PREFACE

It is customary of the Census to bring out various tables at the end of every Census in the form of Census Report. The present volume contains the General Economic Tables (B-Series) prepared on the basis of information collected in the Individual Slip during the 1971 Census.

The concepts and definitions of various Census terms have been discussed in the Introductory Note. To have a clear understanding of the tables it will be useful for the readers to go through the Introductory Note. Each table in this volume is preceded by a fly-leaf wherein the main features of the table are briefly described.

I wish to place on record my grateful appreciation to my dedicated Tabulation Officer Shri J. C. Datta who has not only borne the brunt of entire tabulation and printing but also ably prepared this report. My grateful thanks are also due to Sarvashree D. C. Pathak, A. Jahan and Mrs. E. Peseyie, Statistical Assistants, Shri H. K. Endow, Computer, Shri D. Sarma, Assistant Compiler and Shri R. K. Ghosh, Ferro-Typer for their painstaking efforts in the compilation and tabulation of data. The pains of typing the entire report is borne by Miss Supriti Kanungo.

I express my deep debt of gratitude to Shri A. Chandra Sekhar, I.A.S. former Registrar General of India and Shri R. B. Chari, the present Registrar General, India for their help and guidance in all matters connected with the 1971 Census. I am also grateful to Shri K. K. Chakravorty, Assistant Registrar General, India for rendering valuable advice and help in all technical matters.

Question No. 16 of the Individual Slip is intended to cover economic activity of the persons enumerated. This question has been divided into two broad categories viz., worker and non-worker. With a view to make the readers understand, the instructions to enumerators pertaining to the main activity of the persons are reproduced below:

Question 16. Main Activity

Every person will be asked what his main activity is, that is, how he engages himself mostly. For the purpose of this question all persons will get themselves divided into two broad streams of main activity, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

Worker defined: A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference period: The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike, etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker, should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school, etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Q. 16. (a) Broad category (i) worker (C, AL, HHI, OW) (ii) Non-worker (H, ST, R D, B, I, O)

The main activity returned by the person will entitle him to be categorised either as a worker in 16 (*a*)(*i*) or as a non-worker under 16 (*a*)(*ii*).

Question 16 (a)(i) worker (C, AL, HHI, OW)

Where the main activity of a person qualifies him to be treated as a worker he should be further categorised according to the type of work and one of the appropriate abbreviations indicated against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below:

C. Cultivator

For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

Definition of Cultivator : For purposes of the census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly a person working in another person's land for wage in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL. Agricultural Labourer

A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

Definition of an Agricultural Labourer : A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

HHI. Household Industry

For a person who returns his main activity as engaged in some production, processing servicing or repair of articles of goods such as, say, handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, bicycle repairing black-smithy, tailoring, etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

Definition of a household industry : A Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

The main criterion of a Household Industry is the participation of one or more member of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located any where within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor or barber, musician, dancer, waterman, dhobi, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household.

Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW. Other workers

If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc., etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other workers'.

Further details pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (*b*) to (*f*) of question 16.

Q. 16 (a) (ii) Non-workers (H, ST, R, D, B, I, O)

As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16(*a*) (*i*) helps to broadly categorise all those who have returned some work as their main activity 16(*a*)(*ii*) will help to categories those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below.

H. Household Duties

This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to house-hold duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale etc., that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantatoin labourer or an agricultural labourer or in some office or shop etc., and also attends to household dutics, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically, as a worker and her main economic activity should have been recorded against 16(*a*) (*i*).

ST. Students

This refers to those whose main activity is returned as a student. This will cover full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students. If that is their main activity 'ST' should be entered in the box. The other economic activity, if any, that such persons attend to will be reflected under question 17 as secondary work.

R. Retired person or a Rentier

A person who has retired from service and is doing no other work i.e., not employed again for some full time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work, will come under this category. 'R' should be noted in the box for a person coming under this category.

D. Dependent

This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B. Beggars etc.

This will cover beggars, vagrants or such cases as independent women without indication of sources of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I. Institutions

This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving vegetable growing, etc., in such institutons. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O. Other non-workers

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home is a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16(*a*)(*i*) and an 'X' has been put in the box against that question, than he must, necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16 (*a*)(*ii*). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against 16(*a*)(*i*), then question 16(*a*)(*ii*) will not apply to the person and an 'X' should be put in the box against question 16(*a*) (*ii*). Thus 16(*a*) (*i*) and 16(*a*)(*ii*) are mutualy exclusive.

Q. 16(b) to 16(f).

These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16(*a*)(*i*). If the main activity has been shown 'C' or 'AL' against 16(*a*) (*i*), there is no need to give the details of the cultivation or agricultural labour in these subsections.

Similarly, if the main activity of an individual has been returned as a non-worker against 16(*a*)(*ii*), sub-sections (*b*) to (*f*) will not apply and a 'X' may be put right across all these questions.

Q. 16(b) Place of work (Name of village/town)

Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour, i.e. question 16(*a*) (*i*) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Q. 16(c) Name of Establishment

This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question 16(*a*) (*i*).

Record here the exact name of the factory firm, workshop, business house, company, shop, office, etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving, potter's house, blacksmithy etc., note 'No particular name'.

Q. 16(d) Nature of Industry, profession, Trade or Service

The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (*i*) Plantation, Forestry, Fishing, Livestock, etc., (*ii*) Mining and/or quarrying (*iii*) Manufacturing (*iv*) Construction (*v*) Electricity, Gas or Water Supply (*vi*) Transport and Communications (*vii*)Trade and Commerce (*viii*) Professions and Services. Full details of the type of industry, trade-profession or service in which the person is engaged will have to be recorded here. You shall have to describe the nature of Industry, Profession, Trade or Service whatever it is, in as precise a detail as possible.

Q. 16(e) Description of work

This question has to be filled up for all persons for whom the main activity is shown as HHI or OW in question 16(*a*) (*i*) and for whom, you should have also to answer the other subsections of question 16. Under this question the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession or service he may be working and which is already recorded under question 16(*d*). His actual work should also be given in sufficient detail. If for example, a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic -an electrical mechanic, or a motor mechanic or a locomotive mechanic, etc. he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

It has been found in the past that a substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, etc.

For those in Military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

General

There need be no confusion as to the scope of 16(*d*) and 16(*e*). 16(*d*) would represent the nature of industry, trade, profession or service, i.e., the field of economic activity in which a person is engaged in work and 16(*e*) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example the answer to question 16(*d*) may be say, Cotton Textile manufacture and the answer to question 16(*e*) may be Chemical Engineer in that industry or a clerk

or an accountant in that industry or a labourer in that industry or a truck driver or the managing director of that industry and so on. Similarly in question 16(*d*) the nature of service may be some department of the State Government service and in question 16(*e*) the description of work may be a clerk or an accountant, a Director of the Deptt., jeep driver in the Deptt., etc., etc. Again say, against question 16 (*d*) the answer may be private medical practice and in 16(*e*) may cover orthopaedic surgeon, or nurse or a sweeper etc. working in that private medical practitioner's nursing home.

Q. 16 (f)Class of worker

For a person who is

(*i*) an Employer, that is, who hires one or more persons in his work described in question 16(*e*), write .....ER

(*ii*) an Employee, that is who does his work described in question 16(*e*) under others for wages or salary in cash or kind, write.....EE

(*iii*) a Single worker, that is, who is doing his work described in question 16(*e*) without employing others except casually and without the help of other members of the family except casually and a participant in work as members of cooperatives, write .....SW.

(*iv*) a Family Worker, that is, who is doing his work described in question 16(*e*) in a family enterprise alongwith other members of the family without wages or salary in cash or kind, write..... FW.

For a person for whom an 'X' is put in questions 16(*d*) and 16(*e*) put an 'X' in this question also.

Explanation

An Employer is a person who has to employ other person in order to perform the work entered in question 16(*e*). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16(*e*). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employer. Such persons are only employees, as explained above, and should not be regarded as employers.

A Single Worker for the purpose of question 16(*f*) is a person who works by himself. He is not employed by any one else and in his turn does not employ any body else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producer's co-operatives should be recorded as 'Single Worker'.

A Family Worker is a member who works without receiving wages in cash or kind, in an industry, business, trade or service. For example, the working members in a family of Dhobies where they all participate and each does not receive wages separately will be family workers. There may be family workers in industry, trade or professtions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

In the case of persons engaged in household industry i.e., in the case of persons for whom the answer to question 16(*a*)(*i*) is HHI, there will be three classes of workers viz., Family worker, Single worker and Employees. There will be no Employer. Household industry by its very definition is conducted by the head of the household himself or and other members of the household, the role of hired workers being secondary. If the head alongwith the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'Family workers'. If the head alone is working with the assistance of hired worker(s) whose role would be secondary as indicated above, he would be treated as a 'Single worker'.

The table B VII has been prepared on the information collected in Q. No. 17 of the Individual slip. This refers to secondary work of the persons. The instructions issued to the Enumerators for filling up the questions are reproduced below :-

Q. 17 Secondary Work

This question should be asked of every person whether he has returned some work as his main activity against 16(*a*)(*i*) or had returned himself under any of the basically non-working categories against question 16(*a*)(*ii*). As was noted earlier, 16(*a*)(*ii*) will cover cases like persons performing household duties, or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students, etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business, etc., but not to the extent as a fulltime worker. Such participation will be considered as secondary work of these persons.

Ask of each person if, besides what he had already returned as his/her main activity against questions 16(*a*)(*i*) or 16(*a*)(*ii*), he/she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16(*a*) (*ii*) for their main activity will be noted here for their economic activity which is subsidiary. Mere rendering of service for one's own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example a servant who works as a cook in his or her employer's home for wages will be considered economically active, but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as economic activity. A boy whose main activity is shown as a student under 16(*a*) (*ii*), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season But if a girl student, whose main activity is shown as 'ST' under 16(*a*)(*ii*) also helped in weaving cloth purely for domestic consumption on a loin loom at home or helped in attending to household chores she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a Government Office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tuition this will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16 and his subsidiary activity money lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugar factory labourer and so on and so forth.

The instructions for the usage of abbreviations in categorising workers under 16(*a*)(*i*) and filling in the details under 16(*b*) to (*f*) will apply mutatis mutandis to question 17(*a*) to (*f*), except that while question 16(*a*)(*i*) will cover the main work, question 17(*a*) is intended to cover secondary work which may be possibly part-time. It may also be noted that the non-working categories of activity will not be reported as secondry work under question 17.

NATIONAL INDUSTRIAL CLASSIFICATION (N.I.C.) 1970

(As adopted by the office of the Registrar General, India, for the Industrial Classification of 'Establishment' and 'economically active population')

Industrial Classifications are used in the Classification of economically active population, in the presentation of statistics of industrial production and distribution, labour statistics and economic data like national income etc.. Comparability of statistics available from various sources on different aspects of economy, and the usability of data for economic analysis demand standardisation of the system of Industrial Classification.

The Industrial Classification used in the population Census differed from one census to another and till 1951 Census, it was generally an amalgam of industrial and occupational features.

In the 1961 Census, the Indian Standard Industrial Classification (ISIC) evolved in 1958 by the Directorate General of Employment and Training was used. There has been a variety of Industrial Classifications in India such as Labour Bureau's industrial classification of factories, Standard Industrial Classification evolved by Central Statistical Organisation etc. While attempts have been made in several cases to bring these classifications in line with the I.S.I.C., these have produced different versions depending on the nature of the respective needs. An attempt at evolving a Standard Industrial Classification was made when an interdepartmental meeting, in which all concerned departments of the Central Government alongwith other important users were represented, was held in April, 1964 to consider the subject. After a detailed consideration of general principles for a Standard Industrial Classification, the meeting appointed a Technical Committee consisting of representatives of the Registrar General, India, Directorate General of Employment and Training, Ministries of Internal Trade and Industry and the Central Statistical Organisation (C.S.O.) to work out a three-digit level standard classification of industries. in the meantime, the Statistical Office of the United Nations was also considering the revision of the I.S.I.C. 1968. This was ready in September, 1968 and it was circulated by the C.S.O among all concerned organisations inviting their suggestions. After a number of meetings of the representatives of these organisations, the National Industrial Classification (N.I.C.) 1970 was finalised. This has been adopted by the Office of the Registrar General, India, with suitable modification.

Like the I.S.I.C.-1969, the National Classification attempts to group together economic activities which are akin in terms of the process adopted, the raw materials used and the finished products produced. The Classification does not draw any distinction according to the type of ownership or type of economic organistion. And except in cases like textiles etc., where traditional processes of production are in vogue in significant measures, the Classification does not endeavour to distinguish between various modes of operation as for instance, using power or not using power factory or household, large-scale or small-scale. Identification of the special features of the Indian economy, where in certain sectors traditional processing is substantial, has been attempted in the two-digit and three-digit levels in the N.I.C. 1970.

The basis of classification being the nature of economic activity carried on in an establishment, it follows that the unit classification should be an establishment. The term 'establishment' may be defined as an economic unit which is engaged in one or predominately one kind of activity usually at a single physical location under single ownership or control. A firm or enterprise may have more than one establishment either on the same location or on different locations engaged either in the same economic activity or in different economic activities. In either case, each establishment is to be counted separately and classified appropriately. It is also likely that some establishments are engaged in more than one economic activity. To the extent possible, it is desirable to treat each technical unit, or ancillary unit or welfare unit, engaged in a different type of activity as a separate establishment. Examples of technical units are the departments of textile mills which spin yarn, weave cloth, and dye the cloth or Departments of a meat packing plant which produce *lard lure bacon* or can meat. Clearest examples of ancillary units are central administration offices, warehouses, garages, repairshops and electric power plants which primarily serve their parent units. Examples of welfare units are schools or dispensaries run by say, steel mills for the benefit of their employees. Where it is not possible to separate technical, ancillary and welfare units from their parent establishments, the establishment will have to be classified into one or

77-M/B(N)5DCONagaland—2

other of the minor groups in the Classification according to the major activity of the establishment. The major activity of the establishment should generally be ascertained by reference to value added by the production of different products or services rendered or net revenue derived from the various activites. Where such an assessment is not possible, the classification may be determined in terms of gross revenue attributable to the products or services put by the establishment, the number of persons employed on various activities or the proportion of labour-cost assignable to those activities whichever may be convenient and appropriate. Where the integration of activities in an establishment and in the case of a factory producing pulp as well as paper, the classification will have to depend on the final product irrespective of the magnitude of the value added at different levels of production. In the Indian economy, it sometimes becomes necessary to classify by industry persons who are own-account workers, as in the censuses of population and sample surveys of households. In such cases the distinction between indsutrial and occupational classifications becomes blurred. In the case of such own-account workers, it is desirable to classify them under industries appropriately akin to their occupations.

The National Industrial Classification (N.I.C.) 1970 consists of

10 Divisions (at the first digit level);

66 Major Groups (at the second digit level);. and 385 Minor Groups (at the third digit level).

While adopting the N.I.C.-1970, and Office of the Registrar General, India, have made a modification in the classification of 'Repairing' or 'Repair-service'-establishments.

In the N.I.C.-1970 'Repair work' has been included in 'Manufacture' in some cases like, Minor Groups

"351-Manufacture and repair of drills, coal cutting machines, etc., etc.," and

"359-Manufacture and repair of non-electrical machinery etc., etc.";

While in case of the other repairing establishments, such as "Repair of Footwear and Leather goods etc., Electrical repair shops, repair of Motor Vehicles and Motor Cycles, etc., " these have been classified under Major Group 97 "Repair Services" and yet another Division 'Y' and Major Group 'YO' as 'Repair Service (if not included under Major Group 97),' has been provided.

It was felt that 'Repairs or Servicing' should be assigned to 'Manufacturing or Processing' activity under Division '2 and 3' which incidentally makes for comparability of classification at the 1961 Census. Accordingly a Major Group '39-Repair' has been inserted under Divsions 2 and 3 with the following Minor Groups:

390-Repair of Footwear and other leather goods

391-Electrical Repair shop

392-Repair of Motor Vehicles and Motor Cycles

393-Repair of watch, clock and jewellery

394-Repair of Bicycles and Cycle-rickshaws

395-Repair enterprises not elsewhere classified

The N.I.C. 1970 incorporates some of the major revisions contained in the I.S.I.C., 1969, e.g., transfer of 'Restaurants and Hotels' from 'Services' to 'Trade', clubbing of Banking, Insurance, Real Estate, and Busines· services; transfer of veterinary service from Agricultural Services to Medical and Health Services, treating sanitary services among community services etc.

NATIONAL CLASSIFICATION OF OCCUPATIONS (Revised Edition 1968)

1. The Revised edition of the National Classification of Occupations, N.C.O., 1968, has been fashioned after the second edition of the International Standard Classification of Occupations, (I.S.C.O.), 1966, published by the International Laobur Organisation, I.L.O., in 1968. This has been done to ensure international comparability of reporting and analysing of statistical data relating to occupations, manpower, population censuses, etc.

2. Basic Principles in Revising N.C.O.

2·1 In an occupational classification, the grouping of occupations has to be based on the fundamental criterion of *'type of work performed'*. Accordingly, occupations have been classified, in the N.C.O., 1968, so that *all* the workers engaged on the same type of work are grouped together irrespective of the industrial classification of establishments where they are engaged. For example, all clerical workers have been classified in one occupational group; whether they are engaged in a factory, mine, government office or even a shop. Similarly, drivers have been grouped together, so also production process workers and those engaged in services, etc. The branch of economic activity (industry), in which a job occurs, has, thus, not affected the classification of occupations in the N.C.O. Effort has consequently been made to avoid the use of titles similar to those used in the Standard Industrial Classification, in order that there may be no difficulty in distinguishing between an industry and an occupation. Nevertheless, some Groups or Families had to be described in words similar to those used for industrial classification for want of better terminology or nomenclature. For example :

Group 36 : Transport and Communication Supervisors

Group 77 : Food and Beverage Processors

Group 23 : Directors and Managers, Financial Institutions

Group 24 : Working Proprietors, Directors and Managers, Mining, Construction, Manufacturing and Related Concerns

Group 25 : Working Proprietors, Directors, Managers, and Related Executives, Transport, Storage and Communication

2·2 By and large, factors like materials handled, tools or machines used, standard of performance required, levels of responsibility involved physical and social environments, industrial, affiliations, and other abstract or associated factors (*e.g.* level of intelligence, manual dexterity, physical strength, initiative, adaptability, ability to supervise, level of education, vocational training, etc.) have not affected the grouping or classification of occupations. Nevertheless, an occupational classification has to take into account not only the type of operations involved in the performance of a job but also factors like the types of qualifications, vocational and professional training, status (*e.g.* own-account worker, employer) and levels of skill. Thus, while relating *Occupations* to one another in a *Family*, not only the general similarity of characteristics of work performed is determined, but also the qualifications and levels of skill required. Further grouping of occupational Families into an occupational *Group* is similarly based on affinity between such Families *inter se* in terms of raw materials, equipment, process and techniques used, as well as the environments (factory, laboratory, office, etc.) where the work is performed. An occupational Division is essentially a convenient basis for combining homogenous Groups of Occupations.

2·3 Obviously, the fundamental criterion (viz., *'type of work performed'*) is easier to be applied at the 5-digit level of occupations. For the inclusion of 5-digit occupations in 3-digit Families and 2-digit Groups, this basic criterion has to be interpreted in a broad sense only. This implies that the more detailed the level of subdivision, the more homogenous will be the content of occupations in a Family or Group from the point of view of *'type of work performed'*.

2·4 N.C.O., 1968, attempts to group together occupations according to combinations of specific duties, tasks and work functions concerned with, while actually performing the same or closely related work. Consequently, job-definitions or descriptions given in N.C.O. represent only the average national picture of the various occupations. There could, thus, be variations in job-combinations or job breakdowns, as also differences in job-titles of occupations, from establishment to establishment and State to State

LIBRARY

Further, it is recoginsed, as only natural, that a group of persons engaged on the same occupation may *inter se* vary widely in such characteristics as level of performance, education, institutional training, etc. Therefore, even though the revised definitions *do not* describe the level of education, training or work experience required for efficient performance of the tasks and functions in an occupation, broad inferences regarding qualifications etc. could be drawn from occupational grouping and indeed from the job description.

2·5 N.C.O., 1968 endeavours, hopefully, to standardise occupational nomenclature and average job-descriptions to couch the data and literature relating to various occupations, produced on an all-India basis, in commonly under stood and comparable terminology. It may not be out of place to mention that in its application to the classification of population and individuals, there will always be two alternatives—an *employed* person may be classified according to the type of work he performs or according to the type of work for which he is qualified. Similarly, an *unemployed* person may be classified by the type of work for which he is trained or qualified or by the type of work he is looking for. In practice, however, the administrative departments conducting population census or assisting employment-seekers in job-seeking may apply either of the two alternatives to ensure uniformity of its (N.C.O's) applicability.

3. Main Changes Introduced

3·1 *Revision of Divisions*

3·1·1 In line with the basic criterion of "*Type of work performed*', two former Divisions, *viz.*, Miners, Quarrymen and Related Workers (NCO., 1958, Division 5) and Workers in Transport and Communication Occupations (N.C.O., 1958, Division 6) no longer appear as distinct Divisions, since these simulated an industrial classification.

3.1.2 Division 0–1 to 4 classify "*white collar*' and mainly *non manual* occupations; and Divisions 5, 6, 7-8-9 manual workers: freshers come under Division X. The classification starts with high-level professional manpower, going on to managerial and skilled workers, etc. and ends with labourers and "freshers".

3·1·3 Consequently, the following 8 Divisions emerge in the new classification :

0-1. Professional, Technical and Related Workers.

2. Administrative, Executive and Managerial Workers.

3. Clerical and Related Workers.

4. Sales Workers.

5. Service Workers

6. Farmers, Fishermen, Hunters, Loggers and Related Workers.

7-8-9. Production and Related Workers, Transport Equipment Operators and Labourers.

X. Workers Not Classified by Occupations.

3.2 Revision of Groups

3·2·1 In a number of cases certain occupational Families included in N.C.O., 1958 have been upgraded as Groups either singly or as combinations of two or more Families. Furthermore, several new Groups have also been created. Also, two or more Groups of N.C.O. ,1958, have been combined in several cases to form a new Group. Groups have also been formulated and re-arranged in the new Division 7-8-9 consistent with the flow of production, the level of technology, type of work performed and equipment and materials used.

3·3 *Revision of Families*

3·3·1 To identify Technicians in the professional groups of workers, new Families have been provided. Again, to facilitate the reporting, classification and analysis of statistical data relating to population census in India, a more detailed distribution of Families as sub-divisions of Groups was considered desirable. Therefore, a number of new Families have been provided—in a few cases, former Families of N.C.O., 1958, two or more, have been combined and a few Families deleted.

4. Effect of Changes

4·1 In the N.C.O., 1968 there are 8 Divisions, 95 Groups, 462 Families and 2,484 Occupations. As against this, in the old N.C.O., 1958, there were 11 Divisions, 75 Groups, 331 Families and 1990 Occupations. The main increases are in Division 0-1 and 7-8-9, which together account for 49 Groups, 303 Families and 2,008 Occupations.

5. Classification of Special Categories

5·1 *Professionals and Technicians* have been included in Division 0-1. They have been assigned *separate* Groups in the appropriate categories.

5·1·1 Professionals are defined as workers who conduct research and apply, *in a professional capacity*, scientific knowledge and methods to a variety of technological, economic, social, industrial and governmental problems. Educationally, *Professionals* cover persons who are graduates or above in engineering, technology, medicine, agriculture, horticulture, veterinary science, etc. and in the case of other physical sciences and humanities, etc. at least post-graduates.

5·1·2 *Technicians* are trained sub-professionals who carry out technical tasks, auxiliary to scientific work, development and practice, under the general direction and supervision of professionals, or are those who follow established engineering and scientific techniques in the performance of such functions, as: design; practical development and testing of equipment; investigation of problems; supervision of craftsmen and other workers, etc. Educationally, *Technicians* are usually diploma holders in engineering, technology, medicine, etc., and are qualified for working in conjunction with professional workers.

5·2 *Apprentices, Foreman and Supervisors and Instructors*

5·2·1 The prefixes A, B and C have been retained for the Classification of Apprentices, Foremen/Supervisors and Instructors respectively, as in N.C.O., 1958.

5·2·2 *Apprentices*, learners and trainees, including such of the trainees who have to undergo training partly within the enterprise, establishment, factory, etc., and partly in a school or institution, as in the case of apprentices under the Apprentices Act, 1961, are classified by prefixing 'A' to the occupational code. Apprentices, learners, trainees, etc., in professional occupations (such as law, chartered accountancy, engineering, pharmacy, etc.) are to be classified likewise.

5·2·3 *Foremen/Supervisors* whose duties are chiefly supervisory, or involve the application principally of *practical skills similar to those of the workers supervised*, i.e., those who *participate actively* in the same work as that performed by the workers supervised, are classified according to the occupation of workers supervised with a prefix 'B'.

A few examples of workers performing supervisory functions are head waiter, principal bookkeeper, typing pool supervisor, principal steward, chief information assistant, principal analyst, etc. These workers are all engaged on the same type of work as is performed by the workers supervised; hence their occupational code number is the same as that for the workers supervised with the prefix 'B'.

Such supervisors are distinct from those classified as Technicians (Division 0-1, engineering, scientific, medical etc. technicians), as Clerical Supervisors (Family 300) or as Sales Supervisors (Family 410).

5·2·4 *Instructors* in charge of *in-plant* training, as distinguished from institutional training, are classified according to the occupation of trainees/apprentices instructed with a prefix 'C'. Instructors, Lecturers, Professors, Teachers, etc. teaching in institutions like colleges, universities, polytechnics, industrial institutes, school, etc. are classified under teachers (Group 15). Thus, a Surgeon, Mechanical Engineer or an Economist engaged in teaching in a university or college will be classified under Family 150 and *not* under the occupational Families relating to Surgeons, Mechanical Engineers or Economists.

5·3 *Shop-Floor Supervisors and Foreman* : N.C.O., 1968 classified shop-floor Supervisors and Foremen along with Operatives in their particular fields in Division 7-8-9. All such Supervisors and Foremen have been classified in the respective occupational Groups in a separate Family, represented by digit '0' at the unit place in the 3-digit code numbers. They are *all-round* men, who supervise a number of workers engaged on a *wide* range of tasks and functions. It must, however, be remembered that they are all shop-floor supervisors, like Foreman; Jobber; Supervisor, Machine Tool Operations ; Supervisor, Foundry shop; or Supervisor, Tool Making, who are responsible for accomplishing a complete job or manufactured article requiring one or more production processes, etc.

5·3·1 Naturally, engineers and technologists are *not* to be classified in this Division—they are covered by Division "0-1". Thus, Spinning Master, Weaving Master, Dyeing Master, etc. who are essentially technologists, would be classified under Technologists in Division '0-1'. These, Supervisors are also different from those who guide superivse or direct a number of workers, engaged on *one* type of work, themselves, also performing similar functions, and who are to be classified for the same occupation as that of worker

supervised, with the prefix 'B'. Thus, a Mistri, supervising one or more Turners, will be classified as a Turner (835·15), with a prefix 'B'. The latter type of "Supervisors" are basically experienced workers, who often rise to supervisory positions.

6. Residual Occupations

6·1 As in N.C.O., 1958, the revised N.C.O., 1968 has retained the final Digit '9' for the residual group of occupations, usually indicated as N.E.C., (Not Elsewhere Classified).

6·2 Similarly, the use of '90' as the last 2 digits of the 5 digit occupational code, has been retained; but the coverage of this code number has been enlarged to include operatives i.e., workers who perform routine and low-skilled task as *distinct from the tasks performed by unskilled labourers* (Classified under 999); and also other workers not classified elsewhere. Since operatives require a very short period of training, and as there is a great degree of transferability between the different types of such workers, particularly within the same occupational Family, no separate occupational code numbers have been provided for them.

7. Index

An alphabetical Index has been appended with this Volume to help referencing and identification of occupations. To facilitate comparison of the new occupational code numbers with those contained in the N.C.O., 1958, the Index also provides the corresponding code numbers of N.C.O., 1958.

8. Salient Features of N.C.O., 1968—Division-wise

8·1 *Division 0-1 : Professional, Technical & Related Workers*

8·1·1 Broadly, this Division covers professional and technical workers (highly qualified manpower) and related teachnicians. Two code numbers (0—1) have been allotted to this Division. Efforts have been made to bring scientific, engineering, technical and medical occupations under the Groups starting with code number "0". Social scientists, teachers, lawyers, and workers in literary, artistic, entertaining, athletic and creative professions have been classified under Groups starting with digit code '1'.

8·2 *Division 2 : Administrative, Executive and Managerial Workers*

8·2·1 All Managers, except those concerned with farming and plantation, have been brought together under this Division . Groups 22, 23, 24, 25 and 26.

8·2·2 In regard to "Working Proprietors", all persons whose work is comparable to that of Directors and Managers in *large and established organisations* have been included in this Division. In the context of local conditions, where a large number of persons are engaged on small cottage industries or business, such as an own-account weaver, shop-keeper, hotel-keeper, etc. the term "Working Proprietor" will *exclude* all such workers. Though, broadly speaking, such own-account workers are working proprietors, they should be classified by the type of work they perform, *e.g.*, weaver, carpenter, shop-keeper, barber, etc. Petty Shop-Keepers and Merchants have, therfore, *not* been given the nomenclature of Working Proprietors, Wholesale and Retail Trade (as in N.C.O., 1958, Families 300 and 301); but that of Merchants and Shop-Keepers, Wholesale and Retail Trade (N.C.O., 1968, Families 400 and 401). To avoid confusion, the use of the term "Working Proprietors" has been avoided in other Divisions.

8·3 *Division 3 : Clerical and Related Workers*

8·3·1 N.C.O., 1968 distinguishes administrators and executives from clerical workers and supervisors (Group 30) like Office Superintendent, Section Officer, Head Clerk, Head Assistant, Excise Inspector, Customs Inspector, Shops and Establishments Inspector, Labour Inspector, Revenue Inspector, Sales Tax Inspector, etc. who are now covered by N.C.O., 1968, Division "3". Thus all "Office Jobs", the majority of which are primarily concerned with the setting up and mainetnance of records pertaining to financial transtcions, business and industiral operation, personnel correspondence, administrative and executive activities, in Government and other offices, are included in this Division. Also included are those jobs which are concrened with the handling and routing of messages (verbal or recorded) and those concerned with the handling of cash, combined with record-keeping functions. Environmental factors have not affected their classification; even though included in this Division are quite a few jobs which are carried out *mainly* outside the offices and the workers report only periodically in offices; for instance, in the case of Ticket Collector, Conductor, Vehicle; Postman; Messenger; Despatch Rider, etc.

8·4 *Division 4 : Sales Workers*

8·4·1 Not many changes have been introduced. However, as explained earlier, the term "Merchants and Shop-Keepers" (N.C.O., 1968, Group 40; Families. 400, 401) has been used, instead of "Working Proprietors" (N.C.O., 1958, Group 30, Families, 300 and 301) to distinguish own-account Shop-Keepers, Merchants, etc. running their own business, shops, etc.

8·5 *Division 5 : Service Workers*

8·5·1 Here again, the term "Hotel and Restaurant Keepers" (N.C.O., 1968, Group 50, Family 500) has been used to describe numerous persons running owner-operated hotels, restaurants, "eating shops", guest houses, cafe's, bars, etc. The term "Working proprietors" has been dropped in their case.

8·6 *Division 6 : Farmers, Fishermen, Hunters, Loggers and Related Workers*

8·6·1 Agricultural, animal husbandry, forestry and related workers account for the largest percentage of the working population in India. Hence, this Division has been re-arranged in the context of conditions obtaining in the country though, broadly speaking, the pattern remains as in Division 4 of N.C.O., 1958.

8·7 *Division 7-8-9 : Production and Related Workers, Transport Equipment Operators and Labourers*

8·7·1 As explained earlier, the sequence of occupations in the Division 7-8-9 has been modified, indicated by the titles of Groups and Famiies.

8·8 *Division X : Workers not Classified by Occupations*

8·8·1 The only change introduced in the N.C.O., 1968, is the re-introduction of "Intermediatest" (indicating those who have passed the Intermediate Examination) at the 5-digit level (N.C.O., 1968 XOI-20).

8.8.2 This Division is primarily for the classification of "fresh" or new workers seeking emplo-ment. Naturally, jobs or vacancies, even though meant for such "Freshers" are not to be classified in this Division

TABLE B-I PART A

WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY CLASSIFIED BY SEX AND AGE-GROUPS

FLY LEAF

It is the fundamental economic table prepared on full count. It presents the distribution of workers and Non-workers according to the main activity classified by sex and broad age-groups. It furnished data for total, rural and urban areas separately for the State and districts.

The workers have been classified into nine industrial categories, *viz.*, (*i*) Cultivators, (*ii*) Agricultural labourers, (*iii*) Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, (*iv*) Mining and Quarrying, (*v*)(*a*) Manufacturing, Processing, Servicing and Repairs in Household Industry, (*v*)(*b*) Manufacturing, Processing, Servicing and Repairs in other than Household Industry, (*vi*) Constructions, (*vii*) Trade and Commerce, (*viii*) Transport, Storage and Communications and (*ix*) Other Services. This table corresponds to table B-I of 1961 Census with the following variation. Categories III and IV of 1971 Census were clubbed together and shown as category III in 1961 Census. Category IV of 1961 Census has been shown as category V(*a*) in 1971 Census. The 1971 Census also differs from the 1961 Census in the formation of Age-group. In 1961 Census only 4 age-groups *viz.*, 0—14, 15—34, 35—59 and 60+ were shown in the table while in 1971 the table shows 8 age groups viz., 0—14, 15—19, 20—24, 25—29, 30—39, 40—49, 50—59 and 60+

This table B-I Part A reveals that population of this State consists 50·75 percent workers and 49·25 percent Non-workers. The percentage of male workers to the total male population is 55·55 while the percentage of female workers to the female population is 45·24.

In Part B of this table which relates to the rural areas, educational levels have been restricted to (1) Illiterate, (2) Literate (without educational level), (3) Primary, (4) Middle, (5) Matriculation or higher secondary, (6) Non-technical diploma or certificate not equal to degree, (7) Technical diploma or certificate not equal to degree and (8) Graduate and above.

For easy reference of the readers the difinition of the literates is given below:

A person who can both read and write with understanding in any language is to be taken as a literate. A person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

TABLE B-V

PART A—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK ACCORDING TO MAIN ACTIVITY OTHER THAN CULTIVATION

PART B—OCCUPATIONAL CLASSIFICATION BY SEX AND CLASS OF WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE AS MAIN ACTIVITY

FLY LEAF

In an Occupational classification the grouping of occupation has to be based on the fundamental criteria of type of work performed. Accordingly occupations have been classified in the National Classification of Occupation (N.C.O.) 1968, so that all the workers engaged in the same types of work are grouped together irrespective of the Industrial Classification of establishments where they are engaged. The branch of economic activities (Industry), in which job occurs, has, thus, not affected the classification of occupations in the N.C.O. The N.C.O. consists of 8 Divisions (one digit code), 95 Groups (two digit code) and 462 Families (three digit code). The code numbers have been reproduced in the Introductory chapter of this volume. This table is divided into two parts.

Part A of this table has been prepared for the State for total and urban workers separately. In this table the workers in each of the Industrial categories III to IX have been classified according to divisions, Groups and Families appearing in the "National Classification of Occupations".

Part-B of this table has been prepared for total and urban areas of the State only showing the class of workers by sex in Non-household industry, Trade, Business, Profession or Service as main activity according to Division/Group of the N.C.O.

This table has been prepared to get information about the main activity and secondary work in respect of persons engaged in more than one type of work. In fact, this table shows the distribution of persons working as cultivator, agricultural labourer, household industry, non-household industry, trade, business, service and as non-workers classified, by sex and by secondary work which is shown under 4 heads viz., cultivator, agricultural labourer, household industry and non-household industry, trade, business, service. This table has an Appendix which shows the distribution of persons having secondary work as non-household industry having main activity as cultivator, agricultural labourer, household industry, non-household industry, trade, business or service and non-workers. The code numbers of two digit level of the National Industrial Classification (N.I.C.) have been presented in respect of persons having secondary work as non-household industry. The Appendix has been prepared at State level for total, rural and urban areas separately. For distribution of code numbers the National Industrial Classification reproduced in the Introductory chapter may be referred to.
