STONE CHARIOT, HAMPI

(*Motif on the cover*)

The illustration on the cover page represents the ornate stone chariot which forms part of the ruins of Hampi, in Bellary District. The situation of the chariot in the court of the Vittala Swamy temple suggests that the two may be contemporary pieces of art. It is known that the construction of this beautiful temple was begun during the reign of Krishnadeva Raya (1509-1529 A.D.) and was continued steadily for decades till the entire city was destroyed in 1565 A.D. Thus, this temple was neither finished nor consecrated.

Tradition connects the site of Hampi ruins with Kishkinda the capital of Vanara King Vali of the Ramayana age and the Pampakshetra of the puranic period. The City of Vijayanagar was founded in 1336 A.D. by Harihara I and it flourished over a period of about 220 years. It attained the zenith of glory during the reign of Krishnadevaraya (1509-1529 A.D.). But, much earlier, in 1442 A.D. Abdur Razzak, an envoy from Persia describes the city as "such that the pupil of the eye has never seen a place like it, and the ear of intelligence has never been informed that there existed anything to equal it in the world". Such an imperial city covering an expanse of about 120 sq. miles was plundered and destroyed soon after the fateful battle of Talikot (1565) "with fire and sword, with crow bars and axes" over a period of five months (Robert Swell, "A Forgotten Empire" P. 200). Even the name of this great city is forgotten and the remains that mark its site are now known as the 'ruins of Hampi'.

PREFACE

The Economic Tables of the 1971 Census, or the 'B Series' as they are referred to, consist of nineteen tables of which two are based on full count and the rest on a 10% rural and 20% urban sample. The two tables which are based on full count are B-I Part A and B-II. These are presented in this volume. The other tables will be published in Part II B(ii) as a separate volume.

The tables in this volume are presented at the town and taluk levels. The definitions and concepts are discussed in the Introductory Note. It is suggested that a reading of the Introductory Note would be useful for an understanding of the tables. A few analytical tables are included.

The tables presented here have been prepared in the Central Tabulation Unit of this office under the supervision of Sri B. S. Narasimha Murthy, Asst. Director of Census Operations. I must thank Sri K. K. Chakravorthy, Asst. Registrar General (Census and Tabulation) for his assistance. The advice and encouragement of Sri A. Chandra Sekhar, I.A.S. Registrar General and Census Commissioner of India, sustained us in our task and to him I tender our thanks.

INTRODUCTORY NOTE

The Economic Tables of the 1971 Census are included in the B-Series. The economic tables envisaged are as follows:—

ECONOMIC TABLES

B-I	Part A	Workers and non-workers according to main activity classified by sex and age-groups (*Full count*).
B-I	Part B	Female workers and non-workers according to main activity classified by marital status and age-groups (Sample).
B-II		Workers and non-workers in cities and non-city urban areas according to main activity by sex and age-groups (*Full count*).
B-III	Part A	Classification of workers and non-workers according to main activity by educational levels in Urban Areas only (Sample).
B-III	Part B	Classification of workers and non-workers according to main activity by educational levels in Rural Areas only (Sample).
B-IV	Part A	Industrial Classification of persons at work other than at cultivation as main activity by Sex and Divisions, Major Groups and Minor Groups (Sample).
B-IV	Part B	Industrial Classification of workers in manufacturing, processing, servicing and repairs on household industry basis as main activity by sex and class of workers (Sample).
B-IV	Part C	Classification of workers in non-household Industry, Trade, Business, Profession or Service as main activity by class of workers, age and sex (Sample).
B-IV	Part D	Industrial classification by sex and class of workers of persons at work in non-household Industry, Trade, Business, Profession or Service as main activity (Sample).
B-V	Part A	Occupational Classification by sex of persons at work according to main activity other than cultivation (Sample).
B-V	Part B	Occupational Classification by sex and class of workers in non-household Industry, Trade, Business, Profession or Services as main activity (Sample).
B-VI	Part A (i)	Occupational Classification of persons at work according to main activity other than cultivation classified by sex, and broad age-groups in Urban Areas only (Sample).
B-VI	Part A(ii)	Occupational Classification of persons at work according to main activity other than cultivation classified by sex and educational level in Urban Areas only (Sample).
B-VI	Part B(i)	Occupational Classification of persons at work according to main activity other than cultivation by sex and broad age-groups in Rural Areas only (Sample).
B-VI	Part B(ii)	Occupational Classification of persons at work according to main activity other than cultivation by sex and educational levels in Rural Areas only (Sample).
B-VII		Secondary work *i.e.* persons having main activity (i) as Cultivator (ii) as Agricultural Labourer (iii) at Household Industry (iv) at Non-household Industry and (v) Non-workers classified by sex and by secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural Labourer or (iv) Non-household Industry, Trade, Business or Service (Sample).
B-VIII		Persons classified as non-workers according to main activity cross-classified by sex, broad age-groups and type of activity (Sample).
B-IX	Part A	Non-workers categorised as others aged 15 and above classified by sex, broad age-groups and educational levels in Urban Areas only (Sample).
IX	Part B	Non-workers categorised as others aged 15 and above classified by sex, broad age-groups and educational levels in Rural Areas only (Sample).

Of the B-series tables indicated above only Table B-I Part A (Workers and non-workers according to main activity classified by sex and age-groups) and Table B-II (Workers and non-workers in cities and non-city urban areas according to main activity by sex and age-groups) are based on full count. All the other B-Tables have been prepared on the basis of a 10 per cent sample of the slips of the rural areas and a 20 per cent sample of the urban areas. In this publication, only Table B-I Part A and Table B-II are presented. The other Tables will be presented in Part II-B (ii). Table B-I Part A is presented upto the Taluk level with rural and urban break-up and Table B-II at the City/Town level.

The economic questions included in the Individual slip canvassed at the 1971 Census were Questions 16 and 17. These are reproduced below:

16. MAIN ACTIVITY

(a) Broad category
- (i) Worker (C, AL, HHI, OW)
- (ii) Non-Worker (H, ST, R, D, B, I, O)

(b) Place of work (Name of Village/Town)

(c) Name of Establishment

(d) Nature of Industry, Trade, Profession or Service

(e) Description of Work

(f) Class of worker

17. SECONDARY WORK

(a) Broad category (C, AL, HHI, OW)

(b) Place of work (Name of Village, Town)

(c) Name of establishment

(d) Nature of Industry, Trade, Profession or Service

(e) Description of work

(f) Class of worker

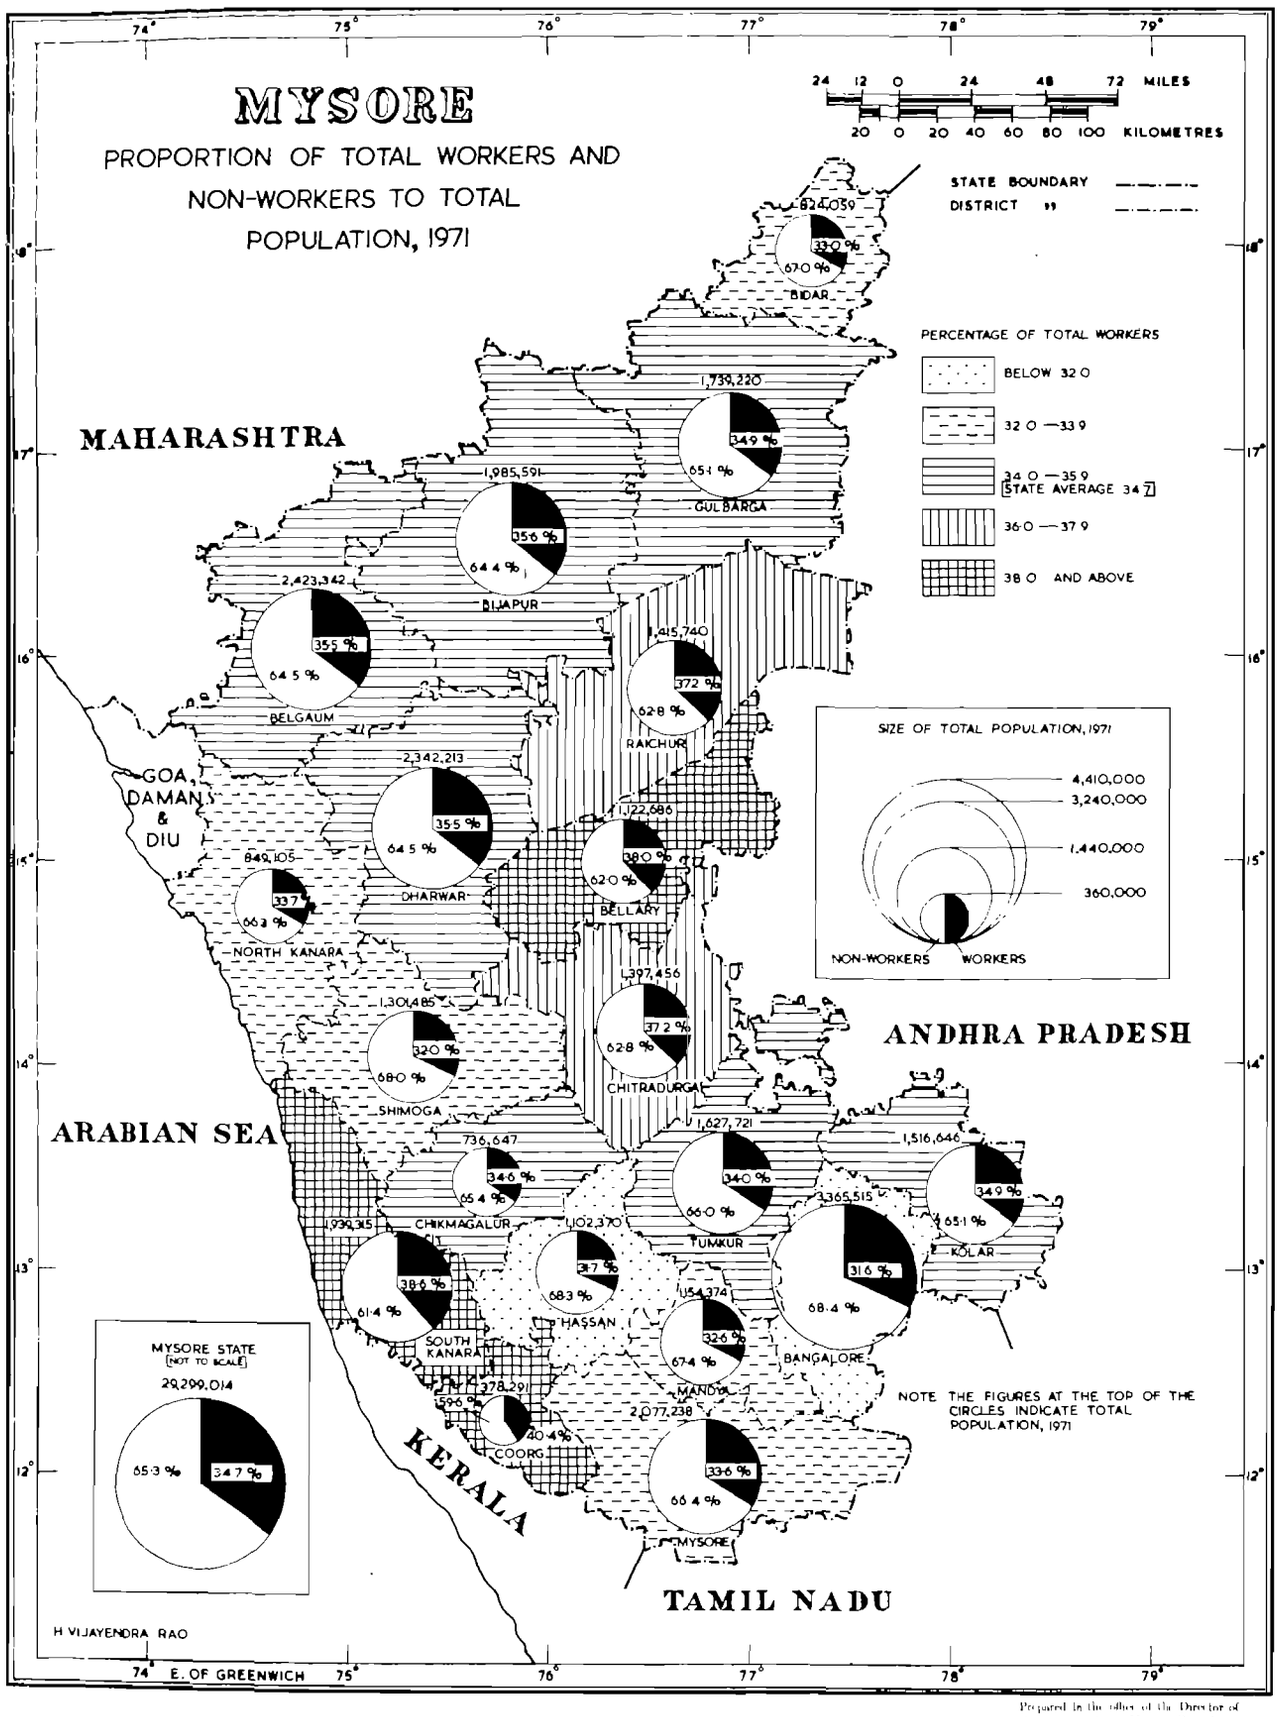

The instructions to the enumerators as to how these questions were to be canvassed are reproduced in Appendix I to this Note. For the purpose of Q. 16, all persons are classified first into Workers or Non-workers depending on their Main Activity. The Main Activity of a person is how he engages himself mostly (in terms of time and not income). After a person has been classified as a worker or non-worker, he is further classified into various categories of worker or non-worker. These concepts are briefly discussed here.

Worker

A worker is "a person whose main activity is participation in any economically productive work by his physical or mental activity. Work includes not only actual work but effective supervision and direction of work". In order to enable a person to be classified as a worker, a reference period was fixed during which he must have carried on the economically productive work referred to in the definition. The reference period was defined as follows:

Reference period

The reference period is *one week prior to the date of enumeration* in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on *any one* of the days *during this reference period* and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

Prepared in the office of the Director of Census operations, Mysore, Bangalore.

There are certain types of works which are not carried on throughout the year such as cultivation, live-stock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

Workers were classified into four categories as follows:

i)	Cultivators	C
ii)	Agricultural Labourers	AL
iii)	Household Industry	HHI
iv)	Other Workers	OW

Cultivator : For the purposes of the Census, a person is working as a cultivator if he or she is engaged in cultivation by himself or herself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payments of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and pulses, raw jute and kindred fibre crops, cotton, etc., and other crops such as sugarcane, groundnuts, tapioca etc., but does not include fruit-growing, vegetable-growing or keeping orchards or grooves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations. The type of crop, therefore, also is relevant in characterising a person as a cultivator. To make the matter clear to the enumerators the following clarification was issued to them:

"The growing of the crops mentioned below is cultivation and those engaged in this activity are cultivators:—

(i) Cereal and millet crops—paddy, wheat, jowar, bajra, maize, ragi, barley etc.

(ii) Pulses—arhar, mong, masur, urd, dal grams etc.

(iii) Raw cotton, jute, mesta, sun-hemp and kindered crops.

(iv) Oil seeds—sesamum, groundnut, rape, mustard, linseed, castor etc.

(v) Sugarcane.

The growing of the following crops will not be considered as cultivation and, therefore, a person engaged in their production is not a cultivator:—

(i) Plantation crops—tea, coffee, rubber, tobacco, pepper, cardamom etc.

(ii) edible nuts (other than groundnut)—walnut, almond, cashewnut etc.

(iii) fruits—bananas, apples, grapes, mangoes, oranges etc.

(iv) coconuts.

(v) ganja, cinchona, opium, medicinal plants.

(vi) betal nuts (areca).

(vii) flowers.

(viii) roots and tubers, chillies, and spices (other than pepper and cardamom).

(ix) other crops not specifically excluded.

A person who cultivates the crops the growing of which is not cultivation is classified as other worker OW)".

Agricultural Labourer

An agricultural labourer is one who works in another person's land for wages in money, kind or share. He has no risk in the cultivation but he merely works in another's land for wages.

Household Industry

Workers engaged in any production, processing, servicing or repair of goods which is carried on as a Household Industry were classified as HHI. Thus, it is the character of the unit that carries on the production, processing, servicing or repair that determines whether the worker engaged in this activity should be classified as HHI or OW (Other Worker). The essential features of a Household Industry are as follows:—

(i) A HHI must relate to the production, processing, servicing, repair of goods or making and selling of goods.

(ii) Professions such as that of a lawyer, doctor, barber, musician, dancer, dhobi, astrologer, pandit, priest, etc., are not HHI. So also, activities, relating to banking, insurance, real estate, business services are not HHI.

(iii) Any activity which involves only buying and selling of goods without any element of processing etc., does not constitute HHI.

(iv) The head of the Household and/or one or more member of the household must actually participate in the industry. Participation also includes supervision and direction. However, if the industry is run mainly by hired labour it is not HHI. There may be a few hired labourers but the participation has to be mainly by members of the household.

(v) In urban areas, the industry must be located in the premises of the house in which the household lives if it is to be classified as a HHI.

(vi) In rural areas, the industry may be anywhere within the limits of the village; it need not be actually located in the house in which the household lives.

(vii) The industry should not be on the scale of a registered factory.

(viii) The production should be mainly for sale and not for consumption by the household itself.

A person could be a labourer in an industry which is a HHI. Such a person would also be recorded as HHI in Q. 16(a)(i).

Some activities specifically do constitute HHI even though there is an element of production or processing. These are:

(i) Plantation work.

(ii) livestock maintenance and production such as cattle, goats, sheep breeding, poultry farms, bee keeping, rearing of silk worms and production of cocoons and raw silk, production of milk, eggs, honey, wax, bones etc.

(iii) hunting, trapping and selling of the catch.

(iv) forestry and logging log, fuel, charcoal, production, gathering and selling of fodder and other forest produce etc.

(v) fishing, including rearing of fish, collection of pearls, shells, sea products etc.

(vi) mining and quarrying.

Persons engaged in these activities are classified as 'Other Worker' even in cases where the household carries on these activities. Incidentally, cultivation is not a household industry, and if the members of a family are together engaged in cultivation, they are categorised as C (Cultivators) and not HHI.

Other Workers

All persons who are *workers* but not engaged in cultivation, agricultural labour or household industry are classified as 'Other Workers' (OW). This would include factory workers, those working in trade, transport, all government servants, municipal employees, teachers, mining workers, political and social workers, building labourers etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry comes under this category.

Non-Workers

Non-workers are those whose main activity, by definition, is not economically productive. There are seven broad types of non-workers and these are those engaged in Household duties, Students, Retired persons or Rentiers, Dependents, Beggars etc,. persons living in Institutions and Other Non-workers. In the tables in this volume only the total of all non-workers by age-group are given and, therefore, it is not proposed to discuss the types of non-workers further.

Industrial Categories

For the purposes of presentation of Census data, all workers have been classified into broad Industrial Categories. The Industrial Categories adopted at the 1971 Census are as follows:

Industrial Category	*Description*
I	Cultivators
II	Agricultural Labourers
III	Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV	Mining and Quarrying
V	Manufacturing, Processing, Servicing and Repairs in
	V(a)—Household Industry
	V(b)—Other than Household Industry
VI	Construction
VII	Trade and Commerce
VIII	Transport, Storage and Communications
IX	Other Services.

For convenience, Non-workers are classified as Category X.

The Industrial Categories I to IX adopted for the tabulation and presentation of data in Tables B-I Part A and B-II are linked with the National Industri Classification, 1970 (NIC). The N.I.C. is presented in detail in Appendix II to this Note. The N.I.C. consists of 10 Divisions, 66 Major Groups and 385 Minor groups which are distributed among the nine Industrial Categories of the Census. The relationship between the Industrial Categories III to IX and the N.I.C. is indicated below:—

Industrial Category	Division	Description	N.I.C.	
			Major Group	Minor Group
III	0	Agriculture, Hunting, Forestry and Fishing	00 01 to 06	007 only 010 to 069

Under Industrial Category V, Workers are classified as V(a) or V(b) depending on whether the industry is HHI or not. The type of workers that would get categorised as 'Construction', 'Trade and Commerce' etc., will be clear on a reference to the Minor Groups indicated above.

Cultivators and Agricultural Labourers were identified separately in the individual slip and it was therefore not necessary to assign the N.I.C. Codes to these activities as such. However, it may be mentioned that the Minor groups of the N.I.C. which would be included under cultivation would be 000 to 008, excluding Minor group 007.

At this point it is relevant to point out the difference between the Industrial Categories adopted at the 1971 and 1961 Censuses. At the 1961 Census, Category III included Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and allied activities with Mining and Quarrying and Household Industry was separately categorised as Category IV. At the 1971 Census, Mining and Quarrying has been separately categorised as Category IV and Household Industry brought under Category V. The categories at the two Censuses are indicated below for easy comparison.

Industrial Categories of 1971 and 1961 Censuses.

Industrial Category	1971	1961
Cultivators	I	I
Agricultural Labourers	II	II
Livestock, Forestry, Fishing, Hunting, and Plantations, Orchards and allied activities Mining and Quarrying	III IV	III
Manufacturing, Processing, Servicing and Repairs		
Household Industry	V(a)	IV
Other than household industry	V(b)	V
Construction	VI	VI
Trade & Commerce	VII	VII
Transport, Storage and Communications	VIII	VIII
Other Services	IX	IX
Non-workers	X	X

There is an important difference between the type of activities that are included under Household Industry in the 1961 Census and those included in the 1971 Census. In the 1961 Census, Household Industry included activities under Division 0 Agriculture, Hunting, Forestry and Fishing and Division I Mining and Quarrying of the N.I.C. along with those under Division 2 and 3 Manufacturing and Repair. In the 1971 Census the activities falling under Divisions 0 and 1 are excluded from Household Industry and the latter, therefore, only covers those falling under Divisions 2 and 3 Manufacturing and Repair.

Age-groups

The data on workers and non-workers in Tables B-I Part A and B-II are presented for eight age-groups, namely, 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59, 60+. There is a residual group of 'age not stated'. In the corresponding tables of 1961, the data was presented for only four age-groups namely, 0-14, 15-34, 35-59, 60+ along with the residual category of 'age not stated'.

Age was recorded at the 1971 Census in Q. 4 of the Individual Slip. In the Census, age is recorded in total years completed last birth day and not in "running years". In the case of infants who might not have completed one year by the day of enumeration, age was recorded as '0' as they would not have completed one year by the time the census count is taken.

Urban Areas

The data in Table B-I Part A is presented for Total, Rural and Urban while in Table B-II the data is presented for Cities, Urban Agglomerations and Towns. For the purposes of the Census, certain places were considered as urban on the following criteria:

(i) All places covered by Municipal Corporations, Municipalities, Cantonment Boards, Town Boards, Notified Area Committees or similar local bodies, irrespective of their population size or other characteristics.

(ii) All other places which satisfied the following criteria based on the 1961 Census:

(a) a minimum population of 5,000;

(b) at least 75% of the male working being engaged in non-agricultural occupations; and

(c) a density of population of at least 1,000 persons per sq. mile (400 per sq. km.).

In addition to places which qualified to be declared as urban on the basis of these criteria, certain other places were also declared as urban since their population exceeded 10,000 and they had pronounced urban characteristics. In all 245 places were declared as urban areas or Census Towns as they are called.

Census Towns are grouped into classes depending on population size as follows:

Class	*Population size*
I	above 100,000
II	50,000 to 99,999
III	20,000 to 49,999
IV	10,000 to 19,999
V	5,000 to 9,999
VI	Less than 5,000

The class I Towns are cities.

At the 1971 Census it was decided to group urban areas into Urban Agglomerations in place of the Town Group of 1961. The latter consisted of towns often separated by large stretches of rural area and was not considered as representative of the urban spread. In place of this Town Group the Urban Agglomeration was built up. The Urban Agglomeration is made up of a core town and the contiguous areas of urban spread around it. Contiguity was a basic consideration. The Urban Agglomerations constituted in this State are the following :

(1) Bangalore Urban Agglomeration consists of :

(i) Bangalore City Corporation and Trust Board Area

(ii) B.E.L. Township

(iii) H.A.L. Township

(iv) H.M.T. Township

(v) H.A.L. Sanitary Board

(vi) Devarjeevanahalli

(vii) Jalahalli

(viii) Kadugondanahalli

(ix) I.T.I. Notified Area

(2) Belgaum Urban Agglomeration consists of :

(i) Belgaum City Municipal Area

(ii) Belgaum Cantonment Board Area

(3) Bhadravati Urban Agglomeration consists of :

(i) Bhadravati Municipality

(ii) Bhadravati New Town Board

(4) Kolar Gold Fields Urban Agglomeration consists of :

(i) Kolar Gold Fields Sanitary Board Area

(ii) Robertsonpet Municipality

(5) Mangalore Urban Agglomeration consists of :

(i) Mangalore City Municipality

(ii) Derebail

(iii) Kankanadi

(iv) Padavu

(v) Ullal

With the grouping of the places mentioned above, the number of towns in the State are reduced from 245 to 230. The distribution of these 230 towns by class is as follows :

Class I	12	Towns (Cities)
Class II	9	,,
Class III	38	,,
Class IV	99	,,
Class V	46	,,
Class VI	26	,,

The names of the towns by class are given in Appendix IV to this Note and by districts and taluks in Appendix V.

Concept of Worker—1961 and 1971

It is necessary to notice the change in the structure and content of the economic questions between the 1961 and 1971 Censuses. In 1961, Questions 8 to 12 of the Individual Slip covered the economic activity of the person concerned. These questions were listed one after the other as follows :

8 working as Cultivator

9 Working as Agricultural Labourer

10 Working as Household Industry

11 Doing work other than 8, 9 or 10

12 Activity if not Working.

It was felt that the questions as structured at the 1961 Census tended to categorise a person as a worker even if this person's contribution to work was extremely marginal. Thus, a housewife who might only be occasionally helping in the family field would be recorded as a cultivator because that question would elicit a positive reply. The following quotation on this matter would be relevant [1].

"Confining ourselves to the Indian definitions of the 1961 Census and the 1971 Census, with which we are now immediately concerned, it was the opinion of experts that the 1961 definition of work was on the liberal side which had exaggerated participation rates. At that Census, a person was categorised basically as an economically active worker even if such a person's contribution to work was extremely marginal. In respect of seasonal work like agriculture or household industry, if a person had put in an hour's work a day during the major part of working season, such a person was treated basically as an economically active worker. So much so, if a woman who is basically engaged in attending to household duties, went to her husband's field taking his lunch and for about an hour or so she tended the cattle, she was straightaway, treated as engaged in cultivation. Similarly a full time student, if he sat for a little time, however short the period might have been in his father's shop even on a single day in a fortnight, he was treated as an economically active worker and his basic characteristic as a whole-time student was ignored. Besides, the sequence of questioning to ascertain the economic activity at the 1961 Census was as follows :

Every individual was compulsorily asked if he was engaged in (i) cultivation (ii) in agricultural labour (iii) at household industry and (iv) in any other work in the above order. A person who is basically an agricultural labourer even if he cultivated a couple of cents of land in his back-yard, declared himself first as cultivator and then as an agricultural labourer. No doubt, instructions were issued at a later stage that after ascertaining the economic activity under the 4 items referred to above, the enumerators will be required to put a circle

[1] P. 27, Paper I of 1971—Supplement, Provisional Population totals, India Issued by Registrar-General, India.

against the question which represented the main work *i.e.*, the one on which the person spent most time and to tick the entry relating to the item that formed the secondary work. But it is so happened that several enumerators could not follow these instructions either due to the belated receipt of instructions or on account of non-appreciation of the concepts. At the stage of editing the schedules in the Tabulation Offices subsequently, the instructions were to the effect that where economic activity was recorded against cultivation, agricultural labour and household industry and if there was no indication of which among them formed the main activity, cultivation should be treated as the main activity. This introduced a definite bias in favour of persons being categorised as cultivators. Therefore, the participation rate in cultivation at the 1961 Census obviously got inflated. There was also a possibility that during the period when there was much talk of land reforms, several agricultural labourers were tempted to declare themselves as cultivators of land rather than as agricultural labourers with the hope of establishing a right as cultivator. There were also instructions to the effect that if a person besides attending to any economic activity was also attending to household duties, the fact of such a person being engaged additionally as a housewife should also be recorded in parenthesis. The intention apparently was to bring out the picture of such of the workers who might have been basically housewives but participated in work marginally. But unfortunately no tabulation was attempted of the cases where a person was basically housewife or wholetime student but had been noted as economically active worker for classification. This deficiency in the 1961 Census concept was sought to be rectified by adopting a different approach at the 1971 Census."

In view of this result of the 1961 concepts, the scope of the economic questions in the 1971 Census was considered by expert groups. The proceedings of the Planning Commission held on May, 24, 1969 on this issue are reproduced below :

"The concept of worker and non-worker came up for detailed consideration. The reference period proposed for the 1971 Census was one week for regular work and last working season for seasonal work. For regular work, an individual would be classified as a worker if he had put in gainful work on any one day of the previous week. For seasonal work, an individual was proposed to be classified as worker if he had put in regularly at least half normal day's work during the major part of the last working season. At the 1961 Census the reference period for regular work was a fortnight and for seasonal work a person was deemed a worker if he put in at least one hour work a day during the major part of the working season.

It was felt that the concept of worker at the 1961 Census tended to inflate workers as persons who were basically non-workers like housewives, students etc., were included in the category of workers even though their participations was very marginal. The concept of half a day's normal work proposed for 1971 Census for seasonal work was also considered not realistic. While the reference period of one week for regular work was alright, for regular work, what was essential was that every person should be basically classified according to his/her main activity, particularly those not engaged in regular work. Certain activities like cultivation, agricultural labour, etc., are not carried out throughout the year. Therefore, a person enumerated should be asked to state what his main activity was and even if he was not engaged in that activity during the reference period of one week, if he had engaged himself in the main activity reported by him in the course of the last one year, that shall be treated as his main activity. In the case of persons who are basically occupied as house workers, students, rent receivers, etc., they should be classified as such for their main activity. If they were also engaged in some economic activity obviously not to the same extent as full-time workers, that activity should be ascertained under the head of secondary work. The secondary work, if any, of those who are basically classified as workers will also be ascertained.

Summarising the above, the following decisions were taken :

* * * * *

Individual Slip

* * * * *

(ix) Every person will be categorised with respect to the main activity as reported by him.

(x) Persons who are basically students, house workers and rent receivers, etc., will be classified accordingly for their main activity. Any gainful activity that these individuals may have but not on the scale of full-time workers will be shown under secondary work.

(xi) Census data may not provide data on under or unemployment as such.

Thus it was after deep consideration and with expert advice, the present concept of worker and non-worker came to be adopted for the 1971 Census of India.

At this Census every individual was required to declare himself what according to him was his main activity. If his answer indicated that he was economically active worker, he was classified as working as a cultivator or as an agricultural labourer, or at household industry or in other work, such as forestry, mining, manufacturing, trade, transport, services, etc. If a person returned himself basically as not engaged in any economic activity, such a person was required to state if he or she was engaged in household duties, or was a student,

retired person or a rentier, a dependent, a beggar or vagrant, inmate of a charitable or penal institution or other non-worker such as being mostly an unemployed person. In addition, at this Census every one was also asked to state if he or she attended to any secondary work so as to get an account also of the marginal contribution to work made by persons who had declared themselves basically as a housewife or a full-time student etc."

At the 1971 Census, therefore, every individual was first asked to declare his main activity. If the individual was economically active he was classified as cultivator, agricultural labour, household industry or as other worker. The classification would depend on the main economic activity of the person. Persons were also asked if, apart from the main activity, they did any secondary work. If so, they were appropriately categorised in Question 17. This structure emphasises main activity as such. Thus, a woman who is mainly a housewife but works occasionally in the fields to help the family would be recorded as a 'Non-worker—Housewife' first under Question 16 and her occasional agricultural work would be reflected in Question 17 as cultivation or agricultural labourer. In the same situation in 1961, she would have generally be recorded as a cultivator or agricultural labourer primarily.

This change in concept partially explains the apparent disparities between the participation rates of 1961 and 1971.

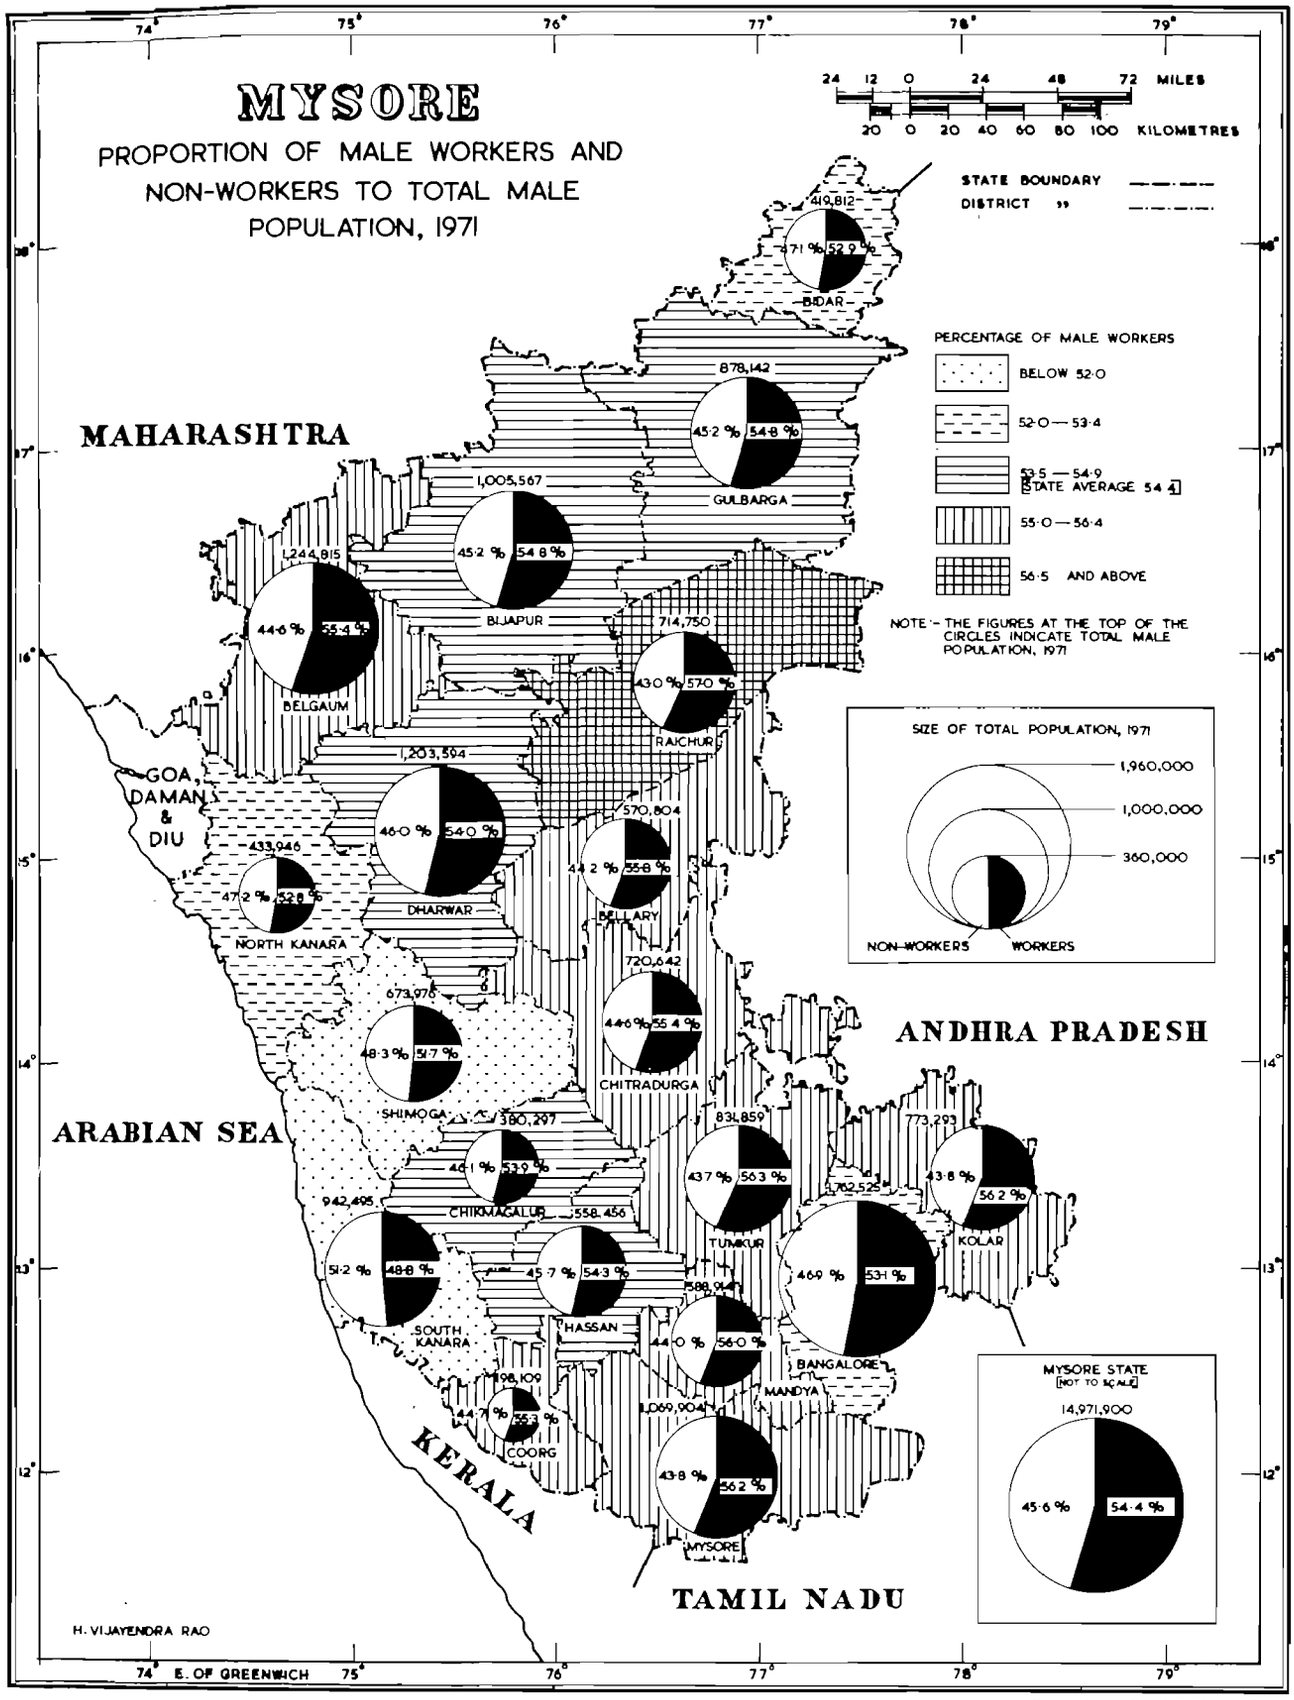

Economic Concepts 1881 to 1971

Information on the economic characteristics of the population has been collected from the earliest Censuses in this country and economic questions have been part of the Census questionnaire since 1872. In the Census of 1872, an attempt was made to collect data on 'occupation' but the classification was elementary. In the 1881 Census, no distinction was made between earners or dependents, workers or non-workers. The occupation of every person who actually did work and the chief source of income of those not having any occupation was recorded. Mere domestic occupations such as spinning did not entitle a person to be recorded as a worker unless the produce of this labour was brought to the market. If a person had two or more occupations, then the categorisation was on the basis of the occupation from which his income was chiefly derived, but if he combined agriculture with any profession or trade such as that of a money lender or pleader, carpenter or smith, both occupations were recorded. In the 1891 Census, economic data was collected for both workers and those dependent on them. The occupation or means of subsistence was recorded in respect of each person who did work. If a person had no regular work, the means on which he subsisted such as rents, pension etc., was recorded. In the case of children and women who did not work, the occupation of those by whom they were supported was recorded. If a person had two or more occupations, the chief one was recorded except in the case of a person who owned or cultivated land in addition to another occupation, when both occupations were entered.

At the 1901 Census, actual workers and dependents were distinguished. In 1911 and 1921, no change was made in the definition of actual workers and dependents, except that in 1921 women and children were also classified as workers if they did any work which contributed to the family income. In the 1931 Census, for the first time, a person was classified as an earner or dependent, with an intermediate category of 'working dependent'. In the 1941 Census, the term 'earner' was given up and the concepts of 'fully dependent' and 'partly dependent' were introduced but the economic tables were not published in most parts of the country. In the 1951 Census, the concepts of 'self-supporting persons' and 'earning dependents' were introduced. In the 1961 Census, the categorisation was on the basis of workers and non-workers. For the first time, information on the categories of non-workers was collected. In the 1971 Census, the categorisation of workers and non-workers has been maintained but the concept of Main Activity was evolved.

The changes in the economic questions mentioned above indicate some broad trends. The main economic questions in the Censuses of 1891-1921 were related to livelihood or occupation or means of subsistence of each worker. In actual practice, however, even persons who were not working but were receiving income from land, property etc., were considered as economically active. The concept of income was specifically introduced in 1931, 1941 and 1951. Thus, in 1931 the population was divided into three classes of 'earner', 'Working dependent' and 'non-working dependent'. In 1941, the classifications were 'wholly dependent', 'partly dependent' and 'others'. In 1951 there was a further change and the classification was 'self-supporting person', 'earning dependent' and 'non-earning dependent'. In 1961, the population was divided into 'workers' and 'non-workers' while in 1971 the division was on the basis of main activity into workers and non-workers.

The economic questions at the censuses from 1872 are indicated in Statement 1. In none of the censuses was any priority implied in the arrangement of the economic questions except in 1971 when instructions were issued that Q. 17 should only follow after Q. 16. In 1961 Census it was instructed that all the four questions (Q. 8, 9, 10 & 11) had to be canvassed first before a person could be recorded as a non-worker in Q. 12. This order of the questions in 1961 was decided upon as more than 75% of the population would be covered by Q. 8, 9 and 10.

Prepared in the office of the Director of Census operations, Mysore, Bangalore

It was only at the 1971 Census that a specific question on Secondary Work was canvassed. At the 1961 Census, secondary work was expected to be identified by the enumerators to whom instructions were issued as follows: "After you have filled up the answers to questions 8 to 11 if you find that in the case of any person more than one productive activity has been recorded, i.e., more than one of the questions 8, 9, 10 or 11 has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11 according to the work on which the person spends most time. You should invariably ask for the principal work when more than one work is recorded and put a ring round the question relating to the principal work.....you should then ascertain the work which is next in importance to his principal work, i.e., the work after his principal work which occupies most time. You should put a tick against the question number of that work.....". In the 1951 Census, an income criterion was applied to distinguish principal and secondary work. The occupation which fetched higher income was designated as the principal one and the one fetching the lower income as the secondary one. In the 1941 Census, means of livelihood in order of importance was recorded while in the 1931, 1921, 1911 and 1901 Censuses, details of both principal and subsidiary occupations were elicited.

The structure of the economic questions from 1901 to 1971 is considered in some detail. In the Censuses of 1901, 1911 and 1921, the population was divided into "actual workers" and "dependents". The term "actual worker" included all persons who actually did work or carried on business whether personally or by means of servants or who lived on house-rents, pensions etc. Persons who were not "actual workers" were "dependents". At the 1931 Census, three classes were defined; the first was "earners", the second "working dependents" and the third "non-working dependents". An "earner" was defined as a person who did work or carried on business either personally or by means of servants for which a return was obtained in cash or in kind or one who lived on house-rent, pension, etc. A "working dependent" was a person who worked and had an occupation but did not receive any income in cash or kind nor controlled the means of subsistence. Thus, for example, a person who assisted with the work of the family and contributed to its support without actually earning any wages would be a "working dependent". A "non-working dependent" was one who did no work or had no occupation. At the 1941 Census, the classes were defined as "independent worker", "partly dependent" and "wholly dependent". A person who was not dependent on any other person was an "independent worker", a person who contributed in cash or kind towards the support of the household without being definitely able to support himself was "partly dependent", a person who had no income in cash or kind was defined as "wholly dependent". At the 1951 Census, the population was divided into three classes of "self-supporting person", "earning dependent" and "non-earning dependent". When a person received an income, whether in cash or kind, which was sufficient at least for his or her maintenance, such a person was recorded as a "self-supporting person". Anyone who was not a "self-supporting person" in this sense was a dependent. A dependent was either an "earning dependent" or a "non-earning dependent" depending on whether such a persons received a regular income or not. If the income received by a dependent was not sufficient for his maintenance then he was classified as an "earning dependent". If no income was at all received, one was a "non-earning dependent".

From 1901 to 1921, the distinction was only between "actual workers" and "dependents" and income or dependency was not a criterion. It was only at the 1931 Census and thereafter that the income criterion was applied and dependency associated with the abilty to sustain oneself rather than on whether one worked on not as a sole characteristic. To a large extent, the 1901 to 1921 definition would have yielded better data regarding unpaid family workers than the 1931 to 1951 criterion.

From this analysis it will be evident that from the 1931 Census to the 1951 Census, the classification was based on the fact of "dependency". This criterion of dependency was related to income and made no distinction between participation in the process of production of goods or services and non-participation in such an economic process. The classification from 1931 to 1951 was based on a dependency approach and not a work approach. The concepts adopted at the 1951 Census were considered inappropriate since income or self-support considerations were felt to be highly subjective concepts, the answers to which would vary from situation to situation and be incapable of verification. It was, therefore, decided to have a clear cut definition that would only distinguish workers and non-workers as such without any income considerations influencing the classification and would thus clearly indicate the working force. The participation in the production of economic goods and services was considered as a more appropriate criterion to identify workers than income. There are many persons who receive income by way of pensions or rents without participation in any productive process. Such persons, as also all those who do not participate in production of economic goods and services, would be appropriately classified as non-workers. Thus, at the 1961 Census the distinction was only between workers and non-workers. This was continued in the 1971 Census, also with some important differences mentioned earlier.

The determination of whether one was a worker or not was, till 1951, based on one's "usual status" and was not determined on the basis of any specified reference period. The "usual status" during the previous

one year or even at the time of enumeration was the only consideration. At the 1961 Census, the constraint of a "reference period" was introduced and continued in 1971. The instructions on the reference period in 1961 and 1971 Censuses are given below:

Reference period

1961

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. .In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. A person who is working but was absent from his work during fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non-worker.

1971

The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

The reference periods adopted for the 1971 and 1961 Censuses are similar except that in the case of regular employment the reference period was fifteen days in 1961 but was reduced to one week in 1971.

Information on non-workers has also been collected at each Census. In the Census of 1901, 1911 and 1921, the non-workers would, strictly speaking, be made up of the category of "dependents". In the Census of 1931, 1941 and 1951, the "non-working dependents", "wholly dependent" and the "non-earning dependent" would constitute non-workers. However, on the consideration that only participation in economic, productive activity can be deemed as work, it will be noticed that the concepts of earners or workers from 1901 to 1951 Census permit the classification as workers persons who do not participate in productive activity such as rent receivers, pensioners etc. It is necessary to shift such persons from workers to non-workers and in working out the census historic series of participation the Registrar General has done this by including all persons with

unproductive means of livelihood of these Censuses upto 1951 among non-workers. The Categories of persons who would also have to be considered as non-workers in these censuses are indicated below:

1901:

"Actual workers" in unproductive occupations :—

(a) rent-receivers
(b) prostitutes, procurers, pimps etc,
(c) receivers of stolen goods
(d) witches, wizards, cow-poisoners etc.
(e) house-rent, shares and other property not being land
(f) allowances from patrons and relatives
(g) educational or other endowments, scholarships etc.
(h) mendicancy (not in connection with any religious order)
(i) pensioners, inmates of asylums, prisoners etc.

1911 ; 1921 ; 1931 :

(a) In the 1911 and 1921 Census, all "actual workers" in unproductive occupations as mentioned against 1931 Census below :

(b) "Earners" or "working dependent" in unproductive occupations as :
(i) non-cultivating proprietors, taking rent in money or kind
(ii) Proprietors (other than agricultural land), fund, scholarship holders and pensioners.
(iii) Inmates of jails, asylums and almshouses ;
(iv) beggars and vagrants ;
(v) procurers and prostitutes ;
(vi) other unclassified non-productive occupations.

1951 :

"Self-supporting persons" or "earning dependents" in unproductive occupations.

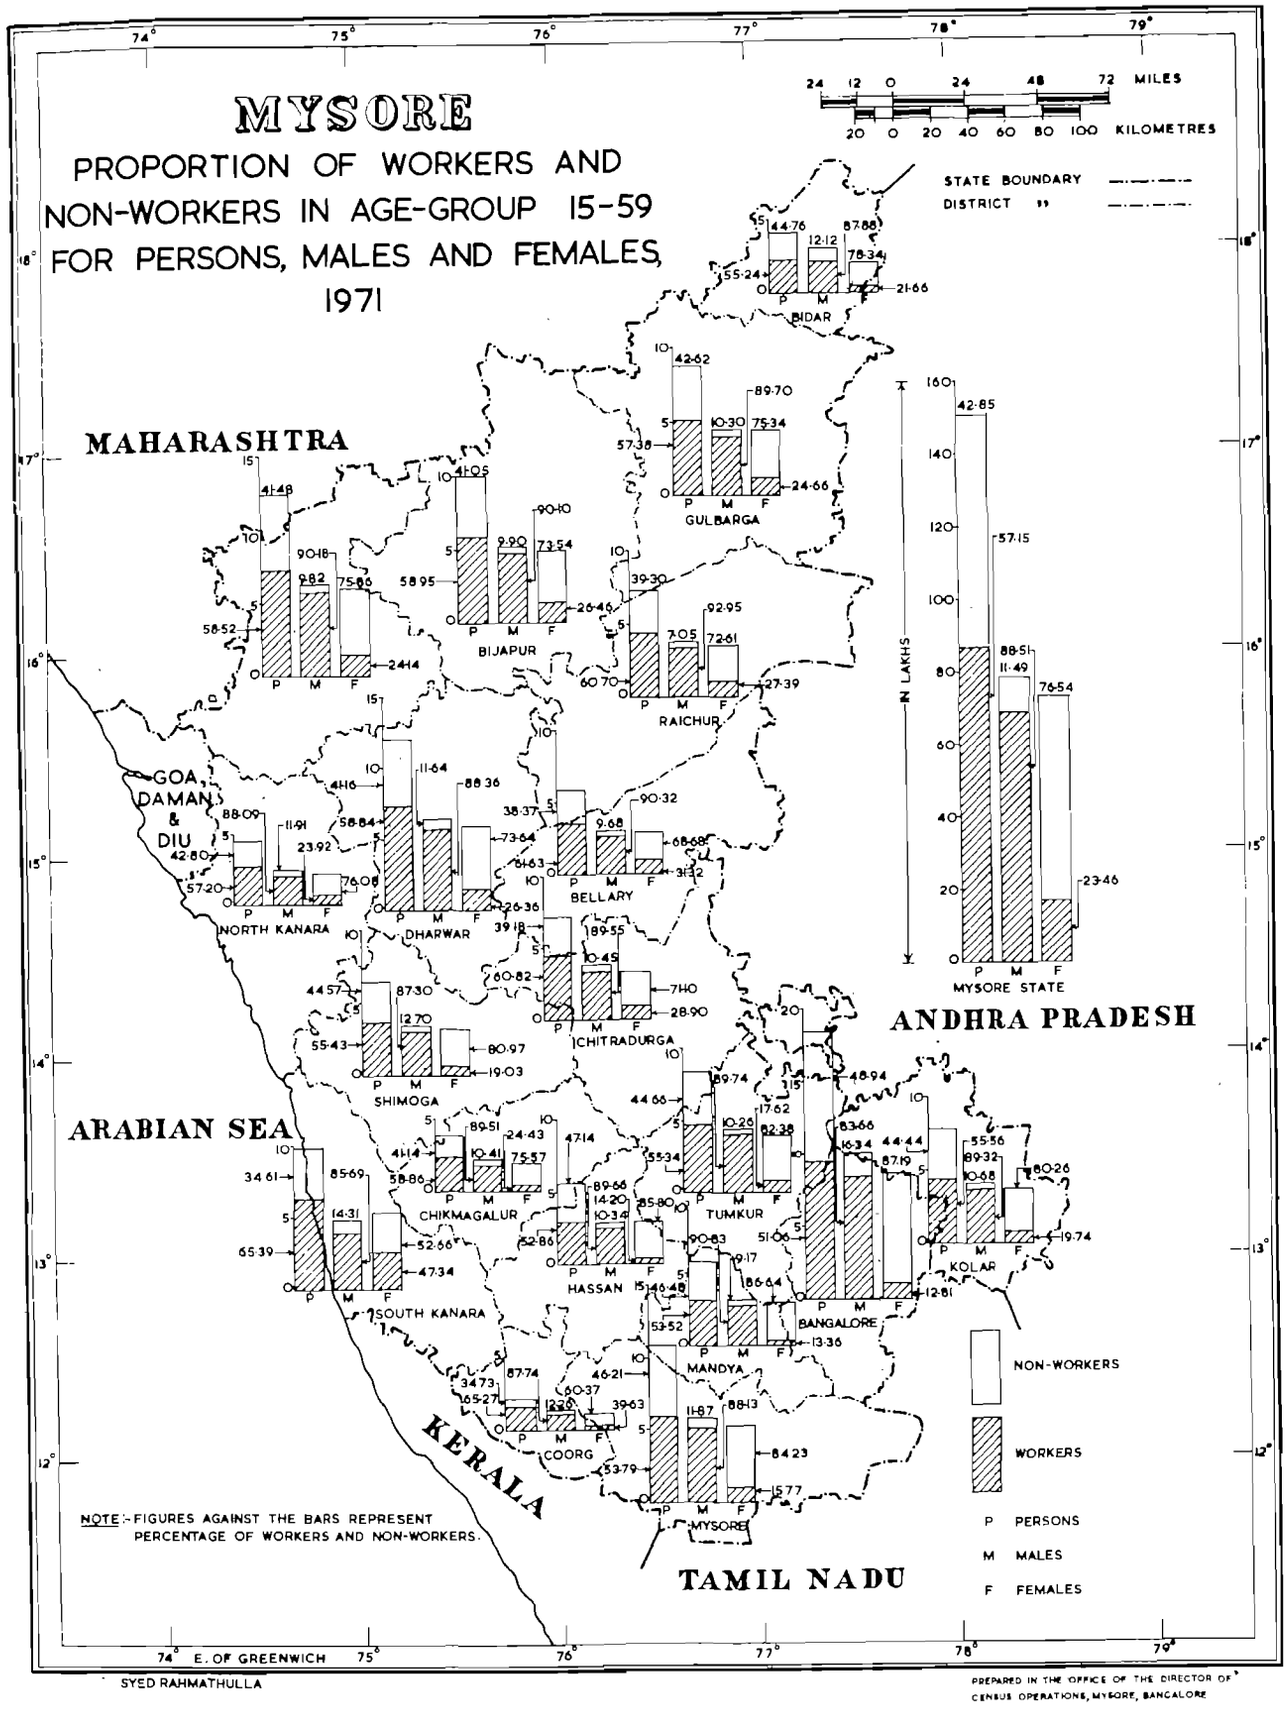

(a) agricultural rent receivers ;
(b) persons living principally on income from non-agricultural property ;
(c) pensioners, scholarships, funds and remittance holders ;
(d) inmates of jails, asylums, almshouses and recipients of doles, beggars, vagrants ,
(e) others living principally on income derived from unproductive activity.

In 1941, no tabulations were produced based on which such adjustments could have been made.

In 1961 and 1971, non-workers were clearly defined on the basis of non-participation in economic activity. The categories classified as non-workers in 1961 and 1971 are as follows :—

Non-workers

1961	1971
Pensioners	Those engaged in household duties.
Dividend holders or any other person of independent means for securing of which he does not have to work.	Students
Beggars, vagrants, independent woman without indication of source of income or others of unspecified source of existence.	Retired persons or rentier Dependents
Inmates of jails, mental or charitable institutions.	Beggars, vagrants, independent woman without indication of source of income or those of unspecified source of subsistence.
	Inmates of jails, penal, mental or charitable institutions. Other Non-workers (but who are seeking work).

STATE

Percentage Distribution of Males and Females

This statement gives the percentage distribution of males and females in each of the eight age-groups *viz.*, 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59, 60+, to total population of each district in the State. The figures indicate the percentage contributions of males or females for a particular age-group, to the total population. The table will be useful to study the Sex and Age structure of the population.

MENT 1

to total population by age-groups

There is a gradual decrease of population from younger ages to older ages for both males and females in all the districts except in the age groups 30-39 and 40-49. Mysore state has a high proportion of young unproductive population (nearly 42%) that is dependant on the productive section of the population.

Men and women in the age group 60+ account for less than 7% of the total population in all the districts of the State, the State average itself being 6.10%.

STATE

Percentage Distribution of Male and Female Population

This is similar to Statement No. 1, but the percentages of the male and female population in each age-group have been worked out to the total males and females separately. Age pyramids drawn on such data do not show any significant difference from that based on the data in Statement No. 1 as could be seen from the diagrams on pages. The population of young children is slightly more among females in Mysore State (Males 41.76%, Females 43.16%). This feature is reflected in all districts of the state except in Bijapur, Gulbarga, Raichur and South Kanara districts where the male proportion is higher than that of females.

STATEMENT 3

Participation of population in work by sex (Total, Rural and Urban) in 1971 and 1961—India

This statement gives the over-all participation rates in work recorded in the 1971 Census and in the 1961 Census for the country as a whole. In the 1961 Census, 43% of the total population were returned as workers while in the 1971 Census 33% have been returned as workers. The apparent decrease is mainly due to a change in definition. The Introductory Note may be referred to for further details regarding this change.

STATEMENT 5

Percentage distribution of workers as cultivators and other workers in Total/Rural/Urban areas according to the 1961 and 1971 Censuses

This statement shows the distribution of workers by categories as I—Cultivators, II—Agricultural Labourers, III—Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV—Mining and Quarrying, V—Manufacturing, Processing, Servicing and Repairs: V(a) Household Industry, V(b) other than Household Industry, VI—Construction, VII—Trade and Commerce, VIII—Transport, Storage and Communications, IX—Other Services and Non-workers, in the Total, Rural and Urban population for all the districts of Mysore State, by sex. Comparative figures of 1961 are also given. The figures are expressed as percentages of total workers. In 1961, category IV (Mining and Quarrying) was included under a combined category of Mining and Quarrying, Livestock, Forestry, Hunting, and Plantations, Orchard and Allied activities but in 1971 Mining and Quarrying has been separately designated as category IV. Thus Category III of 1971 excludes Mining and Quarrying. Therefore, in this statement the figures under Mining and Quarrying have not been separately shown while presenting the 1961 figures.

It will be observed that there is a large shift from cultivation to agricultural labour for the State as a whole as well as in all the districts in the State. As against 54% of the total working population returned as cultivators in the 1961 Census, the corresponding proportion in 1971 is 40%. Among agricultural labourers, it was 16% in 1961 while in 1971 it has risen to 27%. It appears that in 1961 the recording of persons was in favour of cultivators for the purpose economic activity. More striking is the fact that a number of female workers have shifted from cultivation to agricultural labour. In 1961, 56% of females were cultivators as against 23% in 1971. Among agricultural labourers, 24% of the female workers were accounted in 1961 as such while in 1971 the corresponding proportion is as high as 49%. This trend is reflected in all the districits of the State.

It is encouraging that the proportion of workers in the non-agricultural sector has shown an increase over the 1961 proportion in spite of the definitional change of work. In 1961, 30% of the total population was accounted for by non-agricultural workers whereas the corresponding proportion in 1971 is 33%, for Mysore State. Among males there has been a slight increase from 34.1% to 34.7% between 1961 and 1971. Among females, the increase in non-agricultural occupations is considerable. The increase has been from 20.7% to 27.6% between 1961 and 1971.

STATEMENT 6

Agricultural and Non-agricultural participation rates in the districts—1961 and 1971 Censuses

This statement will be helpfull in analysing the participation rates in the agricultural and non-agricultural sectors. The participation rates have been worked out for the State as well as for the districts and also for India as a whole. For purposes of comparison, 1961 proportions have also been presented within brackets.

Of the total participation rate of 34.7% in 1971, 23.2% are engaged in agricultural occupations while 11.5% account for non-agricultural activities. It will be seen that agricultural and non-agricultural participation rates are more than the All India participation rates of 23.0% and 9.9% respectively. A similar trend was observed in the 1961 Census. The participation rates among men are more than that of women.

The 1971 agricultural participation rate is the highest in Raichur district (28.4%) followed by Bellary (27.6%) and Chitradurga (27.2%) districts, it is least in Bangalore district (12.9%). Coorg district claims the highest non-agricultural participation rate (22.9%) followed by Bangalore distirct (18.7%). There is a high concentration of plantations in Coorg district and heavy concentration of industrial areas in Bangalore district.

The participation rate in non-agricultural activities is least in Mandya district with 6.2% preceded by Tumkur district with 7.5%.

In 1961, the agricultural participation rate was the highest in Tumkur district (40.1%) followed by Mandya district (39.8%). Coorg district claimed the highest participation rate of 26% in non-agricultural activities but in agricultural activities Bangalore District had the least proportion (20%). In 1961, Mandya district had the smallest proportion in the non-agricultural sector (7.6%).

STATEMENT 7

Distribution of 1,000 persons of each sex for Mysore State and districts among the Primary, Secondary and Tertiary sectors of Industry and Non-workers.

According to the 1971 Census, there are nine industrial categories of workers. Workers have been grouped under three sectors *viz.*, Primary, Secondary and Tertiary sectors as follows :

Primary sector

Category I—Cultivator

Category II—Agricultural labourer

Category III—Live stock, Forestry, Fishing, Hunting and plantation, Orchards and Allied activities and Category IV—Mining and Quarrying

Secondary Sector :

Category V—Manufacturing, Processing, Servicing and Repairs in :

(a) Household Industry

(b) Non-household Industry

Category VI—Construction

Tertiary sector :

Category VII—Trade and Commerce

Category VIII—Transport, Storage and Communications and Category IX—Other Services

This statement shows the distribution of 1,000 persons of each sex in each district among the above sectors of industry as well as non-workers.

Of the total population of 29.2 millions in Mysore State the number of persons recorded as workers and non-workers are 10.2 and 19.0 millions respectively or 34.74% and 65.26% respectively of the total population. In Mysore State, as in the rest of the country, the Primary Sector is the most important one and pro-

STATEMENT 7—*Contd.*

vides opportunities of work to a majority of the working population, both male and female. The employment in the Secondary and Tertiary sectors is comparatively less.

Of the total population of 29.2 millions in Mysore State 24.8% are engaged in primary activities. The primary sector may be considered made up of three components, the first one being Cultivation which includes Categories I and II, the second being Category III and the third Category IV. The proportions of population in these three components are 23.2%, 1.4% and 0.2% respectively. The male and female percentages for the State as a whole in the primary sector are 38.0% and 10.9% respectively. Excepting Bangalore, Bidar, Mysore, North Kanara, Shimoga and South Kanara districts, all the districts have exceeded the State average of 248 workers in the primary sector per 1,000 population. Among males, except Bangalore, Coorg, Dharwar, North Kanara, Shimoga and South Kanara districts all the districts have higher proportions than that of the State Average. Coorg's proportion is just equal to that of the State. Among females, all the districts have shown a higher proportion than that of the State average, except Bangalore, Bidar, Hassan, Mandya, Mysore, North Kanara, Shimoga and Tumkur districts.

It will be seen that the proportions of workers in the secondary and tertiary sectors are far below that in the primary sector. In the secondary sector there are 66 males and 16 females per 1,000 male and female population respectively for the State as a whole whereas in the tertiary sector, the corresponding figures are 98 and 17 per 1,000. In Bangalore district, the proportions among total and males are very high when compared to the State average. The participation rates for the secondary and tertiary sectors fluctuate from district to districts depending upon the level of industrial development and consequent urbanisation in these areas.

STATEMENT 13

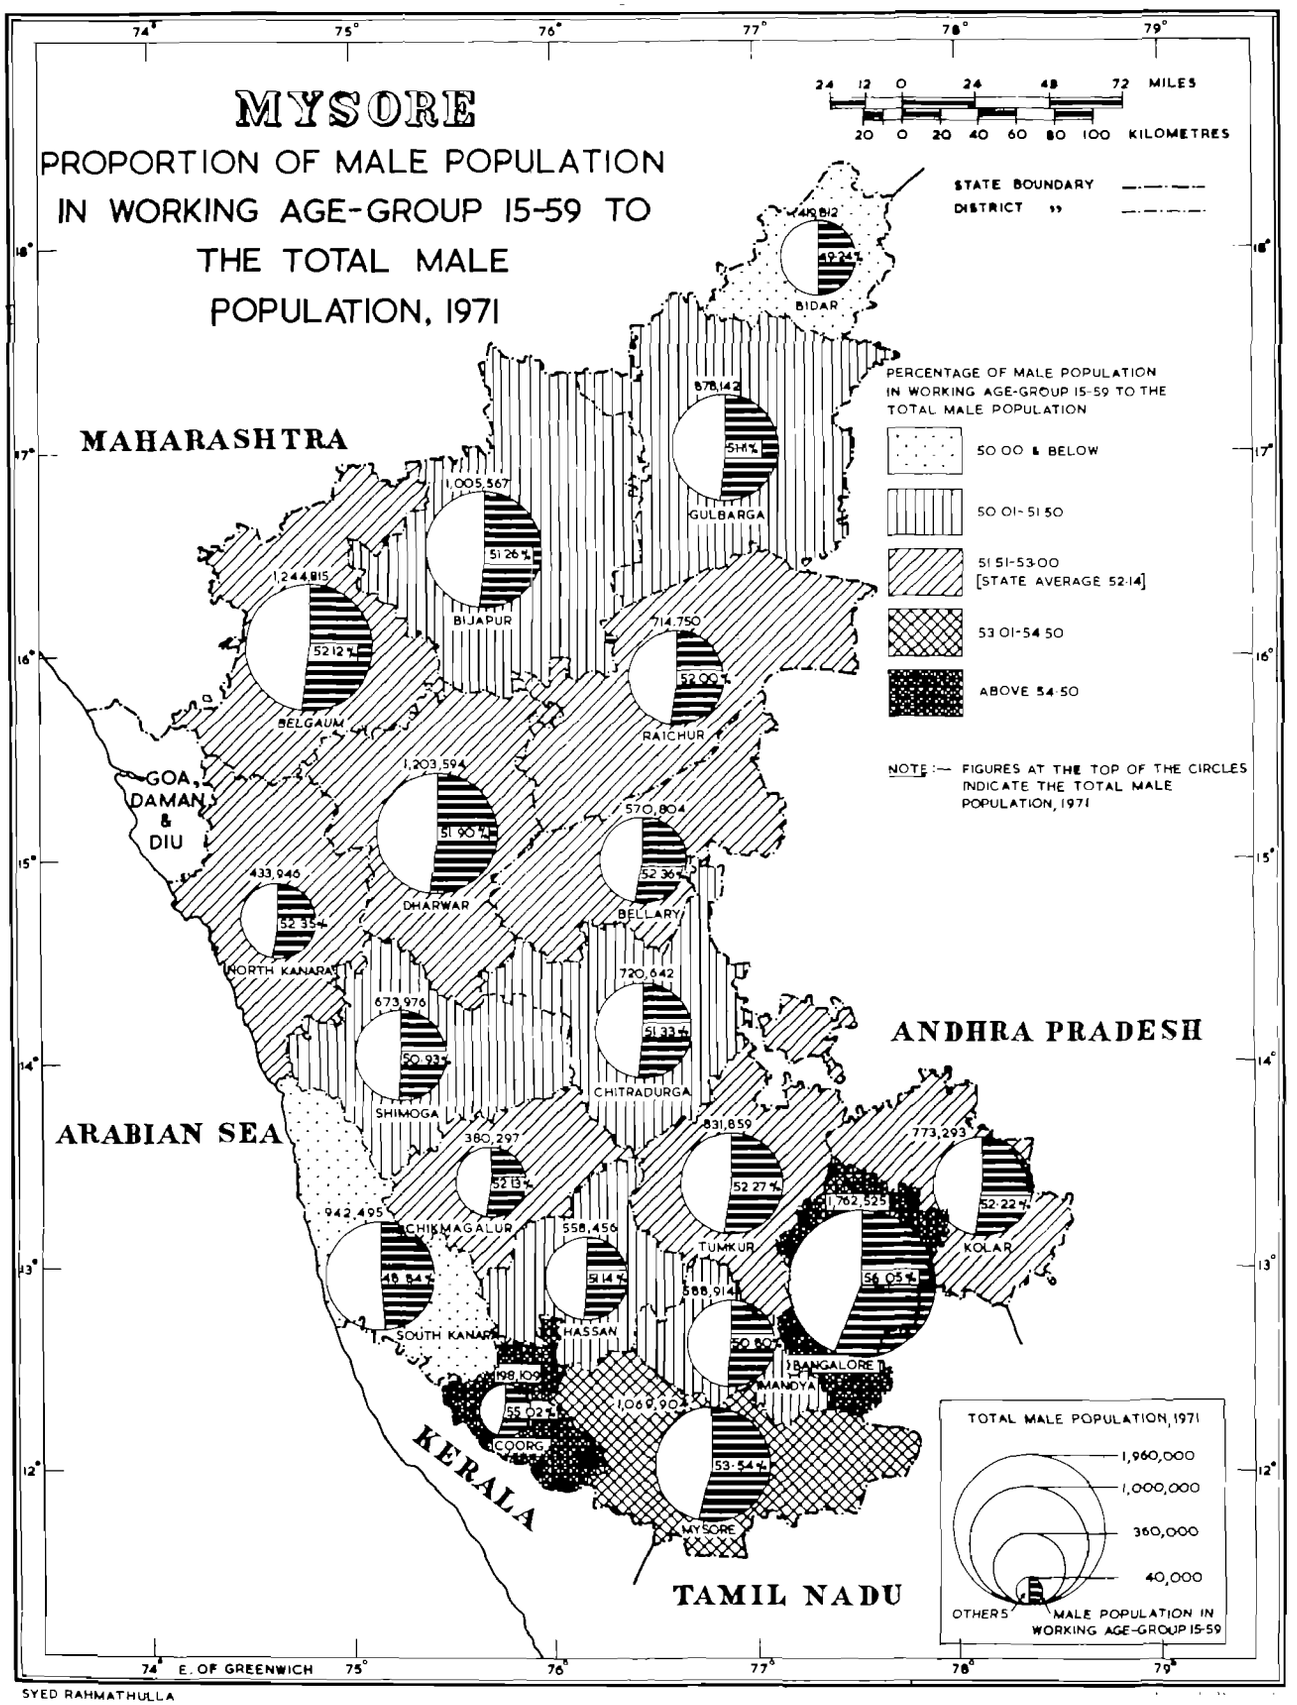

Proportion of Male population in working Age-group 15-59

This statement indicates the proportion of males in age-group 15-59 to the total male population in the State and in each district.

The proportion of male population in the working age-group 15-59 indicates the size of the employable male population available for work. However, it should be remembered that these figures also include whole-time students, invalid persons etc., who constitute comparatively small proportion. The age-group 15-59 is generally considered as the working age-group. The population in age-group 0-14 and in ages above 60 are considered as non-workers.

In the State as a whole, the proportion of male population in working age-group to total male population is 52.14%. The districts which have a higher proportion of males than that of the State average in the working age-group are Bangalore, Bellary, Coorg, Kolar, Mysore, North Kanara and Tumkur. Of the 19 districts in the State, only two districts, Bidar and South Kanara have a proportion of working males less than 50%. The highest proportion is claimed by Bangalore district (56.05%) while South Kanara has the least with 48.84%.

STATEMENT 14

Proportion of Female population in Working Age-group 15-59

This statement is similar to statement 13 and shows the proportion of females in working age-group 15-59 to total female population in each district and the State.

Out of the total of 14,327,114 females in the State 7,267,946 females or 50.73% of the total females are in the working age-group 15-59. Nine districts namely Bangalore, Bellary, Coorg, Gulbarga, Kolar, Mysore, North Kanara, Raichur and South Kanara have percentages of females in the working age-group higher than that of the State and Belgaum district has a percentage almost equal to that of the State. Among the other nine districts, the proportion of females in the working age group is less than 50%. Coorg district has the highest proportion of 53.02% and Shimoga district the lowest proportion of 48.06%.

It is interesting to notice that in the working (employable) age-group 15-59 the sex ratio is less than the general sex ratio of the State and of the ditsricts (except in Bidar, Gulbarga and South Kanara). From this characteristic one could conclude that males predominate in the working age-group 15-59.

STATEMENT 17

Proportion of Urban Male Population in working Age Group 15-59.

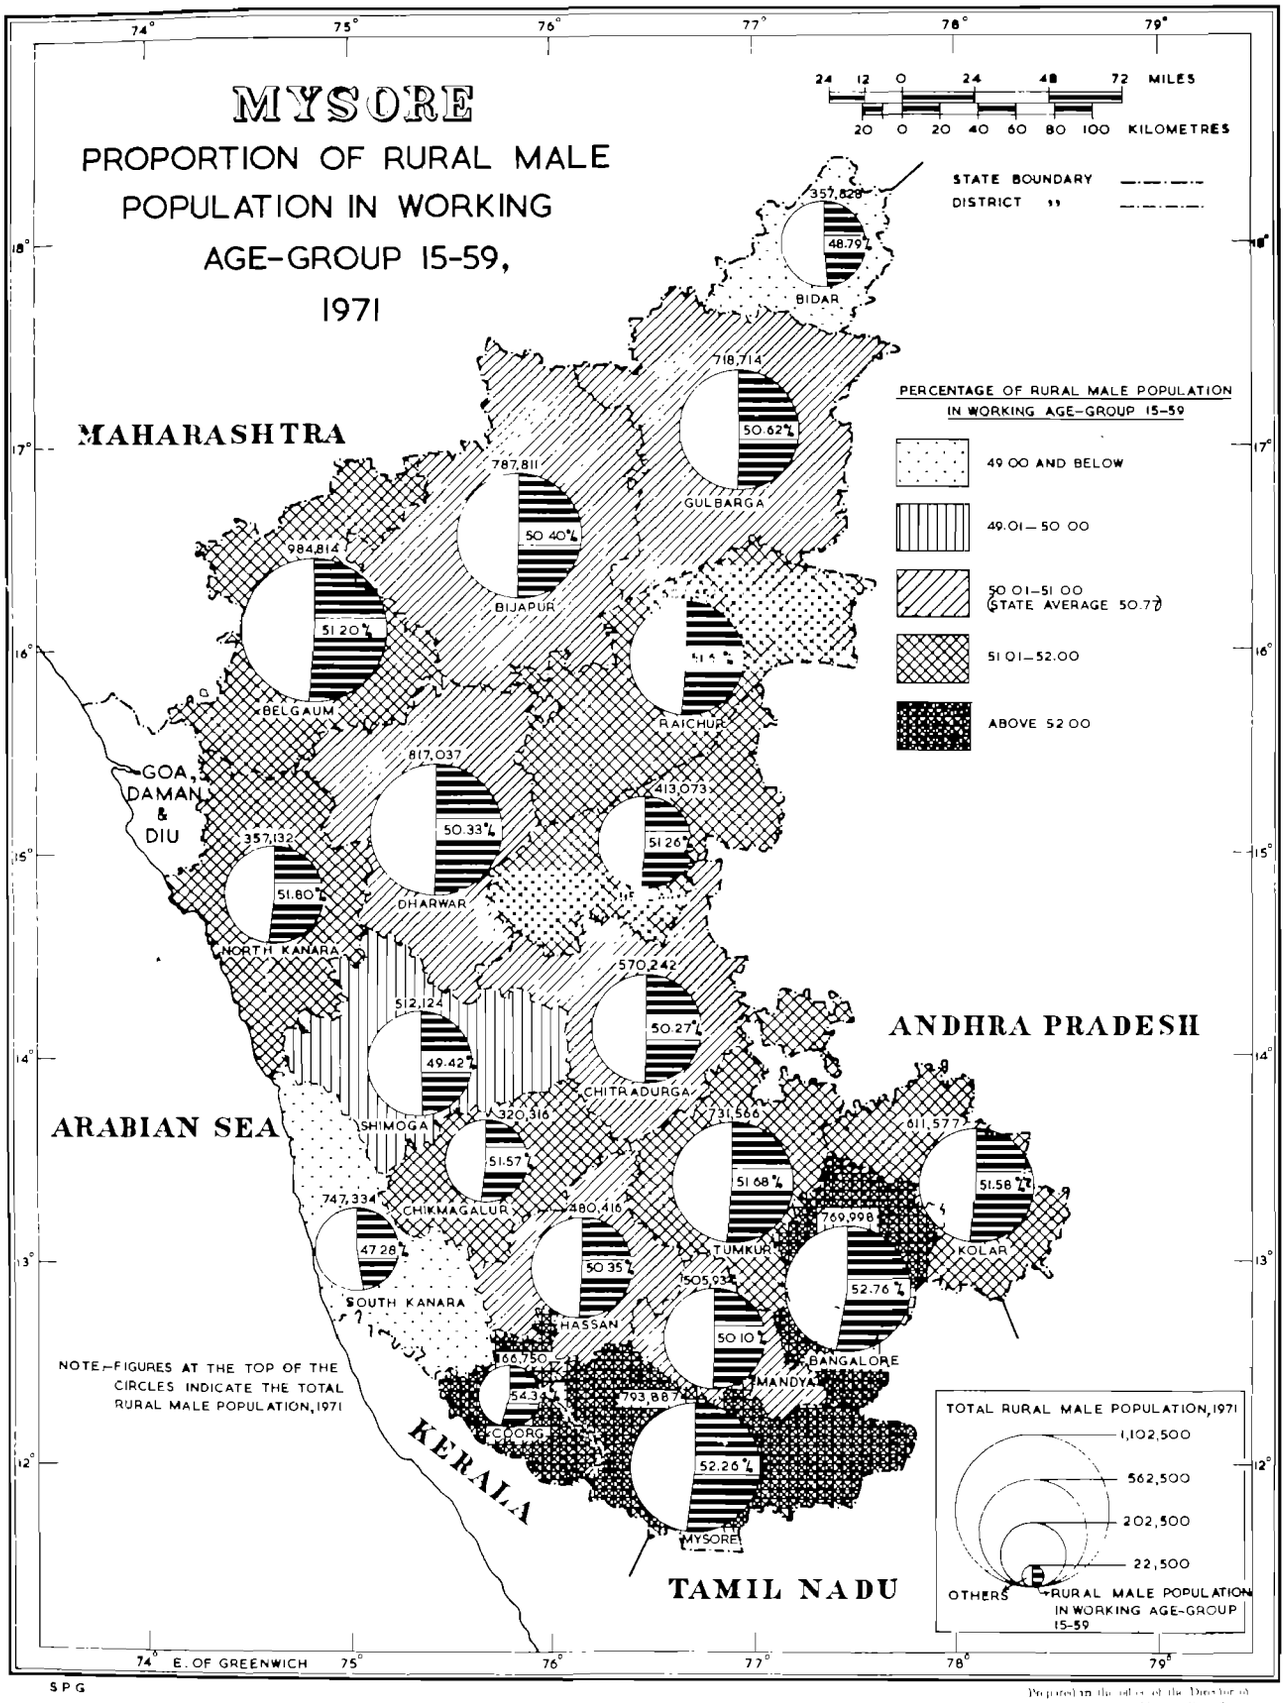

This statement presents the proportion of male population in age-group 15-59 to total male population in urban areas of the districts and State.

The total male population residing in the urban areas of the State is 3,722,691 out of which 2,095,401 males or 56.29% are in age-group 15-59.

Of the 19 districts in the State, in the urban areas of the four districts of Bangalore, Coorg, Mysore and Tumkur the proportion of males in the working age-group 15-59 exceeds the urban State proportion, thus permitting a conclusion that in the urban areas of these districts males are larger in this age-group.

In all the districts, the proportion of males in the working age-group 15-59 to the total male population in the urban areas is greater than 50%. Bangalore district has the highest proportion of 59.22% and Bidar district the lowest proportion of 51.85%.

APPENDIX I

Economic Questions, 1971 Census

Question 16 : Main Activity

1. Every person will be asked what his main activity is, that is how he engages himself mostly. For the purpose of this question, all persons will get themselves divided into two broad streams of main activity namely, (1) as workers and (2)as non-workers according as the type of main activity that the person returns himself as engaged in mostly.

'Worker' defined

2. A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

Reference periods:

3. The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

4. There are certain types of works which are not carried on throughout the year such as cultivation, live-stock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory labourer or as a road cooly. He should be categorised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

5. A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

6. A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual.

Q. 16 (a) Broad Category (i) Worker (C, AL, HHI, OW) (ii) Non-worker (H, ST, R, D, B, I, O).

7. The main activity returned by the person will entitle him to be categorised either as a worker in 16 (a) (i) or as a non-worker under 16 (a) (ii).

16 (a) (i) Worker (C, AL, HHI, OW)

8. Where the main activity of a person qualifies him to be treated as a worker, he should be further categorised according to the type of work and one of the appropriate abbreviations indica-

ted against this question should be entered in the box provided for the purpose. If the person is not engaged in any economic activity an 'X' should be noted in the box. The abbreviations to be used for workers are explained below:

C : CULTIVATOR

9. For a person who returns his main activity as working as a cultivator, the abbreviation 'C' should be used.

Definition of Cultivator:

10. For purposes of the census a person is working as Cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Govt. or as a tenant of land held from private persons or institutions for payment of money, kind or share.

11. Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc., and pulses, raw jute and kindred fibre crop, cotton etc., and other crops such as sugar-cane, groundnuts, tapioca, etc., and does not include fruit growing, vegetable-growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

12. A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share (Agricultural labourer) will not be treated as cultivator in this question.

AL : AGRICULTURAL LABOURER

13. A person who returns his main activity as engaged as agricultural labourer, the abbreviation 'AL' should be used in the box.

14. *Definition of an Agricultural Labourer:* A person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

H.H.I.: HOUSEHOLD INDUSTRY

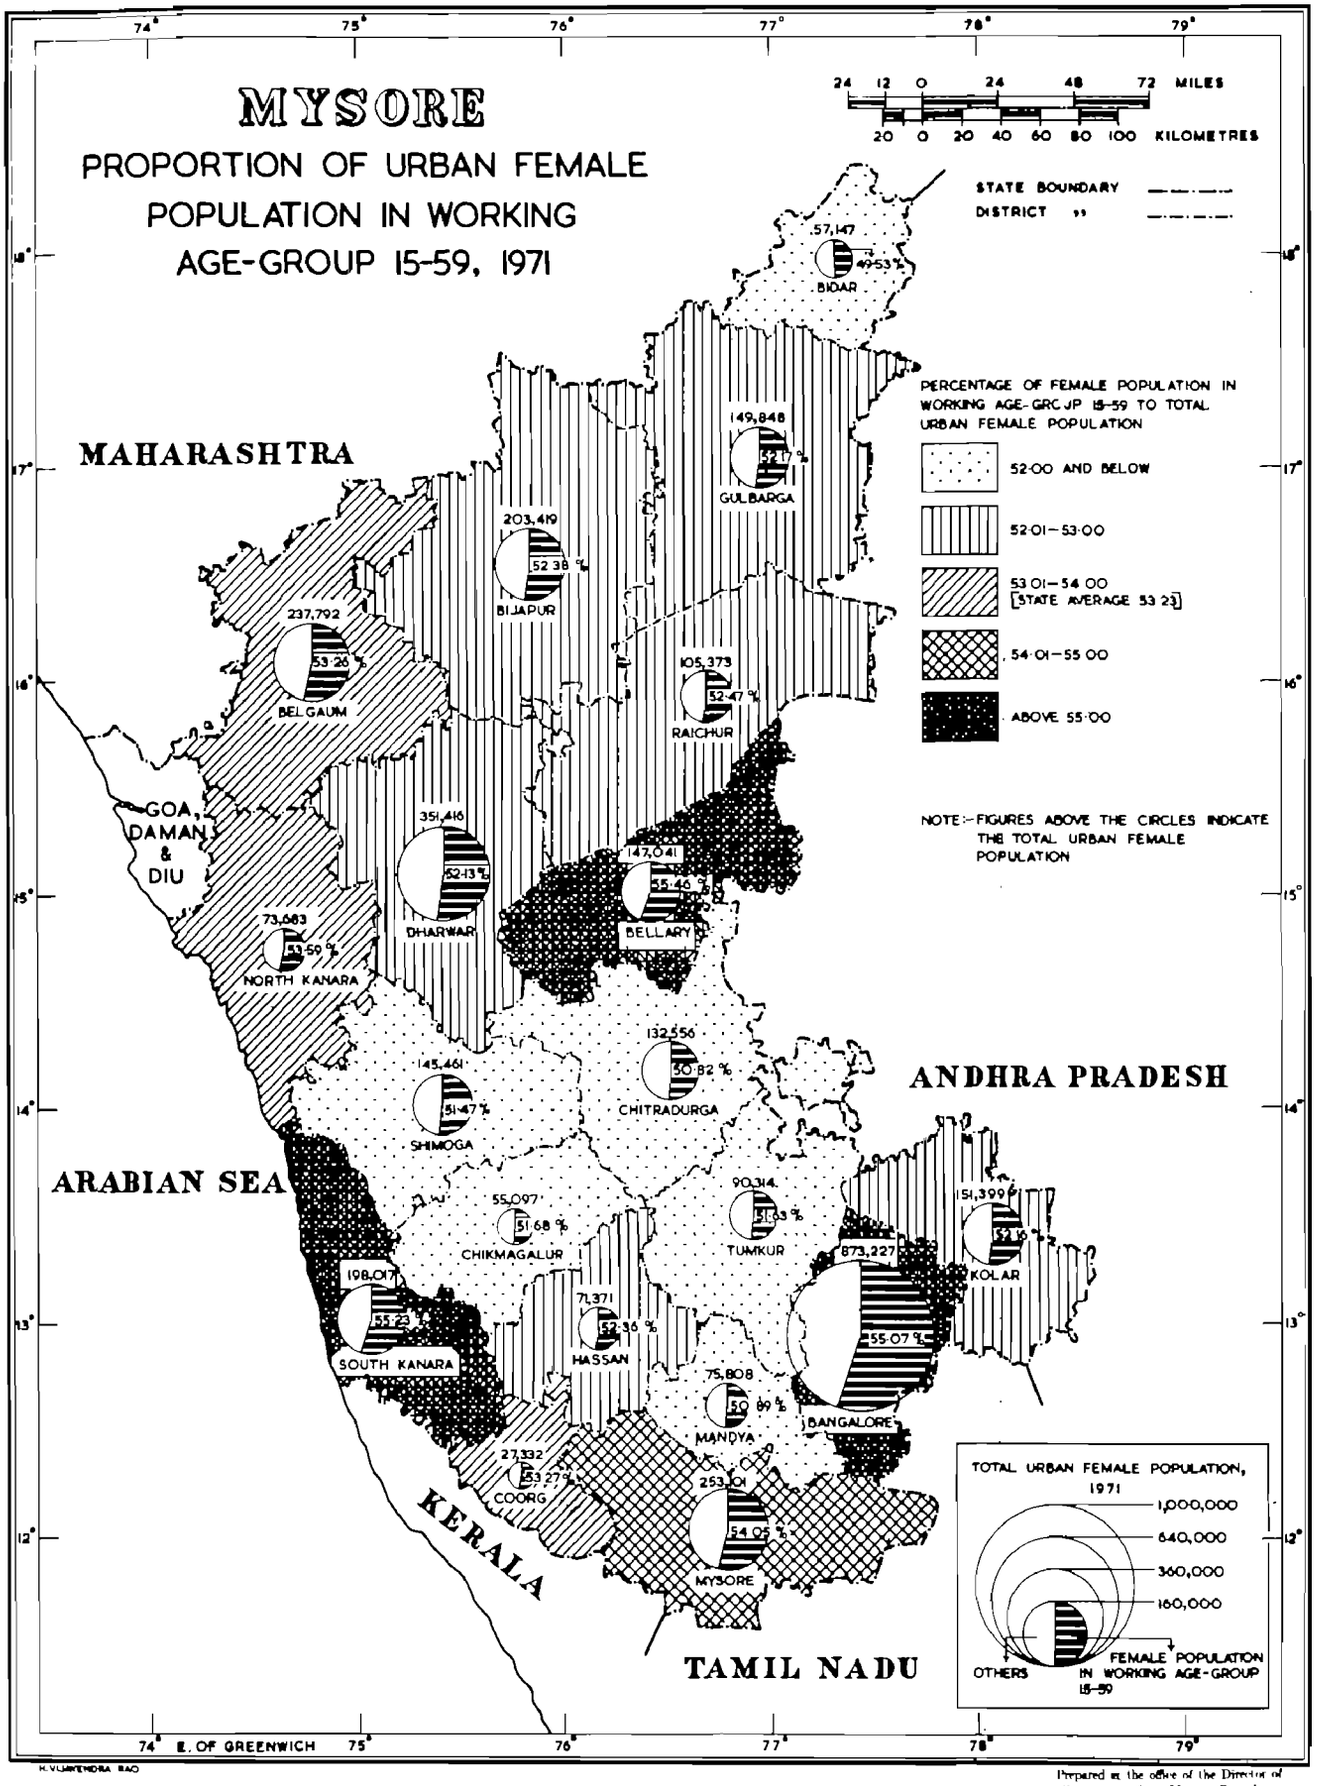

15. For a person who returns his main activity as engaged in some production, processing, servicing or repair of articles of goods such as, say, handloom weaving, dyeing, carpentry, *bidi* rolling, pottery manufacturer, bicycle repairing, blacksmithy, tailoring etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the box.

16. *Definition of a Household Industry*

A Household Industry is defined as an Industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

17. The main criterion of a Household Industry is the participation of one or more members of a household. This criterion should apply to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a household industry. It should be located within the precincts of the house where the members live.

18. A Household industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a pleader or doctor or barber, musician, dancer, waterman, *dhobi*, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of household. A list of a few y pical Household Industries is appended to these instructions at Appendix 1.

H. VIJAYENDRA RAO

Prepared at the office of the Director of Census operations, Mysore, Bangalore

19. Sometimes it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry as an employee and record as per instructions given above.

OW : OTHER WORKERS

20. If a person gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, this may be indicated by merely noting 'OW' in the box. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers. political or social workers, building labourers, etc. etc. In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry will come under this residual category. Workers engaged in plantation or forestry should not be treated as cultivators or agricultural labourers but as 'Other workers'.

21. Further details, pertaining to this 'Other' category of workers, as also those engaged in household industry, will be recorded in the subsequent sub-parts (b) to (f) of question 16.

16 (a) (ii) Non-worker (H, ST, R, D, B, I, O)

22. As was stated earlier, question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16 (a) (i) helps to broadly categorise all those who have returned some work as their main activity, 16 (a) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads whose abbreviations are indicated against this question. The appropriate abbreviation will have to be entered in the box provided. The abbreviations are explained below:

H : HOUSEHOLD DUTIES

23. This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole-time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'. If a person whose main activity is attending to household duties, also engages oneself in some other economic activity such as helping in family cultivation or preparing cowdung cakes at odd times for sale etc., that economic activity will be covered as secondary work under question 17. On the other hand, a woman who works primarily as a factory worker or a plantation labourer or an agricultural labourer or in some office or shop etc., and also attends to household duties, obviously her main activity will be the economic activity in which she is mostly engaged in and should not be categorised as 'H' for her main activity in this question. She should have been treated basically as a worker and her main economic activity should have been recorded against 16 (a) (i).

ST : STUDENT

24. This refers to those whose main activity is returned as a student. This will cover all full time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box. The other economic activity, any, if that such persons attend to will be reflected under question 17 as secondary work.

R : RETIRED PERSON OR A RENTIER

25. A person who has retired from service and is doing no other work *i.e.*, not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade, etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work will come under this category. 'R' should be noted in the box for a person coming under this category.

D : DEPENDENT

26. This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if able-bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B : BEGGARS ETC.

27. This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I : INSTITUTIONS

28. This will cover convicts in jails or inmates of a penal mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc., in such institutions. An under-trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O : OTHER NON-WORKERS

29. This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted as 'O' in the box. A boy or girl who has completed education or has stopped studying and is seeking work, will come under this category. If a person is merely spending his time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he reports that he is not engaged in any other activity but is seeking work will come under this category.

30. If the main activity of the person who is enumerated does not qualify a person to be treated as a worker and he does not fall under any of the four broad categories of workers covered by 16 (a) (i) and an 'X' has been put in the box against that question, then he must necessarily be categorised under any one of the seven broad types of non-workers and the appropriate abbreviation entered in the box opposite to question 16(a) (ii). Conversely if a person has already been treated as a worker and his main activity has been indicated in the box against question 16 (a) (i), then question 16 (a) (ii) will not apply to the person and an 'X' should be put in the box against question 16 (a) (ii). Thus 16 (a) (i) and 16 (a) (ii) are mutually exclusive.

Q. 16 (b) to 16 (f)

31. These sub-parts of question 16 will have to be filled only to describe the details of the household industry or other work indicated against question 16 (a) (i). If the main activity has been shown as 'C' or 'AL' against 16 (a) (i), there is no need to give the details of the cultivation or agricultural labour in these sub-sections.

32. Similarly, if the main activity of an individual has been returned as a non-worker against 16 (a) (ii), sub-sections (b) to (f) will not apply and a 'X' may be put right across all these questions

Q. 16(b): Place of work (Name of village/town)

33. Ascertain from each person who is already taken as a worker other than in cultivation or agricultural labour *i.e.* question 16(a) (i) has been answered as HHI or OW, the village or town where he or she works. If the place of work is the same as the village or town of enumeration write 'PL'. In all other cases you should write the name of the place fully. If a person has no fixed place of work such as, say, a travelling vendor of vegetables or a pedlar or a rickshaw puller who may go from one village or town to another, note 'No fixed place of work'. If he works in one particular town or village that should be noted.

Q 16 (c): Name of Establishment

34. This question and the subsequent sub-sections of question 16 need not be answered for cultivators and agricultural labourers who are already noted as 'C' or 'AL' against question 16 (a) (i).

Record here the exact name of the factory, firm, workshop, business house, company, shop, office, etc., and in respect of public offices you should clearly indicate whether they are Central or State Government or local body offices, etc. If the establishment does not have any definite name such as, say, in the case of a household industry like hand pounding of rice, gur making, bee keeping, handloom weaving potter's house, blacksmithy etc., note 'No particular name'.

Q. 16 (d) : Nature of Industry, Trade, Profession or Service

35. The answer to this question will have to be adequately precise to enable proper classification of the sector of economy in which the person is working. The sector of economy in which a person works may relate to (i) Plantation, Forestry, Fishing, Livestock etc., (ii) Mining and/or Quarrying (iii) Manufacturing (iv) Construction (v) Electricity, Gas or Water Supply (vi) Transport and Communications (vii) Trade and Commerce (viii) Professions and Services. Full details of the type of industry, trade-profession or service in which the person is engaged will have to be recorded here. To help you to appreciate the details that may have to be furnished to classify the economic activity appropriately, substantial description of various economic activities are furnished in Appendix 2, categorised under certain broad classifications. The list in Appendix 2 is not exhaustive. You shall have to describe the nature of Industry, Profession, Trade or Service whatever it is, in as precise a detail as possible.

Q. 16 (e) Description of work

36. This question has to be filled up for all persons for whom the main activity is shown as 'HHI' or 'OW' in question 16 (a) (i) and for whom you should have also to answer the other sub-sections of question 16. Under this question, the description of the actual work that the person enumerated is doing is to be recorded irrespective of which type of industry, trade, profession, or service he may be working and which is already recorded under question 16(d). His actual work should also be given in sufficient detail. If for example a person is merely recorded as say, clerk with no other details, it will be impossible to properly categorise him as to the type of work he does. He may be a clerk attending to correspondence or book keeping or accounting. Similarly if a person were merely to be recorded as a mechanic, it will not help to determine what type of mechanic—electrical mechanic, or a motor mechanic or a locomotive mechanic, etc., he is. The description of the actual work done by a person should be ascertained in adequate detail and recorded against this question.

37. To guide you in answering question 16 (e), the types of particulars that need to be ascertained in respect of a few typical occupations are given in Appendix 3.

Appendix 3 is by no means exhaustive. This just illustrates the need to ascertain the full details of the particulars of work performed by an individual for being recorded against question 16 (e).

38. It has been found in the past that substantial number of persons are recorded merely as general labourers. It is necessary to make a probe and find out in which type of work he is mostly engaged as a labourer such as, say, a road coolie, a loader or unloader at a market, a construction labourer, etc.

39. For those in Military service it is enough if it is merely noted as 'in the service of the Central Government'. Other details need not be given.

General :

40. There need be no confusion as to the scope of 16 (d) and 16 (e). 16 (d) would represent the nature of industry, trade, profession or service i.e., the field of economic activity in which a person is engaged in work and 16 (e) represents the occupation or the actual work that the person does in the industry, trade, profession or service in which he is engaged. Thus, for example the answer to question 16 (d) may be say Cotton Textile manufacture and the answer to question 16 (e) may be Chemical Engineer in that industry or a clerk or an accountant in that industry or a labourer in that industry or a truck driver or the managing director of that industry and so on. Similarly in question 16 (d) the nature of service may be some department of the State Government Service and in question 16 (e) the description of work may be a clerk or an accountant, a Director of the Deptt, jeep driver in the Deptt. etc., etc. Again say, against question 16 (d) the answer may be private medical practice and in 16 (e) may cover orthopaedic surgeon, or nurse or a sweeper etc., working in that private medical practitioner's nursing home. The sample answers furnished in the specimens (Appendix 4) at the end of this book, the Industrial and Occupational lists in Appendices 2 & 3 and the instructions given by your superior Census Officers may help you to clear any doubts you may have in your mind regarding the scope of questions relating to Nature of Industry, Trade, Profession or Service covered by question 16 (d) and the description of actual work of the individual enumerated covered by question 16 (e).

Q. 16(f) : Class of Worker

41. For a person who is;

(i) an Employer, that is, who hires one or more persons in his work described in question 16(e), write.....ER.

(ii) an Employee, that is, who does his work described in question 16 (e) under others for wages or salary in cash or kind, write.....EE

(iii) a Single Worker, that is, who is doing his work described in question 16 (e) without employing others except casually, and without the help of other members of the family except casually and a participant in work as members of co-operatives, write.....SW

(iv) a Family Worker, that is, who is doing his work described in question 16(e) in a family enterprise alongwith other members of the family without wages or salary in cash or kind, write.....FW

For a person for whom an 'X' is put in questions 16(d) and 16 (e) put an 'X' in this question also.

Explanation :

42. An Employer is a person who has to employ other persons in order to perform the work entered in question 16 (e). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in business mentioned in question 16 (e). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

43. An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

44. A Single Worker for the purpose of question 16 (f) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producer's co-operatives should be recorded as 'Single Worker'.

45. A family Worker is a member who works without receiving wages in cash, or kind, in an industry, business, trade or service. For example, the working members in a family of *Dhobies* where they all participate and each does not receive wages separately will be family workers. There may be family workers in industry, trade or professions as well. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative.

46. Members of the household who help solely in household duties should not be treated as family workers.

47. In the case of persons engaged in household industry *i.e.*, in the case of persons for whom the answer to question 16 (a) (i) is 'HHI', there will be three classes of workers *viz.*, Family Worker, Single Worker and Employee. There will be no Employer. Household industry by its very definition is conducted by the head of the household himself or/ and other members of the household, the role of hired workers being secondary. If the head alongwith the members of the household is working in a household industry employing hired workers, the head and other members who are working should be treated as 'Family workers'. If the head alone is working with the assistance of hired worker(s) whose role would be secondary as indicated above, he would be treated as a 'single worker'.

Some illustrations for filling the questions 16 or 17 are given in Appendix 4.

Q. 17 : Secondary Work

48. This question should be asked of every person whether he has returned some work as his main activity against 16(a) (i) or had returned himself under any of the basically non-working categories against question 16 (a) (ii). As was noted earlier, 16 (a) (ii) will cover cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation or in household industry or in looking after the cattle, in attending to family business etc., but not to the extent as a full-time worker. Such participation will be considered as secondary work of these persons.

49. Ask of each person if, besides what he had already returned as his/her main activity against questions 16 (a) (i) or 16 (a) (ii), he /she participated in any secondary work. A number of unpaid family workers participating in the household enterprises, who might have returned themselves mainly as 'H' or 'ST' or 'R' under question 16 (a) (ii) for their main activity will be netted here for their economic activity which is subsidiary. Mere rendering of service for ones own home or production of goods for purely domestic consumption are not to be treated as economic activity. For example, a servant who works as a cook in his or her employer's home for wages will be considered economically active but, a housewife, even if she may work much more than a paid servant, in having to cook for the family or looking after the household will not be treated as economically active for the purpose of this classification. Similarly, women who may produce cloth on a loin loom at home for domestic consumption will not be treated as economically active unless the products are sold and the household derives an income. Participation in work that goes to augment the income of the household will only be treated as econamic activity. A boy whose main activity is shown as a student under 16 (a) (ii), can have the secondary work of say, cultivation if he helped the head of the household in the family cultivation during some parts of the season. But if a girl student, whose main activity is shown as 'ST' under 16 (a) (ii), also helped in weaving cloth purely for domestic consumption on a loin loom at home, or helped in attendng to household chores, she will not be treated as having any secondary work. Secondary work will be reckoned only if the person is engaged in some economic activity even if marginal in addition to whatever is the main activity under question 16. A person whose main activity is shown as, say, a clerk in a Government Office or a teacher under question 16, also attends to some cultivation by his direct supervision or undertakes some tution, this will be shown as secondary work under question 17. A person's main activity may be cultivation in question 16 and his subsidiary activity money lending in question 17. Again main activity may be agricultural labourer and subsidiary work sugar factory labourer and so on and so forth.

50. The instructions for the usage of abbreviations in categorising workers under 16 (a) (i) and filling in the details under 16 (b) to (f) will apply *mutatis mutandis* to question 17 (a) to (f), except that while question 16 (a) (i) will cover the main work, Q. 17 (a) is intended to cover secondary work which may be possibly part-time. It may also be noted that the non-working categories of activity will not be reported as secondary work under question 17.

APPENDIX--1

LIST OF A FEW TYPICAL INDUSTRIES THAT CAN BE CONDUCTED ON A HOUSEHOLD INDUSTRY BASIS

(*See paras* 92-95)

Foodstuffs

Production of flour by village chakkis or flour mills, milling or dehusking of paddy, grinding of chillies, turmeric, etc., production of gur, khandsari, boora, etc., production of pickles, chutney, jams, etc., processing of cashew nuts, making of dried vegetables, manufacture of sweetmeats and bakery products, production of butter, ghee, etc., slaughtering and preservation of meat and fish, fish curing, etc., oil pressing ghani.

Beverages

Manufacture of country liquor, toddy, production of soda water, ice, ice-cream, sharbats etc., processing of coffee etc. ;

Tobacco Products

Manufacture of bidi, cigars, cheroots, tobacco, snuff etc.

Textile Cotton

Cotton ginning, carding, pressing and baling, spinning, etc., dyeing and bleaching of cloth, weaving in handlooms or powerlooms or manufacture of khadi, cloth printing, making of fishing nets, mosquito nets, cotton thread, rope, twine etc.

Textile Jute, Wool or Silk

Similar type of production or processing as mentioned under Textile Cotton but pertaining to the material concerned.

Textile Miscellaneous

Making of *durries*, carpets, hosiery , embroidery, chrochet work, lace garland making, manufacture of headgear, making of *newar*, bed covers, (urtains, pillow, pillow cases etc., making of mattress, quilt (rezai) etc., making of namda felt, coconut fibre for upholstery, making of brushes brooms etc., from coconut fibres, coir spinning, manufacture and repair of umbrellas, manufacture of dolls and toys (rags and cotton) etc.

Manufacture of Wood and Wood Products

Sawing and planing of wood, manufacture of wooden furniture, structural goods like beams, door and window frames etc., wooden agricultural implements and their repair, wooden lacqerware, wooden toys, wood carving, sawdust and plaster figure making, inlay work, match splinters plywood and veneers etc., making palm leaf mats, fans, umbrellas etc., baskets and broomsticks, canning of chairs, making of chicks and khas khas tatties, making of cart wheels, wooden sandals etc.

Paper and Paper Products

Manufacture of pulp and paper by hand, making of envelopes, paper mache articles, card board boxes, paper flower, paper kites, toys etc.

Printing and Publishing

Printing works, lithography, block making, book binding etc.

Leather and Leather Products

Flaying and processing of hides and skins, making leather footwear, wearing apparel of leather and fur, repair of shoes or other leather products.

Rubber, Petroleum and Coal Products

Vulcanising tyres and tubes, manufacture of chappals from torn tyres and other rubber footwear, manufacture of rubber products from natural and synthetic rubber.

Chemicals and Chemical Products

Manufacture of toys, paints, colours etc., manufacture of matches, fireworks, perfumes, cosmetics, manufacture of ayurvedic medicines, soap, plastic products, celluloid goods, manufacture of ink, candles, boot polish etc.

Non-metallic Mineral Products and other than Petroleum and Coal

Making of bricks, roofing tiles, sanitary fittings, cement statues, stone or marble carvings, manufacture of stone structurals, stone dressing and stone crushing, mica splitting and manufacture of other mica products, making of earthenware and pottery, crockery, glass beads and bangles, earthen toys, manufacture of glass products etc.

Basic Metals and their Products except Machinery and Transport Equipment

Manufacture of iron arms and weapons and their service and repair, iron and steel furniture, brass, bell-metal utensils, aluminium utensils, tin utensils, copper utensils etc., nickeling and electroplating, blacksmithy, manufacture and repair of agricultural implements such as poughshare etc., making and repairing of locks and trunks, cutlery, manufacture of scales, weights and measures and foundry industry etc.

Machinery (all kinds other than Transport) and Electrical Equipment

Manufacture of small machine tools and parts, repairing and servicing of fans, radios, domestic electrical appliances, etc.

Transport Equipment

Reparing and servicing of automobiles, manufacture of cycle parts, rickshaw parts, boats and barges, manufacture of animal-drawn and hand-drawn vehicles such as bullock carts, wheel barrow etc.

Miscellaneous Manufacturing Industries

Repair of spectacles, photographic equipment, goldsmithy, silver filigree industry gold covering work, bidriware, musical instruments, fountain pens, making of cowdung cakes, manufacture of sports goods, repairing of petromax lights, making of buttons and beads from conchshell and horn goods.

APPENDIX 2

CLASSIFIED LIST OF ECONOMIC ACTIVITIES
(*See para* 112)

AGRICULTURE, HUNTING, FORESTRY & FISHING

(Do not merely say plantation or fishing etc., but indicate the appropriate details as given here).

Plantation Crops

Indicate the type of plantation such as Tea, coffee, rubber, tobacco, edible nuts, fruits, ganja, betal nuts etc.

Livestock Production

Indicate what kind of livestock is reared such as goats, sheep, horses, pigs, ducks, bees, silk worm etc. Production of wool, raw silk etc., are also covered in this.

Agricultural Services

Indicate what type of agricultural service, *e.g.*, Pest destroying, spraying, operation of irrigation system, animal shearing and livestock services (other than veterinary services), grading agricultural and livestock products, soil conservation, soil testing etc.

Hunting

Indicate hunting, trapping and game propagation for commercial purpose only.

Forestry and Logging

Apart from planting and conservation of forests, felling and cutting of trees etc., this would cover production of fuel, gathering of fodder, gums, resins, lac etc.

Fishing

Sea, coastal and inland water, fishing, pisciculture, collection of pearls, conches, shells, sponges etc.

MINING AND QUARRYING

(Do not merely say mining or quarrying but indicate further details.) Indicate what is mined such as coal, lignite, crude petroleum, natural gas, iron ore, manganese, gold, silver, copper ore, quarrying of stones, clay and sand pits, precious and semi-precious stones, mica, gypsum etc.

MANUFACTURING AND REPAIR

(Do not merely say engaged in a factory, but indicate what the manufacturing is concerned with as detailed here.)

Manufacture of Food Products

Slaughtering, preparation and preservation of meat; dairy products; canning and preservation of fruits and vegetable; fish, grain mill products; bakery products; sugar; boora; common salt; edible oils including vanaspati; processing of tea or coffee; manufacture of ice; animal feeds starch etc.

Manufacture of Beverages, Tobacco and Tobacco Products

Rectifying and blending of spirits; wine industries; country liquor and toddy; carbonated water industries; bidi; cigar, cigarettes, zerda, snuff etc.

Manufacture of Cotton Textiles

Cotton ginning, cleaning and baling; spinning, weaving and finishing of cotton in textiles mills; printing; dyeing and bleaching of cotton textiles; cotton spinning other than in mills (charkha); khadi production; weaving etc., in handlooms and powerlooms etc.

Manufacture of Wool, Silk and Synthetic Fibre Textiles

Wool cleaning, baling and pressing; weaving and finishing in mills and other than in mills; dyeing and bleaching; printing of silk, synthetic textiles etc.

Manufacture of Jute, Hemp and Mesta Textiles

Spinning and pressing and baling of Jute and Mesta; dyeing; printing and bleaching of jute textiles and manufacture of jute bags are also covered in this.

Manufacture of Textile Products

(Including wearing apparel other than footwear) knitting mills; manufacture of all types of threads, cordage, ropes, etc., embroidery; carpets; rain coats; hats; made up textiles goods (except garments), Oil cloth, tarpaulin; coir and coir products linoleum, padding, wadding, etc., are also covered in this.

Manufacture of Wood and Wood Products Furniture and Fixtures

Manufacture of veneer, plywood and their products; sawing and planning of wood; wooden and cane boxes, crats, drums, barrels, etc., beams, posts doors and windows; wooden industrial goods like blocks, handles; etc., cork products; wooden, bamboo and cane furniture and fixture etc.

Paper and Paper Products & Printing, Publishing and allied Industries

Manufacture of pulp; paper, paper boards and newsprints; container and paper boxes; printing and publishing of newspapers; periodicals, books, etc., engraving, block making, book binding etc.

Leather and Leather & Fur Products

Tanning, currying, etc., of leather; footwear (excluding repair); coats, gloves, currying, dyeing, etc., of fur, fur and skin rugs etc.

Rubber, Plastic, Petroleum and Coal Products

Tyre and tubes industries; footwear made of vulcanized or moulded rubber; rubber and plastic products; petroleum refineries; production of coaltar in coke ovens etc.

Chemicals and Chemical Products

Manufacture of gasses such as acids, alkalis, Oxygen, etc., fertilisers and pesticides; paints varnishes; drugs and medicines; perfumes, cosmetics, lotions; synthetic resins, etc., explosive and ammunition and fireworks etc.

Non-metallic Mineral Products

Structural clay products; glass and glass products; earthen ware and earthen pottery; china ware and porcelain ware; cement, lime and plaster; asbestos, cement etc.

Basic Metal and Alloys Industries

Iron and Steel Industries; casting foundries; ferroalloys; copper, brass, zinc and brass manufacturing etc.

Metal Products and Parts except Machinery and Transport Equipment

Metal cans from tin-plate, sheets metal, barrels, drums, pails, safe etc., structural metal products; metal furniture and fixture; hand tools; utensils cutlery etc.

Machinery, Machine tools and parts except Electrical Machinery

Agricultural machinery; cranes; road rollers, boilers, diesel engine; refrigerators, air conditioners etc.

Electrical machinery, Apparatus, Appliances and Supplies and parts

Electrical motors, generators, transformers; insulated wires and cables; dry and wet batteries; radio, television, etc., X-ray apparatus; electric computors etc.

Transport equipments and parts

Ship building and repairing locomotives and parts; Railway wagons; coaches, etc.; rail road equipment; motor vehicles; bicycles; aircrafts; push-carts and hand carts, etc.

Other Manufacturing Industries

Do not say other manufacturing industries but write clearly what is being manufactured like manufacture of medical, surgical and scientific equipments; photographic and optical goods; watches; minting of coins; musical instruments, etc.

Electricity, Gas And Water

Indicate if generation and transmission of electric energy or distribution is involved, *e.g.*, manufacture of gas in gas works and its distribution; water supply, *i.e.*, collection, purification and distribution of water, etc.

Construction

(Do not merely say engaged in construction but give further particulars.) Clear details of the type of construction and maintenance such as buildings, road, railway, telegraph, telephone, water ways and water reservoirs, hydro electric projects, industrial plants, activities allied to construction such as plumbing, heating and air conditioning installation, setting of tiles, marble, brick, etc.; construction of electrical installations, etc. should be given.

Wholesale and Retail Trade and Restaurants and Hotels

Food, Textiles, Live Animals, Beverages and Intoxicants

Indicate clearly that the wholesale trade is done in cereals, pulses; foodstuff; textiles and textile products; *e.g.* garments, shirtings etc.; beverages, intoxicants like wines, opium, ganja, tobacco, etc.; wholesale trade in animals, straw and fodder is also covered in this.

Fuel, Light, Chemicals, Perfumery, Ceramics, Glass

Wholesale trade in medicines, chemicals; fuel lighting products; toilets; procelain, glass utensil, crokery, etc.

All types of Machinery, Equipment, including Transport and Electrical Equipment

Agricultural and industrial machinery, *e.g.*, harvestors, threshers, etc.; electrical machinery; transport equipments, etc.

Miscellaneous Manufacturing

Wholesale trade in furniture, rubber and rubber products; building materials; clocks, etc; eyeglasses, etc.; medical and surgical instruments; precious metals, stones and jewellery, etc.

Retail Trade in food and food articles, beverage, tobacco and intoxicants

Indicate clearly that the retail trade is carried in grocery, vegetable, fruit selling, meat, poultry bakery products, dairy products, pan, bidi, aerated water, etc.

Retait Trade in Textiles

Do not merely say engaged in retail trade in textile, but indicate clearly what the retail trade is concerned with Dealers in textiles (non-ready made), ready-made garments, are some examples.

Retail Trade in Others

Indicate clearly what kind of retail trade it is like medical shops, booksellers, building materials etc.

Restaurants and Hotels

Restaurants, cafes and other eating places, hotels, rooming houses, camps and other lodging places.

TRANSPORT, STORAGE AND COMMUNICATION

(Do not merely say engaged in land, water, air transport but give further particulars.) Indicate what kind of transport such as railways, tramways, motor bus, bullock carts, *ekka*, tonga, etc.; ocean and coastal water, inland water transport, air transport, services rendered to transport such as packing, crating, travel agencies, etc. It also includes storage, warehousing, communication such as postal telegraph, wireless, telephone etc.

FINANCING, INSURANCE, REAL ESTATE AND BUSINESS SERVICES

Indicate clearly whether services belong to Banking; credit institutions other than banks, *e.g.*, loan societies, agricultural credit institutions, etc.; money lenders, financiers, etc.; provident services; insurance carriers life; fire marine accident, health, etc. It also includes business services *e.g.*, purchase and sale agents and brokers; auctioneering; accounting; data processing; engineering; advertising services, etc.; legal services rendered by advocates, barristers, pleaders, etc.

COMMUNITY, SOCIAL AND PERSONAL SERVICES

It should be clearly indicated whether service belongs to public administration, union government, state government, police service, quasi-government bodies, sanitary services, education, scientific and research, etc.

Personal Services

Do not merely say engaged in personal service but indicate clearly whether it is domestic service. Services relating to laundries, cleaning and dyeing plants, hair dressing, photographic studios, international and other extra territorial bodies, etc.

APPENDIX-II

NATIONAL INDUSTRIAL CLASSIFICATION (N.I.C.)—1970

(As adopted by the office of the Registrar General, India, for the Industrial Classification of 'Establishment' and 'economically active population')

Introduction

Industrial Classifications are used in the Classification of economically active population, in the presentation of statistics of industrial production and distribution, labour statistics and economic data like national income etc., Comparability of statistics available from various sources on different aspects of economy, and the usability of data for economic analysis demand standardisation of the system of Industrial Classification.

The Industrial Classification used in the population Census differed from one census to another and till 1951 Census, it was generally an amalgum of industrial and occupational features.

In the 1961 Census, the Indian Standard Industrial Classification (ISIC) evolved in 1958 by the Directorate General of Employment and Training was used. There has been a variety of Industrial Classifications in India such as Labour Bureau's industrial classification of factories, Standard Industrial Classification evolved by Central Statistical Organisation etc. While attempts have been made in several cases to bring these classifications in line with the I.S.I.C. these have produced different versions depending on the nature of the respective needs. An attempt at evolving a Standard Industrial Classification was made when an interdepartmental meeting, in which all concerned departments, of the Central Government along with other important users were represented, was held in April, 1964 to consider the subject. After a detailed consideration of genreral principles for a Standard Industrial Classification, the meeting appointed a Technical Committee consisting of representatives of the Registrar General, India, Directorate General of Employment and Training, Ministries of Internal Trade and Industry and the Central Statistical Organisation (C.S.O.) to work out a three-digit level standard classification of industries. In the meantime, the Statistical Office of the United Nations was also considering the revision of the I.S.I.C. 1968. This was ready in September, 1968 and it was circulated by the C.S.O. among all concerned organisations inviting their suggestions. After a number of meetings of the representatives of these organisations, the National Industrial Classification (N.I.C.) 1970 was finalised. This has been adopted by the Office of the Registrar General, India, with suitable modification.

Like the I.S.I.C.-1969, the National Classification attempts to group together economic activities which are akin in terms of the process adopted, the raw materials used and the finished products produced. The Classification does not draw any distinction according to the type of ownership or type of economic organisation. And except in cases like textiles etc., where traditional processes of production are in vogue in significant measures, the Classification does not endeavour to distinguish between various modes of operation as for instance, using power or not using power factory or household, large-scale or small-scale. Identification of the special features of the Indian economy, where in certain sectors traditional processing is substantial, has been attempted in the two-digit and three-digit levels in the N.I.C. 1970.

The basis of classification being the nature of economic activity carried on in an establishment, it follows that the unit classification should be an establishment. The term 'establishment' may be defined as an economic unit which is engaged in one or predominately one kind of activity usually at a single physical location under single ownership or control. A firm or enterprise may have more than one establishment either on the same location or on different locations engaged either in the same economic activity or in different economic activities. In either case, each establishment is to be counted separately and classified appropriately. It is also likely that some establishments are engaged in more than one economic activity. To the extent possible, it is desirable, to treat each technical unit, or ancillary unit or welfare unit, engaged in a different type of activity as a separate establishment. Examples of technical units are the departments of textile mills which spin yarn, weave cloth, and dye the cloth or Departments of a meat packing plant which produce *lard lure bacon* or can meat. Clearest examples of ancillary units are central administration offices, warehouses, garages, repairshops and electric power plants which primarily serve their parent units. Example of welfare units are schools or dispensaries run by say, steel mills for the benefit of their employees. Where it is not possible to separate technical, ancillary and welfare units from their parent establishments, the establishment will have to be classified into one or other of the minor groups in the Classification according to the major activity of the establishment. The major activity of the establishment

should generally be ascertained by reference to value added by the production of different products or services rendered or net revenue derived from the various activities. Where such an assessment is not possible, the classification may be determined in terms of gross revenue attributable to the products or services put by the establishment, the number of persons employed on various activities or the proportion of labour-cost assignable to those activities whichever may be convenient and appropriate. Where the integration of activities in an establishment and in the case of a factory producing pulp as well as paper, the classification will have to depend on the final product irrespective of the magnitude of the value added at different levels of production. In the Indian economy, it sometimes becomes necessary to classify by industry persons who are own-account workers, as in the censuses of population and sample surveys of households. In such cases the distinction between industrial and occupational classifications becomes blurred. In the case of such own-account workers, it is desirable to classify them under industries appropriately akin to their occupations.

The National Industrial Classification (N.I.C.)-1970 consists of

10 Divisions (at the first digit level);

66 Major Group (at the second digit level); and

386 Minor Groups (at the third digit level).

While adopting the N.I.C.-1970, and Office of the Registrar General, India, have made a modification in the classification of 'Repairing' or 'Repair-service'- establishments.

In the N.I.C.-1970 'Repair work' has been included in 'Manufacture' in some cases like, Minor Groups.

"351-Manufacture and repair of drills, coal cutting machines, etc., etc.," and

"359-Manufacture and repair of non-electrial machinery etc., etc."

While in case of the repairing establishments, such as "Repair of Footwear and Leather goods etc., Electrical repair shops, repair of Motor Vehicles and Motor Cycles, etc.," these have been classified under Major Group 97-"Repair Services" and yet another Division 'Y' and Major Group 'YO' as 'Repair Service (if not included under Major Group 97)', has been provided.

It was felt that 'Repairs' should be assigned to 'Manufacturing or processing' activity under Divisions '2 and 3' which incidentally makes for comparability of classification at the 1961 Census. Accordingly a Major Group '39-Repair' has been inserted under Divisions 2 and 3 with the following Minor Groups.

390-Repair of Footwear and other leather goods.

391-Electrical Repair shop

392-Repair of Motor Vehicles and Motor Cycles

393-Repair of watch, clock and jewellery

394-Repair of Bicycles and Cycle-rickshaws

395-Repair enterprises not elsewhere classified.

The N.I.C.,-1970 incorporates some of the major revisions contained in the I.S.I.C., 1969, e.g., transfer of 'Restaurants and Hotels' from 'Services' to 'Trade', clubbing of Banking, Insurance, Real Estate, and Business services; transfer of veterinary service from Agricultural Services to Medical and Health Services, treating sanitary services among community services etc.

This classification groups the industries into :

10	Divisions (0 to 9 & 'X')
66	Major Groups
385	Minor Groups

The Divisions, Major Groups and Minor Groups with their code numbers are listed below :

	017	Production of fruits, coconuts, eg., bananas, apples, grapes, mangoes, oranges.
	018	Production of ganja, cinchona, opium, etc.
	019	Crops of plantations, not elsewhere classified (*e.g.*, Betal nuts, etc.)

Major Group	Minor Group	Description
02		*Livestock Production*
	020	Cattle and goats-breeding, rearing, ranching etc. and production of milk.
	021	Rearing of sheep and production of wool.
	022	Rearing horses, mules, camels and other pack animals.
	023	Rearing of pigs and other animals.
	024	Rearing of ducks, hens and other birds and production of eggs.
	025	Rearing of bees and production of honey and wax.
	026	Rearing of Silk-worms and production of cocoons and raw silk.
	029	Rearing of livestock and production of livestock products not elsewhere classified.
03		*Agricultural Services*
	030	*Pest destroying, spraying, pruning of infected stems.*
	031	Operation of irrigation system.
	032	Animal sharing and livestock services (other than veterinary services)
	033	Grading agricultural and livestock products.
	034	Horticultural and nursery services.
	035	Soil conservation.
	036	Scientific services like soil testing.
	039	Agricultural services not elsewhere classified. (like land clearing, land draining etc.)
04		*Hunting, Trapping and game Propagation*
	040	Hunting, trapping and game propagation for commercial purposes (other than for sport).
05		*Forestry and Logging*
	050	Planting, replanting and conservation of forests.
	051	Logging-felling and cutting of trees and preparation of rough, round, hewn or riven logs (including incidental hauling).
	052	Production of fuel (including charcoal by burning) by exploitation of forests.
	053	Gathering of fodder by exploitation of forests.
	054	Gathering of uncultivated materials such as gums, resins, lac, barks, herbs, wild fruits and leaves by exploitation of forests.
	059	Other forests products not elsewhere classified such as munjh.
06		*Fishing*
	060	Ocean, sea and coastal fishing.
	061	Inland water fishing.
	062	Pisciculture--rearing of fish.
	063	Collection of pearls, conches, shells, sponge and other sea products.
	069	Fishing and allied activities not elsewhere classified.
		Division 1—Mining and Quarrying
10		*Coal Mining*
	100	Coal.
	101	Lignite.
11		*Crude Petroleum and Natural Gas*
	110	Crude Petroleum.
		Natural gas.

Major Group	Minor Group	Description
12		*Metal Ore Mining*
	120	Iron ore.
	121	Manganese.
	122	Chromite.
	123	Bauxite.
	124	Gold and Silver Ores.
	125	Copper Ore.
	126	Lead and Zinc Ores.
	127	Limenite and Rutile.
	128	Wolfram.
	129	Metal Ores not elsewhere classified.
19		*Other Mining*
	190	Stone quarrying , clay and sand pits.
	191	Chemicals and fertilizer mineral ming (such as soda-ash, sulphur, phosphates, nitrates, etc.).

33		*Basic Metal and Alloys Industries*
	330	Iron and steel industries.
	331	Foundries for casting and forging iron and steel.

Major Group	Minor Group	Description
		Division 2 & 3--Manufacturing & Repair--contd.
	332	Manufacture of ferro-alloys.
	333	Copper manufacturing.
	334	Brass manufacturing.
	335	Aluminium manufacturing.
	336	Zinc manufacturing.
	339	Other non-ferrous metal industries.
34		*Manufacture of Metal Products and Parts except Machinery and Transport Equipment.*
	340	Manufacture of fabricated metal products such as metal cans from tin-plate, terne plate or enamelled sheet metal, metal shipping containers, barrels, drums, kegs, pails, sales, vaults, enamelled, sanitary and all other fabricated metal products not elsewhere classified.
	341	Manufacture of structural metal products.
	342	Manufacture of furniture and fixtures primarily of metal.
	343	Manufacture of hand tools and general hardware.
	344	Enamelling, japanning, lacquering, galvanising, plating and polishing of metal products.
	345	Manufacture of metal utensils, cutlery and kitchenware.
	349	Manufacture of metal products except machinery and transport equipment not elsewhere classified, like typefounding.
35		*Manufacture of Machinery, Machine tools and Parts except Electrical Machinery*
	350	Manufacture of agricultural machinery and equipment and parts.
	351	Manufacture and repair of drills, coal cutting machines, earth moving, lifting and hoisting machinery, cranes, conveyors and road rollers and other heavy machinery and equipment used by construction and mining industries.
	352	Manufacture of prime movers, boilers and steam generating plants such as diesel engines and parts.
	353	Industrial Machinery for Food and Textile Industries.
	354	Industrial Machinery for other than Food and Textiles Industries.
	355	Manufacture of Refrigerators, Airconditioners, and Fire Fighting Equipment and other parts, components and accessories.
	356	Manufacture, alteration and repair of general items of non-electrical machinery, components, equipment and accessories not elsewhere classified., e.g., manufacture and repair of size reduction equipment like Pentagraph, Mapograph etc. crushers, conveyors, bucket elevators, ship hoist cranes, derricks etc., mixers and reactors, centrifugal machines, driers, etc., power driven pumps, etc.; air gas, compressors & vacuum pumps (excluding electrical furnaces) etc.
	357	Manufacture of Machine Tools, their parts and accessories.
	358	Manufacture of office computing and accounting machinery and parts.
	359	Manufacture and repair of non-electrical machinery, equipment, components and accessories not elsewhere classified, (such as sewing machines, automatic merchandising machines, washing, laundry, dry-cleaning and pressing machines, cooking ranges and ovens, other service industry machines, arms and armaments etc.).
36		*Manufacture of Electrical Machinery, Apparatus, Appliances and Supplies and Parts.*
	360	Manufacture of electrical industrial machinery and apparatus and parts (such as electrical motors, generators, transformers, electro-magnetic clutches and brakes etc.)

Major Group	Minor Group	Description
		Division 2 & 3—Manufacturing and Repair—contd
	361	Manufacture of insulated wires and cables.
	362	Manufacture of dry and wet batteries.

NOTES

The following abbreviations have been used for the status of a town given within brackets against names of the towns :

C:	Municipal Corporation
CB:	Cantonment Board
M:	Municipal Town
NAC :	Notified Area Committee
P:	Panchayat
SA:	Special Area
SB:	Sanitary Board
TB:	Town Board
TP:	Town Panchayat

2. In the districts of Bidar, Chikmagalur, Coorg, Hassan Mandya, North Kanara, Raichur and Tumkur no separate non-city urban total has been indicated, since the district urban total is itself equivalant to the non-city urban total. There are no cities in these districts.

3. *Abbreviations used for the names of towns*

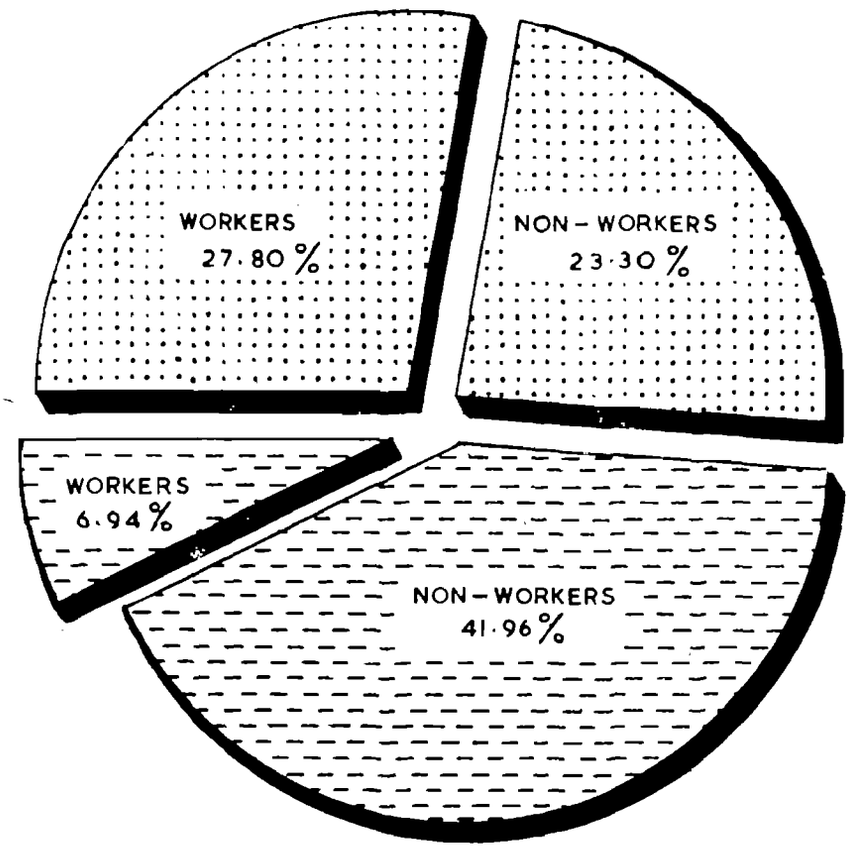

C.I.T.B.	(of Bangalore City (C) and C.I.T.B. Area)	City Improvement Trust Board
B.E.L.	Township:	Bharath Electronics Limited.
