the year 1864 and was previously known as Wadhwan camp. It was the headquarters of the British Political Agent. It was renamed Surendranagar in 1947 after the name of the ruler, Shri Surendrasinhji of the Wadhwan State. This town played an important part in the struggle for freedom and was an important centre of passive resistance during various political freedom movements. Surendranagar is considered as the "Gateway of Saurashtra".
3	Wadhwan	3	Khodu	There is a very old Sati monument at the village on which it is recorded that in Samvat 1141 (1085 A.D.) the Virgin daughter of a Kanodia Jani became a sati on the second day of the dark half of Shravan. Another inscription runs as follows, "In Samvat - 1544, Shravan Sud, 8th Thursday, Rana Shri Surdasdev, son of Rana Shri Vagh, the famous Lord of Jhalavad died. To commomerate his death on this spot, his mother purandi erected this temple. The mason who built it was Bhota by name".
4	Wadhwan	16	Dudhrej	The village is known for its temple called Vadwala's temple constructed about 450 years ago. It was an idol of Shri Ram consecrated by one Shastam Swami. A stone rosary of the Swami is still preserved here and is worshipped by devotees. It is believed that the rosary has miraculous powers to cure rabid dog bites to animals and human beings.

Sl. No. (1)	Name of taluka (2)	L.C. No. (3)	Name of town/village (4)	Details of places of religious, historical or archaeological importance and places of tourist interest etc. (5)
5	Wadhwan	20	Dedadara	There is a kund (reservoir) known as Gangvo kund 52 feet in length and 38 feet broad. The inside walls of the kund are architecturally decorated. On each corner of the Kund, there is a temple. Besides these, there are several other temples of Ganesh, Shiv, Ambaji and Surya near this Kund. The temples are of impressive architectural beauty and belong to the Chalukya period. Nearly, there are two rows of palias (memorial stones). The oldest of them is dated Samvat 1783 and the latest one is dated 1946. About half a km. from the Gangvo kund, there is a Shiv temple popularly known as Mania Mama's temple. This temple is now in a dilapidated condition.
6	Limbdi	III	Limbdi	Limbdi was previously the capital of the Limbdi State. It played an important role in the freedom movement. In the town, the Gandhi Smruti Mandir, the Tower Bunglow, the Jagdish Ashram and the Fulnath Mahadev temple are worth visiting. There is a Jain Bhandar which has preserved ancient manuscripts and books written by Jain monks.
7	Limbdi	6	Ranagadh	Ranagadh is inhabited predominantly by the Scheduled Tribe of Padhars. They are famous for their vigorous and rhythmic folk dances.
8	Limbdi	16	Shiyani	There is a Jain temple which has an inscription dated Samvat 1076 (1020 A.D.) showing that certain images of Shantinath and other Thirthanker were installed by Parekh Jutha Madhavji at Shiyani nagari in that year. The temple is, however, said to have been built by Sampriti Raja (grandson of Ashoka) as stated in the Jain Kalpasutra in the Shantrunjaya Uddhara and the Gautama parikrama.
9	Limbdi	71	Mojidad	Mojidad is famous as the birth place of Shriman Nathuram Sharma who was born here in the year 1914. His Ashram in the village is visited by a large number of his followers.
10	Limbdi	73	Bhrugupur	Bhrugupur has derived its name from sage Bhrugu whose ashram was at this village. The Gangvo kund near Gangeshwar Mahadev is considered to be holy, where people take bath and immerse the ashes of the dead. Gangvo fair on Bhadrapad vad 30 (September) and Jasma Odan fair on Shravan Sud 11 (August) are held here. There is an old temple of Bhrugunath Mahadev. According to a local legend, it was established by Bhrugu Rishi.
11	Limbdi	78	Chokdi	Chokdi is famous for the shrine of Charmalyo Nag. One of the few shrines dedicated to snake worship in the peninsula.
12	Limbdi	101	Rangpur	It is famous for the temple of Hinglaj Mata said to have been founded by the Padhars. The excavations at Rangpur made during 1953-56 have revealed the existence of the Harappan and the post Harappan culture in Saurashtra.
13	Sayla	IV	Sayla	This place is famous for the institution started by Lalji Maharaj or Lala Bhagat. It has a temple of shri Ramchandra where all persons irrespective of caste, creed or religion, are given free meals for the last over 150 years. Lala Bhagat was so popular that the village itself is popularly called Bhagat's village.

Sl. No. (1)	Name of taluka (2)	L.C. No. (3)	Name of town/village (4)	Details of places of religious, historical or archaeological importance and places of tourist interest etc. (5)
14	Sayla	31	Sejakpur	It is famous on account of the Navlakha Shiv temple of exquisite architectural beauty. During recent excavations, a Ganesh temple with a large size Ganesh idol has been discovered from here.
15	Sayla	54	Dhandhalpur	It is said that Minaldevi, the wife of Karandev Solanki of Anhilvad Patan, halted at Dhandhalpur to visit the 'Siddha' or the saint who resided there. There she delivered a son. In gratitude to the Siddhu, Minaldevi named her son, Siddharaj. When Siddharaj was the ruler of Gujarat, he built the fort of Dhandhalpur and constructed the tank at Adala (6 km. from Dhandhalpur) to commemorate his birth at that place.
16	Chotila	V	Chotila	Chotila is situated at the foot of the Chamunda hill which is surmounted by the temple of the Chamunda Mata at a height of 1,173 feet. There is also a temple of Lord Shiv known as Zaria Mahadev 8 km. north-west of Chotila, where water trickles from the hill and continuously flows over the Shivling all the years round. The Shivling is Swayambhoo (self emerged).
17	Chotila	VI	Thangadh	Thangadh is famous throughout India as a centre of ceramic industry. There is a temple of Trinetreshwar (three eyed God Shiv) which is a protected monument. There is a stepwell known as Satini Vav. The water of the stepwell is said to have miraculous powers, as it is believed to bring milk to the mother's breasts.
18	Chotila	3	Tarnetar	Tarnetar is known for the ancient Tarnetar or Trinetreshwar Mahadev temple. The temple is called Trinetreshwar Mahadev. There are only two such temples in India, the other one being at Badrikashram in the Himalaya. The existing temple is surrounded by three kunds (reservoirs) called Brahma, Vishnu and Shiv. Near the kunds the pilgrims take heated stamp of Trishul on their hands. In the kunds, the ashes of the dead are immersed. Its architecture belongs to the 14th century and it is a protected monument. A very big famous annual fair is held here on the Bhadrapad Sud 4,5 and 6. Tourism Corporation of the State has considered this place for eligible growth centre for tourist.
19	Chotila	81	Bhimora	The village was founded by a Kathi named Nana Khachar. Near the village, there is a cave known as Bhim Gufa. Inside the cave, there is a temple of Lord Shiv. It is believed that the pandvas had stayed here during their period of exile. Tourism Corporaton of the State has considered this place for eligible growth centre for tourist.
20	Chotila	99	Chobari	There is an old step-well known as Chomukhi Vav which is declared as a protected monument by the State Government. A little beyond the Chomukhi Vav, there are three temples sacred to Nag Devta (Snake God). These temples are of historical importance. Near the temple, there is an unidentified tree which bears no fruits but has medicinal value.
21	Chotila	103	Anandpur (Bhadla)	The temple of Ananteshwar Mahadev is believed to have been built by Siddharaj Jaysinh. But according to the bards, it was founded in 1068 A.D. by Chudasma Anand or Anant, who built a large Shiv temple and named it Ananteshwar, which subsequently came to be called Anteshwar. It is a monument of archaeological interest. The temple was

Sl. No. (1)	Name of taluka (2)	L.C. No. (3)	Name of town/village (4)	Details of places of religious, historical or archaeological importance and places of tourist interest etc. (5)
				destroyed by the Mahamud Ghazni and the idols on the outer walls of the temple were damaged.
22	Muli	25	Dudhai	Dudhai is famous for its temple called the Dudhai Vadwala temple established over 250 years ago by Shri Meghidasji Maharaj.
23	Muli	32	Muli	It was the capital of the former Muli State. The monument of Sati Jambai, Mandavrai temple (a sun temple built in memory of the Parmar Chiefs) and the Kamdhenu Mandir are places of religious interest. The main attraction of the village is the large Swaminarayan temple built by Shri Brahmanand Swami.
24	Muli	50	Umarda	There is the Bileshwar Mahadev temple on the confluence of three rivers. The temple of Bileshwar Mahadev is about 140 years old. There are two lings in the temple. Married couples desirous of progeny come here and pray for a child.
25	Halvad	VII	Halvad	Among places of interest in the town are the "Satina Paliyas" where the nuptial knots of the newly weds are united. These paliyas or memorial stones are built in memory of those women who died after their husbands and became sati. Besides, there are a number of old step wells, four of which are larger and consist of seven floors. It is believed that a bath in the step well cures one from the skin diseases. A beautiful palace called EK Dandiya Mahal built on the bank of a fine lake called Samatsar is well-known for its beautiful wood work. Because of its architectural value it has been notified as a protected national monument. At a short distance to the west of Halvad on the bank of the Samatsar tank there is a pilgrim place of the Dawoodi Vohras called Maula Kaji where an Urs is held every year. It is considered to be a very important pilgrim place of the Vohras in Saurashtra. Tourism Corporation of the State has considered this place for eligible growth centre for tourist.
26	Halvad	2	Tikar	The village was founded in 1328 A.D. by Raja Meghpalji. It has a fine Jain temple built in 1837 A.D. by Sanghvi Hima Surchand. The village is also famous for earthern vessels and chophals (cotton coverlets).
27	Halvad	64	Sundri	It has a temple of the Samudri Mata or Sundari Mata, the Kuldevi or family deity of Kandolia Brahmins. Sundari Bhawani Mata, is also the family deity of the koli sailors, because Sundari was once a port inhabited by sailors. According to a legend, the Pandavas stayed here. Because of this legend, the idols of the Pandavas have been installed at this place and have been preserved as a protected monument.
28	Dhrangadhra	VIII	Dhrangadhra	Dhrangadhra was the capital of the former Dhrangadhra State. It is known for its sandstones of variegated colours used as building material, copper and brass vessels, stone hand-mills, pottery and salt. It is an important centre for production of Khadi.
29	Dhrangadhra	10	Dhrumath	It is well known for an ancient tank known as Draupadi's Kund. On the bank of the tank, there are remains of several old temples.
30	Dhrangadhra	19	Kankavati	The village has an old Matri Vav (stepwell) constructed by Rana Bhimsinhji. The Matri Vav and the gates have been declared as protected monuments.

Sl. No. (1)	Name of taluka (2)	L.C. No. (3)	Name of town/village (4)	Details of places of religious, historical or archaeological importance and places of tourist interest etc. (5)
31	Dhrangadhra	33	Methan	It is known for the group of three ancient temples viz. Shiv, Vishnu and Sun temple. These temples were constructed in about 800 A.D.
32	Dhrangadhra	54	Khambhda	The village owes its fame to the shrine of the Khambhadio Nag which is just oustside the northern gate of the village. According to the tradition, killing or annoying of a snake is a taboo in the village.
33	Dasada	IX	Patdi	Patdi is an old town encircled by a fortwall. Among places of historical remains, there are two old todas, pillars, where the legendry Babra Bhut had put on the first festoon, a Toran Patdi was the original capital of the Jhalas.
34	Dasada	X	Kharaghoda	Kharaghoda is situated in the saltish area. Here are located the well-known salt works. The salt produced here is called Vadagara Salt because it is prepared in big (Vada) or pans (agar).
35	Dasada	19	Vanod	It is said to have been founded by the celebrated king Vanraj Chavada of Anhilpur Patan and named after him. The shrine of his Kuldevi Varnai Mata is situated near this village.
36	Dasada	27	Zinzuwada	It is said that Zinzuwada was founded by Jhunjho Rabari. This ancient village has an old fort and a well built tank called Sheshjal Talav. The four old gates of the ruined outer fortifications are very fine specimens of the ancient Hindu architecture. The fort is built with 20-30 feet stone slabs. The gates are carved with architectural designs. Many of the stones in the fortifications bear the inscriptions of Mahanshri Uddal popularly known as Udo Mantri who is said to be the minister of king Siddharaj Jaysinh of Anhilwad Patan. The stone walls are broad enough to allow two horsemen to pass at a time. The fort gates are preserved as national protected monuments.
37	Dasada	30	Dasada	Dasada was a Muslim Estate. It was the headquarters of the Thandar of the Dasada. Thana of the former Eastern Kathiawar Agency. There was a dense forest at the place where the Dasada village is established. Among the forest, there was a Nes of Veja Ayar. After the name of Veja Ayar, the village tank is called Vejasar tank and the temple Vaijnath Mahadev. The famous Vanraj Chavada, son of King Jayshikhari was born in the jungle somewhere between Dasada and Panchasar.
38	Lakhtar	XI	Lakhtar	It was the capital of the Lakhtar State. Abhesinghji, son Chandrasinghji of Halvad received Lakhtar in giras from the Dhrangadhra State and founded the house of Lakhtar in the beginning of the 16th century. Abhesinghji was succeeded by his son Vajerajji, who was a devoted worshipper of shri Ranchhodji. The images of shri Ranchhodji brought by Vajerajji from his maternal uncle at Dungarpur where kept in the Lakhtar Darbargadh. Lakhtar was, therefore, sometimes called Ranchhodpuri.
39	Lakhtar	39	Talsana	The village is known for the temple or shrine of Nagdev (Snake God).

(VIII) Brief analysis of the Primary Census Abstract, Village and Town Directory data based on inset tables

ANALYSIS OF PRIMARY CENSUS ABSTRACT DATA

The district and taluka/C.D. block Primary Census Abstract, Scheduled Castes/Scheduled Tribes Primary Census Abstract, Village/Townwise Primary Census Abstract, Urban blockwise population etc. are mainly incorporated in Part B of this handbook. On the basis of these data, number of tables have been prepared and a brief analysis relating to certain population characteristics is given below.

District Population

The total population of the district is 12,08,872 persons. These figures reveal that 2.93 per cent of the total population of the State reside in this district. It occupies 17th rank among the various districts of the State as far as population data are concerned.

Population and number of villages

Table No.1(A) indicates the sex wise population of rural areas at district and taluka/C.D. block levels alongwith the number of villages as per 1991 Census.

TABLE 1 (A)

Population and Number of Villages, 1991

Sl. No.	Name of Taluka/ C.D.block	Population of Villages			No. of Villages	
		P	M	F	Total	Inhabited
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1	Wadhwan	85,346	44,283	41,063	46	46
2	Limbdi	1,71,214	88,817	82,397	101	98
3	Sayla	63,642	33,333	30,309	75	75
4	Chotila	92,567	48,884	43,683	112	112
5	Muli	77,180	40,103	37,077	58	58
6	Halvad	93,280	48,385	44,895	67	67
7	Dhrangadhra	97,156	50,389	46,767	63	63
8	Dasada	1,19,138	61,888	57,250	87	87
9	Lakhtar	46,626	24,169	22,457	42	42
	District	**8,46,149**	**4,40,251**	**4,05,898**	**651**	**648**

The total rural population of the district stands at 8,46,149 persons as per 1991 Census. It forms 3.13 per-cent of the total rural population of the State. The district ranks 17th in rural population among 19 districts of the State. Out of total 9 talukas, Limbdi taluka has the largest rural population and Lakhtar taluka has the lowest. Out of total 651 villages in the district, 648 villages are inhabited and remaining 3 are uninhabited. Further, the Chotila taluka has the maximum number of villages (112) and the Lakhtar taluka has the minimum (42).

Population and number of towns

Table No.1 (B) gives sexwise population for each town of the district alongwith the civic administration status of the town.

TABLE 1(B)

Population and Number of Towns, 1991

Sl. No.	Name and Civic Administration Status of Town		Population		
			P	M	F
(1)	(2)		(3)	(4)	(5)
1	Chotila	(GP)	11,635	6,075	5,560
2	Dhrangadhra	(M)	57,961	30,880	27,081
3	Halvad	(NP)	19,576	9,964	9,612
4	Kharaghoda	(GP)	10,034	5,385	4,649
5	Lakhtar	(NP)	11,127	5,720	5,407
6	Limbdi	(M)	35,284	18,244	17,040
7	Patdi	(NP)	14,098	7,287	6,811
8	Sayla	(NP)	11,772	6,130	5,642
9	Surendranagar*	(M)	1,16,371	60,347	56,024
10	Thangadh	(NP)	24,770	12,945	11,825
11	Wadhwan *	(M)	50,095	25,941	24,154
	District		**3,62,723**	**1,88,918**	**1,73,805**

* Towns having outgrowths

There are 11 towns in the district. The total urban population of the district is 3,62,723 persons which is 2.55

per cent of the total urban population of the State. The district ranks 12th in urban population among the districts of the State. Surendranagar city has the maximum urban population, followed by Dhrangadhra and Wadhwan among the towns of the district. Kharaghoda town has the minimum urban population of 10,034.

New Towns, towns declassified, merged in 1991 Census

Below given Table No.2 furnishes the information about newly formed towns, declassified and merged towns alongwith the population.

TABLE 2

New Towns, Towns declassified, merged in 1991 Census

Name of Town (1)	Population (2)
(a) Added	1991 Census
(i) Nil	..
(b) Declassified	1981 Census
(i) Nil	..
(c) Merged	1981 Census
(i) Nil	..

The new town has not been added in any of the taluka of the district during 1991 Census. No town of preceding 1981 Census has been declassified or merged during 1991 Census.

Decadal changes in distribution of population

Table No.3 gives the taluka/C.D.blockwise details pertaining to the decadal changes in the population during the last decade of 1981-91 alongwith the percentage of urban population for last two censuses.

TABLE 3

Decadal Changes in Distribution of Population

	District	**10,34,185**	**7,37,198**	**2,96,987**	**12,08,872**	**8,46,149**	**3,62,723**	**+16.89**	**+14.78**	**+22.13**	**28.72**	**30.01**

During the last decade, the growth rate of population in the district is 16.89. Among the talukas, Chotila taluka has recorded the highest growth rate of 30.90 whereas Lakhtar taluka has the lowest growth rate of 2.52. The decadal growth rate of Wadhwan, Chotila, Sayla and Halvad talukas is greater than the district's growth rate. For the remaining talukas, the growth rate is less than the district's growth rate. The growth rate of urban areas is more than that of rural areas during the decade 1981-91. This indicates that there are immigrants in the urban areas from other places. Four talukas viz; Wadhwan, Dhrangadhra, Chotila and Limbdi contributed about 82 per cent urban population to the total urban population of the district during 1991 Census.

Percentage distribution of villages by population ranges

The following table No.4 shows the taluka/ C.D.blockwise percentage distribution of villages according to the size of population.

TABLE 4
Percentage Distribution of Villages by Population Ranges, 1991

Sl. No.	Taluka/ C.D.block	No. and percentage of inhabited villages	No. and percentage of villages in each range (Figures in parenthesis indicate percentage of villages in each range)					
			Less than 200	200 - 499	500 - 1,999	2,000 - 4,999	5,000 - 9,999	10,000 and above

		(100.00)	**(2.48)**	**(15.12)**	**(67.13)**	**(13.58)**	**(1.54)**	**(0.15)**

* Exclusive of 3 Uninhabited villages

As many as 435 or 67.13 per cent inhabited villages are found in the population range of 500-1,999 and 88 or 13.58 per cent in 2,000 - 4,999 range. This indicates that 80.71 per cent inhabited villages in the district are medium size. Further 114 or 17.60 per cent inhabited villages fall in the small size of the population ranges of less than 200 and 200-499, 11 or 1.69 per cent inhabited villages fall in the big size of ranges of 5,000 - 9,999 and 10,000 and above. Chuda village of Limbdi taluka has more than 10,000 population.

Distribution of villages by density

Table No.5 presents the distribution of villages by density of the population.

TABLE 5
Distribution of Villages by Density

Sl. No.	Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
(1)	(2)	(3)	(4)
1	0 - 10	3	0.46
2	11 - 20	1	0.15
3	21 - 50	96	14.81
4	51 - 100	330	50.93
5	101- 200	189	29.17
6	201- 300	23	3.55
7	301- 500	4	0.62
8	501+	2	0.31
	Total	**648 ***	**100.00**

* Exclusive of 3 uninhabited village

Out of the total 648 inhabited villages, maximum number of villages i.e. 330 or 50.93 per cent are within the density range of 51 - 100 persons per sq.km. Next in order are 189 or 29.17 per cent falling within the range of 101-200 persons per sq.km. 96 or 14.81 per cent within the range of 21 -50 persons per sq.km. 23 or 3.55 per cent within the range of 201 - 300 persons per sq.km. 4 villages recorded a low density upto 20 persons per sq.km. whereas only 6 villages had a high density of more than 301 persons per sq.km.

Sex ratio

The Sex-ratio (No. of females per 1,000 males) for rural and urban areas of the district is 921, which is less than the sex-ratio of 934 for the State.

Sex ratio for rural population of talukas/C.D. blocks

Table No. 6(A) shows the sex-ratio for rural population of each taluka/C.D. block as well as the district.

TABLE 6 (A)
Sex Ratio for Rural Population of Talukas/ C.D.blocks, 1991

Sl. No.	Name of Taluka/ C.D.block	No.of Females per 1,000 Males
(1)	(2)	(3)
1	Wadhwan	927
2	Limbdi	928

Sl. No. (1)	Name of Taluka/ C.D.block (2)	No.of Females per 1,000 Males (3)
3	Sayla	909
4	Chotila	894

10	Thangadh	(NP)	913
11	Wadhwan*	(M)	931
	District		**920**

* Towns having outgrowths

The sex-ratio of urban population of the district is 920. Out of total 11 towns, Halvad town has the highest sex-ratio of 965. Next in order are Lakhtar, Patdi and Limbdi towns with 945, 935 and 934 respectively. Kharaghoda town has the lowest sex-ratio of 863. The sex-ratio of the district is higher in rural areas than in the urban areas.

Proportion of Scheduled Castes population to total population in the villages

Table No.7 gives the proportion of scheduled castes population to total population in the villages.

TABLE 7

Proportion of Scheduled Castes Population to total Population in the villages

Sl. No. (1)	Percentage range of Scheduled Castes Population to total Population (2)	No. of villages in each range (3)	Percentage of villages in each range (4)
1	Nil	106	16.36
2	1 - 5**	142	21.91
3	6 - 10	126	19.45
4	11 - 15	109	16.82
5	16 - 20	77	11.88
6	21 - 30	58	8.95
7	31 and above	30	4.63
	Total	***648**	**100.00**

* Exclusive of 3 Uninhabited villages

** Excludes the villages having no S. C. population.

Scheduled caste population of Surendranagar district constitutes 4.46 per cent of the total scheduled castes population of the State. The proportion of scheduled castes population to total population of the district is 11.29 per cent. This is higher than 7.41 per cent scheduled castes population of the State as a whole. Of the total rural and urban population of the district, the quantum of scheduled castes population living in the rural and urban areas of the district are 11.64 and 10.49 per cent respectively.

Except 106 villages, all the villages in the district have scheduled castes population. Maximum number of villages i.e. 142 or 21.91 per cent have scheduled castes population upto 5 per cent to the total population of the respective villages. The next largest number of villages i.e. 126 or 19.45 per cent have scheduled castes population between 6 to 10 per cent. 109 or 16.82 per cent have scheduled castes population between 11 to 15 per cent. The minimum number of villages i.e. 30 or 4.63 per cent have more than 31 per cent scheduled castes population to the total population of the respective villages.

Proportion of Scheduled Tribes population to total population in the villages

Table No. 8 furnishes the proportion of scheduled tribes population to total population in the villages.

TABLE 8

Proportion of Scheduled Tribes Population to total Population in the villages

Sl. No.	Percentage range of Scheduled Tribes Population to total Population	No. of villages in each range	Percentage of villages in each range
(1)	(2)	(3)	(4)
1	Nil	527	81.34
2	1 - 5 **	112	17.28
3	6 - 15	5	0.77
4	16 - 25	1	0.15
5	26 - 35	1	0.15
6	36 - 50	0	0.00
7	51 and above	2	0.31
	Total	***648**	**100.00**

* Exclusive of 3 Uninhabited villages

** Excludes the villages having no S. T. population

The total scheduled tribes population of the district is 9,481 which is only 0.15 per cent of the total scheduled tribes population of the State. The proportionaof scheduled tribes population is only 0.78 per cent of the total population of the district. Compared to the State's percentage of 14.92, the percentage for the district is extremely meagre. Thus, the scheduled tribes population is negligible and hence, the district can be considered as a non tribal district.

Out of total 648 villages, 527 villages or 81.34 per cent has no scheduled tribes population. Scheduled tribes population live only in 121 villages of the district. Of which, 112 villages have less than 5 per cent scheduled tribes population. 5 villages or 0.77 per cent have scheduled tribes population between 6 to 15 per cent to the total population of the respective villages. The rest of 4 villages or 0.61 per cent have more than 16 per cent scheduled tribes population to the total population of respective villages.

Percentage of Scheduled Castes/Scheduled Tribes population in towns

Table no.9 gives scheduled castes/scheduled tribes population alongwith their proportion to the total population in each town of the district.

TABLE 9

Percentage of Scheduled Castes/ Scheduled Tribes Population in Towns,1991

Sl. No.	Town		Total population	Total SC population	Total ST population	Percentage of SC population to total population	Percentage of ST population to total population
(1)	(2)		(3)	(4)	(5)	(6)	(7)
1	Chotila	(GP)	11,635	1,251	18	10.75	0.15
2	Dhrangadhra	(M)	57,961	5,515	63	9.52	0.11
3	Halvad	(NP)	19,576	1,578	17	8.06	0.09
4	Kharaghoda	(GP)	10,034	558	41	5.56	0.41
5	Lakhtar	(NP)	11,127	1,217	25	10.94	0.22

10	Thangadh	(NP)	24,770	5,008	5	20.22	0.02
11	Wadhwan*	(M)	50,095	5,180	165	10.34	0.33
	District		**3,62,723**	**38,062**	**921**	**10.49**	**0.25**

* Towns having outgrowths

Scheduled castes and scheduled tribes population in the urban areas of the district are 38,062 and 921 respectively. Thus, as compared to the total urban population of the State, 3.28 per cent of the total scheduled castes population and 0.18 per cent of the total scheduled tribes population live in the towns of the district. Only 10.49 per cent belongs to the scheduled castes population whereas 0.25 per cent belongs to the scheduled tribes population to the total urban population of the district. All the towns in this district have scheduled castes population, the highest being 20.22 per cent in Thangadh town and the

lowest 5.56 per cent in Kharaghoda town. All the towns of the district have scheduled tribes population. Patdi town leads other towns of the district in the proportion of scheduled tribes population.

Literacy rates for district

The literacy rate for the whole district is 54.77 during 1991 Census. The literacy rate for the total population of the district as per 1991 Census is lower than the State literacy rate of 61.29. The male and female literacy rates are 67.83 and 40.65 respectively in the district which are both lower than the State literacy rate of 73.13 and 48.64 respectively. The male literacy rates are much higher than the female literacy rates for both rural and urban areas as well as for the State as a whole.

Literacy rates for rural areas

Table No. 10 (a) reflects literacy rates for rural population of every taluka/C.D. block of the district.

TABLE 10 (A)
Literacy Rates for Rural Population of Talukas/C.D.blocks by Sex, 1991
(Excluding children in the age-group 0-6)

Sl. No.	Name of Taluka/ C.D.block	Percentage of Literates		
		P	M	F
(1)	(2)	(3)	(4)	(5)
1	Wadhwan	54.69	69.82	38.48
2	Limbdi	50.73	66.17	34.19
3	Sayla	32.09	44.85	18.05
4	Chotila	31.34	45.64	15.10
5	Muli	45.73	57.92	32.64
6	Halvad	48.00	61.53	33.44
7	Dhrangadhra	51.42	65.02	36.67
8	Dasada	51.60	67.62	34.46
9	Lakhtar	50.88	64.63	36.18
	District	**47.21**	**61.52**	**31.73**

The literacy rate for rural areas of the district is 47.21. The literacy rates for males and females are 61.52 and 31.73 respectively for all the villages of the district. Among talukas of the district, Wadhwan taluka has the maximum literacy rate of 54.69 whereas Chotila taluka has the minimum of 31.34. Out of total 9 talukas, 6 talukas have the higher literacy rates while 3 talukas have lower literacy rates than the district's literacy rate of rural area.

Literacy rates for towns

Table No.10 (B) shows literacy rates for each town of the district.

TABLE 10(B)
Literacy Rates for Towns, 1991
(Excluding children in the age-group 0-6)

Sl. No.	Name and Civic Administration Status of Town		Percentage of Literates		
			P	M	F
(1)	(2)		(3)	(4)	(5)
1	Chotila	(GP)	69.76	79.32	59.28
2	Dhrangadhra	(M)	71.68	81.94	59.91
3	Halvad	(NP)	64.93	75.39	54.10
4	Kharaghoda	(GP)	48.75	62.84	32.57
5	Lakhtar	(NP)	68.75	81.15	55.66
6	Limbdi	(M)	74.85	86.44	62.52
7	Patdi	(NP)	66.49	78.15	53.96
8	Sayla	(NP)	61.79	73.18	49.51
9	Surendranagar*	(M)	76.27	84.94	66.99
10	Thangadh	(NP)	66.05	78.73	52.32
11	Wadhwan *	(M)	74.88	84.85	64.42
	District		**71.91**	**82.14**	**60.86**

* Towns having outgrowths

The literacy rate for the urban areas of the district is 71.91. The urban literacy rate for males is 82.14 whereas that for females is 60.86 in the district as a whole. Among the different towns, Surendranagar town enjoys a unique position with the highest literacy rate of 76.27 while the Kharaghoda town has the lowest literacy rate of 48.75. Except one town, in all other towns, the literacy rate is above 60. Higher literacy rate was noticed in 3 towns while it was lower in 8 towns in comparision with the district urban literacy rate of 71.91.

Workers and non-workers at the district level

As per 1991 Census, main workers inclusive of the marginal workers form 40.49 per cent of the total population of the district, against 40.23 per cent in the State. Thus, the quantum of these workers is slight more in the district than the State. The work participation rates for males and females at the district level are respectively 52.96 and 26.96 per cent. Thus, female working participation rate is very low than the male working participation rate. In the rural areas, the work participation rate is higher than that in the urban areas. A similar trend is noticed for male and female workers also. The percentage of non-workers to total population of the district is 59.51 against 59.77 for the Gujarat State. The proportion of non-workers to total population is higher in urban areas than in the rural areas of the district.

Percentage of main workers, marginal workers and non-workers for rural population of talukas/ C.D.blocks

Table No.11 gives taluka/C.D.blockwise percentage of main workers, marginal workers, total workers and non-workers for rural areas of the district as per 1991 Census.

TABLE 11

Percentage of Main Workers, Marginal Workers and Non-workers for Rural population of Talukas/ C.D.blocks, 1991

Sl. No.	Name of Taluka/ C.D.block	PERCENTAGE OF											
		Main Workers to total Population			Marginal Workers to Total Population			Total Workers to Total Population			Non-workers to Total Population		
		P	M	F	P	M	F	P	M	F	P	M	F

9	Lakhtar	34.98	53.44	15.11	9.01	0.60	18.06	43.99	54.04	33.17	56.01	45.96	66.83
	District	**37.37**	**53.80**	**19.56**	**7.53**	**0.61**	**15.02**	**44.90**	**54.41**	**34.58**	**55.10**	**45.59**	**65.42**

In respect of rural areas of the district, the percentages of main workers and marginal workers to the total rural population are 37.37 and 7.53 respectively whereas the remaining 55.10 per cent are non-workers. The proportion of main workers in respect of male and female workers to the total male and female population for the rural areas of the district are 53.80 and 19.56 respectively. Quite a reverse trend is noticed in respect of marginal workers where percentages of male and female workers are 0.61 and 15.02 respectively. Among the various talukas, the percentage of the total workers to the total population vary from 42.79 per cent in Dhrangadhra taluka to 48.19 per cent in Sayla taluka. Similarly, the proportion of non-workers vary from 51.81 in Sayla taluka to 57.21 per cent in Dhrangadhra taluka.

Percentage of main workers, marginal workers and non-workers for towns

Table No.12 gives the percentages of main workers, marginal workers and non-workers for each town of the district.

TABLE 12

* Towns having outgrowths

In respect of urban areas, the percentages of main workers and marginal workers to the total urban population are 28.80 and 1.41 respectively. Similar percentages for males are 49.11 and 0.48 respectively whereas for the females percentages are 6.72 and 2.44 respectively. The percentages of total workers and non-workers to the total urban population are 30.21 and 69.79 respectively. For males and females, the respective percentages are 49.59 and 50.41 and 9.16 and 90.84 respectively. Among the various towns of the district, the proportion of total workers to the total population is the highest (38.27) in Patdi town and lowest (27.98) in Limbdi town.

ANALYSIS OF VILLAGE DIRECTORY

The village directory data supplied by the village officials are presented in part A of this handbook. It shows various types of amenities and land use data in each village of the district. These data have been tabulated for each taluka/C.D.block of the district in the form of village directory. On the basis of these data, certain tables have been designed and a brief analytical note thereon is given below.

Distribution of villages according to the availability of different amenities

The table No.13 given below shows the taluka-wise/C.D.blockwise distribution according to the availability of different amenities such as educational, medical, drinking water, post and telegraph, market/hat, communication, approach to village by pucca road and power supply.

TABLE 13

Distribution of villages according to the availability of different amenities

Sl. No.	Taluka/ C.D.block	No.of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply

9	Lakhtar	42	42 (100.00)	34 (80.95)	42 (100.00)	29 (69.05)	0 (0.00)	42 (100.00)	20 (47.62)	42 (100.00)
	District	**648**	**641 (98.92)**	**490 (75.62)**	**648 (100.00)**	**343 (52.93)**	**0 (0.00)**	**595 (91.82)**	**303 (46.76)**	**645 (99.54)**

Of the toial 648 inhabited villages in the district, all villages have atleast one primary school, except 7 villages of the district. Wadhwan, Limbdi, Muli, Halvad, Dhrangadhra and Lakhtar talukas have primary education facility in all the inhabited villages.

Medical facilities in one kind or the other are available in 490 (75.62 per cent) villages of the total inhabited villages of the district. The remaining 158 or 24.38 per cent villages are devoid of any medical facility within the village. Among the talukas of the district, the proportion of villages enjoying one or more medical facilities is the highest in Muli taluka and lowest in Limbdi taluka.

All the inhabited villages of the district enjoy the drinking water facility either of a well, a tap, a tank, a tubewell, a river or a canal etc. The main sources of drinking water are wells and tanks in the most of the villages of the district. Out of total 648 inhabited villages, 343 villages are equipped with one or more facilities of post and telegraph. Among the various talukas of the district, the maximum coverage of about 78 per cent villages is found in Wadhwan taluka and the minimum about 27 per cent is in Chotila taluka. There is no facility of periodical market/hat in any of the inhabited villages of the district. Generally, persons avail of the facility of small retail shop in the villages. The public transport facilities are available in 91.82 per cent of the inhabited villages of the district. It is noted that all the inhabited villages of Wadhwan, Halvad and Lakhtar talukas have public transport facilities. The lowest coverage in 69.64 per cent villages is observed in the Chotila taluka.

Of the total inhabited villages, 46.76 per cent are linked by approach pucca roads. Again among the different talukas of the district, Wadhwan taluka alone has pucca approach roads facility of 73.91 per cent which is the highest whereas in Chotila taluka with 28.57 per cent villages having the pucca road facility which is the lowest in the district.

In respect of electric power supply, 645 or 99.54 per cent inhabited villages in the district have been electrified. Only 3 villages, one each in Sayla, Chotila and Muli taluka do not enjoy this facility.

Proportion of rural population served by different amenities

Table No. 14 furnishes taluka wise/C.D. blockwise proportion of rural population served by different types of amenities.

TABLE 14

Proportion of Rural Population served by different amenities

Sl. No.	Taluka/ C.D.block	Total population of inhabited villages in the taluka/ C.D.block	Proportion of Rural Population served by the amenity of							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communication	Approach by Pucca Road	Power Supply

8	Dasada	1,19,138	99.00	85.78	100.00	77.06	0.00	99.85	64.28	100.00
9	Lakhtar	46,626	100.00	84.82	100.00	80.86	0.00	100.00	52.87	100.00
	District	**8,46,149**	**99.83**	**86.71**	**100.00**	**75.72**	**0.00**	**97.00**	**61.00**	**99.92**

Nearly the whole of rural population of the district is served by primary education facility. In respect of medical facilities, the coverage of rural population is 86.71 per cent. Among the various talukas of the district, the proportion of rural population enjoying medical facilities is the highest in Muli taluka and the lowest in Limbdi taluka. Drinking water facility is available to the entire 100 per cent rural population of the district. Further 75.72 per cent of the district rural population get the benefit of post and telegraph facilty. Among the talukas of the district, the maximum 92.96 per cent of the total rural population in Wadhwan taluka is served by post and telegraph facility whereas in Chotila taluka, it is the minimum at 48.75 per cent. 97 per cent of district rural population is served by communications facilities. 61 per cent of rural population enjoy approach pucca roads facilities. Further, among the talukas of the district, the maximum coverage of 82.91 per cent of rural population is found in Wadhwan taluka in respect of pucca roads whereas the minimum coverage of 38.88 per cent population is noticed in Chotila Taluka. Power supply facility is available to almost all the rural population of the district.

Distribution of villages not having certain amenities arranged by distance ranges from the places where these are available

Table No.15 gives the distribution of villages not having certain amenities arranged by distance ranges from the places where these are available.

TABLE 15

Distribution of villages not having certain amenities arranged by distance ranges from the places where these are available

Sl. No.	Village not having the Amenity of	Number of villages where the amenity is not available and available at distance of			
		-5 Kms.	5-10 Kms.	10 + Kms.	Total (Cols. (3-5)
(1)	(2)	(3)	(4)	(5)	(6)
1	Educational	7	0	0	7
2	Medical	79	51	28	158
3	Drinking Water	0	0	0	0
4	Post & Telegraph	211	77	17	305
5	Market / Hat.	0	0	0	0
6	Communication	43	9	1	53

Only 7 villages of the district are devoid on the basic primary education facility. Of these villages, this facility is available at a distance of less than 5 kms. Further 158 villages do not have any medical facilities within their respective jurisdictions. Out of which, 79 villages could avail of it at a distance of less than 5 kms., 51 villages within the range of 5 to 10 kms. and for the remaining 28 villages, the distance exceeded 10 or more kms.

The post and telegraph facility is not available in 305 villages of the district. These villages have to depend on other places for getting this facility. Out of 305 villages, 211 villages have to depend on other places located upto

a distance of 5 kms. from the village, 77 villages have it within a range of 5 to 10 kms. and the remaining 17 villages have to depend on places situating beyond a radius of 10 kms. Further, 53 villages of the district have no communication facilities. Of these, for 43 villages, this facility is available at a distance of less than 5 kms., for 9 villages within a radius of 5 to 10 kms. and for remaining 1 village at a distance of 10 or more kms. away from the village.

Distribution of villages according to the distance from the nearest town and availability of different amenities

Table No.16 shows the distribution of villages according to the distance from the nearest town (Statutory or Census town) and availability of different amenities.

TABLE 16

			(98.92)	**(75.62)**	**(100.00)**	**(52.93)**	**(0.00)**	**(91.82)**	**(46.76)**	**(99.54)**

In the above table, villages are distributed according to four ranges of the distance from the nearest town alongwith the number of villages with their percentages served by each such amenity. Out of 648 inhabited villages, 49 lie at a distance of upto 5 kms. from the nearest town. The facilities of primary education, drinking water and power supply appear to be quite satisfactory in the villages of this group. Out of 49 villages, 37 have the facility of communication, 28 have the facility of medical, 24 have the facility of approach by pucca roads and 22 have the facility of post and telegraph. Out of total 648 inhabited villages, 297 are situated at a distance ranging between 6 -15 kms. from the nearest town. Of these, 227 villages have medical facility, 168 villages have post and telegraph facility and 149 villages have approach by pucca roads facility. The remaining facilities are available satisfactory in the villages of this group. Again of total 648 inhabited villages, 300 are located at a distance ranging between 16 - 50 kms. from the nearest town. Out of these, 234 villages have medical facility, 151 villages have post and telegraph facility, 129 villages have approach by pucca road facility. Rest of the facilities are observed to be satisfactory in the villages of this range. Only 2 villages lie in a remote place at a distance from the nearest town exceeds 51 kms. or more. Education, drinking water, post and telegraph, communications and power supply facilities are available in these villages. Out of 2, one village has facility of medical and approach by pucca road.

Distribution of villages according to population range and amenities available

Table No. 17 gives the distribution of villages according to population range and amenities available.

TABLE 17

Distribution of villages according to population range and amenities available

Sl. No.	Population range	No.of inhabited villages in each range	Number (with percentage) of villages having the amenity of

			(100.00)	(100.00)	(100.00)	(100.00)	(0.00)	(100.00)	(90.91)	(100.00)
	Total	**648**	**641**	**490**	**648**	**343**	**0**	**595**	**303**	**645**
			(98.92)	**(75.62)**	**(100.00)**	**(52.93)**	**(0.00)**	**(91.82)**	**(46.76)**	**(99.54)**

Out of total 648 inhabited villages of the district, 114 are small in size i.e. having a population below 500 persons. All the villages of this group possess the drinking water amenities. The facility of electricity is available in 111 villages. Next in order, primary education is available in 109 villages, communication in 86 villages, medical in 54 villages, approach by pucca road in 27 villages and post and telegraph in 7 villages. 435 villages of the district fall in the size group of 500-1,999 population. Except Post and telegraph and approach pucca road facilities, all other facilities are available satisfactory in the almost villages of this group. Post and telegraph facility is available in about 55 per cent villages whereas approach by pucca road facility is available in about 46 per cent villages of this group. Out of total 648 villages, 88 villages are in the population range of 2,000 - 4,999. All these villages are equipped with the amenities like education, drinking water, communication and power supply. 11 villages are in the large size group i.e. population range of 5,000 and over. Except approach by pucca roads, all the amenities are available in all the villages of this group. Only 1 village has no facility of approach pucca road in this group.

Distribution of villages according to land use

Table No.18 shows the talukawise/C.D. blockwise distribution of cultivable area and the percentages of irrigated area to total cultivable area.

TABLE 18

Distribution of villages According to Land Use

Sl. No.	Taluka/ C.D.block	No.of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
(1)	(2)	(3)	(4)	(5)	(6)
1	Wadhwan	46	69,829.87	83.13	6.94
2	Limbdi	98	1,64,087.22	75.47	4.62
3	Sayla	75	90,768.84	51.33	11.56
4	Chotila	112	97,968.56	57.85	9.14
5	Muli	58	93,575.62	63.24	14.19
6	Halvad	67	1,14,404.03	58.08	26.97
7	Dhrangadhra	63	1,30,306.01	60.47	14.64
8	Dasada	87	1,56,723.32	74.11	2.99
9	Lakhtar	42	68,435.76	84.08	0.38
	District	**648**	**9,86,099.23**	**67.39**	**9.31**

As much as 67.39 per cent of the total rural area of the district fall under cultivable land. Of these, 9.31 per cent of land is irrigated. Among the talukas of the district, the largest cultivable area is found in Lakhtar taluka and the lowest in the Sayla taluka. The maximum benefit of irrigation facility is availed of by Halvad taluka, with 26.97 per cent of the total cultivable area, followed by Dhrangadhra taluka with 14.64 per cent. Lakhtar taluka has the lowest irrigated area (0.38 per cent).

ANALYSIS ON TOWN DIRECTORY

The Town Directory data, which have been presented in 7 statements and 5 input tables are considered for the purpose of analysis. These 7 statements are given in section II of part A under the heading of Town Directory for all the towns/cities of the district. On the basis of Town Directory statements, some inset tables have been prepared. For presentation of the data, the towns of the district have been arranged in alphabetical order within the district. The details of the data covered in these statements/tables are described below.

Sl. No.	Class
(1)	(2)
1	1,00,000 and above
2	50,000 - 99,999
3	20,000 - 49,999
4	10,000 - 19,999
5	5,000 - 9,999
6	Below 5,000

The population growth rates for each town from 1901 to 1991 have been indicated in this statement. Halvad had the maximum growth rate of 48.38 whereas Lakhtar had minimum growth rate of 2.08 during the last decade. Density of population was the highest in Limbdi town whereas it was lowest in Sayla town during 1991 Census. The maximum sex-ratio (Number of females per 1,000 males) was 965 in Halvad town and the minimum 863 in Kharaghoda town during 1991 Census.

Statement II

This statement depicts the physical aspects and the location particulars of each town, such as average rainfall and temperatures which have been obtained either from the Director, Meteorological Centre, Government of India or from the concerned local offices. The distance between Gandhinagar, the State headquarters and the towns of this district vary from a minimum of 110 kms. for Patdi to a maximum of 221 kms. in case of Halvad. Surendranagar, the district headquarters, is 144 kms. away from Gandhinagar. All the towns except Chotila and Sayla are connected by railways and all the towns have S.T. bus facilities.

Statement I

Townwise status and some basic demographic data are presented in this statement. It specifically covers civic administrative status, area in sq.kms. number of households including houseless households, decadal growth rate beginning from 1901, density and sex ratio for the last three censuses. There are 11 towns in the district. Of these, 4 towns have Municipalities, 5 have Nagar panchayats and the remaining 2 have Gram panchayats. The population norms for deciding the size class town and the classwise number of towns alongwith their names as per last census are given below.

Number of towns	Name of towns covered in the respective class
(3)	(4)
1	Surendranagar
2	Dhrangadhra, Wadhwan
2	Limbdi, Thangadh
6	Chotila, Halvad, Lakhtar, Kharaghoda, Patdi, Sayla
...	...
...	...

Statement III

Statement III shows the municipal finance i.e. receipts and expenditure data under different heads for all the 11 towns of the district. The receipts are classified in the following heads viz; (1) Receipts through taxes (2) Revenue derived from municipal properties and power apart from taxation (3) Receipts through Government grants (4) Receipts through loans (5) Receipts through advances and (6) Receipts through other sources. The expenditure is also classified under the following heads viz; (1) General Administration (2) Public Safety (3) Public Health (4) Public Works (5) Public Institutions and (6) Others.

Table No.19 has been prepared on the basis of Statement III which shows the per capita receipt and expenditure of each town of the district.

TABLE 19

Per capita receipt and expenditure in towns

Sl. No.	Class, Name and Civic Status of the town			Per Capita In Rs.

@ Please See Appendix for Non-town Components of Urban Agglomeration.

In case of all towns, the per capita receipts are Rs. 222.29 whereas the per capita expenditure is Rs. 209.70. The per capita receipt of Rs. 415.73 is the maximum for Surendranagar town and minimum Rs. 56.86 in Kharaghoda town. Similarly, the per capita expenditure at Rs. 405.70 for Surendranagar town is the highest and Rs. 34.73 for Chotila town the lowest. The per capita receipt for Lakhtar and Wadhwan towns is lower than the per capita expenditure. The higher per capita receipt over the per capita expenditure is found in Chotila, Dhrangadhra, Halvad, Kharaghoda, Surendranagar, Limbdi, Patdi and Thangadh. Sayla has equal per capita receipt and per capita expenditure.

Statement IV

Statement IV shows the civic and other amenities viz; road, drainage, latrines, water supply, fire fighting services and electrification available in each town of the district. Chotila, Dhrangadhra, Halvad, Lakhtar, Limbdi, Sayla, Thangadh, Surendranagar and Wadhwan towns have open surface drainage Wadhwan town has also sewerage system. The cesspool method is prevalent in Kharaghoda and Patdi towns. As regards latrines, there are still service latrines in 4 towns of the district. As regards the method of the night soil disposal, septic tank system is prevalent in all the towns of the district. Wheel barrows system is prevalent in the Halvad, Kharaghoda and Surendranagar towns. There are no head load and baskets system in any of the towns of the district. Except Halvad, all the towns have facilities of water supply through the taps. Halvad town has facility of water supply through tubewells and wells.

Fire fighting services are available in Dhrangadhra, Limbdi, Surendranagar and Wadhwan towns whereas the remaining towns do not have their own fire fighting services. All the towns of the district are electrified.

Statement IV-A

Statement IV-A gives the civic and other amenities in notified or recognised slums of class I and II towns of the district. These comprise slum area, population, length of the paved roads, system of sewerage, number of different types of latrines and method of disposal of night soil, water supply and electrification details. Two towns

of the district viz; Wadhwan and Surendranagar towns have reported the notified slum areas. Approximate number of persons residing in these areas is 34,799. Except pucca roads, all basic amenities are available in the slums.

Table 20 is prepared on the basis of Statement IV-A. It shows the data about the share of slums in the respective city's population.

TABLE 20

Proportion of Slums population in towns

Sl. No.	Class, name and civic status of town	Proportion of the slum population to total population of the town	Density in slums (per sq. Km.)
(1)	(2)	(3)	(4)
1	II Dhrangadhra (M)	Not reported by Municipal Authority	
2	I Surendranagar (M)	28.23	2,316
3.	II Wadhwan (M)	3.87	NA

NA = Not available

The details about slums have not reported for Dhrangadhra town by respective Municipal authority. The proportions of slum population to total population are 28.23 and 3.87 for Surendranagar and Wadhwan towns respectively. The density of population in slum area of Surendranagar city is 2,316 per Sq. Km.

Statement V

Statement V deals with the details pertaining to educational, medical, recreational and other cultural facilities in each town of district. The statement reveals that only 4 towns viz; Dhrangadhra, Limbdi, Halvad and Surendranagar towns have college education facilities. Surendranagar town possesses the teaching facility of science, polytechnic, arts, commerce and law courses. There are no medical and engineering colleges in the district. Only 6 towns have recognised typing training institutions. All the towns have higher secondary, secondary and primary schools facilities. Eight towns have adult literacy centres (Classes). Only Wadhwan town has a facility of hostel for working women. There is 1 stadia at Halvad. 8 towns have cinema facilities whereas remaining 3 towns have no cinema facilities in the district. The number of cinema houses in Surendranagar city are 5 which is the highest in any single town of the district. Six towns of the district are equipped with facilities of auditoria/drama/community halls. All towns are provided with public libraries facility.

Table No. 21 is compiled on the basis of statement No. V. It shows the number of schools in each category, such as higher secondary, secondary and primary per 10,000 population for all the towns of the district.

TABLE 21

Schools per ten thousand population in towns

Sl. No.	Class, Name and Civic status of town			No. per 10,000 population: Higher Secondary/ Inter/PUC/ Junior College	Secondary/ Matriculation	Junior Secondary/ Middle	Primary
(1)		(2)		(3)	(4)	(5)	(6)
1	IV	Chotila	(GP)	0.859	0.859	...	4.297
2	II	Dhrangadhra	(M)	0.863	0.518	...	2.588
3	IV	Halvad	(NP)	1.532	2.043	...	4.597

(1)		(2)		(3)	(4)	(5)	(6)
10	III	Thangadh	(NP)	0.404	0.807	...	2.8
11	I	Wadhwan		(See Wadhwan Urban Agglomeration)			
(a)	I	Surendranagar@	(M)	0.602	0.687	...	2.406
(b)	II	Wadhwan @	(M)	0.998	0.998	...	3.194
		Total		**0.910**	**1.103**	**...**	**3.060**

Note : In Gujarat State, the levels of Educaton are classified as under

(i) Primary (from Std I to VII Passed)

(ii) Secondary/Matriculation (from Std VIII to X Passed)

(iii) Higher Secondary (from Std XI to XII Passed)

Hence, the details under col-5 are not shown.

@ Please See Appendix for Non-town components of Urban Agglomeration.

It is seen from the above table that the average number of higher secondary schools per 10,000 population for all towns is 0.910, average number of secondary/matriculation 1.103 and average number of primary schools 3.060 As regards primary eduction, the maximum number of primary schools per 10,000 population is found in Patdi town. The maximum number of higher secondary and secondary schools is located in Lakhtar and Sayla town respectively.

In statement V, information about medical facilities is given wherein Government, Semi-Government and charitable institutions providing medical facilities are covered. Except Patdi, hospital facilities are available in all the towns of the district. Halvad, Limbdi and Surendranagar towns have T.B. Clinic centres. 5 towns viz; Halvad, Limbdi, Patdi, Thangadh and Surendranagar have health centre facility in the district.

Table 22 is prepared on the basis of statement No. V of town directory. It indicates the number of beds in the medical institutions in each town of the district.

TABLE 22

No.of beds in Medical Institutions in towns

Sl. No.	Class, Name and Civic Status of the town			No.of beds in Medical Institutions per 1,000 population
(1)		(2)		(3)
1	IV	Chotila	(GP)	4.30
2	II	Dhrangadhra	(M)	2.04
3	IV	Halvad	(NP)	2.76
4	IV	Kharaghoda	(GP)	0.50
5	IV	Lakhtar	(NP)	5.21

11		Wadhwan		
	I	Wadhwan Urban Agglomeration		7.06
(a)	I	Surendranagar@	(M)	9.45
(b)	II	Wadhwan @	(M)	1.50
		Total		**5.98**

@ Please See Appendix for Non-town components of Urban Agglomeration.

It is seen from the above table that on an average, there are 5.98 beds per 1,000 population in the urban areas of the district. Limbdi town has the highest number of beds 18.11 per 1,000 population. Next in order are, Surendranagar, Lakhtar and Chotila with 9.45, 5.21 and 4.30 beds per 1,000 population respectively. All the towns of the district have beds facilities in the medical institutions.

Statement VI

Statement VI furnishes details regarding trade, commerce, industry and banking in the towns of the district. The important commodities, imported in the towns are cloth, salt, chemical fertilisers, gunnybags, ghee, oil, mirror of embroidery work, coal, furnace oil, tea etc. Those exported out of the towns are cotton, cotton-bales, soda ash, salt, cotton yarn, wheat, pottery ware, crockery, sanitarywares, clayware, lathe machines, al-

luminium/brass utensils etc. The main commodities manufactured in the towns are groundnut and til oil, soda ash, cottonbales, salt, jowar, potteryware, sanitary wares, lathe machines, alluminium brass utensils etc.

Table 23 is derived on the basis of statement VI. It shows the most important item manufactured, imported into and exported from each town of the district.

TABLE 23

Most Important Commodity Manufactured, Imported and Exported in towns

Sl. No.	Classs, Name and civic status of the town			Most Important Commodity

(b)	II	Wadhwan @	(M)	Alluminium/ Brass utensils	Alluminium/ Brass utensils	Sugar

@ Please See Appendix for Non-town Components of Urban Agglomeration.

All the cities and towns have facilities of banking, agricultural credit societies and non-agricultural credit societies.

Appendix given at the end of the Section II shows information of towns having their out growths with population. Out of total 11 towns, 2 towns viz; Surendranagar and Wadhwan have the out growth areas.

PART - A

VILLAGE AND TOWN DIRECTORY

SECTION - I VILLAGE DIRECTORY

EXPLANATORY NOTE AND LIST OF ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The village directory containing information for each village has been compiled in the ascending order of the census village location code numbers. It provides information pertaining to total areas of the villages in Hectares, total population, number of households, amenities available in the village viz. educational, medical, drinking water, post and telegraph, Market/Hat, communication, approach to village, nearest town and distance in kms. and power supply. It also contains information regarding land use i.e. area under different types of land use like forest, irrigated by different sources, un-irrigated, culturable waste including gauchar and groves and area not available for cultivation.

Abbreviations used in the village directory:

Col. 5 Educational

1.	Primary or Elementary School	P
2.	Junior Secondary or Middle School	M
3.	Matriculation or Secondary	H
4.	Higher Secondary/Intermediate/Pre-University/Junior College	PUC
5.	College, Any College (Graduate level & above) like Arts, Science, Commerce	C
6.	Industrial School	I
7.	Training School	Tr.
8.	Adult Literacy Class/Centre	Ac

SECTION - II TOWN DIRECTORY

EXPLANATORY NOTE AND LIST OF ABBREVIATIONS USED IN THE TOWN DIRECTORY

The town directory has been compiled in following different statements for each town of the district. The towns of the districts have been arranged in alphabetical order.It contains (I) Status and growth history (II) Physical aspects and location (III) Municipal Finance (IV) Civic and other amenities (V) Medical, educational, recreational and cultural facilities and (VI) Trade, commerce, industry and banking facilities for each town of the district

Appendix to the town directory shows towns of the district which have outgrowths and population of outgrowths.

The following abbreviations have been used in the town directory for facility of presentation.

Statement I

Col.2 - Civic Administration Status of Town

1.	Municipal Corporation/Corporation	M. Corp.
2.	Municipality	M
3.	Cantonment Board/Cantonment	C.B.
4.	Notified Area/Notified Area Committee/Notified Committee	N.A.C.
5.	Gram Panchayat/Village Panchayat	G P
6.	Nagar Panchayat/Town Panchayat	N.P.
7.	Non-Municipal	N.M.

Statement IV
Col. 6 - Road Length

1.	Pucca Road	PR
2.	Kuccha Road	KR

Col. 7 - System of Sewerage

1.	Sewer	S
2.	Open Surface Drains	OSD
3.	Box Surface Drains	BSD
4.	Sylk Drains	SD
5.	Cesspool Method	CD
6.	Pit System	Pt
7.	Others	O

Col. 11 - Method of Disposal of Night Soil

1.	Head Loads	HL
2.	Baskets	B
3.	Wheel Barrows	WB
4.	Septic Tank Latrines	ST
5.	Sewerage	S
6.	Pit System	Pt.
7.	Others	O

Col. 12-13 - Protected Water Supply - Source and Capacity of Storage Systems

1.	Overhead Tank	OHT
2.	Service Reservoir	SR
3.	River Infiltration Gallery	IG
4.	Borewell Pumping System	BWP
5.	Pressure Tank	PT
6.	Tubewell Water/Handpump	TW
7.	Tap Water	T
8.	Well Water	W
9.	Tank Water	TK
10.	Others	O

Statement V

Col. 4-5 - Medical Facilities

1.	Hospital	H
2.	Dispensary	D
3.	Health Centre/P.H.C./P.H.S.C.	HC
4.	Family Planning Centre	FPC
5.	TB Clinic	TB
6.	Nursing Home	NH
7.	Others	O

In Col. 4 the following additional abbreviations are used as

1.	Ayurvedic	A
2.	Unani	U
3.	Homoeopathic	Hom

Col. 6 - Educational Facilities

1.	Arts only	A
2.	Science only	S
3.	Arts and Science only	AS
4.	Commerce only	C
5.	Arts and Commerce only	AC
6.	Combined for all categories Arts, Science and Commerce	ASC
7.	Law	L
8.	University	U
9.	Others	O

Col. 10 - Recognised Shorthand, Typewriting and Other Vocational Training Institutions

1.	Shorthand	SH
2.	Typewriting	Type
3.	Shorthand & Typewriting	Sh. Type
4.	Others	O

Col. 20 - Recreational and Cultural Facilities

1.	Public Library	PL
2.	Reading Room	RR

Abbreviations relating to Class of Town

POPULATION	CLASS
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE AND ABBREVIATIONS USED IN THE PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1991 Census provides information in respect of each village in rural area and each town/ward in urban area. The villages/ towns have been arranged as per ascending order of Census Village/Town location code numbers. It gives information about the area of the village in hectares and town in Square kilometers, number of occupied residential houses and households,total population with sex break-up (including Houseless and Institutional population) and population of Scheduled Castes and Scheduled Tribes, literates. The entire population of village / town/ward is divided into main workers, marginal workers and non-workers and main workers are further divided into nine broad industrial categories as under

1. Cultivators (I)
2. Agricultural Labourers (II)
3. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activites (III)
4. Mining and quarrying (IV)
5. Manufactuing, Processing, Servicing and Repairs
   (i) Household Industry (V.a)
   (ii) Other than Household Industry (V.b)
6. Construction (VI)
7. Trade and Commerce (VII)
8. Transport, Storage and communications (VIII)
9. Other Services (IX)

The sexwise break-up of total main workers (industrial category I to IX) has been presented in addition to similar break-up for each broad-industrial category of workers, marginal workers and non-workers.

The following Abbreviations have been used in the Primary Census Abstract for facility of presentation.

1.	Municipal Corporation	M.Corp
2.	Municipality	M
3.	Non-Municipal Area	NM
4.	Nagar Panchayat	NP
5.	Village Panchayat	G.P
6.	Cantonment	Cantt.
7.	Notified Area	N.A.C
8.	Industrial Notified Area	INA
9.	Urban Agglomeration	UA
10.	Out Growth	OG
11.	Total	T
12.	Rural	R
13.	Urban	U
14.	Not Available	NA

The following conversion factor has been used for converting areas into hectares and hectares into Km^2

Acres x 0.40467=Hectares

Hectares x 100=Km^2

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total area figures of the Taluka/C.D.block will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.
