	PART I	
	THE DISTRICT	
1.	Introducing the District, Physical Aspects, Population, the People, District Administration, Education, Medical and Public Health, Agriculture, Fisheries, Animal Husbandry, Panchayats, Local Bodies, Co-operative Movement, Industries, Banking and Commerce, Communications and Road Development, Land Revenue, Land Tenure, Price Trend, Community Development	1
2.	Gazetteer of important place	41
3.	Fauna and Flora	44
4.	Reprint of extracts	49
	PART II	
	SERIES I—POPULATION	
	GENERAL POPULATION TABLES	
1·1 A-I	Area, houses and population	68
1·2 App. I	Statement showing territorial units constituting the present set up of the district	69
1·3 App. II	Number of Villages with a population of 5,000 and over and towns with a population under 5,000	73
1·4 App. III	Houseless and institutional population	73
1·5 A-II	Variation in population during sixty years	74
1·6 A-III	Villages classified by population	74
1·7 A-IV	Towns classified by population in 1961 with variation since 1901	75
	GENERAL ECONOMIC TABLES	
1·8 B-I	Workers and non-workers classified by sex and broad age groups	76
1·9 B-III Part A	Industrial classification of workers and non-workers by educational levels in urban areas only	80
1·10 B-III Part B	Industrial classification of workers and non-workers by educational levels in rural areas only	82
1·11 B-IV Part A	Industrial classification by sex and class of workers of persons at work at household industry	86
1·12 B-IV Part B	Industrial classification by sex and class of workers of persons at work in non-household industry, trade, business, profession or service	88
1·13 B-IV Part C	Industrial classification by sex and divisions, major groups and minor groups of persons at work other than cultivation	92
1·14 B-V	Occupational classification by sex of persons at work other than cultivation	97
1·15 B-VI	Occupational classification by sex of persons at work other than cultivation classified by sex broad age groups and educational levels in urban areas only	106
1·16 B-VII Part A	Persons working principally (*i*) as cultivatorsi (*ii*) as agricultural labourers or (*iii*) at household industry classified by sex and by secondary work (*i*) at household industry (*iii*) as cultivator or (*iii*) as agricultural labourer	108
1·17 B-VII Part B	Industrial classification by sex of persons working in non-household industry, trade, business, profession or service who are also engaged in household industry	111
1·18 B-VIII Part A	Persons unemployed aged 15 and above by sex, broad age groups and educational levels in Urban areas only	114
1·19 B-VIII Part B	Persons unemployed aged 15 and above by sex and educational levels in Rural areas only	117
1.20 B-IX	Persons not at work classified by sex, broad age groups and type of activity	118
1·21 B-X	Sample households (*i*) engaged neither in cultivation nor household industry (*ii*) engaged either in both and (*iii*) engaged both in cultivation and household industry for all area.	122
1·22 B-XI	Sample households engaged in cultsvation classified by interest in land and size of land cultvated in Rural and Urban areas separately	122

		PAGES
1·23 B-XII	Sample households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in rural and urban areas separately	124
1·24 B-XIII	Sample households engaged both in cultivation and household industry showing size of land cultivated classified by principal household industry in Rural and Urban areas separately . . .	130
1·25 B-XIV Part A	Sample households engaged only in household Industry classified by principal household Industry in all areas-households classified by major groups of principal household Industry and number of persons engaged	132
1·26 B-XIV Part B	Sample households engaged only in household Industry classified by principal household industry in all areas-Households classified by minor groups of principal household Industry . . .	133
1·27 B-XV	Sample households engaged both in cultivation and household industry classified by size of land in rural and urban areas separately	134
1·28 B-XVI	Sample principal household industry classified by period of working and total number of workers engaged in household industry in all areas	140
1·29 B-XVII	Sample households, calssified by (*i*) number of male and female members by size of households and (*ii*) engagement (*a*) neither in cultivation nor in industry (*n*) in Household industry only and (*c*) in cultivation sub classified by size of land cultivated	147

SOCIAL AND CULTURAL TABLES

1·30 C-I	Size and composition of sample households	149
1·31 C-II	Age and Marital Status	150
1·32 C-III Part A	Age, Sex and Education in all areas	160
1·33 C-III Part B	Age, Sex and Education in Urban areas only	161
1·34 C-V	Mother-tongue (alphabetical order)	162
1·35 C-VII	Religion	180
1·36 C-VIII Part A	Scheduled Castes and Scheduled Tribes—Classification by literacy and industry category of workers and non-workers among scheduled tribes	181
1·37 Part B	Among Scheduled Castes	184

HOUSING TABLES

1·38 E I	Census Houses and the uses to which they are put	185
1·39 E-II	Tenure Status of Sample Census houses used as dwelling	185
1·40 E-III	Census houses used as factories and workshops classified by industry, power and no power used and size of employment	186
1·41 E-IV	Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof	191
1·42 E-V	Sample hodseholds classified by number of members and by number of rooms occupied . .	191

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

1·43 SCT-I Part A	Industrial Classification of persons at work and non-workers by sex for scheduled castes and scheduled tribes	192
1·44 STC-II	Age and marital status for Scheduled castes and Scheduled tribes	200
1·45 SCT-III Part A	Education in Urban areas only for Scheduled Castes and Scheduled Tribes	208
1·46 SCT-III Part B	Education in Rural areas only for Scheduled Castes and Scheduled Tribes	210
1·47 SCT-IV	Religion for Scheduled Castes and Scheduled Tribes	212
1·48 SCT-V	Sample households engaged in cultivation classified by interest in land and size of land cultivated in Rural areas only for Scheduled Castes and Scheduled Tribes	214
1·49 STC-I	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes	215
1·50 SCT-II	Persons not at work classified by sex and type of activity for scheduled tribes . . .	217

SERIES 2—VITAL STATISTICS

Birth record, 1952-53 to 1960-61 221
Deaths registered from various courses, 1951-52 to 1960-61 222

SERIES 3—AGRICULTURE

Rainfall and Rainy days, 1960-61 223
Normals of rainfall 228
Mean maximum and highest mean minimum and lowest temperatures 1960 230
Monthly snowfall and number of fall days 1960 236
Meteorological data—Storm 237
Foggy days 238
Land utilisation statistics 1951—61 239
Area under different crops 1951—61 240
Production of crop 242
Minor and medium irrigation projects 243
Yield rates of principal crops 1949—60 244
Agricultural wages 1950—60 247
Crop cutting experiments 249
Gratuitous relief provided by the revenue department from 1951-52 to 1960-61 . . . 251

SERIES 4—PRICES OF STAPLE FOOD STUFFS.

Price of staple food stuffs month by month 1956—60 252

SERIES 5—INDUSTRY

Growth of factories, 1951—60 254
Labour working in factories 1951—60 255
Joint stock companies in Himachal Pradesh as on 1st April, 1961 255
Industrial Technical Institutes and training-cum-production centres 256
Registered factories 257
Registered firms 257
Registered Trade Unions 259
Slate Quarries 260
Development of SSericulture Industry 264

SERIES 6—ADMINISTRATION

Tax Revenue 1951-60 265
Number and description of registered documents and value of properties transferred . . 266
Civil Justice-number of suits instituted and decided 1951—60 267
Strength of Police, 1951—60 268
Population in Jails, 1951—60 268
Income-tax 1951—60 268
Number of co-operative societies, 1951—60 269
Number of members of co-operative societies, 1951—60 270
Share capital co-operative societies, 1951—60 272
Working capital co-operative societies, 1951—60 273
Loans issued by co-operative societies to member and other societies, 1951—60 . . . 274
Loans recovered by co-operative societies from the loanees, 1951—60 275
Criminal justice number of criminal cases tried and persons convicted . . . 276
Government treasuries and sub-treasuries as on 1-4-1961 276

PAGES

SERIES 7—EDUCATION

Number of educational Institutions (including aided institutions), 1951—60 277
Teachers in Educational Institutions, 1951—60 277
Scholars in Educational Institutions, 1951—60 278
List of Schools, Training Institutions and colleges. 278

SERIES 9—EMPLOYMENT

Occupational distribution of applicants on live register of employment exchanges . . . 282
Registration and placing work done by the employment exchanges 283
Distribution of Himachal Pradesh employees in the district as on the 31st March, 1960 . . 283

SERIES 10—MEDICAL AND PUBLIC HEALTH

List of Medical and Public Health Institutions, Hospitals and Dispensaries, Primary Health Centres, Maternity and Child Welfare Centres, Family Planning Centres, V.D. Clinics and Ayurvedic pharmacies 284

SERIES 11—LOCAL BODIES

Constitutions of local bodies with income and expenditure, 1951—60 286
Gram Panchayats and Judicial Panchayats 287
Criminal cases tried and civil suits instituted in Nayaya Panchayats 290

SERIES 12—TRANSPORT AND COMMUNICATIONS

Village roads 290
Roads and Bungalows 291
List of towns and villages electrified in district 295
Nationalised transport services, passenger vehicles, 1951—60 296
Nationalised Transport Services, Goods Vehicles, 1951—60 296
Motor vehicles on roads, 1951—60 297
Road accidents, 1951—60 297
Transportation rates, 1951—60 298
Telephone, telegraph and wireless facilities 300
Number of post offices and telegraph offices 1951—60 300
Estimated numbers of postal articles handed in post offices, 1951—60 301
Money orders and postal orders issued and paid in post offices, 1951—60 302
Broadcasting receive licenses issued in post offices 302

SERIES 13—BANKS, INSURANCE AND SMALL SAVINGS

Scheduled and non-scheduled banks 303
Saving Bank facilities at post offices 303
Post office saving bank depositors and amount deposits in post office savings banks . . 304
National saving certificates sold in post offices 304
Life insurance statistics 305
Broadcasting Receiving licences issued 305

SERIES 14—LIVESTOCK AND FISHERIES

Number of livestock, poultry and agricultural implements, 1951—1965 and 1961 . . . 306
Livestock mortality from contagious diseases, 1952—60 310
Veterinary aid provided by the veterinary Assistant surgeons and tour, 1951—60 . . . 311

PAGES

Veterinary aid provided in the district 1951—60 311
Veterinary Institutions 312
Fisheries activities in the district, 1951—60 313
Licensed fishermen and fish production in district, 1951—60 313
Offences committed against wild animals and birds, 1951—60 314

SERIES 15—CALENDAR OF IMPORTANT EVENTS

Calendar of important events 314

SERIES 16—COMMUNITY DEVELOPMENT

Statistics of community development 315

SERIES 17—FORESTS

Forest area, 1951—60 317
Forest closed and open to grazing, 1951—60 317
General progress of afforestation, 1951—60 318
Out-turn and value of major and minor irrigation projects, 1951—60 319
Offences against forest wealth, 1951—60 320
Pasture lands 320
Raw material useable in industries cultivated or growing wild in each district . . . 324
Medicinal shrubs and plants cultivated or growing in each district 325
Rights of timber 326

FAIRS AND FESTIVALS

List of important fairs and festivals 531
List of markets 361

SERIES—19 MISCELLANEOUS

Number of ex-servicemen in district and relief provided to them by the official and non-official agencies 364
Lok Sahayak Sena Camps held in each district 365
Consumption of country spirit, opium and Liquor from 1959-62 to 1960-61 364

PART—IV

VILLAGE DIRECTORY

List of villages arranged in alphabetical order 370
Village Directory 370

SOURCES OF INFORMATION OF CHAPTER HEADINGS

15	Banking	(1) State Bank of India (2) Himachal Pradesh Co-operative Bank
16	Flora and Fauna	Chief Conservator of Forests

PREFACE

It has taken years of efforts in compiling, checking and re-checking of our material before these are printed and came in the hands of readers. My colleagues and I have spent quite a few years going around the district and collecting informations. I hope this comes upto the expectations of readers as a single best source of information on the Mahasu District.

Considerable material has been collected over several years to make this a comprehensive reference book. In the words of Ibbetson in his preface to his very famous Punjab Census Report of 1881 *"A Census Report is not meant merely for the information of the Secretariat; it is intended to be constantly referred to in every office of the Province. The mere results would ill serve this end in the absense of an interpreter. It is of but small advantage to cast voluminous tables of naked figures at the heads of District Officers, without at the same time explaining what they represent, which can be done by no one but him who compiled them, and drawing from them the more important conclusions to which they lead, which few will draw but he whose special business it is to do so"*. This comprehensive reference book has to be a handy reference book for the Administrators, Planners and Scholars. It is not meant to be taken up for leisurely reading but to obtain some specific information. Therefore, it is very necessary that this should be complete, should be brief and should be very relevant and precise. We have collected material from many sources and many old records had to be consulted and then checked and re-checked over long period.

It is the keenness of Shri Asok Mitra, ICS, Registrar General, India to have guided us in this work. His devotion to the Census Organisation is only matched by his versatility and many of us have only achieved a certain degree of completeness in our work because of his interest and guidance.

Different parts of the volume present the village-wise statistics and brief write-ups on Education, Industry, Health, Community Development, Animal Husbandry and Co-operation. Apart from certain data, most of the other data, particularly regarding village directory is collected by us from 1961 Census Schedules. I have heavily leaned on old records, files, notes and reference books and have also toured this Pradesh fairly extensively year-after-year. Mahasu is the District which has undergone some very obvious changes. There are some good roads, hospitals, educational facilities, agricultural practices have all given this District surprises which many people had never anticipated. The interior and inaccessible areas continue to receive due attention.

In this book I have been assisted by devoted and hard working colleagues. They have burnt their mid-night oil and have toiled on their holidays apart of being to difficult areas over the Pradesh. And with the kind help that I have received from the Government of India Press, Simla, it gives me a great pleasure and silent pride to see this report completed. This report should have been printed much earlier but for a number of reasons beyond control.

Right from the highest to the humblest my colleagues and I have received appreciable considerations. With well over nearly 50 publications in hand, readers would realise that it was a pretty arduous and at times seemed back breaking. This was an opportunity once in our life time and we were obsessed to produce something of enduring value. I do not know how far we have succeeded and leave this to my readers to judge. I hope my readers would find this of interest.

RAM CHANDRA PAL SINGH

Boswell,
Simla-5.

PART I

THE DISTRICT

Introducing the District

Mahasu District came into existence on the 15th April, 1948 after the integration of Simla Hill States into Himachal Pradesh. It was formed after integrating 26 States and Estates—

1. Baghal.
2. Balsan.
3. Beja.
4. Bhajji.
5. Baghat.
6. Darkoti.
7. Delath.
8. Dhami.
9. Dhadi.
10. Ghund.
11. Jubbal.
12. Keonthal.
13. Khaneti.
14. Koti.
15. Kunihar.
16. Kuthar.
17. Kumharsain.
18. Madhan.
19. Mangal.
20. Mehlog.
21. Rampur.
22. Rawingarh.
23. Ratesh.
24. Sangri.
25. Tharoch.
26. Theog.

In 1950 some readjustment was effected in the boundaries of the district by including and excluding from it, the following areas which existed in the nature of enclaves:—

Serial No.	Areas included
1	Kotkhai and Kotgarh
2	Two villages of U. P. (in Jubbal Tehsil)
3	Chabrot (PEPSU) (in Kasumpti Tehsil)
4	6 villages of Nalagarh State (in Solan Tehsil)

Serial No.	Areas excluded	
1	Sanjauli	Of Tehsil Kasumpti
2	Bharari	
3	Rampur	
4	Wakna	
5	Kato	
6	Bhari	
7	Kasumpti	

In 1960 this district was reduced in size when Kinnaur District was carved out of Chini Tehsil and some villages of Rampur Tehsil. In spite of excluding this area the district is the biggest from administration point of view. It consists of eight Tehsils Arki, Rampur, Rohru, Jubbal, Theog, Kasumpati, Solon and Chaupal and three Subtehsils Seoni, Kumharsain and Kotkhai. There are five urban areas Arki, Narkanda, Rampur, Theog and Solon. It comprises of 3,191 revenue villages of which 2,893 are inhabited. The remaining 298 are uninhabited. According to 1961 Census the population is 358,969 persons. This represents 189.046 males and 169,923 females. Kwar in Rohru Tehsil is the biggest village in the district with a population of 1,596, followed by Parali in Tehsil Kumharsain and Khattasu in Tehsil Jubbal with a population of 1,254 and 1,238 respectively.

Since the formation of Kinnaur District in 1960 Mahasu District stands second in population and third in order of area among the districts of Himachal Pradesh. Following statement gives an idea of the size and population of each unit of this district:—

District/Tehsil	Area in sq. Miles	No. of Villages		Population per sq. mile	Total persons
		Inhabited	Un-inhabited		
1	2	3	4	5	6
Mahasu District	*2,256·5*	*2,893*	*298*	*159*	*359,969*
Arki Tehsil	152·8	469	43	253	38,730
Seoni-Sub-Tehsil	92·9	195	38	202	18,750
Kumharsain Sub-Tehsil	94·0	154	18	253	2,382
Rampur Tehsil	565·0	179	..	78	43,847
Rohru Tehsil	475·0	169	..	109	51,869
Jubbal Tehsil	108·0	85	13	165	17,776
Kotkhai Sub-Tehsil	90·0	170	21	229	20,583
Theog Tehsil	183·4	387	50	224	41,167
Kasumpti Tehsil	147·4	334	38	184	27,114
Solon Tehsil	108·0	454	47	323	34,914
Chaupal Tehsil	240·0	297	30	168	40,391

The district was named after Mahasu Deity which commands the largest number of followers in the area around Theog.

Physical Aspects

The district lies in the outer Himalayas. Situated between 76° 49'30" and 78° 18'35" East longitude and between 30° 45'55" and 31° 42'50" North latitude, with an area 2,256.5 square miles.

Boundaries: The district is bounded by Tehri Gharwal of Uttar Pradesh and Simla District of Punjab on the East. North-East by Kinnaur District, south by Patiala and Bilaspur. On the West by Mandi and Kangra District of the Punjab on the North-West.

Configuration: In shape it resembles the butt of a gun. The district is entirely hilly except the Pargana of Doon in Solon Tehsil which is 1,500 feet high. The elevation of this district varies from 1,500 feet to 26,000 feet. The main peaks are—

1. Chur peak in Chaupal Tehsil.
2. Chanshal peak in Rohru Tehsil.
3. Hattoo peak in Kumharsain Sub-tehsil
4. Shali peak in Seoni Sub-tehsil.

River System: The Sutlej is the main river of this district. It takes its rise in the eastern peaks of Himalayas. Taking its course through Rampur Tehsil, Kumharsain and Seoni Sub-tehsils it forms the boundary line of Kulu District of Punjab and Karsog Tehsil of Mandi District. There are bridges at Rampur, Luri, Seoni and Tattapani to cross the river. At some places the river is crossed by Jhulas.

The Pabar and Giri are the tributaries of the Jumuna. The Pabar runs through Rohru and Jubbal Tehsils and covers about 60 miles. The Giri runs through Kotkhai, Theog and Kasumpti Tehsils.

Climate: The district possesses a variety of climate varying according to elevation. Summer months are exceedingly hot in Pargana Doon in Solon and places like Rampur and Seoni situated near the bank of the Sutlej. In upper regions the climate remains cold throughout the year. The winter months are severe in upper Mahasu.

Rainfall: There are 18 rain recording stations in the district. The average rainfall during 1958 and 1959 was 50.32 and 48.03

inches respectively. The annual rainfall recorded at each station during 1960 was:—

Tehsil/Sub-Tehsil	Station	Annual rainfall (Millimetre)
1. Arki	Arki	1,056·1
2. Seoni	Seoni	994·7
3. Kumharsain	1. Kotgarh	985·3
	2. Kumharsain	760·0
4. Rampur	1. Khadrala	1,524·2
	2. Phancha	2,539·3
	3. Rampur	570·3

11. Chaupal	Chaupal	923·1

Average rainfall for the district is 1,105.4 MM.

The highest mean annual rainfall of 2,539.3 millimetres in the district has been recorded at Phancha in Rampur Tehsil and the lowest rainfall of 570.3 millimeters at Rampur. A comprehensive study of rainfall data for various centres reveals that the rainfall is comparatively lower in the northern part that is Seoni, Kumharsain and Rampur Tehsils though Phancha in Rampur Tehsil records the highest amount of rainfall every year. Solon and Kasumpti have higher amount of rainfall.

Snow may fall as early as the beginning of October, but does not generally come till December. The snowfall on Chur peak, Chanshal peak, Hatoo peak and Shali peak is heavy and in severe winter it lasts from early November to late March. Snow seldom extends below 5,000 feet but in 1945 it came down as low as Seoni.

Geology: Only a small portion of the western part of the district has been geologically surveyed.

The formations may be tentatively arranged in the following order of superposition

Recent and Sub-recent			The 'duns' and terrace gravel deposits.	
Sub-Himalayan System (Unmetamorphosed)	Middle Miocene to Upper Miocene	Middle Siwalik	Alternate bands of sand-stones and clays. Sandstones are soft, whitish, grey and sometimes reddish.	
	Lower to Middle Miocene	Lower Siwalik (Nahan)	Sutlej	Sandstones largely micaceous and dark grey or green or brown alternated with red, pink, maroon and purple clays.
			Nalagarh Slate	
			Kundlu stage	Hard chocolate marl, calcareous sandstone and maroon marls
	Lower Miocene		Kasauli	Dark green, fine-grained sandstone which is micaceous, thinly bedded and soft. Interbedded with these are green shales and siltstones.
			Dagshai	Purple shales with interbedded purple and green sandstones. Indurated bright red clays occasionally calcareous. Alternate bands of purple and cindery shales with green sandstones. Grey and purple standstone more frequent.

Recent and Sub-recent		The 'duns' and terrace gravel deposits		
Sub-Himalayan System (Unmetamorphosed)	Eocene . . .	Subathu . .		Pink, splintery shales with green silty clays,.) endse of fossiliferous earthy limestones and sandstone-Jointed shales with thin bands of linestones containing *Nummulites*.
		Madhan Slates .		Rusty brown sandy slates, finely jointed and slightly micaceous.
			Shali Quartzite	Pure white quartzite sometime contain chert.
			Upper Shali limestone	Massive grey, dolo mitio limestone full of parallel sheets of chert. Cream-white chert limestone interbedded with green and orange shales.
Himalayan System (Metamorphosed)		Shali Series (Krols)		
			Shali Slate .	Variety of slates and slaty limestone. Slates and associated with shales.
			Lower Shali Limestone	Massive grey, dolommitio timestone with only occassion-chert. Pink, calcitic limestone with no chert banded at the base. Chert occurs in thalloi patches only.
	Permo-carboniferous .			
		Khaira Quartzite (Krols?) .		White and purple quartzites.
	Upper Carboni-ferous (infra-Series Krols)		Pink Slate	Pink Slates and bleaching shales.
			Blaini limestone	Pinkish hard quartzitic lime stone
			Blaini Boulders	Boulders of various sizes embedded in a slaty matrix Boulders show glacial origin.
	Devonian . . .	Jaunsar Series .		Gritty quartzites, purple slates and quartz-conglomerate with green shales and dark phyllitic slates Gritty quartzites are dark massive weathered quartzites and are very gritty.
				Massive, blue coloured sub-crystalline limestone, interbedded with green and brown shales.
	Pre-Cambrian Simla Series (Purana group)		Simla Slates (Chail Series)	Dark silky slates and phyllites with interbedded dark calcitic limestone.
			Kakkarhatti Limestone (Naldera Line-stone)	Blue and pink colour limestone sub-crystalline and siliceous, Pseudo-fossiliferous structure occur.
	Archaean group .. .	Jutogh Series .		Boileaugunge quartzite Carbonaceous schists and limestones.

Jutogh series are consisting of carbonaceous schists and limestones overlain by Boileaugunge quartzites.

These are succeeded by Simla Series or Chail Series, Jaunsars, Blainis, infra-Krols, Krole and Tertiary formations.

The structure of this area is very complicated and the normal disposition of the formation is changed due to over-thrusting and faulting. Due to nappe structures and recumbent folding several 'window' and 'Klippe' structure were formed.

The outstanding feature of the structure of Shali area is the Shali thrust. The trace of this thrust is almost circular. Within the area bounded by the thrust the general structure is that of a dome, with the rocks dipping outwards in all directions.

The rocks above the Shali thrust belong to the Chail Series. Those below the thrust are of a mixed assemblage consisting of the Shali Series, the Madhan slates and Sabathu

and Dagshai beds of tertiary age. As a result of nearly horizontal movement, the Chail Series have been forced many kilometres to the south-west over the sterata that are younger in age, so as to overile them as flat sheet.

Subsequent denudation removed this covering of older rocks in the Shali area, exposing the younger rocks through 'window' structure. Thus, before the formation of the Sutlej and the Nauti valleys, the Chail Series must once have extended right over what is now the Shali range, as a flat though slightly warped sheet. The above mentioned 'window' structure is named as 'Shali Window' as it is formed due to Shali thrust.

South from Nag Tikar the tertiary beds are well developed on the dip-slope of the Shali range resting normally upon the Madhan Slates. They are seen immediately below the Chail Series for nearly 6 kilometres to the south of Nag Tikar, and in many other out-crops on the north-western slopes of the Nauti Khad.

Along the contact of the Chail Series, the Subathus disappear near Majolti and from there to Chaba the Chail Series rest either over the Madhan Slates or over the Upper Shali limestone.

North-east of Guma, on the north-east slopes of the Nauti-Khad around Kathnol, there is a large outlier or klippe of the Chail Series. The outlier which is probably quite thin, rests discordantly over Madhan Slates partly on Subathu beds and partly on Dagshai beds.

At Kathel a klippe of Chail Series is seen. At Chaba the Chail Series are thrust over the Upper Shali limestone.

The recumbent folds, affect the Shali limestone, Shali quartzite, and Madhan Slates. Though not of very great amplitude they generally have their middle limbs sheared out by a thrust. The clearest example of a fold and a thrust is seen just north-west of the Balheot-Dharampur road. The eastern side of the Khad west of Balheot provides an excellent section.

In Kathar area, south of Arki (31°9′: 76°58′), there are two important places known as Subathu and Kasauli and the rock formations exposed in those localities have been named as Subathu and Kasauli formations. Near Arki, the contact between Subathu formation and Simla Slate is a thrust plane.

Around Dhami, the contacts of Chail Series with Jutogh and with the Upper and Lower Shali limestone and quartzite of Shali Series are thrust planes.

Near Dharampur the formations exposed are Madhan Slates, Shali limestone schist, etc. Shali Slate, Lower Shali limestone and Chail Series. Here the thrust contact is seen between the Chail Series and Madhan Slates.

Around Keonthal and Junga the Shali Series and Siwalik formations are not exposed. Only Subathus are found as narrow bands in the south-western corner of the area. The contacts of Chail Series with Jaunsar and also with the Jutog Series are thrust planes.

MINERALS

(1) *Alump*: An efflorscence of whitish material on the Sarhan Schists is seen in the Barauni gad near Jakhri (31°29′:77°41′-30″). It is noticed that the efflorscence is more or less confined to the surface of biotite-schist. It was seen in two patches about 152.4 metres (500 feet) apart. Each patch is roughly 45.72x 15.24 metres (150 feet x 50 feet).

The efflorescene material was tested and found to be alum mixed with some organic substance and with some insoluble matter.

The deposit is however, very small to be of any economic use. A similar occurrence is also reported near Tatal (31°23′ : 77°37′).

(2) *Asbestos*: A small vein of tremolite-asbestos is recorded at about 10 kilometres north-west of Dharampur. The occurrence is of not any economic importance.

(3) *Dolomite*: Dolomite of Upper Krol series occurs extensively in the Simla hills near Solon.

(4) *Gold*: Alluvial gold in Himalayan rivers is a common feature. Alluvial gold is reported to occur at Chargaon (31°32′:78°6′) near Urni but it is not of economic importance.

(5) *Gypsum*: Occasional nodules of gypsum occur very commonly in the red shales of the Sabathu Series but the main finds are located in the nalas draining into the Kuthar river from the western ridges. Of these the nalas between Thura 30°57′:76°59′ and Sanarrhi (30°56′:76°59′) and that south of Dangheli (30°58′ : 76°58′30″) are most important. Kuthar nala also shows various gypsiferous horizons but they are not rich and concentrated.

In the nala between Thura and Sanarrhi three important zones have been noticed within a distance of about 1.6 kilometres (1 mile) occurring in the red shales of the Sabathu Series. The most important deposit is close to the junction of the nalas coming from Dadhol (30°56'30":76°59') and Chabalke-dhar (30°56':76°59'). A band of gypsum about 3.657 metres (12 feet) thick in the centre mixed with a subordinate quantity of red shales is seen at the extremity of the central ridge. The gypsum nodules appear to be very pure and form the major part of the shales. The core occurs along the strick NW-SE of the beds.

The second locality occurs about 6 Kilometres (3 furlongs) of the north of the above mentioned deposit on the eastern flank of the nala. Here a band of gypsum measuring 2.433 x 1.828 metres (8 ft. x 6 ft.) is exposed inside the nala and the top and bottom sections are covered by vegetation.

The third occurrence is .2 kilometres (1 furlong) to the north of the above. Here also a band of gypsum mixed with subordinate quantity of red shale is seen on the eastern flank exposed for about 1.524 metres (5 feet).

West of Thura, a nala flows northwards and joins the Kuthar nadi after taking a right angled turn south of Dangheli. In this nala six other smaller streams join. A gypsum band mixed with red and greyish shales about 3.7 metres (12 feet) wide and exposed for about 2.4. metres (8 feet) from the bottom of the nala occurs on the eastern flank of the main nala just beyond where the fourth nala joins this nala. Some gypsiferous horizons have been noticed east of the village Dharri (30°58' 76°59') at three or for places but none of them is of any economic importance.

(6) *Iron Ore*: Hematite iron ore banded as well as lense like in character is found in Rohru. Striking east-west, about a furlong (12 Km.) to the south of Shil and dipping about 10° to the south, the ore occurs in the form of alternating bands within the bitite schists which are often garnetiferous. The maximum thickness of the individual ore bands in this locality is about 2.54 centimetres (1 inch).

More important deposits are found distributed in the Banoti valley around Narain and Shakal. The ore here is more concentrated and is found in the form of lenses and pocketed with very often as big as 283 cubic metres (10 cubic feet) in garnetiferous micaschists on both sides of the river Banoti near Narain, there are about six old workings and some of them are still being worked.

(7) *Iron-pyrites*: In the Keonthal area and to the south of Simla, general lenticular bands of iron-pyrites occur in slates of Boileaugunge stage of Jutogh Series. Iron pyrities is recorded from the following localities:—

1. In the Kyari (Shamri) nala (31°5': 77°9').

Analysis of gypsum sample from Subathu area:

Sl. No.	Locality	Si_2%	$Al_{2}O_3$ & $Fe_{2}O_3$%	MgO%	CaO%	H2% 1058	S3°%	Loss on ignition	Insoluble residue	Total
1.	The Kuthar Nadi above the north south of Subathu . . .	..	3·40	0·76	19·31	12·66	27·33	1 ·66	34·94	99·40
2.	Junction of the nalas between Thura and Zanarrhi .. : .	..	2·92	0·72	18·45	12·14	25·98	13·18	38·22	99·47
3.	Nala between . .	..	3·50	0·24	22·32	14·84	32·55	·09	26·20	99·95
4.	Nala between sanarrhi and Thura 2 kolometres (1 furlong) of above .	6·70	2·90	1·03	28·66	18·28	40·37	19·44	..	99·10
5.	Main nala north of Chanol where all curves round it, joins the Kuthar nadi . . .	..	2·35	0·60	19·74	12·61	27·66	13·88	34·90	99·13
6.	Kuthar nala . .	3·70	2·34	0·32	30·53	19·50	43·45	19·67		

2. In the Badhaighat (31°5′ : 77°8′) nala 228.6 metres (250 yards) upstream of its confluence with the Kyari nala.
3. North of Rehana at 31°4′: 77°16′.
4. South of Chota Simla P.T.O.

The largest individual band traces is at Badhai where the band of iron-pyrites varying from. 10.16—43.18 cms. (4″ to 17″) in thickness extends over an exposed length of 21 metres (70 feet).

In the Shamri nala, three thin bands of pyrite, totalling to 22.86 cms. (9 inches) in thickness occur within a vertical height of 78.74 cms. (31 inches); the ore forming 29 per cent of the mineralised zone.

In the Rahana area the mineralised zone varies from, 609-1,524 centimetres (2—5 feet) in thickness, pyrite forming 25—50 per cent. of the total thickness. The bands at Rehana occur over an L-shaped area of about 22.300 sq. metres (240,000 sq. feet). The reserves are estimated at 230.00 metric tonnes on the assumption of an aggregate pyrite band thickness of 23 cms. in the entire area.

The inaccessibility of these regions, render working of these deposits uneconomical.

An occurrence of pyrite is recorded from Matiana (31°13′ : 77°24′); which is situated on the Hindustan-Tibet Road, about 48 kilometres (30 miles) from Simla. Pyrite is found in the road cutting near Nani, about 1.6 kilometres (1 miles) away from Matiana.

Pyrite is found in small crystals upto 2. m.m. in size disseminated sporadically in the country rock. Sometimes the pyrite crystals form nests and concentrations. In some instances pyrite forms quite large massive crystals. Some chalcopyrite is associated with pyrite. However, the copper mineralisation is not extensive.

Pyrite is so sparsely and finely distributed in the country rock that is of no economic use.

(8) *Kyanite*: It is abundant in the schists and granites near parts of Bushahr in the western Himalayas.

(9) *Limestone*: Occurrences of limestone deposits are reported from Khadli and Kakkarhatti in the district. A portion of these deposits may be of cement grade.

(10) *Lead ore*: Indications of lead ore are reported at Tal (31°10′:76°58′) and Samoh (31°8′:76°52′ 30″).

The village of Tal is situated about 5 kilometres (3 miles) to the north-west of Arki. North of the village a tunnel has been driven into the limestone to ascertain the existence of a lode. But no deposit of any economic value could be found. Galena boulders of varying sizes could be picked up, though not very frequent.

(11) *Millstone*: Quartz, schists and phyllite,quartzites in which the quartz grains are embedded in a slightly softer matrix form a part of the Chandpur and Nagthat Series of the Simla Hills, are being worked for abrassive purposes.

(12) *Quartz*: Quartz crystals can be picked up at very high altitudes in the vicinity of glaciers. At Anodan (31°31′ : 78°16′) higher up the snow line, certain pegmatites yield a few small crystals of quartz but most of the bigger crystals have been removed. Good crystals of quartz are reported to occur in the Bora Gad. These occurrences are of not any economic importance.

(13) *Slates*: These are quarried at many places in the outer himalayas of Simla Hills. Good roofing slates are available.

Population

According to 1961 Census, the population of the district is 3,58,969 persons. There are 189,046 males and 169,923 females. This forms about 26.57 percent of the total population of the Pradesh. The urban population of five towns namely Arki, Narkanda, Rampur, Theog and Solon is 11,760 persons, 7,499 males and 4,261 females. It means that about 3.3 per cent of the population lives in towns and the remaining in the rural areas.

Sixty years ago, in 1901 the population of the area now comprising the district was 233,923 persons, 122,423 males and 111,500 females. The growth of population during the sixty years has been given in the following statement—

Year	Persons	Males	Females
1901 . . .	233,923	122,423	111,500
1911 . . .	244,554	126,356	118,198
1921 . . .	242,164	125,965	116,199
1931 . . .	261,526	134,740	126,786
1941 . . .	285,518	149,467	136,051
1951 . . .	296,139	155,421	140,718
1961 . . .	358,969	189,046	169,923

It is clear from the data that the population increased in every decade except 1921 when it decreased by 2,390 persons. This decrease was probably due to the great influenza epidemic which ravaged the country.

The following table compares the variation in population in the district during the last sixty years:—

Year	Variation			Percentage variation		
	Total	Males	Females	Total	Males	Females
1911	10,631	+3,933	+6,698	+4·54	+3·21	+6·01
1921	—2,390	—391	—1,999	—0·98	—0·31	—1·69
1931	19,362	+8,775	+10,587	+8·0	+6·97	+9·11
1941	23,992	+14,727	+9,265	+9·17	+10·93	+7·31
1951	10,621	+5,954	+4,667	+3·72	+3·83	+3·43
1961	62,830	33,625	+29,205	+21·22	+17·35	+20·75
1911 to 1961	125,046	+65,623	+58,423	+53·46	+53·60	+52·40

The pace of growth observed since 1911 has been more rapid after 1931. In 1951 the population increased slightly at a low rate of 3.72 per cent, whereas the same increased at 9.17 percent in 1941. The unprecedented growth of population between 1951—61 can be attributed to the decline in death rate on one side and steady improvement in medical and public health services made available to the people on the other side. The most unprofitable decade was from 1911 to 1921 when population decreased by 0.98 per cent.

Changes in the proportion of sexes since 1901 to 1961 can be observed from the following statement:—

Year	Females per 1,000 males		
	Total	Rural	Urban
1901	911	914	480
1911	935	935	..
1921	922	923	391
1931	941	941	459
1941	910	918	490
1951	905	918	531
1961	899	913	568

The number of females per thousand males has been more or less uniform for total and rural areas of the district. In the urban areas the number of females per thousand males was less than fifty per cent upto 1941, but thereafter it registered some increase.

Villages Classified by Population: There are 2,893 inhabited and 298 uninhabited villages in the district. The total rural population of the district is 347,209 giving an average of 120 persons per inhabited village.

Percentage distribution of rural population by size group of villages, 1961—

Size Group	No. of Villages	Percentage of total No. of Village	Rural Population	Percentage to total rural population
Less than 200	2,420	83·65	176,476	50·83
200—499 .	397	13·72	116,800	33·64
500—999 .	69	2·39	45,271	13·04
1,000—1,999 .	7	0·24	8,662	2·49
2,000 and above	..	..	..	..
Total .	2,893	100·00	347,209	100·00

About 84 per cent villages in the district fall in the population group of less than 200 persons per village. Similarly the major portion of the population falls in the same range. The statement reveals that most of the villages are very small. There is no village which claims a population above 2,000 persons. The district is highly rural in character.

The number of persons per occupied Census house in the rural areas is 5, while it is 4 in the towns. The density of households per square mile is 28 in rural areas and 563 in the urban.

Urban Population: Solon is the only urban area in this district, which has a population of more than 5,000. The combined population of the other four towns is less than that of Solon.

Population of each town in 1961.

Town	Status of the town	Population		
		Persons	Males	Females
1. Arki	N.A.C.	1,221	680	541
2. Narkanda	N.A.C.	360	257	103
3. Rampur	S.T.C.	2,079	1,446	633
4. Theog	S.T.C.	1,536	1,064	472
5. Solon	M.C.	6,564	4,052	2,512

Narkanda is the smallest town of the district having a population of 360 persons only. In Himachal Pradesh population is not the only consideration for a place to fall under the category of a town but those areas which had a local body administration of one form or the other in 1951 or 1961 have been classified as towns.

Sex ratio in urban areas

Town	Females per 100 males	
	1951	1961
1. Arki	76	80
2. Narkanda	..	40
3. Rampur	47	44
4. Solon	56	62
5. Theog	32	44

The number of females is considerably low in all the towns. The low female ratio is due to concentration of male population brought about by the followng factors:—

Arki—Tehsil headquarters, business centre and a high school.

Narkanda—Tourist centre, business place, scarcity of residential quarters.

Rampur, Theog and Solon—Business centre, Tehsil head-quarters, educational institutions.

The People

The population is composed chiefly of Kanets with an admixture of Rajputs and Brahmins. The other sections of the people consist of Badhis, Chamars, Chanals, Julahe, Kolis, Lohars and Rehars, which are Scheduled Castes. Among the Scheduled Tribes Gujjars and Kanauras are in large numbers.

The Rajputs form rather a ruling class than a caste and comprise all the families of the hill chiefs. There are three categories of Rajputs. First is the ruling family, who do not give their daughters to Khash, Mians or other Rajputs. They still marry among other ruling Rajput families. The second are Thakurs or Mians. They also hesitate to give their daughters to Kanets or Khash. Then there are Kanets who are mainly agriculturists.

Brahmins are of two classes—*Sasani* and *Dharebar*. The Sasanis are generally muafidar and are of a distinctly higher class than the Dharebars. Previously they did not admit the custom of Reet or transference of wives to others on payment of money to their legitimate husbands. They were indifferent cultivators. They would marry Dharebar women but will not give their own daughters in marriage to them. Dharebar Brahmins practise all the customs of the Kanets.

Other groups of the Brahmins are:—

(a) *Bhats*: Who assemble at a wedding or birth of a boy to exact their dues. They sing Kavitas. They have no connection with other Brahmins.

(b) *Pandas*: take the alms given in the name of Rahu, Ketu and Sanichar—the evil stars.

(c) *Acharaj and Mahacharaj or Bedwas*: They are given no alms except those given in the name of the dead. They are not allowed to enter any house except when a death occurs.

The Kolis form the mass of population among Scheduled Castes. In lower parts of the district, the Kolis identify themselves with Kanets. Other castes are Chamars, Julahe, Lohars and Rehars.

Gujjars are both Hindus and Muslims. The Hindu Gujjars have more or less settled on land and follow the plough. The Muslim Gujjars follow a nomadic life. In summer they move to higher hills in search of new pastures and in winter they come down. They form the floating population.

The distribution of people according to religion is:—

Name of religion	Persons	Percentage to total population
1. Buddhists	759	0·21
2. Christians	203	0·06
3. Hindus	354,247	98·68
4. Jains	9	..
5. Muslims	2,958	0·83
6. Sikhs	793	0·22
Total	358,969	

There is no important historical place connected with *Muslims, Sikhs* and other religions except Christians who have well known Church at Kotgarh.

The district is covered by a net work of shrines and temples. Almost every village has a local deota and a temple. The people are mostly *shaktiks* and besides worshipping shiva also worship Durga. The temples dedicated to Durga at Sarahan, Hatkoti, Taradevi, Shali and Seoni are quite famous and command a large number of devotees. The ancient temple of Mahasu at Gijari in Theog is also very famous and is worshipped by a large number of devotees. Symbols of Gods are generally of one type, though they bear different names. The modes of worship are the same and their images alike. Some goddesses are represented with 2 arms, some with 4, some with 8, 12 or even 16. Some are shown sitting upon a dead body and some as riding on a lion. Here and there some temples may have images of Ganesh and other gods and goddesses which may be purely local in character.

Temple priests are generally Brahmins. Some of them enjoy free grants of land as remuneration for their services in the temple. They receive some grains at each harvest from every worshipper.

A common sacrifice is that of a goat. The head of the goat is placed before the image of the deota for sometime. One loin is given to the person who offered it and the remainder is distributed among the Dinwans and the priest.

Food and Dress: The staple food of the villagers consist of maize, rice and wheat. Wheat is taken mostly in summer and after that occasionally. Pulses like urd, lobia, moong and kolth are used either daily or every third day. Chaili the lunch and Bayali the supper are the two main meals besides the breakfast that is called nawari. In hot weather sattus of maize flour parched before grinding, are taken either with water or butter-milk. Bathu, Gauni and Koda are taken specially in winter. Butter, milk and curds are always used. Meat and fish are relished by the majority of Rajputs.

Clothing: Cotton as well as woollen clothes are worn. As the winter is severe, woollen clothes prepared out of patties are used. Ordinary clothing for men consists of shirt, pyjama and a cap. In lower Mahasu majority go without pyjama wearing only a small loin cloth in summer and rainy season Cap is more in use. Women put on Salwar, Kamiz and Dhatu. In the upper part of the district the traditional dress of a man consists of black woollen pyjama, coat and Bushahri cap. The women wear Pakhati, Kamiz and a small Dhatu. Women of Rampur Tehsil put on woollen cap and Giddi. The typical dress of the women of Theog Tehsil is Salwar and Kamiz with Dhatu as the head-dress.

Housing and Furniture: Tables of E series except E-III in Part II furnishes statistical data on the different aspects of housing in Rural and Urban areas of the district. Of the 1,12,176 Census houses in the district about 96 per cent are in the rural area and 4 per cent in the urban. In rural areas 20 per cent Census houses were vacant at the time of Houselisting, 55 per cent dwellings, 5 per cent. workshop-cum-dwellings, 5 per cent. factory workshops and worksheds and 11 per cent. are others which include cow-sheds. The remaining are hotels, sarais, shops and government institutions.

The density of occupied residential houses per square mile is about 30 houses and population per square mile is 159 of which 154 is in the rural and 3,435 in the urban. The number of persons per household in the rural areas is 5 and it is 4 in the urban. It reveals that there are more occupied residential houses in the urban areas than in the rural. Higher figures in the rural is also due to joint family system.

Classified by "Owned" and "Rented" categories 89 per cent houses are owned and 11 per cent are rented. There are 91 per cent owned houses in rural areas as against 28 per cent in urban areas. It shows that 72 per cent houses are rented in the towns.

E—IV gives the detail of materials used for walls and roof. About 78 per cent rural houses have been built with stone and 21 per cent with mud. Walls of 54 houses have been built with timber, 36 with burnt bricks and 2 with cement. Out of the 608 houses in the towns 225 are of burnt bricks (207 of stone and 142 of mud). Thus stone is the predominant building material in the rural areas and burnt bricks in urban areas.

Out of the materials for roof, slates are predominant in the district with a proportion of 59 per cent. Slates are less common in the urban areas. Their proportion in towns is 13 per cent against 61 per cent in the rural areas. Corrugated iron sheets are very common with 51.81 per cent in the

towns against 10.45 per cent in the rural. Roofs of grass, leaves, thatch wood or bamboo are 12.74 per cent in the rural and 8.05 per cent in the urban areas.

25.65 per cent of households are occupying one room dwellings, 30.34 per cent two rooms, 17.09 three rooms 12.23 four rooms and 14.66 per cent five and more rooms.

Generally speaking in rural areas the houses are built of mud and stone plastered in-side and out-side with clay. They are generally double storeyed and provided with windows. In lower Mahasu the cattle-sheds or oberas are separate. Housing pattern in the upper Mahasu is different from that in the lower parts. In the upper Mahasu the houses are two storeyed and built of stone and wood. For the roof slates are used. These have low doors. The wood is frequently used as it is easily and cheaply available locally. The ground floor is used as cattle-shed and the upper storey for living purposes. The size and plinth of the house depend upon the site available for construction. The roofs of some houses are thatched with grass. The temple of the village deity is nearly always pucca.

The household furniture consists of cots and mats of rice stalks or date palms. Two or three wooden boxes or steel trunks are kept and used for keeping valuables and clothes. Very few in the rural areas keep chairs, tables or modern items of furniture. Utensils are of brass, bronze and aluminium. Radio sets, sewing machines, oil stoves and similar items are steadily finding their way into well-to-do families. Many villages have been electrified. Table lamps and electric irons are found here and there.

Scheduled Castes: Table SCT I Part A shows the population and its distributions by workers and non-workers for each Scheduled Caste by sex in the rural and urban areas. 52 castes have been notified as Scheduled Castes in the Pradesh but 39 were reported in the district. Significant castes having more than one hundred population are given below:—

Name of Scheduled Caste	Population, 1961			
	Rural		Urban	
	Males	Females	Males	Females
All Scheduled Castes .	55,450	51,698	1,266	836
1. Badhi or Nagalu .	2,274	2,040	23	16
2. Balmiki, Chura or Bhangi . .	233	140	236	182
3. Bangali . .	83	60	..	..
4. Barad . . .	203	204	1	5
5. Brard . . .	214	204	2	3
6. Bhanjra . .	89	56	2	..
7. Chamar, Mochi .	6,390	5,779	334	187
8. Chanal . .	843	741	..	..
9. Chhimba . .	183	168	50	46
10. Dhaki or Toori .	887	849	9	14
11. Doom . . .	873	731	53	36
12. Jogi or Nath .	271	260	1	..
13. Julahe . . .	319	160	..	..
14. Kabirpanthi . .	1,455	1,356	103	39
15. Koli . . .	37,044	35,484	301	194
16. Lohar . . .	2,741	2,350	87	63
17. Rehar . . .	756	661	15	12
18. Thathiar . .	130	101	7	7

Out of these Scheduled Castes the largest number is of Kolis. Chamars occupy second place and the Badhi or Nagalu third. The population of the Scheduled Castes is 30.4 per cent of the total population of the district which is above than the Pradesh proportion of 27.4 per cent.

Education: Table SCT III Part A I (and B I) shows the literacy and educational levels for each Scheduled Caste. It appears that both males and females of Scheduled Castes are taking full advantage of the educational facilities and concessions available to them in the district. The literacy among the Scheduled Castes is increasing considerably. The following table shows the proportion of literacy in the district and among the Scheduled Castes:—

	Percentage of Literacy			
	Rural		Urban	
	Males	Females	Males	Females
Himachal Pradesh .	25·19	4·62	63·48	43·79
District average . .	2·00	5·96	65·17	47·17
All Scheduled Castes .	15·14	2·23	38·86	15·39

In the rural areas 2,483 males and 284 females have received education upto Primary or Junior basic and 150 males and 7 females have passed Matriculation examination. In the towns 38 males and 5 females have received education upto Matriculation or Higher Secondary. There is only one male holding Non-technical diploma not equal to degree.

Scheduled Tribes: Table SCT I Part B shows the population and its distribution by workers and non workers for each Scheduled Tribe. Five Scheduled Tribes were reported in the district in the 1961 Census. The distribution of their population with percentage of each Scheduled Tribe is:—

Name of Scheduled Tribes	Males	Females	Total	Percentage
All Scheduled Tribes .	1,903	1,479	3,382	100·00
1. Gaddi . . .	17	4	21	0·62
2. Gujjar . . .	938	862	1,800	53·23
3. Jad, Lamba, Khampa and Bodh . .	253	199	452	13·36
4. Kanaura or Kinnara	680	404	1,084	32·05
5. Lahaula . .	7	4	11	0·33
Unclassifiable . .	8	6	14	0·41

The percentage of the Gujjars is the highest in the district among the Scheduled Tribes followed by the Kanauras. The proportion of Jad, Lamba, Khampa and Bodh is 13.36 while the remaining two tribes are negligible. Total Scheduled Tribes are 0.94 per cent of total population of the district which is very low of the Pradesh proportion of 8.01 per cent.

Scheduled Caste and Scheduled Tribe workers:—Union Table SCT—V Part A and Part B gives the number of Scheduled Caste and Scheduled Tribe workers classified by the nine industrial categories and the non-workers. The number of workers in industrial categories I of cultivators and II of agricultural labourers can be compared with the total workers of the corresponding categories in the State Table B-I to find out their percentage.

The following statement shows the ratio of persons working as cultivators agricultural labourers, and in mining, quarrying, livestock, forestry and fishing, between the general population on the one hand and the Scheduled Castes and Scheduled Tribes on the other:—

Category	General population of the district		Scheduled Castes and Scheduled Tribes		Percentage of S.C. and S.T. to general population	
	Males	Females	Males	Females	Males	Females
Population	189,046	169,923	58,619	54,015	31·00	31·78
Workers	124,329	104,324	40,106	34,007	32·25	32·59
Category I	88,947	97,132	29,337	31,059	32·98	31·97
Category II	3,818	1,135	1,632	887	42·74	78·14
Category III	5,141	271	1,327	159	25·81	58·67

There is no difference in the sex-wise percentage of the Scheduled Castes and Scheduled Tribes total males and females which stands at 31.00 per cent for males and 31.78 for females at the State level, but sex disparity is evident in the percentage of working classes, 43 per cent of the total males and 78 per cent of the females working as agricultural labourers (category II) come from the Scheduled classes, which establishes that the majority of the female workers in this category belong to the Scheduled classes. Similarly the predominance of Scheduled Castes and Scheduled Tribes female workers is marked in III category of mining and quarrying where their proportion exceeds 57 per cent. The percentage of both the sexes as total workers and cultivator is about 32. These figures at the district level confirm their substantial contribution to the working force in both sexes.

Social Welfare: The subject of welfare of Scheduled Castes, Tribes and Backward Areas is in the purview of Social Welfare Department. This department did not have its First Five Year Plan but Government of India, Ministry of Home Affairs, provided supplementary funds for schemes for welfare of Scheduled Castes on year to year basis. The following schemes for the welfare of the Scheduled Castes were taken up during First Five Year Plan:—

1. *Drinking Water Supply*: According to this scheme water was made available to village Chaupal the headquarters of the tehsil of same name.

2. *Educational*: These include schemes of granting tuition, examination fees and scholarships. Another scheme is of running or assisting hostels.

3. *Housing*: This covers the scheme of providing assistance in cash or kind for repairs of houses. Subsidy for purchasing G.I. sheets for roofing was granted to about 25 families.

4. *Economic Uplift*: These include schemes of granting loan-cum-subsidiary for cottage industries and co-operative societies organised by Harijans. About 16 wheels were distributed among the Scheduled Castes.

5. *Medical Aid*: According to this scheme medicine is distributed through dispensaries.

6. *Removal of Untouchability*: These include various schemes of publicity against untouchability. Harijan days were celebrated and propoganda for removal of untouchability was made through films, addressing large gathering at fairs and other places by the paid propogandists.

Besides, five Welfare Extension Centres were started during the First Plan.

District Administration

The Deputy Commissioner is the administrative head of the district. He is responsible for general administration and maintenance of law and order. He is assisted by a Treasury Officer, a Revenue Assistant and a Compensation Officer. There is an Assistant District Planning and Development Officer.

The Judicial set up of the district comprises of one District and Sessions Judge, two Sub-Judges each at Theog and Rohru three Magistrates First Class having their headquarters at Rampur, Solon and Theog.

The district comprises of 8 tehsils and 3 sub-tehsils, 18 Kanungo circles and 136 Patwar circles. Each tehsil and sub-tehsil is under the charge of a Tehsildar and a Sub-Tehsildar respectively.

The district police force is under the charge of a Superintendent of Police. There were 2 Deputy Superintendents of Police, 4 Inspectors, 21 Sub-Inspectors, 19 Assistant Sub-Inspectors, 98 Head Constables and 513 Constables in the district on 31st December, 1960.

Police Stations and out-posts on 31st December, 1960:—

Police Stations	Police Out-Posts
1. Arki	1. Baghi
2. Chaupal	2. Balson
3. Dhalli	3. Fagu
4. Jubbal	4. Garkhal
5. Kumharsain	5. Junga
6. Rampur	6. Kasumpti
7. Rohru	7. Kiarla
8. Solon	8. Kotkhai
9. Theog	9. Kuthar
	10. Narkanda
	11. Rampur City
	12. Seoni
	14. Solon City
	15. Tharoch

The District Medical Officer is the controlling officer in respect of all the medical and public health institutions in the district. The District Inspector of Schools is the head of office for Primary and Middle Schools. The Headmasters are the controlling officers in respect of High and Higher Secondary Schools.

In 1957 some departments were transferred to the control of the Territorial Council under Section 28 of the Territorial Councils Act, 1956. The departments transferred to the Council were Education upto Higher Secondary stage, Medical and Public Health, Veterinary Services and Construction and maintenance of mule roads.

Education

The district has made substantial progress in the field of education. The literacy percentage during the past decade has gone-up from 4.6 percent in 1951 to 19.3 percent in 1961. According to 1961 Census, 18.01% are literate and educated in the rural areas. Literacy among females is considerably low which stands at 5.96% as against 29.0% among males. However these figures are higher than the Pradesh figures which are 25.19% and 4.62% males and females. In respect of the urban areas the district figures are pretty high as more than half the urban population has been returned as literate and educated. The literacy figure stands at 58.65% in urban areas against 18.0% in the rural.

Percentage of literate and educated persons in the district and each town 1961—

District/Town	Total	Males	Females
1	2	3	4
DISTRICT . . .	58·65	65·17	47·17
Arki . . .	60·85	67·79	52·13
Narkanda . . .	52·22	57·59	38·83
Rampur . . .	58·83	66·04	42·34
Theog . . .	58·72	66·64	40·89
Solon . . .	58·52	64·51	48·85

Arki town leads all other towns. As usual, the percentage of literate males is higher than females but literacy among females does not lag behind in urban areas by such margin as in rural areas. Rural figures of district for males are 5.96% where as 47.17% females are literate in the urban areas.

The literacy has increased as a result of opening of a net work of educational institutions in the district. Tables 7.1 and 7.3 give an idea of the increase in the institutions and scholars. In 1953-54 there were 10 high schools, 40 middle and lower middle schools and 262 primary schools which rose to 26, 40 and 342 respectively in 1960-61. There are two degree colleges in the district, one at Solon and the other at Rampur. There is an agriculture college too at Solon. Similarly the number of scholars has increased by 68 percent during this period. Facilities for the education of women have been extended. Now there are three higher secondary schools at Arki, Solon and Theog and one high school at Kotkhai for girls.

Government College, Solon: To cope with the urgent need of Higher Education in Himachal Pradesh, Government Degree College, Solon, was started during July, 1959. The following Courses of studies have been provided in the Degree College:—

1. Humanities and Science
2. Pre-Engineering
3. Pre-Medical
4. B.A. Part I, II and III
5. B.Sc. 3 Year Course

At present 317 scholars are studying in Government Degree College, Solon, out of which 241 are boys and 76 are girl students.

Government Training College, Solon: In order to meet the increasing demand of Trained Graduate Teachers for Secondary Schools in the Pradesh, the Himachal Pradesh Administration started one Government Training College at Auhar, but the same was shifted to Solon during 1957-58. The College is affiliated to the Panjab University. 75 percent seats reserved for in service trainees and the remaining 25 percent are thrown open for direct admission. All the trainees are required to execute a bond to serve the Himachal Pradesh Government for 5 years. The duration of B.Ed. is one year. At present 113 students including 34 girls are studying in the College.

Government Basic Training School, Solon: In order to meet the shortage of Junior Basic Trained Teachers in Schools in this Pradesh, Government B.T. School, Solon, was started during the year 1951. These teachers are trained to teach the Primary classes in Basic Schools. At present 105 trainees including 24 girl trainees are undergoing training there. During the training period they get their pay and allowances. The duration of training is one year.

Sanskrit Pathshala, Solon: This institution was initially started long before the formation of Himachal Pradesh. Its staff, building and equipment underwent a complete renovation in the year 1956. The institution is now known as Government Sanskrit Mahavidyalya, Solon and is affiliated to the Panjab University. It prepares candidates for Pragya, Vishard and Shastri in Sanskrit, Acharya, Ratan and Prabhakar in Hindi. At present 12 students including one girl are studying there.

Medical and Public Health

There were about 18 medical institutions at the time of the formation of this district. These institutions were opened by some old rulers at the capitals of the princely states. Malaria, tuberculosis, gastro-intestinal and communicable diseases used to take a heavy toll. Respiratory diseases mostly influenza, Pneumonia and malnutrition were common.

Medical Department was set-up immediately after the formation of the district under the control of a District Medical Officer to combat these diseases and to afford relief to the people. In addition to public health unit, institutions like maternity and Child Welfare Centres were established at different places during the Second Five Year Plan.

Medical institutions of various types as on 31st March, 1961.

1.	Allopathic Dispensaries	3
2.	Ayurvedic Dispensaries	33
3.	Beldar Mobile Dispensary	1
4.	Civil Dispensaries	3
5.	Civil Hospitals	7
6.	Dental Clinics	2
7.	District Hospital	1
8.	Family Planning Clinic	1
9.	First Aid Post	1
10.	Leprosy Subsidiary Centre ...	1
11.	Maternity and Child Welfare Centre	7
12.	Motor Mobile Dispensary	1
13.	Primary Health Centres	8
14.	Primary Health Laboratory ...	1
15.	Rural Dispensaries	14
16.	T. B. Sanatorium	1

Special Services and modern facilities of treatment like X-Ray have been introduced in some hospitals. More dispensaries are being started under the Third Five Year Plan and the existing services in the hospitals are being augmented by the addition of staff and equipment.

V. D. Organisation: The V. D. Organisation was started by the World Health Organisation, in May, 1949 at Simla. The V. D. Clinic was attached to Ripon Hospital. Laboratory and Office were established in Hawthorn Cottage. In 1951 the V. D. Organisation was taken over by the Medical Department of Himachal Pradesh. In the year 1952 the clinic was shifted to Snowdon Hospital. During Second Five Year Plan 8 clinics were started at Arki, Bagi, Chaupal, Jubbal, Kumharsain, Rampur, Rohru and Solon. The V. D. teams conduct survey in the remotest corners of the district.

During the Third Plan V. D. Unit has been opened at Primary Health Centre Kotkhai.

Leprosy: Leprosy subsidiary control centre with 30 indoor beds was opened at Mashobra in January, 1956. Now there are five Leprosy sub-units functioning at Koti, Narkanda, Rampur, Rohru and Theog under the charge of Non-Medical Assistants or Social Workers to give domiciliary treatment to the patients in the respective areas. Serious patients are referred to the Leprosy Hospital, Mashobra for admission and regular treatment.

Malaria: The Malaria Control Programme was started in the district in 1953. In 1958 the Malaria Control Programme as switched over to National Malaria Eradication Programme. As a result of mass spraying, the incidence of this disease has been considerably reduced. 397 deaths were reported due to malaria in 1952 and 72 only in 1959. The disease is expected to be completely wiped out during the Third Five Year Plan.

T. B. Sanatorium: In view of the high incidence of tuberculosis in the district a 20 bed clinic was opened at Mashobra in 1951. It was inadequate to accommodate the urgent cases. Accordingly a T.B. Sanatorium was set up at Mandodhar and the clinic at Mashobra was attached to it.

Goitre: Under the goitre scheme, iodised salt is distribuuted free of charge to the patients for the treatment of goitre. This scheme was started in the district in 1959.

Training: A Training School has been started at the Snowdon Hospital for the Lady Health Visitors Course.

With the spreading of education and availability of more and more medical facilities there is improvement in the general public health standard. Instead of resorting to witchcraft and jantar-mantar treatment people avail of the medical facilities provided by the State on such an extensive scale.

Agriculture

Agriculture is the main occupation of the people in the district as it engages about 80 per cent of the working population. Most of the others depend directly or indirectly upon it. As the terrain throughout the district is hilly and holdings are very small and scattered, the yield of various crops is much lower than in the plains and scope for increasing production is rather limited. Mahasu district by virtue of its varied altitude and agroclimatic conditions possesses vast potentialities for growing a wide variety of temperate fruits and cash crops like potato, ginger and vegetables.

Major food crops are grouped in three categories viz., cereals, pulses and other food crops. Non-food crops are divided into two sectors of oil seeds and other non-food crops such as cotton, tobacco and fodder.

Crops: As in the other parts of the Pradesh there are two agricultural seasons, namely Kharif and Rabi. Rice, maize, millets, ragi and pulses are the main crops grown in Kharif season. Wheat, barley and gram are grown in Rabi season. In addition, the district has earned a name for itself as a producer and supplier of high quality apples and seed potatoes.

Crop Calendar: Owing to varied climate the cultivation periods of crops differ more in this district than in other regions of the country. A crop calendar showing the sowing and harvesting times of principal crops is given here:—

Agricultural Season	Sowing Period	Harvesting Season
(*a*) *Kharif*		
1. Rice	March-July	October-November
2. Maize	May-July	September-October
3. Ragi	March-May	September-November.
4. Millets	March-May	September-November.
5. Potato	March-April	September-November.
6. Ginger	March-July	September-November.
7. Tobacco	April-June	September-November.
(*b*) *Rabi*		
1. Wheat	September-November.	April-June
2. Barley	September-November.	April-June
3. Gram	September-November.	April-June
4. Rape & Musturad	September-November	April-June

Land Utilisation: Elaborate and reliable statistics of land utilisation are a pre-requisite of planning for agriculture. The pattern of land utilisation in the district is shown below:—

Area in Acres

Classification	Year 1951-52	1958-59	1960-61
1. Total Geographical Area	30,05,120	30,21,440	13,43,027
2. Area of Forests	1,45,259	1,43,427	1,43,540
3. Barren and Uncultural	35,633	26,169	22,978
4. Land put to non agricultural Uses	40,509	27,787	27,063
5. Culturable waste	43,321	41,618	38,513
6. Permanent pastures & other grazing land	3,78,728	3,97,748	3,93,309
7. Land under Misc. trees crop and groves	357	402	846
8. Current fallows	16,077	18,168	15,122
9. Other fallow land	5,215	2,488	2,432
10. Net Area Sown	2,02,646	2,09,658	1,09,984
11. Area sown more than once	1,10,797	1,08,677	96,865
12. Total cropped area	8,13,445	3,18,335	2,87,849

Figures for 1960-61 are comparatively lower than the previous years as Kinnaur District was carved out of this district on May, 1960. However, the increase in each class of land is quite evident from the above table.

The following schemes have been taken for development of agriculture on scientific lines in the district.

Distribution of Improved Seeds: The Department of Agriculture, has established five Seed Multiplication Farms, and three Potato Development Stations in the district. The nucleus seed of different rust resistant varieties of wheat recommended for various heights are first procured from the parental research stations which are in turn multiplied at the Seed Multiplication Farms in the district. The Seed thus multiplied at the Seed Multiplication Farms is distributed to registered progressive growers through the extension agencies. Enormous quantities of various varieties of improved wheat seeds are also got exchanged by the Block Extension Agencies.

(1) *Seed Multiplication-cum-Demonstration Farm, Parala*: This Farm was started in the year 1949, and it is situated on an

elevation of 4,500′ above sea level at a distance of one mile from Simla-Kotkhai Road. The new Kotkhai and Solon Road passes through the Farm. This Farm covers a total area of 22 acres out of which 14 acres 4 kanals and 7 marlas is under cultivation.

(2) *Seed Multiplication-cum-Demonstration Farm, Annu*: This Farm was established in the year 1956 and it is situated on an elevation of 4,500′ above sea level at a distance of 4 miles from Hatkoti on Jubbal-Rohru Road. The total area of the Farm is 139 bighas, 7 biswas (i.e. 27 acres, 7 kanals) out of which 17 acres is under cultivation. The Farm has adequate irrigation facilities.

(3) *Seed Multiplication-cum-Demonstration Farm, Gangtoli Basa*: It was started in the year, 1956 and is situated at an elevation of 5,000′ above sea level in Rohru Tehsil which is 76 miles from Simla. Total area of the Farm is 22 acres, 2 kanals, 11 marlas, out of which 20 acres, 5 kanals, 2 marlas is under cultivation. This Farm does not have irrigation facilities.

(4) *Seed Multiplication-cum-Demonstration Farm, Duttnagar*: This Farm was established in the year 1956. It comprises of 27 acres, 5 kanals, 4 marlas out of which 25 acres, 7 kanals, 4 marlas are under cultivation. There are irrigation facilities on the Farm. It is located on the Simla-Rampur Road at a distance of 72 miles from Simla.

(5) *Seed Multiplication-cum-Demonstration Farm, Raotan (Chaupal)*: This Farm was started in March, 1951. Total area of the farm is 59 bighas, 7 biswas i.e. (12 acres) out of which 10 acres is under cultivation. The Farm does not enjoy irrigation facilities. It is situated in Chaupal Tehsil at distance of 6 miles from Chaupal proper.

There are three Potato Development Stations in this district. The main objects of these stations are:—

(1) Stepping up the yield of potato crops by the use of scientific means.

(2) Organising the multiplication of potato Stocks in the growers holdings, and

(3) Ensuring a continuous and regular flow of disease free seed potatoes from high hills where the degeneration of Potato Stock is negligible, to the plains of Indian Union.

Details of Potato Development Stations

Sl. No.	Particulars General	Potato Development Stations		
		Shilaru	Khadrala	Kharapather
1	Year of Establishment.	1949	1955	1958
2	Altitude	8,000 to 9,000	9,500	9,500
3	Distance from Simla	34 miles on Hindustan Tibat Road	57 miles on Upper link of Hindustan Tibat Road	52 miles on Simla-Jubbal Road
4	Nature of Soil	Medium light to Heavy	Light loam	Light loam

Distribution of area in acres

Sl. No.	Particulars	Shilaru	Khadrala	Kharapather
1	Culturable area .	44·31	19·33	12·50
2	Culturable Waste .	0·52	0·67	17·00
3	Unculturable Waste	11·17	4·00	9·00
4	Area under fruit trees . . .	6·00	1·00	..
5	Area under Roads & Buildings .	4·50	1·00	0·50
	Total .	67·00	26·00	39·00

All the above mentioned Potato Development Stations have no irrigation facilities, but these are situated in assured rain fall zones. The production of these stations during the First Five Year Plan and Second Five Year Plan is as under:—

Stage I—Establishment of Potato Development Station

Year	No. of Potato Dev. Station	Area in acres under Potato	Production of disease free seed potatoes in Maunds	Distribution of disease free Seed Potato
	First Plan

1959-60	400	28,000
1960-61	450	31,500

Horticultural Works: In 1920 an American Missionary, Mr. S. Stokes, started fruit cultivation in Kotgarh with "delicious" varieties of apple which are now widely grown. With the advent of Five Year Plans, a concerted drive was launched to focus the attention of the farmers on fruit production. Varied altitudes and agro-climatic conditions of the district afford potentialities for growing different fruits from sub-tropical like citrus and even mango in the valley areas to temperate, like apple and cherry in high hills. Besides distribution of temperate and sub-tropical fruit plants through the extension staff the horticultural staff remains busy in pruning, budding, grafting and other such activities which go a long way in the development of orchards for which the district is ideally suited. Horticultural loans at the rate of Rs. 500 per acre are being sanctioned to the cultivators. 16 progeny-cum-demonstration orchards, 4 fruit nurseries and 7 seed farms have been established in the district for the supply of quality fruit plants to the needy cultivators at cheap rates. Besides, these orchards serve as models for the growers and staff working at these centres helps the fruit growers within a radius of 10 miles in planting and looking after their orchards on proper lines.

Achievements made during the Second Five Year Plan in respect of horticultural work are given here:—

Sl. No	Particulars		
1	Fruit Plants distributed . . .	5,546—26	Nos.
2	Area planted under orchards . .	4,710	Acres.
3	Total area under orchards by the end of 2nd Five Year Plan including the area Planted during the First Five Year Plan.	6,223	Acres.
4	Fruit Plants distributed during 1961-62 . . .	109,388	Nos.
5	Area Planted during 1961-62 . .	875	Acres.
6	Total area under orchards by the end of 1961-62 . .	7,098	Acres.

Plant Protection work in the District: Under this scheme necessary guidance and help is given to the cultivators in combating pests and diseases of fruits, vegetables and crops. Pesticides are also supplied to the farmers at subsidised rates. Plant protection equipment is given to the cultivators at 50% subsidised rates. The technical guidance in respect of various operations fixation of targets of work, arrangement for supply of plant protection equipment and pesticides was rendered by the District Agricultural Officer with the help of the Plant Protection Assistant in the district. Besides this, there are three Plant Protection Sub-Centres in the district located at Thanedhar, Kotkhai and Tikkar and these were established in the year, 1958 and 1962. Besides, there are Research Centres, Schools, Colleges and Model Farms in the district. The detail for all these is as under:—

(1) *Crop and Vegetable Research Station, Solon*: There is one crop and vegetable research station at Solon which was established in the year, 1958. The research work, comprising trials with local and exotic varieties of

wheat, barley, and black gram with a view of evolving suitable varieties for different areas, is in progress. Vegetable seeds grown in hilly area are multiplied at this station. Suitability of different varieties is also worked out at this station.

(2) *Vocational Agricultural School Chharabra*: It is located at Chharabra near Mashobra. It imparts training in agriculture to new entrants for which minimum qualification is matriculate. The school has now been shifted to Kotkhai and Dhaulakuan where half the number of trainees is trained in temperate and sub-tropical conditions.

(3) *Regional Fruit Research Station, Mashobra*: The Fruit Research Station, Mashobra started towards the end of 1953 and was raised to the status of Regional Fruit Research Station for temperate fruits in the year, 1958 by providing more staff and funds. It is the first Regional Fruit Research Station to be established in the country and would cater to the needs of the Northern hilly areas for temperate fruits. The Regional Station came into being with the establishment of three sections, Pomology, Entomology and Nycology. At the beginning of the Third Five Year Plan, three more sections, Fruit Breeding, Physiology and Fruit Technology were added.

Area: The total area of the Regional Station at present is 32 acres. This being inadequate, efforts are in hand to acquire more area in the vicinity. Nearly 16 acres of forest land has just been transferred for the extension of the station. In addition to this, cases are in hand for acquisition of 45 acres more land. Temperate Fruit Research Station at Kotkhai, with an area of 25 acres will also serve as an out-station of the Regional Fruit Research Station. With the acquisition of more land, the total area of the Regional Fruit Research Station is expected to be in the neighbourhood of 93 acres.

Equipment: The laboratories of different sections of the Research Station are furnished with essential equipment and these facilities are being developed further.

Laboratory Buildings: There is a three-roomed field laboratory at the Station. A new double storeyed laboratory building, consisting of 12 rooms has recently been completed. Another new building, consisting of 4 big halls and 4 rooms is to be constructed. This will house the auditorum, library, museum and some laboratories. A sum of Rs. 1,24,000 has already been sanctioned for the purpose. The laboratories which are at present housed in a rented building will be shifted in the new building very shortly.

Glass House: At present, there is one glass house and one pot house at the Research Station. Plans are already on the move for the construction of more glass houses.

Library: Library facilities exist at the station and these are being developed further gradually. There are more than 400 books on different subjects available in the library. Important scientific journals are being obtained from within and outside the country.

Meteorological Observatory: A meteorological observatory equipped with standard self recording instruments has been set and is being improved further.

Altitude, Soil and Climate: The Research Station is located at an altitude of 7,500 ft. above sea level. The soil is clayey loam to clayey, fairly deep and with good clayey sub-soil. It is slightly acidic, the PH being about 6.5.

Generally about 55—60 inches of rainfall is recorded annually most of it being in July to September. The highest temperature during the year does not ordinarily exceed 29.4°C (85°F) in June and the minimum does not generally go below 4°C (25°F). Snowfalls are experienced during December to March, the average annual snowfall being 150 cms. (5 feet).

Programme of Work: The station was started in 1953 to collect and try important varieties of temperate fruits with the object of selecting suitable ones, to find out suitable rootstocks of apple and to determine its optimum manurial requirements.

At present there are six sections and the programme of work has been expanded. It includes besides the work already in progress, the selection of suitable rootstocks for pear and cherry, pollination requirements of apple, pear and cherry, training and pruning requirements of different varieties of apple finding out suitable methods of vegetative propagation of indigenous and exotic rootstocks of apple, pear and cherry, chilling requirements of different varieties of apple and

selection and breeding of apple varieties with better dessert and keeping quality. The investigations on various aspects of major insect-pests and diseases of these fruits with a view to devise a suitable control measures are also in progress. Work on the use of growth regulators in rooting of cuttings of indigenous and exotic clonal rootstocks of apple, pear and cherry, thinning of fruits etc. has also been taken up recently.

Scheme for Training of Gardeners: This scheme is also located at the Regional Fruit Research Station, Mashobra. During the Second Plan period some 235 Gardeners were trained in the art of fruit culture and ornamental gardening. Previously the duration of the course was 6 months and a stipend of Rs. 30 per month per trainee was given. During the Third Plan the duration of the training has been increased to one year and it includes training in vegetable growing and apiculture besides fruit culture and ornamental gardening. The stipend has also been increased to Rs. 40 per month per trainee.

Distribution of Fertilizers: The Department has opened 55 fertilizer depots in all blocks in the district thus facilitating the supply of fertilizers to the cultivators at their homes. Ammonium Sulphate, Superphosphate and Calcium Ammonium Nitrate are supplied to the cultivators for increasing production of food grains at all India pool price by subsidising the cost of internal transport from rail heads to the distribution centres. In order to popularize the use of fertilizers, large number of fertilizer trials are laid every year on the cultivators holdings free of cost.

Distinctions: In collaboration with the Indian Council of Agricultural Research, the Government of Himachal Pradesh has taken in hand the selection of best orchardists of the Pradesh for inclusion in the all-India Competion of "Udyan Pandit" in Apple Growing. The Gopalpur Orchards, Kotgarh (Shri Manohar Das Sirkek) won the title of "Udyan Pandit" and received the award of Rs. 5,000 in 1957. Besides, Himachal Pradesh achieved distinctions in various all-India Agricultural Competitions such as All India Citrus Show, 1956, All India Hill Fruit Show, 1958, All India Apple Show 1958, All India Mango Show, 1958, All India Kharif Production Campaign 1959-60 and Second All India Citrus Show, 1961-62. Himachal Pradesh won a number of prizes in these competitions and Mahasu District occupies the first place among the prize winners.

Fisheries

Before setting up of Fisheries Department in 1950-51, there were no fisheries rules or regulations governing the fisheries assess in the erstwhile States. After the organisation of the Fisheries Department and with the application of India Fisheries Act IV 1897 and Punjab Fisheries Act II 1914 and rules framed thereunder, much of the evils to which the fisheries of the area were subject have been mended' and strides have been made to place fisheries on firm footing. The fishing has been now brought under a rational licensing system and old methods of indiscriminate and wanton killing of fish viz. Poisioning, dynamiting have been prohibited. In the Pabar river in Rohru Valley trout has been given due protection and a hatchery has been set up at Chergaon to fully stock trout in Pabar river.

To suit the administrative convenience, redistribution of jurisdiction between Assistant Wardon of Fisheries, Mahasu and Bilaspur was done in the year 1956 and Sutlej catchment area upto Seoni was braught under the control of Assistant Wardon of Fisheries, Bilaspur. In the lower catchment area the pond culture has received considerable attention.

Riverine Fisheries.—The details of rivers and streams of the district, important from the view point of fisheries are given below:—

Sl. No.	Name of river system	Length
1	River Sutlej	110 miles
2	River Baspa	25 miles
3	Giri, Narva Khad	30 miles
4	Gambhar khad	5 miles
5	Pabar	30 miles
	Total	200 miles

The waters of the district can be divided into two categories, namely trout waters and waters other than trout waters.

Trout: The Pabar river in Rohru Valley abounds with trout (Salmo fario) where one can catch trouts of considerable size. It is in all 30 miles in length, out of which 15 miles is a special reserved for 'Trout Anglers'. Baspa river in Sangla Valley has also quality sizes trout; but due to its remoteness and lack of communication, it is still unknown to the outside world of its beautiful treasure. A small trout hatchery unit at Chergaon is maintained by the department to cater to the trout population in the river Pabar.

River Sutlej is the main water resource with the tributaries for the indigenous important food fishery viz. Mahsir (Barbustor) Labeo dislostomus (gid) and Orenius sinuatus (Himalayan barbel). River Gambhar which has only a small tract of its water course from Loonkiar to Bairy Hatti in Arki Tehsil, abunds with Mahsir and Goonch (Bajarius Bagarius) of considerable sizes are available.

The main fishing grounds along river Sutlej are:—Rampur, Padoa, Seoni and Tatta Pani: along Gambhar Bairy Hatti, Gauna and Loonkiar.

The fishing is allowed all the year around except in case of trout waters where angling is permitted from 1st day of March to last day of October in the year.

Fishing is regulated through rules framed under Indian Fisheries Act, 1897 and Punjab Fisheries Act 1914 as applied to Himachal Pradesh, the salient features of which are given below:—

(i) Fishing is allowed only under a license.

(ii) There are two classes of licenses for fishing in waters other than trout waters namely, General and Rod and Line and for fishing in trout waters, Trout Angling License.

There is a restriction on the catching of important fish less than 12"—Mahsir, 10"—Trout 9" Gid and Himalayan Barbel.

Erection wires, dams or diversion of water with intent to kill fish is prohibited.

Use of dynamite, poison of explosive is strictly prohibited.

The waters specified below have been declared as 'Sanctuaries' and all fishing is prohibited in these waters in order to let the fish propagate. Its species:—

(i) A stretch of 2 furlongs of river Giri from Parala to Korala (both banks) in Theog Tehsil.

(ii) A stretch of one furlong of river Giri from Sainj down stream (both banks) in Theog Tehsil.

(iii) A stretch of 2 furlongs of river Giri from Sainj down stream (both banks) in Theog Tehsil.

(iv) A stretch of 1 furlong of Ashni khad from the bridge of Junga down stream (both banks) in Mahasu District.

Rohru valley with river Pabar flowing in its midst with rapids end pools and abounding in 'Trout' has come to be known as 'Anglers Paradise'. To encourage further tourist traffic for trout fishing 15 miles tract of river Pabar has specially been reserved for Angling and has further been divided into beats of 2 miles stretch each. There are rest houses for stay of tourist anglers at Rohru and Chergaon. For the convenience of anglers log cabins are being constructed along the Pabar river which provides excellent trout fishing.

Pond Fisheries: The Mirror Carp Culture in the impounded waters of Arki has shown satisfactory progress. For want of culturable waters in the district, much head-way could not be made in sphere of Mirror Carp Cultivation.

There are 200 fishermen in the district, who have taken up fishing as subsidiary means of livelihood, the main source of their income being agriculture and allied professions. The annual production of fish is about 500 maunds valued at Rs. 30,000. The fishing industry at present is in the hands of down trodden persons who have practically no rational basis for the exploitation, management of their asset in fisheries. There is as such a great need and scope of their education and upliftment for putting fishing industry on its proper place.

Animal Husbandry

One of the major responsibilities of the Animal Husbandry Department is providing of veterinary aid and control of contagious

diseases amongst the livestock. The major achievements made by the Animal Husbandry Department in Mahasu District from the time of formation of Himachal Pradesh are enumerated as under:—

(a) *Veterinary Aid*: It is very essential that there should be adequate facilities for the protective treatment of cattle. Prior to the formation of Himachal Pradesh there were only two veterinary hospitals functioning at Kotgarh and Kotkhai in the district. In order to expand these facilities the department opened one hospital at Solon during 1950 and 12 hospitals and 19 dispensaries more at the places noted below during First Plan, Second Plan and during three years of Third Plan:—

First Plan	Second Plan	Third Plan (61-62 & 62-63)
Hospitals	Hospitals	Hospital
1. Jubbal	1. Seoni	1. Ghana-hatti
2. Theog	2. Kasumpti	Dispensaries
3. Kunihar	3. Shawan	
4 Arki	4. Barotiwala	1. Sawara
5. Rohru	Dispensaries	2. Matiana
6. Rampur	1. Deha	3. Chaupal
7. Rodi (Chaupal)	2. Kingal	4. Dodrakwar
	3. Himri	5. Deori
	4. Tikkar	6. Dadot
	5. Sarahan	7. Kashlog
	6. Kharot	8. Belu
		9. Dhundan
		10. Kharan
		11. Mohri
		12. Kharapather
		13. Dargi

At present the total number of hospitals and dispensaries functioning in Mahasu District is 34 (15 hospitals and 19 dispensaries) and by the end of Third Plan the number is likely to go up to about 38 (16 hospitals and 22 dispensaries).

(b) *Poultry Development*: Poultry keeping is an important subsidiary industry of the poor classes in the rural area and can be a useful source of income to them. Eggs are very valuable food and the population would benefit by supplementing poultry products in their food. One Regional Poultry Farm at Kamlahi near Simla and one Poultry Extension Centre at Solon both started during Second Five Year Plan are functioning in Mahasu District. The Poultry Extension Centre, Solon will be up-graded during Third Plan to the status of a Poultry Farm by increasing the livestock strength, brooding and hatching arrangements. Besides, two poultry units have also been attached to each Veterinary Hospital at Seoni and Kunihar.

The department also undertakes the work of distribution of improved breeds like White Leghorn and Rhode Island Red to the breeders through block agencies in order to improve the ordinary village hen which is generally undersized and lays only about 50 small sized eggs in a year.

(c) *Bull Centres*: 103 bull centres are functioning in Mahasu District where bulls of improved type such as Haryana Jersy, Sindhi, Brown Swiss, Sahiwal and Murrah Buffaloe bulls have been located for upgrading the local non-descript stock. These bull centres are serving a very useful purpose.

(d) *Key Village Scheme*: Key village scheme is also a cattle improvement scheme for carrying out intensive breeding in the areas having specific breeds. The main idea of the scheme is to produce breeding bulls in the villages rather than in the Government farms and thus meet the present demand of bulls from the extension centres. There are 2 Key Village Centres and Key Village Units functioning in the district.

(e) *Feed and Fodder Development*: An important aspect of livestock improvement is the proper feeding and management of the animals. The effect of better breeding can be largely negatived if the animals are not properly fed and looked after. Some experts think that feeding alone can aid an increase of 30 per cent in milk production of cows.

The supply of green fodder so necessary for the healthy up-keep of cattle and milch cows, is not only meagre but erratic. It is also a recognised fact that without proper feeding the inherited qualities are not properly manifested in the off spring, no matter how-so-ever the superior germ-plasm be introduced amongst the progeny. All the breeding programme will not bring substantial results unless adequate arrangements for their feeding is made. In order to improve upon the pastures a scheme namely "Feeding and Nutrition" has been started at

Ghannahatti where pasture improvement work as well as drying and bailing of grasses is undertaken.

(f) *Sheep and Wool Development Centre, Jeori*: Most of the sheep in the district is being reared as migratory flocks. There is only one main breed, namely the Rampur Bushahri which is usually found in this district. The annual average wool clip yielded by this sheep ranges from one to two pounds and the spinning count of the wool is 40 to 46. In order to evolve a suitable breed of sheep carrying a higher yield and a superior quality of wool one sheep breeding farm has been established at Jeori, on 1st October, 1955 with a foundation stock of 191 indigenous ewes. With a view to improve the indigenous breed of sheep by cross breed and also to supply pure breed sheep and rams to interested breeders the Department imported 241 sheep of Polwarth breed from Australia (81 rams and 160 ewes). Out of this total of 241 sheep of Polwarth breed 60 rams were distributed to various breeders for purposes of cross breeding and the remaining stock was located at the Sheep Breeding Farms, Jeori and Taradevi for multiplication and cross breeding with local sheep.

(g) *Sheep and Wool Extension Centres*: In order to provide rams of superior germplasm and to acquaint the breeders with better sheep management practices, two sheep and wool extension centres have been opened each at Dodrakwar and Darlaghat The rams are lent out to the breeders during the breeding season without any charge. These centres also provide veterinary aid to the flock owners and arrange drenching of sheep against endoparasite infection and dipping of flocks to get rid of ectoparasites. Proper records regarding the improvement effected through this distribution of rams both in regard to quality and quantity of wool are being maintained. According to the data available it has been established that there is a marked increase in wool yield and the quality of wool produced from the crosses is far superior to that of indigenous sheep. In fact in certain flocks the annual yield in half bred progeny had increased by 100 per cent.

(h) *Training Centre (Sheep and Wool)*: In order to impart practical training both to the sheep breeder and the staff engaged in sheep and wool development work, one training centre has been established at sheep breeding farm, Jeori.

Panchayats

There was no regular system of Panchayat in the erstwhile princely States except the area of Kotgarh and Kotkhai where twenty-two Panchayats were functioning under the Punjab Panchayat Raj Act, 1939. There were 3 Panchayats in Baghal, 7 in Bhajji, 27 in Jubbal, 4 in Kumharsain and 4 in Baghat State. These indigenous Panchayats were organised either for one village or for a group of villages. The functions of these Panchayats were confined only to village administration and other works in respect of the uplift of the villages.

In 1949 Punjab Panchayat Raj Act, 1939 was extended to Himachal Pradesh and the Panchayat Raj of respective princely State was repealed. These Panchayats were to perform certain civic as well as judicial functions without any reservation of seats for women or Scheduled Castes till their abolition on the 31st July, 1953.

The Himachal Pradesh Panchayat Raj Act was passed in 1952. Under this Act, the principle of election to Gram Panchayats on adults suffrage consisting of all adults ordinarily residing within its jurisdiction, was accepted. 152 Gram Panchayats one in each Patwar circle covering the whole rural area of the district were established in 1954. A special feature of the system of election was the reservation of seats for women and Scheduled Castes.

The Gram Panchayats were assigned only executive functions. In addition to general administrative and municipal functions, certain duties concerning to development works were made the responsibilities of the Gram Panchayats under the Panchayats Raj Act and three tier structure was envisaged comprising of Gram Panchayats, Tehsil Panchayats and Zila Panchayats, on the enforcement of Himachal Pradesh Territorial Act, 1957 and the emergency of the Territorial Council after the conversion of Himachal Pradesh from part 'C' State into centrally Administrative Union Territory and the abolition of the legislature, the Zila Panchayats were abolished because the powers and functions of these bodies were transferred to the Territorial Council.

On the expiry of term of office bearers of the Gram Panchayats the second elections were completed in 1957. Elections of Panches to Nyaya Panchayats were also held. 142

Nyaya Panchayats consisting of 15 members each were established.

The number of Panchayats in each tehsil and sub-tehsil on the 31st March, 1961 was—

Sl. No.	Name of Tehsil/Sub-Tehsil	No. of Panchayats	No. of Panches
1	Arki	16	392
2	Seoni	8	174
3	Kumharsain	9	209
4	Rampur	17	346
5	Rohru	18	444
6	Jubbal	10	200
7	Kotkhai	5	113
8	Theog	17	400
9	Kasumpti	14	285
10	Solon	14	285
11	Chanpal	14	314
	Total	142	3,151

At district level Zila Parishad, an ad hoc body, has been constituted for the district which has replaced district Development and Planning Advisory Committee and tehsil Panchayats have been entrusted the functions of Block Development Committees.

The Himachal Pradesh Panchayat Raj Act provides for the establishment of conciliation boards or Samjhauta Samities in each Gram Sabha. A Samjhauta Samiti is constituted by the President of the Gram Panchayats comprising of neither more than five nor less than three members of the Panchayat including the President to conciliate petty cases through amicable settlement between the parties. The object of conciliation board is to offer opportunity to the parties concerned to make amicable settlements of their disputes and criminal cases before they go to the Nyaya Panchayats. These conciliation boards try to bring the parties to an agreed settlement within a period of three months from the date of filing of an application for compromise.

Organisation and Structure: The basic unit in the organisation and structure of the Panchayats is the Gram Sabha which means the entire adult population of the territorial limits fixed by notification for each Gram Sabha Adult under the Panchayats law means, every male and female who has completed 21 years age.

Every Gram Sabha elects the executive body, namely the Gram Panchayat, and also the judicial one viz. the Nyaya Panchayat, for its area. In the Gram Panchayat a certain number of seats is reserved for the Scheduled Castes and the women, though the electorate is joint. The system of election is based in adult franchise. The number of the members of a Gram Panchayat varies between 7 and 15 according to the population in addition to the President and the Vice-President.

A Nyaya Panchayat consists of 15 Panches, of whom at least 1/5 should be able to record proceedings in Hindi. The term of office of every member of the Gram Panchayat as well as the Nyaya Panchayat is three years. The term of Gram Panchayat can be further extended under the order of administration.

For each tehsil and sub-tehsil, there is a Tehsil Panchayat. The number of the members varies from 10 to 40. The Tehsil Panchayat is constituted of members appointed by the State Government either by name or by official designation, and of elected members.

The term of office of the members of the Tehsil Panchayats is also three years.

Every Gram Panchayat has a whole time Secretary, who maintains the records of the Gram Panchayat as well as the Nyaya Panchayat.

The Secretaries are given intensive training on various subjects connected with their duties.

Every Gram Panchayat has a Chowkidar, who also acts as process server, the messenger, and the general functionary at the lowest rung even in development activities of the Gram Panchayat.

Powers and Duties: The compulsory duties of the Panchayat include the construction, repair, maintenance and lighting of public street, medical relief, sanitation, up-keeps protection and supervision of any building or other property pertaining to the Gram Panchayat, registration of births, deaths and marriages, public places and property vested in the Gram Sabha establishment management and care of common grazing grounds and land for the common benefit, taking steps to prevent fire, maintenance and control of waste water, maintenance of all such roads and water courses the management of which has been undertaken by the

Panchayat with the sanction of the State Government.

The Gram Panchayat can make any recommendations to the grant of trees for construction of house, fuel, grant of a loan or subsidy, for economic betterment, grant of a license for possessing of fire arm and for shooting, grant of a nautor land for cultivation to an applicant residing within the jurisdiction of such Gram Panchayat. Besides these the Panchayats are free to take up works designed to promote the uplift of the villagers.

Moreover, the Panchayats are the executing agency of many development works done in their areas. It has been decided that small works like construction of school buildings, kuhls, bowlies etc. should be executed through Panchayats and not through contractors. In order to get maximum possible cooperation from the public it has been decided that small irrigation works like construction of irrigation channels and kuhls, which does not exceed Rs. 10,000 in value should be executed through Panchayats. The Administration has, further, taken the following steps to make these bodies effective:—

1. All heads of departments in the Administration have been requested to give due weight to the recommendations of Panchayats.
2. Supervision of supply of foodgrains in the Territory has been entrusted to Panchayats.
3. Distribution of timber is made through the Panchayats.
4. Nautor lands are granted generally on the recommendations of Panchayats.
5. Panchayats have been encouraged to establish Panchayat forests and common grazing lands.

Nyaya Panchayats: The Nyaya Panchayats stand vested with criminal, civil and revenue powers. Civil and revenue suits upto a value of Rs. 100 can be entertained and adjudicated upon by them. On the criminal side offences cognizable by these Panchayats comprise sections, 160, 172, 174, 178, 228, 264, 267, 277, 279, 283, 285, 286, 288, 289, 290, 294, 323, 334, 336, 341, 352, 354, 358, 403, 406, 411, 417, 426, 429, 497, 498, 509, and 510 etc. of the Indian penal code. Offence under Cattle Trespass Act, the Vaccination Act and the Prevention of Cruelty to Animals Act are also triable by the Nyaya Panchayats, and on conviction, they may sentence an accused to a fine not exceeding Rs. 100.

Security for keeping peace: Nyaya Panchayats have powers to take security for keeping peace. They have exclusive cognizance over certain offences which have been precluded from the jurisdiction of the court. The appearance of lawyers before Nyaya Panchayats is forbidden by law in order to save simple people of the villages from burdensome payments of fees to the lawyers.

For hearing and trial of a case, suit and proceeding, a bench of five Panches is constituted and the opinion of the majority prevails. The Act provides for an opportunity for any aggrieved person to file an appeal before the full bench of the Panchayat. An application for revision can also be filed in the court of the Sub-Divisional Judge/Magistrate.

Financial Resources: The financial resources of the Panchayats are very limited. They get nominal local rates as well as income from Samjhauta cases. The Government give grant to meet the expenses on account of pay of Secretary and Chowkidar.

Panchayat Secretaries Training Institution: This Training Centre was started on 18th March, 1962 by the Panchayat Department to give training to the Secretaries of Gram Panchayats. Three months course has been introduced there. A batch of 50 persons receive this training at a time. Following course of study has been introduced:—

Subject	Days	Hour
1. Practice	30	120
2. Law	21	126
3. Theory	16	94
4. General	20	120

Secretaries of Gram Panchayats of all districts are given training in this institution.

Local Bodies

Mahasu District inherited only two local bodies: Municipal Board, Sôlon and Municipal Committee, Rampur. These were converted into Notified Area Committees in 1949 and subsequently upgraded in 1953 as Municipal Committee and S.T.C. respectively. Notified Area Committees were constituted at Theog and Arki Towns in 1950, N.A.C. Theog was converted into S.T.C. in 1953 and N.A.C. was formed for Narkanda in the same year. Thus the concept of local self government is manifested through the following local bodies in 1961—

1. Municipal Committee (2nd Class), Solon.
2. Small Town Committees, Rampur and Theog.
3. Notified Area Committees, Arki and Narkanda.

Election to these local bodies are held on the basis of adult franchise. In the Municipal Committee one seat is reserved for Scheduled Castes.

Municipal Committee, Solon: This 2nd class committee comprises of six elected and three nominated members. The main source of income of the committee is octroi duty, water taxes and sanitation taxes. The committee enjoys a sound financial position having annual income to the tune of Rs. 488,493 in 1960-61.

The Committee is maintaining a dispensary, a family planning centre, library and reading rooms. The amenities of public hydrants, street lighting and drainage have been extended to the citizen. The committee has decided to construct a Town Hall-cum-Municipal Office at Solon at an estimated cost of Rs. 25,000.

Small Town Committee, Rampur: The committee consists of six elected and two nominated members with one of the elected member as its President. The main source of income is octroi duty and Lavi fair. The committee has provided one reading room for the public. The total receipts of the committee was Rs. 163,514 and expenditure Rs. 146,028 during 1960.

Small Town Committee, Theog: The committee consists of six elected and two nominated members.. The sources of income are meagre. Besides octroi duty, property tax, animal tax and vehicle tax have also been levied by the committee. Its annual income during 1960-61 was Rs. 57,586. A public reading room, library, street light and pucca drains are maintained by the committee. It makes arrangements for the supply of water in summer.

Notified Area Committee, Arki: Consists of four non-official and two official members. This is a small town having a population of 1,221 persons and annual income of Rs. 9,936 in 1960. The committee maintains street lights, drains, and a reading room.

Notified Area Committee, Narkanda: There are only three non official members and four official members. Total population of the town is 360 persons only. Its annual income was Rs. 22,508 in 1960. It maintains street lights.

Co-operative Movement

The Co-operative movement in this district originated from the marketing of potatoes in the year 1945 when the then Political Agent for Simla Hills Mr Bazelgette organised about six Zamindaras Association in the States. These Associations were organised to ensure supplies of potatoes to the British Forces stationed in India due to the exigencies of Second World War and were registered under different laws in force in those princely States. It was only after the formation of Himachal Pradesh on the 15th of April, 1948 when the Co-operative Act of 1942 was extended to this territory that the Co-operative movement in real sense, was started in the district. The old Zamindara Associations were brought in the fold of co-operation and multi-purpose co-operative societies were organized from the year 1949 onwards. In addition to these societies, some societies were inherited from Kotgarh and Kotkhai area of Punjab on their transfer to this Pradesh.

2. *Achievements during First Five Year Plan*: During the First Five Year Plan period, the number of societies, their membership share capital and working capital rose from 178, 11,177, Rs. 5.33 lakhs and Rs. 16.94 lakhs as on 30th June, 1952 to 271, 20,420, Rs. 18.10 lakhs and Rs. 113.56 lakhs respectively at the end of First Plan. This number of societies includes Apex level institutions. Subsidies amounting to Rs. 5.03 lakhs were granted in favour of various

types of societies functioning in the district for meeting expenditure on staff, construction of buildings, and marketing activities. In addition to it, share capital contributions to the tune of Rs. 1.50 lakhs was made to 11 societies of the district and Rs. 4.00 lakhs were contributed to the share capital of Apex Bank during this period.

3. *Achievements during Second Plan*: Statement given below indicates the schemes of Co-operative Development implemented and expenditure incurred in this district during the Second Five Year Plan—

Sl. No.	Name of the Scheme	Achievements made	
		Physical Amount	Financial in lacs
1	Staff subsidies to marketing societies	6	0·146
2	Subsidy to credit societies	3	0·180
3	Loans and subsidies for construction for godowns (Assistance of Rs. 80,000 in respect of one godown was refunded)	23	3·85
4	Subsidy for purchase of trucks	2	0·187
5	Share capital contribution in marketing societies	4	0·41
6	Share capital contribution in credit societies	2	0·10
7	Revitalization of small-sized societies	109	0·411
8	Organization of service societies	56	0·232
9	Central Land Mortgage Bank	1	1·100
10	Subsidy for hiring of godowns	2	0·074
11	Other Schemes	..	0·200
		Rs.	6·890

5. *Achievements made during the year 1961-62*: The statement below indicates the targets achieved during the year 1961-62.

Sl. No.	Name of the Scheme	1961-62 Target fixed		Target achieved	
		Physical	Financial	Physical	Financial
			(Amount in lacs)		
1	Village societies organized/reorganized during second Plan	165	0·346	165	0·346
2	Organization of new societies	4	0·12	4	0·012
3	Share Capital Contribution of village societies	5	0·25	5	0·220
4	Co-operative Farming	1	0·115	1	0·115
5	Consumers Co-operatives	..	..	..	..
6	Rural godowns	3	0·300	3	0·30
7	Share Capital contribution in marketing societies	..	..	..	..
8	Managerial subsidy to marketing society	5	0·04	5	0·40
9	Godowns for marketing societies	..	..	..	..
	Total	..	1·063	..	1·033

6. *General Progress*: The progress of the movement during the past three years is indicated by the figures stated below—

Year	No. of Societies	Membership	Share Capital (in lakhs)
1959-60	297	23,841	Rs. 20·76
1960-61	300	24,877	Rs. 22·12
1961-62	307	24,698	Rs. 23·92

The number of societies stated above includes Apex Level institutions. The number

of all kinds of societies functioning in this district as on 30-6-62 are as under:—

Sl. No.	Kind of the Society	Number
1	2	3
1	Apex Bank	1
2	Apex Federation	1
3	Central Land Mortgage Bank	1
4	State Union	1
5	District Federation	1
6	Tehsil Unions	7
7	Agricultural Credit Societies	233
8	Non-Agricultural Credit Societies	17
9	Industrial Societies	16
10	Joint Farming Societies	1
11	Others	28
		307

In addition to these societies, 5 branches of the Apex Bank are functioning in the interiors of the district at Solon, Theog, Kotkhai, Narkanda and Rampur.

7. *State Level Schemes in Third Plan*: The following statement indicates the State-level schemes being implemented during Third Plan—

Sl. No.	Name of the Scheme	Finance outlay	Achievements during 1961-62	Programme for 1962-63
1	2	3	4	5
			(Amount in laks)	
1	Outright right Grants to Apex Bank and Co-operative	1·00	..	..
2	Central Land Mortgage Bank	2·75	1·132	1·192
3	Staff subsidy to Apex Bank	..	0·006	0·151
4	Additional Deptt. Staff	8·45	0·14	1·000
5	Co-operative Training Education	7·38	0·961	1·000
6	Grant-in-aid to the Union	0·50	0·10	0·10
7	Seminars, Study tours and Award of Prizes	0·35	0·07	0·07
8	Share contribution to Apex Marketing Society	0·21	..	..
9	Grading Staff	0·06	0·055	..
10	Managerial Subsidy	0·04	0·02	0·013
	Rs.	20·74	2·484	3·526

Industry

The most effective measure for the economic emancipation of the agriculturists would have been the organisation and setting up of large-scale industries which could divert a substantial proportion of the population from agriculture to industry. But owing to the conditions peculiar to the district chances for starting large-scale industries in the near future are very dim. This district though rich in forest, mineral, animal and horticultural resources has two relatively well-established industrial units namely Dyer Meakin Breweries Ltd., Solon and Kasauli Distillery, Kasauli. The district has great potentialities in the shape of raw material for the establishment of cottage and small scale industry. These industries go a long way to supplement the income of many, besides being ancillaries to large scale industries. Such development would envisage the extension of work opportunities, raising of incomes and thereby the standard of living of the people and to bring about a more balanced and integrated rural economy. A start was given to this programme during the First Five Year Plan with the objects of:—

(i) Utilising the raw materials available locally;

(ii) Providing employment and thereby improving the economic condition of the people, especially in the rural areas; and

(iii) Increasing the production potential for meeting the basic needs of the people.

According to the Census 1961 the important household industries alongwith units returned in the district are given here:—

Household Industry	Units
1. Blacksmithy	667
2. Basketry	441
3. Carpentry	756
4. Earthenware	104
5. Flour grinding	4,843
6. Goldsmithy	212
7 Kohlu	27
8. Shoe-making	839
9. Tailoring	1,399
10. Weaving	808

Blacksmithy: The Lohars are important village artisans who, more or less, are indispensable. Lohar community of the villages is engaged in the household industries of making agricultural implements, certain minor utensils, ornaments and tools. They carry out repairs and mend old implements for which payment is made in kind. Almost a Lohar has fixed perquisites, depending upon the number of ploughs and bighas of land held by the household concerned. On festivals and marriages he is served with free meals. There is no elaborate workshop and the furnace is fixed in one corner outside the house.

There are two blacksmithy training centres one is at Rohru and other at Solon. The Rohru Centre was opened in 1960. From 1960 to 1963 it trained 16 trainees. During 1962-63 this centre produced goods worth Rs. 2,271.56 and earned a profit of Rs. 1,420.

Blacksmithy Centre Solon is located in the Industrial Estate, Solon. It was established in 1962. The aim of this centre is to render necessary help of blacksmithy to the different factories located in the Estate.

Basketry: Bamboo utensils is a necessity for the agriculturists. The articles prepared out of bamboo are required by the villagers for their day-to-day use. Men carry agricultural produce, vegetable, pots full of water and cow-dung in Kiltas while women use small and big size baskets. Utensils of bamboo are helpful for storing grains and flour and distributing cooked things at the time of festives The Barars, Bhanjaras, Dumnas, Kolis and Rehars are engaged in basketry but this is their subsidiary occupation. For raw materials they depend on the forest produce like bamboo and grass reeds. The craftsmen are paid a share in crop at the time of harvest. Under the scheme of imparting training to artisans and reviving this old art and giving new touch a Basket-ware Training Centre, Brotiwala was established in 1958. According to a sanctioned strength this centre enrols ten apprentices for a complete course of one year. For the first four months each trainee is paid a stipend of Rs. 30 per month. In the next four months stipend is reduced to Rs. 20 per month plus wages calculated on the basis of daily output. In the last four months the stipend is further reduced to Rs. 15 per month plus wages.

Carpentry: Carpenters prepare agricultural implements. Industries department started wood working centres at Jubbal in 1953 and at Chaupal in 1956. For a full course of one year each trainee gets a stipend of Rs. 30 per month for the first four months. In the next four months this stipend is reduced to Rs. 20 per month plus wages worked out on daily output. In the last four months the stipend is further reduced to Rs. 15 per month plus wages.

Under the programme of rural arts and crafts in the Community Development Blocks, trainees are provided improved tools and implements on 50 per cent subsidised rates from the block funds.

The aim of the Training Centre is to impart training and to afford common facilities to the local artisans.

Leather Work: The cobblers carry out their common hereditary profession. Though their profession offers better prospects yet they work as agriculturists on tiny un-economic holdings. They prepair and repair shoes to meet the demand of local zamindars in return of their customary wages in kind at the time of harvest. Shoemakers in the urban areas are fully occupied throughout the year.

Tanning is carried on by the local shoemakers as a part time occupation. The leather tanned by them is mostly used for their own use. Leather tanning industry has not been developed on proper lines. Old and out dated methods are still in use. The known methods of flayings, salting, and tanning are crude. Now the Government has established Tanning Centre at Arki and Dhami.

Pottery: Pottery relics are often the only evidence of by gone civilisations. The potter fulfills the daily needs of village folk. All goods are prepared from clay and a type of special clay is generally prepared. Sometimes the products are baked that gives a sort of blackish touch. Goods in clay contain water, pickles, foodgrains, oil, milk, and ghee. These utensils are common features of every rural household. Chilam made of clay for smoking is very popular. Once a while the potters prepared Khaprails. These are house tiles used for roofing.

Scientific Instruments and Equipments: C.P.N. Industries, Solon are engaged in the production of microscopes. This factory produces student microscopes and dissenting microscopes. The firm proposes to manufacture binoculars telescopes, and other laboratory equipments.

Dutta Scientific Works, Solon was established in 1960 to produce thermometer capillaries. The firm has recently started the production of wall thermometers.

There are a few other industries in the district but still there is good scope for setting up a number of industries. Efforts are being made by the Industries Department for the industrial development of the area. Funds are made available to the Co-operative Societies and also to individuals under the "State Aid to Industries Act" by the Industries Department. The loans can be granted upto the mixiumum limit of Rs. 10,000. The interest is charged at the rate of Rs 4½ per cent annually. Thus the Industries Department, collaborates financially with the private entrepreneures.

Stainless Steel Utensils—Himachal Metalurgist and Mittal Industries are the only two units at Solon which have been set up to produce stainless steel utensils. The necessary machinery has been installed but the units have not gone into production as the raw material has not so far been received by the firms.

Tailoring Centre: The main object of opening Tailoring Centres is to impart free training of sewing and cutting to the desirous candidates. One year course of tailoring has been introduced. Under the Pilot Project Areas Schemes Government Tailoring Centres have been opened at Arki and Solon. The Industries Department started 3 Centres one each at Dhalli, Hatkoti and Rampur during 1957. Two more Centres were opened at Kumharsain and Sarahan in 1959.

Weaving: Weaving is practised since time immemorial to cater to the local needs. Many agriculturists in upper Mahasu make woollen clothes for their own use. Different varieties of woollen articles such as pattus, pattis, blankets, tweeds, shawls and mufflers are produced in the district. The productivity of the workers is low because they work on pit-looms with throw shuttles. Bushahri woollen caps, chaddars, and blankets are quite famous. Government has distributed some looms among villagers. Weaving Training Centres have been opened at Rampur and Rohru.

Dyer Meakin Breweries Limited Solon: This Company traces its history back to the year 1853, when a brewery was set up at Kasauli by Mr. Edward Dyer of Messers. E. Dyer & Co. This firm was partnered by the brothers, E. Dyer and E.J.R. Dyer, who also promoted a private company under the name and style of the Amritsar Distillary Company in the year 1898. Mr. Edward Dyer was the brewing pioneer in India, and he set up Breweries at Simla, Solon, Lucknow and at Mandaly in Burma.

During the same century, another enterprising gentleman, named H.G. Meakin, who came from a well known brewing family of Burton-on-Trent, founded Meakin & Co. He bought the Simla and Kasauli breweries and built others at Dalhousie, Ranikhet, Chakrata, Darjeeling and Kirkee.

The object of these two firms was to supply cask beer to the British soldiers stationed at these places and at cantonment towns situated within convenient distribution range.

Both the firms E. Dyer & Co. and Meakin and Co. continued their activities separately until after the second decade of the 20th century. During the First World War (1914—18), when it became somewhat problematical to import sufficient quantities of beer into the country, these two firms rose to the occasion and supplied large quantities of this beverage to the British soldiers resident in India and to the other beer drinking public at reasonable prices. A fairly large quantity of beer went overseas also. Apart from beer, large quantities of barley malt, processed at the maltings of these firms, were sent to Egypt, with a view to enabling the breweries in that country to supply beer to soldiers at reasonable prices.

In operation along with additional plant installed there. The distillery building at Solon Brewery was demolished. In its place now stands a tall, spacious building, which was constructed to house the new, modern brewing equipment and plant and machinery.

Kasauli Distillery, Kasauli (H.P.) and Dyer Meakin Breweries Limited Solon are the large-scale units in the district which are engaged in the production of alcoholic beverages such as beer, malta whisky and spirit. The products of these units are marketed throughout the country.

Khadi and Village Industries: Khadi and Village Industries Commission was constituted on 1-4-1956 under an Act of Parliament and before that Board was functioning since 1953. This commission is engaged in commendable work of development and growth of village industries. In accordance with its decision to undertake the development of Khadi and village industries in Hill and

Border Areas for the economic uplift of the local people, a Regional Office was set up by the Commission at Rampur in 1963. To advise the Commission on its programmes, an Advisory Committee was constituted. The main objectives of the Commission in undertaking the development of Khadi and village industries in the Border Areas are:—

(i) Creation of employment opportunities to the unemployed and underemployed,

(ii) arrangements for the supply and storage of wool,

(iii) to start where ever possible, consumer goods industries such as gur, matches, ghani oil and non-edible oils and soap,

(iv) development of local leadership and creating in the people a sense of community consciousness by encouraging the formation of registered institutions, co-operatives of local enthusiastic worker and make them responsible for the efficient organisation of Khadi and village industries work.

(v) subsidised supply of improved implements and equipments to artisans and craftsmen, and

(vi) training of workers in Khadi and village industries with a view to making them responsible for running the centres.

The commission has also relaxed its patterns of assistance in the case of programmes in Border Areas such as instead of 50 per cent grant and 50 per cent loan basis 100 per cent grant will be given for all the units, supply of implements on the basis of 75 per cent grant.

Employment Service: The National Employment Service in India, as we all know, is the product of post-war demobilization. A large number of service personnel and war-workers who were to be released had to be resettled in civil life. Considering the complexity of the problem, the Directorate General of Resettlement and Employment (Government of India) was established in July, 1945, and Employment Exchanges were gradually set up. In 1947, the colossal problem created by the rehabilitation of the refugees from Pakistan resulted in the extension of facilities offered by the Employment Service to the Refugees and by the 1948, the facilities were thrown open to all categories of workers in response to growing demands on it.

In November, 1956, Himachal Pradesh Government took over from the Central Government the only Employment Exchange in the Pradesh at Mandi and with that was set up the Directorate of Employment. The Exchange for the Mahasu District was established at Solon on November, 1960, with a Sub-Office Employment Exchange at Rampur. In addition, four Employment Information and Assistance Bureau were set up at Chaupal, Jubbal, Kunihar, and Theog.

The Employment Exchanges are primarily engaged in registration and placing work. They register employment seekers and vacancies, match each other and find the right man for the right job. The following statement shows the registration and placing work done by the Employment Exchange in the district from 1960 to 1962—

	1960	1961	1962
A. *Registration*			
1. Clerical	148	253	525
2. Skilled	77	330	743
3. Unskilled	715	2,563	3,594
Total	940	3,146	4,312
B. *No. of Vacancies registered*	*1,356*	*1,822*	*3,783*
C. *No. of Candidates placed*			
1. Clerical	21	84	14
2. Skilled	11	67	190
3. Unskilled	93	559	1,180
Total	125	750	1,384

With the increase in the number of Employment offices, the facilities offered by them have been reaching the doors of an ever-increasing number of employment-seekers. Besides, executive orders of the Government which require all types of vacancies (except those that are to be filled through the U.P.S.C. or by promotions) to be filled through the Employment Exchanges, have considerably helped in promoting the placement function.

The noticeable increase in the number of vacancies notified may well be referred to the Employment Exchanges 'Compulsory Notification of Vacancies Act, 1959' and Rules made thereunder in 1960 requiring all establishments in the public sector and those employing 25 or more persons in the private sector to notify all vacancies barring a few types to the local Employment Exchanges.

Apart from the placement function, the Employment Offices have, in the field of occupational information, been collecting materials for publications like the Hand Book on training facilities, and distributing allied publications such as guides to careers, occupational information series and career posters for the use of administrators, employment officers, guidance personnel, teachers, students. parents/guardians, employers and general public information rooms are set up in the Employment Exchanges, where these publications are displayed and sold.

In order to advise Employment Exchanges on matters relating to training at the district level, a District Committee on Employment, tripartite in character, is attached to the Exchange. Resolutions and recommendations adopted by the committees are brought to the notice of the Director of Employment for examination.

Collection of Employment Market Information: Closely associated with the Act regarding the Compulsory Notification of Vacancies is the scheme for the collection of Employment Market Information, every quarter, from employers both in the public and the private sectors through questionnaires prescribed in the Act. This along with data concerning the unemployed, vacancies notified and placements thrown up by Exchange operations, is incorporated in a variety of reports and studies to disseminate information useful for man power planning such as changes in the levels of total employment from quarter to quarter, occupational and industrial disposition of employed persons, manpower shortages, unemployment situation and related matters.

On the basis of the information collected, the following Reports are being issued:—

(1) Quarterly Employment Market Reports by each of the six Employment Exchanges;

(2) Quarterly Reports on Shortage occupations by the EMI-Unit; and

(3) Quarterly Employment Review by the EMI-Unit in the Directorate of Employment.

Scheme for Vocational Guidance: Information useful for employment seekers is available at all the Employment Exchanges. In addition, vocational guidance to youths and employment counselling to adults is made available to those who come to the Exchanges to seek employment assistance or guidance or both. A State Vocational Guidance Unit was set up at the headquarters to assist the Director in the administration and coordination of the programme in the Employment Exchanges collaborating with the guidance service under the State Educational authorities, in course of time. The Vocational Guidance Officer visits the Employment Exchanges, schools and colleges for vocational guidance and employment counselling, follows up and reviews progress of guided youths and adults; disseminates up-to-date information on occupations, training facilities, educational courses, employment trends and unemployment outlook to youths, teachers, parents and other groups: assists in placement of youths in institutional or inplant training centres, apprenticeship or in entry jobs and in securing retraining facilities and placement of adults.

Craftsmen Training Scheme: The aim of training in the Industrial Training Institutes running under the Craftsmen Training Scheme sponsored by the Government of India, Directorate General of Employment and Training, Ministry of Labour and Employment is to equip the people with suitable industrial employment, to promote industrial basis among the people of the Pradesh and to mitigate unemployment among the educated.

With this object in view the Himachal Pradesh Government decided to expand activities in this field and by the end of Second Five Year Plan another Industrial Training Institute with 109 seats including 16 seats in Cutting and Tailoring was set up at Solon. Details are as under:—

Trade	Industrial Training Institute Solon (Seats)
D/man (Civil)	16
Fitter	16
Carpenter	16
Cutting and Tailoring	16
Electrician	16
Welder (Gas & Electric)	12
Surveyor	16
Total	108

Duration of Training: The duration of training for engineering trades is 2 years (1½ years institutional followed by 6 months inplant 1 apprenticeship training in factory or workshop). For Non-engineering trades the training period is only one year, institutional.

Qualifications for Admissions: For Draftsmen (Civil). Electrician, Surveyor, Radio Mechanic Stenography (English/Hindi) is Matriculation or equivalent. For the remaining trades educational qualification is upto Middle School standard (relaxable in suitable cases). Candidates between 16 to 25 years of age are normally admitted for training but the upper age-limit is relaxable for ex-servicemen, Scheduled Castes and Scheduled Tribes candidates, bonafide displaced goldsmiths and their children, and in other deserving cases.

Method of Selection: Candidates are selected on the basic of vivavoce and or written test by the Local Selection Committees constituted one in each of the six districts of the Pradesh. Seats are reserved as under:—

Scheduled Castes—12½ per cent.

Scheduled Tribes—5 per cent.

Bonafide Displaced Goldsmiths and their Children—5 per cent.

Women (for stenography)—25 per cent.

Orphan—2 per cent.

Stipend: 33⅓ per cent of the total trainees admitted are granted proverty-cum-merit monthly stipends at the rate of Rs. 25 per trainee with reservations of 12½ per cent of the stipends for Scheduled Castes, 5 per cent for Scheduled Tribes, and 5 per cent for bonafide displaced goldsmiths and their children. In addition ex-servicemen trainees got monthly stipend of Rs. 35 from the Ministry of Defence, and Himachal trainees coming from the Community Development Block areas of the Pradesh get stipend at the rate of Rs. 25 P.M. each from respective Community Development Block funds.

Other Facilities: (i) Free Training. (ii) Free Workshop Clothing once every four months to those who have to work on or near moving machinery and also in hazardous trades. (iii) Free facilities for recreation and medical treatment. (iv) Free hostel accommodation, where available. This will include free supply of food.

Prospects for Passed-out Trainees: As has been stated earlier, the training equip young men for setting up their own work. It does not guarantee service to them, though every effort is made by the Employment Exchanges to find the trainees gainful employment in industries.

Apprenticeship Training: With the coming into force of the Apprentices Act, 1961 with effect from 1-3-1962 and in accordance with the Rules framed thereunder, arrangements have to be made in suitable industrial establishments for the apprenticeship training of the following three types:

(a) Short-term—6 months for ex-trainees who have completed institutional training in the ITIs.

(b) Full term—This will be of two types—1½ years for ITI boys to complete 3 years and 3 years for new apprentices.

The Director of Employment and Training has been appointed as State Apprenticeship Adviser and the Labour Officer as the Assistant Apprenitisehip Adviser.

A start has already been made with the introduction of the short-term apprenticeship.

Banking and Commerce

The banking started in the district with a gradual growth of indigenous bankers namely Sahukars and village Banias. Relatives and Arhties have contributed their due share and have assisted the agriculturists and handicraftsmen.

The credit facilities available are:—

1. Commercial Banks.
2. Commission Agents.
3. Co-operative Credit Societies.
4. Government.
5. Industries Department.
6. Professional Money Lenders.
7. Relatives.
8. Village Banias.

A branch of the Narang Bank of India, Ltd., was opened on 18-4-1964 at Solon and the

Punjab National Bank, Ltd. started functioning there in 1948. Rampur is the next town where banking facilities were made available to the people of the area since 25-6-1959. Subsequently branches of the State Co-operative Bank Limited (Non-Scheduled) have been opened at Kotkhai, Rampur, Thanedhar, Theog and Simla. These afford credit to the Co-operative Societies which further advance loans to the individual members. The bank charges interest at the rate of 6 per cent from its member co-operative societies who become eligible for loans by purchasing shares of the value of Rs. 100. Besides Government advances Taccavi loans to the rural public for purchase of bullocks, improved seeds, fertilizers, horticulture, construction of house.

The Co-operative Societies play an important role in the sphere of rural credit and marketing as well. The Co-operative Development Federation is an apex institution which arranges for the marking of agricultural produce of the member societies. It also procures all required commodities to the societies from the outside markets. The Federation handles consumers goods worth lakhs of rupees every year.

There is at least one small market at the headquarters of each tehsil and sub-tehsil. The main markets are at Dhalli, Mashobra, Matiana, Narkanda, Rampur, Salogra, Solon, Thanedhar and Theog. The functionaries in these markets deal in small groups consisting of collectors, wholesellers, retailers and commission agents. They finance the cultivators for raising the crop and advance money against the standing crops and enter into contract to purchase their produce. The commission agents mainly act as financers of trade.

The articles of exports are potatoes, timber, apples, ginger, walnuts, anardana, wool and medicinal herbs. Major imports consists of fabrics, sugar, salt, tea, foodgrains, consumers goods, cigrettes, domestic utensils, kerosene, coal, cement, iron and steel.

In the interior there are small shops, at least one shop in one big village. The shopkeeper stocks similarly all varieties of goods with due regard to the consumers taste and requirements. The barter system prevails there. Rates are comparatively high in Chaupal Tehsil followed by Rohru and Rampur Tehsils.

Marketing Practices: The producers generally bring their produce to the markets near the road heads where the assembling and distribution operations are carried on. In Mahasu potato is the most important single cash crop. Kotgarh and Kotkhai are the lands of apples. Apples are sold by the owners in the orchards and the buyers themselves arrange for transportation. Apples are classified into varieties and prices are settled according to the size and variety of the apples. The seed potatoes which are mostly exported to all states are graded and sized in a loose customary manner.

The list of important markets along with their business has been given at Table 18.2 of part III.

Communications and Road Development

Upto 1951, there were very few motorable roads and whatever roads existed, were all fair weather roads without bridges on the streams. During rainy season traffic used to get dislocated. The largest share of funds for road construction during Second Five Year Plan, were spent in Mahasu. Accordingly, by the end of the Second Plan, following roads were constructed and thrown open to vehicular traffic.

1. *Simla—Mandi Road via Bilaspur (Section Simla to Namol)*—This road is a State Highway and its length in Mahasu District is 34 miles, out of a total length of 103 miles. On Major Nallah crossing on this road, Dusseran Khad bridge was completed during the Second Plan. The work of metalling and tarring this portion of the road was taken up in the 2nd Plan and will be completed in the Third Five Year Plan. This road will ultimately be capable of carrying double lane traffic.

2. *Simla—Mandi Road via Tattapani (Section Simla to Tattapani)*—Length of this road in Mahasu District is 29 miles out of its total length of 113 miles. By the end of Second Plan, 16 ft. wide formation was cut on this road and metalling and tarring between Dhalli and Naldehra was taken in hand. The old bridge at Tattapani was replaced by a single lane bridge capable of carrying heavy vehicular traffic. The road will be metalled and tarred upto 14 miles from its junction with Hindustan—Tibet Road near Dhalli during the Third Plan period. Further work

on the road will be carried out during the Fourth Plan period.

3. *Theog—Kotkhai—Hatkoti Road*: This road bifurcates from Hindustan—Tibet Road near Theog (18/0 and connects it with Jagadhari—Poonta—Raiban—Rohru Road near Hatkoti. It has a total length of 43 miles. The road was completed and opened for fair weather one way heavy vehicular traffic during the Second Plan period. The work on the construction of five bridges on this road was taken in hand in the beginning of the Third Plan and these will be completed by the end of this Plan period. Work on metalling the slushy reaches on this road will also be completed by the end of March, 1966 and further work of metalling and tarring will oe done during the Fourth Plan period.

4. *Jagadhari—Paonta—Raiban—Rohru Road (Section Rohru to Minus)*—Total length of this road in Mahasu District is 62 miles including 25 miles passing through Uttar Pradesh territory. Out of these 62 miles the portion from Rohru to Arakot (16 miles) was opened for one-way fair weather vehicular traffic during Second Plan. All the streams on this road will be bridged and the entire length widened to single lane width during the current plan period. This road is proposed to be developed as a State Highway during the Fourth Plan period.

In addition to these, the following existing roads were improved during Second Plan period:

1. Narkanda Khadrala Road . . . 20 miles.
2. Sidhpur Thanedhar Road . . . 7 miles.
3. Kufri Koti Chail Road . . . . 18 miles.
4. Shallaghat Arki Kunihar Road . . 15 miles.

Work was started on the following roads in the district during the Second Plan period and these will be completed to the widths shown against each during the current Plan period:

Sl. No.	Name of Road	Length	Width to which the road will be completed during the Third Plan
1.	Khadrala Baghi Road .	20 miles	9 feet.
2.	Road from Jn. of National Highway near Julri to Kharanghat.	25 miles	16 feet, 9 feet and 4 feet.
3.	Simla Kasumpti Junga Road.	11½ miles	16 feet.
4.	Chhela Balghar Daya Road	17 miles	16 feet.
5.	Dhami Tattapani Road .	24 miles	9 feet.
6.	Sungri Rohru Road .	17 miles	16 feet and 9 feet.
7.	Rampur Gaura Road	9 miles	—
8.	Kingal Baragaon Road .	5 miles	16 feet.
9.	Solon Sabathu to Jn. of Shallaghat Arki Kunihar	—	—
10.	Barotiwala Road . .	14 miles	16 feet.
11.	Kunihar Barotiwala Road .	40 miles	16 feet.
12.	Kharapather Khirki Road .	18 miles	6 feet.

Moreover the work on the following additional roads in the district was taken in hand during the Third Plan period and these will be completed to the specifications shown against each:

Sl. No.	Name of Road	Length in miles	Widths to which these will be completed during the Third Plan
1.	Bhareri Kotgarh Bhera Road.	22	16 feet to 9 feet.
2.	Jubbal link Road . .	1	16 feet.
3.	Luri Seoni Road . .	33	16 feet.
4.	Kumharsain link Road .	1	16 feet.
5.	Road from Sanjauli to Shogi via Kasumpti . .	22	16 feet.
6.	Arki Domehar Bhadhlog Jhabroo Road . .	15	16 feet to 9 feet.
7.	Road from Tuini to Dodra kwar	35	9 feet to feet.

In addition to the above 4 feet wide tracks on motorable alignments will be cut on the following roads during the Third Plan period

1. Mashobra Dharampur Road—22 miles.
2. Guma Panjeli Baghi Road—20 miles
3. Hatkoti Jukhales Madhol Road—12 miles.

These tracks will be widened during the Fourth Plan period.

The Transport Department maintains its separate regional office at Dhalli and looks to the running of the vehicles. For transport in the interior of the district horses, mules and donkeys, goats and sheep are used.

Post, Telegraph and Telegram facilities— In 1960-61 there were 25 sub-post offices and 203 branch offices in the district. Telegraph facilities are available at the headquarters of each tehsil and sub-tehsil. Kotgarh, Kunihar, Matiana, Mashobra, Narkanda, Seoni, Shalaru and Thanedhar have this facility. Telephone services are available at Arki, Junga, Kasumpti, Kotgarh, Kotkhai, Kumharsain, Kunihar, Mashobra, Narkanda, Rampur, Sandhu, Seoni, Solon, Thanedhar and Theog.

Railway Transport: There is only one narrow gauge railway line about sixty miles long which passes through this district. It starts from Kalka, a town in Punjab passes through the territory of Himachal Pradesh and terminates at Simla The main stations on the line falling in Solon Tehsil are Gumma Koti, Jabli, Sanawar, Solon, Salogra, Kanoh, Shogi and Taradevi in Kasumpti Tehsil.

Land Revenue

The Land Revenue was fixed during settlement operations in the States and Estates in this district except in Dhadi, Tharoach and Sangri, where settlement operations were undertaken after the formation of Himachal Pradesh. The land revenue is collected by the Lamberdars who get 5 per cent Panchotra on the land revenue collected by them. The Patwaris prepare Arz-Arsals at the time of Rabi and Kharif Land Revenue collections and these are supplied to the Lamberdars.

As regards assessment and collection of Land Revenue the practice obtaining in the Punjab is being followed.

The amount of fixed land revenue and cesses in Mahasu District is as under:—

Land Revenue	Rs. 5,04,766
Cesses	Rs. 1,02,838

Land Reforms: (i) In view of the small holdings, the relations between the landlords and tenants are generally cordial. Abolition of Big Landed Estates and Land Reforms Act, 1953, has provided relief to the tenants, as they are eligible to acquire proprietary rights of the land under their tenancy. This measure has no doubt safeguarded the interests of the tenant class.

(ii) Due to heavy rains in 1955 crops were damaged and the peasants were provided with gratuitous relief in the shape of Taccavi loans given to the peasants for land improvement and for the purchase of foodgrains. As regards Bhoodan, 1,315 acres of land were donated in Mahasu District by way of Bhoodan by various landlords. But due to small holdings and paucity of culturable land Bhoodan Yagna Act has made little headway in the District. There are also no peasant organization in this District.

(iii) Due to small holding, no agricultural labour is employed on wages, but the peasants do their work voluntarily with the co-operation of neighbouring agriculturists.

Besides land revenue there are other sources of revenue such as forests, excise, registration, imposition of fines, goods and passenger tax.

Land Tenures

There are three kinds of land tenures prevalent in the Pradesh. These are:—

1. Zamindari	
2. Pattidari	(a) Perfect or Mukkammil.
	(b) Imperfect or Gairmukkammil.
3. Baichara	(a) Perfect or Mukkammil.
	(b) Imperfect or Gairmukkammil.

Zamindari system of land tenures are those which are either owned by a single proprietor or jointly by more than one. Pattidari are those in which each proprietor owns not the particular fields which he cultivates, but a specific ancestral share in the whole estate. Perfect or Mukkammil Pattidari tenures are those in which all the lands are divided and held in severally among the different proprietors in proportion to ancestral or other customary share in the revenue paid. All the cosharers are jointly responsible in the event any one among them fails to fulfil his obligations or liabilities to the government. Imperfect or Gairmukkammil Pattidari tenures are those in which part of the land is held in severally and part on community. The interests of the land owners in both correspond to the customary shares.

In Bhaichara system of land tenue, every man is the owner of only as much land as is in his possession or as it is commonly put possession is the measure of rights' in such system. In perfect Bhaichara tenures, all the lands are held in severally but customary shares, if they ever existed, have disappeared. Each holding or rather the portion of total revenue which a land owner pays has become the sole measure of his rights and liabilities. An imperfect Bhaichara differs from a perfect Bhaichara system in exactly the same manner as an imperfect Pattidari differs from a perfect Pattidari estate.

Number and Size of Holdings: Land holdings in the district are small in size, scattered and fragmented. The total area of the district was 13,43,027 acres in 1960-61 of which 2,87,849 acres have been recorded under different crops. Table B-XI in Part II of this book gives the information of households engaged in cultivation classified by interest in land and size of land cultivated in rural and urban areas separately. The total number of cultivating households in the district are 11,369 of which 14.13 per cent households have less than one acre land, 34.15 per cent 1 to 2.4 acres, 30.39 per cent 2.5 to 4.9 acres, 11.58 per cent 5 to 7.4 acres, 4.49 per cent, 7.5 to 9.9 acres and the remaining 4.36 per cent households have more than 10 acres of land. 72.2 per cent households have owned land, 8.88 per cent have the land from private persons institutions for payment in money, kind or share and 18.92 per cent have partly from the Government and partly from private persons for payment in money, kind and share in the rural areas.

Price Trend

In the absence of regulated markets wholesale prices of the selected commodities, in the district are collected through the revenue agencies. These are published by the Directorate of Ecomomics and Statistics in the Quarterly Bulletin of Statistics. Prices are collected at four centres Kasumpti, Rampur, Solon and Theog. Date for four years from 1957 to 1960 has been given in Table 4.1 of Part III.

Mahasu like other districts is mainly a consuming market. Even in the case of foodgrains it has to depend partly on supplies from neighbouring States. In case of cash crops such as fruits, ginger and potatoes the district is surplus. Potato exported by the Kailash District Co-operative Federation Dhalli since 1957-58 to 1961-62 is:

Year	Quantity	Value
*1957-58 . . .	89,648	15,47,855
1958-59 . . .	79,232	12,25,000
1959-60 . . .	72,276	14,48,200
1960-61 . . .	1,56,866	23,94,895
1961-62 . . .	1,30,000	22,00,000

Wheat and rice are imported in large quantity.

During four years under review the price situation depicted a mixed trend. The prices fluctuated within a large margin. Some commodities are discussed here.

Wheat—The minimum rate of wheat was Rs. 14.00 at Solon and Rs. 17.00 at Theog in 1957. In 1958 the prices remained more or less the same. In 1959 the wholesale prices of wheat showed an upward trend in almost all the markets. Its maximum price was Rs. 25.88 per maund at Rampur in February, 1959. A slight decline in the prices was noticed in all the centres in 1960.

Rice—In the beginning of 1957 rice coarse was sold at Rs. 25.25 per maund at Kasumpti. After May its price began to rise. Its highest price of Rs. 30.00 was in November 1957. An abrupt rise was noticed at Kasumpti when rice coarse was sold at Rs. 40.00 per maund in March, 1958. In the very next month prices tended to decline and touched the minimum of Rs. 26.75 per maund. In 1959 and 1960 the wholesale price of rice remained steady.

Gram—The wholesale price of gram showed a mixed tendency since January 1957 to August, 1958. Thereafter it showed an upward trend and reached a maximum of Rs. 32.00 per maund at Rampur in March, 1957. During 1960 its price remained between Rs. 15.00 and Rs. 20.00 at all the stations.

Maize—The wholesale price of maize showed a rising tendency after August 1958. Its highest price of Rs. 22.38 per maund in all the four years has been recorded at Rampur in February, 1959.

Pulses—The prices of pulses remained more or less steady with only minor fluctuations on either side.

The following table gives an idea of the wide variation of prices in April of each year.

Year	Centre	Commodities			
		Wheat	Rice	Gram	Maize
1957	Kasumpti	25·00	25·00	16·00	15·00
	Rampur	..	..	..	..
	Theog	18·00	22·00	..	11·50
1958	Kasumpti	..	26·75	13·00	12·00
	Rampur	..	..	..	..
	Theog	16·62	23·00	..	13·00
1959	Kasumpti	..	29·50	19·25	20·00
	Rampur	15·62	31·00	27·50	22·12
	Theog	21·75	26·00	19·25	19·00
1960	Kasumpti	..	26·00	16·40	..
	Rampur	23·00	28·50	18·80	17·10
	Theog	19·00	24·20	15·00	13·20

The wholesale prices of these commodities have been recorded highest in 1959, at Rampur.

Community Development

The Community Development Programme was launched in Mahasu District on October 2, 1952 when Kunihar Block was inaugurated. The National Extension Service was given a start in the district by opening Kasumpti-Seoni Block on 2nd October 1953. The Theog Pilot Development Project was converted into National Extension Service Block on 1st April, 1954 and into a Community Development Block on 1st April, 1956 and Kasumpti-Seoni Block was converted on the same date. Two National Extension Service Blocks Rampur and Rohru were inaugurated on 1st July, 1955 followed by Jubbal-Kotkhai and Chaupal Blocks. In order to intensify the activities under the Community Development and National Extension Service Programme the Kunihar Block was converted into post-intensive Block on 1-10-1956.

The following statement shows the size and population of each block as in 1962:—

Name of Block	Category of block	Year of Start	Area in sq. miles	No. of Villages	Population
1. Kunihar	Stage II	2-10-52	152·8	469	38,730
2. Kasumpti-Seoni	„ II	2-10-53	240·3	529	45,864
3. Theog	„ II	1-4-54	277·4	541	64,995
4. Rohru	„ II	1-7-55	475·0	169	51,869
5. Rampur	„ II	1-7-55	565·0	179	43,847
6. Jubbal-Kotkhai	„ II	1-4-56	198·0	255	38,359
7. Chaupal	„ II	2-10-56	240·0	297	40,391
8. Solon	Pre-extension.		108·0	454	34,914
Total			2,256·5	2,893	358,969

By the end of 1961 eight blocks were functioning. The district was fully covered by the Community Development Programme. The area of Kumharsain Sub-Tehsil has been covered by the Theog block. The details of progress made on the various fronts are:—

Agriculture: During 1960-61, 3,393 maunds of improved seeds and 5,419 maunds of Chemical fertilizers were distributed against the corresponding figures of 3,965 and 12,397 maunds in 1959-60. Figures of 1959-60 are higher than for 1960-61. The number of improved agricultural implements distributed, agricultural demonstrations held, chemical pesticides distributed and compost pits dug in 1961 came to 220,893,438 and 33,329 against 13,172,776 and 3,842 during the previous year. In addition 1,062 acres of land was brought under Japanese methods of cultivation in 1960-61 against 950 in 1959-60.

Animal Husbandry: 727 improved birds supplied 13,243 animal castrated and 150 animals artificially inseminated in 1960-61. Figures for the previous years are almost low.

Health and Rural Sanitation: 5 Primary Health Centres were started in 1958-59 and 2 in 1959-60. 61 rural latrines were constructed during 1960-61 against 32 in 1959-60 and 57 in 1958-59. 318 soakage pits, 51 drinking water bowlies were constructed besides the renovation and disinfection of 1,300 bowlies in 1960-61.

Social Education: In the sphere of social education 45 literacy centres were started and 516 adults were made literate during 1960-61 against the corresponding figures of 35 and 203 in 1959-60. 23 reading rooms and libraries were started in 1960-61 and 38 in the previous year. The number of cultural programmes organised during the same year came to 2,635. In addition to this 31 Gram Sahayak's camps and 7 Mahila Samities were started. 921 functional leaders were trained in 1960-61.

Communications: 166 miles of Kacha roads were constructed and 205 miles were repaired during 1960-61.

The programme has gained appreciable momenture in the district. The interest and enthusiasm evinced by the people for bettering their lot has been marked in all the spheres concerning rural development. People have made contributions in the forms of voluntary labour, cash and materials. Yearwise progress made under the programme has been given in Table 16.1 of Part III.

Gram Sewaks Training Centre, Mashobra: The Gram Sewaks Training Centre is situated at Mashobra, Simla-7 on Simla-Tattapani motorable road at an altitude of 7,000 feet. The Extension Training Centre was opened on 15th June, 1953 by the Development Department. Six months training centre for Gram Sewak was introduced in the beginning. In September, 1954 one year's training in agriculture and allied subjects was extended with the establishment of Basic Agricultural School, Chharabra. On 1st January, 1960 the Basic Agricultural School and Extension Training Centre were integrated and Two-years course was introduced. The institution was redesignated as Gram Sewak Training Centre.

This institution besides Himachal Pradesh is catering to the needs of hilly areas of neighbouring states of Punjab and Jammu and Kashmir. From 1-1-60 to 31-3-62, 107 trainees received training of which 10 trainees were from Punjab and 87 from Jammu and Kashmir.

Gram Sewika: The Home Science Wing known as Gram Sewika Training Centre was attached to this institution in 1955. Upto 31-3-1962, six batches comprising of 80 trainees in all qualified as Gram Sewika after receiving one year course.

The training imparted to each category of trainees is comprehensive and covers the following subjects:—

For Gram Sewak—

1. Agriculture I (Soil and Manures).
2. Agriculture II (Crops and its managements).
3. Horticulture.
4. Animal Husbandry.
5. Rural Industries.
6. Social Education.
7. Extension.
8. Public Health.
9. Co-operation.
10. Panchayat.
11. Minor Engineer.

For Gram Sewika—

1. Maternity and Child care.
2. Health and Sanitation.
3. Food and Nutrition.
4. Home Management.
5. Clothing Construction.
6. Agriculture and Allied Subjects.
7. Co-operative and Panchayats.
8. Extension Philosophy and Technique.
9. Craft.
10. Office Record and Procedure.

The trainees are given practical training of different subjects and they are taken out on study tour. Upto 31-3-1962, 458 Gram Sewaks and 110 Gram Sewikas received training.

Workshop Wing: This wing for one year's training to the village artisans was added to this institution in 1958. Upto 31-3-1962, 35 village artisans completed the training. The main object of this training is to train village carpenters and blacksmiths to learn the process of making and repairing modern tools and agricultural implements. In order to solve the economic difficulty of the trained artisans there is a provision of loans and subsidies from the Government for purchasing machinery and tools.

Orientation Training Wing: The main object of this training is that the Gram Sewaks who are in the field for more than three years should be re-orientated for two months to refresh their knowledge. It gives them an opportunity to learn new techniques. In the beginning this training was imparted at Nilokheri. Since November, 1961, the orientation courses were introduced in this centre. 91 Gram Sewaks including 10 from Punjab received this training.

In addition to above the training in inservice course and Youth Organisation Activities is also given to various Block functionaries, village leaders and other officers.

APPENDIX I

Gazetteer of Important Places

Arki: Arki is situated at a distance of about 28 miles from Simla. There is a Notified Area Committee having a population of 1,221 persons. There are tehsil offices, a police station, a high school, primary health centre, a post office and a rest house. Local paintings in the palace of the Raja Sahib of Arki are worth seeing.

Bagi: This is about eleven miles from Narkanda on Simla Khadrala road at a height of 9,300 feet. It is situated on the upper links of the Hindustan Tibet Road. The road connecting Narkanda with Bagi passes through magnificent forest ideal for hiking. There is a dispensary and a temple.

Batal: At a distance of 29 miles from Simla, Batal is pleasantly situated just a mile from Arki. The village is spread over an area of 615 acres. It is predominantly inhabited by Brahmins whose main occupation is agriculture. With a population of 960 persons comprising 502 males and 458 females (this is fairly a big village in Tehsil Arki. Other castes living here are Chamars, Kumhars, Maha-brahmin and Sunars. There is a Government primary school. Shiva temple is the place of importance in Batal.

Chaba: Situated on the left bank of the Sutlej in Sub-tehsil Seoni. This is a small village having a population of 71 persons. The importance of this village is due to Power House which was constructed in 1910. It supplies electricity to Simla town. There is a primary school, a post office, dispensary and a rest house.

Chirgaon: This village is located on the confluence of Pabar river and Andhra stream which is about nine miles away from Rohru in Chuhara valley. This valley is a land of fertile fields, rich forests and numerous gods. On the road between Rohru and Chirgaon, willow plantation is in full swing and this reminds the visitors of the beautiful Kulu valley or Kashmir. Here is a trout fisheries development farm. The river and the stream have plenty of trout. Many sportsmen have been visiting this place for angling. Full facilities for anglers are provided here. Dominant castes in the village are Thakurs, Rajputs and Kolis. The mainsty of the people is agriculture. The village has an area of 281 acres and a population of 352 persons.

Gijari: It is fairly a big sized village having 37 families. The distance of the village is 22 miles north of Simla. The popularity of the village is due to the ancient temple of Mahasu Deota which is said to be very old. The people from the neighbouring villages own their allegiance to the deity as its kalyaney. All the castes are living here and in one way or the other are dependent upon each other.

Jubbal: Jubbal is a medium size village in Mahasu District. This pretty village is situated at a height of 6,500 feet. It is connected with Simla by a fair weather motor road. The village covers an area of 277 acres and comprises of 49 households. At one time this was the capital of Jubbal State. It is about a mile away from Deora, the tehsil headquarters.

The main communities here are Kolis and Rajputs. Other communities living here are Brahmin. Braira, and Turi. Brahmin and Rajput are Swarans whereas others are Harijans. There is a veterinary hospital.

Khadrala: It is linked by a motorable road with Simla. It is situated at a height of 10,000 feet. The well-furnished rest house provides blankets, foam matresses, radio and books This is a commercial centre for potato business.

Kotgarh: About 11 miles from Narkanda, on the lower link of the Hindustan-Tibet road, lie the famous apple and cherry orchards of Kotgarh and Thanedhar. Kotgarh apples are known all over India. There are premises of a mission of Church Missionary Society. There is a Mission and a Govt. high school, a dispensary, a post office and a rest house.

Kotkhai: This village has a picturesque site on the right bank of the Giri. Elevation above the sea is 5,515 feet, lat. 31°7′ and long. 77°36′. Sub-Tehsil offices are located there. This place is known for quality apples. It is a commercial centre of apple and potato.

Kufri: It is eight miles from Simla on Simla-Theog road. It has brought Himachal on the sports map of the country by introducing the thrilling winter sport of skiing. Himachal Pradesh is one of the States in the country which offers facilities for skiing. Since 1953, when the Himachal Winter Sports Club was formed, skiing has made much headway. The club has a spacious Club House with dormitory accommodation for about 18 people. It has its own skis, boots and tabbogans. A skihut has also been constructed at the top of the run for providing light refreshments. The annual membership fee of the club is Rs. 10/- From casual members Re. 1.00 is charged per day. Skis and boots can be hired on daily payments of Re. 1.00. Hire charges for tabbogan is only 50 paise per day. Besides the Club House for which reservation can be made through the Himachal Tourist Information Office, Simla accommodation is also available in the Chini-Bunglow and in the Kufri P.W.D. Rest House.

Kumharsain: A village situated on a mountain descending to a depth of 2,280 feet to the left bank of the Sutlej. Elevation above the sea is 5,279 feet lat. 31°19′ and long. 77°30′. There are sub-tehsil offices, a high school, a post office, a telegraph office and a dispensary.

Naldera: Mashobra and Naldera are two very important picnic spots on the Simla-Tattapani road. About twenty Kilometres from Simla motor road is the Naldera golf course. The nine-hole course is very popular with the golf-enthusiasts. It is famous for its pine and fir groves. The golfer can stay in the two-room tourist hut or in the P.W.D. rest house.

Narkanda: Surrounded by magnificent forests, Narkanda lies 9,000 feet above sea level and 38 miles from Simla. This is a ramous tourist centre. A favourite picnic spot here is the Hattu Peak. 10,300 feet high. This is a good place for outing, and commands a unique view of the enternal snowline and the dense forest full of both big and small game. There are merry delightful walks. The five set rest house has all the modern facility, radio, books and indoor games.

Rampur: Rampur is situated on the left bank of the Sutlej at an elevation of 3,500 feet, lat. 31°27′ and long 77°41′. The town is surrounded by cliffs which confine the air and render the place very hot in summer. This is a well known trade centre where a number of down country merchants have shops. Lavi the biggest trade fair in Himachal is held there in the second week of November every year which attracts thousands of people and traders from far off places. This is famous for shawls, chaddars, chilgoza and ponies. There is an ancient Tibetan temple with gigantic prayer wheels and a temple dedicated to Lord Shiva. There is a college, a high school, a civil hospital, a rest house, a sub-post office, a telegraph office and a police station.

Rohru: It is about 88 miles north of Simla accessible by bus. The Pabar river in Rohru offer many a fishing pools. Rohru the headquarters of the tehsil of the same name provides educational and medical facilities. block development offices, magistrate first class office and police station are located there.

Salogra: Salogra is situated 27 miles south of Simla 4 miles beyond Solon. Messrs Dyer Meakin & Co. have constructed a brewery which is engaged in the production of alcoholic beverages such as bear, malta, whisky and spirit. The products of this brewery is marketed throughout the country.

Sarahan: This place is 27 miles north of Rampur and 7,246 feet higher above the sea levels lat. 31°30′, long. 77°50′ on the old Hindustan-Tibet road. Its site is fine, being in a beautifully wooded recess formed by the hills advancing round it in a semicircle behind, while in front they slope down to the Sutlej. The most remarkable building is a historical temple dedicated to the goddess Bhimakali. Previously human sacrifices were here offered to her. The rest house, commanding a panormic view of rolling fields and rising hills add to the beauty of this village. There is a post office, a high school, library and a dispensary.

Solon: Solon a popular summer resort, lies midway between Kalka and Simla. It is connected with both by rail and road. This is a class V town having a Municipal Committee. There are tehsil offices, magistrate first class, higher secondary school, training college, a civil hospital and a post office. There are two spacious rest houses one managed by the P.W.D. the other by the Municipal Committee.

Shathla: At an altitude of 7,000 feet from the sea level, Shathla is 52 miles from Simla. Scattered over the hills slopes of a hill, this is an apple growers village. Comprising of 69 households, it is predominantly inhabited by Rajputs who are keen horticulturists. Other castes living here are goldsmiths, carpenters, Kolis and Nagalus. Total area of the village is 298 acres and it gives an impression of all round prosperity. There is a Government girls primary school.

Theog: It is about 18 miles north of Simla on the Hindustan-Tibet road. Elevation above the sea is 8,018 feet, lat. 31°6′ and long. 77°26′. There are tehsil offices, magistrate first class office, block development offices, a high school a post office and a rest house.

APPENDIX II

List of Trees, Shrubs hebs, climbers, bamboas and grasses with their uses.

S. No.	Botanical Name	Local Name	Uses
		A. TREES	
1	Abies Pindrow	Tosh	Manufacture of aircraft, building construction, packing cases, sleepers, paper pulp.
2	Acacia catechue	Khair	Manufacture of Katha and Kuch, leaves for fodde r.
3	Acer caesium	Rikhaudlu	Rifle butts, furniture, burrs used in cups.
4	Acer caudatum	Do.	Do.
5	Acer oblongum	Parong	Agriculture implements etc.
6	Acer picutm	Rikhandlu	Ploughs and bed stoads.
7	Acer villosum	Do.	Do.
8	Aegle marmelos	Bul	Fruit medicinally used.
9	Aesculus Indica	Khanor	Furniture, leaves for fodder.
10	Ailanthus antissima Syn. A. Glandulosa	Ohi	Fodder and firewood, flood control.
11	Albizzia chinensis Syn. A. Stipulata	Ohi	Furniture, agricultural purpose fodder, Gum obtained, House posts.
12	Albizzia labbok	Siris	Do.
13	Alnus nepalensis	Kunish	Fodder, firewood, bead steads, flood control.
14	Alnus nitida	Do.	Do.
15	Anogeissus Latifolia Chal Dahu	Chal Dahu	Fodder & agricultural implements.
16	Azadirachta Indica Syn. Melia Azadorachta	Neem	Leaves for medicinal use, furniture.
17	Bauhinia roccmosa	Karyal	Fodder flower used as vegetable.
18	Bauhinia variegata	Do.	Do.
19	Betula alnoides	Kathbhoj	Bark used in roofing, umbrellas and used in old days a paper.
20	Bridelia montana Syn. Bretusa	Badhar	Carts, agricultural implement and building construction.
21	Butea monosperma Syn. B. Frodoas	Dhak	Fruit Medicinally used, dhobinat.
22	Carica papaya	Papita	Fruits eaten and used medicinally.
23	Gajcaria tomentosa	Goela	Fuel.
24	Cassia fistula	Amaltas	Fruits medicinally used.
25	Castonia sativa	Mitha-Khaner	Fruits eaten and furniture.
26	Cedrela serrata	Darle	Building construction, leaves used for tanning.
27	Cedrala toona	Toon	Building construction, leaves used for tanning & furniture
28	Cedrus deodara	Kelo, Diar	Building purposes, furniture, sleepers and oil extracted for medicinal use.
29	Celtis australis	Kharak	Furniture, fodder.
30	Citrus aurantifolia	Galgal	Fruits medicinally used and for pickles.
31	Citrus aurantium	Sangtia	Fruit edible.
32	Citrus acumana	Chaukotra	Fruit edible.
33	Citrus medica	Nimbu	Fruit medicinally used and for pickles.
34	Cordia dechotonia Sn. Emyxa	Lasura	Pickles and vegetable.
35	Carnus capitala	Khagsha	Firewood.
36	Cornus macrophylla	Khagsha & Laleu	Firewood and agricultural implements.
37	Corylus colurna	Banshabro	Fruit edible.
38	Crataeva religiousa	Barnah	Drums, modles, writing boards turnery.
39	Cryptomeria Japanica	Japani Saru	Ornamental paper pulp.
40	Cupressus sempervirenis	Saru	Ornamental.
41	Cupressus torulosa	Devidear	Building purposes.
42	Dalbergia sissoo	Shisham	Furniture, house building, erosion control.
43	Ehretia leavis	Chamoor	Agricultural implements, shora built.

APPENDIX II—*contd.*

S. No.	Botanical Name	Local Name	Uses
44	Elaeodendron glaucum	Chilru	Work and picture cabinet frames.
45	Embilica officinalis	Anola	Fruits medicinally used, prickles.
46	Englohardtia colebroodiana	Samma	The leaves and branches are burnt, use as manure.
47	Eriobotrya japonica	Lukatha	Fruit edible.
48	Erythrin suberosa	Padiara	It is used for scabbards, leaves are used, as butter and ghee pots.
49	Eucalyptus citriodora	Safeda	Oil medicinally used, paper pulp.
50	Eucalyptus globulus	Do.	Do.
51	Euonymus lacerus	Barmeli	Wood carved into spur, leaves for fodder.
52	Eounymus tingens	Barmeli	Bark yields yellow dye.
53	Euonymus pendulus	Barmeli	Fuel.
54	Feronia limonia Syn. Limonia acidissima.	Bar	Leaves used as dunas and fodder, fruits eaten.
55	Ficus bengalensis		
56	Ficus glomerata	Shin	Fodder.
57	Ficus Palmata	Fegura	Fodder, fruits edible.
58	Ficus religiosa	Pipol	Fruits medicinally used and fodder.
59	Ficus roxburghii	Tribmal	Fruits edible. leaves used for foddor and dunas.
60	Flacourtia indva Syn Flacourtia ramontchii.	Kangu, Karara	Fruit eaten.
61	Fraxinus floribunda	Angash	Rifle butts, sport goods.
62	Garuga pinnata	Kharpat	Champan poles and fodder.
63	Grewia elastica	Boul	Fibres for ropes.
64	Grewia oppositifolia	Do.	Do.
65	Ilex dipyrena	Kanderu	Fodder.
66	Juglans regis	Akhrot	Furniture, rifle butts. Fruits edible, bark for tanning purposes.
67	Lagerstroemia Indica		Furniture.
68	Oannea coromandelica Syn. Lannea grandis.	Jhingan, Pechka	Gum, fodder.
69	Litsea umbrosa	Chirindi	Oil medicinally used.
70	Lyonia ovalifolia Syn. pieris ovalifolia	Ailan	Firewood.
71	Machilss duthei	Kanwala	
72	Machilus odoratissima	Do.	
73	Mallotus phiaippinensis	Kamal	Bark for tanning, fodder and flowers for Kungu.
74	Mangifera indica	Amb	Fruits edible and used medicinally.
75	Melia azedarach	Darek	Bark and fruits medicinally used.
76	Meliosma dilleniaefolia	Sharpa	Fuel.
77	Moringa oleifera Syn. Moringa preygosperma.	Sohanjna	Medical purpose.
78	Morus alba	Tut	Edible fruits, furniture, fodder.
79	Morus serrata	Kimu	Do.
80	Musa paradisiaca	Kela	Fruits eaten.
81	Myrica nagi	Kaphal	Edible fruits, leave and bark medicinally used.
82	Olea glandutifer	Jharinu	Fodder.
83	Oroxylum indicum	Tatpalanga	Tanning and dyeing.
84	Ougeinia opjeinesis Syn. Ougeinia dalbergioides.	Sadan	Agriculture purpose, building.
85	Phoenix humilis	Khajur	Manufacture of mats.
86	Piecea smithiana	Rai	Aircraft, building construction, sleepers, paper pulp.
87	Pinus rox-burghii Syn. Pinus longifolia.	Chil	Building construction, sleepers, resin and its products.
88	Pinus wallichiana Syn. Pinus excelsa	Kail	Building construction, sleepers, packing cases and resin.
89	Pistacia integerrima	Kakre	Fruits medicinally used.
90	Populus ciliata	Safeda, chalun	Paper pulp.

APPENDIX II—*contd.*

S. No.	Botanical Name	Local Name	Uses
91	Prunus armenica	Chuli, Khumani	Fruits edible, oil from nuts.
92	Prunus cerasodes	Paja	Agriculture implements and leaves for fodder.
93	Prunus cerasus	Jaman	Edible fruits and agricultural implements.
94	Prunus communis	Allocha	Edible fruits.
95	Prunus cornuta	Jaman	Edible fruits, timber for building construction.
96	Prunus persica	Aroo	Edible fruits.
97	Psidium guvava	Amrud	Do.
98	Punica granatum	Daran	Fruits medicinally used.
99	Pyrus communis	Nashpati	Edible fruits.
100	Pysrus lanata	Banpalti	Do.
101	Pyrus malus	Seb	Edible fruits.
102	Pysrus Pashia	Kainth	Fire wood.
103	Quercus dilatata	Mohru	Do.
104	Quercus glauca	Bani	Firewood, agriculture implements.
105	Quercus incana	Ban	Do.
106	Quercus semicarpifolia	Kharsu	Do.
107	Rhamnus and varigata		
108	Rhododendron arboreum	Burash, Brass	Flowers used medicinally.
109	Robinia pseud-acacia	Robinia	Fodder and firewood.
110	Salix baby lonica	Majnu	Sports goods.
111	Salix dephnoides	Benuns	Do.
112	Salix elegans	Beuns, Bhashal	Do.
113	Salix tetrasperma	Beuns	Do.
114	Salmalia malabarica Syn. Bombax malabricum.	Semal	Matchbox, packing cases.
115	Spaindus mukorossi	Ritha	Fruits for washing and medicinally used.
116	Sapium insigne	Balojho	Manufacture cylinders and drums.
117	Sapium sebiferum	Tarcharbi	Tallaw of seeds used and making candles.
118	Spondias pinnata Syn. Smaggifera	Ambara	
119	Symplocos crataegoides lodj	Lodj, Jodhir	Fodder, dye.
120	Syxygium cummni Syn. Eugenia jambolana.	Jaman	Edible fruit, Agriculture implements.
121	Taxus baccata	Thuna	Manufacture of comb.
122	Terminalia arjuna	Arjun	Timber for building, furniture sleepers.
123	Terminalia belerica	Behera	Fruits medicinally used.
124	Terminalia chobula	Harar	Do.
125	Terminalia tomentosa	Alson, Sain	Timber for building, furmit ure, sleepers.
126	Ulmus Wallichiana	Marn	Libres, glowmatohes, fodder.

B. SHRUBS

1	Abave americana	Ramban	Medicinally used.
2	Achyranthes bidentata		Roots, medicinally-used.
3	Adhatoda vasica	Bassuti	Leaves and flowers medicinally used.
4	Aralia cachemirica	Akhota	
5	Artemisia valgaris	Charmar	Roots medicinally used.
6	Asparagus recemosus		Roots medicinally used.
7	Berveris Aristata	Kashmal	From roots resaunt is extracted and medicinally used.
8	Berberis asiatica	Do.	Do.
9	Berveris lycium	Do.	Do.
10	Boehmeria platyph ylla	Bomol, Khakha	For fishing nets.
11	Buddleia asiatica		Fuel and erosion control.
12	Buddleia paniculata	Sandroi	Do.
13	Cassia tora	Ailwan	Medicinal use.
14	Calotropis Procera	Ak	Do.

APPENDIX II—*contd.*

S. No.	Botanical Name	Local Name	Uses
15	Cannabis sativa	Bhang	Medicinally used.
16	Carissa spinarum	Karunda	Fodder.
17	Caesalpinia bondue Syn. C. Bonducella.	Mechka, Relan, Kringham	The forima of cotyledons which is very bitter considered good substitute for quinine good hedge plant.
18	Coeculus laurifolius	Pror	Fuel.
19	Colebrookia oppositifolia	Dasoindh, Gadoos	Uses in manufacture of gum powder.
20	Coriaria nepalensis	Gangara	Grate, fodder, picture frams.
21	Coriaria sericea	Chhunchunu	It is to be used for small articles.
22	Cotoneaster bacillaris	Reuns	Sticks.
23	Cotoneaster microphylla	Mat-jhinjira, Chamror	Sticks.
24	Crataegus cremulata	Gingar	Sticks.
25	Cyathula tomentosa	Kothla	
26	Daphne papyracea	Kaula	
27	Debregeasia hypolouca	Shihanru	
28	Desmodium gangeticum	Murt	
29	Desmodium tilifolium	Murt, Labair.	
30	Deutzia corymbosa	Philru	
31	Deutzia staminea	Dahlochi	
32	Dodonaea Viscosa	Mehndu	Ornamental hedge.
33	Euonymus lacerus	Agnao	Wood converted into sports, leaves lapped for fodder.
34	Euphorbia royleana	Shru, Chhurin	Medicinal use.
35	Ficus ne oralis	Dudhla	The leaves are lapped for cattle fodder and the ripe fruit eaten.
36	Hamiltonia suaveolens	Sidhara	For making gum powder.
37	Hypericum cernuum	Pigniara, Bansaul	
38	Indigofera gerardiana	Kathi	Fodder.
39	Indigofera hebepotale	Do.	Do.
40	Indigofera pulchella	Do.	Do.
41	Indigofera trifoliate	Do.	Do.
42	Jasminum humili	Chameli	Oil from flowers distilled.
43	Jasminum officinfile	Chameli	Oil from flowers distilled.
44	Jatropha curcas	Jablota	Medicinal use.
45	Lantana camara Syn. L. Aculeata	Phulkari	Erosion control.
46	Leptodermis lanceolata	Padari	
47	Lonicera angustifoloa	Pirlu, Kantias.	
48	Lonicera orientalis	Tiknoi	
49	Lonicera quinquelocularis	Bhaja, Wal Bakhru	
50	Mahonia nepalensis	Khoru	An ornamental plant.
51	Murraya keongir	Ghandela	Uses for agricultural implements.
52	Myrsinla fricana	Chhota Jhunjra	The fruit is used in Indian medicine.
53	Plectranthus rogosus	Chhichhri	
54	Pogostemon plectranthoides	Barmara	Used as manure.
55	Prinsepia utilis	Bhekhal	Edible oil.
56	Reinwardtia trigyna	Besant	
57	Ricinus communis	Aran	Used in medicine.
58	Rose macrophylla	Pahari-Gulab	
59	Roylea calycina	Karanoi	
60	Rubus ellipticus	Hirn or Hinsar	Edible fruit.
61	Rlobus niveus	Akhi	
62	Robus paniculatus	Kali, Akhi	
63	Sarcococca saligna	Tiliari	Used for sticks.
64	Skimmia laureola	Shashra	
65	Spirea canescens	Takru	
66	Siprea lindleyana	Kongtri	

APPENDIX II—*concld.*

S. No.	Botanical Name	Local Name	Uses
67	Staphylea emodi	Naghdhuan	Sticks.
68	Strobilanthes dalhousianus	Machine	
69	Strobilanthes wallichii	Do.	
70	Viburnum cotinifilium	Loz, Shawnga	Fruit is eaten.
71	Viburnum stellulatum	Rickhoi, Db.	The acid fruit is eaten.
72	Viscum album	Chula ka banda	
73	Wikstroemia canescens	Chambai	
74	Woodfordia fruticosa Syn. W. Floribunda.	Dhawin, Dhau	Used for fuel and for dying.
75	Zanthoxylum alatum	Timmur	Fruits medicinally used and tooth sticks.
76	Zizyphus jujuba Syn. Z. Mauratiana	Beri	Ediblo fruits.

C. CLIMBERS

1	Abrus precatorius	Raktan, Rati	Fruit used as weight and medicinally and fruit is poisonous.
2	Bauhinia Vahlii	Tur	Leaves for fodder and lunnas.
3	Cissampelos pareira	Bhatindu	The leaves and roots are used for medicine.
4	Clematis montana	Garol	The leaves are very pungent to taste and produce violent smelling while crushing.
5	Clematis mutous	Nak-chhikni	Medicinally used.
6	Cryptolepis buchanani	Dadhali	Medicinally used.
7	Cuscuta reflexa	Akash bel Kang	Medicinally used.
8	Dendrophthoe falcta Syn. Loranthus longiflorus.		
9	Dioscorea Pentaphylla	Dragal	Roots medicinally used.
10	Ficus scandens	Makhota	
11	Hedera nepalensis Syn. H. Helix	Kural	Fodder for sheep.
12	Ichnocarpus frutoscens	Bakar Bel	For making use for sarsaparitta.
13	Pueraria tuberosa	Sood	Used in medicine.
14	Rosa moschaata	Kuja, Kuin.	
15	Smilax parvifolia	Ram datun	Medicinally used.
16	Vallaris silanocea Syn. V. heynei		Branches are used for baskets.
17	Vitis trifolia	Pani- bel, beli	
18	Zehneria umbellata	Ban Kerela	

D. BAMBOOS AND GRASSES

1	Aristida depressa	Kumbru, Lambru	
2	Arundinaria falcata	Gola	For Hukka pipes and paper pulp.
3	Bambusa rundinacea	Maggar	Do.
4	Bothriochloa intermodia	Palman	
5	Cenchrus cillaris		
6	Chrysopogon fulvus Syn. C. Montanus	Dhaulu	
7	Cymbopogon martin ii	Makora, Khawi.	
8	Cynodon dactylon	Dub	
9	Dendrocalamus ham-iltonii	Nal	Paper pulp fodder.
10	Dendrocalamus strictus	Benj	Do.
11	Dichanthium anulatum		
12	Digitaria bifasciculata		
13	Erianthus munja Syn. Saccharum munja	Surar, munj	For ropes.
14	Erophorum comosum	Ghor-baggar	
15	Hetoropogon contortus	Sariala, Dangeriosh.	
16	Punicum antidotale		
17	Themeda anathera Syn. Anthistiria anathera.	Alunji

The word jana, man, is sometimes used curiously as a mere expletive, e.g.-Se jane rupaye those rupees; tes jane gara manjhe, in that house.

PRONOUNS

Sing.

	1st	2nd	3rd (he, she, it, that) eh, this	
N.	au	tu	sè	eh
G.	mera	tera	tesra, f. teara	esra, f. iara
D.A.	makhse, makhe	takhese, takhe	teskhe f. tea &c.	es &c. f.ia
L.	ma manjhe	ta &c.	tes, &c.	,,
Ab.	mand de	tan	,,	,,
Ag.	moè	toe	tenne f. tee	enne, f. ie

N.	hamc	tume	se	eh
G.	mahra	tara, tahra	tinna ra	inna ra
D.A.	hamma khe	tumma, &c.	,, &c.	,, &c.
L.	,, manjhe	,,	,, or tinne o tinne	,, or or tinne
Ab.	,, de	,,	,,	,,
Ag.	hame	tume	tinne, f. tinni.	inne, f. inni.

The post-positions, where not printed above, must be understood throughout. The pronouns se, that, and eh, this, are remarkable in having forms for the fem. in the Oblique Sing. Thus in tesra the possessor is masc., in teara, the possessor is fem.

	Sing.		Plur.	
N.	kun, who?	jo. who	kun	jo
Obl.	kos (with ra, &c'	jes,	kinna	jinna
Ag.	kunie	jenne	kinne	jinne.

koi, anyone, Ob. kos Ag. kunie.

kan, what. Ob. kanni.

Other pronouns are kuch, anything, something, jo koi, whosoever jo kuch, whatsoever.

ADJECTIVES

Adjectives used as nouns are declined as nouns, but Adjectives qualifying nouns have the following declension :—

Adjectives in -a. N. Sing. Masc. -a. Ob. e.

Pl.-e, indecl. Fem. -1, Sing, and Pl. indecl.

All Adjectives ending in any other letter are indecl. Comparison is expressed by means of de, from, than, e.g.—

Good, canga; better than this, es de canga; better than all, best, sabb de canga.

Demonstrative	Correlative	Interrogative	Relative
isha, like this	tisha, like that	kisha, like what	isha, like this
tisha, like that	kisha, like what	jisha, like which	itna so much or many,
titna, so much or many,	kitna, how much, or many	jitna, as much or many.	

The genitive of Nouns and Pronouns is declined like Adjectives in -a

For Numerals see list of words,

ADVERBS

Most Adjectives can be used as Adverbs. When so used they agree with the subject of the sentence

The following is a list of the most important Adverbs, other than Adjectives :—

Time	Place
hibbi, now	etthi, here
tes wakt, then	tetthi, there
kabbe, when?	kei, ketthi, where?
Jabbe, when	jetthi, where
az, to-day	etthi khe, up to her
balka, to-morrow (morrow	etthi de, from here
porshu, the day after to	canthe hubbea, up
the day after that kal, yester-	hunda, down
day (terday porshut, the day	nere, near dur, far
before yes-cauthe, the day be-	aoka in front
fore that kabbhe, e-er, some-	pachka, behind
times ka..bhe na, never	pachka, behind
kabbhe kabbhe, sometimes	bihtre, inside bahre, outside

Others are—kanni khe or kiu, why? ia bata ri turi, for this reason; ha or aho, yes; hin, na, no; sulle, well; stabi, quickly.

PREPOSITIONS

The commonest prepositions have been given in the declension of nouns. Subjoined is a brief list of others. The same word is frequently both a preposition and an adverb. pore, parle kanare,

pore, parle kanare, beyond	teri turi, about thee
orle kanare, or this side	hamma jisha, like us
pande, pande, upon	tinna re kanare, towards them
hethe, below	tes de picche, after or behind it
turi, upto	tesre girde, round it
ma kae, beside me	tari barabbari khe, equal to you mande
ma sathi, with	mande sawa, apart from me,
tesri turi, for him,	

CONJUNCTIONS

e, and; par, but; je, if; cahe, although; ya or.

VERBS

Auxiliary

Pres.	I am, &c.	ossu osso osso ossu osso osso.
Pres. Past	I am not, &c. wal s	hinih athi, indecl. tha (f. thi) tha tha the the (f. thi) the the.

Intransitive Verbs.

rirna fall.

Fut. rir-ue -la (f. li)-la-ue or-me (f-mi)-le (f-li)-le

Imperat rir riro

Pres. rir-u -o-u -o.

Impf. Pres. with tha (f. thi) in Sing. and the (f. thi) in Plur.

Cond. I would fall or have fallne, rir -da (f-di) Sing;-de (f-di) Plur.

Past rira- (f-i) -a -a -e (f-i) -e -e.

Pulpf. rira-a tha; pl. rire the, &c.

Participles, &c., rirero, having fallen; rirde i or rirde i sar, on falling; rirada, f. riridi in the state of having fallen; Urdu, girdgira hua, rirde, rirde, while falling: rirnewala, faller or about to fall.

Some verbs have slight irregularities.

Fut.	oue	olla, &c.
Imperat.	0	0
Pres.	ou o o	ou o o
Cond.	onda.	
Participle	oero, onde, i, onewala, &c.	

Auna, cmoome.

Fut.	aue	aula, &c.
Imperat.	ao	ao
Pres.	au	ao, &c.
Cond.	aunda	
Past	aya, f. al pl. ae	
Participle	aero, aunde i, ayada (f. aidi, in the state of having come) annewala, &c.	

Jana, go.

Fut. Jaue, Jalla Jamme (f. jammi) &c.

Cond. janda; Past goa

Participle jaero, goada, &c.

Rauhna, or rauna

Fut. raue raula raue or raume, &c'

Pres. rou or rauu ro ro, &c.

Cond. raunda

Past roa

Participle roero, roada, &c.

Transitive Verbs.

tippa, beat, like rirna except in Past.

Past Agent case of subject with tippa which agrees with object pl. tippe, f. tippi.

Pulpf. Agent case of subject with tippa tha.

The passive is formed by using tippa with the required tense of jana, go: au tippa jaue, I shall be beaten. The passive, however, is rare.

The following are slightly irregular : —

khana, eat, Past khaya

pina, drink „ piya

dena, give, „ ditta

launa take, Fut. lue. Pres. lau lo, &c. Past toa

bolna, say, Past bolla, used with Agent case

karna, do Past kiya

janna, know past jana

anna, bring past ana

leauna, bring, and lejana, take away, are conjugated like auna, jana.

Compound Verbs

Habit, Continuance, State.

I am in the habit of falling, au rkra karu (compounded with karna, do).

I continue to fall, au rirda rau (compounded with rauna, remain).

I am in the act of falling au lag roa rirda (compounded with laggna, stick, rauna, remain).

The difference of cases in the Impf. and the Past is illustrated in the following :—

Se makhe tippo tha, he was beating me, but tenne au tippa, he beat me, lit. by him I was beaten. When a noun is the object, the case with khe is allowed with both forms of the verb.

When the participle of the form rakkhada, having been placed, is used instead of the past participle, the possessive case, and not the agent case, of the subject is used, e.g. tesre kitab rakkhidi osso ya nih athi, has he placed the book or not? Kosre olli rakkhidi, someone will have placed it, but kunie rakkhi olli, someone will have placed it, hamma dui jane ri kitaba rakkhidi osso , we two men have placed the books.

bapu—father
amma—mother
baya—brother
bobbo—sister
(older than person referred to)
baihan—sister-younger than person referred to)

Ab.	tihn-au (f-i) deau ihn-au (f-i)deau
Ag.	tihn-e , f-ie, ine, ihne f-ihnie.

Kiuthali has, like all neighbouring dialects, a feminine form for the oblique of the pronouns se and eh.

jo, who, obl. jos, ag. junie.

koi, anyone, someone, obl. kos, ag. kunie.

kah, what? obl. konni.

Other pronouns are kie, kuch, anything, something, jo koi, whosoever, jo kuch, whatsoever.

ADJECTIVES

Adjectives used as nouns are declined as nouns. but adjectives qualifying nouns have the following declension :—All adjectives ending in any letter other than -a are indecl. Those ending in -a have obl. -e, pl. -e indecl. Fem. -i or -i or -e indecl.

Comparison is expressed by means of da, than *from, used with the positive.* The adjective tsozzero, good, has a comp. form beh, tsozzero, good, esda beh, better than this, sobbi da tsozzero, better than all, best.

Demonostrative, ishu, like that or this; itn-o, -a, so much or many. Correlative, tishu, like that or this ; titn-o- a, so much or many. Interrogative, kishu, like what? Kitn-o, -a, how much or many? Relative, jishu, like which; jitn-o, -a, as much or many.

The genitive of nouns and pronouns is declined like adjectives in -a.

For numerals see list of words.

ADVERBS

Most adjectives can be used as adverbs. They then agree with the subject of the sentence.

The following is a list of the most important adverbs other than adjectives :—

Time	*Place*
ebi, now	itia, ethia, here
tes wakt, then.	tetia, poria, there
kodde, when?	ketia, where?
jodde, when	jetia, where
aj, to-day	etthe tai,fpto here
dote, to-morrow	ethiau, from here
poshue, day after to-morrow	ubha, up
tsauthe, cauthe, day after that	undha, down
hijo, yesterday.	ngure, near
phredzo, day before yesterday	dur, far
tsauthe, cauthe, day after that	hauka, in front
kobbe, ever, sometimes	pichauka, behind
kobbe na, never	withku, inside
kobbe kobbe, sometimes	baindku, outside.

Others are koe, why; etthri tei, for this reason; an, yes; nih, na, no; shiga, quickly.

PREPOSITIONS

The commonest prepositions have been given in the declension of nouns. Subjoined is a brief list of others. The same word is frequently both a preposition and as adverb.

pandku, beyond	tesri tai, for him
andku, on this side	teri tai, about thee.
pande, upon	hamo jeha, lidke us
mule, below	tina re kanare, towards them
bice, manj he within	tes pichauka, after or behind it
tai, up to	tesre ale duale, round about it
mae go khe, beside me	tumahre barabar, equal to you
mae sathi, with me	mandea bina, apart from me

VERBS

Auxiliary

Pres. I am &c., ossu or u, osse or ai, osso or o or o or u or a ossu or u, osso, oss

Prs. Negative, I am not, &c., nih anthi inded.
Past. I was, &c. Sing. thia or tha (f. thi) Plur. th or thie (f. thi)

Intransitive Verbs

rirnu fall.

Pres. Cond.	If I fall, &c., rir -u -e -e -u -o -o
Fut.	rir -a -ela -ola -ume -ole -le
Impr.	rir rira.
Pres. Ind.	rir -u -e -o -u -o -o
Impf.	The same with tha in Sing. and the in plur.
Past Cond.	I should fall, rir -da, f- -di, Plur. -de, f. -di.
Past Indic.	rir -a. f- -i, pl. -e, f. -i.
Pres. Perf.	rira, &c., with u ai a u ai ai
Pluff.	rira tha, f. riri thi, &c.
Participles	rireau, having fallen; rira hunda, in the state of having fallen, rirde, while falling; riruewala, fallen or about to fall.

Some verbs have slight irregularities.

ohnu, be or become

Fut.	oh-uma or -ua -ela -la me -le -le
Contd. Past	hunda.

annu, come.

Fut.	auma awela aola aume aole aole
Impr.	a a
Pres. Ind.	au
Past Contd.	aunda
Past.	aya

dennu, go

Fut.	deua
Impr.	de deau
Pres. Ind.	deu
Past Cond.	deunda
Past	deua

rauhnu, remain

Fut.	rauhuma rohela rauhla rauh-ume -le -le
Impr.	rauh rauh
Past Cond.	rauhnda
Past	roha
Fut.	jauma jela, jaolo, &c.
Past	goa

janu, go

Transitive Verbs

kutelnu, pitnu beat, almost exactly like jirnu.

Impr.	katil katelau.
Past.	katela, with agent case of subject, katela agreeing with the object.
Pres. Perf.	agent case with katela a f. nateli au, Pl. katele ai.
Plupg.	agent case with katela tha, &c.

The passive is formed by using the past participle katela with the required tense of janu, go; katela janu, be beaten. But it should be observed that the passive is not at all common.

The following are slightly irregular :—

khanu, eat, Past khaya
pinu, drink Past piyya
denu, give, Fut. deuma or dema. Past ditta
launa, take, Fut. jauma. Past loa
bolnu, Past bola with agent case.
kornu, Past keu

jannu, know, Past jang

leaunu, bring; laui janu, take away, are conjugated like aunu, janu.

Compound Verbs

Habit, Continuance

I am in the habit of falling, a rire koru (compounded with kornu, do).

He continues to fall, keeps on falling, se rirda roha lage hunda (compounded with rauhnu, remain, laggnu, stick, ohnu, be).

Notes on Verbs

deunu, go, denotes the act of going, janu is used in composition. As in Urdu and Hindi, the word 'go' enters very largely into the formation of compound verbs. In such cases janu, not deunu is used, katela janu, be beated; dewi janu, go away.

The Infinitive in —nu, when used as a gerundive, becomes an adjective in a in agreement with the object, mere rupayya nih dena, I have not to give a rupee; tesre cish pini, he has to drink water.

The Negative form of the auxiliary is noteworthy, a nih anthi, I am not; moe nih keu anthi ai, I have not done; toe nih ehru or ehra anthi, thou has not done.

Two constructions with the genitive case where we should expect the agent or abletive are remarkable.

(*i*) With the Infinitive mere bae re nih denu,o my brother has not to give, —in Panjabi-Urdu, mere bhai ne nehi dena; tesre cish pini, he has to drink water.

(*ii*) With a participle, mahre hih dendo, we cannot give,—ham se nehi diya jata; tere nih deundo anthi, thou canst not go; meri bauhne re kitab nih porhdi, my sister cannot read the book. These forms of the participle appear to be passive; this is confirmed by the variations which we meet with in the eastern portion of Kiuthal State; deundo there becomes dewido, dendo deido, porhdi porhidi.

If these are really passives we have a linguistic phenomenon of considerable importance. The organic passive is found to a slight extent in Panjabi and is fully developed in Laihnda.

The difference of case for the object in the Past and other tenses may be seen in the following examples; a janu tes (for teskhe) I know him, but moe jana se, I knew him, lit. by me he was known. When a noun is the object the case with khe is allowed with the past tense.

In the short form of the Present Auxiliary (I am, &c.) *consisting generally of a single vowel sound*, the vowel to be used seems to be chosen on euphonic principles, depending apparently rather upon the vowel or letter which happens to precede than upon the noun or pronoun which is the subject.

The ending of the infinitive is either —nu or nu indifferently. After r or r (or rh or rh) n is usually changed to n.

bao, fater.
iji, mother.
bae, brother.
beuhn, sister.
bagehr, son.
beti, daughter.
ihosm, husband.
cheori, wife.
thind, man.
cheori, woman.

EASTERN KIUNTHALI (Kiuthali)

Nouns are declined as in Kiuthali proper.

PRONOUS

The following slight differences are found :—

		Plur	Sing
	1st	2nd	3rd
N.	ae	tue	
G.		tuaro	f. teo ra
D.A.	ao khe, ao	tuo khe, tuo	
Ag.	ae	tue	tenne f. te

1st pers. pron. sing. has mu for ma.

kun, who ? Ag. kune.

Verbs are almost identically the same.

aunu, come, makes past ajja.

beshnu, sit, past besha.

pitnu, beat, pres. perft. pitu o or pita au.

khana, eat, past, khaya or kheu.

dena, give, past ditt or dittu.

dzopnu, say, speak, past, dzopu.

In the constructions with the gen. case given under Notes on Verbs on 0·16 for mahre nih dendo (Kiuthali), Eastern Kiuthali has mahre nih deido, for tere ninh deundo anthi, tere niho *dewido anthi, for meri bauhne re kitab nih pordhi peri bauhne re kitab nih porhibi* see s note, p. 16

The following Numerals are different :—

5—panj.	30—tish.
6—tshau.	37—saitish.
8—ath.	39—untallis
10—daush.	40—tsalish.
11—gero	49—uncas.
27—sataish.	50—pajas.
29—nottish.	

The sentences in which there is any difference are subjoined :—

3. Ethau Kashmira tai ketno duu au ? From here to Kashmir how far is it ?
4. Tere bao re gauhre ketne (or kan) tshote, au. In thy father's house how many sons are there ?
5. Adz a nare dure dau handuau ajja u. To-day I from very far have walked.
6. Mere tsatse ra tshoto tesri bauhne sathe beha honda a. My uncle's son is married to his sister.

Ag.	kuni	dzuni	kuniyai	dzuniyai

koi, anyone, someone; G. kosiu, Ag. kuni.

kai, what ? G. kiuwo.

Other persons are kich, anything, something, dzun kuni, whosoever; dzun kich whatsoever.

ADJECTIVES

Adjectives used as nouns are declined as nouns, but adjectives qualifying nouns have the following declensions :—

All adjectives ending in any letter other than -a, -o -au are indecl. Those ending in these letters have Obl. -e or -ai, Pl. -e indecl. f. -1 indecl. It should be remembered that the genitives of nouns and pronouns are adjectives coming under this rule.

Comparison is expressed by means of ka or thaka, used with the positive:—hatsau, good; eh thaka hatsau, better than this; sobhi ka hatsau, better than all, best.

Demonstrative	Correlative
aino, like this or that	taino, like this or that
etrau, so much or many	tetrau, so much or many
Interrogative	**Relative**
kaino, like what ?	dzaino, like which
ketrau, how much or many ?	jetrau, so much or many

ADVERBS

Most adjectives can be used as adverbs. When so used they agree with the subject of the sentence.

The following are the most important adverbs, other than adjectives :—

Time	Place
ebhi, now.	indhi, here.
tebhi, then.	tidhi, there.
kebhi, when ?	kidhi, kii, where ?
jebhi, when.	jiddhi, where.
az, to-day.	indha tai, up to here.
kalle, to-morrow.	indha le, higher.
porshe, day after to-morrow.	indha, from here.
cauthe, day after that.	hubhi, gash, up.
hidze, yesterday.	hundi, dawn.
phoroz, day before yesterday.	néddhi, near.
thanoroz day before that	dur, far.
kebhi, sometimes, ever.	agde, in front.
kebhi na, never.	patsha, behind.
kebhi na kebhi, some-	bitre, inside
	bahre, outside.

Others are kilai, why ; etthi tai, for this reason; hatse kore or hatse gidhi, well; shigre, rapidly; O yes; na, no.

PREPOSITIONS

The commonest prepositions have been given in the declensions of nouns subjoined is a brief list of others. The same words are frequently both prepositions and adverbs.

parsha, beyond.	teri tai, about thee.
arsha, on this side.	hama shi, like us.
mandzha, manljha, within.	tinau bile, towards them.
gae, upon.	tetthau phere, after that
tai, up to.	tetthau pher, round that.
mu kae, beside me.	uma barabari, equal to you.
mu songhe, with me.	tuma barabari, equal to
mu songhe, with me.	mu chadeau, apart from me.

CONJUCTIONS

a, or, and	etthi t i, because
por, but	jilar ki, although
dzai, if	jaino, as if.

VERBS

Auxiliary

Pres. I an, &c.	a or asa indec.
Pres. Negative	nehi ainthi, indec.
Past. Sing.	tau, f. ti, Pl. t i fa. ti.

INTRANSITIVE VERBS

lotnau. fall

Pres. Cond.	lot-u -a -a -i -a -a
Fut.	lot-mu ..a -a me -a -a u
Imperat.	lott lottau.
Pres. Ind.	Same as Pres. Cond.
Impf.	The same with tau (f. ti) in Sing. and tai (f. ti) in Plur.
Past Cond.	Sing. lot -dau, Pl. -dai, f-di.
Past Indc.	Sing. lot -au, Pl. -ai, f. -i
Plipf.	Same with tau, &c.
Participle	lotyo, having fallen; lotda (indec.) while falling. lotau aundau, in the state of having fallen; lotneala, faller or about to fall.

Some common verbs have slight irregularities.

aunau. auhnau, be, become (the h is generally ommitted).

Past Cond.	aunda, auhnadau.
Past	uhau (uau) f. uhi, c.

anau, come

Pres. Cond. or Indic.	au a a ai ao a
Fut.	amu, &c.
Imperat.	a ao or aau.
Past Cond.	anda .
Past	aa , Pl. ae, f. ai or ae.

deunau, go

Pres. Cond. or Indic.	deu dewa, &c.

ut.	demu
Imperat.	deo deo
Past Cond.	deundau
Past	deuau, Pl. deuai, f. deui.

rauhanu, remai

Past Cond.	rauhndau.

janau, go

Past Cond.	jandau.
Past Indic.	gau, f. gei, Pl. gee, f. gei.

TRANSITIVE VERBS

marnau, beat, conjugated almost exactly like lotnau.

Imperat.	mar, marau.
Past Indic.	mar -au, (Pl. -ai, f. -i), with agent case of subject, marau agreeing with object.
Plupf.	marau tau, with agent case of subject, marua tau a subject, marau tau agreeing with object.

The Passive is formed by using the past participle marau, with the required tense of janau, go; marau janau, to be beaten; but the use of the passive voice is rare.

The following are slightly irregular :—

dena , give, Past, dinau.

kornau, do Past, kiau.

jannau, know Past janau.

annau, bring, Past anau.

khanau, eat; pinau, drink; lainau, take; bolna , say; ninau, take away, are regular.

COMPOUND VERBS

continuance, State

In continue to fall, mu lotdu, rohu or rauhu, (compounded with rauhna rem in).

I am now in the act of falling, mu lotdau lago aundau, (compounded with laggna, stick, and aunau, be).

Notes on Verbs

janau, go is used only in composition, marau janau, be killed; deui janau, go away.

The Negative auxiliary is found as in other dialects in the Simla States and in Kulu.

A noteworthy construction with the possesive when we should expect an ablative is illustrated in the following :—

jau kitab teue nehi porhdi, he cannot read this book; mere nehi deundau, I cannot go. See note under Kiuthali.

bab, father	bakr-au, he goat.
i, mother.	-i, she goat.
bae, brother.	behr, sheep.

TABLE 5·8—SLATE QUARRIES—contd.

Range	Name of Slate Quarry	Name of villages which are served
Chopal	1. Thana dehat	Thana, Majhotli, Chopal,
	2. Chopal dehat	Bodhana.
	3. Shillikain dehat	Shillikain, Shantha, Bateori, Dewat.
	4. Tipra dehat	Tipra, Shri, Mashrown.
	5. Chharbotla C. No.	
	6. Pabas C No. 3	
	7. Pabas dehat	Pabas, Tiar.
	8. Shangroli C. 2	Shangroli, Mamu, Pujarli and Chohra.
	9. Rupari dehat	Rupari, Bamta, Churla, Bhabar and all over the Division.
	10. Ghurla dehat	Ghurla, Bhabar.
	11. Kashah dehat	Kasha, Khaprona and all over the Division.
	12. Kashah forest	Kashsha.
	13. Nar dehat	Nar village.
	14. Arua C. 2	Kiarnu, Dhacandli, Pauria
	15. Arua C. 2	Kiarnu, Dhoandli, Pauri and Poran, Ranwi.
	16. Thiara dehat	Thiara.
	17. Thiara forest	Thiara.
	18. Dhoandli dehat	Dhoarndli.
	19. Khillar dehat	Khillar, Mashrahn.
	20. Khillar forest	Khillar Mashrahn.
	21. Panach dehat	Pandiara (Pandrara).
	22. Kiarna dehat	Kiasna Sangog, Tharoch, Gotarhut Parit, Bharanu, Gotart, Puthari, Bharanu.
	23. Loi dehat	Kanda.
	24. Bagna dehat	Bagna.
	25. Tikker dehat	Mandhana Tikker lallon Raon.
	26. Chunjar C.I.	Khorachli, Nao, Ruslah, Kiri, Pujarli, Shawala.
	27. Shilla dehat	Shaila.
	28. Shanag dehat	Shanag.
	29. Rushla dehat	Ruslah.
	30. Khorach dehat	Kandrali, Shawala.
	31. Kansoli dehat	Kansoli.
	32. Chillana dehat	Chilana, Jalara, Mulshak.
	33. Bagha dehat	Matal, Bagha
	34. Ganari dehat	Ganari, Maraog, Gorli.
	35. Sangoli dehat	Nil
	36. Ghurtha dehat	Batara.
	37. Sundle dehat	Nil.
	38. Dhoratilti khad	No.
	39. Dhararan khad	No.
	40. Kharog dehat	Kharog, Lahashna.
	41. Pujarli dehat	Pujarli.
	42. Kujvi old quarry	Kujvi.
	43. Lohn dehat	Lohn, Kelvi.
Nerwa	44. Gauncha forest	Gauncha, Mandhochli Mundh, Ounglach, Minda, Dharara, Sudhana, Navi, Koti, Taprog, Chaunri, Darbar and iahu.
	44. (*a*) Namat dehat	Tikri, Hira, Paja, Pangool Fawla, Shantha.
	44. (*b*) Sharach forest	Mokna, Kua, Sharach and Gurar.
Kanda	45. Joalnu C. 3	Jawalnoo, Deya, Chalrana Ghalla.
	46. Bahinal C.I.	Dotali, Aunag and Cheend.
	47. Zizar slate quarry	Jubile, Annog, Dochhi, Kotli, Cheend, Bhallo, Juru, Shatal.
	48. Kelvi C. 2	Sanat, Kelviand, Khabrali.
Sarain	49. Kahu C. 4	Ghunsa, Bagna, Danda Seol, Thachli.
	50. Kahu dehat	Ghunsa, Bagana, Dandsar Soel, ialln.
	51. Chiuna C. 6	Manalog, Chiuna, Shawala Bhoot, Naura, Bhata Bikar Bijari, Lingiar.
	52. & 53 Kuhl 3 C.	Kuhal, Madhons, Banoti Mandoli Antrawali, Baraach.
	54. Sarain C. 5	Sarani, Sarkali, Kand, &
	55. Dhadder C. 1	Shawala Hanal, Khaddreo
	56. Dhadder 2	ijari, Jhokhar and,
	57. Dhadder 3	Antroli.
	58. Dhadder 10	
	59. Shallahan C. 4	Shallan, Teel, Kiari, Dokona & Demon.
	60. K go C. 2	Ki ri, K l ndliGh t, G rw and Jhawari.
	61. Khagna C. 2	Khagna, Shithona, Charach.
	62. Khagna Dehat	Bagar Khun, Sagrara, Thandna, Dharan and Dhar.

TABLE 5·8—STATE QUARRIES—contd.

	Name of Slate Quarry	Name of villages which are served
63	Nauranthalan C. 3	Khagna, Tikri, Burak, Nauran, Thanlandorgi.
64	Nauranthalan-7	
65	Nauranthalan-8	
66	Naoni C·2	Naoni, Jaog, Chamrog, Mandhrar and Barkoli.
67	Naoni C. 3	
68	Naoni Dehat	
69	Bhatrog dehat	Bhaila, Bhaldhar and Pulbaha Lehat and Jorna?
70	Lehat C. 3	
71	Lehat C. 4	
72	Sari C·2	Jaog, Thana, Lehat, Chaog, Shilli and Jorna.
73	Sari dehat	
74	Deothi C. 3	Deothi, Ruwar, Sharna, Chauvidhar and Mandrar
75	Deothi dehat	
76	Delmun dehat	Dilmu, Bhuni, Karati, Thunal, Bhabnol, Kaklari, Shelonth, Shara, Barshal, Brads & Kiog.
	Jhina dehat	Jhina, Tuel, Shapra and Kathiana.
78	Ghialth dehat	Ghialath, Kathiana, Phalona & Jabna.
79	Jabna C. 1	Jabna.
80	Deondar dehat	Thalog, Gagna and Lagonth.
81	Shilla badloog dehat	Badlaog, Chiuna, Shapra & Kot.

TABLE 14·8—OFFENCES COMMITTED AGAINST WILD ANIMALS AND BIRDS FROM 1951-52 TO 1961-62

Year 1	No. of offences committed and punished under the law 2	Name of Act providing for protection of wild animals and birds 3
1951-52	..	Indian Forest Act, 1927 for (Reserved and Protected Forests) and in Punjab Wild Birds and Wild Animals Protection Act II of 1933 for (Dchat Forests).
1952-53	..	
1953-54	..	
1954-55	..	
1955-56	..	
1956-57	..	
1957-58	22 Poachers	
1958-59	68 Poachers	
1959-60	13 Poachers	
1960-61	72 Poachers	

TABLE 15·1—CALENDAR OF IMPORTANT EVENTS

Serial No.	Name of Events	Year
1	Opening of Solan Brewery	1855
2	Opening of Charot Water Pumping Station	1882
3	Construction of Tattapani Bridge	1890
4	Famine	1900
5	Construction of Kalka Solon Railway Line	1905
6	Famous Earthquake of Kangra	1905
7	Construction of Power House Chaba	1910
8	Opening of Kalka-Simla Railway Line	1912
9	First World War	1914
10	Electrification of Solon Town	1934
11	Second World War	1939
12	Dhami Firing incident	1939
13	Opening of Hindustan Tibet (Simla to Narkanda) Motor Road	1943
14	Heavy Snow Fall	1945
15	Indepndence of India	1947
16	Formation of Himachal Pradesh	1948
17	Opening of Himachal Pradesh Hospital Snowdon, Simla	1951
18	First General Elections	1951
19	Construction of Simla-Mandi Motor Road	1952
20	Inauguration of Panchayats	1953
21	Visit of Pandit Jawahar Lal Nehru, Prime Minister of India to Khadrala	1954
22	Opening of Narkanda-Rampur Motor Road	1955
23	Opening of Telephone Exchange Narkanda	1955
24	Holding of All India Youth Camp at Theog	1958
25	Electrification of Theog	1957
26	Opening of Simla Seoni Motor Road	1956
27	Opening of Industrial Estate, Solon	1957
28	Visit of Dr. Rajinder Prashad, First President of India	1959
29	Opening of Degree College at Solon & Rampur	1959
30	Electrification of Kasumpti	1960
31	Opening of Rope Way Bridge over Sutlej at Seoni	1961

TABLE 17·7—RAW MATERIAL USEABLE FOR INDUSTRIES, CULTIVATED OR GROWING OF ITSELF (GROWING WILD)

Name of raw material cultivated or growing of itself (growing wild)	Name of village and tehsil where available	Remarks
1	2	3
Picea Smithiana & Abies Pindrow . .	In all ranges in Pabar Valley Division, *Viz.*, Kumharsain, Nogli, L. Pabar and upper Pabar	For packing cases and paper pulp.
Cupressus torulosa	Do.	For pencil manufacture.
Taxus Baccata	Do.	For tanning in leather industry.
Cedrus Deodasa	Do.	For deodar oil.
Pinus longifolia	Kumharsain Range, Sub-Tehsil Kumharsain and Nogli Range Tehsil Rampur.	For resin and turpentine industry.
Buxus sempervirens, fraxinus, floribunda, Juglans regia.	In all Ranges in Pabar Valley Division, *Viz.*, Kumharsain, Nogli, L. Pabbar and U. Pabbar.	For furniture and cabinet industry.
Cotoneaster bacillaris and Olea cuspidata	Do.	For manufacture of battons and walking sticks.
Walnut timber	Grows in Chaupal and Jubbal Teshils	Can be used for wood carving and fine works.
Maple timber	Do.	Can be used for rifle half wroughts.
Birdcherry timber	Do.	Do.
Resin	Do.	For resin and turpentine.
Chil, Kail, Deodrar, Spruce and Fir .	Do.	For constructional purposes and cheap furniture.
Kail and Deodar	Do.	Battery separators.
Abils pindrow	Wild growing within 8,000′ to 10,000′ .	Building timber and packing cases.
Acer Pictum	Do.	Used for manufacture of rifles butts.
Acacia catechu	Wild round within 1,200′ to 3,000′ .	Used in katha manufacture.
Adhatoda vasica	Found within 1,500′ to 2,000′ . .	Charcoal can be used for manufacture of gun powder.
Bauhinia vahlii	Found within 1,500′ to 2,500′ . .	Bark used in rope making.
Betula alnoides	Found within 8,000′ to 10,000′ . .	Bark used as paper.
Salmalia malavaricum	Found within 1,200′ to 3,000′ . .	Used in match manufacturing.
Carissa spinarum	Found within 1,500′ to 3,000′ . .	Used in manufacture of haircombs.
Corylus colurna	Found within 8,000′ to 10,000′ . .	Used in rifle butts.
Picea morinda	Found within 6,000′ to 8,000′ . .	Used as timber.
Prunnus Padus	Found within 5,000′ to 7,000′ . .	Used for manufacturing rifle butts.
Salix balylenica	Found within 1,500′ to 2,000′ . .	Used for manufacturing rifle butts and sports goods.
Rhuscotinus	Found within 3,000′ to 6,000′ . .	Leaves and bark used for tanning.
Euonymus tingens	Found within 6,000′ to 10,000′ . .	Bark yield yellow dye.
Juglans regia	Found within 5,000′ to 11,000′ . .	Rifle butts and furniture.
Anegeissus latfolia (Chhal) trees grew in forests.	Tehsil Solon	Leaves can be used for tanning leather.
Pinus roxburghii (Chil) trees grew in forests.	Solon, Arki and Kasumpti Tehsils .	Wood can be used for paper and pulp.
Dendrocalamus strictus (Bamboos) .	Tehsil Solon	Suitable raw material for paper and pulp.

TABLE 17·8—MEDICINAL HERBS AND PLANTS CULTIVATED AND GROWING OR ITSELF (GROWING WILD).

Name of medicinal herbs and plants 1	Name of village and tehsil where cultivated or growing wild 2	Remarks 3
Aconitum chasmanthum	Changsil Tehsil Rohru	
A. Ferax	Do.	
A. Heterophyllum	Narkanda, Tehsil Kumharsain.	
Adhatoda vasica	Low Valley in Kumharsain Tehsil.	
Artemisia breviflia	Rohru and Kumharsain Tehsils.	
Atropa acuminata	Do.	
Berberis Aristata	Throughout the Division	
Datira innexia	Throughout the Division and low elevation.	
Gentiana Kurroo	Mural Kanda, Changsil. Dhar, Dodra Kawar, Tehsil Rohru and Kasba Pat, Tehsil Rampur.	
Juniperus Communis Linn	Do.	
Juniperus Macropoda	Do.	
Picrorhiza Kurroa	Do.	
Podophyllum hexandrua	Dodra Kawar, Tehsil Rohru and Khadrala, Tehsil Rohru.	
Geum emodi	Do.	
Taraxacum officinale	All over the Division	
Violaodelata	Do.	
Valeriana wallichii	Do.	
Vitex negundo	Do.	
Acconitum heterophyllum	Not cultivated. Grows wild in Jubbal and Chaupal Tehsils at higher elevations.	Found between 7,000′ to 9,000′. Local people have a right to its collection exploitation uneconomical due to scanty occurrence.
Podophyllum emodi	Not cultivated. Grows wild in Jubbal and Chaupal Tehsils.	Do.
Atropa acuminata	Do.	Do.
Digitalis lanata	Yet in nursery stage in Chaupal Tehsil.	
Pyrethrum cineravifolium	Only in nurseries in Jubbal and Chaupal Tehsils.	
Dioscorea deltoidea	Grows wild in Chaupal and Jubbal Tehsils.	Scanty distribution.
Atremisia vulgaris.	Growing wild within 2,000′ to 3,000′ altitude.	Used in medicines.
Berbris artistata	Growing wild within 3,000′ to 5,000′ altitude.	Roots used for eye medicines.
Berbrus lycium	Growing wild within 4,000′ to 6,000′ altitude.	Do.
Holarrhena antidysenterica	Growing wild within 1,500′ to 2,500′ altitude.	Medicinal plant.
Emblica officinalis.	Growing wild within 1,500′ to 3,000′ altitude.	Medicinal fruit.
Rosa moschata	Growing within 4,000′ to 7,000′ wild altitude.	Medicinal plant.
Terminaliabelerica	Grawing wild within 1,500′ to 2,500′ altitude.	Medicinal fruit.
Pueraria tuberosa	Growing wild up to 3,000′	Tubers used as medicine.
Polygonatum verticillatum	Growing wild up to 9,000′	Medicinal plant.
Polygonum Chinese	Growing wild up to 9,000′	Do.
Thymus Serphyllum	Growing wild up to 7,000′	Do.
Crorhiza Kuroo	Growing wild up to 9,000′	Roots used as medicines.
Swertia Chirata	Growing wild up to 10,000′	Flowers used as medicines.
Valeriana Wallichii	Growing wild up to 6,000′	Medicinal plant.
Voila Serpens	Growing wild up to 8,000′	Flowers and plant used as medicines.
Podophyllum emodi	Growing wild up to 7,000′	Medicinal plant.
Folia digitalis	Growing wild up to 3,000′	Do.
Dioscorea deltoidea	Growing wild up to 5,000′	Do.
Taxus bacoata	Growing wild up to 7,000′	Leaves used as medicine.
Jatropha curcas	Growing wild up to 3,000′	Seed yield oil which is violently purgative

PART IV
VILLAGE DIRECTORY

EXPLANATORY NOTE TO VILLAGE DIRECTORY

The Village Directory renders an account of each village and town in the district. It gives the location code number, name of each village, area in acres, number of occupied residential houses, number of households, total population and its break up by sex, literacy, scheduled castes, scheduled tribes, workers and non-workers. The figures of workers are further split up by sex and by a broad classification of industrial activity in nine categories.

2. In the village directory, the villages are presented tehsilwise. The villages have been arranged in the ascending order of their location code numbers. These code numbers had been assigned to them for organizing 1961 Census work and follow a regular hadbast number. An alphabetical list of villages will be found facing each tehsil. It shows the code and hadbast number of each village. This will facilitate location of any village in the village directory as well as on the spot.

3. A village having no population of Forest villages have been shown with the words "uninhabited" against them.

4. Survey of India maps, previous Census Handbooks and many other official sources have been taken into consideration to secure accurate coverage and to get the correct spellings of village names.

5. In Himachal Pradesh urban areas or towns are places which either have a Municipality or Small Town Committee or Notified Area Committee. Census figures for all these towns are presented town-wise after the completion of rural portion.

6. The village figures have extracted directly from Census records. The figures prensented in the village directory tally with the tehsil and district Census tables perfectly.

7. Information contained in column (2) immediately after the village name is based on the information supplied by the various departments concerned. The symbols indicate the general pattern of distribution of some basic amenities within village or town. There were more useful items of information on the villages which could not be presented in the village directory for want of space. The only important symbols have been shown in the village directory.

8. The area figures in column (3) have been obtained from the Director of Land Records.

9. In column (4) of the village directory, the occupied houses include houses used as dwellings or partly as dwellings and partly for some other purposes e. g. shop-cum-dwellings.

10. Columns (9 to 12) of the village directory present, for the first time, village-wise figures of population of Scheduled Castes and Scheduled Tribes.

11. For columns (13) and (14) a "literate" is a person who knows both reading and writing.

12. The villagewise figures for industries have been presented in a separate table showing their industrial code number and number of units in brackets. A list of Co-operative Societies, tables showing famous temples or places of religious importance and fairs and festivals have been given at the end of this directory.

ABBREVIATIONS AND SYMBOLS USED

A. *In Column Headings* :

SC	For Scheduled Castes.
ST	For Scheduled Tribes.
M	For Males.
F	For Females.
I	Working as Cultivator.
II	Working as Agricultural Labourer.
III	Working in Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV	Working at Household Industry.
V	Working in Manufacturing other than Household Industry.
VI	Working in Constructions.
VII	Working in Trade and Commerce.
VIII	Working in Transport, Storage and Communications.
IX	Working in Other Services.

B. *In Notations* :

P	For Primary School.
M	For Middle School.
H	For High School.
C	For Higher Institutions including Colleges.
L	For Library.
W	For place of worship
Pm	For place of ancient monuments.
T	For Technical Institutions.
D	For Dispensaries.
Hos	For Hospitals.
Rhc	For Rural Health Centres.
Phc	For Primary Health Centres.
Mcw	For Maternity Child Welfare Centre.
Po	For Post Office.
To	For Telegraph Office.
Rh	For Rest Houses.
R	For connected by Road.
Rly	For connected by Railway.
S	For safe or protected water supply including pipes, tube wells, etc.
Ei	For Electricity in Industrial use.
Ed	For Electricity in Domestic use.
E	For Electricity.

INDUSTRIAL CLASSIFICATION

Minor Group (Code)	Description
200.	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains.
205.	Production of bread, biscuits, cake and other bakery products.
207.	Production of edible fats and oils (other than hydrogenated oil).
201.	Production of distilled spirits, wines & liquor from alcoholic malts fruits and malts in distillery and brewery.
214.	Production of aerated and mineral water.
230.	Cotton ginning, cleaning, pressing and baling.
236.	Manufacturing of khadi textile in handlooms.
244.	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta.
255.	Wool weaving in handloom.
270.	Manufacture of carpet and all other similar type of textile products.
271.	Manufacture of hosiery and other knitted fabrics and garments.
273.	Making of textile garments including raincoats and headgear.
279.	Processing and manufacture of textile products not covered above.
280.	Sawing and plaining of wood.
281.	Manufacture of wooden furniture and fixtures.
282.	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, and windows.
284.	Manufacture of other wooden products such as utensils, toys, artwares.
287	Manufacture of boxes and packing cases other than plywood.
288.	Manufacture of materials from cork, bamboo, cane, leaves and other allied products.
302.	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry.
311.	Manufacture of shoes and other leather foot wear.
314.	Repair of shoes and other leather footwear.
335.	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparation except soap.
336.	Manufacture of soap and other washing and cleaning compounds.
337.	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber).
350.	Manufacture of earthenware and earthen pottery.
362.	Manufacture of armaments.
365.	Manufacture of brass and bell metal products.
368.	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products.
369.	Manufacture of sundry hardwares such as G. I. pipe, wire, net, bolt, screw, bucket, cultery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannont be classified in major groups 36,37,38 and 39).
372.	Manufacture of machine tools.
378.	Manufacture of electronic equipment such as radio, microphone.
384.	Repairing and servicing of motor vehicles.
388.	Repairing of bicycles and tricycles.
389.	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles.
391.	Manufacture of scientific, medical and surgical instruments and equipment and supplies.
392.	Assembling and repairing of watches and clocks.
393.	Manufacture of jewellery, silverware and wares using gold and other precious metals.
399.	Manufacture and repair work of goods not assignable to any other group.
